GENERAL UNIVERSITY INFORMATION

A private, independent, international university

An equal opportunity/affirmative action employer

An announcement with information on administration, organization, admission and graduation requirements, and the courses of instruction in:

Undergraduate and Graduate Studies, 2016-2017

It is the policy of the University of Miami that no person within the jurisdiction thereof shall, on the basis of race, religion, color, sex, age, disability, sexual orientation, gender identity or expression, veterans status, or national origin, be excluded from, participation in, be denied the benefits of, or be subjected to discrimination or harassment (including all forms of sexual harassment and sexual violence) under any program or activity of the University, regardless of whether such program or activity occurs on-campus or off-campus. The University does not intend by this commitment to require compliance with this policy by governmental or external organizations that associate with but are not controlled by the University, except as required by law. The Executive Director of Workplace Equity and Performance is responsible for coordinating the University’s effort to implement the nondiscrimination policy and Affirmative Action Programs for employees and students. The Executive Director may be contacted at the following address or telephone number:

Workplace Equity and Performance Office
Gables One Tower, Suite 100R
1320 S. Dixie Highway
Coral Gables, FL 33146
305-284-3064

More information regarding the student sexual harassment/violence policy may be found online in the Student Rights and Responsibilities Handbook (http://www.miami.edu/SRR). For available resources and services contact the Dean of Students Office (http://www.miami.edu/sa/index.php/dean_of_students), Phone: 305-284-5353; the Counseling Center (http://www.miami.edu/sa/index.php/counseling_center), Phone: 305-284-5511; and/or the Sexual Assault Response Team (http://www.miami.edu/sa/index.php/counseling_center/current_students/special_programs/sexual_assault_response_team_sart) (S.A.R.T.).

The University of Miami is authorized under Federal law to enroll non-immigrant alien students.

The University reserves the right to change any provision or requirement, including, but not limited to fees and tuition, at any time without notice. Degrees, courses, programs, activities, and like academic or non-academic offerings of the University may also be changed from time to time without notice. The University further reserves the right to require a student to withdraw at any time under University policies, as may be promulgated from time to time. Further, admission of a student to the University of Miami for any semester does not imply that such student will be enrolled in any succeeding academic semesters. It also reserves the right to impose sanctions on any student whose conduct is unsatisfactory. Any admission on the basis of false statements or documents is void when the misconduct is discovered, and the student is not entitled to any credit hour for work which the student may have done at the University prior to any discipline that may be taken as a result of such misconduct. When a student is dismissed or suspended from the University for cause, there will be no refund of tuition or fees paid. If a dismissed student has paid only a part of his tuition and fees, the balance due the University will be considered a receivable and will be collected.

There will be no refund of tuition, fees, charges or any other payments made to the University in the event the operation of the University is suspended at any time as a result of any act of God, strike, riot, disruption, or for any other reason beyond the control of the University.

The University of Miami is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor’s, master’s, specialist, and doctoral degrees. Contact the Commission on Colleges at:

1866 Southern Lane
Decatur, Georgia 30033-4097
or call 404-679-4500 for questions about the accreditation of the University of Miami.

Mission Statement

The University of Miami’s mission is to educate and nurture students, to create knowledge, and to provide service to our community and beyond. Committed to excellence and proud of the diversity of our University family, we strive to develop future leaders of our nation and the world.

Core Values

We are absolutely committed to freedom of inquiry—the freedom to think, to question, to criticize, and to dissent. We will pursue the value of excellence in our research and educational missions with the single-mindedness that only great commitments deserve. We will provide our students with the foundations for ethical citizenship and service to others, a respect for differences among people, and a commitment to high standards of thought and communication. We also will prepare them for rewarding lifelong careers and will imbue in them a continued and permanent desire for the study of knowledge and the search for truth.

Undergraduate Academic Procedures and Information

While the University makes every effort to provide academic counseling to its students, its basic policy places the responsibility for planning an academic program upon the student.

The University of Miami relies on electronic means (email and CaneLink accounts) for correspondence with students. Students are required to maintain a working email address and are expected to update their personal biographical information annually via their CaneLink account. Students who fail to maintain a working email account may not receive critical university information.

Students are expected to familiarize themselves with the requirements of:

• the University,
• the schools in which they are enrolled, and
• their major department.
Requirements refer to those stated in the Bulletin at the time of admission to degree status, unless a student has not been continuously enrolled. In such cases, the Bulletin in effect at the time of re-admission is the one to be used. Under special circumstances, a student may appeal the bulletin decision. In such cases, the determination of the Bulletin in effect is made by the readmitting School or College.

Academic core requirements will not be waived for students under any circumstances.

The work of each student is under the supervision of an academic Dean and of the appropriate Scholarship Committee. A student who fails to maintain an adequate academic record may be dismissed from the University.

Admission of a student to the University of Miami for any semester does not imply that such student will be re-enrolled in any succeeding academic semesters. If a student whose record is unsatisfactory is for some reason permitted to continue in attendance, the appropriate scholarship committee or Dean may specify the standard that must be attained, and any other conditions to be met.

A student who graduates and plans to enter a graduate school or professional school at the University of Miami must apply for admission to the appropriate school of the University in accordance with application deadlines of respective schools.

Not all the regulations and procedures described below pertain to the Graduate School, the Law School, and the School of Medicine. The specific regulations of these schools are stated in their respective Bulletins.

Course Information

Academic Calendar
The University of Miami adheres to a reasonable approximation of the Carnegie unit for contact time. In addition, students are expected to spend two hours outside of class in preparation for each classroom hour. The Academic Calendar (http://www.miami.edu/index.php/registrar/calendar) is maintained by the University Registrar and is the official record of academic instruction.

The standard meeting times for three-credit hour courses are as follows:

- 50-minute, Monday-Wednesday-Friday schedule;
- 75-minute, Tuesday-Thursday schedule.

The calendar is planned to ensure 69 class days (41 Monday-Wednesday-Friday meeting days and 28 Tuesday-Thursday meeting days) and at least five days for final examinations. The policy allows a mandatory examination period to be counted in the minutes of instruction, but does not count reading days. The University has a required two-and-a-half-hour final examination policy that adds 150 minutes of instruction, resulting in a minimum of 2,200 minutes of classroom instruction in a three-credit hour course for all undergraduate and graduate terms in the Academic Calendar.

The calculation for summer sessions and other abbreviated terms follows this same standard which means longer class meeting times over the duration of the shortened term.

School of Business Administration
In the School of Business Administration, graduate programs include terms of varying length. The School follows federal and SACS guidelines for the credit hour. All graduate business programs have a minimum of 750 minutes of instructional contact time per credit hour, including the final examination. Students are expected to dedicate at least two hours of course-related work for each hour of instruction.

School of Law
The School of Law is accredited by the American Bar Association and follows federal and SACS guidelines for the credit hour. Ordinarily, full-time students must enroll for a minimum of 11 credit hours and a maximum of 16 credit hours (please consult the Student Handbook and Honor Code). For one credit hour, a student receives 700 minutes of instruction, exclusive of examination time. For a three-credit hour course, this equates to 2,100 minutes of classroom instruction. An additional 180 minutes of instruction is allotted for the final exam session in a three-credit hour course. The faculty expects students to spend at least two hours outside the classroom in preparation for each hour of instruction.

Miller School of Medicine
The Miller School of Medicine is accredited by the Liaison Committee on Medical Education (LCME). The School’s Department of Physical Therapy is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE). The length of all educational programs is appropriate for each degree, based on national standards and accreditation criteria. The School follows federal and SACS guidelines for the credit hour. Completion of the M.D. program ordinarily takes four years. Although credit hours are not specified by the LCME, the medical education program leading to the M.D. must include at least 130 weeks of instruction.

Academic Credit
The University of Miami adopted the following Federal Definition of the Credit Hour at the Faculty Senate meeting on April 17, 2013 that appears in the Credit Hours policy statement of the Southern Association of Colleges and Schools Commission on Colleges (SACS), Federal Requirement 4.9:

Federal Definition of the Credit Hour
For purposes of the application of this policy and in accord with federal regulations, a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:

1. Not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester or trimester credit hour, or ten to twelve weeks for one quarter credit hour, or the equivalent amount of work over a different amount of time, or
2. At least an equivalent amount of work as outlined in item 1 above for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

Application of Credit Hour Policy
This credit hour policy applies to all undergraduate and graduate programs that award academic credit (i.e., any course that appears on an official transcript issued by the University) regardless of the delivery method including, but not limited to, self-paced, online, hybrid, lecture,
seminar, and laboratory. Academic units are responsible for ensuring that credit hours are awarded only for work that meets the requirements outlined in this policy.

The expectation of contact time inside the classroom and student effort outside the classroom is the same in all formats of a course whether it be online, a hybrid of face-to-face contact with some content delivered electronically, or one delivered in lecture or seminar format. The University operates on the semester system and, for its measure of academic course work, uses academic credits (referred to as semester credits, semester hours, credit hours, hours, or credits).

Courses that have less structured classroom schedules, such as research seminars, independent studies, internships, practica, studio work, or any other academic work leading to the award of credit hours, at a minimum, should state clearly learning objectives and expected outcomes and workload expectations that meet the standards set forth above.

Two or three laboratory hours each week throughout a semester are considered the equivalent of one lecture hour in counting credit hours earned in an undergraduate laboratory or studio course.

No grades or credit hours are given for audited courses.

Campus Processes - Curriculum Review
Each College or School within the University of Miami is charged with following the policy on credit hours in its review and approval of all undergraduate and graduate courses and for certifying that the expected student learning for the course meets the credit hour standard. The determination of credit hours is made when a new course or a revision to an existing course is proposed. The submitted syllabus is examined for contact time as well as for assignments and evaluation mechanisms.

The Office of the University Registrar requires training for class scheduling before granting access to any departmental staff approved by a department for scheduling classes.

Cancellation of Courses
Students who select courses and fail to make payment and/or financial arrangements with the Office of Student Account Services (OSAS) prior to the payment deadline will have their course schedules canceled. Reinstatement of classes can only occur after payment arrangements with the Office of Student Account Services (OSAS) prior to the payment deadline will have their course schedules canceled. Reinstatement of classes can only occur after payment arrangements with the Office of Student Account Services (OSAS) prior to the payment deadline will have their course schedules canceled. Reinstatement to cancelled classes will be on an “as available” basis after financial arrangements have been completed.

Change or Drop of Course

- Course changes after the completion of registration must be approved by the student’s academic dean.
- Dropping of any course for which the student has registered is official only when the drop has been fully processed by the student successfully dropping the course via CaneLink or by the Office of the Registrar.
- **Please note:** Failure to attend classes or merely giving notice to instructors of one’s absence will not be considered as an official withdrawal and may result in failure in the course.
- The last day to drop a course or make a change in credit-only option is noted on the Academic Calendar (http://www.miami.edu/index.php/registrar/calendar).
- Students enrolled in a course after the withdrawal date must receive a final grade in the course.

Class Attendance and Absences
Regular and punctual class attendance is vital for all students. Instructors will distribute course syllabi which include policies regarding class attendance and missed or late work. Any student may be dropped from a course or receive a lowered grade for unauthorized absences in excess of those permitted by the instructor. It is each student’s responsibility to know and understand the instructor’s policies. It is also the student’s responsibility to give the instructor notice one week prior to any anticipated absence and to contact the instructor within one week after any unanticipated absence.

All students are responsible for material covered during their absence. However, the instructor must allow each student who is absent for a University-approved reason either the opportunity to make up, or to be excused from, work missed, without any reduction in the student’s final course grade as a direct result of such absence.

Other than absences for a University-approved reason, the instructor determines whether or not an absence is for an acceptable reason and whether or not students shall have the opportunity to make up missed work. If the instructor does not recognize the reason as acceptable, the student may appeal to the chair of the department in which the course is offered.

The following constitute University-approved reasons for absences:

1. Participation in an activity approved by the Academic Deans Policy Council, such as musical and debate activity, R.O.T.C. function, or varsity athletic trip; participation in a special academic activity such as a field trip or other special event connected with academic coursework. Verification of a student’s participation shall be issued by the sponsor when authorized by the Office of the Executive Vice President and Provost.
2. Observance of a religious holy day as described in the Religious Holy Day Policy, below:

Religious Holy Day Policy
The University of Miami, although a secular institution, is determined to accommodate those students who wish to observe religious holy days. It seeks to reflect its awareness of and sensitivity to religious holy days whenever possible when scheduling University activities. The following provisions are meant to apply equitably to all religious groups and to provide opportunities to all to meet their religious obligations.

1. Except as specifically provided to the contrary, this policy is binding on all students in undergraduate programs. Schools offering graduate or professional programs, including undergraduate professional programs, are strongly encouraged to adhere to these policies to the maximum extent practicable.
2. Any student absent from class in observance of a religious holy day shall not be penalized in any way for an examination or assignment missed during the period of absence. Absence in observance of a religious holy day does not relieve students from responsibility for any part of the course work required during the period of absence. Students who are absent on days of examinations or class assignments shall be offered a reasonable opportunity to make up the work without penalty, if the student previously arranged to be absent. Nothing in this policy shall preclude faculty members from limiting the number of student absences to a reasonable number of absences for any reason. The faculty member has discretion to determine how the make-up obligation will be fulfilled. A faculty member who penalizes a student contrary to these provisions may...
have committed unprofessional conduct, and thus may be subject to a complaint to the Committee on Professional Conduct under the provisions of Section B4.9 of the Faculty Manual.

3. It is the student's obligation to provide faculty members with notice of the dates they will be absent due to observance of religious holy days, preferably before the beginning of classes but no later than the end of the first three class days. For religious holy days that fall within the first three class days, students must provide faculty members with notice no later than two class days before the absence. Missing a class due to travel plans associated with a particular religious holy day does not constitute an excused absence. Absences due to observance of religious holy days that are not pre-arranged with the relevant faculty member within the first three class days may be considered unexcused, and the faculty member may therefore prevent the student from making up examinations or assignments missed during the period of absence.

4. Faculty members are encouraged to anticipate days when a substantial number of students will be absent for observance of religious holy days and should avoid scheduling examinations and assignment deadlines on those days. Faculty members are expected to reasonably assist students in obtaining class information the student missed during the period of absence in observance of a religious holy day. In that regard, faculty members are urged to allow taping or recording of the class session, with the reproduction of the student's personal use, when a student misses a class due to observance of a religious holy day. To assist in identifying religious observance days, faculty members are encouraged to consult the illustrative list provided in the Interfaith Calendar (http://www.interfaithcalendar.org). Faculty members are urged to remind students of their obligation to inform faculty members within the first three class days of any anticipated absences due to observance of religious holy days and should include that information in the syllabus or course requirements document for that course.

Course Information

Course Numbering System
The following course-numbering system is used:

- Courses in the 100 series are primarily for freshmen.
- Courses in the 200 series are primarily for sophomores.
- Courses in the 300 series are primarily for juniors.
- Courses in the 400 series are primarily for seniors.
- Courses in the 500 series are open only to seniors or other qualified undergraduates.
- Courses in the 600 through 800 are open only to graduate students.

Courses in some departments, with the specific numbers 100, 200, 300, 400 are offered, in most instances, on an experimental or trial basis. When listed in CaneLink's Course Offerings, a more descriptive title will normally be attached.

Credit Only Option
The credit only option has been established to encourage students to explore academic areas outside their major and minor fields of concentration. Students may use this option with free electives and receive a CR (Credit Received) or NC (No Credit). These courses become part of a student's record, but they do not count in the grade point average as computed by the University of Miami.

Eligibility
To be eligible to enroll for courses under the CR/NC option, a student must:

1. Hold the standing of Sophomore or above, and, if a transfer, must have completed one semester of residency at the University of Miami;
2. At the time of registration have a minimum cumulative grade point average of at least 3.00;
3. Elect the CR/NC option within two weeks following the last day of registration for Fall and Spring semesters. Election of CR/NC options for Summer Sessions must occur no later than the fifth class day following the last day of registration.
4. Changes except withdrawals from the course are permitted after this time.

Regulations and Restrictions
1. Eligible students may take one course per semester for credit only, to a maximum of 9 credit hours.
2. Only free electives may be taken under this option. Free electives are defined as courses not taken to fulfill the requirements for the major, minor, or general education requirements (including prerequisite course work) of the University and the individual schools.
3. ENG 105 and ENG 106 cannot be taken for credit only.
4. Grading standards for the credit only option are the same as for students who register for the course under the regular grading system. Letter grades will be submitted by instructors to the Office of the Registrar. The Office of the Registrar will change all grades A through C (including "C-") to CR (Credit Received) for those enrolled under the CR/NC option.
5. A grade of NC (No Credit) will be recorded by the Office of the Registrar for all grades of D and F. The student will not receive credit hours or quality points for the grade of NC.
6. Should a student subsequently change his/her major, free electives taken for credit only prior to the declaration of this major may be counted toward fulfilling major, minor, or general education requirements at the discretion of the department chairman and the academic dean.

Credit for Service Experience
Veterans of the military services may make application for academic credit for schooling received while in the armed forces. Credit hour may be awarded for work that the American Council on Education Guide regards as college level. Students must have credit hours approved by their departmental chairperson.

Credit hour for military service and experience is usually in the elective area and may not take the place of subjects required for graduation. Such work is not assigned quality points and is not included in quality point computations.

Final Examination Policy
- Final Examinations may not be given during a regularly-scheduled class period.
- No examination shall be permitted during the reading period.
- Final Examinations may be rescheduled only with the permission of the school/college dean.
- No student shall be required to take more than two final examinations in a twenty-four hour period. A student having three or more final examinations scheduled during a twenty-four hour period may request the instructor of the course most easily rescheduled.
(normally the course with the smallest enrollment) to reschedule the examination for that individual. The request shall be made no later than two weeks before the last class day.

- A student who has a conflict between a final examination and a religious observation may request that the instructor reschedule that student’s examination. The request shall be made no later than two weeks before the last class day.

- For the resolution of any problem pertaining to the scheduling of final examinations, a student should consult with the following entities or persons in this order: the relevant instructor, the department chair, the Dean or designee. If the matter cannot be resolved at the school or college, the student should contact the Office of the Provost.

Military Withdrawal

- Students who need to withdraw from a semester due to official orders to active duty with the Armed Forces of the United State must provide a copy of their official written orders when submitting the request to withdraw.

- Students who withdraw after the 12th week of the semester because of these official orders may either be awarded credit hour (CR) or an academic grade for any course in which they have achieved a C or better up to the time of withdrawal. Instructors must certify that the student had achieved satisfactory accomplishment on the basis of previous work in the course by awarding an appropriate grade. Accomplishment of less than C should be entered on the permanent record as a withdrawal without prejudice (W).

- Credit hour granted for courses under this policy should count toward graduation.

- There should be no refund of tuition for courses for which credit hour has been awarded. Refunds for courses not awarded credit hour should be on the same basis as complete withdrawals for military service.

- The above recommendations are procedures for determining the awarding of credit hour and do not release the student from the usual withdrawal procedures.

Registration

Registration dates are shown on the University Academic Calendar (http://www.miami.edu/index.php/registrar/calendar), and all students are expected to register on these days. If a student is permitted to register late, a fee may be charged.

Repeat Rules

A student may repeat a course, but the repetition will not eliminate the previous grade from the record. A course may be repeated only once \(^1\) unless written authorization is provided by the chair of the department in which the course is offered or, in the case of an undepartmentalized school, by the dean.

Illegal Repeat

A student may not repeat a course in which a grade of C or higher has been earned. This is considered an illegal repeat.

General Undergraduate Repeat Rule

- If the initial grade is D+ or lower (or a C- in cases where an academic unit requires a C or higher), both the initial grade and the repeat grade are included in the computation of the student’s cumulative grade-point average (CGPA).

- If the initial grade is a D or D+ (or a C- in cases where an academic unit requires a C or higher) and the repeat grade is passing, the number of credit hours required for graduation will be increased by the number of credit hours repeated.

- Registrations that involve repeating a course in which a grade of C or higher (or C- in cases where an academic unit does not require a C or higher) has already been earned do not earn quality points or credit hours, nor count as credit hours attempted.

- Courses repeated after graduation \(^2\) will be posted to the transcript showing the grade received; however, the CGPA and credits earned will not be modified based on the grade received for the repeated course.

Undergraduate Repeat Rule

- A student may elect to repeat up to two courses that were taken at the University of Miami in which the student earned a grade of D (including D+) or F. Each repeated course must be taken at the University of Miami, must be the same course as the course initially taken, and must be completed within two regular semesters enrolled following the initial course.

- No course may be repeated more than once under this rule. A course repeated more than once under the University’s General Repeat Rule will not qualify under the Undergraduate Repeat Rule.

- Enrollment for a second time in a course constitutes a repeat of that course for the purposes of this rule, unless the student withdraws from the course on or before the University’s published Last Day to Drop a Course date.

- For each repeated course, only the second grade (whether higher, or lower, or the same as the first grade) will be used in the computation of the student’s CGPA. The initial course will not count as credit hours attempted or earned, although the initial course grade will remain on the student’s permanent record.

- Students who plan to apply to graduate and/or professional school should be aware that such institutions may recalculate the CGPA to include the initial grade earned before the repeat.

\(^1\) This does not include courses that are eligible to be repeated for credit (e.g. Special Topic courses, Music lessons, etc.). Courses that are eligible to be repeated are designated in the student information system, CaneLink. Courses may have limits on the number of times they may be repeated.

\(^2\) This refers to courses or a course with a particular grade required for entry into a different degree program.

Schedules

Fifteen or sixteen credit hours constitutes a normal schedule at the University. Academic deans and advisors will determine the appropriate credit hour load for their students. (A schedule of charges for credit hours is found in the Financial Payment Policies section of this Bulletin.) The schedule of any student whose outside interests cause unsatisfactory scholastic attainment may be reduced by the dean.

Temporary/Permanent Withdrawal from the University

If a student decides to withdraw from the University of Miami, there are procedures in place to facilitate this process. In order to withdraw officially from the University, a student must follow the procedures
outlined in this bulletin and on the University of Miami website (http://www.miami.edu/index.php/cane_success_center/withdrawal).

Failure to follow the outlined withdrawal process may result in monies owed to the university (e.g. tuition, fees, etc.), failing grades on a student’s academic record and/or other negative consequences.

Please note that dropping courses in a summer session, thereby reducing a student credit-hour load to zero is not construed as a formal withdrawal from the University.

Undergraduate Students

In order to officially withdraw from the University, Undergraduate students are required to speak with an Advisor in the 'Cane Success Center. The 'Cane Success Center is located on the 2nd Floor of the University Center, Suite 2275 (also known as "The Nest"). Walk-in hours are available from 9:00 AM – 2:00 PM Monday thru Friday. You may also reach a 'Cane Success Center Advisor by calling 305-284-4500 or via email (success@miami.edu) to initiate the withdrawal process.

For more details about the withdrawal process and for helpful hints on making a smooth transition out of the University, visit the Undergraduate Withdrawing Student Checklist (http://www.miami.edu/index.php/cane_success_center/withdrawal/WithdrawalStudentChecklist) or view the PDF (https://umshare.miami.edu/web/wda/admission/Website/PDFs/Withdrawal/Withdrawal%20Checklist.pdf).

For students who are no longer on campus – If you have already left the University but did not complete the withdrawal process before your departure, please call or email (success@miami.edu) the 'Cane Success Center at (305) 284-4500 to begin the withdrawal process. Your withdrawal will not be finalized until an Exit Interview is completed with a 'Cane Success Center Advisor.

Undergraduate Appeal Process

Withdrawal Date Appeal Form – If you were unable to attend classes due to a serious accident or illness, and this prevented you from notifying the University of your withdrawal in a timely manner, a Withdrawal Date Appeal Form (http://www.miami.edu/index.php/cane_success_center/withdrawal/withdrawal_date_appeal_form) can be submitted for consideration by an Appeals Committee. Appeals are submitted AFTER completing the official withdrawal process above and must include supporting documentation as to what prevented a timely notification. All appeals must be submitted within 30 calendar days of the official withdrawal date established with the 'Cane Success Center or if the appeal is being submitted for a semester that has already completed, it must be submitted within 30 calendar days of the last day of the end of the semester in question. Appeals should be submitted via email (registrar@miami.edu) or by mail to:

University of Miami
Office of the Registrar - Withdrawal Date Appeal
P.O. Box 248026
Coral Gables, FL 33124-6914

Merit-based Scholarship Status upon Return – If you withdraw from the University but choose to return within one calendar year, and you have continued to meet the requirements of your scholarship, then your merit scholarship will be waiting for you. Contact the 'Cane Success Center to begin the process of readmission.

2 Merit Scholarships are awarded as consecutive semesters. If you spent a semester or two away from the University, these would be terms counted as part of your total scholarship. Please refer to your scholarship agreement for details.

Student Groups with Special Concerns Regarding Withdrawing from the University

• Veterans and children of deceased or totally disabled veterans attending the University as students under the government’s educational benefit bills must also be cleared by the Veterans Affairs Certifying Official.

• Varsity athletes or any athlete registered with the department of Athletics must obtain approval and be cleared by the Athletic department prior to any change in their registration status, including withdrawal from the university.

• Per U.S. Department of Homeland Security (DHS) regulations, international students in F-1 or J-1 visa status must notify their ISSS advisor prior to temporarily or permanently withdrawing from the University and must leave the U.S. within 15 days of withdrawing. Failure to comply with DHS regulations may result in the loss of your future eligibility to enter the U.S.

Refunds

During the academic year, tuition will be refunded on a prorated basis depending on the date that is noted as the ‘Total Withdrawal Date’. Tuition will be refunded on a prorated basis through 60 percent of the semester. Please see the Refund Policy (http://bulletin.miami.edu/general-university-information/financial-payment-policies) under the Financial Payment Policies section.

Title IV financial aid and tuition will be refunded on a pro rata daily basis through 60 percent of the semester. This date is determined based on the student notifying the Cane Success Center (Undergraduate)/ Office of the Registrar (Graduate) of his/her intent to withdraw. If the student fails to notify the appropriate office, federal guidelines for determining refunds will be followed.

General Education Requirements

Philosophy

The University of Miami’s General Education Requirements ensure that graduates have acquired essential intellectual skills and have engaged in a range of academic disciplines. The General Education Requirements provide students with the opportunity to study methods and achievements in all areas of human inquiry and creative endeavor and to cultivate abilities essential for the acquisition of knowledge. The General Education Requirements allow students to create an integrative map for their academic careers, providing a context for more focused studies.

As an institution of higher learning in an increasingly diverse and global community, our goals are to produce graduates who have been exposed to a broad spectrum of educational opportunities and to prepare them for successful participation in the world. The University’s General Education Requirements consist of coursework taken before, within, and in addition to students’ specialized study in their areas of concentration. The aims of the General Education Requirements are designed to ensure that graduates of the University will have acquired essential intellectual skills and exposure to a range of intellectual perspectives and academic disciplines. Whereas the requirements of majors specified by schools and
colleges within the University emphasize depth of learning, the General Education Requirements stress breadth of knowledge and the cultivation of intellectual abilities essential for the acquisition of knowledge.

**Areas of Proficiency**

The Areas of Proficiency requirements ensure that students either already possess, or develop at the University, the ability to express themselves effectively, to use quantitative skills with facility, and to reason cogently.

**English Composition**

Good writing facilitates clear thinking, and clear thinking is the foundation of effective communication. The expectation is that students become adept at using the English language as an effective communication tool. Effective writing skills are representative of an educated person because they are instruments to advance ideas efficiently and persuasively. Students fulfill this requirement by satisfactorily completing ENG 105 and ENG 106, or the equivalent. Appropriate Advanced Placement (AP) or International Baccalaureate (IB) scores in English composition may be used to satisfy this requirement. An appropriate score on the SAT or ACT examination may earn a student exemption from, but not credit for, ENG 105.

Students will be able to:

- Gather information, synthesize data, compare various points of view, and present results in writing.
- Develop the ability to read texts critically and to use textual evidence to support a sophisticated written argument.
- Consider audience, tone, organization, and standard conventions in relationship to specific rhetorical tasks.

**Effective Fall 2016, new students without prior college credit in English Composition will be placed as follows:**

- ENG 103: ACT English score below 18, SAT Critical Reading score below 430, and (if relevant) TOEFL IBT Writing score below 18.
- ENG 105: ACT English score 18-31, SAT Critical Reading score 430-680, or TOEFL IBT Writing score 18 or above.
- ENG 106 or ENG 107: ACT English score 32 or above or SAT Critical Reading score 690 or above

Beginning Fall 2017, the ACT Plus Writing or the Redesigned SAT with optional Essay will be required for new undergraduate applicants with fewer than thirty transfer credits. Placement cutoffs for the ACT Plus Writing and the Redesigned SAT with optional Essay are to be comparable to the fall 2016 score levels above, using concordance tables for the ACT Plus Writing and the Redesigned SAT with optional Essay.

**All requirements for the English Composition General Education Requirements must be completed prior to attaining junior year classification.**

**Quantitative Skills**

In a world increasingly influenced by science and technology, it is important for students to acquire the capacity to understand and use essential quantitative skills. The Quantitative Skills requirement helps students learn to use quantitative skills and tools to solve problems, including the interpretation, manipulation, and application of quantitative data. Students fulfill this requirement by completing either a Department of Mathematics course numbered MTH 108 or higher or a quantitative skills course approved by the student’s college/school and the University Curriculum Committee in consultation with appropriate academic units.

Exemption from the requirement can be achieved through the following tests: AP, IB, SAT, SAT subject test in mathematics level 2, or a test administered by the Department of Mathematics.

Students will be able to:

- Select and use appropriate quantitative methods and tools to solve problems.
- Interpret, manipulate, and apply quantitative data to solve problems.

**Areas of Knowledge**

The Areas of Knowledge requirement is designed to help students understand and appreciate intellectual achievements in major areas of human inquiry and creative endeavor. Students satisfy this requirement through the Cognates Program, which aims to provide a broad array of intellectual and cultural exploration.

In the Cognate Program for the Areas of Knowledge requirement, students examine creative expression in the arts, literature, and philosophy; study human development and behavior; and explore the mathematical, scientific, and technological world. Students fulfill the requirement by completing three cognates, one from each of the three areas of the university curriculum: Arts & Humanities (A&H); People & Society (P&S); and Science, Technology, Engineering & Mathematics (STEM). A cognate is a group of at least three courses for at least nine credit hours with a shared theme or topic determined by the faculty. Each cognate has course options that allow students to complete the cognate in a manner that meets their interests, while staying within the focus of the cognate.

While students are required to take three cognates to fulfill the Areas of Knowledge requirement, there is no limit to the number of additional cognates students may complete. All cognates completed are listed on the students’ transcripts.

The university offers a large number and range of cognates. Additionally, each major and minor fulfills the cognate requirement in one Area of Knowledge. All approved cognates are visible in a cognate search engine (https://cognates.miami.edu) that allows students to search for cognates based on cognate features, cognate courses, and keywords. Each cognate is administered by a department or program that is designated as the “Responsible Academic Unit” (RAU) for the cognate. Inquiries about a cognate should be directed to the cognate’s RAU.

The following rule applies to all cognates: A course may not be used to satisfy the requirements of more than one cognate. This rule applies whether the cognate requirement is being met by a major, a minor, or a designated cognate. The fact that a school requires students to take courses which the school construes as outside the major or minor, but must be taken to fulfill the requirements for that major or minor, does not allow the course to be counted for both purposes. On the other hand, the fact that a course is listed as one which must be taken to meet the requirements for a major or minor does not necessarily preclude a student from participating in a cognate which has that course as one of its options. In many cases, the student could take one of the other courses included in the cognate.

**Arts & Humanities**

Arts & Humanities cognates engage students in the study of the most enduring and influential works of art, imagination, and culture. Through study, creation, and performance, courses in this area enable students to understand the works of artists, musicians, novelists, philosophers, playwrights, poets, historians, and theologians. These courses cultivate
the ability to interpret, critically evaluate, and experience the creative products of human culture and expression.

Students will be able to:

- Critically evaluate and interpret the creative products of humanistic and artistic expression, applying appropriate vocabulary and concepts for their description and analysis.
- Understand the creation and performance of art.

The following departments and programs offer courses that are used in Arts & Humanities cognates: Africana Studies; American Studies; Architecture; Art & Art History; Cinema & Interactive Media; Classics; English; History; Judaic Studies; Latin American Studies; Modern Languages & Literatures; Music Theory – Composition; Musicology; Philosophy; Religious Studies; Strategic Communication; and Theatre Arts. Others will be added as cognates are approved.

**People & Society**

People & Society cognates help students understand and analyze the organization of society and the patterns of social change in the past and in the contemporary world.

Students will be able to:

- Analyze the organization of society.
- Analyze patterns of social change.

The following departments and programs offer courses that are used in People & Society cognates: Accounting; Aerospace Studies; Africana Studies; American Studies; Anthropology; Business Law; Classics; Communication Studies; Criminology; Economics; Ecosystem Science & Policy; Educational & Psychological Studies; Geography; History; International Studies; Journalism & Media Management; Judaic Studies; Kinesiology & Sport Sciences; Latin American Studies; Management; Marine Affairs; Marketing; Military Science; Modern Languages & Literatures; Music Media & Industry; Nursing; Philosophy; Political Science; Psychology; Religious Studies; Sociology; Strategic Communication; Teaching & Learning; Urban Studies; and Women's & Gender Studies. Others will be added as cognates are approved.

**Science, Technology, Engineering & Mathematics (STEM)**

Science, Technology, Engineering & Mathematics (STEM) cognates develop students’ abilities to think critically about mathematical, scientific, and technological issues, through an understanding of processes and methods of scientific inquiry involving experimentation, observation, and quantitative analysis. The cognates nurture literacies that enable students to make informed decisions in an increasingly complex world.

Students will be able to:

- Understand the use of quantitative tools, experimentation, and observation to analyze and solve mathematical, scientific, environmental, and technological problems.
- Interpret quantitative data and draw useful conclusions.

The following departments and programs offer courses that are used in Science, Technology, Engineering & Mathematics cognates: Anthropology; Architecture; Art; Atmospheric Science; Biochemistry; Biology; Biomedical Engineering; Business Law; Business Technology; Chemistry; Cinema & Interactive Media; Civil, Architectural & Environmental Engineering; Computer Information Systems; Computer Science; Economics; Ecosystem Science & Policy; Educational and Psychological Studies; Electrical & Computer Engineering; Engineering Science; Finance; Geography; Geological Sciences; Healthcare Science; Industrial Engineering; Journalism & Media Management; Kinesiology & Sport Sciences; Management Science; Marine Science; Marketing; Mathematics; Microbiology & Immunology; Nursing; Philosophy; Physics; and Psychology; Public Health; and Strategic Communication. Others will be added as cognates are approved.

**NOTES**

The three cognates taken to fulfill the Areas of Knowledge requirement (including cognates fulfilled by majors and minors) must have different RAUs. No more than two Areas of Knowledge may be fulfilled by cognates whose RAUs are in the same school or college, except for the College of Arts and Sciences. Majors and minors may cover more than one Area of Knowledge but may be used to fulfill the cognate requirement in only one of those areas. A course may count in only one cognate used to fulfill the Areas of Knowledge requirement (including cognates fulfilled by majors and minors). Students may petition for individual course substitutions in cognates by application to the cognate’s RAU. Transfer courses, Advanced Placement, International Baccalaureate, CLEP, dual enrollment, etc., that are transferred in with specific UM course equivalencies can be used in cognates. Courses that transfer in with non-specific UM course credit hours can be used in cognates only by application to the cognate’s Responsible Academic Unit (RAU).

Transfer students entering the university with 30 or more credits may take an individualized cognate as one of the three required cognates. Individualized cognates allow for flexible use of transfer credits to fulfill a cognate requirement, as approved by the dean/advising office in the student’s school/college.

**Grades**

**Academic Standing, Probation, and Dismissal**

At the end of each semester the University shall determine whether a student is in Good Academic Standing, on Academic Probation, or subject to Academic Dismissal. Some schools and colleges may have exceptions to the Good Academic Standing, Academic Warning, Academic Probation and Academic Dismissal policies listed below.

**Good Academic Standing**

To be in Good Academic Standing a student must not be on Academic Probation or subject to Academic Dismissal.

**Academic Probation**

Students other than first-semester freshmen (non-transfer student) whose UM cumulative grade-point average (CGPA) in University of Miami courses is below the following levels shall be placed on Academic Probation.

<table>
<thead>
<tr>
<th>Credit Hours Earned</th>
<th>CGPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fewer than 33</td>
<td>1.7</td>
</tr>
<tr>
<td>33-64</td>
<td>1.8</td>
</tr>
<tr>
<td>65-96</td>
<td>1.9</td>
</tr>
<tr>
<td>More than 96</td>
<td>2.0</td>
</tr>
</tbody>
</table>
First-seme
ter freshmen who have a semester grade-point average below 1.3 shall be placed on Academic Probation. In addition, students who fail to make satisfactory progress toward meeting the degree requirements specified by their School or College may be put on Probation by the Academic Standards Committee of the School/College. Students on Academic Probation must meet with their academic advisor prior to the following semester and shall be restricted to a 13-credit hour load.

Academic Dismissal
A student who remains on probationary status after two consecutive semesters on Academic Probation shall be subject to Academic Dismissal. A student who has been on Academic Probation for one semester and has a CGPA below 1.0 shall also be subject to Academic Dismissal. The decision to dismiss shall be made by the Academic Standards Committee of the School or College in which the student is enrolled. If a decision is made not to dismiss, the student shall remain on Academic Probation.

Appeals and Readmission
Students who wish to appeal their Academic probation or dismissal for academic reasons, must do so in writing to the School or College Academic Standards Committee within thirty days of the notice of dismissal. Those who have been dismissed for academic reasons shall not be considered for readmission to any school or college at the University until at least two regular semesters have elapsed since their dismissal.

Faculty Senate Student Affairs Committee Standard Academic Appeals Process
The Faculty Senate Student Affairs Committee (FSSAC) has responsibility for undergraduate student academic appeals. The FSSAC includes faculty representatives from all undergraduate schools as well as three non-voting ex officio representatives: a graduate and undergraduate student representative and the University ombudsperson. The FSSAC reviews undergraduate student academic appeals that have not been resolved at the department, school, or college levels. As noted in section II below, the FSSAC hears cases only after they have gone through the departmental and college process. The processes are the same for grade and non-grade appeals except as noted below.

I. Time Constraints
Appeals must be filed within a year of the occurrence of the academic action resulting in the appeal and prior to the completion of all degree requirements or withdrawal from the University. Exceptions to this deadline may be permitted by the FSSAC for good cause.

Each level of appeal should aim to review the appeal and arrive at judgment within a two month period from the date the appeal reaches them. The entire process should be completed within one year.

II. Order of Appeal
A student appeal regarding a faculty or administrative academic action must be addressed to the following entities or persons in this order:

1. The faculty member or administrator responsible for the course, program, or activity.
2. The department/program chair/director or administrative superior of the faculty member or administrator.
3. The Dean or designee of the school or college offering the course, program or activity.
4. If the school, college or administrative unit has a committee constituted to hear student appeals, that committee must be consulted before proceeding to the next level.
5. The ombudsperson. The student is to provide the materials listed in Section III below to the ombudsperson who will review the merits of the appeal, and attempt to resolve the matter. The ombudsperson, as part of his/her review should give the student a preliminary assessment as to whether the matter, as presented by the student at that time, is reviewable by the FSSAC.

If the matter is the appeal of a final grade, and only after all the other steps are taken, the ombudsperson may refer the matter to the Provost who will decide whether or not to refer the appeal to the FSSAC.

For a non-grade appeal, the student has the final authority to decide whether to take the appeal to FSSAC. If s/he chooses to do so, the ombudsperson shall forward the appeal and the accompanying documentation to the FSSAC via the Faculty Senate Office.

6. The Provost may request that the FSSAC review an appeal. If, but only if, s/he does so, the FSSAC shall have jurisdiction to review a grade-related appeal.

a. As part of the request, the Provost shall forward to the FSSAC, via the Faculty Senate office, the materials submitted by the student as indicated in Section III, below.

b. The FSSAC shall act upon those appeals and report its findings and recommendation to the Provost. The Committee may request an interview with the student, additional information or access to records, interviews with relevant faculty or administrators, or additional information or access to records kept by faculty or administrators.

c. The FSSAC will communicate its findings and recommendations to the Provost. Copies shall be provided to the Faculty Senate.

7. The final decision with respect to the grade-related appeal will be made by the Provost and communicated to the student in writing. Copies shall be provided to the Faculty Senate Office and to the Chair of the FSSAC.

8. For non-grade-related academic appeals:

a. The FSSAC shall act upon those appeals and report its findings and recommendation to the Provost. The Committee shall forward to the Chair of the Faculty Senate a copy of its recommendation to the Provost.

b. The Provost shall communicate his/her decision on each recommendation to the student concerned, to the Chair of the Committee, and the Chair of the Faculty Senate.

III. Materials for an Appeal
When bringing an appeal, the student must state in writing issues s/he wishes to have considered. The appeal must include:

1. An appeal letter clearly stating the conditions as seen by the student, and offering reasons for granting the appeal.
2. The appeal letter must indicate if the student wishes to make a personal appearance and, if so, the reasons why the appearance is necessary.
3. Documents of support (e.g., examinations, term papers, syllabi, or medical documentation of illness) that the student wishes to have examined.
4. All written decisions made at earlier levels of the appeal by individual faculty/administrators, departments/programs/administrative units,
college or school committees, and deans which are available to the student or in the student’s possession.

IV. Other Notes and Special Conditions

1. If the appeal is based on or related to a charge made by the student of discrimination on the basis of race, color, national origin, religion, sex, sexual orientation, age, or handicap, a representative of the appropriate University office will be contacted and, as appropriate, consulted in the appeal process.

2. If the appeal is based on or related to a disability:
   a. The ADA Coordinating Committee shall serve in an advisory capacity.
   b. The student is to include in the materials provided, the appropriate forms from the Office of Disability Services documenting:
      i. An evaluation of the disability
      ii. Recommendations related to the disability
   c. The FSSAC does not consider appeals based upon the grant, denial or modification of an accommodation by the Office of Disability Services. Instead, any such appeal is as prescribed by the Office of Disability Services Grievance Procedure only.

The Grading System

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent attainment</td>
</tr>
<tr>
<td>B</td>
<td>Good attainment</td>
</tr>
<tr>
<td>C</td>
<td>Fair attainment</td>
</tr>
<tr>
<td>D</td>
<td>Poor attainment (earns credit hour but may not fulfill requirement for a major)</td>
</tr>
<tr>
<td>F</td>
<td>Failure (effective Fall 1995)</td>
</tr>
<tr>
<td>W</td>
<td>Course dropped on or before the last day for withdrawing from classes as published in the official calendar of the University. Credit hour can be earned only by successful repetition of the course.</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete work in passing status with the instructor’s permission to complete the course. An &quot;I&quot; will be assigned only if the instructor is satisfied that there are reasonable non-academic grounds for the student’s incomplete work. An &quot;I&quot; is not intended to be assigned in order to permit a student to repeat a course without registration or to permit a student to do additional work in order to improve upon grades earned during the semester. The student who receives an &quot;I&quot; must complete the course with a passing grade within the time frame specified by the professor of the course but not longer than the end of one calendar year, or prior to graduation, whichever occurs first. An Academic Dean may approve an extension initiated by the course instructor. An &quot;I&quot; not completed prior to the student’s graduation shall be changed to an &quot;IE&quot; or &quot;IF&quot; by action of the student’s Academic Dean.</td>
</tr>
<tr>
<td>IP</td>
<td>Denotes in progress grade assigned upon satisfactory completion of the first semester of a two-semester sequence, with the final grade for both courses to be submitted at the end of the second semester of the sequence. Please note that all &quot;IP&quot;s must be converted to a letter grade or &quot;IF&quot; at graduation. &quot;IP&quot; will also be converted to &quot;IF&quot; upon any departure from the University for a period in excess of one year.</td>
</tr>
<tr>
<td>IF</td>
<td>Symbol indicating that an &quot;I&quot; grade was not appropriately completed. The symbol &quot;IF&quot; is equivalent to an &quot;F&quot; when computing a student’s average.</td>
</tr>
<tr>
<td>CP</td>
<td>Completed</td>
</tr>
<tr>
<td>CR</td>
<td>Grade signifying that credit only is awarded based on a “C” average or better.</td>
</tr>
<tr>
<td>NC</td>
<td>Grade signifying that no credit hour is awarded based on a course average below a grade of “C”.</td>
</tr>
<tr>
<td>NG</td>
<td>Symbol assigned by the Office of the Registrar indicating that the instructor has not reported the student’s grade. For a student to receive credit hour for the course, the instructor must report a passing grade prior to the student’s graduation, or by the end of one regular academic semester, whichever comes first. An Academic Dean may approve an extension initiated by the course instructor. An &quot;NG&quot; not replaced by a passing grade, or by a “W”, prior to the student’s graduation shall be changed to an “F” by action of the student’s Academic Dean.</td>
</tr>
</tbody>
</table>

Grade Point Average

The grade point average is used to determine:

- class rank
- graduation and university honor eligibility
- good standing, probation, and dismissal status
- scholarship eligibility

Your official grade point average is based only on the work you have completed at the University of Miami. The only exception to this policy is for determining whether a student qualifies for university honors established by the minimum grade point requirement at the time of graduation. For graduation purposes, cumulative grade point average is defined as either the average of all grades earned at the University of Miami or the combined average of all graded work taken at the University of Miami and elsewhere whether or not the transfer work is accepted toward a degree at the University of Miami, whichever is lower.

Quality points per credit hour are awarded as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.70</td>
</tr>
<tr>
<td>B+</td>
<td>3.30</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.70</td>
</tr>
<tr>
<td>C+</td>
<td>2.30</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.70</td>
</tr>
<tr>
<td>D+</td>
<td>1.30</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>E (Prior to Fall 1995)</td>
<td>0.00</td>
</tr>
<tr>
<td>IE</td>
<td>0.00</td>
</tr>
<tr>
<td>F (Effective Fall 1995)</td>
<td>0.00</td>
</tr>
<tr>
<td>IF</td>
<td>0.00</td>
</tr>
</tbody>
</table>

Courses marked with an “IE” or “IF” count as credit hour attempted but are not counted in credit hours earned and do not carry quality points.
Credit hours marked CR are counted as credit hours earned but are not counted in credit hours attempted and do not carry quality points. Courses marked with the symbols I, IP, W, NC, and NG do not carry credit hours attempted, credit hours earned, or quality points.

The grade point average is determined by dividing the total quality points earned by the total credit hours attempted.

Military service credit hour, some foreign university credit hour, correspondence course credit hour, credit by examination, etc., are not awarded quality points and do not enter the computation of the grade point average.

1. Faculty Senate legislation #83032(B)
2. Faculty Senate legislation #2000-24(B)
3. Faculty Senate legislation #2001-29(B)
4. Faculty Senate legislation #85005(B) and #97001(B)
5. Faculty Senate legislation #85001(B)

Honor Code
The Honor Code, initiated at the request of the Undergraduate Student Body Government, ratified by student referendum, approved by the Faculty Senate, by the President of the University, and administered by students, protects the academic integrity of the University of Miami by encouraging consistent ethical behavior among its undergraduate students. The Code provides standards that prohibit all forms of scholastic dishonesty, including cheating, plagiarism, collusion, and falsification or misrepresentation of experimental data. The Code covers all written and oral examinations, term papers, creative works, assigned computer related work, and any other academic work done at the University by an undergraduate student.

All undergraduate students are responsible for reading, understanding, and upholding the Honor Code. Signed pledges are required for written work submitted for evaluation, but the absence of a signed pledge does not free a student from the ethical standards required by the Code. Procedures for dealing with infractions of the Code, including provisions for appeals, are printed in the text of the Honor Code. Copies may be obtained from the Office of the Dean of Students or from the office of the Undergraduate Student Body Government, or on-line (http://www.miami.edu/honor-council).

In keeping with the traditional prerogatives of university faculties, nothing in the Code infringes on the faculty’s assignment of grades undertaken in a class. Instructors are informed when students have been found guilty of infractions involving their classes. Courses in which students have been failed for academic dishonesty may neither be dropped nor repeated under the terms of the freshman repeat rule.

Honor Rolls
The Dean’s List
The Dean’s List is composed of those undergraduate students who are enrolled in a degree-seeking program and have attained high scholastic achievement for the semester. To attain the Dean’s List, a student must, for the semester:

1. have registered for and have completed 12 or more graded credit hours (excluding the credit hours earned in courses taken for credit only);
2. have attained a quality point average of 3.50 or higher for the semester;
3. have no courses with pending grades (I or NG).

The Dean’s List will be announced by each college and school at the end of the semester. The Office of the Registrar will post this achievement to the student’s permanent record.

The Provost’s Honor Roll
The Provost’s Honor Roll is composed of those undergraduate students who are enrolled in a degree-seeking program and have attained a high scholastic achievement for the semester. To attain the Provost’s Honor Roll, a student must, for the semester:

1. have registered for and have completed 12 or more graded credit hours (excluding the credit hours earned in courses taken for credit hour only);
2. have attained a quality point average of 3.75 or higher for the semester;
3. have no courses with pending grades (I or NG).

The Provost’s Honor Roll will be announced by the Provost’s Office. The Office of the Registrar will post the achievement to the student’s permanent record, and distribute the Provost’s Honor Roll Certificate.

The President’s Honor Roll
The President’s Honor Roll is composed of those undergraduate students who are enrolled in a degree-seeking program and have attained the highest possible scholastic achievement for the semester. To attain the President’s Honor Roll a student must, for the semester:

1. have registered for and completed 12 or more graded credit hours (excluding credit hours earned in courses taken for credit only);
2. have attained a quality point average of 4.0 for the semester;
3. have no courses with pending grades (I or NG).

The President’s Honor Roll will be announced by the Office of the Registrar who will post the achievement to the student’s permanent record, and distribute the President’s Honor Roll Certificate.

Graduation

Degrees
It is the responsibility of the student to be sure he/she makes satisfactory progress toward, and fulfills requirements for, the degree he/she seeks. He/she may obtain help in the office of his/her Academic Dean.

To receive a Bachelor’s degree from the University, the student must earn at least 120 credit hours (more in some schools), with a C average (2.0) or better as well as a C average for all work done at the University of Miami.

Students must also meet all of the degree requirements of their respective schools and should not expect requirements in composition, mathematics, foreign languages, or other subject areas to be waived for any reason.

- A student transferring credit hours from a 2-year community or junior college (this being the last school attended) must complete a minimum of 56 credit hours in residence at the University of Miami to earn an undergraduate degree.
- A student transferring credit hours from a 4-year college or university (this being the last school attended) must complete a minimum
of **45 credit hours in residence** at the University of Miami to earn an undergraduate degree.

- In addition, each student must complete at least half of the credit hours specified for his or her major in residence at the University of Miami.
- Not more than 30 credit hours of correspondence work and extension work combined will be accepted toward a degree, and neither correspondence nor extension work may be credited as a part of the last 45/56 credit hours of the student’s program.
- Not more than 30 credit hours based on military experience will be awarded toward the degree.
- Credit hours earned in a manner other than by course registration, i.e. proficiency examination, CLEP, placement tests, etc., may not be used to meet the final 45/56 credit hour residency requirement, however such credit by examination may be earned while the student is enrolled in the courses needed to meet the final 45/56 credit-hour residency requirement.
- Once a degree has been awarded, no changes will be made to the academic record.

### Dual Degree

- To obtain two different undergraduate degrees, a student must complete all the requirements for each degree.
- A second undergraduate degree on the same level requires a different major and a different minor.
- If the degrees are in two different schools, a student must meet the requirements with distinctly different majors and minors, wherever applicable, in each school.
- Students must obtain approval from the Office of the Senior Vice Provost and Dean of Undergraduate Education to pursue dual degrees in different schools.

As a general rule, college credit hours more than 12 years old are not recognized for degree purposes. Students in this category should consult their academic deans.

A student must apply for graduation on CaneLink during the semester in which they expect to graduate.

### Graduation Honors

University Honors (summa cum laude, magna cum laude and cum laude) will be determined by a minimum GPA unique to the school or college from which the student is graduating. The GPA required will change each academic year and will be based on the cumulative GPA of the previous year’s graduating class.

Visit the Honors Program and Office of Academic Enhancement website (http://www.miami.edu/index.php/honors_program_home/graduation_honors) at for specific GPA requirements each academic year to determine eligibility for graduation with University Honors.

The top 5% of the graduating class will receive summa cum laude within each individual school or college; the next 10% will receive magna cum laude, and the next 10% cum laude.

Eligibility for University Honors for each student is determined by the lower of two GPAs:

1. UM cumulative graduation GPA
2. Combination GPA (UM cumulative graduation GPA + Transfer GPA)

A student must meet the required GPA by the completion of the final semester within his/her school or college to be eligible to graduate with the honor.

### Diplomas and Transcripts

No diplomas or official transcripts are released from the Office of the Registrar without the approval of the Office of Student Account Services.

The last date on which application may be made for each graduation period is published in the Academic Calendar. The academic deans are the only officers authorized to approve placing the student’s name on the candidate degree list.

Diplomas are issued after the student’s graduation has been awarded by the school/college and noted on the student’s official transcript. The diploma must be issued in the name on the student’s academic record. Addition or omission of a middle name is acceptable. The addition of a middle name will be acceptable only as it appears on the student’s application for admission. If the middle name is not on the application or if the student wants another version, documented proof of a legal name change must be presented to the Office of the Registrar.

Official transcripts are issued only upon receipt of a secure electronic request through the university’s online transcript system or a written and signed request from the student is received in the office. Payment for the transcripts is required before they will be sent.

Unofficial transcripts are available free of charge to students through CaneLink.

### Student Status

#### Academic Bankruptcy

Students entering college sometimes perform at an unacceptable academic level. They either drop out or are dismissed. Some individuals with this experience re-evaluate their educational goals and desire to return to college. Their academic record, however, may present an insurmountable obstacle. Undergraduate students in this category who want the opportunity for a fresh start at the University without this handicap may apply for admission or readmission with the request that their prior academic record be disregarded.

In order to be considered for academic bankruptcy, a student’s combined college grade point average must be below 2.00 as calculated by the Office of Admission.

#### Application for Initial Admission to the University with Academic Bankruptcy

The applicant must apply to the Office of Admission and:

1. Must have been admissible to the University as a senior in high school,
2. Must have attended an accredited institution for at least one year and must not have attended any college or university for the preceding six months, and,
3. Must not be admissible to the University based on his or her college-level work.
Application for Readmission to the University with Academic Bankruptcy

A University of Miami student who has dropped out or who has been dismissed may request Academic Bankruptcy on meeting these conditions:

1. The student must apply to the Office of the Registrar.
2. At least six months must have elapsed since the end of the semester in which the student was last in attendance at the University of Miami.
3. Detailed written evidence must be provided with the readmission application, showing that the conditions or factors that caused the poor performance have changed sufficiently, so that there is a reasonable expectation of future satisfactory performance.

Conditions of Approval

1. If Academic Bankruptcy is approved, no course credit hours earned previously will be displayed on the transcript for credit hours attempted, credit hours earned, or quality points earned; however, all grades earned previously will remain on the transcript.
2. Readmission applicants with approval from the dean of the accepting school, may have Academic Bankruptcy apply only to those credit hours taken by the student when last in attendance at the University of Miami, so that credit hours earned at another institution subsequent to the date the student last attended the University are not affected.
   1 All grades, good or bad, are invalidated during this process and will not be reinstated at any future time.

Academic Bankruptcy will be granted only once for any student.

Certification of Enrollment

Students who require certification of enrollment for insurance or education loan purposes may obtain an enrollment letter via their CaneLink (https://canelink.miami.edu) account or by submitting a request in writing to the Office of the Registrar. Enrollment verification via CaneLink is available after the last day to drop without a "W". Please refer to the University's academic calendar for specific dates.

Enrollment Verification letters will include only information maintained in the University's official academic record system. The Office of the Registrar will not alter, amend or add anything to the standard letter. Notarization is available upon request.

Students will be certified as currently enrolled once they have met their financial obligations. If a student is delinquent in paying his/her tuition and fees statement balance and/or Monthly Payment Plan, the University will not process transcript and/or diploma requests. Course selection modification will not be permitted for any previous, current or future semesters. The student is not considered enrolled during the term in question, which means that certification of enrollment cannot be provided for insurance, student loan deferment or repayment purposes. Non-payment also means the student is ineligible for financial assistance awarded for the term in question. A late payment fee may be assessed on delinquent accounts.

Students who require enrollment certification for scholarship purposes only, will be conditionally certified until financial obligations are met.

1 For students who do not have a Social Security number, verification letters are generated by the Office of the Registrar. Letters are typically generated in seven (7) business days but may take longer during our registration period and the first two weeks of classes.

Classification of Students

Students are classified in three ways:

1. By course load (full- or part-time)
2. By objective (degree sought, non-degree, transient, audit, etc.)
3. By year

Course Load

A student is a full-time student if he/she carries not less than the minimum normal load, 12 credit hours per semester in most schools, nine credit hours in the Graduate School (please refer to the Graduate section for exceptions). The minimum credit hour loads in a summer session will vary for each category, according to the length of the sessions. (A typical full-time class schedule for fall and spring semesters not requiring override approval from an advisor consists of 15 credit hours. In some cases, students are recommended to enroll in fewer than 15 credit hours.) Please refer to the university's full-time/half-time policy (http://www.miami.edu/index.php/registrar/registration/full-time_half-time_policy). For spring semester, Intersession courses can be included when evaluating full-time status. It is important to note that tuition charges for Intersession courses typically are separate from and in addition to charges for the spring semester. Full-time status may vary from one college or school to another. Students should consult with the dean of his/her college or school for details.

Objective

A degree student is one whose immediate educational objective consists wholly or principally of work normally credited to a University of Miami bachelor's or higher degree. To qualify for this status, a student must meet the standards for admission.

A non-degree student is one who is not pursuing a degree program. Such students are those who, although eligible for degree candidacy, have requested permission to take a limited or special selection of credit hour courses without regard to requirements for a degree. This classification includes high school graduates and students with previous college credit hour

1. who do not want degree status;
2. whose applications for degree status are incomplete;
3. who are taking work toward teacher certification;
4. who are workshop applicants;
5. who are visiting summer school students. (Students under 21 years of age who have not completed high school will not be admitted to this status.) Non-degree students are sub-classified as transient, special, etc.

An undergraduate non-degree student may petition the Director of Admissions to have his/her status changed to that of degree student. Up to 30 credit hours earned in non-degree status may be applied towards a degree, but only to the extent approved by the appropriate academic dean. It is therefore important that the degree student identify himself/herself as such, early in his/her program.
**Transient Student**
A transient student is one who is enrolled at the University of Miami with the sole intention of using credit hours earned toward graduation elsewhere.

**Audit Student**
An audit student is one who enrolls as an observer or listener only. Auditing is allowed only when there is space available in the class. Audit status may be restricted by the Dean in the case of laboratory, studio or performance courses where audit status is not appropriate. Audit students receive no credit hour, do not prepare written assignments or take examinations, are not eligible for residence in campus residence halls, and do not receive student privileges except for the use of the library. No entries are made on the permanent academic record for audited courses.

Students wishing to change from audit status to credit hour status must obtain all necessary approvals within two weeks following the last day of registration for Fall and Spring semesters and no later than the fifth class day following the last day of registration for Summer Sessions. No changes except withdrawals from the course are permitted after this time.

**Note:** Fee for auditing a course is non-refundable. Please refer to financial information section of the bulletin.

**Year**
- A freshman is a degree student who has earned 0 to 29 credit hours.
- A sophomore is a degree student who has earned 30 to 59 credit hours.
- A junior is a degree student who has earned 60 to 89 credit hours.
- A senior is a degree student who has earned 90 credit hours or more.

**Undergraduates Taking Graduate Coursework**
University of Miami undergraduates within 30 credit hours of meeting the requirements for the Baccalaureate Degree may be considered for concurrent admission to graduate study in non-degree graduate status, and in this status may take and receive credit hour for graduate courses, while completing the requirement for the baccalaureate. The application may be found here (https://umshare.miami.edu/web/wda/grad/forms_/web/undergrad_take_grad_course.pdf).

**Admission to Graduate Status requires:**
1. Must have a minimum of 3.000 G.P.A.
2. The submission of an Undergraduates to Take a Graduate Course form (which can be obtained at the Graduate School) which will not require the application fee;
3. The written approval of the Chairman of the Department, the Dean of the Undergraduate School or College, and of the Graduate Dean prior to registration on the form.

Admission to Graduate status does not automatically admit the student, upon graduation, to status as an applicant for a graduate degree at the University of Miami.

The graduate credit hours earned may NOT be used to meet undergraduate graduation requirements or be used to meet the 120 credit hour requirements at the University of Miami.

**Eligibility for University Extracurricular Activities**
Full participation in University-sanctioned extracurricular activities and organizations is open to all full-time students who are not on academic probation and who have been assessed the Student Activity Fee.

Extracurricular activities include, but are not limited to the following: academic, athletic, dramatic, or musical organizations or teams; student organizations registered with the Committee on Student Organizations (COSO); fraternities and sororities; student publications; program boards; and University committees.

Students on probation may participate in any activity required as partial fulfillment of their program; may attend meetings of organizations; and may play intramural sports. They may not otherwise compete, perform, or hold a leadership position. At the beginning of each fall semester, the activity’s faculty or staff advisor or appropriate committee chairperson shall determine with the Office of the Provost the eligibility of each participating student. Some activities apply stricter standards, and may monitor academic progress and review eligibility during the academic year. Students should consult with the individual activity for specific requirements.

**Readmission**
Undergraduate students who have not attended the University for at least one semester should request readmission through the Office of the Registrar no later than two weeks before the beginning of classes, in the semester they wish to re-enroll. Readmission to the University is contingent upon approval of the Dean of the school/college the student is applying to and clearance from the Office of Student Account Services.

International students who seek readmission must receive clearance from International Admission and submit a bank letter to receive an I-20 from International Student and Scholar Services.

Specific details on the readmission process can be found here (http://www.miami.edu/index.php/registrar/inactive_status_readmission_withdrawal/readmission_information).

Students who have attended another college or university since they were last enrolled at the University of Miami, will be required to provide a transcript of their work. Failure to disclose all prior institutions attended may result in disciplinary action.

An undergraduate student who has applied to graduate for a given semester will not be eligible to register for any subsequent semester until the student applies for readmission or admission to a new program. A candidate for graduation may wish to continue his/her studies in one of the following situations:

1. If the student fails to graduate and further registration is needed, they must delete their application for graduation in CaneLink and within twenty-four hours, registration for subsequent semesters or sessions should be available. Students should contact the Office of the Registrar for assistance.
2. If the student graduates and wishes to pursue a second bachelor’s degree, the student must apply for readmission, stating his/her new degree objective.

3. If the student graduates and wishes to take additional course work without a degree objective, the student must apply for unclassified status.

Proof of immunization must be provided to the Student Health Service before readmission to the University of Miami. Failure to do so may prevent you from registering for classes.

Inactive Status

Inactive status is available to continuing, undergraduate, degree-seeking students who intend, and qualify, to re-enroll at the University of Miami after leaving the university for a designated period of time. This status is used when students will not be taking classes at another institution. Students interested in this option may obtain further information here (http://www.miami.edu/index.php/registrar/inactive_status_readmission_withdrawal/inactive_status) or by visiting the Office of the Registrar.

Non-UM Programs

Students who study through a non-UM program, domestic or study abroad, and would like to have those credit hours applied toward their UM degree, should apply for Non-UM Program status. For more specific information on the Non-UM program please see the application (https://umshare.miami.edu/web/wda/registrar/Forms-1/Non-UM%20Program%20Application.pdf).

Non-UM is only available in the Fall and Spring semesters.

Student Identification Numbers

All students at the University of Miami will receive an identification number that is unique to them. This number supplements the social security number, which is also required by the university in order to provide information to the federal government and approved agencies. Access to social security numbers is limited to staff who have a legitimate need for that information.

Transfers Between Schools and Colleges

Undergraduate students who have compiled fewer than sixty (60) credit hours may transfer between schools and colleges provided that such students:

1. Demonstrate their academic admissibility to the new program (as defined by class rank and SAT scores) at the time of their original matriculation at the University;

2. Satisfy any special criteria required for admission by a particular program (e.g., auditions in the arts, portfolios in architecture, etc.); and

3. Obtain the approval of the Dean of the receiving school or college.

It is a general policy of the University that students admitted to degree seeking status may not transfer to an unclassified status.

Students who have compiled 60 or more credit hours with an average of 2.0 or higher and who have satisfied all of the above three conditions may be eligible to transfer between schools and colleges pending space availability and additional program requirements.

Student-Right-To-Know and Campus Security Act

The Student-Right-To-Know and Campus Security Act requires institutions to disclose information about graduation rates and crime statistics to current and prospective students. Students interested in obtaining this type of information should contact the Office of Admission, 305-284-4323 or go to this website (http://www.miami.edu/hea).

Family Educational Rights and Privacy Act (FERPA) Buckley Amendment

The purpose of this policy is to assure that students have access to their educational records and to assure the privacy of students by restricting the disclosure of information from education records to those persons authorized under the Act.

The policy is provided to all students in the Student Life Handbook. Copies can also be printed from the website (http://www.miami.edu/SRR).

Security of Student Records

The Office of the Registrar is charged with the responsibility of maintaining the security and integrity of student records. Student records created before 1985 have been electronically scanned. Student records created after 1985 are housed on an electronic database.

In order to maintain confidentiality, access to the student record system is limited to university personnel who have a legitimate need for this information. Each user is required to fill out an access form. A user name is created, and each user must also create a password that must be changed every 180 days. Periodic audits of records as well as reviews of who has access to the system are regularly scheduled to ensure a secure environment.

Students are assigned a UM ID number that is unique to them and they are encouraged to use it instead of their social security number. Students are required to provide their student ID or a photo ID when requesting academic record information from this office.

FERPA Training

FERPA, the Family Educational Rights and Privacy Act, provides established guidelines for universities to ensure that students have access to their educational records as well as to ensure the privacy of said records by restricting the disclosure of information from educational records to those persons authorized under the Act. FERPA guidelines must be followed when dealing with the disclosure of student information.

All staff who use the student records system are required to complete a FERPA tutorial. Periodic reviews are required.

Service Indicator (Hold) on Student Records

Schools and colleges, university administrative departments and other student related offices have the ability to put service indicators, also known as holds, on student records. These holds can be financial, academic or disciplinary in nature and may delay a student’s ability to register, to receive an official transcript or to receive a diploma. Holds on a student’s record normally require action on the part of the student, i.e.,
a payment, completion of paperwork, etc. Specific information on a hold and what is required to remove it can be found in the Student Services Center in CaneLink or can be obtained from the office/department that initiated the hold.

**Admission**

The University of Miami is a member of the National Association for College Admission Counseling and subscribes to its Statement of Principles of Good Practice.

**Freshman Admission**

The Admission Committee reviews applications and bases admission decisions on the following factors:

- **The Secondary School Record.** The applicant must be in the process of completing graduation requirements at a regionally accredited secondary school or must be a graduate of an accredited secondary school. The applicant must have successfully completed a solid college preparatory program including English, Mathematics, natural sciences, social sciences and foreign language.

- **Standardized Tests.** Applicants attending schools in the United States must submit official SAT or ACT results. The results of these tests, together with the secondary school record, provide a better measure of the ability of a candidate to perform college level work successfully than can be obtained by either measure alone. Applicants graduating from a secondary school outside of the United States should not submit SAT or ACT results.

- **The Counselor’s Evaluation Form.** This form is to be completed by the applicant’s secondary school counselor and includes rank in class, test score information, and an evaluation of potential for academic success in the student’s area of interest.

- **The Essay.** Since each applicant is considered individually, the Essay provides the opportunity to present information that may assist the Admission Committee as it evaluates the application for admission.

**Transfer Admission**

Transfer admission may be granted in most fields of study to students who have earned credit hours from other regionally accredited colleges or universities. Courses completed with passing grades of C or higher at other colleges and universities and acceptable for academic credit hours by the University of Miami, will be verified, and where appropriate, will be translated into University of Miami equivalents by the Office of Undergraduate Admission. However, the Dean of the College or School within the University from which the student plans to graduate determines which transferred courses may be counted toward meeting graduation requirements of that College or School.

**Transfer of Credit Hours to UM**

Work taken at other institutions will appear on the University of Miami transcript in separate entries as:

1. The total number of transferable credit hours attempted and quality points earned, regardless of grades, and

2. The total credit hours transferred, which shall be the total credit hours for which a grade of C or higher was earned.

   *Note: Only the transfer totals earned are added to the University of Miami totals. Total credit hours attempted and quality points earned elsewhere are not included in the University of Miami totals.*

The University does not accept transfer credit hours for courses in which a grade of C- and below (or the equivalent grade) was earned. However, grades of C, D, and F are used to calculate the transfer admission grade point average.

Credit hours are not transferred from institutions not accredited by the appropriate regional accrediting association. Limited exceptions may be made with the approval of the Dean in the College or School of the student’s major. Credit hours transferred from institutions not in existence long enough to attain regional accreditation must be validated by the attainment of a C average or better in the first 12 credit hours of course work taken at the University of Miami.

The University does not have a coursework forgiveness policy. The grades of any repeated courses will be averaged.

A student may not repeat a course in which a grade of C or higher has been earned. This is considered an illegal repeat.

Upper division course requirements (300 level or above) at the University may not be satisfied with community college courses.

After being offered admission and enrolling, a student must submit any final college transcripts with grades, AP, IB, AICE or CLEP examination scores for review by the end of the first semester of enrollment. Any documents listed above which are submitted after this time period will not be reviewed and credit hours will not be awarded.

**Required Credit Hours in Residence at the University of Miami**

A student transferring credit hours from a 2-year community or junior college (this being the last school attended) must complete a minimum of 45 credit hours in residence at the University of Miami to earn an undergraduate degree.

A student transferring credit hours from a 4-year college or university (this being the last school attended) must complete a minimum of 56 credit hours in residence at the University of Miami to earn an undergraduate degree.

At least half of the credit hours required for the chosen Major or Minor must be completed at the University of Miami.

See Admission procedures for transfer students (http://www.miami.edu/admission/index.php/undergraduate_admission/apply/transfer_applicants/transfer_application_instructions).

**Undergraduate International Admission**

[ELIGIBILITY FOR ADMISSION](http://www.miami.edu/admission/index.php/undergraduate_admission/apply/international_applicants/eligibility_requirements_by_country)
Admission Procedures for International Students

Educational Documents

Diplomas, Certificates
Copies should be enclosed with the application. Students from countries following the British educational system must submit certified photocopies, or ask the examinations council to mail confidential results to the University of Miami. Reports of scores in school-leaving examinations (e.g., Baccalaureate) must also be submitted.

Transcripts, Statements of Marks
A transcript must contain the following information: subjects studied; marks (grades) awarded; length of class periods; number of periods per week for each subject; and grading scale with minimum passing mark. Year-by-year records of marks should be sent to the University of Miami directly from U.S. institutions. Certified records from foreign institutions may be submitted by applicants, but the University may sometimes insist that such transcripts be sent directly to the University of Miami from the issuing institutions. All secondary and tertiary transcripts must be submitted.

English Translations
Documents in a language other than English must be accompanied by certified English translations. Notarized translations will not be accepted. Translations supplement but do not replace original documents. Please remember to send both.

Syllabus of university study (description of each course or subject studied accompanied by certified English translations. Notarized translations will not be accepted).

A current (within the past six months) bank or government sponsorship letter guaranteeing payment for tuition and fees, books, room and board, medical insurance and personal expenses for one calendar year (two semesters and two summer sessions) is required.

Examinations for International Students

All international students whose native language is not English, including those applying for transfer from U.S. institutions, are required to submit the results of the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). The TOEFL code for the University of Miami is 5815.

The SAT score report is not required and should not be submitted for admission consideration from applicants who are attending schools outside the United States. Applicants should only submit an SAT score report if they qualify for merit scholarship consideration.

Please see the TOEFL Score Requirements (http://www.miami.edu/admission/index.php/undergraduate_admission/apply/international_applicants/toefl_or_other_english_proficiency_requirements).

Conditional admission: Academically qualified applicants who are unable to take the TOEFL, or who have scored less than the required minimum, may be offered admission to undergraduate programs with the condition that they successfully complete level five of the University of Miami Intensive English Program or obtain a 550 TOEFL and higher. University of Miami TOEFL code number is 5815, and the IELTS code number is 4861.

Institutional TOEFL scores are designed for academic placement use at the University of Miami. Those needing TOEFL for admission to the University of Miami or for use elsewhere should take the TOEFL iBT instead. Visit www.ets.org/toefl/ (http://www.ets.org/toefl) for more information about the TOEFL iBT.

Please see the IELTS Score Requirements (http://www.mi.edu/admission/index.php/undergraduate_admission/apply/international_applicants/toefl_or_other_english_proficiency_requirements).

IELTS is the International English Language Testing System. It measures ability to communicate in English across all four language skills—listening, reading, writing and speaking—for people who intend to study or work where English is the language of communication.

IELTS Course ID (codes): Undergraduate Admission – 4861; Graduate Admission – 4862. For more information, visit http://bandscore.ielts.org/course_info.aspx?OrgId=3187.

Programs of Study

International students are eligible to apply for all programs offered at the University of Miami. It should be noted that medicine and law are studied at the graduate level in the United States, and it is therefore inappropriate for undergraduate international applicants to request these programs.

Financial Information

The University of Miami has no financial assistance for international students other than academic scholarships. International students must provide funds for all of their expenses during the entire period of study, including travel and vacations. Students who would not be able to cover their expenses are best advised not to apply for admission.

Early Admission

A limited number of carefully selected students who are currently enrolled in high school and who have completed three years of study may be admitted to the University as freshmen. Early admission applicants typically have a very strong academic background and demonstrate a mature character.

Students who wish to apply under Early Admission must have the support of his/her parents, guidance counselor, and high school. Early applicants must also schedule an interview with the Office of Undergraduate Admission.

Early Admission applicants must submit official high school transcripts, SAT or ACT examination results, and all other supporting documents required to complete the application process. Early Admission applicants will be notified of an admission decision by June 1 or after receipt of grades from the final high school year completed.

Since every applicant must be appraised individually, no general qualifications can be listed. Students interested in early admission may send inquiries and requests for applications to the Office of Undergraduate Admission.

Advanced Placement/Credit

The University allows students to receive college credit hour toward graduation from the following programs: Advanced Placement,
International Baccalaureate, Dual Enrollment, and College Level Examination Program. To have Advanced Placement, International Baccalaureate, or College Level Examination Program credit hours evaluated, the student must submit an official test result report to the Office of Undergraduate Admission. The University of Miami does not give credit hour for CLEP Foreign Language and General Examinations. Students taking Dual Enrollment courses (college courses taken while still in high school) must submit an official college transcript for review of potential transfer credit hour. Please refer to the transfer student section for requirements to transfer college coursework.

A student must submit official AP, IB, Dual Enrollment transcripts or CLEP results no later than the end of the first semester of enrollment for review. Documents submitted after this time period will not be reviewed and credit hour will not be awarded.

The University will accept no more than 60 credit hours from these programs to count toward the 120 credit hours required for graduation.

**GED Scores**

**Submitting GED Scores**

An applicant may apply to the University upon completion of the GED in lieu of completing high school. When applying with the GED, the applicant must submit official high school transcripts up to the time of withdrawal, as well as the official GED score report and diploma.

Applicants submitting the GED must achieve the following scores to be considered for admission. These scores should be considered a guideline and do not guarantee admission to the applicant.

**For exams taken in English:**

- Overall score of 2800
- No subscore below 500

**For exams taken in any language other than English:**

- Overall score of 3000
- No subscore below 600

It is strongly suggested that applicants submitting the GED in any language other than English also submit a TOEFL score.

**Non-Degree Enrollment**

**Adult Student Access Program (A.S.A.P.)**

For information and policies regarding enrollment for classes in a Non-Degree seeking status, please visit this page: (p. 315)

For more information, please contact:

The Adult Student Access Program
Division of Continuing Studies
University of Miami
Coral Gables, FL 33124-1610
305-284-4000

**Financial Assistance**

http://www.miami.edu/admission/index.php/ofas/

The Office of Student Financial Assistance (http://www6.miami.edu/ofas) and Employment (https://www.miami.edu/ofas) administers federal, state, private and University financial assistance programs. Our office awards financial assistance for Undergraduate and Graduate/Professional students. We communicate with our students mainly through the CaneLink (https://canelink.miami.edu) system regarding any information we might need in order to complete the financial aid process. Medical students should contact their respective financial aid office.

**Office of Student Financial Assistance and Employment**

P.O. Box 248187
Coral Gables, FL 33124-5240
Telephone: 305-284-6000
Fax: 305-284-4082
Hours of Operation:
Monday-Friday (8:30 am - 5:00 pm EST)

**Undergraduate Financial Assistance**

It is the purpose of the Office of Student Financial Assistance and Employment to provide need base assistance and/or academic achievement awards to qualified students in the form of scholarships, grants, loans and work programs (http://www.miami.edu/index.php/office_of_financial_assistance/ug/ug_aid) to the extent that resources are available. Professional financial aid and student employment advisors are ready to assist all students plan for the most efficient use of their financial resources for education.

Underlying the awarding of need-based financial assistance is the philosophy that the student and family have the primary responsibility for educational costs. Need-based financial assistance serves to supplement these primary resources.

- Students who require financial assistance in order to attend the University should apply for assistance each academic year.
- Candidates for admission should indicate their interest in financial assistance by checking the box provided for that purpose in the application for admission.
- The U.S. Department of Education’s Free Application for Federal Student Aid (FAFSA) (http://www.fafsa.ed.gov) is used to determine eligibility for federal need based assistance. The FAFSA must be completed for each academic year.
- Beginning with students who entered during the 2014-2015 academic year (including readmitted students) the College Board’s CSS Financial Aid PROFILE Application is required to determine institutional need based financial aid awards. The PROFILE application must be completed each academic year to determine renewal eligibility.
Financial aid applications are accepted throughout the year but it is important to note that the appropriate preference date for receipt of aid applications must be met as aid is awarded on a funds available basis.

**DO NOT WAIT FOR YOUR ADMISSION DECISION TO APPLY FOR FINANCIAL AID.** Financial aid resources are limited and there is no guarantee of assistance for students who do not submit appropriate documentation by the deadline posted above. Your financial aid application will not be considered complete until all documents are received.

- Keep a checklist and copies of all forms submitted. Put the applicant’s name and UM ID# on all forms submitted.
- Use your best estimate of current income information when completing the FAFSA and PROFILE if your federal tax returns have not been completed by the application deadline. Submit your complete current year federal tax transcripts to our office by April 15.
- If you are not required to file a federal tax return and will not be filing, please notify us in writing.

**Financial Aid Census Date**

Effective Fall 2014, financial aid awards will be set according to a census date or date of fixed enrollment. All financial aid awards will be set according to the enrollment in effect at the close of business on the last day of the drop/add period each regular term semester. No adjustments will be made to the financial aid awards for any enrollment changes (increases or decreases) made after this date with two exceptions:

1. Bright Futures awards will continue to be adjusted (increased or decreased) according to any change in the enrolled credit hours.
2. The aid award package for students with federal financial aid and who completely withdraw (drop to 0 credit hours enrolled) will be adjusted according to the regulatory required Return To Title IV Calculation.

**Graduate and Doctoral Students**

It is the purpose of the Office of Student Financial Assistance and Employment to provide federal financial aid assistance to qualified students in the form of loans and work programs ([http://www.miami.edu/index.php/office_of_financial_assistance/ug/ug_aid](http://www.miami.edu/index.php/office_of_financial_assistance/ug/ug_aid)) to the extent that resources are available. Professional financial aid and student employment advisors are ready to assist all students plan for the most efficient use of their financial resources for education. Law, Graduate and Doctoral students need only complete a few steps in order to receive notification and disbursement of federal awards.

1. Apply for Admission to a Graduate Program or the Law Program at the University of Miami.
2. Complete the Free Application for Federal Student Aid (FAFSA).
3. Accept, reduce or decline your awarded aid via CaneLink.
   a. First-time loan borrowers must complete Entrance Counseling at the Department of Education website ([http://www.studentloans.gov](http://www.studentloans.gov)).
   b. A signed Promissory Note for both the Unsubsidized and the Graduate PLUS Loan are required if either loan is utilized. Each should be completed at the Department of Education website ([http://www.studentloans.gov](http://www.studentloans.gov)).
   c. Students receiving the Graduate PLUS Loan must have an approved credit check conducted by the Department of Education in order for the loan to be disbursed.

Your financial aid award may consist of loans, scholarships, tuition waivers or a combination. Aid is offered to a student’s maximum eligibility as determined by enrollment and the Cost of Attendance (COA).

Some of the aid programs which may be offered to a Law, Graduate or Doctoral student:

**Federal Direct Unsubsidized Stafford Loan:** the interest becomes due to the student upon the disbursement of the funds. However, a student may choose to capitalize the interest which will accrue and result in additional indebtedness when repayment begins. Eligibility is not based on need and is up to $20,500 for an academic year.

**Federal Direct Graduate PLUS Loan:** Borrowers may be eligible to request up to the cost of attendance minus other financial aid. Your award letter includes your maximum loan eligibility for the Federal Graduate PLUS Loan. This loan is based on the borrower not having an adverse credit history. Once you have accepted the offered loan amount on CaneLink, a credit check will be conducted by the US Department of Education. You will be required to have completed a Master Promissory Notice as well as Entrance Counseling (first time borrowers only). In the event your loan is declined, you have the option of appealing that decision or reapplying with an endorser; however, the Department of Education will then require you complete Credit Counseling in order to approve the disbursement of your loan.

**First-time borrowers** will need to complete the online Federal Direct Stafford Loan Master Promissory Note (MPN) and Loan Entrance Counseling with the Department of Education. Students may complete all federal student loan applications and entrance counseling at the Department of Education website ([http://www.studentloans.gov](http://www.studentloans.gov)).

**Scholarships and Tuition Waivers** are exclusively handled by the respective department. Our office is notified of scholarships/waivers by the department and it is then added to your award package. Adjustments to your Graduate PLUS Loan and/or other aid may take place upon notification to prevent an over award of aid.

In order to receive a graduate assistantship or fellowship, a graduate student must:

- Be admitted unconditionally to a post-baccalaureate degree program;
- Be enrolled for full-time study; and
- Maintain a cumulative graduate grade point average of 3.0 or above.

For additional information, please visit the [Law School Website](http://www.law.miami.edu) or the [Graduate School Website](http://www.miami.edu/grad). For specific information regarding graduate programs, contact the Graduate Advisor of the respective program. For information regarding loan and work-study opportunities, visit the [Office Student Financial Assistance and Employment website](http://www.miami.edu/ofas).

For United States citizens and eligible non-citizens, federal financial aid is available for online programs.
Eligibility

Please see the University’s Financial Aid (http://www.miami.edu/index.php/office_of_financial_assistance/g/g_applying/eligibility) website for eligibility criteria.

Applying for Financial Aid

To apply for financial aid, submit the Free Application for Federal Student Aid (FAFSA) (https://fafsa.ed.gov). Be sure to include the University of Miami school code 001536.

Awarding and Disbursing Financial Aid

Key Points and associated deadlines:

- Awards are processed on a rolling basis and are done annually, one academic year at a time (3 terms per academic year: Fall, Spring and Summer).
- Students are strongly encouraged to begin the application process at least four weeks prior to the start date of their program or renewal date of their existing loan.
- Applications will be accepted in the last 30 days of the term, but the Office of Student Financial Assistance and Employment cannot be held responsible if funds are not available for disbursement for the term. Delays can occur that are outside of the control of the Office of Student Financial Assistance and Employment.

New Students

The Office of Student Financial Assistance and Employment will award Financial Aid for new students when

- FAFSA has been received
- A student has been fully admitted
- Student has enrolled in classes

Financial Aid will be disbursed only when:

- All Official transcripts have been received by the University
- After the last day to add/drop and when attendance has been confirmed

Continuing Students

The Office of Student Financial Assistance and Employment will award Financial Aid for continuing students only when

- FAFSA has been received
- The student has enrolled in classes

Financial Aid will be disbursed only when:

- After the last day to add/drop and when attendance has been confirmed.

Maintaining Eligibility, including Satisfactory Academic Progress

Students must maintain all federal aid eligibility requirements for the entire term. Please see the eligibility page for specific criteria for maintaining eligibility.

Satisfactory Academic Progress

Federal and Institutional Need-based SAP Policy

- In compliance with federal financial aid regulations, the University of Miami requires satisfactory academic progress (SAP) towards a degree as an eligibility requirement for federal and university need-based financial assistance. The SAP policy requires both a quantitative and a qualitative measure of a student’s progress.
- This policy is applicable to all undergraduate, law, graduate and doctoral students receiving financial aid through federal aid sources, including the Federal Parent Loan for Undergraduate Students (PLUS).
- At the end of each semester, the Office of Student Financial Assistance and Employment Services reviews the academic progress of all University of Miami financial aid recipients.
- If it is determined that a student is not making satisfactory academic progress at the end of the semester, a notification is sent to the student. The student will be placed on financial aid warning for one semester. Aid will not be withdrawn for the subsequent (warning) term, but at the end of that term, the student’s academic record will be reviewed by Office of Student Financial Assistance and Employment and appropriate renewal or termination actions will be taken. Notification will be sent to the student detailing information on the appeal process.
- Federal academic progress policy is subject to change based on guidelines and changes made by the U.S. Department of Education.

Credit Completion and Cumulative Grade Point Average Requirement for all Federal Aid and UM Need-based Assistance

Undergraduate Students

A student must have earned at least 67% of the total credit hours attempted during his/her overall academic career. Graduate level credit hours cannot be combined to meet the 67% requirement; however, credit hours transferred into the University of Miami are used in the calculation. The percentage of earned credit hours is calculated by dividing earned credit hours by all attempted credit hours. Rounding does not apply (e.g.: student completes 21 of 31 attempted credit hours therefore percentage complete is 21/31 = 67%).

- Withdrawals, Incomplete, Audits, and Fs are attempted but not considered earned hours.
- Reinstatement of aid eligibility can be obtained by earning additional University-approved credit hours, achieving the 67% completion requirement, or having an appeal approved by a committee as outlined later in this section.
- The University reviews progress at the end of each semester. Aid eligibility will be restored upon determination that the progress requirements have been met.
All undergraduate students must meet and maintain the University of Miami credit hour and cumulative grade point average (CGPA) requirements to maintain satisfactory academic progress. The criteria listed below must be met to receive federal and institutional financial assistance administered by the Office of Student Financial Assistance and Employment.

<table>
<thead>
<tr>
<th>Credit Hours Earned</th>
<th>Minimum Cumulative G.P.A.</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 to 32</td>
<td>1.7</td>
</tr>
<tr>
<td>33 to 64</td>
<td>1.8</td>
</tr>
<tr>
<td>65 to 96</td>
<td>1.9</td>
</tr>
<tr>
<td>97+</td>
<td>2.0</td>
</tr>
</tbody>
</table>

This criteria does not apply for meeting requirements for University of Miami scholarships and State of Florida financial aid. State of Florida financial aid and University of Miami academic scholarships have their own CGPA requirements.

Maximum Period of Eligibility for All Financial Assistance Awards

- Degree-seeking undergraduate students receiving federal aid must complete their degrees within 150% of the normal time for completion as determined by the school or college catalog under which the student was admitted. For example, if an academic program requires 120 credit hours, the student must complete the program within 180 total credit hours. Credit hours used in this calculation include those accepted for transfer and those attempted at the University of Miami.
- Pell Grant eligibility is limited to 12 full time semesters or the equivalent (e.g.; two half-time semesters equal one full time semester) www.studentaid.ed.gov/pell-limit (http:// studentaid.ed.gov/PORTALSWebApp/students/english/PellLimit.jsp).
- Students receiving university need-based grants are limited to four years of eligibility (five years of eligibility for the five-year undergraduate degree programs).
- Federal Financial Aid Semester Review - Graduate and Doctoral
  - A student must have earned at least 67% of the total credit hours attempted during his/her overall academic career. Undergraduate and graduate level credit hours cannot be combined to meet the 67% requirement; however, credit hours transferred into the University of Miami are used in the calculation. The percentage of earned credit hours is calculated by dividing earned credit hours by all attempted credit hours. Rounding does not apply. (e.g.: Student completes 21 of 31 attempted credit hours, percentage complete is 21/ 31 = 67%).
  - Withdrawals, Incompletes, Audits, and F’s are attempted but not considered earned hours.
  - Credit hours transferred into the University of Miami will be counted as credit hours attempted and credit hours earned.
  - Reinstatement of aid eligibility can be obtained by earning additional University approved credit hours, achieving the 67% completion requirement, or having an appeal approved by a committee as outlined later in this section.
  - The University reviews progress at the end of each semester. Aid eligibility will be restored upon determination that the progress requirements have been met.

Graduate students must be enrolled at least half-time in order to receive federal financial assistance. A minimum of 5 graduate credit hours constitutes at least half-time enrollment at the graduate level. The only exception to this credit hour requirement is enrollment in any of the 800-level research courses. Students enrolled in any of these courses are considered full-time and are eligible for federal loans.

Graduate and Doctoral Students
All University of Miami graduate and doctoral students must maintain a minimum 3.0 cumulative grade point average (CGPA). Graduate students who fail to meet the minimum credit hour or cumulative grade point average requirements have failed to meet the satisfactory academic progress standards established by the University. Those in violation of the satisfactory academic progress eligibility requirements will be notified in writing of their eligibility status and right to appeal.

Maximum Period of Eligibility for All Financial Assistance Awards

- Graduate students may receive federally-funded assistance for the time to complete their degree requirements in accordance with limits set by the Graduate School. The limits are: six (6) years for those studying for the various masters degrees and 8 years for those studying for doctoral degrees. Students pursuing dual masters degrees will receive aid for a maximum of six (6) years. Students in a combined masters degree/doctoral degree program are eligible for assistance for a maximum of eight (8) years.
- Time to completion starts when a student begins any program in the Graduate School, whether it is a masters or doctoral program. All work must be completed within six years of the time of admission to graduate work, for those studying for the various masters degrees; and within eight years for those studying for doctoral degrees. For those admitted directly into a Ph.D. program without a masters degree in field, work must be completed within eight years. Individual programs may be set to a shorter time period.
- Graduate students who plan to enroll in a graduate degree program should keep in mind their aggregate loan limits. For more information, go to the National Student Loan Data System (NSLDS) at http:// www.nslds.ed.gov. This site displays information on loan amounts, outstanding balances, loan statuses and disbursements.

Law School Students

Scholarship SAP Policy
Undergraduate

- The academic scholarship is available to undergraduate students enrolled full time in a course of undergraduate study leading to the first bachelor's degree.
- First-time freshmen are eligible for University of Miami academic scholarships for four years (eight consecutive semesters), or such shorter time required to complete the baccalaureate degree.
- Transfer students are eligible for University of Miami academic scholarships for two years (four consecutive semesters), or such shorter time required to complete the baccalaureate degree.
- Academic scholarships may be applied only to fall and spring semester coursework of undergraduate study only. They are not available during a summer term.
- Bachelor of Architecture students may receive the scholarship for five academic years (ten consecutive semesters), or such shorter time required to complete the degree. Bachelor of Architecture students admitted as a transfer student from another university may receive the scholarship for up to three academic years (six consecutive semesters), or such shorter time required to complete the degree.
Credit Hour and GPA Requirements for UM Scholarships
• Scholarship recipients must maintain a minimum 3.0 cumulative grade point average (on a 4.0 scale) for all credit hours earned at the University of Miami to retain their scholarship.
• All full-time undergraduate students are required to register for and complete at least 24 (a minimum of 12 each semester) new credit hours at the University of Miami each academic year, defined as the fall and spring semesters.
• Reinstatement of academic scholarship eligibility can be obtained by earning additional University-approved credit hours. The University reviews progress once a year at the end of the spring semester.
• Withdrawals, Incomplete, Audits, and F’s are attempted but not considered earned credit hours
• Ronald Hammond scholarship recipients should refer to their contract for renewal criteria provided by the Office of Academic Enhancement (http://www6.miami.edu/provost/oaes).

All 2014-2015 and prior academic scholarship recipients please refer to the Bulletin at the time when you were admitted into the university for scholarship renewal requirements.

Graduate/ Professional
Graduates scholarships awards are determined by the departments. A student’s academic progress and eligibility for an award is monitored and evaluated by the departments.

State of Florida SAP Policy
The Florida Department of Education (http://www.fldoe.org/students/financialaid.asp) and Office of Student Financial Assistance (http://www.floridastudentfinancialaid.org) has its own standards of progress for state financial assistance.

• All Bright Futures Scholarship recipients (includes Florida Academic and Florida Medallion scholarships) are eligible for up to 132 credit hours; however, eligible students may only receive up to 45 credit hours per academic year.
• 2009-2010 high school graduates and thereafter may receive up to 100% of his/her program of study or 120 credit hours (or the equivalent in quarter or clock hours) toward completion of his/ her first baccalaureate degree, or for up to five years from high school graduation (if the student was initially funded within three years after high school graduation), whichever comes first.
• Florida Gold Seal Vocational Scholar recipients who graduate from high school in the 2009-2010 academic year and thereafter are eligible to receive funding for up to 100% of their program of study, up to 90 credit hours.
• State of Florida Aid academic progress policy is subject to change based on changes made by the Florida Department of Education.

A student must earn at least 24 credit hours (or the equivalent) if enrolled full time for the entire academic year. A student enrolled full time (12 or more credit hours or the equivalent) for only one term must earn at least 12 credit hours for that term. If a student is enrolled part time for any part of the academic year, the student must earn a prorated number of credit hours. (See below). Initial eligibility must be at least 6 credit hours.

<table>
<thead>
<tr>
<th>Student Funded (per term)</th>
<th>Required Earned Hours (per term)</th>
</tr>
</thead>
<tbody>
<tr>
<td>12+ credit hours (Full Time)</td>
<td>12</td>
</tr>
<tr>
<td>9-11 credit hours (Three-Quarter Time)</td>
<td>9</td>
</tr>
</tbody>
</table>

A student that fails to meet the minimum institutional grade point average (3.0 for Florida Academic, 2.75 for Florida Medallion and Gold Seal) will no longer be eligible for his/her Bright Futures award. Florida Academic recipients that fail to achieve a 3.0 institutional average, but achieve at least a 2.75 institutional average, will renew at the lower Florida Medallion amount. Recipients that fail to meet the progress requirements receive notice including information on the appeal process.

• Award Reinstatement: an eligible student that did not receive scholarship funds for the last academic year (fall through spring), may request reinstatement of the award. The student must complete a Reinstatement/Restoration application available on the Florida Department of Education Office of Student Financial Assistance (OSFA) website at http:\www.FloridaStudentFinancialAid.org (http://www.floridastudentfinancialaid.org)
• Award Restoration: a student that failed to achieve a minimum 2.75 institutional GPA and became ineligible for funding may apply for restoration in an academic year after which the 2.75 institutional GPA requirement was met. (The 2.75 institutional GPA must be met before the fall term for which the student is applying.) The student must complete a Reinstatement/ Restoration application available on the Florida Department of Education Office of Student Financial Assistance (OSFA) website at http:\www.FloridaStudentFinancialAid.org (http://www.floridastudentfinancialaid.org)
• For 2009-10 and later high school graduates, if a scholarship is not renewed because of an insufficient GPA during their first year of funding, the scholarship may be restored in an academic year after the minimum institutional GPA requirement is met. Students who do not meet the minimum earned credit hours requirement or who fail to meet the minimum institutional GPA requirement after their first year of funding will NOT be permitted a restoration opportunity. *State of Florida Aid academic progress policy is subject to change based on changes made by the Florida Department of Education.
• Recipients of the William L. Boyd, IV, Florida Resident Access Grant (BFRAG) and Florida Student Assistance Grant (FSAG) must complete at least 24 credit hours each academic year with an institutional grade point average of at least 2.0. Classes taken in the previous summer may be included in calculating the completed credit hours (credit hours earned during summer of 2014 may be combined with the credit hours earned during the 2014-2015 academic year to meet the 24 credit hour requirement). Please note that credits earned the previous summer at another institution may be counted if they are accepted as transfer credits to the University of Miami; however, this will have no impact on the CGPA calculation at UM.
• William L. Boyd, IV, Florida Resident Access Grant (BFRAG) and Florida Student Access Grant (FSAG) recipients are limited to nine semesters of eligibility.
• Florida Incentive Scholarship Grant (BFSAG) recipients are limited to nine semesters of eligibility.

Students that do not meet the annual minimum 24 credit hours requirement for renewal may not receive funding the following academic
year. To be eligible for renewal in a subsequent year, the student must meet the general eligibility requirements for renewal and have maintained/earned an institutional GPA of 2.0.

Students enrolling for only one semester must complete at least 12 new credit hours while maintaining the required institutional GPA.

SAP Appeals Process

Students that do not meet the academic progress requirements may submit a written appeal to request reinstatement of eligibility to receive aid. The student must complete the University of Miami’s Academic Progress Appeal Form. This petition requires the student to:

1. Submit a written explanation as to why he/she was unable to meet or maintain the academic progress requirements; and
2. Submit documentation that substantiates the student’s circumstances, such as a letter from a doctor or copies of medical bills if a student cites medical reasons for not meeting the requirements.

The appeal form (http://www.miami.edu/admission/index.php/ofas/undergraduate/undergraduate_forms) may be downloaded from the financial assistance website. Submit the Appeal Form and all documentation to the Satisfactory Academic Progress (SAP) Appeal Committee, c/o the Office of Student Financial Assistance and Employment. All appeals must be submitted no later than 30 days from notice of ineligibility. All appeals submitted completely and on time will be reviewed by the committee prior to the beginning of each semester. Decisions are made using the appeal documentation provided by the student in conjunction with the student’s academic record. All decisions by the committee are final.

A general description of the major financial assistance programs available through various departments as well as the Office of Student Financial Assistance and Employment can be found here (http://www.miami.edu/ofas).

Student Employment

Student Employment

Student Employment (http://www.miami.edu/ose) is responsible for assisting and guiding students (admitted and enrolled in a degree program at the University of Miami) through the job search and placement process while attending the University.

Student Employment provides job opportunities to all students regardless of sex, age, disability, sexual orientation, ethnicity, nationality, race or creed. University of Miami student employees are required to adhere to established federal, state and local employment regulation practices.

Employment programs for undergraduate students include the Federal Work Study, Student Assistant program, and Miami Commitment program, all of which offer opportunities on campus and in the surrounding community. Employment programs for graduate students include: Federal Work Study, Student Assistant Program and Graduate Assistantships.

Eligibility for an employment program does not provide the funds up-front for tuition expenses.

Federal Work Study

Federal Work Study (http://www.miami.edu/index.php/ose/student_information/on-campus_student_employment_programs/fsw) is a need-based program that provides part-time job opportunities based on your financial aid eligibility. To apply for Federal Work Study, you must complete the Free Application for Federal Student Aid (FAFSA) and check yes to “Are you interested in being considered for work study?”

Students who are awarded Federal Work Study obtain jobs available at the University of Miami campuses or at off-campus community service agencies that have been approved to participate in the program.

Student Assistant Program

The Student Assistant program (http://www.miami.edu/index.php/ose/student_information/on-campus_student_employment_programs/student_assistant_program) is for those students who do not apply or qualify for financial aid. Student assistant positions are similar to Federal Work Study in terms of job responsibilities and rates of pay; however, they are not supported by federal funds.

Miami Commitment Program

The Miami Commitment program (http://www.miami.edu/index.php/miamicommitment/miami_commitment_forms/endofyear_evaluation) is available by invitation to a limited number of students based on Office of Admission recruitment strategies. To be considered, invited students must apply to the program by the published deadline.

Graduate Assistantship Program

Graduate Assistantships (http://www.miami.edu/index.php/miamicommitment/miami_commitment_forms/endofyear_evaluation) are mostly offered directly to selected students by their academic departments. Graduate Assistantships may include a tuition scholarship of varying amounts, in addition to work payment. Students must be admitted to a Graduate or Professional Degree Program at the University of Miami in order to be hired as a Graduate Assistant.

Off-Campus Employment

Students seeking career-related experiences (http://www.miami.edu/index.php/ose/student_information/off-campus_student_employment) and who have reliable transportation can work off-campus. Student Financial Assistance and Employment acts only as a referral service and makes no particular recommendations regarding off-campus employers. Off-Campus employers hire students directly and Student Financial Assistance and Employment is not responsible for safety, wages, working conditions, or other aspects of off-campus employment.

The University of Miami participates in E-verify (http://www.miami.edu/index.php/ose/student_information/after_being_hired/e-verify_ose). E-Verify is an Internet-based system that allows an employer, using information reported on an employee’s Form I-9, to determine the eligibility of that employee to work in the United States. The E-Verify system is operated by the U.S. Department of Homeland Security (DHS) in partnership with the Social Security Administration (SSA). Student employees need to present original documents to complete the Form I-9 and E-Verify. A list of other acceptable documents can be found online at miami.edu/ose (https://umshare.miami.edu/web/wda/benefits/FormI9Documents.pdf).
**Terms and Conditions**

**My UMIAMI E-MAIL ACCOUNT**

I understand University of Miami Office of Student Financial Assistance and Employment (OSFAE) will communicate with students and their parents by e-mail. I will monitor my CaneLink account and will be responsible for checking my email account regularly. I understand if I miss an important deadline or lose eligibility because I did not resolve an outstanding issue, I will not hold the OSFAE at fault.

**ESTIMATED FINANCIAL AID AWARDS**

I understand my award may be "ESTIMATED" due to a variety of issues that I will need to resolve before my financial aid can be disbursed. I will monitor my outstanding requirements on CaneLink and submit the necessary documentation as soon as possible. I understand if I fail to complete the financial aid process by the priority deadline, my financial aid eligibility may be affected or I may not be eligible for a variety of funds which I may have received in previous years.

**FINANCIAL AID OVER-AWARDS**

I understand my financial need is the difference between the cost of attendance (COA) and the amount of my expected family contribution (EFC) as calculated by the Institutional Methodology formula from data I provided on the CSS Profile. I understand my eligibility may change if I receive funds from another source that is not included on my initial financial aid award. I understand the OSFAE will communicate with me about these changes and I will review CaneLink frequently to understand how my award may have been affected.

**OUTSIDE SCHOLARSHIP**

I understand if I receive an outside scholarship or additional state grants/scholarships my award may be affected. I will submit all information from my scholarship agency to the OSFAE as soon as I am notified that I will be receiving additional funds. I understand the OSFAE will first fill any gap between the institutional EFC and federal EFC, and then reduce my loans/work study before reducing any need-based grant eligibility in my financial aid package. I understand I can request the OSFAE reduce my work study before reducing my loan eligibility, however, I must do so in writing with the OSFAE.

**FEDERAL AND INSTITUTIONAL WORK STUDY PROGRAMS**

I understand there are a variety of work study (federal and institutional) positions available on and off campus. It is my responsibility to find a suitable employment opportunity that fits my needs, areas of interest and academic schedule. Once I find an employer, I understand I must complete a work study authorization form, I-9 form, W-4 form and a direct deposit authorization before I can begin work. I understand if Federal Work Study is awarded as part of my financial aid package, the amount indicated is the maximum amount I may earn during the academic year. I also understand the amount awarded is not a guarantee of employment and that if I apply too late in the hiring season, I may not find a suitable position to take advantage of the work study program.

**INSTITUTIONAL AID ENROLLMENT REQUIREMENTS**

For all merit and need-based aid from the University of Miami, full-time enrollment is required. Full-time enrollment is defined as 12 credits or more each semester. The student must have the required full-time enrollment to qualify for institutional aid. Enrollment of less than 12 credits may result in the reduction or loss of some aid programs.

**SATISFACTORY ACADEMIC PROGRESS**

I understand in order to be eligible for federal, state and institutional financial aid programs, I must initially and continually meet satisfactory academic progress (SAP). University of Miami standards of SAP measure a student's academic performance both qualitatively and quantitatively by reviewing the following three areas of performance: completion rate for coursework enrolled, cumulative grade point average earned, and the maximum time frame to complete a degree. I understand the OSFAE is responsible for ensuring that I am meeting these minimum standards. The standards of SAP apply for all federal, state and college funded financial assistance programs. I understand if I fail to meet the minimum requirements to be eligible for financial aid, I will lose my eligibility at the end of the period of review. I will have the opportunity to appeal the loss of my financial aid within 30 days of notification; and if my appeal is approved, I will have one semester to improve my GPA and completion rate. I understand if my appeal is denied, there is no further recourse to reinstatement of my financial aid at that time.

**REPEAT COURSE WORK**

I understand if I pass a course and need to retake that same course for a better grade my financial aid may be affected. I will work with my advisor to ensure I maintain my full-time status in order to receive all of my financial aid. I understand by the end of the add/drop period, if I have not enrolled in full-time credits, my financial aid will be affected, removed or may be prorated based on the total of all the new courses that have not already been paid by my financial aid. Full-time enrollment is defined as 12 credits or more for the fall and spring semesters. Enrollment of less than 12 credits may result in the reduction or loss of aid.

**WITHDRAWAL OR LEAVE OF ABSENCE**

I understand financial aid funds are awarded with the expectation that I will complete the entire period of enrollment. I earn a percentage of funds that are disbursed with each day of class attendance. If I decide to leave school before the end of the semester or designated period of enrollment, I understand federal regulations require University of Miami to calculate the percentage and amount of "unearned" financial aid funds that must be returned. If I complete more than 60% of the enrollment period, I will have earned all of my eligibility for federal aid for that period. I understand this calculation may require me to repay funds that have already been disbursed or credited to my student account.

**ENROLLMENT FREEZE/CENSUS DATE**

I understand the college will freeze my enrollment at the end of the add/drop period for each semester. This means I will make any and all adjustments to my course schedule before the end of the add/drop period to avoid any problems with repeat courses or being under-enrolled. I understand once my course schedule has been completed my Pell Grant will not adjust regardless of any changes to my enrollment. However, I may be eligible to receive more loans if in the event I am charged more due to the adjustment to my course schedule. Full-time enrollment is defined as 12 credits or more.

I understand most federal financial aid requires at least half-time enrollment including Federal Pell Grant and Direct Loans. Most institutional financial aid requires full-time enrollment including need-based UM grants and merit scholarships. Adjustments to financial aid for enrollment changes after the Census Date will not be done except for
Florida Bright Futures and in the case of a complete withdrawal from the University. There are no exceptions to this policy.

**RECONSIDERATION OF FINANCIAL AID AWARDS**

I understand I have the opportunity to appeal some financial aid decisions. If I wish to request a reconsideration of financial aid, I must submit an appeal to the OSFAE with supporting documentation of my situation. I understand that only certain circumstances can be evaluated such as loss of income, unusual medical expenses (not premiums), separation/divorce of parent’s, death of a family member, non-discretionary expenses incurred by the family.

**SUMMER LEAVE TERM EXPECTATION**

A portion of the family's contribution is the responsibility of the student. UM expects the student to contribute a minimum of $2,000 from income (summer and leave term employment opportunities) and any savings or other resources that may be available to the student. University of Miami follows this policy with the following exception: In an effort to encourage participation in summer internships, UM will provide need-based financial aid to replace the summer savings expectation for all students who are unable to earn and save all or a portion of their student contribution. In order to qualify for additional financial aid, students must meet posted deadlines for participation in a summer internship.  

Note: The additional financial aid may take the form of increased work-study employment, student loan and/or grant (if applicable) as determined in conjunction with the student's financial aid eligibility and University of Miami's awarding policies.

**Financial Payment Policies**

**Policy**

All semester charges (tuition, room, board and fees) are due by the date on the billing notification e-mail, unless an established Monthly Payment Plan contract has been finalized with the Office of Student Account Services. Previously unbilled and new charges are due and payable when incurred. Payment is considered complete only when all charges are paid or when satisfactory arrangements to pay have been finalized with the Office of Student Account Services.

**Consequences of Non-Payment**

There are consequences to non-payment. Students that are delinquent in paying their tuition and fees statement balance and/or Monthly Payment Plan contract has been finalized with the Office of Student Account Services. Previously unbilled and new charges are due and payable when incurred. Credit will be held on transcripts and course registration for the current and subsequent semester. Cancellation may also lead to the forfeiture of any financial aid the student may have been awarded.

Course selection will not be permitted for any past due accounts including Monthly Payment Plans. A late payment fee will be assessed on all delinquent accounts.

**Finance Charges**

No additional charges are imposed on an account once full payments are received by the payment due date. If, however, payment is received after the payment due date, a Finance Charge is assessed. Finance charges are assessed at an Annual Percentage Rate of 16%.

**Anticipated Payments**

If financial aid funds are not available at the time of registration, the student would normally be expected to cover these payments. However, financial aid awards will be considered “anticipated” under the following conditions:

- The Office of Student Financial Assistance and Employment (OSFAE) is provided with a source of aid (other than College Work Study or Miami Commitment) on the student’s award package.
- OSFAE awards the corresponding amount on the student’s award package. i.e., outside scholarship information must be provided to both the Offices of Financial Assistance and Student Account Services in order to consider the aid as “anticipated.”
- OSFAE allocates the guaranteed award during the semester that the disbursement should be expected.
- Final guarantees have been processed by the appropriate alternative loan lender – preliminary approvals will not result in automatic disbursements of alternative loan funds.

**Examples**

Veterans Monthly Educational Benefit Checks: An amount not to exceed the total of the checks expected to be received during the semester (for fall and spring, this is typically three checks) may be credited. Arrangements for this type of tuition credit must be initiated with a representative of Veterans Affairs through the Office of the Registrar and the Office of Student Account Services. Students with VA benefits are required to sign a promissory note with the Office of Student Accounts in order to have their anticipated awards credited to their account.

International Students with Government Sponsorships: Payment of all or a portion of charges that can be billed directly to corresponding government agencies may be credited upon presentation of proper documentation from their government or embassy.

**Florida Prepaid Program**

The University of Miami will assist with a student’s education expenses by billing for any available Florida Prepaid College Program funding directly to the Florida Prepaid College Board. Florida Prepaid participants may authorize the University of Miami to request a payment disbursement option that best matches your needs and current savings in the plan. We encourage participants to authorize a payment that will facilitate your financial planning objectives for your student’s enrollment at the University of Miami.

The University of Miami requires all students requesting FLPP to complete the “Florida Prepaid College Program Authorization Form” each academic year. In addition to this form, all students who plan to use their prepaid funds must contact Florida Prepaid at 1-800-552-4723 option 2, and request a separate Florida Prepaid “Transfer Form.” Upon your request, Florida Prepaid will mail the Transfer Form to you. The purchaser of the plan must complete this form and return it directly to Florida Prepaid. It is necessary that Florida Prepaid have this Transfer Form on file in order for students to use Florida Prepaid funds at the University of Miami.

Questions in reference to Florida Prepaid can be emailed (saccounts@miami.edu) with “Florida Prepaid” in the subject line. The required authorization form for the University of Miami and an example can be downloaded here (http://www.miami.edu/finance/index.php/student_account_services/third_party_fl_prepaid/florida_prepaid).
Policy on Previous and Unpaid Balances

Non-Payment

The University of Miami may declare due and payable at once the sum of all past due balances. In addition, the student will be responsible for interest accrued on all past due and unpaid amounts at the maximum rate permitted by law and any and all costs incurred by the University of Miami in enforcing its rights. The University reserves the right to withhold transcripts, diplomas, readmission, and future registration for non-payment of outstanding balances. The University's Collection Department may also disclose the student's outstanding indebtedness, along with other relevant information, to credit information bureaus. A non-refundable $100 reinstatement fee will be charged to reinstate each unpaid and cancelled semester.

Refund Information

Definitions

Title IV Financial Aid or Title IV Programs refers to the following awards:

- Unsubsidized Federal Stafford Loans
- Subsidized Federal Stafford Loans
- Federal Perkins Loan, DL PLUS (Graduate Student), DL PLUS (Parent)
- Federal PELL Grant
- Federal Supplemental Educational Opportunity Grant (SEOG)
- Federal College Work Study

Refund Policy

Students who have advised the Canes Success Center of their withdrawal, through 60 percent of the semester, will receive credit for eligible financial aid refunds using a pro-rated calculation based on the percentage of the semester attended by the student. Unearned Title IV funds will be returned in accordance with the refund policy established in Section 484B of the Higher Education Act of 1965, as amended (HEA) and provided for through the Student Assistance General Provisions regulations enacted on October 7, 1998. Please review UM's current policy on tuition refunds (https://umshare.miami.edu/web/wda/policiesfinance/eefiles/e105_refund_policy.pdf). Fees are not refundable and will not be pro-rated.

The University refund schedule (click here for current drop refund schedules (http://www.miami.edu/finance/index.php/student_account_services/refund_schedule_and_policy)) does not apply to students in the following on-campus and off-campus programs: The Executive MBA, the MBA Program for Working Professionals, and the Master of Science in Professional Management. Unless the student has completed official withdrawal procedures in writing with the Graduate Business Program office prior to the beginning of a course/term, tuition will be refunded on a prorated basis based on the number of class meetings attended through the effective date of withdrawal. No tuition refund will be granted when class attendance has exceeded 50% of class meetings. This policy supersedes any information stated in the Graduate Bulletin and other university publications.

Procedure

The amount of earned tuition and financial aid will be calculated on a daily pro-rated basis. Unearned tuition will be credited to the students account. Unearned, disbursed financial aid will be charged to the students account and refunded to the appropriate financial aid programs. Students who have not completed the verification process are ineligible to receive any financial aid and therefore no financial aid will have been earned. All disbursed financial aid will be charged to the students account and refunded to the appropriate financial aid program.

The return of financial aid will be refunded in the specific order noted below until the total amount of the school’s responsibility has been satisfied:

- Unsubsidized Federal Stafford Loans
- Subsidized Federal Stafford Loans
- Federal Perkins Loans
- Federal PLUS Loans (Graduate Student)
- Federal PLUS Loans (Parent)
- Federal Pell Grant
- Federal Supplemental Opportunity Grant (SEOG - Federal Portion Only)
- Any other Title IV Assistance
- State financial aid

In the event of an over-payment of unearned Title IV grants, the University will send the student a notification letter requesting payment in full or the establishment of a satisfactory payment arrangement with the University’s Department of Collection or the Debt Collection Services of the U.S. Department of Education. This notification letter will be processed within 30 days of the date of the University's determination that the student withdrew.

If the student does not respond to the request for repayment within 15 days, the University will notify the Department of Education of any Title IV grant over-payment. If the student does not make satisfactory repayment arrangements for the repayment of Title IV grant aid, the student will then become ineligible for federal assistance on the 46th day from the date of the University's repayment letter.

Withdrawal Example

A student notifies the Registrar of withdrawal on the 50th day of the semester. If the total number of calendar days in a semester were 108, the earned financial aid ratio would be 50 divided by 108 or 46.3 percent. The student would have earned 46.3 percent of the approved federal aid that the student was originally scheduled to receive for the term. The 53.7 percent of the student’s scheduled or disbursed aid remains unearned and must be returned to the Federal Program. If a student remains in school until the percentage of earned financial aid is 60% or more, then federal regulations consider the student to have earned 100% of their federal aid. For further information please refer to the ‘Cane Success Center withdrawal information page (http://www.miami.edu/index.php/cane_success_center/withdrawal).

Post Withdrawal Disbursements

If the University determines that a student is eligible for Title IV funds that have not been disbursed, grant funds that the student is eligible for will be disbursed first. Federal aid that the student is eligible for will be credited to the students account and applied against any outstanding charges.

Reinstatement of Cancelled Classes (Continuing Students)

Classes are subject to cancellation if the student fails to complete payment by the due date for each semester. Reinstatement of a cancelled semester is at the sole discretion of the Office of Student Account Services. A non-refundable $100.00 Reinstatement Fee will
be assessed on the student's account if a reinstatement of cancelled classes is granted.

The student will be allowed to register for a subsequent semester only if all outstanding balances have been paid in full, with certified funds.

Important Note: Students who are receiving financial assistance and have had their classes canceled for the semester run the risk of forfeiting their awarded financial aid for the term and/or academic year.

Payment Options

The University Cashier accepts cash, personal checks, traveler's checks, cashier's checks, certified checks, money orders, and checks drawn against lines of credit. Personal check and credit card payments are accepted online via CaneLink. Bank wire transfers are also accepted.

Checks and Money Orders

Payments must be in U.S. Dollars and drawn on a U.S. bank. Payments must be made payable to the University of Miami and include the student's identification number to ensure credit to the student's account. Post-dated checks are not accepted.

Returned Checks Policy

All returned checks are deposited twice, automatically, and without notice. A Returned Check Fine will be assessed to the student's account, as listed below, after the second attempt. Check cashing privileges will be canceled for those students who have three (3) or more returned checks.

A notification letter will be mailed to the maker of the check by the University's Collection Department detailing the amount and fine for the returned check. Check cashing privileges will be restricted until cash or certified funds (money order or cashier's check) are presented for payment. A personal check will not be accepted to replace a dishonored check.

Returned check fines processed through CaneLink will incur a $20 fee. Checks not processed through CaneLink will incur the following charges:

<table>
<thead>
<tr>
<th>Check</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>&lt; $800.00</td>
<td>$20.00</td>
</tr>
<tr>
<td>$800.00</td>
<td>2.5% of the check amount (minimum $25.00)</td>
</tr>
</tbody>
</table>

Wire Transfer of Funds

Wire transfer of funds for payment on an account at the University of Miami may be processed through any full service bank. Please direct the transfer to:

Bank of America, N.A.
1500 South Dixie Highway
Coral Gables, Florida 33146

ABA Routing Number: 026009593
For Credit to: University of Miami Account 5508319094
For Further Credit to: Student Name and I.D. Number

The student's name and the student's identification number (C#) are required in order to properly credit funds to the student's account.

Tuition Payment Plans

The Office of Student Account Services offers several tuition payment options to assist students and parents. The University's payment options are designed to provide convenient alternative plans of budgeting and paying educational costs whether or not a financial assistance award is granted.

Monthly Payment Plan (MPP)

**Purpose:** This plan allows you to divide all or part of your semester educational expenses (tuition, fees, on-campus housing, and meal plan less financial assistance) into four convenient monthly payments for the fall. A four month payment plan is also available for the spring term as well. The University of Miami does not offer a monthly payment plan option for the summer term.

**Contract length:** This plan is offered on a semester-by-semester basis for the fall and spring semesters. The minimum contract for either plan is $1,000.

**Fee:** A 3% non-refundable administration fee of the amount financed is charged and included in the established monthly payments.

**Conditions:** Payments are due on the 1st of each month with the first payment due on August 1st. The first payment for spring MPPs will be due on the first business day in January.

Students may apply for the Monthly Payment Plan on CaneLink. For more information regarding this option please follow this link to the Monthly Payment Plan FAQ page (https://umshare.miami.edu/web/wda/accountservices/MPP%20FAQs%20website%20changes%207%2213.pdf).

Tuition and Fees

Tuition

The basic undergraduate tuition rate covers the normal student load and is increased if the student carries an overload. Private instruction, e.g., music lessons, carries extra charges. Students who opt to participate in any of the University’s intercession courses will be billed for the intercession course separately from the flat rate cost of full-time tuition and fees.

For tuition charges in special programs and sessions, see announcements that are published concerning these components of the University’s academic program.

The following list of charges is effective for the academic year 2016-2017.

<table>
<thead>
<tr>
<th>Number of Credit Hours</th>
<th>Tuition (per semester)</th>
</tr>
</thead>
<tbody>
<tr>
<td>One</td>
<td>$1,900.00</td>
</tr>
<tr>
<td>Two</td>
<td>$3,800.00</td>
</tr>
<tr>
<td>Three</td>
<td>$5,700.00</td>
</tr>
<tr>
<td>Four</td>
<td>$7,600.00</td>
</tr>
<tr>
<td>Five</td>
<td>$9,500.00</td>
</tr>
<tr>
<td>Six</td>
<td>$11,400.00</td>
</tr>
<tr>
<td>Seven</td>
<td>$13,300.00</td>

<tr>
<td>Eight</td>
<td>$15,200.00</td>
</tr>
<tr>
<td>Nine</td>
<td>$17,100.00</td>
</tr>
<tr>
<td>Ten</td>
<td>$19,000.00</td>
</tr>
<tr>
<td>Eleven</td>
<td>$20,900.00</td>
</tr>
<tr>
<td>Twelve to twenty (Includes Course Fees)</td>
<td>$22,800.00</td>
</tr>
</tbody>
</table>
In excess of 20, per credit hour $1,900.00
No credit hour towards degree (audit), per course, nonrefundable $1,900.00

Undergraduate students carrying both undergraduate and graduate courses will be charged tuition at the rate in effect for undergraduate credit hours taken and appropriate fees. For example, tuition for a student carrying a total of 15 credit hours, of which 3 are graduate and 12 are undergraduate, would be charged at the $22,800.00 rate.

Undergraduate students taking graduate level coursework that is priced at a special level will be billed separately for these courses. Students should check with their advisors and/or the appropriate school's department for more details on their course pricing requirements.

Full-time fees will be assessed according to student classification as an undergraduate or graduate.

The University reserves the right to change without notice tuition, fees, room and all other charges at the beginning of any academic year, and the right to change activities and board fees at the beginning of any semester.

### Graduate Students

<table>
<thead>
<tr>
<th>Fee</th>
<th>Description</th>
<th>Amount</th>

<td></td>
</tr>
<tr>
<td>$1,900.00</td>
<td>Audit Work (No degree credit) Tuition, per course, nonrefundable</td>
<td></td>
</tr>
</tbody>
</table>

Certain programs are conducted by the University under contract with the State of Florida. Florida residents who have been accepted as students in those contract programs are required to pay current state tuition for each credit hour taken and the state provides the University with additional funds in accordance with the terms of the contracts. Students involved in state contract programs should contact the appropriate school/college to ascertain the state tuition charge per credit hour that they are expected to pay.

### Fees

Some fees depend upon full-time status. This is usually determined by the sum total of semester credit hours carried by the student in all divisions or enrollment in certain special programs that are classified as full-time regardless of credit hour load. Intersession classes are included with regular fall and spring semester classes in determining the student’s full- or part-time status. This determination will also result in the billing of required fees. Fees are subject to change.

Undergraduate students are classified full-time if they enroll in 12 or more credit hours in a regular semester or 12 or more credit hours in a summer session or if they are enrolled in a special program which is classified full-time regardless of credit hour load.

Graduate students are classified full-time if they enroll in nine (9) or more credit hours in a regular semester or six (6) or more credit hours in a summer session, or if they are enrolled in dissertation credit hours that are classified as full-time.

1 Student Health & Counseling Centers Fee is mandatory for all full time and part-time students regardless of credit hour load. Part-time students will be charged the part-time rate.
2 Student Center Fee is mandatory for all full time and part-time students regardless of credit hour load. Part-time students will be charged the part-time rate.
3 Wellness Center Fee is automatically charged to all full-time Graduate, Rosenstiel Graduate, and Medical Graduate students. It is mandatory unless declined with a waiver form submitted to and approved by the Office of Student Account Services by the last date to add classes for the semester as defined in the university’s academic calendar.
4 Law Student Activity Fee mandatory regardless of credit hour load.

### Summer Session Fees (per session)

| Undergraduate (Full Time 5+ Credit Hours) | $11 |

11
Student Activity Fee $10.00
Student Health and Counseling Centers Fee $77.00
Student Center Fee $78.00
Total: 165.00

Graduate (Full Time 5+ Credit Hours)
Student Health and Counseling Centers Fee $77.00
Student Center Fee $78.00

Rosenstiel Graduate
Student Health and Counseling Centers Fee $77.00

Medical Graduate
Student Health and Counseling Centers Fee $46.00

Law
Student Health and Counseling Centers Fee $77.00
Student Center Fee $78.00

Health Insurance Fee (August 15, 2016 to August 14, 2017) $2,513.00

Please note you are not required to have the University sponsored health insurance plan in order to utilize the services of the Student Health Center.

Students who are not enrolled for the current semester but intend to enroll for the next semester and graduating seniors (who wish access for one additional week after graduation), may gain access to the services of the Student Health Service after paying the Health and Counseling Centers Fee.

Alumni Rate and Policy

Special Opportunity for UM Graduates

UM graduates may take undergraduate credit hour courses in the College of Arts and Sciences on a space available basis, at a special alumni rate. All University of Miami graduates are eligible for this special program.

Interested students may call the Division of Continuing and International Education at 305-284-4000 to inquire about the benefit and/or the current tuition rate, request an application, or enroll in the courses. They will submit a simple, no-fee, one-page application, simply select an undergraduate course (open on a space available basis) and be on their way to continued learning at UM.

Policies Governing Enrollment in University of Miami Alumni Status

The University of Miami Alumni Status includes students who are not seeking a degree and meet the following requirements. Enrollment in a non-degree program and/or satisfactory completion of courses does not imply admission to a degree program.

1. University of Miami graduates (completed degree);
2. U.S. citizens or permanent U.S. residents.

Conditions applying to University of Miami Alumni enrollment

1. Students may enroll in a maximum of 12 undergraduate credit hours per semester.
2. Students are limited to two courses per academic department.
3. Courses may be selected from the College of Arts and Sciences only.
4. International students will not be issued I-20 forms.
5. International students in B-1 (business) or B-2 (pleasure) visa status may engage in study as long as the educational activity is secondary to the principal activity for which the visa was sought.
6. Enrollment may be completed on a space-available basis only. (Course availability determined two days prior to semester start.)
7. Courses taken for undergraduate credit hour (including 500 level courses) will not be considered for graduate credit hour at a later date.

1 Note: Not all courses and/or departments may be available.

Graduate Housing

Housing in on-campus housing is not available for GRADUATE students in addition to married students, single parents with children, law students, and medical students. The Department of Housing and Residential Life does assist GRADUATE students with off-campus housing information and resources here (http://bulletin.miami.edu/ general-university-information/financial-payment-policies/room-rates/%20http://www.miami.edu/housing).

Law Housing

Housing in on-campus housing is not available for LAW students in addition to married students, single parents with children, graduate students, and medical students. The Department of Housing and Residential Life does assist LAW students with off-campus housing information and resources that can be found here (http://www.miami.edu/housing).

Meal Plans

The following are the Meal Plan rates for the 2016 - 2017 academic year. Meal Plan enrollment is for the full academic year but charged on a semester basis. The number in front of the Meal Plan indicates how many meals per week. The number in front of the Block Meal Plans indicates how many meals per semester.

<table>

University Village and Commuter students are eligible to participate in the 100, 75, & 50 Block Meal Plans. These plans offer greater flexibility, a better value and may be purchased at any time during the academic year. University Village and Commuter students can also select any of the meal plans from the above list. Students enrolled in the 100, 75, & 50 Block Meal Plans will only be charged for the semester. The +10 Block Refresh can only be purchased in addition to an existing Block Meal Plan that has low meals remaining. For more information, visit our webpage (http://www.miami.edu/finance/index.php/auxiliary_services/dining_services).

Parking and Transportation

*Parking subject to change

Parking on the University of Miami's Coral Gables campus is a privilege extended to those using the facilities of the University consistent with the terms of the University's Parking Policies and Procedures and other policies of the University as they are set or amended by the Provost. Parking privileges are extended only to those eligible members of the university community including trustees, faculty, administrators, staff, students, vendors and visitors who have paid for, received and properly displayed a current and valid UM parking permit. In consideration of being allowed to use the University's facilities for parking, the purchaser of a parking permit agrees to be bound by the rules set forth in the Parking Policies and Procedures, and agrees to pay to the University any fine or administrative charge assessed for non-compliance with this code.

Students, faculty, employees, and staff may not park in visitor parking spaces, and UM parking permits are not valid at parking meters.

First year resident students (students residing on the Coral Gables campus who are attending college on a full time basis for the first time) are restricted from purchasing a parking permit to park on the University of Miami's Coral Gables campus. This policy applies to first year students living in University of Miami student housing on the Coral Gables campus.

For more information on Parking, please visit our website (http://www.miami.edu/parking). Annual permits are valid August 16, 2016 through August 15, 2017.

Student Services

Camner Center for Academic Resources

http://umarc.miami.edu/arc/Index.html
Located on the second floor of the University Center, the Camner Center for Academic Resources offers free academic assistance to all UM students. The Camner Center offers individual peer tutoring by appointment in most subjects, study skills instruction with a Learning Specialist, free academic workshops, and many other valuable services. Please visit our website (http://www.umarc.miami.edu) or call 305-284-2800 to learn more and/or schedule an appointment.

**Peer Tutoring**

At the Camner Center, all UM students can take advantage of free individual peer tutoring to develop a deeper understanding of course work through additional, special, or corrective content instruction. All tutoring is course specific and taught by nationally certified peer tutors. All UM students are eligible for two hours of tutoring per week for each course. Please send us an email (tutoring.arc@miami.edu) for more information or to ask any questions.

**Supplemental Instruction**

Small group sessions are available to help students succeed in the University’s toughest courses. Group Peer Tutoring is done on a weekly basis where students sit down to discuss course content in a small group setting with the peer tutor serving as a facilitator.

**Academic Workshops**

This free workshop series instructs students on specific academic skills and strategies to enhance academic performance. Workshop topics include effective test-taking strategies, improving study strategies, utilizing technology, and organization and time management skills. Topics are updated every semester, and students may attend unlimited sessions. Please visit our website (http://www.umarc.miami.edu) for the current workshop schedule.

**Learning Specialists**

The Camner Center for Academic Resources provides the support of trained Learning Specialists to students experiencing difficulty with academic issues. Students may request a one-on-one meeting with a Learning Specialist to help develop the skills needed to achieve success in their academic careers. Skills covered during these appointments include time management, effective note-taking, college textbook reading, educational technologies, test taking, and other learning strategies. Students can request an appointment with a Learning Specialist through our website. Visit the website (http://www.umarc.miami.edu) for more information about the support services available to students.

**Independent Learning Initiative**

The Independent Learning Initiative is a fee-based academic support program that provides structure, support, instruction, and monitoring for students needing additional guidance during the college experience. During the semester, students will identify and understand their academic strengths and areas for growth, as well as learn strategies, skills, and technologies to enhance their academic and personal success in college. Participants learn to monitor their academic progress and critically evaluate their current skills and strategies to work towards becoming a successful independent student. For more information about the program or to apply, please visit our website (http://www.umarc.miami.edu).

**UMX 100: The University of Miami Experience**

The University of Miami Experience (UMX 100) is a graded, comprehensive virtual self-paced course specifically designed to assist first year students in making a successful transition to the University of Miami. Freshman and transfer students are automatically enrolled. UMX 100 provides an opportunity for students to utilize UM resources necessary for success in college and beyond. Specifically, students will be exposed to campus leadership opportunities, academic and career planning, university traditions, study abroad opportunities, personal wellness programs, as well as advising and registration through videos, power points, blogs, and more. These resources and opportunities are only a click away. Send us an email (umx@miami.edu) if you have any questions about UMX 100.

The course will open on the following dates each semester:

<table>

</table>

**Disability Services**

http://umarc.miami.edu/arc/Index.html

**Office of Disability Services (ODS)**

The Office of Disability Services (ODS) is the primary university office responsible for the coordination of auxiliary aids and services for students with disabilities. Please visit our website (http://www.umarc.miami.edu) for more information.

The Office of Disability Services (ODS) provides academic accommodations and support to ensure that students with disabilities are able to access and participate in the opportunities available at the University of Miami. Individuals with disabilities must request academic accommodations through the Office of Disabilities Services. Accommodations are determined on a collaborative and case-by-case basis and are based on the documentation provided by the individual. ODS staff will work collaboratively with students to determine what academic adjustments and educational auxiliary aids are reasonable to ensure that students with disabilities are not subject to discrimination.

Information is available to prospective and enrolled students, their parents and/or sponsors. The Office of Disability Services (ODS) is located in the Camner Center for Academic Resources in Whitten University Center N2400. ODS staff can be reached at 305-284-2374 (Voice) or 305-284-1999 (Fax). Office hours are 8:30 am to 5:00 pm, Monday through Friday. Individuals may email the office staff (disabilityservices@miami.edu) for quick responses to questions.

The following deadline dates apply for all requests for academic accommodations through the Office of Disabilities Services:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>June 1st</td>
</tr>
<tr>
<td>Spring Semester</td>

</tr>
</tbody>
</table>

**Grievance Procedure**

The University of Miami, through the Office of Disability Services, has adopted a grievance procedure providing for prompt resolution
of complaints by persons who believe they have been subjected to discrimination based upon their disability.

- All complaints must be directed to the University of Miami, Office of Disability Services, P.O. Box 249003, Coral Gables, Florida. 33124 and addressed to the Director of the Camner Center for Academic Resources.
- All complaints must be in writing and must contain the name and address of the complainant. In the grievance, the student or individual must set forth specific facts in support of his/her complaint. All grievances must be signed by the student or individual.
- All grievances must be filed within 90 days of the alleged discriminatory event. If the complaint involves the denial of a student’s request for auxiliary aids and services or other modifications, the grievance must be filed within ten (10) days after the student receives notification that their request for auxiliary aids and services or other modifications has been denied. All additional documentation regarding your appeal must be submitted at the time of the individual’s appeal request.
- The grievance will be reviewed and adjudicated by the Director of the Camner Center for Academic Resources, or her designee (the “Director”). In no event, will the designee be the same individual who made the initial determination as to the request for auxiliary aids, services, or other modifications or accommodations.
- An investigation, if deemed appropriate by the Director, will be conducted by the Director following receipt of the grievance. The Director may review information and documentation contained in a student’s file and/or any other information an individual may submit in support of his/her grievance.
- Within twenty (20) days of the receipt of the grievance, the grieving party will receive a written decision from the Director.
- The decision of the Director of the Camner Center for Academic Resources shall be considered the final decision on the matter.

Retaliation against a person who files a grievance, or opposes a policy he/she believes to be discriminatory is prohibited.

Persons may contact the Assistant Director of Disability Services, who is responsible for coordinating the University of Miami’s 504 compliance efforts at (305) 284-2374 (P.O. Box 249003, Coral Gables, Florida, 33124), with any questions or concerns.

Individuals, who believe that they were subjected to discrimination on the basis of disability by the University of Miami, are encouraged to use the grievance procedure to resolve their concerns. Individuals may, however, wish to file a complaint directly with the U.S. Department of Education, Office for Civil Rights 61 Forsyth St., Southwest, Suite 19T10 Atlanta, GA 30303.

Cane Cards

The Cane Card is an on-campus student identification card. Students, faculty, and staff must present a government issued photo ID such as a driver’s license or passport when acquiring their card. The Cane Card provides access to on-campus student residences, the Otto G. Richter Library, computer laboratories, the swimming pool, the Patti and Allan Herbert Wellness Center (for those who purchase a membership), and other facilities where access has been granted. The Cane Card is also used to control lending privileges at the library, access to athletic and other events (fee required), the purchase of discounted Metrorail tickets, U-Print services, and meal plan privileges. All University of Miami students, faculty and, staff are required to carry their Cane Cards for identification purposes while on campus.

- Lost or stolen Cane Cards should be reported to the Cane Card office at 305-284-3096 during the week or anytime by accessing your MyUM account, under the financial tab.
- Lost or stolen cards may also be reported to security 24 hours per day at 305-284-6666.
- After being reported stolen or lost, a card will be deactivated to prevent unauthorized use.
- Lost or stolen cards will be replaced for a $25 fee (Fee waived in certain circumstances. Please contact the Cane Card office for additional details).
- Damaged cards will be replaced for free upon exchange of the original damaged card.
- For all issues with Cane Express accounts, call Student Account Services at 305-284-6430.

Career Services

http://www.HireACane.com

Patricia and Harold Toppel Career Center
(305) 284-5451 | toppel@miami.edu

The Toppel Career Center provides innovative and dynamic career services to students and alumni of the University of Miami. Furnished with the latest technology, including videoconferencing, 360-degree video recording, and lecture capture, the Center’s six interview suites, a technology lab, a conference room, and a multipurpose Loft offer a variety of spaces (http://hireacane.miami.edu/about/reserve-space) for students to meet their career-related needs. The Center is often described as “like no other” by visitors and is a model for career services throughout the country. Over six times larger than the average career center, the 12,000 square-foot building on Ponce De Leon Boulevard houses career programs and workshops, networking events, professional individualized advising, practice interviews, industry panels, walk-in peer advising, company presentations, on-campus interviews, and more.

Career Education

Regardless of the path you take, a comprehensive career planning process begins as soon as you step on campus. Professional staff at the Center assist students with their career development utilizing a three-part model (http://hireacane.miami.edu/about) that provides the tools necessary to Explore (strengths, interests, values, skills, and abilities), Prepare (career and industry research, practice interviews, and internships), and Connect (building meaningful relationships and growing a professional network).

Advising Services

Toppel offers a variety of options for career advising. You can set up an individual advising appointment with highly trained and motivated career advisors who have industry-specific knowledge and can provide you guidance on potential career paths (schedule online via Handshake (https://miami.joinhandshake.com/appointments/new)). For resume and cover letter (http://hireacane.miami.edu/gain-experience/resumes) reviews and practice interviews (http://hireacane.miami.edu/gain-experience/interview-prep), you can drop by any time Monday through Friday, 9am - 4:30pm, to meet with a peer advisor (no appointment necessary). The Center even offers online career
assessments (http://hireacane.miami.edu/explore/majors-careers) that can help you narrow down career options by building self-awareness.

**Programs and Workshops**
A series of programs and workshops (http://hireacane.miami.edu/events/education) is offered throughout the academic year both in person and virtually. Each session provides information and skill-building activities in the areas of resume development, interviewing skills, social media for the job search, securing internships, and much more. In addition, programs designed to increase awareness of specific career paths and professional opportunities are offered. These are often conducted by outside speakers and panelists who are UM alumni and/or recognized specialists in their fields.

**Career Preparation & Networking**
Through the Center’s vision, Empowering and Connecting Canes to Achieve a Lifetime of Career Fulfillment, the staff encourages students to develop meaningful relationships with professionals in their area(s) of interest. The Toppel Career Center provides many opportunities for you to network with employers and alumni, including panel programs, employer meet-ups, job shadowing (UShadow (http://hireacane.miami.edu/explore/usshadow)), on-campus recruiting, and career fairs.

**Career Fairs and On-Campus Recruiting**
Career Expo (http://hireacane.miami.edu/events/fairs) is the largest career fair, typically bringing in over 100 employers and 1,000 students and alumni biannually in September and February. Toppel also organizes smaller industry-specific career fairs that focus on more specialized areas. Representatives from a variety of industries from around the world visit campus to meet, interview, and discuss career opportunities with students. In addition, the On-Campus Recruiting (http://hireacane.miami.edu/gain-experience/on-campus-recruiting) program brings employers to campus for company information sessions and to interview students for jobs and internships in the interview suites. Last year, over 1,000 interviews were conducted in the Center’s interview suites. You can apply for these positions through Toppel’s free online career management system Handshake (https://miami.joinhandshake.com).

**Toppel Internship Program**
The Toppel Internship Program (TIP) (http://hireacane.miami.edu/gain-experience/tip) is designed to provide valuable career-related work experience through internships with participating employers. TIP allows students to earn a one-credit transcript notation from the Toppel Career Center for internships they have already secured. Students can also search Handshake (https://miami.joinhandshake.com) for hundreds of opportunities available to them. Part-time internships require at least 160 working hours while full-time internships require at least 320 working hours.

**UCAN**
If you are interested in jobs and internships outside of South Florida, the Center is a member of the University Career Action Network (UCAN) (http://ucan-csm.symplicity.com/students), a highly selective consortium of private institutions across the country. Participating schools, including Brown, Duke, Emory, Princeton, Harvard, and others, share internship opportunities across the network. You will be strongly encouraged to complete at least one internship while here, and these partnerships will help you meet this goal.

**The Launch Pad at Toppel**
The Launch Pad at Toppel (http://www.thelaunchpad.org) provides support to all entrepreneurs and inventors at the University of Miami. The Launch Pad’s programs are co-curricular and voluntary by design. Pragmatic, concrete, and experiential, they provide the just-in-time knowledge entrepreneurs need to assess and develop their ideas and plans for a new enterprise. The Launch Pad offers guidance, encouragement, and immediate access to a dedicated local commercial network. It brings entrepreneurs into the local business community as early as possible. The Launch Pad’s programs are exercises in experiential capitalism that fulfill a key educational obligation: to teach learners not just how to find a job, but also how to make a job.

**Connecting with the Toppel Career Center**
The Toppel Career Center’s vision is to empower and connect all ‘Canes to achieve a lifetime of career fulfillment. Currently, over 2/3 of all undergraduate students utilize the Center’s services each year, including close to 1,500 unique visits to career fairs and nearly 4,000 unique visits to career education opportunities. Evidence shows that students who visit the Career Center are more likely to earn internships and ultimately have better career outcomes at the time of graduation. Visit us in person at 5225 Ponce De Leon Blvd., online at HireACane (http://www.HireACane.com), or by logging into Handshake (https://miami.joinhandshake.com) and activating your account as soon as you arrive on campus! You can also keep up with what we’re doing by following any one of our social media platforms: LinkedIn (http://www.linkedin.com/groups?gid=12955674&trk=hb_side_q), Facebook (http://www.facebook.com/pages/Toppel-Career-Center-at-the-University-of-Miami/70221785028?ref=ts), Twitter (http://www.twitter.com/toppel), Instagram (http://instagram.com/hireacane), YouTube (http://www.youtube.com/toppelcareercenter), Flickr (http://www.flickr.com/photos/hireacanew), WordPress (http://toppelpeers.wordpress.com), Pinterest (http://pinterest.com/umtoppel), and Snapchat (username: HireACane).

**Commuter Student Involvement**
The Department of Orientation and Commuter Student Involvement is located on the second floor of the Shalala Student Center, suite 203. This department offers a variety of services and programs for students from Miami-Dade and Broward Counties who live at home and commute to the University of Miami. For more information, please visit our website (http://miami.edu/csi).

**Great Start Pre-Orientation Program for First-Year Commuter Students**
Great Start is an overnight, pre-orientation program designed to promote and emphasize college adjustment and campus involvement opportunities. The program’s goal is to help students feel like a part of the University and give them a chance to meet other commuter students. Students who participated in Great Start have said the program greatly contributed to a positive transition from high school to college. Commuter student leaders serve as Program Coordinators, Steering Committee members, and Counselors. Applications are available in the fall on the Great Start website (http://miami.edu/greatstart).

**Commuter Assistant/Transfer Assistant Program**
The Commuter Assistant (CA)/Transfer Assistant (TA) Program provides first-year commuter and incoming transfer students with an experience that mirrors the programs and services offered by Resident Assistants and First Year Fellows and commuter students. Students interested in this program can apply through our website (http://www.miami.edu/greatstart).
transfer students will be assigned to a CA or TA group and will begin meeting with this group during New Student Orientation. The CA/TA serves as a mentor, plans programs that will aid commuter or transfer students in their transition to college, and works with the Department of Orientation and Commuter Student Involvement to plan, promote, and implement initiatives specifically focused on first-year commuter or incoming transfer students. CAs and TAs release informative newsletters to their student groups and also host a monthly breakfast called “Good Morning, Commuters!” for off-campus students. CAs and TAs are hired during the spring semester.

Association of Commuter Students
The Association of Commuter Students (ACS) is a second home for its members. ACS, a student organization, provides social support, service opportunities, school spirit involvement, and a physical space through which commuters bond with fellow students and to participate in all that the University has to offer. ACS provides its members with a working knowledge of UM that gives them the opportunity to become fully involved in campus life. Brought together by a simple fact of life, commuting to campus, ACS members have forged bonds that extend beyond this commonality. For more information on ACS, visit their website (http://miami.edu/studorgs/acs).

Counseling Center
https://miami.edu/counseling-center

The Counseling Center is the primary provider of mental health services for UM students. The Counseling Center provides short-term individual, couples, and group therapy as well as psycho-educational outreach programming and consultation. Urgent care and limited career and psychological assessment are also available. Psychiatric services are available to those under the care of a Counseling Center therapist.

The Counseling Center staff consists of experienced professionals from the fields of mental health counseling, psychology, social work and psychiatry.

During the fall and spring semesters, the Counseling Center is open Monday, Wednesday and Friday from 8:30 a.m. to 5 p.m. and Tuesday and Thursday from 8:30 a.m. to 7 p.m. During the Spring, Summer and Winter breaks the Counseling Center is open Monday through Friday from 8:30 a.m. to 5 p.m.

Students can call the Counseling Center directly at 305-284-5511 or request an appointment in person. The Counseling Center offers walk-in triage service for students in crisis. The University Counseling Center is located at 1204 Dickinson Drive, Suites N & S.

After normal business hours, students can talk to a licensed mental health professional by calling the main Counseling Center phone number at 305-284-5511. This number turns over into an after-hours hotline for students.

Sexual Assault Response Team (S.A.R.T.)

The Counseling Center also coordinates the Sexual Assault Response Team (S.A.R.T.). S.A.R.T. is a 24/7 telephone response line to assist University of Miami students victims of sexual assault. This service is available during the academic year and is for both men and women. The S.A.R.T. hotline number is 305-798-6666.

For more information, visit the SART website (https://miami.edu/SART).

Graduate Student Training

The Counseling Center participates in the graduate training programs in the Department of Psychology and the programs of the Department of Educational and Psychological Studies. Doctoral students in psychology take part in the Center’s professional activities and have first-hand contact with clinical problems. In addition, pre-doctoral interns obtain professional training at the Counseling Center through the Dr. Jess Spirer Pre-doctoral Internship in Professional Psychology. The pre-doctoral internship at the Counseling Center is accredited by the American Psychological Association.

Dean of Students

www.doso.miami.edu

The Dean of Students Office provides leadership that is consistent with the University’s mission and works closely with students and student organizations, contributing to their co-curricular education and serving as an advocate for their varied interests. The Office works directly with academic, athletic, student affairs, and other administrators in the coordination of institutional efforts to address specific concerns, as well as to enhance the overall quality of the student experience.

Each area with in the Dean of Students Office provides students with opportunities for student support, involvement, and leadership. For more information about each of these areas, click on the links below.

- Alcohol and Other Drug Education (http://www.miami.edu/pier21)
- Greek Life (http://www.miami.edu/greeklife)
  - Student Rights and Responsibilities Handbook (http://www.miami.edu/srr)
- Sexual Assault Resources - It’s On Us (http://www.miami.edu/sa/index.php/its_on_us)
- Undergraduate Honor Council (http://www.miami.edu/honor-council)
- University Chaplains’ Association (http://www.miami.edu/chaplains)
- Veteran Student Services (http://www.miami.edu/sa/index.php/dean_of_students/veteran_student_services)

The Dean of Students Office coordinates efforts in response to various student crises and employs an Assistant Dean who is a Licensed Clinical Social Worker. The entire staff is knowledgeable and prepared to assist all students in their adjustments to campus life. The administration and record keeping of all undergraduate student disciplinary infractions are also the responsibility of the Dean of Students Office.

To contact the Dean of Students Office visit Whitten University Center, Suite 2250 or call 305-284-5353.

The Honor Council - Undergraduate

The purpose of the Honor Council is to protect the academic integrity of the University by encouraging consistent ethical behavior by students in their academic work. The Honor Council investigates and adjudicates alleged violations of the Undergraduate Student Honor Code (http://www.miami.edu/honor-code). The Council is also responsible for educating the University community on Honor Code related issues and promoting academic integrity through a variety of educational programs. The Council consists of representatives from the undergraduate schools and colleges.
Members of the University community who would like to request Honor Council programming or an investigation of alleged academic dishonesty are encouraged to call the Honor Council at 305-284-5354 or email (honorcouncil@miami.edu).

Housing and Residence Life
www.miami.edu/housing

Housing and Residential Life
The University of Miami offers undergraduate on-campus housing in five residential colleges and University Village.

Each residential college has resident faculty members (Masters and Associate Masters), an Area Director/Assistant Area Director, and student staff who all live in the residential college with the resident students to support and promote student well-being, safety, academic achievement, student learning, and development. Numerous social, educational, cultural, and recreational programs are offered throughout the academic year.

General Highlights
• The University has both single and double rooms. Singles are limited and assigned based on seniority living on campus and, thus, entering students are typically assigned to double occupancy rooms.
• All non-local freshmen students are required to live in University housing for two academic semesters, as long as space is available. This policy does not apply to freshmen students living with parents or legal guardians in Miami-Dade or Broward Counties.
• University Village (http://www.miami.edu/university-village), an apartment-style residential community, is an available option to juniors and seniors. The apartments are fully furnished and include in-apartment washers and dryers, full-size kitchen appliances (stove, refrigerator, microwave, & dishwasher), and reserved parking (extra fee).
• All housing facilities are co-educational with men and women living on alternate floors or alternating separate suites or apartments.

Applying for On-Campus Housing
• Admitted undergraduate students, following verification of acceptance to the University and payment of the enrollment deposit, can apply for housing via CaneLink (http://www.canelink.miami.edu).
• Students are encouraged to apply for housing as soon as possible after paying the enrollment deposit. New freshmen housing applications should be submitted by May 1, 2016; applications received from new freshmen after May 1, 2016 will be accommodated on a space available basis.
• The $500 pre-payment is paid by credit card at the time of application.
• Assignments to buildings, rooms, and specific roommates are made according to the date of application and receipt of the housing deposit.
• Whenever possible, requests for roommates are honored. However, if specific preferences are not available, the University reserves the right to assign students to other roommates.

The 2016-2017 housing agreement is for both fall and spring semesters, unless the applicant is:
1. applying only for spring semester housing
2. applying only for one of the offered summer housing sessions
3. graduating in December (must notify HRL directly)
4. participating in a University of Miami study abroad experience spring semester (must notify HRL directly)
5. not enrolling in the University spring semester (must notify HRL directly)

Housing cancellations received through May 31, 2016 will result in a $500 cancellation penalty. Cancellations received after May 31, 2016 will result in:
• the canceling student being responsible for the fall semester housing charges, unless or until the vacancy created by the cancellation can be filled by another qualifying University student applying for housing
• if filled, the canceling student will only be assessed the $500 cancellation penalty

Housing cancellations for the spring semester received through December 1, 2016 will result in a $500 cancellation penalty. Cancellations for the spring semester received after December 1, 2016 will result in:
• the canceling student being responsible for the spring semester housing charges, unless or until the vacancy created by the cancellation can be filled by another qualifying University student applying for housing
• if filled, the canceling student will only be assessed the $500 cancellation penalty for early termination

Note: Written notice of cancellations must be made to the Department of Housing and Residential Life office directly.

Off-Campus Housing Resources
The Department of Housing and Residential Life also provides assistance to students, staff, and faculty with identifying off-campus housing options. A web-based search engine of community listings and roommate search assistance is available along with other resources such as:
• Individual consultations and appointments
• Over-the-phone guidance
• Knowledge of the greater Miami area & specific neighborhoods where students typically reside

For more information about housing on-campus or assistance with off-campus housing, please visit our website (http://miami.edu/housing), call 305-284-4505, or email (housing@miami.edu).

International Student and Scholar Services (ISSS)
www.miami.edu/isss

ISSS represents the needs and interests of the University of Miami international community and provides support services and programs for international students, scholars, and academic departments at UM. Every year, approximately 3,750 international students (undergraduate and
graduate) and scholars (professors and researchers) from 115 countries representing every region of the world study, teach, and conduct research at the University of Miami.

International students and scholars face some unique challenges as well as opportunities while pursuing their academic goals at UM. The professional and dedicated ISSS staff provides expert advice, services, programs, and information aimed at supporting their educational endeavors and enriching their U.S. experience over the entire course of their stay. ISSS support services and programs encompass:

- Pre-Arrival Information
- Immigration Advising for Students and Scholars in F-1 and J-1 Status
- Employment Information and Authorization
- Online Tax Return Preparation System
- Liaison with Sponsoring Embassies, Government and Agencies
- The International Student Grant
- Short-Term, Small Emergency Loans
- Assistance with Personal and Adjustment Problems
- Assistance in Coping with Crises
- Advocacy
- International Student Orientation
- International Scholar Orientation
- Advise the Council of International Students and Organizations (COISO)

On the ISSS website you will find detailed information regarding each of these services and programs. Please do not hesitate to contact us should you have any questions or require additional information. We look forward to assisting you.

Jobs
We offer a variety of opportunities for student employment. Check out our openings today (http://library.miami.edu/student-jobs).

Ombudsperson and University Troubleshooters
www.miami.edu/ombudsperson

The Ombudsperson and University Troubleshooters provide open channels of communication between students and the university by listening to student concerns, investigating the facts and attempting to resolve situations in the best possible way. Ultimately, the goal is to resolve matters and assist students in their success at the University. The Ombudsperson and University Troubleshooters do not bypass or circumvent those individuals who have responsibility for departments or classroom instruction. Nor will they eliminate certain structured grievance and appellate mechanisms already established by the University.

Ombudsperson
The Ombudsperson interprets University policy for students and make recommendations to the central administration when policy changes are needed. The Ombudsperson will connect students to faculty and administrators who will listen, answer questions, interpret policies/procedures and provide guidance on the appropriate steps to consider for a resolution. The Ombudsperson seeks to resolve matters informally before they become matters in a formal grievance-appeal proceeding and works with students in establishing next steps to assist in their success at the University.

University Troubleshooters
University Troubleshooters are faculty members and administrators who serve as a resource for students seeking assistance. They represent in a wide range of campus departments, who assist students with academic and administrative related matters. If a student has spoken to the appropriate University Troubleshooter and have not brought resolution to a student’s concern, students should contact the Ombudsperson. For a listing of University Troubleshooters, click on the following links: Academic Troubleshooters (http://www.miami.edu/sa/index.php/ombudsperson/academic_troubleshooters) or Administrative Troubleshooters (http://www.miami.edu/sa/index.php/ombudsperson/administrative_troubleshooters).

For more information on the Ombudsperson or University Troubleshooters, visit miami.edu/ombudsperson (http://www.miami.edu/ombudsperson), call 305-284-4922, email ombudsperson@miami.edu or visit the office in Ashe Building 244.
Student Health Service

The Student Health Service provides primary care, specialty care and pharmacy services to eligible (http://www.miami.edu/sa/index.php/student_health_center/general_information/#Eligibility) University of Miami students. You are not required to have the Health Center sponsored insurance plan to utilize our services. Appointments can be scheduled at mystudenthealth.miami.edu (https://caneid.miami.edu/cas/login?service=https://mystudenthealth.miami.edu), services are also available on a “drop in” basis.

Contact Information

Telephone: 305-284-9100
Fax: 305-284-4098

Hours of Operation

Fall and Spring semesters: 8:30 a.m. to 5:00 p.m., Mondays, Tuesdays, Wednesdays and Fridays. On Thursdays: 9:00 a.m. to 5:00 p.m. Sundays: 11:00 a.m. until 4:00 p.m.

Winter break, Spring break, and Summer sessions: Monday through Friday from 9:00 a.m. to 5:00 p.m.

The Health Service is closed on Saturdays and University holidays. After hours assistance is available by calling 305-284-9100.

Eligibility/Access

The Health & Counseling Centers Fee, is mandatory for (undergraduate (p. 39), graduate (p. 39), and law (p. 39)) students regardless of credit hour load and all students registered in an off-campus program who are enrolled in the University sponsored student insurance plan (http://www.miami.edu/sa/index.php/student_health_center/insurance_information).

Employees may be charged the Health and Counseling Centers fee on their initial bill, however the charge will be removed from their bill soon after the last day to drop or add a class, if they remain eligible for tuition remission benefits. Dependent of UM employees are treated the same as all other students.

Health Insurance

Domestic students enrolled in six or more credit hours per semester (or considered full time) are required to obtain adequate health insurance (see exceptions (https://umshare.miami.edu/web/wda/studenthealth/pdf/ProgramsNotCharged.pdf)). The annual premium for the health insurance plan offered through the University is added to each student’s fees. Domestic students with adequate alternative coverage may request cancellation of the insurance fee via CaneLink. Insurance cancellation must be renewed each year via CaneLink.

Deadlines to waive the insurance are:

- July 25 for the Fall semester
- January 25 for the Spring semester
- April 25 for Summer I
- June 25 for Summer II

Domestic students can check the status of their insurance waiver/cancellation request via CaneLink. The insurance premium will be prorated for those students entering for the first time in the Spring or Summer semesters. No waiver and/or refund will be granted after the above dates.

Students who have previously waived the insurance charge can reinstate the insurance prior to the Spring semester or first Summer session by completing the reinstatement request form and checklist. Coverage can also be reinitiated at the start of the Fall semester by choosing not to re-waive the charge, or at other times during the academic year, if within 30 days of termination of other similar coverage, by completing the reinstatement request form and checklist (https://umshare.miami.edu/web/wda/studenthealth/Forms-1/studentreinstatement.pdf). Documentation of termination may be requested.

Deadline for reinstatement of insurance is January 25th for the Spring. Please do not consider your reinstatement complete until reinstatement has been verified via CaneLink, the charge has been posted to your student account and all charges on your account have been paid.

All international students are required to enroll in the University sponsored health insurance program. The annual premium for this coverage is added to each student’s fees.

Any additional questions regarding the health insurance requirement should be directed to the Student Health Service at 305-284-9100 or to studenthealth@miami.edu.

Immunization

All students are required to provide proof of immunization against measles, mumps and rubella; and tetanus, diphtheria and pertussis. All new students must also provide proof of immunization against hepatitis B (http://www.miami.edu/sa/index.php/student_health_center/immunization_information/#Hepatitis) and meningococcal meningitis (http://www.miami.edu/sa/index.php/student_health_center/immunization_information/#Hepatitis) or sign a waiver declining these immunizations. An immunization (https://umshare.miami.edu/web/wda/studenthealth/pdf/immunization_form_07new.pdf) form must be completed and returned to the Student Health Service prior to arrival on campus. For students less than 18 years old, the meningitis/hepatitis vaccine waivers must be signed by a parent or legal guardian.

All international students must also be screened for tuberculosis by completing page two of the immunization form (https://umshare.miami.edu/web/wda/studenthealth/pdf/immunization_form_07new.pdf).

Deadlines for submission of immunization records are Fall - August 22nd, Spring - January 15th, Summer - April 15th. Failure to comply with this requirement will interfere with registration. A $50.00 processing fee will be charged for any form received after the start
of the semester. Immunization information must be entered at mystudenthealth.miami.edu (https://mystudenthealth.miami.edu) prior to faxing or mailing the form to the Student Health Service for verification. Immunization compliance can also be verified at mystudenthealth.miami.edu (https://mystudenthealth.miami.edu). Instructions on the use of mystudenthealth.miami.edu (https://mystudenthealth.miami.edu) is available at miami.edu/student-health (http://www.miami.edu/student-health).

Most students will be able to obtain the required immunization information from their prior medical providers or from their prior high school, college or university. Students who believe that they were previously immunized but are unable to provide proof of immunization may either obtain blood tests confirming immunity or obtain the necessary immunizations. Immunizations and blood tests documenting immunity are available at the Student Health Service. All charges are in addition to processing fees for late forms.

Immunization against varicella (chicken pox) is suggested and is available at the Student Health Service for a reasonable charge.

Pharmacy
The pharmacy (http://www.miami.edu/sa/index.php/student_health_center/pharmacy) is located on the second floor of the Student Health Service, and can fill prescriptions from most local and out of town medical providers.

Prescription prices are often lower than at local drug stores, and most insurance plans are accepted. Non-prescription medications, vitamins, nutritional supplements, personal care products, over-the-counter medications, and condoms are also available. New prescriptions can be dropped off, called or faxed by the ordering provider. Refill requests will be handled most promptly by having your prescription number available and calling the automated refill line at 305-284-5922. Refills can also be requested by calling 305-284-5922 option 2.

• Students with the Health Service sponsored insurance plan receive enhanced benefits if prescriptions are filled at the Health Service pharmacy.

Contact information for Pharmacy
Telephone: 305-284-5922
Fax: 305-284-4883

Hours of Operation for Pharmacy
Fall and Spring semesters are from 9:00 a.m. to 5:30 p.m., Monday through Friday. Winter break, Spring break, and Summer sessions, 9:00 a.m. to 5:00 p.m. Monday through Friday.

The pharmacy is closed on Saturdays, Sundays, and on University holidays.

University Dining Services
The University of Miami Dining Services program offers students a variety of food options conveniently located throughout the campus. Among these are the:

• Jamba Juice – smoothies at the Student Center
• Fresh Fusion – vegetarian, specialty grilled cheeses, naan salads, rice & noodle bowls, at the Shalala Student Center
• Curtside Eatery at the Wellness Center - featuring a variety of healthy food options
• Jenkins Snack Bar – the perfect spot to grab a quick bite at the School of Business
• The Corner Deli at Outtakes – kosher deli featuring sandwiches, Shawarma, and hot soup
• Outtakes – a full service convenience store
• Starbucks at Richter Library & Shalala Student Center – your favorite specialty coffee
• Half Moon Empanadas Carts – for your convenience around campus [Communication, Memorial, and Merrick]
• Village Marketplace – providing UV residents your convenience store needs
• Einstein Bros. Bagels – enjoy a delicious bagel at the Law School
• Sebastian’s Café – offers specialty sandwiches and salads at UM’s Newman Alumni Center
• GOT Spot featuring Rose’s Café – our newest addition located at the University’s Gables One Tower
• Lime Fresh Mexican Grill – Mexican fare at the University Center
• Fresh Fusion – vegetarian, specialty grilled cheeses, naan salads, rice & noodle bowls, at the Shalala Student Center
• Jamba Juice – smoothies at the Student Center
• Starbucks at Richter Library & Shalala Student Center – your favorite specialty coffee
• Half Moon Empanadas Carts – for your convenience around campus [Communication, Memorial, and Merrick]
• Village Marketplace – providing UV residents your convenience store needs
• Einstein Bros. Bagels – enjoy a delicious bagel at the Law School
• Sebastian’s Café – offers specialty sandwiches and salads at UM’s Newman Alumni Center
• GOT Spot featuring Rose’s Café – our newest addition located at the University’s Gables One Tower
• Lime Fresh Mexican Grill – Mexican fare at the University Center
• Fresh Fusion – vegetarian, specialty grilled cheeses, naan salads, rice & noodle bowls, at the Shalala Student Center
• Jamba Juice – smoothies at the Student Center

The University of Miami Dining Services program offers a variety of services that meet the individual student’s schedule of classes and extracurricular activities. Eight different meal plan options are offered at the Hecht/Stanford and Mahoney/Pearson Dining locations for students residing in the residential dorms on campus:

• Unlimited meal plan - provides unlimited access into the dining hall ($50 dining dollars per semester)
• 19 meal plan - provides 19 meals per week ($75 dining dollars per semester)
• 14 meal plan - provides 14 meals per week ($150 dining dollars per semester)
• 8 meal plan - provides 8 meals per week ($0 dining dollars per semester)
• 100 block meal plan - provides 100 meals to be consumed throughout the fall and spring semesters - Commuters & University Village only
• 75 block meal plan - provides 50 meals to be consumed throughout the fall and spring semesters - Commuters & University Village only
• 50 block meal plan - provides 50 meals to be consumed throughout the fall and spring semesters - Commuters & University Village only
• Enrollment in any of the residential colleges (excluding University Village) requires participation in the 8, 14, 19, or the Unlimited meal plan
• Freshmen must choose from the Unlimited, 19, or 14 meal plans only
• 100, 75, and 50 block meal plans are open to Commuter and University Village students only
• Graduate and undergraduate students who are 25 or older as of September 1 of the meal plan contract year are excluded from this requirement
• Commuter and other students not enrolled in the residential colleges may participate in any meal plan
• All meal plans are available seven days a week. Students have the opportunity to eat meals five times a day up to their weekly meal total. Unless they are on the Unlimited meal plan
• Take out is limited to once per meal period
Dining Dollars

- Unused fall block meals rollover to the spring semester, but are forfeited at the end of the spring semester.

**Dining Dollars**

- Dining Dollars provided with the meal plan may be used in approved food service locations for food purchases only. Usage is limited to $20 per day.
- Unused Dining Dollars may not be used in vending machines.
- Unused Dining Dollars at the end of the Fall Semester will carry into the Spring Semester.
- Unused Dining Dollars at the end of the Spring Semester are forfeited.
- Dining Dollars may be used at the Hurricane Food Court, Carts, The Corner Deli, Outtakes Convenience Store, Village Marketplace, Rathskeller, Einstein Bros. Bagels, Jenkins Snack Bar, Starbucks, BankUnited Center, Sebastian’s Café, Courtside Eatery at the Wellness Center, Lime Fresh Mexican Grill, Jamba Juice, and Fresh Fusion.

**Dining Services Contract**

- The Dining Services contract begins with the first meal of Fall Semester and extends through the last meal of Spring Semester.
- The student indicates choice of meal program through the Housing and Residential Life Portal or via CaneLink.
- The student’s meal plan choice through the Housing and Residential Life Portal or election via CaneLink signifies acceptance of that board plan for the period indicated.
- Students who do not enroll in any of the meal plans will be force enrolled onto the 14 meal plan. All terms and conditions will be binding upon the student.
- Meals are not served between semesters or on Thanksgiving (meals are served on Thanksgiving in the Residents). Please check dining services website for hours of operations.
- The entire semester amount must be paid in full at the same time students pay other registration costs (tuition and fees) during or before the first week of classes.
- All students may make changes to their meal plan within the first week of the semester by accessing the Housing and Residential Life Portal or via CaneLink.
- Changes made to lower meal plans for the Spring Semester will be assessed a $40 processing fee.
- Charges will be prorated up to the end of the week.
- Meal plan weeks run Monday through Sunday.
- Releases will be subject to a $300 cancellation fee plus full charges through the week of cancellation, and may also result in a Dining Dollars surcharge fee.
- Approval is obtained solely through the Department of Dining Services.
- The University reserves the right to terminate the contract by written notice if a student fails to comply with any of the terms and conditions of the contract and all other University and Dining Services rules and regulations.

For more information on Dining Services write to:

University of Miami, Dining Services
P.O. Box 248106
Coral Gables, FL 33124-6909

Call Dining Services at 305-284-3584, email (diningservices@miami.edu) or visit our website (http://www.miami.edu/finance/index.php/auxiliary_services/dining_services).

**Honors**

http://www.miami.edu/index.php/honors_program_home/

**University Honors**

For additional information, please visit our website (http://www.miami.edu/index.php/honors_program_home/graduation_honors).

**Departmental Honors**

Among the departments offering approved programs for honors study at the junior-senior level for both majors and elective students are American studies, art and art history, biochemistry and molecular biology, biology, business administration, chemistry, computer science, engineering, English, finance, French, German, history, international finance and marketing, international studies, Judaic Studies, marine science, mathematics, meteorology, microbiology and immunology, philosophy, political science, psychology, religious studies, sociology, Spanish, and women’s and gender studies. Admission into the program is by invitation, but any student who believes himself or herself qualified may apply to the Chairman or the Departmental Honors Advisor of the major department, preferably during the sophomore or early junior year. Upon successful completion of the required program and with approval by the faculty of the department, the notation Departmental Honors in ... is included in the candidate’s diploma and transcript.

Departmental Honors are designed primarily to provide an opportunity for the student to intensify and deepen his or her knowledge of the major, to permit closer associations with professors in the student’s area of concentration, and to prepare the student for research, thesis preparation, and other work at the graduate level in the major areas.

Departmental Honors requirements vary by departments; the prospective Departmental Honors student should confer with the Honors Advisor within the department about specific requirements for graduation with Departmental Honors.

**Dual Degree Honors Programs**

**Fellows in Latin American Studies (FILAS)**

This innovative, dual B.A./M.A. honors degree in Latin American Studies allows outstanding incoming freshmen the opportunity to complete a master’s degree in five years, following a rigorous, efficient, accelerated curriculum of 150 credits. This highly selective group of students will enjoy close faculty mentoring and the opportunity to engage in specialized research projects with faculty. Students will gain advanced competence in at least one major language of Latin America, intern for one semester in public or private organizations dealing with Latin America and/or the Caribbean, and take advanced seminars with UM’s major Latin American scholars and visiting scholars. In addition, students will receive first-hand experience in their regions of focus by studying abroad. Most study abroad opportunities are for one semester (six months). FILAS students may arrange their own study abroad in consultation with the academic director or they may participate in the university’s study abroad options. Applicants must be high school seniors in the top 10% of their class and must have a minimum SAT I score of 1360 or (ACT 31). In addition to the regular Application for Admission to the University, the applicant must complete a separate application form for the Fellows in Latin American Studies (FILAS). The...
The Honors Program in Biochemistry & Molecular Biology (HPBMB)

The Honors Program in Biochemistry & Molecular Biology (HPBMB) is offered to mature high school seniors with strong academic ability and achievement who seek careers in biological or biomedical science. Students can earn both a Bachelor of Science (BS) and a Doctor of Philosophy Degree (PhD) in approximately six years.

To begin, students are admitted simultaneously into (i) the Honors Program and (ii) a special Privileged Studies Program in the College of Arts and Sciences. Privileged Studies provides flexibility in designing a course of study without the limitations of the conventional course distribution requirements. Furthermore, students are assured of a place in the graduate program of the Biochemistry & Molecular Biology Department after 2.5 or 3 calendar years of undergraduate work, provided that (i) a 3.5 GPA both overall and in the sciences is maintained and (ii) at least 1200 is scored on the graduate records examination (GRE).

Applicants must have a combined SAT I score of 1400 (combined Math and Critical Reading scores) or an ACT score of 32 and an unweighted GPA of 3.75. An SAT2 score of at least 600 in Math, and one science (Biology, Chemistry or Physics) is required. Eight semesters of English and mathematics and two semesters each of biology and chemistry must be completed by the time they graduate from high school. All components of the Common Application for undergraduate admission must be completed by November 1 of the senior year. In addition, a supplemental application form for the Honors Program in Biochemistry & Molecular Biology (HPBMB) must be completed at this time, including the personal statement. Finally, letters of recommendation in support of the application must be received from (i) three teachers and (ii) a counselor.

For further information and application forms, please visit this website (http://www.miami.edu/dualdegree).

Honors Program in Exercise Physiology (HPEP)

The Kinesiology and Sport Sciences Department offers an accelerated Master degree program for students who have completed their 4-year undergraduate program in Exercise Physiology or Athletic Training. It allows students to complete their Master degree in any of the Exercise Physiology tracks (Clinical and Applied Exercise Physiology, Strength and Conditioning, and Nutrition for Health and Human Performance) within one year of their BS degree obtained in that major.

The additional year of study will enable students to complete all requirements leading to a Master of Science degree in Exercise Physiology in the School of Education and Human Development, (M.S. Ed.), in 5 years. To be considered, applicants must be in the top 10% of their high school graduating class. Students must have an SAT score of 1000 or an ACT score of 30 and an unweighted minimum GPA of 3.0 or above. The Exercise Physiology and HPEP application forms and supporting materials must be submitted no later than August 1st of the applicant’s senior year. A review of completed applications will begin by the end of September.

For further information and application forms please visit this website (http://www.miami.edu/dualdegree).

Honors Program in Law (HPLW)

The University of Miami offers the Honors Program in Law (HPLW) which allows excellent students with high academic ability to gain admission to both undergraduate study and to graduate study in the law school. Such an achievement guarantees admission to the School of Law, pending students meet all program requirements - and gives qualified students the chance to complete both bachelors and Juris Doctor degrees in just six years. Applicants who wish to be considered for admission must be high school seniors in the top 5% of their class, have a minimum SAT I score of 1400 or (ACT 32) and an unweighted GPA of 3.750. In addition to the regular Application for Admission to the University, the applicant must complete a separate application form for the Honors Program in Law. The HPLW application form and supporting materials must be submitted no later than November 1st of the applicant’s senior year. A review of completed applications will begin by the end of November.

For further information and application forms please visit this website (http://www.miami.edu/dualdegree).

Honors Program in Marine Geology (HPMG)

The Honors Program in Marine Geology (HPMG) allows exceptional students to pursue an accelerated program in the undergraduate Geological Sciences and graduate Marine Geology and Geophysics programs. The degree consists of an undergraduate Bachelor of Sciences degree in Geological Sciences from the College of Arts and Sciences, combined with a graduate Master of Science degree from the Division of Marine Geology and Geophysics at the University of Miami Rosenstiel School of Marine and Atmospheric Science. Applicants must be high school seniors in the top 10% of their class and must have a minimum SAT I score of 1360 or (ACT 31). In addition to the regular Application for Admission to the University, the applicant must complete a separate application form for the Honors Program in Marine Geology. The HPMG application form and supporting materials must be submitted no later than November 1st of the applicant’s senior year. A review of completed applications will begin by the end of November.

For further information and application forms please visit this website (http://www.miami.edu/dualdegree).

Honors Program in Medicine (HPME)

The Honors Program in Medicine (HPME) is offered to mature high school seniors with strong academic ability and achievement who seek careers in medicine or medical science. Students can earn both a Bachelor of Science (BS) and a Doctor of Medicine Degree (MD) in 7 or 8 years. Students undergo a highly selective screening process and are admitted simultaneously to the University of Miami and the Miller School of Medicine. Accepted students are assured of a place in medical school after 3 or 4 calendar years of undergraduate work assuming they maintain the required grade point average and receive the required MCAT score.

Applicants to the Honors Program in Medicine must be US citizens or permanent residents of the United States with an alien registration
First-Year Seminars

Conceived as alternatives to the typical survey courses that incoming students take, First-Year Seminars offer a limited number of students a small class focused on a specific topic. The seminars are interdisciplinary in nature and/or experimental in subject and design. Seminars are taught by distinguished faculty from a wide variety of academic disciplines and offer students the opportunity to engage in research from their first semester on campus. No student may take more than one. First-Year Seminars are 3 credit hour courses that may be used to fulfill general education requirements in STEM, People & Society, or Arts & Humanities, as they can be a part of cognates.

Seminar Courses

- FFA 190-199. First-Year Seminars in Arts
- FLT 190-199. First-Year Seminars in Literature
- FNS 190-199. First-Year Seminars in Natural Science
- FPR 190-199. First-Year Seminars in Philosophy/Religion
- FSS 190-199. First-Year Seminars in the Social Sciences

Foote Fellow Honors Program

The Foote Fellows Honors Program recognizes the most educationally accomplished incoming students at the University of Miami. Foote Fellows have distinguished themselves both in and out of the classroom, are self-motivated, and think independently. Admission to the Foote Fellows Honors Program is by invitation.

Within the curricular framework of their school or college, Foote Fellows enjoy unmatched freedom and flexibility to explore a multitude of educational resources. Many Foote Fellows leverage this opportunity to take additional majors and/or minors and to study abroad.

At each of the nine undergraduate schools at the University of Miami, a dedicated advisor helps Foote Fellows chart their academic path and attain access to distinctive learning opportunities at the University, such as special school-based seminars, faculty-mentored research, networking opportunities, and off-campus internships.

Foote Fellows also will be invited to join advanced, interdisciplinary Foote Fellow seminars taught by leading faculty members from across the University. An example is Books That Matter, a rigorous seminar in non-fiction reading that is offered in sessions for first-year and for upper-class students. Freshman Foote Fellows benefit from early move-in to the residential colleges. Further, Foote Fellows receive focused advising on post-baccalaureate distinguished fellowships and awards.

The Foote Fellows Honors Program reflects the educational vision of former University of Miami President Edward T. Foote, who retired in 2000 after serving the University for twenty years.
Veterans

Veterans’ Benefits

The University of Miami maintains a Veterans’ Affairs (V.A.) Office in the:
Office of the Registrar
P.O. Box 248026
Coral Gables, Florida 33124-6914

This office assists veterans and dependents of veterans who are entitled to V.A. educational benefits under Chapter 30, 31, 33, or Chapter 35 of Title 38, U.S. Code, and Chapter 1606 or Chapter 1607, Title 10, USC. The University of Miami participates in the Yellow Ribbon Program for qualified Chapter 33 recipients. 1 Anyone needing information on Veterans’ Benefits is advised to contact the Office of the Registrar or visit the Registrar’s website (http://www.miami.edu/index.php/registrar/veteran_information).

V.A. students with previous post-secondary educational training/ experience must request an official transcript(s) be sent to the School. If the transcript has not been received prior to the end of the student’s initial semester, or as specified in the guidelines under the program he/she is enrolled in, the Veterans’ Affairs Office will not re-certify the student for V.A. educational benefits. The Veterans’ Affairs Office may re-certify the student after the transcript has been received.

The V.A. student’s previous training and/or experience will be evaluated by the School. Should credit(s) be accepted and/or awarded, the V.A. student’s tuition and training time may be reduced proportionally. The V.A. and the student will receive a written notice of the credit(s) allowed.

1 The University of Miami’s Yellow Ribbon Program is available to students in the Fall and Spring semesters only.

Standards of Progress Policy for Veterans

Satisfactory progress is indicated by a Satisfactory Progress Average (SPA), which is a variation of the Quality Point Average (QPA). The SPA is computed by the following formula:

<table>
<thead>
<tr>
<th>Grade</th>
<th>SPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
</tr>
<tr>
<td>E</td>
<td>0</td>
</tr>
<tr>
<td>IE</td>
<td>0</td>
</tr>
<tr>
<td>IF</td>
<td>0</td>
</tr>
<tr>
<td>NG</td>
<td>0</td>
</tr>
</tbody>
</table>

- Note that “E’s”, “F’s”, “IE’s” and “IF’s” are included in the SPA.
- A grade of CR will be counted as CR=2.
- The SPA is determined by dividing the total quality points earned by the credits attempted.

When a course is dropped with a grade of "W", the V.A. requires a student to repay any benefits received for that course unless the V.A. determines there are mitigating circumstances involved.

Benefits will not be paid for courses in which a student receives an NG or NC or IP’s that do not convert to a letter grade.

For V.A. Payment of Benefits Purposes

All V.A. Students are required to notify the V.A. Certifying Official, every semester, in writing, their intent to use their benefits, and therefore to be certified for that semester.

- An SPA of 2.0 or greater for undergraduate students, or 3.0 or greater for graduate students, is satisfactory progress.
- Less than 2.0 for undergraduate, and less than 3.0 for graduate students, is not satisfactory.
- Law and M.D. students will be considered to be making satisfactory progress as long as they meet the academic standards set by their schools for retention in their degree programs.
- The SPA is non-cumulative. It is computed each term on a one-term basis.
- Any term a student’s SPA is less than 2.0 for undergraduate or 3.0 for graduate, he/she will be notified that he/she is not making satisfactory progress. He/she will be certified, in a probationary status, for only one additional semester.
- If, at the end of this additional semester, his/her SPA for that semester is still below the satisfactory level, the V.A. will be notified of the unsatisfactory progress and his/her educational benefits will be terminated.
- A student whose V.A. educational benefits have been terminated for unsatisfactory progress may petition the Veterans’ Affairs Office to be re-certified after one semester has elapsed. Please address your request to:

VA Certifying Official
c/o Office of the Registrar
University of Miami
P.O. Box 248026
Coral Gables Florida 33124-6914

- The Veterans’ Affairs Office may re-certify the student for V.A. educational benefits only if there is a reasonable likelihood that the student will be able to attain and maintain satisfactory progress for the remainder of the program.

Please consult with our office regarding regulations for “IP’s” received in Thesis, Research, or Dissertation.

There is an official period after each registration in which a student may drop a course without a “W” appearing on his/her grade report. This period is not to be confused with the last date to drop a course with a “W”
grade. Please check the academic calendar on the Registrar's website (http://www.miami.edu/index.php/registrar/calendar) for dates.

**Class Attendance and Absences**

- Regular and punctual class attendance is vital for all students.
- It is the student's responsibility to know the instructor's policies regarding examinations, penalties for absences, and late or missed work.
- A copy of the student's transcript will be placed in the student's permanent file maintained by the Veterans' Affairs Office.

Because of the far-reaching effects of these revisions in the V.A. educational benefits program, it is suggested that you exercise care and judgment in your program planning and in the selection of your courses. V.A. educational benefits will only pay for courses that are toward the program in which you are enrolled.

Veterans and children of deceased or totally disabled veterans receive training allowance in proportion to the schedule carried. The full load required to receive full training allowance is 12 credits in undergraduate school (9 credits in Graduate School).
UNDERGRADUATE ACADEMIC PROGRAMS
Introduction

The School of Architecture offers a five-year, accredited professional program leading to the Bachelor of Architecture degree. The Bachelor of Architecture fulfills the educational requirements for professional registration. It offers specialized architectural study through upper-level studios and architecture electives, as well as opportunities for the study of liberal arts through the elective sequence.

The School of Architecture’s location in Coral Gables within the Miami metropolitan area provides an outstanding laboratory for research and advanced study; the challenges of conservation and development are intense in one of the nation’s fastest growing urban areas. These challenges result in an increasing demand for skilled professionals. Students have the opportunity to work with the faculty in the exploration of theoretical issues and in the resolution of practical problems. The School of Architecture values and sustains a creative, open and supportive environment, emphasizing personalized instruction in small classes and studio courses.

Mission

- Prepare students for professional leadership and lifelong learning in architecture, urbanism and related fields.
- Preserve and develop knowledge for the profession through research and practice.
- Share knowledge locally and internationally through community service.
- Promote building and community design goals of environmental responsibility, social equity and economic sustainability.

Accreditation

The school is a member of the Association of Collegiate Schools of Architecture and the Association of Collegiate Schools of Planning, and is fully accredited by the National Architectural Accreditation Board, who asks each school to include the following paragraph on professional degrees in all literature:

In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards. Master’s degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education.

Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree.

Admission

Applications for incoming freshmen are processed and reviewed by the Office of Admission. Enrollment in the School of Architecture is selective and highly competitive. Application to the Bachelor of Architecture program is requested by January 1st. Early application is encouraged.

Freshman

Admission decisions are based on the following factors: portfolio, secondary school record, SAT/ACT score, counselor’s evaluation and the student essay.

Transfer Students

The academic accomplishments of each transfer student will be evaluated on an individual basis. A 3.0 G.P.A. is required for transfer admission. A portfolio is required for advanced placement in the design sequence of the Bachelor of Architecture Program. Application deadline for the School of Architecture program is March 1st.

All transfer students requesting advanced placement in design must provide a portfolio of previous academic design and graphic work and three academic recommendations. Students accepted into third year design will be required to complete a transitional design course (ARC 301) during the summer prior to enrollment. The courses MTH 130 and PHY 103, or their equivalent are to be completed before admission into ARC 305.

Student Responsibilities

Students in the School of Architecture are responsible for planning their own programs and for meeting degree requirements. It is the student’s responsibility to understand and fully comply with all the provisions set forth in this Bulletin and written changes to their program of study. Students are provided assistance by advisors and faculty members. Written requests for variation from program or school requirements are reviewed by a faculty committee.

Academic Progress and Probation

The School of Architecture will review each student’s record at the end of each semester. When a student’s semester or cumulative average is less than stated below, or progress toward degree completion is unsatisfactory, the student will be placed on academic probation or warning in accordance with School of Architecture policies and procedures. Students on probation are not permitted to enroll in more than 13 credit hours, shall meet on a monthly basis with their academic advisor, and may have a STOP placed upon their future enrollment until grades for work-in-progress are reviewed. First semester freshmen who have a semester grade-point average below 2.0 shall be placed on probation.

<td>2.3</td>
</tr>
</tbody>
</table>

Students must complete all Architecture Design studios with a grade of C- or higher. Students receiving two consecutive C- grades in architecture design studios will have to repeat the later course. Students receiving a grade of D+ or lower in an architecture design studio must repeat the studio and will be restricted to a 15 credit hour semester load.
The student will meet with an academic advisor on a monthly basis and will be reviewed prior to continuation.

**Academic Dismissal**

A student in the School of Architecture whose CGPA or progress toward degree completion falls below the level of the minimum standards of the University of Miami may be dismissed. In the School of Architecture this includes a student who receives three grades of D+ or lower in design courses.

**Class Attendance and Absences**

Class attendance is mandatory for all architecture courses; three unexcused absences constitutes grounds for dismissal from the course and/or a failing grade. Students are required to be present for an entire design review, therefore, students arriving late or departing early from class will be considered absent. Excused absences require written notification and are granted by the instructor.

**Failing Grades or Incompletes**

A required architecture course in which a student receives a failing grade must be repeated during the first subsequent semester in which the course is offered. Incompletes can be given only for reasons of serious illness or exceptional hardship.

**Student Work**

The University may retain selected student work and may place it in the architecture archives for exhibition, publication, or other use as the University deems appropriate. Each student in architecture is encouraged to maintain a design portfolio of every project undertaken throughout the five-year program.

**Permission to Take Courses at Another University**

A form is available from the Office of Academic Services and should be completed and approved PRIOR to off-campus enrollment. Students are encouraged to provide complete documentation for each course request form. Each student requesting transfer credit hour must supply the University of Miami registrar with certified transcripts. Additionally, each student should review transfer evaluations to be certain that all courses are correctly evaluated for credit hour. The proper transmission and transfer of credit hours is the responsibility of the individual student. The last 45 credit hours towards the degree must be completed at the University of Miami.

**Changes to Academic Requirements**

The School reserves the right to change academic requirements.

**Computer Requirement**

Undergraduate and graduate students entering the program are required to purchase their own computers for use in the design studio. The School of Architecture computing resources are accessible via a wireless network with an approved device and subject to School and University policy. Suggested system requirements are published on the School of Architecture web site.

**Requirements for Graduation**

Architecture students must complete a cognate in People and Society and a cognate in either Arts & Humanities or STEM.

**Resources**

The school’s resources, including state-of-the-art computer lab, digital fabrication laboratories and model shop are enhanced by the interdisciplinary opportunities offered by the other schools and colleges of the University of Miami. A distinguished faculty is joined each semester by internationally renowned visiting scholars and designers.

**Other programs that offer academic opportunities for undergraduate architecture students include:**

- the Historic Preservation Certificate
- the Classical Architecture Certificate
- the Master of Urban Design
- the Master of Real Estate Development and Urbanism
- the M.S. Architecture
- the BSAE/MARCH
- the BARCH/MBA

**Dual Degree Programs**

A six year dual degree program leading to a Bachelor of Science in Architectural Engineering and a Master of Architecture is also available. The program is open to exceptional students who are admitted to the graduate program at the end of their junior year. Upon completion of this program, graduates are eligible for professional registration as both an engineer and an architect.

**Major in Architecture**

- Bachelor of Architecture (p. 59)

**Minor in Architecture**

- Architecture (p. 63)

**Joint Degrees in Architecture**

- Bachelor of Science in Architectural Engineering and Master of Architecture (p. 61)

**Henry Adams Medal**

Awarded in conjunction with the American Institute of Architects to the highest-ranking graduating student for scholarship and excellence in a professional architecture program.

**Henry Adams Certificate**

Awarded in conjunction with the American Institute of Architects to the second highest-ranking graduating student for scholarship and excellence in a professional architecture program.

Other honors, distinctions, and awards are presented annually for excellent student performance.

**Bachelor of Architecture**

Specific procedures and policies are detailed in the student handbook available from the Office of Academic Services.

### Curriculum Notes

- The School reserves the right to retain all student projects done in for academic credit hour.
- MTH 130 AND ENG 105 are entry-level courses. Courses taken to achieve entry-level status cannot be considered towards the total credit hours required for the B.Arch. Degree.

### Electives

The program requires four types of electives:

- Architecture electives (7 courses): Investigations in areas of architectural interest beyond the core requirements
- Professional practice elective (1 course): Focused examination of a topic related to practice
- Non-Architecture electives (5 courses): Explorations of general University offerings
- Minor (4-5 courses) or 2 cognates (6 courses): Concentrated study in an area outside of architecture

A minor or its equivalent is required for all students who began the program prior to the Fall of 2013. All others shall complete the cognate requirements. Areas are selected in consultation with advisors.

### Year One

#### First Semester
- **CAE 111** Introduction to Engineering I: 3 credit hours
- **ENG 105** English Composition I: 3 credit hours
- **MTH 151** Calculus I for Engineers: 5 credit hours
- **PHY 205** University Physics I: 3 credit hours
- **ARC 121** Architecture and Culture: 1 credit hour

**Credit Hours:** 15

#### Second Semester
- **CAE 112** Introduction to Engineering II: 2 credit hours
- **CAE 210** Mechanics of Solids I: 3 credit hours
- **ENG 107** English Composition II: Science and Technology: 3 credit hours
- **MTH 162** Calculus II: 4 credit hours
- **PHY 206** University Physics II: 3 credit hours
- **PHY 208** University Physics II Lab: 1 credit hour

**Credit Hours:** 16

### Year Two

#### First Semester
- **CAE 211** Mechanics of Solids II: 3 credit hours
- **CAE 212** Structural Laboratory: 1 credit hour
- **ARC 294** Introduction to the Development of Architecture: 3 credit hours
- **PHY 207** University Physics III: 3 credit hours
- **PHY 209** University Physics III Lab: 1 credit hour
- **IEN 311** Applied Probability And Statistics: 3 credit hours
- **Cognate Elective**: 3 credit hours

**Credit Hours:** 17

#### Second Semester
- **CAE 310** Structural Analysis: 3 credit hours
- **CHM 151** Chemistry for Engineers: 3 credit hours
- **CHM 153** Chemistry Laboratory for Engineers: 1 credit hour
- **MTH 311** Introduction to Ordinary Differential Equations: 3 credit hours
- **MAE 303** Thermodynamics I: 3 credit hours
- **MTH 211** Calculus III: 3 credit hours

**Credit Hours:** 16

### Year Three

#### First Semester
- **CAE 320** Concrete Structures: 3 credit hours
- **CAE 330** Fluid Mechanics: 3 credit hours
- **ARC 501** Architecture Design and Theory I: 6 credit hours
- **ARC 511** Drawing: 3 credit hours
- **Cognate Elective**: 3 credit hours

**Credit Hours:** 18

#### Second Semester
- **CAE 321** Steel Structures (ARC 532): 3 credit hours
- **CAE 380** Electrical and Illumination Systems for Buildings (ARC 563): 3 credit hours
- **CAE 381** Building Mechanical Systems I: Hvac Fundamentals (ARC 562): 3 credit hours
- **ARC 502** Architecture Design and Theory II: 6 credit hours
- **ARC 513** Computing: 3 credit hours

**Credit Hours:** 17

### Year Four

#### First Semester
- **CAE 403** Senior Design Project I - Civil & Architectural: 1 credit hour
- **CAE 470** Foundations and Earth Retaining Systems: 3 credit hours
- **CAE 480** Plumbing and Life Safety For Buildings: 3 credit hours
- **CAE 481** Building Mechanical Systems II: HVAC Systems: 3 credit hours
- **ARC 608** Architecture Design: 6 credit hours
- **ARC 620** Architecture Theory: 3 credit hours

**Credit Hours:** 19

#### Second Semester
- **CAE 404** Senior Design Project II - Civil & Architectural: 2 credit hours
- **ARC 609** Architecture Design: 6 credit hours
- **ARC 612** Architecture Elective: 3 credit hours
- **Cognate Elective**: 3 credit hours

**Credit Hours:** 17

### Year Five

#### First Semester
- **CAE 403** Senior Design Project I - Civil & Architectural: 1 credit hour
- **CAE 470** Foundations and Earth Retaining Systems: 3 credit hours
- **CAE 480** Plumbing and Life Safety For Buildings: 3 credit hours
- **CAE 481** Building Mechanical Systems II: HVAC Systems: 3 credit hours
- **ARC 608** Architecture Design: 6 credit hours
- **ARC 620** Architecture Theory: 3 credit hours

**Credit Hours:** 19

#### Second Semester
- **CAE 404** Senior Design Project II - Civil & Architectural: 2 credit hours
- **ARC 609** Architecture Design: 6 credit hours
- **ARC 612** Architecture Elective: 3 credit hours
- **Cognate Elective**: 3 credit hours

Credit Hours  12

Total Credit Hours  203

1 To be selected from approved lists of People and Society (PS)/Arts and Humanities (HA). Students take a minimum of 3 courses (9 credit hours) in HA cognate and 3 courses in PS Cognate (9 credit hours). Students are advised to select the HA Cognate that includes the following courses: ARC 230 or ARC 630, ARC 268 or ARC 476 and ARC 594.

2 To be selected from approved list of Technical Electives

Minor in Architecture

A minor in architecture is available to non-architecture majors as an option in the undergraduate architecture program. The purpose of the minor is to provide a general understanding and appreciation of the discipline of architecture. The minor does not satisfy professional requirements in architecture but does offer an introductory basis for further study at the undergraduate or graduate level. The program requires 12 credit hours in architecture courses.

Twelve architecture credits from the following list of courses may be taken to complete the requirements for the minor.

Select 12 credits from the following:

ARC 121  Architecture and Culture  1

ARC 122  Architecture and Behavior  1

ARC 141  On-Site Survey of European Architecture and Urbanism  3-6

ARC 223  Architecture and the Environment  1

ARC 267  History of Architecture I: Ancient, Medieval and Renaissance  3

ARC 268  History of Architecture II: Baroque through Contemporary  3

ARC 292  Introduction to Architecture Design I  3

ARC 293  Introduction to Architecture Design II  3

ARC 294  Introduction to the Development of Architecture  3

ARC 323  On Site Study of Selected Architecture and Urbanism  3-6

ARC 324  On Site Graphic Analysis of Selected Architecture and Urbanism  3

ARC 371  Ancient Architecture  3

ARC 373  Early Christian, Byzantine, and Medieval Architecture  3

ARC 475  Colonial Architecture  3

ARC 476  19th and 20th Century Architecture  3

ARC 481  Special Problems  3

ARC 551  Contemporary Theories of Architecture  3

ARC 554  Architecture of South Florida  3

ARC 572  Selected Topics in World Architecture  3

ARC 574  Renaissance Architecture  3

ARC 581  Special Problems  3

ARC 582  Special Problems  3

ARC 583  Special Problems  3

ARC 584  Special Problems  3

ARC 585  Special Problems  3

ARC 586  Special Problems  3

ARC 590  History of Cities  3
The student maintains full responsibility for the impact of an appeal receipt of the appeal. All appeal decisions are final and non-negotiable. To students' UM email account within 2 to 3 business weeks upon graduated and having a conferred degree. Appeal decisions will be delivered semester in question. Year from the semester end date noted on the academic calendar for the unacceptable appeal requests. Other than the student. Please read below for a list of acceptable and accepted from parents/guardians, doctors, attorneys, or anyone else student from their student UM email account. Appeals will not be of Arts and Sciences. Appeals to exceptions to academic policy under the authority of the College responsible for reviewing and conducting hearings on appeals related. The College's Faculty Committee on Academic Appeals (FCAA) is responsible for reviewing and conducting hearings on appeals related to exceptions to academic policy under the authority of the College of Arts and Sciences. Appeals must be submitted directly by the student from their student UM email account. Appeals will not be accepted from parents/guardians, doctors, attorneys, or anyone else other than the student. Please read below for a list of acceptable and unacceptable appeal requests. All appeals related to course drops/ enrollment adjustments MUST be submitted within one (1) calendar year from the semester end date noted on the academic calendar for the semester in question. Transcripts will not be altered once a student has graduated and has a conferred degree. Appeal decisions will be delivered to students' UM email account within 2 to 3 business weeks upon receipt of the appeal. All appeal decisions are final and non-negotiable. The student maintains full responsibility for the impact of an appeal decision, especially as it relates to their account, financial aid, visa status, academic progress, and graduation timeline.

Steps to Submit an Acceptable Appeal:
1. Draft an email to the Assistant Dean of Academic Services – see website for contact information. as.miami.edu/advising.
2. The appeal email must briefly describe the situation, the reason/ justification for the request, the specific request/action, the specific year/term/course ID as applicable to the type of appeal, and the student's name/ID. Appeals must be accompanied by supporting documentation, if applicable to the type of appeal. Documentation must be submitted as an attachment to the appeal email. It is the responsibility of the student to determine what documentation best supports their appeal case. We will not pre-approve documentation before submission of the appeal. We will only accept documentation from the student submitting the appeal.

Appealable Actions for Committee Review:
1. Request for retroactive drop of one, or more, courses after the last date to drop without a W, and/or after the last day to drop a class for the semester in question. This type of appeal is only considered for cases of extreme, unforeseen circumstances or medical emergencies that can be documented. Retroactive drop action cannot result in a complete withdrawal (all enrolled classes dropped).
2. Request for waiver of the 45 credit hour residency requirement
   a. Appeal must include the institution where credits will be/were taken, the year/term to be/were taken, and the exact number of credits to be considered for waiver.
   b. This process DOES NOT preapprove transfer equivalencies or guarantee transferability of courses. Students are responsible for adhering to all necessary policies and procedures related to transferring courses to UM.
3. Substitution for, or waiver from College of Arts and Sciences' General Education Requirements (not University general education requirements – see below).

The following requested actions are not appealable through the College of Arts and Sciences FCAA:
1. Adjustment of academic record/transcript after graduation and a conferral of the degree: See University Bulletin
2. Retroactive withdrawals for Fall/Spring semesters
   a. The University has a formal withdrawal policy found here (http://www.miami.edu/index.php/cane_success_center/withdrawal).
3. Retroactive withdrawals for summer sessions that alters the effective date of the withdrawal
   a. See withdrawal policy linked above
4. Grade Appeals, including incomplete grades that are now IF grades
5. Waiver of University General Education Requirements as defined by the Bulletin: No appeals process available
6. Substitution for/waiver from any requirements related to a major or minor: Under respective department authority
7. Excused absences from a course(s): Absences are under the authority of individual instructors
8. Credit Only Option after deadline: No appeals process available
Requirements for Graduation

Bachelor of Arts and Bachelor of Science Degrees
Candidates for degrees in the College of Arts and Sciences must complete the credit hours of work and achieve the quality point average specified for students in the University at large. These requirements are indicated in the Academic Procedures and Information section of this Bulletin. Candidates must also complete the General Education requirements of the University, i.e., the Proficiencies: English Composition, Advanced Writing and Communication, and Quantitative Skills; completion of a cognate in each of the three areas: Arts & Humanities, People & Society, and Science, Technology, Engineering & Mathematics. The university offers a large number and range of cognates. Additionally, each major and minor fulfills the cognate requirement in one Area of Knowledge.

I. Additional Proficiencies and Areas of Knowledge Requirements
In addition to the university's general education requirements, the college has the following requirements and provisos:

Bachelor of Science
- Second Language Proficiency: Degree candidates must earn at least 3 credit hours of a language other than English at the 200 level or higher.
- Advanced Writing and Communication Proficiency: Degree candidates must complete at least four writing courses, and at least one writing course must be in the student's major discipline.
- Mathematics Proficiency: Degree candidates must complete a calculus sequence: MTH 161-MTH 162, MTH 140-MTH 141-MTH 162, or MTH 171-MTH 172.
- Computing or Statistics Proficiency: Degree candidates must earn at least 3 credit hours in either
  1. a computing course approved by the major department; or
  2. a statistics course approved by the major department.
- Natural Science Area of Knowledge: Degree candidates must earn at least 3 credit hours in Natural Science, in one of the following departments: Biology, Chemistry, Geological Sciences or Physics. These credit hours must be earned in courses that count toward a major in that department.

Bachelor of Arts
- Second Language Proficiency: Degree candidates must earn at least 3 credit hours of a language other than English at the 200 level or higher.
- Advanced Writing and Communication Proficiency: Degree candidates must complete at least four writing courses, and at least one writing course must be in the student's major discipline.
- Mathematics Proficiency: Degree candidates must earn at least 3 credit hours in a Mathematics course numbered MTH 108 or higher.
- Natural Science Area of Knowledge: Degree candidates must earn at least 3 credit hours in Natural Science: Anthropology (only APY 203), Biology, Chemistry, Ecosystem Science and Policy (only ECS 111, ECS 112, ECS 202), Geography (only GEG 120), Geological Sciences, Marine Sciences (except MSC 313, MSC 314), Physical Sciences, and Physics.

Bachelor of Fine Arts
- Advanced Writing and Communication Proficiency: Degree candidates must complete at least four writing courses, and at least one writing course must be in the student's major discipline.
- Mathematics Proficiency: Degree candidates must earn at least 3 credit hours in a Mathematics course numbered MTH 108 or higher.

Bachelor of Liberal Arts
- Advanced Writing and Communication Proficiency: Degree candidates must complete at least four writing courses, and at least one writing course must be in the student's major discipline.
- None

Details of the Second Language Proficiency
Second language requirements can be fulfilled through courses offered in the departments of Modern Languages and Literatures (Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Portuguese, and Spanish, except for courses numbered 310-319), Classics (Latin and Greek), and Teaching and Learning in the School of Education (American Sign Language). Special 100- and 200-level Spanish courses are required of heritage Spanish speakers who choose to fulfill the language requirement by taking Spanish. Courses taken in order to meet second language requirements, including necessary prerequisite courses, cannot be used in cognates taken to fulfill the Areas of Knowledge requirement.

Students who graduated high school at an institution in which the primary language of instruction and the primary language of school administration was not English, are eligible for exemption from the CAS second language requirement. Exemption will be granted by CAS Office of Student Advising. To be granted the exemption, the student must have on file the equivalent of a high school diploma from such an institution.

Details of the Advanced Writing and Communication Proficiency
Degree candidates must complete at least four writing courses, and at least one writing course must be in one of the student's major disciplines (not applicable to BLA students who do not select a major). Students should consult the bulletin section of their major to find out which writing-intensive courses are acceptable to the discipline.

Individual writing course offerings may make the writing component independent of the rest of the course. As such the the writing component might be optional, the writing component might not contribute to the overall grade, and writing credit might be awarded even if the overall grade is a fail.

Transfer students may use a maximum of two transfer courses towards the writing requirement.

II. Major and Minor Fields (B.A. and B.S degrees)
B.A. and B.S. degree candidates must choose a major offered in the college by one of the disciplines with an undergraduate academic program in the college, and at least one other minor or major from any of the disciplines in the university. B.S. degree candidates must choose a major from one the STEM fields: Biochemistry and Molecular Biology, Biology, Chemistry, Computer Science, Ecosystem Science and Policy, Geological Sciences, Mathematics, Microbiology and Immunology, Neuroscience, Physics, Psychology. B.A. degree candidates must choose at least one major or minor from a field other than the STEM fields: Biochemistry and Molecular Biology, Biology, Chemistry, Computer Science, Geological Sciences, Mathematics, Microbiology and Immunology, Neuroscience, Physics, Computer Information Systems, and Engineering. The majors and minors taken by a student must come
Exemption from a course or courses refers specifically to the following:

be taken for credit only.

College and the general education requirements of the University may not used to satisfy the major, the minor, the distribution requirements of the University. The student should consult an advisor before selecting hours. General electives may be chosen from any courses offered by the University. The student must complete sufficient general electives to reach a total of 120 credit hours. General electives may be chosen from any courses offered by any department, and no more than 52 total credit hours may be earned in any one department. Up to 30 of the 120 credit hours may be courses from other schools and colleges of the university except for those courses expressly excluded from recognition by the college. Students may, but are not required to, elect a major in a department. If a student fulfills the departmental requirements for the major, it will be recorded on the official transcript. No minor may be elected.

III. Additional Bachelor of Fine Arts Requirements

B.F.A. degree candidates must satisfy the requirements of a major as determined by the Department of Art and Art History or the Department of Theatre Arts. B.F.A. studio majors must minor in Art History. Students must maintain at least a GPA of 3.0 in their major, and an overall GPA of 2.0 or above as specified in departmental and program sections of this bulletin.

IV. Additional Bachelor of Liberal Arts Requirements

B.L.A. degree candidates must complete 120 credit hours with an overall GPA of 2.0 or above. At least 60 of the 120 credit hours must be in 300, 400, or 500-level courses. Of these 60 credit hours, 30 credit hours must be completed in the College of Arts and Sciences. No more than 40 credit hours in 300-level or higher courses may be earned in any one department, and no more than 52 total credit hours may be earned in any one department. Up to 30 of the 120 credit hours may be courses from other schools and colleges of the university except for those courses expressly excluded from recognition by the college. Students may, but are not required to, elect a major in a department. If a student fulfills the departmental requirements for the major, it will be recorded on the official transcript. No minor may be elected.

V. Other Requirements

General Electives

Beyond the general education and major/minor courses, all students must complete sufficient general electives to reach a total of 120 credit hours. General electives may be chosen from any courses offered by the University. The student should consult an advisor before selecting elective courses.

Credit Only

Only general electives may be taken under this option. Courses that are used to satisfy the major, the minor, the distribution requirements of the College and the general education requirements of the University may not be taken for credit only.

Exemption

Exemption from a course or courses refers specifically to the following:

1. credit by examination through the Advanced Placement (AP) or International Baccalaureate (IB) programs;
2. advanced placement by proficiency examinations or test scores, with no credit earned;
3. advanced standing and/or placement, with credit earned.

Transfer Credit Hours

Credit hours transferred from other institutions may not count towards the completion of a major or minor without the written approval of the department or program.

Independent Major

The Independent Major allows students to pursue a BA or a BS degree in the College of Arts and Sciences, depending on the field of study and in consultation with the Guidance Committee. Students will fulfill all requirements for such degrees.

Students may begin to develop a proposal for the IM when they have reached sophomore standing. The proposal should explain why existing majors are inappropriate or inadequate to satisfy the student’s interests. Students will be ineligible for declaring the IM upon reaching senior standing, that is, they must declare as a junior and spend at least two (2) full semesters in residence at UM in the IM. Students will require a cumulative UM GPA of 3.5 or higher to be eligible for the IM.

A student’s Guidance Committee typically will comprise two tenured or tenure-track faculty, typically from different departments, who represent the disciplinary breadth of the courses selected for the IM. A third Guidance Committee member might be appropriate when the proposed course of study encompasses expertise from three Departments or disciplines. The Guidance Committee Chair, who has primary oversight responsibility regarding satisfactory completion of the major, will serve as the primary advisor for the student’s senior research/creative project under most circumstances, and must be a tenure-track faculty. Exceptions to the Chair serving as the primary advisor might include situations where there are co-advisors.

The IM proposal must include at least thirty (30) credit hours of coursework beyond those needed to fulfill General Education requirements. Of those thirty (30), at least six (6) must be at the 300 level; additionally, six (6) credit hours will be satisfied by a Capstone project/thesis in the last two (2) semesters of the Bachelor’s degree. Because many courses have variable availability and conflicts are inevitable, strong proposals will identify more than 30 credit hours of coursework before being submitted to the Advisory Committee for approval. If a student wishes to pursue the IM as a double-major, the Advisory Committee should give particular attention to the appropriateness of the student’s plan of study; no double-counting of credit hours will be allowed between the two majors.

PreLaw Preparation

Although no specific curriculum is required in preparation for Law School, the Pre-Law Committee of the American Bar Association strongly recommends that students considering a career in Law should have a well-balanced education. This education should include courses requiring intensive writing, logical reasoning and critical thinking and reading skills.

PreLaw Advising provides a variety of services to all students interested in attending Law School. For more information, please contact the Office of Student Academic Services in Ashe 200. These services include:

1. Pre-Law Advising: confidential advising in preparation for law school (i.e. application process, general information, discussion of your concerns).
3. Pre-Law Newsletter: information about programs and events.
4. LSAT and LSDAS registration booklets (for juniors and seniors).
5. Campus-wide programs for pre-law students such as Law Day.
6. Programs and seminars in coordination with other University of Miami departments such as: School of Law Career Planning Center, School of Law Center for Ethics and Public Service, Topple Career Planning and Placement, the Counseling Center, and the Reading and Study Skills Center.

In order to take advantage of the services listed above a student should complete a Pre-Law registration card at the beginning of the academic year.

Max and Peggy Kriloff Fund

The Max and Peggy Kriloff Fund is a fund that provides travel support for students earning degrees from the College of Arts and Sciences. The fund provides support for students to present papers, or posters at professional conferences worldwide. Students will need to fill out an application form available at this link (http://www.as.miami.edu/academics/undergraduate-studies/scholarships); and submit it, along with the necessary supporting documentation to the Office of Graduate and Administrative Services in the College of Arts and Sciences.

Foote Fellows pursuing degrees in the College of Arts and Sciences are exempt from all University-wide and College-specific general education requirements. They are eligible for priority admission into the daVinci program, first-year seminars, and internships in the Dean’s office.

Opportunities to learn by doing, through research or tutorials, as well as seed money for students interested in developing a business plan or a prototype are also available to A&S Foote Fellows. Questions? Read more (http://www.as.miami.edu/academics/undergraduate-studies/foote-fellows) or go to Ashe 200 for answers!

The da Vinci Program encourages high-achieving, intellectually curious students to rethink the map of human knowledge. It emphasizes connections between humanistic and scientific inquiry and their modes of understanding: objectivity, critical analysis, self-reflexivity, the nature of proof, authority, and the logic and rhetoric of written expression. It also helps define the distinctive elements that humanities classes can offer to STEM-minded students: a chance to reflect on questions of human values, ethics, and aesthetics. At the same time, it introduces humanities students to conceptually new means of investigating the traditional fields.

Students are invited in the program before their first year and they take a seminar per semester in each of the first four semesters of study. A capstone experience marks the conclusion of their undergraduate career. Read more (http://www.as.miami.edu/davinci) about the Davinci Program.

Aerospace Studies

http://www.miami.edu/aerospace-studies

Dept. Code: AIS

Introduction

Air Force Reserve Officer Training Corps (AFROTC)

AFROTC is a nationwide program that allows students to pursue commissions (become officers) in the United States Air Force (USAF) while simultaneously attending college. AFROTC classes are held on college campuses throughout the United States and Puerto Rico; students can register through normal course registration processes. AFROTC consists of four years of Aerospace Studies classes (Foundations of the USAF, Evolution of USAF and Space Power, Air Force Leadership Studies, and National Security Affairs/Preparation for Active Duty), and a corresponding Leadership Laboratory for each year (where students apply leadership skills, demonstrate command and effective communication, develop physical fitness, and practice military customs and courtesies). College students enrolled in the AFROTC program (known as "cadets") who successfully complete both AFROTC training and college degree requirements will graduate and simultaneously commission as Second Lieutenants in the Active Duty Air Force.

For more information on AFROTC course descriptions, please review this webpage (http://miami.edu). For more information on the AFROTC program, please review this webpage (http://bulletin.miami.edu/undergraduate-academic-programs/arts-sciences/aerospace-studies/%20http://www.as.miami.edu/afrotc).

Enrollment

There is no military obligation to enroll in AFROTC. To enroll students must meet the following criteria:

• Be a U.S. citizens or resident alien, or be able to become a U.S. citizen prior to attending Field Training the summer following sophomore year
• Be full-time college students, enrolled in 12 credit hours per semester
• Be able to participate in a demanding physical fitness program
• Be able to pass a Department of Defense Medical Examination
• Have solid moral character
• Maintain AFROTC minimum required grade point average

Scholarships

More than 60% of Air Force ROTC scholarships are awarded to undergraduate students in engineering or other scientific and technical disciplines. However, students in every degree program enjoy scholarship opportunities, as the Air Force seeks to engage students who excel both academically and militarily. Scholarships are awarded in increments of two, three, and four years. Air Force ROTC offers several types of scholarships. Type 1 covers full tuition and most required fees. Type 2 covers tuition and fees, but is capped at $18,000 annually. Type 7 scholarships are designated for in-state tuition-level institutions. All types of awards provide an allowance for books and a monthly non-taxable stipend. All scholarship cadets are required to meet academic, military, and physical fitness standards to earn and maintain scholarship benefits.

Additionally, University of Miami undergraduates enrolled in the Air Force ROTC program are assured a combined University grant and/or scholarship award during the fall and spring semesters equal to
25% of the University’s tuition charge for a maximum of four years. The subsidy is not available during the summer term. Students must maintain continuous enrollment in the AFROTC program, must maintain satisfactory academic progress to continue receiving the subsidy, and full time enrollment in one of the University’s undergraduate degree programs is required. No application is required. Awards are made automatically based on information provided by the University’s AFROTC detachment.

Benefits

All AFROTC cadets receive uniforms, books and equipment for ROTC classes at no cost. Upon being commissioned a Second Lieutenant in the Air Force, you will receive a starting salary and allowances worth more than $58,000 annually1. Free medical and dental care, 30 days paid annual vacation and educational benefits are also part of the compensation package.

1 Based on 2013 Pay Chart and Miami FL Housing Allowance for an O-1

Minor in Aerospace Studies

- A grade of C- or higher, with an overall GPA of 2.0, is required in each course taken for the minor.

Africana Studies

http://www.as.miami.edu/africanastudies

Dept. Code: AAS

Introduction

The Program in Africana Studies (AAS) provides opportunities for students to learn about the experiences of people of African descent in North and South America, the Caribbean and continental Africa. Courses are presently offered leading to a major or minor in Africana Studies. Students are encouraged to pursue these courses, even if they are not majors or minors, in order to achieve a balanced education in keeping with the stated goals of the University of Miami.

Educational Objectives

1. To help students research, acquire, and disseminate information about the historical and social experiences of Africans and people of African descent on all sides of the Atlantic basin, but with special emphasis on the United States.
2. To facilitate students’ understanding of the multi-cultural, multi-ethnic, globalized society of our time.
3. To help students think critically about the global black experience.
4. To prepare students for graduate work and professional careers.

Departmental Honors

Carter G. Woodson Award - Best all-round student who combines intellectual excellence and community service.

Writing Requirement

To satisfy the College of Arts & Sciences writing requirement in the discipline, students majoring in Africana Studies should take at least one English course or one History course related to Africana Studies and is listed as an advanced writing course, and any Africana Studies course with the Writing Credit designation.

Major in Africana Studies

- B.A. in Africana Studies (p. 68)

Minor in Africana Studies

- Africana Studies (p. 69)

B.A. in Africana Studies

Curriculum Requirements

Major Requirements

Africana majors must complete the following core courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>AAS 150</td>
<td>Introduction to Africana Studies</td>
<td>3</td>
</tr>
<tr>
<td>AAS 490</td>
<td>Senior Seminar in Africana Studies</td>
<td>3</td>
</tr>
<tr>
<td>HIS 201</td>
<td>History of Africa, I (to 1800)</td>
<td>3</td>

* A minor in Africana Studies consists of 15 credit hours.
** A grade of C- or higher with an overall GPA of 2.0, is required in each course taken for the minor.
*** A minimum of six credit hours must be numbered 300 or higher.

## American Studies

http://www.as.miami.edu/americanstudies/

**Dept. Codes:** AMS

### Introduction

The Program in American Studies at the University of Miami fosters the interdisciplinary study of American culture and society, and explores the place of the United States in an increasingly interconnected world. Our faculty come from a wide range of fields, including history, literature, political science, religion, art, philosophy, law, music, ethnic studies, anthropology, architecture, sociology, communications, and education. What unites them is the commitment to examining the U.S. from multiple perspectives, highlighting the diversity of people, cultures, and experiences that have shaped the past and present United States. The Program places analysis of globalization at its center, and encourages a hemispheric perspective that allows students and faculty to explore
interests in the United States, the Caribbean, Latin America, the Pacific Rim, and other border crossings.

**Educational Objectives**

The undergraduate curriculum in American Studies encourages students to bridge the divide between disciplines by examining specific themes and topics in an engaging, dynamic, interdisciplinary manner. By exposing students to courses that place questions of cultural diversity, regional difference, ethnic and racial identity, gender and sexuality, class dynamics, and popular culture at the forefront of intellectual investigation, the Program in American Studies enables them to situate their own experiences in a wider context. It also exposes them to a multiplicity of perspectives that inform our understanding of the United States and its place in a global society. The Program encourages its majors to study abroad, and faculty members help students plan their curriculum to make that option feasible.

**Departmental Honors**

American Studies majors with a cumulative GPA of at least 3.5 in AMS courses and an overall GPA of at least 3.0 may earn departmental honors by completing AMS 505. Candidates for departmental honors are responsible for finding a faculty member to serve as thesis advisor. Students then must complete a thesis proposal of approximately 500 words that must be approved by the thesis advisor and the program director. The format and length of the thesis will vary according to the nature of the project. Students would take AMS 501 in the fall semester of the senior year and AMS 505 in the spring to complete the honors thesis.

**Advance Writing and Communication Requirement**

To satisfy the College of Arts & Sciences writing requirement in the discipline, students majoring in American Studies should take at least one English course or one History course related to the American Studies discipline listed as an advanced writing course.

**Major in American Studies**

- B.A. in American Studies (p. 70)

**Minor in American Studies**

1. AMS 501 can take the form of an individual research project or an internship at a local cultural or civic institution. For the research option, students will identify an appropriate faculty member to supervise and grade the project, and then obtain approval from the program director before proceeding with the project. The student must produce a substantial written report or research paper, the format of which will be determined by the faculty member and student in consultation with the program director. For the internship option, students will partner with any number of local institutions and produce a creative and/or scholarly project for evaluation. The internship will be arranged through the program director, in consultation with the Butler Center. The final product will be evaluated by the program director.

2. Students must take three courses, chosen in consultation with an American Studies advisor, in a specialized area of American Studies (200 level or higher). Students may work in areas including, but not limited to, Ethnic Studies, Caribbean Studies, Latino/a Studies, Environmental Studies, Communication Studies, Women’s Literature, Urban Studies, Africana Studies, Religious Studies, or Material Culture Studies. At least one of these courses must be either comparative or non-U.S.-based.

**Total Credit Hours**: 15

---

A total of 9 credits at the 300 level are required. Either the American History or American Literature course must be at the 300 level to meet this requirement.

* A grade of C- or better in each course is required, with a cumulative GPA of at least 2.0 in AMS courses

### Anthropology

http://www.as.miami.edu/anthropology

**Dept. Code**: APY

### Introduction

Anthropology is the scientific study of humankind, from its beginnings to the present. Of the many sciences that study aspects of humans and their behavior, only anthropology attempts to understand and integrate the entire panorama of human culture and biology in all times and places.

The **Anthropology Department** offers a wide range of courses for students in pursuit of the Bachelor of Arts degree, from the basic four fields of cultural anthropology, linguistics, biological anthropology, and archaeology, to advanced study of topics such as Maya archaeology, non-Western medical practices, primatology, gender and sexuality, and the evolution of language, among many others.

Anthropological training concentrates on broadly transferable skill areas such as understanding human diversity, building research skills for collecting and making sense of information, and communicating effectively. The skills developed through completing a degree in anthropology are useful for living and working in today’s globalized world, which increasingly means interacting with people from many different cultural backgrounds and nations.

The field is especially suited to a multi-ethnic, multi-lingual, and multi-cultural urban center such as Miami, and the research programs of the department faculty reflect the compositions and concerns of our larger community.

Anthropological knowledge has taken an increasing role in the solution of practical problems in public health, cultural resource and heritage management, international business, legal and human rights issues, and many other areas. The anthropological view challenges ethnocentric perspectives and encourages the rigorous exploration of the world's cultural diversity.
Educational Objectives

Students who graduate from our program in anthropology will have achieved:

1. Basic familiarity with each of the four subfields of our discipline: archaeology, cultural anthropology, linguistic anthropology, and physical or biological anthropology.
2. Extended familiarity with one or more of these subfields in terms of knowledge of content, e.g. area ethnology in Latin America and/or the Caribbean; topical knowledge such as substance use and abuse, gender, food, primate behavior, art, ritual, museums and collections, material culture, and/or world languages; and methodological skills involving field research in one or more of the subfields.
3. The ability to articulate the anthropological view of the human condition in terms of an operational definition of culture and a holistic perspective on how humans behave.
4. Sufficient skill in research to be able to produce a research paper based on original anthropological investigation.

To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in anthropology should take at least two courses designated as W (writing intensive) offered in the department.

Degree Programs

The Department of Anthropology offers a major and a minor in the University’s array of Bachelor of Arts Degrees.

Departmental Honors

A student with junior or senior standing and a cumulative grade point average of 3.5 or higher may earn honors in anthropology by completion of a qualifying senior thesis encompassing an original research agenda under the direction of a member of the faculty in the Department of Anthropology. The scope of work will be set in a thesis proposal approved by at least two faculty (one may be from outside the Department) which will result in a submitted (although not necessarily accepted) manuscript/conference paper. Students who wish to complete a senior thesis shall enroll in senior thesis/independent study classes for at least two semesters (with three being ideal, or two plus summer), such that one semester could be devoted to a directed reading, one to data collections/analysis, and the final semester to writing.

Extraordinary Anthropology majors are also recognized via an invitation to join Lambda Alpha, the international honors society for anthropology. Lambda Alpha was founded with the purpose of encouraging and recognizing outstanding scholarship and research in anthropology. Each year the Department recognizes a graduating senior with the highest academic achievement both in and outside of the classroom with the Zora Neale Hurston Award in Anthropology.

Major in Anthropology

• B.A. in Anthropology (p. 72)

Minor in Anthropology

• Anthropology (p. 74)

### Educational Objectives

The Department of Art and Art History provides facilities and instruction to serve equally the needs of the general student for participation in and appreciation of the visual arts and those of students with specialized interests and abilities preparing for careers in the production, teaching, utilization, and interpretation of Art and Art History.

### Degree Programs

The Department of Art and Art History offers two degrees:

- the Bachelor of Arts, with tracks in:
  - Art History
  - General Study
  - Studio Art

- the Bachelor of Fine Arts in Studio Art, which allows for primary and secondary concentrations in:
  - Painting
  - Sculpture
  - Printmaking
  - Photography/Digital Imaging
  - Graphic Design/Multimedia
  - Ceramics

The B.A. requires a minimum of 36 credit hours in the department with a grade of C or higher. The B. A. major is also required to have a minor outside the department. Minor requirements are specified by each department and are listed in the Bulletin. The B.F.A. requires a minimum of 72 credit hours in the department, a grade of C or higher in each course, a successful portfolio review, and at least a 3.0 average in departmental courses. The B.F.A. major is not required to have a minor outside the department. To satisfy the College of Arts and Sciences writing requirement, students majoring in Art or Art History, for all degree programs, must complete either Modern Art (ARH 343) or Contemporary Art (ARH 344).

### Departmental Honors

In order to be eligible for Departmental Honors, candidates must have completed at least nine credit hours at the 300 level or above, and must have a GPA of 3.5 in all their major courses and a 3.5 overall GPA of 3.5.
average GPA. Both GPAs must be maintained in order to graduate with Departmental Honors.

During their junior year, candidates for Honors must request admission to Departmental Honors from the Department Chair, and identify an exhibition/thesis faculty supervisor.

In addition to fulfilling the regular major requirements, students must register in their senior for six credits of Independent Study at the 500 level. Art majors will be expected to work on an exhibition project. Art history majors will be expected to research and write an Honors thesis.

The Department Chair and the faculty supervisor will determine whether the completed exhibition project or thesis merits Departmental Honors.

Audit

Due to the nature of studio courses, it is not possible for a student to audit courses offered in the studio areas.

- ENG 106 English Composition II 3
- MTH 113 Finite Mathematics 3
- UMX 100 The University Of Miami Experience 0

**Portfolio Review**

- BFA Exhibition

**BFA Minor in Art History**

All BFA studio majors automatically minor in art history. A minor outside the department is not required.

**Maximum Credits in Studio Areas**

A BFA student is limited to a maximum of 21 credit hours in any one studio area – Painting, Printmaking, Graphic Design/Multimedia, Photo/Digital, Ceramics, and Sculpture.

**Minimum Major GPA**

Students must maintain at least a 3.0 average in their major.

**B.F.A. Exhibition**

Unless otherwise instructed, each BFA candidate will take part in an exhibition of work screened and approved by a faculty member from their area of specialization, accomplished as an art major at the University of Miami, in the Fall or Spring semester of the senior year. The BFA exhibitions are held in the College Gallery. At the time the candidates BFA exhibition is hung, a formal critique will be arranged between the student and the art faculty.

**BFA Minor in Art History**

All BFA studio majors automatically minor in art history. A minor outside the department is not required.

1. MTH 113 or appropriate level Math course.

* BFA Exhibition

Unless otherwise instructed, each BFA candidate will take part in an exhibition of work screened and approved by a faculty member from their area of specialization, accomplished as an art major at the University of Miami, in the Fall or Spring semester of the senior year. The BFA exhibitions are held in the College Gallery. At the time the candidates BFA exhibition is hung, a formal critique will be arranged between the student and the art faculty.

**BFA Minor in Art History**

All BFA studio majors automatically minor in art history. A minor outside the department is not required.

**Maximum Credits in Studio Areas**

A BFA student is limited to a maximum of 21 credit hours in any one studio area – Painting, Printmaking, Graphic Design/Multimedia, Photo/Digital, Ceramics, and Sculpture.

**Minimum Major GPA**

Students must maintain at least a 3.0 average in their major.

Total Credit Hours 120

1 MTH 113 or appropriate level Math course.

All BFA studio majors automatically minor in Art History. A minor outside the department is not required.

A BFA student is limited to a maximum of 21 credits in any one studio area - Painting, Printmaking, Graphic Design, Multimedia, Photography/Digital Imaging, Ceramics, or Sculpture.

Students must maintain at least a 3.0 average in their major.

A minor in Art and Art History consists of 15 credit hours (9 of which must be from the University of Miami).

All courses must be passed with a C or higher.

Astronomy
For courses in Astronomy see PHYSICS (p. 171), in particular PHY 110 and PHY 545.

Biochemistry and Molecular Biology
http://bm.med.miami.edu/
Dept. Code: BMB
(Code for the major is either Track 1: BCHM or Track 2: BCHN)

Introduction
Biochemistry is the chemistry of life. It includes or has large areas of overlap with molecular biology, biophysics, structural biology, cell biology, metabolism, neuroscience, nutrition, genetics, etc. It tries to explain what happens in living organisms and how biological processes are regulated. It is a relatively young science. Our understanding is still developing and students can learn something new every day. An Undergraduate Major in one of our two tracks, Track 1: Biochemistry and Molecular Biology (BCHM) or Track 2: Biochemistry and Nutrition (BCHN), provides an excellent preparation for:

1. Medical School
2. Graduate Studies in all basic medical sciences: Biochemistry, Molecular Biology, Cell Biology, Genetics, Neurobiology, Microbiology, Immunology, Pharmacology, Biophysics, Physiology, Bio-informatics, Biology, Nutrition, Environmental Science, and others.
3. Industry: Biotechnology, Pharmaceutical, Food Production, Food processing, and others.
4. Allied Health Professions: Nutrition, Dentistry, Forensics, Veterinary Medicine, Toxicology, Clinical Chemistry, Environmental Science, and others.

Interesting Articles

Educational Objectives
The undergraduate program in Biochemistry & Molecular Biology strives to provide

1. superior training in nutrition, biochemistry and molecular biology and
2. encouragement for self-study and research to students seeking a B.S. degree.

As part of a research-oriented university, the department, through its students, creates new knowledge. As a result of our teaching efforts, the new B.S.’s created will be able to matriculate into professional and graduate schools or to find positions in teaching professions and/or industry. In addition, the department serves the community by providing expertise in matters related to nutritional and medical biochemistry. For example, it teaches biochemistry to pre-medical and other pre-health students across a wide variety of life science related majors including biology, microbiology, neuroscience, and biomedical engineering.

Degree Programs

As a member of the College of Arts & Sciences, the Department of Biochemistry and Molecular Biology offers an undergraduate B.S. degree. As a member of the Miller School of Medicine, it offers the following graduate degrees: Ph.D., Executive Ph.D., dual B.S.-Ph.D., and dual M.D.-Ph.D. Also, it offers a Molecular Medicine Pathway for M.D. students.

Departmental Honors

Departmental honors can be earned by biochemistry majors who have:

1. Successfully completed two semesters of research (5 or 6 credit hours of BMB 545). This research must be described in a brief thesis that needs to be approved by three BMB faculty members.
2. A 3.5 or higher grade point average in all BMB courses.
3. A 3.3 or higher grade point average in all courses taken at the University of Miami.

Dual Degree Honors Program

The Honors Program in Biochemistry & Molecular Biology (HPBMB) is offered to mature high school seniors with strong academic ability and achievement who seek careers in biological or biomedical science. Students can earn both a Bachelor of Science (BS) and a Doctor of Philosophy Degree (PhD) in approximately 6 years. For information see our website (http://www.miami.edu/admission/index.php/undergraduate_admission/academics/dual_degree_honors).

Major in Biochemistry and Molecular Biology

• B.S. in Biochemistry and Molecular Biology or Nutrition (p. 80)

Minor in Biochemistry and Molecular Biology

• Biochemistry and Molecular Biology (p. 83)

B.S. in Biochemistry and Molecular Biology or Nutrition

Major

The Bachelor of Science (B.S.) degree in either BCHM or BCHN requires 16 total credits of BMB courses: 10 credits of required BMB courses plus six credits of elective BMB courses. At least two elective BMB credits must come from a BMB lab course, either BMB 145, BMB 245, BMB 402, or BMB 545. To satisfy the College of Arts and Sciences writing requirement in the discipline, BMB majors must complete for writing credit (W) either BMB 507, BMB 511, or BMB 545. For all students, a grade of C or better must be earned in each BMB course. For current UM students to declare either major or minor in BMB, a UM cumulative grade point average of 2.9 is required. For transfer students to declare either major or minor in BMB, a grade point average of 3.5 is required. The Department will make its own independent determination on a case-by-case basis concerning the equivalency of courses taken at other universities. The two possible academic tracks, BCHM and BCHN, differ by two required upper level BMB lecture courses.

Biochemistry and Nutrition - Traditional CHM
Sample plan of study with traditional CHM 111/CHM 112/CHM 201/CHM 202 series. The curriculum is the same as BCHM, except BMB 417 is substituted for BMB 507 and BMB 519 is substituted for BMB 509.

Minor in Biochemistry and Molecular Biology
Required Courses
BMB 401 Biochemistry For The Biomedical Sciences 3
BMB 506 Biomedical Case Studies 1 1
Choose one of the following tracks: 6
Track 1 (BCHM)
BMB 507 Protein Structure, Function, & Biology
BMB 509 Molecular Biology of the Gene
Track 2 (BCHN)
BMB 417 Nutritional Biochemistry
BMB 519 Nutrition and Genetics
Total Credit Hours 10

1 Students must have all the courses that are a prerequisite for BMB 401 and BMB 506.
* A grade of C or better must be earned in each Biochemistry and Molecular Biology course.
** Students should become familiar with the credit hour sharing rules. Credit hours for a minor cannot be used for a major. Credit hours can be shared between two majors.
*** The Department will make its own independent determination on a case-by-case basis concerning the equivalency of courses taken at other universities.

Biology
http://www.bio.miami.edu
Dept. Code: BIL

Introduction
The Department of Biology offers undergraduate programs for students interested in a natural science education that will prepare them for careers in biological research, medicine and other health-related fields, teaching, environmental management and other fields that require a broad base of biological knowledge.

Educational Objectives
The Department of Biology trains students to understand and use the scientific method, and to engage in critical thinking and experimental design. We strongly encourage original laboratory and/or field research under the mentorship of biology faculty. The Bachelor of Science in Biology prepares the student for further training in natural science, such as biology graduate school, as well as medical, veterinary, dental or other health-care professions. The Bachelor of Arts degree prepares the student for a career in more humanities-related fields such as teaching or environmental law.

Degree Programs
Two undergraduate degrees are available in Biology: the Bachelor of Science and the Bachelor of Arts.

Both require a major in Biology consisting of 34 credit hours in BIL with a minimum grade of C- in each course and an overall GPA of 2.0.

Additional course requirements for each degree are listed under Bachelor of Science and the Bachelor of Arts elsewhere in this Bulletin.

Departmental Honors
Honors Program
See HONORS PROGRAMS (p. 52) elsewhere in this Bulletin for minimal requirements. In addition to the grade point averages specified in the minimal requirements, the following program constitutes the Biology Departmental Honors Program:

Select a minimum of two of the following: 4
BIL 495 Projects in Biology
BIL 496 Projects in Biology
BIL 497 Projects in Biology
Complete a senior thesis, of superior quality, on the results of the research.
BIL 498 Senior Thesis
Select research colloquium:
BIL 499 Research Colloquium
Select a minimum of two BIL credit hours from the following: 2
BIL 299 Seminar in Research Problems
BIL 374 Seminar in Biology
BIL 375 Seminar in Biology
BIL 402 Seminar In Biology
Select a minimum of one course in the Department of Biology at the 500 level 3
An overall GPA of 3.3 and a biology GPA of 3.5.

1 Projects in Biology involve a research project carried out under the supervision of a member of the Department of Biology faculty or alternative faculty approved by the Office of Undergraduate Research.

Advanced placement, and in certain situations, course credit hour can be earned through the College Entrance Examination Board program, placement examinations, and departmental proficiency examinations.
For Graduate programs, consult the Graduate School section of this Bulletin.

Variations within the above program may be permitted by the Department Chair in special cases.

**Majors in Biology**
- B.S. in Biology (p. 85)
- B.A. in Biology (p. 84)

**Minor in Biology**
- Biology (p. 87)

**B.A. in Biology**
The B.A. degree is recommended for students involved in interdisciplinary programs and for entrance to those professional schools and specific biological careers not requiring a B.S. degree with a major in Biology.

**Curriculum Requirements**

**Biology**
- BIL 150 General Biology
- BIL 151 General Biology Laboratory
- BIL 160 Evolution and Biodiversity
- BIL 161 Evolution and Biodiversity Laboratory

**BIL Electives**
- At least three BIL elective credits must be at the 400-level or higher
- At least one elective course must be a CAPSTONE. (Locate capstone courses in Canelink Class Search under "Additional Search Criteria", subheading "Course Attributes").
- Up to eight credit hours toward the major, but not the minor, may be selected from the following:
  - Courses numbered 300 or higher in BMB, MBF or MIC
  - MSC courses numbered 300 or higher with a biological topic
  - BME 305 Biomedical Technology

**Chemistry**
- Select one of the following options: 8-15
  - CHM 103 Chemistry for Life Sciences I (Lecture)
    or CHM 103 Principles of Chemistry I
  - CHM 105 Chemistry for Life Sciences I (Laboratory)
    or CHM 103B Chemistry Laboratory I
  - CHM 104 Chemistry for Life Sciences II (Lecture)
    or CHM 103 Organic Chemistry I (Lecture)
  - CHM 106 Chemistry for Life Sciences II (Laboratory)
    or CHM 103 Organic Chemistry Laboratory I
  - Option 2: Choose Chemistry for the BioSciences Three-semester Sequence.
    - CHM 121 Chemistry For The Biosciences I
    & CHM 113 and Chemistry Laboratory I
    - CHM 221 CHM211 Chemistry for the Biosciences II
    & CHM 114 and Chemistry Laboratory II
    - CHM 222 CHM212 Chemistry for the Biosciences III
    & CHM 205 and Organic Chemistry Laboratory I

**Minor**
- A minor in a department other than natural science.

**Additional Required Courses**
- ENG 105 English Composition I
- ENG 106 English Composition II
- MTH 113 Finite Mathematics
  or MTH 108 Precalculus Mathematics II

**Language Courses**
- 3-9
- Arts and Humanities Cognate
- People and Society Cognate
- Electives 33-20

**Total Credit Hours**
- 120

**Suggested Plan of Study**

Additional B.I.L electives

At least three credit hours of additional B.I.L electives must be at the 400-level or higher.

At least one B.I.L elective must be a CAPSTONE course. (Locate capstone courses in Class Search under "Additional Search Criteria", subheading "Class Attributes".)

Two biology laboratory or field courses beyond BIL 151, BIL 161 are required as part of the additional B.I.L electives. Approved laboratory/field courses at the 300 level or higher in departments other than Biology (e.g., BMB, MIC, MSC, NEU) may be counted towards this lab requirement. Check with the Department of Biology to confirm that a specific course is allowed to fulfill this requirement.

Up to eight credit hours toward the major, but not the minor, may be selected from the following:

Courses numbered 300 or higher in BMB, MBE or MIC

Courses numbered 300 or higher in MSC, with a biological topic

BME 305 Biomedical Technology

A maximum of two credit hours of the following may be applied towards the major

BIL 371 Readings in Biology
BIL 372 Readings in Biology

A maximum of six credit hours of the following may be applied towards the major

BIL 495 Projects in Biology
BIL 496 Projects in Biology
BIL 497 Projects in Biology

A maximum of three total credit hours from the following courses may be applied towards the major. Any course in this list may be taken only once to count towards the major. However, these courses may be taken additional times for general elective credit only.

BIL 281 Undergraduate Learning Intern in Biology
BIL 381 Workshop Leaders in Biology I
BIL 382 Workshop Leaders in Biology II
BIL 481 Undergraduate Teaching Assistant Training in Biology
BIL 482 PRISM Teaching Fellow

Chemistry

Select one of the following Options:

Option 1: Three-semester, 15 credit Chemistry Sequence recommended for life sciences majors. One additional CHM credit at the 200-level or higher (e.g., CHM 206) will fulfill the requirements for the minor in Chemistry.

CHM 121 Chemistry For The Biosciences I
& CHM 113 and Chemistry Laboratory I
CHM 221  CHM211 Chemistry for the Biosciences II
& CHM 114 and Chemistry Laboratory II

CHM 222  CHM212 Chemistry for the Biosciences III
& CHM 205 and Organic Chemistry Laboratory I

Option 2: Four-semester, 12 credit Chemistry Sequence.
Four additional CHM credits at the 200-level or higher
(e.g., CHM 202/CHM 206) will fulfill the requirements for the
minor in Chemistry

CHM 111  Principles of Chemistry I
& CHM 113 and Chemistry Laboratory I (recommended to
be taken in the first year)

CHM 112  Principles of Chemistry II
& CHM 114 and Chemistry Laboratory II (recommended to
be taken in the first year)

CHM 201  Organic Chemistry I (Lecture)
& CHM 205 and Organic Chemistry Laboratory I
(recommended to be taken in the second year)

Statistics or Computer Language/Programming
Select one statistics or one computer language/programming

course from the following: 3

BIL 311  Biostatistics
BIL 511  Biometry
ECS 204  Environmental Statistics
IEN 311  Applied Probability And Statistics
MSC 204  Environmental Statistics
MTH 224  Introduction to Probability and Statistics
PSY 291  Introduction To Biobehavioral Statistics
PSY 292  Introduction To Biobehavioral Statistics For
Non-Majors
CSC 120  Computer Programming I

Physics
Select one of the following Options: 10-11

Option One:

PHY 101  College Physics I
& PHY 106  and College Physics Laboratory I

PHY 102  College Physics II
& PHY 108  and College Physics Laboratory II

Option Two:

PHY 201  University Physics I for the Sciences
& PHY 106  and College Physics Laboratory I

PHY 202  University Physics II for the Sciences
& PHY 108  and College Physics Laboratory II

Option Three:

PHY 205  University Physics I
PHY 206  University Physics II
& PHY 208  and University Physics II Lab
PHY 207  University Physics III
& PHY 209  and University Physics III Lab

Minor in a Natural Science  1-16
A minor in chemistry, ecosystem science and policy,
physics, geological sciences, marine sciences,
biochemistry and molecular biology, computer science,
mathematics, or microbiology and immunology
Total credit hours for the minor will vary by department.

The CHM requirement for the BS in biology fulfills either
12 or 15 (depending on which option is selected) of the 16
credits necessary for the minor in Chemistry. To complete
the minor in Chemistry, only 1-4 additional credits in CHM
are required beyond those necessary for the BS in Biology.

Additional Required Courses

1 Only one course may be counted towards the laboratory course
   requirement for the B.S. degree

2 A maximum of one credit hour may be applied towards the major or
   minor. These courses may be taken more than once each for general
   elective credit only, but only two credits from these options may count
   towards the major or minor.

3 This will fulfill the mathematics/statistics/computer programming
   requirement under the College of Arts and Sciences General degree
   requirements for the Bachelor of Science.

## Year Two
### Fall
- **CHM 222 or 201**: CHM212 Chemistry for the Biosciences III or Organic Chemistry I (Lecture)  
  **Credit Hours**: 4
- **CHM 205**: Organic Chemistry Laboratory I  
  **Credit Hours**: 1
- **BIL 250 or 255**: Genetics or Cellular and Molecular Biology  
  **Credit Hours**: 3
- **Language 101**:  
  **Credit Hours**: 3
- **Statistics or Computer Science Course**:  
  **Credit Hours**: 3
- **Arts and Humanities Cognate Course**:  
  **Credit Hours**: 3

**Credit Hours**: 17

### Spring
- **BMB 401 or CHM 202**: Biochemistry For The Biomedical Sciences (BMB 401 may be counted as an upper level elective in BIL.) or Organic Chemistry II (Lecture)  
  **Credit Hours**: 3
- **CHM 206**: Organic Chemistry Laboratory II  
  **Credit Hours**: 1
- **BIL 3XX Seminar**:  
  **Credit Hours**: 3
- **BIL 250 or 255**: Genetics or Cellular and Molecular Biology  
  **Credit Hours**: 3
- **BIL Lab**:  
  **Credit Hours**: 1-2
- **People and Society Cognate course**:  
  **Credit Hours**: 3

**Credit Hours**: 17-18

## Year Three
### Fall
- **BIL 330 or 360**: Ecology or Comparative Physiology  
  **Credit Hours**: 3
- **PHY 101**: College Physics I  
  **Credit Hours**: 4
- **PHY 106**: College Physics Laboratory I  
  **Credit Hours**: 1
- **People and Society Cognate course (WRI)**:  
  **Credit Hours**: 3
- **Language 2XX**:  
  **Credit Hours**: 3

**Credit Hours**: 14

### Spring
- **BIL 330 or 360**: Ecology or Comparative Physiology  
  **Credit Hours**: 3
- **PHY 102**: College Physics II  
  **Credit Hours**: 4
- **PHY 108**: College Physics Laboratory II  
  **Credit Hours**: 1
- **Arts and Humanities Cognate (WRI)**:  
  **Credit Hours**: 3
- **Elective**:  
  **Credit Hours**: 3

**Credit Hours**: 14

## Year Four
### Fall
- **BIL Elective 400 level or higher (note: BMB 401 fulfills this requirement.)**:  
  **Credit Hours**: 3
- **BIL Lab (note: BIL 331 is a WRI course)**:  
  **Credit Hours**: 2
- **BIL Elective**:  
  **Credit Hours**: 3
- **Arts and Humanities Cognate**:  
  **Credit Hours**: 3
- **Elective (WRI)**:  
  **Credit Hours**: 3

**Credit Hours**: 14

### Spring
- **BIL Elective**:  
  **Credit Hours**: 3

**Minor in Biology**

<table>

<tbody>
<tr>
<td>BIL 200 or higher</td>
<td>9</td>
</tr>
</tbody>
</table>

All credit hours for the Biology Minor must be taken in residence at University of Miami

* Courses from BMB, MBF, MIC, BME, or other natural sciences approved as electives in the BIL major may not be counted towards the minor. (All courses must be in BIL.)

** Overall GPA in the BIL minor courses must be a minimum of 2.0.

## Chemistry

http://www.as.miami.edu/chemistry

Dept. Code: CHM

### Introduction

Each undergraduate chemistry degree program requires:

<table>

</tbody>
</table>

One year of Calculus

At least two semesters of Physics Plus Lab

**Total Credit Hours**: 16

The requirements for a major are flexible and should conform to the objectives of the student. A grade of C- or higher must be earned in all courses taken for major or minor credit hour, and the Chemistry GPA must be 2.00 or higher. Credit hours earned in CHM 381 and CHM 382 do not count toward the major or minor.

### Educational Objectives

The mission of the Bachelor’s degree program in the Chemistry Department is to promote an understanding and appreciation of the role of chemistry in modern society, especially as it relates to and integrates with other biological and physical sciences and societal issues facing humanity today such as the environment, health issues and technological advances.

### Degree Programs

Three programs lead to degrees with a chemistry major:
1. The B.A. degree
2. The B.S. degree
3. The B.S. degree with certification by the American Chemical Society Committee for Professional Training of Chemists.

### Departmental Honors
Honors in Chemistry may be earned by students who complete the B.S. degree in chemistry, plus at least five credit hours of CHM 488 and one credit hour of CHM 490, all with an average grade of at least 3.30. A written Honors Thesis and oral defense on the subject of the Honors Research must be presented by the student and approved by a Department Honors Committee.

### Writing Requirement
To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Chemistry should take CHM 320 or ENG 233.

### Credit for Courses at the 100- and 200-Level
Credit hour may be earned in only one of the courses CHM 103, CHM 111 or CHM 151. Credit hour may not be earned in both CHM 104 and CHM 201.

### Majors in Chemistry
- B.A. in Chemistry (p. 88)
- B.S. in Chemistry (p. 89)
- Certified B.S. in Chemistry (p. 90)

### Minor in Chemistry
- Chemistry (p. 92)

### B.A. in Chemistry
http://www.as.miami.edu/chemistry/

The B.A. degree requires 27 credit hours of chemistry. This major is designed for premedical students, high school science teachers, and others who choose a non-science minor. It may be combined with business courses in an interdisciplinary program. Variations within the program below may be recommended by the Department. Transfer students must complete a minimum of half of the required major credit hours in residence in the Department. Students should make certain that math and physics prerequisites are fulfilled in a timely manner.

B.S. in Chemistry

http://www.as.miami.edu/chemistry/

The B.S. degree requires 40 credit hours of chemistry. This major meets the minimum entrance requirements of many graduate programs in chemistry. Variations within the above program may be recommended by the Department. Transfer students must complete a minimum of half of the required major credit hours in residence in the Department. Students should make certain that math and physics prerequisites are fulfilled in a timely manner. For students who plan to do graduate work in physical chemistry, a double minor is recommended: Mathematics and Computer Science through 310 and 311, Physics through 350 and 360.

Curriculum Requirements

Core Courses
- CHM 111 Principles of Chemistry I 3
- CHM 112 Principles of Chemistry II 3
- CHM 113 Chemistry Laboratory I 1
- CHM 114 Chemistry Laboratory II 1
- CHM 201 Organic Chemistry I (Lecture) 3
- CHM 202 Organic Chemistry II (Lecture) 3
- CHM 205 Organic Chemistry Laboratory I 1
- CHM 206 Organic Chemistry Laboratory II 1
- CHM 214 Quantitative Analytical Chemistry 3

Choose One of the Following: 8
- MTH 161 Calculus I
- & MTH 162 and Calculus II
- MTH 171 Calculus I
- & MTH 172 and Calculus II

Choose One of the Following: 10-11
- PHY 101 College Physics I
- & PHY 102 and College Physics II
- & PHY 106 and College Physics Laboratory I
- & PHY 108 and College Physics Laboratory II
- PHY 205 University Physics I
- & PHY 210 and Honors University Physics II-III
- & PHY 208 and University Physics II Lab
- & PHY 209 and University Physics III Lab
- PHY 205 University Physics I
- & PHY 206 and University Physics II
- & PHY 207 and University Physics III
- & PHY 208 and University Physics II Lab
- & PHY 209 and University Physics III Lab

Advanced Courses
- CHM 316 Instrumental Analytical Chemistry 3
- CHM 320 Instrumental Methods in Chemistry and Biochemistry 2
- CHM 360 Physical Chemistry I (Lecture) 3
- CHM 364 Physical Chemistry (Laboratory I) 1
- CHM 365 Physical Chemistry II (Lecture) 3
- CHM 441 Inorganic Chemistry (Lecture) 3

1 PHY 210 can substitute for PHY 206 and PHY 207.
2 Variations within the above programs may be recommended by the Department. Transfer students must complete a minimum of half of the required major credit hours in residence in the Department.
3 Students should make certain that math and physics prerequisites are fulfilled in a timely manner. For students who plan to do graduate work in physical chemistry, a double minor is recommended: Mathematics and Computer Science through 310 and CS 311, Physics through PHY 350 and PHY 360.
The study of Classics has been conceived in unusually broad terms; it is intended to encompass everything that can be known about the ancient Mediterranean world. There is room in Classics for the study of fields as disparate as literature, science, sculpture, history, architecture, religion, philosophy, theater, economics, music – in short, the entire panorama of human endeavor. It is no wonder that the study of Classics has always tended to attract some of the liveliest and most brilliant intellects; and it is equally unsurprising that students majoring in Classics find themselves extremely well-prepared for undertaking practically any type of career, whether that be in politics, law, medicine, teaching, publishing, research of all kinds, journalism, banking, or the corporate world. A degree in Classics marks the UM graduate as a person of superior analytical and critical skills, one who has proved able to cope with a rigorous academic curriculum, and who is exceptionally educated in the most fundamental aspects of what it means to be human. Thus, Classics is at the core of the humanities.

Educational Objectives

The educational objectives of the Department of Classics may be stated in a variety of ways, and on a number of levels. In terms of linguistic competency, students majoring (or minoring) in Classics are required to reach an appropriate level of fluency in reading ancient Greek or Latin, or both. In terms of cultural literacy, students of the Classics are educated within a rigorous curriculum exposing them to the great literary works and material cultures of ancient Greece and Rome. In terms of critical thinking, students of the Classics are trained to hone the skills of memory, analysis, and synthesis, skills that they will be able to apply for the rest of their lives in any realm of thought or action whatsoever.

The goal of an education in Classics is to foster and inculcate an ever-burgeoning awareness of what Cicero referred to as humanitas – in short, everything it is to be human. It is the mission of Classics to expose its students to the greatest thoughts and endeavors of the human race, and to encourage them to think about what that greatness consists in, and how to enlarge upon it. The profoundest educational objective of the Department of Classics is to preserve and study all that is important about the past, in order best to prepare for the future.

Classics

http://www.as.miami.edu/classics

Introduction

All culture and civilizations have their classics: those works of art that are seen as the best of their kind, have withstood the test of time, and embody the symbolic values of their society. In the Western tradition, the study of ‘Classics’ has focused upon the languages, thoughts, literatures, and cultures of ancient Greece and Rome, and their impact on the whole subsequent history of the Western world.

The study of Classics has been conceived in unusually broad terms; it is intended to encompass everything that can be known about the ancient Mediterranean world. There is room in Classics for the study of fields as disparate as literature, science, sculpture, history, architecture, religion, philosophy, theater, economics, music – in short, the entire panorama of human endeavor. It is no wonder that the study of Classics has always tended to attract some of the liveliest and most brilliant intellects; and it is equally unsurprising that students majoring in Classics find themselves extremely well-prepared for undertaking practically any type of career, whether that be in politics, law, medicine, teaching, publishing, research of all kinds, journalism, banking, or the corporate world. A degree in Classics marks the UM graduate as a person of superior analytical and critical skills, one who has proved able to cope with a rigorous academic curriculum, and who is exceptionally educated in the most fundamental aspects of what it means to be human. Thus, Classics is at the core of the humanities.

Degree Programs

The Department of Classics offers the Major and the Minor in Classics.

Major in Classics

The undergraduate Major in Classics at UM has four possible tracks. Greek, Latin, Greek and Latin, and Classical Civilization. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Classics should take three courses marked W from the list of GRE, LAT, and CLA courses offered in the catalogue.

General Education Rubrics

Latin and Greek courses with numbers higher than 201 (LAT 202, GRE 202, and higher) satisfy General Education requirements under the ‘Literature’ requirement of the ‘Humanities’ rubric.

Some courses in Classics labeled CLA satisfy General Education requirements under the ‘Literature’ requirement, while others do so under the ‘People and Society’ requirement. These are as follows:

<table>
<thead>
<tr>
<th>Literature</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>CLA 224 The Heroic Journey</td>
<td>3</td>
</tr>
<tr>
<td>CLA 246 Ancient Rhetorical Theory</td>
<td>3</td>
</tr>
<tr>
<td>CLA 310 Survey of Ancient Greek Literature and Culture</td>
<td>3</td>
</tr>
<tr>
<td>CLA 311 Survey of Classical Latin Literature and Culture</td>
<td>3</td>
</tr>
<tr>
<td>CLA 315 The Classical Epic Tradition</td>
<td>3</td>
</tr>
<tr>
<td>CLA 322 Monsters and Fantastical Creatures in Western Antiquity and Other Cultures</td>
<td>3</td>
</tr>
<tr>
<td>CLA 340 Greek Tragedy</td>
<td>3</td>
</tr>
<tr>
<td>CLA 360 Women In Greek And Roman Antiquity</td>
<td>3</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>People &amp; Society</th>

</tr>
<tr>
<td>CLA 241 Greek Civilization</td>
<td>3</td>
</tr>
<tr>
<td>CLA 242 Roman Civilization</td>
<td>3</td>
</tr>
</tbody>
</table>
CLA 301  Ancient Greece  3
CLA 302  The Hellenistic Age  3
CLA 303  The Roman Republic  3
CLA 304  The Roman Empire  3
CLA 323  The Ancient World on Screen  3
CLA 325  The Vampire in Folklore, Fiction, and Film  3
CLA 370  Self and Other in the Ancient World  3

Departmental Honors
A student may earn Honors in Classics by completing a ‘capstone’ project with a grade of B or higher. This project can be the senior thesis (CLA 495 and CLA 496) or an Independent Study course (LAT 491, GRE 491, or CLA 491) that includes a substantial research paper. Either project must be supervised by a faculty member in the Classics Department. In order to qualify for a ‘capstone’ project, the student must have by the end of the junior year a minimum GPA of 3.5 in the Classics major and 3.3 overall.

In addition, Classics Majors, Classics Minors, and other students who meet certain academic criteria are eligible for membership in Eta Sigma Phi, the National Honors Society for Classics.

Majors in Classics
B.A. in Classics with Tracks in:
- Greek (p. 94)
- Latin (p. 95)
- Latin and Greek (p. 96)
- Classical Civilization (p. 93)

Minor in Classics
- Classics (p. 97)

B.A. in Classics - Classical Civilization Track

Curriculum Requirements

Major Requirements
Select one of the following Options: 9
Option 1:
- LAT 101  Elementary Latin I  3
- LAT 102  Elementary Latin II  3
- LAT 201  Intermediate Latin I  3
Option 2:
- GRE 101  Elementary Ancient Greek I  3
- GRE 102  Elementary Ancient Greek II  3
- GRE 201  Intermediate Ancient Greek I  3
Select one additional course (202 and above) in either Latin (LAT) or Greek (GRE) 1
Select six Classics-in-translation (CLA) courses 2 18

Additional Requirements
ENG 105  English Composition I  3
ENG 106  English Composition II  3
MTH 108  Pre-Calculus Mathematics II  3
UMX 100  The University Of Miami Experience  0

Arts and Humanities Cognate 9
STEM Cognate 9
Minor Requirement 15
Electives 48
Total Credit Hours 120

1  For a full list of LAT courses see this page (p. 1083)
2  For a full list of GRE courses see this page (p. 978)

Minor in Classics

Select one of the following:

| 3 credit hours in a Greek (GRE) course | 3
| 3 credit hours in a Latin (LAT) course | 3
| Select 12 credit hours in Greek (GRE), Latin (LAT), or Classics-in-translation (CLA) courses in any combination desired | 12
| Total Credit Hours | 15

* Courses that qualify for the minor in Classics are taught each semester.
** A grade of C-minus or better is required in each course taken for the minor, as well as an overall GPA of 2.0 or higher.

Computer Science

http://www.cs.miami.edu

Dept Code: CSC

Introduction

The Department of Computer Science offers undergraduate and graduate education in Computer Science, and performs research in various areas of Computer Science. The Department has faculty with strong accomplishments in the fields of algorithm engineering, automated reasoning, bioinformatics, computational complexity, computational geometry & computer graphics, cryptography & network security, data mining, molecular computation, multimedia systems, music information retrieval, robotics, scientific computing, semantic web, and wireless & mobile computing.

Educational Objectives

The Department of Computer Science educates students in the science of software development: the analysis of domain problems, the development of algorithms and programs, the use of specialist computing techniques, the system/software and hardware platforms, and the production and deployment of efficient and robust computer software. Instruction ranges from introductory programming classes and laboratories, through to research in various areas of computer science.

Degree Programs

The Department of Computer Science offers

- a Bachelor of Science (BS) major (p. 99)
- a Bachelor of Arts (BA) major (p. 97)
- a 5-year Bachelor of Science + Master of Science (BS+MS) (p. 548)
- a minor (p. 103)

Computer Science as a Second Major

A second major in Computer Science is available to all students. A second major in Computer Science requires completion of the requirements of a Computer Science major, either the Second Major in Computer Science, Fundamentals (p. 97) or the Second Major in Computer Science, with Tracks (p. 99).

Writing within the Discipline

To satisfy the College of Arts and Sciences writing requirement in the discipline, students whose first major is Computer Science must take at least one of the following courses for a writing credit:

CSC 405, CSC 431, ENG 233.

Departmental Honors

In addition to the University’s requirements for Departmental Honors, Departmental Honors in Computer Science requires completing a major and 6 additional approved credit hours (all CSC 4XX and CSC 5XX courses are approved). The major or additional credit hours must include at least 3 credit hours from CSC 410 and CSC 411.

Notes

- A grade of C- or better in all CSC courses is required in a major or minor.
- An overall GPA of 2.5 or better in all CSC courses is required in a major or minor. This GPA is computed using only courses from this department. If a course is repeated only the highest grade for the course is used.
- For a Computer Science major, at least 15 credit hours of CSC courses must be completed at the University of Miami.
- For a Computer Science minor, at least 9 credit hours of CSC courses must be completed at the University of Miami.

Majors in Computer Science

- B.S. in Computer Science (p. 99)
- B.A. in Computer Science (p. 97)

Minor in Computer Science

- Computer Science (p. 103)

Joint Degrees in Computer Science

- Five-Year B.S. + M.S. in Computer Science (p. 100)

B.A. in Computer Science

## Tracks

Select one of the following Tracks:

### Comprehensive Track:

- CSC 419 Programming Languages
- CSC 421 Principles Of Computer Operating Systems
- CSC 423 Database Systems
- CSC 424 Computer Networks

Select a minimum of 5 credit hours of approved electives

### Flexible Track:

Select a minimum of 17 credit hours of approved electives

### Computational Science Track:

- CSC 210 Computing for Scientists
- CSC 528 Introduction to Parallel Computing
- CSC 547 Computational Geometry
- CSC 548 Bioinformatics Algorithms
- CSC 410 Computer Science Project Planning or CSC 4 Computer Science Project Implementation
- MTH 320 Introduction to Numerical Analysis or MTH 580 Numerical Linear Algebra
- BIL 150 General Biology
- BIL 151 General Biology Laboratory

### Cryptography and Security Track:

- CSC 421 Principles Of Computer Operating Systems
- CSC 424 Computer Networks
- CSC 507 Data Security and Cryptography
- CSC 410 Computer Science Project Planning or CSC 4 Computer Science Project Implementation

Select one of the following:
- MTH 461 Survey Of Modern Algebra
- MTH 505 Theory of Numbers
- MTH 561 Abstract Algebra I

Select a minimum of 2 credit hours of approved electives

---

1. These mathematics courses can also fulfill the requirements for a Minor in Mathematics (see here for details).
2. Available to all students.
3. The Comprehensive Track provides coverage of the topics in Computer Science prescribed by the Association of Computing Machinery curriculum and the ABET Computing Accreditation Commission.
4. Requires permission of the Director of Undergraduate Studies.
5. This course may also be applied towards the Science requirement.
In addition to the generally approved electives, MMI 504 and MMI 505 are approved for the Graphics and Games track.

Maximally 6 credit hours from CSC 40X Computer Science Practicum, and maximally 6 credit hours from CSC 481.

Five-Year B.S. + M.S. in Computer Science

The 5-year Bachelor of Science + Master of Science program in Computer Science provides research training for students who wish to work in a computing research lab, or possibly continue to PhD studies.

Students enter the "MS-phase" of the program when they have met the following requirements:

- They have achieved senior status, i.e., earned 89 credit hours towards their Bachelor of Science in Computer Science.
- Within the requirements for a Bachelor of Science in Computer Science, they have completed the prerequisites for entry into the regular Master of Science program, i.e.:

<table>
<thead>
<tr>
<th>Pre-Requisites for entry to Regular MS in Computer Science Program</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSC 120 Computer Programming I</td>
</tr>
<tr>
<td>CSC 220 Computer Programming II</td>
</tr>
<tr>
<td>CSC 314 Computer Organization and Architecture</td>
</tr>
<tr>
<td>CSC 317 Data Structures And Algorithm Analysis</td>
</tr>
<tr>
<td>CSC 427 Theory Of Computing</td>
</tr>
<tr>
<td>MTH 161 Calculus I</td>
</tr>
<tr>
<td>MTH 224 Introduction to Probability and Statistics</td>
</tr>
<tr>
<td>MTH 309 Discrete Mathematics I</td>
</tr>
</tbody>
</table>

- They have completed 3 credit hours of CSC 410/CSC 411 in a research-oriented project.
- They have an overall GPA of at least 3.0.
- They have a GPA of at least 3.3 in the CSC courses taken towards their BS in Computer Science.
They have advised the Director of Graduate Studies of their eligibility for the MS-phase.

Students in the MS-phase must complete 3 further credit hours of CSC 410/CSC 411 in a research-oriented project, as part of their Bachelor of Science in Computer Science (this project will normally be the starting point for the Master of Science research). Students in the MS-phase may take up to 12 credits of courses, including 600 level courses, that count towards completing the requirements for the Master of Science in Computer Science. When students have completed the requirements for a Bachelor of Science in Computer Science they will be awarded that degree, and when they have completed the requirements for the Master of Science in Computer Science they will be awarded that degree. Students in the MS-phase must submit their GRE scores before they are admitted to graduate student status.

Incoming students can be admitted to the program if their mathematics placement is MTH 108 or higher. Existing Bachelor of Science in Computer Science students can switch into the program when they have met the requirements for entering the MS-phase of the program. Students can be removed from the program if they have not met the prerequisites for admission to the MS-phase by the time they have achieved senior status. If a student is removed or decides to withdraw from the program, any 600 level courses taken may be used to fulfill the requirements for a Bachelor of Science in Computer Science.

</tr>
</tbody>
</table>

1. These mathematics courses can also fulfill the requirements for a Minor in Mathematics (see here for details).
2. Available to all students.
3. The Comprehensive Track provides coverage of the topics in Computer Science prescribed by the Association of Computing Machinery curriculum and the ABET Computing Accreditation Commission.
4. Requires permission of the Director of Undergraduate Studies.
5. This course may also be applied towards the Science requirement.
6. In addition to the generally approved electives, MMI 504 and MMI 505 are approved for the Graphics and Games track.
7. Maximally 6 credit hours from CSC 40X Computer Science Practicum, and maximally 6 credit hours from CSC 481.

### M.S. Curriculum Requirements

Students must complete the Graduate School requirements, and the Departmental requirements described here.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
</table>
| Thesis Option
  
CSC 810  | Master’s Thesis              | 1-6          |
  
Select a minimum of 9 credit hours from approved CSC7XX courses
Select 15 credit hours of approved courses

Coursework Option

Select a minimum of 18 credit hours from approved 700 level courses
Select 18 credit hours from approved courses

Total Credit Hours 31-42

1. For both options, at least 18 credit hours must be from CSC 6XX and CSC 7XX courses, and may not include more than 6 credit hours from CSC 670.

Each program must include both theoretical and experimental topics. By graduation students will have knowledge in the areas of Programming Languages, Algorithm Design and Analysis, Theory of Computing, Operating Systems, Computer Networks, and Software Engineering. Each program is approved by the CSGC and the Department Chairman or designate. Programs may be individually tailored to meet varied backgrounds and objectives. It is recognized that there are individuals with undergraduate degrees in other fields wishing to pursue graduate work in Computer Science, and individuals with work experience in the field wishing to advance their formal training in Computer Science.

Criminology

http://www.as.miami.edu/sociology

Introduction

The major in Criminology provides a comprehensive understanding of crime and the criminal justice system. The major prepares students to assume roles of leadership in this critical area of modern society. Courses are designed to review theory, research, and applications of knowledge regarding delinquency and crime, as well as to understand the manner in which offenders are processed. Students learn about the nature and extent of crime, different types of crime and theories to explain crime. In addition, detailed analysis are made of the functions of the law, police, courts, and correctional systems and the ways in which these are linked to broader aspects of society. Students may also minor in Criminology. The Criminology major and minor are administered through the Department of Sociology.

Educational Objectives

CRIMINOLOGY courses have several broad objectives, including:

1. General education and development of critical thinking skills.
2. Undergraduate preparation for pursuing careers in such fields as law and society, in the local and state criminal justice systems (e.g.,
juvenile probation officer, pretrial services officer, crime analyst for criminal justice agencies), or in federal agencies (e.g., DEA).

3. Preparation for graduate study in criminology, criminal justice, sociology, or other social and behavioral sciences.

4. Preparation for law school.

Degree Programs

Students may earn a Bachelor of Arts degree in Criminology. The Department of Sociology also offers graduate programs leading to M.A. and Ph.D. degrees in the areas of:

- Criminology
- Medical Sociology
- Race, Ethnic Relations, and Immigration

Departmental Honors

Graduation with Departmental Honors is available to eligible students who fulfill the following:

1. Students desiring Departmental Honors in Criminology must maintain an overall GPA of 3.3 and a GPA of 3.5 in Criminology. They must also achieve a minimum of B in all Criminology courses. For transfer students, the Department uses the cumulative, combined GPA calculated by the Office of the Registrar.

2. A student seeking Departmental Honors is required to write an independent research paper which is submitted to the Undergraduate Committee in the Department of Sociology. The nature of the independent research project is determined by the faculty member(s) with whom the student works. This project is done in SOC 498 & SOC 499. The student should have the same professor for all six credit hours.

3. Recruitment of eligible students is by departmental invitation during a student’s junior year.

Advanced Writing and Communication Requirements

To satisfy the College of Arts and Sciences Advanced Writing and Communication requirement, all Criminology majors must take 4 writing-designated courses, including 1 writing-designated course in the SOC area. Writing courses are regularly offered by the department; however, it is the student’s responsibility to plan accordingly to incorporate a designated SOC writing-designated course into their graduation plans.

Alpha Phi Sigma

Majors, minors, and other students who meet certain academic criteria are eligible for membership in Alpha Phi Sigma, the National Criminal Justice Honor Society. Alpha Phi Sigma sponsors events that enhance the academic and social life of the department.

Major in Criminology

- B.A. in Criminology (p. 104)
- Criminology & Sociology Double Major; Combined Minor (p. 193)

Minor in Criminology

Additional Required Courses

| ENG 105 | English Composition I 3 |
| ENG 106 | English Composition II 3 |
| MTH 108 | Precalculus Mathematics II 3 |
| Arts and Humanities Cognate | 9 |
| STEM Cognate | 9 |
| Additional Major/Minor | 15-30 |
| Science Course | 3 |
| Foreign Language | 3-9 |
| Electives | 41 |

Total Credit Hours 120-141

* EPS 452 can be substituted for SOC 210 only by students who are also enrolled in the School of Education.

** PSY 291 or PSY 292 can be substituted for SOC 211 only by students who are Psychology majors or minors and also majoring in Sociology; they will be required to take SOC 212.

*** A minimum cumulative GPA of 2.0 in all courses offered by the Department.

**** A minimum of 16 credit hours must be earned in residency in the Department; thus, only a maximum of 15 credit hours can be transferred from other institutions as eligible for the CRIMINOLOGY major.

| Elective Courses |
|Select three other courses offered by the Department, of which one must be 300-level or higher | 9 |
|**Total Credit Hours** | 15 |

* A minimum final grade of C- in all courses offered by the Department.
** A minimum cumulative GPA of 2.0 in all courses offered by the Department.
*** A minimum of 9 credit hours must be earned in residency in the Department; thus, only a maximum of 6 credit hours may be transferred from other institutions as eligible credit hours for the Criminology major.

**Economics**

**Introduction and Educational Objectives**

Economics uses the idea of optimizing behavior to provide a unified framework for studying human action. The economics curriculum is designed to give students an understanding of economic theory and its application to a wide range of problems. The program provides excellent preparation for careers in business, government, and international agencies. It is particularly recommended for students planning graduate study or professional training in fields such as law, business, international studies, public administration, and economics.

A student pursuing the Economics major will select one of two possible tracks: Political Economy (the People and Society track) or Quantitative Economics (the Science, Technology, Mathematics, and Engineering track).

Members of the Department are prepared to counsel students in the selection of courses and in other matters relating to the preparation for careers. Economics may be the major area of specialization of a candidate for the Master of Arts (p. 591) and Doctor of Philosophy (p. 577) degrees. Consult the Graduate Academic Programs section of the Bulletin for the general requirements of these programs.

**Major in Economics**

• B.A. in Economics (p. 106)

**Minor in Economics**

• Economics (p. 107)
B.A. in Economics

Curriculum Requirements

A student pursuing the major in Economics through the College of Arts and Sciences will select one of two possible tracks: Political Economy (the People and Society track) or Quantitative Economics (the Science, Technology, Mathematics, and Engineering track) and complete the curriculum requirements as follows:

1. Choose either the POLITICAL ECONOMY Track or the QUANTITATIVE ECONOMICS Track

**Political Economy Track (People & Society)**

Advanced Writing and Communication

Total Credit Hours: 120

---

1. All specific coursework for the major in Economics must be completed with a grade of "C-" or higher. A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the major area of specialization. All courses must be taken within the current pre-requisite structure.

2. All advanced courses in Economics (300-500 levels) require ECO 300 or the more technical version, ECO 302, as a pre-requisite. Some specifically require ECO 302.

3. Additional pre-requisite for ECO 510: MAS 202 or MAS 311 or IEN 311 or MTH 224

4. This track requires both MTH 161 or an equivalent calculus course and ECO 302.

5. MAS 110 or MTH 130 or MTH 141 or MTH 151 or MTH 161 or MTH 171 or an equivalent calculus course or higher. If the student wishes to take ECO 302 and/or the Quantitative Economics track or some of the quantitative ECO electives, then MTH 161 or equivalent must be taken. Also note that if the student wishes to apply to transfer to the School of Business Administration, he/she must take MTH 161 or an equivalent and earn a minimum "B" grade in the course, as well as have a minimum UM grade point average of 3.0.

6. This requirement is waived if the STEM cognate includes a Natural Science course from the approved list. See the College of Arts and Sciences "Overview" (p. 64) page in this Bulletin for more information.
A minimum of 120 credits is required for graduation. Sufficient credits must be earned in electives to enable the student to complete this minimum of 120 credits. The exact number of elective credits required will vary depending on the number of credits needed to complete all other graduation requirements.

Students satisfy this requirement by taking four writing courses, at least one of which must be in one of the student’s major disciplines.

Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition, mathematics, and modern language. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor satisfies a particular “Area of Knowledge” within the general education requirements of the University, so that a separate cognate in that same Area of Knowledge is not required. For example, if a student chooses the Political Economy track for the Economics major, then the People and Society Area of Knowledge will be fulfilled by the major. The STEM and Arts and Humanities Areas of Knowledge may likewise be fulfilled by an additional major, or through the minor or a cognate.

Students construct their individualized plans in collaboration with their assigned academic advisor.

</table>

1. A calculus course is required for the Economics major. If a student wishes to take ECO 302 and/or the Quantitative Economics track or some of the quantitative ECO electives, then MTH 161 or an equivalent must be taken. If a student has taken an “applied” calculus course such as MAS 110 or MTH 130, then he/she will take ECO 300 instead of ECO 302 and must follow the Political Economy (P&S) Major track for Economics.

Minor in Economics

Minor Area of Specialization in Economics (People & Society)

Non-Business students in any school or college may pursue a minor in Economics in the School of Business Administration. Interested students
should consult with an academic advisor in the School or College of their
degree/major to determine if the minor in Economics is acceptable. If
so, neither advice nor consent from either the Office of Undergraduate
Business Education or the Economics department is necessary for
a student to choose or complete a minor in Economics. Instead the
non-business student should simply declare the Economics minor and
complete the required 15 credit hours of Economics courses, according to
the following:

<table>
<thead>
<tr>
<th>Required Courses</th>

Elective Courses for the Minor \(^3\)

Select two courses (6 credit hours) from the Economics
departmental offerings - check all pre-requisites

| Total Credit Hours | 15 |

\(^1\) Additional pre-requisite for ECO 300: MAS 110 or MTH 130
or MTH 141 or MTH 151 or MTH 161 or MTH 171 or an equivalent
calculus course or higher

\(^2\) Additional pre-requisite for ECO 302: MTH 141 or MTH 151
or MTH 161 or MTH 171 or an equivalent Calculus 1 course or higher

\(^3\) All advanced courses in Economics (except for ECO 303 and
ECO 444) require ECO 300 or the more technical version, ECO 302.
Some specifically require ECO 302.

\(^*\) **NOTE:** All specific coursework for the minor in Economics must be
completed with a grade of "C-" or higher. A minimum cumulative GPA
of 2.0 is required for all specific coursework taken in the minor area
of specialization.

---

**Ecosystem Science and Policy**

http://www.cesp.miami.edu

**Dept. Code:** ECS

---

**Introduction**

The undergraduate program in Ecosystem Science and Policy (ECS) is
offered by the Leonard and Jayne Abess Center for Ecosystem Science
and Policy. The goal of the program is to educate the next generation of
environmental leaders. The ECS program provides students with a broad
background in environmental issues from a variety of perspectives, along
with in-depth education in an area of specialization.

**Educational Objectives**

The ECS major offers a series of problem-based learning courses,
culminating in a capstone course in the senior year. Courses emphasize
integration of science and policy approaches to real-world environmental
issues. This preparation gives students both the theoretical background
and technical skills to pursue environmental careers in, teaching and
research, as well as for careers in government and private industries
concerned with the environment.

---

**Degree Programs**

The Ecosystem Science and Policy program offers two undergraduate
degree major programs: a Bachelor of Science (B.S.) and a Bachelor of
Arts (B.A.). The minor consists of 15 credit hours. Majors are required
to complete either an environmentally related internship or a research
project with the Center for Ecosystem Science and Policy or with other
UM faculty.

Only those courses passed with a grade of "C-" or better in the ECS core
may be applied to the major or minor. All ECS majors are required to
maintain an overall cumulative grade point average of 2.5 or better.

**Majors in Ecosystem Science and Policy**

- B.S. in Ecosystem Science and Policy (p. 111)
- B.A. in Ecosystem Science and Policy (p. 108)

**Minor in Ecosystem Science and Policy**

- Ecosystem Science and Policy (p. 116)

**Certificate in Ecosystem Science and Policy**

- Sustainability (p. 115)

**B.A. in Ecosystem Science and Policy**

The B.A. degree in Ecosystem Science and Policy is recommended
in preparation for careers in law, government and business, including
professional schools and careers in government and private industries
concerned with the environment. Students pursuing the B.A. may choose
to have the major fulfill either the STEM or People & Society cognate;
they will need to complete the other cognate plus the Arts & Humanities
cognate. Students with a second major in another school or college
should consult their advisors regarding requirements for that major.
Any course used to fulfill one ECS requirement cannot be used to fulfill
another; however, courses other than the ECS core can be used to fulfill
requirements for a cognate, minor, or second major. Students whose
primary college is Arts & Sciences are required to complete four courses
designated as "Writing Intensive" (also known as "W") courses. Those
seeking a B.A. degree in ECS must complete at least two, but as many as
four, ECS courses designated as "W". These include ECS 113, ECS 301,
ECS 302, ECS 402, and ECS 403. Up to two "W" courses may be selected
from other departments. Students whose primary degree is in another
school or college should follow its writing requirements.

**Science Core Courses**

**Geological Sciences:**
- Select one of the following: 3-6
  - GSC 102 Evolution of the Biosphere
  - GSC 103 Evolution of the Modern Earth's Environment
  - GSC 106 Geological Influences on Society
  - GSC 110 The Earth System
  - & GSC 114 and Earth Processes Lab
  - GSC 111 Earth System History

**Geological Science Core Courses**
- Select one of the following: 3
  - ECS 112 Field Problems in Ecosystem
  - MTH 108 Precalculus Mathematics II (or higher)
  - ENG 105 English Composition I
  - APY 201 Principles of Archaeology
  - APY 202 Principles of Cultural Anthropology
  - APY 203 Principles of Physical Anthropology
  - APY 204 Principles of Linguistic Anthropology
  - Select three credit hours of environmentally-related People & Society electives: 2
  - Select three credit hours of environmentally-related People & Society electives at 300 level or higher: 2

**Electives:**
- Environmentally-related science elective(s) to total 3 credits 1

**Mathematics Courses**
- Select one of the following Statistics courses: 3
  - MTH 224 Introduction to Probability and Statistics
  - PSY 292 Introduction To Biobehavioral Statistics For Non-Majors

**Social Science Core Courses**
- Select one of the following: 3
  - ECO 211 Economic Principles and Problems
  - ECO 212 Economic Principles and Problems
  - POL 201 Introduction to American National Government
  - POL 202 Introduction To Comparative Politics
  - POL 203 Introduction to International Relations

**Social Science Core Courses**
- Select one of the following: 3
  - APY 201 Principles of Archaeology
  - APY 202 Principles of Cultural Anthropology
  - APY 203 Principles of Physical Anthropology
  - APY 204 Principles of Linguistic Anthropology
  - Select three credit hours of environmentally-related People & Society electives: 2

1. Additional courses may be approved by the ECS program.
2. APY, ARC, ECO, ECS, GEG, HIS, INS, LAS, MAF, POL, SOC

**Suggested Plan of Study - with Minor**

In this plan, we are showing the case in which study abroad simply counts toward the total required for graduation, 120 credits. However, study abroad courses generally can be used as courses for ECS, for a minor, for cognates, in which case there would be additional electives opened up in subsequent semesters.

## Year Two
### Fall
- **ECS 201** Seminar Series in Contemporary Environmental Issues I 1
- **ECS 232** Ecological Principles and Environmental Applications 3
- **GSC 102** Evolution of the Biosphere 3
- **ENV Related STEM Course** 3
- **Language Course** 3
- **Minor Course** 3
- **Credit Hours** 16

### Spring
- **ECS 301** Tools for Environmental Decision-Making: The Quantitative Perspective 3
- **GEG 310** Geographic Information Systems I 3
- **MSC 204** Environmental Statistics 3
- **Minor Course** 3
- **Arts and Humanities Cognate Course** 3
- **Credit Hours** 15

## Year Three
### Fall
- **Second Major Course** 3
- **EVN Related STEM Course** 3
- **Credit Hours** 12

### Spring
- **ECS 302** Perspectives on Environmental Decision Making 3
- **ECS Elective 300 level or higher** 3
- **Minor Course** 3
- **Arts and Humanities Cognate Course** 3
- **Elective** 3
- **Credit Hours** 15

## Year Four
### Fall
- **ECS 401** Internship 3
- **ENV Related People and Society Course** 3
- **ECS Elective 300 level or higher** 3
- **Minor Course** 3
- **Arts and Humanities Cognate Course** 3
- **Credit Hours** 15

### Spring
- **ECS 403** Interdisciplinary Approaches 3
- **ENV Related People and Society Cognate Course** 1
- **Minor Course** 3
- **ENV Related STEM Course** 3
- **Elective** 3
- **Credit Hours** 15

### Total Credit Hours
120

---

1 This course needs to be at the 300 level or higher.

### Suggested Plan of Study - with Second Major

In this plan, we are showing the case in which no courses from the second major (30 credits) are double counted with ECS. However, some course may double count, in which case electives will be opened up.

</table>
B.S. in Ecosystem Science and Policy

The B.S. degree in Ecosystem Science and Policy is recommended for students intending to attend graduate or professional schools in pursuit of research or academic careers (including secondary or higher education). It is also suitable for those preparing for technical careers in government and private industries concerned with the environment. Students pursuing the B.S. may choose to have the major fulfill either the STEM or People & Society cognate; they will need to complete the other cognate plus the Arts & Humanities cognate. Students with a second major in another school or college should consult their advisors regarding requirements for that major and school or college. Any course used to fulfill one ECS requirement cannot be used to fulfill another; however, courses other than the ECS core can be used to fulfill requirements for a cognate, minor, or second major. Students whose primary college is Arts & Sciences are required to complete four courses designated as “Writing Intensive” (also known as “W”) courses. Those seeking a B.S. degree in ECS must complete at least two, but as many as four, ECS courses designated as “W”. These include ECS 113, ECS 301, ECS 302, ECS 402, and ECS 403. Up to two “W” courses may be selected from other departments. Students whose primary degree is in another school or college should follow its writing requirements.

Curriculum Requirements

Students following the ECS Bachelor of Science must complete either a track (listed separately below) or a second major in a STEM field.

Social Science Core Courses
Select one of the following Economics/Political Science courses for BS:

- ECS 377  Topics in Environmental Economics and Development
- ECO 211  Economic Principles and Problems
- ECO 212  Economic Principles and Problems
- INS 102  Global Economics
- INS 421  Poverty and the Environment
- MSC 345  Economics of Natural Resources and the Environment
- POL 201  Introduction to American National Government
- POL 202  Introduction to Comparative Politics
- POL 203  Introduction to International Relations

Select one of the following ECS social science skills courses for BS:

- BSL 212  Introduction to Business Law
- BSL/MSC 314  Ocean Law
- JMM 114  Principles of Advertising
- JMM 106  Visual Design
- JMM 341  Web Design
- ECO 376  Topics in Environmental Communication
- ECO 377  Topics in Environmental Economics and Development
- EPS 321  Understanding Human Service Organizations
- FIN 300  Fundamentals of Finance for Non-Finance Majors
- FIN 302  Fundamentals of Finance
- GEG 120  Physical Geography
- INS 503  Int Relations Topics (e.g., Role of Foreign Aid in International Development)
- LAS 502  Research Design in Latin American Studies
- MGT 253  Introduction to Entrepreneurship
- MGT 303  Operations Management
- MKT 201  Foundations of Marketing
- PHI 110  Critical Thinking
- PHI 215  Logic and Law
- POL 314  Legislative Processes
- POL 342  State and Local Government and Politics
- POL 353  Interest Groups and Lobbying
- POL 524  Non-Profit Organizations: Law, Policy, and Management
- SOC 210  Introduction to Social Research
- GEG 310  Geographic Information Systems I

**Additional Required Courses**

- ENG 105  English Composition I
- ENG 106  English Composition II
- Arts and Humanities Cognate
- Language Courses
- Electives/Additional minor

**Total Credit Hours** 120-134

---

**Track Requirements**

**Complete one of the following ECS science tracks:**

**Environmental Chemistry Track:**

- CHM 201  Organic Chemistry I (Lecture)
- CHM 205  Organic Chemistry Laboratory I
- CHM 202  Organic Chemistry II (Lecture)
- CHM 206  Organic Chemistry Laboratory II
- CHM 360  Physical Chemistry I (Lecture)
- CHM 364  Physical Chemistry Laboratory (Lecture)
- CHM 365  Physical Chemistry II (Lecture)
- CHM 464  Physical Chemistry Laboratory II
- CHM 401  Environmental Chemistry

**Geology track:**

- GSC 110  The Earth System
- GSC 114  Earth Processes Lab
- GSC 111  Earth System History
- GSC 260  Earth Materials

Select two of the following:

- GSC 360  Depositional and Diagenetic Systems
- GSC 380  Paleontology and Stratigraphy
- GSC 410  Environmental Geochemistry
- GSC 420  Geophysics
- GSC 480  Structural Geology
- GSC 550  Hydrogeology

**Geospatial Certificate track:**

- GEG 310  Geographic Information Systems I
- GEG 321  Remote Sensing of the Environment
- GEG 410  Geographic Information Systems II

Select 2 of the following:

- GEG 305  Spatial Data Analysis I
- GEG 390  Topics in Geography
- GEG 315  Digital Cartography
- GEG 405  Spatial Data Analysis II
- GEG 415  Web GIS

**Mathematics track:**

- MTH 359  Mathematical Models in Biology and Medicine

Select two of the following:

- MTH 210  Introduction to Linear Algebra
- MTH 310  Multivariable Calculus
- MTH 311  Introduction to Ordinary Differential Equations

**Environmental Health track:**

- BIL 150  General Biology
- BIL 151  and General Biology Laboratory
- CHM 121  Chemistry For The Biosciences I
- CHM 221  CHM211 Chemistry for the Biosciences II
- CHM 222  CHM212 Chemistry for the Biosciences III

Select one of the following:

- BPH 208  Introductory Epidemiology
- BMB 401  Biochemistry For The Biomedical Sciences
- MIC 301  Introduction to Microbiology and Immunology
- MIC 322  Medical Parasitology
### Climate Science & Policy track: 8

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSC 111</td>
<td>Introduction to Marine Science</td>
<td>8</td>
</tr>

<tr>
<td>ATM 102</td>
<td>Introduction To Weather And Climate or ATM 1 Survey of Modern Meteorology</td>
<td></td>
</tr>
<tr>
<td>MSC 346</td>
<td>Climate Science and Policy</td>
<td>4</td>
</tr>
</tbody>
</table>

Select two courses from the following:

- MSC 220 Climate and Global Change
- MSC 222 The Earth’s Climate: Past and Future
- GSC 462 Earth’s Ancient Atmospheres, Climates, And Sea Levels

Other approved climate science course

Select one course from the following:

- MSC 313 Coastal Law
- MSC 314 Ocean Law
- MSC 340 Ocean Policy
- MSC 342 Decision Making and the Environment

Other approved climate policy course

### Conservation Biology track: 3

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIL 150</td>
<td>General Biology</td>
<td>7</td>
</tr>
<tr>
<td>&amp; BIL 151</td>
<td>General Biology Laboratory</td>
<td></td>
</tr>
<tr>
<td>BIL 160</td>
<td>Evolution and Biodiversity</td>
<td>1</td>
</tr>
</tbody>
</table>

Select 12 credits from the following (must include 3 credits in the field/lab category):

- BIL 220 Evolution and Disease
- BIL 226 General Botany
- BIL 230 Introduction to Marine Biology
- BIL 250 Genetics
- BIL 315 Marine Biota and Biogeochemical Cycles
- BIL 316 Global Primary Production
- BIL 330 Ecology
- BIL 350 Survey of Marine Mammals
- BIL 360 Comparative Physiology
- BIL 415 Coral Reef Science and Management
- BIL 433 Conservation in Practice
- BIL 435 Origins, Ecology and Conservation of Insular Diversity
- BIL 441 Animal Behavior
- BIL 539 Conservation And Protected Areas

Field/Lab Category:

- BIL 227 General Botany Laboratory
- BIL 231 Introduction to Marine Biology Laboratory
- BIL 321 Invertebrate Zoology
- BIL 328 Biology of Birds
- BIL 331 Ecology Laboratory
- BIL 332 Tropical Ecology
- BIL 432 Ecology in the Galapagos
- BIL 525 Advanced Herptology

Note: CHM111/CHM113, CHM112/CHM114 must be taken before the Environmental Chemistry track. Fulfillment of the Environmental Chemistry track earns a Chemistry minor.

Note: Fulfillment of the Geology track earns a minor in Geological Sciences.

Note: Fulfillment of the Geospatial Certificate track PLUS GEG 110 earns a geography minor.

Note: Calculus II must be taken before the Mathematics track. Fulfillment of the Mathematics track earns a Mathematics minor.

Note: The 12-credit CHM121/221/222 sequence of the Environmental Health track replaces the normal 8 credit ECS B.S. CHM111/112/113/114 series, making the effective credit count for the Environmental Chemistry track 19-21. This track as described does not earn a minor; additional courses to finish a minor (or a separate minor) must be undertaken.

Note: MSC346 (co-listed with ECS403) taken to satisfy the Climate Science & Policy track cannot also satisfy the ECS403 core course requirement; a separate ECS403 section must be taken. Fulfillment of the track earns a minor in Climate Science & Policy.

Note: BIL539 (Co-listed with ECS403) taken to satisfy the Conservation Biology track cannot also satisfy the ECS403 core course requirement; a separate ECS403 section must be taken. Fulfillment of the Conservation Biology track earns a Biology minor.

Certificate in Sustainability

The certificate program is intended to equip students with knowledge and skills for implementing positive change through environmentally responsible practices in various fields; to serve as a curricular adjunct to sustainable initiatives at UM; to foster a culture of conservation at the University; to enhance students’ preparation for a variety of careers, including engineering, architecture, business, marketing, government, and more; and to affirm UM’s commitment to sustainability and complement its efforts to enhance environmental education.

To obtain the sustainability certificate, students will complete 18 credits from the courses below.

Students may take courses to align with their major or minor, or individual interests (e.g., energy, green buildings, natural resource management). Note that some courses on the list may require one or more prerequisites. It is the responsibility of students to obtain any permissions for waivers of prerequisites from the appropriate parties in a given School or College. Courses not on the list may be substituted; students should obtain permission for substitutions in advance from the director or assistant director of ECS.

Students must be enrolled full time and all courses for the Certificate must be passed with no lower than a “C” grade. Students who successfully complete the program will receive a notation on their transcripts that they have received the Sustainability Certificate.

Prerequisite Courses
- POL 322 has a prerequisite of POL 201 or POL 202; it is only offered in Summer
- MSC 340 has a prerequisite of MSC 111
- ARC 223 has a prerequisite of ARC 102 and ARC 122
- INS 322 has a prerequisite of INS 102 or ECO 211 and ECO 212; or permission of instructor
- INS 421 has a prerequisite of INS 102 or permission of instructor
- ECO 345 has a prerequisite of ECO 211 and ECO 302
- MSC 345 has a prerequisite of ECO 211
- GEG 341 has a prerequisite of any 100 level GEG course.

Certificate Requirements

Group 1: Human Impacts on Natural World
- ECS 111 Introduction to the Earth’s Ecosystem
- GSC 103 Evolution of the Modern Earth’s Environment
- MSC 220 Climate and Global Change

Group 2: Environmental Politics & Policy

Group 3: Social Implications

Additional Courses
Choose 9 additional credits from courses below:

College of Arts and Sciences

Anthropology
- APY 307 Human Adaptation
- APY 360 Anthropology of Food
- APY 387 Cultural Evolution
- APY 435 Anthropology of Nature and Environment

Biology
- BIL 103 Introduction to Ecology.
- BIL 220 Evolution and Disease
- BIL 330 Ecology
- BIL 332 Tropical Ecology
- BIL 433 Conservation in Practice

Ecosystem Science and Policy
- ECS 201 Seminar Series in Contemporary Environmental Issues I
- ECS 202 Seminar Series in Contemporary Environmental Issues II
- ECS 301 Tools for Environmental Decision-Making: The Quantitative Perspective
- ECS 302 Perspectives on Environmental Decision Making
- ECS 433 Conservation in Practice
- ECS 501 Interdisciplinary Environmental Theory

Geography
- GEG 331 Sustainable Development
- GEG 334 Biogeography & Conservation
- GEG 530 Seminar in Sustainability

Geological Sciences
- GSC 106 Geological Influences on Society
- GSC 107 Natural Disasters - Hollywood Vs. Reality
- GSC 550 Hydrogeology
**Minor in Ecosystem Science and Policy**

**Education**

**Degree in Teacher Education for Elementary and Secondary Schools**

The School of Education in conjunction with the College of Arts and Sciences and the School of Music offers a degree program in teacher education. Students majoring in Elementary may choose to earn their degree through the School of Education or the College of Arts and Sciences.

The program in Secondary Education enables a student to teach in a secondary school in the areas of English, Mathematics, Biology, Economics, Geography, History, International Studies or Political Science. Students wishing to earn certification in Secondary Education must complete a Bachelor of Arts or a Bachelor of Science degree in the College of Arts and Sciences with a major in Secondary Education.¹

¹ For specific information regarding required coursework, field experiences, and State requirements, please see an academic advisor in the School of Education.

**Florida State Department of Education**

All education programs are approved by the State of Florida Department of Education. For specific information regarding required coursework, please see an education advisor.

**Minor in Education**

- Traditional Education (p. 116)

**Certificate in Education**

- Professional Training Option (p. 116)

**Minor in Traditional Education**

| TAL Courses                  | 9  |
| TAL Courses 300 level or higher | 6  |
| Total Credit Hours           | 15 |

* The requirements for a minor in education consist of 15 credit hours passed with a C or higher, with an overall GPA of 2.5 in courses selected from the list of acceptable TAL departmental courses.

**Professional Training Option Certificate**

The Professional Training Option (PTO) is a Florida Department of Education approved pathway for non-education majors to complete the Professional component, one of the requirements to become a certified teacher in the State of Florida.

The PTO minor ranges from 17-18 credit hours. Upon completion of the program participants will receive a Certificate of Completion. UM transcripts will indicate that the student has completed a Florida State approved PTO program. Program completers will be eligible to apply for a Temporary Teaching Certificate in the State of Florida.
Engineering

http://www.miami.edu/engineering

Minor in Engineering

The College of Engineering offers the student in the College of Arts and Sciences a variety of 15 credit hour minors designed to give the student a basic understanding of the technologies that support and shape our civilization. Minors may be elected in Architectural, Civil, Computer, Electrical, Environmental, Industrial, or Mechanical Engineering. The student is given considerable freedom in choosing courses in accordance with the student’s interests.

Faculty in the College is prepared to assist students seeking Engineering minors in the preparation of programs of study.

More detailed descriptions of these minors will be found in the COLLEGE OF ENGINEERING (p. 343) section of this Bulletin.

English

http://www.as.miami.edu/english

Dept. Code: ENG

Introduction

The English Department offers programs for students interested in a liberal arts education. While many English majors direct their studies toward careers in law, creative writing, secondary education, or university teaching and scholarship, a major in English is just as valuable to students considering careers in business, journalism, or any of the health professions. Students who would like to learn more about any of these programs are encouraged to consult the Director of Undergraduate Studies in the Department of English, Ashe Bldg. 321.

Educational Objectives

English as a discipline offers an opportunity for a general humanistic education, and it develops skills in communication and analysis essential in most careers. An education in English teaches students to write, to think critically, to weigh values, and to communicate ideas. At the same time, it develops their creativity and aesthetic understanding, and affords them a knowledge of our literary heritage in all of its historical and cultural dimensions.

Degree Programs

The major in English leads to the degree of Bachelor of Arts.

Major in English

Students majoring in English must earn 30 credit hours in English courses (36 credit hours for Departmental Honors) and must meet the requirements for one of the tracks described below:

- The Major in English (p. 118) (with a concentration in Literature),
- The Creative Writing Concentration (p. 121),
- The Concentration in British Literary History (p. 120), or
- The Women's Literature Concentration (p. 123).

Credit hours earned for courses in freshman composition (ENG 105, ENG 106, ENG 107, and ENG 208) may not be applied toward the total number of credit hours required for the major. In each English course, the English major must earn a grade of C- or better, with an overall GPA in the major of 2.0 or better.

Students pursuing both a major and a minor (or two majors) offered by the Department of English may double-count a maximum of two English courses toward the fulfillment of their degree requirements. They must also have an additional major or minor in a department other than English.

Since all ENG courses, other than freshman composition, are designated as writing (WRIT) courses, all English majors satisfy the College of Arts & Sciences Advanced Writing and Communication requirement by completing their major.

Minor

The Department of English offers two minors:

- The Minor in English (p. 124) and
- The English Minor in Creative Writing (p. 124).

Students pursuing both a major and a minor (or two majors) offered by the Department of English may double-count a maximum of two English courses toward the fulfillment of their degree requirements. They must also have an additional major or minor in a department other than English.

Departmental Honors in English

Students interested in seeking Departmental Honors in English should consult the Director of Undergraduate Studies in English, normally before the end of the junior year.

To enter the program a student must have achieved by the end of the junior year at least a 3.5 average in English courses and a 3.3 average overall. In addition to fulfilling the requirements for the Major in English...
(with a concentration in Literature), the candidate for Departmental Honors must:

1. Take at least three literature courses numbered 400 or above in fulfilling requirement #2 of the English Literature Major.
2. Complete a six-credit-hour Senior Thesis. This thesis is a documented essay of about 10,000 words on a literary subject. The student undertaking a Senior Thesis normally registers in ENG 497 for the first semester of the project, and in ENG 498 for the second semester. The student must receive a grade of B or higher in both courses in order to qualify for honors. (6 credit hours)
3. While taking ENG 497 and ENG 498, participate in any workshops offered by the English Department for students engaged in independent research projects.
4. Receive for the thesis a recommendation for honors by the director of the Senior Thesis and by one other faculty reader from the Department of English.
5. Achieve an average in the major of at least 3.5, and an overall average of at least 3.3.

Total: 36 credit hours

Departmental Honors in Creative Writing

Students interested in seeking Departmental Honors in Creative Writing should consult the Director of Creative Writing, normally before the end of the junior year.

To enter the program a student must have achieved by the end of the junior year at least a 3.5 average in English courses (including courses in creative writing) and a 3.3 average overall. In addition to meeting the requirements for the Creative Writing Concentration, the candidate for Departmental Honors must:

1. Take at least three literature courses numbered 400 or above in fulfilling requirement #3 of the Creative Writing Concentration.
2. Complete a six-credit-hour Senior Creative Writing Project. The student undertaking this project normally registers in ENG 497 for the first semester of the project, and in ENG 498 for the second semester. The student must receive a grade of B or higher in both courses in order to qualify for honors. (6 credit hours)
3. Receive for the project a recommendation for honors by the director of the Senior Creative Writing Project and by one other faculty reader designated by the Director of Creative Writing.
4. Achieve an average in the major of at least 3.5, and an overall average of at least 3.3.

Total: 36 credit hours

Departmental Honors in Women's Literature

Students interested in seeking Departmental Honors in Women's Literature should consult the Director of Undergraduate Studies in English, normally before the end of the junior year.

To enter the program a student must have achieved by the end of the junior year at least a 3.5 average in English courses (including courses in creative writing) and a 3.3 average overall. In addition to fulfilling the requirements for the Women's Literature Concentration, the candidate for Departmental Honors must:

1. Take at least three literature courses numbered 400 or above in fulfilling requirements #2 and #3 of the Women's Literature Concentration.
2. Complete a six-credit-hour Senior Thesis. This thesis is a documented essay of about 10,000 words on a literary subject. The student undertaking a Senior Thesis normally registers in ENG 497 for the first semester of the project, and in ENG 498 for the second semester. The student must receive a grade of B or higher in both courses in order to qualify for honors. (6 credit hours)
3. While taking ENG 497 and ENG 498, participate in any workshops offered by the English Department for students engaged in independent research projects.
4. Receive for the thesis a recommendation for honors by the director of the Senior Thesis and by one other faculty reader from the Department of English.
5. Achieve an average in the major of at least 3.5, and an overall average of at least 3.3.

Total: 36 credit hours

Majors in English

- B.A. in English (p. 118)
- B.A. in English with Concentrations in:
  - Creative Writing (p. 121)
  - British Literary History (p. 120)
  - Women's Literature (p. 123)

Minors in English

- English (p. 124)
- Creative Writing (p. 124)

B.A. in English

Requirements for the Major in English (with a concentration in Literature) are as follows:

1. Select ONE of the following (N.B., ENG 210 may NOT be used to fulfill this requirement):
   - ENG 201 World Literary Masterpieces I
   - ENG 202 World Literary Masterpieces II
   - ENG 205 Jewish Literature
   - ENG 211 English Literature I
   - ENG 212 English Literature II
   - ENG 213 American Literature I
   - ENG 214 American Literature II
   - ENG 215 English and American Literature by Women
   - ENG 260 African-American Literature
   - ENG 261 Literature of the Americas

2. Select FIVE LITERATURE courses numbered 300 or above.

   At least TWO must be numbered 400 or above. The courses must be distributed as follows:
   - Select two courses numbered 300 or above in literature before 1700
   - Select two courses numbered 300 or above in literature between 1700 and 1900
   - Select one course numbered 300 or above in literature since 1900

Total: 36 credit hours
3. Select FOUR additional English courses other than freshman composition.

Total credits required for the major: 30 (36 credits required for Departmental Honors)

4. Additional Graduation Requirements:

Suggested Plan of Study

This Suggested Plan of Study is a sample four-year plan, but an individual student’s actual plan is likely to vary from this sample plan in a number of ways, depending on such factors as (1) AP, dual-enrollment, and transfer credits that a student brings in; (2) the student’s initial placement in composition, mathematics, and foreign language; and (3) the minor chosen by the student, as well as any additional minor or major the student chooses to complete. For example, a student is not required to complete a cognate in People & Society if the student has a minor (or second major) that counts as “People & Society,” and similarly, a student is not required to complete a cognate in STEM if the student has a minor (or second major) that counts as "STEM."
### B.A. in English - Concentration in British Literary History

Requirements for the Concentration in British Literary History are as follows:

1. **Complete the two-semester survey of British literature:**
   - ENG 211 English Literature I
   - ENG 212 English Literature II

2. **Select EIGHT English courses numbered 300 or above, at least FOUR of which must be numbered 400 or above. These courses must be distributed as follows:**
   - Select one course numbered 300 or above on Shakespeare
   - Select one course numbered 300 or above on literary theory or the history of criticism
   - Select two additional courses numbered 300 or above in British literature (or a combination of British and other literatures) before 1800
   - Select two additional courses numbered 300 or above in British literature (or a combination of British and other literatures) after 1800
   - Select two ENG electives numbered 300 or above

3. **Recommended Courses:**
   - Select ancillary courses in Art History, Music, History, and Philosophy, in consultation with a departmental advisor

4. **Total credits required for the major:** 30

5. **Additional Graduation Requirements:**

</table>

1. Students who are considering the possibility of writing a six-credit senior thesis for Departmental Honors in English their last year should replace this elective course with an ENG course for their major.

2. Students who are writing a six-credit senior thesis for Departmental Honors in English should, ideally, have completed eight ENG courses for their major prior to their senior year, and should therefore be able to replace this course with ENG 497.

3. Students who are writing a six-credit senior thesis for Departmental Honors in English should replace this elective course with ENG 498.

### B.A. in English - Concentration in Creative Writing

Students who declare a major in English with a Creative Writing Concentration should meet with the Director of Creative Writing.

Requirements for the Creative Writing Concentration are as follows:

1. **Select either the FICTION TRACK or the POETRY TRACK:** 12

#### Fiction Track
- ENG 290 | Beginning Fiction Workshop
- ENG 390 | Intermediate Fiction Workshop
- Select one of the following options to complete the FICTION TRACK:
  - ENG 404 & 404 | Creative Writing (Prose Fiction) and Creative Writing (Prose Fiction) (ENG 404 to be taken twice)
  - OR
  - ENG 404 & ENG 408 | Creative Writing (Prose Fiction) and Writing Autobiography (taken in either order)

#### Poetry Track
- ENG 292 | Beginning Poetry Workshop
- ENG 392 | Intermediate Poetry Workshop
- Select one of the following options to complete the POETRY TRACK:
  - ENG 406 & 406 | Creative Writing (Poetry) and Creative Writing (Poetry) (ENG 406 to be taken twice)
  - OR
  - ENG 406 & ENG 408 | Creative Writing (Poetry) and Writing Autobiography (taken in either order)

2. **Select one of the following (N. B., ENG 210 may NOT be used toward the fulfillment of this requirement):** 3

   - ENG 201 | World Literary Masterpieces I
   - ENG 202 | World Literary Masterpieces II
   - ENG 205 | Jewish Literature
   - ENG 211 | English Literature I
   - ENG 212 | English Literature II
   - ENG 213 | American Literature I
   - ENG 214 | American Literature II
   - ENG 215 | English and American Literature by Women
   - ENG 260 | African-American Literature
   - ENG 261 | Literature of the Americas

3. **Select FOUR LITERATURE courses numbered 300 or above, at least TWO of which must cover literature earlier than 1900. At least TWO of the four courses must be numbered 400 or above:** 12

4. **Select one additional LITERATURE course numbered 200 or higher:** 3
Total credits required for the major: 30 (36 credits required for Departmental Honors)

5. Additional Graduation Requirements:

</tbody>
</table>

Total Credit Hours: 120

1. If the student has a minor (or second major) that counts as “People & Society,” the student does not need to satisfy the requirement for a People & Society cognate.
2. If the student has a minor (or second major) that counts as "STEM," the student does not need to satisfy the requirement for a STEM cognate.
3. This requirement is waived if the STEM cognate includes a Natural Science course from the approved list.
4. Students satisfy this requirement by taking four writing courses, at least one of which must be in one of the student’s major disciplines. Since all ENG courses, other than freshman composition, are designated as writing (WRIT) courses, all English majors satisfy this requirement by completing their major.
5. A minimum of 120 credits is required for graduation. Sufficient credits must be earned in electives to enable the student to complete this minimum of 120 credits. The exact number of elective credits required will vary depending on the number of credits needed to complete all other graduation requirements.

Suggested Plan of Study

This Suggested Plan of Study is a sample four-year plan, but an individual student’s actual plan is likely to vary from this sample plan in a number of ways, depending on such factors as (1) AP, dual-enrollment, and transfer credits that a student brings in; (2) the student’s initial placement in composition, mathematics, and foreign language; and (3) the minor chosen by the student, as well as any additional minor or major the student chooses to complete. For example, a student is not required to complete a cognate in People & Society if the student has a minor (or second major) that counts as "People & Society," and similarly, a student is not required to complete a cognate in STEM if the student has a minor (or second major) that counts as "STEM."

Requirements for the Women's Literature Concentration are as follows:

Students considering this concentration may want to take a special Women's Literature B.A. in English - Concentration in Women's Literature

1. ENG 215 (English and American Literature by Women) 3
2. Select FOUR literature courses numbered 300 or above, at least TWO of which must be numbered 400 or above. These courses must be distributed as follows:
   - Select two courses in literature before 1700
   - Select two courses in literature between 1700 and 1900
3. Select FIVE additional English courses other than freshman composition
4. Select THREE of the courses in 2 and 3, above, from the following list: ENG 372, ENG 373, ENG 374, ENG 490, ENG 494, or any English course numbered 200 or above (other than ENG 215) that is combined with a course in Women's and Gender Studies 2
5. Recommended Courses:
   - Select ancillary courses in Women's and Gender Studies, in consultation with a departmental advisor
   - Total credits required for the major: 30 (36 credits required for Departmental Honors)
6. Additional Graduation Requirements:
   - Consultation with a departmental advisor
   - Select ancillary courses in Women's and Gender Studies, in the following list: ENG 372, ENG 373, ENG 374, ENG 490, ENG 494, or any English course numbered 200 or above (other than ENG 215) that is combined with a course in Women's and Gender Studies
   - Recommended Courses:
     - ENG 372
     - ENG 373
     - ENG 374
     - ENG 490
     - ENG 494
     - People & Society cognate (third course) 3

   - Elective 3
   - Credit Hours 15
   - Elective 3
   - Total Credit Hours 120

B.A. in English - Concentration in Women's Literature

Students considering this concentration may want to take a special Women's Studies section of ENG 106 in the freshman year.

Requirements for the Women's Literature Concentration are as follows:

1. Students who are considering the possibility of writing a six-credit senior thesis for Departmental Honors in Creative Writing their last year should replace this elective course with one of the literature courses required for the Creative Writing major.
2. Students who are writing a six-credit senior thesis for Departmental Honors in Creative Writing should, ideally, have completed eight ENG courses for their major prior to their senior year, and should therefore be able to replace this course with ENG 497.
3. Students who are writing a six-credit senior thesis for Departmental Honors in Creative Writing should replace this elective course with ENG 498.

B.A. in English - Concentration in Women's Literature

Requirements for the Women's Literature Concentration are as follows:

1. Students who are considering the possibility of writing a six-credit senior thesis for Departmental Honors in Creative Writing their last year should replace this elective course with one of the literature courses required for the Creative Writing major.
2. Students who are writing a six-credit senior thesis for Departmental Honors in Creative Writing should, ideally, have completed eight ENG courses for their major prior to their senior year, and should therefore be able to replace this course with ENG 497.
3. Students who are writing a six-credit senior thesis for Departmental Honors in Creative Writing should replace this elective course with ENG 498.

Suggested Plan of Study

This Suggested Plan of Study is a sample four-year plan, but an individual student's actual plan is likely to vary from this sample plan in a number of ways, depending on such factors as (1) AP, dual-enrollment, and transfer credits that a student brings in; (2) the student's initial placement in composition, mathematics, and foreign language; and (3) the minor chosen by the student, as well as any additional minor or major the student chooses to complete. For example, a student is not required to complete a cognate in People & Society if the student has a minor (or second major) that counts as "People & Society," and similarly, a student is not required to complete a cognate in STEM if the student has a minor (or second major) that counts as "STEM."

Geography offers specializations in areas such as

**Educational Objectives**

Geography offers specializations in areas such as environmental geography and physical geography. Human geography is concerned with the environment. There are two main branches of geography: human geography and physical geography. Human geography is concerned with the spatial aspects of human existence. Physical geographers study patterns of climates, land forms, vegetation, soils, and water. Thus, Geography links the social sciences and natural sciences.

Geographers use many tools and techniques in their work, and geographic technologies are increasingly among the most important emerging fields for understanding our complex world. They include Geographic Information Systems (GIS), Remote Sensing, Global Positioning Systems (GPS), online mapping such as Google Earth, statistics, survey research, and others.

Geographers work in many different areas, such as environmental management, education, disaster response, city and county planning, community development, and more. Geography is an interdisciplinary field that offers diverse career opportunities.

The relevance and prestige of Geography as a discipline was helped enormously during the past 20 years by four key developments:

1. the emergence of “globalization” as a phenomenon requiring analysis and explanation;
2. the increasing recognition of space and place in cognate social and physical sciences;
3. deepening concern for nature-society interactions and issues of environmental sustainability, development, and climate change;
4. the development of geographic information systems (GIS and GIScience) and remote sensing technologies and their widespread adoption by organizations in both the public and private sectors.

**Educational Objectives**

Geography offers specializations in areas such as

- Geographic Information Systems and Remote Sensing
- Medical Geography and Global Health
- Urban Geography and International urbanization
- Environmental Studies

Geography offers courses on the Middle East, Africa, South America, and other regions.

Geography offers courses that provide training in indispensable skills for everyone entering the present-day labor market:

- Research Methodology
- Statistics
- Computer Cartography
- Geographic Information Systems (GIS)
- Remote Sensing of the Environment
- Survey Research

**Study Abroad**

Majors are strongly encouraged to study abroad. Study abroad at carefully selected institutions will complement the student’s curriculum and area of specialization, will enhance fluency in a foreign language, and will result in heightened affinity for a foreign culture. The study abroad experience need not result in credit overloads or extended time spent in the program.

**Degree Programs**

The major in Geography leads to a Bachelor of Arts Degree, or a Bachelor of Science Degree.

**Departmental Honors in Geography**

The Department of Geography encourages its majors and minors to intensify and deepen their knowledge of Geography through its Departmental Honors Program. The program is designed to give our students the opportunity to explore various topics and problems in Geography that are of particular interest to them, to work more closely with faculty in the department, to develop skills in research and thesis preparation, and in some cases to prepare for graduate work in Geography or other disciplines.

Minimum requirements for the program are as follows:

1. a cumulative grade point average of at least 3.30;
2. a cumulative grade point average in Geography of at least 3.50; and
3. a thesis that is approved by departmental faculty.

Students have 3 options for writing the thesis.

1. Students may take 6 credit hours of independent study (GEG 598) with one or more departmental faculty.
2. Students may take a 3 credit hour course offered at the 300-level or above and 3 credit hours of independent study (GEG 598).
3. In exceptional circumstances, a student’s thesis may be written as part of the requirements for earning 6 credit hours in Geography at the 300-level or above.

In all three cases, the thesis must be a single, coherent work of scholarship through which the student earns 6 credit hours in Geography over the course of two semesters.
A Geography faculty member must serve as the Honors thesis advisor, and a second reader, who may be from another department, must be selected in consultation with the thesis advisor. The thesis must be at least 30 pages in length (double spaced, 12 point font), not including tables and figures. Once the topic and committee are secured, students should turn in their signed Departmental Honors Thesis Form to the main office of the Geography Department. This form must be signed by the Director of Undergraduate Studies and submitted by October 15 for fall graduation and February 15 for Spring graduation.

In addition to completing the written thesis, students must orally present the results of their work to faculty and students at a special honors colloquium to be held at the end of the semester.

**Total Credit Hours**

$120-126$

1. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Geography must take at least one writing eligible course in Geography. GEG 501 satisfies this requirement for most students.

2. Students must complete at least 30 credit hours in Geography with a grade of C- or higher.

3. The overall GPA in courses counted toward the major must be 2.00 or higher.

4. The major requires 18 credits of electives at least 9 of which must be at the 300 level or above, exclusive of GEG 501.

Choose 1 advanced techniques course 3
Elective Courses 6

Additional Electives 12
Total Credit Hours 120-126

1 To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Geography must take at least one writing eligible course in Geography. GEG 501 satisfies this requirement for most students.
2 Students must complete at least 33 credit hours in Geography with a grade of C- or higher.
3 The overall GPA in courses counted toward the major must be 2.00 or higher.

Suggested Plan of Study

Year One

Fall
- ENG 105 English Composition I 3
- MTH 161 Calculus I 4
- UMX 100 The University Of Miami Experience 0
- GEG 101 Digital Earth 3
- GEG 120 Physical Geography 3

Spring
- GEG 310 Geographic Information Systems I 3
- Language Course 3

Total Credit Hours 16

Year Two

Fall
- GEG 305 Spatial Data Analysis I 3
- Language Course 3
- Arts and Humanities Cognate Course 3
- General or GEG Elective Course 3
- BIO, CHM, GEL, or PHY Course 3

Spring
- GEG 306 Geographic Research Methods 3
- GEG 241 Health & Medical Geography 3
- GEG 321 Remote Sensing of the Environment 3
- Arts and Humanities Cognate Course 3
- General or GEG Elective Course 3

Total Credit Hours 15

Year Three

Fall
- GEG 331 Sustainable Development 3
- GEG 410 Geographic Information Systems II 3
- General or GEG Elective Course 3
- General or GEG Elective Course 3
- People and Society Cognate Course 3

Total Credit Hours 15
Geospatial Technology Certificate

This Certificate Program is designed to benefit students who seek to enhance their skills in geospatial technology, especially Geographic Information Systems (GIS) and satellite remote sensing. Students will be exposed to standard software tools used in the industry (ArcGIS), as well as satellite image data. Students who earn the Certificate will enhance their employment prospects and/or advance their careers in geospatial technology, particularly in job settings that stress the use of satellite remote sensing and vector-based GIS.

The Certificate requires a minimum of 15 credit hours, including 3 core courses and 2 or more electives completed with at least a C- grade in each course. Students may also request to count 1 course (3 credit hours) taken previously at UM or another accredited college or university toward the certificate. This course must have been taken for a grade.

**Geospatial Technology Certificate Program Core Courses**

<table>
<thead>
<tr>

| Total Credit Hours | 15 |

1 Other electives may be approved by the Director of Undergraduate Studies.

* Students must earn a grade of C- or better in each course and maintain a cumulative GPA of at least 2.0 in all courses counting toward the minor.

---

### Geological Sciences

http://www.as.miami.edu/geology

**Dept. Code: GSC**

#### Introduction

Geological Sciences is concerned with Planet Earth, its origin, evolution, structure, internal and surface processes, mineral resources, environmental preservation, global dynamics, paleoclimate reconstruction, and life history. Geologists use their knowledge of chemistry, biology, physics and mathematics to solve Earth problems.

#### Educational Objectives

Geological Sciences undergraduates are prepared for careers in industry as well as graduate study in geosciences, the environmental sciences, and marine sciences. Career paths include research and teaching, as well as employment in the petroleum and mineral industries and in industries and government organizations concerned with energy resources, geodynamics, the marine environment, conservation, and climate change.

#### Degree Programs

The Department of Geological Sciences offers three undergraduate degree major programs and two double major programs:

- Bachelor of Science (B.S.)
- Bachelor of Arts (B.A.) in Geological Sciences
- Five-year Master of Science Program (M.S.)
- Geological Sciences/Marine Science (Double Major)
- Geological Science/Ecosystem Science and Policy (Double Major)

For the Geoscience Graduate Program please see the Department of Marine Geosciences (p. 680) at the RSMAS campus.

#### Double Major

Double majors are offered in cooperation with the Marine and Atmospheric Science Program and the Ecosystem Science and Policy Program.
Marine Science (MSC)
This program consists of a major in the Geological Sciences and a major in Marine Science. Interested students should read the information under Marine and Atmospheric Science in this Bulletin and contact the Marine Science office (184 Cox Science or 305-284-2180) for details.

Ecosystem Science and Policy (ECS)
This program consists of a major in Geological Sciences and a major in Ecosystem Science and Policy (ECS). Interested students should read the information under ECS in this bulletin and contact the ECS office (058 Cox).

Departmental Honors
Honors in Geological Sciences may be earned by students in good standing within the University Honors program. In addition to their general requirements, a student must have an overall GPA of 3.0 or better, and also perform research beginning prior to their senior year, resulting in a written Honor’s Thesis and oral defense approved by the student’s thesis advisor.

Writing and Communications Requirement
To satisfy the College of Arts and Sciences writing and communications requirement in the discipline, students majoring in Geological Sciences should take at least two of the following courses (GSC 114, GSC 310, GSC 462, GSC 560).

Majors in Geological Sciences
- B.S. in Geological Sciences (p. 131)
- B.A. in Geological Sciences (p. 130)

Minor in Geological Sciences
- Geological Sciences (p. 134)

Joint Degrees in Geological Sciences
- Five Year B.S./M.S. in Geological Sciences and Marine Geology (p. 133)

B.A. in Geological Sciences

Curriculum Requirements
The B.A. in Geological Sciences is recommended for science oriented students who plan to use an understanding of Earth systems in their professional careers but desire a broader liberal arts education or are pursuing a dual major outside the sciences. B.A. students must complete a core curriculum of 24-27 credit hours including:

<table>
<thead>
<tr>
<th>Select two of the following:</th>
</tr>
</thead>
<tbody>
<tr>
<td>GSC 102 Evolution of the Biosphere (GSC 111 Strongly Preferred) or GSC 1 Earth System History</td>
</tr>
<tr>
<td>GSC 103 Evolution of the Modern Earth’s Environment (or GSC 120 series) (GSC 110 Strongly Preferred) or GSC 11 Earth System</td>
</tr>
<tr>
<td>GSC 114 Earth Processes Lab</td>
</tr>
<tr>
<td>GSC 260 Earth Materials</td>
</tr>
<tr>
<td>GSC 360 Depositional and Diagenetic Systems</td>
</tr>
</tbody>
</table>

GSC 482 Field Methods 2
Select eight additional credit hours at the 300 – 500 level with a grade of C- or better and with an overall GPA of 2.0
Students are strongly encouraged to take:
- GSC 580 Summer Field Geology
- GSC 231 Field Study of Reef Systems Through Time

Additional Required Courses
- ENG 105 English Composition I 3
- ENG 106 English Composition II 3
- MTH 108 Precalculus Mathematics II 3
- Arts and Humanities Cognate 9
- People and Society Cognate 9
- Minor 15
- Language Requirement 3-9
- Electives 49
- Total Credit Hours 120-127

The requirements for a minor in Ecosystem Science and Policy can be found here (p. 116).

Suggested Plan of Study
This is a guide and is not meant to take the place of the advice of your major advisor; you should consult with them before making any changes. This example course plan is for a freshman geology major (BA) with a minor in Ecosystem Science and Policy.

1. Must complete with a grade of C- or better and with an overall GPA of 2.0.
2. The field course (GSC 580) is required for B.S. students and
   encouraged for others in order to gain practical experience in the
   skills of observation, interpretation, measuring, sampling, mapping
   and report writing. This requirement, when completed, has proven to
   be a strong asset when applying for graduate work or employment.

The requirements for a minor in Ecosystem Science and Policy can be
found here (p. 116).

The requirements for a minor in Chemistry can be found here. (p. 92)

Suggested Plan of Study

This is a guide and is not meant to take the place of the advice of your
major advisor; you should consult with them before making any changes.
This example plan is for a freshman geology major (BS) with a chemistry
minor. The suggested plan of study exceeds 120 credits in order to meet
the basic course requirements for professional geoscientist licensing
that is overseen by the National Association State Boards of Geology
(ASBOG).

**Suggested Plan of Study (Change of Major)**

This plan is for transfer students and students beginning Geology major in the spring of their sophomore year.

This is a guide and is not meant to take the place of the advice of your major advisor; you should consult with them before making any changes. This course plan is for transfer or change-of-major from another STEM major after the sophomore year, some general requirements fulfilled. Geology major (BS) with Ecosystem Science and Policy minor.

**Five Year B.S./M.S. in Geological Sciences and Marine Geology**

A 5-year B.S./M.S. in Geological Sciences and Marine Geology allows qualified students to complete a master’s degree in one year of study beyond the B.S.
The B.S. degree in Geological Sciences is offered through the Department of Geological Sciences in the College of Arts and Sciences. The Master of Science (M.S.) degree in Marine Geology and Geophysics is offered through the Division of Marine Geology and Geophysics in the Rosenstiel School of Marine and Atmospheric Science (RSMAS).

Undergraduate requirements are listed under the B.S. degree above with the Honors option. By the beginning of their junior year students should have obtained a graduate faculty advisor, selected an approved topic for research, and begun work on their senior thesis as preparation for the M.S. In the senior year, students will increase their focus on graduate courses and work closely with their graduate faculty advisor. Contact the Geological Sciences chair at the departmental office (305-284-4253) for more information.

* The minor in Geological Sciences consists of 16 credit hours in courses numbered 110 or higher.
** A minimum grade of "C-" must be earned in each course with an overall GPA of 2.0.

History

http://www.as.miami.edu/history

Dept. Code: HIS

Introduction

History is the systematic study of the past. The study of history includes training in how to gather information, how to research issues and problems, how to analyze data and construct arguments, and how to communicate ideas in writing. These are essential skills, tools that are prized in the world beyond the university. A major in history is an excellent beginning and solid stepping stone to professional school and the business world. For goals ranging from law to journalism, and from medicine to the MBA, history serves as a versatile undergraduate major. Multinational businesses demand that their executives understand the peoples and cultures around them, and be able to communicate that understanding effectively. If an occupation demands critical thinking and analysis, a background in history is invaluable.

Educational Objectives

All history courses expose students to historical interpretation and critical analysis.

* Courses at the 100 and 200 levels are intended as introductions to broad fields of history and are open to students with no previous college-level history experience.
* All 300 level history courses are writing intensive, are graded principally through essay examinations and short papers, and count toward the fulfillment of the University of Miami writing across the curriculum requirement.
* Courses at the 500 level require a 300 level history course as prerequisite. All 500 level courses deal extensively with the historiography of their particular subjects, and all require a written research project as a major component of the work of the course.
* To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in History will take two 500-level History seminars.

Degree Programs

The major in History leads to the degree of Bachelor of Arts.

Departmental Honors

History majors with a cumulative GPA of at least 3.6 in history courses may earn departmental honors by completing a two-semester-long, 500-level Honors seminar course (HIS597 and HIS598, held in the Spring and Fall respectively). Admission to the History Honors program is by application in the Fall semester during course registration week. Also, students must have completed at least 6 courses worth 18 credit hours at the University of Miami.

Major in History

• B.A. in History (p. 134)

Minor in History

• History (p. 135)

B.A. in History

A major in history consists of at least 30 credit hours in history with a grade of C- or better in each course, and with a cumulative GPA of at least 2.0 in history courses. These credit hours may include history courses taken for general distribution requirements, and must include at least 18 credit hours at the 300 level or above, of which at least 6 credit hours must be taken in the form of 500-level seminars. (HIS 599 does not count). All courses for majors will be selected by students in consultation with advisors designated by the department.

Credit hours from other institutions may be counted toward the major or minor, and to general distribution requirements as appropriate, but departmental approval is required in each case. Students who complete the Advanced Placement course in either United States or European history and pass the examination with a grade of 4 or 5 may receive credit in the appropriate history courses. Students who complete the International Baccalaureate program and pass the higher level history examination with a grade of 6 or higher will receive 3 credit hours in the appropriate entry-level history course. (However, in some cases students will only receive elective credit hours). At least 18 credit hours of the major and at least 9 credit hours of the minor must be completed at the University of Miami.

History majors with a cumulative GPA of at least 3.6 in history courses may earn departmental honors by completing a two-semester-long, 500-level Honors seminar HIS597 and HIS598, held in the Spring and Fall respectively. Admission to the History Honors program is by application in the Fall semester during course registration week. Also, students must have completed at least 6 courses worth 18 credit hours at the University of Miami.
The department offers a variety of study abroad options with credit toward the major or minor.

Total Credit Hours 15

1 Courses for minors should be selected in consultation with a departmental advisor. These credit hours may include history courses taken for general distribution requirements, and must include at least 9 credit hours at the 300 level or above.

* A grade of C- or above in each course and a cumulative GPA of at least 2.0 are required in all history courses.
International Studies
http://www.as.miami.edu/international-studies
Dept. Code: INS

Introduction
The International Studies major provides a focused educational experience aimed at familiarizing students with the key structural features and dynamics of the international system and preparing them to enter the growing international job market. Processes of globalization, in part driven by global capital flows, expanding trade and the unrelenting development of communication and information technologies, have affected virtually everyone in every country, often in ways we are just beginning to understand. These developments often pose serious problems for government and other societal institutions, while also creating a demand for individuals who understand international processes. Jobs in virtually all sectors have acquired a decidedly international dimension, whether in trade, tourism, finance, public policy, government, or education. INS Graduates have moved on to the corporate world, the public sector, started their own businesses, or have continued their studies at the graduate level (i.e. Law, Business, and International Studies).

Educational Objectives
International Studies seeks to provide students with the ability to understand:

- International politics within the context of interstate relations and foreign policy.
- International economics and its sub-discipline international political economy, including such issues as trade and production, money and finance, and development.
- Social science research methods including qualitative, quantitative, comparative case study and formal modeling.

Students are encouraged to explore interdisciplinary options that further their understanding of international studies. This type of coursework can be taken in other disciplines offered at the university or taken outside the institution, either through exchange programs or other inter-institutional options provided by UM. Students will demonstrate the ability to synthesize the various thematic areas of the discipline through required participation in advanced seminars. Seminars will stress analytical participation, oral presentations and the ability to interpret and critique core theoretical readings.

Degree Programs
International Studies provides both a major and minor option for students. The flexibility of the program often allows students to double major without the need to extend their university studies. Students are encouraged to speak with the International Studies advisor to explore such possibilities. The major in International Studies leads to the degree of Bachelor of Arts.

Advanced Writing & Communication Requirements
Details of the Advanced Writing and Communication Proficiency:
Degree candidates must complete at least four writing courses, and at least one writing course must be in one of the student’s major disciplines (not applicable to BLA students who do not select a major). Students should consult the bulletin section of their major to find out which writing-intensive courses are acceptable to the discipline.

Individual writing course offerings may make the writing component independent of the rest of the course. As such the writing component might be optional, the writing component might not contribute to the overall grade, and writing credit might be awarded even if the overall grade is a fail.

Transfer students may use a maximum of two courses towards the writing requirement.

Departmental Honors
The Department of International Studies encourages its majors to intensify and deepen their knowledge of the field through its departmental honors program. The program is designed to give students the opportunity to explore various topics and problems in international studies that are of particular interest to them, to work more closely with departmental faculty, to develop skills in research and thesis preparation, and in some cases to prepare for graduate work in international studies and related fields.

Minimal requirements for the program are as follows:

1. a cumulative grade point average of at least 3.30;
2. a cumulative grade point average in international studies of at least 3.50; and
3. a thesis that is approved, with a grade of at least B+, by a member of the departmental faculty.

After reaching agreement with a member of the faculty who will serve as the honors thesis advisor, students writing a senior honors thesis will enroll in INS 418 and INS 419, Honors Thesis, for a total of six credit hours [the credit hours may be spread over two semesters or taken in a single semester]. The thesis itself is expected to be an extended, coherent work of scholarship on an issue of relevance in the field of international studies.

Major in International Studies
• B.A. in International Studies (p. 136)

Minor in International Studies
• International Studies (p. 138)

INS Electives and Interdisciplinary Options
Select six credit hours of electives at the 300 level or above.

Additional Required Courses
ENG 105 English Composition I 3
ENG 106 English Composition II 3
MTH 113 Finite Mathematics 3
UMX 100 The University Of Miami Experience 0
Arts and Humanities Cognate 3
STEM Cognate 9
Language Requirement 3-9
Minor Requirement 15
General Electives 33
Total Credit Hours 120

1. These courses must be completed before taking the Thematic Core courses.
2. Additional classes will be counted toward the elective portion of the INS major, if taken. Other courses, including classes in other disciplines, may be taken with the approval of the INS Advisor.
3. With the approval of the INS Advisor, students may take courses from other departments outside of INS such as Geography and Regional Studies, History, Anthropology, Sociology, Political Science, Economics, Religion, Art History, Foreign Languages, Environmental Science, et cetera. Appropriate study abroad courses, an approved internship (INS 519), or an honors thesis (INS 418 & INS 419) may also be used to fulfill elective credit hour requirements.

Important Advising Notes for all International Studies Majors

1. Double Counting: Of the combined courses in the INS Electives, no more than 6 credit hours may count double towards a second major. A student may not count any course used to fulfill the requirements of the INS major toward a minor requirement.

2. Study Abroad: Students are strongly encouraged to study abroad for a summer, a semester, or an entire year, depending on the program. Study abroad at carefully selected institutions will complement the student’s curriculum and area of specialization, will enhance fluency in the foreign language, and will result in heightened affinity for a foreign culture. The study abroad experience need not result in credit hour overloads or extended time spent in the program.

3. Internship Credit Hour: Students are encouraged to find a suitable internship during their undergraduate career. Upon approval by an advisor in the International Studies Undergraduate Program Office, 3 credit hours may be earned with an internship (INS 519), either toward the major or as elective credit hours (depending on the relevance of the particular internship to the INS major). The University’s Toppel Career Planning and Placement Center regularly advertises internships.

4. Academic Standing: Only courses in which a grade of C- or better is attained, may be counted towards the International Studies major and students must maintain a GPA of 2.75 or better in all major requirements (30 credit hours).

#### Judaic Studies

http://www.as.miami.edu/judaic

**Dept. Code: JUS**

**Introduction**

The George Feldenkreis Program in Judaic Studies is a broad, flexible, interdisciplinary program designed for undergraduates to gain an understanding of Jewish civilization and its diverse cultural experiences. The program, which is non-theological in orientation, is an academic exploration of the multi-faceted, socio-historical, 4,000-year record of the Jewish people. Courses taught by, and combined with the program highlight the variety of cultural, political, social, and religious experiences of Jews in different times and places.

**Educational Objectives**

The program is structured to provide an in-depth liberal arts education that will constitute a foundation for advanced academic study, professional careers in a variety of fields, and a more complex and rich understanding of the Jewish world. There are a total of 5 Judaic Studies Cognates. Judaic Studies cognates meet the requirements for People & Society and Arts & Humanities Cognates in the College of Arts and Sciences.

**Advanced Writing and Communication Requirement**

Students majoring in Judaic Studies satisfy the college of Arts and Sciences “Writing requirement in the discipline” when they take any course in Jewish or Israeli literature offered by the Department of English and any Judaic Studies course with the Writing Credit designation.

**Major in Judaic Studies**

- B.A. in the George Feldenkreis Program in Judaic Studies (p. 138)

**Minor in Judaic Studies**

- The George Feldenkreis Program in Judaic Studies (p. 139)

1. Courses will be designated appropriately by the Program Director each semester.
2. Can be used simultaneously to fulfill the College of Arts and Sciences Language requirement.
3. 9 credit hours of which must be completed at the 300-level or higher. Students who complete HEB 201 need only complete 6 credit hours at the 300-level or higher.
4. A major or minor in Judaic Studies Fulfills the Cognate requirement for Arts and Humanities or People and Society.
* Honors in Judaic Studies consist of the above plus an Honors Thesis and one additional elective at the 300 level or higher.
** A grade of “C-” or better must be attained in each course taken for the JUS major with an overall GPA of 2.0.

Any course in Jewish or Israeli Literature offered by the English Department:
Students should leave the program with the following:

- Americans, Caribbeans and their descendants in the United States.
- and Lusophone Americas, including the transnational study of Latin
- an interdisciplinary framework. This program also places special
- economics, and natural and social sciences of the regions within
- and disseminate knowledge of the history, literature, culture, politics,

The goal of the BA in Latin American Studies is to acquire, advance
Educational Objectives
\[ \frac{\text{Degree Programs}}{\text{Departmental Honors}} \]

Latin American Studies
http://www.as.miami.edu/las

Dept. Code: LAS

Introduction
Latin American Studies offers an interdisciplinary approach to learning about the politics, economics, cultures, and societies of Latin America and the Caribbean. Undergraduate courses are offered in Africana Studies, American Studies, Anthropology, Architecture, Art and Art History, Biology, Communication, Economics, Geography, History, Journalism, International Studies, Marketing, English, Modern Languages and Literatures, Music, Musicology, Political Science, Religious Studies, Sociology, and Women's and Gender Studies. The major in Latin American Studies is designed for the student who wants to acquire background knowledge about the area or who is interested in some aspect of Latin American and Caribbean affairs, such as government, law, business, research, journalism, education or public health. Students are encouraged to spend at least one semester abroad on a program with a Latin American and/or Caribbean Studies component (see Office of International Education and Exchange Programs (p. 529))

Educational Objectives
The goal of the BA in Latin American Studies is to acquire, advance and disseminate knowledge of the history, literature, culture, politics, economics, and natural and social sciences of the regions within an interdisciplinary framework. This program also places special emphasis on the languages and cultures of Hispanophone, Francophone and Lusophone Americas, including the transnational study of Latin Americans, Caribbeans and their descendants in the United States. Students should leave the program with the following:

- the analytical and methodological tools needed to conduct interdisciplinary research;
- the ability to read, write and think critically about primary and secondary sources;
- a general knowledge of the different regions that comprise Latin America, the Caribbean and their Diaspora as well as a critical understanding that the geographic, political, and cultural boundaries that have traditionally defined the “area” as an object of study are not isomorphic and are connected to the interests of European and North American powers;
- a critical understanding of the competing ways in which Latin American and Caribbean peoples have represented themselves paying particular attention to race/ethnicity, class, gender and sexuality, language, religion, migration, transculturation, and other historical, social, economic, and political factors;
- a language competency in either French, Spanish, Portuguese, or Haitian Creole at an intermediate level and a beginning competency in a second language spoken in the region (either French, Spanish, Portuguese, Haitian Creole indigenous language of Latin America and the Caribbean);
- a “Beyond the Books” experience that will bridge the gap between the university and the surrounding communities, and will help solidify a long-term interest in and commitment to the regions.

Degree Programs
- Bachelor of Arts

Departmental Honors
The Latin American Studies Program invites its undergraduate majors and minors to apply for departmental honors and expand their knowledge of Latin America and the Caribbean. Admission into the departmental honors program is by invitation, but any student who believes she or himself qualified may apply to the academic director of Latin American Studies, preferably during the sophomore or early junior year. Candidates for departmental honors work closely with one faculty member for two semesters to engage in original research in an area of her/his choice. Candidates for departmental honors are responsible for finding a faculty member who is willing to serve as honors thesis advisor and obtain written approval of the Academic Director. The faculty member with whom the student works will help determine the nature of the independent research project. Candidates must complete a thesis with a grade of at least a B+, which must be approved by the thesis advisor and present the work at the LAS Annual Student Symposium or another similar event showcasing undergraduate research at the university.

Advanced Writing and Communication Requirement
To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Latin American Studies should take at least one course with a "W" designation. These courses include (please refer to CaneLink or the LAS Course Booklet for details on courses that fulfill the writing requirement, as offerings change every semester):

#### Additional Requirements

- UMX 100 The University Of Miami Experience 0  
- ENG 105 English Composition I 3  
- ENG 106 English Composition II 3  
- MTH 113 Finite Mathematics 3  
- POL 203 Introduction to International Relations 3  
- ECO 211 Economic Principles and Problems 3  
- Arts and Humanities Cognate Courses 9  
- Electives 24  
- Minor Courses 15  
- Stem Cognate Courses 12  
- LAS Language Courses 9  
- Total Credit Hours 120

* 12 credit hours of which must be completed at the 300-level or higher. Courses that are not combined with LAS but do have a significant focus on Latin America may be taken with the approval of the academic director. A freshman seminar with a significant focus (25% or more) on Latin America or the Caribbean may be counted towards this requirement. SPA 203 and FRE 203 may be counted towards this requirement if not used to satisfy the aforementioned language requirements.

* A C- or better for all major courses, with a GPA of 2.0 are required for successful completion of the LAS Major.

**FILAS Specific Requirements**

Select seven courses in Study Abroad 21
Select one course as Internship in Latin America 3
Select five courses above the 300-level (third-year) in a range of disciplines 15
Select ten courses in one focus track 30

MA Phase Requirements

GRE Exam in Semester 7 or 8
LAS 601 Interdisciplinary In Latin American And Caribbean Studies 3
LAS 602 Research Design in Latin American Studies 3
Select two Regional Fundamentals courses 6
Select four electives from approved LAS or combined courses 12
LAS 810 Pre-candidacy thesis credits (students must enroll in two semesters of this 3-credit course to fulfill this requirement.) 3
LAS 810 Pre-candidacy thesis credits 3
Total Credit Hours 150

1 Certain AP/IB scores may be used to fulfill the Composition requirement as credit. If Transfer students transfer one of the two above, but not both, they may take ENG 208 to complete the requirement. ENG 105 must be taken unless exempted by SAT/V or ACT/V scores (does not include credits).
2 MTH 108 or higher. Unless exempted by AP/IB, or UM placement test. UM placement test does not include credits. Prerequisites must be met before enrolling in MTH courses.
3 Students must take at least three credits in a language other than English at the 200-level or higher. Prerequisites may be required.
Courses taken in order to meet this requirement, including necessary prerequisite courses to the 200 level courses, cannot be used in cognates seen below. FILAS students already fulfill this requirement when completing the language requirements cited below.
4 Degree candidates must complete at least four writing courses, and at least one such course must be in the student’s major discipline.
5 Typically, students must complete a minimum of three cognates, one from each of the three areas of the University curriculum: Arts & Humanities; People & Society; and Science, Technology, Engineering & Mathematics. A cognate is a minimum of 9 credit hours, however it can be more. Each major/Minor fulfills the cognate requirement in one Area of Knowledge. However, FILAS students must complete only the STEM Cognate as the FILAS program fulfills the Arts & Humanities and People & Society cognates. To avoid additional course credits, please select a STEM Cognate that includes a Natural Science course to concurrently fulfill this CAS general education requirement. According to the Collage of Arts & Sciences, “three credits must be earned from one of the following departments: Biology, Chemistry, Ecosystem Science & Policy (only ECS 111, 112, or 202), Geological Sciences, Marine Science (except MSC 313 and 314), Physical Science, or Physics. APY 203 and GEG 120 may also count. These credits may double count with any other requirement, e.g., courses in the STEM cognate.”

FILAS students also write a Master’s Thesis based on an original research project. In addition, they must defend the thesis and present their findings at the LAS Annual Student Symposium.

FILAS Admission Requirements

• SAT1 composite score of 1360 or ACT 31.
• Top 10% of high school graduating class.
• Regular Application for Admission to the University of Miami. We recommend students submit their applications by November 15.
• Recommendations from three high school teachers.
• Statement of interest in FILAS, emphasizing prior language or area study
• To continue through the graduate level (MA Phase), students must maintain at least a 3.4 GPA and take the GRE Exam.

Suggested Plan of Study for the BA

UBuenos Aires

Students enrolled in the UBuenos Aires study abroad program who are interested in completing an LAS minor must enroll in the following courses at Universidad de Belgrano:

- History of Latin America or Estudios Culturales Latinoamericanos (either one must fulfill the UM equivalency for LAS101)
- One Spanish language course or, for students at the advanced level in Spanish, one course taught in Spanish not to include PEAL262 or PEAL302
- Three additional courses from those listed in the Available Courses List (https://goabroad.mi.)

Students wanting to apply these classes towards an LAS major should consult with the academic director of Latin American Studies for further guidance.

Mathematics

http://www.math.miami.edu

Dept. Code: MTH

Educational Objectives

The aim of our mathematics degree programs is to provide students with a core knowledge of mathematics essential to the understanding of science and other disciplines. Students should gain substantial problem solving and critical reasoning skills and should develop an understanding of the conceptual underpinnings of mathematics. The knowledge gained through these programs should provide the necessary background in mathematics for those students planning to go on to graduate study in mathematics and related fields. This knowledge should also prepare those students who will be immediately entering careers in science, business, education or other fields which are increasingly making use of mathematics.

Degree Programs

- Bachelor of Arts and Bachelor of Science

Major

The requirements for a major in mathematics (p. 144) vary according to the objectives of the student. There are seven courses required of all mathematics majors.

An additional four courses are required, selected from one of the following track options:

- Core Mathematics
- Applied Analysis
- Computational Mathematics
- Probability and Statistics
- Secondary School Teaching
- Mathematical Economics

Writing Requirement within the Discipline

In order to satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in mathematics must obtain writing credit in exactly one of the following courses: MTH 433, MTH 461, MTH 502, MTH 504, MTH 520, MTH 533, MTH 561.

Minor

A student seeking a minor in mathematics (p. 147) must have credit for a calculus sequence: MTH 161-MTH 162 or MTH 171-MTH 172.

In addition, a minor in mathematics requires three courses from a list of approved courses for the minor. (p. 147) All three courses must be taken in the Department of Mathematics, University of Miami. A grade of C- or better is required for each of the three courses applied toward the minor and the quality point average for the three courses must be 2.5 or above.

Departmental Honors

Requirements for Departmental Honors in Mathematics (p. 144):

The student must complete three sequences from a list of approved two-course sequences. The student must attain at least a B in each course used to fulfill this requirement. In addition, the student must attain at least a 3.5 average over all courses counted toward the mathematics major and an overall (university-wide) average of at least 3.3.

B.A. or B.S. in Mathematics (p. 144) Minor in Mathematics (p. 147)

B.A. or B.S. in Mathematics

www.math.miami.edu

The requirements of a major in mathematics vary according to the objectives of the student. There are seven courses required of all mathematics majors. An additional four courses are required selected from one of six track options:

</tbody>
</table>

Track Options

Select four courses from one of the following Tracks: 12

Core Mathematics Track:

Select four of the following:

- MTH 510 Linear Algebra
- MTH 512 Elementary Complex Analysis
- MTH 531 Topology I
- MTH 532 Topology II
MTH 534  Introduction to Real Analysis II  
MTH 551  Introduction to Differential Geometry  
MTH 562  Abstract Algebra II  

**Applied Analysis Track:**  
MTH 311  Introduction to Ordinary Differential Equations  
MTH 512  Elementary Complex Analysis  
Select one of the following:  
MTH 513  Partial Differential Equations I  
& MTH 514  and Partial Differential Equations II  
MTH 515  Ordinary Differential Equations  
& MTH 516  and Dynamics and Bifurcations  

**Computational Mathematics Track:**  
MTH 320  Introduction to Numerical Analysis  
CSC 317  Data Structures And Algorithm Analysis  
MTH 520  Numerical Linear Algebra  
& MTH 521  and Numerical Methods In Differential Equations  

**Probability and Statistics Track:**  
MTH 224  Introduction to Probability and Statistics  
MTH 524  Introduction to Probability  
& MTH 525  and Introduction to Mathematical Statistics  
MTH 542  Statistical Analysis  

**Secondary School Teaching Track:**  
MTH 224  Introduction to Probability and Statistics  
MTH 309  Discrete Mathematics I  
Select two of the following:  
MTH 502  History of Mathematics  
MTH 504  Foundations of Geometry  
MTH 505  Theory of Numbers  

**Mathematical Economics Track:**  
MTH 524  Introduction to Probability  
& MTH 525  and Introduction to Mathematical Statistics  
ECO 512  Mathematical Economics (II)  
Select one of the following:  
ECO 520  Econometrics  
ECO 521  Graduate Macroeconomic Theory  
ECO 533  Advanced Microeconomic Theory  

**Other Requirements**  
- English Composition 6  
- Second Language 3-9  
- Arts & Humanities Cognate 9  
- People & Society Cognate 9  
- Electives 58  

Total Credit Hours: 120-126  

---  

**Elective courses are to be taken to reach the minimum of 120 credits required for graduation. So, the number of credits needed from elective courses could be less than 58.**  

**Notes**  
- It would be useful for students planning to do graduate study in mathematics to complete the following courses: MTH 531, MTH 532, MTH 533, MTH 534, MTH 561, MTH 562.  
- Students interested in **actuarial science** should choose the Probability and Statistics option; for these students a finance minor is recommended.  
- Transfer students will be permitted to apply up to 14 transfer credit hours towards the major; however, the courses MTH 461 (or MTH 533) and MTH 433 (or MTH 533) must be completed at the University of Miami.  
- A grade of C- or better is required for each course applied toward the major; the overall quality point average for University of Miami courses applied toward the major must be 2.5 or above.

**Requirements for Departmental Honors in Mathematics:**  
Select three of the following sequences  

<table>
<thead>
<tr>
<th>Sequence</th>

Total Credit Hours 9

* A student seeking a minor in mathematics must have credit in a calculus sequence: MTH 161-MTH 162 or MTH 171-MTH 172.

** All three courses must be taken in the Department of Mathematics, University of Miami.

*** It is possible to select certain 500 level mathematics courses among the three, with prior approval of the Mathematics Department.

**** A grade of C- or better is required for each of these three courses and the quality point average for the three courses must be 2.5 or above.

**Microbiology and Immunology**

http://www.as.miami.edu/mic/

Dept. Code: MIC

**Introduction**

Microbiology and Immunology is an ancillary department in the College of Arts and Sciences. Our primary goal is to educate students in their chosen field and instill into them a desire for lifelong learning. Research opportunities and laboratory engagement help create knowledge in our students while preparing them to become active members of the scientific and public communities. A major in Microbiology and Immunology requires thorough preparation in chemistry, biology, biochemistry, physics, and mathematics.

**Educational Objectives**

1. To expose students to the various disciplines within the field of Microbiology and Immunology, including virology, parasitology, microbial genetics, immunology and medical bacteriology.
2. To introduce students to special projects and/or research opportunities in laboratories at the School of Medicine.
3. To provide laboratory experience for the development of skills required for the conduct of research.

4. To make students aware of current cutting edge research in the field of Microbiology and Immunology by attending seminars of speakers from within and outside the University.

**Degree Programs**

- A Bachelor’s of Science degree is awarded to all microbiology and immunology majors upon completion of the requirements. A chemistry minor is automatically received however, a student’s choice of minor may be science or non-science.

**Advanced Writing and Communication**

To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Microbiology and Immunology should take at least one course from the following: MIC 301, MIC 304.

**Departmental Honors**

Students that wish to gain a deeper understanding of Microbiology and Immunology can choose to write a thesis. The following program constitutes receiving Departmental Honors in Microbiology and Immunology.

1. Overall GPA 3.3 or higher
2. Six credit hours of Special Projects (MIC 451, MIC 452, MIC 453, MIC 454, MIC 455 or MIC 456) carried out under supervision of a member of the Microbiology and Immunology faculty, culminating in a senior thesis that includes 15 references. Once the mentor and student have revised and finalized the document a hard copy must be turned in to the Program Director.

**Major in Microbiology and Immunology (Pre-Med and Graduate)**

MCAT (https://students-residents.aamc.org/applying-medical-school/taking-mcat-exam) or GRE (http://www.ets.org/gre/revised_general/register)

- B.S. in Microbiology and Immunology (Pre-Medical and Graduate) (p. 147)

Double Major in Marine Science/Microbiology and Immunology

- B.S. in Marine Science/Microbiology and Immunology (p. 433)

**Minor in Microbiology and Immunology**

- Microbiology and Immunology (p. 150)

**B.S. in Microbiology and Immunology**

http://www.as.miami.edu/mic/

### Total Credit Hours

| Total Credit Hours | 126-128 |

---

1. Honors students must take both the MIC 301 or MIC 303/MIC 304 and MIC 302.
2. Required of all Microbiology and Immunology majors.
3. MIC 201, MIC 304, MIC 319, MIC 323, GSC 310, BIL 554 Fall Semester only
4. MIC 301, MIC 302, MIC 303, MIC 321, MIC 322, MIC 436 Spring Semester only
5. MIC 441 Fall and Spring Semesters
6. MIC 451, MIC 452, MIC 453, MIC 454, MIC 455, MIC 456 all require that you have already completed 17 credit hours in MIC/MIC electives and a 3.0 cumm GPA with permission of Program Director or Roger Fall and Spring Semester

* All MIC majors are required to have a minor (science or non-science). Students automatically get a CHM minor provided that they take one year of organic chemistry while in residence at UM.

** Transfer students seeking a Microbiology and Immunology major must earn at least 10 credit hours taken in residence at UM beyond MIC 301 in the courses listed above for majors.

### Sample Plan of Study

This is a 4 year sample plan of study that assumes courses are taken during the fall and spring.
This is a guide and is not meant to take the place of the advice of your major advisor, you should consult with them before making any changes.

Students who complete all ROTC requirements may be commissioned to help students succeed in their desired career, whether civilian or military. The Army Reserve Officer Training Corps is a college elective that will provide classroom instruction, leadership laboratory periods, and regular physical training to provide leadership and management training. Classroom instruction consists of two one and a half hour laboratory periods and a one and half hour leadership laboratory period is required every other week. In addition to classroom instruction, a one and a half hour laboratory is required. In addition to classroom instruction, a one and a half hour leadership laboratory period is required every other week.

Total Credit Hours 12

* Variations in the above programs may, in special cases, be approved by the Microbiology and Immunology undergraduate advisor and Director.

** All courses in Microbiology and Immunology to be credited toward MIC if BIL 554 has been taken (cannot be used if MIC 301 is taken).

Core Program

The program requires four years of military science courses which consist of a two-year basic course and a two-year advanced course. Students can begin the four-year program as freshmen or as sophomores.

There is also a two-year ROTC program for those students with only two years of college remaining. The two-year course is designed for junior college and other non-ROTC college transfer students, but may be utilized by students who did not enroll in the basic course outlined below.

Graduate students may also qualify for enrollment in the two-year course. Additional information regarding eligibility requirements for the two-year program may be obtained by contacting the Department of Military Science.

Women are encouraged to enroll and will be commissioned as officers in the United States Army upon completion of the ROTC curriculum. Job opportunities for women officers in the Army are the same as those for men, excluding a few combat arms fields.

Basic Course

The basic course is normally taken as an elective subject by students in their freshman and sophomore years. The purpose of this instruction is to qualify students for entry into the advanced course by familiarizing them with the organization of the Army, military skills, and military tradition. Students do not incur any military obligation as a result of enrolling in a job specialty nor does it emphasize vocational training; rather, it complements and provides a base for normal progression in the commissioned officers’ educational program.

Leadership and management objectives are included in academic periods of instruction. Practical leadership experience is gained in a field training environment by attendance at a 31-day summer camp, normally between the junior and senior years. Nursing students may attend a nursing internship at Army hospitals following the normal summer camp. A leadership laboratory also provides experience in a range of leadership positions during the school year. The department offers both a four-year and a two-year program, each with its own special advantages. Students are invited to visit or write the Department of Military Science to obtain additional information.

Advanced Course

Instruction in the advanced course includes leadership and management, the exercise of command, military teaching methods, tactics, logistics, administration, history, and military justice. Leadership experience and command experience are provided by assigning advanced course students as cadre officers and noncommissioned officers. Participation in regularly scheduled physical training is a required part of the leadership training. Classroom instruction consists of two one and
a quarter hour (75 minutes) periods each week and a two hour (120 minutes) leadership laboratory period every week. Only students who have demonstrated a definite potential for becoming competent officers will be selected for the advanced course.

**Army Nurse Corps Option**

Students enrolled in the School of Nursing curriculum leading to the degree of Bachelor of Science in Nursing may simultaneously qualify for commissions as Second Lieutenants in the Army Nurse Corps. Nursing students qualify for entry into the Officer Development Course through satisfactory completion of the General Military Course, the Basic Camp option or equivalent training. Nursing students participate in a summer Advanced Camp training program and an Army nurse training program. They provide practical and leadership experience in the clinical setting. The focus is to provide nursing cadets an experience which integrates clinical, interpersonal and leadership knowledge and skills. Emphasis is placed on practical experience under the direct supervision of an Army Nurse Corps Officer who acts as the cadet’s preceptor throughout the camp period.

**Professional Military Education**

In addition to basic and advanced ROTC courses, cadets must complete professional military education requirements consisting of one course in each of the following areas: written and oral communication skills, U.S. military history, and computer literacy. Students should consult with the professor of military science to determine those University courses suitable for fulfilling these requirements.

**Monetary Allowances**

Cadets selected for admission into the advanced course qualify for a nontaxable monetary allowance of $450–$500 per month for up to 20 months. Cadets may also qualify for the simultaneous membership program with the United States Army Reserve or National Guard, which can provide approximately $4,800 per semester during the last two years of school. Both the United States Army Reserve and the National Guard offer additional monetary incentives for cadets who join their organizations (drill pay).

**Army ROTC College Scholarship Program**

Financial assistance is available in the form of two- or three-year ROTC academic scholarships for selected students. Under the Army ROTC Scholarship Program, the students/cadets receive FULL Tuition and Fees. Additionally, Army scholarship recipients receive a flat-rate allowance of $1200 per year for textbooks and other expenses and $350–$500 per month stipend for up to 10 months per year. During the 32-day advanced course summer training between the junior and senior years, Army ROTC also pays attending cadets $27 per day plus room and board. There are also numerous national and organizational scholarships that students may compete for as a member of Army ROTC.

Additionally, University of Miami undergraduates enrolled in the Army ROTC program are assured a combined University grant and/or scholarship award during the fall and spring semesters equal to 25% of the University’s tuition charge for a maximum of four years. The subsidy is not available during the summer term. Students must maintain continuous enrollment in the Army ROTC program, must maintain satisfactory academic progress to continue receiving the subsidy, and full time enrollment in one of the University’s undergraduate degree programs is required. No application is required. Awards are made automatically based on information provided by the University’s Army ROTC detachment.

**Uniforms and Textbooks**

All uniforms and items of insignia incident to membership in the Army ROTC Program are furnished by the Department of Military Science. Textbooks are provided at no cost to students/cadets enrolled in the basic course.

**Special Activities**

Cadets have the opportunity to join and participate in a number of military affiliated organizations and activities, both on a voluntary and a selective basis. The Color Guard is a voluntary organization that functions as a military unit participating in military ceremonies and presenting the national colors at civic events. Cadets have the opportunity to qualify for and compete with cadets from other universities and colleges in a series of military events termed Ranger Challenge.

**Awards and Decorations**

Awards and decorations made available by national organizations, the University of Miami Army ROTC Alumni Association, and local and national military organizations, are presented to both basic and advanced officer course cadets each year. These plaques, trophies, medals, and ribbons symbolize superior achievement in Army ROTC and other University academic courses, and in outstanding campus and cadet corps leadership.

**Prerequisite for Admission to the Professional Officer Course**

1. Be at least 17 years of age at time of acceptance.
2. Be able to complete the professional officer course and graduate from the University of Miami prior to reaching the age of thirty (30) at the time of commissioning.
3. Selection by the professor of military science and acceptance by the University of Miami.
4. Execute a written agreement with the government to complete the professional officer course and accept an Army ROTC commission.
5. Enlist in the Army Reserve Component-ROTC (terminated upon receiving an Army officer commission).

Those students enrolled in the four-year Army ROTC program must complete the basic course or its equivalent, or have acceptable prior military service. Veterans and students with previous ROTC training are invited to write, visit, or call the Department of Military Science 305-284-3329 or 305-348-1619 to discuss their eligibility status. Students desiring entry into the two-year Army ROTC program should contact the Department of Military Science one semester prior to the semester in which they wish to enroll in the professional officer course. This lead time is required to complete the application and a physical examination prior to enrollment in the professional officer course.

**Leadership Laboratory**

Leadership laboratory is open to students who are members of the Reserve Officer Training Corps or who are eligible to pursue a commission as determined by the professor of military science. Leadership laboratory is the formalized phase of leadership training conducted by the cadets. It is scheduled for two (120 minutes) hours every week for both the basic and advanced officer courses (non-
contracted and contracted). All uniforms and equipment required for cadet activities are furnished.

Educational Objectives

To provide a base of knowledge in the areas of ethics, leadership, Communication skills, Military Leadership, U.S. Military History, Tactics and Team building to include future Officer development.

Degree Programs

Students can receive degrees from the university in addition to being in the Army ROTC program, as well as being eligible (once requirements are met) to receive a minor in Military Science.

Modern Languages and Literatures

http://www.as.miami.edu/mll

Dept. Code: MLL

Introduction

The study of languages and cultures is an integral part of a modern, global university education. At the University of Miami, students can choose courses in Arabic, Chinese, French, German, Haitian Creole, Hebrew, Italian, Japanese, Portuguese, and Spanish. All majors (French, German, Spanish), minors (Arabic Studies, Italian, Portuguese), and language programs (Chinese, Hebrew, Japanese) in the department are articulated through the notion of Global Literacy. Global literacy is the ability to participate in sociocultural practices by both interacting with others in different languages and by creating, presenting, and interpreting ideas through oral and written texts in more than one language. Consequently, global literacy involves awareness about oral and written texts, their conventions and genres, and their social, historical, political, and artistic uses. It entails linguistic proficiency in more than one language. You cannot be global if you only live in one language. Global Literacy includes written and oral communication, critical thinking and social responsibility, and appreciation of cultural artifacts, artistic products, and new technologies in more than one language.

Global Literacy and multilingualism foster success in business, economics, education, law, medicine, natural sciences, politics, social sciences, arts, and humanities. Language study most effectively enriches academic as well as personal experiences when students choose a language based on its relevance to possible careers, to research in particular fields, to personal heritage, or to the understanding of unfamiliar cultures. Students combine advanced modern language study with majors in other fields, such as International Studies, Communications, History, Political Science (and other pre-law fields), Biology (and other pre-med fields), Nursing, English, Finance, Latin American Studies, Anthropology, Psychology, Computer Science, Sociology, and Philosophy.

The Department has Undergraduate Advisors for each language (http://www.as.miami.edu/mll/undergraduate/advising). You are encouraged to consult with them for placement, and must consult with them if you plan to major, minor, or study abroad (contact the Department office for names and office hours). If you plan to double major, you must have an advisor from each of your fields.

Students may qualify for a wide range of departmental awards (http://www.as.miami.edu/mll/undergraduate/student-awards) for excellence in linguistic and literary achievement. The Modern Languages and Literatures Awards Reception takes place annually during graduation week. Some awards are conferred through nomination by professors; others require an application. Students may obtain information on specific awards in the Department office. The annual deadline for applications is usually in early March.

Placement Guideline for MLL Courses

Most students studying a second language can determine their appropriate level by adhering to the following guidelines. However, various factors (i.e., the strength of the program in which the student previously studied the language, how long it has been since the student has used the language, the extent of the student’s exposure to the language at home/in social settings; the student’s knowledge of other languages, etc.) make it such that these are only guidelines and individual cases may differ. For this reason, on the first day of class of each course section, the instructor conducts a diagnostic evaluation of students’ abilities. The instructor will then inform students whether that course is indeed the level or track that will benefit him/her the most or, if not, which course he/she must take. For this reason, it is extremely important that students attend their language class on the first day of class for the semester.

Students who wish to study Spanish (as a second language, native language, or heritage language) can get more tailored placement advice through our on-line placement advisor (http://www.as.miami.edu/labs/resources/placement).

The following are MLL’s general placement guidelines (http://www.as.miami.edu/mll/undergraduate/placement-guidelines):

- If you have not studied Arabic, Chinese, French, German, Hebrew, Italian, Japanese, or Spanish in high school, or have completed one to two years of high school instruction, take 101; for Portuguese, take 105.
- If you have taken 101 or its equivalent at another institution, take 102.
- If you have completed three years of high school instruction in French or Spanish, or scored a 3 on the AP language exam take 105. If you have had three years of high school Arabic, Chinese, German, Hebrew, Italian, or Japanese, take 102.
- If you have taken four years of high school French or Spanish, scored a 4 on the AP exam or a 4 on the IB exam in French or Spanish, or took the equivalent of 102 or 105 at another university, take 201. If you have taken four years of high school German, Italian or Portuguese, take 201. If you have taken four years of Arabic, Chinese, Hebrew, or Japanese, take 201.
- If you had five to six years of high school French, German, Italian, or Spanish, take 202.
- If you have taken the equivalent of 201 at another university, or scored a 5 on the AP exam, you have completed your language requirement. If you wish to continue your studies, take 202.
- If you took the equivalent of 202 in French or Spanish at another university or scored a 4 on the AP literature exam, you have completed your language requirement. If you wish to continue your studies, take 203. If you took the equivalent of 202 in German, Italian or Portuguese at another university, you have completed your language requirement. If you wish to continue your studies, take 301.
- If you scored a 5 on the AP literature exam in French, Italian or Spanish, you have completed your language requirement. If you wish to continue your studies, take 301.
The Department offers courses open to native speakers of French, German, Italian, Portuguese, and Spanish. Native speakers may not enroll in 101, 102, 105, 201, 202, 203, or 301 in their language. If you are a native speaker of French, German, Italian, or Portuguese, and graduated from a high school where that was the official language of instruction, you may take any course above 301 (consult with the respective Undergraduate Advisor). If you are a native speaker of Spanish and graduated from a high school where that was the official language of instruction, your first SPA course at UM must be either SPA 302 or SPA 303 or SPA 307 (which is a prerequisite for most other SPA courses).

The Department of Modern Languages & Literatures identifies as heritage learners of Spanish those students who begin their university studies of the language with little or no prior instruction in Spanish but who, because of family background or social experience, can already understand much casual spoken Spanish and have a passive knowledge of the language (though they may not usually speak the language themselves). In the great majority of cases, they have been born and fully educated in the United States, and may have grown up speaking Spanish because of family background or social experience. Heritage learners may or may not consider themselves as “bilinguals” or “native speakers”, since both of these terms carry very different connotations—linguistic, social, and psychological—for different individuals. Some state that they “do not really speak Spanish” even though they are able to comprehend much spoken language (i.e., they are “passive bilinguals”). In the great majority of cases, they self-identify as “Hispanic” or “Latino/a”.

HERITAGE LEARNERS OF SPANISH MUST BE PLACED IN ONE OF THE FOLLOWING FOUR COURSES:

1. **SPA 107 Basic Spanish for Heritage Learners** is for those students with little or no prior instruction in Spanish who, because of family background or social experience, can understand casual spoken Spanish and have a passive knowledge of the language although they do not usually speak the language themselves. Generally, their abilities to read and write Spanish are very weak. **CLOSED TO STUDENTS WHO GRADUATED HIGH SCHOOL IN A SPANISH-SPEAKING COUNTRY.**

2. **SPA 207 Intermediate Spanish for Heritage Learners** is for those students **WHO HAVE ALREADY TAKEN AND PASSED SPA 107** or who have studied Spanish for AT LEAST TWO YEARS IN HIGH SCHOOL. They can understand casual spoken Spanish and have some functional ability in speaking, reading and writing the language. **CLOSED TO STUDENTS WHO GRADUATED HIGH SCHOOL IN A SPANISH-SPEAKING COUNTRY.**

3. **SPA 208 Advanced Spanish for Heritage Learners** is for those students who have studied Spanish for four years in high school and who have developed functional abilities in speaking, reading and writing the language. Students who earned a score of 5 on the AP Spanish Language Exam should register for this course. **CLOSED TO STUDENTS WHO GRADUATED HIGH SCHOOL IN A SPANISH-SPEAKING COUNTRY.**

4. **SPA 307 Introduction to Literary Studies for Native/Heritage Speakers** is intended for those students who have completed secondary and/or university studies in a Spanish-speaking country and for those heritage learners who demonstrate an advanced level of productive competence (in the written and spoken modes) in Spanish because of prior formal study of the language. Many heritage learners who place directly into 343 have taken AP Spanish literature in high school and earned a score of 4 or 5.

**Arts and Sciences Language Requirement**

The College of Arts and Sciences requires all B.A. and B.S. degree students to show competency in a language other than English by successfully completing an approved college language course at the 200-level or higher. Students wishing to fulfill the language requirement in a language not taught at UM, may request an equivalency evaluation for a course at the appropriate level offered at an accredited institution, complete the approved equivalent course, and transfer the credits. Students requesting such an equivalency evaluation must submit appropriate documentation to the MLL department for approval. For a native speaker of the language in question, a course that transfers at UM’s 300-level will fulfill the language requirement. For a second language learner of the language in question, a course that transfers at UM’s 200-level will fulfill the language requirement.

**Writing Credits: Writing Across the Curriculum**

All of the Department’s 300- and 500-level courses and some 400-level courses offer writing credit. NOTE: Courses may simultaneously fulfill General Education requirements and Writing Credit, or the Foreign Language Requirement and Writing Credit.

**Cognates**

Most of the Department’s courses are part of cognates in one of two Areas of Knowledge: Arts & Humanities, and People & Society. A course cannot simultaneously complete a cognate in an Area of Knowledge and the College of Arts & Sciences’ Foreign Language Requirement.

**Degree Programs**

Students pursuing a single major in Arts and Sciences earn a BA.

**Majors**

The Department offers majors in French, German, and Spanish. Students majoring in any of these three languages must earn 24 credit hours in courses above 202 (30 credit hours for Departmental Honors).

**Minors**

The Department offers minors in Arabic Studies, French, German, Italian, Portuguese, Spanish, and Modern Languages. You do not have to be a student of the College of Arts and Sciences to minor in a modern language; you need only the approval of your college or school advisor and to complete the departmental requirements. If you wish to complete a double degree, consult with an Arts and Sciences Advisor.

**Study Abroad**

Students completing a major or a minor in a modern language are encouraged to study abroad. The Department offers faculty-led summer study abroad programs in Spain and Japan. The International Education and Exchange Program (IEEP in Rhodes House, room 37F) sponsors programs for Chinese, French, German, Italian, Japanese, Portuguese, and Spanish. It is also possible to fulfill some Arts and Sciences distribution requirements abroad. In order to take full advantage of study abroad,
students should visit IEEP early in their university careers, discuss course equivalencies with the Study Abroad Advisor for their chosen languages (contact the Department office for names and office hours), and consult with their major advisors. Credit hour toward the major for courses taken abroad will be determined on an individual basis.

**Departmental Honors**

Departmental Honors in Modern Languages are possible in the three languages for which the major is offered: French, German and Spanish. In order to request admission to Departmental Honors, candidates must have completed at least twelve credit hours at the 300 level or above. They must have a GPA of 3.5 in all their major courses and a 3.5 overall average GPA. Both GPAs must be maintained in order to graduate with Departmental Honors.

During their junior year, candidates for honors will identify an honors thesis supervisor and a second reader and request admission to Departmental Honors. Admission to candidacy must also be approved by the Director of Undergraduate Studies for the appropriate language.

In addition to fulfilling the regular major requirements, students must register in their Senior year for FRE or GER or SPA 594-595, Senior Honors Thesis. This is a two-semester, six credit hour sequence: 594 for research and 595 for the actual writing of the honors thesis.

The honors thesis advisor and the second reader will determine whether the finished thesis merits Departmental Honors.

**Majors in Modern Languages and Literatures**

- B.A. in French (p. 154)
- B.A. in German (p. 157)
- B.A. in Spanish (p. 159)

**Minors in Modern Languages and Literatures**

- Arabic Studies (p. 163)
- French, German, Italian, Portuguese, or Spanish (p. 163)
- Modern Languages (p. 163)

**B.A. in French**

**Goals of the Major**

A major in French consists of at least 24 credit hours beyond FRE 202 with a grade of C- or higher in every course counting toward the major, and with a cumulative GPA of at least 2.5 in the major (see curriculum for course distribution). The major is designed to allow students to gain advanced linguistic, cultural, and literary competence in the communities that speak this language. With each course students further develop the capacity to communicate with and to critically see and understand the linguistic communities being studied. Not only do students learn to understand, interpret, and analyze communication patterns and cultural products (new technologies, film, literature, etc.) from other geopolitical positions, but this process also fosters a greater appreciation of the learners’ own language, culture, and society. As part of the development of analytical and critical skills, students learn to build coherent arguments orally and in writing to develop tools for the interpretation of various texts to perform research and write critical papers to find and evaluate sources of information to heighten their sensitivity to the contexts of language, and to appreciate language as art. Students will also acquire a broad, structured knowledge of the relevant history, literature and culture in the target language. Finally, they will learn to carry out cultural comparisons and to view their own culture with new eyes.

You do not have to be a student of the College of Arts and Sciences to major in a modern language; you need only the approval of your college or school advisor and to complete the departmental requirements. If you wish to complete a double degree, consult with an Arts and Sciences Advisor.

Students completing a major in a modern language are encouraged to study abroad. The International Education and Exchange Program (IEEP in Rhodes House, room 37F) sponsors programs for Chinese, French, German, Italian, Japanese, Portuguese, and Spanish. It is also possible to fulfill some Arts and Sciences distribution requirements abroad. In order to take full advantage of study abroad, students should visit IEEP early in their university careers, discuss course equivalencies with the Study Abroad Advisor for their chosen languages (contact the Department office for names and office hours), and consult with their major advisors. Credit hour toward the major for courses taken abroad will be determined on an individual basis.

Students with transfer credit hours at the 300-level must take at least 21 graded credit hours at or above the 300-level at the University of Miami; i.e., up to 9 credit hours at the 300- and 400-level may be transferred from another institution or a study abroad program not administered by UM. Up to 12 credit hours taken abroad in a UM-administered program may count towards any of the majors in the Department.

**Capstone Courses**

The final course in the major is the capstone course (501) which must be taken in residence. This course will:

- Integrate the various skills acquired during the course of study (linguistic, analytical, knowledge-based);
- Incorporate interpretive as well as presentational modes of communication;
- Contain an over-arching and cohesive theme;
- Include an element of collaboration among students.

It will constitute a moment of recapitulation of, synthesis, and reflection on a student’s experience in the major as well as a bridge towards graduate-level studies, should s/he decide to pursue them.

Of the 24 credit hours required for the major, a minimum of 12 credit hours must be earned in courses taught by MLL faculty (whether on campus or in faculty-led study-abroad programs). Since we encourage students to study abroad in UM-sponsored programs, up to 12 credit hours from these programs may be applied toward the major. Up to 6 transfer credit hours from other institutions may count toward the major; whether these are credit hours transferred from another U.S. institution or from non-UM study abroad programs, transferred credit hours must be granted UM equivalency in order to be eligible to count toward the major. Please note, however, that the total number of combined UM study-abroad (exclusive of MLL faculty-led programs) and transfer credit hours shall not exceed 12 credit hours.

For example:

- A student may use 3 transfer credit hours with UM equivalency and 9 credit hours from a UM-sponsored study abroad program toward
fulfillment of the major; the remaining 12 credit hours must be earned in courses taught by MLL faculty.

- A student may use 6 transfer credit hours with UM equivalency and 6 credit hours from a UM-sponsored study abroad program toward fulfillment of the major; the remaining 12 credit hours must be earned in courses taught by MLL faculty.
- A student may use 12 credit hours from a UM-administered study abroad program not led by MLL faculty and 12 credit hours in courses taught by MLL faculty to fulfill the major.

Exceptions to this 12 credit hours rule may be made in cases where a student will participate in a UM-administered study-abroad program for a full academic year.

Curriculum Requirements

Suggested Plan of Study

These Suggested Plans of Study are samples of four-year plans, but an individual student’s actual plan is likely to vary from these sample plans in a number of ways, depending on such factors as (1) AP, dual-enrollment, and transfer credits that a student brings in; (2) the student’s initial placement in composition, mathematics, and French; and (3) the minor chosen by the student, as well as any additional minor or major the student chooses to complete. For example, a student is not required to complete a cognate in People & Society if the student has a minor (or second major) that counts as "People & Society," and similarly, a student is not required to complete a cognate in STEM if the student has a minor (or second major) that counts as "STEM."

For students starting the major with FRE 203

This requirement is waive if the STEM cognate includes a Natural Science course from the approved list.

Students satisfy this requirement by taking four writing courses, at least one of which must be in one of the student’s minor disciplines, since all FRE courses above 203/208 are designated as writing (WRIT) courses, all French majors satisfy this requirement by completing their major.

A minimum of 120 credits is required for graduation. Sufficient credits must be earned in electives to enable the student to complete this minimum of 120 credits. The exact number of elective credits required will vary depending on the number of credits needed to complete all other graduation requirements.

1 Students satisfy this requirement by the time they start the major with FRE 203
2 If the student has a minor (or second major) that counts as "People & Society", the student does not need to satisfy the requirement for a People & Society cognate.
3 If the student has a minor (or second major) that counts as "STEM", the student does not need to satisfy the requirement for a STEM cognate.
4 This requirement is waive if the STEM cognate includes a Natural Science course from the approved list.
5 Students satisfy this requirement by taking four writing courses, at least one of which must be in one of the student’s minor disciplines, since all FRE courses above 203/208 are designated as writing (WRIT) courses, all French majors satisfy this requirement by completing their major.
6 A minimum of 120 credits is required for graduation. Sufficient credits must be earned in electives to enable the student to complete this minimum of 120 credits. The exact number of elective credits required will vary depending on the number of credits needed to complete all other graduation requirements.
### Year One

**Fall**
- **FRE 203** Advanced French 3
- STEM Cognate Course 3
- Minor Course 3
- Elective 3

**Spring**
- Choose one of the following: 2
  - **FRE 301** Interpreting Literary And Cultural Texts In French 3
  - **FRE 302** The Cultures of France 3
  - **FRE 303** The Cultures Of Francophone Africa, Canada, And/Or The Caribbean 3
- STEM Cognate Course 3
- Minor Course 3
- Elective 3
- Elective 3

**Credit Hours** 12

### Year Two

**Fall**
- Choose one of the following: 2
  - **FRE 301** Interpreting Literary And Cultural Texts In French 3
  - **FRE 302** The Cultures of France 3
  - **FRE 303** The Cultures Of Francophone Africa, Canada, And/Or The Caribbean 3
- STEM Cognate Course 3
- People and Society Cognate Course 3
- Minor Course 3

\[2\] Or any other 300 level GER course-also satisfies Advanced Writing Requirement.

### B.A. in Spanish

#### Goals of the Major

A major in Spanish consists of at least 24 credit hours beyond SPA 202 with a grade of C or higher in every course counting toward the major, and with a cumulative GPA of at least 2.5 in the major (see curriculum for course distribution). The major is designed to allow students to gain advanced linguistic, cultural, and literary competence in the communities that speak this language. With each course students further develop the capacity to communicate with and to critically see and understand the linguistic communities being studied. Not only do students learn to understand, interpret, and analyze communication
patterns and cultural products (new technologies, film, literature, etc.) from other geopolitical positions, but this process also fosters a greater appreciation of the learners’ own language, culture, and society. As part of the development of analytical and critical skills, students learn to build coherent arguments orally and in writing# to develop tools for the interpretation of various texts# to perform research and write critical papers# to find and evaluate sources of information# to heighten their sensitivity to the contexts of language, and to appreciate language as art. Students will also acquire a broad, structured knowledge of the relevant history, literature and culture in the target language. Finally, they will learn to carry out cultural comparisons and to view their own culture with new eyes.

You do not have to be a student of the College of Arts and Sciences to major in a modern language; you need only the approval of your college or school advisor and to complete the departmental requirements. If you wish to complete a double degree, consult with an Arts and Sciences Advisor.

Students completing a major in a modern language are encouraged to study abroad. The Department offers a faculty-led study abroad summer program in Spain. The International Education and Exchange Program (IEEP in Rhodes House, room 37F) sponsors programs for Chinese, French, German, Italian, Japanese, Portuguese, and Spanish. It is also possible to fulfill some Arts and Sciences distribution requirements abroad. In order to take full advantage of study abroad, students should visit IEEP early in their university careers, discuss course equivalencies with the Study Abroad Advisor for their chosen languages (contact the Department office for names and office hours), and consult with their major advisors. Credit hour toward the major for courses taken abroad will be determined on an individual basis.

Students with transfer credit hours at the 300-level must take at least 21 graded credit hours at or above the 300-level at the University of Miami; i.e., up to 9 credit hours at the 300- and 400-level may be transferred from another institution or a study abroad program not administered by UM. Up to 12 credit hours taken abroad in a UM-administered program may count towards any of the majors in the Department.

Capstone Courses

The final course in the major is the capstone course (501) which must be taken in residence. This course will:

• Integrate the various skills acquired during the course of study (linguistic, analytical, knowledge-based);
• Incorporate interpretive as well as presentational modes of communication;
• Contain an over-arching and cohesive theme;
• Include an element of collaboration among students.

It will constitute a moment of recapitulation of, synthesis, and reflection on a student’s experience in the major as well as a bridge towards graduate-level studies, should s/he decide to pursue them.

Of the 24 credit hours required for the major, a minimum of 12 credit hours must be earned in courses taught by MLL faculty (whether on campus or in faculty-led study-abroad programs). Since we encourage students to study abroad in UM-sponsored programs, up to 12 credit hours from these programs may be applied toward the major. Up to 6 transfer credit hours from other institutions may count toward the major; whether these are credit hours transferred from another U.S. institution or from non-UM study abroad programs, transferred credit hours must be granted UM equivalency in order to be eligible to count toward the major. Please note, however, that the total number of combined UM study-abroad (exclusive of MLL faculty-led programs) and transfer credit hours shall not exceed 12 credit hours.

For example:

• A student may use 3 transfer credit hours with UM equivalency and 9 credit hours from a UM-sponsored study abroad program toward fulfillment of the major; the remaining 12 credit hours must be earned in courses taught by MLL faculty.
• A student may use 6 transfer credit hours with UM equivalency and 6 credit hours from a UM-sponsored study abroad program toward fulfillment of the major; the remaining 12 credit hours must be earned in courses taught by MLL faculty.
• A student may use 12 credit hours from a UM-administered study-abroad program not led by MLL faculty and 12 credit hours in courses taught by MLL faculty to fulfill the major.

Exceptions to this 12 credit hours rule may be made in cases where a student will participate in a UM-administered study-abroad program for a full academic year.

### Curriculum Requirements

#### Core Requirements

<table>

MTH 101  Algebra for College Students  Not needed by students  3
MTH 113  Finite Mathematics  3
Language Requirement (3-9 credits)  2
Minor  15
People & Society Cognate  9
STEM Cognate  9
Natural Science Course  3
Advanced Writing & Communication  3
Electives  48
Total Credit Hours  120

1  Only one professional Spanish course (SPA 432, 433, 434) will count towards the Spanish major, although students are free to take all three.
2  Students satisfy this requirement by the time they start the major with SPA 203.
3  If the student has a minor (or second major) that counts as "People & Society", the student does not need to satisfy the requirement for a People & Society cognate.
4  If the student has a minor (or second major) that counts as "STEM", the student does not need to satisfy the requirement for a STEM cognate.
5  This requirement is waive if the STEM cognate includes a Natural Science course from the approved list.
6  Students satisfy this requirement by taking four writing courses, at least one of which must be in one of the student's minor disciplines, since all FRE courses above 203/208 are designated as writing (WRIT) courses, all French majors satisfy this requirement by completing their major.
7  A minimum of 120 credits is required for graduation. Sufficient credits must be earned in electives to enable the student to complete this minimum of 120 credits. The exact number of elective credits required will vary depending on the number of credits needed to complete all other graduation requirements.

These Suggested Plans of Study are samples of four-year plans, but an individual student's actual plan is likely to vary from these sample plans in a number of ways, depending on such factors as (1) AP, dual-enrollment, and transfer credits that a student brings in; (2) the student's initial placement in composition, mathematics, and Spanish; and (3) the minor chosen by the student, as well as any additional minor or major the student chooses to complete. For example, a student is not required to complete a cognate in People & Society if the student has a minor (or second major) that counts as "People & Society," and similarly, a student is not required to complete a cognate in STEM if the student has a minor (or second major) that counts as "STEM."

Minor in Arabic Studies

Select a minimum of three credit hours in a 200 level Arabic language course: 3
Select a minimum of three additional credit hours in any ARB course in the 200 level 3
ARB 201 Intermediate Arabic
ARB 202 Intermediate Arabic II
ARB 203 Advanced Arabic
ARB 204 Arabic 204: Advanced Arabic II
Or the equivalent
ARB 310 Topics In Arabic Literature And Culture In Translation
ARB 312 Arab Cultures: A Cultural History Of The Arab World
ARB 315 Topics In Gender And Sexuality In Translation
ARB 410 Language And Power In The Arab World

Select a minimum of three credit hours, outside of ARB courses, in humanities or social science courses focused on the Middle East, North Africa, Islam, or the Arab world. 3
REL 171 Introduction to Islam
ARH 260 Islamic Art
INS 352 Panoramic View of the Middle East
GEG 382 Political Geography of the Middle East
POL 387 Politics of the Middle East
Or another relevant course as approved by the program director

Select a minimum of three additional credit hours from either an ARB course in the 200 level or above or any approved course focused on the Middle East, North Africa, Islam, or the Arab world 3

Total Credit Hours 15

Minor in French, German, Italian, Portuguese, or Spanish

200 level course or above 3
At least 9 credit hours at 300 and/or 400 level 9
Minimum of 6 graded credit hours from UM faculty
Maximum of 3 transfer credit hours *

Total Credit Hours 12

* Students must earn a grade of C- or higher in every course counting toward the minor, and maintain a minimum overall average of 2.5 in the minor.

** Credit hours may be transferred from another institution or from a study-abroad program not administered by UM.

Minor in Modern Languages

First Language Any Level 12
Additional Language 6
Additional Language 300-level or above 6
Total Credit Hours 24

* For example, ARB 101, ARB 102, ARB 201 and ARB 202 along with SPA 202, SPA 203, SPA 301 and SPA 322 would constitute a Minor in Modern Languages; so would FRE 201, FRE 203, FRE 301 and FRE 330 along with JPN 101, JPN 102, JPN 201 and JPN 202. Many other combinations are possible.

** This minor must include 6 graded credit hours per language from the University of Miami.

*** Students must earn a grade of C- or higher in every course counting toward the minor, and maintain a minimum overall average of 2.5 in the minor.
Neuroscience

https://www.as.miami.edu/neuroscience/

Dept. Code (NEUR)

Introduction

Neuroscience is the study of the nervous system (i.e., the brain, spinal cord, and peripheral nerves), the mechanisms of behavior, and the nature of mind and consciousness. The Neuroscience Program is a rigorous, interdisciplinary program between the Department of Psychology (http://www.psy.miami.edu), the Department of Biology, and the Miller School of Medicine. The neuroscience major provides a broad-based liberal arts background that can be applied to a variety of career fields. It is also excellent preparation for medical school or graduate study in neuroscience, psychology, biology or behavioral medicine.

Educational Objectives

The neuroscience major seeks to provide students with exposure to and a fundamental understanding of the neural and bio behavioral sciences by delivering an integrative educational experience and promoting interactions among faculty, graduate students, and undergraduate students in basic scientific inquiry, advising, and mentoring.

Degree Programs

All neuroscience majors are required to pursue a Bachelor of Science (B.S.) degree.

Departmental Honors

Students can earn Departmental Honors in Neuroscience by demonstrating excellence in their coursework and completing a Senior Honors Thesis in Neuroscience.

1. Excellence in Coursework – A minimum 3.3 combined GPA and a minimum 3.5 neuroscience GPA is required.
2. Senior Honors Thesis in Neuroscience – This is an independent empirical research project that is completed across two semesters (i.e., NEU 580 and NEU 581) under the supervision of a faculty mentor in the Neuroscience Program. At least one year of prior research experience with the faculty mentor is highly recommended. Written approval from the faculty mentor and the Director of Undergraduate Academic Services in the Department of Psychology is also required.

Additional Information

The office of Undergraduate Academic Services for Psychology (UASP) provides comprehensive advising services to all students on a walk-in basis from 9:00 a.m. to 4:30 p.m., Monday through Friday, in Flipse 508. Appointments are only necessary during the official advising period for registration.

Freshmen and Transfer Students

All freshmen psychology majors in the College of Arts and Sciences are required to participate in the Department of Psychology’s year-long orientation, advising, and mentoring program, FACT FORUM (Freshmen Advising Contact Term and Faculty Overview of Research and Undergraduate Mentoring). These courses are one credit hour general electives designed to enable students to take ownership of their education by familiarizing them with the academic rules and regulations of the University of Miami, helping them think critically about their curriculum, providing them with in-depth exposure to research, and preparing them to enter the professional world.

New transfer students are highly encouraged to participate in a similar one semester program called TUMS (Transfer to the University of Miami). This course is specifically designed to ease the transition for new transfer students to the University of Miami.

Students who declare a psychology major after matriculation may be required to take part in an advising seminar prior to declaring the psychology major.

Prerequisites

Students must adhere to all prerequisites. They are also required to earn a minimum grade of C- in any PSY course that is to serve as a prerequisite for another course in the psychology major. Students who enroll in PSY courses without the specified prerequisites may be dropped.

Advanced Writing and Communication Requirement

To satisfy the College of Arts and Sciences Advanced Writing and Communication requirement, psychology majors must take 4 writing-designated courses, including 1 writing-designated course in the PSY area. Writing courses are already built into the required courses of the B.S. track of the psychology major; however, students who follow the B.A. track of the psychology major will need to plan accordingly to incorporate a writing-designated PSY course into their graduation plans.

Research Experience for Course Credit

Research experience is considered an integral part of the psychology major. Students may earn course credit (i.e., PSY 280, PSY 380, and/or PSY 480) by working in the laboratory of a Department of Psychology faculty mentor. Students can repeat PSY 280, PSY 380, and PSY 480 without penalty. A minimum 2.8 combined and psychology GPA is required to earn research credit. Written permission from a faculty mentor and UASP is also required. Note: Students may volunteer in a research laboratory by completing the appropriate volunteer paperwork with UASP if they are unable to register for research credit.

Research Participation in PSY 110

As an introduction to behavioral science, all students enrolled in PSY 110 may be required to participate as subjects in research studies conducted by faculty and/or graduate students, or by reading selected research reports and writing article critiques. Refer to the course syllabus for more details. Note: This introductory research participation requirement is not sufficient for students interested in attending graduate school in psychology.

Senior Assessment

As part of the Department of Psychology’s accreditation plan, all senior psychology majors will be required to take part in a senior assessment that may last up to four hours. Assessment scores will not affect the students’ graduation status; however, failure to complete the assessment may delay or prevent graduation.

Transfer Courses

Courses from other colleges or universities may be assigned PSY credit at UM with written approval by UASP.

Major in Neuroscience

- B.S. in Neuroscience (p. 165)
B.S. in Neuroscience

http://neuroscience.med.miami.edu/undergraduate-program

Overview

- Students must earn a minimum grade of C- in any course that is to count toward the neuroscience major.
- Students may repeat no more than two courses for the neuroscience major in which they received a D or an F.
- New freshmen and current students must have a minimum 1300 SAT, 30 ACT, or 3.5 combined, UM, and neuroscience GPA after 24 completed credit hours at UM to declare the neuroscience major. Note: At least 7 of these 24 credit hours must be in the BIL, CHM, or MTH courses required of the major and/or the degree.
- New transfer students must have a minimum 3.8 combined GPA to declare the neuroscience major, and at least 7 completed credit hours in the required BIL or CHM courses.
- Students are strongly advised not to continue with the neuroscience major if they have less than a 2.8 neuroscience GPA after 15 completed credit hours in the neuroscience major.
- Students must earn a minimum 2.6 neuroscience GPA and a minimum of 130 credits to graduate with the neuroscience major.

Notes

- There are limited seats in the neuroscience major so students may be required to join a waitlist before they are able to declare.
- Neuroscience majors are required to complete 130 total credit hours to complete their B.S. degree.
- The neuroscience major can only be declared as a first major for students who are enrolled in the College of Arts and Sciences.
- AP Credit for Statistics (i.e., PSY 292) cannot count toward the neuroscience major.
- Students who declare the neuroscience major after they transfer credit for PSY 292 or complete PSY 292 at UM can use PSY 292 as a substitute for PSY 291.

1. Note: NEU courses cannot double count for a BIL elective and another required course within the neuroscience major.

2. All neuroscience majors must complete a minor in Biochemistry, Chemistry, Computer Science, Engineering, Geological Sciences, Marine Science, Mathematics, Microbiology and Immunology, or Physics.
Neuroscience majors may not earn majors or minors in Biology or Psychology.

Philosophy
http://www.as.miami.edu/phi

Dept. Code: PHI

Introduction
The Philosophy Department offers a wide range of courses at the undergraduate level which cover every major area of philosophy as well as its history. Students can major or minor in the subject. In addition, the department sponsors two undergraduate philosophy organizations:

- the Philosophy Club, which is open to all UM undergraduates, and
- Phi Sigma Tau, a chapter of the National Honor Society in Philosophy.

Both groups afford students regular opportunities to meet, eat, and talk philosophy with each other and with graduate students and faculty in the department. All undergraduates who are interested in philosophy are welcome to participate in these philosophical events.

Educational Objectives
Philosophy is the study of the most basic moral, scientific, legal, aesthetic, religious, and metaphysical concepts and theories by which we understand ourselves and our universe. It is a reasoned pursuit of fundamental truths, a quest for understanding, a study of principles of conduct. It analyzes the basic assumptions and concepts of other disciplines and the norms that govern interpersonal relations and the acquisition of knowledge. It seeks to establish standards of evidence, to provide rational methods of resolving conflicts, and to create techniques for evaluating ideas and arguments. Philosophers are dedicated to developing the following abilities: reasoning clearly, distinguishing between good and bad arguments, thinking through complicated questions, and using reason in situations that are often governed by emotions. Studies have shown that philosophy majors do extremely well on standardized tests, and in careers that require analytical abilities such as the practice of law and software development. But irrespective of career choice, philosophy deepens one’s sense of the meaning and varieties of human experience, and enhances self-knowledge, foresight, and sense of direction in life.

Degree Programs
The major in Philosophy leads to the degree of Bachelor of Arts. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in philosophy should take at least two (2) (properly approved writing and communication) philosophy courses.

Pre-Law Major and Minor Tracks
The Department offers major and minor tracks for students wishing to enhance their Pre-Law studies with relevant Philosophy coursework.

Pre-Med Major and Minor Tracks
The Department also offers major and minor tracks for students wishing to supplement their Pre-Med work with relevant Philosophy coursework.

Departmental Honors
A program of work toward graduation with Honors in Philosophy is available for qualified students. Interested students should consult the Departmental Director of Undergraduate Studies during their sophomore or junior years. Further information may be found under the section entitled HONORS PROGRAM.

For requirements leading to the Master of Arts and Ph.D. degree (p. 566), see the Bulletin of the Graduate School.

Majors in Philosophy
- B.A. in Philosophy (p. 167)
- B.A. in Philosophy - Pre-Law Track (p. 168)
- B.A. in Philosophy - Pre-Med Track (p. 169)

Minors in Philosophy
- Philosophy (p. 170)
- Philosophy - Pre-Law Track (p. 170)
- Philosophy - Pre-Med Track (p. 171)

Total Credit Hours 15

* A minimum grade of C- or higher and an overall GPA of 2.0 are required.

Physical Sciences

Dept. Code: PSC

Introduction

PSC 101 is an interdisciplinary physical science course designed primarily for the non-science major. It may be used to satisfy a physical science requirement in some degree programs. Students should consult the degree requirements listed elsewhere in the Bulletin as well as their advisors for the appropriateness of this course for their programs. See also under PHY 110.

Physics

http://www.physics.miami.edu

Dept. Code: PHY

Introduction

The requirements for a major or minor in the Department of Physics are flexible and may be adapted to the needs of the individual student.

A grade of C- or better is required in all courses counted toward the major or minor with an overall GPA of 2.0. Any lecture course in the Physics department may be passed by means of a proficiency examination.

Note that more mathematics beyond two semesters of calculus is required for most of the physics courses at the 300 level or higher. In order to complete any Physics major sequence in four years, the student should begin elementary calculus as soon as possible. Students are encouraged to discuss an appropriate math sequence with the physics advisor. The minimum math requirement for physics major typically is as follow:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 151</td>
<td>Calculus I for Engineers</td>
<td>4-5</td>
</tr>
<tr>

</tr>
</tbody>
</table>

Total Credit Hours 17-18

Requirements for the Master of Science and Doctor of Philosophy (p. 568) degrees will be found in the Bulletin of the Graduate School.

Majors in Physics

• B.S. in Physics - Pure Physics (p. 179)
• B.S. in Physics - Chemistry/Physics (p. 175)
• B.S. in Physics - Engineering/Physics (p. 177)
• B.S. in Physics - Marine Science/Physics (p. 177)
• B.S. in Physics - Applied Physics (p. 171)

Minor in Physics

• Physics (p. 180)

B.S. in Physics - Applied Physics

http://www.physics.miami.edu

This sequence is available for those intending careers in applied physics. The major is divided into tracks, depending on the student’s field of interest. The Physics for the Life Sciences track is designed for premedical students.

Students must complete the core set of courses AND one track in their field of interest. Multiple tracks are allowed with prior authorization from the Department of Physics.

To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Applied Physics should pass at least one writing intensive course within the Physics Department. These are PHY 306, PHY 362, and PHY 506. The requirement can also be fulfilled by passing ENG 233 with a grade of C- or higher.

Core Courses

The core set of courses is required for all tracks and it includes one of the University Physics sequences with two labs (see table below), plus PHY 350, and PHY 360.

Engineering Physics Track

Additional 5 credits in physics at the 300 level or higher, including PHY 340 and one lab, plus 9 credits in Engineering with prior authorization from the Department of Physics.

Computational Physics Track

Additional 5 credits in physics at the 300 level or higher, including PHY 340 and one lab, plus 2 courses from the Computer Science BS core (p. 99) and a third course in Computer Science with prior authorization from the Department of Physics.

Medical Physics Track

Additional 5 credits in physics at the 300 level or higher, including PHY 351 and one lab, plus BME 265, BME 310, and BME 330 (Note: BIL 150, BIL 151, CHM 111, and CHM 112 are prerequisites for the BME courses).
Physics for the Life Sciences Track
Additional 6 credits in physics at the 300 level or higher, including PHY 321, plus required biology and chemistry courses. In biology, the required courses are BIL 150, BIL 151, BIL 160, BIL 161, BIL 255, and either BIL 360 or BME 265. In chemistry, the students are required to take one year of inorganic chemistry (CHM 111-CHM 112) with laboratory (CHM 113-CHM 114) and one semester of organic chemistry with laboratory (CHM 201/CHM 205) or the three-semester sequence of Chemistry for the Life Sciences (CHM 121, CHM 221, CHM 222) with laboratory (CHM 113, CHM 114, CHM 205).

Chemical Physics Track
Additional 6 credits in physics at the 300 level or higher, including PHY 321, plus CHM 360, CHM 364, CHM 365, CHM 464, and one among CHM 530, CHM 553, or CHM 575.

B.S. in Physics - Chemistry/Physics

The dual major in Chemistry and Physics is designed for students who are pursuing a regular B.S. degree in Chemistry (p. 89) and want to pursue a second major in Physics.

In addition to the major in Chemistry (p. 89), the dual major requires 22 credit hours in physics and specific courses in Chemistry.

Students pursuing this dual major will have to satisfy the College of Arts and Sciences writing requirement for the Chemistry major.

B.S. in Physics - Engineering/Physics

Students in the College of Engineering (p. 343) can pursue a dual major in Engineering and Physics, which consists of a regular major in Engineering, plus selected courses in physics. The physics courses required are the complete University Physics sequence for Engineers, plus 11 additional credits in physics at the 300 level or higher, including PHY 350, PHY 360, and one between PHY 321, PHY 340, and PHY 560.

Students pursuing this dual major will take courses designed to provide them with the skills required for effective communication, both written and oral, within their discipline in the College of Engineering.

1 At least 6 of which must be at the 300-level or higher. MSC 204 does not satisfy the MSC elective requirement but does satisfy the Statistics requirement.
**B.S. in Physics - Pure Physics**

The pure physics major is recommended for students intending to enter graduate school in Physics, or that want a deeper understanding of fundamental physics.

It consists of one of the University Physics sequences with two labs, plus PHY 306 (lab), PHY 321, PHY 340, PHY 350, PHY 351, PHY 360, PHY 362, PHY 506 (lab), PHY 540, and PHY 560.

Students interested in a Ph.D. program in physics are strongly encouraged to also take PHY 561.

To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Pure Physics are required to pass at least one writing intensive course within the Physics Department. These are PHY 306, PHY 362, and PHY 506. The requirement can also be fulfilled by passing ENG 233 with a grade of C- or higher.

# Political Science

http://www.as.miami.edu/politicalscience

**Dept. Code:** POL

**Introduction**

A political science major prepares students for work in a number of fields including law, politics, public policy, public administration, and international affairs, as well as employment in business and the non-profit sector.

**Educational Objectives**

Political science majors gain an understanding of American political and legal life, the workings of other countries’ political and economic systems, the relations among countries in the international arena, and key concepts in both political philosophy and social science methodology.

**Degree Programs**

- Bachelor of Arts in Political Science
- Five year program: Bachelor of Arts in Political Science and Masters of Public Administration (A special curriculum for students specializing in public administration enables them to complete the requirements for both a Bachelor’s and Master’s degree in five years.)

**Departmental Honors**

To earn Departmental Honors a political science major must:

1. Graduate with an overall GPA of 3.500.
2. Graduate with a political science GPA of at least 3.700. All political science course grades on a student’s transcript are counted in the calculation of the major GPA. This includes all grades from courses that were completed more than once (e.g. to obtain a high enough grade to count towards the major).

**Major in Political Science**

- B.A. in Political Science (p. 181)

**Minor in Political Science**

- Political Science (p. 183)
B.A. in Political Science

The political science major consists of at least 30 credit hours. At least 21 credit hours of these must be earned at the University of Miami.

To count toward the major, each course must be completed with a grade of C- or above, with an overall GPA of 2.0 or above.

Minor Requirement 15
Electives 39
Total Credit Hours 120

1. POL 213 does not count toward the major.
2. This includes any 500-level seminar offered by the Department of Political Science or cross-listed with Political Science. The following 500 level courses are not seminars and do not fulfill this requirement: POL 520, POL 521, POL 563, POL 564, POL 590.
3. Please note that some courses cover more than one sub-field. Students may not, however, use a single class to fulfill multiple sub-field requirements.
4. Please note that for the Natural Science Area of Knowledge Requirement degree candidates must earn at least 3 credit hours in the Natural Sciences. Departments offering these courses include Anthropology (only APY 203), Biology, Chemistry, Ecosystem Science and Policy (only ECS 111, ECS 112, ECS 202), Geography (only GEG 120), Geological Sciences, Marine Sciences (except MSC 313, MSC 314), Physical Sciences, and Physics. These credit hours may double count with any other requirement.

* All majors must complete a quiz for graduating seniors (to be used for assessment purposes) during their last semester of coursework.

** To satisfy the Advanced Writing & Communication proficiency requirement, students majoring in political science must complete at least one of the four required writing-intensive courses in the Department of Political Science.

1. This includes any 500-level seminar offered by the Department of Political Science or cross-listed with Political Science. The following 500 level courses are not seminars and do not fulfill this requirement: POL 520, POL 521, POL 563, POL 564, POL 590.
**Psychology**

http://www.psy.miami.edu

Dept. Code: PSY

**Introduction**

Psychology is the study of how individuals think, behave, feel, and relate to others. Because of its broad and fundamental nature, the psychology major prepares students for graduate study and/or careers in a wide range of people-oriented professions (e.g., psychology, medicine, law, business, communication, etc.). Psychology majors learn about human behavior and gain the analytical and critical thinking skills that are highly-valued in the workforce.

**Educational Objectives**

The Department of Psychology seeks to provide students with exposure to and a fundamental understanding of psychological science by delivering an integrative educational experience and promoting interactions among faculty, graduate students, and undergraduate students in basic and applied psychological inquiry, advising, mentoring, and community outreach.

**Degree Programs**

The Department of Psychology offers a Bachelor of Arts (B.A.) and a Bachelor of Science (B.S.) degree.

**Departmental Honors**

Students can earn Departmental Honors in Psychology by demonstrating excellence in their course work and completing a Senior Honors Thesis in Psychology.

1. **Excellence in Coursework** – A minimum 3.3 combined GPA and a minimum 3.5 psychology GPA is required.
2. **Senior Honors Thesis in Psychology** – This is an independent empirical research project that is completed across two semesters (i.e., PSY 580 and PSY 581) under the supervision of a faculty mentor in the Department of Psychology. At least one year of prior research experience with the faculty mentor is highly recommended. Written approval from the faculty mentor and the Director of Undergraduate Academic Services is also required.

**Additional Information**

The office of Undergraduate Academic Services for Psychology (UASP) provides comprehensive advising services to all students on a walk-in basis from 9:00 a.m. to 4:30 p.m., Monday through Friday, in Flipse 508. Appointments are only necessary during the official advising period for registration.

**Freshmen and Transfer Students**

All freshmen psychology majors in the College of Arts and Sciences are required to participate in the Department of Psychology’s year-long orientation, advising, and mentoring program, FACT FORUM (Freshmen Advising Contact Term and Faculty Overview of Research and Undergraduate Mentoring). These courses are one credit hour general electives designed to enable students to take ownership of their education by familiarizing them with the academic rules and regulations of the University of Miami, helping them think critically about their curriculum, providing them with in-depth exposure to research, and preparing them to enter the professional world.

New transfer students are highly encouraged to participate in a similar one semester program called TUMS (Transfer to the University of Miami). This course is specifically designed to ease the transition for new transfer students to the University of Miami.

Students who declare a psychology major after matriculation may be required to take part in an advising seminar prior to declaring the psychology major.

**Prerequisites**

Students must adhere to all prerequisites. They are also required to earn a minimum grade of C- in any PSY course that is to serve as a prerequisite for another course in the psychology major. Students who enroll in PSY courses without the specified prerequisites may be dropped.

**Advanced Writing and Communication Requirement**

To satisfy the College of Arts and Sciences Advanced Writing and Communication requirement, psychology majors must take 4 writing-designated courses, including 1 writing-designated course in the PSY area. Writing courses are already built into the required courses of the B.S. track of the psychology major; however, students who follow the B.A. track of the psychology major will need to plan accordingly to incorporate a writing-designated PSY course into their graduation plans.

**Research Experience for Course Credit**

Research experience is considered an integral part of the psychology major. Students may earn course credit (i.e., PSY 280, PSY 380, and/or PSY 480) by working in the laboratory of a Department of Psychology faculty mentor. Students can repeat PSY 280, PSY 380, and PSY 480 without penalty. A minimum 2.8 combined and psychology GPA is required to earn research credit. Written permission from a faculty mentor and UASP is also required. Note: Students may volunteer in a research laboratory by completing the appropriate volunteer paperwork with UASP if they are unable to register for research credit.

**Research Participation in PSY 110**

As an introduction to behavioral science, all students enrolled in PSY 110 may be required to participate as subjects in research studies conducted by faculty and/or graduate students, or by reading selected research reports and writing article critiques. Refer to the course syllabus for more details. Note: This introductory research participation requirement is not sufficient for students interested in attending graduate school in psychology.

**Senior Assessment**

As part of the Department of Psychology’s accreditation plan, all senior psychology majors will be required to take part in a senior assessment that may last up to four hours. Assessment scores will not affect the
students’ graduation status; however, failure to complete the assessment may delay or prevent graduation.

**Transfer Courses**
Courses from other colleges or universities may be assigned PSY credit at UM with written approval by UASP.

**Major in Psychology**
- **B.A. or B.S. in Psychology** (p. 185)

**Minor in Psychology**
- **Psychology** (p. 187)

**B.A. or B.S. in Psychology**
The major in psychology requires 33 credit hours in PSY courses. AP Credit for Statistics (i.e., PSY 292) cannot count toward the psychology major. Students who declare the psychology major after they transfer credit for PSY 292 or complete PSY 292 can use PSY 292 as a substitute for PSY 291.

Only 6 credit hours of the following may count toward the psychology major:

<table>

</table>

All psychology majors who pursue a B.A. degree in the College of Arts and Sciences must complete a minor from the list of acceptable minors published by the College.

All psychology majors who pursue a B.S. degree in the College of Arts and Sciences must complete a minor in Biochemistry, Biology, Chemistry, Computer Science, Engineering, Geological Sciences, Marine Science, Mathematics, Microbiology and Immunology, or Physics.

Other Requirements

- Students must earn a minimum grade of C- in a PSY course to count it toward the psychology major.
- Students must have a minimum 2.8 combined, UM, and psychology GPA to declare the psychology major.
- Students are strongly advised not to continue with the psychology major if they have less than a 2.5 psychology GPA after 15 completed credit hours in psychology.
- Students must earn a minimum 2.3 psychology GPA and a minimum of 120 credit hours to graduate with the psychology major.
- Students must complete at least half of their psychology major in residence, including all 300, 400, and 500 level PSY courses.
- Only 6 PSY credit hours at the 300, 400, and 500 level may be taken through a UM Study Abroad Program with prior written approval.
- Students completing a B.S. in Psychology must complete a minor in one of the following programs: Biochemistry, Biology, Chemistry, Computer Science, Engineering, Geological Sciences, Marine Sciences, Mathematics, Microbiology & Immunology, or Physics. Students who complete a second major in one of the mentioned fields are not required to complete a minor.

**Additional PSY Courses**

- 9 credit hours

**Total Credit Hours**

- 15 credit hours

---

* Only 3 credit hours of PSY 280, PSY 380, and/or PSY 480 may count toward the minor.

** Students must earn a minimum grade of C- in a PSY course to count it toward the minor.

*** Students must complete at least 9 of the 15 minor credit hours in residence, and only 3 of these credit hours may be taken through a UM Study Abroad Program with prior written approval.

### Religious Studies

http://www.as.miami.edu/religion

#### Dept. Code: REL

#### Introduction

Religion is one fundamental way humans order and discern meaning and frame identity, both collective and individual. In the study of religion, students learn what religion is; how religion both shapes and reflects culture, society, politics, and individual experience; and the multiple ways religion matters and has mattered locally and globally, from antiquity to the present. Through the examination of varied disciplinary approaches and exposure to concrete diverse cultural expressions of religion, the department fosters students’ broad and deep apprehension of religion’s place(s) in human experience. The department’s educational work aims to strengthen students’ capacities to read carefully, question critically, communicate knowledge effectively, and apply their learning in civic engagement.

The University regards the academic study of religion as an integral part of liberal, humane learning and seeks to assist students in understanding the role religion plays in human existence and culture. Instruction in the Department of Religious Studies is non-sectarian and seeks an open analysis of all points of view. Courses are designed to provide a general orientation to the academic study of religion for the undergraduate student, as well as more advanced exposure for those who wish to pursue professional careers where a study of religious ideas and institutions would be helpful, such as in psychology, sociology, history, journalism, teaching, law, medicine, the fine arts, religious education, the ministry, and the rabbinate.

The Department sponsors a wide variety of speakers and events each year, including a Religious Studies Colloquium series and a Forum on Religion and Public Life. It has enriched the existing curriculum by bringing to the campus such outstanding scholars as Elizabeth Kuebler-Ross, Joachim Jeremias, Alvin Plantinga, Harry M. Orlinsky, Anson Rainey, Abraham J. Malherbe, Alan Segal, William May, Robert Segal, Douglas Allen, Marvin Sweeney, Martin Hengel, Martin E. Marty, and Juergen Moltmann.

#### Educational Objectives

The general educational objectives of the Department are

1. to explore texts, histories, and ways in which humans from various cultures have understood their world including the beliefs, ethics, rituals, artifacts, and organizations of religions;
2. to understand the changing relationship between religion and elements of the wider culture including the dynamics of politics, art, economics, literature, and society and their relationship to religions;
3. to become familiar with the theories and methods used in the study of religion.

#### Degree Programs

The Department offers two tracks by which students may earn a major or a minor. The first track is Religious Studies, which is designed for students who are seeking a broad and comprehensive understanding of
the world’s major religions and the cultures in which they are practiced. The second track is Religion and Health Care, which is designed for students who are interested in any aspect of health care or who wish to supplement their pre-med concentration with coursework in the field of Religious Studies.

**Departmental Honors**

The Department of Religious Studies encourages its majors and minors to intensify and deepen their knowledge of religious texts, traditions, and issues through its Departmental Honors Program. The program is designed to give our students the opportunity to explore various topics and problems in religion that are of particular interest to them, to work more closely with faculty in the department, to develop skills in research and thesis preparation, and in some cases to prepare for graduate work in religious studies or other disciplines.

Minimum requirements for the program are as follows:

1. A cumulative grade point average of at least 3.30;
2. A cumulative grade point average in religious studies of at least 3.50; and
3. A thesis that is approved by departmental faculty.

For the determination of honors, cumulative grade point average means either the average of all grades earned at the University of Miami or the combined average of all graded work taken at the University of Miami and elsewhere (whether or not the transfer work is accepted toward a degree at the University of Miami), whichever is lower.

**Theta Alpha Kappa**

Majors, minors, and other students who meet certain academic criteria are eligible for membership in Theta Alpha Kappa, the National Honor Society for Religious Studies and Theology. Theta Alpha Kappa sponsors events that enhance the academic and social life of the department.

**URome**

In keeping with its emphasis on a global approach to the study of religion and society, the Department sponsors a study abroad program known as URome. This semester-on-location program, which is open to all qualified University of Miami undergraduate students, is offered each spring semester in collaboration with the American University of Rome. A limited amount of scholarship support for the URome program is available for qualified Religious Studies majors and minors.

* A major in Religion and Health Care leading toward the B.A. degree requires 24 credit hours in Religious Studies, passed with a grade of C- or higher, and a GPA in the major of 2.0.

** Writing credit (W) in at least one course in the department
*** To ensure that majors devise a coherent plan of study, the department requires consultation with the department undergraduate advisor.

**Suggested Plan of Study**

This plan of study includes:

- A minor in Chemistry
- Spanish language requirement
- Cognates: People and Society: Living on a Finite Planet, STEM: Data Structures, Algorithms and Techniques
- Pre-Med Track

**Notes:**
- A major in Religious Studies leading toward the B.A. degree requires 24 credit hours in Religious Studies, passed with a grade of C- or higher, and a GPA in the major of 2.0.  
- For a list of Religious Studies courses see page (p. 1242).  
- Minimum of 12 credit hours in courses numbered 300 or above  
- Writing credit (W) in at least one course in the department  
- To ensure that majors devise a coherent plan of study, the department requires consultation with the department undergraduate adviser.  
- Transfer students who major in Religious Studies must complete at least 12 credits in department offered courses numbered 300 or above in residence at the Coral Gables Campus.

**Suggested Plan of Study**

This plan of study includes:
- A Secondary Major in Public Health  
- Cognates in Understanding Business and Earth Stars Wind and Water
### Minor in Medical Humanities

#### Core Courses

Select at least two of the following:

- REL 161 Religion and Medicine: Health Care as Spiritual Practice
- HIS 223 Medicine And Society: From The Ancient World To The 21St Century
- PHI 334 Biomedical Ethics

#### Elective Courses

Select up to three electives:

- CLA 222 Sexuality and Gender in the Ancient World
- CLA 225 Magic And The Occult In Antiquity
- CLA 231 Sciences in Ancient Greece and Rome
- CLA 233 Ancient Medicine
- HIS 330 The Scientific Revolution
- HIS 351 Science and Society
- PHI 546 Evidence and Knowledge in Medicine
- REL 252 Religion and Human Sexuality
- REL 351 Death and Dying
- REL 352 Religion and Science
- REL 360 Religion and Bioethics
- REL 451 Ethics and Genetics
- THA 108 Introduction To Standardized Patient Simulation
- WGS 315 Gender, Race, and Class
- WGS 347 Issues In Reproductive Medicine
- WGS 420 Interpreting Bodies

#### Credit Hours

15
Courses offered as Special Topics or Independent Study may be applied toward the minor with approval by the program advisor.

No more than 6 credit hours may be applied to the minor from a single department.

At least 6 credit hours must be taken at the 300 level or higher.

Students must earn a grade of C- or better in each course and maintain a cumulative GPA of at least 2.0 in all courses counting toward the minor.

**Minor in Religion and Healthcare**

FOR STUDENTS FIRST ENROLLED IN OR AFTER FALL SEMESTER 2015

Select one of the following: 3

REL 101 Introduction to Religion  
REL 102 Problem of God  
REL 103 One God: Judaism, Christianity, Islam  
REL 105 One Goal: Transforming the Self in Asian Religions

Select two Religion and Health Care courses 6

Select one elective course 3

Select a minimum of 6 credit hours in courses numbered 300 or above  

Total Credit Hours 12

An undergraduate minor in Religion and Health Care requires 12 credit hours, passed with a grade of C- or higher, and a GPA in the minor of 2.0.

To ensure that minors devise a coherent plan of study, the department requires consultation with the department undergraduate advisor.

Transfer students who minor in Religion and Health Care must complete at least 6 credits in department offered courses numbered 300 or above in residence at the Coral Gables campus.

**Minor in Religious Studies**

Select one of the following: 3

REL 101 Introduction to Religion  
REL 102 Problem of God  
REL 103 One God: Judaism, Christianity, Islam  
REL 105 One Goal: Transforming the Self in Asian Religions

Select a minimum of 6 credit hours in courses numbered 300 or above 6

Select an additional 3 elective credits 3

Total Credit Hours 12

An undergraduate minor requires 12 credit hours, passed with a grade of C- or higher, and a GPA in the minor of 2.0.

To ensure that minors devise a coherent plan of study, the department requires consultation with the department undergraduate advisor.

Transfer students who minor in Religious Studies must complete at least 6 credits in department offered courses numbered 300 or above in residence at the Coral Gables campus.

**Sociology**

http://www.as.miami.edu/sociology  

Dept. Code: SOC  

**Overview**

The Major in Sociology provides scientific training for understanding the organization and fluid nature of contemporary society, patterns of social change, and the mutual influence between macro structures and processes (society and culture) on one hand, and the micro level (individuals and groups) on the other. Increasingly, sociologists are also focused on understanding the processes of globalization that are currently transforming contemporary societies.

Courses for both majors are designated SOC; see course list below. For information on Criminology please see the Criminology (p. 103) section of the Bulletin.

**Educational Objectives**

The undergraduate program in Sociology has as its main objective to provide students with:

1. A strong component of a liberal arts education, training in analytical and statistical skills that are highly valued by potential employers;
2. A valuable undergraduate preparation for pursuing careers in such fields as journalism, politics, public relations, business or public administration and in other fields that involve investigative or analytical skills or working with diverse groups;
3. An excellent and comprehensive training program for students wishing to pursue graduate work in programs leading to academic positions, research expertise, or work in the field of applied sociology.

**Degree Programs**

Students may earn a Bachelor of Arts degree in Sociology. The Department of Sociology also offers graduate programs leading to M.A. and Ph.D. degrees in the areas of:

- Criminology
- Medical Sociology
- Race, Ethnic Relations, and Immigration

**Departmental Honors**

Graduation with Departmental Honors is available to eligible students who fulfill the following:

1. Students desiring Departmental Honors in Sociology or Criminology must maintain an overall GPA of 3.3 and a GPA of 3.5 in Sociology or Criminology. They must also achieve a minimum of B in all Sociology/ Criminology courses. For transfer students, the Department uses the cumulative, combined GPA calculated by the Office of the Registrar.
2. A student seeking Departmental Honors is required to write an independent research paper which is submitted to the Undergraduate Committee. The nature of the independent research project is determined by the faculty member(s) with whom the student works. This project is done in SOC 498 & SOC 499. The student should have the same professor(s) for all six credit hours.
3. Recruitment of eligible students is by department invitation during a student’s junior year.
Advanced Writing and Communication Requirements

To satisfy the College of Arts and Sciences Advanced Writing and Communication requirement, all Sociology majors must take 4 writing-designated courses, including 1 writing-designated course in the SOC area. Writing courses are regularly offered within the department; however, it is the student’s responsibility to plan accordingly to incorporate a designated SOC writing-designated course into their graduation plans.

Alpha Kappa Delta

Majors, minors, and other students who meet certain academic criteria are eligible for membership in Alpha Kappa Delta, the International Sociology Honor Society. Alpha Kappa Delta sponsors events that enhance the academic and social life of the department.

Major in Sociology

• B.A. in Sociology (p. 192)
• Sociology & Criminology Double Major; Combined Minor (p. 193)

Minor in Sociology

• Sociology (p. 193)
• Sociology & Criminology Double Major; Combined Minor (p. 193)

B.A. in Sociology

Curriculum Requirements

Required Courses
SOC 101 Introduction to Sociology 3
SOC 210 Introduction to Social Research 3
SOC 211 Quantitative Methods for Sociologists 3
SOC 212 Quantitative Methods Lab 1
SOC 401 Sociological Theory 3
Select two of the following: 6
SOC 301 Social Organization
SOC 302 Social Psychology: Sociological Perspective
SOC 303 Social Inequalities
Departmental Electives 12

Additional Required Courses
ENG 105 English Composition I 3
ENG 106 English Composition II 3
MTH 108 Precalculus Mathematics II 3
Arts and Humanities Cognate 9
STEM Cognate 9
Additional Major/Minor 15-30
Science Course 3
Foreign Language 3-9
Electives 41
Total Credit Hours 120-126

* EPS 452 can be substituted for SOC 210 only by students who are also enrolled in the School of Education
PSY 291 or PSY 292 can be substituted for SOC 211 only by students who are Psychology majors or minors and also majoring in Sociology; they will be required to take SOC 212.

** A minimum final grade of C- in all courses offered by the Department

*** A minimum cumulative GPA of 2.0 in all courses offered by the Department

**** A minimum of 16 credit hours must be earned in residency in the Department; thus, only a maximum of 15 credit hours can be transferred from other institutions as eligible credit hours for the SOCIOLOGY major

Sociology & Criminology Double Major

Students may choose to double major in both Sociology and Criminology, or major in either Sociology or Criminology while minoring in the other.

Sociology and Criminology Double Major

Students wishing to complete a double major must complete the Declaration of Major form for the College of Arts and Sciences and fill in both majors. Students completing a double major are not required to complete a minor as well.

| Electives | 34 |

Total Credit Hours 120-126

Other Requirements

* A minimum final grade of C- and a GPA of 2.0 are required in all courses offered by the Department.
** A minimum of 31 credits must be earned in residency in the Department; thus, only a maximum of 27 credits can be transferred from other institutions as eligible credits for the SOCIOLOGY/CRIMINOLOGY DOUBLE major.

Sociology and Criminology Major-Minor Program

A minor in either Sociology or Criminology while majoring in the other program requires 12 additional credits offered by the Department to the major program requirements, totaling 43 credit hours.

• 6 of these credits must be 300-level or higher.
• Sociology majors must take SOC 371 Criminology.

Minor in Sociology

| Required Courses |
| SOC 101 | Introduction to Sociology | 3 |

Elective Courses

Four additional courses offered by the Department of Sociology 12

Total Credit Hours 15

1 Two of the four courses must be 300 level or higher.

* A minimum final grade of C- in all courses offered by the Department.
** A minimum cumulative GPA of 2.0 in all courses offered by the Department.
*** A minimum of 9 credit hours must be earned in residency in the Department; thus, only a maximum of 6 credit hours can be transferred from other institutions as eligible credit hours for the sociology minor.

Theatre Arts

http://www.as.miami.edu/theatrearts
Dept. Code: THA

Introduction

The University of Miami Department of Theatre Arts offers two distinct undergraduate degrees:

- a liberal arts program leading to a Bachelor of Arts degree in theatre and
- a pre-professional conservatory-based theatre training program leading to a Bachelor of Fine Arts degree in either
  - Acting,
  - Musical Theatre,
  - Stage Management,
  - Theatre Management, or
  - Design/Production.

The Department also produces a season of plays and musicals at the Jerry Herman Ring Theatre as well as workshops and student projects in the Studio Theatre.

Educational Objectives

The Department of Theater Arts immerses students in the practices and the study of theatre enabling them to nurture and promote within their communities an engagement with the arts.

Degree Programs

- THE BACHELOR OF ARTS DEGREE
- THE BACHELOR OF FINE ARTS DEGREE

The Bachelor of Fine Arts Degree in Theatre Arts

In addition to the general requirements for admission to the University, the student seeking admission to the BFA program must meet the following requirements of the Department of Theatre Arts:

1. Submission of the Supplemental Application to the Department of Theatre Arts. (This form is located on the Department of Theatre Arts website under “Prospective Students and on the Undergraduate Admissions website page.)
2. An audition or interview/portfolio review to determine acceptance into the BFA programs. These audition/reviews will be held on the University of Miami campus as well as in major cities throughout the United States as scheduled on our website.
3. BFA transfer students must follow the same Admission procedures as freshmen and should realize that placement into the program will be determined by the Theatre Arts faculty. All BFA transfers must be approved by the Director of the Conservatory.

The candidates for the degree of Bachelor of Fine Arts must satisfy the College of Arts and Sciences academic requirements.

All BFA students are evaluated by the faculty at the end of each semester.

BFA students in Theatre Arts Department courses must earn a cumulative 2.7 grade point average to remain in the BFA program. A Theatre Arts major must maintain a minimum grade of C- or higher in each required course outside the theatre. Failure to maintain satisfactory academic standing may result in the student being placed on academic probation by the Department and eventually to dismissal from the program.

BFA Theatre Arts courses are progressive in nature and students must successfully complete each course in sequence. Failure to pass the requirements of any particular class in the conservatory may result in the student’s dismissal from the program. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Theatre Arts should take at least THA 481 and THA 482 offered by the department.

Production activities and discipline within the Department will be governed by the student handbook, available on the Department website (http://www.miami.edu/tha).

Musical Theatre and Acting Majors will be admitted to the Bachelor of Fine Arts degree program only in the fall of each academic year.

Majors in Theatre Arts

- B.A. in Theatre Arts (p. 194)
- B.F.A. in Theatre Arts - Design/Technical Production (p. 198)
- B.F.A. in Theatre Arts - Musical Theatre (p. 199)
- B.F.A. in Theatre Arts - Acting (p. 196)
- B.F.A. in Theatre Arts - Stage Management (p. 201)
- B.F.A. in Theatre Arts - Theatre Management (p. 202)

Minor in Theatre Arts

- Theatre Arts (p. 203)

* A grade of C- or higher in all Theatre Arts classes and an overall GPA of 2.0 or above are required.
** To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Theatre Arts should take at least THA 481 and THA 482 offered by the department.

*** Transfer students have a residency requirement of 18 Theatre Arts credit hours on campus.

**** The State of Florida recognizes the Bachelor of Arts and Bachelor of Fine Arts Degrees as meeting the Theatre Arts subject area requirements for teaching at the secondary level. In addition to earning the BA or BFA degree in Theatre, students desiring to teach in the field of Theatre Arts should complete the required education credit hours in order to be certified by the state.

Urban Studies

http://www.as.miami.edu/urb

Introduction

The minor in Urban Studies provides undergraduate students with a flexible concentration in interdisciplinary studies of cities, urbanism, and urbanity. Urban Studies is a long-established academic field, especially prominent in major cities in the United States. Course work combines a practical focus on Metropolitan Miami with more general attention to urban theory and globalization.

The minor has a liberal arts orientation and includes perspectives from the social sciences, architecture, and history. It is a useful complement to majors such as Geography, History, Sociology, Anthropology, Literature, International Studies, Economics, Political Science, and others. A summer study abroad option in South Africa and Namibia is offered regularly in summer. In addition, it is possible for a student to study in the spring semester in Cape Town, South Africa (UCape Town Program). The minor is also of particular interest to students in Architecture and Business. Courses in the Minor are taught in the College of Arts & Sciences and the School of Architecture. Note that there are slightly different requirements for ARC students.

Women's and Gender Studies

http://www.as.miami.edu/wgs

Dept. code: WGS

Introduction

The Program in Women's and Gender Studies at the University of Miami seeks to encourage the rigorous investigation of gender as a significant issue in all areas of human experience. It reaches across disciplines to draw on a range of methods, theories, and perspectives that help us to understand how ideas and structures based on gender shape our lives. The program's core objective is to foster the examination, open discussion, and lively debate of gender issues among faculty and students from all fields of study, enriching the undergraduate curriculum and the university's academic mission through greater communication across disciplines and colleges. Its aim is to broaden, deepen, and transform the learning community at UM and beyond.

Educational Objectives

The undergraduate curriculum in Women's and Gender Studies explores the ways in which ideas about gender and sexuality shape social roles and identities, as well as the ways in which race, ethnicity, class, and nationhood influence the perception and experience of gender and sexuality within particular cultures. The curriculum is informed by recent scholarship that recognizes gender and sexuality as crucial components of human experience in social, cultural, economic, political, religious, and legal contexts. It includes courses that introduce students to feminist theory and scholarship, engaging ethical and political issues of equality and justice. The program encourages students to question their assumptions about the possible meanings of female and male through the comparative study of how different societies and historical periods have viewed manhood, womanhood, and relations between women and men. Courses in Women's and Gender Studies enable students to acquire critical and analytical skills that they can then apply in other aspects of their educational experience at UM and beyond the university in their careers and personal development.

The LGBTQ Studies minor is designed to allow students to explore sexuality and sexual minorities from a variety of perspectives. The course will provide students with an introduction to a broad array of LGBTQ issues including visual and performing arts, literature, languages, history, social science, various theories, public policy and the law, families and other types of intimate relationships, crime, popular culture, and LGBTQ identities and communities. This widely interdisciplinary field addresses work in a broad range of scholarly disciplines including biological and cultural studies, in literature and anthropology, in the health sciences, history, and the visual arts. It ranges from archival research to the elaboration of queer theory, from the analysis of constitutional law to questions of public health, from the study of popular culture to

1 ARC students may select no more than one ARC course while NonARC students must select at least one ARC course. Note that URB 201 or URB 301 will suffice as prerequisites for any of these courses.

* Other courses may be approved upon request; please consult the program Director, Dr. Richard Grant: rgrant@miami.edu

** A minimum grade of C- with a 2.0 overall GPA are required.
investigations into the development and social construction of sexual identity.

Advanced Writing and Communication Credit
To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in WGS should take at least one WGS core course that is writing intensive (i.e., WGS 301).

Departmental Honors
Women's and Gender Studies majors with a cumulative GPA of at least 3.5 in WGS courses and an overall GPA of at least 3.0 may earn departmental honors by completing WGS 505 instead of the senior research project. Candidates for departmental honors are responsible for finding a faculty member who is willing to serve as thesis adviser and then must complete a thesis proposal of approximately 400 words which must be approved by the thesis adviser and then the program director. The format and length of the thesis will vary according to the nature of the project. Most students writing an honors thesis as part of their WGS major will take WGS 505 twice (for a total of 6 credit hours).

¹ All Majors have the option of completing WGS 501 (or WGS 505), which will take the form of an individual research project with a faculty member of the student's choice; the student is responsible for finding an appropriate faculty member who is available to supervise the project and then must seek formal approval from the program director before proceeding with the project. The student must produce a substantial written report or research paper, the format of which will vary according to the nature of the project.

A grade of C- or better in each course, with a cumulative GPA of at least 2.0 in WGS courses is required.

Introduction
The School of Business Administration offers courses leading to the degrees of

- Bachelor of Business Administration (BBA), and
- Bachelor of Science in Business Administration (BSBA).

Undergraduate degrees in business are administered by the Vice Dean for Undergraduate Business Education.

Mission
The mission of the University of Miami School of Business Administration is to develop innovative ideas and principled leaders that transform global business and society.

Accreditation
The Bachelor of Science in Business Administration and the Bachelor of Business Administration as well as all Accounting programs are fully accredited by AACSB International — The Association to Advance Collegiate Schools of Business.

Academic Policies

Student Responsibilities

- Students in the School of Business Administration are responsible for planning their own academic programs and for meeting degree requirements.
- It is the student’s responsibility to understand fully, and to comply with, all the provisions of this Bulletin and any written changes to their program of study.
- Students are provided assistance by academic advisors and faculty members.
- Requests for deviation from department, program, or school requirements are granted only by written approval from the Vice Dean or, in some cases, the relevant department chairperson.
- A student who is in violation of the provisions of this Bulletin may be administratively withdrawn from a class or classes, dismissed as a business student, and/or have an electronic hold placed upon future enrollment.
- A student who is disruptive in class as determined by assigned faculty and the Vice Dean will be administratively dropped from the class.
- Information regarding appeal procedures and special requests relative to academic matters is available in Merrick 104, School of Business Administration, Office of Undergraduate Business Education.

Academic Progress, Probation, and Dismissal
When a student’s semester or cumulative GPA is below 2.0, or progress toward degree completion is unsatisfactory, the student will be warned, placed on academic probation, or dismissed in accordance with the University’s or School of Business Administration’s policies and procedures:

- Warning: semester GPA lower than 2.0 but cumulative GPA above 2.0
- Probation: cumulative GPA lower than 2.0
- Probation with Dismissal: two consecutive semesters with cumulative GPA lower than 2.0, or failure to make progress toward degree completion
- Failure to make progress toward degree completion includes, but is not be limited to:
  - failure to complete enough credit hours in the business degree program to graduate after ten regular semesters of enrollment
  - failure to maintain a GPA sufficiently high to permit graduation in the ordinary course with the minimum 2.5 GPA.

Admission to the School of Business Administration
Admission to the University for undergraduate study as a freshman is sufficient for admission to the School of Business Administration prior to matriculation. However, strong quantitative skills are typically needed for success. Students who do not matriculate in the School of Business Administration in their first semester of study at the University may request a transfer to the School of Business Administration thereafter only according to the policies and procedures set out below.

Transferring to the School of Business Administration
Transfer applicants from outside the University of Miami must submit a satisfactory academic record in compliance with the standards of the University of Miami Office of Admission. All previous transfer courses must be from an accredited institution. Admitted applicants will be in good academic standing at all institutions previously attended and have a minimum cumulative grade point average (GPA) of 3.0. A minimum grade of "C" (2.0) must be earned in all transfer courses for credit to be awarded. This includes repeated courses under a forgiveness policy at any previous institution.

All transfer students to the School of Business Administration, including those from other Schools and Colleges within the University of Miami, must have completed and received college credit for a calculus course equivalent to either MTH 161 (4 credit hours) or MTH 140/MTH 141 (8 credit hours), and earned a grade of "B" or better in the course(s). The transfer calculus course must be approved by submitting the syllabus and textbook title to the University of Miami Department of Mathematics for evaluation.

All transfer coursework taken outside the University of Miami will be reviewed on a course-by-course basis for equivalency to School of Business Administration course requirements. Any business class that is from a non-AACSB accredited institution will be accepted only as elective credit toward the overall degree requirements. Transfer applicants may appeal to have transfer classes from non-AACSB accredited institutions reviewed for possible application toward business course requirements by submitting the course syllabus and textbook title to the Office of Undergraduate Business Education.

A transfer student’s overall coursework must also meet specific curricular and residency requirements. Pursuant to School of Business Administration policy, transfer students must complete a minimum of 50 percent of the Business Core at the University of Miami. Transfer students must also complete a minimum of 50 percent of all major and a minimum of 50 percent of all minor courses at the University of Miami. University Residency and other requirements, applicable to all students, are set out below in the section headed Requirements for Graduation.

Academic Progress, Probation, and Dismissal
When a student’s semester or cumulative GPA is below 2.0, or progress toward degree completion is unsatisfactory, the student will be warned, placed on academic probation, or dismissed in accordance with the University’s or School of Business Administration’s policies and procedures:

- Warning: semester GPA lower than 2.0 but cumulative GPA above 2.0
- Probation: cumulative GPA lower than 2.0
- Probation with Dismissal: two consecutive semesters with cumulative GPA lower than 2.0, or failure to make progress toward degree completion
- Failure to make progress toward degree completion includes, but is not be limited to:
  - failure to complete enough credit hours in the business degree program to graduate after ten regular semesters of enrollment
  - failure to maintain a GPA sufficiently high to permit graduation in the ordinary course with the minimum 2.5 GPA.
• failure in any business course the student repeats pursuant to the University’s General Repeat Rule or otherwise.
• failure to pass the required calculus course (MAS 110 or MTH 161 for the BBA degree, MTH 161 for the BSBA degree) by the fourth semester.

• A student on probation is not permitted to enroll in more than four courses (no more than 13 credit hours) and may have an electronic hold placed upon future enrollment until grades for work-in-progress are reviewed by the School of Business Academic Standards Committee.

• A student who is dismissed for failure to satisfactorily complete required business core courses, or for failure to make progress toward the degree, may not automatically be dismissed from the University. Accordingly, such a student may apply to another School or College within the University, and if accepted, may continue as an undergraduate student at the University of Miami. For such a student who is not accepted by another School or College, dismissal from the School of Business Administration may have the incidental effect of dismissal from the University of Miami as well.

University Repeat Rule in the School of Business Administration
The University’s rules regarding repeating courses may be viewed in the General University Information pages of this Bulletin, which explain the Undergraduate Academic Procedures and Information on Repeat Rules (p. ). The following policy is applied specifically to business students taking advantage of the University’s Repeat Rule:

• The summer sessions are not counted as semesters, either individually or together, in determining the last semester in which a student may elect to repeat a course in which a “D” or “F” grade is earned under the University Repeat policy.

• A student who wishes to take advantage of the University Repeat Rule policy must complete a Repeat Rule Request Form, which is available from the student’s academic advisor in the School of Business Administration, Office of Undergraduate Business Education. For additional information about the application of the Repeat Rule in the School of Business Administration, consult an academic advisor in the Office of Undergraduate Business Education.

Readmission
The requirements for readmission may be viewed in the General Information, Student Status (p. ) section of this Bulletin. The following special conditions related to readmission are also in effect for the School of Business Administration:

• A student requesting readmission, who was previously dismissed for academic reasons or who had below a 2.0 cumulative GPA, must present adequate evidence that the conditions and/or factors that caused the prior poor academic performance have changed sufficiently and that there is a reasonable expectation of satisfactory performance if the student is permitted to resume study in the School of Business Administration.

• A student dismissed for nonacademic reasons must provide written authorization from the Dean of Students’ Office before re-enrollment will be permitted.

• A business student who did not earn at least a C grade in MAS 110 or MTH 161 will not be readmitted to the School of Business Administration.

• A student seeking readmission may have conditions placed upon any such readmission. Failure to satisfactorily accomplish the stated conditions may result in dismissal or the student otherwise not being permitted to register for future semesters.

Changes to Academic Requirements
The School of Business Administration reserves the right to change academic requirements including course offerings, minimum grade requirements, and minimum required grade point averages, to ensure that students are receiving the latest knowledge and are maintaining the standards necessary to be professionally competitive. Changes are communicated to students either by written or electronic notice, or personally by their academic advisors.

Requirements for Graduation
Residency and Other Graduation Requirements
In addition to meeting the graduation requirements as set out in Degree Programs, below, a candidate for either the BBA or BSBA degree must complete the last 45 credit hours consecutively and exclusively in degree-seeking status in residence at the School of Business Administration, University of Miami. Credit by examination may not be used to meet the residency requirement. In addition, a minimum of 120 credit hours is required for graduation, not including ENG 103, TAL 191, MTH 099, or any UMI Internship course. The student’s last 56 credit hours must be completed at a four-year institution.

After being admitted to the University of Miami, students must complete all business coursework in residence, including coursework required by the Business Core and specific coursework for the business major and minor areas of specialization. This policy applies equally to non-business students completing minor areas of specialization in the School of Business Administration. Any appeal for an exception to this policy must be submitted in writing to the Office of Undergraduate Business Education.

Age of Credit Hours
Credit hours more than 12 years old are not recognized for degree purposes.

Grade Point Average (GPA)
To graduate, business students must earn a minimum cumulative grade point average (GPA) of 2.5 in all undergraduate courses taken (combined UM and transfer coursework) and must also earn a minimum cumulative GPA of 2.5 in all undergraduate courses taken at the University of Miami. (See the General University Information page in this Bulletin regarding Grades (p. 20).) Each major and/or minor area of specialization within the School of Business Administration has its own set of requirements regarding minimum GPA, both for individual courses in the major/minor area of specialization and with regard to the cumulative GPA in the specific coursework required for the major/minor area of specialization. Students are responsible for understanding the minimum GPA requirements for their proposed major/minor area(s) of specialization.

Degree Programs
Bachelor of Business Administration (BBA)
All BBA students must complete areas A, B, C, D, and E as listed below. All courses, except some of those in area D, must be taken for graded credit.
A. University of Miami’s General Education Requirements

The School of Business Administration participates in the University’s General Education requirements (p. 18). See descriptions in the General University Information section of this Academic Bulletin.

All students must satisfy the University’s general education Areas of Proficiency: English composition (ENG 105 and ENG 106), Advanced Writing and Communication Skills (School-based program described below), and Quantitative Skills (MAS 110 or any Department of Mathematics course numbered MTH 108 or higher). In addition, all undergraduate students must satisfy the University’s general education distribution requirements in three Areas of Knowledge. Every BBA student must complete a cognate designated Arts & Humanities (A&H) outside the School of Business Administration. As each business major and minor fulfills a cognate requirement in one Area of Knowledge, depending on the Area of Knowledge of the student’s major(s) and any minor(s), an additional cognate in either People & Society (P&S), or Science, Technology, Engineering, and Mathematics (STEM) may also be required of the BBA student. Students are required to declare their cognates with the Office of Undergraduate Business Education prior to the start of the junior year.

The School of Business Administration’s program establishing Advanced Writing and Communication Skills proficiency for business requires students to successfully complete the following courses beyond the basic English composition courses, ENG 105 and ENG 106: BSL 212 and BUS 300. Any student who does not complete ENG 106 with at least a C- is required either to repeat ENG 106 and earn at least a C- or complete ENG 230, Advanced Professional Communication, with at least a C- before enrolling in BUS 300.

The University Quantitative Skills proficiency requirement is satisfied within the BBA degree requirements upon successful completion of MAS 110 or MTH 161 (or a MTH 161 equivalent).

Total Credit Hours: 51

NOTE: ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

NOTE: MAS 110/MTH 161 and MAS 201 must be completed with a "C-" or better.

C. Major and Minor Areas of Specialization - Requirements

All BBA students must complete at least one major area of specialization in the School of Business Administration. Additionally, students may elect to complete a minor area of specialization either in the School of Business Administration or in another School or College within the University. For specific information on minors offered by other Schools and Colleges of the University of Miami, please refer to the applicable College, School, or Department section within this Academic Bulletin.

Requirements for the major and minor areas of specialization are specified by each academic department. Every course completed in satisfaction of either a major or minor area of specialization must be taken for a grade and a grade of "C-" or higher earned, unless specified differently by the department. GPA minima for each business area of specialization are set by the departments. Please refer to the relevant page for the major/minor area of specialization.

Business students are permitted to pursue more than one (business or other) major in distinct areas of specialization; however, completion of all required coursework is dependent upon careful sequencing. No course may be counted toward more than one major area of specialization or toward a major and a minor area of specialization, except a course that is specifically listed by number as required for both major areas of specialization and/or a major and a minor area of specialization. In this case, an alternate course may be required for the additional major and/or minor. The courses of choice required for one major or minor area of specialization may not be utilized to satisfy courses of choice requirements for a second major and/or minor area of specialization. Consequently, students should understand that completion of more than one major and/or minor area of specialization may necessitate the completion of more than 120 credit hours or more than eight semesters of study for graduation.

Business students may choose to pursue a second major (also referred to as an additional major) from the College of Arts and Sciences, the School of Communication, or the School of Education (certain majors only). No courses used to satisfy an additional major may be used to satisfy the requirements for a business major or minor area of specialization.

Major areas of specialization in the School of Business Administration are available only with completion of the required Business Core. A student in another School or College at the University of Miami pursuing a business degree as a “second degree” or “dual degree student” must meet the minimum requirements for transfer to the School of Business Administration, whether or not the student formally transfers to the School of Business Administration.
Students are required to declare their major area of specialization and minor area of specialization with the Office of Undergraduate Business Education prior to the start of their junior year.

### D. Electives (as needed to meet the minimum 120 credit hours)

All undergraduate courses offered by the University may be used as electives, with the following exceptions:

- ENG 103, TAL 191, MTH 099, and UMI 105-UMI 410, are offered for credit but do not count toward degree requirements. Nonetheless, the grade, if any, earned in any of these courses is included in the student’s cumulative GPA, and credit for the course is included in the student’s overall credit hours earned. Accordingly, these courses will serve to increase the total number of credit hours required to graduate.
- No more than 8 credit hours in applied music, including band, may be used.
- Any science course taken as an elective and used as preparation for entrance to medical school must be taken for a grade.

### E. International Focus Within the Curriculum

At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

---

**Bachelor of Science in Business Administration (BSBA)**

The BSBA degree in the School of Business Administration emphasizes quantitative foundation courses. All BSBA majors in the School of Business Administration must complete areas A, B, C, D, and E as listed below. All courses, except some of those in area D, must be taken for graded credit. (See the General University Information page in this Bulletin regarding Credit Only Option (p. 18).)

#### A. University of Miami’s General Education Requirements

The School of Business Administration participates in the University’s General Education requirements (p. 18). See descriptions in the General University Information section of this Academic Bulletin.

All students must satisfy the University’s general education Areas of Proficiency: English composition (ENG 105 and ENG 106), Advanced Writing and Communication Skills (School-based program described below), and Quantitative Skills (any Department of Mathematics course numbered MTH 108 or higher). In addition, all undergraduate students must satisfy the University’s general education distribution requirements in three Areas of Knowledge. Every BSBA student must complete a cognate designated Arts & Humanities (A&H) outside the School of Business Administration. As each business major and minor fulfills a cognate requirement in one Area of Knowledge, depending on the Area of Knowledge of the student’s major(s) and any minor(s), an additional cognate in either People & Society (P&S), or Science, Technology, Engineering, and Mathematics (STEM) may also be required of the BSBA student. Students are required to declare their cognates with the Office of Undergraduate Business Education prior to the start of the junior year.

The School of Business Administration’s program establishing Advanced Writing and Communication Skills proficiency for business requires students to successfully complete the following courses beyond the basic English composition courses, ENG 105 and ENG 106: BSL 212 and BUS 300. Any student who does not complete ENG 106 with at least a C is required to either repeat ENG 106 and earn at least a C or complete ENG 230, Advanced Professional Communication, with at least a C before enrolling in BUS 300.

The University Quantitative Skills proficiency requirement is satisfied within the BSBA degree requirements upon successful completion of MTH 161 (or a MTH 161 equivalent).

than one major and/or minor area of specialization may necessitate the completion of more than 120 credit hours or more than eight semesters of study for graduation.

Business students may choose to pursue a second major (also referred to as an additional major) from the College of Arts and Sciences, the School of Communication, or the School of Education (certain majors only). No courses used to satisfy an additional major may be used to satisfy the requirements for a business major or minor area of specialization.

Major areas of specialization in the School of Business Administration are available only with completion of the required Business Core. A student in another School or College at the University of Miami pursuing a business degree as a “second degree” or “dual degree student” must meet the minimum requirements for transfer to the School of Business Administration, whether or not the student formally transfers to the School of Business Administration.

Students are required to declare their major area of specialization and minor area of specialization with the Office of Undergraduate Business Education prior to the start of their junior year.

**NOTE:** ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester the student is completing 75 credit hours.

**NOTE:** MTH 161 and MAS 311 must be completed with a “C-” or better.

### C. Major and Minor Areas of Specialization - Requirements

All BSBA students must complete at least one major area of specialization in the School of Business Administration. Additionally, students may elect to complete a minor area of specialization either in the School of Business Administration or in another School or College within the University. For specific information on minors offered by other Schools and Colleges of the University of Miami, please refer to the applicable College, School, or Department section within this Academic Bulletin.

Requirements for the major and minor areas of specialization are specified by each academic department. Every course completed in satisfaction of either a major or minor area of specialization must be taken for a grade and a grade of “C-” or higher earned, unless specified differently by the department. GPA minima for each business area of specialization are set by the departments. Please refer to the relevant page for the major/minor area of specialization.

Business students are permitted to pursue more than one (business or other) major in distinct areas of specialization; however, completion of all required coursework is dependent upon careful sequencing. No course may be counted toward more than one major area of specialization or toward a major and a minor area of specialization, except a course that is specifically listed by number as required for both major areas of specialization and/or a major and a minor area of specialization. In this case, an alternate course may be required for the additional major and/or minor. The courses of choice required for one major or minor area of specialization may not be utilized to satisfy courses of choice requirements for a second major and/or minor area of specialization. Consequently, students should understand that completion of more than one major and/or minor area of specialization may necessitate the completion of requirements for both majors or minors.

**NOTE:** MTH 161 and MAS 311 must be completed with a “C-” or better.
D. Electives (as needed to meet the minimum 120 credit hours)
All undergraduate courses offered by the University may be used as electives with the following exceptions:

• ENG 103, TAL 191, MTH 099, and UMI 105-UMI 410, are offered for credit but do not count toward degree requirements. Nonetheless, the grade, if any, earned in any of these courses is included in the student’s cumulative GPA, and credit for the course is included in the student’s overall credit hours earned. Accordingly, these courses will serve to increase the total number of credit hours required to graduate.

• No more than 8 credit hours in applied music, including band, may be used.

• Any science course taken as an elective and used in preparation for entrance to medical school must be taken for a grade.

E. International Focus Within the Curriculum
At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

Honors
Foote Fellow Honors Program
The Foote Fellows Honors Program recognizes the most educationally accomplished incoming students at the University of Miami. Admission to the Foote Fellows Honors Program is by invitation only.

Graduation (Latin) Honors
• Students who qualify based on their cumulative GPA and class rank will graduate with University Honors: cum laude, magna cum laude, or summa cum laude.

• For details consult an academic advisor in the Office of Undergraduate Business Education and the University Honors Program Office (http://www.miami.edu/index.php/honors_program_home).

General Business Honors, School of Business Administration
Graduation with General Business Honors requires:

• Completion of all of the requirements of the BSBA degree program; and

• A minimum 3.75 cumulative GPA at graduation.

For details, consult an academic advisor in the Office of Undergraduate Business Education.

Departmental Honors in Business
Graduation with Departmental Honors requires:

• A minimum 3.9 GPA in School of Business Administration courses at the end of the junior year; and

• Completion of a 3-credit hour research project during the entire senior year on a topic that is of interest to both the faculty member supervising the research and the student responsible for completing it. The research and written deliverable must be deemed to be of exceptional quality, consistent with the workload of a 3-credit upper level independent study course, and worthy of a designation that is only open to the top 1% of Business School undergraduates; and

• A minimum 3.9 GPA in all School of Business Administration courses at graduation; and

• Any other requirements, if any, established by the Department granting honors, as set forth in this Academic Bulletin.

Students who major in two distinct areas of specialization may complete their honors research project in the department of either business major specialization. Students pursuing the International Finance and Marketing major area of specialization, may complete their research project in either department.

The 3-credit hour research project class is taken for “credit only” and does not count toward the 120-credit hours required for graduation. Students who begin a research project but do not complete it will be retroactively withdrawn from the research course. Students receive credit for the project only if the work is deemed to be of exceptional quality.

Details related to Departmental Honors are available in the Office of Undergraduate Business Education.

Business Honor Societies
Students may be nominated for or elected into an honor society based on specific criteria. Contact the listed department for additional information.

• Beta Gamma Sigma (Highest Honors in Business) (Undergraduate Business Education (http://bus.miami.edu/undergraduate-programs))

• Beta Alpha Psi (Department of Accounting (http://bus.miami.edu/faculty-and-research/academic-departments/accounting/contact-us))

• Omicron Delta Epsilon (Department of Economics (http://bus.miami.edu/faculty-and-research/academic-departments/economics/contact-us))

Majors for Business Students

• B.B.A. in Accounting (p. 218)

• B.S.B.A. in Accounting (p. 219)

• B.S.B.A. in Business Analytics (p. 267)

• B.B.A. in Business Technology (p. 226)

• B.S.B.A. in Business Technology (p. 228)

• B.B.A. in Economics (p. 231)

• B.S.B.A. in Economics (p. 233)

• B.B.A. in Entrepreneurship (p. 254)

• B.S.B.A. in Entrepreneurship (p. 260)

• B.B.A. in Finance (p. 238)

• B.S.B.A. in Finance (p. 243)

• B.B.A. in Health Sector Management and Policy (p. 250)

• B.S.B.A. in Health Sector Management and Policy (p. 252)

• B.B.A. in Human Resource Management (p. 256)

• B.S.B.A. in Human Resource Management (p. 262)

• B.B.A. in International Finance and Marketing (p. 239)

• B.S.B.A. in International Finance and Marketing (p. 245)

• B.B.A. in Legal Studies (p. 222)

• B.S.B.A. in Legal Studies (p. 224)

• B.B.A. in Management (p. 258)

• B.S.B.A. in Management (p. 263)

• B.B.A. in Marketing (p. 269)

• B.S.B.A. in Marketing (p. 271)

• B.B.A. in Real Estate (p. 241)
• B.S.B.A. in Real Estate (p. 247)

Minors for Business Students

• Accounting (p. 221)
• Business Analytics (p. 269)
• Business Law (p. 225)
• Business Technology (p. 230)
• Economics for Business Students (p. 236)
• Entrepreneurship for Business Students (p. 265)
• Finance (p. 249)
• Health Sector Management and Policy (p. 253)
• International Business
• Management for Business Students (p. 266)
• Marketing for Business Students (p. 274)
• Real Estate

Minors for Non-Business Students

• Business Law (p. 225)
• Business Technology (p. 230)
• Economics for Non-Business Students (p. 237)
• Entrepreneurship for Non-Business Students (p. 266)
• Finance (p. 249)
• Health Sector Management and Policy (p. 253)
• Management for Non-Business Students (p. 266)
• Marketing for Non-Business Students (p. 274)

The Global Business Studies Program: Latin America (People & Society)

The Global Business Studies Program (https://www.bus.miami.edu/undergraduate-programs/curriculum/majors/global-business) is a co-major option for incoming Business freshman, who apply and are selected. The co-major is not available to continuing or transfer students. Students in the program simultaneously pursue a major in a functional area of Business and, in the co-major, region-specific global studies coursework.

Curriculum for Co-major in Global Business Studies (21-27 credit hours)

1. Introduction to the region (3 credit hours)
2. Demonstrated proficiency in the language of the region, or where this is not feasible, at least one language course at the 200 level or above (min. 3 credit hours) Students may demonstrate language proficiency by completing business coursework delivered in the language of the region selected.
3. Economics of the region (3 credit hours)
4. Political and/or Regulatory Environment of the region (3 credit hours)
5. History of the region (3 credit hours)
6. Introduction to International Business (Standard course is MGT 349. Recommended alternatives: MGT "Doing Business in [the Region]" where available, or other approved business course in-country) (total of 3 credit hours)
7. Seminar & Senior Thesis (6 credit hours)

Minors for Business Students

• Culminates in a written research paper examining a significant problem or proposal for a particular country, approached from an interdisciplinary standpoint
• Carried out under the supervision of one or more faculty members
• Oral presentation of the student’s findings and recommendations also required
• Required internship or directed study in-country may allow for field research
8. Minimum of one semester “study abroad” in the studied region is required.
• Students may choose to satisfy the co-major’s economics and/or history and/or politics/regulation course requirement in-country.

Minor Area of Specialization in International Business (People & Society)

The International Business minor provides business students an interdisciplinary perspective of international business to augment their studies in other areas of business specialization. The International Business minor may not be taken by students pursuing the International Finance and Marketing major or by non-business students. Students must complete all pre-requisite courses before enrolling in required International Business minor courses.

The International Business minor consists of 12 credit hours as follows:

<table>

must complete:
The student who wishes to pursue the BBA or BSBA in General Business Specialization Curriculum for the General Business Major Area of relevant faculty or administrators for advice where indicated.

and assistance with course choices, and to connect the student to other to oversee the student's chosen academic program, provide feedback required. The student, however, must consult with his/her School of Business academic advisor to select the General Business major. No additional admission or application is required. Any BBA or BSBA degree-seeking student may pursue the customized and compete in a dynamic economic marketplace.

The General Business major allows students in the School of Business Administration to tailor an area of business specialization creatively and to seek and develop connections among the business disciplines in ways that will suit their own academic interests and graduate school or career objectives. Building upon the strong foundation provided by the Business Core, students pursuing this program of study will be motivated to craft a unique business specialization that enhances their ability to respond to and compete in a dynamic economic marketplace.

Any BBA or BSBA degree-seeking student may pursue the customized General Business major. No additional admission or application is required. The student, however, must consult with his/her School of Business academic advisor in order to select the General Business major. A three-person committee comprised of at least one faculty member and at least one undergraduate business academic advisor will be appointed by the Undergraduate Business Education Committee to oversee the student's chosen academic program, provide feedback and assistance with course choices, and to connect the student to other relevant faculty or administrators for advice where indicated.

Curriculum for the General Business Major Area of Specialization
The student who wishes to pursue the BBA or BSBA in General Business must complete:

1. all University general education requirements, unless exempt (e.g. Foote Fellows), and
2. the Business Core requirements for either the BBA or the BSBA, including the international focus course, and
3. a minimum of 18 additional credit hours of upper-level (300-500 level) coursework chosen from among the course offerings in the School of Business Administration. The specific coursework selected to satisfy the General Business major may not be utilized to also satisfy the Business Core or the specific coursework requirements for any other major or minor area of specialization in Business. All coursework must be taken for a grade and within the current pre-requisite structure.

A minimum of 120 credit hours is required for graduation. The General Business major area of specialization may fulfill either the People & Society or the STEM general education Area of Knowledge, based upon the preponderance of the specific coursework pursued and with the approval of the advising committee.

Cognate for Non-Business Students (People & Society)
The School of Business Administration offers a general business cognate to non-business students: Understanding Business. Completion of this cognate fulfills the University’s General Education requirement of a cognate in the Area of Knowledge labeled People & Society (P&S).

This cognate offers students an overview of the business environment with the goal of promoting awareness and understanding of the real-world issues that affect the global economy in the twenty-first century. Courses in the cognate deliver the essential business concepts that enable critical consideration of the questions that confront decision makers in the various functional areas of business. Students declare the cognate via their advisor at their home school or college.

The Understanding Business cognate consists of the following courses:

<table>
<thead>
<tr>
<th>Required Course</th>
<th>Options 2</th>
</tr>
</thead>
<tbody>
<tr>
<td>BUS 200 Introduction To Business</td>
<td>3</td>
</tr>
<tr>
<td>Select two courses (6 credit hours) from the following:</td>
<td></td>
</tr>
<tr>
<td>BUS 201 Money</td>
<td></td>
</tr>
<tr>
<td>BUS 202 Introduction To The Legal Environment Of Business</td>
<td></td>
</tr>
<tr>
<td>BUS 203 Managing Effectively: A Skills Development Approach</td>
<td></td>
</tr>
<tr>
<td>BUS 206 PRINCIPLES OF INTERNATIONAL BUSINESS</td>
<td></td>
</tr>
<tr>
<td>FIN 300 Fundamentals of Finance for Non-Finance Majors</td>
<td></td>
</tr>
<tr>
<td>HIS 225 History of the Modern Business Enterprise</td>
<td></td>
</tr>
<tr>
<td>MGT 251 Nature and Foundations of Entrepreneurship</td>
<td></td>
</tr>
<tr>
<td>MKT 301 Marketing Foundations</td>
<td></td>
</tr>
<tr>
<td>Total Credit Hours</td>
<td>9</td>
</tr>
</tbody>
</table>

1 Course must be taken by all students pursuing the Understanding Business cognate before taking any other courses in the cognate.
2 To be taken after completing BUS 200. All courses must be taken within the current pre-requisite structure.

Minors for Non-Business Students
Students in other schools and colleges of the University may choose to pursue any of the following minor areas of specialization in the School of Business Administration by officially declaring the minor at their home school or college:

Minor Areas of Specialization
Business Law (P&S) (p. 225)
Business Technology (STEM) (p. 230)
Economics (P&S) (p. 237)
Entrepreneurship (P&S) (p. 266)
Finance (STEM) (p. 249)
Students interested in completing a minor offered by the School of Business Administration should consult with an academic advisor in the School or College of their degree/major to determine if a business minor is acceptable. Neither advice nor consent from either the Office of Undergraduate Business Education or the relevant School of Business Administration department is necessary for a student to choose or complete a minor offered in the School of Business Administration. Instead the non-business student should simply declare the minor in CaneLink and complete the necessary specific coursework, according to the details listed in the appropriate department’s section of this Academic Bulletin and the following supplemental guidelines, which are applicable to all minors unless otherwise provided by the department offering the minor area of specialization:

All courses within the minor must be taken for a grade and completed with a grade of “C-” or higher. To be awarded the minor, the student must also achieve a minimum cumulative GPA of 2.0 in all minor courses, unless a higher grade or GPA is prescribed by the department offering the minor, as set out in that department’s section of this Academic Bulletin. All courses taken by the student in the department offering the minor will count toward the GPA in the minor.

**General Overview**

The Foote Fellows Honors Program recognizes the most educationally accomplished incoming students at the University of Miami. Foote Fellows have distinguished themselves both in and out of the classroom at their previous schools, are self-motivated, and think independently. Admission to the Foote Fellows Honors Program is by invitation.

Foote Fellows are exempt from the Cognates Program of General Education requirements. Within the curricular framework of their school or college, Foote Fellows enjoy unmatched freedom and flexibility to explore a multitude of educational resources. Many Foote Fellows leverage this opportunity to take additional majors and/or minors and to study abroad.

At each of the nine undergraduate schools at the University of Miami, a dedicated advisor helps Foote Fellows chart their academic path and attain access to distinctive learning opportunities at the University, such as special school-based seminars, faculty-mentored research, networking opportunities, and off-campus internships.

Foote Fellows also will be invited to join advanced, interdisciplinary Foote Fellow seminars taught by leading faculty members from across the University. An example is Books That Matter, a rigorous seminar in non-fiction reading that is offered in sessions for first-year and for upper-class students. Freshman Foote Fellows benefit from early move-in to the residential colleges. Further, Foote Fellows receive focused advising on post-baccalaureate distinguished fellowships and awards.

The Foote Fellows Honors Program reflects the educational vision of former University of Miami President Edward T. Foote, who retired in 2000 after serving the University for twenty years.

**Foote Fellows in Business**

As the best and brightest of each incoming class, School of Business Administration Foote Fellows are afforded the most stimulating academic and co-curricular experiences the School has to offer. They are invited to take part in Foote-only seminars, exclusive workshops on a variety of academic and career-oriented themes, and networking events with some of the School’s most honored speakers and guests.

Foote Fellows in the School of Business are expected to also engage, one-on-one, with business faculty, for at least one (1) semester, in cutting-edge research projects that culminate in a series of collaborative workshops as well as potential publications. Unsurprisingly, then, Foote Fellows frequently represent the School as ambassadors to elite conferences and as members of competitive teams vying for regional, national, and international recognition.

Business Foote Fellows also enjoy dedicated academic and co-curricular/career advisors, as well as opportunities for unique mentorship by prominent alumni.

**Accounting**

Department Code: ACC

**Introduction and Educational Objectives**

The objective of the program of studies in accounting is to prepare business students to make a smooth transition from college into a successful and meaningful career in the professional practice of accounting, whether it be in public, private, or governmental accounting. Because of the professional aspects of accounting, equal emphasis is placed upon general education in the arts and humanities and the functioning of business enterprises, as well as the basic underlying concepts of accounting.

**Educational Requirements to Sit for the CPA Exam**

Most of our students intend to become qualified as Certified Public Accountants (CPA). While the CPA exam is a national exam administered by the American Institute of Certified Public Accountants, its execution and CPA licensing practices are governed by state law. For example, some states require a certain number of credit hours in particular subjects and have overall accounting and business credit hour requirements. As such, you should check with the state in which you intend to practice to determine what the specific course requirements are for that state. Note: Our department is unable to make a determination of your eligibility to sit for the CPA exam. This can only be done by the appropriate state board. The licensure requirements for the State of Florida can be viewed at the Florida Department of Business and Professional Regulation website (http://www.myfloridalicense.com/dbpr/cpa/licensure.html).

For your convenience, the Florida rules that apply to most individuals are summarized here. Please check the State of Florida website (http://www.myfloridalicense.com/dbpr/cpa/licensure.html) for updates and rules which may apply in particular circumstances.

As of July 1, 2008 the Florida State Board of Accountancy (BOA) separated the requirements to become a Certified Public Accountant (CPA) into two parts:

1. the requirements to be eligible to take the CPA exam and
2. the requirements for licensure to practice as a CPA in Florida.

Requirements to Sit for the CPA Exam
To be eligible to take the CPA exam, you must have completed at least 120 credit hours including 24 credit hours of accounting (auditing, cost and managerial accounting, financial accounting, accounting information systems, and taxation) at the upper division (300-level or above) and 24 credit hours in upper division general business courses with some exceptions in that one microeconomics, one macroeconomics, one statistics, one business law, and one introduction to computers course may be lower division. As part of the general business credit hours, applicants are required to have a total of 6 credit hours of business law courses, which must cover contracts, torts, and the Uniform Commercial Code. Excess upper division accounting courses may be used to meet the general business requirement; however, elementary accounting classes are never acceptable toward the required credit hours nor are courses for non-accounting majors and any MBA courses that are equivalent to elementary accounting. The exam is offered in the following time periods; January – February, April – May, July – August and October – November.

Note: you do not have to have a bachelor’s degree in order to sit for the CPA exam.

Requirements for Licensure
In addition to passing all four parts of the CPA exam with at least a 75% within an 18 month rolling period, the BOA requires that you have completed a bachelor’s degree plus an additional 30 credit hours for a total of 150 credit hours before you can become licensed as a CPA. One year of work experience under the supervision of a licensed CPA is now also required to become licensed. (This experience may be obtained before or after sitting for the exam; however, all requirements to sit for the exam must be met before the work experience commences.) If you fail to apply for licensure within three years of receiving the licensure package, (sent after you pass all four parts) the CPA grades expire and you have to retake the examination.

The 150 credit hours must include a minimum of 36 credit hours of accounting courses at the 300-level or above and at least 39 credit hours of general business courses at the 300-level or above (with some exceptions). Excess upper division accounting courses may be used to meet the general business requirement. Courses for non-accounting majors and any MBA courses that are equivalent to elementary accounting are not accepted for this requirement.

Licensed in Another State
If you are licensed in a state other than Florida you can obtain a license in Florida by a process called endorsement. You must provide evidence of meeting all of the requirements in effect at the time of your application. In addition, if you passed the exam more than two years before applying you must provide evidence of meeting continuing professional education requirements.

Accreditation
The Board accepts degrees from schools accredited by the following associations: Middle States Association, New England Association, North Central Association, Northwest Association, Southern Association of Colleges and Schools, Western Association of Schools and Colleges, Association of Independent Schools and Colleges who have been approved by the Florida State Board of Independent Colleges and Universities, and Canadian Schools who have been approved by their provincial educational bodies. If you have graduated from a school or college which is not accredited by the above-mentioned means, then you must use the provisions of F.A.C. 61H1-27.001(5).

Duplicate Courses
- No credit will be given for courses which duplicate another course for which the applicant has received credit. CPA review courses are considered as duplicates.
- For the CPA requirements in other states, you should consult the State Board of Accountancy for your state.

The Fifth Year Option
Many of our graduates satisfy the 30 credit hour requirement for the CPA by continuing on for a fifth year during which time they also can complete the requirements for either the Master of Accounting (MAcc) or Master of Science in Taxation (MST) degree. While the programs are similar in that they offer an opportunity to concentrate in accounting, they differ in degree of specialization and career path orientation. The MAcc program offers two tracks: Assurance (MAcc-Assurance) for students planning to go into public accounting and Corporate Accounting (MAcc-Corporate) for students planning careers as controllers/CFOs or financial analysts. The MST is designed for students interested in careers requiring a high degree of specialized tax knowledge in public accounting, private industry, and government. Students interested in these programs should consult with the Program Director in the Department of Accounting.

Major in Accounting
- B.B.A. in Accounting (p. 218)
- B.S.B.A. in Accounting (p. 219)

Minor in Accounting
- Accounting (p. 221)

Special Programs
- Accelerated Accounting Programs (p. 216)
- Five-Year Accounting Program with Senior-Year Internship (p. 221)

Accelerated Accounting Programs

Accelerated Master’s Programs
In addition to offering the Master of Accounting (MAcc) and Master of Science in Taxation (MST) in the usual time frame involving one year of full-time study beyond the Bachelor’s level, the MAcc-Assurance Track, MAcc-Corporate Track, and MST are offered as accelerated programs. These programs permit high achieving accounting students who have accelerated their education by taking advanced courses in high school, testing out of classes, taking increased class loads, or going to summer school, to start their graduate work while in the senior year.

The accelerated programs are available only to students who are undergraduate students at the University of Miami School of Business Administration. The programs are designed in such a way that students can expect to complete both their Bachelor’s and Master’s degrees and make significant progress on the CPA exam (if not complete it entirely) within 4½ years. In addition, these programs are extremely price competitive.

Accelerated Program Timeline
1. Internship in summer after junior year
2. Twelve credit hours of work in senior year will count towards the MAcc or MST degree (only students in the accelerated programs are eligible to take these classes during their senior year).
3. In summer after senior year take one graduate course, CPA review course, and the CPA exam.
4. Complete remaining credit hours of graduate work in fall semester after senior year.

**Pre-requisites**
The following must be completed before students begin their senior year:

- A minimum of 102 credit hours
- All undergraduate degree requirements except for those that can be completed in the senior year
- FIN 303 before or during senior year (for those students who intend to select the MAcc-Corporate track)
- Note: MGT 401 must be completed in the final semester of the undergraduate program.
- The following Accounting major requirements must be taken prior to senior year:
  - ACC 301
  - ACC 406
  - ACC 411
  - ACC 506
  - ACC 522
  - ACC 530
  - ACC 648
  - BSL 691
  - BUS 602
  - BUS 603
  - FIN 303
  - MGT 401

**Senior Year Curriculum (Senior-Graduate Status)**
The program-specific curriculum for the senior year is the same for all tracks (except that students selecting the MAcc-Corporate track must complete FIN 303 in order to take the graduate finance courses required for the track) and consists of the following courses:

<table>

</tbody>
</table>

**Select one additional non-accounting undergraduate course approved by Program Director**

| Total Credit Hours | 30 |

1. Program requirements are subject to change. Not all courses are offered every semester or term. Consult the Program Director for the recommended sequence.
2. Both ACC 301 and ACC 404 are required courses. One of these two courses is completed in the junior year. The remaining course must be completed in the senior year.

Students must select their track (MAcc-Assurance, MAcc-Corporate, or MST) by the spring semester of their senior year before registering for their final fall graduate classes.

**Summer after Senior Year**
Students must take one graduate accounting course during the summer following their senior year. Accounting courses are offered based on demand and could include ACC 620 (offered every summer) or ACC 649.

Students are also **REQUIRED** to take an approved CPA review course during the summer following their senior year after graduation. Students who do not take a CPA review course must complete an additional six graduate credit hours which will likely delay graduation from December to the following May. Students are expected to pass part, if not all, of the CPA exam during this summer.

**Final Fall Semester**
In the final fall semester students will complete the remaining 15 or 16 graduate credit hours including the requirements for their track and electives selected in consultation with the Program Director in the Department of Accounting.

**Admission to the Accelerated Master’s Programs**

**Incoming Freshmen**

- Prospective students may apply to the accelerated program when they apply for admission to the University of Miami.
- SAT Reading and Math combined scores should meet or exceed 1400; high school unweighted GPA should meet or exceed 3.75.
- Students are required to have a cumulative and an accounting major GPA of 3.3 or higher by their junior at the University of Miami. Students must then maintain a cumulative GPA of 3.3 or higher and an accounting major GPA of 3.3 or higher to remain in the program.
- Students who do not maintain the expected GPA may be placed on probation or transferred out of the program.
- Students will need to have completed a minimum of 102 credit hours by the start of their senior year.

**Current University of Miami Undergraduate Accounting Majors**

- Students should apply to the accelerated program by September 30 of their junior year.
- Admission to the program will be based on GPA, letters of recommendation, and performance in upper division (300-level or above) accounting courses in progress or completed. It is expected that the students admitted to the program will have GPAs exceeding 3.3, but students with these scores are not guaranteed admission. The decision will depend on the quality and size of the...

**Total Credit Hours**

120

---

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.
2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.
3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.
4. To continue as an accounting major, a student must have a minimum cumulative GPA of 3.0 in accounting courses before enrolling in ACC 312. In subsequent coursework specific to the Accounting major area of specialization, including ACC 312, a grade of "C-" or better is acceptable as long as the overall GPA in the major is a 2.0.

**Sample Plan of Study**

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

**Sample Plan of Study**

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.
The Five-Year Accounting Program with Senior-Year Internship is intended to allow exceptional students to acquire both undergraduate and graduate accounting degrees in five years while gaining valuable experience working at a full-time internship in the spring semester of their senior year. Students will also take a CPA review course and sit for the CPA exam so they can pass some (if not all) parts of the exam before they graduate with their Master of Accounting or Master of Science in Taxation degree.

**Program Timeline**

1. Junior Year: Complete an application to the program and apply for an internship position to take place in the spring of senior year.
2. Fall semester of Senior Year: Submit the internship agreement and apply to graduate school.
3. Spring semester of Senior Year: Complete Internship followed by 9 credit hours of coursework to complete the undergraduate degree and Accounting major.
4. Summer following Senior Year: Take CPA review and exam.
5. Fall semester following Senior Year: Begin the Master of Accounting (MAcc) or Master of Science in Taxation (MST) Program.

**Pre-requisites**

The program is designed for University of Miami School of Business Administration undergraduate students who are pursuing the accounting major and who have a cumulative GPA of at least 3.2 at the time of application. Admission to the program is based on several criteria, so a 3.2 GPA does not guarantee admission. Students should discuss the program and their academic plan for entering the program with an academic advisor in the Office of Undergraduate Business Education or with the Program Director in the Department of Accounting. Prior to the spring semester of their senior year, students will need to have completed all undergraduate degree requirements, except for two accounting major courses and MGT 401.

**Senior Year Spring Semester Curriculum**

In the first half of the spring semester of the senior year, students will work full-time in an accounting internship for which they can receive 3 credit hours toward their undergraduate degree (ACC 550). Additionally, in the spring semester of their senior year, students will take 9 credit hours in three specially-designed short-duration courses that include two accounting major courses and MGT 401.

**Summer, Fall, and Spring after Senior Year**

In the summer after their senior year, students will have the opportunity to take a CPA review course and sit for the CPA exam. Students will complete their Master of Accounting or Master of Science in Taxation in the fall and spring semesters after senior year and begin working that following summer or fall.

**Admission to the Five-Year Accounting Program with Senior-Year Internship**

- Students must apply to the program in their junior year and obtain an “approved” internship through the Toppel Career Center.
- The internship must be scheduled to take place during the spring semester of their senior year.
- In the fall semester of their senior year, before registering for their senior-year spring classes, students must submit a copy of their internship agreement to the Program Director or Program Manager in the Department of Accounting.
- By the fall semester of their senior year, students must have applied for admission to the graduate program and submitted their verification deposit to pursue a Master of Accounting or Master of Science in Taxation degree in the fall semester immediately following their senior year.
- The GMAT will be waived for students admitted into the program.

**Minor in Accounting**

Minor Area of Specialization in Accounting (People & Society)

The Department of Accounting allows business students to earn a minor in Accounting. The Accounting minor is not available to non-business students.

Business students who choose to pursue the minor in Accounting must complete the following 9 credit hours of coursework in accordance with the current pre-requisite structure, which includes “Junior Status” and completion of ACC 211 and ACC 212:

<table>

pursuits. A flexible, inherently cross-disciplinary course of study, manager, preparing graduates to excel in a wide variety of business study enhances the interaction between legal counsel and the business with a major area of specialization in Legal Studies. This course of study has the additional pre-requisite of ACC 311.

### Business Law

**Department Code:** BSL

**Introduction**

The modern manager faces increasing legal implications in daily operations and in formulating business policy. Consequently, effective decision-making requires an appreciation of the social, ethical, economic, and political bases of law as it relates to business. Business law courses provide the student with fundamental insight into legal institutions, the regulatory environment, and the nature of legal discourse, as well as an array of substantive principles of law, including such areas as contracts, sales, business organizations, and domestic and international commercial relationships.

**Educational Objectives**

The primary goals of the Department of Business Law are to contribute to legal knowledge through conducting scholarly research, to disseminate it by publication in leading journals and law reviews, and to transmit knowledge to students and the larger UM-wide, business, and professional communities.

These goals both inform and drive the Department’s educational objectives, which focus on:

- instilling in students a strong sense of the legal and ethical issues permeating business;
- aiding students’ comprehension of the legal and regulatory environment as well as the ethical considerations and substantive laws that shape business practices and policies; and
- developing students’ analytical and problem solving ability, as well as their oral and written presentation skills.

**Major in Legal Studies**

- B.B.A. in Legal Studies (p. 222)
- B.S.B.A. in Legal Studies (p. 224)

**Minor in Business Law**

- Business Law (p. 225)

Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

**Curriculum Requirements**

Major Area of Specialization in Legal Studies (People & Society)

A student may pursue the Bachelor of Science in Business Administration (BSBA) with a major area of specialization in Legal Studies. This course of study facilitates the interaction between legal counsel and the business manager, preparing graduates to excel in a wide variety of business pursuits. A flexible, inherently cross-disciplinary course of study, the Legal Studies major can facilitate careers in such fields as risk management, compliance, human resources, marketing, finance and accounting, general business or non-profit management, health care, government, and small business ownership/entrepreneurship. For some, it may also provide an appropriate foundation for the professional study of law.

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BSBA in Legal Studies must complete the BSBA Business Core and the specific coursework for the Legal Studies major area of specialization as follows:

Minor Area of Specialization in Business Law (People & Society)

The Business Law minor is flexible, permitting business and non-business students alike to augment their studies with an appreciation of the role of law and ethics in global citizenship as well as in the student’s chosen corporate, creative, scientific, academic, professional, or personal endeavors. Students in the School of Business Administration, as well as students in the other schools and colleges of the University of Miami, pursue the minor in Business Law by officially declaring the minor at their home school or college and completing the coursework identified below. Interested non-business students, before declaring the minor, should consult with an academic advisor in the School or College of their
degree/major to determine if the minor in Business Law is acceptable. If so, neither advice nor consent from either the Office of Undergraduate Business Education or the Business Law Department is necessary.

The 12 credit hour minor in Business Law consists of the following (all courses must be completed within the current pre-requisite structure):

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>

NOTE: All specific coursework for the minor in Legal Studies must be completed with a grade of “C-” or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the minor area of specialization.

Business Technology

Department Code: BTE

Introduction

The Department of Business Technology serves the University as the focus for employing business technology and information management in the efficient solution of the entire range of business problems.

Today’s business and government organizations rely heavily upon information management for efficient administration and management. Collection, storage, and retrieval of data by computers are involved in the wide range of business activities including daily operations, management decision-making, and long-range planning. As the dependence of management on business technology grows, so does the need for business technology specialists. The courses and degree programs are described below.

Educational Objectives

The Business Technology major is designed to provide the student with the key information technology and management skills needed in today’s business environment, plus a firm grounding in the primary business areas in which these skills will be applied. Graduates of the program may qualify for entry-level positions as systems and/or information analysts, information security specialists, consultants, user support analysts, programmers, or other information management positions.

Major in Business Technology

- B.B.A. in Business Technology (p. 226)
- B.S.B.A. in Business Technology (p. 228)

Minor in Business Technology

- Business Technology (p. 230)

B.B.A. in Business Technology

Curriculum Requirements

Major Area of Specialization in Business Technology (STEM)

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BBA in Business Technology must complete the BBA Business Core and the specific coursework for the Business Technology major area of specialization as follows:

Major Area of Specialization in Business Technology

- B.S.B.A. in Business Technology (p. 228)
Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.

4. All specific coursework for the major in Business Technology must be completed with a grade of “C-” or higher. In addition, a minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major area of specialization. All courses must be completed within the current pre-requisite structure.
### B.S.B.A. in Business Technology

#### Curriculum Requirements

**Major Area of Specialization in Business Technology (STEM)**

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BSBA in Business Technology must complete the BSBA Business Core and the specific coursework for the Business Technology major area of specialization as follows:

<table>
<thead>
<tr>
<th>University General Education Requirements</th>
<th>1</th>
</tr>
</thead>
<tbody>
<tr>

### Minor in Business Technology

**Minor Area of Specialization in Business Technology (STEM)**

Students in the School of Business Administration, as well as students in the other schools and colleges of the University of Miami, may pursue the minor in Business Technology by officially declaring the minor at their home school or college and completing the coursework specified below. Interested non-business students, before declaring the minor, should consult with an academic advisor in the School or College of their degree/major to determine if the minor in Business Technology is acceptable. If so, neither advice nor consent from either the Office of Undergraduate Business Education or the Business Technology Department is necessary.

The 12 credit hour minor in Business Technology consists of the following:

#### Required Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BTE 320</td>
<td>Introduction to Programming</td>
<td>3</td>
</tr>
<tr>
<td>BTE 412</td>
<td>Foundations of Business Enterprise Technologies</td>
<td>3</td>
</tr>
</tbody>
</table>

#### Elective Courses for the Minor \(^1\)

Select two courses (6 credit hours) from the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BTE 324</td>
<td>Object-Oriented Programming (pre-requisite BTE 320)</td>
<td></td>
</tr>
<tr>
<td>BTE 360</td>
<td>Systems Analysis and Design</td>
<td></td>
</tr>
<tr>
<td>BTE 389</td>
<td>Launching High Technology Ventures</td>
<td></td>
</tr>
<tr>
<td>BTE 400</td>
<td>Web-Mobile-Cloud (pre-requisite BTE 320)</td>
<td></td>
</tr>
<tr>
<td>BTE 401</td>
<td>Computers In An Inter-Networked Society</td>
<td></td>
</tr>
</tbody>
</table>

---

\(^1\) All courses must be completed within the current pre-requisite structure.

**Note:** All specific coursework for the minor in Business Technology must be completed with a grade of "C-" or better. In addition, a minimum cumulative GPA of 2.5 is required for all specific coursework taken in the minor area of specialization.

### Economics

**Department Code: ECO**

#### Introduction and Educational Objectives

Economics uses the idea of optimizing behavior to provide a unified framework for studying human action. The economics curriculum is designed to give business students an understanding of economic theory and its application to a wide range of problems. The program provides excellent preparation for careers in business, government, and international agencies. It is particularly recommended for students planning graduate study or professional training in fields such as law, business, international studies, public administration, and economics.

A student pursuing the Economics major will select one of two possible tracks: Political Economy (the People and Society track) or Quantitative Economics (the Science, Technology, Mathematics, and Engineering track).

Members of the Department are prepared to counsel students in the selection of courses and in other matters relating to the preparation for careers. Economics may also be the major area of specialization of a
candidate for the Master of Arts (p. 591) and Doctor of Philosophy (p. 577) degrees. Consult the Graduate Academic Programs (p. 573) section of the Bulletin for general requirements of these programs of study.

**Major in Economics**
- B.B.A. in Economics (p. 231)
- B.S.B.A. in Economics (p. 233)

**Minors in Economics**
- Minor in Economics for Business Students (p. 236)
- Minor in Economics for Non-Business Students (p. 237)

**B.B.A. in Economics**

**Curriculum Requirements**

**Major Area of Specialization in Economics (People & Society or STEM)**

Students who wish to pursue the Economics major area of specialization will choose between two tracks: Political Economy (P&S) or Quantitative Economics (STEM).

In the Political Economy track, People and Society courses are predominant. In the Quantitative Economics track, Science, Technology, Engineering, and Mathematics courses are predominant.

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BBA in Economics must complete the BBA Business Core and the specific coursework for one of the Economics major tracks as follows:

<table>
<thead>
<tr>
<th>University General Education Requirements</th>
<th>3</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 105 English Composition I</td>

### B.S.B.A. in Economics Curriculum Requirements

**Major Area of Specialization in Economics (People & Society or STEM)**

Students who wish to pursue the Economics major area of specialization will choose between two tracks: Political Economy (P&S) or Quantitative Economics (STEM).

In the Political Economy track, People and Society courses are predominant. In the Quantitative Economics track, courses in Science, Technology, Engineering, and Mathematics are predominant.
In addition to satisfying the University General Education Requirements and Electives, students pursuing the BSBA in Economics must complete the BSBA Business Core and the specific coursework for one of the Economics major tracks as follows:

### University General Education Requirements
- **ENG 105** English Composition I 3
- **ENG 106** English Composition II 3
- **UMX 100** The University Of Miami Experience 0
- **Arts and Humanities Cognate Courses** 9
- **STEM or People and Society Cognate Courses** 9
- **Electives** 16

### BSBA Business Core Requirements
- **ACC 211** Principles of Financial Accounting 3
- **ACC 212** Managerial Accounting 3
- **BSL 212** Introduction to Business Law 3
- **BTE 210** Fundamentals Of Business Technology & Innovation 3
- **BTE 320** Introduction to Programming 3
- **BUS 101** First Step (Freshman Integrity, Responsibility, and Success through teamwork) 3
- **BUS 150** Business Analytics 3
- **BUS 300** Critical Thinking & Persuasion for Business 3
- **ECO 211** Economic Principles and Problems (Microeconomics) 3
- **ECO 212** Economic Principles and Problems (Macroeconomics) 3
- **FIN 302** Fundamentals of Finance 3
- **MAS 311** Applied Probability and Statistics (minimum grade of C- required) 3
- **MAS 312** Statistical Methods and Quality Control 3
- **MTH 161** Calculus I (minimum grade of C- required) 4
- **MTH 162** Calculus II 4
- **MGT 303** Operations Management 3
- **MGT 304** Organizational Behavior 3
- **MGT 401** Strategic Management (must be taken in the final semester) 3
- **MKT 201** Foundations of Marketing 3
- **MKT 301** Marketing Foundations 3

### Quantitative Elective - Select one of these suggested courses approved by the academic advisor:
- **BTE 324** Object-Oriented Programming 3
- **BTE 423** Database Management Systems 3
- **ECO 430** Applied Econometrics (may not double count as both the Quantitative elective and a major elective unless Economics is an additional major) 3
- **ECO 510** Mathematical Economics And Applications (may not double count as both the Quantitative elective and a major elective unless Economics is an additional major) 3
- **MAS 342** Introduction to Optimization and Decision Making 3
- **MAS 442** Stochastic Models in Operations Research 3
- **MAS 547** Computer Simulation Systems 3

### Major Area of Specialization in Economics
Choose either the Political Economy Track or the Quantitative Economics Track

#### Political Economy Track (People & Society)
- **ECO 211** Economic Principles and Problems (taken as part of the Business Core) 3
- **ECO 212** Economic Principles and Problems (taken as part of the Business Core) 3
- **ECO 302** Micro Economic Theory 3
- **ECO 303** Macro Economic Theory 3
- Major Elective Courses - Select four courses (12 credit hours) from the following:
  - **ECO 307** Public Finance and Fiscal Policy 3
  - **ECO 311** Labor Economics (I) 3
  - **ECO 345** Environmental Economics 3
  - **ECO 351** Economics of Developing Countries 3
  - **ECO 371** Latin America And The Global Economy 3
  - **ECO 379** ECONOMICS OF POVERTY 3
  - **ECO 386** Health Economics 3
  - **ECO 403** Contemporary Issues in Monetary Economics 3
  - **ECO 420** Economic Growth 3
  - **ECO 441** International Trade Theory 3
  - **ECO 442** International Monetary Economics 3
  - **ECO 443** Economic Analysis of Energy and Commodity Markets 3
  - **ECO 445** Global Economics: Trade and Currencies 3
  - **ECO 460** Industrial Organization 3
  - **ECO 499** Special Topics (those with "ECO 300 or ECO 302" listed as the pre-requisite) 3
  - **ECO 521** Graduate Macroeconomic Theory 3
  - **ECO 532** History of Economic Thought 3

A maximum of 6 credit hours of major electives may be selected from the following:
- **ECO 430** Applied Econometrics (additional pre-requisite of MAS 202 or MAS 312) 3
- **ECO 444** Game Theory in Economic Applications. (pre-requisite MTH 161 or equivalent) 3
- **ECO 499** Special Topics (Forecasting or Information Economics) 3
- **ECO 510** Mathematical Economics And Applications 3
- **ECO 512** Mathematical Economics (II) 3
- **ECO 520** Econometrics 3
- **ECO 533** Advanced Microeconomic Theory 3

#### Quantitative Economics Track (STEM)
- **ECO 211** Economic Principles and Problems (taken as part of the Business Core) 3
- **ECO 212** Economic Principles and Problems (taken as part of the Business Core) 3
- **ECO 302** Micro Economic Theory 3
- **ECO 303** Macro Economic Theory 3

- **MGT 445** Supply Chain Modeling and Analysis (pre-requisite of MGT 303) 3
- **MGT 446** Supply Chain Strategy 3
Major Elective Courses - Select four courses (12 credit hours) from the following:

- ECO 430 Applied Econometrics (additional pre-requisite of MAS 202 or MAS 312)
- ECO 444 Game Theory in Economic Applications. (pre-requisite MTH 161 or equivalent)
- ECO 499 Special Topics (Forecasting or Information Economics only)
- ECO 510 Mathematical Economics And Applications
- ECO 512 Mathematical Economics (II)
- ECO 520 Econometrics
- ECO 533 Advanced Microeconomic Theory

Total Credit Hours 120

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.

4. All specific coursework for the major area of specialization in Economics must be completed with a grade of "C-" or higher. A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the major area of specialization. All courses must be taken within the current pre-requisite structure.

5. Additional pre-requisite for ECO 510: MAS 311 or IEN 311 or MTH 224

Sample Plans of Study

This Sample Plan of Study represents one possible version of a new freshman Business student's 8-semester plan. The individual student's plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.
### Minor in Economics for Business Students

Minor Area of Specialization in Economics for Business Students (People & Society)

Business students may pursue a minor in Economics by taking 12 credit hours of Economics courses in addition to the Business Core courses ECO 211 and ECO 212 (total of 18 credits). All courses must be taken within the current pre-requisite structure.

#### Core Courses

- **ECO 211** Economic Principles and Problems (Taken as part of the Business Core, ECO 211 & ECO 212 are pre-requisites for all other Economics courses)
- **ECO 212** Economic Principles and Problems (Taken as part of the Business Core, ECO 211 & ECO 212 are pre-requisites for all other Economics courses)
Minor in Economics for Non-Business Students

Minor Area of Specialization in Economics for Non-Business Students (People & Society)

Non-Business students in any school or college may pursue a minor in Economics in the School of Business Administration. Interested students should consult with an academic advisor in the School or College of their degree/major to determine if the minor in Economics is acceptable. If so, neither advice nor consent from either the Office of Undergraduate Business Education or the Economics department is necessary for a student to choose or complete a minor in Economics. Instead the non-business student should simply declare the Economics minor and complete the required 15 credit hours of Economics courses, according to the following:

<table>
<thead>
<tr>
<th>Required Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 211 Economic Principles and Problems (Microeconomics) 3</td>
</tr>
<tr>
<td>ECO 212 Economic Principles and Problems (Macroeconomics) 3</td>

</tr>
</tbody>
</table>

1 Additional pre-requisite for ECO 300: MAS 110 or MTH 130 or MTH 141 or MTH 151 or MTH 161 or MTH 171 or an equivalent calculus course or higher
2 Additional pre-requisite for ECO 302: MTH 141 or MTH 151 or MTH 161 or MTH 171 or an equivalent Calculus 1 course or higher
3 All advanced courses in Economics (except for ECO 303 and ECO 444) require ECO 300 or the more technical version, ECO 302. Some specifically require ECO 302.

* NOTE: All specific coursework for the minor in Economics must be completed with a grade of "C-" or higher. A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the minor area of specialization.

Finance

Department Code: FIN

Introduction

The finance major is designed to prepare business students for a wide variety of careers. Because finance is focused on valuation and decision making, it is applicable to virtually every possible type of organization.

Educational Objectives

The finance discipline is focused on two primary issues. The first is determining value. The second is making the best decisions with respect to value. We study these issues in a variety of contexts and industries.

The three primary areas of finance are financial management, investments, and financial markets and intermediaries. Financial management focuses on how an organization can accomplish its mission. For example, a corporation seeks to create and maintain wealth, and a non-profit organization seeks to improve the world in some way. All organizations want to achieve their mission to the greatest extent possible, and that requires making the best decisions with respect to value. The area of investments studies the purchase and sale of financial securities, such as stocks, bonds, options, and futures from the point of view of an investor. Financial markets are created to facilitate the trading (buying/selling) of financial securities. Financial intermediaries sell claims on themselves to investors, such as stock, life insurance, or a bank deposit. Financial intermediaries then invest the money from such sales in other assets such as loans, real estate, or other financial securities.

Major Areas of Specialization

- Finance
- International Finance and Marketing
- Real Estate

Important Note: To be eligible for any of the three major specializations offered by the Finance Department, the following requirements must be met:

- A student must earn a grade of "B" (grade point of 3.0) or higher in FIN 302 (note that a grade of "B-" does not qualify).
- A student must have a cumulative University of Miami GPA of 2.5 or higher before enrolling in FIN 303 or FIN 320.
- All specific coursework for the major area of specialization must be completed with a grade of "C-" or higher (except for the minimum "B" grade required for FIN 302, as noted).
- A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the major area of specialization.
Minor Areas of Specialization

- Finance
- Real Estate

**B.B.A. in International Finance and Marketing**

**Major Area of Specialization in International Finance and Marketing (STEM)**

**Introduction**

The International Finance and Marketing major area of specialization is aimed at meeting the needs of business students seeking to pursue a career in international business, finance, and/or marketing.

**Educational Objectives**

The International Finance and Marketing major area of specialization is designed to prepare students for the most critical areas of decision making in international business. The objective is to provide business students with a comprehensive curriculum based on a strong program of international courses, and to create opportunities for access to multinational companies and the international business community.

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BBA in International Finance and Marketing must complete the BBA Business Core and the specific coursework for the International Finance and Marketing major area of specialization as follows:

**Curriculum Requirements**

| University General Education Requirements | 3 |
| ENG 105 | English Composition I | 3 |
B.B.A. in International Finance and Marketing

ENG 106  English Composition II  3
UMX 100  The University Of Miami Experience  0
Arts and Humanities Cognate Courses  9
People and Society Cognate Courses  9
Electives  24

BBA Business Core Requirements
ACC 211  Principles of Financial Accounting  3
ACC 212  Managerial Accounting  3
BSL 212  Introduction to Business Law  3
BTE 210  Fundamentals Of Business Technology & Innovation  3
BUS 101  First Step (Freshman Integrity, Responsibility, and Success through teamwork)  3
BUS 150  Business Analytics  3
BUS 300  Critical Thinking & Persuasion for Business  3
ECO 211  Economic Principles and Problems (Microeconomics)  3
ECO 212  Economic Principles and Problems (Macroeconomics)  3
FIN 302  Fundamentals of Finance  3
MAS 110  Quantitative Applications in Business (minimum grade of C required)  3
or MTH 161 Calculus I  3
MAS 201  Introduction to Business Statistics (minimum grade of C required)  3
MAS 202  Intermediate Business Statistics  3
MGT 303  Operations Management  3
MGT 304  Organizational Behavior  3
MGT 401  Strategic Management (must be taken in the final semester)  3
MKT 201  Foundations of Marketing  3
or MKT 301 Marketing Foundations  3

Major Area of Specialization in International Finance and Marketing
FIN 302  Fundamentals of Finance (taken as part of the Business Core - minimum grade of B required)  3
MKT 201  Foundations of Marketing (taken as part of the Business Core - minimum grade of B required)  3
FIN 320  Investment and Security Markets  3
FIN 330  International Finance  3
FIN 431  International Financial Management  3
MKT 302  Marketing Research and Market Analysis  3
MKT 360  International Marketing  3
MKT 469  International Marketing Management  3

Major Elective Course
Select one course (3 credit hours) at the 400 level from Finance departmental offerings.  3

Total Credit Hours  120

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.

4. In order to pursue a major in International Finance and Marketing, a student must earn a grade of "B" (grade point of 3.0) or higher in both FIN 302 and MKT 201/MKT 301 (note that a grade of "B" does not qualify), and must have a minimum cumulative University of Miami GPA of 2.5 before enrolling in FIN 303 or FIN 320.

5. All specific coursework for the major area of specialization in International Finance and Marketing must be completed with a grade of "C" or higher (except for the minimum "B" grade required for FIN 302 and MKT 201/MKT 301, as noted). A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the major area of specialization. All courses must be taken within the current pre-requisite structure.

6. No 300-level Finance course may be used to satisfy this requirement. Additionally, some 400-level Finance courses require FIN 303 as a pre-requisite.

BBA in International Finance and Marketing - Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

4. In order to pursue a major in International Finance and Marketing, a student must earn a grade of “B” (grade point of 3.0) or higher in both FIN 302 and MKT 201/MKT 301 (note that a grade of “B” does not qualify), and must have a minimum cumulative University of Miami GPA of 2.5 before enrolling in FIN 303 or FIN 320.

5. All specific coursework for the major area of specialization in International Finance and Marketing must be completed with a grade of “C” or higher (except for the minimum “B” grade required for FIN 302 and MKT 201/MKT 301, as noted). A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the major area of specialization. All courses must be taken within the current pre-requisite structure.

6. No 300-level Finance course may be used to satisfy this requirement. Additionally, some 400-level Finance courses require FIN 303 as a pre-requisite.
### B.B.A. in Real Estate

#### Introduction

The Real Estate area of study in the School of Business Administration is for business students seeking to apply the theoretical and analytical concepts of finance to real estate lending, investment, and development.

#### Educational Objectives

The importance of understanding developments in real estate and mortgage markets and the integration of real estate investments into the national and international economy have led to increased interest in this important field. The real estate major area of specialization strengthens ties with important segments of the business community and builds on the University’s strategic strengths in architecture (New Urbanism) and urban planning.

Business students pursuing the major area of specialization in Real Estate should consider taking the courses necessary to meet the requirements of the Urban Studies Minor (p. 204) (For more information, contact the Director of the Urban Studies Program. [http://www.as.miami.edu/urbanstudies/contact])

#### Curriculum Requirements

**Major Area of Specialization in Real Estate (STEM)**

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BBA in Real Estate must complete the BBA Business Core and the specific coursework for the Real Estate major area of specialization as follows:

Optional Course (Strongly Recommended)
FIN 348 Advanced ARGUS (offered as a one-credit enhancement in the spring semester) 7

Total Credit Hours 120

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.
2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.
3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C-, or complete ENG 230 with at least a C- before enrolling in BUS 300.

4. In order to pursue a major area of specialization in Real Estate, a student must earn a grade of "B" (grade point of 3.0) or higher in FIN 302 (note that a grade of "B-" does not qualify), and must have a minimum cumulative University of Miami GPA of 2.5 before enrolling in FIN 303 or FIN 320.
5. All specific coursework for the major in Real Estate must be completed with a grade of "C" or higher (except for the minimum "B" grade required for FIN 302, as noted). A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the major area of specialization.
6. Currently, two of the three major electives for Real Estate require FIN 320 as a pre-requisite.
7. The pre-requisite for FIN 348 is FIN 347.

Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student's 8-semester plan. The individual student's plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular “Area of Knowledge” within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge, a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

B.S.B.A. in International Finance and Marketing

Introduction
The International Finance and Marketing major area of specialization is aimed at meeting the needs of business students seeking to pursue careers in international business, finance, and/or marketing.

Educational Objectives
The International Finance and Marketing major area of specialization is designed to prepare students for the most critical areas of decision making in international business. The objective is to provide business students with a comprehensive curriculum based on a strong program of international courses, and create opportunities for access to multinational companies and the international business community.

Curriculum Requirements
Major Area of Specialization in International Finance and Marketing (STEM)

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BSBA in International Finance and Marketing must complete the BSBA Business Core and the specific coursework for the International Finance and Marketing major area of specialization as follows:

<table>
<thead>
<tr>
<th>Major Area of Specialization in International Finance and Marketing</th>
<th>4, 5</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 302</td>
<td>Fundamentals of Finance (taken as part of the Business Core - minimum B grade required)</td>
</tr>
<tr>
<td>MKT 201/301</td>
<td>Foundations of Marketing (taken as part of the Business Core - minimum B grade required)</td>
</tr>
<tr>
<td>FIN 320</td>
<td>Investment and Security Markets</td>
</tr>
<tr>
<td>FIN 330</td>
<td>International Finance</td>
</tr>
<tr>

| MGT 446 | Supply Chain Strategy | |

University General Education Requirements

| ENG 105 | English Composition I | 3 |
| ENG 106 | English Composition II | 3 |
| UMX 100 | The University Of Miami Experience | 0 |
| Arts and Humanities Cognate Courses | | 9 |
| People and Society Cognate Courses | | 9 |
| Electives | | 13 |
Select one course (3 credit hours) at the 400 level from Finance departmental offerings.  

Total Credit Hours  120

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.

4. In order to pursue a major in International Finance and Marketing, a student must earn a grade of "B" (grade point of 3.0) or higher in both FIN 302 and MKT 201/MKT 301 (note that a grade of "B-" does not qualify), and must have a minimum cumulative University of Miami GPA of 2.5 before enrolling in FIN 303 or FIN 320.

5. All specific coursework for the major in International Finance and Marketing must be completed with a grade of "C-" or higher (except for the minimum "B" grade required for FIN 302 and MKT 201/MKT 301, as noted). A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the major area of specialization.

6. No 300-level Finance course may be used to satisfy this requirement. Additionally, some 400-level Finance courses require FIN 303 as a pre-requisite.

**BSBA in International Finance and Marketing - Sample Plan of Study**

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.
B.S.B.A. in Real Estate

Introduction
The Real Estate major area of specialization in the School of Business Administration is for business students seeking to apply the theoretical and analytical concepts of finance to real estate lending, investment, and development.

Educational Objectives
The importance of understanding developments in real estate and mortgage markets and the integration of real estate investments into the national and international economy have led to increased interest in this important field. The real estate major strengthens ties with important segments of the business community and builds on the University’s strategic strengths in architecture (New Urbanism) and urban planning.

Business students pursuing the Real Estate major area of specialization should consider taking the courses necessary to meet the requirements of the Urban Studies Minor (p. 204) (For more information, contact the Director of the Urban Studies Program. (http://www.as.miami.edu/urbanstudies/contact))

Curriculum Requirements

Major Area of Specialization in Real Estate (STEM)

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BSBA in Real Estate must complete the BSBA Business Core and the specific coursework for the Real Estate major area of specialization as follows:

**Total Credit Hours** 120

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.

4. In order to pursue a major area of specialization in Real Estate, a student must earn a grade of "B" (grade point of 3.0) or higher in FIN 302 (note that a grade of "B-" does not qualify), and must have a minimum cumulative University of Miami GPA of 2.5 before enrolling in FIN 303 or FIN 320.

5. All specific coursework for the major area of specialization in Real Estate must be completed with a grade of "C-" or higher (except for the minimum "B" grade required for FIN 302, as noted). A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the major area of specialization. All courses must be taken within the current pre-requisite structure.

6. Currently, two of the three major electives for Real Estate require FIN 320 as a pre-requisite.

7. The pre-requisite for FIN 348 is FIN 347.

Minor in Finance

Minor Area of Specialization in Finance (STEM)

Students in the School of Business Administration, as well as students in the other schools and colleges of the University of Miami, may pursue a minor in Finance by officially declaring the minor at their home school or college. Interested non-business students, before declaring the minor, should consult with an academic advisor in the School or College of their degree/major to determine if the minor in Finance is acceptable. If so, neither the advice nor the consent of either the Office of Undergraduate Business Education or the Finance Department is necessary.

The 12 credit hour minor in Finance consists of the following (all courses must be taken within the current pre-requisite structure):

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 302</td>
<td>3</td>
</tr>
<tr>
<td>FIN 303</td>
<td>3</td>
</tr>
<tr>
<td>FIN 320</td>
<td>3</td>
</tr>
<tr>
<td>Elective</td>
<td>3</td>
</tr>
<tr>
<td>Elective</td>
<td>3</td>
</tr>
<tr>
<td>Elective</td>
<td>2</td>
</tr>
</tbody>
</table>

Total Credit Hours: 12

The following one-credit hour courses are strongly recommended, though not required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 347</td>
<td>1</td>
</tr>
<tr>
<td>FIN 348</td>
<td>1</td>
</tr>
</tbody>
</table>

Total Credit Hours: 2

* NOTE: All specific coursework for the minor in Real Estate must be completed with a grade of "C-" or higher. A minimum cumulative GPA of 2.0 is required for all specific coursework taken in the minor area of specialization.

Minor in Real Estate

Minor Area of Specialization in Real Estate (STEM)

The Real Estate minor in the School of Business Administration is for business students seeking to apply the theoretical and analytical concepts of finance to real estate lending, investment, and development.

The Real Estate minor consists of the following classes:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>FIN 302</td>
<td>3</td>
</tr>
<tr>
<td>FIN 303</td>
<td>3</td>
</tr>
<tr>
<td>FIN 320</td>
<td>3</td>
</tr>
<tr>
<td>FIN 344</td>
<td>3</td>
</tr>
<tr>
<td>FIN 445</td>
<td>3</td>
</tr>
<tr>
<td>FIN 446</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credit Hours: 15

The importance of understanding developments in real estate and mortgage markets and the integration of real estate investments into the national and international economy have led to increased interest in this important field. The Real Estate minor strengthens ties with important segments of the business community.

Health Sector Management and Policy

Department Code: HSM

Introduction

The Health Sector Management and Policy major area of specialization is designed for students seeking to pursue careers in health management and policy in any of a variety of health care organizations and public settings. The curriculum enables students to gain skills and understanding in the specialized language of health care and to comprehend concepts of management, financing, politics, law, and ethics as applied to the health care sector. The major area of specialization is also ideal for students aspiring to earn advanced degrees in health administration, health economics, medical sociology, public health, or law.

Educational Objectives

The purpose of the major area of specialization in Health Sector Management and Policy is to provide the business student with a basic understanding of the management, economic and financial structure, as well as the legal, ethical, and governmental policy aspects of the health care industry. Appropriate candidates for the major area of specialization in Health Sector Management and Policy include School of Business Administration students interested in exploring the health care sector, working in the legal, management, or policy-making aspects of the health care sector or those wanting to have an augmentation to their pre-med,
pre-law or pre-MBA, MPA or MPH studies, as well as those who expect to pursue a Ph.D. The minor area of specialization in Health Sector Management and Policy is available to students from all UM schools and colleges. Members of the Department are prepared to counsel students in the selection of courses and in other matters relating to the preparation for careers.

**Total Credit Hours** 120

---

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.
All specific coursework for the major area of specialization in Health Sector Management and Policy must be completed with a grade of “C” or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major area of specialization. All courses must be taken within the current pre-requisite structure. No one course may count toward more than one major or minor area of specialization.

Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular “Area of Knowledge” within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

### Minor in Health Sector Management and Policy

#### Minor Area of Specialization in Health Sector Management and Policy (People & Society)

The purpose of the minor in Health Sector Management and Policy is to provide the student with a basic understanding of the organizational, management, economic, and financial structure, as well as the legal, ethical, and governmental policy of the health care industry. Appropriate candidates for this minor will include students interested in: exploring the health care sector; working in the legal, management, or policy
making aspects of the health care sector; or those wanting to have an augmentation to their health sciences, nursing, pre-med, pre-law or pre-MBA/MPA studies.

Students in the School of Business Administration, as well as students in the other schools and colleges of the University of Miami, may pursue the minor in Health Sector Management and Policy by officially declaring the minor at their home school or college and completing the coursework specified below. Interested non-business students, before declaring the minor, should consult with an academic advisor in the School or College of their degree/major to determine if the minor in Health Sector Management and Policy is acceptable. If so, neither advice nor consent from either the Office of Undergraduate Business Education or the Department of Health Sector Management and Policy is necessary.

The 12 credit hour minor in Health Sector Management and Policy consists of four courses—three required and one elective as indicated below (all courses must be taken within the current pre-requisite structure):

Total Credit Hours: 12

1. HSM 270/MGT 270, foundational for the Health Sector Management and Policy minor, is a pre-requisite for all other HSM courses.
2. All Business students who choose to minor in HSMP should take HSM 350 instead of HSM 320. The pre-requisites for HSM 350 are HSM 270/MGT 270, ECO 211, and ECO 212.

*Note: All specific coursework for the minor in Health Sector Management and Policy must be completed with a grade of "C" or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the minor area of specialization. No one course may count toward more than one major or minor area of specialization.

### Introduction

The Department of Management in the School of Business Administration is heterogeneous with respect to both research and teaching areas. Faculty are specialized in and teach courses that span a number of fields including entrepreneurship, human resources, international management, leadership, operations management, organizational behavior, strategic management, supply chain management, and teams. Given both the multinational context and diversity present in twenty first century organizations, coursework in the Department of Management is focused on preparing business students to be productive and effective contributors to the various communities they are embedded within or impact. Students who select any of the Management major areas of specialization pursue a variety of careers after graduation including starting businesses, running family businesses, accepting management positions in domestic or international organizations, attending law school, or pursuing other advanced graduate degrees.

### Educational Objectives

- The development of critical thinking skills to evaluate decision choices, challenges, and issues confronting managers today;
- The improvement of interpersonal skills and learning to work effectively in teams; and
- An understanding of the tools, methods, and procedures used to successfully lead people and organizations.

**Note:** No one course may be applied toward more than one major and/or minor area of specialization in the Department of Management. All area specific coursework for any major and/or minor in the Department of Management must be completed with a grade of “C” or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major and/or minor area of specialization.

### Majors in Management, Entrepreneurship, and Human Resource Management

- **B.B.A. in Entrepreneurship** (p. 254)
- **B.S.B.A. in Entrepreneurship** (p. 260)
- **B.B.A. in Human Resource Management** (p. 256)
- **B.S.B.A. in Human Resource Management** (p. 262)
- **B.B.A. in Management** (p. 258)
- **B.S.B.A. in Management** (p. 263)

### Minors in Entrepreneurship and Management

- **Entrepreneurship for Business Students** (p. 265)
- **Entrepreneurship for Non-Business Students** (p. 266)
- **Management for Business Students** (p. 266)
- **Management for Non-Business Students** (p. 266)

### B.B.A. in Entrepreneurship Curriculum Requirements

**Major Area of Specialization in Entrepreneurship (People & Society)**
The Entrepreneurship major prepares business students to engage in the process of value creation, regardless of organizational context. Students will develop a holistic view of organizational creation and change that is applicable to either starting a new venture (for profit or nonprofit), or working effectively within an existing organization.

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BBA in Entrepreneurship must complete the BBA Business Core and the specific coursework for the Entrepreneurship major area of specialization as follows:

### Total Credit Hours

120

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C before enrolling in BUS 300.

4. All specific coursework for the major area of specialization in Entrepreneurship must be completed with a grade of “C” or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major area of specialization. All courses must be taken within the current pre-requisite structure.

5. No one course may be applied toward more than one major and/or minor area of specialization in the Department of Management.

### Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student's 8-semester plan. The individual student’s
plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

B.B.A. in Human Resource Management

Curriculum Requirements

Major Area of Specialization in Human Resource Management (People & Society)

The Human Resource Management major area of specialization is designed for business students who intend to pursue a career in human resources or personnel.

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BBA in Human Resource Management must complete the BBA Business Core and the specific coursework for the Human Resource Management major area of specialization as follows:

<table>
<thead>
<tr>
<th>University General Education Requirements</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 105</td>
<td>3</td>
</tr>
<tr>
<td>ENG 106</td>
<td>3</td>
</tr>
</tbody>
</table>

Note: The B.B.A. in Human Resource Management program includes a curriculum that covers a variety of courses in addition to the BBA General Education requirements. This curriculum is designed to provide students with a comprehensive understanding of human resource management principles and practices.
Major Elective Courses - Select three courses (9 credit hours)

MGT 307 Management
MKT 201
MGT 304
MGT 303
MAS 202
MAS 201
ENG 106

BBA Business Core Requirements

ACC 211 Principles of Financial Accounting
ACC 212 Managerial Accounting
BSL 212 Introduction to Business Law

B.S.B.A. in Entrepreneurship

Curriculum Requirements

Major Area of Specialization in Entrepreneurship (People & Society)

The Entrepreneurship major prepares business students to engage in the process of value creation, regardless of organizational context. Students pursuing this major will develop a holistic view of organizational creation and change that is applicable to either starting a new venture (for profit or nonprofit) or working effectively within an existing organization.

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BSBA in Entrepreneurship must complete the BSBA Business Core and the specific coursework for the Entrepreneurship major area of specialization as follows:

### University General Education Requirements

<table>

</table>

Total Credit Hours: 120
1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.

4. All specific coursework for the major area of specialization in Entrepreneurship must be completed with a grade of "C" or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major area of specialization. All courses must be taken within the current pre-requisite structure.

5. No one course may be applied toward more than one major and/or minor area of specialization in the Department of Management.

**Sample Plan of Study**

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

**B.S.B.A. in Management**

**Curriculum Requirements**

Major Area of Specialization in Management (People & Society)

Business students who pursue the Management major area of specialization will be prepared for future careers in all areas of management, including small business and corporate levels. The study of Management also provides a solid preparation for the pursuit of other graduate degree programs, particularly in law and business.

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BSBA in Management must complete the BSBA Business Core and the specific coursework for the Management major area of specialization as follows:

**University General Education Requirements**

Major Area of Specialization in Management 4, 5

- MGT 303 Operations Management (taken as part of the Business Core)
- MGT 304 Organizational Behavior (taken as part of the Business Core)
- MGT 302 Human Resource Management
- MGT 307 Advanced Organizational Behavior

Major Elective Courses - Select three courses (9 credit hours) from the Department of Management 6

Total Credit Hours 120

---

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.

4. All specific coursework for the major area of specialization in Management must be completed with a grade of “C” or higher. A minimum cumulative GPA of 2.5 is required for all courses taken in the major area of specialization.

5. No one course may be applied toward more than one major and/or minor area of specialization in the Department of Management.

6. Excluding any 100-level Management courses and MGT 401

### Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student’s 8-semester plan. The individual student’s plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

MKT 388 Health Care Marketing
MKT 389 Understanding Media Metrics in The Digital World

Total Credit Hours 15

1 All courses must be taken within the current pre-requisite structure.
2 No one course may be applied toward more than one major or minor area of specialization.
3 All specific coursework taken for any minor in the Department of Management must be completed with a grade of “C” or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the minor area of specialization.

Minor in Entrepreneurship for Business Students

Minor Area of Specialization in Entrepreneurship for Business Students (People & Society)

This minor in Entrepreneurship is intended to acquaint business students with the essential business tools and perspective of the entrepreneur. Eligible business students must have a declared business major other than Entrepreneurship.
Minor in Entrepreneurship for Non-Business Students

Minor Area of Specialization in Entrepreneurship for Non-Business Students (People & Society)

This minor is for non-business students who seek to learn about developing business plans or how to initiate and manage small business enterprises. Interested students should consult with an academic advisor in the School or College of their degree/major to determine if a minor in Entrepreneurship is acceptable. If so, neither advice nor consent from either the Office of Undergraduate Business Education or the Department of Management is necessary. Instead the non-business student should simply declare the minor and complete the required six courses, or 18 credit hours, as follows:

<table>
<thead>
<tr>
<th>Required Courses 1</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 211</td>
<td>Principles of Financial Accounting</td>
</tr>
<tr>
<td>ECO 211</td>

</tr>
</tbody>
</table>

Elective Course for the Minor 1
Select one course (3 credit hours) from the following:
- BSL 435 Law Of Entrepreneurship (pre-requisite BSL 212)
- MGT 251 Nature and Foundations of Entrepreneurship
- MGT 354 Growing the New Venture
- MGT 357 Entrepreneurship Simulation Experience: Inside the Mind of the Entrepreneurial CEO
- MGT 498 Selected Topics (related to entrepreneurship)
- MKT 385 Marketing for Entrepreneurs (pre-requisite MKT 301)

Total Credit Hours 18

1 All courses must be taken within the current pre-requisite structure.

Note: No one course may be applied toward more than one minor area of specialization and/or cognate. All coursework taken for any minor in the Department of Management must be completed with a grade of "C" or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the minor area of specialization.

Minor in Management for Business Students

Minor Area of Specialization in Management for Business Students (People & Society)

Non-Business students in any school or college may pursue a minor in Management in the School of Business Administration. Interested students should consult with an academic advisor in the School or College of their degree/major to determine if a minor in Management is acceptable. If so, neither advice nor consent from either the Office of Undergraduate Business Education or the Management Department is necessary for a student to choose or complete a minor in Management. Instead the non-business student should simply declare the Management minor and complete the required 12 credit hours of Management courses, as follows:

<table>
<thead>
<tr>
<th>Required Courses 1</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT 302</td>
<td>Human Resource Management</td>
</tr>
<tr>
<td>MGT 303</td>
<td>Operations Management 2</td>
</tr>
<tr>
<td>MGT 304</td>
<td>Organizational Behavior</td>
</tr>
</tbody>
</table>

Elective Course for the Minor 1
Select one course (3 credit hours) at the 300 - 400 level from the Department of Management.

Total Credit Hours 12

1 All courses must be taken within the current pre-requisite structure.
2 pre-requisite of a Statistics 1 course, such as MAS 201, MAS 311, IEN 311, MTH 224, or the equivalent.
3 excluding MGT 401

Note: No one course may be applied toward more than one minor area of specialization in the Department of Management. All specific coursework for any minor in the Department of Management must be completed with a grade of "C" or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the minor area of specialization.

Management Science

Department Code: MAS
Introduction
Management Science uses the ideas and methods of science, mathematics, statistics, and computing, which collectively are often referred to as Business Analytics, to help managers make better business decisions. Management Science techniques have been applied in a wide variety of areas including financial modeling, marketing research, organizational theory, transportation and logistics, health care, environmental protection, and manufacturing. Almost any decision can benefit from the methods of Management Science/Analytics.

Educational Objectives
The Department of Management Science offers a major area of specialization in Business Analytics as well as a minor in Business Analytics. The Business Analytics curriculum is designed to give business students the necessary educational background and experience to allow them to work as successful business analytics professionals. In addition to the general education, business, and economics courses of the Bachelor of Science in Business Administration degree program, the major in Business Analytics requires a solid background in the natural sciences and mathematics. Additionally, students are required to take sequences of courses in optimization, decision science, and data analytics. A number of the courses in the Business Analytics curriculum require projects, in which the student evaluates a real-world system or process. As the system is studied and modeled, the student applies management science methods to find ways to improve the process. In such a course, written and oral presentation of findings is part of the learning and evaluation process. A major or minor area of specialization in Business Analytics is recommended to qualified students as preparation for direct entry into the field of Analytics or as preparation for future graduate studies.

Major in Business Analytics
• B.S.B.A. in Business Analytics (p. 267)

Minor in Business Analytics
• Business Analytics (p. 269)

B.S.B.A. in Business Analytics Curriculum Requirements
Major Area of Specialization in Business Analytics (STEM)
The Department of Management Science offers a major area of specialization in Business Analytics for students pursuing the Bachelor of Science in Business Administration degree. Students who choose the major area of specialization in Business Analytics are trained to combine quantitative, statistical, and computational tools and techniques to help companies understand, predict, and act on large amounts of data, improving decision-making in increasingly complex and interconnected business environments.

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BSBA in Business Analytics must complete the BSBA Business Core and the specific coursework for the Business Analytics major area of specialization as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>

<tr>
<td>MAS 432</td>
<td>Data Analysis (pre-requisite MAS 312; offered in the spring semester)</td>
<td>3</td>
</tr>
</tbody>
</table>
MAS 442 Stochastic Models in Operations Research 3
(pre-requisite MAS 311; offered in the spring semester; MTH 210 is a recommended pre-requisite) 6

Major Elective Courses - Select two courses (6 credit hours) 6
from the following:

At least one course must be selected from MAS 547 or MAS 548.

BTE 324 Object-Oriented Programming (pre-requisite BTE 320) 5
BTE 423 Database Management Systems (pre-requisite BTE 320) 5
MAS 547 Computer Simulation Systems (pre-requisite MAS 311; offered in the fall semester) 5
MAS 548 Data Mining and Knowledge Acquisition (pre-requisite MAS 312; offered in the spring semester)

Total Credit Hours 120

1 Eng 105 and Eng 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2 At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3 Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.

4 All specific coursework for the major area of specialization in Business Analytics must be completed with a grade of "C-" or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major area of specialization. All courses must be taken within the current pre-requisite structure.

5 may not double count as both the Quantitative elective and the major requirement unless Business Analytics is an additional major.

6 may not double count as both the Quantitative elective and the major requirement unless Business Analytics is an additional major.

Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student's 8-semester plan. The individual student's plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge, a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.
Minor in Business Analytics

Minor Area of Specialization in Business Analytics (STEM)

Business students who choose the minor area of specialization in Business Analytics are trained to combine quantitative, statistical, and computational tools and techniques to help companies understand, predict, and act on large amounts of data, improving decision-making in increasingly complex and interconnected business environments.

The 12 credit hour minor in Business Analytics consists of the following:

**Required Courses**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credit Hours</th>

<td>3</td>
</tr>
<tr>
<td></td>
<td>(pre-requisite MAS 311 or equivalent; MTH 210 is a recommended pre-requisite)</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credit Hours** 12

1 All courses must be taken within the current pre-requisite structure. In order to complete this minor, students will need pre-requisite courses of MTH 162, MAS 311, and MAS 312 or their equivalents.

2 offered in fall semester

3 offered in spring semester

*Note: All specific coursework for the minor in Business Analytics must be completed with a grade of "C-" or better. In addition, a minimum cumulative GPA of 2.5 is required for all specific coursework taken in the minor area of specialization."

Marketing

**Department Code: MKT**

**Introduction**

Rapidly increasing global competition, emergence of new markets, and technological advancements make today's marketplace a highly dynamic and challenging environment for companies. Effective marketing is therefore crucial for organizations to survive and prosper in such an environment. Marketing is the process through which organizations develop and distribute products and services that satisfy the needs of customers. Customer satisfaction is critical to the profitable operations and growth of organizations and, as such, an integral component of modern-day marketing.

**Educational Objectives**

The primary goals of the Department of Marketing are:

1. to contribute to marketing knowledge through conducting scholarly research and disseminating the research findings through leading journals;
2. to excel in imparting marketing knowledge to students and honing their critical-thinking skills so as to prepare them for potentially successful careers in an increasingly competitive, dynamic, global, and service- and technology-oriented environment; and
3. to be of service to the business and professional communities at large.

The marketing curriculum offers courses and programs to undergraduate and graduate students for their professional development in domestic and world business.

A program of study in marketing offers students better understanding of and insights into:

- Marketing's role within the organization and society;
- The various 'markets' for goods and services through better identification and analysis of consumer needs, wants, and interests;
- Marketing's responsibility to society in legal, ethical, and moral matters;
- Methods, procedures, and techniques used in planning and managing marketing decisions.

**Major in Marketing**

- B.B.A. in Marketing (p. 269)
- B.S.B.A. in Marketing (p. 271)

**Minor in Marketing**

- Marketing for Business Students (p. 274)
- Marketing for Non-Business Students (p. 274)

**B.B.A. in Marketing**

The Marketing major area of specialization provides business students with an understanding of the basic concepts of marketing with an
emphasis on emerging techniques and technologies. This major area of specialization prepares students to practice marketing in a changing competitive environment. Specifically, it covers the 4 Ps of marketing (i.e., product/service, price, promotion and place/distribution) from a managerial perspective. Additionally, the marketing program of study is flexible, allowing students to concentrate on specific areas of professional pursuit such as sales management, advertising, retailing, or marketing research.

A program of study in marketing offers business students a comprehensive understanding of such topics as:
- The critical role within organizations;
- Identification of markets for products and services through better understanding and analysis of consumers’ wants and needs;
- The nature of global competition and identification of viable competitive strategies;
- Methods used in planning and implementing marketing strategies;
- The legal and ethical responsibilities of marketers.

**Curriculum Requirements**

**Major Area of Specialization in Marketing (People & Society)**

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BBA in Marketing must complete the BBA Business Core and the specific coursework for the Marketing major area of specialization as follows:

| Total Credit Hours | 120 |

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.
2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.
3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.
4. In order to pursue a major area of specialization in Marketing, a student must earn a grade of "B" (grade point of 3.0) or higher in MKT 201/MKT 301 (note that a grade of B- does not qualify).
5. All specific coursework for the major area of specialization in Marketing must be completed with a grade of "C" or higher (except for the minimum "B" grade required for MKT 201/MKT 301 as noted). A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major area of specialization. All graded departmental courses in Marketing will be calculated into the major GPA. All courses must be completed within the current pre-requisite structure.
MKT 201 is intended for freshman business students only. MKT 301 is an equivalent course, but is intended for students at the sophomore level or higher. Students may not take both MKT 201 and MKT 301.

**Sample Plan of Study**

This Sample Plan of Study represents one possible version of a new freshman Business student's 8-semester plan. The individual student's plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge, a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.

**B.S.B.A. in Marketing**

The Marketing major area of specialization provides business students with an understanding of the basic concepts of marketing with an emphasis on emerging techniques and technologies. This major area of specialization prepares students to practice marketing in a changing competitive environment. Specifically, it covers the 4 Ps of marketing (i.e., product/service, price, promotion and place/distribution) from a managerial perspective. Additionally, the marketing program of study is flexible, allowing business students to concentrate on specific areas of professional pursuit such as sales management, advertising, retailing, or marketing research.
A program of study in marketing offers students a comprehensive understanding of such topics as:

- The critical role within organizations;
- Identification of markets for products and services through better understanding and analysis of consumers' wants and needs;
- The nature of global competition and identification of viable competitive strategies;
- Methods used in planning and implementing marketing strategies;
- The legal and ethical responsibilities of marketers.

## Curriculum Requirements

### Major Area of Specialization in Marketing (People & Society)

In addition to satisfying the University General Education Requirements and Electives, students pursuing the BSBA in Marketing must complete the BSBA Business Core and the specific coursework for the Marketing major area of specialization as follows:

**Total Credit Hours**: 120

---

1. ENG 105 and ENG 106, or their equivalents, and all 100 and 200-level Business Core courses must be completed by the end of the fifth semester of college work or during the semester in which the student is completing 75 credit hours.

2. At least one course with an international focus must be completed within the degree requirements. The appropriateness of the course is determined by the academic advisor.

3. Students who do not earn at least a C- in ENG 106 must either repeat ENG 106 and earn at least a C- or complete ENG 230 with at least a C- before enrolling in BUS 300.

4. In order to pursue a major area of specialization in Marketing, a student must earn a grade of "B" (grade point of 3.0) or higher in MKT 201/MKT 301 (note that a grade of B- does not qualify).
All specific coursework for the major area of specialization in Marketing must be completed with a grade of "C-" or higher (except for the minimum "B" grade required for MKT 201/MKT 301 as noted). A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major area of specialization. All graded departmental courses in Marketing will be calculated into the major GPA. All courses must be completed within the current pre-requisite structure.

MKT 201 is intended for freshman business students only. MKT 301 is an equivalent course, but is intended for students at the sophomore level or higher. Students may not take both MKT 201 and MKT 301.

Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman Business student's 8-semester plan. The individual student's plan may vary depending upon the initial placement into English Composition and mathematics. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor at the University of Miami satisfies a particular "Area of Knowledge" within the general education requirements of the University. This means that it is possible to pursue two majors or a major and a minor within the School of Business and fulfill both the STEM and People and Society Areas of Knowledge; a separate cognate in these areas would not be required. The only remaining general education Area of Knowledge would be Arts and Humanities, which must be completed through a major, minor, or cognate outside of the School of Business.

Students construct their individualized plans in collaboration with their assigned academic advisor.
Minor in Marketing for Business Students

Minor Area of Specialization in Marketing for Business Students (People & Society)

The 12 credit hour minor in Marketing for business students consists of 9 credit hours of Marketing courses beyond the core course MKT 201/MKT 301, as follows:

<table>
<thead>
<tr>
<th>Core Course</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 201/MKT 301</td>
<td>Foundations of Marketing (taken as part of the Business Core; pre-requisite for all other MKT courses)</td>
</tr>
<tr>
<td>or MKT 301</td>
<td>Marketing Foundations</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Elective Courses for the Minor</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Select three courses (9 credit hours) from the Department of Marketing</td>
<td>9</td>
</tr>
</tbody>
</table>

Total Credit Hours | 9

1 Important Note: In order to pursue the minor in Marketing, a student must earn a grade of “B” (grade point average of 3.0) or higher in MKT 201/MKT 301 (note that a grade of “B-” does not qualify).
2 MKT 201 is intended for freshman business students only. MKT 301 is an equivalent course, but is intended for students at the sophomore level or higher. Students may not take both MKT 201 and MKT 301.
3 All courses must be taken within the current pre-requisite structure.

Note: All specific coursework for the minor in Marketing must be completed with a grade of “C-” or higher (except for the minimum “B” grade required for MKT 301, as noted). A minimum cumulative GPA of 2.5 is required for all specific coursework taken in this minor area of specialization. All graded departmental courses in Marketing will be calculated into the minor GPA.

Minor in Marketing for Non-Business Students

Minor Area of Specialization in Marketing for Non-Business Students (People & Society)

Non-Business students in any school or college may pursue a minor in Marketing in the School of Business Administration. Interested students should consult with an academic advisor in the School or College of their degree/major to determine if a minor in Marketing is acceptable. If so, neither advice nor consent from either the Office of Undergraduate Business Education or the Marketing Department is necessary for a student to choose or complete a Marketing minor. Instead the non-business student should simply declare the minor and complete the required 12 credit hours of Marketing courses, as follows:

<table>
<thead>
<tr>
<th>Required Course</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>MKT 301</td>
<td>Marketing Foundations (pre-requisite for all other MKT courses)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Elective Courses for the Minor</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Select three courses (9 credit hours) from the Department of Marketing</td>
<td>9</td>
</tr>
</tbody>
</table>

Total Credit Hours | 12

1 Important Note: In order to pursue the minor in Marketing, a student must earn a grade of “B” (grade point average of 3.0) or higher in MKT 301 (note that a grade of “B-” does not qualify).
2 All courses must be taken within the current pre-requisite structure.

Note: All specific coursework for the minor in Marketing must be completed with a grade of “C-” or higher (except for the minimum “B” grade required for MKT 301, as noted). A minimum cumulative GPA of 2.5 is required for all specific coursework taken in this minor area of specialization. All graded departmental courses in Marketing will be calculated into the minor GPA.
Communication

http://www.com.miami.edu/

Introduction

The School of Communication houses four departments that offer courses in eight majors leading to the Bachelor of Science in Communication degree. The departments are: Cinema and Interactive Media (Motion Pictures), Communication Studies (Communication Studies), Journalism and Media Management (Broadcast Journalism, Electronic Media, Journalism, Media Management), and Strategic Communication (Advertising, Public Relations). In addition, the Master of Arts, Master of Fine Arts, and Doctor of Philosophy degrees are offered in the School.

Students engage with a diverse faculty of communication scholars, artists and professionals in a variety of hands-on learning experiences embracing writing, research, production, creative problem-solving and multimedia storytelling. On-campus television and radio facilities, soundstages and multimedia labs are available for academic and extra curricular student projects. Students utilize contemporary digital imaging technology and learn skills that cut across a variety of media platforms. Digital editing, recording and mixing facilities are available. New media technology is incorporated throughout the curriculum and the School has numerous computer labs and digitally "smart" classrooms.

Two video-conference centers with broadcast-quality interactive capability for remote interviews and programming support the School’s mission. The School also houses a film soundstage and two fully digital, high-definition television studios and control rooms. In addition, a fiber-optic linked studio allows for real-time, broadcast-quality transmissions to sites around the world. Under Communication faculty supervision, student-produced programming is distributed through the University’s cable facility and carried throughout the community by the local cable operator and is available through online streaming. The School operates several online sites that afford students outlets for multimedia, interactive and cross-platform writing, research, reporting and creative work.

The University’s FM radio station, and student online and print newspapers and magazines, offer additional opportunities for career development. The Bill Cosford Cinema, a 240-seat movie theatre, supports the Motion Picture Program and offers film programming for the Miami community. The School’s Norton Herrick Center for Motion Picture Studies is dedicated to research into the history and aesthetics of motion pictures and their social and cultural impact.

The School’s Center for Communication, Culture, and Change focuses on promoting positive social and behavioral change through communication research. The Center seeks to address urgent social issues, and make a positive difference in people’s lives.

The School supports student chapters of the American Advertising Association, the Public Relations Society of America, the Society of Professional Journalists, the National Broadcasting Society, the University Film and Video Association and other professional organizations. In addition, the School sponsors a nationally competitive intercollegiate debate team, which annually produces several members of the All American Debate Team.

Internships in professional settings are available to Communication students at the sophomore, junior and senior levels. Professionals at daily and weekly newspapers, magazines, news bureaus, cable systems, radio and television stations and networks, production houses and motion picture studios cooperate in faculty-supervised internships. Executives of city and county governments, advertising agencies, public relations firms and other business and nonprofit organizations join in providing internship opportunities. The Stein Family Office of Career Services and Internships assists students seeking internships and offers career planning services. Summer and semester-length study abroad opportunities are also available.

Mission

The School of Communication is dedicated to a global educational perspective and is committed to providing a socially responsible and ethically grounded learning environment guided by a diverse faculty of scholars, artists and professionals. The School is committed to quality undergraduate and graduate programs in communication that emphasize the relationship between theory and practice. We believe in freedom of expression and creativity, and encourage both collaboration and independent thinking as we prepare future scholars, professionals and leaders for a lifetime of service and learning.

Accreditation

The University of Miami is accredited by:

The Southern Association of Colleges and Schools
1866 Southern Lane
Decatur, GA 30033-4097

Academic Policies

Internal Transfer into the School of Communication

A student enrolled at the University of Miami in a School or College other than the School of Communication may apply for admission into the School. Applications are accepted throughout the year. A minimum overall grade point average of 2.5 is necessary for consideration. Applications are available in the Admissions, Academic & Alumni Services Office of the School of Communication (2037 Wolfson Building) and must be submitted prior to the end of each semester. Admission decisions will be made promptly after semester grades are final. Students will be notified in writing of the School’s decision.

Transfer Students

A transfer student must complete in residence a minimum of 18 credit hours toward a Communication major or a minimum of 9 credit hours toward a Communication minor. Courses taken elsewhere in Communication or related disciplines are not automatically accepted toward a major or minor at the University of Miami. Students who have obtained the written approval of the Chair of a Communication major to use transfer credit hours to satisfy one or more requirements of that major may be required to complete additional courses in residence at the University before being admitted to that major. Students should consult a School of Communication advisor to determine whether the transfer of Communication courses will increase beyond 120 the total number of credit hours required for a degree. In general, transfer credit hours will not be accepted to satisfy requirements for any course in any major or minor at the 300-level or above. Student petitions to transfer credit hours will be considered on an individual basis.

Transfer credit hours may not be used to satisfy requirements for any major or minor in Communication without the written approval of the Chair of the program concerned.
Academic Progress & Probation/Dismissal

Students must maintain a grade point average (GPA) of 2.5 or higher in courses taken in residence and submitted for their School of Communication major. Following the first semester in which any student’s GPA in the major falls below a 2.5, the School may issue a warning to that student that his or her work does not meet School expectations. Should that student’s GPA in the major be below a 2.5 in any subsequent semester, he or she may be placed on Academic Probation. The School may dismiss from the University any student who is on probation a total of two semesters (not necessarily consecutive). A student who has been dismissed from the School may apply for admission to one of the other Schools or Colleges within the University, but will not be readmitted to the School of Communication.

Those who wish to appeal their probation or dismissal must do so in writing to the Dean within 30 days of the notice of probation or dismissal. See also GOOD ACADEMIC STANDING, WARNING, PROBATION, AND DISMISSAL (p. 20).

Internship Credit Hours

All programs allow students to complete multiple internships for academic credit. Students should consult with their faculty advisor or the School’s academic advising office for their department’s specific internship credit hour policies.

Credit Hours and Advanced Placement Credit

Credit hours may be earned through Advanced Placement, IB, CLEP Examinations and Advanced Placement by Proficiency Examinations. These credit hours may be applied to the appropriate General Education Required Areas of Study or as electives except:

1. where prohibited by the University or a specific program area; or
2. if the course is remedial (e.g., ENG 103, MTH 099).

To earn credit hours, each student must pay a recording fee and have exempted course credit hours entered on his or her University transcript. An exemption may be granted for ENG 105 by the Department of English, but this exemption will not earn credit hours toward the 120 University credit hours required for graduation.

Grade Point Average

A candidate for the Bachelor of Science in Communication (B.S.C.) must complete the credit hours and achieve the grade point average specified for students in the University at large as stated in the section titled ACADEMIC PROCEDURES AND INFORMATION (p. 13), subject to additional requirements specified in School and Program sections.

General Education Requirements

In April 2012, the University of Miami Faculty Senate adopted a new set of General Education Requirements (GERs). The new Cognate Program of General Education was implemented in the 2013-2014 academic year (AY 2014).

Please note, students completing majors and minors within the same department may only satisfy one required cognate area of study.

See GENERAL EDUCATIONAL REQUIREMENTS (p. 18).

Degree Programs

The School of Communication offers courses in eight programs of study leading to the degree Bachelor of Science in Communication. The programs are Advertising, Public Relations, Communication Studies, Electronic Media, Broadcast Journalism, Journalism, Media Management, and Motion Pictures.

Minors

The School of Communication offers minors in its eight programs of study and a general minor in Communication (COM). School of Communication students may complete a minor in a specific program of study, but not eligible for the general minor in Communication.

Concentrations

Most degree programs offer concentrations or tracks of study in specialty areas. See the individual program sections for details on these concentrations.

Requirements for Graduation with a Bachelor of Science Degree in Communication

Required University General Education Requirements

The General Education Requirements provide students with the opportunity to study methodologies and achievements in all areas of human inquiry and creative endeavor, and to cultivate abilities essential for the acquisition of knowledge. The Areas of Proficiency requirements ensure that students either already possess, or develop at the University, the ability to express themselves effectively, to use mathematics with facility, and to reason cogently. The Areas of Knowledge requirement is designed to help students understand and appreciate intellectual achievements in major areas of human inquiry and creative endeavor.

All School of Communication students must complete the University’s General Education Requirements. These requirements can be found in the General Education Requirements (p. 18) section. Note that the General Education Requirements differ for incoming freshmen and transfer students.

Completion of each School of Communication major or minor fulfills one of the three cognate areas required by the University: People & Society, Arts & Humanities and STEM. (See individual program descriptions below identifying the specific cognate area covered.)

Students completing a second major or minor in the School which fulfills a cognate area different from their first major, and offered in a different department, may apply the second major or minor toward a second cognate area. No course submitted toward a School of Communication major or minor used to fulfill a University cognate may be applied toward any other cognate area. No more than two cognate areas may be completed in the School of Communication.

Students should meet with their advisors for assistance in completing all University and School requirements.

Developing Proficiency in Advanced Writing and Communication Skills

By their nature, Schools of Communication aspire to help students understand communication processes and develop high-level skills in writing, oral presentation and the use of digital communication technologies for crafting meaningful and effective messages. To fulfill the University’s Advanced Writing and Communication Skills requirement, all students enrolled in one of the eight undergraduate majors offered by the School will be required to complete their program’s core writing
course, at least one public speaking/presentational skills course, and one digital skills course.

**Major/Minor Requirements**

In addition to completing a major in the School of Communication, students must also complete a minor (or a second major) in either a second Program of Study within the School or in an academic program outside of the School. Students completing majors and/or minors in the School must complete all School of Communication courses with grades of C or higher (a grade of C- or lower is not acceptable.) Students may not enroll in a School of Communication course without grades of C or higher in prerequisite courses. Students completing a minor or second major outside the School of Communication should consult this Bulletin for minimum grade requirements.

**The Major in the School of Communication**

Majors in the School of Communication leading to a Bachelor of Science in Communication require between 39 and 48 credit hours in School of Communication courses specified in Program Statements (below). Courses within each major must be completed with a grade of C or higher (a grade of C- or lower is not acceptable.) In addition, students must maintain a grade point average of 2.5 or higher in courses taken in residence and submitted for their School of Communication majors.

**The Minor**

Each Communication student, in addition to completing requirements for a Communication major, must complete a minor field in either a second Program of Study within the School or in an academic program outside the School. Each course submitted for a minor offered in the School of Communication must be completed with a grade of C or higher (a grade of C- or lower is not acceptable.) To find the requirements for a given minor, students should consult this Bulletin and confer with the appropriate department representative.

School of Communication advisors will aid students in identifying appropriate minors. The candidate for a Communication degree may choose from among any of the disciplines offering minors at the University for which they may qualify. The choice of a minor should be made no later than the beginning of the junior year and must be approved by the discipline concerned.

**The Second Major Option**

Students may choose to complete a second major, either within the School or in an academic program outside the School, in place of the minor requirement. Some second majors are impractical within the minimum 120 credit hours degree program. Students should consult with a Communication advisor before selecting a second major. The choice of a second major should be made no later than the beginning of the junior year and must be approved by the discipline concerned.

**Double Counting**

Students completing a major and a minor in the School of Communication, or two majors within the School of Communication, may count only COM 250 toward both Programs of Study. No other course duplication is allowed. Students should consult with the Department Chair of the minor or second major for acceptable course substitutions where appropriate.

**Upper Division Credit Hours**

In earning a Bachelor of Science in Communication, each School of Communication student must complete a minimum of 36 credit hours of course work at the 300-level or above. Upper division transfer credit hours also apply if completed at a four-year institution and if approved by the Department Chair.

**Electives**

Only Free Elective courses may be taken under the University’s Credit Only option (see CREDIT ONLY OPTION (p. 20)). Free Electives are defined as courses not taken to fulfill the requirements of the major within the School of Communication, of the second major or minor, or of the School’s General Education Requirements. Free Electives are courses that are not taken to meet any of the above requirements or their prerequisites, but taken solely to meet the requirement of a minimum total of 120 credit hours for the degree.

**General Electives**

A sufficient number of University electives must be completed to fulfill a minimum total of 120 credit hours. Electives may be chosen from any course offered by the University except certain unapproved courses such as:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>DAN 102</td>
<td>Stretching and Body Work</td>
<td>1</td>
</tr>
<tr>
<td>ENG 103</td>
<td>Basic Academic Writing</td>
<td>3</td>
</tr>
<tr>
<td>MTH 099</td>
<td>Intermediate Algebra</td>
<td>3</td>
</tr>
</tbody>
</table>

Students should consult a School of Communication advisor before selecting elective courses. Because specific courses are required in some School of Communication majors, students are advised to read Program Statements carefully and seek the advice of a School of Communication advisor prior to taking general University electives.

**Schedules**

Fifteen to sixteen credit hours constitute a normal semester schedule in the School of Communication. Students who wish to register for more than 18 credit hours must obtain prior approval from the Office of Admissions, Academic & Alumni Services (2037 Wolfson Building). Students who are on academic probation will be limited to a maximum of 13 credit hours.

**Honors**

School of Communication students may graduate with School Honors in Communication noted upon their diplomas and transcripts. Students must contact the School’s Office of Admissions, Academic & Alumni Services (2037 Wolfson Building) for details about the School of Communication Honors Program.

Students may receive recognition as graduates cum laude, magna cum laude, or summa cum laude if they meet the requirements set forth under graduation honors.

**General Information**

The Foote Fellows Honors Program recognizes the most educationally accomplished incoming students at the University of Miami. Foote Fellows have distinguished themselves both in and out of the classroom at their previous schools, are self-motivated, and think independently. Admission to the Foote Fellows Honors Program is by invitation.

Foote Fellows are exempt from the Cognates Program of General Education requirements. Within the curricular framework of their school or college, Foote Fellows enjoy unmatched freedom and flexibility to explore a multitude of educational resources. Many Foote Fellows
leverage this opportunity to take additional majors and/or minors and to study abroad.

At each of the nine undergraduate schools at the University of Miami, a dedicated advisor helps Foote Fellows chart their academic path and attain access to distinctive learning opportunities at the University, such as special school-based seminars, faculty-mentored research, networking opportunities, and off-campus internships.

Foote Fellows also will be invited to join advanced, interdisciplinary Foote Fellow seminars taught by leading faculty members from across the University. An example is Books That Matter, a rigorous seminar in non-fiction reading that is offered in sessions for first-year and for upper-class students. Freshman Foote Fellows benefit from early move-in to the residential colleges. Further, Foote Fellows receive focused advising on post-baccalaureate distinguished fellowships and awards.

The Foote Fellows Honors Program reflects the educational vision of former University of Miami President Edward T. Foote, who retired in 2000 after serving the University for twenty years.

**Foote Fellows in the School of Communication**

The School of Communication hosts several activities geared for our Foote Fellows throughout the academic year. School of Communication Foote Fellows will be receiving information from Assistant Dean Luis Herrera regarding our specific programs. For further inquiries, please contact him at lherrera@miami.edu.

**Minor in Communication**

A student seeking a minor in the general area of Communication must complete 15 credit hours, at least six of which must be at the 300-level or above. At least 9 credit hours towards the minor must be taken at UM.

<table>
<thead>

</tbody>
</table>

- Students in the School of Communication cannot minor in Communication.
- Courses taken for this minor must be taken from the departments of Cinema Interactive Media, Communication Studies, Journalism and Media Management and Strategic Communication. Course prefixes include: CIM, COM, COS, JMM and STC.
- Each course submitted for a Communication minor must be completed with a grade of C or higher (a grade of C- or lower is not acceptable).

**Cinema and Interactive Media**

http://com.miami.edu/programs

The Department of Cinema and Interactive Media offers a major in Motion Pictures and minors in Motion Pictures (CMP) and Interactive Media (CIM).

**Introduction**

The Motion Picture Program offers a complete curriculum for a new generation of media specialists, providing historical context and embracing the moving image creative process from writing and development, through production and post-production, to all forms of exhibition.

Visual storytelling requires technical skill, historical perspective and the ability to think critically in cinematic terms. The undergraduate Motion Pictures major provides the practical, collaborative and analytical skills required in today’s global and complex media environments.

The accomplished faculty is dedicated to engaging students in the discovery and development of their talents. The program cultivates innovation, creativity, critical thinking, adaptability, and the capacity to integrate theory and practice, technology and art while also equipping students to understand the business and legal environments in which media industries operate.

Facilities in the Motion Picture Program include digital cameras; grip and electrical equipment; a soundstage; digital post-production image and sound facilities; and a digital animation lab. The School also operates the Bill Cosford Cinema, a state-of-the-art theater that exhibits first-run alternative, foreign and classic films. The Cosford Cinema provides an on-campus venue for various film festivals, including the annual Canes Film Festival featuring UM undergraduate and graduate work. A professional showcase screening of the best student work is held annually in Los Angeles.

The Motion Picture Program offers a Semester in Los Angeles Program each spring as well as summer sessions in Prague (FAMU) and Greece.

**Major Cognate Area**

- Arts and Humanities

**Minor Cognate Areas**

- Motion Pictures- Arts and Humanities
- Interactive Media- STEM

Please note: students completing majors and minors within the same department may only satisfy one required cognate area of study.

Dept. Code: CIM

**Degree Programs**

The Bachelor of Science in Communication is offered in the Motion Picture Program.

**Major in Motion Pictures**

A major is offered in Motion Pictures.

Each candidate for the degree of Bachelor of Science in Communication will complete School of Communication requirements including courses in the School’s General Education Required Areas of Study. Motion Pictures majors must also complete a separate minor or a second major in either a second Program of Study within the School or in an academic program outside the School.

**Admission to the Motion Pictures Major**

Before admission as a Motion Pictures (CMP) major, a student must:

- Complete the Core courses in residence at the University, all with grades of C or higher (C- is not acceptable).
- Students who have obtained the written approval of the Chair of Cinema and Interactive Media to use transfer credit hours to satisfy...
one or more requirements of that major may be required to complete additional courses in residence at the University before being admitted to that major.

- Upon completion of a student’s first 45 University credit hours while enrolled in the School of Communication, all University credit hours earned toward the major will be used in computing a student’s major cumulative grade point average; only those students with a cumulative average of 2.5 or higher will be admitted to the major.

- A student who has completed 45 credit hours while enrolled in the School of Communication, but who has not been admitted to one of the Communication majors, may be dismissed from the School. A student who has completed 60 University credit hours while enrolled in the School, but who has not been admitted to one of the Communication majors, will be dismissed from the School. See PROBATION AND DISMISSAL (p. 20).

Select one additional Motion Picture elective 3

**Suggested Electives might include, but are not limited to:**

- JMM 102 Understanding Media And Content In The Digital Age
- JMM 301 Media Research And Analysis
- JMM 402 Strategic Media Management
- JMM 434 Media Distribution for Film and Television
- JMM 435 Media Technology
- MKT 301 Marketing Foundations

**Additional Requirements**

- People and Society Cognate 9
- STEM Cognate 9
- Minor, Second Major and Electives 57

**Total Credit Hours** 120

3 If this elective is outside the Motion Pictures major (but within the School of Communication) it must be approved by the chair.

1 SoC students are required to complete a minimum of a minor (inside or outside of the school) in addition to their Communication major to graduate. For an optional 2nd major, please see your advisor.

2 SoC students must complete 6 credits of English Composition unless exempt based on SAT/ACT score or AP/IB exam, 3-6 credits of Mathematics, University Cognates (http://www.miami.edu/cognates) and the Advanced Writing and Communication Skills Proficiency requirement.

### Upper Level Elective Requirement

36 credits at the 300 level or higher are required for graduation. These credits may be earned from your major, minor and/or second major, and electives.

# Motion Pictures - General Track

## Core Courses
- **CIM 103**: Survey of Motion Pictures, 3 credits
- **CIM 126**: Introduction to Screenwriting, 3 credits
- **CIM 151**: Introduction to Digital Production, 3 credits
- **CIM 204**: History of International Cinema I, 3 credits
- **COM 250**: Freedom of Expression and Communication Ethics, 3 credits

## Advanced Writing and Communication Skills Requirement
- **COS 211**: Public Speaking, 3 credits
  or **COS 333**: Business Communication

## Other Required Courses
- **CIM 205**: History of International Cinema II, 3 credits
- **CIM 251**: Motion Picture Workshop: Storytelling, 3 credits
- Select one of the following:
  - **CIM 326**: Intermediate Screenwriting
  - **CIM 351**: Introduction to Film Production
  - **CIM 364**: Business of Motion Pictures
- Select three of the following:
  - **CIM 310**: Introduction To Game Design
  - **CIM 329**: Writing for Series Television
  - **CIM 353**: Post Production Sound Editing and Design
  - **CIM 356**: Cinematography
  - **CIM 357**: Editing
  - **CIM 386**: Writing the Feature Film: Online
  - **CIM 395**: Directing Techniques I
  - **CIM 458**: Documentary Production
  - **CIM 462**: Motion Picture Marketing and Distribution
  - **CIM 494**: Motion Picture Internship
  - **CIM 499**: Projects and Directed Research
  - **CIM 550**: Motion Graphics And Compositing
  - **CIM 409**: Legal Aspects of Motion Pictures
- Select two of the following:
  - **CIM 401**: Nonfiction Film and Digital Media
  - **CIM 403**: Film Directors
  - **CIM 404**: Aspects of Contemporary Cinema
  - **CIM 406**: Genres
  - **CIM 407**: National Cinemas
  - **CIM 408**: Women, Media, and Popular Culture
- Select one additional Motion Picture elective

## Additional Requirements
- **People and Society Cognate**: 9 credits
- **STEM Cognate**: 9 credits
- **Minor, Second Major and Electives**: 57 credits
- **Total Credit Hours**: 120 credits

---

2 SoC students must complete 6 credits of English Composition unless exempt based on SAT/ACT score or AP/IB exam, 3-6 credits of Mathematics, University Cognates (http://www.miami.edu/cognates) and the Advanced Writing and Communication Skills Proficiency requirement.

## Upper Level Elective Requirement
36 credits at the 300 level or higher are required for graduation. These credits may be earned from your major, minor and/or second major, and electives.

Total Credit Hours 6

¹ A grade of C or higher is required in all courses (a C- is not acceptable).

² Students with double minors in Motion Pictures and Interactive Media may not double count any CIM courses towards both minors.

Communication Studies

http://com.miami.edu/programs

The Department of Communication Studies offers a major in Communication Studies and minors in Communication Studies (COS) and Health Communication (CHCO).

Introduction

The major in Communication Studies empowers students to acquire advanced skills in many areas involving human interaction, cross-cultural and international communication, advocacy, argumentation, relationship building, leadership, presentation (oral and written), critical thinking, research and writing. Students become familiar with the rich tradition of communication theory and research, investigate emerging knowledge about communication, and contribute to the growth of new understanding by developing and applying their research capabilities. Students also are challenged to employ their communication understanding and skills in meaningful ways through experiential learning, and professional and community involvement.

Communication Studies blends a broad-based theoretical understanding of communication principles with specific and concrete applications to particular contexts.

Students are prepared for a variety of career options in health communication, business and the professions, politics and public advocacy, education, training and media, as well as further graduate and professional study in communication, law and other areas.

Major Cognate Area

- Communication Studies
- People and Society

Minor Cognate Area

- Communication Studies
- People and Society
- Health Communication
- People and Society

Dept. Code: COS

Degree Programs

The Bachelor of Science in Communication is offered in Communication Studies.

Major in Communication Studies

A major is offered in Communication Studies.

Each candidate for the degree of Bachelor of Science in Communication will complete School of Communication requirements including courses...
in the School’s General Education Required Areas of Study (p. 18). Communication Studies majors must also complete a separate minor or a second major in either a second Program of Study within the School or in an academic program outside the School.

Admission to the Communication Studies major
Before admission as a Communication Studies (COS) major, a student must:

• Complete the four Core courses listed below, in residence at the University, all with grades of C or higher (C- is not acceptable).
• Students who have obtained the written approval of the Chair of Communication Studies to use transfer credit hours to satisfy one or more requirements of that major may be required to complete additional courses in residence at the University before being admitted to that major.
• Upon completion of a student’s first 45 University credit hours while enrolled in the School of Communication, all University credit hours earned toward the major will be used in computing a student’s major cumulative grade point average; only those students with a cumulative average of 2.5 or higher will be admitted to the major.
• A student who has completed 45 credit hours while enrolled in the School of Communication, but who has not been admitted to one of the Communication majors, may be dismissed from the School. A student who has completed 60 University credit hours while enrolled in the School, but who has not been admitted to one of the Communication majors, will be dismissed from the School. See PROBATION AND DISMISSAL (p. 20).

Major in Communication Studies
• B.S.C. in Communication Studies - General Track (p. 287)
• B.S.C. in Communication Studies - Intercultural Track (p. 288)
• B.S.C. in Communication Studies - Organizational Track (p. 289)
• B.S.C. in Communication Studies - Public Advocacy Track (p. 291)

Minors in Communication Studies
• Communication Studies (p. 292)
• Health Communication (p. 292)

Total Credit Hours 15

Minor in Communication Studies

Communication Studies Minor

The minor in Communication Studies requires 15 credit hours, at least six of which must be at the 300-level or above. The additional credit hours must be chosen with prior approval of a Communication Studies advisor. A grade of C or higher is required in all courses (a C- is not acceptable).

Students, in conjunction with an advisor, can construct a Communication Studies minor focusing on areas of specific interest. These sample areas of concentration listed below are notated on the transcript as a Communication Studies Minor. Possible areas of concentration include the following:

Sample Concentration in General Communication Studies

Offers a rich background in the field of human communication in a variety of contexts applicable to all personal, social and professional endeavors. Complements any major or academic/career objective.

Sample Concentration in Public Advocacy

Offers theory and application of oral communication and argumentation as it is used to influence others to promote social change and accomplish persuasive advocacy. Appropriate for students interested in a wide range of objectives, including legal studies and pre-law, sales, advertising, marketing, entrepreneurship, and civic and political engagement.

BPH 305 Issues In Health Disparities
BPH 310 Global Health
BPH 321 Health Promotion And Disease Prevention
BPH 322 Introduction To Health Policy
Total Credit Hours 15

Total Credit Hours 120
Journalism and Media Management

http://com.miami.edu/programs

The Department of Journalism and Media Management offers majors and minors in Journalism, Broadcast Journalism, Electronic Media, and Media Management.

Introduction

The Department of Journalism and Media Management emphasizes hands-on learning and critical thinking within a multicultural, international context. Our students consistently win regional and national awards, and obtain prestigious internships and long-term positions in a competitive media marketplace. Additionally, they are meeting the challenges of the evolving media industry through entrepreneurial leadership. Our graduates also gain admission to excellent graduate programs and professional schools in a variety of fields.

Four majors and five minors are offered in the Department of Journalism and Media Management. The department’s programs attract students interested in working in these specific fields, but also provide strong writing, creative, and analytical skills to students who pursue careers in other fields, such as law and business.

The School of Communication’s Electronic Media and Broadcast Journalism majors are designed for students who intend to pursue professional work in electronic news, production operations and allied fields.

Students majoring or minoring in these subjects study all aspects of television, radio, cable, broadband, digital and mobile operations. All Broadcast Journalism and Electronic Media students are encouraged to become involved in UMTV (the campus cable television channel available to the community, the UM campus and over the web) and the student-run radio station, WVUM-FM, serving South Florida.

The School’s Media Management major is designed for students interested in the business and management aspects of contemporary media. Students may pursue interests in entrepreneurship, sales, management, technology and research, among other topics. Students are encouraged to network with industry professionals at Media Management Association meetings and expand their knowledge of media business operations on various platforms through local and national internships.

The School’s major in Journalism prepares students to be writers, editors and designers for a variety of media from mainstream and alternative newspapers and magazines to online media and entrepreneurial ventures. We emphasize effective storytelling through writing, audio and video recording, photography, graphics and data visualization. Reporting skills, analytical thinking and journalistic ethics are stressed throughout the program. Students are encouraged to work for The Miami Hurricane, the student-run newspaper, Distraction magazine and the Ibis yearbook, all of which are nationally award-winning publications. The robust South Florida media market also provides off-campus opportunities at various professional publications and websites. Students majoring in Journalism may concentrate their studies in one of two tracks: Reporting and Writing (which is the general journalism or custom track); and, Digital Media, allowing them the flexibility to design programmatic concentrations in everything from writing to web design to documentary and visual storytelling.

The School’s facilities include a state-of-the-art radio studio, two high-definition television studios, digital post-production suites and related capabilities.

Major Cognate Area

• People and Society (all department majors)

Minor Cognate Area

• People and Society (all department minors)

Dept. Code: JMM

Degree Programs

The Bachelor of Science in Communication is offered in Journalism, Electronic Media, Broadcast Journalism, and Media Management.

Major

Majors are offered in:

• Electronic Media
• Broadcast Journalism
• Media Management
• Journalism

Each candidate for the degree of Bachelor of Science in Communication will complete School of Communication requirements including courses in the School’s General Education Required Areas of Study. All majors must also complete a separate minor or second major within the School or in an academic program outside the School.

NOTE: Departmental Majors, if you wish to both major and minor in the Department of Journalism and Media Management, you must first obtain the written approval of the Chair of the department.

Admission to the Electronic Media, Broadcast Journalism, Media Management and Journalism Majors

Before admission as an Electronic Media, Broadcast Journalism, Media Management or Journalism major, a student must:

• Complete the Core courses listed below, in residence at the University, all with grades of C or higher (C- is not acceptable).
• Students who have obtained the written approval of the Chair of Journalism and Media Management to use transfer credit hours to satisfy one or more requirements of that major may be required to complete additional courses in residence at the University before being admitted to that major.
• Upon completion of a student’s first 45 University credit hours while enrolled in the School of Communication, all University credit hours earned toward the major will be used in computing a student’s major cumulative grade point average; only those students with a cumulative average of 2.5 or higher will be admitted to a major.
• A student who has completed 45 credit hours while enrolled in the School of Communication, but who has not been admitted to one of the Communication majors, may be dismissed from the School.
• A student who has completed 60 University credit hours while enrolled in the School, but who has not been admitted to one of
the Communication majors, will be dismissed from the School. See PROBATION AND DISMISSAL (p. 20).

**Majors in Journalism and Media Management**
- B.S.C. in Broadcast Journalism (p. 294)
- B.S.C. in Electronic Media (p. 295)
- B.S.C. in Journalism (p. 297)

</tr>
</tbody>
</table>

Select a minimum of 9 JMM credit hours at the 300-level or above with a Business focus

Total Credit Hours 15

* with the prior approval of a Media Management faculty advisor.

Strategic Communication

http://com.miami.edu/programs
The Department of Strategic Communication offers majors and minors in Advertising and Public Relations and a minor in Strategic Communication.

**Dept. Code: STC**

**Introduction**

The Department of Strategic Communication offers majors and minors in Advertising and Public Relations.

Students majoring in Advertising learn the art, craft and business of promoting brands from an integrated marketing perspective. The program gives students a well-rounded education in advertising that emphasizes strategy building, data gathering and analysis, creative development and media planning skills. The program includes practical and theoretical approaches to the world of professional advertising, both domestically and internationally. The curriculum is hands-on and students learn how to create an advertising campaign that meets their client’s goals. Qualified students may elect to participate in the internship program, which provides an opportunity to work in the professional community of the Greater Miami area or other regions. The School’s Advertising Program also has an active alliance with the American Advertising Federation.

Students majoring in Public Relations learn how to promote a client’s business, image, product or service. Public relations is a strategic communication process that builds mutually beneficial relationships between organizations (business, government, nonprofit, individual) and their public’s. PR practitioners develop and deliver key messages through traditional and social media channels. The program provides a well-rounded education in public relations that emphasizes research and analysis, creative development and the relationship of all media to PR in both public and private sectors.

The hands-on curriculum reflects the importance of strategic critical thinking, research for understanding target audiences, writing, design expertise and creativity. Students create and execute a PR campaign in a senior-level capstone course that serves a client organization in the community. Demand for PR interns is high, and qualified students may elect to participate in the internship program to acquire professional experience in South Florida and other regions. The program has ties to the Public Relations Society of America and maintains a Public Relations Student Society of America chapter.

**Major Cognate Area**

- Advertising General Track:
  - People and Society

- Advertising Management Track:
  - People and Society

- Advertising Creative Track:
  - People and Society or
  - Arts and Humanities

- Public Relations:
  - People and Society

**Minor Cognate Area**

- Advertising Minor:
  - People and Society

- Public Relations Minor:
  - People and Society

- Strategic Communication Minor:
  - People and Society

Please note, students completing majors and minors within the same department may only satisfy one required cognate area of study.

**Degree Programs**

The Bachelor of Science in Communication is offered in Advertising and Public Relations.

**Majors are offered in:**

- Advertising General Track
- Advertising Creative Track
- Advertising Management Track
- Public Relations General Track
- Public Relations Practice Track

Each candidate for the degree of Bachelor of Science in Communication will complete School of Communication requirements including courses in the School’s General Education Required Areas of Study (p. 18). Advertising majors must also complete a separate minor or a second major in either a second Program of Study within the School or in an academic program outside the School.

**Admission to the Advertising and Public Relations Majors**

Before admission as an Advertising or Public Relations major, a student must:

- Complete the five Core courses listed below, in residence at the University, all with grades of C or higher (C- is not acceptable).
- Students who have obtained the written approval of the Chair of Strategic Communication to use transfer credit hours to satisfy one or more requirements of that major may be required to complete additional courses in residence at the University before being admitted to that major.
- Upon completion of a student’s first 45 University credit hours while enrolled in the School of Communication, all University credit hours earned toward the major will be used in computing a student’s major cumulative grade point average; only those students with a cumulative average of 2.5 or higher will be admitted to a major.
- A student who has completed 45 credit hours while enrolled in the School of Communication, but who has not been admitted to one of the Communication majors, may be dismissed from the School. A student who has completed 60 University credit hours while enrolled in the School, but who has not been admitted to one of the Communication majors, will be dismissed from the School. See PROBATION AND DISMISSAL (p. 20).

**Major in Advertising**

Students majoring in advertising will choose one of the following three tracks:

- Advertising General Track
• Advertising Management Track
• Advertising Creative Track

Major in Public Relations

Students majoring in public relations will choose one of the following two tracks:

• Public Relations General Track
• Public Relations Practice Track

Each candidate for the degree of Bachelor of Science in Communication will complete School of Communication requirements including courses in the School’s General Education Required Areas of Study (p. 18). Public Relations majors must also complete a separate minor or a second major in either a second Program of Study within the School or in an academic program outside the School.

Minors in Strategic Communication Department

The Department of Strategic Communication offers minors in:

• Advertising
• Public Relations
• Strategic Communication

The minors in Advertising, Public Relations and Strategic Communication require a grade of C or higher in all courses (a C- is not acceptable).

Majors in Strategic Communication

• B.S.C. in Advertising - Advertising Creative Track (p. 306)
• B.S.C. in Advertising - Advertising Management Track (p. 308)
• B.S.C. in Advertising - General Advertising Track (p. 309)
• B.S.C. in Public Relations - Practice & General Tracks (p. 311)

Minors in Strategic Communication

• Advertising (p. 313)
• Public Relations (p. 314)
• Strategic Communication (p. 314)

| MKT 301      | Marketing Foundations | 3 |
| MKT 310      | Consumer Behavior and Marketing Strategy | 3 |

Additional Requirements 1,2

| People and Society Cognate | 9 |
| STEM Cognate | 9 |
| Minor or Second Major and Electives | 54 |

Total Credit Hours 120

3 Students must complete at least one course with an international or intercultural focus. Courses that meet this requirement include: STC 350, STC 482, COS 343, and COS 545. Other courses may be used to fulfill this requirement with the approval of an Advertising faculty advisor. Studying abroad also fulfills this requirement.

1 SoC students are required to complete a minimum of a minor (inside or outside of the school) in addition to their Communication major to graduate. For an optional 2nd major, please see your advisor.

2 SoC students must complete 6 credits of English Composition unless exempt based on SAT/ACT score or AP/IB exam, 3-6 credits of Mathematics, University Cognates (http://www.miami.edu/cognates) and the Advanced Writing and Communication Skills Proficiency requirement.

Upper Level Elective Requirement

36 credits at the 300 level or higher are required for graduation. These credits may be earned from your major, minor and/or second major, and electives.

Electives outside the Advertising major (but within the School of Communication) must be approved by the Chair of Strategic Communication.
## Marketing Minor

Students seeking a Marketing minor from the School of Business Administration must complete the Minor in Marketing requirements (p. 274).

3 Students must complete at least one course with an international or intercultural focus. Courses that meet this requirement include: STC 350, STC 482, COS 343, and COS 545. Other courses may be used to fulfill this requirement with the approval of an Advertising faculty advisor. Studying abroad also fulfills this requirement.

1 SoC students are required to complete a minimum of a minor (inside or outside of the school) in addition to their Communication major to graduate. For an optional 2nd major, please see your advisor.

2 SoC students must complete 6 credits of English Composition unless exempt based on SAT/ACT score or AP/IB exam, 3-6 credits of Mathematics, University Cognates (http://www.miami.edu/cognates) and the Advanced Writing and Communication Skills Proficiency requirement.

**Upper Level Elective Requirement**

36 credits at the 300 level or higher are required for graduation. These credits may be earned from your major, minor and/or second major, and electives.

Electives outside the Advertising major (but within the School of Communication) must be approved by the Chair of Strategic Communication.

**Marketing Minor**

Students seeking a Marketing minor from the School of Business Administration must complete the Minor in Marketing requirements (p. 274).

Total Credit Hours: 15

**Note:** It is the student’s responsibility to meet any prerequisites for elective courses other than STC 114 and STC 200. Such prerequisites (these are listed as a link for each course) will not be waived.

* A grade of C or higher is required in all courses (a C- is not acceptable).
Continuing and International Education

http://www.continue.miami.edu

The University of Miami’s Division of Continuing & International Education (DCIE) is dedicated to providing the highest quality education and training — both on campus and online — to people of all ages, throughout every stage of life.

DCIE offers a wide range of undergraduate, graduate and noncredit courses (including fully online and hybrid options) that span a wide array of industry- and academic-related disciplines. Our programs help advance and enrich students who are either beginning their academic journey to those seasoned professionals pursuing career opportunities in South Florida or within the global community.

DCIE manages the following programs:

- Non degree credit courses in undergraduate and graduate studies
- Noncredit professional certificate programs
- Bachelor of General Studies degree program for adults 22+
- Online middle school and high school
- Summer college credit programs for high school students
- Intensive English-language programs for international students
- Intensive language programs
- Osher lifelong learning community for adults aged 50+
- Corporate/custom training and workforce development programs

Adult Student Access Program

www.miami.edu/asap

Students that meet the minimum requirements may take up to 30 credit hours in an undergraduate, non-degree seeking category which may be applied to certain degree programs, after all application and degree seeking requirements are met. In order to be enrolled in this category, students submit an online application (http://www.miami.edu/asap) with any required documents. A minimum 2.5 G.P.A. is required to continue in the program beyond 12 attempted credit hours.

Students may take up to 6 credit hours, lifetime maximum, in a graduate, non-degree seeking category which may be applied to certain degree programs, after all application and degree seeking requirements are met. Not all graduate departments participate in this program. In order to enroll in this category, students submit an online application (http://www.miami.edu/asap), after securing the written permission of the participating graduate department.

For more information, contact: The Adult Student Access Program, DCIE, University of Miami, umnondegree@miami.edu, 305-284-4000.

Bachelor of General Studies

www.miami.edu/bgs

Introduction

Under the leadership of Collegiate Studies, the DCIE offers the Bachelor of General Studies (BGS) degree program, which provides a solid and rigorous, interdisciplinary academic experience for adult students. It is designed specifically for adults who have previously attended college but have not yet completed their undergraduate degrees, as well as for those who have never had the opportunity to pursue post-secondary studies. Admitted students may attend in either a part-time of full-time status. Prospective students are eligible for admission if graduated from high school at least four years ago, have not attended the University of Miami during the past calendar year, have a minimum of 2.2 grade-point average on previous college work, and are a U.S. citizen or permanent resident.

The BGS curriculum allows an individual the flexibility to design an area of concentration to enhance professional or personal goals. Designed to strengthen critical thinking and writing skills of the students, each course is taught by exceptional University of Miami faculty who are committed to the adult student.

Advisors offer personalized attention in career exploration and academic advising and discuss educational alternatives with potential students. Every effort is made to ensure that the process - from admission to registration - is efficient, convenient, and flexible. Students may complete their degree by attending online and on-campus courses.

To underscore its commitment to the adults in our community, the University offers a special tuition to students in the Bachelor of General Studies program which enables the adult, part-time student to pursue this degree at an affordable tuition rate.

The admission process takes into consideration that one’s grade-point average, while significant, is only one factor in determining an applicant’s qualification for acceptance. Therefore, an advising session with an advisor from DCIE will be scheduled to supplement the information you provide on the BGS application form (http://www.miami.edu/dcie/index.php/bgs/apply), which may also be obtained by calling Collegiate Studies at 305-284-2727.

Requirements for Graduation

I. Candidates for the Bachelor of General Studies (BGS) degree must complete the required credit hours and achieve the quality point average specified for students in the University at large as stated in the section Academic Regulations and Procedures. Exempted is interpreted to refer exclusively to those exemptions provided under the following headings:

1. Advanced Standing and Placement (Credit Hour Granted);
2. Credit by Examination;
3. Advanced Placement (by proficiency examination);

II. Except where a required course is one designated to correct a deficiency in his/her college preparation, the student may apply the credit hours of any required course from which he is exempted toward the credit hours for that subject as a general requirement for graduation, toward the 120 credit hours required for graduation. (See Departmental Proficiency Examinations.) An exemption may be granted for ENG 105, but these credit hours may not be applied towards the 120 required for graduation.

III. Credit Only

Only free electives may be taken under this option. Courses which satisfy the major, the distributions of the School, the General Education Requirements of the University or any course for which a C or better is required may not be taken for credit only.

Curriculum Requirements

| English Composition |
### Credit Certificate Programs

Not everyone needs or wants a complete degree program. Recognizing this, the DCIE - in cooperation with several other colleges and schools of the University - offers special Credit Certificate Programs.

Focusing on a single subject, these certificate programs allow students to concentrate on courses that offer the specific knowledge and skills needed for career advancement. All courses are taught by University of Miami faculty at the undergraduate level and are taken for academic credit hour.

Each certificate program varies in the number of required credit hours. While required courses are noted, students may work with an advisor in developing an individually-designed program.

Credit certificate programs are currently available in the following subject areas:

#### Certificate in Accounting

The Undergraduate Certificate in Accounting is awarded by the Division of Continuing and International Education and the Department of Accounting. It is designed for those who hold at least an undergraduate degree (preferably in business) from an accredited college or university, and whose present interest or occupation is accounting. The program requires students to take the same 24 credit hours of accounting courses (as listed below) required for the undergraduate major in Accounting. To sit for the Certified Public Accountant (CPA) examination in Florida, students must have completed 120 credit hours, including 24 credit hours of accounting (above the elementary level) and 24 credit hours of business courses, including a minimum of six credit hours of business law. There are additional educational requirements to become licensed as a Certified Public Accountant in Florida. Students may wish to consider either the Graduate Certificate in Accounting or the Graduate Certificate.

Business Technology
The Business Technology (previously CIS) program is designed to provide a broad background in business computer information systems and to develop the technical skills one needs to stay competitive in this challenging field. The program will be of particular benefit to programmers and to management information systems analysts. The certificate is awarded by the DCIE and the Department of Business Technology upon the successful completion of 18 credit hours as listed below.

Global Academy
http://www.umga.miami.edu

University of Miami Global Academy (UMGA) offers an online middle and high school college preparatory program for both full-time and part-time students. Students in grades six through twelve have the option of either taking courses and transferring them back to their local school or completing all of their courses at UMG and graduating from the University of Miami Global Academy with a high school diploma. In addition, UMGA offers courses on an accelerated schedule for credit advancement or credit recovery.

Whether students are at the middle or high school level, all are provided with the following:

- Instruction from certified, highly qualified teachers
- Small class sizes (typically 10:1)
- Online learning format provides students with flexible schedules
- Multiple class starts for students and families seeking viable education options throughout the year
- Academic coaching to assist with effective time management, course schedules, and college acceptance
- A highly interactive learning environment that promotes intellectual engagement and community
- Comprehensive curriculum offering over 100 courses at the regular, honors, Advanced Placement (AP) levels
- World language courses including French, Latin, Mandarin Chinese, and Spanish
- Interactive English for Speakers of Other Languages (iESOL) Program to increase English language proficiency

Accreditation
The University of Miami Global Academy is accredited by the Southern Association of Colleges and Schools Council on Accreditation and School Improvement (SACS CASI), and the Florida Council of Independent Schools (FCIS). Additionally, UMGA is the only online school in the state of Florida accredited by FCIS.

Statement for Student-Athletes
Courses are listed with the NCAA Eligibility Center for student-athletes aspiring to compete at Division I colleges and universities.

Memberships
The University of Miami Global Academy is a member of the National Association of Independent Schools and International Association for K-12 Online Learning, and is a member of the Florida Department of Education’s School Choice program.

Honor Societies
The University of Miami Global Academy has charters with the National Honor Society (for high school students) and National Junior Honor Society (for middle school students).

Students graduating from the online high school program have been accepted at many fine colleges and universities around the country and the globe, including the University of Miami. Students in grades 6 - 12 have wonderful opportunities to earn middle and high school credit, pursue their passions, and advance at their individual pace. For more information, visit our website (http://www.umga.miami.edu).

Intensive Language Institute
The Intensive Language Institute offers comprehensive language instruction for academic, professional, and personal purposes. The Intensive English Program, a full-time course of study for international students who wish to pursue university studies in the United States, provides instruction in English language and academic study skills. The
ILI also offers certificate programs, part-time language courses and customized language programs.

**Intensive English Program**

The Intensive English Program is designed to prepare students to participate successfully in the academic environment. Students are given a placement test upon arrival to determine the most appropriate level of study. Courses are offered at five levels of instruction. The skills-based curriculum integrates reading and writing, listening and speaking into one complete program of study. The focus is on English language acquisition and application in an academic setting. Specialized classes vary by level; focusing on the needs of the language learners. Satisfactory completion of the highest level meets the English language requirement for acceptance to undergraduate programs at the University.

For more information contact:

Intensive English Program

305-284-2752
E-mail: iep@miami.edu
Visit our website at www.miami.edu/iep (http://www.miami.edu/iep)

**Intensive Language Programs**

Communicative language classes are offered in Spanish, Portuguese, Italian, French, and ESL throughout the year. These courses focus on meaningful communication in the chosen language. Specialized classes focus on Accent Reduction, Medical Spanish or Medical Haitian Creole, and/or Business Writing. A 7-day immersion-style program in Spanish is also offered. Several non-credit certificates are available: the English for Law School Studies Certificate is a 6-week summer program for international students, and the Teaching English as a Foreign Language Certificate teaches skills needed to teach ESL or EFL abroad. The Intensive Language Institute also develops and conducts customized language courses on or off campus tailored for individuals, groups, and organizations with specialized language training needs. For further information, or to register for classes, please call us at 305-284-4000, visit us on the web (http://www.continue.miami.edu), or email (alc.cstudies@miami.edu.)

**Office of Professional Advancement**

www.continue.miami.edu/op

Dedicated to providing the highest quality, competency-based, continuing professional education, the Office of Professional Advancement offers seminars, courses and certificate programs to meet the training and professional development needs of both corporations and individuals.

For more information, specific curriculum descriptions and a listing of current seminars, courses and workshops, contact:

Office of Professional Advancement, Division of Continuing and International Education
University of Miami
111 Allen Hall
Coral Gables, Florida 33146-1610
305-284-5800 or
email opa@miami.edu.
Additional information on the web (http://www.continue.miami.edu).

**Alfus Healthcare Navigator**

This program offers a comprehensive curriculum geared to educate students in the complex field of the US healthcare system. Healthcare advocates strive to maintain high individual services for clients in a system that is frequently impersonal and intimidating. Classes are taught by industry leaders. The program is offered online in cohorts of 8 modules for a period of approximately 9 months. Upon completion, students are prepared to successfully enter this promising new field.

For detailed course descriptions, calendar and tuition cost, please visit our website (http://www.continue.miami.edu/pac).

**Electronic Medical Records Specialist Certificate**

Manage electronic medical records and gain the professional knowledge to become an essential member of the healthcare team. Learn through hands-on practice sessions using PrimeSUITE®, electronic medical records software. The Program prepares students to sit for the Certified Electronic Health Records Specialist (CEHRS) examination through the National Health Career Association.

For detailed course description, calendar and tuition cost, please visit our website (http://www.continue.miami.edu/opa).

**Business and Leadership Certificate Programs**

The Business Program offerings provide a range of certificates focused on enhancing skills and improving organizational performance. The development of core skills in cutting edge disciplines, with application based learning, will prepare Program participants for profit and non-profit sectors across a broad spectrum of disciplines, including Leadership and Management, Business and Communication Skills, Consulting, Human Resources, Nonprofit, and Meeting and Event Planning.

Leadership Development and Management offerings include Executive Leadership, Fundamentals of Leadership, Managing Cross-Functional Teams, Management and Supervision, Organizational Leadership, and Strategies for successful negotiation. These Programs emphasizes the development and enhancement of vital leadership skills for those tasked with leading organizations, or have the desire to enter into one in the near future.

Business offerings include Ethical Business Decision Making, Alternative Methods of Problem Solving, Group Facilitation, Problem Solving and Decision-Making Strategies. These Programs prepare participants for the skilled, ethical decision-making, problem solving, and critical thinking skills necessary to make informed decisions that create and maintain an ethical work environment.

Human Resources offerings include Managing Organizational Change, Fundamentals of Delivering Training, and Conflict Resolution. These programs emphasize the development and enhancement of key skills for those who have the need and desire to learn how to effectively manage change, present effective training, and resolve workplace conflict to increase employee engagement, productivity, and teamwork.

The Nonprofit Programs are designed to develop and cultivate necessary skills that nonprofit managers to effectively manage challenges often associated with the nonprofit sector. Participants who currently hold a management role, or have the desire to move into a management role within a non-profit organization of any type will elevate skills in Nonprofit
Operational Management, Nonprofit Fundraising, Grant Writing, and Fundamentals of Philanthropy.

Meeting and Event Planning Program participants are those tasked with or looking to engage in designing and coordinating any type of organizational meeting or event. Program areas include Fundamentals of Meeting Planning and Event Development and Negotiation Skills for Event Planners. Emphasis is placed on gaining an in-depth understanding of skills that will enable participants to help clients and/or internal organizational departments design and coordinate an effective, multifaceted meeting and/or event that will accomplish the client’s or organizational goals and objectives.

Additional Programs include Innovation and Organizational Consulting. The Innovation Program emphasizes key roles of individual entrepreneurs and organizational innovation in private and public services, design thinking as a problem-solving tool, and understanding communication approaches, leadership practices, and the relationship between the marketing and sales functions in the workplace. The Organizational Consulting Program provides the knowledge needed to think critically and solve problems creatively for an organization based on assessment of the client’s needs.

For a full list of business certificate programs offered, please visit our website (http://www.continue.miami.edu/opa).

**Certified Professional Coach Program**

This Coach Certificate Training Program is designed to support you in becoming a professional coach or in using coaching skills to enhance your leadership, management, and/or communication skills. This program has been written by master coaches and aligns with the International Coach Federation (ICF) Core Coaching Competencies. The University of Miami has designed a thorough program that will allow you to make a powerful leap into using coaching skills and becoming a professional coach. The Certified Professional Coach Program is a 140 hour, eleven month program designed for those interested in a career in coaching, who also want outstanding training in order to serve clients at the highest level. Additionally, it is designed for leaders, managers, human resource professionals, teachers, or service professionals (doctors, lawyers, counselors, consultants, etc.) who want to dramatically improve their ability to communicate, motivate, inspire, and empower others.

For more detailed course descriptions, current schedule, and prices please visit our website (http://www.continue.miami.edu/coach).

**Human Resources Management Certificate Program**

This certificate provides the latest in proven techniques and strategies to effectively manage organizational challenges. The curriculum covers the following topics: Strategic Management, Legal and Regulatory Issues; Employment, Planning, and Placement; Benefits and Compensations; Development and Administration; Training and Development and Employee and Labor Relations. The HR Program is recognized by the Greater Miami Society for Human Resource Management. The comprehensive curriculum works for the newcomer as well as the seasoned professional and is especially useful to small and medium-size business owners. (6 months)

For more detailed course descriptions, current schedule, and prices please visit our website (http://www.continue.miami.edu/hrm).

**SHRM® Certification Course (SHRM-CP™/SHRM-SCP™)**

Establish yourself as a globally-recognized human resource expert by earning the new standard in HR Certification: SHRM Certified Professional (SHRM-CPT™) and SHRM Senior Certified Professional I (SHRM-SCP™). Designed for SHRM credential candidates, this course will expand and test your knowledge of practical, real-life competencies in areas critical for HR career success. Combining expert instruction with the SHRM Learning System® for SHRM - CP™/SHRM-SCP™, you will learn faster, retain more knowledge, and stay on track for success on the exam.

For more detailed course descriptions, current schedule, and prices please visit our website (http://www.continue.miami.edu/hrm).

**Interior Design Certificate Program**

If you have always had an eye for design, and have a knack for taking an ordinary space and making it feel extraordinary, then the University of Miami Certificate in Interior Design is for you. The Certificate in Interior Design Program offers non-credit courses to those who want to enrich their cultural experiences or who are interested in improving their professional or occupational skills. Taught by industry professionals, our Certificate in Interior Design program focuses on the important fundamentals to enter the design field. A hands-on program, students will learn history of interiors, principles and elements of design, freehand and computer drafting, specification and materials, professional practice, photography and building a portfolio.

For more detailed course descriptions, current schedule, and prices please visit our website (http://www.continue.miami.edu/design).

**Paralegal Studies Certificate Program**

The UM Paralegal Studies program is an intense four-month course of study which certifies the successful student as a qualified professional ready to start an exciting new career as a paralegal. Classes are taught by prominent local attorneys, Judges and Magistrates. The Paralegal Program classes are offered on the weekends, weekdays or weekday evenings at the Coral Gables campus and on weekday evenings in Broward. This program is also available online in both English and Spanish. (4 months)

For more detailed course descriptions, current schedule, and prices please visit our website (http://www.continue.miami.edu/paralegal).

**Paralegal Specialist Certificate**

The Paralegal Specialist Certificates provide both beginning and experienced paralegals with expansive educational and professional opportunities. The certificate programs allow paralegals to augment current skills and focus on virtually any area of the law. Choose from over 20 Paralegal Specialist Certificates and give yourself an edge in today’s competitive job market. All specialist courses are available online so students are able to enroll at any time. (6 months)

For more detailed course descriptions, current schedule, and prices please visit our website (http://www.continue.miami.edu/paralegal).
Personal Financial Planning Certificate Program

Designed for students preparing for professional examinations and professional practice in personal financial planning.

Our program consists of providing the highest quality CFP education through Dalton Education, a leading provider of innovative education solutions in financial planning. The founders of Dalton Education have helped thousands of financial professionals earn the CFP® certification marks with their leading CFP review course, THE DALTON REVIEW®. Students can choose from an independent, self-paced, online education program or a live, instructor-led, internet delivered program.

For more detailed course descriptions, current schedule, and prices please visit our website (http://www.continue.miami.edu/opa).

Social Media Management Education Program

University of Miami is proud to offer a Social Media Professional Certificate and Social Media Strategist Certificate. This is a cutting edge program, designed to teach the business applications of social media communications. This self-paced online program is convenient, practical, and affordable with the flexibility to begin at a time that works best for you.

For more detailed course descriptions, current schedule, and prices please visit our website (http://www.continue.miami.edu/opa).

Project Management Professional Certificate (PMP®)

This program satisfies the educational requirement needed to qualify to take the Project Management Professional (PMP®) exam. Learn the core competencies of project management, following the Project Management institute’s A Guide to the Project Management Body of Knowledge, (PMBOK- Guide). Become proficient in the knowledge areas, process groups, skills and techniques delineated in the PMBOK Guide to execute projects effectively and efficiently through all stages.

For more detailed course descriptions, current schedule, and prices please visit our website (http://www.continue.miami.edu/opa).
Education and Human Development

http://www.education.miami.edu

Introduction
The School of Education and Human Development (SEHD) offers undergraduate majors in:

- Human and Social Development
- Track I: Individual and Relational Development
- Track II: Community and Program Development
- Track III: Human and Social Development Studies
- Athletic Training
- Exercise Physiology
- Sport Administration
- Elementary (K-6)/Exceptional Student Education (K-12) with ESOL and Reading Endorsements (K-12)
- Secondary English with ESOL Endorsement (K-12)
- Secondary Science, Mathematics and Social Science (6-12).

The degrees of Master of Science in Education, Specialist in Education, Doctor of Education, and Doctor of Philosophy are available in various departments within the School. These programs are under the supervision of the Dean of the Graduate School and the School of Education and Human Development Sr. Associate Dean for Graduate Studies.

Vision/Mission
Our vision is to be a center of excellence in the study, promotion and integration of educational, psychological, and physical well-being in multicultural communities.

Our mission is to produce knowledge and prepare the next generation of leaders, researchers, and agents of change and well-being in education and the community.

Academic Policies

Academic Integrity Statement
Academic integrity is fundamental to scholarship, good citizenry, and individual success. All students in the School of Education and Human Development are expected to abide by the University of Miami Honor Code (https://umshare.miami.edu/web/wda/deanstudents/pdf/undergrad_honorcode.pdf). It was established “to preserve the academic integrity of the student body, to encourage consistent ethical behavior among undergraduates, and to foster a climate of fair competition.” Please become thoroughly familiar with the provisions of the Code, academic dishonesty and violations of the Honor Code will not be tolerated.

Admission
Applications for incoming freshman are processed and reviewed by the Office of Admission.

Application to the Bachelor of Science in Education program is requested by February 1st.

Early application is encouraged.

Transfer students: The academic accomplishments of each transfer student will be evaluated on an individual basis. A 3.0 GPA is recommended for transfer admission.

Application deadline for transfer students is March 1st.

Students admitted into the SEHD programs are held to the program requirements stated in the Bulletin for that term.

Student Responsibilities
Students are responsible for planning their own programs and for meeting degree requirements. It is the student’s responsibility to understand and fully comply with the provisions set forth in this Bulletin and written changes to their program of study. Written requests for variation from program or school requirements are reviewed by an administrative committee.

Matriculated students who elect to transfer courses from another institution over a summer or intersession term, must receive departmental or program approval prior to enrolling in the course. Students are responsible for adhering to the residency rule which states that the last 45 consecutive credits must be earned at UM.

A student advising compact specifies the dual responsibilities between students and advisors in each program.

Academic Progress and Probation
The School will review each student’s record at the end of each semester.

When a student’s semester or cumulative average is less than stated below, or progress toward degree completion is unsatisfactory, the student will be placed on academic probation or warning in accordance with the School of Education and Human Development policies and procedures.

Students on probation are not permitted to enroll in more than 12 credit hours, shall make arrangements to meet on a monthly basis with their academic advisor, and may have a STOP placed on their future enrollment until grades are further reviewed. The following criteria will determine probationary status.

<table>
<thead>
<tr>
<th>Credit Hours Earned</th>
<th>CGPA</th>
<th>CGPA (Exercise Physiology Majors Only)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fewer than 30 credit hours</td>
<td>1.7</td>
<td>2.0</td>
</tr>
<tr>
<td>30-59 credit hours</td>
<td>2.0</td>
<td>2.5</td>
</tr>
<tr>
<td>60+ credit hours</td>
<td>2.3</td>
<td>2.5</td>
</tr>
</tbody>
</table>

Note: There are different retention and probation policies for Athletic Training majors. Please see the Athletic Training (p. 327) website or the Athletic Training Guidelines Manual for this and other important information regarding the requirements for completion of the Athletic Training major.

Note: The minimum GPA required for graduation from a Teacher Education Program is 2.5.

Subject to Dismissal
A student who remains on academic probation twice during their undergraduate studies can be designated as “Subject to Dismissal” and will be dismissed the following semester if not removed from probationary status. It is not required to be on this status to be dismissed.
from the School of Education and Human Development or from the University of Miami.

**Academic Dismissal**
A student in the School of Education and Human Development whose CGPA or progress toward degree completion, falls below the level of the minimum standards of the University of Miami and/or the School of Education and Human Development, may be dismissed.

**Accreditation**
Kinesiology and Sport Sciences offers the Athletic Training Program that is accredited by the Commission on Accreditation of Athletic Training Education (CAATE); the Sport Administration Program is approved by the North American Society of Sport Management. Teacher Education Programs offered by the School of Education and Human Development are approved by the Florida Department of Education. In conjunction with the Phillip and Patricia Frost School of Music, the School of Education and Human Development offers Teacher Education Programs in Music Education at the undergraduate and graduate levels. Students who successfully complete their program of studies and submit an application to the Florida Department of Education - Bureau of Educator Certification are eligible to receive a Professional Teaching Certificate.

The Foote Fellows Honors Program reflects the educational vision of former University of Miami President Edward T. Foote, who retired in 2000 after serving the University for twenty years. President Foote passed away in the spring, 2016 but his legacy lives on through the Foote Fellow Honors Program that recognizes the most educationally accomplished incoming students at the University of Miami. Foote Fellows have distinguished themselves both in and out of the classroom at their previous schools, are self-motivated, and think independently. Foote Fellows enjoy unmatched freedom and flexibility to explore a multitude of educational resources within the curricular framework of their school or college. Many Foote Fellows leverage this opportunity to pursue additional majors and/or minors and to study abroad.

The School of Education and Human Development (SEHD) offers a first year inter-disciplinary seminar exclusively for Foote Fellows lead by the dean of the school, Isaac Prilleltensky. The seminar scheduled for the fall, 2016 will be focused on Well-Being in multi-cultural communities.

Foote Fellows have preferential advising for course registration with their advisor, Assistant Dean, Gina Astorini. Dean Astorini assists Foote Fellows to chart their academic path and to attain access to distinctive learning opportunities at the University, such as special school-based seminars, faculty-mentored research, networking opportunities, and off-campus internships. They also have early registration appointments thus providing optimal access to the most exciting and popular courses on campus.

Foote Fellows are invited to participate in the Research Honors Program. This is a two year program where students complete the following components:

- 2 consecutive semesters of faculty mentored research (2-credits each semester)
- A Thesis (20 page minimum-faculty mentored)
- Seminar and poster presentation at the Undergraduate Research, Creativity and Innovation Forum in the spring
- Students who complete the program will have their transcripts stamped with Research Honors Designation.

The SEHD has partnered with the Melissa Institute of Miami. The Melissa Institute, conducts research and sponsors conferences, forums and seminars throughout the year addressing school bullying, domestic violence, prevention, education, awareness and community engagement directed at reducing violence. The SEHD, through the generosity of the Melissa Institute, offers complimentary tickets to Foote Fellow students in our program to attend these conferences/seminars during the semester.

Foote Fellows are invited to join advanced, interdisciplinary Foote Fellow seminars taught by leading faculty members from across the University. An example is Books That Matter, a rigorous seminar in non-fiction reading that is offered in sessions for first-year and for upper-class students. Additionally, Foote Fellows benefit from early move-in to the residential colleges and receive focused advising on post-baccalaureate distinguished fellowships and awards.

The Foote Fellow Program will provide an enriching experience for students who have been accepted by UM.

**Educational and Psychological Studies**
Dept. Code: EPS

**Bachelor of Science in Education: Human and Social Development**
The major in Human and Social Development (HSD) focuses on the promotion of healthy development and well-being. It prepares students to work with people in multiple contexts and settings:

- health and human services
- schools, universities, and community programs
- government and non-government agencies
- grass-roots movements

By exploring the scholarly and practical interconnections among individual, interpersonal, social, and community approaches to change, students learn to identify barriers to well-being and to implement effective change-oriented strategies and policies. HSD coursework emphasizes theory, research, and skills. It culminates in a practicum in a setting related to students’ area of interest and prepares them for both graduate studies and careers.

Students choose between three areas of concentration (tracks).

- **Track I: Individual and Relational Development (Track Code: HSDI)**
  This track emphasizes individual, relational, and family well-being. Focusing on context and diversity in mental health and on strength-based, preventive, and empowering approaches, courses cover family studies, counseling theories and techniques, interviewing skills, and the basics of human service work. Students are well-prepared for graduate study in the helping professions and careers in health and human services.

- **Track II: Community and Program Development (Track Code: HSDC)**
  This track promotes healthy individual and community development by emphasizing how social, institutional, and community dynamics affect personal well-being. Stressing the role of non-government
agencies in fostering well-being for people with diverse backgrounds. HSDC prepares students to diagnose institutional and community challenges and offer strategies for positive change. Courses include community-focused planning, needs assessment, and change strategies and nonprofit program development, implementation, and evaluation. Students are well prepared for graduate study in community psychology and public policy and careers in community organizations.

- **Track III: Human and Social Development Studies (Track Code: HSDS)**
  This is a general track which offers a menu of courses relating to individual and community development. HSDS students are free to combine classes from the Individual (HSDI) and Community (HSDC) tracks. This track meets the needs of students who seek greater flexibility in course work and are less concerned with specializing in the individual or community tracks.

HSD students must declare an approved second major or a minor either in the School of Education or through any other school or college.

### Requirements for Graduation

#### Bachelor of Science in Education

I. Candidates for B.S.Ed. in the School of Education and Human Development must complete the credit hours of work and achieve the quality point average specified for students in the University at large as stated in the section ACADEMIC REGULATIONS AND PROCEDURES (p. 13), subject to regulations concerning the major specified in departmental and program sections of this Bulletin.

Exempted is interpreted to refer exclusively to those exemptions provided under the following headings:

- Advanced Standing and Placement (Credit Hour Granted);
- Credit by Examination;
- Advanced Placement (by proficiency examination);
- Statement of Foreign Language Requirements;

II. Except where a required course is one designated to correct a deficiency in his/her college preparation, the student may apply the credit hours of any required course from which he is exempted toward the credit hours specified for that subject as a general requirement for graduation and, upon payment of a recording fee, toward the 120 credit hours required for graduation. (See Departmental Proficiency Examinations.) An exemption may be granted for ENG 105, but these credit hours may not be applied toward the 120 credit hours required for graduation.

III. Credit Only. Only free electives may be taken under this option. Courses which satisfy the major, minor, the distributions of the School, the General Education Requirements of the University or any course for which a C or better is required may not be taken for credit only.

IV. Transferred credit hour may not count toward the completion of a major without the written approval of the Assistant Dean of the School of Education and Human Development.

V. Required Areas of Study

1. **English Composition 3 – 6 credit hours**
   Students fulfill this requirement by satisfactorily completing ENG 105 and ENG 106 or its equivalent. Appropriate Advanced Placement (AP) or International Baccalaureate (IB) scores in English composition may be used to satisfy the ENG 105/ENG 106 requirement. An appropriate score on the SAT or ACT verbal examination may earn a student exemption from, but not credit hour in, ENG 105. Appropriate scores on other tests determined by the Department of English may earn a student exemption from, but not credit hour in, ENG 105. Courses satisfying the English Composition requirement may not be used to fulfill the Advanced Writing and Communication Requirement.

2. **Mathematics**
   B.S.Ed. degree candidates in the Department of Educational and Psychological Studies are required to take EPS 351. This course fulfills a Math requirement for the HSD major. Prior to taking EPS 351, students must complete MTH 101 or be exempt from MTH 101 based on any of the following tests: AP, IB, or an examination administered by the Department of Mathematics.

3. **Foreign Languages (not applicable)**

#### Areas of Knowledge and Cognate Requirements

The University of Miami’s General Education requirements ensure that graduates have acquired essential intellectual skills and have engaged a range of academic disciplines. All new students will fulfill the General Education requirements by selecting a Cognate, which is a cluster of courses arranged by their content, field and interest.

- A cognate is a group of at least three related courses for at least 9 credit hours.
- The courses in a cognate are related in a topical, thematic, interdisciplinary, sequential, or other such fashion, so that completion of a cognate provides coherent depth of knowledge in the area.
- Students must take three cognates to fulfill the Areas of Knowledge requirement,
  - one in the Arts & Humanities (A&H),
  - one in People & Society (P&S), and
  - one in Science, Technology, Engineering & Mathematics (STEM).
- Each cognate has course options that allow students to complete the cognate in ways that meet their individual interests, while staying within the coherent focus of the cognate.
- In addition to the cognates that have been designed by faculty, each major and minor fulfills the cognate requirement in that one area.
  - Exercise Physiology and Athletic Training majors will fulfill the STEM cognate.
  - Sport Administration, Human and Social Development, and Elementary/ESE majors will fulfill the P&S cognate.
- An approved list of cognates can be found on the University of Miami website.

VI. Advanced Writing and Communication Skills Requirement

Every student majoring in Human and Social Development, will meet the Advanced Writing and Communication Requirement upon fulfillment of their major courses. These courses have a prerequisite requirement of ENG 105 and ENG 106 and will be identified as either writing intensive or as an oral/verbal communication proficiency course or both. Digital competency for both written and oral competencies will be assessed. Writing intensive courses require a minimum of 2500 written words; assignments will be assessed for analytical ability, synthesis of information, grammar, content and style. Courses designated as an oral/verbal proficiency class will provide students an opportunity to demonstrate their presentation skills using accurate standard English structure and syntax, non-verbal cues and gestures, as well as audience appropriate language. Courses in the HSD major which meet the
Advanced Writing and Communication Skills Requirement are EPS 321, EPS 371 and EPS 579.

VII. Major in Human and Social Development

• Every candidate for the B.S.Ed. degree in the Department of Educational and Psychological Studies must choose a major in Human and Social Development.

• Students choose among three areas of concentration:
  • Track I – Individual and Relational Development (HSDI);
  • Track II – Community and Program Development (HSDC);
  • Track III – Human and Social Development Studies (HSDS).
  To find the requirements for the major, consult this Bulletin under the discipline concerned, and confer with the designated departmental representative.

• HSD majors must maintain a minimum overall grade point average of 2.0 with a grade of “C” or better in all courses in the major.

• HSD students must declare an approved second major or a minor in the School of Education and Human Development or through any other UM school or college.

VIII. Minor

B.S.Ed. majors in Human and Social Development are required to declare a minor.

IX. Electives

Electives may be chosen from any courses offered by the University. The student should consult an advisor before selecting elective courses. At least 6 credit hours must be at the 300 level or above.

X. Senior Assessment

Seniors are required to participate in the General Education Assessment prior to graduation as part of the SACS review process.

* The requirements of the minor are 15 credit hours with a grade of C or better. Nine of these 15 credit hours must be earned at the University of Miami; with prior approval, three of these nine may be taken through the UM Study Abroad Program.

** All transfer course equivalencies, up to 6 credits, must be approved by the EPS department.

*** The undergraduate coursework in Human and Social Development is open to all qualified University of Miami students.

**** Determination for using these courses as a minor, as a specialization, and/or as electives in any program, is made by the individual student's degree granting college or school.

**Kinesiology and Sport Sciences**

Dept. Code: KIN

The School of Education and Human Development offers undergraduate studies in the Kinesiology and Sport Sciences Department. The Department provides some of the strongest programs in the field, providing a structured classroom setting immersed in theory and knowledge with clinical and practical experiences. The department is committed to fostering unique and collaborative efforts within our diverse University community. Students are encouraged to engage in various work and clinical experiences including opportunities at the Medical School, the Miami Project to cure paralysis, UM Varsity Athletics Department, South Florida sports industry, Sports Medicine Clinics,
Veterans Administration Hospital, and local high schools. Students can choose to major in one of the following areas:

- Athletic Training
- Exercise Physiology (with a pre-medical or pre-physical therapy track)
- Sport Administration

**Bachelor of Science in Education**

I. Candidates for B.S.Ed. in the School of Education and Human Development must complete the credit hours of work and achieve the quality point average specified for students in the University at large as stated in the section ACADEMIC REGULATIONS AND PROCEDURES (p. 13), subject to regulations concerning the major specified in departmental and program sections of this Bulletin. Exempted is interpreted to refer exclusively to those exemptions provided under the following headings:

- Advanced Standing and Placement (Credit Hour Granted);
- Credit by Examination;
- Advanced Placement (by proficiency examination);
- Statement of Foreign Language Requirements;
- Statement of Special Skills

II. Except where a required course is one designated to correct a deficiency in his/her college preparation, the student may apply the credit hours of work and achieve the quality point average specified for students in the University at large as stated in the section ACADEMIC REGULATIONS AND PROCEDURES (p. 13), subject to regulations concerning the major specified in departmental and program sections of this Bulletin. Exempted is interpreted to refer exclusively to those exemptions provided under the following headings:

- Advanced Standing and Placement (Credit Hour Granted);
- Credit by Examination;
- Advanced Placement (by proficiency examination);
- Statement of Foreign Language Requirements;

III. Credit Only

Only free electives may be taken under this option. Courses which satisfy the major, minor, the distributions of the School, the General Education Requirements of the University or any course for which a C or better is required may not be taken for credit only.

IV. Transferred credit hour may not count toward the completion of a major without the written approval of the Assistant Dean of the School of Education and Human Development.

V. Required Areas of Study.

1. **English Composition**

   Students must take ENG 105 and ENG 106 (or their equivalent) during the first year of enrollment in the School. Admission to ENG 105 requires a placement score acceptable to the Department of English. Students whose placement scores are deemed unacceptably low will be required to take the non-credit course, ENG 103, before taking ENG 105 and ENG 106. Students whose placement scores are high may be exempt from ENG 105 but not from ENG 106 or its equivalent.

2. **Mathematics**

   B.S.Ed. degree candidates must complete MTH 113 or higher. Students who do not place directly into MTH 113 must enroll in either MTH 099 or MTH 101 based on results of placement tests. Statistics does not satisfy the Math requirement. B.S. in Athletic Training and B.S. in Exercise Physiology have different Math requirements. Please see specific program requirements.

3. **Foreign Languages (applicable to Sport Administration majors only)**

   Students must earn at least 3 credit hours of a foreign language at the 200 course level or higher. Special 200-level courses are required of native speakers who choose to fulfill the language requirement. Two semesters of American Sign Language constitutes an acceptable alternative for the Foreign Language Requirement.

**Areas of Knowledge and Cognate Requirements**

The University of Miami’s General Education requirements ensure that graduates have acquired essential intellectual skills and have engaged in a range of academic disciplines. All new students will fulfill the General Education requirements by selecting a Cognate, which is a cluster of courses arranged by their content, field, and interest.

- A cognate is a group of at least three related courses for at least 9 credit hours.
- The courses in a cognate are related in a topical, thematic, interdisciplinary, sequential, or other such fashion, so that completion of a cognate provides coherent depth of knowledge in the area.
- Students must take three cognates to fulfill the Areas of Knowledge requirement,
  - one in the Arts & Humanities (A&H),
  - one in People & Society (P&S), and
  - one in Science, Technology, Engineering & Mathematics (STEM).
- Each cognate has course options that allow students to complete the cognate in ways that meet their individual interests, while staying within the coherent focus of the cognate.
- In addition to the cognates that have been designed by faculty, each major and minor fulfills the cognate requirement in one area.
  - Exercise Physiology and Athletic Training majors will fulfill the STEM cognate.
  - Sport Administration, Human and Social Development, and Elementary/ESE majors will fulfill the P&S cognate.
- An approved list of cognates can be found on the University of Miami website.

VI. Advanced Writing and Communication Requirement

Every student majoring in a program from the Kinesiology and Sport Sciences Department will meet the Advanced Writing and Communication Requirement upon fulfillment of the courses for that major. These courses have a prerequisite of ENG 105 and ENG 106 and will be identified as either writing intensive or as an oral/verbal communication proficiency course or both. Digital competency for both written and oral components will be assessed. Writing intensive courses require a minimum of 2500 written words; assignments will be assessed for analytical ability, synthesis of information, grammar, content and style. Courses designated as an oral/verbal proficiency class will provide students an opportunity to demonstrate their presentation skills using accurate standard English structure and syntax, non-verbal cues and gestures, as well as audience appropriate language. The following courses meet the Advanced Writing and Communication Skills Requirement for the major:

- Athletic Training: KIN 250 and KIN 260
- Exercise Physiology: KIN 365 and KIN 457
- Sport Administration: KIN 308 and KIN 498

VII. Majors

Every candidate for the B.S.AT. degree must choose Athletic Training as a major. Every candidate for the B.S.EXPH degree must choose Exercise Physiology as a major. Every candidate for the B.S.Ed. degree must
choose a major in Sport Administration. To find the requirements for the major, consult this Bulletin under the discipline concerned, and confer with the designated departmental representative.

The choice of majors should be made no later than the beginning of the junior year and must be approved by the major department. Any student making unsatisfactory progress in a major may be required to change his/her major or to relinquish candidacy for the degree.

VIII. Minors

B.S.Ed. majors in Sport Administration and Exercise Physiology and B.S. EXPH majors are required to declare a minor. Sport Administration students require department approval before declaring a minor. Exercise Physiology students may choose not to declare a minor if following the pre-med track. Students must complete all of the pre-med courses in order to be waived from the minor requirement. Please consult an advisor for clarification of this requirement.

IX. Electives

Electives may be chosen from any courses offered by the University. The student should consult an advisor before selecting elective courses. At least 6 credit hours must be at the 300 level or above.

X. Senior Assessment

Seniors are required to participate in the General Education Assessment prior to graduation as part of the SACS review process.

Minors

A minor in any of the three areas below consists of 14-15 credit hours:

Exercise Physiology

Sport Administration

Sports Medicine

• A grade of C or better is required for each course applied toward the minor; the overall grade point average for the minor must be 2.5 or above.
• The undergraduate coursework in Exercise Physiology, Sports Medicine, and Sport Administration are open to all qualified University of Miami students. A student can minor in either Exercise Physiology or Sports Medicine but not both.
• Athletic Training majors are not allowed to minor in Sports Medicine.
• Determination for using these courses as a minor, as a specialization, and/or as electives in any program, is made by the individual student's degree granting college or school.
• Seniors are required to participate in the General Education Assessment as part of the SACS review process.

For further information, address all inquiries to:
Assistant Dean
School of Education and Human Development
P. O. Box 248065

Coral Gables, Florida 33124
Telephone: (305) 284-3711

Majors in Kinesiology and Sport Sciences

• B.S. in Athletic Training (p. 329)
• B.S. in Education, Sport Administration (p. 331)
• B.S. in Exercise Physiology (p. 332)

Minors in Kinesiology and Sport Sciences

• Exercise Physiology (p. 334)
• Sport Administration (p. 334)
• Sports Medicine (p. 334)

B.S. in Athletic Training

The Athletic Training program at the University of Miami is an undergraduate education program that has been accredited by CAATE. The program is designed to provide a structured classroom and clinical experience to prepare students to become eligible to sit for the Board of Certification exam; Didactic courses are sequenced to maximize student learning. Please see the Athletic Training website or the Athletic Training Guidelines Manual for the course sequence form and other important information regarding the requirements for completion of the Athletic Training major.

• A degree in Athletic Training requires a major GPA of 3.0 or higher and an overall GPA of 2.5 or higher.
• Seniors are required to participate in the General Education Assessment prior to graduation as part of the SACS accreditation review process.
• Students must successfully meet all of the retention requirements outlined in the Athletic Training Education Program (ATEP) handbook in order to continue in the major.

B.S. in Education, Sport Administration

The Sport Administration major at the University of Miami is an undergraduate education program designed to prepare students for careers in the sport industry. The program is committed to the professional development of students so that competencies and skills relevant to the Sport Industry can be acquired over time. Specific competencies in organization, ethics, marketing, leadership and legal issues are emphasized.

- Field experience and internships are an essential component of the major. The KIN department is actively engaged in placing students in visible sports settings and appropriate sport environments so that students acquire relevant competencies and gain pragmatic hands-on experiences that are necessary for success in today's sport industry.
- The Sport Administration major is a 42 credit hour major in Kinesiology coursework plus a class in public speaking (COS 211), leading to a Bachelor of Science in Education.
- Students are required to meet a foreign language component. This may be satisfied with two semesters of American Sign Language (TAL 107 and TAL 207), or any intermediate course (200+), in a foreign language that is offered at UM.
- Students transferring from another college or university must have a cumulative GPA of 2.75 or above in order to be considered for admission to the major.
- Students are required to complete a 9-credit internship upon successful completion of ALL coursework for the Sport Administration Major. Exceptions to this policy must be approved by the Undergraduate Program Director and the Assistant Dean.
- A Business minor is suggested to complement the Sport Administration major and provide a well-rounded comprehensive background to the Sport Administration field. A minor in any field is required.
- Students pursuing a degree in Sport Administration must receive a grade of B- or higher in KIN 201 in order to continue with the major.
- Students will be allowed to retake a course once.
- All 400-level courses are restricted to declared Sport Administration majors only.
- A degree in Sport Administration requires a major GPA of 2.5 or higher and an overall GPA of 2.3 or higher.
- KIN 306 and KIN 308 may not be taken in the same semester and must be taken during junior year.
- A grade of C or better is required for each course applied toward the major with the exception of KIN 201 which requires a grade of B- or higher in the course, as previously specified.

B.S. in Exercise Physiology

The Undergraduate program in Exercise Physiology at the University of Miami, is designed for students to acquire a sound knowledge base in the sciences followed by the application of that knowledge base to human movement, exercise and sports performance. Clinical laboratory experiences supplement applied scientific theory in a rigorous academic setting.

- Students may pursue a pre-med track concurrent with the Exercise Physiology major and should inform their advisor if selecting this track.
- Exercise Physiology requires that students maintain a major GPA of 2.75. Students with a major GPA below 2.75 will have one semester to raise their GPA to meet the requirement. Failure to do so may lead to dismissal from the major.

- Students transferring from another college or university must have a cumulative GPA of 3.0 or above in order to be considered for admission to the major.
- A grade of "C" or better is required for each course applied toward the major. Students are allowed to retake a course one time.
- All 100 level courses and KIN 202, KIN 212, and KIN 232 are open to non-majors. All other courses are open to majors and minors only. KIN 202 is only open to science majors.
- All 300- and 400-level courses except those in a STEM cognate, are restricted to declared Exercise Physiology majors only.
- KIN 466 has been changed to KIN 399, and should be taken in the Spring semester of the junior year. Students unable to take or retake this class prior to graduation are permitted to take KIN 545 as a substitution.
- Seniors are required to participate in the General Education Assessment prior to graduation as part of the SACS accreditation review process.

University of Miami Honors Program – Exercise Physiology

KIN 458 will be available for honors credit for Exercise Physiology students provided the following stipulations are met:

1. The course is under the direction of a full-time faculty member in Exercise Physiology.
2. The student completes an honors project permission form and submits this form to the instructor within the first three weeks of the semester.
3. The student completes assigned writing credit work by the end of the semester.
4. Assignments completed for honors credit hour are sent to the University of Miami Writing Center for review.

The University of Miami currently offers an accelerated programs for undergraduate Exercise Physiology majors who want to obtain a Master’s Degree in Exercise Physiology, Strength & Conditioning/Fitness Entrepreneurship, or Nutrition for Health & Human Performance. This can be done by taking one additional year of graduate courses. These students must take two graduate courses in Exercise Physiology in their senior undergraduate year in order to earn an M.S.Ed. degree in one additional year. Please visit our website (http://www.education.miami.edu) for additional information on the accelerated master’s programs. To be eligible students must apply for admission to the accelerated master’s program no later than the end of the Fall semester of their senior year.

Minor in Exercise Physiology

A minor in Exercise Physiology is open to all students at the University of Miami. Students should complete the following 5 classes in order to earn the EXPH minor. Athletic Training students are not eligible for the EXPH minor.

- **KIN 155** Biological Bases for Physical Activity and Health 3
- **KIN 202** Applied Nutrition for Health and Performance 3
- **KIN 232** Basic Human Physiology 3
- **KIN 233** Basic Anatomy Lab 2
- **KIN 365** Exercise Programming 3

Total Credit Hours 14

Minor in Sport Administration

A minor in Sport Administration is available to all students at the University of Miami.

- **KIN 201** Introduction to Sport Administration 3
- Select four of the following: 12
  - **KIN 206** Sport Facilities and Event Management
  - **KIN 212** Elements of Sports Psychology
  - **KIN 256** GLOBALIZATION OF SPORT
  - **KIN 297** Practicum in Sport Administration
  - **KIN 302** Sport Marketing

Minor in Sports Medicine

A minor in Sports Medicine is available to all students at the University of Miami. Students should take the following 5 courses in the course list for a total of 15 credits. A grade of C or higher is required in each course.

- **KIN 155** Biological Bases for Physical Activity and Health 3
- **KIN 184** Athletic and Sport Injuries 3
- **KIN 234** Functional Human Anatomy 3
- **KIN 235** Personal and Community Health 3
- **KIN 301** Athletic Injuries & Sport First Aid 3

Total Credit Hours 15

A minor in Sports Medicine is available to all students at the University of Miami. Students should take the following 5 courses in the course list for a total of 15 credits. A grade of C or higher is required in each course.

- **KIN 155** Biological Bases for Physical Activity and Health 3
- **KIN 184** Athletic and Sport Injuries 3
- **KIN 234** Functional Human Anatomy 3
- **KIN 235** Personal and Community Health 3
- **KIN 301** Athletic Injuries & Sport First Aid 3

Total Credit Hours 15

* A minimum grade of C or higher is required.

Teaching and Learning

Dept. Code: TAL

The Department of Teaching and Learning offers a Bachelor of Science in Education Degree in Elementary Education (K-6)/Exceptional Student Education (K-12) with ESOL (English for Speakers of Other Languages, K-12) and Reading (K-12) endorsements.

In conjunction with the College of Arts and Sciences, the Department also offers majors in Secondary Education in English with ESOL endorsement, Biology, Mathematics, and Social Science (6-12). Students in Secondary Education programs are required to fulfill the general education requirements for the College of Arts and Sciences.

The Department offers two minors:

1. A traditional Education Minor consisting of 15 credit hours and
2. A Professional Training Option minor of 18 credit hours that fulfills the State of Florida “Professional Training Option” (PTO) for teaching in secondary-schools. Candidates must select a minor area of study in English, math, Secondary Science or Secondary Social studies or other areas of recognized certification. In order to obtain teaching credentials from the State of Florida, a PTO completer must successfully teach in an accredited school in Florida for one academic year.

Teacher Preparation Programs

One of the roles of the School of Education and Human Development is to serve as the professional school to conduct and coordinate programs for the preparation of teachers and other educational personnel at the
University of Miami. Membership is held in the American Association of Colleges for Teacher Education, the National Association of State Directors of Teacher Education & Certification and in the Florida Association of Colleges for Teacher Educators. Teacher Preparation Programs (TPP) are accredited by the Florida Department of Education for the preparation of elementary/exceptional student education teachers, secondary teachers, music teachers and other school service personnel.

Professional Development Schools
Bel-Aire Elementary, Henry S. West Laboratory Elementary, Sunset Elementary, Ponce de Leon Middle School and Booker T. Washington Senior High School are operated by Miami-Dade County Public Schools. These schools provide the most up-to-date teaching environments, both in terms of design and curriculum, in partnership with the University of Miami. Students are welcomed at these facilities for field experiences and student teaching, and both students and faculty have the opportunity to contribute to the high quality functioning of these professional development schools.

Teacher Preparation Programs
Teacher Preparation Programs/majors in Elementary/Exceptional Student Education and Secondary Education that lead to professional certification and applicable endorsements are approved by the Florida Department of Education (FLDOE). Please be advised that the State may implement new requirements for certification. These requirements will be mandatory with or without notice in this bulletin. The student is responsible for securing the application for certification and submitting the necessary documents and fees to the Florida Department of Education to obtain certification and endorsement. The DOE Certification Ombudsman in the School of Education and Human Development is available to assist with certification and re-certification matters.

Academic Policies
Admission
Selection for the Teaching Profession
The faculty of the School of Education and Human Development conceives its ultimate obligation to be to the children, adolescents, and adults who will be taught by teachers who have completed teacher preparation programs at the University. The quality of students admitted into the teacher education curriculum is as important as the skills, content, and concepts to be learned.

Most courses in the teacher education program require school site-based field experiences, culminating in a full-time 15-week internship. School districts require a criminal background check for field placement students and interns. Fingerprinting and FBI background check procedures are at the applicant’s expense. Students with felony arrests may wish to consider these requirements carefully and, if necessary, seek advice from an advisor in the School before applying for admission to the program. Students without a valid social security number will not be eligible for placement in the school district.

The Office of Teacher Preparation and Accreditation will assist students through these requirements.

All students who wish to be considered for admission and/or retention in curricula leading to Florida Teacher Certification will be formally screened at certain points in their program of study with respect to the following criteria:

1. Admission to Teacher Candidacy (see requirements below).
2. Acceptable grade point averages (C or better for courses in the major).
3. Acceptable evaluations by University of Miami faculty.
4. Evaluations by clinical faculty at various field experience sites.
5. Satisfactory progress toward the completion of the Florida Educators Accomplished Practices requirement.

Students who receive a grade below C in their Student Teaching semester will not be recommended for teacher certification.

Note: The Assistant Dean of the School of Education & Human Development and the Director of Teacher Preparation & Accreditation jointly approve appeals to the above policies.

Requirements for Admission to Teacher Candidacy
2. Completion of 45 credit hours. In addition, transfer students must have a minimum of 9 credit hours of acceptable credit earned at the University of Miami.
3. A 2.5 GPA in education core courses. No education classes lower than C.
4. A 2.5 GPA in the content area teaching major (for secondary education majors).
5. Completion of the Course Advisement Plan (CAP).
6. Completion of at least one Field Experience requirement.
7. Further enrollment in teacher education course work offered by the School of Education and Human Development is contingent upon the student meeting requirements 1-6 above.
8. All students must successfully complete M-DCPS fingerprinting process. Forms are available in the Office of Undergraduate Academic Services.

NOTE: Appeals to the policies stated 1-6 above must be directed to the Assistant Dean of the School of Education and Human Development.

Please note: Students may not register for any class above TAL 332 without admission to Teacher Candidacy.

Requirements for Admission to Student Teaching
Students submit a formal application to the Office of Teacher Preparation and Accreditation for admission to Student Teaching. Application materials are available and are to be completed by students no later than October 15 (Fall semester) or March 15 (Spring semester).

The following requirements must be met:

1. Admission to a Teacher Preparation Program (Teacher Candidacy).
2. Completion of application for admission to Student Teaching, which includes an electronic submission to the Office of Teacher Preparation and Accreditation.
3. Approval of the Assistant Dean for Undergraduate Studies, the TAL Department Chair, and the Director of Teacher Preparation & Accreditation.
4. Recommendations from two members of the faculty familiar with the student's academic proficiency. One of these must be from a faculty member in the School of Education and Human Development.
5. Earned a minimum of 90 credit hours.
6. Submission of FEAPs Portfolio via Live Text to the Director of Teacher Preparation & Accreditation. The FEAP Portfolio must include evidence at the indicator level in the first five FEAPs.
7. All secondary majors must have completed approximately two-thirds of the courses in the teaching major and received departmental approval. Elementary/ESE majors must have completed ALL of the courses for the Elementary/ESE major.

8. Earned a minimum of 2.5 grade point average in core courses offered by the School of Education and Human Development.

9. A grade of C or better is required of each course applied to the major.

10. Earned a minimum of a 2.5 grade point average overall.

11. Successfully completed pre-internship field experiences.

12. Demonstrate satisfactory progress towards the completion of the Florida Educators Accomplished Practices requirement, as indicated in #6 above.

13. Passed the Florida General Knowledge Test.

14. Taken and passed one of the following exams: the Professional Education Test or the Subject Area Exam in either Elementary Education (K-6) or ESE (K-12).

NOTE: A MAXIMUM OF 12 CREDIT HOURS MAY BE TAKEN DURING THE STUDENT TEACHING SEMESTER. No outside job may be held or additional classes taken during the Student Teaching semester.

NOTE: The Assistant Dean and the Director of Teacher Preparation & Accreditation, School of Education and Human Development must approve appeals to the above policies.

Students must complete the Florida Educators Accomplished Practices (FEAPs) and the P-12 Student Impact Project requirements. Monitoring of FEAPs and progress made toward program completion in the Teacher Education program will occur at the following checkpoints:

1. TAL 306, and TAL 429 ; and application to student teaching
2. Students enrolled in all teacher-education programs will submit complete portfolios at the end of TAL 480/TAL 580.

In addition, students enrolled in all teacher-education programs will submit e-portfolios via Live Text as follows:

- TAL 306 Field Experience Seminar I (Must submit an artifact in order to receive a passing grade).
- TAL 429 Field Experience Seminar II (Must submit an artifact in order to receive a passing grade).
- Elementary/ESE major will submit a portfolio artifact through LiveText during (or at the latest) upon completion of TAL 420 and TAL 426;
- Secondary Education major will submit a portfolio artifact through LiveText during or (at the latest) upon completion of the Methods Course (TAL 541-544)
- Music Education major will submit a portfolio artifact through LiveText during or (at the latest) upon completion of TAL 506.

Seniors are required to participate in the General Education Assessment prior to graduation as a part of the SACS review process.

Licensure/Certification Information

Only students who have completed all requirements for any State approved degree or certificate program will have their transcripts stamped as meeting State approved requirements for certification as well as appropriate endorsements. Students must meet requirements of the School of Education and Human Development as well as the college or school issuing the second major. Evidence of successful completion of all twelve Florida Educator Accomplished Practices is required to receive the FLDDE stamp on the graduate’s final transcript.

Transcript stamp is contingent upon the student taking at least half of the coursework in teacher education at the University of Miami, including the Student Teaching component. At least half of the coursework in the students teaching content area(s) must be taken at the University of Miami in the School of Education and Human Development, Frost School of Music, or other UM schools or colleges as determined by the program in which the student is enrolled.

Department's Honor Code, Ethics FEAP and Plagiarism Policy

At a minimum, students will receive an automatic FAIL for any assignment that shows even minimal evidence of any of the violations listed in the Student Handbook such as cheating, plagiarism, misrepresentation, collusion, falsification of data and documents, or fabrication of findings. The student will not be allowed to improve that grade and the Ethics FEAP will be marked as permanently failed in the student’s portfolio record.

The professor of record will have absolute discretion to judge the severity of an offense involving plagiarism and/pr The Honor Code, including extending the penalty to an F in the course.

Students will receive an automatic FAIL on any assignment or action which shows a violation to the Ethics FEAP. Either the Chair, Director of Accreditation or the Dean's office may refer a student to the University Honors Council. Consequence for violating the Honor Code include disciplinary warning, disciplinary probation, suspension or expulsion from the university.

For further information, address all inquiries to:

Assistant Dean
School of Education and Human Development
P.O. Box 248065
University of Miami
Coral Gables, Florida 33124
Telephone: (305) 284-3711

Majors in Teaching and Learning

- B.S.E.D. in Elementary/Exceptional Student Education (ESE) with ESOL and Reading Endorsements (p. 336)
- B.S.E.D. in Secondary Education (p. 339)

Minor in Teaching and Learning

- Education (p. 341)

Certificate in Teaching and Learning

- Professional Training Option (p. 341)

Elementary/Exceptional Student Education (ESE) with ESOL and Reading Endorsements

The Department of Teaching and Learning offers a major in Elementary/ Exceptional Student Education that leads to certification in Elementary Education (K-6)/ESE (K-12) with ESOL and Reading endorsements. The
requirements for Elementary/ESE Education are a major in Elementary/ESE Education and a minor outside of the Department of Teaching and Learning.

**Requirements for Graduation**

**Bachelor of Science in Education**

I. Candidates for B.S.Ed. in the School of Education and Human Development must complete the credit hours of work and achieve the quality point average specified for students in the University at large as stated in the section ACADEMIC REGULATIONS AND PROCEDURES (p. 13), subject to regulations concerning the major specified in departmental and program sections of this Bulletin.

**Exemption**

Exempted is interpreted to refer exclusively to those exemptions provided under the following headings:

1. Advanced Standing and Placement (Credit Hour Granted);
2. Credit by Examination;
3. Advanced Placement (by proficiency examination);
4. Statement of Foreign Language Requirements;

**Florida Teacher Certification (FTCE)**

Students must pass the Professional Education, General Knowledge and Subject Area tests of the Florida Teacher Certification Examination (FTCE).

**Florida Educator Accomplished Practices (FEAPS)**

Students must complete the Florida Educator Accomplished Practices (FEAPS) and the P-12 Student Impact Project requirements. Monitoring of FEAPS and progress made toward program completion in the Teacher Education program will occur at the following checkpoints: Students enrolled in all teacher-education programs will submit complete portfolios at

1. application to student teaching and
2. at the end of TAL 480/TAL 580.

In addition, students enrolled in all teacher-education programs will submit e-portfolios via Live Text as follows

- TAL 306 Field Experience Seminar I (Must submit an artifact in order to receive a passing grade).
- TAL 429 Field Experience Seminar II (Must submit an artifact in order to receive a passing grade).
- Elementary/ESE major will submit a portfolio artifact through LiveText during (or at the latest) upon completion of TAL 420 and TAL 426;
- Secondary Education major will submit a portfolio artifact through LiveText during (or at the latest) upon completion of the Methods course (TAL 541-TAL 544).
- Music Education major will submit a portfolio artifact through LiveText during (or at the latest) upon completion of TAL 506.

**Departmental Proficiency Examinations**

Except where a required course is one designated to correct a deficiency in his/her college preparation, the student may apply the credit hours of any required course from which he is exempted toward the credit hours specified for that subject as a general requirement for graduation and, upon payment of a recording fee, toward the 120 credit hours required for graduation. (See Departmental Proficiency Examinations.) An exemption may be granted for ENG 105, but these credit hours may not be applied toward the 120 credit hours required for graduation.

**Credit Only**

Only free electives may be taken under this option. Courses which satisfy the major, minor, the distributions of the School, the General Education Requirements of the University or any course for which a C or better is required may not be taken for credit only.

**Transfer Credit**

Transferred credit hours may not count toward the completion of a major without the written approval of the Assistant Dean of the School of Education and Human Development.

**Required Areas of Study**

**English Composition 3 – 6 credit hours**

Students fulfill this requirement by satisfactorily completing ENG 105 and ENG 106 or its equivalent. Appropriate Advanced Placement (AP) or International Baccalaureate (IB) scores in English composition may be used to satisfy the ENG 105/ENG 106 requirement. An appropriate score on the SAT or ACT verbal examination may earn a student exemption from, but not credit hour in, ENG 105. Appropriate scores on other tests determined by the Department of English may earn a student exemption from, but not credit hour in, ENG 105. Courses satisfying the English Composition requirement may not be used to fulfill the Writing Across the Curriculum Required Area of Study.

**Mathematics**

B.S.Ed. degree candidates must complete MTH 113 or higher. Students who do not place directly into MTH 113 must enroll in either MTH 099 or MTH 101 based on results of placement tests.

**Foreign Languages (not applicable)**

**Areas of Knowledge and Cognate Requirements**

The University of Miami’s General Education requirements ensure that graduates have acquired essential intellectual skills and have engaged a range of academic disciplines. All new students will fulfill the General Education requirements by selecting a Cognate, which is a cluster of courses arranged by their content, field and interest.

- A cognate is a group of at least three related courses for at least 9 credit hours.
- The courses in a cognate are related in a topical, thematic, interdisciplinary, sequential, or other such fashion, so that completion of a cognate provides coherent depth of knowledge in the area.
- Student must take three cognates to fulfill the Areas of Knowledge requirement,
  - one in the Arts & Humanities (A&H),
  - one in People & Society (P&S), and
  - one in Science, Technology, Engineering & Mathematics (STEM).
- Each cognate has course options that allow students to complete the cognate in ways that meet their individual interests, while staying within the coherent focus of the cognate.
- In addition to the cognates that have been designed by faculty, each major and minor fulfills the cognate requirement in one area.
  - Exercise Physiology and Athletic Training majors will fulfill the STEM cognate.
- Sport Administration, Human and Social Development, and Elementary/ESE majors will fulfill the P&S cognate.
- An approved list of cognates can be found on the University of Miami website.

Writing

Every student majoring in Teaching and Learning will meet the Advanced Writing and Communication Requirement upon fulfillment of their major courses. These courses have a prerequisite requirement of ENG 105 and ENG 106 and will be identified as either writing intensive or as an oral/verbal communication proficiency course or both. Digital competency for both written and oral competencies will be assessed. Writing intensive courses require a minimum of 2500 written words; assignments will be assessed for analytical ability, synthesis of information, grammar, content and style. Courses designated as an oral/verbal proficiency class will provide students an opportunity to demonstrate their presentation skills using accurate standard English structure and syntax, non-verbal cues and gestures, as well as audience appropriate language. Courses for the TAL Major which meet the Advanced Writing and Communication Skills Requirement are TAL 332 and TAL 426.

Majors

Every candidate for the B.S.Ed. degree in the Department of Teaching and Learning must choose a major in Elementary/Exceptional Student Education (ESE) with ESOL and Reading endorsements.

Minors

Every candidate for a B.S. Ed. in Elementary Education/ESE must select a minor outside of the department of TAL.

Electives

Electives may be chosen from any courses offered by the University. The student should consult an advisor before selecting elective courses. At least 6 credit hours must be at the 300 level or above. Students may select elective course credits beyond the major, minor and general education requirements to complete a total of 120 credits required for the degree.

Note: Common prerequisites and total length for state-approved teacher education programs are subject to revision based on legislative and State of Florida Department of Education rule changes.

General Education Assessment

Seniors are required to participate in the General Education Assessment prior to graduation as a part of the SACS review process.

Please note: Students may not register for any class above TAL 332 without admission to Teacher Candidacy. Please see the requirements for Teacher Candidacy on the TAL Department page (p. 334).

Please note: Students are strongly encouraged to register for TAL 203 and TAL 324.

## Secondary Education

The Department of Teaching and Learning offers a major in Secondary Education (6-12). Certification is offered in the general areas of:

- English/ESOL Endorsement; (Major code: SECE)
- Mathematics (Major code: SECM)
- Sciences (Biology) (Major code SECS)
- Social Science (Economics, Geography, History, International Studies, or Political Science) (Major code SECH)

Each student should complete a major from the appropriate department in the College of Arts and Sciences and a second major in the Department of Teaching and Learning.

The requirements for a major leading to secondary certification include:

- A grade of C or higher in all Education courses and a minimum of 2.5 GPA in both the Secondary Education major and the subject area of discipline. An overall 2.5 GPA is required.
- MDC-PS fingerprinting and FBI background check
- Admission to Teacher Candidacy
- Successful completion of the Florida Teacher Certification Exams including:
  - The General Knowledge Exam (all 4 sections)- Required for Teacher Candidacy
  - The Professional Education Exam
  - The Subject Area Exam
- Successful submission of the FEAP e-portfolio submission through Live Text
- Successful completion of the SEC curriculum requirements

Minor in Education

The Department of Teaching and Learning offers two minors.

Education Minor (not for certification)

- 15 credit hours in TAL course work.
- TAL 101 and TAL 103 are required.
- Two courses must be taken at the 300 level or higher.
- All courses must be passed with a C or high with a minimum of 2.5 GPA for the minor.
- It is strongly recommended that students enroll in courses for this minor which do not include Field Experience. Please see an advisor for a list of those courses.
- This minor does not lead to teaching credentials.

Education Minor (not for certification)

TAL 101  Social and Technological Foundations of Education  3
TAL 103  Psychological Foundations of Education  3
Two TAL courses 300 level or higher  6
TAL Course 3

Total Credit Hours 15

Professional Training Option Minor

The Professional Training Option (PTO) is a Florida Department of Education approved pathway for non-education majors to complete the Professional Education component, one of the requirements to become a certified teacher in the State of Florida. Please be advised that students seeking the PTO must be majoring in a teachable area in order to participate in the program.

The PTO minor consists of 17-18 credit hours passed with a C or higher with an overall GPA of 2.5 or higher. Upon completion of the program courses, participants will receive a Certificate of Completion. UM transcripts will indicate that the student has completed a Florida State-approved PTO program. Program completers will be eligible to apply for a 3-year Temporary Teaching Certificate in the State of Florida. There is a one-year of successful teaching requirement in an accredited school in Florida in order to apply for a Professional Teaching Certificate.

The required courses for the PTO minor are:

Professional Training Option Minor

TAL 101  Social and Technological Foundations of Education  3
TAL 103  Psychological Foundations of Education  3
TAL 305  Classroom and Behavior Management  3
TAL 404  Content Area Literacy in the Secondary Classroom  3
TAL 540  Instruction and Assessment in Secondary Shool  3

Engineering
http://www.miami.edu/engineering

Mission
The College of Engineering is committed to educating tomorrow’s technology leaders for career success.

The objective of the College of Engineering is to serve society by offering high quality educational programs in the professional areas that it covers, and by performing research and community service, with high professional standards. The College is dedicated to educating engineers to deal with the major issues of society over the next generation – enhancing competitiveness, advancing health care, coming into harmony with the environment, utilizing technology for humankind’s benefit, and supporting a sophisticated infrastructure. The goal of the faculty is to prepare students to be employed effectively in manufacturing, consulting, construction, information technology, service industries, and those related to the medical industry and health care, in roles involving planning, design and implementation at all levels of decision making. Students are broadly prepared in technical, leadership, and management skills. Student development accrues both inside and outside the classroom, with input from faculty, employers, alumni, and other students. They are made acutely aware of environmental and international perspectives. Professional competence in the traditional sense is complemented by a broad capability to function in society. The College places great emphasis on providing students with a learning experience which will enable them to develop productive careers while creating engineering solutions to problems of our society. Learning is centered around real life experiences, which involve an understanding of science, mathematics, social values, and aesthetics, to produce economical solutions to physical problems which society encounters. Protection and enhancement of the environment is stressed at all levels, and emphasis is placed on the creative application of knowledge which will improve the quality of life.

Department and Programs
The College of Engineering has five departments -

- Biomedical Engineering,
- Civil, Architectural, and Environmental Engineering,
- Electrical and Computer Engineering,
- Industrial Engineering, and
- Mechanical and Aerospace Engineering

offering curricula leading to Bachelor of Science degrees in the following fields:

- Aerospace Engineering,
- Architectural Engineering,
- Biomedical Engineering,
- Civil Engineering,
- Computer Engineering,
- Electrical Engineering,
- Engineering Science,
- Environmental Engineering,
- Industrial Engineering, and
- Mechanical Engineering.

Interdisciplinary areas of study, areas of specialization within departments, and study in two entirely different areas are available through options, concentrations and dual degree programs.

Accreditation
The programs in Aerospace Engineering, Architectural Engineering, Biomedical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Environmental Engineering, Industrial Engineering, and Mechanical Engineering are accredited by the

Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (http://www.abet.org) (ABET)
415 North Charles Street
Baltimore, MD 21201
telephone: 410-347-7700

The program in Engineering Science is not accredited.

The College offers graduate programs leading to degrees both in the traditional and interdisciplinary areas of study. Programs leading to the M.S. degree may include specialization in the following areas of study: Architectural Engineering, Biomedical Engineering, Civil Engineering, Electrical and Computer Engineering, Engineering Management, Environmental Engineering, Industrial Engineering, Mechanical Engineering, Medical Informatics, Structural Engineering, and Thermal and Fluid Sciences. A joint M.S.I.E./M.B.A. program and a M.S. program in Management of Technology are offered in conjunction with the School of Business Administration, a M.S. in Environmental Health and Safety in conjunction with the School of Medicine and a M.S. in Occupational Health and Safety in conjunction with the School of Medicine.

Engineering Laboratories
The College of Engineering maintains a variety of well-equipped laboratories adequate for undergraduate instruction and providing for graduate and sponsored research.

Computer Laboratory
- Clarke Computational Laboratory
- Computer Graphics Laboratory

Biomedical Engineering Laboratories
- Biomedical Design and Instrumentation Laboratory
- Biomaterials/Circulatory Assist Device Laboratory
- Biomedical Atomic Force Microscopy Laboratory
- Biomedical Optics Laboratory
- Diabetes Tissue Engineering Laboratory
- Joint Bioengineering and Endourology Laboratory
- Neuroprosthetics Research Group
- Neurosensory Engineering Laboratory
- Stem Cell and Mechanobiology Laboratory
- Tissue Biomechanics Laboratory
- Tissue Engineering Laboratory

Civil, Architectural and Environmental Engineering Laboratories
- Environmental Engineering Laboratory
Engineering

- Geotechnical Engineering Laboratory
- Mechanics of Solids and Materials Laboratory
- Structures and Materials Laboratory
- Sustainable Building Systems Laboratory

Electrical and Computer Engineering Laboratories
- Electronics Laboratory
- Wireless Communications Laboratory
- Digital Signal Processing Laboratory
- Electrical Machinery Laboratory
- Digital Design Laboratory
- Microprocessor Laboratory
- Photonics and Micro-Devices Laboratory
- Distributed Decision Environments Laboratory
- Underwater Imaging Laboratory
- Networks Laboratory
- Embedded Systems Laboratory
- Computer Vision and Image Processing Laboratory
- Information Technology Laboratory
- Multimedia Laboratory
- Digital Audio and Speech Processing Laboratory
- Optics and Fiber Communications Laboratory
- ECE Computer Laboratory
- Nanophotonics and Devices Laboratory
- MEMS and VLSI Laboratory

Industrial Engineering Laboratories
- Computer Integrated Manufacturing Laboratory
- Industrial Hygiene Laboratory
- Biomechanics and Gait Laboratory
- Human Factors and Aging Research Laboratory
- Productivity Research Laboratory
- Work Design Laboratory
- Work Physiology Laboratory
- Systems and Operations Research Laboratory
- Industrial Ventilation Laboratory
- Robotics Laboratory

Mechanical and Aerospace Engineering Laboratories
- Aerospace Materials Simulation Laboratory
- Aerodynamics and Computational Fluid Dynamics Laboratory
- Design and Manufacturing Laboratory
- Fuel Cells Laboratory
- Thermo-Fluid Mechanics Laboratory
- Integrated Nano-Bio-Systems Laboratory
- Internal Combustion Laboratory
- Materials Laboratory
- Materials Modeling Laboratory
- Measurements Laboratory
- Multifunctional Composite Materials Laboratory
- Optimization and Reliability Laboratory
- Robotics and Intelligent Systems Engineering Laboratory
- Stress Analysis Laboratory
- Tissue Biomechanics Laboratory
- Wind Tunnel Laboratory

Academic Policies

Admission

Admission to the College of Engineering is covered under the section on Admission (p. 28) to the University in the General Information section of this Bulletin. Algebra, trigonometry, analytic geometry, chemistry, computer literacy, and physics are high school subjects that are appropriate for students planning on entering the College.

The academic work of each transfer student will be evaluated on an individual basis, and the student will be enrolled in the College at an appropriate level.

Requirements for Graduation

The College believes that emphasis should be placed on the student’s ultimate level of attainment in selected subject areas. For those students whose preparation is advanced beyond that of the average secondary school graduate, the University provides proficiency examinations and schedules the students for more advanced work. Graduation for these students may be accelerated. For those students whose secondary school preparation has not provided an adequate background, the University offers preparatory courses. Graduation for these students may be delayed accordingly.

The student’s program of study is selected jointly with an adviser, with special attention to the individual student’s needs. Flexibility is ordinarily possible within the framework of sound education in the essential fundamentals and within the development of depth in selected fields of design and analysis. An examination of a typical curriculum given under the various department sections of this Bulletin shows that there is a strong common core of studies. Therefore, students uncertain of their ultimate field of specialization retain a high degree of mobility to enable them to transfer from one curriculum to another.

Each student must demonstrate upon admission an adequate preparation in the necessary skills of reading, writing, and mathematics. Placement test scores will indicate which, if any, supplementary courses must be taken the first semester. Although these courses are recorded for University credit hour, the student must take the full curriculum, as listed, in addition to these courses. Students not prepared in these areas are advised to make every effort to correct deficiencies before the first semester.

Completion of any of the prescribed curricula, except Engineering Science, with an overall grade point average of at least 2.0 (C) in all course work, to include all accepted work from other institution(s), is the basic requirement for graduation in the College. An average of C also must be attained in all work attempted at the University of Miami and the professional studies. The Engineering Science curriculum, because of its special purpose, has a higher requirement, i.e., a grade point average of 3.0 (B).

The requirements for graduation as specified by each Department and Program reflect the general education requirements of the University of Miami and the requirements of the appropriate accrediting agencies. The curricula contain required courses and elective courses. No course required for graduation may be taken under the credit-no credit (Credit-Only) option.
Students are expected to make satisfactory progress toward graduation by meeting the criteria established above. Whenever a student fails to demonstrate positive academic progress, he/she may be placed on academic probation or dismissed by the College of Engineering Scholastic Standards and Advising (SSA) Committee.

General Educational Requirements

Areas of Knowledge
Students at the College of Engineering fulfill the Areas of Knowledge requirement by completing three cognates, one from each of the three areas of the university curriculum:

- Arts & Humanities;
- People & Society; and
- Science, Technology, Engineering & Mathematics.

For students in the College of Engineering, their engineering major will count as a cognate in Science, Technology, Engineering & Mathematics. These students have to complete a cognate in People & Society and Arts & Humanities.

A cognate is a group of at least three courses for at least nine credit hours, related in a topical, thematic, interdisciplinary, sequential, or other fashion, so that completion of a cognate provides coherent depth of knowledge. Each cognate has course options that allow students to complete the cognate in a manner that meets their interests, while staying within the coherent focus of the cognate. While students are required to take three cognates to fulfill the Areas of Knowledge requirement, there is no limit to the number of additional cognates students may complete. All cognates completed by students are listed on the students’ transcripts, thus certifying their depth of knowledge in those areas.

The university offers a large number and range of cognates. All approved cognates are visible in a cognate search engine (at www.miami.edu/cognates) that allows students to search for cognates based on cognate features, cognate courses, and keywords. Each cognate is administered by a department or program that is designated as the Responsible Academic Unit (RAU) for the cognate. Inquiries regarding a cognate should be directed to the cognate’s RAU.

Engineering students satisfy the University’s Advanced Writing and Communication Skills requirement by completing a set of classroom courses, laboratory courses and design courses where they learn effective oral, graphical and technical writing skills. These requirements are specified under each department.

The student’s official records are maintained by the Office of Enrollment Services. It is the student’s obligation to take the initiative to assure that all requirements are being met in conformity with his/her own graduation plans.

Degree Programs

Dual Majors
Dual majors are offered for engineering students with strong interest in related fields of study such as Physics or Mathematics. In order to obtain a dual major in one of these areas, the student will have to obtain, in parallel, a degree in one of the engineering programs, plus additional course work approved by the dual majors department. Further information on this dual major program may be obtained from the Dean’s Office of the College.

Minors
Minors are offered by the College of Engineering. The departments of:

- Civil, Architectural, and Environmental Engineering,
- Electrical and Computer Engineering,
- Industrial Engineering, and
- Mechanical Engineering

offer minors with various areas of specialization. Details of each area of concentration and its requirements may be found under each departmental listing.

Engineering students can earn a minor offered by any other College/School within the University of Miami, including the College of Engineering. In cases where the major degree requirements satisfy some of the requirements for the minor, at least six credit hours beyond the major degree requirements must be taken in the minor subject area to earn a minor. Minors in Engineering require a minimum GPA of 2.0 in the courses required for the minor.

Departmental Honors Program

A student in the College of Engineering may graduate with Departmental Honors noted upon his/her diploma and transcript upon fulfillment of the following requirements:

1. Completion of at least 18 credit hours of course work in honors courses and/or in courses at the 500 level, including 6 credit hours in independent study, senior thesis, or designated advanced or special honors courses specified by the department, with grades of at least B in these 6 credit hours.
2. Attainment of at least a 3.4 overall grade point average. Transfer students must also attain at least a 3.4 grade point average in all work taken at the University of Miami.
3. Attainment of at least a 3.5 average in the departmental major courses.
4. A written request from the student to the departmental faculty during his/her semester of expected graduation stating the desire to graduate with Departmental Honors, and specifying those courses taken in compliance with section (A) above.

Certificate Programs in Engineering

In cooperation with the University’s School of Continuing Studies, the College of Engineering offers practicing engineers advanced or specialized training without having to meet the stringent entrance requirements of the Graduate School. Persons holding Bachelor’s degrees, registered as Professional Engineers, or possessing equivalent qualifications can be granted Certificates of Proficiency by the University after completing fifteen credit hours of course work in a specified field of engineering. Study programs are arranged on an individual basis by each student and his/her advisor. Detailed information on Certificate Programs can be requested from the Office of the Dean of Engineering.

The Internship Cooperative Program

The Cooperative Program takes its name from the close cooperation that exists between the College and participating employers. This arrangement attempts to insure that each student’s academic and work experience will integrate and contribute significantly to his/her overall growth and professional development. Interviews and screening by both the employer and Cooperative Program personnel attempt to match the
needs of the employer carefully with the interests and capability of the student.

**Advantages to the Student**

1. Offers on-the-job experience to supplement the academic degree program.
2. Offers potential long term career employment with the Cooperative Program employer.
3. The experience obtained makes the student, upon graduation, potentially much more valuable to any future employer. Upon completion of an appropriate amount and level of experience, graduation in the Cooperative Program may be recognized by a special seal on the student’s diploma.
4. Helps the student to verify whether or not his/her career or specialty choice is correct.
5. Tends to increase motivation and to make academic studies more meaningful.
6. Earnings from Cooperative Program employment can cover a significant portion of the student’s college expenses.
7. Certain work experience may shorten the experience requirements, after graduation, for eligibility for professional registration.
8. Helps to develop the students understanding of human relations and the lifelong need of learning to balance appropriately the demands on ones time of multiple duties such as studying, employment, daily necessities, family obligations, etc.

**Advantages to the Employer**

1. Offers an opportunity to recruit and screen potential employees in the fields of engineering.
2. The Cooperative Program maintains an up-to-date roster of available undergraduate and graduate students, many with previous experience. This roster offers employers means of obtaining employees to meet fluctuating work loads, on relatively short notice.
3. Students in the Cooperative Program can provide good company public relations with their classmates.
4. Participation in a Cooperative Program serves the profession by providing opportunities for many capable and well deserving young persons to attend a University, who otherwise might lack the financial ability or motivation to attend.

**Types of Cooperative Program Arrangements**

**Continuous Work-Study**

An arrangement involving a combination of part-time employment (15 or more hours per week) and a credit hour academic load which is appropriately reduced from the normal full-time load to balance the employment duties. Full-time employment may be undertaken during the summer period. Two students may be used during the year to share the hours of a full-time position (20 hours each student). In some instances, an individual student will hold a full-time position and carry a light academic load in evening and/or early morning classes.

**Alternating Work-Study**

An arrangement involving two students alternating full-time employment and full-time study. Students alternate positions of work and study at the end of each semester (including the summer), and thereby provide the equivalent employee time of a full-time position year-round.

**Student Eligibility for the Program**

University of Miami students enrolled in the College of Engineering are eligible to enter the Cooperative Program. Initial entry into the Program is limited to superior students. Normally, work assignments are not given until the equivalent of one or two semesters of full-time academic work is completed. Currently, most students in the Program are under continuous work-study arrangements.

**Study Abroad Programs**

The College of Engineering encourages its students to take advantage of one of the University of Miami’s numerous study abroad options in Latin America, Europe, Asia, Australia and the Middle East. Of particular interest to Engineering students are the following: internships (unpaid and paid) in Spain, England, France, Argentina, Colombia, Chile, and Australia in which professional work experience is carried out abroad; course work at Engineering schools abroad for a semester or an academic year; summer programs in intensive Language instruction, Humanities and Social Sciences abroad. The cost of attending these programs is equivalent to University of Miami tuition and fees. Almost all University of Miami financial aid is granted. With prior approval and detailed curriculum advice, courses taken abroad will apply towards graduation.

**The Management of Technology Supplemental Program**

The objective of this program is to educate engineers in how to exploit their technological knowledge. This is a vital, but often neglected, link in achieving competitiveness in the global marketplace. The basic premise motivating this approach is the recognition that in today’s world, technology is the backbone of the business enterprise system and that wealth can only be created through production of goods and services. This program will educate engineers in a multitude of subjects bridging the gap between product technology, production technology and the marketplace, which is the ultimate customer of engineering contributions.

The program consists of four courses:

1. Quality in Design of Products and Production Systems
2. Entrepreneurship for Engineers
3. Production Systems Design

A project is required at the end of the program, but is threaded throughout the program starting with the first course. Upon completion of the program, the student will receive a special certificate of completion. This program is available to all qualified students in all departments of the College of Engineering.

**Admission to the Program**

Admission to this supplemental program will be by application submitted by the candidate or by nomination by an advisor or department chair. All applications will be reviewed by a standing committee. Students must meet the prerequisite of each course before enrolling in it.

**Requirements for the Certificate**

The program is an add-on to existing curriculum. Students must complete all courses designated in order to qualify for the certificate. A notation
will be made on the student’s transcript recognizing their completion of the special program. No designation will be made on the diploma.

**Course Sequence**

Courses are recommended to be taken in the sequence indicated above.

**Team Work**

Students will be encouraged to work on projects in teams. Multidisciplinary teams will also be encouraged.

The College is primarily housed in the J. Neville McArthur Building. Completed in 1959 and renovated in 1984, this attractive building is the gift of the late J. Neville McArthur, who was a member of the Board of Trustees and a prominent citizen and dairyman. The Engineering Annex is also a gift of the McArthur family. Students in the College of Engineering come from all parts of the United States and from many nations throughout the world, comprising one of the most diverse and cosmopolitan engineering student bodies in the country.

**Combined BS/MS Program**

The College offers a five-year Bachelor of Science and Master of Science BS/MS degree program in Architectural Engineering, Biomedical Engineering, Civil Engineering, Computer Engineering, Electrical Engineering, Environmental Engineering, Industrial Engineering, and Mechanical Engineering. This program is specifically designed for those students who want to pursue their graduate study as they are completing their undergraduate study. The special conditions and processes for the five-year BS/MS Program are as follows:

**Requirements**

You must be an undergraduate student in the College of Engineering (CoE). A master’s degree is considered the first professional degree in engineering. The Admission Committee will carefully review academic credentials for admission into our M.S. program. Students should discuss the program and possibility of entering with an academic adviser. Completed applications are due prior to the beginning of the final exams in your junior year.

**Application Process**

Get the application form (It is different for US students and International students) from the CoE Office of Admission, fill it out and then return it to the same office. The application fee is waived for currently enrolled students in the CoE.

Take the GRE Examination before the end of your senior year and attain a combined score of more than 1000 on the Verbal and Quantitative portions.

**Financial Implications**

Many financial aid programs, including those offered by the University and the federal and state governments are restricted to coursework required to complete an undergraduate degree. For further information contact the University of Miami Financial Aid Office.

**Once admitted into BS-MS program**

In your senior year when you have a full time undergraduate status, you may take a maximum of twelve (12) graduate credit hours (a maximum of six (6) credit hours per semester). In order to register for these classes, you must complete and submit the UM Graduate School “Application for Undergraduate to Take Graduate Course” special form.

During your last one or two semesters, when you are taking graduate course work only, register as a graduate student.

A student wishing to withdraw from the BS/MS Program without the MS degree must complete all the requirements for the BS degree.

To qualify for the MS degree, the student must meet all the pertinent Graduate School requirements, including an acceptable score on the GRE (Graduate Record Examination) and a minimum of 3.0 GPA in the credit hours applied toward the MS degree.

The student is awarded both the BS and MS degrees at the end of the fifth year when all degree requirements are satisfied.

The Doctor of Philosophy Degree is currently offered in the area of:

- Biomedical Engineering,
- Civil Engineering,
- Electrical and Computer Engineering,
- Ergonomics and Human Factors,
- Industrial Engineering, and
- Mechanical Engineering.

The Ph.D. programs in Interdepartmental Graduate Studies permit, with approval of the Graduate Council, highly qualified students to pursue a privileged individualized program which cuts across disciplinary lines.

The Bulletin of the Graduate School (p. 633) presents more detailed information on these graduate programs.

The College is primarily housed in the J. Neville McArthur Building. Completed in 1959 and renovated in 1984, this attractive building is the gift of the late J. Neville McArthur, who was a member of the Board of Trustees and a prominent citizen and dairyman. The Engineering Annex is also a gift of the McArthur family. Students in the College of Engineering come from all parts of the United States and from many nations throughout the world, comprising one of the most diverse and cosmopolitan engineering student bodies in the country.

**Foote Fellows in CoE**

The Foote Fellows Honors Program recognizes the most educationally accomplished incoming students at the University of Miami. Foote Fellows have distinguished themselves both in and out of the classroom at their previous schools, are self-motivated, and think independently. Admission to the Foote Fellows Honors Program is by invitation.

Foote Fellows in the College of Engineering are exempt from the Cognates Program of General Education requirements within the curricular framework of their major. Within the curricular framework of their majors, Foote Fellows enjoy unmatched freedom and flexibility to explore a multitude of educational resources. Many Foote Fellows leverage this opportunity to take additional majors and/or minors and to study abroad.

At each of the nine undergraduate schools at the University of Miami, a dedicated adviser helps Foote Fellows chart their academic path and attain access to distinctive learning opportunities at the University, such as special school-based seminars, faculty-mentored research, networking opportunities, and off-campus internships.

Foote Fellows also will be invited to join advanced, interdisciplinary Foote Fellow seminars taught by leading faculty members from across the
University. An example is Books That Matter, a rigorous seminar in non-fiction reading that is offered in sessions for first-year and for upper-class students. Freshman Foote Fellows benefit from early move-in to the residential colleges. Further, Foote Fellows receive focused advising on post-baccalaureate distinguished fellowships and awards.

The Foote Fellows Honors Program reflects the educational vision of former University of Miami President Edward T. Foote, who retired in 2000 after serving the University for twenty years.

Biomedical Engineering
http://www.miami.edu/bme

Dept. Code: BME

Introduction
Biomedical engineering is a multidisciplinary field at the interface of traditional engineering disciplines and biological sciences. Biomedical engineers apply engineering principles and techniques to solve problems in medicine and biology. Applications include the design of medical devices, implants and prostheses, the development of new biomaterials or drug delivery systems, cellular or tissue engineering, medical applications of optics and lasers, or the acquisition and interpretation of physiological signals and medical images for diagnostic and monitoring purposes. Biomedical engineering has an impact on virtually all fields of medicine.

The Department of Biomedical Engineering at the University of Miami was formally established in 1979 as a graduate program. The four-year undergraduate program leading to the B.S degree in BME was created approximately ten years later to address the growing importance of the field and the need for professional biomedical engineers. The undergraduate BME program at the University of Miami was the first of its kind in Florida, with the first class of B.S.B.E. students graduating in 1993. It has been Accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board of Engineering and Technology (ABET) since 1997. The Department of Biomedical Engineering also offers graduate courses leading to the Master of Science and Doctor of Philosophy degrees. In addition, qualified undergraduate students may apply for the combined BS/MS program (details are provided following the curricula for the BS degrees).

Graduates of the biomedical engineering undergraduate program find employment in industry or continue their studies either in graduate school or in a professional school in medicine and other health-related disciplines (such as dentistry, optometry, orthotics), law or business.

Some special features of the program include the small class size and open-door policy of the faculty, which facilitates student-faculty interaction. The Department has very strong ties with the University of Miami Miller School of Medicine. Undergraduate students have a wide range of research and internship opportunities in some of the leading research laboratories in their respective field. The Department strongly encourages undergraduate student participation in research and professional activities.

Mission Statement
The mission of the biomedical engineering program is to prepare students to become knowledgeable and skilled engineers with an understanding of the ethical and other professional aspects of biomedical engineering. Design skills and an ability to work both independently and as part of a team are emphasized.

Educational Objectives
The educational objectives of the program are to graduate engineers who will apply their knowledge, technical skills, and ability to solve problems at the interface of engineering and life sciences. Within a few years after graduation they will be:

1. Working as professionals in biomedical engineering or related fields.
2. Continuing their education to advance their careers through professional development activities or through the pursuit of advanced degrees.

Program Description
Curriculum
The two educational objectives of the Biomedical Engineering program are achieved via the implementation of a curriculum with four parallel concentrations which include a common core and concentration-specific courses. The core curriculum is designed to provide a broad foundation in the basic sciences and in engineering. Concentration-specific courses provide the depth required to be proficient engineers.

The four concentrations are:
- Electrical (E).
- Mechanical (M).
- Biomaterials and Tissue (B) and
- Premedical (P).

The Premed concentration provides training in biomedical engineering and allows for students to take courses that are commonly required for admission to medical school. The Biomaterials and Tissue concentration provides training in the fundamental aspects of cell and tissue biology, design of biomaterial scaffolds and implants, and the application of tissue engineered constructs toward repair, restoration, and regeneration of damaged cells, tissues and organs. The Electrical concentration provides training in the fundamental aspects of electronics and signal processing, design of instrumentation, sensors, imaging systems and neural interfaces, and the application of biomedical technology toward measurement, control and rehabilitation of tissue and organ function. The Mechanical concentration provides training in the fundamental aspects of solid, fluid, and computational mechanics, design and modeling of biomedical devices such as artificial implants, and prostheses and the application of biomechanical principles toward assessment and restoration of tissue and organ function. The curriculum is designed to provide all graduates with the analytical and design skills required to formulate and solve problems at the interface of engineering and life sciences. Outstanding students are prepared for graduate studies or medical school.

Required courses in the humanities and social sciences provide students with an awareness of social, ethical and environmental issues related to their profession. The curriculum has been carefully designed with the prerequisite structure in mind so that students have to draw from previously acquired knowledge to complete the upper level course requirements successfully. The curriculum includes two or three technical electives selected by the student based on their individual professional interests.
The curriculum places a special emphasis on written and oral communication skills. Many of the Biomedical Engineering courses, as well as the capstone design project, include a requirement for a written term paper and oral presentation on a course-related topic related to the class.

Advanced Writing and Communication Skills
Biomedical Engineering students satisfy the University's Advanced Writing and Communication Skills requirement by completing a set of classroom courses, laboratory courses and design courses where they learn effective oral, graphical and technical writing skills. Biomedical Engineering students acquire Advanced Writing and Communication skills in the following core courses:

<table>

</tbody>
</table>

Design Experience
The biomedical engineering design experience is integrated in the curriculum throughout the four years of study, starting in the freshman year with the Introduction to Biomedical Engineering course. Each semester includes classroom or laboratory courses which place a heavy emphasis on theoretical and practical biomedical engineering design concepts. In the second semester of the junior year, students complete a 3 credit-hour course which covers the principles of biomedical engineering design, from problem identification and design conception to implementation and testing, including regulatory aspects. The design experience culminates in the senior year with a yearlong capstone Senior Design Project. The Senior Design Project is typically completed by teams of two to four students who build on their knowledge and previous design experience to solve one major design problem which integrates the various components of the curriculum.

Teaching and Design Laboratories
Biomedical Engineering students have open access to several teaching laboratories which are used for the laboratory courses and design projects. The laboratory equipment and instructional modules are geared towards instruction in the areas of tissue mechanics, instrumentation, measurements, biomedical optics, physiological signals, tissue engineering, among others. In particular, the Department houses a scanning electron microscope and a state-of-the-art 3D printer that are used by students in their design projects.

Undergraduate Research and Internships
Biomedical Engineering students are strongly encouraged to gain research or professional experience through internships. Many undergraduate students conduct research in laboratories at the Department of Biomedical Engineering and at the School of Medicine, or are hired as interns by the local biomedical industry.

Degree Programs
The department offers one degree program with four concentrations: Electrical, Mechanical, Biomaterials and Tissue, and Premed. A list of the core science and engineering courses common to all four concentrations is provided below, followed by a tabular listing of the course requirements for the degree Bachelor of Science in Biomedical Engineering for each concentration.

Dual Major
The College of Engineering offers a dual major in Biomedical Engineering for students that are majoring in another engineering Department. In order to obtain the dual major in Biomedical Engineering, the student will have to obtain, in parallel, a major in one of the fundamental engineering programs, plus 24 credit hours of course work, including 19 credit hours of required course work and 5 credit hours of elective course work from the lists given below. Of this total of 24 credit hours, at least 12 have to be at the level of 400 and above.

The required courses for the dual major are:

<table>

</tbody>
</table>

The electives are to be chosen from the BME course list.

Departmental Honors
Upon request departmental honor is noted in a student's diploma and transcript upon fulfillment of the requirements specified in the College Bulletin.

Majors in Biomedical Engineering
• B.S. in Biomedical Engineering - Biomaterials and Tissue Concentration (p. 350)
• B.S. in Biomedical Engineering - Electrical Concentration (p. 351)
• B.S. in Biomedical Engineering - Mechanical Concentration (p. 352)
• B.S. in Biomedical Engineering - Premed Concentration (p. 354)

Dual B.S./M.S. Degrees in Biomedical Engineering
• B.S./M.S. in Biomedical Engineering - Electrical Concentration (p. 357)
• B.S./M.S. in Biomedical Engineering - Mechanical Concentration (p. 359)
• B.S./M.S. in Biomedical Engineering - Biomaterials and Tissue Concentration (p. 355)
• B.S./M.S. in Biomedical Engineering - Premed Concentration (p. 360)

PS/HA Cognate 1: Students must complete a minimum of 1 People & Society (PS) cognate and 1 Humanities & Arts (HA) cognate, to be selected from the list of available cognates (http://www.miami.edu/index.php/registrar/cognates). Each cognate should be a minimum of 3 courses (9 credit hours). Students in the Premed Concentration are highly encouraged to choose cognates that include PSY 110 and SOC 101.

Advanced Bioscience Elective is to be chosen from BIL 250, BIL 255, BIL 268, CHM 202, or BMB 401. Students should verify admission requirements of their medical school of interest to verify Adv. Bioscience requirements, e.g. organic chemistry II, biochemistry, or both.

Technical Lab Elective is selected from BME 506, BME 507, BME 566 or BME 395; Science Lab Elective is selected from a science lab complementing the Adv. Bioscience Elective (e.g., CHM or BIL lab).

Technical Electives are chosen from BME course offerings (300 level & above) with the approval of the advisor. Any other course selected need to be approved by the advisor and the department chairperson.

Students planning on taking the MCAT should take BMB 401 Biochemistry For The Biomedical Sciences as their first Adv. Bioscience Elective.

**B.S./M.S. - Biomaterials and Tissue Concentration**

- Juniors from any of the four BME Concentrations who have maintained at least a 3.0 CGPA have the option to apply for admission to the combined BS-MS in Biomedical Engineering program.
- Those who are accepted into this accelerated program must maintain at least a 3.0 CGPA and a minimum of a 3.0 GPA for the final 30 credit hours to meet the requirements of the Graduate School.
- The participants are excused from BME 402/BME 403, but are required to complete BME 705/BME 706.
- Up to 12 credit hours of Technical electives earned during the fourth year can be counted toward the 30 credit hours required for the MS degree.
- Students must be registered for a minimum of 12 undergraduate credit hours per semester in their senior year.
- Students can register for a maximum of 6 graduate credit hours per semester in their senior year.
- A typical curriculum of the BS/MS is shown below for the Biomaterials and Tissue Concentration.
- If a student needs to withdraw from the BS/MS BME program then all the requirements for the specific BS BME Concentration must be completed for graduation with the BS BME degree.

1 PS/HA Cognate: Students must complete a minimum of 1 People & Society (PS) cognate and 1 Humanities & Arts (HA) cognate, to be selected from the list of available cognates (http://www.miami.edu/index.php/registrar/cognates). Each cognate should be a minimum of 3 courses (9 credit hours).

2 The undergraduate elective is any undergraduate level course with a number of credit hours sufficient to ensure that the student is enrolled for a total of 12 undergraduate credit hours during each semester of the senior year. The undergraduate elective can be any undergraduate class, but students are encouraged to select an engineering or science course.

3 All Technical Electives are taken as graduate courses. They are graduate-level courses (600 level and above) chosen from the BME course offerings with the approval of the advisor. A minimum of 6 credit hours of technical electives must be taken at the 700 level. Non-BME courses need to be approved by the advisor and the chairperson.

**B.S./M.S. - Electrical Concentration**

- Juniors from any of the four BME Concentrations who have maintained at least a 3.0 CGPA have the option to apply for admission to the combined BS-MS in Biomedical Engineering program.
- Those who are accepted into this accelerated program must maintain at least a 3.0 CGPA and a minimum of a 3.0 GPA for the final 30 credit hours to meet the requirements of the Graduate School.
- The participants are excused from BME 402/BME 403, but are required to complete BME 705/BME 706.
- Up to 12 credit hours of Technical electives earned during the fourth year can be counted toward the 30 credit hours required for the MS degree.
- Students must be registered for a minimum of 12 undergraduate credit hours per semester in their senior year.
- Students can register for a maximum of 6 graduate credit hours per semester in their senior year.
- A typical curriculum of the BS/MS is shown below for the Electrical Concentration.
- If a student needs to withdraw from the BS/MS BME program then all the requirements for the specific BS BME Concentration must be completed for graduation with the BS BME degree.

1. PS/HA Cognate: Students must complete a minimum of 1 People & Society (PS) cognate and 1 Humanities & Arts (HA) cognate, to be selected from the list of available cognates (http://www.miami.edu/index.php/registrar/cognates). Each cognate should be a minimum of 3 courses (9 credit hours).

2. Technical Elective Labs are selected from BME 507, BME 566 or BME 395.

3. The undergraduate elective is any undergraduate level course with a number of credit hours sufficient to ensure that the student is enrolled for a total of 12 undergraduate credit hours during each semester of the senior year. The undergraduate elective can be any undergraduate class, but students are encouraged to select an engineering or science course.

4. All Technical Electives are taken as graduate courses. They are graduate-level courses (600 level and above) chosen from the BME course offerings with the approval of the advisor. A minimum of 6 credit hours of technical electives must be taken at the 700 level. Non BME Courses need to be approved by the advisor and the chairperson.

B.S./M.S.- Premed Concentration

- Juniors from any of the four BME Concentrations who have maintained at least a 3.0 CGPA have the option to apply for admission to the combined BS-MS in Biomedical Engineering program.
• Those who are accepted into this accelerated program must maintain at least a 3.0 CGPA and a minimum of a 3.0 GPA for the final 30 credit hours to meet the requirements of the Graduate School.
• The participants are excused from BME 402/BME 403, but are required to complete BME 705/BME 706.
• Up to 12 credit hours of Technical electives earned during the fourth year can be counted toward the 30 credit hours required for the MS degree.
• Students must be registered for a minimum of 12 undergraduate credit hours per semester in their senior year.
• Students can register for a maximum of 6 graduate credit hours per semester in their senior year.

• A typical curriculum of the BS/MS is shown below for the Premed Concentration.

If a student needs to withdraw from the BS/MS BME program then all the requirements for the specific BS BME Concentration must be completed for graduation with the BS BME degree.

Credit Hours: 18

### Junior Year

#### Fall

- Advanced Bioscience Elective 2
- BME 330 Foundations of Medical Imaging
- BME 335 Biomaterials
- BME 401 Biomedical Design
- CHM 205 Organic Chemistry Laboratory I
- ECE 203 Electrical Circuits Laboratory
- PS/HA Cognate 1

Credit Hours: 17

#### Spring

- BME 312 Biomedical Statistics and Data Analysis
- BME 330 Foundations of Medical Imaging
- BME 375 Fundamentals of Biomechanics
- BME 440 Biomedical Measurements 4.00
- PS/HA Cognate 1

Credit Hours: 3

### Senior Year

#### Fall

- BME 450 Biomedical Transport Phenomena
- BME 470 Biomedical Signal Analysis
- BME 512 Regulatory Control of Biomedical Devices
- Technical Elective Lab 4
- Technical or Science Lab Elective 3
- Undergraduate Elective 6 0-3
- PS/HA Cognate 1
- Technical Elective (Graduate) 5 3

Credit Hours: 17-20

#### Spring

- Advanced Bioscience Elective 2
- BME 480 Biomedical Instrumentation
- PS/HA Cognate 1
- PS/HA Cognate 1
- BME 705 Master’s Design Project I
- Technical Elective (Graduate) 5

### Undergraduate Elective 6

Credit Hours: 0-3

### Fifth Year (Graduate)

#### Fall

- BME 706 Master’s Design Project II 3
- Technical Elective 5 3
- Technical Elective (600 level) 5 3

Credit Hours: 9

#### Spring

- Technical Elective 5 3
- Technical Elective 5 3
- Technical Elective (700 level) 5 3

Credit Hours: 9

Total Credit Hours: 157-163

1. Students must complete a minimum of 1 PS cognate and 1 HA cognate to be selected from the list of available cognates (http://www.miami.edu/index.php/registrar/cognates). Each cognate should be a minimum of 3 courses (9 credit hours). Students in the Premed Concentration are highly encouraged to choose cognates that include PSY 110 and SOC 101.

2. Advanced Bioscience Elective is to be chosen from BIL 250, BIL 255, BIL 268, CHM 202, or BMB 402. Students should verify admission requirements of their medical school of interest to verify Adv. Bioscience requirements, e.g. organic chemistry II, biochemistry, or both.

3. Technical or Science Elective Lab is selected from BME 506, BME 507, BME 566 or BME 395 or from a science lab complementing the Adv Bioscience Elective (e.g., CHM or BIL lab).

4. Technical Elective Lab is selected from BME 506, BME 507, BME 566 or BME 395.

5. All Technical Electives are taken as graduate courses. They are graduate-level courses (600 level and above) chosen from the BME course offerings with the approval of the advisor. A minimum of 6 credit hours of technical electives must be taken at the 700 level. Non-BME courses need to be approved by the advisor and the chairperson.

6. The undergraduate elective is any undergraduate level course with a number of credit hours sufficient to ensure that the student is enrolled for a total of 12 undergraduate credit hours during each semester of the senior year. The undergraduate elective can be any undergraduate class, but students are encouraged to select an engineering or science course.

† Students planning on taking the MCAT should take BMB 401 as their first Adv. Bioscience Elective.

### Mission Statement

The mission of the Department of Civil, Architectural, and Environmental Engineering is to:
• Provide high-quality undergraduate and graduate education in civil, architectural, and environmental engineering that will prepare graduates for professional careers and a lifetime of learning
• Conduct high-quality research that will advance the body of knowledge and improve the quality of human life
• Serve the engineering profession and society through active involvement in professional organizations and contribution of professional expertise

The department offers three undergraduate degrees:
• Bachelor of Science in Civil Engineering,
• Bachelor of Science in Architectural Engineering and
• Bachelor of Science in Environmental Engineering.

Civil Engineering
Civil engineers are leaders in the planning, design, construction, and operation of systems that are essential to modern life. These systems include: buildings, highways, airports, pipelines, bridges, dams, irrigation systems, drainage systems, water-supply and distribution systems, and wastewater collection and treatment works. Civil engineers are employed by government agencies, public utility companies, private consulting firms, construction companies, architectural firms, and universities.

Architectural Engineering
Architectural engineers are leaders in the planning, design, construction, and operation of engineered systems for commercial, industrial, and institutional buildings and other facilities. These engineered systems include electrical, communications and control, lighting, heating, ventilating, air conditioning, fire protection, plumbing, acoustic, and structural components. Architectural engineers are employed by consulting firms, construction companies, facility management companies, HVAC equipment manufacturers, architectural firms, government agencies, and universities.

Environmental Engineering
Environmental engineers are leaders in the application of engineering principles to improve and maintain the environment for the protection of human health, for the protection of nature’s beneficial ecosystems, and for environment-related enhancement of the quality of human life. Environmental engineers are employed by government agencies, consulting firms, and universities.

Educational Objectives
The objectives of the Civil Engineering Program are to have graduates who within the first several years following graduation are either
1. Working as a professional in an area closely related to civil engineering or
2. Pursuing a graduate or professional degree.

The objectives of the Architectural Engineering Program are to have graduates who within the first several years following graduation are either
1. Working as a professional in an area closely related to architectural engineering or
2. Pursuing a graduate or professional degree.

The objectives of the Environmental Engineering Program are to have graduates who within the first several years following graduation are either
1. Working as a professional in an area closely related to the water environment or
2. Pursuing a graduate or professional degree.

Advanced Writing and Communication Skills
Civil, Architectural, and Environmental Engineering students satisfy the University’s Advanced Writing and Communication Skills requirement by completing a set of classroom courses, laboratory courses and design courses where they learn effective oral, graphical and technical writing skills. Civil, Architectural, and Environmental Engineering students acquire Advanced Writing and Communication skills in the following core courses:
• CAE 111 – Introduction to Engineering I- 3 Credits
• CAE 212 – Structures Laboratory (Civil and Architectural Engineering)- 1 Credit
• CAE 345 – Environmental Laboratory (Environmental Engineering)- 3 Credits
• CAE 371 – Geotechnical Laboratory (Civil and Architectural Engineering) – 1 Credit
• CAE 402 – Professional Engineering Practice- 3 Credits

Majors in Civil, Architectural, and Environmental Engineering
• B.S. in Civil Engineering (p. 363)
• B.S. in Architectural Engineering (p. 365)
• B.S. in Environmental Engineering (p. 366)

Dual B.S./M.S. Degrees in Civil, Architectural, and Environmental Engineering
• B.S./M.S. in Civil Engineering (p. 368)
• B.S./M.S. in Architectural Engineering (p. 368)
• B.S. in Environmental Engineering/M.S. in Civil Engineering (p. 369)
• B.S. in Architectural Engineering and Master of Architecture Dual Degree Program (p. 369)

Minor in Civil, Architectural, and Environmental Engineering
• Civil Engineering (p. 371)
• Architectural Engineering (p. 371)
• Environmental Engineering (p. 371)

Civil Engineering
Civil Engineering Curriculum
The Civil Engineering curriculum provides an integrated educational experience in mathematics, basic sciences, humanities, social sciences, engineering sciences, and civil engineering design. The first two years of the Civil Engineering curriculum provide a strong foundation in mathematics, basic sciences, and engineering sciences. During the next two years of the four-year program, the Civil Engineering curriculum
integrates engineering sciences with design applications in the areas of structural, environmental, geotechnical, and water resources engineering. The curriculum culminates with a major senior-level design project that includes design applications from the major specialty areas of civil engineering.

Graduate study is offered leading to the degrees of Master of Science and Doctor of Philosophy in Civil Engineering (p. 647). For detailed information on graduate studies, see the Graduate Studies Bulletin.

A tabular listing of the course requirements for the degree of Bachelor of Science in Civil Engineering is shown below.

Architectural Engineering

The Architectural Engineering curriculum provides an integrated educational experience in mathematics, basic sciences, humanities, social sciences, engineering sciences, and architectural engineering design. The Architectural Engineering program integrates design applications across the curriculum, beginning with building construction and architectural design in the sophomore year, and continuing with structural, building mechanical and electrical systems design, and construction management in the junior and senior years. The curriculum culminates with a major comprehensive design experience that includes applications from the major specialty areas of architectural engineering.

Graduate study is offered leading to the degree of Master of Science in Architectural Engineering (p. 647). For detailed information on graduate studies, see the Graduate Studies Bulletin.

### Environmental Engineering

The Environmental Engineering curriculum provides an integrated educational experience in mathematics, basic sciences, humanities, social sciences, engineering sciences, and environmental engineering design. The first two years of the Environmental Engineering curriculum provide a strong foundation in mathematics, basic sciences, and engineering sciences. The next two years of the four-year program integrate engineering sciences with design applications with particular emphasis in the areas of water and wastewater engineering.

Design courses emphasize an integrated approach that considers all environmental media in the prevention and control of environmental problems. The curriculum culminates with a major senior-level design project that includes design applications from the major specialty areas of environmental engineering.

---

1. Only offered once a year
2. To be selected from lists of approved People and Society (PS)/ Humanities and Arts (HA) cognates and Technical electives. Students take a minimum of 3 courses (9 credit hours) in HA cognate and 3 courses in PS Cognate (9 credit hours). Students are recommended to select the HA Cognate that includes the following courses: ARC 230; ARC 268 or ARC 476; and ARC 517 (Spring only) or ARC 594 (Fall only).

### B.S. in Architectural Engineering and Master of Architecture Dual Degree

A six-year dual degree program leading to a Bachelor of Science in Architectural Engineering and a Master of Science in Architecture is available. The program is open to exceptional students who are admitted to the graduate program at the end of their junior year. Upon completion of this program, graduates are eligible for professional registration as both an engineer and an architect.

### Electrical and Computer Engineering

http://www.ece.miami.edu

**Dept. Code**: ECE

### Mission Statement

The mission of the Department of Electrical and Computer Engineering is to achieve and maintain, through a continuous improvement process, excellence in undergraduate and graduate education, research, and service to the community and the nation. We endeavor to accomplish this by providing high-quality education and research programs which will impart the requisite knowledge and skills to our students enabling them to assume leadership roles in contributing to the advancement of the underlying electrical and computer engineering technologies which sustain the current world economy, to promote a strong commitment to life-long learning, to prepare them for a variety of alternative career paths and to participate as responsible citizens in a rapidly changing and shrinking global community.

### Introduction

Electrical and Computer Engineering are complementary disciplines that are at the forefront of the continuing development and evolution of our modern technological society. Electrical and computer engineers have initiated and contributed to the development of such important and diverse areas as integrated electronics and photonics, telecommunication systems and computer networks, computer hardware and software, image processing and computer vision, automation and robotics, electrical power generating and transmission systems, as well as participated in the development of significant applications to biotechnology. These technologies have significantly transformed how our evolving society will live, learn, work, communicate and do business in the 21st century and are critical to the development of a sustainable world economy. It is an exciting and challenging discipline offering a variety of rewarding career paths. The Department of Electrical and Computer Engineering offers a number of innovative academic and
research programs to help prepare students to achieve a variety of career goals.

The Department offers two undergraduate degree programs:

1. Bachelor of Science in Electrical Engineering degree program (B.S.E.E.)
2. Bachelor of Science in Computer Engineering degree program (B.S.Cp.E.)

The Electrical Engineering and the Computer Engineering degree programs are accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET).

In addition, the Department offers graduate courses leading to the:

- Degree of Master of Science in Electrical and Computer Engineering (M.S.E.C.E.), and the
- Doctor of Philosophy degree (Ph.D.).

For further information see the Bulletin of the Graduate School (p. 517).

**Bachelor of Science in Electrical Engineering (B.S.E.E.)**

This degree program endeavors to achieve its objectives by imparting to its students the fundamental principles underlying modern electrical engineering, along with the necessary skills and experiences to apply standard practices, methodologies and available tools for solving electrical engineering problems. The major areas of Electrical Engineering include electronics, analog and digital circuits, microprocessors, communications and control systems. The design sequence is spread throughout the educational experience curricula, culminating in the two-semester senior design project. Graduates are expected to keep pace with this rapidly evolving discipline. To this end, the faculty stresses the importance of continued education and life-long professional development by trying to instill in their students a sense of excitement for the prospects of this evolving technology, tempered by a strong sense of responsibility and concern for its potential impacts on society.

**Educational Objectives**

We expect that our alumni will exhibit the following:

1. Successful careers in dynamic and multidisciplinary technical fields with the ability to apply engineering practices within societal, global, and environmental contexts in an ethical manner.
2. Continuous professional improvement through life-long learning including but not limited to the admission to and completion of professional or graduate studies of the highest standard.

**Degree Program**

The Electrical Engineering degree program has three options:

1. Electrical Engineering Option;
2. Audio Engineering Option;
3. Electrical Engineering Pre-Med Option

These options require specialized courses as well as the 49 Engineering Credit Hours required in the accredited Electrical Engineering degree program.

**Double Degree Program - B.S.E.E. & B.S.B.E.**

A BME student who satisfies the requirement of the B.S.B.E. degree with electrical orientation as described in this Bulletin may also qualify for the B.S.E.E. degree by taking the following additional courses:

<table>

**Bachelor of Science in Computer Engineering (B.S.Cp.E.)**

Computer engineering is a rapidly changing and evolving discipline driven by new technology developments and marketplace conditions. To adequately train students to meet the challenges of the future and to assume leadership roles in the practice of computer engineering, the department offers an up-to-date curriculum that reflects new technology developments that have the potential for significantly impacting professional practice in the industry. The curriculum is constantly updated to incorporate new technological, scientific and economic developments.

Alternatively, students can earn a Bachelor of Science in Computer Engineering under the Software Engineering option, which is primarily focused on the systematic and disciplined development of software systems. This option focuses on the application of computer engineering and computer science principles and practices to the creation, operation, and maintenance of software applications and systems.

**Educational Objectives**

We expect that our alumni will exhibit the following:

1. Successful careers in dynamic and multidisciplinary technical fields with the ability to apply engineering practices within societal, global, and environmental contexts in an ethical manner.
2. Continuous professional improvement through life-long learning including but not limited to the admission to and completion of professional or graduate studies of the highest standard.

**Degree Program**

This degree program endeavors to achieve its objectives by imparting to its students the fundamental principles underlying modern computer engineering, along with the necessary skills and experiences to apply standard practices, methodologies and modern tools for solving computer engineering problems.
The computer engineering design sequence is spread throughout the curriculum, culminating in a two semester senior design project.

Graduates are expected to keep pace with this rapidly-evolving discipline. To this end, the faculty stress the importance of continued education and life-long professional development, by trying to instill in the students a sense of excitement for the prospects of this evolving technology, tempered by a strong sense of responsibility and concern for its potential impacts on society.

The Computer Engineering degree program has three options:

1. Computer Engineering Option
2. Software Engineering Option
3. Computer Engineering Pre-Med Option

These options require a common engineering core, which is followed by specialized courses in each area along with elective courses.

**Dual Majors**

Computer Engineering or Electrical Engineering students who want to do additional majors or minors must meet with their academic advisor to plan out their course work.

Computer Engineering students wanting to do Computer Science as a second major must

1. have an additional 6 advisor-approved technical credit hours beyond that required for the CE major, and
2. take PHI 115.

**Departmental Laboratories**

The Department maintains a variety of well-equipped laboratories and computers adequate for undergraduate instruction and graduate research. The laboratories and computer facilities include:

- Computer Vision and Image Processing Laboratory
- Digital Audio and Speech Processing Laboratory
- Digital Signal Processing Laboratory
- Digital Systems Design Laboratory
- Electronics Laboratory
- Electro-Optics and Micro-Devices Laboratory
- Embedded Systems Laboratory
- Fortinet Cyber Security Laboratory
- Information Technology Laboratory
- Microprocessor Laboratory
- Multimedia Laboratory (Arnold Center for Confluent Media Studies)
- Networks Laboratory
- Optics and Fiber Communications Laboratory
- Underwater Imaging Laboratory

**Departmental Electives**

<table>

**ECE Electives**

Select from all ECE elective classes at the 300 level or above.

**Technical Electives**

Select from all ECE or any 200 level or above CoE courses, as well as courses from Math, Physics, Chemistry, Biology, Computer Science, selected in consultation with, and with the approval of, the academic advisor. Students in the Audio Engineering Option may include MTC 506 in this category of electives.

**EE Design Elective**

Select one of the following:

- ECE 417 Embedded Microprocessor System Design 3
- ECE 454 Digital System Design and Testing 3
- ECE 505 Semiconductor Photonic Devices 3
- ECE 532 VLSI Systems 3

**Basic Science (/Lab) Electives**

Basic Science (/Lab) Electives are selected in consultation with the Academic Advisor from courses in Biology, Chemistry, Environmental Science, Geological Science, Marine Science, or Physics.

**Computer Engineering (CE) Technical Electives**

Select from all ECE at any 300 level or above in consultation with, and with the approval of, the academic advisor. Additionally, one elective course may be selected from the following computer science courses:

<table>

Advanced Writing and Communication Skills

Electrical and Computer Engineering students satisfy the University’s Advanced Writing and Communication Skills requirement by completing a set of classroom, laboratory, and design procedures where they learn effective oral, graphical and technical writing skills. Electrical and Computer Engineering students acquire Advanced Writing and Communication skills in the following core courses: ECE 212 and ECE 481.

Internship Program

The Department of Electrical and Computer Engineering encourages its students to take advantage of the College of Engineering Internship Cooperative Program with Industry.

Students could do that either on a part-time or a full-time arrangement. Students who wish to intern full-time for one semester or for twelve weeks in the summer may apply to earn as much as 3 credit hours that could be applied to their degree requirement as a Technical Elective. Students interested in such a possibility need to submit a proposal to the ECE Department describing the type of work they expect to accomplish approved by the industrial supervisor. If the proposal is approved the student will be assigned a Faculty Supervisor and will be able to register under ECE 499. At the end of the Internship Program, the student is expected to submit to the ECE Department a technical report with comments from the student industrial supervisor. The Faculty advisor will review the report and submit the appropriate grade for ECE 499.

NOTE 1: An ECE course for which another ECE course is a prerequisite may not be taken unless the student has completed the ECE prerequisite course with a grade of C- or better.

NOTE 2: All ECE courses at the 300 level or above must be taken at UM.

Departmental Honors

See College of Engineering (p. 343) section.

Majors in Electrical and Computer Engineering

- B.S.C.p.E. in Computer Engineering - Computer Engineering Option (p. 374)
- B.S.C.p.E. in Computer Engineering - Software Engineering Option (p. 375)
- B.S.C.p.E. in Computer Engineering - Pre-Med Option (p. 377)
- B.S.E.E. in Electrical Engineering - Audio Engineering Option (p. 378)
- B.S.E.E. in Electrical Engineering - Electrical Engineering Option (p. 380)
- B.S.E.E. in Electrical Engineering - Pre-Med Option (p. 381)

Dual B.S./M.S. Degrees in Electrical and Computer Engineering

- Five-Year B.S.E.E.-M.S.E.C.E. Dual Degree Program - Computer Engineering Option (p. 382)
- Five-Year B.S.C.p.E.-M.S.E.C.E. Dual Degree Program - Software Engineering Option (p. 384)

Minors in Electrical and Computer Engineering

- Electrical Engineering (p. 390)
- Computer Engineering (p. 389)

Computer Engineering - Computer Engineering Option

Computer engineering is concerned with the characterization, design, analysis and implementation of hardware, software and the overall architecture of computers and computer systems, and with the development of applications enabled by such configurations. This ranges from embedded microprocessors and associated software supporting a variety of familiar devices, to large-scale distributed computer systems interconnected by high-speed telecommunication networks controlled by sophisticated communication protocols. Since modern electronic computing systems are digital in nature, the program provides in-depth coverage of a range of topics dealing with digital information processing systems. Among the topics covered are digital system design, computer organization and architecture, operating systems, software engineering, programming, data structures, algorithms, database systems, microprocessor-based systems, and embedded systems.

The department also offers electives in digital communications, computer networks, wireless and mobile networks, very large scale integration (VLSI), microelectronics, nanotechnology, application specific integrated circuits (ASIC), microelectromechanical systems (MEMS), image processing and computer vision, artificial intelligence, machine learning, data mining, and agent technology.

2. Offered only in the Fall semester.

### Computer Engineering - Software Engineering Option

Software Engineering is concerned primarily with the systematic and disciplined approach to developing software systems. It requires the application of both computer engineering and computer science principles and practices to the creation, operation, and maintenance of software systems and applications. The Software Engineering Option of the Bachelor of Science in Computer Engineering degree at the
University of Miami is a unique interdisciplinary program developed and administered collaboratively by the Department of Electrical and Computer Engineering and the Department of Computer Science. This Option prepares students for successful careers in software engineering. Software systems are becoming increasingly complex, and emerging technologies are pushing the boundaries of reusable components and software quality assurance. To prepare students to meet these challenges, this Option establishes a solid foundation of software system fundamentals, coupled with strong hands-on experience and an understanding of professional practice and conduct. In addition to the core curriculum in software engineering, students are introduced to the paradigms of real-time, adaptive, and collaborative software systems, through a wide range of technical elective courses in the departments of Electrical and Computer Engineering, Computer Science, and other departments in the University of Miami. The technical electives allow students to apply the knowledge they have gained to different application areas. This provides valuable hands-on experience in contemporary application areas, which enhances the students’ potential career development opportunities.

Students pursuing the Software Engineering Option of the Bachelor of Science in Computer Engineering degree must earn at least 15 credit hours in Computer Science as part of their degree requirements.

* Students must earn at least 15 credit hours in Computer Science (CSC)
** Students must have at least 32 credit hours of Math and Science

**Computer Engineering - Pre-Med Option**

Our Department offers a pre-medical option that allows motivated students to obtain the rigorous education of a bachelor's degree in computer engineering while simultaneously completing the basic science requirements necessary for applying to medical or dental school. Much of the excitement in engineering involves applications of electrical and computer engineering to problems in health, such as the development of nano-scale biosensors, or the signal processing analysis of DNA sequences or the development and/or use of new hardware and software tools to better serve both medical professionals and patients. With the rapid advancement and application of technology in the medical field, the pre-med option ensures that students learn and understand the fundamentals of Electrical and Computer Engineering while preparing them for entry into either medical school, advanced graduate study, or industry.

### Electrical Engineering - Audio Engineering Option

Audio Engineering offers students, who have a deep interest in sound and music, the opportunity to combine a rigorous electrical engineering education with additional specialized courses offered both by the UM ECE department as well as the Frost School of Music. In particular, the Audio Engineering option combines traditional electrical engineering studies with audio studies in areas such as acoustics, speech and audio signal processing, digital audio, transducers, speech and audio coding and transmission systems, post-production, noise cancellation, architectural acoustics, and recording, thereby providing a multi-disciplinary education. Our Audio Engineering graduates are highly sought by industry and have been pursuing successful careers in music/entertainment, multimedia, telecommunications, analog and digital electronics, and in the hearing aid/medical instrumentation industries, or have chosen graduate study. Students enrolled in Audio Engineering have access to a variety of well-equipped laboratories, both in the UM ECE Department, as well as in the Frost School of Music. For example, students have access to the Gusman Concert Hall, which houses a professional recording studio with automated console and multi-track recording. There, students can record live concerts ranging from small jazz groups to a symphony orchestra. In addition, Audio Engineering students use the Weeks Center for Recording and Performance, which also features a fully professional recording studio, analog and digital signal processing equipment and audio test equipment.

**Spring**

- **ECE 482** Senior Project II

---

*Note: The table and plan of study are designed to provide a structured academic path for students in the specified field of study.*
Electrical Engineering - Electrical Engineering Option

Electrical Engineering is concerned with the design, analysis and implementation of a variety of systems, components and devices, primarily of an electrical or electronic nature, which form the cornerstone of our complex and technologically oriented society. For example, this ranges from small-scale integrated electronics and photonics systems and devices, the technological drivers of the information technology revolution, to large-scale electrical power systems and power generators, which supply the nation’s energy needs and form the basis for sustained economic growth. Furthermore, Electrical engineering also involves the design of micro and nano devices, integrated circuits, hardware, and large-scale systems for telecommunications and networking that engender our increasingly networked life. Therefore, electrical engineering is a vast and rich discipline involved in the design of systems, components, and devices for a variety of applications and areas such as portable electronics (e.g., cell phones), communications and networks, biomedical sensing and medical systems, energy harvesting, next generation displays, lasers, optical and wireless transmission, audio/video compression and recognition, radar and tracking/guidance systems, and remote sensing systems. The University of Miami’s electrical engineering curriculum is focused on the fundamentals of the discipline, in the first two years building a firm foundation in mathematics, basic science, and basic engineering principles such as basic circuits, electronics, software and programming, computer hardware, and signal and system analysis. The students build upon this foundation through more advanced courses and focused specialization, culminating in a capstone major design experience. We continually update our curriculum and laboratories to incorporate new scientific and technological developments, and industry practices. Our graduates have gone on to successful careers in industry, or to graduate school in science and engineering, as well as law school, business school, and medical school.

### Electrical Engineering - Electrical Engineering Pre-Med Option

Our Department offers a pre-medical option that allows motivated students to obtain the rigorous education of a bachelors degree in electrical engineering while simultaneously completing the basic science requirements necessary for applying to medical or dental school. Much of the excitement in engineering involves applications of electrical and computer engineering to problems in health, such as the development of nano-scale biosensors, or the signal processing analysis of DNA sequences. The pre-med option allows students to learn the fundamentals of Electrical and Computer Engineering while preparing them for entry into either medical school, advanced graduate study, or industry.

---

1. See description of electives under the Departmental Electives Section.

2. Offered only in the Fall semester.
### B.S.C.p.E./M.S.E.C.E.- Computer Engineering Option

This is a structured and integrated program of 154/156 credit hours (depending on the undergraduate option). Students may pursue this program from either of the undergraduate option available for Computer Engineering Majors. It includes two required courses, ECE 715 and ECE 716 as well as the selection of advanced technical electives.

- **At least 30 credit hours must be at the graduate (600 or 700) level. Of these, at least 12 credit hours must be in courses open to graduate students only (700 level).**
- **Interested Computer Engineering juniors with cumulative GPA above 3.0 may declare their intent to participate by submitting an official application to the Departmental Graduate Committee for admission into the M.S.E.C.E. portion of the program.**
- **A student wishing to drop out of the five-year program without the M.S.E.C.E. degree could receive the B.S.Cp.E. degree after completing all its requirements, including the senior design project.**
- **All students must take the Graduate Record Examination (G.R.E.) before beginning their fifth-year courses.**

#### Total Credit Hours

| Credit Hours | 136            |

---

1. See description of electives under the Departmental Electives Section.
2. Advanced Bioscience Elective is to be chosen from BMB 260 BIL 250, BIL 255, BIL 268, or BMB 401, in consultation with their academic advisor. Students should verify admission requirements of their medical school of interest to verify Adv. Bioscience requirements.
3. Offered only in the Fall semester.
4. Students in the Premed Concentration are highly encouraged to choose cognates that include PSY 110 and SOC 101.
To qualify for the M.S.E.C.E. degree, students must meet all the pertinent Graduate School requirements, including an acceptable GRE score and a minimum of 3.0 GPA in the 30 credit hours applied towards the M.S.E.C.E. degree.

The student is awarded both the B.S.Cp.E. and the M.S.E.C.E. degrees after the requirements for both degrees are satisfied.

2. Offered only in the Fall semester.
3. Should be taken as Graduate (G) courses.

**B.S.C.p.E./M.S.E.C.E.- Software Engineering Option**

This is a structured and integrated program of 154/156 credit hours (depending on the undergraduate option). Students may pursue this program from either of the undergraduate option available for Computer Engineering Majors. It includes two required courses, ECE 715 and ECE 716 as well as the selection of advanced technical electives.

- At least 30 credit hours must be at the graduate (600 or 700) level. Of these, at least 12 credit hours must be in courses open to graduate students only (700 level).
- Interested Computer Engineering juniors with cumulative GPA above 3.0 may declare their intent to participate by submitting an official application to the Departmental Graduate Committee for admission into the M.S.E.C.E. portion of the program.
- A student wishing to drop out of the five-year program without the M.S.E.C.E. degree could receive the B.S.Cp.E. degree after completing all its requirements, including the senior design project.
- All students must take the Graduate Record Examination (G.R.E.) before beginning their fifth-year courses.
- To qualify for the M.S.E.C.E. degree, students must meet all the pertinent Graduate School requirements, including an acceptable GRE score and a minimum of 3.0 GPA in the 30 credit hours applied towards the M.S.E.C.E. degree.
- The student is awarded both the B.S.Cp.E. and the M.S.E.C.E. degrees after the requirements for both degrees are satisfied.

B.S.E.E./M.S.E.C.E.- Electrical Engineering Option

This is a structured and integrated program of 152/154 credit hours (depending on the undergraduate option). Students may pursue this program from either of the undergraduate option available for Electrical Engineering Majors. It includes two required courses, ECE 715 and ECE 716, as well as the selection of advanced technical electives.

Note the following:

1. At least 30 credit hours must be at the graduate (600 or 700) level. Of these, at least 12 credit hours must be in courses open to graduate students only (700 level).
2. Interested ECE Juniors with cumulative GPA above 3.0 may declare their intent to participate by submitting an official application to the Departmental Graduate Committee for admission into the M.S.E.C.E. portion of the program.
3. A student wishing to drop out of the five-year program without the M.S.E.C.E. degree could receive the B.S.E.E. degree after completing all its requirements, including the senior design project.
4. All students must take the Graduate Record Examination (G.R.E.) before beginning their fifth-year courses.
5. To qualify for the M.S.E.C.E. degree, students must meet all the pertinent Graduate School requirements, including an acceptable G.R.E. score and a minimum of 3.0 GPA in the 30 credit hours applied towards the M.S.E.C.E. degree.
6. The student is awarded both the B.S.E.E. and the M.S.E.C.E. degrees after the requirements for both degrees are satisfied.

1. See description of electives under the Departmental Electives Section.
2. Offered only in the Fall semester.
3. Should be taken as Graduate (G) courses.

Suggested Plan of Study

The first three years are the same as in the undergraduate B.S.E.E. program with 97 credit hours. The remaining 55 credit hours shown below should include at least ten graduate courses of which, at least four are at the 700 level. Also see description of electives under the Electrical and Computer Engineering Section.

Minor in Electrical Engineering

ECE 318 Algorithms
ECE 322 Systems Programming
ECE 412 Software Engineering and Architecture
ECE 413 Software Design and Verification
ECE 414 Computer Organization and Design
ECE 421 Computer Operating Systems
ECE 454 Digital System Design and Testing
& ECE 455 and Design-for-Testability Laboratory
ECE 467 Database Design and Management
ECE 511 Computability, Complexity, And Algorithms
ECE 534 Communication Networks
ECE 537 Principles of Artificial Intelligence
ECE 548 Machine Learning

Total Credit Hours 18

* Students with a major in Electrical Engineering wishing to add a
minor in Computer Engineering must take 6 Computer Engineering
course credit hours (within the ECE department) in addition to those
needed to satisfy their degree requirements.
** No more than 6 credits hours may be taken outside the ECE
department.
*** A minimum grade point average of 2.0 in all ECE courses taken.

Minor in Electrical Engineering

Electrical engineering core electives
ECE 201 Electrical Circuit Theory 3
ECE 202 Electronics I 3
ECE 203 Electrical Circuits Laboratory 1
Select a minimum of 8 credit hours of electrical engineering electives of the following:
ECE 206 Circuits, Signals and Systems
ECE 211 Logic Design
ECE 301 Electromagnetic Field Theory
ECE 302 Electronics II
ECE 303 Electronics Laboratory
ECE 308 Linear Control Systems
ECE 336 Discrete-Time Signals And Systems
ECE 404 Communication Systems
ECE 405 Solid-State Electronics
ECE 417 Embedded Microprocessor System Design
ECE 436 Digital Signal Processing
ECE 454 Digital System Design and Testing
ECE 502 Engineering Acoustics
ECE 503 Laser Communications
ECE 504 Fundamentals of Optical
ECE 505 Semiconductor Photonic Devices
ECE 506 Microfabrication
ECE 532 VLSI Systems
ECE 533 Random Signals and Noise
ECE 538 Introduction to Digital Image Processing
ECE 543 BioNanotechnology

Total Credit Hours 15

* Students with a major in Computer Engineering wishing to add a
minor in Electrical Engineering must take 6 Electrical Engineering
course credit hours in addition to those needed to satisfy their degree requirements.
** No more than 6 credits hours may be taken outside the ECE
department.
*** A 2.0 grade point average in all ECE courses taken.

Engineering Science

Introduction

The curricula in the engineering sciences have been designed to prepare
a student to fill the gap between the pure and applied sciences. The
programs have been planned to enable the graduate to meet, work, and
communicate with scientists and engineers at all levels of research
and development, design and production, sales and distribution and to
participate in the rapid and efficient translation of the latest scientific
discoveries into technological achievements.

The general curriculum outlined below has been developed to give the
student a firm foundation in the engineering sciences supported by a
thorough grounding and facility in mathematics, physics and chemistry.
In addition, each student will choose an area of specialization in at least
one of the Engineering fields of architectural, civil, biomedical, electrical,
industrial, or mechanical, and mathematics, chemistry or physics. By
being well grounded in both the basic and applied sciences, the student,
upon graduation, will be well prepared to assume responsibilities in his/
her field of specialization or continue his/her professional development
through graduate studies.

The engineering science program is intended primarily for students who
expect to pursue graduate studies, and it will not satisfy the licensure
requirements for professional engineering registration.

Premedical Studies: When BIL 150 and BIL 160 are added to the course
sequence for engineering science, basic premedical requirements are
satisfied. Additional specific courses, such as genetics or biochemistry,
may be required for admission to certain medical schools. For optimum
timing and course selection students who combine premedical
studies and engineering science should consult the faculty advisor for
engineering science and the Coordinator, Committee on Premedical
Studies.

Because of the nature of the curriculum and its goals, the student must
maintain a B average. The degree of Bachelor of Science Engineering
Science is awarded upon successful completion of the program.

The required curriculum for the degree of Bachelor of Science in
Engineering Science (General Concentration) is shown below as is a
typical premed curriculum. A Professional Chemistry Concentration in
the Engineering Science Program is available (the Professional Chemistry
Program, approved by the American Chemical Society, is also available in
the College of Arts and Sciences).
Mission Statement
The mission of the Engineering Science program is to provide excellent undergraduate and graduate education in engineering that will prepare graduates to meet Society's changing needs and aspirations.

Educational Objectives
The objectives of the Engineering Science program are to educate engineers who:

- have a sound background in the fundamentals of engineering science grounded in mathematics, physics and chemistry
- have abilities and knowledge expected by graduate programs
- are prepared to enter graduate programs with a strong background in pure science

Degree Programs in Engineering Science
- Engineering Science Curriculum - General Concentration (p. 391)
- Engineering Science Curriculum - Premed Concentration (p. 392)

## Industrial Engineering

http://www.ie.miami.edu

**Dept. Code:** IEN

### Mission Statement

The Department of Industrial Engineering's mission is to provide contemporary and relevant industrial and systems engineering education and research; impart knowledge and skills necessary to design and to improve a variety of manufacturing and service processes; promote lifelong learning; and contribute to emerging societal needs.

### Overview

Industrial Engineering combines science and technical knowledge with human sciences to design, plan, and analyze systems that involve people, material, money, energy, equipment, and other resources. Industrial engineers work with personnel in research and development, accounting, engineers in other disciplines, maintenance, human resources, and production to increase organizational productivity, improve quality, reduce health care costs, conserve energy, develop public transportation systems, and improve industrial safety conditions. Industrial engineering distinguishes itself from other engineering professions because it has applications in manufacturing, service, commercial, and governmental activities. It is the major branch of engineering concerned not only with technology, but with people, making industrial engineers a prime source of management talent.

Through consultation with his/her academic advisor, a student is assisted in choosing electives which will prepare him/her for a degree.
of specialization compatible with his/her future goals. The available concentrations are Engineering Management and Manufacturing. Specific courses required in each concentration are described in Degree Programs Section.

The Department of Industrial Engineering offers graduate programs leading to the:

- Master of Science in Industrial Engineering
- Master of Science in Environmental Health and Safety
- MSIE/MBA Weekend Executive Program (in conjunction with the School of Business)
- Master of Science in Management of Technology (in conjunction with the School of Business)

The Department also offers:

- a Ph.D. program in Ergonomics and Human Factors
- a Ph.D. in Industrial Engineering.

For further information, see the Bulletin of the Graduate School (p. 658).

**Bachelor of Science in Industrial Engineering**

**Industrial Engineering Program Educational Objectives**

The major goal of the Industrial Engineering program at the University of Miami is to prepare graduates to contribute to the economy by virtue of employment in a variety of industries: manufacturing (heavy and light, traditional and high technology) and service (health care, retail, transportation, logistics, government, consulting, banking, and insurance). In striving to achieve this goal, the objective of the faculty is to provide all graduates with the mathematical, scientific, and design tools required to formulate problems accurately, generate alternative solutions, evaluate those alternatives, and present the best solutions to clients or decision makers in a fashion that facilitates decision-making processes. In addition, superior students are prepared for graduate studies and research. Within the first several years following graduation from the Industrial Engineering program, graduates are expected to be:

1. Working as professionals by adding value in any one of the following sectors:
   - Service
   - Government
   - Consulting
   - Retail
   - Manufacturing

2. Pursuing or holding a graduate degree and/or developing professionally through continuing education, licensure, certification and seminars in a new area or their chosen areas of expertise.

The curriculum includes required courses in mathematics and the physical sciences that ensure a firm scientific background while advanced departmental courses provide specialization. Required courses in the people and society - humanities and arts give students the social, ethical and ecological awareness needed in their profession. The courses are designed with the prerequisite structure in mind so that students have to draw from previously acquired knowledge to successfully complete upper level course requirements.

The engineering design experience is interwoven in the curriculum throughout the students’ four years of study.

- Starting with IEN 111 *Introduction to Engineering I* and IEN 112 *Introduction to Engineering II*, an introduction to Engineering graphics, Auto CAD, MATLAB, C++, advanced Excel and Access are given.
- The students then move on to take IEN 201 *Methods Analysis and Work Measurement* where they perform work measurement projects in industry, write reports, and make oral presentations to management. In the Spring of their Junior year, the students take IEN 363 *Project Management for Engineers* and they are exposed to techniques and tools in project management such as use of network flow and MS Project.
- Students take IEN 361 *Industrial Cost Analysis* and IEN 380 *Engineering Economy* where they become aware of the impact of productivity on the economic and social well-being of industry and countries. The students are also introduced to basic models of decision making such as the formulation and evaluation of an economic strategy.
- IEN 406 *Computer-Aided Manufacturing* introduces the students to product design in manufacturing and modern concepts of CAD/CAM/Automation.
- IEN 441 *Deterministic Models in Operations Research* focuses on the formulation of linear programming problems and solutions by the simplex method. Related topics include sensitivity analysis, duality theory and network programming. Engineering applications are emphasized.
- IEN 442 *Stochastic Models in Operations Research* focuses on basic concepts and techniques of random processes that are used to develop models for a variety of engineering and managerial problems. Topics include the Poisson Process, Markov chains, renewal theory, queueing models, and reliability.
- IEN 465 *Production and Inventory Control* provides a thorough treatment of modern production and inventory management policies, and their ramifications on supply chain management.
- Theory and applications of decision support systems in industrial engineering are covered in IEN 524 *Decision Support Systems in IE*. The topics include the study of model-based data-based, knowledge-based, and communication-based decision support systems.
- In IEN 557 *Ergonomics and Human Factors Engineering* both laboratory projects and real-world projects are designed, discussed, and conducted.
- Industry based projects are embedded into several other courses such as IEN 512 *Statistical Quality Control and Quality Management*, IEN 547 *Computer Simulation Systems*, and IEN 568 *Materials Handling and Facilities Planning*.
- IEN 494 *Senior Project* is a capstone project course where the students pool all of their knowledge and previous design experience into one major project integrating all components of the curriculum together. These projects are usually industry-based. Students prepare written and oral presentations. These presentations are made before top management or engineers of the organization where the projects were conducted in the presence of the faculty representatives from the department.

Real world projects are an integral part of most junior and senior level courses. In these courses, communication is emphasized through requirements for oral presentation and written technical reports. This
experience provides the graduates with valuable industrial experience and communications skills while studying at the University of Miami.

The teaching laboratories meet current program needs and are constantly being improved. Equipment and experiments are geared to provide instruction in the areas of production system design, work methods and measurement, human factors engineering, manufacturing processes, computer applications in industrial engineering and operations research.

Advanced Writing and Communication Skills: Industrial Engineering students satisfy the University’s Advanced Writing and Communication Skills requirement by completing a set of classroom courses, laboratory courses and design courses where they learn effective oral, graphical and technical writing skills. Industrial Engineering students acquire Advanced Writing and Communication skills in the following core courses:

- IEN 111 Introduction to Engineering I
- IEN 201 Methods Analysis and Work Measurement
- IEN 351 Industrial Safety Engineering
- IEN 363 Project Management for Engineers
- IEN 380 Engineering Economy
- IEN 494 Senior Project
- IEN 512 Statistical Quality Control and Quality Management
- IEN 547 Computer Simulation Systems
- IEN 557 Ergonomics And Human Factors Engineering
- IEN 568 Materials Handling and Facilities Planning

Five-Year Bachelor of Science in Industrial Engineering and Master of Science in Industrial Engineering (Five-Year BSIE/MSIE Program)

This program is specifically designed for those students who want to pursue their graduate study as soon as they complete their undergraduate study in Industrial Engineering. The special conditions for this Five-Year BSIE/MSIE Program are as follows:

1. The student must declare his/her intent to participate before the end of the Junior year by submitting an official application to the department graduate committee for admission into the MSIE portion of the program. Exceptions to this rule must be approved by the department faculty.
2. A student wishing to withdraw from the Five-Year Program without the MSIE degree must complete all the requirements for the BSIE program, including the IEN 494 Senior Project in order to get his/her BSIE degree.
3. To qualify for the MSIE degree, the student must meet all the pertinent Graduate School requirements, including an acceptable score on the GRE (Graduate Record Examination) and a minimum of 3.0 GPA.
4. The student is awarded both the BSIE and MSIE degrees at the end of the fifth year when all undergraduate and graduate requirements are satisfied.

Majors in Industrial Engineering

- B.S.I.E. in Industrial Engineering (p. 395)
- B.S.I.E. in Industrial Engineering - Engineering Management Concentration (p. 396)
- B.S.I.E. in Industrial Engineering - Manufacturing Concentration (p. 398)
- B.S.I.E. in Industrial Engineering - Pre-Med Concentration (p. 399)

Dual B.S./M.S. Degrees in Industrial Engineering

- Five-Year Bachelor of Science in Industrial Engineering and Master of Science in Industrial Engineering B.S.I.E./M.S.I.E. (p. 400)
- Five-Year Bachelor of Science in Industrial Engineering (Engineering Management Concentration) and Master of Science in Industrial Engineering B.S.I.E./M.S.I.E. (p. 402)

Minor in Industrial Engineering

- Industrial Engineering (p. 403)

1. To be selected from lists of approved People and Society (PS)/Humanities and Arts (HA) (or applicable cognates). Students take a minimum of 3 courses (9 credit hours) in HA cognate and 3 courses in PS Cognate (9 credit hours).

2. The Technical Elective is selected from courses at the 300 level or above, offered by one of the following departments: MTH, BME (except BME 320), CAE, ECO, EEN, IEN, MEN, ACC, FIN, MGT (Except MGT 303), MAS, MKT.

3. IEN Electives are selected from courses at the 300 level or above, offered by the Department of Industrial Engineering.

---

1. To be selected from lists of approved People and Society (PS)/Humanities and Arts (HA) (or applicable cognates). Students take a minimum of 3 courses (9 credit hours) in HA cognate and 3 courses in PS Cognate (9 credit hours).

2. Advanced Bioscience Elective is to be chosen from BIL 250, BIL 255, BIL 268, MIC 301, CHM 202, or BMB 402. Students should verify admission requirements of their medical school of interest to verify Adv. Bioscience requirements, e.g. organic chemistry II, biochemistry, or both.

3. Technical or Science Elective Lab is selected from a science lab complementing the Adv Bioscience Elective (e.g., CHM or BIL lab).
