Degree Programs

The Department of International Studies offers interdisciplinary social science programs leading to the Ph.D. and MA degrees. Ph.D. and MA programs offer advanced students the opportunity to study issues such as globalization, democratic governance, comparative and international political economy, post-Cold War conflicts and security threats, and new forms of civil society mobilization in world politics. To organize the study of these debates in the social sciences, the Department offers three fields of specialization:

- **International Relations**: international relations theory; globalization; social movements beyond the nation-state; security studies; peace and conflict studies; international law and organization; international political economy; foreign policy analysis, global public health, and related fields.

- **Comparative Politics**: theory and methods of comparative analysis; authoritarian and democratic political regimes; democratic governance and citizenship, comparative political economy; contentious politics and social movements; civil-military relations; and appropriate courses on selected regions, such as the European Union, Latin America, or the Post-Soviet countries.

- **International and Comparative Political Economy**: the politics and institutions regulating the global trade, investment, and financial regimes; comparative international development; the politics and economics of international environmental regimes; democracy, partisan politics, and global governance, the domestic and international distributive impacts of globalization; and international economic theory.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 611. International Relations Methodology II. 3 Credit Hours.
Introduces graduate students to issues of research design and research methods in International Relations. The course will focus on three main methodological approaches in political science: qualitative case study, quantitative research and formal modeling. Apart from examining the principles guiding the choice of methods (and the trade offs involved in that choice), the course will examine how these methods have been applied to the study of three major sub-fields of international relations: international political economy, security studies, and international environmental regimes. It also aims to provide the students with basic knowledge on how to apply these methods to their own research.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 612. Graduate Seminar in Qualitative Research Methods. 3 Credit Hours.
The main goal of this seminar is to enable students to become proficient in qualitative research methods. The seminar covers specific research methods and techniques, their relevance and limitations, their relationships with philosophical perspectives, epistemological and methodological debates, and ethical and practical considerations involved in qualitative research. Ethnographic methods, the use of social network analysis in qualitative research, the logics of inquiry in case study methods, grounded theory, and types of discourse and contents analysis, are amongst the topics covered. This is a hands-on graduate seminar in which the students are encouraged to think creatively on which method(s) could make their research of complex political, social, and cultural phenomena more rigorous and sophisticated by applying methods and techniques learned in class.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

Grading: GRD.
Typically Offered: Fall & Spring.

INS 658. Religion, Culture, and Civilizations in International Relations. 3 Credit Hours.
International Relations (IR) theories have traditionally neglected ideational factors such as identity, religion, and culture: unlike states, they were "non-territorial", the religions also "premodern" and not fitting into the IR positivist theories. After Samuel Huntington's Clash of Civilization (1993, 1996) and 9/11 terrorist attacks the academic interest in these topics has grown exponentially. The main world universities offer academic courses studying themes such as religious fundamentalism, the role of religious actors in the international conflict, the role of religion and culture in promoting peace, development, humanitarian crises (poverty, disease control, refugee issue from war-torn states, etc.). There are many non-government organizations established to promote inter-faith dialogue and particularly education, including the United Nations Alliance of Civilizations (UNAOC). This course attempts to correct the "missing dimension" from the study of IR also at this university.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
INS 659. IR in a Constructed World. 3 Credit Hours.
The collapse of the Soviet Union, the end of the Cold war and the end of world bipolarity left wanting the main International Relations (IR) perspectives. The course will examine these epochal changes to show that unlike traditional assumptions IR are not inevitable consequences of human nature or other essential, material characteristics such as structure as the primary independent variable. Responding to these changes constructivism, the newest IR approach regards states as actors and agents, existing within a world of their "own making." IR are social rather than material, not given by nature and material factors and hence, capable of being transformed by human practice. There are many forms of constructivism, some compatible with positivism and rationalism of the mainstream IR approaches, others more radical in their critique of IR discipline. Forms of constructivism differ in how they see the relationship between actors and structures, the mechanism of how the world is "constructed" (e.g., ideas, norms, language). Constructivism opens new research avenues.

**Components:** LEC.

Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.

Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

INS 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in INS 710 (usually six credits). Credit not granted. May be regarded as full time residence.

Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 825. Continuous Registration--Master's Study. 1 Credit Hour.
To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.

Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 830. Doctoral Dissertation. 1-12 Credit Hours.
A total of 12 hours of INS 730 is required of all candidates for the Ph.D. Not more than 12 dissertation credits may be taken during the Fall or Spring semesters, nor more than six in a summer session.

Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

INS 840. Post-candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of INS 740 may be taken in a regular semester, nor more than six in a summer session.

Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

INS 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.

Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.
