SPECIALIZED MASTER DEGREES

Specialized Master Degrees
The School of Business offers a premier catalog of master’s degree programs geared toward specific career paths. Each of these full-time programs can be completed in less than one year. Students will focus on in-depth business analysis, delve into research in economics, as well as enhance their proficiency in topics like accounting, finance, and organizational leadership. A new skill-set in a specialized area will make students more valuable to their organizations and more competitive in the marketplace.
