Prerequisite: EPS 622. And EPS 623. And EPS 624. And EPS 625. And EPS 626.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 629. Seminar in Community and Social Change. 3 Credit Hours.
This course is a combination of self-directed and guided elements aiming to build your skills as a reflective, theory and science-based practitioner. To this end, the course provides in-depth exploration and application of core readings and theories in community and social change. The purpose of this course is to apply these core concepts to your practicum and provide a space for critical reflection on your practicum experience (student placement in an organization or a foreign culture). Thus, the course includes both didactic and practicum elements throughout the semester. The didactic aspect focuses on intervention theory and method from a community psychology perspective; the student placement represents a structured opportunity to learn about intervention theory as applied to a particular setting.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 635. Special Topics in Educational and Psychological Studies. 1-3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. This course is designed for students wishing to focus on a specific area of study within the umbrella of Educational and Psychological Studies. Topics will be offered based on current trends in the field as well as student and faculty interest. Students will be given supervision and support.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 667. Professional, Legal and Ethical Issues in Counseling. 3 Credit Hours.
Professional, legal, ethical, and licensing issues in the counseling profession.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 668. Social and Cultural Diversity and Counseling. 3 Credit Hours.
Interrelationship between psychology and sociology in understanding development of diversity in human social systems. Implications for counseling and therapy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 669. Psychopathology for Counselors. 3 Credit Hours.
In depth introduction to abnormal human behavior patterns of concern to mental health professionals. Clinical conditions will be examined within the context of currently most viable theory and research relating to etiology, assessment, diagnosis and treatment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 670. Dynamics of Marriage and Family Systems. 3 Credit Hours.
Introduction to the history and development of marriage and family systems theory as a method for understanding individuals’ behavior and functioning. Introduction to several modes of family therapy. Throughout the course, lectures will also be integrated with other topics including race, culture, gender, sexual orientation, ability.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
EPS 671. Family Therapy. 3 Credit Hours.
Concentrated study of several approaches to family therapy including systemic and psychosocial perspectives. Theory and techniques of family therapy are taught in lecture, videotape, and simulation.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 672. Therapy for Couples. 3 Credit Hours.
Theory and technique linked to working with couples, in marriage and in other relationships.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 673. Counseling in Community Settings. 3 Credit Hours.
Exploration of a variety of perspectives on community services relevant to mental health counselors. Topics include: the variety of community settings; community, national, and international diversity in mental health services; diversity of clients (e.g., cultures, religions, GLBT, elderly, social classes, disabilities); mental health funding; the role of politics, policy, advocacy, and research; interviewing across cultures.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 674. Lifestyle and Career Counseling. 3 Credit Hours.
An introductory course in career development and career counseling, focusing on theories of career development, counseling tools, strategies, and sociological, economic, and psychological influences on the American worker.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 675. Therapeutic Group Procedures. 3 Credit Hours.
This course examines both the theory and practice of group counseling. The course covers therapist issues, patient selection criteria, group structuring as we ll as basic therapeutic techniques. The course prepares students to design structured counseling groups, to prepare group counseling materials, and to lead counseling groups of various types.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 676. Counseling Process and Practice. 3 Credit Hours.
The development of basic communication and clinical skills necessary for establishing the counseling relationship and conducting therapy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 677. Assessment Strategies for Counselors I. 3 Credit Hours.
This course places emphasis on diagnosis, appraisal, assessment, and testing for individual and interpersonal disorders. It addresses statistical procedures and psychometric principles necessary for responsible test use and exposes the student to a variety of test and non-test assessment techniques in marriage and family, and mental health counseling.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 678. Counseling Theories and Practice. 3 Credit Hours.
Study of theories and concomitant practices in counseling and therapy.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 679. Lifespan Human Development. 3 Credit Hours.
Theories and research relating to the biophysical, cognitive, and psychosocial domains of human lifespan development.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 680. Theory and Practice with Children and Adolescents. 3 Credit Hours.
Course prepares students to provide preventive and therapeutic interventions with children and adolescents including theory, research, and practice.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 681. Counseling and Sexuality. 3 Credit Hours.
Emphasis is placed on self-awareness and acceptance of all dimensions of human sexuality. Readings and classroom activities focus on biological aspects of sexuality, an understanding of sexual dysfunctions, and their treatment.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 682. Practicum in Counseling I. 1-4 Credit Hours.
Supervised Practicum at the Institute for Individual and Family counseling and other appropriated clinical settings relating theoretical formulations to intervention strategies appropriate to specialization.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 684. Research and Program Evaluation in Counseling. 3 Credit Hours.
Course focuses on the interpretation and application of research data as applied to clinical practice. Skills in using behavioral research-based literature to identify, evaluate and interpret appropriate interventions are also emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 685. Substance Abuse and Addictions: Theories and Counseling. 3 Credit Hours.
Theories and research on individual, systemic causes, and outcomes of substance abuse, and concomitant practices in counseling and therapy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
EPS 688. Spanish for Mental Health Professionals. 3 Credit Hours.
This course will address the nuances and role of language in the context of counseling, with a focus on the Spanish language. The course will include a dual lens: on the experience of the bilingual counseling client and on the experience of the counselor with varying degrees of proficiency in Spanish. We will address (1) the role of language within the counseling setting with bilingual clients, (2) how cultural values influence language, (3) how cultural values and customs influence the degree of emotion or energy expressed in language and emotion-laden states, (4) the common challenges and experiences of counselors in speaking in Spanish with their clients, and (5) recommended terms and words to use in Spanish in the counseling setting. The course will include assigned readings, lectures, class discussion, videos and role-plays to facilitate assimilation of the material.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 689. Psychological Interventions with Hispanic/Latino Populations. 3 Credit Hours.
Explores the diversity of experiences among Hispanics and their implications for therapy. Topics include: racial diversity among Hispanics, sociopolitical factors in mental health, the impact of immigration on mental health, special psychological treatments: trauma treatment, family interventions and bilingual counseling.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 693. Bereavement and Attachment Factors for Children and Families. 1-3 Credit Hours.
This course will focus on attachment and development of factors as they relate to the bereavement and loss experience of children, adolescents, young adults, and families. Effectiveness methodology in the care of these populations will be explored. Content will include the trajectory of grief in childhood development, manifestation of loss and grief, risk factors in the loss experience, attachment issues, types of loss, popular notions of loss and treatment, and best practice in bereavement work.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 698. Continuous Registration--Master's Study. 1 Credit Hour.
To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 699. Advanced Individual Study I. 1-6 Credit Hours.
Individual work on a special project under faculty guidance.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 700. Quantitative Methods I. 3 Credit Hours.
This course provides an introduction to data analysis and statistical inference. Students learn to describe data (quantitatively and graphically), to select and compute statistical estimates and hypothesis tests, to use computer packages (SPSS) to accomplish these tasks, and to interpret and write about the results of the estimates and tests. Knowledge of basic algebra is needed. Higher mathematics (e.g., trigonometry, calculus) is not used.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

EPS 701. Introduction to Research Methods. 3 Credit Hours.
The nature of disciplined inquiry in behavioral and social sciences. Includes philosophy of science, quantitative and qualitative research, basic concepts in sampling and measurement, and systematic searches of the research literature. Students required to complete literature search on a topic of their interest and submit a report of their findings.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
EPS 702. Quantitative Methods II. 3 Credit Hours.
This course introduces students to techniques of data analysis and statistical inference based on the General Linear Model (GLM). The major topics covered in this class include simple/multiple regression, one- and two-way Analysis of Variance (ANOVA) followed by multiple comparisons, Analysis of Covariance (ANCOVA), and Repeated Measures ANOVA. This course aims to provide a solid conceptual background of these topics, as well as the analytic skills for conducting educational and psychological research in practice. Knowledge of basic algebra and SPSS is required, as is an understanding of the fundamental principles of descriptive statistics and hypothesis testing (as taught, for example, in EPS 700 or equivalent). Knowledge of calculus is not required. Students will conduct statistical analyses using real datasets.
Prerequisite: EPS 700.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 703. Applied Multivariate Statistics. 3 Credit Hours.
This course will provide: (1) a conceptually-oriented introduction to regression methods and (2) opportunities to learn related data-analytic techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 704. Computer Applications in Educational and Behavioral Science Research. 3 Credit Hours.
This course introduces the use of statistical software packages R for acquiring, managing, and preparing datasets that are required to produce reliable and valid statistical inferences. With a special focus on R, the course will cover a broad range of hands-on activities in the data analytic process including data coding, file manipulation tasks, data screening, and statistical analysis, and also provide a brief introduction to R programming.
Components: LSN.
Grading: GRD.
Typically Offered: Summer.

EPS 705. Measurement and Psychometric Theory. 3 Credit Hours.
EPS 705 (Measurement and Psychometric Theory) is a first component of a sequence of classes in order to acquaint students with cutting edge models in test theory and with the application of computer software with which to implement those theories. This sequence of classes provides an introduction to contemporary measurement principles implicated in the design and analysis of scales, tests, and psychological inventories. EPS 705 covers the essentials of classical test theory, factor models of test items, generalizability theory, and a brief introduction of item response theory. After completing the course, students should be provided foundations for further study of measurement theory and be prepared to take a course for item response theory.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 706. Categorical Data Analysis. 3 Credit Hours.
Categorical data is abundant in many different fields such as education, psychology, and marketing. The use of statistical methods for categorical data has increased dramatically in recent years. Categorical data can be numeric or character, but it is always a discrete number of levels. Virtually every research project categorizes some of its observations: male or female, marital status, political or religious affiliation, race of patient, and so on.
Prerequisite: EPS 553 and EPS 671.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 707. Item Response Theory. 3 Credit Hours.
The purpose of the course is to provide training in the theory and application of item response theory (IRT) as it pertains to educational and psychological measurements. Focus will be given to discussing IRT as a measurement model used to measure the properties of items and individuals. Particular attention will be given to contrasting the properties of the IRT model to the classical test theory, and the application of IRT to actual data sets.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 708. An Introduction to Structural Equation Modeling for Multivariable Data. 3 Credit Hours.
This course will provide: (1) a conceptually-oriented introduction to Structural Equation Modeling for multivariate data and (2) opportunities to learn related data-analytic techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 709. Introduction to Multilevel Modeling. 3 Credit Hours.
This course will provide: (1) a conceptually-oriented introduction to multilevel modeling and (2) opportunities to learn related data-analytic techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 710. Meta-Analytic Methods for Research Synthesis. 3 Credit Hours.
Meta-analysis is the general practice of combining, comparing, and interpreting statistics across a set of studies that investigate the same (or similar) phenomena using a properly motivated theoretical framework. Meta-analysis has become a popular tool in a variety of research disciplines, including the social sciences, education, medicine, and business. This course provides a thorough introduction to the theoretical foundations of meta-analysis, discusses commonly used statistical techniques, and analyzes several examples of the existing meta-analysis. Emphasis is placed on application, so that students are trained to independently perform a meta-analysis, from start to finish, in whatever substance area interests students the most.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
EPS 711. Advanced Topics in Research, Measurement, and Evaluation. 3 Credit Hours.
Review of emerging quantitative methodological advances relevant to educational research for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allow for experimental instructional formats. See Course Notes for specific topic.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 712. Field Experience in Educational Research. 2-6 Credit Hours.
A total of 125 hours of supervised practical experiences in educational research. Emphasis is placed on actual participation in a wide variety of on-going research projects through associations with an approved educational R & D center. Normally taken in two or three credit blocks.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 714. Qualitative Methods I. 3 Credit Hours.
An overview of the history, nature, characteristics, strategies, and ethics of qualitative research methods. Critical analysis and evaluation of various types of qualitative studies, including design, sampling, processes of data collection and analysis, and reporting results.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 715. Qualitative Methods II: Case Studies and Grounded Theory. 3 Credit Hours.
Types and designs of case studies, development of protocol, field work, data analysis, and report writing. Practical procedures and techniques for conducting grounded theory studies, including data coding and analysis, and reporting of results.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 716. Qualitative Methods II: Interviews and Content Analysis. 3 Credit Hours.
Sociological and oral history interview methods, including methodological issues, computer-based coding, decoding, and interpreting data. Visual and text based content analysis, scoring schemas, and inter-rated reliability are also covered.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 717. Survey Research Methods. 3 Credit Hours.
Focus on standards and practical strategies for designing different types of survey instruments and conducting survey research. Students are required to develop a proposal for survey research, develop a survey instrument, and conduct small pilot study by collecting, analyzing, and reporting survey data.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 725. Seminar in Community Well-Being. 1-6 Credit Hours.
This course provides an overview of the field of community psychology. We will examine the conceptual and theoretical developments in community psychology since the 1965 Swampscott Conference (the 'birthplace' of community psychology) through reading primary sources – articles, monographs and book chapters – by those who have shaped the field. The readings will include some empirical research studies, but our key focus is the conceptual writings. The goal of this course is to understand and critique different theoretical perspectives in the field of community psychology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

EPS 731. Theories of Community Research and Action. 3 Credit Hours.
This course provides an overview of theoretical perspectives and how they are applied to social and psychological issues in the field of community psychology. The course examines the conceptual and theoretical developments in community psychology since the 1965 Swampscott Conference (the 'birthplace' of the field) through reading primary sources – articles, monographs and book chapters – by those who have shaped the field. Readings also include empirical articles that illustrate the application of these concepts to research. Class discussions are central to this course. In addition, course assignments include the following: (1) brief reflections on readings 3 times during the course of the semester; (2) an interview with a community psychologist and a short essay based on the interview; (3) the final paper is a systematic critical literature review on the topic of interest to students. In this paper, students critique a body of empirical work using theoretical perspectives in community psychology.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 732. Community Based Participatory Action Research. 3 Credit Hours.
The purpose of this course is to introduce students to several traditions of community based participatory action research (CBP AR). CBP AR is carried out in collaboration between academic researchers and members of communities, and involves an iterative process of developing research questions, designing methods, implementing data collection, interpreting results, and often developing interventions. Students will begin by reviewing different intellectual traditions in participatory research including Community Based Participatory Research (CBPR), Participatory Action Research (PAR), Critical PAR and others. We will also stress the ways that participatory research has developed within the traditions of Community Psychology, such as Ecological Inquiry and Participatory Evaluation. While all these three traditions are related and overlapping, students will be encouraged to critique and contrast these approaches.
Prerequisite: EPS 670.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
EPS 737. Organization and Administration of Higher Education I. 3 Credit Hours.
Theoretical approaches from organizational analysis. Applications to problems, processes, and patterns of higher education institutions. Consideration given to legal status, governance patterns, and external relations. Administrator, faculty, trustee, and student roles are also explored.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 738. Effective Teaching, Learning, Assessment, and Curriculum in Higher Education. 3 Credit Hours.
Provides an overview of current theories, research, and best practices in effective teaching, learning, assessment, and curricular design.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

EPS 739. The Community College. 3 Credit Hours.
An overview of American community colleges including historical evolution, purposes and functions, characteristics of students and faculty, organization and administration, curricula, current issues, and trends.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

EPS 740. Administration of Student Affairs. 3 Credit Hours.
History and philosophy of student affairs will be addressed as well as principles and organization of student affairs administration, current problems, procedures, and recent developments.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPS 741. Basic Skills in Counseling and Interviewing. 3 Credit Hours.
Introductory course on essential skills used in counseling and interviewing. Through lectures, discussions, and small group exercises, students will explore their natural style of helping and learn effective listening and communication skills. This course is not intended to train students to become a professional counselor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 742. Higher Education in the United States: From Harvard to Present. 3 Credit Hours.
Broad view of issues and problems in higher education. Fundamental ideas and significant literature are analyzed from historical, philosophical, and societal perspectives.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 743. Psychological Bases of Education. 3 Credit Hours.
Review and extension of basic principles of psychology underlying educational practice. Basic concepts of educational psychology which contribute to effective education will be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 744. Student Diversity in American Higher Education. 3 Credit Hours.
Emphasis on the diversity of today's undergraduate students. An examination of the sociological context and philosophical orientation of contemporary college students is included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 745. Organization & Administration of Higher Ed II: Governance, Leadership and Finance. 3 Credit Hours.
Provides an overview of selected topics in governance, administrative leadership and finance in higher education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 746. College Student Development: Theory, Research and Practice. 3 Credit Hours.
Emphasis on student growth and development during college and an analysis of the factors which affect development along cognitive and affective dimensions. An in-depth examination of college student development theories is included.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 747. Critical Issues in Student Affairs: The Law and Higher Education. 3 Credit Hours.
Emphasis on the most pressing issues facing the profession of student affairs today including diversity, funding, staff retention and the law and student affairs.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

EPS 748. Enrollment Management: Theory and Practice. 3 Credit Hours.
Comprehensive overview of principles and practices of a strategic process that begins with recruitment and continues through graduation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 749. Advanced Seminar in Enrollment Management. 3 Credit Hours.
In-depth exploration of topics in enrollment management, including market research, market testing, pricing strategies, strategic planning, and development of a future vision.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 751. Seminar in Higher Education Administration: Contemporary Issues. 3 Credit Hours.
A review of recent developments, research findings, changing issues, and problems in contemporary American higher education.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
EPS 752. Dissertation Seminar. 3 Credit Hours.
The development and analysis of dissertation proposals will be required. Detailed coverage of the research process, proposal elements, dissertation writing and all aspects of doctoral research will be emphasized. Extensive feedback on research ideas and writing is involved.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

EPS 753. Internship in College Teaching. 3 Credit Hours.
A program in observation and supervised teaching in the community junior or liberal arts college. The student spends 15-20 hours per week. Included is a seminar held with the college supervisor which meets several times during the semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 754. Practicum: Administration of Higher Education. 1-6 Credit Hours.
This course is designed to provide students with an opportunity to develop professional competencies while they apply theory to practice. Opportunities can be pursued in enrollment management or student affairs related offices either on campus or at other higher education institutions. Students will contract for the type of experience desired and a formal research paper and presentation will culminate this activity.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 755. Group Dynamics and Communication Skills. 3 Credit Hours.
Emphasis on group dynamics, group procedures and communication skills.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 756. Workshop in Education: Administrative Issues and Problems in Higher Education. 1-3 Credit Hours.
Study in special interest areas in education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 757. Counseling Psychology: Theory, Research and Practice I. 3 Credit Hours.
Orientation to counseling psychology as a discipline including theories, research methodology, contemporary research, lifestyle and career development theory, and professional issues. Required of all first year counseling psychology students. May be taken for 3 or 6 credits to a maximum of 12 credits.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 758. Counseling Psychology: Theory, Research and Practice II. 3 Credit Hours.
Orientation to counseling psychology as a discipline including theories, research methodology, contemporary research, lifestyle and career development theory, and professional issues. Required of all first year counseling psychology students. May be taken for 3 or 6 credits to a maximum of 12 credits.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 759. Psychological Appraisal I. 3 Credit Hours.
Orientation to psychological appraisal with emphasis on development of skill in assessment of intellectual functioning.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

EPS 760. Psychological Appraisal II. 3 Credit Hours.
Orientation to psychological appraisal with emphasis on use of procedures which facilitate preparation for, and evaluation of, intervention efforts in the personality and social-behavioral areas.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 761. Psychological Appraisal III. 3 Credit Hours.
Orientation to psychological appraisal with emphasis on use of procedures which facilitate intervention preparation for, and evaluation of, intervention efforts in the personality and social-behavioral areas.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 762. Counseling Psychology: Theory, Research and Practice III. 3 Credit Hours.
Orientation to counseling psychology as a discipline including theories, research methodology, contemporary research, lifestyle and career development theory, and professional issues. Required of all first year counseling psychology students. May be taken for 3 or 6 credits to a maximum of 12 credits.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 763. Counseling Psychology: Theory, Research and Practice IV. 3 Credit Hours.
Orientation to counseling psychology as a discipline including theories, research methodology, contemporary research, lifestyle and career development theory, and professional issues. Required of all first year counseling psychology students. May be taken for 3 or 6 credits to a maximum of 12 credits.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 764. Workshop in Education: Administrative Issues and Problems in Higher Education. 1-3 Credit Hours.
Study in special interest areas in education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 765. Workshop in Education: Financing Higher Education. 1-3 Credit Hours.
Study in special interest areas in education.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

EPS 766. Workshop in Education: Institutional Research & Higher Ed Policy Analysis. 3 Credit Hours.
Study in special interest areas in education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 767. Counseling Psychology: Theory, Research and Practice I. 3 Credit Hours.
Orientation to counseling psychology as a discipline including theories, research methodology, contemporary research, lifestyle and career development theory, and professional issues. Required of all first year counseling psychology students. May be taken for 3 or 6 credits to a maximum of 12 credits.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 768. Counseling Psychology: Theory, Research and Practice II. 3 Credit Hours.
Orientation to counseling psychology as a discipline including theories, research methodology, contemporary research, lifestyle and career development theory, and professional issues. Required of all first year counseling psychology students. May be taken for 3 or 6 credits to a maximum of 12 credits.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 769. Psychological Appraisal I. 3 Credit Hours.
Orientation to psychological appraisal with emphasis on development of skill in assessment of intellectual functioning.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

EPS 770. Psychological Appraisal II. 3 Credit Hours.
Orientation to psychological appraisal with emphasis on use of procedures which facilitate preparation for, and evaluation of, intervention efforts in the personality and social-behavioral areas.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
EPS 776. Doctoral Practicum II. 1-9 Credit Hours.
This course is a combination of self-directed and guided elements aiming to build your skills as a reflective, theory and science-based practitioner. To this end, the course provides in-depth exploration and application of core readings and theories in community and social change. The purpose of this course is to apply these core concepts to your practicum and provide a space for critical reflection on your practicum experience (student placement in an organization or a foreign culture). Thus, the course includes both didactic and practicum elements throughout the semester. The didactic aspect focuses on intervention theory and method from a community psychology perspective; the student placement represents a structured opportunity to learn about intervention theory as applied to a particular setting.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 777. Advanced Practicum in Counseling Psychology. 1-9 Credit Hours.
Supervised experience appropriate to the work of the counseling psychologist.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 779. Vocational Psychology and Career Development. 3 Credit Hours.
This course is a doctoral level seminar on vocational psychology and career counseling. This course will consist of a critical review of the major approaches to understanding traditional career behavior and development and the empirical support for prevailing theoretical constructs. We will also explore how various aspects of identity may affect career development, including race, ethnicity, age, gender, sexual orientation, disability, religion, and social class. Considerable attention will be devoted as well to the application of work-related issues in psychological practice. The course seeks to integrate research, theory, practice, public policy, and social justice.
Requisite: Restricted to Doctoral Students in the Counseling Psychology program.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

EPS 780. Cultural Diversity and Mental Health. 3 Credit Hours.
This seminar course provides advanced training in conceptualizing the individual within cultural and sociopolitical contexts. Emphasis is placed on the 'state of the science' on multicultural empirical research as well as on the 'state of the art' in translating scientific findings to applied clinical contexts.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 781. The Social Bases of Human Activity and Flourishing. 3 Credit Hours.
Human beings are the most intensely social animals, and this course explores the evolutionary, developmental, and social domains in which that social nature is expressed. Topics include attachment processes, imitation learning, identity formation, social norms, intergroup processes, aggression, and social hierarchy. The course has an evolutionary framework, and explores developmental and social domains of human behavior. These domains point to what makes it possible for humans to flourish as the social creatures we are
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPS 782. Supervision in Counseling Psychology. 3 Credit Hours.
This seminar course provides an overview and discussion of theories, research, and practice of supervision and consultation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 785. Preparing Future Faculty Seminar. 1-3 Credit Hours.
The goal of this course is to introduce you to the larger role of university professor. The class is designed to give you some general sense of university structure and of the breadth of opportunities in higher education, to think through your own vision of ‘being a professor’ particularly the part of that role that focuses on teaching, and to help you on the job search by preparing a professional portfolio that will help you get that first job and, hopefully, set you on a smooth career path. The PFF seminar will provide you with contextual and interdisciplinary knowledge of professoriate. Each seminar will be designed to aid you in your goal to become an outstanding faculty member. PFF will give you an overview of life on the academic job market and the pre-tenure years. It is your responsibility to tailor that information to fit your needs. It is expected that you take the information you learn in PFF and speak with mentors in your discipline to glean further insights into Faculty life.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 788. Advanced Individual Study. 1-3 Credit Hours.
Individual work on a special project under faculty guidance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPS 789. Special Topics in Counseling Psychology. 3 Credit Hours.
This graduate course will examine research and practice in a specialty area within counseling psychology. Content may vary from term to term. Probable topics include psychopathology and consultation. Readings will include articles, books, and/or book chapters by key scholars who have shaped and/or are shaping the field. A focus will be placed both on empirical research studies and conceptual writings. The goal of this course is for students to gain key counseling psychology competencies in a specialty area within the field.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

EPS 799. Advanced Individual Study II. 1-3 Credit Hours.
Individual work on a special project under faculty guidance.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
EPS 802. Practicum Laboratory I. 1-4 Credit Hours.
Individual, dyad, and small group supervision at approved Practicum sites.
Corequisite: EPS 682 and Prerequisites: EPS 667 and EPS 669 and EPS 676 and EPS 678.
Components: PRA.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 803. Internship in Counseling Psychology. 1-6 Credit Hours.
Supervised internship in Counseling Psychology in an approved facility.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 820. Research in Residence. 0 Credit Hours.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in EPS 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 825. Continuous Registration Master's Study. 1 Credit Hour.
Master thesis Research. 1-12 Credit Hours. Master students enrolled for credit as determined by advisor. This course will be graded each term.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 830. Pre-Candidacy Dissertation Research. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of EPS 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 835. Doctor of Education Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ed.D. The student enrolls for credit as determined by his/her advisor. Credit is not awarded until the doctoral project has been accepted. Total enrollment may not exceed 12 credits.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 840. Post-Candidacy Dissertation Research. 1-12 Credit Hours.
Post-Candidacy Dissertation Research. 1-12 Credit Hours. Doctoral students enrolled for credit as determined by advisor. This course will be graded each term.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. and Ed.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate school.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

**Electrical & Computer Engineering (ECE)**

ECE 100. Introduction to Electrical and Computer Engineering. 3 Credit Hours.
Introduction to Electrical and Computer Engineering (ECE) for high school students interested in science and technology. The course covers important thematic units of the discipline: electronics, digital design, computer programming and signal processing. Emphasis on hands-on experience in the use of laboratory instrumentation, circuit construction and computer simulation.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

ECE 110. Introduction to Innovation: Learning About Innovation by Innovating. 3 Credit Hours.
Introduction to diverse methods and tools that promote and nurture student creativity, entrepreneurship, team-work, and skills for creating business plans that consider ethical, global and financial issues. Students will learn to use the Maker Space facility to implement their design ideas.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 112. Introduction to Engineering II. 2 Credit Hours.
Course is designed to provide first-year undergraduate students with an introduction to some key electrical and computer engineering concepts and topics by discussing their roles in some of the commonly used electrical and computer engineering systems. Numerical examples, circuit simulations, and computer programming are introduced through the use of MATLAB, AutoCAD, and programming in C++.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 111. Introduction to Engineering I. 3 Credit Hours.
Use of engineering tools and computer techniques for problem solving, data acquisition, analysis, presentation, software design, and computer aided drafting. Development of design skills through several design and building competitions is included as well as an introduction to professional ethics, intellectual property rights, the use of MATLAB, AutoCAD, and programming in C++.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 113. Introduction to Engineering III. 3 Credit Hours.
Introduction to signal processing, communications, and computer systems. Emphasis on computer programming and signal processing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 676 and EPS 678.
Corequisite: EPS 682 and Prerequisites: EPS 667 and EPS 669 and EPS 676 and EPS 678.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 710. Electrical & Computer Engineering Design. 3-6 Credit Hours.
Electrical and computer engineering systems. Numerical examples, circuit simulations, and computer programming are introduced through important thematic units of the discipline: electronics, digital design, computer programming and signal processing. Emphasis on hands-on experience in the use of laboratory instrumentation, circuit construction and computer simulation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 802. Practicum Laboratory I. 1-4 Credit Hours.
Individual, dyad, and small group supervision at approved Practicum sites.
Corequisite: EPS 682 and Prerequisites: EPS 667 and EPS 669 and EPS 676 and EPS 678.
Components: PRA.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 803. Internship in Counseling Psychology. 1-6 Credit Hours.
Supervised internship in Counseling Psychology in an approved facility.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

EPS 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her adviser. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 820. Research in Residence. 0 Credit Hours.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in EPS 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 825. Continuous Registration Master's Study. 1 Credit Hour.
Master thesis Research. 1-12 Credit Hours. Master students enrolled for credit as determined by advisor. This course will be graded each term.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPS 830. Pre-Candidacy Dissertation Research. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of EPS 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 835. Doctor of Education Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ed.D. The student enrolls for credit as determined by his/her advisor. Credit is not awarded until the doctoral project has been accepted. Total enrollment may not exceed 12 credits.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 840. Post-Candidacy Dissertation Research. 1-12 Credit Hours.
Post-Candidacy Dissertation Research. 1-12 Credit Hours. Doctoral students enrolled for credit as determined by advisor. This course will be graded each term.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPS 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. and Ed.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate school.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.
ECE 118. Introduction to Programming. 3 Credit Hours.
Introduction to computing, problem solving, program design, C++ language fundamentals, and software engineering principles. Software design projects are included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 123. Explorations in Engineering. 3 Credit Hours.
Introduction to engineering for non-engineers with emphasis on real-world engineering systems and services which are changing the way we live, communicate, learn, play, and care for ourselves, our communities and our planet. Students will learn how to use modern tools to observe and design simple engineering systems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 201. Electrical Circuit Theory. 3 Credit Hours.
Fundamentals of DC-AC circuit laws, including steady state and transient analysis. Lecture, 3 hours. Prerequisite: MTH 162.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 202. Electronics I. 3 Credit Hours.
Semiconductor physics and devices. Diodes, bipolar-junction transistors (BJT). Introduction to field-effect transistors (FETs) and Operational Amplifiers. Emphasis on dc and ac analysis of electronic circuits. Use of CAD tools such as PSpice. Pre-requisite: ECE 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 203. Electrical Circuits Laboratory. 1 Credit Hour.
Laboratory work employing the techniques of circuit theory to physical components, devices, and circuits. Use of electronic computing techniques to relate analytical and empirical investigations. Laboratory, 3 hours. Pre-requisite: ECE 201.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 204. Electrical Circuits Laboratory. 1 Credit Hour.
Laboratory work employing the techniques of circuit theory to physical components, devices, and circuits. Use of electronic computing techniques to relate analytical and empirical investigations. Laboratory, 3 hours. Pre-requisite: ECE 201.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 205. Principles of Electrical Engineering--I. 3 Credit Hours.
Fundamentals of DC and AC Circuits and a survey of Electrical Machinery and Electronics. Not open to students with credits in ECE 201. Lecture, 3 hours. Pre-requisite: MTH 162.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 206. Circuits, Signals, and Systems. 3 Credit Hours.
This course teaches the basics of continuous-time signals and systems with an emphasis on circuits as motivating examples. Topics include signals and linear time-invariant systems, convolution, stability, Laplace Transform, transfer function, poles and zeros, s-domain circuit analysis, feedback control, Fourier Series and Transform, Bode plots, analog filters. Pre-requisite: ECE 201 And MTH 311.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 211. Logic Design. 3 Credit Hours.
Boolean algebra and its applications in analysis and design of logic circuits. Introduction to SSI and MSI circuits as building blocks, memory elements, and analysis and synthesis of synchronous and asynchronous sequential systems are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 212. Processors: Hardware, Software, and Interfacing. 3 Credit Hours.
Architecture and operation of modern microprocessor based computer systems and microcontrollers. Assembly language and applications with hands on experience. Lecture, 3 hours; laboratory, 3 hours. Pre-requisite: ECE 118 and ECE 211/304.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 218. Data Structures. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 301. Electromagnetic Field Theory. 3 Credit Hours.
Vector analysis, static and time-varying fields, Maxwell's equations, propagation of electromagnetic waves, and transmission line theory and applications are discussed. Pre-requisite: PHY 207 and MTH 210.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 302. Electronics II. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
ECE 303. Electronics Laboratory. 1 Credit Hour.
Laboratory course in conjunction with courses ECE 202 and 302.
Prerequisite: ECE 203 or 204. Or Pre/Corequisite: ECE 302 or 306.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 304. Logic Design. 3 Credit Hours.
Boolean algebra and its applications in analysis and design of logic
circuits. Introduction toSSI and MSI circuits as building blocks, memory
elements, and analysis and synthesis of synchronous and asynchronous
sequential systems are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 305. Electronics I. 3 Credit Hours.
Semiconductor physics and devices. Diodes, bipolar-junction transistors
(BJT). Introduction to field-effect transistors (FETs) and Operational
Amplifiers. Emphasis on dc and ac analysis of electronic circuits. Use of
CAD tools such as PSpice.
Pre-requisite: ECE 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 306. Electronics II. 3 Credit Hours.
Continuation of ECE 305. Emphasis on integrated circuits. Field-effect
transistors (FETs). Application of operational amplifiers and other
integrated circuits. Frequency response of amplifiers. Use of CAD tools as
PSpice.
Prerequisite: ECE 202 or 305.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 307. Circuits, Signals, and Systems. 3 Credit Hours.
This course teaches the basics of continuous-time signals and systems
with an emphasis on circuits as motivating examples. Topics include
signals and linear time-invariant systems, convolution, stability, Laplace
Transform, transfer function, poles and zeros, s-domain circuit analysis,
feedback control, Fourier Series and Transform, Bode plots, analog filters.
Prerequisite: ECE 201 and MTH 311.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 308. Linear Control Systems. 3 Credit Hours.
Introduction to system theory, transfer function and state variable
modeling of linear continuous time systems, root locus, Bode plot,
Nyquist criterion, analysis and controller design using root locus and
frequency domain techniques, proportional-integral-derivative controllers.
Prerequisite: ECE 206/307 and ECE 303/311 and MTH 210.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 310. Introduction to Engineering Probability. 3 Credit Hours.
Axioms of probability, discrete and continuous random variables,
probability density functions. Expectation, conditioning, independence,
functions of random variables, characteristic functions, multiple random
variables. Sums of random variables, limit theorems, probability bounds,
convergence concepts. Introduction to statistical analysis, estimation,
and hypothesis testing. Cross-listed with IEN 310.
Prerequisite: MTH 162 and Requisite: Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 311. Electronics Laboratory. 1 Credit Hour.
Laboratory course in conjunction with courses ECE 305 and 306.
Prerequisite: ECE 203 or 204. Or Pre/Corequisite: ECE 302 or 306.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 312. Processors: Hardware, Software, and Interfacing. 3 Credit
Hours.
Architecture and operation of modern microprocessor based computer
systems and microcontrollers. Assembly language and applications with
hands on experience. Lecture, 3 hours; laboratory, 3 hours.
Prerequisite: ECE 118 and ECE 211/304.
Components: LAB.
Grading: GRD.

ECE 315. Digital Design Laboratory. 1 Credit Hour.
Familiarization with properties and use of logic gates, flip-flops, digital
standard components, and programmable logic devices. Design and
implementation of combinational and synchronous digital systems and
Computer Aided Engineering (CAE) tools for design and simulation of
digital systems are also included.
Prerequisite: ECE 304 Or ECE 211.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

ECE 316. Structured Digital Design. 1 Credit Hour.
VHDL ((VHSIC (very high speed integrated circuits) hardware description
language)) introduction and syntax. Functional and behavioral
models of VHDL for design, testing, and simulation of digital circuits
and programmable logic devices. Design and implementation of
combinational and sequential digital systems using VHDL is also
included.
Prerequisite: ECE 304 Or ECE 211.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 318. Algorithms. 3 Credit Hours.
Continuation of the programming sequence. Object oriented
programming with C++, emphasizing the skills required of a professional
programmer. Essential data structures and algorithms: trees, graphs,
hash tables, parsing and text processing. Advanced sorting and
data management algorithms. Advanced features of C++; effective
programming with C.
Prerequisite: ECE 218.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ECE 322. Systems Programming. 3 Credit Hours.
Practical hands-on experience with UNIX systems programming and administration. Programming using C and shell scripting languages. File systems features, multiprocessing, inter-process communication, and systems programming fundamentals are discussed. Prerequisite: ECE 218.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 336. Discrete-Time Signals and Systems. 3 Credit Hours.
This course provides the basics connecting continuous-time (CT) and discrete-time (DT) signal processing, and an introduction to discrete-time signals and systems and applications. Topics include communication, sampling, discrete-time linear time-invariant (LTI) signals and systems, difference equations, z Transform, transform domain analysis of DT systems, DT Fourier transform (DTFT), digital filters, applications to audio, and image processing. Prerequisite: ECE 307 Or ECE 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 368. Internet Computing I. 3 Credit Hours.
Principles and practices used in creating interactive Internet sites. Extensive object oriented programming in Java is taught. Use of eXtensible Markup Language (XML) to provide content description. Use of GUI components and graphics to create web based applications. Prerequisite: ECE 218.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 395. Undergraduate Research in Electrical and Computer Engineering. 1-3 Credit Hours.
Research and/or design projects consisting of an individual investigation of real-world contemporary problems. Offered by special arrangement and under the supervision of a faculty member.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 399. Cooperative Education. 1 Credit Hour.
Practical application of classroom theory through alternating semester or summer employment with firms offering positions consistent with the student’s field of study. Course may be repeated.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 404. Communication Systems. 3 Credit Hours.
Introduction to digital communication, including binary and M-ary baseband and bandpass modulation over additive white Gaussian noise channels. Optimal receivers, pulse shaping for bandlimited channels, synchronization, multiple access. Prerequisite: ECE 336 and ECE 310 or IEN 310.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 405. Solid-State Electronics. 3 Credit Hours.
Principles of semiconductor electronics, energy bands of semiconductors, Fermi level, carrier distribution, and transport mechanisms are discussed. Application of semiconductor theory to various junction and field effect devices are included. Prerequisite: ECE 301 and PHY 207.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 412. Software Engineering and Architecture. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 413. Software Design and Verification. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 414. Computer Organization and Design. 3 Credit Hours.
Hardware structure, organization and design of computers. Design of computer arithmetic and control units, data, and instruction paths. Modern hardware description language (HDL) based design methodology. Register transfer level design of computers and digital systems. Algorithmic state machine (ASM) charts, instruction set architecture, control unit implementation, microprogramming, memory organization, pipelining, I/O system organization and high speed arithmetic units are discussed. Prerequisite: ECE 312 Or ECE 212.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 415. Senior Project I. 1 Credit Hour.
Topics cover tasks in project planning including scheduling, documentation, communication (written and oral), financial constraints, and ethics. Students are required to present project proposals to serve as the basis for the follow-up course, ECE 416. Requisite: Senior Status.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 416. Senior Project II. 2 Credit Hours.
The capstone design course for Electrical Engineering majors. An electrical system is designed, implemented, and documented. Prerequisite: ECE 415.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
ECE 417. Embedded Microprocessor System Design. 3 Credit Hours.
Study of microcomputer system design, scientific methods for
quantifying system performance, embedded controller applications
using high level languages, and debugging strategies. Lecture, 1 hour;
laboratory, 3 hours.
Prerequisite: ECE 218. And ECE 315. And ECE 414.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 418. Senior Project Planning. 1 Credit Hour.
The creative process of devising a product to meet customers needs
including an overview of the design process, analysis of requirements,
project planning, scheduling, evaluation, and documentation. Students
are required to present project proposals to serve as the basis for the
follow-up senior design project.
Requisite: Senior Status.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 419. Senior Project. 2 Credit Hours.
The purpose of this course is to integrate the student’s knowledge in
hardware, software, and project management. A major digital system is
designed, implemented, debugged, and documented.
Prerequisite: ECE 418.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 421. Computer Operating Systems. 3 Credit Hours.
The design and implementation of operating systems. Virtual memory
and memory management, resource allocation, device drivers, process
creation, control, communications and scheduling, file systems, data
protection, security, parallel processing and time-sharing. The class
includes a significant operating system implementation project.
Prerequisite: ECE 318.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 436. Digital Signal Processing. 3 Credit Hours.
Topics include finite length transforms (e.g., discrete Fourier transform,
discrete sine and cosine transforms) and their fast computation, finite
impulse response (FIR) and infinite impulse response (IIR) digital
filter design, digital filter structures, finite wordlength effects on filter
performance, and multirate signal processing fundamentals.
Prerequisite: ECE 336.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 437. Real-Time Digital Signal Processing Laboratory. 1 Credit Hour.
Digital signal processing hardware for real-time operation, software
development tools, instruction set, and DSP experiments with audio and
speech application are discussed.
Prerequisite: ECE 436. Or Corequisite: ECE 436.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

ECE 438. Senior Project I. 1 Credit Hour.
The creative process of devising a product to meet customers’ needs
including an overview of the design process, analysis of requirements,
project planning, scheduling, evaluation, and documentation. Students
are required to present project proposals to serve as the basis for the
follow-up senior design project.
Requisite: Senior Status.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 439. Senior Project II. 2 Credit Hours.
The capstone design course for Electrical Engineering and Computer
Engineering majors. A major electrical and/or computer engineering
system is designed, implemented, and documented.
Pre-requisite: ECE 438.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 454. Digital System Design and Testing. 3 Credit Hours.
Functional building blocks and concepts of control and timing in digital
design. Descriptive techniques for digital systems and design for
testability.
Prerequisite: ECE 315 and 316. Corequisite: ECE 455.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 455. Design-for-Testability Laboratory. 1 Credit Hour.
Project laboratory demonstrating the techniques necessary to design,
implement, and debug and test a large system. The process is carried
through from conceptual design, implementation, integration, simulation,
and synthesis on a FPGA chip.
Prerequisite: ECE 454. Or Corequisite: ECE 454.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 467. Database Design and Management. 3 Credit Hours.
Database systems design, modeling, implementation, management
methodologies, and techniques. Different database systems are
addressed including relational, object-oriented, object-relational,
and distributed database systems. Internet (WWW) technology, data
warehousing, and online analytical processing applications of database
management systems and hands-on experience with commercial
database systems is also included.
Prerequisite: ECE 322 or CSC 322.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 470. Network Client-Server Programming. 3 Credit Hours.
Introduction to server-client systems and programming. Advanced server-
client design and implementation based on distributed component object
model in Windows and UNIX.
Prerequisite: ECE 218.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 481. Senior Project I. 1 Credit Hour.
The creative process of devising a product to meet customers’ needs
including an overview of the design process, analysis of requirements,
project planning, scheduling, evaluation, and documentation. Students
are required to present project proposals to serve as the basis for the
follow-up senior design project.
Requisite: Senior Status.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 482. Senior Project II. 2 Credit Hours.
The capstone design course for Electrical Engineering and Computer
Engineering majors. A major electrical and/or computer engineering
system is designed, implemented, and documented.
Pre-requisite: ECE 481.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
ECE 499. Senior-Junior Cooperative Education. 1-3 Credit Hours.
Analysis and design experience obtained in industry or government. Approved project jointly supervised and assessed by department faculty and external partner. Note: A maximum of three credits could be used to satisfy degree requirement as Technical Elective. See Bulletin for more information.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECE 500. Engineering Analytical Techniques. 3 Credit Hours.
Complex variables, analytic functions, power series, residue theorem, conformal mappings, series solution, Bessel functions, Legendre polynomials. singular value decomposition, vector, and matrix norms are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 502. Engineering Acoustics. 3 Credit Hours.
Introduction to basic principles of acoustics, methods of sound measurement, physiological, psychological acoustics, the acoustics of the major classes of musical instruments and speech, fundamentals of transducers, architectural acoustics, and the effects and control of noise are covered.
Prerequisite: ECE 336.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 503. Laser Communications. 3 Credit Hours.
Principles of optics, optical fibers, electro-optics, light wave propagation in free space and anisotropic media, and waveguides are discussed. Communication devices including lasers, detectors, electro-optic modulators, optical fiber communication links are covered. The course includes seven hands-on experiments.
Prerequisite: PHY 206 and PHY 207 and ECE 301 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 504. Fundamentals of Optical Imaging. 3 Credit Hours.
Introduction to optical imaging, optical coherence tomography imaging, fiber endoscope imaging, and spectral imaging. Learn grating diffraction, interferometer, and optical spectrometer. The course includes ten hands-on experiments. Gain system level understanding of optical coherence tomography and spectral imaging.
Prerequisites: ECE 301 or BME 545.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 505. Semiconductor Photonic Devices. 3 Credit Hours.
Principles of semiconductor electronics: energy bands of semiconductors; Fermi level; carrier distribution and transport mechanisms. Application of semiconductor theory to various junction and field effect devices.
Prerequisite: ECE 302, 306, 405.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 506. Microfabrication. 3 Credit Hours.
Principles of operation, properties and applications of semiconductor devices, junction, metal-semiconductor, metal-oxide-semiconductor, optoelectronic, bulk-effect, and charge-coupled are covered.
Prerequisite: ECE 505.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 511. Computability, Complexity, and Algorithms. 3 Credit Hours.
Advanced programming techniques: dynamic programming, fast data retrieval and sorting, enumerators, data structures, and data management. The limits of software engineering, computability and models of computation, complexity analysis.
Prerequisite: ECE 318.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 512. Software Engineering and Architecture. 3 Credit Hours.
Prerequisite: ECE 318.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 513. Software Design and Verification. 3 Credit Hours.
Prerequisite: ECE 412/512.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 514. Computer Architecture. 3 Credit Hours.
Computer data and instruction types, survey of existing architectures, and the interaction between hardware and software sub-systems are discussed. Advanced topics in computer architecture.
Prerequisite: ECE 414.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

ECE 519. Design of Computing Languages. 3 Credit Hours.
Major features of modern programming languages with emphasis on design and software efficiency. Interaction between language design and the design of its compiler are included.
Prerequisite: ECE 218.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ECE 521. Computer Operating Systems. 3 Credit Hours.
The design and implementation of operating systems. Virtual memory and memory management, resource allocation, device drivers, process creation, control, communications and scheduling, file systems, data protection, security, parallel processing and time-sharing. The class includes a significant operating system implementation project.
Prerequisite: ECE 318.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 532. VLSI Systems. 3 Credit Hours.
Fundamentals of MOS Technology in VLSI. System data, control flow, structures, design, layout, maskmaking, fabrication, packaging, and testing of VLSI chips are discussed. Highly concurrent Very Large Scale Integration computational systems are also covered.
Prerequisite: ECE 202. Or ECE 305. And ECE 211. Or ECE 304.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 533. Random Signals and Noise. 3 Credit Hours.
Probability models, Bayes’ theorem, Limit theorems of Laplace and Poisson, functions of random variables, Central limit theorem, conditional expectation and estimation, Stochastic processes, stationarity and ergodicity, cross-spectral analysis, filtering, and prediction are discussed.
Prerequisite: ECE 310. Or IEN 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 534. Communication Networks. 3 Credit Hours.
Principles of digital communications, Local Area Networks (LANs), Wide Area Networks (WANs), Open systems Intercommunication (OSI), Internet reference models, internet architecture and protocols, packet switching and routing, and network performance are discussed.
Prerequisite: ECE 212. Or ECE 312. And ECE 310. Or IEN 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 537. Principles of Artificial Intelligence. 3 Credit Hours.
Search techniques, game trees, use of heuristics, logic, representation of knowledge, algorithms for automated reasoning including automated reasoning under imperfect information, some advanced approaches to AI-Related problems such as planning.
Prerequisite: ECE 218.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 538. Introduction to Digital Image Processing. 3 Credit Hours.
Prerequisite: ECE 206. Or ECE 307. And MTH 210.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 539. Digital Communications. 3 Credit Hours.
Principles for the analysis and design of digital communications systems. Nyquist sampling, signal space representation, digital modulation techniques and optimal receiver design, ISI channels, error control coding, convolutional codes, Viterbi decoder, and wireless applications.
Prerequisite: ECE 404.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 540. Digital Speech and Audio Processing. 3 Credit Hours.
Introduction to human speech production, hearing, and perception. Digital speech and audio signal analysis in time and frequency, speech and audio coding, speech synthesis and recognition, language modeling, design of systems for human-machine interaction are also covered.
Prerequisite: ECE 336.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 542. MEMS: Sensors and Electronics. 3 Credit Hours.
This course will introduce the fundamentals of Microelectromechanical Systems (MEMS). An introductory foundation of MEMS concepts will be established through lectures on sensors, actuators, readout electronics, and noise. Physical principles of electromechanical, piezoresistive, capacitive, and piezoelectric sensing will be introduced. Based on these design and analysis principles the course will focus on commercial applications such as accelerometers, biochemical sensors, RF components, microfluidics, and optical devices. Sensor electronics will be discussed with a focus on integration with Complementary Metal Oxide Semiconductor (CMOS) technology.
Prerequisite: Permission of Instructor OR ECE 532.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 543. BioNanotechnology. 3 Credit Hours.
Introduction on the fundamentals of nanotechnology with a focus on Biomedical Applications. A foundation of nanotechnology concepts will be established through lectures on nanometry with quantum physics basics, nano manufacturing tools, physical, chemical properties of nanomaterials. Application of these principles in electronics, magnetics, mechanics and optics will be discussed. Use of these nanoengineering principles and concepts to focus on biomedical technology applications such as biosensors, biomaterials, biomimetics and therapeutics
Components: LEC.
Grading: GRD.

ECE 544. Machine Learning. 3 Credit Hours.
Fundamentals approaches to classifier induction, probabilistic and instance-based approaches, linear and polynomial classifiers, neural networks, decision trees, boosting techniques, performance evaluation, cluster analysis, reinforcement learning, fundamentals of computational learning theory.
Prerequisite: ECE 218. Or MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ECE 553. Neural Networks. 3 Credit Hours.
Artificial neural network algorithms and structures, learning process, perceptron, least-mean-square algorithms, multilayer perceptron, error back-propagation, radial-basis function networks, the Hopfield network, and self-organizing systems are discussed.
Prerequisite: ECE 218. Or MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 562. Wireless and Cellular Communication. 3 Credit Hours.
Wireless Channel Characterization: path loss, shadowing and fading, frequency- selective channels, Doppler spread, and delay spread. Diversity techniques: frequency, time and space diversity, Multiple Antenna Systems: space-time coding, beamforming and layered space-time system. Digital Modulation: adaptive modulations and Orthogonal Frequency Division Multiplexing (OFDM). Cellular Concept: frequency reuse, co-channel interference and handoff. Multiple Access Methods: Frequency Division Multiple Access (FDMA), Time Division Multiple Access (TDMA), Code Division Multiple Access (CDMA) and random access. CDMA: spreading codes, RAKE receiver, multiuser detection and power control.
Prerequisite: ECE 404.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 563. Wireless Communication Lab. 1 Credit Hour.
Computer simulation of path loss, shadowing and fading in wireless channels, performance of various digital modulation methods in both Gaussian and wireless channels, diversity methods, equalization methods including zero-forcing, minimum mean-square error (MMSE) and decision-feedback equalization (DFE), co-channel interfacing in cellular systems, space-time coding. Orthogonal Frequency Division Multiplexing (OFDM) systems, spreading codes for Code Division Multiple Access (CDMA) systems, and matched-filter receiver and multiuser detector for CDMA systems. Measurement of wireless signals in various environments.
Prerequisite: ECE 562.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 564. Wireless Networks. 3 Credit Hours.
Introduction of wireless channels and network. Introduction of medium access control: Frequency Division Multiple Access (FDMA), Time Division Multiple Access (TDMA), Code Division Multiple Access (CDMA) and Carrier Sense Multiple Access. Wireless data networks. IEEE 802.11 (WiFi), IEEE 802.16 (WiMax) and Bluetooth. Wireless network layer: mobile IP and mobile ad-hoc networks. Wireless transport layer: mobile TCP. Wireless Cellular systems: network structure and call processing of GSM and CDMA systems.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 567. Database Design and Management. 3 Credit Hours.
Database systems design, modeling, implementation, management methodologies, and techniques. Different database systems are addressed including relational, object-oriented, object-relational, and distributed database systems. Internet (WWW) technology, data warehousing, and online analytical processing applications of database management systems and hands-on experience with commercial database systems is also included.
Prerequisite: ECE 322 or CSC 322.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 570. Network Client-Server Programming. 3 Credit Hours.
Introduction to server-client systems and programming. Advanced server-client design and implementation based on distributed component object model in Windows and UNIX.
Prerequisite: ECE 218.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 572. Object-Oriented and Distributed Database Management Systems. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 574. Agent Technology. 3 Credit Hours.
Agent definition and applications, agent modeling, theories, agent representation using KIF (Knowledge Interchange Format), agent behavior, ethical and emotional agents, agent communication languages (KQML (Knowledge Query and Manipulation Language)), agent development environments and tools, agent systems (cooperative agents, interface agents, information agents, learning agents, believable agents, agents for workgroups, mobile agents), and agent case studies are covered.
Prerequisite: ECE 537 Or ECE 637.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 576. Internet and Intranet Security. 3 Credit Hours.
Web applications and security, application and access control, software security and encryption, secure information models, security tools, security services, security protocols, electronic commerce, virtual private networks, firewalls, and security versus cost tradeoffs are covered.
Prerequisite: ECE 218 or CSC 322 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ECE 577. Data Mining. 3 Credit Hours.
Introduction to the general principles of inferring useful knowledge from large data sets. Data mining algorithms, including inferring rules, linear regression, decision trees, association rules, and predictive models. Evaluation of data mining algorithms, including training, testing, prediction, comparison, cost, and cross-validation. Data mining applications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 579. Mobile Computing. 3 Credit Hours.
Mobile computing and proxy architectures, mobile web protocols, mobile user interfaces, applications, systems-ware adaptations, mobile databases, transactions, data synchronization, privacy, authentication, and security are covered.
Prerequisite: ECE 368.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 581. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Fall.

ECE 582. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Spring.

ECE 583. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

ECE 584. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

ECE 589. Special Topics in Information Technology. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Information Technology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 594. Special Topics in Computer Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Computer Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 595. Special Topics in Computer Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Computer Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 596. Special Topics in Computer Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Computer Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 597. Special Topics in Electrical Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Electrical Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 598. Special Topics in Electrical Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Electrical Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 599. Special Topics in Electrical Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Electrical Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 600. Engineering Analytical Techniques. 3 Credit Hours.
Complex variables, analytic functions, power series, residue theorem, conformal mappings, series solution, Bessel functions, Legendre polynomials. singular value decomposition, vector, and matrix norms are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 602. Engineering Acoustics. 3 Credit Hours.
Introduction to basic principles of acoustics, methods of sound measurement, physiological, psychological acoustics, the acoustics of the major classes of musical instruments and speech, fundamentals of transducers, architectural acoustics, and the effects and control of noise are covered.
Prerequisite: ECE 336.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 603. Laser Communications. 3 Credit Hours.
Principles of optics, optical fibers, electro-optics, light wave propagation in free space and anisotropic media, and waveguides are discussed. Communication devices including lasers, detectors, electro-optic modulators, optical fiber communication links are covered. The course includes seven hands-on experiments.
Prerequisite: PHY 206 and PHY 207 and ECE 301 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ECE 604. Fundamentals of Optical Imaging. 3 Credit Hours.
Introduction to optical imaging, optical coherence tomography imaging, fiber endoscopy imaging, and spectral imaging. Learn grating diffraction, interferometer, and optical spectrometer. The course includes ten hands-on experiments. Gain system level understanding of optical coherence tomography and spectral imaging.
Prerequisites: ECE 301 or BME 545.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 605. Semiconductor Photonic Devices. 3 Credit Hours.
Principles of semiconductor electronics: energy bands of semiconductors; Fermi level; carrier distribution and transport mechanisms. Application of semiconductor theory to various junction and field effect devices.
Prerequisite: ECE 302, 306, 405.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 606. Microfabrication. 3 Credit Hours.
Principles of operation, properties and applications of semiconductor devices, junction, metal-semiconductor, metal-oxide-semiconductor, optoelectronic, bulk-effect, and charge-coupled are covered
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 632. VLSI Systems. 3 Credit Hours.
Fundamentals of MOS Technology in VLSI. System data, control flow, structures, design, layout, maskmaking, fabrication, packaging, and testing of VLSI chips are discussed. Highly concurrent Very Large Scale Integration computational systems are also covered. * For students who are taking it as ECE 632 there will be a separate advanced final project that will include the use of all digital circuit library that will be developed in the lab exercises and in addition include an analog component to achieve a mixed signal system integration. This will require additional research study as well as comprehension of more advanced topics in VLSI. Supplemental material and additional project instruction will be delivered in the lab.
Prerequisite: ECE 202. Or ECE 305. And ECE 211. Or ECE 304.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 633. Random Signals and Noise. 3 Credit Hours.
Probability models, Bayes’ theorem, Limit theorems of Laplace and Poisson, functions of random variables, Central limit theorem, conditional expectation and estimation, Stochastic processes, stationarity and ergodicity, cross-spectral analysis, filtering, and prediction are discussed.
Prerequisite: ECE 310. Or IEN 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 634. Communication Networks. 3 Credit Hours.
Principles of digital communications, Local Area Networks (LANs), Wide Area Networks(WANs), Open systems Intercommunication (OSI), Internet reference models, internet architecture and protocols, packet switching and routing, and network performance are discussed. * For students who are taking it as ECE 634 there will be a separate requirement.
Prerequisite: ECE 212. Or ECE 312. And ECE 310. Or IEN 310.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 636. Adaptive Filters and Signal Processing. 3 Credit Hours.
Topics include linear models and estimation, orthogonality principle, Wiener filters, stochastic gradient methods, LMS and RLS algorithms, mean square error and tracking performance and applications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 637. Principles of Artificial Intelligence. 3 Credit Hours.
Search techniques, game trees, use of heuristics, logic, representation of knowledge, algorithms for automated reasoning including automated reasoning under imperfect information, some advanced approaches to AI-Problems such as planning.
Prerequisite: ECE 218.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 638. Introduction to Digital Image Processing. 3 Credit Hours.
Prerequisite: ECE 206. Or ECE 307. And MTH 210.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 639. Digital Communications. 3 Credit Hours.
Principles for the analysis and design of digital communications systems. Nyquist sampling, signal space representation, digital modulation techniques and optimal receiver design, ISI channels, error control coding, convolutional codes, Viterbi decoder, and wireless applications.
Prerequisite: ECE 404.
Components: LEC.
Grading: GRD.

ECE 640. Digital Speech and Audio Processing. 3 Credit Hours.
Introduction to human speech production, hearing, and perception. Digital speech and audio signal analysis in time and frequency, speech and audio coding, speech synthesis and recognition, language modeling, design of systems for human-machine interaction are also covered.
Prerequisite: ECE 336.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
ECE 642. MEMS: Sensors and Electronics. 3 Credit Hours.
This course will introduce the fundamentals of Microelectromechanical Systems (MEMS). An introductory foundation of MEMS concepts will be established through lectures on sensors, actuators, readout electronics, and noise. Physical principles of electromechanical, piezoresistive, capacitive, and piezoelectric sensing will be introduced. Based on these design and analysis principles the course will focus on commercial applications such as accelerometers, biochemical sensors, RF components, microfluidics, and optical devices. Sensor electronics will be discussed with a focus on integration with Complementary Metal Oxide Semiconductor (CMOS) technology.
Prerequisite: Permission of Instructor OR ECE 532.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 643. BioNanotechnology. 3 Credit Hours.
Introduction on the fundamentals of nanotechnology with a focus on biomedical applications. A foundation of nanotechnology concepts will be established through lectures on nanometrology with quantum physics basics, nano manufacturing tools, physical, chemical properties of nanomaterials. Application of these principles in electronics, magnetics, mechanics and optics will be discussed. Use of these nanoengineering principles and concepts to focus on biomedical technology applications such as biosensors, biomaterials, biomimetics and therapeutics.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 646. Reliable Digital System Design. 3 Credit Hours.
Topics include descriptive technique for digital systems, synchronizer failure and metastability estimation, design for testability, and estimating digital system reliability. Computer-Aided Engineering (CAE) tools are also covered. Not open to students with credit in ECE 454. Offered only for Graduate students.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 648. Machine Learning. 3 Credit Hours.
Fundamentals of intelligent system design and strategies of learning capability simulation. Selected case studies of learning systems for engineering applications are included.
Prerequisite: ECE 218. Or MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 653. Neural Networks. 3 Credit Hours.
Artificial neural network algorithms and structures, learning process, perceptron, least-mean-square algorithms, multilayer perceptron, error back-propagation, radial-basis function networks, the Hopfield network, and self-organizing systems are discussed.
Prerequisite: ECE 218. Or MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 662. Wireless and Cellular Communication. 3 Credit Hours.
Wireless Channel Characterization: path loss, shadowing, fading, frequency-selective channels, Doppler spread, and delay spread. Diversity techniques: frequency, time and space diversity. Multiple Antenna Systems: space-time coding, beamforming and layered space-time system. Digital Modulation: adaptive modulations and Orthogonal Frequency Division Multiplexing (OFDM). Cellular Concept: frequency reuse, co-channel interference and handoff. Multiple Access Methods: Frequency Division Multiple Access (FDMA), Time Division Multiple Access (TDMA), Code Division Multiple Access (CDMA) and random access. CDMA: spreading codes, RAKE receiver, multiuser detection and power control.
Prerequisite: ECE 404.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 664. Wireless Networks. 3 Credit Hours.
Introduction of wireless channels and network. Introduction of medium access control. Frequency Division Multiple Access (FDMA), Time Division Multiple Access (TDMA), Code Division Multiple Access (CDMA) and Carrier Sense Multiple Access. Wireless data networks. IEEE 802.11 (WiFi), IEEE 802.16 (WiMax) and Bluetooth. Wireless network layer: mobile IP and mobile ad-hoc networks. Wireless transport layer: mobile TCP. Wireless Cellular systems: network structure and call processing of GSM and CDMA systems.
Pre or Corequisite: ECE 634.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 666. Reliable Digital System Design. 3 Credit Hours.
Topics include descriptive technique for digital systems, synchronizer failure and metastability estimation, design for testability, and estimating digital system reliability. Computer-Aided Engineering (CAE) tools are also covered. Not open to students with credit in ECE 454. Offered only for Graduate students.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 672. Object-Oriented and Distributed Database Management Systems. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 673. Information Assurance. 3 Credit Hours.
Assurance as the basis for believing an information system will behave as expected. Security design fundamentals that help create systems that are fit for their purpose and worthy of being trusted. The concepts of information assurance fundamentals. Vulnerabilities and Risk Management assessment. Security Life-Cycle, Mechanisms, Frameworks and Emerging Threats.
Prerequisite: ECE 634.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
ECE 674. Agent Technology. 3 Credit Hours.
Agent definition and applications, agent modeling, theories, agent representation using KIF (Knowledge Interchange Format), agent behavior, ethical and emotional agents, agent communication languages (KQML (Knowledge Query and Manipulation Language)), agent development environments and tools, agent systems (cooperative agents, interface agents, information age nts, learning agents, believable agents, agents for workgroups, mobile agents), and agent case studies are covered.
Prerequisite: ECE 537 Or ECE 637.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 675. Digital Forensics. 3 Credit Hours.
The techniques and skills to apply forensics techniques throughout an investigation life cycle while complying with legal requirements. Preservation, identification, extraction and documentation of computer evidence stored on a computer. Application of forensics techniques to investigate and analyze a host in a network, devices including mobile, and techniques to investigate and analyze network traffic.
Prerequisite: ECE 634.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 676. Internet and Intranet Security. 3 Credit Hours.
Security issues and applications for securing internet and Intranet-based information exchange. Secure information models, security tools, security services, security protocols, electronic commerce, virtual private networks, firewalls, and security versus cost tradeoffs are covered.
Prerequisite: ECE 218 or CSC 322 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 677. Data Mining. 3 Credit Hours.
Introduction to the general principles of inferring useful knowledge from large data sets. Data mining algorithms, including inferring rules, linear regression, decision trees, association rules, and predictive models. Evaluation of data mining algorithms, including training, testing, prediction, comparison, cost, and cross-validation. Data mining applications.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 678. Network Security. 3 Credit Hours.
Information about the threats that may be present in the cyber realm and the techniques that can be taken to protect a network and communication assets from cyber threats. Threat examination and application of security measures. Implementation of network defense measures and adjustments for cloud and hybrid applications.
Prerequisite: ECE 673 and 676.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 680. Electrical and Computer Engineering Internship. 1-3 Credit Hours.
Analysis, design, and research experience obtained at an operating and recognized industry. Approved project jointly supervised and assessed by departmental faculty and industrial partner.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 681. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Fall.

ECE 682. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 683. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

ECE 684. Special Topics in Computer Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Computer Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 685. Special Topics in Computer Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Computer Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 686. Special Topics in Computer Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Computer Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 687. Special Topics in Electrical Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Electrical Engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ECE 698. Special Topics in Electrical Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Electrical Engineering.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 699. Special Topics in Electrical Engineering. 1-3 Credit Hours.
Lecture courses in selected areas of specialization within Electrical Engineering.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 715. M.S. Design Project I. 3 Credit Hours.
Comprehensive M.S. design project in electrical or computer engineering. Open only to students in the BS/MS dual-degree program.

Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 716. M.S. Design Project II. 3 Credit Hours.
Continuation of ECE 715. Open only to students in the BS/MS dual-degree program.

Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 720. Convex Optimization. 3 Credit Hours.
This course aims to give students the tools and training to recognize convex optimization problems that arise in scientific and engineering applications, presenting the basic theory, and concentrating on modeling aspects and results that are useful in applications. Topics include convex sets, convex functions, optimization problems, optimality condition and duality, and algorithms. Applications to signal processing, machine learning and wireless communications are presented.

Prerequisite: MTH 210.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 725. Statistical Signal Processing. 3 Credit Hours.
Fundamentals of statistical signal processing, focusing on detection and estimation. Detection: hypothesis testing, Neyman-Pearson criterion, Bayes risk, generalized likelihood ratio tests. Estimation: minimum variance, maximum likelihood, maximum a-posteriori, and minimum mean squared error methods, Cramer-Rao and Bayesian bounds, expectation maximization, least squares, Kalman filter, sparse solutions, applications. Students should have completed basic courses on linear algebra and probability prior to taking this course.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 730. Statistical Learning. 3 Credit Hours.
Statistical learning theory, high-dimensional data models, regression, classification, sparse kernel machines, mixture models, graphical models, Markov chain Monte Carol simulation, model assessment and selection, model inference and combining.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 735. Fundamentals of Network Science. 3 Credit Hours.
Mathematics of networks; network measures and metrics; power laws and scale-free networks; Erdos-Renyi random networks; random networks with general degree distributions; models of network formation, including preferential attachment models.
Prerequisite: MTH 210.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 738. Computer Vision. 3 Credit Hours.
Principles of computer vision. Segmentation, shape and texture analysis, 3D scene analysis, polyhedral scenes, time-varying image analysis, parallel processing algorithms, matching, and recognition are covered.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 753. Pattern Recognition and Neural Networks. 3 Credit Hours.
Statistical pattern classification, feature extraction, cluster analysis, neural net models, Hopfield net, competitive learning, multi-layer perceptron, and the Boltzmann machine are discussed.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 756. Information Theory. 3 Credit Hours.
Measure of uncertainty and entropy, two dimensional sources, noisy channels, mutual and transinformation, equivocation, efficiency and channel capacity, minimum redundancy coding, error-detecting, error-correcting codes, continuous channel without memory. Gaussian additive noise, sampling theorem, and vector space are covered.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 781. Advanced Problems. 1-3 Credit Hours.
Research and/or design projects through an individual investigation of current problems. Offered by special arrangement only.

Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 782. Advanced Problems. 1-3 Credit Hours.
Research and/or design projects through an individual investigation of current problems. Offered by special arrangement only.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECE 783. Advanced Problems. 1-3 Credit Hours.
Research and/or design projects through an individual investigation of current problems. Offered by special arrangement only.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 784. Advanced Problems. 1-3 Credit Hours.
Research and/or design projects through an individual investigation of current problems. Offered by special arrangement only.

Components: LEC.
Grading: GRD.
Typically Offered: Summer.
ECE 785. Advanced Problems in CyberSecurity. 3 Credit Hours.
Comprehensive M.S. capstone project in CyberSecurity.
Prerequisite: ECE 678.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECE 792. Professional Communications Skills for Engineering Grad Students. 0 Credit Hours.
This course covers fundamental areas in professional communication for Engineering graduate students. Topic areas include: presenting research at conferences, writing manuscripts for publication, preparing the dissertation, the PhD comprehensive exams, effective teaching and mentoring, and obtaining positions in academia. Through interactive workshops, in-class exercises, brief presentations and assignments, students will have an opportunity to practice and strengthen necessary communication skills, developing collaborations, and developing effective presentation skills.
Components: MOD.
Grading: SUS.
Typically Offered: Fall & Spring.

ECE 795. Advanced Topics in Computer Engineering. 1-3 Credit Hours.
Subject matter offerings in computer engineering based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title 'Advanced Topics'.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 796. Advanced Topics in Computer Engineering. 1-3 Credit Hours.
Subject matter offerings in computer engineering based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title 'Advanced Topics'.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 797. Advanced Topics in Electrical Engineering. 1-3 Credit Hours.
Subject matter offerings in electrical engineering based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title 'Advanced Topics'.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 798. Advanced Topics in Electrical Engineering. 1-3 Credit Hours.
Subject matter offerings in electrical engineering based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title 'Advanced Topics'.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 799. Advanced Topics. 1-3 Credit Hours.
Subject matter offerings based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title 'Advanced Topics'.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECE 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

ECE 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in ECE 810 (usually six credits). Credit not granted. May be regarded as full-time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 825. Continuous Registration--Master's Study. 1 Credit Hour.
To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full-time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECE 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Doctoral dissertation credits taken prior to Ph.D. student's candidacy. The student will enroll for credit as determined by his/her advisor. No more than 12 hours of ECE 830 may be taken in a regular semester; no more than six in a summer session.
Components: LEC.
Grading: THI.
Typically Offered: Fall, Spring, & Summer.

ECE 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Doctoral dissertation credits taken after Ph.D. student has been admitted to candidacy. The student will enroll for credit as determined by his/her advisor. No more than 12 credits in ECE 840 may be taken in a regular semester; no more than six credits in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

ECE 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
English (ENG)

ENG 101. Writing Lab. 1 Credit Hour.
ENG 101 will provide students with consistent and sustained support for their reading and writing needs in ENG 105. Students will schedule one-hour per week standing appointments with Writing Center tutors. These standing appointments will be used exclusively to support the work of the ENG 105 course and must be kept throughout the entire semester. Corequisite: ENG 105. and Requisite: (ACT English >=18 and <=31) or (SAT Evidence-Based Reading and Writing >=430 and <=690) or (SAT Critical Reading >=430 and <=690) or (TOEFL iBT Writing >=18).
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 103. Basic Academic Writing. 3 Credit Hours.
Intensive approach to the basics of academic writing with emphasis on building written fluency, using conventions of standard written English, and editing for precision and correctness. Intended for students who need extra preparation before entering ENG 105. Not for credit toward graduation.
Requisite: ACT English score below 18; or SAT Evidence-Based Reading and Writing or Critical Reading score below 430; or TOEFL iBT Writing score below 18.
Components: LEC.
Grading: CNC.
Typically Offered: Fall & Spring.

ENG 105. English Composition I. 3 Credit Hours.
Introduction to written academic argument and inquiry. Not for major or minor. Cannot be taken on credit-only option.
Requisite: ACT English score 18-31; or SAT Evidence-Based Reading and Writing or Critical Reading score 430-690; or TOEFL iBT Writing score 18 or above.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 106. English Composition II. 3 Credit Hours.
Advanced approaches to written academic argument, with emphasis on textual analysis and incorporation of secondary sources. Not for major or minor. Cannot be taken on credit-only option.
Requisite: ENG 105 OR ACT English score 32 or above; or SAT Evidence-Based Reading and Writing or Critical Reading score 700 or above.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 107. English Composition II: Science and Technology. 3 Credit Hours.
Advanced approaches to written academic argument, with emphasis on textual analysis and incorporating source material using readings and approaches connected to science and technology. Alternative to ENG 106. Not for major or minor. Cannot be taken on credit-only option.
Prerequisite: ENG 105 or Requisite: ACT English score 32 or above; or SAT Evidence-Based Reading and Writing or Critical Reading score 700 or above.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 201. World Literary Masterpieces I. 3 Credit Hours.
Comparative study of literary masterpieces from ancient times through the Renaissance. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 202. World Literary Masterpieces II. 3 Credit Hours.
Comparative study of literary masterpieces from the Renaissance to the present. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 205. Jewish Literature. 3 Credit Hours.
Selections from the Bible, the Talmud, the Kabbalah, medieval poetry and prose, Yiddish and Sephardic literature, and contemporary American and Israeli writers.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 208. Advanced Academic Writing for Transfer Students. 3 Credit Hours.
Review of research techniques and revision strategies. Completes the university composition requirement for those students who transfer into UM with credit for one composition course from another institution. Open only to transfer students who have received transfer credit for either English 105 or English 106. Not open to students who have taken either English 105 and/or 106 at UM.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 209. Creative Writing. 3 Credit Hours.
Analysis and writing of Short stories and poems. Cannot be taken for credit only.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 210. Literary Themes and Topics. 3 Credit Hours.
Literary analysis and practice in critical writing through the study of selected works; themes and topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 211. English Literature I. 3 Credit Hours.
Selected readings from the middle ages to the late 18th century. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 212. English Literature II. 3 Credit Hours.
Selected readings from the late 18th century to the present. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
ENG 213. American Literature I. 3 Credit Hours.
Selected American authors prior to the Civil War. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 214. American Literature II. 3 Credit Hours.
Selected American authors from the Civil War to the present. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 215. English and American Literature by Women. 3 Credit Hours.
A survey of women writers from the Middle Ages to the present; explores the female literary tradition and women's relationship to culture and society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 219. CW Beginning Mixed Genre Workshop. 3 Credit Hours.
A multi-genre workshop that will focus on developing practical issues of craft and technique presented in ENG 209 with an emphasis on form and narrative. Classes feature writing exercises and discussions of both student work and readings from contemporary fiction, poetry and a third genre (e.g., playwriting, nonfiction or screenplay).
ENG 209 may not be taken in the same term with another creative writing course (i.e., ENG 209, ENG 290, ENG 292, ENG 390, ENG 391, ENG 392, ENG 404, ENG 406 or ENG 408).
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 220. Introduction to Poetry. 3 Credit Hours.
Introduction to the forms of poetry through the analysis of representative poems.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 221. Introduction to Fiction. 3 Credit Hours.
Forms of prose fiction and the analysis of representative short stories and novels.
Pre/Corequisite: ENG 106.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 230. Advanced Professional Communication. 3 Credit Hours.
Professional writing with critical attention to complex rhetorical situations. Practice in formal and informal written communication styles.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 231. Advanced Writing for Arts and Humanities. 3 Credit Hours.
Advanced instruction in writing for specialist and non-specialist audiences on topics in the Arts and Humanities disciplines, with an emphasis on essay and multimodal forms of communication.
Prerequisite: ENG 106 or ENG 107 or ENG 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 232. Advanced Writing for People and Society. 3 Credit Hours.
Advanced instruction in writing for specialist and non-specialist audiences on topics in the People and Society disciplines, with an emphasis on essay and multimodal forms of communication.
Prerequisite: ENG 106 or ENG 107 or ENG 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 233. Advanced Writing for STEM. 3 Credit Hours.
Advanced instruction in writing for specialist and non-specialist audiences on topics in the STEM disciplines, with an emphasis on essay and multimodal forms of communication.
Prerequisite: ENG 106 or ENG 107 or ENG 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 234. Advanced Reading and Writing Workshop in American Fiction. 3 Credit Hours.
Advanced instruction and practice in the reading and writing of literary fiction, with an emphasis on the theory and practice of literary criticism.
Prerequisites: ENG 106, ENG 107, or ENG 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 235. Advanced Reading and Writing Workshop in American Poetry. 3 Credit Hours.
Advanced instruction and practice in the reading and writing of literary poetry, with an emphasis on the theory and practice of literary criticism.
Prerequisites: ENG 106, ENG 107, or ENG 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 241. Art of the Con: Con Artists, Tricksters, and Card Sharks in U.S. Literature and Culture. 3 Credit Hours.
Students will read novels, examine archival materials, review graphic novels, and watch films and TV shows about con artists and tricksters in American culture. In addition to writing essays, this course will provide students with the opportunity to learn how to annotate films in multimedia formats. Students will also learn about actual confidence games and frauds that rely upon narrative structures.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 242. Literature and Law. 3 Credit Hours.
In this course we will study literary works, from a number of different historical periods, that focus on law and legal systems as a major theme. We will examine the ways in which authors represent the nature of law, the actual workings of law, and the relationship between law and ideals of justice. We will also consider other intersections between literature and law, such as legal efforts to censor literary works on political or moral grounds, and the connection between legal and literary interpretation.
Authors to be studied will include writers such as Sophocles, Plato, Shakespeare, Balzac, Melville, Kafka, and Ginsberg.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 245. The Circle of Knowledge: Science and the Humanities. 3 Credit Hours.
Major works in the debate over the arts and sciences from the classical Greeks and the humanistic Renaissance to the Scientific Revolution, the impact of Darwin, the cognitive revolution in science, and postmodern interdisciplinarity.
Components: LEC.
Grading: CNC.
Typically Offered: Fall.
ENG 250. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 251. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 253. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 254. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 255. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 257. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 258. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 259. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 260. African-American Literature. 3 Credit Hours.
Selected readings of the eighteenth century to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 261. Literature of the Americas. 3 Credit Hours.
Selected readings from North, Central, and South American, and Caribbean literature from their origins to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 290. Beginning Fiction Workshop. 3 Credit Hours.
Frequent exercises in workshop environment, with readings in contemporary fiction. Attention to tense and points of view; reviews of grammar and punctuation. 30-40 pages of creative writing, including development and revision of one full-length short story (12-20 pages).
Prerequisite: ENG 209 or Requisite: Creative Writing Majors.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 292. Beginning Poetry Workshop. 3 Credit Hours.
Emphasis of creation and critique of new student poetry in workshop setting; continued reading in genre. Variety of styles and techniques presented, including line, image and metaphor. 12-15 new poems, plus revisions, required.
Prerequisite: ENG 209. or Requisite: Creative Writing Majors.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 301. The Study of Language. 3 Credit Hours.
Language itself as an object of study; broad linguistic issues of language types, processes of language change, and language variation. Emphasis on language in 'real world' applications such as law, folk culture, poetry, education, and computers.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 306. Advanced Composition. 3 Credit Hours.
Composition and analysis of English prose. Topics vary. May be repeated if topics are different.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 310. Literature and Culture in Classical Greece and Rome, I. 3 Credit Hours.
Major pre-classical and classical Greek writers, including Homer, Sappho, Pindar, Aeschylus, Herodotus, and Sophocles, treated by close analysis, and attention to connecting themes; Greek art and archeology in reference to specific texts.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 311. Literature and Culture in Classical Greece and Rome, II. 3 Credit Hours.
Thucydides on the Peloponnesian War; the drama of Euripides and Aristophanes; the dialogues of Plato on Socrates' trial and death; Aristotle's Poetics. Early Roman tradition; Rome and its relation to Greek culture; Livy on Roman history; Cicero, Virgil's Aeneid, Marcus Aurelius.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 312. The European Middle Ages. 3 Credit Hours.
Major pre-classical and classical Greek writers, including Homer, Sappho, Pindar, Aeschylus, Herodotus, and Sophocles, treated by close analysis, and attention to connecting themes; Greek art and archeology in reference to specific texts.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 313. The European Renaissance. 3 Credit Hours.
Major writers of the European Renaissance, such as Petrarch, Machiavelli, Castiglione, Erasmus, More, Rabelais, Montaigne, Marguerite de Navarre.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 314. The European Enlightenment. 3 Credit Hours.
Major writers of the European Enlightenment, such as Locke, Montesquieu, Vico, Hume, Voltaire, Rousseau, Diderot, Lessing, Smith, and Kant.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 315. The Classical Epic Tradition. 3 Credit Hours.
The rise and development of the Western epic tradition from Homer, Lucretius, and Virgil in the classical world, through Dante in the Middle Ages, Milton in the Renaissance, and Wordsworth and Eliot in modernity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 316. Early Celtic Literature. 3 Credit Hours.
Study in translation of literary, hagiographic, and historiographic sources, principally from Irish, Welsh, and Latin, dating from 800 to 1800, with an introduction to source languages and to Celtic cultures beginning in the prehistoric era.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 319. Shakespeare. 3 Credit Hours.
Representative comedies, histories, tragedies and romances. Not for students who have taken ENG 430 or 431; may not be taken concurrently with ENG 430 or 431.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 321. Major American Novelists. 3 Credit Hours.
Works by selected American novelists.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 323. Major British Novelists. 3 Credit Hours.
Works by selected British novelists.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 325. Major European Novelists. 3 Credit Hours.
Works by selected European novelists.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 331. Legal Writing. 3 Credit Hours.
A study of the composition of legal arguments in court opinions, legal briefs, oral arguments before the Supreme Court, and social-legal documents. Emphasis on analysis of issues, structure and style of legal writing, and the function of logic in persuasion.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 332. Writing for Civic Engagement. 3 Credit Hours.
This class will deeply and critically engage with a variety of texts while focusing on the value of our first-amendment rights, giving particular attention to the freedom of expression and freedom of the press including analysis of prison-writing exchange facilitated by the prison-education nonprofit Exchange for Change.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ENG 333. Writing the Research Paper. 3 Credit Hours.
Advanced techniques in conducting research and writing the research paper. Use of traditional library resources, on-line searches, the Internet, and other research methods. Strategies for effective presentation of research findings. Students not in the Bachelor of General Studies program need permission of instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 334. Legal Rhetoric. 3 Credit Hours.
Legal texts and the rhetoric of legal discourse.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 340. Forms of the Novel. 3 Credit Hours.
Techniques and esthetics of the novel form; emphasis on major tendencies in the evolution of long prose fiction rather than on chronological development.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 341. Modern British and American Poetry. 3 Credit Hours.
Representative poets and critics of poetry since 1900; attention to the basic principles of poetics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 342. Lyric Voices and Traditions. 3 Credit Hours.
Major figures and trends in the history of lyric poetry.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 345. Edgar Allan Poe and the U.S. Gothic. 3 Credit Hours.
In this course, we will read most of Edgar Allan Poe's short stories, his only novel, and many of his poems. We will also watch TV shows and films inspired by his gothic vision.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 350. Studies in English. 3 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 351. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 353. Writing the Research Paper. 3 Credit Hours.
Advanced techniques in conducting research and writing the research paper. Use of traditional library resources, on-line searches, the Internet, and other research methods. Strategies for effective presentation of research findings. Students not in the Bachelor of General Studies program need permission of instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 352. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 353. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 354. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 355. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 356. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 357. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 358. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 359. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 360. Comparative Literature of the Black World. 3 Credit Hours.
Oral and written Black literature in Africa, the United States, the Caribbean, and South America.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 361. Caribbean Literature. 3 Credit Hours.
Introduction to twentieth-century literature with special emphasis on the regional preoccupation with a distinctly Caribbean aesthetic.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 362. Jewish American Literature. 3 Credit Hours.
Twentieth-century Jewish writers in the United States such as Singer, Bellow, Roth, Ozick, and Malamud.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ENG 363. Sephardic Literature. 3 Credit Hours.
Judeo-Spanish culture and literature from medieval times to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 365. Literature of the Holocaust. 3 Credit Hours.
Literature relating to the Nazi genocide and its aftermath.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 366. Asian American Literature. 3 Credit Hours.
Literature by Asian immigrants and exiles in the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 368. Representations of Arabs and Jews in Israeli and Palestinian Literature and Film. 3 Credit Hours.
Literary narratives and films, by both Arabs and Jews, discussing the relationship between the portrayal of Arabs and Jews within Israeli and Palestinian society. The core question we will address concerns the writer’s emphatic response to the identity and history of the other. Other issues to be examined include the influence of the literary imagination on empathy and the role of dissent and protest in society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 372. Women Writing: Theory and Practice. 3 Credit Hours.
Women writers, emphasizing the role of gender in literary creation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 373. Literary Representations of Women. 3 Credit Hours.
The portrayal of women in literature from ancient times to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 374. Women Writers. 3 Credit Hours.
A study of women’s writings and feminist criticism from 1930 to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 375. Modern Drama. 3 Credit Hours.
The major dramatists of the modern world: Ibsen, Chekhov, Strindberg, Shaw, Pirandello, and O’Neill.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 376. Contemporary Drama. 3 Credit Hours.
The dramatists of our time: Albee, Miller, Williams, Becket, Sartre, Genet, Pinter, Osborne, Stoppard, Durenmat, and others.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 378. Animals and Humans in Literature, Art, and Philosophy. 3 Credit Hours.
Investigates the representation of animals and humans from ancient to contemporary times in literature, philosophy, and art, primarily in the West. Topics may include: the human treatment of animals (as subjects of experimentation, as companions, as food, as entertainment); evidence of animal subjectivity and morality; and continuities between humans and other animals.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 379. Modern Literature. 3 Credit Hours.
Western literature of the modern era. Emphasizing roots, traditions, practices.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 380. Contemporary Literature. 3 Credit Hours.
Fiction, drama, and poetry from World War II to the present.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 381. Modern Literature. 3 Credit Hours.
Western literature of the modern era. Emphasizing roots, traditions, practices.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 382. Studies in Medievalism: Tolkien, Martin, and Sources of Modern Fantasy. 3 Credit Hours.
Study of select works demonstrating how the Middle Ages are reimagined in post medieval fiction and film. Sources include works by the Inklings, J. R. R. Tolkien, George R. R. Martin, J. K. Rowling, Monty Python, and others, along with selections from medieval literary and documentary sources, and critical readings in medievalism.

Components: DIS.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 383. The Literature of Science Fiction. 3 Credit Hours.
A general survey of the literature of science fiction, with emphasis on writings of the twentieth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 384. The Bible as Literature. 3 Credit Hours.
Selected readings from the Bible.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 385. Myth and Literature. 3 Credit Hours.
A study of myth and ritual and their relation to literary works, from the early epic to contemporary literature.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 386. King Arthur in Literature. 3 Credit Hours.
King Arthur in literature from the fifteenth to the twentieth century in England and America.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 387. Literature and Imperialism. 3 Credit Hours.
Relationships between empire and literary expression. Works by authors such as Shakespeare, Behn, Defoe, Bronte, Conrad, Kipling, Melville, Yeats, Twain, and Forster.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 388. Literature and Popular Culture. 3 Credit Hours.
Literary forms of popular expression, considered in relation to politics, ideology, gender, or race; comparison to other forms of popular culture in print, music, or the visual media.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 389. The Sixties: Literature, History, and Culture of the 1960s. 3 Credit Hours.
1960s culture in the United States through literature, film, and oral accounts of experiences of the period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 390. Intermediate Fiction Workshop. 3 Credit Hours.
Review of craft issues presented in 290, with emphasis on development of structure and contemporary use of point of view.
Prerequisite: ENG 219 or ENG 290.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 391. CW Intermediate Mixed-Genre Workshop. 3 Credit Hours.
A multi-genre workshop that will focus on developing practical issues of craft and technique presented in ENG 219 with an emphasis on exploring point of view in fiction, poetry and nonfiction. 12-30 pages of original work will be submitted and revised in workshop. In addition, the student will submit a final craft essay (10-12 pages) on a topic relevant to student’s writing interests and challenges.
Prerequisite: ENG 219.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 392. Intermediate Poetry Workshop. 3 Credit Hours.
Review of craft issues presented in 292, integrating formal strategies with research topics.
ENG 219 or ENG 292.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 395. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 396. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 397. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 398. Directed Readings/Directed Research. 3 Credit Hours.
By arrangement with instructor. Content varies.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 401. Senior Seminar in Literature. 3 Credit Hours.
An intensive study of a literary topic or figure.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

ENG 402. Independent Study. 1 Credit Hour.
An intensive study of a literary topic or figure.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 404. Creative Writing (Prose Fiction). 3 Credit Hours.
Work toward professional standards primarily in prose fiction. Student fiction is considered in workshop sessions with comment by members of the class and instructors.
ENG 390.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 406. Creative Writing (Poetry). 3 Credit Hours.
Work toward professional standards in poetry. Student poetry is considered in workshop sessions with comment by members of the class and by instructor.
ENG 392.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 407. Creative Writing Special Topics, Advanced Workshop. 3 Credit Hours.
Advanced skills and processes essential to producing compelling fiction, poetry, or nonfiction in designated genre and form. A portfolio of writing in specified genre and form to result from broad readings and research. Prerequisite: ENG 390 or ENG 392. May not be taken in the same term with another Creative Writing course (i.e., ENG 209, ENG 219, ENG 290, ENG 292, ENG 390, ENG 391, ENG 392, ENG 404 Or ENG 406).
Components: WKS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 408. Writing Autobiography. 3 Credit Hours.
Literary style and method using student autobiography as a resource.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 410. Old English Language and Literature. 3 Credit Hours.
The grammar, syntax, and phonology of Old English language; readings in Old English poetry and prose.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 411. Old English Literature. 3 Credit Hours.
Translation and Close analysis of Beowulf or other major poetic texts of Old English literature.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 420. Chaucer. 3 Credit Hours.
Chaucer's major works.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 430. Shakespeare: The Early Plays. 3 Credit Hours.
A study of the second half of Shakespeare's canon, read in chronological sequence. The plays will be selected from those composed in the period 1600-1611. May not be taken concurrently with ENG 319.
MAY NOT BE TAKEN IN THE SAME TERM WITH ENG 319.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 431. Shakespeare: The Later Plays. 3 Credit Hours.
A study of the second half of Shakespeare's canon, read in chronological sequence. The plays will be selected from those composed in the period 1600-1611. May not be taken concurrently with ENG 319.
MAY NOT BE TAKEN IN THE SAME TERM WITH ENG 319.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 432. English Renaissance Poetry and Prose. 3 Credit Hours.
A study of such figures as Wyatt, Sidney, Spenser, Nashe, Marlowe, Shakespeare, Jonson, Donne, Bacon, Milton.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 433. English Renaissance Drama. 3 Credit Hours.
English drama during the sixteenth and seventeenth centuries.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 434. Seventeenth-Century Poetry and Prose. 3 Credit Hours.
Seventeenth-century writers and forms, including work by major and minor writers such as James I, Jonson, Donne, Bacon, Lovelace, Carew, Herrick, Andrewes, Herbert, Milton, Marvell, Clarendon, Dryden, Rochester, Behn, and Bunyan.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 435. Milton. 3 Credit Hours.
Selected readings in the poetry and prose of John Milton.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 440. Restoration and Eighteenth-Century Literature. 3 Credit Hours.
English poetry and prose, exclusive of the novel, from Dryden to Burns.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 441. 18th-Century British Novel. 3 Credit Hours.
The British novel through the late eighteenth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 442. Politics and Literature. 3 Credit Hours.
Relations between political theories and forms of literary expression.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 450. The Early Romantic Period. 3 Credit Hours.
The rise of Romanticism in England and the first generation of writers, Blake, Wordsworth, Coleridge, and their contemporaries.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 451. The Late Romantic Period. 3 Credit Hours.
The second generation of English Romantic writers: Byron, Shelley, Keats, and their contemporaries.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 452. Jane Austen and Literary Criticism. 3 Credit Hours.
Jane Austen is both an influential, critically celebrated novelist and a cult figure. In this discussion course we will read five of Austen’s six novels, employing some of the most illuminating criticism and responses to develop our understanding of Austen’s work, her place in literature, and her place in popular culture. We will also consider the assumptions and purposes of the criticism and theory we read.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 453. American Writing before 1800. 3 Credit Hours.
Crane alongside historical material.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 455. Victorian Poetry and Prose. 3 Credit Hours.
Selected English poetry and prose of the period, exclusive of the novel.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 456. Nineteenth-Century English Novel. 3 Credit Hours.
Studies in the development of the English novel from Scott to Conrad.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 460. Modern British Literature. 3 Credit Hours.
Studies in Edwardian and Modern literature. Modernist theory and techniques will be illustrated by reference to the work of selected major figures since 1900.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 461. Contemporary British Literature. 3 Credit Hours.
British literature from World War II to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 465. Irish Literature. 3 Credit Hours.
Twentieth-century Irish writers such as Yeats, Synge, Joyce, Stephens, O'Casey, Beckett, and Lavin. Consideration of Irish history, mythology, politics, and culture.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 466. Joyce. 3 Credit Hours.
The major works of James Joyce.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 467. Irish Literature. 3 Credit Hours.
Twentieth-century Irish writers such as Yeats, Synge, Joyce, Stephens, O'Casey, Beckett, and Lavin. Consideration of Irish history, mythology, politics, and culture.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 468. Early American Literature. 3 Credit Hours.
American writing before 1800. Topics such as colonialism, ethnicity, nationalism, and the ideology of individualism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 482. American Literature: 1800-1865. 3 Credit Hours.
Topics such as individualism, slavery, class and gender relations. Works by Emerson, Poe, Hawthorne, Melville, Douglass, Stowe, and others.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 483. American Literature: 1865-1915. 3 Credit Hours.
The works of such writers as Twain, Howells, James, Dickinson, Robinson, Crane, Norris, London, and Dreiser.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 484. American Literature: 1915 to 1945. 3 Credit Hours.
The works of such writers as Pound, Eliot, H.D., Stein, Frost, Stevens, e.e. cummings, Ransom, Tate, Fitzgerald, Hemingway, Djuna Barnes, Faulkner, O'Neill.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 485. American Literature: 1945 to the Present. 3 Credit Hours.
An intensive inquiry into the works of such writers as Albee, Bellow, Ferlinghetti, Ginsberg, Kerouac, Mailer, Miller, O'Connor, Plath, Welty.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 486. Early African-American Literature. 3 Credit Hours.
African-American literature from the beginnings to the Harlem Renaissance of the nineteen twenties.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 487. Modern African-American Literature. 3 Credit Hours.
African-American literature from the Harlem Renaissance to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 488. Race, Ethnicity, and Literature. 3 Credit Hours.
Topic varies by semester. The Construction of racial and ethnic difference in literature, focusing on the politics of group affiliation and identity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 489. Queer Sexualities: Literature and Theory. 3 Credit Hours.
This class will examine a wide variety of texts in order to think about how sexuality has been represented in different historical periods, from different cultural locations, and through different literary genres and forms. We will start with the contemporary coming-out narrative of modern Western lesbian and gay identity, and then look at a series of texts that challenge us to think about desire, gender, bodies, family, and language in new ways.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 490. Studies in Women and Literature. 3 Credit Hours.
Content varies by semester. Topics such as women in classical antiquity, women in the middle ages, women in the Renaissance, women in the Restoration and eighteenth century, women in the Romantic and Victorian period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 491. Russian and Soviet Classics in English. 3 Credit Hours.
Survey of Russian literature in translation from the late 19th century to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 492. Postcolonial Literature and Theory. 3 Credit Hours.
The legacy of colonialism as expressed in the works of Gordimer, Rushdie, Achebe, Walcott, Cesaire, Naipaul, Mukherjee, Crow Dog, Menchu, and others. Readings will address theoretical issues such as national formation, cultural hybridity, and globalization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 493. History of Literary Criticism. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 494. Feminist Literary Theory. 3 Credit Hours.
Examination of women's contributions to literary theory.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 495. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated parenthetically following the title in the class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 496. Independent Study. 1-3 Credit Hours.
By arrangement with instructor. Content varies by semester. May be used for single semester thesis.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 497. Senior Thesis I. 3 Credit Hours.
Partial requirement for Departmental Honors in English Literature or Creative Writing. Research and preparation for writing senior thesis or creative project. To complete thesis, student must register for ENG 498 in following semester. Student will participate in a series of 3-4 pre-arranged workshops over the course of the two semesters.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 498. Senior Thesis II. 3 Credit Hours.
Partial requirement for Departmental Honors in English Literature or Creative Writing. Writing of either a documented essay on a literary subject or project in prose fiction or poetry, to be written under the direction of a member of the faculty. Student will participate in a series of 3-4 pre-arranged workshops over the course of the two semesters.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 499. Senior Creative Writing Project. 3 Credit Hours.
Partial requirement for Departmental Honors in Creative Writing. Project, in prose fiction or poetry, to be written under the direction of a member of the creative writing faculty.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 504. Form in Poetry. 3 Credit Hours.
Poetic works as literary objects, with attention to poetic trends and the creative process.
Components: SEM.
Grading: GRD.

ENG 607. Studies in Renaissance Drama. 3 Credit Hours.
Studies in Renaissance Drama.
Components: LEC.
Grading: GRD.

ENG 608. Studies in Old English Language and Literature. 3 Credit Hours.
Content varies by semester.
Components: DIS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 609. Introduction to Digital Humanities. 3 Credit Hours.
An introduction to the theory and practice of the digital humanities from a literary and cultural studies perspective. It introduces major types of digital humanities work and central debates and concerns in the field. The course is taught in English and is open to graduate students from all humanities departments. No experience in the digital humanities or with digital tools or methods is required.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 610. Topics in Digital Humanities and Media Studies. 3 Credit Hours.
A survey of Media Studies. Students will approach a broad range of texts in the field, and outline both its historical development and present state, with a particular focus on emerging theories and practices within Media Studies and Digital Humanities in the academy. The course is taught in English and is open to graduate students from all humanities departments.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 611. Practicum in Digital Humanities. 3 Credit Hours.
Offers students the possibility to apply their learning in the field of Digital Humanities and move forward on their personal Digital Humanities research project. Students will carry out many practical exercises with programming languages and digital tools, and work towards a final digital project. This course is taught in English and is open to graduate students from all humanities departments.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 612. Studies in Neoclassical Poetry and Prose. 3 Credit Hours.
Studies in Neoclassical Poetry and Prose.
Components: LEC.
Grading: GRD.

ENG 613. Studies in Chaucer. 3 Credit Hours.
Studies in Chaucer.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 614. Studies in Middle English Language and Literature. 3 Credit Hours.
Studies in Middle English Language and Literature.
Components: SEM.
Grading: GRD.
ENG 626. Studies in Shakespeare. 3 Credit Hours.
Studies in Shakespeare.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 627. Studies in Elizabethan and Jacobean Drama. 3 Credit Hours.
Studies in Elizabethan and Jacobean Drama.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 628. Studies in 16th Century Literature. 3 Credit Hours.
A survey of predominantly non-dramatic Renaissance literature, with an emphasis on the Sixteenth Century.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 629. Studies in 17th Century Literature. 3 Credit Hours.
Studies in 17th century literature.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 630. Studies in Restoration and 18th-Century Drama. 3 Credit Hours.
Studies in Restoration and 18th Century Drama.
Components: DIS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 631. Studies in Restoration and 18th Century Literature. 3 Credit Hours.
Special topics in British Literature from 1660-1800.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 632. The Eighteenth-Century British Novel. 3 Credit Hours.
Survey of the British novel from Defoe to Austen.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 634. Studies in Romanticism. 3 Credit Hours.
A study of writers and genres between the late eighteenth and the nineteenth century, through an investigation of questions of canonicity, epistemological orientation, colonialism, and the revolutionary context.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 640. Studies in Victorian Poetry and Prose. 3 Credit Hours.
Victorian poetry and prose exclusive of the novel. Poems by Tennyson, Browning, Arnold, Rossetti, and others. Prose works by writers such as Carlyle, Newman, Mill, Ruskin, and Pater.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 645. Nineteenth-Century British Novel. 3 Credit Hours.
Survey of the British novel from Austen to Conrad.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 647. Studies in the Novel. 3 Credit Hours.
Topics in eighteenth-, nineteenth-, and twentieth-century fiction.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 650. Studies in Modern British Literature. 3 Credit Hours.
Intensive coverage of a limited topic in twentieth-century British or Irish literature.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 651. Studies in Joyce. 3 Credit Hours.
Close readings of Dubliners, A Portrait of the Artist as a Young Man, Ulysses, and Finnegans Wake; extensive review of Joyce criticism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 652. Studies in Irish Literature. 3 Credit Hours.
Intensive coverage of a selected topic in Irish Literature.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 654. Contemporary British Literature. 3 Credit Hours.
Studies in British prose, poetry, and drama since 1939.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 655. Contemporary American Poetry and Poetics. 3 Credit Hours.
Poetry and poetics from 1945 to present, focusing on Black Mountain Poetics, the New York School, the Black Arts Movement, Language Poetry and more recent writers and movements.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 656. Studies in Transatlantic Literature. 3 Credit Hours.
Literature on transatlantic themes and/or by transatlantic writers. Border crossing; ships; sailors; and other travelers; movement of people, things, and ideas in the Atlantic world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 660. Studies in American Literature: Beginnings to 1800. 3 Credit Hours.
Studies in American Literature: Beginnings to 1800.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 661. Studies in American Literature: 1800-1865. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 662. Studies in American Literature: 1865-1914. 3 Credit Hours.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 663. Studies in American Literature: 1914 to 1950. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 664. Studies in American Literature: 1950 to the present. 3 Credit Hours.
Studies in American Literature: 1950 to the present.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 665. Studies in African-American Literature. 3 Credit Hours.
Studies in African-American Literature.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 666. Caribbean Literature. 3 Credit Hours.
Caribbean literature and cultural theory; Caribbean aesthetic.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 667. Caribbean Popular Culture. 3 Credit Hours.
Special topics on the relations among politics, popular culture, and literature in the Caribbean region.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 668. Studies in Race and Diasporic Literatures. 3 Credit Hours.
Analysis of race, ethnicity, immigration, and transnationalism in literature and cultural theory.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 669. Studies in Women's Literature. 3 Credit Hours.
Topic varies by semester. Analysis of gender issues and literary production by women.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 670. The Classical Tradition and English Literature. 3 Credit Hours.
A study of classical authors such as Homer, Aeschylus, Sophocles, Euripides, Virgil, Ovid, Horace, and Catullus, who have been seminal for English writers from the Middle Ages to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 672. Comparative Studies in Renaissance and Baroque Literature. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 673. Eighteenth-Century European Literature. 3 Credit Hours.
Major literary and aesthetic works of the European Enlightenment.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 674. The Romantic Movement in Europe. 3 Credit Hours.
A study of the forces and influences of the Romantic Movement in Europe as these intersect English Romanticism.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 675. European Novel. 3 Credit Hours.
Major authors and trends in the development of the European novel as a unified literary tradition.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 677. Studies in Modern Literature. 3 Credit Hours.
Studies in Modern Literature.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 678. Studies in Contemporary Literature. 3 Credit Hours.
Studies in Contemporary Literature.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 680. History of Literary Criticism. 3 Credit Hours.
A survey of literary criticism and theory from the ancient Greeks to the early twentieth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 681. Introduction to Literary Theory. 3 Credit Hours.
Twentieth-century literary theory beginning with the New Criticism and including topics such as semiotics, hermeneutics, deconstruction, feminism, and neopragmatism.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 682. Contemporary Criticism and Theory. 3 Credit Hours.
Topics in recent criticism and theory.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 683. Literature and Psychoanalysis. 3 Credit Hours.
The interrelations between literary theory, textual analysis, and psychoanalytic theory.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 684. Theory of Narrative. 3 Credit Hours.
Analysis of narrative theories, ancient to contemporary.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 685. Feminist Theory. 3 Credit Hours.
Feminist writing and criticism from the nineteenth century to the present. Supplementary readings in anthropological, psychoanalytic, and socio-political criticism, as well as in theories of poetic tradition and the poetic process.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 686. Theories of Gender and Sexuality. 3 Credit Hours.
Queer theory and its relationship with gender studies, critical race studies, and emerging directions in the field.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 687. Studies in Literature and Culture since 1950. 3 Credit Hours.
Studies in Literature and Culture since 1950.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 688. Studies in Latino/a Literatures and Cultures. 3 Credit Hours.
Comparative and interdisciplinary approaches to art, film, music and literature. Topics may include: borderlands, postcolonial and ‘Americas’ methodologies; ethnicity, race and mestizaje; immigration and the ‘Latinization’ of the U.S.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 689. Comparative Americas Studies. 3 Credit Hours.
Comparative, interdisciplinary and transnational approaches to literature and cultures of the Americas.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 691. Graduate Practicum I: Teaching College Writing. 0 Credit Hours.
Methods and problems in teaching introductory literature courses.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ENG 692. Graduate Practicum II: Teaching College Literature. 0 Credit Hours.
Methods and problems in teaching introductory literature courses.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ENG 693. Teaching College Composition. 3 Credit Hours.
Rhetorical and literary theory related to composition instruction.
Designed primarily for Teaching Assistants in the English Department, but open to all students planning to teach writing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ENG 694. Special Topics. 3 Credit Hours.
Varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 695. Directed Readings. 1-3 Credit Hours.
Varies by semester.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 696. Readings for the Qualifying Examination. 1-3 Credit Hours.
Varies by semester.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master’s thesis enrolls for credit in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

ENG 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master’s degree after the student has enrolled for the permissible cumulative total in ENG 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 830. Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor, but for not less than a total of 12 hours. Up to 12 hours may be taken in a regular semester, but not more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.
ENG 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of ENG 740 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

ENG 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

**Epidemiology and Public Health (EPH)**

EPH 600. Introduction to the Science & Practice of Public Health. 3 Credit Hours.
This introductory course will provide students with the opportunity to explore and analyse contemporary public health issues and provide a history and a context that will allow students to better understand the field of public health, its core disciplines and their role as future public health professionals.
Requisite: Must be in either Program Plan, BSTS, EPID, EPID1, PREV, MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 601. Medical Biostatistics I. 4 Credit Hours.
Introduction to probability and statistics including descriptive statistics, tests of hypothesis, regression analysis, contingency tables, nonparametric tests, and life tables. Students gain hands-on experience in the analysis of medical data using several computer systems and at least one of the different statistical packages such as: BMDP, SAS, PSTAT, SYSTAT, and Minitab.
Requisite: Must be in either Program Plan, BSTS, EPID, EPID1, PREV, MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 602. Biostatistics II. 3 Credit Hours.
Continuation and elaboration of EPH601. Topics include design of factorial experiments, analysis of variance and variance components, multiple linear regression, and life tables.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 603. Medical Biostatistics. 3 Credit Hours.
This course is a hands-on introduction to biomedical research with a focus on collecting and analyzing patient data. Topics covered include: data security, visualization and analysis. Statistical topics include: probability, frequentist and Bayesian thinking, and both parametric and non-parametric statistical methods. Methods covered include: regression, contingency tables, and survival analysis techniques.
Prerequisite: MD/MPH Four Year/Regional Med Camp.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 604. Clinical Trials. 3 Credit Hours.
Planning, design, analysis, and data management for clinical therapeutic and prophylactic trials. Illustrations are provided through case examples.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPH 607. Interdisciplinary Health Communication. 3 Credit Hours.
Health communication is a critical tool for protecting and improving the health of people and their communities and is most effective when developed collaboratively using expertise from many disciplines. The focus of this course is the development of written, oral, and multimedia communication skills that will enable you to effectively communicate concepts and evidence-based scientific findings to diverse communities and professionals in health and other fields. Class time will largely be devoted to the development of these skills in the context of working effectively in interprofessional teams of approximately 5-6 students. Working collaboratively, students will develop teamwork skills and an awareness for the diversity of expertise that underpins effective interprofessional communication teams.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 608. Professional Development. 2 Credit Hours.
This 2-credit seminar will be dedicated to providing students with opportunities to gain experiences with professional skills such as job interviewing, public speaking, preparing budgets, grant proposal writing, and working with community organizations. The course will be interactive, where I will talk about skills that are important in the public health workforce and students will then practice the skills in pairs or groups. There will be no exams or quizzes; rather, students will be graded on public speaking, performance in a mock job interview, ability to write a mock grant application, developing a grant proposal budget, preparation of a CV/resume, and disseminating research findings to community stakeholders. Class will meet every Tuesday from 1 to 3:30 in CRB 989. Students should come ready to participate and to give constructive feedback to their peers. Each topic will be covered across 2 (and sometimes 3) class sessions, so that everyone has sufficient time to practice their skills and receive feedback.
Components: LEC.
Grading: SUS.
Typically Offered: Fall & Spring.
EPH 611. Mindfulness in Public Health and Medicine. 3 Credit Hours.
The stress of modern life can adversely impact physical and mental health functioning which may be ameliorated by the practice of mindfulness. Mindfulness is a mental state achieved by focusing one’s awareness on the present moment, while calmly acknowledging and accepting one’s feelings, thoughts, and bodily sensations. This practice is derived from Buddhist traditions more than 2,500 years old. In recent decades these practices have been adopted for use in United States and elsewhere and evidence is growing that these practices can reduce psychological symptomatology (e.g., symptoms of depression and anxiety), enhance resiliency in response to stressors, enhanced pain coping ability, and enhanced attentional regulation, among other benefits. The first half of this course will be devoted to the completion of an 8-week Mindfulness-Based Stress Reduction Course (MBSR) that will involve in-class activities and daily at-home mindfulness practice assignments. Students will maintain a journal documenting their 'first-person' encounter with the practice of mindfulness. The second half of the course will be organized around a lecture format with weekly brief quizzes. Anonymous questionnaire data will be collected before, during and after completion of the MBSR course. These data will be used by student teams to evaluate the impact of MBSR on multiple outcomes. Groups will prepare a written report and present their findings to the class at the end of the semester.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 612. Global Health. 3 Credit Hours.
This seminar examines current global public health issues, governance and decision-making challenges for the 21st Century across developing, transitioning, and developed countries. Topics of discussion include new actors for world health in the era of globalization; linking human development, poverty and health inequities; social, cultural and ethical considerations for health planning; role of industry, trade and public health; evidence based research for improved global health initiatives; foreign policy and health security challenges associated with emergence and re-emergence of infectious diseases and public and private partnerships in global health. Open only to EPH majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 613. Emerging Challenges in Global Health Systems. 2-3 Credit Hours.
Health systems around the world must respond to an evolving landscape of health risk and disease burden that is increasingly dominated by complex, chronic illness. Contrary to what is often espoused, chronic and non-communicable diseases affect both poor and rich. Yet, access to health services is highly inequitable creating immense divides and equity imperatives that have largely been ignored in global health. This course examines how global and national health systems - particularly in low and middle-income countries – can better face the changing burden of disease with a focus on equity and universal coverage.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 614. Global Outbreak. 3 Credit Hours.
This seminar examines current global public health issues and provides an overview of global outbreak investigations and disease surveillance. Participating in epidemiological/outbreak investigations in international settings provides unique opportunities to learn about health challenges in different ecologic, cultural and resource limited settings. This seminar will also allow students to gather insight into public health surveillance and understand the utility of the ongoing systematic collection, analysis and interpretation of data for use in planning and evaluation of public health intervention programs.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPH 616. Global Health and Global Justice. 3 Credit Hours.
Global health has emerged as a field distinct from older visions of international health, by focusing on macro-level problems caused by globalization whose origin and solution must transcend national boundaries. Yet global health has also challenged ethics to develop new accounts of justice in this changing world. This course will analyze global health from the lens of ethics. The course will introduce core theories of public health ethics (e.g. utilitarianism, statism and cosmopolitanism) to make sense of the rise of global justice as a distinct field of ethical inquiry. Armed with this conceptual foundation, we will then examine some of the central problems of global health, as well as proposed solutions to those problems. Such skills in argumentation will be increasingly critical for future public health leaders, yet too few public health students are exposed to ethical analysis. By applying ethical frameworks to analyze global health problems, students will gain critical skills in how to integrate distinct forms of knowledge, how to develop cogent normative arguments, and how to articulate and defend an account of fair decision-making and just policies in global health.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 617. Disease Prevention and Health Promotion. 3 Credit Hours.
This course will introduce students to the science of prevention and health promotion. More specifically, through didactic presentations, group discussions, article readings and critiques, and a term project, this course will focus on providing students with an overview of: the top preventable causes of disease in the U.S., the etiology of disease (with a focus on the top preventable causes of disease in the U.S.) across the lifespan, the role of prevention theories in the development of preventive interventions, and the role of methodology in prevention science. The course will also provide an overview of efficacious/effective preventive interventions, including (but not limited to): family community, and school level interventions. Examples from the fields of obesity, drug use, smoking, and HIV will be used to illustrate the course learning objectives detailed below.
Requisite: Must be in either Program Plan, BSTS, EPID, EPID1, PREV, MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
EPH 620. Health Education and Behavior. 3 Credit Hours.
Educational processes with special emphasis on the social and cultural determinants of health behavior, health education as a process of social change, and community based health education organizations. Open only to EPH majors.
Requisite: Must be in either Program Plan, BSTS, EPID, EPID1, PREV, MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 621. Fundamentals of Epidemiology. 3 Credit Hours.
Principles and methods of epidemiology. Descriptive epidemiology, environmental and other risk factors, detection of outbreaks, basic demography, and etiologic studies.
Requisite: Must be in either Program Plan, BSTS, EPID, EPID1, PREV, MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 622. Obesity and Public Health. 3 Credit Hours.
Nearly two thirds of the United States is now considered overweight or obese and the associated medical costs are placing an unsustainable burden on our health care system. However, the issue of overweight/obesity extends beyond behavioral choices and medical costs. This course will take a deeper look at the complex interactions between our environment, behaviors, and policies, and how they jointly contribute to the obesity epidemic. This course will provide an interdisciplinary perspective of the biological, psychosocial, ecological, and economic determinants that contribute to obesity and the resulting pathways to chronic disease and disability. Finally, current evidence-based public health programs currently will be discussed to stimulate critical thinking necessary to implement effective obesity prevention and control programs.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 623. Determinants of Health and Health Disparities Across the Life Course. 3 Credit Hours.
This course builds on the concepts and methods examined in EPH 614, delving further into risk and protective processes related to health outcomes across the life course, from the prenatal period to older adulthood. Class readings and discussions will examine examples of common risk pathways contributing to various diseases, including pathways hypothesized to be related to health inequities and disparities, such as: economic and educational disadvantage, stress, sedentary behavior and poor behavioral regulation, social isolation. Common protective pathways that promote health are also reviewed, such as: positive parenting and family relations, and social support.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPH 625. Research Ethics in Public Health. 3 Credit Hours.
The course identifies and analyzes ethical issues in epidemiologic practice and research. Issues include data acquisition and management, confidentiality, valid consent, advocacy, public policy, subgroup stigma, research sponsorship, conflicts of interest, communication of risk, and international and intercultural difference.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 626. Health Equity. 3 Credit Hours.
The goal of this course is to cover health disparities from multiple perspectives and levels of analysis. We know that the same ethnic, social, and cultural groups are characterized by disparities in many different health outcomes—including ‘voluntary’ behaviors such as crime, violence, sexual risk taking, and substance abuse as well as ‘involutionary’ outcomes such as diabetes, cancer and heart disease. These disparities are rooted in the same structure of how groups relate to each other, in the physical built environment, in the quality of education provided to children, and in access to quality health care. We will cover all of these (and other) determinants in this course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 631. Public Health Administration. 3 Credit Hours.
An overview of the historical background, philosophy, and purpose of public health. Relationship between government, law, and public health. Organization, management, and intergovernmental relationships of public health agencies in the United States at the federal, state, and local level. Basic principles of management, decision making, and prioritizing in public health are discussed. Overview of programs and services provided by public health organizations with emphasis on current public health issues and problems are also included. Open only to EPH majors.
Requisite: Must be in either Program Plan, BSTS, EPID, EPID1, PREV, MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 632. U.S. Health Systems. 3 Credit Hours.
This course provides an introduction to the multiple systems that define, describe, and shape the delivery of health care in the United States. Using case studies and presentations of major issues, this course will give the learner an appreciation of the dilemma confronting policy makers, providers, and patients: how to balance cost, quality, and access.
Requisite: Must be in either Program Plan, BSTS, EPID, EPID1, PREV, MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 633. Policy & Management of the Health Effects of Climate. 3 Credit Hours.
Using a health-centered approach, the course will provide critical review of the existing policies aimed at managing the health effects of climate/weather, identify potential gaps in the policies needed to improve and protect health effects of short- and long-term trends of climate and weather and extreme weather. Students will be exposed to real-world preparation and adaptation strategies to manage health effects of climate, and develop understanding of and skills in the cost-benefit analysis of evidence-based policies. As a part of the course, students will develop and evaluate (evidence-based) policies to manage a selected health outcome with respect to a selected (in)direct climate/weather related condition(s).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
EPH 639. Ecology and Control of Vector-Borne Diseases. 3 Credit Hours.
The course will provide students with an overview of the epidemiology of major vector-borne diseases in the U.S. (e.g., Lyme Disease, West Nile Virus) and globally (e.g., malaria, dengue, filariasis, leishmaniasis, and other arboviruses), field and lab-based methodologies for vector studies to incriminate vector species and assess transmission dynamics, vector and disease surveillance, and 'cutting-edge' vector control technology. A major focus will be on the ecology of vectors in their local environments and how transmission dynamics are affected by changes in land use, urbanization, and climate. Students will learn about new WHO-approved strategies for integrated Vector Management (IVM) and how they are applicable for the prevention and control of all vector-borne diseases.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 640. Urban Environment and Public Health. 3 Credit Hours.
Where we live, where we work, where we go, and how we get there may all impact our behaviors and ultimately our health and well-being. This course examines the urban environment - in particular, those aspects of urban/suburban/semi-rural environments created by humans. This includes how homes, neighborhoods, cities and regions impact public health challenges such as obesity, chronic disease, mental health, infectious disease, and injuries. This course will teach students to translate scientific findings to design healthy communities, and develop interventions to promote urban health. Students will learn how to map neighborhood characteristics such as food outlets, parks and walkability, and to develop recommendations for policymakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 641. Environmental Health. 3 Credit Hours.
Interdisciplinary scope of environmental health problems. Development of a practical, dynamic model for integrating fundamental concepts from a variety of environmental disciplines. Open only to EPH majors.
Requisite: Must be in either Program Plan, BSTS, EPID, EPID1, PREV, MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 643. Introduction to Occupational Health. 3 Credit Hours.
This course offers a general introduction to major concepts and issues in occupational health and safety from local to global, addressing fundamental topics and current controversies. The course covers core topics that prepare students to more fully understand and address occupational health issues: toxicology, exposure assessment, occupational epidemiology, risk assessment/risk management, prevention of workplace injury and disease, health promotion of adults and protection of worker populations from environmental hazards.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 644. Fundamentals of Program Evaluation. 3 Credit Hours.
Fundamentals of Program Evaluation was developed as a survey course directed specifically at providing an overview of the broad area of program evaluation. At its base, program evaluation is the investigator of a program's characteristics and merits. In context of health care, the purpose of program evaluation is to provide information in the effectiveness of programs or interventions so as to optimize the outcomes, efficiency and quality of health care. Evaluation of a program is an essential part of the successful implementation and conduct of any health care project or intervention, and should ideally be designed along with the project itself. Program evaluation activities can use a wide range of methodologies (e.g., qualitative, quantitative), analyze different aspects of a program (e.g., structure, activities, organization), and have a large number of intended outcomes (e.g. achievement or program's goals objectives, extent of program impact, program cost).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 646. Climate and Health. 3 Credit Hours.
There is an intricate relationship between climate and health. Climate changes directly affect health and well-being but also mediate the effects of socio-physical and biochemical changes in the environment on health and well-being. This course will help students unravel this intricate relationship between climate and health. A range of topics will be covered including: a) the etiology of disease with respect to climate change, b) shifting burden of disease and disability with respect to changing climate and climate-mediated changes in the environment, and c) application areas of climate-health linkages: unintentional injuries and climate change, vector-borne disease and climate change, heat-related mortality, disease of metabolic syndrome and climate change, cardiopulmonary, allergy and immunology disease due to bioaerosols and air pollution.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 647. Community Based Participatory Research. 3 Credit Hours.
Community-based participatory research (CBPR) is methodology, increasingly popular in public health and other disciplines, which invites community collaboration throughout the research process from conceptualization of study focus to dissemination of findings. This course will provide an opportunity for medical and graduate students to better understand the process by which community members and academic researchers work collectively to address health disparities and influence social change.
Prerequisite: EPH 621 and EPH 617 or EPH 620. And Requisite: Must be in a Plan of BSTS or EPID or PREV or MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
EPH 648. Climate, Cool Cities, Healthy Communities. 3 Credit Hours.

In the current era of climate change and rapid urbanization, an understanding of the impacts of urban design, planning and policies on climate and human health in urban and suburban areas is critical. Drawing on diverse disciplinary perspectives, including public health, architecture, planning, and public policy and government and non-profit sectors, the course provides students with the ability to comprehend, synthesize, communicate, and apply evidence-based urban design principles in relation to current and future challenges of climate and health. Additionally, in accordance with the adage, “Think globally, act locally,” students will have the opportunity to interact with local experts who will share their knowledge of national and international policies and programs in the area of urban design, climate and health – while applying their learning to measure current challenges and inform policies of climate and health in the urban/suburban localities of the South Florida region.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 650. Health Economics for Evaluation and Policy. 3 Credit Hours.

This course centers on a discussion of the criteria used to evaluate the allocation of resources and analyze the behavior of two of the principal actors-consumers and firms. The principles of microeconomics are presented in the context of health care systems and markets. Numerous real-world issues and case studies are used to demonstrate economic decision-making techniques, especially for health care organizations and consumers.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 651. Research Methods. 3 Credit Hours.

Purpose of the course is to provide students with a sound understanding of the fundamental concepts and methods for conducting public health research. After a brief introduction to the philosophy of science, the major emphasis in the early portion of the course is on research conceptualization, design and measurement, with a particular focus on the logic of minimizing rival alternative explanations of finding for experimental and quasi-experimental studies.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 652. Health Policy. 3 Credit Hours.

Part I will examine seven models encompassing different perspectives on public health: philosophy, political theory and politics, law, economic, science and information culture and religion, and organization and management, including how they relate and their relevance in formulating, implementing, and evaluating public policy. Part II will examine the policy making process including how issues reach the government agenda, how laws are formulated, and how the process affects substance. Part III describes the core elements of policy analysis including: problem definition; background; political, economic, and social landscape; development of policy options; and recommendation. It will also include discussions of how to find and analyze documents and data as well as discuss the financing of health care.

Components: LEC.
Grading: GRD.
Typically Offered: Summer.

EPH 653. Leading Change in Public Health. 3 Credit Hours.

This new transition course at the end of the second year will prepare students for their more advanced experiences in community and public health in the third and fourth years. The objective of this course is to provide students with an opportunity develop essential skills in leading change in public health while linking their academic work in epidemiology and public health for real world application in public health practice. Students will receive didactic presentations on topics such as leading change, interest based negotiation, and leading from the middle as well as lectures on the health disparities and the social determinants of health. These lectures will be integrated with interactive discussions and hands-on small group exercises to explore how practitioners can translate public health and community knowledge into sustainable solutions. Leading Change in Public Health Moving From Talk to Action will provide students with 21st century leadership skills that prepare them to tackle public health issues in our society from the most simple to very complex. Participants will be challenged to think differently on many levels and prepare them to be agents of change for future generations. Requisite: Academic Plan: BSTS, EPID, EPID1, PREV, MDRP.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 655. Health Economics and Financing. 3 Credit Hours.

Health economics studies economic principles, methods of decision making, and the allocation of resources within health care systems and markets. This course will provide students with an understanding of the flow of funds and services throughout the U.S. health care system and how the structure and financing of health care impacts population health status. We will use numerous real-world issues and case studies to demonstrate economic decision-making techniques, especially for health care organizations and consumers (patients, providers). Students are not expected to have familiarity with economic concepts and principles prior to taking this course. In addition, students are not expected to use calculus in this course. However, students are expected to have an understanding of basic algebra, and graphical analysis will be used often throughout the class.

Prerequisite: MD/MPH Four Year/Regional Med Camp.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 656. Qualitative Research Methods. 3 Credit Hours.

The purpose of this course is to introduce students to the philosophical underpinnings of qualitative research and its practical application to the field of public health. Students will 1) develop an understanding of the significance and use of qualitative research methods in public health; 2) differentiate between numerous qualitative research approaches, including phenomenology, grounded theory, and ethnography; 3) describe different methods for collecting qualitative data, including interviews and focus groups; 4) develop skills in the collection, analysis and reporting of qualitative data; and 5) develop a basic understanding of how qualitative and quantitative research may be combined in mixed methodological approaches. The course will include a combination of lectures, presentations of applied qualitative research studies by guest experts, student presentations, and assignments designed to foster students’ skills in formulating appropriate qualitative research questions, designing qualitative studies, collecting and analyzing qualitative data, and summarizing findings for publication. More specific details on the topics to be covered in this course are provided below.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.
EPH 657. Toxicology: Climate and Health. 3 Credit Hours.
The course will train students in developing an understanding of and skills in assessing the mechanism of the effects of climate, weather and climate mediated effects of environment on biophysiological responses. For example, changes in level of bronchoconstriction due to change in temperature is a direct effect of weather, and increase in allergies and asthma due to increase in bioaerosols in response to increase in precipitation and temperature is an indirect effect. Students will be exposed to general principles of toxicology and toxicological experimental design, including in-vitro and in-vivo experiments, designs needed to understand and investigate the health effects of climate, weather and climate mediated environmental conditions. The course objectives are to (1) understand general principles of toxicology, (2) understand biophysical responses to climate, weather and weather anomalies, (3) develop an understanding of and skills in in-vitro and in-vivo experimental designs to assess toxicity of climate, and (4) characterize and quantify biophysical responses in response to the trends and anomalies of weather and climate.
Prerequisite: BIL 150 or BMB 401 or CHM 111 or CHM 112 or CHM 201 or CHM 202.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 658. Analysis of the Health Effects of Climate. 3 Credit Hours.
The course will train students in analytical skills needed to quantify the health risks associated with climate, weather and weather anomalies (or extreme weather) adjusting for confounding factors and time-space hierarchical structures. The course will include quantification of time-space lagged exposure estimation, spatial, temporal and spatiotemporal analyses, exposure and risk uncertainty analyses.
Prerequisite: EPH 727.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 659. Public Health Seminar I. 1 Credit Hour.
The EPH 659-02 Public Health Seminar Series is designed to explore contemporary issues, problems, and controversies in public health through an interdisciplinary perspective. This course is designed to help you develop and sharpen the skills which are the primary building blocks of a successful career in consulting (as well as many other areas of business), namely (1) analysis, (2) presentation, and (3) teamwork. This class will help you to develop rigorous skills in each of these areas through (i) discussion of the principles underlying best practices and (ii) application and feedback in a series of exercises and cases.
Prerequisite: MD/MPH Four Year/Regional Med Camp.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 660. Public Health Seminar II. 2 Credit Hours.
The Public Health Seminar is designed to explore contemporary issues, problems, and controversies in public health through an interdisciplinary perspective. Upon the completion of the course students will be able to: 1) understand key public health problems, their distribution, and prevention strategies, 2) examine the complex tapestry of social, economic, political, and environmental factors that affect public health outcomes, 3) understand the complexities inherent in improving health locally and on a global scale, 4) examine the major determinants of, and responses to, poverty and health, 5) analyze public health disparities through a social justice perspective, 6) understand and analyze the roles and agendas of major stakeholders in local, state, national, and global public health, 7) understand the link between global and local health issues, 8) discuss selected interdisciplinary, cross-cutting issues in public health, 9) explain the interrelationships among the five core areas of public health. This course is only open to MD/MPH students.
Requisite: MD/MPH Four Year/Regional Med Camp and EPH 659.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

EPH 661. Public Health Nutrition. 3 Credit Hours.
This course provides a dynamic, interactive approach to public health designed to prepare students in basic policy, epidemiology, and health education related to nutrition. Recognizing the multiple social, cultural, environmental, and physiological factors leading to nutritional disease. The course includes experts from a variety of disciplines. Public health nutrition addresses issues germane to the public’s health by elucidating their extent, determinants and consequences, and the policies and programs to address them. Open only to EPH majors.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 662. Child Policy. 3 Credit Hours.
This course will focus on U.S. federal child policy. This course has been designed to provide a comprehensive, multi-disciplinary (e.g., public health, public policy and social work), and cross-sector perspective (e.g., government, private and philanthropic sectors) on child and family policies. Sessions will cover varying approaches and include presentations from a wide range of experts.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
EPH 663. Hospital Health Care Services and Access: An Interdisciplinary Inquiry. 3 Credit Hours.
Hospitals play a vital role in the health of the communities they serve. Yet, their accessibility and availability to those communities is often unequal, and significant racial and ethnic disparities exist in the utilization of hospital services, quality of care provided, health outcomes and patient experiences. Attention has been increasingly focused on creating sustainable solutions to attenuating these disparities. Initial steps include the examination of community and hospital data to identify inequalities in disease distribution, as well as utilization of care. Such data provides evidence to define critical areas of concern and provides a starting point for engagement with the community. The real work begins when hospitals work with community partners to engage in authentic and collaborative partnerships to address the needs and the health of the local citizens. This process, known as Community-Based Participatory Research (CBPR), can harness resources and build capacity to address health issues relevant to the community. This course will discuss the change that hospitals can achieve when they facilitate community-academic partnerships that bring together knowledge, expertise and interest of community partners with the research and training of clinicians and academic researchers.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 671. Maternal and Child Health. 3 Credit Hours.
Preventative and therapeutic concepts pertinent to the reduction of morbidity and mortality among mothers and their children.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 679. Learning Collaboratory. 3 Credit Hours.
This course is the first semester of a 4-semester program titled the 'Public Health Learning Collaboratory'. The mission of this Department of Public Health Sciences (DPHS) program is to transform the learning experience of master of public health students by providing opportunities to develop core skills necessary for effective public health practice, while completing their capstone or thesis in the community. Organized in small groups around 4 thematic areas, students learn about substantive areas (e.g., prevention with children and families, access to health care, urban health, health in Latin America), while building competencies to successfully develop and implement projects in collaboration with community health organizations (e.g., community engagement, needs and capacity assessments, researching evidence based practices, teamwork and problem-solving skills, project planning, development and implementation skills).

Components: LEC.
Grading: SUS.
Typically Offered: Fall.

EPH 680. Practical Field Experience. 3 Credit Hours.
Practical field experience requirement for MPH students. Students are placed in health-related settings (local, national, and international) to work on projects of mutual interest to both the field organization and the student.

Components: FLD.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPH 681. Capstone Experience Project. 3 Credit Hours.
The capstone project is intended to build upon EPH 680 field work and will provide students with an opportunity to apply public health academic theory and acquired skills to community health problems.

Components: LEC.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPH 682. Generalist Capstone Project. 2 Credit Hours.
The Capstone Experience Project Special is intended to build upon EPH 680 field-work (or equivalent course) and will provide students with an opportunity to apply public health academic theory and acquired skills to community health problems. As part of the project, the student will generate a 10-15 page written report using evidence-based practice (EBP) that clearly addresses a public health problem. Capstone Projects may be: • Continued collaborations with the same community partner as the field experience addressing public health needs identified at the site; or • Collaborations with a different community partner but with similar population or public health topic from the field experience; or • Collaborations with a different community partner and with different population and/or public health topic from the field experience.

Components: FLD.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPH 684. Special Topics. 1-3 Credit Hours.
This course is designed to allow the listing of special topics with the Department of Epidemiology and Public Health and cross-list topics with other departments' offerings.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPH 691. Transdisciplinary Environmental Health Seminar. 1 Credit Hour.
Environmental health is concerned with how both the natural and built environment affect human health by looking at the impact of physical, chemical and biological factors external to humans. Individuals working in environmental health fields are concerned with preventing diseases or other illnesses by assessing and controlling environmental factors that pose a threat to human health whether it involves air quality, natural disasters, radiation, water quality, UV exposure, indoor air pollutants, climate change, healthy communities and work environments, or the effects of toxic substances. The purpose of this transdisciplinary environmental health seminar course is to promote critical thinking and expose public health students to a broad range of environmental and occupational research, practice, and policy issues. The student will attend a weekly seminar that is presented by an invited speaker in the field of environmental and occupational health sciences. Meetings will include critical review of topics from the literature, student presentations, and presentations by UM faculty and outside speakers related to environmental health sciences. The content of the seminar will advance public health students’ analytic assessment, communication, leadership, and systems thinking skills. Enrolled students will prepare and co-lead discussions following the speaker presentation about current environmental and occupational health practice or policy related research; a national, state, or local program or issue. Further, the seminar will provide networking opportunities for prospective employers, colleagues, students and faculty.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.
EPH 698. MSPH Thesis Proposal. 3 Credit Hours.
This is an independent study course. Students in the MSPH track may register for this course with an approval from the Capstone Manager and the Faculty Advisor. The purpose of this course is to develop the MSPH Thesis Proposal, form a thesis committee with at least two members: 1st reader (an expert in the field) and 2nd reader (the faculty advisor) and obtain proposal approval from the committee members. This MHPS Thesis Proposal is required and must be approved prior to start data collection and analysis.
Components: THE.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPH 699. MSPH Thesis. 3 Credit Hours.
This is an independent study course. Students in the MSPH track may register for this course with an approval from the Capstone Manager and faculty advisor. The purpose of this course is to collect and analyze the data per thesis proposal, to prepare and write the thesis and deliver an oral presentation.
Components: LEC.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPH 700. Professional Development Seminar. 1 Credit Hour.
This course covers fundamental topic areas in professional development for PhD students in the public health sciences. Topic areas include: presenting research at conferences, writing manuscripts for publication, preparing the dissertation, the PhD comprehensive exams, effective teaching and mentoring, and getting a job in academia. Through interactive workshops, in-class exercises, brief presentations and assignments, students will have an opportunity to practice and strengthen necessary skills, including effective communication (oral and written), conflict resolution, and developing collaborations.
Requisite: Academic Program Plan:BSTS, EPID, PREV.
Components: LEC.
Grading: SUS.
Typically Offered: Fall & Spring.

EPH 701. Innovations in Prevention Science Methodology. 1 Credit Hour.
This course is a part of series “Innovations in Prevention Science Methodology” which covers specialized topics in prevention science that have been identified as innovating the field. This course section addresses cross-sectional and longitudinal data analyses related to finite mixture models. In general, we will cover various types of mixture distributions. Topics in finite mixture modeling include latent class (profile) analysis (with continuous and categorical variables), univariate and multivariate growth mixture analysis (with continuous and categorical variables), and model evaluations for these analytic methods. Mplus statistical software will be used. Students are expected to attend all classes and to complete all assignments.
Prerequisite: PSY 633 with a B or Higher. and Requisite: Plan BSTS or EPID or EPID1 or PREV or MDRP.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 703. Advanced Statistical Methods I. 4 Credit Hours.
Advanced statistical methods used in analyzing data from epidemiologic investigations. Topics include Mantel-Haenszel chi-square, interaction, standardization of rates, incidence density, logistics regression, and other special topics.
Prerequisite: EPH 601.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 705. Advanced Statistical Methods II. 3 Credit Hours.
Continuation and elaboration of EPH 703. Advanced statistical methods used in analyzing data from epidemiologic investigations. Topics include Kappa statistics, life tables, survival analyses, logistic regression, Poisson regression, log linear models, clusters, meta-analysis, and other special topics.
Prerequisite: EPH 703.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 711. Cancer Epidemiology. 3 Credit Hours.
This course covers the basic epidemiology of cancer. Major sites and exposures are stressed, highlighting descriptive, etiologic and preventive aspects. A major course project and one final exam are included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 717. Integrating Behavior Health Theories and Models. 3 Credit Hours.
This course is designed to provide an opportunity for synthesis and integration of knowledge regarding the phenomenon of health behavior. The focus is on critical examination of theoretical and empirical work in the area of health behavior from a public health perspective.
Prerequisite: EPH 617 or EPH 620.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 720. Cardiovascular Disease Epidemiology and Prevention. 3 Credit Hours.
Course aims to teach and train MPH students in the epidemiology and prevention of cardiovascular and cerebrovascular diseases which are the leading causes of morbidity and mortality among the adult U.S. population. Essential knowledge for those working in the area of public health is emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 722. Infectious Diseases Epidemiology and Control. 3 Credit Hours.
This course emphasizes surveillance, investigation, and control of infectious diseases that constitute important national and global health problems. Each class will use one or more specific infectious diseases to illustrate core principles of infectious diseases epidemiology. A major organizing principle of the course will be how to determine whether a disease should be controlled, eliminated, or eradicated, and how those determinations can change over time.
Prerequisite: EPH 621.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
EPH 723. Epidemiology and Public Health Aspects of Diabetes Mellitus. 3 Credit Hours.
This course presents an overview of the epidemiology and public health impact of an important chronic disease, diabetes mellitus (DM). Topics include the classification and descriptive epidemiology of DM and associated health complications, disease screening, evaluation of risk factors, methodological issues associated with DM research, DM among special populations, and the public health impact of DM in the U.S.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 724. Molecular and Genetic Epidemiology. 3 Credit Hours.
This course covers the theoretical concepts and practical issues involved in conducting molecular and genetic epidemiology research involving human populations. Specifically, students will learn about: molecular and genetic technology; evaluating disease-associated genes, and their interaction with environmental factors; clinical research; and data mining techniques. Ultimately, students will develop a framework for study design, statistical power and sample consideration, assay evaluation and validation, and data interpretation using molecular and genetic epidemiology tools in their research.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 727. Climate, Environment, and Health: Data Integration and Management. 3 Credit Hours.
The course will introduce: a) different research designs needed to understand the linkages between climate/weather and health, and b) sources and types of data needed for different research designs. The course will train students in: a) the integration and management of weather/climate, environment and health data sets that have different spatiotemporal scales, b) assessment of errors and uncertainty in the collocation of these data sets, and c) visualization, interpretation and presentation of these data sets, including covariance structure in these data sets.
Prerequisite: EPH 601.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 728. Social Epidemiology. 3 Credit Hours.
This course provides an overview and understanding of key concepts and theoretical frameworks relevant to the study of social determinants of population health and health disparities. The interdisciplinary course will cover methodological considerations and methods relevant to the field of social epidemiology, such as life-course epidemiology and multilevel determinants of health. A major emphasis will be on biological pathways by which social factors “get under the skin”, and the role of social policies in improving population health. The course will involve lectures, presentation of epidemiologic research by faculty researchers, class discussions, and class projects.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 731. Developing, Adapting and Evaluating Interventions. 3 Credit Hours.
This course builds on the substantive and methodological competencies acquired in preceding prevention science courses by preparing students to develop and adapt preventive interventions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 732. Introduction to Dissemination and Implementation Science. 3 Credit Hours.
This course provides an introduction to the theory and practice of Dissemination and Implementation (D&I) Sciences. Topics include the importance and language of D&I science; designs, methods and measures; differences and similarities across clinical, public health, and policy settings; selected tools for D&I research and practice; and future issues. The focus of this course will be on implementing prevention programs, strategies and policies that are ready for application, testing and scale up, rather than developing interventions from scratch.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 740. Basic Pathology and Patho-physiology. 3 Credit Hours.
The course emphasizes basic patho-physiological mechanisms and diseases of particular interest to students of public health. Students obtain an understanding of basic pathological processes, nomenclature of pathological findings, and common natural and unnatural diseases affecting various body systems. Observations of autopsies and the gross pathology of selected organs are also incorporated in the course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

EPH 751. Survival Analysis in Clinical Trials. 3 Credit Hours.
Statistical methods for analysis and interpretation of survival data arising from clinical trials. Topics include survival curves, estimation of sample size, survival curves, proportional-hazard models, time dependent variables, and prognostic indices.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 752. Advanced Research Methods. 3 Credit Hours.
This is a survey course in advanced quantitative methods for research and evaluation in prevention science. The course will provide students with an introduction to research methodology, matching research questions to specific methods, applying methods to real world data, and presenting the application of a method to a broader audience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
EPH 772. Design & Implementation of Epidemiologic Studies. 3 Credit Hours.
This is the second epidemiology course after completion of the Fundamentals of Epidemiology. This course will assume knowledge of basic study designs and the basic principles of internal validity (random error, systematic error, and confounding). The concepts, principles, and methods of epidemiologic study designs (beyond basic designs) and the practical issues in the design and conduct of epidemiologic studies will be discussed. The emphasis will also include the application of the epidemiologic methods in the forms of journal article critique of epidemiologic study designs, study design project and/or research proposal development. The course has two intended audiences. PhD students or early career researchers and advanced master’s students who wish to add depth to their understanding of some of the fundamental issues in epidemiology. Doctoral students in epidemiology may take this course to fulfill one of the ‘research method courses’ for the PhD in Epidemiology degree. Students who are not in the PhD in Epidemiology program and who wish to take this course require instructor’s evaluations (pre-test) and permission. Prerequisite: EPH 621 and must have already taken or be currently enrolled in EPH 601.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 774. Epidemiologic Methods and Reasonings. 3 Credit Hours.
This course will discuss epidemiological methods (e.g., study designs) and concepts (e.g., confounding, bias, interaction, random error) required to evaluate the totality of evidence in etiologic research. It will also discuss theoretical models of etiologic research and techniques for quantifying the magnitude of disease or other health indicators as well as the magnitude of study errors specific to study designs. Prerequisite: EPH 601 and 621. And pre or corequisite: EPH 602.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

EPH 776. Methods in Epidemiology. 3 Credit Hours.
This course will discuss principles of epidemiologic methods. Introduction to causal inference and advanced epidemiologic topics will be covered. This course will be theoretical and quantitative and will include, when applicable, illustrative data examples using various statistical softwares. Prerequisite: EPH 601 and 621. And pre or corequisite: EPH 602.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

EPH 782. Advanced Individual Study. 1-3 Credit Hours.
Individual work on a special project under faculty guidance.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

EPH 825. Continuous Registration--Master’s Study. 1 Credit Hour.
To establish residence for MPH students who are preparing for project presentation. Credit not granted. Regarded as full time residence.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPH 830. Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the PhD. The student will enroll for credit as determined by his/her advisor.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPH 840. Doctoral Dissertation- Post Candidacy. 1-12 Credit Hours.
Required of all candidates for the PhD. The student will enroll for credit as determined by his/her advisor.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

EPH 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the PhD, after the student has been enrolled for the permissible cumulative total in appropriate doctoral research.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Estate Planning (EPL)

EPL 901. Elderlaw. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/ LLM EP.
Components: LEC.
Grading: GRD.

EPL 903. Ethical and Practical Aspects of Estate Planning. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/ LLM EP.
Components: LEC.
Grading: GRD.

EPL 904. Fiduciary Administration. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/ LLM EP.
Components: LEC.
Grading: GRD.

EPL 905. Asset Protection. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/ LLM EP.
Components: LEC.
Grading: GRD.

EPL 908. Marital Deduction Planning. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/ LLM EP.
Components: LEC.
Grading: GRD.

EPL 909. INTERNATIONAL ESTATE PLANNING. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/ LLM EP.
Components: LEC.
Grading: GRD.

EPL 910. Federal Income Tax, Trusts, and Estates. 3 Credit Hours.
Requisite: Plan of Estate Planning or JD/ LLM EP.
Components: LEC.
Grading: GRD.

EPL 911. Corporate Tax. 2 Credit Hours.
Requisite: Plan of Estate Planning or JD/ LLM EP.
Components: LEC.
Grading: GRD.

EPL 912. Charitable Gifts and Foundations. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/ LLM EP.
Components: LEC.
Grading: GRD.
EPL 913. Tax Procedure. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 915. Chapter 14. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 920. Valuation. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 924. Planning for the Family Business. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 925. Drafting for Estate Planners. 1-2 Credit Hours.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 926. Generation-Skipping Transfer Tax. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 928. INTRODUCTION TO ESTATE PLANNING AND PROBATE. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 929. Life Insurance. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 930. DISTRIBUTIONS FROM QUALIFIED PLANS. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 931. Investment Planning. 1 Credit Hour.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 936. Partnership Tax. 3 Credit Hours.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 939. Income Tax for Estate Planning. 2 Credit Hours.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

EPL 946. Federal Wealth Transfer Tax. 3 Credit Hours.
Requisite: Plan of Estate Planning or JD/LLM EP.
Components: LEC.
Grading: GRD.

Executive and Special Programs (ESP)

ESP 500. Review Module. 0 Credit Hours.
A non-credit review session to provide students with the skills necessary to prepare for the successful completion of the common body of knowledge courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ESP 560. Fundamentals of Marketing. 3 Credit Hours.
Marketing problems experienced by top executives are examined. Fundamental problem-solving concepts are developed. Students consider problems of consumer needs, product planning, promotion, distribution, and pricing. The discovery and application of marketing management skills are developed through the use of cases and a major planning project.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

Finance Business Administration (FIN)

FIN 300. Fundamentals of Finance for Non-Finance Majors. 3 Credit Hours.
This course provides an overview of modern finance for non-business majors. Topics include: how financial markets work, understanding financial pages in newspapers and the Internet, how stock and bond prices are determined, how investment portfolios are structured, concepts of risk and return, how companies manage their cash and investments and international finance. Not for credit for business students.
Requisite: Non Business Majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 302. Fundamentals of Finance. 3 Credit Hours.
Introduction to the basic tools and concepts in finance. This is the core class in finance for our undergraduate program. Topics include the financial framework of a business entity, taxes, the time value of money, capital market theory, financial risk measures, and capital budgeting.
Note: to be eligible for the major in finance, a student must earn a grade of B or higher in this class (a grade of B- does not qualify).
Prerequisite: MAS 201 or MAS 311 or MTH 224 or IEN 311 or IEN 310 or PSY 292 and ACC 211 or ACC 221 or Pre/Corequisite ACC 223.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
FIN 303. Intermediate Financial Management. 3 Credit Hours.
This course provides an overview of financial decision-making by corporations. Building on topics covered in the introductory finance classes, this course develops the foundations of optimal financial policy and applies these principles to corporate financial decision-making including capital structure, capital budgeting, dividend policy, leasing, securities issuance and the role of investment banks, and mergers and acquisitions. Note: a student must have obtained a B or higher in FIN302 to major in Finance. Earning an A in this class or any other class or classes does not eliminate that requirement.
Prerequisite: FIN 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 308. Intermediate Financial Management for Entrepreneurs. 3 Credit Hours.
This course is primarily for students majoring in entrepreneurship. It provides an overview of financial decision-making by entrepreneurs. Building on topics covered in the introductory finance classes, this course develops the foundations of optimal financial policy and applies these principles to entrepreneurial financial decision-making involved with such things as capital structure, working capital budgeting, leasing, hedging and risk management, securities issuance and the role of investment banks, and mergers and acquisitions. Note: Students cannot take both FIN 308 and FIN 303, so this class is not open to students who have taken FIN 303.
Prerequisite: FIN 302.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FIN 320. Investment and Security Markets. 3 Credit Hours.
This course introduces students to both practical and theoretical aspects of investment with an emphasis on financial markets. Topics include valuation of financial securities such as stocks, bonds and options; modern portfolio theory; the process and institutional characteristics of investing. Note that this course does not address the details of individual security valuation and selection, i.e., this course is not about stock picking or about how to get rich by investing in the markets. Instead, this course attempts to help you develop a lasting conceptual framework in which to view the investment process and to analyze future ideas and changes in investment environment. This class is essential to any student considering a finance concentration. Note: A student must have obtained a B or higher in FIN302 to major in Finance. Earning an A in this class or any other class or classes does not eliminate this requirement.
Prerequisite: FIN 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 330. International Finance. 3 Credit Hours.
This course applies the principles of finance to international business decisions. Topics include the analysis of foreign exchange rates, balance of payments, characteristics and use of international financial institutions and instruments, the analysis and management of financial risk in the international environment, and financing multinational corporations. Note: a student must have a B or higher in FIN 302 to major in International Finance and Marketing (or Finance). Earning an A in this class or any other class or classes does not eliminate this requirement.
Prerequisite: FIN 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 340. Real Estate Principles. 3 Credit Hours.
This course provides an introduction to basic principles and fundamental practices in the real estate industry. Students learn how to apply the principles of finance to the real estate industry. Topics include common institutional aspects, brokerage, contracting, financing, ownership, management, valuation, appraisal, and investment analysis.
Prerequisites: FIN 302 or FIN 300.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 344. Real Estate Investment Analysis. 3 Credit Hours.
This course introduces the theoretical concepts and analytical techniques used to make a decision to purchase an ownership interest in a commercial real estate project. There is heavy reliance on Excel applications. Each student will complete a written evaluation and investment analysis of an existing or proposed commercial real estate project in Miami-Dade, Broward or Monroe County.
Prerequisite: FIN 302 and FIN 320 or FIN 303 OR Co-requisite: FIN 320 or FIN 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FIN 347. Introduction to ARGUS. 1 Credit Hour.
ARGUS software is used extensively in the development, financing and management of commercial real estate, especially in the office, industrial and retail sectors. The introduction to ARGUS class exposes the student to the basic concepts and terminology in the commercial real estate market and to the typical inflows and outflows an owner who invests in real estate faces over the life of the investment.
Prerequisite: FIN 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 348. Advanced ARGUS. 1 Credit Hour.
At the end of the Advanced ARGUS class the student will be able to assess the viability of detailed rent and operating expense assumptions, make decisions about the impact of financing on investor returns and critically evaluate the investment potential of leveraged office and retail property.
Prerequisites: FIN 302 and FIN 347.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
FIN 355. Smif Fund Analyst I. 1 Credit Hour.
The course is designed to introduce the student to the investment management process, including valuation of publicly traded equities. The course is one credit and meets once a week each semester; students must commit to and enroll in the follow-up class. Admission to the course is through a competitive application process.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 356. Smif Fund Analyst II. 1 Credit Hour.
This course is designed to introduce the student to the investment management process, including valuation of publicly traded equities. The course is one credit and meets once a week each semester. Enrollment in the course is limited.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 404. Applications in Corporate Finance. 3 Credit Hours.
An application of the concepts and tools of corporate finance. Primary emphasis on analyzing real-world cases dealing with liquidity issues, capital budgeting, firm valuation, advanced corporate financing, hedging with options and futures, corporate financial strategy, and other current issues in corporate finance.
Prerequisites: FIN 302, FIN 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FIN 405. Financial Modeling. 3 Credit Hours.
This course takes a variety of finance topics, which have been covered in the prerequisite courses, and implements them using practical spreadsheet models. Students will use the internet and financial databases to obtain input data for their models. Students will use Visual Basic for Applications (VBA) and design functions and macros to enhance their models. Students must have a solid working knowledge of Windows and Excel, as well as a good understanding of the material taught in the prerequisite finance classes. Students must have a mobile (lap-top) computer with the capability to run Windows-based software.
Prerequisites: FIN 302, FIN 303, FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 408. Introduction to Mergers and Acquisitions. 3 Credit Hours.
This course introduces students to the world of mergers and acquisitions (M&A). More specifically, the course is designed to develop an understanding of (i) the economic, financial, and strategic issues involved in the acquisition of a public or private company; (ii) the analytical tools used to value an acquisition target; and (iii) academic research that reports results from large samples of M&A deals. Students will apply their understanding of these issues by analyzing various actual and potential acquisitions.
Prerequisites: FIN 302, FIN 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FIN 409. Introduction to Private Equity and Venture Capital. 3 Credit Hours.
In this course, you will learn about the private equity (PE) industry, composed of both venture capital (VC) and buyouts (BO). The focus is on how PE investors evaluate, select, value, and structure deals. This course has several goals. First, the course will deepen your current understanding of corporate finance by applying key concepts and tools to a new and increasingly important industry. Second, the course seeks to introduce you to the institutions of the PE industry. This involves examining, for example, how funds are raised and how term sheets are structured. Finally, a goal is to understand the valuation process used by PE investors.
Prerequisites: FIN 302 and FIN 303 or FIN 308.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FIN 410. Financial Institutions and Markets. 3 Credit Hours.
This course examines financial institutions, such as banks (commercial, investment, mortgage, savings), credit unions, insurance companies, pension funds, and mutual funds and the money markets in which they operate, and focuses on why they exist and how to manage them. Topics include financial intermediation and transmission, monetary theory and policy, Federal Reserve management of the money supply, velocity of money, fiscal theory and policy, interest rates, and immunization.
Prerequisites: FIN 302 and FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 411. Commercial Bank Management. 3 Credit Hours.
This course introduces the theory and practice of asset-liability management by large publicly traded commercial banks, including the fundamental principles of structuring loans into balance sheets. A major objective of this class is to provide students sufficient background to enter the credit department in the executive development program of major money center bank.
Prerequisites: FIN 302 and FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 412. Financial Planning and Wealth Management. 3 Credit Hours.
This course examines the investment and financial issues arising from financial planning and personal wealth management activities. It covers various topics required for the construction of a comprehensive financial plan including the identification of client financial status and goals, asset allocation, securities trading, managed funds, tax planning, risk management and insurance, and estate planning.
Prerequisites: FIN 302 and FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
FIN 415. Trading and Markets. 3 Credit Hours.
This course provides an introduction to the functioning of financial markets and the fast changing field of market microstructure. On the equity trading side, the course covers major exchanges such as NYSE Euronext and Nasdaq OMX, and new players such as BATS and Direct Edge/ISE. Students also learn about dark pools, options and futures exchanges, electronic bond trading platforms, and currency trading systems. In addition, the course provides a summary of different market structures, the role of market participants, different order types, trading strategies, and trading externalities. The course draws on theories and tools from economics and behavioral finance, current institutional practices and market regulation.
Prerequisites: FIN 302 and FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FIN 418. Fundamentals of Fintech. 3 Credit Hours.
This course introduces students to Fintech, the emerging world of applications, concepts, developments, business models, and companies at the interface of Finance and Technology. The course format is a mixture of introductory topical lectures, class discussions, and interactive seminar-style student presentations. It covers the main Fintech areas like Peer-to-Peer-Lending, Crowdfunding, Mobile Payment Systems, Cryptocurrencies and ICOs, Robo Advising, Insurtech (insurance technology), and RegTech (regulatory technology). A special emphasis is given to how and by whom these emerging technologies are currently used, and how they may potentially change the landscape of finance and financial services in the future.
Prerequisites: FIN 302 and FIN 303 or FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 421. Investment Portfolio Management. 3 Credit Hours.
This course provides an introduction to quantitative active management of equity portfolios. The course begins with a discussion on the sources of stock market inefficiencies. The course then covers the five key dimensions of the quantitative portfolio management process: forecasting relative stock returns using quantitative signals, measuring portfolio risk relative to a benchmark, portfolio optimization, controlling transaction costs, and measuring and evaluating portfolio returns. The course focuses on practical application and relies heavily on experiential learning and Excel spreadsheets.
Prerequisites: FIN 302 and FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 422. Speculative Markets and Derivatives. 3 Credit Hours.
This course is an introduction to derivative securities, and examines the nature of derivatives and applications of such instruments in investment and corporate settings. The emphasis is on derivatives of equity-based securities (such as stocks and stock indices), but coverage includes derivatives of debt-based securities (such as Treasury and Eurodollar securities). Topics include options, futures, forwards, and other derivatives, such as options on futures, foreign currency derivatives, swaps, exotic options, real options, as well as financial engineering using derivatives.
Prerequisites: FIN 302, FIN 303, FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 423. Introduction to Alternative Investment. 3 Credit Hours.
The objective of this course is to provide an introduction to alternative financial instruments and how capital market participants utilize them. The course covers a large set of investment choices, with a specific focus on fixed income and alternative instruments, such as commodities, interest rates and currency. While covering each instrument, the course also examines with how macro-economic, technological, labor market, taxes and regulatory issues affect specific investment decisions.
Prerequisites: FIN 302 and FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FIN 425. Business and Security Valuation. 3 Credit Hours.
Applications of finance theory to the problem of valuing public and non-public companies. Multiplier models, discounted cash flow analysis, and the strengths and weaknesses of traditional security valuation methods are addressed in depth. Financial spreadsheet programs and data sources are an integral part of the course.
Prerequisites: FIN 302 and FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 427. Fixed Income Markets and Analysis. 3 Credit Hours.
This course examines financial markets that trade fixed income securities. A fixed income security is based primarily on a debt contract, such as a bond, debenture, note or Treasury bill. Topics include the valuation, computation of return, and computation of various measures of risk for fixed income securities s, as well as the analysis of the term structure of interest rates and various option features commonly included in debt contracts and fixed income securities. Students must have a solid working knowledge of Excel to take this class.
Prerequisites: FIN 302 and FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 431. International Financial Management. 3 Credit Hours.
This is an advanced class in international finance from the viewpoint of multi-national organizations, including corporations, investment banks, and commercial banks. Topics include managing the various sources of risk, such as economic, political, and currency; cash receivables, inventory, and payables management; financing; transfer pricing; taxation; currency netting; capital budgeting; and hedging.
Prerequisites: FIN 302, FIN 320, FIN 330.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 433. Case Studies for Financial Professionals. 1 Credit Hour.
This one-credit course explores key concepts at the interface of Corporate Finance and Accounting, using carefully selected case studies. Each case study is designed to serve as the basis for in-depth class discussion and to reinforce fundamental concepts with numerical examples. The course relies on interactive, discussion-based learning that engages students in critical analysis, while developing confidence to apply their knowledge to specific real world examples.
Prerequisites: FIN 303 and FIN 320 and ACC 311 and ACC 312 and Requisite: BSAF degree.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
FIN 444. Real Estate Investment Analysis. 3 Credit Hours.
This course introduces the theoretical concepts and analytical techniques used to make a decision to purchase an ownership interest in a commercial real estate project. There is heavy reliance on Excel applications and the use of the Argus database that is a standard resource in the commercial real estate market. Each student will complete a written evaluation and investment analysis of an existing or proposed commercial real estate project in Miami-Dade, Broward or Monroe County.
Prerequisites: FIN 302 and FIN 303 or FIN 320.
Components: LEC.
Typically Offered: Offered by Announcement Only.
Grading: GRD.
FIN 445. Real Estate Finance. 3 Credit Hours.
This course introduces the theoretical concepts and analytical techniques used to make a decision to finance the purchase or development of a commercial real estate project. There is heavy reliance on Excel applications and the use of the Argus database that is a standard resource in the commercial real estate market. Students are also encouraged to use their semester projects to apply for one of the numerous case competitions.
Prerequisite: FIN 344.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
FIN 446. Real Estate Market Analysis. 3 Credit Hours.
This course is an introduction to the fundamental concepts of real estate market analysis. The major topics to be covered include site analysis, economic-demographic, supply and demand analyses. This course shall also include a global perspective of real estate market analysis. This shall be accomplished by means of conducting portions of a market analysis for foreign cities of your individual choosing.
Requisite: Pre/Corequisite: FIN 344.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FIN 447. Behavioral Finance. 3 Credit Hours.
The goal of this course is to expose you to selected topics from the upcoming field of behavioral finance. This will include a discussion of prospect theory and different types of behavioral biases such as representativeness, disposition effect, overconfidence, narrow framing, familiarity bias, and the house-money effect. In addition, the course will cover the implications of behavioral biases for asset pricing, corporate finance, and the overall macro-economy. Simple experiments will be conducted in class to illustrate some key behavioral concepts.
Prerequisites: FIN 302, FIN 303, FIN 320.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
FIN 457. Smif Fund Portfolio of Instructor. 1 Credit Hour.
The course is designed to introduce the student to the investment management process, including the tools used to compose a diversified portfolio that covers each of the major industrial sectors. The course is one credit and meets once a week each semester. Enrollment in the course is limited.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
FIN 458. Smif Fund Portfolio Manager II. 1 Credit Hour.
The course is designed to introduce the student to the investment management process, including the management of an investment organization and the evaluation of portfolio performance. The course is one credit and meets once a week. Enrollment in the course is limited.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
FIN 459. Smif Fund Portfolio of Instructor. 1 Credit Hour.
The course is designed to introduce the student to the investment management process, including the tools used to compose a diversified portfolio that covers each of the major industrial sectors. The course is one credit and meets once a week each semester. Enrollment in the course is limited.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
FIN 458. Smif Fund Portfolio Manager II. 1 Credit Hour.
The course is designed to introduce the student to the investment management process, including the management of an investment organization and the evaluation of portfolio performance. The course is one credit and meets once a week. Enrollment in the course is limited.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FIN 496. Directed Studies in Finance. 1-3 Credit Hours.
Supervised readings, individual research project, or independent investigation of selected non?STEM related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FIN 497. Directed Studies in Finance. 1-3 Credit Hours.
Supervised readings, individual research project or independent investigation of selected STEM?related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FIN 498. Special Topics in Finance. 3 Credit Hours.
Special topics in selected non?STEM areas of Finance. Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FIN 499. Special Topics in Finance. 3 Credit Hours.
Special topics in selected STEM areas of Finance. Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FIN 555. Finance Departmental Honors Research Project. 3 Credit Hours.
Research project to fulfill requirements for Departmental Honors in Finance.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.
FIN 602. Fundamentals of Finance. 3 Credit Hours.
This is an integrated business course that focuses on the fundamental principles needed for better financial decision-making. First, the course will expose students to the fundamental concepts of investment theory and financial markets. The second part of the course provides students with the tools necessary to answer a key question facing corporate managers: What are good investments? Beyond these traditional topics in finance, the course exposes students to the emerging field of behavioral finance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
FIN 603. Advanced Corporate Finance. 3 Credit Hours.
Applications in corporate finance. This class builds on the core MBA courses in our executive MBA program, especially Fundamentals of Finance (Finance 602). Topics include working capital management, financial planning, basic option valuation, agency theory, capital structure management, mergers and acquisitions, liabilities management and leasing. Note: required for Finance concentration.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 613. Intermediate Corporate Finance and Investments. 4 Credit Hours.
This course builds on the fundamentals of financial accounting and finance and provides an in-depth exploration of investments and corporate finance. Topics such as capital structure, the cost of capital, advanced capital budgeting, security valuation, and portfolio theory are covered.
Prerequisite: BUS 640.
Components: DIL.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 614. International Finance, Valuation, and Financial Statement Analysis. 4 Credit Hours.
This course uses an interdisciplinary approach combining international and corporate finance to build knowledge of international investment and valuation. This course teaches global financial decision making through student collaboration and real-world applications.
Prerequisite: FIN 613.
Components: DIL.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 615. Financial Decision Making. 4 Credit Hours.
This course explores decision-making theory to better understand why investors, money managers, and corporate managers make suboptimal economic and financial decisions. Specifically, the course focuses on the psychological, social, and cultural determinants of suboptimal investor and managerial behavior. A variety of behavioral "biases" are examined as well as the impact of those biases on security prices, corporate policies, and aggregate economic outcomes. In addition, the course investigates whether the mistakes generate market inefficiencies that can potentially be exploited.
Prerequisite: FIN 614.
Components: DIL.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 616. Advanced Corporate Finance. 4 Credit Hours.
This course introduces students to advanced corporate finance topics, and builds directly on established concepts from prerequisite finance courses. The course integrates conceptual and applied case methodologies to develop practical solutions to real-world problems. Topics typically covered include working capital management, financial planning, optionality in decision making and hedging, agency theory, long-term debt management, leasing, and leveraged buy outs.
Prerequisite: FIN 614.
Components: DIL.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 617. Derivatives and Financial Modeling. 4 Credit Hours.
This course explores modelling applications for corporate finance and investments topics. Modelling financial problems in Excel is the standard way to approach in-depth analysis and understanding of complex problems. This course will look at several different types of models and financial applications. In addition, the class will explore financial options, futures, swaps, and financial engineering. It includes descriptive information, theory and applications. The goal of the descriptive information is for students to gain familiarity with the instruments and the markets where they trade. Theory is covered to understand the instruments, their pricing and behavior under different market conditions. Finally, applications of the use of derivative securities will be investigated in equity, fixed income, foreign currency, commodity, and credit markets.
Prerequisite: FIN 614.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 618. Quantitative Finance and Microstructure. 4 Credit Hours.
This course provides a cross-disciplinary coverage of statistics and market microstructure. Students will learn how to use Excel to organize and present data sets to visualize the general characteristics, and how to identify and understand the use of specific measures of location and dispersion. We will cover the most important discrete and continuous probability distributions, and apply and understand the Central Limit Theorem. Furthermore, we will calculate, use and interpret confidence intervals and hypothesis testing about the population mean and population variance. On the microstructure part, we will learn about the market structures used to trade securities, analyze the basic types of orders available to investors, and evaluate the risks and benefits of high-frequency trading and dark pools in financial settings.
Prerequisite: BUS 640.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 619. Advanced Portfolio Management and Alternative Investments. 4 Credit Hours.
The objective of this course is to provide an advanced theoretical and practical understanding of various investment choices. The first half focuses on stock portfolios. It covers the five key dimensions of the quantitative portfolio management process: using signals ("factors") to forecast returns; measuring risk; portfolio optimization; controlling costs; and performance evaluation. The second half focuses on fixed income and alternative instruments, such as currencies, commodities, credit derivatives, and asset-backed securities. While covering each instrument, the course also addresses how macroeconomic, technological, labor market, taxation, and regulatory issues affect specific investment decisions.
Prerequisite: FIN 613.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FIN 620. Investment Analysis. 3 Credit Hours.
This course deals with theory and application of investment analysis. Topics include general stock trading, portfolio and risk-return theory, models of stock valuation, portfolio diversification, market efficiency, options and futures, bond valuation and bond portfolio strategy, general commodity investing, and personal financial planning.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
FIN 621. Portfolio Construction and Management. 3 Credit Hours.
The evolution of portfolio theory and practice and its role in modern investment management. Individual constraint models within the general capital market theory are included as well as empirical evidence, theoretical discussion, and practical exercises.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 622. Financial Options and Futures. 3 Credit Hours.
Study of the theoretical development of models for pricing contingent claims in the field of finance. Application of theoretical results to the hedging of current and future assets and liabilities and to speculative strategies for the risk-averse, profit-maximizing entity are included.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 630. International Finance. 3 Credit Hours.
The financing of international trade and capital placements. Restrictions on capital retrieval and problems of international liquidity related to the U.S. and non-U.S. firms is discussed as well as current developments in international banking, theory, and policy. Cases involving foreign capital commitments and transactions, especially Latin America are also included.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 631. International Financial Management. 3 Credit Hours.
Sources and uses of long and short term capital for international business applications and foreign currency markets. Financial decisions associated with international cash and capital budgeting, capital repatriation and taxation strategies, capital exposure and coverage, and multinational firm financial strategies are discussed. Lectures and cases are included.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 641. Valuation and Financial Decision Making. 2 Credit Hours.
Basic financial valuation. This is one of the core classes in finance for our regular MBA program. Topics include the financial environment; the time value of money; capital market efficiency; basic security valuation; risk, return and asset pricing; cost of capital; and an introduction to capital budgeting.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 642. The Financial Environment. 2 Credit Hours.
A continuation of FIN641, with an emphasis on important issues faced by corporate financial managers responsible for financing and investment decisions. Core topics include capital structure, payout policy, advanced capital budgeting, basic derivative and real option valuation, leasing, and investment banking. Specialized topics, such as behavioral finance, international finance, mergers and acquisitions, and risk management may also be introduced as the course progresses.
Prerequisite: FIN 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 643. Quantitative Finance and Market Microstructure. 2 Credit Hours.
This course aims to give simple yet useful quantitative finance tools, and a broad overview of the functioning of modern financial markets, to students wishing to broaden their knowledge of finance. The first part of the course exposes students to the microstructure of financial markets. We will learn about different trading mechanisms encountered in financial markets today, how information affects prices and liquidity, what algorithms practitioners use to implement their trading strategies, and some basic models of how dealers react to information. The second part of the course introduces students to statistical models commonly encountered in quantitative finance. We’ll have a hands-on approach, and learn how to estimate the models with real financial data using Excel and the statistical software R.
Prerequisite: FIN 642 or FIN 602.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FIN 644. Real Estate Investment and Appraisal. 2 Credit Hours.
This course will introduce students to the theoretical concepts and analytical techniques used to make a decision to purchase an ownership interest in a commercial real estate project. There is heavy reliance on Excel applications and the use of the ARGUS software that is a standard resource in the commercial real estate market.
Prerequisite: FIN 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FIN 645. Real Estate Finance. 2-3 Credit Hours.
This course will introduce students to the theoretical concepts and analytical techniques used to make a decision to loan money for the purchase or development of a commercial real estate project. Students will complete projects that require them to evaluate the financing and investment potential of a small commercial site of their choice and to evaluate a lease vs. buy decision using a plot of land in Miami-Dade County from the perspective of a publicly-traded corporation.
Prerequisite: FIN 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FIN 646. Real Estate Market Analysis. 2 Credit Hours.
The course aims to provide students with an understanding of the functioning of markets for urban space, and their role in real estate investment decisions. The course first treats urban-economic processes involved in the determination of prices for space, in a theoretical and empirical context. This economic understanding is then put to use on several case studies of market- and site- analysis for various land uses.
Prerequisite: FIN 641.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
FIN 647. Introduction to ARGUS. 1 Credit Hour.
ARGUS software is used extensively in the development, financing and management of commercial real estate, especially in the office, industrial and retail sectors. The introduction to ARGUS class exposes the student to the basic concepts and terminology in the commercial real estate market and to the typical inflows and outflows an owner who invests in real estate faces over the life of the investment.
Requisite: Limited to Accelerated Real Estate MBA Students.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 648. Advanced ARGUS. 1 Credit Hour.
At the end of the Advanced ARGUS class the student will be able to assess the viability of detailed rent and operating expense assumptions, make decisions about the impact of financing on investor returns and critically evaluate the investment potential of leveraged office and retail property.
Prerequisite: FIN 647.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FIN 649. Non-Profit Consulting Project. 1-4 Credit Hours.
This course is designed for students completing the Accelerated MBA in Real Estate. The course allows graduate students in real estate to synthesize and apply the concepts learned in real estate coursework to a real-life problem where the results will benefit a local organization in the non-profit sector. The supervising professor guides the students' efforts but the course topics and resources are driven by client needs and students skills.
Requisite: Limited to Accelerated Real Estate MBA Students.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FIN 650. Financial Investment. 2 Credit Hours.
This course builds on FIN 641 and FIN 642 to provide a more advanced knowledge of the field of investments, particularly important statistical concepts for investments, portfolio construction, asset pricing, and behavioral biases affecting financial decisions. The course is quantitative and introduces students to Excel as a tool to form and rebalance portfolios.
Prerequisite: FIN 642 or FIN 602.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 651. Advanced Topics in Investments. 2 Credit Hours.
The course provides an introduction to quantitative active management of equity portfolios. The course begins with a discussion of market (in)efficiency, then covers the five key dimensions of the quantitative portfolio management process: using signals (“factors”) to forecast returns; measuring risk; portfolio optimization; controlling costs; and performance evaluation.
Prerequisite: FIN 650.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 652. Fixed Income Securities. 2 Credit Hours.
This course builds on FIN641/642 (or BUS640) and FIN650 and covers trading and valuation of a wide variety of fixed income securities including corporate, municipal, and Treasury pure discount bonds, coupon bonds, floating rate notes, bond embedded options, mortgages, interest rate swaps, currency swaps, equity swaps, and interest rate options. The course focuses on analytic tools used in bond portfolio management and interest rate risk management. These tools include spot rates, forward rates, credit spreads, duration and convexity, yield curve construction, and term structure models.
Prerequisite: FIN 642 or FIN 602 or FIN 650.
Components: LEC.
Grading: GRD.

FIN 653. Alternative Investments. 2 Credit Hours.
The course provides an advanced theoretical and practical understanding of various alternative investment strategies, with a specific focus on currency markets, derivatives (e.g., interest rate and credit derivatives), venture capital and private equity investments, and real estate investments. The course also examines how macro-economic, technological, labor market, taxes and regulatory issues affect specific investment decisions. In addition, the students learn about valuation, investment and risk management strategies of sophisticated investors and recent chronology of events that affect market participants.
Prerequisites: FIN 641 and FIN 642 and FIN 650.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FIN 654. Impact Investing. 2 Credit Hours.
The course provides an introduction to the emerging field of impact investing, where traditional investment objectives are modified to include social and environmental considerations. The first part of the course exposes students to portfolio theory, asset pricing, and the analytics tools of portfolio management. Subsequently, using these traditional tools of financial investments, students learn to identify and evaluate the impact of social factors on portfolio decisions, financial risk, asset prices, and performance evaluation. Students also learn about the psychology of impact investing that influences the tradeoffs between financial and social returns.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FIN 655. Smif Fund Analyst I. 1 Credit Hour.
This is the entry level class for the Category 5 Student Managed Investment Fund (Cat 5 SMIF) track. The course is designed to introduce the student to the investment management process, including valuation of publicly traded equities. The course is one credit and meets once a week each semester; students must commit to and enroll in the follow-up class. Admission to the course is through a competitive application process.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
FIN 656. Smif Fund Analyst II. 1 Credit Hour.
This is the second course in the Cat 5 SMIF track. In this course students will continue to learn about security analysis and improve their skills. These students will have some responsibility for overseeing students in the Analyst I class.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 657. Smif Fund Portfolio Manager I. 1 Credit Hour.
This is the third course in the Cat 5 SMIF track. This course broadens the focus of the students to the overall portfolio. Students will learn more about strategy, asset allocation, portfolio optimization, and related topics to managing an investment portfolio.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 658. Smif Fund Manager II. 1 Credit Hour.
This is the fourth course in the Cat 5 SMIF track. Members of this course will function as the senior officers of the fund. They will oversee students in the Portfolio Manager I class. They will be responsible for all administrative functions, performance measurement, and all reporting to the Academic Advisors, Advisory Board, and the University Treasurer. They may also be responsible to presentations to groups inside and outside the University for the purpose of publicizing the Cat 5 SMIF.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 660. International Finance. 2 Credit Hours.
This course builds on FIN 641 and 642, and introduces students to the concepts that are important in today's dramatically changing global economy. The course covers the international monetary system; the interrelationships between national economies through the balance of payments; the economic relationships that determine a currency's value relative to other currencies and influence international trade and cross-border investment; the foreign exchange market structure and instruments; and the international debt and equity markets.
Prerequisite: FIN 642 or FIN 602 or BUS 630.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 661. Advanced Topics in International Finance. 2 Credit Hours.
This course builds directly on FIN 660 using a variety of techniques, including group projects and class discussion. A number of special topics are covered such as financing the multinational firm, currency swaps, international portfolio investment, international asset pricing, multinational capital budgeting and cross-border investment, and measuring and managing the many additional risk exposures faced by a multinational enterprise.
Prerequisite: FIN 660.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 668. Wealth Management and Financial Planning. 1-4 Credit Hours.
This course examines the investment and financial issues arising from financial planning and personal wealth management activities. It covers various topics required for the construction of a comprehensive financial plan including the identification of client financial status and goals, asset allocation, securities trading, managed funds, tax planning, risk management and insurance, and estate planning.
Prerequisite: FIN 641 and FIN 642.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 670. Corporate Finance. 2 Credit Hours.
The course serves as a complement and supplement to 641 and 642 and builds up to more advanced topics in corporate finance. The course will quickly review some basic concepts like net present value and build up to special topics like real options, valuation, mergers and acquisitions and corporate governance. The main objective of the class is that students understand basic corporate finance concepts as well as develop a good understanding of how complicated firm level decisions are made.
Prerequisite: FIN 642 or FIN 602 or BUS 630.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 671. Advanced Topics in Corporate Finance. 2 Credit Hours.
This course builds directly on FIN 670 and on the MBA core classes, FIN 641 and FIN 642, and relies mainly on the analysis and vigorous class discussion of a variety of real-world cases. The cases cover a broad range of topics, including short-and long-term financing, capital budgeting decisions, corporate valuation, hedging with options and futures, dividend policy and share repurchases, corporate financial strategy, IPOs, environmental considerations, and other current issues in corporate finance.
Prerequisite: FIN 670.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 672. Sustainable Finance. 2 Credit Hours.
Businesses of today are increasingly dealing with the risks and opportunities of environmental, social, and governance (ESG) issues due to the scarcity of resources, labor relations, and climate change. This course couples established and emerging corporate theory to study these sustainability challenges. It covers diverse aspects of sustainable finance, including ESG measurement, socially responsible and impact investing. After establishing the benchmarks in understanding the core corporate finance principles, the course quickly moves on to understanding responsible investing from the shareholder perspective and how that affects firm performance and how that can be then used as a tool to establish a comparative advantage in the product market. The course also explores the meaning and importance of sustainable business practices that respect and adhere to ethical social responsibility standards through several case studies and simple econometric analyses.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
FIN 674. Financial Analysis of Mergers and Acquisitions. 2 Credit Hours.
This course is designed to develop an understanding of (1) the economic and financial issues involved in the acquisition of a company; (2) the analytical valuation tools used to evaluate an acquisition; and (3) potential and empirical stock market reaction to an acquisition. Students are then asked to apply their understanding of the issues to analyze cases involving various aspects of acquisition.
Prerequisite: FIN 670.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FIN 676. Financial Decision Making. 2 Credit Hours.
The goal of this course is to use decision-making theory to better understand why investors, money managers, and corporate managers often make suboptimal economic and financial decisions. The second part of the course focuses on the psychological, social, and cultural determinants of suboptimal investor and managerial behavior. In addition, the course examines the impact of those mistakes for financial markets (e.g., price bubbles) and the overall economy. The course should be useful to individuals who work in a corporate setting or at a money management firm (mutual funds, hedge funds, pension funds, etc.).
Prerequisite: FIN 650. and FIN 670.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 679. Private Equity and Venture Capital. 2 Credit Hours.
This course will cover the private equity (PE) industry, composed of both venture capital (VC) and buyouts (BO). The course will provide students with an understanding of corporate finance by applying central concepts and tools to a new and increasingly important industry. The course will also introduce students to the institutions of the PE industry and the valuation process used by PE investors.
Prerequisite: FIN 670.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FIN 680. FinTech. 2-3 Credit Hours.
This course introduces students to FinTech, the emerging world of applications, concepts, developments, business models, and companies at the interface of Finance and Technology. The course format is a mixture of lecture and seminar-style student presentations. It covers the main FinTech areas like Peer-to-Peer-Lending, Crowdfunding, Mobile Payment Systems, Cryptocurrencies and ICOs, Robo Advising, Insurtech (insurance technology), and RegTech (regulatory technology). A special emphasis is given to how and by whom these emerging technologies are currently used, and how they may potentially change the landscape of finance and financial services in the future.
Prerequisite: BUS 640.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 681. Financial Institutions. 2 Credit Hours.
This course focuses on the management of financial institutions, such as mutual funds, banks, hedge funds, and finance office oflarge corporations. Topics include risk management, deposits and deposit insurance, liquidity, reserve requirements, capital adequacy, liability management, investment interest rate risk, and current issues connected with financial institutions.
Prerequisite: FIN 642 or FIN 602 or BUS 630.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 683. Financial Modeling. 2 Credit Hours.
This course takes a variety of finance topics and implements them using practical spreadsheet models. Students are presumed to have a working knowledge of Windows and Excel, as well as a good understanding the material taught in the core finance classes. Topics include Time Value of Money, Capital Budgeting, Pro-Forma Financial Statements, Bond Analysis, and Portfolio Construction and Optimization. This course will meet in a 'computer lab' (a classroom) for hands-on instruction. The course is structured as a "flipped" classroom, so lectures and learning materials are online and practice an application are done in the classroom. It is therefore extremely important that students are prepared for class each meeting day.
Prerequisite: FIN 642 or FIN 602 or BUS 630.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FIN 685. Mathematics of Financial Derivatives. 2 Credit Hours.
This course builds on Finance 650 and 670. This course provides an in-depth mathematical treatment of derivatives and is divided into three parts: (1) options; (2) futures and forwards; and (3) other derivative instruments, which include options on futures, foreign currency derivatives, swaps, exotic options, and financial engineering. The emphasis is placed on equity instruments, although there is also some coverage of short- and long-term interest bearing instruments.
Prerequisite: FIN 650. and FIN 670.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 686. Financial Decision Making. 2 Credit Hours.
The goal of this course is to use decision-making theory to better understand why investors, money managers, and corporate managers often make suboptimal economic and financial decisions. The first part of the course focuses on the basic techniques and models that a manager or an investor can use to make effective financial decisions. The second part of the course focuses on the psychological, social, and cultural determinants of suboptimal investor and managerial behavior. In addition, the course examines the impact of those mistakes for financial markets (e.g., price bubbles) and the overall economy. The course should be useful to individuals who work in a corporate setting or at a money management firm (mutual funds, hedge funds, pension funds, etc.).
Prerequisite: FIN 650. and FIN 670.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 695. Finance Internship. 1-3 Credit Hours.
Students are individually assigned to an operating business firm or other organization to gain insight into applied financial decision making and quantitative analysis in their area of career interest. Periodic reports and in-person meetings are required. Permission of program faculty directors is required prior to registration.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
FIN 696. Finance Capstone Project. 1-3 Credit Hours.
The purpose of this course is to provide students the opportunity to apply financial models and quantitative skills to a client's, real-life business challenge or opportunity. In the process of helping the client solve its problem or address an opportunity, students will simultaneously deepen their understanding of financial concepts, develop consulting skills, and practice teamwork and communication skills. The course is structured around the principles of experiential learning, and as such, will include iterative, explicit opportunities for students to think, do, and reflect on the lessons learned.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FIN 698. Selected Topics in Finance. 1-4 Credit Hours.
Topics in selected areas of specialization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 699. Directed Readings and Study. 1-3 Credit Hours.
Individually supervised research or reading projects in selected fields. Evaluation of project and subject by the supervising professor is required at the time of registration.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 705. Financial Economics I. 3 Credit Hours.
This course is an introductory Ph.D. level course on the fundamental theories of asset pricing. Specifically, it consists of three parts. The first part focuses on individual choice under uncertainty. The second part develops equilibrium asset pricing theories, which include mean variance efficiency and the Capital Asset Pricing Model (CAPM), as well as the Arbitrage Pricing Theory (APT). The third part reviews recent development in asset pricing by introducing some stylized facts and new theories. Requisite: Limited to Business PhD Students.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 706. Theory of Corporate Finance. 3 Credit Hours.
The aim of this course is to expose students to some of the important papers that constitute the theoretical foundations of corporate finance. The course will try to give students a working understanding of the key papers and give them a flavor of the techniques for setting up and solving models, which they could possibly apply in their own research. The course will cover classic Corporate Finance papers and recent contributions in the areas of financial contracting control and corporate governance. The later part of the course leans more towards empirical work and discusses the connections and gaps between theoretical and empirical corporate literature.
Prerequisite: FIN 705.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 707. Empirical Methods in Finance. 3 Credit Hours.
The objective of this course is to give you an introduction to empirical research in finance. This class is not designed like an econometrics class where the emphasis is the statistical specification of tests and the derivation of underlying asymptotics. The focus in this class is the understanding of the technique and the actual implementation in finance. The goal is to provide you with a toolbox of techniques that you can use to answer empirical questions in corporate finance and asset pricing. Prerequisite: FIN 705.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 708. Financial Economics II. 3 Credit Hours.
This is a second course on asset pricing. The class is divided in two independent modules. The first module covers discrete time asset pricing models with frictions. These frictions include, among others, asymmetric information, slow-moving capital, delegated portfolio management, and short-sale constraints. The second module is an introduction to continuous time finance. Topics include introduction to stochastic calculus, derivative pricing and hedging, optimal portfolio choice, and equilibrium asset pricing.
Prerequisite: FIN 705.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 709. Behavioral Finance. 3 Credit Hours.
This course will cover selected topics from the field of behavioral finance. Issues related to both asset pricing and corporate finance will be discussed. The main objective of the course is to help students identify a few interesting research ideas and execute one of these ideas into a completed paper, which could be part of the student's dissertation. Prerequisite: FIN 705.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 715. Pe-Seminar Doctoral Students Workshop in Finance. 1 Credit Hour.
The objective of this course is to give you an introduction to empirical research in finance. This class is not designed like an econometrics class where the emphasis is the statistical specification of tests and the derivation of underlying asymptotics. The focus in this class is the understanding of the technique and the actual implementation in finance. The goal is to provide you with a toolbox of techniques that you can use to answer empirical questions in corporate finance and asset pricing. Prerequisite: FIN 705.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 716. Empirical Methods in Finance. 3 Credit Hours.
The objective of this course is to give you an introduction to empirical research in finance. This class is not designed like an econometrics class where the emphasis is the statistical specification of tests and the derivation of underlying asymptotics. The focus in this class is the understanding of the technique and the actual implementation in finance. The goal is to provide you with a toolbox of techniques that you can use to answer empirical questions in corporate finance and asset pricing. Prerequisite: FIN 705.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FIN 825. Comprehensive Test Preparation. 1-3 Credit Hours.
Doctoral students who are preparing for their qualifying examinations may use this course designation. Enrolled students must develop, with the approval of their advisor, a 'Plan of Study' for these credits.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

FIN 830. Pre-Dissertation Research. 1-6 Credit Hours.
For Finance PhD students currently writing their dissertation. Requisite: Finance PhD Student.
Components: RSC.
Grading: SUS.
Typically Offered: Offered by Announcement Only.
First-Year Seminar Fine Arts (FFA)

FFA 190. First-Year Seminars in Arts. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Fine Arts.
Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FFA 191. First-Year Seminars in Arts. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Fine Arts.
Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FFA 192. First-Year Seminars in Arts. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Fine Arts.
Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

First-Year Seminar Literature (FLT)

FLT 190. First-Year Seminars in Literature. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Literature. Topics
will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FLT 191. First-Year Seminars in Literature. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Literature. Topics
will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FLT 192. First-Year Seminars in Literature. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Literature. Topics
will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FLT 193. First-Year Seminars in Literature. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Literature. Topics
will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FLT 194. First-Year Seminars in Literature. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Literature. Topics
will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FLT 195. First-Year Seminars in Literature. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Literature. Topics
will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FLT 196. First-Year Seminars in Literature. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Literature. Topics
will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FLT 199. First-Year Seminars in Literature. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Literature. Topics
will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

First-Year Seminar Natural Science (FNS)

FNS 190. First-Year Seminars in Natural Science. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Natural
Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FNS 191. First-Year Seminars in Natural Science. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Natural
Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FNS 192. First-Year Seminars in Natural Science. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Natural
Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FNS 193. First-Year Seminars in Natural Science. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Natural
Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FNS 194. First-Year Seminars in Natural Science. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Natural
Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FNS 195. First-Year Seminars in Natural Science. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Natural
Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
FNS 196. First-Year Seminars in Natural Science. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Natural Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FNS 197. First-Year Seminars in Natural Science. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Natural Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FNS 199. First-Year Seminars in Natural Science. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Natural Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

First-Year Seminar Philosophy and Religion (FPR)

FPR 190. First-Year Seminars in Philosophy/Religion. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Philosophy and/ or Religion. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FPR 191. First-Year Seminars in Philosophy/Religion. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Philosophy and/ or Religion. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FPR 192. First-Year Seminars in Philosophy/Religion. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Philosophy and/ or Religion. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FPR 199. First-Year Seminars in Philosophy/Religion. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to Philosophy and/ or Religion. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

First-Year Seminars Social Science (FSS)

FSS 190. First-Year Seminars in Social Sciences. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Social Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FSS 191. First-Year Seminars in Social Sciences. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Social Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FSS 192. First-Year Seminars in Social Sciences. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Social Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FSS 193. First-Year Seminars in Social Sciences. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Social Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FSS 195. First-Year Seminars in Social Sciences. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Social Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FSS 197. First-Year Seminars in Social Sciences. 3 Credit Hours.
Seminars designed to introduce up to 25 freshmen to the Social Sciences. Topics will vary from year to year, as will faculty teaching the seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
FSS 199. First-Year Seminars in Social Sciences. 3 Credit Hours.
Especially designed for Foote Fellows, the BOOKS THAT MATTER seminar offers an opportunity to study major works of non-fiction in a seminar-style setting, under the guidance of faculty members from across the University. We examine important faculty works which, by means of their strong, connected argumentation, challenge the way we respond to, interpret, and shape reality. Emphasis in the course falls mainly on the logical structure embedded deep within the text, and less on content per se, so that a student's effort is not directed towards a reading of "great books" but rather the discovery of "significant arguments." Our rationale is to address a fundamental need in education too often lost in the midst of other demands, interests, and requirements: by learning to read, question, and enjoy important intellectual studies of the past and present, students will be able to read, question, and enjoy what will be the influential books of non-fiction published in their lifetime, whether in public affairs, science, social science, economics, history, film and media studies, philosophy, psychology, etc. The course provides standards of measurement and value by which students can gauge how and why books succeed or fail on hard logical grounds.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

French (FRE)

FRE 101. Elementary French I. 3 Credit Hours.
For students with no background or previous study of French. The focus of FRE 101 is the development of communicative abilities in speaking, reading, writing, and comprehension of French and an introduction to the cultural practices of the Francophone world. Themes on: university life, family, leisure activities, home and community. Includes both oral and written assessment of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in French. Not open to students who have completed 2 or more years of high school French. Closed to heritage or native speakers of French.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 102. Elementary French II. 3 Credit Hours.
Continuation of FRE 101. The development of communicative abilities in speaking, reading, writing and comprehension of French and an introduction to the cultural practices of the Francophone world. Themes on: childhood and adolescence, food and lifestyle, university life and professions. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in French.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 105. Accelerated Elementary French. 3 Credit Hours.
For students with previous study of French desiring to review material covered in FRE 101 and 102 in preparation for continued study of French at the intermediate level. The focus of FRE 105 is the continued development of communicative abilities in speaking, reading, writing, and comprehension of French and an introduction to the cultural practices of the Francophone world. Themes on: family, leisure activities, home, and community, childhood and adolescence, food and lifestyle, university life and professions. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in French.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.

Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

FRE 201. Intermediate French I. 3 Credit Hours.
For students with previous study of elementary-level French. The continued development of communicative abilities in speaking, reading, writing, and comprehension of French and an introduction to the cultural practices of the Francophone world. Themes on: travel, technological innovations, the evolution of family values, and social and environmental issues. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in French.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 202. Intermediate French II. 3 Credit Hours.
For students with some previous study of French at the intermediate level who are familiar with all the tenses and with vocabulary related to the topics covered in FRE 101-201. FRE 202 is the first semester of a two-semester sequence ending with FRE 203. The continued development of skills in reading, writing, speaking, and listening in French, with an additional emphasis on cultural competence in the French-speaking world. Themes on: relationships, cultural values, different historical perspectives, and current politics. These themes will be explored through articles, films and literary texts. The course will develop writing and reading strategies, providing them with the tools to think, read, and write critically and analytically in papers of 1-3 pages. Progress will also be assessed through quizzes and exams. Course conducted entirely in French.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 203. Advanced French. 3 Credit Hours.
Continuation of FRE 202. This course will prepare students for advanced literature, linguistic, and culture courses. The class will use films, literary works, and other cultural texts. Students will write analytic essays of 3-5 pages to develop style, vocabulary, and syntax. Course conducted entirely in French.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
FRE 280. French Culture and Conservation. 3 Credit Hours.
The major social, historical and political factors that have shaped
temporary and traditional French culture and society. This cultural
approach to language-learning is set in the small towns and villages of
the Sete region, rich and vibrant with a centuries-old history of intellectual
advances and social tolerance. The historical and social evolution of
French culture will be studied through film, literature and art with visits to
relevant historical sites and museums.
Prerequisite: FRE 102 or FRE 105.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM
has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

FRE 301. Introduction to French and Francophone Studies. 3 Credit
Hours.
Tools for the interpretation and analysis of cultural materials from the
French-speaking world. Acquisition of terminology and methodology
for advanced study in French and Francophone Studies. Emphasis on
historical, literary, and geographical breadth of French-speaking cultures
as well as on critical writing skills.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 302. The Cultures of France. 3 Credit Hours.
Historical survey of French intellectual, artistic, and popular culture.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 303. The Cultures of Francophone Africa, Canada, and/or the
Caribbean. 3 Credit Hours.
Historical survey of the intellectual, artistic, and popular culture of the
French-speaking communities in Africa, Canada and the Caribbean.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 310. Topics in French and Francophone Studies in Translation. 3
Credit Hours.
Topics in the literature and/or cultures of the French-speaking world.
Readings and discussion in English. Development of critical reading and
writing skills. Fulfills humanities literature requirement. Does not fulfill
foreign language requirement. May be repeated when the topic varies.
May be used toward the French major in accordance with Department of
Modern Languages and Literature stipulations.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 321. Literary Topics. 3 Credit Hours.
The study of literature, film and/or the arts through a specific topic.
Maybe repeated for credit if topic is different.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 322. Topics in Global French Culture. 3 Credit Hours.
Issues centered on the culture of France and/or regions where French is
spoken. Topics such as film, Caribbean history, journalism, translations,
migration. May be repeated for credit if topic is different.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 325. Topics in French-Language Cinema. 3 Credit Hours.
Topics in the cinema of the French-speaking world. Analysis of films in
their cultural context. May be repeated for credit if topics vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.

FRE 330. Topics in Gender and Sexuality. 3 Credit Hours.
Topics in gender and sexuality in the context of the French-speaking
world, through literary and/or cultural studies. May be repeated if topics
vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.

FRE 340. Migration in Literary and Cultural Studies. 3 Credit Hours.
Study of migration to or from France, French-speaking Canada and
America, Africa and/or the Caribbean. May be repeated for credit if topics
vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.

FRE 345. Franco-Maghrebian Studies. 3 Credit Hours.
The study of major historical, social, cultural and literary issues related
to the Franco-Maghrebian interface. May be repeated for credit if topics
vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.

FRE 346. African Studies. 3 Credit Hours.
Topics in the literary and/or cultural study of French-speaking Africa. May
be repeated for credit if topics vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.

Typically Offered: Offered by Announcement Only.
FRE 360. The Caribbean through Literary and Cultural Studies. 3 Credit Hours.
Literary and cultural readings on the Caribbean. May be repeated for credit if topics vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 363. Medieval and Renaissance Topics in French. 3 Credit Hours.
Topics within French literature from the 12th century to the end of the 16th century.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 364. Early Modern Topics in French. 3 Credit Hours.
Topics within French literature from the 17th and 18th centuries.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 365. 19th Century Topics in French. 3 Credit Hours.
Topics within French literature from the 19th and 20th centuries.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FRE 366. 20th and 21st Century Topics in French. 3 Credit Hours.
Study of currents, themes, and movements that define and run the course of 20th and 21st century French literature and culture. Course materials may encompass a diverse array of sources, including art, film, literature, theatre, aesthetics, political cultures and theoretical debates. May be repeated if the topic changes substantially.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FRE 394. French Internship. 1-3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM–faculty supervision, as well as supervised on-site experience in a French-speaking cultural, business, or non-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: FRE 203.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 395. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 396. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 397. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 398. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 399. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 432. French for Global Business. 3 Credit Hours.
The language and culture tools needed to work and conduct business in French anywhere it is spoken around the world.
Prerequisite: FRE 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 442. Advanced Writing Workshop in French. 3 Credit Hours.
Intensive writing of various genres based on the discussion of readings.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 446. Debating Cultures and Societies in French. 3 Credit Hours.
This course is designed to improve student’s conversational skills cultivating formal academic speaking competencies, and to develop their critical thinking skills and analytical expression in French in order to help students achieve global literacy. In addition, this course seeks to build students’ oral proficiency at the advanced level while increasing their awareness of Francophone cultures through active, responsible participation in discussions, debates and oral presentations in class. The class is conducted in French.
Prerequisite: FRE 203.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 495. Transfer Credits. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.
FRE 501. Capstone. 3 Credit Hours.
Course with a broad-based topic designed to integrate high-level linguistic, critical and analytical skills with the body of knowledge acquired during the course of study toward the major. Topics vary. Open only to undergraduates in the last semester of their French major. Course is writing intensive.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 591. Directed Readings. 1-3 Credit Hours.
May be repeated for credit if topic is different.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 592. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 594. Senior honors Thesis I. 3 Credit Hours.
Directed research for honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 595. Senior Honors Thesis II. 3 Credit Hours.
Directed writing of honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 625. Elementary French for Graduate Research. 0 Credit Hours.
Grammatical structuring, verb tenses, and word families necessary for reading text with minimal use of a dictionary. May fulfill the Foreign Language Reading Competency Requirement (consult your graduate advisor).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 641. Elementary FRE I for Graduate Students. 0 Credit Hours.
Designed to develop graduate students' communicative abilities in speaking, reading, writing, and comprehending French and to provide an introduction to the Francophone world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 642. Elementary FRE II for Graduate Students. 0 Credit Hours.
Continuation of FRE 641. Designed to develop graduate students' communicative abilities in speaking, reading, writing, and comprehending French, and continued engagement with the French-speaking world.
Prerequisite: FRE 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 645. Accelerated Elementary FRE for Graduate Students. 0 Credit Hours.
For graduate students with previous study of French desiring to review material covered in FRE641 and FRE642 in preparation for study of French at the intermediate level. Designed to develop graduate students' communicative abilities in speaking, reading, writing, and comprehending French and continued engagement with the Francophone world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 651. Intermediate FRE I for Graduate Research. 0 Credit Hours.
For graduate students with previous study of elementary-level French. Designed to develop graduate students' communication skills in both written and spoken French at the intermediate level. Intended primarily for students who will carry out research in the French-speaking world.
Prerequisite: FRE 642.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 652. Intermediate FRE II for Graduate Research. 0 Credit Hours.
For graduate students with previous study of French at the intermediate level. Designed to enhance graduate students' communication skills in both written and spoken French at the high-intermediate level. Intended primarily for students who will carry out research in the Francophone world.
Prerequisite: FRE 651.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 653. Advanced FRE I for Graduate Research. 0 Credit Hours.
For graduate students with previous study of French at the high-intermediate level. Designed to enhance graduate students' communication skills in French at the advanced-low level. Intended primarily for students who will carry out research in the Francophone world.
Prerequisite: FRE 652.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 671. Topics in French Medieval Literature. 3 Credit Hours.
Recent topics: exile, the epic, orientalism, imperialism, monsters.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 711. Topics in French Renaissance Literature. 3 Credit Hours.
Specific genres, works, authors, and movements. Possible topics: Melancholy and Madness; Montaigne; Rabelais; Marguerite de Navarre; lyric poetry.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 712. Topics in French 17th Century Literature. 3 Credit Hours.
Recent topics: Racine, Moliere, Corneille; Pascal and the Moralist tradition, the birth of the psychological novel, love and war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FRE 714. Topics in 18th Century French Literature. 3 Credit Hours.
Recent topics: Diderot, Rousseau, Sade; exoticism as related to political
theory; the epistolary novel; the Enlightenment and post-colonial theory.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 716. Topics in 20th-21st Century French Literature. 3 Credit Hours.
Recent topics: Balzac, Stendhal, Flaubert; Dandysm and Decadence; the
Symbolist movement.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 721. Special Topics in French Studies. 3 Credit Hours.
Special Topics in French Studies.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 791. Writing Practicum. 1 Credit Hour.
The writing of a publishable research paper under faculty guidance.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 792. Directed Readings. 1-3 Credit Hours.
Directed Readings at the grad level.
Components: IND.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 800. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. After admission to candidacy, the
student will enroll for credit as determined by his/her advisor. Not more
than 12 hours of FRE 740 may be taken in a regular semester, nor more
than six in a summer session. Students who have passed their qualifying
examinations, but are not taking courses any more, may enroll in FRE
740. Where a student has passed his /her(a) qualifying examinations, and
(b) is engaged in an assistantship, he/she may still take the maximum
allowable credit stated above.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

FRE 850. Research in Residence. 1 Credit Hour.
Used to establish residence for the Ph.D., after the student has been
enrolled for the permissible cumulative total in appropriate doctoral
research. Credit not granted. May be regarded as full-time residence as
determined the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Gender and Sexuality Studies (GSS)

GSS 201. Introduction to Gender and Sexuality Studies. 3 Credit Hours.
Conceptions of masculinity and femininity; gender relations; gender
inequalities; the intersections of gender with other categories of identity
such as class, race, sexuality, and stages in the life cycle; and the broad
impact of gender on society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSS 202. Introduction to LGBTQ Studies. 3 Credit Hours.
Introduction to the Lesbian, Gay, Bisexual, Transgender and Queer
Studies minor. The LGBTQ Studies program is designed to allow
students to explore sexuality and sexual minorities from a variety of
perspectives. The course will provide students with an introduction to
a broad array of LGBTQ issues including visual and performing arts,
literature, languages, history, social science, various theories, public
policy and the law, families and other types of intimate relationships,
crime, popular culture, and LGBTQ identities and communities. It will
be a core to the LGBTQ minor. The history of LGBTQ Studies extends to the
beginnings of the LGBTQ movements of the last third of the previous
century. Today, the field addresses work in a broad range of scholarly
disciplines including biological and cultural studies, in literature and
anthropology, in the health sciences, history, and the visual arts. It
ranges from archival research to the elaboration of queer theory, from
the analysis of constitutional law to questions of public health, from the
study of popular culture to investigations into the development and social
construction of sexual identity. Students are usually only exposed to
these studies at the upper division levels of the curriculum in disparate
departments. An introductory course will make these upper division
courses more accessible and meaningful, as well as serve as the basic
core to the minor in LGBTQ studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
GSS 210. Popular representations of Queer sexualities. 3 Credit Hours.  
Critical analysis of queer subjects in popular culture.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

GSS 220. European Sexualities. 3 Credit Hours.  
The history of European sexuality from the Greeks to present day.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

GSS 301. Feminist Inquiries. 3 Credit Hours.  
A history of feminist thought, central issues in contemporary feminism, the emergence of feminist methodologies across a range of disciplines, and the ways in which feminist inquiry transforms our understanding of key issues across the curriculum. Writing Credit.  
Prerequisite: GSS 201.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Spring.

GSS 305. Queer Studies. 3 Credit Hours.  
Gay, lesbian, bisexual, transgender, transsexual, and queer identities; alternative family structures; queer theory; and current debates over the meaning and validity of sexuality as a way of understanding human sexual desire, emotions and behavior.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall & Summer.

GSS 315. Gender, Race, and Class. 3 Credit Hours.  
Conceptions and intersections of gender, race, and class in historical and contemporary cultures; the impact of these experiences on individuals and society as a whole.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall.

GSS 320. Comparative Perspectives on Gender and Sexuality. 3 Credit Hours.  
A comparative study of gender identities, gender relations, and sexualities in different cultures and societies. Writing Credit.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall & Spring.

GSS 335. LGBTQ Communities. 3 Credit Hours.  
Sociology of Lesbian, Gay, Bisexual Transgendered and Queer communities and identities. The history, methods, theory and concepts of social science research on these topics over the last half century and examines contemporary issues.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

GSS 344. Gender and Politics. 3 Credit Hours.  
Compares the roles played by men and women in political systems worldwide; examines public policy outcomes with significant gender-based effects, including policies on sexuality & reproductive health, gender-based violence, work & the family, and access to education.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

GSS 345. Religion and Gender. 3 Credit Hours.  
Religious constructions of gender identity within Christianity, with some attention to Judaism and Islam. The second Genesis creation account, which focuses on the figures of Adam and Eve, will be the focal point of our studies. An emphasis will be placed on the manner in which sexism functions within historical and present-day religious thought and practice, as well as alternative understandings of male and female identity.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

GSS 347. Issues in Reproductive Medicine. 3 Credit Hours.  
Social, economic, political, legal, religious, philosophical, and psychological aspects of the global reproductive medicine industry and related genetic technologies.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

GSS 348. Mental Illness, Gender, and Psychiatry. 3 Credit Hours.  
An investigation of often unquestioned ideas surrounding mental illness, including the definition of mental illness itself, in the context of the burgeoning field of disability studies. The course focusses on giving a voice to those who suffer from mental illness while critiquing the mainstream discourse of mental illness as articulated and managed by mental health professionals. Particular attention is placed on the role of gender in the discourse of mental illness.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall & Spring.

GSS 350. Special Topics in Gender and Sexuality Studies. 3 Credit Hours.  
Content varies by semester.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall & Spring.

GSS 360. Special Topics in Gender and Sexuality Studies: Arts and Humanities. 3 Credit Hours.  
Special topics approaching gender and sexuality from the disciplinary perspectives of the arts and humanities.  
Prerequisite: GSS 201 or GSS 202.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall & Spring.

GSS 361. Gender and Language. 3 Credit Hours.  
The ways in which language is used in the constitution of gender, from a cross-linguistic and cross-cultural perspective.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

GSS 370. Special Topics in Gender and Sexuality Studies: People and Society. 3 Credit Hours.  
Content varies by semester.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall & Spring.
GSS 405. Gender and Sexuality in Cultural Context. 3 Credit Hours.
How cultural values shape our understanding and experience of gender and sexuality; how those values are produced and policed; and the impact of codes of conduct for gender relations on individuals and society as a whole within a specific cultural milieu. Writing Credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 410. Gender, Sex, and the Law. 3 Credit Hours.
The impact of legal institutions and laws in shaping and regulating gender relations and sexual practices; the evolving relationship between legal codes and social values for women and men. Writing Credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 420. Interpreting Bodies. 3 Credit Hours.
Perceptions, representations, and regulation of the physical body as a gendered and sexual site, as a source of pleasure, as a means of social validation, and as an object of coercion. Writing Credit.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSS 450. Special Topics in Gender and Sexuality Studies. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSS 469. LGBTI Politics. 3 Credit Hours.
The empirical variation in public policies towards issues of concern to Lesbian, gay, bisexual, transgender, and intersex citizens. Examines the social scientific literature on social movements to identify the factors which have helped or hindered LGBTI rights activists’ efforts to improve the legal status of LGBTI citizens.
Prerequisite: POL 201 or POL 202 Or GSS 202 or GSS 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSS 471. Sex Babies and the State. 3 Credit Hours.
In one of the most profound revolutions of the past century, gender roles have irreversibly changed and equal rights for women and men has become a stated goal in western societies, even if not the reality. This course examines policies on reproduction, work and the family in advanced industrialized countries including Latin American Countries.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 499. Independent Study. 1-3 Credit Hours.
By arrangement with instructor; content varies.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSS 501. Senior Research Project. 3 Credit Hours.
A student initiated research project with a faculty member of the student's choice and approved by the Program director. Writing Credit.
Requisite: Plan of Gender and Sexuality Studies.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSS 505. Senior Thesis. 3 Credit Hours.
Gender and Sexuality Studies majors with a cumulative GPA of at least 3.5 in GSS courses and an overall GPA of at least 3.0 may earn departmental honors by completing an honors thesis instead of the senior research project. Candidates for departmental honors are responsible for finding a faculty member who is willing to serve as thesis adviser and then must complete a thesis proposal of approximately 400 words which must be approved by the thesis adviser and then the program director. Most students will take this course twice, for a total of six credits. Writing Credit.
Requisite: Plan of Gender and Sexuality Studies.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSS 590. Gender and Sexuality Studies Internship. 1-3 Credit Hours.
Internship in a community organization focusing on issues of gender or sexuality. Students arrange the internship and propose an exhibit, project, term paper, or other materials that will be presented for academic credit at the end of the internship to the Director of the Gender and Sexuality Studies Program and a faculty sponsor for approval prior to beginning the internship. Open only to GSS majors or minors or LGBTQ Studies minors with junior or senior standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

General Business Management and Organization (GBM)

GBM 100. Fundamentals of Ethics and Leadership. 3 Credit Hours.
This is a comprehensive course specifically designed to assist students focus on building a proper foundation to prepare for college and then law school or graduate school in the future. The course creates opportunities for students to hone their ethical, business and legal skills. Students will be exposed to the functional areas of business: management, legal studies, and marketing. GBM 100 is a blend of academics, leadership, networking and teamwork that are at the core of a successful transition from high school to college to graduate school.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

GBM 101. Fundamentals of Business. 3 Credit Hours.
This course is designed to provide a broad introduction to the various fields of business knowledge that are essential for successful decision making in the global marketplace. Students will be exposed to the functional areas of business: economics, accounting, finance, and management. The curriculum will require students to engage in hands-on activities that will help to familiarize them with the different business fields and decide if a career in business is right for them.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
GBM 102. Global Business. 3 Credit Hours.
Miami’s strategic location at the crossroads of the Americas provides an exciting setting to explore global business. This course introduces students to practices followed by organizations and individuals doing business in a global environment. It will start with an overview of the recent globalization phenomenon - why has it flourished as such? It will address key differences that characterized the various countries involved in the global economy. Students will review trends, as well as rewards and challenges, affecting the global trade and investment environment and of critical importance what are common strategy and structure of international business.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

Genomic Medicine (GNM)

GNM 602. Clinical Applications of Genomic Medicine II. 3 Credit Hours.
The Clinical Applications of Genomic Medicine series provides genomic medicine case studies and systems-based learning. Topics covered in the fall include cardiovascular, respiratory, renal/urinary, gastrointestinal/nutritional systems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GNM 605. Research Ethics. 1 Credit Hour.
This course introduces foundational concepts in research ethics in preparation for conducting the genomic medicine practicum. Online Human Subjects Research and Responsible Conduct of Research training through the CITI program website will be supplemented with three hours of in-person discussion sessions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GNM 610. Clinical Applications of Genomic Medicine I. 3 Credit Hours.
This course provides introductory background for understanding genomics, genomic techniques as well as provides genomic medicine case studies and systems-based learning. Initial topics include basic concepts of genomic medicine, genomic techniques involved in clinical applications, integration of genomic medicine into clinical setting, importance of translational research, benefits for patient and physician, transitioning with the medical curriculum into case studies. This course is focused on complex genetic disorders, and use of web-based tools to use in clinical work.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GNM 630. Clinical Applications of Genomic Medicine III. 4 Credit Hours.
The primary objective of this course is to prepare students to evaluate the clinical utility of a genetic test and apply that information in a clinical setting. Illustrations of these concepts are drawn from the systems-based curriculum spanning December (ophthalmology and dermatology) and spring (rheumatology, infection & immunity, hematology & oncology, diabetes & metabolism, endocrinology & reproductive medicine). The class will meet once each week (2 hours each session), for literature-based discussion sessions and case-based learning.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GNM 631. Genomic Medicine Laboratory. 3 Credit Hours.
Students will rotate in the molecular genetics and biochemical genetics diagnostic laboratories, gaining experience with genomic testing in a clinical setting and interpretation and communication of results.
Components: LAB.
Grading: CNC.
Typically Offered: Spring.

GNM 660. Computational Methods for Genomic Medicine. 3 Credit Hours.
The objective of this course is to gain a working knowledge of computational methods utilized in primary and secondary analysis of genomic technologies and apply these to a clinical setting. This will prepare students to perform practical data analysis in the GNM 631 course offered in Spring.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GNM 680. Genomic Ethics and Public Policy. 3 Credit Hours.
This course provides an introduction to the scientific, socio-ethical and policy issues arising in the context of genomic medicine. It is designed to improve your critical thinking and give you the tools to evaluate the wide range of challenges that genomic medicine brings to individuals and societies alike. We will cover a broad spectrum of topics, from the history of eugenics, to genetic testing and screening through the life cycle (i.e. pre-implantation and pre-natal testing, newborn, population and carrier screening, direct-to-consumer genetic testing), as well as bioethical (i.e., informed consent, privacy, confidentiality, etc.), policy (i.e., professional duties, patents, discrimination, etc.), and societal issues (i.e. health disparities).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GNM 690. MSGM Capstone. 6-12 Credit Hours.
The purpose of the Capstone Segment is to provide the research and clinical application aspects of training. It can be initiated at any point after admission to the MSGM Program, and results in 6 credits earned in Spring of Year 4. All components (case reports, mentored research project, genomic medicine education) will be summarized in a portfolio of work and presented at the end of the Capstone.
Components: LAB.
Grading: SUS.
Typically Offered: Spring.

Geography (GEG)

GEG 101. Digital Earth. 3 Credit Hours.
Explores various geospatial technologies and the societal implications of our digital world with particular emphasis locational services, mapping, imagery, and other capabilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 105. World Regional Geography. 3 Credit Hours.
An introduction to geography’s basic concepts within the framework of a comprehensive survey of the world's major regions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
GEG 110. Introduction to Human Geography. 3 Credit Hours.
An introduction to the sub-fields of human geography by an examination of patterns and process in the international system.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 120. Physical Geography. 3 Credit Hours.
The Earth system (atmosphere; hydrosphere; biosphere; lithosphere) emphasizing the interrelationships among its constituent subsystems; human-environmental interactions and geographic dimensions of these four subsystems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 199. Geographic Information Systems for Engineers. 1 Credit Hour.
The fundamentals of Geographic Information Systems (GIS). A GIS is a set of hardware and software tools that allow people to work with data that are tied to a particular location. In this course students will learn how to import, analyze and display answers to spatial research questions using GIS software. By the end of the semester students should have a solid understanding of the various applications of Geographic Information Systems in numerous spheres of everyday life. No prior experience with GIS software is required for this course. This course is for College of Engineering students only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 201. Topics in Geography. 1-3 Credit Hours.
Select topics in Geography. Contents varies by semester and is indicated in parenthesis following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 231. Environmental Geography. 3 Credit Hours.
Designed to encourage students to think deeply, critically, and coherently about the interaction between human societies and nature from a geographical perspective. Explores the societal dependence on natural ecosystems. Assess the magnitude and impacts of the environmental changes caused by human activities in the biosphere and evaluates the hypothesis that the earth has moved into a new geologic epoch. Explores the concept of sustainable development and how countries are implementing it.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 235. Wine, Environment & Society. 3 Credit Hours.
Explores regional differences in wine production, consumption, economics, culture, politics, and globalization, while cultivating basic wine literacy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 241. Health and Medical Geography. 3 Credit Hours.
Integrates public health and medicine with human and environmental geography using three approaches: ecological (the interaction of disease and our natural/built environments), social (the behavioral effects of culture, poverty, and politics), and spatial (using geospatial technology to better understand and improve health services and outcomes).
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 266. Metropolitan Miami. 3 Credit Hours.
This course provides interdisciplinary perspectives on the urbanization of South Florida and on Miami’s urban milieu. The course uses the case of Metropolitan Miami to introduce and illustrate a range of basic concepts in urban studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 281. Economic Geography. 3 Credit Hours.
Explores processes driving spatial patterns of economic activity at the global, national, regional, and local scales. Topic areas include economic globalization, spatial distribution of industrial sectors, multinational corporations, international trade, regional economic development, and illegal economic activities. Examines the development of the global marketplace in both the developed and the developing world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 305. Spatial Data Analysis I. 3 Credit Hours.
The use of basic methods or quantitative analysis for spatial data, including basic descriptive and inferential statistics and special techniques for spatial data.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 306. Geographic Research Methods. 3 Credit Hours.
The fundamentals of social science research, such as research design, hypothesis formulation, and field data collection, with particular emphasis on quantitative and qualitative geographic analytical methods.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
GEG 310. Geographic Information Systems I. 3 Credit Hours.
The fundamentals of Geographic Information Systems (GIS). GIS is a set of hardware and software tools that allow people to work with data that are tied to a particular location. In this course students will learn how to import, analyze and display answers to spatial research questions using GIS software. By the end of the semester students should have a solid understanding of the various applications of Geographic Information Systems in numerous spheres of everyday life. No prior experience with GIS software is required for this course. CIVIC designation: This section of the course is taught with the principles of civic engagement and service learning in mind. To satisfy these principles, students will be paired with a community organization in need of mapping, and will complete their final project in partnership with the community organization. For more information on civic engagement and academic service earning please visit http://civic.miami.edu/.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 315. Digital Cartography. 3 Credit Hours.
An introduction to cartographic methods, interpretation and history. Students learn basic principles of visual representation, how to map qualitative and quantitative data, and how to prepare maps for publication and the web.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 321. Remote Sensing of the Environment. 3 Credit Hours.
Theory and techniques of environmental remote sensing and imagery interpretation for earth resources monitoring and management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 331. Sustainable Development. 3 Credit Hours.
The concepts of sustainable development, its origins, and the global conventions associated with it. We use indicators of human well-being, governance, environmental conservation, social inclusion, and economic prosperity to evaluate how countries are making their development trajectories more sustainable. Although most of our discussion adopts a global perspective, the research conducted by students is focused on the challenges for implementing sustainable development policies in tropical and sub-tropical countries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 332. Climatology and Extreme Weather. 3 Credit Hours.
Covers introductory information about Earth’s atmosphere, weather development, and extreme weather events. Introduces basic concepts of the science of weather and climate, and current scientific developments in areas such as extreme weather forecasting and global climate change.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 334. Biogeography and Conservation. 3 Credit Hours.
Explores the modern science of biogeography and its implications for the design of spatial strategies to conserve biodiversity and ecosystem services. Examines the history of biogeography and its geographical and ecological foundations. Discusses the fundamental biogeographical processes and uses them to investigate the evolution of biotas and explain the current biogeographic patterns. Explores the emerging field of conservation biogeography and its applications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 335. Sustainable Food Systems. 3 Credit Hours.
A sustainable food system sustains environmental health and local economies, and is socially just. We will explore the intricacies of global geographies of major food systems and how these systems have come to be. We will identify where major food types are produced, why and where the major demand centers are. Further, we will seek answers to fundamental food-related questions, including: in an age of plenty, why do people still starve, and what can be done about it? How do we explain malnutrition in some parts of the world and obesity in others? Can there really be such a thing as a 'sustainable global food systems'? Finally, we will examine what the future implication for food is through explorations and evaluation of a range of visions for a safe, sustainable food system.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 336. Hazards and Disasters: The Nature-Society Interface. 3 Credit Hours.
Explores how human-environment interactions determine the distribution, causes and consequences of natural hazards and disasters.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 341. Population, Health, and Environment. 3 Credit Hours.
Global human population dynamics and implications for environmental sustainability; topics include population growth and structure, mortality and fertility patterns, migration, urbanization, aging, and household composition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 343. Population, Sustainability, and the Media. 3 Credit Hours.
Explores opposing views of population growth and environmental sustainability through the media and cinema: contrasts 'Doomsters' who believe population growth and resource consumption threaten human survival and pro-growth 'Boomers' who believe human ingenuity and technology will continue to allow humankind to prosper.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 345. Drinking Water: Past, Present, and Future. 3 Credit Hours.
Explores the physical, social, economic, and political dimensions of global water insecurity and the management of global drinking water supplies through an interdisciplinary social science lens.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
GEG 346. Immigrant and Refugee Health. 3 Credit Hours.
A theoretical background essential for understanding the complex interaction of migration and health. Students will gain a basic understanding of the theories surrounding the movement of people within and across political boundaries. Emphasis will be placed on the health issues experienced by displaced populations including refugees, migrants, and internally displaced persons. We will explore some of the difficulties that receiving communities face in addressing the health needs of migrants, the roles of actors involved in working with displaced populations and how emigration of a large segment of the population, either abruptly or over time, affects sending communities as well. Much of the class will consist of guest speakers and case studies presented by different healthcare professionals working with migrant communities, with examples of the problems faced and solutions achieved in addressing issues of immigrant and refugee health drawn for both national and international experience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 348. Climate Change and Public Health. 3 Credit Hours.
The mechanisms by which climate change adversely affects human health, and the policy options for mitigating our exposure.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 351. Geopolitics and Peacebuilding. 3 Credit Hours.
Explores the political and legal responses, both national and international, to violations of Human Rights associated with conflicts and totalitarian regimes around the world, with emphasis on the peace building process in diverse geographical locations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 352. Crime and the City. 3 Credit Hours.
Explores why there is so much violent crime in certain cities of the Americas and why there are such marked spatial differences between, and within, these cities. Contrasts and discusses specific issues (and myths) of crime, punishment, and policing in the Americas using a variety of academic and institutional research on violent crime.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 353. United States National Security. 3 Credit Hours.
Examines a broad spectrum of such challenges to US national security, simulating the role of policy makers and strategists for the Office of the President.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 354. Global Human Rights. 3 Credit Hours.
Equips students with a broad perspective to think critically about the global issues surrounding the foundations of Human Rights together with questions about its universality, reach, and enforceability.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 355. Global Political Economy. 3 Credit Hours.
Explores the relationship between the global economy and politics, as governments seek both to shape it and to respond effectively to the constraints and opportunities it provides.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 356. Latin American Political Economy. 3 Credit Hours.
Examines Latin America’s economic development, analyzing different developmental strategies, resource endowment, institutional framework, and other related variables.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 361. Urban Sustainability in Asia. 3 Credit Hours.
The emerging field of urban sustainability from an interdisciplinary perspective by providing major theories, methodologies, and practices in sustainable urbanism. Specific attention is paid to urban resilience, economic inequality, urban ecology, and environmental injustice in Asian cities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 362. World Urban Geography. 3 Credit Hours.
An introduction to the principles and methods that apply to the geographic study of cities and urbanization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 366. Cities in Time and Space. 3 Credit Hours.
Interdisciplinary perspectives on the city, urbanity, and urbanization through a series of wide-ranging historical-geographical contexts. Field excursions are incorporated into the course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 381. Geography and Development in Africa. 3 Credit Hours.
A survey of the geography of Africa south of the Sahara, with particular emphasis on development and the role of African states in the international system.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 382. Political Geography of the Middle East. 3 Credit Hours.
Geography of the Middle East with emphasis on current political topics.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 383. Geography and Development in South America. 3 Credit Hours.
An introduction to the geography of South America. Explores the interface between societies and nature in this diverse and complex world region. Covers the major challenges that the countries of the continent are facing to improve their socio-economic indicators as well as protect their unique natural ecosystems.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GEG 384. Geography of South Florida. 3 Credit Hours.
Human and physical geography of South Florida.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 385. Jewish Geography. 3 Credit Hours.
Facts of Jewish history, geography, and demography both in the world and the United States. Basic geographic concepts that help us to understand the Jewish world and provide a basis for understanding the various ways that Jewish communities have adapted to different geographic circumstances.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 386. China in the 21st Century. 3 Credit Hours.
The specifics of the newly-emerging economic and political giant of Asia-China, with an explicit emphasis on the patterns and characteristics of economic transition and reform, as well as how reform has reshaped China's geo-economic landscape, natural environment, and the international political and economic order.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 390. Topics in Geography. 3 Credit Hours.
Content and prerequisites announced when offered. Course may be repeated for credit if content varies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 398. Independent Research. 0-6 Credit Hours.
Independent research conducted one on one with a faculty member.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 399. Independent Study. 0-6 Credit Hours.
Independent study.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 402. Geographic Thought and Analysis. 3 Credit Hours.
An introduction to the history of geographic thought and geographic analysis, and to some important sub-disciplines of Geography. At the end of the semester, students will have a better understanding of the history of Geography, of its place in the academy, and important theoretical and methodological debates and themes within the discipline. Our purpose in this seminar is to create a dynamic and focused intellectual environment in which learning is a collective process. To achieve that we will analyze, critique, question and debate the weekly readings. There will be little formal lecturing on my part. Instead, class time will be spent in open discussion and hands-on projects completed individually or in teams. Throughout the semester, we will also host guest speakers, who will give you insights into their scholarship and give you further exposure to the discipline of Geography. Be ready to read and write a lot, and come to class prepared to discuss!
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 405. Spatial Data Analysis II. 3 Credit Hours.
Social and environmental science applications of spatial statistical analysis illustrated with data and numerical (simulation experiments) examples employing interactive software. This course's focus is on spatial autocorrelation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 406. Survey Research Methods. 3 Credit Hours.
The use of survey research including the choice of a survey mechanism, sampling, questionnaire design, survey logistics, survey analysis, and reporting of results.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 410. Geographic Information Systems II. 3 Credit Hours.
An introduction to spatial analysis, which consists of techniques for analyzing patterns of and interrelationships between spatial data. Topics include vector polygon editing and topology, integration of raster and vector data, surface analysis and 3D analysis, suitability mapping, spatial modeling, and multi-criteria evaluations.
Prerequisite: GEG 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 412. GIS for Health and Environment. 3 Credit Hours.
This course provides practical experience in using spatial technologies to address issues of health and environment. This course will provide an introductory level approach to using the ArcGIS software, so even if you have never used it, you can learn what you need. Lectures, discussions, readings and guest speakers will provide content and background. A final project will allow you to explore your own interests.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 414. Crime Mapping and Analysis. 3 Credit Hours.
Provides a basic understanding of the spatial analysis of issues related to criminal justice and crime mapping using state-of-the-art GIS software.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 415. Web GIS. 3 Credit Hours.
Map serving technologies and internet map design, focusing on the programming concepts needed to construct and implement high-quality web mapping applications. Lab exercises will make use of both the commonly used open source GIS and related programming tools for customizing web-based mapping applications, as well as the leading proprietary web mapping capabilities provided in ESRI's ArcGIS Server. Students build their own on-line interactive, customizable maps and will learn the basics of client/server architecture and processing, JavaScript programming, and XML/HTML basics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GEG 421. GIS and Environmental Modeling. 3 Credit Hours.
Space-time modeling in a GIS environment with emphasis on raster-based models of land cover change, urban expansion, species distribution, wildfire propagation, and other environmental issues.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 432. Climate Change and Security. 3 Credit Hours.
There is an emerging global consensus that climate change will stress the economic, social, and political systems that underpin each nation state. Where institutions and governments are unable to manage the stress or absorb the shocks of a changing climate, the risks to the stability of states and societies will increase.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 490. Topics in Geography. 0-3 Credit Hours.
Select topics in Geography. Contents varies by semester and is indicated in parenthesis following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 501. Capstone Research Seminar. 3 Credit Hours.
Project-based fundamentals of social science research; emphasizes research conceptualization and design, application of methods, data management, scientific writing, multi-modal presentation of findings, and professional development skills.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 505. Seminar in Methods of Analysis. 3 Credit Hours.
The use of advanced quantitative, qualitative, and mixed methods in the solution of geographic research problems.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 507. Seminar in Field Methods. 3 Credit Hours.
With a focus on geospatial applications, this methods course introduces students to field research addressing complex socio-environmental issues. The course includes exercises with GPS data collection; geotagged photography; ground truthing; spatial survey design; and distributed GIS. Various research areas and cognate field methods including environmental demography, community surveying, cultural mapping, and multi-sited ethnography.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 519. Immigration to the United States. 3 Credit Hours.
A description and analysis of current immigration patterns in the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 520. Sustainable Cities. 3 Credit Hours.
The emerging field of urban sustainability from an interdisciplinary perspective, by providing major theories and methodologies in sustainable urbanism, especially in terms of urban resilience, economic inequality, urban ecology, and environmental justice.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 530. Conservation and Development. 3 Credit Hours.
Explore the synergies and trade-offs between biodiversity conservation and human development. Uses the concept of green infrastructure to demonstrate as biodiversity conservation is an essential component of human development. Discusses the global conventions that seek to protect biodiversity conservation and how they have been implemented worldwide. Evaluate the roles played by governments, NGOs, local communities, corporations, and multilateral agencies to protect biodiversity. Map current global efforts to protect global ecosystems and identify the major bottlenecks. This is a research-based course in which students learn how to collect and analyze conservation and development data as well as improve their presentation and writing skills.
Components: RSC.
Grading: GRD.
Typically Offered: Fall.

GEG 532. Conservation Biogeography. 3 Credit Hours.
Explore the emerging discipline of Conservation Biogeography, that is the application of biogeographical principles, theories, and analyses to problems concerning the conservation of biodiversity. Discusses major global biogeographical patterns and processes; biodiversity patterns in terrestrial, freshwater and marine ecosystems; social values and conservation; protected area policy and financing; systematic conservation planning; and protected area design and management. This is a very intense research-based course in which students learn how to collect and analyze biogeographical data as well as improve their presentation and writing skills.
Components: RSC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 551. Seminar in International Development. 3 Credit Hours.
Topics in the study of development. Content and prerequisites vary.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 560. Seminar in Urban Management. 3 Credit Hours.
Select topics in urban management. Contents varies by semester and is indicated in parenthesis following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 563. Seminar in Urban Geography. 3 Credit Hours.
Topics in the study of urban geography. Content and prerequisites vary.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GEG 580. Introductory Quantitative Methods for Geographical Analysis. 3 Credit Hours.
Basic quantitative methods for geographic analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 590. Advanced Topics in Geography. 1-6 Credit Hours.
Content and prerequisites vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 597. Internship in Geography. 0-6 Credit Hours.
Students are assigned to work for a local public or private agency.
Components: FLD.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

GEG 598. Advanced Independent Study. 0-6 Credit Hours.
Independent study.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 602. Research Design in Geography. 3 Credit Hours.
Designing and proposing geographic research projects based upon a critical reading of the geographical literature. Students will prepare a master’s thesis (master’s students) or dissertation (doctoral students) project proposal.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 603. Survey Research Methods. 3 Credit Hours.
The use of survey research including the choice of a survey mechanism, sampling, questionnaire design, survey logistics, survey analysis, and reporting of results.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 612. Health Applications of Geospatial Information Systems. 3 Credit Hours.
Ideas from a broad range of geospatial health subjects, and hands-on exercises to help students to better process spatial data and use them for specific analyses that address issues related to health.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 613. Advanced Cartography. 3 Credit Hours.
Cartographic research techniques, cognitive mapping, distortion, transformations and cartograms. Prerequisite: GEG 280 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 619. Immigration to the United States. 3 Credit Hours.
A description and analysis of current immigration patterns in the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 620. Sustainable Cities. 3 Credit Hours.
The emerging field of urban sustainability from an interdisciplinary perspective, by providing major theories and methodologies in sustainable urbanism, especially in terms of urban resilience, economic inequality, urban ecology, and environmental justice.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 622. Urbanization in the Developing World. 3 Credit Hours.
Patterns and processes in large cities in the developing world are examined.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 623. Seminar in Urban Management. 3 Credit Hours.
Identification of and responses to urban problems in large cities in European and Latin American metropolitan areas. Emphasis is on demographic, cultural/ethnic, service-provision, environmental, transportation, and land-use problems. Approach is via case studies, theory applications, and planning practicalities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 625. Advanced Independent Study in Geography I. 1-6 Credit Hours.
Advanced independent study for Two-Paper Option for first paper.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 632. Seminar in Environmental Geography and Planetary Health. 3 Credit Hours.
Advanced topics in Environmental Geography from a systems approach.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 635. Internship in Geography. 1-4 Credit Hours.
Students are assigned to work for a local public or private agency.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.
GEG 636. Sustainable Food Systems. 3 Credit Hours.
The intricacies of global geographies of major food systems, how these systems have come to be and where major food types produced, why and where the major demand centers are. It also examines what the future implication for food is through exploration and evaluation of a range of visions for a safe, sustainable food system.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 637. Development Studies. 3 Credit Hours.
Advanced seminar on issues in contemporary development studies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 643. Population, Sustainability and the Media. 3 Credit Hours.
Explores opposing views of population growth and environmental sustainability through the media and cinema: contrasts 'Doomsters' who believe population growth and resource consumption threaten human survival, and pro-growth 'Boomsters' who believe human ingenuity and technology will continue to allow humankind to prosper.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 645. Advanced Independent Study in Geography II. 1-6 Credit Hours.
Advanced independent study for Two-Paper Option for second paper.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 646. Immigrant & Refugee Health. 3 Credit Hours.
A theoretical background essential for understanding the complex interaction of migration and health. Emphasis is placed on the health issues experienced by displaced populations including refugees, migrants, and internally displaced persons.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 648. Climate Change and Public Health. 3 Credit Hours.
The mechanisms by which climate change adversely affects human health and the policy options for mitigating our exposure.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 652. Seminar on the Geography of South Florida. 3 Credit Hours.
Human and physical geography of South Florida.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 655. Field Methods and Geospatial Analysis. 3 Credit Hours.
With a focus on geospatial applications, this methods course introduces students to field research addressing complex socio-environmental issues. The course includes exercises with GPS data collection; geo-tagged photography, ground truthing; spatial survey design; and distributed GIS. Various research areas and cognate field methods including environmental demography, community surveying, cultural mapping, and multi-sited ethnography.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 656. Interdisciplinary Issues in Latin American and Caribbean Studies. 3 Credit Hours.
Political, economic, social, and cultural issues of Latin American and Caribbean area Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 658. Seminar in Comparative Politics I. 3 Credit Hours.
Comparative political analysis within and across nations. Debates on state formation, democracy and development, democratization, and the role of ideas, interests, and institutions.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 661. Urban Geography I. 3 Credit Hours.
An introduction to the essential elements about the growth and development of cities. Review of the challenges of urbanization and urban sustainability in the contemporary period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 663. Urban Geography II. 3 Credit Hours.
Analysis of the spatial structure of urban centers, the development of and interaction between functional zones, and the movement of goods and people in urban areas.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 680. Spatial Data Analysis I. 3 Credit Hours.
The use of basic methods or quantitative analysis for spatial data, including basic descriptive and inferential statistics and special techniques for spatial data.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 681. Spatial Data Analysis II. 3 Credit Hours.
Social and environmental science applications of spatial statistical analysis illustrated with data and numerical simulation experiments employing interactive software. This course’s focus is on spatial auto correlation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 685. Digital Cartography. 3 Credit Hours.
Introduction to cartographic methods, interpretation, and history. Basic principles of visual representation, how to map qualitative and quantitative data, and how to prepare maps for publication and the web.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 691. Geographic Information Systems I. 3 Credit Hours.
An introduction to fundamental concepts in Geographic Information Systems (GIS) and related geographic technologies. Students are exposed to leading GIS software tools used in the industry.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GEG 692. Remote Sensing of the Environment. 3 Credit Hours.
Theory and techniques of environmental remote sensing and imagery interpretation for earth resources monitoring and management.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 693. Geographic Information Systems II. 3 Credit Hours.
An introduction to spatial analysis, which consists of techniques for analyzing patterns of and interrelationships between spatial data. Topics include vector polygon editing and topology, integration of raster and vector data, surface analysis and 30 analysis, suitability mapping, spatial modeling and multi-criteria evaluations.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 695. Web GIS. 3 Credit Hours.
Map serving technologies and internet map design, focusing on the programming concepts needed to construct and implement high-quality web mapping applications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSC 101. Origin and Evolution of Planet Earth. 3 Credit Hours.
The origin of the elements and the evolution of the universe. The differentiation of the earth into core, mantle, and crust. Origin of the oceans and atmosphere.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSC 102. Evolution of the Biosphere. 3 Credit Hours.
The physical basis of life. The origin, early evolution, history of life on Earth. Emphasis on major crises and innovations, including the evolution of modern man.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSC 103. Evolution of the Modern Earth's Environment. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSC 105. The Global Environment. 3 Credit Hours.
Anthropogenic effects on the Earth's environment compared to analogous natural events.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSC 106. Geological Influences on Society. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 107. Natural Disasters: Hollywood vs. Reality. 3 Credit Hours.
This course will explore the causes, effects and societal responses to disasters. We will look at a variety of natural hazards and related disasters including flooding, volcanoes, landslides, earthquakes, hurricanes, tsunami and drought. Using excerpted segments of ‘disaster films’ in conjunction with scientific treatments, we can identify the causes, frequency, consequences, risks, and public perceptions of natural hazards.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 108. The Geologic Record. 3 Credit Hours.
Analysis of the rock record to determine the geologic history using knowledge of rocks, minerals, fossils, and stratigraphy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
GSC 109. Our Geoheritage: Geology of America’s National Parks. 3 Credit Hours.
This course is designed to introduce the student to the geologic setting and geological processes that have contributed to the formation and evolution of America’s national parks. The concept of a national park, an American concept, provides a sense of place, and as such contributes to our collective geoheritage. For international students, this course will introduce them to diverse environmental settings, physiography, and tectonic forces that have similarly affected all the landmasses of Earth. This course will focus on the fundamental geological processes that have collaborated to form the U.S. national parks.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSC 110. The Earth System. 4 Credit Hours.
Interactions among the major components of the Earth System - the geosphere, the hydrosphere, the atmosphere, and the biosphere.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSC 111. Earth System History. 4 Credit Hours.
Earth History, beginning with earliest origins and surveying major steps in the evolution of the geosphere, atmosphere, hydrosphere, and biosphere.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSC 222. Earth’s Climate Past and Future. 3 Credit Hours.
This course will provide undergraduate students majoring in geological sciences, as well as enthusiastic non-majors, with the foundation to better understand climate change on geological to human timescales. The natural processes that control the earth’s climate will be discussed, with special attention to the climate of the Holocene, and the potential influence climate may have played on human civilizations. Finally, the expected climate shifts and feedbacks will be discussed based on the outcome of climate models for the next century.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSC 230. Reef Systems Through Time. 3 Credit Hours.
Interacting geological, physical, chemical, biological, and climatic processes that define a reefal setting and system. Field trips included.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 231. Field Studies in Earth Systems. 2 Credit Hours.
Field Study of Earth systems through geologic time. Hands-on investigation of the geologic record to reveal Earth’s past environments, climates, and life.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 240. Introduction to Marine Geology. 3 Credit Hours.
Learn about the origin, structure and evolution of the ocean basins and their margins, including interpretation of the paleo-archives hidden on the seafloor. The course material is necessarily broad, covering marine geography, plate tectonics, active and passive margins, coastal and ocean processes, sediment processes, continental margin and seafloor resources, and climate and ocean history and interactions. Our approach will be interdisciplinary, requiring integration of chemical, physical and biological systems, as well as geologic processes. A special emphasis will be placed on learning to read the sediment record as an archive of information on biologic and climate evolution.
Prerequisite: GSC 110 or GSC 111.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 260. Earth Materials. 4 Credit Hours.
Physical and optical properties of common rock-forming minerals and their occurrence in igneous, metamorphic, sedimentary rocks, and ore deposits. Lecture, 3 hours; laboratory, 4 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GSC 309. Microbes and the Environment. 3 Credit Hours.
This course is designed to provide students in geology, biology and environmental science a fundamental understanding of the role microbes play in shaping the Earth and its environments as well as the basic principles and approaches to studying these interactions in both modern and ancient settings. The metabolic diversity displayed by microbial communities makes them an integral component of global elemental cycles. In this regard, microorganisms have shaped our planet over the past 4 billion years and continue to do so in a very prominent way. The goal of this course is to learn about microbial diversity and metabolism, and the ability of microbes to shape and influence the environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GSC 311. Field Studies in Geologically Active Landscapes. 2 Credit Hours.
Field studies in volcanic and other tectonically active areas, with attention to driving processes and human impacts.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 360. Depositional and Diagenetic Systems. 4 Credit Hours.
Sedimentary processes, sedimentology, and sedimentary diagenesis. Physical, biological and chemical sedimentation in Earth’s surficial environments. Paleoenvironmental and diagenetic history reconstruction using petrologic, hand specimen, and field methods. Cyclicity in sedimentary systems. Lecture, 3 hours; field/ laboratory, 3 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GSC 371. Readings in Geological Sciences. 1-3 Credit Hours.
Library research with faculty supervision. Bibliography to be submitted in preparation for laboratory and/or field research project.
Components: DIS.
Grading: GRD.
Typically Offered: Fall & Spring.
GSC 380. Paleontology and Stratigraphy. 4 Credit Hours.
Biostatigraphy, paleoecology, taphonomy, micro- and macro-evolutionary processes, and physical and chemical methods used for stratigraphic correlation. Major groups of invertebrate phyla comprising the bulk of the fossil record. Lecture, 3 hours; laboratory, 2 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 401. Senior Internship. 3 Credit Hours.
Field and laboratory studies conducted in conjunction with an approved academic environmental or industrial research laboratory or agency.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSC 410. Environmental Geochemistry. 3 Credit Hours.
Natural distribution of the elements on earth, and how this is being changed. Radioactivity and energy, greenhouse warming and ozone depletion, water and waste and other environmental problems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSC 411. Research in Geological Sciences. 1-3 Credit Hours.
Individual, independent research projects with faculty supervision. A formal written report is required.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

GSC 412. Thesis in Geological Sciences. 1 Credit Hour.
Students will write a formal thesis summarizing the results of independent research carried out under faculty supervision.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSC 420. Geophysics. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 424. Origin and Geology of the Galapagos Islands. 3 Credit Hours.
This course explores the origin and geology of volcanic oceanic islands, using the Galapagos Islands as a natural laboratory. Though all share a common origin in plate tectonic theory, each island presents a host of environments that originate in the processes of volcanic action, erosion and hydrology. Individual islands therefore develop distinctive ecosystems within which organisms interact and evolve. The emphasis of this course will be to lay out the underlying geological processes that have led to the formation of the islands and to their present state, and to explore through daily field excursions a wide suite of volcanic features displayed on Isabela Island.
Prerequisite: GSC 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSC 440. Petrology. 4 Credit Hours.
Genesis and classification of igneous and metamorphic rocks, field relationships of rock assemblages, and results of recent laboratory investigations. Identification of common rock types in hand specimens and by thin-section and X-ray diffraction techniques. Lecture, 3 hours; laboratory, 3 hours.
Prerequisite: GSC 260.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 462. Earth's Ancient Atmospheres, Climates, and Sea Levels. 3 Credit Hours.
The Earth's atmospheres, climates, and sea level from the early Precambrian to present. Focus is placed on how the study of Earth's past is relevant to both modern and future climate change.
Prerequisite: GSC 110 and GSC 111.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 480. Structural Geology. 4 Credit Hours.
Behavior of rock materials; analysis, description and classification of geologic folds, faults, joints; analysis of rock fabrics; tectonic and geologic history of continents and continental margins. Lecture, 2 hours; laboratory, 2 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 482. Field Methods. 2 Credit Hours.
Field and laboratory exercises in mapping; interpretation of aerial and satellite imagery, coring, rock description, and stratigraphic interpretation. Course meets most Saturdays.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

GSC 488. Structural Geology. 3 Credit Hours.
Behavior of rock materials; analysis, description and classification of geologic folds, faults, joints; analysis of rock fabrics; tectonic and geologic history of continents and continental margins. Lecture, 2 hours; laboratory, 2 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSC 490. Hydrogeology. 3 Credit Hours.
Movement of subterranean water. The mechanical, chemical and thermal interaction of water with porous solids, and the transport of energy and chemical constituents. The origin of porosity and permeability. The controls exerted on aquifers by the lithology, stratigraphy and structure of geologic deposits and formations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GSC 491. Communicating Geoscience. 2 Credit Hours.
Weekly presentations and discussions. Written and oral presentations required.
Components: DIS.
Grading: GRD.
Typically Offered: Fall.

GSC 550. Hydrogeology. 3 Credit Hours.
Movement of subterranean water. The mechanical, chemical and thermal interaction of water with porous solids, and the transport of energy and chemical constituents. The origin of porosity and permeability. The controls exerted on aquifers by the lithology, stratigraphy and structure of geologic deposits and formations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GSC 580. Summer Field Geology. 4 Credit Hours.
An intensive four-week summer field laboratory study of modern geological processes and ancient rock sequences. Mapping, description and interpretation of rock and structural sequences, paleoenvironmental reconstruction, interpretation of tectonic history. Reports required. Touring course. Travel fee required.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
GSC 581. Summer Field Environmental Geology. 2 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

GSC 582. Field Studies. 1-4 Credit Hours.
Conducted field trips to selected geological sites in the United States and abroad. Report required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

German (GER)

GER 101. Elementary German I. 3 Credit Hours.
Fundamental grammatical principles; exercises to develop a foundation for skills of listening, speaking, reading, and writing; introduction to German culture. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GER 102. Elementary German II. 3 Credit Hours.
Continuation of GER 101. Building upon fundamental grammatical principles; exercises to develop a foundation for skills of listening, speaking, reading, and writing; introduction to German culture. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GER 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

GER 201. Intermediate German I. 3 Credit Hours.
Continuation of GER 102, with special emphasis on essay writing.
Components: LEC.
Grading: GRD.

GER 202. Intermediate German II. 3 Credit Hours.
Integrated grammar, writing, and conversation via content-based instruction. Diverse selection of readings: stories, plays, essays, interviews, other materials. Development of skills in a workshop format.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GER 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

GER 301. Interpreting Literary and Cultural Texts in German. 3 Credit Hours.
Tools for the interpretation and analysis of literary and cultural materials from the German-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills.
Prerequisite: GER 202.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GER 302. The Cultures of the German-Speaking World. 3 Credit Hours.
Historical survey of cultures in areas of the world where German is spoken: arts, letters, science, political and social institutions. Conducted in German. Collateral readings and reports.
Prerequisite: GER 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GER 310. German Studies in Translation. 3 Credit Hours.
Topics in German literature, philosophy, history, etc. Readings and discussion in English. Development of critical reading and writing skills. Fulfills humanities literature requirement. Does not fulfill foreign language requirement. May not be used for German minor credit.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GER 321. Special Topics in German Studies. 3 Credit Hours.
Intensive study of a special topic. May be repeated for credit when topic varies. May be used to fulfill the humanities literature requirement.
Prerequisite: GER 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GER 365. Twentieth-Century German Studies. 3 Credit Hours.
The second empire and the third Reich, the Weimar Republic, and the two Germanies. Examination of the arts, sciences, letters, and political and social institutions of twentieth-century Germanophone areas. May be used to fulfill the humanities literature requirement.
Prerequisite: GER 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GER 370. The Holocaust in History, Film, and Memorial Culture. 3 Credit Hours.
The course examines the representation of the Holocaust in historiography, film, and memorial culture. Readings will include texts by historians and writers such as Primo Levi, Raul Hilberg, Daniel Goldhagen, James Young and others; films will include, among others, Alain Resnais’s NIGHT AND FOG, Claude Lanzmann’s SHOAH, and Steven Spielberg’s SCHINDLER’S LIST. Reading-and writing-intensive course with reading and discussions in English. In addition to daily/weekly homework assignments, an in-class midterm exam and a final, cumulative take-home exam, students will also complete an extended analytical term paper. Students will also be required to watch films outside of regularly scheduled class hours.
Prerequisite: ENG 106.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GER 394. German Internship. 1-3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM-faculty supervision, as well as supervised on-site experience in a German-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: GER 202.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GER 395. Transfer Credit. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

GER 396. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

GER 397. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

GER 398. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

GER 399. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

GER 442. Advanced Stylistics and Composition. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GER 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

GER 592. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GER 594. Senior Honors Thesis I. 3 Credit Hours.
Directed research for honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

GER 595. Senior Honors Thesis II. 3 Credit Hours.
Directed writing of honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

GER 625. German for Graduate Research. 0 Credit Hours.
Grammatical structuring, verb tenses, and word families necessary for reading text with minimal use of a dictionary. May fulfill the Foreign Language Reading Competency Requirement (consult your graduate advisor.)
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GER 641. Elementary GER I for Graduate Students. 0 Credit Hours.
Designed to develop graduate students’ communicative abilities in speaking, reading, writing, and comprehension of German and provide an introduction to the German-speaking world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GER 642. Elementary GER II for Graduate Students. 0 Credit Hours.
Continuation of GER 641. Designed to develop graduate students’ communicative abilities in speaking, reading, writing, and comprehending German, as well as knowledge of the German-speaking world.
Prerequisite: GER 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GER 651. Intermediate GER I for Graduate Research. 0 Credit Hours.
For graduate students with previous study of elementary-level German. Designed to enhance graduate students’ communication skills in the German language at the intermediate level. Intended principally for students who will carry out research in the German-speaking world.
Prerequisite: GER 642.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
Typically Offered: Fall, Spring, & Summer.

GER 692. Directed Readings. 1-3 Credit Hours.
Directed Readings at the graduate level.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

Graduate School (GRD)

GRD 600. Graduate Student Training: Preventing Sexual Harassment and Sexual Violence. 0 Credit Hours.
Graduate student training offered by the Graduate School in collaboration with campus committees on the Violence Against Women Act (VAWA) and Title IX to increase awareness, and education on preventing sexual harassment and sexual violence in our community. This mandatory online session identifies roles, responsibilities and resources in preventing sexual harassment, and sexual violence in the academic environment.
Components: DIL.
Grading: NON.
Typically Offered: Fall, Spring, & Summer.

GRD 601. Graduate Student Training: Graduate Teaching Assistant Orientation. 0 Credit Hours.
Graduate Teaching Assistant orientation offered by the Graduate School and the Instructional Advancement Center focuses on University policies, procedures, and resources with which graduate students need to be familiar. This course is required for all first time doctoral students, and all graduate students who will have Teaching Assistant responsibilities.
Components: DIL.
Grading: NON.
Typically Offered: Fall, Spring, & Summer.

GRD 602. Responsible Conduct of Research Training. 0 Credit Hours.
Responsible Conduct of Research (RCR) is a critical component of research training, and is therefore an essential part of training for all graduate students conducting research. This course introduces students to basic principles of RCR and covers a series of topics including the mentor/mentee relationship, data acquisition and management, publications and authorship, ethics, and scientific misconduct, among others. The course consists of online content as well as in-person workshops and seminars.
Components: DIL.
Grading: NON.
Typically Offered: Fall & Spring.

GRD 607. Conceptos Fundamentales de la Salud Publica. 0 Credit Hours.
Las disciplinas académicas requieren de una base conceptual que guíe su desarrollo. En este curso se discuten los conceptos fundamentales de la salud pública. Como punto de partida, se analizan las diferencias y puntos de integración entre la biomedicina, la medicina clínica y la salud pública. Se identifica a la salud pública como un campo interdisciplinario que estudia los fenómenos de salud/enfermedad en poblaciones – sus determinantes, naturaleza y distribución – y la manera en que las sociedades se organizan para responder a ellos. También se examina el concepto de salud global. El curso incluye discusiones sobre la medición de las necesidades de salud, la transición epidemiológica y las formas en que los sistemas de salud han evolucionado, tanto a nivel nacional como a nivel global. English Version- Academic disciplines require a conceptual basis to guide their development. This course discusses the fundamental concepts of public health. As a starting point, we analyze the differences and points of integration between biomedicine, clinical medicine and public health. Public health is identified as an interdisciplinary field that studies health/disease phenomena in populations - their determinants, nature and distribution - and how societies organize to respond to them. The concept of global health is also examined. The course includes discussions on the measurement of health needs, the epidemiological transition, and the ways in which health systems have evolved, both nationally and globally.
Components: DIL.
Grading: NON.
Typically Offered: Fall.

GRD 608. Analisis Comparativo de las Politicas Publicas de Salud: Conceptos, Metodos y Casos. 0 Credit Hours.
En este curso se revisan los conceptos fundamentales de las políticas públicas de salud, las tipologías de los sistemas de salud diseñados por distintos expertos en el campo (Roemer, Terris, Abel-Smith, Donabedian, Frenk, Londoño) y los principios del análisis comparativo de estos sistemas. Se describen, además, los principales modelos de sistemas de salud existentes (OCDE, monopolio público, segmentado), y se discute lo que los países pueden aprender los unos de los otros sobre todo en materia de regulación, organización y financiamiento de sus sistemas de salud. English Translation- This course reviews the fundamental concepts of public health policies, the typologies of health systems designed by different experts in the field (Roemer, Terris, Abel-Smith, Donabedian, Frenk, Londoño) and the principles of comparative analysis of these systems. It also describes the main models of existing health systems (OECD, public monopoly, segmented), and discusses what countries can learn from each other especially in terms of regulation, organization and financing of their systems of health.
Components: DIL.
Grading: NON.
Typically Offered: Fall.

Greek (GRE)

GRE 101. Elementary Ancient Greek I. 3 Credit Hours.
Alphabet, pronunciation, accentuation, vocabulary, grammar, reading exercises, and written exercises.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GRE 102. Elementary Ancient Greek II. 3 Credit Hours.
Continuation of GRE 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
GREE 103. Intensive Greek for the New Testament. 3 Credit Hours.
An intensive introduction to the Koine dialect of the New Testament and Septuagint. The course is intended for students with little to no background in Ancient Greek, and covers material similar to that found in the GRE 101 and GRE 102 sequence for Attic Greek. Students leave GRE 103 prepared for GRE 201 and capable of reading extended passages from the New Testament.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GREE 201. Intermediate Ancient Greek I. 3 Credit Hours.
Reading from classical and Hellenistic authors. Building on their knowledge of elementary Greek grammar, students move toward real fluency in reading ancient Greek, and the pleasure of encountering these great authors in their original language.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GREE 202. Intermediate Ancient Greek II. 3 Credit Hours.
Reading Ancient Greek poetry. Students will read selections from Homer’s Odyssey and Iliad, with emphasis on the Homeric dialect, meter, and the oral tradition of these epics. Greek 202 prepares students for 300- and 400-level Ancient Greek poetry courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GREE 311. Plato. 3 Credit Hours.
Reading of Plato’s dialogues and letters with a view to syntax, the acquisition of vocabulary, and Plato’s prose style and philosophical thought.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GREE 321. Euripides. 3 Credit Hours.
Readings in the plays of Euripides, with an emphasis on syntax, vocabulary, dramaturgy, and the social role of tragedy in ancient Athenian culture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GREE 401. Special Topics in Greek Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle) Analogous to REL 404-409 courses. [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GREE 402. Special Topics in Greek Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle) Analogous to REL 404-409 courses. [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GREE 403. Special Topics in Greek Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle) Analogous to REL 404-409 courses. [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GREE 404. Special Projects in Ancient Greek Literature and Culture. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle) Analogous to REL 407-409 [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GREE 405. Special Projects in Ancient Greek Literature and Culture. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle) Analogous to REL 407-409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GREE 406. Special Projects in Ancient Greek Literature and Culture. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle) Analogous to REL 407-409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GREE 408. Supervised Reading in Classical Greek. 3 Credit Hours.
Variable subject matter determined by instructor and student. Analogous to REL 401-403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GREE 409. Supervised Reading in Classical Greek. 3 Credit Hours.
Variable subject matter determined by instructor and student. Analogous to REL 401-403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GREE 411. Homer. 3 Credit Hours.
Readings from the Iliad and/or Odyssey.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GREE 421. Greek Orators. 3 Credit Hours.
Readings from Lysias and Demosthenes.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GREE 422. Aristophanes. 3 Credit Hours.
Readings from Aristophanes’ plays in the original Ancient Greek.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
GRE 431. Herodotus. 3 Credit Hours.
Readings in ancient Greek from Herodotus, the 'father of history.'
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GRE 491. Directed Readings. 1-3 Credit Hours.
Content to be determined by faculty member and registering student(s).
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GRE 691. Directed Readings in Greek for Graduate Students. 0-3 Credit Hours.
Independent study in Ancient Greek, thought, literature, and culture.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

Haitian Creole (HAI)

HAI 101. Elementary Haitian Creole I. 3 Credit Hours.
Development of basic listening, speaking, reading and writing skills; focus on conversation and the grammatical fundamentals of Haitian Creole.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HAI 102. Elementary Haitian Creole II. 3 Credit Hours.
Basic listening, speaking, reading and writing skills developed in Elementary Haitian Creole 101. Students will produce more complex grammatical structures in oral and written presentations, and focus on improvement of pronunciation.
Prerequisite: HAI 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HAI 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HAI 201. Intermediate Haitian Creole I. 3 Credit Hours.
Basic listening, speaking, reading and writing skills developed in Elementary Haitian Creole 102. Continued development of communicative abilities and introduction to the cultural practices, family values, and social and environmental issues of Haiti. Include both oral and written components.
Prerequisite: HAI 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HAI 202. Intermediate Haitian Creole II. 3 Credit Hours.
Emphasis will be on speaking, listening, reading, and writing activities. In addition to the instruction of Haitian Creole, students will have a better understanding of the Haitian culture, society, and beliefs, which are an important part of this class experience. Furthermore, to help students understand the relationship between the spoken and the written forms of the language, the course will be taught entirely in Haitian Creole. While gaining an understanding of the Haitian culture and its people, students in HAI 202 will learn how to avoid cross-cultural conflicts by developing awareness for common cultural issues and beliefs associated with healthcare, education, environment, religion.
Prerequisite: HAI 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HAI 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HAI 395. Transfer Credit. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HAI 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HAI 625. Haitian Creole for Graduate Research I. 0 Credit Hours.
Basic listening, speaking, reading, and writing skills; focus on conversation and the grammatical fundamentals of Haitian Creole.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

HAI 626. Haitian Creole for Graduate Research II. 0 Credit Hours.
Continuation of 625 listening, speaking, reading, and writing skills; focus on conversation and the grammatical fundamentals of Haitian Creole.
Prerequisite: HAI 625.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HAI 641. Elementary HAI I for Graduate Students. 0 Credit Hours.
Designed to develop graduate students' communicative abilities in speaking, reading, writing, and comprehending Haitian Creole, and to provide an introduction to Haitian Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
HAI 642. Elementary HAI II for Graduate Students. 0 Credit Hours.
Continuation of HAI 641. Designed to develop graduate students’ communicative abilities in speaking, reading, writing, and comprehending Haitian Creole, and continued engagement with Haitian Studies.
Prerequisite: HAI 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HAI 651. Intermediate HAI I for Graduate Research. 0 Credit Hours.
For graduate students with some previous study of Haitian Creole at the elementary level. Designed to enhance graduate students’ communication skills in Haitian Creole at the intermediate level. Intended primarily for students who will carry out research in Haiti.
Prerequisite: HAI 642.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HAI 652. Intermediate HAI II for Graduate Research. 0 Credit Hours.
For graduate students with some previous study of Haitian Creole at the intermediate level. Designed to enhance graduate students’ communication skills in Haitian Creole at the high-intermediate level. Intended primarily for students who will carry out research in Haiti.
Prerequisite: HAI 651.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

Health Management and Policy (HMP)

HMP 270. Introduction to Health Sector Management and Policy. 3 Credit Hours.
This course develops a basic understanding of the elements of the health services industry in the United States. It examines the history of the components of our health care system and moves on to current and potential future system dynamics. Sectors include physician services, hospital and hospital systems, long-term care providers, mental health services, and pharmaceutical services. Basic concepts associated with the financing of health services are examined as well as indemnity insurance, capitation, and the role of managed care, consumer driven health care and integrated delivery systems in theory and practice. The role of government is explored as well.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HMP 310. Population Health. 3 Credit Hours.
Population health is emerging as a field of study of health determinants, a concept of health, and a goal of achieving measurable improvements in the health of a defined population. These populations can encompass geographic regions, such as communities, states, or nations, but can also be groups, including groups based on need, employees, ethnicity, members of Accountable Care Organizations, and other populations with relevance to policymakers. In this course, students will gain an understanding of the determinants of population health, health outcomes of the population, and policies and interventions that link the determinants and outcomes.
Prerequisite: HMP 270 Or HSM 270 Or MGT 270.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HMP 320. Health Care Demand and Supply. 3 Credit Hours.
This course will introduce students to the fundamental concepts of health economics, and cover the principles of microeconomic theory as they relate to health care. No previous background in economics is assumed. The basic framework of this course is to introduce students to individual behavior (demand), firm behavior (supply), and how these forces interact to determine market prices that allocate scarce health care resources. Students will learn how policies, such as the Affordable Care Act of 2010, can be viewed via the lens of health economics.
Prerequisite: HMP 270 Or HSM 270.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HMP 350. Production and Consumption of Health and Health Care. 3 Credit Hours.
All societies must deal with the allocation of scarce resources. In our society, primary reliance is placed on markets and prices. This course will introduce students to the application of economic principles and production and consumption of health and health care. Some of the major topics include the production of and demand for health, demand for and supply of medical care, uncertainty and insurance, models of physician and hospital behavior, externalities and market failure, the role of government in health and medical care, and economic evaluation of health care services and interventions. Health economics concepts will be linked to current policy debates at the state and federal levels. Numerous real-world applications and case studies will be presented to demonstrate decision-making techniques for health care organizations and consumers.
Prerequisite: HMP 270 Or HSM 270 Or MGT 270 And ECO 211 And ECO 212.
Components: LEC.
Grading: GRD.

HMP 388. Health Care Marketing. 3 Credit Hours.
This course is devoted to the study of healthcare marketing and the healthcare system involved with the task of marketing products and services. As healthcare reform continues to evolve current market conditions transform existing organizations into new practices, this course will focus on the how managed care providers, physicians, federal government, device and pharmaceutical companies will embrace the new patient centered market in their marketing strategies.
Non-Business students And Health Management and Policy minors And Sophomore Standing or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
HMP 460. Health Care Law and Ethics. 3 Credit Hours.
This course is designed to offer students an appreciation of the legal foundations and ethical considerations in healthcare administration in the U.S. The readings and classroom discussion assist the student in (1) understanding the legal framework of relationships and institutions in healthcare, and (2) appreciating some of the particularly delicate ethical implications of decision-making in this field. Case study will promote the ability to analyze both. Special emphasis is placed on discussion of ethical issues in healthcare administration, including access to care, allocation of scarce resources and privacy.
Non-Business students And Health Management and Policy minors And Sophomore Standing or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HMP 496. Directed Studies in Health Sector Management and Policy. 1-3 Credit Hours.
Supervised readings, individual research project, or independent investigation of selected non?STEM related problems in the discipline.
Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HMP 497. Directed Studies in Health Sector Management and Policy. 1-3 Credit Hours.
Supervised readings, individual research project or independent investigation of selected STEM?related problems in the discipline.
Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HMP 498. Special Topics in Health Sector Management and Policy. 3 Credit Hours.
Special topics in selected non?STEM areas of Health Management and Policy.
Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HMP 499. Special Topics in Health Sector Management and Policy. 3 Credit Hours.
Special topics in selected STEM areas of Health Management and Policy.
Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HMP 555. Health Management and Policy Departmental Honors Research. 3 Credit Hours.
Research project to fulfill requirements for Departmental Honors in Health Management and Policy.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

HMP 601. Essentials of Health Care Administration. 1-4 Credit Hours.
The goal of this course is to develop an understanding of the basic elements of the health services industry in the United States. A systems approach will be used utilizing a historical perspective as a basis and moving on to current and potential future system dynamics. This course will allow the student to understand the health care system, including physician services, hospital and hospital systems, long-term care providers, mental health services, and pharmaceutical services. Health care labor markets will be examined. Various elements associated with the financing of health services will be analyzed as well including indemnity insurance, capitation, and the role of managed care, accountable care organizations, and consumer driven health care in theory and practice. The role of government and its impact on our health care system will be understood as well. Alternative health care systems looked at from a global perspective will be analyzed, and possible application to the U.S. health care system will be evaluated.
Components: LEC.
Grading: GRD.

HMP 610. Management and Economics of Healthcare. 3 Credit Hours.
The purpose of this course is to provide the student insight into organizational and economic aspects of the various sectors and agents within the health care industry. Exploration will allow us to understand how such aspects in turn affect performance measured in terms of managerial, economic and ethical criteria. The course will explore issues associated with scarce resource allocation and distributional justice. We will examine the organizational structure, behavior, interactions between structure and behavior, and the resultant performance of the various sectors of the health care industry, including models of hospital management behavior, operations of alternative services markets, and the market for physicians and physician service as well as the market for nurses. Aspects of risk will be examined and the impact of governance on economic behavior and performance in the marketplace.
Components: LEC.
Grading: GRD.

HMP 620. Population Health. 1-4 Credit Hours.
Role of public and private institution in health promotion, health care delivery, and health insurance. Explains how and why government and society attempt to influence health-related behaviors and the resulting effects on individuals’ lives.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HMP 640. Health and Medical Decision Making. 1-4 Credit Hours.
Population health is emerging as a field of study of health determinants, a concept of health, and a goal of achieving measurable improvements in the health of a defined population. In this course, students will gain an understanding of the determinants of population health, health outcomes of the population, and policies and interventions that link the determinants and outcomes while exploring the business case for health.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
HMP 650. Health Care Administration Capstone/Internship. 2-4 Credit Hours.
The internship is an integral part of the Health Care Administration curriculum and will be planned in terms of the intern's abilities, needs, and interests. The internship experience is strengthened by the relationships with the SBA's Health Advisory Board, Executive MBA in Health Sector Management and Policy program alumni, and the University of Miami Hospital. Students preparing for an internship experience must be active in planning their internship by seeking advice and assistance from their faculty advisor.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HMP 655. Public Policy and Health. 1-4 Credit Hours.
Role of public and private institution in health promotion, health care delivery, and health insurance. Explains how and why government and society attempt to influence health-related behaviors and the resulting effects on individuals' lives.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HMP 683. Professional Skills Development. 2-4 Credit Hours.
This seminar immerses students in experiences designed to enhance their professional skills. The course incorporates presentations by health care administrators including lectures on current topics in health care administration and health services research, facilitates faculty and student interaction via discussion of relevant peer-reviewed journal articles, and includes site visits to health care facilities.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HMP 684. Analysis of Health Care Delivery and Policy. 2-3 Credit Hours.
All societies must deal with the allocation of scarce resources. In our society, primary reliance is placed on markets and prices. Since most students are unfamiliar with the methods of decision-making from a manager's perspective, we will discuss criteria to evaluate the allocation of resources and analyze the behavior of two of the principal actors - consumers and firms. A careful analysis of the choices made by individuals, organizations, and governments will demonstrate that sensible "choice architecture" can successfully nudge people toward better decisions without restricting their freedom of choice. The principles of economic and management decision-making will be presented in the context of health care systems and markets. We will use numerous real-world issues and case studies to demonstrate decision-making techniques, especially for health care organizations and consumers.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HMP 687. Health Care Organization, Economics, and Ethics. 3 Credit Hours.
The course will allow understanding and analysis of issues associated with scarce resource allocation and the evolutionary movement from patient focused to population focused to patient centered care including Accountable Care Organizations and the concept of value vs. volume. Students will understand and analyze the organizational structure, behavior, interactions between structure and behavior, and the resultant performance of the various sectors of the health care industry, including models of hospital management behavior, operations of alternative services markets, physicians as small businesses, group practices and employees, the market for physician services, the market for nurses, the issue of risk and risk sharing, and the impact of government on organization, behavior and performance in the market place. Principles of medical ethics will be learned and understood and application, analysis and creative resolution of ethical dilemmas will be undertaken. The relationships between organization, incentives, and ethical performance will be analyzed using modern issues and cases that health care managers, policy makers and providers face in the industry today. The interrelationships between managerial and system goals, economic parameters, and moral and ethical considerations will be applied and analyzed as well.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

Healthcare Sciences (HCS)

HCS 200. Summer Scholars Program. 3 Credit Hours.
This course focuses on current health care issues and the health care system as well as the future direction of health care.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

HCS 202. Introductory Statistics in Health Care. 3 Credit Hours.
Application of descriptive and inferential statistics. Principles and methods of summarizing data including tables, graphs, percentile ranks, central tendency, variability, normal distribution. Basic concepts of probability, hypothesis testing, and analysis of variance. Examples and problems from nursing, health sciences and public health.
Corequisite: MTH 101. Or Requisite: ALEKS > or = 55 or SAT Score > or = 630 or ACT > or = 28.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HCS 207. Introduction to Pharmacology. 3 Credit Hours.
Introduction to the basic principles of therapeutic pharmacology. Special consideration of cultural beliefs and folk medicine included. Emphasis is on the understanding of the different classes of drugs and their application in various health care settings.
Prerequisites: BIL 150 and CHM 103 or 111 or 121 and HCS 212/215.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HCS 212. Human Anatomy. 3 Credit Hours.
Emphasis is on the understanding of the anatomical compartments of the human body and the ability to identify the bony skeleton, musculatures, blood vessels and internal organs of each compartment. Prerequisite: BIL 150.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HCS 213. Human Anatomy Laboratory. 1 Credit Hour.
Laboratory to accompany HCS 212. Pre or Corequisite: HCS 212.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

HCS 215. Principles of Systemic Physiology. 3 Credit Hours.
Emphasis is on the understanding of the Physiology and selected Pathophysiology of various organs and systems. Prerequisite: HCS 212. And Pre or Corequisite: CHM 111 or CHM 121 or CHM 103 and CHM 113 or CHM 105.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HCS 216. Principles of Systemic Physiology Laboratory. 1 Credit Hour.
Laboratory to accompany HCS 215 Pre or Corequisite: HCS 215.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

HCS 217. Medical Terminology. 1 Credit Hour.
This course will assist the student in understanding the principles of medical word building in order to develop the extensive medical vocabulary used in health care professions. Students receive a thorough grounding in basic medical terminology through the study of root words, prefixes and suffixes. The course emphasizes correct pronunciation, spelling and use of medical terms. Prerequisite: BIL 150.
Components: CLN.
Grading: GRD.
Typically Offered: Fall.

HCS 218. Medical Terminology Laboratory. 1 Credit Hour.
Laboratory to accompany HCS 217. Pre or Corequisite: HCS 217.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

HCS 352. Biological Principles of Public Health. 3 Credit Hours.
This course examines the biological basis and pathogenesis of diseases from a public health perspective and describes the impact on populations. This course also presents the basic scientific and biomedical concepts of modern public health problems and explores in depth mechanisms and models of the major categories of disease. The biologic principles presented in this course are foundations to developing and implementing public health disease prevention, control, or management programs.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HCS 355. Global Nutrition. 3 Credit Hours.
This course examines nutrition related public health issues in the global setting. Nutrition related morbidity and mortality, etiologic factors, and population-focused strategies to address these issues are covered. Food relief and nutrition policies and programs at the local, national and international levels are examined. Current scientific research in international nutrition is reviewed from an epidemiological perspective.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HCS 402. Global Health Disparities Research. 3 Credit Hours.
This is a 4 week intensive educational experience that prepares students to be successful conducting supervised health disparities research as part of the MHIRT program at a foreign institution, disseminating findings, and applying to graduate school. The training program is broken into a preparation phase (3 weeks prior to leaving to their host country), and a dissemination phase (1 week after they return). Students will be working as a research assistant at a foreign site for eight weeks in between the preparation and dissemination phases of this training program. Students will learn about the influence of culture and healthcare policy on health and health disparities, research design, statistics, communicating research findings and careers in health disparities research.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HCS 461. Health Disparities Research Practicum. 1-4 Credit Hours.
This course is designed to provide opportunities for students across all levels of higher education to participate in health disparities research. Students will be mentored by a health disparities researcher with an active research project. Objectives will be established by the research mentor and the student according to educational level, interests and opportunities. Students will be incorporated into the research team and expected to attend project meetings. They will also be expected to participate in scholarly work that could contribute to the success of the project. Examples of scholarly work include co-authoring research papers and presentations, developing recruitment materials, assisting in compiling/developing data collection measures, or any other product deemed appropriate by the mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HCS 465. Public Health Statistics and Data Management. 3 Credit Hours.
This course is designed to give students an opportunity to apply basic principles of statistics and data management in public health. Students will learn to use statistical techniques to answer questions relating to the morbidity and mortality of health conditions and the efficacy and effectiveness of public health interventions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
HCS 487. Global Health Practicum. 3 Credit Hours.
Collaborative clinical venture between UM/SON and an International School of Nursing. Students will exchange supervised western clinical experiences, knowledge and skills for the care of clients and families in specialty areas, including MedSurg, Surgery, ICU and/or Emergency nursing units. Students will apply and synthesize basic science knowledge and skills that foster ethical, legal and culturally specific health care.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HCS 499. Selected Topics. 0-6 Credit Hours.
A selected topics course is offered as needed in order to present emerging issues or specialized topics that are not part of the regular curriculum.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HCS 600. Public Health Information. 3 Credit Hours.
This course will provide an overview of important health issues as they relate to public health and epidemiology. Principles and methods of public health surveillance and epidemiology will also be presented. Through hands-on assignments students will learn how patient databases and computer information systems and technologies may be utilized to address important issues in public health.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

HCS 601. Legal, Ethical and Regulatory Issues in Health Informatics. 3 Credit Hours.
This course will address the legal, social, ethical and regulatory issues that impact the use health information systems and computerized technology for health care delivery. In addition to an in-depth examination of the legal and regulatory standards that govern health informatics, emphasis will be placed on ethical decision-making and the importance of mitigating liability though the application of various risk-management strategies. Case studies will be used extensively to afford students an opportunity to apply the information they have learned in the course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HCS 603. Healthcare Databases: Design, Development and Clinical Application. 3 Credit Hours.
This course focuses database systems, development, design, and implementation within the context of health care. Special emphasis is placed on the role of database applications for continuous quality improvement and regulatory compliance. Students will design a relational database applicable to informatics leadership responsibilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HCS 604. System Life Cycle/Project Management. 3 Credit Hours.
This course covers the identification and development of information technology plans for projects supporting the health care organization's business objectives and all activities required in the initiating, planning, executing, controlling, and closing phases of the project's life cycle. This course is intended to provide the body of knowledge and best practices necessary for a new Consultant, Business Analyst or Project Manager to successfully perform his/her responsibilities on an IT enterprise project.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HCS 605. Health Information Exchange. 3 Credit Hours.
This course is designed to introduce the informatics professional to the basic principles of Health Information Exchange. The focus will be on interoperability between ambulatory clinics, acute care facilities and long-term care; electronic health records; electronic prescribing systems and consumer health care informatics. Special emphasis is placed on the role of HIE in the American Recovery and Reinvestment Act.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HCS 608. Information Security. 3 Credit Hours.
This course will emphasize the importance of information security and discuss strategies and legal requirements for restricting data access and ensuring privacy. Such strategies will include discussion of industry standards for physical security, as well as hardware and software safeguards. The challenges that new and emerging technologies will present with regards to data integrity and security will also be emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HCS 609. Research Methods and Applications for Health Informatics. 3 Credit Hours.
In this course students will be introduced to basic research methodology and design for health sciences and medicine as well as role informatics can play in research related to medicine, public health and biomedical sciences. Students will also be exposed to bioinformatics, a discipline of informatics concerned with the acquisition, storage, and application of use of information for biomedical research. The course will include research seminars given by guest speakers who are conducting research using health informatics.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

HCS 610. Elective in Health Informatics. 3 Credit Hours.
The elective course is designed to expose students to various aspects of health informatics and its many applications.
Components: DIL.
Grading: GRD.
Typically Offered: Summer.
HCS 611. Capstone in Health Informatics. 3 Credit Hours.
In the capstone course students will assimilate and apply the knowledge and skills they have acquired from their course work in the program. Students will complete a non-thesis capstone project that requires them to critically analyze and solve a problem they might realistically encounter in health informatics using their skills in data acquisition, project management, data presentation, and risk management. Students will also develop and submit an electronic portfolio that contains key examples of work they have generated during their time in the program along with a self-reflection of that work.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HCS 658. Structure and Processes in Health Care Organization and Health Care Policy. 3 Credit Hours.
An exploration of health care organizations and health care policy, and how change is affected in both. Health care policy and planning to address health care disparities at the local, state, and federal levels will be explored. Organizational diagnosis, organizational change, and ethical dimension of public policy formulations and implementation will be highlighted.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HCS 685. Introduction to Health Informatics. 3 Credit Hours.
The course develops an understanding of the role of information systems and technology within a healthcare organization. It examines the business and technical issues associated with the selection, deployment and use of health informatics, both in the clinical and back office areas. Health informatics, for the purpose of the course, is defined as the convergence of information technology, information management, and health care, at various levels, ranging from simple data gathering, to the design and implementation of new health care information systems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

Hebrew (HEB)

HEB 101. Elementary Hebrew I. 3 Credit Hours.
Grammatical principles: reading for comprehension and conversation; oral and written exercises. Normally, closed to students who have completed two years of high school Hebrew. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HEB 201. Intermediate Hebrew I. 3 Credit Hours.
Prerequisite: HEB 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HEB 202. Intermediate Hebrew II. 3 Credit Hours.
Continuation of 201 with oral presentations, compositions, and grammar review. Class conducted in Hebrew. Closed to native speakers.
Prerequisite: HEB 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HEB 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HEB 395. Transfer Credit. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HEB 641. Elementary HEB I for Graduate Students. 0 Credit Hours.
Designed to develop graduate students’ communicative abilities in speaking, reading, writing, and comprehending Hebrew, and to provide an introduction to the Hebrew-speaking world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HEB 642. Elementary Heb II for Graduate Students. 0 Credit Hours.
Continuation of HEB 641. Designed to develop graduate students’ communicative abilities in speaking, reading, writing, and comprehending Hebrew, and continued study of the Hebrew-speaking world.
Prerequisite: HEB 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HEB 651. Intermediate HEB I for Graduate Research. 0 Credit Hours.
For graduate students with previous study of elementary-level Hebrew. Designed to enhance graduate students’ communication skills in the Hebrew language at the intermediate level. Intended principally for students who will carry out research in Judaic Studies or related to the Hebrew-speaking world.
Prerequisite: HAI 642.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
HEB 652. Intermediate HEB II for Graduate Research. 0 Credit Hours.
For students with previous study of Hebrew at the intermediate level. Designed to enhance graduate students’ communication skills in the Hebrew language at the high-intermediate level. Intended principally for students who will carry out research in Judaic Studies or related to the Hebrew-speaking world.
Prerequisite: HEB 651.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

History (HIS)

HIS 101. History of the United States, I (to 1877). 3 Credit Hours.
Political, social, and economic development of the United States through Reconstruction.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 102. History of the United States, II (since 1877). 3 Credit Hours.
Political, social, and economic development of the United States since Reconstruction.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 121. Emperors, Shoguns, and Concubines: East Asia, Origins-1800. 3 Credit Hours.
Examines the history of East Asia to 1800.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 122. The Dragon and the Rising Sun: East Asia, 1800-Present. 3 Credit Hours.
Examines the history of East Asia since 1800.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 131. Europe from Antiquity to 1600: An Expanding World. 3 Credit Hours.
A survey of European history from antiquity to the early modern period, focusing on key political, social, economic, and cultural developments, as well as European interactions with the wider world.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 132. The Birth of Modernity: Europe 1648 to the Present. 3 Credit Hours.
A survey of the development of the West from the formation of modern European nation states in the sixteenth and seventeenth centuries to the present, emphasizing the rivalry of European powers, the impact of European expansion, the effect of industrialism and revolution upon Western society, and the role of the New World.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 161. History of Latin America, I (to 1824). 3 Credit Hours.
A survey of Spanish and Portuguese America from the pre-Columbian era through the end of the colonial period.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 162. History of Modern Latin America (1800-present). 3 Credit Hours.
A survey of the national period in Latin American history, emphasizing the political and social issues in the transition from colonialism to nationhood.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 192. Studies in History. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 201. History of Africa I (to 1800). 3 Credit Hours.
History of Africa before the Colonial period, emphasizing sources for the study of African history, African political and social institutions, the slave trade, and ‘legitimate’ trade and markets.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 202. History of Africa, II (since 1800). 3 Credit Hours.
The emergence of modern Africa from about 1800 to the present, emphasizing the European conquest of Africa, African responses to colonialism, independence and the post-independence period.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 203. The African Diaspora in South Florida. 3 Credit Hours.
The African Diaspora in South Florida through a close analyses of three junctures in the history of the Black experience: The slave trade, abolition and emancipation; the migration of various African-descended peoples from the Caribbean and Latin America to South Florida; and the more recent arrival of people from the Africa.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 209. African-American History to 1877. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
HIS 210. African-American History, 1877-PRESENT. 3 Credit Hours.
History of people of African descent in the United States from 1877 to present.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 211. Epics, Gods, Kings: Pre-Mofern India 2500 B.C.E. to 1600 A.D.. 3 Credit Hours.
This course will explore the history, culture and political economy of India tracing it thematically from 2500 B.C.E. to 1600 A.D.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 212. The Mughals and the British (1526-1947). 3 Credit Hours.
A survey of historical India, covering the modern states of India, Pakistan, and Bangladesh, that highlights social and religious identities, modernization, nationalism, the “women question,” partition, and independence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 220. History of European Sexuality. 3 Credit Hours.
The history of European sexuality from the Greeks to the present day.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 223. Medicine and Society: From the Ancient World to the 21st Century. 3 Credit Hours.
Medicine and society presents a historical survey of the development of western medicine and public health from the earliest times to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 224. History of the Modern Business Enterprise. 3 Credit Hours.
This course examines the history of big business in the nineteenth and twentieth centuries. Drawing often on individual firm histories, its focus will be a comparative study of the big business experience in America, Europe, Asia, and the imperial world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 225. History of Mexico: Guns and Tortillas, or, How Mexico Became Mexican. 3 Credit Hours.
Culture and ideology of the Mexican Revolution.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 226. Origins and History of the Russian Revolution. 3 Credit Hours.
The background and events of the Russian Revolution.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 227. Nationalism: Love thy Brother, Hate thy Neighbor?. 3 Credit Hours.
This lower-division lecture course will offer an introductory thematic overview to the ideas and politics of nationalism throughout the globe.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 228. Holy War and Toleration in Western Religious Traditions. 3 Credit Hours.
An exploration of concepts of Holy War and Just War and of traditions of tolerance and intolerance in Judaism, Christianity, and Islam, from ancient times to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 229. Consumer Society: A Global History. 3 Credit Hours.
In the United States we are surrounded today with a seemingly limitless variety of consumer goods, and we are offered constant reminders of the increasingly globalized nature of modern life. Too often, however, such commentary reflects a shocking lack of perspective about the origins and evolution of these trends. This course encourages a deeper understanding by exploring the history of how consumer societies emerged across the world. Spanning an arc from the eighteenth century to the present, the course looks at the social and cultural impact of global consumables (ranging from food to automobiles) in the Americas, Europe, Asia, and other regions. The readings and lectures consider the social, ethical, and environmental problems associated with the rise of global consumption.
Components: LEC.
Grading: GRD.

HIS 253. History of Mexico: Guns and Tortillas, or, How Mexico Became Mexican. 3 Credit Hours.
Culture and ideology of the Mexican Revolution.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 255. Atlantic Crossings: Slavery in Latin America. 3 Credit Hours.
The history of African slavery in Latin America from the fifteenth century to the final abolition of slavery in Brazil in 1888.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 256. The Founders: Fact and Fiction. 3 Credit Hours.
Explores the history of the American founders.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 267. Making History. 3 Credit Hours.
Focus is on a series of topics that allow students to deepen their understanding of the worlds we have often lost or about which we know little by approaching them in innovative historical ways. Topics will include Material Culture in Early America, Oral History and the Making of the Modern World, Caribbean Rituals, Law and Society in the Americas, as well as Early Modern Religious Cultures, among others. Recommended for potential History majors and minors, as students will benefit from limited class sizes, receive one-on-one attention from professors, and much emphasis is placed on learning researching and writing skills.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 269. Homoeroticism: A Global History from Socrates to Harvey Milk and Beyond. 3 Credit Hours.
A global overview of male same-sex desire, love, sex, and culture. From ancient Greeks to Latin America to the modern gay rights movements, this class examines both behavior and ideology as they concern male homo- and bisexuality. Topics include: Socrates, ideal male love, ancient Romans, medieval and Renaissance Europe, Latin America, machismo, male love without sex, queer esthetics, gay rights movements, urban queer culture, film, literature, HIV/AIDS, same-sex marriage, and the 21st century moment. Authors and filmmakers examined may include Plato, St. Augustine, Michel Foucault, David Halperin, Jamie O’Neill, Oscar Wilde, Jean Genet, Luis Zapata, Andre Gide, Andrew Holleran, Gore Vidal, Tennessee Williams, Rainer Fassbinder, Kenneth Anger, James Baldwin.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 271. American Political History Since 1960: Policy, Public History, and Modern Media. 3 Credit Hours.
Explores selective elements of modern American politics, policy studies, media, and public history, predominantly since 1960.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 282. The History of Zionism. 3 Credit Hours.
The religious, cultural, historical, political and social underpinnings of the development of Zionism that fed to the creation of the State of Israel. Through readings, analysis of speeches and essays, exploration of films and the internet, the class will move through time from the origins of the Zionist idea to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 284. The Second World War. 3 Credit Hours.
The Second World War: Analysis of its origins, the military and political course of events, and its consequences, such as the cold war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 285. The origins and history of the Third Reich. 3 Credit Hours.
This lecture course offers a comprehensive survey of the history of Nazi Germany from early pre-fascist movements before World War I to the final ignominious collapse of the Nazi regime in 1945.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 290. The Beach: The Beach as Place, Space, and Event in World Historical Context. 3 Credit Hours.
History of the beach as a particular geographic place and space in human history in comparative world context. Themes and issues include tourism, socio-economic factors in beach access, beach-related industries, immigration, cultural contact, exploration, ‘beach life,’ surfing, ethnicity, segregation, and politics of real estate.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 291. The Sea in History. 3 Credit Hours.
Human relations with the sea from prehistoric times to the present and across the globe. It will look at the spread of peoples, ideas, religions, and goods across the seas, and the role of networks, empires, and navies in this history.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 292. Transfer Credits. 1-5 Credit Hours.
Courses for which there is no direct equivalent.
Components: LEC.
Grading: GRD.

HIS 293. Transfer Credits. 1-5 Credit Hours.
Courses for which there is no direct equivalent.
Components: LEC.
Grading: GRD.

HIS 294. Transfer Credits. 1-5 Credit Hours.
Courses for which there is no direct equivalent.
Components: LEC.
Grading: GRD.

HIS 296. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated parenthetically following course title in class schedules.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HIS 297. History Internship. 3 Credit Hours.
Provides history students with the opportunity to obtain credit for an internship with the approval and under the close supervision of a faculty member.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 301. Miami Engagement: History, Media, and Social Change. 3 Credit Hours.
This seminar-style course will examine the history, theory, and practice of civic engagement, community history, and social change in the United States. We will look at four overlapping areas of interest: the meanings of civic engagement in American history; the roles of history and memory in shaping place and community; the role of the media in structuring stories about history and community; and grass-roots activism and its role in reinvigorating and reshaping public spheres in America. We will pay particular attention to the factors that have promoted inclusion and engagement, as well as those that have led to disenfranchisement and alienation. We will look at efforts by local, national, and even global activists to connect to communities large and small. And we will ask how the issues of memory, place, community, civil society, and global citizenship form a matrix around which to understand and shape broad-based collaboration among students, faculty, community residents, and civic organizations.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

HIS 302. History on Trial: Law and American Society. 3 Credit Hours.
The relationship between social history, the law, and politics in American society. More than legal history, this is a problem-based, interdisciplinary course that bridges history, political science, legal studies, and sociology to understand the historical context that informs major lawsuits that shaped American Jurisprudence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 304. Slavery and Cinema: Commodifying History in Hollywood. 3 Credit Hours.
Spanning a century of films, slavery is a topic that attracts filmmakers and audiences alike, creating some of the most acclaimed blockbusters and the most disparaged films in the industry. Within this broad sweep, the course will engage two animating questions: 1) in what ways, and why, have depictions of slavery changed over a century and 2) what is at stake when mass culture commodities history?
Components: LEC.
Grading: GRD.

HIS 306. The Modern Near East. 3 Credit Hours.
The Near East since 1453, emphasizing the Ottoman Empire, Arab nationalism and Zionism, the Mandate System, and the Arab-Israeli conflict.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 308. West Africa since 1000 A.D.. 3 Credit Hours.
The Sudanic empires, the spread of Islam, the slave and legitimate trades, the establishment of European colonies, and the struggle for independence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 309. History of Southern Africa. 3 Credit Hours.
The establishment of the Dutch settlements and the apartheid system, African responses to European domination, and the collapse of apartheid and the emergence of a multi-racial South Africa.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 310. Africa in Cuba/Cuba in Africa: Slave Trade to Cuban Internationalist Missions in Africa.. 3 Credit Hours.
The relationship between Cuba and Africa from the period of the slave trade to the late 1990s.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 311. Gandhi and the making of Modern India. 3 Credit Hours.
This course will study Gandhi's practice of civil disobedience and non-violent movement against the British Empire, as well as his theories and praxis regarding moral discipline, critique of modernity and alternative vision of civil society and policy.
Components: LEC.
Grading: GRD.

HIS 312. Femininity, Masculinity, and Sexual Politics in Indian History. 3 Credit Hours.
A thematic study of gender and sex in ancient, medieval, and modern India, focusing on social constructions of identity, sexual politics, social and religious gender roles, and contested histories of womanhood.
Components: LEC.
Grading: GRD.

HIS 313. Bollywood and Beyond: Religion, Gender and Politics in South Asian Film. 3 Credit Hours.
Themes in Indian society through the lens of Indian cinema - both Bollywood and the regional film industry. The important themes covered are: the complex narratives of caste, myth, politics, gender, sexuality, and the challenges of modernity in India.
Components: LEC.
Grading: GRD.

HIS 314. Rise of a Superpower. 3 Credit Hours.
History of China from the origins of Chinese civilization to 1798.
Prerequisite: One HIS Course.
Components: LEC.
Grading: GRD.

HIS 315. Imperial China. 3 Credit Hours.
History of China from the origins of Chinese civilization to 1798.
Prerequisite: One HIS Course.
Components: LEC.
Grading: GRD.

HIS 316. Modern China. 3 Credit Hours.
The relationship between Cuba and Africa from the period of the slave trade to the late 1990s.
Components: LEC.
Grading: GRD.

HIS 317. History of Southern Africa. 3 Credit Hours.
The establishment of the Dutch settlements and the apartheid system, African responses to European domination, and the collapse of apartheid and the emergence of a multi-racial South Africa.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 317. History of the Caribbean, I. 3 Credit Hours.
Caribbean history major topics, debates, and themes from the fifteenth to early nineteenth centuries; the centrality of the Caribbean to larger world histories of conquest, colonialism, slavery and emancipation, capitalism, migration, religious transformation, republicanism, and nation-state formation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 318. Modern Caribbean History. 3 Credit Hours.
Major topics, debates, and themes in Caribbean history from the late eighteenth century to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 325. The Early Middle Ages: Europe, 450-1095. 3 Credit Hours.
Western historical development from the collapse of the classical ancient world to Europe's emergence as a distinct and viable civilization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 326. The High and Late Middle Ages: Europe 1095-1500. 3 Credit Hours.
The mature medieval civilization and its transformation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 327. The Renaissance in Italy. 3 Credit Hours.
Cultural, social, economic, religious and political life in Renaissance Italy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 328. Reformation Europe. 3 Credit Hours.
The history of the 16th-century religious revolution known as the Reformation. Course focuses on its causes, development, and especially its political, social, and cultural consequences.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 330. The Scientific Revolution. 3 Credit Hours.
Transition between medieval science and Newtonian physics, focusing on sixteenth- and seventeenth-century developments in medicine, cosmology, physics, and scientific method.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 331. England to the Accession of the Tudor Dynasty (to 1485). 3 Credit Hours.
The Creation of England and its development during the medieval period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 332. England, 1485-1688. 3 Credit Hours.
England under the Tudors and Stuarts. Topics include: the monarchs and the monarchy; relations between England, Ireland, and Scotland; Henry VIII and the English Reformation; puritanism and society; popular culture; the city of London; the English Civil War; the 'Glorious Revolution' of 1688.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 333. England and the Empire in the Age of Queen Victoria (1815-1901). 3 Credit Hours.
Victorian Britain, emphasizing the manners, politics, and empire building, and the exploitation and humanitarianism of the century of Pax Britannica.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 334. Britain and the Commonwealth in the Twentieth Century. 3 Credit Hours.
The challenges and changes in Britain and its overseas dominions in the century of total war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 335. The French Revolution and Napoleon (1789-1815). 3 Credit Hours.
An analysis of French history from the Revolution to the collapse of the Napoleonic Empire, stressing the passing of feudalism in France.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 336. Modern French History. 3 Credit Hours.
This course covers the political, social, cultural, economic, and military history of France since 1870. Major themes include power and decline, the weight of historical memories, issues of French identity, and the central role of the French state.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 337. Modern European Jewish History. 3 Credit Hours.
Jewish history in Europe since 1789, emphasizing the effects of the Enlightenment, nationalism and Nazism, Jewish life in Western Europe and in the communist bloc, and the impact of Israel.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 338. The Holocaust in Historical Perspective. 3 Credit Hours.
The evolution and implementation of the theory of racialism in imperial Germany and the Third Reich.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 339. From Luther to Napoleon: Germany, 1500-1800. 3 Credit Hours.
German history from the Reformation through the reorganization of the German states after the Napoleonic Wars (1815) with emphasis on the federal character of early modern Germany, religion, and topics of social and economic change.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 340. History of Modern Germany since 1815. 3 Credit Hours.
German history since 1815 concentrating on the political and social history of the German Empire, Germany's role in World War I, the Weimar Republic and the rise of Hitler, Nazi Germany, and developments since 1945.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 341. History of the Third Reich. 3 Credit Hours.
A comprehensive survey of the history of Nazi Germany from the pre-fascist movements before World War I to the final collapse of the Nazi regime in 1945.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 343. Ages of Gold and Silver: An Economic and Social History of Europe, 1450-1750. 3 Credit Hours.
Economic and social history of Europe in the early modern period. Writing intensive course.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 346. Imperial Russia. 3 Credit Hours.
Domestic political, social, economic and cultural developments, and foreign affairs in Russia from the beginning of the 19th century to the Russian Revolution of 1917.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 347. Soviet Union and Post-Soviet Russia. 3 Credit Hours.
The Soviet Union from the Russian Revolution (1917) to the disintegration of the USSR (1991), and the post-Soviet period to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 348. Europe in the Age of Hitler and Stalin. 3 Credit Hours.
This course covers European history between 1914 and 1945. Principal topics include the experience of two world wars, the rise of fascism and communism, the challenge of democracy, and the failure to secure a lasting peace.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 349. European Diplomatic History from Bismarck to the Cold War. 3 Credit Hours.
European Diplomatic History from the Revolutions of 1848 to the Cold War period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 350. Europe and the World in Modern Times. 3 Credit Hours.
This course examines European relations with the wider world over the past several centuries. It combines the perspectives of the history of European exploration and expansion, imperialism and decolonization, global transport and trade, world wars, and globalization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 351. Science and Society. 3 Credit Hours.
The relationships between science and society, historically and in contemporary life.
Components: LEC.
Grading: CNC.
Typically Offered: Offered by Announcement Only.

HIS 352. The Inquisition. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 353. History of Cuba. 3 Credit Hours.
The development of the Cuban nation, emphasizing the nineteenth and twentieth centuries and the Castro revolution. This course will concentrate on studying 'Cuba After Castro'. We will analyze various scenarios for 'change' and what implications these will have for the next administration in Washington DC as well as in other parts of the world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 354. Latin America's Urban Explosion: 1900-2010. 3 Credit Hours.
Examines major facets of Latin America's urban transformation, 1900-2010. Studies urbanization from the perspectives of multiple disciplines including architecture, photography, art history, music, cultural studies and political science. Major themes include: architectural modernization and cultural change; industrialization and the emergence of professional sports; rural-urban migration and the proliferation of shanty towns; the emergence of mass politics; the expansion of the informal sectors; and the growth of social violence, drugs and crime.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 355. Modern Brazil. 3 Credit Hours.
The history and culture of modern Brazil.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 356. History of Argentina's Civilization, Barbarism, and Power.. 3 Credit Hours.
How did a country that was supposedly so prosperous and advanced become a land of perennial crisis? Countless observers have posed variations on this question in seeking to make sense of the 'Argentine riddle'. This class will provide students with an introduction to the fascinating history of Argentina. We will reject pat explanations of the 'riddle' to examine instead the array of cultural, political, and economic forces that have shaped Argentine society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 357. Social History of Latin America. 3 Credit Hours.
Demographic changes, race and ethnic relations, immigration, and urbanization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 359. Caribbean Intellectual History. 3 Credit Hours.
Nineteenth and twentieth-century Caribbean political and social thought. Connects the history of ideas to the history of social movements in the region. Links international, intellectual, political and artistic currents.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 360. Modern Latin America Through Film. 3 Credit Hours.
Analysis of films with regard to their historical value and their impact on forming historical perceptions about modern Latin America.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 361. American Colonial History (1607-1763). 3 Credit Hours.
History of the British mainland colonies from the establishment of Jamestown to the end of the French and Indian War.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 362. The American Revolution (1763-1783). 3 Credit Hours.
The political, social, and constitutional issues that culminated in the Declaration of Independence, and the achievement of American nationhood.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 363. The Early Republic (1783-1850). 3 Credit Hours.
A study of the constitutional, political, territorial, economic, and social development of the United States from the end of the American Revolution to the Compromise of 1850.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 364. Civil War and Reconstruction (1850-1877). 3 Credit Hours.
A study of the origins of the American Civil War, emphasizing the economic, political and social, as well as military aspects of the conflict, and the course and consequence of the Reconstruction period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 365. Emergence of Modern America (1877-1917). 3 Credit Hours.
United States from the end of Reconstruction to the First World War.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 366. America in Crisis (1917-1945). 3 Credit Hours.
The United States from World War I through World War II.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 367. Contemporary America. 3 Credit Hours.
The United States since World War II.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 368. Nature and the Environment in American History. 3 Credit Hours.
Shifting attitudes toward nature and the environment in American history; the rise of environmentalism and changes in public policy related to environmental conservation and preservation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 369. Introduction to Urban America. 3 Credit Hours.
The changing role of the city in American history. The built environment. The interaction of the built environment and the lives of residents.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 370. Storied Pasts: 19th-Century U.S. History and Literature. 3 Credit Hours.
19th-century American intellectual and cultural history through the lens of literature. Analyzing key works of fiction, poetry and philosophy as both literary texts and historical sources, we will seek to discover how the changing themes and forms of nineteenth-century literature shaped and/or reflected larger intellectual, political and social currents. Students will read novels by authors such as Hawthorne, Melville, Twain, Jewett, Gilman, James, Wharton, and Crane, alongside historical material.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 371. Immigration, Race and Ethnicity in American History. 3 Credit Hours.
Migration and immigration in 19th- and 20th-century in the United States. How Americans have understood themselves as part of a multicultural society, and how ethnic and racial identities have been defined throughout American history.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 372. The Sixties. 3 Credit Hours.
The culture and history of the 1960s in the United States through writings, film, music, and the experience of faculty members who participated in important events during this era of major conflict and change.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 373. The Civil Rights Movement. 3 Credit Hours.
This course explores the modern Civil Rights Movement, one of the most profound occurrences in the history of the United States of America, and examines how it reshaped the nation, from politics and the economy to social relations and cultural values.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 374. History of Feminism. 3 Credit Hours.
History of feminism with a focus on the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 375. Nineteenth-Century U.S. History. 3 Credit Hours.
The course and consequence of the Reconstruction period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 376. Twentieth-Century U.S. History. 3 Credit Hours.
The changing role of the city in American history. The built environment. The interaction of the built environment and the lives of residents.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 376. American Legal and Constitutional History. 3 Credit Hours.
The development of legal thought and practice in the context of American politics, economy and ideology during the twentieth century. Special consideration will be given to social movements and their treatment under the rule of law.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 377. Sport in American History. 3 Credit Hours.
The role of sport in American culture. Sports relation to urban growth, professionalism, ethnic identity and assimilation, nationalism, and consumption.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 379. History of the Old South (1607-1861). 3 Credit Hours.
The American South from Jamestown to secession, emphasizing the development of plantation society, the rise of internal and external conflict, and the shaping of the idea of the 'Old' South.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 380. The New South (since 1877). 3 Credit Hours.
History of the U.S. South from 'Redemption' to the present, emphasizing Populism, Progressivism, the idea of a 'New' South, and the civil rights movement.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 381. History of Florida. 3 Credit Hours.
Florida from its discovery, exploration, and colonization to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 382. Ideas and Culture in Early American History. 0-3 Credit Hours.
Intellectual and cultural history in America from the colonial period to the Civil War, focusing on developments in religion, philosophy, political and social theory, and the arts.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 383. Ideas and Culture in Modern United States History. 3 Credit Hours.
American Social Movements.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 385. White Man's Burden: Building the US Empire Before 1914. 3 Credit Hours.
American statesmen long asserted they bore a 'white man's burden' to 'uplift and civilize' the globe. This course explores the ideology of U.S. Empire to understand how the nation went from thirteen colonies to a continental and global power.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 388. The Vietnam War. 3 Credit Hours.
U.S. involvement in Vietnam from 1945 to 1973, emphasizing the diplomatic and military components.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 389. Nineteenth-Century Europe: Barricades, Borders, and Bourgeoisie. 3 Credit Hours.
Survey of 19th-century Europe from the French Revolution to World War I, focusing on political and cultural history.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 390. Europe after Hitler. 3 Credit Hours.
Survey of European History from the end of World War II, focusing on political and cultural developments.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 391. The History of Everyday Life. 3 Credit Hours.
The History of everyday life in early modern Europe (ca. 1500-1700), We will study how Europeans experienced and made sense of their environment, their communities, relationships, time, the self, the stages of life, food, drugs, work, and recreation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HIS 392. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 393. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 394. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 395. World War I. 3 Credit Hours.
The military and political history of the First World War (1914-1918), beginning with a survey of military and naval developments in the early 20th Century and the diplomatic background of the war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 396. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated parenthetically following course title in class schedules.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
HIS 397. History Internship. 3 Credit Hours.
Provides history students with the opportunity to obtain credit for an internship with the approval and under the close supervision of a faculty member.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 401. Directed Readings in African History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 411. Directed Readings in Asian History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 412. Mahatma Gandhi and Martin Luther King Jr: A Call to Civic Engagement. 3 Credit Hours.
Selected works of M.K. Gandhi and Martin Luther King Jr. and their legacies and impact on the field of community service and civic engagement. The class will be organized into three modules - 1) academic learning inside the classroom, 2) work on similar themes in the community, 3) reflections of civic engagement before, during, and after conclusion of modules. Through a detailed study of Gandhi and King’s writings, speeches, archival and visual materials we will explore their theories and praxis of engaged citizenry, political, social and economic justice. Students will be paired with City Year Miami based in Miami-Dade County that works in areas of education access and closing the gap in marginalized communities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 421. Directed Readings in European History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 447. Global History of Communism. 3 Credit Hours.
The evolution of both Marxian theory and communist societies. How are Marxism-Leninism, Stalinism, Maoism, and other schools of thought different from one another and from the writings of Karl Marx and Friedrich Engels? What is the history of the global communist movement in the 20th century, and during the Cold War in particular? We will discuss the Soviet Union, as well as other case studies from around the world to explore the diversity of the socialist world and its cultural, intellectual, economic, and political networks. Students will develop skills in analytical thought, vocal and written expression, and GIS tools that they will use in a StoryMap final assignment.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 451. Directed Readings in Latin-American History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 461. Directed Readings in United States History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 491. Directed Readings in Comparative History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 501. Studies in African History. 3 Credit Hours.
Selected topics in African history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 511. Studies in Asian History. 3 Credit Hours.
Selected topics in Asian history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 515. Studies in Chinese History. 3 Credit Hours.
Selected topics in Chinese history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 531. Studies in European History. 3 Credit Hours.
Selected topics in European history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 534. Studies in Ancient History. 3 Credit Hours.
Selected topics in Ancient history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 535. The History of Rivers. 3 Credit Hours.
This undergraduate seminar examines how human history has entwined with rivers and river valleys and how, consequently the history of rivers has been written as human history along rivers. The format will combine seminar discussions with a term paper on a single river's history.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

HIS 536. Studies in Medieval History. 3 Credit Hours.
Selected topics in Medieval history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 538. Studies in Early Modern European History. 3 Credit Hours.
Selected topics in European history before the French Revolution. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 544. Studies in Modern European History. 3 Credit Hours.
Selected topics in European history after the French Revolution. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 551. Studies in Latin American History. 3 Credit Hours.
Selected topics in Latin-American history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 553. Studies in Colonial Latin American History. 3 Credit Hours.
Selected topics in the colonial period of Latin-American history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 554. Studies in Modern Latin American History. 3 Credit Hours.
Selected topics in Latin-American history before and after Independence. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 561. Studies in United States History. 3 Credit Hours.
Selected topics in United States history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 564. Studies in American Intellectual and Cultural History. 3 Credit Hours.
Selected topics in American intellectual and cultural history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 565. Studies in American Political and Diplomatic History. 3 Credit Hours.
Selected topics in American political and diplomatic history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 569. Studies in African-American History. 3 Credit Hours.
Selected topics in African-American history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 570. Studies in Public History. 3 Credit Hours.
Selected topics in public history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 591. Studies in Comparative History. 3 Credit Hours.
Selected topics in Comparative History. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 592. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 593. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 594. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 595. Studies in Visual History. 3 Credit Hours.
Selected topics in the use of photographs and other visual evidence for historical purposes. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 597. Semester 1 of 2-semester senior honors thesis program. 3 Credit Hours.
A demanding and intellectually exciting two-semester honors track. It affords an opportunity for students to pursue their particular research interest and to engage with a lively cohort of other honors students in an organized seminar format.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

HIS 598. Second semester in a 2-semester senior honors thesis program. 3 Credit Hours.
The second semester of a demanding and intellectually exciting two-semester honors track. In this the second semester students will focus on interpreting their original research, presenting initial findings in the seminar format, writing a rough draft of the thesis essay, and revising that draft in order to complete and present their final honors thesis essay at the end of the semester.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 599. Independent Research. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 602. Studies in African History. 3 Credit Hours.
Selected topics in African history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 611. Studies in Asian History. 3 Credit Hours.
Selected topics in Asian history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 632. Studies in Early Modern European History. 3 Credit Hours.
Selected topics in European history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 633. Seminar in European History. 3 Credit Hours.
Selected topics in European History.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 634. Seminar in Ancient History. 3 Credit Hours.
Selected topics in Ancient History.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 635. The History of Rivers. 3 Credit Hours.
This graduate seminar examines how human history has entwined with rivers and river valleys and how, consequently the history of rivers has been written as human history along rivers. The format will combine seminar discussions with a term paper in the format of an historiographical essay on rivers and history.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

HIS 636. Studies in Medieval History. 3 Credit Hours.
Selected topics in Medieval history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 638. Studies in Early Modern European History. 3 Credit Hours.
Selected topics in European history before the French Revolution. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 646. Studies in Modern European History. 3 Credit Hours.
Selected topics in European history after the French Revolution. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 652. Studies in Latin American History. 3 Credit Hours.
Selected topics in Latin-American history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 654. Studies in Modern Latin American History. 3 Credit Hours.
Selected topics in Latin-American history before and after Independence. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 655. Studies in Colonial Latin American History. 3 Credit Hours.
Selected topics in the colonial period of Latin-American history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 662. Studies in United States History. 3 Credit Hours.
Selected topics in United States history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 664. Studies in American Intellectual and Cultural History. 3 Credit Hours.
Selected topics in American intellectual and cultural history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 665. Studies in American Political and Diplomatic History. 3 Credit Hours.
Selected topics in American political and diplomatic history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 669. Studies in African-American History. 3 Credit Hours.
Selected topics in African-American history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 703. Directed Readings in African History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 704. Directed Readings in Asian History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 705. Directed Readings in European History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 706. Directed Readings in Latin-American History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 707. Directed Readings in American History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 708. Directed Readings in Comparative History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 709. Field Preparation: Colonial and Revolutionary America. 3 Credit Hours.
An introduction to central historical issues and historiographical debates in the field of Colonial and Revolutionary America.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 711. Nineteenth-Century United States Field Preparation. 3 Credit Hours.
Examination of some of the major themes recent developments and debates in nineteenth-century United States historiography from the Early Republic through Reconstruction. The seminar does not alone constitute sufficient preparation for the comprehensive exam in Modern American history, but it does seek to introduce students to some of the important trends in recent scholarly work.
Components: SEM.
Grading: GRD.
HIS 712. Field Preparation: Modern America. 3 Credit Hours.
An introduction to central historical issues and historiographical debates in the field of Modern America.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 713. Field Preparation: Medieval Europe. 3 Credit Hours.
The central historical issues and historiographical debates in the field of Medieval European History.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

HIS 714. Field Preparation: Early Modern Europe. 3 Credit Hours.
An introduction to central historical issues and historiographical debates in the field of Early Modern Europe.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 715. Modern Europe Field Preparation. 3 Credit Hours.
This course is designed to prepare students for the Modern European Field Comprehensive Exam by introducing them to leading works and diverse approaches in the study, writing, and interpretation of modern European history. The choice of readings will be selective, but in range and significance they will provide students with a foundation for further command of the field.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 716. Caribbean Field Prep. 3 Credit Hours.
Graduate student preparation for a comprehensive exam area in Caribbean history, centering on the late eighteenth through early twentieth centuries. Students will have the chance to read, discuss, and place in conversation influential works on topics including: Caribbean slavery and anti-slavery; the Haitian Revolution and its reverberations; ‘second slavery’ in Cuba; emancipation in the British Caribbean and across the region; struggles on the parts of formerly enslaved people and their descendants over land, labor, and citizenship; the arrival and experience of Indian, Chinese, and West African indentured workers in pre-and post-emancipation Caribbean societies; the Cuban wars of independence; and the U.S. annexation of Puerto Rico and occupations of Cuba, Haiti, and the Dominican Republic. The course will focus on major themes, debates, and questions in the historiographical literature and is designed to encourage comparative analysis.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 718. Field Preparation: Modern Latin America. 3 Credit Hours.
An introduction to central historical issues and historiographical debates in the field of Modern Latin America.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 721. Historiography. 3 Credit Hours.
The philosophy, theory, and practice of history.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 722. Dissertation Prospectus Seminar. 3 Credit Hours.
Students will develop a strong dissertation prospectus. This class will operate as a writing workshop, for which each student will write and revise several draft of a prospectus that will be critiqued by the student’s advisor, the professor teaching the course, and fellow students. At the end of the semester, students will give oral presentation about their proposed projects to the department.
Components: SEM.
Grading: GRD.

HIS 760. Seminar in Latin-American History. 3 Credit Hours.
Selected topics in Latin-American History.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 761. Seminar in United States History. 3 Credit Hours.
Selected topics in United States History.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 762. History as a Profession. 3 Credit Hours.
Practical experience for graduate students in designing courses; preparing lectures, conference papers and scholarly publications; and in applying for jobs and research grants
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 763. Science, Magic, and Medicine in the Early Modern World. 3 Credit Hours.
To prepare graduate students for their comprehensive examinations in early modern history by introducing them to leading works, diverse approaches, and new methodologies in the history of science, magic, and medicine. The choice of readings will be selective and may change over the course of time, but in any case the course materials will provide students with a good foundation for further exploration of the field.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

HIS 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master’s degree after the student has enrolled for the permissible cumulative total in HIS 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
HIS 825. Continuous Registration--Master's Study. 1 Credit Hour.
To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 830. Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor, but for not less than a total of 12 hours. Up to 12 hours may be taken in a regular semester, but not more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

HIS 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of HIS 740 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

HIS 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

HON 323. Topics in Humanities. 1-3 Credit Hours.
Components: THI.
Grading: GRD.
Typically Offered: Fall.

HON 330. Books That Matter. 3 Credit Hours.
Especially designed for Foote Fellows, the BOOKS THAT MATTER seminar offers an opportunity to study major works of non-fiction in a seminar-style setting, under the guidance of faculty members from across the University. We examine important works which, by means of their strong, connected argumentation, challenge the way we respond to, interpret, and shape reality. Emphasis in the course falls mainly on the logical structure embedded deep within the text, and less on content per se, so that a student's effort is not directed towards a reading of "great books" but rather the discovery of "significant arguments." Our rationale is to address a fundamental need in education too often lost in the midst of other demands, interests, and requirements: by learning to read, question, and enjoy important intellectual studies of the past and present, students will be able to read, question, and enjoy what will be the influential books of non-fiction published in their lifetime, whether in public affairs, science, social science, economics, history, film and media studies, philosophy, psychology, etc. The course provides standards of measurement and value by which students can gauge how and why books succeed or fail on hard logical grounds.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HON 351. Topics in the Natural Sciences. 1-3 Credit Hours.
Components: THI.
Grading: GRD.
Typically Offered: Fall.

Human Genetics and Genomics (HGG)

HGG 601. Seminar/Journal Club. 1 Credit Hour.
All active HGG students participate in the Seminar/Journal Club each semester. Sessions rotate between seminar, journal club, and research-in-progress. Twice per month, students attend the HGG seminar speaker series. Once per month, students present their own work in short research-in-progress talks. Once per month, students participate in a journal club, featuring student-led discussions of published papers.
Components: SEM.
Grading: SUS.
Typically Offered: Fall & Spring.

HGG 621. Design and Analysis of Human Genomic Studies. 3 Credit Hours.
This course covers study designs and analytic approaches commonly used in human genetic and genomic studies. Major topics include 1) study designs for genetic epidemiology; 2) experimental designs for assessing variation in DNA sequence, RNA expression, and epigenetic marks; 3) analytic approaches for genetic association, gene expression, and epigenetic data; 4) evaluation of epistasis, gene-environment interaction, and application of systems biology approaches to high-dimensional genomic data. Class sessions will feature a mixture of lecture, discussion of primary literature, and hands-on computational workshops.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
HGG 630. Variation and Disease. 2 Credit Hours.
This course provides an overview of the science of genetics, including historical and modern approaches, with emphasis on the underlying mechanisms of human genomic variation and their relation to human disease. After taking this course, the student will be able to list the different types of human genomic variation, explain the mechanism by which each occurs, and discuss the consequences of the variations. Where appropriate, specific examples of human disorders will be related to the variations. Topics include: chromosomal, biochemical, and DNA sequence variation, mitochondrial genome variation and epigenetic effects. The course structure consists of a combination of lectures and discussion of primary literature. Course includes two 1.5 hour lectures and a 1.5 hour computer lab.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HGG 631. Genes in Populations. 3 Credit Hours.
This class is a survey of topics in population and statistical genetics. Basic concepts and methods will be covered including: Hardy-Weinberg equilibrium, sources of variation, population substructure (drift, fixation, differentiation, inbreeding and F statistics), relatedness and heritability, quantitative and qualitative trait loci, selection (natural and artificial), and molecular evolution. The course is lecture-based but will include readings from the text and primary literature.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HGG 640. Family Studies and Genetic Analysis. 2 Credit Hours.
The focus of this course is the use of families in the study of genetic disorders and traits. Both qualitative and quantitative phenotypes will be studied. Major topics covered include: heritability, heterogeneity, segregation analysis and linkage analysis. By the end of the course, the student will be able to design and carry-out a family based mapping study. The course consists of two 1.5 hour didactic lectures and a 1.5 hour computer lab during which students will obtain practical experience in running the relevant computer programs using data from various studies.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HGG 650. Advanced Topics in Molecular Genetics. 3 Credit Hours.
Topics will include human microRNAs, the neurobiology of aging, structural variation, modern genome technology, among others. The course structure will consist primarily of discussions and analysis of primary literature.
Components: DIS.
Grading: GRD.
Typically Offered: Spring.

HGG 660. Bioinformatics Theory and Practice. 3 Credit Hours.
In this course, we will focus on application of high throughput genomic technologies in a variety of biological contexts. The expectation would be to achieve the following course learning objectives: 1) Gain familiarity with the technologies and techniques available for high throughput genomic studies; 2) Understand the data outputs and how to store/manipulate/analyze/interpret results; 3) Work with high performance computing in the area of genomic analysis; 4) Become aware and be able to use tools for genomic data storage, annotation, and curation; 5) Critically plan and perform quality control of analysis pipelines and results; 6) Share results of genomic data through communication and visualization techniques. Prerequisites: Familiarity with basic genetics, genome structure, and the methods and approaches of molecular biology are necessary. Please ask for primers on these topics if you do not have a biology background. In addition, basic knowledge in the Unix environment and basic operations is required. Materials will be distributed in the first week of class to address.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HGG 680. Genome Ethics and Public Policy. 3 Credit Hours.
This course will explore current and future applications of human genetics as they pertain to the health and identity of individuals and society. Topics will include the ethical dilemmas facing clinicians, researchers, and the public pertaining to the use of genetic information in healthcare; the role of the media and other extemporaneous factors in influencing the use of human genetic information, and responsible conduct of research specifically with regard to issues unique to genetics. The emphasis will be on real examples and experiences, with a primary goal of helping students explore how their role as a researcher and/or citizen will influence and be influenced by genetic information. The course is largely discussion-based and includes extensive readings from the literature and online videos.
Components: DIS.
Grading: GRD.
Typically Offered: Summer.

HGG 681. Human Genetics Clinical Rotation. 1 Credit Hour.
HGG students participate in medical genetics clinic post clinical rounds, metabolic-sign out and journal clubs. During clinic, students observe clinical evaluations and counseling, and participate in weekly didactic sessions with faculty and residents. This can be completed any time after passing the Qualifying Examination in Fall of Year 3, and Admission to Candidacy is achieved, and will be graded as a one-credit pass-fail course.
Components: CLN.
Grading: SUS.
Typically Offered: Fall & Spring.

HGG 689. Human Genetics and Genomics Teaching Practicum. 1 Credit Hour.
HGG students serve one semester as a teaching assistant for a core course. This experience will include giving at least one lecture, leading small group discussions, and holding regular office hours to discuss student questions. This can be completed any time after passing the Qualifying Examination in Fall of Year 3, and Admission to Candidacy is achieved, and will be graded as a one-credit pass-fail course.
Components: PRA.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.
HGG 830. Doctoral Dissertation - Pre-Candidacy. 1-12 Credit Hours.
1-12 credit course for Doctoral candidates working on pre-candidacy dissertation.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

HGG 840. Doctoral Dissertation - Post Candidacy. 1-12 Credit Hours.
1-12 credit course for Doctoral Candidates working on dissertation post candidacy.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

HGG 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for Ph.D. after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Industrial Engineering (IEN)

IEN 111. Introduction to Engineering I. 3 Credit Hours.
Use of engineering tools and computer techniques for problem solving, data acquisition, analysis, presentation, software design, and computer aided drafting. Development of design skills through several design and building competitions. Introduction to professional ethics, intellectual property, ethics, intellectual property rights, and an introduction to use of MATLAB, AutoCAD, and programming in C++.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

IEN 112. Introduction to Engineering II. 2 Credit Hours.
Continuation of IEN 111. An overview of Industrial Engineering concepts and issues important to the design and operation of industrial and service systems. Students will learn the use of software tools developed to enhance the Industrial Engineer’s ability such as database management, high level programming languages, electronic spreadsheets, and computer graphics.
Prerequisite: IEN 111.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 201. Methods Analysis and Work Measurement. 3 Credit Hours.
Design of improved methods for doing work based on effective human effort. Time standardization of productive operations by work measurement, predetermined time systems, and activity sampling are discussed. Tools and charts for methods analysis are discussed and use of Microsoft Vision is emphasized and reviewed.
Prerequisite: IEN 112.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

IEN 306. Manufacturing Processes. 3 Credit Hours.
Basic and applied sciences in processing of materials. Effects of processing on the manufactured parts, selection of processing methods, and their relation with material properties. Contemporary and non-traditional processes used in manufacturing are also covered.
Prerequisite: CHM 111 or CHM 151 and PHY 205.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 310. Introduction to Engineering Probability. 3 Credit Hours.
Axioms of probability, discrete and continuous random variables, probability density functions, cumulative distribution function, expectation, conditioning, independence, functions of random variables, multiple random variables, sums of random variables, introduction to statistical analysis, estimation, and hypothesis testing. Cross-listed with EEN 310.
Prerequisite: MTH 162 and Requisite: Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

IEN 311. Applied Probability and Statistics. 3 Credit Hours.
This course covers fundamental probability concepts, random variables, mathematical expectation, discrete and continuous probability distributions, sampling distributions, point and interval estimation, hypothesis testing, and simple linear regression and correlation. The use of Minitab, a statistical software application, is emphasized. Examples are drawn from various disciplines.
Prerequisite: MTH 162.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

IEN 312. Applied Statistical Methods. 3 Credit Hours.
Linear regression, multiple regression, analysis of variance, and design of experiments are discussed. Cross-listed with MAS 312.
Prerequisite: IEN 310 or ECE 310 or IEN 311 or MAS 311 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 351. Industrial Safety Engineering. 3 Credit Hours.
Basic principles of accident prevention and safety engineering approach to the design of mechanical equipment, facilities, and manufacturing processes. Analysis and design of fire prevention procedures and accident control procedures in industry are included.
Requisite: Junior Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 360. Productivity Engineering. 3 Credit Hours.
Definitions and scope of productivity engineering and management. The productivity cycle. Productivity measurement, evaluation, improvement—discussion and examples. Productivity planning and improvement through the application of industrial and systems engineering techniques. Discussion of individual techniques with examples. Application potential of the course in real life situations.
Prerequisite: MTH 162.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
IEN 361. Industrial Cost Analysis. 3 Credit Hours.
Analysis of financial statements and cost factors in manufacturing and service systems. Cost accounting methods, job order costing and process costing approaches. Deterministic and probabilistic estimates of cost.
Prerequisite: MTH 162. And IEN 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 363. Project Management for Engineers. 3 Credit Hours.
This course will help students develop a basic understanding of the key concepts, theories, tools, and methodologies of project management. Students will be introduced to the different phases of managing projects from conception to termination with particular emphasis on planning, scheduling, resource allocation, monitoring and control. The course will utilize a case-study-based approach in analyzing the techniques and methods of project management.
Requisite: Junior Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 372. Emerging Technologies and the Creation of Technological Innovations. 3 Credit Hours.
A variety of emerging technologies will be discussed (nanotechnology, energy technologies, information technologies, biotechnologies, etc). The process of utilization in innovations will be covered.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

IEN 380. Engineering Economy. 3 Credit Hours.
Engineering Economy Fundamentals. Interest and money-time relationship, methods of making economic decisions, risk and uncertainty, sensitivity analysis, selections among multiple alternatives, depreciation, benefit-cost analysis, replacement studies, minimum cost analysis, and related topics.
Prerequisite: MTH 162.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 399. Internship. 1 Credit Hour.
Practical application of classroom theory through employment with firms offering positions consistent with the student's field of study. Course may be repeated.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

IEN 406. Computer-Aided Manufacturing. 3 Credit Hours.
A comprehensive view of manufacturing with a focus on design, automation, and the use of computers in manufacturing. The topics include computer-aided design, communications, programmable logic controllers, CNC machining, industrial robots, process planning, and computer-integrated manufacturing. Laboratory projects are an integral part of the course.
Prerequisite: CHM 111 or CHM 151 and PHY 205.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 407. Product Design for Manufacturing. 3 Credit Hours.
The different phases of engineering design process. Guided Iteration Methodology for product design. Topics include design for manufacturing (DFM), best practices of product realization, solid modeling using SolidWorks, quality in design, issues in patents, liability and ethics. Engineering design specifications, evaluation methods for design alternatives.
Prerequisite: IEN 406.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 441. Deterministic Models in Operations Research. 3 Credit Hours.
Introduction to deterministic mathematical models with applications to operational problems. Topics include the methodology of operations research, mathematical programming, game theory, network flow-theory, and dynamic programming. Cross-listed with MAS 441.
Prerequisite: MTH 210.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 442. Stochastic Models in Operations Research. 3 Credit Hours.
Probabilistic models in operations research. Topics include probabilistic inventory models, queuing theory, Markov chains, and probabilistic dynamic programming. Cross-listed with MAS 442.
Prerequisites: IEN 310 or ECE 310 or IEN 311 or MAS 311 and IEN 441 or MAS 441.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 445. Production and Inventory Control. 3 Credit Hours.
Production and inventory management techniques such as forecasting methods, inventory control subject to both known and uncertain demand, aggregate planning, introduction to scheduling, materials requirement planning (MRP), just-in-time (JIT) manufacturing, and introduction to scheduling are covered.
Prerequisite: IEN 310 or ECE 310 or IEN 311 or MAS 311 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 449. Senior Project. 3 Credit Hours.
Integration of Industrial Engineering principles and techniques in the design and improvement of production and service systems. Course includes preparation of project proposal, data collection, analysis, reporting, and formal presentations.
Prerequisite: IEN 457. And Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

IEN 501. Manufacturing Analysis and Design I. 3 Credit Hours.
Analysis of Production Systems stressing diagnosis of problems associated with work measurement, manufacturing methodologies, and their interaction with cost factors.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
IEN 502. Manufacturing Analysis and Design II. 3 Credit Hours.
Analysis of production systems stressing diagnosis of problems of quality and production control, utilizing quantitative techniques and analytical methods.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 505. Robotics. 3 Credit Hours.
Fundamentals of robotics including kinematics and dynamics, trajectory planning, sensors and actuators, robotic vision, and case studies. Building your own robot is an integral part of hands-on laboratory exercises. Matlab control toolbox and image analysis toolbox will be extensively used for design and analysis.
Prerequisite: IEN 406.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 507. Design of Manufacturing Systems. 3 Credit Hours.
State-of-the-art techniques and tools relevant to the design, analysis, and control of modern manufacturing systems. Topics include modeling of manufacturing systems, tools for manufacturing system analysis, manufacturing system planning and scheduling, and lean manufacturing systems.
Prerequisite: IEN 465.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 509. Automated Assembly. 3 Credit Hours.
Fundamentals of automated assembly including parts transfer systems and feeders, parts orientation and grasping techniques, product design for automated assembly (DFA), assembly robots, and performance and economics of assembly systems.
Prerequisite: IEN 406.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 512. Statistical Quality Control and Quality Management. 3 Credit Hours.
This course addresses the concepts, theories, tools and methodologies employed in the management and improvement of quality. The course examines many of the advance topics in statistical quality control including control charts and process capability studies, acceptance sampling, as well as Quality Function Deployment (QFD) and introduction to reliability. Also covered in the course are Lean Six Sigma methodology, tools and concepts.
Prerequisite: IEN 311 or MAS 311 or IEN 312 or MAS 312.
Components: THR.
Grading: GRD.
Typically Offered: Fall.

IEN 513. Quality Management in Service Organizations. 3 Credit Hours.
Course examines the issues of quality and productivity management in the service sector. Topics covered include the development and use of questionnaires, service industry applications of quality such as in banking, insurance, healthcare, transportation, government, public utilities, and retail trade.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 516. Introduction to Applied Data Analytics. 3 Credit Hours.
This course focuses on some of the most commonly-used data analytics models and covers the basics of data analytics using the open source software R (which is one of the fastest growing open source software platforms). Specific course topics include Data Preprocessing and Cleaning, Fundamentals of R (for basic data analytics tasks), Regression Analysis, Discriminant Analysis & Classification, Segmentation/Clustering, Model Tuning/Selection, Performance Measurement in Data Analytics, and Decision Making with Data. This course provides hands-on skills to engineering graduate students with performing statistical data analysis and decision-making utilizing common types of data sets.
Prerequisite: IEN 442. And IEN 524.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 524. Decision Support Systems in Industrial Engineering. 3 Credit Hours.
Theory and application of decision support systems in industrial engineering. Topics include the study of model-based, data-based, knowledge-based, and communication-based decision support systems. Emphasis is placed on the selection process of the appropriate systems for various decision problems in industrial environments.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 547. Computer Simulation Systems. 3 Credit Hours.
Computer simulation and the development of simulation models. Application of discrete and continuous system simulation languages to systems studies is also included.
Prerequisites: IEN 442 or MAS 442.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 548. Games and Decision Making. 3 Credit Hours.
This course covers fundamentals of decision theory and game theory. The course is research oriented and a significant part of the grading will be based on students’ research. Topics include optimization with multiple variables, constrained optimization, Lagrange relaxation, utility theory, decision making under uncertainty, simultaneous move (Nash) games, sequential decision making, sequential (Stackelberg) games, games with imperfect information, contracting and coordination, and bargaining. This course is composed of lectures, in-class discussions and problem solving, homework assignments, and research paper assignments.
Prerequisite: IEN 310. And IEN 441.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 551. Accident Prevention Systems. 3 Credit Hours.
Introduction to the basic principles of accident prevention and how to apply the safety engineering approach to the design of industrial accident prevention systems.
Prerequisite: IEN 351.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
IEN 554. Applied Computational Biomechanics. 3 Credit Hours.
Students will become familiarized with current tools in the field of computational biomechanics for applications in ergonomics, sports performance, simulations of occupational activities and human movement in general. Through the presentation of case studies and the completion of assignments, students will gain hands-on experience on full-body simulation environments (e.g., OpenSim), biomechanically oriented finite elements packages (e.g., FEBio), and software for reconstruction of human anatomy from medical images (Seg3D).
Prerequisite: IEN 557. Or BME 375.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 557. Ergonomics and Human Factors Engineering. 3 Credit Hours.
The study of human capacities and limitations with emphasis on human performance in system design. Topics include design of displays and controls, workload, job design, human information processing, anthropometry, workplace design, biomechanics, task analysis, and research techniques in human factors engineering. Lecture, 3 hours.
Prerequisite: IEN 312 or MAS 312.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Summer.

IEN 558. Industrial Hygiene I. 3 Credit Hours.
Recognition of occupational chemical health hazards. Evaluation methods and analytical procedures used to determine level of exposure to chemical and toxic hazards. Control measures and compliance with OSHA requirements with special emphasis on industrial ventilation, and other methods of control are included.
Prerequisite: CHM 111 or CHM 151. Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 559. Industrial Hygiene II. 3 Credit Hours.
Recognition of physical occupational health hazards and evaluation methods and instruments used in measuring exposure levels with special emphasis on physical hazards. Protective measures and compliance with OSHA requirements is also included. Lecture, 3 hours.
Prerequisite: CHM 111 or CHM 151. Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 568. Materials Handling and Facilities Planning. 3 Credit Hours.
Analysis and design of production and service facilities, emphasis on material handling requirements. Capacity requirements, facility location, layout, storage systems and warehousing are discussed.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 570. Engineering Management. 3 Credit Hours.
Integrating engineering discipline into the social and economic considerations of managing systems. Tools and techniques used by engineering managers including engineering project life cycle, role playing, communication, decision-making in engineering management, and managing change in engineering organizations are discussed.
Prerequisite: IEN 311 or MAS 311 or IEN 312 or MAS 312.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 571. Engineering Entrepreneurship. 3 Credit Hours.
The conversion of technological know-how and engineering theories into business enterprises. The role of technology in creating wealth, connecting technology with market, the role and characteristics of entrepreneurs, starting a business and the business plan, innovation, industrial and service organizations, and the new business environment. Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 572. Management of Technological Innovation. 3 Credit Hours.
Engineering, Science and Management Principles contributing to the development of a successful framework for Managing technology with an organization, nationally or internationally. The process of technological innovations, technological, planning and forecasting, and socio-economic changes. Prerequisite: Senior or graduate standing.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

IEN 590. Special Topics in Industrial Engineering. 1-3 Credit Hours.
Sub-titles describing the topics are shown in parentheses in the class schedule, following the title ‘Special Topics’.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 594. Master's Capstone Design Project. 0-3 Credit Hours.
A capstone design project for students in the five-year BSIE/MSIE program. Integration of Industrial Engineering principles and techniques in the design and improvement of production and service systems is emphasized. Offered for students in this program only.
Prerequisite: IEN 547. Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 595. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 596. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 599. Cooperative Education. 1 Credit Hour.
Practical application of classroom theory through alternating semester or summer employment with industries offering positions consistent with the student’s field of study. Course may be repeated. Periodic reports and conferences are required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
IEN 601. Manufacturing Analysis and Design I. 3 Credit Hours.
Analysis of Production Systems stressing diagnosis of problems associated with work measurement, manufacturing methodologies, and their interaction with cost factors.
Prerequisite: IEN 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 602. Manufacturing Analysis and Design II. 3 Credit Hours.
Analysis of production systems stressing diagnosis of problems of quality and production control, utilizing quantitative techniques and analytical methods.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 605. Robotics. 3 Credit Hours.
Fundamentals of robotics including kinematics and dynamics, trajectory planning, sensors and actuators, robotic vision, and case studies. Building your own robot is an integral part of hands-on laboratory exercises. Matlab control toolbox and image analysis toolbox will be extensively used for design and analysis.
Components: LEC.
Grading: GRD.

IEN 607. Design of Manufacturing Systems. 3 Credit Hours.
State-of-the-art techniques and tools relevant to the design, analysis, and control of modern manufacturing systems. Topics include modeling of manufacturing systems, tools for manufacturing system analysis, manufacturing system planning and scheduling, and lean manufacturing systems.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 612. Statistical Quality Control and Quality Management. 3 Credit Hours.
This course addresses the concepts, theories, tools and methodologies employed in the management and improvement of quality. The course examines many of the advance topics in statistical quality control including control charts and process capability studies, acceptance sampling, as well as Quality Function Deployment (QFD) and introduction to reliability. Also covered in the course are Lean Six Sigma methodology, tools and concepts.
Prerequisite: IEN 311 or MAS 311 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 613. Quality Management in Service Organizations. 3 Credit Hours.
Course examines the issues of quality and productivity management in the service sector. Topics covered include the development and use of questionnaires, service industry applications of quality such as in banking, insurance, healthcare, transportation, government, public utilities, and retail trade.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 616. Introduction to Applied Data Analytics. 3 Credit Hours.
This course focuses on some of the most commonly-used data analytics models and covers the basics of data analytics using the open source software R (which is one of the fastest growing open source software platforms). Specific course topics include Data Preprocessing and Cleaning, Fundamentals of R (for basic data analytics tasks), Regression Analysis, Discriminant Analysis & Classification, Segmentation/Clustering, Model Tuning/Selection, Performance Measurement in Data Analytics, and Decision Making with Data. This course provides hands-on skills to engineering graduate students with performing statistical data analysis and decision-making utilizing common types of data sets.
Prerequisite: IEN 442. And IEN 524.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 624. Decision Support Systems in Industrial Engineering. 3 Credit Hours.
Theory and application of decision support systems in industrial engineering. Topics include the study of model-based, data-based, knowledge-based, and communication-based decision support systems. Emphasis is placed on the selection process of the appropriate systems for various decision problems in industrial environments.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 648. Games and Decision Making. 3 Credit Hours.
This course covers fundamentals of decision theory and game theory. The course is research oriented and a significant part of the grading will be based on students’ research. Topics include optimization with multiple variables, constrained optimization, Lagrange relaxation, utility theory, decision making under uncertainty, simultaneous move (Nash) games, sequential decision making, sequential (Stackelberg) games, games with imperfect information, contracting and coordination, and bargaining. This course is composed of lectures, in-class discussions and problem solving, homework assignments, and research paper assignments.
Prerequisite: IEN 310. And IEN 441.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 651. Accident Prevention Systems. 3 Credit Hours.
Introduction to the basic principles of accident prevention and how to apply the safety engineering approach to the design of industrial accident prevention systems.
Prerequisites: IEN 311 and IEN 351.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
IEN 654. Applied Computational Biomechanics. 3 Credit Hours.
Students will become familiarized with current tools in the field of computational biomechanics for applications in ergonomics, sports performance, simulations of occupational activities and human movement in general. Through the presentation of case studies and the completion of assignments, students will gain hands-on experience on full-body simulation environments (e.g., OpenSim), biomechanically oriented finite elements packages (e.g., FEBio), and software for reconstruction of human anatomy from medical images (Seg3D). Prerequisite: IEN 557. Or BME 375.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 657. Ergonomics and Human Factors Engineering. 3 Credit Hours.
The study of human capacities and limitations with emphasis on human performance in system design. Topics include design of displays and controls, workload, job design, human information processing, anthropometry, workplace design, biomechanics, task analysis, and research techniques in human factors engineering. Lecture, 3 hours. Requisite: Graduate Standing.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Summer.

IEN 658. Industrial Hygiene I. 3 Credit Hours.
Recognition of occupational chemical health hazards. Evaluation methods and analytical procedures used to determine level of exposure to chemical and toxic hazards. Control measures and compliance with OHSA requirements with special emphasis on industrial ventilation, and other methods of control are included. Prerequisite: IEN 557.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 659. Industrial Hygiene II. 3 Credit Hours.
Recognition of occupational chemical health hazards. Evaluation methods and analytical procedures used to determine level of exposure to chemical and toxic hazards. Control measures and compliance with OHSA requirements with special emphasis on industrial ventilation, and other methods of control are included. Prerequisite: IEN 557.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 670. Engineering Management. 3 Credit Hours.
Integrating engineering discipline into the social and economic considerations of managing systems. Tools and techniques used by engineering managers including engineering project life cycle, role playing, communication, decision-making in engineering management, and managing change in engineering organizations are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 671. Engineering Entrepreneurship. 3 Credit Hours.
The conversion of technological know-how and engineering theories into business enterprises. The role of technology in creating wealth, connecting technology with market, the role and characteristics of entrepreneurs, starting a business and the business plan, innovation, industrial and service organizations, and the new business environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 672. Management of Technological Innovation. 3 Credit Hours.
Engineering, Science and Management Principles contributing to the development of a successful framework for Managing technology with an organization, nationally or internationally. The process of technological innovations, technological planning and forecasting, and socio-economic changes. Prerequisite: Senior or graduate standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

IEN 690. Special Topics in Industrial Engineering. 3 Credit Hours.
Sub-titles describing the topics are shown in parentheses in the class schedule, following the title 'Special Topics'.
Components: LEC.
Grading: GRD.

IEN 694. Master's Capstone Design Project. 3 Credit Hours.
A capstone design project for students in the five-year BSIE/MSIE program. Integration of Industrial Engineering principles and techniques in the design and improvement of production and service systems is emphasized. Offered for students in this program only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 695. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 696. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 697. Cooperative Education. 1 Credit Hour.
Practical application of classroom theory through alternating semester or summer employment with industries offering positions consistent with the student's field of study. Course may be repeated. Periodic reports and conferences are required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 712. Design of Experiments. 3 Credit Hours.
Design and analysis of experiments, randomized blocks, Latin Squares, factorials, multiple correlation and regression, and application to response surfaces are discussed. 3 hours. Prerequisite: IEN 311 or MAS 311 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
IEN 713. Applied Regression Analysis. 3 Credit Hours.
Theory and applications of regression based models. Focus will be on empirical model building, estimation, inference and prediction with emphasis on interpretation of results and understanding model assumptions. Key Topics will be linear regression, panel data and time series analysis.
Prerequisite: IEN 311.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 715. Quality Through Planned Experimentation. 3 Credit Hours.
Sequential experimentation and guidance on how to build the sequence and use graphical methods to ascertain how much the planned changes contribute to the variation in the data. Experimentation is presented as a system in the context of a model to improve quality and integrate statistical process control (SPC) with methods of design. Examples presented contain problems often encountered in actual experimentation in a manufacturing or a service facility. Not open to students with credit in IEN 712.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 716. Advanced Quality Control. 3 Credit Hours.
Advanced topics in variables and attributes acceptance sampling and control charting. Statistical and economical design of control chart and sampling plan, sampling design and analysis with inspection and measurement errors, product liability prevention, value engineering, quality costs, Metrology, military standards, quality manuals, customer and vendor relations, and total quality control concepts are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 742. Linear Programming and Extensions. 3 Credit Hours.
Formulation, solution, postoptimality analysis of linear programming problems; revised simplex, parametric programming, decomposition of large-scale systems. Use of computer packages. Introduction to integer programming, network flows, and nonlinear programming applications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 747. Ergonomics and Occupational Biomechanics. 3 Credit Hours.
Effects of human factors in the improvement of performance of systems. Human capacities, capabilities, and limitations as derived from anatomical, physiological, and psychological principles are applied to the design of tools and equipment. Incorporation of all factors into systems design to achieve better system performance is emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 750. Ergonomics and Special Populations. 3 Credit Hours.
Ergonomic issues relevant to design for older adults and special populations such as the handicapped. Primary emphasis is placed on work environments, transportation and communication systems, and home environments. Topics include cognitive and physiological characteristics of special populations, workplace design, job and equipment design, rehabilitation engineering, clinical ergonomics, and legislation such as the ADA. Lecture, 3 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 7560. Productivity Measurement and Evaluation. 3 Credit Hours.
Basic concepts. Productivity measurement approaches at international, national, industry, and company levels. Latest measurement models for manufacturing companies. Relationships between total and partial productivities, profit and total productivity. Productivity evaluation: theory and methodology.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 761. Engineering Cost Management. 3 Credit Hours.
Issues of cost management, including activity based costing of engineering projects. A detailed study of how to separate, identify, understand and manage the major activities performed, and how these activities relate to customer needs. Overall view of costs associated with products, processes, and customers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 763. Project Management Techniques. 3 Credit Hours.
Techniques and Tools in Project Management. Use of network flow techniques including PERT/CPM, planning, systems concepts, time management, conflicts, cost and resource control, tradeoff analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IEN 764. Supply Chain Management. 3 Credit Hours.
Supply Chain Management focuses on the flow of products, information, and money throughout the supply chain. An overview of issues, opportunities, tools, and approaches is provided. Emphasis is placed on business processes, system dynamics, control, design and re-engineering, and on the relationship between the supply chain and the company's strategic position relative to its clients and its competition. The dimensions of inter-corporate relationships with partners, including decision-making, incentives, and risk are also covered.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 765. Advanced Production Systems. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEN 772. Strategic Management of Technological Innovation. 3 Credit Hours.
Advanced topics in the management of technology emphasizing the relationship between technology and competitiveness in the global marketplace. Technology development in the U.S., Japan, and Europe, industrial R & D, strategic technological planning, and conditions for successful implementations. Case studies are used with individual and group assignments. Prerequisite: IEN 572 - Management of Technology or permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
IEN 791. Industrial Engineering Seminar. 0 Credit Hours.
Oral presentation and discussion of current topics in Industrial Engineering.
Components: LEC.
Typically Offered: Spring.
Grading: GRD.

IEN 792. Professional Communications Skills for Engineering Grad Students. 0 Credit Hours.
This course covers fundamental areas in professional communication for Engineering graduate students. Topic areas include: presenting research at conferences, writing manuscripts for publication, preparing the dissertation, the PhD comprehensive exams, effective teaching and mentoring, and obtaining positions in academia. Through interactive workshops, in-class exercises, brief presentations and assignments, students will have an opportunity to practice and strengthen necessary communication skills, developing collaborations, and developing effective presentation skills.
Components: MOD.
Grading: SUS.
Typically Offered: Fall & Spring.

IEN 794. Master's Project. 3 Credit Hours.
A capstone project for M.S. students in the non-thesis option.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

IEN 795. Special Problems. 1-3 Credit Hours.
Research and/or design projects through an individual investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 796. Special Problems. 1-3 Credit Hours.
Research and/or design projects through an individual investigation of current problems. Offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 799. Advanced Topics. 1-3 Credit Hours.
Subject matter offerings based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title 'Advanced Topics'.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IEN 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

IEN 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in IEN 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

IEN 825. Continuous Registration--Master's Study. 1 Credit Hour.
To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

IEN 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Doctoral dissertation credits taken prior to Ph.D. student's candidacy. The student will enroll for credit as determined by his/her advisor. Not more than 12 hours of IEN 730 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

IEN 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Doctoral dissertation credits taken after Ph.D. student's candidacy. The student will enroll for credit as determined by his/her advisor. Not more than 12 credits in IEN 740 may be taken in a regular semester, nor more than six credits in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

IEN 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the dissertation for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

### Intensive English Program (IEP)

**IEP 1. Level Undetermined. 0 Credit Hours.**
Components: LEC.
Grading: GRD.

**IEP 11. RW Level Undetermined. 0 Credit Hours.**
Reading and Writing class for students whose English level has not been determined.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

**IEP 111. Level I - Written Communication. 0 Credit Hours.**
Components: LEC.
Grading: GRD.

**IEP 112. Level I - Oral Communication. 0 Credit Hours.**
Components: LEC.
Grading: GRD.
IEP 113. Level I Workshop. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 114. Level I - Reading. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 12. OC Level Undetermined. 0 Credit Hours.
Oral Communication class for students whose English level has not been
determined.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

IEP 121. Level II - Written Communication. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 122. Level II - Oral Communications. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 123. Level I and II Workshop. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 124. Level II Reading. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 131. Level III Written Communication. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 132. Level III - Oral Communication. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 133. Level III Workshop. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 134. Level III Reading. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 151. Level V - Reading / Writing. 0 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

IEP 152. Level V - Oral Communication. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 153. Level IV/V - Selected Topics. 0 Credit Hours.
Components: LEC.
Grading: SUS.

IEP 154. Level IV/V Selected Topics. 0 Credit Hours.
Components: LEC.
Grading: GRD.

IEP 155. ST-UM Transition. 0 Credit Hours.
This course will provide orientation, skills, assistance and support for
IEP/UM students as they transition to a full load of credit courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

IEP 171. LLM and IEP - Reading and Writing. 0 Credit Hours.
This course focus on reading, writing, and vocabulary skills to assist LLM
students to enhance their general, academic, and legal English.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IEP 172. LLM and IEP - Oral Communication. 0 Credit Hours.
This course focus on oral communication skills to assist LLM students to
enhance their general, academic, and legal English.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

Interdisciplinary Studies (IDS)

IDS 699. Directed Study. 1-6 Credit Hours.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

IDS 825. Master Study. 1-6 Credit Hours.
Components: THI.
Grading: GRD.
Typically Offered: Spring & Summer.

IDS 830. Pre-Candidacy Dissertation Research. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit
as determined by his/her advisor but not for less than a total of 24. Not
more than 12 hours of IDS 730 may be taken in a regular semester, nor
more than six in a summer session. Where a student has passed his/her
(a) qualifying examinations, and (b) is engaged in an assistantship, he/
she may still take the maximum allowable credit stated above.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

IDS 840. Post-Candidacy Dissertation. 1-6 Credit Hours.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

IDS 850. Research and Residence. 1-6 Credit Hours.
Used to establish research in residence for the Ph.D., after the student
has been enrolled for the permissible cumulative total in appropriate
doctoral research. Credit not granted. May be regarded as full-time
residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall.
International Administration (IGS)

IGS 545. Global Warming Policy in European Union. 3 Credit Hours.
This course studies the EU, and especially the French, efforts to ecologically modernize their advanced economies particularly in regards to global warming emissions and energy usage. Class is centered in Paris with excursions to Stasbourg and Freiborg.
Components: SEM.
Grading: GRD.
Typically Offered: Summer.

IGS 599. Special Topics. 0-3 Credit Hours.
The UM/MAIA program has a cooperation and student exchange program with St. Petersburg State University in St. Petersburg, Russia, Charles University in Prague, Czech Republic and Belgrano University in Argentina.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

IGS 611. International Organizations. 3 Credit Hours.
Covers the entire spectrum of international organizations and the theoretical and practical issues relating to international organizations including peace and security, human rights, and economic development.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IGS 612. International Administration. 3 Credit Hours.
Presents a broad overview of concepts, theories, processes, and practical global challenges confronting professional public/nonprofit managers; discusses contemporary issues facing multi-national corporations, non-government organizations, and public agencies; and analyzes the similarities and differences between public, non-profit and private management.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

IGS 613. Global Cultures: Religion, Communication, and Security. 3 Credit Hours.
An overview of world religions and cultures as a backdrop of effective communication for international professionals. Religious and political conflicts have increasingly become a staple of our complex, globalized world. As a result, it is important for professionals working with international and non-governmental organizations to understand the religions and the cultures of the world to better facilitate their work in different societies in Africa, Asia, Europe, the Caribbean and the Americas. Since religion is an integral part of many cultures, understanding the religious implications of certain activities is important in navigating certain societies and facilitating the work of professionals, especially in regions where religion and political violence dominate foreign relations and foreign policy.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

IGS 614. World Affairs. 3 Credit Hours.
This course introduces the conceptual basics of international relations and trains students in analytical and critical thinking skills through familiarity with the broad palette of issues and actors that make up today's world politics. Topics include the origins of the state and its changing role in today's world and an examination of the actors in international relations and the issues before them.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

IGS 615. International Economics for MAIA. 3 Credit Hours.
Reviews the essentials of International Economics. It then provides students with an operational understanding of the theory of comparative advantage and its application to policy issues.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

IGS 616. Administration of Organizations. 3 Credit Hours.
Explores organizations from the strategic perspective of the leader, identifying common elements of thinking, structure, measures, outcomes, issues, and challenges faced by those who seek leadership roles in international administration.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

IGS 617. Practicum in International Administration. 3 Credit Hours.
The practicum gives students the opportunity to apply academic theory and acquired skills in international administration under real world conditions. Students first complete an approved internship in an appropriate organization and then present a report/case study analysis under the supervision of the MAIA faculty.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

IGS 644. Energy Security and Environmental Sustainability. 3 Credit Hours.
The concepts of environmental sustainability and energy security will be explored. The importance of energy and the mitigation of climate change in formulation of country strategies, advancement of national interests and shaping of the international system will be stressed.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

IGS 645. Human Security. 3 Credit Hours.
Theoretical approaches and the major global threats to human security along with some of the most promising policy solutions will be explored. Some of these human security threats are well known, like genocide, and others, like cybersecurity, are newly emerging. Focus will be placed on key human security topics such as war, terrorism, human trafficking, climate change, famine, violence against women, and infectious and non-infectious diseases.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
IGS 646. Civil Security Management. 3 Credit Hours.
This course examines the management of civil crisis issuing from violent human actions. In the first section of the course, a framework will be developed that addresses the security of “civil space,” emphasizing actions threatening public order and individual safety. Emphasis will be placed on the burdens of “critical incident management” and the elements central to its success. These elements—planning and contingency, leadership and management, intelligence and analysis as well as operations and communication—will be engaged further in the second section. The final section of the course will examine specific threats to civil order and the management of systems designed to mitigate their effects.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

IGS 647. Disasters and Humanitarian Assistance. 3 Credit Hours.
This course examines the management of disasters from natural causes. It is focused primarily on the theory and practice of response. At the center of this investigation is a difficult question: how to help? The answers are not obvious. Through the vocabularies of practitioners and the frameworks offered by academic literature, we will explore the ways in which responders respond, the lessons learned and the best practices that have emerged in the field of disaster response and humanitarian intervention.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

IGS 648. International Business Finance for MAIA. 3 Credit Hours.
International Finance provides a working knowledge of international financial issues, theories, concepts and practice. The first part of the course examines the mechanics of the foreign exchange market, reviewing spot, forwards, futures and options. The second part of the course constructs the four building blocks of international finance: interest rate parity (covered and uncovered interest rate arbitrage), purchasing power parity, the international Fisher (expectations) effect, and asset market equilibrium (money market and exchange market equilibrium). The role of the money supply in exchange rate and price level determination according to interest rate parity is stressed. The case for common currencies is reviewed. In the third part of the course, currency risk management is explored in detail. We then analyze Ponzi schemes and other fraudulent financial practices. We conclude with a review of financial leverage, moral hazard and the financial crisis of 2008-2009.
Components: LEC.
Grading: SUS.
Typically Offered: Summer.

IGS 699. Special Topics. 3 Credit Hours.
Special topics related to international administration. Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

IGS 820. Research Residence. 1-9 Credit Hours.
For students conducting additional research, practice, field experience or special projects as part of their graduate experience.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

International Studies (INS)

INS 101. Global Perspectives. 3 Credit Hours.
Introduces students to the study of international relations focusing on the continuing threat of national and ethnic conflict; terrorism; environmental and health concerns; globalization; economic interdependence, and poverty. Students are provided an overview of the evolution of international affairs in the modern era and are introduced to the various scholarly approaches for an understanding of international affairs.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 102. Global Economics. 3 Credit Hours.
The international economy. This course develops the analytical tools underlying 'the economic way of thinking' and applies them to two main topics: the environment and international trade.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 103. World in Crisis. 3 Credit Hours.
A global overview of critical issues of the world in the 21st century is the primary objective of this course. In an interdisciplinary framework experts from the University’s faculty will lecture and participate in panels discussing issues such as globalization, military conflict, proliferation of weapons of mass destruction, transnational terrorism, ethnic conflict, global climate change, global financial issues, global wealth disparities and global poverty, immigration and refugee crises, epidemic diseases. Students will learn about conflict in the Middle East, China, its rising economic and military strength, renewed Russian worldwide assertiveness, failed states, and generally, problems of global governance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 104. Global Perspectives Discussion Section. 0 Credit Hours.
Discussion topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: DIS.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 105. Global Perspectives Discussion Section 2. 0 Credit Hours.
Discussion topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 201. Globalization and Change in World Politics. 3 Credit Hours.
The academic and public policy debates regarding the multiple impacts of the globalization of the world economy on the politics of nation-states and on the dynamics of the international system itself. Prerequisite: INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
INS 202. INS Methodology. 3 Credit Hours.
The approaches, methods and techniques used for designing and conducting international studies research.
Components: LEC.
Typically Offered: Fall, Spring, & Summer.
Grading: GRD.

INS 210. INS Topics. 3 Credit Hours.
Special topics taken at other institutions with no direct equivalents.
Components: LEC.
Typically Offered: Fall, Spring, & Summer.
Grading: GRD.

INS 310. Advanced Topics in INS. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Typically Offered: Fall, Spring, & Summer.
Grading: GRD.

INS 311. Advanced Topics in INS II. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: POL 202 or POL 203.
Components: LEC.
Typically Offered: Fall, Spring, & Summer.
Grading: GRD.

INS 319. Empire: Global Legacies. 3 Credit Hours.
A review of the key features of the Roman, Chinese, Russian, Ottoman, Spanish, and British empires and their global legacies. Different perspectives and conceptualizations on empires. Major characteristics of the empires studied and their enduring resonances in specific regions and globally.
Prerequisite: INS 101.
Components: LEC.
Typically Offered: Fall & Spring.
Grading: GRD.

INS 320. Global Economics II. 3 Credit Hours.
Macroeconomics and its application to the study of the international economy. Measurement of income and level of development; determinants of economic growth; inflation and unemployment; open economy macroeconomics.
Prerequisite: INS 102 or ECO 211 or ECO 212.
Components: LEC.
Typically Offered: Offered by Announcement Only.
Grading: GRD.

INS 321. International Development. 3 Credit Hours.
A synthesis of major theories of international development, institutional architecture, and practice of international development. Focuses on key international development policies such as trade, macroeconomic finance, and equity. Considers narrow conceptions of modernity, growth, progress, wellbeing, and culture toward broader conceptions of freedom and/or sustainable development in both the Global North and Global South.
Components: LEC.
Typically Offered: Fall & Spring.
Grading: GRD.

INS 322. Economics of Development and the Environment. 3 Credit Hours.
Structural changes that accompany economic growth that impact the environment and sustainable development.
Prerequisite: INS 102 or ECO 211 or ECO 212.
Components: LEC.
Typically Offered: Fall.
Grading: GRD.

INS 324. The History of Zionism. 3 Credit Hours.
The religious, cultural, historical, political and social underpinnings of the development of Zionism that fed to the creation of the State of Israel. Through readings, analysis of speeches and essays, exploration of films and the internet, the class will move through time from the origins of the Zionist idea to the present.
Components: LEC.
Typically Offered: Offered by Announcement Only.
Grading: GRD.

INS 325. Israel: The Making of a State. 3 Credit Hours.
An introduction to the creation of the State of Israel in its historical context, emphasizing the period of 1935-55: the struggle for Israel’s establishment, the making of the state and the early challenges Israel faced. The class will use documents, texts, testimony, poetry, music and film.
Components: LEC.
Typically Offered: Offered by Announcement Only.
Grading: GRD.

INS 330. Introduction of Comparative Studies. 3 Credit Hours.
Introduces students to the comparative method and to the theories and concepts required to analyze political transformation of states, societies, economies and culture in a globalization world.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Typically Offered: Fall, Spring, & Summer.
Grading: GRD.

INS 335. Democratization. 3 Credit Hours.
A comparative overview of the problems of introducing democratic and market economic institutions into areas where they have not flourished and how to maintain them in established democracies.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Typically Offered: Fall, Spring, & Summer.
Grading: GRD.

INS 341. Nationalism, Ethnicity and Conflict. 3 Credit Hours.
Examines theories of ethnic and national conflict focusing on contemporary issues throughout the world.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Typically Offered: Fall, Spring, & Summer.
Grading: GRD.

INS 344. Gender and Politics. 3 Credit Hours.
Compares the roles played by men and women in political systems worldwide; examines public policy outcomes with significant gender-based effects, including policies on sexuality and reproductive health, gender-based violence, work and the family, and access to education.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Typically Offered: Fall, Spring, & Summer.
Grading: GRD.
INS 352. Panoramic View of the Middle East. 3 Credit Hours.
The Middle East and a basic understanding of the factors, forces and processes shaping developments in the modern and contemporary history of this important world region.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 357. Global Food: A Hands-On Approach. 3 Credit Hours.
Application of principles of permaculture via designing and creating a small ‘global farm’ on campus to grow perennial food crops which are unique to the South Florida environment. We learn by doing, cultivating plants that hold the solution to world hunger problems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 358. Food Policy: Hands-On Approach. 3 Credit Hours.
In this course, students will begin to immediately plant in the early spring, while harvesting the earlier fall semester’s produce. The course will introduce students to planting and maintaining edible perennials in the South Florida environment. Students will study the role of urban farming as a potential contribution to the local food supply, changing urban landscapes into garden cities, and enhancing the role of tropical agricultural in reversing global warming.
Components: WKS.
Grading: GRD.
Typically Offered: Spring.

INS 367. Foreign Policy Topics. 3 Credit Hours.
Selected topics in Foreign Policy. Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 380. Democracy and Globalization in Latin America. 3 Credit Hours.
The global dimensions of Latin American politics, emphasizing democratization and its discontents; human rights; the emergence of transnational civil society; and the impacts of market reforms on development, equity and social inclusion.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 385. Latin American Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the course number and title.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 391. The European Union. 3 Credit Hours.
The course will combine 6 objectives: 1)to investigate the historical development of Europe as a civilization and as an idea through review of some main historical and political factors and ideologies from 1815-present; 2)to survey the main organizations and experiments in European integration before/after World War II; 3)to analyze the historical development of the European communities; 4) to examine major institutions of the European Union; 5)to analyze the main European Union policies and current issues; 6)to reflect upon the future of the nation-state and the idea of a united Europe, the role of transformed ideologies, and the rebirth of nationalism while pondering about future scenarios for European integration.
Prerequisite: INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 394. European Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the course number and title.
Prerequisite: POL 202 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 410. INS Advanced Seminar. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 102 or INS 201 or POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 411. Advanced Seminar. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 415. Independent Study. 1-6 Credit Hours.
Individualized research done under the guidance of selected faculty member. Depending upon the requirements established by the instructor, the student will be responsible for a research paper corresponding to the number of credits taken.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 418. Honors Thesis. 3 Credit Hours.
Honors thesis research. This course is required for students seeking magna or summa cum laude and those seeking departmental honors. A thesis committee comprised of three members, two from International Studies and one from the university faculty must be established. The thesis advisor must also be from International Studies.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 419. Honors Thesis II. 3 Credit Hours.
Honors thesis writing.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
INS 420. Global Trade. 3 Credit Hours.
Economic principles in global issues such as comparative advantage; specialization and trade; macroeconomics in the open economy; commercial policy; globalization; inequalities, within and among nations; and governance.
Prerequisite: INS 102.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 421. Poverty and the Environment. 3 Credit Hours.
The processes by which a growing economy creates wealth in the form of goods and services while simultaneously increasing poverty and pollution.
Prerequisite: INS 102.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 430. Comparative Studies Seminar. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 201.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 450. History of Economic Thought. 3 Credit Hours.
A review of the contributions made by some of the most influential authors and schools of thought to the fields of political economy and economics. Examination of the links of ideas, theories, and policy approaches on economic phenomena with moral philosophy and other realms of knowledge. Emphasis is placed on the contributions made by the classics of political economy and their continuities and discontinuities with respect to pre-classical and post-classical ones.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 460. United Nations Seminar. 3 Credit Hours.
The organization and functions of the UN, including its structure, network of agencies, and issues in which it is involved. Emphasis is given to reforms, the Millennium Development Goals, and problematic relationships among the UN member states.
Prerequisite: INS 201.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring.

INS 495. Capstone in International Studies. 3 Credit Hours.
Students integrate and apply thematic knowledge (topics vary by semester e.g., international security, international development, international studies & film, international economy & environment, a major regional challenge (EU, Latin America and/or Africa), and/or IR theory). Course provides opportunities to build upon what students have learned in major while demonstrating intellectual creativity in solving problems and communicating effectively; demonstrate knowledge in the field and avail of a shared experience in preparing to utilize the INS major.
Prerequisite: INS 102 and INS 201 and INS 202 And Requisite: Junior Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 501. Capstone in International Studies. 3 Credit Hours.
Students integrate and apply thematic knowledge (topics vary by semester e.g., international security, international development, international studies & film, international economy & environment, a major regional challenge (EU, Latin America and/or Africa), and/or IR theory). Course provides opportunities to build upon what students have learned in major while demonstrating intellectual creativity in solving problems and communicating effectively; demonstrate knowledge in the field and avail of a shared experience in preparing to utilize the INS major.
Prerequisite: INS 101 or INS 102 or INS 201 or INS 202 and at least Junior Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 503. International Relations Topics. 3 Credit Hours.
Selected topics in International Relations Theory. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 504. Int Rel Topics II. 3 Credit Hours.
Selected topics in International Relations Theory. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 509. International Migration and the Health Care System. 3 Credit Hours.
An exposure to one of the most critical aspects of development globally: the migration-development nexus. The centrality of this issue has in current debates on development. Research and policy-making approaches to different aspects of this nexus. Several countries and regions are covered throughout the semester. Development of research skills through systematic participation in specific projects.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 510. Issues in Ins. 3 Credit Hours.
Analysis of current issues of international importance.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 515. Independent Study. 1-6 Credit Hours.
Advanced level research done under the guidance of a selected faculty member. This course can be used as one of the two 500-level requirements for International Studies majors.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
INS 518. Global Migration and Development. 3 Credit Hours.
An examination of the nexus between migration and the health care system. Immigrants as professionals in the medical field; immigrants as people in need to health care services. Many countries have relied on immigration to cover critical shortages of professionals while others suffer from the exodus of professionals. The impact of immigration on these systems through an increase in the demand for medical services and other mechanisms. An examination of research and policy approaches to these issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 519. Internship: Knowledge Partnership Civic Engagement. 1-3 Credit Hours.
The Knowledge Partnership Internship and Civic Engagement course offers students the opportunity to apply their academic/theoretical training to a practical internship experience. In addition to the internship component, there is a civic engagement component, and a total of three arranged class sessions held over the course of a semester.
Components: FLD.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 520. Microeconomics for INS. 3 Credit Hours.
Microeconomics for students of international studies. Topics will include rationality, market failure and comparative advantage.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 521. International Economic System Topics II. 3 Credit Hours.
Selected topics in International Economics. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 522. Latin American Political Economy. 3 Credit Hours.
Latin American political economy including analysis of market reform and integration of the region into the world economy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 524. Int'l Econ Topics II. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 530. Comparative Analysis. 3 Credit Hours.
Advanced overview of the comparative method. Required for students specializing in Comparative Studies at the graduate level.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 532. Globalization and Human Rights. 3 Credit Hours.
The integration of markets has many concerned for the political and economic rights of the common citizen. This course examines The effect of globalization on the human rights standards throughout the world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 533. Transnational Social Movements. 3 Credit Hours.
Focuses on global civic activism and contentious politics, with particular attention to transnational non-state actors - NGOs, social movements, environmental protection, and the emergence of a global civil society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 534. Military, State and Society. 3 Credit Hours.
The role of the military in state formation; questions of military rule, civilian control, and social structures in contemporary world politics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 536. Comparative Political Regimes. 3 Credit Hours.
Literature concerned with the transition from authoritarianism to democracy in various parts of the world.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 537. Comparative Political Economy. 3 Credit Hours.
Compares how domestic politics and macroeconomic policies interact with globalization. Case studies include welfare states in the U.S. and Europe, East Asian development, post-communist transitions and market restructuring in Latin America and Africa.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 540. National Security. 3 Credit Hours.
The central issues concerning European security since World War II, with emphasis on the period since the end of the cold war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 542. Drug-Trafficking in the Americas. 3 Credit Hours.
The political economy of the U.S.-Latin American drug trade in the 20th Century along with the dynamics of the U.S.-led war on drugs through the first years of the Twenty First Century.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 543. National Security and Foreign Policy. 3 Credit Hours.
Explores alternative conceptualizations of ‘security’ and the new challenges to U.S. national security that have emerged in the Post-Cold War era.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
INS 551. Regional Topics II. 3 Credit Hours.
Selected topics in International Business. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 558. Religion, Culture, and Civilizations in International Relations. 3 Credit Hours.
International Relations (IR) theories have traditionally neglected ideational factors such as identity, religion, and culture: unlike states, they were 'non-territorial', the religions also 'premodern' and not fitting into the IR positivist theories. After Samuel Huntington's Clash of Civilization (1993, 1996) and 911 terrorist attacks the academic interest in these topics has grown exponentially. The main world universities offer academic courses studying themes such as religious fundamentalism, the role of religious actors in the international conflict, the role of religion and culture in promoting peace, development, humanitarian crises (poverty, disease control, refugee issue from war-torn states, etc.). There are many non-government organizations established to promote interfaith dialogue and particularly education, including the United Nations Alliance of Civilizations (UNAOC). This course attempts to correct the 'missing dimension' from the study of IR also at this university.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 560. U.S. Foreign Policy. 3 Credit Hours.
The leading approaches to the analysis of American foreign policy. Particular emphasis will be placed on the post-Cold War period and the new challenges to U.S. foreign policy of the 21st century.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 561. Negotiation and Bargaining. 3 Credit Hours.
Examines the nature of diplomatic negotiation through readings and discussion of international negotiation and through the case method, selecting several cases of high-level policy issues in which the United States has been a principal actor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 562. International Peace and Conflict Resolution. 3 Credit Hours.
The major sources of conflict, and what resources are available for making and keeping the peace? This class introduces students to the most fundamental concerns of the field of International Relations (IR), and especially of its sub-field IPCR.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 563. International Organizations. 3 Credit Hours.
The role, function, and impact on states of international governmental and non-governmental organizations in critical areas like peace and security, human rights, economic development, and environmental degradation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 564. International Law. 3 Credit Hours.
How international law affects the conduct of states. Issues include jurisdiction, diplomatic immunity, the use of armed force, peaceful dispute settlement among states, human rights, and the International Criminal Court.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 565. The World Before European Domination. 3 Credit Hours.
The historical roots of the contemporary international system. Its objective is to question the standard Eurocentric perspective on the rise of the West to a dominant position in the global system.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

INS 566. U.S.-Latin American Relations. 3 Credit Hours.
Political, economic and strategic aspects of U.S.-Latin American relations; the historical experience and contemporary issues, including the influence of extra-regional parties such as Europe and China.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

INS 569. Global Issues and Film Making: A Trans-disciplinary Approach. 3 Credit Hours.
Global issues and filmmaking studied via a transdisciplinary approach. Topical focus varies among health, foreign aid, human security, international development, and global urbanization.
Components: RSC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 570. Globalization and Health. 3 Credit Hours.
Globalization and its benefits and threats to public health; the relationship between global economic, political, social, cultural, environmental and technological changes and their impact on human health.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 571. Global Health and International Development. 3 Credit Hours.
Health and development links; macroeconomic policies and their impact on social equity; poverty and structural inequities; and other key issues that influence human development.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 572. Global Health Policy and Ethics. 3 Credit Hours.
National, regional and global health policies with special consideration to ethical and human rights issues; policies and the moral considerations that shape public health policy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 573. Disasters, Terrorism and Global Health. 3 Credit Hours.
The historical processes and present trends of disasters, terrorism, humanitarian emergencies and their impact on human health, safety and security.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
INS 580. Latin American Comparative Politics. 3 Credit Hours.
The major intellectual debates shaping the field of comparative politics including: (1) development, (2) military politics, (3) democratization and (4) the emergence of new social movements.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

INS 581. Politics and Ideology in Latin America. 3 Credit Hours.
The roles played by both ‘class’ and the ‘new social movements’ in the emergence of new modes of political representation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 584. Latin American Thought. 3 Credit Hours.
The evolution of Latin American thought through political and intellectual history; the classical writings of the main ‘pensadores’, and a comparative analysis of contemporary ideological trends.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 586. Brazil in Transition. 3 Credit Hours.
The social, economic, cultural transformations shaping Brazilian politics. In addition to visiting Rio de Janeiro and Salvador, there will be seminars with Brazilian academics and social and political activists.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 590. European-Latin American Relations. 3 Credit Hours.
This course deals primarily with five main themes: shared history between Europe and Latin America; mutual transfer of ideas (ideologies and political thought), perceptions (images and stereotypes), people (voluntary and slavery), and goods (trade and investment); foreign policies of main European states and the European Community toward Latin America; an analysis of some specific country cases (Spain, especially) and issues (regional integration, among them); and how the above have affected inter-American relations and the hegemonic role of the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 591. The European Union. 3 Credit Hours.
The European Union’s history, institutions, policies and contemporary issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 592. European Union and the World. 3 Credit Hours.
The European Union’s development, its main institutions and policies followed by an analysis of the main features of the European Union’s external relations.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 593. European Security. 3 Credit Hours.
Regional security in Europe, focusing on NATO expansion, EU expansion, Russian foreign policy, and related issues.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 594. European Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the course number and title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 595. European Social Movements. 3 Credit Hours.
The major social movements active today throughout Europe including those concerned with the environment, agriculture, poverty, racism, defending social democracy, the rights of workers, minorities, and women.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 596. Post-Soviet Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the course number and title.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 599. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 601. IR Theory. 3 Credit Hours.
Introduces students to key historic events, themes, concepts, and theories that have animated the practice and scholarship of international relations.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 602. Dissertation Proposal. 3 Credit Hours.
INS 603 Research Design: A writing course designed to assist Master’s students in the preparation of their graduation requirements: publishable papers or MA thesis.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 604. Int Rel Topics II. 3 Credit Hours.
Selected topics in International Relations Theory. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 605. Int Relations Topics. 3 Credit Hours.
Selected topics in International Relations Theory. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
INS 606. Issues in International Studies. 3 Credit Hours.
Analysis of current issues of international importance.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 607. International Economic System Topics II. 3 Credit Hours.
Selected topics in International Economics. Subtitles describing the
topics to be offered will be shown in parentheses in the printed class
schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 608. Intl Econ Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following
course number and title in Class Schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 609. Globalization and Human Rights. 3 Credit Hours.
The integration of markets has many concerned for the political and
economic rights of the common citizen. This course examines The effect
of globalization on the human rights standards throughout the world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 610. Graduate Seminar in INS. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses following
course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 611. International Relations Methodology II. 3 Credit Hours.
Introduces graduate students to issues of research design and research
methods in International Relations. The course will focus on three main
methodological approaches in political science: qualitative case study,
quantitative research and formal modeling. Apart from examining the
principles guiding the choice of methods (and the trade offs involved
in that choice), the course will examine how these methods have been
applied to the study of three major sub-fields of international relations:
international political economy, security studies, and international
environmental regimes. It also aims to provide the students with basic
knowledge on how to apply these methods to their own research.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 612. Graduate Seminar in Qualitative Research Methods. 3 Credit Hours.
The main goal of this seminar is to enable students to become
proficient in qualitative research methods. The seminar covers specific
research methods and techniques, their relevance and limitations,
their relationships with philosophical perspectives, epistemological
and methodological debates, and ethical and practical considerations
involved in qualitative research. Ethnographic methods, the use of social
network analysis in qualitative research, the logics of inquiry in case
study methods, grounded theory, and types of discourse and contents
analysis, are amongst the topics covered. This is a hands-on graduate
seminar in which the students are encouraged to think creatively on
which method(s) could make their research of complex political, social,
and cultural phenomena more rigorous and sophisticated by applying
methods and techniques learned in class.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 613. Transnational Social Movemen. 3 Credit Hours.
Focuses on global civic activism and contentious politics, with particular
attention to transnational non-state actors - NGOs, social movements,
environmental protection, and the emergence of a global civil society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 614. Comparative Political Regimes. 3 Credit Hours.
Literature concerned with the transition from authoritarianism to
democracy in various parts of the world.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 615. National Security. 3 Credit Hours.
The central issues concerning European security since World War II, with
emphasis on the period since the end of the cold war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 616. National Security and Foreign Policy. 3 Credit Hours.
Explores alternative conceptualizations of 'security' and the new
challenges to U.S. national security that have emerged in the Post-Cold
War era.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

INS 618. Regional Topics II. 3 Credit Hours.
Selected topics in International Business. Subtitles describing the topics
to be offered will be shown in parentheses in the printed class schedule,
following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 619. Internship. 1-3 Credit Hours.
A research paper is required for this course. The student works with a
selected faculty member who determines the length and scope of the
project. The Student is responsible for finding the internship position.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
INS 620. International Migration and the Health Care System. 3 Credit Hours.
Critical aspects of development globally: the migration-development nexus. The centrality this issue has in current debates on development. Research and policy-making approaches to different aspects of this nexus. Several countries and regions are covered throughout the semester. Development of research skills through systematic participation in specific projects.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 621. International Development Theory I. 3 Credit Hours.
A synthesis of major theories of international development, institutional architecture, and practice of international development. Focus on key international development policies such as trade, macroeconomic finance, and equity. Considers narrow conceptions of modernity, growth, progress, wellbeing, and culture toward broader conceptions of freedom and/or sustainable development.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 622. Advanced Seminar in International Economics. 3 Credit Hours.
This is a seminar in International Economics at the graduate level. The first part consists of a rigorous but nontechnical presentation of international trade theory, followed by a discussion of the main arguments for protection and their validity. The third part of the course analyzes the process of globalization; its meaning, measurement and effects. A final brief section is devoted to the determination of exchange rates and the international monetary system.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 627. Negotiation and Bargaining. 3 Credit Hours.
Examines the nature of diplomatic negotiation through readings and discussion of international negotiation and through the case method, selecting several cases of high-level policy issues in which the United States has been a principal actor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 628. International Peace and Conflict Resolution. 3 Credit Hours.
The major sources of conflict, and what resources are available for making and keeping the peace? This class introduces students to the most fundamental concerns of the field of International Relations (IR), and especially of its sub-field IPCR.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 629. International Cooperation. 3 Credit Hours.
INS 629 International Cooperation: The role, function, and impact on states of international governmental and non-governmental organizations in critical areas like cooperation, peace and security, human rights, and economic development.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 630. Advanced Seminar in Comparative Studies. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

INS 631. Comparative Political Economy. 3 Credit Hours.
Compares how domestic politics and macroeconomic policies interact with globalization. Case studies include welfare states in the U.S. and Europe, East Asian development, post communist transitions and market restructuring in Latin America and Africa.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

INS 632. U.S.-Latin American Relations. 3 Credit Hours.
Political, economic and strategic aspects of U.S.-Latin American relations; the historical experience and contemporary issues, including the influence of extra-regional parties such as Europe and China.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

INS 633. Advanced ISC Seminar. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 634. Drug-Trafficking in the Americas. 3 Credit Hours.
The political economy of the U.S.-Latin American drug trade in the 20th Century along with the dynamics of the U.S.-led war on drugs through the first years of the Twenty First Century.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

INS 635. Global Health and International Development. 3 Credit Hours.
Health and development links; macroeconomic policies and their impact on social equity; poverty and structural inequities; and other key issues that influence human development.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 636. Disasters, Terrorism and Global Public Health. 3 Credit Hours.
The historical processes and present trends of disasters, terrorism, humanitarian emergencies and their impact on human health, safety and security.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
INS 646. Politics and Ideology in Latin America. 3 Credit Hours.
The roles played by both 'class' and the 'new social movements' in the
emergence of new modes of political representation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 647. Latin American Thought. 3 Credit Hours.
The evolution of Latin American thought through political and
intellectual history; the classical writings of the main 'pensadores', and a
comparative analysis of contemporary ideological trends.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 648. Brazil in Transition. 3 Credit Hours.
The social, economic, cultural transformations shaping Brazilian politics.
In addition to visiting Rio de Janeiro and Salvador, there will be seminars
with Brazilian academics and social and political activists.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 649. European-Latin American Relations. 3 Credit Hours.
This course deals primarily with five main themes: shared history
between Europe and Latin America; mutual transfer of ideas (ideologies
and political thought), perceptions (images and stereotypes), people
(voluntary and slavery), and goods (trade and investment); foreign
policies of main European states and the European Community toward
Latin America; an analysis of some specific country cases (Spain,
especially) and issues (regional integration, among them); and how the
above have affected inter-American relations and the hegemonic role of
the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 650. Advanced Regional Seminar. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses
following course number and title in Class Schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 653. The European Union. 3 Credit Hours.
The European Union's history, institutions, policies and contemporary
issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 654. European Union and the World. 3 Credit Hours.
The European Union's development, its main institutions and policies
followed by an analysis of the main features of the European Union's
external relations.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 655. Post-Soviet Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses
in the printed class schedule, following the course number and title.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 656. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following
course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 657. U.S. Foreign Policy. 3 Credit Hours.
The leading approaches to the analysis of American foreign policy.
Particular emphasis will be placed on the post-Cold War period and the
new challenges to U.S. foreign policy of the 21st century.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 658. Religion, Culture, and Civilizations in International Relations. 3
Credit Hours.
International Relations (IR) theories have traditionally neglected
ideational factors such as identity, religion, and culture: unlike states,
they were 'non-territorial', the religions also 'premodern' and not fitting
into the IR positivist theories. After Samuel Huntington's Clash of
Civilization (1993, 1996) and 911 terrorist attacks the academic interest
in these topics has grown exponentially. The main world universities offer
academic courses studying themes such as religious fundamentalism,
the role of religious actors in the international conflict, the role of religion
and culture in promoting peace, development, humanitarian crises
(poverty, disease control, refugee issue from war-torn states, etc.). There
are many non-government organizations established to promote inter-
faith dialogue and particularly education, including the United Nations
Alliance of Civilizations (UNAOC). This course attempts to correct the
'missing dimension' from the study of IR also at this university.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 659. IR in a Constructed World. 3 Credit Hours.
The collapse of the Soviet Union, the end of the Cold war and the end
of world bipolarity left wanting the main International Relations (IR)
perspectives. The course will examine these epochal changes to show
that unlike traditional assumptions IR are not inevitable consequences
of human nature or other essential, material characteristics such as
structure as the primary independent variable. Responding to these
changes constructivism, the newest IR approach regards states as actors
and agents, existing within a world of their 'own making.' IR are social
rather than material, not given by nature and material factors and hence,
capable of being transformed by human practice. There are many forms
of constructivism, some compatible with positivism and rationalism of
the mainstream IR approaches, others more radical in their critique of IR
discipline. Forms of constructivism differ in how they see the relationship
between actors and structures, the mechanism of how the world is
'constructed' (e.g., ideas, norms, language). Constructivism opens new
research avenues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 664. International Law. 3 Credit Hours.
How international law affects the conduct of states. Issues include
jurisdiction, diplomatic immunity, the use of armed force, peaceful
dispute settlement among states, human rights, and the International
Criminal Court.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
INS 665. The World Before European Domination. 3 Credit Hours.
The historical roots of the contemporary international system. Its objective is to question the standard Eurocentric perspective on the rise of the West to a dominant position in the global system.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

INS 669. Global Issues and Filmmaking: A Transdisciplinary Approach. 3 Credit Hours.
Global issues and filmmaking studied via a transdisciplinary approach. Topical focus varies among health, foreign aid, human security, international development, and global urbanization.
Components: RSC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 672. Global Health Policy and Ethics. 3 Credit Hours.
National, regional and global health policies with special consideration to ethical and human rights issues; policies and the moral considerations that shape public health policy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 675. MA Capstone Research Paper (CRP). 3 Credit Hours.
A capstone is to synthesize and apply the knowledge that students have acquired through the International Studies MA curriculum-the disciplinary perspectives, theories, and methods learned-to those particular student's interests developed throughout the concentration. Students will be directed in the sequence and stages of research, data presentation and visualization, writing, oral and presentation skills. The major goal is to produce a capstone research paper (CRP) of 25-30 pages (i.e., 6,000-8,000 words) plus tables, figures, maps and other appendices that aims to be a peer reviewed article for an International Studies publication.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

INS 693. European Security. 3 Credit Hours.
Regional security in Europe, focusing on NATO expansion, EU expansion, Russian foreign policy, and related issues.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 694. European Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the course number and title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 699. Readings in International Studies. 1-3 Credit Hours.
Substantive topics vary by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

INS 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in INS 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 825. Continuous Registration--Master's Study. 1 Credit Hour.
To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 830. Doctoral Dissertation. 1-12 Credit Hours.
A total of 12 hours of INS 730 is required of all candidates for the Ph.D. Not more than 12 dissertation credits may be taken during the Fall or Spring semesters, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

INS 840. Post-candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of INS 740 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

INS 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.
Italian (ITA)

ITA 101. Elementary Italian I. 3 Credit Hours.
For students with no background or previous study of Italian. The focus of ITA 101 is the development of communicative abilities in speaking, reading, writing, and comprehension of Italian and an introduction to the cultural practices of the Italian-speaking world. Themes on: university life, family, leisure activities, and professions. Includes both oral and written assignments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Italian. Not open to students who have completed 2 or more years of high school Italian. Closed to heritage and native speakers of Italian.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ITA 102. Elementary Italian II. 3 Credit Hours.
Continuation of ITA 101. The development of communicative abilities in speaking, reading, writing, and comprehension of Italian and an introduction to the cultural practices of the Italian-speaking world. Themes on: childhood and adolescence, university life, home and community, food and lifestyle, and environmental issues. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Italian.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ITA 106. Elementary Italian for Romance Language Speakers. 3 Credit Hours.
ITA 106 is the first of two courses specifically designed for students who are either heritage learners or native speakers of a Romance language (Spanish, Portuguese, French, and so on). It will draw on students' already existing knowledge of their own language so as to improve and accelerate the Italian learning experience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ITA 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

ITA 201. Intermediate Italian I. 3 Credit Hours.
Integrated grammar review. Diverse selection of readings: stories, plays, essays, interviews. Practice in speaking and in writing. Class conducted in Italian.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 202. Intermediate Italian II. 3 Credit Hours.
Different genres of texts (portraits, descriptions, short stories, film reviews, magazines) are used to explore different ways of writing and to prepare students for 300-level work. Structured in a workshop format, the course also develops conversational skills. Class conducted in Italian.
Writing credits. Closed to native speakers.
Prerequisite: ITA 201 or ITA 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 206. Intermediate Italian for Romance Language Speakers. 3 Credit Hours.
ITA 206 is the second of two courses created especially for students who speak another Romance language such as Spanish, French, Portuguese, and so on. As with the first level, students will be further exposed to the linguistic parallels between Italian and their own language, with the goal of being able to comprehend and communicate in Italian at increasingly complex levels.
Prerequisite: ITA 106.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ITA 280. 21st Century Italian Cinema, Society and Culture. 3 Credit Hours.
This course studies key cultural, political and societal issues of 21st century Italy through contemporary film. The course is taught in Italy and offers an in-depth experience of Italian culture happening in the 'now,' both on and off screen, through class discussions, guest professors, directors, actors, and site visits. The course is taught in English, with some Italian terminology. Offered only in the summer study abroad program in Italy.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: CNC.
Typically Offered: Summer.

ITA 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

ITA 301. Interpreting Literary and Cultural Texts in Italian. 3 Credit Hours.
Tools for the interpretation and analysis of Italian literary and cultural materials. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills. Taught in Italian. Closed to native speakers formally educated in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 310. Topics in Italian Studies in Translation. 3 Credit Hours.
Intensive study, in English translation, of a topic, theme, author, period, or literary movement. May be repeated when the topic varies. May be used toward the Italian minor in accordance with Department of Modern Languages and Literatures stipulations.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 311. To Hell and Back with Dante: Women, Men, Politics, and Poetry. 3 Credit Hours.
A review of the highlights of Dante's Divine Comedy.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ITA 312. Italian Civilization. 3 Credit Hours.
The intellectual life of Italy, political and social institution arts, letters, and sciences. Collateral readings and reports.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 314. Topics in Early Modern Italian Literature in Translation. 3 Credit Hours.
An introduction to one or more aspects of Italian literature of the early/modern Renaissance period in translation: e.g., the courtier, epic poems, the rebirth of classical theater.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 315. Topics in Gender and Sexuality in Translation. 3 Credit Hours.
This course presents issues dealing with gender and sexuality in Italy in a variety of chronological settings, using the appropriate sources for the topic (e.g., films, newsprint and TV ads, novels). This course does not fulfill the foreign language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 316. Topics in 18th- and 19th-Century Italian Literature in Translation. 3 Credit Hours.
An introduction to one or more aspects of Italian literature of the 18th and 19th centuries in translation: e.g., the role of opera in Italian culture; the literature of the Italian Risorgimento; the historical novel. This course does not fulfill the foreign language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 317. Topics in 20th Century Italian Literature in Translation. 3 Credit Hours.
An introduction to one or more aspects of Italian literature of the 20th century in translation: e.g., the experience of war, the child narrator in Calvino and Ammaniti, the experimental novels of the 1960s and '70s. This course does not fulfill the foreign language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 319. Travels Italy. 3 Credit Hours.
Develops an understanding of Italy's contemporary image in the world by, first, presenting some of the earlier representations of Italy and Italians from Dante, through the Renaissance and Baroque periods, to the present; and second, by looking at the various cultures coming into contact with the Italian one. It attempts to come to grips with notions of representation, ethnicity, ethnocentrism, and stereotypes. Taught in English and does not fulfill CAS language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 321. Special Topics in Italian Literature. 3 Credit Hours.
Literature, film and/or the arts through a specific topic. May be repeated when the topic varies. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 323. Topics in Gender and Sexuality in Italian Culture. 3 Credit Hours.
Issues dealing with gender and sexuality in Italy in a variety of chronological settings, using the appropriate sources for the topic (e.g., films, newsprint and TV ads, novels). May be repeated when the topic varies. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 330. Topics in Gender and Sexuality in Italian Culture. 3 Credit Hours.
Italian culture and literature from its earliest document through the Renaissance. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 336. Medieval and Renaissance Topics in Italian. 3 Credit Hours.
Italian culture and literature from the Baroque to the nineteenth century. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 346. 17th-19th Century Topics in Italian. 3 Credit Hours.
Italian culture and literature from the Baroque to the nineteenth century. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 356. 20th-21st Century Topics in Italian. 3 Credit Hours.
Italian culture and literature of the twentieth and twenty-first century. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 394. Italian Internship. 1-3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM-faculty supervision, as well as supervised on-site experience in a Italian-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student's degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: ITA 202.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 395. Transfer Credits. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.
ITA 396. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

ITA 397. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

ITA 398. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

ITA 399. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

ITA 432. Italian for Business and for Business Travelers. 3 Credit Hours.
This course will allow non-native speakers of Italian to communicate with native Italian speakers in a business environment by providing students with the basic vocabulary and professional expressions that are most often used in the business arena. Target business areas will be addressed through specific exercises, individual presentations, pair and group work, class discussion, preparing a Portfolio and a Final written Project, while working with authentic materials.
Prerequisite: ITA 212.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 444. Introduction to Translation. 3 Credit Hours.
The main objective of this course is to develop the knowledge and skills of the Italian language learner in the field of translation, with Italian and English both as source and target languages. The course addresses the linguistic foundations of translation as process and product from theoretical and applied perspectives.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ITA 446. Cultural Debates: Public Speaking on Societal Issues. 3 Credit Hours.
The course will improve a student’s conversational skills cultivating formal academic speaking competencies and will develop critical thinking skills and analytical expression in Italian through active, responsible participation in discussions, debates, and oral presentations.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

ITA 592. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: THI.
Grading: GRD.

ITA 593. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: LEC.
Grading: GRD.

ITA 594. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: LEC.
Grading: GRD.

ITA 641. Elementary ITA I for Graduate Students. 1 Credit Hour.
Designed to develop graduate students’ communicative abilities in speaking, reading, writing, and comprehending Italian, and to provide an introduction to the Italian-speaking world.
Prerequisite: ITA 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 642. Elementary ITA II for Graduate Research. 1 Credit Hour.
Continuation of ITA 641. Designed to develop graduate students’ communicative abilities in speaking, reading, writing, and comprehending Italian, and the continued study of the Italian-speaking world.
Prerequisite: ITA 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 651. Intermediate ITA I for Graduate Research. 1 Credit Hour.
For graduate students with previous study of elementary-level Italian. Designed to enhance graduate students’ communication skills in the Italian language at the intermediate level. Intended principally for students who will carry out research in areas related to the Italian-speaking world.
Prerequisite: ITA 642.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

ITA 652. Intermediate ITA II for Graduate Research. 1 Credit Hour.
For students with previous study of intermediate-level Italian. Designed to enhance graduate student’s communication skills in the Italian language at the high-intermediate level. Intended principally for students who will carry out research in areas related to the Italian-speaking world.
Prerequisite: ITA 651.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 691. Directed Readings. 1-3 Credit Hours.
Directed Readings at the graduate level.
Components: IND.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
Japanese (JPN)

**JPN 101. Elementary Japanese I. 3 Credit Hours.**
Basic introduction to conversation, grammar, reading, and composition for students with no background in Japanese. The course is designed to develop basic skills in speaking, listening, reading, and writing of the modern Japanese language. Japanese culture and customs will be taught by way of media and/or other resources. Closed to native speakers.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

**JPN 102. Elementary Japanese II. 3 Credit Hours.**
Continuation of JPN 101. Further development, language skills in speaking, listening, reading, and writing of the modern Japanese language. Japanese culture and customs will be taught by way of media and/or other resources. Closed to native speakers.

**Prerequisite:** JPN 101.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

**JPN 195. Transfer Credit. 1-3 Credit Hours.**
Awarded for 100-level course work at another institution for which UM has no direct equivalent.

**Components:** LEC.

**Grading:** CNC.

**Typically Offered:** Fall, Spring, & Summer.

**JPN 201. Intermediate Japanese I. 3 Credit Hours.**
Further expansion of language skills (grammar, composition and reading) while introducing students to aspects of Japanese customs, history and culture. Closed to native speakers.

**Prerequisite:** JPN 102.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

**JPN 202. Intermediate Japanese II. 3 Credit Hours.**
Continuation of JPN 201. Further development of reading, writing, listening, and speaking skills in Japanese, including honorific and respectful expressions. Closed to native speakers.

**Prerequisite:** JPN 201.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

**JPN 203. Advanced Japanese I. 3 Credit Hours.**
Continuation of JPN 202. Develops students' ability to use Japanese in a more advanced way. The course emphasizes accurate comprehension, expansion of vocabulary, and development of the ability to use increasingly complex grammatical and sentence structures. In addition to improving their language abilities, students will also be exposed to different areas of Japanese culture.

**Prerequisite:** JPN 202.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

**JPN 204. Advanced Japanese II. 3 Credit Hours.**
Develops students' ability to use Japanese in a more advanced way by continuing Japanese 203's emphasis on accurate comprehension, expansion of vocabulary, and development of the ability to use increasingly complex grammatical and sentence structures. Students will also be exposed to and analyze different areas of Japanese culture.

**Prerequisite:** JPN 203.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Spring.

**JPN 210. Introduction to Japanese Culture. 3 Credit Hours.**
The major aesthetic, social and political factors that have shaped contemporary and traditional Japanese culture and society. The historical evolution of Japanese culture will be approached through film, literature and art. Students will revisit related historical sites to enhance awareness and understanding of the topics. The course will be taught primarily in English, with some Japanese terminology. Offered only in the summer abroad program in Japan. No language requirement.

**Prerequisite:** JPN 102.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Summer.

**JPN 295. Transfer Credit. 1-3 Credit Hours.**
Awarded for 200-level course work at another institution for which UM has no direct equivalent.

**Components:** LEC.

**Grading:** CNC.

**Typically Offered:** Fall, Spring, & Summer.

**JPN 394. Internship. 3 Credit Hours.**
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM-faculty supervision, as well as supervised on-site experience in a Japanese-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student's degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).

**Prerequisite:** JPN 204.

**Components:** PRA.

**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.

**JPN 395. Transfer Credit. 1-3 Credit Hours.**
Awarded for 300-level course work at another institution for which UM has no direct equivalent.

**Components:** LEC.

**Grading:** CNC.

**Typically Offered:** Fall, Spring, & Summer.
JPN 432. Business Japanese. 3 Credit Hours.
Designed for students who have completed JPN 202 or two years of
Japanese at the college level and are interested in acquiring practical
knowledge and communication skills required to deal with real-life
business situations. The focus of the course is oral/aural communication
skills. In addition, students will read authentic essays and newspaper
articles and will also compose a variety of documents that play an
important role in running a business.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JPN 447. Advance Conversation Through Japanese Theatrical Texts. 3
Credit Hours.
Students will develop conversational skills and acquire a better
understanding of sociocultural dynamics by practicing Japanese
performing arts, such as Rakugo (comic story telling), Manzai (standup
comedy), voice-acting for animation of folk stories, and scenes from
contemporary Japanese theater. Students will also develop independent
study skills and communication skills in different social settings.
Prerequisite: JPN 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JPN 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM
has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

JPN 641. Elementary JPN I for Graduate Students. 0 Credit Hours.
Designed to develop graduate students' communicative abilities
in speaking, reading, writing and comprehending Japanese at the
elementary level and to provide an introduction to Japanese Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JPN 642. Elementary JPN II for Graduate Students. 0 Credit Hours.
Continuation of JPN 641. Designed to develop graduate students' communicative abilities in speaking, reading, writing, and comprehending Japanese, and continued engagement with the Japanese-speaking world.
Prerequisite: JPN 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JPN 651. Intermediate JPN I for Graduate Research. 0 Credit Hours.
For graduate students with previous study of elementary-level Japanese.
Designed to develop graduate students' communication skills in both
written and spoken Japanese at the intermediate level. Intended primarily for students who will carry out research in the Japanese-speaking world.
Prerequisite: JPN 642.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

Journalism and Media Management (JMM)

JMM 102. Understanding Media and Content in the Digital Age. 3 Credit Hours.
This course examines how traditional and new media industries are
economically structured and how various media content influences
audiences and culture. Historical, technological, and regulatory issues
related to the different media platforms will also be discussed from a
comparative perspective.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 106. Visual Design. 3 Credit Hours.
This course is an introduction to the principles of design, typography,
color theory, usability and interactivity as they apply to the layout and
design of content for print and digital media.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
JMM 108. Writing for the Digital Age. 3 Credit Hours.
This course provides students with an understanding of writing styles appropriate for communicating in the digital age, with particular emphasis on grammar, spelling, syntax and clarity. It provides a solid foundation for further practice and specialization in various types of multimedia communication.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 206. Special Topics in Journalism and Media Management I. 3 Credit Hours.
This course subject matter varies according to announced special topics. See class schedule for details.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 208. Fundamentals of Newsgathering. 3 Credit Hours.
Skill development in gathering facts and other material for, and in preparation of, news stories in a variety of genres across platforms. Focus on gathering information from multiple sources, analyzing and organizing information for dissemination, and presenting the most pertinent facts clearly and cohesively to multiple media outlets. Prerequisites: JMM 111 or JMM 108.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 210. Writing About the Arts. 3 Credit Hours.
The aim of JMM 210 is to help you develop skills in writing and reporting about entertainment and the arts.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 221. Introduction to Documentary Photography. 3 Credit Hours.
Course is designed to develop skills in visual storytelling. Students will learn to produce images and recognize what makes good photographs in terms of content, composition, and technical quality.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 233. Television Performance. 3 Credit Hours.
Introduction to communication concepts and skills involved in on-camera duties such as anchoring, interviewing and live reporting.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 235. Radio Production and Performance. 3 Credit Hours.
Introduction to equipment and procedures of radio. Production of radio programs and formats, editing, announcing, sequencing program elements, and designing program formulas are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 245. Introduction to Electronic Media Production. 3 Credit Hours.
Introduction to the theory, process, and procedure of electronic media production. Lecture and laboratory are included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 258. Introduction to Electronic Media Production. 3 Credit Hours.
This course provides students an introduction to descriptive and bivariate inferential statistics to better understand and use media research and analysis. Computer applications are included. Prerequisite: MTH 101. Or ALEKS Score 60+ or 650 Math SAT + or 28 Math ACT+.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 300. Journalism Practicum. 1-3 Credit Hours.
Prescribed study and supervised work with faculty and staff of the student newspaper or related news media. Students receive first-hand knowledge and experience in a working news environment.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 301. Media Research and Analysis. 3 Credit Hours.
Survey of qualitative and quantitative research methods used to collect and analyze data on media audiences. Course also covers metrics used by media industries. Practice in conducting small-scale audience measurement is included. Prerequisite: JMM 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 302. Electronic Media Law. 3 Credit Hours.
Course provides analysis of laws and other forces that influence broadcasting, cable, and online media operations. Examines the application of the First Amendment to media operations with a focus on press law.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 303. Communication Law and Policy. 3 Credit Hours.
A study of First Amendment law and theories concerning libel, privacy, copyright, advertising, corporate communications, reporter privilege, free-press/fair trial, pornography, access to government information, broadcasting and new communication technologies. Discussion of international perspectives on media regulation. Prerequisite: JMM 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JMM 304. Web and Media Analytics. 3 Credit Hours.
This course covers the computations, interpretations, and applications of metrics used to measure media audiences across electronic, print, and online platforms.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 305. Legal Issues in Media Management. 3 Credit Hours.
Examination of the legal environment affecting contemporary media businesses including broadcasting, advertising, public relations, web-based media, and print publications. Focus on U.S. law, with introduction of international and comparative perspectives.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
JMM 306. Special Topics in Journalism and Media Management II. 3 Credit Hours.
This course subject matter varies according to announced special topics. See class schedule for details.
Prerequisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 307. Mobile Journalism. 3 Credit Hours.
This course provides an introduction to the fundamental procedures in the production and development of mobile storytelling.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 309. Data Journalism. 3 Credit Hours.
This course teaches how to extract meaning from data for more powerful reporting.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 313. Media Sales. 3 Credit Hours.
Operation of sales departments within media outlets. Course includes the preparation and delivery of sales presentations as well as the use of audience reports.
Prerequisite: JMM 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 314. Media Programming. 3 Credit Hours.
Course covers categories and sources for selecting program materials used in radio, television, cable television, and other program services. Strategies employed in devising program schedules and understanding audience behaviors are also covered.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 317. Broadcast Journalism. 3 Credit Hours.
Preparation of materials for presentation through the broadcast/cable media with emphasis on news writing for oral presentation by studio anchors and field reporters. Course examines issues facing the profession of broadcast journalism, radio, and TV reporting techniques and news program formats.
Prerequisite: JMM 245.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 319. History of Journalism. 3 Credit Hours.
The development and impact of American journalism.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 331. Introduction to Infographics and Data Visualization. 3 Credit Hours.
This course is an introduction to the visual display of information with a special focus on the encoding of data by means of graphs, charts, maps, and diagrams.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 333. Social Media and Journalism. 3 Credit Hours.
Examination of best practices for use of social media for gathering, disseminating, and promoting information.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 341. Web Design. 3 Credit Hours.
This course covers the basic aspects of interaction design and web development, focusing on production processes. It provides an overview of web design concepts including usability, accessibility, information architecture, basic animation, and graphic design; all discussed in the context of the web environment. This course further offers an introduction to fundamental and emerging web trends.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 345. Intermediate Electronic Media Production. 3 Credit Hours.
Planning and execution of complex field, studio, and multimedia production in a variety of lengths and formats. High level skills in television control room situations and non-linear editing will be used to produce audio, video, and online content.
Prerequisite: JMM 245.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 361. Advanced Documentary Photography. 3 Credit Hours.
Advanced Documentary Photography is a class designed to improve the visual storytelling news gathering, and photographic technical skills introduced in the introductory course.
Prerequisite: JMM 221.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 381. Newspaper Editing and Layout. 3 Credit Hours.
Introduction to electronic editing and development of skills in copy editing, headline writing, picture editing, and newspaper layout.
Prerequisite: JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 382. Publication Planning and Editing. 3 Credit Hours.
Introduction to editing and design, with emphasis on the development of skills in editing copy and photos, writing headlines, news judgment, and designing print publications and websites.
Prerequisites: JMM 216 or JMM 208, JMM 106.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 401. Editorial Interpretation of Contemporary Events. 3 Credit Hours.
Critical examination of fundamental issues in public life. Preparation of editorials and interpretive articles for mass media are included.
Prerequisites: JMM 216 or JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
JMM 402. Strategic Media Management. 3 Credit Hours.
This course focuses on strategy analysis, formulation, implementation, and evaluation in managing media enterprises. Media cases are used to apply and discuss strategies.
Pre-requisite: JMM 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 403. Media Industry Trends. 3 Credit Hours.
This course examines the organizational and economic issues that influence today's mass media environment.
Requisite: Junior Status.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 404. Latinos and the Media. 3 Credit Hours.
This course examines the history, politics, production and reception of Latino-oriented media. It considers Latino media production processes, as well as Latina/o audiences' immigration, incorporation and media reception patterns. The course takes advantage of Miami as a vibrant immigration media production site through field trips and independent research projects.
Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 406. Special Topics in Journalism and Media Management III. 3 Credit Hours.
This course subject matter varies according to announced special topics. See class schedule for details.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 407. Media Entrepreneurship. 3 Credit Hours.
Students generate comprehensive business plans for a proposed media enterprise. Organizational, financial, and marketing aspects of starting a media business are discussed.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 408. International Electronic Media Systems. 3 Credit Hours.
Seminar on world broadcasting systems and trans-national communication services. Discussion of contemporary issues involving electronic media systems worldwide.
Requisite: Junior Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 409. Advanced Feature Design. 3 Credit Hours.
Advanced newspaper, magazine, and electronic design. Students will develop the skills necessary to produce strong visual packages combining type, photography, artwork, and white space. The course will cover advanced design and traditional reproduction techniques for art and copywriting as well as on-line presentations.
Prerequisite: JMM 106. Or STC 202. Or STC 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 414. Evolution and Impact of Television Content: The American Sitcom. 3 Credit Hours.
The seminar will examine how social, economic and political factors impacted the development and evolution of the content of sitcoms, as well as the impact such content had on American society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 417. Advanced Broadcast Journalism. 3 Credit Hours.
This capstone course concentrates on gathering and preparing news stories for presentation in news programs. Includes field reporting, editing, preparation of visual and aural TV elements, writing, producing and performing for on-air presentation. Lecture and laboratory are included.
Prerequisites: JMM 245, JMM 317.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 419. Interactive Storytelling. 3 Credit Hours.
This course explores how storytelling is reinventing itself utilizing the new digital communication tools available. It will cover linear and non-linear storytelling techniques and production processes.
Prerequisites: JMM 106 and JMM 245 and JMM 341. Requisite: Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 422. Programming for Interactivity. 3 Credit Hours.
This course is a multimedia class that will teach the fundamental programming skills required to create compelling online multimedia stories. Programming taught in this class caters specifically for non-programmers who want to learn how to present their work online in an interactive manner.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 427. Television Newscast. 3 Credit Hours.
Studio anchoring, newscast producing, and field reporting for news and public affairs programming.
Prerequisite: JMM 417.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 429. Advanced Infographics and Data Visualization. 3 Credit Hours.
This course is a seminar designed to introduce interactive data visualization concepts in a web environment. Students will be introduced to code libraries which assist in this task, best practices for interactivity and data visualization. The course will also briefly cover working with data (i.e., how to find sources, cleaning and preparing data for visualizations, etc.).
Prerequisite: JMM 331 and JMM 422.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.
JMM 434. Media Distribution for Film and Television. 3 Credit Hours.
This course covers the various aspects of the distribution process for films and television programs through conventional and emerging channels. 
Requisite: Junior Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 435. Media Technology. 3 Credit Hours.
This course examines the deployment, use, and impact of communication technologies in various media contexts from an economic, regulatory, and social perspective. 
Requisite: Junior Status.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 438. Travel Journalism. 3 Credit Hours.
This course is designed to teach travel journalism, which includes travel storytelling through writing, photography and videography. 
Prerequisite: JMM 245.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 439. Infographics and Data Visualization Studio. 3 Credit Hours.
A studio course in which the student will design a large visualization project that meets the standards of quality for professional publication. The student will be required to learn new technologies and to apply tools learned in a previous class. 
Prerequisite: JMM 331 and JMM 429 or JMM 550 or JMM 309.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 442. Online Journalism. 3 Credit Hours.
A study of the issues, skills and practices related to the online presentation of news and information in a convergent media environment. 
Prerequisites: JMM 216 or JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 443. Covering the Arts. 3 Credit Hours.
The aim of this course is to help you develop skills in writing and reporting about entertainment and the arts, from covering business and government news related to the arts, to telling the stories of people leaving a mark in the art world, to reviewing and critiquing works. You will report stories, write reviews and maintain a blog in the discipline of your choice. 
Prerequisites: JMM 216 or JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 444. Public Affairs Reporting. 3 Credit Hours.
Emphasis on reporting, writing and analysis about institutions, issues and actions of local government, and their effects on society. 
Prerequisites: JMM 216 or JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 445. Advanced Electronic Media Production. 3 Credit Hours.
The integration of the producer's role and the structure of program design as they relate to day-to-day production operations. Lecture and laboratory are included. 
Prerequisite: JMM 345.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 446. Travel Writing. 3 Credit Hours.
A study of the major types and styles of travel news and features stories for newspapers, magazines, newsletters, and websites. 
Prerequisites: JMM 216 or JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 447. In-depth Journalism and Media Convergence. 3 Credit Hours.
A capstone experience that requires students to use effectively their full range of journalistic knowledge, newsgathering, and writing skills to prepare news and information for different media platforms. 
Prerequisites: JMM 216 or JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 448. Sports and the Media. 3 Credit Hours.
This course examines the relationship between sports and the media, including stakeholders and the financial component of sports and media, sports production and content, and sports media audience. The course provides an understanding of the social and economic relationships between sports and media and the effects those relationships have on sports consumers. 
Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 461. Seminar in News Ethics and Problems. 3 Credit Hours.
Ethical, practical, and professional problems of news communicators in society. 
Requisite: Junior Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 495. Internship in Journalism and Media Management. 1-3 Credit Hours.
Prescribed study and supervised work with professionals in Journalism and Media Management. 
Requisite: Sophomore Status, cumulative GPA of 2.5, and Permission of Instructor.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JMM 499. Projects and Directed Research. 1-3 Credit Hours.
Individual study. No more than three credits may be counted toward a Communication major or minor. 
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
JMM 510. Comparative Media Systems. 3 Credit Hours.
This course deals with issues in international news gathering and
distribution, giving special attention to Latin America and the Caribbean.
The class takes a comparative approach, looking at media systems in the
United States and other nations.
Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 511. Global Media. 3 Credit Hours.
An analysis of issues and practices surrounding globalization,
regionalization, and global/local as they relate to media industries,
journalism, and communication.
Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 513. Computer-Assisted Reporting. 3 Credit Hours.
Use of computer applications for newsgathering with emphasis on the
World Wide Web, commercial online services, and database tools.
Prerequisites: JMM 216 or JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 515. Reporting and the Internet. 3 Credit Hours.
Overview of uses of online computer services for newsgathering and
distribution with emphasis on the Internet.
Prerequisites: JMM 216 or JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 517. Television News Reporting. 3 Credit Hours.
Gathering and preparation of news stories for presentation in news
programs. Includes field reporting, editing, preparation of visual and aural
elements, writing, producing and performing for on-air presentation.
JMM 345 and JMM 317.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 521. Seminar in Visual Storytelling. 3 Credit Hours.
An advanced seminar class designed to enhance the knowledge and
practice of the visual storytelling narrative. This seminar stresses the
importance of converging media, still images, video, and sound. Particular
emphasis will be placed upon the creation of a multimedia portfolio.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 523. Sports Reporting. 3 Credit Hours.
An analysis of sports journalism that will develop students’ skills in
sports reporting and sports writing. Discussions range across the
entire field of sports reporting, including broadcasting, but the greatest
emphasis is concentrated on sports reporting and writing for newspapers
and magazines.
Prerequisites: JMM 216 or JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 527. Television News Producing. 3 Credit Hours.
Studio anchoring, newscast producing and field reporting for news and
public affairs programming. Live field reporting and field and studio
interviewing techniques are covered.
Prerequisites: JMM 417 or JMM 517.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 533. Social Media. 3 Credit Hours.
Examination of best practices for use of social media for gathering,
disseminating, and promoting information.
Prerequisite: JMM 208.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 537. The Business of Modern Journalism. 3 Credit Hours.
Provides an examination of the evolving business models for legacy news
organizations as well as discussion of entrepreneurial opportunities for
news content in new media and digital platforms.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 541. Advanced Audio Video Narratives. 3 Credit Hours.
This course examines uses of audio and video to communicate
journalism. Students learn to investigate, gather content, and produce
documentary stories primarily for online distribution.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 544. Feature Writing. 3 Credit Hours.
Analyzing and writing feature articles for magazines, newspapers, and
other news media.
Prerequisite: JMM 108.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 547. Magazine Planning. 3 Credit Hours.
This course is a magazine planning class where students will create a 32-
page print/digital cross-platform niche publication from scratch. It will be
based on a business model creating a design and content for a specific
audience.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 550. 3D Design and Graphics. 3 Credit Hours.
This course focuses on the use of 3D Design software for communication
and how to integrate with other print and digital technologies.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
JMM 551. Advanced Programming. 3 Credit Hours.
This course explores the role of the programmer as journalist. Students will perform the basic tasks of journalism from a programmatic perspective including: gathering, distilling and presenting information. Students will learn how to gather information from public databases and government websites. They will learn how to automate processes for filtering information and learn how to present this information in a visual and interactive news report. Students will also learn how to combine multiple sources of information, to personalize information for the end reader, and account for the relevant permutations of the data. Students will learn to build and query databases as well as mine and visually present the information using programming languages such as PHP and Python. Rapid development frameworks such as Django, Zend, and Symfony will also be covered in the class.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

JMM 560. Team Multimedia Project. 1-3 Credit Hours.
Students will work in a team to produce a documentary multimedia project in conjunction with one or more partner universities. Students will study the genre of documentary multimedia storytelling, research their assigned topic(s), content-gather, edit, wireframe, design and program the project and produce it on multiple platforms depending on the topic and intended audience. Students will use audio, photographic, video, infographic and text reporting tools in producing the project. They will also study methodologies for evaluating multimedia and beta test the site using established research methodologies.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

JMM 592. Special Topics in Journalism and Media Management. 3 Credit Hours.
This course subject matter varies according to announced special topic. See class schedule for details.
Requisite: Junior Or Senior Or Graduate Status.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 599. Advanced Projects and Directed Research. 1-6 Credit Hours.
Individual study. Course may be repeated to a maximum of six credits.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JMM 601. Editorial Interpretation of Contemporary Events. 3 Credit Hours.
Critical examination of fundamental issues in public life. Preparation of editorials and interpretive articles for mass media are included.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 605. News Technologies. 3 Credit Hours.
This course emphasizes how television, digital, and multimedia technologies con tribute to the storytelling process. Understanding of production theories and news processes will be gained through hands on work with television and multimedia projects.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 606. Multimedia Design. 3 Credit Hours.
This is a project-based course in multimedia design, with emphasis on visual concepts and graphics development. Students will be learning about the various software packages to design and integrate interaction into their projects. Topics covered include preparing existing content for multimedia journalism, animation, layout for interactive media, typography, photography and usability.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 607. Broadcast Journalism. 3 Credit Hours.
Advanced instruction in techniques of news writing and field reporting, including conducting research for stories, preparing complete field packages for newscasts, filing live remotes, and conducting interviews.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 608. Long-Form Public Affairs Programming. 3 Credit Hours.
Development and production of longer form news, information magazine, and documentary style programming.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

JMM 609. Internship in Journalism and Media Management. 1-3 Credit Hours.
Prescribed study and supervised work with professional in print, broadcast, online, and other media organizations.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JMM 610. Comparative Media Systems. 3 Credit Hours.
This course deals with issues in international news gathering and distribution, giving special attention to Latin America and the Caribbean. The class takes a comparative approach, looking at media systems in the United States and other nations.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 611. Newswriting and Reporting Seminar. 3 Credit Hours.
Development of newswriting and reporting skills for news media.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 612. History of Journalism Seminar. 3 Credit Hours.
The development and impact of journalism in America traced through industry leaders and events.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 613. Computer-Assisted Reporting. 3 Credit Hours.
Use of computer applications for news gathering with emphasis on the World Wide Web, commercial online services, and database tools.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
JMM 614. Law and Ethics in Journalism and Media Management. 3 Credit Hours.
This course focuses on two critically important areas of the law for both aspiring news media professionals and those seeking management opportunities. Principles of free speech, deeply rooted in the First Amendment to the U.S. Constitution, delve into such topics as defamation, privacy, access to information, obscenity, and intellectual property. The course also introduces students to the fundamentals of business law as it pertains to the media industry with an emphasis on employment, workplace management, and business contracts. Ethical issues are addressed throughout the course.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 615. Writing and Reporting Across Platforms. 3 Credit Hours.
An introduction to professional operating practices in multimedia journalism with emphasis on news writing and news production skills.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 616. Evolution and Impact of Television Content: The American Sitcom. 3 Credit Hours.
The seminar will examine how social, economic and political factors impacted the development and evolution of the content of sitcoms, as well as the impact such content had on American society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 617. Television News Reporting. 3 Credit Hours.
Gathering and preparation of news stories for presentation in news programs. Includes field reporting, editing, preparation of visual and aural elements, writing, producing and performing for on-air presentation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 618. International Journalism. 3 Credit Hours.
News gathering, transmission, and distribution outside the United States, with emphasis on Latin America.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 619. Interactive Storytelling. 3 Credit Hours.
Digitization allows us to merge several forms of media that were not connected in the past. This course is intended as an exploration of how storytelling is re-inventing itself utilizing the new digital communication tools available to us today. This course will cover linear and non-linear storytelling techniques and production processes.
Prerequisites: JMM 628 and JMM 622 and JMM 630 and CIM 690.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 620. Reporting and the Internet. 3 Credit Hours.
Overview of uses of online computer services for newsgathering and distribution with emphasis on the Internet.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 621. Global Media. 3 Credit Hours.
An analysis of issues and practices surrounding globalization, regionalization, and global/local as they relate to media industries, journalism, and communication.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 622. Introduction to Infographics and Data Visualization. 3 Credit Hours.
This course is an introduction to the visual display of information with a special focus on the encoding of data by means of graphs, charts, maps, and diagrams.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

JMM 623. Sports Reporting. 3 Credit Hours.
An analysis of sports journalism that will develop students’ skills in sports reporting and sports writing. Discussions range across the entire field of sports reporting, including broadcasting, but the greatest emphasis is concentrated on sports reporting and writing for newspapers and magazines.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 624. Seminar in Editing and Design for Print and Websites. 3 Credit Hours.
Theory and practice in news media copy editing, layout, and design.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 625. Advanced Newsgathering and Writing Seminar. 3 Credit Hours.
Refining news writing and reporting skills for the media.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 626. Specialized Writing and Reporting Seminar. 3 Credit Hours.
Techniques in writing and reporting about specialized and complex subjects for news media.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 627. Television News Producing. 3 Credit Hours.
Studio anchoring, newscast producing and field reporting for news and public affairs programming. Live field reporting and field and studio interviewing techniques are covered.
Components: LAB.
Grading: GRD.

JMM 628. Seminar in Visual Storytelling. 3 Credit Hours.
An advanced seminar class designed to enhance the knowledge and practice of the visual storytelling narrative. This seminar stresses the importance of converging media, still images, video, and sound. Particular emphasis will be placed upon the creation of a multimedia portfolio.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.
JMM 629. Advanced Infographics and Data Visualization. 3 Credit Hours.
This course is a seminar designed to introduce interactive data visualization concepts in a web environment. Students will be introduced to code libraries which assist in this task, best practices for interactivity and data visualization. The course will also briefly cover working with data (i.e., how to find sources, cleaning and preparing data for visualizations, etc.).
Prerequisite: JMM 622 and JMM 630.
Components: LAB.
Grading: GRD.

Typically Offered: Spring.

JMM 630. Programming for Interactivity. 3 Credit Hours.
This course is a multimedia class that will teach the fundamental programming skills required to create compelling online multimedia stories.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 631. Data Journalism. 3 Credit Hours.
This course teaches how to extract meaning from data for more powerful reporting.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 632. Current Issues in Media Management. 3 Credit Hours.
This course addresses how recent developments in media technology, regulation, content, and measurement have influenced the structure and economics of the media industry. Given the rapid evolution of the media business across platforms, topics are likely to vary from year to year.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 633. Social Media. 3 Credit Hours.
This course looks at social media from an organizational perspective: best practices for news and media organizations; building digital communities; monitoring/listening to user-generated content; and branding and marketing through social media.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 634. Media Distribution for Film and Television. 3 Credit Hours.
This course covers the various aspects of the distribution process for films and television programs through conventional and emerging channels.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 635. The Broadcasting, Cable, and Electronic Media Industry. 3 Credit Hours.
Examination of broadcasting, cable, and related electronic media from a business perspective.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 636. Content Strategy in the Media Industry. 3 Credit Hours.
What distinguishes the media industry from other sectors is the primacy of content. This course examines the practices involved in developing, distributing, scheduling, and monetizing media content, especially in the video space. Programming strategies are discussed across traditional and emergent media platforms.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 637. The Business of Modern Journalism. 3 Credit Hours.
The course examines the evolving business models for legacy news organizations as well as discusses entrepreneurial opportunities for news content in new media and digital platforms.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 638. Infographics and Data Visualization Studio. 3 Credit Hours.
A studio course in which the student will design a large visualization project that meets the standards of quality for professional publication. The student will be required to learn new technologies and to apply tools learned in previous classes.
Prerequisites: JMM 622 and JMM 629 or JMM 650 or JMM 631.
Components: STU.
Grading: GRD.
Typically Offered: Fall.

JMM 639. Travel Journalism. 3 Credit Hours.
This course is designed to teach travel journalism, which includes travel storytelling through writing, photography and videography.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 640. Web Design. 3 Credit Hours.
This course covers the basic aspects of interaction design and web development, focusing on production processes. It provides an overview of web design concepts including usability, accessibility, information architecture, basic animation, and graphic design; all discussed in the context of the web environment. This course further offers an introduction to fundamental and emerging web trends.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 641. Advanced Audio Video Narratives. 3 Credit Hours.
This course examines uses of audio and video to communicate journalism. Students learn to investigate, gather content, and produce documentary stories primarily for online distribution.
Prerequisite: JMM 628.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 642. Audience Research and Analysis. 3 Credit Hours.
This course covers the primary research methods and metrics used to measure media audiences. Discussion of data collection procedures includes survey research, experimental design, content analysis, focus groups, and the growing use of big data analysis. Media metrics center on broadcast ratings and online exposure measurement. Applications or small-scale projects are conducted for practice.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
JMM 643. Media Industry Trends. 3 Credit Hours.
This course examines the organizational and economic issues that influence today's mass media environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 644. Feature Writing. 3 Credit Hours.
Analyzing and writing feature articles for magazines, newspapers, and other new s media.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 646. Travel Writing. 3 Credit Hours.
A study of the major types and styles of travel news and features stories for newspapers, magazines, newsletters, and websites.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 647. Magazine Planning. 3 Credit Hours.
This course is a magazine planning class where students will create a 32-page print/digital cross-platform niche publication from scratch. It will be based on a business model creating a design and content for a specific audience.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 648. Sports and the Media. 3 Credit Hours.
This course examines the relationship between sports and the media, including stakeholders and the financial component of sports and media, sports production and content, and sports media audiences. The course provides an understanding of the social and economic relationships between sports and media and the effects those relationships have on sports consumers.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 649. Team Multimedia Project. 1-3 Credit Hours.
Students will work in a team to produce a documentary multimedia project in conjunction with one or more partner universities. Students will study the genre of documentary multimedia storytelling, research their assigned topic(s), collect, edit, wireframe, design and program the project and produce it on multiple platforms depending on the topic and intended audience. Students will use audio, photographic, video, infographic and text reporting tools in producing the project. They will also study methodologies for evaluating multimedia and beta test the site using established research methodologies.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

JMM 650. 3D Design and Graphics. 3 Credit Hours.
This course focuses on the use of 3D Design software for communication and how to integrate with other print and digital technologies.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JMM 651. Advanced Programming. 3 Credit Hours.
This course explores the role of the programmer as journalist. Students will perform basic tasks of journalism from a programmatic perspective including: gathering, distilling and presenting information. Students will learn how to gather information from public databases and government websites. They will learn how to automate processes for filtering information and learn how to present this information in a visual and interactive news report. Students will also learn how to combine multiple sources of information, to personalize information for the end reader, and account for the relevant permutations of the data. Students will learn to build and query databases as well as mine and visually present the information using programming languages such as PHP and Python. Rapid development frameworks such as Django, Zend and Symfony will also be covered in the class.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

JMM 652. Special Topics in Journalism and Media Management. 3 Credit Hours.
The mechanics of planning and executing professional style newscasts and/or long-form television news program.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 654. Writing for Publication. 1-3 Credit Hours.
This course focuses on writing principles and practices of the news media. It is designed to give the student exposure and practical experience in writing for the print media.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JMM 655. Media Technology. 3 Credit Hours.
This course examines the deployment, use, and impact of communication technologies in various media contexts from an economic, regulatory, and social perspective.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 657. Media Entrepreneurship. 3 Credit Hours.
Students generate comprehensive business plans for a proposed media enterprise. Organizational, financial, and marketing aspects of starting a media business are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JMM 692. Special Topics in Journalism and Media Management. 3 Credit Hours.
This course subject matter varies according to announced special topic. See class schedule for details.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JMM 695. Special Topics in Journalism. 3 Credit Hours.
This course subject matter varies according to announced special topic. See class schedule for details.
Components: IND.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
JMM 696. Special Topics in Visual Journalism. 1-6 Credit Hours.
This course subject matter varies according to announced special topic. See class schedule for details.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JMM 699. Advanced Projects and Directed Research. 1-6 Credit Hours.
Individual study. Course may be repeated to a maximum of six credits.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JMM 815. Multimedia Project. 1-6 Credit Hours.
Students, in consultation with program faculty, will complete a final project that reflects in-depth knowledge and analysis of a subject and professional competence in multimedia storytelling. Course may be repeated to a maximum of six credits.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

Judaic Studies (JUS)

JUS 205. Holocaust Survivor Service Internship. 3 Credit Hours.
Interns will gain meaningful experiences that will offer them an opportunity to become involved in service-oriented activities. This will give them a deep insight and unique understanding of the historical significance of the Holocaust while providing valuable services to the survivors of Nazi atrocities.
Components: DIS.
Grading: CNC.
Typically Offered: Fall.

JUS 231. Jewish Civilization: Society, Culture and Religion. 3 Credit Hours.
Introduction to Jewish civilization from Abraham to present.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JUS 250. The Holocaust Through Film, Memoir and Testimony. 3 Credit Hours.
The purpose of the course is to introduce students to the history of the Holocaust through classroom dialogue, film, and literature analysis. Involving students in major ethical and moral issues raised in the study of the Holocaust by encouraging students to think critically, explore choices, and make decisions based on a code of conduct that reflects a commitment to humanity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 301. Studies in Judaica. 3 Credit Hours.
Special topics offering at the 300-level for students pursuing a major/minor in Judaic Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 314. The Rise of Judaism. 3 Credit Hours.
The history and literature of early Judaism, covering the period from the fall of Jerusalem in 587/586 BCE to the beginnings of rabbinic Judaism and the formation of the Mishnah (ca.200 CE).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 324. The History of Zionism. 3 Credit Hours.
The history of Zionism and the development of the State of Israel between 1860 and 1948. We focus on the roots, events and results of the Nazis nearly successful annihilation of Jewish men, women, and children living under the Swastika. We will study Hitler’s political aims, his Aryan superiority mythology, his domestic and foreign policies, and his conquests. We will also investigate how Germans, admired for their culture, became instruments of mass murder. Also included in this survey are the heroism of Jewish resisters and gentile rescuers who stood in direct opposition to the silence of the Christian churches and inactivity of the nearly all nations in the face of the Jewish disaster.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 325. Israel: The Making of a State. 3 Credit Hours.
The creation of the state of Israel in its historical context, emphasizing the period of 1945-55: The struggle for Israel’s establishment, the making of the state and the early challenges Israel faced. The class will use documents, text, testimony, poetry, music and film.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 338. History of the Holocaust. 3 Credit Hours.
Focus on the roots, events and results of the Nazis nearly successful annihilation of Jewish men, women, and children living under the Swastika. We will study Hitler’s political aims, his Aryan superiority mythology, his domestic and foreign policies, and his conquests. We will also investigate how Germans, admired for their culture, became instruments of mass murder. Also included in this survey are the heroism of Jewish resisters and gentile rescuers who stood in direct opposition to the silence of the Christian churches and inactivity of the nearly all nations in the face of the Jewish disaster.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 340. History of Modern Germany Since 1815. 3 Credit Hours.
German history from the Congress of Vienna in 1815 to the end of the Second World War. The course concentrates on the social, political, and cultural history of Germany between Bismarck and Hitler. The main topics of discussion include: The German states before and during the revolutions of 1848, German unification and Prussian policy during the 1850s and 1860s, Bismarck’s foreign policy and the political history of the Empire from 1871 to 1914, the origins and the course of the First World War, the Versailles Treaty and the history of the Weimar Republic, Hitler’s rise to power and the politics of Nazi Germany between 1933 and 1939, Germany during the Second World War and the Holocaust. To bring the past to life, lectures will occasionally be supplemented by documentary films.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JUS 352. Panoramic View of the Middle East. 3 Credit Hours.
The course is designed to provide a comprehensive introduction to the Middle East and a basic understanding of factors, forces, and processes shaping developments in the modern and contemporary history of this important world region.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
JUS 360. Hollywood and Popular Culture: The American Jewish Experience. 3 Credit Hours.
The image of the Jew and the Jewish experience in American Cinema. Prerequisite: JUS 231 or HIS 102.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 365. Literature of the Holocaust. 3 Credit Hours.
The destruction of European Jewry has generated a substantial body of literature, including survivor accounts, novels, poetry, and theological and philosophical inquiries. Firstly this course will review the history of the Holocaust; then a range of works will be read and discussed in terms of questions associated with the memorialization of victims. Non-literary responses to the Holocaust will also be examined: excerpts will be shown from the films The Last of the Unjust, Shoah, and The Quarrel, and we will listen to Steve Reich's musical composition Different Trails.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JUS 375. Religion and Democracy in Israel. 3 Credit Hours.
Israel's evolution as a nation and a society by focusing on how religion impacts ethnicity, culture, and democracy.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 380. Archaeology of Palestine. 3 Credit Hours.
Survey of the major archaeological excavations and surveys of Palestine, how this is used to interpret biblical narrative and give context to the emergence of Judaism and Christianity.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JUS 401. Studies in Judaica. 1-3 Credit Hours.
Designed to enable students interested in some phase of Judaic Studies to study extensively in that field of interest.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 410. Special Topics. 1-3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 411. Special Topics. 1-3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 421. Internship in Judaic Studies. 1-3 Credit Hours.
Prescribed study and supervised work with practitioners in Judaic services.
Components: DIS.
Grading: CNC.
Typically Offered: Fall & Spring.

JUS 498. Senior Thesis. 3 Credit Hours.
Partial requirement for Departmental Honors in Judaic Studies. Thesis to be a documented essay in any area of Judaic Studies written under the direction of a member of the faculty.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

JUS 499. Senior Thesis. 3 Credit Hours.
Partial requirement for Departmental Honors in Judaic Studies. Thesis to be a documented essay in any area of Judaic Studies written under the direction of a member of the faculty.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

Kinesiology (KIN)

KIN 100. Leadership, Management, and Ethics in Sports. 3 Credit Hours.
Students will gain an understanding of skills and philosophies of leadership, management, and ethic necessary for a position in the sport industry.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

KIN 105. Introduction to Athletic Training and Sports Medicine. 3 Credit Hours.
In this practical, hands-on course, the students will learn to identify basic sport injuries that afflict the major joints of the body, and review basic methods to treat these injuries. The student will also learn how nutrition, improper biomechanics, and poor training can all impact sport performance. Plus, participants will be given the opportunity to learn and practice techniques or procedures (such as athletic taping or bracing) that may be useful in minimizing the incidence of injury.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

KIN 110. Foundations in Exercise Physiology and Nutrition. 3 Credit Hours.
This class will consist of an introduction to the field of Sports Medicine and Exercise Science. Basic information relevant to appropriate exercise prescription, proper nutritional habits, implications on health, longevity and performance will be addressed. Hands-on practical experiences will supplement theoretical concepts learned in the classroom setting.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

KIN 137. Introduction to the Theory, Application, and Practice of Yoga. 2 Credit Hours.
A critical examination of theories underlying yoga practice, benefits of different styles, using specific techniques to target practitioners’ needs.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
KIN 140. Introduction to Athletic Training. 2 Credit Hours.
Introduction to the profession of athletic training. Introduction to Athletic Training with emphasis on study of the sports medicine team, legal concerns, nutrition, and pre-participation physicals. Course will discuss the basic principles of injury prevention including the role of conditioning, equipment, and protective padding. Emphasis will be familiarization with various community and university agencies, as well as the University of Miami athletic training staff, and policies and procedures used in the clinic/athletic facilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 141. Introduction to Athletic Training Lab. 1 Credit Hour.
Introduction to clinical athletic training for pre-athletic training major. Hands-on knowledge for the entry level athletic training student. Observation hours in the athletic training room will give the student the opportunity to use the knowledge, skills, and techniques learned in this course. The student must complete 35 clinical observation hours. There is a $65 lab fee for this class.
Corequisite: KIN 140. Requisite: ATHT, PAT Majors only and a Sophomore Status.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 145. Responding to Emergencies. 3 Credit Hours.
Students will become familiar with accident, injury, and illness situations, techniques for immediate first aid, and legal parameters involved when administering emergency care. There is a $45 lab fee for this class.
Requisite: ATHT Majors only and Sophomore Status.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 150. General Nutrition for Health and Performance. 3 Credit Hours.
Fundamentals and theories of nutrition with a specific focus on nutrition for both sports and fitness.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 155. Biological Bases for Physical Activity and Health. 3 Credit Hours.
This course serves as an introduction to the field of exercise physiology. Students will learn the biological need for physical activity, discuss specific mechanisms on how physical activity reduces disease risk and understand the relationship between physical activity and chronic diseases such as corony heart disease, obesity, diabetes, cancer, aging and mental health.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 184. Athletic and Sport Injuries. 3 Credit Hours.
Students will become familiar with athletic injuries in sports that occur over the principal joints in the body and the inclusion of anatomical structures that are frequently damaged. Basic operational treatments and rehabilitation programs after surgery will be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 200. Survey of Sports Administration. 3 Credit Hours.
Students will examine the employment opportunities and skills needed in professional, collegiate, and amateur sports as well as the health and fitness industry.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

KIN 201. Introduction to Sport Administration. 3 Credit Hours.
Basic overview of the fields of sport management. Majors must receive a grade of C or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 202. Applied Nutrition for Health and Performance. 3 Credit Hours.
The study of nutrition, diet analysis, biochemical processes in energy metabolism, nutrition and health problems, and nutrition as it relates to physical performance. The class will have 3 sections: 1) nutritional links to chronic disease; 2) nutrition before, during and after exercise bout; and 3) nutritional supplements for health and performance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 203. Introduction to Gaming and Casino Management. 3 Credit Hours.
The course will focus on the management of gaming and casino operations. Gambling has emerged as a major segment of the sport industry, comprising 10% of sport expenditures and injecting over $20B annually into the economy. Students will be exposed to the managerial requirements and organizational structures of various gaming operations. They will also learn about the history of the gaming industry and its impact on the South Florida and the Caribbean economy. The course will provide an introductory level of knowledge regarding the managerial nuances which make working within the industry unique to the traditional sport business environments.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 206. Sport Facilities and Event Management. 3 Credit Hours.
This course is an overview of the policy and procedures necessary to organize and develop sport events and facilities. In depth review of all programs, functions and procedures necessary for the operation of events and facilities are examined.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 210. Foundations in Athletic Training. 2 Credit Hours.
Students will be introduced to the study of etiology and mechanisms of injury, pathology, and recognition of clinical signs and symptoms of athletic injury. The student must complete 50 clinical observation hours, which are required for the retention process of the Athletic Training Program.
Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
KIN 211. Introduction to Campus Recreation. 3 Credit Hours.
This course is an introductory course and provides a broad overview of campus recreation. It will include information on how to plan, and execute programs such as intramurals, club sports and fitness and wellness. Risk management will be stressed in every aspect in the field along with other important topics such as sponsorships, budgeting, and evaluating programs and employees. Students will gain an understanding of what campus recreation is and its importance to a healthy lifestyle on campus.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 212. Elements of Sports Psychology. 3 Credit Hours.
Introduction to the field of sport and exercise psychology by examination of psychological theories and research related to sport and exercise behavior.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 221. Exercise Physiology: Biochemistry and Skeletal Muscle. 3 Credit Hours.
This course will offer an overview of the biochemistry pertaining to neuroendocrine responses, nutrition, and neuromuscular function; as well as the physiological and biochemical plasticity within skeletal muscle associated with various interventions, diseases, injuries, and aging. Majors must receive a grade of B- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 222. Exercise Physiology Laboratory Practicum: Neuromuscular. 3 Credit Hours.
This course examines the nature of data collection in exercise physiology. Students will receive information on collection theory and its application to the measurement of a number of physiological systems during exercise. The course is designed to establish a clear linkage between the chronic and acute changes that occur during exercise and the laboratory methods that are used to assess those changes. Co-requisite: KIN 221.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 230. Medical Terminology and Documentation. 1 Credit Hour.
Terminology, note writing, and documentation techniques in sports medicine. A treatment cycle model will be introduced.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 232. Basic Human Physiology. 3 Credit Hours.
This course presents a general overview of the major systems of the human organism with an examination of how they function in the human body. Majors must receive C or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 233. Basic Anatomy Lab. 2 Credit Hours.
This course presents a general overview of the anatomy of the major body systems, such as the skeletal, muscular, cardiovascular, nervous, digestive, respiratory and reproductive systems as well as the integumentary system and special senses.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 234. Functional Human Anatomy. 3 Credit Hours.
The study of human anatomy specifically for the sports medicine practitioner.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 235. Personal and Community Health. 3 Credit Hours.
Overview of current strategies and practices for healthy living, including health maintenance and disease prevention.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 245. Kinesiology. 3 Credit Hours.
Structure and function of Neurology, Osteology, Arthrology and Myology, with emphasis on the mechanics of the movement of the human body.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 250. Orthopedic Assessment: Lower Extremity. 3 Credit Hours.
Common types of orthopedic/sports dysfunctions to the lower extremity will be discussed. Injuries will be discussed from the following viewpoints: etiology and mechanism of injury, pathology, recognition and evaluation techniques, protocols, and prevention.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 251. Orthopedic Assessment: Lower Extremity Lab. 1 Credit Hour.
Techniques used to evaluate orthopedic and sports injuries occurring to the lower extremity. The student must complete 100 clinical education hours. Clinical education hours will emphasize lower extremity orthopedic assessment, goniometry, manual muscle testing techniques, and gait evaluations.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 256. Globalization of Sport. 3 Credit Hours.
This course will address the intertwined relationship between globalization, sport, and development from a critical global perspective. This course highlights the extent to which contemporary sport cultures are the result of an interplay between local and global forces. We will explore the international character of professional and amateur sports including international competitions, league expansions beyond national boundaries, and the movement of athletes. Course topics include international sport organization, international competition, sport governance, international dispute resolution, international sports law, and new media.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
KIN 257. Research Experience in Exercise Physiology. 3 Credit Hours.
This course provides students the opportunity to be immersed in the research process within the discipline of exercise physiology. This includes the entire research process starting with conceptualization of the study and proceeding through research design, implementation (assessment and equipment use), data handling, statistical analysis, and culminating in preparation of manuscripts or presentations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 260. Orthopedic Assessment: Upper Extremity. 3 Credit Hours.
Common types of orthopedic/sports dysfunctions to the upper extremity will be discussed. Injuries will be discussed from the following viewpoints: etiology and mechanism of injury, pathology, recognition and evaluation techniques, protocols, and prevention.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 261. Orthopedic Assessment: Upper Extremity Lab. 1 Credit Hour.
Techniques used to evaluate orthopedic and sports injuries occurring to the upper extremity. The student must complete 100 clinical education hours. Clinical education hours will emphasize upper extremity orthopedic assessment, goniometry, and manual muscle testing techniques.
Corequisite: KIN 260.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

KIN 264. General Medical Conditions Evaluation. 2 Credit Hours.
This class is the study of the clinical signs and symptoms of General Medical conditions that will present to the Certified Athletic Trainer. Emphasis will be placed on the techniques and instrumentation used for performing appropriate evaluation procedures.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 297. Practicum in Sport Administration. 1-3 Credit Hours.
A comprehensive program of observation and supervised experience for one semester under the direction of a professional in the sports field. Supervised by Sport Administration program Internship Director. Course only open to Sport Administration Majors & Minors.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 301. Athletic Injuries and Sport First Aid. 3 Credit Hours.
Course will help coaches, camp counselors, teachers, personal trainers, and athletes of all levels to fulfill the role of being a competent first responder to athletic injuries and illnesses. Upon completion of this course, students will have knowledge of basic sport first aid skills, anatomy and sport injury terminology, and knowledge of specific athletic injuries and illnesses. These will include head injuries, sudden illnesses, weather-related problems, upper and lower body musculoskeletal injuries, respiratory emergencies and illnesses, and internal injuries. Students will also learn basic hands-on skills such as splinting, taping, and bracing as it relates to preventing and treating athletic injuries.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 302. Sport Marketing. 3 Credit Hours.
This course is designed as a marketing course that deals exclusively with Sport Marketing. Students are expected to develop comprehensive marketing and sponsorship plans. This course will require moderate to heavy computer knowledge. This course is designed to maximize the practical applications of marketing theory to the sport business environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 305. Careers in Sports. 3 Credit Hours.
This course is designed to provide a basic overview of careers in the sports industry. Students will develop an understanding of the foundations of sport administration and various topics related to the professional growth within this field. The course will also provide basic fundamentals and skills to prepare students for potential employment within the sports world.
Components: DIL.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 306. Essential Leadership in Sports and the Professions. 3 Credit Hours.
A variety of leadership and management skills will be examined, including communication, problem solving, conflict management, group dynamics, and leadership theory. Practical application to sport and allied professions will be included. Self-assessment opportunities and exercises will be utilized.
Prerequisite: KIN 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 308. Ethical Decision Making in Sport and the Professions. 3 Credit Hours.
This course will examine ethical dilemmas in decision-making and other contemporary issues in sports management and campus and community environment. Real and hypothetical situations will be utilized. This course is a designated Upper Level Communication Requirement. Advanced written, digital and/or oral communication proficiencies will be emphasized in this course. Credit for ENG 105 and ENG 106 (or equivalent) is required for this course.
Prerequisite: KIN 201 AND KIN 306.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 310. Adolescent Growth and Maturation. 3 Credit Hours.
This course is an in-depth study of pediatric exercise physiology with special emphasis on growth, maturation, physical activity, and performance. Topics include a comprehensive summary of biological growth and maturation, processes that impact physical performance. Additionally, students will learn the basis of training pediatric populations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
KIN 321. Introduction to Systemic Exercise Physiology. 3 Credit Hours.
The structure, function, and training of the cardiorespiratory system. Special emphasis on structural changes in the systems with exercise and their influence on cardiovascular performance, body composition, exercise efficiency and health.
Requisite: EXPH or EXPS Major or Minor and Prerequisite: KIN 221 with a grade of C or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 322. Exercise Physiology Laboratory Practicum: Cardiorespiratory. 3 Credit Hours.
This course concentrates on collection of cardiorespiratory data. In addition, the application of these data to exercise prescription for specific athletic and non-athletic populations will be covered. Corequisite: ESS 321.
Components: LAB.
Grading: GRD.
Typically Offered: Summer.

KIN 330. Medical Terminology. 3 Credit Hours.
Terminology, note writing, and documentation techniques in sports medicine/athletic training.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 340. Strength and Conditioning. 3 Credit Hours.
Introduction to Sport Specific Strength Training. Students will learn the practice of Olympic Weight Lifting and related exercise techniques.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 344. Gross Anatomy for Kinesiology and Sport Sciences. 3 Credit Hours.
Human dissection of the major muscles, arteries and nerves of the body. Requisite: EXPH or EXPS Major or Minor and Prerequisite: KIN 233 with a grade of C or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 345. Kinesiology. 3 Credit Hours.
Structure and function of the skeletal, joint, and muscular systems, with emphasis on the mechanics of the movement of the human body and its relationship to sport and physical performance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 365. Exercise Programming. 3 Credit Hours.
This class is the study of the theory and principles behind the development of exercise programs. Students will learn how to accurately evaluate and develop individual exercise prescription based upon sound scientific research. Exercise prescriptions will be developed in accordance with the guidelines set forth by the National Strength and Conditioning Association and the American College of Sports Medicine. This course is a designated Upper Level Communication Requirement; Advanced written, digital and/or oral communication proficiencies will be emphasized in this course. Credit for ENG105 and ENG106 (or equivalent) is required for this course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 366. Exercise Physiology Laboratory: Assessment. 3 Credit Hours.
This lab course is designed to complement the ESS 365 lecture course (Principles of Exercise Prescription): Cardiovascular. Students will apply practical field assessments for body composition, aerobic capacity, muscular fitness, and joint range of motion, and will employ exercise strategies to improve each of the assessed fitness components. Students will also prescribe exercises to improve performance-based fitness, such as coordination, balance, agility, speed and power while learning proper exercise training techniques. Must be a declared Exercise Physiology (EXPH) major and receive a grade of 'C' or better to satisfy requirements. Requisite: EXPH or EXPS Major or Minor and Prerequisite: KIN 233 with a grade of C or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 369. Introduction to Exercise Prescription. 3 Credit Hours.
Students will learn various assessment of health and wellness, and discover how to most effectively prescribe exercise strategies to treat the assess needs of an individual. This course provides the competencies required for cognate students to attain a personal training credential through accredited personal training certification agencies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 370. Sociocultural Aspects of Athletic Training and Sports Medicine. 3 Credit Hours.
Sports Medicine can produce the "perfect storm" of unique medical situations that lead to ethical dilemmas. This class will explore topics of professional and moral behavior, cultural competence, foundational behaviors of professional practice, and ethical decision-making in the fields of Athletic Training and Sports Medicine. Students will be required to read numerous case studies and novels that depict these issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 399. Neuromuscular Basis for Training. 3 Credit Hours.
A critical examination of neuromuscular training techniques, their strengths, weaknesses and scientific bases.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
KIN 401. Legal Aspects of Sport. 3 Credit Hours.
This course will focus on legal issues applicable to sport administration, including tort law, risk management, negligence, and constitutional law. Relevant legal cases and concepts will be incorporated.
Prerequisite: KIN 201 + Sophomore or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 402. Sport Sponsorship and Promotion. 1-3 Credit Hours.
This course is designed to provide a detailed examination of the relationship between sport and corporate sponsorship. Topics covered will include the theoretical premise of sponsorship, alignment marketing, strategic communication through sponsorship, determining the value of sponsorship, and evaluation of sponsorship activities. Perspectives from the property offering a sponsorship and from the organization functioning as the sponsor will be considered.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 403. Sport Information Management. 3 Credit Hours.
This course centers upon the development of those skills that are necessary for Sport Information Directors. Specifically, these traditionally include marketing, media, promotion, and public relations. This course hopes to provide detailed knowledge to allow the student to participate in these activities in a professional manner.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 405. Finance and Budget in Sport Administration. 3 Credit Hours.
This course seeks to develop those financial skills necessary to understand a wide variety of financial concepts that impact sport managers. Such topics would include but not be limited to: Sport franchise value/valuations; economic impact of sport; risk-return models; financial statement analysis, and budgeting.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 410. Problems and Issues in Sport Administration. 3 Credit Hours.
This course is designed as a seminar course. Topical issues in high school, collegiate and professional sport are presented and discussed in detail. A number of student-centered activities are introduced to aid in the development of the student.
Requisite: SPAD major and Senior Standing and Prerequisites: KIN 201 and KIN 306 and KIN 308.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 412. Psychophysiology. 3 Credit Hours.
The study of the physiological effects of acute vs. chronic training on homeostatic function, musculoskeletal systems, energy system function, cardiovascular system, and the pulmonary system. Students will be able to understand and interpret terminology and research literature published in the field.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 415. Evidence Based Sports Medicine. 3 Credit Hours.
This course will introduce the student to clinical epidemiology and the evaluation of the efficacy of prevention, diagnostic, and treatment strategies in athletic training and sport medicine.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 416. Research Methods in Exercise Physiology. 3 Credit Hours.
This course will introduce the student to clinical epidemiology and the evaluation of the efficacy of prevention, diagnostic, and treatment strategies in exercise physiology and related professions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 417. Research Methods for the Sport Sciences. 3 Credit Hours.
This course seeks to provide a full introduction to research methods in sport studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 421. Advanced Systemic Exercise Physiology. 3 Credit Hours.
This course examines the short and long term physical responses to exercise and provides a general overview of the field of exercise physiology with reference to the latest trends in modern physiological research.
Requisite: EXPH or EXPS Majors or Minors. And Prerequisite: KIN 232 and KIN 321 with a grade C or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 435. Clinical Biomechanics for Sport Medicine Professionals.. 3 Credit Hours.
A lecture course stressing the biomechanics of joints and pathomechanics of orthopedic injuries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

KIN 443. Clinical Athletic Training Lab I. 2 Credit Hours.
The application of athletic training practices in selected clinical education settings. The student must complete 150 hours of documented clinical education hours, which apply toward the graduation requirement of 1000 hours. Clinical education hours will emphasize emergency procedures, first aid, and protective equipment. Prerequisite: Successful completion of the retention process and formal admittance into the clinical portion of the Athletic Training Program. Students are required to return to campus for pre-season orientation prior to the start of the school year.
Requisite: ATHS Majors Only.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.
KIN 444. Clinical Athletic Training Lab II. 2 Credit Hours.
The application of athletic training practices in selected clinical and educational settings. The student must complete 150 hours of documented clinical education hours, which apply toward the graduation requirement of 1000 hours. Clinical education hours will emphasize general medical conditions, nutritional issues, psychosocial intervention, and injury prevention and risk management. Depending on the student’s clinical education rotation, students may be required to start their clinical education hours prior to the start of the semester.
Prerequisite: KIN 443.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

KIN 455. Clinical Athletic Training Lab III. 2 Credit Hours.
The application of athletic training practices in selected clinical and educational settings. The student must complete 150 hours of documented clinical education hours, which apply toward graduation requirement of 1000 hours. Clinical education hours will emphasize acute care of injuries and illnesses, lower extremity orthopedic assessment, and risk management and injury prevention. Students are required to return to campus for pre-season orientation prior to the start of the school year.
Prerequisite: KIN 444.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 456. Clinical Athletic Training Lab IV. 2 Credit Hours.
The application of athletic training practices in selected clinical and educational settings. The student must complete 150 hours of documented clinical education hour. Clinical education hours will emphasize upper extremity orthopedic assessment, conditioning and rehabilitation, and therapeutic modalities. Depending on the student’s clinical education rotation, students may be required to start their clinical education hours prior to the start of the semester.
Prerequisite: KIN 455.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 457. Practicum in Kinesiology and Sport Sciences. 1-3 Credit Hours.
A comprehensive program of observation and supervised experience under the direction of a professional in the field for one semester. Supervised by Universit y faculty. This course is a designated Upper Level Communication Requirement; Advanced written, digital and/or oral communication proficiencies will be emphasized in this course. Credit for ENG105 and ENG106 (or equivalent) is required for this course.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 458. Practicum in Kinesiology and Sport Sciences. 3 Credit Hours.
A comprehensive program of supervised experience conducted under the direction of a professional in the field. Must culminate in research or hands-on experience conducted in the exercise science field.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 461. Therapeutic Modalities. 2 Credit Hours.
Students will acquire the theoretical knowledge necessary for the clinical application of therapeutic modalities. Principles of electrophysics and biophysics, specific physiological effects and therapeutic indications and contraindications associated with cyotheraphy, paraffin, ultrasound, electrotherapeutic and hydrotherapeutic modalities, intermittent compression, massage, and other contemporary modalities will be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 462. Therapeutic Modalities Laboratory. 1 Credit Hour.
This laboratory will help students apply the techniques and clinical skills related to the application of therapeutic modalities. Clinical education hours will give the student the opportunity to use the knowledge, skills, and techniques learned in this course. Students must complete 50 hours of documented clinical education hours.
Corequisite: KIN 461.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 463. Therapeutic Rehabilitation. 2 Credit Hours.
Students will acquire the theoretical knowledge for the clinical application of a rehabilitation program, physical examination, principles of therapeutic exercise, open and closed chain exercise, muscle reeducation, and special therapeutic techniques such as aquatic therapy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 464. Therapeutic Rehabilitation Laboratory. 1 Credit Hour.
This laboratory will place emphasis on the techniques and clinical skills relating to the rehabilitation of athletic injuries. Clinical education hours in a therapeutic rehabilitation facility will give the students the opportunity to use the knowledge, skills, and techniques learned in this course. The student must complete 100 hours of documented clinical education hours, which apply toward the clinical education requirement for graduation.
Corequisite: KIN 463.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 465. Pharmacology. 1 Credit Hour.
Introduction to the basic principles of pharmaceutical intervention and the implications for rehabilitation as related to the Certified Athletic Trainer.
Requisite: ATHS Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 470. Administrative Aspects of Athletic Training. 2 Credit Hours.
Basic concepts of legal liability, budget, financial management, inventory control, facilities design and maintenance will be addressed. Additionally, the student will discuss the day to day supervision, scheduling and general administration of the athletic training facility.
Requisite: ATHS Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
KIN 473. Sports Governance. 3 Credit Hours.
This course provides the students with an examination of the governing organizations of sport at the youth, secondary, intercollegiate, professional, international, sport specific and olympic levels. In addition, policy development in sport management will be explored.
Prerequisite: KIN 401.
Components: LEC.
Grading: GRD.

KIN 476. Seminar in Athletic Training. 2 Credit Hours.
Topics in Athletic Training with discussions covering the NATA competencies and objectives in written and oral practical formats. Students will be required to register and take the BOC exam as a class requirement. Approx. cost $350.00
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

KIN 477. Advanced Nutrition for Health and Fitness. 3 Credit Hours.
This course is an in-depth study of nutritional concerns of today's athlete. From dehydration to classic carbohydrate loading and from the Female Athlete Triad to ergogenic aids in sports, this course provides state of the art information on the latest nutritional issues for the exercising individual and for the athlete.
Requisite: EXPH or EXPS Major or Minor and Prerequisite: KIN 202 with a grade of C or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 488. Gross Anatomy. 3 Credit Hours.
The essentials of Myology, Osteology, and Arthrology. Major nerves and arteries are also dissected. Many of the dissection areas are major injury sites in sports such as the knee, shoulder, elbow, neck and spinal areas. There is a laboratory fee of $100 required for this course.
Requisite: ATHS Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 490. Special Topics in Kinesiology and Sports Sciences. 3 Credit Hours.
This course is designed for students wishing to focus on a specific area of study within the umbrella of the field of Kinesiology. Students will be given supervision and support in a direction relevant to their needs and interests in a structured setting.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 492. Undergraduate Teaching Assistant Training in KIN II. 1-3 Credit Hours.
This course involves training and teaching assistant experience under the supervision of faculty. Students will have the opportunity to assist faculty and/or doctoral students in the teaching of clinical laboratory and/or undergraduate theory courses offered in the KIN department.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 493. Undergraduate Research Assistant Training in KIN. 1-3 Credit Hours.
This course entails research training for a specific topic in the areas of Kinesiology under the supervision of faculty. It will enable the student to understand the fundamentals of following up on a research question, setting up research design and following up with data collection for the purposes of acquiring clinical training and/or assisting in manuscript preparation.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 494. Undergraduate Research Assistant Training in KIN II. 1-3 Credit Hours.
This course entails research training for a specific topic in the areas of Kinesiology under the supervision of faculty. It will enable the student to understand the fundamentals of following up on a research question, setting up research design and following up with data collection for the purposes of acquiring clinical training and/or assisting in manuscript preparation.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 495. Individual Study. 1-3 Credit Hours.
The Application for Admission to Advanced Individual Study Form will be required.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 496. Individual Study. 1-3 Credit Hours.
The Application for Admission to Advanced Individual Study Form will be required.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 497. Internship in Sport Administration. 1-9 Credit Hours.
KIN 497: Internship in Sport Administration Filed Experience that requires the student to participate in the work environment (Formally ESS 497).
Requisites: SPAD Majors and Senior Status.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.
KIN 498. Seminar in Sport Administration. 3 Credit Hours.
Professional seminar to accompany internship in sport administration. Students will be required to interact with other internship students and supervisors on a regular basis and additionally, students will be required to submit comprehensive reports regarding their internship experiences. This course is a designated Upper Level Communication Requirement; Advanced written, digital and/or oral communication proficiencies will be emphasized in this course. Credit for ENG105 and ENG106 (or equivalent) is required for this course.
Requisites: SPAD Majors and Senior Status.
Components: LEC.
Typically Offered: Spring.

KIN 502. Sport Sponsorship and Promotion. 1-3 Credit Hours.
This course is designed to provide a detailed examination of the relationship between sport and corporate sponsorship. Topics covered will include the theoretical premise of sponsorship, alignment marketing, strategic communication through sponsorship, sponsorship sales and service, determining the value of sponsorship, and evaluation of the Olympics will be examined in-depth. Objectives, risks, and benefits from the property or platform offering a sponsorship and from the sponsoring organization will be considered.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

KIN 503. Advanced Sport Information Management. 3 Credit Hours.
This course examines the complex fields of sport communication. Students will investigate the unique, symbiotic relationship that exist between sport and the media; examine various theoretical framework (e.g., agenda set, hegemonic, uses and gratification, elaboration likelihood model) that are pertinent to developing an understanding of the sport/media complex.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

KIN 515. Nutrition Diet and Exercise. 3 Credit Hours.
Students will learn the latest concepts in weight management, physical fitness, and healthy eating. They will be able to understand the complex interplay of carbohydrates, protein, fat, water, fiber, vitamins, and minerals in the nourishment of their body and overall well-being. They will also examine serious health issues such as the use/misuse of anabolic steroids, weight control, and eating disorders.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

KIN 520. Cellular Exercise Physiology. 3 Credit Hours.
The course examines Bioenergetics and Muscular Physiology in training and detraining. Topics include the energy systems and their functional application during exercise, muscle structure and function, cellular and sub-cellular modifications of organelles and contractile mechanisms as result of training and physiological bases of training techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 521. Advanced Systemic Exercise Physiology. 3 Credit Hours.
The study of the physiological effects of acute vs. chronic training on homeostatic function, musculoskeletal systems, energy system function, cardiovascular and the pulmonary systems. Students will be able to understand and interpret terminology and research literature published in the field.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 522. Basic Statistics in Kinesiology and Sport Sciences. 3 Credit Hours.
Introduction to basic statistical techniques commonly used in the Exercise and Sport Sciences. Designed as a prerequisite for KIN 646 (Formally ESS 646).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

KIN 523. Athletic Training Techniques - Assessment. 3 Credit Hours.
This course will introduce the basic concepts related to injury evaluation. With this information, and with the development of basic skills, the student should be able to form an impression of the nature of most musculoskeletal injuries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 524. Athletic Training Techniques - Rehabilitation. 3 Credit Hours.
This course will introduce theoretical concepts that must be understood in order to be able to rehabilitate a musculoskeletal injury. Regarding actual rehabilitation techniques, the emphasis will be on therapeutic exercise with only a brief introduction to therapeutic modalities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 525. Advanced Kinesiology. 3 Credit Hours.
In-depth study of the human skeletal and muscular systems with a focus on the mechanics of movement as related to physical activity, sports, and athletics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 527. Community and Global Nutrition. 3 Credit Hours.
This course is designed to provide an overview of nutritional issues & related aspects of infectious and chronic disease impacting the health and performance of athletes, individuals & groups domestically & globally. Economic and environmental issues which impact nutritional status and deficiency in the Western societies & third world countries will be addressed. An international and cultural perspective on food, eating behaviors and customs will be explored.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
KIN 530. Laboratory Techniques in Functional Evaluation of Skeletal Muscle. 3 Credit Hours.
This course examines the theories of data collection and collection techniques used to evaluate musculo-skeletal and neuromuscular function. The application of both computerized and non-computerized collection systems for performance evaluation is covered. The course is also designed to establish a clear linkage between the acute and chronic musculo-skeletal and neuromuscular changes that occur during exercise and the laboratory methods used to assess those changes. Collection theory, musculoskeletal and neuromuscular function, methods of strength evaluation, anaerobic power testing, electromyography, and a number of other functional parameters will be discussed.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 531. Laboratory Experiences in Systemic Exercise Physiology. 3 Credit Hours.
This course provides a laboratory assessment of physiological principles and theories learned in the classroom setting. Focus will be on systemic application to exercise as an acute or chronic stressor. Corequisite: ESS 521.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 532. Sports Injuries: Prevention and Treatment. 3 Credit Hours.
Prevention, diagnosis, treatment and rehabilitation of sports injuries. Anatomical and Kinesiological application to sports injuries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 534. Integrative and Functional Nutrition. 3 Credit Hours.
This course will discuss integrative and functional medicine and how it emerged. This course will analyze the healthcare models that include personalized care and the whole-person perspective. In this course we will discuss various factors that influence disease including diet and nutrition, stress, activity level, pharmaceuticals and environmental pollutants. Alternative approaches to treatment will also be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 535. Clinical Biomechanics for Sport Medicine Professionals. 3 Credit Hours.
A lecture course stressing biomechanics of joints and pathomechanics of orthopedic injuries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

KIN 536. Strength and Conditioning I. 3 Credit Hours.
This course serves as the practical/technical foundation for major compound movements and Olympic lifts. It also provides comprehension of movement specific dynamic warm-ups, advanced stretching techniques, methods for identifying movement compensations and underlying issues as well as evaluating Olympic techniques. Due to the practical nature of the course, all the sections of this course are held in the Hecht Athletic Center (HAC).
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 537. Strength and Conditioning II. 3 Credit Hours.
This course is the continuation of Strength and Conditioning I (KIN 536). It provides more advanced Olympic weightlifting techniques and ballistic training, alongside a continued focus on corrective exercises to ensure a reduced risk of injury. The course also provides an introduction to exercise programming including specialized training techniques for athletic development. Due to the practical nature of the course, all sections of this course are held in the Hecht Athletic Center (HAC).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 538. Nutrition during the Lifecycle. 3 Credit Hours.
This course is designed to examine the changes in nutrition requirements during the life cycle, particularly as related to growth, development and aging. Psychosocial, cultural, and economic issues related to food intake at various life stages will be reviewed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 539. Dietary Supplements and Human Performance. 3 Credit Hours.
Evidence-based examination of supplements, food phytochemicals, and their relation to disease & performance.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 540. Exercise Psychobiology. 3 Credit Hours.
This course is designed primarily for graduate level Exercise and Sport science students who are interested in the biochemical basis of personality as affected by exercise and sport. The course involves interdisciplinary integration and comprehensive reviews of ancient and current literature dealing with exercise, stress, emotional, personality, immune system function and neuroendocrine function.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 541. Neurophysiology in Exercise Science. 3 Credit Hours.
Examination of the functions of the central, peripheral, and autonomic nervous systems in regulating exercise homeostasis and the structural and functional modifications to the systems through training. NOTE: This course is a writing in intensive course. This means that all examinations and papers include a critical evaluation of the student’s ability to convey information using the written word.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 542. Strength and Conditioning. 3 Credit Hours.
A comprehensive overview of strength and conditioning.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
KIN 543. Professional Training and Counseling for Integrative Health. 3 Credit Hours.
Students will learn the integrative health care model, theories, behavior change models, approaches & techniques used in nutritional counseling to help athletes, individuals and groups implement and sustain behaviors, lifestyles, and attitudes to achieve optimal health. Lecture & personal application will allow for the development of skills in each of these areas.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 545. Special Sport Populations. 3 Credit Hours.
This course presents an in-depth examination of chronic conditions and medical problems commonly observed in athletes. Students will learn about the etiology of the medical condition, how exercise affects the condition, and the most recent therapeutic treatments prescribed for the condition.
Components: LEC.
Grading: GRD.

KIN 546. Elite Conditioning I. 3 Credit Hours.
Elite Conditioning I provides an introduction to evaluation techniques catered specifically to the athletic population including tests for strength, power, speed, agility, balance and stability. The courses also provides instruction on how to apply these evaluations to their respective sports/positions. These evaluation techniques provide data that students will use in the process of corrective exercise prescription. Students are taught how to implement corrective strategies to improve athletic performance. Due to the practical nature of the course, all sections of this course are held in the Hecht Athletic Center (HAC).
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 547. Elite Conditioning II. 3 Credit Hours.
Elite Conditioning II is the continuation of Elite Conditioning I (KIN 546). This course provides students with an understanding of the design and implementation of periodized conditioning programs for athletes based on the testing, evaluation, and applications to specific sports learned in Elite Conditioning I. The course focuses on speed agility and quickness for sports. It also includes practical implementation of ballistic, plyometric, speed, and conditioning drills emphasizing evidence based methods and training techniques. Due to the practical nature of the course, all sections of this course are held in Hecht Athletic Center (HAC).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 549. Nutrition Assessment and Lab. 3 Credit Hours.
Application of the principles of normal and therapeutic nutrition, nutrition assessment, evaluation and intervention as related to sports performance and the management and treatment of disease states. Laboratories will allow for the development of skills in each of these areas.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 550. Nutrition Biochemistry. 3 Credit Hours.
To learn the fundamental biochemical structure and pathways governing nutrient intake and utilization. Students will learn how major forms of nutrients (macronutrients, vitamins, minerals and trace elements) are processed and utilized by different organs with a particular emphasis on muscle metabolism. Students will also learn how to relate their newly acquired knowledge to health and disease outcomes with focus on lifestyles disease related to metabolism such as diabetes and obesity.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 555. Medical Nutrition Therapy. 3 Credit Hours.
The role of nutrition in the prevention and treatment of various disease states including diabetes, cardiovascular disorders, endocrine and gastrointestinal disorders, eternal feeding, renal disease, cancer and AIDS/HIV, and weight management. This course instructs on the use of the Nutrition Care Process for assessment and documentation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 557. Diagnostic Imaging Techniques in Sports Medicine. 3 Credit Hours.
This course is designed as an elective for undergraduate KIN students or graduate students. The basic physics of radiological imaging will be covered including radiology, fluoroscopy, CT scan, ultrasound, MRI, and nuclear medicine including image archiving. Normal anatomy will be compared to the corresponding radiographic anatomy. Common sports injuries will be evaluated by multiple radiographic modalities and will be correlated with the clinical condition. Discussion will include bony pathology as well as soft tissues such as ligaments, tendons, and menisci.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 561. Facility Management. 3 Credit Hours.
Facility management provides students with an understanding of fitness entrepreneurship, giving students a comprehensive understanding of the, laws, regulations, polociese, and work involved in setting up a fitness facility such as a gym, wellness center, or athletic training center. Students are responsible for developing a viable sports or fitness complex including all aspects of administrative and facility management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 562. Fiscal Management in Sport Administration. 3 Credit Hours.
Fiscal management as related to athletic sports administration, recreation and leisure sports administration, and physical education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 563. Facilities and Event Management. 3 Credit Hours.
This course is designed to introduce students to principles and practices of planning, funding and managing facilities associated with sports participation including professional sport venues, college sports, parks, recreational sport and health/fitness clubs. Students will gain an understanding of promoting, marketing, and maintaining sport facilities.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
KIN 564. Principles of Sport Marketing. 3 Credit Hours.
This course will focus on the vast world of sports marketing. The basic principles of marketing and marketing management will be introduced and integrated with application of these principles to sport and sports-related organizations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 565. Legal Aspects of Sports and Exercise Science. 3 Credit Hours.
Legal liability, personal injury, negligence and other related legal aspects of sports and exercise science.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 566. Organization and Administration of Sports Programs. 3 Credit Hours.
Administrative and organizational procedures and problems specific to athletic administration, recreation and leisure sports administration, and physical education.
Components: DIL.
Grading: GRD.
Typically Offered: Fall.

KIN 567. Elements of Sports Psychology. 3 Credit Hours.
Introduction to the study of sport and exercise psychology including theory, current research and practical application.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 568. Developmental Sports Psychology. 3 Credit Hours.
Examination of the concept of sport psychology which includes but is not limited to performance, enhancement, student performance and academic application.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

KIN 569. The Foundations of Exercise Prescription. 3 Credit Hours.
Students will learn various assessments of Health and Wellness, and discover how to most effectively prescribe exercise strategies to treat the diagnosed needs of an individual.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 570. Advanced Programming. 3 Credit Hours.
Advance programming allows students to dissect sports by movement, metabolism and limitation. The course investigates current trends and evidenced based applications of specific training techniques for optimal sport performance. Students will perform complete sports analysis and develop periodized programs for major sports.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 571. Sport Industry in South Florida. 3 Credit Hours.
This course will examine the various sport based organizations/events that are part of the sport industry in South Florida. Study of these organizations/even ts will include (a) products/services produced, (b) organizational structure, (c) economic impact on the local community, (d) key management personnel, (e) physical facilities, and (f) internship/employment opportunities.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 572. Creative Approaches to Problem Solving and Conflict Management. 3 Credit Hours.
This hands-on course will examine the concepts of problem solving and conflict management from both personal and organizational perspectives. Students will have the opportunity to study in-depth both of these concepts (and the relationship between them) through a combination of lecture, theory, individual and group activities, readings, practical exercises, and self-assessment tools.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 573. Practical Approach to Motivation and Ethical Decision Making. 1-3 Credit Hours.
A critical study of practical problems of professionals in Exercise and Sport Sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 574. Ethical Decision Making in Sports and the Professions. 3 Credit Hours.
This course will examine ethical decision-making in a variety of environments with an emphasis on sport professions. Real and hypothetical situations will be utilized, and the course will combine theory with practical application. The case method in sport ethics will be incorporated.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 575. Essential Leadership in Sport and the Professions. 3 Credit Hours.
This course will examine the concept of leadership as it pertains to sports and other professions. Various leadership and management skills will be included with a focus on practical applications in a work environment. Theory and self-assessment strategies will be incorporated.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 576. Advanced Nutrition for Health and Fitness. 3 Credit Hours.
This course presents an in-depth study of the nutritional concerns of today's recreational and competitive athlete. Topics include dehydration, classic carbohydrate loading, protein needs, ergogenic aids, and more. State-of-the-art research in the field is provided. This is also a writing intensive course. Thus, writing skills will represent an integral part of one's grade.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
KIN 578. Pharmacology for Allied Health Professionals. 3 Credit Hours.
The study of drug families and drugs in common use across spectra of age, illness, disease, and disability. Students will understand body systems treated with current pharmaceuticals over-the-counter (OTC) medications, and nutraceuticals. Actions, key adverse effects, and influences on individuals undergoing physical activity will be emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 579. Principles of Exercise Assessment: Cardiovascular. 3 Credit Hours.
This course presents a comprehensive overview of the physical, physiological and metabolic responses of the human body to exercise testing and training both in health and disease. The successful student will gain an understanding of the process involved in prescribing safe and effective therapeutic exercise in healthy individuals as well as patients with heart and lung disease, diabetes and obesity. An overview of environmental and legal considerations in the prescriptive process will also be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 580. Principles of Exercise Prescription: Neuromuscular. 3 Credit Hours.
An examination of the scientific bases of modern training techniques designed to optimize performance, their functional application and potential impact on performance in sport and everyday activity.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 581. Issues Specific to Women's Health. 3 Credit Hours.
This course covers a broad perspective of women and their self-esteem, their femininity, and their role in the family household. Attention will be paid to the historical, cultural, and anthropological development of women and their role in society. The influence of gender will explore several areas which include a) pregnancy, b) menopause, c) menstrual cycle, d) stress and career vs. family, e) depression, and f) body image. Prerequisite: KIN 212.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 582. Psychosocial Issues in Women's Health. 3 Credit Hours.
This course covers a broad perspective of women and their self-esteem, their femininity, and their role in the family household. Attention will be paid to the historical, cultural, and anthropological development of women and their role in society. The influence of gender will explore several areas which include a) pregnancy, b) menopause, c) menstrual cycle, d) stress and career vs. family, e) depression, and f) body image. Prerequisite: KIN 212.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 583. Sports Medicine for the Female Athlete. 3 Credit Hours.
This course focuses on the physiological effects of exercise on the female athlete as it relates to her performance and health. Physiological differences between male and female will be examined as it impacts the women's performance capabilities and potential. Gender specific problems regarding the exercising female will be explored.
Prerequisite: KIN 321 or KIN 421.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 584. Energetics of Obesity and Weight Management. 3 Credit Hours.
This course is designed to evaluate dieting, rebound effect, set point theory, brown fat, and adaptive thermogenesis, as they relate to the etiology of obesity. The course will cover a step-by-step approach in the recognition and management of the overweight patient. This includes determination of basal metabolic rate, thyroid function, determination of percent body fat, quantification of adipocyte number and mass, and research on exercise as a therapeutic intervention. Students will learn to design exercise programs for hypothetical obese patients and the impact of both diet and exercise on long-term weight management.
Prerequisite: KIN 221 or KIN 421.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 585. Neurological Mechanisms of Metabolism and Weight Regulation. 3 Credit Hours.
This course is designed to evaluate dieting, rebound effect, set point theory, brown fat, and adaptive thermogenesis as they relate to the etiology of obesity. The course will cover a step-by-step approach in the recognition and management of the overweight patient. The course will also examine adipocyte morphology and the health implications of being overweight and obese. Students will examine the impact of both diet and exercise on long-term weight management.
Prerequisite: Must have 3.0 in the Exercise Physiology Major and a B- or better in KIN 221 and KIN 232.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 586. Exercise Prescription/Assessment Laboratory. 3 Credit Hours.
This course presents an overview of the laboratory techniques used to assess cardiovascular endurance and general fitness, pulmonary function and anaerobies observed during competition.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 587. Laboratory Experience in Sports Nutrition. 3 Credit Hours.
This laboratory class provides case study analyses and computerized nutrient analysis systems designed to evaluate nutrition and hydration needs of the recreational and competitive athlete. From urinalysis and blood work, to body composition and computerized nutrient data base systems, this laboratory provides a clinical approach to evaluating the nutrition status of the exercising individual. Corequisite: ESS 577.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
KIN 588. Advanced Gross Anatomy in Kinesiology and Sport Sciences. 3 Credit Hours.
Human dissection of the major muscles, arteries and nerves of the body. Course is held at the University of Miami, Medical Campus, cadaver laboratory. Special consideration is given to injury sites in sports such as the knee, shoulder, elbow, neck and spinal areas. Students are required to pay a $100 laboratory fee for the class. This course is to be taken by undergraduate Athletic Training majors and for the 5-year Sports Medicine with a Concentration in Athletic Training program students only.
Components: LEC.
Grading: LEC.
Typically Offered: Spring.

KIN 589. Directed Readings in Kinesiology and Sport Sciences. 3 Credit Hours.
Directed Readings focusing on research and contemporary trends in the field.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 590. Special Topics in Kinesiology and Sport Sciences. 1-3 Credit Hours.
This course is designed for students wishing to focus on a specific area of study within the umbrella of the Kinesiology and Sport Sciences curriculum. Students will be given supervision and support in a direction relevant to their needs and interests in a structured setting.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 595. Research Honors Project. 2 Credit Hours.
This course has been designed for SEHD students who have been accepted into the Research Honors Program and are working with a faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 596. Research Honors Project. 2 Credit Hours.
This course has been designed for SEHD students who have been accepted into the Research Honors Program and are working with a faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 597. Research Honors Project - Thesis Writing. 2 Credit Hours.
This course has been designed for SEHD students who have been accepted into the Research Honors Program and are working with a faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 598. Research Honors Project - Seminar. 1 Credit Hour.
Seminar section of School of Education & Human Development Research Honors Program. This seminar culminates with the presentation of your research at the Undergraduate Research, Creativity, and Innovation Forum (RCIF).
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 599. Advanced Programming for Endurance Athletes. 3 Credit Hours.
This course provides students with training techniques to improve aerobic capacity, endurance, and lactate threshold for optimal performance. Students will review evidenced based principles of sports nutrition, strategies to ensure proper hydration, thermoregulation, and fuel (substrate) availability during prolonged exercise as well as develop programs for competitive sports including triathlon, marathon, and cycling.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 601. Organization and Administration of Sport Programs. 3 Credit Hours.
Administrative and organizational procedures and problems specific to athletic administration, recreation and leisure sports administration, and physical education.
Components: DIL.
Grading: GRD.
Typically Offered: Fall.

KIN 602. Fiscal Management in Sport Administration. 3 Credit Hours.
Fiscal management as related to athletic sports administration, recreation and leisure sports administration, and physical education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 603. Principles of Sport Marketing. 3 Credit Hours.
This course will focus on the vast world of sports marketing. The basic principles of marketing and marketing management will be introduced and integrated with application of these principles to sport and sports-related organizations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 604. Essential Leadership Skills in Sport. 3 Credit Hours.
This course will examine the concept of leadership as it pertains to sports and other professions. Various leadership and management skills will be included with a focus on practical applications in a work environment. Theory and self-assessment strategies will be incorporated.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 605. Sport Sponsorship and Promotion. 3 Credit Hours.
This course is designed to provide a detailed examination of the relationship between sport and corporate sponsorship. Topics covered will include the theoretical premise of sponsorship, alignment marketing, strategic communication through sponsorship, sponsorship sales and service, determining the value of sponsorship, and evaluation of sponsor activities. Individual athlete endorsement and mega-event sponsorship such as the Olympics will be examined in-depth. Objectives, risks, and benefits from the property or platform offering a sponsorship and from the sponsoring organization will be considered.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
KIN 606. Ethical Decision Making in Sports. 3 Credit Hours.
This course will examine ethical decision-making in a variety of environments with an emphasis on sport professions. Real and hypothetical situations will be utilized, and the course will combine theory with practical application. The case method in sport ethics will be incorporated.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 607. Legal Aspects of Sports. 3 Credit Hours.
Legal liability, personal injury, negligence and other related legal aspects of sports and exercise science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 608. Advanced Globalization in Sport. 3 Credit Hours.
This course will address the intertwined relationship between globalization, sport, and development from a critical global perspective. This course highlights the extent to which contemporary sport cultures are the result of an interplay between local and global forces. We will explore the international character of professional and amateur sports including international competitions, league expansions beyond national boundaries, and the movement of athletes. Course topics include international sport organization, international competition, sport governance, international dispute resolution, international sports law, and new media.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 609. Advanced Sport Information Management. 3 Credit Hours.
This course examines the complex fields of sport communication. Students will investigate the unique, symbiotic relationship that exist between sport and the media; examine various theoretical framework (e.g., agenda set, hegemonic, uses and gratification, elaboration likelihood model) that are pertinent to developing an understanding of the sport/media complex.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

KIN 610. Event Management. 3 Credit Hours.
This course is designed to introduce students to principles and practices of planning, funding and managing facilities associated with sports participation including professional sport venues, college sports, parks, recreational sport and health/fitness clubs. Students will gain an understanding of promoting, marketing, and maintaining sport facilities.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 611. Field Experience in Sport Administration I. 1-3 Credit Hours.
Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

KIN 612. Field Experience in Sport Administration II. 1-3 Credit Hours.
Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Summer.

KIN 613. Field Experience in Sport Administration III. 1-3 Credit Hours.
Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.
Components: PRA.
Grading: GRD.
Typically Offered: Spring.

KIN 614. Field Experience in Sport Administration IV. 1-3 Credit Hours.
Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

KIN 615. Practical Approach to Motivation and Ethical Decision Making. 1-3 Credit Hours.
A critical study of practical problems of professionals in Exercise and Sport Sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

KIN 616. Advanced Sport Governance. 3 Credit Hours.
This course provides the student with an examination of the governing organizations of sport at the youth, secondary, intercollegiate, professional, international, sport specific and Olympic levels. In addition, policy development in sport management will be explored.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

KIN 617. Creative Approaches to Problem Solving and Conflict Management. 3 Credit Hours.
This hands-on course will examine the concepts of problem solving and conflict management from both personal and organizational perspectives. Students will have the opportunity to study in-depth both of these concepts (and the relationship between them) through a combination of lecture, theory, individual and group activities, readings, practical exercises, and self-assessment tools.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 620. Contemporary Issues in Sport. 3 Credit Hours.
Problem identification, investigation, analysis, and problem solving approaches in Kinesiology and Sport Sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 621. Advanced Systemic Exercise Physiology. 3 Credit Hours.
The study of the physiological effects of acute vs. chronic training on homeostatic function, musculoskeletal systems, energy system function, cardiovascular and the pulmonary systems. Students will be able to understand and interpret terminology and research literature published in the field.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
KIN 623. Food Science and Management Principles. 3 Credit Hours.
A comprehensive course designed to provide knowledge of food chemistry, safety, service and management.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 624. Athletic Training Techniques - Manual Therapy. 3 Credit Hours.
This course will introduce theoretical concepts and hands-on techniques to mobilize joints and soft tissue in order to modulate pain, facilitate healing, and restore mobility and function.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 625. Advanced Kinesiology. 3 Credit Hours.
In-depth study of the human skeletal and muscular systems with a focus on the mechanics of movement as related to physical activity, sports, and athletics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 626. Nutrition Diet and Exercise. 3 Credit Hours.
Students will learn the latest concepts in weight management, physical fitness, and healthy eating. They will be able to understand the complex interplay of carbohydrates, protein, fat, water, fiber, vitamins, and minerals in the nourishment of their body and overall well-being. They will also examine serious health issues such as the use/ misuse of anabolic steroids, weight control, and eating disorders.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 627. Community and Global Nutrition. 3 Credit Hours.
This course is designed to provide an overview of nutritional issues & related aspects of infectious and chronic disease impacting the health and performance of athletes, individuals & groups domestically & globally. Economic and environmental issues which impact nutritional status and deficiency in the Western societies & third world countries will be addressed. An international and cultural perspective on food, eating behaviors and customs will be explored.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

KIN 628. Basic Statistics in Kinesiology and Sport Sciences. 3 Credit Hours.
Introduction to basic statistical techniques commonly used in the Exercise and Sport Sciences. Designed as a prerequisite for KIN 646 (Formally ESS 646).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

KIN 630. Cellular Exercise Physiology. 3 Credit Hours.
The course examines Bioenergetics and Muscular Physiology in training and detraining. Topics include the energy systems and their functional application during exercise, muscle structure and function, cellular and sub-cellular modifications of organelles and contractile mechanisms as result of training and physiological bases of training techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 631. Laboratory Techniques in Functional Evaluation of Skeletal Muscle. 3 Credit Hours.
This course examines the theories of data collection and collection techniques used to evaluate musculo-skeletal and neuromuscular function. The application of both computerized and non-computerized collection systems for performance evaluation is covered. The course is also designed to establish a clear linkage between the acute and chronic musculo-skeletal and neuromuscular changes that occur during exercise and the laboratory methods used to assess those changes. Collection theory, musculoskeletal and neuromuscular function, methods of strength evaluation, anaerobic power testing, electromyography, and a number of other functional parameters will be discussed.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

KIN 632. Sports Injuries: Prevention and Treatment. 3 Credit Hours.
Prevention, diagnosis, treatment and rehabilitation of sports injuries. Anatomical and Kinesiological application to sports injuries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 634. Integrative and Functional Nutrition. 3 Credit Hours.
This course will discuss integrative and functional medicine and how it emerged. This course will analyze the healthcare models that include personalized care and the whole-person perspective. In this course we will discuss various factors that influence disease including diet and nutrition, stress, activity level, pharmaceuticals and environmental pollutants. Alternative approaches to treatment will also be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 635. Clinical Biomechanics for Sport Medicine Professionals. 3 Credit Hours.
A lecture course stressing biomechanics of joints and pathomechanics of orthopedic injuries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

KIN 636. Strength and Conditioning I. 3 Credit Hours.
This course serves as the practical/technical foundation for major compound movements and Olympic lifts. It also provides comprehension of movement specific dynamic warm-ups, advanced stretching techniques, methods for identifying movement compensations and underlying issues as well as evaluating Olympic techniques. Due to the practical nature of the course, all sections of this course are held in the Hecht Athletic Center (HAC).
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 637. Strength and Conditioning II. 3 Credit Hours.
This course is the continuation of Strength and Conditioning I (KIN 536). It provides more advanced Olympic weightlifting techniques and ballistic training, alongside a continued focus on corrective exercises to ensure a reduced risk of injury. The course also provides an introduction to exercise programming including specialized training techniques for athletic development. Due to the practical nature of the course, all sections of this course are held in the Hecht Athletic Center (HAC).
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.
University of Miami Academic Bulletin

KIN 638. Nutrition during the Lifecycle. 3 Credit Hours.
This course is designed to examine the changes in nutrition requirements during the life cycle, particularly as related to growth, development and aging. Psychosocial, cultural, and economic issues related to food intake at various life stages will be reviewed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 639. Dietary Supplements and Human Performance. 3 Credit Hours.
Evidence-based examination of supplements, food phytochemicals, and their relation to disease & performance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 640. Exercise Psychobiology. 3 Credit Hours.
This course is designed primarily for graduate level Exercise and Sport science students who are interested in the biochemical basis of personality as affected by exercise and sport. The course involves interdisciplinary integration and comprehensive reviews of ancient and current literature dealing with exercise, stress, emotional, personality, immune system function and neuroendocrine function.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 641. Neurophysiology in Exercise Science. 3 Credit Hours.
Examination of the functions of the central, peripheral, and autonomic nervous systems in regulating exercise homeostasis and the structural and functional modifications to the systems through training. NOTE: This course is a writing intensive course. This means that all examinations and papers include a critical evaluation of the student's ability to convey information using the written word.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 642. Strength and Conditioning. 3 Credit Hours.
A comprehensive overview of strength and conditioning.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 643. Professional Training and Counseling for Integrative Health. 3 Credit Hours.
Students will learn the integrative health care model, theories, behavior change models, approaches & techniques used in nutritional counseling to help athletes, individuals and groups implement and sustain behaviors, lifestyles, and attitudes to achieve optimal health. Lecture & personal application will allow for the development of skills in each of these areas.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 644. Therapeutic Lifestyle to Combat Chronic Disease. 3 Credit Hours.
This course presents an in-depth examination of chronic conditions and medical problems commonly observed in athletes. Students will learn about the etiology of the medical condition, how exercise affects the condition, how nutrition affects the condition, and the most recent therapeutic treatments prescribed for the condition.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 645. Elite Conditioning I. 3 Credit Hours.
Elite Conditioning I provides an introduction to evaluation techniques catered specifically to the athletic population including tests for strength, power, speed, agility, balance and stability. The courses also provides instruction on how to apply these evaluations to their respective sports/positions. These evaluation techniques provide data that students will use in the process of corrective exercise prescription. Students are taught how to implement corrective strategies to improve athletic performance. Due to the practical nature of the course, all sections of this course are held in the Hecht Athletic Center(HAC).
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 647. Elite Conditioning II. 3 Credit Hours.
Elite Conditioning II is the continuation of Elite Conditioning I (KIN 546). This course provides students with an understanding of the design and implementation of periodized conditioning programs for athletes based on the testing, evaluation, and applications to specific sports learned in Elite Conditioning I. The course focuses on speed agility and quickness for sports. It also includes practical implementation of ballistic, plyometric, speed, and conditioning drills emphasizing evidence based methods and training techniques. Due to the practical nature of the course, all sections of this course are held in Hecht Athletic Center(HAC).
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 649. Nutrition Assessment and Lab. 3 Credit Hours.
Application of the principles of normal and therapeutic nutrition, nutrition assessment, evaluation and intervention as related to sports performance and the management and treatment of disease states. Laboratories will allow for the development of skills in each of these areas.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

KIN 650. Nutritional Biochemistry. 3 Credit Hours.
To learn the fundamental biochemical structure and pathways governing nutrient intake and utilization. Students will learn how major forms of nutrients (macronutrients, vitamins, minerals and trace elements) are processed and utilized by different organs with a particular emphasis on muscle metabolism. Students will also learn how to relate their newly acquired knowledge to health and disease outcomes with focus on lifestyles disease related to metabolism such as diabetes and obesity.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
KIN 655. Medical Nutrition Therapy. 3 Credit Hours.
The role of nutrition in the prevention and treatment of various disease states including diabetes, cardiovascular disorders, endocrine and gastrointestinal disorders, enteral feeding, renal disease, cancer and AIDS/HIV, and weight management. This course instructs on the use of the Nutrition Care Process for assessment and documentation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 657. Diagnostic Imaging Techniques in Sports Medicine. 3 Credit Hours.
This course is designed as an elective for undergraduate KIN students or graduate students. The basic physics of radiological imaging will be covered including radiology, fluoroscopy, CT scan, ultrasound, MRI, and nuclear medicine including image archiving. Normal anatomy will be compared to the corresponding radiographic anatomy. Common sports injuries will be evaluated by multiple radiographic modalities and will be correlated with the clinical condition. Discussion will include bony pathology as well as soft tissues such as ligaments, tendons, and menisci.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 661. Facility Management. 3 Credit Hours.
Facility management provides students with an understanding of fitness entrepreneurship, giving students a comprehensive understanding of the, laws, regulations, policies, and work involved in setting up a fitness facility such as a gym, wellness center, or athletic training center. Students are responsible for developing a viable sports or fitness complex including all aspects of administrative and facility management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 662. Fitness Facility Management II. 3 Credit Hours.
Fiscal management as related to athletic sports administration, recreation and leisure sports administration, and physical education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 663. Foundations of Athletic Training. 3 Credit Hours.
This course will cover foundational knowledge in Athletic Training with an emphasis on health promotion and injury and disease prevention. Public Health and Epidemiology, Nutrition Health and Wellness, and basic principles of Exercise Physiology will be covered. Students will be required to complete an IPE service learning project with another academic application.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 664. Orthopedic Assessment 1: Pathophysiology of Injuries. 3 Credit Hours.
This course provides the student with an analysis of the etiology, pathology, and clinical science of muscular and skeletal diseases, disorders, and conditions. An introduction to clinical/laboratory assessment techniques, basic injury management, and knowledge of common imaging and surgical procedures are presented.
Prerequisite: KIN 234.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 665. Orthopedic Assessment 2: Examination of the Musculoskeletal System. 3 Credit Hours.
This course will prepare students to examine a patient with a musculoskeletal condition by obtaining a pertinent history from the patient, performing relevant systems review, and by selecting appropriate diagnostic tests and measures. The student will be able to synthesize examination data to complete the orthopedic evaluation and engage in the diagnostic process.
Prerequisite: KIN 234.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 666. Elements of Sports Psychology. 3 Credit Hours.
Introduction to the study of sport and exercise psychology including theory, current research and practical application.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 667. Developmental Sports Psychology. 3 Credit Hours.
Examination of the concept of sport psychology which includes but is not limited to performance, enhancement, student performance and academic application.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

KIN 668. The Foundations of Exercise Programming. 3 Credit Hours.
Students will learn various assessments of Health and Wellness, and discover how to most effectively prescribe exercise strategies to treat the diagnosed needs of an individual.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 670. Advanced Programming. 3 Credit Hours.
Advance programming allows students to dissect sports by movement, metabolism and limitation. The course investigates current trends and evidenced based applications of specific training techniques for optimal sport performance. Students will perform complete sports analysis and develop periodized programs for major sports.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
KIN 671. Sport Industry in South Florida. 3 Credit Hours.
This course will examine the various sport based organizations/events that are part of the sport industry in South Florida. Study of these organizations/events will include (a) products/services produced, (b) organizational structure, (c) economic impact on the local community, (d) key management personnel, (e) physical facilities, and (f) internship/employment opportunities.
Components: LEC.
Typically Offered: Spring.
Grading: GRD.

KIN 673. Advanced Sport Governance. 3 Credit Hours.
This course provides the student with an examination of the governing organizations of sport at the youth, secondary, intercollegiate, professional, international, sport specific and Olympic levels. In addition, policy development in sport management will be explored.
Components: LEC.
Typically Offered: Spring & Summer.
Grading: GRD.

KIN 677. Advanced Nutrition for Health and Fitness. 3 Credit Hours.
This course presents an in-depth study of the nutritional concerns of today's Recreational and competitive athlete. Topics include dehydration, classic carbohydrate loading, protein needs, ergogenic aids, and more. State-of-the-art research in the field is provided. This is also a writing intensive course. Thus, writing skills will represent an integral part of one's grade.
Components: LEC.
Typically Offered: Fall.
Grading: GRD.

KIN 678. Pharmacology for Allied Health Professionals. 3 Credit Hours.
The study of drug families and drugs in common use across spectra of age, illness, disease, and disability. Students will understand body systems treated with current pharmaceuticals over-the-counter (OTC) medications, and neutraceuticals. Actions, key adverse effects, and influences on individuals undergoing physical activity will be emphasized.
Components: LEC.
Typically Offered: Spring.
Grading: GRD.

KIN 679. Principles of Exercise Prescription/Assessment: Cardiovascular. 3 Credit Hours.
This course presents a comprehensive overview of the physical, physiological and metabolic responses of the human body to exercise testing and training both in health and disease. The successful student will gain an understanding of the process involved in prescribing safe and effective therapeutic exercise in healthy individuals as well as patients with heart and lung disease, diabetes and obesity. An overview of environmental and legal considerations in the prescriptive process will also be discussed.
Components: LEC.
Typically Offered: Fall.
Grading: GRD.

KIN 680. Principles of Exercise Prescription: Neuromuscular. 3 Credit Hours.
An examination of the scientific bases of modern training techniques designed to optimize performance, their functional application and potential impact on performance in sport and everyday activity.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 681. Development and Maturation of Athletes. 3 Credit Hours.
This course is an in-depth study of pediatric exercise physiology with special emphasis on growth, maturation, physical activity, and performance. Topics include a comprehensive summary of biological growth and maturation, processes as it impacts physical performance. Additionally, students will learn the bases of pediatric exercise physiology in order to understand the concepts of motor development, strength, aerobic and anaerobic performance in the pediatric population.
Components: LEC.
Typically Offered: Spring.

KIN 682. Clinical Pathology and Immediate Primary Care. 3 Credit Hours.
This course will focus on the pathology of non-orthopedic conditions including medical emergencies. Students will be able to recognize common injuries and illnesses, provide immediate treatment interventions, and make medical referrals and transport decisions when necessary. Pre-requisite: KIN663 and Current AHA BLS CPR/AED certification for the Health Care Providers (or approved equivalent as determined by ECC requirements from the BOC).
Prerequisite: KIN 663.
Components: LEC.
Typically Offered: Fall, Spring, & Summer.

KIN 684. Obesity, Metabolic Disease, and Inflammation. 3 Credit Hours.
The focus of this course is on the integrative neurophysiological functions that regulate and influence obesity, metabolic disease, and inflammation. Students will be able to understand the role that chronic inflammation plays in the pathology of disease. A combination of lecture, critical reading, and group discussion will be utilized to explore the underlying basis for metabolic abnormalities.
Components: LEC.
Typically Offered: Fall & Spring.

KIN 685. Advanced Topics in Kinesiology and Sport Sciences. 3 Credit Hours.
This course will provide a synthesis of essential concepts in specialty subjects relevant to one’s field of interest.
Components: THI.
Typically Offered: Spring & Summer.

KIN 686. Exercise Prescription/Assessment Laboratory. 3 Credit Hours.
This course presents an overview of the laboratory techniques used to assess cardiovascular endurance and general fitness, pulmonary function and anaerobiases observed during competition.
Components: LAB.
Typically Offered: Fall.

KIN 687. Laboratory Experience in Sports Nutrition. 3 Credit Hours.
This laboratory class provides case study analyses and computerized nutrient analysis systems designed to evaluate nutrition and hydration needs of the recreational and competitive athlete. From urinalysis and blood work, to body composition and computerized nutrient data base systems, this laboratory provides a clinical approach to evaluating the nutrition status of the exercising individual. Corequisite: ESS 577.
Components: LEC.
Typically Offered: Spring.
KIN 688. Advanced Gross Anatomy in Kinesiology and Sport Sciences. 3 Credit Hours.
Human dissection of the major muscles, arteries, and nerves of the body. This course is held at the Medical Campus, cadaver laboratory. Special consideration is given to injury sites in sports such as the knee, shoulder, elbow, neck and spinal areas. Students are required to pay a $100 laboratory fee for the class. This course is to be taken by Athletic Training majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
KIN 689. Directed Readings in Kinesiology and Sport Sciences. 3 Credit Hours.
Directed Readings focusing on research and contemporary trends in the field.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
KIN 690. Special Topics in Kinesiology and Sport Sciences. 1-3 Credit Hours.
This course is designed for students wishing to focus on a specific area of study within the umbrella of the Kinesiology and Sport Sciences curriculum. Students will be given supervision and support in a direction relevant to their needs and interests in a structured setting.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
KIN 698. Professional Training and Counseling for Integrative Health. 3 Credit Hours.
Current research in nutrition and nutritional care, nutrition profession, ethics and roles in food service, clinical and community. Seminars designed to cover state-of-the-art overview of current and emerging topics will be presented by invited outside guest speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
KIN 699. Advanced Programming for Endurance Athletes. 3 Credit Hours.
This course provides students with training techniques to improve aerobic capacity, endurance, and lactate threshold for optimal performance. Students will review evidenced based principles of sports nutrition, strategies to ensure proper hydration, thermoregulation, and fuel (substrate) availability during prolonged exercise as well as develop programs for competitive sports including triathlon, marathon, and cycling.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
KIN 702. Athletics in the United States. 3 Credit Hours.
An Assessment of athletics in the United States. Focus on historical perspectives, contemporary issues, interface with international athletics, and future trends.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
KIN 704. Recreation in the United States. 3 Credit Hours.
An assessment of recreation and leisure in the United States. Focus on past, present, and future trends, problems, and issues.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
KIN 710. Advanced Adolescent Growth and Maturation. 3 Credit Hours.
This course is an in-depth study of pediatric exercise physiology with special emphasis on growth, maturation, physical activity, and performance. Topics include a comprehensive summary of biological growth and maturation, processes that impact physical performance. Additionally, students will learn the basis of training pediatric populations.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
KIN 712. Applied Sport Psychophysiology. 3 Credit Hours.
The study of the physiological effects of acute vs. chronic training on homeostatic function, musculoskeletal systems, energy system function, cardiovascular system, and the pulmonary system. Students will be able to understand and interpret terminology and research literature published in the field.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
KIN 714. Therapeutic Interventions. 3 Credit Hours.
Students will acquire the theoretical knowledge necessary for the clinical application of therapeutic exercise, modalities, and evidenced based rehabilitation programs. Principles of therapeutic exercise, open and closed chain exercise, muscle re-education, and special therapeutic techniques such as aquatic therapy. In addition, students will apply specific physiological effects, therapeutic indications, and contraindications associated with thermal, mechanical, electromagnetic, and acoustic modalities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
KIN 715. Evidence-Based Sports Medicine and Research Methods. 3 Credit Hours.
The student will learn the systematic approach to creating and answering clinical questions through review and application of existing research. Students will learn how to develop a relevant clinical question using a pre-defined question format, use standard criteria or developed scales to critically appraise the structure, rigor, and overall quality of research studies, and determine the effectiveness and efficacy of an athletic training intervention. Students will also learn the theoretical foundation of clinical outcomes assessment and the standard methods of outcomes assessment in athletic training clinical practice.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
KIN 716. Advanced Rehabilitation Techniques in Athletic Training. 3 Credit Hours.
This is an advanced athletic training course designed to enhance the athletic trainer's ability to plan and implement a comprehensive sports injury rehabilitation program based on the sequential events of musculoskeletal tissue healing. Discussion focuses on the development of a conceptual model for sports injury rehabilitation which incorporates rehabilitation phases, intervention goals, and progression criteria. Application of the problem-oriented approach to the management of athletic injuries is a predominant theme throughout this course
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 717. Applied Clinical Techniques in Athletic Training. 3 Credit Hours.
This clinical laboratory course focuses on athletic training skills utilized in the diagnosis and treatment of primary care of patients. Students will become proficient in utilizing diagnostic tools and tests. In addition, students will become proficient in wound care, suturing, initiating and maintaining appropriate intravenous (IV) therapies and the collecting, handling, and processing of blood specimens for analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 718. Administration and Professional Development. 3 Credit Hours.
Concepts of legal liability, insurance, budget/financial management, human resources, inventory control, facilities design and maintenance will be addressed. This course will enable the student to understand reimbursement guidelines; understand medical delivery systems, health care policy, and legislation in the United States. In addition, students will learn the basics related to accounting, billing, coding, accounts payable, and risk management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 720. Practicum in Athletic Training. 3 Credit Hours.
Clinical education and field experience in a healthcare setting. Students are assigned to a licensed athletic trainer who will serve as the student's preceptor. Students will learn alongside their preceptors as they are exposed to the role and function of an athletic trainer while practicing clinical skills with a variety of patient populations. In addition, students will meet for scheduled in-services and clinical labs with a focus on utilizing Interprofessional Education (IPE) and simulation to enhance physical evaluation and assessment skills. Prerequisite: KIN 720 Practicum in Athletic Training 1
Prerequisite: KIN 720.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

KIN 721. Independent Study 1: Clinical Internship Experience. 3 Credit Hours.
This elective internship course will allow students to seek a professional Athletic Training internship in a particular area of clinical interest under the supervision of a licensed/certified health care clinician.
Components: IND.
Grading: GRD.
Typically Offered: Fall.

KIN 722. Practicum in Athletic Training 2. 3 Credit Hours.
Clinical education and field experience in a healthcare setting. Students are assigned to a licensed athletic trainer who will serve as the student's preceptor. Students will learn alongside their preceptors as they are exposed to the role and function of an athletic trainer while practicing clinical skills with a variety of patient populations. In addition, students will meet for scheduled in-services and clinical labs with a focus on utilizing Interprofessional Education (IPE) and simulation to enhance physical evaluation and assessment skills. Prerequisite: KIN 720 Practicum in Athletic Training 1
Prerequisite: KIN 720.
Components: PRA.
Grading: GRD.
Typically Offered: Spring.

KIN 723. Independent Study 2: Research Experience. 3 Credit Hours.
This elective research experience course will allow students to pursue research in an area of particular interest under the supervision of a faculty member.
Components: IND.
Grading: GRD.
Typically Offered: Spring.

KIN 724. Practicum in Athletic Training III. 3 Credit Hours.
Clinical education and field experience in a healthcare setting. Students are assigned to a licensed health care professional who will serve as the student's preceptor. Students will learn alongside their preceptors as they are exposed to the role, and function of a health care provider while practicing clinical skills with a variety of patient populations. In addition, students will meet for scheduled in-services and clinical labs with a focus on integrating athletic training knowledge and skills through Simulation and Interprofessional Education (IPE). Prerequisite: KIN 722 Practicum in Athletic Training 2
Prerequisite: KIN 722.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 725. Independent Study III. 1 Credit Hour.
This course is an advanced study of a particular theme or topic in the athletic training field such as students' research topic, current issues of relevance to certified athletic trainers and other professionals in the sports health care professions. Students will prepare for class discussion by reviewing assigned readings from professional journals and other pertinent sources. Class sessions will consist of lectures, laboratories, and discussion sessions.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 726. Practicum in Athletic Training IV. 3 Credit Hours.
Field experience at the athletic training setting through working with collegiate athletes to expose students to the role and function of athletic training as a certified athletic trainer and clinical instructor as well.
Components: PRA.
Grading: GRD.
Typically Offered: Spring.
KIN 727. Pract in Nutrition. 3 Credit Hours.
Planned supervised practice experience component in dietetic and nutrition practice of up to 900 hours shall provide the applicant with a broad spectrum of experiences in dietetics and Nutrition in clinical, community and food service to meet licensure requirements.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 735. Methods in Biomechanical Analysis. 3 Credit Hours.
Examination of methods of research, instrumentation, and quantitative application of kinematic and kinetic concepts in the biomechanical analysis of human movement.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 740. Neurophysiology in Exercise Science. 3 Credit Hours.
Examination of the functions of the central, peripheral, and autonomic nervous systems in regulating exercise homeostasis and the structural and functional modifications to the systems through training. NOTE: This course is a writing intensive course. This means that all examinations and papers include a critical evaluation of the student's ability to convey information using the written word.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 741. Aging: Physiological Changes and Their Implications of Training. 3 Credit Hours.
The physiological changes that occur due to aging and their impact on fall prevention, independence, and the application of prophylactic exercise prescriptions.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 742. Fundamentals of Cardiology. 3 Credit Hours.
This course represents an in-depth review and evaluation of the field of cardiology. Students must understand the etiology of coronary artery diseases, assessment techniques in the evaluation of cardiac pathologies, the latest risk factors, and most recent trends in treatment and rehabilitation. Phase I through Phase IV overview of Cardiac Rehabilitation will be fully examined.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 743. Laboratory Experiences in Cardiac Rehabilitation. 3 Credit Hours.
This class provides hands-on clinical experiences in preparation of patient for testing, assessment of pre-existing medical conditions and risk factors as well as appropriate procedures for stress testing. Student will, in addition, have the opportunity to view Thallium stress tests, echocardiography and cardiac surgical procedures such as angioplasty and bypass surgery.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 744. Interpretation of the Electrocardiogram. 3 Credit Hours.
This class will provide information of the electrophysiology of the heart, medicines used to improve heart function, and critical examination of waveform analyses in interpreting the electrocardiogram. Prerequisite: KIN 642 (Formally ESS 642) or permission of the instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 746. Research Methods in Kinesiology and Sport Sciences. 3 Credit Hours.
This course reviews the approach and research methods used to evaluate quantitative research questions in the field of Kinesiology and Sport Sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 747. Analytic Methods in Kinesiology and Sport Sciences. 3 Credit Hours.
Methods of analyzing research data in Kinesiology and Sport Sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 755. Exercise Biochemistry. 3 Credit Hours.
This course presents an in-depth examination of the biochemical basis of exercise. Topics include carbohydrate and lipid metabolism at rest and during exercise, integration of metabolism, the use of stable isotopes in the characterization of substrate kinetics, and metabolic bases of fatigue. Both the instructor and the students will incorporate current peer-reviewed research in the field.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 763. Seminar and Special Topics in Athletic Training. 3 Credit Hours.
Scenarios and subject matter that will help facilitate the student's transition to practice will be emphasized. There will be a focus on current issues and emerging topics and technologies in the healthcare profession. Students will prepare for class discussion by reviewing assigned readings from professional journals and other pertinent sources. Class sessions will consist of lectures, laboratories, and discussion sessions. Also, career development and responsibility topics such as leadership, entrepreneurship, ethics, patient values, diversity and cultural competency.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 764. Athletic Training Clinical Field Experience. 6 Credit Hours.
This course is an immersive clinical education experience, where Athletic Training students under the supervision of a preceptor will demonstrate the ability to integrate knowledge and skills with clinical problem-solving while assuming professional like roles in various clinical patient care settings. Students will be required to post weekly reflections in an electronic journal and to attend scheduled webinars.
Prerequisite: KIN 722.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
KIN 765. Teaching Assistant Training in Kinesiology. 3 Credit Hours.
This course involves training and teaching assistant experience under the supervision of faculty. Students will have the opportunity to assist faculty in the teaching of workshops, clinical laboratory and/or undergraduate theory courses offered in the Kinesiology department.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 766. Research in Athletic Training. 3 Credit Hours.
This course is an advanced study of a particular theme or topic in the athletic training field including a research topic, current professional issues of relevance to certified athletic trainers and other sports medicine/allied healthcare professionals.
Prerequisite: KIN 715 and KIN 763.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 781. Issues Specific to Women's Health. 3 Credit Hours.
This course focuses upon clinical health issues relevant to women. Students will acquire a body of knowledge concerning the specific biological and physiological changes women experience from birth to maturity, and from the pre- to post menopausal state. Women will learn significant issues related to women's health and be able to make more educated decisions regarding their health and treatment options.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 782. Psychosocial Issues in Women's Health. 3 Credit Hours.
This course covers a broad perspective of women and their self-esteem, their femininity, and their role in family household. Attention will be paid to the historical, cultural, and anthropological development of women and their role in society. The influence of gender will explore several areas which include a) pregnancy, b) menopause, c) menstrual cycle, d) stress and career vs. family, e) depression, and f) body image.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 783. Sports Medicine for the Female Athlete. 3 Credit Hours.
This course focuses upon the physiological effects of exercise on the female athlete as it relates to her performance and health. Physiological differences between male and female will be examined as it impacts the women's performance abilities and potential. Gender specific problems regarding the exercising female will be explored.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 784. Energetics of Obesity and Weight Management. 3 Credit Hours.
This course is designed to evaluate dieting, rebound effect, set point theory, brown fat, and adaptive thermogenesis, as they relate to the etiology of obesity. The course will cover a step-by-step approach in the recognition, and management of the overweight patient. The course will also examine adipocyte morphology and the health implications of being overweight and obese. Students will examine the impact of both diet and exercise on long-term weight management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

KIN 785. Neurological Mechanisms of Weight Regulation. 3 Credit Hours.
This course is designed to evaluate dieting, rebound effect, set point theory, brown fat, and adaptive thermogenesis, as they relate to the etiology of obesity. The course will cover a step-by-step approach in the recognition and management of the overweight patient. The course will also examine adipocyte morphology and the health implications of being overweight and obese. Students will examine the impact of both diet and exercise on long-term weight management.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

KIN 790. Strength and Conditioning Independent Study/Project. 3 Credit Hours.
Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 791. Practicum in Kinesiology and Sport Sciences/Master's students. 1 Credit Hour.
The course presents graduate students with the theoretical and practical tools necessary for expanding their critical thinking and argumentative skills in order to present their scientific research results in an evaluative. logical and analytical manner. The course consists of weekly presentations of related literature, results, and findings on various Master's projects.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 792. Optional Internship-Strength and Conditioning. 1 Credit Hour.
This 1 credit internship allows students to pursue professional internships in the field of strength and conditioning/fitness entrepreneurship. Students will be provided with contact information and a number of opportunities by Dr. Biagioli respective to their interests.
Components: SEM.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

KIN 793. Research Colloquium. 1-3 Credit Hours.
This course presents graduate students with the theoretical and practical tools necessary for presenting their scientific research in an organized, logical, and analytical manner.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 794. Advanced Individual Study. 1-3 Credit Hours.
The Application for Admission to Individual Study Form will be required.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
KIN 795. Graduate/Clinical Field Experience in Kinesiology and Sport Sciences. 1-3 Credit Hours.
Practical experience not ordinarily available through coursework sequences. Placement in a variety of settings, clinics, public and private voluntary agencies and schools. Supervised by a faculty member of the department.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 799. Special Project. 1-3 Credit Hours.
This course represents the capstone course in a students field and should represent a culmination of all information learned in class.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 800. Supervised Practicum. 1-3 Credit Hours.
Students will be engaged in supervised experiential learning designed especially for their entry into their field. The student will be supervised by an approved preceptor (industry professional, clinician, or researcher) for the practical application of previously studied theory. Practicum hours will vary based on the nature of the experience.
Components: PRA.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

KIN 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in ESS 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

KIN 825. Continuous Registration--Master's Study. 1 Credit Hour.
To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 830. Pre-Candidacy to Dissertation Research. 1-10 Credit Hours.
Admission to doctoral program. Requires approval of advisor and department chair.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

KIN 835. Practicum. 1-2 Credit Hours.
The course presents graduate students with the theoretical and practical tools necessary for expanding their critical thinking and argumentative skills in order to present their scientific research results in an evaluative, logical and analytical manner. The course consists of weekly presentations of related literature, results, and findings on various doctoral projects.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

KIN 840. Post-Candidacy Dissertation Research. 1-12 Credit Hours.
For doctoral students working on their dissertations.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

KIN 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. Student, after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate school.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Latin (LAT)

LAT 101. Elementary Latin I. 3 Credit Hours.
Elementary vocabulary, grammar and reading.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 102. Elementary Latin II. 3 Credit Hours.
Continuation of LAT 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 103. Intensive Elementary Latin. 3 Credit Hours.
The equivalent of LAT 101, LAT 102, and half of LAT 201 in one semester; students are prepared to enter LAT 201 or 300-/400-level courses depending on their performance in the class. Combined with LAT 625. In addition to the three class hours per week, there is one additional hour (TBA) for drills and tests.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

LAT 201. Intermediate Latin I. 3 Credit Hours.
Translation and grammatical analysis of selected texts from Latin authors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 202. Intermediate Latin II. 3 Credit Hours.
Introduction to reading Latin poetry. Students will read selections from the Aeneid, with emphasis on Virgil's language and meter, as well as the ancient epic tradition. Latin 202 prepares students for 300- and 400-level Latin poetry courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
LAT 203. Ovid's Metamorphoses. 3 Credit Hours.
Readings in Latin from Ovid's Metamorphoses, including Apollo and Daphne, Echo and Narcissus, Midas and more.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 301. Catullus. 3 Credit Hours.
An advanced Latin course on the works of the Roman poet Catullus. Students will read almost all of the poems in the Catullan corpus, and be introduced to the related secondary literature, covering topics such as ancient sexuality, invective and obscenity, the figure of the mistress in Latin love poetry, the arrangement of poems within a poetic book, meter, and the textual tradition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 302. Petronius. 3 Credit Hours.
An advance Latin prose reading course on Petronius' Satyricon, a mysterious and fragmented novel dating from the time of the decadent emperor Nero. Trimalchio's Dinner-Party, the central section of the work, forms the focus of the course. It is an account if a dinner hosted by a wealthy ex-slave, and can be read as a critique of the excesses of the Neronian age.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 311. Cicero: Orations. 3 Credit Hours.
Readings from the speeches of Cicero, with an emphasis on syntax, vocabulary, rhetorical theory and practice, and the historical situation of the speeches.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 321. Virgil. 3 Credit Hours.
An advanced reading course in the poems of Virgil.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 322. Martial Epigrams. 3 Credit Hours.
Examines selected works of the first-century CE poet Martial, the acknowledged master of the verse epigram, considering his writing both as poetry (within the Greek and Roman traditions) and as social and political commentary.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 323. Seneca. 3 Credit Hours.
Examines in Latin select writings of the Roman philosopher and statesman Lucius Annaeus Seneca.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 401. Special Topics in Latin Literature. 3 Credit Hours.
The course is designed for the study of individual authors or topics in Roman thought, literature, and culture at an advanced level, not normally covered elsewhere in the course directory.
Prerequisite: LAT 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 402. Special Topics in Latin Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle). Analogous to REL 404-409 courses. [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 403. Special Topics in Latin Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle). Analogous to REL 404-409 courses. [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 404. Special Projects in the Literature and Culture of Ancient Rome. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle). Analogous to REL 407-409 this will vary each time the course is offered
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 406. Special Projects in the Literature and Culture of Ancient Rome. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle). Analogous to REL 407-409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 407. Supervised Reading in Classical Latin. 3 Credit Hours.
Variable subject matter determined by instructor and student. Analogous to REL 401-403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 408. Supervised Reading in Classical Latin. 3 Credit Hours.
Variable subject matter determined by instructor and student. Analogous to REL 401-403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 409. Supervised Reading in Classical Latin. 3 Credit Hours.
Variable subject matter determined by instructor and student. Analogous to REL 401-403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
Latin American Studies (LAS)

LAT 411. Horace. 3 Credit Hours.
Readings in the odes, epodes, satires and epistles of Horace.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 421. Roman Epic. 3 Credit Hours.
Studies from Roman epic poetry of Lucretius and Virgil to Lucan and Statius.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 422. Lucretius. 3 Credit Hours.
Detailed treatment of the Latin philosophical poet Lucretius and his lone surviving poem, De rerum natura.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 431. Livy. 3 Credit Hours.
Readings from the Roman historian Livy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 625. Elementary Latin for Graduate Research. 0 Credit Hours.
Grammatical structures, verb tenses, and word families necessary for reading texts with minimal use of a dictionary. May fulfill the Foreign Language Reading Competency Requirement (consult your graduate advisor).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

LAT 691. Directed Reading in Latin for Graduate Students. 3 Credit Hours.
Independent study in Roman thought, literature, and culture. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

Latin American Studies (LAS)

LAS 101. Introduction to Latin American and Caribbean Studies. 3 Credit Hours.
Course will focus on culture, economy, geography, history, politics, and society of Latin America and the Caribbean, as well as on the ways in which scholars have studied the region. LAS101 replaces LAS201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 110. Students in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 111. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 112. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 113. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 211. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 212. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 213. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.
LAS 214. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions
with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 215. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions
with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 301. Interdisciplinary Topics in Latin American and Caribbean Studies. 3 Credit Hours.

LAS 410. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 411. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 412. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 413. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 414. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 415. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 416. Senior Honors Thesis II. 3 Credit Hours.
This course pairs students with a faculty mentor to guide the writing process for the senior honors thesis. Students will study advanced topics in Latin American and Caribbean Studies, according to faculty interests. Prerequisite: LAS 101.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAS 501. Interdisciplinary in Latin American and Caribbean. 3 Credit Hours.
Interdisciplinary methods and politics of Latin American and Caribbean area studies.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

LAS 502. Research Design in Latin American Studies. 3 Credit Hours.
Interdisciplinary research methods and skills in Latin American and Caribbean studies.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

LAS 503. Program Seminar in Latin American Studies and Caribbean Studies. 3 Credit Hours.
Content of course will vary by semester.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 504. Interdisciplinary Topics in Latin American and Caribbean Studies - Travel Course.. 3 Credit Hours.
Topics vary. Interdisciplinary focus is thematic and regional (e.g.: tourism in Yucatan; civil society in Chile, Haiti-Dominican Republic relations, cultural policy in the Caribbean, environmental policy in Panama.) Course involves travel during Spring Break and it has a program fee.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

LAS 505. Internship in Latin American and Caribbean Studies. 1-3 Credit Hours.
On-site experience in business, governmental organization, or non-profit organization dealing with Latin America and/or the Caribbean.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAS 506. Civic Engagement in Latin America. 1-3 Credit Hours.
On site experience in a civic engagement project in Latin America or the Caribbean.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAS 520. Interdisciplinary Topics in Latin American and Caribbean Environments. 3 Credit Hours.
Topics vary. Interdisciplinary focus on policies and impact of globalization on the environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
LAS 521. Latin American Environmental Issues. 3 Credit Hours.
A comprehensive course on Latin American and Caribbean environmental
issues in their full political, economic, and social dimensions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

LAS 530. Special Topics in Latin American and Caribbean Religions. 3
Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional (e.g.,
Liberation Theology, Latin American and Latino Religions, Caribbean
Religions), but will address Latin American and Caribbean religion.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 540. Special Topics in Latin American and Caribbean Media and
Communication. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional (e.g.,
global media, Spanish- or Portuguese-language television or radio,
social media) but will address Latin American and Caribbean media and
communication.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 550. Special Topics in Latin American and Caribbean Art and Culture.
3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional, but will
address Latin American and Caribbean Art & Culture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 560. Special Topics in Latin American and Caribbean Politics. 3
Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional (e.g.,
democracy, new social movements, globalization, politics and society),
but will address Latin American and Caribbean politics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 580. Special Topics in Latin American and Caribbean History. 3
Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional, but will
address the history of political, social and economic development in Latin
America and the Caribbean.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 591. Debates on Current Issues in Latin American and Caribbean
Studies. 3 Credit Hours.
Content may vary from semester to semester. This is a graduate course
to allow debate and discussion on current issues and events affecting
Latin America, the Caribbean, and Latino communities in the United
States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

LAS 601. Interdisciplinary in Latin American and Caribbean. 3 Credit
Hours.
Interdisciplinary methods and politics of Latin American and Caribbean
area studies.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

LAS 602. Research Design in Latin American Studies. 3 Credit Hours.
Interdisciplinary research methods and skills in Latin American and
Caribbean studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

LAS 603. Program Seminar in Latin American Studies and Caribbean
Studies. 3 Credit Hours.
Content of course will vary by semester.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

LAS 604. Interdisciplinary Topics in Latin American and Caribbean
Studies - Travel Course. 3 Credit Hours.
Topics vary. Interdisciplinary focus is thematic and regional (e.g.: tourism
in Yucatan; civil society in Chile, Haiti-Dominican Republic relations,
cultural policy in the Caribbean, environmental policy in Panama.) Course
involves travel during Spring Break and it has a program fee.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

LAS 605. Internship in Latin American and Caribbean Studies. 1-3 Credit
Hours.
On-site experience in business, governmental organization, or non-profit
organization dealing with Latin America and/or the Caribbean.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAS 606. Civic Engagement in Latin America. 1-3 Credit Hours.
On site experience in a civic engagement project in Latin America or the
Caribbean.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAS 620. Interdisciplinary Topics in Latin American and Caribbean
environments. 3 Credit Hours.
Topics vary. Interdisciplinary focus on policies and impact of
globalization on the environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 630. Special Topics in Latin American and Caribbean Religions. 3
Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or religion (e.g.,
Liberation Theology, Latin American and Latino Religions, Caribbean
Religions), but will address Latin American and Caribbean religion.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
LAS 640. Special Topics in Latin American and Caribbean Media and Communication. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or religion (e.g. Global media, Spanish- or Portuguese- language television or radio, social media), but will address Latin American and Caribbean Media and Communication.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

LAS 650. Special Topics in Latin American and Caribbean Art and Culture. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or religion, but will address Latin American and Caribbean art and culture.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

LAS 660. Special Topics in Latin American and Caribbean Politics. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or religion (e.g., democracy, new social movements, globalization, politics and society), but will address Latin American and Caribbean politics.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

LAS 680. Special Topics in Latin American and Caribbean History. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or religion, but will address the history of political, social and economic development in Latin America and the Caribbean.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

LAS 681. Graduate Seminar on Public Health: Latin America and the Caribbean. 3 Credit Hours.
A variety of contemporary global public health issues and policy challenges confronting Latin America and the Caribbean, considering large and small states. We will explore the broader relationship of global public health topics to the political, economic, social, cultural, ethical, ecological, environmental, and technological factors.
Prerequisite: LAS 501.
**Components:** SEM.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

LAS 684. Global Public Health: Harnessing Theoretical Prep with Health Diplomacy and Practical Exper. 3 Credit Hours.
For students with a genuine interest in global public health and a regional focus in Latin America or the Caribbean. Students will have the opportunity to examine global health issues, programs, projects, policies and ethical dilemmas considering different methods used to study the challenges and successes in global public health work. This course will expose students to the integration of western and health care, as well as the economic, political, social, cultural, environmental, ecological and technological components of their lives that directly or indirectly influence public health outcomes at the community level. Furthermore, students will have a unique opportunity to interact with families and community organizations and programs in the remote villages as well as families residing in urban communities. This will provide greater insights into the epidemiologic, nutrition, lifestyle and socio-economic transitions which bring both positive and negative impacts on health and wellbeing. Students will also learn about importance of health diplomacy and health security within a globalized world through interactions with local policy makers and community members while in the country.
**Components:** FLD.
**Grading:** GRD.
**Typically Offered:** Spring & Summer.

LAS 691. Debates on Current Issues in Latin American and Caribbean Studies. 3 Credit Hours.
Content may vary from semester to semester. This is a graduate course to allow debate and discussion on current issues and events affecting Latin America, the Caribbean, and Latino communities in the United States.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.

LAS 694. Directed Readings in Latin America and Caribbean. 1-6 Credit Hours.
Independent Study leading to an original piece of research, or creative project on a Latin American or Caribbean interdisciplinary topic.
**Components:** THI.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

LAS 697. Readings for the Comprehensive Exam. 1-6 Credit Hours.
Readings for M.A. students who are preparing for comprehensive examinations.
**Components:** THI.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

LAS 810. Pre-candidacy thesis credits. 1-6 Credit Hours.
The student working on his/her master’s thesis enrolls for credit, not to exceed three, before student has been admitted to candidacy. Credit is not awarded until the thesis has been accepted.
**Components:** THI.
**Grading:** SUS.
**Typically Offered:** Fall & Spring.

LAS 815. Post-candidacy thesis credits. 1-6 Credit Hours.
The student working on his/her master’s thesis enrolls for credit, not to exceed six, after student has been admitted to candidacy. Credit is not awarded until the thesis has been accepted.
**Components:** THI.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.
LAS 820. Research in residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in LAS 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAW 250. Election Law: Hot Topics. 1 Credit Hour.  
Components: LEC.  
Grading: GRD.  
LAW 251. Search and Seizure. 3 Credit Hours.  
Search and Seizure explores the evolution of the U.S. Supreme Court's Fourth Amendment jurisprudence. The course, open to undergraduate and law students, develops the skills necessary to understand, evaluate, and develop legal arguments. Through the study of the government's use of surveillance tactics over the decades, students will learn to evaluate legal arguments for and against limiting government searches and seizures of people and their property. Materials will include landmark Supreme Court decisions as well as journalistic and videos and articles that place those decisions in historical context. Grades will be based on a series of approximately three 300-to-500-word essays and a final examination.

Management (MGT)

MGT 100. Managing for Success in the Global Environment. 3 Credit Hours.
This course will introduce students to the basics of management success in a multi-cultural, international environment. Course topics include an introduction to effective management and communication, understanding cultural differences, working in teams, and the role of the individual in managing his or her own success during the college experience, through such things as career/major exploration, development and building of a resume, and presentation techniques. The course utilizes both a lecture and workshop format, and culminates in a group project presentation integrating course topics.
Requisite: Miami Business School and Freshman Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 199. Professional Development and Success in the Workplace. 1 Credit Hour.
This one-credit course is designed to expose undergraduate business students to advanced professional development topics, including organization of a career search, practices for updating a résumé, job search mechanics, and proper networking and interview strategies. It also improves students’ preparedness to find and secure internships or permanent placement offers, with a focus on critical communication skills and a strategic approach to success in the workplace.
Requisite: Business School.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 251. Nature and Foundations of Entrepreneurship. 3 Credit Hours.
This course seeks to understand some of the basic social, legal, cultural, and economic infrastructure that enables and sustains the creation of new enterprises. Although conventional perspectives on entrepreneurship often overlook political or religious activists whose 'products' are not 'sold' in traditional markets, a more expansive view considers actions that transform idea into enterpris es that generate intellectual, social, cultural, religious, or economic value. Theory, data, and case study will be covered to help students to think both broadly and deeply about what it means - and what it takes - to be an entrepreneur, and what characterizes the entrepreneurial society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 253. Introduction to Entrepreneurship. 3 Credit Hours.
Focuses on the process of identifying entrepreneurial opportunities and the operations of a small business. Topics include organization, location, financial planning, record-keeping, unit costs, merchandising, credit, and recruitment of personnel. This course is open to SBA students, ENT minors, or MGT minors.
Requisite: Business School or MGMT minor or ENTR minor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 270. Introduction to Health Sector Organization and Management. 3 Credit Hours.
This course provides a basic understanding of the components of the health care sector and their interrelationships. The role of hospitals, ambulatory care (including physicians), long-term care, mental health care, hospice care, and pharmaceuticals will be examined. The role of government financed (Medicare and Medicaid) and private health insurance in affecting decision making by health care consumers and providers will be examined as well. A historical context will be used.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 302. Human Resource Management. 3 Credit Hours.
Theory and practice of modern personnel management related to the other management functions in the conduct of the enterprise. Attention is focused on the needs of the line executive as well as those intending to pursue a staff career.
Requisite: Must be in the Business School or have a MGMT minor plan.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 303. Operations Management. 3 Credit Hours.
Problems and methods of planning the efficient utilization of capital, labor, equipment, and materials. Sales forecasting, production planning, production control, scheduling, routing, dispatching, expediting, materials planning, inventory control, capital budgets, and costing are discussed. The application of quantitative techniques in problem solving and decision making are included as well as case problems.
Prerequisite: MAS 201 or MAS 311 or MTH 224 or IEN 311 or PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MGT 304. Organizational Behavior. 3 Credit Hours.
First professional course in management. Concepts of organization, motivation, leadership, dynamics of the group, personality, organizational development strategies, and other behavioral aspects involved in the effective management of an organization are discussed.
Requisite: Must be in the Business School or have a MGMT minor plan.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 307. Advanced Organizational Behavior. 3 Credit Hours.
Continuation of MGT 304--primarily for MGMT OR HRMG majors. Through case analysis and other relevant exercises, theories are applied to specific situations in organizational settings.
Requisite: Must be in the Business School or have a MGMT minor plan.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 308. Training and Development. 3 Credit Hours.
An examination of key issues in designing training and development programs. Topics include organizational needs analysis, training design and implementation, evaluation techniques, and understanding of how such programs interact with other human resource functions.
Requisite: Must be in the Business School or have a MGMT minor plan.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MGT 324. Negotiation Strategies. 3 Credit Hours.
A skills-based approach to learning the art and science of negotiation. Course covers preparation, and negotiation skills such as establishing trust and relationship-building. Topics include power, persuasion, creativity, problem-solving, ethics, and cross-cultural negotiation. Skills and self-insight will be acquired through self-assessment, role-play negotiation exercises, and case studies.
Requisite: Must be in the Business School or have a MGMT minor plan.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MGT 349. International Business. 3 Credit Hours.
This course is designed to introduce students to the study of international business. Through discussions and analyses of the unique challenges and opportunities faced by multinational corporations (MNCs) and their managers, students gain an understanding of how to conduct business across different cultural, political, economic, and legal environments, as well as how to function effectively and succeed in MNCs. The course work and usage of teaching methods such as case analyses, experiential learning exercises, and debates seek to help students develop a global mindset and skills for effective global management (e.g., conceptual, analytical, cross-cultural communication, negotiation, and presentation skills).
Requisite: Must be in the Business School or have a MGMT minor plan.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 354. Growing the New Venture. 3 Credit Hours.
Covers the basics of scaling a start-up. Topics include sources of capital, market choices, division of the equity pie, choice of distribution channels, choosing an accountant and a legal advisor, preparation of a business plan, and product design. Teams of students develop business plans to start new enterprises.
Prerequisite: MGT 253.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 357. Entrepreneurship Simulation Experience: Inside the Mind of the Entrepreneurial CEO. 3 Credit Hours.
This course provides students with unique entrepreneurial experiences derived from starting and running businesses through computer simulation. Topics include: opportunity and environment assessment for potential businesses; initiation, organization, administration, and launch of the businesses; operation of the businesses in a competitive environment; responsibilities, functioning, and issues of entrepreneurial teams; evaluation, measurement, and competitive ranking of business success.
Requisite: Must be in the Business School or have a MGMT minor or ENTR minor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 359. Comparative Management. 3 Credit Hours.
Analysis of professional management as affected by the cultural environments in which it operates in major industrial nations. The problems of trans-cultural managers in multinational structures is examined.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 360. Effective Leadership. 3 Credit Hours.
This course covers the key theories, models, and frameworks about the effective leadership of people in organizations. A multimedia approach is taken, using readings, films, lecture, discussion, and case analyses. The emphasis is on building a sound grasp of good practice, and on developing the ability to apply such knowledge to everyday leadership situations.
Prerequisite: MGT 304.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 371. Doing Business in Latin America. 3 Credit Hours.
This elective examines the key local, regional, and global forces affecting the conduct of business in the main Latin American markets of Mexico, Brazil, Venezuela and Chile. These forces include historical, cultural and demographic factors as well as the fast-changing politics and economics of the region. Students will be introduced to the complex relationships between business and government in LatAm as well as the unique advantages and disadvantages of companies based in the region.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MGT 401. Strategic Management. 3 Credit Hours.
An integrative approach to strategy formulation and implementation, from a domestic and international perspective, is the focus of this core capstone course. All the primary areas of business are emphasized using cases and readings. Course is required of all graduating seniors in Business.
Requisite: Business School and Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 422. Leading Teams. 3 Credit Hours.
The objectives of this course are to develop interpersonal communication and conflict management skills necessary to work in teams and exercise leadership in teams. Topics include team development, decision making, and managing conflict.
Requisite: Must be in the Business School or have a MGMT minor plan.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 423. Leading with Emotional Intelligence. 3 Credit Hours.
Emotional Intelligence is one of the keys to high performance leadership, as well as promoting the wellbeing of employees in organizations. Emotional intelligence provides a framework for understanding how people's emotions contribute to their optimal functioning at work. In this class, students will learn how to perceive emotions in themselves and others, how to understand the sources and consequences of emotions, and techniques for managing their own emotions as well as the emotions of others. By learning the theoretical foundations of emotional intelligence and engaging in experiential activities, students will enhance their leadership potential through the development of their emotional skills.
Prerequisite: MGT 304 and MGT 360.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 428. Compensation and Benefits Design. 3 Credit Hours.
Examines techniques and theories related to the design and management of compensation and benefits programs within organizations. Compensation includes cash compensation, such as base pay, merit pay, seniority pay, individual, group and organization-wide incentive plans, skills-based pay, and pay-for-knowledge. Benefits include health care plans, pension and profit-sharing plans, life and disability plans, and paid time off.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MGT 445. Supply Chain Modeling and Analysis. 3 Credit Hours.
This course will introduce students to managerial decision problems in modern supply chains, and will develop structured mathematical tools to model and solve these problems. Students will also learn to apply these tools through problem-solving exercises, experiential games, and spreadsheet-based case studies.
Prerequisite: MGT 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MGT 446. Supply Chain Strategy. 3 Credit Hours.
This course will deal with issues such as inventory management, supply chain design/co-ordination, revenue management, and sourcing. Each module discusses how a real company practices some aspect of supply chain strategy, and then reviews the concepts behind that practice. Tools are provided to analyze the concepts, distill their principles, and suggest guidelines for implementation and improvement.
Prerequisite: MGT 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MGT 450. MGT Internship. 1 Credit Hour.
Student is individually assigned to operating business firm or other organization to gain insight into management practice in area of career interest. Periodic reports and conferences are required. Cannot be used toward major requirements.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MGT 455. Entrepreneurial Consulting. 3 Credit Hours.
Students review techniques, methods, and analytic frameworks of management consultants. Emphasis is on problems of small business, particularly start-ups. Consulting practice is provided through preparation of reports on written cases and guest speakers, as well as hands-on projects in actual business firms or start-ups.
Prerequisite: MGT 253 And MGT 354.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MGT 459. International and Multinational Management. 3 Credit Hours.
Foreign environment for overseas operations with a survey involving economics, political, and social constraints. The effects of overseas investments on foreign economies with emphasis on the emerging managerial structures is included.
Requisite: Must be in the Business School or have a MGMT minor plan.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MGT 480. Leading Change. 3 Credit Hours.
Course is intended for students who are interested in learning about how to manage, plan, and implement large-scale change efforts within organizations. Part of the course is devoted to organizational analysis techniques and the remainder addresses behavioral intervention strategies (including survey feedback, technostructural interventions, and team building).
Prerequisite: Must be in the Business School or have a MGMT minor plan.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MGT 481. Leadership Practicum. 3 Credit Hours.
The Leadership Practicum requires having students observe (shadow) actual leaders to learn more about the respective leader's actual daily behaviors within his/her unique organizational context. Students will keep detailed journals containing field notes which they will then analyze based on the conceptual frameworks learned within the required course of the Leadership major.
Requisites: Senior status and Leadership majors only.
Components: PRA.
Grading: GRD.
Typically Offered: Spring.
MGT 496. Directed Studies in Management. 1-3 Credit Hours.
Supervised readings, individual research project, or independent investigation of selected non-STEM related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 497. Directed Studies in Management. 1-3 Credit Hours.
Supervised readings, individual research project or independent investigation of selected STEM-related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 498. Special Topics in Management. 3 Credit Hours.
Special topics in selected non-STEM areas of Management. Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 499. Special Topics in Management. 3 Credit Hours.
Special topics in selected STEM areas of Management. Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 555. Management Departmental Honors Research Project. 3 Credit Hours.
Research project to fulfill requirements for Departmental Honors in Management.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

MGT 600. Managing for Employee Engagement. 3 Credit Hours.
For Executive MBA students only. Course covers organizational behavior and utilizes cases and lectures to explore topics such as personality, motivation, leadership, group processes, organizational structure/design, and social responsibility.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MGT 602. Human Resource Management. 3 Credit Hours.
Modern personnel administration: job analysis and design, evaluation and appraisal, recruitment and interviewing, training and development, wages and benefits, and health and safety. Unionization, regulation of wages, hours and working conditions, financial security for workers, job anti-discrimination legislation, and manpower planning is also discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 603. Leading Teams. 3 Credit Hours.
The objectives of this course are to develop interpersonal communication and conflict management skills necessary to work in teams and/or exercise leadership in teams. Topics include team development, decision making, and diagnosing team process issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 616. Foundations in Organizational Management Consulting. 2 Credit Hours.
This course is designed to provide graduate students with an in depth exploration of the management consulting industry, being a professional consultant both internal and external to an organization, client relationship management and the consulting lifecycle used by top global consulting firms – on how to identify, diagnose, plan, solve problems, sell consulting work, use organizational management consulting methodologies, lead, project manage and close out consulting engagements.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 617. Leading Across Cultures. 2 Credit Hours.
This course examines what constitutes ‘effective’ leadership across cultures. Skills and behaviors that are perceived as effective leadership in one culture are not necessarily those that will be effective in a different culture. By exploring the ways in which specific cultural values and leadership prototypes are seen across different cultures, students will be prepared for cross-cultural adjustment and effective leadership. These skills may be applied to work assignments in a culture that is not their own or to leading diverse followers in their home country. The goal of the course is to help prepare students for leadership in multicultural environments.
Prerequisites: MGT 600 or MGT 620 or MGT 651.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 618. Leading Change in Organizations. 2 Credit Hours.
Charles Darwin aptly noted, “It is not the strongest species that survive, not the most intelligent, but the ones who are most responsive to change.” The primary goal of this course is to help you learn how to lead and manage the challenges associated with organizational change processes. Together we will identify the opportunities that require change programs; discuss ways to overcome the inevitable obstacles to change; learn how to build successful coalitions to support change efforts; analyze strategies for implementing change; and examine ways to consolidate the results of such efforts to ensure that changes are sustainable over time.
Prerequisites: MGT 600 or MGT 620 or MGT 651.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MGT 619. Leading with Power and Influence. 2 Credit Hours.
One of the realities of organizational life is that people continually attempt to control the actions of others and to successfully influence their behavior. This reality leads to a wide array of organizational activities aimed at enhancing one's own or one's group's personal agendas. This course focuses on preparing graduates for the challenges and 'realities' they will ultimately face as leaders. Given that most students will eventually be leading the efforts of others, it is essential that they understand how to acquire power and, within ethical bounds, exercise influence.
Prerequisites: MGT 600 or MGT 620 or MGT 651.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 620. Managing Through People. 2 Credit Hours.
This core course in the MBA program introduces students to some of the key behavioral topics necessary to manage oneself and others in organizations. Specifically, the topics covered include individual attributes (personality, perception, motivation, relationship building), group processes (norms, roles, and team basics), leadership views, and organizational culture/change. An understanding of the relationship between each of these areas and organizational outcomes is enhanced through lecture, cases, and interactive exercises.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 621. High Performance Leadership. 2 Credit Hours.
Leadership skills are critical for high performing organizations. Course utilizes lecture, cases, exercises, self-assessments, and contemporary reading materials to present leadership approaches that both motivate and enable employees to perform beyond normal or ordinary expectations. Topics include followership and organizational culture, power, influence, rewards and punishments, path-goal and exchange theories, participation and empowerment, charismatic and transformational leadership, and contingency and cognitive resources theory.
Requisite: Master of Science in Management Studies Students Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 622. High Performance Teams. 2 Credit Hours.
This elective course highlights how to manage and construct effective teams to achieve strategic goals. Team-based organizations have been created to enhance organizational performance. The benefits of effective team leadership are performance beyond expectations and enhancement of learning for employees. Topics covered include team decision-making, team leadership, diversity in teams, conflict resolution, and team creativity.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 623. Human Resource Systems. 2 Credit Hours.
Leaders must manage their human resource assets effectively to achieve high performance organizations. Course topics include recruitment and selection of high performance employees, designing performance appraisal systems, implementing policies to satisfy legal issues impacting human resources, and instituting training/development systems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 624. Negotiation Strategies. 2-3 Credit Hours.
This course is a skills-based approach to learning the art and science of negotiation. Negotiation is a core management competency; these skills are increasingly necessary for leaders in business, non-profits, small businesses and other organizations. This course will cover preparation, and negotiation skills such as establishing trust and relationship-building. Topics covered include power, persuasion, creativity and problem-solving, ethics and cross-cultural negotiation. Skills and self-insight will be acquired through self-assessment, role-play negotiation exercises and case studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 625. Entrepreneurship: Creating New Ventures. 2 Credit Hours.
This is a two-credit course for MBA students (only). The course is designed to help students understand the basic essentials for creating a new venture. Among some of the topics covered will be: preparation of a business plan, securing sources of capital, choosing and creating appropriate distribution channels, and understanding the complexities of selecting a management team. Students will be required to critique and develop business plans as a key evaluation component for this course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 628. Global Entrepreneurship. 4 Credit Hours.
This seminar-type course is an advanced elective specially designed for graduate students either interested in starting their own firms or developing the skills with which to submit business plans within the corporate world (i.e., corporate entrepreneurship) in today's global, interdependent economy. Students will learn to assess the new venture opportunities that he/she may have considered and choose the one that seems most attractive and viable and develop a unique business model which enhances the plan's viability in the short term, and ensure the development of sustainable advantages in the long term. Each student will draft a comprehensive business plan after working on its functional component(s) (e.g., marketing, finance, human and intellectual capital plans) to be developed throughout nine classes and several individual meetings along the program's academic calendar. At the end, students will present their business plans to a panel of new venture investors who will assess all projects, give individual feedback, and choose the best project(s).
Components: LEC.
Grading: SUS.
Typically Offered: Fall.
MGT 642. Supply Chain Analytics. 2-3 Credit Hours.
This course studies key decision areas in supply chain design and operation. Students will learn what data are needed and how to use data to measure supply chain performance. They will also learn to apply various tools and methods to analyze trends, extract knowledge and business intelligence, and make decisions. Through the analysis and discussion of case studies, they will get useful insights on how to optimize the value of supply chain processes and operations, to streamline the goals and to design flexible supply chains. Prerequisite: MAS 632 or MAS 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 643. Principles of Operations Management. 2 Credit Hours.
Introduction to operations management, forecasting, process analysis, aggregate planning, capacity management, waiting line management, system design, quality management, and inventory management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 644. Principles of Supply Chain Management. 2 Credit Hours.
Course introduces students to the business discipline of Supply Chain Management (SCM) which centers on concepts and techniques that enables firms to better coordinate material and information flows, and non-material activities associated with logistical and marketing processes that occur within and across organizations. Course also discusses concepts and recent influential innovations in SCM (e.g., Cross-Docking, Vendor Managed Inventory (VMI), Third-Party Logistics (3PL), Efficient Consumer Response (ECR), and Quick Response (QR)).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 645. Principles of Supply Chain Management. 2 Credit Hours.
This course analyzes problems and solutions associated with building sustainable supply chains. Students will study how to design a supply chain so as to maximize the cost of monitoring suppliers for compliance with sustainability initiatives. The course will develop optimal formal/informal incentive contracts for promoting investment by suppliers in sustainable capital and equipment, including product testing equipment. Supply chain problems such as the hold-up problem, delegation vs. control of suppliers’ sustainability practices, and supplier auditing are considered in the context of developing sustainable supply chains. Sustainability issues associated with suppliers in developing countries are also considered, including private versus state owned suppliers and the degree of enforcement of local regulations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 646. Sustainable Supply Chains. 2-3 Credit Hours.
This course analyzes problems and solutions associated with building sustainable supply chains. Students will learn what data are needed and how to use data to measure supply chain performance. They will also learn to apply various tools and methods to analyze trends, extract knowledge and business intelligence, and make decisions. Through the analysis and discussion of case studies, they will get useful insights on how to optimize the value of supply chain processes and operations, to streamline the goals and to design flexible supply chains. Prerequisite: MAS 632 or MAS 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 650. Behavioral and Organizational Systems. 3 Credit Hours.
Exploration of relevant concepts, research findings, and pragmatic implications of the behavioral sciences for the management of complex socio-technical systems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 651. Behavioral and Organizational Systems. 3 Credit Hours.
Exploration of relevant concepts, research findings, and pragmatic implications of the behavioral sciences for the management of complex socio-technical systems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 652. Leadership and Motivation in Organizations. 3 Credit Hours.
Selected topics pertaining to leadership, motivation, and individual processes are surveyed through selected readings, class discussions, and a guided research project. Students’ ability to conceptualize, integrate, and apply diverse approaches to the leadership and motivation of people in organizations is emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MGT 661. Influence, Power and Politics in Organizations. 3 Credit Hours.
One of the basic realities of organizational life is that people continually attempt to control the actions of others and to successfully influence their behavior. This reality leads to a wide array of organizational politics aimed at enhancing one's own or one's group's personal agendas. This course focuses on preparing graduate business students for the challenges and 'realities' they will ultimately face as managers. Given that most business students will eventually be leading the efforts of others, it is essential that they understand how to acquire power and exercise power within ethical bounds.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 667. Leadership for Sustainable Organizations. 2-3 Credit Hours.
This course covers the essentials of front-line leadership in sustainability, from integrating sustainability into an organization, executing organizational strategy, and committing to it for a lifetime. It is an exploration of the most prominent issues in the field of leading for sustainability; for example, leader traits required to promote and support change, how to deal with real world constraints, and ethical considerations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 675. Business Policy and Strategy. 2 Credit Hours.
The objectives of the course are to improve the student’s ability to think strategically and to provide an intellectual framework that enhances understanding of the MBA program. The course focuses on relationships among the firm, its strategy, and its environment; why firms choose certain businesses; which business strategies are successful; and how firms can change in response to a dynamic environment. Models for strategic formulation, implementation, and control are developed that facilitate an integrated understanding of the courses that comprise the MBA curriculum. Readings and lectures illustrate strategic management theories and frameworks while case discussions, experiential exercises, and team projects provide opportunities for application.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 677. Corporate Strategy and Organization. 2 Credit Hours.
This capstone course focuses on the perspective and skills of the general manager. Its purpose is to provide practice in diagnosing and identifying realistic solutions to complex strategic and organizational problems. Course builds on previous coursework by providing an opportunity to integrate various functional areas by providing a total business perspective. Since the course focus is on pragmatic, action-oriented general management skills, the course is taught primarily through the case method and requires both written analyses and case presentations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 679. Entrepreneurial Mergers & Acquisitions. 0-2 Credit Hours.
This course explores the evolving world of mergers & acquisitions (M&A) from the perspective of both buyers and sellers. We will examine the process itself – including the role of advisors, due diligence, and post-closing steps – as well as develop a framework for assessing value and risk. Our primary focus will be on the strategic rationale, or thesis, behind any M&A deal. By the end of the course, students should be comfortable with M&A terminology, analytical tools, valuation methodologies, and the business logic employed by successful buyers and sellers. Our approach will rely heavily on microeconomic analysis and a sophisticated understanding of incentives (and their unintended consequences). As the class progresses, you will learn how to effectively negotiate a deal, craft a strategic plan for either acquisition or sale, and formulate an effective due diligence outline as a buyer.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

MGT 680. Doing Business in China. 2 Credit Hours.
This course explores various business and management issues faced by international executives who are interested or active in various industries and markets in China, aiming to improve their understanding of this largest emerging market in the world. Several case studies of business organizations and industries are used throughout the course. Emphasis on the course material and class discussions on critical thinking, solutions to problems, and evaluating different options.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 681. Essentials of Health Care Management and Policy. 3 Credit Hours.
This course develops an understanding of the basic elements of the health services industry in the United States. A systems approach will be used utilizing a historical perspective as a basis and moving on to current and potential future system dynamics. The various components of the health care system will be examined, including physician services, hospital and hospital systems, long-term care providers, mental health services, and pharmaceutical services. Various elements associated with the financing of health services will be examined as well as indemnity insurance, capitation, and the role of managed care and consumer driven health care in theory and practice. The role of government and its impact on our health care system will be explored as well.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 682. Issues in Health Care Administration. 3 Credit Hours.
A seminar on current problems and issues in health care administration.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 684. Analysis of Health Care Delivery and Policy. 3 Credit Hours.
This course examines theoretical and operational incentive structures which guide health care consumers, providers and health care organization toward decisions both efficient and inefficient.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
MGT 685. Economic Models in Operations and Supply Chain Management. 3 Credit Hours.
In this course we will study the academic literature that is based on analytical models of supply chain and channel management. In particular we will be concerned with models that capture the economics that govern the interaction among the firms in a supply chain/distribution channel. Since this topic is of interest to both the marketing and operations management communities, we will draw upon readings from both areas. One of our objectives will be to identify opportunities for building bridges between these two bodies of knowledge.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 686. Optimization Models for Operations and Supply Chain Management. 3 Credit Hours.
This course is designed primarily for advanced graduate students who are interested in research on supply chain and operations management, focusing on the study of (deterministic) optimization models to support system design, planning, and operational decisions. The course complements other related doctoral courses such as those on economic models for supply chain and operations management.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MGT 687. Health Care Organization, Economics, and Ethics. 3 Credit Hours.
Course provides the student insight into organizational and behavioral aspects of the various sectors and agents within the health care industry and understanding of how such aspects in turn affect performance measured in terms of both economic and ethical criteria.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 688. Individual and Interpersonal Processes. 3 Credit Hours.
Basic Overview of many topics relevant to studying individuals and dyads in organizations. Course will introduce students to a variety of topics related to individual and interpersonal differences, processes, and behaviors in organizations. Students will begin to see how to link research designs with a theoretical framework for empirical testing.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 689. Doctoral Seminar in Leadership and Group Processes. 3 Credit Hours.
This seminar examines the theory and research that focuses individual leadership and examines implications for individual and group behaviors as well as bridging the micro-macro divide. You will perform a critical in-depth examination of the primary research literature, focusing on appropriateness of design, analysis, interpretation, contribution and future research directions.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 690. Sustainable Business Operations: Value Creation and Environmental Considerations. 3 Credit Hours.
This doctoral level course is intended to familiarize students who are not environmental specialists with relevant facts and analyses on sustainable evolution: What are the key concepts? What is at stake? Who are the key stakeholders? Who is leading the way in reshaping operations strategies as well as public policy? What are some key lessons learned from successes and failures to integrate the environmental component? Specifically, the course will draw extensively from the rich literature in supply chain operations, international business and marketing on how firms interact with one another to create and offer sustainable products and services to consumers.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MGT 691. International Management. 2 Credit Hours.
Course is designed to provide an overview of management problems and issues for organizations and executives operating internationally. Students learn how multinational enterprises are different, why they behave as they do, and how to apply management principles to problem-solving in such contexts.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MGT 692. Theories in Management and Organization. 3 Credit Hours.
This course provides an in-depth review of major theories in the broad field of management and organization. It covers a multitude of management and organization theories that are derived not only from general management but from economics, sociology, ecology, and the like. The course will use several techniques, including lectures, article presentations and discussions, theory development, research project, and manuscript preparation. By the end of the term, students are expected to understand the central notions of each theory being discussed, comment on various arguments in these theories, improve the skills in applying these theories to specific research questions, and sharpen their ability to develop theoretical models.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

MGT 693. Theories and Research in Global Strategic Management. 3 Credit Hours.
This course is designed to provide doctoral students an in-depth review of major theories, paradigms, and perspectives in global strategy and international business. We'll also explore how to apply existing theories and perspectives to new contextual settings, such as emerging markets and outsourcing. Furthermore, we'll do all this while reading and critiquing the major branches and works within the strategic management and international business literature. The course is intended for doctoral students in business or related fields. There are no formal prerequisites for the course although some basic knowledge of global business is expected.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.
MGT 694. Ph.D Seminar in Strategic Management. 3 Credit Hours.
This course is designed to provide doctoral students an in-depth review of major theories, perspectives, and methods in strategic management. The course is intended for doctoral students in business or related fields.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MGT 695. Ph.D. Seminar in Emerging Market Research. 3 Credit Hours.
This course is designed to provide doctoral students an in-depth review and study of major theories, perspectives, methods, findings, and future research issues in business and management involving emerging economies. It encompasses both macro- (e.g., strategic management, international business, entrepreneurship) and micro- (e.g., culture, human resources management, leadership, and organizational behavior) levels.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

MGT 698. Selected Topics. 1-6 Credit Hours.
Topics in selected areas of specialization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MGT 699. Directed Study. 0-6 Credit Hours.
Individually supervised research project in selected field of management. Approval of supervising professor of the topic/scope of work/evaluation is required prior to registration.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MGT 825. Comprehensive Test Preparation. 1-3 Credit Hours.
Doctoral students who are preparing for their qualifying examinations may use this course designation. Enrolled students must develop, with the approval of their advisor, a ‘Plan of Study’ for these credits.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MGT 830. Doctoral Dissertation. 1-12 Credit Hours.
Course is required of all candidates for the Ph.D. The student enrolls for credit as determined by his/her advisor.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Management Science (MAS)

MAS 105. Quantitative Methods in Business I. 3 Credit Hours.
This course provides a background in algebra, linear equations, matrices, quadratic, exponential, and logarithmic functions appropriate for the successful understanding, interpretation, and use of these concepts and their application to business and economics within the Business School curriculum and in career endeavors. The course also provides an introduction to the mathematics of finance, interest rates, discounting of future returns, and linear programming.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 110. Quantitative Applications in Business. 3 Credit Hours.
Review of algebra emphasizing its application to supply and demand functions, market equilibrium, compound interest, and amortization. Differential calculus emphasizing its applications to marginal cost and revenue functions, maximization, taxation in competitive markets, and elasticity of demand are discussed. The application of integral calculus to total cost and profit of demand, to total cost and profit functions, consumer’s and producer’s surplus, computation of present value, and constrained optimization using partial differentiation are also included.
Prerequisite: Bus Schl and Prerequisite: ALEKS score >= 76, or SAT MATH score >=700, or SAT Math Section Score >= 730, or ACT Math score >= 31, or score of 4 AP Calculus (AB), or score of 3 in AP Calculus (BC) or MTH 108, or MTH 107 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAS 201. Introduction to Business Statistics. 3 Credit Hours.
Data analysis and presentation, cross tabulations, descriptive statistical measures, probability, sampling, statistical inference, hypothesis testing for one and two populations, covariance and correlation analysis. Utilization of microcomputer statistical packages is also included.
Prerequisites: MAS 110 or MTH 130 or MTH 141 or MTH 151 or MTH 161 or MTH 171.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAS 202. Intermediate Business Statistics. 3 Credit Hours.
Chi-squared goodness of fit tests, and contingency tables, analysis of variance, simple linear regression, multiple regression, time series forecasting, statistical methods of quality. Utilization of microcomputer statistical packages, case analyses, and presentations are also included.
Prerequisite: MAS 201 or MAS 311 or MTH 224 or IEN 311 or PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAS 311. Applied Probability and Statistics. 3 Credit Hours.
Descriptive statistics, basic probability, probability distributions, distribution theory, point and interval estimation, and single sample hypothesis testing.
Prerequisite: MTH 162 or MTH 172. Or Corequisites: MTH 162 or MTH 172 including equivalents.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 312. Statistical Methods and Quality Control. 3 Credit Hours.
Two sample hypothesis testing, simple and multiple regression, analysis of variance, design of experiments, and statistical quality control.
Prerequisites: MAS 311 or IEN 311 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MAS 332. Data Acquisition, Preparation and Visualization. 3 Credit Hours.
This course provides an in depth view of working with data to extract and present valuable information. Students will learn to collect, clean, manipulate, analyze, and visualize data from various sources correctly and efficiently. Through hands-on application, students will gain an understanding of what problems can occur when dealing with a variety of data and what solutions exist. Computing is a major component of this course, and students will learn a number of in-demand technical skills.
Prerequisite: MAS 202 or MAS 312.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 342. Introduction to Optimization and Decision Making. 3 Credit Hours.
This course introduces the principles and techniques of applied mathematical programming and computational methods for managerial decision-making. Computer software will be used extensively to solve both small-scale and large-scale optimization problems. The course covers theory and applications of Linear Programming, Mixed Integer Programming, Binary Programming, Non-linear Programming, Network Optimization.
Prerequisite: MAS 201 or MAS 311.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 352. Sports Analytics. 3 Credit Hours.
In this course students investigate questions that sports organizations face in business operations (ticketing, pricing, sales, and finance), and in team operations (scouting, coaching, and player personnel). Students will learn statistical and machine learning techniques such as mixed-effects regression models, random forests, neural networks, clustering, and support vector machines. Focus of the course will be on data management, data visualization, predictive modeling, forecasting, as well as written and verbal communication of the results of analysis. The programming language R will be used extensively in this course.
Prerequisite: MAS 332.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 432. Data Analysis. 3 Credit Hours.
This course introduces students to the analysis of various data types, with an emphasis on interpreting and communicating result. The course begins with linear regression modeling of normally distributed outcomes, and extends the concepts to other important data types frequently encountered in practice. Students will gain a firm understanding of a wide range of statistical models, when each is appropriate, and how to implement, interpret, and communicate results.
Prerequisite: MAS 202 or MAS 312 or IEN 312 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAS 442. Stochastic Models in Operations Research. 3 Credit Hours.
Introduction to probabilistic models and their applications. Topics include inventory theory, stochastic processes (queuing systems, Markov chains), and computer simulation. Lecture, 3 hours.
Prerequisite: MAS 311 or IEN 311 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAS 446. Directed Studies in Business Analytics. 1-3 Credit Hours.
Supervised readings, individual research project, or independent investigation of selected non-STEM related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 497. Directed Studies in Business Analytics. 1-3 Credit Hours.
Supervised readings, individual research project or independent investigation of selected STEM related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 498. Special Topics in Business Analytics. 3 Credit Hours.
Special topics in selected non-STEM areas of Business Analytics. Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 499. Special Topics in Business Analytics. 3 Credit Hours.
Special topics in selected STEM areas of Business Analytics. Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 547. Computer Simulation Systems. 3 Credit Hours.
Introduction to discrete-event computer simulation and hands-on development of simulation models. Topics include introduction to queuing theory, input and output analysis, random number generation, and variance reduction techniques. Students practice their modeling skills using commercial state-of-the-art simulation software. Assigned readings of real-life simulation projects complement the material learned in the classroom. Lecture, 3 hours.
Prerequisite: MAS 311 or IEN 311 or equivalent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 548. Data Mining and Knowledge Acquisition. 3 Credit Hours.
This course provides an introduction to the principles and techniques of data mining. Topics covered include the data mining process, data preprocessing, data mining techniques and data mining evaluation. The course will involve a combination of lectures, labs, projects and case studies.
Prerequisite: MAS 432.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MAS 549. Big Data Analytics. 3 Credit Hours.
As firms have the ability to access and store large amounts of customer and business data, they are faced with the complexities associated with Big Data. This class will discuss the challenges and potential solutions in working with Big Data through use cases and applications. Hands-on tools and methodologies that are needed when handling, visualizing, and/or analyzing Big Data to solve business critical questions will be presented.
Prerequisite: MAS 332 and MAS 432.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 550. Management Science Internship. 1-3 Credit Hours.
Student is individually assigned to operating business firm or other organization to gain insight into management practice in area of career interest. Periodic reports and conferences are required. Permission of department chair is required prior to registration.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAS 551. Business Analytics Capstone. 3 Credit Hours.
The goal of the Business Analytics Capstone course is to apply the skills learned throughout the undergraduate degree in Business Analytics to a single data analytics project. Students will work in groups on a project assigned to them by the instructor. Project topics will vary depending on availability, but reasonable efforts will be made to match projects with student interest. The project will expose students to the entire spectrum of Business Analytics; from initiating a project and defining the scope and goals, to data collection, cleaning, and exploration, to modeling and suggesting recommendations based on results. Along the way, students will practice effectively communicating with stakeholders who may or may not be familiar with the complex analytical methods implemented. Prerequisite: MAS 332 and MAS 342 and MAS 432.
Components: EXP.
Grading: GRD.
Typically Offered: Spring.

MAS 555. Management Science Departmental Honors Research Project. 3 Credit Hours.
Research project to fulfill requirements for Departmental Honors in Management Science.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

MAS 601. Applied Regression Analysis. 3 Credit Hours.
Theory and practical application of regression modeling and analysis. Understanding the role and responsibility of a statistician is also included.
Prerequisite: MAS 631.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 602. SAS Programming for Business Analytics. 3 Credit Hours.
SAS (Statistical Analysis System) is considered a world leader in business analytics software. This course provides the student with the tools necessary to program in SAS at an intermediate level necessary for data scientists in many Fortune 500 companies in the pharmaceutical, financial, manufacturing, and health care industries. The course begins with an introduction to Base SAS software, including the reading, manipulation and transformation of data. Techniques for restructuring data files, merging and concatenating data sets, creating summary reports as well as the utilization of basic statistical procedures will comprise the first half of the course. The middle of the course will focus on intermediate SAS skills for Data Management. The topics include error checking, report generation, date and time processing, PROC SQL, SAS Graph, SAS Macros, and the ODS (Output Delivery System) for production quality output. The last third of the course will include SAS statistical procedures most often utilized by data analysts and covered in the SAS Certified Statistical Business Analyst Credential.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 603. Introduction to Accounting Analytics. 3 Credit Hours.
This course introduces students to applications of data analytics techniques in accounting which includes: financial reporting, managerial accounting, taxation, and auditing.
Prerequisite: ACC 301. And ACC 402. And ACC 403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 611. Principles of Quality Management. 3 Credit Hours.
The definition of quality management, its history, and comparison of various schools of thought. An introduction to the theories of systems, variation, knowledge, and psychology as they relate to quality management. Deming’s fourteen points for management are studied through examples and cases.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 612. Advanced Quantitative Analysis. 3 Credit Hours.
The application of probability theory to the formulation and analysis of mathematical models for decision making. Applications are taken from inventory control, forecasting, waiting lines, quality control, production, and operations management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAS 627. Programming for Data Analytics. 2-3 Credit Hours.
This course will provide an introduction to various programming languages useful in data analytics. Topics covered will include cleaning, manipulating, exploring and visualizing data, as well as communicating results and reproducibility. While this course will cover wide range of topics in detail, students are not expected to have prior experience with any languages covered throughout the course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 628. Introduction to Accounting Analytics. 3 Credit Hours.
This course introduces students to applications of data analytics techniques in accounting which includes: financial reporting, managerial accounting, taxation, and auditing.
Prerequisite: ACC 301. And ACC 402. And ACC 403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 629. SAS Programming for Business Analytics. 2 Credit Hours.
SAS (Statistical Analysis System) is considered a world leader in business analytics software. This course provides the student with the tools necessary to program in SAS at an intermediate level necessary for data scientists in many Fortune 500 companies in the pharmaceutical, financial, manufacturing, and health care industries. The course begins with an introduction to Base SAS software, including the reading, manipulation and transformation of data. Techniques for restructuring data files, merging and concatenating data sets, creating summary reports as well as the utilization of basic statistical procedures will comprise the first half of the course. The middle of the course will focus on intermediate SAS skills for Data Management. The topics include error checking, report generation, date and time processing, PROC SQL, SAS Graph, SAS Macros, and the ODS (Output Delivery System) for production quality output. The last third of the course will include SAS statistical procedures most often utilized by data analysts and covered in the SAS Certified Statistical Business Analyst Credential.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MAS 630. Quality Management in Practice. 3 Credit Hours.
This course presents administrative systems necessary for an organization or an individual to pursue quality management. The course presents a functional model for quality management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 631. Statistics for Managerial Decision Making. 2 Credit Hours.
This course aims to familiarize the student with statistical theory, tools, and methods required for business systems analysis and improvement. Topics include descriptive methods, elementary probability, random variables and the distributions, hypothesis testing, confidence intervals, statistical modeling, and regression.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 632. Management Science Models for Decision Making. 2 Credit Hours.
This course aims to familiarize the student with Management Science tools for business systems analysis and improvement. The coverage includes linear and integer programming models, project management, simulation, queuing, and decision analysis. Some widely used software are illustrated through examples and case studies derived from business applications.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAS 633. Introduction to Quality Management. 2 Credit Hours.
Introduction to the major elements of Dr. Deming's theory of management, including Dr. Deming’s System of Profound Knowledge and Fourteen Points for Management. Additionally, participants are introduced to 'Six Sigma' tools and methods. These tools and methods have been adopted with great success by many of the largest organizations in the world, for example, General Electric, Allied Signal, Dupont, American Express, and J.P. Morgan. Additionally, the course is a prerequisite for the 'Six Sigma' Green Belt certification examination.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 634. Administrative Systems for Quality Management. 2 Credit Hours.
This course presents a model to pursue quality management (QM). It features administrative systems and structures necessary for Quality Management. The administrative systems and structures presented in this course are required to sit for the Six Sigma Management 'Green Belt' certification examination.
Prerequisite: MAS 633.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 635. Design of Experiments. 2 Credit Hours.
This course presents tools and methodology useful in conducting experiments that provide valid answers to questions of interest to the experimenter. The course discusses an overall approach to obtaining and analyzing experimental data, the advantages of using structured multi factor experiments to screen for important factors, ways of minimizing the amount of data points needed to obtain desired information, and how to identify values of experimental factors that optimize the value of measured responses. Factorial designs, fractional factorial designs, screening designs, and response surface designs are presented. Emphasis is placed on the knowledge required for proper application of these methods through many examples in business and quality management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 636. Dashboard Tools for Visual Analytics. 2 Credit Hours.
This course teaches modern analytic tools for visual analytics and dashboarding to monitor and improve business processes. Students will learn to identify and communicate key performance measures visually and in an interactive manner accessible to everyday business stakeholders.
Prerequisite: MAS 631.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 637. Applied Regression Analysis I. 2 Credit Hours.
This course aims to familiarize the student with statistical prediction. It covers simple and multiple regression methods as well as time series and forecasting models in business. Instead of theoretical development, the course emphasize s the application of these methods in business systems analysis and improvement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 638. Business Analytics Consulting. 2 Credit Hours.
The purpose of this course is to enhance students' consulting skills in management science. In addition to skills of modeling and choosing appropriate tools for analysis, these include the communication skills of presenting quantitative and analytical material in business settings. The course is structured around a set of case studies that are based on real applications of management science models and methods discussed in MAS 631 and MAS 632.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 639. Data Acquisition, Preparation, and Visualization. 2 Credit Hours.
This course teaches using statistical computing software to get a better understanding of what problems can occur (and what solutions exist) when dealing with a variety of data types and sources. It will also discuss how to address data visualization and how to leverage current methods and software to best communicate with results and decision with stakeholders.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MAS 640. Applied Time Series Analysis and Forecasting. 2 Credit Hours.
Time series data occur when a single experimental unit or process is observed repeatedly over time. Data of this type are common in finance and economics. Statistical methods that assume independence are inappropriate for time series data. This course will provide the students with the basic theory and tools for the statistical analysis and interpretation of time series data. Broadly, the methods may be categorized into time-domain and frequency-domain methods. Time-domain methods develop explicit models for the evolution of a process over time. Frequency-domain methods equivalently model the correlation structure of the time series. Other topics include methods for model-based estimation, model selection, diagnostics, forecasting, and computing as they relate to time series analysis.
Prerequisites: MAS 637 or MAS 601.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 641. Operations Research Models in Management. 3 Credit Hours.
The application of Operations Research techniques in Management. Topics include linear programming, PERT/CPM, queuing theory, forecasting, inventory models, statistical quality control, decision theory, and Simulation.
Prerequisites: MAS 631 and MAS 632, and MAS 637, and MAS 639.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAS 642. Supply Chain Analytics. 2-3 Credit Hours.
This course studies key decision areas in supply chain design and operation. Students will learn what data are needed and how to use data to measure supply chain performance. They will also learn to apply various tools and methods to analyze trends, extract knowledge and business intelligence, and make decisions. Through the analysis and discussion of case studies, they will get useful insights on how to optimize the value of supply chain processes and operations, to streamline the goals and to design flexible supply chains.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAS 646. Applied Regression Analysis II. 2 Credit Hours.
This is a second course in regression modeling, extending the concept of linear regression for use with non-normal data such as binary, count, or time-to-event data. We will discuss estimation, inference, and model diagnostics with an emphasis on using statistical software to fit models and interpret the results. Topics covered include logistic regression for binary data, various extensions of logistic regression to multinomial data, Poisson regression for count data, and proportional hazards regression for time-to-event or survival data.
Prerequisite: MAS 601. Or MAS 637. With a Grade B or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 647. Computer Simulation Systems. 3 Credit Hours.
Introduction to discrete-event computer simulation and hands-on development of simulation models. Topics include introduction to queuing theory, input and output analysis, random number generation, and variance reduction techniques. Students practice their modeling skills using commercial state-of-the-art simulation software. Assigned readings of real-life simulation projects complement the material learned in the classroom. Lecture, 3 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAS 648. Machine Learning for Data Analytics I. 2 Credit Hours.
Data Mining encompasses finding meaningful and useful trends in data. The meaningful part depends on the application and even the specific data set you are using. Another definition that can be used is that data mining is the application of statistical machine learning techniques to find these trends. Our focus in this course will be on the development and use of traditional and cutting edge data mining/machine learning techniques and their applications across a spectrum of data sets. The topics we will cover are in supervised learning (regression, classification), unsupervised learning (clustering, principal components analysis, factor analysis, etc), and if time permits semi-supervised learning and recommendation systems.
Prerequisite: MAS 601. Or MAS 637. With a Grade B or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 649. Big Data Analytics. 2 Credit Hours.
As firms have the ability to access and store large amounts of customer and business data, they are faced with the complexities associated with Big Data. Big Data refers to very large data sets that can be analyzed to reveal important patterns, trends, and associations, especially relating to customer behaviors and business processes. This class will discuss the changes that are needed when handling, visualizing, and/or analyzing Big Data to solve business critical questions.
Prerequisite: MAS 601. Or MAS 637. And MAS 639. with a Grade B or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 650. Business Analytics Internship. 1-4 Credit Hours.
Student is individually assigned to operating business firm or other organization to gain insight into management practice in area of career interest. Periodic reports and conferences are required. Permission of department chair is required prior to registration.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MAS 651. Machine Learning for Data Analytics II. 2 Credit Hours.
This course aims to introduce recent advanced analytical techniques developed from the Statistical, Data Mining and Machine Learning communities. These techniques have become widely used by Business Analysts and Data Scientists to address complex decision-making problems in numerous industries. This course is designed to provide students with a practical understanding of some of the most powerful Machine Learning methods used by today's Data Analysts. Specifically, students will become familiar with supervised and unsupervised learning and apply these techniques to the numerous data-driven applications in predictive analytics.
Prerequisite: MAS 648. with a Grade B or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 652. Business Analytics Capstone Project. 2-4 Credit Hours.
including data collection and analysis. The description of the problem in question, the approach used to address it, and the findings obtained by the group are to be described in formal written reports. The reports will be evaluated both on their quantitative value and on the quality of the writing.
Prerequisites: MAS 631 and MAS 632, and MAS 637, and MAS 639.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 663. Project Management and Modeling. 2 Credit Hours.
This course considers the various methods, techniques, and software tools of project management and modeling with special emphasis on real estate projects and development. Topics include: project selection and strategy, risk assessment, conflict and negotiation, budgets, costs, and resource allocation, monitoring and information systems, project control and auditing, and project closure. The course is designed to show the integration of the various roles of owners, developers, builders, architects, and engineers in the project management process.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAS 680. Spatial Statistics. 3 Credit Hours.
Spatial data commonly arise from many fields including business, ecological and health studies. Such data are often spatially correlated which poses challenges to both estimation and statistical inference. We will discuss advanced techniques to tackle the spatial correlation. Topics including variogram estimation, spatial prediction, spatial point pattern analysis, estimating function based methods, and others. Real data examples will be used to motivate and illustrate the use of these methods.
Prerequisite: ECO 520.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAS 681. Statistical Machine Learning. 3 Credit Hours.
This course introduces statistical aspects of machine learning algorithms. The focus is on characterizing the generalization ability of machine learning algorithms in order to quantify their performance on new data. It covers fundamental techniques in statistical theoretical analysis, their applications in supervised and unsupervised learning algorithms, and their applications in statistical and computational tradeoffs in non-convex optimizations.
Prerequisite: ECO 520. And ECO 620. Or MAS 601. with a Grade B or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAS 691. Topics in Business Analytics. 1-3 Credit Hours.
Topics in selected areas of specialization.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAS 692. Topics in Management Science. 1-3 Credit Hours.
Topics in selected areas of specialization.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAS 693. Directed Study in Business Analytics. 1-3 Credit Hours.
Investigation and research in special areas of interest. Offered by special arrangement.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 695. Directed Study in Operations Research. 1-3 Credit Hours.
Investigation and research in special areas of interest. Offered by special arrangement.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 696. Directed Study in Statistics. 1-3 Credit Hours.
Investigation and research in special areas of interest. Offered by special arrangement.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 699. Directed Study. 1-3 Credit Hours.
Offered by special arrangement.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAS 720. Research in Residence. 0 Credit Hours.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MAS 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
University of Miami Academic Bulletin

**MAS 725. Continuous Registration--Master's Study. 0 Credit Hours.**
To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.

**MAS 810. Master's Thesis. 1-6 Credit Hours.**
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
**Components:** LEC.
**Grading:** SUS.
**Typically Offered:** Offered by Announcement Only.

**MAS 830. Doctoral Dissertation. 1-12 Credit Hours.**
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MAS 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
**Components:** LEC.
**Grading:** SUS.
**Typically Offered:** Offered by Announcement Only.

**MAS 850. Research in Residence. 0 Credit Hours.**
Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
**Components:** LEC.
**Grading:** SUS.
**Typically Offered:** Offered by Announcement Only.

**Marine Geology and Geophysics (MGG)**

**MGG 686. Special Topics. 1-4 Credit Hours.**
Lectures, research projects or directed readings in special topics related to Marine Geology and Geophysics.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.

**Marine Science (MSC)**

**MSC 101. Survey of Oceanography. 3 Credit Hours.**
Introduction to the oceans and their significance to mankind, encompassing geological, physical, chemical, and biological processes; man's role in and on the sea, including fisheries, pollution, and ocean management. Not for major or minor.
**NOT FOR ANY MSC STUDENT MAJOR OR MINOR.**
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall, Spring, & Summer.

**MSC 102. Introduction to Weather and Climate. 3 Credit Hours.**
The structure, physics, dynamics and thermodynamics of the atmosphere. Weather, weather forecasting, climate and climate change. Not for major or minor.
**NOT FOR ANY MSC STUDENT MAJOR OR MINOR.**
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Spring.

**MSC 103. Survey of Modern Meteorology. 3 Credit Hours.**
Dynamics and thermodynamics of the atmosphere as they relate to contemporary issues in meteorology. Overview of numerical weather prediction techniques and new technologies for monitoring weather and climate. Open to majors or minors with permission of instructor.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

**MSC 104. Molecules of Life. 3 Credit Hours.**
Molecules of Life explores the modern science of biological molecules, which occurs at the intersection of chemistry, biology, and medicine. We examine the major molecular components of the cell—proteins, nucleic acids, lipids, etc.—and illustrate the role of chemical principles in understanding their structure and function. Not for major or minor.
**NOT FOR ANY MSC STUDENT MAJOR OR MINOR.**
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Spring.

**MSC 105. Shark Behavioral Ecology & Conservation Semester. 3 Credit Hours.**
SUMMER SCHOLARS PROGRAM ONLY. In this course, students will learn core concepts in shark behavioral ecology and key aspects of shark biology needed for the holistic understanding and study of shark behavioral ecology and conservation. NOT FOR MAJOR OR MINOR.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Summer.

**MSC 106. Marine Mammal Biology and Conservation. 3 Credit Hours.**
SUMMER SCHOLARS PROGRAM ONLY. The purpose of this class is to provide an introductory overview of basic biological concepts relevant to marine mammal taxonomy, physiology, natural history, behavior, and threats/conservation. This class will be dynamic, involving lectures, discussions, review of primary literature, career guidance, guest lectures, videos/movies, and field trips. NOT FOR MAJOR OR MINOR.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Summer.

**MSC 107. Life in the Sea. 3 Credit Hours.**
Lectures provide an introduction to the plants and animals of the sea, including plankton, nekton and the benthos, with anthropogenic impacts. Not for major or minors.
**NOT FOR ANY MSC STUDENT MAJOR OR MINOR.**
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.
MSC 108. Environmental Oceanography. 3 Credit Hours.
This course will focus on environmental issues facing the oceans today, including global climate destabilization, the impact of population growth on coastal environments, marine pollution, and the state of marine fisheries. An active learning approach will be adopted, with emphasis on case studies and critical analysis. Marine environmental issues will be presented in self-contained analytical exercises. Basic math needed to quantify environmental issues will be introduced. Information and questions on sustainability will be integrated throughout the course and students will be asked to think critically about these pressing concerns. Not for major or minor.
NOT FOR ANY MSC STUDENT MAJOR OR MINOR.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 111. Introduction to Marine Science. 3 Credit Hours.
Geological, physical, chemical and biological processes of the world's oceans. The role of the oceans in global dynamics and man's role in and on the sea, including fisheries, pollution and ocean management. Enrollment limited to Marine Science/Marine Affairs majors and minors. Lecture and discussion, 3 hours. Field trips. Requisite: Marine Science Major or Minor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 112. Introduction to Marine Science Lab. 1 Credit Hour.
Laboratory and field exercises to accompany Marine Science. Pre/Corequisite: MSC 111. And Marine Science Major or Minor.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 115. Tropical Marine Biology. 3 Credit Hours.
A field and lecture study of selected marine environments around South Florida, with emphasis on the interaction between organisms and the geological, physical, and chemical environment. Summer Scholars Program Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

MSC 121. Ocean Currents. 3 Credit Hours.
Ocean Currents will be a comprehensive, multi-disciplinary course on the history, geography, socio-economics, and physics of ocean currents. The importance of ocean currents to socioeconomic, weather, climate, transport of fish larvae and pollutants, distribution of plankton and fish, military operations, and shipping will be illustrated using many examples. The history of ocean current observations, detailed maps of ocean circulation and its variability, and the evolution of instruments, and theories from ancient to modern times will be detailed. The discovery and the most important observations of the major ocean currents will be discussed. There will be also lectures on modern ocean circulation theory. NON-MSC MAJORS ONLY
For non-MSC majors.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 172. Special Topics in Marine Science. 2-6 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 180. Seminar in Marine Science. 1 Credit Hour.
Seminar in current research as conducted by Marine Science faculty and graduate students. This course is intended as an introduction for first year students to contemporary research topics. Prerequisite: MSC 111.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 190. Studies in Marine Science. 1-5 Credit Hours.
For transfer courses taken at other institutions that have no direct equivalents at UM
Components: LEC.
Grading: GRD.

MSC 191. Studies in Marine Policy. 1-5 Credit Hours.
For transfer courses taken at other institutions that have no direct equivalents at UM.
Components: LEC.
Grading: GRD.

MSC 203. Foundations of Computational Marine Science. 4 Credit Hours.
The course provides a basic introduction to Computational Marine Science. The course will use Python as a programming language and will illustrate its use in problem solving and exploratory data analysis in the Marine Sciences. Programming topics covered include the language syntax and construct, variables, flow control, functions, software design and object-oriented programming.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 204. Environmental Statistics. 3 Credit Hours.
This introductory course provides an overview of parametric and nonparametric statistics with an emphasis on applications in the analysis of environmental data. (Not open to students with credit in BIL311 or equivalent).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 205. Mathematical Methods for Marine Science. 3 Credit Hours.
This course is meant to provide students with the mathematical tools required to pursue advanced topics in Marine Science. Not available for credit for students with major or minor in Mathematics. Prerequisite: MTH 162 Or MTH 172 And MSC 111.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 215. Chemical Oceanography. 3 Credit Hours.
An introduction to the chemistry of the oceans. Descriptive chemical oceanography of the components of ocean waters (metals, gases, organic compounds and nutrients). Biogeochemical cycles in oceanic systems. Prerequisite: MSC 111 and (CHM 112 or CHM 121).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MSC 215. Chemical Oceanography Laboratory. 1 Credit Hour.
Chemical and physical methods in chemical oceanography. Analytical and instrumental techniques used to determine density, salinity, chlorinity, dissolved oxygen, nutrients and components of the carbonate system.
Pre/Corequisite: MSC 215.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 217. Physical and Chemical Processes in Coastal Ecosystems. 3 Credit Hours.
This course is primarily intended for students enrolled in the Marine Affairs program to serve as an introduction to the role of physical and chemical processes in estuarine and coastal ecosystems in the context of the management of estuarine and coastal waters. Students will provide reviews of case studies in preparation for future management decisions that will require knowledge of coastal physical and chemical processes. Prerequisites: MSC 111 AND MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 218. Biological Oceanography. 3 Credit Hours.
This course will examine energy flow in marine ecosystems, the biogeochemical cycles that control them, the wide variety of types of communities and ecosystems in different parts of the ocean, and the changes they have undergone over geological timescales.
Prerequisite: MSC 111.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 220. Climate and Global Change. 3 Credit Hours.
The Earth's climate system and the role of natural and anthropogenic processes in shaping climate change.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 222. The Earth's Climate: Past and Future. 3 Credit Hours.
This course will provide undergraduate students majoring in geological sciences, as well as enthusiastic non-majors, with the foundation to better understand climate change on geological to human timescales. The natural processes that control the earth's climate will be discussed, with special attention to the climate of the Holocene, and the potential influence climate may have played on human civilizations. Finally, the expected climate shifts and feedbacks will be discussed based on the outcome of climate models for the next century.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 230. Introduction to Marine Biology. 3 Credit Hours.
Prerequisite: (BIL 150 or BIL 160) and (CHM 111 or CHM 121).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 232. Introduction to Marine Biology Laboratory. 1 Credit Hour.
Ecology, physiology, and behavior of marine organisms in south Florida marine habitats.
Pre/Corequisite: MSC 230. or BIL 230. and Prerequisite: BIL 151 or BIL 161.
Components: LAB.
Grading: GRD.

MSC 240. Introduction to Marine Geology. 3 Credit Hours.
The principal marine geological environments of the world, their substrate, their sediments, their flora and fauna, and their evolution through time.
Prerequisite: GSC 110 Or GSC 111 Or permission of instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 300. Water Resources: History, Management, and Policy. 3 Credit Hours.
An overview of the issues and problems surrounding the management of aquatic resources in the broadest sense including water quality of natural waters, drinking water, water pollution, water quantity and supply issues, watershed management, wetland protection, and coastal management. We will explore the available strategies to wisely manage the various aquatic resources, policy options and their socio-economic aspects, legal frameworks, and institutional arrangements.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 301. Introduction to Physical Oceanography. 3 Credit Hours.
Application of the laws of physics to the study of the properties and circulation of the world's oceans and atmosphere.
Prerequisite: MSC 111. And MTH 162. Or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 302. Introduction to Physical Oceanography Lab. 1 Credit Hour.
Laboratory exercises and field work on basic fluid mechanics applicable to the ocean. These include buoyant convection and double diffusion, methods for measuring flows, gravity wave experiments in the lab and field, diffusion studies and rotating tank investigations as an analog for planetary flows.
Prerequisite: MSC 301 or ATM 405. Or Co-requisite: MSC 301 or ATM 405.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MSC 310. Living Resources of the Ocean. 3 Credit Hours.
Marine fish and shellfish of major commercial and recreational value: biology, techniques of harvesting, and resource management.
Prerequisite: MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 313. Coastal Law. 3 Credit Hours.
Basic doctrines and public policy related to the use and regulation of the United States coastal zone and seabed.
Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MSC 314. Ocean Law. 3 Credit Hours.
The principles of international ocean law regarding ocean management; ocean delimitation and issues of environmental ocean regulation within international legal framework.
Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 316. Global Primary Production. 3 Credit Hours.
Photosynthesis supports the vast majority of life on planet earth. This course reviews the magnitude and the processes that shape primary production in terrestrial, oceanic, and freshwater habitats. It includes the fate of primary production in the earth's biomes, and the role of terrestrial and aquatic productivity in regulating, and responding to, variable climate.
Prerequisite: BIL 160.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 317. Earth's Biogeochemistry. 3 Credit Hours.
Outstanding features of planet Earth, including its vast oceans, climate and atmosphere, are strongly impacted by life. Scientists investigate these impacts, such as ocean acidification, variable atmospheric CO2 concentrations, coastal anoxia, and permafrost melting, through their biogeochemical dynamics. The first part of the course covers the relevant microbial and chemical reactions that occur in the atmosphere, on land, in freshwaters and in the oceans. The second part links this mechanistic understanding to a large-scale, synthetic view of global biogeochemical cycles. These are considered in the context of global change.
Prerequisite: CHM 112 or CHM 121.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 318. Ecological Genetics. 3 Credit Hours.
This course will provide a thorough understanding of genetics (allele frequencies, heritability, recombination, QTL, the effect of migration and demography). Pre-requisites: BIL150/151 AND BIL160/161
Prerequisite: BIL 150 and BIL 160 and BIL 151 or BIL 152 or BIL 153 and BIL 161 or BIL 162.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 319. Research Fundamentals. 1 Credit Hour.
Research Fundamentals will provide an introduction to academic research methods including basic laboratory techniques, data analysis, and scientific communication. Students will read the primary literature and both analyze data and communicate results using multiple formats. The course emphasizes active learning (discussions, working with peers, writing, etc.) and is directed toward early stage undergraduate students interested in pursuing research.
Prerequisite: MSC 204 Or MTH 224.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 321. Scientific Programming in the Atmospheric Sciences. 3 Credit Hours.
An introduction to scientific programming in a linux environment using the FORTRAN 90/95 language with specific applications to Meteorology.
Prerequisite: CSC 120.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 323. Invertebrate Zoology. 4 Credit Hours.
Biology of invertebrates, with emphasis on tropical and subtropical marine forms. Field work and combined lecture-laboratory sessions.
Prerequisite: MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 324. Biology of Fishes. 3 Credit Hours.
Selected topics on the ecology and physiology of fishes. Lectures on reproduction, respiration, osmoregulation, sense systems, hormonal control.
Prerequisite: MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 325. Biological Oceanographic Techniques. 3 Credit Hours.
Field sampling for plankton biomass and productivity; benthic biomass, and of selected physical parameters. Applications of molecular techniques and remote sensing to oceanographic problems.
Prerequisite: MSC 230.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 326. Marine Genomics. 4 Credit Hours.
This course integrates lectures, discussions and research on genomics to understand the demography and evolutionary processes affecting populations. This research intensive course uses genomic data to better understand the health of species and ecological communities. This course is part of Saltwater Semester so that students can be actively involved in intensive research. As part of the Saltwater Semester, students are required to enroll in four of the 4-credit Saltwater Semester courses (16 credits) where each course meets for 3 weeks at the Marine campus.
Prerequisite: BIL 150 and BIL 160 And MSC 230 Or BIL 230 And Corequisite: MSC 463 and MSC 466 and MSC 467.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 328. Introduction to Aquaculture. 3 Credit Hours.
This course will provide an introduction to the field of aquaculture, which represents one of the fastest growing industries in food production in the world and is a field that offers exciting job opportunities in science, business, marketing, resource management, and socioeconomics. This course will provide students with a sound background in aquaculture prior to engaging in higher-level courses in this field.
Prerequisites: MSC 111 and MSC 230 or Co-requisite: MSC 230.
Components: LEC.
Grading: GRD.
MSC 329. Marine Vertebrate Zoology. 3 Credit Hours.
The course will be a comprehensive examination of the form and function of the vertebrate lineage of marine animals from early chordates to the evolution of cartilaginous and bony fish and the emergence of tetrapods, those that evolved from marine ancestors and have since returned to the seas. A comparative point of view will be used to assess the anatomy and physiology of each taxonomic group as well as behavioral and ecological adaptations related to their life history. Specifically, the course will cover the emergence of the vertebrate body plan and the evolution of fish from agnathans through modern teleosts, as well as the tetrapod lineage of marine reptiles, marine birds, and marine mammals. We will examine critical points in vertebrate evolution where genome-wide duplication events occurred as well as instances of convergent evolution in various lineages.
Prerequisite: MSC 230.
Components: LEC.
Grading: GRD.

MSC 333. Ocean Human Health. 3 Credit Hours.
The focus of this course is on the present, future, and potential effects of oceanic processes and marine organisms on human health and wellbeing and on human impacts on the marine environment.
Prerequisite: MSC 230 or BIL 230.
Components: LEC.
Grading: GRD.

MSC 334. Decision Making and the Environment. 3 Credit Hours.
A basic, critical appreciation of interdisciplinary decision theory as applied to natural resources management. Specific goals include comprehension of: decision making under uncertainty, evolutionary social science, managing common pool resources, and behavioral economics.
Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 335. Economics of Natural Resources and the Environment. 3 Credit Hours.
A comprehensive overview of the economics of national, international, and global environmental problems. A unifying theme throughout is sustainable development defined as ‘maximizing the net benefits of economic development while maintaining the services and quality of natural resources over time’. We will use economic reasoning to examine causes and consequences of environmental and resource problems, and measures for dealing with them.
Prerequisite: ECO 211.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 340. Ocean Policy. 3 Credit Hours.
Analysis of ocean policy issues in US fisheries, marine conservation and marine protected areas, marine pollution, coastal management and regulation of offshore oil and gas activities.
Prerequisite: MSC 111 and MSC 313 or MSC 314 and Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 341. Sunken Ships and Submerged Sites: An Introduction to Underwater Archaeology. 3 Credit Hours.
The course serves to provide an overview of underwater archaeology, covering general concepts, methods, field techniques, time periods and their associated unique sites and discoveries, as well as an introduction to professional application in preservation, management, and how popular media plays a role in public education and outreach. Note: There is no SCUBA diving component to this class.
Requisite: MSC 111 AND Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 342. Climate Science and Policy. 3 Credit Hours.
The scientific evidence for, and the projected consequences of, climate change. The political and geo-engineering responses to the problem.
Prerequisite: MSC 111. Or ATM 103. Or ECS 111. And Requisite: Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 343. Survey of Marine Mammals. 3 Credit Hours.
The biology, physiology, natural history, behavior, and conservation of marine mammals.
Prerequisite: MSC 230 or BIL 230.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 344. Polar Science and Policy. 3 Credit Hours.
The course will address the physical, chemical, and biological properties of the polar oceans, atmosphere, and coastal regions. The interactions between ocean, ice, atmosphere, and land will be discussed in detail, not only in terms of local relationships, with cross-disciplinary linkages, but also with emphasis on the influence the Polar Regions exert on the global climate, biogeochemical cycles, ecosystems and local human populations.
Prerequisite: MSC 111 and MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 345. Ocean Human Health. 3 Credit Hours.
The focus of this course is on the present, future, and potential effects of oceanic processes and marine organisms on human health and wellbeing and on human impacts on the marine environment.
Prerequisite: MSC 230 or BIL 230.
Components: LEC.
Grading: GRD.

MSC 346. Survey of Marine Mammals. 3 Credit Hours.
The biology, physiology, natural history, behavior, and conservation of marine mammals.
Prerequisite: MSC 230 or BIL 230.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 347. Climate Science and Policy. 3 Credit Hours.
The scientific evidence for, and the projected consequences of, climate change. The political and geo-engineering responses to the problem.
Prerequisite: MSC 111. Or ATM 103. Or ECS 111. And Requisite: Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 348. Polar Science and Policy. 3 Credit Hours.
The course will address the physical, chemical, and biological properties of the polar oceans, atmosphere, and coastal regions. The interactions between ocean, ice, atmosphere, and land will be discussed in detail, not only in terms of local relationships, with cross-disciplinary linkages, but also with emphasis on the influence the Polar Regions exert on the global climate, biogeochemical cycles, ecosystems and local human populations.
Prerequisite: MSC 111 and MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 349. Ocean Human Health. 3 Credit Hours.
The focus of this course is on the present, future, and potential effects of oceanic processes and marine organisms on human health and wellbeing and on human impacts on the marine environment.
Prerequisite: MSC 230 or BIL 230.
Components: LEC.
Grading: GRD.

MSC 350. Marine Vertebrate Zoology. 3 Credit Hours.
The course will be a comprehensive examination of the form and function of the vertebrate lineage of marine animals from early chordates to the evolution of cartilaginous and bony fish and the emergence of tetrapods, those that evolved from marine ancestors and have since returned to the seas. A comparative point of view will be used to assess the anatomy and physiology of each taxonomic group as well as behavioral and ecological adaptations related to their life history. Specifically, the course will cover the emergence of the vertebrate body plan and the evolution of fish from agnathans through modern teleosts, as well as the tetrapod lineage of marine reptiles, marine birds, and marine mammals. We will examine critical points in vertebrate evolution where genome-wide duplication events occurred as well as instances of convergent evolution in various lineages.
Prerequisite: MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 351. Climate, Oceanography, and Biogeography of the Galapagos. 3 Credit Hours.
This course and its companion describe the climate, oceanography of the Galapagos Islands, and explore the ways the physical environment has influenced biodiversity on the islands. This field intensive course sequence is part of the Galapagos semester abroad program.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MSC 352. Biophysical Dynamics in the Ocean: Biogeography and Evolution of the Galapagos. 3 Credit Hours.
Course expands aspects of bio-physical description of the Galapagos in comparison with other systems. Emphasis on identification of flow regimes in various settings based on winds and buoyancy forcing and characterization of the resulting biological niches. Analysis focuses on scales and components of the resulting biogeography. Biological aspects covered include bioenergetics and reproduction in relation to their role in evolution. This field intensive course sequence is part of the Galapagos semester abroad program.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 355. Limnology. 3 Credit Hours.
This course is an introduction to the physical, chemical, and biological properties of freshwater ecosystems. It is intended as an upper level course for juniors and seniors. It emphasizes the ecological process of lakes, rivers, and to less extent, streams. The role of watershed processes is considered in the context of management of rivers and estuaries. Case studies integrate the scientific understanding of freshwater ecosystem function with management decisions. Applied aspects of freshwater systems are included. Prerequisite: MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 364. Life in Moving Fluids. 3 Credit Hours.
The physical characteristics of air and water are described in relation to various flow phenomena that play a part in life functions. Adaptations of form and function reflect the very different properties of the media (air and water) of terrestrial and aquatic life. Energy conversion and transfer limit form and function and enable a wide variety of survival strategies. Prerequisite: MSC 230 Or BIL 360.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 365. Tropical Coastal Ecosystems: Lab and Field Methods. 1 Credit Hour.
This course will provide students with the theory and application of field sampling methods used to document status and trends in the health of coral reef, seagrass, and mangrove ecosystems. Students will learn about sampling theory, sampling methods, sampling equipment, and species identifications using a combination of classroom and field activities. This 1-credit course is designed as a companion to MSC 366 where theory detailed in this class is put to practice to design and execute a targeted, small-scale sampling program for the coastal ecosystems found in South Florida. Lectures will be complemented with field activities to be carried out at sites around Key Biscayne and at the UM Broad Key station. Pre/Corequisite: MSC 366.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSC 366. Tropical Coastal Ecosystems. 3 Credit Hours.
This course will provide a comprehensive background on the ecology, conservation, and restoration of the three main tropical coastal ecosystems: Mangroves, Seagrasses, and Coral Reefs. The first part of the course will consist of a review of ecological theory, followed by lectures on the dynamics of the three ecosystems, including diversity, community structure, stress ecology, management tools, and novel restoration paradigms. Classes will be complemented by student presentations, in-class activities, and media-outreach projects. Readings for this class will include a required textbook and papers from the primary literature. Grades will be based on exams, quizzes, in-class projects, and student presentations. Prerequisite: MSC 230 or BIL 230.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 370. Current Research in Marine Biology: Seminars and Discussion. 2 Credit Hours.
These discussions and seminars comprising a 2 cr course provide well-prepared undergraduate students interested in marine research with an introduction to graduate student-presented science in the specialization of marine biology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 371. Readings in Marine Science. 1-3 Credit Hours.
Library research with faculty supervision. Bibliography to be submitted in preparation for laboratory and/or field research project. (No more than 6 credits in total from MSC371, MSC411, and MSC412 can be counted towards the MSC major or minor requirements.) Permission of Instructor.
Components: DIS.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSC 372. Special Topics in Marine Science. 1-6 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSC 373. Writing the GRFP and Graduate School Applications. 1 Credit Hour.
Writing the GRFP (graduate research fellow proposal) and Graduate School Applications is a practical course for undergraduate students interested in applying to graduate school next year or in the future. We will review NSF guidelines for the GRFP and both discuss and implement the steps for this proposal and graduate school applications. Basic tips on writing will be covered. Students will write a two page research statement and three page personal statement for the GRFP and then will modify these statements to use in graduate school applications. Students will be involved in reading and providing constructive criticisms to their fellow classmates. (No more than 3 credits in total from MSC370-level courses can be counted towards the MSC major or minor requirements). Prerequisite: Junior or Senior Standing.
Components: DIS.
Grading: SUS.
Typically Offered: Fall.
MSC 380. Field Studies in Marine and Aquatic Science. 1-4 Credit Hours.
Field course to selected marine, estuarine and/or aquatic sites in the United States and abroad. Travel fee may be required.
Components: LEC.
Typically Offered: Offered by Announcement Only.
Grading: GRD.

MSC 381. Marine Field Ornithology. 1-4 Credit Hours.
Waterbirds such as seabirds, shorebirds, and wading birds are key components of the marine ecosystem, including pelagic, coastal, and estuarine communities. As ecological indicators waterbird abundance provides a proxy for the health of these environments. Waterbirds have also served as important model systems for studies of behavior, evolutionary biology, and ecological theory. This course will provide an introduction to waterbird biology and conservation, including a variety of different field trips to waterbird communities.
Components: LEC.
Typically Offered: Offered by Announcement Only.
Grading: GRD.

MSC 390. Advanced Studies in Marine Science. 1-5 Credit Hours.
For transfer courses taken at other institutions that have no direct equivalents at UM.
Components: LEC.
Grading: GRD.

MSC 391. Advanced Studies in Marine Policy. 1-5 Credit Hours.
For transfer courses taken at other institutions that have no direct equivalents at UM.
Components: LEC.
Grading: GRD.

MSC 392. Field Studies in Marine Science. 1-5 Credit Hours.
For transfer courses taken at other institutions that have no direct equivalents at UM.
Components: LEC.
Grading: GRD.

MSC 393. Field Studies in Marine Policy. 1-5 Credit Hours.
For transfer courses taken at other institutions that have no direct equivalents at UM.
Components: LEC.
Grading: GRD.

MSC 394. Field Studies in Marine Science. 1-5 Credit Hours.
For transfer courses taken at other institutions that have no direct equivalents at UM.
Components: LEC.
Grading: GRD.

MSC 395. Field Studies in Marine Policy. 1-5 Credit Hours.
For transfer courses taken at other institutions that have no direct equivalents at UM.
Components: LEC.
Grading: GRD.

MSC 403. Marine Environmental Toxicology. 3 Credit Hours.
This course will provide an introduction to the principles of environmental toxicology with an emphasis on marine ecosystems, considering a variety of different classes of toxicants, how they can impact marine organisms, the scientific methods used to assess impacts, and the regulatory frameworks used to monitor and manage their release to the environment.
Prerequisite: BIL 255 and (CHM 112 or CHM 121).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 404. Marine Organismal and Environmental Health. 1 Credit Hour.
This 1-credit course will complement salt water semester courses. (Must have taken MSC403 or MSC333 and either MSC466 or MSC326 and MSC463). Students will be required to collect and analyze samples, interpret their findings and present them in a formal laboratory report due two weeks after the trip. Students will also be required to give a presentation they have prepared before the trip and attend two seminars on Marine Organismal and Environmental Health topics.
Pre/Corequisite: MSC 327 or MSC 333 or MSC 403 or MSC 466 or MSC 326 and MSC 463.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSC 405. Observational Oceanography. 3 Credit Hours.
This course provides an introduction to measurement systems and data analysis techniques that are commonly used by oceanographers. Sensors and data types to be discussed include shipboard observations (CTD [conductivity-temperature-depth], ADCP [acoustic Doppler current profiler] and others), moored instrumentation, gliders, submerged floats, surface drifters, and satellite measurements. The use of most types of instrumentation that are discussed will be demonstrated in a laboratory setting and/or at sea. (Several one-day instructional cruises on the R/V Walton Smith are anticipated during the semesters that this course is offered. Students enrolled in this course are expected to participate on one of those cruises.) Basic oceanographic data analysis is also discussed, including use of computational tools to access archived oceanographic data sets.
Prerequisite: MSC 204 and MSC 215 and MSC 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 406. Tropical Marine Ecology: Sampling, Monitoring, and Restoration Methods. 4 Credit Hours.
This course integrates lectures, discussions and authentic research on the ecology, conservation, and restoration of the three main tropical coastal ecosystems found in South Florida: Mangroves, Seagrasses, and Coral Reefs. This research intensive course focuses on the application of field sampling methods and integrate ecological theory to define the health and success of coastal ecosystems. This course is part of Saltwater Semester so that students can be actively involved in intensive research. As part of the Saltwater Semester, students are required to enroll in four of the 4-credit Saltwater Semester courses (16 credits) where each course meets for 3 weeks at the Marine campus.
Prerequisite: MSC 230 Or BIL 230 And MSC 232 And Corequisite: MSC 407 and MSC 408 and MSC 409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MSC 407. Molecular Ecology and Physiology of Reef Coral Symbioses. 4 Credit Hours.
Reef corals require an intracellular symbiont to succeed. This course integrates lectures and molecular genetic research to quantify this symbiotic relationship. Students will be involved in research to define and quantify coral-symbiont interactions and how these interactions influence coral physiology and success. This course is part of Saltwater Semester so that students can be actively involved in intensive research. As part of the Saltwater Semester, students are required to enroll in four of the 4-credit Saltwater Semester courses (16 credits) where each course meets for 3 weeks at the Marine campus. Prerequisite: MSC 230 Or BIL 230 And Corequisite: MSC 406 and MSC 408 and MSC 409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 408. Climate Change: Limits of Marine invertebrate Adaptability. 4 Credit Hours.
This course integrates lectures, discussions and authentic research on the effect of global climate change on the success of marine invertebrates. Students will be involved in research to understand how the predicted changes in the ocean environment (temperature, oxygen, and pH) affect the ability for marine organisms to acclimatize and adapt to these environments. This course is part of Saltwater Semester so that students can be actively involved in intensive research. As part of the Saltwater Semester, students are required to enroll in four of the 4-credit Saltwater Semester courses (16 credits) where each course meets for 3 weeks at the Marine campus. Prerequisite: MSC 230 Or BIL 230 And MSC 232 And BIL 255 And Corequisite: MSC 406 and MSC 407 and MSC 409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 409. Coral Immunology and Microbiology. 4 Credit Hours.
This course integrates lectures, discussions and authentic research on coral immunology and microbiology for students to learn about the coral immune response and the coral associated microbes affect coral success. This research-intensive course integrates coral microbiome analysis with immunology assays to generate data on coral wellbeing. This course is part of Saltwater Semester so that students can be actively involved in intensive research. As part of the Saltwater Semester, students are required to enroll in four of the 4-credit Saltwater Semester courses (16 credits) where each course meets for 3 weeks at the Marine campus. Prerequisite: MSC 230 Or BIL 230 And MSC 232 And BIL 255 And Corequisite: MSC 406 and MSC 407 and MSC 408.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 410. Marine Conservation Science. 3 Credit Hours.
Nature of marine biodiversity, what threatens it, and what can be done to recover the biological integrity of estuaries, coastal seas, and oceans. Topics include: distinctive aspects of marine populations and ecosystems; threats to marine biological diversity, singly and in combination; place-based management of marine ecosystems; and the human dimensions of marine conservation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 411. Research in Marine Science. 1-3 Credit Hours.
Individual, independent research projects with faculty supervision. A formal written report is required. (No more than 6 credits in total from MSC371, MSC411, and MSC412 can be counted towards the MSC major or minor requirements.)
Requisite: Junior or Senior Standing.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MSC 412. Undergraduate Thesis in Marine Science. 1 Credit Hour.
Students will write a formal thesis summarizing the results of independent research carried out under faculty supervision.
MSC 411 AND Senior Standing.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSC 415. Coral Reef Science and Management. 3 Credit Hours.
The interdisciplinary nature of coral reef science and management: biological, environmental, ecological and socioeconomic aspects of coral reef science, coral reef management problems and approaches at local to global scales, and the implications of climate change for coral reef science and management.
Prerequisite: MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 417. Marine Biota and Biogeochemical Cycles. 3 Credit Hours.
The distribution of dissolved particulate materials in the sea is not uniform in time or space. Variability in these reflects the diverse biological sources, transformations, and sinks of chemical constituents in the sea. This course focuses on the role of marine organisms in the marine biogeochemical cycling, with particular emphasis on the marine carbon and the nutrients. We visualize and query the ocean system using publicly available global ocean data sets and the application Ocean Data View. The material is presented as a capstone bringing together the physical, chemical and biological dynamics of the ocean as a single system.
Prerequisite: MSC 215.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 418. Climate Law. 3 Credit Hours.
Climate Law evaluates the interactions between climate and the law, with an emphasis on existing laws and the gaps in current legislation related to the climate environment. The course will analyze court cases, domestic and foreign laws, treaties, and international conventions. In addition, the course will examine how climate manipulation requires an international model for the future.
Prerequisite: ATM 220 or MSC 220 and Junior Standing.
Components: LEC.
Grading: GRD.
MSC 419. Microbial Geochemistry of the Ocean. 3 Credit Hours.
An overview of how microbes respond to and modify the chemistry of the ocean, focusing on the geochemical consequences and signatures of microbial activity in the ocean. Microbes form the base of the food chain and are responsible for essential chemical transformations that control important processes on Earth, including the production of atmospheric oxygen, and the consumption of carbon dioxide and transformation to organic carbon which fuels the rest of life in the ocean. This course will build a quantitative framework for understanding the chemical inputs and outputs of microbial metabolism, and the role these microbial processes play in controlling chemical fluxes in the ocean. This will address how biological origins, metabolic reworking, and physical phase influence the distribution and fluxes of organic matter in the marine carbon cycle on both short and long timescales.
Prerequisite: MSC 111 and MSC 215 and BIL 150 or BIL 160.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 420. Political Ecology of the Galapagos. 3 Credit Hours.
This field course in the Galapagos National Park offers a rare chance to examine the human interactions in this highly politcized landscape of conservation. Students practice the political ecology approach for doing ethnographic field work and explore how it can lead to wiser resource management. Part of UGalapagos semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 421. Terrestrial Biology and Adaptations of the Galapagos. 3 Credit Hours.
This course will examine the terrestrial plant and animal life of Isabela Island, discuss the biology and how it adapted to life on Isabela. Through field and laboratory exercises we will explore the power of organisms’ DNA in shaping life into unique forms like those famously present in today’s Galapagos. Part of UGalapagos semester.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 422. Marine Ecology of the Galapagos. 3 Credit Hours.
This course focuses on marine ecosystems of the Galapagos, emphasizing near-shore environments. Topics will include how the unique location and oceanography of the Galapagos have shaped the species composition of resident and migrant marine animals. The role of genetic drift, local habitat characteristics and natural selection on marine ecosystems will be examined. This is a field intensive course with time spent in intertidal, near-shore and off-shore island environments. Part of UGalapagos semester.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 423. Marine Conservation Biology and Fisheries of the Galapagos. 3 Credit Hours.
The Galápagos are located in a uniquely productive area of the sea, which has allowed the development of rich and unique marine biota. The first week of the course will carry the students through the dynamic, climatic, and oceanographic circumstances that determine the unique character of the Galapagos. The second week will cover scientific evaluation of the threats to the marine biodiversity of the Galapagos, focusing on sharks, penguins, sea turtles and other at-risk species and habitats. Part of UGalapagos semester.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSC 424. Origin and Geology of the Galapagos Islands. 3 Credit Hours.
This course will explore the origin and geology of volcanic oceanic islands, using the Galapagos Islands as a natural laboratory. Though all share a common origin in plate tectonic theory, each island presents a host of environments that originate in the processes of volcanic action, erosion and hydrology. Individual islands therefore develop distinctive ecosystems within which organisms interact and evolve. The emphasis of this course will be to lay out the underlying geological processes that have led to the formation of the islands and to their present state, and then to explore the ways the physical environment has influenced adaptation and biodiversity. Part of UGalapagos semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 425. Galapagos Community-Based Research and Service. 2 Credit Hours.
Individual, civic engagement activities identified in consultation with the people, national park and local government of Puerto Villamil, Isla Isabela, as part of the marine science semester program in the Galapagos Islands. Student research and service is faculty supervised and concluded by submission of a formal written report. This course may not be counted towards the MSC elective requirement for majors or minors.
Components: PRA.
Grading: CNC.
Typically Offered: Fall & Spring.

MSC 426. Research in Microbial Genomics. 4 Credit Hours.
This course integrates lecture and laboratory studies to focus on the structure, function, evolution, mapping and editing of microbial genomes belonging to the three domains of life; Archaea, Bacteria and Eukarya. Prerequisites: BIL 150 and BIL 151 and BIL 160 and BIL 250.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 427. Field experience in the Galapagos. 2 Credit Hours.
Three week Summer I field course explores the flora, fauna, geology, and society of the Galapagos Islands.
Prerequisite: MSC 111 or ECS 111 or Permission of Instructor.
Components: PRA.
Grading: GRD.
Typically Offered: Summer.
MSC 432. Comparative Ecology of Terrestrial and Marine Systems. 3 Credit Hours.
A comparison of various biotic and abiotic controls on terrestrial and marine ecosystems is undertaken. The course stresses proximate mechanisms and underlying evolutionary processes. Analysis methods and models of various ecosystems are compared and critiqued. Issues involved in sustainability and conservation of resources are discussed in relation to agriculture, fisheries and forestry. The importance of biodiversity and climate change in the future of ecosystems is stressed. Prerequisite: MTH 162. And BIL 330. Or ECS 232.
Components: LEC.
Grading: GRD.

MSC 460. Spatial Applications in Marine Science. 3 Credit Hours.
The concepts and marine applications of Geographic Information Systems. Every class period will entail short class lectures and hands on computer based GIS exercise on marine science related issues. Students will learn how to use ArcGIS Desktop or Arc Pro. Prerequisite: MSC 111 and MSC 112 and Requisite: Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSC 462. Marine Biomedicine. 3 Credit Hours.
The course will cover diverse bioactive molecules that are derived from marine sources ranging from sponges to sharks. The isolation and characterization of these compounds as well as their potential application in clinical medicine and human health will be reviewed. The class will also cover marine-derived factors used in biotechnology and marine animal models used in biomedical research with an emphasis on marine immunology. Prerequisite: BIL 255 and (CHM 112 or CHM 121).
Components: LEC.
Grading: GRD.

MSC 463. Conservation Genomics. 4 Credit Hours.
This course integrates lectures, discussions and research on genetics and genomics to understand population biology, conservation, and susceptibility of endangered species to extinction and the effect of invasive species on natural communities. This research intensive course sequences genomes and uses the data to better understand the health of species and ecological communities. This course is part of Saltwater Semester so that students can be actively involved in intensive research. As part of the Saltwater Semester, students are required to enroll in four of the 4-credit Saltwater Semester courses (16 credits) where each course meets for 3 weeks at the Marine campus. Prerequisite: BIL 150 and BIL 160 And MSC 230 Or BIL 230 And Corequisite: MSC 326 and MSC 463 and MSC 467.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 464. Marine Comparative Immunology Lab. 1 Credit Hour.
The laboratory course will cover immunology techniques used in the assessment of immune function and immune reactivity in diverse marine taxa from sponges to fish to mammals. Prerequisite or Co-requisite: MSC 465.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSC 465. Marine Comparative Immunology. 3 Credit Hours.
The course will cover immune function in diverse marine taxa from sponges to fish and the evolution of innate and adaptive immune mechanisms from a comparative point of view, with an emphasis on shark and fish immunology. Adaptations related to living in a microbe-rich marine environment will be highlighted. Potential applications of research findings will be addressed with respect to conservation and aquaculture. The role of invertebrate and vertebrate models in the study of the evolution of the immune system and applications for human health and medicine will be discussed. Prerequisite: BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSC 466. Experimental Physiology. 4 Credit Hours.
This is an intensive laboratory course. Topics will include homeostasis, interactions with the external environment, and life with limited oxygen and water. Lectures will be highly discussion-based; students will be expected to read primary research articles as suggested by the professor before lecture to foster participation in those discussions and form hypotheses about accompanying laboratory. Each lab will be written up as a formal laboratory report (i.e., Introduction, Materials and Methods, Results and Discussion). This course is part of Saltwater Semester so that students can be actively involved in intensive research. As part of the Saltwater Semester, students are required to enroll in four of the 4-credit Saltwater Semester courses (16 credits) where each course meets for 3 weeks at the Marine campus. Prerequisite: BIL 255 And Corequisite: MSC 326 and MSC 463 and MSC 467.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSC 467. Marine Animal Neurophysiology and Behavior. 4 Credit Hours.
This course integrates lectures, discussions and research on neural and endocrine systems in marine animal models, and how these systems work together to control elements of physiology, sensation and perception of the environment and behavior. This course is part of Saltwater Semester so that students can be actively involved in intensive research. As part of the Saltwater Semester, students are required to enroll in four of the 4-credit Saltwater Semester courses (16 credits) where each course meets for 3 weeks at the Marine campus. Prerequisite: BIL 230 Or MSC 230 And BIL 255 And Corequisite: MSC 326 and MSC 463 and MSC 466.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
Marketing (MKT)

MKT 101. Marketing in the 21st Century. 3 Credit Hours.
This is an introduction to the marketing function designed to provide students with an overview of marketing concepts, tools, and methods of analysis. Business Environment today is very competitive. As such, businesses are required to combine traditional marketing practices with new digital technologies to connect with the consumers and develop relationships with them. The course broadly covers the controllable strategic variables of marketing (product, price, place, and promotion) in the context of the uncontrollable environment in which marketing operates, accompanied by discussions of the ethical implications of marketing and the growing demographic diversity and globalization of the marketplace. In a modular format: three modules spread over a period of three weeks, the students will get introduced to the fundamentals of marketing and the exciting world of digital marketing and marketing analytics. Methods of instruction will include lecture, discussion, analytical problem solving, experiential (involvement) learning, and case analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

MKT 201. Foundations of Marketing. 3 Credit Hours.
Understanding and satisfying consumer needs through product planning, pricing, promotion, and distribution. Students identify and analyze marketing problems. Discovery and application of marketing skills are developed by marketing planning assignments, computer simulations, and case analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 301. Marketing Foundations. 3 Credit Hours.
Understanding and satisfying consumer needs through product planning, pricing, promotion, and distribution. Students identify and analyze marketing problems. Discovery and application of marketing skills are developed by marketing planning assignments, computer simulation, and case analysis.
Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MKT 302. Marketing Research and Market Analysis. 3 Credit Hours.
Examination of the process, role, and function of marketing research, including research problem formation, research methods and procedures, data acquisition, sampling theory and practice, data analysis, presentation of results, ethical issues, and application for each of the above.
Prerequisite: MKT 201 or MKT 301 and MAS 202 or MAS 312 and Requisite: Business School.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 310. Consumer Behavior and Marketing Strategy. 3 Credit Hours.
The study of behavioral science research findings, principles, and theories, especially those from psychology and sociology, as they relate to the determinants of consumer buying behavior. The case approach is utilized to stimulate the development of creative marketing strategy.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 311. Pricing. 3 Credit Hours.
Pricing decisions require a synthesis of economic and marketing principles, an appreciation of ethical constraints, and the ability to use accounting, financial, and market research data. This course is designed to teach students how to price goods and services by providing a framework for understanding pricing strategies and tactics. We will take an integrative approach, combining strategic, economic, marketing, and psychological considerations. Topics covered include economic value and break-even analysis, price elasticity, markup and profit margin, price bundling, among others.
Prerequisites: MKT 201 or MKT 301 and BUS 150 and ECO 211.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MKT 320. Retailing. 3 Credit Hours.
Retail store management, location, buying, merchandise control, policies, services, pricing, expenses, profits, training and supervision of retail sales force, and administrative problems are discussed.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MKT 340. Professional Selling. 3 Credit Hours.
Nature of the professional selling function and its relationship and contribution to the marketing strategy of organizations. Special emphasis is placed on broadly applicable principles and effective personal communication skills during the sales process.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MKT 350. Luxury Marketing. 3 Credit Hours.
The course will develop a framework for understanding the essential elements of effective marketing of luxury brands, a 1.36 Trillion dollars market worldwide in 2017 (Bain & Company). Through cases, business visits, and experiential projects the students will distinguish the unique nature of luxury, understand the opportunities and challenges confronted by luxury marketers and apply proven strategies. Students will also work on an actual project created exclusively for the class exposing them to internship opportunities in the luxury market sector.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MKT 360. International Marketing. 3 Credit Hours.
The major current factors affecting international marketing. Course is
designed to acquaint students with the growing importance of world
marketing in the U.S. and the strategic issues involved.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 361. Brand Content Management. 3 Credit Hours.
Brand Content Management (BCM) is the process any organization
can use to efficiently create, distribute and control brand-related
content. BCM has a lot of moving parts (content, channels, audience
segments and measurement tools), so the goal of this course is to
provide a comprehensive conceptual framework and familiarity with
implementation strategies that are critical to manage those factors and
achieve brand equity goals at scale and on time. BCM skills are also
crucial to anticipate and deal with brand fatigue and reputation crisis,
which are the most demanding cases of Brand Content Management.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MKT 365. Brand Story Telling. 3 Credit Hours.
This course explores the use of storytelling to build emotional
connections, demonstrates the value of real engagement through
immersive experiences and it illustrates how to create a compelling brand
storytelling program from both the brand and the agency perspectives. As
such, the course is uniquely positioned to train students to experience a
rounded view of their role either on the brand side as an entrepreneur or
working in a client’s marketing team.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MKT 370. Cases in Marketing Analytics. 3 Credit Hours.
Organizations today are faced with the challenge to make best use of
the data they have and collect from their marketing, sales and customer
interactions. Through cases and hands on exercises you will learn what
types of data firms collect and how to use this data to come up with data-
driven solutions to marketing problems such as the optimal number of
market segments, seeking out the most valuable customers, arriving at
the value maximizing price, formulating the optimal marketing mix and
how best to deploy digital marketing.
Prerequisites: MKT 201 or MKT 301 and MAS 202 or MAS 312.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MKT 371. Application of Artificial Intelligence in Marketing. 3 Credit Hours.
Artificial Intelligence (AI) represents a paradigm shift that is driving the
scientific progress as well as the modern business. Of special interest
to business is the fast transition of AI from a narrow research area in
limited number of academic labs to a key topic in the business world.
Today the adoption and successful use of AI capabilities has become a
requirement for company’s competitive advantage. One of the biggest
challenges in accomplishing this goal is the deficit of educated labor
force in this area. The class will fill this gap by clear explanations of the
main principles of the different AI approaches with less of a focus on
theoretical details, demonstrating their value creation potential with
appropriate use cases, and describing a methodology for developing and
deploying practical AI solutions in business settings. The list of selected
AI approaches includes: cognitive computing (rule-based systems and
IBM Watson), machine learning (neural networks and Support Vector
Machines - SVM), deep learning (key deep neural network structures
and image processing), decision trees (random forest), evolutionary
computation (genetic programming), and other technologies (intelligent
agents, chatbots, and Natural Language Processing – NLP).
Prerequisites: MKT 201 or MKT 301 and MAS 202 or MAS 312.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MKT 372. Text and Image Analysis for Marketing. 3 Credit Hours.
Marketing in the 21st century requires analysis of vast quantities of
unstructured text and image data. This data comes in the form of product
reviews on e-commerce platforms, tweets, Facebook and Instagram
posts, online news, voice activated devices such as Alexa and blogs.
This information source provides marketers a rich source of data to
understand their customers, design products and drive marketing
campaigns. However, this also requires the ability to analyze text and
image data and to support online analytics initiatives. It will enable you
to uncover underlying themes or concepts contained in large document
collections; automatically group documents into topical clusters; classify
documents into predefined categories; and integrate text data with
structured data to enrich predictive modeling endeavors and give you a
preliminary understanding of how to analyze image data.
Prerequisites: MKT 201 or MKT 301 and BTE 320.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MKT 380. New Product Development. 3 Credit Hours.
This course enables students to appreciate the systematic approach that
goes into the creation and marketing of new products. Practical aspects
of developing and marketing new products are inculcated through two
assignments and one class project.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
**MKT 385. Marketing for Entrepreneurs. 3 Credit Hours.**
This course is focused on the study and practice of marketing all aspects of an entrepreneurial venture: the new company itself as well as its products or services. Topics will include: branding, pricing and costing, buying behavior, market segmentation, channel management, as well as exploring issues such as intellectual property, customer service, corporate versus product web sites, media exposure and PR, and maintaining an integrated plan for building the venture’s brand.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**MKT 386. Advertising Management. 3 Credit Hours.**
In this course, students learn about the components involved in researching, planning, creating, and executing advertising strategies. The class gives students a better understanding of how advertising can be effectively used in a marketing strategy. Students also learn how advertising both influences and is influenced by cultural trends. Implications of this to both marketers and society as a whole are discussed.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**MKT 387. Digital Marketing. 3 Credit Hours.**
This course will introduce students to the principles of digital marketing from both perspectives of theory and practice. On the theory side, students will learn foundations and recent research and development of digital marketing. Main contemporary digital marketing issues will be extensively discussed in class, including search engine optimization, search engine marketing, online advertising, web analytics, email marketing, social media marketing, and reputation management.
Students will also learn how to form an appropriate strategy for a digital marketing campaign and use quantitative skills to analyze the effectiveness of such a campaign. On the practice side, students will collaborate in teams and participate in applied learning exercises. Students will grasp critical concepts of search engine optimization by working with a local business client, laying out a suitable pre-campaign strategy, implementing and modifying the campaign in real time, and summarizing the campaign results in a meaningful and concise manner when it is over.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**MKT 388. Health Care Marketing. 3 Credit Hours.**
This course is devoted to the study of healthcare marketing and the healthcare system involved with the task of marketing products and services. As healthcare reform continues to evolve current market conditions and transform existing organization into new practices, this course is focused on how managed care providers, hospitals, physicians, federal government, device and pharmaceutical companies will embrace the new patient centered market in their marketing strategies.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

**MKT 389. Fundamentals of Digital Marketing Analytics. 3 Credit Hours.**
This course introduces the student to the basics of evolving new media business metrics and corresponding forms of audience and competitive marketplace analysis. Students will research and evaluate business models for multiplatform new media products that use any combination of print, radio, television, internet, or mobile technologies. Product evaluations will be set within the context of comparative media economics, new media market dynamics, and advertising revenue projections. The goal will be to evaluate whether an existing or a current media product has the critical mass required for profitable advertiser metrics. Students will be exposed to developing new media usage patterns, cross platform media support strategies, new models of entertainment and news gathering, and corporate media acquisitions and mergers. Local media executives, and corporate media acquisitions and mergers. Local media executives, and entrepreneurs will be invited to class to review current trends and discuss strategies for success.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

**MKT 403. Marketing Management. 3 Credit Hours.**
Marketing Management is a capstone course that examines new concepts and insights regarding marketing management. Through case analysis the course covers important aspects of marketing management. The students also participate in a simulation in which they manage multi-segment markets.
Prerequisite: MKT 201 or MKT 301 and FIN 302 and MKT 302 or Corequisite: MKT 302 and Business School.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**MKT 469. International Marketing Management. 3 Credit Hours.**
International Marketing Management is a capstone course that examines new concepts and insights regarding international marketing management. Through case analysis the course covers important aspects of international marketing management. The students also participate in a simulation in which they manage multi-country markets.
Prerequisite: MKT 360 and MKT 302 or Corequisite: MKT 302.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

**MKT 496. Directed Studies in Marketing. 1-3 Credit Hours.**
Supervised readings, individual research project, or independent investigation of selected non-STEM related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Requisite: Business School.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**MKT 497. Directed Studies in Marketing. 1-3 Credit Hours.**
Supervised readings, individual research project or independent investigation of selected STEM-related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.
Requisite: Business School.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
MKT 498. Special Topics in Marketing. 3 Credit Hours.
Special topics in selected non-STEM areas of Marketing.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 499. Special Topics in Marketing. 3 Credit Hours.
Special topics in selected STEM areas of Marketing.
Prerequisite: MKT 201 or MKT 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 555. Marketing Departmental Honors Research Project. 3 Credit Hours.
Research project to fulfill requirements for Departmental Honors in Marketing.
Components: THI.
Grading: SUS.
Typically Offered: Spring.

MKT 639. Marketing Honors Research Project. 3 Credit Hours.
Research project to fulfill requirements for Departmental Honors in Marketing.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 640. Foundations of Marketing Management. 2 Credit Hours.
Course introduces students to the analytical concepts and tools of marketing management. Special emphasis is placed on the relationships between marketing and overall company strategy, the development of a customer orientation, the integration of marketing throughout the organization, and the implementation of systems for planning and controlling the marketing effort. Students consider problems of consumer analysis, product planning, integrated communication, distribution, and pricing. Data and analysis required to make effective marketing decisions are also examined. The discovery and application of marketing management skills are developed through the use of readings, case exercises, and class discussions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 641. Marketing Research. 2 Credit Hours.
The objective of the course is to allow students to understand functional analysis of consumer and market behaviors utilizing statistical tools. The course will cover topics of secondary sources of data, sampling, questionnaire design, and analysis and interpretation of data. Project and case analysis methods will be used for instruction.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MKT 642. Pricing and Value Management. 2 Credit Hours.
Pricing decisions require a synthesis of economic and marketing principles, an appreciation of legal and ethical constraints, and the ability to use accounting, financial, and market research data. This course is designed to teach students how to price goods and services by providing a framework for understanding pricing strategies and tactics. While pricing strategies are taught under the rubric of many diverse disciplines, we will take an integrative approach, combining strategic, economic, marketing, and psychological considerations. Topics covered include economic value and break-even analysis, price elasticity, markup and profit margin, price bundling, among others.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 643. Health Care Marketing. 2-3 Credit Hours.
This course is devoted to the study of health care marketing and the health care system involved with the task of marketing products and services. As health care reform continues to evolve current market conditions and transform existing organization into new practices, this course is focused on how managed care providers, hospitals, physicians, federal government, device and pharmaceutical companies will embrace the new patient centered market in their marketing strategies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MKT 644. Services Marketing. 2 Credit Hours.
Course develops skills necessary to manage companies in an increasingly service-oriented and technology-driven economy and to gain sustainable competitive advantage through delivering superior quality services. Course covers the special marketing challenges posed by the unique characteristics of services and discusses their managerial implications. The need and strategies for synergistic management of operations, systems, and people to satisfy customers in order to achieve marketing excellence and superior financial performance are also included.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 645. International Marketing. 2 Credit Hours.
Course analyzes the theories and practice of international marketing management. Course allows students to understand markets and aid in the development of marketing plans based on the nature of national as well as international markets. Issues of globalization, standardization, intermarket segments, trading blocks, global marketing strategies, local branding, global branding in the context of customer movements, product development, pricing, distribution, communication, and segmentation in global markets are also discussed.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MKT 646. Consumer Behavior. 2 Credit Hours.
This course provides an overview of psychological and normative principles of consumer decision-making and judgment by focusing on underlying behavioral research and theory. How people process information, make decisions involving risk and uncertainty, conflicting objectives, and imperfect information are some of the main topics discussed. The implications of consumer behavior on a marketing strategy are highlighted.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MKT 647. Advertising and Communications Management. 2 Credit Hours.
Billions of dollars are wasted every year on ineffective advertising and communication campaigns. This problem is due to an absence of a compelling strategy to serve as a foundation for developing creative executions and media plans. The course provides a balanced analysis of strategy and execution of integrated marketing communication campaigns. The effectiveness of existing and emerging communication vehicles to attain strategic marketing goals is assessed. Special emphasis is placed on advertising, sales promotions, and social media. Current and historical campaigns are also reviewed. Course requirements include case reports, projects, and class participation.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 648. New Product Development. 2 Credit Hours.
Innovation is one of the key drivers of firm value and new product development is perhaps the most important aspect of firm innovation. Yet few firms are able to develop and sustain their new product development process without mis-steps. Starting with how new products fit into the strategic landscape of a firm this course enables students to appreciate the systematic approach that goes into the creation and marketing of new products. Practical aspects of developing and marketing new products are included through two assignments and one class project.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MKT 649. Strategic Brand Marketing. 2 Credit Hours.
More and more firms have come to realize that their brands are among their most valuable assets. The goal of this course is to teach students the strategic significance of brands in creating shareholder value. Students should develop fluency with the core principles associated with branding including: an understanding of how to develop a brand's positioning; managing total brand experience; how to manage the brand relevancy over time; familiarity with the various qualitative and quantitative methodologies that are used to evaluate brand equity; how to achieve growth through brand extension; brand design and brand messaging. The basic philosophy for this course is to blend theory and practice of brand management. Branding is both an art and a science. Few branding situations have a definitive, unqualified 'right' answer as to what is the best approach. However, when armed with relevant and comprehensive theories, appropriate frameworks and models, familiarity with past successful and unsuccessful branding strategies, managers can make better and more informed decisions that are more likely to yield successful implementation.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MKT 650. Strategic Marketing. 2 Credit Hours.
Course develops the skills necessary to strategically manage business-unit level marketing activities in a multi-brand firm. This necessitates examining all marketing mix elements, R&D, financial and production considerations simultaneously in the context of the many markets, products, and services that may concern a typical firm. The emphasis is placed on understanding internal capabilities, market competitors, and customers. Market simulation exercise, cases, and readings are utilized.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 653. Sustainable Marketing of Goods and Services. 2 Credit Hours.
The course considers the creation, pricing, promotion, and consumer targeting for sustainable products. Starting with a broad view considering prosocial marketing and corporate social responsibility, the course then goes into specifics around sustainability. Topics include identifying and segmenting the sustainably-minded consumer, nudging consumers towards sustainable consumption, and sustainability as a signal. Students also consider issues of pricing sustainable products and sustainability as an externality. Materials include published cases as well as analyses of current sustainability-focuses businesses. This course also includes a group project wherein students will tackle a real-world issue of sustainability.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MKT 660. Foundations of Marketing Management. 3 Credit Hours.
Marketing problems experienced by top executives are examined and fundamental problem-solving concepts are developed. Students consider problems of consumer needs, product planning, promotion, distribution and pricing. The discovery and application of marketing management skills are developed through the use of cases and a major planning project.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MKT 665. International Marketing. 3 Credit Hours.
Analysis of major U.S. foreign markets, marketing policies, and techniques are discussed.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 672. Services Marketing. 3 Credit Hours.
Course develops the skills necessary to manage services marketing and compete through delivering quality service. The unique characteristics of services and their managerial implications are examined. Importance of the synergistic management of operations, environment, systems and people to satisfy the customer is highlighted.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKT 675. Marketing Analytics. 2 Credit Hours.
Big data, fast computing and clever algorithms have converged to allow managers to convert data into one of their key strategic assets. In response, managers are collecting large volumes of data from diverse sources such as point-of-sale, online and social media. However, this data deluge does not automatically result in smart actions. To convert data to insights managers must develop the capability to transform data into knowledge through analytics. This has made analytics an important subject for business majors. One area where firms find analytics useful is marketing. Today firms use analytics to identify profitable customers, continuously track brands, and calculate optimal price promotions, test commercials, optimize media budgets across online and offline channels, design sales force allocation and decide the intensity of distribution channels. The goals of this course are to give you hands-on experience with data and analytics, teach you how to draw strategic marketing insights from data and show you how to make marketing decisions with greater precision without merely relying on “gut” decisions. This is not to say that intuition and creativity do not play a role in marketing. It means that analytical approaches combined with intuition makes for better marketing decisions.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 677. Strategic Digital Media Management. 2 Credit Hours.
Digital and social media have dramatically changed the ways in which managers analyze consumer data and make accurate media marketing decisions. This course will teach students how to correctly capture, measure and apply the fundamentals of digital marketing analytics and then how to manage a successful media marketing campaign over time. We will use available direct and indirect digital listening tools for both traditional and digital media sources using Nielsen, live social media data, digital dashboards, search engine optimization tools, and data presentation strategies. Current case studies and readings will assist in this highly interactive management course. Social and traditional media executives will also be invited into class to review current trends, opportunities, and strategies for the future.
Prerequisite: MKT 640 or MKT 660.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MKT 686. Behavioral Decision Theory in Consumer Research. 3 Credit Hours.
The purpose of this seminar is to provide students with a review of the psychological literature as applied to the study of judgment and decision making with a focus on consumer research. The course will be based on behavioral decision theory and social psychology with an emphasis in generating high quality consumer research ideas. The course complements MKT 688 and MKT 689, which emphasizes information processing aspects of consumer behavior. Each week there will be discussions of a topic of consumer behavior research, drawing primarily upon readings from marketing and psychology. Students will learn how to identify important research problems, ask interesting research questions, develop theories and hypotheses, and design experiments. Requisite: Must be registered Doctoral Student.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

MKT 687. Marketing Strategy. 3 Credit Hours.
Marketing Strategy is a vast, exciting and exploding literature that almost defies classification. However, despite this difficulty one common theme unifies and distinguishes this stream of research: it is marketing as seen through the eyes of a manager. Is it worth fighting for market share? How do we analyze competitors? Is it more profitable to introduce a new product or enter a new market? Should we build on existing relationships or seek new customers? Does loyalty management pay? Do consumers understand product quality? Can we quantify the effects of advertising and promotions? What metrics should we use to evaluate the effectiveness of marketing effort? Can we run policy simulations before committing to marketing action? These are some of the questions that marketing managers need to address. Often the questions are very broad and complex, reflecting the bewildering range of techniques that have been used to address those questions. The seminar will try to impart an appreciation of how to define and solve research problems in a marketing strategy.
Requisite: Must be registered Doctoral Student.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

MKT 688. Ph.D. Seminar in Consumer Behavior and Decision Making. 3 Credit Hours.
This course is designed to provide students with a background regarding a wide set of topics in consumer behavior focusing on theoretical models. In addition to developing a knowledge base in several extant consumer behavior literatures, this course has several additional goals. Students will: 1) become familiar with the content and style of consumer behavior research published within the marketing field, 2) develop an understanding of many methodologies and paradigms that can be used to investigate theoretical issues, 3) have several opportunities to explicate research ideas that they will hopefully be able to pursue in the remainder of the program or early in their careers, and 4) learn to critically evaluate the research of others to aid in strengthening their thinking and ultimately their own research activities. Requisite: Must be registered Doctoral Student.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.
MKT 689. Information Processing for Consumer Behavior. 1-3 Credit Hours.
Broadly the study of consumer behavior is divided into two areas - behavioral decision theory and information processing. This course will focus on information-processing aspects of consumer behavior with an emphasis in generating high quality consumer research ideas. We will cover both classic papers that provide the gist of the area covered in each session as well as research that attracted more interest from scholars in the recent years. The course complements MKT688 and MKT686, which provide students with an introduction to topics in consumer behavior and behavioral decision theory, respectively (there three Consumer Behavior PhD seminars can be taken in any sequence). Each week we will discuss a topic of consumer behavior research, drawing primarily upon readings from marketing and psychology. Students are responsible for all primary readings, which will be discussed in a seminar-format in class. Each week, we will discuss 4-5 papers. Students will also be assigned to be the ‘discussion leader’ for individual sessions. Professor will assign these sessions to the students in the first class.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

MKT 695. Topics in Marketing. 0-3 Credit Hours.
Topics in selected areas of Marketing.
Requisite: Must be registered Doctoral Student.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 696. Topics in Marketing. 1-3 Credit Hours.
Topics in selected areas of Marketing.
Requisite: Must be registered Doctoral Student.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 697. Topics in Marketing. 1-3 Credit Hours.
Topics in selected areas of Marketing.
Requisite: Must be registered Doctoral Student.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 698. Topics in Marketing. 1-3 Credit Hours.
Topics in selected areas of Marketing.
Requisite: Must be registered Doctoral Student.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 699. Directed Study. 1-6 Credit Hours.
Individually supervised readings or research projects. Restricted to students with superior academic records. Approval of supervising professor as to topic and evaluation of project required at time of registration.
Requisite: Must be a registered Doctoral student.
Components: THE.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MKT 830. Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MKT 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
Requisite: Must be a registered Doctoral student.
Components: THE.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Master of Arts Liberal Studies (MLS)

MLS 601. Aspects of Creative and Reflective Thought. 3 Credit Hours.
Selected aspects of creative and reflective thought, based on materials from the arts, the humanities, the sciences, the social sciences and history. The focus will be on themes and issues represented in a variety of cultural traditions.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MLS 602. Perspectives on Human Nature. 3 Credit Hours.
Basic theories of human nature proposed by the humanities, the sciences, and the social sciences. The course deals with fundamental issues regarding the concept of human nature, such as the nature of the self and its relation to society, the impact of culture on self perception and the relation of thought to human action.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MLS 603. Theories of the Physical Universe. 3 Credit Hours.
Various understandings of the nature of the universe and their impact on human culture. The course will deal with critical issues addressed in the various attempts to understand the physical world, such as fundamental structures and processes, the limitation of human perception, and the interaction between the human species and its environment.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MLS 611. Studies in the Humanities. 3 Credit Hours.
Interdisciplinary study of selected topics in the Humanities.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MLS 612. Studies in the Social Sciences. 3 Credit Hours.
Interdisciplinary study of selected topics in the Social Sciences.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLS 613. Studies in the Sciences. 3 Credit Hours.
Interdisciplinary study of selected topics in the sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
MLS 621. Studies in the Humanities. 3 Credit Hours.
Interdisciplinary study of selected topics in the Humanities.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLS 625. Special Topics. 3 Credit Hours.
Interdisciplinary study of special topics central to history and the human culture.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MLS 626. Special Topics. 3 Credit Hours.
Interdisciplinary study of special topics central to history and the human culture.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLS 627. Special Topics. 3 Credit Hours.
Interdisciplinary study of special topics central to history and the human culture.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLS 631. Studies in the Humanities. 3 Credit Hours.
Interdisciplinary study of selected topics in the Humanities.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLS 696. Directed Readings. 1-3 Credit Hours.
A directed readings course allows you to work independently with a MALS professor, researching a topic of your choice.
Requisite: Plan of Master of Arts Liberal Studies.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLS 697. Directed Readings. 1-3 Credit Hours.
A directed readings course allows you to work independently with a MALS professor, researching a topic of your choice.
Requisite: Plan of Master of Arts Liberal Studies.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MLS 698. Seminar in Liberal Studies. 3 Credit Hours.
Interdisciplinary seminar designed to expand the knowledge of students in the areas of critical theory, esthetics, media theory, psychology and politics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLS 699. Seminar in Liberal Studies. 3 Credit Hours.
Interdisciplinary seminar designed to expand the knowledge of students in the areas of critical theory, esthetics, media theory, psychology and politics.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLS 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Requisite: Plan of Master of Arts Liberal Studies.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

MLS 811. MALS Project. 1-6 Credit Hours.
The student working on his/her MALS project enrolls for credit, not to exceed 6, as determined by his/her advisor. Credit is not awarded until the project has been accepted.
Requisite: Plan of Master of Arts Liberal Studies.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MLS 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in PSY 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Requisite: Plan of Master of Arts Liberal Studies.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MLS 825. Continuous Registration-Master's Study. 1 Credit Hour.
To establish residence for non-thesis students who are preparing for major examinations. Credit not granted. Regarded as full time residence.
Requisite: Plan of Master of Arts Liberal Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

Mathematics (MTH)

MTH 099. Intermediate Algebra. 3 Credit Hours.
Real number operations, polynomials, factoring, rational numbers and rational expressions. Cannot be used to fulfill the 120 credits required for graduation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 101. Algebra for College Students. 3 Credit Hours.
Algebraic operations and properties of the real numbers; linear and quadratic equations and inequalities; polynomials and factoring; rational expressions; radical expressions; graphs of lines; systems of linear equations.
Requisite: SAT Math Section Score >= 550 or Math ACT Score >= 22 or ALEKS score >= 40 or passing grade in MTH 099.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 105. Algebra and Trigonometry. 5 Credit Hours.
An intensive course in algebra and trigonometry as covered in MTH 107-108, but without analytic geometry.
Requisite: SAT Math Section Score >= 600 OR Math ACT Score >= 25 OR ALEKS score >= 55 OR passing grade in MTH 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MTH 107. Precalculus Mathematics I. 3 Credit Hours.
Algebraic operations; equations and inequalities; complex numbers; functions and their graphs; polynomial, exponential, and logarithmic functions; systems of equations.
Requisite: SAT Math Section Score >= 600 or Math ACT Score >= 25 OR ALEKS score >= 65 OR passing grade in MTH 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 108. Precalculus Mathematics II. 3 Credit Hours.
Rational functions; analytic geometry; trigonometric functions, identities, and equations.
Requisite: SAT Math Section Score >= 650 OR Math ACT Score >= 28 OR ALEKS score >= 65 OR a passing grade in MTH 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 113. Finite Mathematics. 3 Credit Hours.
Sets, logic, counting techniques, elementary probability and statistics, mathematics in finance, linear programming, algebraic structures, symmetry. The selection of topics may vary by instructor. Intended for BA students.
Prerequisite: MTH 101 or MTH 107. Or Requisite: ALEKS score >= 60 or SAT MATH score >= 630 or SAT MATH Section score >= 620 or ACT score >= 28.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 130. Introductory Calculus. 3 Credit Hours.
A one-semester survey of the fundamental principles of calculus, functions, limits, derivatives, definite integrals, applications. Not for students planning further study of calculus beyond this course.
Requisite: ALEKS score >= 65 or SAT MATH score >= 630 or SAT MATH Section score >= 650 or ACT score >= 28 or AP Calculus AB score of 3 or passing grade in MTH 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 133. Games and Strategies. 3 Credit Hours.
Prerequisite: MTH 113 or MTH 130.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 140. Calculus Concepts with Foundations A. 4 Credit Hours.
Tools from algebra and trigonometry for calculus. Functions and graphs, limits and continuity, the derivative and applications.
Requisite: ALEKS score >=65 OR SAT MATH >= 630 OR SAT MATH SECTION >= 650 OR ACT >= 28 OR AP Calculus score of 3.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 141. Calculus Concepts with Foundations B. 4 Credit Hours.
Tools from algebra, trigonometry, and analytic geometry for calculus. Further aspects of differentiation. Antiderivatives, definite integrals, and their applications.
Prerequisite: MTH 140. Min Grade C-.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 151. Calculus I for Engineers. 5 Credit Hours.
Analytic geometry, limits and continuity, derivatives, the definite integral, and applications relevant to engineering. Intended for students taking PHY 205 concurrently.
Requisite: SAT Math Section Score >= 730 OR Math ACT Score >= 31 OR ALEKS score >= 76 OR C- or higher in MTH 105 or MTH 108.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 161. Calculus I. 4 Credit Hours.
Limits and continuity, derivatives and applications, the definite integral and applications.
Requisite: ALEKS score >= 76 or SAT MATH score >= 700 or SAT MATH SECTION >= 730 or ACT score >= 31 or score of 4 AP Calculus (AB) or score of 3 in AP Calculus (BC) or a C- or higher in MTH 108.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 162. Calculus II. 4 Credit Hours.
Transcendental functions, methods of integration, improper integrals, infinite series, polar coordinates, and introduction to differential equations.
Prerequisite: MTH 141 or MTH 151 or MTH 161 or MTH 171.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 171. Calculus I. 4 Credit Hours.
The theory of limits, the derivative and the definite integral, techniques and applications. The sequence MTH 171-172 is more conceptually-oriented than MTH 161-162.
Requisite: Prism Program.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 172. Calculus II. 4 Credit Hours.
Continuation of MTH 171. Additional topics on the derivative and definite integral, improper integrals, infinite series, and introduction to differential equations.
Prerequisite: MTH 171.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 210. Introduction to Linear Algebra. 3 Credit Hours.
Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MTH 211. Calculus III. 3 Credit Hours.
Vectors in space, partial differentiation, multiple integration.
Prerequisite: MTH 162 or MTH 172. Requisite: Not open to students with credit in MTH 310 or MTH 433 or MTH 533.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 224. Introduction to Probability and Statistics. 3 Credit Hours.
Probability distributions, random variables, expectation and variance, point estimation, interval estimation, testing of hypotheses, analysis of variance.
Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 230. Introduction to Abstract Mathematics. 3 Credit Hours.
Fundamentals of set theory, logic and methods of mathematical proof.
Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 309. Discrete Mathematics I. 3 Credit Hours.
Prerequisite: MTH 141 or MTH 151 or MTH 161 or MTH 171.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 310. Multivariable Calculus. 3 Credit Hours.
Prerequisite: MTH 210 and MTH 162 or MTH 172. Requisite: Not open to students with credit in MTH 433 OR MTH 533.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 311. Introduction to Ordinary Differential Equations. 3 Credit Hours.
Theory and applications of first-order differential equations. Theory and applications of higher order linear equations and first order linear systems, including matrix methods.
Prerequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 320. Introduction to Numerical Analysis. 3 Credit Hours.
Interpolation, quadrature, numerical solution of algebraic and transcendental equations, and optimization.
Prerequisite: MTH 210 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 359. Mathematical Models in Biology and Medicine. 3 Credit Hours.
Fundamentals of the dynamical systems approach to modeling temporal change in biological systems. An introduction to the analysis of mathematical models in biology and medicine with detailed, concrete examples drawn from ecology, cell biology, neuro-science, and physiology.
Prerequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 433. Advanced Calculus. 3 Credit Hours.
A rigorous and comprehensive treatment of the theoretical concepts of calculus. The real number system; sequences; series; continuity, differentiation, and integration of functions of one variable.
Prerequisite: MTH 230 and MTH 310 or MTH 211. Not open for Students with Credit in MTH 533.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 502. History of Mathematics. 3 Credit Hours.
The development of mathematics from its earliest beginnings through the first half of the twentieth century. Numeral systems, geometry, algebra, analysis and set theory.
Prerequisite: 2 Courses in MTH 200 or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 504. Foundations of Geometry. 3 Credit Hours.
Axiom systems and models of Euclidean and Non-Euclidean geometry.
Prerequisite: MTH 230 or MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 505. Theory of Numbers. 3 Credit Hours.
Divisibility, primes; congruences, quadratic residues and reciprocity, Diophantine equations. Applications to cryptography.
Prerequisite: MTH 210 or MTH 504.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MTH 506. Mathematical Logic. 3 Credit Hours.
Logic, truth, proof, logical consequence, model theory, formalization, and computation. Meta-theory of first-order logic, computability theory, and Godel's incompleteness theorems. Related results by Church, Turing, and Tarski. Discussion of their philosophical significance.
Prerequisite: MTH 230.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 510. Linear Algebra. 3 Credit Hours.
Abstract vector spaces, bases and dimensions, linear maps, eigenvalues and eigenvectors, inner product spaces, operators, spectral theorems, canonical forms.
Prerequisite: MTH 210 and MTH 230 or MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 512. Elementary Complex Analysis. 3 Credit Hours.
Complex variables; conformal mapping, contour integration.
Prerequisite: MTH 310 or MTH 211.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 513. Partial Differential Equations I. 3 Credit Hours.
Derivation, well posedness, and qualitative properties of initial value and boundary value problems for the heat, wave and Laplace equations. Energy methods, causality, maximum principles, heat kernels, Fourier series, and potential theory.
Prerequisite: MTH 210 and MTH 311 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 514. Partial Differential Equations II. 3 Credit Hours.
Prerequisite: MTH 513.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 515. Ordinary Differential Equations. 3 Credit Hours.
Linear systems, equilibrium and periodic solutions, stability analysis, bifurcation, phase plane analysis, boundary value problems, applications to engineering and physics.
Prerequisite: MTH 311 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 516. Dynamics and Bifurcations. 3 Credit Hours.
Bifurcation of equilibrium and periodic solutions, global theory of planar systems, planar maps, nonlinear vibrations, forced oscillations, chaotic solutions, Hamiltonian systems, applications to engineering and physics.
Prerequisite: MTH 515.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 517. Analysis in Several Real Variables. 3 Credit Hours.
Sequences and series in Euclidean space; sequences and series of functions; Fourier series; continuity, differentiation, and integration of functions between Euclidean spaces; implicit and inverse function theorems.
Prerequisite: MTH 230 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 518. Advanced Analysis II. 3 Credit Hours.
Topics from numerical linear algebra including solving systems of equations, LU, QR, and SVD factorizations, eigenvalues and eigenvectors, interactive methods, and applications.
Prerequisite: MTH 320.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 520. Numerical Linear Algebra. 3 Credit Hours.
Topics from numerical linear algebra including solving systems of equations, LU, QR, and SVD factorizations, eigenvalues and eigenvectors, interactive methods, and applications.
Prerequisite: MTH 320.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 521. Numerical Methods in Differential Equations. 3 Credit Hours.
Numerical solution of ordinary and partial differential equations.
Prerequisite: MTH 320 or MTH 520.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 524. Introduction to Probability. 3 Credit Hours.
Probability spaces, random variables, expectation, limit theorems.
Prerequisite: MTH 224 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 525. Introduction to Mathematical Statistics. 3 Credit Hours.
Probability distributions, theory of sampling and hypothesis testing.
Prerequisite: MTH 524.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 527. Theory of Computing. 3 Credit Hours.
Sets, relations, and languages. Automata theory. Basic computability theory. Turing machines. The complexity classes P and NP.
Prerequisite: MTH 309 or MTH 461.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 531. Topology I. 3 Credit Hours.
Set theory, topological spaces, compactness, connectedness, separation properties, quotient spaces, Tychonoff Theorem, compactification, Urysohn Lemma and Tietze Extension Theorem, function spaces.
Prerequisite: MTH 230.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 532. Topology II. 3 Credit Hours.
Differential and topological manifolds, classical groups and associated manifolds, tangent and tensor bundles, vector fields, differential forms, transversality, Sard's theorem, Stokes' Theorem.
Prerequisite: MTH 210 and MTH 531.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 533. Introduction to Real Analysis I. 3 Credit Hours.
Sequences and series in Euclidean space; sequences and series of functions; Fourier series; continuity, differentiation, and integration of functions between Euclidean spaces; implicit and inverse function theorems.
Prerequisite: MTH 230 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MTH 534. Introduction to Real Analysis II. 3 Credit Hours.
Continuation of MTH 533.
Prerequisite: MTH 533.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 542. Statistical Analysis. 3 Credit Hours.
Statistical inference about one or two populations from interval, ordinal and categorical data; analysis of variance; simple and multiple linear regression; designing research studies.
Prerequisite: MTH 210 and MTH 224.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 547. Introduction to Mathematical Finance. 3 Credit Hours.
Prerequisite: MTH 210 and MTH 224.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 551. Introduction to Differential Geometry. 3 Credit Hours.
Geometry of curves and surfaces in Euclidean space. Local space curve theory, intrinsic and extrinsic curvature of surfaces, geodesics, parallelism, and differential forms.
Prerequisite: MTH 210 And MTH 211 Or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 561. Abstract Algebra I. 3 Credit Hours.
Groups; rings; linear algebra; modules.
Prerequisite: MTH 210 and MTH 230.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 562. Abstract Algebra II. 3 Credit Hours.
Continuation of MTH 561.
Prerequisite: MTH 561.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 571. Directed Readings in Mathematics. 1-3 Credit Hours.
Readings in special topics.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 591. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 592. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 593. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 602. History of Mathematics. 3 Credit Hours.
The development of mathematics from its earliest beginnings through the first half of the twentieth century. Numeral systems, geometry, algebra, analysis and set theory.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 604. Foundations of Geometry. 3 Credit Hours.
Axiom systems and models of Euclidean and non-Euclidean geometry.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 605. Theory of Numbers. 3 Credit Hours.
Divisibility, primes; congruences, quadratic residues and reciprocity; Diophantine equations. Applications to cryptography.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 606. Mathematical Logic. 3 Credit Hours.
Logics, truth, proof, logical consequence, model theory, formalization, and computation. Meta-theory of first-order logic, computability theory, and Godel's incompleteness theorems. Related results by Church, Turing, and Tarski. Discussion of their philosophical significance.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 610. Linear Algebra. 3 Credit Hours.
Abstract vector spaces, bases and dimensions, linear maps, eigenvalues and eigenvectors, inner product spaces, operators, spectral theorems, canonical forms.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 612. Elementary Complex Analysis. 3 Credit Hours.
Complex variables; conformal mapping, contour integration.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 613. Partial Differential Equations I. 3 Credit Hours.
Derivation, well posedness, and qualitative properties of initial value and boundary value problems for the heat, wave and Laplace equations. Energy methods, causality, maximum principles, heat kernels, Fourier series, and potential theory.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MTH 614. Partial Differential Equations II. 3 Credit Hours.
Continuation of MTH 513. Approximations of solutions, distributions and
integral transform methods, spectral theory and scattering. Applications
to physical problems. Nonlinear equations and phenomena.
Prerequisite: MTH 613.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 615. Ordinary Differential Equations. 3 Credit Hours.
Linear systems, equilibrium and periodic solutions, stability analysis,
bifurcation, phase plane analysis, boundary value problems, applications
to engineering and physics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 616. Dynamics and Bifurcations. 3 Credit Hours.
Bifurcation of equilibrium and periodic solutions, global theory of planar
systems, planar maps, nonlinear vibrations, forced oscillations, chaotic
solutions, Hamiltonian systems, applications to engineering and physics.
Prerequisite: MTH 615.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 620. Numerical Linear Algebra. 3 Credit Hours.
Topics from numerical linear algebra including solving systems of
equations, LU, QR, and SVD factorizations, eigenvalues and eigenvectors,
interactive methods, and applications.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 621. Numerical Methods in Differential Equations. 3 Credit Hours.
Numerical solution of ordinary and partial differential equations.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 624. Introduction to Probability Theory. 3 Credit Hours.
Probability spaces, random variables, expectation, limit theorems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 625. Introduction to Mathematical Statistics. 3 Credit Hours.
Probability distributions, theory of sampling and hypothesis testing.
Prerequisite: MTH 624.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 627. Theory of Computing. 0 Credit Hours.
Sets, relations, and languages. Automata theory. Basic computability
theory. Turing machines. The complexity classes P and NP.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 631. Topology I. 3 Credit Hours.
Set theory, topological spaces, compactness, connectedness, separation
properties, quotient spaces, Tychonoff Theorem, compactification,
Urysohn Lemma and Tietze Extension Theorem, function spaces.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 632. Topology II. 3 Credit Hours.
Differential and topological manifolds, classical groups and associated
manifolds, tangent and tensor bundles, vector fields, differential forms,
transversality, Sard's theorem, Stokes' Theorem.
Prerequisite: MTH 631.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 633. Introduction to Real Analysis I. 3 Credit Hours.
Sequences and series in Euclidean space; sequences and series of
functions between Euclidean spaces; implicit and inverse function
theorems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 634. Introduction to Real Analysis II. 3 Credit Hours.
Continuation of MTH 533.
Prerequisite: MTH 633.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 642. Statistical Analysis. 3 Credit Hours.
Statistical inference about one or two populations from interval, ordinal
and categorical data; analysis of variance; simple and multiple linear
regression; designing research studies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 643. Statistical Analysis II with Financial Applications. 3 Credit
Hours.
Exploratory data analysis. Designing parametric models and assessing
their uncertainty. Techniques for resampling. Using multivariate
distributions to model financial data; families of copulas. Analyzing time
series, including ARIMA and GARCH models.
Prerequisite: MTH 642 or MTH 542.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 645. Optimization Methods. 3 Credit Hours.
Linear optimization: simplex method and simplex tableaus, sensitivity
analysis. Quadratic optimization and its applications in finance: risk
modeling and portfolio construction. Integer programming techniques,
branch and bound method. Dynamic programming - deterministic and
probabilistic techniques. Software tools of optimization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
MTH 646. Quantitative Risk Analysis. 3 Credit Hours.
The modeling, measuring, and managing of financial risk using statistical
and stochastic methods. Following 'Basel Committee on Banking
Supervision' risk analysis is now a major issue for the banking Sector.
Concepts and methods covered in this course can be applied to
managing risk in various areas, but will proceed in the context related to
risk analysis and management in finance and insurance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 647. Introduction to Mathematical Finance. 3 Credit Hours.
Models of financial markets. Derivative securities: European and
American options. Tools of mathematical finance: binomial trees,
martingales, stopping times. Concepts of arbitrage and hedging. Risk-
neutral valuation of financial derivatives; the Black-Scholes formula and
its applications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 648. Stochastic Calculus with Application to Finance. 3 Credit Hours.
Stochastic calculus developing the basic probabilistic techniques
necessary to study analytic models of financial markets. Brownian
motion and the stochastic integral, stochastic differential equations, the
Black-Scholes formula, Girsanov's theorem and applications to option
pricing.
Prerequisite: MTH 647.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 649. Computational Methods of Finance. 3 Credit Hours.
Solutions of nonlinear equations, interpolation, Monte Carlo methods,
survey of matrix factorizations, numerical integration and differentiation,
and introduction to finite different and finite element methods for PDEs
with applications to finance.
Prerequisite: CSC 220 and MTH 643 and MTH 648.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 650. Machine Learning in Quantitative Finance. 3 Credit Hours.
Machine learning techniques for financial applications. Best practices
for model selection and construction of financial data, including
regression and classification techniques, and deep learning with
application to forecasting financial time series.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 651. Introduction to Differential Geometry. 3 Credit Hours.
Geometry of curves and surfaces in Euclidean space. Local space
curve theory, intrinsic and extrinsic curvature of surfaces, geodesics,
parallelism, and differential forms.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 652. Abstract Algebra II. 3 Credit Hours.
Continuation of MTH 561.
Prerequisite: MTH 661.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 651. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of
course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 662. Abstract Algebra II. 3 Credit Hours.
Continuation of MTH 561.
Prerequisite: MTH 661.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 691. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of
course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 692. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of
course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 693. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of
course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 709. Data Security and Cryptography. 3 Credit Hours.
Encryption algorithms; cryptographic techniques; access, information
flow and inference controls.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 721. Mathematical Probability. 3 Credit Hours.
Development of the measure-theoretic approach to probability. Random
variables, central limit theory, laws of large numbers, martingales.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 722. Stochastic Processes. 3 Credit Hours.
Markov chains and their attributes. Random walks, recurrence,
stopping times, strong Markov property, invariant measures. Pure jump
continuous-time processes, Poisson processes. Standard Brownian
motion and applications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 733. Real Variables. 3 Credit Hours.
First semester of a two semester sequence: General measure theory,
Lebesgue measure and integration, Lp spaces, Fourier series in one
and many variables, Fourier transforms, distributions, Sobolev spaces,
applications to partial differential equations.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
MTH 734. Real Variables. 3 Credit Hours.
Second semester of a two semester sequence: General measure theory, Lebesgue measure and integration, Lp spaces, Fourier series in one and many variables, Fourier transforms, distributions, Sobolev spaces, applications to partial differential equations.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 735. Complex Variables. 3 Credit Hours.
First semester of a two semester sequence: Analytic functions, conformality, Cauchy's Theorem, representation theorems, harmonic functions, calculus of residues, Riemann Mapping Theorem, entire and meromorphic functions, analytic continuation, normal families.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 736. Complex Variables. 3 Credit Hours.
Second semester of a two semester sequence: Analytic functions, conformality, Cauchy's Theorem, representation theorems, harmonic functions, calculus of residues, Riemann Mapping Theorem, entire and meromorphic functions, analytic continuation, normal families.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 741. Algebraic Topology. 3 Credit Hours.
First semester of a two semester sequence: Homotopy and homotopy type, fundamental group, covering spaces, higher homotopy groups, simplicial singular and cellular homology, Eilenberg-Steenrod axioms, cohomology, universal coefficient theorem, products, Künneth formula, duality theorems for manifolds, computations and applications.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 742. Algebraic Topology. 3 Credit Hours.
Second semester of a two semester sequence: Homotopy and homotopy type, fundamental group, covering spaces, higher homotopy groups, simplicial singular and cellular homology, Eilenberg-Steenrod axioms, cohomology, universal coefficient theorem, products, Künneth formula, duality theorems for manifolds, computations and applications.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 751. Differential Geometry. 3 Credit Hours.
First semester of a two semester sequence.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 752. Differential Geometry. 3 Credit Hours.
Second semester of a two semester sequence.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 757. Lie Groups. 3 Credit Hours.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 761. Abstract Algebra I. 3 Credit Hours.
First semester of a two semester sequence: Group theory, ring theory, module theory, linear algebra.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 762. Abstract Algebra II. 3 Credit Hours.
Second semester of a two semester sequence: Group theory, ring theory, module theory, linear algebra.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 770. Directed Readings or Research. 2-4 Credit Hours.
Topics will vary at the discretion on faculty. Offering will be by arrangement.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 780. Topics in Analysis. 3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 781. Topics in Analysis. 3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 782. Topics in Topology. 3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 783. Topics in Topology. 3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 784. Topics in Algebra. 3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 785. Topics in Algebra. 3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 786. Topics in Mathematics. 3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Component: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
Mechanical and Aerospace Engineering (MAE)

MAE 100. Introduction to Mechanical and Aerospace Engineering. 3 Credit Hours.
Basic principles of automobile engines and engine efficiency. Introduction to robots and controls. Basic concepts of solar engineering and solar energy utilization. Principles of fuel cells and hydrogen energy. Introduction to aerospace engineering encluding the aspects of aerodynamics, propulsion and flight dynamics. Introduction to Aerodynamics of air planes and rockets.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAE 111. Introduction to Engineering I. 3 Credit Hours.
Use of engineering tools and computer techniques for problem solving. Data acquisition, analysis, presentation, software design, and computer aided drafting are covered. Development of design skills through several design and building competitions. Introduction to professional ethics and intellectual property rights. Introduction to use of MATLAB, AutoCAD, and programming in C++.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 112. Introduction to Engineering II. 2 Credit Hours.
Introduction to engineering design and the design process. Course topics include safety, reliability, human and environmental factors, economic analysis, and cost estimation. Professional ethics, product liability, solid modeling, machine shop orientation, and practice are also included. Group design projects.
Prerequisite: MAE 111.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 202. Dynamics. 3 Credit Hours.
Discussion of motion description and analysis, application of Newton’s laws, energy, and momentum principles to mechanical systems. Introduction to mechanical vibrations. Corequisite: PHY 205.
Prerequisite: CAE 210.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 207. Mechanics of Solids II. 3 Credit Hours.
Discussion of displacements, instability, flexural, shear, torsional, and principle stresses. Introduction to statically indeterminate analysis.
Prerequisite: CAE 210.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 241. Measurements Laboratory. 3 Credit Hours.
Introduction to experimental mechanical engineering. Basic principles of measurement, data interpretation, and uncertainty analysis are covered. Laboratory exercises in mechanical engineering areas are included. Corequisite: EEN 201 or 205.
Prerequisite: MAE 207 and IEN 311 and ENG 107.
Components: IND.
Grading: GRD.
Typically Offered: Fall.
MAE 301. Engineering Materials Science. 3 Credit Hours.
Introduction to the physics and chemistry of the solid state including the structure and properties of metals, polymers, and ceramics. Corequisite: PHY 207.
Prerequisite: PHY 207.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 302. Mechanical Behavior of Materials. 3 Credit Hours.
Application of metallurgy and mechanics to the study of the plastic deformation and fracture of metals, ceramics, and plastics.
Prerequisite: MAE 207.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 303. Thermodynamics I. 3 Credit Hours.
Thermodynamic properties of materials; the first and second laws of thermodynamics; application to thermodynamic processes; introduction to heat transfer.
Prerequisite: PHY 206 and MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 309. Fluid Mechanics. 3 Credit Hours.
Course topics include fluid statics, fluid flow concepts, dynamics of inviscid and viscous fluids, closed and open channel flow, and compressibility effects.
Prerequisite: CAE 210 and PHY 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 310. Heat Transfer. 3 Credit Hours.
Application of elementary methods of solution to heat transfer problems involving steady and unsteady state conduction, radiation, and convection. Introduction of meaningful experimental data is also included.
Prerequisite: MAE 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 341. Mechanical Design I. 3 Credit Hours.
Concepts and software for kinematics, solid modeling, and project management. Fundamentals of mechanical design: stresses in and failure of mechanical elements. Individual and group design projects.
Prerequisite: MAE 202 and MAE 207.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 342. Mechanical Design II. 3 Credit Hours.
Review of the design process and creativity in design. Topics include design and reliability oars, shafts, etc. Individual and group design projects are included.
Prerequisite: MAE 341.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 351. Mechanics Laboratory. 0-2 Credit Hours.
Exercises in the experimental determination of the mechanical properties of materials and the static and dynamic characteristics of mechanical and structural elements. Lecture, 1 hour; laboratory, 3 hours.
Prerequisite: MAE 302.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 362. Computer Analysis of Mechanical and Aerospace Engineering Problems. 3 Credit Hours.
Exploration of physical systems behavior using discrete models. Topics include numerical analysis, solid modeling, and software evaluation. Students solve engineering problems using student-developed and existing software. Corequisite: MAE 310.
Prerequisite: MAE 111, MAE 341 and MTH 211. Corequisite: MAE 310.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 371. Aerodynamics. 3 Credit Hours.
Course discusses the history of flight. Topics include fundamental variables, the atmosphere, basic equations, their approximations, compressibility, viscosity, flow regimes potential flow, and aerodynamics of airfoil and wing.
Prerequisite: MAE 309.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 399. Cooperative Education. 1 Credit Hour.
Practical application of classroom theory through alternating semester or summer employment with firms offering positions consistent with the student's field of study. Course may be repeated.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 404. Experimental Engineering Laboratory. 0-2 Credit Hours.
Experimental analysis of problems in fluid mechanics, thermodynamics, and other areas of engineering. Lecture, 1 hour; laboratory, 3 hours.
Prerequisite: MAE 303 and MAE 309 and MAE 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 408. Heating, Ventilating, and Air Conditioning. 3 Credit Hours.
Principles and procedures for the analysis and design of heating, ventilating and air conditioning (HVAC) systems, including moist air properties and conditioning processes, heating and cooling load calculations, building energy consumption, thermal comfort, and indoor air quality. Not available for students having taken MAE 405.
Prerequisite: MAE 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MAE 412. System Dynamics. 3 Credit Hours.
Course topics include dynamic modeling of mechanical and thermo-fluid systems. Laplace transforms, transfer functions, energy concepts, causality, linearity, linear graph models, energy transducing system elements, frequency domain methods.
Prerequisite: ECE 201 or ECE 205 and MAE 202 and MAE 309.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 415. Automatic Control. 3 Credit Hours.
Introduction to system theory, transfer functions, and state space modeling of physical systems. Course topics include stability, analysis and design of PID, Lead/Lag, other forms of controllers in time and frequency domains, root locus Bode diagrams, gain and phase margins, Nichols chart, Nyquist criterion, and systems with time delay.
Requisite: Senior Status.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 420. Applied Thermodynamics. 3 Credit Hours.
Prerequisite: MAE 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 440. Introduction to Capstone Design. 3 Credit Hours.
Lectures and classroom discussion of the design process including product safety and manufacturability. Students are required to design, fabricate, test, and analyze the data from a design project chosen by the students. The students are required to form individual groups to accomplish the desired objectives of the design project.
Prerequisite: MAE 303 and MAE 309.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 441. Design of Fluid and Thermal Systems. 3 Credit Hours.
Course topics include thermal and fluid systems design fundamentals, piping systems, selection of pumps, piping system design practices, classification of heat exchanges. Basic design methods of heat exchange equipment is also included.
Prerequisite: MAE 309 and MAE 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 442. Capstone Design Project-I. 1 Credit Hour.
Lectures and classroom discussions cover (i) legal, ethical, and societal responsibilities of engineers, (ii) design factors such as product safety, reliability, life cycle costs, and manufacturability, and (iii) other aspects such as global market, contemporary issues and continuous learning process. Students are required to select group design projects from the breadth of mechanical engineering activity and present project to serve as the basis for MAE 443.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 443. Capstone Design Project-II. 2 Credit Hours.
Continuation of the Capstone Design Project-I course. A mechanical system is designed, implemented, documented, and presented.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 444. Capstone Aerospace Design Project-I. 3 Credit Hours.
Lectures and classroom discussions cover (i) legal, ethical and societal responsibilities of engineers, (ii) design factors such as product safety, reliability, life cycle costs and manufacturability, and (iii) other aspects such as global market, contemporary issues and continuous learning process. Students are required to select group design projects from the breadth of aerospace engineering activity and present project proposals to serve as the basis for MAE 445.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 445. Capstone Aerospace Design Project-II. 3 Credit Hours.
Continuation of the Capstone Aerospace Design Project-I course. An aerospace system/subsystem is designed, implemented, documented and presented.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 446. Aircraft Design. 3 Credit Hours.
Concepts of aircraft design emphasizing on design layout including the airfoil geometry selection, propulsion integration, configuration layout, payload and landing gear system. Corequisite: MAE 471.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 470. Introduction to Aerospace Structures. 3 Credit Hours.
Course topics include mechanics of thin-walled aerospace structures, load analysis, virtual work, energy principles, stability of aerostructures, and finite element methods.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 471. Flight Dynamics. 3 Credit Hours.
Course topics include aerodynamic performance, stability, control, propulsion systems, and structures. Case Studies of Aerospace Systems are also included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 472. Design of Aerospace Structures. 3 Credit Hours.
Design Philosophy and principles of aerospace structures. Detailed design of wing box structure, fuselage, landing gear mechanism, fasteners and structural joints. Application of composite materials.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 490. Undergraduate Research. 1-3 Credit Hours.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MAE 501. Methods of Engineering Analysis. 3 Credit Hours.  
Analysis of engineering systems in equilibrium and motion. Examples considered from mechanical, electrical, thermal and fluids engineering. Mathematical theory and computer methods for obtaining numerical solutions are developed for various cases involving discrete and continuous systems. Lecture, 3 hours.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall.

MAE 502. Vibrations. 3 Credit Hours.  
Basic theory of free and forced vibrations of mechanical systems with and without damping. Applications to systems with one and several degrees of freedom are included.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall.

MAE 503. Internal Combustion Engines. 3 Credit Hours.  
Course discusses engine types, characteristics, and operation. Topics include performance factors, fuel combustion, power cycles, knock and engine variables, exhaust emissions, fuel metering, compressors, and turbines.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall.

MAE 505. Design for Manufacturability. 3 Credit Hours.  
Manufacturing concerns at design stage. Design theory and methodology. Statistical considerations in geometric dimensioning, tolerances, reliability-based design, and quality control. Productibility, design for assembly, and value engineering. Life cycle costs and optimum design using nonlinear programming and Taguchi approaches. Hands on projects on machine tools.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall.

MAE 506. Nuclear Engineering. 3 Credit Hours.  
Course topics include a review of neutron physics, chain reactions, reactor theory, steady state operation, and reactor kinetics. Control, long term reactivity changes, materials, heat transfer, and shielding are also included. Lecture, 3 hours.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

MAE 507. Advanced Mechanics of Solids. 3 Credit Hours.  
Courses discuss the basic elements of elasticity, plasticity, and viscoelasticity. Application to mechanical systems at rest and in motion are included.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

MAE 508. Intermediate Heat Transfer. 3 Credit Hours.  
Course discusses steady and unsteady heat transfer by conduction, convective heat transfer in laminar and turbulent fluid flow, natural convection, and heat transfer by radiation.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Spring.

MAE 509. Advanced HVAC Systems. 3 Credit Hours.  
Course topics include basic HVAC systems, multizone systems, dual-duct systems, terminal reheat systems, variable air volume systems, induction and induction reheat systems, special applications, hydronic systems, unitary and heat pump systems, hydronic heat recovery systems, cooling and heating load calculation duct and piping design, overall system design, and integration.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

MAE 510. Fundamentals of Solar Energy Utilization. 3 Credit Hours.  
Fundamentals basic to the design and performance analysis of thermal systems for the capture and utilization of Solar Energy.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Spring.

MAE 512. Intermediate Fluid Mechanics. 3 Credit Hours.  
Course topics include conservation of mass, momentum, and energy, potential flow, viscous laminar and turbulent flows, the Reynolds analogy, and Boundary-layer approximations. Gas dynamics are also discussed.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall.

MAE 514. Advanced Internal Combustion Engines Experimental Studies. 3 Credit Hours.  
Experimental mechanical engineering as it pertains to internal combustion engines. The principal measurements necessary to analyze the operation of an internal combustion engine are covered. Emphasis is placed on experiment planning, data interpretation, and error analysis.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Spring.

MAE 516. Introduction to Composite Materials. 3 Credit Hours.  
Course provides an introduction to composite materials and terminology. Topics include advantages offered by composite materials, current aerospace, automotive, and bio-mechanics applications, experimental results, analytical models, and effects of impact and fatigue loads. The environment’s impact on composite materials’ performance and design procedures are discussed. Case studies examining composite materials as efficient replacements are also included.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

MAE 521. Exhaust Emission Control. 3 Credit Hours.  
Course topics include automotive emissions, air pollution, combustion of homogeneous mixtures, emission control systems, Federal emission standards, and emission instrumentation and measurement. Lecture, 2 hours; Laboratory, 3 hours.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Spring.

MAE 528. Fuel Cells. 3 Credit Hours.  
Introduction to fuel cells, thermodynamics of fuel cells, electrochemical kinetics in fuel cells, transport phenomena in fuel cells, introduction to various types of fuel cells.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Spring.

MAE 539. Heating, Ventilating and Air Conditioning System Design. 3 Credit Hours.  
Course topics include basic HVAC systems, multizone systems, dual-duct systems, terminal reheat systems, variable air volume systems, induction and induction reheat systems, special applications, hydronic systems, unitary and heat pump systems, hydronic heat recovery systems, cooling and heating load calculation duct and piping design, overall system design, and integration.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall.
MAE 540. Energy Conversion. 3 Credit Hours.
Course topics include energy conversion, utilization, present and
projected consumption of energy, thermodynamic principles, nuclear
energy, fission and fusion reactions, hydroelectric power, and solar
energy. Alternative energy sources, the hydrogen economy, and the
energy-environment-economy system are also discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 551. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual
investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 552. Special Problems. 1-3 Credit Hours.
Project course introducing methods of research through an individual
investigation of current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 559. Special Topics. 1-4 Credit Hours.
Subtitles describing the topics will be shown in parentheses in the class
schedule, following the 'Special Topics.'
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 570. Aero Propulsion. 3 Credit Hours.
Definition of the atmosphere, propulsion basics, rocket fundamentals,
turbine fundamentals, gas turbine cycles, component matching, math
and computer models, aircraft missions, cycle section, reliability, and
durability are analyzed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 590. Special Topics. 1-4 Credit Hours.
Subtitles describing the topics will be shown in parentheses in the class
schedule, following the 'Special Topics.'
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 591. Special Topics. 1-4 Credit Hours.
Subtitles describing the topics will be shown in parentheses in the class
schedule, following the 'Special Topics.'
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAE 592. Special Topics. 1-4 Credit Hours.
Subtitles describing the topics will be shown in parentheses in the class
schedule, following the 'Special Topics.'
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAE 599. Cooperative Education. 1 Credit Hour.
Practical application of classroom theory through alternating semester
or summer employment with industries offering positions consistent with
the student's field of study. Course may be repeated. Periodic reports and
conferences are required.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 601. Methods of Engineering Analysis. 3 Credit Hours.
Analysis of engineering systems in equilibrium and motion. Examples
considered from mechanical, electrical, thermal and fluids engineering.
Mathematical theory and computer methods for obtaining numerical
solutions are developed for various cases involving discrete and
continuous systems. Lecture, 3 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MAE 602. Vibrations. 3 Credit Hours.
Basic theory of free and forced vibrations of mechanical systems with
and without damping. Applications to systems with one and several
degrees of freedom are included.
Components: LEC.
Grading: GRD.

MAE 603. Internal Combustion Engines. 3 Credit Hours.
Course discusses engine types, characteristics, and operation. Topics
include performance factors, fuel combustion, power cycles, knock and
engine variables, exhaust emissions, fuel metering, compressors, and
turbines.
Components: LEC.
Grading: GRD.

MAE 605. Design for Manufacturability. 3 Credit Hours.
Manufacturing concerns at design stage. Design theory and
methodology. Statistical considerations in geometric dimensioning,
tolerances, reliability-based design, and quality control. Productibility,
design for assembly, and value engineering. Life cycle costs and optimum
design using nonlinear programming and Taguchi approaches. Hands on
projects on machine tools.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAE 607. Advanced Mechanics of Solids. 3 Credit Hours.
Courses discusses the basic elements of elasticity, plasticity, and
viscoelasticity. Application to mechanical systems at rest and in motion
are included.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 608. Intermediate Heat Transfer. 3 Credit Hours.
Course discusses steady and unsteady heat transfer by conduction,
convective heat transfer in laminar and turbulent fluid flow, natural
convection, and heat transfer by radiation.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 612. Intermediate Fluid Mechanics. 3 Credit Hours.
Course topics include conservation of mass, momentum, and energy,
potential flow, viscous laminar and turbulent flows, the Reynolds analogy,
and Boundary-layer approximations. Gas dynamics are also discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
Typically Offered:

**MAE 614. Advanced Internal Combustion Engines Experimental Studies.**
3 Credit Hours.
Experimental mechanical engineering as it pertains to internal combustion engines. The principal measurements necessary to analyze the operation of an internal combustion engine are covered. Emphasis is placed on experiment planning, data interpretation, and error analysis.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Spring.

**MAE 616. Introduction to Composite Materials.**
3 Credit Hours.
Course provides an introduction to composite materials and terminology. Topics include advantages offered by composite materials, current aerospace, automotive, and bio-mechanics applications, experimental results, analytical models, and effects of impact and fatigue loads. The environment's impact on composite materials' performance and design procedures are discussed. Case studies examining composite materials as efficient replacements are also included.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

**MAE 621. Exhaust Emission Control.**
3 Credit Hours.
Course topics include automotive emissions, air pollution, combustion of homogeneous mixtures, emission control systems, Federal emission standards, and emission instrumentation and measurement. Lecture, 2 hours; Laboratory, 3 hours.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

**MAE 628. Fuel Cells.**
3 Credit Hours.
Introduction to fuel cells, thermodynamics of fuel cells, electrochemical kinetics in fuel cells, transport phenomena in fuel cells, introduction to various types of fuel cells.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Spring.

**MAE 639. Heating, Ventilating and Air Conditioning System Design.**
3 Credit Hours.
Course topics include basic HVAC systems, multizone systems, dual-duct systems, terminal reheat systems, variable air volume systems, induction and induction reheat systems, special applications, hydronic systems, unitary and heat pump systems, hydronic heat recovery systems, cooling and heating load calculation duct and piping design, overall system design, and integration.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

**MAE 640. Energy Conversion.**
3 Credit Hours.
Course topics include energy conversion, utilization, present and projected consumption of energy, thermodynamic principles, nuclear energy, fission and fusion reactions, hydroelectric power, and solar energy. Alternatives energy sources, the hydrogen economy, and the energy-environment-economy system are also discussed.

**Requisite:** Senior Status.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

**MAE 651. Special Problems.**
1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.

**Components:** THI.
**Grading:** GRD.
**Typically Offered:** Fall, Spring, & Summer.

**MAE 652. Special Problems.**
1-3 Credit Hours.
Project course introducing methods of research through an individual investigation of current problems. Offered by special arrangement only.

**Components:** THI.
**Grading:** GRD.
**Typically Offered:** Fall, Spring, & Summer.

**MAE 670. Aero Propulsion.**
3 Credit Hours.
Definition of the atmosphere, propulsion basics, rocket fundamentals, turbine fundamentals, gas turbine cycles, component matching, math and computer models, aircraft missions, cycle section, reliability, and durability are analyzed.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

**MAE 690. Special Topics.**
1-4 Credit Hours.
Subtitles describing the topics will be shown in parentheses in the class schedule, following the 'Special Topics.'

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

**MAE 691. Special Topics.**
1-4 Credit Hours.
Subtitles describing the topics will be shown in parentheses in the class schedule, following the 'Special Topics.'

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

**MAE 692. Special Topics.**
1-4 Credit Hours.
Subtitles describing the topics will be shown in parentheses in the class schedule, following the 'Special Topics.'

**Components:** THI.
**Grading:** GRD.
**Typically Offered:** Fall, Spring, & Summer.

**MAE 699. Cooperative Education.**
1 Credit Hour.
Practical application of classroom theory through alternating semester or summer employment with industries offering positions consistent with the student's field of study. Course may be repeated. Periodic reports and conferences are required.

**Components:** THI.
**Grading:** GRD.
**Typically Offered:** Fall, Spring, & Summer.

**MAE 701. Advanced Heat Transfer--Conduction and Radiation.**
3 Credit Hours.
Advanced analytical methods of solutions of boundary value problems of steady, periodic, and unsteady heat conduction. Topics include techniques of transient point, line, and plane sources and sinks, thermodynamics of radiative equilibrium, radiative exchange, geometrical factors, network, and other methods. Lecture, 3 hours.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Spring.
MAE 702. Advanced Heat Transfer--Convection. 3 Credit Hours.
The analogy between heat, mass, and momentum transfers. Topics
include the transfer mechanism, heat transfer to liquid metals, boiling and
condensation mechanisms, heat transfer in two-phase flow, ablation heat
transfer, transpiration, film cooling, and heat exchanges. Lecture, 3 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 705. Finite Element Methods in Mechanical and Aerospace
Engineering. 3 Credit Hours.
Finite-element analysis methods for static and dynamic analysis of
mechanical and aerospace structures, heat transfer analysis, and fluid
flow applications. Primary emphasis is placed on underlying mechanics and
numerical techniques. Consideration is also given to the use of
existing programs, such as ANSYS, NASTRAN and FIDAP, designing
proper meshes, and choosing the proper element. A term project is
included.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 706. Experimental Methods in Fluid Mechanics. 3 Credit Hours.
Course topics include methods of flow visualization, laser techniques
in measurement of wall motions, conduit compliance, Newtonian and
non-Newtonian properties of fluids, measurement of unsteady flow and
pressure, laser Doppler anemometry, ultrasonic Doppler velocimetry,
electro-magnetic flowmetry, measurement of steady and unsteady wall
shear stresses and boundary layers.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAE 713. Transport Phenomena. 3 Credit Hours.
Course topics include laws of molecular transfer, the kinetic theory
explanation of molecular transfer phenomena, introduction to turbulence,
and molecular transfer in laminar and turbulent flows with experimental
results. A unified treatment of salient aspects of momentum, heat, and
mass transfer including the relationship between rate and conservation
equations are also discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MAE 714. Computational Fluid Dynamics. 3 Credit Hours.
Incompressible flow equations in rectangular co-ordinates. Topics
include basic computational methods for incompressible flow, three
dimensional flows, compressible flow equations in rectangular
coordinates, basic computational methods for compressible flows,
treatment of shocks, artificial viscosities, convergence, other mesh
systems, programming, testing, and information processing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 730. Mechanical Systems Optimization. 3 Credit Hours.
Optimization as an element of the engineering design process. Topics
include comparative examination of unconstrained algorithms, as well
as development and application of methods for constrained optimization
problems. Case studies which demonstrate the theory and application of
mathematical programming as a design tool are also included.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 740. Continuum Mechanics. 3 Credit Hours.
Course discusses concepts that are common to all continuous media.
Topics include elements of tensor analysis, motion, deformation, vorticity,
material derivatives, mass balance equation, and balance of linear
and angular momentum as well as energy. Stress and its geometric
characterization, constitutive equations of solid and fluid type behavior,
fundamental applications, and the Clausius-Duhem inequality are also
covered.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MAE 751. Master's Project. 3 Credit Hours.
A required project for M.S. students in the non-thesis option.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 752. Master's Capstone Project. 4 Credit Hours.
A required project for the five year BSME/MSME program.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 780. Graduate Colloquium. 1 Credit Hour.
Presentations by selected speakers of weekly programs dealing with
topics of interest in Mechanical Engineering. Attendance is required of all
students registered in Mechanical Engineering graduate programs.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MAE 791. Professional Communications Skills for Engineering Grad
Students. 0 Credit Hours.
This course covers fundamental areas in professional communication
for Engineering graduate students. Topic areas include: presenting
research at conferences, writing manuscripts for publication, preparing
the dissertation, the PhD comprehensive exams, effective teaching and
mentoring, and obtaining positions in academia. Through interactive
workshops, in-class exercises, brief presentations and assignments,
students will have an opportunity to practice and strengthen necessary
communication skills, developing collaborations, and developing effective
presentation skills.
Components: MOD.
Grading: SUS.
Typically Offered: Fall & Spring.

MAE 792. Special Problems. 1-3 Credit Hours.
Research and/or design projects consisting of individual investigation of
current problems. Offered by special arrangement only.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 798. Advanced Topics. 1-3 Credit Hours.
Subject matter offerings based upon student demand and availability of
faculty. Subtitles describing the topics to be offered will be shown in
parentheses in the printed class schedule, following the title 'Advanced
Topics'.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
MAE 810. Master’s Thesis. 1-6 Credit Hours.
The student working on his/her master’s thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master’s degree after the student has enrolled for the permissible cumulative total in MAE 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MAE 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Doctoral dissertation credits taken prior to Ph.D. student’s candidacy. The student will enroll for credit as determined by his/her advisor. Not more than 12 hours of MAE 730 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MAE 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Doctoral dissertation credits taken after Ph.D. student has been admitted to candidacy. The student will enroll for credit as determined by his/her advisor. Not more than 12 credits in MAE 740 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MAE 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Medicine (MDR)

MDR 1000. RMC Shoulder Orthopedic Surgery. 2-4 Credit Hours.
This is a 2 or 4 week elective intended to expose the senior medical student to a comprehensive experience in orthopedic shoulder surgery. During the 2 or 4 week rotation, the student will spend approximately 50% of the time in an office clinical setting evaluating patients with shoulder disorders and 50% of the time in the operating room gaining surgical experience and insight. The surgical experience will be 60% arthroscopic shoulder surgery and 40% open shoulder surgery. The elective will be spent under the direction of one surgeon. There will be on-call responsibilities though not burdensome. For those students interested in a 4 week elective, there will be clinical outcomes research opportunities, and the opportunity to work with other orthopedic specialists within the group.
Components: MOD.
Grading: GRD.

MDR 1001. RMC Developmental and Behavioral Pediatrics. 2 Credit Hours.
This is an outpatient private practice rotation at the office of Dr. Aronson-Ramos in Coconut Creek, located in northern Broward county. This busy private practice sees children, teens, and young adults with diverse neuro-developmental issues. The practice has a family centered approach and considerable time is spent interviewing family members and observing and interacting with patients. Students will learn about diagnostic assessments and treatment planning for the most common pediatric neuro-developmental problems. Common conditions the student will encounter include: autism spectrum disorders, ADHD, developmental delays, anxiety disorders, mild depression, syndromes, disruptive behavioral disorders, obsessive compulsive disorder, among other clinical issues.
Components: MOD.
Grading: GRD.

MDR 1002. RMC Pediatric Otolaryngology. 2-4 Credit Hours.
1. This clinical elective will expose students to the subspecialty of Pediatric Otolaryngology—Head and Neck Surgery. i) Students will have the opportunity to learn by seeing patients in our private office as well as assisting in the operating room. 2. This elective is designed with two different types of student interests in mind, and will be individually tailored to the individual students interests i) PRIMARY CARE TRACK (1) For students interested in entering medical fields with a primary focus on treating children (a) E.g. Pediatrics, Family Practice, etc. (2) Students will learn evidence-based medical management of acute and chronic problems of the ears, nose, and throat in children (3) Students will hone their diagnostic skills in pediatric otoscopy, rhinoscopy, and throat examinations with direct feedback (4) Student will be exposed to common Pediatric ENT surgical procedures, so they can understand firsthand exactly what they involve ii) SURGICAL SPECIALTY TRACK (1) For students interested in becoming Otolaryngologists, or other related surgical fields (a) E.g. pediatric surgery, neurosurgery, ophthalmology, plastic and craniofacial surgery, neuroradiology (2) Students will complete all the objectives of the Primary Care Track (3) Students will be exposed to surgical decision making and the criteria for medical vs. surgical management of Pediatric ENT disorders (4) Students will experience performing pre-operative work-up and post-operative management of surgical cases (5) Students will assist in more complicated Pediatric ENT surgical procedures (6) Students will have the option of performing inpatient Pediatric ENT consultations
Components: MOD.
Grading: GRD.
MDR 1003. Public Health Clerkship. 2 Credit Hours.
This is a 4-week required rotation for students in the MD/MPH track. This sub-internship will expose them to the professional responsibilities and work flow of a physician trained and practicing public health. Each week the student will be rotating through various clinics within the health department. They will also have weekly interaction with the Department of Health preventive medicine residents. The student will spend time at the Palm Beach County Health Department administrative offices interacting in didactic sessions and journal club presentation with the Preventive Medicine Residents. The didactic curriculum will be linked to the residency program curriculum. Students will be scheduled to rotate through the health department’s HIV and sexual health clinics (OB/GYN, STD and family planning). Students will also rotate in the JFK Internal Medicine Residency continuity clinic. They will participate in the residency clinic ambulatory didactic, journal club and interdisciplinary psychology conferences. Students will also have dedicated time to complete their fieldwork and capstone during the rotation. Students will receive a final grade (P/F), based on clinical evaluations, participation in didactics, assigned tasks and a final journal club presentation.
Components: MOD.
Grading: GRD.

MDR 1004. Remediation / Make Up Place Holder. 0 Credit Hours.
Remediation / Make up place holder.
Components: CLN.
Grading: NON.
Typically Offered: Fall & Spring.

MDR 1005. Healthcare System Quality Improvement. 2 Credit Hours.
This elective was conceived out of the recognition for the need for medical students to broaden their knowledge of the healthcare system, and their role in facilitating change within this structure. In order to be well rounded physician-leaders, students should have a basic understanding of their role in the team of healthcare professionals within the framework of our healthcare system. As such, this course aims to provide students with a better understanding of how health care disciplines outside of medicine (such as nursing, pharmacy, laboratory, etc) as well as business, administration and public health fields interact. One way to study this cross-disciplinary intersection is through familiarizing oneself with the basics of process improvement as it applies to health care. This elective provides an opportunity for third and fourth year medical students to gain knowledge of the fundamentals of healthcare quality and process improvement through a combination of didactic learning sessions and hands-on experience. Students will expand their learning environment beyond the typical classroom and clinical settings in order to complete a practical, relevant quality improvement project working in collaboration with health care administrators, allied health professionals and physicians leaders at our institution. This longitudinal experience provides students the opportunity to receive two weeks of elective credit by completing online coursework through the Institute for Healthcare Improvement Open School, classroom-based didactic sessions, “field work” outside of patient-physician encounter, and, ultimately, a scholarly project in a quality/process improvement area of their choosing.
Components: MOD.
Grading: GRD.

MDR 1006. HCH Colorectal Surgery. 2-4 Credit Hours.
This is a 2 or 4 week elective that will provide students with an exposure to a private practice specializing in colorectal surgery. The student will be one-on-one with a colorectal surgeon. Dr. Schochet specializes further in high resolution anoscopy, HIV-related anal disease and minimally invasive surgery.
Components: MOD.
Grading: GRD.

MDR 1007. RMC Plastic Surgery. 2-4 Credit Hours.
This is a 2 or 4 week rotation intended for the senior medical student who is interested in plastic surgery as a career choice or simply wants exposure to the field. The rotation will provide a comprehensive exposure to all facets of aesthetic plastic and reconstructive surgery in a community setting.
Components: MOD.
Grading: GRD.

MDR 1008. WPB VAMC Pathology. 2-4 Credit Hours.
This is a 2 or 4 week rotation intended to give the student a global concept of how the ancillary medical discipline of Pathology integrates into the patient’s diagnosis and ongoing management. The student, who already has a basic working knowledge of clinical medicine, will be able to appreciate the value of appropriate choice of laboratory tests to help patient management from a laboratory perspective.
Components: MOD.
Grading: GRD.

MDR 1009. RMC Medical Education Elective. 2 Credit Hours.
This elective is grounded in the University of Miami Miller School of Medicine MD/MPH track course work. It offers students who are interested in medical education the opportunity to become familiar with what is required to build and maintain a medical curriculum as well as hone their educational skills in the classroom and clinical setting. The MD/MPH curriculum is able to provide an excellent environment for learning about medical education as it incorporates both problem-based learning and didactic lectures on the Miami campus as well as integrated and traditional clerkship models at the regional campus. This elective will allow senior students the opportunity to gain further insight into the overall goals of medical education and receive a well-rounded immersion in the areas of teaching and curriculum development.
Components: MOD.
Grading: GRD.

MDR 1010. University of Miami School of Medicine Bridge Course. 0 Credit Hours.
The intention of the new Bridge Course is to facilitate the transition of medical students from IMU to UMMSM. Students will be joining the incoming second year class after successful completion of this four week course.
Components: MOD.
Grading: GRD.
Typically Offered: Fall.

MDR 1013. Med-Peds. 4 Credit Hours.
Combined Internal Medicine and Pediatrics is a unique specialty that trains physicians in the care of patients of all ages. The elective aims to give students exposure to Med/Peds in an urban primary care practice setting. Students will see routine care of newborns, infants, children, adolescents and adults, as well as care of patients with complex pediatric diseases as they transition into adulthood.
Components: MOD.
Grading: GRD.
MDR 1014. Jupiter Medical Center Cardiothoracic Surgery. 2-4 Credit Hours.
This elective in cardiothoracic surgery will provide students the ability to learn in a preceptor based model about the management of diseases of the thorax. The student will work as an active member of the thoracic team; engaging with patients in the thoracic clinic, performing preoperative and post-operative assessment, as well as hospital rounds. The student will be introduced with hands on experience with leading edge technologies as EndoBronchial Ultra-sound (EBUS), Navigational bronchoscopy, Robotic surgery as well as VATS and open procedures.
Components: MOD.
Grading: GRD.

MDR 1015. RMC Dermatology. 2 Credit Hours.
This is a two-week elective is intended to expose the senior medical student to a spectrum of experiences in a private practice outpatient dermatology setting. During the two-week rotation, the student will spend time in a private practice dermatology office and will take part in patient visits and observe common outpatient dermatologic procedures including surgical and cosmetic procedures.
Components: MOD.
Grading: GRD.

MDR 1016. RMC Interdisciplinary Women's Health. 4 Credit Hours.
Students will be exposed to all aspects of women's health, both benign and malignant disease. This rotation is suitable for students considering careers in Primary Care, OB/GYN, GYN Oncology, Breast Surgery, General Surgery or Surgical Oncology.
Components: MOD.
Grading: GRD.

MDR 1017. RMC Interdisciplinary Women's Oncology. 4 Credit Hours.
Students will be exposed to all aspects of women's oncology, including breast, ovarian and other women's cancers, including patients with genetic risk of breast or ovarian cancer. Suitable for students considering careers in Primary Care, OB/GYN, GYN Oncology, Breast Surgery, General Surgery or Surgical Oncology.
Components: MOD.
Grading: GRD.

MDR 1018. Pediatric Mobile Clinic. 2-4 Credit Hours.
This is an outpatient rotation on the University of Miami Pediatric Mobile Clinic (PMC). The PMC is a clinic on wheels that delivers comprehensive pediatric primary care primarily to uninsured children from birth to 21 years of age throughout Miami Dade County free of charge. The PMC provides care for some of the neediest children in communities including Little Havana, West Dade, Homestead, Florida City, Little Haiti/North Miami, Sweetwater, Kendall and Miami Beach. Patients encountered reflect the diverse population of Miami-Dade County. Many are new immigrants and non-English speaking patients accessing medical care for the first time. Thirteen percent of children served have complex medical needs; 20% of the children have disabilities or developmental concerns. Clinic activities include sick and well-child care and follow up for chronic conditions. Students will work independently and responsibilities will include taking histories, conducting physical exams and discussing assessment and plans of care with the entire unit team including resident and attending physicians, nurse practitioners, social worker, therapist, and psychologist. Students also have the opportunity to do basic procedures such as throat swab, urinalysis, phlebotomy and administration of immunizations and provide counseling and education to patients and families. The students will have an opportunity to participate in telehealth and medical-legal clinics on the unit as well as special projects that are taking place. In addition, students will learn about the public health issues related to caring for uninsured, underserved populations and the social determinants that play a role in health and accessing health care. They will also learn about community resources available to underserved populations.
Components: MOD.
Grading: GRD.

MDR 1019. Senior Capstone Course: Transition to Residency. 2 Credit Hours.
The Senior Capstone Course: Transition to Residency offers fourth-year medical students an opportunity to review and hone core concepts, diagnostic/therapeutic algorithms, procedural skills, and communication tools in preparation for their first-year of residency. This is an elective course offered to a maximum of 20 students per class.
Components: MOD.
Grading: GRD.

MDR 1020. WPB VAMC Radiology. 2 Credit Hours.
Students will be able to take a 2 week elective block during their fourth year in diagnostic radiology. During the block, students will spend their time in the department of radiology with the faculty and radiology technicians. They will be responsible for working with radiologists and compiling the medical history as appropriate for the imaging modality.
Components: MOD.
Grading: GRD.

MDR 1021. HCH Interventional Radiology. 2-4 Credit Hours.
Students will be able to take a 2-4 week elective during their fourth year in diagnostic and interventional radiology. During the block, students will spend their time in the department of radiology with the faculty and radiology technicians. They will be working with radiologists on diagnostic imaging, interventional procedures, imaging and compiling the medical history as appropriate for the procedure. They should also attend any conferences or other teaching seminars offered in radiology during their assigned time.
Components: MOD.
Grading: GRD.
MDR 1022. HCH Infectious Disease. 2-4 Credit Hours.
Infectious Disease Medicine requires an understanding of the microbiology, prevention and management of diseases caused by viral, bacterial, fungal and parasitic infections, including the appropriate use of antimicrobial agents, vaccines and other immunobiologic agents. The Infectious Disease fourth year elective at Holy Cross Hospital will provide students with the skills to begin to appropriately provide preventive, diagnostic and therapeutic care for many infections. There will also be specific experiences in HIV clinics to learn about the management of patients with HIV infection.
Components: MOD.
Grading: GRD.

MDR 1024. Forensic Psychiatry. 2-4 Credit Hours.
This is a 4-week elective intended to expose the senior medical student to a spectrum of experiences in forensic psychiatry. The student will spend a portion of each week in various hospital and community settings that involve the clinical practice of aspects of forensic psychiatry.
Components: MOD.
Grading: GRD.

MDR 1025. OB/GYN Boot Camp – Transition to Residency. 2 Credit Hours.
The purpose of this course is to allow all M4 students who match in OB/GYN or related residencies to enter their intern year with a solid knowledge base and set of procedural skills related to women's health, obstetrical care and gynecologic surgery. Participation in the two-week course will allow students to practice procedural and basic surgical skills, enhance their OB/GYN knowledge, and review APGO practice guidelines. This course is intended to consolidate and expand upon skills learned on the core clerkship and OB/GYN M4 electives.
Components: MOD.
Grading: GRD.

MDR 1027. RMC Venous Vascular Disease. 2-4 Credit Hours.
Phlebology is an innovative medical specialty in the diagnosis and treatment of disorders of venous origin. This elective will introduce the subspecialty of Phlebology to medical students interested in careers in vein disease and their related specialties (vascular surgery, general surgery, interventional cardiology, cardiology, cardiothoracic surgery and interventional radiology) and to the basic understanding of fundamental venous diseases pertinent to the practice in the primary care setting of internal medicine and family medicine. Phlebology pushes the forefront of medicine into a new direction by offering diagnostics, treatment options, and research and development opportunities not previously available for the patients with venous disease. This elective is intended to expose the medical student to a spectrum of experiences in a private practice outpatient phlebology office and will take part in patient visits and observe common outpatient venous procedures including office-based surgical and cosmetic procedures in Palm Beach County.
Components: MOD.
Grading: GRD.

MDR 1028. HCH Medicine Sub-I. 4 Credit Hours.
The objective of this rotation is to provide students with hands on clinical experiences that are specifically designed to mirror their upcoming roles as interns in postgraduate training. The medical Sub-intern will master specific core competencies and basic principles of inpatient medical care. The sub-I will be a member of a medical ward team that consists of an attending, two residents, and two interns. The sub-intern will work specifically with one resident on the team who will directly oversee the sub-I and the care of his/her patients. They will focus on delivery of inpatient care to general medical patients as well as collaborate with medical and surgical subspecialties and develop efficient hand offs of care. They will attend daily afternoon report and attending rounds as well as participate in daily sign out/hand off rounds. Sub-interns will attend weekly academic half days, weekly grand rounds, and weekly sessions with sub-internship coordinators to review key inpatient topics. Typical days begin at 7am, and alternate ending at 4pm and 7 pm. You will have one day off every week. There is no night coverage during this rotation.
Components: MOD.
Grading: GRD.

MDR 1029. Plastic Surgery SUB-I. 4 Credit Hours.
The primary objective of this rotation is to provide the development and mastery of clinical core plastic, aesthetic, and reconstructive competencies and to review common reconstructive and cosmetic conditions. The practice of evidence based medicine is promoted by encouraging students to conduct literature search for current guidelines.
Components: MOD.
Grading: GRD.

MDR 1030. Transition to Clinical Rotations. 1 Credit Hour.
Overview: Students will take part in mandatory activities, including didactic, experiential and independent activities to prepare them to take part in clinical rotations at the Regional Medical Campus. This experience is required for all students prior to participating in the MD/MPH third year rotations. Course Design: Activities will include - BLS/ACLS training; Online training modules for clinical sites; Physical exam practice; Didactic sessions including: Working with interpreters, critical thinking, writing summary statements, wellness during clinical rotations, professionalism based discussions, taking charge of your education, the medical record. Goals/Objectives: Provide students with the knowledge to transition effectively from pre-clinical to clinical curriculum and function as a part of medical teams in the clinical setting. Provide students with the required skills to participate in the clinical curriculum at the Regional Medical Campus sites
Components: MOD.
Grading: GRD.

MDR 1031. Minimally Invasive Gynecologic Surgery. 2-4 Credit Hours.
The objective is for the student to gain experience in the diagnostic and therapeutic approaches for various obstetrical scenarios through participating in direct patient care. Students will enhance interpersonal skills and professional conduct in the female pregnant patient encounter setting. After completing the rotation, students should feel comfortable with the management of an uncomplicated vaginal delivery and also gain insight into the management of the complicated obstetrical patient.
Components: MOD.
Grading: GRD.
MDR 1032. Pediatric Palliative Care. 2-4 Credit Hours.
OVERVIEW This is a 2-4 week elective intended to expose the senior medical student to a spectrum of life-threatening and complex medical illnesses in pediatrics. The student will work directly with a faculty physician and the Palliative Care Nurse Coordinator and interface with a broad spectrum of pediatric sub-specialties. COURSE DESIGN The student will spend time at Holtz Children’s Hospital on the Palliative Care consult service, seeing patients in consultation and follow-up, and discussing them with the fellows and attending on rounds. Patients may also be seen in an Outpatient Clinic setting and during Home Visits as needed. All students will meet with Dr. Cantwell, the rotation coordinator, and interact with faculty overseeing the Palliative Care initiative. Students are expected to attend the weekly Palliative Care Interdisciplinary Conference
Components: MOD.
Grading: GRD.

MDR 1033. Introduction to Orthopedic Surgery. 2 Credit Hours.
Orthopedic Surgery is an increasingly competitive field for medical students to match into. Appropriate evaluation of the students’ aptitude, interest in the field, compassion for patient treatment and strength of application is important to thoroughly guide students through the residency application process. While there are multiple facets considered in an application, many students applying to residency often lack insight into their relative competitiveness and need more concrete advice as how to improve their chances of matching. The goal of this rotation is to provide qualified students who are interested in pursuing a career in Orthopaedic Surgery an opportunity to work clinically with faculty mentors (Associate Program Director/Faculty Advisor to Orthopaedic Surgery Interest Group), both of whom have special interest in student education. In addition to this clinical experience, the faculty will provide recommendations, guidance, and mentorship towards a possible application to orthopedic residency programs. The mentors will provide comments regarding the students’ performance to the Chairman/Program Director of the Orthopaedic Surgery program here at the University of Miami.
Components: MOD.
Grading: GRD.

MDR 1034. Pediatrics Boot Camp - Transition to Residency. 2 Credit Hours.
Overview: Our immersive course offers the unique opportunity to learn what it means and what is required to become a pediatrician. It includes review of key concepts and knowledge, common pediatric physiology and pediatric illnesses, practice of common procedures, and hopes to generate self-reflection and guidance on human aspects such as professionalism, communication with families, patients, and team members, leadership, wellness, and life management skills (coping with challenges and stress of residency). Course Design: This 2-week elective course uses highly interactive didactics such small group case discussions, procedural skills labs, group-based simulations, team building exercises, and lectures. It provides one-on-one conversations with current PGY1’s (who will be on the cusp of completion of their intern year), Chief Residents, and pediatric faculty. It is divided equally into one inpatient and one outpatient week. A sample schedule is provided with this course description (see below).
Components: MOD.
Grading: GRD.
Typically Offered: Spring.

MDR 1035. Developmental-Behavioral Pediatrics. 4 Credit Hours.
Overview: This is a 4-week elective to expose the medical student to a spectrum of experiences in developmental and behavioral pediatrics. The student will rotate through different clinic/community settings and see patients based on the emphasis at that location. Course Design: The student will spend time at the Mailman Center for Child development as well as the pediatric University of Miami Hospital Clinics. The student will gain exposure to developmental-behavioral pediatrics through observation and participation in the Behavioral Pediatrics Clinic, the Interdisciplinary Developmental Service, the Developmental Screening clinic, and various aspects of the Leadership Education in Neurodevelopmental and related Disabilities (LEND) trainee program. At the various clinics, the student will learn the aspects included in a comprehensive developmental pediatrics history as well as participate in discussions to help decide treatment options. Finally, the student will complete the LEND program by attending weekly classes at the Mailman Center and creating a leadership/advocacy project.
Components: MOD.
Grading: GRD.

MDR 1036. Point Care of Ultrasound Elective. 2-4 Credit Hours.
This is an intensive 2-week elective, which will teach the senior medical student point-of-care, bedside emergency ultrasound. The medical student will gain knowledge and competency, through supervised and independent scanning with an ultrasound machine in the JMH Emergency Department, online modules, scholarly articles, image review and a final US presentation. This elective is open to students applying into all specialties of medicine, not just emergency medicine. No Emergency Medicine SLOE’s will be written based off this elective rotation.
Components: MOD.
Grading: GRD.

MDR 1037. Emergency Medicine Boot Camp - Transition to Residency. 2 Credit Hours.
The Emergency Medicine Boot Camp – Transition to Residency elective offers fourth-year medical students matching into emergency medicine the ability to enhance their critical thinking and clinical skills at the level expected of an incoming emergency medicine intern. With an effort to maximize our students’ focus for successful preparation and transition into residency, this elective will review undifferentiated clinical presentations for common ED chief complaints, infuse in specialty-specific, basic science anatomy, physiology and pharmacology review, expand on the students’ repertoire of procedural and clinical skills and allow for small group collaboration within the course and interdisciplinary collaboration with other specialty-specific capstone bootcamps. Elements of resident professionalism, wellness, time management and personal organization will also be addressed. This elective course is offered to all Miami and Regional Campus emergency medicine bound students. This Emergency Medicine Bootcamp elective is part of the larger Senior Capstone Courses focused on the Transitions to Residency educational initiative. While emergency medicine students can enroll in this course independently, the highest yield is if completed in conjunction and after the broader Senior Capstone Course: Transitions to Residency (MDR 1019).
Components: MOD.
Grading: GRD.

MDR 200. Medical Curriculum 2. 18 Credit Hours.
Components: MOD.
Grading: GRD.
MDR 500. Medical Curriculum 5 MD/PHD Research. 18 Credit Hours.
Components: LEC.
Grading: GRD.

MDR 501. Fundamentals of Biomedical Science: Molecular Basis of Life. 4 Credit Hours.
The Fundamentals of Biomedical Science: Molecular Basis of Life is a course that gives the students the fundamental elements of medical biochemistry, molecular and clinical genetics. The medical biochemistry section includes the basic fundamentals of amino acids, vitamins, proteins, lipids and carbohydrates. The pathways of metabolism and energy production are also studied. The fundamentals of molecular and clinical genetics are discussed. The concepts such as translation, transcription, mutation, single and multiple gene effects are discussed.
Components: MOD.
Grading: GRD.

MDR 502. Fundamentals of Biomedical Science: Cellular Function and Regulation I. 2 Credit Hours.
The Fundamentals of Biomedical Science: Cellular Function and Regulation I course is an introductory course into normal cellular physiology and the general principles of pharmacology. Mechanisms of normal cellular function that are fundamental to all cellular systems are taught during this course. The general concepts of pharmacokinetics including drug delivery, distribution in the body, metabolism, and elimination are discussed during the introduction to pharmacology.
Components: MOD.
Grading: GRD.

MDR 503. Fundamentals of Biomedical Science: Host Defense, Pathogens, and Pathology. 6 Credit Hours.
The Fundamentals of Biomedical Science: Host Defense, Pathogens, and Pathology course is an introductory course that deals with the general principles of immunobiology and microbiology. It also provides students with an introduction to the principles of pathology. Students are introduced into the normal functioning of the immune defense system and abnormal functioning during disease such as HIV and cancer. The microbiology section of the course deals primarily with prototypical pathogens of bacterial, viral, fungal or parasitic origin. The pathology section deals with the fundamentals of pathological process such as inflammation, necrosis, neoplasia and thrombosis.
Components: MOD.
Grading: GRD.

MDR 504. Human Structure I. 6 Credit Hours.
The Human Structure I course contains 4 sections that include gross anatomy of the human body, histology of tissues, introduction to cell biology, and introduction to embryology. In the gross anatomy section students are expected to learn the various structures of the human body and their relationships to each other. The gross anatomy course uses dissection of human cadavers and body imaging in the form of CT and MRI to assist in the teaching process. The microscopic anatomy of the various structures of the body are studied in the histology section of the course. The cell biology section introduces the students to various components of the cell and the various functions of these organelles. In the embryology section students learn about the development of the human from the union of the egg and sperm to the birth of the baby.
Components: MOD.
Grading: GRD.

MDR 505. Human Structure II. 2 Credit Hours.
The Human Structure II course contains 4 sections that include gross anatomy of the human body, histology of tissues, introduction to cell biology, and introduction to embryology. In the gross anatomy section students are expected to learn the various structures of the human body and their relationships to each other. The gross anatomy course uses dissection of human cadavers and body imaging in the form of CT and MRI to assist in the teaching process. The microscopic anatomy of the various structures of the body are studied in the histology section of the course. The cell biology section introduces the students to various components of the cell and the various functions of these organelles. In the embryology section students learn about the development of the human from the union of the egg and sperm to the birth of the baby.
Components: MOD.
Grading: GRD.

MDR 506. Neuroscience and Behavioral Science. 8 Credit Hours.
The Neuroscience and Behavioral Science module is an interdisciplinary approach to the study of the nervous system. It incorporates the basic sciences of neuroanatomy, neurophysiology, neurochemistry, pharmacology, neuropathology, microbiology, immunology, and behavioral psychology. Students learn the basic structure and function of the nervous system from the brain to the muscle and motor units. Common disease processes that affect the nervous system are discussed with respect to the basic science of the system. The basic and clinical aspects of behavioral science are also a major portion of the module. Students are introduced to the basic science of behavioral medicine and the common diseases that are encountered. The clinical sciences of neurology, neurosurgery, otolaryngology and psychiatry are represented and offer the clinical applications of the basic sciences.
Components: LEC.
Grading: GRD.

MDR 507. Cardiovascular System. 8 Credit Hours.
The Cardiovascular System module is an interdisciplinary approach to the study of the cardiovascular system including the heart and blood vasculature. The basic sciences of anatomy, physiology, pharmacology, biochemistry, pathology and immunology are integrated with the clinical sciences of cardiology in the study of cardiac function and its response to changes in the body with aging from birth to the elderly. The principles of preload, afterload, cardiac output, cardiac failure, EKG, echo and stress testing are discussed. The effects of congenital defects and the surgical procedures to correct these defects are also discussed.
Components: LEC.
Grading: GRD.

MDR 508. Problem Based Learning I. 0.25 Credit Hours.
The Problem Based Learning I course has the following objectives: 1) integrate different key concepts in human structure, biochemistry, genetics, microbiology and immunology within a case based, problem-centered format and 2) promote self-directed learning and problem solving. PBL I employs small group teaching, with trained facilitators, where students engage in applying basic science principles to clinical problems.
Components: MOD.
Grading: GRD.
MDR 509. Problem Based Learning II. 0.25 Credit Hours.
The Problem Based Learning II course has the following objectives: 1) integrate different key concepts in basic sciences related to medicine within a case based, problem-centered format and 2) promote self-directed learning and problem solving. PBL II employs small group teaching, with trained facilitators, where students engage in applying basic science principles to clinical problems.
Components: MOD.
Grading: GRD.

MDR 510. Fundamentals of Biomedical Science: Cellular Function and Regulation II. 2 Credit Hours.
The Fundamentals of Biomedical Science: Cellular Function and Regulation II course is an introductory course into normal cellular physiology and the general principles of pharmacology. Mechanisms of normal cellular function that are fundamental to all cellular systems are taught during this course. The general concepts of pharmacokinetics including drug delivery, distribution in the body, metabolism, and elimination are discussed during the introduction to pharmacology.
Components: MOD.

Components: MOD.
Grading: GRD.

MDR 512. Geriatrics I. 0 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 513. Foundations in Population Health and Health System Sciences. 2 Credit Hours.
The focus of this course is to address current issues in public health with special attention to individual populations and also to provide an introduction to the workings of the health system as a whole.
Components: LEC.
Grading: GRD.

MDR 516. Complimentary Medicine and Nutrition. 0 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 517. Systems Based Care Theme. 0 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 518. Physicianship I. 4 Credit Hours.
Include eight themes which are: Behavioral Medicine and Special Populations, Clinical Skills, Complementary and Alternative Medicine, Evidence-Based Medicine, Geriatrics - Pain Management and Palliative Care, Population Health, Professionalism and Systems-Based Care.
Components: MOD.
Grading: GRD.

MDR 519. Physicianship II. 4 Credit Hours.
Include eight themes, which are: Behavioral Medicine and Special Populations, Clinical Skills, Complementary and Alternative Medicine, Evidence-Based Medicine, Geriatrics - Pain Management and Palliative Care, Population Health, Professionalism and Systems-Based Care.
Components: MOD.
Grading: GRD.

MDR 520. Epidemiology I. 1 Credit Hour.
The principles of epidemiology including the distribution, determinants of disease frequency and their investigation. There is a review of the biostatistics to help with the evaluation of scientific investigations.
Components: LEC.
Grading: GRD.

MDR 550. Introduction to the Medical Profession. 2 Credit Hours.
This course provides the foundation of the MD/MPH curriculum areas of emphasis. The course covers the role and responsibilities of physicians, concepts of population medicine and professionalism. Along with didactic sessions, the course utilizes communication skills laboratories designed to equip students for the community physician practice settings.
Components: MOD.
Grading: GRD.

MDR 551. CMC Fundamentals of Biomedical Science I. 8 Credit Hours.
The course covers the basic concepts and vocabulary in the disciplines of cell biology and physiology, genetics and biochemistry, immunology, microbiology, anatomy, histology, pharmacology, and pathology. This course will meet for about 20 hours per week with approximately 10 hours of lecture per week and 10 hours per week of small group or other non-lecture sessions. Week-long clinical cases will cover specific learning objectives for the various basic science disciplines, are facilitated by a faculty tutor and lectures are designed to complement the clinical cases. FBS I is a prerequisite for FBS 2 and 3. CMC stands for Continuity Medicine Curriculum.
Components: LEC.
Grading: GRD.

MDR 552. CMC Integration of Public Health and Medicine II. 2 Credit Hours.
The IPHM I course is designed to allow students to develop their fundamental clinical skills (communication, history taking and physical exam skills) in continuity of care environments (community practice setting and Department of Health clinics). The IPHM I course will meet for 4-5 hours per week and is closely coordinated and integrated with the PS course. Community and faculty preceptors will supervise and evaluate students longitudinally. IPHM I is a prerequisite for IPHM II. CMC stands for Continuity Medicine Curriculum.
Components: MOD.
Grading: GRD.

MDR 553. CMC Physicianship Skills I. 2 Credit Hours.
The PS course will expose students to competencies that physicians must master to provide high quality and effective care in today's health care system. The course covers the fundamentals of process evaluation, quality management, outcome assessment, patient satisfaction, patient safety, systems-based care, interprofessional team care, and complex chronic disease management. The PS course will meet for 4 - 5 hours per week. PS I is a prerequisite for PS II. CMC stands for Continuity Medicine Curriculum.
Components: LEC.
Grading: GRD.
MDR 554. CMC Fundamentals of Biomedical Science II. 5 Credit Hours.
The course will meet for about 20 hours per week with approximately 10 hours of lecture per week and 10 hours per week of small group or other non-lecture sessions. The course will cover specific learning objectives for the various basic science disciplines, facilitated by a faculty tutor and lectures are designed to complement the clinical cases. CMC stands for Continuity Medicine Curriculum.

Components: LEC.
Grading: GRD.

MDR 555. CMC Fundamentals of Biomedical Science III. 6 Credit Hours.
The course will meet for about 20 hours per week with approximately 10 hours of lecture per week and 10 hours per week of small group or other non-lecture sessions. The course will cover specific learning objectives for the various basic science disciplines, facilitated by a faculty tutor and lectures are designed to complement the clinical cases. CMC stands for Continuity Medicine Curriculum.

Components: LEC.
Grading: GRD.

MDR 556. CMC Integration of Public Health and Medicine II. 2 Credit Hours.
The module is an interdisciplinary approach to the study of the cardiovascular system, including the heart and blood vessels. The basic sciences are integrated with the clinical sciences of cardiology in the study of cardiac function and its response to changes in the body with aging from birth to the elderly. The module seeks to place the basic sciences of behavioral medicine and the common diseases that are encountered. Finally, the basic sciences are integrated to the clinical sciences of neurology, neurosurgery, otolaryngology and psychiatry. A combination of didactic, small-group and laboratory methods are used.

Components: MOD.
Grading: GRD.

MDR 558. CMC Neuroscience and Behavioral Science. 8 Credit Hours.
The module is an interdisciplinary approach to the study of the nervous system. In the context of the principles of continuity medicine and chronic illness, the module includes neurophysiology, neurochemistry, pharmacology, neuropsychology, microbiology, immunology, and behavioral psychology. Progressing from neuroanatomy to gross anatomy, students learn the structure and function of the nervous system from the head/brain, and neck, to the muscle and motor units. Students are introduced to the basic science of behavioral medicine and the common diseases that are encountered. Finally, the basic sciences are integrated to the clinical sciences of neurology, neurosurgery, otolaryngology and psychiatry. A combination of didactic, small-group and simulation teaching methods are used.

Components: MOD.
Grading: GRD.

MDR 559. CMC Cardiovascular System. 8 Credit Hours.
The module is an interdisciplinary approach to the study of the cardiovascular system including the heart and blood vessels. The basic sciences are integrated with the clinical sciences of cardiology in the study of cardiac function and its response to changes in the body with aging from birth to the elderly. The module seeks to place cardiovascular disease and management into the context of continuity medicine and chronic illness using a combination of didactic, small-group and simulation teaching methods.

Components: MOD.
Grading: GRD.

MDR 600. Medical Curriculum 6. 18 Credit Hours.

Components: LEC.
Grading: GRD.

MDR 601. Sexual Issues in Medical Practice. 2 Credit Hours.

Components: LEC.
Grading: GRD.

MDR 602. Immunobiology. 2 Credit Hours.

Components: LEC.
Grading: GRD.

MDR 603. Pathology. 6 Credit Hours.

Components: LEC.
Grading: GRD.

MDR 604. Clinical Skills II. 6 Credit Hours.

Components: LEC.
Grading: GRD.

MDR 605. Mechanisms of Disease I. 9 Credit Hours.

Components: LEC.
Grading: GRD.

MDR 606. Mechanisms of Disease II. 9 Credit Hours.

Components: LEC.
Grading: GRD.

MDR 607. Pharmacology. 6 Credit Hours.

Components: LEC.
Grading: GRD.

MDR 608. Microbiology. 6 Credit Hours.

Components: LEC.
Grading: GRD.

MDR 609. Introduction to Psychiatry. 1 Credit Hour.

Components: LEC.
Grading: GRD.
MDR 610. Respiratory System. 5 Credit Hours.
The module is an interdisciplinary study of the respiratory system and
includes the anatomy, physiology, immunology, pathology, radiology
and biochemistry of the system. The pathophysiology is illustrated with
clinical vignettes. Students are also exposed to the evaluation of normal
physiological measurement of the respiratory system and the principles
of artificial ventilation. Students should be able to solve clinical problems
in pulmonary medicine and critical care by the end of the module.
Components: LEC.
Grading: GRD.

MDR 611. Accl Basic Science Curriculum. 18 Credit Hours.
Components: LEC.
Grading: GRD.

MDR 612. Renal System. 5 Credit Hours.
The module is an interdisciplinary course of the renal system. Students
study the structure, function and pathophysiology of the kidneys and
genitourinary tract. General concepts of acid-base and electrolyte
balance are studied in the normal and diseased states. The course
provides a foundation for dealing with the various diseases of the renal
system encountered during the clinical years.
Components: LEC.
Grading: GRD.

MDR 613. Endocrine and Reproductive System. 5 Credit Hours.
The module is an interdisciplinary course that deals with the normal
endocrine development, function, pathophysiology and disease
processes. Students are exposed to problems solving of clinical cases
involving endocrine and reproductive medicine. Students will be exposed
to various evaluation and treatment tools available at this time.
Components: LEC.
Grading: GRD.

MDR 614. Gastrointestinal System and Nutrition. 5 Credit Hours.
The module is an integrated course on the molecular and cellular
processes that involve the digestive system and its associated
organs. The module covers the normal structure and function and
the pathophysiological processes that occur during disease states of
the digestive organs. Nutrition and the clinical aspects of obesity and
bariatric surgery are discussed.
Components: LEC.
Grading: GRD.

MDR 615. Hematology and Oncology. 5 Credit Hours.
The module is an introductory course that covers basic hematology that
is essential to the practice of medicine. Students are introduced into the
varia- tions in hematological parameters that are used in the diagnosis
and monitoring of common hematological diseases. The second half
of the module serves as a basic overview of cancer and includes basic
concepts of oncogenesis, epidemiology, biology of cancer, pathology and
the role of the immune system. Students are introduced to the various
treatment modalities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MDR 616. Dermatology and Ophthalmology. 2 Credit Hours.
The Dermatology and Ophthalmology module is an introductory
course that covers the basic pathophysiology and clinical aspects
dermatology and ophthalmology that are essential for a general
physician. The module covers the normal structure and function of skin,
and eye. Common disease diseases of the skin and eye are discussed.
Components: LEC.
Grading: GRD.

MDR 618. Respiratory. 4 Credit Hours.
Components: LEC.
Grading: GRD.

MDR 619. Inflammation and Infectious Disease. 4 Credit Hours.
During this four week segment of the curriculum students are divided into
small groups and will work with a faculty facilitator who has been trained
in small group learning. Students work as a group on clinical scenarios.
They are expected to work as both teacher and student during this
time. Students are to focus on clinical cases involving rheumatological
and infectious disease problems. They receive guiding questions with
each case to assist with their learning process. The students will have
opportunities to interact with experts in the various areas covered in the
cases during consultation sessions. The small group sessions are case
driven. The facilitator is there to assist with group dynamics and not to
serve as a teacher. The student groups work through a clinical scenario
during the three two-hour sessions a week.
Components: LEC.
Grading: GRD.

MDR 620. Problem Based Learning I. 0.25 Credit Hours.
During this segment of the curriculum, students are divided into small
groups and will work with a faculty facilitator who has been trained in
problem based learning. Students work as a group on clinical scenarios.
They are expected to work as both teacher and student during this time
utilizing the knowledge that they have gained during the core and organ
system modules to work through these cases and develop a differential
diagnosis and treatment plan for the patients. The small group sessions
are student driven. Self-directed learning is emphasized. This allows the
students to use their knowledge of basic sciences and to hone the skills
of presentation to a clinical team in preparation for their clinical years.
Components: MOD.
Grading: GRD.

MDR 621. Problem Based Learning II. 0.75 Credit Hours.
During this segment of the curriculum, students are divided into small
groups and will work with a faculty facilitator who has been trained in
problem based learning. Students work as a group on clinical scenarios.
They are expected to work as both teacher and student during this time
utilizing the knowledge that they have gained during the core and organ
system modules to work through these cases and develop a differential
diagnosis and treatment plan for the patients. The small group sessions
are student driven. Self-directed learning is emphasized. This allows the
students to use their knowledge of basic sciences and to hone the skills
of presentation to a clinical team in preparation for their clinical years.
Components: MOD.
Grading: GRD.

MDR 622. Behavioral and Special Populations II. 0 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 623. Evidence Based Population Medicine II. 0 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 624. Clinical Skills II. 0 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 625. Geriatrics End of Life Theme II. 0 Credit Hours.
Components: MOD.
Grading: GRD.
MDR 626. Complimentary Alternative Medicine Theme. 0 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 627. Systems Based Care Theme. 0 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 628. Doctoring and Physicianship Skills III. 4 Credit Hours.
Include eight themes which are: Behavioral Medicine and Special Populations, Clinical Skills, Complementary and Alternative Medicine, Evidence-Based Medicine, Geriatrics - Pain Management and Palliative Care, Population Health, Professionalism and Systems-Based Care.
Components: LEC.
Grading: GRD.

MDR 629. Doctoring IV. 4 Credit Hours.
Include eight themes which are: Behavioral Medicine and Special Populations, Clinical Skills, Complementary and Alternative Medicine, Evidence-Based Medicine, Geriatrics - Pain Management and Palliative Care, Population Health, Professionalism and Systems-Based Care.
Components: LEC.
Grading: GRD.

MDR 630. Epidemiology II. 1 Credit Hour.
The principles of epidemiology including the distribution, determinants of disease frequency and their investigation. There is a review of biostatistics to help with the evaluation of scientific investigations.
Components: LEC.
Grading: GRD.

MDR 650. CMC Gastrointestinal System and Nutrition. 5 Credit Hours.
The course continues the interdisciplinary approach to the study of all the systems included are the gastrointestinal system and the liver, and the normal structure-function and the pathophysiological processing during disease states of the digestive organs. The course seeks to place GI disease and nutrition management into the context of continuity medicine and chronic illness using a combination of didactic, and small-group teaching methods.
Components: LEC.
Grading: GRD.

MDR 651. CMC Respiratory System. 5 Credit Hours.
The course continues the interdisciplinary approach to the study of all the systems. It builds upon the knowledge of respiratory anatomy from the FBS course sequence and covers physiology, immunology, pathology, radiology, and biochemistry of the system. Students are also exposed to the evaluation of normal physiological measurement of the respiratory system and the principles of artificial ventilation. The course seeks to place acute and chronic respiratory disease into the context of continuity medicine using a combination of didactic, clinical case presentations and small-group teaching methods.
Components: LEC.
Grading: GRD.

MDR 652. CMC Renal System. 5 Credit Hours.
The course continues the interdisciplinary approach to the study of all the systems. The structure, function and pathophysiology of the kidneys and genito-urinary tract are covered. General concepts of acid-base and electrolyte balance are studied in the normal and acute and chronic diseased states. The course seeks to place renal disease into the context of continuity medicine and chronic illness and care, and uses a combination of didactic, clinical case presentations, simulation and small-group teaching methods.
Components: LEC.
Grading: GRD.

MDR 653. CMC Inflammation and Infectious Diseases. 4 Credit Hours.
The course uses an interdisciplinary approach to present basic concepts of rheumatology (inflammation) and uses these disciplines to present the basic concepts of infectious processes and disease. The course uses a combination of didactic, clinical case presentations, and small-group teaching methods.
Components: LEC.
Grading: GRD.

MDR 654. CMC Hematology and Oncology I. 3 Credit Hours.
The course presents basic hematological concepts essential to the practice of medicine. Variations in hematological parameters used in diagnosis and monitoring of common hematological diseases are presented and integrated with a basic overview of cancer. This includes basic concepts of oncogenesis, epidemiology, biology of cancer, pathology and the role of the immune system. The course seeks to place hematological disorders and cancer into the context of continuity medicine and chronic illness and care, and uses a combination of didactic, clinical case presentations and small-group teaching methods.
Components: LEC.
Grading: GRD.

MDR 655. CMC Endocrinology and Reproductive System. 5 Credit Hours.
The course is an interdisciplinary approach to the study of normal endocrine, function, pathophysiology and disease processes. Students are exposed to problem solving of clinical cases involving endocrine and reproductive medicine. The course seeks to place endocrine disorders and management into the context of continuity medicine and chronic illness using a combination of didactic and small-group teaching methods.
Components: LEC.
Grading: GRD.

Typically Offered: Spring.

MDR 656. CMC Integration of Public Health and Medicine III. 1 Credit Hour.
The IPHM III course is designed to allow students to apply their clinical skills (communication, history taking and physical exam skills) in continuity of care environments (community practice setting and Department of Health clinics). The IPHM III course will meet for 4-5 hours per week and is closely coordinated and integrated with the PS3 course. Community and faculty preceptors will supervise and evaluate students longitudinally.
Components: MOD.
Grading: GRD.

Typically Offered: Fall & Spring.

MDR 657. CMC Physicianship Skills 3. 5 Credit Hours.
The PS3 course exposes students to more advanced competencies that physicians must master to provide high quality and effective care in today's health care system. The course reviews and expands upon the process of evaluation, quality management, outcomes assessment, patient satisfaction, patient safety, systems-based care, interprofessional team care, and complex chronic disease management. The PS3 course will meet for 4-5 hours per week.
Components: LEC.
Grading: GRD.

Typically Offered: Fall & Spring.
MDR 658. CMC Hematology and Oncology II. 2 Credit Hours.
The course presents basic hematology concepts essential to the practice of medicine. Variations in hematological parameters used in diagnosis and monitoring of common hematological diseases are presented and integrated with a basic overview of cancer. This includes basic concepts of oncogenesis, epidemiology, biology of cancer, pathology and the role of the immune system. The course seeks to place hematological disorders and cancer into the context of continuity medicine and chronic illness and care, and uses a combination of didactic, clinical case presentations and small-group teaching methods.
Components: LEC.
Grading: GRD.

MDR 659. CMC Dermatology and Ophthalmology. 2 Credit Hours.
The course uses an interdisciplinary approach to present basic concepts of Dermatology and Ophthalmology and uses these disciplines to present the basic concepts of infectious processes and disease. The course uses a combination of didactic, clinical case presentations, and small-group teaching methods.
Components: LEC.
Grading: GRD.

MDR 660. CMC Integration of Public Health and Medicine IV. 1 Credit Hour.
The IPHM IV course is designed to allow students to apply their clinical skills (communication, history taking and physical exam skills) in continuity of care environments (community practice setting and Department of Health clinics). The IPHM IV course will meet for 4-5 hours per week and is closely coordinated and integrated with the PS3 course. Community and faculty preceptors will supervise and evaluate students longitudinally.
Components: MOD.
Grading: GRD.

MDR 661. Physicianship IV. 1 Credit Hour.
Components: MOD.
Grading: GRD.

MDR 700. Medical Curriculum 7. 18 Credit Hours.
Components: LEC.
Grading: GRD.

MDR 701. Introduction to Radiology. 0 Credit Hours.
Components: LEC.
Grading: GRD.

MDR 702. Interprofessional Patient Safety. 1 Credit Hour.
The Patient Safety/Transition to the Wards module is a one week module geared towards preparing students for their role in the health care field. The goals are to provide students with the requisite knowledge, skills, behaviors and attitudes to not only deliver safe patient care but also to be able to identify and solve patient safety problems. The course involves a series of interactive didactic sessions and simulated role play at the UM-JMH Center for Patient Safety.
Components: MOD.
Grading: GRD.

MDR 703. Core Family and Community Medicine. 4 Credit Hours.
The family medicine and geriatric medicine clerkship is a community based primary care rotation where students are exposed to patients in the outpatient setting. Students are introduced to the whole patient approach to medical care. They are expected to gain a working knowledge of the types of medical conditions that are commonly seen in the primary care setting. They will become familiar with managed care concepts of health delivery. They should gain an appreciation for how cultural and social influences affect the perception of health and management of diseases. They should acquire an understanding of the concepts of continuity and coordination of care. Students will also spend one week of intensive training experience on the acute care of elders unit at Jackson Memorial Hospital. They will become proficient in the use of assessment instruments in the evaluation of the geriatric patient. Students are evaluated on their knowledge of family medicine and geriatrics, their interpersonal skills, and their professionalism.
Components: LEC.
Grading: GRD.

MDR 705. Core Generalist Primary Care Clerkship. 4 Credit Hours.
The generalist primary care clerkship exposes students to ambulatory medicine. Students are expected to become competent in the properties of common diseases seen in an outpatient setting. They will gain skills and competence in the history taking, physical examination, diagnosis and treatment of these conditions. They will also rotate through a variety of specialty care areas and will evaluate patients with the guidance of specialty care faculty. Students are evaluated on their knowledge of ambulatory medicine, their interpersonal skills, and their professionalism.
Components: LEC.
Grading: GRD.

MDR 706. Core Internal Medicine Clerkship. 8 Credit Hours.
The Internal Medicine clerkship is a rotation where students are expected to further develop their skills of history taking, physical examination, and observation. They are to gain knowledge about the diagnosis and treatment of medical conditions. They will practice their skills of communication with their team, the hospital staff, and their patients. The clerkship has didactic activities in addition to the bedside teaching, student report, and patient oriented problem solving sessions. Students are evaluated on their knowledge of medicine, their interpersonal skills, and their professionalism.
Components: LEC.
Grading: GRD.

MDR 707. Neurology Clerkship. 4 Credit Hours.
The Neurology Clerkship exposes students to common and emergency neurological diseases. Students have the option of exposure to Pediatric Neurology during the clerkship. Students are expected to become competent in the neurological examination, diagnosis, evaluation by various modalities of imaging and laboratory testing, and treatment options. Students are exposed to inpatient ward, consult and stroke services. Students are evaluated on their knowledge of neurology, their interpersonal skills, and their professionalism.
Components: LEC.
Grading: GRD.
MDR 708. Core Obstetrics and Gynecology Clerkship. 6 Credit Hours.
The Ob/Gyn clerkship offers clinical and didactic learning opportunities in the varied settings of ob/gyn practice - the operating room, inpatient wards, the clinic, labor and delivery, and the ultrasound suite. Students are assigned to JMH, community hospital and private practice sites to varying degrees to meet learning requirements. Students learn the clinical presentations and differential diagnosis of the conditions comprising the majority women's reproductive health care - with nearly even distribution of obstetrics and gynecology topics. On site clinical learning is supplemented with case based and problem based didactic learning, both in the intermediate sized classroom and small group learning settings. Ethical reasoning, EBM, suturing and communications skills and issues are covered in the workshop format. Students will learn how women's cultural, educational and socioeconomic backgrounds affect their access to health care their values about fertility, childbirth, and contraception, the consequences of sexual behaviors and their understanding of their bodies throughout life, and their power in relationships and the role of sexuality in their lives. The evaluation system focuses on medical knowledge, communications skills and EBM skills.
Components: LEC; Grading: GRD.

MDR 709. Core Pediatrics Clerkship. 6 Credit Hours.
The clerkship exposes the students to the spectrum of the pediatric population from neonates to adolescence. It is divided into experiences on the clinical ward service, ambulatory, emergency room, neonatal and comprehensive healthcare program. Students are expected to become competent in the examination of the child and in common pediatric diseases. The teaching is divided between ward based teaching rounds and didactic sessions. Students are evaluated on their knowledge of pediatrics, their interpersonal skills, and their professionalism.
Components: LEC; Grading: GRD.

MDR 710. Core Psychiatry Clerkship. 6 Credit Hours.
The clerkship exposes students to psychiatric disorders and the psychiatric patient. Students are expected to become competent with obtaining a psychiatric history and performing a mental status examination. They are expected to identify and evaluate patients with neuropsychiatric and substance abuse symptoms. They are expected to recognize the spectrum of ages affected by psychiatric disorders and brain diseases. They will become acquainted with the laboratory and imaging testing relevant to the clinical manifestations of psychiatric disorders. They are expected to be knowledgeable as to the various medications used in the treatment of these diseases, including potential drug interactions. Students are evaluated on their knowledge of psychiatry, their interpersonal skills, and their professionalism.
Components: LEC; Grading: GRD.

MDR 711. Core Surgery Clerkship. 8 Credit Hours.
The surgical clerkship is a rotation where students gain knowledge about diseases that have surgery as a treatment modality. Students are exposed to the operating room and assist in surgical procedures. They are expected to gain an understanding of the pathophysiology of the disease processes and have a basic knowledge of the diagnosis and treatment of them. They are expected to develop the basic surgical skills that are expected of a general physician. Students evaluated on their knowledge of surgery, their interpersonal skills, and their professionalism.
Components: LEC; Grading: GRD.

MDR 712. Anesthesiology Clerkship. 2 Credit Hours.
The anesthesia clerkship exposes students to the various techniques used by anesthesiologists during surgical procedures and exposes them to the pre-operative evaluation of patients and post-operative care. Students will use the simulation training devices to become competent in the techniques of management of a patient and their airway. Students will become knowledgeable on the pharmacology of the various medications used in anesthesia. Students are evaluated on their knowledge of anesthesia, their interpersonal skills, and their professionalism. No interviewing during Thanksgiving block.
Components: LEC; Grading: GRD.

MDR 714. Caring for Families and Communities. 8 Credit Hours.
Caring for Families and Communities (CFC) clerkship will help prepare students for the unique and evolving role of the physician in the ever changing health care system. During this 8-week clerkship, you will have many opportunities to work closely with patients. primary care physicians, and other members of the health care team in the varied clinical settings in which future physicians will encounter patients. You will be learning and practicing both the traditional and less traditional skills necessary for our future physicians. You will learn about the importance of meeting the healthcare needs of communities of patients as well as individual patients and will develop some of the knowledge and skills necessary to fulfill these fundamental physician responsibilities. No matter what career path you choose, the experiences, knowledge, and skills that you gain from this clerkship are intended to help you become the best physician you can be.
Components: LEC; Grading: GRD.

MDR 756. RMC Core Integrated Internal Medicine Clerkship. 12 Credit Hours.
The Integrated Medicine clerkship offers students parallel training in internal medicine primarily, geriatrics and palliative care. Radiology is included as it supports clinical decision making in internal medicine. Students will acquire the clinical skills, critical thinking skills, knowledge, and professional behaviors necessary to provide comprehensive medical care for adults and develop experience in the assessment, evaluation, and basic management of important, common problems encountered in inpatient internal medicine. The objectives for the clerkship are derived from the internal medicine and geriatrics clerkships on the main campus and from the Clerkship Directors in Internal Medicine guidelines. Students will spend half the rotation as part of a team with the UMMSM Internal Medicine residents based at JFK and half the rotation assigned to an internist preceptor and spend their time in both inpatient and outpatient settings. Students will also participate in a geriatrics consult service and a palliative care consult service. Academic half-days will include lecture and small-group activities in the individual disciplines along with integrated multidisciplinary activities. Assessment will be achieved by the use of the NBME Subject Exam in Medicine, clinical performance evaluation by faculty preceptor, observed clinical histories and physical exams and written case reports.
Components: LEC; Grading: GRD.
MDR 757. JFK Neurology Clerkship. 4 Credit Hours.
The primary goals of the Neurology Clerkship are for you to gain competence in taking a neurologic history and performing a neurologic exam, and use them to aid in localization and diagnosis of neurologic disease. Also, it is hoped students will develop knowledge, attitudes, and skills necessary to assess, diagnose and refer patients presenting in the primary care setting with neurologic complaints. Students will have the opportunity to explore the field of neurology as a potential career path through exposure to a variety of complaints, diagnoses, patient encounters, and case-based didactics. Students are evaluated on their knowledge of neurology, their interpersonal skills, and their professionalism.
Components: LEC.
Grading: LEC.

MDR 758. RMC Core Obstetrics and Gynecology Clerkship. 6 Credit Hours.
By the end of the clerkship, students will demonstrate the ability to obtain a complete obstetric and gynecologic age-appropriate history and perform the physical examination which elicits information necessary for diagnosis and treatment. Students will complement their clinical experience in the office and on the wards with independent directed study and recognize the importance of interdisciplinary collaboration in optimizing clinical outcomes for patients, work effectively with other health professionals, and demonstrate knowledge of the role of obstetrics and gynecological care in the broader community and health care system. Academic half-days will include lecture and small-group activities. Assessment will be achieved by the use of the NBME Subject Exam in Obstetrics and Gynecology, clinical performance evaluation by faculty preceptor, observed structured clinical examination (OSCE), written case reports and journal club.
Components: LEC.
Grading: GRD.

MDR 759. RMC Core Pediatrics Clerkship. 6 Credit Hours.
By the end of this clerkship, students will demonstrate the ability to obtain a complete age-appropriate pediatric history which elicits information necessary for diagnosis and treatment and will demonstrate knowledge of appropriate health supervision, anticipatory guidance, and preventive medicine in pediatrics. Students will demonstrate interpersonal and communication skills that result in effective information exchange and collaboration with patients, their families, and other health care providers. Students will be assigned to a general pediatrician preceptor and spend their time in the clinical ward service, ambulatory, emergency room, neonatal and the hospital setting, and a comprehensive healthcare program in private practice. Academic half-days will include lecture and small-group activities. Assessment will be achieved by the use of the NBME Subject Exam in Pediatrics, clinical performance evaluation by faculty preceptor, observed clinical histories and physical exams and written case reports.
Components: LEC.
Grading: GRD.

MDR 760. RMC Core Psychiatry Clerkship. 6 Credit Hours.
By the end of this clerkship, students will demonstrate the ability to obtain a complete psychiatric history, recognize relevant physical findings and perform a complete mental status examination, and conduct a psychiatric interview which elicits information necessary for diagnosis and treatment, all of which form the basis of a therapeutic alliance with the patient. Students will demonstrate knowledge of common psychiatric emergencies and their management and demonstrate the ability to evaluate both their patient care practices and the scientific evidence, in order to improve the quality of care they deliver to patients with psychiatric illness. Academic half-days will include lecture and small-group activities. Assessment will be achieved by the use of the NBME Subject Exam in Psychiatry, clinical performance evaluation by faculty preceptor, observed clinical histories and written case reports.
Components: LEC.
Grading: GRD.

MDR 761. RMC Core Integrated Surgery Clerkship. 12 Credit Hours.
The Integrated Surgery clerkship offers students parallel training in surgery primarily, anesthesiology and radiology. Students will acquire the clinical skills, critical thinking skills, knowledge, and professional behaviors necessary to provide comprehensive pre-operative evaluation of patients and post-operative care. Students will spend half the rotation assigned to a general surgeon and the other with a vascular surgeon in order to acquire the skills and knowledge about diseases that have surgery as a treatment modality. Students will be part of the operating room teams and assist in surgical procedures. Students will be expected to assist the anesthesiology teams for pre- and post-surgical care. Radiology experiences will be provided by the JFK radiology team during discipline-specific teaching time but also as part of the care of the patient pre- and post-surgery. Academic half-days will include lecture and small-group activities in the individual disciplines along with integrated multidisciplinary activities. Assessment will be achieved by the use of the NBME Subject Exam in Surgery, clinical performance evaluation, observed clinical histories and physical exams and written case reports.
Components: LEC.
Grading: GRD.

MDR 764. RMC Core Family Medicine Clerkship. 6 Credit Hours.
The clerkship aims to train students to provide care that is compassionate, appropriate and effective for the treatment of health problems and the promotion of health. The objectives for the clerkship are derived initially from the clerkship objectives on the main campus and from the Society for the Teaching of Family Medicine guidelines. Students will be assigned to a family medicine preceptor and spend the majority of their time in the private practice. Academic half-days will include lecture and small-group activities. Assessment will be achieved by the use of the NBME Subject Exam in Family Medicine, clinical performance evaluation by faculty preceptor, observed clinical histories and physical exams and written case reports.
Components: LEC.
Grading: GRD.
MDR 765. RMC Community Public Health Practicum. 2 Credit Hours.
This course will build upon the experiences in the first two years during Community & Public Health Practicum 1. All students will spend one afternoon per week during the core clinical clerkships during this practicum course. Students will rotate through a repeating sequence of four experiences each week: an afternoon in their public health continuity clinic, an immersion experience with Department of Health sites, work on their public health capstone project, and a monthly seminar series. Seminars in contemporary Public Health Issues. In their continuity primary care clinics they will be assigned to a public health FQHC clinic in an underserved community in Palm Beach County. They will work with general internist physicians in this clinic. The course is Pass/Fail and contingent upon attendance, enthusiasm, and professionalism.
Components: PRA.
Grading: GRD.

MDR 766. RMC Physician Skills IV. 0 Credit Hours.
The PS4: Transitions to Residency course continues the themes addressed in PS1-2-3 related to the competencies that physicians must master to provide high quality and effective care in today’s health care system. The course expands upon the themes of communication skills, medical ethics, medical humanities, wellness, time-management strategies, patient safety, systems-based care, inter-professional team care, and preparing for life as a medical resident within the applied setting of the year 3 clerkships. The PS4 course will meet for eight sessions for two-hours each during the academic year. Each session is delivered in the form of learning communities, with faculty and student continuity throughout the year. This allows for small group discussion, communication skill role plays, team-based learning, and the forging of mentoring relationships. A passing grade will be contingent on attendance at the eight sessions, completion of journal activities, and satisfactory participation.
Components: MOD.
Grading: GRD.

MDR 800. Ultrasound in Gynecology and Obstetrics. 2-4 Credit Hours.
This rotation is an intensive experience with the faculty of the Division of Ultrasound in the Department of Obstetrics and Gynecology. It is geared for students interested in the fields of Obstetrics and Gynecology, Radiology and/or General Surgery. The emphasis of the rotation is on the use of ultrasound as a diagnostic and therapeutic tool in women's health. The student will observe and participate in diagnostic ultrasound for gynecologic problems, routine and complicated obstetrics, and ultrasound guided procedures for gynecologic and obstetrical indications. This will be complemented by time in the operating room for general gynecologic surgery and on labor and delivery. Students are expected to display a high level of intellectual curiosity and perform as a self motivated learner. For students with an interest in Obstetrics and Gynecology or Radiology there may be opportunities to become involved with research with the attending physicians.
Components: MOD.
Grading: GRD.

MDR 801. University of Miami Hospital Gynecology. 4 Credit Hours.
This rotation is intended for students with an interest in the fields of Obstetrics and Gynecology, Urology, General Surgery and Family Medicine. Students will become an integral part of the gynecology service at the University of Miami Hospital. Experience will include participation in private practice clinics, office surgery, inpatient consults, surgery in the operating room and post operative care. Surgeries will include minor procedures, operative laparoscopy, robotics and open gynecologic surgery. Students are expected to display a high level of intellectual curiosity and perform at the level of an in Obstetrics and Gynecology.
Components: MOD.
Grading: GRD.

MDR 802. Ophthalmology @ BPEI Naples FL. 2 Credit Hours.
The two week clinical elective in ophthalmology is geared toward fourth year medical students with an interest in obtaining a basic understanding of fundamental ophthalmology for students NOT pursuing a career in ophthalmology. Aspects of ophthalmology that are pertinent to the practice of internal medicine, neurology, pediatrics, family practice and other primary care specialties will also be taught. Students will rotate through the emergency room, operating room, and various subspecialty clinics at the Bascom Palmer Eye Institute where they will shadow attendings and housestaff. Students will be required to keep a patient log and will be expected to complete an online course. A case presentation session based on the patient pathology seen throughout the course will take place at the end of the rotation. Students are also welcome to attend weekly grand rounds and fluorescein conferences as well as daily resident lectures during the rotation.
Components: MOD.
Grading: GRD.

MDR 803. Mechanisms of Disease I. 1-9 Credit Hours.
Components: MOD.
Grading: PNP.

MDR 804. Mechanisms of Disease II. 1-9 Credit Hours.
Components: MOD.
Grading: PNP.

MDR 805. Geriatrics: Morse Center Palm Beach. 2 Credit Hours.
The medical student will spend two weeks at the Morse Geriatric Center and assume responsibility for the care of older patients under the supervision of a board-certified geriatrician, geriatric medicine fellows, and members of the interdisciplinary care team. Our mission is to teach, model and assess the knowledge, skills, and attitudes needed by medical students to complete a comprehensive geriatrics assessment. Clinical activities will take place in multiple chronic care venues including the Morse Geriatric Center, a long term care facility, the Levine Rehabilitation Center, a subacute rehabilitation center, the Traditions of the Palm Beaches, an assisted living center; and the Geriatric Clinic.
Components: MOD.
Grading: GRD.

MDR 806. Wound Healing. 2-4 Credit Hours.
The student will be exposed to a multitude of difficult-to-heal wounds in the lower extremity (i.e. diabetic foot ulcers, venous ulcers), trunk (pressure sores), upper extremities (traumatic, infected), and head and neck (cancers, etc.) Students will interview patients with chronic and acute wounds and identify critical pathways that will lead to the diagnosis, etiology, pathophysiology and treatment of these difficult-to-heal wounds. Students will learn to care for these wounds and make clinical interventions and recommendations to their healing.
Components: MOD.
Grading: GRD.
MDR 807. Advanced Gross Anatomy. 2-4 Credit Hours.
Intended primarily for students applying for surgical or orthopedic residency programs, this elective provides the ability to study advanced regional anatomy with opportunities for students to develop teaching and presentation skills.
Components: MOD.
Grading: GRD.

MDR 808. Third Year Anesthesiology. 2 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 809. Advanced Anesthesiology. 4 Credit Hours.
The Senior Elective rotation program is consistent with the guidelines of the American Society of Anesthesiology. However, few additions and modifications are included in order to make this rotation a more meaningful one for a student who has been exposed to anesthesiology during his junior year. By the end of the rotation, the student is expected to be proficient in airway management, pharmacology of general and local anesthetics, drug interactions, and the medical evaluation of surgical patients as it pertains to anesthesia.
Components: MOD.
Grading: GRD.

MDR 810. Cell Biology Research. 2 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 811. Dermatology. 2-4 Credit Hours.
The student will attend 7 clinics per week, weekly management conferences and grand rounds, the Miami Dermatology Society meetings (which are held 6 times a year), journal club, and slide conferences. The student will participate in outpatient dermatologic care, under supervision of the Chief Resident and a member of the faculty, at Jackson Memorial Hospital and the University of Miami Hospital. Development of history taking, diagnostic skills, and ambulatory management of dermatological diseases will be emphasized in this elective program. Basic diagnostic procedures, including punch and shave biopsies, Tzanck, scabies, and potassium hydroxide preparations will be taught. There will also be opportunities to observe surgical therapy and the Dermatology inpatient service. All students will be required to participate in slide reading session with Dr. Elgart and there will be a quiz at the end of the rotation.
Components: MOD.
Grading: GRD.

MDR 812. Emergency Medicine Clerkship. 4 Credit Hours.
The Emergency Medicine four-week rotation will provide both classroom teaching, simulation, and hands-on clinical experience in emergency care of patients of all ages with a wide spectrum of illnesses and injuries. Students are expected to evaluate and manage assigned patients under the direct supervision of an EM attending physician. Students will also gain additional experience at physical diagnosis and procedural skills by working with patients being evaluated by other housestaff, as appropriate for teaching. Emphasis is placed upon initial assessment, recognition, prioritization, and stabilization of acute emergency conditions. Procedural skills are an important emphasized component, including wound repair, intravenous techniques, airway management, ACLS care, fracture and soft tissue injury management, incision and drainage procedures, etc. This rotation also includes a variety of generalist skills in handling minor acute conditions that will be encountered frequently in primary care practice. The student will participate in the provision of pre-hospital emergency care with a Fire Rescue EMS crew.
Components: LEC.
Grading: GRD.

MDR 813. Emergency Medicine Intensive Care Unit. 4 Credit Hours.
The emergency medicine / intensive care clerkship will give students exposure to the evaluation and treatment of critically ill patients. Students can choose to do either the entire time in the emergency rooms or divide the clerkship between emergency rooms and the intensive care rooms. Students will become competent in the rapid, systematic approach to assessment and diagnosis of a patient in the emergency room. They will be exposed to various procedures such as intubation, central lines, lavage, and phlebotomy. Students are evaluated on their knowledge of critical care, their interpersonal skills, and their professionalism.
Components: LEC.
Grading: GRD.

MDR 814. Externship not at University of Miami. 2-8 Credit Hours.
A maximum of 12 weeks may be spent in elective time away from UMMSM. Externship time in excess of the allowable 12 weeks will be counted for credit but will not count towards fulfillment of the required 14 weeks of Electives, unless a student obtains prior written approval from the Senior Associate Dean for Undergraduate Medical Education. In other words, at least two weeks of Electives must be taken at your home school. Externship experiences must be described in the course catalog of the host institution. No externships with physicians in private practice will be approved.
Components: MOD.
Grading: GRD.

MDR 815. Family Medicine in the Florida Keys. 2-4 Credit Hours.
Since late 1992, third year medical students have been given the opportunity to complete their Family Medicine rotation in the private office of physicians practicing in the Florida Keys. The popular rotation has prompted many students to request similar experience during the senior year.
Components: MOD.
Grading: GRD.
MDR 817. Family Medicine Preceptorship. 2 Credit Hours.
Students taking the Family Medicine Preceptorship will have the
opportunity to experience the true essence and diversity of Family
Practice in an ambulatory setting and develop knowledge of the specialty.
*Students are expected to participate with their family physician
preceptor in all health care related activities. These may include but are
not limited to: management of hospitalized patients, nursing home visits,
home visits and volunteer activities.
Components: MOD.
Grading: GRD.

MDR 818. Family Medicine Practice Based Research. 4 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 819. Family Medicine Sub-I. 4 Credit Hours.
The overall goal for the students taking Inpatient Family Medicine (Ward
Family Medicine) is to afford them the opportunity to experience Family
Medicine in an inpatient setting, and to develop some knowledge of the
Components: MOD.
Grading: GRD.

MDR 820. Ambulatory Internal Medicine. 2-4 Credit Hours.
The ambulatory block rotation serves to enhance the medical student’s
knowledge and skills in caring for the ambulatory medical patient.
Students will primarily be seeing patients which are new to the outpatient
clinic, addressing preventive screening as well as care of chronic
Conditions such as diabetes, hypertension, cardiomyopathy, and chronic
Obstructive pulmonary disease. In addition, they will be exposed to
Patients with the following characteristics: - Ambulatory patients with
Acute complaints - Gender-specific medical care - Patients recently
discharged from the inpatient setting or from the emergency room -
Patients being evaluated for surgery - Patients presenting for routine GYN
care.
Components: MOD.
Grading: GRD.

MDR 821. Arthritis. 2-4 Credit Hours.
This elective will teach the student an approach to the diagnosis,
management and therapy of common rheumatic disease including
Rheumatoid arthritis, gout and osteoarthritis. In addition, unusual
diseases such as systemic sclerosis, polymyositis, and vasculitis are
seen. Students will become proficient in the examination of joints and
Interpretation of joint fluid findings.
Components: MOD.
Grading: GRD.

MDR 822. UMH Cardiovascular Intensive Care Unit. 4 Credit Hours.
This elective is intended to provide the senior medical student with a
variety of cardiac critical care experiences, including acute myocardial
Infarction, heart, failure, valvular heart disease, and arrhythmias. The
Student will also be exposed to clinical research ranging from valvular
Heart disease to stem cell transplantation. Three-to-four cardiology
Conferences will be offered each week, supplementing the daily teaching
rounds, which include didactic presentations. An opportunity for
Procedures experience, including central line placement, will also be
available.
Components: MOD.
Grading: GRD.

MDR 823. Cardiology Teaching Lab - Harvey (4 wks). 4 Credit Hours.
This rotation consists of a comprehensive review of cardiology for the
Clinician. A clinician must be able to evaluate and treat cardiology
patients, as they represent the largest subset of patients they see with
Significant disease. Each student is trained to develop the knowledge
and skills needed to conduct a complete cardiovascular history and
Bedside examination. The rotation includes the integration of the Bedside
Evaluation with the current indications for non-invasive and invasive
diagnostic testing. The diagnosis and management of valvular heart
disease, coronary heart disease, hypertensive heart disease, congestive
failure, and congenital lesions are covered by didactic lectures, patient
Presentations (certain rotations), review of highly selected material
during Self-Learning time, and by group and individual sessions with
Harvey, the Cardiopulmonary Patient Simulator. The UMedic multimedia
computer curriculum is incorporated into the elective to further
Interactive self-learning. Didactic ECG and Arrhythmia lectures are given
daily. Each student will also read, interpret and review electrocardiograms
and arrhythmias with clinical faculty. Students will use web-based
Programs, Essential ECG and Essential Arrhythmia, to facilitate their
Learning.
Components: MOD.
Grading: GRD.

MDR 824. JMH Cardiology Consult. 2-4 Credit Hours.
This rotation includes consultative diagnosis, electrocardiography, and
Intensive medical and surgical cardiac care at JMH. Students work
up patients and discuss the history and physical findings with the
Cardiology fellows, participate in daily consultation rounds with the
Attending cardiologists, and are in the supervision of fellows and faculty.
Students attend and participate in the cardiology conference; and for
Those interested, a period of observation in the Cardiac Catheterization
Laboratory may be arranged.
Components: MOD.
Grading: GRD.

MDR 825. Clinical Cardiology at Mount Sinai Medical Center. 4 Credit
Hours.
Components: MOD.
Grading: GRD.

MDR 826. Endocrinology, Diabetes and Metabolism. 4 Credit Hours.
This is a 4-week elective intended to expose the senior medical student
to a spectrum of experiences in Endocrinology and Diabetes. The student
will spend time at Jackson Memorial Hospital (JMH) and University
of Miami Hospital (UMH) on the inpatient Diabetes and Endocrinology
consult services, seeing patients in consultation and follow-up and
discussing them with the fellows and attending on rounds. The student
will attend the JMH and VA diabetes and endocrinology outpatient
clinics. All students will meet with the clerkship director and are expected
to attend all conferences.
Components: MOD.
Grading: GRD.

MDR 827. Advanced Geriatrics. 2-4 Credit Hours.
This senior level elective in geriatric medicine allows students to gain
additional experience evaluating older patients in a variety of care
settings under the supervision of attendings physicians and fellows in
Geriatric medicine. It can also be designed to give students a clinical or
Research experience in a specialized area of geriatrics tailored to their
Interests. Students will be assigned to a primary clinical venue and
will have opportunities to rotate through other care settings (inpatient
Consultation, outpatient, home-based and/or long term care).
Components: MOD.
Grading: GRD.
MDR 828. Community Preventive Medicine. 2-4 Credit Hours.
To provide students with practice-oriented and/or service-oriented learning opportunities related to community medicine. Students will learn about the types and functions of the formal and informal medical, public health, and social support programs involved in community health care. The course is designed to be individualized to students’ specific population-medicine interests.
Components: MOD.
Grading: GRD.

MDR 829. JMH Coronary Care Unit. 2-4 Credit Hours.
This elective presents students with the opportunity to follow patients with life endangering cardiac problems from the moment of admission to the hospital to discharge from the Unit. Particular emphasis is placed on clinical aspects of diagnosis and management of these patients. Participation in the insertion of Swann-Ganz and pacemaker catheters shall be allowed for students who show exceptional interest. The rotation will, in addition, provide experience in computerized monitoring of arrhythmias, EKG and echocardiographic interpretations, and experience in interpreting cardiac catheterization data.
Components: MOD.
Grading: GRD.

MDR 830. Gastroenterology. 2-4 Credit Hours.
This is a 4-week elective intended to expose the senior medical student to a wide spectrum of experiences in gastroenterology. Each week or two (depending on the length of the elective), the student will rotate through a different hospital/clinic setting and see patients/procedures based on the emphasis at that location. The student will spend time at Jackson Memorial Hospital on the consult service, seeing patients in consultation and follow-up and discussing them with the fellows and attending on rounds. The student will also watch endoscopy and learn its indications and findings. At the University of Miami Hospital, students will be exposed to a more tertiary care setting, also rounding with the fellow and attending and watching procedures, some of which are more advanced and not done at Jackson. At the University of Miami Hospital and Clinics, the student will be given an outpatient experience, including subspecialty clinics in Inflammatory Bowel Disease and Motility while also watching advanced endoscopic procedures. The student will have the opportunity to go to clinic and watch procedures at the VA as well. The rotation director will try to meet with the students during the rotation, and they are expected to attend fellow conferences and the VA and JMH fellows’ clinics.
Components: MOD.
Grading: GRD.

MDR 831. General Ambulatory Internal Medicine at Veteran's Adm. 2-4 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 832. Advanced Geriatrics @ Miami Jewish Home. 2 Credit Hours.
The medical student will spend two weeks at the Miami Jewish Health Systems and assume responsibility for the care of older patients under the supervision of a faculty member and members of the interdisciplinary care team. The goal is to teach, model and assess the knowledge, skills, and attitudes needed by medical students to complete a comprehensive geriatrics assessment. Clinical activities will take place in multiple chronic care venues available at the Miami Jewish Health Systems, which include a nursing home, an assisted living facility, outpatient clinics, and an inpatient hospital.
Components: MOD.
Grading: GRD.

MDR 833. Hematology. 2-4 Credit Hours.
The objective of this clinical hematology program is to allow students to obtain experience in the diagnosis and management of hematological disease, in the performance of marrow aspiration and in the study of morphology of peripheral blood cells and bone marrow. Students are expected to participate in the workup of hematology consults, hematology conferences, rounds, and seminars. Direct contact during teaching rounds between the students and faculty provides ongoing evaluation of the progress and comprehension.
Components: MOD.
Grading: GRD.

MDR 834. Hepatology. 2-4 Credit Hours.
The student will be exposed to a wide spectrum of liver and biliary disease. The pathogenesis and development of a practical clinical approach to the recognition and differential diagnosis of these disorders will be emphasized. The student may opt for a predominantly outpatient or inpatient exposure or a combination of both. In the outpatient rotation the student will be assigned to the clinic fellow and will attend daily outpatient clinic at UMHC with different faculty members. In the inpatient rotation the student will round with the inpatient fellow and attending on the patients admitted to the Hepatology service at UM and inpatient Hepatology consults. In a 4-week rotation the student may opt to spend 2 weeks in the outpatient and 2 weeks in the inpatient setting or all 4 weeks in one of them. There are daily morning conferences at 8:00 a.m., weekly liver biopsy / tumor conferences and literature review sessions.
Components: MOD.
Grading: GRD.

MDR 835. Mt. Sinai Infectious Diseases. 4 Credit Hours.
The goal of the elective is to provide the opportunity to increase understanding of the broad range of Infectious Disease through the experience of serving as a consultant. Students work closely with the fellow and Attending in Infectious Disease at Mt. Sinai Medical Center. The student is expected to see patients as a consultant. Cases are presented to Attending physician and discussed in detail. There are special microbiology laboratory conferences and a weekly Infectious Disease clinical conference.
Components: MOD.
Grading: GRD.

MDR 836. Infectious Diseases. 2-4 Credit Hours.
This elective provides a learning experience in the clinical discipline of Infectious Diseases, a discipline that stresses accurate definition of disease and establishment of an etiologic diagnosis through clinical assessment and microbiologic testing. Treatment can be rationally selected when the etiologic diagnosis is correctly identified. Appropriate initiation and discontinuation of antimicrobials are key activities on the ID service. Performing these steps under guidance of a physician with ID specialty training provides the essence of this clinical experience. This elective provides a unique opportunity to see a broad range of infectious diseases.
Components: MOD.
Grading: GRD.
MDR 837. Hospital, Health Care Services, and Access: An Interdisciplinary Inquiry. 2 Credit Hours.
Hospitals are settings in which great numbers of people converge and interact in surprisingly many ways. This interdisciplinary course will offer graduate students across the University the opportunity to appreciate and examine closely the complexity of the hospital form and the necessarily multiple perspectives within which we view, think, and work in hospitals.
Components: MOD.
Grading: GRD.

MDR 838. Latin American Externship. 4 Credit Hours.
Electives in various Latin American countries can be arranged on an individual basis. Areas of special interest will vary but most deal with tropical hygiene and medicine in underdeveloped areas. This program is a reciprocal part of our Latin American Training Program and as such entails certain stipulations. • All students will be screened by the Office of Student Affairs and recommended in writing. • Students must speak Portuguese if they are planning to travel to Brazil. All other countries in Latin America require conversational Spanish skills. • Students will be responsible for their travel, room and board, and any other incidental expense. • A maximum of 10 students will be allowed to travel to Latin America. • Length of externship is 4-6 weeks. Students will receive credit for four weeks only.
Components: MOD.
Grading: GRD.

MDR 839. JMH Medical Intensive Care Unit. 2-4 Credit Hours.
The Medical Intensive Care Unit is an eighteen bed unit that provides care for critically ill medical patients. Students will gain an understanding of caring for patients with acute and chronic respiratory failure, various types of shock, cardiogenic pulmonary edema, the acute respiratory distress syndrome, malignant hypertension, acute myocardial infarction and various complications of multi-organ system failure. Emphasis will be placed on the indications for admission to and discharge from the MICU, invasive hemodynamic monitoring and mechanical ventilatory support. Education is provided during morning work rounds with the attending, core lectures on MICU related topics, biweekly critical care journal club and informal student and housestaff case presentations.
Components: MOD.
Grading: GRD.

MDR 840. MIA VAMC Medical Intensive Care Unit. 2-4 Credit Hours.
By spending time on Attending rounds in the morning and check-out rounds in the afternoon with the housestaff, students will increase their appreciation of the problems of providing care for patients with acute and chronic respiratory failure, the various types of shock, cardiogenic pulmonary edema, the adult respiratory distress syndrome, malignant hypertension, acute myocardial infarction and various complications of multi-organ system failure.
Components: MOD.
Grading: GRD.

MDR 842. Nephrology. 4 Credit Hours.
The clinical and teaching activities focus on the provision of consultative and direct medical care for patients with renal disease, hypertension, disorders of water, electrolyte and acid-base balance, and related metabolic and immunologic disease. Contemporary technologies used in diagnosis and treatment include renal biopsy, acute and chronic hemodialysis, peritoneal dialysis, renal transplantation, plasmapheresis, evaluation of nuclear flow studies, and interventional nephrology.
Components: MOD.
Grading: GRD.

MDR 843. Pulmonary. 4 Credit Hours.
This 4-week elective is intended to expose the senior medical student to a spectrum of experiences in pulmonary disease. The student will be assigned to the pulmonary consultation services at either Jackson Memorial Hospital or University of Miami Hospital.
Components: MOD.
Grading: GRD.

MDR 844. Teaching Elective 4th Year. 4 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 845. HIV Primary Care Clinic. 2-4 Credit Hours.
Students, under the supervision of an HIV / Infectious Disease Attending, will act as Internist developing their skills of diagnosis and management of patients with human immunodeficiency virus (HIV) infection at the dedicated outpatient ambulatory facility. The spectrum of patients includes those with predominantly advanced HIV disease and complications to evaluation and screening of patients with mildly symptomatic or asymptomatic HIV disease. Special emphasis is placed on Infectious Disease, Primary Care, and General Internal Medicine. In addition, particular needs in the areas of psychiatry, Dermatology and Ophthalmology related to the general internist will be covered.
Components: MOD.
Grading: GRD.

MDR 846. Student Health Clinic. 2 Credit Hours.
The Student Health Service provides primary care services to UM undergraduate and graduate students. Students are seen for acute illnesses and injuries, and are followed for chronic medical problems. Specialty care services include orthopaedics, women’s health, and allergy clinics. Routine lab tests and X-rays are performed on site.
Components: MOD.
Grading: GRD.

MDR 847. JMH Medicine Sub-I. 4 Credit Hours.
Two senior students will be paired, and together, will carry out all the duties and responsibilities of an intern, commensurate with their capabilities. The pair will function as an “acting intern” and will have an increased level of responsibility for direct patient care. There will be an opportunity to improve clinical and didactic skills in the diagnosis and treatment of a wide spectrum of medical disorders. They will be directly supervised by their second or third year medical resident and Attending Physician. Students will be assigned to Jackson Memorial Hospital (JMH) medical teams – General Medicine, Special Immunology/ Infectious Diseases, Cardiology, Hematology/Oncology, or Transplant Nephrology. Every effort will be made to pair students with their requested fellow student as well as with residents and attendings who have demonstrated excellence in student teaching and a high level of interest in education. Assignment will be made by the Chief Medical Residents with input from the clerkship director. While students may indicate a preference, the final decision will be up to the course director.
Components: MOD.
Grading: GRD.

MDR 848. Brain Injury Neurorehab. 2-4 Credit Hours.
During the elective, the medical student will spend time on the Ryder Trauma 4th floor Neurorehab service, shadowing the Rehab attending on daily rounds. There is an opportunity to get involved in clinical research activities that are ongoing in the division. Students will also have the opportunity to become familiar with Botulinum toxin injections and Baclofen pumps.
Components: MOD.
Grading: GRD.
MDR 849. Neurology Consultation. 2-4 Credit Hours.
On this service, students who have completed the neurology clerkship are provided the opportunity to evaluate off-service neurology problems with the neurology consulting resident and attending assigned to that service.
Components: MOD.
Grading: GRD.

MDR 850. Advanced Neurology. 2-4 Credit Hours.
Third- or fourth-year students who have completed the clinical clerkship in neurology may perform an elective on the General Neurology service at Jackson Memorial Hospital or the Veterans Administration Medical Center with an array of university-run or private physician clinic choices to complement this experience. Clinic choices include Epilepsy, Veterans Administration Neurology, Neuropathology, Stroke, Pediatric Neurology, Multiple Sclerosis, Movement Disorders, Neuro-Oncology, Sleep and Headache. Experience in EMG and Neuropathology can be arranged based on director approval and availability.
Components: MOD.
Grading: GRD.

MDR 851. Stroke Neurology. 2-4 Credit Hours.
Third- or fourth-year medical students who have completed the clinical clerkship in Neurology may perform a 2- or 4-week rotation on the stroke neurology service at Jackson Memorial Hospital under the supervision of a stroke neurology attending.
Components: MOD.
Grading: GRD.

MDR 852. Neurosurgery Sub-I. 4 Credit Hours.
The neurosurgery service covers virtually the entire gamut of modern neurosurgical practice. The clinical service is divided into teams that focus primarily on specific subspecialty areas. The spine team cares for patients with tumors, trauma, degenerative disease, and other disorders. The general cranial team deals with cerebrovascular disease, tumors, epilepsy, movement disorders, and other pathology. A separate team cares for patients with head injuries. The pediatric division cares for patients at both Jackson Memorial Hospital and Miami Children’s Hospital. A separate team cares for a busy neurosurgical service at University of Miami Hospital that includes both cranial and spinal patients. The JMH Neuroscience Intensive Care Unit is one of the largest such facilities in the world and is an important center of the department’s clinical activities.
Components: MOD.
Grading: GRD.

MDR 853. UMH Cardiac Catheterization. 2 Credit Hours.
This is a 2-week elective intended to expose the senior medical student to the vast array of procedures performed in interventional cardiology. During the rotation, the student will have the opportunity to interact with multiple specialists who have expertise in various areas of interventional cardiology and attend cardiology conferences. The student will spend time at the Catheterization Laboratory of University of Miami Hospital (UMH), and be actively involved in the care of patients undergoing procedures. The student will discuss all cases with cardiology fellows and attending physicians and scrub in 3 or more diagnostic and interventional catheterization procedures daily. The student will attend cardiology conferences and a weekly half-day clinic where he/she will either see patients referred for catheterization procedures or follow up patients who had recently undergone a procedure. Learning during the rotation will be case-based. The student will meet at least once weekly with the clerkship director, or a designated faculty member. During these meetings, the student will present the case log and discuss one of the two required case work-ups as detailed below.
Components: MOD.
Grading: GRD.

MDR 854. MIA VAMC Military Related Mental Health and General Psychiatry. 2-4 Credit Hours.
The medical student will be involved in the care of patients with a wide spectrum of psychiatric conditions but specific emphasis will be placed on those disorders that are related to military life and exposure to combat. The student will rotate through different clinics at the Miami VA. This rotation will give the medical student the opportunity to work with patients in different settings, such as Outpatient psychiatry, Consultation Liaison Psychiatry, and Primary Care.
Components: MOD.
Grading: GRD.

MDR 855. Gynecologic Oncology. 4 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 856. Gynecologic Oncology Sub-I. 4 Credit Hours.
The objective is for the student to gain experience in the diagnostic and therapeutic approaches for various gynecologic cancers through participating in direct patient care and Resident/Fellow didactic activities. Students will enhance interpersonal skills and professional conduct in the female patient encounter setting. After completing the rotation, students should feel comfortable with both pre and postoperative management of women having common gynecologic procedures, and have an understanding of the management of women with gynecologic malignacies.
Components: MOD.
Grading: GRD.

MDR 857. Maternal Fetal Medicine Sub-I. 4 Credit Hours.
The objective is for the student to gain experience in the diagnostic and therapeutic approaches for various obstetrical scenarios through participating in direct patient care. Students will enhance interpersonal skills and professional conduct in the female pregnant patient encounter setting. After completing the rotation, students should feel comfortable with the management of an uncomplicated vaginal delivery and also gain insight into the management of the complicated obstetrical patient.
Components: MOD.
Grading: GRD.
MDR 858. Reproductive Health. 2-4 Credit Hours.
The objectives are for the student to improve knowledge and skills in managing contraceptive cases that are routine and also highly complex and to learn about pregnancy options including surgical and medical abortion techniques. The student should become proficient in recognizing and managing the complications arising from contraception and abortion. Participation in the 4 week course will allow the introduction of other material including sexual assault, addiction and other issues of reproductive health.
Components: MOD.
Grading: GRD.

MDR 859. Oncology. 4 Credit Hours.
The Division of Hematology/Oncology is responsible for the diagnosis and treatment of benign hematology and neoplastic diseases at the three teaching hospitals: Jackson Memorial (JMH), University of Miami Hospitals and Clinics (UMHC), and University of Miami (UMH). The Department provides consultative services at the UMH, inpatient services and outpatient clinics at UMHC and both consultative and inpatient ward services at JMH. Only private outpatients are seen at UMHC.
Components: MOD.
Grading: GRD.

MDR 860. Ophthalmology. 2-4 Credit Hours.
The two week clinical elective in ophthalmology is geared toward medical students with an interest in obtaining a basic understanding of fundamental ophthalmology. Aspects of ophthalmology that are pertinent to the practice of internal medicine, neurology, pediatrics, family practice and other primary care specialties will also be taught. Students will rotate through the emergency room, operating room, and various subspecialty clinics at the Bascom Palmer Eye Institute where they will shadow attendings and housestaff. A comprehensive didactic course will be conducted concurrently during this two week block which includes interactive case based presentations. A final examination will be administered at the conclusion of the course. Students are also welcome to attend weekly grand rounds and fluorescein conferences as well as daily resident lectures during the rotation. An additional two weeks is offered for students considering ophthalmology as a career. All students wishing to be part of the four week course must have approval of the course coordinator. These additional two weeks may be arranged independently with a faculty ophthalmologist.
Components: MOD.
Grading: GRD.

MDR 861. MIA VAMC Ophthalmology. 2-4 Credit Hours.
To provide medical students the opportunity to shadow residents and attendings in the clinic and emergency room setting, and thereby become familiar with instrumentation utilized in standard eye examinations. To provide medical students the opportunity to watch ophthalmic surgery (cataract surgery, glaucoma surgery, retinal surgery) to provide initial exposure to microsurgical techniques.
Components: MOD.
Grading: GRD.

MDR 862. Orthopedic Trauma Elective. 2 Credit Hours.
The student will participate in the management of traumatic injuries of the musculoskeletal system, excluding hand, and spine. The participation will be directed to acquiring an adequate history and physical examination and management of trauma through conservative and surgical approaches. The student will be asked to assist in the operating room to learn surgical skills, how to set up traction and to do closed reductions with cast applications.
Components: MOD.
Grading: GRD.

MDR 863. Orthopedic Trauma Sub-I. 4 Credit Hours.
The student will participate in the management of traumatic injuries of the musculoskeletal system, excluding hand, and spine. The participation will be directed to acquiring an adequate history and physical examination and management of trauma through conservative and surgical approaches. The student will be asked to assist in the operating room to learn surgical skills, how to set up traction and to do closed reductions with cast applications.
Components: MOD.
Grading: GRD.

MDR 864. WPB VAMC Orthopedic Hip & Knee Surgery. 4 Credit Hours.
This is a 4-week elective to provide a broad based exposure to general orthopedic surgery with special emphasis in lower limb joint reconstruction surgery. During the rotation, the student will spend approximately 50% of the time in an office clinical setting evaluating patients with hip and knee disorders and 50% of the time in the operating room gaining surgical experience and insight. This may vary based on the student's desire to spend more operative time with other surgeons in the department. The surgical experience will be 80% hip and knee surgery and 20% general orthopedic surgery. The elective will be under the direction of one surgeon. For those students that are interested, there will be the possibility to work on a quality improvement project and the opportunity to work with other orthopedic specialists within the group to expand the horizon of exposure to different surgical procedures. We have five orthopedic surgeons in the department covering the breadth and depth of orthopedic surgery, except for pediatric and spine surgery.
Components: MOD.
Grading: GRD.

MDR 865. Children's Orthopaedics and Rehabilitation. 2 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 866. Hand Surgery. 2 Credit Hours.
The student will be provided with the opportunity to become familiar with acute injuries, chronic conditions and congenital deformities of the hand. They will learn to take a history and do a physical examination of the hand, as well as assist in the conservative and surgical management of hand problems. The student will be expected to attend rounds, clinics, surgery and conferences, both hand and general orthopedic conferences. All Students will be required to take Ortho E.R. call with the PGY2 on the hand service.
Components: MOD.
Grading: GRD.

MDR 867. Musculoskeletal Oncology. 2 Credit Hours.
Students on the orthopedic oncology service are expected to become familiar with the principles of staging and diagnosing tumors of bone and soft tissue. The student will evaluate patients in the outpatient and inpatient setting and be responsible for the management of these patients pre- and post-operatively with close resident and attending supervision. The student will develop history and physical examination skills, as they pertain to oncologic patients, as well as actively participate in their non-operative and operative management. The student will participate in the regular educational conferences including a bi-weekly didactic orthopaedic oncology case-based conference, a weekly multidisciplinary oncology conference, and a weekly pre-operative planning conference. There are a number of potential research projects, both clinical and laboratory, that are available to interested investigators.
Dr. Conway is the Program Director and member of the Orthopedic Residency Selection Committee.
Components: MOD.
Grading: GRD.
MDR 868. Multidisciplinary Hematology and Oncology at Deerfield Beach. 4 Credit Hours.
This elective will focus on a multidisciplinary approach to the diagnosis and treatment of solid and blood cancers, as well as benign hematologic diseases. It will take place in the outpatient hematology oncology clinic at the Sylvester Cancer Center at Deerfield Beach.
Components: MOD.
Grading: GRD.

MDR 870. Orthopedic Spine. 2 Credit Hours.
This rotation provides exposure to traumatic and degenerative affections of the spine. Students will participate in all rounds, clinics, and conferences. Students will be exposed to and participate in the care of patients with traumatic and degenerative disorders of the spine.
Components: MOD.
Grading: GRD.

MDR 871. Otology. 2-4 Credit Hours.
Otology is the surgical sub-specialty of hearing, balance, skull base and cochlear implant surgery, and facial nerve dysfunction. During this rotation, the senior clerk will have the opportunity to participate in the clinical evaluation, auditory and vestibular testing, medical and surgical treatment of disorders of the ear and facial nerve. The rotation will be split into three portions: clinic, operating room, and didactic sessions. Hands on anatomical dissection of the temporal bone and preparation of a clinical Grand Rounds presentation are included.
Components: MOD.
Grading: GRD.

MDR 872. Inpatient and Outpatient Otolaryngology. 2 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 873. Otolaryngology Elective. 2 Credit Hours.
This rotation gives an overview of the scope of activities covered by Otolaryngology. Students are expected to get exposed to both clinical and surgical aspects of Otolaryngology and explore the variety of different subspecialties within this field. Students are encouraged to start if possible with this course before taking MDR875.
Components: MOD.
Grading: GRD.

MDR 874. Outpatient Clinical Otolaryngology. 2-4 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 875. Otolaryngology Sub-I. 4 Credit Hours.
This rotation is a clinical and surgical Otolaryngology clerkship. Students are expected to get involved in both clinical and surgical aspects of Otolaryngology. Students are encouraged to start if possible with MDR873 before taking this course.
Components: MOD.
Grading: GRD.

MDR 876. Subinternship in Otolaryngology. 4 Credit Hours.
This rotation is a clinical and surgical Otolaryngology clerkship. Students are expected to get involved in both clinical and surgical aspects of Otolaryngology. Students are encouraged to start if possible with MDR873 before taking this course.
Components: MOD.
Grading: GRD.

MDR 877. Forensic Pathology. 2-4 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 878. Mt. Sinai Pathology. 2-4 Credit Hours.
The Department of Pathology at Mount Sinai Medical Center offers an elective in either clinical or anatomic pathology. The program will be tailored to the particular interest and level of training of the individual. The student will be supervised by staff pathologists working with the resident staff and participate in inter-and intradepartmental conferences.
Components: MOD.
Grading: GRD.

MDR 879. Pathology. 2-4 Credit Hours.
This elective is geared towards students who wish to explore Pathology as a career option or who seek to better understand and utilize clinical and anatomic pathology services in their clinical practice. Students select week long rotations from a list and attend all Pathology Teaching Conferences and Grand Rounds. Anatomic Pathology rotations are at JMH or UM and Clinical Pathology rotations are at JMH. This elective may be taken as a two or four week rotation
Components: MOD.
Grading: GRD.

MDR 880. Adolescent Medicine. 2-4 Credit Hours.
The goals of this elective clinical rotation are to broaden the student’s general knowledge of Adolescent Medicine, with emphasis on learning diagnosis and treatment of the unique physical, developmental, and psychosocial problems of patients ages 10 – 25 years. The student will participate in the multidisciplinary team approach to adolescent healthcare; gain experience in communicating and interacting with a wide variety of inpatient and outpatient adolescents, and attend all aspects of the Adolescent Medicine teaching program.
Components: MOD.
Grading: GRD.

MDR 881. Child Protection Team. 2-4 Credit Hours.
The Child Protection Team elective is designed to familiarize the students to all aspects of child abuse. The students will learn to assess and document physical abuse and neglect, attend court hearings and participate in case staffing. This elective is geared to meet the needs of all medical students (independent of their career goals) and introduce them to the community resources available for children and their families.
Components: MOD.
Grading: GRD.

MDR 882. Fetal Cardiology. 2 Credit Hours.
Components: MOD.
Grading: GRD.
MDR 883. Neonatology. 2-4 Credit Hours.
This rotation in Neonatology can be taken as a 2 or 4 week elective.
The student will be part of the team headed by an attending, and will follow and manage one or two patients together with one of the residents on the team. Teaching rounds will be conducted 5 times a week, work rounds 7 days a week. During the first 2 weeks of the rotation the student will refresh and refine his/her physical examination skills. He/she will become familiar with the nutritional needs of neonates and infants and with how these needs can be met by feedings and parental alimentation. How to prevent and correct imbalances in body water and electrolytes will be stressed. Problems with anemia, hyperbilirubinemia, infection (congenital or acquired after birth), hypoglycemia and hypocalcemia and their management will be explained. During the second two weeks of the rotation the focus of training will change to infants with respiratory and cardiovascular failure. The student will become familiar with the different causes of respiratory failure, how to judge the severity of respiratory failure by interpreting arterial blood gases and acid base status, and how to support the infants with supplemental O2 or mechanical ventilation. Furthermore, the students will be exposed to signs and symptoms of cardiovascular failure, impaired regulation of breathing, and the consequences of hypoxic ischemic brain injury.
Components: MOD.
Grading: GRD.

MDR 888. Pediatric Endocrinology. 4 Credit Hours.
The student will be the primary physician for pediatric patients presenting with acute problems in the emergency facility of Jackson Memorial Hospital. The student will evaluate and treat patients with an extensive variety of acute illnesses under supervision of pediatric faculty and house staff.
Components: MOD.
Grading: GRD.

MDR 889. Pediatric Gastroenterology, Hepatology, and Nutrition. 2-4 Credit Hours.
The student will be able to participate in the care for inpatients and outpatients; to participate in daily rounds on inpatients as well as consults with the attending physician, fellow and pediatric resident team. Opportunities to conduct patient interviews and examinations as well as to observe/participate in GI procedures will be an integral part of the elective. The student will review indications/risks for particular procedures and surgeries as they relate to pediatric gastroenterology. Students will also participate in weekly outpatient clinics. Students will also learn care of gastrosotmy tubes. The 4 week rotation will consist of 2 weeks inpatient and 2 weeks outpatient. For the 2 week rotation, the student will choose either the inpatient or outpatient component of the rotation.
Components: MOD.
Grading: GRD.

MDR 890. Genetics and Metabolic Diseases. 2-4 Credit Hours.
This elective exposes students to diagnosis and management of a variety of genetic syndromes, inheritable metabolic diseases, hereditary cancer syndromes, and other heritable disorders. During this elective, patients with genetic syndromes, chromosomal disorders, metabolic disease, and other Mendelian disorders are seen in the Mailman Center Metabolic and Genetics clinics, the Jackson Pediatric Genetics clinic, Specialty Genetics Clinics at UM, and the Jackson Memorial Hospital wards. The specialty clinics include Neurogenetics clinic, Cleft lip and palate clinic, Cancer Genetics clinic, Muscular Dystrophy clinic, Fragile X clinic, Hearing loss clinic, and Prenatal Genetics clinic.
Components: MOD.
Grading: GRD.

MDR 891. Pediatric Infectious Diseases and Immunology. 4 Credit Hours.
The 4-week rotation in Pediatric Infectious Disease is designed to give the student a broad experience in the immunological and infectious disease problems of children. The student will participate in both the inpatient and outpatient care of children with such problems by rounding daily with the attending fellow and the clinical pediatric infectious disease faculty. The student will also have the opportunity to assist in the care of children with HIV-1 infection as well as other immunodeficiency diseases.
Components: MOD.
Grading: GRD.
MDR 892. Pediatric Intensive Care Unit Sub-I. 4 Credit Hours.
The primary objective of this rotation is to promote the development and mastery of clinical critical care pediatric competencies. The environment of the PICU affords the student a broad exposure to clinically relevant physiologic and pathophysiologic principles and multisystem disease (Competencies: Patient Care, Medical Knowledge). The practice of evidence based medicine is promoted by encouraging students to conduct literature search for current guide lines (Practice-based Learning and improvement), with an emphasis on the basic principles of recognition and management of respiratory failure and shock in the pediatric population (infance to 21 years).
Components: MOD.
Grading: GRD.

MDR 893. Pediatric Mobile Clinic. 4 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 894. Pediatric Nephrology. 4 Credit Hours.
This elective consists of exposure to in-patient and outpatient pediatric renal problems, participation in clinical and experimental discussion with House staff and Fellows, and observation of renal physiology experiments. Students will be able to describe diagnostic approaches to pediatric renal problems by radiological, histological, electromicroscopic, and immunological techniques. Current clinical studies include: immunological, metabolic, and physiologic changes in nephrotic syndrome poorly controlled or uncontrolled with steroids; recurrent hematuria; renal function of newborn and infant; calcium, phosphorus, vitamin D, and PTH metabolism in uremia. Chronic Renal Failure; growth; lipids; HIV nephropathy; effect of maternal cocaine on the fetal kidney, low birth weight Nephropathy, dialysis cardiomyopathy; and drug use in hypertension.
Components: MOD.
Grading: GRD.

MDR 895. Pediatric Pulmonary. 2-4 Credit Hours.
The objective of this rotation is to provide the students with the clinical exposure to acute and chronic, acquired and congenital, respiratory diseases from infancy to adolescence in both in-patient and out-patient venues. These conditions include but are not limited to asthma, chronic cough, chronic lung disease of infancy, cystic fibrosis, congenital lung abnormalities, recurrent and complicated pneumonia. The student will participate in the in-patient rounds or activities, ambulatory clinics and didactic conferences.
Components: MOD.
Grading: GRD.

MDR 896. Poison Center Toxicology. 2-4 Credit Hours.
The senior student will be given the opportunity to assist the Poison Information Specialists and Toxicologists at the Florida Poison Information Center with the diagnosis, triage, treatment and follow-up of patients exposed to toxins. The high volume of cases (over 170 patients per day) will allow the student to learn about a wide variety of toxins in both pediatric and adult patients. The clinical experience at the Poison Center will be supplemented with didactic lectures and bedside consultations for both adult and pediatric patients hospitalized at Jackson Memorial Hospital.
Components: MOD.
Grading: GRD.

MDR 897. Pediatrics Sub-I. 4 Credit Hours.
The large pediatric inpatient service offers a unique opportunity to the student to improve the clinical and didactic skills in the diagnosis and management of all the common and most of the uncommon disorders in children. The senior student will be placed in the regular first year resident rotation functioning as part of the ward team under direct supervision of pediatric residents and the attending physicians. There might be two (2) attendings on the team, one full time faculty member in general pediatrics and the other a pediatric specialist or a practicing community pediatrician.
Components: MOD.
Grading: GRD.

MDR 898. Ophthalmology @ Palm Beach Gardens. 2-4 Credit Hours.
The primary goal of this elective is to familiarize the student with general concepts of Ophthalmology, and how to conduct a basic eye examination. Aspects of Ophthalmology that are pertinent to the practice of Internal Medicine, Neurology, Family Practice, and other primary care specialties will also be taught. Emphasis is placed on the ocular exam and findings related to common eye pathology such as cataracts, glaucoma, macular degeneration, diabetic retinopathy, and conjunctivitis. Some exposure to more unusual cases to ophthalmology as a subspecialty will be obtained in clinics. Didactic sessions with attending faculty, patient care with fellows in the clinics and coordinated self teaching make up the majority of the elective. Students will also have the ability to go to the OR to observe ophthalmic surgery. Opportunity to assist faculty in write-up of case reports will also be available for the students considering ophthalmology as a career goal.
Components: MOD.
Grading: GRD.

MDR 899. Pharmacology Research Opportunities. 2-4 Credit Hours.
Components: MOD.
Grading: GRD.

MDR 900. Physical Medicine and Rehabilitation. 2-4 Credit Hours.
This elective is intended for medical students who have completed the neurology core clerkship rotation. During the elective, the medical student will spend time on the Ryder Trauma 4th floor Neurorehab service, shadowing the Rehab attending on daily rounds. Students will also have the opportunity to become familiar with Botulinum toxin injections and participate of Brain Injury Medicine Clinic on the 2nd and 4th Thursday of the month. There is an opportunity to get involved in clinical research activities that are ongoing in the division.
Components: MOD.
Grading: GRD.

MDR 901. Child and Adolescent Psychiatry. 2-4 Credit Hours.
Various clinical services are utilized for undergraduate and post-graduate training in Child & Adolescent Psychiatry: the Children’s Inpatient Unit and the Child and Adolescent Outpatient Clinic. Students may be assigned to one or a combination of these services where they will have a supervised experience.
Components: MOD.
Grading: GRD.

MDR 902. Consultation-Liaison Psychiatry. 2-4 Credit Hours.
This service is responsible for consultations to non-psychiatric inpatients and for various liaison activities with other services and units of the general hospital. Students under supervision will respond to consultation requests in evaluating the patient and making recommendations to the referring physician. They will join faculty members in their liaison work and attend regularly scheduled seminars and consultation reviews.
Components: MOD.
Grading: GRD.
MDR 903. Geriatric Psychiatry. 2-4 Credit Hours.
The Department of Psychiatry offers an elective in Geriatric Psychiatry. The elective can be tailored to the student's special needs. Clinical experiences focus on diseases that are more prevalent in the geriatric population such as delirium and dementia.
Components: MOD.
Grading: GRD.

MDR 904. JMH Inpatient Psychiatry. 2-4 Credit Hours.
This elective allows students to diagnose and manage a variety of psychiatric disorders. This includes patients with mood disorders, psychotic disorders and other conditions that require psychiatric hospitalization. Under the supervision of attending physicians students will manage patients with a variety of therapeutic techniques available for their treatment. We have several units available for this elective: 2 Inpatient units for acutely ill psychiatric patients - JMH, 1 dual diagnosis unit (treatment of acute substance abuse, detox and psychiatric disorders) - JM, 1 inpatient unit for Mood Disorders - UMH.
Components: MOD.
Grading: GRD.

MDR 905. Psychiatry Emergency Service. 2 Credit Hours.
This course provides students with the opportunity to be involved in the diagnosis and therapy of selected patients presenting to the Psychiatric Emergency Room. The student will be assigned to the Psychiatric Emergency Room. The student will then be able to observe a wide range of acute psychiatric emergencies and learn to handle these in an appropriate manner. The student will begin to develop concepts of psychiatric diagnosis, nomenclature and treatment applicable to the acute situation. Also, under supervision, the student will see acute psychiatric consultations as requested. Students should consider this elective interested in a career in Emergency Room Medicine or Family Medicine besides those students interested in Psychiatry.
Components: MOD.
Grading: GRD.

MDR 906. Ambulatory Psychiatry. 2 Credit Hours.
This course provides students with the opportunity to be involved in the diagnosis and therapy of selected patients presenting to the outpatient clinics at the Mental Health Center. Individual supervision will be aimed at exposing the student to the range of psychiatric disorders that can be managed in an outpatient basis such as anxiety disorders, depression, etc. The students will be exposed to different therapeutic modalities used to treat these problems including psychopharmacologic treatments, cognitive behavioral therapy, and group therapy.
Components: MOD.
Grading: GRD.

MDR 907. Research Experience. 0 Credit Hours.
Components: MOD.
Grading: NON.

MDR 908. Mt. Sinai Diagnostic Radiology. 2-4 Credit Hours.
The courses consist of daily required didactic conferences and practical film interpretation sessions covering all areas of Radiology. The student will participate in divisional activities including diagnostic and therapeutic nuclear medicine and non-invasive cardiovascular laboratory, under the direct Preceptorship of attending physicians.
Components: MOD.
Grading: GRD.

MDR 909. Radiology Clerkship. 2 Credit Hours.
Radiology is a required 2 week clerkship available to third and fourth year medical students, and must be successfully completed prior to graduation. The course is offered once a month 12 times a year. It is a structured two week course mainly at Jackson Memorial Medical Center. The aim of the course is to teach the student what every physician should know about diagnostic imaging and how to effectively use our varied radiographic techniques and imaging modalities to diagnose disease, regardless of their field of interest. An Advanced Radiology elective is offered in 2-week blocks (B blocks only) to those students wanting to gain more in depth knowledge or who are interested in the field as a career choice. Multiple blocks may be taken. Please refer to Course MDR 910 for description. The course consists of daily required morning image interpretation sessions rotating through the subspecialties of Radiology as well as afternoon small group interactive sessions for case solving, based on the assigned on-line video tutorials. There will be an assigned instructor which will be an attending, fellow, or senior resident. Attendance is mandatory and will be recorded. The students will be assessed for performance during these sessions. The students are also invited to attend other departmental and sectional conferences. A final exam will be given on the last day of the course.
Components: LEC.
Grading: GRD.

MDR 910. Advanced Radiology. 2 Credit Hours.
Radiology II at Jackson Memorial Medical Center consists of a more extensive exposure to one or two subspecialty areas in clinical Diagnostic Radiology. The student may select to spend one or two weeks in any subspecialty area to gain more in-depth knowledge of that subspecialty. The experience will vary somewhat depending on the area of Diagnostic Radiology which the student selects. They are welcome, but not required, to attend scheduled student lectures. They are encouraged to attend the daily 12:30 p.m. Departmental conference. They are required to attend all subspecialty conferences of the sections they are rotating through.
Components: MOD.
Grading: GRD.

MDR 911. Nuclear Medicine. 2 Credit Hours.
The Nuclear Medicine elective allows the student to interact with the clinical and research activities of Nuclear Medicine as it relates to diagnostic imaging and therapy with this modality. Students are trained under the direct supervision of our faculty members with guidance from our residents. Learning Techniques include: daily work, teaching file and conference attendance. Reading sessions start at 8 a.m. daily. While patients are injected for studies during the morning, the students observe the technical aspect of this procedure prior to interpreting the studies with residents and attendings. An example of such studies is the myocardial perfusion studies - patients are injected early in the morning, residents and students monitor the stress and rest imaging acquisitions. They also interpret the EKGs prior to evaluating the processed images in the reading room. Students will also observe many other nuclear medicine procedures, such as cisternograms, renal scintigraphy, thyroid scintigraphy and PET scans.
Components: MOD.
Grading: GRD.
MDR 913. HCH Cardiology. 2-4 Credit Hours.
This rotation includes consultative diagnosis, electrocardiography, and intensive medical and surgical cardiology at Holy Cross Hospital and Clinics. Under the direct supervision of the attending cardiologist, students will have the opportunity to evaluate patients presenting with a full spectrum of cardiac complaints. The student will participate in consultation rounds with the attending cardiology staff, in both the inpatient and outpatient settings, participate in the evaluation of noninvasive testing, and observe cardiac catheterization and cardiac surgery of their patients.
Components: MOD.
Grading: GRD.

MDR 914. Pediatric Radiology. 2 Credit Hours.
This course is designed for students interested in Pediatrics and consists of intensive exposure to Pediatric Radiology under the direct preceptorship of two-three staff pediatric radiologists. The student will attend the daily neonatal, in-patient and out-patient film reading sessions, observe the performance of fluoroscopy, attend Pediatric Cardiology and Pediatric Tumor Board conferences. There will also be some exposure to cross-sectional imaging including pediatric abdominal, pelvic and head ultrasound, as well as ultrasound of the neonatal hip and any other educational conference that may be assigned during the rotation.
Components: MOD.
Grading: GRD.

MDR 915. Radiation Oncology. 4 Credit Hours.
The objective of the elective on Radiation Oncology is to familiarize the student with the treatment of neoplastic disease in general, and specifically with the role of ionizing radiation in treating cancer and related disorders. The course is tailored to the needs of individual students, with an emphasis on providing a general introduction to Radiation Oncology for students either interested in other medical fields, other oncologic specialties, or considering Radiation Oncology as a field specialization.
Components: MOD.
Grading: GRD.

MDR 916. Research. 0-8 Credit Hours.
Guidelines for obtaining academic credit for research are found on the subsequent pages. This information is also available on the MedEd website under Important Documents for students. MDR 916 "Research" – Used to designate credits student has been awarded. Seniors are required to always have on their scheduled an appropriate number of credits required for graduation. Since Research Credits are frequently granted late in the Senior year, students must schedule Electives late in the year that they may drop if and when Research credit is granted.
Components: MOD.
Grading: GRD.

MDR 917. Burn Unit Sub-I. 4 Credit Hours.
The Burn Service admits over 150 major injuries and 300 total patients per year. Concentration is on acute care but reconstruction is also done. Principles of critical care, infection control, nutritional support, wound care and rehabilitation are stressed. Opportunities for clinical research exist.
Components: MOD.
Grading: GRD.

MDR 918. Burn Unit Elective. 2 Credit Hours.
Components: LEC.
Grading: GRD.

MDR 919. Cardiothoracic Surgery Sub-I. 4 Credit Hours.
This rotation will give the 4th year student a unique opportunity to see complex surgical procedures while learning how to care for critically ill patients. The attending and resident staff will supervise the care of patients undergoing operations for coronary artery disease, congenital and acquired valvular heart disease, complex congenital heart defects, a variety of lung and esophageal diseases, trauma to the chest, and heart and lung transplants. Patients will range from premature infants to elderly adults at JMH and VA Hospitals.
Components: MOD.
Grading: GRD.

MDR 920. General Surgery El Sub-I. 4 Credit Hours.
This 4-week rotation will expose the 4th year student to a wide array of cancer problems and teach an integrated interdisciplinary approach to their management. Esophageal, hepatic, breast, and gastric carcinomas will be seen and treated in addition to melanomas and soft tissue sarcomas.
Components: MOD.
Grading: GRD.

MDR 921. General Surgery El Sub-I. 4 Credit Hours.
This elective surgery service predominantly sees hepatobiliary, pancreatic problems, surgical endocrine and adrenal disease. It deals with patients with portal hypertension and biliary tract disease, and both benign and malignant conditions will be seen and treated. In addition, endocrine surgery patients will be seen, and the full spectrum of thyroid and parathyroid disease will be learned. Advanced laparoscopic skills can also be seen treating a whole spectrum of surgical problems. Students have the opportunity to join evening rounds, present patients, discuss current problems and generate treatment options. Students will present didactic discussion of patient subjects to staff and colleagues weekly.
Components: MOD.
Grading: GRD.

MDR 922. General Surgery EII Sub-I. 4 Credit Hours.
This elective service deals primarily with diseases of the colon, rectum, and anus. Benign disease, such as hemorrhoids, anal fistulae, anal fissures, and inflammatory bowel disease will be seen and thoroughly discussed and learned. In addition, the entire spectrum of colon and rectal cancer will be seen and treated.
Components: MOD.
Grading: GRD.

MDR 924. Introduction to Neurosurgery. 2 Credit Hours.
This 2 week elective is intended to give the third year medical student an initial acquaintance to neurosurgery including the pathophysiology, evaluation, and management of the spectrum of disorders that confront the modern neurosurgeon. The UM neurosurgery service covers virtually the entire gamut of neurological practice. The clinical service is divided into teams that focus primarily on specific subspecialty areas. The spine team cares for patients with tumors, trauma, degenerative disease, and other disorders. The general cranial team deals with cerebrovascular disease, tumors, epilepsy, movement disorders, and other pathology. A separate team cares for patients with head injuries. The pediatric division cares for patients at both Jackson Memorial Hospital and Miami Children’s Hospital. A separate team cares for a busy neurosurgical service at University of Miami Hospital that includes both cranial and spinal patients.
Components: MOD.
Grading: GRD.
MDR 926. Oral and Maxillofacial Surgery. 2-4 Credit Hours.
The Department of Surgery’s Division of Oral and Maxillofacial Surgery offers the student an intense experience in Head and Neck Reconstruction Surgery, Oral and Maxillofacial Pathology, Facial Trauma and Head and Neck Anatomy. The attending and resident staff is committed to providing the student with a valuable educational experience. This is the only exposure the medical student receives regarding the problems related to the oral cavity and to oral and maxillofacial surgery, which may confront him/her at a later date in his/her career. This is an advantageous rotation for those interested in ENT, Plastic Surgery, and Ophthalmology.
Components: MOD.
Grading: GRD.

MDR 927. Pediatric Surgery Sub-I. 4 Credit Hours.
This very busy surgical service will allow the 4th year student the opportunity to care for common and uncommon, yet very interesting, surgical problems in the pediatric population. The experience includes abdominal surgery, hernia surgery, and thoracic procedures. There is close supervision by the pediatric surgery attending with daily rounds and a chance to follow patients closely. Outpatient clinics also provide for close patient follow up.
Components: MOD.
Grading: GRD.

MDR 928. Plastic Surgery. 2 Credit Hours.
This elective provides comprehensive exposure to all facets of aesthetic plastic and reconstructive surgery at UM affiliated clinical institutions and educational venues. Students participate in the pre-operative planning, operative management, and post-operative care of plastic and reconstructive surgery patients, on the wards and in the clinics; learn plastic techniques in the operating and emergency rooms; and also participate in the on-call schedule with the residents. Students are also welcome to actively participate in all of educational programs of the division including Grand Rounds, Journal Clubs & Didactic Sessions.
Medical students will be encouraged to participate in any ongoing research projects.
Components: MOD.
Grading: GRD.

MDR 929. Surgical Intensive Care Unit. 4 Credit Hours.
This rotation is offered to give 4th year students an introduction to the environment of the ICU and the unique subject matter that pertains to it. It also gives you the opportunity to see what happens after surgical emergencies, surgical complications, and transplants. Education is provided by morning rounds, student and housestaff presentations, reading, and by paying attention and asking questions!
Components: MOD.
Grading: GRD.

MDR 930. Transplant Surgery. 4 Credit Hours.
The student will have responsibilities similar to a junior house officer, under strict supervision of the Transplant Team because of the critical care of these patients. The student will be present at the operation for vascular access surgery, general surgery on transplantation patients and chronic renal failure patients, which would include bilateral native nephrectomies (usually for difficult to control hypertension), kidney, liver, pancreas, and pancreatic islet transplants, and related surgery. In addition, issues related to native organ disease – kidney, pancreas, liver, leading to need for transplantation – will be covered. There will be weekly conferences and seminars in research and clinical problems in kidney, liver, and pancreas transplantation and participation in weekly immunobiology transplant conferences.
Components: MOD.
Grading: GRD.

MDR 931. Trauma Surgery. 4 Credit Hours.
The trauma teams treat all patients requiring surgery who are admitted through the emergency room. In addition, the trauma teams are responsible for management of all major trauma victims brought to the Ryder Trauma Center, a Level-I Center. This rotation will allow the student to care for major trauma victims and patients with non-trauma surgical emergencies.
Components: MOD.
Grading: GRD.

MDR 932. Trauma Intensive Care Unit. 4 Credit Hours.
The students will gain an initial understanding of critical care and complex postoperative care of the critically ill trauma and surgical patient. Education is provided by morning rounds, student and housestaff presentations, reading, and by paying attention and asking questions!
Components: MOD.
Grading: GRD.

MDR 933. HCH General Surgery. 2-4 Credit Hours.
This elective in General Surgery will focus on Open and Laparoscopic General Surgery, Surgical Oncology, Colorectal Surgery and Vascular Surgery. The cases include cholecystectomy, colon resections, hepatobiliary and pancreatic surgery, complex hernia repairs, distal bypasses, aortic aneurysms and vascular stenting. In addition, appendectomies, hernias, hemorrhoid operations, as well as other outpatient procedures will be part of the surgery experience.
Components: MOD.
Grading: GRD.

MDR 934. Female Urology. 2-4 Credit Hours.
Female urology/voiding dysfunction is a surgical subspecialty within Urology dealing with problems with urination. During this elective, the senior clerk will have the opportunity to participate in the evaluation and the medical and surgical treatment of female and male voiding dysfunction.
Components: MOD.
Grading: GRD.

MDR 935. Out-Patient Urology. 2-4 Credit Hours.
This elective is offered to those students who are particularly interested in Urology as a career choice. It is designed so that the student will participate as a team member on each service he/she rotates on and will accept responsibilities and perform duties commensurate with his/her ability.
Components: MOD.
Grading: GRD.
MDR 936. Reproductive Urology. 2-4 Credit Hours.
The Reproductive Urology elective rotation focuses on the care and treatment of urologic patients, specifically related to andrology and male fertility. The student will work with the urology residents and attending faculty in the operating rooms, wards, and clinics. The student will attend weekly urology didactic conferences on Thursday and Friday mornings. 
**Components:** MOD.
**Grading:** GRD.

MDR 937. Urology Sub-I. 4 Credit Hours.
This elective is offered to those students who are particularly interested in Urology as a career choice. It is designed so that the student will participate as a team member on each service he/she rotates on and will accept responsibilities and perform duties commensurate with his/her ability. 
**Components:** MOD.
**Grading:** GRD.

MDR 938. Urology Elective. 2-4 Credit Hours.
As much as 30% of all visits of elderly men to the primary care physician can relate to symptoms and disorder of the genitourinary tract. Physician should at least be conversant on these common ailments (i.e., BPH, Prostate cancer, Incontinence, Impotence, Stones or Hematuria). 
**Components:** MOD.
**Grading:** GRD.

MDR 939. Professional Development for Medical Student Leaders. 2 Credit Hours.
1. Students must hold a leadership position within the Academic Societies (as a society director, assistant director, a member of the society executive staff, or training director), DOCS, or Executive Student Government staff. 2. The course will span the senior year, from July through March. 3. During the month of July, assigned readings, didactic sessions, and group exercises will be offered during evenings and weekends; students will need to be available to attend ALL of these sessions in July in order to receive the 2 weeks of academic credit. 4. These activities are designed to teach the fundamental aspects of teamwork, leadership, teaching and learning, and mentoring. 5. Throughout the year, students will be responsible for fulfilling the obligations of their specific position within the student organization. 6. Students in Academic Society positions will attend their society training and student report sessions to apply the information learned in the didactic sessions and will complete exercises to evaluate and improve their skills in these areas. Student Evaluation and Grading: By completing a combination of assigned exercises, attending all scheduled seminar sessions, and fulfilling student leadership responsibilities, each student will receive 2 weeks of elective credit. **For credit, attendance is REQUIRED for ALL summer sessions in JULY.**
**Components:** MOD.
**Grading:** GRD.

MDR 940. Public Health Elective. 2-4 Credit Hours.
The Public Health elective will be offered to senior MD/MPH medical students if approved by the course director for time spent on a 2- or 4-week public health externship. MD students who have completed public health coursework will also be considered. The consideration of elective credit includes the content and quality of the program/project. In addition, the dates of the program must mesh with the schedule of the medical school curriculum and academic calendar. Each application will be considered on an individual basis with consideration of the student’s overall performance and standing at UMMSM.
**Components:** MOD.
**Grading:** GRD.

MDR 941. HCH Cardiothoracic Surgery Sub-I. 4 Credit Hours.
Overview: This unique surgery sub-internship will allow the student to learn in a preceptor-based model about the surgical management of cardiovascular and thoracic diseases. The students will be exposed to a wide variety of surgical experiences, including open and minimally-invasive surgical approaches. The student will also engage in preoperative and postoperative assessment and treatment of patients. The students will have primary responsibility for the care and management of their patients. 
**Components:** MOD.
**Grading:** GRD.

MDR 942. Business Skills for Healthcare Providers. 4 Credit Hours.
**Components:** MOD.
**Grading:** GRD.

MDR 943. General Surgery E IV Sub-I. 4 Credit Hours.
This 4-week rotation will expose the 4th year student to several unique, yet related, surgical disciplines: laparoscopic surgery, surgical endoscopy, and the surgical management of morbid obesity.
**Components:** MOD.
**Grading:** GRD.

MDR 944. MIA VAMC General Surgery Sub-I. 4 Credit Hours.
The surgical program at the VA Medical Center is a truly General Surgical Service which focuses on Open and Laparoscopic General Surgery, Surgical Oncology, Colorectal Surgery and Vascular surgery. The cases include cholecystectomies, colon resections, hepatobiliary and pancreatic surgery, complex hernia repairs, distal bypasses, aortic aneurysms and vascular stenting. In addition, appendectomies, hernias, hemorrhoid operations and an increasing number of outpatient surgeries compose our experience. 
**Components:** MOD.
**Grading:** GRD.

MDR 945. Taylor Breast Health Center. 2-4 Credit Hours.
This elective will consist of a 2 week or a 4 week block at the Taylor Breast Health Center. During this time, the student will have the opportunity to participate in the diagnosis and follow-up of patients with the full spectrum of breast diseases, most importantly breast cancer. 
**Components:** MOD.
**Grading:** GRD.

MDR 947. Research Review by Research Committee. 0-8 Credit Hours.
**Components:** MOD.
**Grading:** GRD.

MDR 948. JFK Surgery Sub-I. 4 Credit Hours.
This surgery sub-internship will allow the student to learn in a team model about the surgical management of common gastrointestinal and endocrine disorders. The student will be exposed to both open and laparoscopic operations, treating a broad spectrum of surgical entities. The student will also engage in preoperative and postoperative assessment and treatment of patients, with an emphasis on continuity of care. 
**Components:** MOD.
**Grading:** GRD.
MDR 949. Caring for the Community: Free Clinics Elective. 2 Credit Hours. Provides students with an opportunity of clinical care at student-run free clinics while advancing their knowledge of the social determinants of health and the barriers that uninsured patients encounter in obtaining primary medical care and specialty care when needed. The student-run free clinic elective will provide medical students with an engaging clinical experience that will prepare them to more effectively advocate and care for uninsured patients. This elective provides an opportunity for third and fourth year medical students to provide clinical care at student-run free clinics while advancing their knowledge of the social determinants of health and the barriers that uninsured patients encounter in obtaining primary medical care and specialty care when needed. The student-run free clinic elective will provide medical students with an engaging clinical experience that will prepare them to more effectively advocate and care for uninsured patients. In addition to their clinical roles, students will be actively involved as both teachers and learners. Working under the direct supervision of faculty physicians, students will participate in training and educating volunteer underclass students by leading clinical care teams and conducting wrap-up sessions at the end of each clinic session. To prepare them for their educator roles, students will receive didactic training outside of clinic on various topics pertaining to teaching skills and the social determinants of health. This longitudinal experience provides students the opportunity to receive two weeks of elective credit by completing the required didactic sessions and at least 18 clinical experiences that may be scheduled over the course of 21 months during years 3 and 4. The Free Clinic elective is available to all students; however it will be required of all third and fourth year students in the social medicine pathway.

Components: FRA.
Grading: GRD.

MDR 950. The Mark Dogoli Community Care Elective. 4-8 Credit Hours. The Mark Dogoli Community Care elective (MDCCE) rotation provides 4 to 8 weeks of primary care continuity experience. This rotation includes three components: Private practice, nursing home and The Mark Dogoli, MD Medical Center, a free clinic in an under-served community. Students will gain exposure to cross-cultural, linguistic, behavioral, and community medicine principles and be part of sustaining a community-based health initiative.

Components: MOD.
Grading: GRD.

MDR 951. Cardiology Teaching Lab - Harvey (2 wks). 2 Credit Hours. This rotation consists of a focused review of cardiology for the clinician. A clinician must be able to evaluate and treat cardiology patients, as they represent the largest subset of patients they see with significant disease. Each student is trained to develop the knowledge and skills needed to conduct a complete cardiovascular history and bedside examination, and interpret ECG’s and arrhythmias. The rotation includes the integration of the bedside evaluation with the current indications for non-invasive and invasive diagnostic testing. The diagnosis and management of valvular disease, coronary disease, hypertensive heart disease, heart failure and congenital lesions are covered by group and individual sessions with Harvey, the Cardiopulmonary Patient Simulator. The UMedic multimedia computer curriculum is incorporated into the elective to further interactive self-learning. Didactic ECG and Arrhythmia lectures are given daily. Each student will also read, interpret and review electrocardiograms and arrhythmias with clinical faculty. Students will use our web-based programs, Essential ECG and Essential Arrhythmia, to facilitate their learning.

Components: MOD.
Grading: GRD.

MDR 952. Reproductive Endocrinology and Infertility. 2 Credit Hours. This rotation will provide you with the unique opportunity to learn about the subspecialty of reproductive endocrinology and infertility. During this rotation student will learn the basics of menstrual cycle, hormonal regulation and different causes of infertility. Students will be exposed to a wide variety of endocrinological disorders such as amenorrhea, polycystic ovarian syndromes, thyroid dysfunction, and hyperprolactinemia. Opportunity will be given to attend and observe the different techniques of advanced reproductive technology, including in vitro fertilization, intracytoplasmic sperm injection, intrauterine insemination. You will also be able to scrub-in and observe a wide variety of endoscopic surgeries.

Components: MOD.
Grading: GRD.

MDR 953. Cardiac Anesthesiology / CVICU. 4 Credit Hours. During this rotation, the student will be exposed to the principles and the practice of cardiothoracic anesthesia, applied cardiovascular physiology and pharmacology, and the management of the cardiothoracic surgical patient in the post-surgical ICU setting. The course will provide the student exposure to and experience performing the preoperative assessment, intraoperative management, and postoperative intensive care management of cardiothoracic surgical patients from the perspective of the cardiac anesthesiologist and critical care specialist. The student will work with faculty, fellows, and residents delivering anesthetic care to adult patients undergoing cardiothoracic and vascular procedures and under the supervision of the ICU attendings and fellows, and share in the responsibility for direct day-to-day ICU patient care.

Components: MOD.
Grading: GRD.

MDR 954. Pediatric Anesthesiology. 2 Credit Hours. This elective will introduce the subspecialty of Pediatric Anesthesiology to medical students interested in careers in Anesthesiology, Pediatrics and related specialties. The rotation will consist of a 2-week consecutive period that will expose the medical student to the basic knowledge and skills inherent to the practice of pediatric anesthesia. Techniques of basic procedural skills will be reviewed along with discussions on topics integral to pediatric peri-operative care. The course will provide the student exposure to and experience performing the preoperative assessment, intra- and post-operative management of pediatric surgical patients from the perspective of the pediatric anesthesiologist.

Components: MOD.
Grading: GRD.

MDR 955. UroGynecology Sub-I. 4 Credit Hours. The objective of this sub-internship is to improve the students’ knowledge and skills in evaluating and managing women with pelvic organ prolapse (POP) and urinary incontinence. The student will develop an understanding of pelvic anatomy, become familiar with surgical principles and develop proficiency in evaluating and recognizing the various types of POP, urinary incontinence and voiding disorders. Student participating in the sub-internship will also become familiar with the surgical management of POP and urinary incontinence, and have greater exposure to other common types of pelvic floor dysfunction such as; fecal incontinence, constipation, urinary tract infections, bladder and pelvic pain, urethral diverticulum, and sexual dysfunction.

Components: MOD.
Grading: GRD.
MDR 956. Procedure Team Medical Student Elective. 2-4 Credit Hours.
The performance of an invasive bedside procedure carries with it inherent risks and potential complications. Incorrect accomplishment of such may adversely affect patient safety, increase hospital length of stay, necessitate the use of additional resources, and propagate incorrect procedural methods for the next generation of physicians. To this end a formal course in procedural instruction serves as model for the other institutions and as a standard within our own. The days of ‘see one, do one, teach one’ are extinct. Students will undergo formal procedural instruction using task trainers/models. They will become familiar with relevant anatomy, and perfect the technical skills needed to successfully perform invasive bedside procedures, from pre-procedural assessment to post-procedural documentation and follow-up
Components: MOD.
Grading: GRD.

MDR 957. Geriatrics and Palliative Medicine Clerkship. 2 Credit Hours.
The medical student will spend four weeks at the VA Medical Center and assume responsibility for the care of older patients under the supervision of board-certified geriatricians and palliative medicine physicians, geriatric and palliative medicine fellows, and members of the interdisciplinary care team. Our mission is to teach, model and assess the knowledge, skills, and attitudes needed by medical students to complete comprehensive geriatric and palliative care assessments. Clinical activities will mainly take place in multiple chronic care venues at the VA including the Intermediate Care Unit, the Hospice Unit, the Community Living Center, and the Geriatric Primary Care Clinic. Students may have an opportunity to rotate at the Miami Jewish Health System or participate in clinical services at the University of Miami Hospital and the Cancer Center.
Components: LEC.
Grading: GRD.

MDR 958. UMH Medicine Sub-I. 4 Credit Hours.
The primary objective of this rotation is to emphasize mastery of clinical core internal medicine competencies, to develop skills in inpatient management of common medical illnesses, and to prepare fourth year medical students for internship. This rotation will promote the expansion of the clinical knowledge base and emphasize the practice of evidence based internal medicine.
Components: MOD.
Grading: GRD.

MDR 959. JFK Medicine Sub-I. 4 Credit Hours.
The objective of this rotation is to provide students with hands on clinical experiences that are specifically designed to mirror their upcoming roles as interns in postgraduate training. The medical Sub-intern will master specific core competencies and basic principles of inpatient medical care. The sub-intern will be a member of a medical ward team that consists of an attending, one resident, two interns and two third year clerks. The sub-intern will work specifically with one resident on the team who will directly oversee the sub-intern and the care of his/her patients. They will focus on delivery of inpatient care to general medical patients as well as collaborate with medical and surgical subspecialties. They will attend daily morning report and attending rounds as well as participate in daily sign out/hand off rounds. Sub-Interns will attend daily noon conferences, weekly grand rounds, and twice weekly sessions with sub-internship coordinators to review key inpatient topics.
Components: MOD.
Grading: GRD.

MDR 960. Vascular Surgery. 4 Credit Hours.
This rotation is a busy service treating the complete spectrum of vascular diseases including aneurysms of the aorta, cerebrovascular disease, mesenteric vascular disease, renovascular disease and peripheral vascular disease. In addition, endovascular procedures will be observed. This rotation will allow the student to care for patients both pre-operatively and post-operatively. There will also be some experience interpreting non-invasive diagnostic tests to tailor the operation for specific vascular problems. Conferences with the attendings are held on a weekly basis. Students will learn how to recognize, diagnose and treat the most common vascular diseases. All students will be evaluated by the attending in charge on their professionalism, clinical skills, and participation. Attendance is mandatory for all assigned conferences, rounds and/or presentations and will be taken into consideration. Students are required to stay until 10 PM when on night call.
Components: MOD.
Grading: GRD.

MDR 961. MIA VAMC Medicine Sub-I. 4 Credit Hours.
The objective of this rotation is to provide students with hands on clinical experiences that are specifically designed to mirror their upcoming roles as interns in postgraduate training. The medical Sub-intern will master specific core competencies and basic principles of inpatient medical care. With the guidance and oversight of the supervising attending and resident, the sub-I will be seen as the primary care giver by the patient and the hospital staff.
Components: MOD.
Grading: GRD.

MDR 962. JFK Intensive Care Unit. 4 Credit Hours.
The objective of this rotation is to provide M4 students with hands on clinical experiences in an ICU setting that will expose them to the pathophysiology, and management of patients in an intensive care setting. The M4 will act as an integral member of the ICU team.
Components: MOD.
Grading: GRD.

MDR 963. Ambulatory Obstetrics and Gynecology. 4 Credit Hours.
The objective is for the student to gain experience in the diagnostic and therapeutic approaches for general obstetric and gynecologic conditions by participating in direct patient care and resident didactic activities. Students will enhance interpersonal skills and professional conduct in the female patient encounter setting. Students will learn the basic ambulatory management of medium and high risk obstetrical patients, the management of ambulatory gynecologic conditions, and prevention and screening in women's reproductive health. This rotation is ideal for the student considering a career in obstetrics and gynecology as he or she will be exposed to multiple aspects of the field. The rotation will also provide a strong foundation in outpatient women's reproductive health for those going into internal medicine, family medicine, pediatrics and psychiatry.
Components: MOD.
Grading: GRD.
MDR 965. Addiction Psychiatry @ Wellington Retreat. 4 Credit Hours.
Medical students get hands on experience regarding the evaluation and
treatment of addiction and other psychiatric illnesses. From day one, they
are taught to recognize symptoms and gain interview techniques. They
perform initial evaluations directly supervised by Dr. Moran who is triple
board certified in general psychiatry, addiction psychiatry, and addiction
medicine. Students attend community meetings every week day as well
as adolescent community meetings and several groups (which usually
takes all morning 8:30-12:00). They are shown the proper way to write
notes on patients with psychiatric diseases and all notes are written
by the students and reviewed by the doctor. Students are assigned a
caseload of patients. The students are expected to assess them daily to
witness and understand the gradual changes in the psychopathology.
Every day, everyone involved in the care of patients (Doctors, Therapists,
Clinical Director, Coordinators Director, Residents PA, students and
the medical students) meet during lunch (12:30-13:30) to discuss
the individual treatment of each patient; students are encouraged
to participate since their contact with the patients provides helpful
additional observations. Our treatment is based on cutting edge research
and the students will learn about psychopharmacology as well as
evidence-based psychosocial interventions.
Components: MOD.
Grading: GRD.

MDR 966. Medical-Legal Partnership. 2-4 Credit Hours.
Medical-Legal Partnership clinic presents issues of health in the broader
social context of people’s lives, providing knowledge and skills from both
disciplines to the advancement of health through joint medical-legal
advocacy and interdisciplinary solutions to complex problems. During
the course, students from medicine will be partnered with various mentors to
focus on basic legal issues in the context of medical care. They will have
the opportunity to work in unique clinical experiences which focus not
only on medical care of actual patients but also on broader policy issues
that affect public health. They will have an opportunity to work with
the Child protection Team, Justice Outreach with the Veterans courts,
Human Trafficking and Asylum clinics and Mental Health In-Hospital
program to learn how medical expertise works with hospital regulations
and laws to impact on health outcomes of the public. They will also
participate in the medical-legal clinics with law students as medical
“experts” to work together to advocate for patients by the elimination
of social determinants that adversely affect patient health such as income
and employment, housing, education, legal status, and personal safety.
The Medical-Legal clinic at the Miami Veterans Administration Medical
Center (inter disciplinary with Medical and Psychiatric attendings), will
allow students to use their clinical skills and learn about the complex
intersection of health and law. There they will develop insight into how
the law may be used as a tool to improve health, and how health care
providers and lawyers can work together to invoke more effective and
preventive remedies for patients and clients.
Components: MOD.
Grading: GRD.

MDR 967. JFK Cardiology Consult. 2-4 Credit Hours.
This is an inpatient consult rotation is at JFK Medical Center, a tertiary
care center in Palm Beach County. It is a very active cardiac center with
invasive cardiology services, cardiac surgery, and electrophysiology
services. Patients encountered reflect the rich, diverse nature of
pathology present in the area with equal exposure to men and women of
multiple ethnicities and socioeconomic backgrounds.
Components: MOD.
Grading: GRD.

MDR 968. Psychiatry @ South County Mental Health. 2-4 Credit Hours.
This elective provides students with the opportunity to build upon
their Psychiatry Core Clerkship experience by assuming increased
responsibility for the diagnosis, treatment and management of
psychiatric inpatients. Under the supervision of attending physicians,
students will gain experience in the diagnosis and treatment of
patients presenting with a wide range of psychopathology, including
Mood Disorders, Psychotic Disorders and Substance Use Disorders.
Students will gain experience in performing psychiatric evaluations,
psychopharmacology and psychosocial interventions.
Components: MOD.
Grading: GRD.

MDR 969. Interventional Radiology. 4 Credit Hours.
The course is an introduction to Vascular/Interventional Radiology and
consists of intensive exposure to Vascular and Interventional Radiology
procedures under the direct supervision of interventional radiologists.
Students will learn and participate in (a) the use of radiological imaging
to guide procedures in different organ systems, (b) the evaluation
and management of patients requiring interventional radiology procedures,
and (c) performance of interventional procedures, including arterial
and venous angiography, angioplasty, stenting, embolization of tumors
and vascular malformations, and other vascular and interventional
procedures. They will also be instructed in the placement of different
venous access devices. Students will also be exposed to non-vascular
procedures such as percutaneous biliary drainage and tumor ablation.
Components: MOD.
Grading: GRD.

MDR 970. Ophthalmology for the Non-Ophthalmologist. 2 Credit Hours.
The two week clinical elective in ophthalmology is geared toward
medical students with a particular interest in obtaining an in depth
understanding of fundamental ophthalmology (geared for every student
regardless of specialty interest). Aspects of ophthalmology that are
pertinent to the practice of internal medicine, neurology, pediatrics,
family practice and other primary care specialties will also be taught.
Students will rotate through the emergency room, operating room, and
various subspecialty clinics at the Bascom Palmer Eye Institute where
they will shadow attendings and housestaff. A comprehensive didactic
course will be conducted concurrently during this two week block which
includes interactive case based presentations. A final examination will
be administered at the conclusion of the course. Students are also
welcome to attend weekly grand rounds and fluorescein conferences
as well as daily resident lectures during the rotation. An additional two
weeks is offered for students considering ophthalmology as a career. All
students wishing to be part of the four week course must have approval
of the course coordinator. These additional two weeks are set up as
a preceptorship and may be arranged independently with a faculty
ophthalmologist.
Components: MOD.
Grading: GRD.
MDR 971. Ophthalmic Pathology. 4 Credit Hours.

Components: MOD.
Grading: GRD.

MDR 990. HCH Emergency Medicine Clerkship. 4 Credit Hours.
The purpose of the RMC Emergency Medicine clerkship at Holy Cross is to provide students with an opportunity to acquire a foundation of knowledge and skills to care for patients with emergency medical conditions. Every physician should possess adequate assessment and management skills to rapidly identify life-threatening conditions, to initiate care, and to know whom and when to call for assistance. The Emergency Department is also one of the few practice sites where students play an integral role in the initial evaluation of an “undifferentiated” patient – where the diagnosis is completely unknown on initial contact, and the clinician must “start from scratch” to formulate a differential diagnosis, plan of evaluation, and plan of management. Experience in a wide range of procedural skills are also readily available including airway management, suturing, and central venous line placement. Students will participate in an EMS ride along, simulation cases, and didactic sessions. Students are evaluated through clinical evaluations and a written examination.
Components: LEC.
Grading: GRD.

MDR 992. RMC Radiation Oncology. 2-4 Credit Hours.
This is a 2 or 4-week elective intended to expose the senior medical student to spectrum of experiences in radiation-oncology. It’s anticipated that the student will rotate through 2-3 outpatient clinic settings and be exposed to various radiation-oncology treatment modalities/technologies.
Components: MOD.
Grading: GRD.

MDR 993. RMC Urology. 2-4 Credit Hours.
This course will expose the student to general urology in a busy office setting, at the hospital for daily rounds, and in the operating suite, where the student will scrub in surgical cases as a first or second assistant. The student will work closely with Dr. Gold and with the other physicians and staff at the Urology Center of South Florida. The student will be evaluating patients in the office and hospital, presenting findings and discussing the treatment plan with attending staff, and participating in a wide variety of minor office procedures as well as surgical procedures in the OR.
Components: MOD.
Grading: GRD.

MDR 994. Adult Allergy and Immunology. 2-4 Credit Hours.
The adult Allergy and Immunology elective is designed to give senior medical students exposure to the spectrum of diseases seen in the field of Allergy/Immunology. The student will predominantly rotate through the outpatient clinic and see patients and procedures based on the emphasis of that location.
Components: MOD.
Grading: GRD.

MDR 995. WPB VAMC Physical Medicine and Rehabilitation. 2-4 Credit Hours.
The purpose of this rotation is to provide the medical student with an introduction to the field of PM&R with emphasis on basic assessment and management options for common musculoskeletal disorders and neurological conditions affecting physical function. The rotation takes place mostly in the outpatient clinic setting with opportunities to also learn in other settings such as a nursing home or acute general hospital. There is also exposure to electrodiagnostic medicine and pain management.
Components: MOD.
Grading: GRD.
MDR 996. International Study Abroad. 0-8 Credit Hours.
All students going abroad on international programs (i.e., medical mission trips and others), regardless if UM or non-UM sponsored/related, must obtain proper approval from the Office of Student Affairs. Required forms can be found on the MedEd website under Important Documents for Students — Administrative Requirements for International Study. MDR 996 “International Study Abroad” — Senior medical students may obtain academic credit for selected international clinical experiences. Only senior students are allowed to receive credit for such experiences. Credit is counted towards their Elective requirements. The above mentioned forms must be filled out. Additional information is also required, including written goals/objectives for the rotation, expectations, student responsibilities, location/institution for the clinical experience, how the student will be evaluated, and the name/contact of physician who will complete the evaluation form. This information needs to be presented in advance to the Senior Associate Dean for Undergraduate Medical Education for approval prior to the trip, preferably far in advance.
Components: MOD.
Grading: GRD.

MDR 997. Research Md/Phd Program. 0-8 Credit Hours.
Students must have defended their thesis for Graduate School and also finished their 3rd year MD clerkships student will be granted 8 credits.

MDR 000. Elective. 1-30 Credit Hours.
Components: LEC.
Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

Microbiology and Immunology (MIC)

MIC 100. Microbiology as it Relates to Humans (EXP). 3 Credit Hours.
An introductory microbiology course for the summer scholars program. Microorganisms are in every facet of our lives and make up a microscopic world. Right now, your body is inhabited by over 40 trillion bacteria. Due to the evolution of our immune systems, we have been able to coexist with this world. It is when our immune systems weaken or when our otherwise healthy immune system encounters a particularly nasty pathogen that we become vulnerable. This course will cover the topics of how our immune system works, how microbial pathogens cause disease, how beneficial microbes protect us from disease, and some of the other activities perform that impact our world. The laboratory will provide you with invaluable experience in growing, staining, viewing and identifying microorganisms through the use of practical techniques and procedures. An in lab presentation of your 'unknown organism' will culminate what you have learned.
Components: LAB.
Grading: GRD.
Typically Offered: Summer.

MIC 201. Modern Plagues and Society. 3 Credit Hours.
An examination of three infectious diseases (AIDS, tuberculosis, and malaria) that currently impact a significant fraction of the human population, describing the infectious microbes themselves, efforts of researchers to contain these diseases, and how politics, infrastructure, and geographical factors determine public health outcomes.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 280. UMiami Scientifica Magazine - Writer. 0 Credit Hours.
UMiami Scientifica is a premier scientific publication at the University of Miami. The magazine, focuses on the STEM fields and publishes quarterly. Students who write for the magazine will learn to write clearly, concisely and in a manner that can be understood by the layperson. Successfully completing an article does not mean that an article will be published.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MIC 301. Introduction to Microbes and the Immune System. 3 Credit Hours.
Basic principles of microbiology and immunology; the microbiology component will include basic properties of bacteria, viruses, and parasites and how microbes interact with multicellular organisms in both disease and non-disease settings. The Immunology component presents the players and basic concepts of immune responses as they apply to combat infectious pathogens, autoimmunity, allergy and transplantation. Course is required for microbiology and immunology majors; recommended for biology, chemistry and biochemistry majors and those considering the health sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 304. Introduction to Microbes and the Immune System (Lab). 2 Credit Hours.
Basic laboratory principles of microbiology and immunology. Students are instructed on how to handle, culture, and identify microorganisms. Microscope care/use, various staining techniques, ELISA, blood typing, bacterial transformation, and more. This laboratory is required of all microbiology and immunology majors.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIC 319. Innate Immunity. 3 Credit Hours.
The innate immune system provides the first line of defense against infectious microorganisms and is a very important disease-preventing mechanism. In this course the students will learn the molecular and cellular processes mediating innate immune responses to microbial pathogens, including intra- and extra- cellular bacteria and viruses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 320. Introduction to Microbes and the Immune System for Nurses. 3 Credit Hours.
Course covers the basic principles of microbiology and immunology. Course cannot be used for MIC major or minor credit.
Requisite: School of Nursing Health Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MIC 321. Immunobiology. 3 Credit Hours.
Mechanisms underlying the cooperation between T-cells, B-cells, and antigens leading to humoral and cell mediated responses. The significance of immune cells and their products pertaining to autoimmunity, transplantation, and the surveillance of neoplastic cells is covered.
Prerequisite: MIC 301 or MIC 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 322. Medical Parasitology. 3 Credit Hours.
Course discusses the biochemistry, physiology, pathogenicity, immunology, and mechanism of drug action and resistance of medically important parasitic protozoa, trematodes, nematodes, and cestodes.
Prerequisite: MIC 301 or MIC 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 323. Microbial Pathogenesis and Physiology. 3 Credit Hours.
Fundamental properties of microbes as well as host-microbe relationships at the molecular and cellular levels.
Prerequisite: MIC 301 or MIC 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 436. Fundamental and Medical Virology. 3 Credit Hours.
The study of viruses as biological entities and etiological agents of disease. Virus-cell and virus-host interactions are also discussed.
Prerequisite: MIC 301 or MIC 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 441. Microbiology and Immunology Colloquium. 1 Credit Hour.
External and internal faculty presentations as well as graduate presentations of recent advances in research. Course meets on hour per week.
Prerequisite: MIC 301 or MIC 303.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MIC 451. Special Projects in Immunobiology. 2-6 Credit Hours.
Wet bench laboratory research with faculty in the Microbiology and Immunology (M&I) Department at the Miller School of Medicine. Students will be actively participating in all aspects of hypothesis-driven scientific research ranging from familiarity with the literature to conducting and analyzing experiments.
Requisite: at least 17 credits in MIC and MIN GPA 3.0.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
MIC 460. Advanced Topics in Microbiology and Immunology. 3 Credit Hours.
An extensive and detailed examination of a number of topics covered in the core courses of the major. The goal is for upper-division undergraduate students to take the knowledge base they acquired in their major core courses into 'cutting edge' research areas. Each topic (of a total of 4 to 8) will be presented by a Faculty member with expertise in the area. Topics may include HIV Infection and the Immune System, immunology of Pregnancy, and Mitochondrial-based diseases. Emphasis will be placed on gaining a familiarity with the primary scientific literature.
Requisite: MIC 301 OR MIC 303 OR MIC 304 AND MIC 319 AND MIC 321.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MIC 601. Medical Microbiology. 5 Credit Hours.
Course discusses the nature of microbial agents of infectious disease as well as relationship of virulence to host resistance and fundamental immunologic concepts. Microbial physiology and genetics, the structure, design, and mechanism of action on antimicrobials.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 623. Mechanisms of Microbial Virulence. 2 Credit Hours.
This course will focus on the mechanisms employed by bacterial and viral pathogens to produce disease in animals and humans. The course is divided into two, three-week modules. The first module will cover bacterial pathogens with an emphasis on the bacteria-host cell interaction. Specific topics will include: bacterial attachment and invasion of eukaryotic cells, virulence gene regulation, secretion of virulence factors, bacterial toxins and obligate intracellular bacterial pathogens. The second module will cover viruses and human viral diseases with an emphasis on viral replication, gene expression, virus-host cell interactions and viral oncology. Classes will consist of a mixture of lectures and discussions of recent or classic papers. There will be two exams.
Prerequisites: MIC 775 and MIC 755.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MIC 626. Laboratory Experimentation. 4 Credit Hours.
One or two laboratory training sessions of 6-12 weeks each. Each student rotates through faculty research laboratories in the areas of immunology, molecular biology, and microbiology, (bacteriology, virology, parasitology) where they receive 'hands on' experience by participating in ongoing research projects.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 716. Advanced Molecular Biology. 3 Credit Hours.
The molecular basis of cellular function and regulation in both procaryotic and eucaryotic systems. The molecular genetics and biochemistry of the genetic material and its utilization during replication, transcription, translation, cellular growth, division, and differentiation. Recombinant DNA technology and molecular genetics are discussed. This course is designed for graduate students in biological sciences. A good background in biology or biochemistry is recommended.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 726. Laboratory Experimentation. 4 Credit Hours.
Two or three laboratory training sessions of 6-12 weeks each. Each student rotates through faculty research laboratories in the areas of immunology, molecular biology and microbiology, (bacteriology, virology, parasitology) where they receive 'hands on' experience by participating in ongoing research projects.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 727. Laboratory Experimentation. 6 Credit Hours.
Two or three laboratory training sessions of 6-12 weeks each. Each student rotates through faculty research laboratories in the areas of immunology, molecular biology and microbiology, (bacteriology, virology, parasitology) where they receive 'hands on' experience by participating in ongoing research projects.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 728. Principles of Immunology. 3 Credit Hours.
This 3-credit, team-taught, course will present core concepts in immunology and scientific reasoning in immunological research. The course is divided into 7 weekly modules. Each module has a common theme and consists of 3 lectures on fundamental immunological concepts and one session where students present and discuss a research paper related to the theme of each module. The paper discussion session will include use of disease models as a portal to understand the function of immune system in health and disease. The goals are for students to understand the core concepts in immunology as well as scientific reasoning deployed in immunological research, and thus improving their intellectual skills to generate new knowledge.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 731. Special Work. 1-5 Credit Hours.
Special work, lecture, laboratory or a combination of these, as determined by advisor in accord with student's individual interest. Course is offered only on demand.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 732. Special Work. 1-5 Credit Hours.
Special work, lecture, laboratory or a combination of these, as determined by advisor in accord with student's individual interest. Course is offered only on demand.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MIC 751. Advance Topics in Microbiology and Virology. 1-3 Credit Hours.
This advanced level course is intended to explore complex interactions of microbial pathogens and hosts at the systemic, cellular, subcellular and molecular levels. This course consists of three modules focusing on the following topics: (1) Ubiquitin molecules at the host/pathogen interface and inflammasomes (1 credit); (2) Microbes, emergency hematopoiesis and autoimmunity (1 credit); and (3) The role of microbes in cancer initiation, progression and therapy (1 credit).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 755. Microbiology and Immunology Research- Career Skills and Proficiencies. 1-6 Credit Hours.
This is a longitudinal training course delivered throughout all years of training. Students start taking it upon joining the Microbiology and Immunology Program to perform research under the mentorship of participating faculty. Up to six credits may be awarded commensurate with attendance and participation in the four modules. The four modules include: Teaching assistance (TA) experience (3 credits); Attendance and participation in the weekly departmental seminars and completing written assignments on the seminars topics (1 credit); Attendance, participation and presentation in Journal Clubs (1 credit); Research Forums on Responsible Conduct of Research (RCR) and career skills (1 credit).
Components: MOD.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MIC 761. Advanced Topics in Molecular Biology of Animal Viruses. 2 Credit Hours.
This course is organized around four major themes of virological studies: (i) viral genome transcription, replication, and virus assembly; (ii) viral pathogen esis; (iii) virus cell interactions; and (iv) antiviral strategies. Most recent research developments in these areas are covered through lectures by participating faculty members as well as paper presentations by students.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MIC 775. Advanced Topics in Immunology. 1-3 Credit Hours.
This course will explore in depth the current and advanced concepts and topics in selected areas of Immunology. We will cover recent advances and cutting edge experimental approaches in cellular and molecular immunology and also expose students to concepts and themes that link the various cell types into an effective immune system. The classes will consist of a mixture of lectures and discussions of recent papers and be divided into three modules: (1) Cellular and molecular networks of Immune System (1 credit); (2) Molecular regulation of Adaptive Immunity (1 credit); (3) Immunopathologies and Immunotherapies (1 credit).
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 780. Research Ethics. 1 Credit Hour.
The NIH Guide for Grants and Contracts stipulates that Institutions receiving support for National Research Service Award Training Grants are required to develop a program in the principles of Scientific Integrity. This program should be an integral part of the proposed training effort. The University of Miami School of Medicine has chosen to respond to this requirement with this course. This course must be taken during the first semester in the Department or Program. This is a six-hour course and is given in two sessions of three hours each.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 799. Advanced Topics. 1-3 Credit Hours.
Subject matter offerings based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title 'Advanced Topics'.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MIC 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

MIC 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in MIC 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MIC 830. Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MIC 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MIC 840. Doctoral Dissertation - Post Candidacy. 1-12 Credit Hours.
Required for all PhD candidates. The student will enroll for credits as determined by their advisor/Office of Graduate and Postdoctoral Studies but not less than a total of 24. No more than 12 hours of research may be taken in a regular semester, and no more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall.
Military Science (MSL)

**MSL 101. Basic Military Science. 0-2 Credit Hours.**
Introduction to basic leadership principles and traits, army command and staff officer duties, awards, decorations, individual military tactics, field discipline, patrolling techniques, radio telephone procedures, rappelling and river crossing. Requires outdoor leadership laboratory and at least one weekend field training exercise.

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall.

**MSL 201. Basic Military Science. 0-2 Credit Hours.**
Instruction to squad and platoon marching drills, development of physical fitness training programs, conduct on military training and inspections, leadership techniques, advanced map reading, rappelling and river crossing techniques. Requires outdoor leadership laboratory and at least one weekend field training exercise.

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Spring.

**MSL 202. Basic Military Science. 0-2 Credit Hours.**
Continued instruction in drill and ceremonies, radio/telephone procedures, nuclear, biological, and chemical warfare, practical land navigation, orienteering, and introduction to combat troop leading procedures. Requires outdoor leadership laboratory and at least one weekend field training exercise.

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall.

**MSL 301. Basic Military Science. 0-3 Credit Hours.**
Classroom and field experience in leading squads and platoons in both garrison and combat environments. Practical exercises in combat troop leading procedures. Advanced physical fitness training to include endurance runs and tactical road marches. Requires outdoor leadership laboratory and at least one weekend field training exercise.

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall.

**MSL 302. Advanced Military Science. 0-3 Credit Hours.**
Classroom instruction and field experience in combat troop leading procedures for offensive, defensive and patrolling missions. Advanced written and practical land navigation exercises. Company level drill and ceremonies to include manual of arms. Classroom and practical exercises on requests for artillery and mortar fires. Practical experience with training underclassmen in first aid and individual tactics.

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall, Spring, & Summer.

**MSL 401. Advanced Military Science. 0-3 Credit Hours.**
Instruction instills an uncompromising commitment to the Army Ethic, enhances thought processes and decision-making skills, and relates officer behavior to cadet leadership roles. Students are primarily responsible for the command and control of the cadet battalion for training purposes. Student’s role is principally one of officer leader at the platoon (30 or more under classmen) and higher levels and cadet instructor/evaluator. Rifle qualification. Company level drill and ceremonies to include manual of arms.

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall.

**MSL 402. Advanced Military Science. 0-3 Credit Hours.**
Capstone course in the preparation for a commission as a second lieutenant. The training is intended to solidify the commitment to officership, reinforce individual competencies, and afford maximum practical officer leader experiences through responsible leadership positions within the cadet battalion command and staff.

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Spring.

**MIS 100T. Transfer Credit Elective. 1-10 Credit Hours.**

*Components*: LEC.

*Grading*: TRN.

*Typically Offered*: Fall.

**MIS 201. Military Studies. 1-10 Credit Hours.**

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall & Spring.

**MIS 202. Military Studies. 1-3 Credit Hours.**

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall & Spring.

**MIS 301. Military Studies. 0-3 Credit Hours.**

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall.

**MIS 302. Military Studies. 0-3 Credit Hours.**

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall.

**MIS 401. Military Studies. 0-3 Credit Hours.**

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Fall.

**MIS 402. Military Studies. 0-3 Credit Hours.**

*Components*: LEC.

*Grading*: GRD.

*Typically Offered*: Spring.

**MIL 850. Research in Residence. 1 Credit Hour.**

*Components*: THI.

*Grading*: SUS.

*Typically Offered*: Fall, Spring, & Summer.

**Modern Languages and Literature (MLL)**

**MLL 195. Transfer Credit. 1-3 Credit Hours.**

Transfer credit at the 100 level for courses in languages not offered by the Department of Modern Languages and Literature.

*Components*: UNG.

*Grading*: GRD.

*Typically Offered*: Fall.
MLL 295. Transfer Credit. 1-3 Credit Hours.
Transfer credit at the 200 level for courses in languages not offered by
the Department of Modern Languages and Literature.
Components: LEC.
Grading: GRD.

MLL 321. Topics in Comparative Literary Studies. 3 Credit Hours.
Comparative and/or interdisciplinary topics in the study of literature.
Specific topics vary; may be repeated for credit if topics differ. Taught in
English
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 322. Topics in Comparative Cultural Studies. 3 Credit Hours.
Cultural phenomena in various societies. Interdisciplinary analysis of the
political dynamics of contemporary culture and its historical foundations
with a focus on ideology, social class, nationality, ethnicity, sexuality and/
or gender. Specific topics vary; may be repeated for credit if topics differ.
Taught in English.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 325. World Cinema. 3 Credit Hours.
World cinema in a comparative perspective - national or international film
movements and directors - based upon narrative film analysis. May be
repeated for credit if topics vary.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 330. Comparative Topics in Gender and Sexuality. 3 Credit Hours.
Topics in gender and sexuality in a comparative perspective. May be
repeated if topics vary. Taught in English.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 340. Migration Studies. 3 Credit Hours.
Topics within the literary and/or cultural dimensions of migration in a
comparative framework.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 345. Franco-Maghreb Studies. 3 Credit Hours.
Major historical, social, cultural and literary issues related to the Franco-
Maghrebian interface, in a comparative perspective. May be repeated if
topics vary.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 360. The Caribbean through Literary and Cultural Studies. 3 Credit Hours.
Literary and cultural readings on the Caribbean in comparative
perspective. May be repeated if topics vary.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 370. Studies in Literature, Culture, and Science. 3 Credit Hours.
An analysis, in a comparative or historical perspective, of the literary
works that expose the deep interaction and mutual influence between
literary or visual cultures and the sciences. Topics might include:
Leonardo’s genius; technology at the turn of the 20th-century; 20th-
century wars, the science behind them and their representations;
Vesalius’s anatomical work and the philosophy and representation of the
body in 16th-century Europe.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 394. MLL Internship. 1-3 Credit Hours.
Internships are intended to provide students with an opportunity to
apply analytical, creative, community and professional based knowledge
developed in other courses. Internships can take place in the University
or outside the University. They involve UM-faculty supervision as well as
supervised on-site experience. Internships may not be supervised by a
member of the student’s immediate family. One person may not serve
as both the faculty sponsor and the onsite/UM experience supervisor.
Students need to fill out the internship application form. MLL 394 counts
as both the faculty sponsor and the onsite/UM experience supervisor.
Normally 27 internship hours are required per credit earned. (The on-site
supervisor or faculty supervising the work experience done at UM will
supply documentary evidence of hours worked to Faculty supervisor.) A
maximum of three semester hours of internship credit may be counted
toward the student’s degree program. Permission of MLL faculty member
is required.
Prerequisite: ARB 204 or CHI 203 or FRE 203 or GER 202 or ITA 202 or
JPN 204 or POR 202 or SPA 203 or SPA 208.
Components: PRA.
Grading: GRD.

MLL 395. Transfer Credit. 1-3 Credit Hours.
Transfer credit at the 300 level for courses in languages not offered by
the Department of Modern Languages and Literature.
Components: LEC.
Grading: GRD.

MLL 404. Language in Society. 3 Credit Hours.
Overview of ideological, social, political, economic, and cultural issues
of language in society, and the principle linguistic concepts and
methodologies that guide research on those issues. Language variation,
social dialectology, multilingualism, interaction and interpersonal
communication, gender, language and power, language policy and
planning, and globalization are highlighted. The main focus of the course
(at least 80%) will be on non-English languages in particular, those taught
in MLL.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.
MLL 410. Digital Literacy Through Cultural and Literary Topics. 3 Credit Hours.
Digital research methods and tools applied to literary and cultural studies. The course works with texts as data and with many approaches available to collect, annotate process, analyze and interpret them. Concepts covered include but are not limited to textual corpus, semantic tagging, text mining, and topic modeling. Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MLL 411. Cultures of the Digital: Pages, Screens, Platforms and 21st Century Aesthetics. 3 Credit Hours.
Communication technologies across national borders. Students will interrogate the ramifications of cross-platform and cross-cultural reading in the digital age and its literary, aesthetic and theoretical history. Texts will include works on electronic literature, print media, art and cinema from across the 20th and 21st century Americas. Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MLL 495. Transfer Credit. 1-3 Credit Hours.
Transfer credit at the 400 level for courses in languages not offered by the Department of Modern Languages and Literature.
Components: LEC.
Grading: GRD.

MLL 701. Intro to Second Language Teaching: Theory and Practice. 3 Credit Hours.
Introduction to the teaching of second languages in university settings. Overview of major theoretical approaches: sociocultural, communicative, and task-based. Practice with teaching techniques: Lesson planning, task design, use of the target language, grammar teaching, use of authentic oral and written materials in the classroom. Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

MLL 702. Bilingualism. 3 Credit Hours.
Social, psychological, linguistic, and pedagogical dimensions of language contact situations. Emphasis on Spanish and French. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 703. Topics in Critical Studies of Language. 3 Credit Hours.
Special topics in the critical analysis of language. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 704. Sociocultural Theory and Second Language Development. 3 Credit Hours.
Key principles of sociocultural theory of mind applied to second language acquisition and pedagogy. The seminar will explore the theoretical, methodological, and pedagogical implications of the theory, emphasizing concept-based teaching and dynamic assessment. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 711. Introduction to Critical Theory. 3 Credit Hours.
An introduction to the major concepts, issues, and debates that inform contemporary literary criticism.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

MLL 712. Topics in Early Modern Comparative Literature. 3 Credit Hours.
Specific genres, works, authors and movements in comparative perspective in the early modern period (1300-1750). Topics may include: Trans-Atlantic Baroque; Grotesque Literature; Petrarchan Poetry in Italy, France, and England The Emergence of Professional Theater in Western Europe.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 714. Readings in Critical Theory. 3 Credit Hours.
Representative works of critical theory as related to philosophy, sociology of culture, psychoanalysis, hermeneutics, deconstruction, etc. May be repeated for credit if topics are different.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

MLL 721. Special Topics in Literature. 3 Credit Hours.
May be repeated for credit, if topics are different.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 726. Topics in Comparative Literature. 3 Credit Hours.
May be repeated for credit, if topics are different.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 771. Introduction to Digital Humanities. 3 Credit Hours.
An introduction to the theory and practice of the digital humanities from a literary and cultural studies perspective. It introduces major types of digital humanities work and central debates and concerns in the field. The course is taught in English and is open to graduate students from all humanities departments. No experience in the digital humanities or with digital tools or methods is required.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MLL 772. Topics in Digital Humanities and Media Studies. 3 Credit Hours.
A survey of Media Studies. Students will approach a broad range of texts in the field, and outline both its historical development and present state, with a particular focus on emerging theories and practices within Media Studies and Digital Humanities in the academy. The course is taught in English and is open to graduate students from all humanities departments.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MLL 773. Digital Medieval Studies. 3 Credit Hours.
An overview on the history and theoretical trends regarding digital resources and tools applied to medieval disciplines. This course is taught in English and is open to graduate students from all humanities departments, especially those interested in historical studies and digital methods.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MLL 774. Practicum in Digital Humanities. 3 Credit Hours.
Offers students the possibility to apply their learning in the field of Digital Humanities and move forward on their personal Digital Humanities research project. Students will carry out many practical exercises with programming languages and digital tools, and work towards a final digital project. This course is taught in English and is open to graduate students from all humanities departments.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MLL 792. Directed Readings. 1-3 Credit Hours.
Directed readings.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MLL 793. Teaching Practicum. 3 Credit Hours.
Teaching Practicum.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 797. Readings for the Ph.D. Examinations. 3 Credit Hours.
For Ph.D. students who are preparing for exams.
Components: IND.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 798. Internship. 1 Credit Hour.
Students work in a community or business setting on issues related to language, culture, and/or teaching.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 799. Dissertation and Professional Writing Seminar. 1-3 Credit Hours.
This course will be taken during the seventh semester of graduate study, concurrently with the final preparation/defense of dissertation prospectus during the first month of the semester. The course provides a structure and a time frame for completing the first chapter of the dissertation over the course of that semester so that students have their projects well underway at the beginning of their eighth semester of graduate study. Students will present their thesis work-in-progress to the course instructor and each other while receiving broader counsel on dissertation completion strategies and various areas of professional writing, including conceptualizing arguments for various audiences, submitting grant proposals, and publishing across a variety of venues. Course is required in the fourth year of graduate study and may be repeated optionally in subsequent years by students in advanced stages of dissertation writing.
Prerequisite: SPA 830 or FRE 830.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

Molecular and Cellular Pharmacology (MCP)

MCP 701. Seminar. 2 Credit Hours.
Review of related literature, discussion of special topics, student presentations and attendance of faculty/department seminars. Course may be repeated for a total of eight credits.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MCP 704. Mechanisms of Drug Action. 3 Credit Hours.
This course consists of a combination of lectures, problem sessions and student presentations. Students will be given in-depth exposure to the fundamental principles of Pharmacology. The mechanism of action of some specific drug classes will be examined in detail.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCP 731. Special Topics. 1-6 Credit Hours.
Directed readings on subjects not ordinarily treated in depth in specific courses. Course may also consist of special laboratory problems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MCP 732. Cardiovascular Pharmacology. 2-3 Credit Hours.
The course covers cardiovascular pharmacology, necessary cardiovascular physiology and anatomy and the function and pharmacology of the autonomic nervous system. The students learn about the function and energetics of the heart and how it is changed in cardiac disease.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MCP 743. Introductory Python Programming for Bioscientists. 3 Credit Hours.
The course is designed to teach the basic of the Python programming language. Students will learn to use code to solve problems related to biological datasets such as genomes, proteomes, and molecular structures.
Components: DIS.
Grading: SUS.
Typically Offered: Spring.

MCP 752. Systems Biology and Approaches in Pharmacology. 3 Credit Hours.
In this course students will discuss the biochemical structure and function of signaling pathways that are most frequently targeted by the pharmaceutical industry. Students will be exposed to novel concepts and findings, in particular with regards to innovative therapeutic applications. Each week will address a different pathway or signaling network, its biological targets and functions, and specific drugs that target it. Each week includes one lecture and one class where students and instructor convene to discuss articles, technical approaches or fundamental questions in the field.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCP 753. Computational Pharmacology and Fundamentals of Drug Design. 3 Credit Hours.
Like physics and chemistry in the 20th century, computers are transforming biology and medicine at a rapid pace. In pharmacology, the importance of computation and bio- and chemo-informatics cannot be overestimated. This course is collectively taught by the MCP faculty and addresses the following four distinct areas. (1). Computer-based analysis of drug-receptor interactions. Students learn principles and specific software packages for in silico docking of drugs to proteins, predict structure-activity relationships and become familiar with programming tools required for such tasks. (2). Using on-line databases to study biological activity, therapeutic indexes, toxicity and other characteristics of drugs and other chemicals. Similarly, they learn to analyze the vast information available for drug targets such as receptor proteins and enzymes. (3). Students learn about pharmacogenomics, an area essential for personalized medicine. Here, they learn, for example, how to predict the reaction of certain populations to particular treatments. (4). Students learn about the drug development pipeline, starting with the design, through screening chemical libraries and to the basics of FDA approval. In addition to lectures, they visit a UM robotic drug screening facility and UM pharmacy. Overall, this course emphasizes a hands-on approach with students performing computation tasks on their laptops. Laptops and gaining access to certain on-line resources are required.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCP 768. Neuropharmacology. 2-3 Credit Hours.
An intensive course covering the regulation of neural processes by drugs that target neurotransmitter signaling at the level of GPCRs, G proteins, second-messengers and ion channels.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCP 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MCP 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master’s degree after the student has enrolled for the permissible cumulative total in MCP 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MCP 830. Dissertation Research-Pre-Candidacy. 1-12 Credit Hours.
Required for all PhD candidates. The student will enroll for credits as determined by their advisor/Office of Graduate and Postdoctoral Studies. No more than 12 hours of research may be taken in a regular semester, and no more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MCP 840. Doctoral Dissertation- Post Candidacy. 1-12 Credit Hours.
Required for all PhD candidates. The student will enroll for credits as determined by their advisor/ Office of Graduate and Postdoctoral Studies but not less than a total of 24. No more than 12 hours of research may be taken in a regular semester, and no more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MCP 850. Research in Residence. 1 Credit Hour.
Student must be registered in the semester they plan to defend. Used to establish research in residence for the PhD after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Student may be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Molecular, Cellular and Developmental Biology (MDB)

MDB 701. Seminar. 1-2 Credit Hours.
Students are required to present their research findings as well as attend Department Faculty seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MDB 710. Readings in Cell Biology. 1-6 Credit Hours.
Current and classical research papers in cell, developmental, and molecular biology. Critical evaluation of papers and the methodologies used is included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MDB 713. Topics in Cell Biology. 1-6 Credit Hours.
Formal seminar course in which each student presents a lecture relating to a specific theme. Topic areas include cell, developmental, and molecular biology with the subject changing each term.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MDB 751. Advanced Cell Biology Approaches to Molecular Medicine. 2-3 Credit Hours.
Structure, function, and biogenesis of cellular organelles and the cytoskeleton, including their regulation and dynamic interactions. The course is taught in seminars, followed by student-led discussion of recent relevant papers in the literature. The goal of the course is to lead the students to in-depth conceptual and methodological analysis of selected topics up the understanding of current leading-edge research in specific topics in Cell Biology. The course is designed to cover knowledge beyond the text books and to enable the students to design and criticize experimental approaches in Cell Biology acceptable for current peer-review criteria.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MDB 752. Current Topics in Mammalian Development. 2-3 Credit Hours.
The course will cover central emerging topics in mammalian development today in cluding embryonic stem cells, micro RNA gene regulation, and organogenesis. Th e class will have an interactive format, starting with basic lecture in mammal an development; subsequent sessions will include an overview of the selected to pic by faculty, followed by round table discussions of current paper(s) in the field.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MDB 753. Histology. 1 Credit Hour.
This course will cover central emerging topics in mammalian development today in cluding embryonic stem cells, micro RNA gene regulation, and organogenesis. Th e class will have an interactive format, starting with basic lecture in mammal an development; subsequent sessions will include an overview of the selected to pic by faculty, followed by round table discussions of current paper(s) in the field.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MDB 763. Stem Cell Biology and Genetic Engineering for Regenerative Medicine. 3 Credit Hours.
This course is designed to provide a current overview on the cell and molecular biology of stem cells, their identification and analysis, and the current status of their use for the repair and regeneration of a variety of tissues including heart, lung, muscle, pancreatic, neuronal and others.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MDB 765. Tumor Biology. 3 Credit Hours.
This course, comprised of lectures and student-led literature discussion, is intended to provide broad-based instruction on the modern molecular and cellular aspects of cancer biology, basic and translational research. The course highlights multiple areas including cell cycle, apoptosis, epidemiology, angiogenesis, and meets two times weekly.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MDB 810. Master's Thesis. 1-6 Credit Hours.
Current and classical research papers in cell, developmental, and molecular biology. Critical evaluation of papers and the methodologies used is included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MDB 820. Research in Residence. 1-6 Credit Hours.
Direct laboratory experience as determined by the Departmental Graduate Committee.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MDB 830. Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MDB 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MDB 840. Doctoral Dissertation- Post Candidacy. 1-12 Credit Hours.
Required for all PhD candidates. The student will enroll for credits as determined by their advisor/ Office of Graduate and Postdoctoral Studies but not less than a total of 24. Not more than 12 hours of research may be taken in a regular semester, and no more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MDB 850. Research in Residence. 1 Credit Hour.
Required for all candidates for the Ph.D. The student will enroll for credit as determined by the Departmental Graduate Committee.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Music Education and Therapy (MED)

MED 10. Mus Therapy Forum. 0 Credit Hours.
The course provides a weekly forum for sharing information about issues, current developments, and other matters related to music therapy as a field of study and as a profession.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MED 149. Functional Techniques in Music Therapy I. 2 Credit Hours.
Students acquire functional guitar and piano skills while learning repertoire and techniques for leading and accompanying music therapy experiences.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MED 15. Mus Edu Forum. 0 Credit Hours.
The course provides a weekly forum for sharing information about issues, current developments, and other matters related to music education as a field of study and as a profession. The course is required for all undergraduate MED majors during each semester, except during the semester of the internship. Components: FOR.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MED 159. Introduction to Music Therapy. 3 Credit Hours.
An overview of the field of music therapy, including history, theory and clinical practice. Includes field observations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 240. Woodwind Techniques. 1 Credit Hour.
Course provides group instruction in woodwind instruments with emphasis on basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 241. Brass Techniques. 1 Credit Hour.
Group instruction in brass instruments with emphasis upon basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 242. Percussion Techniques. 1 Credit Hour.
Group instruction in percussion (snare drum, mallet-keyboard percussion, timpani, drum set, and small accessory instruments) with emphasis upon basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 243. String Techniques. 1 Credit Hour.
Group instruction in percussion (snare drum, mallet-keyboard percussion, timpani, drum set, and small accessory instruments) with emphasis upon basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 244. Vocal Techniques. 1 Credit Hour.
Class instruction in fundamentals of singing, breath control, tone production, and solo singing for music majors.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 245. Folk and Modern Instrumental Techniques. 1 Credit Hour.
Group instruction in folk and modern instruments, including but not limited to guitar, ukulele, recorder, and drums, with emphasis on basic skills of performance and classroom uses, as well as the appropriate teaching techniques, methods, and materials.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 249. Functional Techniques in Music Therapy II. 2 Credit Hours.
Students acquire functional piano skills while learning repertoire and techniques for leading and accompanying music therapy experiences. Vocal skills are also emphasized.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MED 259. Music Therapy Pre-Practicum. 2 Credit Hours.
Students will learn a treatment-planning model for clinical practice. Topics include: assessment, goal setting, intervention design and data collection.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 340. Marching Band Fundamentals. 1 Credit Hour.
A study of all types of marching band activities and methods of presentation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 359. Music Therapy Practicum 1A. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 1A practicum is to observe and assist the on-site music therapist and to engage in limited co-leading.
Prerequisite: MED 259.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 360. Music Therapy Practicum 1B. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 1B practicum is to observe and assist the on-site music therapist and to co-lead for half of all sessions.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 361. Music Therapy Practicum 2A. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 2A practicum is to observe and assist the on-site music therapist and to co-lead for 60% of all sessions.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 362. Music Therapy Practicum 2B. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 2B practicum is to observe and assist the on-site music therapist and to co-lead for 70% of all sessions.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 363. Music Therapy Practicum 3A. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 3A practicum is to observe and assist the on-site music therapist and to co-lead for 80% of all sessions.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 364. Music Therapy Practicum 3B. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 3B practicum is to observe and assist the on-site music therapist and to co-lead for 90% of all sessions.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 365. Music Therapy Practicum 4A. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 4A practicum is to observe and assist the on-site music therapist and to co-lead independently.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 366. Music Therapy Practicum 4B. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 4B practicum is to observe and assist the on-site music therapist and to co-lead independently.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 367. Music Therapy Practicum 5A. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 5A practicum is to observe and assist the on-site music therapist and to co-lead independently.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 368. Music Therapy Practicum 5B. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 5B practicum is to observe and assist the on-site music therapist and to co-lead independently.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 369. Music Therapy Practicum 6A. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 6A practicum is to observe and assist the on-site music therapist and to co-lead independently.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 370. Music Therapy Practicum 6B. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 6B practicum is to observe and assist the on-site music therapist and to co-lead independently.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 371. Music Therapy Practicum 7A. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 7A practicum is to observe and assist the on-site music therapist and to co-lead independently.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MED 372. Music Therapy Practicum 7B. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 7B practicum is to observe and assist the on-site music therapist and to co-lead independently.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.
MED 362. Music Therapy Practicum 2B. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 2B practicum is to observe and assist the on-site music therapist and to co-lead for 75% of all sessions.
Components: PRA.
Typically Offered: Fall & Spring.
Grading: GRD.

MED 363. Music Therapy Practicum 3A. 2 Credit Hours.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 3A practicum is to observe and assist the on-site music therapist and to co-lead all sessions following one initial observation.
Components: PRA.
Typically Offered: Fall & Spring.
Grading: GRD.

MED 364. Music Therapy Practicum 3B. 1 Credit Hour.
Structured clinical experience in music therapy under supervision of a music therapist in varying health-related settings. Focus of the 3B practicum is to independently design and lead all sessions.
Components: PRA.
Typically Offered: Fall & Spring.
Grading: GRD.

MED 430. Teaching Jazz/Popular Music in Secondary Schools. 2 Credit Hours.
A survey of materials, methods, and techniques for instructing jazz and popular music in secondary schools. Review of standard literature, program organization, and in-class performance is emphasized. Designed specifically for music education majors.
Components: LEC.
Typically Offered: Fall & Spring.
Grading: GRD.

MED 433. Seminar for Teaching Associates.. 1 Credit Hour.
Discussion of teaching, rehearsal techniques, and the organization and presentation of music materials related to the internship experiences. Course is required of all Music Education majors. To be taken in conjunction with Internship, MED 471.
Components: LEC.
Typically Offered: Fall & Spring.
Grading: GRD.

MED 471. Internship in Music Education (Elementary School). 6 Credit Hours.
A comprehensive program in observation and supervised teaching in an elementary school music setting for a full semester under the guidance of school and university personnel.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 473. Internship in Music Education (Secondary School). 6 Credit Hours.
A comprehensive program in observation and supervised teaching in an elementary school music setting for a full semester under the guidance of school and university personnel.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 475. Internship in Music Education. 12 Credit Hours.
A comprehensive program in observation and supervised teaching in elementary, middle, or secondary school music settings for a full semester under the guidance of school and university personnel.
Components: PRA.
Typically Offered: Fall & Spring.
Grading: GRD.

MED 493. Special Projects in Music Education and music therapy. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Typically Offered: Fall, Spring, & Summer.
Grading: GRD.

MED 494. Special Topics in Music Education and Music Therapy. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Typically Offered: Fall.
Grading: GRD.

MED 542. Teaching General Music (K-5). 3 Credit Hours.
Curriculum, methods, and materials designed for elementary music, K-6. Observation, planning, and teaching experience are emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 543. Teaching Instrumental Music. 3 Credit Hours.
A study of elementary and secondary instrumental music instruction including program organization, teaching techniques, materials, and field experiences of music instruction in schools.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 544. Teaching Modern Music (7-12). 3 Credit Hours.
This course will provide students with fundamentals of teaching vocal music at the secondary (middle and high school) level. Focus will be placed on presenting effective and ethical instruction to all learners; developing a foundation of appropriate pedagogy and practice; building strategies for classroom management; and working in diverse populations. Students will be guided through activities and materials necessary for a successful student teaching experience in vocal music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 545. Music in Rehabilitation. 3 Credit Hours.
Review of development and functioning for neurologically-based sensorimotor behavior. Survey of disabilities and diseases that typically result in sensorimotor deficits is included. Demonstration and practice of therapeutic techniques for sensorimotor deficits are also covered.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MED 546. Music in Psychotherapy. 3 Credit Hours.
Survey and practical application of music as therapy in the treatment of psychiatric disorders and in promoting mental health.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 548. Music for Special Learners. 3 Credit Hours.
This course is designed for music educators who will be working in schools with children and youth who have various disabilities. The purpose of this course is to acquaint students with the characteristics of children and youth with disabilities, and introduce adaptive strategies in music education, K-12, for instructing children and youth with disabilities.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 549. Teaching Vocal Music. 3 Credit Hours.
This course will provide students with fundamentals of teaching general music at the secondary (middle and high school) level. Focus will be placed on developing 21st Century musical curricula across a variety of musical disciplines; engaging students through several instructional paradigms; and for presenting instruction using conventional educational strategies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 551. Music Therapy Research Methods. 3 Credit Hours.
This course is designed to help music therapy students: 1) integrate research findings into their clinical and/or educational practice, 2) implement research techniques into their work (e.g., through data collection or scholarly writing), and 3) become familiar with research procedures.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 559. Internship in Music Therapy. 3 Credit Hours.
Course provides students with a six month opportunity as a music therapy intern in an approved training facility.
Components: PRA.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

MED 560. Internship in Music Therapy II. 0 Credit Hours.
This course provides students with a six month opportunity as a music therapy intern in an approved training facility.
Components: PRA.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MED 562. Psychology of Music I. 3 Credit Hours.
Psychological foundations of music with an emphasis on problems of perception, experimental aesthetics, functional music, and measurement and diagnosis of musical ability and achievement. Related literature of experimental investigation is reviewed.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 575. Preschool Music Workshop. 1-3 Credit Hours.
Workshop is designed to prepare class members to initiate, administer, and teach music programs for preschool children. Materials which address the teacher, the child, and the parent are used. The daily schedule includes demonstration classes with children, lectures, and active participation of and discussion with class members. Emphasis is placed on working with a planning guide for teachers which offers articles on the major areas of the curriculum and clear, succinct statements focusing on the central issues of each lesson.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MED 576. Music and Development. 3 Credit Hours.
Review of development in cognitive, communication, and musical domains. Survey of developmental disabilities most commonly found in child populations is included as well as demonstration and practice of therapeutic techniques for cognitive and communication deficits.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 581. Teaching Classroom Guitar I. 2 Credit Hours.
This class is designed for students and teachers, guitarist or non-guitarist, who wish to initiate, enhance, and teach guitar in a multi-level classroom setting. The course includes demonstration classes with elementary and secondary students. Topics include organization and teaching performance materials in a hands-on setting.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

MED 593. Special Projects in Music Education and Music Therapy. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member's area of expertise and student's area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MED 594. Special Topics in Music Education and Music Therapy. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's expertise and students' areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MED 615. Music Education Certification Forum. 0 Credit Hours.
A weekly forum for sharing information about issues, current developments, and other matters related to music education. Required for all graduate music education certification students.
Components: FOR.
Grading: SUS.
Typically Offered: Fall & Spring.

MED 642. Teaching General Music. 3 Credit Hours.
Curriculum, methods, and materials designed for elementary music, K-6. Observation, planning, and teaching experience are emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MED 643. Teaching Instrumental Music. 3 Credit Hours.
A study of elementary and secondary instrumental music instruction including program organization, teaching techniques, materials, and field experiences of music instruction in schools.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 644. Teaching Modern Music. 3 Credit Hours.
This course will provide students with fundamentals of teaching general music at the secondary (middle and high school) level. Focus will be placed on developing 21st century musical curricula across a variety of musical disciplines; engaging students through several instructional paradigms; and for presenting instruction using conventional educational strategies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 645. Music in Rehabilitation. 3 Credit Hours.
Review of development and functioning for neurologically-based sensorimotor behavior. Survey of disabilities and diseases that typically result in sensorimotor deficits is deficits is included. Demonstration and practice of therapeutic techniques for sensorimotor deficits are also covered.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 646. Music in Psychotherapy. 3 Credit Hours.
Survey and practical application of music as therapy in the treatment of psychiatric disorders and in promoting mental health.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 648. Music for Special Learners. 3 Credit Hours.
This course is designed for music educators who will be working in schools with children and youth who have various disabilities. The purpose of this course is to acquaint students with the characteristics of children and youth with disabilities, and introduce adaptive strategies in music education, K-12, for instructing children and youth with disabilities.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 649. Teaching Vocal Music. 3 Credit Hours.
Course covers curriculum, vocal/rehearsal techniques, and literature. Teaching music in secondary schools through the medium of choral performance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 651. Music Therapy Research Methods. 3 Credit Hours.
This course is designed to help music therapy students: 1) integrate research findings into their clinical and/or educational practice, 2) implement research techniques into their work (e.g., through data collection or scholarly writing), and 3) become familiar with research procedures.
Components: LEC.
Grading: GRD.

MED 655. Elementary Music Workshop. 3 Credit Hours.
Course is designed for in-service elementary school classroom teachers and music supervisors. Survey and experience with contemporary methodology and materials in elementary school music education is emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

MED 656. Secondary General Music Workshop. 3 Credit Hours.
Course is designed for teachers of general music classes in middle, junior high, and senior high schools. Practical experience with methods and materials designed for non-performance music classes, grades 7-12 is emphasized.
Components: SEM.
Grading: GRD.
Typically Offered: Summer.

MED 662. Psychology of Music I. 3 Credit Hours.
Psychological foundations of music with an emphasis on problems of perception, experimental esthetics, functional music, and measurement and diagnosis of musical ability and achievement. Related literature of experimental investigation is reviewed.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 675. Preschool Music Workshop. 1-3 Credit Hours.
Workshop is designed to prepare class members to initiate, administer, and teach music programs for preschool children. Materials which address the teacher, the child, and the parent are used. The daily schedule includes demonstration classes with children, lectures, and active participation of and discussion with class members. Emphasis is placed on working with a planning guide for teachers which offers articles on the major areas of the curriculum and clear, succinct statements focusing on the central issues of each lesson.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MED 676. Music and Development. 3 Credit Hours.
Review of development in cognitive, communication, and musical domains. Survey of developmental disabilities most commonly found in child populations is included as well as demonstration and practice of therapeutic techniques for cognitive and communication deficits.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 681. Teaching Classroom Guitar I. 2 Credit Hours.
This class is designed for students and teachers, guitarist or non-guitarist, who wish to initiate, enhance, and teach guitar in a multi-level classroom setting. The course includes demonstration classes with elementary and secondary students. Topics include organization and teaching performance materials in a hands-on setting.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
MED 693. Special Projects in Music Education and Music Therapy. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MED 694. Special Topics in Music Education and Music Therapy. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MED 700. Psychoacoustical Foundations of Music. 2 Credit Hours.
Production, transmission, and reception of simple and complex tones. Examination of physical properties and psychoacoustical response to tonal stimuli is also included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 701. Recital Paper Preparation. 1 Credit Hour.
Supervised preparation of the recital paper required for the Master of Music degree in classical performance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 702. DMA Essay Proposal. 1 Credit Hour.
Supervised preparation of the DMA proposal for the Doctor of Musical Arts in Performance, Conducting, or Accompanying and Chamber Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 710. Graduate Forum in Music Therapy. 0 Credit Hours.
Forum for graduate students to discuss topics relevant to advanced music therapy practice, engage in experiential therapeutic techniques, and to share student efforts of scholarship in the field.
Components: FOR.
Grading: SUS.
Typically Offered: Fall & Spring.

MED 715. Graduate Forum. 0 Credit Hours.
Forum for masters and doctoral students to discuss various topics of relevance to music education practice and to share efforts of scholarship in the field.
Components: FOR.
Grading: SUS.
Typically Offered: Fall & Spring.

MED 720. International Music Education. 3 Credit Hours.
Students study music instruction systems in other countries, including public and private school, community music programs, private music instruction, music conservatory instruction, informal instructional systems, and university work in music. Students compare music instruction systems in the United States and other countries through readings and presentations by native informants. An optional on-site field experience examining music education in another country may be arranged to coincide with this course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 725. Cultural Diversity in Music Education. 3 Credit Hours.
Examination of major issues and central concepts in cultural diversity, multiculturalism, and social justice in music education.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 729. Advanced Music Therapy Practice I. 3 Credit Hours.
Review of research literature in clinical topic areas, such as music and cognition, or music and affective processing. Presentation of research findings through writing and discussion is emphasized as well as the application of research findings through practice and demonstration of therapeutic techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 730. Advanced Music Therapy Practice II. 3 Credit Hours.
Review of research literature in clinical topic areas, such as music and sensorimotor processing or music in biofeedback. Presentation of research findings through writing and discussion is emphasized as well as the application of research findings through practice and demonstration of therapeutic techniques.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MED 732. Vocal Methods and Materials in Music Education. 2 Credit Hours.
Survey of latest vocal methods and publications for use in public schools.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 733. Seminar for Teaching Associates. 1 Credit Hour.
Discussion of teaching, rehearsal techniques, and the organization of music materials related to the internship experience. To be taken in conjunction with internship, MED 771.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

MED 735. Social Issues Music Learn. 3 Credit Hours.
Survey of major issues in the social psychology and sociology of music related to music learning and music teaching.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MED 740. Woodwind Techniques. 1 Credit Hour.
Group instruction in woodwind instruments with emphasis on basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy.
Requisite: MED GRAD STUDENTS ONLY.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 741. Brass Techniques. 1 Credit Hour.
Group instruction in brass instruments with emphasis on basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy.
Requisite: MED GRAD STUDENTS ONLY.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 742. Percussion Techniques. 1 Credit Hour.
Group instruction in percussion (snare drum, mallet-keyboard percussion, timpani, drumset, and small accessory instruments) with emphasis upon basic skills of performance as well as the appropriate teaching techniques, methods, and materials necessary for public school pedagogy.
Prerequisite: MEDU majors only.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MED 743. String Techniques. 1 Credit Hour.
The study of stringed instruments (violin, viola, cello, bass) in a heterogeneous class with emphasis on general principles of string playing and teaching methods for use in beginning and intermediate instruction in the schools.
Requisite: MED GRAD STUDENTS ONLY.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 744. Vocal Techniques. 1 Credit Hour.
Class instruction in fundamentals of singing, breath control, tone production, and solo singing for music majors.
Requisite: MED GRAD STUDENTS ONLY.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 745. Folk and Modern Instrumental Techniques. 1 Credit Hour.
Group instruction in folk and modern instruments, including but not limited to guitar, ukulele, recorder, and drums, with emphasis on basic skills of performance and classroom uses, as well as the appropriate teaching techniques, methods, and materials.
Requisite: MED GRAD STUDENTS ONLY.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 747. Seminar in Instrumental Music Education. 2 Credit Hours.
Practical study of the development of school band programs with special conside ration given to the selection of training and concert materials, rehearsal tech niques and administrative procedures.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 750. Community Music Programs. 3 Credit Hours.
A seminar designed to generate ideas about contemporary theory and practice in community music. Students engage in readings and discussion. The course is open to all graduate music majors, but is intended for music education doctoral students.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MED 755. The Teaching Artist. 3 Credit Hours.
Course presents fundamental issues of music teaching and learning. Through projects, readings, and discussions, students will learn how to create effective music learning across a variety of situations.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 757. Music Therapy Graduate Practicum 1. 2 Credit Hours.
In a clinical setting, gain skill in observation and co-leading under the super vision of a music therapist.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 758. Music Therapy Graduate Practicum 2. 2 Credit Hours.
In a clinical setting, gain skill in observation and co-leading under the supervision of a music therapist.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MED 760. Philosophy of Music Education. 3 Credit Hours.
The history of Western music education beginning with the ancient Greeks is sur veyed to the present. Incorporated in the survey is the evolution of philosophi cal thought about music and its role in educational practice. From this groundi ng, current philosophical views of music education are presented.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MED 762. Music Learning and Curriculum. 3 Credit Hours.
Survey of theories of music learning and their application to music instruction, curriculum development, and instructional design in music.
Components: LEC.
Grading: GRD.

MED 763. Music Research Methods. 3 Credit Hours.
An introduction to descriptive, experimental, philosophical, qualitative, and historical research in music education and music therapy, with particular reference to data collection, research design, and effective research procedures. Students prepare critiques of research material and are guided in designing original research projects related to their own area of interest.
Components: LEC.
Grading: GRD.
MED 764. Music Assessment. 3 Credit Hours.
Presentation of methods for assessing musical behavior in studios, classrooms, and concert halls. Strategies for the objectification of performance quality, musical learning, capacity, and potential uses of contemporary measurement techniques are provided.
**Components:** LEC.
**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.

MED 765. Seminar in Music Education. 2 Credit Hours.
Survey of literature, bibliography, and contemporary trends in music education. Course may be repeated for credit by doctoral students with consent of instructor.
**Components:** SEM.
**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.

MED 766. Seminar in Music Education. 2 Credit Hours.
Survey of various approaches to qualitative research in the field of music education. Hands-on experiences designing research, collecting data, and presenting findings.
**Components:** LSN.
**Grading:** GRD.

**Typically Offered:** Spring.

MED 767. Seminar in General Music. 2 Credit Hours.
Course provides curriculum, methods, and materials designed for instruction for the general music student, grades K-12.
**Components:** LEC.
**Grading:** GRD.

**Typically Offered:** Spring.

MED 768. Doctoral Seminar. 1 Credit Hour.
A seminar designed to generate ideas about contemporary theory and practice in music. Students engage in discussion of general research topics, but from the perspective of their particular discipline. Enrollment is intended for those doctoral students who have satisfactorily completed the qualifying examination and until receiving approval of the doctoral paper proposal. The course is open to all majors, but is required of all music education doctoral students.
**Components:** SEM.
**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.

MED 769. Doctoral Seminar. 1 Credit Hour.
Doctoral seminar in music therapy to address practical and professional issues pertaining to teaching and research in music therapy. Possible topics include: Teaching and Clinical Supervision, Philosophical Research, and Historical Research.
**Components:** SEM.
**Grading:** GRD.

**Typically Offered:** Fall & Spring.

MED 770. Special Projects in Music Education and Music Therapy. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
**Components:** IND.
**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.

MED 773. Seminar on Music in Childhood. 2 Credit Hours.
Seminar addresses music in the lives of children by examining the musical cultures of childhood, music transmission processes, and formal through informal learning. Implication from music teaching will be considered.
**Components:** LEC.
**Grading:** GRD.

**Typically Offered:** Spring.

MED 774. Seminar in General Music. 2 Credit Hours.
Course provides curriculum, methods, and materials designed for instruction for the general music student, grades K-12.
**Components:** LEC.
**Grading:** GRD.

**Typically Offered:** Fall & Spring.

MED 775. Practicum in Music Education. 7 Credit Hours.
Students enrolled in the Master of Music with Certification Option Degree may complete the required internship with this course.
**Components:** PRA.
**Grading:** GRD.

**Typically Offered:** Fall & Spring.

MED 776. Practicum in Teaching College Students. 1-3 Credit Hours.
Supervised practicum for teaching music education courses at the college level.
**Components:** PRA.
**Grading:** GRD.

**Typically Offered:** Fall & Spring.

MED 777. Seminar in Music in Childhood. 2 Credit Hours.
Seminar addresses music in the lives of children by examining the musical cultures of childhood, music transmission processes, and formal through informal learning. Implication from music teaching will be considered.
**Components:** LEC.
**Grading:** GRD.

**Typically Offered:** Spring.

MED 778. Seminar in Quantitative Research in Music. 2 Credit Hours.
Examination of advanced topics in quantitative music research, including statistical analysis techniques, results reporting, computer-based analysis, scholarly critiquing, and peer review of research. Dissertation development will also be addressed.
**Components:** LEC.
**Grading:** GRD.

**Typically Offered:** Spring.

MED 780. Doctoral Research Project. 1 Credit Hour.
Small scale research project in music education or music therapy, suitable for publication. This project could serve as pilot work for the dissertation.
**Components:** THI.
**Grading:** GRD.

**Typically Offered:** Fall & Spring.

MED 781. Seminar in Quantitative Research in Music. 2 Credit Hours.
Examination of advanced topics in quantitative music research, including statistical analysis techniques, results reporting, computer-based analysis, scholarly critiquing, and peer review of research. Dissertation development will also be addressed.
**Components:** LEC.
**Grading:** GRD.

**Typically Offered:** Fall & Spring.

MED 782. Seminar in Quantitative Research in Music. 2 Credit Hours.
Examination of advanced topics in quantitative music research, including statistical analysis techniques, results reporting, computer-based analysis, scholarly critiquing, and peer review of research. Dissertation development will also be addressed.
**Components:** LEC.
**Grading:** GRD.

**Typically Offered:** Spring.

MED 783. Seminar in Quantitative Research in Music. 2 Credit Hours.
Examination of advanced topics in quantitative music research, including statistical analysis techniques, results reporting, computer-based analysis, scholarly critiquing, and peer review of research. Dissertation development will also be addressed.
**Components:** LEC.
**Grading:** GRD.

**Typically Offered:** Spring.

MED 784. Seminar in Qualitative Research in Music. 2 Credit Hours.
Examination of various approaches to qualitative research in the field of music education. Hands-on experiences designing research, collecting data, and presenting findings.
**Components:** LSN.
**Grading:** GRD.

**Typically Offered:** Spring.

MED 802. Internship in Music Therapy. 1-3 Credit Hours.
Course provides students with a six month opportunity as a music therapy intern in an approved training facility.
**Components:** PRA.
**Grading:** SUS.
**Typically Offered:** Fall, Spring, & Summer.
MIP 805. Master's Project. 1-3 Credit Hours.
Culminating project for Master of Music in music education students not completing a thesis or recital.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.
MED 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.
MED 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the master's degree after the student has completed the required hours of thesis or project credit.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.
MED 830. Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 24. Not more than 12 hours of MED 730 may be taken in a regular semester, nor more than six in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.
MED 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the Ph.D. in Music Education after the student has completed the required hours of dissertation credit.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Music Instrumental Performance (MIP)

MIP 0B1. Oboe. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 0B3. Oboe. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 0BS. Oboe. 1-4 Credit Hours.
Mastery of technical aspects of oboe performance. Preparation of Masters recital(s) and Oral Defense. Preparation of audition repertoire for further study or professional placement. Related areas such as reed making, specific individualized studies, instrument maintenance, chamber music and orchestral excerpts are also part of the curriculum. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 0B6. Oboe. 1-2 Credit Hours.
Mastery of technical aspects of oboe performance. Preparation of Masters recital(s) and Oral Defense. Preparation of audition repertoire for further study or professional placement. Related areas such as reed making, specific individualized studies, instrument maintenance, chamber music and orchestral excerpts are also part of the curriculum. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 0B7. Oboe. 1-2 Credit Hours.
Continue mastery of technical aspects of oboe performance. Preparation of DMA recitals and Oral Defense. Preparation of audition repertoire for professional placement. An overview of pedagogy materials for performance and teaching use will also be explored.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 1. Brass Forum. 0 Credit Hours.
An informal recital setting and performance class for brass principals and majors with guest and faculty presentations.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MIP 101. Classical Large Ensemble Placeholder. 1 Credit Hour.
Ensemble placeholder course for new students to enroll in before ensemble placement auditions during Frost Orientation. Please note, you will have to drop this course and enroll in your correct ensemble when receive your official ensemble placement from your studio professor or Dr. Rob Carnochan.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MIP 102. Classical Chamber Ensemble Placeholder. 1 Credit Hour.
Ensemble placeholder course for new students to enroll in before ensemble placement auditions during Frost Orientation. Please note, you will have to drop this course and enroll in your correct ensemble when receive your official ensemble placement from your studio professor.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MIP 120. Class Guitar I for Non-Music Majors. 1 Credit Hour.
Classical Guitar I is a hands-on, introductory course designed to understand the foundations of classical and acoustic guitar music and its different techniques.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP 121. Class Guitar I for Jazz Majors. 1 Credit Hour.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 130. Afro-Caribbean Hand Drumming, Level I. 1 Credit Hour.
The study of hand drumming techniques used to perform the music of
Africa and the new world African music that originated in the islands of
the Caribbean and the countries of Central and Latin America. This class
is taught in a workshop format.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 131. Afro-Caribbean Hand Drumming, Level II. 1 Credit Hour.
The study of hand drumming techniques used to perform the music of
Africa and the new world African music that originated in the islands of
the Caribbean and the countries of Central and Latin America. Level II is a
performance ensemble.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 135. Percussion Contemporary Chamber Music. 1 Credit Hour.
Mandatory for all classical percussionists, this course focuses on the
contemporary unconduted chamber music repertoire. The goal is for
students to develop and use an advanced listening/communicating
skill set, while playing music with others. This course also targets to
improve students’ capabilities in contemporary music interpretation and
performance.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 138. Trombone Choir. 1 Credit Hour.
The study and performance of literature for small and large trombone
ensembles.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 139. Brass Chamber Music. 1 Credit Hour.
The study and performance of literature for small ensembles of similar or
mixed brass instruments.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 140. Flute Choir. 1 Credit Hour.
Reading, rehearsing, and performing the flute choir repertoire (duets,
trios, quartets, quintets).
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 141. Saxophone Ensemble. 1 Credit Hour.
The study and performance of classical and jazz literature for small
saxophone ensembles.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 143. Woodwind Chamber Music. 1 Credit Hour.
Exploring the woodwind chamber music repertoire as represented by
various combinations of instruments.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 144. Woodwind Chamber Ensemble. 1 Credit Hour.
Woodwind chamber ensemble is designed to give students knowledge of
the most important literature for woodwinds through practice, rehearsal,
and performance of major works for woodwind chamber ensemble.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 145. String-Keyboard Chamber Music. 1 Credit Hour.
The study and performance of literature from the Baroque Period through
the 20th Century for two or more players for string instrumentalists and
strings with keyboard.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 169. Band of the Hour Pep Band. 1 Credit Hour.
To attain the highest possible performance standard with a diverse and
eclectic repertoire of music in the “Athletic Band” medium. To perform
at UM Basketball games, volleyball games, and various community and
charity events. Instrumentation will include piccolos, all types of
saxophones, Trumpets, F Horns, Trombones, Euphoniums, Tubas, Drum
Set, and Electric Bass.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 170. Marching Band. 1 Credit Hour.
The ‘Band of the Hour’ Marching Band is open to all qualified
undergraduate and graduate students, regardless of major. The band
performs at all home Miami Hurricane football games and selected away
games.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 171. Symphonic Winds. 2 Credit Hours.
Symphonic Band is a large wind band that performs significant
repertoire for wind and percussion instruments. It is open to all qualified
undergraduate and graduate students, regardless of major.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MIP 172. University Band. 1 Credit Hour.
University Band is a large ensemble offering students the opportunity to
play standard repertoire of the wind band. This group is open to all wind
and percussion players throughout the university, regardless of major.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

MIP 174. Brass Choir. 1 Credit Hour.
Major works for Brass Choir are studied. Special emphasis is given to
orchestral repertoire.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP 176. Wind Ensemble. 1 Credit Hour.
This course offers performance opportunities for qualified wind and percussion players. Repertoire includes significant literature written for the small and large wind band.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 180. Symphony Orchestra. 1 Credit Hour.
The Symphony Orchestra performs significant repertoire for large orchestra. It is open to all qualified undergraduate students by audition.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 181. Instrumental Conducting I. 2 Credit Hours.
This course provides practical procedures and materials for beginning instrumental conducting students. Students demonstrate basic conducting patterns, preparations, and releases in all meters.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 182. Instrumental Conducting II. 2 Credit Hours.
This course provides practical procedures and materials for advancing instrumental conducting students. Students demonstrate refined skill in conducting musical styles and independence of gestures.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIP 191. Tuba Ensemble. 1 Credit Hour.
The study and performance of compositions and/or transcriptions written for an ensemble of tubas and/or euphoniums.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 192. Classical Guitar Ensemble. 1 Credit Hour.
This course focuses on sightreading, rhythm recognition, and ensemble performance through the study of exercises, scales, and diverse repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 2. Guitar Forum. 0 Credit Hours.
An informal recital setting and performance class for guitar principals and majors with guest and faculty presentations.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MIP 220. Class Guitar II for Non-music Majors. 1 Credit Hour.
Classical Guitar II is a hands-on course for students with previous guitar playing experience designed to further explore and understand the guitar, its repertoire, and techniques.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 270. Leadership and Instructional Strategies for Marching Band. 1 Credit Hour.
This one-credit elective course is designed to give practical teaching experience to those undergraduates who are interested in an instructional/leadership position within a Marching Band program. The students learn of the roles and responsibilities of the positions of Drum Major (student conductor), wind and percussion section leaders, and Auxiliary Captain (choreography instructors with the dance line and flag corps). This course involves an extensive series of interactive workshops in which the student leaders/instructors will have the opportunity to teach a vast amount of physical and musical skills.
Prerequisite: MIP 170.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIP 281. Instrumental Conducting III. 1 Credit Hour.
This course provides a synthesis of the skills demonstrated in Instrumental Conducting I and II while developing error detection skills in common performance errors.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 282. Instrumental Conducting IV. 1 Credit Hour.
Students demonstrate knowledge of instruments, instrumentation of the wind band and orchestra, and analyze scores for conception, interpretation, rehearsal, and performance.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIP 307. Skills Lab V: Classical Improvisation. 2 Credit Hours.
Introduce students to the process of improvisation in all styles of classical music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 308. Skills Lab VI: Composition as Applied Improvisation. 2 Credit Hours.
Moving from the world of improvisation to composition, this course re-focuses musical expression into written form encompassing pre-tonal, tonal and post-tonal techniques through analysis, written improvisation, and model-composition.
Prerequisite: MTC 211 or MTC 240.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MIP 399. Junior Recital. 1 Credit Hour.
A public recital of one half-hour or more. Course is required of all instrumental performance majors.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP 407. Skills Lab VII: Basic Conducting/Arranging. 2 Credit Hours.
This course in basic conducting and arranging is designed to acquaint
the student by application, with the basic beat, patterns (symmetrical
and asymmetrical), preparatory beats, releases, dynamics, fermati, tempo
changes, elementary score study and rehearsal techniques. Elements of
practical arranging will be explored as students arrange excerpts for their
specific skills ensemble that address areas of conducting technique.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 408. Skills Lab VIII: Culminating Project. 2 Credit Hours.
In this class students will create, perform, and produce a culminating
concert event that will incorporate all the various skills they have
acquired over the course of the Experiential Music Curriculum. The
music for this performance will be written (or arranged), played, and
conducted by the students in the skills ensemble, and it will require skills
in improvisation, technology, and promotion that have been learned
in the previous Skills Ensemble classes. The instructor will work in a
consultative and guidance role to help the students develop and produce
this performance.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MIP 493. Special Projects in Instrumental Performance or Conducting.
1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member's area
of expertise and student's area of interest. This course includes a
culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MIP 494. Special Topics in Instrumental Performance or Conducting. 1-3
Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's
expertise and students' areas of interest. This course includes a
culminating project.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MIP 499. Senior Recital. 1 Credit Hour.
A public recital of one hour or more. Required of all performance majors.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 5. Percussion Forum. 0 Credit Hours.
An informal recital setting and performance class for Percussion
principals and majors with guest and faculty presentations.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MIP 540. Reed Making and Maintenance for Oboe and Bassoon. 0 Credit
Hours.
One Hour weekly class detailing and experiencing the processing of cane
and making if reeds for oboe and bassoon, and the maintenance of those
instruments.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 541. Bassoon Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the bassoon since 1600.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 542. Clarinet Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the clarinet since 1600.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 543. Flute Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the flute since 1600.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 544. Oboe Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the oboe since 1600.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 545. Brass Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of brass instruments since 1600.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIP 546. Percussion Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of percussion instruments since 1600.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIP 547. Saxophone Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the saxophone since 1600.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 548. Guitar Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the guitar since 1600.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIP 549. String Repertoire and Pedagogy. 1-2 Credit Hours.
An exploration of teaching string playing. Areas covered include problem-
solving and communication techniques, and practical considerations in
establishing a teaching studio. Students participate in hands-on teaching
opportunities. Prerequisite: Advanced standing in Music and permission
of instructor.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.
MIP 550. Bach Cello Suites. 1 Credit Hour.
The study and performance of the six suites for unaccompanied cello of Johann Sebastian Bach.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIP 580. Orchestral Audition Preparation. 1 Credit Hour.
The study of the more difficult excerpts from the orchestral literature for violin, viola, violoncello, or double bass. Course may be repeated for credit.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 593. Special Projects in Instrumental Performance or Conducting. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MIP 594. Special Topics in Instrumental Performance or Conducting. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MIP 640. Reed Making and Maintenance for Oboe and Bassoon. 0 Credit Hours.
One hour week class detailing and experiencing the processing of cane and making of reeds for oboe and bassoon, and the maintenance of those instruments.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 641. Bassoon Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the bassoon since 1600.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 642. Clarinet Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the clarinet since 1600.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 643. Flute Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the flute since 1600.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 644. Oboe Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the oboe since 1600.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 645. Brass Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of brass instruments since 1600.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 646. Percussion Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of percussion instruments since 1600.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIP 647. Saxophone Repertoire and Pedagogy. 1-2 Credit Hours.
Solo and small ensemble literature of the saxophone since 1600.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 650. Bach Cello Suites. 1 Credit Hour.
The study and performance of the six suites for unaccompanied cello of Johann Sebastian Bach.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIP 680. Orchestral Audition Preparation. 1 Credit Hour.
The study of the more difficult excerpts from the orchestral literature for violin, viola, violoncello, or double bass. Course may be repeated for credit.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 693. Special Projects in Instrumental Performance or Conducting. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MIP 694. Special Topics in Instrumental Performance or Conducting. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: ENS.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MIP 7. String Forum. 0 Credit Hours.
An informal recital setting and performance class for string principals and majors with guest and faculty presentations.
Components: FOR.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 701. MM Recital Program Notes Preparation. 1 Credit Hour.
Students prepare extensive, original program notes, with bibliography. These notes will be made available to the audience of the second Masters recital. The notes may focus on the historical, analytical and performance aspects of the repertoire for this recital. Required in MM two-recital degree programs.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 710. Graduate Conducting Seminar. 1-2 Credit Hours.
The graduate conducting seminar is an advanced study of conducting and rehearsal techniques combined with score and ensemble topics. Specific topics vary each semester. May be repeated for credit.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 720. Concepts and Processes of Classical Improvisation. 1 Credit Hour.
Concepts and Processes of Improvisation in classical music
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIP 730. Afro-Caribbean Hand Drumming, Level I. 1 Credit Hour.
The study of hand drumming techniques used to perform the music of Africa and the new world African music that originated in the islands of the Caribbean and the countries of Central and Latin America. Class is taught as a workshop.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 731. Afro-Caribbean Hand Drumming, Level II. 1 Credit Hour.
The study of hand drumming techniques used to perform the music of Africa and the new world African music that originated in the islands of the Caribbean and the countries of Central and Latin America. Level II is a performance ensemble.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 735. Percussion Contemporary Chamber Music. 1 Credit Hour.
Mandatory for all classical percussionists, this course focuses on the contemporary unconduted chamber music repertoire. The goal is for students to develop and use an advanced listening/communicating skill set, while playing music with others. This course also targets to improve students’ capabilities in contemporary music interpretation and performance.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 738. Trombone Choir. 1 Credit Hour.
The study and performance of literature for small and large trombone ensembles.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 739. Brass Chamber Music. 1 Credit Hour.
The study and performance of literature for small ensembles of similar or mixed brass instruments.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 743. Woodwind Chamber Music. 1 Credit Hour.
Exploring the woodwind chamber music repertoire as represented by various combinations of instruments.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 744. Woodwind Chamber Ensemble. 1 Credit Hour.
Woodwind chamber ensemble is designed to give students knowledge of the most important literature for woodwinds through practice, rehearsal, and performance of major works for woodwind chamber ensemble.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 745. String-Keyboard Chamber Music. 1 Credit Hour.
The study and performance of literature from the Baroque Period through the 20th Century for two or more players for string instrumentalists and strings with keyboard.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 755. Seminar in Baroque Performance. 1 Credit Hour.
Students will present research on compositions representative of the Baroque period. Presentations will include interpretation, style, and historical context of both the composer and the work.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIP 756. Seminar in Classical Performance. 1 Credit Hour.
Students will present research on compositions representative of the classical period. Presentations will include interpretation, style, and historical context of both the composer and the work.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MIP 757. Seminar in Romantic Performance. 1 Credit Hour.
Students will present research on compositions representative of the Romantic period. Presentations will include interpretation, style, and historical context of both the composer and the work.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIP 758. Seminar in Contemporary Performance. 1 Credit Hour.
Students will present research on compositions representative of the Contemporary music. Presentations will include interpretation, style, and historical context of both the composer and the work.
Components: LEC.
Grading: GRD.

Typically Offered: Spring.

MIP 770. Marching Band. 1 Credit Hour.
The 'Band of the Hour' Marching Band is open to all qualified undergraduate and graduate students, regardless of major. The band performs at all home Miami Hurricane football games and selected away games.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 771. Symphonic Winds. 1 Credit Hour.
Symphonic Band is a large wind band that performs significant repertoire for wind and percussion instruments. It is open to all qualified undergraduate and graduate students, regardless of major.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 774. Brass Choir. 1 Credit Hour.
Major works for Brass Choir are studied. Special emphasis is given to orchestral repertoire.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 776. Wind Ensemble. 1 Credit Hour.
This course offers performance opportunities for qualified wind and percussion players. Repertoire includes significant literature written for the small and large wind band.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 780. Symphony Orchestra. 1 Credit Hour.
The Symphony Orchestra performs significant repertoire for large orchestra. It is open to all qualified graduate students by audition.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 781. Instrumental Conducting Workshop. 2 Credit Hours.
This course provides practical procedures and materials for beginning and advancing conducting students. Students enrolled in the four-semester sequence demonstrate basic conducting techniques, demonstration of instruments and instrumentation of the wind band and orchestra, and analyze scores for conception, interpretations, rehearsal, and performance.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MIP 782. Instrumental Conducting II. 2 Credit Hours.
This course provides practical procedures and materials for advancing instrumental conducting students. Students demonstrate refined skill in conducting musical styles and independence of gestures.
Prerequisites: MIP 781 or MIP 317.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 791. Tuba Ensemble. 1 Credit Hour.
The study and performance of compositions and/or transcriptions written for an ensemble of tubas and/or euphoniums.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 792. Classical Guitar Ensemble. 1 Credit Hour.
This course focuses on sightreading, rhythm recognition, and ensemble performance through the study of exercise, scales, and diverse repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP 793. Special Projects in Instrumental Performance or Conducting. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MIP 794. Special Projects in Instrumental Performance or Conducting. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MIP 811. Master’s Recital Paper. 1-3 Credit Hours.
The student working on his/her master's recital paper enrolls for credit as determined by his/her advisor. Credit is not awarded until the paper has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MIP 812. Master’s Recital. 1 Credit Hour.
A master’s recital lasting at least 60 minutes that may include some chamber works but consists primarily of solo pieces. Students are required to write Program Notes.
Components: PRA.
Grading: SUS.
Typically Offered: Fall & Spring.

MIP 813. Master’s Second Recital. 1 Credit Hour.
The second recital for those taking the two-recital option in the Master of Music in Instrumental Performance degree.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.
MIP 814. Artist Diploma Recital. 1 Credit Hour.
The student enrolls for recital credit during the semester in which he/she presents the Artist Diploma Recital.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

MIP 815. Masters Advanced Recital. 2 Credit Hours.
The second recital in the masters degree when students choose Extended Program Notes as the final project.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

MIP 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the master's degree after the student has completed the required hours of thesis or project credit.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MIP 831. Doctoral Essay. 1-12 Credit Hours.
Required of all candidates for the D.M.A. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of MIP 731 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MIP 832. Doctoral Recital. 1-2 Credit Hours.
Required of all candidates for the D.M.A.
Components: PRA.
Grading: SUS.
Typically Offered: Fall & Spring.

MIP 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the DMA after the student has completed the required hours of doctoral essay credit.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MIP 89. Woodwind Forum. 0 Credit Hours.
An informal recital setting and performance class for woodwind principals and majors with guest and faculty presentations.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MIP BA3. Bassoon. 2 Credit Hours.
1-hour lesson and 50 minute studio class for bassoon students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP BA5. Bassoon. 1-4 Credit Hours.
Mastery of technical aspects of bassoon performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement. Related areas such as reed making, specific individualized studies, instrumental maintenance, and orchestral excerpts are also part of the curriculum.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP BA6. Bassoon. 1-2 Credit Hours.
Mastery of technical aspects of bassoon performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement. Related areas such as reed making, specific individualized studies, instrumental maintenance, and orchestral excerpts are also part of the curriculum.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP BA7. Bassoon. 1-2 Credit Hours.
Continued mastery of technical aspects of bassoon performance. Preparation of DMA recitals and oral defense. Preparation of repertoire for audition for professional placement. An overview of pedagogy materials for performance and teaching use will also be explored.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP BAD. Bassoon. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Method Books by Giampieri, Jancourt, Milde (Vol. 1). Repertoire: Bourdeau - Second Solo, David, Domenico, Dubois, Fasch, Kozeluh, Pierne, Telemann, Vivaldi.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP BAS. Secondary Bassoon. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Method Books by Giampieri, Jancourt, Milde (Vol. 1). Repertoire: Vivaldi Concerto, Bourdeau - Premier solo, Galliard, Handel, Marcello, Nino Rota Procaccini.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP BAX. Secondary Bassoon - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CD1. Conducting. 2 Credit Hours.
1-hour lesson and 50 minute studio class for conducting students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CD3. Conducting. 2 Credit Hours.
1-hour lesson and 50 minute studio class for conducting students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CD5. Conducting. 1-4 Credit Hours.
Applied lesson and studio class for Artist Diploma students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CD6. Conducting. 1-2 Credit Hours.
Applied lesson and studio class for Masters students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CD7. Conducting. 1-2 Credit Hours.
Applied lesson and studio class for Doctoral students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CDF. Conducting. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CDG. Conducting. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CDX. Secondary Conducting- Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CL1. Clarinet. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CL3. Clarinet. 2 Credit Hours.
1-hour lesson and 50 minute studio class for clarinet students. Technical Requirements: Same as previous semesters as well as Jean Jean 16 or 18 Etudes, and Opperman Advanced Velocity Studies. Repertoire: Poulenc, Stravinsky, Bernstein, Brahms. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP CL5. Clarinet. 1-4 Credit Hours.
Applied lesson and studio class for Artist Diploma students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CL6. Clarinet. 1-2 Credit Hours.
Applied lesson and studio class for Masters students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CL7. Clarinet. 1-2 Credit Hours.
Applied lesson and studio class for Doctoral students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CLC. Clarinet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for
students enrolled for 1 credit. Technical Requirements: Same as previous
semesters as well as Cavillini Caprices, and Opperman Intermediate
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CLD. Clarinet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 1 credit. Technical Requirements: Same as previous
semesters as well as Cavillini Caprices, and Opperman Intermediate
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CLF. Clarinet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for
students enrolled for 1 credit. Technical Requirements: Same as previous
semesters as well as Jean Jean 16 or 18 Etudes, and Opperman Advanced Velocity Studies. Repertoire: Poulenc, Stravinsky, Bernstein, Brahms.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CLG. Clarinet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for
students enrolled for 1 credit. Technical Requirements: Same as previous
semesters as well as Opperman Virtuoso Velocity Studies. Repertoire: Debussy, Rozsa, Muczynski, Berg.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP CLS. Secondary Clarinet. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students
who are either non-performance majors or who wish to pursue applied
study on an instrument or voice that is not their primary focus. One-hour
lessons are given for students enrolled for 2 credits; half-hour lessons are
given for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DB1. Double Bass. 2 Credit Hours.
1-hour lesson and 50 minute studio class for double bass students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DB3. Double Bass. 2 Credit Hours.
1-hour lesson and 50 minute studio class for double bass students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DB5. Double Bass. 1-4 Credit Hours.
Advanced study of the double bass. Preparation for Master's recitals, and
oral defense, orchestral repertoire, planning auditions, and insights on
teaching.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP DB7. Double Bass. 1-2 Credit Hours.
Preparation of qualifying and DMA recitals and oral defense. Continuation of advanced orchestral repertoire and methods and audition preparation.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DBC. Double Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DBD. Double Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DBE. Double Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DBF. Double Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DBG. Double Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DBG. Double Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DBH. Double Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DBS. Double Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DBD. Double Bass - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP DUC. Secondary Double Bass. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU1. Euphonium. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU2. Euphonium. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU3. Euphonium. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU4. Euphonium. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU5. Euphonium. 1-4 Credit Hours.
Applied lesson and studio class for Artist Diploma students. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU6. Euphonium. 1-2 Credit Hours.
Applied lesson and studio class for Masters students. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU7. Euphonium. 1-2 Credit Hours.
Applied lesson and studio class for Doctoral students. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU1. Euphonium. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU2. Euphonium. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU3. Euphonium. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU4. Euphonium. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU5. Euphonium. 1-4 Credit Hours.
Applied lesson and studio class for Artist Diploma students. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU6. Euphonium. 1-2 Credit Hours.
Applied lesson and studio class for Masters students. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EU7. Euphonium. 1-2 Credit Hours.
Applied lesson and studio class for Doctoral students. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP EUG. Euphonium. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. ½-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Charlier, Bozza, Uber, Horovitz Bellstedt; band and orchestral excerpts.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EUH. French Horn. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. ½-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Charlier, Bozza, Uber, Horovitz Bellstedt; band and orchestral excerpts.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EUS. Secondary Euphonium. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. ½-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Arban, Concone, Schlossberg, Barat, Presser.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP EUX. Secondary Euphonium - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FH1. French Horn. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FH3. French Horn. 2 Credit Hours.
1-hour lesson and 50 minute studio class for french horn students. Technical Requirements: Continued transposition study, further skills development, scales and arpeggios. Studies by Bach, Maxime-Alphonse, Gallay; Belloli; orchestral repertoire. Repertoire: Mozart, Strauss, Hindemith, Dukas, Chabier.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FH5. French Horn. 1-4 Credit Hours.
Emphasis will continue to be the advancement of repertoire experience and skill assessment. Preparation and presentation of a solo recital will be the main focus of repertoire study. In-depth study of Orchestral Literature will also begin this semester.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FH6. French Horn. 1-2 Credit Hours.
Emphasis will be on an assessment of students’ skills, needs and repertoire experience. Materials will be explored from the standard etude and solo literature that is relevant to the students’ level and skill needs. Exploration will begin to choose material for a solo recital in the Spring semester.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FH7. French Horn. 1-2 Credit Hours.
Students' skill needs will be assessed and a course of study developed for any remedial needs. An in-depth study of appropriate literature for both solo and chamber recitals will be undertaken in preparation for a long-term degree plan. Advanced study of Orchestral Literature will begin, including listening and score study. Repertoire for an initial recital and the Qualifying Recital will be chosen and prepared.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FHC. French Horn. 1-2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FHD. French Horn. 1-2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP FHD. French Horn. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Continued transposition study, further skills development, scales and arpeggios. Studies by Bach, Maxime-Alphonse, Gallay, Belloli; orchestral repertoire. Repertoire: Mozart, Strauss, Hindemith, Dukas, Chabrier. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FHG. French Horn. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FHJ. French Horn. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FHS. Secondary French Horn. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FHX. Secondary French Horn - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FL1. Flute. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FL2. Flute. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FL3. Flute. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FL4. Flute. 1-4 Credit Hours.
Mastery of technical aspects of flute performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement. Related areas such as specific individualized studies, instrumental maintenance, and orchestral excerpts are also part of the curriculum.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FL5. Flute. 1-2 Credit Hours.
Mastery of technical aspects of flute performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement. Related areas such as specific individualized studies, instrumental maintenance, and orchestral excerpts are also part of the curriculum.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FL6. Flute. 1-2 Credit Hours.
Mastery of technical aspects of flute performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement. Related areas such as specific individualized studies, instrumental maintenance, and orchestral excerpts are also part of the curriculum.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FL7. Flute. 1-2 Credit Hours.
Continue mastery of technical aspects of flute performance. Preparation of DMA recitals and oral defense. Preparation of repertoire for audition for professional placement. An overview of pedagogy materials for performance and teaching use will also be explored.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FLC. Flute. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Taffanel - Gaubert 17 Daily Exercises, Andersen Op. 41; Moyse - De la Sonorite, Tone Development through Interpretation. Repertoire: Telemann Fantasies, CPE Bach Sonata, Faure Fantasie Chaminade Concertino.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FLF. Flute. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Taffanel - Gaubert 17 Daily Exercises, Andersen Op. 41; Moyse - De la Sonorite, Tone Development through Interpretation. Repertoire: Telemann Fantasies, CPE Bach Sonata, Faure Fantasie Chaminade Concertino.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FLG. Flute. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Taffanel - Gaubert 17 Daily Exercises, Andersen Op. 41; Moyse - De la Sonorite, Tone Development through Interpretation. Repertoire: Telemann Fantasies, CPE Bach Sonata, Faure Fantasie Chaminade Concertino.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP FLF. Flute. 1-2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FLG. Flute. 1-2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FLH. Flute. 1-2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FLS. Secondary Flute. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Taffanel - Gaubert 17 Daily Exercises, Berbiguer - 18 Etudes, Andersen Little Caprices. All major and minor scales, two octaves; Moyse - De la Sonorite, 24 Petite Melodies Vol. I. Repertoire: Handel Sonatas, Godard Allegretto.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP FLX. Secondary Flute - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GU3. Guitar. 2 Credit Hours.
1-hour lesson and 50 minute studio class for guitar students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GU5. Guitar. 1-4 Credit Hours.
Applied lesson and studio class for Artist Diploma students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GU6. Guitar. 1-2 Credit Hours.
Applied lesson and studio class for Masters students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GU7. Guitar. 1-2 Credit Hours.
Applied lesson and studio class for Doctoral students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GUC. Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GUD. Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GUF. Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GUG. Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP GUH. Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GUS. Secondary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP GUX. Secondary Guitar - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HA1. Harp. 2 Credit Hours.
1-hour lesson and 50 minute studio class for harp students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HA3. Harp. 2 Credit Hours.
1-hour lesson and 50 minute studio class for harp students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HA5. Harp. 1-4 Credit Hours.
Advanced study of solo harp literature.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HA6. Harp. 1-2 Credit Hours.
Advanced study of solo harp literature.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HA7. Harp. 1-2 Credit Hours.
Advanced study of solo harp literature.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HAC. Harp. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HAD. Harp. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HAF. Harp. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HAG. Harp. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HAH. Harp. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HAS. Secondary Harp. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP HAX. Secondary Harp - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP OBC. Oboe. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP OBD. Oboe. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP OBX. Secondary Oboe - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP PE1. Percussion. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP PE2. Percussion. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP PE3. Percussion. 1-4 Credit Hours.
First semester of the Masters Degree in percussion performance. Emphasis on assessment of students' skills needs and repertoire experience. Materials covered to include standard solo and ensemble repertoire and technical work. First recital repertoire chosen from works supplementing students' needs. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP PE4. Percussion. 1-2 Credit Hours.
Second semester of the Masters Degree in percussion performance. The main area of focus is first recital; to be performed this semester. Exploration into solo and ensemble performance needs will continue through this semester. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP PE5. Percussion. 1-4 Credit Hours.
Second semester of the Masters Degree in percussion performance. The main area of focus is first recital; to be performed this semester. Exploration into solo and ensemble performance needs will continue through this semester. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP PE6. Percussion. 1-2 Credit Hours.
First semester of the Master's Degree in percussion performance. Emphasis on assessment of students' skills needs and repertoire experience. Materials covered to include standard solo and ensemble repertoire and technical work. First recital repertoire chosen from works supplementing students' needs. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP PE7. Percussion. 1-2 Credit Hours.
First of six semesters of study for a DMA in percussion performance. Students' needs assessed, and a course of study devised. Solo and ensemble works studied in-depth accordingly. Works for an initial and qualifying recital chosen. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
**MIP PEC. Percussion. 1-2 Credit Hours.**

**Components:** LSN.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**MIP PED. Percussion. 1-2 Credit Hours.**

**Components:** LSN.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**MIP PEF. Percussion. 1-2 Credit Hours.**

**Components:** LSN.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**MIP PEG. Percussion. 1-2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of advanced repertory and preparation for the final recital. Etudes and works on marimba, vibraphone, snare drum, timpani, multi-percussion, and orchestral excerpts. At least one piece at the final concert has to be a concerto-like composition performed with piano or percussion ensemble. Requisite: Frost School of Music.

**Components:** LSN.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**MIP PEH. Percussion. 1-2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of advanced repertory and preparation for the final recital. MIP SAC. Saxophone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 0.5-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP SAD. Saxophone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 0.5-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP SAF. Saxophone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 0.5-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP SAG. Saxophone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 0.5-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP SAS. Secondary Saxophone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 0.5-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP SAX. Secondary Saxophone - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TB1. Trombone. 2 Credit Hours.
1-hour lesson and 50 minute studio class for trombone students.
Technical Requirements: Development of embouchure, breathing, articulation, sound, and slide technique. Appropriate major and minor scales. Works by Arban, Blazhevich, Pares, Rochut, Tyrell, and others. Solo literature as appropriate for the student’s abilities.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TB3. Trombone. 2 Credit Hours.
1-hour lesson and 50 minute studio class for trombone students.
Technical Requirements: Continuation of technical development including upper register, advanced slide technique, and refined articulation. Works as previously listed, followed by Masson and Bitsch. Solo literature as appropriate for the student’s abilities, and continuation of selected orchestral excerpts.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TB5. Trombone. 1-4 Credit Hours.
Advanced progressive study is chosen from the following etude books, Gabriel Masson 12 Various Etudes, Marcel Bitsch 15 Rhythmical Studies, Roger Bountry 12 Etudes for High Perfection, and Brade Edwards Lip-slurs—Exercises for Tone and Technique. Additionally, solo concerto literature and contemporary works are studied and prepared to advance the student’s technical and musical mastery of the trombone. Orchestral excerpts are studied to further develop and refine an appropriate sense of orchestral style.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TB6. Trombone. 1-2 Credit Hours.

MIP TBC. Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Continuation of previous aspects of technical development. Works as previously listed, followed by Blume, and solo literature as appropriate for the student's abilities. Introduction of orchestral excerpts as both literature and as an aid to technical and musical development.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TBD. Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Continuation of previous aspects of technical development. Works as previously listed, followed by Blume, and solo literature as appropriate for the student's abilities. Introduction of orchestral excerpts as both literature and as an aid to technical and musical development.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TBF. Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Continuation of technical development including upper register, advanced slide technique, and refined articulation. Works as previously listed, followed by Masson and Bitsch. Solo literature as appropriate for the student's abilities, and continuation of selected orchestral excerpts.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TBG. Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Further development of all technical aspects of performance. Works by Masson and Bitsch, and solo literature geared towards recital performance.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TBH. Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Further development of all technical aspects of performance. Works by Masson and Bitsch, and solo literature geared towards recital performance.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TBK. Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, articulation, sound, and slide technique. Appropriate major and minor scales. Works by Arban, Blazhevich, Pares, Rochut, Tyrell, and others. Solo literature as appropriate for the student's abilities.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TBS. Secondary Trombone. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TP1. Trumpet. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TP2. Trumpet. 2 Credit Hours.
1-hour lesson and 50 minute studio class for trumpet students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TP3. Trumpet. 2 Credit Hours.
1-hour lesson and 50 minute studio class for trumpet students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TP4. Trumpet. 1-4 Credit Hours.
Applied lesson and studio class for Artist Diploma students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TP5. Trumpet. 1-4 Credit Hours.
Applied lesson and studio class for Artist Diploma students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TP6. Trumpet. 1-2 Credit Hours.
Applied lesson and studio class for Artist Diploma students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP TP7. Trumpet. 1-2 Credit Hours.
Applied lesson and studio class for Doctoral students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TPC. Trumpet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TPD. Trumpet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TPS. Secondary Trumpet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Arban, Clarke, Hering, Schlossberg; orchestral excerpts.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TPX. Secondary Trumpet - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TU1. Tuba. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TU3. Tuba. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TU5. Tuba. 1-4 Credit Hours.
Private lessons that focus on development of embouchure, breathing, and articulation, with emphasis on orchestral excerpts on Alphonse, Sear, Kraft, Kelleway, and others.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TU6. Tuba. 1-2 Credit Hours.
Private lessons that focus on development of embouchure, breathing, and articulation, with emphasis on orchestral excerpts on Alphonse, Sear, Kraft, Kelleway, and others.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TU7. Tuba. 1-2 Credit Hours.
Private lessons that focus on development of embouchure, breathing, and articulation, with emphasis on orchestral excerpts on Cinema, Snedecor, Wilder, Gould and others.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP TUC. Tuba. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Vasiliev, Kopprash, Gallay, Frankenpohl, Nelybel, Bernstein.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TUD. Tuba. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Vasiliev, Kopprash, Gallay, Frankenpohl, Nelybel, Bernstein.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TUF. Tuba. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Bach/Bobo Ostrander, Kotsier, Hindemith, Wilder.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TUG. Tuba. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Cimera, Maenz, Broughton, Persichetti, orchestral excerpts.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TAH. Tuba. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Cimera, Maenz, Broughton, Persichetti, orchestral excerpts.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TUS. Secondary Tuba. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of embouchure, breathing, and articulation. Appropriate major and minor scales. Repertoire: Concone, Arban, Bordogni, Haddad, Hartley.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP TUX. Secondary Tuba - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VA1. Viola. 2 Credit Hours.
1-hour lesson and 50 minute studio class for viola students. Technical Requirements: Right hand and left hand position evaluation and adjustment if necessary. Scales and etudes as assigned. Repertoire: Solo literature appropriate for level and major.
Solo literature appropriate for level and major.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VA2. Viola. 2 Credit Hours.
Mastery of technical aspects of viola performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VA3. Viola. 2 Credit Hours.
Mastery of technical aspects of viola performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VA4. Viola. 2 Credit Hours.
Mastery of technical aspects of viola performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VA5. Viola. 1-4 Credit Hours.
Mastery of technical aspects of viola performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VA6. Viola. 1-2 Credit Hours.
Mastery of technical aspects of viola performance. Preparation of Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Masters recital(s) and oral defense. Preparation of repertoire for audition for further study or professional placement.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VA7. Viola. 1-2 Credit Hours.
Continued mastery of technical aspects of viola performance. Preparation of qualifying recital and DMA recitals and oral defense. Preparation of repertoire for audition for further study or professional placement.
Preparation of repertoire for audition for further study or professional placement.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MIP VAC. Viola. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Scales and etudes as assigned. Repertoire: Solo literature appropriate for level and major. Solo literature appropriate for level and major.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VAD. Viola. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Scales and etudes as assigned. Repertoire: Solo literature appropriate for level and major. Solo literature appropriate for level and major.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VAH. Viola. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Scales and etudes as assigned. Repertoire: Solo literature appropriate for level and major. Solo literature appropriate for level and major.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VAS. Secondary Viola. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Right hand and left hand position evaluation and adjustment if necessary. Scales and etudes as assigned. Repertoire: Solo literature appropriate for level and major.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VAX. Secondary Viola - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VC1. Violoncello. 1-2 Credit Hours.
1-hour lesson and 50 minute studio class for violoncello students. Technical Requirements: Development of basic bow strokes, vibrato, and position changes. Appropriate major scales and arpeggios. Etudes as needed. Repertoire: Vivaldi Sonatas, Saint-Saens Concerto, Hayden C Major Concerto, Beethoven Sonata 1 or 2, Bach Suite 1 or 2.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VC2. Violoncello. 1-2 Credit Hours.
1-hour lesson and 50 minute studio class for violoncello students. Technical Requirements: All major and minor scales and arpeggios. Etudes as needed. Repertoire: Dvorak Concerto, Hayden D Major Concerto, Shostakovitch Sonata, Bach Suite No. 4.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VC3. Violoncello. 1-2 Credit Hours.
Applied lesson and studio class for Artist Diploma students.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VC4. Violoncello. 1-2 Credit Hours.
Applied lesson and studio class for Masters students.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VC5. Violoncello. 1-4 Credit Hours.
MIP VC6. Violoncello. 1-2 Credit Hours.
MIP VC7. Violoncello. 1-2 Credit Hours.
MIP VCC. Violoncello. 1-2 Credit Hours.
MIP VCD. Violoncello. 1-2 Credit Hours.
MIP VCF. Violoncello. 1-2 Credit Hours.  
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Popper etudes, Duport etudes. Repertoire: Schumann Concerto, Bach Suites No. 5 or No. 6. Components: LSN. Grading: GRD. Typically Offered: Fall & Spring.

MIP VCG. Violoncello. 1-2 Credit Hours.  
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Popper etudes, Piatti etudes. Repertoire: Schumann Concerto, Bach Suites No. 5 or No. 6. Components: LSN. Grading: GRD. Typically Offered: Fall & Spring.

MIP VCS. Secondary Violoncello. 1-2 Credit Hours.  
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Development of basic bow strokes, vibrato, and position changes. Appropriate major scales and arpeggios. Etudes as needed. Repertoire: Vivaldi Sonatas, Saint-Saëns Concerto, Hayden C Major Concerto, Beethoven Sonata 1 or 2, Bach Suite 1 or 2. Components: LSN. Grading: GRD. Typically Offered: Fall & Spring.

MIP VCH. Violoncello. 1-2 Credit Hours.  
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit. Components: LSN. Grading: GRD. Typically Offered: Fall & Spring.

MIP VNC. Violin. 1-2 Credit Hours.  
Applied lesson and studio class for Masters students. Components: LSN. Grading: GRD. Typically Offered: Fall & Spring.

MIP VN5. Violin. 1-4 Credit Hours.  

MIP VN6. Violin. 1-2 Credit Hours.  
Applied lesson and studio class for Masters students. Components: LSN. Grading: GRD. Typically Offered: Fall & Spring.

MIP VN7. Violin. 1-2 Credit Hours.  

MIP VND. Violin. 1-2 Credit Hours.  

MIP VNE. Violin. 1-2 Credit Hours.  

MIP VNF. Violin. 1-2 Credit Hours.  

MIP VNG. Violin. 1-2 Credit Hours.  
MIP VN. Violin. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VNS. Secondary Violin. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MIP VNX. Secondary Violin - Graduate. 1-2 Credit Hours.
Second-year lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

Music Keyboard Performance (MKP)

MKP 0R1. Organ. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 0R2. Organ. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 0R3. Organ. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 0R4. Organ. 1-4 Credit Hours.
Requires successful completion of an undergraduate degree in piano performance, and approval of student’s advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of Artist Diploma. The course covers private instruction on organ-related performance techniques and repertory. The level of repertory will be determined by instructor based on the student’s performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 0R5. Organ. 1-4 Credit Hours.
 Requires successful completion of an undergraduate degree in piano performance, and approval of student’s advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of masters degree. The course covers private instruction on organ-related performance techniques and repertory. The level of repertory will be determined by instructor based on the student’s performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 0R6. Organ. 1-2 Credit Hours.
Requires successful completion of an undergraduate degree in piano performance, and approval of student’s advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of masters degree. The course covers private instruction on organ-related performance techniques and repertory. The level of repertory will be determined by instructor based on the student’s performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 0R7. Organ. 1-2 Credit Hours.
Requires successful completion of a graduate degree in piano performance, and approval of student’s advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of doctoral degree . The course covers private instruction on organ-related performance techniques and repertory. The level of repertory will be determined by instructor based on the student’s performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 111. Non-Major Class Piano I. 1 Credit Hour.
This course is designed for the adult beginner who has an interest in playing keyboard instruments for pleasure. Students with no previous musical or keyboard experience learn the fundamentals of music theory and apply them to playing the keyboard at the beginning level.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 112. Non-Major Class Piano II. 1 Credit Hour.
Designed for the adult beginner who has an interest in playing keyboard instruments for pleasure, this course builds on the concepts introduced in MKP 111. Students continue to learn the fundamentals of music theory and apply them to playing the keyboard.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.
MKP 140. Keyboard Studies I. 1 Credit Hour.
Major and minor five finger patterns, beginning repertoire, major scales and arpeggios, basic chord progressions, for types of triads, dominant seventh chords, beginning sight reading, harmonization, transposition, and improvisation skills.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MKP 141. Keyboard Studies II. 1 Credit Hour.
Minor scales and arpeggios, modal scales, five types of seventh chords and inversions, and more extensive chord progressions. Study of repertoire and the development of sight-reading, harmonization, transposition, and improvisation skills are continued.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MKP 185. Musical Theatre Accompanying. 1 Credit Hour.
A class designed to improve the skills of pianists with a particular interest in musical theatre piano accompaniment. Students will study in a classroom setting.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 186. Vocal Accompanying I. 1 Credit Hour.
Pianists will attend seminars where the principles of accompanying classical and musical theatre singers are addressed. Students are assigned to accompany applied voice lessons and ensembles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 187. Vocal Accompanying II. 1 Credit Hour.
Pianists attend seminars where the principles of accompanying classical and musical theatre singers are addressed. Students are assigned to accompany applied voice lessons and ensembles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 189. Accompanying, Level I. 1 Credit Hour.
Development of sightreading skills and score preparation.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 190. Accompanying, Level II. 1 Credit Hour.
Progressive development of individual vocal/instrumental and ensemble accompanying, sightreading, score reading, and improvising from a lead sheet.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 191. Accompanying, Level III. 1 Credit Hour.
Progressive development of all types of accompaniment skills including; clef and score reading, transposition, possible recital, opera theater, choral ensemble, and/or orchestral accompanying.
Prerequisite: MKP 190.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 220. Computers, Keyboards, and Music. 2 Credit Hours.
An introduction to basic computing skills for the musician that explores computers, keyboards, and other MIDI (Musical Instrument Digital Interface) related instruments as tools for the musician. Topics include electronic keyboards, computer hardware and software, MIDI sequencing, computer-assisted musical notation, and teaching strategies using new technologies. Students gain hands-on experience while completing projects in each of the above areas.
Prerequisite: MKP 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 240. Keyboard Studies III. 2 Credit Hours.
Dominant seventh arpeggios, secondary dominants, and work more extensively with chord progressions. Students also learn Theme and Variation form, Sonata form, and characteristics of the musical style periods. Study of repertoire and the development of sight-reading, harmonization, and the improvisation skills are continued. Transposition of instrumental music to concert pitch, and beginning choral and instrumental score reading are introduced. Students will continue playing major and minor scales at an increased level of difficulty.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 241. Keyboard Studies IV. 2 Credit Hours.
Diminished seventh arpeggios, augmented, and Neapolitan sixth chords, Three-Part Rondo forms, extended chord structures, and a variety of chord progressions that modulate. Study of repertoire and the development of sight-reading, harmonization, transposition, and improvisation skills are continued. Choral and instrumental score reading, modal scales, and major and minor scales are performed at an increased level of difficulty.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MKP 399. Junior Recital. 1 Credit Hour.
A public recital of one half-hour or more. Course is required of all performance majors.
Requisite: Frost School of Music.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.
MKP 493. Special Projects in Keyboard Performance or Pedagogy. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member's area of expertise and student's area of interest. This course includes a culminating project.
Requisite: Frost School of Music.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MKP 494. Special Topics in Keyboard Performance or Pedagogy. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's expertise and students' areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 497. Keyboard Pedagogy. 3 Credit Hours.
Methods and materials for teaching keyboard instruments with a focus on private lesson instruction. Topics include teacher profile, general teaching considerations, the business of teaching, the beginning student, second- and third-year students, teaching materials, and an introduction to new technology in piano teaching.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 498. Intermediate to Advanced Repertoire. 3 Credit Hours.
A class dedicated to a survey and discussion of a wide range of teaching materials including teaching exercises, etudes, and performance literature, both well-known and underappreciated. Topics include reference literature and web resources, piece assigning considerations and leveling, and detailed discussion of selected materials with specific teaching and remedial strategies. Annotated bibliography with MIDI-file attachments of incipits to be submitted at the end of the semester for a grade.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MKP 499. Senior Recital. 1 Credit Hour.
A public recital of one hour or more. Course is required of all performance majors.
Requisite: Frost School of Music.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 547. Keyboard Pedagogy II: Keyboard Pedagogy Diagnostics. 3 Credit Hours.
1st class of each week: round-table discussion of private teaching strategies using video taped performance excerpts of students at various levels. 2nd class of each week: a focus on a wide range of teaching repertoire covering intermediate to advanced levels with an emphasis on problem prevention and solving.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MKP 550. Keyboard Pedagogy III: Practice Strategies. 3 Credit Hours.
Focus on practice strategy at the keyboard using Philip Johnston's Practice Revolution as a springboard for discussion. Topics also include recent findings and leading researchers in cognitive neuroscience and 'brain-based learning,' as well as resources available for musician wellness and injury prevention.
Requisite: Frost School of Music.
Components: LEC.
Grading: LEC.
Typically Offered: Fall & Spring.

MKP 589. Keyboard Accompanying Program in Salzburg, Austria. 0 Credit Hours.
Course is conducted at Salzburg College, Austria. Students receive comprehensive and intensive coaching in piano and accompanying from Dr. Posnak and other internationally acclaimed guest artists. Piano students study piano (2 cr.) and accompanying (1 cr.).
Requisite: Frost School of Music.
Components: LEC.
Grading: AUD.
Typically Offered: Spring.

MKP 593. Special Projects in Keyboard Performance or Pedagogy. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member's area expertise and student's area of interest. This course includes a culminating project.
Requisite: Frost School of Music.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MKP 594. Special Topics in Keyboard Performance or Pedagogy. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's expertise and students' areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MKP 6. Piano Forum. 0 Credit Hours.
A non-credit performance class for all piano majors and principals.
Majors are required to perform once each semester with the approval of the applied teacher.
Requisite: Frost School of Music.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MKP 612. Seminar in Romantic Performance. 1 Credit Hour.
This course is designed as a performance class for graduate piano majors. Class members will be responsible for presentation of major compositions representative of the period. Research will be required for each presentation concentrating on interpretation, stylistic requirements of the period and the historical context of the composers and work.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MKP 647. Keyboard Pedagogy. 3 Credit Hours.
Methods and materials for teaching keyboard instruments with a focus on private lesson instruction. Topics include teacher profile, general teaching considerations, the business of teaching, the beginning student, second- and third-year students, teaching materials, and an introduction to new technology in piano teaching.
 Components: LEC.
 Grading: GRD.
 Typically Offered: Fall.

MKP 648. Intermediate to Advanced Repertoire. 3 Credit Hours.
A class dedicated to a survey and discussion of a wide range of teaching materials including teaching exercises, études, and performance literature both well known and under appreciated. Topics include reference literature and web resources, piece assigning considerations and leveling, and detailed discussion of selected materials with specific teaching and remedial strategies. Annotated bibliography with MIDI-file attachments of incipits to be submitted at the end of the semester for a grade.
 Components: LEC.
 Grading: GRD.
 Typically Offered: Fall.

MKP 649. Keyboard Pedagogy II: Keyboard Pedagogy Diagnostics. 3 Credit Hours.
1st class of each week: round-table discussion of private teaching strategies using video taped performance excerpts of students at various levels. 2nd class of each week: a focus on a wide range of teaching repertoire covering intermediate to advanced levels with an emphasis on problem prevention and solving.
 Components: LEC.
 Grading: GRD.
 Typically Offered: Fall.

MKP 650. Keyboard Pedagogy III: Practice Strategies. 3 Credit Hours.
Focus on practice strategy at the keyboard using Philip Johnston’s Practice Revolution as a springboard for discussion. Topics also include recent findings and leading researchers in cognitive neuroscience and 'brain-based learning,' as well as resources available for musician wellness and injury prevention.
 Components: LEC.
 Grading: GRD.
 Typically Offered: Fall.

MKP 654. Special Projects in Keyboard Performance. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
 Components: IND.
 Grading: GRD.
 Typically Offered: Fall, Spring, & Summer.

MKP 658. Seminar in Contemporary Music. 1 Credit Hour.
This course is designed as a performance class for graduate piano majors. Class members will be responsible for presentation of major compositions representative of the period. Research will be required for each presentation concentrating on interpretation, stylistic requirements of the period and the historical context of the composers and work.
 Requisite: Frost School of Music.
 Components: SEM.
 Grading: GRD.
 Typically Offered: Fall.

MKP 671. Seminar in Classical Performance. 1 Credit Hour.
This course is designed as a performance class for graduate piano majors. Class members will be responsible for presentation of major compositions representative of the period. Research will be required for each presentation concentrating on interpretation, stylistic requirements of the period and the historical context of the composers and work.
 Requisite: Frost School of Music.
 Components: SEM.
 Grading: GRD.
 Typically Offered: Fall.

MKP 672. Seminar in Romantic Performance. 1 Credit Hour.
This course is designed as a performance class for graduate piano majors. Class members will be responsible for presentation of major compositions representative of the period. Research will be required for each presentation concentrating on interpretation, stylistic requirements of the period and the historical context of the composers and work.
 Requisite: Frost School of Music.
 Components: SEM.
 Grading: GRD.
 Typically Offered: Fall.

MKP 747. Seminar in Keyboard Pedagogy. 3 Credit Hours.
Focus on college-level teaching and professional development for a pianist. Topics include group piano teaching materials and strategies, syllabi and exam-objective rubric creation, pedagogy curriculum building, pedagogy text survey, administrative duties overview, preparation for the job market including job search and interview process, and C. V. building avenues such as publication, workshop/lecture presentation, editing teaching repertoire, and training in music technology.
 Requisite: Frost School of Music.
 Components: LEC.
 Grading: GRD.
 Typically Offered: Fall.
MKP 750. Keyboard Pedagogy Research Seminar. 1 Credit Hour.
Research, reading and writing in keyboard pedagogy on topics either historical or current. An in-depth research or project on a topic as approved by KPED faculty culminates in a written paper with annotated bibliography. Course may be repeated for credit.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 780. Keyboard Pedagogy Internship. 1 Credit Hour.
The student team-teaches a piano class or a private student with an instructor. The Program Director observes and critiques the student, and the student video-tapes lessons and offers critiques of their own teaching following a guideline.
Requisite: Frost School of Music.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 785. Musical Theatre Accompanying. 1 Credit Hour.
A class designed to improve the skills of pianists with a particular interest in musical theatre piano accompaniment. Students will study in a classroom setting.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 786. Vocal Accompanying I. 1 Credit Hour.
Pianists attend seminars where the principles of accompanying classical and musical theatre singers are addressed. Students are assigned to accompany applied voice lessons and ensembles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 787. Vocal Accompanying II. 1 Credit Hour.
Pianists attend seminars where the principles of accompanying classical and musical theatre singers are addressed. Students are assigned to accompany applied voice lessons and ensembles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 788. Graduate Seminar in Accompanying. 1 Credit Hour.
Study and performance of major vocal and chamber music literature as related to the accompanist and chamber musician. Course may be repeated for credit.
Requisite: Frost School of Music.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 789. Accompanying, Level I. 1 Credit Hour.
Development of sightreading skills and score preparation.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 790. Accompanying, Level II. 1 Credit Hour.
Progressive development of individual vocal/instrumental and ensemble accompanying, sightreading, score reading, and improvising from a lead sheet.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 791. Accompanying, Level III. 1 Credit Hour.
Progressive development of all types of accompaniment skills including clef and score reading, transposition, possible recital, opera theater, choral ensemble, and/or orchestral accompanying.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP 793. Special Projects in Keyboard Performance or Pedagogy. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Requisite: Frost School of Music.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MKP 794. Special Topics in Keyboard Performance or Pedagogy. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's expertise and students' areas of interest.
Requisite: Frost School of Music.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MKP 811. Master's Recital Paper. 1-3 Credit Hours.
The student working on his/her master's recital paper enrolls for credit as determined by his/her advisor. Credit is not awarded until the paper has been accepted.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MKP 812. Master's Recital. 1 Credit Hour.
The student enrolls for recital credit during the semester in which he/she presents the master’s recital.
Requisite: Frost School of Music.
Components: PRA.
Grading: SUS.
Typically Offered: Fall & Spring.

MKP 813. Master's Pedagogy Project. 1-3 Credit Hours.
The student working on his/her master's pedagogy project enrolls for credit as determined by his/her advisor. Credit is not awarded until the project paper is accepted.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.
MKP 814. Artist Diploma Recital. 1 Credit Hour.
The student enrolls for recital credit during the semester in which s/he presents the Artist Diploma recital.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

MKP 815. Masters Second Recital. 1 Credit Hour.
The second recital in the masters degree as an elective option as approved by an advisor. The program should consist of memorized solo piano repertoire, with an optional inclusion of representative chamber or concerto repertoire instead of, or in combination with, the solo repertoire.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MKP 831. Doctoral Essay. 1-12 Credit Hours.
Required of all candidates for the D.M.A. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 20 hours of MKP 731 may be taken in a regular semester, nor more than six in a summer session.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MKP 832. Doctoral Recital. 1-2 Credit Hours.
Required of all candidates for the D.M.A.
Requisite: Frost School of Music.
Components: PRA.
Grading: SUS.
Typically Offered: Fall & Spring.

MKP 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the master's degree after the student has completed the required hours of thesis or project credit.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MKP HC1. Harpsichord. 2 Credit Hours.
1-hour lesson and 50 minute studio class for harpsichord students.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HC3. Harpsichord. 2 Credit Hours.
1-hour lesson and 50 minute studio class for harpsichord students
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HC5. Harpsichord. 1-4 Credit Hours.
Requires successful completion of an undergraduate degree in piano performance, and approval of student's advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of Artist Diploma. The course covers private instruction on harpsichord-related performance techniques and repertory. The level of repertory will be determined by instructor based on the student's performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HC6. Harpsichord. 1-4 Credit Hours.
Requires successful completion of an undergraduate degree in piano performance, and approval of student's advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of Masters Degree. The course covers private instruction on harpsichord-related performance techniques and repertory. The level of repertory will be determined by instructor based on the student's performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HC7. Harpsichord. 1-2 Credit Hours.
Requires successful completion of a graduate degree in piano performance, and approval of student's advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of doctoral degree. The course covers private instruction on harpsichord-related performance techniques and repertory. The level of repertory will be determined by instructor based on the student's performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HCC. Harpsichord. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HCD. Harpsichord. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HCF. Harpsichord. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MKP HCG. Harpsichord. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HCH. Harpsichord. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HCS. Secondary Harpsichord. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP HCX. Secondary Harpsichord - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP ORC. Organ. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Gleason, Method of Organ Playing; selected exercises from Manual Technique, Pedal Exercises and Scales. Repertoire: Gleason, Method of Organ Playing: selected Compositions for Manuals and Pedals; intermediate-level works by Bach, Mendelssohn, Franck, and others; Additional hymn playing techniques.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP ORD. Organ. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Gleason, Method of Organ Playing; selected exercises from Manual Technique, Pedal Exercises and Scales. Repertoire: Gleason, Method of Organ Playing: selected Compositions for Manuals and Pedals; intermediate-level works by Bach, Mendelssohn, Franck, and others; Additional hymn playing techniques.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP ORF. Organ. 1-2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP ORG. Organ. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Nilson, A System of Technical Studies in Pedal Playing for the Organ; selected exercises. Repertoire: Selected works by composers from all style periods, with an emphasis on the French Romantic and Modern French schools. Advanced service-playing techniques.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP ORH. Organ. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Nilson, A System of Technical Studies in Pedal Playing for the Organ; selected exercises. Repertoire: Selected works by composers from all style periods, with an emphasis on the French Romantic and Modern French schools. Advanced service-playing techniques.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP ORS. Secondary Organ. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Gleason, Method of Organ Playing; selected exercises from Manual Technique and Pedal Technique. Repertoire: Gleason, Method of Organ Playing: Compositions for Manuals, Studies and Compositions for Manuals and Pedal; selected chorale preludes and smaller-scale preludes and fugues by Bach, Buxtehude, Brahms, and others; basics of hymn playing.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP ORT. Secondary Organ - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MKP P11. Piano. 2 Credit Hours.
1-hour lesson and 50 minute studio class for piano students. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P12. Piano. 2 Credit Hours.
1-hour lesson and 50 minute studio class for piano students. Technical Requirements: Complete Junior Recital as required. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P13. Piano. 2 Credit Hours.
1-hour lesson and 50 minute studio class for piano students. Technical Requirements: Complete Master Recital as required. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P14. Piano. 2 Credit Hours.
1-hour lesson and 50 minute studio class for piano students. Technical Requirements: Complete Graduate Recital as required. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P15. Piano. 1-4 Credit Hours.
Requires successful completion of an undergraduate degree in piano performance, and approval of student’s advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of masters degree. The course covers private instruction on performance techniques and repertory. The level of repertory will be determined by instructor based on the student’s performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P16. Piano. 1-2 Credit Hours.
Requires successful completion of an undergraduate degree in piano performance, and approval of student’s advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of masters degree. The course covers private instruction on performance techniques and repertory. The level of repertory will be determined by instructor based on the student’s performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P17. Piano. 1-2 Credit Hours.
Requires successful completion of a graduate degree in piano performance, and approval of student’s advisor (studio teacher). Course may be taken for 2 credits (1-hour lesson) or 1 credit (30-minute lesson) as part of doctoral degree. The course covers private instruction on performance techniques and repertory. The level of repertory will be determined by instructor based on the student’s performance level. A jury examination in front of a faculty committee is required each semester for students taking the course for 2 credits. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P18. Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P19. Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P20. Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P21. Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P22. Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P23. Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P24. Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MKP P25. Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: To show a comprehensive foundation in basic/advanced keyboard skills. Repertoire: Appropriate repertoire as required. Requisite: Frost School of Music.

Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MKP PIX. Secondary Piano - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

Music Studio and Jazz (MSJ)

MSJ 101. Large Jazz Ensemble Placeholder. 1 Credit Hour.
Ensemble placeholder course for new students to enroll in before ensemble placement auditions during Frost Orientation. Please note, you will have to drop this course and enroll in your correct ensemble when receive your official ensemble placement from your studio professor.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MSJ 103. Jazz Piano I. 1 Credit Hour.
First level of four jazz piano courses that cover the rudiments of jazz piano, consisting of group instruction covering basic piano voicings, voice leading, and functional harmony at the keyboard. This series of courses will cover typical jazz chord progressions such as II V I in major and minor, as well as learning jazz standards using various approaches on the piano.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 104. Jazz Piano II. 1 Credit Hour.
Second level of four piano courses that cover the rudiments of jazz piano, consisting of group instruction covering basic piano voicings, voice leading, and functional harmony at the keyboard. This series of courses will cover typical jazz chord progressions such as II V I in major and minor, as well as learning basic jazz standard using various approaches on the piano.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MSJ 107. Skills Lab I. 1 Credit Hour.
Chamber music performance of selected repertoire with a concentration in Bebop and the music of Charlie Parker, Dizzy Gillespie, and Thelonious Monk, along with secondary figures from the Bebop era, 1945-1955. Additional repertoire from a list of American standards will also be assigned. Class sessions will cover historical/stylistic performance practice, aural skills (transcription, analysis, sight-reading, etc.), and Jazz arranging for small ensembles.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSJ 108. Skills Lab II. 1 Credit Hour.
Chamber music performance of selected repertoire with a concentration in Jazz and popular music in America in the 1950's, including the repertoire of prominent popular music composers such as George Gershwin, Cole Porter, Richard Rodgers, and others. Class sessions will cover historical/stylistic performance practice, aural skills (transcription, analysis, sight-reading, etc.), and Jazz arranging for small ensembles.
Corequisite: MSJ 141.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MSJ 109. Jazz Vocal Techniques I. 1 Credit Hour.
Analysis and application of singing styles and attendant skills, techniques and repertoire required in performance and recording of jazz, pop, and other current idioms.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSJ 111. Analysis and Evolution of Jazz Styles I. 3 Credit Hours.
An overview of the musical styles and genres of the late nineteenth and early twentieth century leading to the development of Jazz music. Then an in-depth study of early Jazz in America and its innovators, including Louis Armstrong, Jelly Roll Morton, and Duke Ellington. Also, a survey of the major style periods of Modern Jazz from 1945 to the present, including prominent artists from each style period.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 124. Introduction to Jazz Improvisation. 3 Credit Hours.
Introduction to the harmonic, melodic, and rhythmic techniques of Jazz Improvisation.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 125. Introduction to Jazz Vocal Improvisation. 3 Credit Hours.
Introduction to the harmonic, melodic, and rhythmic techniques of Jazz Improvisation.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 134. E.C.M. Ensemble. 1 Credit Hour.
This ensemble performs music typical of the contemporary European jazz styles such as those characterized by the Edition of Contemporary Music (E.C.M.) Recording Company.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ 136. Small Jazz Ensemble. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 137. Small Jazz Ensemble I. 1 Credit Hour.
This course is a continuation of MSJ136: Small Jazz Ensemble. Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 139. Small Jazz Vocal Ensemble. 1 Credit Hour.
A group consisting of 1 to 6 vocalists and 3 to 6 instrumentalists to gain experience in jazz solo and ensemble performance in a small group setting. Exploration of traditional and contemporary jazz literature will be emphasized. Performance of original music by ensemble members is also encouraged.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 140. Experiential Musicianship I. 3 Credit Hours.
Experiential Musicianship I covers the fundamentals of jazz theory and performance. The class is keyboard based. Material includes the basics of melody, harmony and rhythm in the tradition of the jazz art form. Specific topics include chord construction, chord voicings, progressions, voice leading, rhythmic interpretation and aural recognition.
Co-requisite: MSJ 107 and must pass with a C or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 141. Experiential Musicianship II. 3 Credit Hours.
Experiential Musicianship II is a continuation of Exp. Mus. I. Material includes a more in depth study of chord/scale theory, polyrhythmic studies, expansion of keyboard skills via increasingly longer or complicated progressions, aural recognition and transcription.
Co-requisite: MSJ 108.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 142. Small Jazz Ensemble II. 1 Credit Hour.
This ensemble focuses on sectional playing, blend, and musical interpretation. Students will be required to perform in sections of four to eight trombones with a rhythms section. The literature also requires the student to improvise. Students are encouraged to write for the ensemble.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 143. Small Jazz Ensemble III. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 144. Small Jazz Ensemble IV. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 145. Small Jazz Ensemble V. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 146. Small Jazz Ensemble VI. 1 Credit Hour.
Freshmen level group that focuses on the music of Charlie Parker, Dizzy Gillespie, and Thelonius Monk. Issues of modern jazz harmony and rhythm as well as cultivating Bebop vocabulary for improvisation are discussed.
Requisite: Frost School of Music.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 147. Small Jazz Ensemble VII. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble's repertoire.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 150. Studio Jazz Band. 1 Credit Hour.
This ensemble performs music in the recent big band tradition, from leaders such as Duke Ellington, Count Basie, Buddy Rich, Bob Brookmeyer, and Thad Jones. The group performs on campus with an emphasis on studio recording.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ 151. Concert Jazz Band. 1 Credit Hour.
The Concert Jazz Band is the premiere big band at the Frost School of Music. Students are required to perform at an advanced level, and work with a variety of guest artists. Requirements include the ability to sight read difficult material, and to improvise in various styles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 153. Jazz Band III. 1 Credit Hour.
Big Band designed for freshmen and sophomores to gain experience with classic Big Band repertoire.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Spring.

MSJ 155. Monk/Mingus Ensemble. 1 Credit Hour.
This ensemble is dedicated to the study and performance of the music of the influential jazz composers Charles Mingus and Thelonius Monk.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 156. Funk/Fusion Ensemble. 1 Credit Hour.
Small jazz ensemble focusing on contemporary electric jazz/rock/fusion/Latin styles. Emphasis is placed on original compositions by the members of the ensemble. The most common instrumentation is bass, drums, piano/synthesizer, guitar, and saxophone.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 157. Horace Silver Ensemble. 1 Credit Hour.
This ensemble is dedicated to the study and performance of the music of Horace Silver.
Requisite: Frost School of Music.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

MSJ 158. Frost Sextet. 1 Credit Hour.
An advanced ensemble dedicated to the performance of original and standard repertoire in the jazz idiom.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 159. Rhythm and Blues Ensemble. 1 Credit Hour.
Mid-level ensemble for both instrumentalists and vocalists designed to familiarize students with classic Rhythm and Blues material from the 50's,60's, and 70s, while preparing for a series of concerts throughout the semester. Students are guided through the process of putting a working band together and preparing it for performances and recordings, including what is expected of and from instruments, vocalists, producers, promoters, and other industry personnel.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 160. Avant Garde Ensemble. 1 Credit Hour.
This ensemble offers students the opportunity to develop the 'free form' improvisation in either the bebop based style of Ornette Coleman or the fusion oriented style as typified by Bill Laswell.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MSJ 162. Jazz Saxophone Ensemble. 1 Credit Hour.
An ensemble dedicated to the study of jazz and contemporary repertoire for the saxophone Quartet/quintet. Skills addressed include sight-reading, intonation and blend, phrasing, rhythmic Accuracy, may include rhythm section accompaniment depending on availability.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSJ 164. Contemporary Rhythm Section Techniques I. 1 Credit Hour.
Introduces students to various styles of rhythm section playing--from swing and modern Jazz through Rock, Funk, R&B, and other commercial styles of music. Concepts of sound, groove, balance and blend, repertory, and accompaniment are also discussed.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 165. Contemporary Rhythm Section Techniques II. 1 Credit Hour.
Fundamentals of rhythm section playing for guitarists, pianists, bassists, and drummers. It covers a variety of contemporary styles within the rock, jazz, Lat in, and pop idioms. Students are grouped into ensembles which perform in class weekly.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 166. Small Jazz Ensemble Lab. 0 Credit Hours.
Performance Lab designed to work in conjunction with all of the 140 level ensembles. Provides and environment in which students are required to perform on a regular rotating schedule throughout the semester. These performances are critiqued by the institution and other faculty, as well as students, in order to nurture a critical but positive atmosphere.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 167. Salsa Ensemble. 1 Credit Hour.
An ensemble of instrumentalists and singers performing a wide variety of Salsa and Latin jazz styles with emphasis on improvisation.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Spring.
MSJ 169. Jazz Guitar Ensemble I. 1 Credit Hour.
A small instrumental ensemble comprised of five electric guitars which
perform with bass and drums in a wide variety of contemporary jazz
styles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 170. Jazz Guitar Ensemble II. 1 Credit Hour.
A small instrumental ensemble comprised of five electric guitars which
perform with bass and drums in a wide variety of contemporary jazz
styles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 171. Jazz Guitar Ensemble III. 1 Credit Hour.
A small instrumental ensemble comprised of five electric guitars which
perform with bass and drums in a wide variety of contemporary jazz
styles.
Requisite: Frost School of Music.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

MSJ 172. Jazz Guitar Ensemble (Workshop I). 1 Credit Hour.
A small instrumental reading ensemble, comprised of four to eight
electric guitars, which studies a variety of contemporary jazz styles.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSJ 173. Jazz Guitar Ensemble (Workshop II). 1 Credit Hour.
A small instrumental reading ensemble, comprised of four to eight
electric guitars, which studies a variety of contemporary jazz styles.
Requisite: Frost School of Music.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

MSJ 195. Jazz Vocal Ensemble I. 1 Credit Hour.
A choir of 12 to 16 voices, with rhythm section, which perform a wide
variety of jazz and pop styles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 196. Jazz Vocal Ensemble II. 1 Credit Hour.
A choir of 12 to 16 voices, with rhythm section, which perform a wide
variety of jazz and pop styles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 197. Jazz Vocal Ensemble III. 1 Credit Hour.
A choir of 12 to 16 voices, with rhythm section, which perform a wide
variety of jazz and pop styles.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 203. Jazz Piano III. 1 Credit Hour.
Third level of four jazz piano courses that cover the rudiments of jazz
piano, consisting of group instruction covering basic piano voicings,
voice leading, and functional harmony at the keyboard. This series
of courses will cover typical jazz chord progressions such as II V I in
major and minor, as well as learning basic jazz standard using various
approaches on the piano.
Components: LAB.
Grading: GRD.

MSJ 204. Jazz Piano IV. 1 Credit Hour.
Fourth level of four jazz piano courses that cover the rudiments of jazz
piano, consisting of group instruction covering basic piano voicings,
voice leading, and functional harmony at the keyboard. This series
of courses will cover typical jazz chord progressions such as II V I in
major and minor, as well as learning basic jazz standard using various
approaches on the piano.
Components: LAB.
Grading: GRD.

MSJ 207. Skills Lab III. 1 Credit Hour.
Chamber music performance of selected repertoire with a concentration
in the music of Miles Davis in the 1950's. Additional repertoire from a
list of American standards will also be assigned. Class sessions will
cover historical/stylistic performance practice, aural skills (transcription,
analysis, sight-reading, etc.) and Jazz arranging for small ensembles.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSJ 208. Skills Lab IV. 1 Credit Hour.
Chamber music performance of selected repertoire from the Hard Bop
period (1955 -1962) including Blue Note artists. Additional repertoire from
a list of American standards will also be assigned. Class sessions will
cover historical/stylistic performance practice, aural skills (transcription,
analysis, sight-reading, etc.) and Jazz arranging for small ensembles.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.

MSJ 211. Jazz Vocal Techniques III. 1 Credit Hour.
Course provides performance experience in the Rock/Funk and Rock
Ballad idioms that require strong vocal projection and presentation.
Components: LAB.
Grading: GRD.

MSJ 212. Jazz Vocal Techniques IV. 1 Credit Hour.
Advanced techniques for the Jazz/Pop Vocalist in live performance.
Components: LAB.
Grading: GRD.

Typically Offered: Spring.
MSJ 213. Analysis and Evolution of Jazz Styles II. 3 Credit Hours.
An overview of the musical styles and genres of the middle and late twentieth century encompassing the evolution of Modern Jazz music including an in-depth study of each period of Modern Jazz and its innovators. Also included is a survey of the major style periods of Rock music from 1945 to the present with prominent artists from each style period.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 220. Basic Drumset Styles and Techniques (Part 1). 3 Credit Hours.
This course explores the basic sticking, swing, backbeat drumset techniques, basic world drumset styles, and chart reading.
Requisites: Undergrad Music Students Only and Dean’s Approval and Signature.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSJ 240. Experiential Musicianship III. 3 Credit Hours.
Experiential Musicianship III continues to build on skills acquired in the previous two semesters. Material includes continued development of keyboard skills and aural recognition through expansion of repertoire, modal and non-dominant/tonic harmonic schemes, bass lines and counterpoint, harmonization of melodies, and re-harmonization of basic progressions and transcription.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 241. Experiential Musicianship IV. 3 Credit Hours.
Experiential Musicianship IV culmination of the four level sequence. Students are expected to understand and aurally recognize advanced harmonic, melodic, and rhythmic material. New material may include Latin and other straight-eighth rhythms, multi-voice counterpoint, advanced re-harmonization, and improvising at the keyboard. Keyboard skills run concurrent with Jazz Arranging II techniques (MSJ 520).
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 242. Jazz Percussion Techniques. 1 Credit Hour.
Group instruction in jazz, contemporary, and ethnic drumset/percussion techniques with emphasis on basic skills for performance and recording. Additionally, appropriate teaching techniques, methods, and materials necessary for public school pedagogy will be covered. Course may be repeated for credit.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 3. Jazz Forum. 0 Credit Hours.
A weekly meeting of jazz students and faculty for performance, master classes, clinics presented by students, faculty and guest artists.
Requisite: Frost School of Music.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MSJ 320. Basic Drumset Styles and Techniques (Part 2). 1 Credit Hour.
This course is a continuation of MSJ 220. It explores advanced sticking, swing, backbeat drum set techniques, advanced world drum set styles, and chart reading.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MSJ 340. Jazz Skills III. 3 Credit Hours.
Jazz Skills III continues to build on skills acquired in the previous two semesters. Material includes continued development of keyboard skills and aural recognition through expansion of repertoire, modal and non-dominant/tonic harmonic schemes, bass lines and counterpoint, harmonization of melodies, and re-harmonization of basic progressions and transcription.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MSJ 341. Jazz Skills IV. 3 Credit Hours.
Jazz Skills IV is the culmination of the four-level Jazz Skills sequence. Students are expected to understand and aurally recognize advanced harmonic, melodic, and rhythmic material. New material may include Latin and other straight-eighth rhythms, multi-voice counterpoint, advanced re-harmonization, and improvising at the keyboard. Keyboard skills run concurrent with Jazz Arranging II techniques (MSJ 520).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 342. Technology Skills. 3 Credit Hours.
Recording projects combining acoustic instruments with software based instruments in a Digital Audio Workstation. Studio recording techniques including microphone placement will be demonstrated in a lab environment. Projects will be based on student compositions and/or arrangements. Post production will include mixing, mastering and CD manufacturing.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 371. Jazz Improvisation I. 3 Credit Hours.
Fundamentals of jazz harmony with emphasis on simple chord progressions, altered scales, and modes.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 372. Jazz Vocal Improvisation I. 3 Credit Hours.
Fundamentals of jazz harmony with emphasis on complex harmonic progressions and tunes.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 381. Jazz Rehearsal Techniques. 2 Credit Hours.
This course provides practical procedures and materials for beginning instrumental conducting students with an emphasis on the direction of large jazz ensembles.
Prerequisite: MSJ 241 And Requisite: MSJI or MSJV Majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ 430. Applied Jazz Instruction. 1-2 Credit Hours.
Advanced private study in the jazz idiom. Topics may include
improvisation, theory, and composition, at the discretion of the teacher.
Students must have completed five semesters on the principal
instrument. Permission of both course instructor and principal
instrument teacher/advisor required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSJ 431. Applied Jazz Instruction 2. 1-2 Credit Hours.
Advanced private study in the jazz idiom. Topics may include
improvisation, theory, and composition, at the discretion of the teacher.
Students must have completed five semesters on the principal
instrument. Permission of both course instructor and principal
instrument teacher/advisor required.
Prerequisite: MSJ 430.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSJ 493. Special Projects in Studio Music and Jazz. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s
area expertise and student’s area of interest. This course includes a
culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSJ 494. Special Topics in Studio Music and Jazz. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty to faculty
member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSJ 499. Senior Recital. 1 Credit Hour.
A public recital of one hour or more. Course is required of all performance
majors.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 509. Jazz Composition I. 3 Credit Hours.
Study of advanced composition techniques as applied to the Jazz
idiom, making extensive use of analysis of established compositions
and compositional methods. Both the individual and interactive
characteristics of melody, harmony, rhythm, and form will be stressed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 510. Jazz Composition II. 2 Credit Hours.
This course is a continuation of MSJ 509 with an emphasis on melody
writing, reharmonization techniques, pentatonic/blues composition, and
an introduction to advanced harmonic materials.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 516. Jazz Vocal Arranging. 3 Credit Hours.
Analysis and techniques of jazz vocal writing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 519. Advanced Modern Arranging I. 3 Credit Hours.
Advanced arranging and composition for the Jazz and studio ensemble.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 520. Advanced Modern Arranging II. 3 Credit Hours.
Advanced arranging and composition for the Jazz and studio ensemble.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 522. Introduction to Midi Sequencing and Digital Workstations. 2
Credit Hours.
An introduction to Midi Sequencing with hands-on experience working
with a computer sequencing workstation. Topics include sequencing,
quantizing, editing, mixing, and effects processing.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 560. Advanced Jazz Improvisation Theory. 3 Credit Hours.
Review of fundamentals and introduction of advanced topics in jazz
harmony and scale resources for improvisation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 565. Advanced Improvisation I. 3 Credit Hours.
Exploration of advanced Jazz improvisation performance and practice
techniques. Utilization of non-traditional harmonic motion, advanced
chord scale relationships, and motivic development will be stressed, with
the goal of musicality in improvisation. Enrollment open to seniors or
graduate MSJ majors (or permission of instructor).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 566. Advanced Improvisation II. 3 Credit Hours.
Refinement of improvisation concepts leading towards the establishment
of a personal style of playing. Open only to senior or graduate majors in
Studio Music and Jazz.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 593. Special Projects in Studio Music and Jazz. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s
area expertise and student’s area of interest. This course includes a
culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSJ 594. Special Topics in Studio Music and Jazz. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty to faculty
member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MSJ 609. Jazz Composition I. 2 Credit Hours.
Study of advanced composition techniques as applied to the Jazz idiom, making extensive use of analysis of established compositions and compositional methods. Both the individual and interactive characteristics of melody, harmony, rhythm, and form will be stressed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 610. Jazz Composition II. 2 Credit Hours.
This course is a continuation of MSJ 500 with an emphasis on melody writing, reharmonization techniques, pentatonic/blues composition, and an introduction to advanced harmonic materials.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 616. Jazz Vocal Arranging. 2 Credit Hours.
Analysis and techniques of jazz vocal writing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 619. Advanced Modern Arranging I. 3 Credit Hours.
Advanced arranging and composition for the Jazz and studio ensemble.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 620. Advanced Modern Arranging II. 3 Credit Hours.
Advanced arranging and composition for the Jazz and studio ensemble.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 621. Advanced Modern Arranging III. 3 Credit Hours.
Course addresses scoring for large jazz ensemble, utilizing chord scale voicings and line writing techniques. Emphasis is placed on orchestration styles such as Duke Ellington, Gil Evans, and Thad Jones.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 622. Introduction to Midi Sequencing and Digital Workstations. 2 Credit Hours.
An introduction to Midi Sequencing with hands-on experience working with a computer sequencing workstation. Topics include sequencing, quantizing, editing, mixing, and effects processing.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 644. Jazz Pedagogy and Administration. 3 Credit Hours.
The philosophy, methods, and materials of instruction pertinent to the teaching and management of a jazz and commercial curriculum at the high school and college level. Includes preparation of model curricula and supervised instruction.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 665. Advanced Improvisation I. 3 Credit Hours.
Exploration of advanced Jazz improvisation performance and practice techniques. Utilization of non-traditional harmonic motion, advanced chord scale relationships, and motivic development will be stressed, with the goal of musicality in improvisation. Enrollment open to seniors or graduate MSJ majors (or permission of instructor).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 666. Advanced Improvisation II. 3 Credit Hours.
Refinement of improvisation concepts leading towards the establishment of a personal style of playing. Open only to senior or graduate majors in Studio Music and Jazz.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 693. Special Projects in Studio Music and Jazz. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 694. Special Topics in Studio Music and Jazz. 1-2 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

MSJ 703. Jazz Piano Class I. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Graduate students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble’s repertoire.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 704. Jazz Piano Class II. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Graduate students will acquire improvisational skills while learning repertoire and performance techniques, and strengthen compositional and arranging skills by contributing original compositions and arrangements to the ensemble’s repertoire.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 712. Preliminary Masters Recital. 1 Credit Hour.
The Preliminary Recital gives the master’s student an opportunity to gain experience in planning and executing a concert program before the required Master’s Recital, as well as provides a venue to present additional performance repertoire in a structured concert setting.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.
MSJ 714. Advanced Orchestration. 3 Credit Hours.
Techniques for scoring for the modern symphony orchestra.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 715. Jazz Composition Seminar I. 3 Credit Hours.
Creative work in Jazz Composition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 716. Jazz Composition Seminar II. 3 Credit Hours.
Develop an understanding and control of compositional concepts and techniques required to work within a professional environment.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 717. Advanced Jazz Vocal Arranging. 2 Credit Hours.
This course is designed to help advanced instrumental arrangers explore vocal arranging.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSJ 719. Large Jazz Ensemble Conducting and Repertoire. 2 Credit Hours.
This course will expose students to the methods, procedures, and practices involved in directing large jazz ensembles. Score study, conducting, and performance programming will be covered. Emphasis will be placed on the selection of level appropriate repertoire. Additional topics include working with guest artists, ensemble finances, and the audition process.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 720. Analysis of Jazz Styles. 3 Credit Hours.
A comparative study of Jazz styles from 1900 to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 724. Seminar in Jazz Pedagogy. 1 Credit Hour.
This course provides a laboratory for students to gain experience in the areas of jazz education discussed in MSJ 644 Jazz Pedagogy and Administration. These areas include jazz history, jazz improvisation, small ensemble coaching, and big band conducting. Students will lecture in the subjects of improvisation and history, and conduct ensembles in both a small combo and a big band setting. Communication skills, repertoire selection, rehearsal techniques, conducting skills, concert preparation, and performance will be assessed. All student teaching experiences will be video recorded and added to the students’ Final Project portfolio.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

MSJ 730. Applied Jazz Instruction Jazz I. 1-2 Credit Hours.
Advanced private study in the jazz idiom. Topics may include repertoire, improvisation, theory/harmony, and/or composition, at the discretion of the instructor. Student must have completed five semesters on the principal instrument. Permission of both course instructor and principal instrument teacher/advisor required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSJ 731. Applied Jazz Instruction II. 1-2 Credit Hours.
Advanced private study in the jazz idiom. Topics may include repertoire, improvisation, theory/harmony, and/or composition, at the discretion of the instructor. Student must have completed five semesters on the principal instrument. Permission of both course instructor and principal instrument teacher/advisor required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 734. E.C.M. Ensemble. 1 Credit Hour.
This ensemble performs music typical of the contemporary European jazz styles such as those characterized by the Edition of Contemporary Music (E.C.M.) Recording Company.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 736. Small Jazz Ensemble. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 737. Small Jazz Ensemble I. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 739. Small Jazz Vocal Ensemble. 1 Credit Hour.
Small groups of vocalists with a rhythm section, dedicated to a particular style and body of literature.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 742. Jazz Percussion Techniques. 1 Credit Hour.
This course is designed to increase the rhythmic awareness of students thorough mastering basic drumset and hand percussion skills and to demonstrate how these skills can be taught in a public school or college setting for non percussion majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ 743. Small Jazz Ensemble III. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 744. Small Jazz Ensemble IV. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 745. Small Jazz Ensemble V. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 746. Small Jazz Ensemble VI. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 747. Small Jazz Ensemble VII. 1 Credit Hour.
Group instruction in the various styles of contemporary jazz. Students will acquire improvisational skills while learning repertoire and performance techniques leading to an advanced performance level. This course will strengthen compositional and arranging skills as students must contribute original compositions and arrangements to the ensemble's repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 750. Studio Jazz Band. 1 Credit Hour.
This ensemble performs music in the recent big band tradition, from leaders such as Duke Ellington, Count Basie, Buddy Rich, Bob Brookmeyer, and Thad Jones. The group performs on campus with an emphasis on studio recording.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 751. Concert Jazz Band. 1 Credit Hour.
The Concert Jazz Band is the premiere big band at the Frost School of Music. Students are required to perform at an advanced level, and work with a variety of guest artists. Requirements include the ability to sight read difficult material, and to improvise in various styles. Audition is required.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 753. Jazz Band III. 1 Credit Hour.
Big Band designed for graduate students needing experience with classic Big Band repertory.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 755. Monk/Mingus Ensemble. 1 Credit Hour.
This ensemble is dedicated to the study and performance of the music of the influential jazz composers Charles Mingus and Thelonius Monk.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MSJ 756. Funk/Fusion Ensemble. 1 Credit Hour.
Small jazz ensemble focusing on contemporary electric jazz/rock/fusion/Latin styles. Emphasis is placed on original compositions by the members of the ensemble. The most common instrumentation is bass, drums, piano/synthesizer, guitar, and saxophone.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 757. Horace Silver Ensemble. 1 Credit Hour.
This ensemble is dedicated to the study and performance of the music of Horace Silver.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

MSJ 758. Frost Sextet. 1 Credit Hour.
An advanced ensemble dedicated to the performance of original and standard repertoire in the jazz idiom
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 759. Rhythm and Blues Ensemble. 1 Credit Hour.
Mid-level ensemble for both instrumentalists and vocalists designed to familiarize students with classic Rhythm and Blues material from the 50s, 60s, and 70s, while preparing for a series of concerts throughout the semester. Students are guided through the process of putting a working band together and preparing it for performances and recordings, including what is expected of and from instruments, vocalists, producers, promoters, and other industry personnel.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 760. Avant Garde Ensemble. 1 Credit Hour.
This ensemble offers students the opportunity to develop the 'free form' improvisation in either the bebop based style of Ornette Coleman or the fusion oriented style as typified by Bill Laswell.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ 762. Jazz Saxophone Ensemble. 1 Credit Hour.
A reading ensemble comprised of four or five saxophones. Literature may include saxophone quartet and/or saxophone quintet with rhythm section. The ensemble focuses on fundamental principles of sight-reading, blend, intonation, phrasing, articulation, rhythmic accuracy, as well as overall interpretation.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 764. Contemporary Rhythm Section Techniques I. 1 Credit Hour.
This is an ensemble for freshmen rhythm section players. The focus of this ensemble is to introduce students to various styles of rhythm section playing—from swing and modern Jazz through Rock, Funk, R&B, and other commercial styles of music. Concepts of sound, groove, balance and blend, repertory, and accompaniment are also discussed.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 765. Contemporary Rhythm Section Techniques II. 1 Credit Hour.
Fundamentals of rhythm section playing for guitarists, pianists, bassists, and drummers. It covers a variety of contemporary styles within the rock, jazz, Lat in, and pop idioms. Students are grouped into ensembles which perform in class weekly.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSJ 766. Small Jazz Ensemble Lab. 0 Credit Hours.
Performance Lab designed to work in conjunction with all of the 140 level ensembles. Provides and environment in which students are required to perform on a regular rotating schedule throughout the semester. These performances are critiqued by the institution and other faculty, as well as students, in order to nurture a critical but positive atmosphere.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 767. Salsa Ensemble. 1 Credit Hour.
An ensemble of instrumentalists and singers performing a wide variety of Salsa and Latin jazz styles with emphasis on improvisation.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 769. Jazz Guitar Ensemble I. 1 Credit Hour.
A small instrumental ensemble comprised of five electric guitars which perform with bass and drums in a wide variety of contemporary jazz styles.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 770. Jazz Guitar Ensemble II. 1 Credit Hour.
A small instrumental ensemble comprised of five electric guitars which perform with bass and drums in a wide variety of contemporary jazz styles.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 771. Jazz Guitar Ensemble III. 1 Credit Hour.
A small instrumental ensemble comprised of five electric guitars which perform with bass and drums in a wide variety of contemporary jazz styles.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 772. Jazz Guitar Ensemble (Workshop I). 1 Credit Hour.
A small instrumental reading ensemble, comprised of four to eight electric guitars, which studies a variety of contemporary jazz styles.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 773. Jazz Guitar Ensemble (Workshop II). 1 Credit Hour.
A small instrumental reading ensemble, comprised of four to eight electric guitars, which studies a variety of contemporary jazz styles.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSJ 775. Jazz Writing Ensemble. 1 Credit Hour.
This class is a seminar in jazz arranging and composition techniques for Studio/Jazz Writing master’s students and DMA students in Jazz Composition. The class consists primarily of topics related to jazz and studio arranging and composition, recording techniques, rehearsal techniques, music technologies, music business, and entrepreneurship. Topics are examined utilizing hands-on technology, score analysis, listening, guest lectures, and long range projects.
Components: ENS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MSJ 780. Advanced Jazz Improvisation Theory. 3 Credit Hours.
Review of fundamentals and introduction of advanced topics in jazz harmony and scale resources for improvisation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 793. Special Projects in Studio Music and Jazz. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member's area of expertise and student's area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSJ 794. Special Topics in Studio Music and Jazz. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MSJ 795. Jazz Vocal Ensemble I. 1 Credit Hour.
A choir of 12 to 16 voices, with rhythm section, which perform a wide variety of jazz and pop styles.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ 796. Jazz Vocal Ensemble II. 1 Credit Hour.
A choir of 12 to 16 voices, with rhythm section, which perform a wide variety of jazz and pop styles.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 797. Jazz Vocal Ensemble III. 1 Credit Hour.
A choir of 12 to 16 voices, with rhythm section, which perform a wide variety of jazz and pop styles.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ 805. Master's Jazz Pedagogy Project. 1 Credit Hour.
This project consists of a portfolio that students create during their four semesters in the program. Many employers require video of candidates in multiple teaching environments. Students will be videotaped during teaching demonstrations. All videos, plus several required documents the student will create, are archived in the portfolio, to be assessed in the fourth and final semester. The majority of these videos will be produced in MSJ 724 Jazz Pedagogy Seminar.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MSJ 811. Master's Recital Paper. 1-3 Credit Hours.
The student working on his/her recital paper enrolls for credit as determined by his/her advisor. Credit is not awarded until the paper has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MSJ 812. Master's Recital. 1 Credit Hour.
A masters recital lasting at least 60 minutes that may include some chamber works but consists primarily of solo pieces. Students are required to write Program Notes.
Components: PRA.
Grading: SUS.
Typically Offered: Fall & Spring.

MSJ 813. Master's Jazz Writing Project. 1-3 Credit Hours.
The student working on his/her master's jazz writing project enrolls for credit as determined by his/her advisor. Credit is not awarded until the project paper is accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MSJ 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the master's degree after the student has completed the required hours of thesis or project credit.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MSJ 831. Doctoral Essay. 1-12 Credit Hours.
Required of all candidates of the D.M.A. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of MSJ 731 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MSJ 832. Doctoral Recital. 1 Credit Hour.
A formal recital displaying improvisational, interactive, and compositional skills appropriate to the doctoral level.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

MSJ 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the DMA after the student has completed the required hours of doctoral essay credit.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MSJ JA7. Applied Jazz Arranging. 1 Credit Hour.
Applied Jazz Arranging level M is the first level of DMA private jazz arranging lessons. At this level the instructor evaluates the writers breadth of knowledge of arranging and orchestration techniques and expands on the key arrangers of various styles, genres and mediums.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JA1. Jazz Bass. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JB3. Jazz Bass. 2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to advanced harmonic applications. Expanding traditional improvisational vocabulary. Creating original vocabulary. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
Jazz Bass at the Master's level. The student will pursue a course of study that is directed toward his/her musical goals. This course will examine, through transcription and analysis, the important figures in the history of jazz bass, and also those performances in which the student is interested.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JB7. Jazz Bass. 1-2 Credit Hours.
Jazz Bass at the Doctoral level. The student will pursue a course of study that is directed towards his/her musical goals. This course will also examine, through transcription and analysis, the important figures in the history of jazz bass, and also those performances in which the student is interested.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JBC. Jazz Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 1 credit. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to solo bass techniques. Advanced arpeggios and scales. Pentatonic theory and applications. Improvisational vocabulary (traditional).
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JBD. Jazz Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to solo bass techniques. Advanced arpeggios and scales. Pentatonic theory and applications. Improvisational vocabulary (traditional).
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JBX. Secondary Jazz Bass - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JBH. Jazz Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous materials in addition to recital preparation. Typical Requirements: Previous materials in addition to recital preparation.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JBS. Secondary Jazz Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Basic techniques, sight-reading. Major, minor, diminished, and whole tone scales. Chord structure and analysis. Bass line construction, basis of walking lines. Voice leading for bass lines and improvisation. Etudes and studies in all styles. Repertoire: Standards and Jazz.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JB7. Secondary Jazz Bass. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JC6. Applied Jazz Composition. 1-2 Credit Hours.
Applied Jazz Composition level I is the first level of private jazz composition lessons in the Studio Jazz Writing Masters program. At this level the instructor evaluates the writer's general knowledge of jazz composition with emphasis on harmonic vocabulary and form.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JC7. Applied Jazz Composition. 1-2 Credit Hours.
Applied Jazz Composition level M is the first level of DMA private jazz composition lessons. At this level the instructor evaluates the writer's knowledge of early jazz composers (1920-1940) with emphasis on harmonic vocabulary and form.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JD1. Jazz Drumset. 2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Sticking technique, basic hand/foot patterns. Analysis of styles, history of drum set. Rhythm section interaction. Basic transcription, chart reading.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
**MSJ JD3. Jazz Drumset. 2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced jazz styles and comping, odd note groupings, advanced chart reading, advanced hand/foot patterns.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JD6. Jazz Drumset. 1-2 Credit Hours.**
Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JD7. Jazz Drumset. 1-2 Credit Hours.**
Private lessons which focus on the development of drumset skills. The course will cover sticking technique, hand/foot patterns, groove, balance, and rhythm section interaction. Students are required to perform and improvise at a professional level.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JD3. Jazz Drumset. 2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced jazz styles and comping, odd note groupings, advanced chart reading, advanced hand/foot patterns.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JDG. Jazz Drumset. 1-2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Displacement, metric modulation, preparation for recital, developing an individual voice.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JDH. Jazz Drumset. 1-2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Displacement, metric modulation, preparation for recital, developing an individual voice.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JD6. Jazz Drumset. 1-2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced analysis or major drum set artists. Advanced transcription. Soloing over form using motives, dynamics, and subdivision, comping patterns.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JD6. Jazz Drumset. 1-2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced analysis or major drum set artists. Advanced transcription. Soloing over form using motives, dynamics, and subdivision, comping patterns.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JDC. Jazz Drumset. 1-2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced analysis or major drum set artists. Advanced transcription. Soloing over form using motives, dynamics, and subdivision, comping patterns.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JDD. Jazz Drumset. 1-2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Left and right hand development. Basic fretboard theory including arpeggios, voice leading (2 string studies), blues and bebop scales. Accompanying: 3-note voicings. Introduction to transcription. Application of the concepts studied to basic repertoire.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JDH. Jazz Drumset. 1-2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Left and right hand development. Basic fretboard theory including arpeggios, voice leading (2 string studies), blues and bebop scales. Accompanying: 3-note voicings. Introduction to transcription. Application of the concepts studied to basic repertoire.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

**MSJ JDG1. Jazz Guitar. 2 Credit Hours.**
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Works by Bach, Galbraith and others. Building of standard/jazz repertoire including works by Arlen, Porter, Kern, Parker, Ellington, etc. Improvisation and harmonic studies based on the foregoing. Eartraining as required. Use of Jamey Aebersold play-along series.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ JG6. Jazz Guitar. 1-2 Credit Hours.
Graduate Studies in Jazz Guitar are designed to take into account each student's talent, previous accomplishments and particular interests. After a careful assessment of the student's strengths and weaknesses, a course of study will be custom-designed, with possible areas of study drawn from (but not limited to) the following list: advanced jazz concepts in melody, harmony and rhythm, sight-reading, repertoire expansion, transposition, technique, composition, and pedagogy. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JG7. Jazz Guitar. 1-2 Credit Hours.
Graduate Studies in Jazz Guitar are designed to take into account each student's talent, previous accomplishments and particular interests. It is expected that a graduate student a the DMA level would be, to a large extent, self-directing and capable of original research. After a careful assessment of the student's strengths and weaknesses, a course of study will be custom-designed, with possible areas of study drawn from (but not limited to) the following list: advanced jazz concepts in melody, harmony and rhythm, sight-reading, repertoire expansion, transposition, technique, composition, and pedagogy. Assistance with recital preparation will be given as appropriate and necessary. The prerequisite for the first level (JGM) is a Master’s Degree and the successful completion of the audition for the DMA program. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JGC. Jazz Guitar. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JGD. Jazz Guitar. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JGF. Jazz Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Works by Bach, Galbraith and others. Building of standard/jazz repertoire including works by Arlen, Porter, Kern, Parker, Ellington, etc. Improvisation and harmonic studies based on the foregoing. Eartraining as required. Use of Jamey Aebersold play-along series. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JGG. Jazz Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. More advanced repertoire (works by Corea, Hancock, etc.). Continued expansion of harmonic concepts and exploration of chord voicings and applications. Use of Aebersold series. Assistance with senior recital preparation. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JGH. Jazz Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. More advanced repertoire (works by Corea, Hancock, etc.). Continued expansion of harmonic concepts and exploration of chord voicings and applications. Use of Aebersold series. Assistance with senior recital preparation. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JGJ. Secondary Jazz Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Left and right hand development. Basic fretboard theory including arpeggios, voice leading (2 string studies), blues and bebop scales. Accompanying: 3-note voicings. Introduction to transcription. Application of the concepts studied to basic repertoire. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JGK. Secondary Jazz Guitar - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ JP1. Jazz Piano. 2 Credit Hours.
Students will expand and refine application of fundamental chord voicings, chord-scale relationships, be-bop and blues vocabulary, and develop a strong rhythmic base. Solo piano and ensemble/accompanyment formats will be addressed. Technique will be evaluated to identify areas in need of improvement. Methods will include: transcription, analysis, composition of single lines and arrangements, tune learning, and various improvisation exercises.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JP3. Jazz Piano. 2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technique: Selected exercises from the Dohnanyi or Pishna exercise books. Augmented scales and modes of major in all keys, in both hands and in at least two octaves with a swing (triplet) subdivision. Introduction to modal harmony and sideslipping through study of plateau modal compositions (tunes with long sections of the same modality) Pentatonic scales in all keys. Literature: Blues in the stride solo piano format. Analysis and transcription of artists who played in this style such as Tatum, Johnson, Smith, and Peterson. Memorization of at least two tunes per lesson in at least three key centers, at least 75% of which should be tunes in the 'American standard' format featuring composers such as Berlin, Porter, Kahn, Gershwin, etc. All of the above to be performed both with bass accompaniment and in solo piano format with sections in stride style. Introduction to the Bill Evans piano style through performance of his transcribed piano pieces.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

Students are encouraged to seek refinement in the areas of harmony, chord voicings, improvisation vocabulary, rhythmic concepts, and technique. A nuanced approach to performing in a musical and expressive manner, with special regard to phrasing, dynamic contrast, articulation, and part balance will be stressed. Advanced techniques in reharmonization, rhythmic phrasing, and solo piano will be explored. Atypical song forms and contemporary repertoire will be introduced. Developing an individual approach to improvising and composing will be encouraged. Recital preparation will focus on programming and other important aspects of concert planning.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JP7. Jazz Piano. 1-2 Credit Hours.
Emphasis placed on developing an individual identity as an artist. Creation of a distinct concept for an ensemble and/or solo piano approach through original composition and/or arranging will be stressed. Career advancement as a performer and/or educator will be explored.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JPC. Jazz Piano. 1-2 Credit Hours.
Students will expand and refine knowledge of chord voicings, chord scale relationships, and rhythmic integrity in swing and other styles. Modal, chromatic, and non-traditional harmonic concepts will be introduced. Advanced rhythmic approaches to improvisation and accompaniment will be explored. Expressive aspects of performance will be addressed. Technique will be evaluated to identify areas in need of improvement. Methods will include: transcription, analysis, composition of single lines and arrangements, tune learning, and various improvisation exercises.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JPD. Jazz Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technique: Arpeggiation of major, minor, diminished and augmented seventh chords, in both hands and in at least two octaves with a swing (triplet) subdivision. Introduction to melodic harmonization through practice of 'Shearing Style' and 'Drop Two' scalar exercises. Introduction of the ii-V7-I chord progression in all keys as applied to tunes which have a harmonic rhythm of two changes per bar such as Confirmation (Parker) and in Your Own Sweet Way (Brubeck). Literature: Study of the 'I Got Rhythm' chord progression. Memorization of at least two tunes per lesson in their original key, at least 75% of which should be tunes in the 'American standard' format featuring composers such as Berlin, Porter, Kahn, Gershwin, etc. All of above to be performed with bass accompaniment, or in solo piano format. Study, performance and analysis of transcribed solos such as those found in the Omnibook (Parker). Introduction to solo piano format through study of transcribed pieces.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JPF. Jazz Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technique: Selected exercises from the Dohnanyi or Pishna exercise books. Augmented scales and modes of major in all keys, in both hands and in at least two octaves with a swing (triplet) subdivision. Introduction to modal harmony and sideslipping through study of plateau modal compositions (tunes with long sections of the same modality) Pentatonic scales in all keys. Literature: Blues in the stride solo piano format. Analysis and transcription of artists who played in this style such as Tatum, Johnson, Smith, and Peterson. Memorization of at least two tunes per lesson in at least three key centers, at least 75% of which should be tunes in the 'American standard' format featuring composers such as Berlin, Porter, Kahn, Gershwin, etc. All of the above to be performed both with bass accompaniment and in solo piano format with sections in stride style. Introduction to the Bill Evans piano style through performance of his transcribed piano pieces.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ JPG. Jazz Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technique: Selected exercises from the Dohnanyi or Pishna exercise books. Augmented scales and modes of major in all keys, in both hands and in at least two octaves with a swing (triplet) subdivision. Introduction to modal harmony and sideslipping through study of plateau modal compositions (tunes with long sections of the same modality.) Pentatonic scales in all keys. Literature: Blues in the stride solo piano format. Analysis and transcription of artists who played in this style such as Tatum, Johnson, Smith, and Peterson. Memorization of at least two tunes per lesson in at least three key centers, at least 75% of which should be tunes in the 'American standard' format featuring composers such as Berlin, Porter, Kahn, Gershwin, etc. All of the above to be performed both with bass accompaniment and in solo piano format with sections in stride style. Introduction to the Bill Evans piano style through performance of his transcribed piano pieces. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JPH. Jazz Piano. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technique: Selected exercises from the Dohnanyi or Pishna exercise books. Augmented scales and modes of major in all keys, in both hands and in at least two octaves with a swing (triplet) subdivision. Introduction to modal harmony and sideslipping through study of plateau modal compositions (tunes with long sections of the same modality.) Pentatonic scales in all keys. Literature: Blues in the stride solo piano format. Analysis and transcription of artists who played in this style such as Tatum, Johnson, Smith, and Peterson. Memorization of at least two tunes per lesson in at least three key centers, at least 75% of which should be tunes in the 'American standard' format featuring composers such as Berlin, Porter, Kahn, Gershwin, etc. All of the above to be performed both with bass accompaniment and in solo piano format with sections in stride style. Introduction to the Bill Evans piano style through performance of his transcribed piano pieces. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JPS. Secondary Jazz Piano. 1-2 Credit Hours.
Students will expand and refine application of fundamental chord voicings, chord-scale relationships, be-bop and blues vocabulary, and develop a strong rhythmic base. Solo piano and ensemble/ accompaniment formats will be addressed. Technique will be evaluated to identify areas in need of improvement. Methods will include: transcription, analysis, composition of single lines and arrangements, tune learning, and various improvisation exercises. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JPX. Secondary Jazz Piano - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JS1. Jazz Saxophone. 2 Credit Hours.
1-hour lesson and 50 minute studio class for jazz saxophone students. Technical Requirements: Introduction to principals of saxophone acoustics; introduction to tone production, intonation, tonal color, and blend; basic technique, chords and scale studies; jazz phrasing; establishment of a 'tune list' (repertoire); study of improvised Solos through transcription; major scales full range, thirds, diatonic seventh chords in level A and in level B, melodic minor scales full range, thirds, diatonic seventh chords. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JS3. Jazz Saxophone. 2 Credit Hours.
1-hour lesson and 50 minute studio class for jazz saxophone students. Technical Requirements: Continuation of tone and technique as needed; augmented scale; rhythmic exercises from drum methods; continue extended range studies; a cappella improvisation; studies in melodic/ rhythmic development. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JS6. Jazz Saxophone. 1-2 Credit Hours.
The graduate student will be encouraged to seek further refinement in all areas, including tone, intonation, technique, stylistic interpretation, improvisation, as well as be thoroughly versed in the pedagogy of the instrument. Specific jazz improvisation topics may include advanced forms, non-traditional harmony, traditional harmony in twelve keys, advanced rhythmic meters and subdivisions, balancing melodic/ harmonic/rhythmic elements, approaches to non-structured 'free' forms, and expansion of the repertoire. Related areas may also be addressed within the private lesson format, such as composition, doubling, and keyboard skills. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ JSH. Jazz Saxophone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Recital Preparation. Building of repertoire; concentration on selected influential composers: Ellington, Shorter, Hancock, Miller, Silver, Jobim, Golson, Lieberman, etc. Review of teaching methods, materials. Advanced technique studies: Bozza Etudes Caprices, Lacour 8 Difficult studies. Topics of interest as decided by student in consultation with teacher. Total 80 tunes (minimum) by end of H level. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JSX. Secondary Jazz Saxophone - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ JSF. Jazz Saxophone - Graduate. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous material, in addition to standard tunes (2 per week). 251 licks in major and minor. Diminished patterns. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ TB6. Jazz Trombone. 1-2 Credit Hours.
Private lessons focus on various facets of jazz trombone performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TB7. Jazz Trombone. 1-2 Credit Hours.
Private lessons focus on various facets of jazz trombone performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TBC. Jazz Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous material in addition to blues and rhythm changes in 12 keys. Voice Leading (3rds and 7ths). Transcription techniques/assigned transcriptions. Standard tunes (1 per week).
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TBD. Jazz Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous material in addition to blues and rhythm changes in 12 keys. Voice Leading (3rds and 7ths). Transcription techniques/assigned transcriptions. Standard tunes (1 per week).
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TBF. Jazz Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous material in addition to standard tunes (2 per week). 251 licks in major and minor. Diminished patterns.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TBG. Jazz Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous material in addition to augmented scales and patterns. Pentatonic scales and patterns. Recital preparation.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TBH. Jazz Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Previous material in addition to augmented scales and patterns. Pentatonic scales and patterns. Recital preparation.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TBS. Secondary Jazz Trombone. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Daily routine/classical etudes. Major, melodic minor, diminished scales, Dorian and Mixolydian modes, dominant 7th arpeggios, minor 7th arpeggios. All major and minor 3rds followed by respective dominant 7ths.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TBX. Secondary Jazz Trombone - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TP1. Jazz Trumpet. 2 Credit Hours.
1-hour lesson and 50 minute studio class for jazz trumpet students. Technical Requirements: Concentration on basic trumpet skills, utilizing the Arbans and Clarke technical studies book. Proper breathing techniques. Major and diminished whole tone scales. Jazz tonguing.
Standard jazz repertoire.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TP3. Jazz Trumpet. 2 Credit Hours.
1-hour lesson and 50 minute studio class for jazz trumpet students. Technical Requirements: Continuation of range studies in addition to advanced etudes such as Bitsch and Charlier. Advanced jazz repertoire. Diminished and augments scales. Studio techniques.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.

Typically Offered: Fall & Spring.

MSJ TP6. Jazz Trumpet. 1-2 Credit Hours.
Private lessons focus on various facets of jazz trumpet performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.

Typically Offered: Fall & Spring.
MSJ TP7. Jazz Trumpet. 1-2 Credit Hours.
Private lessons focus on various facets of jazz trumpet performance. These include jazz and classical instrumental studies focusing on proper warm up and advanced articulation exercises. Jazz styles are researched through listening to and transcription of established jazz instrumentalists. Advanced jazz theory and jazz piano are also included. The student is required to perform and improvise at a professional level. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TPC. Jazz Trumpet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Continuation of basic skills in addition to range studies utilizing the Wedge breath. Transcribing jazz trumpet solos. A cappella blues in all keys. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TPD. Jazz Trumpet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Continuation of basic skills in addition to range studies utilizing the Wedge breath. Transcribing jazz trumpet solos. A cappella blues in all keys. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TPF. Jazz Trumpet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Study of advanced jazz repertoire. Recital preparation. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TPG. Jazz Trumpet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Study of advanced jazz repertoire. Recital preparation. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TPH. Jazz Trumpet. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Study of advanced jazz repertoire. Recital preparation. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TPS. Secondary Jazz Trumpet. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ TPX. Secondary Jazz Trumpet - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VB1. Jazz Vibraphone. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VB3. Jazz Vibraphone. 2 Credit Hours.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VBS. Secondary Jazz Vibraphone. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VBX. Secondary Jazz Vibraphone - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VO1. Jazz Voice. 2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MSJ VO3. Jazz Voice. 2 Credit Hours.
1-hour lesson and 50 minute studio class for jazz voice students.
Repertoire: 15 Songs, continuation of standard repertoire at more advance and complex level, including bebop, original material, modal tunes and selections of harmonic and melodic complexity with improvisation.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VO6. Jazz Voice. 1-2 Credit Hours.
Private studio vocal study at the master of music graduate level devoted to the continued development of skills and repertoire with particular attention to discovering and nurturing the individual student's artistic direction.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VO7. Jazz Voice. 1-2 Credit Hours.
Private studio vocal coaching at the doctoral level devoted to refining all skills, technique, and repertoire for professional performance and pedagogy.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VOF. Jazz Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Repertoire: 15 Songs, continuation of standard repertoire at more advance and complex level, including bebop, original material, modal tunes and selections of harmonic and melodic complexity with improvisation.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VOG. Jazz Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Repertoire: 15 Songs, same styles as above, Recital preparation, review of repertoire list and audition preparation.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VOH. Jazz Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirement: Warm-ups, Cool downs and introductory exercises for breath management. Attack in phonation, registration, resonance, articulation, coordination, microphone technique, key selection and vocal hygiene and maintenance. Repertoire: 25 Songs: 6 swing, 6 traditional ballad, 5 bossa/samba, 2 blues/funk, contemporary ballad, 4 student choice.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VOS. Secondary Jazz Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirement: Warm-ups, Cool downs and introductory exercises for breath management. Attack in phonation, registration, resonance, articulation, coordination, microphone technique, key selection and vocal hygiene and maintenance. Repertoire: 25 Songs: 6 swing, 6 traditional ballad, 5 bossa/samba, 2 blues/funk, contemporary ballad, 4 student choice.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MSJ VOX. Secondary Jazz Voice - Graduate. 1-2 Credit Hours.
Secondary lessons at the graduate level are designed for students who are either non-performance majors or who wish to pursue applied study on an instrument or voice that is not their primary focus. One-hour lessons are given for students enrolled for 2 credits; half-hour lessons are given for students enrolled for 1 credit.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

Music Theory and Composition (MTC)

MTC 101. Composition I. 2 Credit Hours.
Course covers elementary principles of composition; class performance of composition projects is also included. Required of theory-composition majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTC 102. Composition II. 2 Credit Hours.
Continuation of MTC 101.
Prerequisite: MTC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MTC 107. Skills Lab I. 1 Credit Hour.
Chamber-music ensemble (vocal or instrumental) for intensive work on aural skills (transcription, sight-singing, etc.), analysis of literature in and through performance, and improvisation, with focus on music of the Baroque and Classical periods.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MTC 108. Skills Lab II. 1 Credit Hour.
Chamber-music ensemble (vocal or instrumental) for intensive work on aural skills (transcription, sight-singing, etc.), analysis of literature in and through performance, and improvisation, with focus on music of the Baroque and Classical periods.
Pre or Corequisite: MTC 141.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MTC 109. Music Theory Skills I. 3 Credit Hours.
A first course in music theory and musicianship for non-music majors; covers basic literacy, fundamentals, tonal harmony, and elements of musical form in a wide variety of traditional and contemporary styles and genres. Includes intensive training in aural and singing skills.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTC 110. Music Theory Skills II. 3 Credit Hours.
Course is designed for students deficient in the knowledge of the basic fundamentals of music. Includes the study of notation, keys, scales, and chord construction. Credits do not count toward music degree requirements.
Prerequisite: MTC 109.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 111. Music Theory I. 1-3 Credit Hours.
Introduction to basic concepts of melody, harmony, rhythm, and formal structure through analysis and writing. Topics include intervals, scales, elementary melodic and four-part writing, phrase structure and cadences, and diatonic harmony. Laboratory: MTC 121.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTC 12. Composition Forum. 0 Credit Hours.
A weekly forum for all Music Theory/Composition majors, both undergraduate and graduate. Course involves guest lectures by visiting composers and performers, presentations of faculty compositions, and group discussions of important compositional and theoretical issues.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MTC 140. Experiential Musicianship I. 3 Credit Hours.
Study of tonal harmony, voice leading, and elements of musical form, covering diatonic procedures and basic modulation, using the chorales of J.S. Bach, with other repertoire, as models for composition.
Corequisite: Must Pass MTC 107 with a C or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTC 141. Experiential Musicianship II. 3 Credit Hours.
Continuation of MTC 140, enlarging the study of tonal harmony and voice leading, covering harmony of the Classical period and sectional musical forms through small rondo and compound ternary, culminating in a large independent model-composition project for each student.
Corequisite: MTC 108.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 148. Electronic Music Ensemble. 1 Credit Hour.
An in-depth study and performance of electroacoustic music compositions.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 182. Composition Workshop. 1 Credit Hour.
Variety of composition concepts and problems are dealt with through assignments and projects with special emphasis on practical considerations.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 197. Studio Rhythm Section. 1 Credit Hour.
A performing ensemble of student-generated contemporary musical repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 199. Ensemble Ibis for New Music. 1 Credit Hour.
Ensemble Ibis is the new music ensemble at the Frost School of Music which performs music of the late 20th and 21st centuries and performs 3 to 4 concerts per year.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 201. Composition III. 2 Credit Hours.
Principles of composition with special emphasis on stylistic considerations.
Prerequisite: MTC 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTC 202. Composition IV. 2 Credit Hours.
Continuation of MTC 201.
Prerequisite: MTC 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 207. Skills Lab III. 1 Credit Hour.
Chamber-music ensemble for intensive work on aural skills (transcription, sight-singing, sight-reading, etc.), analysis of literature excerpts in performance, and improvisation, with focus on tonal music of the Classical period and the nineteenth century.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.
MTC 208. Skills Lab IV. 1 Credit Hour.
Chamber-music ensemble for intensive work on aural skills (transcription, sight-singing, sight-reading, etc.), analysis of literature excerpts in performance, and improvisation, with focus on selected music of the twentieth century.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MTC 240. Experiential Musicianship III. 3 Credit Hours.
Continuation of MTC 141; study of advanced tonal harmony, voice leading, and larger musical forms, based primarily on music of the Classical period and the nineteenth century.
Pre or Corequisite: MTC 141.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTC 241. Experiential Musicianship IV. 3 Credit Hours.
Continuation of MTC 240; study of materials and techniques in composition of music from the early and middle twentieth century, based on works by Debussy, Stravinsky, Schoenberg, Bartok, and other models.
Prerequisite: MTC 240.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 301. Composition V. 2 Credit Hours.
Individual compositional projects with an emphasis on smaller formal structure.
Prerequisite: MTC 202.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 302. Composition VI. 2 Credit Hours.
Individual compositional projects including all media with an emphasis on extended formal structures.
Prerequisite: MTC 301.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 311. Analysis and Experience. 3 Credit Hours.
Musical analysis and its relationship to listening and performance. An introduction to musical aesthetics is also included.
Prerequisite: MTC 241.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTC 312. 20th and 21st Century Techniques. 3 Credit Hours.
Analysis of twentieth century compositional resources. Topics include Impressionism, expanded tonal resources, Neo-classicism, serialism, post-serialism, aleatoric procedures, minimalism, and other recent trends.
Prerequisite: MTC 241.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 313. 18th Century Counterpoint. 3 Credit Hours.
Two-part keyboard counterpoint in the style of J. S. Bach, beginning with a modified species approach and including composition of dance-suite movements and inventions. Introduction to three-part writing is also included.
Prerequisite: MTC 240.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 401. Composition VII. 2 Credit Hours.
Individual compositional projects including all media with an emphasis on advanced problems in composition.
Prerequisite: MTC 302.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 402. Composition VIII. 1 Credit Hour.
Advanced Composition. Continuation of MTC 401.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 404. Live Performance Musical Direction. 3 Credit Hours.
Project-based practicum course in collaboration with other Performance department, designed to provide students the opportunity to prepare music for a live concert and serve as Musical Director (MD) thereof. Particular emphasis is placed on musical material (repertoire, arrangements, score/parts preparation), rehearsal techniques, and real-time/live performance direction/conducting.
Prerequisite: MTC 403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 416. Orchestration. 3 Credit Hours.
The uses and possibilities of orchestral instruments as well as scoring for various instrumental groups, including the symphony orchestra.
Prerequisite: MTC 240, or MSJ 240, or MMI 240.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTC 452. Media Production Project Lab. 2 Credit Hours.
Laboratory component to MTC 404. Course can only be taken concurrently with MTC 404.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MTC 493. Special Projects in Music Theory and Composition. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member's area of expertise and student's area of interest. This course includes a culminating project.
Requisites: Undergrad Music Students Only and Dean's Approval and Signature.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MTC 494. Special Topics in Music Theory and Composition. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty to faculty member's expertise and students' areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTC 499. Senior Recital. 1 Credit Hour.
A public recital of original compositions required of all Music Composition majors.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 501. The Aesthetics of Music. 3 Credit Hours.
Survey of thought and discourse about the nature, roles, values, experiences, a nd meanings of music. Variety of perspectives, including those of the listener, performer, and composer are addressed. Application to musical interpretation and criticism is included.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 505. Analysis and History of Electroacoustic and Acousmatic Music. 2 Credit Hours.
Course examines electroacoustic and acousmatic music from both a historical/literature and analytical perspective. Analytical techniques with a focus on an ecological analysis approach will be conducted as well as a survey of electroacoustic, acousmatic, and digital music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTC 506. Digital Editing and Sequencing. 3 Credit Hours.
Computers as control devices for music synthesis and digital manipulation of pre-recorded sounds. Topics include interfacing sequencing software with software synthesizers, performance techniques, and sound design using samples.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 507. Studio Licensing. 2 Credit Hours.
Licensing for access to Digital Arts and Media Writing Studios. Topics covered include digital audio recording and editing, sound synthesis/design, audio signal processing, sound analysis and spatial placement of sound. Course includes studio-use qualifying exams.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 515. Choral Arranging. 3 Credit Hours.
Arranging for choir and vocal groups with and without instrumental accompaniment in all styles.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 516. Advanced Orchestration. 3 Credit Hours.
Scoring for the symphonic orchestra with an emphasis on recent techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 517. Analysis of Popular Music Since 1950. 3 Credit Hours.
Course examines popular music in the second half of the Twentieth Century from a music analytical perspective. Critical skills needed for this analysis are identified and developed. Analytical techniques for understanding the determination and utilization of musical elements and structures in contemporary popular music are applied. Various contemporary genres and some precursors are examined and particular stylistic determinants of their compositional and performance models are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTC 518. Advanced Counterpoint. 3 Credit Hours.
Three-voice fugal writing in Bach's style, followed by compositional projects in a variety of twentieth-century contrapuntal styles.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 521. Multimedia for Musicians. 3 Credit Hours.
Presents an overview and introduction to the creation of multimedia projects for presentation on the Web. Focus is placed on building websites, and the creation of multimedia content for online delivery. Software tools for the manipulation of digital media, including audio and video, are utilized in the realization of course projects.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTC 567. Electronic and Computer Music Seminar. 1-3 Credit Hours.
Advanced techniques and applications in electronic and computer music. Topics may include electronic projects in composition, performance, research, programming, or other as approved by instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 593. Special Projects in Music Theory and Composition. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area expertise and student's area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTC 594. Special Topics in Music Theory and Composition. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's expertise and students' areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTC 601. The Aesthetics of Music. 3 Credit Hours.
Survey of thought and discourse about the nature, roles, values, experiences, a nd meanings of music. Variety of perspectives, including those of the listener, performer, and composer are addressed. Application to musical interpretation and criticism is included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MTC 605. Analysis and History of Electroacoustic and Acousmatic Music. 2 Credit Hours.
Course examines electroacoustic and acousmatic music from both a historical/literature and analytical perspective. Analytical techniques with a focus on an ecological analysis approach will be conducted as well as a survey of electroacoustic, acousmatic, and digital music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTC 606. Digital Editing and Sequencing. 3 Credit Hours.
Computers as control devices for music synthesis and digital manipulation of pre-recorded sounds. Topics include interfacing sequencing software with hardware synthesizers, performance techniques, and sound design using samples.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 607. Studio Licensing. 2 Credit Hours.
Licensing for access to Digital Arts and Media Writing Studios. Topics covered include digital audio recording and editing, sound synthesis/design, audio signal processing, sound analysis and spatial placement of sound. Course includes studio-use qualifying exams.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 615. Choral Arranging. 3 Credit Hours.
Arranging for choir and vocal groups with and without instrumental accompaniment in all styles.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 616. Advanced Orchestration. 3 Credit Hours.
Scoring for the symphonic orchestra with an emphasis on recent techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 617. Analysis of Popular Music Since 1950. 3 Credit Hours.
Course examines popular music in the second half of the Twentieth Century from a music analytical perspective. Critical skills needed for this analysis are identified and developed. Analytical techniques for understanding the determination and utilization of musical elements and structures in contemporary popular music are applied. Various contemporary genres and some precursors are examined and particular stylistic determinants of their compositional and performance models are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTC 618. Advanced Counterpoint. 3 Credit Hours.
Three-voice fugal writing in Bach’s style, followed by compositional projects in a variety of twentieth-century contrapuntal style.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 621. Multimedia for Musicians. 3 Credit Hours.
Presents an overview and introduction to the creation of multimedia projects for presentation on the Web. Focus is placed on building websites, and the creation of multimedia content for online delivery. Software tools for the manipulation of digital media, including audio and video, are utilized in the realization of course projects.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTC 667. Electronic and Computer Music Seminar. 1-3 Credit Hours.
Advanced techniques and applications in electronic and computer music. Topics may include electronic projects in composition, performance, research, programming, or other as approved by instructor
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 670. Electronic and Computer Music Seminar. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTC 711. Theory Pedagogy. 3 Credit Hours.
Seminar in methods and materials pertinent to the teaching of theory in high school and college.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 712. Advanced Comprehensive Theory. 3 Credit Hours.
Music theory as a research discipline is expanding in every conceivable direction, including a growing involvement with the non-Western canon, conscious inclusion of context and interpretation, and a heightened awareness of methodological advances in other disciplines. Students will become acquainted and engage with influential methodological paradigms of the last fifty years through weekly reading/analysis assignments and seminar discussions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MTC 713. Twentieth Century Idioms. 3 Credit Hours.
Relevant modes of perception, influences, and technical devices in 20th-century music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 715. Composition Seminar I. 2 Credit Hours.
Creative work in composition requiring a multi-movement work scored for full orchestra, symphonic band, or chorus with orchestra or band.
Components: LSN.
Grading: GRD.
Typically Offered: Fall.

MTC 716. Composition Seminar II. 2 Credit Hours.
Continuation of MTC 615.
Prerequisite: MTC 715.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTC 717. Analytical Techniques. 3 Credit Hours.
Examination and practice of various techniques used in the analysis of music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTC 719. Introduction to Schenkerian Analysis. 3 Credit Hours.
A first course in the theory and analytical practice of Heinrich Schenker. Students will learn the principles and techniques of Schenkerian analysis and will apply them to the study of works in smaller sectional forms.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTC 730. Introduction to Spectralism. 3 Credit Hours.
To give the student a further understanding of the art and techniques of spectral composition, through listening, research, analysis, and composition (optional).
Requisite: Must be in the School of Graduate Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTC 748. Electronic Music Ensemble. 1 Credit Hour.
An in-depth study and performance of electroacoustic music compositions.
Components: ENS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTC 767. Advanced Electronic and Computer Music Seminar. 1-3 Credit Hours.
Advanced techniques and applications in electronic and computer music. Topics may include electronic projects in composition, performance, research, programming, or other as approved by instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MVC 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the DMA after the student has completed the required hours of doctoral essay credit.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Music Vocal Performance (MVP)

MVP 101. Choir Ensemble Placeholder. 1 Credit Hour.
Ensemble placeholder course for new students to enroll in before ensemble placement auditions during Frost Orientation. Please note, you will have to drop this course and enroll in your correct ensemble when you receive your official ensemble placement from Dr. Karen Kennedy.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MVP 144. Vocal Techniques for Non-Majors. 1 Credit Hour.
Class instruction in fundamentals of singing, breath control, tone production, diction, and solo singing for non-music majors. Basic music reading skills are taught.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 147. Men's Chorale. 1 Credit Hour.
This ensemble is open to the entire university community. Students will work on all aspects of choral singing, including skills in basic musicianship. This ensemble presents two or three concerts per semester.
Components: ENS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MVP 148. Women's Chorale. 1 Credit Hour.
This ensemble is open to the entire university community. Students will work on all aspects of choral singing, including skills in basic musicianship. This ensemble presents two or three concerts per semester.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 167. Music Theatre Workshop. 1 Credit Hour.
Participation in a fully-staged production or supervised classwork and projects which integrate the skills of the musical theatre singer/actor.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 180. Symphonic Choir. 1 Credit Hour.
Study and performance of choral literature appropriate for large choir, including choral orchestral masterworks.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 181. Choral Conducting I. 2 Credit Hours.
This course provides practical procedures and materials for beginning conducting students. Students demonstrate basic conducting patterns, preparations, and releases in all meters.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MVP 182. Choral Conducting II. 2 Credit Hours.
This course provides practical procedures and materials for advanced conducting students. Students demonstrate refined skills in conducting musical styles and independence of gesture. A strong emphasis is placed on conducting of mixed meters.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MVP 184. Chamber Singers. 1 Credit Hour.
An ensemble of eighteen to twenty undergraduate and graduate students, the ensemble performs challenging chamber choir repertoire from the Renaissance through the Twentieth Century.
Components: ENS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MVP 185. UM Chorale. 1 Credit Hour.
This ensemble performs significant choral literature with an emphasis on music of the Twentieth-Century and on choral/orchestral works including opera. Open to all qualified undergraduate students, regardless of major.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 188. Opera Theater I. 1 Credit Hour.
Typically taken in the first semester of freshman year by vocal performance majors. Basic stage techniques will be studied and mastered. The learning process repertoire, basic acting and performance techniques will be addressed. Methods of communication of text and emotion will be studied and applied. Emphasis will be on solo repertoire with possible participation in fall opera production.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MVP 189. Opera Theater II. 1 Credit Hour.
Typically taken in the second semester of the first year by vocal performance majors. Further research, development and application of stage deportment, character development, acting skills, communication of emotion and text. Repertoire will include solo songs, arias and small ensembles and possible participation in spring opera production.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Spring.

MVP 196. Singing for the Stage I-A. 1 Credit Hour.
The selection, learning process, and performance of Musical Theatre Songs with emphasis on tone production and style.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.
MVP 197. Singing for the Stage I-B. 1 Credit Hour.
Continuation of MVP 196.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MVP 205. Acting for Opera. 2 Credit Hours.
This course is designed to combine acting techniques with singing,
dealing specifically with challenges presented to the singing actor
and including musical styles and periods, period fashion and props,
movement, and stage techniques for recitative, aria and ensemble
performance.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MVP 206. Acting for Opera - Intermediate. 2 Credit Hours.
Course designed to continue to develop acting and character
development skills for operatic performance.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MVP 250. Lyric Diction for Singers - English and Italian. 2 Credit Hours.
Designed for voice majors and principals, focus on pronunciation skills
for singing in English and Italian. International Phonetic alphabet and
rules for singers Italian languages will be applied to Art Song, Opera, and
Oratorio.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MVP 252. Lyric Diction for Singers - German and French. 2 Credit Hours.
Designed for voice majors and principals, focus on pronunciation skills
for singing in German and French. International Phonetic Alphabet and
rules for singers. Italian languages will be applied to Art Song, Opera, and
Oratorio.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MVP 288. Opera Theater III. 1 Credit Hour.
Taken by vocal performance majors in the first semester sophomore
year, this course is designed to combine acting techniques with
singing, dealing specifically with challenges unique to the singing
actor and including musical styles and periods, period fashion and
props, movement, and stage technique for recitative, aria and ensemble
performances. Movement will be more specific to stage requirements,
but include dance steps and period movement.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MVP 289. Opera Theater IV. 1 Credit Hour.
Typically taken in the 2nd semester, sophomore year by vocal performance
majors. Course designed to continue to develop acting and character
development skills and apply techniques learned in Opera Theater I, II,
and III.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Spring.

MVP 294. Singing for Actors. 1 Credit Hour.
The preparation of song literature and audition material for actors (can be
repeated for credit).
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MVP 296. Singing for the Stage II-A. 1 Credit Hour.
Instruction in auditioning methods and materials for American musical
theatre.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MVP 297. Singing for the Stage II-B. 1 Credit Hour.
Instruction in preparing vocal material for musical scenes drawn from
American musical theatre.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MVP 298. Opera Theater III. 1 Credit Hour.
Typically taken in the 2nd semester, junior year by vocal performance
majors. Course designed to continue to develop acting and character
development skills and apply techniques learned in Opera Theater I-V.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MVP 299. Junior Recital. 1 Credit Hour.
A public recital of one half-hour or more. Course required of all Vocal
Performance majors.
Requisite: Frost School of Music.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.
MVP 415. Auditioning I. 2 Credit Hours.
Students prepare three to five audition pieces, photos, and resumes. Income tax, unions, opportunity, and methods of searching for and obtaining work is included. Course culminates in a seven to ten day trip to New York attending auditions.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MVP 416. Auditioning II. 2 Credit Hours.
Continuation of MVP 415.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MVP 431. Musical Theatre Styles I. 3 Credit Hours.
Course topics include creating a character through song and dialogue, making transition from songs in to and out of scenes, and becoming comfortable and familiar with the style and performance unique to musical theatre.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MVP 488. Opera Theater VII. 1 Credit Hour.
Typically taken by Vocal Performance majors in the first semester, senior year. Course designed to continue to develop acting and character development skills and apply techniques learned in Opera Theater 1-VI.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MVP 489. Opera Theater VIII. 1 Credit Hour.
Typically taken by Vocal Performance majors in the 2nd semester, senior year. course designed to continue to develop acting and character development skills and apply techniques learned in Opera Theater I-VIII.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Spring.

MVP 493. Special Projects in Vocal Performance or Choral Conducting. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member's area expertise and student's area of interest. This course includes a culminating project.
Requisite: Frost School of Music.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MVP 494. Special Topics in Vocal Performance or Choral Conducting. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's expertise and students' areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MVP 499. Senior Recital. 1 Credit Hour.
A public recital of one hour or more. Course is required of all performance majors.
Requisite: Frost School of Music.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 508. Choral Score Study. 2 Credit Hours.
In depth study of selected choral or choral/orchestral works related to literature being performed by university ensembles during the academic year.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MVP 538. Vocal Pedagogy. 2-3 Credit Hours.
Course covers methods and concepts in the teaching of singing. Emphasis is placed on psychological, physiological, and acoustical principles involved in voice production with practical application, observing and teaching individual and class voice in a supervised environment.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MVP 552. Vocal Performance Preparation. 1 Credit Hour.
Musical preparation of a wide range of assigned vocal literature from all periods for performance in forums, juries, and recitals. Special emphasis is on musical values, styles, translations of texts, diction, pronunciation of Italian, German, French, and English, and memorization.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 580. Opera Production. 1 Credit Hour.
Opera production for main stage production, scenes, and other productions. Open only to students that are cast in productions, as determined by audition and faculty decision. Typically taken by vocal performance majors.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 588. Voice Performance in Salzburg, Austria. 0 Credit Hours.
Course is conducted at Salzburg College, Austria. Students receive comprehensive and intensive vocal training from University of Miami faculty as well as distinguished guest artists. A class in vocal repertoire is also included.
Requisite: Must be in Salzburg Program.
Components: ENS.
Grading: AUD.
Typically Offered: Summer.
MVP 593. Special Projects in Vocal Performance or Choral Conducting. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area expertise and student’s area of interest. This course includes a culminating project.
Requisite: Frost School of Music.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MVP 594. Special Topics in Vocal Performance or Choral Conducting. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MVP 608. Choral Score Study. 2 Credit Hours.
In depth study of selected choral or choral/orchestral works related to literature being performed by university ensembles during the academic year.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MVP 638. Vocal Pedagogy. 2-3 Credit Hours.
Course covers methods and concepts in the teaching of singing. Emphasis is placed on psychological, physiological, and acoustical principles involved in voice production with practical application, observing and teaching individual and class voice in a supervised environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MVP 652. Vocal Prfm Prep. 1 Credit Hour.
Musical preparation of a wide range of assigned vocal literature from all periods for performance in forums, juries, and recitals. Special emphasis is on musical values, styles, translations of texts, diction, pronunciation of Italian, German, French, and English, and memorization.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 680. Opera Production. 1 Credit Hour.
Opera production for main stage production, scenes, and other productions. Open only to students that are cast in productions, as determined by audition and faculty decision. Typically taken by vocal performance m
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 693. Special Projects in Vocal Performance or Choral Conducting. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 694. Special Topics in Vocal Performance or Choral Conducting. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MVP 710. Vocal Literature for Teaching: English. 3 Credit Hours.
Study of the historical body of English language vocal repertoire as it relates to voice classification, age, and technical development of a singer.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MVP 711. Vocal Literature for Teaching: Italian. 3 Credit Hours.
The student working on his/her recital paper enrolls for credit as determined by his/her advisor. Credit is not awarded until the paper has been accepted.
Requisite: Frost School of Music.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MVP 712. Vocal Literature for Teaching: German. 3 Credit Hours.
Study of the historical body of German vocal repertoire as it relates to voice classification, age, and technical development of a singer.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MVP 713. Vocal Literature for Teaching: French. 3 Credit Hours.
Study of the historical body of French vocal repertoire as it relates to voice classification, age, and technical development of a singer.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MVP 714. Vocal Literature for Teaching: Musical Theater. 3 Credit Hours.
The student enrolls for recital credit during the semester in which he/she presents the Artist Diploma Recital.
Requisite: Frost School of Music.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 730. Studio Teaching Techniques. 1 Credit Hour.
Application of the principles studied in MVP 638. Candidates will be assigned students for applied voice study, under supervision of the instructor.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MVP 732. Teaching the Singer Actor. 2 Credit Hours.
Exploring teaching techniques for developing the skills of the singer.
Requisite: Frost School of Music.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.
MVP 736. Voice Disorders. 3 Credit Hours.
Assessment and treatment of the human voice. Course promotes an understanding of the terminology, clinical assessment, and therapy protocols used in treating the dysfunctional or damaged voice. Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring.

MVP 738. Advanced Vocal Pedagogy. 3 Credit Hours.
Course addresses advanced methods and concepts in the teaching of singing. Emphasis is placed on psychological, physiological, and acoustical principles involved in voice production; historical perspectives; and comparative pedagogical publications. Includes practical application, observation and teaching individual and class voice in a supervised environment.
Requisite: Frost School of Music.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

MVP 739. Vocal Pedagogy Internship. 1 Credit Hour.
Observation in the field of choice, including, but not limited to studio work, medical setting or speech pathology setting.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 747. Men's Chorale. 1 Credit Hour.
This ensemble is open to the entire university community. Students will work on all aspects of choral singing, including skills in basic musicianship. This ensemble presents two or three concerts per semester.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 748. Women's Chorale. 1 Credit Hour.
This ensemble is open to the entire university community. Students will work on all aspects of choral singing, including skills in basic musicianship. This ensemble presents two or three concerts per semester.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 750. Lyric Diction for Singers - English and Italian. 1 Credit Hour.
Class designed for voice majors and principals, with a focus on the development of pronunciation skills for teaching and singing in English. International Phonetic Alphabet is presented as a learning tool.
Requisite: Frost School of Music.
Components: THI.
Grading: GRD.
Typically Offered: Fall.

MVP 752. Lyric Diction for Singing - German and French. 1 Credit Hour.
Class designed for voice majors and principals, with a focus on the development of pronunciation skills for teaching and singing in German. International Phonetic Alphabet is used as a learning tool.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MVP 753. Advanced Lyric Diction. 1 Credit Hour.
Advanced course for voice majors and principals. Emphasis is placed on analysis and interpretation of vocal lines in English, Italian, French, Spanish, and German.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MVP 760. Symphony Orchestra. 1 Credit Hour.
Study and performance of choral literature appropriate for large choir, including choral orchestral masterworks.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 772. Choral Conducting: Major Work Emphasis. 1 Credit Hour.
Course focus is placed on major choral-orchestral works with particular emphasis on two or three major works. In addition, conductors prepare for choral-orchestral works, including instrument transportation, score preparation, musical line, historical context, and score marking. Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 773. Choral Conducting Workshop: Smaller Choral Works. 1 Credit Hour.
Study of smaller choral works by Poulenc, Hindemith, Ravel, Debussy, Brahms, Mendelssohn, Schubert, Schumann, etc., with emphasis on style, interpretation, and gesture.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 780. Symphonic Choir. 1 Credit Hour.
Study and performance of choral literature appropriate for large choir, including choral orchestral masterworks.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 784. Chamber Singers. 1 Credit Hour.
An ensemble of eighteen to twenty undergraduate and graduate students. The ensemble performs challenging chamber choir repertoire from the Renaissance through the Twentieth Century.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 785. UM Chorale. 1 Credit Hour.
This ensemble performs significant choral literature with an emphasis on music of the Twentieth-Century and on choral/orchestral works including opera. Open to all qualified graduate students, regardless of major.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 788. Opera Theater. 1 Credit Hour.
Taken by Graduate Students in Vocal Performance. The preparation and public performance of staged operatic scenes and operas with supplemental classes in acting skills, stage movement and characterization.
Requisite: Frost School of Music.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP 793. Special Projects in Vocal Performance or Choral Conducting. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member's area of expertise and student's area of interest. This course includes a culminating project.
Requisite: Frost School of Music.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MVP 794. Special Topics in Vocal Performance or Choral Conducting. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's expertise and students' areas of interest.
Requisite: Frost School of Music.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MVP 8. Voice Forum. 0 Credit Hours.
A weekly informal recital setting and performance class for voice principals and majors with guest artists, master classes, and faculty presentations. Require for all two, three, and four credit applied voice students.
Requisite: Frost School of Music.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MVP 805. Masters Project. 1 Credit Hour.
Masters Project for the Masters Degree in Vocal Performance. Students will develop a portfolio for professional use.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

MVP 811. Master's Recital Paper. 1-3 Credit Hours.
The student working on his/her recital paper enrolls for credit as determined by his/her advisor. Credit is not awarded until the paper has been accepted.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MVP 812. Master's Recital. 1 Credit Hour.
The student enrolls for recital credit during the semester in which he/she presents the master's recital.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

MVP 813. Masters Second Recital. 1 Credit Hour.
Optional second recital in the Masters Degree in Vocal Performance. Taken with advisor approval.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

MVP 814. Artist Diploma Recital. 1 Credit Hour.
The student enrolls for recital credit during the semester in which he/she presents the Artist Diploma Recital.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

MVP 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the master's degree after the student has completed the required hours of thesis or project credit.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MVP 831. Doctoral Essay. 1-12 Credit Hours.
Required of all candidates for the D.M.A. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of MVP 731 may be taken in a regular semester, nor more than six in a summer session.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MVP 832. Doctoral Recital. 1-2 Credit Hours.
Required of all candidates for the D.M.A.
Requisite: Frost School of Music.
Components: PRA.
Grading: SUS.
Typically Offered: Fall & Spring.

MVP 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the DMA after the student has completed the required hours of doctoral essay credit.
Requisite: Frost School of Music.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MVP CD6. Conducting. 1-2 Credit Hours.
Applied lesson in conducting for masters students majoring in choral conducting.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP CD7. Conducting. 1-2 Credit Hours.
Applied lesson in conducting for doctoral students majoring in choral conducting.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP VO1. Voice. 2 Credit Hours.
1-hour lesson and 50 minute studio class for voice students. Technical Requirements: Demonstrate a beginning concept of breath management, legato connection for moderate length phrases, clear articulation and projection of vowels and consonants in English, emotional connection to and communication of text, release of vibrato in sustained singing, and jury repertoire, language, and performance requirements (See Guidelines for Voice Study).
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MVP VO3. Voice. 2 Credit Hours.
1-hour lesson and 50 minute studio class for voice students. Technical Requirements: Demonstrate evidence of upper range extension with fully supported sound and appropriate modification of resonators, ability to self-prepare a song, knowledge of musical styles and historical periods of music, effective communication of song literature, an established warm-up regiment and technical exercises as prescribed by the voice teacher, and jury repertoire, language, and performance requirements (See Guidelines for Voice Study).
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP VO5. Voice. 1-4 Credit Hours.
Private studio lessons for providing progress towards establishing an efficient and balanced concept of posture, breath management, phonation, resonance with clarity of articulation in required languages, the ability to sustain a professional sound and perform with established skills for vocal, physical and emotional communication in voice juries and performances of concert and opera, and the skills for a professional career as a classical singer.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP VO6. Voice. 1-2 Credit Hours.
Private lessons for providing progress towards establishing an efficient and balanced concept of posture, breath management, phonation, resonance with clarity of articulation in required languages, the ability to sustain a professional sound in the upper register and perform with established skills for vocal, physical and emotional communication in voice juries and performance of concert and opera, and the potential for a professional career as a classical singer.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP VO7. Voice. 1-2 Credit Hours.
Private lessons for providing progress towards establishing an efficient and balanced concept of posture, breath management, phonation, resonance with clarity of articulation and workable knowledge of required languages, the ability to sustain a professional sound in the upper register and perform with advanced skills for vocal, physical and emotional communication in voice juries and performances of concert and opera, and the potential for a professional career as a classical singer and/or teacher of music.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP VOC. Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate consistent breath support, firmly established legato line, evidence of musical phrasing, consistent vibrato, ability to execute technical exercises evenly throughout the range, and jury repertoire, language, and performing (See Guidelines for Voice Study).
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP VOD. Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate consistent breath support, firmly established legato line, evidence of musical phrasing, consistent vibrato, ability to execute technical exercises evenly throughout the range, and jury repertoire, language, and performing (See Guidelines for Voice Study).
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MVP VOC. Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits. 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate consistent breath support, firmly established legato line, evidence of musical phrasing, consistent vibrato, ability to execute technical exercises evenly throughout the range, and jury repertoire, language, and performing (See Guidelines for Voice Study).
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
Music, Media and Industry (MMI)

MMI 102. Record Company Practicum. 1 Credit Hour.
The course focuses on practical techniques and procedures employed by record companies.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 107. Skills Lab I. 1 Credit Hour.
A Contemporary Performance musical skills ensemble focusing on ear training, transcription, notation, and interactive musicianship for songwriters.
Co-Requisite: MMI 140 must pass with a 2.0.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MMI 108. Skills Lab II. 1 Credit Hour.
A Contemporary Performance musical skills ensemble focusing on ear training, transcription, notation, and interactive musicianship for songwriters.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MMI 13. Music Engineering Forum. 0 Credit Hours.
A weekly forum for all Music Engineering Technology and Audio Engineering majors, both undergraduate and graduate. Presentations include faculty lectures, guest lectures by industry professionals, as well as dissemination of information pertaining to audio studios and laboratories.
Requisite: Plan of Music Engineering.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MMI 139. Small Contemporary Ensemble. 1 Credit Hour.
A performing ensemble of student-generated contemporary musical repertoire.
Components: ENS.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 14. Music Industry Forum. 0 Credit Hours.
A weekly forum for all Music Industry majors, both graduate and undergraduate, for the purpose of updating current teaching material with the latest developments, presentations of guest speakers from the industry, lectures, and reports from faculty on current employment opportunities.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MMI 140. Experiential Musicianship I. 3 Credit Hours.
The first of a two-course sequence in music theory, with an overall focus on musicianship for the Contemporary Music student. The course emphasizes theoretical and analytical skills, as well as the connection between analysis and other musical experiences in listening and performance. The student will display a written understanding of the basic building blocks of music, through its more advanced constructions and functions.
Corequisite: MMI 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 141. Experiential Musicianship II. 3 Credit Hours.
MMI 141 is the second in a two-course sequence in music theory and musicianship for the Contemporary Music Student. As with MMI 140, the course emphasizes analytical skills and the connections between analysis and other musical experiences in listening and performance. Pre-requisite: MMI 140 And Co-requisite: MMI 108 must pass with 2.0.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 15. Made Forum. 0 Credit Hours.
The course provides a weekly forum for sharing information about issues, current developments, and other matters related to the contemporary music industry as a field of study and as a profession. The course is required for all undergraduate MADE majors during each semester.
Requisite: Must have a Plan of MADE.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.
MMI 151. Desktop Audio Production. 3 Credit Hours. 
Introduction to MIDI technology and computer based tools for music production.
Prerequisite: Plan of MUE or MEC.
Components: LEC.
Grading: LEC.
Typically Offered: Fall.

MMI 160. Ensemble Recording Workshop I. 3 Credit Hours.
Assisting recording and sound reinforcement engineers in the assigned performance ensemble in both rehearsal and performance. Students also perform in a studio ensemble where they act as both recording engineer and musician.
Requisite: Plan of MUE or MEC.
Components: LAB.
Grading: LAB.
Typically Offered: Fall & Spring.

MMI 161. Ensemble Recording Workshop II. 3 Credit Hours.
Students are responsible for the audio needs of an assigned ensemble in both rehearsal and performance. Lectures address audio equipment and practices. Students also perform in a studio ensemble where they act as the recording engineer and musician. Open to MUE majors only.
Prerequisite: MMI 160. Requisite: Plan of MUE or MEC.
Components: LEC.
Grading: LEC.
Typically Offered: Fall & Spring.

MMI 17. Media Writing and Production Forum. 0 Credit Hours.
This course provides a weekly forum for sharing information about issues, current developments, and other matters related to commercial music composition and production as a field of study and as a profession. The course is required for all undergraduate MWP majors during each semester.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.

MMI 171. Music Engineering Laboratory. 1 Credit Hour.
Requisite: MBEI Or MBEC Majors Or MBEI Minors only.
Components: LAB.
Grading: LAB.
Typically Offered: Fall.

MMI 172. Audio Design Workshop III. 1 Credit Hour.
Digital audio system design and architecture including analog-digital conversion, digital I/O hardware specifications, audio effects processors and digital audio recorder alignment techniques. Students design and troubleshoot audio projects including A/D converters, S/PDIF I/O, and DAT recorders. Open to MUE and EAN Majors only.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 173. Introduction to the Music Business. 3 Credit Hours.
This course provides students with an overview of the music business and related entrepreneurial fundamentals. Music business topics explored include copyright, publishing, the record business, licensing, the live music industry, and arts administration. Entrepreneurial topics explored include starting a business, accounting and marketing basics, and securing funding.
Requisite: MBEI Or MBEC Majors Or MBEI Minors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 178. Entertainment Industry Survey. 3 Credit Hours.
An overview of the entertainment industry. Concentration on the legal, marketing and financial aspects of different areas of the industry including film, television, music, broadcasting, cable, publishing, video games, sports, performing arts, and theme parks.
Requisite: MBEI Or MBEC Majors Or MBEI Minors only.
Components: LEC.
Grading: LEC.
Typically Offered: Spring.

MMI 201. Introduction to Music Recording. 3 Credit Hours.
An overview study of the theory and practice of music recording, with emphasis on modern recording studio practices. Topics include physics of sound, psychoacoustics, studio design, microphones, loudspeakers, consoles, signal processing, digital audio, MIDI, and synchronization.
Requisite: Must have a plan of MUE or MEC or EAN.
Components: LEC.
Grading: LEC.
Typically Offered: Fall.

MMI 207. Skills Lab II: American Song Traditions. 1 Credit Hour.
A learning ensemble focusing on the various Anglo-American song traditions from English and Irish folk ballads, through Hymnodies, Old-Time, Bluegrass, Western Swing and Newgrass.
Components: LAB.
Grading: LAB.
Typically Offered: Fall.

MMI 208. Skills Lab IV: American Song Traditions. 1 Credit Hour.
A learning ensemble focusing on the various African-American song traditions from early plantation songs, shouts, hollers, and spirituals, to the development of blues traditions, to gospel.
Components: LAB.
Grading: LAB.
Typically Offered: Spring.

MMI 240. Experiential Musicianship III. 3 Credit Hours.
The study of melodic, harmonic and rhythmic language in jazz and contemporary music using analysis and aural dictation. MMI 207 Skills Lab III, keyboard lab accompanies this course.
Corequisite: MMI 207 SKILLS LAB III.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 241. Experiential Musicianship IV. 3 Credit Hours.
The continuation of MSJ 140/MMI 240 focused on the study of the diminished chord, extensions, modes and upper structure triads. A keyboard lab accompanies this course.
Corequisite: MMI 207 SKILLS LAB IV.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MMI 250. Essential Technologies for Musicians. 3 Credit Hours.
Basic MIDI and digital audio principles from set-up to final mix, recording of live instruments using basic microphone techniques, MIDI sequencing, software synthesizers, basic editing, and audio looping.
Requisite: Frost School of Music.
Components: DIL.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 259. Digital Audio and MIDI Production. 3 Credit Hours.
Weekly lab focused on Pro Tools proficiency and the intricacies of audio technology relating to a modern producer/film composer. Topics include Digital Audio definitions and uses, Pro Tools understanding, shortcuts, and proficiency, and MIDI.
Requisite: MADE_BM or MWPDM_BM majors only.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 260. Virtual Orchestration. 3 Credit Hours.
Weekly lab focused on the creation of sample-based orchestral mock-ups. Particular emphasis is placed on technical considerations as they apply to MIDI programming, sample selection, and mixing.
Requisite: MADE_BM or MWPDM_BM majors only.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MMI 261. Media Writing I: Music for Media. 3 Credit Hours.
Project-based lecture course designed to provide students the opportunity to compose and realize a varied array of music projects for media applications including music branding 'logos' radio/television IDs, and 30-second television ads. Particular emphasis is placed on technical considerations, aesthetic issues and the psychology of music as they relate to advertising on radio and television.
Prerequisite: MMI 281 (or MTC 204).
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 262. Media Writing II: Video Game Scoring. 3 Credit Hours.
Project based seminar/workshop designed to provide students the opportunity to gain the skills, knowledge and experience necessary to produce a variety of musical works for use in video games. Students will also be instructed in the concepts and subtleties of using a DAW (Digital Audio Workstation) specifically designed for video games.
Prerequisite: MMI 282 (or MTC 204).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 267. Artist Development and the Live Entertainment Industry. 3 Credit Hours.
Views of the live entertainment industry from the perspective of the performing artist, artist manager, talent agent, attorney, and concert promoter. Consideration is given to the interpersonal, business, and contractual relationships and their impact on the performing artist's career. Strategies for career development are addressed and the ground rules of publicity, public relations, and promotion explored and applied in practical situations through special individual and team projects.
Prerequisites: MMI 173 or MMI 178 or MMI 310. Requisite: MBEI and MBEC majors and MBEI minors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 274. Introduction to Music Copyright Law. 3 Credit Hours.
This course provides a study of the current U.S. copyright law as it applies to musical compositions and sound recordings. This course includes analysis of the modern practices of music licensing for both digital and physical uses as well as copyright acquisition. Students will study the various rights of the copyright owner, what can be protected by copyright, and the duration of copyright. They will learn the formalities of music copyright including registration and notice. Current music copyright infringement cases are reviewed along with defenses to infringement and remedies for infringement. The course also covers international copyright protection and music copyright as it applies to digital technologies and distribution.
Requisite: MBEI Or MBEC Majors Or MBEI Minors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 280. Syntheseitation. 3 Credit Hours.
Weekly lab focused on Sound Design/synthesis as it applies to the modern producer. Topics include different synthesis techniques, different waves, modulation controls, signal flow as it applies to modular synthesis, hardware synth vs 'softsynths,' and FX processing common to synth instruments.
Requisite: MADE_BM or MWPDM_BM majors only.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MMI 281. Production I: Recording and Production Techniques. 3 Credit Hours.
Project based seminar/workshop designed to provide students the opportunity to gain the skills and knowledge to properly record acoustic audio into a DAW (Digital Audio Workstation). Particular emphasis will be placed on the proper use and implementation of microphones, microphone cables, direct boxes, microphone pre-amplifiers and consoles. In addition, students will be versed in the basics of acoustics, signal flow and basic mixing techniques within a DAW.
Pre or Corequisite: MTC 141.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 282. Production II: Audio Processing and Critical Listening. 3 Credit Hours.
Project-based practicum course designed to provide students the opportunity to explore, discover and articulate the elements needed to successfully model and emulate music of any genre by examining popular music of selected decades. Particular emphasis is placed on critical listening, the understanding of signal flow and processing, and the skills required to properly apply each of these concepts in order to enhance the commercial viability of their final projects.
Prerequisite: MMI 281 (or MTC 203).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 307. Skills Lab V: American Pop. 1 Credit Hour.
A learning ensemble focusing on American Popular Music from the late-1950s to the late-1970s. Students will develop a portfolio of original songs in modern American styles.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.
MMI 308. Skills Lab VI: American Pop. 1 Credit Hour.
A learning ensemble focusing on American Popular Music from the 1980s to the present. Students will develop a portfolio of original songs in modern American styles.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

MMI 310. Music Business and Entrepreneurship for Musicians. 3 Credit Hours.
This course provides students with an overview of the music business and related entrepreneurial fundamentals. Music business topics explored include copyright, publishing, the record business, licensing, the live music industry, and arts administration. Entrepreneurial topics explored include starting a business, accounting and marketing basics, and securing funding.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 315. Contemporary Songwriting I. 3 Credit Hours.
Explores modern songwriting techniques, song lyric theory, song form, melodic development, pop harmony and rhythm & grooves. Students will analyze a variety of recordings by top modern songwriters. Students will compose and record a number of original songs for the course.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 320. Contemporary Lyric Writing. 3 Credit Hours.
This course explores modern lyric writing techniques, song lyric theory, and song form. Students will analyze a variety of lyrics by top modern songwriters, focusing on their use of literary devices, imagery and metaphors. Students will compose a number of original lyrics for the course.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 361. Acoustics. 3 Credit Hours.
A study of the theoretical principles of acoustics. Principle topics include basic properties, acoustical phenomena, superposition, Fourier Theorem, symmetry, vibrating strings and columns, and musical instruments; a study of architectural acoustics such as growth and decay, absorption coefficients, normal modes, diffusion, isolation, and mass law; design applications such as structural techniques and materials, live end-dead end, room geometry, tuning, TDS and other measurement techniques.
Prerequisites: MTH 112, PHY 102 or PHY 205. Requisite: Plan of MUE and MEC.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 363. Media Writing III: Film Scoring Foundations. 3 Credit Hours.
Seminar in the aesthetics and psychology of mood music, sound-film synchronization, timing techniques, and scoring procedures. Analysis and performance of student projects is included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 364. Media Writing IV: Film Scoring Extensions. 3 Credit Hours.
Adaptation of previous semester's techniques to television scripts and performed music. Pre-recording, direct recording, and dubbing procedures are included as well as preparation and performance of complete film cues. Each student is required to conduct his/her project.
Prerequisite: MMI 363 (or MTC 511).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 378. Music Business Agreements. 3 Credit Hours.
This course explores the legal agreements between different parties in the music business, such as record companies, recording artists, music producers, and licensees. Emphasis is placed on the different ways of contractually addressing intellectual property ownership and usage, compensation, and exclusive services.
Prerequisite: MMI 173 or MMI 178 or MMI 310 and MMI 274. Requisite: MBEI and MBEC Majors and MBEI Minors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 383. Production III: Audio Editing. 3 Credit Hours.
Project-based practicum course designed to provide students the opportunity to compose, record and reproduce a wide variety of musical projects that combine the use of pre-existing as well as new musical elements. Particular emphasis is placed on technical considerations, aesthetic issues, and the commercial viability of the end product.
Prerequisite: MMI 262 (or MTC 304).
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 384. Production IV: Mixing and Mastering. 3 Credit Hours.
Weekly lab focused on mixing and mastering music for commercial release. Topics include psychoacoustics, a variety of audio effects and their uses in a mix, how rooms and equipment affect your ability to listen critically, and loudness requirements for commercial releases. Students will be mixing 1 song a week, with increased level of difficulty as new subjects are introduced.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MMI 401. Audio Electronics. 3 Credit Hours.
An introductory course in audio electronics theory and professional audio applications such as recording studio equipment and audio effects design. Coursework includes basic electronic components and theories, passive filtering, transformers, operational amplifiers, vacuum tubes, non-linear elements including diodes and JFETs, graphic, parametric and shelving equalizers, compressors, limiters, gates, microphone preamps, analog effects including reverb, flanging, and chorusing. Students will design custom audio circuits and use computer simulations to understand theory of operation.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MMI 410. Music Engineering Capstone Project. 3 Credit Hours.
Students in MMI 410 propose and execute a project that represents the Culmination of their learning experiences in the Music Engineering Program. Students meet as a group with a faculty member of record each week to Discuss project topics and assess progress. The course concludes with a public Presentation of the final project.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 436. Audio Postproduction. 3 Credit Hours.
Basic audio for video and film postproduction, including the study of time code, synchronization, electronic editing, video and film transports, dolby stereo, equipment interfacing, and future developments.
Prerequisite: MMI 201 and Requisite: MUE and EAN Majors.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 445. Senior Project/Portfolio. 1 Credit Hour.
This course is the capstone of the Creative American Music Program. Students will develop a portfolio of recordings of original songs. Students will also be required a public performance of their original songs.
Requisite: must have a major Plan of MBEI with Creative American Music & Business or a minor Plan of Creative American Music.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 454. Entertainment Industry Practicum. 1 Credit Hour.
Practical experience in an entertainment industry organization.
Requisite: Frost School of Music.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 455. Music Business Internship. 2 Credit Hours.
Practical experience in different areas of the music business under the supervision of professional firms and the university.
Requisite: MBEI or MBEC or MADE Majors.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 456. Internship in Entertainment Industries II. 0 Credit Hours.
Continuation of MMI 455.
Requisite: Frost School of Music.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 460. Recital Recording and Sound Reinforcement (Recording Services). 1 Credit Hour.
Practical experience in live concert recording, editing and mastering, and sound reinforcement, under supervision of professional on-campus engineers.
Requisite: Frost School of Music.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 465. Internship in Music Engineering. 1-3 Credit Hours.
Practical experience in the music engineering industry such as work in a recording studio, broadcast company, hardware or software manufacturer, under professional supervision.
Requisite: Plan of MUE or MEC.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 493. Special Projects in Music Media and Industry. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area expertise and student’s area of interest. This course includes a culminating project.
Requisite: Frost School of Music.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 501. Transducer Theory. 3 Credit Hours.
Course covers the fundamentals of electromagnetism and audio transducer theory including loudspeaker and microphone systems. Classical electro-acoustical analysis of transducers including acoustic suspension, bass-reflex, transmission line, electrostatic and horn loudspeakers, dynamic, ribbon and condenser pressure, and pressure-gradient microphones. Students use computer-aided design programs and Thiele-Small parameterization to model loudspeakers and measure loudspeaker responses. Open to MUE and EAN Majors only.
Requisite: MMI 501. Requisite: Plan of MUE and EAN.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 502. Audio Signal Processing I. 3 Credit Hours.
A study of the theory and practice of digital audio topics including discrete time sampling, quantization, dithering, PCM, A/D and D/A conversion, digital filtering, oversampling, modulation codes, timebase, error correction codes, magnetic storage, DAT, and optical storage.
Requisite: MUE and EAN majors only.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

MMI 503. Audio Signal Processing II. 3 Credit Hours.
A study of the theory and practice of digital audio topics including fiber optics and networks, compact disc, interconnection, psychoacoustics, low bit-rate perceptual coding, MPEG, digital audio broadcasting, sigma-delta conversion, noise shaping, digital video, and emerging technologies. Open to MUE and EAN Majors only.
Requisite: MMI 502. Requisite: Plan of MUE and EAN.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MMI 504. Audio Signal Processing III. 3 Credit Hours.
Theory, design, and development of computer audio synthesizers and analyzers. Students implement software synthesizers including analog and physical modeling, wave-table, wave-shaping, and FM designs. Classical and modern theories of timbre and time-frequency analysis are included.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 505. Current Trends in Music Engineering I. 3 Credit Hours.
Theory, design and development of audio signal processing techniques. Topics include DSP architectures, systems design, algorithm development, and applications. DSP development tools used to write, debug, and test programs including time-domain based effects such as reverb, chorus, flanging, and digital delay as well as frequency-domain projects such as FIR, IIR, and FFT filters and vocoders.
Prerequisite: MMI 504. Requisite: Plan of MAU and EAN.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 506. Current Trends in Music Engineering II. 3 Credit Hours.
MMI 506 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 508. Current Trends in Music Engineering III. 3 Credit Hours.
MMI 508 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 510. Computational Psychoacoustics. 3 Credit Hours.
This course deals with the fundamentals of audition in human biological systems, including auditory sensory transduction, cochlear processes, neural pathways, cortical organization, and auditory illusions, with specific applications to perceptual data reduction techniques and auditory displays.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 511. Current Trends in Music Engineering IV. 3 Credit Hours.
MMI 511 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.
Prerequisite: ECE 118.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 520. Audio Technology for Musicians. 0-3 Credit Hours.
Introduction and overview of audio technology with emphasis on music recording, production equipment, and techniques. Topics include microphones, loudspeakers, mixing consoles, interconnection, amplifiers, digital processing, time code, and surround sound. Open to non-MUE majors.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.

MMI 521. Timbral Ear Training. 3 Credit Hours.
Students in this course will accomplish four primary goals: 1) instantaneous discernment of ISO frequency regions and critical bands; 2) aural identification of audio-processing techniques, artifacts, and problems; 3) development of critical thinking skills and competence in current audio listening test methodologies; and 4) successful completion of a comprehensive bank of critical listening “golden ears” tests
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 530. Entrepreneurship for Musicians. 3 Credit Hours.
Course explores a wide range of options for musicians who want to pursue music business careers in their regional music markets. Students examine opportunities in performance, recording, composition, education, and more. Emphasis is placed on the packaging of musical skills in the marketplace and on the financial management of a small proprietary music business. As a result, the student musician will be prepared to make career decisions with foresight and planning.
Requisite: Frost School of Music.
Components: DIL.
Grading: GRD.
Typically Offered: Spring.

MMI 531. Recording Engineering Seminar. 3 Credit Hours.
Students in MMI 531 will accomplish three primary goals: 1) understanding historical trends in the audio recording industry, particularly those involving key technological advances; 2) understanding and appreciating recent advances in sound recording technologies and methods; and 3) development of critical thinking, research, writing, and presentation skills.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 532. Arts Leadership. 3 Credit Hours.
Course explores critical concepts of leadership, decision-making, and teamwork in wide-ranging arts presentation settings. Through experiential learning, students practice and acquire the knowledge and skills vital for effective navigation through the dynamic arts industry.
Requisite: MBEI or MBEC or MADE Majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
MMI 537. Recorded Music Operations. 3 Credit Hours.
This course provides a study of the activities involved in commercially exploiting recorded music. The course includes an analysis of activities involved in the production, manufacturing, distribution, and marketing of a recorded music product; as well as related royalty accounting, mechanical licensing and master-use licensing activities.
Prerequisite: MMI 173 or MMI 310 and MMI 274 and Requisite: MBEI or MBEC or MADE Majors or MBEI Minor only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 543. Music Marketing. 3 Credit Hours.
Students learn how to fulfill demand and influence consumer behavior through effective marketing techniques. The course provides the students with information on the latest technologies being employed to reach and communicate with target consumers.
Requisite: MBEI or MBEC or MADE Majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 545. Music Placement and Exploitation. 3 Credit Hours.
This course provides an in-depth study of the creative and business aspects involved with the discovery, placement and exploitation of music in the current entertainment business. Students explore the processes of how music is placed in television, film, commercials, video games, with new media and recording artists. This course covers the roles of the various players in the music placement business and studies creative approaches, negotiation techniques and licensing practices. The DIY music creator, both the songwriter and recording artist, and their music representative will learn how to prepare, package, present, place and exploit their music as well as how to build a fan base. Students will learn how to locate resources for licensable music, offer creative options, select and license appropriate music, combine music with a variety of media, negotiate with a variety of rights holders, and generate license requests, agreements, and cue sheets.
Prerequisite: MMI 173 or MMI 310 and MMI 274 and MMI 573 or Requisite: MBEI or MBEC or MADE Majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 573. Music Publishing. 3 Credit Hours.
This course provides an in-depth study of the creative and business aspects, concepts and practices of the music publishing industry. The course covers the acquisition, exploitation, administration and protection of songs in the contemporary music publishing business. Students will also study the income sources, royalty rates and payment procedures currently used in the music industry as they apply to musical compositions. Music publishing agreements currently used for the acquisition and administration of songs are reviewed in-depth. Foreign music publishing issues are explored and reviewed as related to domestic music publishing.
Prerequisite: MMI 173 or MMI 310 and MMI 274.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 580. Advanced Analysis of Current Topics in the Music Business. 3 Credit Hours.
This course provides students with in-depth study of advanced topics in the music business, including recent developments in the areas of music licensing, copyright, international markets, live music, artist development, data management, and others. Particular focus is placed on ways to meet the current challenges facing the industry.
Requisite: MBEI Or MBEC Or MADE Majors Or MBEI Minor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 593. Special Projects in Music Media and Industry. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area expertise and student’s area of interest. This course includes a culminating project.
Requisite: Frost School of Music.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 594. Special Topics in Music Media and Industry. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 601. Transducer Theory. 3 Credit Hours.
Course covers the fundamentals of electromagnetism and audio transducer theory including loudspeaker and microphone systems. Classical electro acoustical analysis of transducers including acoustic suspension, bass-reflex, transmission line, electrostatic and horn loudspeakers, dynamic, ribbon and condenser pressure, and pressure-gradient microphones. Students use computer-aided design programs and Thiele-Small parameterization to model loudspeakers and measure loudspeaker responses. Open to MUE and EAN Majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 602. Audio Signal Processing I. 3 Credit Hours.
A study of the theory and practice of digital audio topics including discrete time sampling, quantization, dithering, PCM, A/D and D/A conversion, digital filtering, oversampling, modulation codes, timebase, error correction codes, magnetic storage, DAT, and optical storage.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 603. Audio Signal Processing II. 3 Credit Hours.
A study of the theory and practice of digital audio topics including fiber optics and networks, compact disc, interconnection, psychoacoustics, low bit-rate perceptual coding, MPEG, digital audio broadcasting, sigma-delta conversion, noise shaping, digital video, and emerging technologies. Open to MUE and EAN Majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MMI 604. Audio Signal Processing III. 3 Credit Hours.
Theory, design, and development of computer audio synthesizers and analyzers. Students implement software synthesizers including analog and physical modeling, wave-table, wave-shaping, and FM designs. Classical and modern theories of timbre and time-frequency analysis are included.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 606. Current Trends in Music Engineering II. 3 Credit Hours.
MMI 506 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 608. Current Trends in Music Engineering III. 3 Credit Hours.
MMI 508 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 610. Computational Psychoacoustics. 3 Credit Hours.
This course deals with the fundamentals of audition in human biological systems, including auditory sensory transduction, cochlear processes, neural pathways, cortical organization, and auditory illusions, with specific applications to perceptual data reduction techniques and auditory displays.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 611. Current Trends in Music Engineering IV. 3 Credit Hours.
MMI 511 addresses current technologies, skills, and techniques employed in a specific aspect of the audio technology and/or music technology fields.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 620. Audio Technology for Musicians. 2-3 Credit Hours.
Introduction and overview of audio technology with emphasis on music recording, production equipment, and techniques. Topics include microphones, loudspeakers, mixing consoles, interconnection, amplifiers, digital processing, time code, and surround sound. Open to non-MUE majors.
Components: LEC.
Grading: GRD.

MMI 621. Timbral Ear Training. 3 Credit Hours.
Students in this course will accomplish four primary goals: 1) instantaneous discernment of ISO frequency regions and critical bands; 2) aural identification of audio-processing techniques, artifacts, and problems; 3) development of critical thinking skills and competence in current audio listening test methodologies; and 4) successful completion of a comprehensive bank of critical listening "golden ears" tests.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 630. Entrepreneurship for Musicians. 3 Credit Hours.
Course explores a wide range of options for musicians who want to pursue music business careers in their regional music markets. Students examine opportunities in performance, recording, composition, education, and more. Emphasis is placed on the packaging of musical skills in the marketplace and on the financial management of a small proprietary music business. As a result, the student musician will be prepared to make career decisions with foresight and planning.
Requisites: Graduate Music Students Only.
Components: DIL.
Grading: GRD.
Typically Offered: Spring.

MMI 631. Recording Engineering Seminar. 3 Credit Hours.
Students in MMI 531 will accomplish three primary goals: 1) understanding historical trends in the audio recording industry, particularly those involving key technological advances; 2) understanding and appreciating recent advances in sound recording technologies and methods; and 3) development of critical thinking, research, writing, and presentation skills.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MMI 632. Arts Leadership. 3 Credit Hours.
Course explores critical concepts of leadership, decision-making, and teamwork in wide-ranging arts presentation setting. Through experiential learning, students practice and acquire the knowledge and skills vital for effective navigation through the dynamic arts industry.
Requisite: MBEI Or MPRS Or JDMM Or JDMA.
Components: DIL.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 637. Recorded Music Operations. 3 Credit Hours.
This course provides a study of the activities involved in commercially exploiting recorded music. The course includes an analysis of activities involved in the production, manufacturing, distribution, and marketing of a recorded music product; as well as related royalty accounting, mechanical licensing and master-use licensing activities.
Components: DIL.
Grading: GRD.

MMI 641. Tour Management and Production. 3 Credit Hours.
Students will become familiar with the responsibilities of a tour planner. Individual tour planning projects are assigned which will give the students insight into the management and production of a tour.
Requisite: Frost School of Music.
Components: DIL.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 643. Marketing in the Arts and Entertainment. 3 Credit Hours.
Students learn how to fulfill demand and influence consumer behavior through effective marketing techniques. The course provides the students with information on the latest technologies being employed to reach and communicate with target consumers.
Components: DIL.
Grading: GRD.
Typically Offered: Fall & Spring.
MMI 645. Music Placement and Exploitation. 3 Credit Hours.
This course provides an in-depth study of the creative and business aspects involved with the discovery, placement and exploitation of music in the current entertainment business. Students explore the processes of how music is placed in television, film, commercials, video games, with new media and recording artists. This course covers the roles of the various players in the music placement business and studies creative approaches, negotiation techniques and licensing practices. The DIY music creator, both the songwriter and recording artist, and their music representative will learn how to prepare, package, present, place and exploit their music as well as how to build a fan base. Students will learn how to locate resources for licensable music, offer creative options, select and license appropriate music, combine music with a variety of media, negotiate with a variety of rights holders, and generate license requests, agreements, and cue sheets.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 673. Music Publishing. 3 Credit Hours.
This course provides an in-depth study of the creative and business aspects, concepts and practices of the music publishing industry. The course covers the acquisition, exploitation, administration and protection of songs in the contemporary music publishing business. Students will also study the income sources, royalty rates and payment procedures currently used in the music industry as they apply to musical compositions. Music publishing agreements currently used for the acquisition and administration of songs are reviewed in-depth. Foreign music publishing issues are explored as related to domestic music publishing. Students will also learn how to create and operate their own music publishing companies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 693. Special Projects in Music Media and Industry. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: DIS.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 694. Special Topics in Music Media and Industry. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 705. Current Trends in Music Engineering I. 3 Credit Hours.
Theory, design and development of audio signal processing techniques. Topics include DSP architectures, systems design, algorithm development, and applications. DSP development tools used to write, debug, and test programs including time-domain based effects such as reverb, chorus, flanging, and digital delay as well as frequency-domain projects such as FIR, IIR, and FFT filters and vocoders.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 706. Current Topics in Audio Analysis and Signal Processing. 3 Credit Hours.
MMI 606 surveys recent topics related to audio analysis, synthesis, and signal processing with an emphasis in software programming and practical applications. Course material is drawn from several topics: current audio APIs and plug-in architectures, computational theories of musical timbre, machine listening, spatial audio, digital audio effects, new digital audio synthesis techniques, and machine-musician interaction modalities.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 715. Contemporary Songwriting I. 3 Credit Hours.
Explores modern songwriting techniques, song lyric theory, song form, melodic development, pop harmony and rhythm and grooves. Students will analyze a variety of recordings by top modern songwriters. Students will compose and record a number of original songs for the course.
Requisite: Must be in the School of Graduate Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 726. Performing Arts Center and Facility Management. 3 Credit Hours.
Students learn the many aspects of managing a live entertainment and performing arts center facility. Logistics, management, budgeting, marketing and programming within a live entertainment and performing arts facility are addressed.
Requisite: Graduate Plan of MBEI or MPR or JDM or JDML.
Components: DIL.
Grading: GRD.
Typically Offered: Spring.

MMI 735. World of the Working Musician. 3 Credit Hours.
Building a career in the twenty-first century and beyond creates challenges both exciting and daunting. The purpose of this course is to provide grounding, critical information, as well as planning and vision for shaping the key components of launching and sustaining a career in the arts.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MMI 736. Sponsorship, Development, and Financial Management in the Live Entertainment Industry. 3 Credit Hours.
Students learn how to write and present a line-item budget for an arts presentation event, arts presenting organization, and an arts facility. Specific techniques and methods that are used to reduce event risk and safety are discussed.
Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.
Components: DIL.
Grading: GRD.
Typically Offered: Fall.

MMI 738. Legal Aspects of the Live Entertainment Industry. 3 Credit Hours.
Students become familiar with various Artist, Client, Production, Vendor and Facility Contracts and Agreements commonly used in the industry.
Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.
Components: DIL.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 740. Arts Presenting Project. 3 Credit Hours.
Students develop and produce an Arts Presenting event. Students will be responsible for all aspects of budgeting, marketing, promotion and production of the event. This will be a semester-long project requiring the knowledge and skills learned throughout the Arts Presenting Program.
Requisite: Frost School of Music.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 750. Music Business Agreements. 3 Credit Hours.
This course explores the legal agreements between different parties in the music business, such as record companies, recording artists, music producers, and licensees. Emphasis is placed on the different ways of contractually addressing intellectual property ownership and usage, compensation, and exclusive services.
Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 751. Recording Studio Workshop. 1 Credit Hour.
Introduction to the multi track recording studio environment. Hands-on lectures and labs including tracking, overdub and mixdown session management, techniques, and philosophies are included. Topics also include audio routing, equalization, effects, and microphone technique.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 752. Music Licensing. 3 Credit Hours.
This course provides an in-depth exploration of an extensive variety of music licenses and international licensing concepts. Students acquire practical experience utilizing licensing parameters. Students will also be able to identify, explain, and apply music licensing terms and procedures. The licensing of music in print, sound recordings, the Internet, commercial productions, electrical transcriptions, synchronization for theatrical films and television programs, public performances and theatrical music productions are among the areas covered in this course. Students will also be able to identify and explain the various revenue streams and collection procedures of the international music business.
Requisite: Frost School of Music.
Components: DIL.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI 753. Transducer Workshop. 1 Credit Hour.
Fundamentals of electromagnetism and audio transducer theory including loudspeaker and microphone systems. Classical electro-acoustical analysis of transducers including acoustic suspensions, bass-reflex, transmission line, electrostatic and horn loudspeakers, dynamic, ribbon and condenser pressure, and pressure-gradient microphones. Students use computer-aided design programs and Thiele-Small parameterization to model loudspeakers and measure loudspeaker responses.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MMI 759. Digital Audio and MIDI Production. 3 Credit Hours.
Weekly lab focused on Pro Tools proficiency and the intricacies of audio technology relating to a modern producer/film composer. Topics include Digital Audio definitions and uses, Pro Tools understanding, shortcuts and proficiency, and MIDI.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MMI 760. Virtual Orchestration. 3 Credit Hours.
This project-based seminar/lab is designed to expose students to the Fundamentals of electromagnetism and audio transducer theory including loudspeaker and microphone systems. Classical electro-acoustical analysis of transducers including acoustic suspensions, bass-reflex, transmission line, electrostatic and horn loudspeakers, dynamic, ribbon and condenser pressure, and pressure-gradient microphones. Students use computer-aided design programs and Thiele-Small parameterization to model loudspeakers and measure loudspeaker responses.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 762. Media Writing 2: Film Scoring Extensions. 3 Credit Hours.
Adaptation of previous semester’s techniques to television scripts and performed music. Pre-recording, direct recording, and dubbing procedures are included as well as preparation and performance of complete film cues. Each student is required to conduct his/her project.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MMI 763. Media Writing 3: Video Game Scoring. 3 Credit Hours.
Project based seminar/workshop designed to provide students the opportunity to gain the skills, knowledge and experience necessary to produce a variety of musical works for use in visual media.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 770. Synthestration. 3 Credit Hours.
Weekly lab focused on Sound Design/synthesis as it applies to the modern producer. Topics include different synthesis techniques, different waves, modulation controls, signal flow as it applies to modular synths, hardware synths vs “softsynths,” and FX processing common to synth instruments.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MMI 771. Production 1: Recording and Production Techniques. 3 Credit Hours.
Recording studio production procedures. Topics include artist and material selection, session planning, and analysis of the producer’s role.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MMI 772. Production 2: Audio FX Processing and Multitrack Mixing. 3 Credit Hours.
Project-based course designed to provide students with a clear understanding of most Audio effects used in Mixing and Music Production. Students are expected to complete one multitrack mix a week, and present to the class their work for critique and review. Additional emphasis is placed on psychoacoustics, room acoustics, and loudness.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

MMI 773. Production 3: Advanced Production Seminar. 3 Credit Hours.
Project-based course designed to provide the opportunity to record, produce, mix, and commercially release an EP. Students are expected to use their music production skills to produce a studio-quality commercial recording of a fellow student, including recording, sound design, and mixing. Additional emphasis will be placed on budget management, studio and musician booking, mastering in preparation for release, and extras including meta-data and artwork.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

MMI 774. Music Copyright Law. 3 Credit Hours.
This course provides an in-depth study of the essential provisions of the U.S. copyright law as they are related to music.
Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.
Components: DIL.
Grading: GRD.
Typically Offered: Fall.

MMI 780. Advanced Analysis of Current Topics in the Music Business. 3 Credit Hours.
This course provides students with in-depth study of advanced topics in the music business, including recent developments in the areas of music licensing, copyright, international markets, live music, artist development, data management, and others. Particular focus is placed on ways to meet the current challenges facing the industry.
Requisite: Graduate Plan of MBEI or MPR or JDMM or JDML.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MMI 793. Special Projects in Music Media and Industry. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 794. Special Topics in Music Media and Industry. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MMI 802. Music Business Internship. 3 Credit Hours.
Practical experience in different areas of the music business under the supervision of professional firms and the university.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MMI 804. Internship in Arts Presenting. 3 Credit Hours.
Practical experience in different areas of arts presenting under the supervision of professional firms and the university.
Components: PRA.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MMI 805. Master’s Media Writing and Production Project. 1-3 Credit Hours.
This project will require supervised completion of a proposal, business plan, project completion and presentation, reflective journal, and media writing and production electronic press kit.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MMI 813. Master’s Research Project. 1-3 Credit Hours.
The student working on his/her master’s research project enrolls for credit as determined by his/her advisor. Credit is not awarded until the project paper is accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MMI 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the master’s degree after the student has completed the required hours of thesis or project credit.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.
MMI CB1. Contemporary Bass. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits; 1/2 hour lesson for students enrolled for 1 credit. Technical Requirements: Basic grooves and bassline construction. Analysis of different styles of rock, pop, rhythm & blues, and funk music. Introduction to acoustic, six-string electric, and fretless electric basses. Knowledge of beginning functional harmony and sight-reading skills will also be addressed. 
Prerequisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CB3. Contemporary Bass. 1-2 Credit Hours.
One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Analysis of classic rhythm sections recorded throughout the last 50 years, including concentration on important and influential drummers in different styles of rock, pop, R&B, funk, latin, and jazz idioms. Live performance skills and studio techniques. Studies in jazz and modal harmony. Introduction to improvisation.
Prerequisite: MMI CBD.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CB2. Contemporary Bass. 1-2 Credit Hours.
One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Basic grooves and bassline construction. Analysis of different styles of rock, pop, rhythm & blues, and funk music. Introduction to acoustic, six-string electric and fretless electric basses. Knowledge of beginning functional harmony and sight-reading skills will also be addressed.
Prerequisite: MMI CBA.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CBG. Contemporary Bass. 1-2 Credit Hours.
One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Advanced jazz harmony and improvisation. World music and odd meter studies, including non-traditional styles and grooves. Advanced concepts of recording and performance, including starting and working within the context of an original band project. Elements of professionalism in the music business.
Prerequisite: MMI CBF.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CBF. Contemporary Bass. 1-2 Credit Hours.
One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Analysis of classic rhythm sections recorded throughout the last 50 years, including concentration on important and influential drummers in different styles of rock, pop, R&B, funk, latin, and jazz idioms. Live performance skills and studio techniques. Studies in jazz and modal harmony. Introduction to improvisation.
Prerequisite: MMI CBE.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CBB. Contemporary Bass. 1-2 Credit Hours.
One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Basic grooves and bassline construction. Analysis of different styles of rock, pop, rhythm & blues, and funk music. Introduction to acoustic, six-string electric and fretless electric basses. Knowledge of beginning functional harmony and sight-reading skills will also be addressed.
Prerequisite: MMI CBD.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CBC. Contemporary Bass. 1-2 Credit Hours.
One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Analysis of important bass platers and styles, including Carol Kaye, James Jamerson, Larry Graham, Jack Bruce and others. Studies in intermediate harmony and introduction to standard American popular repertoire. Sight-reading, chart reading, and basic rhythm section arranging.
Prerequisite: MMI CBB.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CBH. Contemporary Bass. 1-2 Credit Hours.
One hour lesson for students enrolled for 2 credits, 1/2 hour less for students enrolled for 1 credit. Technical requirements: Advanced jazz harmony and improvisation. World music and odd meter studies, including non-traditional styles and grooves. Advanced concepts of recording and performance, including starting and working within the context of an original band project. Elements of professionalism in the music business.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CD1. Contemporary Drumset. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Sticking techniques, basic hand/foot patterns. Analysis of rock, pop, rhythm and blues, Latin and jazz styles. Basic chart reading.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CD2. Contemporary Drumset. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Sticking techniques, basic hand/foot patterns. Analysis of rock, pop, rhythm and blues, Latin and jazz styles. Basic chart reading.
Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CD3. Contemporary Drumset. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Transcription/analysis of important drumset artists in major styles. Basic studio performance techniques, and relationship to singer/songwriter. Basic jazz performance elements. Basic world music rhythms.
Prerequisite: MMI CDD.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MMI CDB. Contemporary Drumset. 1-2 Credit Hours.
Prerequisite: MMI CDE.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CDC. Contemporary Drumset. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CDC.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CDD. Contemporary Drumset. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CDE.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGA. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CGA.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGB. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CGB.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGC. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CGC.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGD. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CGD.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGE. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CGE.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGF. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CGF.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGG. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CGG.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGH. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CGH.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGI. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CGI.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CJI. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CJI.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CJK. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CJK.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CJK. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CJK.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CJI. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CJI.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CJK. Contemporary Guitar. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Tools to enhance soloing and executing grooves. Technical Requirements: Advanced soloing techniques, odd groupings, displacement. Advanced studio performance techniques, and relationship to singer/songwriter. Basic world music rhythms. Preparation for students enrolled for 1 credit.
Prerequisite: MMI CJK.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MMI CGF. Contemporary Guitar. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGG. Contemporary Guitar. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CGH. Contemporary Guitar. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CK1. Contemporary Keyboard. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CK2. Contemporary Keyboard. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced Gospel harmony. Advanced accompanying. Transcription/analysis of important keyboard artists in major styles. Advanced chart reading. Prerequisite: MMI CKB.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CKD. Contemporary Keyboard. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Advanced Gospel harmony. Advanced accompanying. Transcription/analysis of important keyboard artists in major styles. Advanced chart reading. Prerequisite: MMI CKC.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CKF. Contemporary Keyboard. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CKG. Contemporary Keyboard. 1-2 Credit Hours.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MMI CKH. Contemporary Keyboard. 1-2 Credit Hours.
Prerequisite: MMI CKG.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CM3. Contemporary Media. 1-2 Credit Hours.
Prerequisite: MMI CMD.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CMB. Contemporary Media. 1-2 Credit Hours.
Prerequisite: MMI CMA.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CMC. Contemporary Media. 1-2 Credit Hours.
Prerequisite: MMI CMB.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CMD. Contemporary Media. 1-2 Credit Hours.
Prerequisite: MMI CMC.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CMF. Contemporary Media. 1-2 Credit Hours.
Prerequisite: MMI CMF.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CMG. Contemporary Media. 1-2 Credit Hours.
Prerequisite: MMI CMG.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CMH. Contemporary Media. 1-2 Credit Hours.
Prerequisite: MMI CMH.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CV1. Contemporary Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Warm-ups, Cool downs and introductory exercises for breath management. Attack in phonation, registration, resonance, articulation, coordination, microphone technique, key selection and vocal hygiene and maintenance. Beginning chart writing. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.
Prerequisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CV3. Contemporary Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate evidence of upper range extension with fully supported sound and appropriate modification of resonators, ability to self-prepare a song, advance knowledge of music styles and historical periods of contemporary music, effective communication of original songs. Advanced chart writing. Intermediate improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.
Prerequisite: MMI CV2.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CVB. Contemporary Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Basic knowledge of musical styles and historical periods of contemporary music, effective communication of songs in a variety of contemporary styles. Intermediate chart writing. Beginning improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.
Prerequisite: MMI CVA.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CVC. Contemporary Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Basic knowledge of musical styles and historical periods of contemporary music, effective communication of songs in a variety of contemporary styles. Intermediate chart writing. Beginning improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher.
Prerequisite: MMI CVB.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.
MMI CVD. Contemporary Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Basic knowledge of musical styles and historical periods of contemporary music, effective communication of songs in a variety of contemporary styles. Intermediate chart writing. Beginning improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher. Prerequisite: MMI CVG.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CVF. Contemporary Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate evidence of upper range extension with fully supported sound and appropriate modification of resonators, ability to self-prepare a song, advance knowledge of music styles and historical periods of contemporary music, effective communication of original songs. Advanced chart writing. Intermediate improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher. Prerequisite: MMI CVE.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CVG. Contemporary Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate perfect facility in required contemporary styles, ability to evaluate performances critically and coherently, facility with register changes in upper range, polished and artistic performance with accuracy in pitch, rhythm, good posture, breath management, phonation, resonance, and microphone technique. Advanced chart writing and studio vocal arranging techniques. Advanced improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher. Prerequisite: MMI CVF.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CVH. Contemporary Voice. 1-2 Credit Hours.
1-hour lesson for students enrolled for 2 credits, 1/2-hour lesson for students enrolled for 1 credit. Technical Requirements: Demonstrate perfect facility in required contemporary styles, ability to evaluate performances critically and coherently, facility with register changes in upper range, polished and artistic performance with accuracy in pitch, rhythm, good posture, breath management, phonation, resonance, and microphone technique. Advanced chart writing and studio vocal arranging techniques. Advanced improvisation and ornamentation. Repertoire of original and contemporary songs in various styles as prescribed by the voice teacher. Prerequisite: MMI CVG.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CX1. Contemporary Performance Instruction. 2 Credit Hours.
1-Hour Lesson for students enrolled for 2 credits, 1/2 hour lesson for students enrolled for 1 credit. Applied instrument/voice instruction in contemporary, popular music performance. Freshman/Sophomore level.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CX3. Contemporary Performance Instruction. 2 Credit Hours.
1-Hour Lesson for students enrolled for 2 credits, 1/2 hour lesson for students enrolled for 1 credit. Applied advanced instrument/voice instruction in contemporary, popular music performance. Junior/Senior level.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

MMI CXS. Secondary Contemporary Performance Instruction. 1-2 Credit Hours.
Secondary lessons. Additional lessons on an instrument that is not a principal instrument of the student. No juries or auditions needed. Taken in addition to the required 2 credit lessons. Does not count towards required lessons. Must be approved by private instructor. May require additional payment before final approval. Requisite: Frost School of Music.
Components: LSN.
Grading: GRD.
Typically Offered: Fall & Spring.

Musicology (MCY)

MCY 101. The World of Music. 1-3 Credit Hours.
For all new music majors, a novel introduction to music now and then, here and there; its ideas, its relations to other arts, and its role in human life.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 124. The Evolution of Jazz. 3 Credit Hours.
A study of the origin, development, and styles of jazz music and its exponents. This course is not for music majors. Music majors should enroll in MSJ 113 and MSJ 213. Requisite: Must not be in School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MCY 127. Evolution of Rock. 3 Credit Hours.
Rock music from its sources to the present. Aural recognition of rock styles and selected performing artists are included. This course is not for music majors. Music majors should enroll in MCY 311. Requisite: Must not be in School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MCY 131. Understanding Music. 3 Credit Hours.
A general introduction to the musical elements and the history of music from antiquity to the present. Primarily focuses on classical music, but also includes exposure to pop, jazz, and music traditions. This course is not for music majors. Music majors should enroll in MCY 140 and MCY 141.
Requisite: Must not be in School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MCY 140. Experiencing Music. 3 Credit Hours.
A broad introduction to musical elements, genres, periods, styles, and composers in the jazz, folk, popular, and world music traditions.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 141. Musical Traditions. 3 Credit Hours.
A broad introduction to musical elements, genres, periods, styles, and composers in the classical music tradition.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 221. Anglo-American Song Traditions. 3 Credit Hours.
A study of the origins, development, and styles of Anglo-American song traditions from English and Irish folk ballads, to shape-note and Sacred Harp hymnody, to early folk, country and bluegrass. Areas to be explored include the development of an American cultural identity and the political and socio-economic influences on the content and musical styles.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 222. African-American Song Traditions. 3 Credit Hours.
A study of the origins, development, and styles of African American song traditions from early plantation songs, shouts, hollers, and spirituals, to the development of blues traditions, to gospel. Areas to be explored include the development of an African American cultural consciousness and the political and socio-economic influences on the content and musical styles.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 311. Modern American Pop Music. 3 Credit Hours.
A study of the development and styles of American popular music during the twentieth century from Tin Pan Alley to the present. Areas to be explored include influential songwriters and performers, and stylistic development in their political and socio-economic context.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 313. Music of Latin America. 3 Credit Hours.
An introduction to the music of Latin America, with special emphasis on Mexico, Brazil, Argentina, the Andes, and the Caribbean. Covers folk, popular, and classical music traditions. Open to non-music majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MCY 324. Music in Hebrew Culture. 3 Credit Hours.
A study of the folk, traditional, liturgical, and art music of the Jews. Particular attention is given to music on Jewish subjects, music employing traditional Jewish resources, and music by contemporary Jewish and Israeli composers.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 333. Introduction to Cuban Music. 3 Credit Hours.
A survey of Cuban Music from the early European settlement to the present. Course addresses African and Caribbean influences and the amalgamation into new national styles, as well as current musical activity on the island and in expatriate communities.
Prerequisite: MCY 131 or equivalent music course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MCY 341. Music of the Mediaeval, Renaissance, and Baroque Periods. 3 Credit Hours.
A comprehensive, in-depth study of the musical styles and genres of the Mediaeval, Renaissance, and Baroque Eras. Important musical figures of these periods and analytical studies of important pieces of music from these periods are addressed.
Prerequisites: MTC 140 + 141 + 240 + 241 or Equivalents.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

MCY 342. Music of the Classical, Romantic, and Modern Periods. 3 Credit Hours.
A comprehensive, in-depth study of the musical styles and genres of the Classical, Romantic, and Modern Eras of important musical figures of these periods, and analytical studies of important pieces of music from these periods.
Prerequisites: MTC 140 + 141 + 240 + 241 or Equivalents.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

MCY 493. Special Projects in Musicology. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MCY 494. Special Topics in Musicology. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MCY 520. History and Literature of the Wind Band. 3 Credit Hours.
An historical survey of wind band literature, the evolution of the military band, the wind band, and the wind orchestra.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MCY 521. Symphonic Literature. 3 Credit Hours.
A survey of orchestral music from the end of the seventeenth century to the present.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 522. Operatic Literature. 3 Credit Hours.
The history and literature of opera from the end of the sixteenth century to the present.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 524. Contemporary Music. 3 Credit Hours.
Music of the 20th and 21st centuries in the Western Art Music tradition, with emphasis on developments since 1945 in Europe and the Americas focusing on modernist, avant-garde, and postmodernist composers and works.
Requisite: Music Majors And Upperclass Status And MCY 141 or MCY 342.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 525. Art Song Literature. 3 Credit Hours.
A survey of the solo vocal literature from the 16th century to the present, with particular emphasis on the 19th-century French and German repertoire.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 526. Keyboard Literature I. 3 Credit Hours.
A survey of keyboard literature from its beginning to approximately 1750 emphasizing changes in styles of writing and expression, development of techniques suited to the primary instruments in use (including the early organ, clavichord, harpsichord and fortepiano), ornamentation both specified and improvised, forms, and ideas for interpretation based on historical sources.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 527. Keyboard Literature II. 3 Credit Hours.
A survey of solo keyboard literature from approximately 1750 to the present emphasizing changes in styles of writing and expression, development of technique suited to the primary instruments in use (including the clavichord, harpsichord, fortepiano and modern piano), embellishment both specified and improvised, forms, and ideas for interpretation based on historical sources (including facsimiles, printed scores, written records and sound recordings, particularly those by the composers themselves).
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 529. Music of the Baroque Period. 3 Credit Hours.
Literature and history of music from the end of the sixteenth to the middle of the eighteenth centuries.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 530. Music of the Classical Period. 3 Credit Hours.
The musical styles which developed between the mid-eighteenth century and the nineteenth century.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 532. History of Chamber Music. 3 Credit Hours.
Styles and forms in chamber music literature from the seventeenth century to the present.
Requisite: Music Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MCY 533. Music of the Romantic Period. 3 Credit Hours.
The musical styles which developed during the nineteenth century.
Requisite: Music Majors, Upperclass Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 537. Music in the United States. 3 Credit Hours.
A survey of music in the United States from colonial times to the present, with emphasis on the social, economic, and political conditions which affected it. Art music (sacred and secular), popular music in all idioms, the music industry as it evolved in the U.S., and the influence of American music on the music of other countries.
Components: LEC.
Grading: GRD.

MCY 538. Music, Gender, and Sexuality. 3 Credit Hours.
An exploration of music from around the world from the perspective of women. We will examine the roles women have played, and still play, as creators and performers in art music and popular music traditions. Representations of women and gender ideologies will also be discussed.
Requisite: Upperclass Status or Permission from Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 540. Music and Religion. 3 Credit Hours.
Music and Religion are fundamental aspects of human existence, evidence of which goes back some 30,000 years. This seminar course will explore musical and religious experiences in human history and the use of music within major religious traditions. It will include specific study of some of the major monuments of sacred music of the western classical tradition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MCY 553. Miami's Musical Heritage. 3 Credit Hours.
A study of the musical traditions and practices of the various cultures
that are part of Miami's unique multi-ethnic society.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

MCY 554. Music Cultures of the World. 3 Credit Hours.
A study of music culture of the region including the music of folk
societies, popular artists, and classical musicians. Open to non-majors.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MCY 562. Music of Argentina and Brazil.. 3 Credit Hours.
An in-depth study of Argentine and Brazilian musical cultures covering
folk, popular, and classical traditions. Open to non-majors.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 564. Seminar in Latin American Music Collections. 3 Credit Hours.
Examines Latin American music materials at the Cuban Heritage
Collection and Special Collections at the Richter Library. Focuses on
interpreting original documents and acquiring archival techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 583. History of the American Musical Theatre. 3 Credit Hours.
An examination of the development of musical theatre from its European
opera and operetta background to an indigenous American art form.
The areas to be explored include the rise and fall of various genre
of musical shows, integration of story, song and dance, important
producers, directors, lyricists, composers, and new fields such as director-
choreographer. The development of an American cultural consciousness
and political and socio-economic trends of various decades that greatly
influenced the content and form of musical shows is also examined.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 593. Special Projects in Musicology. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area
of expertise and student’s area of interest. This course includes a
culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MCY 594. Special Topics in Musicology. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s
expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MCY 620. History and Literature of the Wind Band. 3 Credit Hours.
An historical survey of wind band literature, the evolution of the military
band, the wind band, and the wind orchestra.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 621. Symphonic Literature. 3 Credit Hours.
A survey of orchestral music from the end of the seventeenth century to
the present.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 622. Operatic Literature. 3 Credit Hours.
The history and literature of opera from the end of the sixteenth century
to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 624. Contemporary Music. 3 Credit Hours.
Music of the 20th and 21st centuries in the Western Art Music tradition,
with emphasis on developments since 1945 in Europe and the Americas
focusing on modernist, avant-garde, and postmodernist.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 625. Art Song Literature. 3 Credit Hours.
A survey of the solo vocal literature from the 16th century to the present,
with particular emphasis on the 19th-century French and German
repertoire.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 626. Keyboard Literature I. 3 Credit Hours.
A survey of keyboard literature from its beginning to approximately 1750
emphasizing changes in styles of writing and expression, development of
techniques suited to the primary instruments in use (including the early
organ, clavichord, harpsichord and forte-piano), ornamentation both
specified and improvised, forms, and ideas for interpretation based on
historical sources.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 627. Keyboard Literature II. 3 Credit Hours.
A survey of solo keyboard literature from approximately 1750 to the
present emphasizing changes in styles of writing and expression, development of
technique suited to the primary instruments in use
(including the clavichord, harpsichord, forte-piano and modern piano),
embellishment both specified and improvised, forms, and ideas for
interpretation based on historical sources (including facsimiles, printed
scores, written records and sound recordings, particularly those by the
composers themselves).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 629. Music of the Baroque Period. 3 Credit Hours.
Literature and history of music from the end of the sixteenth to the
middle of the eighteenth centuries.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MCY 630. Music of the Classical Period. 3 Credit Hours.
The musical styles which developed between the mid-eighteenth century and the nineteenth century.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 632. History of Chamber Music. 3 Credit Hours.
Styles and forms in chamber music literature from the seventeenth century to the present.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 633. Music of the Romantic Period. 3 Credit Hours.
The musical styles which developed during the nineteenth century.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 635. Choral Literature I. 2 Credit Hours.
Choral music of the sixteenth through the eighteenth centuries. A combination of lecture-discussion and class performance.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 636. Choral Literature II. 2 Credit Hours.
Choral music of the nineteenth and twentieth centuries. A combination of lecture-discussion and class performance.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 637. Music in the United States. 3 Credit Hours.
A survey of music in the United States from colonial times to the present, with emphasis on the social, economic, and political conditions which affected it. Art music (sacred and secular), popular music in all idioms, the music industry as it evolved in the U.S., and the influence of American music on the music of other countries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 638. Music, Gender, and Sexuality. 3 Credit Hours.
An exploration of music from around the world from the perspective of women. We will examine the roles women have played, and still play, as creators and performers in art music and popular music traditions. Representations of women and gender ideologies will also be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 640. Music and Religion. 3 Credit Hours.
Music and Religion are fundamental aspects of human existence, evidence of which goes back some 30,000 years. This seminar course will explore musical and religious experiences in human history and the use of music within major religious traditions. It will include specific study of some of the major monuments of sacred music of the western classical tradition.
Components: LEC.
Grading: GRD.

MCY 653. Miami's Musical Heritage. 3 Credit Hours.
A study of the musical traditions and practices of the various cultures that are part of Miami's unique multi-ethnic society
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 654. Music Cultures of the World. 3 Credit Hours.
A study of music culture of the region including the music of folk societies, popular artists, and classical musicians. Open to non-majors.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MCY 662. Music of Argentina and Brazil. 3 Credit Hours.
An in-depth study of Argentine and Brazilian musical cultures covering folk, popular, and classical traditions. Open to non-majors.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MCY 664. Seminar in Latin American Music Collections. 3 Credit Hours.
Examines Latin American music materials at the Cuban Heritage Collection and Special Collections at the Richter Library. Focuses on interpreting original documents and acquiring archival techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 683. History of the American Musical Theatre. 3 Credit Hours.
An examination of the development of musical theatre from its European opera and operetta background to an indigenous American art form. The areas to be explored include the rise and fall of various genre of musical shows, integration of story, song and dance, important producers, directors, lyricists, composers, and new fields such as director-choreographer. The development of an American cultural consciousness and political and socio-economic trends of various decades that greatly influenced the content and form of musical shows is also examined.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 693. Special Projects in Musicology. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member's area of expertise and student's area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring & Summer.

MCY 694. Special Topics. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member's expertise and students' areas of interest.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MCY 7. B.A. in Music Forum. 0 Credit Hours.
Forum for this major will provide programs on and discussion of the role of the musical arts in society for people in a wide range of careers.
Components: FOR.
Grading: CNC.
Typically Offered: Fall & Spring.
MCY 711. Musicology Pedagogy. 3 Credit Hours.
Musicology Pedagogy: The course explores various philosophies of and approaches to teaching music history and literature.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MCY 716. Graduate Musicology Forum. 0 Credit Hours.
Graduate Musicology Forum: A weekly gathering of faculty and students featuring lectures and discussion on current topics in musicology and ethnomusicology.
Components: FOR.
Grading: SUS.
Typically Offered: Fall & Spring.

MCY 720. Jazz Cultures: History and Historiography. 3 Credit Hours.
This course surveys a range of the sounds and practices that have been called jazz over the past century and explores some of the ways in which musicians, educators, scholars, journalists, audiences, and others have understood and shaped this genre.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MCY 728. Music Bibliography. 3 Credit Hours.
Course presents research materials, including dictionaries, encyclopedias, historical collections, scholarly editions, complete works, books, articles, and lists dealing with specialized areas of music history and literature.
Requisite: Frost School of Music.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MCY 793. Special Projects in Musicology. 1-3 Credit Hours.
Advanced individual instruction pertaining to faculty member’s area of expertise and student’s area of interest. This course includes a culminating project.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MCY 794. Special Topics in Musicology. 1-3 Credit Hours.
Advanced group/classroom instruction pertaining to faculty member’s expertise and students’ areas of interest.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MCY 810. Master’s Thesis. 1-6 Credit Hours.
The student working on his/her master’s thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

MCY 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence and maintain full-time enrollment for the master’s degree after the student has completed the required hours of thesis credit.
Components: LEC.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Neuroscience Program (NEU)

NEU 100. Introduction to Neuroscience (EXP). 3 Credit Hours.
Students examine the basic aspects of neuroscience research, specifically targeting neurological disorders. Tools and techniques used in the area of neuroscience such as biochemistry, molecular biology, electrophysiology, light and electron microscopy, confocal microscopy, and image analysis will be addressed. Discussions will also include topics in lab diagnostic techniques as well as state of the art instrumentation.
Components: LEC.
Grading: GRD.

NEU 190. Faculty Overview of Research and Undergraduate Mentoring (FORUM). 1 Credit Hour.
Critical discussion of research reports in neuroscience.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NEU 200. Introduction to Psychiatry (EXP). 3 Credit Hours.
The course will cover basic aspects of Psychiatry and behavioral sciences. We will emphasize the impact of evidence-based findings on the diagnosis, etiology, management and treatment of all major psychiatric disorders. Concepts such as history of psychiatry, evolution of the psychiatric nomenclature, childhood and adult development, brain circuitry, neurotransmitters, psychotherapies and pharmacological mechanisms of most commonly used medications will be discussed. We will utilize lectures, small group discussions as well as videos and live patient interviews. Students will be able to observe a patient interview by a faculty.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NEU 280. Introduction to Research Projects I. 1-3 Credit Hours.
Students assist on a research project in neuroscience under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 342. Neural Mechanisms of Disease. 3 Credit Hours.
Cellular and molecular mechanisms underlying nervous system dysfunction and mental illness. Biological bases, including clinical and therapeutic aspects, of specific neurological disorders.
Prerequisite: BIL 268 or PSY 220 or PSY 425.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 380. Introduction to Research Projects II. 1-3 Credit Hours.
Students assist on a research project in neuroscience under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.
Prerequisite: PSY 291 or PSY 292. Requisite: UASP and Faculty Permission. 2.5 NEU GPA.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
NEU 400. Neurogenetics. 3 Credit Hours.
This course examines the role of genetics/epigenetics in the development of neurological diseases in humans. The availability of the complete human genome sequence and a compendium of genetic variants distributed throughout the human genome in a readily accessible database, together with genetic modification technologies have greatly accelerated the discovery of genes involved in disease. We will discuss how genetic or epigenetic variations can affect the nervous system, leading to a range of genetic disorders. Examples from single-gene recessive defects to complex diseases will be presented. Methods to identify genes involved in disease as well as pathogenesis studies and therapeutic approaches will also be discussed. Lastly, an introduction to the ethical challenges of obtaining and dealing with human genetic information will be presented.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NEU 403. Neuroscience laboratory. 4 Credit Hours.
Research methods and laboratory experiments in contemporary neuroscience from individual cells to behavior. Scientific report writing and computer applications in experimental design and analysis.
Prerequisite: PSY 390, BIL 268 or PSY 425. Or Corequisite: PSY 425.
Requisite: Senior Status.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 440. Neural Mechanisms of Psychiatric Disorders. 3 Credit Hours.
Analysis of different neuropsychiatric disorders including, but not limited to, schizophrenia, depression, post-traumatic stress disorder, drug dependence and abuse, and obsessive-compulsive disorders. Lectures are derived from current research articles looking at in depth mechanisms of these disorders. It is expected that students have a good understanding of neuroscience before registering for this course. This course will include active learning and grades are based upon two projects including writing a script and creating a short video that highlights drugs and other treatments used for these disorders and preparing a poster based upon a published article and presenting it to the class in a poster session format. In addition, there will be two exams designed to test the student’s knowledge of the material presented in class and in the readings.
Prerequisite: BIL 268 or PSY 220 or PSY 425. and USAP Permission.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 465. Cellular and Molecular Neuroscience. 3 Credit Hours.
Biophysical, biochemical, and structural features of nerve muscle and sensory cells. Basic cellular processes underlying function and development of nervous system.
Prerequisite: BIL 255, BIL 268 or PSY 220, and CHM 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 468. Developmental Neuroscience.. 3 Credit Hours.
Cellular and molecular aspects of nervous system including neuronal differentiation.
Prerequisite: BIL 255, BIL 268 or PSY 220, and CHM 202.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NEU 480. Research with Writing Credit. 1-3 Credit Hours.
Students assist on a research project in neuroscience under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 580. Senior Honors in Neuroscience I. 3 Credit Hours.
Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 581. Senior Honors in Neuroscience II. 3 Credit Hours.
Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 601. Introduction to Neuroscience Techniques. 1 Credit Hour.
Hands-on exercises in research laboratories introduce first-year Neuroscience students to methodologies commonly used in the Neurosciences. The course includes selected techniques from electrophysiology, immunocytochemistry, fluorescent microscopy, recombinant DNA, protein immunoblotting, and functional imaging. Students are required to complete a lab notebook of each exercise. There is also a segment on database searches.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 609. Research. 1-5 Credit Hours.
Students work with individual members of the program faculty on research problems. Provides orientation as to the areas of research in the field and the techniques used.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 641. Statistics in Neuroscience. 1 Credit Hour.
This course will provide basic information necessary to appropriately design experiments and analyze and interpret data in the behavioral and biological sciences. A lecture/discussion format will be used. The course will cover research methodology, basic statistical concepts, and an in-depth discussion of descriptive (measures of central tendency, variability and correlation) and inferential statistics (both parametric and non-parametric tests of significance). In addition, various statistical computer programs will be reviewed. Specific topics include: 1. Statistical terminology; 2. Measurement scales; 3. Plotting your data for initial interpretation; 4. Measures of central tendency and variability; 5. Type I and Type II errors and controlling power; 6. Which statistical test do I use for my data? 7. What can I conclude from my data and does it mean anything? Students will be evaluated based on their understanding of statistical design and data interpretation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
NEU 650. Modeling CNS injury and Repair. 1 Credit Hour.
This course provides an overview of a number of complex modeling systems using in CNS injury and Repair biomedical research. The course examines models, such as spinal cord injury, traumatic brain injury, ischemic/stroke injury, experimental autoimmune encephalomyelitis (EAE) model of multiple sclerosis, axon regeneration in retinal nerve and spinal cord, and drosophila models of degeneration. The course will consist of both lectures and hands-on laboratory components. Elective Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 700. Seminars in Neuroscience. 1 Credit Hour.
Required each Fall and Spring for all NEU students, emphasizes student research presentations (30 min each for 2nd year students; 60 min each for student 3rd year on). Attendance at neuroscience related seminars is also required. Requisite: Neuroscience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 711. Accelerated Basic Science Medical Curriculum. 1-18 Credit Hours.
From late June to mid-February, the following accelerated and intensive complete basic science medical curriculum is offered: Embryology, Gross Anatomy, Histology, Biochemistry, Neuroanatomy, Biophysics and Neurophysiology, Systemic Physiology, Pathology, Medical Microbiology, and Pharmacology. A single grade will be entered on the graduate transcript for this course. Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 720. Research in Residence. 0 Credit Hours.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in Master's Thesis (usually six credits). Credit not granted. May be regarded as full time residence. Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 721. Principles of Membrane Physiology and Biophysics I. 2 Credit Hours.
Course discusses chemical and physical structure of membranes, model systems, permeability and transport, membrane potential, ionic channels, excitability in nerve and muscle, ionophores, active transport, and membrane receptors. Identical with MCP 641. Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NEU 722. Principles of Membrane Physiology and Biophysics II. 2 Credit Hours.
Course topics include osmosis and cell volume, tracer analysis of permeability and compartmentation, theory of channels and carriers, cable properties, Hodgkin-Huxley formalism, Na, K, and Ca ion channels, regulation of cellular Na, Ca activities, single-channel analysis, chemical synapses, membrane receptors, cell junctions, excitation and E-C coupling in muscle. Identical with MCP 642. Prerequisite: NEU 721. Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NEU 731. Advanced Topics in Neuroscience. 1 Credit Hour.
Special work, lecture, laboratory, reading, seminar, or a combination of these as determined by advisor in accordance with student's interest. Requisite: Neuroscience. Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 761. NEU I - Molecular and Cellular Neuroscience. 2 Credit Hours.
An advanced introduction to modern neurobiology, focusing on the cellular and molecular biology of neurons, glia, synapses, and sensory receptors. Requisite: Neuroscience. Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 762. NEU II - Systems Neuroscience. 4 Credit Hours.
The course aims to provide a general, but intensive, background to the neurosciences beyond Cellular Neuroscience (NEU 661) and Developmental Neuroscience (NEU 663) and to prepare students for more specialized neuroscience courses, for lab rotations, and for subsequent dissertation work. NEU 662 will present sensory, motor and integrative neuroscience at the level of functional systems, but will do so in the context of cellular and molecular neuroscience. The course concentrates on the experimental basis for our understanding of nervous system function and uses both didactic lectures and student discussions of current research literature. The course expects that students have a working knowledge of synaptic transmission, excitable cell membranes, and ion channels from previous coursework in PHS 641/2 and NEU 661, as well as a general knowledge of biochemistry and molecular biology from their PIBS course. It will also be useful to have taken NEU 663. [Pre-requisites: PHS641/2 and NEU661, or in exceptional cases, permission of instructors]. Requisite: Neuroscience. Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 763. Developmental Neuroscience. 2 Credit Hours.
This course will explore nervous system development from early neural induction and neurogenesis to the construction of neural circuits. Cellular and molecular mechanisms of neurulation and CNS patterning, neural progenitor migration, neural crest and ectodermal placodes, programmed cell death, construction of neural circuits and axon guidance, and synaptogenesis will be covered. Requisite: Neuroscience. Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
NEU 797. Neuroanatomy. 3 Credit Hours.
This course is designed to teach functional neuroanatomy to individuals engaged in basic neuroscience research. Therefore, most of the emphasis will be placed upon gross anatomy, identification of pathways and circuits, and a description of the physiological functions of neuroanatomical systems. To the extent that it may help to explain functional aspects of the nervous system, each lecture will contain some clinical examples and/or case histories. An important feature of each class period will be a laboratory segment in which the student will study human and sheep brains, examine models of the brain, and use internet neuroanatomy websites containing pictures, text, clinical examples, and 3-dimensional rotations of the nervous system
Requisite: Neuroscience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 810. Master's Thesis. 1-12 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

NEU 830. Doctoral Dissertation. 1-12 Credit Hours.
Required for all PhD students before passing the Qualifying Examination. The student will enroll for credits as determined by the Program Office, but no more than a total of 6 credits.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

NEU 840. Doctoral Dissertation- Post Candidacy. 1-12 Credit Hours.
Required for all PhD students before passing the Qualifying Examination. The student will enroll for credits as determined by the Program Office, but no more than a total of 6 credits.
Components: THI.
Grading: SUS.
Typically Offered: Fall.

NEU 850. Research in Residence. 1 Credit Hour.
Students register in the semester they plan to submit their dissertation to the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Nursing (NUR)

NUR 100. Introduction to Nursing. 3 Credit Hours.
This is an introductory course to explore the various roles and responsibilities of the professional nurse in American health care. Major issues within health care today will be discussed and the impact they have on professional nursing will be explored.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 200. Process of Health Promotion. 3 Credit Hours.
Healthcare: A process of health promotion, maintenance, rehabilitation, and preventative medicine.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 202. Introductory Statistics in Health Care. 3 Credit Hours.
Application of descriptive and inferential statistics. Principles and methods of summarizing data including tables, graphs, percentile ranks, central tendency, variability, normal distribution. Basic concepts of probability, hypothesis testing, and analysis of variance. Examples and problems from nursing and health sciences.
Corequisite: MTH 101. Or Requisite: ALEKS > or = 55 or SAT Score > or = 630 or ACT > or = 28.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 205. Personal Nutrition. 3 Credit Hours.
Principles of nutrition integrated with cultural dietary patterns across the lifespan. Not for nursing majors or minors.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 207. Introduction to Pharmacology. 3 Credit Hours.
Introduction to the basic principles of therapeutic pharmacology. Special consideration of cultural beliefs and folk medicine included. Emphasis is on the understanding of the different classes of drugs and their application in various health care settings.
Prerequisites: BIL 150 and CHM 103 or 111 or 121 and HCS 212/215.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 300. Seminar in Inter-Professional Health Care. 1 Credit Hour.
This course will introduce the core competencies of inter professional collaborative practice using guidelines from the Institute of Medicine, Quality and Safety Education for Nurses and the Inter professional Education Consortium. Concepts of team based care will be discussed. The course will offer online activities as well as face-to-face team based activities with other healthcare professionals.
Requisite: Nursing Major and Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

NUR 301. Human Sexuality and Vulnerable Populations. 3 Credit Hours.
The study of human sexuality via multidisciplinary theoretical perspectives and research. Students will examine the complex relationships of the physiological, psychological, cultural, gender, religious, historical, and political aspects of human sexuality. Human sexuality in the context of health disparities will form the foundation for the course. WRITING COURSE
Prerequisite: BPH 206 or Requisite: Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 303. HIV/AIDS and Health Maintenance for Health Care Providers. 3 Credit Hours.
Definition, diagnosis, management, and care of diverse patient populations with HIV infection and AIDS. Course is presented and discussed from an interdisciplinary health care perspective.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
NUR 304. Adult Health I: Fundamentals of Nursing Practice. 6 Credit Hours.
This clinical course emphasizes the supervised application of health assessment skills, nursing process, and clinical nursing techniques in the clinical laboratory, community, and acute care settings. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 305. Issues in Health Disparities. 3 Credit Hours.
This course will be an introduction to the general research on health systems and health disparities. Emphasis will be placed on social, biological, economic and social policy issues that impact on the health of minority populations. Concepts associated with epidemiology, poverty, racism, public policy and international politics will be explored. WRITING COURSE Prerequisite: BPH 206 or Requisite: Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 306. Principles of Nutrition. 3 Credit Hours.
Principles of nutrition integrated with cultural dietary patterns for client adaptation across the lifespan. Requisite: Sophomore Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 307. Pharmacology. 3 Credit Hours.
Introduction to the basic principles of therapeutic pharmacology. Special consideration of cultural beliefs and folk medicine included. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 308. Adult Health II. 7 Credit Hours.
This course focuses on the nursing management of the client throughout the adult life cycle who experiences alterations and/or adaptations in physiologic defense mechanisms. Teaching strategies to be utilized include lecture, discussion, critical thinking exercises. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 310. Global Health. 3 Credit Hours.
Introduction to the concepts of global health and the critical links between public health and social and economic development. Determinants of health and patterns of disease and health outcomes across the globe are critically examined. The course reviews the determinants of health status in terms of biology, demography, epidemiology, culture, sociology, economics, and politics. Key concerns regarding reproductive health, child survival, nutrition, communicable diseases, and chronic diseases are examined. Health care delivery in developed vs. undeveloped regions of the world are emphasized. Requisite: BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 311. Theories and Concepts of Nursing. 2 Credit Hours.
An introductory nursing course explaining the philosophy of baccalaureate nursing using the major concepts of person, environment, health, and nursing with a multicultural focus. Requisite: Nursing Major and Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 314. Health Assessment and Promotion. 3 Credit Hours.
Introduction to health assessment using a lifespan approach. Emphasis is on the development of data collection and basic decision-making using health assessment findings. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 315. Pathophysiology. 3 Credit Hours.
The study of the physiologic and biologic manifestations of disease and disease processes. Emphasis is placed on physiology of altered health within the context of disruptions of structure and function of the human body as a whole. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 317. Theories in Growth and Development. 3 Credit Hours.
Application of growth and development theories through the lifespan with a case study approach to issues commonly encountered nursing practice in a variety of clinical settings. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 318. Women's Health Nursing. 4 Credit Hours.
This course focuses on the use of the nursing process in the care of women and the care of mothers and newborns with an emphasis on health promotion, illness prevention and nursing clinical management of chronic and acute conditions. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 319. Contemporary Issues in Bioethics for Health Care. 3 Credit Hours.
This course will cover bioethical issues in the health care environment, including ethical principles, theories and decision making strategies. WRITING COURSE Prerequisite: BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
NUR 320. Child and Adolescent Health Nursing. 4 Credit Hours.
This course focuses on the use of the nursing process to develop and implement nursing management strategies for children and their families experiencing acute, chronic, and critical multi-system health alterations within a multicultural context. Use of the nursing process to expand and develop appropriate clinical interventions and a member of the healthcare team. Students will build on foundational skills in critical thinking, collaboration, and leadership in the provision of nursing care.
Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 350. Pathophysiology/Pharmacology for RN-to-BSN. 4 Credit Hours.
This course presents the study of the physiological and biologic manifestations of disease and disease processes, and introduces the basic principles of therapeutic pharmacology. Emphasis is placed on the physiology of altered health within the context of disruptions of structure and function of the human body as a whole. Special consideration of cultural beliefs and folk medicine is included.
Requisite: Must be in the RN to BSN program.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 390. Advanced Placement Practice I for RN-to-BSN Students. 10 Credit Hours.
Nursing Management of the client throughout adulthood who experiences alterations and/or adaptations/maladaptions in physiologic defense mechanisms; complex alteration and/or adaptations in organ system function. The client in this course is identified as the individual, family or significant others. Course content emphasizes concepts of infection, the surgical client, immunity and altered cell growth, utilizing the nursing theories and the nursing process. Assists adult clients to adjust to multisystem alterations/adaptations/maladaptions in the endocrine, cardiovascular, respiratory, immunological and hemopoetic, nervous, musculoskeletal, digestive, and renal urinary systems. Specific models are utilized to enhance the teaching of critical thinking. Research findings are utilized to support nursing interventions.
Requisite: Must be in the RN to BSN program.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 401. Evidence-Based Nursing Practice. 3 Credit Hours.
This course examines evidence-based practice in nursing. Focuses on the research process; location, critical appraisal, and evaluation of evidence; application and evaluation of evidence-based practice changes; and quality improvement.
Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

NUR 402. Global Health Disparities Research. 3 Credit Hours.
This is a 4 week intensive educational experience that prepares students to be successful conducting supervised health disparities research as part of the MHIRT program at a foreign institution, disseminating findings, and applying to graduate school. The training program is broken into a preparation phase (3 weeks prior to leaving to their host country), and a dissemination phase (1 week after they return). Students will be working as a research assistant at a foreign site for eight weeks in between the preparation and dissemination phases of this training program. Students will learn about the influence of culture and healthcare policy on health and health disparities, research design, statistics, communicating research findings and careers in health disparities research.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 403. Advanced Placement Practice II for RN-to-BSN Students. 10 Credit Hours.
This course focuses on the nursing process in the care of pediatric clients and families, the obstetrical client, and women's health. Emphasis is on the use of the nursing process to assist clients to adapt to health alterations requiring care in secondary health care settings. This course covers care of the pediatric client and the childbearing client and women's health.
Requisite: Must be in the RN to BSN program.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 404. Theories, Research and Evidence-Based Practice. 3 Credit Hours.
Course emphasis is placed on developing an understanding of the research process and application of research findings in community-based practice in multicultural settings. Course focuses on the relationship between theory, research, practice, and the development of competencies to become an informed consumer of research. Writing Credit.
Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
NUR 408. Genetics and Healthcare. 3 Credit Hours.
Exploration of basic knowledge in genomics, understanding of social, cultural and psychological implications of genetic services, health prevention and promotion.
Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 411. Adult Health III. 5 Credit Hours.
This course focuses on the adult experiencing complex multisystem alteration/adaptations in organ and system function. Emphasis is on the use of the nursing process to assist adult clients to adapt to system related insults.
Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 412. Epidemiology for Population-Based Care. 2 Credit Hours.
During this course students will examine the principles of epidemiology including, the historical evolution of epidemiology, the natural history of disease, epidemiologic models, and epidemiologic research. Health and disease is conceptualized as a complex interaction between individual relationships, community and socio-economic-politico level factors with unique considerations for target populations across the lifespan. The process of disease surveillance is discussed including trends in communicable and non-communicable disease as well as the measures of morbidity (e.g., incidence and prevalence) and mortality. Factors, or determinants of health, that contribute to distribution of disease in populations are discussed. The effect of health care policy and health economics on disease distribution is considered. How the interaction of the determinants of health, health care policy, and health economics contribute to health disparities is also examined. Disease surveillance and health promotion are examined from a global perspective. The impact of the environment on health is also discussed. Finally, introductory disaster management concepts are reviewed as they relate to the care of populations affected by disasters.
Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

NUR 414. Advanced Placement Practice III for RN-to-BSN Students. 10 Credit Hours.
Content emphasizes concepts and themes of families and communities and the use of the nursing process to assist in promoting and maintaining health. The behavioral health focusses on psychotherapeutic processes across the life span. Emphasis is on planning nursing care for individuals, families and groups and professional and therapeutic communication skills and techniques. Explores the influence of neuro-physiology and psychopharmacology on the development of psychiatric and mental health services and the evolution of the role of the psychiatric nurse.
Requisite: Must be in the RN to BSN program.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 415. Perianesthesia Nursing. 3 Credit Hours.
The focus of this course is on the use of the nursing process to develop and implement nursing management strategies for patients and families undergoing a surgical and/or special procedure. Emphasis is placed on the use of a multicultural nursing perspective to plan and implement nursing interventions. This course highlights Perianesthesia nursing care of surgical patients.
Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 417. Pre-Immersion Course for Accelerated Option Students. 0 Credit Hours.
This course is designed to facilitate personal and professional success; this course introduces students to the purposes and processes of nursing. An emphasis is placed on study, communication, and critical thinking skills that support academic achievement. Students also examine the relationship between learning and motivation.
Requisite: Must be a Nursing Clinical Major.
Components: DIL.
Grading: NON.
Typically Offered: Spring & Summer.

NUR 418. Pre-Immersion for Traditional Option Students. 0 Credit Hours.
This course is designed to facilitate personal and professional success; this course introduces students to the purposes and processes of nursing. An emphasis is placed on study, communication, and critical thinking skills that support academic achievement. Students also examine the relationship between learning and motivation.
Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: NON.
Typically Offered: Fall.

NUR 424. Math Essentials for BSN Students. 0 Credit Hours.
This course supports students with basic to advanced medical math concepts. Topics include calculating dosages, using scientific formulas and basic statistical principles.
Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 426. Leadership and Management in Nursing. 5 Credit Hours.
Analysis and synthesis of the application of professional concepts in a variety of multicultural health care delivery systems. Emphasis is placed on personal, professional, and organizational growth. Individualized and integrated clinical experiences are provided through direct clinical supervision by preceptors.
Requisite: Must be in the RN to BSN program.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
NUR 430. Leadership in Nursing. 3 Credit Hours.
Theoretical and applied concepts of transition to the nursing role within the healthcare setting are explored in this course. The focus is on practice issues and responsibilities in contemporary professional nursing practice. Emphasis is placed on the transition to practice and nursing care systems with increasing responsibility through discussion of practice theory and styles, empowering, mentoring, managing change and striving for excellence. Seminar discussion topics will focus on the issues of successful transition to the practice environment as new nurse. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 435. Clinical Express Undgr. 0-5 Credit Hours.
This course is an online orientation for clinical faculty at the School of Nursing and Health Studies. The content is specific to clinical instructors who will be supervising BSN nursing students at various clinical sites used by the School of Nursing and Health Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 440. Population Focused Nursing. 4 Credit Hours.
The focus is on population-focused nursing and community-oriented approaches to understanding and addressing major public health concerns across the lifespan. Emphasis is on assessing, planning, implementing and evaluating programs for a variety of communities both domestically and internationally. Health and disease is conceptualized as a complex interaction between individual, relationship, community and socio-economic-political level factors. Epidemiology, sociology, behavioral sciences and nursing theory and practice are integrated throughout. Special attention is given to addressing the unique needs of vulnerable populations and cultural groups, the elimination of health disparities, and social justice. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 441. Public Health Nursing. 2 Credit Hours.
The focus of this course is on public health nursing and community-oriented approaches to addressing major public health concerns across the lifespan. Emphasis is on assessing, planning, implementing and evaluating programs for a variety of communities both domestically and internationally. The provision of knowledge related to epidemiology, sociology, behavioral sciences and nursing theory and practice is required throughout this process. Special attention is given to addressing the unique needs of vulnerable populations and cultural groups, the elimination of health disparities, and social justice considering the population aggregate's determinants of health. Finally, the varying roles of the public health nurse are examined, including that of the public health nurse in disaster response. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 448. Psychiatric Mental Health Nursing. 4 Credit Hours.
The focus is on psychotherapeutic processes across the lifespan. Emphasis is on planning nursing care for individuals, families, and communities with a variety of psychiatric and mental health problems in various settings (inpatient, outpatient, community). Professional and therapeutic communication skills and techniques are important components of this course. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 453. Role Transition. 5 Credit Hours.
Theoretical and applied concepts of transition to the nursing role within the healthcare setting are integrated in this course. The course is a synthesis of previously learned knowledge, incorporating the components of physiological, psychological, and developmental concerns in the care of the client. Seminar discussion topics have a focus on the issues of successful transition to the practice environment as a nurse generalist, with the ability to exercise clinical reasoning and evidence-based practice. Requisite: Must be a Nursing Clinical Major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 461. Health Disparities Research Practicum. 1-4 Credit Hours.
This course is designed to provide opportunities for students across all levels of higher education to participate in health disparities research. Students will be mentored by a health disparities researcher with an active research project. Objectives will be established by the research mentor and the student according to educational level, interests and opportunities. Students will be incorporated into the research team and expected to attend project meetings. They will also be expected to participate in scholarly work that could contribute to the success of the project. Examples of scholarly work include co-authoring research papers and presentations, developing recruitment materials, assisting in compiling/developing data collection measures, or any other product deemed appropriate by the mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 485. Global Health: Transcultural Nursing. 3 Credit Hours.
This course will use a hybrid model that includes an immersive experience in an international setting followed by online activities and face to face meetings. The University of Miami, School of Nursing and Health Studies will provide transcultural nursing experiences under different international healthcare systems. NUR 487 is designed to offer students the opportunity to develop an understanding of healthcare systems and care delivery models outside of the U.S. Academic and supervised clinical interactions will allow students to have a cultural clinical nursing experience. This course will allow students to apply and synthesize basic science knowledge and skills that foster ethical, legal and culture specific health care.
Components: DIL.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
NUR 487. International Health: Transcultural Nursing. 3 Credit Hours.
Collaborative clinical venture between the University of Miami, School of Nursing and an International School of Nursing. Students will exchange supervised western clinical experiences, knowledge and skills for the care of clients and families in specialty areas including Medical-Surgical, Surgery, Intensive Care and/or Emergency nursing units. This course will allow students to apply and synthesize basic science knowledge and skills that foster ethical, legal and culture specific health care. Requisite: School of Nursing Health Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 498. Selected Topics. 0-6 Credit Hours.
Special topics in nursing. Course titles and descriptions change semester-by-semester based on course content. This designation is used as needed. Credits can range from 0-6 credits.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 499. Selected Topics. 0-6 Credit Hours.
Special topics in nursing. Course titles and descriptions change semester-by-semester based on course content. This designation is used as needed. Credits can range from 0-6 credits.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 536. U.S. Health Care Crisis: Politics and Policies. 3 Credit Hours.
This course will explore key health policy issues within the U.S., along with the politics and interest groups which shape them. Fundamental concerns within the health care system such as: cost, quality and access to care will be analyzed. Major topics of discussion will include: Medicare, Medicaid, private insurance, the nursing shortage, and prescription drugs. The politics and policies surrounding issues such as bioethics, globalization, and infectious disease will also be considered. Requisite: Junior Status and no IP Credit.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 601. Advanced Pharmacology. 3 Credit Hours.
Advanced practice nursing application of pharmacological and pharmacokinetics for the purpose of selecting appropriate drug therapies for diverse populations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 602. Doctoral Level Orientation/Nur. 0 Credit Hours.
This course provides entering doctoral students with an evaluation of their writing ability and a review of formal writing skills. Other topics pertinent to success for nursing coursework at the doctoral level are addressed.
Components: LEC.
Grading: NON.
Typically Offered: Fall & Spring.

NUR 603. Healthcare Databases: Design, Development and Clinical Application. 3 Credit Hours.
This course focuses database systems, development, design, and implementation within the context of health care. Special emphasis is placed on the role of database applications for continuous quality improvement and regulatory compliance. Students will design a relational database applicable to informatics leadership responsibilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 604. System Life Cycle/Project Management. 3 Credit Hours.
This course covers the identification and development of information technology plans for projects supporting the health care organization's business objectives and all activities required in the initiating, planning, executing, controlling, and closing phases of the project's lifecycle. This course is intended to provide the body of knowledge and best practices necessary for a new Consultant, Business Analyst or Project Manager to successfully perform his/her responsibilities on an IT enterprise project.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 605. Health Information Exchange. 3 Credit Hours.
This course is designed to introduce the informatics professional to the basic principles of Health Information Exchange. The focus will be on interoperability between ambulatory clinics, acute care facilities and long-term care; electronic health records; electronic prescribing systems and consumer health care informatics. Special emphasis is placed on the role of HIE in the American Recovery and Reinvestment Act.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 606. Advanced Practice Preparation. 0 Credit Hours.
This preparatory experience provides students an opportunity to review concepts of pharmacology; physiology; and health assessment prior to beginning the Master of Science in Nursing program. Activities related to academic strategies and writing are also included, to assist in improving study and writing skills.
Components: LEC.
Grading: NON.
Typically Offered: Fall & Spring.

NUR 607. Leadership and Professional Development Strategies for Nursing Informatics. 3 Credit Hours.
In this course students will be exposed to the principles of organizational culture, dynamics, mission, vision, values, and goals as it impacts nursing. Additionally they will learn current theories of change management and resource management for nursing informatics practice. They will explore change agent roles in project management and processes.
Co-requisite: NUR 604.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
NUR 608. Concepts in Advanced Practice Nursing. 3 Credit Hours.
Major concepts necessary for advanced practice nursing. Included are: major scientific theories, health and health promotion, health policy, ethical issues, epidemiology, technology in health care, and advanced practice role competencies. Specific emphasis is placed on understanding culture and cultural diversity in health care.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 609. Professionalism in Advanced Practice Nursing. 2 Credit Hours.
Focuses on the synthesis of concepts and principles necessary to develop leaders in advanced practice nursing specialties. Emphasis is placed on the role of the advanced practice nurse for optimal delivery of health care to clients across the life span.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 610. Adult Gerontology Acute Care I. 4 Credit Hours.
Analysis of selected theories and conceptual models of nursing and their implementation in practice and research. Approaches to development of a scientific body of knowledge for nursing practice is included. (2) Prerequisite: Graduate status.
Prerequisite: NUR 601 and 612 and 613.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 611. Foundations of Anesthesia Science and Technology for Nurse Anesthetists. 5 Credit Hours.
Introduction to the application of basic sciences to nurse anesthesia. This course includes the application of principles of physics, molecular biology, biochemistry and medicinal chemistry.
Prerequisite: Anesthesia Track and NUR 601 and 612 and 613.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 612. Physiology/Pathophysiology for Advanced Practice Nursing. 3 Credit Hours.
Analysis of physiologic and pathophysiologic mechanisms of health and illness.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 613. Advanced Health Assessment and Diagnostic Reasoning. 3 Credit Hours.
Emphasis on culturally sensitive comprehensive health assessment and diagnostic reasoning related to advanced nursing practice. Special emphasis is placed on advanced health assessment; including age appropriate health screenings; prenatal, pediatric, and geriatric assessment; and interpretation of basic laboratory tests and diagnostic studies utilized in advanced nursing practice. Specialty specific seminars address issues for individual tracks within advanced practice nursing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 614. Basic Concepts in Anesthesia Nursing. 5 Credit Hours.
This course is an overview of fundamental knowledge and skills for entry into advanced practice anesthesia nursing. Concepts include essential techniques, monitoring and equipment, and pharmacologic interventions for common problems and conditions requiring routine surgical procedures in a highly structured and guided clinical learning environment. Cultural competence and interdisciplinary anesthesia care across the lifespan is emphasized.
Prerequisite: NUR 601 and NUR 611 and NUR 612 and NUR 613 and Co-requisite: NUR 617.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 615. Professional Aspects of Anesthesia Nursing. 2 Credit Hours.
This course focuses on the development and current trends in nurse anesthesia practice, education, and research. Concepts include the historical, legal, legislative, and professional role issues associated with advanced practice anesthesia nursing. Professional responsibilities, ethical issues, diversity, cultural competency, quality assurance, continuing education, and professional involvement are emphasized.
Prerequisite: NUR 646 and Co-requisite: NUR 650.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 616. Pharmacology for Acute Care Nursing. 3 Credit Hours.
Focuses on foundational pharmacologic principles and associated application to clinical practice in acute care nursing. Integration of pharmacological concepts and interventions in safe, culturally competent, and interdisciplinary acute care advanced nursing practice are emphasized.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 617. Pharmacology for Anesthesia Nursing. 3 Credit Hours.
Focuses on pharmacological principles and associated application to clinical practice in nurse anesthesia. Integration of pharmacological concepts and interventions in safe, culturally competent, and interdisciplinary anesthesia practice are emphasized.
Prerequisite: NUR 601 and NUR 611 and NUR 612 and NUR 613 and Corequisite: NUR 614.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 619. Advanced Concepts of Anesthesia Nursing I. 7 Credit Hours.
This course will provide an in-depth knowledge and skills of anesthesia nursing care for a variety of common problems and conditions across anesthesia specializations. Concepts include assessment, techniques, planning and pharmacologic interventions for specialty surgical procedures in a highly structured and guided clinical learning environment. Cultural competence and interdisciplinary anesthesia care across the lifespan is emphasized.
Prerequisites: NUR 601 and NUR 611 and NUR 612 and NUR 613 and NUR 614 and NUR 617.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
NUR 620. Advanced Concepts of Anesthesia Nursing II. 9 Credit Hours.
This course will provide in-depth knowledge and skills of highly specialized problems and conditions requiring anesthesia or surgical interventions. Concepts include assessment, techniques, planning and pharmacologic interventions for regional anesthesia, pain management, care of obstetrical patients and patients with catastrophic conditions in a highly structured and guided clinical learning environment. Cultural competence and interdisciplinary anesthesia care across the lifespan is emphasized.
Prerequisites: NUR 601 and NUR 611 and NUR 612 and NUR 613 and NUR 614 and NUR 617 and NUR 619.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 621. Diagnostics and Nursing Interventions for Acute Care Nursing. 3 Credit Hours.
Selected diagnostic tests and intervention techniques essential to acute care nursing. Critical thinking and decision making related to interdisciplinary assessment of acute care patients. Cultural issues related to diagnostics and intervention.
Prerequisite: NUR 601 and 612 and 613.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 622. Acute Care Nursing of Adults I. 4 Credit Hours.
The first of two sequential clinical practicums designed for the development of scientific knowledge and advanced practice skills in the area of acute care nursing. Involves synthesis of concepts, knowledge and skills gained in previous courses applied to the care of the acutely ill patient. Focuses on the advanced practice of acute care nursing via the nurse practitioner/clinical nurse specialist.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 623. Maternal Child Health in Primary Care Practice. 5 Credit Hours.
Theoretical and clinical bases for advanced practice nursing management of infants and children. Emphasis is placed on strategies for health maintenance and prevention of health problems and management of alterations.
Prerequisite: NUR 628.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 624. Introduction to Pedagogy. 3 Credit Hours.
This course provides students a foundation in Pedagogy using examples from nursing education. Students will learn about educational theory, the cultural context of education, and the role of teaching in the academy. Educational strategies to be discussed include didactic, online, clinical, laboratory, and simulation. Best practices in assessment and evaluation will be emphasized.
Requisite: Must Be A Nursing PhD Student Or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 625. Adult Gerontology Acute Care II. 7 Credit Hours.
Theoretical and clinical focus for the nurse practitioner as an advanced practice nurse in the health care management of adult populations in rehabilitative settings and residential facilities including assisted living, long term, and home care. (2-6) Prerequisite or corequisite: NUR 601. Prerequisite: NUR 613 and 617. Prerequisite: NUR 601 and 610 and 612 and 613.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 626. Advanced Concepts in Gynecological Health Care for Women. 2 Credit Hours.
Theoretical and clinical bases for the provision of complex gynecological care of women. Emphasis is on strategies for promotion of transcultural health care needs and management of alterations according to the advanced practice roles.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 627. Primary Prenatal Healthcare of Women. 1-2 Credit Hours.
Theoretical and clinical bases for providing primary prenatal care of women. Emphasis is on management strategies for promotion of transcultural health care needs according to the advanced practice role.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 628. Adult Gerontology I. 5 Credit Hours.
Theoretical and clinical bases for health care management of health alterations in the adult population. Emphasis on strategies for health maintenance and prevention of health problems, management of alterations, discharge planning and rehabilitation of individuals and aggregate population.
Corequisite: NUR 601. And NUR 612. And NUR 613.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 630. Research Methods and Evidence-Based Practice. 3 Credit Hours.
Research process, research methods, and the analysis of data using quantitative and qualitative approaches. Focuses on understanding levels of evidence for implementing evidence-based practice and performance improvement in nursing practice and health care. Investigates research methods associated with health disparities, access to health care, and clinical outcomes.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

NUR 631. Adult Gerontology II. 4-7 Credit Hours.
Theoretical and clinical bases for health management of health alterations in the adult population. Emphasis on strategies for health maintenance and prevention of health problems, management of alterations, discharge planning and rehabilitation of individuals and aggregate population.
Prerequisites: NUR 601 and NUR 612 and NUR 613 and NUR 628.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
NUR 634. Perinatal Health Care. 0-6 Credit Hours.
Continuation of the application of physiologic, psychosocial, and cultural concepts to perinatal health care management. Emphasis is placed on nurse-midwifery management of intrapartum, postpartum, and neonatal clients.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 635. Innovation in Nursing Informatics. 3 Credit Hours.
This course explores contemporary concepts in nursing informatics. The course examines the historical context of nursing informatics, followed by an exploration of emerging technologies including tele-health, wireless medical devices, consumer health informatics, interactive education, and social media. This course prepares students to critically evaluate and incorporate evolving technology. Special emphasis is placed on the social, ethical, regulatory, and legal issues associated with health care innovations.
Corequisite: NUR 633.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 636. Nursing Informatics Internship. 3 Credit Hours.
This course is designed to prepare students to function as Nursing Informatics Specialists. Emphasis is on the synthesis of health care informatics theory and mastery of technical applications and each of their respective roles in nursing informatics practice. Students design a scholarly project at the level of a clinical analyst under the direction of a faculty member and preceptor.
Co-requisite: NUR 635.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 637. Capstone Practicum in Nursing Leadership in Informatics. 3 Credit Hours.
In the capstone course students will assimilate and apply the knowledge and skills they have acquired from their course work in the program. Students will complete a non-thesis capstone project that requires them to critically analyze and solve a problem they might realistically encounter in health informatics using their skills in data acquisition, project management, data presentation, and risk management. Students will also develop and submit an electronic portfolio that contains key examples of work the work they generated during their time in the program along with a self-reflection of that work.
Prerequisites: NUR 604 and NUR 607 and NUR 608 and NUR 630 and NUR 633 and NUR 636 and NUR 658 and BTE 450 and BTE 685 and Co-requisites: NUR 603 and NUR 605.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 638. Adult Gerontology Acute Care III. 6 Credit Hours.
Theoretical, clinical, and research basis of advanced practice nursing in the care and management of adults in primary care setting. (2:15)
Prerequisite: NUR 628.
Prerequisite: NUR 625.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 639. Acute Care Nursing of Adults II. 0-7 Credit Hours.
The second of two clinical practicums designed to guide the development of scientific knowledge and advanced practice skills in the area of acute care nursing. Designed to assist the student to assume the role of the Acute Care Nurse Practitioner/Clinical Nurse Specialist.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 640. Teaching and Learning Theory in Clinical Nursing Education. 3 Credit Hours.
The course covers principles and practices of teaching and learning integral to clinical nursing education and identifies the role of the faculty in teaching students with diverse learning styles and needs within a variety of clinical settings.
Components: DIL.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 641. Methods for Clinical Nursing Education. 3 Credit Hours.
The focus of this course is the organization and management of instruction for clinical nursing education. Emphasis is placed on effective strategies for the development of learning opportunities in diverse clinical settings.
Components: DIL.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 642. Evaluation in Clinical Nursing Education. 3 Credit Hours.
The course explores principles and practices of evaluation integral to clinical nursing education.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 643. Practicum in Nursing Education. 5 Credit Hours.
The focus of this course is laboratory and clinical application of principles of teaching and learning.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 644. Leadership and Professional Development Strategies for Nursing. 4 Credit Hours.
In this course, students will be exposed to the principles of organizational culture, dynamics, mission, vision, values, and goals as it impacts nursing. Additionally they will learn current theories of change management and resource management for nursing practice. They will explore change agent roles in project management and processes.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
NUR 645. Interdisciplinary Anesthesia Nursing I. 8 Credit Hours.
Initial integration and synthesis course of advanced knowledge and skills for interdisciplinary anesthesia nursing care. Selected topics and clinical case studies include collaborative-decision-making, effective communication, planning and evaluation for patients with complex problems and conditions across the lifespan. With continual guidance, students assume greater responsibility for culturally competent and interdisciplinary anesthesia care.
Prerequisites: NUR 601, NUR 611, NUR 612, NUR 613, NUR 614, NUR 617, NUR 619, NUR 620.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 646. Interdisciplinary Anesthesia Nursing II. 10 Credit Hours.
Second integration and synthesis course of advanced knowledge and skills for interdisciplinary anesthesia nursing care for complex problems and conditions across the lifespan. With moderate guidance students assume greater responsibility for culturally competent and interdisciplinary anesthesia care.
Prerequisite: NUR 601 and NUR 611 and NUR 612 and NUR 613 and NUR 614 and NUR 617 and NUR 619 and NUR 620 and NUR 645.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 647. Advanced Practice Nursing Integration. 6 Credit Hours.
Integration of the components of the Advanced Practice Nursing role to analyze advanced practice issues.
Prerequisite: NUR 623 and 631.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 648. Internship. 0-7 Credit Hours.
Integration and role synthesis of Advanced knowledge and skills in nurse midwifery care for women and infants within diverse cultural clinical settings. Selected topics include practice management and clinical case studies to include diagnosis, collaborative practice, planning and evaluations of care for normal and complex conditions for the female adolescent, reproductive age woman and infant, the mature women and their families.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 650. Interdisciplinary Anesthesia Nursing III. 11 Credit Hours.
This course is the third and final integration and synthesis course of advanced knowledge and skills of interdisciplinary anesthesia nursing care for complex problems and conditions across the lifespan. With minimal guidance students assume greater responsibility for culturally competent and interdisciplinary anesthesia care.
Prerequisite: NUR 646.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 651. Qualitative Data Analysis. 3 Credit Hours.
The course is designed to help the student develop skills and understanding relating to the advanced analysis of qualitative data. The course assumes all students will either be in or nearing the analysis stages in their research. Focus is on preparation and management of text and media data for analyses; the creation and application of various types of coding to data; the distinctions in coding data evolving from different qualitative approaches; and analysis of longitudinal qualitative data. Permission required.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 652. Introduction to Clinical Inquiry I. 3 Credit Hours.
Combines clinical knowledge and hands-on clinical experience in an area of the student’s potential research interest. Students will practice under the supervision of an advanced practice nurse in the specialty area. Students are expected to begin the process of identifying clinical research problems.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 653. Introduction to Clinical Inquiry II. 5 Credit Hours.
Combines clinical knowledge and hands-on clinical experience in an area of the student’s potential research interest. Students will practice under the supervision of an advanced practice nurse in a specialty area. There will be a focus on health care delivery systems. Students are expected to translate clinical problems into researchable questions.
Prerequisite: NUR 674 Or NUR 669.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 654. The Evolution of Nursing Practice and Application of Theory in Nursing Practice. 3 Credit Hours.
This course is an overview of the conceptual foundations of nursing science and nursing practice. Knowledge from basic and applied sciences and ethics as well as the history of the global evolution of nursing practice are examined.
Requisite: Enrollment in the DNP Program.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

NUR 655. Health Care Management, Economics, Financing, and Ethics. 3 Credit Hours.
This course is an overview of health care management, financing, ethics and core and advanced concepts of health care economics. This course will also examine issues associated with health care management, economics, and ethics.
Requisite: Enrollment in the DNP Program.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 656. Global Health. 3 Credit Hours.
This course covers diverse topics that affect the health of the population and advanced practice nursing internationally. Requisite: Enrollment in the DNP Program.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
NUR 657. Population Based Health and Health Care Disparities. 3 Credit Hours.
This course is an overview of knowledge from nursing, public health and other disciplines for population based assessment. Population based models and frameworks from nursing, public health, and other disciplines will be explored. The importance of cultural and ethical dimensions in program development is highlighted.
Prerequisites: NUR 654 and NUR 656 and NUR 663 and NUR 664.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 658. Health Policy Development and Implementation. 3 Credit Hours.
An exploration of health care organizations and healthcare policy, and how change is effected in both. Health care policy and planning to address health care disparities at the local, state, and federal levels will be explored. Organizational diagnosis, organizational change, and ethical dimension of public policy formulations and implementation will be highlighted.
Requisite: Enrollment in the DNP Program.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 659. Technology in Health Care. 3 Credit Hours.
An exploration of the various aspects of the evolving technology to improve and transform health care and advanced practice nursing. This course prepares DNP nursing students to design, select and use technology to support, manage, and improve patient care and health care systems.
Requisite: Enrollment in the DNP Program.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 660. Translational Science. 3 Credit Hours.
Emphasis is on translational science which includes organizational readiness and promoting change in a health care environment. Focus is on utilizing systematic analysis to identify, plan, execute and appraise best evidence on selected topics.
Prerequisites: NUR 654 and NUR 663 and NUR 664.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 662. Nursing Epistemology. 3 Credit Hours.
Focus on historical and philosophical perspectives in the development of knowledge and patterns of knowing with in-depth examination of the evolution of nursing science. Analysis of concepts relevant to nursing phenomena. Approaches to scientific development in nursing with emphasis on theory building and theory generation.
Requisite: Must Be A Nursing PhD Student Or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 663. Research. 3 Credit Hours.
This course is an analysis of evidence-based nursing practice. During the course, students acquire the knowledge base to resolve clinical practice problems and direct evidence-based practice.
Requisite: Enrollment in the DNP Program.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

NUR 664. Applied Biostatistics for Nursing Practice. 3 Credit Hours.
This course is an overview of basic statistical concepts and computer applications related to healthcare, nursing, and biomedical research. An examination of both parametric and non-parametric statistics in program evaluation, testing and process outcomes, and/or basic research studies is included.
Requisite: Enrollment in the DNP Program.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 665. Quantitative Research Methods. 3 Credit Hours.
In-depth exploration of research methods and design for quantitative research in nursing. Emphasis on development of a research problem; quantitative research design from descriptive to randomized clinical trials; epidemiologic designs; threats to validity; sampling and power analysis; measurement including psychometric theory, data collection and management; and interpretation of data. Other topics include ethics, human subjects’ protection, and translation of findings into practice.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 667. Research Practicum. 1 Credit Hour.
Student participates in an ongoing research project under the guidance of a faculty member. Conducts the practical aspects of research including: IRB application/continuing reports, data collection and management.
Prerequisite: NUR 665 and NUR 670.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 669. Symptom Science in Nursing. 3 Credit Hours.
This course will provide the student with knowledge of symptom science in nursing, including biological, behavioral, environmental, socio-cultural, and clinical factors that may influence the trajectory of chronic illness. The course will also focus on theories and research designs to define and measure symptom experiences in health and illness for individuals and families.
Prerequisite: NUR 662 and NUR 665 and NUR 670.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 670. Qualitative Methods in Research. 3 Credit Hours.
Exploration of inductive approaches to research and the use of qualitative methods including grounded theory, ethnography, focus group, and phenomenology. The techniques include unstructured and structured interviews. Discussion of techniques, analysis, and the ethical and political implications of special problems in qualitative research.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 672. DNP Scholarly Project Seminar I. 3 Credit Hours.
Emphasis is on translational science which includes organizational readiness and promoting change in a health care environment. Focus is on utilizing systematic analysis to identify, plan, execute and appraise best evidence on selected topics.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.
NUR 673. DNP Scholarly Project Seminar II. 3 Credit Hours.
This second capstone course is the implementation and evaluation of the project developed in Capstone I.
Prerequisite: NUR 672.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 674. Applied Statistics: Generalized Linear and General Estimating Equations. 4 Credit Hours.
Overview of GLM, GZLM, and GEE, which combine many aspects of ANOVA/ANCOVA and multiple regression models for continuous and categorical independent and dependent variables, moderation/mediation, multiple independent variables, and repeated measures of dependent variables. Computer applications using real data and standard statistical software packages will be utilized.
Prerequisite: NUR 665 and NUR 670.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 676. Practice Immersion Experience I. 2-12 Credit Hours.
This course contains individually precepted learning experiences across the spectrum of advanced practice nursing in a variety of settings. Students develop expertise within the scope of their nursing practice.
Requisite: Enrollment in the DNP Program.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 679. Applied Statistics: Structural Equation Modeling and Hierarchical Linear Modeling. 3 Credit Hours.
Overview of structural equation modeling (SEM) and hierarchical linear modeling (HLM) for continuous, categorical, longitudinal, and nested data. Computer applications using real data and statistical software packages (Exel, SPSS, Mplus).
Prerequisite: NUR 674.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 680. Research Ethics. 1 Credit Hour.
This is a hybrid course that addresses the ethical and responsible conduct of research, protection of human subjects, and nursing science career development.
Requisite: Must Be A Nursing PhD Student Or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 681. Measurement of Nursing Phenomenon. 3 Credit Hours.
Development of instruments to measure a phenomenon of concern within the domain of nursing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 682. Advanced Practice Psychopharmacology. 2 Credit Hours.
Review of common psychoactive medications, classes, uses, effects, side effects, and prescriptive implications.
Components: DIL.
Grading: GRD.
Typically Offered: Spring.

NUR 683. Theoretical Bases for Advanced Practice Psychiatric Mental Health Nursing. 2 Credit Hours.
Review of theories and practice of individual, group and, family therapy; role of advanced practice mental health nursing, ethics, research, legislative practice.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 684. Advanced Practice Psychiatric Mental Health Nursing Therapeutic Interventions. 5 Credit Hours.
Assessment and treatment of persons with major psychiatric disorders.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 685. Advanced Practice Psychiatric Mental Health Nursing Preceptorship. 4 Credit Hours.
Clinical preceptorship with experience in individual, and group, therapy. Includes experiences in prescribing psychoactive medications.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 686. Advanced Practice Psychiatric Mental Health Nursing Preceptorship II. 5 Credit Hours.
Clinical preceptorship with experience in individual, and family therapy. Includes experiences in prescribing psychoactive medications.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

NUR 688. Health Systems Development and Leadership Practice Immersion II. 2 Credit Hours.
This course contains individually precepted learning experiences across the spectrum of nursing in a variety of settings. Students develop expertise within the scope of their nursing practice.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 689. New Method of Implementation-Practice Immersion Experience III. 2 Credit Hours.
This course contains individually precepted learning experiences across the spectrum of nursing in a variety of settings. Students develop expertise within the scope of their nursing practice.
Prerequisites: NUR 676, NUR 688.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 690. Independent Study. 1-6 Credit Hours.
A in depth study of a specified area in advanced nursing of special interest to the student, under faculty guidance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
NUR 694. Clinical Practicum for DNP Nurse Anesthesia Clinical. 7 Credit Hours.
This course is the clinical integration and synthesis of advanced knowledge and skills of interdisciplinary anesthesia nursing care for complex problems and conditions across the lifespan. Students assume responsibility for culturally competent and interdisciplinary anesthesia care with minimal assistance.
Prerequisite: NUR 650.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 695. Clinical Practicum for DNP Nurse Anesthesia. 9 Credit Hours.
This course is the clinical integration and synthesis of advanced knowledge and skills of interdisciplinary anesthesia nursing care for complex problems and conditions across the lifespan. Students assume responsibility for culturally competent and interdisciplinary anesthesia care with minimal assistance.
Prerequisite: NUR 694.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.

NUR 696. Crafting the Dissertation Proposal Part I. 2 Credit Hours.
The course is designed to help students focus and refine their ideas for their dissertation proposals. Focus is on developing and refining the ideas for the dissertation, and writing the introductory/review of the literature/methods chapters. The student will also begin preparation for a grant submission. During the semester, the course instructors will assist the student in choosing a dissertation chair who will also provide input into the proposal.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NUR 697. Selected Topics. 0-12 Credit Hours.
Subject matter offerings based upon student demand and availability of faculty. Subtitles describing topics will be shown in class schedule in parentheses after selected topic notation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 698. Selected Topics. 0-6 Credit Hours.
Subject matter offerings based upon student demand and availability of faculty. Subtitles describing topics will be shown in class schedule in parentheses after selected topic notation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NUR 699. Special Topics in Nursing Research. 1-3 Credit Hours.
Directed or independent research in collaboration with a faculty member providing opportunity for participation in ongoing nursing research. Specific requirements and credit allocation determined by contractual arrangement between student and faculty member.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NUR 700. Post Master Clinical. 0-12 Credit Hours.
Post Master Clinical
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 701. Clinical Continuation. 0-6 Credit Hours.
Clinical Continuation
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NUR 702. Adult Gerontology III. 7 Credit Hours.
Integration of the components of the Advanced Practice Nursing role to analyze adult gerontology advanced practice issues.
Prerequisite: NUR 631.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 707. Becoming a Successful Nurse Scientist. 2 Credit Hours.
In this course, students will individually with a faculty member to develop the study's scholarship. Faculty and students will identify student strengths and weaknesses and create a specific plan for improvement. The goal of this course is to produce a student first author manuscript for submission to a peer-reviewed scientific journal, and an abstract for submission to a scientific conference.
Prerequisite: NUR 681 and NUR 679.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 708. Scholarship in Nursing. 1 Credit Hour.
This course builds skills for academic and career success, provides a forum for discussing current issues in nursing that have implications for research, and professional development.
Prerequisite: NUR 674 and NUR 680 and NUR 669.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 709. Selected Topics in Nursing Research. 3 Credit Hours.
This course involves a critical analysis of emerging issues in nursing research, including priority research areas of the National Institute of Nursing Research (NINR) and the focal research areas of the School of Nursing and Health Studies.
Prerequisite: NUR 679 and NUR 708.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NUR 710. Scholarship in Nursing Part II. 2 Credit Hours.
The course is designed to help students learn how to pursue funding for their dissertation research, and write the third(methods) chapter of their dissertation proposal. In addition to attending class, students are expected to meet regularly with their advisor (future Dissertation Chair) to obtain his/her input on assignments.
Prerequisite: NUR 696. And NUR 671.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NUR 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: DIS.
Grading: SUS.
Typically Offered: Fall & Spring.
Ocean Sciences (OCE)

OCE 503. Physical Oceanography. 3 Credit Hours.
Introduction to properties of seawater, instruments and methods, heat budget, general ocean circulation, formation of water masses, dynamics of circulation, regional oceanography, waves, tides, and sea level. A mathematical and problem solving course for majors in MPO.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 508. Introduction to Ocean Systems Engineering. 3 Credit Hours.
This course will provide a survey introduction to various aspects of ocean systems engineering. This is a required course for all students enrolled in the Master of Science (non-thesis) in Ocean Engineering Program. It is intended to be taught in the first term of their studies, before they have fully refined their courses. It could also be of interest to graduate students in OCE and upper level undergraduate engineering, marine science or mathematics majors who are seeking to inform themselves on the breadth of study in ocean engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 509. Coastal Physics and Engineering. 3 Credit Hours.
Course addresses linear wave theory, wave statistics, wave generation, tides, wind-driven currents, nearshore circulation, sediment transport by waves and currents, bedforms, bedload, and suspended load. Other topics include longshore and cross-shore transport, equilibrium beach profiles, coastal processes models, Pelnard-Considere model for shoreline change, and Escoffier model for inlet stability.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 511. Geophysical Fluid Dynamics I. 3 Credit Hours.
The basic equations of state, continuity, and motion. Topics include wave motions, group velocity, theory of stratified fluids and internal waves, turbulence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 512. Marine Organic Geochemistry. 3 Credit Hours.
Broad introduction to the chemical constituents comprising organic matter in marine environments. This course will address how biological origins, dietary and detrital reworking, and physical phase influence the distribution and fluxes of organic matter in the marine carbon cycle, on both short and long timescales. Topics will address both the water column and sediments, in open-ocean and coastal environments. Students may choose topics of specific interest to their research for presentations and writing assignments (subject to instructor approval). The first half of the course will focus on the chemistry and physical phases of organic matter; the second half will focus on discussing the application of organic geochemical tools to environmental questions via the primary literature.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 522. Marine Microbial Dynamics. 3 Credit Hours.
An overview of the function of microbes in the ocean from a chemical perspective, building a quantitative understanding of cellular needs and metabolic functions, and the role these microbial processes play in controlling chemical fluxes and biogeochemical cycles in the ocean.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 531. Ocean Data Analysis. 3 Credit Hours.
Useful and widely used ocean data analysis techniques are discussed. Topics covered include: a review of statistical concepts and linear algebra; time series analysis; least squares and regression techniques; principal component analysis; optimization and inverse methods; and simple models of ocean processes. Computational methods are emphasized. Choice of the material covered is dictated in part by student interest.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 536. Hurricanes. 3 Credit Hours.
This course is intended to provide a broad overview of tropical cyclones, starting from the basic structure, dynamics and thermodynamics, then expanding through to observations, modeling, forecasting and impacts.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 537. Natural Hazards: Atmosphere and Ocean. 3 Credit Hours.
This course is designed to provide students with an understanding of natural hazards in both the atmosphere and ocean. In the atmosphere, we will explore both weather events such as storms and hurricanes and tropical cyclones as well as longer term phenomena such as monsoons and El Niño/La Niña. Oceanographically, the course will address hazards such as storm surge and flooding, rogue waves, rip currents, and tsunamis that occur on short time scales as well as the longer term effects such as sea level rise and the impacts of El Niño/La Niña oceanographic conditions on weather conditions. Thus, the course focus is on hazards and their impacts around the globe.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
OCE 542. Physics of Remote Sensing I - Passive Systems. 3 Credit Hours.
Course discusses basic physical principles of remote sensing with emphasis on optical and passive systems. Topics include orbital dynamics, sampling issues, fundamental laws of electromagnetic waves, passive remote sensing in the visible, infrared and microwave parts of the electromagnetic spectrum, a survey of satellite sensors and summary of the derived geophysical variables.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 543. Physics of Remote Sensing II - Active Systems. 3 Credit Hours.
Course discusses basic physical principles of remote sensing with emphasis on active and radar systems. Topics include electromagnetic theory, radar equation, antenna theory and pulse compression, radar scattering physics; sea surface processes relevant to radar imaging, scatterometry, synthetic aperture radar (SAR), altimetry, HF Doppler radar, marine radar, satellite orbits, brief overview of passive remote sensing techniques.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 551. Applied Ocean Acoustics and Marine Mammals. 3 Credit Hours.
The objective of this course is to provide a basis in the fundamental of sound in the sea and on the effects of sound on marine mammals.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 575. Fluid Mechanics. 3 Credit Hours.
The equations governing the dynamics of homogeneous fluids are derived. The concepts of deformation rates, vorticity, stream function, and ideal fluid flow are introduced and demonstrated in applications describing flows in the marine environment. Semi-empirical methods for analyzing viscous flows, boundary layers, and turbulence are presented. Eddy viscosity and more advanced turbulence closure schemes are discussed in the context of coastal circulation, bottom boundary layers and sediment transport.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 576. Wave Propagation in the Ocean Environment. 3 Credit Hours.
Review of vector analysis, basic principles of fluid mechanics, equations of surface gravity waves, linear dispersion relation, phase and group velocity, wave dispersion, orbital motions, wave refraction, diffraction, reflection, ray tracing, frequency and wavenumber spectra, fundamentals of wave modeling, action balance equation, wave generation, wave dissipation, wave-wave interaction, wave-current interaction, Stokes drift, internal waves.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 582. Special Topics. 1-4 Credit Hours.
Lectures, research projects or directed readings in special topics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 583. Special Topics. 1-4 Credit Hours.
Lectures, research projects or directed readings in special topics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 584. Special Topics. 1-4 Credit Hours.
Lectures, research projects or directed readings in special topics of Marine and Atmospheric Chemistry.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 586. Applied Remote Sensing. 3 Credit Hours.
Provides a detailed overview of applications of passive remote sensing using visible, infrared and microwave radiometers. Orbit and satellite characteristics are discussed. Hands-on data processing and analysis using readily accessible image processing software is included. Access to satellite data archives is explained. Students are also expected to attend Physics of Remote Sensing I - Passive Systems, and Physics of Remote Sensing II - Active Systems, which focus on the theory of remote sensing. The companion course, Applied Radar Remote Sensing, is offered in the spring semesters.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 587. Applied Radar Remote Sensing. 3 Credit Hours.
This course complements Physics of Remote Sensing II with additional lectures and exercises tailored specifically to the needs of MPS students. Topics covered: Active vs. passive remote sensing, satellite station operations, how to work with satellite radar images, imaging geometry and sampling characteristics, introduction to IDL, hands-on SAR data analysis examples, hands-on marine radar data analysis.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 602. Oceanography II (Physical). 2 Credit Hours.
The second section of the course core curriculum designed as an integrated and multidisciplinary view of ocean processes, covering the major disciplines of marine science and their applications to the study of the marine environment. To be taken in sequence with Oceanography I - Geological (MGG 501), Oceanography I II - Chemical (MAC 501), and Oceanography IV - Biological (MBF 502). This course is for non-MPO majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 603. Physical Oceanography. 3 Credit Hours.
Introduction to properties of seawater, instruments and methods, heat budget, general ocean circulation, formation of water masses, dynamics of circulation, regional oceanography, waves, tides, and sea level. A mathematical and problem solving course for majors in MPO.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
OCE 608. Introduction to Ocean Systems Engineering. 3 Credit Hours.
This course will provide a survey introduction to various aspects of ocean systems engineering. This is a required course for all students enrolled in the Master of Science (non-thesis) in Ocean Engineering Program. It is intended to be taught in the first term of their studies, before they have fully refined their courses. It could also be of interest to graduate students in OCE and upper level undergraduate engineering, marine science or mathematics majors who are seeking to inform themselves on the breadth of study in ocean engineering.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 609. Coastal Physics and Engineering. 3 Credit Hours.
Course addresses linear wave theory, wave statistics, wave generation, tides, wind-driven currents, nearshore circulation, sediment transport by waves and currents, bedforms, bedload, and suspended load. Other topics include longshore and cross-shore transport, equilibrium beach profiles, coastal processes models, Peland-Considere model for shoreline change, and Escoffier model for inlet stability.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 610. Ocean Biogeochemistry. 3 Credit Hours.
Introductory course to understand the ocean as a system. It will cover the interactions between biological, chemical, and geological processes in the environment, all within the context of physical controls. In the ocean, biogeochemistry includes the cycling of both major (e.g., C, N, P, Si, O) and minor elements (such as Fe). Tracing the spatial and temporal variability of these elements provides insights on the biological and geochemical processes at work, as well as the hydrographic and other controls on those processes. In this course, the physical ocean system is introduced in the context of its controls on the biological system, which in turn controls distributions of bioactive elements. Considered here are the major processes controlling ocean productivity, its roles as a carbon sink, organic matter production and consumption, the cycling of nutrients, the inorganic carbon system, and biogeochemistry of the sediments.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 611. Geophysical Fluid Dynamics I. 3 Credit Hours.
The basic equations of state, continuity, and motion. Topics include wave motions, group velocity, theory of stratified fluids and internal waves turbulence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 612. Marine Organic Geochemistry. 3 Credit Hours.
Broad introduction to the chemical constituents comprising organic matter in marine environments. This course will address how biological origins, dietary and detrital reworking, and physical phase influence the distribution and fluxes of organic matter in the marine carbon cycle, on both short and long timescales. Topics will address both the water column and sediments, in open-ocean and coastal environments. Students may choose topics of specific interest to their research for presentations and writing assignments (subject to instructor approval). The first half of the course will focus on the chemistry and physical phases of organic matter; the second half will focus on discussing the application of organic geochemical tools to environmental questions via the primary literature.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 615. Tracers of Oceanographic Processes. 3 Credit Hours.
Course describes the various tracer techniques used by oceanographers to understand water transport and mixing, sedimentation, gas exchange, nutrient recycling, and transport. Tracers used are both natural occurring and anthropogenic. This course is of interest to students from various disciplines.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 622. Marine Microbial Dynamics. 3 Credit Hours.
An overview of the function of microbes in the ocean from a chemical perspective, building a quantitative understanding of cellular needs and metabolic functions, and the role these microbial processes play in controlling chemical fluxes and biogeochemical cycles in the ocean.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 631. Ocean Data Analysis. 3 Credit Hours.
The course is intended to jump-start students in strategies for fruitful computer interaction practices for careers in MPO areas of science. Academic topics include key concepts in probability & statistics, issues of graphical evidence and inference, linear models and regression, spectral analysis, and matrix decomposition. Practical topics include hands-on exercises in data analysis and the sharing of code+results and interpretation. Students do projects on data from their research or interests.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 632. Applied Data Analysis. 3 Credit Hours.
The course is intended to jump-start students in strategies for fruitful computer interaction practices for careers in MPO areas of science. Academic topics include key concepts in probability & statistics, issues of graphical evidence and inference, linear models and regression, spectral analysis, and matrix decomposition. Practical topics include hands-on exercises in data analysis and the sharing of code+results and interpretation. Students do projects on data from their research or interests.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 631. Ocean Data Analysis. 3 Credit Hours.
Useful and widely used ocean data analysis techniques are discussed. Topics covered include: a review of statistical concepts and linear algebra; time series analysis; least squares and regression techniques; principal component analysis; optimization and inverse methods; and simple models of ocean processes. Computational methods are emphasized. Choice of the material covered is dictated in part by student interests.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
OCE 635. Introduction to Underwater Acoustics. 3 Credit Hours.
Course topics include sound waves and pulses, harmonic analysis, sound propagation in the ocean, sonar systems, scattering and absorption, acoustic measurement of marine life and sea-floor properties, sound transmission in waveguides, ambient noise, transducers, and hydrophones.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 636. Hurricanes. 3 Credit Hours.
This course is intended to provide a broad overview of tropical cyclones, starting from the basic structure, dynamics and thermodynamics, then expanding through to observations, modeling, forecasting and impacts.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 637. Natural Hazards: Atmosphere and Ocean. 3 Credit Hours.
This course is designed to provide students with an understanding of natural hazards in both the atmosphere and ocean. In the atmosphere, we will explore both weather events such as storms and hurricanes and tornadoes as well as longer term phenomena such as monsoons and excess rainfall in the tropics. Oceanographically, the course will address hazards such as storm surge and flooding, rogue waves, rip currents, and tsunamis that occur on short time scales as well as the long term effects such as sea level rise and the impacts of El Niño and La Niña oceanographic conditions on weather conditions. Thus, the course focus is on hazards and their impacts around the globe.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 642. Physics of Remote Sensing I - Passive Systems. 3 Credit Hours.
Course discusses basic physical principles of remote sensing with emphasis on optical and passive systems. Topics include orbital dynamics, sampling issues, fundamental laws of electromagnetic waves, passive remote sensing in the visible, infrared and microwave parts of the electromagnetic spectrum, a survey of satellite sensors and summary of the derived geophysical variables.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 643. Physics of Remote Sensing II - Active Systems. 3 Credit Hours.
Course discusses basic physical principles of remote sensing with emphasis on active and radar systems. Topics include electromagnetic theory, radar equation, antenna theory and pulse compression, radar scattering physics; sea surface processes relevant to radar imaging, scatterometry, synthetic aperture radar (SAR), altimetry, HF Doppler radar, marine radar, satellite orbits, brief overview of passive remote sensing techniques.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 651. Applied Ocean Acoustics and Marine Mammals. 3 Credit Hours.
The objective of this course is to provide a basis in the fundamental of sound in the sea and on the effects of sound on marine mammals.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 655. Transport and Mixing Process in the Marine Environment. 3 Credit Hours.
Heat and constituent transport and mixing processes in the marine environment. Derivation of the fundamental equations governing heat and constituent transport and mixing processes, steady and unsteady state heat transfer by conduction, laminar and turbulent convection, and radiation, steady and unsteady state constituent transfer by diffusion and laminar and turbulent convection, mixing and flushing in tidally driven coastal waters are also discussed.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 668. Marine Isotopic Processes. 3 Credit Hours.
The use of isotopic methods in geology, geochemistry, and geophysics including oceanography and meteorology. General laws governing isotopic effects in chemical and physical processes are discussed as well as specific problems in dating, tracing, and paleotemperatures.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 673. Applied Underwater Acoustics. 3 Credit Hours.
Course topics include sonar systems and operating characteristics, scattering and reverberation, target strength, signal processing, transducers and arrays, detection and noise, and acoustic telemetry.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 675. Fluid Mechanics. 3 Credit Hours.
The equations governing the dynamics of homogeneous fluids are derived. The concepts of deformation rates, vorticity, stream function, and ideal fluid flow are introduced and demonstrated in applications describing flows in the marine environment. Semi-empirical methods for analyzing viscous flows, boundary layers, and turbulence are presented. Eddy viscosity and more advanced turbulence closure schemes are discussed in the context of coastal circulation, bottom boundary layers and sediment transport.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 676. Wave Propagation in the Ocean Environment. 3 Credit Hours.
Review of vector analysis, basic principles of fluid mechanics, equations of surface gravity waves, linear dispersion relation, phase and group velocity, wave dispersion, orbital motions, wave refraction, diffraction, reflection, ray tracing, frequency and wavenumber spectra, fundamentals of wave modeling, action balance equation, wave generation, wave dissipation, wave-wave interaction, wave-current interaction, Stokes drift, internal waves.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 680. Transport and Mixing Process in the Marine Environment. 3 Credit Hours.
Lectures, research projects or directed readings in special topics.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 681. Special Topics. 1-4 Credit Hours.
Lectures, research projects or directed readings in special topics.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
OCE 682. Special Topics. 1-4 Credit Hours.
Lectures, research projects or directed readings in special topics.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.

OCE 683. Special Topics. 1-4 Credit Hours.
Lectures, research projects or directed readings in special topics.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.

OCE 684. Special Topics. 1-4 Credit Hours.
Lectures, research projects or directed readings in special topics.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.

OCE 686. Applied Remote Sensing. 3 Credit Hours.
Provides a detailed overview of applications of passive remote sensing using visible, infrared and microwave radiometers. Orbit and satellite characteristics are discussed. Hands-on data processing and analysis using readily accessible image processing software is included. Access to satellite data archives is explained. Students are also expected to attend Physics of Remote Sensing I - Passive Systems, and Physics of Remote Sensing II - Active Systems, which focus on the theory of remote sensing. The companion course, Applied Radar Remote Sensing, is offered in the spring semesters.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

OCE 687. Applied Radar Remote Sensing. 3 Credit Hours.
This course complements Physics of Remote Sensing II with additional lectures and exercises tailored specifically to the needs of MPS students. Topics covered: Active vs. passive remote sensing, satellite station operations, how to work with satellite radar images, imaging geometry and sampling characteristics, introduction to IDL, hands-on SAR data analysis examples, hands-on marine radar data analysis.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Spring.

OCE 701. Mathematical Methods in Marine Physics. 3 Credit Hours.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

OCE 705. Chemical Oceanography. 3 Credit Hours.
This course will introduce students to the chemistry of the oceans, descriptive chemical oceanography of the components of ocean waters (metals, gases, organic compounds and nutrients), and biogeochemical cycles in oceanic systems.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

OCE 711. Geophysical Fluid Dynamics II. 3 Credit Hours.
The focus of this course is on the effects of stratification, on time variable phenomena, and on the interaction between large-scale circulation and mesoscale eddies. Course topics include quasi geostrophic scale analysis, Rossby waves, barotropic and baroclinic instability, wave-mean flow interaction and non-geostrophic waves.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Spring.

OCE 712. Large Scale Ocean Circulation: Models and Observations. 3 Credit Hours.
Course topics include theoretical models of the oceanic current systems, wind-driven and thermohaline circulation, effects of bottom topography, and lateral bounding.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Spring.

OCE 716. Lagrangian Fluid Dynamics and Predictability. 3 Credit Hours.
The ash cloud produced by the eruption of Eyjafjallajokull in Iceland, the oil spill produced by the explosion of the Deepwater Horizon drilling rig in the Gulf of Mexico, and release of debris and radioactive contamination into the Pacific Ocean after the Fukushima nuclear reactor was hit by the Tohoku tsunami, are examples of events that have caused considerable impact to the environment. They all represent problems in Lagrangian ocean or atmospheric dynamics in which predicting where the material released into the environment will be transported by the ocean currents or winds is critical. A common approach to predict the outcome of an event like the above is to run an ocean or atmosphere circulation model simulations and then integrate the resulting velocity fields from a given release location to predict pollutant trajectories. An important drawback of such an approach is that the predictions are highly sensitive to small changes in the release time and location. Attempts to cope with the sensitivity to initial conditions include running several different models for the same scenario, but this typically leads to even larger distributions of advected tracers, hiding the key organizing structures of the flow. Improved understanding and forecasting requires novel notions and techniques capable of casting light on why material is transported the way it is by a given flow. The goal of this course is acquaint the student with a series of recent developments originated at the interface of nonlinear dynamics and fluid dynamics that have led to a number of novel such notions and techniques.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

OCE 720. Marine Physical Chemistry. 3 Credit Hours.
Physical-chemical principles applied to the marine environment, based on thermodynamics and the study of rate processes.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.
OCE 721. Waves and Tides I. 3 Credit Hours.
The focus of this course is on the kinematics, dynamics and energetics of wave motions in the ocean and atmosphere from both theoretical and observational perspectives. We examine the internal wave spectrum ranging from the buoyancy frequency to the inertial frequency including the WKBJ scaling of the momentum by the buoyancy frequency. The IW spectrum often contains both the semidiurnal and diurnal tidal frequencies where the former is often referred to as internal tide that are excited along continental margins by barotropic tides. Within the context of normal modes, Kelvin and topographically Rossby waves are also present in this regime known as coastally trapped (also known as continental shelf waves). The course then goes into the equatorial wave guide that supports these motions (except for near-inertial motions). This is followed by the forced wave motions by atmospheric fronts and cyclones where Green's functions are introduced to derive analytical expressions for the 3-D current structure.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 724. Statistical Modeling of Geophysical Fields. 3 Credit Hours.
An advanced course in statistical modeling, analysis, and assimilation of geophysical data. Emphasis is placed on practical applications, computer software, and new nonstandard techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 731. Air-Sea Interaction. 3 Credit Hours.
Oceanic and atmospheric mixed layers including fluxes of heat, momentum, moisture and salt between the ocean and atmosphere; vertical distribution of energy sources and sinks at the interface including the importance of surface currents; forced upper ocean dynamics, the role of surface waves on the air-sea exchange processes and ocean mixed layer processes.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 735. Life in Moving Fluids. 3 Credit Hours.
The physical characteristics of fluids are described and quantified in relation to various flow phenomena that play a part in life functions. Adaptations of forms and functions reflect the different properties of the media. Energy conversion and transfer limit form and function and enable a wide variety of survival strategies. This course is mainly about the adaptation of marine organisms to moving fluids, small scale movement ecology, and diversity in physical constraints and adaptation in marine ecosystem.
Prerequisite: OCE 701.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 736. Modeling of Physical-Biological Interactions. 3 Credit Hours.
The course is designed to teach students the basics components for building coupled physical biological models. Students will be able to understand the processes affecting from low- to high-trophic level organisms in the planktonic environment. Emphasis will be given on numerical simulations of mechanisms involved in: Plankton distribution and patchiness; Trophic interactions (NPZD); Larval behavior and transport; Marine population connectivity.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 750. Coastal Ocean Circulation. 3 Credit Hours.
The oceanography of the continental margins are where tides, winds and waves interact on a spectrum of temporal and spatial scales in driving the shelf circulation from the shelf break to the inner shelf. The effects of baroclinicity, topography (and bottom stresses) will be explored in this course. We will highlight fundamental differences between wide versus narrow shelves, and those where boundary currents impact the shelf circulation such as the Loop Current on the west Florida shelf; Florida Current and Gulf Stream along the east coast; and the weaker and broader California Current along the US west coast.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 752. Vortex Dynamics. 3 Credit Hours.
This course will cover fundamental to advanced topics in vortex dynamics. A review of fluid dynamics and vorticity in two dimensions will be followed by studies of vortex dynamics in three-dimensional, incompressible flow and in three-dimensional, stratified flow.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 754. Oceanic and Atmospheric Turbulence. 3 Credit Hours.
An advanced course in statistical modeling, analysis, and assimilation of geophysical data. Emphasis is placed on practical applications, computer software, and new nonstandard techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 762. Computer Models in Fluid Dynamics. 3 Credit Hours.
Course topics include numerical techniques of dealing with dynamic problems in meteorology and oceanography. Dynamic prediction models, initial data conditioning, computational stability, and error estimates are also included.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 763. Environmental Photochemistry. 3 Credit Hours.
Introduction to the principles of photochemistry and their application to understanding sunlight initiated processes in the region of the ocean-atmosphere interface. Organic and inorganic photochemical reactions and subsequent thermal reactions in solution, gas, and solid media are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 764. Atmospheric and Oceanic Turbulence. 3 Credit Hours.
Structure and dynamics of planetary boundary layers, turbulent transport processes, Fickian and statistical theories of turbulence, influence of stratification, and rotation on turbulent motion are discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
OCE 767. Spectral and Finite Element Methods in Computational Fluid Dynamics. 3 Credit Hours.
The simulation of fluid flows in geometrically complex domains (like ocean basins) and/or with high fidelity requires the adoption of new discretization techniques that can simultaneously handle the complicated geometry and permit high accuracy solution. The finite element method has traditionally been used to tackle the geometric complexity while spectral methods have been developed to handle high accuracy in simple geometries. Here we present an approach to handle both complexity within a single framework, namely the spectral element method. The course starts by describing the weak formulation common to all finite element methods which, by design, are geometrically flexible. The second part of the course describe how high order polynomial can be implemented within the finite element framework to achieve high accuracy rates.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 768. Marine Trace Element Geochemistry. 3 Credit Hours.
This course includes an in-depth discussion on all major aspects of oceanic trace element cycle and their application in oceanography and climate studies. The discussed topics include distribution, controlling processes, trace element speciation, isotopes, the role of trace elements in oceanic cycle of major nutrients and the application in the studies of past ocean history and climate. New data and major findings of the ongoing GEOTRACES program will also be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 770. Seminar in Ocean Sciences. 1 Credit Hour.
Oral presentation of research and special topics by students, faculty, and visiting scientists.
Components: SEM.
Grading: SUS.
Typically Offered: Fall & Spring.

OCE 772. Advanced Underwater Acoustics. 3 Credit Hours.
Analysis and numerical modeling of sound propagation in the ocean: geometrical acoustics, normal mode theory, and the parabolic equation method. Recent advances in underwater acoustics: effects of oceanic variability, signal fluctuations, random medium propagation, ocean bottom interactions, and shallow water propagation are also examined.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 776. Mesoscale Oceanography. 3 Credit Hours.
The course will present a current view of our understanding of ocean mesoscale variability, including its properties in different oceanic regimes, the dynamics governing its origin and development, and its overall role in the oceans and climate. Lectures will present material covering theory, observations (both in situ and satellite), and numerical model results. Students will learn basic concepts on ocean mesoscale processes and perspectives on current research topics from lectures, assignments and research papers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OCE 780. Capstone Independent Study of Coastal Engineering (MSOE). 3 Credit Hours.
OCE 780 is an independent study course in the field of Coastal Engineering that is intended to be a final semester capstone project in the MS in Ocean Engineering program. The student will work with the instructor to select a laboratory or field experimental project of interest related to coastal oceanographic engineering. The student will review the background of similar studies, design the project applying appropriate scaling laws (in the case of the laboratory studies), design the measurements to be taken and the protocols for doing so. The student will assist in model construction as required. Data will be collected, analyzed and archived. A report will be prepared and presented at an open seminar on campus.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

OCE 785. Advanced Studies. 1-3 Credit Hours.
Supervised study in areas of special interest to graduate students.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 786. Advanced Ocean Measurements. 2 Credit Hours.
Theory and techniques of ocean measurements, ocean data systems, and processing and ocean data transmission are discussed. Lecture, 2 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 790. Mechanics and Thermodynamics of the Air-Sea Interface. 3 Credit Hours.
This course deals with the theory and practice of air-sea interaction. Two hours of lectures and one hour in the wind-wave laboratory provide an appropriate mix of theory and experiment. The topics covered include: thermodynamics of the interface; conservation equations; wave generation, propagation, and dissipation; boundary layer turbulence; heat, mass, and momentum transfer; energy dissipation, intermittency; turbulence closure; and wave prediction models.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OCE 795. Advanced Studies. 1-3 Credit Hours.
Supervised study in areas of special interest to graduate students.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 798. Advanced Studies. 1-3 Credit Hours.
Supervised study in areas of special interest to graduate students.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

OCE 805. MPS Internship. 1-6 Credit Hours.
The Master of Professional Science internship is an approved, supervised internship project with an organization engaged in activities associated with the student's degree track. The internship results in a collaborative project, written report, and oral presentation on a topic approved by the student's advisory committee. Up to 6 credits are necessary for graduation.
Components: PRA.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.
OCE 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

OCE 830. Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor but not for less than a total of 12. Not more than 12 hours of OCE 830 may be taken in a regular semester, nor more than 6 in a summer session. Where a student has passed his/her (a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

**Opthalmology (OPH)**

**OPH 610. Anatomy and Physiology of the Eye. 1 Credit Hour.**
This course introduces the major anatomical and physiological regions of the eye, including cornea, lens, retina, optic nerve, cranial nerves and extracellular tissues. Emphasis is placed on the relationship between the eye and others systems. Demonstrations include eye dissection, visual testing and visual perception experimentation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

**OPH 615. Pathology of Eye Diseases. 1 Credit Hour.**
This course covers in detail the major pathologies of the eye, including congenital diseases and syndromes, infectious diseases, tumors and adult-onset degenerations. Emphasis is placed on pathophysiological mechanisms contributing to pathology, and also covers examination of the eye, diagnostic features, and management of major eye diseases. Demonstrations include histological sections, OCT, visual field and angiogram, and associated diagnostic criteria.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

**OPH 620. Ocular Pharmacology, Epidemiology, and Biostatistics. 1 Credit Hour.**
Course will teach local anesthetics, anti-infectious, anti-allergic agents, control of ocular pain, adverse ocular and systemic reactions caused by therapeutic agents will be part of the course. Ocular therapeutic principles (pharmacokinetics and pharmacodynamics, toxicity), sources of drug information, new drug development, drug regulations as applicable to different areas of operation including prescription writing will be discussed. An introductory course in epidemiologic and biostatistics methodology covering study design for investigation of both infectious and chronic diseases of the eye; screening programs and health services research will also be discussed. Outbreak investigation, natural history of infectious diseases, validity of clinical tests, survival analysis, and clinical trial and etiologic studies will be discussed. Methods of biostatistician evaluation of experiment design and analyses of data to decipher significant from non-significant results and general tools for statistical analyses will be reviewed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

**OPH 625. Microbiology and Immunology of the Eye. 1 Credit Hour.**
Students will learn concepts and terminologies of immunology, bacteriology, virology, parasitology and mycology with an emphasis on mechanisms of microbial disease transmission and host defense mechanisms. Students become familiar with the types of organisms responsible for human disease, the mechanisms by which they produce disease, and the application of this knowledge to the treatment of patients. This course integrates the biomedical disciplines of immunology and medical microbiology. Infectious and immunological diseases with relevance to the clinical setting and pharmacological approaches will be presented. A basic understanding of the classification and characteristics of infectious microorganisms, the mechanisms by which infectious agents cause disease, and methods of both prevention and treatment are highlighted. Causes and treatment of immune diseases will also be presented. Concepts of inflammation, sepsis, cell injury, tissue repair, hemodynamic disorders, genetic disorders, environmental and nutritional pathology, immunodeficiency diseases, autoimmune and metabolic diseases will be presented. Throughout the course, small group tutorials and interactive clinical correlations based on clinical cases linking basic science concepts to clinical medicine will be presented. Tutorials, clinico-pathological correlations and laboratories emphasize problem-solving skills, integration of knowledge and independent learning.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

**OPH 630. Ophthalmic Genetics. 1 Credit Hour.**
This course provides an overview of the influence of genetics in ophthalmology with respect to understanding pathogenic mechanisms of eye diseases, and the development of novel therapeutic strategies. The course will provide an introduction to complex and Mendelian genetics, and research strategies involved in identifying disease-associated genetic changes. Specific topics include hereditary retinal diseases, genetic associations in age related macular degeneration and glaucoma, genetics of myopia and optic nerve diseases, and mitochondrial disorders affecting the eye. Additional discussions include current gene therapy clinical trials.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

**OPH 635. Electrophysiology of the eye. 1 Credit Hour.**
This course will introduce the basic principles of electrophysiology of the eye, identify neural signals, neurotransmitters, molecular signaling within neurons. Additionally, the sensation and sensory systems. Emphasis is placed on the relationship between the eye and other signals and senses. Corequisite: OPH 663.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
OPH 640. Vision and Optics. 2 Credit Hours.
This course will provide an introduction to the principles of geometrical optics and its application to the study and assessment of the visual system. Topic covered will include fundamental of geometrical optics, principles of optical system components (lenses, mirrors, prisms, light sources), optics of the eye and vision correction, basic principles of visual optical instruments (loupe, microscopes, telescopes), and principles and applications of ophthalmic diagnostic and imaging systems, including ophthalmoscopes, retinoscopes, slit-lamp, keratometers, corneal topography systems, aberrometers and optical coherence tomography.
Corequisite: OPH 662.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

OPH 645. Biochemistry, Cellular and Molecular Ophthalmology. 2 Credit Hours.
An introduction to biochemistry with emphasis on ocular clinical applications. Topics will include nutrition, cellular biology, biochemistry of tears, conjunctiva, and cornea. The structure and functions of proteins and enzymes as well as metabolism of carbohydrates and lipids will be discussed. Case studies and journal articles will be used to demonstrate the useful applications of these principles to ocular health-related issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OPH 661. LAB: Basic Biochemistry, Microbiology, and Pathology. 3 Credit Hours.
Experiments related to molecular biology (includes PCR, DNA cloning, hybridization analysis, restriction mapping, and DNA sequence analysis), protein purification and analysis (salt fractionation, ion exchange chromatography, affinity chromatography, SDS-PAGE, and immuno-blottting), and determination of enzyme kinetic parameters.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

OPH 662. Lab: Basic and Applied Optics and Statistics. 1 Credit Hour.
This laboratory course serves as a companion to the Vision and Optics course. It will include practical hands-on examples of the application of geometrical optical theory to the design and calculation of optical systems, provide an initial hands-on experience with basic optical system setup on an optical bench, and provide basic hand-on training or demonstration of ophthalmic diagnostic techniques and instruments, including refraction, ophthalmoscopy, retinoscopy, slit-lamp examination, aberrometry, corneal topography and optical coherence tomography.
Corequisite: OPH 640.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

OPH 663. Lab: Electrophysiology, Clinical Testing and Applications. 1 Credit Hour.
This laboratory work will introduce the students to novel clinical recording techniques, electrophysiologic tests, and clinical applications of ERG, EOG, and VEP. Emphasis is placed on novel and specialized clinical applications and recordings. The course will be divided in two sections. Section one ends with focus on the effects of maturation, aging, and testing in infants. Section two will conclude with electrophysiologic findings of many clinical conditions and clinical applications of ERG, EOG, and VEP of various eye disorders/diseases.
Corequisite: OPH 635.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

OPH 691. Clinical Ophthalmology Update. 2 Credit Hours.
Society, Science and Medicine. History and evolution of medicine, Seminars on different aspects of medicine including a broad spectrum view of career options. The emphasis will be how medicine has been developed historically, its efficacy, and the future outlook. For example, antibiotic resistant bacteria was discovered in 12,000 year old underground caves that makes us realize that antibiotic resistance is an old problem and we need to have an outlook bearing that in mind.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

OPH 771. PBL: Advanced and High Throughput Approaches in Science. 2 Credit Hours.
The Problem-Based Learning Method (PBL) was designed to teach students in small groups to identify specific techniques that will yield the answers to the problems. Content will include the underlying norms and principles that shaped these concepts. The courses also include plenary session presentations by experts on relevant topics and their use in preparing manuscripts and grant applications and policies regarding conduct of experiments using these techniques.
Components: ENS.
Grading: GRD.
Typically Offered: Fall.

OPH 772. PBL: Management skills and Tools for Academia and Enterprises. 2 Credit Hours.
This Problem-Based learning course will introduce grant writing, pre-award preparation, post-award management and will be taught using problem-based modules. Federal and non-federal extramural grants will be used as modules specific aspects of different segmental grants will be presented. Major research grant, training and fellowships, grants-in-aid will be taught. In addition, small business innovation research (SBIR) or STTR will be covered. Students will learn techniques to analyze markets, identify optimal opportunities, develop plans to sell their vision in order to attract talent and stakeholders. A series of problem-based lectures integrates modern business concepts from an entrepreneurial approach.
Components: ENS.
Grading: GRD.
Typically Offered: Spring.
PHI 104. Introduction to Philosophy and the Nature of Scientific Knowledge. 3 Credit Hours.
Introduction to philosophy in a way that emphasizes its relevance to thinking about the sciences. It will familiarize you with some historically important philosophical works about knowledge and reality, and it will provide you with an opportunity to apply the tools of philosophical analysis and argumentation toward questions about the nature and possibility of scientific knowledge.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 105. Introduction to Philosophy through the Brain and Behavioral Sciences. 3 Credit Hours.
Introduction to philosophy in a way that emphasizes its connections to the brain and behavioral sciences. It will familiarize you with traditional questions about knowledge, freedom, the self, society, and morality; it will introduce relevant work in the brain and behavioral sciences; and it will provide an opportunity to reflect on how the scientific advances might inform our thinking about the philosophical puzzles.
Components: LEC.
Grading: GRD.

PHI 106. Introduction to Philosophy and Health Sciences. 3 Credit Hours.
Introduction to philosophy in a way that emphasizes its relevance to thinking about the health sciences. It will provide you with tools for thinking about both metaphysical and moral issues raised by the health sciences. The metaphysical issues include: the nature of life, death, health, and disease. The moral issues include: patient autonomy, what makes death bad, abortion, euthanasia, experimentation, and the allocation of health care resources.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 107. Introduction to Philosophy and Law. 3 Credit Hours.
Introduction to philosophy in a way that emphasizes its relevance to thinking about the law and legal reasoning. It will familiarize you with traditional theories of moral obligation, social justice, free will, and responsibility. And it will provide an opportunity to explore the significance these theories have for addressing questions about the nature of law, our obligation to obey the law, rights, freedom, punishment, and liberty.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 108. Sexual Ethics. 3 Credit Hours.
An introduction to philosophy, focused on definitional, psychological, ethical and political issues relevant to sexual ethics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 109. The Superhuman Mind: An Introduction to Philosophy of Mind. 3 Credit Hours.
Cases of people who became geniuses by accident, human echolocation, lucid dreaming, synthetic telepathy used to move objects with the mind, and more, will be used to shed light on basic concepts in philosophy, such as the concept of mind, the concept of intelligence and the concept of human agency and human capacity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 10. Critical Thinking. 3 Credit Hours.
Principles of sound reasoning, the construction and evaluation of arguments in everyday contexts and the assessment of evidence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 111. Introduction to Philosophy Through Video Games. 3 Credit Hours.
Central philosophical topics through reading, playing, talking and writing about video games.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 115. Social and Ethical Issues in Computing. 3 Credit Hours.
History, social context and methods and tools of analysis. Professional and ethical responsibilities. Intellectual property. Privacy and civil liberties.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHI 130. Contemporary Moral Issues. 3 Credit Hours.
An examination of the philosophical problems which arise in connection with such moral and social issues as abortion, war, suicide, civil disobedience, racial discrimination, the death penalty, and the right to privacy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHI 131. Ethical Debates. 3 Credit Hours.
Ethical theories, their applications to contemporary issues, and a debate component styled after the Ethics Bowl.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 135. Love 101. 3 Credit Hours.
Love from different ethical, psychological and neuro-scientific perspectives. Among other things we will look at what distinguishes different kinds of love from each other, how love is manifested psychologically and neuro-scientifically, what chemicals drive feelings of love and obsession and why it can be so difficult to recover from a breakup.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 210. Symbolic Logic. 3 Credit Hours.
Introduction to symbolic logic and its methods.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

PHI 215. Logic and Law. 3 Credit Hours.
Principles and techniques of logic applied to legal reasoning.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHI 226. Feminist Philosophy. 3 Credit Hours.
This course is an introduction to issues in feminist philosophy, including its critique of Western philosophy and its contributions to major areas of philosophy such as ethics, social philosophy, theories of human nature, and theories of knowledge. Theories of oppression introduced at the beginning of the course inform analyses of sexism, heterosexism, racism, classism and ableism, and philosophizing about there 'isms' is aided by sociocultural research. The emphasis is not only on what is contained in these topics, but also on how to think critically about them.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 237. Philosophy of Sport. 3 Credit Hours.
A philosophical examination of the nature and characterization of sports and of the many ethical issues they raise.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 238. Environmental Ethics. 3 Credit Hours.
Theoretical and practical issues in the field of environmental ethics. It will explore the relationship between humans and the natural environment, the moral status of the natural world and the non-human entities within it, and how we should address various environmental problems and challenges. Topics to be covered include anthropocentrism vs. non-anthropocentrism, moral obligations to non-human animals, conservation vs. preservation, wilderness, over-population, agriculture and the environment, climate change, human rights and the environment, and sustainable development.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 240. Language, Power and Politics. 3 Credit Hours.
A discussion of various types of politically relevant speech, which includes terms like 'gender' and 'race', slurs, political rhetoric, feminist discourse, pornography. How do politicians use rhetoric to persuade and manipulate their targets? How do words embody an ideology? How do we use language to demean, derogate, silence and hurt other people based on their gender, ethnic origin, religious affiliation or sexual orientation? What is the meaning of slurs? And how does this meaning enable slurs to derogate? How is pornography a speech act and how does it subordinate and silence women? Should pornography be granted protection under the first amendment? What does it mean to be a 'women' and what does it mean to be a 'feminist'? What do certain gendered and racial terms mean? How might language constitute or enable violence?
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 241. History and Philosophy of Science. 3 Credit Hours.
An introduction to the history and philosophy of science by approaching this field from historical and epistemological points of view.
Components: LEC.
Grading: CNN.
Typically Offered: Spring.

PHI 242. Self-Knowledge. 3 Credit Hours.
How we can come to know our own minds.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 244. Philosophy of Emotions. 3 Credit Hours.
The philosophy of emotions focusing on questions about what emotions are, whether emotions can be rational and whether they are socially constructed.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 245. Philosophical Psychology. 3 Credit Hours.
An examination of problems in psychology that philosophical methods have traditionally been used to solve.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 247. Perception. 3 Credit Hours.
An overview of the nature of sensory perception.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 248. Phenomenology. 3 Credit Hours.
A historical account of the phenomenological tradition and its significance to contemporary theorizing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 271. Ancient Philosophy. 3 Credit Hours.
This course will introduce students to Ancient Greek ideas by examining central philosophical themes, such as: Knowledge; Why Be Moral? Justice in the City/Justice in the Soul; Liberty and Social Engineering; Happiness; Friendship; Death. We will use primary texts (in translation) by Plato, Aristotle, Cicero, and Augustine of Hippo, supplemented by some selections from the Greek historian Thucydides. Some Greek vocabulary will be assigned. The final exam will consist of a 2-week-long role playing game, The Threshold of Democracy: Athens in 403 B.C. (Developed by the Classics department at Barnard College, and a core component of Ancient Philosophy courses at UT Austin). Students will be assigned different roles: Thrasylalus; a radical Democrat; an Oligarch; and a supporter of Socrates.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHI 272. Modern Philosophy. 3 Credit Hours.
The Renaissance through Kant.
Components: LEC.
Grading: GRD.

Typically Offered: Spring.

PHI 295. Special Topics. 1-4 Credit Hours.
Special Topics taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

PHI 300. Ethics. 3 Credit Hours.
The main ethical systems and ethical concepts, an analysis of important ethical readings, and an application of ethical concepts to the individual and to society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 331. Social and Political Philosophy. 3 Credit Hours.
Relations between morality and politics, the sources and the limits of political obligation, the function of the state, the nature of law, civil disobedience and revolution.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 332. Philosophy of Law. 3 Credit Hours.
An examination of basic philosophical issues concerning the nature and function of law, with particular attention to the legal system of the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 333. Philosophical foundations of criminal law. 3 Credit Hours.
Philosophical examination of questions concerning the purpose, scope and limits of criminal law and the justification of punishment.
Components: LEC.
Grading: GRD.
Typically Offered:Offered by Announcement Only.

PHI 334. Biomedical Ethics. 3 Credit Hours.
Fundamental issues including: the allocation of medical resources, behavior control, definition of death, experimentation with human subjects, euthanasia, and abortion.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 336. Human Rights. 3 Credit Hours.
This course offers philosophical, legal, and political perspectives on human rights. After a short introduction to international human rights, it surveys international human rights treaties and institutions. Next it turns to topics in human rights theory, covering some contemporary philosophical theories of human rights. The final section explores some human rights problems and controversies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 337. Environmental Ethics. 3 Credit Hours.
Theoretical and practical issues in the field of environmental ethics.
Components: LEC.
Grading: GRD.

Typically Offered: Offered by Announcement Only.

PHI 338. Philosophy and Feminism. 3 Credit Hours.
Theoretical (metaphysical and epistemological) and applied issues in feminist thought.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 339. Philosophy of Love. 3 Credit Hours.
Love from different ethical, psychological and neuroscientific perspectives. Among other things we will look at what distinguishes different kinds of love from each other, how love is manifested psychologically and neuroscientifically, what chemicals drive feelings of love and obsession and why it can be so difficult to recover from a breakup.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 340. Theory of Knowledge. 3 Credit Hours.
Analysis of the nature, sources and structure of knowledge. Possible topics include perception, skepticism, reason, truth, justification, and certainty.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 341. Philosophy of Language. 3 Credit Hours.
Theories of meaning, reference, predication, nature of signs and symbols, types and functions of discourse.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 342. Philosophy of Science. 3 Credit Hours.
Scientific theories and their relation to evidence; experimentation and its logic; explanation, the rationality of science and the growth of scientific knowledge.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 343. Philosophy of Mind. 3 Credit Hours.
The nature of mind and mental acts, events, and states and their relations to physical states of the brain and body and to behavior.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 344. Philosophy of Mathematics. 3 Credit Hours.
An examination of key philosophical issues concerning mathematics and the understanding of mathematical practice.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 345. Metaphysics. 3 Credit Hours.
The basic structure and kinds of constituents of the world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 346. Philosophy of Social Science. 3 Credit Hours.
Examination of whether there are important differences between the social sciences and the natural sciences in terms of their methodology and objects of study.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 347. Philosophy of Space and Time. 3 Credit Hours.
Time and space are notoriously difficult to think about. We seem to have an intuitive understanding of them, but it is surprisingly hard to express that understanding. To make matters worse, modern physics challenges what little grasp we thought we had on the concepts of space and time. We are told that space can be curved, and that there can fail to be an objective fact about which of two events occurred first. So we are left without even an intuitive grasp of two of the most fundamental concepts of experience.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 348. Introduction to Philosophy through the Brain and Behavioral Sciences. 3 Credit Hours.
Cognitive neuroscience taught on a level accessible to people in the humanities, the fine arts and the behavioral sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 349. Philosophy of Space and Time. 3 Credit Hours.
We are told that space can be curved, and that there can fail to be an objective fact about which of two events occurred first. So we are left without even an intuitive grasp of two of the most fundamental concepts of experience.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 350. Philosophy of Psychology. 3 Credit Hours.
Philosophical questions about psychology. Topics include: the foundations of Freudian psychology; neuro-psychoanalysis; the nature of the self; thinking animals; computers and consciousness; actions, reasons, and causes; first person authority; the unconscious; meaning and the mental; neuro-science and psychology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 351. Philosophy of Religion. 3 Credit Hours.
The nature of and grounds for religious beliefs; traditional arguments for and against the existence of God; God's attributes; reason vs. faith.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 352. Aesthetics. 3 Credit Hours.
The philosophy of art, such as defining 'art', adjudicating among competing judgments or interpretations of works of art, and understanding the metaphysical status of art objects.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 353. Philosophy of Film. 3 Credit Hours.
Central philosophical issues concerning literature and the evaluation of literary works.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 354. History of Philosophy of Art. 3 Credit Hours.
An examination of the history of philosophical work on the arts (including literature, visual art, and music) from ancient times through the mid twentieth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 356. Philosophy of Education. 3 Credit Hours.
Examines the nature and aims of education. Of particular concern will be the evaluation of five possible epistemic aims of education: knowledge, truth, rationality, understanding, and intellectual virtue. Are all of these legitimate aims? How do they relate to one another? Are any more fundamental than the others? We will also consider a range of moral/political/social aims of education. A general question concerns the cultural embeddedness of all such proposed aims, so we will consider the place of considerations of diversity, multiculturalism, and their place in civic education in democratic societies in the determination of legitimate educational aims and ideals.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 357. Introduction to Semantics and Pragmatics. 3 Credit Hours.
This course is an introduction to the fields of natural language semantics and pragmatics, which study linguistic meaning and the use of language in communication. We will begin by investigating various aspects of linguistic meaning: How does language allow us to represent and encode information about the world around us? What are the meanings of expressions of different sorts, and how do they relate to each other? How does the meaning of a sentence depend on its syntactic structure? We will then go on to investigate questions that arise from the use of language in communication: How does the context of a conversation affect the meaning of a sentence? How can a sentence that means one thing be used to communicate something else? How is it that one can use a bit of language to do something like make a promise or issue a threat? What conversational phenomena arise simply because communication is a cooperative activity like many others, and what phenomena depend on specific features of language? Over the course of the semester we will study well-established results from semantic and pragmatic theory, as well as identify open questions that are the subject of current research in philosophy and linguistics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 358. Effective Altruism: Making A Difference. 3 Credit Hours.
An examination of what it means to ‘make a Difference’, ‘Why does it Matter’, and ‘How to best Achieve this Goal’. Critical assessment of various candidate proposals for making the world a better place.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 359. Immersive Experience and Virtual Reality. 3 Credit Hours.
Part of living a good life is immersing yourself in new and interesting experiences. Traditionally, this meant going out into the world, not sitting in front of a computer screen. But recent technological advances are making it possible to have more and more immersive and realistic experiences in virtual reality. In this course, we explore a variety of devices used to create immersive experiences: from novels and movies, via computer games such as Second Life, to current state of the art virtual reality systems. We look at the ways these devices shape our experiences and our sense of self. We discuss some ethical and metaphysical challenges they pose. And we consider the opportunities they present for learning, problem solving and improving human interaction. We make extensive use of VR and AR devices, immersing ourselves in virtual worlds in order to think about the fundamental philosophical questions they pose.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 360. Assessing Philosophical Papers: Philosophy Conference Organization. 3 Credit Hours.
This course teaches students how to evaluate academic work outside their main specialty area and to plan and orchestrate an undergraduate philosophy conference.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 373. Nineteenth Century Philosophy. 3 Credit Hours.
Fichte, Schelling, Hegel, Schopenhauer, Kierkegaard, Marx, Comte, Mill, Spencer, and Nietzsche.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 374. Twentieth Century Philosophy. 3 Credit Hours.
Philosophy and philosophers in the twentieth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 375. Existentialism. 3 Credit Hours.
Existentialist philosophy as seen in the works of such authors as Kierkegaard, Nietzsche, Heidegger, Sartre, Camus, and Dostoevsky.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 391. Special Studies. 3 Credit Hours.
Study of selected problems, philosophers, or movements. May be repeated for credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 392. Special Studies. 3 Credit Hours.
Study of selected problems, philosophers, or movements. May be repeated for credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 494. Independent Study in Philosophy. 1-3 Credit Hours.
Independent research conducted under the guidance of a faculty member. May be repeated for credit.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 495. Senior Honors Thesis. 3 Credit Hours.
Directed reading and a substantial and scholarly paper.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 496. Senior Honors Thesis. 3 Credit Hours.
Directed reading and a substantial and scholarly paper.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 506. Mathematical Logic. 3 Credit Hours.
Logics, truth, proof, logical consequences, model theory, formalization, and computation. Meta-theory of first-order logic, computability theory, and Goedel's Incompleteness theorems. Related results by church, Turing, and Tarski. Discussion of their philosophical significance.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 510. Formal Logic. 3 Credit Hours.
First and second-order quantification theory; metalogic.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHI 530. Ethical Theory. 3 Credit Hours.
G. E. Moore to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 533. Political Philosophy. 3 Credit Hours.
A survey of some central issues and developments in political philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 540. Epistemology. 3 Credit Hours.
A survey of the basic topics and questions in epistemology: knowledge acquisition and justification, perception, fallibilism, and skepticism.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 541. Mind and Language. 3 Credit Hours.
Philosophical problems about signs, linguistic and mental representations, intentionality, action, and consciousness.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 543. Induction, Probability, and Scientific Method. 3 Credit Hours.
Foundations of inductive reasoning and role of experiment in science.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 544. The Philosophy of Language. 3 Credit Hours.
A central feature of human language is that it is meaningful; this is what allows us to use language to record and share information about the world, and to communicate the ideas, thoughts and emotions that make up our private mental lives. But what is linguistic meaning? One historically influential idea is that linguistic meaning is to be analyzed in terms of truth. This course will examine this idea, and consider several philosophical debates that have arisen from it, or in which it has played an important role. Along the way students will gain an understanding of some of the most central concepts and issues in contemporary philosophy of language.
Prerequisite: PHI 357 (249) or at least one of PHI 341 - 346.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 545. Metaphysics. 3 Credit Hours.
A selection of topics dealing with the main problems of metaphysics: existence, modality, universals, identity and persistence through time, causation, the self and physicalism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 546. Evidence and Knowledge in Medicine. 3 Credit Hours.
Basic methodologies in medicine in the context of philosophical theories of evidence.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHI 553. Philosophy and Film. 3 Credit Hours.
Combining readings in philosophy and film theory and criticism with close analysis of selected films, this course is premised on a conviction in the potential fruitfulness, both for film studies and philosophy, of thinking philosophically about the ontology of the medium, the history and the art of film, the ways we experience movies, and their impact on our lives. A main focus will be on the writings of Stanley Cavell—the most important author in the Anglo/American philosophical tradition to make writing about film a substantial part of his philosophical project—and philosophical responses by to his work.
Components: LEC.
Grading: GRD.

PHI 555. Philosophy of Education. 3 Credit Hours.
Problems concerning the nature and aims of education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 560. History of Logic. 3 Credit Hours.
Aristotle, the Stoics, the Scholastics, Leibniz, Boole, DeMorgan, Peirce, Frege, and Russell and Whitehead.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 562. History of Ethics. 3 Credit Hours.
A selection of ethical theories from Aristotle to Rawls.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 570. Presocratics and Plato. 3 Credit Hours.
Fragments from the Presocratics and the dialogues of Plato.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 571. Aristotle and Hellenistic Philosophy. 3 Credit Hours.
A survey of central philosophical topics in Aristotle and Hellenistic
Philosophers (Epicureans, Stoics, and Skeptics).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 572. Medieval Philosophy. 3 Credit Hours.
The patristic period through the scholasticism of the late middle ages.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 573. Early Modern Philosophy. 3 Credit Hours.
An examination of early modern philosophy from Hobbes and Descartes
to Hume.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 575. Kant. 3 Credit Hours.
An examination of selected issues in Kant’s theoretical or practical
philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 577. Pragmatism. 3 Credit Hours.
Peirce, James, Dewey, and others.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 581. Phenomenological Tradition. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for
credit.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 582. History of Analytic Philosophy. 3 Credit Hours.
The development of analytic philosophy from its beginnings in the
work of Frege and Russell through logical positivism to contemporary
philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 583. The Phenomenological Tradition. 3 Credit Hours.
An examination of the phenomenological movement (Edmund Husserl,
Martin Heidegger, Maurice Merleau-Ponty, and others) and of its impact
on contemporary thought.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 584. Ethical Theory. 3 Credit Hours.
G. E. Moore to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 585. Political Philosophy. 3 Credit Hours.
A survey of some central issues and developments in political philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 586. Epistemology. 3 Credit Hours.
A survey of the basic topics and questions in epistemology: knowledge
acquisition and justification, perception, fallibilism, and skepticism.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 591. Special Topics. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for
credit.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 644. The Philosophy of Language. 3 Credit Hours.
A central feature of human language is that it is meaningful; this is what allows us to use language to record and share information about the world, and to communicate the ideas, thoughts and emotions that make up our private mental lives. But what is linguistic meaning? One historically influential idea is that linguistic meaning is to be analyzed in terms of truth. This course will examine this idea, and consider several philosophical debates that have arisen from it, or in which it has played an important role. Along the way students will gain an understanding of some of the most central concepts and issues in contemporary philosophy of language.
Prerequisite: PHI 357 (249) or at least one of PHI 341 - 346.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 646. Evidence and Knowledge in Medicine. 3 Credit Hours.
Basic methodologies in medicine in the context of philosophical theories of evidence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 647. Mind and Language. 3 Credit Hours.
Philosophical problems about signs, linguistic and mental representations, intentionality, action, and consciousness.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 648. Induction, Probability, and Scientific Method. 3 Credit Hours.
Foundations of inductive reasoning and role of experiment in science.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 649. Metaphysics. 3 Credit Hours.
A selection of topics dealing with the main problems of metaphysics: existence, modality, universals, identity and persistence through time, causation, the self and physicalism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 653. Philosophy and Film. 3 Credit Hours.
Combining readings in philosophy and film theory and criticism with close analysis of selected films, this course is premised on a conviction in the potential fruitfulness, both for film studies and philosophy, of thinking philosophically about the ontology of the medium, the history and the art of film, the ways we experience movies, and their impact on our lives. A main focus will be on the writings of Stanley Cavell, the most important author in the Anglo-American philosophical tradition to make writing about film a substantial part of his philosophical project and philosophical responses by to his work.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 655. Philosophy of Education. 3 Credit Hours.
Problems concerning the nature and aims of education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 660. History of Logic. 3 Credit Hours.
Aristotle, the Stoics, the Scholastics, Leibniz, Boole, DeMorgan, Peirce, Frege, and Russell and Whitehead.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 662. History of Ethics. 3 Credit Hours.
A selection of ethical theories from Aristotle to Rawls.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 670. Presocratics and Plato. 3 Credit Hours.
Fragments from the Presocratics and the dialogues of Plato.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 672. Aristotle and Hellenistic Philosophy. 3 Credit Hours.
A survey of central philosophical topics in Aristotle and Hellenistic Philosophers (Epicureans, Stoics, and Skeptics).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 673. Medieval Philosophy. 3 Credit Hours.
The patristic period through the scholasticism of the late middle ages.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 674. Early Modern Philosophy. 3 Credit Hours.
An examination of early modern philosophy from Hobbes and Descartes to Hume.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 677. Kant. 3 Credit Hours.
An examination of selected issues in Kant's theoretical or practical philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 681. Pragmatism. 3 Credit Hours.
Peirce, James, Dewey, and others.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 683. The Phenomenological Tradition. 3 Credit Hours.
An examination of the phenomenological movement (Edmund Husserl, Martin Heidegger, Maurice Merleau-Ponty, and others) and of its impact on contemporary thought.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 684. History of Analytic Philosophy. 3 Credit Hours.
The development of analytic philosophy from its beginnings in the work of Frege and Russell through logical positivism to contemporary philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 695. Special Topics. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for credit.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 696. Special Topics. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for credit.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 697. Special Topics. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for credit. Prerequisite: Six credits in Philosophy and junior standing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 698. Independent Study in Philosophy. 1-3 Credit Hours.
Directed reading on a topic or philosopher. May be repeated for credit.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 701. Proseminar (First Semester). 3 Credit Hours.
Covers the core texts from the history of analytic philosophy. First semester of the year-long pro-seminar for first-year graduate students in Philosophy.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 702. Proseminar (Second Semester). 3 Credit Hours.
Covers the core texts and issues of analytic philosophy in the second half of the twentieth century. Second semester of the year-long pro-seminar for first-year graduate students in Philosophy.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 711. Topics in Logic. 3 Credit Hours.
Problems in philosophical logic; non-standard logic.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 731. Seminar in Ethics. 3 Credit Hours.
Problems in normative ethics, meta-ethics, and value theory.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 736. Values, Norms, and Actions. 3 Credit Hours.
The role of values and norms in practical reasoning and decision making.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 742. Seminar in Epistemology. 3 Credit Hours.
Problems concerning knowledge: skepticism, belief, certainty, truth, and justification.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 744. Seminar in Philosophy of Mind. 3 Credit Hours.
Problems concerning mental phenomena: theories of perception, action, consciousness.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 747. Seminar in Philosophy of Language. 3 Credit Hours.
Nature and uses of language; concepts of reference, truth, and meaning.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 748. Philosophy of Science. 3 Credit Hours.
Selected topics in the philosophy of science, such as realism, explanation, and conceptual and methodological issues in the special sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 751. Seminar in Philosophy of Art. 3 Credit Hours.
Problems related to beauty and the philosophy of art.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 772. Seminar in Ancient Philosophy. 3 Credit Hours.
A discussion of selected topics in ancient philosophy.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 778. Idealism. 3 Credit Hours.
An examination of Idealism, both contemporary and historical.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 795. Seminar in Special Topics. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 796. Seminar in Special Topics. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 798. Independent Study in Philosophy. 1-3 Credit Hours.
Directed reading on a topic or philosopher. May be repeated for credit.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

PHI 830. Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor, but for not less than a total of 12 hours. Up to 12 hours may be taken in a regular semester, but not more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

PHI 840. Post-candidacy doctoral dissertation. 1-6 Credit Hours.
Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of PHI 740 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

PHI 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

Physical Science (PSC)

PSC 101. Physical Science. 3 Credit Hours.
An interdisciplinary course to provide the non-science major with an understanding of some of the methods, ideas and accomplishments of Physics, Astronomy, Chemistry, Geology, and their role in the development of civilization.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

Physical Therapy (PTS)

PTS 601. Advanced Clinical Practice: Counterstrain 1. 1 Credit Hour.
This seminar course will provide an in depth discussion of the history, physiologic rationale, and fundamentals of the Strain Counterstrain method of manual therapy. Newer concepts of facial science will also be explored. Counterstrain I will stress palpation skills as the foundation for any manual therapist and will teach advanced palpatory anatomy techniques. 30-50 Counterstrain techniques spanning the whole body and consisting of the musculoskeletal, neurovascular, and visceral systems will be taught through lecture, demonstration, and lab.
Components: LEC.
Grading: SUS.
Typically Offered: Fall.

PTS 602. LAGO Local Pro-Bono Clinic Elective. 1 Credit Hour.
This course is designed to provide physical therapy students with an integrated clinical experience under the supervision of licensed physical therapist. The students work in a pro-bono clinic located at University of Miami Hospital. Students will have the opportunity to participate in the full spectrum of physical therapy care with a population of uninsured patients in need of a broad range of health care and health care education services. Students will have an opportunity to apply previously learned knowledge and skills as it applies to the needs assessed in the community for pro bono service. Health risk issues related to prevention will be assessed and physical therapy services applicable to the needs will be designed.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

PTS 603. Introduction to Principles of Orthotic Fabrication and Prescription. 1 Credit Hour.
This seminar course is designed to introduce the art of custom orthotic making. We will explore the various categories within custom orthotics; static, dynamic, serial static, and static progressive. A comparison of the features of pre-fabricated orthoses vs. custom made will be made. The application of clinical reasoning to decision making will equip the Therapist with the necessary information to assist them when considering the orthotic options to achieve the best possible outcome for their patients.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 604. Rehabilitation Technology for Physical Therapists. 1 Credit Hour.
This course will introduce current advancements in diagnostic and therapeutic equipment used by physical therapists in clinical practice. The emphasis will be on latest rehabilitation technology such as virtual reality, neural stimulation and rehabilitation robotics. Students will observe the equipment being used on patients, get a basic understanding of its operation and have an opportunity for hands-on learning.
Components: LEC.
Grading: CNC.
Typically Offered: Fall.

PTS 605. Physical Therapy Private Practice Management. 1 Credit Hour.
Course focuses on establishing a private physical therapy practice, including initial development through marketing and management.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 606. Issues in Women's Health: Gynecology. 1 Credit Hour.
Introduction to physical therapy practice for evaluation and treatment of pelvic floor dysfunction.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
PTS 607. Issues in Women's Health: Obstetrics, Osteoporosis and Breast Health. 1 Credit Hour.
Introduction to physical therapy practice for evaluation and treatment of problems related to pregnancy, osteoporosis, and other disorders specific to women.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 608. Nutrition for Physical Therapists. 1 Credit Hour.
A presentation of nutrition content that will benefit the professional skills of physical therapists.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: SUS.
Typically Offered: Spring.

PTS 609. Advances in Amputee Rehabilitation and Prosthetic Technology. 1 Credit Hour.
This course is designed to provide interested students with educational materials about amputations surgery, prosthetic technology and rehabilitation that will augment the information presented in other courses. A select faculty of experts have been invited to present on topics of interest that provide greater depth of knowledge for those physical therapy students who are interested in the field of prosthetics and amputee care. Students will be encouraged to actively participate during each presentation with thought provoking dialog regarding how technology, evidence-based rehabilitation and disciplines involved in prosthetic rehabilitation can work together as a team to generate a better than satisfactory outcome for people with limb loss.
Components: LEC.
Grading: SUS.
Typically Offered: Fall.

PTS 610. Introduction to Pilates - Gateway. 1 Credit Hour.
This course provides in-depth instruction in the use of Pilates Mat to supplement physical therapy practice. This course covers the history of Pilates and Polestar education, biomechanics, and the many uses of Pilates in physical practices, as well as instruction in 18 Pilates mat exercises. Students learn to perform and teach the exercises and 4 unique class sequences.
Components: LEC.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

PTS 611. Advanced Clinical Practice: Topics in Pediatrics. 1 Credit Hour.
The course will focus on advanced topics in pediatric physical therapy. Through lecture, seminar discussion and lab experiences, topics will include: typical and atypical development over the first year and examination and evidence-based intervention strategies used in early intervention strategies.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: SUS.
Typically Offered: Fall.

PTS 612. Sports Physical Therapy. 1 Credit Hour.
An overview of the general aspects of sports physical therapy practice will be provided. Topics will include the various settings, evaluations, interventions, and techniques involved in Sports physical therapy practice.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 613. Advanced Clinical Practice: Evaluation and Treatment of the Foot and Ankle. 1 Credit Hour.
This course will review the anatomy, normal and abnormal kinesiology/biomechanics, pathology and imaging of the foot and ankle and discuss physical therapy evaluation and intervention based on evidence based practice. It will include an introduction to evaluation and negative casting for orthotics.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: SUS.
Typically Offered: Fall.

PTS 614. Certified Strength and Conditioning Specialist Preparation (NSCA). 1 Credit Hour.
Evaluation and exercise planning of athletes to help them achieve their maximum physical performance without incurring injury. Case studies, a problem-solving approach, and integration of previously learned material are emphasized. Classroom instruction, exercise performance, video analysis, and case studies are utilized.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 615. Advance Clinical Practice: Taping for the Orthopedic Population. 1 Credit Hour.
This seminar course is designed to introduce the participant to the concepts of taping for various musculoskeletal pathologies commonly seen in the athletic population. Athletic taping and kinesiotaping principles and uses in rehabilitation will be introduced. A lab component will allow participants to practice the various taping techniques demonstrated.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 616. Clinical Research I. 3 Credit Hours.
This course provides a foundation for evidence based practice as a physical therapist. It presents the principles, concepts and basic skills required to identify, evaluate, create and apply research evidence to the practice of physical therapy. Topics covered include levels of research evidence, health/disability models, searching for research literature including electronic data bases hypothesis testing, critical review of research literature, measurement, statistical analysis, research design, sampling, bias, and statistical computing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
PTS 617. Abdominal Anatomy. 1 Credit Hour.
Course analyzes abdominal anatomy emphasizing structure and function. Cadaver dissection is included.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 618. Critical Care Physical Therapy. 1 Credit Hour.
A review of the literature on physical therapy in the intensive care unit. Organizing and synthesizing information from the patient’s medical record. Evaluation and treatment planning for patients in the intensive care unit. Review of standardized and validated measures for patients with critical illness. Case studies across a variety of patients with critical illness (i.e. medical, surgical, cardiac, neurological, and oncology) will be incorporated to reinforce didactic lecture.
Components: LEC.
Grading: SUS.
Typically Offered: Summer.

PTS 619. Pelvic Anatomy. 1 Credit Hour.
Course analyzes the anatomy of the human pelvic area. Cadaver dissection is included.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 620. Spanish for Physical Therapists. 1 Credit Hour.
This course is designed to familiarize the physical therapy student with different aspects of the Spanish speaking culture. This course is also designed to assist the student in developing the basic communication skills in Spanish needed in the clinical setting when working with Spanish speaking patients.
Components: LEC.
Grading: SUS.
Typically Offered: Summer.

PTS 621. Advanced Topics in Neurologic Physical Therapy: Vestibular Rehabilitation. 1 Credit Hour.
This course will expand on knowledge and skills developed in prior courses (Neuroscience, Neuro Examination, and Neurorehabilitation) to focus on the clinical management of an individual with a vestibular disorder from identification of dysfunction through comprehensive clinical management. Through lecture, seminar discussion, and lab experiences, topics will include: Comprehensive vestibular examination and evaluation, Clinical management and intervention strategies, Competency skills checklist, Implementation of treatment
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: SUS.

PTS 623. Myofascial Release. 1 Credit Hour.
Introduction to Myofascial Release technique in rehabilitation.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 624. Myofascial Release II. 1 Credit Hour.
A follow up to the introductory course MFR I. This course focuses on a review of bioenergy followed by practice of release techniques for trunk, extremities and head and neck. Cranial techniques and rebounding are also taught.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 625. Introduction to Dry Needling Theory and Technique. 1 Credit Hour.
Course introduces the participant to the concepts of dry needling, its neuro-functional principles, and its use in a physical therapy setting. Emphasis on comparing and contrasting dry needling to acupuncture, as well as the safety, indications and contraindications of dry needling. A lab component will allow participants to practice various introductory dry needling techniques.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 627. Gateway Pilates II. 1 Credit Hour.
This two-day Pilates course will teach how to provide four new basic Pilates Mat classes. A total of 18 Gateway 2 preparatory exercises and original Pilates Mat exercises will be taught. The instructor will provide ample experiences for real time practice of each of the 4 Pilates Mat sequences, and will provide feedback to each participant pertaining to additional training and practice to become proficient teachers of the Gateway Introductory Mat work.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 629. Evaluation and Treatment of Spinal Dysfunctions I. 3 Credit Hours.
This course provides an in-depth exploration of the evaluation and treatment of various dysfunctions of the spine. The lumbar and sacral-iliac regions will be explored. Thorough evaluation procedures will be emphasized as they relate to specific diagnosis. Treatment for the respective diagnoses will include therapeutic exercise, soft tissue stretching, and postural re-education.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 630. Foundations of Physical Therapy. 3 Credit Hours.
Historical development, philosophical foundations and contemporary practice of a physical therapist as an educator, consultant, researcher, administrator, and model of healthy behaviors. Health as indicated by global fitness measures will be demonstrated and experienced. Medical terminology mastered.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
PTS 631. Gross Anatomy for Physical Therapy I. 3 Credit Hours.
Gross anatomy with emphasis on the musculoskeletal systems and a survey of other systems that are relevant to physical therapy practice. Cadaver dissection.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 632. Gross Anatomy for Physical Therapy II. 3 Credit Hours.
Gross Anatomy with emphasis on the musculoskeletal systems and a survey of other systems that are relevant to physical therapy practice. Cadaver dissection.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 633. Communication in Physical Therapy Practice. 2 Credit Hours.
Course provides an analysis of communication skills in physical therapy clinical practice. Emphasis is placed on instruction of patients and their families, supportive staff, and health care team members. In-depth examination of patient-therapist interactions is included. Prerequisite: Open to Physical Therapy majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 640. Neuroscience I. 3 Credit Hours.
This course will explore the human nervous system with an emphasis on the relationship between structure and function. The gross structures of the central and peripheral nervous systems will be discussed, and basic neurophysiological and neuropsychological constructs regarding the function of the nervous system will be explored. Particular emphasis is placed on the systems involved in human motor control and function, its assessment, and the basis for diagnosis and treatment selection by physical therapists.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 641. Neuroscience II. 3 Credit Hours.
Basic neurophysiological and neuropsychological constructs regarding the function of the nervous system are explored. Analyses of normal systems are contrasted with abnormal systems. Particular emphasis is placed on the systems involved in human motor control and function, its assessment, and the basis for diagnosis and treatment selection by physical therapists.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 642. Electrotherapy. 3 Credit Hours.
This course presents the physiological rationale, indications, contraindications and the application of electrical modalities, including electrical stimulation, thermal modalities, sound modalities, compressive devices, mechanical machinery, and light therapy.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 643. Medical Pathology Seminar I. 1 Credit Hour.
Lectures and seminar discussion on medical and surgical management of pathological conditions, with particular emphasis on musculoskeletal disorders.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 644. Medical Pathology Seminar II. 1 Credit Hour.
Lectures and seminar discussion on pathological conditions with particular emphasis on neuromuscular and musculoskeletal disorders.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 645. Medical Pathology Seminar III. 1 Credit Hour.
This course provides lectures and seminar discussion on medical and surgical management of pathological conditions, with particular emphasis on regenerative medicine, neuromuscular disorders and women's health.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 646. Medical Pathology Seminar IV. 1 Credit Hour.
Lectures and seminar discussion of pathological conditions with particular emphasis on cardiorespiratory and pediatric disorders.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 650. Pharmacology. 2 Credit Hours.
Basic principles of pharmacology and pharmacotherapeutics. Contemporary drug therapies and their effects on patients undergoing rehabilitation are discussed.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 670. Clinical Skills in Physical Therapy. 3 Credit Hours.
This course is specifically designed to provide each student with the necessary and basic clinical skills to function within a variety of patient settings. Utilizing a combination of lecture and the associated co-requisite laboratory, this course will cover proper body mechanics, patient positioning and draping, massage, daily patient documentation, vital signs, range of motion, basic wheelchair management and measurement, bed mobility and transfers, tilt table benefits and management, ambulatory assistive devices and gait training with assistive devices.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
PTS 671. Therapeutic Physiology. 2 Credit Hours.
This course will require the student to analyze and apply physiologic principles to promote optimal patient evaluation and management. A variety of tests and measures will be reviewed and will be integrated with specific physiologic principles in order for the student to better understand the role of therapeutic interventions for patients referred to physical therapy. The focus of the course will revolve around several related themes including (1) interpreting the cardiorespiratory response to exercise, (2) understanding energy production and regulation, (3) integrating the cardiovascular, pulmonary, and muscular systems to better understand and interpret cardiorespiratory function as well as energy production, regulation, and homeostasis, and (4) examining the effects of de-conditioning and re-conditioning using different forms of exercise for individuals who are healthy or diagnosed with a medical disorder.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 672. Clinical Kinesiology and Biomechanics. 3 Credit Hours.
A study of musculoskeletal structure and function, physiological and biomechanical factors, and principles underlying the kinematics and kinetics of normal and abnormal human motion.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 674. Clinical Examination. 3 Credit Hours.
This course will present the basic examination skills for patients with various diseases and dysfunctions of the neuromusculoskeletal system. The skills emphasized are patient interviewing, palpation, reflex/sensory testing, cranial nerve testing, coordination testing, manual muscle testing, goniometric measurement with assessment of end feels, upper and lower quarter screening, postural assessment, and documentation of findings.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 675. Clinical Decision Making I. 2 Credit Hours.
This course presents components of physical therapist practice with an emphasis on evidence-based decision making related to interviewing patients, selecting appropriate tests and measures, arriving at a physical therapy diagnosis and developing a plan of care within the physical therapist's scope of practice. Documentation formats as they relate to clinical decision making are presented. The Physical Therapist Guide to Practice patient/client management model, International Classification of Function, and practice patterns are presented. The process of physical therapy diagnosis is presented. Students will be given an opportunity to practice with case studies.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 676. Medical Screening in Physical Therapy. 1 Credit Hour.
This course presents content related to screening for medical conditions in order to make clinical decisions about appropriateness for physical therapy and need for medical referral for patients presenting for physical therapy management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 677. Medical Screening in Physical Therapy. 1 Credit Hour.
This course presents content related to screening for medical conditions in order to make clinical decisions about appropriateness for physical therapy and need for medical referral for patients presenting for physical therapy management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 695. Selected Topics in Physical Therapy. 1-3 Credit Hours.
Topics in contemporary physical therapy clinical practice with focus on specialty areas such as neonatal pulmonary care, balance/vestibular dysfunction, geriatrics, pediatrics, obstetrics, and gynecology.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PTS 706. Neurological Evaluation. 2 Credit Hours.
Comprehensive evaluation of the patient with neurological dysfunction. Emphasis is placed on decision making, differential diagnosis, selection, and interpretation of examination components.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 708. Human Gait and Locomotion. 1 Credit Hour.
This course is an in-depth study of the fundamental mechanisms of normal human gait and locomotion. Students will be instructed on the terminology, normal joint range of motion and muscle function of the lower limbs during gait. Mechanisms of observational and instrumented analyses of gait will be discussed. Identification of common gait deviations, using observational gait analysis skills, will be briefly discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 710. Clinical Experience I. 2 Credit Hours.
This is the first eight-week clinical experience following the fourth semester of didactic course work and is performed in an ambulatory/outpatient setting with emphasis on musculoskeletal diagnoses. During this experience the student concentrates on the clinical application of the basic examination, evaluation, diagnosis, prognosis, intervention and outcome assessment that they have learned thus far in the academic setting. The student is expected to demonstrate good documentation skills, good communication skills and to develop their professionalism according to the APTA Core Values and Code of Ethics expected of the professional physical therapist.
Components: CLN.
Grading: SUS.
Typically Offered: Fall.

PTS 711. Clinical Experience II. 2 Credit Hours.
This is the second eight-week clinical experience following the completion of all didactic course work. It is the first of three sequential and summative clinical experiences. This clinical experience can be completed in an ambulatory/outpatient setting, acute care hospital, and rehabilitation hospital or unit or specialty practice such as pediatrics, sports, or women's health. Even though this clinical experience is unique, it is part of a sequence in which professional development and growth is expected. During this experience the student concentrates on the clinical application of the patient/client management model. This includes the examination, evaluation, diagnosis, prognosis, and intervention and outcome assessment within the context of the clinical setting. The student is expected to demonstrate good documentation skills, good communication skills and to develop their professionalism according to the APTA Core Values and Code of Ethics expected of the professional physical therapist.
Components: CLN.
Grading: SUS.
Typically Offered: Fall.
PTS 714. Neurorehabilitation. 3 Credit Hours.
Evidence-based practices in the treatment of individuals with neurological involvement are explored. Emphasis is placed upon the integration and application of theoretical constructs, prognostic indicators, examination and evaluation findings, and therapeutic intervention strategies utilized by physical therapists in neurological rehabilitation across disease course and practice settings.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 715. Rehabilitation of the Complex Patient. 3 Credit Hours.
The course will instruct students on the management of individuals with complex pathology that has additional complex social and environmental factors. Emphasis will be placed on the principles of assessment, treatment, discharge planning, and referral in the Acute Care environment. Topics covered include: early mobilization in the ICU, management of patients with multiple lines, drains, and tubes, multiple trauma, cancer, hospice and palliative care, bariatrics, solid organ transplantation, patient safety, collaboration with healthcare team members, and use of acute care appropriate outcome measures. The course includes hands on transfer labs, patient evaluation and simulation experiences, and a practical examination on assessment and mobilization of a simulated complex patient.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 717. Clinical Research II. 3 Credit Hours.
This course is a continuation of Clinical Research I that provides the student with continued guidance in the completion of the faculty led research project begun as part of Clinical Research I. A series of lectures also provide exposure to additional topics relevant to clinical research in Physical Therapy. Potential lecture topics include data analysis, design, error, philosophy of science, and research reporting.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 718. Physical Therapy Practice Management, Professional Issues and Advancement. 3 Credit Hours.
This course provides an introduction into the many facets of administration in physical therapy. The course has three primary areas of exploration: physical therapy administration and practice management, the current healthcare environmental influences, and personal administration and career entry preparation. These focal points are selected to assist the new graduate physical therapist in navigating early career activities, opportunities and environments. An organizational perspective will be the dominant context for this course, but mention of entrepreneurial activities will be included during the course of discussion and may be explored as part of the group projects.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 720. Biomechanical Basis of Human Movement. 3 Credit Hours.
A study of the basic biomechanical principles underlying the kinetics and kinematics of normal and abnormal human motion as well as the measurement of human movement.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 721. Measurement of Impairment and Function in Human Movement. 3 Credit Hours.
A study of measurement tools utilized in the analysis of normal and abnormal human motion.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 722. Pathobiology of Human Function I. 3 Credit Hours.
Pathophysiology of musculo-skeletal processes that impair human function including skeletal muscle; skin, tendons, ligaments, cartilage; bone; and cardiorespiratory.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 724. Cardio-Respiratory Physical Therapy. 3 Credit Hours.
The skills necessary for the evaluation and treatment of patients with various cardio-respiratory diseases and dysfunctions. Inpatient and outpatient cardiac and respiratory rehabilitation is included. Research on prevention of cardio-respiratory diseases and dysfunctions as it relates to evaluative, and therapeutic methods is also discussed.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 726. Therapeutic Exercise. 3 Credit Hours.
This course will be a comprehensive approach for the evaluation and management of patients with various orthopaedic pathologies and their related dysfunction(s). An emphasis will be placed on evidence-based practice, critical thinking, treatment algorithms, as they all inter-relate to therapeutic exercises. The general focus of this course is to possess entry-level skills in the cognitive, affective, and psychomotor domains as they relate to the treatment of a wide-variety of orthopaedic conditions.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 727. Prosthetics and Orthotics. 3 Credit Hours.
This course offers a comprehensive approach to the evaluation, treatment and management of people who require the intervention of prosthetic or orthotic appliances. Identification and application of appropriate therapeutic management alternatives are integrated with self-help appliances to assist with the goal of returning the client to the community and/or the highest level of social interaction.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PTS 728. Musculoskeletal Examination and Manual Treatment I. 3 Credit Hours.
In-depth examination of differential diagnosis of various extremity dysfunctions with principles of examining soft tissue, bony and post-surgical problems relevant to the shoulder, elbow, wrist/hand, hip, knee, ankle, and foot. Manual therapy/joint mobilizations for each joint will also be introduced.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 729. Evaluation and Treatment of Spinal Dysfunctions II. 3 Credit Hours.
This course provides an in-depth exploration of the evaluation and treatment of various dysfunctions of the spine. The cervical, thoracic, suboccipital regions and TMJ will be explored. Students will review the lumbar and sacro-iliac dysfunctions. Students are expected to critically review and investigate the literature relevant to the cervical, thoracic, and head-neck regions. Treatment for respective diagnoses will include therapeutic exercise, soft tissue stretching and manual therapy techniques. Clinical competence in manual evaluation and treatment procedures are to be developed.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

PTS 730. Pediatric Physical Therapy. 2 Credit Hours.
This course is designed to provide students with an entry level knowledge, attitudes and skills essential for working with children with movement dysfunction. Examination and evidence-based practices utilized by physical therapists in the treatment of children with musculoskeletal, neuromuscular, cardiopulmonary, integumentary and/or cognitive/affective issues will be emphasized.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 731. Geriatric Physical Therapy. 2 Credit Hours.
A case-based clinical approach to factors and issues related to examination, evaluation, diagnosis, prognosis, and intervention of aging adults by physical therapists. Topics covered include age-related versus activity related changes to body systems; use of standardized functional assessments appropriate for aging adults; successful aging; musculoskeletal, neuromuscular, cardiopulmonary, cognitive and psychiatric disorders in the elderly; fall risk assessment and fall prevention; home and environmental adaptations/modifications; health care delivery sites/systems; nutrition; polypharmacy; Medicare rules and regulation related to rehabilitation; frailty/sarcopenia; and strength training and exercise prescription in the aging adult. Focused discussion centers on clinical decision making across multiple geriatric settings.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 732. Components of Clinical Decision Making Across Multiple Geriatric Settings. 3 Credit Hours.
A case-based clinical approach to factors and issues related to examination, evaluation, diagnosis, prognosis, and intervention of aging adults by physical therapists. Topics covered include age-related versus activity related changes to body systems; use of standardized functional assessments appropriate for aging adults; successful aging; musculoskeletal, neuromuscular, cardiopulmonary, cognitive and psychiatric disorders in the elderly; fall risk assessment and fall prevention; home and environmental adaptations/modifications; health care delivery sites/systems; nutrition; polypharmacy; Medicare rules and regulation related to rehabilitation; frailty/sarcopenia; and strength training and exercise prescription in the aging adult. Focused discussion centers on clinical decision making across multiple geriatric settings.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 733. Training and Exercise Prescription in the Aging Adult. 2 Credit Hours.
Focused discussion and regulation related to rehabilitation; frailty/sarcopenia; and strength prevention; home and environmental adaptations/modifications; health care delivery sites/systems; nutrition; polypharmacy; Medicare rules and regulation related to rehabilitation; frailty/sarcopenia; and strength training and exercise prescription in the aging adult. Focused discussion centers on clinical decision making across multiple geriatric settings.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 734. Integrated Sports and Leisure. 3 Credit Hours.
The course promotes the integration of students with the physically challenged by working together to learn common recreational activities. Sailing and camping activities are used as an educational tool for students to learn the capabilities, physical resources, and assistance required by physically challenged individuals.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 740. Measuring Health Outcomes. 3 Credit Hours.
An in depth analysis of the use and construction of health outcome measures. Topics covered include creating and selecting items, scaling responses, scale construction, response bias, reliability, validity, responsiveness and methods of administration.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PTS 741. Components of Clinical Decision Making Across Multiple Geriatric Settings. 3 Credit Hours.
A case-based clinical approach to factors and issues related to examination, evaluation, diagnosis, prognosis, and intervention of aging adults by physical therapists. Topics covered include age-related versus activity related changes to body systems; use of standardized functional assessments appropriate for aging adults; successful aging; musculoskeletal, neuromuscular, cardiopulmonary, cognitive and psychiatric disorders in the elderly; fall risk assessment and fall prevention; home and environmental adaptations/modifications; health care delivery sites/systems; nutrition; polypharmacy; Medicare rules and regulation related to rehabilitation; frailty/sarcopenia; and strength training and exercise prescription in the aging adult. Focused discussion centers on clinical decision making across multiple geriatric settings.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 742. Components of Clinical Decision Making Across Multiple Geriatric Settings. 3 Credit Hours.
A case-based clinical approach to factors and issues related to examination, evaluation, diagnosis, prognosis, and intervention of aging adults by physical therapists. Topics covered include age-related versus activity related changes to body systems; use of standardized functional assessments appropriate for aging adults; successful aging; musculoskeletal, neuromuscular, cardiopulmonary, cognitive and psychiatric disorders in the elderly; fall risk assessment and fall prevention; home and environmental adaptations/modifications; health care delivery sites/systems; nutrition; polypharmacy; Medicare rules and regulation related to rehabilitation; frailty/sarcopenia; and strength training and exercise prescription in the aging adult. Focused discussion centers on clinical decision making across multiple geriatric settings.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 743. Measuring Health Outcomes. 3 Credit Hours.
An in depth analysis of the use and construction of health outcome measures. Topics covered include creating and selecting items, scaling responses, scale construction, response bias, reliability, validity, responsiveness and methods of administration.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PTS 744. Integrated Sports and Leisure. 3 Credit Hours.
The course promotes the integration of students with the physically challenged by working together to learn common recreational activities. Sailing and camping activities are used as an educational tool for students to learn the capabilities, physical resources, and assistance required by physically challenged individuals.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 745. Integumentary Disorders and Treatment. 2 Credit Hours.
The course will instruct students on the management of individuals with open wounds, burns, and other dermatologic pathology from a patient focused perspective. Emphasis is placed on clinical decision making as it relates to the principles of assessment, treatment, referral, and prevention. Topics covered include: wound assessment and documentation, debridement, electrical stimulation and ultrasound for wounds, dressing selection, skin breakdown and pressure ulcer prevention, support surface selection, burns, skin grafts and muscle flaps, evaluation of arterial and venous circulation, nutrition, and the identification of melanoma, basal cell and squamous carcinoma, psoriasis, impetigo, shingles and other dermatological pathology. The course includes labs for wound evaluation, measurement, debridement, dressing selection and application, pressure mapping and support surface selection.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 746. Components of Clinical Decision Making Across Multiple Geriatric Settings. 3 Credit Hours.
A case-based clinical approach to factors and issues related to examination, evaluation, diagnosis, prognosis, and intervention of aging adults by physical therapists. Topics covered include age-related versus activity related changes to body systems; use of standardized functional assessments appropriate for aging adults; successful aging; musculoskeletal, neuromuscular, cardiopulmonary, cognitive and psychiatric disorders in the elderly; fall risk assessment and fall prevention; home and environmental adaptations/modifications; health care delivery sites/systems; nutrition; polypharmacy; Medicare rules and regulation related to rehabilitation; frailty/sarcopenia; and strength training and exercise prescription in the aging adult. Focused discussion centers on clinical decision making across multiple geriatric settings.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 747. Components of Clinical Decision Making Across Multiple Geriatric Settings. 3 Credit Hours.
A case-based clinical approach to factors and issues related to examination, evaluation, diagnosis, prognosis, and intervention of aging adults by physical therapists. Topics covered include age-related versus activity related changes to body systems; use of standardized functional assessments appropriate for aging adults; successful aging; musculoskeletal, neuromuscular, cardiopulmonary, cognitive and psychiatric disorders in the elderly; fall risk assessment and fall prevention; home and environmental adaptations/modifications; health care delivery sites/systems; nutrition; polypharmacy; Medicare rules and regulation related to rehabilitation; frailty/sarcopenia; and strength training and exercise prescription in the aging adult. Focused discussion centers on clinical decision making across multiple geriatric settings.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 748. Musculoskeletal Examination and Treatment II. 3 Credit Hours.
Advanced examination, evaluation, functional assessment and treatment of patients in selected specialty areas of musculoskeletal physical therapy, with emphasis on functional outcomes and evidence based treatment throughout the life span.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 755. Neuromuscular Basis of Movement. 3 Credit Hours.
Concepts of neuromuscular production and regulation of movement with emphasis on neurophysiologic substrates and mechanisms underlying motor behavior.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PTS 760. Theories of Movement Science. 3 Credit Hours.
An in-depth review of classical theories and recent research in the movement sciences, to include the study and analysis of system theory and neurobiological substrates.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 761. Motor Learning. 3 Credit Hours.
The factors relating to, and affecting, the acquisition and performance of motor skills. Qualification of skill acquisition and performance are explored.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.

PTS 762. Advanced Topics in Neurodevelopment. 3 Credit Hours.
Classical research and systems models of neurodevelopment are reviewed, analyzed, and related to current research on various areas of human development throughout the lifespan.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PTS 764. Seminars in Neuroscience. 3 Credit Hours.
This course explores the role and organization of the key units of the central and peripheral nervous systems at the molecular and cellular levels. The integrated functional physiology of systems neuroscience and behavioral neuroscience will be studied with special emphasis on neural contributions to involuntary and voluntary motor functions, perception, cognition, and learning. PREREQUISITE: For Physical Therapy PhD students only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PTS 765. Health Promotion and Disease Prevention. 2 Credit Hours.
The role of physical therapists in health promotion and disease prevention.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.

PTS 766. Rehabilitation of the Amputee. 3 Credit Hours.
This course examines the scientific evidence related to the evaluation, treatment and management of clients who require intervention for diabetic foot and/or dysvascular limb potentially leading to amputation, amputation surgery, prosthetic appliances, functional assessment and amputee rehabilitation. Upper limb prosthetic management will also be examined.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PTS 767. Prosthetic Technology and Amputee Rehabilitation. 3 Credit Hours.
This course examines the current scientific evidence related to prosthetic devices with regard to evaluation, fabrication, materials, fitting and functional outcomes. Emphasis is on state-of-the-art technology and the future of prosthetic designs.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PTS 768. Rehabilitation Engineering and Assistive Technology. 3 Credit Hours.
This course is designed for graduate students interested in developing an understanding of complementary roles of clinicians and engineers in assisting individuals with disabilities in all areas of life.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PTS 769. Seminars in Orthotics and Prosthetic Rehabilitation. 3 Credit Hours.
Examination of current scientific evidence and clinical issues related to upper and lower limb amputees, and prosthetic and orthotic componentry and related technology. Students will discuss case studies and design appropriate devices to address the needs of the individuals in the cases.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PTS 770. Education Principles in Physical Therapy. 1 Credit Hour.
Principles of education, as they apply to the educational setting, and in patient care. Students are instructed in basic educational principles and methods to prepare materials and instruct and evaluate learning for patients, families, caretakers, students, colleagues, and others, in the classroom, clinic and community.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 771. Complementary Therapies in Rehabilitation. 2 Credit Hours.
Historical development and evidence-based approach to complementary therapies in rehabilitation.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 774. Role of Academic Faculty in Physical Therapy. 3 Credit Hours.
Introduction to the faculty roles in an institution of higher education, including faculty development and evaluation systems, educational leadership, and student advising, initiation of a research career and educational administration of physical therapy programs at the entry-level and post-graduate level.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PTS 775. Clinical Decision Making II. 3 Credit Hours.
This course will require the student to utilize: the patient management model, the ICF model, the role of disablement and enablement in the provision of physical therapy, all clinical and basic science course work, professional and third party documentation requirements, knowledge of healthcare delivery systems and legal/regulatory requirements, as well as the research literature to plan and document evidence-based care of patients in a variety of settings spanning the continuum of care. Cases will represent a sample of ages, diagnoses, and patient acuity and complexity.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 777. Instructional Methods in Physical Therapy Education. 3 Credit Hours.
Overview of research in the professional education field, with specific applications to physical therapy academic and clinical education. Emphasis is placed on curriculum development, competency-based instructional design, testing, and instructional evaluation methods.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 778. Teaching Practicum. 1-3 Credit Hours.
Supervised instructional design, teaching and evaluation of entry level physical therapy students. Students participate as course instructors in entry-level master’s degree physical therapy curriculum.
Requisite: Physical Therapy PHD Majors Only.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PTS 784. Human Neuroanatomy. 3 Credit Hours.
Detailed exploration of the human nervous system with an emphasis on structure-function relationship and clinical applications. This course is designed for Physical Therapy graduate students with an interest in a professional career in teaching the anatomical sciences to students of the health professions including medical students.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PTS 785. Medical Diagnostic Tests. 2 Credit Hours.
This course is designed to provide the Physical Therapy student with the basic skills in understanding and interpreting the imaging techniques of Plain film x-ray, Magnetic Resonance Imaging, Computed Tomography, Bone Scans, Real Time Ultrasound, Electrodiagnostic Tests, selected Laboratory Tests and Fluoroscopy. Special emphasis will be placed on the understanding of where the interpretation of these images falls in physical therapy Differential Diagnosis and evidence based practice.
Requisite: Physical Therapy Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 790. Models of Physical Therapy Practice. 3 Credit Hours.
Study of the integration of didactic knowledge, clinical skills, clinical problem solving and the intuitive process into the formation of a clinical diagnosis which will direct treatment in physical therapy. Diagnosis as a process in physical therapy is compared to diagnosis in nursing, psychiatry and medicine, and is distinguished from similar processes such as assessment, examination and screening. Various models of physical therapy practice currently being taught and published will be explored, including the ICF model, the Patient/Client management model, and the Movement System. Recommendations for a Model of PT Diagnosis and Decision making will be made by students.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PTS 795. Clinical Research Methods I. 3 Credit Hours.
An overview of measurement and sampling research design relevant to clinical research in physical therapy.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PTS 796. Applied Statistics in Physical Therapy. 3 Credit Hours.
Basic statistics taught from an applied perspective which includes statistical computing using SAS or SPSS and interpretation and presentation of data analysis.
Requisite: Physical Therapy PHD Majors Only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PTS 798. Research Practicum. 3 Credit Hours.
Practicum designed to familiarize the student with an area of research, to implement a pilot study in an area of interest, and to develop working relationship with a sponsoring faculty member.
Requisite: Physical Therapy PHD Majors Only.
Components: RSC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PTS 799. Independent Study in Physical Therapy. 1-3 Credit Hours.
Each course is designed to meet the needs of graduate students for in-depth study in a particular area of special interest.
Requisite: Physical Therapy Majors Only.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PTS 802. Special Internship. 1-3 Credit Hours.
Supervised clinical education emphasizing clinical skills.
Requisite: Physical Therapy Majors Only.
Components: CLN.
Grading: SUS.
Typically Offered: Offered by Announcement Only.
PTS 803. Clinical Experience III. 2 Credit Hours.
This is the third eight-week clinical experience following the completion of all didactic course work. It is the third of three sequential and summative internships. This internship can be completed in an ambulatory/outpatient setting, acute care hospital, and rehabilitation hospital or unit or specialty practice such as pediatrics, sports, or women's health. Even though this internship is unique, it is part of a sequence in which professional development and growth is expected. During this experience the student concentrates on the clinical application of the patient/client management model. This includes the examination, evaluation, diagnosis, prognosis, and intervention and outcome assessment within the context of the clinical setting.
Components: CLN.
Grading: SUS.
Typically Offered: Spring.

PTS 804. Clinical Experience IV. 2 Credit Hours.
This is the fourth eight-week experience following the completion of all didactic course work. It is the fourth of three sequential and summative experiences. This experience can be completed in an ambulatory/outpatient setting, acute care hospital, and rehabilitation hospital or unit or specialty practice such as pediatrics, sports, or women's health. Even though this experience is unique, it is part of a sequence in which professional development and growth is expected. During this experience the student concentrates on the clinical application of the patient/client management model. This includes the examination, evaluation, diagnosis, prognosis, and intervention and outcome assessment within the context of the clinical setting. The student is expected to demonstrate good documentation skills, good communication skills and to develop their professionalism according to the APTA Core Values and Code of Ethics expected of the professional physical therapist.
Components: CLN.
Grading: SUS.
Typically Offered: Spring.

PTS 830. Pre-candidacy Dissertation.. 1-6 Credit Hours.
To be used for pre-candidacy PhD dissertation research.
Requisite: Physical Therapy PHD Majors Only.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

PTS 840. Post-candidacy Dissertation.. 1-12 Credit Hours.
The student will enroll for credits as determined by his/her advisor, but not for less than a total of 12. No more than six hours may be taken in a regular semester, nor more than three in a summer session. When a student has passed his/her qualifying exams and is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
Requisite: Physical Therapy PHD Majors Only.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

PTS 843. Measuring Health Outcomes. 3 Credit Hours.
An in depth analysis of the use and construction of instruments designed to measure health outcomes. Topics covered include creating and selecting items, scaling responses, scale construction, response bias, reliability, validity, measuring change, and methods of administration.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PTS 850. Research in Residence. 1 Credit Hour.
To establish residence for the PhD, or DPT, after the student has been enrolled for the permissible cumulative total in appropriate doctoral research or clinical practice. Credit not granted, may be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

Physics (PHY)

PHY 101. College Physics I. 4 Credit Hours.
Elementary mechanics, thermal phenomena, fluids, waves. Courses 101-102-106-108 provide a ten-credit 'physics with lab' sequence without calculus.
Prerequisite: MTH 105 or higher (excluding MTH 113). Corequisite: PHY 106.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 102. College Physics II. 4 Credit Hours.
Electromagnetism, optics, and modern physics.
Pre-requisite: PHY 101 And Co-requisite: PHY 108.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 103. General Physics. 3 Credit Hours.
Mechanics, waves, electromagnetism.
ARCHITECTURE MAJORS.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 106. College Physics Laboratory I. 1 Credit Hour.
Laboratory course to accompany PHY 101.
Pre/Corequisite: PHY 101 or PHY 201.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 108. College Physics Laboratory II. 1 Credit Hour.
Laboratory course to accompany PHY 102.
Prerequisites: PHY 102 or PHY 202. Or Corequisites: PHY 102 or PHY 202.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 110. Descriptive Astronomy. 3 Credit Hours.
For students not majoring in Mathematics or a Physical Science. brief non-technical treatment of the universe and its contents. Mathematical requirements are minimal with emphasis on our present knowledge about energy and matter in space. Not for major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 160. Physics of the Arts. 3 Credit Hours.
Newtonian mechanics, energy, wave motion, atoms, and electricity. Applications to music, art and communications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHY 201. University Physics I for the Sciences. 4 Credit Hours.
Calculus based introductory physics: mechanics, heat, fluids, waves, with applications from the physical and life sciences.
Pre-requisite: MTH 141 Or MTH 151 Or MTH 161 Or MTH 171 And MTH 162 Or MTH 172 Or Co-requisite: MTH 162 Or Co-requisite: MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 202. University Physics II for the Sciences. 4 Credit Hours.
Calculus based introductory physics: electromagnetism, optics, modern physics, with applications from the physical and life sciences.
Prerequisite: PHY 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 211. University Physics I for PRISM. 4 Credit Hours.
Calculus based introductory physics: mechanics, heat, fluids, waves, with applications from the physical and life sciences. Designed for students in the PRISM program.
Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 212. University Physics II for PRISM. 4 Credit Hours.
Calculus based introductory physics: electromagnetism, optics, modern physics, with applications from the physical and life sciences. Designed for students in the PRISM program.
Prerequisite: PHY 211.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 221. University Physics I. 3 Credit Hours.
Mechanics through gravity and harmonic motion, intended for science and engineering students.
Prerequisite: (MTH 141 or MTH 151 or MTH 161 or MTH 171) OR Co-requisite: (MTH 151 AND "B" in MTH 105 or MTH 108 or Placement in Calculus by MTH Placement Exam) OR Corequisite: (MTH 141 or MTH 151 or MTH 161) AND Department Permission.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 222. University Physics II. 3 Credit Hours.
Fluids, waves, optics, thermal phenomena, intended for science and engineering students.
Prerequisite: PHY 221 or PHY 205 And Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 223. University Physics III. 3 Credit Hours.
Electromagnetism through Maxwell's equations, intended for science and engineering students.
Prerequisite: PHY 221 (or PHY 205) and Pre Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 224. University Physics II Lab. 1 Credit Hour.
Laboratory to accompany PHY 222.
Prerequisite: PHY 222 or PHY 206 or Corequisite: PHY 222.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 225. University Physics III Lab. 1 Credit Hour.
Laboratory to accompany PHY 223.
Prerequisite: PHY 223 or PHY 207 or Corequisite: PHY 223.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 230. Honors University Physics II-III. 5-6 Credit Hours.
Fluids, waves, optics, thermal phenomena, electromagnetism. Combines PHY 222 and 223.
Prerequisite: PHY 221 and Pre or Co-requisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 295. Transfer Credits. 1-5 Credit Hours.
Special topics taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

PHY 306. Intermediate Laboratory. 1 Credit Hour.
Laboratory: a review of some of the fundamental experiments in classical and modern physics.
Prerequisite: PHY 225 or PHY 209 And Pre/Corequisite: PHY 360.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

PHY 315. Mathematical Tools for Physics. 3 Credit Hours.
How to use mathematics. Series, complex algebra, vector analysis, differential equations, etc.
Prerequisite: MTH 141 or MTH 151 or MTH 161 or MTH 171 and Pre/Corequisite: PHY 206 and Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 321. Thermodynamics and Kinetic Theory. 3 Credit Hours.
An intermediate course in thermal phenomena, from both macroscopic and microscopic points of view.
Prerequisite: PHY 222 or PHY 206 And MTH 211 or MTH 310 Or PHY 315.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 325. Biological Physics I. 3 Credit Hours.
Applications of fundamental principles from fluids, electrostatics, statistical physics to biological phenomena at molecular and neuronal levels; emphasis on quantitative picture of well-known biological systems; discussion of current research at the interface of biology and physics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
PHY 340. Classical Mechanics I. 3 Credit Hours.
Includes harmonic motion, orbit theory, coupled oscillations, rigid body motions.
Prerequisite: PHY 202 or PHY 212 Or PHY 222 Or PHY 230 or PHY 206 and PHY 207 or (PHY 210) And Pre/Corequisite: MTH 210 and MTH 311 Or Prerequisite: PHY 315.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 350. Intermediate Electricity and Magnetism. 3 Credit Hours.
Includes the integral and differential forms of Maxwell's equations, circuit theory, and boundary value problems.
Prerequisite: PHY 202 or PHY 212 Or PHY 222 Or PHY 230 or PHY 206 and PHY 207 or (PHY 210) And MTH 211 or MTH 310 And Pre/Corequisite: MTH 311 Or Prerequisite: PHY 315.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 351. Intermediate Electricity and Magnetism II. 3 Credit Hours.
A continuation of PHY 350. Includes further application of Maxwell's equations with emphasis on radiation theory.
Requisite: PHY 350.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 360. Introduction to Modern Physics. 3 Credit Hours.
Emphasis on the experimental foundations of modern physics. Relativity, quantization, atomic structure, radiation, nuclei.
Prerequisite: PHY 202 or PHY 212 or PHY 222 or PHY 230 Or PHY 206 and Pre/Corequisite: PHY 207 And Prerequisite: MTH 172 or MTH 315.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 401. Senior Thesis. 3 Credit Hours.
Research Leading to the writing of a senior thesis - First Semester.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 402. Senior Thesis. 3 Credit Hours.
Research Leading to the writing of a senior thesis - Second Semester.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 501. Research. 1-3 Credit Hours.
Project course introducing methods of research, individual investigation of current problems.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 502. Research in Astrophysics. 1-3 Credit Hours.
Project course introducing methods of research, individual investigation of current problems.
Components: RSC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 506. Advanced Laboratory. 1-2 Credit Hours.
Advanced experiments such as properties of the electron, optical spectra, electrical measurements, radioactive decay, absorption, etc.
Prerequisite: PHY 225 or PHY 209 And Pre/Corequisite: PHY 360.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

PHY 513. Mathematical Techniques in Physics. 3 Credit Hours.
Complex variables and applications. Infinite series and their uses, particularly in differential equations. Multiple integrals and Fourier series.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 516. Special Topics in Physics. 1-3 Credit Hours.
Special topics in Physics. Topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 517. Special Topics in Physics. 1-3 Credit Hours.
Special topics in Physics. Topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 518. Special Topics in Astrophysics. 1-3 Credit Hours.
Special topics in Physics. Topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 522. Solid State Physics. 3 Credit Hours.
Crystal structure, quantum theory of the electronic structure of solids, mechanical, electric, magnetic and optical properties of solids.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 530. Plasma Physics I. 3 Credit Hours.
Kinetic theory of plasmas, adiabatic motion of charged particles magneto fluid dynamics, transport properties of plasmas in electromagnetic fields.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 540. Classical Mechanics II. 3 Credit Hours.
Lagrangian formulation, rigid body dynamics. Topics selected from fluid dynamics, non-linear oscillations, normal modes, phase plane analysis.
Requisite: PHY 340.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
PHY 545. Introduction to Astrophysics. 3 Credit Hours.
Celestial mechanics, solar models, galaxies, distance scales, instruments.
Pre-requisite: PHY 360.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 552. Optical Physics. 3 Credit Hours.
Geometric optics, interference and diffraction, polarized light, optical pumping, coherence phenomena, applications to modern physical research.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 560. Quantum Mechanics and Modern Physics I. 3 Credit Hours.
Introductory theory with applications to simple systems. Perturbation theory and atomic structure.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 561. Quantum Mechanics and Modern Physics II. 3 Credit Hours.
Applications of quantum mechanics to atomic and molecular spectroscopy, quantum statistical mechanics, and nuclear physics.
Pre-requisite: PHY 560.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 606. Advanced Laboratory. 1-2 Credit Hours.
Advanced experiments such as properties of the electron, optical spectra, electrical measurements, radioactive decay, absorption, etc.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

PHY 613. Mathematical Techniques in Physics. 3 Credit Hours.
Complex variables and applications. Infinite series and their uses, particularly in differential equations. Multiple integrals and Fourier series.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 616. Special Topics in Physics. 1-3 Credit Hours.
Special topics in Physics. Topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 617. Special Topics in Physics. 1-3 Credit Hours.
Special topics in Physics. Topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 618. Special Topics in AstroPhysics. 1-3 Credit Hours.
Special topics in Physics. Topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 622. Solid State Physics. 3 Credit Hours.
Crystal structure, quantum theory of the electronic structure of solids, mechanical, electric, magnetic and optical properties of solids.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 630. Plasma Physics I. 3 Credit Hours.
Kinetic theory of plasmas, adiabatic motion of charged particles magneto fluid dynamics, transport properties of plasmas in electromagnetic fields.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 640. Classical Mechanics II. 3 Credit Hours.
Lagrangian formulation, rigid body dynamics. Topics selected from fluid dynamics, non-linear oscillations, normal modes, phase plane analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 645. Introduction to Astrophysics. 3 Credit Hours.
Celestial mechanics, solar models, galaxies, distance scales, instruments.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 652. Optical Physics. 3 Credit Hours.
Geometric optics, interference and diffraction, polarized light, optical pumping, coherence phenomena, applications to modern physical research.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 660. Quantum Mechanics and Modern Physics I. 3 Credit Hours.
Introductory theory with applications to simple systems. Perturbation theory and atomic structure.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 661. Quantum Mechanics and Modern Physics II. 3 Credit Hours.
Applications of quantum mechanics to atomic and molecular spectroscopy, quantum statistical mechanics, and nuclear physics.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 701. Condensed Matter Physics Seminar. 1 Credit Hour.
Seminars on hot topics in Condensed Matter Physics.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

PHY 713. Methods of Mathematical Physics I. 3 Credit Hours.
A continuation of PHY 515.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 717. Special Topics in Physics. 1-3 Credit Hours.
Topics are typically selected from fluid dynamics, applied mathematics, particle theory, nuclear physics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHY 718. Special Topics in Physics. 1-3 Credit Hours.
Topics are typically selected from fluid dynamics, applied mathematics, particle theory, nuclear physics.
Components: LEC.
Typically Offered: Offered by Announcement Only.
Grading: GRD.

PHY 722. Advanced Solid State Physics. 3 Credit Hours.
Electronic structure, electron-electron interactions, phonons, many-body problems, transport properties, magnetism, superconductivity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 723. Statistical Mechanics I. 3 Credit Hours.
Equilibrium state, irreversibility, statistical description of an ensemble, entropy, partition functions.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 724. Statistical Mechanics II. 3 Credit Hours.
Statistical description of many body problems, specific heats, Brownian motion in liquids and fields, non-equilibrium states, super-conductivity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 725. Electromagnetic Theory I. 3 Credit Hours.
Electrostatics, magnetostatics, Maxwell's equations, continuous media, waves, antennas, resonant cavities, wave guides.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 752. Electromagnetic Theory II. 3 Credit Hours.
Relativistic effects, interaction of radiation with matter, multiple radiation, radiation reaction.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 766. Elementary Particles. 3 Credit Hours.
The Standard Model of elementary particles. Classical theory of fields for spin 0, 1/2, 1; Feynman rules. The Standard Model Lagrangian is postulated, and some of its basic consequences are explored.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 770. Quantum Theory I. 3 Credit Hours.
Transformation theory, linear operators and vector spaces. Schrodinger's equation, rotation group and angular momentum, statistics (Bose-Einstein and Fermi-Dirac), isotopic spin, multiple structure of levels, approximation methods.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 771. Quantum Theory II. 3 Credit Hours.
One particle relativistic theory; Lorentz group; symmetries of particles; elementary scattering theory; many body problems; Green's function techniques; S-matrix.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 780. Directed Readings or Research. 1-4 Credit Hours.
Research in Physics.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

PHY 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: LEC.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

PHY 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in PHY 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 825. Continuous Registration--Master's Study. 1 Credit Hour.
To establish residence for non-thesis master's students who are preparing for major examinations. Credit not granted. Regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of PHY 730 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

PHY 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12. Not more than 12 hours of PHY 740 may be taken in a regular semester, nor more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

PHY 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

PHY 855. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. and D.A., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

PHY 870. Quantum Theory I. 3 Credit Hours.
Transformation theory, linear operators and vector spaces. Schrodinger's equation, rotation group and angular momentum, statistics (Bose-Einstein and Fermi-Dirac), isotopic spin, multiple structure of levels, approximation methods.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 871. Quantum Theory II. 3 Credit Hours.
One particle relativistic theory; Lorentz group; symmetries of particles; elementary scattering theory; many body problems; Green's function techniques; S-matrix.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
Political Science (POL)

POL 201. Introduction to American National Government. 3 Credit Hours.
Examination of the principles, structures, and processes of the national government of the United States. Frequent comparisons made with others countries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 202. Introduction to Comparative Politics. 3 Credit Hours.
This course introduces students to study of comparative and international politics by examining how conflicts over these issues have played out in several different countries around the world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 203. Introduction to International Relations. 3 Credit Hours.
Introduction to the theory and practice of international relations. Areas covered include: diplomacy, conflict resolution, international institutions and law; great power politics, international political economy, environmental politics, political integration, the evolving state system, and new global challenges.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 214. Criminal Justice and Social Change. 3 Credit Hours.
The social impact of crime as a form of domestic terrorism, the police and courts as a deterrent, and incarceration as an attempt to prevent and punish violent social behavior. This course is only open to high school students participating in the Summer Scholars Program.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

POL 250. Scope and Methods of Political Science. 3 Credit Hours.
The basic skills needed in political science to critically read academic journal articles and books. The application of scientific methods to the study of public life, focusing on research design and introducing students to the various methodologies used by researchers to draw descriptive and causal inference about the political world. Some methods introduced include ethnography, experimentation, the case study, and survey research.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 301. The Science and Practice of Political Research. 3 Credit Hours.
Exposes students to the way in which scientific knowledge of political phenomena is currently created and evaluated. Prerequisite: POL 201 or POL 202 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 302. Political Fiction and Film. 3 Credit Hours.
Politics as presented in films and in relevant texts such as novels and biographies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 303. Refugees and Migrants. 3 Credit Hours.
The increase in movement of people across borders that have occurred around the world over the past decades, the challenges posed by global migration, and the political responses of national communities to this phenomenon.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 305. Introduction to Political Theory. 3 Credit Hours.
Politics is organized behavior shaped by power. This brief, stripped-down, and pragmatic definition is what we will use in gaining access to the political philosophers we will study in this course. Students will have a greater understanding of arguments and texts in political philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 306. Positive Political Theory. 3 Credit Hours.
Introduction to positive political theory as a study of politics using quantitative methods such as game theory, laboratory experiments, and computer simulation. The political agents involved in a given interaction are modeled as rational players guided by self-interest whose behavior can be formally explained or predicted.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 307. Political Ideologies. 3 Credit Hours.
Covers modern and contemporary political ideologies, such as Liberalism, Conservatism, and Marxism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 309. American Political Thought. 3 Credit Hours.
This class traces the evolution of democratic thinking in America. Topics include the meaning of representation, citizenship, equality and liberty.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 310. God, Science, and Politics. 3 Credit Hours.
A study of morality and religion that addresses the competing influences of material and spiritual discourses on political regimes and practices. The talking points for the course include the various proofs and refutations offered throughout history of God’s existence, the differences and similarities of scientific and religious approaches to experience, and the ways in which moral and religious principles enlighten politics as they fold into the vocabularies of natural law and right, and contaminate the political with religious violence in the name of God.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 311. Conspiracy Theories and the Public. 3 Credit Hours.
Why do people believe in conspiracy theories? This inter-disciplinary course examines a variety of explanations for conspiratorial beliefs.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
POL 312. Politics, Society and Art. 3 Credit Hours.
Analysis of the relationship between narratives, aesthetics, (beauty) and the political/social world. By successfully completing this course, students will understand how humans interpret the political, social, and physical world through narrative. Come to see how most/all political controversies involve competing narratives. How false narratives are deployed to manipulate the public. Realize that through art important analytical arguments are made, which impart substantial insight into social, political, and physical phenomena. See how philosophy is intelligently conveyed through art - including approaches to political legitimacy, justice, and how political stability is maintained. To analyze the relationship between art, society, and politics, we draw episodes of the Simpsons, renaissance art, and broadcast iterations of Star Trek.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 313. The Constitution. 3 Credit Hours.
This course examines the US Constitution from a political and historical prospective. This is a writing intensive course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 314. Legislative Processes. 3 Credit Hours.
Examination and analysis of the United States Congress. Emphasis on internal structure and operations, congressional roles and procedures, party leadership, external influences on congress, and incentives for congressional behavior.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 315. American Presidency. 3 Credit Hours.
Historic development of presidential power; sources of the powers of the modern presidency, institutional decision-making; how and to what degree presidential power should be controlled.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 316. Politics of Globalism. 3 Credit Hours.
Global politics, including the political and normative values that shape global politics: nationalism, internationalism, neoliberalism, empire, socialism. The format will include a focus on energy, as energy is arguably the basis of the global polity.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 318. Economics for Politics and Public Administration. 3 Credit Hours.
Principles of microeconomics to students for use when analyzing public policy for effective public administrator and planning. Considers basic concepts of microeconomic principles including market failure, public goods, supply and demand, pricing, and externalities. These concepts will be presented using practical examples involving the public sector, and students will practice application through problem solving.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 319. Politics of the Administrative Process. 3 Credit Hours.
The principles, structure, functions and processes of federal administrative agencies of the United States government. Particular emphasis will be placed on the legal, ethical, and political ramifications of agency actions in a political environment as well as interactions between the bureaucracy, other branches of the federal government, state and local governments, and interest groups. Special attention will also be given to bureaucratic power, democratic control, and accountability.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 320. Politics of Growth Management. 3 Credit Hours.
The purposes and techniques of managing growth in our urban areas. Conducted as a seminar with lectures by the instructor augmented by class discussion.
Prerequisite: POL 201.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 321. Introduction to Public Policy. 3 Credit Hours.
The purpose of this course is to instruct students in the problems and processes in the implementation of public policy at an introductory level.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 322. Environmental Politics and Policy. 3 Credit Hours.
Examines the federal government’s policies toward the National Forests and public grasslands; water supply policies and politics of the Everglade and Far West; global warming; U.S. air and water pollution policies and politics as well as those related to waste management; U.S. energy policies; and trade and the environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 323. Global Warming, Politics and the European Union. 6 Credit Hours.
The European Union (EU), and especially France to ecologically modernize their advanced economies. The course will treat the EU effort to fashion an international agreement on climate change. This class in conducted in Paris, France.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

POL 322. Mass Media and Politics. 3 Credit Hours.
Role of media in American politics. Historical development of the media from newspapers, through radio, to television and new media such as the internet. Changing norms of news media reportage. The growth of political advertising both during and between elections; the effects of these developments on American government and on the public.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
POL 334. Campaigns. 3 Credit Hours.
Students learn about political campaigns by becoming involved in an active campaign and studying the academic literature about elections and campaigns. Topics are media, campaign organization, voters, issues, political parties, elections, and the five elements of every campaign.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 335. Democracy in Action: Local Government Simulation. 3 Credit Hours.
Examination of city and county governments and politics. Focuses on structures, leadership, taxing and spending, the influence of state and federal governments, and 'hot-button' issues of importance to South Florida communities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 337. International Law and Organizations. 3 Credit Hours.
This course focuses on the interaction of states through various legal regimes. We will consider the role of international law and organizations in politics, and the political implications of both criminal and civil international law from the perspective of the state, the individual, and non-governmental actors. Readings, lectures, class discussions, and examinations will familiarize the students with the parameters and limitations as well as the policy and practice of international law.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 340. Civil Wars. 3 Credit Hours.
Theories and empirical findings on the causes of civil wars, their termination and conduct. Questions addressed in the course include: Why do civil wars occur? Are economic or political causes more important? How do civil wars end? Are ethnic civil wars different from wars fought for political ideology or material gains? What role do natural resources play in civil wars? Why are civilians especially likely to be victimized in some civil wars but not in others? Why do warring parties resort to terrorism? How do civil wars end? What factors are more conducive to long-lasting peace?
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 341. Nationalism, Ethnicity, and Political Conflict. 3 Credit Hours.
Examines theories of ethnic and national conflict focusing on contemporary issues throughout the world.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 342. State Government and Politics. 3 Credit Hours.
State constitutions, political parties, legislatures, executives court systems, administrative systems and services, financial problems, city and county governments, local-state, federal-state and interstate relations. Special emphasis on governments in Florida.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 343. Government in Metropolitan Areas. 3 Credit Hours.
This course will introduce the student to the organization and functions of counties and municipalities in the United States. On occasion guest speakers will be featured. We will examine Miami-Dade County as a concrete example of the course content.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 344. Gender and Politics. 3 Credit Hours.
Compares the roles played by men and women in political systems worldwide; examines public policy outcomes with significant gender-based effects, including policies on sexuality & reproductive health, gender-based violence, work & the family, and access to education.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 345. The United States and Asia. 3 Credit Hours.
Political, economic, and security aspects of America's relations with the Asian-Pacific area. Trade and alliance relationships. Actions and interactions of Asian states, their alignments with each other; the impact of these alignments on their relationships with the United States and in the global balance of power.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 346. U.S.-Latin American Relations. 3 Credit Hours.
Systematic survey of U.S.-Latin American relations highlighting contending paradigms in the study of hemispheric relations. Examines issues in East-West and North-South relations and political economy of Brazil, Mexico, and Argentina. Considers alternative U.S. foreign policies.
Prerequisite: POL 202 or POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 347. American Foreign Policy. 3 Credit Hours.
This course investigates how American primacy came to be, what its consequences are, and what will drive American foreign policy in the future. Students use social science to evaluate claims and understand the world, improve their ability to advance and defend arguments, and develop a broad base of knowledge about American foreign policy history and issues.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 348. United States Relations with the Middle East. 3 Credit Hours.
Evolution of American relations with the Middle East. Analysis of the motivations and calculations, including domestic and external sources of policy-making and implementation. Emphasis on post-World War II period, with particular attention to the current administration.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
POL 349. U.S. Defense Policy. 3 Credit Hours.
Examination of key problems of national security in the post-Cold War environment. Emphasis on the structure and functioning of the U.S. defense establishment and its interactions with its most probable adversaries and allies. Consideration of the constraints on, and options open to, policy planners, and with the institutional elements of the decision making process.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 351. Public Opinion. 3 Credit Hours.
Political functions of public opinion; opinion dynamics in the U.S.A.; quantitative analysis of elements in opinion change; principles of political control via mass media in the U.S.A.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 352. Political Parties. 3 Credit Hours.
Analysis of political organizations and electoral processes in the United States: their history, current status, and present trends. Consideration of the organization, control, and finances of political parties and pressure groups, their characteristic practices, and their relationship to political democracy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 353. Interest Groups and Lobbying. 3 Credit Hours.
Analysis of lobbying and political interest groups in the United States; history, current status, and present trends. The organizations, control, and finances of pressure groups, their characteristic practices, and their relationship to democracy. Also, lobbying by citizens and groups more broadly, including the role of campaign contributions.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 354. The CIA and the World of Intelligence. 3 Credit Hours.
What the CIA does, how it does it, and the ways in which the CIA works with other intelligence agencies. Topics explored include: notable intelligence successes and failures, key intelligence issues, and ethical debates about intelligence activities including covert action.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 355. International Organizations. 3 Credit Hours.
International organizations which, in addition to contributing to the solution of international problems, also help to provide rules and structures to manage state-to-state relationships.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 360. Congressional Representation. 3 Credit Hours.
Examination of how and when citizens influence legislators’ behavior. How legislators’ floor behavior reflects citizens’ preferences and how these preferences influence the formation of electoral coalitions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 361. Ending Wars and Building Peace. 3 Credit Hours.
How local and international actors build sustainable peace strategically through peacekeeping, peace accords, reconciliation, education, human rights, international law, and state-building.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 362. Social Movements. 3 Credit Hours.
Addresses questions central to social movement activists and researchers. Draws on examples from across the Americas and on current social movement research.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 363. The Historical Roots of American Imperialism. 3 Credit Hours.
Examines the assertive and exploitative aspects of U.S. foreign policy. Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 364. Introduction to Criminal Justice. 3 Credit Hours.
Selected topics in criminal law with an emphasis on constitutional criminal procedure and post-9/11 developments in federal criminal law: constitutional principles covering investigation and arrest, racial profiling, warrant-less searches, controversial interrogation techniques, rights of ‘enemy combatants’ and the imposition of capital punishment.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 372. Constitutional Law I. 3 Credit Hours.
A study of the development of the principles of American Constitutional Law, with a course focus upon those constitutional principles developed from the original document. Areas of study include judicial review, separation of powers, the Commerce Clause, the Contract Clause, and the Due Process Clauses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 373. Constitutional Law II. 3 Credit Hours.
This course will cover some of the 27 amendments to the U.S. Constitution. It will mainly focus on the constitutional limits placed on the national and state governments by the Bill of Rights and the Fourteenth Amendment. This study of the historical, political and legal development of constitutional law in the area of civil liberties will be done in large part by reading and discussing the major U.S. Supreme Court opinions related to these amendments and others.
Prerequisite: POL 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 378. African Politics. 3 Credit Hours.
An opportunity for students to develop their own interests in African Politics through extensive research and analysis. Students critically evaluate the process of economic development in the region with respect to the interaction of politics and economics. Included within this evaluation is an understanding of the benefits and detractions of development strategies, a working knowledge of development policy and an appreciation of the complex processes leading to the success or failure of development efforts.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 379. South East Asian Politics. 3 Credit Hours.
The politics, economics, and history of Southeast Asia. Provides the opportunity for students to develop their own interests in the topic through extensive research and analysis.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 381. West European Politics (Previous Title: European Politics and Government). 3 Credit Hours.
Examination of political and economic developments in western European countries.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 382. Government and Politics of the Federal Republic of Germany. 3 Credit Hours.
An examination of Germany’s political system, its political parties, and the country’s economic, social and foreign policies.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 383. Politics in China. 3 Credit Hours.
Development and nature of Chinese domestic politics in theory and practice; problems of political stability and conflict; the role of historical and cultural traditions, institutions, social, economic and personality factors in Chinese politics; process of change and problems of leadership succession; the significance of changes in the character and style of Chinese leadership.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 384. Postcommunist Russian Politics. 3 Credit Hours.
Examines the demise of the USSR and the tumultuous post-communist transition in Russia from Gorbachev to Putin and Medvedev. The foundations of state power, the political party system, civil society, petro-state capitalism, endemic corruption, current politics, and Russian nationalism are examined through the lens of western and Russian political science theories.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 385. Politics and Society in Latin America. 3 Credit Hours.
Introduction to the politics of Latin American countries focusing on 20th century history, the impact of the Cold War and home-grown social struggles, economic development models, the difficulties of democratic consolidation, U.S.-Latin America relations, the emergence of new political actors such as women’s and indigenous movements, and current political constellations. The course combines a study of thematic issues with case studies.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 386. Democratic Consolidation. 3 Credit Hours.
Explore the general concept of ‘democratic consolidation’ which has become a timely topic in the discourse of today’s foreign policy. We will examine the central theoretical concepts that frame the discourse and then examine several case studies.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 387. Politics of the Middle East. 3 Credit Hours.
Comparative analysis of the political development of the Middle East in terms of nations and as a region. Particular stress is on the relationships within the region and with other regions of the world.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 388. Politics of Israel. 3 Credit Hours.
It is the purpose of this course to examine the Israeli system. Three themes will structure this investigation. The first considers the complex, evolving, identity questions and politics that attend Jewishness, Zionism and being Israeli; the second investigates legitimacy, the nature and dynamics of the Israeli political system; and the third engages the multidimensional nature of Israeli security.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 389. Special Topics in Comparative Politics. 3 Credit Hours.
A lecture course in Comparative Politics, designed to give the student a greater degree of knowledge of a particular subject within this subfield. This topic may be repeated for credit.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 390. Special Topics in American Politics. 3 Credit Hours.
A lecture course in American Politics, designed to give the student a greater degree of knowledge of a particular subject within this subfield. This topic may be repeated for credit.
Prerequisite: POL 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 391. Special Topics in International Relations. 3 Credit Hours.
Introduction to the theory and practice of international relations. Analyzes the modern state system; globalization; diplomacy and negotiation, and balance of power considerations. Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 392. International Terrorism. 3 Credit Hours.
Study of phenomenon of low-intensity warfare known as international terrorism in all its variations: state, state-sponsored, state-supported, domestic revolutionary terrorism and counter-terrorism. Also examines governmental policies of countering terrorism. Prerequisite: POL 202 or POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 393. Special Topics in Public Administration, Policy, and Law. 3 Credit Hours.
A lecture course in Public Administration, Policy, and Law, designed to give the student a greater degree of knowledge of a particular subject within this subfield. This topic may be repeated for credit. Prerequisite: POL 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 394. Special Topics in Political Theory and Methods. 3 Credit Hours.
A lecture course in Political Theory and Methods, designed to give the student a greater degree of knowledge of a particular subject within this subfield. This topic may be repeated for credit. Prerequisite: POL 201 or POL 202 or POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 395. Transfer Credit in Political Theory and Methods. 1-9 Credit Hours.
Course for which there is no direct UM equivalent.
Components: LEC.
Grading: GRD.

POL 396. Transfer Credit in Public Administration, Policy, and Law. 1-9 Credit Hours.
Interdisciplinary workshops will treat different policy issues with a view toward developing a theory of deliberate social change. The scenario will include the stance and role of the change agent and the institutional forms involved in changing urban settings.
Components: LEC.
Grading: GRD.

POL 397. Transfer Credits in International Relations. 1-9 Credit Hours.
Course for which there is no direct UM equivalent.
Components: LEC.
Grading: GRD.

POL 398. Transfer Credit in Comparative Politics. 1-9 Credit Hours.
Course for which there is no direct UM equivalent.
Components: LEC.
Grading: GRD.

POL 401. The Election. 3 Credit Hours.
In a democracy, the actions of the government are based on the wishes of the citizenry. We will examine the vital role that elections play in this process, specifically focusing on the issues and events surrounding the on-going elections.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 402. Latino Politics. 3 Credit Hours.
An examination of the impact of Latinos on domestic politics, the impact of transnational migration on hemispheric politics, and the impact of recent waves of immigration on U.S. society, Latin American Society, the economy, workforce, education, media, culture, healthcare, and law enforcement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 491. Immigration Reform and the 2014 Election. 3 Credit Hours.
This is a unique experience that will include high-profile guest speakers. We will examine the debate on immigration including both documented and undocumented workers. The course examines the impact of recent waves of immigration on U.S. society, market, workforce, education, media, culture, healthcare, and law enforcement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 499. Special Topics. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 501. Budget and Financial Management and Administration. 3 Credit Hours.
Role of the budget in shaping public policy; managing public revenues; budgetary theory, politics, and fiscal management. Examples from state, municipal and federal governments.
Components: LEC.
Grading: GRD.

Typically Offered: Spring.

POL 502. Politics of Civil Rights. 3 Credit Hours.
An examination of civil rights policy and politics from Reconstruction to the present, with a focus on the enactment of landmark civil rights bills in the 1960s.
Prerequisite: POL 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 503. Organizational Dynamics and Management. 3 Credit Hours.
Organizational dynamics and management in public and non-profit organizations. Focus on organizational theories, leadership, behavior, goals, effectiveness, and change, with an emphasis on the distinctiveness of public organizations, public-private partnerships, new public management, and digital governance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 504. Biology and Politics. 3 Credit Hours.
Political scientists traditionally study political decision-making as a product of individual level characteristics. For example, a person's partisan identification is highly predictive of their vote choice. Political scientists have also begun to assess the influence of social forces on our politics. For example, it has been shown that everyday discussions about politics with friends, neighbors, and coworkers influence political attitudes and behaviors. More recently, political scientists have begun to examine the influence that our biology has on our politics. This seminar is a survey of this growing area of research.
Components: DIL.
Grading: GRD.
Typically Offered: Summer.

POL 506. From Plato Through Rawls. 3 Credit Hours.
Political thought of the past with more recent insights and concepts, often drawn from the work of theorists who question what is taken for granted in traditional political theory.
Prerequisite: POL 201 or POL 202 or POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 508. Equity and Diversity in Public Administration. 3 Credit Hours.
Federal and state policies, laws, and court decisions as means for helping public administrators develop policies and procedures that meet legal requirements and recognize the values of equity and diversity in the treatment of its citizenry and public employees.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 509. Issues in Judicial Pol.. 3 Credit Hours.
The Supreme Court of the United States (SCOTUS) through the lens of upcoming cases on the SCOTUS's docket and through recently decided cases that were of important legal precedent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 510. Statistics for Politics and Public Administration. 3 Credit Hours.
This course focuses on the use of statistics to conduct quantitative research (i.e., statistics) in political science and public administration. The course emphasizes hands-on data work. Students will learn how to perform political analyses – and present findings in an appropriate manner – using SPSS statistical software.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 511. Security in the Arabian Peninsula. 3 Credit Hours.
Examines the security environment of the Arabian Peninsula.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 512. Advanced Political Analysis. 3 Credit Hours.
This course teaches students how to do social science research using the applied techniques of statistics and case study analysis while exposing them to research in the leading sub-fields of political science. Students will produce an original paper that evaluates an academic question using empirical social science evidence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 513. Models of Politics. 3 Credit Hours.
Hands-on examination of the process by which quantitative and qualitative models are constructed in political science. The course focuses on the creative aspect of model building and diverse forms of theory construction.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 514. Art and Politics. 3 Credit Hours.
Explores the issues of, political legitimacy, international relations, and concepts of justice by examine the interrelatedness of works of art and politics.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 515. Media Content Analysis. 3 Credit Hours.
There are few facets of our lives which are not directly affected by media content. From cell phones to televisions, the media is with us all the time. But what messages are contained in the mass media? What methods can we employ to study media content scientifically? This course will explore methods of analyzing media sources including movies, newspapers, magazines, and television. Course topics will include political bias, campaign coverage, and news content. Students will design their own projects and implement their own coding strategies.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

POL 516. Experiments in Political Science. 3 Credit Hours.
Examines the experimental method in the study of politics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

POL 517. Introductory Statistical Methods in Political Science. 3 Credit Hours.
The tools needed to manipulate and analyze quantitative data rigorously so you may answer questions of political interest. First in a two-course sequence (followed by POL 518).
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 518. Advanced Statistical Methods in Political Science. 3 Credit Hours.
The maximum likelihood framework for statistical inference in the study of politics. Second in a two-course sequence (preceded by POL 517).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 519. Introduction to Game Theory for Political Science. 3 Credit Hours.
The rudiments of non-cooperative game theory. Mainly intended for political science students, but presents applications from other academic disciplines such as economics, business administration, sociology, and psychology.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
POL 520. Internship. 3 Credit Hours.
Provides advanced political science majors with an opportunity to participate in a structured, supervised internship. 25-35-page research paper required. Permission of instructor is required before starting the internship.
Requisite: Plan of Political Science.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 521. Public Affairs Internship. 3 Credit Hours.
Opportunity for the advanced student specializing in public administration to participate in an administrative capacity in an agency of state or local government. Periodic conferences with adviser and paper required. Permission of instructor is required before starting the internship.
Requisite: Plan of Political Science.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 522. Introduction to Graduate Public Administration. 3 Credit Hours.
Introduction to concepts, issues, problems, theories and process in the field of public administration and/or public management.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

POL 523. Problems in Public and Non-Profit Management. 3 Credit Hours.
Nature of the power vested in administrative bodies and problems involved in management procedures. Special emphasis on local or non-profit administration.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 524. Non-Profit Organizations: Law, Policy, and Management. 3 Credit Hours.
This course teaches students the essential requirements for creation and operation of tax-exempt nonprofit organization in accordance with state and federal law. The course covers a wide range of relevant topics including guidelines for charitable giving and charitable solicitation, pitfalls that can result in personal liability for officers and directors, and statutory constraints on legislative lobbying and political activities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 525. Comparative Public Policy and Administration. 3 Credit Hours.
Comparison and analysis of the organizational and managerial policy problems of developed and developing nations. The administrative process will be considered within the institutional and cultural framework of each nation. Case studies will be used to focus on transition from traditional to modern techniques of public management.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 526. Administrative Law. 3 Credit Hours.
Administrative law is the study of the legal relationship of government agencies to legislatures, courts, and private parties. The course examines the legal dimensions of bureaucratic power and procedures as well as constitutional and statutory constraints on regulators and administrators. Topics include rule making, adjudication, investigation and enforcement, political controls on agencies, judicial review of agency decisions, governmental liability and immunity, public records and open meetings laws. Both federal law and Florida law are covered. The course assumes a basic knowledge of the American legal system, constitutional law and bureaucracy.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

POL 527. Comparative Political Institutions. 3 Credit Hours.
The concept of institutionalism by studying three major sets of democratic institutions: electoral systems, legislatures, and political regimes.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 528. Advanced Seminar on Electoral Behavior. 3 Credit Hours.
This seminar examines the opinions that Americans have and how those opinions are expressed through participation in elections. At the end of the semester we will also examine other forms of political participation (e.g., interest groups).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 529. Conducting U.S. Elections. 3 Credit Hours.
Fair and free democratic elections are the heart of US democracy. This course will examine who gets to vote, whether election laws and rules are fair (and fairly implemented), and proposals to reform the way elections are run.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 530. Intelligence and National Security Decision Making. 3 Credit Hours.
This course will study the US national security community structure and decision making process. The course will look at the National Security Council, the principal national security agencies (such as the CIA, Defense Department, and State Department), how they interact, and their roles in dividing and executing policy. We will also examine the role and function of senior policy decision makers such as the President. We will study recent policy challenges such as Iraq and Afghanistan as examples of National Security policy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 531. Global Environmental Politics. 3 Credit Hours.
Examination of the environment within the context of economic globalization. Contrasts the international trading regime and those regimes designed to protect the environment, with specific attention to the issues of global warming and bio-diversity.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
POL 532. Art and Politics in Paris. 3 Credit Hours.
Analysis of the relationship between narratives, aesthetics (beauty) and the political/social world. By successfully completing this course, students will; understand how humans interpret the political, social, and physical world through narrative. Come to see how most/all political controversies involve competing narratives. How false narratives are deployed to manipulate the public. Realize that through art important analytical arguments are made, which impart substantial insight into social, political, and physical phenomena. See how philosophy is intelligently conveyed through art - including approaches to political legitimacy, justice, and how important analytical arguments are made, to analyze the relationship between art and politics, we draw on renaissance, modern, contemporary, and indigenous art. Paris is arguably the center of the art world, with a number of museums holding a surfeit of socially and politically important works. We visit a number of these museums. After visits to these museums, time in class will be dedicated to discuss those works you, the students, find significant. A requirement for this class is a camera (a camera phone is acceptable), with which you photograph those works you’d like to discuss in class.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

POL 533. Courts and Controversy. 3 Credit Hours.
Course places the students in the role of advocate, justice, or court observer for the purposes of arguing and deciding current or recent Supreme Court cases.
Components: SEM.
Grading: GRD.
Typically Offered: By Announcement Only.

POL 534. Applied Policy Analysis. 3 Credit Hours.
Examines a variety of policy problems through the framework of problem definition, formulation of alternatives, assessment of alternatives, and policy impact evaluation. Students will also be introduced to cost-benefit analysis and evaluation methods.
Components: DIS.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 536. U.S. Health Care Crisis: Politics and Policies. 3 Credit Hours.
This seminar will explore the politics and policies of healthcare in the United States. Our examination of the current crisis in cost and coverage will draw on experience from the debates on comprehensive and incremental reform over the past decade. In addition, we will explore the politics and policies of other health and science issues. Students will be expected to attend every class and be actively involved in class discussions. There will be two examinations, one at mid-term and a final based on readings and course discussions.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 537. Microeconomics for Public Policy. 3 Credit Hours.
Describes and explains principles and theories of microeconomics in the context of public policy applications.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 540. Human Resource Management in Public Service. 3 Credit Hours.
Topics include human resource management in public service: job analysis and design, evaluation and appraisal, recruitment and interviewing, training and development, wages and benefits, and health and safety. Unionization, regulation of wages, hours and working conditions, financial security for workers, manpower planning and job anti-discrimination legislation are considered.
Components: DIS.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 541. Philosophy of Law. 3 Credit Hours.
Case-based study of jurisprudence designed to illuminate and explain philosophies of law. Examination of theories of free expression; bioethical matters; theories of punishment and legal responsibility; and the placement of religious discourses in liberal systems of law. Special attention to cases involving fundamental rights and liberties; the role of the individual and the state in civil society; and the capacities of individual to be legally competent in contemporary systems of law.
Components: LEC.
Grading: GRD.
Typically Offered: By Announcement Only.

POL 542. Art and Politics in Paris. 3 Credit Hours.

POL 543. Congressional Representation. 3 Credit Hours.
How and when citizens influence legislators’ behavior. Specifically, how legislators’ floor behavior reflects citizens’ preferences and how these preferences influence the manner in which legislators build electoral coalitions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 544. Chinese Foreign Policy. 3 Credit Hours.
Prerequisite: POL 203 or INS 101.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

POL 545. Environmental Policy Making. 3 Credit Hours.
Examination of different ethical approaches to the environment; the federal government’s management of natural resources; selected environmental policies; international environmental policy issues. Topics include federal management of national grazing lands, national forests, and minerals in the public domain. Analyzes environmental policies such as air, water, toxic wastes, energy, and environmentally-related issues in international trade and national security.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 546. Public Policy Process and Implementation. 3 Credit Hours.
Examination of public policy issue areas including education, health, welfare, urban mass transit. Limits to effectiveness of federal, state and local governments in providing services. Techniques for analyzing the effectiveness of public policies; research techniques for the assessment of future policy alternatives.
Components: DIS.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 547. Congressional Representation. 3 Credit Hours.
This course examines how and when citizens influence legislators’ behavior. More specifically, we examine how legislators’ floor behavior reflects citizens’ preferences and how these preferences influence the manner in which legislators build electoral coalitions. Requisite: POL 201 Or POL 202 Or POL 203 Or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 548. Civic Participation and Democracy. 3 Credit Hours.
Citizens participate in the governing process by communicating their preferences and pressuring the government to respond. In this course we examine these various mechanisms of ‘civic participation’, and discuss the meaning and consequences of participatory democracy. The course focuses on the contemporary United States, but we will devote some time to discuss civic participation in other countries as well.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 550. Advanced Seminar on American Politics. 3 Credit Hours.
This seminar provides students with a survey of significant research on major topics in American Politics. We will read influential works of the past, as well as recent cutting-edge research. Particular attention will be paid to discussing the methods and theories used in the research we will read. The purpose of the course is to acquaint students with the literature on American Politics, while also providing an opportunity for students to develop skills in critically assessing and skillfully conducting social science research.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 551. Productivity in the Public and Non-Profit Sectors. 3 Credit Hours.
Definitions and measures of productivity. Evaluation of government programs, and methods of productivity improvement.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

POL 553. The Environmental Movement: Groups, Beliefs and Values. 3 Credit Hours.
Exploration of the origins and political impact of environmentalism in the United States and, to a lesser extent, in the global context. Impact of democratic participation on environmental politics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 555. Total Quality Public Service Management: Achieving High Performance Government. 3 Credit Hours.
Examination of the theory and practice of Total Quality Management (TQM) in the government and non-profit sector. Focuses on budgetary, customer service, employee and process improvements that facilitate increased public and non-profit performance. Special emphasis to TQM’s contribution to improved service delivery.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 556. Politics and Ethics. 3 Credit Hours.
Personal, professional, organizational, and societal levels of ethical analysis. Ethical theories will be reviewed and applied to actual cases that focus on public policy and/or the officials who create and implement it. Profiles of moral exemplars in public life will be examined.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 557. Ethical and Managerial Issues in Government, Business and Non-Profit Organization.. 3 Credit Hours.
Governments at all levels in this country--national (Larry Craig, David Vitter, Mark Foley, Bill Clinton, Randy Cunningham, Tom DeLay, William Jefferson, James Traficant, Robert Torricelli, Jack Abramoff), state (former Illinois, Louisiana, New York, Ohio, and Arizona governors), and local (Miami, Providence city officials, Miami-Dade, Broward, and Palm Beach counties)--have encountered scandals involving ethical wrongdoing. Businesses (Enron, Worldcom) and nonprofit organizations (Boy Scouts, United Way) have faced similar problems. Countless less-visible examples of unethical and ethical behavior occur in organizations daily. This course examines the causes and consequences of such actions and the managerial strategies and competencies needed to effectively cope with the ethical issues confronting individuals and organizations.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 558. From Electronic Government to Digital Governance. 3 Credit Hours.
Graduate and advanced undergraduate seminar explores the transition from electronic government (e-gov) to digital or d-governance, emphasizing political participation, citizen-centric public administration and the proliferation of global information technologies and social media.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 559. International Organizations. 3 Credit Hours.
International organizations which, in addition to contributing to the solution of international problems, also help to provide rules and structures to manage state-to-state relationships.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 561. Ending Wars and Building Peace. 3 Credit Hours.
How local and international actors build sustainable peace strategically through peacekeeping, peace accords, reconciliation, education, human rights, international law, and state-building.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 563. Senior Thesis. 3 Credit Hours.
Components: THI.
Grading: GRD.
Typically Offered: Fall.
POL 564. Senior Thesis II. 3 Credit Hours.
Continuation of POL 563: writing and defense of the theses.
Prerequisite: Plan of Political Science.
Components: THI.
Grading: GRD.
Typically Offered: Spring.

POL 565. The World Before European Domination. 3 Credit Hours.
Examines the historical roots of the contemporary international system, and questions the standard Eurocentric perspective on the rise of the West to a dominant position in the global system.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 566. Activism. 3 Credit Hours.
Explores what activism is, the history and developments of activism around the world, and which activists strategies work best. Assignments will send students into the community to participate in local politics, work with local organizations, and engage in activism.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 569. LGBTI Politics. 3 Credit Hours.
Describes and explains global variance in government policies of interest to lesbian, gay, bisexual, transgender and intersex citizens including sodomy laws, anti-discrimination ordinances, same-sex marriage and adoption, military service, and the right to change one's sex or identify as neither male nor female. POL 344 or WGS 344 Strongly Recommended
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 570. Uniting States in International Perspective. 3 Credit Hours.
How states form and fragment; The main actors in nation formation; the elements of continuity and change; the impact outsiders can have on the process.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 571. Sex, Babies, and the State. 3 Credit Hours.
In one of the most profound revolutions of the past century, gender roles have irreversibly changed and equal rights for women and men has become a stated goal in western societies, even if not the reality. This course examines policies on reproduction, work and the family in advanced industrialized countries including Latin American Countries.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 572. Government and Business. 3 Credit Hours.
Government-business-society relations with emphasis on the social, economic, political, technological, ethical, and ecological environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 575. The Politics of Civil-Military Relations. 3 Credit Hours.
Course examines the relationship between states and their soldiers across various historical periods and regional contexts, and how this relationship has been altered in an era where the viability of old structures of state authority are no longer self-evident.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

POL 576. On Violence: The Politics of Extremes. 3 Credit Hours.
Literary and theoretical treatments are considered for what they can tell us about the causes, characteristics and consequences of violence. These insights are enlisted to help us understand violence enacted by states against their societies, societies against states, and within society itself.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 577. Security in South Asia: The Conflicts of Afghanistan, Pakistan, and India. 3 Credit Hours.
The security system of South Asia's northern reaches and the current conflict involving Afghanistan, Pakistan, and India: considerations of sovereignty and the role of frontiers in world politics.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

POL 578. Energy and Security in Eurasia. 3 Credit Hours.
Engages the intersection of energy and security within the contested space of Eurasia.
Prerequisite: POL 202 or POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 579. The politics of post-communist transactions. 3 Credit Hours.
Examination of the creation, breakdown, and aftermath of communist governments in Eastern Europe and the USSR. Develops a theoretical framework for understanding cross-national patterns of post-communist development in the context of country-specific experiences.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 580. Ethnicity, Nationalism and Secession. 3 Credit Hours.
Examination of the creation, breakdown, and aftermath of communist governments in Eastern Europe and the Soviet Union. Using empirical evidence from four case studies, develops a theoretical framework for understanding cross-national patterns of post-communist development in the context of country-specific experiences.
Prerequisite: POL 202 or POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
POL 581. Comparative Political Economy of Post-Industrial Democracies. 3 Credit Hours.
This seminar examines four key turning points in the development of capitalism: the industrial revolution, the aftermath of the depression and world wars, the oil crisis of the 1970’s, and today’s 'globalization'. We will compare the relationships between government and the economy in Western Europe, Canada, the U.S., Australia, New Zealand, and Japan in each period, and attempt to evaluate why these countries react similarly or differently to identical changes in world economy.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 582. Political Economy of Development. 3 Credit Hours.
Overview of the principal theoretical paradigms of the development process Comparative analysis of issues such as the role of the state, strategies of industrialization, changes in social structure, basic needs and the trade-offs between growth and equity.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 584. Contemporary Latin American Politics. 3 Credit Hours.
This course assumes a basic knowledge of Latin American politics, and is designed to foster deeper understanding of political processes in the region and to provide an overview of key debates among political scientists specializing in Latin America. We discuss issues related to democratic consolidation, political participation, representation and governance.
Prerequisite: POL 202.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 585. Post-Communist Russian Foreign Policy. 3 Credit Hours.
Exploration of the various forms of political movements in Latin America, including parties, populists and radical groups. Examines diverse means of organizing and mobilizing support, the range of goals sought, and the conditions that give rise to the various movements. Special attention to the contemporary revival of populism in the region and its implications for democracy.
Prerequisite: POL 211 and 212 or graduate standing.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 586. Conflict in the Middle East and Africa. 3 Credit Hours.
Introduction to major paradigms for the explanation of war and conflict in two of the most unstable regions of the world. Reading and class discussions on select cases of current and past conflicts in each region in order to discern patterns of conflict within and across regions, gain a clearer understanding of what drives violent conflict, and assess strategies of resolution.
Prerequisite: POL 202 or POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 588. Politics in China. 3 Credit Hours.
Development and nature of Chinese domestic politics in theory and practice; problems of political stability and conflict; the role of historical and cultural traditions, institutions, social, economic and personality factors in Chinese politics; process of change and problems of leadership succession; the significance of changes in the character and style of Chinese leadership.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 589. Directed Research. 1-3 Credit Hours.
Provides an opportunity for students to work with faculty members on research projects. This course does not count for credit in a 500-level seminar.
Components: RSC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 591. International Security. 3 Credit Hours.
Analysis and evaluation of approaches to international conflict, resolution, reduction and stabilization such as international organization, law, collective security, balance of power, functionalism, world government, morality, and conscience. Special emphasis on recent problems and efforts at institutionalizing social control.
Prerequisite: POL 203 or INS 101.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 592. International Political Economy. 3 Credit Hours.
This course introduces students to the study of International Political Economy (IPE). It combines a focus on the main theoretical and methodological approaches used in the study of IPE with the analysis of historical and contemporary issues.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 593. International Relations of the Middle East. 3 Credit Hours.
Regional and inter-regional analysis of the foreign relations of Middle Eastern nations, domestic and geopolitical factors.
Prerequisite: POL 203 or INS 101, and POL 387.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 594. European Security. 3 Credit Hours.
Examines regional security in Europe, focusing on NATO expansion, EU expansion, Russian foreign policy, and related issues.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 595. Special Topics in Political Theory and Methods. 3 Credit Hours.
A seminar in Political Theory and Methods; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 596. Special Topics in Public Administration, Policy, and Law. 3 Credit Hours.
A seminar in public policy, administration and law; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.
 Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 597. Special Topics in International Relations. 3 Credit Hours.
A seminar in International Relations; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 598. Special Topics in Comparative Politics. 3 Credit Hours.
A seminar in Comparative Politics; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 599. Special Topics in American Politics. 3 Credit Hours.
A seminar in Comparative Politics; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 601. Budget and Financial Management and Administration. 3 Credit Hours.
The role of the budget in shaping public policy; managing public revenues; budgetary theory, politics, and fiscal management. Examples from state, municipal and federal governments.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 602. Congressional Representation. 3 Credit Hours.
Examination of how and when citizens influence legislators’ behavior. How legislators’ floor behavior reflects citizens’ preferences and how these preferences influence the formation of electoral coalitions.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 603. Special Topics in Comparative Politics. 3 Credit Hours.
A seminar in comparative politics, designed to give students a greater degree of knowledge of a particular subject, and to develop ability in the techniques of individual research and group discussion.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 604. The World Before European Domination. 3 Credit Hours.
Examines the historical roots of the contemporary international system, and questions the standard Eurocentric perspective on the rise of the West to a dominant position in the global system.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 605. Sex, Babies, and the State. 3 Credit Hours.
Examines policies on reproduction, work, and the family in a variety of national, with specific emphasis on Latin America.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 606. Organizational Dynamics and Management. 3 Credit Hours.
A seminar on organizational dynamics and management in public and non-profit organizations. Focus on organizational theories, leadership, behavior, goals, effectiveness, and change, with an emphasis on the distinctiveness of public organizations, public-private partnerships, new public management, and digital governance.
Prerequisite: POL 201 or POL 202 or POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 607. Politics, Sociology, and Economy in Contemporary Brazil. 3 Credit Hours.
Examines policies on reproduction, work, and the family in a variety of national, with specific emphasis on Latin America.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 608. Equity and Diversity in Public Administration. 3 Credit Hours.
Examines federal and state policies, laws, and court decisions as means for helping public administrators develop policies and procedures that meet legal requirements and recognize the values of equity and diversity in the treatment of its citizenry and public employees.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 609. Issues in Judicial Politics. 3 Credit Hours.
Examines the Supreme Court of the United States (SCOTUS) through the lens of upcoming cases on the SCOTUS’s docket and through recently decided cases that were of important legal precedent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 610. Statistics for Politics and Public Administration. 3 Credit Hours.  
This course focuses on the use of statistics to conduct quantitative research (i.e., statistics) in political science and public administration. The course emphasizes hands-on data work. Students will learn how to perform political analyses – and present findings in an appropriate manner – using SPSS statistical software.  
Components: SEM.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

POL 611. Security in the Arabian Peninsula. 3 Credit Hours.  
Examines the security environment of the Arabian Peninsula.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

POL 614. Art and Politics. 3 Credit Hours.  
Explores the relationship between narratives, aesthetics, and the political/social world.  
Requisite: Graduate Standing.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

POL 615. Media Content Analysis. 3 Credit Hours.  
There are few facets of our lives which are not directly affected by media content. From cell phones to televisions, the media is with us all the time. But what messages are contained in the mass media? What methods can we employ to study media content scientifically? This course will explore methods of analyzing media sources including movies, newspapers, magazines, and television. Course topics will include political bias, campaign coverage, and news content. Students will design their own projects and implement their own coding strategies.  
Components: SEM.  
Grading: GRD.  
Typically Offered: Fall.

POL 616. Experiments in Political Science. 3 Credit Hours.  
Examines experimental method of hypothesis testing, with specific examples in the study of politics.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

POL 617. Introductory Statistical Methods in Political Science. 3 Credit Hours.  
The tools needed to manipulate and analyze quantitative data rigorously so you may answer questions of political interest. First in a two-course sequence (followed by POL 618).  
Requisite: Graduate Standing.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

POL 618. Advanced Statistical Methods in Political Science. 3 Credit Hours.  
The maximum likelihood framework for statistical inference in the study of politics. Second in a two-course sequence (preceded by POL 617).  
Requisite: Graduate Standing.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

POL 619. Introduction to Game Theory for Political Science. 3 Credit Hours.  
The rudiments of non-cooperative game theory. Mainly intended for political science students, but presents applications from other academic disciplines such as economics, business administration, sociology, and psychology.  
Requisite: Graduate Standing.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

POL 620. Internship. 3 Credit Hours.  
Provides advanced political science majors with an opportunity to participate in a structured, supervised internship. 25-35 page research paper required.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

POL 621. Public Affairs Internship. 3 Credit Hours.  
Opportunity for the advanced student specializing in public administration to participate in an administrative capacity in an agency of state or local government. Periodic conferences with adviser and paper required.  
Requisite: Graduate Standing.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

POL 622. Introduction to Graduate Public Administration. 3 Credit Hours.  
Introduction to concepts, issues, problems, theories and process in the field of public administration and/or public management.  
Components: SEM.  
Grading: GRD.  
Typically Offered: Fall & Spring.

POL 624. Non-Profit Organizations: Law, Policy, and Management. 3 Credit Hours.  
This course teaches students the essential requirements for creation and operation of tax-exempt nonprofit organization in accordance with state and federal law. The course covers a wide range of relevant topics including guidelines for charitable giving and charitable solicitation, pitfalls that can result in personal liability for officers and directors, and statutory constraints on legislative lobbying and political activities.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall.

POL 625. Comparative Public Policy and Administration. 3 Credit Hours.  
Comparison and analysis of the organizational and managerial policy problems of developed and developing nations. The administrative process will be considered within the institutional and cultural framework of each nation. Case studies will be used to focus on transition from traditional to modern techniques of public management.  
Requisite: Graduate Standing.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.
POL 626. Administrative Law. 3 Credit Hours.
Administrative law is the study of the legal relationship of government agencies to legislatures, courts, and private parties. The course examines the legal dimensions of bureaucratic power and procedures as well as constitutional and statutory constraints on regulators and administrators. Topics include rule making, adjudication, investigation and enforcement, political controls on agencies, judicial review of agency decisions, governmental liability and immunity, public records and open meetings laws. Both federal law and Florida law are covered. The course assumes a basic knowledge of the American legal system, constitutional law and bureaucracy.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 627. Comparative Political Institutions. 3 Credit Hours.
The concept of institutionalism by studying three major sets of democratic institutions: electoral systems, legislatures, and political regimes.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 629. Conducting U.S. Elections. 3 Credit Hours.
Fair and free democratic elections are the heart of U.S. democracy. This course will examine who gets to vote, whether election laws and rules are fair (and fairly implemented), and proposals to reform the way elections are run.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 630. Intelligence and National Security. 3 Credit Hours.
This course will study the US national security community structure and decision making process. The course will look at the National Security Council, the principal national security agencies (such as the CIA, Defense Department, and State Department), how they interact, and their roles in dividing and executing policy. We will also examine the role and function of senior policy decision makers such as the President. We will study recent policy challenges such as Iraq and Afghanistan as examples of National Security policy.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 631. Global Environment Politics. 3 Credit Hours.
Examination of the environment within the context of economic globalization. Contrasts the international trading regime and those regimes designed to protect the environment, with specific attention to the issues of global warming and biodiversity.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 634. Applied Policy Analysis. 3 Credit Hours.
Examines a variety of policy problems through the framework of problem definition, formulation of alternatives, assessment of alternatives, and policy impact evaluation. Students will also be introduced to cost-benefit analysis and evaluation methods.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 635. Comparative Legal Systems. 3 Credit Hours.
Considers the institutional and political roles of Courts from a comparative perspective. With a focus on judicial independence and judicial review, will consider the juridical systems of a variety of countries and regions including the US, the EU, Germany, France, Great Britain, Chile, Argentina, Russia, The Asian-Pacific Rim, South Africa, Israel, Central America and the Middle East.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 636. U.S. Health Care Crisis: Politics and Policies. 3 Credit Hours.
This seminar will explore the politics and policies of healthcare in the United States. Our examination of the current crisis in cost and coverage will draw on experience from the debates on comprehensive and incremental reform over the past decade. In addition, we will explore the politics and policies of other health and science issues. Students will be expected to attend every class and be actively involved in class discussions. There will be two examinations, one at mid-term and a final based on readings and course discussions.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 637. Microeconomics for Public Policy. 3 Credit Hours.
Describes and explains principles and theories of microeconomics in the context of public policy applications.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 641. Philosophy of Law. 3 Credit Hours.
Case-based study of jurisprudence designed to illuminate and explain philosophies of law. Examination of theories of free expression; bioethical matters; theories of punishment and legal responsibility; and the placement of religious discourses in liberal systems of law. Special attention to cases involving fundamental rights and liberties; the role of the individual and the state in civil society; and the capacities of individuals to be legally competent in contemporary systems of law.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 643. Urban Politics. 3 Credit Hours.
Examination of sources of political power in urban areas and how they influence the policies pursued in those areas. Analysis of the role of economic power, protest actions, neighborhood groups, and voting to evaluate whether there is a bias in urban politics that systematically favors some groups over other and, if so, how likely it is that the bias can be overcome.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 644. Chinese Foreign Policy. 3 Credit Hours.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 645. Environmental Policy Making. 3 Credit Hours.
Examination of different ethical approaches to the environment; the federal government's management of natural resources; selected environmental policies; international environmental policy issues. Topics include federal management of national grazing lands, national forests, and minerals in the public domain. Analyzes environmental policies such as air, water, toxic wastes, energy, and environmentally-related issues in international trade and national security.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 646. Public Policy Process and Implementation. 3 Credit Hours.
Examination of public policy issue areas including education, health, welfare, urban mass transit. Limits to effectiveness of federal, state and local governments in providing services. Techniques for analyzing the effectiveness of public policies; research techniques for the assessment of future policy alternatives.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 647. Human Resource Management in Public Service. 3 Credit Hours.
Topics include human resource management in public service: job analysis and design, evaluation and appraisal, recruitment and interviewing, training and development, wages and benefits, and health and safety. Unionization, regulation of wages, hours and working conditions, financial security for workers, manpower planning and job anti-discrimination legislation are considered.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 648. Civic Participation and Democracy. 3 Credit Hours.
Citizens participate in the governing process by communicating their preferences and pressuring the government to respond. In this course we examine these various mechanisms of "civic participation", and discuss the meaning and consequences of participatory democracy. The course focuses on the contemporary United States, but we will devote some time to discuss civic participation in other countries as well. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 650. Advanced Seminar On American Politics. 3 Credit Hours.
This seminar provides students with a survey of significant research on major topics in American Politics. We will read influential works of the past, as well as recent cutting-edge research. Particular attention will be paid to discussing the methods and theories used in the research we will read. The purpose of the course is to acquaint students with the literature on American Politics, while also providing an opportunity for students to develop skills in critically assessing and skillfully conducting social science research. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 651. Productivity in the Public and Non-Profit Sectors. 3 Credit Hours.
Definitions and measures of productivity. Evaluation of government programs, and methods of productivity improvement.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

POL 652. Total Quality Public Service Management: Achieving High Performance Government. 3 Credit Hours.
Examination of the theory and practice of Total Quality Management (TQM) in the government and non-profit sector. Focuses on budgetary, customer service, employee and process improvements that facilitate increased public and non-profit performance. Special emphasis to TQM's contribution to improved service delivery.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 653. The Environmental Movement: Groups, Beliefs and Values. 3 Credit Hours.
Exploration of the origins and political impact of environmentalism in the United States and, to a lesser extent, in the global context. Impact of democratic participation on environmental politics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 654. Politics and Ethics. 3 Credit Hours.
Personal, professional, organizational, and societal levels of ethical analysis. Ethical theories will be reviewed and applied to actual cases that focus on public policy and/or the officials who create and implement it. Profiles of moral exemplars in public life will be examined.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 655. Public Policy and Health. 3 Credit Hours.
Development of public policy at the federal, state and local level. Policy process, models of policy analysis, policy development in several government service areas, and plans for policy change. Special emphasis on health policy formulation, implementation and the use of epidemiological tools in health policy analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

POL 656. Public Service Internship. 3-6 Credit Hours.
Individual on-the-job work experience; arranged and monitored by a faculty member.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 657. Ethical and Managerial Issues in Government, Business and Non-Profit Organization. 3 Credit Hours.
Governments at all levels in this country—national (Larry Craig, David Vitter, Mark Foley, Bill Clinton, Randy Cuningham, Tom DeLay, William Jefferson, James Traffcant, Robert Torricelli, Jack Abramoff), state (former Illinois, Louisiana, New York, Ohio, and Arizona governors), and local (Miami, Providence city officials; Miami-Dade, Broward, and Palm Beach counties)—have encountered scandals involving ethical wrongdoing. Businesses (Enron, Worldcom) and nonprofit organizations (Boy Scouts, United Way) have faced similar problems. Countless less visible examples of unethical and ethical behavior occur in organizations daily. This course examines the causes and consequences of such actions and the managerial strategies and competencies needed to effectively cope with the ethical issues confronting individuals and organizations.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 658. From Electronic Government to Digital Governance. 3 Credit Hours.
Graduate and advanced undergraduate seminar explores the transition from electronic government (e-gov) to digital or d-governance, emphasizing political participation, citizen-centric public administration and the proliferation of global information technologies and social media.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 659. International Organizations. 3 Credit Hours.
Examines international organizations which, in addition to contributing to the solution of international problems, also help to provide rules and structures to manage state-to-state relationships.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 661. Ending Wars and Building Peace. 3 Credit Hours.
Examines how local and international actors build sustainable peace strategically through peace-keeping, peace accords, reconciliation, education, human rights, international law, and state-building.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 669. LGBT Politics. 3 Credit Hours.
Describes and explains global variance in government policies of interest to lesbian, gay, bisexual, transgender and intersex citizens including sodomy laws, anti-discrimination ordinances, same-sex marriage and adoption, military service, and the right to change one’s sex or identify as neither male nor female.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 670. Uniting States in International Perspective. 3 Credit Hours.
How states form and fragment; the main actors in nation formation; the elements of continuity and change; the impact outsiders can have on the process.
Requisite: Graduate Standing.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 671. Government and Business. 3 Credit Hours.
Examines government-business-society relations with emphasis on the social, economic, political, technological, ethical, and ecological environment.

Components: DIL.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 672. Program Planning, Research and Evaluation in Criminal Justice and Corrections, I. 3 Credit Hours.
Identification of long-term goals and intermediate objectives in the criminal justice process. Formulation of operations, evaluation techniques and the relationships among research, evaluation and management decisions.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 673. Program Planning, Research and Evaluation in Criminal Justice and Corrections, II. 3 Credit Hours.
Continuation of POL 672. Topics include types of evaluation and the design of evaluative studies. POL 672 and POL 673 are designed to facilitate the formulation and execution of a thesis.
Prerequisite: POL 672.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 675. The Politics of Civil-Military Relations. 3 Credit Hours.
Course examines the relationship between states and their soldiers across various historical periods and regional contexts, and how this relationship has been altered in an era where the viability of old structures of state authority are no longer self-evident.
Requisite: Graduate Standing.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 676. On Violence: The Politics of Extremes. 3 Credit Hours.
Literary and theoretical treatments are considered for what they can tell us about the causes, characteristics and consequences of violence. These insights are enlisted to help us understand violence enacted by states against their societies, societies against states, and within society itself.
Requisite: Graduate Standing.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 677. Security in South Asia. 3 Credit Hours.
The security system of South Asia’s northern reaches and the current conflict involving Afghanistan, Pakistan, and India: considerations of sovereignty and the role of frontiers in world politics.
Requisite: Graduate Standing.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 678. Energy and Security in Eurasia. 3 Credit Hours.
Engages intersection of energy and security within the contested space of Eurasia.
Requisite: Graduate Standing.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 680. Ethnicity, Nationalism, and Secession. 3 Credit Hours.
Examination of the creation, breakdown, and aftermath of communist
governments in Eastern Europe and the Soviet Union. Using empirical
evidence from four case studies, develops a theoretical framework for
understanding cross-national patterns of post-communist development
in the context of country specific experiences.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 681. Comparative Political Economy of Post-Industrial Democracies.
3 Credit Hours.
This seminar examines four key turning points in the development of
capitalism: the industrial revolution, the aftermath of the depression and
world wars, the oil crisis of the 1970's, and today's 'globalization'. We
will compare the relationships between government and the economy in
Western Europe, Canada, the U.S., Australia, New Zealand, and Japan in
each period, and attempt to evaluate why these countries react similarly
differently to identical changes in world economy.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 682. Political Economy of Development. 3 Credit Hours.
Overview of the principal theoretical paradigms of the development
process Comparative analysis of issues such as the role of the state,
strategies of industrialization, changes in social structure, basic needs
and the trade-offs between growth and equity.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 683. Seminar: Topics in the Comparative Study of the Foreign Policy
of China. 3 Credit Hours.
Upon completion of this course students should be able to describe the
theories that have been used to analyze Chinese politics, their strengths
and weaknesses, be familiar with the tension between communist
ideology and modernization, outline the PRC's party and government
structure and the informal deviations thereof, assess economic progress
and the difficulties ahead, be aware of the roles on interest groups
such as the military, labor, ethnic minorities, and non-governmental
organizations in influencing policy formation, describe the social welfare
system, and evaluate the ability of the system as a whole to withstand
external and internal pressures.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 684. Contemporary Latin American Politics. 3 Credit Hours.
This course assumes a basic knowledge of Latin American politics, and
is designed to foster deeper understanding of political processes in
the region and to provide an overview of key debates among political
scientists specializing in Latin America. We discuss issues related to
democratic consolidation, political participation, representation and
governance.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 685. Seminar in the Dynamics of Soviet Society. 3 Credit Hours.
Forces and factors that shape and continue to influence the development
of social, political and economic institutions in the Former Soviet Union
and their evolving role in decision making.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 686. Conflict in the Middle East and Africa. 3 Credit Hours.
Introduction to major paradigms for the explanation of war and conflict
in two of the most unstable regions of the world. Reading and class
discussions on select cases of current and past conflicts in each region
in order to discern patterns of conflict within and across regions, gain
a clearer understanding of what drives violent conflict, and assess
strategies of resolution.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 688. Politics in China. 3 Credit Hours.
Development and nature of Chinese domestic politics in theory and
practice; problems of political stability and conflict; the role of historical
and cultural traditions, institutions, social, economic and personality
factors in Chinese politics; process of change and problems of leadership
succession; the significance of changes in the character and style of
Chinese leadership.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 689. Directed Research. 1-3 Credit Hours.
An opportunity for graduate students to assist faculty members with
research for course credit. A student may only sign up if s/he has found a
professor who has agreed to work with him/her.
Components: RSC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 690. Directed Readings. 3 Credit Hours.
Provides an opportunity for students to organize an independent study
with a particular tenure-line faculty member. A student may only sign up if
s/he has found a professor who has agreed to work with him/her.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 691. International Security. 3 Credit Hours.
Analysis and evaluation of approaches to international conflict,
resolution, reduction and stabilization such as international organization,
law, collective security, balance of power, functionalism, world
government, morality, and conscience. Special emphasis on recent
problems and efforts at institutionalizing social control.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 692. International Political Economy. 3 Credit Hours.
This course introduces students to the study of International Political Economy (IPE). It combines a focus on the main theoretical and methodological approaches used in the study of IPE with the analysis of historical and contemporary issues. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 693. International Relations of the Middle East. 3 Credit Hours.
Regional and inter-regional analysis of the foreign relations of Middle Eastern nations, domestic and geopolitical factors. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 694. European Security. 3 Credit Hours.
Examines regional security in Europe, focusing on NATO expansion, EU expansion, Russian foreign policy and related issues. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 695. Special Topics in Political Theory and Methods. 1-3 Credit Hours.
A seminar in Political Theory and Methods; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 696. Special Topics in Public Administration, Policy, and Law. 1-3 Credit Hours.
A seminar in public policy, administration and law; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

POL 697. Special Topics in International Relations. 3 Credit Hours.
A seminar in international relations; designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion and analysis. The senior seminars may be taken in any sequence.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 698. Special Topic in American Politics. 3 Credit Hours.
A graduate seminar in American Politics designed to give the student a greater degree of insight and knowledge of a particular subject and to develop ability in the techniques of individual research, group discussion, and analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 699. Directed Readings. 1-3 Credit Hours.
Substantive topics vary by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 810. Master's Thesis. 3-6 Credit Hours.
Designed for student working on masters' theses. Not to exceed six credit hours, as determined by student's advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 820. Research in Residence. 1 Credit Hour.
Research in residence for thesis or master's degree after the student has enrolled for the permissible cumulative total in POL 710 (usually six credits). Credit not granted; regarded as full time residence.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

Portuguese (POR)

POR 101. Elementary Portuguese I. 3 Credit Hours.
Drill in pronunciation, fundamental grammatical principles, simple reading and translation, oral and written exercises. Normally, open to students who have completed two years of Portuguese. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 102. Elementary Portuguese II. 3 Credit Hours.
Continuation of POR 101. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 105. Beginning Portuguese for Spanish Speakers. 3 Credit Hours.
The equivalent of one year of beginning-level college Portuguese, this course is specifically intended for students who have completed three or more years of high school Spanish or one year of Spanish at another university. Also intended for heritage and native speakers of Romance Languages, or students with one or more years of college study of Spanish, Italian, or French. Closed to native speakers of Portuguese.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 106. Business Portuguese for Spanish Speakers. 3 Credit Hours.
Designed for students interested in Business Administration, and will contain basic readings on Brazilian Economy and Politics, Business vocabulary, written activities such as email and short oral and written reports. Students will give oral presentations related to Brazilian companies and will interview two Brazilian businessmen/women from the local community. Students who have completed three or more years of high school Spanish or beginning Spanish at another institution. Also intended for heritage speakers of Romance Languages other than Portuguese, or students with at least three years of college study of Spanish, Italian or French. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
POR 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM
has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

POR 201. Intermediate Portuguese I. 3 Credit Hours.
Integrated grammar review. Diverse selection of readings: stories, plays,
short stories, descriptions, film reviews, magazines, a novel. Workshop
format, the course also develops conversational skills. Students
complete a number of written projects (including an analytic paper).
Class conducted in Portuguese. Not open to native speakers.
Prerequisite: POR 102 or POR 105.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

POR 202. Intermediate Portuguese II. 3 Credit Hours.
Intensive preparation for 300-level work through various genres (portraits,
descriptions, short stories, film reviews, magazines, a novel). Workshop
format, the course also develops conversational skills. Students
complete a number of written projects (including an analytic paper).
Class conducted in Portuguese. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

POR 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM
has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

POR 301. Interpreting Literary and Cultural Texts in Portuguese. 3 Credit
Hours.
Tools for the interpretation and analysis of literary and cultural materials
from the Portuguese-speaking world. Acquisition of terminology and
theories through the study of the main literary genres (prose, poetry, and
drama) and a complementary genre of cultural analysis (e.g., film studies,
cultural studies, etc.). Emphasis on critical writing skills. Closed to native
speakers formally educated in Portuguese.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 305. The Modern Brazilian Novel. 3 Credit Hours.
The Brazilian novel since 1865. Emphasis on major works. Conducted
in Portuguese. POR minors must complete all written assignments in
Portuguese. Others may opt to write in English, Portuguese, or Spanish.
Fulfills humanities literature requirement.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 353. Brazilian Poetry. 3 Credit Hours.
Brazilian poetry from colonial times to the present. Emphasis on major
figures. Taught in Portuguese. Humanities literature credit.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 364. The Brazilian Short Story. 3 Credit Hours.
The Brazilian short story since 1890. Conducted in Portuguese. POR
minors must complete all written assignments in Portuguese. Others may opt to write in English, Portuguese, or Spanish.
Fulfills Humanities literature requirement.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
POR 394. Internshp. 3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM-faculty supervision, as well as supervised on-site experience in a Portuguese-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student's degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked). 
Pre-requisite: POR 202.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

POR 395. Transfer Credits. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

POR 396. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

POR 397. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

POR 398. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

POR 399. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

POR 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

POR 591. Directed Readings in Portuguese. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 592. Directed Readings in Portuguese. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 593. Directed Readings in Portuguese. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 641. Elementary POR I for Graduate Students. 0 Credit Hours. 0 Credit Hours.
Designed to develop graduate students' communicative abilities in speaking, reading, writing, and comprehending Portuguese, and to provide an introduction to the Lusophone world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POR 642. Elementary Portuguese II for Grad Students. 0 Credit Hours.
Continuation of POR 641. Designed to develop graduate students communicative abilities in speaking, reading, writing, and comprehending Portuguese, and continued engagement with the Portuguese-speaking world. 0 Credit Hours.
Pre-Requisite: POR 641.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POR 645. Beginning Portuguese for Graduate Research (0 Credits). 0 Credit Hours.
The equivalent of one year of beginning-level college Portuguese, in preparation for study of Portuguese at the intermediate level. Designed to develop graduate students' communicative abilities in speaking, reading, writing, and comprehending Portuguese, and continued engagement with the Portuguese-speaking world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 651. Intermediate POR I for Graduate Research. 0 Credit Hours.
For graduate students with previous study of elementary-level Portuguese who will carry out research related to the Portuguese-speaking world. Designed to enhance graduate students' communication skills at the intermediate level of proficiency.
Pre-Requisite: POR 642.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POR 652. Intermediate Portuguese II for Graduate Research (0 Credit). 0 Credit Hours.
For students with previous study of Portuguese at the intermediate level who will carry out research related to the Portuguese-speaking world. Designed to enhance graduate students' communication skills at the intermediate-high level of proficiency.
Pre-Requisite: POR 651.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POR 691. Topics in Luso-Brazilian Studies. 3 Credit Hours.
Graduate equivalent of POR courses listed at the 300-level.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
POR 692. Directed Readings in Portuguese. 1-3 Credit Hours.
Directed Readings at the graduate level.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 721. Special Topics in Luso-Brazilian Studies. 3 Credit Hours.
Special Topics in Luso-Afro-Brazilian Studies.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

Program In Biomedical Sciences (PIB)

PIB 700. Journal Club. 1 Credit Hour.
All PIBS students are required to attend one journal club or seminar each week.
Components: SEM.
Grading: SUS.
Typically Offered: Fall & Spring.

PIB 701. Introduction to Biomedical Sciences. 1-5 Credit Hours.
This course surveys fundamentals of molecular and cellular biology that underly all modern biomedical research. Lectures are organized into modules that cover Proteins and DNA, Gene Expression, Signaling and Membranes, Cells, and Development. A final module covers immunology, organ systems, and genetics. Experimental techniques are emphasized throughout, with the first week of the course devoted to a bootcamp on common biomedical methods.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PIB 702. Scientific Reasoning. 3 Credit Hours.
This course teaches scientific reasoning by critical reading of primary research papers in a small-group setting. Multiple small groups are offered every week and students can choose from different topics related to lectures in the companion PIB 701 course. Research papers are discussed in two 1-hour sessions each week.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PIB 705. Biostatistics for the Biosciences. 3 Credit Hours.
This is an introductory course that will cover the basics of applied statistics. The course will emphasize a practical understanding of statistical concepts: the goal is to prepare you to be able to properly analyze and interpret data from your research, not to turn you into a statistician. As such, the structure of the course is designed to give you lots of hands-on experience with data and statistical software, and to teach you how to proceed when you encounter novel problems in the future (e.g., data that you're not quite sure how to analyze). An overall goal of the course is to prepare you to be able to intelligently assess the statistics commonly encountered in journal articles within your field and provide you with the fundamental skills required for more advanced statistical methods when you later encounter the need.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PIB 706. Bioinformatics for the Biomedical Sciences. 2-4 Credit Hours.
PIBS 706 introduces graduate students to Bioinformatics in two parts. The first half of the course (7 weeks) covers introductory python programming for the bioscientist with hands-on coding and a programming project. The second half of the course covers analysis of biological data from primary sequences (1D), secondary and tertiary structures (2D/3D), and transcriptomic, functional and pathway analysis (4D). The course will be case-based and students will be graded on assignments rather than exams.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PIB 731. Laboratory Research. 1-6 Credit Hours.
Laboratory rotations familiarize students with a variety of modern techniques in biomedicine and potential mentors for their dissertation projects. One credit is awarded per rotation.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PIB 780. Research Ethics. 1 Credit Hour.
The NIH Guide for Grants and Contracts stipulates that Institutions receiving support for National Research Service Award Training Grants are required to develop a program in the principles of scientific integrity. This program should be an integral part of the proposed training effort.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PIB 782. Professional Development: Skills for Success I. 1 Credit Hour.
This workshop will teach students the basics on how to: manage your career, choose a rotation lab / mentor, read a scientific paper, write a lab report and present in the journal club and lab meetings.
Components: LEC.
Grading: SUS.
Typically Offered: Fall.

PIB 783. Professional Development: Skills for Success II. 1 Credit Hour.
This workshop will teach students the basics on how to: write a fellowship and scientific paper as well as the proper and ethical handling of research data.
Components: LEC.
Grading: SUS.
Typically Offered: Spring.

PIB 784. Practical Graduate Teaching. 1 Credit Hour.
Senior graduate students have the opportunity to participate in Graduate School teaching by evaluating presentations, teaching in small groups, and mentoring first-year graduate students in the Program in Biomedical Sciences. The overarching goal is to prepare future academicians in the complex process of training accomplished, well-rounded scientists. The activities required from the students would be: Participate in the mentoring program; read and evaluate abstracts of PIBS student rotations; participate of PIBS rotation presentations, ask questions; provide feedback of rotation presentations (abstracts and oral) to PIBS students within small groups; and provide mentoring to PIBS students in PIB701 topics.
Prerequisite: PIB 701.
Components: FLD.
Grading: SUS.
Typically Offered: Fall & Spring.
PIB 785. PIBS Bioinformatics Workshop. 1 Credit Hour.
The aim of this workshop is to introduce graduate students to basic
bioinformatics data retrieval and analysis as relevant to bio-medical
research. The sessions will include discussion on focused topics and
hands-on, project-based exercises. Only publicly available databases and
web-tools will be used, no programming will be taught.
Components: WKS.
Grading: SUS.
Typically Offered: Summer.

PIB 830. Doctoral Dissertation. 1-12 Credit Hours.
Required for all PhD candidates. First-year students generally take
one credit of doctoral dissertation in their first summer semester then
continue in program specific dissertation credit through graduation.
Components: THI.
Grading: SUS.
Typically Offered: Summer.

Psychology (PSY)

PSY 106. Freshman Advising Contact Term (Fact). 1 Credit Hour.
Educates students about the structure and function of a research
university, introduces them to the academic rules and regulations of the
University of Miami and the Department of Psychology, enables them
to think critically about their own graduation plan, and prepares them to
enter the professional world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 110. Introduction to Psychology. 3 Credit Hours.
A survey of modern scientific psychology. Topics include learning,
memory, perception, cognition, personality, motivation, emotion,
development, abnormal psychology, and social psychology. Participation
in a small number of experiments is required to ensure that students
become acquainted first hand with the experimental laboratory methods
used in Psychology. Students may choose to satisfy this requirement by
writing a small number of methodology papers instead.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 175. Special Topics. 1-3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 190. Faculty Overview of Research and Undergraduate Mentoring
(FOURM). 1 Credit Hour.
Critical discussion of research reports in psychology.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 206. Transfer to the University of Miami (TUMS). 1 Credit Hour.
Educates students about the structure and function of a research
university, introduces them to the academic rules and regulations of the
University of Miami and the Department of Psychology, enables them
to think critically about their own graduation plan, integrates them into
the social atmosphere of the University, and prepares them to enter the
professional world.
Requisite: Permission of a UASP advisor; C- or higher in PSY 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 210. Social Psychology. 3 Credit Hours.
The major theories, methods and research findings in social psychology.
Attitude formation and change, person perception, interpersonal
attraction, aggression, group structure, leadership, conformity and mass
phenomena. Emphasizes the individual as the basic unit of analysis
(compare SOC 302).
Prerequisite: C- or higher in PSY 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 220. Psychobiology. 3 Credit Hours.
Behavior viewed from a biological perspective. Survey of biological
factors subserving sensation, perception, sleep, emotions, motivation,
learning, memory, and development
Prerequisite: C- or higher in PSY 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 230. Child and Adolescent Development. 3 Credit Hours.
Survey of significant aspects of growth and development throughout the
lifespan. Emphasis placed on childhood and adolescence.
Prerequisite: C- or higher in PSY 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 240. Abnormal Psychology. 3 Credit Hours.
Diagnostic formulations of the clinical syndromes; theories of
psychopathological states.
Prerequisite: C- or higher in PSY 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 250. Cognitive Psychology. 3 Credit Hours.
Survey of theory and research on human information processing and
cognitive processes.
Prerequisite: C- or higher in PSY 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 260. Personality Psychology. 3 Credit Hours.
A survey of the area of personality, including the relation of personality to
general psychology, history of theory and research in the field, definition,
assessment, and research findings in major substantive areas.
Prerequisite: C- or higher in PSY 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
PSY 270. Industrial and Organizational Psychology. 3 Credit Hours.
Applications of psychology in business, industry, and to organizational effectiveness in general. Supervisory, leadership, morale, personnel selection, training, human factors engineering, and consumer psychology. Prerequisite: C- or higher in PSY 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 275. Special Topics. 3 Credit Hours.
This course focuses on the features that characterize science and the ways that pseudoscience (e.g., ESP, astrology, energy therapy, aliens, ghosts) deviates from these. Students will learn about the factors that influence human thinking, decision making, and behavior as well as how to critically evaluate the credibility of claims and arguments. This course will help students improve their analytical and reasoning skills, support their arguments and evaluate the arguments made by others, and become better consumers of information. Prerequisite: C- or higher in PSY 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 280. Introduction to Research Projects I. 1-3 Credit Hours.
Students assist on a research project in psychology under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings. Prerequisite: PSY 110. Requisite: Permission of a UASP advisor.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 290. Introduction to Research Methods. 3 Credit Hours.
An introduction to research methods in psychology. We will discuss the scientific concepts, principles, and ways of thinking that are central to the study of psychology. Topics to be covered include the goals of psychological research, ethical issues in the design and implementation of research studies, research design strategies and types of measurement, and methods of presenting data. A variety of in-class assignments will provide students with the opportunity to reflect upon the ways in which research is conducted, presented, and interpreted. Prerequisite: PSY 110 and MTH 101 or mathematics placement above MTH 101. Corequisite: PSY 291. Requisite: PSY or NEU major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 291. Introduction to Biobehavioral Statistics. 3 Credit Hours.
The basics of descriptive and inferential statistics, but the focus will be on the latter. Descriptive statistics to introduce the inferential concepts of regression, t-tests ANOVA and Chi Square. Prerequisite: PSY 110 and MTH 101 or math placement above MTH 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 292. Introduction to Biobehavioral Statistics for Non-Majors. 3 Credit Hours.
The basics of descriptive and inferential statistics, but the focus will be on the latter. Descriptive statistics to introduce the inferential concepts of regression, t-tests ANOVA and Chi Square. Prerequisite: PSY 110 and MTH 101 or math placement above MTH 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 305. Introduction to Research and Graduate School. 1 Credit Hour.
Introduction to research and graduate school in psychology and psychology-related fields. The course will focus on different opportunities available to students at the University and on the graduate school application process.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 306. Introduction to Research and Graduate School. 1 Credit Hour.
Introduction to research and graduate school in psychology and psychology-related fields. The course will focus on different opportunities available to students at the University and on the graduate school application process. Requisite: Permission of a UASP advisor, 2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.

PSY 309. Attitudes and Persuasion. 3 Credit Hours.
An analysis of the major theories and research findings relating to attitude formation and change, including a review of widely used persuasion techniques. Requisite: 2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 291 or PSY 292, and 3 credits in MKT, CAD, COM, COS, CNJ, CPR, or CVJ courses.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 310. Emotion. 3 Credit Hours.
Theory and research concerning the development, arousal, and expression of emotional reaction. Requisite: 2.5 PSY GPA, 12 credits in PSY courses including PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 291 or PSY 292, and 3 credits in BIL courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 311. Psychology of Gender. 3 Credit Hours.
Psychological theories and research related to understanding issues of gender across the lifespan. Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 313. Romantic Relations. 3 Credit Hours.
An introduction to how social scientists think about, study, and intervene with romantic relationships. Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PSY 320. Psychology of Drugs and Behavior. 3 Credit Hours.
The psychological and physiological effects of drugs. Includes psychosocial aspects of drug use and the treatment and prevention of abuse. An introduction to psychopharmacology.
Requisite: 2.5 PSY GPA, 12 credits in PSY courses including PSY 220 and PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 291 or PSY 292, and 3 credits in BIL 150 or higher or CHM 111 or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PSY 330. Psychology of Language Development. 3 Credit Hours.
The study of language acquisition, primarily focusing on infancy through 5 years. Topics covered include biological bases of language, sound discrimination abilities, babbling and speech production.
Requisite: 2.5 GPA and 12 Credits in PSY courses including PSY 230, PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PSY 331. Psychology of Adulthood and Aging. 3 Credit Hours.
Major developments during the middle and later years of adulthood including changes in family and peer relationships, cognitive changes, physical changes, and psychological aspects of death and dying.
Requisite: 2.5 GPA and 12 Credits in PSY courses including PSY 230, PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
PSY 345. Abnormal Child Psychology. 3 Credit Hours.
Reviews definitions, theories, and causes of mental and cognitive disorders in youth, including anxiety, depression, conduct problems, and learning and intellectual disabilities.
Requisite: 2.5 GPA and 12 Credits in PSY courses including PSY 230, PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PSY 355. Psychology of Thinking and Learning in Children. 3 Credit Hours.
Development of perceptions, thought, and language processes throughout the lifespan with an emphasis on early and middle childhood.
Requisite: 2.5 GPA and 12 Credits in PSY courses including PSY 230, PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
PSY 356. Psychology of Intellectual and Developmental Disabilities. 3 Credit Hours.
The etiological, social, and psychological aspects of intellectual and developmental disabilities.
Requisite: 2.5 PSY GPA and 12 credits in PSY courses including PSY 230 and PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 230 and PSY 291 or PSY 292, and 3 credits in BIL or TAL courses.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PSY 360. Personality Theory. 3 Credit Hours.
The role of structure, development, dynamics, individual differences, assessments, and deviations.
Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
PSY 370. Psychology of Human Sexual Behavior. 3 Credit Hours.
Interaction of biological and social factors in normal sexual development, and behavior patterns; etiologies of dysfunctions, paraphilias and gender-identity disorders; assessment and intervention procedures.
Requisite: 2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292 or 2.5 PSY GPA, 9 credits in PSY courses including PSY 291 or PSY 292, and 3 credits in BIL 150 or higher, CHM 103 or higher or HCS 212.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PSY 371. Stress Management. 3 Credit Hours.
Physiology and psychology of stress, with emphasis on mind-body (stress-health) connection. Integrates scientific knowledge with practice techniques such as muscle relaxation, cognitive restructuring, meditation, anger management, yoga, exercise, assertiveness training, and social support.
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
PSY 372. Applied Behavioral Analysis. 3 Credit Hours.
The concepts, methods, and procedures used in behavior analytic research and clinical work. In this course, students will become familiar with the scientific foundations of behavioral science and the basic concepts and principles of behavior analysis. The course will emphasize terminology and definitions of behavioral concepts, as well as introduce the application of those concepts to bring about behavior change.
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PSY 375. Special Topics. 1-3 Credit Hours.
Content varies by semester.
Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PSY 380. Introduction to Research Projects II. 1-3 Credit Hours.
Students assist on a research project in psychology under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.
Requisite: Permission of a UASP advisor, 2.5 PSY GPA, and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
PSY 390. Intermediate Research Methods and Biobehavioral Statistics. 3 Credit Hours.
Students will conduct two (or more) pre-planned experiments. For each experiment, students will analyze the data and write up the components of a research report. In addition, students will receive detailed feedback on the assignments they submit, as an aid to improving their writing skills, reinforcing and reviewing their knowledge of research design and methodology, and expanding their understanding of statistical analyses as well as their interpretation and presentation.
Requisite: 2.5 GPA and 12 Credits in PSY including PSY 290 and PSY 291 or PSY 292 or 9 credits in PSY including PSY 290, and PSY 291 or PSY 292, BIL 268 or NEU 280, NEU 380 or NEU 480.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 391. Tests and Measurements. 3 Credit Hours.
Theory and principles of construction, use, evaluation, and interpretation of psychological tests and testing procedures.
Requisite: 2.5 GPA, 12 Credits in PSY including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 410. Social Interaction Processes. 3 Credit Hours.
An in-depth analysis of variables leading to, and processes involved in, human social interactions ranging from superficial encounters to intimate relationships.
Requisite: 2.5 PSY GPA and 15 credits in PSY courses including PSY 210, PSY 291 or PSY 292 and PSY 390.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 411. Relationships and Health. 3 Credit Hours.
Interpersonal processes that play out in the course of chronic physical illnesses. An integrated foundation on theories and concepts of interpersonal relationships in psychology and a comprehensive introduction to how these theories and concepts can be applied to relationships among family members dealing with physical illnesses. Students will be introduced to diverse perspectives on interpersonal relationships and to a broad perspective on physical illnesses as “family” diseases, across the illness trajectory.
Requisite: 2.5 PSY GPA and 15 credits in PSY courses including PSY 291 or PSY 292 and PSY 390.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 412. Social and Cultural Neuroscience. 3 Credit Hours.
Human neuroimaging research on social behavior (e.g., person perception, intergroup relations, and social learning), and the relationships between culture and the brain (e.g., cultural learning and neural mechanisms underlying cross-cultural differences). The course will also cover foundations of social and cultural neuroscience (e.g., shared and unique aspects of human culture and social behavior, and techniques for studying culture and social behavior using neuroscience methods).
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 413. Cultural Diversity in Psychology. 3 Credit Hours.
An evaluation of psychology from cultural perspectives and promote critical thinking about various topics within psychology. The first half of this course will cover topics such as research methods, enculturation, developmental processes, cognition, gender, sexuality, health, emotion, language, and communication from a cultural perspective. During the second half of the course we will discuss the role of culture in personality, abnormal psychology, treatment of abnormal behavior, social behavior and organizations.
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 425. Psychobiology. 3 Credit Hours.
Basic neuroanatomy, neurophysiology, and neurochemistry followed by an introduction to the physiological bases of sensation, motor systems, motivation, emotion, learning and memory.
Requisite: 2.5 PSY GPA, 15 PSY credits including PSY 220, PSY 290, PSY 291 or PSY 292 or 2.5 GPA, 12 Credits in PSY including PSY 290, and PSY 291 or PSY 292, BIL 150.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 426. Health Psychology. 3 Credit Hours.
The psychosomatic and biopsychosocial models of illness.
Requisite: 2.5 PSY GPA, 15 credits in PSY courses including PSY 220, PSY 290, and PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 427. Psychoneuroimmunology. 3 Credit Hours.
The most current literature in psychoneuroimmunology (PNI) allowing students to connect psychological, neuroendocrine and immunological processes and mechanisms. Students will apply this information within the context of chronic disease prevention, progression and intervention.
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 430. Psychology of Infancy. 3 Credit Hours.
Perceptual, motor, cognitive and social development during the first two years of life. Specialized research methods and assessment procedures.
Requisite: 2.5 PSY GPA; 15 PSY credits, including PSY 220, PSY 230, PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 431. Psychology of Social and Emotional Development. 3 Credit Hours.
Social and emotional growth; topics include family and peer relationships, sex roles, self-control, and moral development.
Requisite: 2.5 PSY GPA; 15 PSY credits, including PSY 230, PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
PSY 432. Prenatal Development. 3 Credit Hours.
A detailed understanding of prenatal development including conception, embryonic and fetal development, and birth. The effects and interplay of genetic and environmental factors on the health and well-being of the developing baby will be discussed throughout the course. The important role of preconception and prenatal care will also be discussed.
Prerequisite: GPA of 3.0 or higher; PSY 230.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 445. Cultural, Values, Religiosity, and Mental Illness. 3 Credit Hours.
Cultural differences in the manifestations, course, and outcome of severe mental illness (those in which psychosis is likely to occur). This seminar also explores the growing body of research on the relationship between chronic mental disorders and the following socio-cultural factors: ethnicity, religious values, family cohesion, attributions of control, and world-view. Finally, we will explore cultural differences in societies’ reactions to, and treatment of mentally ill patients.
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 446. Issues in Clinical Psychology. 3 Credit Hours.
The scientific and theoretical bases of psychotherapy. The course has three distinct components: (1) An introduction to the concept of psychotherapy, including its historical context and the research evidence supporting its efficacy and effectiveness; (2) An interactive overview of major theories underpinning the practice of psychotherapy; and (3) A brief review of evidence-based treatment models for varying forms of psychopathology and clinical conditions.
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 455. Evolution and Sex. 3 Credit Hours.
A biological/evolutionary approach to the study of human sexuality and cognition. The evolution of sexual reproduction and the evolution of the two sexes. Initial discussions will introduce the theory of evolution by natural selection and address the different levels at which selection operates. Building on this foundation, the class will focus on why sex evolved and the myriad physiological and psychological adaptations that evolved as a consequence. Topics to be covered include sexual selection, mate selection, pregnancy, and parent-offspring conflict.
Prerequisite: 2.5 PSY GPA, 15 credits in PSY courses including PSY 290 and PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 456. Genetic and Developmental Disorders. 3 Credit Hours.
The diagnostic, etiological, and intervention issues in genetic and developmental disorders with a particular emphasis on the current state-of-the-science with regard to empirically supported concepts. The course will present information that will allow students a greater understanding of specific disorders and strategies for understanding developmental problems. Current research will be placed within a contemporary context that seeks to integrate educational, psychological and biomedical disciplines.
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 471. Positive Psychology. 3 Credit Hours.
Provides an introduction to the core assumptions and research findings in the field of positive psychology; explores interventions and applications informed by this field as applied to personal well-being, social relationships, and psychotherapy.
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 472. Evolutionary Psychology. 3 Credit Hours.
Evolutionary psychology integrates concepts and evidence from evolutionary biology, behavioral ecology, anthropology, and cognitive science to better understand the evolved cognitive underpinnings of human behavior. The course covers topics such as natural selection, inclusive fitness, life history theory, emotions, aggression, cooperation, mating, morality, and religion.
2.5 PSY GPA and 12 credits in PSY courses including PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 474. Special Topics. 1-3 Credit Hours.
Content varies by semester.
Prerequisite: 2.5 PSY GPA, 15 credits in PSY courses including PSY 290 and PSY 291 or PSY 292.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 480. Research with Writing Credit. 1-3 Credit Hours.
Students assist on a research project in psychology under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings. Students are also expected to complete a writing component that fulfills the University’s criteria to receive writing credit.
Prerequisite: Permission of a UASP advisor, 2.5 PSY GPA and 15 credits in PSY courses including PSY 291 or PSY 292, PSY 390.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
PSY 490. Advanced Research Methods. 3 Credit Hours.
Students will develop, conduct and write up two research projects: (i) a project that uses descriptive methods and associated statistical techniques and (ii) a project that uses experimental methods and associated statistical techniques. These projects will integrate the concepts and skills learned in the Introductory and Intermediate Methods courses as well as the Introductory and Intermediate Statistics courses. Students will be asked to select a research topic and first develop a survey to examine the relationship between two predictor variables and an outcome variable. They will collect and analyze their data using correlational techniques (e.g., regression analyses) and will write up a methods and results section. Next, students will turn their descriptive study into an experiment. They will collect and analyze their data and write up a publishable research report that includes the findings from both the descriptive and experimental studies. The project will serve as a capstone, requiring them to find and critically evaluate relevant literature on their topic of choice, design a study taking into account time demands, sample characteristics and their effect on the hypotheses they are able to test, decide on instrument selection, consider potential extraneous and confounding variables (and how they will handle them if at all), select appropriate analyses for their data and hypotheses, and then present the results of their work in both poster and research report format.
Requisite: 2.5 PSY GPA, 15 PSY credits including PSY 291 or PSY 292, and PSY 390. Senior Status, BS in Psychology major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 491. Advanced Biobehavioral Statistics. 3 Credit Hours.
This course builds upon the material covered in PSY 390. After a brief review, analysis of variance and multiple regression will be covered using a general linear model (GLM) approach. The goal is to prepare students for graduate level work in applied statistics.
Requisite: 2.5 PSY GPA and 15 credits in PSY courses, including PSY 291 or PSY 292, PSY 390.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 520. Psychoneuroimmunology. 3 Credit Hours.
This course is designed to present some of the basic information necessary to interpret the current literature in psychoneuroimmunology (PNI) and to design research in this area.
Requisite: 2.8 PSY GPA; 18 credits in PSY, including PSY 290.
Components: LEC.
Grading: GRD.

PSY 540. Culture, Values, Religiosity, and Mental Illness. 3 Credit Hours.
Cultural differences in the manifestation, course, and outcome of serious mental disorders; the relationship between chronic mental disorders and ethnicity, religious values, family cohesion, attributions of control, and world view; cultural differences in societies’ reactions to and treatment of mentally ill patients.
Components: LEC.
Grading: GRD.

PSY 575. Special Topics. 1-3 Credit Hours.
Content varies by semester.
Requisite: 2.8 PSY GPA, 18 PSY credits including PSY 390.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 580. Senior Honors in Psychology I. 3 Credit Hours.
Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.
Requisite: Permission of UASP and faculty required, 3.5 Major GPA, 3.3 Combined GPA, PSY or NEU major, 18 PSY credits, including PSY 390.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 581. Senior Honors in Psychology II. 3 Credit Hours.
Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.
Requisite: Permission of UASP and faculty required, 18 PSY credits including PSY 580.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 582. Scientific writing and grantsmanship. 3 Credit Hours.
Writing and organizational skills for professional development in social and behavioral sciences. Mechanism of extramural funding and grant review, including grantsmanship.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 583. Neuroanatomy. 3 Credit Hours.
Functional neuroanatomy for individuals engaged in basic neuroscience and psychological research. Gross anatomy, identification of pathways and circuits, and physiological functions of neuroanatomical systems. Clinical examples and case histories of neuroanatomical disorders. Laboratory exercises including brain dissections, examination of brain models and atlases, and internet neuroanatomy websites.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 601. Issues in Professional Development and Research. 1 Credit Hour.
Seminar addressing issues such as structure of academic systems and progress through them, time management, library search systems, professional journals, how to structure curriculum vitae, procedures and rules in human subject research, professional meetings and presentations, extramural funding opportunities, professional writing style, ethical issues.
Requisite: Plan of Graduate Psychology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 602. Scientific writing and grantsmanship. 3 Credit Hours.
Writing and organizational skills for professional development in social and behavioral sciences. Mechanism of extramural funding and grant review, including grantsmanship.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 603. Neuroanatomy. 3 Credit Hours.
Functional neuroanatomy for individuals engaged in basic neuroscience and psychological research. Gross anatomy, identification of pathways and circuits, and physiological functions of neuroanatomical systems. Clinical examples and case histories of neuroanatomical disorders. Laboratory exercises including brain dissections, examination of brain models and atlases, and internet neuroanatomy websites.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 604. Cognition and Emotion. 3 Credit Hours.
Study of basic cognitive processes of attention and memory, the function of emotions, and the role of cognitive mechanisms in the processing of affective information.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PSY 605. Cognitive Neuroscience. 3 Credit Hours.
Brain mechanisms in cognition and behavior, including sensory encoding and perception, attention, motivation, emotion, learning/memory, language, executive functions, and mental disorders.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 606. Biobehavioral Processes and Disease in Health Psychology. 3 Credit Hours.
Central nervous system, cardiovascular, endocrine, immune, and other biological processes examined in the context of behavioral medicine and health psychology research. Discussion of basic mechanisms in physiological regulation and dysregulation of the cardiovascular and immune systems, with specific reference to cardiovascular behavioral medicine and psychoneuroimmunology.
Prerequisite: PSY 610.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 609. Psychopharmacology. 3 Credit Hours.
Basic methods and current issues in psychopharmacology.
Prerequisite: PSY 605.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 610. Behavioral Medicine: Overview of Basic Science, Public Health, and Clinical Trial Approaches. 3 Credit Hours.
Overview of biobehavioral, psychosocial and sociocultural factors in pathogenesis, prevention and treatment of physical disorders.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 613. Psychoneuroimmunology. 3 Credit Hours.
Structural and functional aspects of the immune system that are sensitive to neural and psychological processes. Interactions between the nervous and immune systems are examined in relation to empirical associations between psychological factors (i.e., stress) and immune-mediated processes in diseases such as cancer and AIDS.
Prerequisite: PSY 605.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 614. Diversity issues in psychology. 3 Credit Hours.
Overview of diversity issues including race, religion, gender, age, sexual orientation, physical disability and socioeconomic status as they relate to psychological research and clinical practice.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 615. Foundations of neuropsychology. 3 Credit Hours.
Mechanisms of neurological and psychiatric disorders, including developmental disorders, dementia, aphasia, amnesia, stroke, traumatic brain injury, and loss of general intelligence. Clinical tools for neuropsychological assessment, forensics, and genetic screening.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 616. Biobehavioral Processes and Clinical Research Applications in Health Psychology. 3 Credit Hours.
Conduct of clinical research and examination of biobehavioral processes in health psychology. Lectures, readings and assignments deal with clinical research involving pathology, assessment and intervention-based functions with applications focused on health and disease conceptualized at multiple levels of prevention.
Prerequisite: PSY 606 and PSY 610.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 620. Advanced Developmental Psychology. 3 Credit Hours.
Mechanisms underlying continuity and change over the lifespan. Topics include developmental theories and methods; specific domains of development (perceptual, cognitive, social/emotional); socialization processes; and emerging adulthood, parenting, and aging.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 621. Theories of Development. 3 Credit Hours.
Theoretical aspects of psychological development throughout the life span.
Prerequisite: PSY 620.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 622. Cognitive Development. 3 Credit Hours.
Theories of cognitive development across infancy, childhood, and adolescence. Topics include measurement approaches, normative development, individual differences, etiological factors and contextual influences.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 623. Language Development. 3 Credit Hours.
The study of language acquisition, primarily focusing on infancy through 5 years. Topics covered include biological bases of language, sound discrimination abilities, babbling and speech production, word learning, acquisition of grammar, bilingualism, and development in atypical populations.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 624. Social Development. 3 Credit Hours.
The theoretical and empirical literature on typical and atypical social development-including emotional development and social cognition-in infants, children, and adolescents. Topics include measurement approaches, individuals differences and contextual influences.
Prerequisite: PSY 620.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 625. Social Psychology. 3 Credit Hours.
The major substantive areas and theories of social psychology. Emphasis on applications to students’ own research field.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
PSY 631. Psychological Statistics, Research Methods, and Design. 3 Credit Hours.  
Statistics for experimental design with uncorrelated independent variables. Review of t-tests; designs and applications of analysis of variance; including one-way, factorial, repeated-measures, and mixed designs; post hoc comparisons among means.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Fall.

PSY 632. Multiple Regression and Multivariate Statistics. 3 Credit Hours.  
Analysis of the general linear model. Computer application of these techniques to the behavioral sciences.  
**Prerequisite:** PSY 630. Or EPS 568. And EPS 653.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Spring.

PSY 633. Structural Equation Modeling. 3 Credit Hours.  
Structural models, path analysis, measurement models, and confirmatory factor analysis, particularly related to hypotheses about causal relations, change over time, and comparisons across diverse populations.  
**Prerequisite:** PSY 632.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Fall.

PSY 634. Hierarchical Linear Modeling. 3 Credit Hours.  
Multi-level modeling of nested and non-independent data. Application of multilevel modeling to social science and behavioral data, including computer laboratory exercises.  
**Prerequisite:** PSY 632.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Spring.

PSY 636. Research Methods with Children and Adolescents. 3 Credit Hours.  
Concepts and research design approaches for the measurement and analysis of data across developmental stages from infancy through adolescence.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Fall.

PSY 638. Psychology of Infant Development. 3 Credit Hours.  
Theory, research, and methodology pertaining to psychological development in the first three years of life. Emphasis on both general developmental processes, and individual differences in cognitive, social, and emotional development.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Fall.  
**Offered by Announcement Only.**

PSY 639. Autism and Developmental Disabilities. 3 Credit Hours.  
Developmental disabilities with an emphasis on autism. Biological, social, cognitive and emotional concomitants. History, etiology, assessment, and individual differences.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Offered by Announcement Only.

PSY 640. Adult Psychopathology. 3 Credit Hours.  
Theories, models, history, and research relevant to various patterns of problematic behavior, with a focus on adults. The influences of family systems as well as cultural and other diversity factors (e.g., ethnicity, sexual orientation) are included.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Fall.

PSY 641. Child and Adolescent Psychopathology. 3 Credit Hours.  
Theories, models, and research relevant to the development and the course of behavioral disorders and other problems (e.g., maltreatment, exposure to violence and poverty) that emerge in childhood and adolescence. The influences of family and peer systems as well as cultural and other diversity factors (e.g., ethnicity, sexual orientation) are included.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Fall.

PSY 642. Advanced Adult Psychopathology. 3 Credit Hours.  
Theory and research on risk factors and etiological models of mental disorders. Socioenvironmental (cultural, social support, life events), psychological (temperament, cognitive biases), and biological (genes, neurotransmitters) models of risk, research methodology, and design are discussed.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Fall.

PSY 643. Behavioral Medicine and Developmental Disabilities. 3 Credit Hours.  
Processes influencing diagnosis and management of developmental disabilities: genetics, embryology/fetology, physical growth and development, nutrition, hearing and speech pathology, family dynamics, cognition and psycho-educational assessment.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Fall & Spring.

PSY 645. Introduction to Psychological Evaluation. 3 Credit Hours.  
Measurement theory; introduction to the administration and interpretation of widely-used intelligence and personality tests, with attention to issues of ethics and diversity.  
Requisite: Plan of Graduate Psychology.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Fall.

PSY 646. Psychological Evaluation of Adults. 3 Credit Hours.  
Issues of diversity, ethics, and personality theory as they pertain to psychological evaluation of adults. Emphases on the use of projective and objective personality assessment methods.  
**Components:** LEC.  
**Grading:** GRD.  
**Typically Offered:** Spring.
PSY 647. Psychological Evaluation of Children and Families. 3 Credit Hours.
Clinical and developmental theory and methods pertaining to the evaluation of children, adolescents, and families including intelligence tests, structured diagnostic instruments, personality and behavioral check lists, observational formats, interviewing, and projective assessment. Attention to issues of ethics and diversity.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 648. Psychological Evaluation in Physical Disorders. 3 Credit Hours.
Administration, interpretation, and psychometric evaluation of psychological tools and procedures used in the evaluation of physical disorders. Attention to issues of ethics and diversity.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 650. Laboratory in Clinical Psychology. 0 Credit Hours.
Practical training in clinical skills such as assessment, interviewing, and case conceptualization. Laboratory to be used in conjunction with courses such as PSY 640 and PSY 645
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 655. Evolution and Sex. 3 Credit Hours.
A biological/evolutionary approach to the study of human sexuality and cognition. The evolution of sexual reproduction and the evolution of the two sexes. Initial discussions will introduce the theory of evolution by natural selection and address the different levels at which selection operates. Building on this foundation, the class will focus on why sex evolved and the myriad physiological and psychological adaptations that evolved as a consequence. Topics to be covered include sexual selection, mate selection, pregnancy, and parent-offspring conflict.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 656. Introduction to Evidence-Based Psychological Treatments. 3 Credit Hours.
Theories, history, and techniques of psychological and behavioral therapies, with emphasis on evidence-based approaches.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 660. Evidence-Based Psychological Intervention with Children and Families. 3 Credit Hours.
Theories, history, and techniques of psychological and behavioral therapies, with emphasis on evidence-based approaches with children, adolescents, and families. Understanding normative and deviant development, with attention to issues of diversity, ethics, and domestic violence.
Prerequisite: PSY 656.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 661. Interventions in Pediatric Psychology. 3 Credit Hours.
Pediatric psychology and basic learning theory. Medical and behavioral aspects of child and adolescent health disorders, psychological assessment, and evidence-based treatment approaches.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 662. Health Psychology Interventions. 3 Credit Hours.
Clinical interventions and research relevant to health problems and lifestyle, with emphasis on critical evaluations of past research and the design and implementation of intervention protocols. The origins of health psychology and the role of the health psychologist in medical systems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 663. Measurement in Applied Behavior Analysis. 3 Credit Hours.
A graduate-level 45-hour course that covers aspects of behavior analysis related to strategies and tactics of behavioral assessment, measurement, data display, and investigational design. In addition to covering task-list items related to measurement and single-case design in behavior analysis practice, we will read select articles from the Journal of Applied Behavior Analysis covering a variety of applications of behavioral principles. We will read from a selection of seminal articles in behavior analysis and current, contemporary research. We will evaluate the measurement and design strategies employed in the articles.
Prerequisite: PSY 666.
Components: DIS.
Grading: GRD.
Typically Offered: Spring.
PSY 664. Ethics and Professional Conduct in Behavior Analysis. 3 Credit Hours.
This course provides an overview of ethics and professional conduct in the field of behavior analysis. The course will provide in-depth information on the BACB Professional and Ethical Compliance Code for Behavior Analysts. The course will cover professional issues related to responsible conduct of behavior analysts, behavior analysts' ethical responsibility to clients and colleagues, including issues related to assessment of behavior, development and implementation of behavior change programs, clinical supervision and mentoring, the profession of behavior analysis and the BACB, and the conducting and reporting of research. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 30 instructional hours in the area of Ethical and Professional Conduct, 5 hours in the area of Intervention and Behavior Change Consideration 5 hours in the area of Behavior Change Systems and 5 hours in the area of Implementation, Management and Supervision. Prerequisite: PSY 666. And must pass with a GPA 3.2.
Components: DIS.
Grading: GRD.
Typically Offered: Fall.

PSY 665. Advanced Topics in Applied Behavior Analysis. 3 Credit Hours.
This course covers a number of advanced research and clinical issues relevant to the field of applied behavior analysis including, particularly as they relate to the field of developmental disabilities. The course will provide in-depth information related to the selection of appropriate interventions including staying abreast of current research, critically interpreting research, considering individual client needs and developing treatment programs that are consistent with the science of applied behavior analysis. The course will additionally cover issues related to the implementation and management of clinical service provisions, including ensuring appropriate and accurate data collection, maintaining procedural fidelity and providing supervision and training. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 15 instructional hours in the area of Measurement, 15 hours in the area of Experimental Design and 15 hours in the area of discretionary. Prerequisite: PSY 666. And must pass with a GPA 3.2.
Components: DIS.
Grading: GRD.
Typically Offered: Fall.

PSY 666. Concepts and Principles of Applied Behavior Analysis. 3 Credit Hours.
This course provides an introduction to Applied Behavior Analysis (ABA), which is the clinical application of behavioral science and learning theory towards the treatment of problematic behavioral and behavioral deficits. In this course, students will become familiar with the scientific foundations of behavioral science and the basic concepts and principles of behavior analysis. The course will emphasize terminology and definitions of behavioral concepts, as well as introduce the application of those concepts across a range of clinical scenarios. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 45 instructional hours in the area of Concepts and Principals of Behavior Analysis. Prerequisite: PSY 666 OR PSY 676 OR PSY 677 AND Bachelor's degree AND GPS>=3.2.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 667. Assessment and Treatment of Language Learning. 3 Credit Hours.
This course focuses on the application of behavior analysis toward the treatment of individuals exhibiting behavioral deficits or developmental delays. Throughout this course, students will acquire in-depth knowledge of behavioral analytic approaches for promoting the development of new skills and for supporting and maintaining those skills over time. Students will learn to prioritize target behaviors for clinical intervention as well as how to use applied behavior analytic techniques and procedures to develop effective treatment plans. Clinical and professional issues (e.g., fidelity of implementation, monitoring effectiveness) will also be discussed. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 10 instructional hours in the area of Identification of the Problem and Assessment, 30 instructional hours in the area of Fundamental Elements of Behavior Change and Specific Behavior Change Procedures, and 5 instructional hours in the area of Behavior Change Systems. Requisite: PSY 666 OR PSY 676 OR PSY 677 AND Bachelor's degree AND GPS>=3.2.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 668. Functional Assessment and Treatment of Aberrant Behavior. 3 Credit Hours.
This course will focus on the application of behavior analysis toward the treatment of aberrant behavior. Throughout this course, students will acquire in-depth knowledge of behavior analytic approaches toward the assessment of aberrant behavior (e.g., functional behavioral assessment (FBA) and functional analysis). In addition, the course will focus on how behavior analysis use the results of a behavioral assessment to develop effective and ethical behavioral interventions to reduce aberrant behavior. Clinical and professional issues (e.g., fidelity of implementation, monitoring effectiveness) will also be discussed. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 25 instructional hours in the area of Identification of the Problem & Assessment, 15 instructional hours in the area of Fundamental Elements of Behavior Changes and Specific Behavior Change Procedures and 5 instructional hours in the area of Intervention of Behavior Change Considerations. 
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PSY 669. Professional Issues in Designing and Monitoring Interventions. 3 Credit Hours.
This course covers a number of professional issues related to the competent and ethical delivery of applied behavior analysis services. The course will provide in-depth information related to the selection of appropriate interventions, including staying abreast of current research, critically interpreting research, considering individual client needs and developing treatment programs that are consistent with the science of applied behavior analysis. The course will additionally cover issues related to the implementation and management of clinical service provisions, including ensuring appropriate and accurate data collection, maintaining procedural fidelity and providing supervision and training. Finally, the course will provide information about the professional and ethical compliance code for behavior analysis, as outlined by the Behavior Analysis Certification Board (BACB). In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 168 instructional hours in the area of Ethical and Professional Conduct, 10 hours in the area of Measurement, 10 hours in the area of Experimental Design and 10 hours in the area of Implementation, Management and Supervision.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 670. Practicum in Clinical Psychology. 1-3 Credit Hours.
Supervised experience in evaluating and treating psychological problems of children, adolescents, families, and/or adults behavior. For students placed at the U.M. Psychological Services Clinic there is a weekly case conference that focuses on ethics case conceptualization. Course may be repeated for credit.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 671. Practicum in Clinical Psychology II. 0 Credit Hours.
Continuation of PSY 670.
Corequisite: PSY 645.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

PSY 672. Advanced Practicum in Clinical Psychology. 1-3 Credit Hours.
Advanced experience in special clinical techniques and clinical supervision. Primarily for post-internship clinical students. The advisor may direct that PSY 672 be repeated, but no more than six credits may be applied toward a degree.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 673. Advanced Applications of Applied Behavior Analysis III. 3 Credit Hours.
The purpose of this course is to provide students with supervised clinical experience in selecting, developing and implementing applied behavior analytic procedures and techniques. During this course, students will provide direct ABA services aimed at improving the behavioral functioning of individuals participating in ABA therapy. Experiential activities provided during this practicum course additionally focus on advanced professional issues in the design and implementation of ABA programs, so as to facilitate appropriate treatment selection, fidelity of implementation and systematic monitoring of treatment efficacy and providing training and feedback on performance. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 168 hours of practicum experience.
Components: PRA.
Grading: GRD.
Typically Offered: Spring.

PSY 674. Applications of ABA in Development Disabilities. 3 Credit Hours.
The purpose of this course is to provide students with supervised clinical experience in the application of behavior analysis toward the treatment of individuals with autism and developmental disabilities who exhibit problematic behavior, behavioral deficits or developmental delays participating in ABA therapy. During this course, students will provide direct ABA services aimed at reducing problematic behavior or and promoting the development and maintenance of new skills. Experiential activities provided during this practicum course focus on functional assessment, the identification of meaningful treatment goals, identification of reinforcers via systematic assessment, and the implementation of ABA intervention techniques and programs to treat problematic behavior and behavioral and language deficits. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 168 hours of practicum experience.
Prerequisite: PSY 666. And must pass with a GPA 3.2.
Components: PRA.
Grading: GRD.
Typically Offered: Summer.

PSY 675. Advanced Applications of Applied Behavior Analysis II. 3 Credit Hours.
The purpose of this course is to provide students with supervised clinical experience in selecting, and developing applied behavior analytic procedures and techniques for individuals with autism and developmental delay and providing clinical supervision to those implementing behavioral procedures. During this course, students will assist instructors in providing supervision to individuals who provide direct ABA services for individuals participating in ABA therapy. Experiential activities provided during this practicum course additionally focus on advanced professional issues in the design and implementation of ABA programs, so as to facilitate appropriate treatment selection, collection of data related to fidelity of implementation and systematic monitoring of treatment efficacy. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 168 hours of practicum experience.
Prerequisite: PSY 666. And must pass with a GPA 3.2.
Components: PRA.
Grading: GRD.
Typically Offered: Fall.
PSY 676. Application of ABA: Principles and Concepts. 3 Credit Hours.
The purpose of this course is to provide students with supervised clinical experience in selecting, developing and implementing applied behavior analysis procedures and techniques. During this course, students will provide direct ABA services aimed at improving the behavioral functioning of individuals participating in ABA therapy. Experiential activities provided during this practicum course focus on the application of basic principles and concepts in ABA, including the identification of behavioral targets, measuring behavioral, monitoring changes in behavior over time, and implementing reinforcement-based interventions. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 168 hours of practicum experience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 677. Application of the Assessment and Treatment of Language and Learning. 3 Credit Hours.
The purpose of this course is to provide students with supervised clinical experience in the application of behavior analysis toward the treatment of individuals who exhibit behavioral deficits or developmental delays. During this course, students will provide direct ABA services aimed at promoting the development and maintenance of new skills. Experiential activities provided during this practicum course focus on the identification of meaningful treatment goals, identification of reinforcements via systematic assessment, and the implementation of ABA intervention techniques and programs to treat behavioral and language deficits. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 168 hours of practicum experience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 678. Application of the Assessment and Treatment of Learning. 3 Credit Hours.
The purpose of this course is to provide students with supervised clinical experience in the application of behavior analysis towards the treatment of individuals with aberrant behavior. During this course, students will provide direct ABA services aimed at reducing and eliminating the occurrences of aberrant behavior. Experiential activities provided during this practicum course include conducting functional behavioral assessments as well as developing and implementing behavioral plans to treat aberrant behavior. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 168 hours of practicum experience.
Components: PRA.
Grading: GRD.
Typically Offered: Spring.

PSY 679. Advanced Application of ABA. 3 Credit Hours.
The purpose of this course is to provide students with supervised clinical experience in selecting, developing and implementing applied behavior analysis procedures and techniques. During this course, students will provide direct ABA services aimed at improving the behavioral functioning of individuals participating in ABA therapy. Experiential activities provided during this practicum course additionally focus on advanced professional issues in the design and implementation of ABA programs, so as to facilitate appropriate treatment selection, fidelity of implementation and systematic monitoring of treatment efficacy. In accordance with the Behavior Analysis Certification Board (BACB), this course meets criteria for 168 hours of practicum experience.
Components: PRA.
Grading: GRD.
Typically Offered: Spring.

PSY 680. Research. 1-4 Credit Hours.
Investigation of an original problem.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 681. Research. 1-4 Credit Hours.
Investigation of an original problem.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 683. Special Topics. 3 Credit Hours.
Topics in selected areas of specialization.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 684. Readings in Psychology. 3 Credit Hours.
Supervised readings in selected topics.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 685. Seminar in Clinical Psychology. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 687. Seminar in Clinical Psychology. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 688. Seminar in Developmental Psychology. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 690. Seminar in Developmental Psychology. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PSY 692. Seminar in Personality. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 693. Seminar in Behavioral Medicine. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PSY 694. Seminar in Behavioral Medicine. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 696. Cognitive and Behavioral Neuroscience Journal Club. 1 Credit Hour.
This 1-credit course will provide an opportunity for graduate students in the Cognitive and Behavioral Neuroscience Graduate Program within the psychology department to discuss recently published literature in the field. The course will consist of in-depth discussions held every week, led by graduate students and other trainees, on research articles and topics of their choice. Typically, discussion will alternate between an empirical article and a more advanced methods article every other week. A faculty member from the CBN program will organize the journal club, facilitate and guide discussion, provide clarification of key concepts, and evaluate student performance.
Components: DIS.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 697. Seminar in Biological Psychology. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PSY 698. Seminar in Quantitative Psychology. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 803. Internship in Clinical Psychology. 1 Credit Hour.
Supervised internship in clinical psychology. May not be counted as part of the 90 hours required for the Ph.D. degree.
Components: CLN.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 804. APA Accredited Internship in Clinical Psychology. 1 Credit Hour.
Supervised internship in clinical psychology. May not be counted as part of the 90 hours required for the Ph.D. degree.
Components: CLN.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PSY 805. Postdoctoral Practicum. 1-3 Credit Hours.
Advanced clinical psychology training for individuals who have completed a clinical psychology Ph.D. or PsyD. from an APA-accredited doctoral program. Supervision of clinical activity by licensed faculty members.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PSY 806. Summer Research Practicum. 1 Credit Hour.
Faculty-supervised research during the summer for students in the Psychology Ph.D. Program.
Components: THI.
Grading: GRD.
Typically Offered: Summer.

PSY 810. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

PSY 820. Research in Residence. 1 Credit Hour.
Research in residence for the thesis for the master's degree after the student has enrolled for the permissible cumulative total in PSY 810 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

PSY 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but for not less than a total of 12 hours. Up to 12 hours may be taken in a regular semester, but not more than six in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.
PSY 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D., after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

Public Health (BPH)

BPH 200. Basic Concepts Public Health. 3 Credit Hours.
This course focuses on current health care issues and the health care system as well as the future direction of health care.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

BPH 202. Introductory Statistics in Health Care. 3 Credit Hours.
Application of descriptive and inferential statistics. Principles and methods of summarizing data including tables, graphs, percentile ranks, central tendency, variability, normal distribution. Basic concepts of probability, hypothesis testing, and analysis of variance. Examples and problems from nursing, health sciences, and public health.
Corequisite: MTH 101. Or Requisite: ALEKS $\geq 55$ or SAT Score $> or = 630$ or ACT $> or = 28$.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BPH 206. Introduction to Public Health. 3 Credit Hours.
Introduction to all aspects of public health, including health services administration, and policy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BPH 208. Introductory Epidemiology. 3 Credit Hours.
This course is a general introduction to epidemiology, definition of concepts and natural history of disease and levels of prevention. It also covers measures of morbidity and mortality. Epidemiologic aspects of infectious and chronic diseases.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BPH 217. Medical Terminology. 1 Credit Hour.
This course will assist the student in understanding the principles of medical word building in order to develop the extensive medical vocabulary used in health care professions. Students receive a thorough grounding in basic medical terminology through the study of root words, prefixes and suffixes. The course emphasizes correct pronunciation, spelling and use of medical terms.
Prerequisite: BIL 150.
Components: CLN.
Grading: GRD.
Typically Offered: Fall.

BPH 301. Human Sexuality and Vulnerable Populations. 3 Credit Hours.
The study of human sexuality via multidisciplinary theoretical perspectives and research. Students will examine the complex relationships of the physiological, psychological, cultural, gender, religious, historical, and political aspects of human sexuality. Human sexuality in the context of health disparities will form the foundation for the course. WRITING COURSE.
Prerequisite: BPH 206 or Requisite: Nursing Clinical Major.
Components: LEC.
Grading: GRD.

BPH 303. HIV/AIDS and Health Maintenance for Health Care Providers. 3 Credit Hours.
Definition, diagnosis, management and care of diverse patient populations with HIV infection and AIDS. Presented and discussed from an interdisciplinary health care perspective.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BPH 305. Issues in Health Disparities. 3 Credit Hours.
This course will be an introduction to the general research on health systems and health disparities. Emphasis will be placed on social, biological, economic, and social policy issues that impact on the health of minority populations. Concepts associated with epidemiology, poverty, racism, public policy, and international politics will be explored. WRITING COURSE.
Components: LEC.
Grading: GRD.

BPH 306. Principles of Nutrition. 3 Credit Hours.
Principles of nutrition integrated with cultural dietary patterns for client adaptation across the lifespan.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BPH 309. Health and Environment. 3 Credit Hours.
This course examines health issues, scientific understanding of causes and possible future approaches to control of the major environmental health problems. Topics include how the body reacts to environmental pollutants; physical, chemical, and biological agents of environmental contamination; vectors for dissemination; susceptible populations; the scientific bases for policy decisions and emerging global environmental health problems.
Prerequisite: BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BPH 310. Global Health. 3 Credit Hours.
Introduction to the concepts of global health and the critical links between public health and social and economic development. Determinants of health and patterns of disease and health outcomes across the globe are critically examined. The course reviews the determinants of health status in terms of biology, demography, epidemiology, culture, sociology, economics, and politics. Key concerns regarding reproductive health, child survival, nutrition, communicable diseases, and chronic diseases are examined. Health care delivery in developed vs. undeveloped regions of the world are emphasized.
Prerequisite: BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
BPH 317. Theories in Growth and Development. 3 Credit Hours.
Application of growth and development theories through the lifespan with a case study approach to issues commonly encountered nursing practice in a variety of clinical settings.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BPH 319. Contemporary Issues in Bioethics for Health Care. 3 Credit Hours.
The course will cover bioethical issues in the health care environment including ethical principles, theories and decision making strategies. Prerequisite: BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BPH 321. Health Promotion and Disease Prevention. 3 Credit Hours.
The focus of this course is on the understanding and implementation of strategies aimed at promoting health and preventing disease. It also focuses on optimal health maintenance and wellness support for individuals, families, and communities. The content of the course includes health across the lifespan and resources associated with health promotion. Common health alternations will be discussed, as well as socio-cultural perceptions of health and illness. Prerequisite: BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BPH 322. Introduction to Health Policy. 3 Credit Hours.
This course provides an introduction to the organization, delivery, and financing of health care in the United States. We will consider policy challenges created by the structure of the health care system, including access to care, quality of care, and cost growth. Major areas of focus will include public insurance programs, private insurance, the uninsured, health disparities, and implementation of health care reform legislation. Prerequisite: BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

BPH 325. Global Nutrition. 3 Credit Hours.
This course examines nutrition related public health issues in the global setting. Nutrition related morbidity and mortality, etiologic factors, and population-focused strategies to address these issues are covered. Food relief and nutrition policies and programs at the local, national and international levels are examined. Current scientific research in international nutrition is reviewed from an epidemiological perspective. Prerequisite: BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BPH 326. Research Methods in Public Health. 3 Credit Hours.
This course utilizes fundamental epidemiological skills to apply concepts and practical issues related to conducting public health research. It covers key processes of research investigations such as the identification of gaps in the field, critical thinking, study design selection, research proposal development, quantitative and qualitative research methods, and best practices for the dissemination of research findings. Prerequisite: BPH 208.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BPH 328. Contemporary Issues in South Florida. 3 Credit Hours.
This course will provide students with an in-depth look at public health issues relevant to communities in South Florida. Emphasis will be placed on the social, cultural, and policy issues that impact the health of vulnerable populations in our community. Interdisciplinary researcher knowledge and practice from the University of Miami and other relevant institutions will be highlighted. Prerequisite: BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
BPH 461. Practicum in Health Disparities Research. 1-4 Credit Hours.
This course is designed to provide opportunities for students across all levels of higher education to participate in health disparities research. Students will be mentored by a health disparities researcher with an active research project. Objectives will be established by the research mentor and the student according to educational level, interests and opportunities. Students will be incorporated into the research team and expected to attend project meetings. They will also be expected to participate in scholarly work that could contribute to the success of the project. Examples of scholarly work include co-authoring research papers and presentations, developing recruitment materials, assisting in compiling/developing data collection measures, or any other product deemed appropriate by the mentor.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BPH 465. Public Health Statistics and Data Management. 3 Credit Hours.
This course is designed to give students an opportunity to apply basic principles of statistics and data management in public health. Students will learn to use statistical techniques to answer questions relating to the morbidity and mortality of health conditions and the efficacy and effectiveness of public health interventions.
Prerequisites: BPH/HCS/NUR 202 and BPH 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BPH 487. Global Health Practicum. 3 Credit Hours.
Collaborative clinical venture between UM/SON and an International School of Nursing. Students will exchange supervised western clinical experiences, knowledge and skills for the care of clients and families in specialty areas, including MedSurg, ICU and/or Emergency nursing units. Students will apply and synthesize basic science knowledge and skills that foster ethical, legal, and culturally specific health care.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BPH 490. Field Practicum in Community Health. 3 Credit Hours.
This course provides students with field experiences in community health. During the didactic portion of the course, students will be introduced to the basic principles and methods used in community health assessment, program development, program implementation, and evaluation. During the field experience component of the course students will work under the supervision of lead faculty to apply the knowledge and skills they obtained during their course of study to address a public health issue.
Prerequisite: BPH 206 and 208 and 321 and 465.
Components: PRA.
Grading: GRD.
Typically Offered: Spring.

BPH 499. Selected Topics. 0-6 Credit Hours.
Offerings will vary by semester based upon student demand and availability of faculty.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

Real Estate Development (RED)

RED 601. Introduction to Real Estate Development and Urbanism. 3 Credit Hours.
Fundamentals of real estate development of urban places, including the many challenges of the development process such as analyzing market sectors and develop ment opportunities, comprehending the development context of regulation, public policy and politics, raising investment capital, assembling land, program form ulation, building types, construction management, marketing, and sales.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

RED 610. Financing Urban Real Estate Development. 3 Credit Hours.
Concepts and techniques for analyzing financial decisions in property development and investment including: real estate economics and investment performance measurement, leasing and property income streams, pro forma analysis, basics of equity and debt valuation, income tax and leverage considerations, mortgages, and deal structures.
Emphasis financing individual projects.
ARRE_MREDU Academic Program.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

RED 612. Applied Real Estate Finance and Investments: 1. 2 Credit Hours.
This course builds a foundation for further study of real estate investments and development. This course provides for advanced application of theory and techniques for the analysis of horizontal and vertical development. Discounted cash flow models are developed and enhanced to address topics including multiple property types, staggered sellouts, and condominiums. Emphasis is placed on analysis where extreme data poverty or uncertain exist.
Requisite: ARRE_MREDU Program and Prerequisite: RED 610.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

RED 614. Applied Real Estate Finance and Investments: 2. 2 Credit Hours.
This course builds a foundation for further study of real estate investments and development. This course provides for advanced application of theory and techniques at the entity and deal-level. Discounted cash flow models are developed and enhanced to address topics including partnerships and waterfalls, income tax considerations and a greater exploration of a variety of public and private debt instruments. Emphasis is placed on analyzing the performance of a prospective development across the entire capital stack.
Requisite: ARRE_MREDU Program and Prerequisite: RED 608 and RED 610.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
RED 618. Technologies and Tools for Commercial Real Estate. 1 Credit Hour.
Students in the Technologies and Tools for Commercial Real Estate will learn basic skills for ARGUS Enterprise, REIS, Co-Star, Real Capital Analytics and/or the latest in Real Estate Technology and Tools. Students will be introduced to concepts of entering leases, budgets, market assumptions or valuation and yield parameters on a repetitive basis. The modules that are covered in the course include Valuation-Cash Flow, Portfolio Level Reporting and Sensitivity. Courses concentrate on practical applications of software and tools through interactive examples and case studies. Participants are exposed to a large cross section of software capabilities, fundamentals and unique nuances. Offered: Spring. Prerequisite: RED 610.
Components: WKS.
Grading: GRD.
Typically Offered: Spring.

RED 620. Real Estate Law. 3 Credit Hours.
Fundamentals of law and the entitlement process, including contractual aspects of real estate development, finance, management and ethical issues and a real-world overview of the review and approvals process. Offered in conjunction with National Charrette Institute.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

RED 630. Real Estate Market Analysis. 3 Credit Hours.
Identification of critical market factors that determine development opportunities. Topics include business and construction cycles, regional and urban growth trends, commercial and industrial location theories, and advanced demographic analysis and projection techniques to project and analyze occupancy, rental growth, absorption, and competitive supply.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

RED 640. Charrette Training. 1 Credit Hour.
Intensive workshop and training in public outreach and participatory planning with emphasis on analysis of political context, appropriate communication technology, collaboration techniques, and design team management. Offered in conjunction with National Charrette Institute.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

RED 650. Complex Urban Real Estate Transactions. 3 Credit Hours.
Real estate transactions and deal structuring from the development perspective. Using the case study method, the course explores the key components and the disciplines needed for successful real estate transactions and projects.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RED 660. Urban Infill, Preservation, and Mixed Use Development. 3 Credit Hours.
Builds students’ competencies for infill and redevelopment practice focusing on: mixed-use development, transit oriented development, barriers and solutions for urban infill development, urban site analysis, repositioning of urban land, vacant and underutilized properties, long-term land leases, tax incentives, historic preservation, public-private partnerships, business improvement districts, tax increment financing, community (re)development districts, parking strategies, and urban housing types.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RED 670. Construction and Project Management. 3 Credit Hours.
Management of construction projects including legal considerations and techniques of management science applied to construction. Includes engineering methods of cost and time estimating, and exercises in applications of engineering economics, flow charts, tracking progress, construction contracts, indemnity agreements, and network planning techniques including CPM and PERT.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RED 680. Entrepreneurship in Real Estate Development. 3 Credit Hours.
Focuses on management and business practices for building new urban real estate firms capable of leading the industry and assuming competitive advantages over conventional models. ARRE_MREDU Academic Program.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RED 690. Case Studies in Real Estate Development. 3 Credit Hours.
Students integrate and apply their learning and skills to complex problem-solving involving a series of intensive real world cases of urban real estate development. Focuses on project feasibility and helps hone the required set of development skills.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

RED 699. Capstone: Real Estate Development and Urbanism Charrette. 1-3 Credit Hours.
An intensive real estate development and urban design studio in which students are part of a multi-disciplinary team on an urban development project. Focuses on comprehensive analysis, project planning, feasibility and program development through the application of advanced development skills in an urban context.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

Real Property Development (RPD)

RPD 134. Real Property and Government. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LL.M Director.
Components: LEC.
Grading: GRD.
RPD 178. Mortgage Law. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 257. Construction Law. 3 Credit Hours.
Components: LEC.
Grading: GRD.

RPD 647. Introduction to ARGUS. 1 Credit Hour.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 648. ARGUS II. 1 Credit Hour.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 823. Real Property Internship. 1 Credit Hour.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 900. Basic Real Estate Tax. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 901. Planning and Zoning. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 904. LAND SECURITIES AND FINANCE. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 920. Hospitality. 1 Credit Hour.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 921. Negotiation Skills. 1 Credit Hour.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 923. Introduction to Real Estate Development. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 924. Real Estate Documents Workshop. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 925. Re Doc W/S II. 1 Credit Hour.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 926. Problem-Solving in Real Property Development. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 932. Basic Condos, Coops, and Planned Unit Development. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 934. Financial Analysis of Real Estate Transactions. 1 Credit Hour.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 935. DEVELOPING AFFORDABLE HOUSING: AN OVERVIEW OF REAL ESTATE, REGULATORY, AND POLICY CONSIDERATIONS. 1 Credit Hour.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 945. Affordable Housing II and Practicum. 2 Credit Hours.
Pre-requisite: Introduction to Affordable Housing.
Components: PRA.
Grading: GRD.

RPD 953. Real Estate Transactions. 2 Credit Hours.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.
Components: LEC.
Grading: GRD.

RPD 956. Securitization of Real Estate. 1 Credit Hour.
Requisite: Must have a Plan of Real Property Development LL.M or permission from Real Property Development LLM Director.

Components: LEC.
Grading: GRD.
REL 102. Problem of God. 3 Credit Hours.
Contemporary religious issues related to the concept of God.
Foundational to this course is an examination of the religious dimension of human experience and consciousness in relation to a number of historical and contemporary problems and challenges. This course approaches ‘the problem of God’ from the angle of human experience, focusing on the various historical, social, and existential determinants of belief. Topics include: globalized religion, the challenge of atheism and humanism, the impact of secularization on religion, and an exploration of the historical, social, and theological images of creation and the divine.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

REL 103. One God: Judaism, Christianity, Islam. 3 Credit Hours.
Monotheism is one of the most important ideas in human history. This course examines how Judaism, Christianity, and Islam have lived it, understood it and interpreted it. The basic structures of all three religions and explore their similarities, differences and interactions on a set of critical issues, both contemporary and classical. The course will encourage students’ conversation and active participation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 105. One Goal: Transforming the Self in Asian Religions. 3 Credit Hours.
A selective survey of some of the continent’s major religious traditions that attempts to provide a sense of their diversity, including a hint of their internal diversity. We will encounter major figures, doctrines, and ethical precepts, but special attention will be paid to one key element shared that distinguishes them from their Abrahamic counterparts (Judaism, Christianity, and Islam): the one goal of self-transformation and the techniques for achieving it. Here we will find the differences among traditions thrown into stark relief even as we encounter surprising parallels and continuities. Along the way students will be exposed to major concepts and approaches to the academic study of religion.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 109. Anthropology of Religion. 3 Credit Hours.
Through themes such as myth, word and text, symbol, gender, pilgrimage, embodiment, and ritual, students learn about lived religion through anthropological research and field methods. The course also exposes introductory-level students to diverse world religious traditions: Korean folk religion, Indonesian Islam, Hinduism in diaspora, Judaism across cultures, Japanese temple Shinto traditions, and more.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 111. Introduction to the Old Testament / Hebrew Scriptures. 3 Credit Hours.
The history and literature of ancient Israel and early Judaism.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 119. Courses taken at other institutions with no direct equivalents. 1-4 Credit Hours.
A awarded for course work at another institution for which LTM has no direct equivalent.
Components: LEC.
Grading: GRD.
REL 121. Introduction to the New Testament. 3 Credit Hours.
The history and literature of the early Christian movement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 131. Religion in America. 3 Credit Hours.
The history of religion in the U.S. from the pre-colonial period to the present. Includes study of the religion of Native Americans, African Americans, Asian Americans, women, Protestants, Catholics, Jews, and cults.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

REL 139. Course taken at other institutions with no direct equivalents. 1-4 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

REL 151. Religion and Moral Choices. 3 Credit Hours.
Religious responses to dilemmas raised by issues such as capital punishment, biotechnology, abortion, euthanasia, and war.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 159. Courses taken at other institutions with no direct equivalents. 1-4 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

REL 161. Religion and Medicine: Health Care as Spiritual Practice. 3 Credit Hours.
An exploration of the history of medical care and the history of medicine as calling, as well as the changing professionalism of health care; the role of virtue ethics in the practice of medicine; the tensions between religion and medicine; the place of personal religious beliefs in health care; and the changing landscape of health, holism, healing, faith, and the science of medicine.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 181. Asian Religions. 3 Credit Hours.
The religions of Asia loom large in American popular consciousness, yet are at best dimly understood. This course will peel back the platitudes of fortune cookies and 'Eastern wisdom' to reveal the richness of Asian religious traditions in their cultural contexts. Students in this highly selective survey will be exposed to some of the major traditions of South and East Asia, gaining a familiarity with their ideas, practices, and sacred figures as well as certain key issues and categories in the academic study of religion.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 219. Courses taken at other institutions with no direct equivalent. 1-4 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

REL 231. Jewish Civilization and Being Jewish. 3 Credit Hours.
Introduction to Jewish Civilization from Abraham to present.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 232. A Global History of Christianity. 3 Credit Hours.
A survey of the historical development of Christianity from the first century to the present, focusing on the major theological and institutional issues considered in their social and cultural contexts.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 234. Jerusalem in the Time of Jesus. 3 Credit Hours.
The archaeological evidence of Jerusalem during the time of Jesus. Emphasis on the architectural remains, material culture, and inscriptions of the period that illuminate Jewish society and religion in Jerusalem. The places associated with the Gospels and the last days of Jesus will be a focus.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 236. Cults and New Religious Movements in America. 3 Credit Hours.
Twentieth and twenty-first century religious groups in America, so-called "cults" or new religious movements (NRM's), located on the periphery of "mainstream" religion. An examination of the origins, beliefs, attraction, and interaction of the NRMs from a variety of disciplinary perspectives (historical, psychological, sociological) as well as from another variety of disciplinary perspectives (potential for violence, "brainwashing", involvement of women, and charismatic leadership). The goal is to increase our understanding of certain aspects of contemporary religious activity and the general societal response to them, and hence, of religion in general. The task is not to commend or condemn particular religious' groups, but rather to attempt to reach some understanding of them, first on their terms, then on ours in the appropriate disciplinary contexts.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 238. Holy War and Toleration in Western Religious Traditions. 3 Credit Hours.
An exploration of concepts of Holy War and Just War and of traditions of tolerance and intolerance in Judaism, Christianity, and Islam, from ancient times to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 239. Transfer Credits. 1-4 Credit Hours.
Courses taken at other institutions with no direct equivalents (Religious or Historical Traditions subject area).
Components: LEC.
Grading: GRD.
REL 240. Pilgrims, Shrines, Crusades and Saint in Spain. 3 Credit Hours.
The diversity and complexity of the unique kind of Catholic culture which
developed in Spain. The focus is on the formative period from 700 to
1700 CE and the major trends in both formal Spanish Catholic thought
and everyday lived religion. Themes of pilgrimage, shrines, religious
wars, and sainthood are examined. Because Spain in effect exported
this particular form of Catholicism to the Americas beginning in 1492, an
appreciation of Spanish Catholicism ought to have particular resonance
for students interested in Latin America today.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 242. Religion in Revolutionary History. 3 Credit Hours.
Explores the pivotal role of religion in the revolutions that have shaped
the modern Western world: the Puritan Revolt in 17th-century England,
the American/French Revolutions of 1776 and 1789, and the Russian
(Communist) Revolution of 1917.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

REL 250. Spiritual, Not Religious: Spirituality in the 21st Century. 3 Credit
Hours.
An examination of the spiritual outlets and the fabric of religious life in
the 21st century, including the New Age movement, the rise of yoga as a
spiritual practice, the growth of the self-help phenomenon, the influence
of spiritually-oriented figures like Oprah, and the adaptation of religious
practice to spiritual seeking. In particular, we will filter this discussion
through the experience of the growing percentage of relatively young
Americans who have no affiliation with religious institutions, many of whom
feel attracted to an uncoordinated and decentralized spirituality directed
by an individual’s life and practice, rather than a church or particular
religion.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 252. Religion and Human Sexuality. 3 Credit Hours.
The relationship between religious concepts and sexual values as the
religious traditions of the United States confront contemporary sexual
ethics and behavior.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 255. Religion and Sports: From the Ancients to the Present. 3 Credit
Hours.
The intersection of sports and religion from the ancient Greeks to the
present, with attention given to the role of religion and sports in American
culture. It examines the functions and significance of sport, play, ritual,
and religion, recognizing both the dialectical and intimate relationship
between sports and religion. Religion has not only influenced sports
and sports has influenced religion; in some cases; the two have merged:
sports has become a religion. Through various media we will study the
topics of religion and sports, the spirituality of sports, and sports as a
religion.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 259. Transfer Credits. 1-4 Credit Hours.
Courses taken at other institutions with no direct equivalents (Religious
Issues or Problems subject area).
Components: LEC.
Grading: GRD.

REL 268. Religion in Modern Israel. 3 Credit Hours.
The role of religious values and institutions in modern Israel, with
particular attention to religious elements in nationalism, legal traditions,
and the political and educational systems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

REL 271. Introduction to Islam. 3 Credit Hours.
History of Islam, the Qur’an, and the systematization of Islamic law.
Emergence of the theological schools, the mystical and philosophical
traditions, and the spread of Islamic civilization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 281. Introduction to Buddhism. 3 Credit Hours.
The Buddhist tradition from a variety of angles and in several cultural
contexts. We will attend to the ideas for which Buddhism is famous, while
situating Buddhist practitioners in their social contexts at key historical
moments. Throughout we will give attention to the issue of our own
perspective and what it means to think across the porous borders of
culture in an interrelated world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 288. Chinese Religions. 3 Credit Hours.
Over the last generation, China has largely thrown off communist
ideology, becoming an economic powerhouse that will shape the 21st
century. Alongside economic growth has come a rediscovery and
revitalization of its religious heritage. But what is this religious heritage?
What makes it unique? What does it offer? And how does this heritage
shape China’s religious scene today? This course addresses these
questions through a survey of Chinese religion focusing on the ‘Three
Teachings’-Confucianism, Daoism, and Buddhism—as well as popular
religion. We will examine their development and mutual interaction,
attending to their thought and practice as well as their historical and
social context. Students will gain not only a familiarity with the religious
traditions of China, but also cultivate their ability to think historically and
to balance sympathetic and critical understanding.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 291. Introduction to Hinduism. 3 Credit Hours.
Sources of Hindu belief and practice date back as early as 1500 BCE, but
the mythologies of India harken to time immemorial. The tradition that is
now known as Hinduism developed through the rise and fall of empires,
the evolution of social hierarchies, and the telling and retelling of colorful
stories about heroes and divinities. Today, Hindu practices are part of
the landscape not only in India, but in Europe, Africa and the Middle East,
Southeast Asia and the Americas, too. Through readings, images and
films, this course will introduce the rich and layered diversity of Hindu
traditions as well as provide exposure to the methods and theories of
Religious studies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
REL 301. Ancient Greece. 3 Credit Hours.
Greek civilization from the Late Bronze Age to the end of Greek independence at the battle of Chaeronea in 338 B.C.E.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

REL 302. The Hellenistic Age. 3 Credit Hours.
Conquests of Alexander the Great and the spread of Greek culture in the Near East under Alexander’s successors until the death of Cleopatra in 31 B.C.E.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 303. The Roman Republic. 3 Credit Hours.
Roman civilization from the establishment of the Republic until the Battle of Actium in 31 B.C.E.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

REL 304. The Roman Empire. 3 Credit Hours.
Roman civilization from the reign of Augustus in 27 B.C.E. to the Fall of Rome in 476 C.E.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 305. The Ancient Near East: Religion and Culture. 3 Credit Hours.
Historical and cultural forces in the major religions of the ancient Near East, from 3000 to 300 B.C.E. Cultural achievements such as the Epic of Gilgamesh, the pyramids and the Bible.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 306. Religion and Culture in Ancient Egypt. 3 Credit Hours.
A survey of religion and culture in Ancient Egypt from pre-dynastic times to the Roman era.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 307. Religion and Culture in Pre-Islamic Arabia. 3 Credit Hours.
A survey of religion and culture in Arabia from prehistory to the coming of Islam.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

REL 308. The Greco-Roman Context of Early Christianity. 3 Credit Hours.
An examination of a range of first-century CE practices and texts that informed the lives of the people we now call early Christians. Emphasis will be given to the historical, moral psychological, political, religious, rhetorical, archaeological and social contexts of early Christianity. From practices like animal sacrifice, to discourses on the role of the gods in human activity, we will consider what aspects of Greco-Roman religion Christianity adapted or rejected. We will also discuss how people conducted their daily lives, and how they understood larger issues such as how the body worked, the significance of gender, morality and philosophy and how these discourses are reflected in the early theology of the Jesus movement.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 309. Israel and the Bible. 3 Credit Hours.
A survey of the Hebrew Bible, including both the Hebrew text and the wider historical, cultural, and social context of the biblical tradition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 310. Prophecy in the Hebrew Bible. 3 Credit Hours.
An examination of the prophetic tradition in the Hebrew Bible, focusing on the historical, cultural, and theological context of the prophetic literature.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 311. Prophecy and Prophetic Literature in the Hebrew Bible. 3 Credit Hours.
Prophecy in ancient Israel and Judah and the prophetic literature of the Hebrew Bible in relation to its ancient Near Eastern historical, religious, and social context.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 312. The Torah and Ancient Law. 3 Credit Hours.
The first five books of the Hebrew Bible (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) in relation to their ancient Near Eastern historical, cultural, and religious context.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

REL 313. Jewish Mysticism. 3 Credit Hours.
A survey of the major ideas and texts dealing with Jewish Mysticism (Kabbalah, Hasidism).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 314. The Rise of Judaism. 3 Credit Hours.
The history and literature of early Judaism, covering the period from the fall of Jerusalem in 587/586 BCE to the beginnings of rabbinic Judaism and the formation of the Mishnah (ca.200 CE).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 315. Transfer Credits. 1-4 Credit Hours.
Courses taken at other institutions with no direct equivalents (Religious Literature or Texts subject area).
Components: LEC.
Grading: GRD.

REL 316. Jesus and the Gospels. 3 Credit Hours.
An examination of the Jesus tradition, focusing on the formative period of the first two centuries. Special emphasis on the four New Testament Gospels, with a survey of the treatment of Jesus in other documents, both Christian and non-Christian.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 317. The Apostle Paul: Letters, Controversies, and Philosophy. 3 Credit Hours.
The heritage, writings, and legacy of the apostle Paul. Careful analysis of the Pauline corpus (especially Romans), with particular attention given to the radically different interpretations of Paul in both ancient and modern thought.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 318. The Bible and Modern Film. 3 Credit Hours.
The diverse ways in which contemporary cinematic arts interpret and depict narratives from the Bible and the ancient Mediterranean world.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.
REL 325. Jesus in Myth and History. 3 Credit Hours.
Changing concepts of Jesus in Western culture, as they emerge in literature, art, and films.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

REL 326. The Bible in History. 3 Credit Hours.
The use of key biblical texts in the history of Christianity. First, it gives general attention to the ways in which Christians have understood the Bible through two thousand years of history. Second, it explores the relationship between the Bible and important historical developments in Christianity with close attention to particular episodes. We seek to answer the question of why biblical texts lie dormant or are largely ignored and then spring to life, become the focus of attention, and transform the way people think and live.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 330. Caribbean Religion. 3 Credit Hours.
Caribbean Religion with an emphasis on African Diaspora and Creole religions. The religious traditions we will cover include: Rastafarianism, Regla de Ocha (Santeria), Voodoo, Espiritismo, Regla de Palo, and Obeah.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

REL 331. Religions of Asia. 3 Credit Hours.
The major religions of South and East Asia including Hinduism, Buddhism, Confucianism, Taoism, and Shinto.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 332. Judaism, Christianity, and Islam. 3 Credit Hours.
Completes the study of world religions begun in REL 331, but emphasizes the religions of the West. Religions studied: Zoroastrianism, Sikhism, Judaism, Christianity, and Islam. May be taken without having had REL 331.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 334. The American Jewish Experience: Hollywood and Popular Culture. 3 Credit Hours.
Analysis and interpretation of the image of the Jew and the Jewish experience in American cinema, with emphasis on how the experience and attitudes of Americans in general and the American Jewish community in particular have been reflected on the screen from the pre-World War II period until the present and on the tension between maintaining an ethnic identity and assimilating.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 335. American Religion in Modern Film. 3 Credit Hours.
A study of the role of religion (primarily Christianity) in popular culture and the way in which religion becomes the vehicle for aesthetic, social, political, and other cultural purposes. Exploration of contemporary American religious life with special attention given to groups and issues depicted through the medium of film. We focus on how film uses religion rather than on how religion uses film. That is, we analyze how mainstream movies (both directly religious and essentially secular) appropriate religious imagery and themes, rather than how religions use film to communicate their beliefs and practices.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 336. The American Encounter with Asian Religions. 3 Credit Hours.
A study of inter-cultural interaction and inter-religious encounter focusing on the history of American responses to Asian religions from 1784 to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 339. Transfer Credits. 1-4 Credit Hours.
Courses taken at other institutions with no direct equivalents (Religious or Historical Traditions subject area).
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

REL 341. Modern Religious Thought I. 3 Credit Hours.
The main currents and major figures in Western religious thought from the beginnings of the Enlightenment to the middle of the nineteenth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 342. Modern Religious Thought II. 3 Credit Hours.
Western religious thought from the middle of the nineteenth century to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 343. Saints and Sinners: Introduction to Catholicism. 3 Credit Hours.
This course considers contemporary forms of Catholic piety, social ethics, political action, and theology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
REL 345. Religion and Gender. 3 Credit Hours.
Examination of what we know about the lives of woman (and men) from the classical period through modernity, with an emphasis on sexuality and gender in ancient Greece and Rome. Using cross-cultural analysis and a variety of ancient literature, scholarship and material culture, together we will reconstruc and (re)examine the socio-cultural environments and practices that have fostered Western discourses on sexual difference and gender identity over time, paying particular attention to how religion and religious practices are integral to understandings of the natural world, natural law and the self. Some of the questions we will ask include: What does it mean to be male or female? What can we discover about ourselves from the way(s) we have sex? How are all these things related to life, love, power?
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 347. Experiencing Religion: Conversion. 3 Credit Hours.
The phenomenon of religious conversion from a multi-disciplinary (anthropological, historical, psychological, sociological) perspective in a variety of religious traditions, which address the following questions: What is religious conversion? What are the factors that make religious conversion viable for some people? How do we describe, explain, and evaluate religious conversion? Special emphasis is given to the history of Christian conversion.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 348. Reformation Europe. 3 Credit Hours.
The religious, political, cultural, social, and economic forces that produced a schism in 16th-century Western Christendom. Note: May be taken for credit in only one department as REL 348 or HIS 328.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 349. All Roads Lead to Rome: A Multi-Disciplinary Approach to Religion and Rome. 3 Credit Hours.
This course examines Rome’s role as importer, exporter, cultivator, and transformer of religion and the religious life, giving attention to both the past and the present. Students will increase their awareness of the important elements of the major religions discussed in class—their myths, symbols, rituals, doctrines, moral codes, and artistic expressions—and the ways in which Rome has influenced them.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 350. Current Issues in Religion. 3 Credit Hours.
Individual study and group discussion of the relevance of religion to contemporary issues such as race conflict, women’s rights, intermarriage, refugees, media, prejudice, and counter culture groups.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 351. Death and Dying. 3 Credit Hours.
For as long as we have documented history on the subject, human beings have debated issues about what it means to be mortal, what it means to live well, how to die well and whether death is truly the end of life. This course surveys discourses about death and death rituals from the ancient Mediterranean (ancient Egypt, Greece and Rome) to the present day. Some of the issues we will discuss include (but are not limited to): the history of certain perspectives on illness, death and burial; the relationship between organized religious systems and death and dying; personhood; theology; euthanasia; suicide; and the afterlife.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

REL 352. Religion and Science. 3 Credit Hours.
The religious and ethical issues created by modern science and technology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 353. Religion and American Politics. 3 Credit Hours.
Religious and ethical issues at debate in the American political scene.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 354. Religion and the Problem of Evil. 3 Credit Hours.
Major religious perspectives on the origin and nature of evil and human suffering.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 355. Religion and Its Interpreters. 3 Credit Hours.
Nineteenth and twentieth century Western interpretations of religion including anthropological, sociological, psychological, theological, literary, and feminist approaches.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 356. Myth and Religion. 3 Credit Hours.
How humans use language to form and communicate conceptions of reality, focusing on the highly elusive concept ‘myth’; special attention to the concept’s usefulness for thinking about religion.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 357. Gender, Power, Gods. 3 Credit Hours.
The relationship between sex, gender, and ethics in Judaism, Christianity, Islam and Hinduism. Topics covered include feminism, race and ethnicity, homosexuality, transsexuality, and masculinity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
REL 359. Transfer Credits. 1-4 Credit Hours.
Courses taken at other institutions with no direct equivalents (Religious Issues or Problems subject area).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 358. The Color of God: Race and Religion. 3 Credit Hours.
This course will examine the role of race and ethnicity within the discipline of religious studies. We will emphasize the manner in which racial and ethnic identity have contributed to religious identity, and the way in which religion has functioned within the struggles of racially and ethnically marginalized peoples. This course will focus on the Americas and draw from diverse racial, ethnic, and religious traditions.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 360. Religion and Bioethics. 3 Credit Hours.
The implications of religious thought for contemporary problems of biomedical ethics.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 361. Religion and Youth in Contemporary America. 3 Credit Hours.
An interdisciplinary examination of the role of religion in the lives of teenagers and college students in contemporary America.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 362. The Sanctity of Life: Selected Themes From the Ancient World to the Present. 3 Credit Hours.
This course examines the religious foundation of the idea that human life is "sacred" and considers a wide range of historical and ethical issues associated with this central concept of Western thought. It explores the meaning of the multi-faceted phrase "sanctity of life," including its implications for such ethical and legal concerns as conception, birth, and termination of life; human dignity and human rights; the quality of life; and social justice. Some of the issues considered will include bigotry and prejudice; economic and social injustice; euthanasia, infanticide, and suicide; genocide, holy war, jihad, terrorism, and violence; health care and its cost; human trafficking and slavery; martyrdom and self-martyrdom; social-stratification; aging, death, disposal of the body; and the afterlife, especially in Dante's Inferno. We will examine how "life" is defined and described in different cultures at different times in history, and how various religions have influenced these matters.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 363. Religion and Science Fiction: Dystopia, Faith, and the Future. 3 Credit Hours.
Issues surrounding "dystopia" and religion. We will study sustainability movements, authentic vs. synthetic nature, bioethics, technology, and their effects on modern spirituality and the future of religion. In order to discuss these topics, we will examine the intersections between the cultural significance of various dystopic science fiction novels, short stories, video games, television shows, and films with religion.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 364. Spiritual Healing in the Americas from Controversy to Cure. 3 Credit Hours.
Miraculous and nonmedical healing is often accused of being superstitious and bogus, particularly when it comes in conflict with scientific knowledge, biomedical practices, and government regulation. In spite of this religious healing today has garnered increasing visibility and legitimacy. This course explores an interdisciplinary discussion of religious healing in the Americas with an emphasis on healing practices in numerous religious traditions and controversies surrounding faith healing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 370. Islam in the Modern World. 3 Credit Hours.
Islam's encounter with the west, the impact of modernization on the Muslim World, and the rise of Islamic Fundamentalism. Islam in America and the Afro-American Islamic movements will also be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 371. Women, Gender, and Islam. 3 Credit Hours.
An examination of issues related to women and gender with an emphasis upon themes pertaining to the Muslim world. We will study the contributions of progressive/feminist Muslim writers in addition to secular academic research on the subject. Topics include Qur'anic revelations concerning women; gendered ideals that developed after the founder's death; understanding how Islamic texts, rituals, and doctrines have both reinforced and challenged certain gender categories; and the experience of Muslims living in the U.S. and the Middle East, addressing racial as well as gendered hierarchies.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 372. Islam and the United States: The Politics of Race, Media, and Terrorism. 3 Credit Hours.
A critical review of the cultural and political history of U.S. relations with various Muslim communities both domestic and foreign. Major themes include the experience of Muslims in North America, xenophobia, racism, national security, law enforcement and violence.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 375. Democracy and Religion in Israel and Palestine. 3 Credit Hours.
Israel's evolution as a nation and a society by focusing on the impact of religion on ethnicity, culture, and democracy.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 376. Shi'ism: Religion, Culture, and History. 3 Credit Hours.
The religious, cultural, and historical aspects of Twelver Shi'ism. The course has a film component.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
REL 377. Sufism: Islamic Mysticism. 3 Credit Hours.
The doctrines, practices, teachings, and history of Sufism, the mystical dimension of Islam.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 378. Religion and Civic Engagement. 3 Credit Hours.
The role of religion within civic engagement, the manner in which religion is a driving force behind civic engagement in the United States. Issues that will be covered include: immigration, gender, law, youth, religious pluralism, and racism. Emphasis will be placed on the relationship between critical thinking and concrete action, as well as the intersection of belief and social transformation. This is a service-learning course that will integrate course material with student service placements. Students will be required to do service learning throughout the semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 380. Holy Bones, Sacred Stones: Archaeology of Early Judaism. 3 Credit Hours.
The post-exilic Jewish community from the Persian period until the Bar Kokhba Revolt (539 BCE to 135 CE). The emphasis will be major archaeological contributions from the Persian period to the Roman imperial period, but particularly the late Hasmonean and Herodian kingdoms that resulted in the transformation of Judaism and the emergence of Christianity. The aim of the course is to acquaint you with the method and theory used in interpreting material culture including comparative, contextual and problem-oriented approaches currently used in Near Eastern archaeology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 383. Activist Bodhisattvas: Buddhist Ethics and Social Engagement. 3 Credit Hours.
One of the most important developments in modern Buddhism has been the turn toward social engagement and activism. Across Asia and beyond, Buddhist organizations and movements have emerged that consider improving society to be an intrinsic Buddhist concern alongside the classic focus on perfecting the self. Where does this development come from? To what degree is it a departure from previous tradition? How do these movements reconceptualize and rearticulate Buddhist teachings and practices to address the problems of their societies and the global community? What perspectives does socially engaged Buddhism offer to others movements seeking to address the ills of our time? This course will explore these question through a consideration of selected examples drawn from several Buddhist traditions.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 384. Karma. 3 Credit Hours.
Karma is one of the most central doctrines of Buddhism and by far the most viral. Through lip jars, pop songs, and TV shows, the concept has become familiar to many. But what is karma? How does it work? What does it mean to live in a karmic universe? This course will examine these questions through a consideration of Buddhist doctrine, ritual, ethics, and narrative.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 388. Living Stories: Narrative in Asian Traditions. 3 Credit Hours.
In popular culture, Asian religions are referred to as ‘Eastern Philosophy.’ Yet, philosophical doctrine is only one part of Asian religious traditions and for many not the most prominent. Oftentimes narrative, key stories or modes of storytelling, occupies a more central role. But what is that role? How do narratives transmit religious ideas and values and inform ritual life? How do they evolve over time? And how do religious individuals and communities drawn upon them to work in the world? This course will address these questions through a focus on a few narratives selected from Asian religions, such as Hinduism, Buddhism, and Confucianism. We will attend to these stories as living phenomena that evolve over time and play a vital role in their communities and also as something that those communities live with as they make their way through the world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 391. Bollywood and Beyond: Religion, Gender and Politics in South Asian Film. 3 Credit Hours.
Themes in Indian society through the lens of Indian cinema – both Bollywood and the regional film industry. The course consists of five modules each lasting between two to three weeks. Module one will situate and frame the entire semester’s readings with a discussion of a brief history of Bollywood and regional cinema, their respective reach, influence and limits in framing, valorizing or even critiquing societal and cultural norms. Each subsequent module will open to lecture and discussion with the screening of either a Bollywood film (often an excerpt), regional cinema or a documentary. The important themes that will be covered in the four modules will relate to a) the significance, centrality, fluidity and perversion of caste in Indian society; b) the multiple cinematic and popular representations and framing of the religious epic - the Ramayana. Using multiple visual and textual narratives of the Ramayana we will discuss the place of myths in the construction of politics and society; c) issues of gender and sexuality - studying the shaping of celluloid goddesses and real lives of women, consumption of sex, queering of it and its depiction in film and reception in society; d) Colonial and post-colonial engagement with modernity in India – through the lens of the nation state and its women, as well as the nation and its ’others’: identity politics based on religious exclusivity, communal and secular anxieties in modern India; and e) Diaspora identities and cultural appropriation of Bollywood cinematic frames and references outside India.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

REL 401. Supervised Reading in Religious Literature or Texts. 1-3 Credit Hours.
Independent study to enable students to read extensively in an area of personal interest in religious literature or texts.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

REL 402. Supervised Reading in Religious or Historical Traditions. 1-3 Credit Hours.
Independent study to enable students to read extensively in an area of personal interest in religious or historical traditions.
Components: THC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
REL 403. Supervised Reading in Religious Issues or Problems. 1-3 Credit Hours.
Independent study to enable students to read extensively in an area of personal interest in religious issues or problems.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 404. Special Topics in Religious Literature or Texts. 3 Credit Hours.
Selected topics in religious literature or texts.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 405. Special Topics in Religious or Historical Traditions. 3 Credit Hours.
Selected topics in religious or historical traditions.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 406. Special Topics in Religious Issues or Problems. 3 Credit Hours.
Selected topics in religious issues or problems.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 407. Special Projects in Religious Literature or Texts. 3 Credit Hours.
Selected projects in religious literature or texts.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 408. Special Projects in Religious or Historical Traditions. 3 Credit Hours.
Selected projects in religious or historical traditions.
Components: DIS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 409. Special Projects in Religious Issues or Problems. 3 Credit Hours.
Selected projects in religious issues or problems.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 419. Transfer Credits. 1-4 Credit Hours.
Courses taken at other institutions with no direct equivalents (Religious Literature or Texts subject area).
Components: LEC.
Grading: GRD.

REL 439. Transfer Credits. 1-4 Credit Hours.
Courses taken at other institutions with no direct equivalents (Religious or Historical Traditions subject area).
Components: LEC.
Grading: GRD.

REL 450. Psychology of Religion. 3 Credit Hours.
Contemporary psychological theory and research on religious belief, experience, and behavior. Topics include the biological bases of religion, religious development, and the links of religion to health and well-being.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 451. Ethics and Genetics. 3 Credit Hours.
Pressing social, ethical, and legal issues raised by our constantly increasing knowledge of genetics, and the applications of this knowledge already available or being proposed. Access to and use of personal genetic information; race and genetics; the diagnosis and treatment of inherited diseases; new modalities of healthcare delivery becoming available through genetics; the current state of stem cell research; genetically modified animals and plants as sources of food, medicines, and fuel; and the use of genomics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 459. Transfer Credits. 1-4 Credit Hours.
Courses taken at other institutions with no direct equivalents (Religious Issues or Problems subject area).
Components: LEC.
Grading: GRD.

REL 491. Sr. Honors Thesis. 3 Credit Hours.
Directed honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 492. Sr. Honors Thesis II. 3 Credit Hours.
Directed honors thesis.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

REL 499. Method and Theory in the Study of Religion. 3 Credit Hours.
An examination of central issues and texts in the academic study of religion, with special focus on the rise of the discipline, its axioms, and its several schools of interpretation.
Requisite: Must be in a Plan of Religious Studies or Religious Studies and Health Care.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 501. Supervised Reading in Religious Literature or Texts. 1-3 Credit Hours.
Independent study to enable students to read extensively in an area of personal interest in religious literature or texts.
Components: THI.
Grading: GRD.

REL 502. Supervised Reading in Religious or Historical Traditions. 1-3 Credit Hours.
Independent study to enable students to read extensively in an area of personal interest in religious or historical traditions.
Components: THI.
Grading: GRD.

REL 503. Supervised Reading in Religious Issues or Problems. 1-3 Credit Hours.
Independent study to enable students to read extensively in an area of personal interest in religious issues or problems.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
REL 505. Seminar in Ancient Studies. 3 Credit Hours.
Various topics in Greek and Roman Studies.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 510. Seminar in Hebrew Bible and Ancient Judaism. 3 Credit Hours.
Selected topics in Hebrew Bible and Ancient Judaism.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 520. Seminar in New Testament and Early Christianity. 3 Credit Hours.
Selected topics in New Testament and Early Christianity.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 530. Seminar in Religious or Historical Traditions. 1-3 Credit Hours.
Selected topics in religious or historical traditions.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 550. Seminar in Religious Ethics. 3 Credit Hours.
Selected issues in religious ethics and their social implications.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 560. Seminar in Contemporary Religious Issues. 1-3 Credit Hours.
Selected topics in contemporary religious issues.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 601. Supervised Reading in Religious Literature or Texts. 1-3 Credit Hours.
Independent study to enable students to read extensively in an area of personal interest in religious literature or texts.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 602. Supervised Reading in Religious or Historical Traditions. 1-3 Credit Hours.
Independent study to enable students to read extensively in an area of personal interest in religious or historical traditions.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

REL 603. Supervised Reading in Religious Issues or Problems. 1-3 Credit Hours.
Independent study to enable students to read extensively in an area of personal interest in religious issues or problems.
Components: THI.
Grading: GRD.

Grading: GRD.
Typically Offered: Fall & Spring.

RST 612. Responsible Conduct of Research. 0 Credit Hours.
Components: DIL.
Grading: GRD.
Typically Offered: Fall & Spring.

RST 720. Research Ethics. 3 Credit Hours.
Course focuses on topics related to what is sometimes called the ‘responsible conduct of research’ (RCR). It covers the landscape of scientific integrity - both the principles and day-to-day practicalities of research ethics. The course is inter-disciplinary in its approach. Readings and other materials used as part of the course draw on the examples from many academic fields, and are in tended to have application to any academic or professional area of study in which research is conducted.
Components: THI.
Grading: SUS.
Typically Offered: Fall.

RSMAS General (RSM)

RSM 500. Research Diving Techniques. 3 Credit Hours.
This course is designed to introduce students to the practices and policies of scientific diving. The objective is to prepare students to use SCUBA as a research tool for the marine sciences. The course content will qualify students as scientific divers under the auspices of the UM/RSMAS Scientific Diving Program and will meet the standards set by the American Academy of Underwater Sciences (AAUS). Students must be certified as a recreational diver with a RSTC recognized certification agency; have a minimum of 10 logged open water dives, two dives within 6 months of starting the course; pass a swim test and complete a physical exam.
Requisite: Senior Standing.
Components: LEC.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

RSM 513. Statistical Modeling of Extreme and Rare Events. 3 Credit Hours.
The course will focus on rare events and extreme values observed in nature. In particular, students will learn: advanced statistical methods of data analysis, as well as concepts of probability and predictability; statistical modeling of rare and extreme events; and applications of these advanced techniques to real atmospheric and oceanic data.
Must have taken RSM 512/RSM 612 or equivalent; or calculus; or permission from instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RSM 520. Climate and Society. 3 Credit Hours.
This course is designed to provide students from different disciplinary backgrounds with an overview of physical processes, general concepts and policy debates surrounding climate issues.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RSM 521. Object-Oriented Programming and Agent-Based Modelling. 3 Credit Hours.
Hands-on training in object-oriented programming using Java, including Java statistical packages, and in the development of agent-based and individual-based simulation models for ecological, physiological, social, economic and physical sciences.
The course includes introductions to cellular automatons and models based on social and behavioral networks.
No prior programming experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RSM 546. Presentation Boot Camp. 1 Credit Hour.
This course focuses on presenting scientific concepts and research findings more effectively to both technical audiences and the general public.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

RSM 547. Methods for Marine and Atmospheric Education. 3 Credit Hours.
This course focuses on curriculum and instructional methods for teaching marine and atmospheric content in formal and informal settings. The course will introduce students to recent national science and engineering, climate, and ocean education standards and best curricula and instructional approaches for teaching and learning science.
The course will also focus on identifying and analyzing research on marine and atmospheric education and effectively communicating scientific topics to different audiences.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
RSM 548. Management and Leadership in Marine and Atmospheric Science. 3 Credit Hours.
The goal of this course is to become an effective leader/manager while leveraging the individual strengths of a team in the marine and atmospheric field. The course will use leadership theories and case studies to understand how decisions affect outcomes. Students will develop the ability to manage teams effectively amidst a changing world. Students discuss literature and case studies to explore the foundations of effective leadership and support task triage, decision-making, shared mental models, and appropriate executive styles. The course will introduce students to recent national science and engineering, climate, and ocean standards and best approaches when it comes to managing a staff in the marine and atmospheric sciences. The course will also focus on identifying and analyzing marine and atmospheric leadership and effectively communicating scientific topics to different audiences.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RSM 565. Fish Ecology and Oceanography. 3 Credit Hours.
This course is intended to introduce students to key biological, ecological, oceanographic, and climatic processes of direct relevance to fishery species, with a view toward development of an ecosystem perspective. Required course to fishery species, with a view toward development of an ecosystem perspective. Required course to fishery species, with a view toward development of an ecosystem perspective.
Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

RSM 566. Polar Science. 3 Credit Hours.
The course covers the physical, chemical and biological components of the polar oceans, atmosphere and coastal regions. The interactions between ocean, ice, atmosphere and land are discussed in detail not only in terms of local relationships, with links to the climate system.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

RSM 567. Motorboat Operator Certification Course. 1-2 Credit Hours.
The MOCC course was developed and formalized by the United States Department of the Interior in the early 1990’s. This course is designed to give students broad academic knowledge and practical training running small boats (boats 26’ in length or shorter). In addition to the relevant theory, students will get hands-on training running small boats, launching and loading at boat ramps, slow and high speed maneuvering, marlinspike (knot tying), as well as in water emergency training and the use of flares and pyrotechnics. The MOCC certification is the training standard for occupational small boating and used by government agencies; have a minimum of 10 logged open water dives, two dives within 6 months of starting the course; pass a swim test and complete a physical exam.
Components: LEC.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

RSM 568. Techniques in Respirometry, Swim Performance and Behavior of Aquatic Organisms. 2 Credit Hours.
The objectives of this course is to give participants an understanding and overview of methods and hands-on with modern equipment. The emphasis of the course will be on marine fish, but the techniques can be used for freshwater fish and aquatic invertebrates as well. The course is based on lectures, lab exercises and plenary discussions. The final part of the course constitutes a written project based on data collected during the week.
Requisite: Senior Status and Prerequisite: BIL 160.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

RSM 571. Special Topics. 1-4 Credit Hours.
Lectures and research projects in special topics related to Marine and Atmospheric Science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

RSM 572. Special Topics. 1-4 Credit Hours.
Lectures and research projects in special topics related to Marine and Atmospheric Science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

RSM 573. Special Topics. 1-3 Credit Hours.
Lectures and research projects in special topics related to Marine and Atmospheric Science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

RSM 600. Research Diving Techniques. 3 Credit Hours.
This course is designed to introduce students to the practices and policies of scientific diving. The objective is to prepare students to use SCUBA as a research tool for the marine sciences. The course content will qualify students as scientific divers under the auspices of the UM/RSMAS Scientific Diving Program and will meet the standards set by the American Academy of Underwater Sciences (AAUS). Students must be certified as a recreational diver with a RSTC recognized certification agency; have a minimum of 10 logged open water dives, two dives within 6 months of starting the course; pass a swim test and complete a physical exam.
Components: LEC.
Grading: SUS.
Typically Offered: Fall & Spring.

RSM 611. Principles of Mass Spectrometry and Applications to Marine, Atmospheric, and Environmental Science. 3 Credit Hours.
This course goes in depth into the principles and uses of mass spectrometry. It is intended for graduate students who use mass spectrometry to conduct their research. Concepts taught will include the components of mass spectrometers (vacuum systems, ionization methods, mass analyzers, detectors), different types of mass spectrometers and their uses, and coupling chromatography to mass spectrometry. Each student will be required to give presentations on new advances in mass spectrometry and an in-depth presentation on a mass spectrometer that they use and new findings in the literature relevant to their technique and personal research.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
RSM 612. Statistics for Marine Scientists. 3 Credit Hours.
This course covers statistical theory, tools, and methods required for data analysis, emphasizing marine science applications.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

RSM 613. Statistical Modeling of Extreme and Rare Events. 3 Credit Hours.
The course will focus on rare events and extreme values observed in nature. In particular, students will learn: advanced statistical methods of data analysis, as well as concepts of probability and predictability; statistical modeling of rare and extreme events; and applications of these advanced techniques to real atmospheric and oceanic data.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RSM 615. Marine Tourism and Conservation. 3 Credit Hours.
This course introduces students to critical concepts in the practice and management of marine tourism, and explores the potential of tourism to contribute to marine conservation across different geographical locations and taxa. Discussion, readings, and lectures encourage students to draw connections between the biology and ecology of organisms and ecosystems and existing human-environment relationships. We also consider the social context in which tourism is occurring, and how this may shape the success or failure of tourism operators in contributing to conservation. This course will also explore questions about “consumptive” and “non-consumptive” uses of marine resources. Discussion will evaluate both the potential and the limitations of marine tourism as a tool for environmental protection.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RSM 620. Climate and Society. 3 Credit Hours.
This course is designed to provide students from different disciplinary backgrounds with an overview of physical processes, general concepts and policy debates surrounding climate issues.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RSM 621. Object-Oriented Programming and Agent-Based Modelling. 3 Credit Hours.
Hands-on training in object-oriented programming using Java, including Java statistical packages, and in the development of agent-based and individual-based simulation models for ecological, physiological, social, economic and physical sciences. Course includes introductions to cellular automata and models based on social and behavioral networks. No prior programming experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RSM 622. Data Management for Scientists. 2 Credit Hours.
This course will cover techniques used in data profiling, filtering, and archiving. Online tools will be used for elaborating data management plans and well-established database techniques for manipulating data. Participants will develop data management plans and introduce techniques for data manipulation, such as database design and implementation concepts, query coding, and data cleaning/importing/exporting. Course participants will be exposed to theoretical concepts and engage in hands-on activities throughout the semester. Participants are encouraged to bring their own data for processing or asked to select a dataset from the many online data repositories.
Components: LEC.
Grading: SUS.
Typically Offered: Fall.

RSM 645. Science Communication: Professional Writing. 1 Credit Hour.
This course introduces students interested in scientific research to various techniques for processing and presenting research data and information. Students will learn techniques to effectively present research to the general public and to the scientific community in written form, such as research papers, grant proposals, conference presentations and fact pages.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

RSM 646. Presentation Boot Camp. 1 Credit Hour.
This course focuses on presenting scientific concepts and research findings more effectively to both technical audiences and the general public.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

RSM 647. Methods for Marine and Atmospheric Education. 3 Credit Hours.
This course focuses on curriculum and instructional methods for teaching marine and atmospheric content in formal and informal settings. The course will introduce students to recent national science and engineering, climate, and ocean education standards and best curricula and instructional approaches for teaching and learning science. The course will also focus on identifying and analyzing research on marine and atmospheric education and effectively communicating scientific topics to different audiences.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
RSM 648. Management and Leadership in Marine and Atmospheric Science. 3 Credit Hours.  
The goal of this course is to become an effective leader/manager while leveraging the individual strengths of a team in the marine and atmospheric field. The course will use leadership theories and case studies to understand how decisions affect outcomes. Students will develop the ability to manage teams effectively amidst a changing world. Students discuss literature and case studies to explore the foundations of effective leadership and support task triage, decision-making, shared mental models, and appropriate executive styles. The course will introduce students to recent national science and engineering, climate, and ocean standards and best approaches when it comes to managing a staff in the marine and atmospheric sciences. The course will also focus on identifying and analyzing marine and atmospheric leadership and effectively communicating scientific topics to different audiences.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Spring.

RSM 649. Advanced Presentation Boot Camp. 1 Credit Hour.  
This follow-up course builds upon the topics and approaches covered in the basic training session and focuses on advanced techniques for designing and delivering effective scientific presentations to both technical audiences and the general public. The course provides opportunities for students to expand and practice their critique language and hone their presentation evaluation and design skills.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Spring.

RSM 650. Data Management in the Research Environment. 2 Credit Hours.  
This course covers theoretical and practical approaches to research data management in academic contexts. Theoretical aspects include overviews of information science, data policy and data governance. The practical approaches include skills and best practices in research data management, and basic command line computing for data analysis and visualization (python and R). The purpose of the course is to increase research productivity, to enable data stewardship, and to help the student exceed data management expectations/requirements in the research environment. This is a practical methods course with tangible products; students produce a data management plan for their specific research endeavor, or prepare and deposit data into a discipline specific repository (other projects subject to instructor approval will be considered). The class is open to all graduate students in all disciplines. There are no prerequisites and while the course is designed for the first or second year of a graduate program, students who are further along will benefit as well.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

RSM 665. Fish Ecology and Oceanography. 3 Credit Hours.  
This course is intended to introduce students to key biological, ecological, oceanographic, and climatic processes of direct relevance to fishery species, with a view toward development of an ecosystem perspective.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

RSM 666. Polar Science. 3 Credit Hours.  
The course covers the physical, chemical and biological components of the polar oceans, atmosphere and coastal regions. The interactions between ocean, ice, atmosphere and land are discussed in detail not only in terms of local relationships, with links to the climate system.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

RSM 667. Motorboat Operator Certification Course. 1-2 Credit Hours.  
The MOCC course was developed and formalized by the United States Department of the Interior in the early 1990's. This course is designed to give students broad academic knowledge and practical training running small boats (boats 26' in length or shorter). In addition to the relevant theory, students will get hands-on training trailerng small boats, launching and loading at boat ramps, slow and high speed maneuvering, marlinspike (knot tying), as well as in water emergency training and the use of flares and pyrotechnics. The MOCC certification is the training standard for occupational small boating and used by government organizations, public and private research organizations, public aquaria, etc. The certification is a marketable skill for students moving ahead in their careers in marine science. Students must have a valid U.S. driver's license and good driving record (less than 6 points) to be eligible for training in this course.  
Components: LEC.  
Grading: SUS.  
Typically Offered: Fall & Spring.

RSM 668. Techniques in Respirometry, Swim Performance and Behavior of Aquatic Organisms. 2 Credit Hours.  
The objectives of this course is to give participants an understanding and overview of methods and hands-on with modern equipment. The emphasis of the course will be on marine fish, but the techniques can be used for freshwater fish and aquatic invertebrates as well. The course is based on lectures, lab exercises and plenary discussions. The final part of the course constitutes a written project based on data collected during the week.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.

RSM 671. Special Topics. 1-4 Credit Hours.  
Lectures and research projects in special topics related to Marine and Atmospheric Science.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

RSM 672. Special Topics. 1-4 Credit Hours.  
Lectures and research projects in special topics related to Marine and Atmospheric Science.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.

RSM 673. Special Topics. 1-3 Credit Hours.  
Lectures and research projects in special topics related to Marine and Atmospheric Science.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.
**Sociology (SOC)**

**SOC 101. Introduction to Sociology. 3 Credit Hours.**
The scientific study of society and several sociological concepts, including, but not limited to: social theory, social research, social economy, social interaction, social class, social construction, gender stratification, race and ethnicity, family, and deviance. This course will help students to examine the social world around them using the sociological imagination. Students will learn how to connect research to concepts, deepening their understanding of the social world and social phenomena and develop critical thinking skills.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall, Spring, & Summer.

**SOC 103. Social Problems. 3 Credit Hours.**
Sociological theories and methods will be used to interpret data, evaluate social policies, and analyze the manner in which ideologies perceive and frame problems. This course will develop critical thinking skills necessary to assess social problems, as well as the ability to recognize, exercise, and develop one's agency to address these issues.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.

**SOC 210. Introduction to Social Research. 3 Credit Hours.**
This course provides students with an overview of the social science research process and introduces them to the various methodological strategies used by social scientists. The various steps by which research is conducted will be examined such as study design and implementation, data collection and interpretation of findings. Students will also be able to critique the strengths and limitations of difference research methodologies.

**Prerequisite:** SOC 101.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall, Spring, & Summer.

**SOC 211. Quantitative Methods for Sociologists. 3 Credit Hours.**
This course is designed to introduce students to descriptive and inferential statistics used in sociology, criminology, and other social sciences. We will cover measures of central tendency and variation, probability distributions, hypothesis testing, and bivariate techniques such as correlation and an introduction to regression.

**Prerequisite:** SOC 101, 210. **Corequisite:** 212.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**SOC 212. Quantitative Methods Lab. 1 Credit Hour.**
Statistical lab associated with SOC 211 introduces the use of computer statistical packages for analyzing quantitative data.

**Prerequisite:** SOC 101 and SOC 210 And **Corequisite:** SOC 211 or PSY 291 or PSY 292.
**Components:** LAB.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**SOC 270. Deviant Behavior. 3 Credit Hours.**
An introduction to the study of deviant behaviors. We will examine the ways in which deviance is constructed and defined. Major sociological perspectives and theories will be applied in order to understand how they aid in the formation and development of social deviance. In addition, various forms of deviant behaviors will be discussed, including: drug use, sexual deviance, violence, suicide, LGBT issues, inequality and crime. The role of social control will also be examined in terms of how it impacts the way in which deviance is understood in society.

**Prerequisite:** SOC 101.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.
SOC 271. Criminal Justice. 3 Credit Hours.
Provide students with both an introduction to the basics of the criminal justice system and a critical approach to contemporary issues in the field. We will focus on the nature of crime and how it is measured; issues in policing and law enforcement; the judicial system and legal process; sentencing; corrections; and prison life. Throughout the course we will focus on current controversies and debates, including such issues as the war on drugs, racism in the criminal justice system, violent crime rates, and incarceration rates.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 291. Special Topics. 3 Credit Hours.
Content will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 292. Special Topics. 3 Credit Hours.
This course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 293. Special Topics. 3 Credit Hours.
This course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 301. Social Organization. 3 Credit Hours.
The focus of this course is formal organizations, with an emphasis on the workplace. The topics that are discussed include theories of work, organizational paradigms, bureaucracy, impact of technology, unionization, and the new workplace. The fundamental theme is how organizational style influences productivity.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 302. Social Psychology: Sociological Perspective. 3 Credit Hours.
The influence of human groups, social processes, and social structures on behavior and self, with some attention devoted to the effect of social interaction on groups, processes, and structures. Topics of study include the development of the self, the process of social interaction, the significance of language, and the social construction of reality.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 303. Social Inequalities. 3 Credit Hours.
An overview of the sociological approach to the analysis of structured socioeconomic inequality (a.k.a. 'social stratification') in contemporary American society. This regard, emphases are placed on identifying trends, causes, and consequences of the distribution of a wide range of material (e.g. income, wealth) and symbolic (status, prestige) rewards in American society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 304. Dynamics of Poverty in the United States. 3 Credit Hours.
Examines trends in the incidence and causes of major types of poverty among the urban underclass, the homeless, migrant laborers, the working poor. Also explores policy-related solutions.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 305. Globalization and Society. 3 Credit Hours.
Concepts and theories that are currently in use to understand globalization both as a process and as a structure: social aspects and narratives of globalization, and theoretical sociological models as scaffolding for understanding many of the disparate characteristics of globalization. Globalization as it spans disciplinary division and its understanding: the emergence of novel economic forms and practices as a pivotal driving force for globalization. Human migrations and their consequences on cultural identity and diffusion, and the role of the technology in the creation and consolidation the global world. New and complex structures of socioeconomic inequality at national and at transnational levels, the disproportionately important roles that women play in these new structures of inequality, and the social forces and movements that have emerged to resist globalization or to alter it in important ways.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

SOC 306. Wealth and Poverty in Contemporary America. 3 Credit Hours.
The causes and consequences of rapidly changing patterns of concentration of socioeconomic resources, such as wealth and income in America. This changing concentration is associated with the proliferation of impoverishment and privilege in America. Analyzes macro-economic changes, demographic shifts, technological advances, and evolving ideological postures as sources of these trends.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 320. Social Epidemiology: Illness and Death in Society. 3 Credit Hours.
Social epidemiology and the sociological study of health and longevity. Specifically, this course examines the ways in which key sociological variables structure, shape, or patterns the health and longevity of the US population. This course covers several variables of sociological interest, including socioeconomic status, race/ethnicity, sex/gender, age, family status, and religion.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
SOC 321. Applied Health Policy. 3 Credit Hours.
The role of public and private institutions in health promotion, health
care delivery, and health insurance. We will explore the theoretical
and practical reasons for intervention in health-related decisions and health
care markets, the related empirical evidence, and the effects of these
interventions on health outcomes and social welfare. Students will
understand how and why government and society in general attempts to
influence health-related behaviors and health insurance markets, and the
resulting effects on individuals’ choices, expenditures, health outcomes,
and overall quality of life.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

SOC 332. Collective Behavior. 3 Credit Hours.
Classical theories, issues, and research on fads, fashions, riots, crowd
behavior, social movements and other forms of collective behavior.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 335. LGBTQ Communities. 3 Credit Hours.
Gender, race, age and class differences in the experiences of gays and
lesbians. A life-span perspective guides the course after the presentation
of some background of biological, psychological, and sociological
theories pertaining to homosexuality.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 340. Sociology of Religion. 3 Credit Hours.
Social foundations of religion, growth and change within religious
institutions and relationships of religion to other institutions.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 341. Social and Cultural Change. 3 Credit Hours.
Survey of major theories of change; analysis of the processes and
mechanisms of change. Contemporary transitions in the underdeveloped
regions of the world.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 342. Contemporary Latin American Societies. 3 Credit Hours.
Social characteristics of Latin American societies and their comparison
with North American society.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 345. Population and Society. 3 Credit Hours.
Demographic analysis of fertility, mortality, sex-age structure, migration,
urbanization and population control.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 349. The Sociology of Human Sexuality. 3 Credit Hours.
A socio-historical survey of sexual ideologies, attitudes and behavior in
human societies, with emphasis on social and biological factors.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 350. Sociology of the Family. 3 Credit Hours.
A critical investigation of the family while applying sociological theories,
perspectives, and concepts, based on current research in the field. As
the family is an important institution in social life, and one in which have
all experienced in some way, we will see that there is not ‘one’ particular
way of experiencing this institution. The various definitions and versions
of the family will be addressed historically, with an emphasis on how
they are shaped by public perception. In addition, more recent trends in
family life will be addressed, including cohabitation, marriage, divorce,
parenthood, family policy, family structure, and marginalized family types.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 351. Business and Society. 3 Credit Hours.
The influence of business objectives, values, and ethics on American
culture, moral standards, and societal institutions. A careful analysis
of the choices made by individuals, companies, and governments will
demonstrate that sensible ‘choice architecture’ can successfully nudge
people toward better decisions without restricting their freedom of
choice. Specific topics include: corporate social responsibility; ethical
issues in business; business and government in a global society;
business and public policy: the corporation and the natural environment;
business and technological change; and business relationships with
consumers and employees.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 352. Sport and Society. 3 Credit Hours.
The status position and role of sport in society. Our primary focus will
be upon delineating and analyzing sport as a major social institution in
American society. Thus our perspective will be that of the sociologist (i.e.,
critical more in analysis than in judgement) rather than that of a sports
journalist or sports fan. We shall examine both amateur and professional
sports in terms of their interlocking relationships with each other and
with other major social institutions (e.g., education, economics, and
politics) as well as their significance for promoting and maintaining
cultural values such as competition, fair play, teamwork, gender roles, and
the like. The objective is to provide students with critical assessment and
analytical skills for examining and understanding the impact of sports on
both individuals and society.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 355. Sociology of Human Sexuality. 3 Credit Hours.
A socio-historical survey of sexual ideologies, attitudes and behavior in
human societies, with emphasis on social and biological factors.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SOC 365. Internship. 3 Credit Hours.
Exposure to and insight into the operations of community non-profit or government based social service agencies. The course involves prearranged study and supervised work in a variety of organizations and institutions, affording students the opportunity to use their sociological imagination while providing a 'hands-on' sociological experience in the local community.
Prerequisite: SOC 101.
Components: DIS.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 366. Violence in America. 3 Credit Hours.
Issues relevant to the study of violence in the United States will be covered. While the emphasis throughout will be on street violence (i.e., homicide, robbery, rape, and aggravated assault), other forms (e.g., corporate violence, intimate partner violence) will also be covered. In particular, we will: examine violence in historical, international, and situational contexts, examine the major explanations of violence, and examine the factors associated with violent crime. We will also consider how we seek to control violence in the U.S.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 367. Violence in America. 3 Credit Hours.
Exposure to and insight into the operations of community non-profit or government based social service agencies. The course involves prearranged study and supervised work in a variety of organizations and institutions, affording students the opportunity to use their sociological imagination while providing a 'hands-on' sociological experience in the local community.
Prerequisite: SOC 101.
Components: DIS.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 368. Violence in America. 3 Credit Hours.
Issues relevant to the study of violence in the United States will be covered. While the emphasis throughout will be on street violence (i.e., homicide, robbery, rape, and aggravated assault), other forms (e.g., corporate violence, intimate partner violence) will also be covered. In particular, we will: examine violence in historical, international, and situational contexts, examine the major explanations of violence, and examine the factors associated with violent crime. We will also consider how we seek to control violence in the U.S.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 369. Crime and Public Policy. 3 Credit Hours.
The dimensions and causes of the crime problem in America, and the uses and limits of the criminal justice system in dealing with it. We will examine the enormous expansion of the American prison system in recent years, and ask how much it has affected the crime rate. Additionally, we will consider a variety of possible strategies for preventing or controlling so-called 'street' crime, both within the criminal justice system and beyond it-including prevention and rehabilitation programs as well as expanding social and economic opportunities. Along the way, we will pay particular attention to several controversial issues, including the death penalty, drugs, and gun control.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

SOC 370. Juvenile Delinquency. 3 Credit Hours.
Application of sociological perspectives and concepts to examine juvenile delinquency and the juvenile justice system. The course takes into account the various social factors that shape juvenile delinquency and its control, such as race, ethnicity, socioeconomic status, gender, and sexuality. In addition, students will take a critical view of the policies developed to control such behavior.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 371. Criminology. 3 Credit Hours.
The concepts of crime and criminal law, reviews several theoretical approaches to studying crime and criminal behavior, and focuses on several types of crime. In particular, it includes such topics as definitions of crime, sources of crime statistics, correlates and causes of crime, terrorism, genocide, corporate crime, and cybercrime.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 372. Criminology: Police and Community. 3 Credit Hours.
A study of policing in U.S. society. Interaction with groups and institutions. The overall objective of this course is to provide students with an understanding of the role of the police in American society. The source will focus on the sociological study of policing, not professional training to become a police officer. Students will gain a better understanding of the history of the police, their role in American society and in the American system of criminal justice. In addition, students will discuss and critique important issues and trends in modern policing
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 373. Criminology: Courts and Society. 3 Credit Hours.
The importance of the criminal courts and the impact that the criminal courts have on society. You will gain a realistic sense of what it is like to work in and be a part of the criminal justice system. The roles and responsibilities of the major courthouse players will be discussed. You will discover the challenging situations that judges must navigate as well as the difficulties that confront prosecutors and defense attorneys as they deal with victims, defendants and crushing caseloads.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 374. Criminology: Corrections. 3 Credit Hours.
Corrections in the U.S. society; philosophies of rehabilitation, punishment, and incapacitation.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 375. Sociology of Mental Health and Illness. 3 Credit Hours.
An introduction to sociological theories and research regarding the definition, experience, and treatment of mental illness.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 376. Sociology of Drug Abuse. 3 Credit Hours.
Application of sociological perspectives and concepts to examine drug use and abuse. The course examines the historical and theoretical understanding of the social causes and consequences of drug use, as well as the correlates of use and abuse. The course also takes a critical perspective of the policies developed to reduce the harms associated with drug use and abuse.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 377. Sociology of Drug Abuse. 3 Credit Hours.
Application of sociological perspectives and concepts to examine drug use and abuse. The course examines the historical and theoretical understanding of the social causes and consequences of drug use, as well as the correlates of use and abuse. The course also takes a critical perspective of the policies developed to reduce the harms associated with drug use and abuse.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SOCILOGY

SOC 380. Sociology of Gender. 3 Credit Hours.
The phenomenon of gender in society using sociological theory and research. Topics of focus include the social construction of gender, gender identity, and gender discrimination within various social institutions such as the family, the educational system, the media, the world of employment, and more.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 381. Aging in Society. 3 Credit Hours.
The aging processes, the aged and social institutions; special issues.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 382. The U.S. Jewish Community. 3 Credit Hours.
Application of minority group analysis to the U.S. Jewish community.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 383. Sociology of Education. 3 Credit Hours.
The examination and analysis of education as a major social institution.
As such, this course assesses the structure, processes, and interaction patterns within the educational system. All levels (elementary, secondary, and postsecondary), and types (public and private) of education are considered. The course also examines the impact of education on social stratification, social mobility, and socioeconomic inequality, especially along race, gender, and class lines.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 384. Medical Sociology. 3 Credit Hours.
A brief early history, methods, theory and concepts of social science research on health and health care mainly from the last half of the previous century to the present. We will explore gender, race, class, age, social and cultural differences in the experiences of individuals as they deal with health and illness across the life course. The course will provide students with a sociological analysis of a broad array of health/illness issues and the health services industry.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 385. U.S. Latinos. 3 Credit Hours.
Sociological perspectives are employed in the examination of the historical, social, economic, and cultural experiences of Latino/as in the United States.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 386. U.S. Immigration. 3 Credit Hours.
The major sociological debates in the field of immigration with an emphasis on recent immigrants to the U.S.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 387. Race and Ethnic Relations. 3 Credit Hours.
The nature and dynamics of race and ethnic relations with particular emphasis on racial and ethnic groups in the United States. We examine basic concepts and major theories in the analysis of race and ethnic relations, racial and ethnic inequality, past and recent immigration experiences, and the historical and current status of specific racial and ethnic groups. Students will also be engaged in a variety of exercises designed to develop critical assessment and analytical skills for examining and understanding issues related to race and ethnicity.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 388. The Black Ghetto in Urban Society. 3 Credit Hours.
The origin and development of the concept of ‘ghetto’ and application of this concept to both past and contemporary views of black life in America. Students are introduced to the historical and social significance of the black ghetto in the context of the larger body of literature on the ghetto phenomenon. Emphasis is placed on gaining an understanding and developing critical insight into issues and prospects for the resolution of issues related to black ghettoization.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 389. The Black Athlete in White America. 3 Credit Hours.
The impact of racism on sport in the United States with a specific focus on the Black athlete. Drawing upon the literature on race and sport in America, the course takes a historical view of the social context in which black athletes have competed and excelled in their craft against tremendous odds both inside and outside of sport competition.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 390. Directed Studies. 1-3 Credit Hours.
Individually supervised readings or research on special topics offered by arrangement with instructor.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 391. Special Topics. 3 Credit Hours.
Content will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
SOC 401. Sociological Theory. 3 Credit Hours.
The work of theorists such as Comte, Durkheim, Marx, Weber, Parsons, and symbolic interactionists. The epistemology, methodology, and social ontology is each theory is discussed, along with the social context and chief concerns of each theorist.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 410. Social Research Practicum. 1-3 Credit Hours.
Each student will work directly with a designated faculty mentor to obtain general research training, data analysis techniques, and technical writing skills. AB part of the research practicum, students will work in collaboration with their faculty mentor to prepare a journal-length research manuscript and assemble related research materials to gain practical knowledge of the scientific research process. This one-on-one experience will also enhance students' training in sociology and provide them with useful analysis and writing skills when they enter the job market.
Prerequisites: SOC 101 and SOC 210 and SOC 211 and SOC 212.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SOC 470. Theories of Deviant Behavior. 3 Credit Hours.
Various theories of causes of deviance/crime. It begins with an overview of the early classical and positivist foundations of criminological thought and then moves on to discussing more recent extensions of social disorganization, strain, control, social learning, and other contemporary theories of crime. It also covers the role of theory in scientific research, familiarizes with the foundations of current theoretical debates in criminology, and introduces the empirical research on the reviewed theories.
Prerequisite: SOC 101 and SOC 371.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SOC 480. Health Disparities in the U.S.. 3 Credit Hours.
A comprehensive examination of U.S. health disparities based on a variety of social variables, including race and ethnicity, gender, socioeconomic status, sexual orientation, and the environment. In doing so, this course will draw on theoretical perspectives from multiple disciplines to examine the relationship between social factors and health outcomes. The most pressing U.S. health disparities will be discussed and put into a historical and global context in order to identify priorities for the elimination of health disparities. After exploring the known and suspected causes of disparities in health outcomes, attention will turn to an overview of the common multi-level strategies used to reduce health disparities. Students will go away with a broad-based understanding of current health disparities issues and the ability to critically examine these issues.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 487. Race, Ethnicity, and Criminal Justice. 3 Credit Hours.
An in-depth examination of the relationships involving race, ethnicity, immigration, crime, and the criminal justice system. We will consider why these are important issues to study, how and what we know about these relationships, and how we might explain them. We will direct attention to research on defining race and ethnicity, racial and ethnic variations in criminal victimization and offending, population distributions, policing, the court system and sentencing, corrections, and the death penalty. Our approach will primarily be sociological, although where appropriate we will draw from other disciplines (e.g., political science, history, etc.) as well. Prerequisite: Six credits in Sociology.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 488. Gender and Crime. 3 Credit Hours.
Examination of gender, power, and crime, including feminist theories and the criminal justice system.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 490. Directed Studies in Sociology. 1-3 Credit Hours.
Supervised independent study on special topics. Arrangement with individual faculty.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 491. Special Topics. 3 Credit Hours.
This upper level course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 492. Special Topics. 3 Credit Hours.
This upper level course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 493. Special Topics. 3 Credit Hours.
This upper level course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 498. Senior Honors Thesis in Sociology or Criminology I. 3-6 Credit Hours.
Independent research project.
Prerequisites: SOC 101 and SOC 210 and SOC 211 and SOC 212.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
SOC 499. Senior Honors Thesis in Sociology or Criminology II. 3-6 Credit Hours.
Independent research project.
Prerequisites: SOC 210 and SOC 211 and SOC 212.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 601. Classical Sociological Theory. 3 Credit Hours.
The focus of this course is the work of Comte, Durkheim, Marx, Weber, and Parsons, along with more recent perspectives such as symbolic interactionism, phenomenology, ethnography, and critical theory.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 602. Contemporary Sociological Theory. 3 Credit Hours.
Recent developments in social theory, such as, for example, the work of Giddens, Habermas, Derrida, Bourdieu, Baudrillard, and Lyotard, along with important themes such as feminism, integration, the linguistic turn, habitus, (anti)foundationalism, and symbolic violence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 603. Special Topic: Sociology of Knowledge-Science and Technology. 3 Credit Hours.
To address the debates over the nature of social science and technology. In addition to the theoretical disputes, the applications, critiques, and politics of scientific inquiry and technology use will be the focus of attention.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 604. Proseminar in Sociology. 1 Credit Hour.
Introduction to Sociology: the research process, departmental resources, and the graduate program.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

SOC 609. Social Statistics. 3 Credit Hours.
Probability theory, descriptive statistics and tests of independence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 610. Advanced Research Methods. 3 Credit Hours.
Quantitative techniques for the measurement of theoretical constructs, the consequences of technique selection, and the relationships between method and underlying theory.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 611. Advanced Sociological Statistical Analysis I. 3 Credit Hours.
Multiple linear regression and regression diagnostics using Stata, analysis of categorical dependent variables, count dependent variables, simultaneous equations, and panel data models. Some topics may not be covered and others may be added at the discretion of the instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 612. Sociological Statistics II. 3 Credit Hours.
Advanced statistical analysis techniques covering topics such as hierarchical linear models (HLM), structural equation models (SEM), instrumental variables (IV), factor analysis, propensity score matching (PSM), and nonparametric methods. Some topics may not be covered and others may be added at the discretion of the instructor.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 613. Qualitative Research Methods. 3 Credit Hours.
In-depth introduction to qualitative, inductive methods, with emphases on grounded theory and action research. Focus on qualitative interviewing (including focus groups) and participant observation for the collection of data in naturalistic social settings, with simultaneous data analysis; qualitative methods in mixed-methods research introduced. Covers ties between methods and theory, additional basic methods used in qualitative research, and typical analytic approaches; touch on more esoteric methods; study current issues and debates relevant to this set of approaches to generating knowledge.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 614. Evaluation Research. 3 Credit Hours.
Conceptualizing, designing, conducting, and interpreting the results of evaluation research programs in health and human service agencies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 615. Class Structure and Social Stratification. 3 Credit Hours.
Theoretical and research approaches to class structure and social stratification, with a focus on the U.S. Examines the conflict perspective(s) and major alternative views including economic class, status and power, gender and race.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 616. Social Psychology: Sociological Perspectives. 3 Credit Hours.
Theories and research addressing the mutual influence between social groups and structures, on the one hand, and individual selves and behaviors, on the other. Balance emphasis between symbolic interactionist and structural approaches, with attention to additional related, yet distinct theoretical perspectives.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 617. Social Organization. 3 Credit Hours.
Examines theories of organization and work, discrimination, technology and job design, bureaucracy, productivity and organizational culture, responsible organizations, and alienation.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 620. Social Epidemiology. 3 Credit Hours.
Theories, issues and methods of study pertinent to health and illness in society. Social factors implicated in patterns of disease occurrence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SOC 622. Teaching Seminar in Sociology. 3 Credit Hours.
Pedagogical techniques for teaching sociology at the college/university level.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

SOC 632. Social Psychology of Health and Illness. 3 Credit Hours.
Social and psychological factors affecting susceptibility to illness, health related beliefs and behaviors, the doctor-patient relationship, and health care systems and patient compliance.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 635. Medical Sociology: Issues in Research and Theory. 3 Credit Hours.
Examination of health, illness, and health care from sociological perspectives. Includes social-structural, interpretive, and critical approaches, as various authors have used these to address specific issues. Phenomena to be examined range from macro (e.g. population patterns of mortality and morbidity, health care policy) to micro (e.g. the subjective experience of illness). Related theories and methodologies discussed. Focus varies somewhat by instructor and as issues emerge in the discipline.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 636. Health Diversity Across the Life Course. 3 Credit Hours.
Diversity in health across the life course from broad sociological and cross-disciplinary theoretical traditions. Key questions in medical sociology will be addressed to discover the impact of the life course processes on the health or vitality of diverse individuals and diverse populations, with a focus on inequality and the elements of time and history.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 650. Social Analysis of Race Relations. 3 Credit Hours.
The impact of race relations research on the discipline of sociology.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 651. Race Relations: Social Psychological Perspectives. 3 Credit Hours.
Social psychological perspectives on the nature, causes, and consequences of racial inequality in American society.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 652. Theories of Race and Ethnic Relations. 3 Credit Hours.
Micro- and macro-level theories of race and ethnic relations.
Components: DIS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 653. Race, Ideology, and Framing Inequality. 3 Credit Hours.
Examines the various ideologies that have emerged on the limited states to describe and, at times, resist racial inequality.
Components: LEC.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

SOC 670. Theories in Criminology and Criminal Justice. 3 Credit Hours.
Review and critique of central criminological theories. Evaluation of these theories in view of recent criminological research.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 671. Seminar on Criminology. 3 Credit Hours.
Selected issues, topics, theories, and recent research in criminology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 672. Research in Crime and Delinquency. 3 Credit Hours.
Measurement issues; effects of race, gender, age, and socio-economic status on criminality; extra-legal factors affecting criminal justice decision making.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 673. The Criminal Justice System. 3 Credit Hours.
Introduction to the U.S. criminal justice system. Topics include historical and current concepts of criminal justice, the interrelationships among the different components of the system, and the roles and functions of the system in American society. The four major areas covered include philosophies of punishment, policing, courts, and corrections.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 674. Seminar on Policing. 3 Credit Hours.
The role of the police in American society. The focus is on the sociological study of policing: the analysis and evaluation of research. Topics include the history of the police, their role in American society and in the American system of criminal justice. In addition, drawing upon current research studies, discussion and critique of important issues and trends in modern policing.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Summer.

SOC 675. Courts, Corrections and Punishment. 3 Credit Hours.
A broad overview of criminal court systems, sentencing, and corrections. Sociological, criminological, and sociolegal perspectives are drawn upon to blend both theoretical and policy perspectives in order to examine these systems critically. Particular attention will be given to the topics of racial, gender, and class disparities in criminal justice punishment. The course is organized around these themes: 1) theories of punishment and social control; 2) court organizations, actors, and sentencing 3) incarceration, and 4) other correctional populations, including probation and parole
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.
SOC 676. Seminar on Juvenile Delinquency. 3 Credit Hours.
The overall objective is to provide students with an understanding of the current research and knowledge on juvenile delinquency. Topics include the nature and extent of delinquency, the social causes of juvenile delinquency, and assess research concerning social factors leading to delinquency. In addition, students will study current thinking and research concerning the control and prevention of delinquency.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

SOC 677. Criminology and Public Policy. 3 Credit Hours.
Various issues in crime and criminal justice policy and the role of criminological theory and research in addressing them are discussed. Topics will include trends in crime rates, guns and violence, gangs, drugs and crime, policing, courts and sentencing, community corrections and offender re-entry, capital punishment, and environmental criminology. Emphasis is on understanding implications of theoretical criminology for criminal justice practice and on examining the role of scientific research and empirical evidence in addressing the issues in crime and justice. Various crime control strategies and crime prevention programs and their effectiveness and challenges to their implementation are covered. Special topics will vary by instructor.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

SOC 678. Sociological Approaches to Race, Ethnicity, and Crime. 3 Credit Hours.
The course will focus on sociological approaches to understanding the roles that race, ethnicity, and culture play in the criminal justice system. We will consider topics such as racism, discrimination, and their effects on crime and on the criminal justice system. We will examine how race and ethnicity affect the criminal justice system and how the criminal justice system affects race and ethnicity. We will also consider the role of social structure and social group processes in shaping these outcomes.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

SOC 679. Communities and Crime. 3 Credit Hours.
Examination of various aspects of the relationships between communities, crime, and crime control. Major theoretical traditions - such as social disorganization theory, routine activities theory, and broken windows - are addressed. The roles of neighborhood structure and process, and their relationships with various forms of crime and policing, are covered.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

SOC 680. Race/Ethnicity, Crime and Criminal Justice. 3 Credit Hours.
An in-depth examination of the relationships involving race, ethnicity, immigration; crime; and the criminal justice system. Topics include why these are important issues to study, how and what we know about these relationships, and how we might explain them. Attention is directed to research on defining race and ethnicity, racial and ethnic variations in criminal victimization and offending, population distributions, policing, the court system and sentencing, corrections, and the death penalty. The approach will primarily be sociological, although where appropriate other disciplines (e.g., political science, history) will be drawn on as well.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Summer.

SOC 681. Sociology of Violence. 3 Credit Hours.
Seminar on issues relevant to the sociology of violence, with a focus on street violence (i.e., homicide, robbery, rape, and aggravated assault), other forms of violence (e.g., corporate violence, family violence) will also be covered. In particular, we will examine violence in historical, international, and situational contexts, the major explanations of it, the factors associated with it, and efforts to control and prevent violence.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Summer.

SOC 682. Alcohol, Drugs, and Crime. 3 Credit Hours.
Exploration of different categories of illegal drugs and review their basic psychopharmacology, the sociological constructions of the dangers of drug use, the racialization of drug use and connections with ‘dangerous classes’ of people, and the social consequences of America’s particular brand of social control. The goals are to present these issues in all their complexity and explore some of the repercussions of addressing them in the ways that the US has chosen.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Summer.

SOC 683. Comparative Criminal Justice Systems. 3 Credit Hours.
Focus is on understanding crime and justice issues from a comparative, cross-national standpoint. Extant definitions of crime and deviance are placed in cultural contexts, existing methods of studying crime on a global scale, and various types of criminal behavior that occur in isolated group contexts as well as those crimes that transcend country boundaries are discussed. Topics will include genocide, transnational organized crime, human trafficking, and international terrorism. Criminal justice systems from select countries around the world and their responses to both localized and transnational crime are reviewed. Critical comparative analysis of crime and justice issues is emphasized. The final research paper will require integrating theory, methods, and scholarly writing using a global perspective.
Requisite: Graduate Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Summer.

SOC 690. Directed Studies. 1-3 Credit Hours.
Individually supervised readings or research on special topics. Offered by arrangement with the instructor.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 691. Special Topics and Current Issues in Medical Sociology. 1-3 Credit Hours.
Seminar topics will be announced in schedule of classes.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 692. Special Topics and Current Issues in Criminology. 1-3 Credit Hours.
Seminar topics will be announced in schedule of classes.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SOC 693. Special Topics and Current Issues in Race/Ethnic Relations. 1-3 Credit Hours.
Seminar topics will be announced in schedule of classes.
Components: LEC.
Typically Offered: Offered by Announcement Only.
Grading: GRD.

SOC 791. Graduate Internship and Paper. 6 Credit Hours.
Internships are intended to provide students with meaningful work experiences related to their professional interests. This is especially the case for students who are not yet employed in positions related to criminology and/or criminal justice. The internship period should provide the student with the opportunity to examine a criminal justice-related agency or organization, its various roles and functions, and to participate in work experiences related to that agency’s goals and purposes. The academic goal is to provide integration of theoretical concepts in criminology and criminal justice with the demands and constraints imposed within a professional work role. For students the internship represents an opportunity to achieve this integration and to acquire experience in the area in which they have been academically trained. Students who elect to take the internship and required paper will complete approximately 300 hours of work with an agency and will complete an approximately 30 page paper.

SOC 791 18 hr requirement.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SOC 810. Master’s Thesis. 1-6 Credit Hours.
The student working on his/her master's thesis enrolls for credit, in most departments not to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

SOC 820. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the thesis for the master’s degree after the student has enrolled for the permissible cumulative total in SOC 710 (usually six credits). Credit not granted. May be regarded as full time residence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. The student will enroll for credit as determined by his/her advisor, but not for more than 6 hours. Up to 6 hours may be taken in a regular semester or in a summer session.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

SOC 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. who have advanced to candidacy. The student will enroll for credit as determined by his/her advisor, but not for less than a total of 12.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

SOC 850. Research in Residence. 1 Credit Hour.
Used to establish research in residence for the Ph.D. after the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

Spanish (SPA)

SPA 101. Elementary Spanish I. 3 Credit Hours.
For students with no background or previous study of Spanish. The focus of SPA 101 is the development of communicative abilities in speaking, reading, writing, and comprehension of Spanish and an introduction to the cultural practices of the Spanish-speaking world. Themes on: university life, family, leisure activities, and professions. Includes both oral and written assignments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish. Not open to students who have completed 2 or more years of high school Spanish. Closed to heritage and native speakers of Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 102. Elementary Spanish II. 3 Credit Hours.
Continuation of SPA 101. The development of communicative abilities in speaking, reading, writing, and comprehension of Spanish and an introduction to the cultural practices of the Spanish-speaking world. Themes on: childhood and adolescence, university life, home and community, food and lifestyle, and environmental issues. Includes both oral and written assessments of grammatical structure and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 105. Accelerated Elementary Spanish. 3 Credit Hours.
For students with previous study of Spanish needing to review material covered in SPA 101 and 102 in preparation for continued study of Spanish at the intermediate level. The focus of SPA 105 is the continued development of communicative abilities in speaking, reading, writing, and comprehension of Spanish and an introduction to the cultural practices of the Spanish-speaking world. Themes on: university life, family, leisure activities, and professions, childhood and adolescence, home and community, food and lifestyle, and environmental issues. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 107. Basic Spanish for Heritage Learners. 3 Credit Hours.
Designed for students with little or no prior instruction in Spanish who, because of family background or social experience, can understand some casual spoken Spanish and have a passive knowledge of the language, but do not speak the language themselves. Focus on developing basic speaking, reading, and writing abilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
SPA 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

SPA 201. Intermediate Spanish I. 3 Credit Hours.
For students with previous study of Elementary-level Spanish. The focus of SPA 201 is the continued development of communicative abilities in speaking, reading, writing and comprehension of Spanish and as an introduction to the cultural practices, family values, and social and environmental issues. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 202. Intermediate Spanish II. 3 Credit Hours.
For students with previous study of Spanish at the intermediate level.
SPA 202 focuses on the continued development of critical skills in reading, writing, speaking and listening in Spanish with special emphasis on the cultural diversity of the Spanish-speaking world. Themes on: relationships, cultural values, different historical perspectives, and current politics explored through articles, films, and literary texts. The course will develop writing and reading strategies, providing students with the tools to think, read, and write critically and analytically in papers of 1-3 pages. Progress will also be assessed through quizzes and exams. Course conducted entirely in Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 203. Advanced Spanish. 3 Credit Hours.
Continuation of SPA 202. This course prepares students for advanced literature, linguistics, and culture courses. The class will use films, literary works, and other cultural texts. Students will write analytic essays of 3-5 pages to develop style, vocabulary, and syntax.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 207. Intermediate Spanish for Heritage Learners. 3 Credit Hours.
Designed for students with some prior instruction in Spanish who, because of family background or social experience, can understand casual spoken Spanish and have some functional communication abilities in the language. Focus is on developing basic speaking, reading, and writing abilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 208. Advanced Spanish for Heritage Learners. 3 Credit Hours.
Designed for those students who, because of family background or social experience and prior instruction in Spanish, possess functional communication abilities in the language. Focus is on developing formal speaking, reading and writing abilities. Counts towards the major and minor in Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 280. Special Topics. 3 Credit Hours.
Awarded for 200 level study abroad course led by UM faculty.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

SPA 295. Transfer credits. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.

SPA 301. Interpreting Literary and Cultural Texts in Spanish. 3 Credit Hours.
Sixth semester of college Spanish. Tools for the interpretation and analysis of literary and cultural materials from the Spanish-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills. Closed to heritage/native speakers. Students may not receive credit for both SPA 301 and SPA 307(formerly 343). The course is taught in Spanish.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 302. The Culture of Spain. 3 Credit Hours.
Historical survey of the arts, letters, science, and political and social institutions in Spain.
Prerequisite: SPA 203 OR SPA 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 303. The Cultures of Spanish America. 3 Credit Hours.
Historical survey of the arts, letters, science, and political and social institutions in Spanish-speaking Americas.
Prerequisite: SPA 203 OR SPA 208.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 307. Interpreting Literary and Cultural Texts in Spanish for Heritage/ Native Speakers. 3 Credit Hours.
Tools for the interpretation and analysis of literary and cultural materials from the Spanish-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills. Special attention to characteristics of heritage/native speaker expression. Students may not receive credit for both 301 and 307 – or formerly 343.
Prerequisite: SPA 208.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.
SPA 310. Topics in Spanish and Spanish American Studies in Translation. 3 Credit Hours.
Topics in the literatures and/or cultures of the Spanish-speaking world. Readings and discussion in English. Development of critical reading and writing skills. Fulfills humanities literature requirement. Does not fulfill foreign language requirement. Maybe be repeated when the topic varies. Maybe used toward the Spanish major in accordance with Department of Modern Languages and Literature stipulations. Prerequisite: ENG 106 or ENG 107.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 318. Cinema from the Spanish-Speaking World in Translation. 3 Credit Hours.
Topics in the cinema of the Spanish-speaking world. Analysis of films in their cultural context. This course is taught in English and does not fulfill the CAS foreign language requirement. Maybe be repeated for credit if topics vary. Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 321. Introduction to Literary Themes. 3 Credit Hours.
Latin American literatures through thematic readings. Topics may include Modernismo and Cosmopolitismo, the "Boom" of Latin American narrative, Spanish vanguard poetry, and others. May be repeated for credit if topics vary. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 322. Cultural Topics. 3 Credit Hours.
Issues related to the cultures in the Spanish-speaking world. Topics may include film, journalism, religion, language in society, popular and mass culture, visual arts, immigration, slavery, mestizaje. May be repeated for credit if topics vary. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 325. Topics in Spanish-Language Cinema. 3 Credit Hours.
Cinema of the Spanish-speaking world. Analysis of films in their cultural context. May be repeated for credit if topics vary. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 330. Topics in Gender and Sexuality. 3 Credit Hours.
The study of gender and sexuality as developed in the Hispanic context. May be repeated if topics vary. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 340. Migration Studies. 3 Credit Hours.
Topics within the literary and/or cultural dimensions of migration in the Spanish-speaking world. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 353. Colonial Spanish American Topics. 3 Credit Hours.
Topics within Latin American literatures and cultures from the colonial centuries. May be repeated for credit if topics vary. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 354. 19th-Century Spanish American Topics. 3 Credit Hours.
Topics within Latin American literatures and cultures from independence to the end of the nineteenth century. May be repeated for credit if topics vary. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 355. Studies in 20th and 21st Century Latin American Literatures and Cultures. 3 Credit Hours.
Latin American literature and cultures from the beginning of the 20th century to the present. May be used to fulfill the humanities literature requirement. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 360. The Caribbean through Literary Studies. 3 Credit Hours.
The study of the Spanish Caribbean through literary and cultural studies. May be repeated if topics vary. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

SPA 362. Caribbean Cultural Studies. 3 Credit Hours.
Cultural Topics within the Spanish-speaking Caribbean. May be repeated for credit when topics vary. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 363. Medieval and Early Modern Peninsular Topics. 3 Credit Hours.
Topics within Spanish peninsular literature and cultures from the earliest literary forms through the seventeenth century. May be repeated for credit if topics vary. Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SPA 364. 18th and 19th Century Peninsular Topics. 3 Credit Hours. 
Topics within Spanish peninsular literatures and cultures from the eighteenth and nineteenth centuries. May be repeated for credit if topics vary. 
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.  

SPA 365. Studies in 20th and 21st Century Spanish Literatures and Cultures. 3 Credit Hours.  
Spanish peninsular literatures and cultures from the twentieth century to the present. May be used to fulfill the humanities literature requirement. 
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.  
Components: SEM.  
Grading: GRD.  
Typically Offered: Fall & Spring.  

SPA 394. Spanish Internship. 1-3 Credit Hours. 
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM–faculty supervision, as well as supervised on-site experience in a Spanish-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked). 
Prerequisite: SPA 203 OR SPA 208.  
Components: PRA.  
Grading: GRD.  
Typically Offered: Fall, Spring, & Summer.  

SPA 395. Transfer credits. 1-3 Credit Hours. 
Awarded for 300-level course work at another institution for which UM has no direct equivalent.  
Components: LEC.  
Grading: CNC.  

SPA 396. Transfer credits. 1-3 Credit Hours. 
Awarded for course work at another institution for which UM has no direct equivalent.  
Components: LEC.  
Grading: GRD.  

SPA 397. Transfer credits. 1-3 Credit Hours.  
Awarded for course work at another institution for which UM has no direct equivalent.  
Components: LEC.  
Grading: GRD.  

SPA 398. Transfer credits. 1-3 Credit Hours. 
Awarded for course work at another institution for which UM has no direct equivalent.  
Components: LEC.  
Grading: GRD.  

SPA 399. Transfer credits. 1-3 Credit Hours. 
Awarded for course work at another institution for which UM has no direct equivalent.  
Components: LEC.  
Grading: GRD.  

SPA 401. Introduction to Hispanic Linguistics. 3 Credit Hours.  
Survey of principal areas of inquiry in Hispanic linguistics, including phonetics/phonology, morphology, syntax, pragmatics, historical, social and dialectal variations. 
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.  

SPA 402. Spanish Second Language Acquisition.. 3 Credit Hours.  
The linguistic contrast between Spanish and English and the pedagogical and practical implications of understanding language, especially grammar, from a foreign/second language perspective. 
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.  

SPA 410. Digital Literacy Through Cultural and Literary Topics in Spanish. 3 Credit Hours. 
Digital research methods and tools applied to literary and cultural studies in Spanish. The course looks at major texts in Spanish as data, and with many approaches available to collect, annotate, process, analyze and interpret them. Concepts covered include but are not limited to textual corpus, semantic tagging, text mining, and topic modeling. 
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall & Spring.  

SPA 422. Topics in Hispanic Linguistics. 3 Credit Hours.  
Special topics in the study of Hispanic linguistics. Possibilities include phonetics/phonology, pragmatics/discourse analysis, sociolinguistics, sociocultural theory, bilingualism. 
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.  
Components: SEM.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.  

SPA 432. Business Ethics and Cultural Debates in Spanish. 3 Credit Hours. 
Commercial vocabulary, economic, technical, and diplomatic terminology in Spanish. Composition based on models of business correspondence directed to Spanish- speaking countries or firms. 
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.  
Components: SEM.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.  

SPA 433. Medical, Cultural and Bioethical Debates in Spanish. 3 Credit Hours. 
Medical vocabulary, technical and practical terminology in Spanish. Composition based on models of the documents, letters, medical history cases required in health care professions. 
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Offered by Announcement Only.
SPA 434. Legal and Cultural Debates in the Spanish-Speaking World. 3 Credit Hours.
Legal vocabulary, technical and practical terminology in Spanish. Composition based on models of documents, letters and case histories required in legal professions.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 440. Phonetics. 3 Credit Hours.
Spanish pronunciation based on phonetics. Exercises in diction and phonetic transcription. Attention to individual difficulties. Conducted in Spanish.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 442. Stylistics and Composition. 3 Credit Hours.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 444. Introduction to Translation. 3 Credit Hours.
Problems in translation: Spanish to English; English to Spanish.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 446. Cultural Debates: Public Speaking on Societal Issues. 3 Credit Hours.
Intensive training in public speaking in Spanish for academic or professional settings. In-class debates and presentations based on readings about controversies or critical issues within the Spanish-speaking world.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 451. Capstone. 3 Credit Hours.
Course with a broad-based topic designed to integrate all the high-level linguistic, critical and analytical skills with the body of knowledge acquired during the course of study towards the major. Topics vary. Open only to undergraduates completing their Spanish major. To be taken in the last semester of the major.
Components: LEC.
Grading: GRD.

Typically Offered: Fall & Spring.

SPA 495. Transfer Credits. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.

SPA 541. Elementary SPA I for Graduate Students. 0 Credit Hours.
Designed to develop graduate students' communicative abilities in speaking, reading, writing and comprehending Spanish and to provide an introduction to the Spanish-speaking world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 542. Elementary SPA II for Graduate Students. 0 Credit Hours.
Continuation of SPA 541. Designed to develop graduate students' communicative abilities in speaking, reading, writing, and comprehending Spanish, and continued engagement with the Spanish-speaking world.
Prerequisite: SPA 541.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 545. Accelerated Elementary SPA for Graduate Students. 0 Credit Hours.
For graduate students with prior study of Spanish who desire to review material covered in SPA641 and SPA642 in preparation for study of Spanish at the intermediate level. Designed to develop graduate students' communicative abilities in speaking, reading, writing, and comprehending Spanish, and continued engagement with the Spanish-speaking world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 547. Basic SPA for Graduate Heritage Learners. 0 Credit Hours.
For graduate students with little or no prior instruction in Spanish who, because of family background or social experience, can understand casual spoken Spanish and have a passive knowledge of the language but do not speak the language regularly. Focus on developing formal speaking, reading, and writing abilities, and knowledge of the Spanish-speaking world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
SPA 651. Intermediate SPA I for Graduate Research. 0 Credit Hours.
For graduate students with previous study of elementary-level Spanish. Designed to develop graduate students' communication skills in both written and spoken Spanish at the intermediate level. Intended primarily for students who will carry out research in the Spanish-speaking world. Prerequisite: SPA 651.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 652. Intermediate SPA II for Graduate Research. 0 Credit Hours.
For graduate students with previous study of Spanish at the intermediate level. Designed to enhance graduate students' communication skills in both written and spoken Spanish at the high-intermediate level. Intended primarily for students who will carry out research in the Spanish-speaking world. Prerequisite: SPA 652.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 653. Advanced SPA I for Graduate Research. 0 Credit Hours.
For graduate students with previous study of Spanish at the high-intermediate level. Designed to enhance graduate students' communication skills in both written and spoken Spanish at the advanced-low level. Intended principally for heritage learners who will carry out research in the Spanish-speaking world. Prerequisite: SPA 653.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 657. Intermediate SPA for Graduate Heritage Learners. 0 Credit Hours.
For graduate students with previous study of Spanish at the elementary level who, because of family background or social experience, can understand casual spoken Spanish and have a passive knowledge of the language but do not speak the language regularly. Designed to enhance graduate students' communication skills in both written and spoken Spanish at the intermediate-high level. Intended principally for heritage learners who will carry out research in the Spanish-speaking world. Prerequisite: SPA 657.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 658. Advanced SPA for Graduate Heritage Learners. 0 Credit Hours.
For graduate students with previous study of Spanish at the intermediate-high level who, because of family background or social experience, can understand casual spoken Spanish and have a passive knowledge of the language but do not speak the language regularly. Designed to enhance graduate students' communication skills in both written and spoken Spanish at the advanced-low level. Intended principally for heritage learners who will carry out research in the Spanish-speaking world. Prerequisite: SPA 658.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 711. Topics in Spanish Medieval Literature. 3 Credit Hours.
Recent topics: Libro de Buen amor, the epic, Berceo, cancionero poetry.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 713. Topics in the Golden Age. 3 Credit Hours.
Recent topics: culteranismo and conceptismo, La Celestina, Cervantes, the picaresque, sixteenth-century theatre.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 715. Topics in 18th-19th Century Spanish Literature. 3 Credit Hours.
Recent topics: neoclassicism, romantic theatre, Spain and the European Enlightenment, Galdos, realism, postromantic poetry.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 716. Topics in 20th Century Spanish Literature. 3 Credit Hours.
Recent topics: the generation of 1898, Garcia Lorca, the post-war novel, contemporary theater.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 717. Special Topics in Hispanic Studies. 3 Credit Hours.
Special Topics in Hispanic Studies
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 733. Topics in Colonial Literature. 3 Credit Hours.
Recent topics: the chroniclers, Sor Juana Ines de la Cruz, Baroque of the Indies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 735. Topics in 19th Century Latin American Literature. 3 Credit Hours.
Recent topics include: romanticism, modernist poetry, anti-slavery novel.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 736. Topics in 20th Century Latin American Literature. 3 Credit Hours.
Recent topics: modernism, magic realism, the short story, the novel of the Mexican Revolution, the Boom and post-Boom.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 791. Writing Practicum. 1 Credit Hour.
The writing of a publishable research paper under faculty guidance.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 792. Directed Readings. 1-3 Credit Hours.
Directed Readings at the graduate level.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
SPA 830. Pre-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. Prior to admission to candidacy, the student will enroll for credit as determined by his/her advisor. Not more than 12 hours of SPA 740 may be taken in a regular semester, nor more than six in a summer session. Students who have not passed their qualifying examinations yet, but are not taking any courses, may enroll in SPA 730.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

SPA 840. Post-Candidacy Doctoral Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ph.D. After admission to candidacy, the student will enroll for credit as determined by his/her advisor. Not more than 12 hours of SPA 740 may be taken in a regular semester, nor more than six in a summer session. Students who have passed their qualifying examinations, but are not taking courses any more, may enroll in SPA 740. Where a student has passed his /her(a) qualifying examinations, and (b) is engaged in an assistantship, he/she may still take the maximum allowable credit stated above.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

SPA 850. Research in Residence. 1 Credit Hour.
Used to establish residence for the Ph.D. After the student has been enrolled for the permissible cumulative total in appropriate doctoral research. Credit not granted. May be regarded as full-time residence as determined by the Dean of the Graduate School.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

STC 101. Introduction to Strategic Communication. 3 Credit Hours.
An introduction to strategic communication as it relates to design for advertising and public relations. Students will learn the principles of advertising including account planning, creative strategy, media planning, research methods, consumer behavior, and integrated marketing. Emphasis on cultural, social, ethical, and regulatory aspects of advertising.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 102. Advanced Graphic Design for Advertising. 3 Credit Hours.
This course delves more deeply into the concepts of graphic design as they relate to the field of advertising. More specifically, this course will touch upon the use of art, illustration, and photography in advertising design. Topics also will include digital imaging, production, and web publishing. Students will learn to use Adobe Illustrator as a tool for designing in both traditional and non-traditional media. This course serves as a foundation for advertising portfolio development.
Prerequisite: STC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 103. Advanced Graphic Design for Public Relations. 3 Credit Hours.
Graphic design techniques for public relations and the use of computer software as layout and design tools. Selection, preparation, and study of design principles and production processes for typography, photography, art work, and white space.
Prerequisites: STC 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
STC 204. Project Management for Advertising. 3 Credit Hours.
This course will introduce students to project management methodology, the use of project management tools in the advertising industry and in advertising campaign management, and the key components and approaches to successful project management. Topics include defining a project scope, writing a project plan, defining objectives and metrics of success, and elements of managing a project successfully.
Pre-requisite: STC 114.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 231. Advertising Copywriting and Concept. 3 Credit Hours.
Introduction to writing advertising copy across multiple media platforms, including print, outdoor, television, interactive, specialty, and social media.
Prerequisite: STC 114. And JMM 108.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

STC 232. Writing for Public Relations. 3 Credit Hours.
Principles and techniques for the development of creative strategies, concepts, and writing of effective public relations messages for all types of media.
Prerequisites: JMM 108, STC 116 or STC 114 or JMM 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 233. Writing for Advertising Account Management. 3 Credit Hours.
Introduction to writing for the business side of advertising. This course will prepare students to write and create comprehensive reports and prepare presentations related to the business of account planning including research, creative strategies, and media planning.
Prerequisite: STC 114. And JMM 108.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 290. Special Topics in Strategic Communication. 3 Credit Hours.
This course subject matter varies according to announced special topic. See class schedule for details.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 302. Advanced Graphic Design and Photography. 3 Credit Hours.
This course builds upon photography and image manipulation techniques for varied formats in graphic design, including print, outdoor and non-traditional media. Students will create visual messages and focused visual statements, as well as gain an understanding of how to produce complex conceptual images for advertising using Adobe Creative Suite software. Topics will include conceptual thinking, photography, image manipulation, and creative strategy development and execution.
Prerequisites: STC 102 and STC 202 or STC 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 303. Typography and Brand Design. 3 Credit Hours.
This course will provide an advanced experience in the development and understanding of brand design and will demonstrate how typography can be used effectively to create or enhance a brand’s value and niche in the marketplace.
Prerequisite: STC 102, and STC 202 or STC 203.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 311. Public Relations Research. 3 Credit Hours.
Public relations research techniques focusing on applications of strategic planning, message evaluation, opinion research, and theory testing of public relations programs. Emphasis on qualitative and quantitative methods and data analysis.
Prerequisite: STC 103 OR JMM 285 OR PSY 291 OR PSY 292 OR MAS 201.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 312. Research Methods for Advertising. 3 Credit Hours.
Application of research techniques used in the field of advertising. Students will learn to collect, analyze, and report secondary and primary research findings as they apply to advertising decision-making.
Prerequisite: STC 103 or Requisite: Other Approved Statistics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 330. Travel and Tourism. 3 Credit Hours.
Development of tourism and destination promotion strategies and initiatives. Overview of public relations account structures within the tourism industries of airlines, travel destinations, hotels, and others.
Prerequisite: STC 114 Or STC 116 And Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 331. Advanced Copywriting. 3 Credit Hours.
Advanced course in conceptualizing and copywriting advertising campaigns for all media forms, including traditional, digital, social, web, and mobile.
Prerequisite: STC 231.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 334. Social Media Messaging and Strategies. 3 Credit Hours.
This course will examine the utility of major social media platforms as they relate to strategic communication. Topics will include message and campaign development, targeting, engagement, writing across social media platforms, social media management, and analytics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
STC 340. Interactive, Digital, and Social Media in Advertising. 3 Credit Hours.
The course will explore the use of new and evolving media in the
development of effective advertising campaigns, as well as the impact of
these media on the advertising industry.
Prerequisite: STC 114.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 346. Public Relations Message Development and Execution. 3 Credit Hours.
Preparation, execution, and production of visual messages for public
relations media.
Prerequisites: STC 203 and STC 232.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 350. International and Cross-cultural Advertising. 3 Credit Hours.
This course will explore advertising in a global marketplace. Emphasis
will be placed on understanding cultural differences as they relate to
international advertising planning, as well as techniques for gathering
secondary and primary data on international markets and consumers.
Prerequisite: STC 114.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 380. Advertising Internship. 1-3 Credit Hours.
Students select an internship in the field of advertising for on-the-job
training. The student will work a minimum of 45 hours per credit. No
more than three (3) credits of internship may be completed in any given
semester.
Requisite: Sophomore Status, minimum GPA 2.5 and Permission of
Instructor.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

STC 381. Public Relations Internship. 1-3 Credit Hours.
Students select an internship in the field of public relations for on-the-
job training. The student will work a minimum of 45 hours per credit. No
more than three (3) credits of internship may be completed in any given
semester.
Requisite: Sophomore Status, minimum GPA 2.5 and Permission of
Instructor.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

STC 384. Advertising Creative Strategy and Execution. 3 Credit Hours.
Development of effective creative campaigns. Students will design
advertisements for print, broadcast, interactive, and specialty media that
meet specific campaign objectives.
Prerequisite: STC 200. And STC 202. And STC 231.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 388. Media Planning. 3 Credit Hours.
An introduction to the principles and concepts of advertising media
planning including media selection, media plan development, forecasting,
and budgeting.
Prerequisites: STC 200 and STC 233 or JMM 102 and JMM 108.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 389. Media Buying and Advertising Sales. 3 Credit Hours.
Students will learn the art of buying media in all categories, as well as
how to sell advertising space in these media.
Prerequisite: STC 201. STC 233. or JMM 102, JMM 108.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 390. Art Direction. 3 Credit Hours.
This course will teach students art direction skills across multiple media
platforms, including print, outdoor, television, interactive and social
media.
Prerequisites: STC 202 or STC 203 and STC 231 or STC 232.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 401. Seminar in Advertising and Society. 3 Credit Hours.
This course will examine the ethical, persuasive, cultural, societal, and
economic effects of advertising, focusing on the theoretical frameworks
that explain how advertising works in these arenas.
Requisite: Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 404. Advertising Entrepreneurship. 3 Credit Hours.
This course focuses on the entrepreneurial aspects of working in the
advertising industry, from the perspective of assisting in the launch of
a new brand or company, and from that of the process of defining and
starting a new advertising agency business.
Prerequisite: STC 200 and Junior Standing or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 412. Public Opinion and Mass Communication. 3 Credit Hours.
An exploration of the formation and role of public opinion in mass
communication. Emphasis is placed on its role in advertising and
promotion. Topics include the evolution and history of public opinion in
American culture, the application of public opinion on attitude formation
and persuasion, measurement of public opinion, and propaganda.
Requisite: Junior Status or Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 414. Advanced Research Methods for Advertising. 3 Credit Hours.
This course focuses on the application of advanced research techniques
and methods related to the advertising field. Students will focus on
practical quantitative and qualitative research techniques, as well as
conducting experimental and creative research.
Prerequisite: STC 312.
Components: RSC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
**STC 415. Advanced Business and Advertising Strategy Development. 3 Credit Hours.**
This course focuses on the holistic understanding and application of concepts in developing contemporary marketing, advertising and business strategies. Students will learn how to analyze industry, business, consumer, and organizational environments to develop strategic plans and implement an advertising strategy accordingly. Prerequisite: STC 200 and Junior Standing or higher.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 416. Public Relations Ethics. 3 Credit Hours.**
Ethical concepts and issues pertaining to individuals and society with application to advertising and public relations. Case studies focus on professional and personal ethics based on traditional teaching, modern codes, and other guidelines.

Prerequisite: STC 116.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 423. Crisis Communication and Management. 3 Credit Hours.**
This course introduces the student to crisis communication and management from a strategies, theory-based approach steeped in case research from historical cases and business case studies.

Prerequisites: STC 116. And Requisite: Junior Standing.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 424. Media Relations. 3 Credit Hours.**
The practice of media relations within the public relations milieu. Requisite: Junior Status.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 425. Cases in Public Relations Administration. 3 Credit Hours.**
This course will examine the management and administrative functions of public relations using a case-study approach.

Prerequisites: STC 116. And Requisite: Junior Standing.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 426. Sports, Publicity, and Promotions. 3 Credit Hours.**
The course will provide a review, examination and practical application of sports communications, publicity and promotions in strategic communications.

Requisite: Junior Standing or Higher.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 428. Public Relations Management. 3 Credit Hours.**
Principles and practice of public relations management in a variety of contexts including agency, consultancy, corporate, and nonprofit.

Prerequisites: STC 116. And Requisite: Junior Standing.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 434. Advertising Campaigns. 3 Credit Hours.**
Capstone course in which students develop a full-scale advertising campaign. Students are responsible for conducting secondary and primary research, strategic planning, development of creative executions, planning and executing media selections, and campaign evaluation.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 435. Seminar in PR Measurement. 3 Credit Hours.**
This course examines the measures, mechanisms, and necessary considerations for measuring public relations outcomes and communication effectiveness, as well as evaluating the impact of public relations efforts.

Requisite: STC 311 & Junior.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 436. Public Relations Campaigns. 3 Credit Hours.**
The capstone course for seniors in their last year of study. Theory and principles, audience research, strategic planning, and targeted communication are applied in developing a campaign to influence attitudes and behavior on behalf of a real client. A written plan, professional presentation, and teamwork are emphasized.

Prerequisites: Public Relations Requisites by Track.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 437. Politics: Persuasion and Perception. 3 Credit Hours.**
This course will examine the candidates in current political elections, their likability factors, truthfulness, strengths and weaknesses, and how they get their messages out to the world.

Requisite: Junior Status.

**Components:** LEC.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 439. Public Relations Practicum. 1-3 Credit Hours.**
Students will work in the public relations field for advanced on-the-job training in their specific area of advertising specialization.

Prerequisite: STC 380. Requisite: Senior Standing.

**Components:** PRA.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 440. Practicum in Advertising. 1-3 Credit Hours.**
Students will work in the advertising field for on-the-job training in their specific area of advertising specialization.

Prerequisite: STC 381. Requisite: Senior Standing.

**Components:** PRA.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 441. Practicum in Public Relations. 1-3 Credit Hours.**
Students will work in the public relations field for on-the-job training.

Prerequisite: STC 382. Requisite: Senior Standing.

**Components:** PRA.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.

**STC 442. Practicum in Social Media. 1-3 Credit Hours.**
Students will work in social media field for on-the-job training.

Prerequisite: STC 383. Requisite: Senior Standing.

**Components:** PRA.

**Typically Offered:** Offered by Announcement Only.

**Grading:** GRD.
STC 444. Social Media Analytics. 3 Credit Hours.
This course will provide an overview and practical application of various public and commercial social media analytics and tools, and will cover sources of data, metrics, analyses, and tools used in the development of successful social media campaigns.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 450. Strategic Communication in Health Care. 3 Credit Hours.
An examination of health industry communication from business and promotional perspectives, including the special issues that have an impact on health communicators. Best practices and case studies from notable practitioners are used; strategic communication plan development, writing and presentation are emphasized.
Prerequisite: STC 116.
Components: LEC.
Grading: GRD.

STC 460. Corporate Communication and Public Relations. 3 Credit Hours.
This course monitors the sociopolitical environment of organizations, explores managing corporate crises and confrontations, analyzes issues, formulates organizational and political strategies, develops programs of advocacy communication and explores constituency communications and public involvement.
Prerequisite: STC 116. And Requisite: Junior Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 482. International Public Relations. 3 Credit Hours.
History, theory, and practice of public relations in a global, multi-cultural environment.
Prerequisite: STC 116. And Requisite: Junior Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 483. Integrated Marketing Communication. 3 Credit Hours.
An exploration of how brands are built and promoted through the integration of advertising, public relations, sales promotion, personal selling, direct marketing, and e-commerce.
Prerequisites: STC 114 or STC 116 or MKT 201.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 488. Digital, Mobile, and Web Media Evaluation. 3 Credit Hours.
Focus on the evaluation of digital, mobile, and web-based advertising as part of integrated advertising media plans. Topics include audience estimation, cost-gathering, and evaluation of potential effectiveness.
Prerequisite: STC 388.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 490. Special Topics in Advertising. 3 Credit Hours.
This course subject matter varies according to announced special topic.
See class schedule for details.
Pre-requisite: STC 114.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 491. The Business of Account Management. 3 Credit Hours.
This course will lead to a stronger understanding of the role of account management in marketing communication and advertising agencies. Topics will include advertising agency management, client services, and financial planning within the agency.
Prerequisite: STC 200 or Requisite: Junior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

STC 492. Advanced Advertising Creative Development. 3 Credit Hours.
This course will provide an advanced experience in art direction.
Prerequisites: STC 202 and STC 231.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 493. Special Topics in Public Relations. 3 Credit Hours.
This course subject matter varies according to announced special topic.
See class schedule for details.
Requisite: Junior Status.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 495. Advertising Management. 3 Credit Hours.
Students will learn to approach advertising problems at both micro and macro levels from the perspective of a manager in charge of solving such problems. Emphasis will be on problem identification, development of alternative strategies to solve problems, tactics for executing strategies, and evaluation of proposed solutions.
Prerequisites: STC 200 and STC 233 and STC 312 and STC 388. Requisite: Senior Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

STC 496. Advertising Portfolio Development. 3 Credit Hours.
This course will assist students in putting together a professional-quality advertising portfolio of their work.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

STC 498. AAF National Student Advertising Campaign Competition. 3 Credit Hours.
Students compete in the American Advertising Federation’s National Student Advertising Campaign Competition.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

STC 499. Projects and Directed Research in Strategic Communication. 1-3 Credit Hours.
Individual study. No more than three credits may be counted toward a Communication major or minor.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
STC 620. Public Relations Fundamentals. 3 Credit Hours.
A seminar to explore the theories and methodologies of public relations encompassing writing, principles and campaigns.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

STC 621. Writing for Public Relations. 3 Credit Hours.
Principles and techniques for the development of strategic thinking, information-gathering, and writing public relations messages across traditional, digital, social and web-based media.
Prerequisite: STC 620.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

STC 622. Design for Public Relations. 3 Credit Hours.
An introduction to design principles and tactics used in the creation of public relations messages and campaigns.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

STC 623. Crisis Communication and Management. 3 Credit Hours.
This course introduces the student to crisis communication and management from a strategies, theory-based approach steeped in case research from historical cases and business case studies.
Prerequisite: STC 620.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 624. Media Relations. 3 Credit Hours.
The practice of media relations within the public relations milieu.
Prerequisite: STC 620.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 625. Cases in Public Relations Administration. 3 Credit Hours.
Course analyzes organizational principles, internal budgeting, and evaluation of public relations departments and counseling firms.
Prerequisite: STC 620. Or Requisite: Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 626. Sports, Publicity, and Promotions. 3 Credit Hours.
This course will provide a review, examination and practical application of sports communications, publicity and promotions in strategic communications.
Prerequisite: STC 620.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 628. Public Relations Management. 3 Credit Hours.
Principles and practice of public relations management in a variety of contexts including agency, consultancy, corporate, and nonprofit.
Prerequisite: STC 620.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
STC 650. Strategic Communication in Health Care. 3 Credit Hours.
An examination of health industry communication from business and promotional perspectives, including the special issues that have an impact on health communicators. Best practices and case studies from notable practitioners are used; strategic communication plan development, writing and presentation are emphasized.
Prerequisite: STC 620. Or Requisite: Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 660. Corporate Communication and Public Relations. 3 Credit Hours.
This course monitors the sociopolitical environment of organizations, explores managing corporate crises and confrontations, analyzes issues, formulates organizational and political strategies, develops programs of advocacy communication and explores constituency communications and public involvement.
Prerequisites: COM 601, STC 620. Or Requisite: Permission of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 682. International Public Relations. 3 Credit Hours.
History, theory, and practice of public relations in a global, multi-cultural environment.
Prerequisite: STC 620.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 690. Public Relations Practicum I. 1-3 Credit Hours.
Professional functions related to public relations requirements in a professional environment acting as an account executive.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

STC 691. Special Topics in Public Relations. 3 Credit Hours.
This course subject matter varies according to announced special topic. See class schedule for details.
Prerequisite: STC 620.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

STC 699. Advanced Projects and Directed Research in Public Relations. 1-6 Credit Hours.
Individual study. May be repeated to a maximum of six credits.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

Taxation Law (TAX)

TAX 140. TAXATION OF BUSINESS ENTITIES. 3 Credit Hours.
Requisite: Plan of Tax LLM.
Components: LEC.
Grading: GRD.

TAX 800. Writing Requirement (Tax). 1-4 Credit Hours.
Requisite: Plan of Tax LLM.
Components: THI.
Grading: GRD.

TAX 801. Individual Research. 1 Credit Hour.
Requisite: Plan of Tax LLM.
Components: THI.
Grading: GRD.

TAX 802. Individual Research - Tax. 2 Credit Hours.
Requisite: Plan of Tax LLM.
Components: THI.
Grading: GRD.

TAX 984. Introduction to Financial Instruments. 1 Credit Hour.
Requisite: Plan of Tax LLM.
Components: LEC.
Grading: GRD.

TAX 985. Cross Border Taxation of Financial Instruments. 1 Credit Hour.
Requisite: Plan of Tax LLM.
Components: LEC.
Grading: GRD.
Teaching and Learning (TAL)

TAL 103. Psychological Foundations of Education. 3 Credit Hours.
The first half of this course addresses the following topics related to
the psychological foundations of education: the teaching-learning
process in the classroom, human development, learning theories, and
motivation. The second half of the course will address the following
topics related to the social foundations of education: critical perspectives
of education and schooling in the USA, issues such as accessibility,
language hegemony, and race and racism through the lens of history,
philosophy, anthropology, sociology and cultural studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 107. American Sign Language I. 3 Credit Hours.
This course is designed to allow participants to learn about Deaf Culture
and be able to sign with sufficient fluency to discuss work, social, and
family topics using two to four sentence responses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 191. Developmental Reading for College Students. 3 Credit Hours.
Instruction in college level reading strategies based on individual student
needs. Emphasis on vocabulary, comprehension and techniques of test
preparation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 203. Children's Literature. 3 Credit Hours.
History, trends, and genres of children's literature with emphasis on
children's literature as a curriculum resource.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 204. Building Positive Relationships in Diverse Inclusive Secondary
Schools. 3 Credit Hours.
The course is designed to assist general education teachers in meeting
the needs of diverse secondary school students. Emphasis is placed
on language and culture in the classroom, as well as students with
disabilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 205. Contemporary Issues in Disability Studies. 3 Credit Hours.
This course allows students to explore contemporary issues individuals
with disabilities face with an emphasis on the more personal aspects of
living with a disability and issues that influence their daily lives.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 206. Teacher Preparation Seminar I. 0 Credit Hours.
This hybrid zero credit course has been designed to provide additional
support for students in our teacher preparation programs. Students will
enroll in this course while they participate in a series of field experiences
where they gain practical experience integrating theory and practice
while working with students in K-12 settings. Major topics include: the
Florida Educator Accomplished Practices, Live Text, and guidelines and
procedures. Co-requisite TAL 305
Corequisite: TAL 306.
Components: SEM.
Grading: CNC.
Typically Offered: Fall & Spring.

TAL 207. American Sign Language II. 3 Credit Hours.
This course is designed to allow participants to learn about Deaf Culture
and be able to sign with sufficient fluency to discuss work, social, and
family topics using four to six sentence responses. Students will be able
to independently participate in a signed conversation without the use of
voicing.
Pre-requisite: TAL 107.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 305. Classroom and Behavior Management. 3 Credit Hours.
The principles of behavior analysis and classroom management
strategies, both preventative and problem solving. Special emphasis
includes effective communication with students, parents and other
stakeholders; meeting the needs of all learners based on individual
differences, cultural and linguistic diversity; knowledge of research-based
strategies that support intellectual, personal and social well-being and
development of all students; planning and conducting lessons in a safe,
efficient and supportive learning environment. Field experience required.
Corequisite: TAL 306.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 306. Teacher Preparation Seminar I. 0 Credit Hours.
This hybrid zero credit course has been designed to provide additional
support for students in our teacher preparation programs. Students will
enroll in this course while they participate in a series of field experiences
where they gain practical experience integrating theory and practice
while working with students in K-12 settings. Major topics include: the
Florida Educator Accomplished Practices, Live Text, and guidelines and
procedures. Co-requisite TAL 305
Corequisite: TAL 306.
Components: SEM.
Grading: CNC.
Typically Offered: Fall & Spring.

TAL 307. American Sign Language III. 3 Credit Hours.
This course is designed to allow participants to learn more about Deaf Culture
and be able to sign with sufficient fluency to discuss work, social, and
family topics at a conversational level.
Pre-requisite: TAL 107 And TAL 207.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 308. Language Development for Linguistically and Culturally Diverse
Children. 3 Credit Hours.
The course provides an introduction to theories of linguistics as well as
first and second language acquisition. Readings and lectures serve to
highlight the development of language and language challenges faced
by students for whom Standard English is a second language and/or a
second dialect. Theories of linguistics are used to identify, explain and
assess literacy challenges. Field experience required. This course counts
as one of two required stand-alone ESOL courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 322. Mathematics Instruction in the Elementary School. 4 Credit Hours.
Principles and practices in the teaching of elementary school mathematics. Attention is paid to infusion of technology, linguistic and cultural diversity, students with exceptionality, and the origins of gender bias. Field experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 323. Interdisciplinary Methods in the Content Areas. 3 Credit Hours.
This course aims to discuss the goals and objectives for interdisciplinary learning in the content areas, and help practice, design, and enact interdisciplinary learning activities appropriate for elementary school. During the semester, the class will create an engaging environment to help you: Understand what is the nature of interdisciplinary understanding and practices; Examine elementary curricula and state/national standards that speak to interdisciplinary learning; Develop and enact authentic lessons/units for interdisciplinary learning; Create supportive learning environments that engage diverse students; Assess student interdisciplinary learning using multiple methods; and Learn to use a variety of innovative educational technologies that facilitate interdisciplinary learning. Field Experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 324. Education and the Arts. 3 Credit Hours.
Exploration of the fine and performing arts and their relation to Pre-K to 12 education. Emphasis is placed on experiential learning and methods of incorporating the arts in school curricula. The course also includes a focus on the value of the arts to the individual and society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 330. Introduction to the Education of Exceptional Individuals. 3 Credit Hours.
A survey course providing a general orientation to Exceptional Individual Education as an integral part of the general education structure. Includes an introduction to appropriate educational programs for exceptional individuals.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 332. Assessment of Exceptional Students. 3 Credit Hours.
A survey of assessment instruments used to classify, assess and evaluate exceptional students in inclusive and special education settings. Advanced written, digital, and oral communication proficiencies, to include research and report-writing as well as oral presentation skills, are emphasized in this course.
Prerequisite: ENG 105 And ENG 106 prerequisite of enrollment is required for this course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 360. The Teacher in American Society. 3 Credit Hours.
This course focuses on the historical development of teaching in the US, contemporary educational reform and social change, issues involving teacher work, the impact of technology on schooling, ethical and legal issues in teaching, topics involving Race, Gender Social Class and Equity. Popular Culture sources are emphasized in the course's content.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 370. Pop Culture and Education. 3 Credit Hours.
This course examines how popular culture influences and is influenced by the work and culture of schools. In examining artifacts and trends in popular culture today and the past, the forms of popular culture we will analyze will include: motion pictures, television programs, mainstream news, music, books, magazines, zines, fashion, web-based content, graffiti, tattoos, street art, mobile communication, video games, social networking, and more.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 371. Race and Racism in the Making of US Public Education. 3 Credit Hours.
This course will examine the roles of race and racism in the social construction of education and schooling in United States, with an emphasis on how said constructions have impacted the lived experiences of marginalized racial and ethnic minorities, with a particular emphasis on Black Americans. The central themes of the course will be how and why schools in the United States of America were constructed and continue to act as sites of State-sponsored racism, paying attention not only to whom this process marginalizes but also whom it benefits. While the focus of the course will be on race, it is impossible to study race alone, in a vacuum. Therefore, a great deal of attention will be paid to issues of intersectionality, with particular emphases paid to the intersections of race and ethnicity, class, gender, sexual identity, geography, historical specificity, and disability. The semester will begin with a historical overview of the roles education and schooling have played in the lives of African Americans. Our starting point will be roughly 1850. It is important to note that the distinction is made between school and education. The course will examine the roles schools (Saturday Schools, public schools, religious schools, and Historically Black Colleges and Universities to name a few) have played, but it is also crucial to examine the roles of education outside of the context of formalized schooling. The course will examine crucial educational sites such as religious institutions and traditions (outside of religious schools), family life, community education, and oral traditions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 390. Topics in Education. 3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
TAL 404. Content Area Literacy in the Secondary Classroom. 3 Credit Hours.
Essentials of literacy instruction in various subject areas for middle, junior and senior high schools; instructional methods and materials for development of reading, writing and study strategies. Emphasis is also placed on selecting appropriate materials, motivating students, and helping students with exceptional needs and students who are English Language Learners.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 407. American Sign Language 4. 3 Credit Hours.
This course is designed to allow participants to learn more about Deaf Culture and be able to understand signed conversations in a small group and sign with sufficient fluency to discuss work, social, and family topics at a conversational level.
Prerequisite: TAL107, TAL 207, TAL 307.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 420. Introduction to Literacy, Assessment, and Instruction in Elementary School. 3 Credit Hours.
Multidisciplinary survey of reading and writing acquisition in the elementary school. Assessment and instruction in the major components of reading: phonological awareness, word identification and phonics, fluency, vocabulary, and comprehension. Field Experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 421. Language Arts and Social Studies in the Elementary School. 3 Credit Hours.
Addresses Language Arts competencies in reading, writing, listening, speaking, viewing and visual literacy, following state/national standards. Research based strategies and approaches for teaching content areas, with a focus on Social Studies competencies, are modeled and integrated through Social Studies content and literature. Field experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 422. Mathematics Instruction in the Elementary School. 3 Credit Hours.
Principles and practices in the teaching of elementary-school mathematics. Attention is paid to infused technology, linguistic and cultural diversity, students with exceptionalities, and the origins of gender bias. Field experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 425. Inclusive Classrooms in the Elementary School. 3 Credit Hours.
The course prepares elementary school teachers to meet the individual needs of students with exceptionalities who have been integrated into the general education classroom. Field experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 426. Practicum in Reading. 3 Credit Hours.
Supervised practicum in reading and writing. Emphasis is on assessment and interventions for elementary students with a range of academic, linguistic and cultural challenges in becoming proficient readers. This course is a designated Upper Level Communications Requirement; advanced written digital and/or oral communication proficiencies will be emphasized in this course.
Prerequisite: ENG 105 And ENG 106 prerequisite of enrollment is required for this course.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 428. ESOL Curriculum and Methods and Assessments. 3 Credit Hours.
The course addresses the application of TESOL theories, principles, and current research to the use of curriculum, methods, and assessment. In doing so, the course focuses on an understanding of the differences between curriculum, methods, and assessment designed for children who are native speakers of Standard English and those designed for ESOL. Specific TESOL modifications appropriate for content areas are also addressed. Field experience required. This course counts as the second of two required ESOL specific courses. Advanced written, digital, and oral communication proficiencies, to include research and report-writing as well as oral presentation skills, are emphasized in this course.
Prerequisite: TAL 308 and Co-requisite: TAL 429.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 429. Teacher Preparation Seminar II. 0 Credit Hours.
This hybrid zero credit course has been designed to provide additional support for students in our teacher preparation programs. Students will enroll in this course while they participate in a series of field experiences where they gain practical experience integrating theory and practice while working with students in K -12 settings. Major topics include: the Florida Educator Accomplished Practices, Live Text, and guidelines and procedures. Co-requisite: TAL 428 for students in programs that lead to the ESOL Endorsement; TAL 506 for students in MED and SEC except Secondary English majors.
Corequisite: TAL 428 or TAL 506.
Components: SEM.
Grading: CNC.
Typically Offered: Fall & Spring.

TAL 432. Inclusive Models of Teaching. 3 Credit Hours.
This course focuses on models of inclusion and the educational roles to support student success in inclusive settings. Topics addressed include: differentiated staffing patterns; working as a member of a team; successful collaborative practices; effective communication; understanding of varied cultural backgrounds; strategies for facilitating successful inclusion including differentiation of instruction and application of principles of Universal Design for Learning (UDL); co-teaching; strategies for working effectively with students, families, parents, guardians, administrators, general education teachers, paraprofessionals and other professionals, including students, families, and team members; and creating school partnerships. Field Experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
TAL 434. Specialized Instructional Strategies/Transition. 3 Credit Hours.
This course focuses on evidence-based interventions and models of support for students with disabilities in K – 12 settings and strategies for preparing students for transition from school. Topics addressed include: strategies for using Assistive Technology effectively; strategies for enhancing self-advocacy and self-determination for students with disabilities; strategies for enhancing family involvement in career development and post school employment; transition services and models; preparing students with disabilities for employment and post-secondary education; residential alternatives; recreation and leisure for students with disabilities. Field Experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 444. Instruction in Secondary Science. 2-3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching science in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 461. Pidgins, Creoles and African-American English in Education. 3 Credit Hours.
The course examines some of the most commonly spoken languages in the African diaspora in North and South America as well as in the Caribbean, namely, pidgins, creoles and African-American English. The course also explores the linguistic contributions that West African and European languages have made to the development of Atlantic Pidgins, Creoles and African-American English. Analyses of their lexicons, morphological and grammatical features are addressed along with the ways in which these linguistic structures are used to index different identities in the African-American and Creole cultures. Additionally, the course renews the call for a responsive agenda that recognizes the obstacles faced in formal education by child speakers of Creoles and African-American English and the need for public awareness of the extensively researched merits of accommodating these vernaculars in the classroom.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 470. Student Teaching in the Elementary School. 9 Credit Hours.
A comprehensive semester-long program in observation and supervised teaching in the elementary school. The student spends full time in an elementary school participating in all activities of the teacher under the guidance of school and university personnel.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 471. Student Teaching in the Elementary Schools for K-12 Areas. 3-6 Credit Hours.
A comprehensive program in observation and supervised teaching in the elementary school. The student spends full-time for one half a semester in an elementary school, participating in all activities of the teacher under the guidance of school and university personnel.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 473. Associate Teaching in the Secondary School for K-12 Areas. 3-6 Credit Hours.
A comprehensive program in observation and supervised teaching in the secondary school. The student spends full time for one half a semester in a secondary school, participating in all activities of the teacher under the guidance of school and university personnel.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 480. Seminar On Teaching. 3 Credit Hours.
The seminar is designed to support teacher candidates during the associate teaching experience. Students receive support and assistance in completing Florida Educator Accomplished Practices (FEAP) electronic portfolios. Students share, reflect, and discuss their daily experiences in class during culminating experience in the field.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 491. Applied Research in Education. 3 Credit Hours.
Introduction to basic research methods, ethics in education research, and the implications of research on the practice of teaching. Assist a TAL faculty member with a research project.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 493. Online Teaching and Leadership. 3 Credit Hours.
Introduction to teaching-learning process in online learning environments, including asynchronous modalities, assessment and evaluation, technology and digital copyright usage.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 495. Individual Study. 1-3 Credit Hours.
Individual work on a special project under faculty guidance. Application for Admission to Advanced Individual Study will be required.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 496. Undergraduate Research Honors. 1-3 Credit Hours.
Individual work on a special project under faculty guidance. Application for Admission to Advanced Individual Study will be required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 501. Classroom Based Assessment. 1-3 Credit Hours.
Principles and classroom applications of educational measurement and assessment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 502. Classroom Based Research. 3 Credit Hours.
Application of research principles to evaluation and improvement of teacher effectiveness. Use of scientific methods in problem solving and decision making in the classroom. Student experiences in the planning, conduct, analysis and reporting of classroom research are included.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
TAL 503. Technology Applications in Education. 3 Credit Hours.
This course is designed to help you better understand why and how to use modern technologies in educational settings. Throughout the course, you will identify and share accessible technological resources, participate in hands-on activities, conduct mini-teaching, and create technology-enhanced instructional materials. You will examine the affordances and constraints of a variety of technologies including mobile learning, computer-based visualizations, web-based curriculum platforms, augmented and mixed reality, and online collaboration tools. You will discuss with the instructor and peers critical issues and policy relevant to the effective use of technologies in K-12 classrooms or informal learning environments.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 504. Building Positive Relationships in Inclusive Secondary Schools. 3 Credit Hours.
Designed to assist general education teachers in meeting the needs of diverse secondary school students. Focus on students with disabilities, language and culture in the classroom, and developing culturally competent classroom management methods.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 506. Issues and Strategies for ESOL. 3 Credit Hours.
This course provides a comprehensive foundation in ESOL (English for Speakers of Other Languages) competencies based on Florida's mandates and TESOL standards. Theory and practice will be emphasized in the areas of applied linguistics, cross cultural communication and understanding, methods of teaching, assessment, and curriculum and material development.
Corequisite: TAL 429.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 508. Language Development for Linguistically and Culturally Diverse Students. 3 Credit Hours.
Course will provide an introduction to theories of linguistics, first and second language acquisition, as well as foundations of English learner education. Readings and lectures will serve to highlight the development of language and literacy, including challenges faced by students for whom Standard English is a second language and/or a second dialect. This course will be the first in a two-course ESOL sequence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 517. Curriculum, Assessment, Teaching and Learning for Physical Science. 3 Credit Hours.
Analysis of content knowledge, pedagogy, and materials appropriate for teaching physical science in the elementary school. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in physical science, pedagogy, and student literacy in physical science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 518. Curriculum, Assessment, Teaching and Learning for Number, Operations, and Algebra. 3 Credit Hours.
This course examines topics that address the mathematical ideas underlying number, operations and algebra. Related curriculum, instructional and assessment issues will be also discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 522. Curriculum, Assessment, Teaching and Learning in the Earth Sciences. 3 Credit Hours.
Analysis of content knowledge, pedagogy, and materials appropriate for teaching Earth science in the elementary school. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in Earth science, pedagogy, and student literacy in life science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 523. Curriculum, Assessment, Teaching and Learning for Data Analysis and Probability. 3 Credit Hours.
Data in the elementary school: how to gather (biased and unbiased samples), store, manage, represent, analyze. Probabilistic inferences in elementary school: chance, odds, counting, related topics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 524. Education and the Arts. 3 Credit Hours.
Exploration of the fine and performing arts and their relation to PreK-12 education. Emphasis is placed on experiential learning and methods of incorporating the arts in school curricula. The course also includes a focus on the value of the arts to the individual and society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 526. Practicum in Reading. 3 Credit Hours.
Supervised practicum in reading and writing. Emphasis is on assessment and interventions for elementary students with a range of academic, linguistic and cultural challenges in becoming proficient readers.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 527. Language and Assessment in ESOL. 3 Credit Hours.
Study of language systems with a focus on understanding and applying linguistic terms. Course prepares teachers to conduct informal and formal assessment procedures with English language learners. Field experience with English language learners is required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 528. ESOL Curriculum, Methods, and Assessment. 3 Credit Hours.
This course focuses on applying TESOL theories, principles, and current research to the development and use of instructional materials, curriculum, and methods. The course will enhance participant's knowledge of the regular English language arts curriculum in comparison with the ESOL curriculum.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
TAL 531. Educating Exceptional Students. 3 Credit Hours.
A survey course in special education emphasizing characteristics and problems associated with various categories of exceptional learners. Policy, issues, and trends in special education will be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 540. Instruction and Assessment in the Secondary School. 3 Credit Hours.
Research-based instructional processes in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 541. Instruction and Assessment in Secondary English Language Arts. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching language arts in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 542. Instruction and Assessment in Secondary Mathematics. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching mathematics in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 543. Instruction and Assessment in Secondary Science. 3 Credit Hours.
Analysis of methods, content and assessments appropriate for teaching science in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 544. Instruction and Assessment in Secondary Social Studies. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching the social sciences in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 545. Methods of Teaching in the Elementary School. 3 Credit Hours.
Theories and research-based practices for reading/language arts, science, social studies, and math instruction for all learners, including diverse populations in elementary classrooms.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 550. Language and Early Reading Instruction. 3 Credit Hours.
Factors related to emergent literacy with an emphasis on diverse aspects of language that influence literacy and learning; development of emergent literacy and word perception; emergent literacy curriculum development; appropriate assessment and instructional techniques. Understanding of reading as a process of student engagement in fluent decoding and construction of meaning. Writing intensive.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 552. Reading Comprehension. 3 Credit Hours.
Development of comprehension, rate, and study skills; reading in the content areas; evaluation of materials, organization of programs; issues, problems, and exceptional readers. Emphasis is placed on understanding reading as a process of student engagement in fluent decoding of words and construction of meaning.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 553. Mentoring and Internship in Classroom Teaching. 3-6 Credit Hours.
A comprehensive program of supervised teaching in elementary or secondary class rooms.
Components: LEC.
Grading: SUS.
Typically Offered: Fall & Spring.

TAL 554. Literacy and Learning Strategies in the Content Area. 3 Credit Hours.
Literacy instruction in content areas for grades 6 through 12; instructional methods and materials for development of language arts, reading, and study skills. Emphasis on appropriate materials, motivation, and support for students with exceptional needs and English language learners.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 557. Exceptional Student Education and Classroom Management. 1-5 Credit Hours.
Introduction to theories and methods of effective classroom management and learning environments, perceptions of disabilities, addressing disruptive behaviors in classrooms and behavioral assessment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 558. ESOL Strategies and Classroom Management. 1-5 Credit Hours.
This course provides a general overview of foundation in ESOL (English for Speakers of Other Languages) competencies based on Florida’s mandates and ESOL Standards. Theory and practice will be emphasized in the areas of applied linguistics, cross cultural communication and understanding, methods of teaching, assessment, and curriculum and material development. A Classroom Management Plan will be developed based on current issues and effective classroom strategies for diverse populations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 559. Education Reform, Policy, and the Social Organization of Schooling. 3 Credit Hours.
This course is designed to introduce students to the politics and policy debates in American education, including how the U.S. K-12 public education is organized as a socially-constructed system. We will examine the politics of a variety of recent reforms at the local, federal and state levels and their impact on institutions, students and the public.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 569. Teaching and Management for Diverse Classrooms. 3 Credit Hours.
This course will emphasize building a classroom culture and community that meets the needs of all students, including learners with disabilities and learners with culturally and linguistically diverse backgrounds. A history of major legal requirements for diverse populations is examined, including the meaning of learning differences, definitions and causes of disabilities, language acquisition processes, and methods for teaching diverse populations. An introduction to theories and methods of effective classroom management for building learning communities is integrated throughout the course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 570. Student Teaching in the Elementary School. 9 Credit Hours.
A comprehensive semester-long program in observation and supervised teaching in the elementary school. The student spends full-time in an elementary school participating in all activities of the teacher under the guidance of school and university personnel.
Corequisite: TAL 580.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 572. Student Teaching in the Secondary School.. 6-9 Credit Hours.
A comprehensive program in observation and supervised teaching in the secondary school. The student spends full-time in a secondary school participating in all activities of the teacher under the guidance of school and university personnel.
Corequisite: TAL 580.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 577. Human Development, Learning and Schooling. 3 Credit Hours.
Major theories of child development and learning will be discussed with a focus on how they apply to teaching and learning in K-12 schools.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 580. Seminar on Teaching. 1-3 Credit Hours.
Topical seminar to accompany associate teaching
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 584. Topics in the Professional Development and Supervision of Teachers.. 3 Credit Hours.
Topics include the preparation of clinical teachers to induct, guide, and supervise the field experiences of students and associate teachers; techniques in the observation and supervision of in-service teachers; creation and implementation of professional development plans; reading in the research on teacher development across the career.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 590. Topics in Education. 3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 591. Workshop in Education. 1-6 Credit Hours.
A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 593. Online Teaching and Leadership. 3 Credit Hours.
Introduction to teaching-learning process in online learning environments, including asynchronous modalities, assessment and evaluation, technology and digital copyright usage.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 595. Research Honors Project. 2 Credit Hours.
Faculty mentored research project. This course is restricted to students in the SEHD who have been accepted into the Research Honors Program and are working with a Faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 596. Research Honors Project. 2 Credit Hours.
Faculty mentored research project. This course is restricted to students in the SEHD who have been accepted into the Research Honors Program and are working with a Faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 597. Research Honors Project - Thesis Writing. 2 Credit Hours.
Faculty mentored research project. This course is restricted to students in the SEHD who have been accepted into the Research Honors Program and are working with a Faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 598. Research Honors Project - Seminar. 1 Credit Hour.
Faculty mentored research project. This course is restricted to students in the SEHD who have been accepted into the Research Honors Program and are working with a Faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 599. Workshop in Education. 1-6 Credit Hours.
A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
TAL 600. Human Learning. 3 Credit Hours.
This course provides an overview of major theories of human development from childhood through adulthood. This course will focus on the individual learner as influenced by individual- and social-learning processes; the interrelationships between human learning and development; social settings for learning such as classroom, business, and informal learning environments; the applications of learning theories and models; the learning of language(s), content, social practices, and reasoning processes. Emphasis will be placed on how social, cultural, and linguistic diversity interact to create variation in human learning.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 601. Educational Assessment and Accountability. 3 Credit Hours.
This course covers the principles and classroom applications of educational measurement and assessment as well focuses on accountability policies and practices at the school, district, state and federal levels.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 602. Organizational Learning. 3 Credit Hours.
This course provides an overview on how organizations adapt and change, including changes that could be thought of as constituting "learning." Changes in shared values, structures, and practices can facilitate and/or hinder an organization's capacity to gather, select, and process information, to retain that information, and to act upon knowledge valued and created by members. Emphasis is placed on how participants' own careers fit within their employment or field-placement sites as learning organizations and how their efforts can help their sites to learn.
Components: DIL.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 603. Technology Applications in Education. 3 Credit Hours.
This course is designed to help you better understand why and how to use modern technologies in educational settings. Throughout the course, you will identify and share accessible technological resources, participate in hands-on activities, conduct mini-teaching, and create technology-enhanced instructional materials. You will examine the affordances and constraints of a variety of technologies including mobile learning, computer-based visualizations, web-based curriculum platforms, augmented and mixed reality, and online collaboration tools. You will discuss with the instructor and peers critical issues and policy relevant to the effective use of technologies in K-12 classrooms or informal learning environments. As a graduate level course, you will need to conduct a small-scale research that investigates the effectiveness of a technology-enhanced learning environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 604. Building Positive Relationships in Inclusive Secondary Schools. 3 Credit Hours.
Designed to assist general education teachers in meeting the needs of diverse secondary school students. Focus on students with disabilities, language and culture in the classroom, and developing culturally competent classroom management methods.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 605. Mentoring and Internship in Classroom Teaching. 3-6 Credit Hours.
A comprehensive program of supervised teaching in elementary or secondary class rooms.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 606. Issues and Strategies for ESOL. 3 Credit Hours.
This course provides a comprehensive foundation in ESOL (English for Speakers of Other Languages) competencies based on Florida's mandates and TESOL standards. Theory and practice will be emphasized in the areas of applied linguistics, cross cultural communication and understanding, methods of teaching, assessment, and curriculum and material development.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 607. Instructional Leadership. 3 Credit Hours.
An examination of the components of effective supervision of instruction. Leadership theories which apply to educational settings; legal rights and responsibilities of students, teachers and administrators will be covered. As well as the examination of various models of teaching.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 608. Language Development for Linguistically and Culturally Diverse Students. 3 Credit Hours.
Course will provide an introduction to theories of linguistics, first and second language acquisition, as well as foundations of English learner education. Readings and lectures will serve to highlight the development of language and literacy, including challenges faced by students for whom Standard English is a second language and/or a second dialect. This course will be the first in a two-course ESOL sequence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 609. Supervised Practicum in Reading and Writing. 3 Credit Hours.
Supervised practicum in reading and writing. Emphasis is on assessment and interventions for elementary and secondary students with a range of academic, linguistic and cultural challenges in becoming proficient readers.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 610. Literacy and Learning Strategies in the Content Area. 3 Credit Hours.
Literacy instruction in content areas for grades 6 through 12; instructional methods and materials for development of language arts, reading, and study skills. Emphasis on appropriate materials, motivation, and support for students with exceptional needs and English language learners.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 611. Topics in the Professional Development and Supervision of Teachers. 3 Credit Hours.
Topics include the preparation of clinical teachers to induct, guide, and supervise the field experiences of students and associate teachers; techniques in the observation and supervision of in-service teachers; creation and implementation of professional development plans; reading in the research on teacher development across the career.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 612. Building Positive Relationships with Diverse Learners. 3 Credit Hours.
An examination of the principles of various theoretical perspectives of classroom management and discipline. Applications to the management of behavior problems of children and adolescents. Contemporary research analyzed and discussed. Writing intensive course.
Co-requisite: TAL 670.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 613. Prescriptive Teaching of Exceptional Students. 3 Credit Hours.
Techniques for individualization of instruction for exceptional students, including educational prescription, and curriculum adaptation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 614. Assessment in Special Education. 3 Credit Hours.
A survey of assessment instruments used to assess and evaluate exceptional students in inclusive and special education settings. Emphasis is on assessments for students in K-12 settings with a range of academic, linguistic, and cultural challenges in becoming proficient learners. Graduate students will complete a research paper using APA writing format.
Prerequisite: TAL 629.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 615. Reading in the Elementary School. 3 Credit Hours.
Extending competencies in teaching reading, including exceptional children in the regular classroom, with emphasis on applying findings from research in reading to classroom practices. 20 hours of field experience required for all students who are not currently teaching.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

TAL 616. Mathematics in the Elementary School. 3 Credit Hours.
Content, methods, and research appropriate for teaching mathematics in the elementary school, including exceptional children in the regular classroom. Content is defined as a pre-algebra mathematics. 20 hours of field experience required for all students who are not currently teaching. Writing intensive course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 617. Science in the Elementary School. 3 Credit Hours.
Extending competencies of elementary school teachers in teaching science to children, including exceptional children in the regular classroom. Development of science programs based on research which has classroom applications. 20 hours of field experience required for all students who are not currently teaching.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

TAL 618. Social Studies in the Elementary School. 3 Credit Hours.
Extending competencies in teaching social studies to children, including exceptional children in the regular classroom, with an emphasis on research applications. 20 hours of field experience required for all students who are not currently teaching.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 619. Exceptional Student Education and Classroom Management. 1-5 Credit Hours.
Introduction to theories and methods of effective classroom management and learning environments, perceptions of disabilities, addressing disruptive behaviors in classrooms and behavioral assessment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 620. Teaching and Management for Diverse Classrooms. 3 Credit Hours.
This course will emphasize building a classroom culture and community that meets the needs of all students, including learners with disabilities and learners with culturally and linguistically diverse backgrounds. A history of major legal requirements for diverse populations is examined, including the meaning of learning differences, definitions and causes of disabilities, language acquisition processes, and methods for teaching diverse populations. An introduction to theories and methods of effective classroom management for building learning communities is integrated throughout the course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 621. Student Teaching in the Elementary School. 5-6 Credit Hours.
A comprehensive semester-long program in observation and supervised teaching in the elementary school. The student spends full-time in an elementary school participating in all activities of the teacher under the guidance of school and university personnel.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 622. Student Teaching in the Secondary School. 5-6 Credit Hours.
A comprehensive program in observation and supervised teaching in the secondary school. The student spends full-time in a secondary school participating in all activities of the teacher under the guidance of school and university personnel.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
TAL 623. Seminar on Teaching. 1-3 Credit Hours.
Typical seminar to accompany associate teaching
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 624. Education and the Arts. 3 Credit Hours.
Exploration of the fine and performing arts and their relation to PreK-12
education. Emphasis is placed on experiential learning and methods of
incorporating the arts in school curricula. The course also includes a
focus on the value of the arts to the individual and society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 625. Online Teaching and Leadership. 3 Credit Hours.
Introduction to teaching-learning process in online learning environments,
including asynchronous modalities, assessment and evaluation,
technology and digital copyright usage.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 626. Workshop in Education. 1-6 Credit Hours.
A critical study of practical problems of teachers. Significant problems
are defined, literature and research are reviewed, and individual or small
group projects are required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 627. Understanding Culture in the Classroom. 3 Credit Hours.
This course explores the conflicts and the strategies for resolution
between the patterns of culture in the classroom and the patterns of
culture that school children bring to the classroom - patterns which are
learned in their families and communities.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 628. Internship in Special Education Settings. 3-6 Credit Hours.
A comprehensive program of supervised teaching in special education
settings. The student spends two full semesters employed as a full-time
teacher while under the guidance of school and university personnel.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 629. Educating Exceptional Students. 3 Credit Hours.
A survey course in special education emphasizing characteristics and
problems associated with various categories of exceptional learners.
Policy, issues, and trends in special education will be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 630. Instructing Students Who Have Literacy Challenges. 3 Credit Hours.
Administration and interpretation of instructional assessments
with instructional strategies and materials based upon scientifically
based reading research for the prevention and remediation of reading
difficulties.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 631. Assessment of Reading and Related Learning Disabilities. 3 Credit Hours.
Theories and procedures for screening, diagnosis, and progress-
monitoring of reading and related learning disabilities. Includes
instruction and supervised clinical experiences in administration
and interpretation of assessments with an emphasis on prevention,
identification, and remediation of reading and related learning disabilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 632. Intervention for Reading and Related Learning Disabilities. 3 Credit Hours.
Theories and procedures for screening, diagnosis, and progress-
monitoring of reading and related learning disabilities. Includes
instruction and supervised clinical experiences in administration
and interpretation of assessments with an emphasis on prevention,
identification, and remediation of reading and related learning disabilities.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 633. Reading Comprehension. 3 Credit Hours.
Development of comprehension, rate, and study skills; reading in the
content areas; evaluation of materials, organization of programs; issues,
problems, and exceptional readers. Emphasis is placed on understanding
reading as a process of student engagement in fluent decoding of words
and construction of meaning.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 634. Language and Reading Instruction. 3 Credit Hours.
Extending competencies of K-12 school teachers in teaching reading
to children, including exceptional children in the regular classroom.
Emphasis on applying findings from research in reading and writing to
classroom practices.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 635. Inclusive Models of Teaching. 3 Credit Hours.
This course focuses on models of inclusion and the educational roles
to support student success in inclusive settings. Topics addressed
include: differentiated staffing patterns; working as a member of team;
successful collaborative practices; effective communication; including
differentiation of instruction and application of principles of Universal
Design for Learning (UDL); co-teaching; strategies for working effectively
with students, families, parents, guardians, administrators, general
education teachers, paraprofessionals, and other professionals, including
students, families, and team members; and creating school partnerships.
Prerequisite: TAL 629. And TAL 614.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 636. Universal Design for Learning and Assistive Technology Strategies for Transition. 3 Credit Hours.
This course focuses on evidence-based interventions and models of support for students with disabilities in K-12 settings and strategies for preparing students for transition from school. Topics addressed include: strategies for using Assistive Technology effectively; strategies for enhancing self advocacy and self determination for students with disabilities; strategies for enhancing family involvement in career development and post school employment; transition services and models; preparing students with disabilities for employment and postsecondary education; residential alternatives; recreation and leisure for students with disabilities.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 637. Field Experience Seminar I. 0 Credit Hours.
This hybrid zero credit course has been designed to provide additional support for students in our teacher preparation programs. Students will enroll in this course while they participate in a series of field experiences where they gain practical experience integrating theory and practice while working with students in K-12 settings. Major topics include: the Florida Educator Accomplished Practices, Live Text, and guidelines and procedures.
Corequisite: TAL 612.
Components: SEM.
Grading: CNC.
Typically Offered: Fall & Spring.

TAL 638. Language Arts and Culture in the Classroom. 3 Credit Hours.
Extending competencies in the language arts including linguistic and cultural diversity and children with disabilities in elementary classrooms. Emphasis on research applications. 20 hours of field experience required for all students who are not currently teaching. Writing intensive course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 639. Field Experience Seminar II. 0 Credit Hours.
This hybrid zero credit course has been designed to provide additional support for students in our teacher preparation programs. Students will enroll in this course while they participate in a series of field experiences where they gain practical experience integrating theory and practice while working with students in K-12 settings. Major topics include: the Florida Educator Accomplished Practices, Live Text, and guidelines and procedures.
Co-requisite: TAL 606.
Components: LAB.
Grading: CNC.
Typically Offered: Fall & Spring.

TAL 640. Typical and Atypical Child Development. 3 Credit Hours.
Theories and research in the development of children from conception through eight years of age. Factors which influence development and the relationship of typical development to patterns of delayed and atypical development. Writing intensive course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 641. Working with Families of Young Children with Disabilities: Strategies and Medical Issues. 3 Credit Hours.
This course will address issues related to working with families of young children with special educational and health needs. This will include strategies for effective communication and collaboration with all members of the interdisciplinary team. This is a writing intensive course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 642. Evaluation and Assessment in Infant and Early Childhood Special. 3 Credit Hours.
Students will become familiar with a variety of formal and informal screening, evaluation, assessment instruments, and procedures currently in use with children birth to eight. They will learn criteria for selecting and using developmentally and culturally appropriate instruments and become familiar with the multi-, inter-, and trans-disciplinary team approaches. Students will write formal reports and develop an IEP and an IFSP. May require field experience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 643. Intervention Strategies in Infant and Early Childhood Special Education. 3 Credit Hours.
The focus of this course will be the implementation of IEPs and IFSPs through the use of developmentally appropriate curriculum, methods, and intervention strategies for infants, toddlers, and young children with special needs. This will include implementation and adaptation of existing curriculum and materials for young children to meet the special needs of this population. May require field experience. Writing Intensive course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 644. Early Childhood Curriculum Development. 3 Credit Hours.
Development of curriculum for children from birth to eight years of age. Emphasis on application of research findings. 20 hours of field experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

TAL 645. Methods for Communications and Language in Young Children with Disabilities. 3 Credit Hours.
This course will focus on language theories, models, and methods for birth-eight year olds. The course will present an overview of normal development in communication and discuss conditions that might impede progress as well as signs that would suggest a problem is present. This course may require field experience.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 646. Working with Children who Exhibit Challenging Behaviors. 3 Credit Hours.
Challenging behaviors in young children; influences of culture, language, ethnicity; applying Response to Intervention in Preschool settings; evidence-based classroom and behavior management strategies; planning intensive individualized interventions; applying positive behavioral support.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 647. Language and Early Reading Instruction. 3 Credit Hours.
Factors related to emergent literacy with an emphasis on diverse aspects of language that influence literacy and learning; development of emergent literacy and word perception; emergent literacy curriculum development; appropriate assessment and instructional techniques. Understanding of reading as a process of student engagement in fluent decoding and construction of meaning. Writing intensive.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 648. Practicum/Internship with Infants and Toddlers with Disabilities. 3 Credit Hours.
A comprehensive program in observations and supervised teaching in a school/center for infants and toddlers with disabilities (0-3 yrs.). The student spends full time in the school/center participating in all activities of the teacher under the guidance of school and university personnel.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 649. Practicum/Internship with Children with Disabilities (3-5 yrs.). 1-6 Credit Hours.
A comprehensive program in observation and supervised teaching in a school/center for children with disabilities (3-5 yrs.). The student spends full time in the school/center participating in all activities of the teacher under the guidance of school and university personnel.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 650. Early Reading Instruction and Literature for Young Children. 3 Credit Hours.
Study of literature for young children emphasizing multicultural literature and use of literature across the curriculum. Development of emergent literacy; examination of emergent literacy curriculum as well as appropriate assessment and instruction techniques. Emphasis on understanding or reading as a process.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 651. Affective, Relational, and Cultural Factors and Processes in Learning. 3 Credit Hours.
This course explores the impacts of non-cognitive factors on learning and the inter-relationships among what are usually thought of as cognitive and non-cognitive spheres of learning. At times, there may be conflicts between cultural practices as found in learning settings (including classrooms, businesses, and informal learning environments) and the practices into which learners have been enculturated by families and communities; at other times, an individual's identity and the values being imparted in a learning environment may work synergistically. The course includes a critical examination of the sources of these factors on human and organizational learning programs and practices.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 652. Assessment of Human and Organizational Learning. 3 Credit Hours.
This course provides an overview of the assessment of learners in educational, business, work place, and informal settings, with an emphasis on considerations related to cultural and linguistic diversity. Topics include classroom-based assessment, high-stakes assessment in educational settings, testing for job placement and certification, and program evaluation. Among the assessment techniques to be covered are cognitive interviews, the analysis of group-based processes, discourse analysis, and focus-group work.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 654. STEM Methods for Diverse Learners. 3 Credit Hours.
Research-based instructional practices and processes to meet the needs of all learners, including diverse populations, for mathematics/science education in schools.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 655. Applied Linguistics. 3 Credit Hours.
In-depth study of phonology, morphology, syntax, semantics and pragmatics of spoken and written discourse and the application to second language acquisition theories. Issues of nonstandard dialects and creoles as well as their impact on literacy challenges will be discussed. Globalization of English and linguistic imperialism will be addressed.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

TAL 656. Instruction and Assessment in the Secondary School. 3 Credit Hours.
Research-based instructional processes and assessment for all learners, including diverse populations, in the secondary school. Emphasis on considerations related to cultural and linguistic diversity.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 658. Instruction in Secondary English. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching language arts in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 660. Instruction and Assessment in the Secondary School. 3 Credit Hours.
Research-based instructional processes in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 661. Instruction in Secondary Mathematics. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching mathematics in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 662. Instruction in Secondary Mathematics. 3 Credit Hours.
TAL 663. Instruction in Secondary Science. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching science in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 664. Instruction in Secondary Social Studies. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching the social sciences in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 665. Methods of Teaching in the Elementary School. 3 Credit Hours.
Theories and research-based practices for reading/language arts, science, social studies, and math instruction for all learners, including diverse populations in elementary classrooms.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 666. Introduction to the Politics of Education, Teaching, and Learning. 3 Credit Hours.
Survey overview of political debates involving education as a nested and loosely-coupled system where pressures at one level can be supported or countermanded at another. Historical and critical take on present-day debates. Depending on student interests, may go in-depth on topics such as economic politics, cultural politics, state and local control.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 667. Education Reform, Policy, and the Social Organization of Schooling. 3 Credit Hours.
This course is designed to introduce students to the politics and policy debates in American education, including how the U.S. K-12 public education is organized as a socially-constructed system. We will examine the politics of a variety of recent reforms at the local, federal and state levels and their impact on institutions, students and the public.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 668. Human Development, Learning and Schooling. 3 Credit Hours.
Major theories of child development and learning will be discussed with a focus on how they apply to teaching and learning in K-12 schools.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 669. Teacher and Student Well-Being in Education. 3 Credit Hours.
This will be an intensive, 600 level course specifically designed for students taking the Master's degree in Education and Social Change. The main thrust of the course will be to link theory and research on personal, organizational, and collective well-being with educational success and school reform. Well-being is a positive state of affairs, brought about by the simultaneous satisfaction of personal, relational, organizational, and community needs. In this course we will examine the signs, sources, and strategies of well-being in individuals, relationships, organizations and communities. The course will focus on applications of theory and research to the well-being of students, parents, teachers, and schools. We will explore the organizational well-being of schools and the policy changes needed to improve the linkages between community development and educational success of children living in poverty. Some of the questions that will be explored in the course include: What is well-being? How is your personal well-being related to the well-being of other people, organizations, and communities? What is the role of values in promoting a just society? What strategies might work for engaging relevant constituencies in educational and social change? The course will be divided into five sections as follows: - Paradigms of well-being and educational reform - Personal well-being of children, teachers, parents, and administrators - Organizational well-being with a focus on schools and educational settings - Community well-being and its relationship to educational policy - Challenges and conclusions We will cover theory and research as well as practical skills. We will watch videos, engage in role playing, discuss, and write about well-being. Our hope is that the theory and skills that you pick up in this class will help you in your personal life, your educational work, and your community change efforts. You should begin thinking about your final paper as you learn through the presentations, readings, discussions, and other assignments for this course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 670. Teacher Preparation Seminar I. 0 Credit Hours.
This hybrid zero credit course has been designed to provide additional support for students in our teacher preparation programs. Students will enroll in this course while they participate in a series of field experiences where they gain practical experience integrating theory and practice while working with students in K-12 settings. Major topics include: the Florida Educator Accomplished Practices, Live Text, and guidelines and procedures.
Components: SEM.
Grading: SUS.
Typically Offered: Fall & Spring.

TAL 671. Curriculum, Assessment, Teaching and Learning for Physical Science. 3 Credit Hours.
Analysis of content knowledge, pedagogy, and materials appropriate for teaching physical science, K-16. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in physical science, pedagogy, and student literacy in physical science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 672. Curriculum, Assessment, Teaching and Learning for Number, Operations, and Algebra. 3 Credit Hours.
This course examines topics that address the mathematical ideas underlying number, operations and algebra. Related K-16 curriculum, instructional and assessment issues will be also discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 673. Curriculum, Assessment, Teaching and Learning for Measurement and Geometry. 3 Credit Hours.
Topics involving measurement and geometry in the K-16 mathematics curriculum, how students learn and reason, assessment, instructional strategies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 674. Internship in the Elementary School. 3-6 Credit Hours.
A comprehensive program of supervised teaching in a K-6 classroom in the elementary school. The student spends a full semester employed as a full-time teacher while under the guidance of school and university personnel.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 675. Curriculum, Assessment, Teaching and Learning in the Earth Sciences. 3 Credit Hours.
Analysis of content knowledge, pedagogy, and materials appropriate for teaching Earth science, K-16. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in Earth science, pedagogy, and student literacy in life science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 676. Curriculum, Assessment, Teaching and Learning for Data Analysis and Probability. 3 Credit Hours.
Data in the K-16 mathematics: how to gather (biased and unbiased samples), store, manage, represent, analyze. Probabilistic inferences in K-16 mathematics: chance, odds, counting, related topics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 677. Applied Research in Education. 3 Credit Hours.
A graduate course in education emphasizing different research methods educators and researchers can utilize to gauge and improve student learning.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 679. Teacher Preparation Seminar II. 0 Credit Hours.
This hybrid zero credit course has been designed to provide additional support for students in our teacher preparation programs. Students will enroll in this course while they participate in a series of field experiences where they gain practical experience integrating theory and practice while working with students in K-12 settings. Major topics include: the Florida Educator Accomplished Practices, Live Text, and guidelines and procedures.
Components: SEM.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

TAL 680. Foundations of Bilingual Education. 3 Credit Hours.
This course will focus on the historical foundations of bilingual education in the U. S., current models of bilingual or dual language programs in PK-12 school settings, and contemporary understandings of bilingualism/bilingualism development using sociolinguistic and sociocultural perspectives.
Components: DL.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 681. Principles of Curriculum Development and Engagement for TESOL. 3 Credit Hours.
Components of curriculum and instructional management and engagement in ESOL classrooms. Pupil/teacher interaction, curriculum organization, student assessment and evaluation, materials development and adoption, utilization of resources, and classroom organization.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 682. Methods of Teaching Content Areas in TESOL. 3 Credit Hours.
This course examines subject matter education for English language learners (ELLs) in the K12 and international English as a foreign language (EFL) settings. Best practices are investigated and applied within different teaching contexts with a focus on helping students gain access to core subject knowledge.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 683. Introduction to Theories and Practice of TESOL. 3 Credit Hours.
Theory and practical methodology of language and literacy instruction and assessment to children, adolescents, and adults for whom English is not their first language, in alignment with current state, national, and professional standards (as applicable). There will be a focus on inquiry into instructional approaches based on contemporary theories of learning, standards-based and data-driven lesson planning, and reflective practices in the teaching and assessment of English learners.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 684. Advances Techniques in TESOL. 3 Credit Hours.
This course addresses advanced techniques in TESOL. The course focuses on methods and approaches for teaching English language learners and specific strategies to deliver instruction in the content areas.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 685. Language Assessment. 3 Credit Hours.
This course will familiarize students with the nature of and current methodologies of language assessment within a framework of psychometric and linguistic.
Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 686. Principles of First and Second Language Acquisition. 3 Credit Hours.
This course will familiarize students with the principles and processes at work in the acquisition of first and other languages. The course focuses on similarities and differences in the ways that first and second languages are learned and factors that influence the learning process for both. Participants will become familiar with current research related to language acquisition through course lectures, interactive course activities and individual as well as collaborative presentations. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 687. Home Language Strategies. 3 Credit Hours.
As a culminating course in the Bilingual/Biliteracy program track, this course will review theories in bilingual development, sociolinguistics, and language teaching in Spanish to build Spanish language proficiency for dual language teachers. There will also be an emphasis on communicating with Spanish-speaking parents of K-12 English learners. Requisite: Graduate Standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 689. Language and Literacy for Academic Learning. 3 Credit Hours.
This course introduces key concepts and practical teaching approaches for learning the academic literacies needed to be successful in school contexts. Review of language theories and research concerning teaching academic literacy for education are highlighted throughout the course and embedded within disciplinary contexts for different subject areas (i.e., mathematics, social studies/history, English language arts, and science). Linguistic pedagogy is a central focus of the course to examine applications of language theory in K-12 classrooms serving English learners.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 690. Topics in Education. 3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 691. Workshop in Education. 1-6 Credit Hours.
A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 692. Curriculum, Assessment, Teaching and Learning for the Life Sciences. 3 Credit Hours.
Analysis of content knowledge, pedagogy, and materials appropriate for teaching life science, K-16. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in life science, pedagogy, and student literacy in life science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 700. Professional Seminar. 1 Credit Hour.
The TAL Pro-seminar consists of a series of interactive sessions at which faculty, doctoral students, and guest speakers have the opportunity to discuss current topics in education research. Its purpose is to enhance the culture of scholarship and collegiality within the Department and to provide informal guidance to doctoral students on research and career directions in education.
DOCTORAL STANDING.
Components: SEM.
Grading: SUS.
Typically Offered: Fall & Spring.

TAL 701. Teacher in American Society. 3 Credit Hours.
An historical, philosophical, and sociological analysis of the teaching profession in American society. The role and status of teachers in American culture will be discussed. Contemporary issues such as the union movement, status assignment, rewards and incentives, and the role of the teacher as an instrument in the definition of the culture will also be covered.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 702. The Social and Cultural Foundation of Education. 3 Credit Hours.
This course is an interdisciplinary seminar reviewing the major literature in the Social and Cultural Foundation of Education. Classic, Modern and Post-Modern texts will be read with an emphasis on the literature written after 1980 (Post-Modern). Emphasis will be placed on the exploration of key policy questions, as well as the analysis of key sociological concepts related to the field such as hegemony, cultural reproduction, social capital and privilege. The course is intended to provide a "baseline" for understanding the field.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 703. Issues and Trends in Multicultural Education. 3-6 Credit Hours.
The study and critical examination of the theory and practice of multicultural education. Development of a personal theory of effective education for pluralism is included.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
TAL 704. Introduction to the Learning Sciences. 3 Credit Hours.
In this course we will explore perspectives and research on domain-specific and domain-general learning in and out of schools, especially those typically considered in the field of the Learning Sciences. We will examine various perspectives researchers use to inform their work and how these perspectives provide insight into what it means to learn and know. The course objectives include the following: -Understand key questions addressed in research on learning -Understand foundational and modern theories and perspectives in learning -Understand how various learning theories are applied in domain-specific/general research contexts and their limitations -Develop and articulate your own perspectives and research questions on learning.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 705. Design of online learning environments. 3 Credit Hours.
This course provides an overview of technology applications in learning environments, including history, theoretical foundations, design processes, and available technologies. The course includes an exploration of online learning applications/software, instructional design considerations, and curriculum development for online settings. Topics could include multi-literacies, digital youth network, media and connected learning, web-based learning, AI and machine based learning models.
TAL 704 OR TAL 600.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 706. Design of Formal Learning Environments. 3 Credit Hours.
This course on instructional design provides an overview of theoretical approaches to learning that can be used to analyze learning environments, of learning goals for creation and sequencing of learning activities, and of how resources can be deployed in support effective learning. Topics can include the use of theoretical learning trajectories, tenets and applications of universal design, and social support and intellectual scaffolds for learning.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 707. Design for workplace related learning. 3 Credit Hours.
This course deepens participants’ understandings of workplace training and professional development by relating learning to needs assessments; instructional design techniques; program planning, marketing, and delivery techniques; and evaluation of adult learning programs within a variety of organizational settings. Emphasis is placed on constructing training and professional development programs that are meaningful to a diverse workforce and that achieve individual and organizational outcomes to improve an individual’s and the organization’s performance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 708. Design of Out-of-School, Informal Learning. 3 Credit Hours.
This graduate seminar focuses on learning concepts and practices in and out of formal (school) instructional settings. People learn across a variety of places and over their entire lifespans; much of this learning is elective or interest-driven, in the sense that people voluntarily engage in activity in order to learn. In this we course, we consider how learning is organized within and across a variety of informal settings, including state and national parks, museums, theater organizations, zoos, aquariums, sports teams, one-on-one performance coaching, after school programs, nonprofit community centers, in families or home environments, in virtual or online social spaces, and even in interactions between medical personnel and their clients. This course will include ties to sociocultural theories of development and learning as applied to out-of-school, informal contexts. The course provides a review of new empirical research and an overview of theoretical approaches to learning that can be used to analyze informal learning environments. The course will involve theoretical and empirical readings with group discussion, but also visits from and to people who are involved in learning in informal settings.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 709. Applied Research and Development in Learning Sciences - Seminar I. 1-3 Credit Hours.
Students define and conceptualize a group-based project on learning within their particular employment settings. Groups will develop and implement a plan for a well-focused first effort. The project and its results may be submitted as a digital artifact making use of multiple media in a single language (such as English, French, Italian, Spanish, Portuguese or Chinese) by a team where that language was used to implement the plan and where its use will facilitate the project’s completion. Each individual member of the team submits a paper defining their unique contributions to the project in such a way that it is clear that the work built upon and drew from course work in the Learning Sciences. Individual contributions must be substantive and should be complementary. Projects must be approved by advisor before it is implemented; if a language other than English will be employed, it must also be approved by faculty who will review and evaluate it.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 710. Introduction to Research. 3 Credit Hours.
This graduate course focuses on diverse philosophies and epistemologies of research and the various methodologies that arise from them. Students will develop an understanding of and appreciation for a range of complementary educational research traditions. The goal is to enable students to participate meaningfully and critically in multiple discourse communities that employ and/or produce research bearing on substantive local, national, and international issues in education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 711. Video Analysis Methods. 3 Credit Hours.
Video-based data has become ubiquitous in educational research. This methods course is designed to facilitate learning how to use video-based research methods in educational research. Despite the growing interest in video-based approaches, we are still beginning to theorize about various points of view when collecting and analyzing video data. There are practical questions about collecting video data and a growing number of software programs to support data analysis. The goal of this course is to learn about video-based methods for data analysis by critically engaging with how others do video analysis and by doing it collectively in the classroom and individually in a final paper.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 712. Applied Research and Development in the Learning Sciences - Seminar 2. 1-3 Credit Hours.
Students build upon, (re)define, (re)conceptualize, (re)develop and (re)implement their group-based project from TAL709 by using the research methods employed in its evaluation. The advanced project and its results may be submitted as a digital artifact making use of multiple media in a single language (such as English, French, Italian, Spanish, Portuguese or Chinese) by a team where that language was used to implement the plan and where its use will facilitate the project’s completion. Each individual member of the team submits a paper defining their unique contributions to the project in such a way that it is clear that the work built upon and drew from course work in the Learning Sciences. Individual contributions must be substantive and should be complementary. Projects must be approved by advisor before it is implemented; if a language other than English will be employed, it must also be approved by faculty who will review and evaluate it.

Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 720. Research in Residence - Masters. 1 Credit Hour.
Masters-degree and Ed.S. students enrolled for credit as determined by advisor. Credit awarded when thesis is accepted.

Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 730. Topics in Language and Literacy Learning. 1-3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 731. Language Policy and Planning (K-12). 3 Credit Hours.
The course focuses on the areas that have been of particular interest to sociolinguists and language planners, namely, status planning, corpus planning, prestige planning, language-in-education planning, the language rights of linguistic minorities and the more recent movements from macro issues on language policy and planning (LPP) to micro issues involved in indexing linguistic, ethnic and racial identities. In addition, the course will address matters of migration, imperialism, state formation and political conflicts due to LPP in the United States as well as in countries in Latin America, the Caribbean, Africa, Asia and Europe.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 732. Seminar in Reading. 3 Credit Hours.
Seminar providing intensive study of contemporary topics in reading. Open to advanced graduate students in reading.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 734. Theory and Research in Reading. 3 Credit Hours.
This course explores the intellectual roots of theories of reading and how these are used to generate testable research hypotheses about linguistic, psychological, social, and cultural factors that influence and sustain reading development and reading performance. The course surveys works that have influenced research and theory in the field of reading from its inception in the early 1900’s—through the work of experimental psychologists such as Huey—to present times. The readings and lectures will include work that represents the influence of the intellectual traditions of the introspectionists, behaviorism, cognitive psychology, constructionism, socio-cultural theory, and cognitive neuroscience.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 735. Theory and Research in Writing. 3 Credit Hours.
Seminar that explores the complementary relationship between reading and writing through the reading and analysis of theoretical and research literature on writing theory and writing instruction.

Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 736. Pidgins, Creoles and African-American English in Sociolinguistic Research. 3 Credit Hours.
The course examines the typology of languages that emerged in North and South America as well as in the Caribbean as a result of sociolinguistic contact between European languages and west African languages, namely, pidgins, creoles and African-American English. The course also examines current debates on the extent to which the superstrate and substrate languages as well as the principles of Universal Grammar and the Language Bioprogram Hypothesis have contributed to the linguistic structures of Atlantic Pidgins, Creoles and African-American and Creole cultures are explored. Additionally, the course addresses the sociolinguistic research that advocates dialect diversity and the affirmation of vernacular languages as a means of social and educational reform.
Requisite: Graduate Standing.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.
TAL 752. Seminar in Reading/Learning Disabilities. 3-12 Credit Hours.
Contemporary topics in reading and learning disabilities. Rotating topics and faculty. Open only to advanced graduate students in reading and learning disabilities pursuing specialist or doctoral degrees. Specialist students enroll for a total of six hours, and doctoral students for a total of 12 hours. Course may be repeated for a total of 12 credits. Subtitles describing the topics to be offered will be shown in parentheses in the printed schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 753. Cognitive Psychology in Special Education. 3 Credit Hours.
Learn about different cognitive theorists and discuss various theoretical positions as to their strengths and weaknesses within and across theories. Address theory refinement over time and the application of theory to research practice. Review literature in a systematic manner and write an integrated and purposeful review of research. Develop a research proposal that is theory-based. Participate in the peer review process.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 754. Disability and Diversity: Critical Views. 3 Credit Hours.
Examines critical issues in the cultural/historical conceptualization of the field of special education against the background of cross-cultural views of disabilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 755. Current Issues in Special Education. 3 Credit Hours.
Current issues and trends in special education from historical, societal, policy, practice, and research perspectives. Topics may include identification, referral, and eligibility; inclusion and Least Restrictive Environment; parent involvement; participation of students with disabilities in high-stakes testing; cultural/linguistic diversity; the disproportionate placement of minorities; and teacher qualifications, certification, and education.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 756. Research in Special Education. 3 Credit Hours.
Critical analysis of empirical research studies in selected areas of special education research, focusing on research designs, data analysis methods, and interpretation of findings.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 757. Seminar in Special Education. 3-12 Credit Hours.
Study in special interest areas in special education. May be taken for up to 12 credits.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 758. Topics in Special Education. 1-3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing in important educational issues for which format course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 770. Topics in STEM Education. 1-3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which format course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topics.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 772. Instructional Design and Technology in STEM Education. 3 Credit Hours.
This course is designed to help you take an engineering approach in instructional design, development, and evaluation in STEM education. The course focuses on instructional systems development with a particular emphasis on technology-enhanced K-12 STEM education environments. We will develop an in-depth theoretical understanding and practical skills of instructional design and technology.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 773. STEM Teaching and Teacher Education. 3 Credit Hours.
Advanced and specialized topics in research on the teaching and learning of science, technology, engineering and mathematics (STEM) including the development of teachers across their careers, professional development, design experiments, and teacher-learning in and out of school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 774. STEM Learning. 3 Credit Hours.
Provides an overview of the historical roots and current state of the learning sciences, as they apply to the study of learning in science, technology, engineering and mathematics (STEM). Organized around reading, discussion and synthesis of research.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 775. STEM Curriculum and Policy. 3 Credit Hours.
Study of mathematics and science curricula, with the inclusion of engineering and technology as applied science and mathematics. Study of the competing forces that shape curriculum including standards documents, state and national policy, conceptions of the disciplines, modern and postmodern analyses of curriculum theory.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 776. Assessment in STEM Education. 3 Credit Hours.
Overview of the theoretical and research frameworks for student assessment in science, technology, engineering and mathematics (STEM). Topics include classroom-based assessment, testing for high stakes and other purposes, national and international comparisons in mathematics and science achievement and factors impacting on STEM-related persistence and careers.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 777. STEM-Education Research Practicum. 3 Credit Hours.
Defining an empirical or theoretical research issue, arguing for its importance; framing the study based on related research; designing, implementing and documenting appropriate research methods; reporting and interpreting the results; writing and submitting a manuscript – in the fields that comprise STEM-education.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 778. Diversity and Equity in STEM Education. 3 Credit Hours.
Issues of unequal student achievement, course taking, degree-seeking, and careers that rely on science, engineering, technology and mathematics (STEM). Focus is on social-demographic groups defined along lines of race, ethnicity, social class, gender language, and their interactions. Historical and social antecedents, current day policies and practices, extant research consequences and future trends.
Components: LEC.
Typically Offered: Offered by Announcement Only.

TAL 790. Advance Topics in Education. 3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 793. Advanced Individual Study. 1-3 Credit Hours.
Individual work on a special project under faculty guidance. Application for Ad mission to Advanced Individual Study form will be required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 794. Advanced Individual Study. 1-3 Credit Hours.
Individual work on a special project under faculty guidance. Application for Ad mission to Advanced Individual Study form will be required.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 795. Practicum/Internship: Elementary Exceptional Student Education Classroom. 1-6 Credit Hours.
A comprehensive program of observations and supervised teaching in an elementary exceptional student education classroom. The student spends full time in the classroom participating in all activities of the teacher under the guidance of school and university personnel.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 796. Advanced Individual Study for Doctoral Students. 1-3 Credit Hours.
Individual work on a special project under faculty guidance. Application for Ad mission to Advanced Individual Study form will be required.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 801. Master's Thesis. 1-6 Credit Hours.
The student working on his/her master's or Ed.S. thesis enrolls for credit. In most departments no to exceed six, as determined by his/her advisor. Credit is not awarded until the thesis has been accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

TAL 815. Post-Candidacy Thesis Research. 1-12 Credit Hours.
Masters-degree and Ed.S. students enrolled for credit as determined by advisor. Credit awarded when thesis is accepted.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

TAL 825. Continuous Registration - Master's Study. 1 Credit Hour.
To establish residence for non-thesis master's study who are preparing for major examinations or working on culminating project. Credit not granted. Regarded as full time residence.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 830. Pre-Candidacy Dissertation Research. 1-12 Credit Hours.
Doctoral students enrolled for credit as determined by advisor. Credit is awarded when dissertation is accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

TAL 835. Doctor of Education Dissertation. 1-12 Credit Hours.
Required of all candidates for the Ed.D. The student enrolls for credit as determined by his/her advisor. Credit is not awarded until the doctoral project has been accepted. Total enrollment may not exceed 12 credits.
Components: LEC.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

TAL 840. Post-Candidacy Dissertation Research. 1-12 Credit Hours.
Doctoral students enrolled for credit as determined by advisor. Credit is awarded when dissertation is accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall & Spring.

TAL 850. Research in Residence. 1 Credit Hour.
Doctoral students enrolled for credit as determined by advisor. Credit awarded when dissertation is accepted.
Components: THI.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.
TAL 862. Principles of Curriculum Development and Classroom Management for TESOL. 3 Credit Hours.
Components of curriculum and instructional management in ESOL classrooms. Pupil/teacher interaction, curriculum organization, student assessment and evaluation, materials development and adoption, utilization of resources, and classroom organization will be covered.
 Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 878. Teaching in the Elementary School (YR). 3-6 Credit Hours.
A comprehensive year-long program in observation and supervised teaching in the elementary school. The student spends full time in an elementary school participating in all activities of the teacher under the guidance of school and university personnel following the calendar of the school system.
 Components: LEC.
Grading: GRD.
Typically Offered: Spring.

**Theatre Arts (THA)**

THA 101. Introduction to Theatre. 3 Credit Hours.
Intro survey course in theatre—what it is now, how it works, its practitioners and the relationship of theatre to the contemporary world. Attendance at Ring Theatre productions is required.
 Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 102. Introduction to the Audition. 2 Credit Hours.
Students will learn the methods and techniques used to create a successful performance audition. The student will learn how to choose appropriate audition material and how to rehearse the material for an effective and professionally-minded audition.
 Components: LEC.
Grading: GRD.
Typically Offered: Summer.

THA 103. Introduction to Theatre Crafts. 1 Credit Hour.
Students will learn the techniques and methods used to create costumes, scenery and stage properties for theatrical productions. Lectures and hand-on projects will allow students to practice their skills in scenic construction, scenic painting, sewing, and costume crafting.
 Components: LEC.
Grading: GRD.
Typically Offered: Summer.

THA 104. Performance Practicum. 3 Credit Hours.
Students will be cast in and rehearse a performance piece with a stage director. Students will learn effective methods for memorizing text and best professional practices in collaboration with the director and artistic team. The piece will be performed in front of a live audience at the end of the course.
 Components: LEC.
Grading: GRD.
Typically Offered: Summer.

THA 105. Introduction to Acting. 3 Credit Hours.
Basic tools of acting craft including analysis, physical action and reacting in the moment explored through exercises, scripted work and readings. A doing class, making attendance essential.
 Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

THA 106. Introduction to Acting for the Musical Theatre. 3 Credit Hours.
Basic tools of Musical Theatre Acting craft including vocal approaches for the actor, theatrical and musical analysis, physical action and an introduction to musical theatre acting styles explored through exercises, scripted work with an extensive listening component.
 Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 108. Introduction to Standardized Patient Simulation. 3 Credit Hours.
Standardized patients are actors who are trained to realistically portray a specific patient's history, subtext, personality, physical infirmities and emotional states within a simulated interview or simulated physical examination session with a medical student. Students will learn basic acting skills and physiological knowledge needed to support and serve interactive clinical training.
 Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 110. Freshman Performance Laboratory. 1 Credit Hour.
Laboratory component to supplement Theatre Arts BFA Performance training courses.
 Corequisite: THA 111 or THA 112.
 Components: LAB.
Grading: SUS.
Typically Offered: Fall & Spring.

THA 111. Acting I-A. 2 Credit Hours.
Introduction to the elements of drama and theatre, and to the basic tools of acting craft.
Requisite: BFA Performance or Musical Theatre majors only.
 Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 112. Acting I-B (Script Analysis). 2 Credit Hours.
Continued work on basic tools of craft including script analysis.
Requisite: BFA Performance or Musical Theatre majors only.
 Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 113. Movement I-A. 2 Credit Hours.
The integrated method of voice, movement and acting training known as The Expressive Actor developed by Michael Lugering.
Requisite: BFA Performance or Musical Theatre majors only.
 Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 114. Movement I-B. 2 Credit Hours.
A continuation of THA 113, this course challenges students to apply the fundamentals of the Expressive Actor training to character building and scene work.
Requisite: BFA Performance or Musical Theatre majors only.
 Components: LEC.
Grading: GRD.
Typically Offered: Spring.
THA 116. Dance I-A. 2 Credit Hours.
Beginning ballet and jazz for Musical Theatre with strong focus on technique and terminology.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 117. Dance I-B. 2 Credit Hours.
Continuation of THA 116.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 120. Freshman Studio I. 1-2 Credit Hours.
First year theatre laboratory with strong focus on ensemble, rehearsal, and performance skills.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 121. Freshman Studio II. 1-2 Credit Hours.
A continuation of THA 120.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 131. Musical Theatre Skills I. 2 Credit Hours.
The first semester of a four semester practical course sequence designed to teach musical skills, techniques, keyboard skills and theory relevant to the contemporary musical theater actor.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 132. Musical Theatre Skills II. 2 Credit Hours.
The second semester of a four semester practical course sequence designed to teach musical skills, techniques, keyboard skills and theory relevant to the contemporary musical theater actor.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 140. Introduction to Dance. 3 Credit Hours.
Beginning dance skills and stylistic elements of theatrical forms of dance (repeatable).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 141. Introduction to Scenic, Costume, and Light Design in Theatre and Film. 2 Credit Hours.
Beginning facets of the scenic, costume, and lighting design process mainly for theatre, and some aspects of film. Students will learn the basic role of scenic, costume, and lighting designers in theater and film. The course will put students into practice of the professional process by which theatrical designers analyze a text, provide visual research, create preliminary drawings, and create final drawings for stage designs. The main objective of the course is to develop 'designer's eye'. Each project will challenge students to cultivate artistry, creativity, and skills to search metaphor for designs. This introductory course serves as the prerequisite of most of higher level theatrical design courses. It is important for all students who are interested in taking other design or drawing courses to gain knowledge of the basic design languages and tools in this course. Students are required to take the accompanying THA 143 Lab in order to gain more hands-on experience with the use, maintenance, and operation of actual theatrical equipment
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 142. Introduction to Theatre Technology. 2 Credit Hours.
A hands-on course providing skills in the operations necessary to execute scenic or lighting design: basic scenery construction, materials and techniques, scenic painting and lighting hang and focus procedures.
Components: EXP.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 143. Backstage Crew Lab. 1 Credit Hour.
Participation in the backstage running crew during technical rehearsals and performances of one production in the Jerry Herman Ring Theatre season. Evening and weekend hours required.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 144. Production Crew Lab. 1 Credit Hour.
Hands-on work in the preparation of technical elements (scenery, costumes, props, lighting, sound) or front-of-house services for Jerry Herman Ring Theatre productions.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 150. Musical Theatre Vocal Techniques. 1 Credit Hour.
Fundamentals of Vocal Productions explored through group lessons. Enrollment limited to first-year BFA students. May be taken twice for credit.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 160. Dance Styles. 3 Credit Hours.
A variety of ethnic dance forms that will vary from one semester to the next. Different cultural dance styles will be offered on a rotating basis.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
THA 161. Beginning/Intermediate Tap. 3 Credit Hours.
Beginning/intermediate tap class. Not a lecture class; students will be dancing during each class period. Tap shoes are required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 162. Intermediate Advanced Tap. 3 Credit Hours.
Intermediate advanced tap class. Not a lecture class; students will be dancing during each class period. Tap shoes are required.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 191. Introductory Applied Music Theatre Voice I. 1 Credit Hour.
One-half hour individual lessons tailored to the individual needs of the students. Enrollment is limited to first-year BFA music theatre students. BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 192. Introductory Applied Music Theatre Voice II. 1 Credit Hour.
One-half hour individual lessons tailored to the individual needs of the student. Enrollment is limited to first-year BFA music theatre students. BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 194. Singing for Actors. 1-2 Credit Hours.
Fundamentals of singing to include breath control, tone production, articulation. An ensemble approach to exploring and gain self-confidence in the skill of singing for the American musical stage. Requisite: Theatre Performance Major or Additional (THA2_BFA, THTR2_AS_A).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 196. Singing for the Stage I-A. 1-2 Credit Hours.
The selection of learning process and performance of Musical Theatre Songs with emphasis on lyrics. BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 197. Singing for the Stage I-B. 1-2 Credit Hours.
Continuation of THA 196. BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 198. Voice and Speech I-A. 2 Credit Hours.
Fundamentals of relaxation and breath management, alignment, tone production, pitch and resonance. Anatomy and physiology of the vocal structures. Introduction to the International Phonetic Alphabet (IPA). Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 199. Voice and Speech I-B. 2 Credit Hours.
Development of General American speech production and articulation skills through further phonetic study. Explorations in range, inflection, resonance, tempo and rhythm within the application of voice to text. Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 206. Acting for Musical Theatre. 3 Credit Hours.
Intermediate tools of Acting for the Musical Theatre including analysis and investigations in style. Prerequisite: THA 105 or THA 106.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 208. Intermediate Standardized Patient Training. 3 Credit Hours.
Standardized patients are healthy people who are trained to realistically portray a specific patient’s history, subtext. personality, physical infirmities and emotional states within a simulated interview or simulated physical examination session with a medical student. Students with previous SP experience will learn intermediate acting skills and work with patient histories that deal with behavioral health. Prerequisite: THA 108.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 210. Sophomore Performance Laboratory. 1 Credit Hour.
Laboratory component to supplement Theatre Arts BFA Performance training courses. Corequisite: THA 211 or THA 212.
Components: LAB.
Grading: SUS.
Typically Offered: Fall & Spring.

THA 211. Acting II-A. 2 Credit Hours.
Intensive scene study for sophomore conservatory actors. Basic tools of craft developed through use of contemporary plays, script analysis, and rehearsal techniques. Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 212. Acting II-B. 2 Credit Hours.
A continuation of THA 211. Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 214. Movement II. 1 Credit Hour.
Stage combat utilizing the Dueling Arts International Level-1 curriculum for the Unarmed, Broadsword, and Single Rapier disciplines. Students will have the option of submitting their skills tests for adjudication and possible certification through Dueling Arts International. Prerequisite: THA 114.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
THA 216. Dance II-A. 1 Credit Hour.
Intermediate Musical Theatre dance taught through ballet and jazz, with an emphasis on technique and style.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 217. Dance II-B. 2 Credit Hours.
A continuation of THA 216 incorporating characterization and additional style.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 231. Music Theatre Skills II. 2 Credit Hours.
The third semester of a four semester practical course sequence designed to teach musical skills, techniques, keyboard skills and theory relevant to the contemporary musical theatre actor.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 232. Music Theatre Skills IV. 2 Credit Hours.
The fourth and final semester of a four semester practical course sequence designed to teach musical skills, techniques, keyboard skills and theory relevant to the contemporary musical theatre actor.
Prerequisite: THA 231.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 240. Introduction to Dance II. 3 Credit Hours.
Continuation of THA 140 (repeatable).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 241. Basic Costume Sewing and Scenic Painting. 3 Credit Hours.
Basic scenic painting and costume construction techniques. Scenic painting includes fundamentals in wood, marbles, brick, stones, lights and shadows. Costume construction includes fundamentals in hand/machine sewing, dyeing, distressing and pattern reading.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 242. Drafting for the Theatre. 3 Credit Hours.
Drafting standards and techniques used for the theatre to produce scenic and lighting plans. Hand drafting and computer aided drafting.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 243. Beginning Theatre Design How to Sketch Your Idea. 3 Credit Hours.
Basic sketching, mechanical drawing and rendering techniques used for costume and scenic design. Basic black and white figure drawing, lights and shadows and perspective elevations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 244. Theatre Design and Collaboration - Three Dimensional Creativity for Scenery and Costumes. 3 Credit Hours.
Advanced training in drawing and rendering used for costume and scenic design for the theatre. Color costume plates and scenic renderings.
Prerequisite: THA 243.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 245. Technical Planning for Theatrical Productions. 3 Credit Hours.
Characteristics and structure of Scenery, Properties, Scenic Art, Costumes, Lighting. Sound and Video departments for theatrical performance. Study of each production department's budgeting, scheduling and logistical needs.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 246. Survey of Design for Theater and Live Entertainment. 3 Credit Hours.
Principles and procedures of the design and technical production aspects of theatre and live entertainment.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 247. Master Electrician for the Stage. 3 Credit Hours.
Training for the position of Master Electrician and Assistant Lighting Designer (or theoretical productions. Practical application of production planning, lighting paperwork, overseeing lighting crews, advanced electrical theory, power distribution, and creative problem solving.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 248. Introduction to Design for Film. 3 Credit Hours.
Various aspects of costume design and production in films by introduction to the designer's roles, design models, design language, and collaborative efforts in film to the student. Later in the semester students will experience developing their own designs through simpler projects, such as designing a song or scene from novels.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 251. Intermediate Acting I. 3 Credit Hours.
Basic tools of the actor's craft are developed through script work, scene study, and improvisational techniques.
Prerequisite: THA 105 or THA 106.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 252. Intermediate Acting II. 3 Credit Hours.
A continuation of THA 251 focusing on script analysis and choice making for scene work.
Prerequisite: THA 251.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
THA 253. Special Topics in Voice for the Stage. 3 Credit Hours.
Study of vocal production in both broad and specialized areas including
general vocal training for stage or public speaking, voice over techniques and
dialects.
Prerequisite: THA 105.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 254. Movement for Actors. 3 Credit Hours.
Physical range and control, physicalization and condition of character, and stage violence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 281. History of Western Theatre Architecture. 3 Credit Hours.
Covers the evolution of performance spaces in Europe and the United States, from Ancient Greek structures to modern-day multi-venue Performing Arts complexes.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 291. Beginning Applied Music Theatre Voice I. 1 Credit Hour.
One-Hour individual lessons tailored to the individual needs of the students. Enrollment is limited to second-year BFA music theater students.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 292. Beginning Applied Music Theatre Voice II. 1 Credit Hour.
One-hour Individual lessons tailored to the Individual needs of the student. Enrollment is limited to second-year BFA music theater students.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

THA 294. Singing for Actors II-A. 2 Credit Hours.
Development of musical theatre singing technique for BFA Acting majors.
Skills to be developed include proper breathing, tone, articulation, lyric interpretation, and physical presentation. Course is repeatable.
Requisite: Theatre Performance Major or Additional (THA2_BFA, THTR2_AS_A).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 296. Singing for the Stage II-A. 1 Credit Hour.
A continuation of ideas presented in THA 196 and 197.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 297. Singing for the Stage II-B. 1 Credit Hour.
The study of material derived from the popular music canon (pop, rock, et al), melding contemporary vocal styling with the traditional narrative aims of theatrical storytelling. The incorporation of concurrent musical theatre skills training in the creation of vocal arrangements.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 298. Voice and Speech II-A. 1 Credit Hour.
Improvement of individual voice and speech skills: through in-depth examination of habitual speech formation and vocal patterns. Application of the IPA within American accent study.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 299. Voice and Speech II-B. 2 Credit Hours.
Strengthening the connection between the acting impulse and speaking voice. Extended voice production within scene work. Introduction to Shakespeare's verse structure.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 301. Theater and the Holocaust. 3 Credit Hours.
Through readings, research, class discussions and personal reflections this course explores the philosophical and historical context of Holocaust-related plays written in the aftermath of World War II.
Prerequisite: ENG 106.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 302. People, Places and Play: Theatre that Changed the World. 3 Credit Hours.
An examination through the lens of the drama, the seminal events that brought about the death of romanticism and gave birth to the modern era. Emphasis is placed on social change as evidenced through theatre as a mirror to the world in events, dramatic literature and the people that shaped it from the Revolutions of 1848 to the present; exploring the great minds outside the world of theatre and the effect this had on the great minds in the theatre. *Not open to Theatre Majors or Minors: for BGS students only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 310. Junior Performance Lab. 1 Credit Hour.
Laboratory Component to supplement Theatre Arts BFA Performance training courses, specifically TBA 311, THA 312, THA 316, THA 313, THA 396, THA 398 & THA 399
Components: LAB.
Grading: SUS.
Typically Offered: Fall & Spring.
THA 311. Acting III-A. 2 Credit Hours.
An in-depth study of acting Shakespeare, focusing on text and physicality. The source material may include texts of fellow Elizabethan/Jacobean playwrights as well as other 16th/17th Century European playwrights. The student is expected to incorporate period movement and style, voice technique, and acting skills studied in prerequisite and concurrent courses.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 312. Acting III-B. 2 Credit Hours.
A continuation of THA 311 with focus on high style and Comedy of Manners. May include Shaw, Wilde, and Coward.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 313. Movement III. 1 Credit Hour.
A focus on the physical performance techniques and requirements of a variety of historic theatrical periods.
Prerequisite: THA 214.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 314. Movement II-B. 1 Credit Hour.
Fundamentals of mask work through the study of a 'personal clown'; the character mask and/or an in-depth study of Commedia dell'Arte masks and character types.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 315. Auditioning I. 2 Credit Hours.
First semester of a two semester sequence designed to aid BFA students in the development of material and techniques necessary for professional audition circumstances.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 316. Dance III-A. 2 Credit Hours.
Advanced Musical Theatre Dance incorporating high technical proficiency for expression, characterization and style.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 317. Dance III-B. 2 Credit Hours.
A continuation of THA 316.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 341. Sound for the Theatre. 3 Credit Hours.
A basic sound design class to develop an ear for music and sound.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 342. Scenic Design. 3 Credit Hours.
Techniques for analyzing, planning and designing stage scenery, executing color rendering and stage models.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 343. Costume Design. 3 Credit Hours.
Techniques for analyzing, planning, and designing theatrical costumes.
Executing color rendering plates.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 344. Lighting Design. 3 Credit Hours.
Techniques for analyzing, planning and designing theatrical lighting.
Executing light plots and corresponding paperwork.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 345. Scenic Materials and Structures. 3 Credit Hours.
Materials used in scenic construction and advantages of each. Students will perform basic structural analysis on scenery built with these materials and will study rigging systems and knots used in backstage work.
Prerequisite: THA 142.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

THA 350. Musical Theatre Vocal Techniques II. 1 Credit Hour.
Advanced Musical Theatre Vocal Techniques explored through group or private lessons.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 351. Auditioning and Preparing for the Profession. 3 Credit Hours.
How to succeed in the theatre profession. Students will prepare audition pieces and learn resume preparation, headshots, interviewing, and other aspects of searching for and obtaining work. Not for BFA Students.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 352. Singing for the Musical Theater. 3 Credit Hours.
The process of acting and singing a song for a musical play or review.
Song selection, technical and acting mechanics, and how to deliver the song using 16 and 32 bar material.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
THA 356. Improvisational Acting. 3 Credit Hours.
An introduction to the basic craft of Improvisational Acting through an exploration of short form and long form improvisational acting styles. Prerequisite: THA 112 or THA 252.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 364. The Theatre Industry. 3 Credit Hours.
Producing trends on Broadway, the Road, and Regional Theatre. The basics of producing, managing, and marketing a play from securing the performance rights to closing night. Prerequisite: THA 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 365. Principles of Stage Management. 3 Credit Hours.
The study of the basic work of a theatrical stage manager from pre-production to post production, including preliminary work, auditions, rehearsals, coordinating of departments, technical & dress rehearsals, performance and post production duties. Much class time is devoted to discussing the role of the stage manager as a theatre collaborator. Also discussed are stage and business techniques as applied to the entertainment industry with a focus on strengthening organizational and interpersonal skills in order to function successfully as an effective leader.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 366. Theatre Management Practicum I. 3 Credit Hours.
Practical experience on the annual season ticket campaign, marketing, finances, house management, and facilities management at the Jerry Herman Ring Theater. Open only to Theatre Management majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 367. Theatre Management Practicum II. 3 Credit Hours.
Practical experience on the annual season ticket campaign, marketing, finances, house management, and facilities management at the Jerry Herman Ring Theatre. Open only to Theatre Management majors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 369. Producing New Plays and Musicals. 3 Credit Hours.
The components needed to produce a new body of theatrical work. Topics that will be discussed are the selection of a creative team, developmental timelines, budgeting, and approaches to managing a new work from both a business and creative perspective. This is a hands-on class that will span the entire process from creation of a script to performance. Prerequisite: THA 364.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 370. Popular Culture and Entertainment: Performance, Spectacle, and Audience Experience. 3 Credit Hours.
An exploration of the ways in which performance uses spectacle to create events that captivate audiences. What purpose does popular entertainment serve for the general public in different eras? How does entertainment encourage us to play? What does this playful diversion do for us as individuals? Why do artists use spectacle to manipulate our experience and perception of the world?
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 371. Play Analysis II. 3 Credit Hours.
Understanding the basic principles involved in play construction. Prerequisite: THA 381.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 375. Introduction to Playwriting. 3 Credit Hours.
A writing workshop supplemented with readings, discussions, and staging in which classical texts are adapted into new stage translations for contemporary audiences. Utilizing today’s best theatre acting/directing methodologies, students will complete a series of short adaptation exercises as well as a longer, co-directed project.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 377. Make Them Laugh: How to Write Comedy. 3 Credit Hours.
Analysis of comedic masters in order to create your own comedic material.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 381. Play Analysis I. 3 Credit Hours.
Play structure from the viewpoints of the actor, director, designer, and audience. Understanding the play and making production choices.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 382. Play Analysis II. 3 Credit Hours.
A continuation of THA 381. Emphasis on non-realistic theatre.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

THA 383. Queer Theatre: Body Politics/Staging Sexuality. 3 Credit Hours.
Examines theatrical representations of GLBTQ issues in the U.S. from the 1960s to the present, in terms of the aesthetic/political project of ‘Queer Theater.’ Considering theater as a transformative social form, students will have opportunities for creative practice and scholarship. May be taken for Writing Credit.
Prerequisite: ENG 106.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
THA 384. Music in the American Theatre: Its Dramaturgy, Music, and Cultural. 3 Credit Hours.
A survey of the history of musical theater in America, from its earliest
days with American colonial works to our present era of Internet-
facilitated global artistic exchange. As a result, the course encompasses
a vibrant diversity of intimately related musical-theatrical forms, styles,
methods, and cultural responses, represented by such heterogeneous
labels as ballad opera, minstrel show, operetta, and mega-musical, to
name just a few.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 385. History of Interior Design and Furniture. 3 Credit Hours.
The history and evolution of western interior decor and furniture design
from Classical Greece through the present. Lectures and design exercises
highlight changing aesthetics in architectural design, interior design and
the decorative arts for theatrical designers and production designers for
film.
Requisite: Sophomore Standing or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 386. History of Fashion. 3 Credit Hours.
A history of clothing and other visual elements that provide a research
background for theatrical design, prehistoric through present.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 388. African American Theatre History. 3 Credit Hours.
African-American struggles for self-definition against prevailing
hegemonies using theatre as a tool for expressing the truth of their
identities.
Prerequisite: ENG 106.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 389. Voice and Speech III-A. 1 Credit Hour.
Application of voice and speech in classic texts—particularly that of
Shakespeare and translation plays. Accent monologues and scenes.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 391. Internship. 1-3 Credit Hours.
Prescribed work and study at a theatre, opera, or dance company as
it pertains to the major’s concentration of study. Collateral reports,
readings, conferences with faculty supervisor.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 392. Intermediate Applied Music Theatre Voice II. 1 Credit Hour.
One-hour individual lessons tailored to the individual needs of the
student. Enrollment is limited to third-year BFA music theater students.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

THA 396. Singing for the Stage III-A. 1-2 Credit Hours.
Instruction and coaching of advanced vocal and audition material drawn
from American musical theatre.
BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
THA 412. Acting IV-B. 2 Credit Hours.
Scene study focusing on contemporary playwrights who use elevated language. May include Pinter, Stoppard, Mamet, Anouilh, Churchill, and others.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 413. Movement III-A. 3 Credit Hours.
Unarmed combat for the stage: basic and advanced techniques including punches, slaps, kicks, rolls and fight choreography. As sanctioned by the Society of American Fight Directors (SAFD).
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 415. Auditioning I. 2 Credit Hours.
A course dedicated to the business of theatre for actors. Students will prepare three to five audition pieces. Covers headshots, resumes, income tax situations, unions, and methods of searching for and obtaining work.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 416. Auditioning-II. 2 Credit Hours.
Continuation of THA 415.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 420. Senior Studio. 3 Credit Hours.
Rehearsal and production of a showcase culminating in a New York performance for agents and casting directors.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 421. The American Theatre: Industry Journeys and Careers. 3 Credit Hours.
Theatre business career paths of the American theatre, lecture by prominent industry leaders from around the nation with theatre department faculty. Topics of study include Broadway, Off Broadway, touring productions, regional theatres and performing arts center management; as well as business skills development including knowledge and interview evaluation.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 431. Musical Theatre Styles I. 2-3 Credit Hours.
Focus on the preparation of a professional musical theatre audition book. Emphasis on all current musical theatre song styles. 16 and 32 bar audition cuts, full songs and appropriate monologues.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 432. Musical Theatre Styles II. 2-3 Credit Hours.
Musical scene study class exploring scenes from various styles and genres of musical theatre. Scenes will consist of spoken dialogue and singing. Continuation of THA 431.
Requisite: BFA Performance or Musical Theatre majors only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 441. Advanced Design and Management Practicum I. 3 Credit Hours.
Hands on practicum training working as a designer or technical craftsperson for a mainstage or studio production; or as an assistant designer or assistant technical craftsperson for a mainstage production. Repeatable once for credit toward major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 442. Advanced Design and Management Practicum II. 3 Credit Hours.
Hands on practicum training working as a designer or technical craftsperson for a mainstage or studio production; or as an assistant designer or assistant technical craftsperson for a mainstage production. Repeatable once for credit toward major.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 450. Special Topics in Performance. 3 Credit Hours.
Intensive study and practical exploration of a specialized area of performance such as Social Theatre, Physical Theatre, Classical Greek Theatre, Commedia dell’arte, Solo Performance, Musical Theatre Performance, among others. Final performances before an invited audience.
Prerequisite: THA 252.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 451. Advanced Acting: Classical Poetic Text. 3 Credit Hours.
An introduction to styles focusing on the Greeks, Shakespeare, Restoration and other plays on poetic language.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 452. Advanced Acting: Contemporary Poetic Text. 3 Credit Hours.
Acting and scene study focusing on contemporary playwrights who use poetic language, such as Mamet, Stoppard, Pinter, Shepard, Vogel, and Churchill.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 453. Theatre Arts Capstone. 3 Credit Hours.
An opportunity to implement the knowledge and skills gained in course work in the areas of design and technical theatre, acting, directing, and playwriting within a student-driven, faculty-supervised, collaborative performance project. This course is the required capstone for seniors majoring in Theatre Arts but open to and repeatable for underclassmen.
Components: LEC.
Grading: PRA.
Typically Offered: Spring.
THA 455. Acting for the Camera. 3 Credit Hours.
An advanced set of professional skills and practices for motion picture acting through scene work, episodic series work and collaboration. Upon completion of this class each actor will have performed in staging and shooting exercises and a variety of shot scenes. They will work with an editor to cut their reels, collaborate with a variety of directors, learn how camera and editing affects performance and learn to work efficiently and optimally on a professional film set.
Prerequisite: THA 365.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 456. Improvisational Acting II. 3 Credit Hours.
The further study of improvisational skills and the development of long form techniques.
Prerequisite: THA 365.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 459. Stage Management Practicum. 3 Credit Hours.
Practical experience as a stage manager for a production. Weekly individual meetings with instructor for analysis of performance and evaluation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

THA 461. Play Direction I. 3 Credit Hours.
The art and craft of stage direction.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 462. Play Direction II. 3 Credit Hours.
A continuation of THA 461 in which the student directs a one act play. Enrollment limited.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 463. Advanced Stage Management I. 3 Credit Hours.
A study of stage management techniques and practices as applied to the professional theatre: Career preparation including cover letter and resume skills. This course provides discussion on the Actor’s Equity LORT Rule Book, the discovery and understanding of personality types and traits, goal setting and cue calling skills.
Prerequisite: THA 365.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 464. Advanced Stage Management II. 3 Credit Hours.
Advanced stage management techniques and practices as applied to the professional theatre: Touring, including an analysis of the basic practices and procedures of Advance Calls, Route Sheets and Itineraries. Cueing: reading, writing and calling in ‘Dance Eights.’ This course also provides leadership assessments and an examination of leadership styles and methodologies.
Prerequisite: THA 463.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 465. Broadway and the Road. 3 Credit Hours.
An examination of the historical and contemporary practices of Broadway production taught through a series of lectures by renowned guest speakers from the theatre industry. Topics discussed include the career paths of experts in the field, business structures, current developments and trends on Broadway and in commercial Broadway tours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 466. Theatrical Unions. 3 Credit Hours.
History of theatrical unions in America. Major unions and their contracts: actors, directors and choreographers, playwrights, composers and lyricists, designers and non-union personnel management and organizational structure.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 467. Producing for Regional Theatre. 3 Credit Hours.
History of American Regional Theatre. Forming the non-profit corporation; the mission statement; the Board of Directors; legal and tax requirements; budgeting and record keeping; staffing and organizational management.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 468. Professions of the American Theatre. 3 Credit Hours.
A detailed examination of several administrative professions in the theatre and the roles these professions play in play production. Careers studied include casting direction, company management, artistic direction, development, marketing, education and literary management.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 469. Producing Musical Theatre II. 3 Credit Hours.
Designed to develop, refine, rehearse, mount, and present a new musical.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 471. Directing the Actor for Film. 3 Credit Hours.
The craft of directing actors for work before a camera.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

THA 472. Where Stage and Film Meet. 3 Credit Hours.
The relationship between theatre and film combining a theoretical-critical as well as a practical perspective. Viewing of seminal films and readings from a selection of texts from the early days of cinema until the 2000’s touch on the point or view or critics, playwrights, and directors. Also explores the concept of theatricality In film, or the ways in which different theatrical practices, concepts, and techniques can play fundamental roles in filmmaking.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
THA 475. Lyric Writing for Musical Theatre. 3 Credit Hours.
Lyric-writing laboratory for musical theatre, operating on a workshop model. Following a study of musical theater’s basic lyrical forms and functions, students will, on a weekly basis, craft their own theatre lyrics - intended to be set to music according to studied models and will share them in a safe, collaborative environment for consideration and critique.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 481. Theatre History I. 3 Credit Hours.
Theatre history from the Greeks through European Renaissance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 482. Theatre History II. 3 Credit Hours.
Theatre history from the 17th century to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 485. Playwriting II. 3 Credit Hours.
Further examination of dramatic writing techniques including Hero’s Journey model, adaptation and experimental structures.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 487. Advanced Projects. 3 Credit Hours.
Advanced practical projects in directing, stage management, dramatic writing or dramaturgy. Repeatable up to four times for credit towards minor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

THA 491. Advanced Applied Music Theatre Voice I. 1 Credit Hour.
One-hour individual lessons tailored to the individual needs of the student. Enrollment is limited to fourth-year BFA music theater students. BFA Musical Theatre majors (THTR7_BFA) only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

THA 492. Advanced Applied Music Theatre Voice II. 1 Credit Hour.
One-hour individual lessons tailored to the individual needs of the student. Enrollment is limited to fourth-year BFA music theater students. BFA Musical Theatre majors (THTR7_BFA) only.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

University Internship (UMI)

UMI 105. UMI 105: University Internship Part Time 1.00 Credit Hour. 1 Credit Hour.
A part-time 1 credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

UMI 110. UMI 110: University Internship Full Time 1.00 Credit Hour. 1 Credit Hour.
A full-time 1 credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

UMI 205. UMI 205: University Internship Part Time 1.00 Credit Hour. 1 Credit Hour.
A part-time 1 credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

UMI 210. UMI 210: University Internship Full Time 1.00 Credit Hour. 1 Credit Hour.
A full-time 1 credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

UMI 305. UMI 305: University Internship Part Time 1.00 Credit Hour. 1 Credit Hour.
A part-time 1 credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

UMI 310. UMI 310: University Internship Full-time 1.00 Credit Hour. 1 Credit Hour.
A full-time 1 credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

UMI 405. UMI 405: University Internship Part Time 1.00 Credit Hour. 1 Credit Hour.
A part-time 1 credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.
UMI 410. University Internship Full Time 1.0 Credit Hour. 1 Credit Hour.
A full-time 1 credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

UMI 605. University Internship. 1 Credit Hour.
A part-time 1-credit internship (minimum of 160 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

UMI 610. University Internship. 1 Credit Hour.
A full-time 1-credit internship (minimum of 320 hours) designed to provide opportunities for career exploration, skill development, and exposure to career field. Completion of at least one semester of coursework at UM is required.
Components: LEC.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

University of Miami Experience (UMX)

UMX 100. The University of Miami Experience. 0 Credit Hours.
The University of Miami Experience (UMX 100) is a graded, comprehensive virtual self-paced course specifically designed to assist first year students, transfer students included, in making a successful transition to the University of Miami. The course creates opportunities for students to learn skills integral to developing connections with students, staff, administrators, and faculty. UMX provides an opportunity for students to utilize UM resources necessary for success in college and beyond. Specifically, students will be exposed to campus leadership opportunities, academic and career planning, university traditions, study abroad opportunities, personal wellness programs, as well as advising and registration through videos, power points, blogs, threaded discussions, and more. These resources and opportunities are only a click away for the students enrolled.
Components: DIL.
Grading: GRD.
Typically Offered: Fall.

Urban Studies (URB)

URB 201. Metropolitan Miami. 3 Credit Hours.
This course provides interdisciplinary perspectives on the urbanization of South Florida and on Miami’s urban milieu. The course uses the case of Metropolitan Miami to introduce and illustrate a range of basic concepts in urban studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

URB 301. Cities in Time and Space. 3 Credit Hours.
This course provides interdisciplinary perspectives on the city, urbanity, and urbanization through a series of wide-ranging historical-geographical contexts.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
