

MD/MBA

MD/MBA

The University of Miami Business School offers a joint MD/MBA degree program in partnership with the University's Miller School of Medicine (<http://www.med.miami.edu>). The business curriculum prepares future physicians for the business complexities related to running a private medical practice or heading a group practice, and prepares medical students for careers in health sector management, leadership, and policy.

The MD/MBA program adds an additional year to the four-year medical school curriculum. The MBA coursework ranges from financial reporting and corporate strategy to the legal aspects of health administration.

MD students are eligible to apply to the MD/MBA program during their 3rd year of Medical School and will be required to submit a Full-Time MBA online application and the GMAT (<http://www.mba.com>) to be considered for the program.

To obtain detailed program admission information, please reference the program brochure which can be requested by contacting the Office of Recruiting and Admissions at 305-284-2510 or visit our website (<http://bus.miami.edu/graduate-programs/full-time-mba/md-mba>).
