GENERAL UNIVERSITY INFORMATION

A private, independent, international university

An equal opportunity/affirmative action employer

An announcement with information on administration, organization, admission and graduation requirements, and the courses of instruction in:

Undergraduate and Graduate Studies, 2020-2021

It is the policy of the University of Miami that no person within the jurisdiction thereof shall, on the basis of race, religion, color, sex, age, disability, sexual orientation, gender identity or expression, veterans status, or national origin, be excluded from, participation in, be denied the benefits of, or be subjected to discrimination or harassment (including all forms of sexual harassment and sexual violence) under any program or activity of the University, regardless of whether such program or activity occurs on-campus or off-campus. The University does not intend by this commitment to require compliance with this policy by governmental or external organizations that associate with but are not controlled by the University, except as required by law. The Executive Director of Workplace Equity and Performance is responsible for coordinating the University’s effort to implement the nondiscrimination policy and Affirmative Action Programs for employees and students. The Executive Director may be contacted at the following address or telephone number:

Workplace Equity and Performance Office
Gables One Tower, Suite 100R
1320 S. Dixie Highway
Coral Gables, FL 33146
305-284-3064

More information regarding the student sexual harassment/violence policy may be found online in the Student Rights and Responsibilities Handbook (http://www.miami.edu/SRR/). For available resources and services contact the Dean of Students Office (http://www.miami.edu/sa/index.php/dean_of_students/), Phone: 305-284-5353; the Counseling Center (http://www.miami.edu/sa/index.php/counseling_center/), Phone: 305-284-5511; and/or the Sexual Assault Response Team (http://www.miami.edu/sa/index.php/counseling_center/current_students/special_programs/sexual_assault_response_team_sart/) (S.A.R.T).

The University of Miami is authorized under Federal law to enroll non-immigrant alien students.

The University reserves the right to change any provision or requirement, including, but not limited to fees and tuition, at any time without notice. Degrees, courses, programs, activities, and like academic or non-academic offerings of the University may also be changed from time to time without notice. The University further reserves the right to require a student to withdraw at any time under University policies, as may be promulgated from time to time. Further, admission of a student to the University of Miami for any semester does not imply that such student will be enrolled in any succeeding academic semesters. It also reserves the right to impose sanctions on any student whose conduct is unsatisfactory. Any admission on the basis of false statements or documents is void when the misconduct is discovered, and the student is not entitled to any credit hour for work which the student may have done prior to any discipline that may be taken as a result of such misconduct. When a student is dismissed or suspended from the University for cause, there will be no refund of tuition or fees paid. If a dismissed student has paid only a part of his tuition and fees, the balance due the University will be considered a receivable and will be collected.

There will be no refund of tuition, fees, charges or any other payments made to the University in the event the operation of the University is suspended at any time as a result of any act of God, strike, riot, disruption, or for any other reason beyond the control of the University.

The University of Miami is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award bachelor’s, master’s, educational specialist, and doctoral degrees. Contact the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of the University of Miami.

The University of Miami is an approved member of the National Council for State Authorization Reciprocity Agreements (NC-SARA) which is recognized by 49 states and the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. The University of Miami is not required to have state authorization for distance education in California which is not a member of NC-SARA. A full list of state agencies is published on this website (https://ua.miami.edu/state-authorizations-for-distance-education/student-complaints-related-to-distance-education/).

Mission Statement

The mission of the University of Miami is to transform lives through education, research, innovation, and service.

Core Values

We are committed to freedom of inquiry—the freedom to think, to question, to criticize, and to dissent. We will pursue excellence in our research and educational missions with the single-mindedness that marks great commitments. We will prepare our students for rewarding lifelong careers and will instill in them a continued and permanent dedication to the search for knowledge and the search for truth. We will provide them with the
foundations for ethical citizenship and service to others, a respect for differences among people, and a commitment to high standards of thought and communication. We will provide service to our community and beyond, including the delivery of high-quality, compassionate care through an academic health system. We will strive to transform the world in positive ways through innovative education, impactful research and scholarship, and the translation of knowledge into solutions.

Founded in 1925 by a group of Miami citizens who believed that an institution of higher learning was necessary for the development of their young and growing community, the University has matured into a major research university and academic health system. Located within one of the most dynamic and multicultural cities in the world, the University is a distinctive community with a variety of races, ethnicities, customs, genders, and faiths. Its geographic location uniquely positions the University to be both local and global in outlook and outreach.

We aspire at the University of Miami: to be a global university with an intentionally hemispheric strategy, pursuing inclusive engagement as a bridge across the Americas to the rest of the world; to be an excellent university, striving to achieve the highest standards of performance in every aspect of our work; to be a relevant university, connecting scholarship to real-world solutions; and to be an exemplary university, offering a model to society through the steadfast achievement of our mission.

University Policies
Course Information

All courses in this catalog are subject to change. The University reserves the right, in its sole discretion, to change course content, instructor, location and instructional format. The University cannot guarantee an in-person format even where noted as such in the catalog, and reserves the right to present any courses in a virtual/remote or hybrid format.

Academic Calendar

The University of Miami adheres to a reasonable approximation of the Carnegie unit for contact time. In addition, students are expected to spend two hours outside of class in preparation for every classroom hour. The Academic Calendar (http://www.miami.edu/index.php/registrar/calendar/) is maintained by the University Registrar and is the official record of academic instruction.

The standard meeting times for three-credit hour courses are as follows:

- 50-minute, Monday-Wednesday-Friday schedule;
- 75-minute, Tuesday-Thursday schedule.

The calendar is planned to ensure 69 class days (41 Monday-Wednesday-Friday meeting days and 28 Tuesday-Thursday meeting days) and at least five days for final examinations in a 15-week semester. The policy allows a mandatory examination period to be counted in the Carnegie unit hours of instruction, but does not count reading days. The University has a required two-and-a-half-hour final examination policy, resulting in a minimum of 45 hours of classroom instruction in a three-credit hour course for all undergraduate and graduate terms in the Academic Calendar.

The calculation for summer sessions and other abbreviated terms follows this same standard which means longer class meeting times over the duration of the shortened term.

Miami Herbert Business School

In the Miami Herbert Business School, graduate programs include terms of varying length. The School follows federal and SACSCOC guidelines for the credit hour. All graduate business programs have a minimum of 750 minutes of instructional contact time per credit hour, including the final examination. Students are expected to dedicate at least two hours of course-related work for each hour of instruction.

School of Law

The School of Law is accredited by the American Bar Association and follows federal and SACSCOC guidelines for the credit hour. Ordinarily, full-time students must enroll for a minimum of 11 credit hours and a maximum of 16 credit hours (please consult the Student Handbook and Honor Code). For one credit hour, a student receives 700 minutes of instruction, exclusive of examination time. For a three-credit hour course, this equates to 2,100 minutes of classroom instruction. An additional 180 minutes of instruction is allotted for the final exam session in a three-credit hour course. The faculty expects students to spend at least two hours outside the classroom in preparation for each hour of instruction.

Miller School of Medicine

The Miller School of Medicine is accredited by the Liaison Committee on Medical Education (LCME). The School's Department of Physical Therapy is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE). The length of all educational programs is appropriate for each degree, based on national standards and accreditation criteria. The School follows federal and SACSCOC guidelines for the credit hour. Completion of the M.D. program ordinarily takes four years. Although credit hours are not specified by the LCME, the medical education program leading to the M.D. must include at least 130 weeks of instruction.
**Academic Credit**

The University of Miami adopted the following Federal Definition of the Credit Hour at the Faculty Senate meeting on April 17, 2013 that appears in the Credit Hours policy statement of the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).

**Federal Definition of the Credit Hour**

For purposes of the application of this policy and in accord with federal regulations, a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:

1. Not less than one hour of classroom or direct faculty instruction and a minimum of two hours out of class student work each week for approximately fifteen weeks for one semester or trimester credit hour, or ten to twelve weeks for one quarter credit hour, or the equivalent amount of work over a different amount of time, or
2. At least an equivalent amount of work as outlined in item 1 above for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

**Application of Credit Hour Policy**

This credit hour policy applies to all undergraduate and graduate programs that award academic credit (i.e., any course that appears on an official transcript issued by the University) regardless of the delivery method including, but not limited to, self-paced, online, hybrid, lecture, seminar, and laboratory. Academic units are responsible for ensuring that credit hours are awarded only for work that meets the requirements outlined in this policy.

The expectation of contact time inside the classroom and student effort outside the classroom is the same in all formats of a course whether it be online, a hybrid of face-to-face contact with some content delivered electronically, or one delivered in lecture or seminar format. The University operates on the semester system and, for its measure of academic course work, uses academic credits (referred to as semester credits, semester hours, credit hours, hours, or credits).

Courses that have less structured classroom schedules, such as research seminars, independent studies, internships, practica, studio work, or any other academic work leading to the award of credit hours, at a minimum, should state clearly learning objectives and expected outcomes and workload expectations that meet the standards set forth above.

Two or three laboratory hours each week throughout a semester are considered the equivalent of one lecture hour in counting credit hours earned in an undergraduate laboratory or studio course.

No grades or credit hours are given for audited courses.

**Campus Processes - Curriculum Review**

Each College or School within the University of Miami is charged with following the policy on credit hours in its review and approval of all undergraduate and graduate courses and for certifying that the expected student learning for the course meets the credit hour standard. The determination of credit hours is made when a new course or a revision to an existing course is proposed. The submitted syllabus is examined for contact time as well as for assignments and evaluation mechanisms.

The Office of the University Registrar requires training for class scheduling before granting access to any departmental staff approved by a department for scheduling classes.

**Cancellation of Courses**

Students who select courses and fail to make payment and/or financial arrangements with Canes Central prior to the payment deadline will have their course schedules canceled. Reinstatement of classes can only occur after payment arrangements have been made with the Canes Central to cover all financial obligations including any reinstatement fees. Reinstatement to cancelled classes will be on an “as available” basis after financial arrangements have been completed.

**Change or Drop of Course**

- Dropping of any course for which the student has registered is official only when the drop has been fully processed by the student successfully dropping the course via CaneLink or by Canes Central (https://canescentral.miami.edu/).
- **Please note:** Failure to attend classes or merely giving notice to instructors of one’s absence will not be considered as an official withdrawal and may result in failure in the course.
- The last day to drop a course or make a change in credit-only option is noted on the Academic Calendar (http://www.miami.edu/index.php/registrar/calendar/).
- Students enrolled in a course after the withdrawal date must receive a final grade in the course.
- Requests for course changes (adding or dropping) past the deadlines for each semester’s add and drop period must be approved by the University Registrar and Director of Financial Assistance. These requests will only be considered for extraordinary circumstances.
Modification of Courses

All courses in this catalog are subject to change. The University reserves the right, in its sole discretion, to change course content, instructor, location and instructional format. The University cannot guarantee an in-person format even where noted as such in the catalog, and reserves the right to present any courses in a virtual/remote or hybrid format.

Class Attendance and Absences

Regular and punctual class attendance is vital for all students. Instructors will distribute course syllabi which include policies regarding class attendance and missed or late work. Any student may be dropped from a course or receive a lowered grade for unauthorized absences in excess of those permitted by the instructor. It is each student’s responsibility to know and understand the instructor’s policies. It is also the student’s responsibility to give the instructor notice one week prior to any anticipated absence and to contact the instructor within one week after any unanticipated absence.

All students are responsible for material covered during their absence. However, the instructor must allow each student who is absent for a University-approved reason either the opportunity to make up, or to be excused from, work missed, without any reduction in the student’s final course grade as a direct result of such absence.

Other than absences for a University-approved reason, the instructor determines whether or not an absence is for an acceptable reason and whether or not students shall have the opportunity to make up missed work. If the instructor does not recognize the reason as acceptable, the student may appeal to the chair of the department in which the course is offered.

The following constitute University-approved reasons for absences:

1. Participation in an activity approved by the Academic Deans Policy Council, such as musical and debate activity, R.O.T.C. function, or varsity athletic trip; participation in a special academic activity such as a field trip or other special event connected with academic coursework. Verification of a student’s participation shall be issued by the sponsor when authorized by the Office of the Executive Vice President and Provost.
2. Observance of a religious holy day as described in the Religious Holy Day Policy, below.

Religious Holy Day Policy

The University of Miami, although a secular institution, is determined to accommodate those students who wish to observe religious holy days. It seeks to reflect its awareness of and sensitivity to religious holy days whenever possible when scheduling University activities. The following provisions are meant to apply equitably to all religious groups and to provide opportunities to all to meet their religious obligations.

1. Except as specifically provided to the contrary, this policy is binding on all students in undergraduate programs. Schools offering graduate or professional programs, including undergraduate professional programs, are strongly encouraged to adhere to these policies to the maximum extent practicable.
2. Any student absent from class in observance of a religious holy day shall not be penalized in any way for an examination or assignment missed during the period of absence. Absence in observance of a religious holy day does not relieve students from responsibility for any part of the course work required during the period of absence. Students who are absent on days of examinations or class assignments shall be offered a reasonable opportunity to make up the work without penalty, if the student previously arranged to be absent. Nothing in this policy shall preclude faculty members from limiting the number of student absences to a reasonable number of absences for any reason. The faculty member has discretion to determine how the make-up obligation will be fulfilled. A faculty member who penalizes a student contrary to these provisions may have committed unprofessional conduct, and thus may be subject to a complaint to the Committee on Professional Conduct under the provisions of Section B4.9 of the Faculty Manual.
3. It is the student’s obligation to provide faculty members with notice of the dates they will be absent due to observance of religious holy days, preferably before the beginning of classes but no later than the end of the first three class days. For religious holy days that fall within the first three class days, students must provide faculty members with notice no later than two class days before the absence. Missing a class due to travel plans associated with a particular religious holy day does not constitute an excused absence. Absences due to observance of religious holy days that are not pre-arranged with the relevant faculty member within the first three class days may be considered unexcused, and the faculty member may therefore prevent the student from making up examinations or assignments missed during the period of absence.
4. Faculty members are encouraged to anticipate days when a substantial number of students will be absent for observance of religious holy days and should avoid scheduling examinations and assignment deadlines on those days. Faculty members are expected to reasonably assist students in obtaining class information the student missed during the period of absence in observance of a religious holy day. In that regard, faculty members are urged to allow taping or recording of the class session, with the reproduction limited to the student’s personal use, when a student misses a class due to observance of a religious holy day. To assist in identifying religious observance days, faculty members are encouraged to consult the illustrative list provided in the Interfaith Calendar. (http://www.interfaith-calendar.org/) Faculty members are urged to remind students of their obligation to inform faculty members within the first three class days of any anticipated absences due to observance of religious holy days and should include that information in the syllabus or course requirements document for that course.

Course Numbering System

The following course-numbering system is used:
• Courses in the 100 series are primarily for freshmen.
• Courses in the 200 series are primarily for sophomores.
• Courses in the 300 series are primarily for juniors.
• Courses in the 400 series are primarily for seniors.
• Courses in the 500 series are open only to seniors or other qualified undergraduates.
• Courses in the 600 through 800 are open only to graduate students.

Courses in some departments, with the specific numbers 100, 200, 300, 400 are offered, in most instances, on an experimental or trial basis. When listed in CaneLink’s Course Offerings, a more descriptive title will normally be attached.

Eligibility

To be eligible to enroll for courses under the CR/NC option, a student must:

1. Hold the standing of Sophomore or above, and, if a transfer, must have completed one semester of residency at the University of Miami;
2. At the time of registration have a minimum cumulative grade point average of at least 3.00;
3. Elect the CR/NC option within two weeks following the last day of registration for Fall and Spring semesters. Election of CR/NC options for Summer Sessions must occur no later than the last day to drop without a W. No changes except withdrawals from the course are permitted after this time.

Regulations and Restrictions

1. Eligible students may take one course per semester for credit only, to a maximum of 9 credit hours.
2. Only free electives may be taken under this option. Free electives are defined as courses not taken to fulfill the requirements for the major, minor, or general education requirements (including prerequisite course work) of the University and the individual schools.
3. ENG 105 and ENG 106 cannot be taken for credit only.
4. Grading standards for the credit only option are the same as for students who register for the course under the regular grading system. Letter grades will be submitted by instructors to the Office of the University Registrar. The Office of the University Registrar will change all grades A through C (including "C-") to CR (Credit Received) for those enrolled under the CR/NC option.
5. A grade of NC (No Credit) will be recorded by the Office of the University Registrar for all grades of D and F. The student will not receive credit hours or quality points for the grade of NC.
6. Should a student subsequently change his/her major, free electives taken for credit only prior to the declaration of this major may be counted toward fulfilling major, minor, or general education requirements at the discretion of the department chairman and the academic dean.

Credit for Service Experience

Veterans of the military services may make application for academic credit for schooling received while in the armed forces. Credit hour may be awarded for work that the American Council on Education Guide regards as college level. Students must have credit hours approved by their departmental chairperson.

Credit hour for military service and experience is usually in the elective area and may not take the place of subjects required for graduation. Such work is not assigned quality points and is not included in quality point computations.

Final Examination Policy

• Final Examinations may not be given during a regularly-scheduled class period.
• No examination shall be permitted during the reading period.
• Final Examinations may be rescheduled only with the permission of the school/college dean.
• No student shall be required to take more than two final examinations in a twenty-four hour period. A student having three or more final examinations scheduled during a twenty-four hour period may request the instructor of the course most easily rescheduled (normally the course with the smallest enrollment) to reschedule the examination for that individual. The request shall be made no later than two weeks before the last class day.
• A student who has a conflict between a final examination and a religious observation may request that the instructor reschedule that student’s examination. The request shall be made no later than two weeks before the last class day.
• For the resolution of any problem pertaining to the scheduling of final examinations, a student should consult with the following entities or persons in this order: the relevant instructor, the department chair, the Dean or designee. If the matter cannot be resolved at the school or college, the student should contact the Office of the Provost.

Military Withdrawal

• Students who need to withdraw from a semester due to official orders to active duty with the Armed Forces of the United State must provide a copy of their official written orders when submitting the request to withdraw.
• Students who withdraw after the 12th week of the semester because of these official orders may either be awarded credit hour (CR) or an academic grade for any course in which they have achieved a C or better up to the time of withdrawal. Instructors must certify that the student had achieved satisfactory accomplishment on the basis of previous work in the course by awarding an appropriate grade. Accomplishment of less than C should be entered on the permanent record as a withdrawal without prejudice (W).

• Credit hour granted for courses under this policy should count toward graduation.

• There should be no refund of tuition for courses for which credit hour has been awarded. Refunds for courses not awarded credit hour should be on the same basis as complete withdrawals for military service.

• The above recommendations are procedures for determining the awarding of credit hour and do not release the student from the usual withdrawal procedures.

Registration
Registration dates are shown on the University Academic Calendar (http://www.miami.edu/index.php/registrar/calendar/), and all students are expected to register on these days. If a student is permitted to register late, a fee may be charged.

Repeat Rules
A student may repeat a course, but the repetition will not eliminate the previous grade from the record. A course may be repeated only once unless written authorization is provided by the chair of the department in which the course is offered or, in the case of an un-departmentalized school, by the dean.

Illegal Repeat
A student may not repeat a course in which a grade of C or higher has been earned. This is considered an illegal repeat.

General Repeat Rule
• If the initial grade is D+ or lower (or a C- in cases where an academic unit requires a C or higher), both the initial grade and the repeat grade are included in the computation of the student's cumulative grade-point average (CGPA).

• If the initial grade is a D or D+ (or a C- in cases where an academic unit requires a C or higher) and the repeat grade is passing, the number of credit hours required for graduation will be increased by the number of credit hours repeated.

• Registrations that involve repeating a course in which a grade of C or higher (or C- in cases where an academic unit does not require a C or higher) has already been earned do not earn quality points or credit hours, nor count as credit hours attempted.

• Courses repeated after graduation will be posted to the transcript showing the grade received; however, the CGPA and credits earned will not be modified based on the grade received for the repeated course.

Undergraduate Repeat Rule
• A student may elect to repeat up to two courses that were taken at the University of Miami in which the student earned a grade of D (including D+) or F. Each repeated course must be taken at the University of Miami, must be the same course as the course initially taken, and must be completed within two regular semesters enrolled following the initial course.

• No course may be repeated more than once under this rule. A course repeated more than once under the University's General Repeat Rule will not qualify under the Undergraduate Repeat Rule.

• Enrollment for a second time in a course constitutes a repeat of that course for the purposes of this rule, unless the student withdraws from the course on or before the University's published Last Day to Drop a Course date.

• For each repeated course, only the second grade (whether higher, or lower, or the same as the first grade) will be used in the computation of the student's CGPA. The initial course will not count as credit hours attempted or earned, although the initial course grade will remain on the student's permanent record.

• Students who plan to apply to graduate and/or professional school should be aware that such institutions may recalculate the CGPA to include the initial grade earned before the repeat.

1 This does not include courses that are eligible to be repeated for credit (e.g. Special Topic courses, Music lessons, etc.). Courses that are eligible to be repeated are designated in the student information system, CaneLink. Courses may have limits on the number of times they may be repeated.

2 This refers to courses or a course with a particular grade required for entry into a different degree program.

Graduate Repeat Rule
A student may repeat a course in which a failing grade was earned, but the repetition of the course will not eliminate the previous grade from the record. A course may be repeated only once unless written authorization is provided by the Dean of the Graduate School. All grades are included in the computation of the quality point average. If a course in which an unsatisfactory grade (as determined by the program advisor) was earned is repeated and the repeat grade is a "C-" or higher, the number of credit hours required for graduation will be increased by the number of credit hours repeated.
Miami Herbert Business School Graduate Repeat Rule
Graduate students in the Miami Herbert Business School who fall below the 3.0 GPA may be placed on academic probation. Within one semester after their GPA falling below 3.0, Master’s students wishing to repeat a course may petition their program director to do so. If the petition is approved by the Graduate Program Director, the grade obtained in their second attempt will replace the original grade for purposes of calculating their GPA for clearance for graduation only. Authorization to repeat a course is limited to courses in which an unsatisfactory grade was earned (as determined by the Graduate Program Director). Additionally, a course may be repeated only once and students may not repeat more than two courses. The student’s transcripts will continue to show all attempts and the GPA computation will include all grades earned for purposes other than computing the GPA for clearance for graduation. If a course in which an unsatisfactory grade of lower than a B- was earned is repeated and the repeat grade is "C" or higher, the number of credits required for graduation will be increased by the number of credits repeated. Registrations which involve repeating a course in which a grade of "A" or "B" has already been earned may not earn quality points or credit hours, nor count as credits attempted.

Undergraduate Schedules
Fifteen or sixteen credit hours constitutes a normal schedule at the University. Academic deans and advisors will determine the appropriate credit hour load for their students. (A schedule of charges for credit hours is found in the Financial Payment Policies section of this Bulletin.) The schedule of any student whose outside interests cause unsatisfactory scholastic attainment may be reduced by the dean.

Temporary/Permanent Withdrawal from the University
If a student decides to withdraw from the University of Miami, there are procedures in place to facilitate this process. In order to withdraw officially from the University, a student must follow the procedures outlined in this bulletin and on the University of Miami website (https://success.miami.edu/student-withdrawal/important-information/).

Failure to follow the outlined withdrawal process may result in monies owed to the university (e.g. tuition, fees, etc.), failing grades on a student’s academic record and/or other negative consequences.

Please note that dropping courses in a summer session, thereby reducing a student credit-hour load to zero is not construed as a formal withdrawal from the University.

Undergraduate Students
In order to officially withdraw from the University, Undergraduate students are required to speak with an Advisor in the ‘Cane Success Center. The ‘Cane Success Center is located on the 2nd Floor of the University Center, Suite 2275. Walk-in hours are available from 9:00 AM – 2:00 PM Monday thru Friday. You may also reach a ‘Cane Success Center Advisor by calling 305-284-4500 or via email (success@miami.edu) to initiate the withdrawal process.

For more details about the withdrawal process and for helpful hints on making a smooth transition out of the University, visit the Undergraduate Withdrawing Student Checklist (https://success.miami.edu/student-withdrawal/important-information/).

For students who are no longer on campus – If you have already left the University but did not complete the withdrawal process before your departure, please call or email (success@miami.edu) the ‘Cane Success Center at (305) 284-4500 to begin the withdrawal process. Your withdrawal will not be finalized until an Exit Interview is completed with a ‘Cane Success Center Advisor.

Undergraduate Appeal Process
Withdrawal Date Appeal Form – If you were unable to attend classes due to a serious accident or illness, and this prevented you from notifying the University of your withdrawal in a timely manner, a Withdrawal Date Appeal Form (https://success.miami.edu/student-withdrawal/important-information/) can be submitted for consideration by an Appeals Committee. Appeals are submitted AFTER completing the official withdrawal process above and must include supporting documentation as to what prevented a timely notification. All appeals must be submitted within 30 calendar days of the official withdrawal date established with the ‘Cane Success Center or if the appeal is being submitted for a semester that has already completed, it must be submitted within 30 calendar days of the last day of the end of the semester in question. Appeals should be submitted via email (univregistrar@miami.edu) or by mail to:

University of Miami
Office of the University Registrar - Withdrawal Date Appeal
P.O. Box 248026
Coral Gables, FL 33124-6914

Merit-based Scholarship Status upon Return – If you withdraw from the University but choose to return within one calendar year, and you have continued to meet the requirements of your scholarship, then your merit scholarship[1] will be waiting for you. Contact the ‘Cane Success Center to begin the process of readmission.

1 Frost School of Music students will need to re-audition after one semester away from the University.
2 Merit Scholarships are awarded as consecutive semesters. If you spent a semester or two away from the University, these would be terms counted as part of your total scholarship. Please refer to your scholarship agreement for details.
Student Groups with Special Concerns Regarding Withdrawing from the University

- **Veterans** and children of deceased or totally disabled veterans attending the University as students under the government’s educational benefit bills must also be cleared by the Veterans Affairs Certifying Official.

- **Varsity athletes or any athlete** registered with the department of Athletics must obtain approval and be cleared by the Athletic department prior to any change in their registration status, including withdrawal from the university.

- Per U.S. Department of Homeland Security (DHS) regulations, **international students in F-1 or J-1 visa status** must notify their ISSS advisor prior to temporarily or permanently withdrawing from the University and must leave the U.S. within 15 days of withdrawing. Failure to comply with DHS regulations may result in the loss of your future eligibility to enter the U.S.

**Refunds**

During the academic year, tuition will be refunded on a prorated basis depending on the date that is noted as the ‘Total Withdrawal Date’. Tuition will be refunded on a prorated basis through 60 days of the semester. Please see the Refund Policy (p. 43) under the Financial Payment Policies section.

Title IV financial aid and tuition will be refunded on a pro rata daily basis through 60 percent of the semester. This date is determined based on the student notifying the Cane Success Center (Undergraduate)/ Office of the University Registrar (Graduate) of his/her intent to withdraw. If the student fails to notify the appropriate office, federal guidelines for determining refunds will be followed.

**Financial Assistance**

https://finaid.miami.edu/

The Office of Student Financial Assistance (https://finaid.miami.edu/) and Employment (https://www.miami.edu/ofas/) administers federal, state, private and University financial assistance programs. Our office awards financial assistance for Undergraduate and Graduate/Professional students. We communicate with our students mainly through the CaneLink system regarding any information we might need to complete the financial aid process. Medical students should contact their respective financial aid office.

**Financial Aid Walk-In Services provided at:**

‘Canes Central

1307 Stanford Drive

Student Services Building, 1st Floor

Coral Gables, FL 33146

**Financial Aid Walk-In Hours:**

Monday, Tuesday, Wednesday, and Friday from 8:30 to 5:00

Thursday from 10:00 to 5:00

**Financial Aid Phone Hours:**

Monday through Friday from 8:30 to 5:00

Telephone: 305-284-IBIS

**Student Employment Walk-In Services provided at:**

“The Nest”

1306 Stanford Drive

University Whitten Center, 2nd Floor

Suite 2275

Coral Gables, FL 33146

**Student Employment Walk-In Hours:**

Monday, Tuesday, Thursday and Friday from 9:00 to 4:30

Wednesday from 10:00 to 4:30
Student Employment Phone Hours:

Monday, Tuesday, Thursday and Friday from 9:00 to 5:00
Wednesday from 10:00 to 5:00
Telephone: 305-284-6000

Undergraduate Financial Assistance

It is the purpose of the Office of Student Financial Assistance and Employment to provide need based assistance and/or academic achievement awards to qualified students in the form of scholarships, grants, loans and work programs (https://finaid.miami.edu/types-of-aid/) to the extent that resources are available. Professional financial aid and student employment advisors are ready to assist all students plan for the most efficient use of their financial resources for education.

Underlying the awarding of need-based financial assistance is the philosophy that the student and family have the primary responsibility for educational costs. Need-based financial assistance serves to supplement these primary resources.

- Students who require financial assistance to attend the University should apply for assistance each academic year.
- Candidates for admission should indicate their interest in financial assistance by checking the box provided for that purpose in the application for admission.
- The U.S. Department of Education's Free Application for Federal Student Aid (FAFSA) (http://www.fafsa.ed.gov/) is used to determine eligibility for federal need based assistance. The FAFSA must be completed for each academic year.
- The College Board's CSS Financial Aid PROFILE Application is required to determine institutional need based financial aid awards. The PROFILE application only needs to be completed only once during your enrollment.

Important Financial Aid Tips

- Financial aid applications are accepted throughout the year but it is important to note that the appropriate preference date for receipt of aid applications must be met as aid is awarded on a funds available basis.
- **DO NOT WAIT FOR YOUR ADMISSION DECISION TO APPLY FOR FINANCIAL AID.** Financial aid resources are limited and there is no guarantee of assistance for students who do not submit appropriate documentation by the deadline posted above. Your financial aid application will not be considered complete until all documents are received.
- Complete your CSS/Financial Aid PROFILE at css.collegeboard.org (https://student.collegeboard.org/css-financial-aid-profile/). After you complete your CSS/Financial Aid PROFILE, you will receive an e-mail from the College Board’s IDOC (https://idoc.collegeboard.org/idoc/) process with instructions on submitting the necessary documentation. All documents should be submitted directly to College Board.
- If you are not required to file a federal tax return and will not be filing, please submit the official IRS non-filer letter. This can be ordered through the IRS website www.irs.gov (https://www.irs.gov/individuals/get-transcript/).

Financial Aid Census Date

Financial aid awards will be set according to a census date or date of fixed enrollment. All financial aid awards will be set according to the enrollment in effect at the close of business on the last day of the drop/add period each regular term semester. No adjustments will be made to the financial aid awards for any enrollment changes (increases or decreases) made after this date with two exceptions:

1. Bright Futures awards will continue to be adjusted (increased or decreased) according to any change in the enrolled credit hours.
2. The aid award package for students with federal financial aid and who completely withdraw (drop to 0 credit hours enrolled) will be adjusted according to the regulatory required Return To Title IV Calculation.

Graduate and Doctoral Students

It is the purpose of the Office of Student Financial Assistance and Employment to provide federal financial aid assistance to qualified students in the form of loans and work programs (https://grad-prof.miami.edu/types-of-aid/) to the extent that resources are available. Professional financial aid and
student employment advisors are ready to assist all students plan for the most efficient use of their financial resources for education. Law, Graduate and Doctoral students need only complete a few steps to receive notification and disbursement of federal awards.

1. Apply for Admission to a Graduate Program or the Law Program at the University of Miami.
2. Complete the Free Application for Federal Student Aid (FAFSA).
   a. Graduate/Doctoral Students: School Code 001536
   b. Law Students: School Code E00532
3. Accept, reduce or decline your awarded aid via CaneLink.
   a. First-time loan borrowers must complete Entrance Counseling at the Department of Education website (http://www.studentloans.gov/).
   b. A signed Promissory Note for both the Unsubsidized and the Graduate PLUS Loan are required if either loan is utilized. Each should be completed at the Department of Education website (http://www.studentloans.gov/).
   c. Students receiving the Graduate PLUS Loan must have an approved credit check conducted by the Department of Education for the loan to be disbursed.

Your financial aid award may consist of loans, scholarships, tuition waivers or a combination. Aid is offered to a student's maximum eligibility as determined by enrollment and the Cost of Attendance (COA).

Some of the aid programs which may be offered to a Law, Graduate or Doctoral student:

**Federal Direct Unsubsidized Loan:** Eligibility is not based on need and is up to $20,500 for an academic year. This loan program does accrue interest while the student is enrolled.

**Federal Direct Graduate PLUS Loan:** Borrowers may be eligible to request up to the cost of attendance minus other financial aid. Your award letter includes your maximum loan eligibility for the Federal Graduate PLUS Loan. This loan is based on the borrower not having an adverse credit history. Once you have accepted the offered loan amount on CaneLink, a credit check will be conducted by the US Department of Education. You will be required to have completed a Master Promissory Notice as well as Entrance Counseling (first time borrowers only). In the event your loan is declined, you have the option of appealing that decision or reapplying with an endorser; however, the Department of Education will then require you complete Credit Counseling in order to approve the disbursement of your loan.

**Scholarships and Tuition Waivers** are exclusively handled by the respective department. Our office is notified of scholarships/waivers by the department and it is then added to your award package. Adjustments to your Graduate PLUS Loan and/or other aid may take place upon notification to prevent an over award of aid.

To be considered for a graduate assistantship or fellowship, a graduate student must:

- Be admitted unconditionally to a post-baccalaureate degree program;
- Be enrolled for full-time study; and
- Maintain a cumulative graduate grade point average of 3.0 or above.

For additional information, please visit the Law School Website (http://www.law.miami.edu) or the Graduate School Website (http://www.miami.edu/grad/). For specific information regarding graduate programs, contact the Graduate Advisor of the respective program. For information regarding loan and work-study opportunities, visit the Office Student Financial Assistance and Employment website (http://www.miami.edu/ofas/).

For United States citizens and eligible non-citizens, federal financial aid is available for online programs.

- Applying for Financial Aid (https://grad-prof.miami.edu/applying-for-aid/), UM
- Costs and Financial Aid (https://grad-prof.miami.edu/cost/), UM

**Eligibility**

Please see the University's Financial Aid (https://grad-prof.miami.edu/applying-for-aid/terms-and-conditions/) website for eligibility criteria.

**Applying for Financial Aid**

To apply for financial aid, submit the Free Application for Federal Student Aid (FAFSA) (https://fafsa.ed.gov/). Be sure to include the University of Miami school code 001536.

**Awarding and Disbursing Financial Aid**

Key Points and associated deadlines:
Satisfactory Academic Progress

- Awards are processed on a rolling basis and are done annually, one academic year at a time (3 terms per academic year: Fall, Spring and Summer).
- Students are strongly encouraged to begin the application process at least four weeks prior to the start date of their program or renewal date of their existing loan.
- Applications will be accepted in the last 30 days of the term, but the Office of Student Financial Assistance and Employment cannot be held responsible if funds are not available for disbursement for the term. Delays can occur that are outside of the control of the Office of Student Financial Assistance and Employment.

New Students
The Office of Student Financial Assistance and Employment will award Financial Aid for new students when

- A student has been fully admitted
- FAFSA has been received
- Student has enrolled in classes
- Student has been billed for that term

Financial Aid will be disbursed to the Office of Student Account Services:

- After the last day to add/drop and when attendance has been confirmed by the Online Department.

Continuing Students
The Office of Student Financial Assistance and Employment will award Financial Aid for continuing students only when

- FAFSA has been received
- The student has enrolled in classes
- Satisfactory Academic Progress has been determined
- Student has been billed for that term

Financial Aid will be disbursed to the Office of Student Account Services:

- After the last day to add/drop and when attendance has been confirmed by the Online Department.

Maintaining Eligibility, including Satisfactory Academic Progress
Students must maintain all federal aid eligibility requirements for the entire term. Please see the Satisfactory Academic Progress (https://grad-prof.miami.edu/applying-for-aid/satisfactory-academic-progress/) page for specific criteria for maintaining eligibility.

Satisfactory Academic Progress

Federal and Institutional Need-based SAP Policy

- In compliance with federal financial aid regulations, the University of Miami requires satisfactory academic progress (SAP) towards a degree as an eligibility requirement for federal and university need-based financial assistance. The SAP policy requires both a quantitative and a qualitative measure of a student’s progress.
- This policy is applicable to all undergraduate, law, graduate and doctoral students receiving financial aid through federal aid sources, including the Federal Parent Loan for Undergraduate Students (PLUS).
- At the end of each semester, the Office of Student Financial Assistance and Employment Services reviews the academic progress of all University of Miami financial aid recipients.
- If it is determined that a student is not making satisfactory academic progress at the end of the semester, a notification is sent to the student. The student will be placed on financial aid warning for one semester. Aid will not be withdrawn for the subsequent (warning) term, but at the end of the warning term, the student’s academic record will be reviewed by Office of Student Financial Assistance and Employment and appropriate renewal or termination actions will be taken. Notification will be sent to the student detailing information on the appeal process.
- If a student is determined to not be on track toward completing their degree requirements within the 150% Maximum Time Frame, they could immediately lose aid eligibility. See “Warning Period” below for more details.
- Those who have taken a course twice, cannot have need based aid applied to the credits of any future attempts of the same course.
- Federal academic progress policy is subject to change based on guidelines and changes made by the U.S. Department of Education.
Undergraduate Satisfactory Academic Progress

Review and Notification
To determine continued aid eligibility, the Office of Student Financial Assistance and Employment will review the academic progress at the end of each academic term for all undergraduate students receiving federal and institutional need-based aid including the Federal Direct PLUS Loan. An academic progress review will occur at the end of each academic year for all Florida aid programs and merit scholarships.

Students who fail to meet Satisfactory Academic Progress will be notified by email. If a student is placed on an academic probationary term (replaced academic probation) they will be eligible for financial aid during that probationary period. A student may receive probationary aid (removed scholarship) assistance only once.

SAP Appeal
A student may appeal a failed SAP determination by completing and submitting to the financial aid office an Academic Progress Appeal Form (http://finaid.miami.edu/resources/forms/). Appeals may be granted only if the student failed to meet academic progress requirements as a result of an emergency and/or illness, and these circumstances must have occurred within the semester/academic year during which SAP requirements were not met. All appeals should be submitted no later than 30 calendar days from notice of ineligibility. All decisions made by the committee are final. Please be advised that students will only be eligible to receive one approved appeal during their enrollment at UM. Should a student fail to meet the minimum academic standards outlined in the conditions of their initial approved appeal, they will not be granted an additional appeal unless there are new mitigating circumstances.

Federal and Institutional Need-Based Aid Academic Requirements

For the purposes of these policies, an academic year is defined as Fall, Spring and Summer semesters.

Satisfactory Academic Progress for federal and institutional need-based aid renewability including need-based donor scholarship merit aid renewability is reviewed by the Office of Student Financial Assistance and Employment.

GPA Requirement
Students must complete a minimum institutional GPA of 2.0.

Credit Completion Requirement
Students must earn 67% of the total credit hours attempted during his/her overall academic career. Rounding does not apply.

- Undergraduate and graduate credits cannot be combined to meet this standard.
- Withdrawals, incompletes, audits, NG (no grade), and F's are attempted but not earned hours.
- Transfer credits are counted in the calculation, but not in a cumulative GPA.

Maximum Timeframe Requirement
A student must be on track with completing their undergraduate degree within 150% of normal completion, as determined by the school or college catalog (example: Bachelor’s degree = 120 credits; 150% rule = 180 credits). All attempted UM credits, enrolled UM credits, transfer credits and remaining UM degree credits are factored into this calculation. A student is ineligible for need-based financial aid when it becomes mathematically impossible for him/her to complete their program within 150% of the length of the program. There may be no warning period for failing maximum timeframe requirement (see below).

Warning Period
Federal and institutional need-based aid recipients will be placed on a "warning status" for one semester following notice of failure to meet SAP requirements. Failure to meet the requirements by the end of the warning period will result in loss of aid eligibility for future periods of enrollment unless a student is granted a probationary semester as a result of a granted appeal.

The only exception for the Maximum Time Frame are those who are within 30 credits of reaching their limit as will be placed on "Alert". Those whose academic records indicate that they are not on track with completing their overall undergraduate degree within the 150% maximum time frame will immediately lose eligibility for aid and will be notified via email. A student pursuing multiple undergraduate majors, or minors, whose combined credits and remaining credits exceed the 150% calculation will fail SAP.

Example: For a 120-credit hour program, if all attempted UM credits + enrolled UM credits + transfer credits + remaining UM degree credits exceed the allowable limit of 180 credits, the student will fail SAP.

Merit Scholarship Academic Requirements
Satisfactory Academic Progress for merit aid renewability is reviewed by the Office of Student Financial Assistance and Employment and applies to undergraduate students receiving academic scholarships except Ronald A. Hammond Scholarship. The Ronald A. Hammond Scholarship recipients should contact the Office of Academic Enhancement (http://www6.miami.edu/provost/oaec/hammond/) to review their contract renewal terms.

GPA Requirement
Students must complete a minimum institutional cumulative GPA of 3.0.
• Only credits taken at UM count toward your GPA requirement.

**Credit Completion Requirement**

• At least 24 credit hours each academic year.
• At least 12-credit hours for full-time students enrolled for only one semester.
• Withdrawals, incompletes, audits, and F's are attempted but not considered earned hours.
• Transfer credits are counted in the calculation, but not in a cumulative GPA.
• Credits earned from enrollment during the academic year being reviewed at UM or transferred from any institution may count toward the total credits earned to satisfy this requirement.

**For All Incoming Freshmen and Transfer Students:**
Students who fail to meet the academic requirements to maintain their scholarship at the end of their first year will lose their eligibility.

**Students will not receive a probationary period.**

**Florida Financial Aid Requirements**

**GPA Requirement**

• Florida Academic Scholars must maintain a minimum institutional cumulative GPA of 3.0 for full renewal; 2.75 for partial renewal (equivalent to FL Medallion amount)
• Florida Medallion Scholars must maintain a minimum institutional cumulative GPA of 2.75.
• Effective Access to Student Education Grant (EASE), and Florida Student Assistance Grant (FSAG) must maintain a minimum institutional cumulative GPA of 2.0.

**Credit Completion Requirement**

At least 24 credit hours earned toward your degree each academic year.

• At least 12-credit hours for full-time students enrolled for only one semester.
• Withdrawals, incompletes, audits, and F's are attempted but not considered earned hours.
• For EASE and FSAG students, classes taken in the previous summer may be included in calculating the completed hours
• Part-time Bright Futures recipients must earn a prorated number of credit hours.
  (9-11 credits per term = 9 earned hours per term) (6-8 credits per term = 6 earned hours per term).

**Maximum Time Frame**

Students receiving Florida Bright Futures awards may receive funding for up to five years from high school graduation for a maximum of 120 semester hours (or equivalent) toward the completion of a first baccalaureate degree. A student with remaining unused credits after the completion of an undergraduate degree, may be eligible to use a limited number of undergraduate credits toward their first term of graduate study in an eligible Florida institution. Some restrictions apply.

Students receiving the Effective Access to Student Education Grant and/or the Florida Student Assistance Grant may receive a maximum of 9 semesters of eligibility. Unused terms may not be used for further course funding after a student earns a baccalaureate degree.

**Reinstatement of Florida Bright Futures**

Recipients of the Florida Bright Futures Scholarship programs who do not receive any scholarships for the period of one academic year may apply for reinstatement of aid through the Florida Department of Education Office of Student Financial Assistance (OSFA) website at www.FloridaStudentFinancialAid.org (http://www.floridastudentfinancialaid.org/).

Florida Academic Scholars award recipients who fail to achieve a 3.0 institutional average, but achieve at least a 2.75 institutional average will renew at the lower Florida Medallion amount.

Bright Future eligible recipients who graduated from high school in 2009-2010 and thereafter who fail to achieve a minimum 2.75 institutional GPA and became ineligible during their first year of funding may apply for restoration in an academic year after which the 2.75 institutional GPA requirements were met. (The 2.75 institutional GPA must be met before the fall term for which the student is applying.)

The student must complete a Reinstatement/Restoration application available on the Florida Department of Education Office of Student Financial Assistance (OSFA) website at www.FloridaStudentFinancialAid.org (http://www.floridastudentfinancialaid.org/).

Students who do not meet the minimum earned hours requirement during any academic renewal period or who fail to meet the minimum institutional GPA requirement after their first year of funding will not be permitted a restoration opportunity.
Restoration of the Effective Access to Student Education Grant

Reinstatement of the Effective Access to Student Education grant (EASE) may be obtained after one full academic year of ineligibility by earning a minimum of 24 credits and/or a minimum institutional GPA of 2.0.

Graduate/Professional Satisfactory Academic Progress

Graduate Students

Review and Notification

To determine continued aid eligibility, the Office of Student Financial Assistance and Employment will review the academic progress at the end of each academic semester for all graduate and professional students receiving federal aid, including the Federal Direct PLUS Loan.

Students who fail to meet SAP will be notified in writing by email. If a student is placed on academic probation they will be eligible for financial aid during that probationary period. A student may receive probationary scholarship assistance only once.

SAP Appeal

A student may appeal a SAP determination that results in loss of aid by completing and submitting to the financial aid office an Academic Progress Appeal Form. Appeals may be granted only if the student failed to meet academic progress requirements as a result of an emergency and/or illness, and these circumstances must have occurred within the semester/academic year during which SAP requirements were not met. All appeals should be submitted no later than 30 calendar days from notice of ineligibility. All decisions made by the committee are final.

Reinstatement of Aid

Reinstatement of aid may be obtained by earning additional University approved credits, achieving the indicated percent completion standard, or successfully appealing.

GPA Requirement

All University of Miami graduate and doctoral students must maintain a minimum 3.0 cumulative grade point average (CGPA). Graduate students who fail to meet the minimum credit hour or cumulative grade point average requirements have failed to meet the satisfactory academic progress standards established by the University. Those in violation of the satisfactory academic progress eligibility requirements will be notified in writing of their eligibility status and right to appeal.

Credit Completion Requirement

Students must earn 67% of the total credit hours attempted during his/her overall academic career. Rounding does not apply.

- Undergraduate and graduate credits cannot be combined to meet this standard.
- Withdrawals, incompletes, audits, NG (no grade) and F’s are attempted but not earned hours.
- Transfer credits are counted in the calculation, but not in a cumulative GPA.

Graduate students must be enrolled at least half-time in order to receive federal financial assistance. A minimum of 5 graduate credit hours constitutes at least half-time enrollment at the graduate level. The only exception to this credit hour requirement is enrollment in any of the 800-level research courses. Students enrolled in any of these courses are considered full-time and are eligible for federal loans.

Duration of Eligibility

All work must be completed within six years of the time of admission to a graduate program, for those studying for the various master’s degrees; and within eight years for those studying for doctoral degrees. For those admitted directly into a Ph.D. program without a master’s degree in field, work must be completed within eight years. Individual programs may set a shorter time period.

Graduate students may receive federally funded assistance for the time to completion limits set up by the Graduate School - six (6) years for those studying for the various master’s degrees and 8 years for those studying for doctoral degrees. Students pursuing dual master’s degrees will receive aid for a maximum of six (6) years. Students in a combined master’s degree/doctoral degree program are eligible for assistance for a maximum of eight (8) years.

Time to Completion

Time to completion starts when a student begins any program in the Graduate School. All work must be completed within three (3) years of the start date to the graduate program, for those studying for the various master’s degrees. Individual programs may set a shorter time period. Exceptions may be granted by the Dean of the Graduate School at the request of the Graduate Program Director. Course availability may vary by program and term; therefore students who may need to withdraw or take a break from their program should work directly with their Academic Advisor to ensure timely completion within the three (3) year window.

A student is ineligible for financial aid when it becomes mathematically impossible for him/her to complete the program within 150% of the length of the program. The length of the program is the amount of time necessary for a student to complete all requirements for a degree or certificate.

Each online degree program has a minimum time within which a student may complete the degree if the student takes the courses on a continually enrolled basis. Online degrees are flexible, and the actual time to completion, within the three-year limit, can vary by student. However, if a student is not continuously enrolled for a period greater than one year, he or she must reapply to the program and will lose any tuition discounts previously
applied to their account. A student may be eligible for any tuition discounts available to new students at the time of the student’s re-admission, and should contact the Online Enrollment Office to see if they qualify.

**Merit Scholarships**
Graduates scholarships awards are determined by the departments. A student’s academic progress and eligibility for an award is monitored and evaluated by the departments.

**Law Students**
Program specific requirements may be found online at http://grad-prof.miami.edu/applying-for-aid/satisfactory-academic-progress/law-sap/index.html (http://grad-prof.miami.edu/applying-for-aid/satisfactory-academic-progress/law-sap/)

**Maximum Time Frame**
Law Students are eligible to receive financial aid up to 33% over and above the maximum of credit hours required to obtain his/her law degree. All periods of enrollment (including Summer), will be counted toward the maximum time frame.

**Treatment of Punitive and Non-punitive Grades and Courses**
All courses with a grade of F, I, IP, NG, U, W and repeated courses will be considered in the calculation of credit hours attempted and will be subject to satisfactory academic progress. Audited courses are not considered in awarding financial aid; therefore, they will not be counted in the determination of satisfactory academic progress. Incomplete (I) grades will be calculated as failing grades in regard to credit hour completion until the course has been satisfactorily completed.

**Notification of Satisfactory Academic Progress**
Awards are considered estimated, until the final grades are reviewed by the Office of Financial Aid. Students are allowed their first term of failing to meet satisfactory progress, due to GPA or failure to meet the required 67%, as a probationary period. Students who have not met the minimum standards of satisfactory academic progress as outlined above, beyond a their probationary period or are academically dismissed, are considered on financial aid suspension and no longer eligible for aid.

**Reinstatement of Financial Aid Eligibility**
A student may regain eligibility by:

- Achieving the required GPA and Credit Hour Completion as outlined.
- Appealing the financial aid decision as described below.

**Financial Aid Appeal Process**
A student may appeal a SAP determination that results in the loss of aid by completing and submitting to the Office of Student Financial Assistance and Employment an Academic Progress Appeal Form. Appeals may be granted only if the student failed to meet academic progress requirements as a result of an emergency and/or illness, and these circumstances must have occurred within the semester during which SAP requirements were not met. All appeals should be submitted no more than 30 calendar days from notice of ineligibility. All decisions made by the appeals committee are final.

**Student Employment**

**Student Employment**
Student Employment (http://www.miami.edu/ose/) is responsible for assisting and guiding students (admitted and enrolled in a degree program at the University of Miami) through the job search and placement process while attending the University.

Student Employment provides job opportunities to all students regardless of sex, age, disability, sexual orientation, ethnicity, nationality, race or creed. University of Miami student employees are required to adhere to established federal, state and local employment regulation practices.

Employment programs for undergraduate students include the Federal Work Study, Student Assistant program, and Lead Miami program, all of which offer opportunities on campus and in the surrounding community. Employment programs for graduate students include: Federal Work Study, Student Assistant Program and Graduate Assistantships. Available positions are posted in JobX (https://umiami.studentemployment.ngwebsolutions.com/)

Student employment program earnings are paid directly to the student as they work and are not applied as a credit toward tuition charges.

**Federal Work Study**
Federal Work Study is a need-based program that provides part-time job opportunities based on your financial aid eligibility. To apply for Federal Work Study, you must complete the Free Application for Federal Student Aid (FAFSA).

Students who are awarded Federal Work Study obtain jobs available at the University of Miami campuses or at off-campus community service agencies that have been approved to participate in the program.
Student Assistant Program

All degree seeking, admitted, and enrolled students are eligible to apply for positions under the Student Assistant program. Student assistant positions are similar to Federal Work Study in terms of job responsibilities and rates of pay; however, they are not supported by federal funds.

LEAD Miami Program

The LEAD Miami program (http://admissions.miami.edu/undergraduate/financial-aid/lead-miami/) is available by invitation to a limited number of students based on Office of Admission referrals. To be considered, invited students must apply to the program by the published deadline.

Graduate Assistantship Program

Graduate Assistantships are mostly offered directly to selected students by their academic departments. Graduate Assistantships may include a tuition scholarship of varying amounts, in addition to work payment. Students must be admitted to a Graduate or Professional Degree Program at the University of Miami in order to be hired as a Graduate Assistant.

Off-Campus Employment

Students seeking career-related experiences and who have reliable transportation can work off-campus. Student Financial Assistance and Employment acts only as a referral service and makes no particular recommendations regarding off-campus employers. Off-Campus employers hire students directly and Student Financial Assistance and Employment is not responsible for safety, wages, working conditions, or other aspects of off-campus employment.

The University of Miami participates in E-verify, an Internet-based system that allows an employer, using information reported on an employee’s Form I-9, to determine the eligibility of that employee to work in the United States. The E-Verify system is operated by the U.S. Department of Homeland Security (DHS) in partnership with the Social Security Administration (SSA). Student employees need to present original documents to complete the Form I-9 and E-verify. A list of other acceptable documents can be found online at https://www.uscis.gov/i-9-central/acceptable-documents/.

Terms and Conditions

My UMIAMI E-MAIL ACCOUNT

The University of Miami Office of Student Financial Assistance and Employment (OSFAE) will communicate with students and their parents by e-mail. Students are required to monitor their CaneLink Student Center (View Financial Aid) and will be responsible for checking their UM email account regularly. Failure to meet deadlines may result in a loss of aid eligibility.

PENDING FINANCIAL AID AWARDS

Awards may be “PENDING” due to a variety of issues that require resolution before financial aid can be disbursed. Students must monitor their outstanding requirements on CaneLink Student Center (View Financial Aid) and submit the necessary documentation as soon as possible. Failure to complete the financial aid process by the priority deadline may impact aid eligibility.

FINANCIAL AID OVER-AWARDS

Students financial need is determined based on the difference between the cost of attendance (COA) and the family’s Expected Family Contribution (EFC) as calculated by the Institutional Methodology formula using information reported on the CSS Profile. Eligibility may change if students receive funds from another source that is not included at the time of the initial financial aid award. OSFAE will communicate with students about award changes which can be viewed on CaneLink Student Center (View Financial Aid).

OUTSIDE SCHOLARSHIP

If a student receives an outside scholarship, it may impact their aid award. Federal regulations require that students submit all information from the scholarship agency to the Office of Student Financial Assistance and Employment (OSFAE) as soon as they are notified of the award. The OSFAE will first fill any gap between the CSS Profile Expected Family Contribution (EFC) and FAFSA EFC and then reduce loans/work study before reducing any need-based grant eligibility. Students can request that the financial aid office reduce federal work study before reducing loan eligibility; however, requests must be made in writing to the Office of Student Financial Assistance and Employment.

FEDERAL AND INSTITUTIONAL WORK STUDY PROGRAMS

There are a variety of work study (federal and institutional) positions available on and off campus. It is the student’s responsibility to find a suitable employment opportunity that fits their needs, areas of interest and academic schedule. Once a position has been secured, students must complete a work study authorization form, I-9 form, W-4 form and a direct deposit authorization before work can begin. If Federal Work Study is awarded as part of the financial aid package, you must accept the award to participate and the amount indicated is the maximum amount a student may earn during the academic year. The amount awarded is not a guarantee of employment and if a student applies too late in the hiring season, a suitable position may no longer be available.
INSTITUTIONAL AID ENROLLMENT REQUIREMENTS

For all merit and need-based aid from the University of Miami, full-time enrollment is required. Full-time enrollment is defined as 12 credits or more each semester. The student must have the required full-time enrollment to qualify for institutional aid. Enrollment of less than 12 credits may result in the reduction or loss of some aid programs. Enrollment in "credit only" courses may not count as part of the 12 credits for certain awards.

SATISFACTORY ACADEMIC PROGRESS

Students must maintain Satisfactory Academic Progress to be eligible for federal, state and institutional financial aid programs. The University of Miami standards of SAP measure a student's academic performance both qualitatively and quantitatively by reviewing the following three areas of performance: completion rate for coursework enrolled, cumulative grade point average earned, and the maximum time frame to complete a degree. The standards of SAP apply for all federal, state and institution funded financial assistance programs. Students that fail to meet the minimum requirements to be eligible for financial aid will lose their eligibility at the end of the period of review.

A student may appeal a failed SAP determination by completing and submitting to the financial aid office an Academic Progress Appeal Form (http://finaid.miami.edu/resources/forms/). Appeals may be granted only if the student failed to meet academic progress requirements as a result of an emergency and/or illness, and these circumstances must have occurred within the semester/academic year during which SAP requirements were not met. All appeals should be submitted no later than 30 calendar days from notice of ineligibility. All decisions made by the committee are final. Please be advised that students will only be eligible to receive one approved appeal during their enrollment at UM. Should a student fail to meet the minimum academic standards outlined in the conditions of their initial approved appeal, they will not be granted an additional appeal unless there are new mitigating circumstances.

REPEAT COURSE WORK

If a student chooses to retake a course for which they have already received a passing grade, financial aid may be affected. At the end of the add/drop period, any student not enrolled in full-time credits, will have their financial aid eligibility reviewed and adjusted as needed to reflect their enrollment level. This may result in a loss or reduction in aid. Full-time enrollment is defined as 12 credits or more for the fall and spring semesters. Those who have taken a course twice, cannot have Federal Pell Grant aid applied to the credits of any future attempts of the same course.

WITHDRAWAL OR LEAVE OF ABSENCE

Financial aid funds are awarded with the expectation that students will complete the entire period of enrollment. Students earn a percentage of funds with each day of class attended. If, for any reason, a student leaves school before the end of the semester or designated period of enrollment, federal regulations require University of Miami to calculate the percentage and amount of "unearned" financial aid funds that must be returned. Once a student has completed more than 60% of the enrollment period, federal aid is considered fully earned for that period. This calculation and the subsequent return of federal funds may result in a balance that is the responsibility of the student to pay. Some state aid funds must be returned to the program for any paid coursework not completed.

ENROLLMENT FREEZE/CENSUS DATE

Student's enrollment level is frozen at the end of the add/drop period for each semester. Any and all adjustments to a student's course schedule should be made before the end of the add/drop period to avoid any adjustments in aid due to insufficient enrollment or being under-enrolled. After enrollment is frozen on census date, the Federal Pell Grant will not be adjusted regardless of any changes to enrollment except in the case of a complete withdrawal. After census date, if a student adjusts their course load which results in additional tuition and fee charges, they may be eligible to receive additional loan funds. Full-time enrollment is defined as 12 credits or more.

Some federal financial aid programs require at least half-time enrollment (six credits per semester) such as the Federal Direct Loan programs. Most institutional and state financial aid requires full-time enrollment including need-based UM grants and merit scholarships. Adjustments to financial aid for enrollment changes after the census date will not be done except for Florida Bright Futures and in the case of a complete withdrawal from the University. There are no exceptions to this policy.

RECONSIDERATION OF FINANCIAL AID AWARDS

Students can appeal financial aid decisions in the case of a change in the family's financial situation. Families must first consult with a financial aid advisor prior to submitting an appeal. If it is determined that a student could potentially benefit from the submission of an appeal for the reconsideration of financial aid, a Request for Review (https://finaid.miami.edu/request-for-review/) with supporting documentation should be submitted to the Office of Student Financial Assistance and Employment. Only certain circumstances can be evaluated such as loss of income, unusual medical expenses (not premiums), separation/divorce of parents, death of a family member, or non-discretionary expenses incurred by the family.

SUMMER LEAVE TERM EXPECTATION

A portion of the family's contribution is the responsibility of the student. UM expects the student to contribute a minimum of $2,500 (from summer and leave term employment opportunities) and any other resources that may be available to the student. University of Miami follows this policy with the following exception: In an effort to encourage participation in summer internships, UM will provide need-based financial aid to replace the summer savings expectation for all students participating in an unpaid summer internship and who are unable to earn and save all or a portion of their student
contribution. In order to qualify for additional financial aid, students must meet posted deadlines for participation in a summer internship. NOTE: The additional financial aid may take the form of increased work-study employment, student loan and/or grant (if applicable) as determined in conjunction with the student’s financial aid eligibility and University of Miami’s awarding policies.

SUMMER ENROLLMENT AND DISBURSEMENT

Summer aid is processed once the student is enrolled for the summer term on at least a half-time basis for those that have eligibility. Only undergraduate students enrolled at least half-time (6 credits or more) will be eligible to receive federal student loans. Financial aid for summer will not disburse until the first day of the session in which the student meets the minimum required enrollment for the aid program. Students with Florida Bright Futures Scholarship eligibility will be awarded after they have commenced enrollment which meets the minimum enrollment required for eligibility. Students who are not enrolled for summer but wish to request Federal Work Study for the summer term must submit a Summer Financial Aid Request Form on the OSFAE website (http://finaid.miami.edu/resources/forms/).

Financial Payment Policies

Policy

All semester charges (tuition, room, meal plans, and fees) are due by the date on the billing notification e-mail, unless an established Monthly Payment Plan contract has been finalized with the Office of Student Account Services. Previously unbilled and new charges are due and payable when incurred. Payment is considered complete only when all charges are paid or when satisfactory arrangements to pay have been finalized with the Office of Student Account Services.

Consequences of Non-Payment

Students that are delinquent in paying their tuition and fees statement balance and/or Monthly Payment Plan may be subject to having their class schedule cancelled. Also, there will be a hold on transcripts and course registration for the current and subsequent semester. Cancellation may also lead to the forfeiture of any financial aid the student may have been awarded.

Registration Fees

Late Registration

Student who register late for classes will incur a late registration fee. Any undergraduate or graduate student who enrolls after the last day to add (as defined by the academic calendar) will be assessed a late registration fee of $150.00.

Reinstatement

Students who are reinstated into classes after being cancelled for non-payment will be assessed a $150.00 reinstatement fee.

Anticipated Payments

If financial aid funds are not available at the time the semester’s balance is due, then the student is expected to pay the balance with a different payment method. Financial aid awards will be considered “anticipated” under the following conditions:

- The Office of Student Financial Assistance and Employment (OSFAE) is provided with a source of aid (other than College Work Study or Miami Commitment) on the student’s award package.
- OSFAE awards the corresponding amount on the student’s award package. i.e., outside scholarship information must be provided to both the Offices of Financial Assistance and Student Account Services in order to consider the aid as “anticipated.”
- OSFAE allocates the guaranteed award during the semester that the disbursement should be expected. This means the student completed all the "To Do" check list items related to financial aid.
- Final guarantees have been processed by the appropriate alternative loan lender – preliminary approvals will not result in automatic disbursements of alternative loan funds.

Examples

Veterans Monthly Educational Benefit Checks: An amount not to exceed the total of the checks expected to be received during the semester (for fall and spring, this is typically three checks) may be credited. Arrangements for this type of tuition credit must be initiated with a representative of Veterans Affairs through the Office of the Registrar and the Office of Student Account Services. Students with VA benefits are required to sign a promissory note with the Office of Student Accounts in order to have their anticipated awards credited to their account.

International Students with Government Sponsorships: Payment of all or a portion of charges that can be billed directly to corresponding government agencies may be credited upon presentation of appropriate documentation from their government or embassy.

Florida Prepaid Program

The University of Miami will assist with a student’s education expenses by billing for any available Florida Prepaid College Program funding directly to the Florida Prepaid College Board. Florida Prepaid participants may authorize the University of Miami to request a payment disbursement option that
Financial Payment Policies

best matches your needs and current savings in the plan. We encourage participants to authorize a payment that will facilitate your financial planning objectives for your student's enrollment at the University of Miami.

If you would like to add or change your Florida Prepaid billing with the University of Miami, please follow the steps below:

1. Authorize the University of Miami by filling out the ‘Transfer Form’ and designating the university with Florida Prepaid to allow the University of Miami to bill your Florida Prepaid account.

2. Fill out and submit the University of Miami’s ‘Authorization Form’ (https://www6.miami.edu/canesrequest/?flow-id=47c4b0bc-3691-4177-80bf-ae35470b0d72)

3. To check that your current Florida Prepaid is being applied to your student account, go to the ‘Account Activity’ page under Payments/Account Summary on your Student Center in CaneLink.

Florida Prepaid College Program:
http://www.myfloridaprepaid.com/
800-552-4723 Option #2
P.O. Box 6567
Tallahassee, Florida 32314-6567

Policy on Previous and Unpaid Balances

Non-Payment
The University of Miami may declare due and payable at once the sum of all past due balances. The University reserves the right to withhold transcripts, diplomas, readmission, and future registration for non-payment of outstanding balances. The University’s Collection Department may also disclose the student’s outstanding indebtedness, along with other relevant information, to credit information bureaus. A non-refundable $150 reinstatement fee will be charged to reinstate each unpaid and canceled semester.

Withdrawal & Tuition Drop Refunds

Official Withdrawals: An official withdrawal occurs when a student completes the withdrawal process as outlined in the University of Miami Academic Bulletin.

Withdrawal Date: The date that the student is officially withdrawn from the University. This date is determined during the withdrawal process.

Last Date of Attendance: The date the student notifies the University of their intent to withdraw.

Unofficial Withdrawals: An unofficial withdrawal (dropout) occurs when a student ceases attendance and does not complete the withdrawal process outlined in the student bulletin. Unofficial withdrawals are discovered through an audit of students with failing grades at the end of the semester.

Tuition Refunds
Withdrawing does not guarantee you a refund. Tuition will be credited to your student account on a prorated basis depending on the date noted as the “Withdrawal Date” for official withdrawals (refund schedule available online and subject to change). Tuition will not be refunded for unofficial withdrawals. Fees are nonrefundable after the first week of the semester.

Note: If you have financial aid, there may be adjustments to your aid after you withdraw. This may result in a lower overall refund, no refund, or a balance due to the University.

Return of Title IV Aid
In accordance with Federal Return of Titles IV Aid regulations.

The Return of Title IV Aid is prorated based on the number of days attended. The Return of Title IV Aid calculates the amounts of aid earned (student keeps aid) by the student and the amounts of aid that must be returned to each financial aid program. The aid will be returned within 45 days after the last date of attendance. The unearned aid will be charged to the student's account and returned to the applicable financial aid program.

The last date of attendance for unofficial withdrawals is the midpoint of the semester. The University must determine the last date of attendance within 30 days after the end of the payment period and return unearned Title IV Aid within 45 days from the date determined that the student withdrew.

Students who withdraw after 60% of the semester have earned 100% of the Title IV Aid.

Note: Return of Title IV Aid applies to complete withdrawals and do not apply to course load reductions.

Withdrawal Example
A student notifies the Registrar of withdrawal on the 50th day of the semester. If the total number of calendar days in a semester were 108*, the earned financial aid ratio would be 50 divided by 108 or 46.3 percent. The student would have earned 46.3 percent of the approved federal aid that the
student was originally scheduled to receive for the term. The 53.7 percent of the student’s scheduled or disbursed aid remains unearned and must be returned to the Federal Program. If a student remains in school until the percentage of earned financial aid is 60% or more, then federal regulations consider the student to have earned 100% of their federal aid. For further information please refer to the 'Cane Success Center withdrawal information page (https://success.miami.edu/student-withdrawal/).

**The return of Title IV Aid will be calculated at 53.7%.**

* Total number of calendar days may vary from semester to semester

**Title IV Aid Programs:**

- Unsubsidized Federal Stafford Loans
- Subsidized Federal Stafford Loans
- Federal Perkins Loan
- Direct Plus (Graduate Student)
- Direct Plus (Parent)
- Federal Pell Grant
- Federal Supplemental Education Opportunity Grant (SEOG)
- Academic Competitive Grant (ACG)
- National SMART Grant
- TEACH Grant
- Iraq and Afghanistan Service Grants (IASG)

**Return of Non-Title IV Aid**

**University Aid**
The return of University Aid is calculated using the tuition refund percentage. Unearned aid will be charged to the student’s account and returned to the applicable financial aid program.

**State Aid**
The Florida Bright Futures award is based on the actual number of credits the student is enrolled in. When a student withdraws the full amount of the award is returned.

The EASE award (formerly known as the FRAG award) is returned in full if the withdrawal date is within the first week of the semester. If the withdrawal date is after the first week of the semester the student earned the EASE.

**Other**
The University will not return private education loans as the agreement is directly between the student and the lender.

**Alumni Rate and Policy**

**Special Opportunity for UM Graduates**

UM graduates may take undergraduate credit hour courses in the College of Arts and Sciences on a space available basis, at a special alumni rate. All University of Miami graduates are eligible for this special program.

Students may take courses within the College of Arts and Sciences, School of Communication and the School of Education and Human Development. Participants may choose a course or collection of courses (limit rules apply) to meet professional or personal goals.

Interested students may call the Division of Continuing and International Education at 305-284-4000 to inquire about the benefit and/or the current tuition rate, request an application, or enroll in the courses. They will submit a simple, no-fee, one-page application, simply select an undergraduate course (open on a space available basis) and be on their way to continued learning at UM.

**Policies Governing Enrollment in University of Miami Alumni Status**
The University of Miami Alumni Status includes students who are not seeking a degree and meet the following requirements. Enrollment in a non-degree program and/or satisfactory completion of courses does not imply admission to a degree program.

1. University of Miami graduates (completed degree);
2. U.S. citizens or permanent U.S. residents.

**Conditions applying to University of Miami Alumni enrollment**

1. Students may enroll in a maximum of 12 undergraduate credit hours per semester.
2. Students are limited to two courses per academic department.¹
3. International students will not be issued I-20 forms.
4. International students in B-1 (business) or B-2 (pleasure) visa status may engage in study as long as the educational activity is secondary to the principal activity for which the visa was sought.
5. Enrollment may be completed on a space-available basis only. (Course availability determined two days prior to semester start.)
6. Courses taken for undergraduate credit hour (including 500 level courses) will not be considered for graduate credit hour at a later date.

Note: Not all courses and/or departments may be available.

*Parking subject to change

Parking on the University of Miami's Coral Gables campus is a privilege extended to those using the facilities of the University consistent with the terms of the University's Parking Policies and Procedures and other policies of the University as they are set or amended by the Provost. Parking privileges are extended only to those eligible members of the university community including trustees, faculty, administrators, staff, students, vendors and visitors who have paid for a valid UM parking permit. In consideration of being allowed to use the University's facilities for parking, the purchaser of a parking permit agrees to be bound by the rules set forth in the Parking Policies and Procedures, and agrees to pay to the University any fine or administrative charge assessed for non-compliance with this code.

Students, faculty, employees, and staff may not park in visitor parking spaces, and UM parking permits are not valid at parking meters.

First year resident students (students residing on the Coral Gables campus who are attending college on a full time basis for the first time) are restricted from purchasing a parking permit to park on the University of Miami's Coral Gables campus. This policy applies to first year students living in University of Miami student housing on the Coral Gables campus.

For more information on Parking, please visit our website (http://www.miami.edu/parking/). Annual permits are valid August 16, 2020 through August 15, 2021.

Payment Options

The University Cashier accepts cash, personal checks, traveler's checks, cashier's checks, certified checks, money orders, and checks drawn against lines of credit. Personal check and credit card payments are accepted online via CaneLink. Bank wire transfers are also accepted.

Checks and Money Orders

Payments must be in U.S. Dollars and drawn on a U.S. bank. Payments must be made payable to the University of Miami and include the student's identification number to ensure credit to the student's account. Post-dated checks are not accepted.

Returned Checks Policy

All returned checks are deposited twice, automatically, and without notice. A Returned Check Fine will be assessed to the student's account, as listed below, after the second attempt. Check cashing privileges will be canceled for those students who have three (3) or more returned checks.
A notification letter will be mailed to the maker of the check by the University's Collection Department detailing the amount and fine for the returned check. Check cashing privileges will be restricted until cash or certified funds (money order or cashier's check) are presented for payment. A personal check will not be accepted to replace a dishonored check.

Returned check fines processed through CaneLink will incur a $20 fee. Checks not processed through CaneLink will incur the following charges:

<table>

</tr>
<tr>
<td>Checks for Monthly Payment Plan</td>
<td>$25.00 Fee</td>
</tr>
</tbody>
</table>

**Wire Transfer of Funds**

Students may pay their tuition by wire transfer. The wire transfer instructions can be obtained through CaneLink.

**How to obtain wire transfer instructions:**

1. Log into CaneLink and go to Student Center, click on the Account Inquiry button under the Finances.
2. Click on Make a Payment to pay your tuition and select Wire Transfer Payment (USA & International).
3. Select the country from the “What country are you paying from” dropdown list. For domestic wire instructions, select the US wire transfer payment option.
4. Create a Flywire account, to track your wire payment, and enter basic identification information for the University to identify your payment.
5. The bank account wire instructions will be provided.
6. An email will be sent with a unique wire identification number.

Students should make sure their full name, student ID number, and unique wire ID number are included with the wire transfer to ensure the funds are applied correctly.

**Tuition Payment Plans**

The Office of Student Account Services offers an optional financial alternative, monthly payment plan to assist students and parents. The University’s payment option is designed to provide convenient alternative plans of budgeting and paying educational costs whether or not a financial assistance award is granted.

The Monthly Payment Plan (MPP) allows you to divide your educational expenses into convenient monthly payments per semester.

Enrollment in the plan does represent a contractual agreement with the University. Proxies will be able to establish a monthly payment plan on behalf of the student if they are a fully authorized designated proxy on CaneLink.

**MPP Rules:**

- Monthly Auto payment is deducted each month on the same day
- Monthly Auto Payment Reminder – 5 days prior
- ACH Insufficient Funds Return: $25 Servicer Fee (non-refundable)
- Missed Installment – Next Installment Doubled
- ACH Return Reattempts – 1
- No Reattempts for declined credit card payments
- The 2.3% credit card service fee is non-refundable
- Number of Missed Installments before termination – 2
- There is a 3% non-refundable Participation Fee to enroll in the payment plan

The Charges Due will reflect on the student’s account until the payment plan has been paid in full. If additional charges are incurred, they may be added to the payment plan, future installments will increase accordingly, and the 3% non-refundable Participation Fee will be assessed. If a credit is applied to the student’s account, the change will be reflected accordingly the day before the installment is due.

*Executive/Professional MBA students and UM employees are ineligible to participate in the Monthly Payment Plan.*

Graduate Housing

Housing in on-campus housing is not available for GRADUATE students in addition to married students, single parents with children, law students, and medical students. The Department of Housing and Residential Life does assist GRADUATE students with off-campus housing information and resources here (http://www.miami.edu/housing/).
Law Housing

Housing in on-campus housing is not available for LAW students in addition to married students, single parents with children, graduate students, and medical students. The Department of Housing and Residential Life does assist LAW students with off-campus housing information and resources that can be found here (http://www.miami.edu/housing/).

Tuition and Fees

Tuition

The basic undergraduate tuition rate covers the normal student load and is increased if the student carries an overload. Private instruction, e.g., music lessons, carries extra charges. Students who opt to participate in any of the University's intercession courses will be billed for the intercession course separately from the flat rate cost of full-time tuition and fees.

For tuition charges in special programs and sessions, see announcements that are published concerning these components of the University's academic program.

The following list of charges is effective for the academic year 2020-2021.

</table>

Undergraduate students carrying both undergraduate and graduate courses will be charged tuition at the rate in effect for undergraduate credit hours taken and appropriate fees. For example, tuition for a student carrying a total of 15 credit hours, of which 3 are graduate and 12 are undergraduate, would be charged at the $26,040.00 rate.

Undergraduate students taking graduate level coursework that is priced at a special level will be billed separately for these courses. Students should check with their advisors and/or the appropriate school's department for more details on their course pricing requirements.

Full-time fees will be assessed according to student classification as an undergraduate or graduate.

The University reserves the right to change without notice tuition, fees, room and all other charges at the beginning of any academic year, and the right to change activities and meal plan fees at the beginning of any semester.

Graduate Students

| Pre-Master’s, Post-Master’s, and Doctoral Students per credit hour | $2,170.00 |
| Research in Residence (720 or 750) or Continuous Registration-Master’s Study (725), per fall/spring semester | $2,170.00 |
| Research in Residence (720 or 750) or Continuous Registration-Master’s Study (725), per summer session (0 Research Credit Courses) | $2,170.00 |
| Audit Work (No degree credit) Tuition, per course, non-refundable. | $2,170.00 |

Certain programs are conducted by the University under contract with the State of Florida. Florida residents who have been accepted as students in those contract programs are required to pay current state tuition for each credit hour taken and the state provides the University with additional funds in accordance with the terms of the contracts. Students involved in state contract programs should contact the appropriate school/college to ascertain the state tuition charge per credit hour that they are expected to pay.
Fees
Some fees depend upon full-time status. This is usually determined by the sum total of semester credit hours carried by the student in all divisions or enrollment in certain special programs that are classified as full-time regardless of credit hour load. Intersession classes are included with regular fall and spring semester classes in determining the student's full- or part-time status. This determination will also result in the billing of required fees. Fees are subject to change.

Undergraduate students are classified full-time if they enroll in 12 or more credit hours in a regular semester or 12 or more credit hours in a summer session or if they are enrolled in a special program which is classified full-time regardless of credit hour load.

Graduate students are classified full-time if they enroll in nine (9) or more credit hours in a regular semester or six (6) or more credit hours in a summer session, or if they are enrolled in dissertation credit hours that are classified as full-time.

1 Student Health & Counseling Centers Fee is mandatory for all full time and part-time students regardless of credit hour load. Part-time students will be charged the part-time rate.
2 Student Center Fee is mandatory for all full time and part-time students regardless of credit hour load. Part-time students will be charged the part-time rate.
3 Wellness Center Fee is automatically charged to all full-time Graduate, Rosenstiel Graduate, and Medical Graduate students. It is mandatory unless declined by opting out of the fee in CaneLink. The last day to decline the fee is the last day to drop a class without a "W" as defined in the University’s academic calendar.
4 Law Student Activity Fee mandatory regardless of credit hour load.

### Student Right to Know Act

The Student-Right-to-Know and Campus Security Act requires institutions to disclose information about graduation rates and crime statistics to current and prospective students. Students interested in obtaining this type of information should contact the Office of Admission, 305-284-4323 or go to this website (http://www.miami.edu/hear/).
Family Educational Rights and Privacy Act (FERPA) Buckley Amendment

The purpose of this policy is to assure that students have access to their educational records and to assure the privacy of students by restricting the disclosure of information from education records to those persons authorized under the Act.

The policy is provided to all students in the Student Life Handbook. Copies can also be printed from the website (https://ua.miami.edu/student-consumer-information/#FERPA).

Security of Student Records

The Office of the University Registrar is charged with the responsibility of maintaining the security and integrity of student records. Student records created before 1985 have been electronically scanned. Student records created after 1985 are housed on an electronic database.

In order to maintain confidentiality, access to the student record system is limited to university personnel who have a legitimate need for this information. Each user is required to fill out an access form. A user name is created, and each user must also create a password that must be changed every 180 days. Periodic audits of records as well as reviews of who has access to the system are regularly scheduled to ensure a secure environment.

Students are assigned a UM ID number that is unique to them and they are encouraged to use it instead of their social security number. Students are required to provide their student ID or a photo ID when requesting academic record information from this office.

FERPA Training

FERPA, the Family Educational Rights and Privacy Act, provides established guidelines for universities to ensure that students have access to their educational records as well as to ensure the privacy of said records by restricting the disclosure of information from educational records to those persons authorized under the Act. FERPA guidelines must be followed when dealing with the disclosure of student information.

All staff who use the student records system are required to complete a FERPA tutorial. Periodic reviews are required.

Service Indicator (Hold) on Student Records

Schools and colleges, university administrative departments and other student related offices have the ability to put service indicators, also known as holds, on student records. These holds can be financial, academic or disciplinary in nature and may delay a student’s ability to register, to receive an official transcript or to receive a diploma. Holds on a student’s record normally require action on the part of the student, i.e., a payment, completion of paperwork, etc. Specific information on a hold and what is required to remove it can be found in the Student Services Center in CaneLink or can be obtained from the office/department that initiated the hold.

Policy for Determining Student Location for Professional Licensure Disclosures

The University of Miami is required by the federal government to determine a student’s physical location at the time of enrollment for the purpose of providing required professional licensure disclosures. The University determines a student’s physical location based on the permanent address the student provides on his/her application for admission. All University of Miami academic programs, regardless of the application software used, collect the applicant’s permanent address and import the data into the University’s student information system (CaneLink) during the application process. Once the application is submitted, the applicant can update his/her permanent address through the application software and it will update the information in CaneLink via the next import. Once the applicant enrolls and becomes a University of Miami student, the student can update his/her permanent address at any time directly through CaneLink. It is the responsibility of the student to inform the University of any change to his/her permanent address. Students are reminded to review and update their permanent address in CaneLink at the start of each academic semester during the add/drop period.

Professional Licensure Disclosure Notifications

The University of Miami is required to notify students in academic programs that prepare students for professions requiring licensure or certification whether the student’s program meets the educational requirements for licensure/certification in Florida and in the student’s home state at the time of enrollment. The University Registrar will notify via e-mail each applicant who applies to academic programs that prepare students for professions requiring licensure or certification at the time the application is submitted based on the state provided in the applicant’s current permanent address in CaneLink. The University Registrar will notify via e-mail each student actively enrolled in academic programs that prepare students for professions requiring licensure or certification after the add/drop deadline each academic semester based on the state provided in the student’s current permanent address in CaneLink.

A list of the University of Miami academic programs that prepare students for professions requiring licensure or certification and information on whether these programs meet the educational requirements for licensure/certification in Florida and in other states is published at this website (https://ua.miami.edu/professional-licensure/).

Student Services

'Canes Central

'Canes Central brings together the front-of-the-house operations for the Registrar, Financial Aid, and Student Accounts—as well as student Cane Card operations—into a single, centralized location. This student-centric department provides the University of Miami community with concentrated, service-oriented support across a broad range of issues in a forum that provides timely responses and comprehensive solutions.

The 'Canes Central team consists of highly-trained professionals who can answer questions across each of the four core areas of operation. 'Canes Central team members use a holistic approach to address student questions, and they use cutting-edge technology to connect with students in ways that align with their daily lives. These connections are accomplished through a multi-modal approach via in-person exchanges, phone calls, e-mails, virtual tickets, online self-help resources, and referrals, and in a convenient location situated on the first floor of the Student Services Building, located behind the Lowe Art Museum and across the canal from the Miami Herbert Business School.

'Canes Central strives to provide world-class service and student-centered care. Visit 'Canes Central any time!

5 Ways to Connect

1. Get Help With …
   • Access a robust knowledge base of online self-help articles and search for the answers to your questions 24 hours a day, 7 days a week, by clicking the "Get Help With ..." link at https://canescentral.miami.edu

2. Submit a Case
   • If you are unable to find the right answers through the "Get Help With ..." self-help tool, follow the steps on the "Submit a Case" page at https://canescentral.miami.edu to reach out to the 'Canes Central team at any time

3. Phone
   • Speak live with a 'Canes Central team member by calling (305) 284-IBIS between 8:30 a.m. – 5:00 p.m., Monday through Friday

4. E-mail
   • You are welcome to e-mail 'Canes Central any time at canescentral@miami.edu; however, it is highly recommended you instead use the "Submit a Case" function mentioned above as it provides more detailed information to the 'Canes Central team and allows you to better track each of your 'Canes Central interactions

5. In person
   • Beginning on August 1, 2020, walk in to the 'Canes Central space between the times listed below:
     • Monday = 8:30 a.m. – 5:00 p.m.
     • Tuesday = 8:30 a.m. – 5:00 p.m.
     • Wednesday = 8:30 a.m. – 5:00 p.m.
     • Thursday = 10:00 a.m. – 5:00 p.m.
     • Friday = 8:30 a.m. – 5:00 p.m.
     • Note: Saturday hours are available from 1:00 p.m. – 5:00 p.m. the weekend before and the first weekend of each new semester

Camner Center for Academic Resources

http://www.camnercenter.miami.edu

The Camner Center for Academic Resources offers free academic assistance to all UM students. The Camner Center offers individual peer tutoring by appointment in most subjects, study skills instruction with a Learning Specialist, free academic workshops, and many other valuable services. Please visit our website (http://www.camnercenter.miami.edu) or call 305-284-2800 to learn more and/or schedule an appointment.

Peer Tutoring

At the Camner Center, all UM students can take advantage of free individual peer tutoring to develop a deeper understanding of course work through additional, special, or corrective content instruction. All tutoring is course specific and taught by nationally certified peer tutors. All UM students are eligible for two hours of tutoring per week for each course. Please send us an email (tutoring.arc@miami.edu) for more information or to ask any questions.

Supplemental Instruction

Small group sessions are available to help students succeed in the University's toughest courses. Group Peer Tutoring is done on a weekly basis where students sit down to discuss course content in a small group setting with the peer tutor serving as a facilitator.
Academic Workshops
This free workshop series instructs students on specific academic skills and strategies to enhance academic performance. Workshop topics include effective test-taking strategies, improving study strategies, utilizing technology, and organization and time management skills. Topics are updated every semester, and students may attend unlimited sessions. Please visit our website (http://www.camnercenter.miami.edu) for the current workshop schedule.

Learning Specialists
The Camner Center for Academic Resources provides the support of trained Learning Specialists to students experiencing difficulty with academic issues. Students may request a one-on-one meeting with a Learning Specialist to help develop the skills needed to achieve success in their academic careers. Skills covered during these appointments include time management, effective note-taking, college textbook reading, educational technologies, test taking, and other learning strategies. Students can request an appointment with a Learning Specialist through our website (http://www.camnercenter.miami.edu) for more information about the support services available to students.

Independent Learning Initiative
The Independent Learning Initiative is a fee-based academic support program that provides structure, support, instruction, and monitoring for students needing additional guidance during the college experience. During the semester, students will identify and understand their academic strengths and areas for growth, as well as learn strategies, skills, and technologies to enhance their academic and personal success in college. Participants learn to monitor their academic progress and critically evaluate their current skills and strategies to work towards becoming a successful independent student. For more information about the program or to apply, please visit our website (http://www.camnercenter.miami.edu).

Disability Services
Disability Services
Disability Services
camnercenter.miami.edu/

Office of Disability Services (ODS)
The Office of Disability Services (ODS) is the primary university office responsible for the coordination of auxiliary aids and services for students with disabilities. Please visit our website (http://www.camnercenter.miami.edu) for more information.

The Office of Disability Services (ODS) provides academic accommodations and support to ensure that students with disabilities are able to access and participate in the opportunities available at the University of Miami. Individuals with disabilities must request academic accommodations through the Office of Disabilities Services. Accommodations are determined on a collaborative and case-by-case basis and are based on the documentation provided by the individual. ODS staff will work collaboratively with students to determine what academic adjustments and educational auxiliary aids are reasonable to ensure that students with disabilities are not subject to discrimination.

Information is available to prospective and enrolled students, their parents and/or sponsors. ODS staff can be reached at 305-284-2374 (Voice) or 305-284-1999 (Fax). Office hours are 8:30 am to 5:00 pm, Monday through Friday. Individuals may email the office staff (disabilityservices@miami.edu) for quick responses to questions.

The following deadline dates apply for all requests for academic accommodations through the Office of Disabilities Services:

<table>
<thead>

Grievance Procedure
The University of Miami, through the Office of Disability Services, has adopted a grievance procedure providing for prompt resolution of complaints by persons who believe they have been subjected to discrimination based upon their disability.

- All complaints must be directed to the University of Miami, Office of Disability Services, P.O. Box 249003, Coral Gables, Florida. 33124 and addressed to the Director of the Camner Center for Academic Resources.
- All complaints must be in writing and must contain the name and address of the complainant. In the grievance, the student or individual must set forth specific facts in support of his/her complaint. All grievances must be signed by the student or individual.
- All grievances must be filed within 90 days of the alleged discriminatory event. If the complaint involves the denial of a student’s request for auxiliary aids and services or other modifications, the grievance must be filed within ten (10) days after the student receives notification that their request for auxiliary aids and services or other modifications has been denied. All additional documentation regarding your appeal must be submitted at the time of the individual’s appeal request.
- The grievance will be reviewed and adjudicated by the Director of the Camner Center for Academic Resources, or her designee (the “Director”). In no event, will the designee be the same individual who made the initial determination as to the request for auxiliary aids, services, or other modifications or accommodations.
• An investigation, if deemed appropriate by the Director, will be conducted by the Director following receipt of the grievance. The Director may review information and documentation contained in a student’s file and/or any other information an individual may submit in support of his/her grievance.
• Within twenty (20) days of the receipt of the grievance, the grieving party will receive a written decision from the Director.
• The decision of the Director of the Camner Center for Academic Resources shall be considered the final decision on the matter.

Retaliation against a person who files a grievance, or opposes a policy he/she believes to be discriminatory is prohibited.

Persons may contact the Assistant Director of Disability Services, who is responsible for coordinating the University of Miami’s 504 compliance efforts at (305) 284-2374 (P.O. Box 249003, Coral Gables, Florida, 33124), with any questions or concerns.

Individuals, who believe that they were subjected to discrimination on the basis of disability by the University of Miami, are encouraged to use the grievance procedure to resolve their concerns. Individuals may file a complaint directly with the U.S. Department of Education, Office for Civil Rights, at 61 Forsyth St., Southwest, Suite 19T10 Atlanta, GA 30303. To file a complaint with the State of Florida, contact the Commission for Independent Education 325 W. Gaines Street, Suite 1414, Tallahassee, FL 32399-0400.

Cane Cards
http://pt.ref.miami.edu/other-services/cane-card/index.html

The Cane Card is an on-campus student identification card. Students, faculty, and staff must present a government issued photo ID such as a driver’s license or passport when acquiring their card. The Cane Card provides access to on-campus student residences, the Otto G. Richter Library, computer laboratories, the swimming pool, the Patti and Allan Herbert Wellness Center (for those who purchase a membership), and other facilities where access has been granted. The Cane Card is also used to control lending privileges at the library, access to athletic and other events (fee required), the purchase of discounted Metrorail tickets, U-Print services, and meal plan privileges. All University of Miami students, faculty and, staff are required to carry their Cane Cards for identification purposes while on campus.

• Lost or stolen Cane Cards should be reported to the Cane Card office at 305-284-3096 during the week or anytime by accessing your MyUM account, under the financial tab.
• Lost or stolen cards may also be reported to security 24 hours per day at 305-284-6666.
• After being reported stolen or lost, a card will be deactivated to prevent unauthorized use.
• Lost or stolen cards will be replaced for a $25 fee (Fee waived in certain circumstances. Please contact the Cane Card office for additional details).
• Damaged cards will be replaced for free upon exchange of the original damaged card.
• For all issues with Cane Express accounts, call Canes Central at 305-284-IBIS or visit them in the 1st floor of the Student Services Building.

Career Services
http://www.HireACane.com

Patricia and Harold Toppel Career Center
(305) 284-5451 | toppel@miami.edu

The Toppel Career Center provides innovative and dynamic career services to students and alumni of the University of Miami. Furnished with the latest technology, including video conferencing, 360-degree video recording, and lecture capture, the Center’s six interview suites, a technology lab, a conference room, and a multipurpose Loft offer a variety of spaces (http://hireacane.miami.edu/about/reserve-space/) for students to meet their career-related needs. The Center is often described by visitors as “like no other” and is a model for career services throughout the country. Over six times larger than the average career center, the 12,000 square-foot building on Ponce De Leon Boulevard houses career programs and workshops, networking events, professional individualized advising, practice interviews, industry panels, drop-in peer advising, company presentations, on-campus interviews, and more.

Career Education
Regardless of the path you take, a comprehensive career planning process begins as soon as you step on campus. Professional staff at the Center assist students with their career development utilizing a three-part model (http://hireacane.miami.edu/about/) that provides the tools necessary to Explore (strengths, interests, values, skills, and abilities), Prepare (career and industry research, practice interviews, and internships), and Connect (building meaningful relationships and growing a professional network).

Advising Services
You can stop by Toppel for an individual or small group advising session where highly trained and motivated peer advisors with industry-specific knowledge can provide you with guidance on potential career paths. You can drop by any time Monday through Friday, 8:30am - 5pm, no appointment
The Center even offers online career assessments (http://hireacane.miami.edu/explore/majors-careers/) that can help you narrow down career options by building self-awareness.

**Programs and Workshops**
A series of programs and workshops (http://hireacane.miami.edu/events/education/) is offered throughout the academic year both in-person and virtually. Each session provides information and skill-building activities in the areas of resume development, interviewing skills, social media for the job search, securing internships, and much more. In addition, programs designed to increase awareness of specific career paths and professional opportunities are offered. These are often conducted by outside speakers and panelists who are UM alumni and/or recognized specialists in their fields. If you’re looking for something more intensive, Toppel offers the Professional Development Academy (https://hireacane.miami.edu/gain-experience/career-readiness/academy/), a 9-week, 1-credit program designed to help you develop critical competencies that will get you career ready.

**Career Preparation & Networking**
Through the Center’s vision, Empowering and Connecting Canes to Achieve a Lifetime of Career Fulfillment, the staff encourages students to develop meaningful relationships with professionals in their area(s) of interest. The Toppel Career Center provides many opportunities for you to network with employers and alumni, including panel programs, employer meet-ups, job shadowing (UShadow (http://hireacane.miami.edu/explore/ushadow/)), on-campus recruiting, and career fairs.

**Career Fairs and On-Campus Recruiting**
Career Expo (http://hireacane.miami.edu/events/fairs/) is the largest career fair, typically bringing in over 100 employers and 1,000 students and alumni bi-annually in late September or early October and again in February. Toppel also organizes smaller industry-specific career fairs that focus on more specialized areas. Representatives from a variety of industries from around the world visit campus to meet, interview, and discuss career opportunities with students. In addition, the On-Campus Recruiting (http://hireacane.miami.edu/gain-experience/on-campus-recruiting/) program brings employers to campus for company information sessions and to interview students for jobs and internships in the interview suites. Last year, over 1,000 interviews were conducted in the Center’s interview suites. You can apply for these positions through Toppel’s free online career management system Handshake (https://miami.joinhandshake.com/). If you’re in need of some professional clothes to wear to these events, stop by Toppel to rent attire for free from Sebastian's Closet (https://hireacane.miami.edu/resources/dress-for-success/).

**Toppel Internship Program**
The Toppel Internship Program (TIP) (http://hireacane.miami.edu/gain-experience/tip/) is designed to provide valuable career-related work experience through internships with participating employers. TIP allows students to earn a 1-credit transcript notation from the Toppel Career Center for internships they have already secured.

**Handshake**
Students can search Handshake (https://miami.joinhandshake.com/) for thousands of job and internship opportunities available to them. Handshake is Toppel's free online career management system where hundreds of employers from across the country, including all Fortune 500 companies, post open positions. Simply login with your UM Single-Sign-On credentials to activate your account. Then complete your profile with your interests and experiences and make your profile public so that recruiters can potentially reach out to you! Handshake will recommend different job openings to you based on what you've entered, making the job search process much easier. You can apply for the position directly on Handshake. Before doing so, we recommend uploading your resume for an online critique and checking out the Events page to register for Toppel's programs/workshops.

**Connecting with the Toppel Career Center**
The Toppel Career Center's vision is to empower and connect all 'Canes to achieve a lifetime of career fulfillment. Evidence shows that students who visit the Career Center are more likely to earn internships and ultimately have better career outcomes at the time of graduation. For a look at some of these post-graduation outcomes, check-out our online interactive data dashboard at miami.edu/outcomes (https://hireacane.miami.edu/about/career-outcomes/). To make the most of all that Toppel has to offer, visit us in person at 5225 Ponce De Leon Blvd., online at HireACane.com (http://www.HireACane.com), or by logging into Handshake (https://miami.joinhandshake.com/) and activating your account as soon as you arrive on campus! You can also keep up with what we’re doing by reading our weekly e-newsletter and following any one of our social media platforms: Facebook (http://www.facebook.com/pages/Toppel-Career-Center-at-the-University-of-Miami/70221785028/?ref=ts), Twitter (http://www.twitter.com/toppel/), Instagram (http://instagram.com/hireacane/), WordPress (http://toppelpeers.wordpress.com), and Pinterest (http://pinterest.com/umtoppel/).

**Commuter Student Involvement**
orientation.studentaffairs.miami.edu

The Department of Orientation and Commuter Student Involvement (OCSI) is located on the second floor of the Shalala Student Center, suite 203. OCSI offers a variety of services and programs for students from Miami-Dade and Broward Counties who live at home and commute to the University of Miami. For more information, please visit the department’s website (http://miami.edu/csi/).
Great Start Pre-Orientation Program for Incoming Commuter Students

Great Start is an overnight, pre-orientation program designed to promote and emphasize college adjustment and campus involvement opportunities for incoming commuter students (first-year, transfer and spring admitted students). The program’s goal is to help students feel like a part of the University and give them a chance to meet other commuter students. Students who participated in Great Start have said the program greatly contributed to a positive transition from their previous institution, whether that be high school or a previous college to the University of Miami. Commuter student leaders serve as Program Coordinators, Steering Committee members, and Counselors. Registration for the program is available via Canelink for incoming commuter students with a Miami-Dade or Broward County home address. For more information, please visit the program’s page (https://orientation.studentaffairs.miami.edu/commuter-students/great-start/).

Commuter and Transfer Assistant Program

Commuter Assistants and Transfer Assistants specialize in helping off-campus students transition to collegiate academics and find a niche on campus, as well as creating a welcoming, inclusive environment. Through newsletters, social events and intentional one on one meetings, CAs and TAs, help pave the way to a successful transition for new ’Canes. All first-year commuter and first semester commuter transfer students are assigned to a CA or TA. Signature events hosted by the CAs and TAs in collaboration with various campus resources are Hey Commuters!, a monthly commuter appreciation program, the Newman Arsht Cultural Program, where students get to experience a free show at the Adrienne Arsht Center along with a faculty member once a semester, and SportsFest, a university-wide sports competition in February. For more information about the CA/TA Program, please visit the department’s website (https://orientation.studentaffairs.miami.edu/).

Association of Commuter Students

The Association of Commuter Students (ACS) is a second home for its members. ACS, a student organization, provides social support, service opportunities, school spirit involvement, and a physical space through which commuters bond with fellow students and to participate in all that the University has to offer. ACS provides its members with a working knowledge of UM that gives them the opportunity to become fully involved in campus life. Brought together by a simple fact of life, commuting to campus, ACS members have forged bonds that extend beyond this commonality. For more information on ACS, please visit the organization’s page (https://orientation.studentaffairs.miami.edu/commuter-students/association-of-commuter-students/).

Tau Sigma

Tau Sigma is an academic honor society designed specifically to “recognize and promote the academic excellence and involvement of transfer students.” By establishing chapters at four-year institutions across the country, Tau Sigma is able to recognize the academic achievement of the most outstanding transfers nationwide and, in the process, help universities better serve their transfer populations.

Counseling Center

counseling.studentaffairs.miami.edu

The Counseling Center is the primary provider of mental health services for UM students. The Counseling Center provides short-term individual, couples, and group therapy as well as psycho-educational outreach programming and consultation. Urgent care and limited career and psychological assessment are also available. Psychiatric services are available to those under the care of a Counseling Center therapist. The Counseling Center staff consists of experienced professionals from the fields of mental health counseling, psychology, social work, and psychiatry.

Hours of operation and the campus location of the center can be found on the center’s website. (https://counseling.studentaffairs.miami.edu/appointments/hours-of-operation/) For appointments, students can call the Counseling Center directly at 305-284-5511 or request an appointment in person. The Counseling Center offers walk-in triage service for students in crisis.

After normal business hours, students can talk to a licensed mental health professional by calling the main Counseling Center phone number at 305-284-5511. This number turns over into an after-hours hotline for students.

Sexual Assault Response Team (SART)

The Counseling Center also coordinates the Sexual Assault Response Team (SART). SART is a 24/7 telephone response line to assist University of Miami students victims of sexual assault. This service is available during the academic year and is for both men and women. The SART hotline number is 305-798-6666.

For more information, visit the SART website (https://miami.edu/SART/).

Graduate Student Training

The Counseling Center participates in the graduate training programs in the Department of Psychology and the programs of the Department of Educational and Psychological Studies. Doctoral students in psychology take part in the Center’s professional activities and have first-hand contact with clinical problems. In addition, pre-doctoral interns obtain professional training at the Counseling Center through the Dr. Jess Spirer Pre-doctoral Internship in Professional Psychology. The pre-doctoral internship at the Counseling Center is accredited by the American Psychological Association.
Dean of Students

www.doso.studentaffairs.miami.edu

The Dean of Students Office fosters student development and holistic growth through services, programs, and partnerships that cultivate responsible decision-making, personal accountability, and community engagement. The staff works directly with academic, athletic, student affairs, and other administrators in the coordination of institutional efforts to address specific concerns, and enhance the overall quality of the student experience.

Students who are expelled or suspended will have a conduct notation made on their official and unofficial academic transcripts. If the suspension or expulsion is the result of sexual misconduct or physical violence that detail will also be noted.

Each area within the Dean of Students Office provides students with opportunities for support, involvement, and leadership. For more information about each of these areas, click the links below.

- Alcohol and Other Drug Education (https://doso.studentaffairs.miami.edu/units/alcohol-and-other/)
- Case Management (https://doso.studentaffairs.miami.edu/student-support/case-management/)
- Greek Life (https://doso.studentaffairs.miami.edu/units/greek-life/)
- Student Conduct (https://doso.studentaffairs.miami.edu/student-conduct/)
  - Student Rights and Responsibilities Handbook (http://www.miami.edu/srr/)
- Sexual Misconduct Resources - It’s On Us (http://itsonus.miami.edu/)
- Undergraduate Honor Council (https://doso.studentaffairs.miami.edu/units/undergraduate-honor-council/)
- University Chaplains Association (https://doso.studentaffairs.miami.edu/chaplains-association/)
- Veteran Student Services (https://doso.studentaffairs.miami.edu/student-support/veteran-student-services/)

The Dean of Students Office coordinates efforts in response to various student crises and employs an Associate Dean who is a Licensed Clinical Social Worker (LCSW) as well as a Case Manager who is a Licensed Mental Health Counselor (LMHC). The staff is knowledgeable and prepared to assist all students in their adjustments to campus life. The administration and record keeping of all undergraduate student disciplinary infractions are also the responsibility of the Dean of Students Office.

To contact the Dean of Students Office call 305-284-5353 or visit the University Center, Suite 2250.

The Honor Council - Undergraduate

Honor Council protects the academic integrity of the University by encouraging consistent ethical behavior by students in their academic work. The Honor Council investigates and adjudicates alleged violations of the Undergraduate Student Honor Code (http://www.miami.edu/honor-code/). The Council is responsible for educating the University community on Honor Code related issues and promoting academic integrity through a variety of educational programs. The Council consists of representatives from the undergraduate schools and colleges.

Members of the University community who would like to request Honor Council programming or an investigation of alleged academic dishonesty are encouraged to call the Honor Council at 305-284-5354.

International Student and Scholar Services (ISSS)

www.miami.edu/isss

ISSS represents the needs and interests of the University of Miami international community and provides support services and programs for international students, scholars, and academic departments at UM. Every year, approximately 3,900 international students (undergraduate and graduate) and scholars (professors and researchers) from 120 countries representing every region of the world study, teach, and conduct research at the University of Miami.

International students and scholars face some unique challenges as well as opportunities while pursuing their academic goals at UM. The professional and dedicated ISSS staff provides expert advice, information, services, acclimation and culturally relevant activities aimed at supporting their educational endeavors, enriching their U.S. experience, and ensuring their success over the entire course of their stay. ISSS support services and programs encompass:

- Pre-Arrival Information
- Immigration Advising for Students and Scholars in F-1 and J-1 Status
- Employment Information and Authorization
- Online Tax Return Preparation System
- Liaison with Sponsoring Embassies, Government and Agencies
- The International Student Grant
- Short-Term, Small Emergency Loans
• Assistance with Personal and Adjustment Problems
• Assistance in Coping with Crises
• Advocacy
• International Student Orientation
• International Scholar Orientation
• Advise the Council of International Students and Organizations (COISO)

On the ISSS website you will find detailed information regarding each of these services and programs. Please do not hesitate to contact us if you have any questions or require additional information. We look forward to assisting you.

1306 Stanford Drive
Whitten University Center, Suite 2275
Coral Gables, FL 33146-6929

Libraries
http://library.miami.edu/

The University of Miami Libraries rank among the top fifty research libraries in North America, drawing scholars from around the world to use its important print collection of over 4 million volumes and 100,000 serial subscriptions. The libraries are located on the Coral Gables, Rosenstiel, and Medical campuses.

Access to Millions of Resources
Consult the library website (http://library.miami.edu) to get access to millions of articles, books, and other resources through our online catalog and databases.

Individual and Collaborative Study Space
Learn about the many libraries (https://welcome.miami.edu/academics/libraries/) and spaces (https://www.library.miami.edu/spaces/) that we offer, and the hours (http://library.miami.edu/hours/) we are open for you.

Learning Commons
Discover and explore the services (https://www.library.miami.edu/learningcommons/services.html) available to support you. Consult with peers and experts on writing, research, math, modern languages, creativity, GIS, data, and more. Academic Service providers (https://www.library.miami.edu/learningcommons/partners.html) from across the University are collaborating in the Commons to help you make progress on your academic journey.

Research Help Across the Disciplines
Librarians (http://sp.library.miami.edu/subjects/staff.php?letter=Librarians%20by%20Subject%20Specialty) and Peer Research Consultants (https://www.library.miami.edu/research/peer-research-consultants.html) are available to support students in all courses and majors. Consider us part of your network.

Online Research Guides for Courses and Majors
Online research guides (http://sp.library.miami.edu) can help you find the resources you need for course assignments, research projects and more.

Library Research Scholars and Adobe Scholars Program
Apply for a year-long fellowship (https://www.library.miami.edu/research/library-research-scholars.html) to develop your own individual research or creative project with mentorship by a librarian faculty member.

Jobs
We offer a variety of opportunities (https://www.library.miami.edu/about/student-jobs.html) for student employment.

Ombudsperson and University Troubleshooters
ombuds.studentaffairs.miami.edu

The Ombudspersons and University Troubleshooters provide open channels of communication between students and the university by listening to student concerns, investigating the facts and attempting to resolve situations in the best possible way. Ultimately, the goal is to resolve matters and assist students in their success at the University. The Ombudspersons and University Troubleshooters do not bypass or circumvent those individuals
who have responsibility for departments or classroom instruction. Nor will they eliminate certain structured grievance and appellate mechanisms already established by the University.

**Ombudsperson**

An Ombudsperson interprets University policy for students and makes recommendations to central administration when policy changes are needed. The University of Miami has two Ombudspersons for students. The Academic Ombudsperson works most closely with issues with faculty, coursework, grade appeals, etc. The Administrative Ombudsperson works most closely with administrative issues such as financial registration, access concerns, and university policies and procedures. Ombudspersons connect students to faculty and administrators who will listen, answer questions, interpret policies and procedures, and provide guidance on the appropriate steps to consider for a resolution. The Ombudspersons seek to resolve matters informally before they become matters in a formal grievance-appeal proceeding and works with students in establishing the next steps to assist in their success at the University. However, if a formal grievance-appeal is most appropriate, they can provide guidance on the process.

**University Troubleshooters**

University Troubleshooters are faculty members and administrators who serve as a resource for students seeking assistance. They represent a wide range of campus departments, who assist students with academic and administrative related matters. If a student has spoken to the appropriate University Troubleshooter and they have not brought resolution to a student's concern, students should contact the Ombudsperson. For a listing of University Troubleshooters, click on the following links: Academic Troubleshooters (https://ombuds.studentaffairs.miami.edu/who-can-help/academic-troubleshooters/) or Administrative Troubleshooters (https://ombuds.studentaffairs.miami.edu/who-can-help/administrative-troubleshooters/).

For more information, visit miami.edu/ombudsperson (http://www.miami.edu/ombudsperson/), call 305-284-4922, email ombudsperson@miami.edu, or visit Ashe Building 244.

**Student Health Service**

https://studenthealth.studentaffairs.miami.edu/

The Student Health Service provides primary care, specialty care and pharmacy services to eligible (http://www.miami.edu/sa/index.php/student_health_center/general_information/#Eligibility) University of Miami students. You are not required to have the Health Center sponsored insurance plan to utilize our services. Appointments can be scheduled at mystudenthealth.miami.edu (https://caneid.miami.edu/cas/login/?service=https://mystudenthealth.miami.edu/index.aspx) and services are also available on a “drop in” basis.

**Contact Information**

Telephone: 305-284-9100

Fax: 305-284-4098

**Hours of Operation**

Fall and Spring semesters:

- Mondays, Tuesdays, Wednesdays, and Fridays: 8:30 a.m. to 5:00 p.m.
- Thursdays: 9:00 a.m. to 5:00 p.m.
- Sundays: 11:00 a.m. to 4:00 p.m.

Winter break, Spring break, and Summer sessions:

- Monday through Friday: 8:30 a.m. to 5:00 p.m.

The Health Service is closed on Saturdays and University holidays. After hours assistance is available by calling 305-284-9100.

For sudden, severe illness or serious accidents dial 911. For illnesses or injuries requiring immediate attention, students are urged to go to an Emergency Room. After hours assistance for urgent situations can be obtained by dialing 305-284-9100. Students with United Healthcare insurance may also contact the United Healthcare Nurseline by calling 800-436-7709 and selecting the Health Resources option. For less urgent conditions, you may visit one of the local Urgent Care Centers (https://studenthealth.studentaffairs.miami.edu/_assets/pdf/urgent-care-centers.pdf).

**Eligibility/Access**

The Health & Counseling Centers Fee is mandatory for students regardless of credit hour load and all students registered in an off-campus program who are enrolled in the University sponsored student insurance plan (https://studenthealth.studentaffairs.miami.edu/insurance-information/domestic-students/).
Employees may be charged the Health and Counseling Centers fee on their initial bill, however, the charge will be removed from their bill soon after the last day to drop or add a class, if they remain eligible for tuition remission benefits. Dependents of UM employees are treated the same as all other students.

# Health Insurance

Domestic students enrolled in six or more credit hours per semester (or considered full time) are required to obtain adequate health insurance (see exceptions [https://studenthealth.studentaffairs.miami.edu/]). The annual premium for the health insurance plan offered through the University is added to each student’s fees. Domestic students with adequate alternative coverage may request cancellation of the insurance fee via CaneLink. Insurance cancellation must be renewed each year via the United HealthCare (UHCSR) waiver portal [https://urldefense.proofpoint.com/v2/url?u=https:3A__studentcenter.uhcsr.com_&d=DwMGAQ&c=y2w- uVMhgwFwipJQN0DhA&fl=LxZr5vQ1AW1Jhe48NncoMkwDx3 MH1b2w2xh2mA8fo0YTWvT6KkgmgRH5Tv6J6p8&m=-Qre05vtZJWwqJt6OsB1EaXHbY87sQDdE_].

You or your designee will need your student ID (C#), date of birth, and insurance information in order to submit a waiver request. You will receive a waiver approval or denial (if we are unable to confirm insurance coverage) from waiverstatus@uhcsr.com within 5 business days of waiver submission.

Deadlines to waive the insurance are:

- July 15 for the Fall semester
- January 5 for the Spring semester
- April 25 for Summer I
- June 25 for Summer II

Domestic students can check the status of their insurance waiver/cancellation request via CaneLink. The insurance premium will be prorated for those students entering for the first time in the Spring or Summer semesters. No waiver and/or refund will be granted after the above dates.

Students who have previously waived the insurance charge can reinstate the insurance prior to the Spring semester or first Summer session by completing the reinstatement request form and checklist. Coverage can also be reinitiated at the start of the Fall semester by choosing not to re-waive the charge, or at other times during the academic year, if within 30 days of termination of other similar coverage, by completing the reinstatement request form and checklist [https://studenthealth.studentaffairs.miami.edu/insurance-information/domestic-students/]. Documentation of termination may be requested.

Deadline for reinstatement of insurance is March 25th for the Spring semester. Please do not consider your reinstatement complete until reinstatement has been verified via CaneLink, i.e. the charge has been posted to your student account and all charges on your account have been paid.

All international students are **required to enroll in the University sponsored health insurance program**. The annual premium for this coverage is added to each student’s fees.

Any additional questions regarding the health insurance requirement should be directed to the Student Health Service at 305-284-9100 or to studenthealth@miami.edu.

# Immunization

All students are required to provide proof of immunization against measles, mumps and rubella and tetanus, diphtheria and pertussis. All new students must also provide proof of immunization against hepatitis B [https://studenthealth.studentaffairs.miami.edu/immunization-information/required-immunization/] and meningococcal meningitis [https://studenthealth.studentaffairs.miami.edu/immunization-information/required-immunization/] or sign a waiver declining these immunizations. An immunization [https://studenthealth.studentaffairs.miami.edu/immunization-information/required-immunization/] form must be completed and returned to the Student Health Service prior to arrival on campus. For students less than 18 years old, meningitis/hepatitis vaccine waivers must be signed by a parent or legal guardian.

All international students must also be screened for tuberculosis by completing page two of the immunization form [https://studenthealth.studentaffairs.miami.edu/immunization-information/required-immunization/].

Deadlines for submission of immunization records are Fall - August 22nd, Spring - January 15th, and Summer - April 15th. Failure to comply with this requirement will interfere with registration. Immunization information must be entered at mystudenthealth.miami.edu [https://mystudenthealth.miami.edu] prior to faxing or mailing the form to the Student Health Service for verification. Immunization compliance can also be verified at mystudenthealth.miami.edu [https://mystudenthealth.miami.edu]. Instructions on the use of mystudenthealth.miami.edu are available at mystudenthealth.miami.edu [https://mystudenthealth.miami.edu].

Most students will be able to obtain the required immunization information from their prior medical providers or from their prior high school, college or university. Students who believe that they were previously immunized but are unable to provide proof of immunization may either obtain blood tests confirming immunity or obtain the necessary immunizations. Immunizations and blood tests documenting immunity are available at the Student Health Service. All charges are in addition to processing fees for late forms.
Immunization against varicella (chicken pox) is suggested and is available at the Student Health Service for a reasonable charge.

**Pharmacy**

Students with the Health Service sponsored insurance plan receive enhanced benefits if prescriptions are filled at the Walgreens pharmacy located on the first floor of the Lennar Medical Center.

Lennar Walgreens Pharmacy

Hours: Monday – Friday: 9:00 am – 6:00 pm

Phone: 305-351-0606

Fax: 305-351-0608

**Study Abroad**

http://www.studyabroad.miami.edu (http://www.studyabroad.miami.edu/)

Dept. Code: SAP

With over 60 unique opportunities overseas during the summer, fall, spring and intersession terms, students have options to study abroad on UM programs that align with their individual academic interests. Programs are open to sophomores, juniors, and seniors who meet posted eligibility requirements for admission such as minimum cumulative GPA. Students can live and learn abroad through short term and long term programs with UM faculty or at UM partner universities overseas. Programs with UM faculty are unique in their emphasis on experiential learning, pre-arranged group housing, excursions, and courses taught by UM professors and overseas academic experts. Examples of these programs include UM semester-on-locations in Prague, Shanghai, Paris, Latin America, Cape Town, India, the Galapagos, and Rome, as well as short term faculty-led programs during the summer, January intersession, and spring break in Europe, Asia, Africa, and South America. In some programs it is possible to earn graduate credit hours for study taken abroad.

**Academics**

The Schools and Colleges at UM encourage study abroad options for their students. Students are advised to plan as early as freshman year so studying abroad can be incorporated into their academic plan. With the assistance of the Study Abroad Office and the guidance of academic advisors, students can select a study abroad program to fit almost any major. Students can apply their courses abroad to their majors, minors, cognates, or elective credits with careful planning and academic department approval; the curriculum must be worked out by the student in conjunction with an advisor.

Students receive UM credit hours and grades while studying at any of UM’s partner universities overseas. These programs can be undertaken for a semester, year, and/or during the summer. Among a multitude of other options, students can study Aboriginal studies at University of Sydney, be immersed in Spanish culture in Seville, explore Iceland’s unspoiled nature while studying earth sciences at the University of Iceland, immerse themselves in Japanese culture and business practices at Sophia University in Tokyo, or become acquainted with the changing panorama of international relations at University of San Andres in Argentina. Many of these programs are delivered in English so foreign language proficiency is not required for UM study abroad opportunities.

Students enrolled in any study abroad program at a partner institution may not earn 25 percent or more of their credits toward any UM degree program (credit requirements may vary by major/level), including courses taught by UM faculty. A student who anticipates earning 25 percent or more of his/her degree credits while participating in a study abroad program must immediately inform his/her advisor or program chair, who will be responsible for notifying the appropriate parties so that advance approval can be obtained from the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).

**Finances**

Students who participate in UM Study Abroad programs will receive UM grades and credits and are able to use their existing financial aid and scholarships towards semester program costs.

The cost of studying abroad varies depending on the type, length, and location of the program. Students are often surprised at how affordable studying abroad can be. Participants are charged full tuition for the term abroad and the financial aid package will be adjusted based on the estimated expenses of the program. Students participating in UM study abroad programs will be able to use their financial aid and scholarships abroad.

As studying abroad is seen as such an important aspect of a college career, many national and institutional scholarships are available. Interested students should begin to research scholarship opportunities early. The most prestigious study abroad scholarships, which grant up to $10,000 per semester, have applications with deadlines up to 18 months before the study abroad program begins. Several other scholarships, with deadlines similar to program application deadlines, are also available and grant up to $5,000. Learn more about finances and scholarships by visiting the Study Abroad website, speaking with the advisors in the Study Abroad Office and the Office of Financial Assistance Services.
Non-UM Programs

Students who study through a non-UM program, domestic or study abroad, and would like to have those credit hours applied toward their UM degree, must apply for Non-UM Program status. For more specific information on the Non-UM program process please see the Non-UM Study Abroad Program Policy and Steps. (https://studyabroad.miami.edu/explore-our-programs/types-of-programs/non-um-programs/)

As of July 1, 2017, the non-UM fee is $350 per semester.

Undergraduate Housing and Residence Life

hrl.studentaffairs.miami.edu

Housing and Residential Life

The University of Miami offers undergraduate on-campus housing in four residential colleges, University Village, and Lakeside Village.

Each residential area has an Area Director/Assistant Area Director and student staff who all live in the residential college with the resident students to support and promote student well-being, safety, academic achievement, student learning, and development. Each residential college additional has residential faculty members. Numerous social, educational, cultural, and recreational programs are offered throughout the academic year.

General Highlights

• The University has both single and double occupancy rooms/bedrooms. Single occupancy spaces are limited and assigned based on seniority living on campus and, thus, entering students are typically assigned to double occupancy rooms.

• All non-local freshmen students are required to live in University housing for two academic semesters, as long as space is available.  This policy does not apply to freshmen students living with parents or legal guardians in Miami-Dade or Broward Counties. Local freshmen students must complete the Live-On Requirement exemption Request Form (https://hrl.studentaffairs.miami.edu/living-on-campus/what-to-expect/) located within the 2020-2021 housing application through the Housing Portal via CaneLink in order to be exempt from this requirement.

• University Village, an apartment-style residential community, is an available option to only juniors and seniors, who have completed 60 or more credit hours. The apartments are fully furnished and include in-apartment washers and dryers, full-size kitchen appliances (stove, refrigerator, microwave, & dishwasher), and reserved parking (extra fee).

• Lakeside Village, a mixed apartment-style and suite-style residential community, is an available option predominantly to sophomores, but also juniors and seniors. The apartments are fully furnished and include in-apartment washers and dryers in addition to full-size kitchen appliances (stove, refrigerator, microwave, and dishwasher). The suites are fully furnished and include a kitchenette (stovetop, full-size refrigerator, and microwave).

• All housing facilities are co-educational with men and women living on alternate floors or alternating separate suites or apartments. Gender inclusive housing is available upon request.

Applying for On-Campus Housing

• Admitted undergraduate students, following verification of acceptance to the University and payment of the enrollment deposit, can apply for housing via CaneLink (http://www.canelink.miami.edu/).

• Students are encouraged to apply for housing as soon as possible after paying the enrollment deposit. New freshmen housing applications should be submitted by May 1; applications received from new freshmen after May 15 will be accommodated on a space available basis.

• The $500 pre-payment is paid by credit card at the time of application.

• Assignments to buildings, rooms, and specific roommates are made according to the date of application, receipt of the housing prepayment, and overall availability.

• Whenever possible, requests for roommates are honored. However, if specific preferences are not available, the University reserves the right to assign students to other roommates.

The housing agreement is for the entire academic year (both fall and spring semesters) unless the applicant is:

1. applying only for spring semester housing
2. applying only for one of the offered summer housing sessions
3. graduating in December (must notify HRL directly by the announced deadline)
4. participating in a University of Miami sponsored study abroad experience spring semester (must notify HRL directly by the announced deadline)
5. not enrolling in the University spring semester (must notify HRL directly by announced deadline)

**Housing cancellations for the fall semester received through May 31 will result in a $500 cancellation penalty. Cancellations received after May 31 will result in:**

- the canceling student being responsible for the fall semester housing charges, unless or until the vacancy created by the cancellation can be filled by another qualifying University student applying for housing
- if filled, the canceling student will only be assessed the $500 cancellation penalty

**Housing cancellations for the spring semester received through December 1 will result in a $500 cancellation penalty. Cancellations for the spring semester received after December 1 will result in:**

- the canceling student being responsible for the spring semester housing charges, unless or until the vacancy created by the cancellation can be filled by another qualifying University student applying for housing
- if filled, the canceling student will only be assessed the $500 cancellation penalty for early termination

**Note:** Written notice of cancellations must be made to the Department of Housing and Residential Life office directly.

P.O. Box 248026  
Coral Gables, Florida 33124-6914

This office assists veterans and dependents of veterans who are entitled to V.A. educational benefits under Chapter 30, 31, 33, or Chapter 35 of Title 38, U.S. Code, or Chapter 1606. The University of Miami participates in the Yellow Ribbon Program for qualified Chapter 33 recipients. Anyone needing information on Veterans’ Benefits is advised to contact the Office of the University Registrar or visit their website (https://registrar.miami.edu/forms-and-services/veterans-affairs/).

V.A. students with previous post-secondary educational training/experience must request an official transcript(s) be sent to the university. If the transcript has not been received prior to the end of the student’s initial semester, or as specified in the guidelines under the program he/she is enrolled in, the Veterans’ Affairs Office will not re-certify the student for V.A. educational benefits. The Veterans’ Affairs Office may re-certify the student after the transcript has been received.
The V.A. student's previous training and/or experience will be evaluated by the university. Should credit(s) be accepted and/or awarded, the V.A. student’s tuition and training time may be reduced proportionally. The V.A. and the student will receive a written notice of the credit(s) allowed.

1 The University of Miami’s Yellow Ribbon Program is available to students in the Fall and Spring semesters only.

### Standards of Progress Policy for Veterans

Satisfactory progress is indicated by a Satisfactory Progress Average (SPA), which is a variation of the Quality Point Average (QPA). The SPA is computed by the following formula:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
</tr>
<tr>
<td>E</td>
<td>0</td>
</tr>
<tr>
<td>IE</td>
<td>0</td>
</tr>
<tr>
<td>F</td>
<td>0</td>
</tr>
<tr>
<td>IF</td>
<td>0</td>
</tr>
<tr>
<td>NG</td>
<td>0</td>
</tr>
</tbody>
</table>

- Note that “E’s”, “F’s”, “IE’s” and “IF’s” are included in the SPA.
- A grade of CR will be counted as CR=2.
- The SPA is determined by dividing the total quality points earned by the credits attempted.

When a course is dropped with a grade of ’W’, the V.A. requires a student to repay any benefits received for that course unless the V.A. determines there are mitigating circumstances involved.

Benefits will not be paid for courses in which a student receives an NG or NC or IPs that do not convert to a letter grade.

- An SPA of 2.0 or greater for undergraduate students, or 3.0 or greater for graduate students, is satisfactory progress.
- Less than 2.0 for undergraduate, and less than 3.0 for graduate students, is not satisfactory.
- Law and M.D. students will be considered to be making satisfactory progress as long as they meet the academic standards set by their schools for retention in their degree programs.
- The SPA is non-cumulative. It is computed each term on a one-term basis.
- Any term a student’s SPA is less than 2.0 for undergraduate or 3.0 for graduate, he/she will be notified that he/she is not making satisfactory progress. He/she will be certified, in a probationary status, for only one additional semester.
- If, at the end of this additional semester, his/her SPA for that semester is still below the satisfactory level, the V.A. will be notified of the unsatisfactory progress and his/her educational benefits will be terminated.
- A student whose V.A. educational benefits have been terminated for unsatisfactory progress may petition the Veterans’ Affairs Office to be re-certified after one semester has elapsed. Please address your request to:
  
  VA Certifying Official  
  c/o Office of the University Registrar  
  University of Miami  
  P.O. Box 248026  
  Coral Gables Florida 33124-6914  

- The Veterans’ Affairs Office may re-certify the student for V.A. educational benefits only if there is a reasonable likelihood that the student will be able to attain and maintain satisfactory progress for the remainder of the program.

### University of Miami VA Pending Payment Compliance

In accordance with Title 38 US Code 3679 subsection (e), this school adopts the following additional provisions for any students using U.S. Department of Veterans Affairs (VA) Post 9/11 G.I. Bill® (Ch. 33) or Vocational Rehabilitation & Employment (Ch. 31) benefits, while payment to the institution is pending from the VA. This school will not:

- Prevent the student’s enrollment
- Assess a late penalty fee to the student
- Require the student to secure alternative or additional funding
- Deny the student access to any resources (access to classes, libraries, or other institutional facilities) available to other students who have satisfied their tuition and fee bills to the institution.
However, to qualify for this provision, such students may be required to:

• Produce the VA Certificate of Eligibility (COE) by the first day of class
• Provide a written request to be certified
• Provide additional information needed to properly certify the enrollment as described in other institutional policies

For V.A. Payment of Benefits Purposes

All V.A. Students are required to notify the V.A. Certifying Official, every semester, in writing, their intent to use their benefits, and therefore to be certified for that semester.

• An “I” (incomplete) designation for a course must be converted to a credit grade counting toward graduation, or a failing grade, by the end of one calendar year unless permission for a delay is granted by the Academic Dean.
• An “NG” (no grade) designation for a course must be converted to a credit grade counting toward graduation, or a failing grade, by the end of one regular semester unless permission for a delay is granted by the Academic Dean.
• If permission is obtained, a memo signed by the Academic Dean must be given to the Veterans’ Affairs Office during the semester in which the “I” or “NG” was to be removed. This memo should also state the period of time for which the delay is approved.
• If a memo giving permission for a delay in the “I” or “NG” removal is not received by the end of the semester in which the “I” or “NG” was to be removed, the V.A. will be notified of the incomplete grade resulting in a loss of educational benefits for that course.

Please consult with our office regarding regulations for “IP’s” received in Thesis, Research, or Dissertation.

There is an official period after each registration in which a student may drop a course without a “W” appearing on his/her grade report. This period is not to be confused with the last date to drop a course with a “W” grade. Please check the academic calendar on the University (http://www.miami.edu/registrar/) Registrar’s website (http://www.miami.edu/index.php/registrar/calendar/) for dates.

Class Attendance and Absences

• Regular and punctual class attendance is vital for all students.
• It is the student’s responsibility to know the instructor’s policies regarding examinations, penalties for absences, and late or missed work.
• A copy of the student’s transcript will be placed in the student’s permanent file maintained by the Veterans’ Affairs Office.

Because of the far-reaching effects of these revisions in the V.A. educational benefits program, it is suggested that you exercise care and judgment in your program planning and in the selection of your courses. V.A. educational benefits will only pay for courses that are toward the program in which you are enrolled.

Veterans and children of deceased or totally disabled veterans receive training allowance in proportion to the schedule carried. The full load required to receive full training allowance is 12 credits in undergraduate school (9 credits in Graduate School).

Undergraduate Policies and Procedures

While the University makes every effort to provide academic counseling to its students, its basic policy places the responsibility for planning an academic program upon the student.

The University of Miami relies on electronic means, e.g. email, CaneLink (including its mobile application), for correspondence with students. Students are required to maintain a working email address and are expected to update their personal biographical information annually via their CaneLink account. Students who fail to maintain a working email account may not receive critical university information.

Students are expected to familiarize themselves with the requirements of:

• the University,
• the schools in which they are enrolled, and
• their major department.

Requirements refer to those stated in the Bulletin at the time of admission to degree status, unless a student has not been continuously enrolled. In such cases, the Bulletin in effect at the time of re-admission is the one to be used. Under special circumstances, a student may appeal the bulletin decision. In such cases, the determination of the Bulletin in effect is made by the readmitting School or College.

Academic core requirements will not be waived for students under any circumstances.

The work of each student is under the supervision of an academic Dean and of the appropriate Scholarship Committee. A student who fails to maintain an adequate academic record may be dismissed from the University.
Admission of a student to the University of Miami for any semester does not imply that such student will be re-enrolled in any succeeding academic semesters. If a student whose record is unsatisfactory is for some reason permitted to continue in attendance, the appropriate scholarship committee or Dean may specify the standard that must be attained, and any other conditions to be met.

A student who graduates and plans to enter a graduate school or professional school at the University of Miami must apply for admission to the appropriate school of the University in accordance with application deadlines of respective schools.

Not all the regulations and procedures described above pertain to the Graduate School, the Law School, and the School of Medicine. The specific regulations of these schools can be found in their school specific pages and/or website.

**Admission**

The University of Miami is a member of the National Association for College Admission Counseling (NACAC) and subscribes to its Code of Ethics and Professional Practices (CEPP).

The University of Miami strives to enroll undergraduate students from an array of backgrounds who have demonstrated the potential to thrive in a rigorous postsecondary school environment and have shown the capacity to contribute to a dynamic campus community. Admission to the University of Miami is competitive and selective.

The admission process is holistic; and criteria are both quantitative and qualitative. The University of Miami makes admission decisions in a need-blind manner for first-year applicants who are U.S. citizens and permanent residents. The University is need-aware for first-year applicants who are international citizens. Prospective and admitted students who want to enroll but do not have the financial resources to attend are encouraged to visit the Financial Aid website for more information.

Successful applicants will have pursued a rigorous college preparatory program within the context of their high school environments. As a result, the University of Miami advises prospective students to complete the most challenging college preparatory program available to them at their respective high schools. Prior to enrollment, the University of Miami requires applicants to earn a high school diploma or its equivalent, including the General Education Development (G.E.D.).

First-year and transfer applicants who have been denied admission must wait one full academic year before reapplying for admission.

**Advanced Placement/Credit**

The University allows students to receive college credit hour toward graduation from the following programs: Advanced Placement (AP), International Baccalaureate (IB), Dual Enrollment, and College Level Examination Program (CLEP). To have AP, IB, or CLEP credit hours evaluated, the student must submit an official test result report to the Office of Undergraduate Admission. The University of Miami does not give credit hour for CLEP Foreign Language and General Examinations. Students taking Dual Enrollment courses (college courses taken while still in high school) must submit an official college transcript for review of potential transfer credit hour. Please refer to the transfer student section for requirements on transferring college coursework.

A student must submit official AP, IB, Dual Enrollment transcripts, or CLEP results no later than the end of the first semester of enrollment for review. Documents submitted after this time period will not be reviewed and credit hour will not be awarded.

The University will accept no more than 60 credit hours from these programs to count toward the 120 credit hours required for graduation.

**Conditions of Admission**

Admission is pending the receipt and review of an official copy of all final transcripts and test scores, if applicable. In addition to the aforementioned supporting documents, admission for transfer students is pending the receipt and review of the College Report. It is fully expected that the remainder of coursework will be similar in caliber to the work upon which the offer of admission was based. All required copies of official documents, such as final transcripts and test scores, must be received by mid-July for fall enrollment and by late December for spring enrollment. If admitted students fail to meet these deadlines, the Office of Undergraduate Admission reserves the right to postpone enrollment to a future entry term. International students are required to submit all documents required to secure an I-20 around mid-July for fall enrollment and late December for spring enrollment. Failure to comply with this deadline will result in the postponement of enrollment to a future entry term.

In addition, the University of Miami reserves the right to withdraw an offer of admission if a student engages or has engaged in behavior that violates the standards of conduct to which all University students are held. If there is any update to one’s conduct, academic or behavioral, the student must notify the Office of Undergraduate Admission immediately at conductupdate@miami.edu.

If an admitted student chooses to confirm enrollment to the University of Miami, they must submit the required deposit by the deadlines mentioned in the Admission Plans section. Transfer students and first-year students admitted for the spring term must adhere to the deposit deadline stated on the admission letter.
A nonrefundable deposit will be credited toward the student’s account for billable charges.

By submitting a nonrefundable deposit, the student confirms enrollment to the University of Miami and acknowledges that they have not submitted an enrollment deposit at any other postsecondary institution. If a student who has confirmed enrollment to the University of Miami has been admitted off a waitlist to another college or university and intends to enroll elsewhere, the student must inform the University of Miami immediately. The University of Miami reserves the right to withdraw an offer of admission for any student who concurrently submits an enrollment deposit to any other postsecondary institution.

**Early Admission**

Early admission candidates are defined as those who will be under the age of 17 at the time they enroll at the University of Miami or those who graduate from high school after having completed only three years of study. Early admission candidates typically have very strong academic backgrounds and demonstrate a mature character.

Early admission candidates who wish to apply for admission must have the support of their parents and school counselor(s). These applicants must provide additional information to the Office of Undergraduate Admission to further demonstrate their potential to thrive in a rigorous postsecondary school environment and show the capacity to contribute to a dynamic campus community. In addition to the documents that are listed in the First-Year Admission Requirements section, early admission applicants are required to: Submit a narrative explaining the decision to enroll in college before turning 17 years old; Submit a parent letter of recommendation; and, Interview in person or via a remote location with a member of the Admission Committee.

Early Admission applicants will be notified of an admission decision by June 1 or after review of grades from the final high school year completed.

**First-Year Admission**

The University of Miami offers the following admission plans: Early Decision I; Early Decision II; Early Action; and, Regular Decision.

Early Decision admission plans are designed for qualified applicants who have decided that the University of Miami is their first-choice institution. Two Early Decision admission plans are available: Early Decision I has a deadline of November 1; and, Early Decision II has a deadline of January 1. Early Decision I candidates are notified by mid-December, whereas Early Decision II candidates are notified by late February. Decisions of admit, defer, and deny are rendered in Early Decision. Students admitted in Early Decision I and Early Decision II must submit the required nonrefundable deposit to confirm their enrollment to the University of Miami within three weeks of admission. The Office of Undergraduate Admission reserves the right to withdraw its offer of admission if a nonrefundable deposit is not submitted by this deadline. Deferred candidates will be reconsidered under the Regular Decision admission plan.

The application deadline for Early Action is November 1. Early Action candidates are notified by the end of January. Decisions of admit, defer, and deny are rendered in Early Action. Admitted students must submit a nonrefundable deposit by May 1 to confirm their enrollment to the University of Miami. Deferred candidates will be reconsidered under the Regular Decision admission plan.

The application deadline for Regular Decision is January 1. Regular Decision candidates are notified of their admission decision by April 1. Decisions of admit, spring admit, waitlist, and deny are rendered in Regular Decision. Admitted students must submit a nonrefundable deposit by May 1 to confirm their enrollment to the University of Miami.

First-year fall applicants admitted to the spring term must submit a nonrefundable deposit by May 1 to confirm their enrollment to the University of Miami.

Waitlisted candidates will be considered on a space available basis beginning approximately mid-April. Students who have been admitted from the waitlist will have at least five business days to submit their nonrefundable deposit to confirm their enrollment to the University of Miami.

The Office of Undergraduate Admission recommends that applicants complete 20 units of secondary school coursework in the following five academic areas: English, mathematics, science, social science, and foreign language. Competitive applicants for admission meet the recommended units of secondary school coursework and typically have taken four units in a combination of all five academic areas at the highest levels available in their school settings.

Applicants must have the secondary school send an official transcript, including completed coursework, courses in progress, and the school report form. Applicants who have taken postsecondary coursework must provide an official college transcript directly to the Office of Undergraduate Admission. Applicants must submit two letters of recommendation.

First-year applicants may self-report SAT or ACT scores for consideration. Admitted students who self-report SAT or ACT scores for consideration must submit official test scores no later than mid-July if they have confirmed their enrollment to the University of Miami.

First-year applicants to the Frost School of Music may apply under test optional admission. Even if applicants to the Frost School of Music self-report SAT or ACT scores on the application, they will not be required to submit official test scores unless they indicate on the application that they wish to have their self-reported scores considered in the review process. If a student’s self-reported scores are considered in the review process and that
student is admitted and subsequently confirms their enrollment to the University of Miami, they must submit official test scores no later than mid-July. Regardless of whether or not a first-year applicant to the Frost School of Music opts to submit test scores for admission consideration or not, all Music applicants complete an audition as part of the evaluation process.

First-year applicants to the School of Architecture may apply under test-optional admission. Even if applicants to the School of Architecture self-report SAT or ACT scores on the application, they will not be required to submit official test scores unless they indicate on the application that they wish to have their self-reported scores considered in the review process. If a student's self-reported scores are considered in the review process and that student is admitted and subsequently confirms their enrollment to the University of Miami, they must submit official test scores no later than mid-July. If a first-year applicant to the School of Architecture applies opts not to submit test scores for admission consideration, they must submit a portfolio as part of the evaluation process.

Students who are admitted to the schools of Music and Architecture under the test-optional policy may not transfer their admission to another undergraduate school or college until the conclusion of their first year of studies at the University of Miami.

With the exception of the schools of Music and Architecture, students who are admitted to the University of Miami may request to transfer their admission to another program. Requests must be sent to and reviewed by the Admission Committee by May 15 of each calendar year. Requests sent after this date will be forwarded to the students' respective school or college for their review and approval.

Admitted students who wish to alter their senior year courses in the five academic areas (i.e., English, mathematics, science, social science, and foreign language) must request approval from the Admission Committee before making any changes.

An audition, portfolio, or interview is required for the following tracks that lead to the Theatre Arts Bachelor of Fine Arts (BFA) degree: Acting; Design/Technical Production; Musical Theatre; Stage Management; and, Theatre Management.

International applicants are not required to submit SAT or ACT scores if they will graduate from a high school outside the United States; however, if an international student self-reports SAT or ACT scores on the application and they are admitted, the student must submit official test scores no later than mid-July if they have confirmed their enrollment to the University of Miami.

The Office of Undergraduate Admission super-scores the SAT and ACT. There is not a preference for either test. For those who submit both SAT and ACT scores, the Office of Undergraduate Admission will use whichever test is comparatively strongest.

Applications can be submitted via the Common Application. All forms are accessible online. The nonrefundable application fee must accompany the application for admission.

The University of Miami requires international applicants to submit the International Financial Certification Form. Several special programs may require additional materials to be considered for admission. More information can be found online.

See admission procedures for first-year students (http://www.miami.edu/admission/index.php/undergraduate_admission/apply/freshman/freshman_application_instructions/).

First-Year International Admission

The University of Miami encourages international students to apply as both first-year and transfer students.

First-year applicants must complete a rigorous college preparatory program that includes at minimum three or four years of coursework. Refer to our First-Year Admission Requirements for additional details.

Transfer applicants should refer to the Transfer Admission section for additional details.

To ensure that international students are prepared for the rigorous curriculum they will experience at the University of Miami, non-native English speakers are required to submit the TOEFL or IELTS. Non-native English speakers may have this requirement waived if they can demonstrate English proficiency in one of the following ways: Obtaining a score of 660 or higher on the redesigned SAT evidence-based reading and writing section (administered beginning in 2016); Obtaining a score of 27 or higher on the ACT English section; Obtaining a grade of A or B in an Advanced Placement (AP) or an International Baccalaureate (IB) English course; Graduating from or attending at least three years at a high school in the United States; Successful completion of Level 5 of the University's Intensive English Program (IEP); IB English A1 SL or HL examination with a predicted score of 4 or higher; IB English B HL examination with a predicted score of 5 or higher; Grade of C or better on the IGCSE/GCE “O” or “A” Level in English language; Graduation from a high school outside the United States, including the final three years, in which the medium of instruction is English; or, Earned 30 or more postsecondary credits (including 6 credits in English Composition with a grade of B or higher) at an accredited college or university in the United States.

For non-native English speakers submitting the TOEFL or IELTS, competitive applicants generally score above the following: 550 on the paper-based TOEFL; 80 on the online TOEFL; or, 6.5 on the IELTS.

Non-native English speakers who have submitted the TOEFL and/or IELTS and do not have competitive scores may be considered for conditional admission through the Intensive English Program.
Educational Documents
Diplomas, Certificates
Copies should be enclosed with the application. Students from countries following the British educational system must submit certified photocopies, or ask the examinations council to mail confidential results to the University of Miami. Reports of scores in school-leaving examinations (e.g., Baccalaureate) must also be submitted.

Transcripts, Statements of Marks
A transcript must contain the following information: subjects studied; marks (grades) awarded; length of class periods; number of periods per week for each subject; and grading scale with minimum passing mark. Year-by-year records of marks should be sent to the University of Miami directly from U.S. institutions. Certified records from foreign institutions may be submitted by applicants, but the University may sometimes insist that such transcripts be sent directly to the University of Miami from the issuing institutions. All secondary and tertiary transcripts must be submitted.

English Translations
Documents in a language other than English must be accompanied by certified English translations. Notarized translations will not be accepted. Translations supplement but do not replace original documents. Please remember to send both.

GED Scores
Submitting GED Scores
An applicant may apply to the University upon completion of the GED in lieu of completing high school. When applying with the GED, the applicant must submit official high school transcripts up to the time of withdrawal, as well as the official GED score report and diploma.

Applicants submitting the GED must achieve the following scores to be considered for admission. These scores should be considered a guideline and do not guarantee admission to the applicant.

For exams taken in English:
A score of 175 or higher should be obtained on all four subject tests.

For exams taken in any language other than English:
A score of 175 or higher should be obtained on all four subject tests.

It is strongly suggested that applicants submitting the GED in any language other than English also submit a TOEFL score.

Non-Degree Enrollment
Adult Student Access Program (A.S.A.P)
For information and policies regarding enrollment for classes in a Non-Degree seeking status, please visit this page: (p. 975)

For more information, please contact:

The Adult Student Access Program
Division of Continuing Studies
University of Miami
Coral Gables, FL 33124-1610
305-284-4000

Non-Traditional High School Settings
Students completing high school in non-traditional settings — including students who will have completed at least two years in a home-schooled environment or in online classes or programs by the time they graduate — are encouraged to apply to the University of Miami.

A high school diploma or its equivalent is required for admission. Because records from non-traditional environments vary, the Office of Undergraduate Admission may require additional documentation to further demonstrate their potential to thrive in a rigorous postsecondary school environment and show the capacity to contribute to a dynamic campus community.

Postponement and Deferment of Admission
Admitted first-year students who have submitted their nonrefundable enrollment deposit may submit a request to postpone their matriculation to the University of Miami for a period of up to one academic year. Admitted first-year students may only postpone their enrollment one time. Postponement
requests are reviewed on a case-by-case basis by the Admission Committee. If approved, students must submit an additional nonrefundable enrollment deposit.

Students who have been granted a postponement must adhere to the guidelines and restrictions set forth in the postponement and admission letters; otherwise, the University of Miami reserves the right to rescind the offer of admission.

Admitted transfer students are not eligible to postpone their enrollment to a future entry term.

Transfer Admission

Prospective students from other postsecondary institutions may apply for transfer admission. Academic achievement, personal conduct, and courses completed at an applicant’s current and prior institutions will be factors evaluated in the transfer admission process. The University of Miami will make admission decisions based exclusively on an applicant’s academic record at the college level for those candidates who have completed 30 or more transferable postsecondary credits at the time of application submission. The University of Miami will factor high school academic record and test scores, if applicable, for those applicants who have completed fewer than 30 transferable postsecondary credits at the time of application submission. Transfer credits must have been earned at an accredited postsecondary institution at the time the coursework was completed. Transfer candidates must possess a minimum grade point average (GPA) of 2.0 to be eligible for review. Competitive candidates will have well above this minimum GPA requirement.

A student transferring credit hours from a two-year community or junior college (this being the last school attended) must complete a minimum of 56 credit hours in residence at the University of Miami to earn an undergraduate degree. A student transferring credit hours from a 4-year college or university (this being the last school attended) must complete a minimum of 45 credit hours in residence at the University of Miami to earn an undergraduate degree. The priority deadline to submit a transfer application for fall enrollment is April 1; the spring enrollment application deadline is November 1. Candidates for both fall and spring enrollment are notified on a rolling basis. Transfer applicants must submit a(n): application and pay the nonrefundable application fee; official school transcript; official test scores, if applicable; college transcripts directly to the Office of Undergraduate Admission; College Report form; and, one letter of recommendation from a postsecondary official or recent employer submitted on their behalf.

Students must have left their prior institutions in good academic and social standing or have been honorably dismissed. Transferable credit for coursework completed at another accredited college or university will be subject to the following conditions: course must be a part of the University of Miami curriculum and at the level of courses taught at the University of Miami; grade received must be the equivalent of C (2.0) or better; and, decisions of credit transfer and application toward degree requirements are made by the Office of Undergraduate Admission in consultation with the Registrar’s Office and/or appropriate academic department.

Transfer applicants who have been denied admission more than twice will not be eligible to reapply.

Prospective students who have enrolled as degree-seeking students at other colleges or universities – regardless of the number of postsecondary credits earned – must apply as transfer students to the University of Miami. Prospective students who have completed 30 or more transferable postsecondary credits in non-degree seeking status must also apply as transfer students.

The University of Miami has executed an articulation agreement with Miami Dade College. The agreement may be found online.

Courses completed with passing grades of C or higher at other colleges and universities and acceptable for academic credit hours by the University of Miami, will be verified, and where appropriate, will be translated into University of Miami equivalents by the Office of Undergraduate Admission. However, the Dean of the College or School within the University from which the student plans to graduate determines which transferred courses may be counted toward meeting graduation requirements of that College or School.

Transfer of Credit Hours to UM

Work taken at other institutions will appear on the University of Miami transcript in separate entries as:

1. The total number of transferable credit hours attempted and quality points earned, regardless of grades, and
2. The total credit hours transferred, which shall be the total credit hours for which a grade of C or higher was earned.

Note: Only the transfer totals earned are added to the University of Miami totals. Total credit hours attempted and quality points earned elsewhere are not included in the University of Miami totals.

The University does not accept transfer credit hours for courses in which a grade of C- and below (or the equivalent grade) was earned. However, grades of C, D, and F are used to calculate the transfer admission grade point average.

Credit hours are not transferred from institutions not accredited by the appropriate regional accrediting association. Limited exceptions may be made with the approval of the Dean in the College or School of the student’s major. Credit hours transferred from institutions not in existence long enough to attain regional accreditation must be validated by the attainment of a C average or better in the first 12 credit hours of course work taken at the University of Miami.

The University does not have a coursework forgiveness policy. The grades of any repeated courses will be averaged.
A student may not repeat a course in which a grade of C or higher has been earned. This is considered an illegal repeat.

Upper division course requirements (300 level or above) at the University may not be satisfied with community college courses.

After being offered admission and enrolling, a student must submit any final college transcripts with grades, AP, IB, AICE or CLEP examination scores for review by the end of the first semester of enrollment. Any documents listed above which are submitted after this time period will not be reviewed and credit hours will not be awarded.

**Required Credit Hours in Residence at the University of Miami**

A student transferring credit hours from a 2-year community or junior college (this being the last school attended) must complete a minimum of 56

credit hours in residence

at the University of Miami to earn an undergraduate degree.

A student transferring credit hours from a 4-year college or university (this being the last school attended) must complete a minimum of 45 credit

hours in residence

at the University of Miami to earn an undergraduate degree.

At least half of the credit hours required for the chosen Major or Minor must be completed at the University of Miami.

See Admission procedures for transfer students (http://www.miami.edu/admission/index.php/undergraduate_admission/apply/transfer_applicants/transfer_application_instructions/).

**Articulation Agreement with Miami Dade College (Honors College)**

As part of the articulation agreement between Miami Dade College (Honors College) and the College of Arts & Sciences at the University of Miami, admitted students transferring from the MDC Honors College* will have the following benefits:

- No need to repeat courses/credits
- Guaranteed Junior (3rd-year) standing

*Limited to 300 spaces for fall semester, 150 for spring semester

**Veteran Admission**

The University of Miami welcomes applications from military/veterans and their dependents who are eligible for education benefits offered by the Department of Veterans Affairs, including the Post-9/11 GI Bill and the Yellow Ribbon Program.

If veterans have not earned any college credits after high school graduation, they should apply as a first-year student. Refer to the First-Year Admission Requirements section for additional details. If veterans have taken degree-seeking college credits after high school graduation — regardless of the number of credits earned — they should apply via the transfer process. Transfer applicants should refer to the Transfer Admission section for additional details.

Military/veteran dependents who are graduating from high school must apply as a first-year student.

The University of Miami will award up to six elective credits with the submission of the DD 214 form, which shows veterans were honorably discharged.

The Common Application fee is waived for active military/veterans and their dependents. The $500 nonrefundable enrollment deposit fee will also be waived for active military members and veterans.

Additional details may be found online.

**Foote Fellows Honors Program**

https://admissions.miami.edu/undergraduate/academics/honors-and-scholars-programs/foote-fellows/index.html

The Foote Fellows Honors Program recognizes the most educationally accomplished incoming students at the University of Miami. Foote Fellows have distinguished themselves both in and out of the classroom, are self-motivated, and think independently. Admission to the Foote Fellows Honors Program is by invitation.

Within the curricular framework of their school or college, Foote Fellows enjoy maximum freedom to explore a multitude of educational resources. Many Foote Fellows leverage this opportunity to take additional majors and/or minors and to study abroad.

At each of the nine undergraduate schools and colleges at the University of Miami, a dedicated advisor helps Foote Fellows chart their academic path and attain access to distinctive learning opportunities and educational guidance, such as special school-based seminars, faculty-mentored research, networking opportunities, and off-campus internships.
In addition, Foote Fellows have access to opportunities outside their school. Special Foote Fellow lectures are held throughout the academic year. "Books That Matter," a rigorous, multidisciplinary seminar in reading and analyzing significant works of nonfiction, is offered to Foote Fellows. Foote Fellows also benefit from focused advising regarding post-baccalaureate distinguished fellowships and awards, support and information about curricular opportunities from a dedicated program manager, and networking events with other Foote Fellows from all disciplines.

To graduate with the Foote Fellows Honors Program distinction, Foote Fellow students must achieve a minimum GPA of 3.5 by the completion of the final semester.

Eligibility for the Foote Fellows Honors Program transcript distinction for each student is determined by the lower of two GPAs:

1. UM cumulative graduation GPA
2. Combination GPA (UM cumulative graduation GPA + Transfer GPA)

The Foote Fellows Honors Program reflects the educational vision of former University of Miami President Edward T. Foote, who retired in 2000 after serving the University for twenty years.

**General Education Requirements**

**Philosophy**

The University of Miami’s General Education Requirements ensure that graduates have acquired essential intellectual skills and have engaged in a range of academic disciplines. The General Education Requirements provide students with the opportunity to study methods and achievements in all areas of human inquiry and creative endeavor and to cultivate abilities essential for the acquisition of knowledge. The General Education Requirements allow students to create an integrative map for their academic careers, providing a context for more focused studies.

As an institution of higher learning in an increasingly diverse and global community, our goals are to produce graduates who have been exposed to a broad spectrum of educational opportunities and to prepare them for successful participation in the world. The University’s General Education Requirements consist of coursework taken before, within, and in addition to students’ specialized study in their areas of concentration. The aims of the General Education Requirements are designed to ensure that graduates of the University will have acquired essential intellectual skills and exposure to a range of intellectual perspectives and academic disciplines. Whereas the requirements of majors specified by schools and colleges within the University emphasize depth of learning, the General Education Requirements stress breadth of knowledge and the cultivation of intellectual abilities essential for the acquisition of knowledge.

**Areas of Proficiency**

The Areas of Proficiency requirements ensure that students either already possess, or develop at the University, the ability to express themselves effectively, to use quantitative skills with facility, and to reason cogently.

**Written Communication Skills**

Effective writing skills advance ideas efficiently and persuasively, so the expectation is that students become adept at using writing as an effective communication tool. Students fulfill this requirement by satisfactorily completing ENG 105 together with ENG 106 or ENG 107, or the equivalent. Appropriate Advanced Placement (AP) or International Baccalaureate (IB) scores in English composition may be used to satisfy this requirement. An appropriate score on the SAT or ACT examination may earn a student exemption from, but not credit for, ENG 105.

Students will be able to:

- Demonstrate effective written communication skills in relation to specific rhetorical tasks.
- Construct original, well-reasoned arguments using a range of materials.
- Integrate and synthesize appropriate and relevant primary and secondary sources in their writing.

**Effective Fall 2017, new students without prior college credit in English Composition will be placed as follows:**

- ENG 103: ACT English score below 18 or SAT Evidence-Based Reading and Writing or Critical Reading score below 430, or TOEFL iBT Writing score below 18.
- ENG 105: ACT English score 18-31 or SAT Evidence-Based Reading and Writing or Critical Reading score 430-690, or TOEFL iBT Writing score 18 or above.
- ENG 106 or ENG 107: ACT English score 32 or above or SAT Evidence-Based Reading and Writing or Critical Reading score 700 or above

**Written Communication Skills General Education Requirements must be completed prior to attaining junior year classification.**

**Quantitative Skills**

In a world increasingly influenced by science and technology, it is important for students to acquire the capacity to understand and use essential quantitative skills. The Quantitative Skills requirement helps students learn to use quantitative skills and tools to solve problems, including the
interpretation, manipulation, and application of quantitative data. Students fulfill this requirement by completing either a Department of Mathematics course numbered MTH 108 or higher or a quantitative skills course approved by the student’s college/school and the University Curriculum Committee in consultation with appropriate academic units. ¹

Students may be able to fulfill this requirement through credit earned through the following tests: AP, IB, A-Level, and Cambridge Pre-U. Please click here (https://admissions.miami.edu/undergraduate/application-process/credit-information/) to see how credit/exemption may be earned through these tests. ²

Students will be able to:

- Select and use appropriate quantitative methods and tools to solve problems.
- Interpret, manipulate, and apply quantitative data to solve problems.

² Students in the Frost School of Music: An appropriate score on the SAT, ACT or proctored ALEKS examination may earn a student exemption from, but not credit for, the math requirement of the student’s degree program.

**Areas of Knowledge**

The Areas of Knowledge requirement is designed to help students understand and appreciate intellectual achievements in major areas of human inquiry and creative endeavor. Students satisfy this requirement through the Cognates Program, which aims to provide a broad array of intellectual and cultural exploration.

In the Cognates Program for the Areas of Knowledge requirement, students examine creative expression in the arts, literature, and philosophy; study human development and behavior; and explore the mathematical, scientific, and technological world. Students fulfill the requirement by completing three cognates, one from each of the three areas of the university curriculum: Arts & Humanities (A&H); People & Society (P&S); and Science, Technology, Engineering & Mathematics (STEM). A cognate is a group of at least three courses for at least nine credit hours with a shared theme or topic determined by the faculty. Each cognate has course options that allow students to complete the cognate in a manner that meets their interests, while staying within the focus of the cognate.

While students are required to take three cognates to fulfill the Areas of Knowledge requirement, there is no limit to the number of additional cognates students may complete. All cognates completed are listed on the students’ transcripts.

The university offers a large number and range of cognates. Additionally, each major and minor fulfills the cognate requirement in one Area of Knowledge. All approved cognates are visible in a cognate search engine (https://cognates.miami.edu/) that allows students to search for cognates based on cognate features, cognate courses, and keywords. Each cognate is administered by a department or program that is designated as the “Responsible Academic Unit” (RAU) for the cognate. Inquiries about a cognate should be directed to the cognate’s RAU.

The following rule applies to all cognates: A course may not be used to satisfy the requirements of more than one cognate. This rule applies whether the cognate requirement is being met by a major, a minor, or a designated cognate. The fact that a school requires students to take courses which the school construes as outside the major or minor, but must be taken to fulfill the requirements for that major or minor, does not allow the course to be counted for both purposes. On the other hand, the fact that a course is listed as one which must be taken to meet the requirements for a major or minor does not necessarily preclude a student from participating in a cognate which has that course as one of its options. In many cases, the student could take one of the other courses included in the cognate.

**Arts & Humanities**

Arts & Humanities cognates engage students in the study of the most enduring and influential works of art, imagination, and culture. Through study, creation, and performance, courses in this area enable students to understand the works of artists, musicians, novelists, philosophers, playwrights, poets, historians, and theologians. These courses cultivate the ability to interpret, critically evaluate, and experience the creative products of human culture and expression.

Students will be able to:

- Critically evaluate and interpret the creative products of humanistic and artistic expression, applying appropriate vocabulary and concepts for their description and analysis.
- Understand the creation and performance of art.

The following departments and programs offer courses that are used in Arts & Humanities cognates: Africana Studies; American Studies; Architecture; Art & Art History; Cinema & Interactive Media; Classics; Creative Advertising; Dance; English; Game Design; History; Judaic Studies; Latin American...
Studies; Modern Languages & Literature; Motion Pictures; Music Theory – Composition; Musicology; Philosophy; Religious Studies; and Theatre Arts. Others will be added as cognates are approved.

People & Society

People & Society cognates help students understand and analyze the organization of society and the patterns of social change in the past and in the contemporary world.

Students will be able to:

- Analyze the organization of society.
- Analyze patterns of social change.

The following departments and programs offer courses that are used in People & Society cognates: Accounting; Advertising; Aerospace Studies; Africana Studies; American Studies; Anthropology; Business Law; Classics; Climate Science Policy; Communication Studies; Criminology; Economics; Ecosystem Science & Policy; Educational & Psychological Studies; Electronic Media; Entrepreneurship; Geography; Health Communication; Health Sector Management; Hispanic Media; Human Resource Management; International Business; International Studies; Journalism & Media Management; Judaic Studies; Kinesiology & Sport Sciences; Latin American Studies; Legal Studies; Management; Marine Affairs; Marketing; Military Science; Modern Languages & Literature; Music Media & Industry; Nursing; Organizational Leadership; Philosophy; Political Science; Psychology; Public Health; Public Relations; Regional Studies; Religious Studies; Sociology; Strategic Communication; Sustainable Business; Teaching & Learning; Urban Studies; and Gender and Sexuality Studies. Others will be added as cognates are approved.

Science, Technology, Engineering & Mathematics (STEM)

Science, Technology, Engineering & Mathematics (STEM) cognates develop students’ abilities to think critically about mathematical, scientific, and technological issues, through an understanding of processes and methods of scientific inquiry involving experimentation, observation, and quantitative analysis. The cognates nurture literacies that enable students to make informed decisions in an increasingly complex world.

Students will be able to:

- Understand the use of quantitative tools, experimentation, and observation to analyze and solve mathematical, scientific, environmental, and technological problems.
- Interpret quantitative data and draw useful conclusions.

The following departments and programs offer courses that are used in Science, Technology, Engineering & Mathematics cognates: Aerospace Engineering; Anthropology; Architecture; Atmospheric Science; Audio Engineering; Biochemistry; Biology; Biomedical Engineering; Business Analytics; Law; Business Technology; Chemistry; Cinema & Interactive Media; Civil, Architectural & Environmental Engineering; Climate and Science Policy; Computer Science; Economics; Ecosystem Science & Policy; Educational and Psychological Studies; Electrical & Computer Engineering; Engineering Science; Finance; Geography; Geological Sciences; Healthcare Science; Industrial Engineering; Interactive Media; International Finance & Marketing; Journalism & Media Management; Kinesiology & Sport Sciences; Management Science; Marine Science; Mathematics; Mechanical Engineering; Microbiology & Immunology; Molecular Biology; Neuroscience; Nursing; Nutrition; Physics; and Psychology; Public Health; Real Estate; and Strategic Communication. Others will be added as cognates are approved.

NOTES

The three cognates taken to fulfill the Areas of Knowledge requirement (including cognates fulfilled by majors and minors) must have different RAUs. No more than two Areas of Knowledge may be fulfilled by cognates whose RAUs are in the same school or college, except for the College of Arts and Sciences. Majors and minors may cover more than one Area of Knowledge but may be used to fulfill the cognate requirement in only one of those areas. A course may count in only one cognate used to fulfill the Areas of Knowledge requirement (including cognates fulfilled by majors and minors). Students may petition for individual course substitutions in cognates by application to the cognate’s RAU. Transfer courses, Advanced Placement, International Baccalaureate, CLEP, dual enrollment, etc., that are transferred in with specific UM course equivalencies can be used in cognates. Courses that transfer in with non-specific UM course credit hours can be used in cognates only by application to the cognate’s Responsible Academic Unit (RAU).

Transfer students entering the university with 30 or more credits may take an individualized cognate as one of the three required cognates. Individualized cognates allow for flexible use of transfer credits to fulfill a cognate requirement, as approved by the dean/advising office in the student’s school/college.

Grades

Academic Standing, Probation, and Dismissal

At the end of each semester the University shall determine whether a student is in Good Academic Standing, on Academic Probation, or subject to Academic Dismissal. Some schools and colleges may have exceptions to the Good Academic Standing, Academic Warning, Academic Probation and Academic Dismissal policies listed below.
Good Academic Standing
To be in Good Academic Standing a student must not be on Academic Probation or subject to Academic Dismissal.

Academic Probation
Students other than first-semester freshmen (non-transfer student) whose UM cumulative grade-point average (CGPA) in University of Miami courses is below the following levels shall be placed on Academic Probation.

<table>
<thead>
<tr>
<th>Credit Hours Earned</th>
<th>CGPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fewer than 33</td>
<td>1.7</td>
</tr>
<tr>
<td>33-64</td>
<td>1.8</td>
</tr>
<tr>
<td>65-96</td>
<td>1.9</td>
</tr>
<tr>
<td>More than 96</td>
<td>2.0</td>
</tr>
</tbody>
</table>

First-semester freshmen who have a semester grade-point average below 1.3 shall be placed on Academic Probation. In addition, students who fail to make satisfactory progress toward meeting the degree requirements specified by their School or College may be put on Probation by the Academic Standards Committee of the School/College. Students on Academic Probation must meet with their academic advisor prior to the following semester and shall be restricted to a 13-credit hour load.

Academic Dismissal
A student who remains on probationary status after two consecutive semesters on Academic Probation shall be subject to Academic Dismissal. A student who has been on Academic Probation for one semester and has a CGPA below 1.0 shall also be subject to Academic Dismissal. The decision to dismiss shall be made by the Academic Standards Committee of the School or College in which the student is enrolled. If a decision is made not to dismiss, the student shall remain on Academic Probation.

Appeals and Readmission
Students who wish to appeal their Academic probation or dismissal for academic reasons, must do so in writing to the School or College Academic Standards Committee within thirty days of the notice of dismissal. Those who have been dismissed for academic reasons shall not be considered for readmission to any school or college at the University until at least two regular semesters have elapsed since their dismissal.

Faculty Senate Student Affairs Committee Standard Academic Appeals Process
The Faculty Senate Student Affairs Committee (FSSAC) has responsibility for undergraduate student academic appeals. The FSSAC includes faculty representatives from all undergraduate schools as well as three non-voting ex officio representatives: a graduate and undergraduate student representative and the University ombudsperson. The FSSAC reviews undergraduate student academic appeals that have not been resolved at the department, school, or college levels. As noted in section II below, the FSSAC hears cases only after they have gone through the departmental and college process. The processes are the same for grade and non-grade appeals except as noted below.

I. Time Constraints
Appeals must be filed within a year of the occurrence of the academic action resulting in the appeal and prior to the completion of all degree requirements or withdrawal from the University. Exceptions to this deadline may be permitted by the FSSAC for good cause.

Each level of appeal should aim to review the appeal and arrive at judgment within a two month period from the date the appeal reaches them. The entire process should be completed within one year.

II. Order of Appeal
A student appeal regarding a faculty or administrative academic action must be addressed to the following entities or persons in this order:

1. The faculty member or administrator responsible for the course, program, or activity.
2. The department/program chair/director or administrative superior of the faculty member or administrator.
3. The Dean or designee of the school or college offering the course, program or activity.
4. If the school, college or administrative unit has a committee constituted to hear student appeals, that committee must be consulted before proceeding to the next level.
5. The ombudsperson. The student is to provide the materials listed in Section III below to the ombudsperson who will review the merits of the appeal, and attempt to resolve the matter. The ombudsperson, as part of his/her review should give the student a preliminary assessment as to whether the matter, as presented by the student at that time, is reviewable by the FSSAC.
   If the matter is the appeal of a final grade, and only after all the other steps are taken, the ombudsperson may refer the matter to the Provost who will decide whether or not to refer the appeal to the FSSAC.
   For a non-grade-appeal, the student has the final authority to decide whether to take the appeal to FSSAC. If s/he chooses to do so, the ombudsperson shall forward the appeal and the accompanying documentation to the FSSAC via the Faculty Senate Office.
6. The Provost may request that the FSSAC review an appeal. If, but only if, s/he does so, the FSSAC shall have jurisdiction to review a grade-related appeal.
a. As part of the request, the Provost shall forward to the FSSAC, via the Faculty Senate office, the materials submitted by the student as indicated in Section III, below.

b. The FSSAC will review the student’s written appeal (see section III below), confer with the appropriate faculty, administrators, and others as it deems necessary in making its recommendation to the Provost. The FSSAC may request an interview with the student, additional information or access to records, interviews with relevant faculty or administrators, or additional information or access to records kept by faculty or administrators.

c. The FSSAC will communicate its findings and recommendations to the Provost. Copies shall be provided to the Faculty Senate.

7. The final decision with respect to the grade-related appeal will be made by the Provost and communicated to the student in writing. Copies shall be provided to the Faculty Senate Office and to the Chair of the FSSAC.

8. For non-grade-related academic appeals:
   a. The FSSAC shall act upon those appeals and report its findings and recommendation to the Provost. The Committee shall forward to the Chair of the Faculty Senate a copy of its recommendation to the Provost.
   b. The Provost shall communicate his/her decision on each recommendation to the student concerned, to the Chair of the Committee, and the Chair of the Faculty Senate.

III. Materials for an Appeal
When bringing an appeal, the student must state in writing issues s/he wishes to have considered. The appeal must include:

1. An appeal letter clearly stating the conditions as seen by the student, and offering reasons for granting the appeal.
2. The appeal letter must indicate if the student wishes to make a personal appearance and, if so, the reasons why the appearance is necessary.
3. Documents of support (e.g., examinations, term papers, syllabi, or medical documentation of illness) that the student wishes to have examined.
4. All written decisions made at earlier levels of the appeal by individual faculty/administrators, departments/programs/administrative units, college or school committees, and deans which are available to the student or in the student’s possession.

IV. Other Notes and Special Conditions
1. If the appeal is based on or related to a charge made by the student of discrimination on the basis of race, color, national origin, religion, sex, sexual orientation, age, or handicap, a representative of the appropriate University office will be contacted and, as appropriate, consulted in the appeal process.
2. If the appeal is based on or related to a disability:
   a. The ADA Coordinating Committee shall serve in an advisory capacity.
   b. The student is to include in the materials provided, the appropriate forms from the Office of Disability Services documenting:
      i. An evaluation of the disability
      ii. Recommendations related to the disability
   c. The FSSAC does not consider appeals based upon the grant, denial or modification of an accommodation by the Office of Disability Services. Instead, any such appeal is as prescribed by the Office of Disability Services Grievance Procedure only.

The Grading System

<table>
<thead>
<tr>
<th>Grade</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent attainment</td>
</tr>
<tr>
<td>B</td>
<td>Good attainment</td>
</tr>
<tr>
<td>C</td>
<td>Fair attainment</td>
</tr>
<tr>
<td>D</td>
<td>Poor attainment (earns credit hour but may not fulfill requirement for a major)</td>
</tr>
<tr>
<td>F</td>
<td>Failure (effective Fall 1995)</td>
</tr>
<tr>
<td>W</td>
<td>Course dropped on or before the last day for withdrawing from classes as published in the official calendar of the University. Credit hour can be earned only by successful repetition of the course.</td>
</tr>
<tr>
<td>WL</td>
<td>Late Withdrawal—Administrative; Only used for Complete Withdrawal (Effective Summer 2017)</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete work in passing status with the instructor’s permission to complete the course. An “I” will be assigned only if the instructor is satisfied that there are reasonable non-academic grounds for the student’s incomplete work. An “I” is not intended to be assigned in order to permit a student to repeat a course without registration or to permit a student to do additional work in order to improve upon grades earned during the semester. The student who receives an “I” must complete the course with a passing grade within the time frame specified by the professor of the course but not longer than the end of one calendar year, or prior to graduation, whichever occurs first. An Academic Dean may approve an extension initiated by the course instructor. An “I” not completed prior to the student’s graduation shall be changed to an “IE” or “IF” by action of the student’s Academic Dean.</td>
</tr>
<tr>
<td>IP</td>
<td>Denotes in progress grade assigned upon satisfactory completion of the first semester of a two-semester sequence, with the final grade for both courses to be submitted at the end of the second semester of the sequence. Please note that all “IP”s must be converted to a letter grade or “IF” at graduation. “IP” will also be converted to “IF” upon any departure from the University for a period in excess of one year.</td>
</tr>
</tbody>
</table>
### Grades

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>IF</td>
<td>Symbol indicating that an &quot;I&quot; grade was not appropriately completed. The symbol &quot;IF&quot; is equivalent to an &quot;F&quot; when computing a student's average.</td>
</tr>
<tr>
<td>CP</td>
<td>Completed</td>
</tr>
<tr>
<td>CR</td>
<td>Grade signifying that credit only is awarded based on a &quot;C&quot; average or better.</td>
</tr>
<tr>
<td>NC</td>
<td>Grade signifying that no credit hour is awarded based on a course average below a grade of &quot;C&quot;.</td>
</tr>
<tr>
<td>NG</td>
<td>Symbol assigned by the Office of the Registrar indicating that the instructor has not reported the student's grade. For a student to receive credit hour for the course, the instructor must report a passing grade prior to the student's graduation, or by the end of one regular academic semester, whichever comes first. An Academic Dean may approve an extension initiated by the course instructor. An &quot;NG&quot; not replaced by a passing grade, or by a &quot;W&quot;, prior to the student's graduation shall be changed to an &quot;F&quot; by action of the student's Academic Dean.</td>
</tr>
</tbody>
</table>

### Credit Only Option

The credit only option has been established to encourage students to explore academic areas outside their major and minor fields of concentration. Students may use this option with free electives and receive a CR (Credit Received) or NC (No Credit). These courses become part of a student's record, but they do not count in the grade point average as computed by the University of Miami.

### Grade Point Average

The grade point average is used to determine:

- class rank
- graduation and university honor eligibility
- good standing, probation, and dismissal status
- scholarship eligibility

Your official grade point average is based only on the work you have completed at the University of Miami. The only exception to this policy is for determining whether a student qualifies for university honors established by the minimum grade point requirement at the time of graduation. For graduation purposes, cumulative grade point average is defined as either the average of all grades earned at the University of Miami or the combined average of all graded work taken at the University of Miami and elsewhere whether or not the transfer work is accepted toward a degree at the University of Miami, whichever is lower.

Quality points per credit hour are awarded as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.70</td>
</tr>
<tr>
<td>B+</td>
<td>3.30</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.70</td>
</tr>
<tr>
<td>C+</td>
<td>2.30</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.70</td>
</tr>
<tr>
<td>D+</td>
<td>1.30</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>E (Prior to Fall 1995)</td>
<td>0.00</td>
</tr>
<tr>
<td>IE</td>
<td>0.00</td>
</tr>
<tr>
<td>F (Effective Fall 1995)</td>
<td>0.00</td>
</tr>
<tr>
<td>IF</td>
<td>0.00</td>
</tr>
</tbody>
</table>

Courses marked with an "IE" or "IF" count as credit hour attempted but are not counted in credit hours earned and do not carry quality points.

Credit hours marked CR are counted as credit hours earned but are not counted in credit hours attempted and do not carry quality points. Courses marked with the symbols I, IP, W, NC, and NG do not carry credit hours attempted, credit hours earned, or quality points.

The grade point average is determined by dividing the total quality points earned by the total credit hours attempted.

Military service credit hour, some foreign university credit hour, correspondence course credit hour, credit by examination, etc., are not awarded quality points and do not enter the computation of the grade point average.
Grade Change Policy

**LETTER GRADES**

- Grade changes may only be submitted after final grades have been posted to the official student record by the University Registrar.
- Only the faculty member of record may initiate the grade change process, except for instances of student grade appeals.  
- Grade changes may be submitted up to one calendar year from the date on which the course grade was posted.
- A grade change may be proposed only to correct a clerical or calculation error in the determination of a final grade.
- Grade change proposals must be approved by the chair of the department offering the course and by the Dean (or Dean’s designee) of the School/College of the course department.
- The University Registrar will process the approved grade change and update the student record.

**INCOMPLETE GRADES**

To allow a student extra time to complete course work due to unusual circumstances, faculty may submit an Incomplete (I) grade on condition that the student:

1. Has attended class and completed at least 50% of the course work;
2. Has a passing grade or is in good standing in the course;
3. Has corresponded with the faculty member to determine the work that must be submitted;
4. Has agreed with the faculty member on a due date (no more than one year from the date the Incomplete grade is submitted).

**EXPIRATION OF INCOMPLETE**

An undergraduate Incomplete (I) grades will be converted to an “IF” if a grade change is not submitted by the due date. The “IF” is calculated into the student’s GPA as a failing grade.

1. Process for student initiated grade appeals can be found in the Undergraduate Academic Bulletin under the Grading system.

---

**Honor Code**

The Honor Code, initiated at the request of the Undergraduate Student Body Government, ratified by student referendum, approved by the Faculty Senate, by the President of the University, and administered by students, protects the academic integrity of the University of Miami by encouraging consistent ethical behavior among its undergraduate students. The Code provides standards that prohibit all forms of scholastic dishonesty, including cheating, plagiarism, collusion, and falsification or misrepresentation of experimental data. The Code covers all written and oral examinations, term papers, creative works, assigned computer related work, and any other academic work done at the University by an undergraduate student.

All undergraduate students are responsible for reading, understanding, and upholding the Honor Code. Signed pledges are required for written work submitted for evaluation, but the absence of a signed pledge does not free a student from the ethical standards required by the Code. Procedures for dealing with infractions of the Code, including provisions for appeals, are printed in the text of the Honor Code. Copies may be obtained from the Office of the Dean of Students or from the office of the Undergraduate Student Body Government, or online (http://www.miami.edu/honor-council/).

In keeping with the traditional prerogatives of university faculties, nothing in the Code infringes on the faculty's assignment of grades undertaken in a class. Instructors are informed when students have been found guilty of infractions involving their classes. Courses in which students have been failed for academic dishonesty may neither be dropped nor repeated under the terms of the freshman repeat rule.

**Honor Rolls**

**The Dean’s List**

The Dean’s List is composed of those undergraduate students who are enrolled in a degree-seeking program and have attained high scholastic achievement for the semester. To attain the Dean’s List, a student must, for the semester:
1. have registered for and have completed 12 or more graded credit hours (excluding the credit hours earned in courses taken for credit only);
2. have attained a quality point average of 3.50 or higher for the semester;
3. have no courses with pending grades (I or NG).

The Dean’s List will be announced by each college and school at the end of the semester. The Office of the Registrar will post this achievement to the student’s permanent record.

**The Provost’s Honor Roll**

The Provost’s Honor Roll is composed of those undergraduate students who are enrolled in a degree-seeking program and have attained a high scholastic achievement for the semester. To attain the Provost’s Honor Roll, a student must, for the semester:

1. have registered for and have completed 12 or more graded credit hours (excluding the credit hours earned in courses taken for credit only);
2. have attained a quality point average of 3.75 or higher for the semester;
3. have no courses with pending grades (I or NG).

The Provost’s Honor Roll will be announced by the Provost’s Office. The Office of the Registrar will post the achievement to the student’s permanent record, and distribute the Provost’s Honor Roll Certificate.

**The President’s Honor Roll**

The President’s Honor Roll is composed of those undergraduate students who are enrolled in a degree-seeking program and have attained the highest possible scholastic achievement for the semester. To attain the President’s Honor Roll a student must, for the semester:

1. have registered for and completed 12 or more graded credit hours (excluding credit hours earned in courses taken for credit only);
2. have attained a quality point average of 4.0 for the semester;
3. have no courses with pending grades (I or NG).

The President’s Honor Roll will be announced by the Office of the Registrar who will post the achievement to the student’s permanent record, and distribute the President’s Honor Roll Certificate.

**Graduation Degrees**

It is the responsibility of the student to be sure he/she makes satisfactory progress toward, and fulfills requirements for, the degree he/she seeks. He/she may obtain help in the office of his/her Academic Dean.

To receive a Bachelor’s degree from the University, the student must earn at least 120 credit hours (more in some schools), with a C average (2.0) or better as well as a C average for all work done at the University of Miami.

Students must also meet all of the degree requirements of their respective schools and should not expect requirements in composition, mathematics, foreign languages, or other subject areas to be waived for any reason.

- A student transferring credit hours from a 2-year community or junior college (this being the last school attended) must complete a minimum of 56 credit hours in residence at the University of Miami to earn an undergraduate degree.
- A student transferring credit hours from a 4-year college or university (this being the last school attended) must complete a minimum of 45 credit hours in residence at the University of Miami to earn an undergraduate degree.
- In addition, each student must complete at least half of the credit hours specified for his or her major in residence at the University of Miami.
- Not more than 30 credit hours of correspondence work and extension work combined will be accepted toward a degree, and neither correspondence nor extension work may be credited as a part of the last 45/56 credit hours of the student’s program.
- Not more than 30 credit hours based on military experience will be awarded toward the degree.
- Credit hours earned in a manner other than by course registration, i.e. proficiency examination, CLEP placement tests, etc., may not be used to meet the final 45/56 credit hour residency requirement, however such credit by examination may be earned while the student is enrolled in the courses needed to meet the final 45/56 credit-hour residency requirement.
- The last date on which application may be made for each graduation period is published in the Academic Calendar. The academic deans are the only officers authorized to approve placing the student’s name on the candidate degree list.
- Once a degree has been awarded, no changes will be made to the academic record.

**Dual Degree**

- To obtain two different undergraduate degrees, a student must complete all the requirements for each degree.
- A second undergraduate degree on the same level requires a different major and a different minor.
• If the degrees are in two different schools, a student must meet the requirements with distinctly different majors and minors, wherever applicable, in each school.

• Students must obtain approval from the Office of the Senior Vice Provost and Dean of Undergraduate Education to pursue dual degrees in different schools.

As a general rule, college credit hours more than 12 years old are not recognized for degree purposes. Students in this category should consult their academic deans.

A student must apply for graduation on CaneLink during the semester in which they expect to graduate.

University Graduation Honors (Latin Honors)

University Graduation Honors (Latin Honors - Summa / Magna / Cum Laude) will be determined by a minimum GPA unique to the school or college from which the student is graduating.

• University Graduation Honors only applies to undergraduate students.

• The GPA required will change each academic year (beginning with the fall semester) and will be based on the cumulative GPAs of the previous year's graduating class. The GPAs are calculated every summer and the year specific-criteria can be found here (https://registrar.miami.edu/graduation-and-transcripts/graduation-and-diplomas/).

• The top 5% of the graduating class will receive Summa Cum Laude within each individual school or college; the next 10% will receive Magna Cum Laude and the next 10% Cum Laude.

• For the determination of University Graduation Honors, cumulative GPA is never rounded off and is the lower of:
  • the average of all grades earned at the University of Miami (UM cumulative graduation GPA), OR
  • the combined average of all graded work taken at the University of Miami or elsewhere (whether or not the transfer work is accepted toward a degree at the University of Miami).

• Students must meet the required GPAs by the completion of the final semester within his/her school or college to be eligible to graduate with the honor.

• The appropriate honor will automatically be placed on the student's final transcript and diploma.

Departmental Honors

Among the departments offering approved programs for honors study at the junior-senior level for both majors and elective students are American studies, art and art history, biochemistry and molecular biology, biology, business administration, chemistry, computer science, engineering, English, finance, French, German, history, international finance and marketing, international studies, Judaic Studies, marine science, mathematics, meteorology, microbiology and immunology, philosophy, political science, psychology, religious studies, sociology, Spanish, and women's and gender studies.

Admission into the program is by invitation, but any student who believes himself or herself qualified may apply to the Chairman or the Departmental Honors Advisor of the major department, preferably during the sophomore or early junior year. Upon successful completion of the required program and with approval by the faculty of the department, the notation Departmental Honors in ... is included in the candidate's diploma and transcript.

Departmental Honors are designed primarily to provide an opportunity for the student to intensify and deepen his or her knowledge of the major, to permit closer associations with professors in the student's area of concentration, and to prepare the student for research, thesis preparation, and other work at the graduate level in the major areas.

Departmental Honors requirements vary by departments; the prospective Departmental Honors student should confer with the Honors Advisor within the department about specific requirements for graduation with Departmental Honors.

Diplomas and Transcripts

No diplomas or official transcripts are released from the Office of the University Registrar without the approval of the Office of Student Account Services.

Diplomas are issued after the student's graduation has been awarded by the school/college and noted on the student's official transcript. The diploma must be issued in the name on the student's academic record. Addition or omission of a middle name is acceptable. The addition of a middle name will be acceptable only as it appears on the student's application for admission. If the middle name is not on the application or if the student wants another version, documented proof of a legal name change must be presented to Canes Central.

Official transcripts are issued only upon receipt of a secure electronic request through the university's online transcript system or a written and signed request from the student is received in the office. Payment for the transcripts is required before they will be sent.

Unofficial transcripts are available free of charge to students through CaneLink.

Student Status
Academic Bankruptcy

Students entering college sometimes perform at an unacceptable academic level. They either drop out or are dismissed. Some individuals with this experience re-evaluate their educational goals and desire to return to college. Their academic record, however, may present an insurmountable obstacle. Undergraduate students in this category who want the opportunity for a fresh start at the University without this handicap may apply for admission or readmission with the request that their prior academic record be disregarded.

In order to be considered for academic bankruptcy, a student's combined college grade point average must be below 2.00 as calculated by the Office of Admission.

Application for Initial Admission to the University with Academic Bankruptcy

The applicant must apply to the Office of Admission and:

1. Must have been admissible to the University as a senior in high school,
2. Must have attended an accredited institution for at least one year and must not have attended any college or university for the preceding six months, and,
3. Must not be admissible to the University based on his or her college-level work.

Application for Readmission to the University with Academic Bankruptcy

A University of Miami student who has dropped out or who has been dismissed may request Academic Bankruptcy on meeting these conditions:

1. The student must apply to the Office of the University Registrar.
2. At least six months must have elapsed since the end of the semester in which the student was last in attendance at the University of Miami.
3. Detailed written evidence must be provided with the readmission application, showing that the conditions or factors that caused the poor performance have changed sufficiently, so that there is a reasonable expectation of future satisfactory performance.

Conditions of Approval

1. If Academic Bankruptcy is approved, no course credit hours earned previously will be displayed on the transcript for credit hours attempted, credit hours earned, or quality points earned; however, all grades earned previously will remain on the transcript.
2. Readmission applicants with approval from the dean of the accepting school, may have Academic Bankruptcy apply only to those credit hours taken by the student when last in attendance at the University of Miami, so that credit hours earned at another institution subsequent to the date the student last attended the University are not affected.

All grades, good or bad, are invalidated during this process and will not be reinstated at any future time.

Academic Bankruptcy will be granted only once for any student.

Certification of Enrollment

Students who require certification of enrollment for insurance or education loan purposes may obtain an enrollment letter via their CaneLink account or by submitting a request to Canes Central. Enrollment verification via CaneLink is available after the last day to drop without a "W". Please refer to the University's academic calendar for specific dates.

Enrollment Verification letters will include only information maintained in the university's official academic record system. The University will not alter, amend or add anything to the standard letter. Notarization is available upon request.

Students will be certified as currently enrolled once they have met their financial obligations. If a student is delinquent in paying his/her tuition and fees statement balance and/or Monthly Payment Plan, the University will not process transcript and/or diploma requests. Course selection/modification will not be permitted for any previous, current or future semesters. The student is not considered enrolled during the term in question, which means that certification of enrollment cannot be provided for insurance, student loan deferment or repayment purposes. Non-payment also means the student is ineligible for financial assistance awarded for the term in question. A late payment fee may be assessed on delinquent accounts.

Students who require enrollment certification for scholarship purposes only, will be conditionally certified until financial obligations are met.

For students who do not have a Social Security number, verification letters are generated by the Office of the University Registrar. Letters are typically generated in seven (7) business days but may take longer during our registration period and the first two weeks of classes.

Classification of Students

Students are classified in three ways:
1. By course load (full- or part-time)
2. By objective (degree sought, non-degree, transient, audit, etc.)
3. By year

Course Load
A student is a full-time student if he/she carries not less than the minimum normal load, 12 credit hours per semester in most schools, nine credit hours in the Graduate School (please refer to the Graduate section for exceptions). The minimum credit hour loads in a summer session will vary for each category, according to the length of the sessions. (A typical full-time class schedule for fall and spring semesters not requiring override approval from an advisor consists of 15 credit hours. In some cases, students are recommended to enroll in fewer than 15 credit hours.) Please refer to the university's full-time/half-time policy (https://registrar.miami.edu/general-information/policies/full-time-half-time-policy/). For spring semester, Intersession courses can be included when evaluating full-time status. It is important to note that tuition charges for Intersession courses typically are separate from and in addition to charges for the spring semester. Full-time status may vary from one college or school to another. Students should consult with the dean of his/her college or school for details.

Objective
A degree student is one whose immediate educational objective consists wholly or principally of work normally credited to a University of Miami bachelor's or higher degree. To qualify for this status, a student must meet the standards for admission.

A non-degree student is one who is not pursuing a degree program. Such students are those who, although eligible for degree candidacy, have requested permission to take a limited or special selection of credit hour courses without regard to requirements for a degree. This classification includes high school graduates and students with previous college credit hour
1. who do not want degree status;
2. whose applications for degree status are incomplete;
3. who are taking work toward teacher certification;
4. who are workshop applicants;
5. who are visiting summer school students. (Students under 21 years of age who have not completed high school will not be admitted to this status.) Non-degree students are sub-classified as transient, special, etc.

An undergraduate non-degree student may petition the Director of Admissions to have his/her status changed to that of degree student. Up to 30 credit hours earned in non-degree status may be applied towards a degree, but only to the extent approved by the appropriate academic dean. It is therefore important that the degree student identify himself/herself as such, early in his/her program.

Transient Student
A transient student is one who is enrolled at the University of Miami with the sole intention of using credit hours earned toward graduation elsewhere.

Audit Student
An audit student is one who enrolls as an observer or listener only. Auditing is allowed only when there is space available in the class. Audit status may be restricted by the Dean in the case of laboratory, studio or performance courses where audit status is not appropriate. Audit students receive no credit hour, do not prepare written assignments or take examinations, are not eligible for residence in campus residence halls, and do not receive student privileges except for the use of the library. No entries are made on the permanent academic record for audited courses.

Students wishing to change from audit status to credit hour status must obtain all necessary approvals within two weeks following the last day of registration for Fall and Spring semesters and no later than the fifth class day following the last day of registration for Summer Sessions. No changes except withdrawals from the course are permitted after this time.

Note: Fee for auditing a course is non-refundable. Please refer to financial information section of the bulletin.

Year
• A freshman is a degree-seeking student who has earned 0 to 29 credit hours.
• A sophomore is a degree-seeking student who has earned 30 to 59 credit hours.
• A junior is a degree-seeking student who has earned 60 to 89 credit hours.
• A senior is a degree-seeking student who has earned 90 credit hours or more.

Undergraduates Taking Graduate Coursework
University of Miami undergraduates within 30 credit hours of meeting the requirements for the Baccalaureate Degree may be allowed to take up to twelve (12) graduate-level credits (no more than 6 credit hours may be taken in one semester) in non-degree graduate status while completing the requirements for the baccalaureate.

The Graduate School's Application for Undergraduates to Take a Graduate Course form is available on the Graduate School website (https://grad.miami.edu/).
1. Must have a minimum of 3.00 G.P.A.
2. The submission of an Application for Undergraduates to Take a Graduate Course form (available on the Graduate School website (https://grad.miami.edu/)) which will not require the application fee;
3. The written approval of the Chairman of the Department, the Dean of the Undergraduate School or College, and the Graduate School Representative prior to registration.

Approval to take graduate-level courses does not automatically admit the student, upon graduation, to status as an applicant for a graduate degree at the University of Miami.

The graduate credit hours earned may NOT be used to meet undergraduate graduation requirements or be used to meet the 120 credit hour requirements at the University of Miami.

No more than 6 credit hours may be taken in one semester, and no more than a total of 12 credit hours may be taken while in graduate status. Students may take no more than 15 credit hours of combined undergraduate and graduate courses per semester.¹

If the total combined undergraduate plus graduate credits exceeds 15 credits, the Graduate School will require the undergraduate advisor and undergraduate dean to provide approval. Please note that the application form requires the student and a financial aid representative to sign and date the form acknowledging that the student understands the financial implications of this registration.

Eligibility for University Extracurricular Activities

Full participation in University-sanctioned extracurricular activities and organizations is open to all full-time students who are not on academic probation and who have been assessed the Student Activity Fee. Extracurricular activities include, but are not limited to the following: academic, athletic, dramatic, or musical organizations or teams; student organizations registered with the Committee on Student Organizations (COSO); fraternities and sororities; student publications; program boards; and University committees.

Students on probation may participate in any activity required as partial fulfillment of their degree program; may attend meetings of organizations; and may play intramural sports. They may not otherwise compete, perform, or hold a leadership position. At the beginning of each fall semester, the activity's faculty or staff advisor or appropriate committee chairperson shall determine with the Office of the Provost the eligibility of each participating student. Some activities apply stricter standards, and may monitor academic progress and review eligibility during the academic year. Students should consult with the individual activity for specific requirements.

Readmission

Undergraduate students who have not attended the University for at least one semester should request readmission through Canes Central no later than two weeks before the beginning of classes, in the semester they wish to re-enroll. Readmission to the University is contingent upon approval of the Dean of the school/college the student is applying to and clearance from the Office of Student Account Services.

International students who seek readmission must receive clearance from International Admission and submit a bank letter to receive an I-20 from International Student and Scholar Services.

Specific details on the readmission process can be found here (https://registrar.miami.edu/general-information/policies/readmission/).

Students who have attended another college or university since they were last enrolled at the University of Miami, will be required to provide a transcript of their work. Failure to disclose all prior institutions attended may result in disciplinary action.

An undergraduate student who has applied to graduate for a given semester will not be eligible to register for any subsequent semester until the student applies for readmission or admission to a new program. A candidate for graduation may wish to continue his/her studies in one of the following situations:

1. If the student fails to graduate and further registration is needed, they must delete their application for graduation in CaneLink and within twenty-four hours, registration for subsequent semesters or sessions should be available. Students should contact Canes Central for assistance.
2. If the student graduates and wishes to pursue a second bachelor's degree, the student must apply for readmission, stating his/her new degree objective.
3. If the student graduates and wishes to take additional course work without a degree objective, the student must apply for unclassified status.

Proof of immunization must be provided to the Student Health Service before readmission to the University of Miami. Failure to do so may prevent you from registering for classes.

Inactive Status

Inactive status is available to continuing, undergraduate, degree-seeking students who intend, and qualify, to re-enroll at the University of Miami after leaving the university for a designated period of time. This status is used when students will not be taking classes at another institution. Students interested in this option may obtain further information here (https://registrar.miami.edu/general-information/policies/inactive-status/) or by visiting Canes Central.
Non-UM Programs

Students who study through a non-UM program, domestic or study abroad, and would like to have those credit hours applied toward their UM degree, should apply for Non-UM Program status. For more specific information on the Non-UM program please see the application (http://cdn.miami.edu/wda/registrar/Documents/non-um-program-application-2017.pdf).

Non-UM is only available in the Fall and Spring semesters.

As of July 1, 2017, the fee will be $350 per semester.

Student Identification Numbers

All students at the University of Miami will receive an identification number that is unique to them. This number supplements the social security number, which is also required by the university in order to provide information to the federal government and approved agencies. Access to social security numbers is limited to staff who have a legitimate need for that information.

Transfers Between Schools and Colleges

Undergraduate students who have compiled fewer than sixty (60) credit hours may transfer between schools and colleges provided that such students:

1. Demonstrate their academic admissibility to the new program (as defined by class rank and SAT scores) at the time of their original matriculation at the University;
2. Satisfy any special criteria required for admission by a particular program (e.g., auditions in the arts, portfolios in architecture, etc.); and
3. Obtain the approval of the Dean of the receiving school or college.

It is a general policy of the University that students admitted to degree seeking status may not transfer to an unclassified status.

Students who have compiled 60 or more credit hours with an average of 2.0 or higher and who have satisfied all of the above three conditions may be eligible to transfer between schools and colleges pending space availability and additional program requirements.

Graduate Policies and Procedures

grad.miami.edu

All graduate work (except for the Master's Degree in Law, J.D. in Law and M.D. degree) at the University of Miami is under the direction of the Dean of the Graduate School and the Graduate Council.

All graduate students at the University of Miami are subject to the general standards and requirements of the University and its various programs in regard to attendance, examinations, payment of fees, and conduct, as well as to the specific requirements of the Graduate School. The graduate student is expected to assume the initiative in completing all requirements in the time specified.

Admission requirements are described in the Bulletin of the Graduate School, and may be obtained from the individual department or program.

Applications are processed through the various Schools and Colleges. Visit the Graduate School website (http://grad.miami.edu) and click apply to review the application process.

Prospective students should note that "graduate study" means an integrated program of advanced, specialized study, based on an undergraduate major and/or adequate background, presupposing academic and personal maturity, and making much more than average demand upon the industry, initiative, and scholarship of the student. The term must be distinguished from "post-graduation study" which means merely that courses, not necessarily of graduate level, are taken after the student has received a bachelor's degree.

To preserve its ideals of scholarship, conduct, and character, the Graduate School reserves the right and the student by his/her registration concedes the right to require the withdrawal of any student for any reason deemed sufficient by the Graduate School at any time.

Academic Policies

Time to Completion

Time to completion starts when a student begins any program in the Graduate School, whether it be a master’s or doctoral program. All work must be completed within six years of the time of admission to graduate work, for those studying for the various master’s degrees; and within eight years for those studying for doctoral degrees. For those admitted directly into a Ph.D. program without a master’s degree in that field, work must be completed within eight years. Individual programs may set a shorter time period. Exceptions to the time to completion policy may be granted by the Dean of the Graduate School at the request of the Graduate Program Director.
Recency/Validation for Over-Aged Credit Hours
Graduate credit hours transferred from another university may not be applied toward a graduate degree at the University of Miami if their age at the time of acceptance into the University of Miami program exceeds six years. On an individual basis, students may be permitted to validate over-aged credit hours by examination, with program approval.

Continuous Enrollment
To maintain status as a graduate student, registration in each fall and spring semester is required. Otherwise, admission lapses and readmission must be granted. Doctoral students for whom course work is no longer appropriate should consult their program for registration guidance.

Registration
Graduate students can register on the first day of registration and through the registration period. For more information on registration, students should contact their respective School or College. See academic calendar for dates of registration periods here (http://www.miami.edu/index.php/registrar/calendar/).

Full-Time Study
The categories of full-time students include:

1. Graduate students taking 18 or more graduate credit hours during the calendar year (9 credit hours in a regular semester or 6 credit hours in a summer semester. In online programs, 6 credit hours in each regular semester and 6 credit hours during the summer.)
2. Graduate teaching and research assistants taking 16 or more graduate credit hours during the calendar year (8 credit hours in regular semester or 6 credit hours in a summer semester).
3. Graduate students enrolled in any course numbered 800 or above, i.e., any 800-level course required for the completion of the degree.
4. All MBA for Executive and Professional students are considered full-time.

In all cases, determination as to whether or not a student is in full-time study is the privilege of the Dean of the Graduate School.

The maximum number of credit hours allowed for full-time study is 12 for each semester and six for each summer semester. Exception to this policy can only be made by the Dean of the Graduate School or his/her designee and requires a signed recommendation from the Program Director.

For thesis and dissertation students, full-time registration is required during the semester or summer session in which a candidate defends the thesis or dissertation. Students who wish to have this requirement waived must have a written request provided to the Graduate School by the Dean of their respective College or School, or the Dean's designee.

No full-time faculty member may be a full-time student, whether or not working toward a degree. Nor may a full-time student be a full-time faculty member.

No full-time student will be a principal investigator in any grant or contract, whether in name or fact. And no principal investigator will be a full-time student.

Exceptions to these rules may be made in cases in which students are encouraged to apply individually for small research grants that are consistent with and contribute to their field of study and their dissertation work, and, in certain programs, in which students in a terminal degree status are obliged, as a part of their degree program, to teach as de facto faculty members. (Note: Faculty from the School of Nursing and Health Sciences and from the Physical Therapy program are permitted to pursue doctoral degrees in their home program/school.)

Withdrawals
Withdrawals, either from individual courses or from a graduate program, should be processed through the office of the Dean of the School or College of the student's program. Students who wish to officially withdraw from joint or dual degree programs should consult the office of the Dean of the School of College for both disciplines. The date of withdrawal is that on which the student notifies the office of the Dean or the date of receipt of a letter requesting withdrawal. No withdrawal from the University is official until the student has consulted with the Dean of his/her school or college and has completed the necessary forms.

Students wishing to officially withdraw from the University of Miami must provide the Office of the Registrar notification of their intent to withdraw. Initial notification may be made in person, in writing, by fax, or by telephone. This notification will be recorded and used for notification purposes for the Federal Government. Repayment of any federal funds will be based on the date of notification.

Students must also follow the required process as set forth by their school/college for withdrawing from courses. This process often requires that a signature from a Dean or the Dean's representative be obtained on a Change of Course form. In some cases, students can complete the Change of Course form (hard copy or through the CaneLink system) without an approving signature. Change of Course forms must be submitted to the Office of the Registrar for final processing/review.
To officially withdraw from the MBA Program or Master of Science in Professional Management program, students must inform the Office of Graduate Business Programs in writing prior to the beginning of a course/term. Tuition will be refunded on a prorated basis based on the number of class meetings attended. No tuition refund will be granted when class attendance has exceeded 50% of class meetings. For further information contact: Office of Graduate Business Programs, 305-284-2510, mba@miami.edu.

**Military Withdrawal**

Tuition refunds of 100% are granted to students who withdraw due to military service, provided they do not receive credit hour for the course (see below under “Credit Hour for Courses After the 12th Week of the Semester”).

If you receive federal financial aid and withdraw before you complete 60% of the semester, a pro rate calculation will determine the amount of financial aid you have earned. It is based on the amount of time you were enrolled. This calculation is independent of any charges incurred at the university.

**Credit Hour for Courses After the 12th Week of the Semester**

The following statement of policy was adopted by action of the Academic Deans' Council April 14, 1967:

1. On recommendation of the Dean of the school or college, students who withdraw after the 12th week of the semester because of official orders to active duty with the Armed Forces of the United States may be awarded credit hour in any course in which they have achieved a C or better up to the time of withdrawal. Instructors must certify that the student had achieved satisfactory accomplishment on the basis of previous work in the course by awarding an appropriate grade. Accomplishment of less than C should be entered on the permanent record as a withdrawal without prejudice (W).

2. Credit hour granted for a course under this policy should count toward graduation.

3. There should be no refund of tuition for courses for which credit hour has been granted. Refunds of courses not awarded credit hour should be on the same basis as complete withdrawals for military service.

4. The above recommendations are procedures for determining the awarding of credit hour and do not release the student from the usual withdrawal procedures.

Veterans and children of deceased or totally disabled veterans attending the University as students under the government’s educational benefits bills must also clear their withdrawal with the main campus Veterans Affairs Officials in the Office of the Registrar who can be contacted at:

Phone: 305-284-8682 or
Email: veterans@miami.edu

**Leave of Absence**

Leave may be obtained by petition of the Program Director followed by the approval of the Dean of the Graduate School. Leave of Absence officially stops the time to completion clock. The Petition for Leave of Absence form may be found on the Graduate School website (http://grad.miami.edu).

**Grades and Credit Hours**

The same letter grades are used for graduate and undergraduate students, but with somewhat different meaning.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent accomplishment</td>
</tr>
<tr>
<td>B</td>
<td>Good accomplishment</td>
</tr>
<tr>
<td>C</td>
<td>Fair, but below that expected of graduate students (C- is the lowest passing grade. Some programs may require higher standards.).</td>
</tr>
<tr>
<td>S</td>
<td>Symbol used for acceptable (U-unacceptable) thesis, dissertation, practicum, and internship credit hour. It may be used for regular courses under special circumstances with the prior approval of the instructor, department chairman, and the Dean of the Graduate School. The Graduate School considers a grade of “S” to indicate a minimum of a 3.0 GPA in a graduate course if a student has taken no prior coursework on the graduate level. A grade of “S” reflects that a student is in good academic standing.</td>
</tr>
<tr>
<td>D</td>
<td>Poor (not acceptable for credit hour toward the advanced degree)</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
</tr>
<tr>
<td>W</td>
<td>Course dropped prior to the last day for withdrawing from classes as published in the official calendar of the university. Courses dropped after last date must have approval of Dean of the Graduate School. Credit hour can be earned only by successful repetition of the course.</td>
</tr>
<tr>
<td>I</td>
<td>Incomplete work in passing status with the instructor’s permission to complete the course. (Not to be used for thesis or dissertation credit hours). The “I” should be changed to a letter grade within one (1) calendar year after it is given, unless the Academic Dean of the student’s primary school or college and the Dean of the Graduate School approve the delay. If the “I” is not changed within one year, credit hour can be earned only by successful repetition of the course. (Note: Fellowships and financial aid may be withdrawn if there is an excess accumulation of “I”s on a student’s transcript).</td>
</tr>
</tbody>
</table>
NG Symbol assigned by Enrollment Services indicating that the instructor has not yet reported the student’s grade. For a student to receive credit hour for the course, the instructor must report a passing grade prior to the student’s graduation.¹

¹ Faculty Senate Legislation #85005(B)

An average of B (3.0) is required for a graduate degree, and no “D” credit hour may be counted toward the degree. All work leading to the graduate degree and taken as a graduate student will be counted in computing the quality point average, including courses graded “D”.

No transferred credit hours are calculated into the University of Miami G.P.A.

**Award of Academic Merit**

Students who obtain a 3.8 G.P.A. or better will receive an Award of Academic Merit from the Graduate School. The Award is posted on the transcript.

Quality points are awarded as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.70</td>
</tr>
<tr>
<td>B+</td>
<td>3.30</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.70</td>
</tr>
<tr>
<td>C+</td>
<td>2.30</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.70</td>
</tr>
<tr>
<td>D+</td>
<td>1.30</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
</tbody>
</table>

The quality point average is then determined by dividing the total of quality points earned by the total of credit hours attempted. The symbols “S”, “W”, and “I” are not counted as credit hour attempted.

**Graduate Repeat Rule**

A student may repeat a course in which a failing grade was earned, but the repetition of the course will not eliminate the previous grade from the record. A course may be repeated only once unless written authorization is provided by the Dean of the Graduate School. All grades are included in the computation of the quality point average. If a course in which an unsatisfactory grade (as determined by the program advisor) was earned is repeated and the repeat grade is a “C-” or higher, the number of credit hours required for graduation will be increased by the number of credit hours repeated.

**Graduate School of Business Repeat Rule**

Graduate students in the Miami Herbert Business School who fall below the 3.0 GPA may be placed on academic probation. Within one semester after their GPA falling below 3.0, Master’s students wishing to repeat a course may petition their program director to do so. If the petition is approved by the Graduate Program Director, the grade obtained in their second attempt will replace the original grade for purposes of calculating their GPA for clearance for graduation only. Authorization to repeat a course is limited to courses in which an unsatisfactory grade was earned (as determined by the Graduate Program Director). Additionally, a course may be repeated only once and students may not repeat more than two courses. The student’s transcripts will continue to show all attempts and the GPA computation will include all grades earned for purposes other than computing the GPA for clearance for graduation. If a course in which an unsatisfactory grade of lower than a B- was earned is repeated and the repeat grade is “C-” or higher, the number of credits required for graduation will be increased by the number of credits repeated. Registrations which involve repeating a course in which a grade of “A” or “B” has already been earned may not earn quality points or credit hours, nor count as credits attempted.

**Graduate Student Grade Appeal Process**

The Academic community is unanimous in its position that the grade an instructor assigns to a student is the instructor’s responsibility and privilege. Any effort to alter this would be a violation of academic freedom. It is the instructor’s responsibility to establish criteria for assigning grades. Grounds for appeal of how a grade was assigned are:

1. Award of a grade based on the student’s race, religion, color, sex, age, disability, sexual orientation, gender identity or expression, veteran status, national origin or any other characteristic set forth in the University’s Non-Discrimination Policy;
2. Award of a grade based on conduct that violates the University’s anti-harassment or anti-retaliation policies; or
3. Failure to adhere to the grading criteria established for the course;
4. Violations of other policies/procedures for grading that are clearly defined in the Faculty Manual.
The Faculty Senate Student Affairs Committee (FSSAC) has responsibility for graduate student grade appeals, except for MD and JD programs. To facilitate grade appeals from graduate students, the FSSAC will have a non-voting ex officio faculty representative of the Graduate School. The FSSAC reviews graduate student grade appeals that have not been resolved at the department, school/college, or Graduate School levels. The FSSAC reserves the right to not hear appeals that require extensive knowledge of specialized or technical issues, including but not limited to, dissertations, theses, qualifying exams, recitals, and clinical/research assignments. The Graduate School has responsibility for all other graduate academic appeals.

I. Time Constraints
The appeal process must be initiated before the completion of the following semester (i.e., Fall or Spring) of the assignment of the grade resulting in appeal and prior to the completion of all degree requirements or withdrawal from the University. Each level of appeal should aim to review the appeal and deliver a judgement within a 20 academic day period from the date the appeal is submitted. The entire process should be completed within one calendar year. Exceptions to this deadline may be permitted by the FSSAC for good cause.

Timeline Goals:
1. Student Appeal to the Graduate School Level must follow completion of all internal (i.e., home School or College) grade resolution and/or appeals processes, and then has 20 academic days from the completion date of the internal process to contact the Academic Ombudsperson and/or directly to the Dean of the Graduate School regarding an appeal.
2. Academic Ombudsperson has 20 academic days to review, provide a preliminary assessment to the student about whether it is reviewable by FSSAC, after receiving information from the student. The student may appeal directly to the Dean of the Graduate School (step 3).
3. The Dean of the Graduate School has 20 academic days to review, decide whether to forward to FSSAC, after receiving all information from the student.
4. FSSAC has 20 academic days to review/hear appeal, and to submit recommendation to Dean of Graduate School.
5. Dean of the Graduate School has 20 academic days to review recommendation of the FSSAC, and to inform student of final decision.

II. Order of the Appeal
Attempts to resolve issues regarding a grade must be addressed to the following entities or persons in this order:
1. The faculty member of administrator responsible for the course, program or activity.
2. The department/program chair/director and/or administrative superior(s) of the faculty member or administrator.
3. The Dean or designee of the school or college offering the course, program, or activity. If the school, college or administrative unit has a committee constituted to hear graduate student appeals, that committee must be consulted before proceeding to the next level, i.e., for advice from the Ombudsperson or appeal to the Graduate School.
4. The student is to provide the materials listed in Section IV below to the Academic Ombudsperson who will review the merits of the potential appeal, and attempt to resolve the matter. The Academic Ombudsperson, as part of his/her review should give the student a preliminary assessment as to whether the matter, as presented by the student at that time, is reviewable by FSSAC. After, and only if, all other steps are taken, the Ombudsperson may refer the matter to the Dean of the Graduate School.
5. Appeal to the Graduate School Level. If the student has exhausted all levels of appeals in their School/College and has consulted with the Ombudsperson, then the student is to provide the materials listed in Section IV below to the Dean of the Graduate School, who will review the merits of the appeal and attempt to resolve the matter. As part of his/her review should give the student a preliminary assessment as to whether the matter, as presented by the student at that time, is reviewable by FSSAC.
6. After, and only if, all the other steps are taken the Dean of the Graduate School (or designee) will decide whether or not to refer the appeal to the FSSAC. If, and only if, the Dean of the Graduate School (or designee) does so, the FSSAC shall have jurisdiction to review a grade-related appeal. As part of the request, the Dean of the Graduate School shall forward to the FSSAC, via the Faculty Senate office, the materials submitted by the student as indicated in Section IV below.

III. Faculty Senate Student Affairs Committee (FSSAC) Appeals Process
The FSSAC will review the student’s written appeal (see Section IV below), confer with the appropriate faculty, administrators, and others as it deems necessary in making its recommendation to the Dean of the Graduate School. Students may present written materials to the FSSAC, or request an additional in-person meeting with the FSSAC. The FSSAC may request an interview with the student, additional information, or access to records, interviews with relevant faculty or administrators, or additional information or access to records kept by faculty or administrators.

The FSSAC will communicate its findings and recommendations to the Dean of the Graduate School. Copies shall be provided to the Faculty Senate. The final decision with respect to the grade-related appeal will be made by the Dean of the Graduate School and communicated to the student in writing. Copies shall be provided to the Faculty Senate Office and to the Chair of the FSSAC.

IV. Materials for an Appeal
When bringing an appeal, the student must state in writing issues they wish to have considered. The appeal must include:

1. An appeal letter clearly stating the circumstances of the grade as seen by the student, and offering reasons for granting the appeal.
2. The appeal letter must indicate if the student wishes to make a personal appearance and, if so, the reasons why the appearance is necessary.
3. Documents of support (e.g., examinations, term papers, syllabi, or medical documentation of illness) that the student wishes to have examined.

4. All written decisions made at earlier levels of the appeal by individual faculty/administrators, departments/program/administrative units, college or school committees, and/or deans which are available to the student or in the student’s possession.

V. Other Notes and Special Considerations

If the appeal is based on or related to a charge made by the student of discrimination on the basis of race, color, national origin, religion, sex, sexual orientation, age or handicap, a representative of the appropriate University office will be contacted and, as appropriate, consulted in the appeal process.

If the appeal is based on or related to a disability:

- The ADA Coordinating Committee shall serve in an advisory capacity.
- The student is to include in the materials provided the appropriate forms from the Office of Disability Services documenting
  - An evaluation of the disability
  - Recommendations related to the disability

*The FSSAC does not consider appeals based upon the grant, denial or modification of an accommodation by the Office of Disability Services. Instead, any such appeal is as prescribed by the Office of Disability Services Grievance Procedure only.*

Levels of Graduate Study

Graduate study implies the need for a minimum of formal courses and a maximum of independent work under faculty supervision. Coursework, in itself, is not necessarily a determinant of graduate progress and achievement. The appropriate determinants are the ability of the qualified student to master the various qualifying and comprehensive examinations that a program requires of the student. All work taken by a graduate student in the major area or area of concentration shall be at the graduate level (600 or above). With the permission of the program of major concentration a student may take elective credit hours (not prerequisite to the major) at any level provided the following limits are observed:

<table>
<thead>
<tr>
<th>Total Graduate Course Credit Hours</th>
<th>Maximum Course Credit Hours Below 600 Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>30</td>
<td>3</td>
</tr>
<tr>
<td>31 or above</td>
<td>6</td>
</tr>
</tbody>
</table>

Approval for students enrolled in a graduate degree program to take undergraduate credit hours can be made only after a minimum of 12 credit hours are completed. Undergraduate credit may not count toward the graduate degree requirements. Undergraduate credit may not be awarded retroactively, nor are credit hours accepted from another institution.

RA, TA, GA Hourly Guidelines

To receive a stipend an RA, TA, GA must be a full-time student.

Graduate students with appointments as RAs, TAs or GAs will be expected to work 20 hours per week with the exception of efforts directly required for dissertation research.

International students may work on campus provided the student is maintaining F1 status and does not work more than a total of 20 hours per week (including any off campus work the student may have been authorized to perform) while school is in session. Questions regarding work for international students should be directed to International Student and Scholar Services (http://www.miami.edu/isss/).

Graduate students with Assistantships and Fellowships will be classified with the following designations. *(FE) Fellows, *(RA) Research Assistant, *(TA) Teaching Assistant, *(GA) Graduate Assistant, *(TR) Trainee. *Please contact the Graduate School for specific codes.*

Definitions

FE (Fellow)
Responsibilities do not include the provision of direct services to the University and require internal/external fellowship support.

RA (Research Assistant)
Responsibilities are mainly conducting research and/or assisting with research projects.

TA (Teaching Assistant)
Responsibilities are mainly teaching and/or assisting in the area of teaching.

GA (Graduate Assistant)
Responsibilities are mainly in professional support of University operations and programs. Graduate students should not be hired to perform clerical duties.
Participation in graduation for students in all graduate programs is contingent upon the following:

1. The student must have met the requirements for his or her program.
2. The student must have a minimum of 3.00 cumulative grade point average; all students receiving master's degrees must have completed a minimum of 30 credit hours; all Ph.D., D.M.A., and Ed.D. students must have completed a minimum of 60 credit hours.
3. The student (Ph.D., D.M.A., and Ed.D. candidates) must be admitted to candidacy one semester prior to graduation.
4. The student may not have any outstanding debt including, but not limited to, tuition, fines, and fees. Tuition for the last semester of study must be paid in full by the beginning of the final semester.
5. The student must complete an electronic thesis or dissertation (ETD) according to the Graduate School's requirements and submit the final three forms, online surveys and agreements (if required) in the semester the student wishes to graduate. All students are required to adhere to the following deadlines (and the requirements associated with these deadlines) posted on the ETD website.

Policy on Outside Employment for RA/TA/GA

A graduate student must have prior approval from the chair or advisor to work outside the department, since such activities might impede progress toward his/her degree. Any question or concern should be discussed with the Dean of the Graduate School.

1. A graduate student is allowed to supplement his/her stipend by tutoring undergraduate students in courses in which he/she has no direct responsibility at the time.
2. A graduate student who is teaching a class or lab of a multi-section course using a common syllabus and common exams may not tutor any student in any section of that course.
3. A graduate student, like any other member of the teaching faculty, may offer review sessions for his or her students to which he or she may invite students from other sections of the same course. The graduate student arranging such sessions may not under any circumstances take money from the students in attendance.
4. A graduate student may use his or her office for tutoring or may ask departmental permission to use a classroom or other appropriate university facility.
5. The graduate advisor or department chair may require a graduate student to limit his or her outside employment or tutoring activity if, in the view of the department, such activity is impeding the graduate student’s academic progress or keeping him or her from fulfilling responsibilities within the department.
6. International students should clear their work instructions with International Student and Scholar Services. Questions regarding work for international students should be directed to International Student and Scholar Services (http://www.miami.edu/isss/), Phone: 305-284-2928, E-mail: isss@miami.edu.

Requirements for Teaching Assistants

1. Graduate teaching assistants who are the instructors of record and responsible for assigning grades in a course must have a master's in the teaching discipline or 18 graduate credit hours in the discipline.
2. Graduate teaching assistants must be directly supervised by a faculty member in the teaching discipline, must attend regular in-service training provided by the Graduate School and/or provided by the specific graduate program, and must be reviewed by the supervising faculty member at least once a semester.
3. Graduate Teaching Assistants who have previous teaching experience and indication of competency may be exempted from Teaching Assistant training by the Graduate Program Director in the discipline. The Graduate Program Director must then notify the Graduate School of any exemptions that are granted.

Graduation

It is the responsibility of the student to apply for graduation through CaneLink during the student's final semester before the date indicated on the Academic Calendar (https://registrar.miami.edu/dates-and-deadlines/academic-calendars/) and the Schedule of Classes. These dates are published here (http://www.miami.edu/index.php/registrar/calendar/). Students who previously applied for graduation but did not receive the degree must repeat the application procedure. Deadlines for the commencement program are firm. Students may walk in the commencement ceremony, but the program will indicate “in progress” if information is missing. Students will be degree candidates until they have been cleared for degree conferral by the Graduate School.

Commencement ceremonies are held in May and December only. Those completing degree requirements during the fall, spring or summer sessions may, if they wish, participate in the commencement ceremonies of the previous or following May or December. Doctoral students participating in the hooding ceremony and master’s students marching in the commencement ceremony must have the approval of the graduate advisor, director, or appropriate person in the program to participate in the ceremonies.

Participation in graduation for students in all graduate programs is contingent upon the following:

1. The student must have met the requirements for his or her program.
2. The student must have a minimum of 3.00 cumulative grade point average; all students receiving master’s degrees must have completed a minimum of 30 credit hours; all Ph.D., D.M.A., and Ed.D. students must have completed a minimum of 60 credit hours.
3. The student (Ph.D., D.M.A., and Ed.D. candidates) must be admitted to candidacy one semester prior to graduation.
4. The student may not have any outstanding debt including, but not limited to, tuition, fines, and fees. Tuition for the last semester of study must be paid in full by the beginning of the final semester.
5. The student must complete an electronic thesis or dissertation (ETD) according to the Graduate School’s requirements and submit the final three forms, online surveys and agreements (if required) in the semester the student wishes to graduate. All students are required to adhere to the following deadlines (and the requirements associated with these deadlines) posted on the ETD website (https://grad.miami.edu/electronic-thesis-
Clearance for Degree Conferral

For the Graduate School to clear a student for graduation:

1. All original documents (official transcripts from previous degrees, GRE scores, etc.) must be on record in the Graduate School (except for MBA students).
2. The Admission to Candidacy form must have been completed by the program at least one semester before graduation. The Graduate School does not require application to candidacy for master's, D.P.T., nor D.N.P. degrees.
3. Student must defend the dissertation, doctoral essay, lecture recital essay, or thesis by the deadline specified in the Academic Calendar for the semester the student wishes to graduate.
4. Student must upload one Dissertation Editor-approved PDF of the dissertation, doctoral essay, lecture recital essay, or thesis conforming in style to the standards set by the Graduate School to the ETD database and submit the final three forms to the Graduate School in the semester the student wishes to graduate. All students are required to adhere to the following deadlines (and the requirements associated with these deadlines) posted on the ETD website: 1) Deadline to defend the thesis, dissertation, or doctoral/lecture recital essay; 2) Deadline to submit the full draft of the thesis, dissertation, or doctoral/lecture recital essay draft for formatting review by the Dissertation Editor; 3) Deadline to produce the final PDF; and 4) Deadline for completion.

Class Attendance and Absences

Regular and punctual class attendance is expected of all graduate students. It is the student's responsibility to know the instructor's policies regarding examinations, penalties for absences, and late or missed work.

V.A. students will be provided a grade report at the end of each semester period. A copy of the report will be placed in the student's permanent file maintained by the Veteran Affairs Office. Because of the far-reaching effects of these revisions in the V.A. educational benefits program, it is suggested that you exercise care and judgment in your program planning and in the selection of your courses.

Student Responsibility

Standards of study and conduct in the Graduate School are set and maintained, not by fiat of the Graduate School, but rather by the faculty who determine the standards. The Graduate School through its Council sets no course requirements for a degree. It does set certain general residence, grade and examination standards. Fundamentally the Graduate School devolves responsibility upon the student and the appointed committee. Within this broad responsibility the recommendation for the degree rests with the committee.

All graduate students at the University of Miami are subject to the general standards and requirements of the University and its various departments in regard to attendance, examinations, payment of fees, and conduct, as well as to the specific requirements of the Graduate School. The graduate student is expected to assume the initiative in completing all requirements at the time specified.

To preserve its ideals of scholarship, conduct, and character, the Graduate School reserves the right and the student by his/her registration concedes the right to require the withdrawal of any student for any reason deemed sufficient by the Graduate School at any time.

It is the responsibility of the student to be informed concerning all regulations and procedures required. In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that he/she was not informed of it by an advisor or other authority. The student should become familiar with the Bulletin, including

1. The section presenting the requirements for the degree to be undertaken;
2. The offerings and requirements of the major department;
3. The Graduate Student Honor Code.

After the applicant has been admitted to the Graduate School but before the first registration, the student should consult the School or College and program in which the major work will be done concerning course requirements, deficiencies, if any, the planning of a program or special regulations. Programs may have additional degree requirements that are not listed in this Bulletin. All registrations require the signature of the Dean of the School or College (or his/her representative) in which the degree is to be awarded.

Only a Graduate Program, with approval of the Dean of the Graduate School and/or the Graduate Council, may waive requirements stated in this Bulletin.
Graduate Student Code of Ethics

Graduate students agree to abide by the Graduate Student Honor Code.

The University of Miami expects all graduate students to adhere to the highest standards of ethics and academic integrity. All forms of academic fraud are strictly prohibited. These include, but are not limited to, plagiarism, cheating, collusion, falsification, violation of professional ethics or misrepresentation of research data. Students certify that all work (whether an examination, dissertation, thesis, research paper, research project, form of creative expression, experimental data, or any other academic undertaking) submitted for evaluation, presentation, or publication meets these standards. Additionally, graduate students are expected to respect and appreciate the diversity of the community and to respect the rights of others, be they property, privacy, opinion, or expression. Any student found to be in violation of these standards is subject to disciplinary actions by the student’s program and/or the Graduate School through the process described in the Graduate Student Honor Code. All graduate students are bound by the rules and regulations of the University of Miami that apply to them.

Graduate School Grievance Guidelines

Introduction

These University of Miami Graduate Grievance Procedures provide an opportunity for the resolution of disputes involving graduate students in a fair and collegial manner. These Graduate Student Grievance Procedures supersede all prior such procedures in effect or formerly utilized at the graduate level. They do not supplant UM Students Rights & Responsibilities or any other published policy or procedure relating to graduate students.

Purview of the Guidelines

The formal grievance process described herein is intended for cases not involving grades or matters covered by the Honor Code, which have not been resolved at the department or program level, and it is available only after a final determination within the relevant School or College has been reached. Students are encouraged to seek assistance from the University Ombudsperson for possible resolution before initiating the formal graduate grievance process. The procedures set forth here are applicable to any of the following types of grievances by graduate students who are enrolled in any graduate program at the University of Miami, except exclusively in the M.D. and J.D. programs:

1. grievances alleging improper dismissal or suspension from a graduate program;
2. grievances alleging the improper withholding or termination of financial support of any kind;
3. grievances alleging any other improper treatment, either substantive or procedural, of a graduate student by a faculty member, department or program, or university agency or administrator except:
   a. allegations of improper evaluation of the quality and/or quantity of academic work (see UM Student Rights & Responsibilities);
   b. allegations of unfair recommendation for employment or further graduate study;
   c. allegations of discriminatory treatment arising from the student complainant’s age, race, gender, sexual preference, handicap, national origin, or religion. (Such allegations ordinarily are handled by the Office of Equality Administration);
   d. grade appeals (certain appeals are reviewed by the Faculty Senate Student Affairs Committee, FSSAC; see UM FSSAC Standard Grade Appeals Process- Graduate Students).

Constitution of the Committee and Grievance Panel

The Graduate Council Grievance Committee (GCGC) is a standing committee comprised of the Schools’ and Colleges’ alternate representatives to the Graduate Council. Grievances as understood herein shall be heard by ad hoc appeals panels, constituted from time to time by the Dean of the Graduate School to review individual graduate grievances. The grievance review panel (GRP) shall consist of five disinterested members: four faculty members of the GCGC and one graduate student appointed by the executive board of the Graduate Student Association. Notice of the constitution of the GRP shall be given by the Office of the Dean of the Graduate School in writing to all parties to the grievance within ten (10) days after the grievance review request is properly filed.

Any party to the grievance may challenge the disinterestedness of a GRP member in writing to the Dean of the Graduate School within five (5) days after notification of the appointment. The challenge must specify reasons that would prevent the committee member or graduate student from making an unbiased recommendation with respect to the grievance. If such a challenge is determined to be valid by the Graduate Dean, a substitute appointment shall be made and the process will resume accordingly.

Procedure and Time Limits for Filing a Grievance

After a final determination has been made in the relevant School or College (or by the head of the relevant administrative office in the event of a grievance against a university agency), a student who believes he or she has grounds for appeal within the purview of these guidelines may file a written grievance review request with the Office of the Dean of the Graduate School. The request shall describe the student’s allegations in a clear and concise fashion and shall clearly identify the individual(s), program(s), department, School or College, and/or University agency or administrator against whom the grievance is brought. The student’s written grievance review request shall be filed within thirty (30) days of the final determination. No grievance review request nor any other appeal of any kind will be granted after this time limit has expired unless a written extension of time is granted by the Dean of the Graduate School based on a written request from the grievant stating good cause.
Definitions and Assumptions

Burden of Persuasion
The burden of persuasion is on the grievant.

Final Determination
This grievance process is available only after a final determination within the relevant School or College has been reached. This provision is intended to require the grievant to exhaust the remedies available within the relevant School or College before appealing to the Graduate Dean. In the case of a student in an interdisciplinary program who does not yet have a chair and/or committee assembled, the Dean of the Graduate School shall make a final determination in the student’s case subject thereafter to the appeal contemplated by this policy. An appeal of the decision of the Dean of the Graduate School follows this same procedure, except that the GRP shall be constituted by the Office of the Provost from the pool of GCGC members. Written notice of the constitution of the GRP in the case of a student in an interdisciplinary program without a chair or committee, shall be given by the Office of the Provost to all parties to the grievance within ten (10) days after the grievance review request is properly filed. All other deadlines, requirements, procedures, and the hearing format remain the same.

Originals
Wherever possible, the party in possession of an original document in support of or rebuttal to or at issue in the grievance shall provide it to the GRP within the time frames set out in the Hearing Materials and Preparation Deadlines.

Party
A party is the student grievant or the individual, program, department, School or College, or University agency or administrator against whom the student brings his or her grievance.

Time Limits
All time limits shall be calculated based on working days of the Fall and Spring Semesters, excluding reading and exam periods and University holidays. Grievances originally filed after the end of the Spring Semester will be heard at the beginning of the following Fall Semester. Any stated time limit herein may be extended with the written consent of the grievant and the Dean of the Graduate School.

Written
Any document to which these guidelines refer as written signifies electronic or paper (hard) copy. Email messages and digital or other electronic versions meet the requirement that a form or notice be provided in writing.

Deadlines for Hearing Materials, Preparation, and Witness Identification
All materials to be considered for review by the members of the GRP must be submitted in writing to the Office of the Dean of the Graduate School at least fourteen (14) days before the scheduled date of the hearing, at which time such materials will be distributed to all parties to the grievance and to the members of the GRP. Thereafter, to the extent that any of the parties wishes to have additional materials considered by the GRP such materials must be received by the Executive Assistant to the Dean of the Graduate School no later than seven (7) days before the scheduled date of the hearing, at which time all such additional written materials will be distributed to the parties as well as to the members of the GRP.

The name of any witness to be called by any party at the hearing shall be provided in writing to the Office of the Graduate Dean no less than five (5) days before the scheduled date of the hearing, at which time the names will be distributed to the parties and members of the GRP.

Hearing
The grievance review hearing is chaired by a designated member of the GRP. The hearing is staffed by the non-voting Associate Dean of the Graduate School and the non-voting Executive Assistant of the Dean of the Graduate School, who will audio-record the hearing to assist the panel and Dean in rendering their decision. The audio-recording will be kept at the Graduate School for one year following the conclusion of the grievance. The hearing will proceed as follows:

1. GRP chair’s introduction, summary of issues, and process overview.
2. Student’s presentation of issues (15 minutes maximum).
3. University representative’s presentation of issues (15 minutes maximum).
4. Optional: Presentation(s) by witnesses (limited to 3 per side and a maximum of 15 minutes total per side).
5. Questions by members of the GRP.
6. All presenters and witnesses are excused.
7. Deliberation by GRP.

Presentation of the issues should be concise and relevant. Undoubtedly the dispute is somewhat complex or it would not have reached this stage. Points of dispute or ambiguity may be summarized or illustrated by anecdote at the hearing. Experience suggests, however, that the best approach is to minimize formal presentations and allow the GRP members maximum time for questions.
**GRP Decision and Authority**

No additional substantive information may be submitted by any party following the hearing, unless requested by the GRP. The GRP may but need not seek additional information from other sources during its deliberations, which will be conducted in closed session. Following its deliberations, and within ten (10) days of the date of the grievance review hearing, the GRP will make its confidential advisory recommendation to the Dean of the Graduate School [Office of the Provost in the event of a student in an interdisciplinary program who does not yet have a chair or committee]. The subsequent decision by the Dean of the Graduate School [Office of the Provost], which shall be rendered within ten (10) days of the GRP’s recommendation, is final.

Note: The above guidelines pertain only to matters which do not involve representation by an attorney. If an attorney is involved in the grievance, the Office of Legal Counsel at the University should be contacted.

**Modifications**

These procedures may be modified or withdrawn with or without notice.

**Research Policies**

**University of Miami Policy on Inventions, Intellectual Property, and Technology Transfer**

**I. GENERAL**

**1.1 General**

Although the University does not undertake research or developmental work principally for the purposes of commercialization, patentable inventions and other works with commercial application may result from activities carried out by Applicable Personnel. The University has an obligation to appropriately develop innovations to both benefit the public and generate resources that further support the academic mission of the University. The purpose of this policy is to outline rights and responsibilities regarding inventions, intellectual property and technology transfer and to provide guidelines for the protection, management and commercial application of innovations.

**1.2 The policy is applicable to:**

1. All full- and part-time faculty, staff and employees, students, fellows and non-employees who use University funds, facilities or other resources, or participate in University-administered research, including visiting faculty and industrial personnel, regardless of obligations to other companies or institutions;
2. Innovations conceived, created, made or disclosed on or after the Effective Date of this policy, and to those prior Innovations disclosed to the Office of Technology Transfer (OTT) as agreed by Applicable Personnel.

**1.3 Responsible Official: The Provost is responsible for administration of this policy.**

**Policy Review:** The Technology Transfer Policy Committee (TTPC) is responsible for review of proposed changes to the Faculty Manual in relation to this policy.

**II. DEFINITIONS and ABBREVIATIONS**

For the purposes of this policy, the following definitions shall apply.

Applicable Personnel: all full- and part-time faculty, staff and employees, students, fellows and non-employees who use University funds, facilities or other resources, or participate in University-administered research, including visiting faculty and industrial personnel, regardless of obligations to other companies or institutions.

Commercialization Costs: costs incurred by the University for evaluating, protecting, defending, enforcing, marketing, negotiating, licensing, assigning, transferring and otherwise commercializing Innovations and/or University owned Intellectual Property.

Courseware: course syllabi, assignments, assessments, and/or other materials that are first created and made available to students as part of the educational curriculum at the University.

Creations: copyrightable works created in the course of Applicable Personnel’s scholarly and artistic pursuits, including literary works, textbooks, other scholarly books, journal articles, novels, poems, plays, musical compositions and other artistic works to disseminate for scholarly study or artistic expression; a student work created using student dedicated resources, as part of the educational curriculum at the University, including Capstone projects, papers, dissertations and articles.
Gross Revenue: the amount received by the University under a license or assignment of the University's rights in Innovations, including option or license fees, milestone payments, royalties and proceeds from sale of equity.

Incidental Use: use of none of the University's resources other than its library, limited secretarial or administrative resources, the University's computers and/or Applicable Personnel's office space. Use of University laboratories, clinics and equipment may also be construed as an incidental use in accordance with written policies jointly developed by a school or college and the TTPC.

Innovations: patentable or un-patentable inventions, discoveries, processes, compositions, research tools, data, ideas, databases, know-how, copyrightable works that are not scholarly or artistic Creations and tangible property, including biological organisms, engineering prototypes, drawings, and software created, conceived or made by Applicable Personnel within their normal duties (including clinical duties), course of studies, field of research or scholarly expertise or making more than Incidental Use of University's resources.

Intellectual Property (IP): patent applications and patents, copyright registrations and renewals, trade secrets and trademarks. IP may be categorized as Creations or Innovations as detailed in Section III.

Net Revenue: Gross Revenue, less all Commercialization Costs and a 15% deduction for administration of OTT.

CDA: Confidential Disclosure Agreement
IP: Intellectual Property
MTA: Material Transfer Agreement
OTT: Office of Technology Transfer
TTPC: Technology Transfer Policy Committee

III. OWNERSHIP

3.1 Consistent with long-standing academic tradition, Creations are owned by the author(s), unless otherwise agreed in a contract between the University and Applicable Personnel, including:

1. the University has expressly commissioned the Applicable Personnel in writing to produce, or participate in production of, the work with University's funds for a specific University purpose;
2. the University has expressly assigned the Applicable Personnel in writing to produce or participate in the production of the work; or
3. the work is otherwise subject to contractual obligations.

3.2 Creations meeting one of the above criteria (a-c) will be treated as Innovations and shall be owned by the University.

3.3 Innovations are owned by the University; revenues derived from commercialization of Innovations will be shared with the Applicable Personnel as detailed in Section VI.

1. Applicable Personnel are required to assign and hereby do assign to the University all Innovations. This assignment includes the right for the University to claim priority and recover for third party infringement or misappropriation.
2. This assignment and abiding by this policy are conditions of employment and continued employment, access to University's resources and/or receipt of funding by the University.
3. This policy governs in the event of any inconsistent obligation to which Applicable Personnel may agree, including in any consulting agreement.

3.4 Intellectual property made or developed with not more than Incidental Use of University resources and not within normal duties (including clinical duties), course of studies, field of research and scholarly expertise of Applicable Personnel will belong to the Applicable Personnel. If Applicable Personnel are uncertain about the disposition of rights, they should make full disclosure of the potential Innovation or Creation to the OTT for determination of rights, as further described in Section 5.2.

3.5 Criteria for ownership of Courseware developed by Applicable Personnel follow the guidelines for Creations and Innovations.

IV. ADMINISTRATION OF THE POLICY

4.1
The Provost is responsible for oversight and administration of this policy. The Director of the OTT reports to the Provost or Provost's designee.

4.2

The TTPC is a committee consisting of seven voting faculty members, including the Provost or Provost's designee, the Vice Provost for Research and 5 additional faculty members, chosen by the Provost in consultation with the Faculty Senate chair. The Director of OTT and a member of the Office of General Counsel will serve as advisors to the TTPC. The five faculty members will serve two-year terms, which may be renewed.

1. The TTPC is charged with review of proposed changes to the Faculty Manual in relation to this policy;
2. TTPC proposed changes must be approved by the Provost and subsequently undergo the standard procedure for changes to the Faculty Manual, with final approval by the President and the Board of Trustees; and
3. The TTPC will meet at least annually and otherwise as necessary and will be chaired by the Provost or Provost's designee.

4.3

The OTT:

1. Evaluates Disclosure Forms and determines the commercial potential and the most appropriate mechanism, if any, for protecting each Innovation;
2. Works with Applicable Personnel to identify and engage potential commercial partners for their Innovations;
3. Undertakes negotiation and execution of agreements pertaining to Innovations, including licenses, data transfers, assignments, Material Transfer Agreements (MTA) that cover transmission of Innovations (outbound MTA), as well as Confidential Disclosure Agreements (CDA);
4. Receives Gross Revenue and distributes Net Revenue received from commercialization of Innovations; and
5. Interacts with University's research, compliance and finance units, including the Office of the Vice Provost for Research, Office of General Counsel, Office of Research Administration, Business Services, University Advancement, University Compliance Services and other units to ensure appropriate conduct of business and protection of the University's interests and recommend contractual language related to all Innovations.

4.4

Appeal Process. Disagreements with decisions made pursuant to this policy should be addressed to the Provost for final resolution.

4.5

Failure by Applicable Personnel to comply with the requirements of this policy may constitute unprofessional conduct and may lead to penalties including:

1. The individual being deemed ineligible to hold principal investigator status on sponsored projects;
2. The individual being deemed ineligible to enter into technology transfer agreements; and
3. In the case of University Faculty, referral to the Senate's Committee on Professional Conduct for such other sanctions as it may recommend to the President and/or the Senate.

V. DISCLOSURE, REVIEW AND PROTECTION OF INNOVATIONS

5.1

Disclosure

1. Applicable Personnel are required to make timely and complete disclosure of Innovations to the OTT via submission of a Disclosure Form, available on the OTT website; early disclosure facilitates engagement of the OTT and allows for specific discussion and guidance toward determination of commercial potential.
2. In general, disclosure to the OTT should occur at least 45 days prior to public disclosure of the Innovations, including submitting an abstract, poster, article, grant application or talking about the Innovation outside the University; this allows time for the OTT to evaluate commercial potential and identify mechanisms for protection of the Innovation.
3. On the Disclosure Form, the Applicable Personnel will report:
   a. the percent contribution of each of the Applicable Personnel to the Innovation;
   b. primary department and school for each Applicable Personnel;
   c. any center, institute or other department that supported the work that led to the Innovation;
   d. any Intellectual Property or tangible materials of a third party, including those that were generated at a previous institution or place of employment that has relevance to the disclosure;
   e. any non-University inventors (i.e., inventors who are not Applicable Personnel as defined in this policy), including, individuals acting as independent contractors, or individuals at other universities, institutions, companies, foundations or other entities; and
   f. the source of funding for the work that led to the Innovation and details regarding specific technology transfer language (for example, ownership of allocations, sharing of revenue or licensing of Intellectual Property) in the funding agreements.
5.2 Review and Protection of Innovations

1. The OTT will evaluate each Innovation Disclosure Form to determine
   a. commercial potential;
   b. what Intellectual Property protection, if any, would be appropriate to facilitate the University’s ability to incentivize investment in the commercial development of the Innovation; and
   c. whether or not the Disclosure Form is premature or incomplete, in which case, the Applicable Personnel may be asked to resubmit the Disclosure Form when additional information is obtained.

2. Evaluation for such Innovation as described in Section 5.2(a) will be made to Applicable Personnel within 90 days of receipt of a complete Disclosure Form.

3. Applicable Personnel will cooperate with the OTT in its efforts to evaluate, protect and transfer Innovations, including executing documents and taking other actions as reasonably requested by OTT. The University encourages Applicable Personnel to participate through the OTT in the process of commercialization.

4. Applicable Personnel are required to consult with the OTT to ensure that appropriate agreements are in place prior to disclosing the University’s Innovations or sending materials embodying Innovations outside the University (for example, to another university, institution, company, foundation or other entity).

5. Lack of patentability need not eliminate commercial potential for an Innovation and will not alter the University’s ownership of the Innovation.

6. The OTT is responsible for directing the filing of University-owned Intellectual Property. The OTT may delegate this authority including by written agreement in connection with commercializing an Innovation. As an example, the University retains qualified law firms to draft, submit and prosecute patents.

7. The OTT decides when and whether to enter into agreements conveying Innovations and the terms and conditions in such agreements.

8. Applicable Personnel are required to record all research data and information accurately and clearly and to keep all such data in a permanent and retrievable form. In addition, with regard to a patentable Innovation, original laboratory data must be kept for the life of the patent. Tangible property, including biological materials, chemical compounds, etc., must be securely stored. All of the foregoing are the University’s property. Exceptions to these requirements may be adopted in writing by the TTPC.

9. It is the University’s policy to publish research results as soon as possible; however, if publication may reveal an Innovation, Applicable Personnel should seek advice from OTT as to how and when to publish the results in order that patent or other protection is not compromised.

10. Applicable Personnel are obligated to refrain from any act that would impair the University’s rights in any Innovations and must maintain the confidentiality of Innovations, along with custody of applicable data and tangible property, consistent with the University’s decisions regarding protection and commercialization. This is especially important when the Innovations have been supported by outside entities through a grant or contract.

11. If Applicable Personnel leaves the University, all the Innovations arising prior to their departure remain the property of the University, and cannot be practiced, including being commercialized, without the University’s written agreement;

5.3 Release of Technology

1. In rare cases, the OTT may recommend that the University return the rights to an Innovation to the Applicable Personnel. When this situation occurs, the University will generally transfer its rights, and if so by in a written agreement that will allow the University to practice and have practiced the Innovation for research, education and/or patient care, at no cost, and may include other provisions to protect the University’s interests;

2. Such a release will not be given until all pre-existing commitments to third parties, including sponsoring agencies, with regard to Innovations have been cleared;

3. Prior to conducting activities, including research and clinical trials, that could reasonably appear to influence the financial value of the released Innovation, the Applicable Personnel must disclose the potential conflict of interest.

4. Improvements, new developments and modifications to these returned rights, otherwise satisfying the definition of Innovations, remain subject to this policy;

5. Release may be conditioned upon reimbursement to the University for all Commercialization Costs and 10% of the Applicable Personnel’s net income from the released Innovation.

VI. DISTRIBUTION OF REVENUE DERIVED FROM COMMERCIALIZATION OF INNOVATIONS

6.1 Sharing of Revenue - Guidelines

1. Multiple units may contribute to the support of work that leads to an Innovation, including the departments and schools/colleges of Applicable Personnel, as well as centers or institutes of which the Applicable Personnel are members.
2. Distribution of Net Revenue will follow the percent allocation for Applicable Personnel as agreed upon on the Disclosure Form. Absent agreement on the percent allocation among Applicable Personnel, and subject to notice of a dispute being resolved pursuant to Section 6.1(i), the Applicable Personnel will share equally.

3. Distribution to departments will follow the percent allocation for Applicable Personnel. For those schools/colleges without departments, the department share will be distributed to the school/college.

4. The Applicable Personnel are responsible for disclosing whether a center or institute has provided financial or other support for the work that led to the Innovation, including laboratory space, supplies or significant administrative support. In such cases, upon disclosure of the Innovation, the involved department (or school/college in the absence of departments) will work with the center or institute to agree upon sharing of the department Net Revenue with the center or institute. As centers and institutes often include faculty from more than one school or college, the Provost or Provost's designee will mediate disputes related to the department's share.

5. In the event that departments, centers or institutes from different schools/colleges contribute to an Innovation, sharing of Net Revenue will follow the allocation as determined in 6.1(c) and (d).

6. University may make alternative arrangements for distribution of Gross Revenue or Net Revenue, whether due to co-ownership, grant, funding contract, gift or other agreement, only after review and approval of the Provost or Provost's designee.

7. The OTT is authorized to delay distribution where additional expenses are anticipated, including those associated with filing for patent protection in foreign countries.

8. The University has no fiduciary or other duty regarding whether or when to liquidate equity. Unless equity is liquidated, there is no Net Revenue to distribute.

9. Any dispute regarding the distribution of Net Revenue may be addressed as set forth in Section 4.4 of this policy.

6.2 Formula for Sharing of Revenue

1. Accrued as a result of Innovations licensed or assigned prior to the effective date of this policy, and in the absence of special funding/gift agreements:
   a. Commercialization Costs will be deducted from Gross Revenue; this does not include 15% for administration of OTT; and
   b. The first $1,000 of cumulative Net Revenue shall be paid to the Applicable Personnel

2. Cumulative Net Revenue will then be distributed 1/3 to the Applicable Personnel; 1/3 to the departments of the Applicable Personnel and 1/3 to the University.
   a. Accrued as a result of Innovations licensed or assigned on or after the effective date of this policy, and in the absence of special funding/gift agreements:
      b. Commercialization Costs will be deducted from Gross Revenue; however, the 15% for administration of OTT will not be deducted from Gross Revenue until initial cumulative Net Revenue equal to $25,000 has been distributed to the Applicable Personnel; after which
      c. Ongoing Commercialization Costs will be deducted from cumulative Gross Revenue, followed by deduction of 15% for administration of OTT;
      d. Cumulative Net Revenue greater than $25,000 and up to $2 million will be distributed 1/3 to the Applicable Personnel, 1/3 to the department(s), as well as institutes and centers, as described in Sections 6.1c - 6.1e and 1/3 to the University.
      e. Cumulative Net Revenue greater than $2 million will be distributed 1/3 to Applicable Personnel; 1/3 to the school/college, with the Dean of the Applicable Personnel school/college having the authority to determine sharing of Net Revenue between department(s)/center(s)/institute(s) within the school/college; 1/3 to the University.

6.3 Additional Information

1. In the absence of extenuating circumstances, distributions of Net Revenue will generally be made within three months of receipt but no less than semi-annually.

2. If Applicable Personnel should change departments within the University, the department share of revenue will generally not follow the Applicable Personnel, except under special circumstances and only as agreed upon by the Dean of the school/college in which the original department resides.

3. If an Applicable Personnel should leave the University, the portion allocated to the Applicable Personnel's department will remain with the department.

4. Payments made to Applicable Personnel must be made to the Applicable Personnel and cannot be assigned by the Applicable Personnel to other parties or entities, except upon the Applicable Personnel's death, in which case the personal representative of the Applicable Personnel's estate will notify the University Controller's Office, in order to ensure that the appropriate paperwork and permissions are received for distribution of the revenue to the Applicable Personnel's estate/heirs.
Admission

Eligibility for Admission

In addition to holding the baccalaureate degree from an institution accredited by SACS or another regional accrediting body (or equivalent credential for international applicants), the applicant for admission to the Graduate School should have the prerequisite coursework required by the program to which he/she is applying. In general, those applying for graduate admission should have achieved an overall average grade of “B” or better (3.0 G.P.A. on a 4.0 scale). International students will be required to give evidence of adequate knowledge of English through a TOEFL or IELTS test score. University of Miami faculty members above the rank of instructor are not eligible to apply for the doctorate at the University of Miami. (Note: Faculty from the School of Nursing and Health Sciences and from the Physical Therapy program are permitted to pursue doctoral degrees in their home program/school.)

For specific admission requirements see also statements of the various programs.

Admission of a student to the University of Miami for any semester does not imply that such student will be re-enrolled in any succeeding academic semesters.

All those wishing to take courses for graduate credit hour, whether or not they wish to become candidates for a degree, must make application for admission directly to the program of interest prior to registration.

Requirements for Admission Application

1. The completed application form
2. Official transcripts of all college work, both undergraduate and graduate. Domestic or international applicants that have academic credits from or attended an international institution must have their educational credentials earned outside the United States verified by an approved international credentialing evaluation service. Each of the university's 11 schools and colleges has specific procedures that must be followed by international applicants. Visit our International Applications page for more information (https://www.grad.miami.edu/apply/on-campus-graduate-programs/Application%20Instructions%20for%20International%20Students/international-students.html).
3. International applicants whose native language is not English must take and submit official score reports from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) in addition to any other required entrance examinations (e.g. GRE/GMAT). The TOEFL and IELTS scores are valid for 2 years after the test date.
4. Letters of recommendation
5. Other requirements, such as standardized entrance exams (e.g. GRE or GMAT)*, may be required/requested by individual programs. Contact the specific program to which you are applying for their requirements,

* Please note that if a standardized entrance exam score is required, the scores submitted must be recent (within five years). GRE and GMAT scores are only valid for 5 years after the test date.

Materials submitted in support of an application cannot be released for other purposes nor returned to the applicant.

Categories of Admission

1. Regular admission with or without specified deficiencies. Under circumstances in which it is difficult to evaluate the academic background of intellectually qualified applicants, they may be admitted with specified deficiencies based on evaluative criteria established and maintained by the school or college. Such status is often appropriate for international students or students with extensive professional experience relevant to the desired discipline. The Graduate School allows only one semester in deficiency status. Graduate Council notification is required for programs requesting deficiency status beyond one semester. For all regular admissions with deficiencies, students must receive a list of documented requirements to remove the deficiency and specific milestones. Students who fail to qualify at the end of that time will be requested to withdraw from the Graduate School.
2. Post-Baccalaureate. This category provides an opportunity for graduate study for a. qualified applicants who, for good reason, do not wish to work toward an advanced degree. This would be appropriate for those students who have special objectives for professional study or scholarly work; b. students enrolled in a graduate program elsewhere but desiring to earn graduate credit hour at the University of Miami for the purpose of transferring it to the other institution; c. students already holding the master’s degree or doctorate but who desire additional coursework in their field. Those admitted to a post-baccalaureate status should realize that their future admission to regular status is improbable unless they achieve the qualifications originally appropriate to admission to those categories. This is to say that the mere accumulation of graduate course credit hours is not sufficient to permit entrance into another graduate category. No more than a total of 12 credit hours may be taken while in post-baccalaureate status.

Transient students described in (b) above should have sent to the Graduate School a letter from the Dean of the School or College of the student’s program from which they expect to earn a degree, stating that they are in good standing there and have permission to transfer credit hour. If possible,
this letter should indicate specific courses to be taken. The students described in (c) above should have a transcript showing their most recent
graduate work and graduate degree [to be sent directly by the issuing institution to the Graduate School].

3. Certification/Professional Goals. This category provides an opportunity for graduate study for qualified teachers or professionals who do not wish to
work toward an advanced degree but, who for professional reasons, need to continue to take graduate courses and have already taken 12 credit hours
in Post-Baccalaureate Status. No credit taken in this status can be applied toward a graduate degree at the University. A letter explaining the need for
the course work by the student’s employer must accompany the application.

Every applicant for admission can be assured that all credentials will be carefully studied in an effort to select appropriately qualified students. Each
application for admission is examined by the members of the faculty responsible for the graduate program. The program informs each applicant of the
results.

It is expected that most applicants for admission will be candidates for an advanced degree. Except under unusual circumstances those who already
hold an advanced degree are not admitted to candidacy for the same degree. Graduate programs vary as to whether students who do not hold the
master’s degree are required to initiate graduate studies at that level.

Applicants should note the following:

1. All correspondence, applications, and documents should be sent directly to the academic department;
2. No action is taken until a file is complete and all documents are available;
3. Application files should be complete at least one month before registration, much earlier for some applications, as specified elsewhere in this
   Bulletin;
4. Admission to graduate status does not imply admission to candidacy for a degree;
5. Some programs close admissions early because of limited capacity; and
6. Materials submitted in support of an application are not released for other purposes and cannot be returned to the applicant.

International Students Admissions
All international students who have been admitted to a program of full-time study at the University of Miami need to enter the U.S. on a student
visa. To apply for an F-1 visa, you must provide the U.S. Embassy or Consulate with a Form I-20 or DS-2019, passport, statement of funds, and other
documents as required by the U.S. Embassy or Consulate. Please visit the International Student and Scholar Services (http://www.miami.edu/issss/)
(ISSS) website for further information regarding visas, travel, pre-arrival information, etc. The Form I-20 or DS-2019 can only be issued after you have
been admitted and have submitted proof of adequate financial support for your studies and living expenses. For questions regarding issuance of the
Form I-20 or DS-2019, please contact your individual department.

Readmission
Students who have not been continuously enrolled must request readmission and adhere to the readmission deadlines outlined in the Academic
Calendar (https://registrar.miami.edu/dates-and-deadlines/academic-calendars/). Students returning from a Leave of Absence must request
readmission. Contact the appropriate program office well in advance of registration. If additional college work has been completed elsewhere since
the last enrollment at the University of Miami, an official transcript of this will be required. Recency of credit hour rules will apply. The application for
readmission to the Graduate School may be found on the Graduate School website (http://grad.miami.edu). If you are an applicant for readmission
and also an international student, please contact International Student and Scholar Services at isss@miami.edu and 305-284-2928.

Dual Degree and Accelerated Degree Programs
The University offers unique combined degree programs that culminate with students receiving both the undergraduate and graduate degrees
concurrently or an accelerated program of study in which they receive an undergraduate degree and then a graduate degree the following year.

These programs are intended for exceptional students to acquire both undergraduate and graduate degrees, in five years rather than the 4 plus 2 years
(approximately) that is traditionally expected.

Please note: Many financial aid programs, including those offered by the University and the federal and state governments are restricted to
coursework required to complete an undergraduate degree.

Requirements
Students must have undergraduate student status and a cumulative G.P.A. of at least 3.0 at the time of application. Students should discuss the
program and possibility of entering the program with an academic advisor. The program may require application at the time of matriculation to the
undergraduate degree or prior to the beginning of final exams in the junior year.

Undergraduate students must take the GRE Examination before the end of their classification as a senior and attain a combined score of more than
297 on the verbal and quantitative portions.

Once admitted into a dual degree or accelerated program:
In their senior year, students may take a maximum of 12 graduate credit hours, with a maximum of 6 credit hours per semester. While in senior status, to register, students must complete and submit the Graduate School's Application for Undergraduates to Take a Graduate Course form which is available on the Graduate School website (https://grad.miami.edu/). This form must accompany the Add/Drop and/or Course Request form to ensure that students are registered with the correct registration status. Add/Drop and/or Course Request forms without this approval form will not be processed. Undergraduate students must register for courses with graduate status in 'Canes Central. This process cannot be facilitated via online registration.

Financial Implications
Many financial aid programs, including those offered by the University and the federal and state governments are restricted to coursework required to complete an undergraduate degree.

Students are eligible for undergraduate aid only as long as they are undergraduates. Students enrolled in combined or accelerated degree programs are permitted undergraduate federal and University aid for a maximum of four academic years or to the point at which the number of graduate credit hours in a term exceeds the number of undergraduate credit hours, whichever comes first. During that time frame the student's undergraduate enrollment status will be determined using only undergraduate level courses in which the student enrolls. Graduate level courses in which the student enrolls during such semesters will not be used to determine the student's undergraduate enrollment status. Once a student is registered at the graduate level for financial assistance his/her status is considered graduate for all subsequent semesters.

Once registered as a graduate student, a student cannot revert to undergraduate status.

For further information, contact the Office of Financial Assistance at ofas@miami.edu, call 305-284-6000, or visit the office in the Whitten University Center.

Graduation Clearance Requirements
For dual degree programs, the student must apply for undergraduate and graduate graduation at the same time. Degrees from dual degree programs are conferred at the same time.

For accelerated degree programs, the student must apply for undergraduate graduation in one semester, and for graduate graduation in a subsequent semester.

The student must meet the requirements of the Graduate School specified in the Bulletin for the awarding of the graduate degree.

Students enrolled in a dual degree or accelerated program can take a maximum of 6 graduate credit hours per semester in their senior year for a maximum of 12 graduate credit hours without incurring additional costs if they are full-time undergraduate students during this period.

Students should register for courses towards their graduate degree as "G" credit hours and not as "U" credit hours. These registrations must be completed prior to taking courses. Retroactive add/drops will not be processed.

Summary of Guidelines for Dual Degree and Accelerated Programs
• Take at least 12 undergraduate credit hours per semester. This qualifies you for the opportunity to take up to 6 graduate credit hours per semester at no additional cost.
• Graduate credit hours can be taken only in the senior year in a dual degree or accelerated program (based on the number of credit hours earned towards the undergraduate degree).
• The maximum number of graduate credit hours allowed per semester is 6.
• The maximum number of graduate credit hours the undergraduate student can take at no additional cost is 12.
• The Application for Undergraduates to take a Graduate Course form should be completed and all signatures must be obtained before registering for graduate credit hours.
• The student can change his/her status to "graduate", or his/her status might be determined to be "graduate" for financial aid purposes during or at the completion of the senior year. This will make the student eligible for graduate financial aid (for US citizens or permanent residents).
• The student cannot be a full-time undergraduate (taking 12 or more undergraduate credit hours) and a full-time graduate (taking 9 or more graduate credit hours) student at the same time.
• Once a student’s status changes to graduate (or after they have taken a full load of graduate credit hours) his/her status cannot revert to undergraduate status.
• In a dual degree or accelerated program, an undergraduate student cannot take graduate credit hours in any other year except in the senior year.
• The student should avoid taking any undergraduate credit hours after the student’s status has changed to graduate.

For University of Miami Undergraduates
University of Miami undergraduates within 30 credit hours of meeting the requirements for the Baccalaureate Degree may be allowed to take up to twelve (12) graduate-level credits (no more than 6 credit hours may be taken in one semester) in non-degree graduate status while completing the requirements for the baccalaureate.
The Graduate School's Application for Undergraduates to Take a Graduate Course form is available on the Graduate School website (https://grad.miami.edu/).

1. Must have a minimum of 3.00 G.P.A.
2. The submission of an Application for Undergraduates to Take a Graduate Course form (available on the Graduate School website (https://grad.miami.edu/)) which will not require the application fee;
3. The written approval of the Chairman of the Department, the Dean of the Undergraduate School or College, and the Graduate School Representative prior to registration.

Approval to take graduate-level courses does not automatically admit the student, upon graduation, to status as an applicant for a graduate degree at the University of Miami.

The graduate credit hours earned may NOT be used to meet undergraduate graduation requirements or be used to meet the 120 credit hour requirements at the University of Miami.

No more than 6 credit hours may be taken in one semester, and no more than a total of 12 credit hours may be taken while in graduate status. Students may take no more than 15 credit hours of combined undergraduate and graduate courses per semester.\(^1\)

\(^1\) If the total combined undergraduate plus graduate credits exceeds 15 credits, the Graduate School will require the undergraduate advisor and undergraduate dean to provide approval. Please note that the application form requires the student and a financial aid representative to sign and date the form acknowledging that the student understands the financial implications of this registration.

Doctoral Degree

(For Ph.D., D.M.A., and Ed.D. candidates only)

General

The Graduate School does not specify course requirements for the Ph.D. However, the Graduate School will not, ordinarily, approve the taking of the qualifying examination until the student has had a minimum of one continuous academic year of graduate work in courses, seminars, and directed or tutorial study. 60 credit hours beyond the baccalaureate degree are the minimum requirement for the Ph.D., and not less than half of the total credit hours must be in work open only to graduate students. At least 24 credit hours must have been taken in residence at the University of Miami. A minimum of 12 dissertation credit hours must be taken. Graduate students studying for the Ph.D. who have received their master's degree in the same field must take at least 24 credit hours in residence at the University of Miami in doctoral status.

The specific course requirements for the Ph.D. are established by the major department or program which may require such additional graduate credit hour as it deems necessary. Such requirements will be found in that part of the Bulletin which lists course offerings.

Dissertation

A student must take a minimum of 12 credit hours of dissertation research except where otherwise stated. Not more than 12 credit hours of research may be taken in a regular semester, nor more than 6 in a summer session.

Ph.D., D.M.A., and Ed.D. degree students must defend their dissertation, doctoral essay, or lecture recital essay by the deadline specified in the Academic Calendar (https://registrar.miami.edu/dates-and-deadlines/academic-calendars/) and on the ETD website, upload one Dissertation Editor-approved PDF conforming in style to the standards set by the Graduate School to the ETD database, complete any online requirements, and submit the final three forms to the Graduate School in the semester the student wishes to graduate. Final forms include one Certificate of Defense Approval form, one ETD Final Content Approval form, and one ETD Availability Agreement form. All three forms are available on the Forms page of the Graduate School website (https://grad.miami.edu/policies-and-forms/forms/).

All students are required to adhere to the following deadlines (and the requirements associated with these deadlines) posted on the ETD website (https://grad.miami.edu/electronic-thesis-and-dissertation/): 1) Deadline to defend the thesis, dissertation, or doctoral/lecture recital essay; 2) Deadline to submit the full draft of the thesis, dissertation, or doctoral/lecture recital essay draft for formatting review by the Dissertation Editor; 3) Deadline to produce the final PDF; and 4) Deadline for completion.

The candidate is well advised to have a final, acceptable typescript of the dissertation in the hands of each member of his/her committee a minimum of two weeks prior to the defense. It is the duty of the student to acquire a copy of the guidelines for preparing theses and dissertations and to conform to the requirements therein. It is recommended that students begin the process early in the semester by discussing with their advisors a suitable timetable for meeting the ETD deadlines. All information pertaining to the formatting and electronic guidelines for electronic thesis and dissertation submission can be found on the ETD website (https://grad.miami.edu/electronic-thesis-and-dissertation/). It is the duty of the student to acquire a copy of the formatting guidelines for preparing theses and dissertations and to conform to the requirements therein. All dissertations are also published by ProQuest/University Microfilms, Inc. The Graduate School also encourages students to contact the Dissertation Editor early in the semester at grad.dissertation@miami.edu if they have questions regarding any aspect of the ETD process.
The dissertation may be written in a language other than English at the recommendation of the dissertation committee and with the approval of the program and the Graduate School. Graduate School approval will be determined on a case-by-case basis. The Dissertation Chair will submit a memorandum from the Department Chair to the Dissertation Editor together with the student’s application for admission to candidacy explaining why it is both relevant and appropriate for the dissertation research to be written in a language other than English. Acceptable “relevant and appropriate” reasons for writing the dissertation in a language other than English include, but are not limited to: relevancy to research where presentation in a non-English language expands knowledge of that language; relevancy where the loss or weakening of the research’s meaning and impact if primary data, e.g., interviews, are translated into English; or appropriateness where the majority of the bibliographic sources, references, and potential outlets for future publication are anticipated to be in that language other than English. Both the memorandum and the application for admission to candidacy form must be submitted to the Graduate School at the same time. In some cases upon review of the memorandum, the Graduate School may determine that the student will also be required to submit an English translation of the non-English dissertation. For all approved cases, an abstract in English should be included in the final dissertation.

Electronic Theses and Dissertation (ETD) Embargo Policy
Graduate students can elect to withhold their electronic thesis or dissertation for up to two years before the work is available for download from the University of Miami’s Scholarly Repository (http://scholarlyrepository.miami.edu/). The metadata for all theses and dissertations regardless of the availability option elected (i.e., open access, UM campus only, or embargo) will be immediately available for viewing in the university’s Scholarly Repository after the Dissertation Editor has approved and released the thesis or dissertation to the repository. If embargo is elected by the student, the existence of the student’s information page will appear in the Scholarly Repository right away displaying title, defense date, abstract, committee, keywords, etc., but the PDF of the electronic thesis or dissertation will not be downloadable until the term of embargo elected has expired. After the elected embargo period has expired the electronic thesis or dissertation will be released for open access in the Scholarly Repository. Students requesting embargo should carefully review the details of embargo election described in the ETD Availability Agreement form available on the Graduate School website (https://grad.miami.edu/) to ensure they fully understand the terms of access for their embargoed work.

Research in Residence
Once a student has completed all course and required research credit hours, he or she must enroll in Research in Residence status until the degree has been granted. Research in Residence status is considered full-time enrollment. Time restrictions on obtaining degrees will be strictly enforced and can be waived only by the Dean of the Graduate School. Research in Residence students, while not required, may purchase or receive any perquisites that are normally available to graduate students. (See Recency of Credit section.)

Residence
The student must spend at least two consecutive semesters beyond the first year’s graduate work, wherever taken, in full-time study at the University of Miami. With program approval,

1. one summer of full-time study in two sessions can be substituted for one semester of residence, or
2. full-time study for two successive summers can be substituted for two regular semesters.

Residence requirements may be altered only by the Dean of the Graduate School. (At least 24 credit hours must be taken in residence.)

The Supervisory and Dissertation Committees
A supervisory committee is usually appointed when a student is formally admitted to a doctoral program. For the dissertation/doctoral essay/lecture recital essay committee a student needs no less than four members. The committee chair must be Regular Faculty from the student’s program of concentration (this includes secondary appointments). In addition to the chair, two members must be Regular Faculty or have Graduate Faculty status in the student’s program of concentration. The fourth member must be an outside member. “Regular Faculty” are faculty having tenured or tenure-earning appointments of a program or department. A thesis or dissertation committee cannot be chaired by a person unless they hold a higher or equivalent degree as the candidate for the graduate degree. Exceptions to the committee composition may be approved by the Program Director (or Chair of the Department) and Dean of the Graduate School. A department, program, or school/college may require additional members.

This committee is nominated by the chairperson of the program concerned. It is appropriate for the chairperson to consult with the student regarding the membership of the committee. The supervisory committee is empowered to plan the course of study for the student; to determine deficiencies, if any; to set language and other requirements; to request applicable transfer of credit hour where appropriate and to make up and administer the qualifying examination.

When the student is admitted to candidacy, a dissertation committee is formed. This may be the supervisory committee, but it may also be a committee formed anew to undertake the duties of advising and passing upon the dissertation. The dissertation committee is nominated by the department or program concerned, and appointed by the Graduate Program Director and approved by the Department Chair. The dissertation committee is comprised of at least four members; this includes the committee chair (i.e. the primary research mentor/advisor), who may or may not be from the student’s program, department or school (this includes secondary appointments), and must be a permanent member of the Graduate Faculty (https://grad.miami.edu/). Of the remaining members, it is also required that two shall be members of the program or department of concentration, as well as permanent members of the Graduate Faculty (http://grad.miami.edu), and one from outside the program or department of concentration.
See Faculty Senate legislation 2017-13B (https://fs.miami.edu/_assets/pdf/facultysenate/Documents/2017-legislation/2017-13B-GradSchool-composition-of-dissertation-committee.pdf). A program may require additional members. The duties of the Dissertation Committee are:

1. To consult with and to advise students on their research;
2. To meet, at regular intervals, to review progress and expected results;
3. To read and comment upon the draft dissertation;
4. To meet, when the dissertation is completed, to conduct the final oral examination and to satisfy itself that the dissertation is a contribution to knowledge and that it is written in lucid and correct English and submitted in approved form.

No student gains the right to be recommended for the degree simply by fulfilling requirements. This right is reserved to the student's committee. Changes of committee members must be approved by the Graduate Program Director, and submitted to the Graduate School.

**Qualifying Examinations**

A written qualifying examination is to be taken by each doctoral degree candidate in all doctoral programs, with the exception of Physical Therapy, at the time that the student and the supervisory committee deem appropriate. The major program may specify that its students must take an oral examination as well. In those cases, normally, the student shall pass the written examination before the oral examination is conducted. Upon completion of the examination process, the supervisory committee shall notify the Graduate School and the instructional school or program that the student has passed or failed the examination. A student who fails the examination will be given one opportunity to retake it with the permission of the supervisory committee. After a qualifying exam is failed for a second time, the student is terminated from the program. Some programs do not administer qualifying examinations during the summer months. Check with the Graduate Program Director for specific program requirements.

**Admission to Candidacy**

When the student has met all requirements and passed the qualifying examinations, admission to candidacy for the degree is approved. No student may receive the degree in the same semester or summer session in which he or she is admitted to candidacy. The student must be admitted to candidacy before the defense of dissertation is scheduled.

**Final Examination**

A final public oral defense of the dissertation is required. Refer to the Academic Calendar (https://registrar.miami.edu/dates-and-deadlines/academic-calendars/) for the deadline regarding dissertation defense for each graduation. Graduate programs set the specific requirements and format of the defense. Please contact your Graduate Program Director for details.

**Transfer of Credit Hour**

Upon recommendation of the major program and the approval of the Graduate Program Director and Dean of the Graduate School, graduate credit hour from another accredited institution may be transferred in partial satisfaction of the doctoral degree. Any student wishing to transfer credit hour must first be admitted to a doctoral program at the University of Miami. The satisfaction of the requirements of another university does not relieve the student from the University of Miami's requirements. Credit hour transferred is subject to the same recency rules as all other credit hour counted toward the degree, and is also subject to examination by the program. An official transcript of work to be transferred must be on file in the Graduate School. Credit hours that pertain to or have counted toward another degree cannot be transferred. No transferred credit hours are calculated into the University of Miami G.P.A.

**Florida International University and University of Miami Agreement**

Effective as of Fall 2007, students may take up to 6 credit hours at the host institution as long as the following requirements are met:

1. Must be Ph.D. student or Master's student in Latin American Studies.
2. Approval from both home and host institution;
3. Approval of Graduate School Deans;
4. Space at the host institution is available.
5. Approval of the faculty member teaching the course.

Tuition and fees are to be paid at the home institution. Performance level is set at host institution. Contact the Graduate School for more information. The application form can be found here (http://grad.miami.edu).

**Master's Degree**

The minimum residence requirement is two semesters in full-time study or the equivalent in part-time work. In practice, most students need at least three semesters, or two semesters plus summer work, to complete degree requirements.
Foreign Language

The requirements in a foreign language or languages are established by the student’s program. In those cases where the program deems it necessary that the student have competency in a foreign language, the student will be required to demonstrate such competence by examination in one or more languages. The choice of language or languages required will be by the program.

Thesis

Decision as to the thesis subject must be approved by the program. The thesis committee will consist of not less than three members. The committee chair must be Regular Faculty from the student’s program or department of concentration (this includes secondary appointments). In addition to the chair, one of the remaining members must also be Regular Faculty or have Graduate Faculty status in the student’s program or department of concentration; the third member must be an outside member. “Regular Faculty” are faculty having tenured or tenure-earning appointments of a program or department. A thesis or dissertation committee cannot be chaired by a person unless they hold a higher or equivalent degree as the candidate for the graduate degree. Exceptions to the committee composition may be approved by the Chair of the Department and Dean of the Graduate School. A program may require additional members.

The committee is nominated by the Graduate Program Director of the program concerned. The duties of the thesis committee are similar to those of the dissertation committee. The student who presents a thesis must enroll for at least 6 credit hours of thesis. Ordinarily no more than 6 credit hours may be granted.

The Dissertation Editor will provide information on the guidelines and deadlines that will become critical in the final months of the degree process and this information is located on the Graduate School website (https://grad.miami.edu/). The Graduate School office telephone number is 305-284-4154 and the email address is grad.dissertation@miami.edu.

Master’s degree students who are required to write a thesis must defend their thesis by the deadline specified in the Academic Calendar (https://registrar.miami.edu/dates-and-deadlines/academic-calendars/) and on the ETD website (https://grad.miami.edu/electronic-thesis-and-dissertation/), upload one Dissertation Editor-approved PDF conforming in style to the formatting standards set by the Graduate School to the ETD database, and submit the final three forms to the Graduate School in the semester the student wishes to graduate. Final forms include one Certificate of Defense Approval form, one ETD Final Content Approval form, and one ETD Availability Agreement form. The forms are available on the Forms page of the Graduate School website. (https://grad.miami.edu/policies-and-forms/forms/)

All students are required to adhere to the following deadlines (and the requirements associated with these deadlines) posted on the ETD website (https://grad.miami.edu/electronic-thesis-and-dissertation/): 1) Deadline to defend the thesis, dissertation, or doctoral/lecture recital essay; 2) Deadline to submit the full draft of the thesis, dissertation, or doctoral/lecture recital essay draft for formatting review by the Dissertation Editor; 3) Deadline to produce the final PDF; and 4) Deadline for completion.

It is the duty of the student to acquire a copy of the guidelines for preparing theses and dissertations and to conform to the requirements therein. It is recommended that students begin the process early in the semester by discussing with their advisors a suitable timetable for meeting these deadlines. All information pertaining to the formatting and electronic guidelines for electronic thesis and dissertation submission can be found on the Graduate School website (https://grad.miami.edu/). The Graduate School also encourages students to contact the Dissertation Editor early in the semester at grad.dissertation@miami.edu if they have questions regarding any aspect of the ETD process.

Electronic Theses and Dissertation (ETD) Embargo Policy

Graduate students can elect to withhold their electronic thesis or dissertation for up to two years before the work is available for download from the University of Miami’s Scholarly Repository (http://scholarlyrepository.miami.edu/). The metadata for all theses and dissertations regardless of the availability option elected (i.e., open access, UM campus only, or embargo) will be immediately available for viewing in the university’s Scholarly Repository after the Dissertation Editor has approved and released the thesis or dissertation to the repository. If embargo is elected by the student, the existence of the student’s information page in the Scholarly Repository right away displaying title, defense date, abstract, committee, keywords, etc., but the PDF of the electronic thesis or dissertation will not be downloadable until the term of embargo elected has expired. After the elected embargo period has expired the electronic thesis or dissertation will be released for open access in the Scholarly Repository. Students requesting embargo should carefully review the details of embargo election described in the ETD Availability Agreement form posted on the Graduate School website (https://grad.miami.edu/) to ensure they fully understand the terms of access for their embargoed work.

Final Examination

A final public oral defense of the thesis is required. However, none but the members of the thesis committee may interrogate the candidate. In addition there may be required, if desired by the program, a final written integration examination to test the candidate’s ability to integrate the whole graduate program and the thesis in relation to it. These examinations must be held at least two weeks prior to commencement.

Research in Residence

Once a student has completed all course and required research credit hours, he or she must enroll in Research in Residence status until the degree has been granted. Research in Residence status is considered full-time enrollment. Time restrictions on obtaining degrees will be strictly enforced.
and can be waived only by the Dean of the Graduate School. (See Recency of Credit and Time to Completion sections of the Bulletin.) Research in Residence students, while not required, may purchase or receive any perquisites that are normally available to graduate students.

**Comprehensive Examination**

In most master’s programs (and some doctoral programs) a comprehensive examination, either written, oral, or both, is a requirement. When the thesis is not a part of the program, an examining board, at least one of whose members must be a regular member of the Graduate Faculty, will be appointed by the program.

A student failing the comprehensive examination may be allowed one opportunity to retake it if the student’s committee so advises. The re-examination may not be taken during the same semester or summer session, and must be taken within one calendar year.

**Transfer of Credit Hour**

Upon recommendation of the major program and the approval of the Graduate School, a maximum of 6 credit hours of graduate credit hour, with grades of B or above, may be transferred from another accredited graduate institution, in partial satisfaction of a master’s degree requiring less than 36 credit hours. 9 credit hours of graduate credit hour may be approved for transfer to a degree program requiring 36 credit hours or more. Work taken more than six years prior to transfer will not be accepted. All work transferred is subject to examination by the program. Any student wishing to transfer credit hour must first be admitted to a graduate program at the University of Miami. The satisfaction of the requirements of another university does not relieve the student from the University of Miami’s requirements. An official transcript of work to be transferred must be on file in the Graduate Office. Credit hours that pertain to or have been counted toward another degree cannot be transferred. Students enrolled in the Master of Business Administration program are not eligible for credit hour transfers.

Exceptions must be approved by the Dean of the Graduate School.

No transferred credit hours are calculated into the University of Miami G.P.A.

**A Second Master’s Degree**

A student enrolled in a University of Miami master’s degree program or holding a University of Miami master’s degree may earn a second master’s degree in a related area at the University by completing a minimum of 21 credit hours in residence toward the second degree, as long as all program and admission requirements for the degree are met and the total credit hours for both masters degrees is at least 60 credit hours. Each degree must have a separate thesis if two thesis options are elected. The second program decides if the areas are related enough to qualify for the reduced number of credit hours. The student must contact the second program during the application process for the second program to determine if the areas are related enough to qualify for the reduced number of credit hours.
UNDERGRADUATE ACADEMIC PROGRAMS

Architecture

http://www.arc.miami.edu

Introduction

The School of Architecture offers a five-year, professional program leading to a Bachelor of Architecture degree. The program is accredited by NAAB (National Council of Architectural Registration Boards) and is designated as a STEM program, allowing international graduates to extend their F-1 visas to work in the United States for up to three years.

The first three years constitutes a core curriculum that focuses on Design, Visual Representation, History, Materiality and Assemblies. This foundation provides the basis for specialized architectural study in the fourth and fifth years, where students select from a wide array of elective studio and course offerings.

The School of Architecture’s location in Coral Gables, within the Miami metropolitan area, provides an outstanding laboratory for research and advanced study; the challenges of conservation and development are intense in one of the nation’s fastest growing urban areas. These challenges result in an increasing demand for skilled professionals. Students have the opportunity to work with faculty in the exploration of theoretical issues and the resolution of practical problems. The School of Architecture values and sustains a creative, open and supportive environment, emphasizing personalized instruction in small classes and studio courses.

Mission

- Prepare students for professional leadership and lifelong learning in architecture, urbanism and related fields.
- To advance knowledge and technology through research, and creative practice.
- To deploy knowledge and technology through professional engagement, real-world applications, and community service.
- To promote the goals of environmental responsibility, social equity, and economic sustainability.

The Strategic Orientation of the School of Architecture is:

To become a hemispheric leader in problem-based learning and project-based research while contributing solutions to the challenges facing urban environments locally and globally.

Accreditation

The school is a member of the Association of Collegiate Schools of Architecture and the Association of Collegiate Schools of Planning, and is fully accredited by the National Architectural Accreditation Board, who asks each school to include the following paragraph on professional degrees in all literature:

In the United States, most registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit professional degree programs in architecture offered by institutions with U.S. regional accreditation, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted an eight-year, three-year, or two-year term of accreditation, depending on the extent of its conformance with established educational standards.

Doctor of Architecture and Master of Architecture degree programs may require a preprofessional undergraduate degree in architecture for admission. However, the preprofessional degree is not, by itself, recognized as an accredited degree.

The University of Miami School of Architecture offers the following NAAB-accredited degree programs:
B.Arch. (171 undergraduate credits)
M.Arch I (3-year Track – 105 graduate credits)
M.Arch II (2-year Track – 60 graduate credits)

The next accreditation visit for all programs will take place in 2023.

Admission

Applications for incoming freshmen are processed and reviewed by the Office of Admission. Enrollment in the School of Architecture is selective and highly competitive. Applications to the Bachelor of Architecture program are requested by January 1st. Early applications are encouraged.
First-Year Students

Admission decisions are based on the following factors: secondary school record, SAT/ACT score, counselor’s evaluation and the student essay. Portfolio submission is not required for entering first-year students, but is highly encouraged. Students that submit portfolios are evaluated for Talent Based scholarships and can opt-out of submitting SAT/ACT scores.

Transfer Students

The academic accomplishments of each transfer student will be evaluated on an individual basis. A 3.0 G.P.A. is required for transfer admission. A portfolio is required for advanced placement in the design sequence of the Bachelor of Architecture Program. Application deadline for the School of Architecture program is March 1st.

All transfer students requesting advanced placement in design must provide a portfolio of previous academic design and graphic work and three academic recommendations. Students accepted into third year design will be required to complete a design module during the summer prior to enrollment.

Student Responsibilities

Students in the School of Architecture are responsible for planning their own programs and for meeting degree requirements. It is the student’s responsibility to understand and fully comply with all the provisions set forth in this Bulletin and written changes to their program of study. Students are provided assistance by advisors and faculty members. Written requests for variation from program or school requirements are reviewed by a faculty committee.

Academic Progress and Probation

The School of Architecture will review each student’s record at the end of each semester. When a student’s semester or cumulative average is less than stated below, or progress toward degree completion is unsatisfactory, the student will be placed on academic probation or warning in accordance with School of Architecture policies and procedures. Students on probation are not permitted to enroll in more than 13 credit hours, shall meet on a monthly basis with their academic advisor, and may have a STOP placed upon their future enrollment until grades for work-in-progress are reviewed. First semester freshmen who have a semester grade-point average below 2.0 shall be placed on probation.

<td>More than 96 credit hours</td>
<td>2.3</td>
</tr>
</tbody>
</table>

Students must complete all Architecture Design studios with a grade of C- or higher. Students receiving two consecutive C- grades in architecture design studios will have to repeat the later course. Students receiving a grade of D+ or lower in an architecture design studio must repeat the studio and will be restricted to a 15 credit hour semester load. The student will meet with an academic advisor on a monthly basis and will be reviewed prior to continuation.

Academic Dismissal

A student in the School of Architecture whose CGPA or progress toward degree completion falls below the level of the minimum standards of the University of Miami may be dismissed. In the School of Architecture this includes a student who receives three grades of D+ or lower in design courses.

Class Attendance and Absences

Class attendance is mandatory for all architecture courses; three unexcused absences constitutes grounds for dismissal from the course and/or a failing grade. Students are required to be present for an entire design review, therefore, students arriving late or departing early from class will be considered absent. Excused absences require written notification and are granted by the instructor.

Failing Grades or Incompletes

A required architecture course in which a student receives a failing grade must be repeated during the first subsequent semester in which the course is offered. Incompletes can be given only for reasons of serious illness or exceptional hardship.

Student Work

The University may retain selected student work and may place it in the architecture archives for exhibition, publication, or other use as the University deems appropriate. Each student in architecture is encouraged to maintain a design portfolio of every project undertaken throughout the five-year program.
Permission to Take Courses at Another University

A form is available from the Office of Academic Services and should be completed and approved PRIOR to off-campus enrollment. Students are encouraged to provide complete documentation for each course request form. Each student requesting transfer credit hour must supply the University of Miami registrar with certified transcripts. Additionally, each student should review transfer evaluations to be certain that all courses are correctly evaluated for credit hour. The proper transmission and transfer of credit hours is the responsibility of the individual student. The last 45 credit hours towards the degree must be completed at the University of Miami.

Changes to Academic Requirements

The School reserves the right to change academic requirements.

Computer Requirement

Undergraduate students entering the program are required to purchase their own computers for use in the design studio. The School of Architecture computing resources are accessible via a wireless network with an approved device and subject to School and University policy. Suggested system requirements are published on the School of Architecture web site.

Requirements for Graduation

As part of the 171 credits required for the Bachelor of Architecture curriculum, architecture students must complete a cognate in People and Society and a cognate in either Arts & Humanities or STEM.

Resources

The school's resources, including a Design-Shop, state-of-the-art computer lab, digital fabrication laboratories and model shop are enhanced by the interdisciplinary opportunities offered by the other schools and colleges of the University of Miami. A distinguished faculty is joined each semester by internationally renowned visiting scholars and designers.

Other programs that offer academic opportunities for undergraduate architecture students include:

- Historic Preservation Certificate
- Classical Architecture Certificate

Certificates require 15 credits. One related studio (6 cr) and 3 related electives (9 cr).

Dual Degree Programs

A six year dual degree program leading to a Bachelor of Science in Architectural Engineering and a Master of Architecture is also available (BASE/MARCH). The program is open to exceptional students who are admitted to the graduate program at the end of their junior year. Upon completion of this program, graduates are eligible for professional registration as both an engineer and an architect.

General overview of Foote Fellows

The Foote Fellows Honors Program recognizes the most educationally accomplished incoming students at the University of Miami. Foote Fellows have distinguished themselves both in and out of the classroom, are self-motivated, and think independently. Admission to the Foote Fellows Honors Program is by invitation.

Within the curricular framework of their school or college, Foote Fellows enjoy unmatched freedom and flexibility to explore a multitude of educational resources. Many Foote Fellows leverage this opportunity to take additional majors and/or minors and to study abroad.

At each of the nine undergraduate schools at the University of Miami, a dedicated advisor helps Foote Fellows chart their academic path and attain access to distinctive learning opportunities at the University, such as special school-based seminars, faculty-mentored research, networking opportunities, and off-campus internships.

Foote Fellows also will be invited to join advanced, interdisciplinary Foote Fellow seminars taught by leading faculty members from across the University. An example is Books That Matter, a rigorous seminar in non-fiction reading that is offered in sessions for first-year and for upper-class students. Freshman Foote Fellows benefit from early move-in to the residential colleges. Further, Foote Fellows receive focused advising on post-baccalaureate distinguished fellowships and awards.

The Foote Fellows Honors Program reflects the educational vision of former University of Miami President Edward T. Foote, who retired in 2000 after serving the University for twenty years.

Foote Fellows at U_SoA

Foote Fellows at U_SoA benefit from priority advising, enrollment and design studio selection (including the Partnership Studio which places students in local firms as part of their academic experience). The English and Cognates general education requirements (24 credits) are replaced with
course topics of their choice so they may explore the educational resources of the University and create their own program of study. Academic and professional career advising is personalized for each Foote Fellow to ensure a trajectory is established as early as the Sophomore year.

**Henry Adams Medal**

Awarded in conjunction with the American Institute of Architects to the highest-ranking graduating student for scholarship and excellence in a professional architecture program.

**Henry Adams Certificate**

Awarded in conjunction with the American Institute of Architects to the second highest-ranking graduating student for scholarship and excellence in a professional architecture program.

Other honors, distinctions, and awards are presented annually for excellent student performance.

**ARC 101. Architecture Design I. 6 Credit Hours.**

Introduction to architectural design as an intellectual and aesthetic discipline directed at the analysis, interpretation, synthesis and transformation of the physical environment. Topics include concept, site, form, analysis, use of precedents, technique and the ability to communicate design ideas.

**Components:** STU.

**Grading:** GRD.

**Typically Offered:** Fall.

**ARC 102. Architecture Design II. 6 Credit Hours.**

Architectural response to shelter, space and setting requirements. Topics include design thinking skills, programming, site analysis, use of precedents and anthropometrics and human behavior.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Spring.

**ARC 109. Introduction to Architecture. 3 Credit Hours.**

(Includes Design & History) Introduction to architectural ideas and principles including composition, space, form, function, history and methods of exploring architectural and urban design problems. Students will learn the relationship between two dimensional and 3 dimensional spaces through analytical drawing and model making. Course pedagogy includes weekly lectures in history and theory to better inform the design process. This course will encourage intuitive action, rapid visual analysis and interpretation.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Summer.

**ARC 110. Visual Studies. 3 Credit Hours.**

Concurrent with the ARC 109 course, the visual studies course explores Architectural drawing as a means of discovery, exploration, analysis and representation. Coursework begins with freehand drawing, in which students explore and refine their observation and representational skills, followed by an introduction to digital drawing and 3-d fabrication used in the profession today. The students will develop a portfolio in book format that illustrates the body of work produced during the three- week program.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Summer.

**ARC 111. Visual Representation I. 3 Credit Hours.**

An introduction to architectural representation as exploration, selection coordination and acquisition of visual knowledge including analog and digital techniques. Topics include: orthographic and oblique projections, geometric constructions, sketching, shade and shadow, and basic knowledge of digital tools.

**Components:** STU.

**Grading:** GRD.

**Typically Offered:** Fall.

**ARC 112. Visual Representation II. 3 Credit Hours.**

An intermediate course that continues methods integration introduced in Visual Representation I with an increased focus on three dimensional projections.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Spring.
ARC 121. Architecture and Culture. 1 Credit Hour.
Architecture as an intellectual and aesthetic discipline. Focus on design theory, language, typology, image, form, context, and case studies. Corequisite: ARC 101, 111.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 122. Architecture and Behavior. 1 Credit Hour.
The course focuses on the study of human behavior and its relationship to the design process. Topics include: cultural diversity, social equity and the application of psychological factors in the design of buildings and their environment.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 141. On-Site Survey of European Architecture and Urbanism. 3-6 Credit Hours.
On site introduction to architecture and the city with a historical review of European architecture and urban form from the classical to the contemporary. Students travel with faculty to survey selected European architectural and urbanistic precedents at specific locations. Elective course open to all majors; lecture and seminar format.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

ARC 203. Architecture Design III. 6 Credit Hours.
The course focuses on the design of urban form and its relationship to the natural environment. Topics include: site analysis and design, context, climate, access and circulation and landscape.
Components: STU.
Grading: GRD.
Typically Offered: Fall.

ARC 204. Architecture Design IV. 6 Credit Hours.
The design course focuses on building materials, techniques and structure as active constituents of architecture design. Focus on orientation, enclosure, low-energy responses, selection and assembly of construction materials, short and intermediate span structural systems.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 213. Visual Representation III. 3 Credit Hours.
An advanced representation course that builds on the tools and methods of visual Representation I & II while introducing students to more advanced techniques of three dimensional modeling that integrates analog and digital techniques. Topics covered include; composition, diagramming, research and analytical drawing, perspective, and the integration of digital tools.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 223. Architecture and the Environment. 1 Credit Hour.
Architectural response to natural environmental requirements. Focus on climate, control, natural energy use, ecosystems, energy flow, environmental intervention, case studies of vernacular building techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 230. Building Technology I: Materials and Methods. 3 Credit Hours.
Material characteristics of enclosure and structural systems, case studies in traditional and modern building construction. Topics include properties of building materials: wood, masonry concrete, steel and glass construction techniques; on-site and off-site processes; exterior finishes; assemblies, detailing and basic building code concepts.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 231. Building Technology: Structural Systems. 3 Credit Hours.
Structural systems: the tectons, patterns and behavior of the elements of building structures. Topics: Equilibrium, stability, vertical and lateral building envelope and financial considerations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ARC 267. History of Architecture I: Ancient, Medieval and Renaissance. 3 Credit Hours.
Studies of the history of architecture and urban design. Focus on religious and secular monuments and their settings, domestic architecture and infrastructure, regional constructional and compositional traditions from prehistory to the end of the sixteenth century. Corequisite: ARC 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 268. History of Architecture II: Baroque through Contemporary. 3 Credit Hours.
Studies of the history of architecture and urban design. Focus on religious and secular monuments and their settings, domestic architecture and infrastructure, regional constructional and compositional traditions from the end of the sixteenth century through to the present. Corequisite: ARC 204.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 292. Introduction to Architecture Design I. 3 Credit Hours.
Survey of the architecture profession and introduction to architecture design for non-architecture majors. Role, opportunities, vocabulary, visual awareness, techniques and procedures of design.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 293. Introduction to Architecture Design II. 3 Credit Hours.
Continuation of ARC 292 and an introduction to the interactions between architecture and the engineering disciplines for non-architecture majors. Theories of building and site design, technology as an integral component of design, program, site, climate and methodology.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 294. Introduction to the Development of Architecture. 3 Credit Hours.
Introduction to architecture for non-architecture majors. Vocabulary, themes, principles and processes of design, cultural, social, economic and technological influences demonstrated through historic examples.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 301. Architecture Design. 3 Credit Hours.
Comprehensive building and site design for students transferring into the architecture program at third year level. Topics include human, environmental, cultural and technological factors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 305. Architecture Design V. 6 Credit Hours.
The design course focuses on the analysis and design of housing typologies within the context of the city. Topics include: programming, research and the integrated evaluation and design making in the design process.
Components: STU.
Grading: GRD.
Typically Offered: Fall.

ARC 306. Architecture Design VI. 6 Credit Hours.
The design course focuses on the ability to demonstrate skills associated with making integrated architectural design decisions across multiple systems. Students must display an ability to make design decisions within a complex architectural project while demonstrating broad integration and consideration of environmental stewardship, technical documentation, accessibility, site conditions, life safety, environmental systems, structural systems, and building envelope systems and assemblies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 323. On Site Study of Selected Architecture and Urbanism. 3-6 Credit Hours.
On site study of specific architectural and/or urbanistic precedents at selecte d locations. Focus on specific period(s) and/or architect(s). Elective course open to all majors.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.
ARC 324. On Site Graphic Analysis of Selected Architecture and Urbanism. 3 Credit Hours.
On site analysis and illustration of specific architectural and/or urbanistic precedents at selected locations. Diagrams, sketches, and drawings recording, analyzing and evaluating buildings and places. Focus on specific period(s) and/or architect(s). Elective course open to all majors.
Components: LEC.
Grading: GRD.
Typically Offered: Spring & Summer.

ARC 362. Environmental Building Systems I. 3 Credit Hours.
Environmental and Safety Systems. Topics include mechanical - HVAC and conveyors; building envelope and assemblies, plumbing - fixtures and pipes; safety systems - fire safety and emergency and signal systems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 363. Environmental Building Systems II. 3 Credit Hours.
Principles and applications of light and acoustics. Topics include natural and artificial light - planning for sunlight, problems and solutions for interior and exterior illumination; sound - properties, problems and solutions in new and existing spaces. Principles and applications of electrical equipment and wiring design.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 371. Ancient Architecture. 3 Credit Hours.
History of architecture and human settlements. Western European prehistory, Egypt, Mesopotamia, Persia, Aegean and Mediterranean, Greece, Rome.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 373. Early Christian, Byzantine, and Medieval Architecture. 3 Credit Hours.
History of architecture and human settlements. Early Christian and Byzantine architecture in Italy, the Near East, Greece, North Africa, Eastern Europe, Medieval architecture in Western Europe.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 382. Architecture and Culture in Italy. 3 Credit Hours.
A cultural and historical framework in preparation for participation in the Rome program. A range of topics, including architecture, art, history, cinema, literature and politics presented by University faculty from a variety of disciplines. Required for participation in the Rome Program.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 407. Architecture Design VII. 3-6 Credit Hours.
Elective design studio course: student and faculty select areas of in-depth study. Topics are broadly defined and vary from semester to semester. ARCHITECTURE MAJORS.
Components: STU.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 408. Architecture Design VIII. 3-6 Credit Hours.
Elective component: student and faculty select areas of in-depth study. Topics are broadly defined and vary from semester to semester. ARCHITECTURE MAJORS.
Components: STU.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 452. Management of Professional Practice. 3 Credit Hours.
Overview of the practice and the profession, legal and ethical concerns, business types and management practices, traditional and non-traditional practices and services, contracts and contractual relationships.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ARC 475. Colonial Architecture. 3 Credit Hours.
History of architecture and human settlements. Colonial Architecture from the 16th through the 19th centuries in North and South America, the Caribbean, India and Africa.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 476. 19th and 20th Century Architecture. 3 Credit Hours.
History of architecture and human settlements. America and Europe during the 19th and 20th centuries; cultural, technological and theoretical development.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 481. Special Problems. 3 Credit Hours.
Group or individual investigations of significant architectural issues, offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 482. Special Problems. 3 Credit Hours.
Group or individual investigations of significant architectural issues, offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 500. Architecture Theory. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 501. Architecture Design and Theory I. 6 Credit Hours.
Cultural, human and environment component and architectural responses to these: Social and aesthetic concepts, architectural psychology, climatic principles, programming analysis and design.
Components: STU.
Grading: GRD.
Typically Offered: Fall.

ARC 502. Architecture Design and Theory II. 6 Credit Hours.
Technology component; materials, structure, and environmental control systems as a framework for architectural design. Construction materials and methods, structural systems, mechanical systems.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 503. Architectural Design and Theory III. 6 Credit Hours.
Legal and economic component; government and finances as active constituents of architecture design. Zoning regulations, building codes, principles of public health, safety and welfare, market and feasibility studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 504. Architecture Design and Theory I. 6 Credit Hours.
Cultural, human and environment component and architectural responses to these: Social and aesthetic concepts, architectural psychology, climatic principles, programming analysis and design.
Components: STU.
Grading: GRD.
Typically Offered: Fall.
ARC 507. Architecture Design. 6 Credit Hours.
Elective component: student and faculty select areas of in-depth study. Topics include building types, environment, energy, community design, etc.
Components: STU.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 509. Architecture Design IX. 3-6 Credit Hours.
Elective component: student and faculty select areas of in-depth study. Topics include building types, environment, energy, community design, etc.
Components: STU.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 510. Architecture Design X. 3-6 Credit Hours.
Elective component: student and faculty select areas of in-depth study. Topics include building types, environment, energy, community design, etc.
Components: STU.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 511. Visual Representation I. 3 Credit Hours.
Issues covered in the course will deal with the illustration of ideas in architectural manner. Students are to use the skill of drawing and model-making, either by hand or on the computer, as their new language. Topics will include how to read, understand, and create design drawings, to draw from observations and analyze their subject matter, to be able to distinguish the relevance of a particular drawing and to structure how they present their information. Students will be instructed to properly craft their work in and outside of studio in an effort to see their work evolve and improve.
Components: STU.
Grading: GRD.
Typically Offered: Fall.

ARC 512. Advanced Visual Analysis. 3 Credit Hours.
Drawing as a means of analyzing and recording visual experience. Composition, form, light, color and drawing as a primary device in the mental registration of visual experience.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 513. Advanced Visual Representation. 3 Credit Hours.
Students will learn to carefully evaluate space, color, depth, hierarchy, balance and scale in all architectural visual representation. The assignments will explore different media as it is used in the profession including but not limited to: diagrams, renderings, plans, elevations, sections, and axonometric. Through lectures and workshops, the course will provide a combination of both theoretical and practical lessons encompassing the fundamentals of architectural visual representation. The course will also include parallel lectures on typography, architectural graphic design, and verbal presentation. The lectures will be given by highly regarded industry professionals who will address the way that students can be aware of and understand typography, verbal presentation, and graphic design fundamentals as it relates to architecture. The class will consist of three parts. Part I introduces students to the fundamentals of 3d modeling and drafting as part of a representation workflow. The exercise will include both urban and building scales. Part II concentrates on understanding and dissecting more complex geometries through advance use of digital parametric software such as Grasshopper. Part III focuses on visual representation based on a studio project with emphasis on graphic techniques for final presentations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 514. Michelangelo. 3 Credit Hours.
Drawing as a form of research across mediums to understand historical research and interpretation of Michelangelo's work.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 515. Computer Modeling. 3 Credit Hours.
Three-dimensional, computer modeling, and rendering. Lecture, problem solving exercises and laboratory.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ARC 516. Architectural Watercolor Renderings. 3 Credit Hours.
This course will use freehand drawing and watercolor painting as a vehicle to study and record the urban and architectural conditions of Coral Gables and other South Florida sites. Particular emphasis will be placed on the analytical potential of sketches (recording space, light, surfaces and color).
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 517. Construction Documents. 3 Credit Hours.
Working drawings and specifications. Form, content and role of constituent parts of working drawings and specifications by using case studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 518. Documentation of Historic Architecture. 3 Credit Hours.
Principles of preservation and restoration, research methods, measured drawings, surveying methods, and case studies.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

ARC 519. Architecture and Color. 3 Credit Hours.
This course focuses on the theory and practice of color and its application to architectural design. Topics include color history from Newton through Alber, the relationship between color practice in science versus art, and the discipline of color in architecture from the Neoclassical movement through the Modern Movement.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

ARC 523. Urban Design Competition. 1-3 Credit Hours.
Intensive, collaborative urban design project, combining master planning and real estate development expertise, to be submitted to international peer reviewed competition. Project teams are comprised of students from several different degree programs, such as architecture, urban design, real estate development, business, and law.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 524. Selected Topics in Interior Architecture Design. 3 Credit Hours.
Principles and technical components of interior design. Topics include interior volumetrics, finishes, furnishings and lighting.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 525. Landscape Arch Design I. 3 Credit Hours.
Analysis and design of landscape spaces. Studies in historical precedent, gardens, parks, plazas, squares, and response to urban and architectural context.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 526. Landscape Arch Design II. 3 Credit Hours.
Analysis and design of landscape spaces. Topics include ecological principles, landforms and plant materials.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 527. Architecture Photography. 3 Credit Hours.
Photography with emphasis on architectural subjects. Introduction to visual principles, photographic equipment, materials, and techniques.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 528. Historic Preservation. 3 Credit Hours.
Basic design principles for the rehabilitation of historic buildings and districts. Evaluating character-defining details; significance analysis; context of setting issues within historic districts; applying the Secretary of the Interior’s Standards for rehabilitation.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
ARC 529. Research in Design-Methods and Procedures. 3 Credit Hours.
Application of research methods and procedures to design issues. Historical, descriptive, analytic, experimental research methods; tools for data manipulation and communication.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 531. Building Technology II: Structural Systems. 3 Credit Hours.
Structural systems: The tectonics, patterns and behavior of the elements of building structures. Topics: Equilibrium, stability, vertical and lateral loads, building envelope and financial considerations.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 532. Building Structures I. 3 Credit Hours.
The structural behavior of simple frame structures. Topics include techniques to determine basic system layout and preliminary dimensioning of key subsystems and members.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

ARC 533. Building Structures II. 3 Credit Hours.
The structural behavior of complex structures. Topics include prestressed systems, waffle and space trusses, curved structures and longspan buildings.
Prerequisite: ARC 532.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

ARC 534. The Palazzo in Italian Architecture. 3 Credit Hours.
Study of the development of the Renaissance and Baroque palazzo in Rome and other important centers of art and culture. Emphasis on the socio-political context.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 535. Historic Italian Urbanism. 3 Credit Hours.
Study of Italian cities and towns from medieval to contemporary times, including a comparative analysis of history and form.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 536. Italian Gardens. 3 Credit Hours.
Study of Italian garden design during the Renaissance, Baroque and Mannerist periods. Emphasis on historical and political context.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 537. Research in Rome. 3 Credit Hours.
An exploration of Roman history, architecture and urban form through lectures, on site study and drawing assignments. Emphasis on chronological and spatial sequence of development.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 538. Interior Architecture Design. 3 Credit Hours.
Principles and technical components of interior design. Topics include activity, analysis, finishes, furniture, fixture, lighting, and acoustics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ARC 539. Adaptation to Climate Change. 3 Credit Hours.
Introduction to the phenomena and related discussion on the topic of climate change. Review of current scientific evidence, tactics for mitigation of emissions and other causal actions, followed by study of the adaptation required by changing conditions. Class assignments include creative proposals for adaptation action.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 540. Tropical Architecture. 3 Credit Hours.
A discussion of tropical architecture and the theme of tropicalism. Research, analysis and documentation in drawing of selected case studies
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 541. Seminar on Town Design. 3 Credit Hours.
Introduction to the lexicon of urbanism; analytical presentations of the concepts of: region, town, neighborhood, corridor, district, and building type; interdisciplinary presentations, review, and criticism of current town and urban design projects.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 542. Seminar on Housing. 3 Credit Hours.
Introduction to domestic building typology; exploration of the concepts of low, medium, and high density housing with attention to social, environmental, and economic issues; presentations of current case studies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 543. Seminar on Retrofit of Suburbia. 3 Credit Hours.
Introduction to the critical reconstitution of the city; theory and history of the concepts of revitalization and redevelopment; presentations, review, and criticism of current case studies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 544. Architecture of Palladio. 3 Credit Hours.
On site study of the architecture and urbanism of Andrea Palladio. Emphasis on the artistic precedents of the Veneto Region.
Components: LEC.
Grading: GRD.

ARC 545. Urban Composition. 3 Credit Hours.
Survey and analytical review of urban rooms as the vessel of human activity in urban culture. Study of proportional and compositional aspects of urban rooms together with economic, social, and cultural factors. Readings and discussion format.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 546. Studies of Havana. 3 Credit Hours.
Analysis of the physical structure of a major city and its environments including an exploration of its history and iconographic themes, mapping and building studies.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 547. Architecture and Urban Identity. 3 Credit Hours.
Study of the relationship between architecture and urbanism focusing on the ways by which architecture provides urban identity and image of place. Case studies relating monuments, fabric and urban plans to their culture, time and place. Lecture and seminar format.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 548. Seminar in Community Development. 3 Credit Hours.
Study of the contemporary context for the development of the physical environment. Examination of public, private and third sector implementation of building and community design. Format: guest speakers, readings, discussions, and seminar.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ARC 549. Construction and Project Management. 3 Credit Hours.
Management of construction projects including legal considerations and techniques of management science applied to construction. Includes engineering methods of cost and time estimating, and exercises in applications of engineering economics, flow charts, tracking progress, construction contracts, indemnity agreements, and network planning techniques including CPM and PERT.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 550. Professional Lecture Series. 3 Credit Hours.
Exposure to the various professional disciplines in South Florida that make contributions to the design process. Case study analysis and evaluation of current building project, from time of initial formulation through completion, including research, diagrammatic studies, site visits and lectures.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 551. Contemporary Theories of Architecture. 3 Credit Hours.
Theoretical basis of modern architecture and different present currents and movements. Agrarianism, technism, orthodoxy, brutalism, scientism, revivalism, con sumerism, rationalism, classicism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 553. Structural Design Theory. 3 Credit Hours.
Relationship of structural systems to architectural design. Case studies in the ories of structure, form and construction.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 554. Architecture of South Florida. 3 Credit Hours.
History of architecture and human settlements. Studies of significant architectural landmarks and urban design of the South Florida Region, chronological grow th of Miami, Miami Beach, Coral Gables, Key West and Palm Beach.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARC 555. 18th and 19th Century American Architecture and Architects. 3 Credit Hours.
The course concentrates on the development of early American architecture, Architects and Urbanism, primarily but not exclusively to 17th, 18th and 19th centuries with particular emphasis on theoretical, technological and cultural developments in America.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 557. Design and Fabrication Techniques. 3-6 Credit Hours.
Design, construction and detailing of wood and other materials as applied to furnishings and interiors. Workshop includes research, exercises, documentation and a final project.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 558. Theories of Landscape Architecture. 3 Credit Hours.
Leading theories of landscape architecture which have influenced current considerations of nature, landscape and design, including concerns such as urban heat island effect, climate change resilience, and health impacts of landscape.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 559. Sustainability and LEED Exam Prep. 1-3 Credit Hours.
Study of U.S. Green Building Council standards for environmental efficacy in building and neighborhood design. Emphasis on fundamental knowledge of green building concepts, including transportation, energy, water and air quality. Includes preparation for LEED Accreditation Exam and registration for exam that provides the credential signifying expertise in green building and a LEED rating.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ARC 560. Contemporary Latin American Architecture. 3 Credit Hours.
An examination of Contemporary Latin American Architecture and Urbanism from the turn of the 20th Century to the present day. The work of some of the great figures on Latin American Modernism such as Niemeyer and Barragan, to contemporary figures such as Paulo Mendes da Rocha and Isay Weinfeld will be discussed. The influence of the Modern Movement in Europe and Le Corbusier will be reviewed. Large scale City Plans such as Lucio Costa’s Plan for Brasilia and Roberto Burle-Marx’s designs for Flamengo Park and Copacabana in Rio de Janeiro will be analyzed.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 568. History of Architecture II: Baroque through Contemporary. 3 Credit Hours.
Studies of the history of architecture and urban design. Focus on religious and secular monuments and their settings, domestic architecture and infrastructure, regional constructional and compositional traditions from the end sixteenth century through to the present. Corequisite: ARC502.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 569. Directed Readings. 3 Credit Hours.
A structured program of readings and essays organized by the student and his/her graduate supervisor constituting a preparation for graduate research in the student’s chosen area of interest.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 570. Modern Architecture. 3 Credit Hours.
History of architecture, landscape, and city design in the modern era.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARC 572. Selected Topics in World Architecture. 3 Credit Hours.
History of architecture and human settlements. Islamic Near East, North Africa, Hindu and Buddhist India, Nepal, S. E. Asia, China, Japan, Pre-Columbian America.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 574. Renaissance Architecture. 3 Credit Hours.
History of architecture and human settlements. Renaissance and Baroque architecture in Italy, France, Spain and Portugal, Great Britain, Austria, Germany, and neighboring countries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 577. The Architecture of Alvar Aalto. 3 Credit Hours.
An examination of the architecture of Alvar Aalto through the analysis of selected buildings.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARC 578. Italian Rationalist Architecture. 3 Credit Hours.
History of Italian architecture and urban design between 1914 and 1950: cultural, technological, and theoretical developments; relationship between architecture, politics and propaganda; related survey of the period in other countries (France, German, Soviet Union).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ARC 579. An Introduction to Resilient Building and Community Design. 3 Credit Hours.
This course introduces students to the relationships between climate, resiliency, architecture and urbanism; building awareness of the growing challenges and opportunities ahead, and the intersections between these disciplines. What does resilience mean in this broader context, and how should escalating stressors and shocks be addressed? Students learn about climate sciences, then research, document, and analyze evolving resilient design strategies, at the scale of buildings, neighborhoods and cities, in the end, applying those lessons to a given case study site; developing a holistic set of resilient design recommendations. During the course, students interact with specialists in the fields of architecture and urban design, as well as related fields, such as engineering, social, marine and environmental sciences, and/or policymakers, to better comprehend first-hand the interwoven scientific, social, environmental, and governmental ramifications to resilient design. Lastly, students learn the mechanics of participatory design methods employed to engage communities in related efforts.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARC 580. Professional Advancement, Internship + Research (PAIR). 3 Credit Hours.
Research Component of PAIR program. Student, host office and faculty collaboratively develop a focused, in-depth research project related to the tasks the student is completing as part of the Internship Component of the PAIR program. Application and PAIR committee acceptance required prior to enrollment.
Components: RSC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 581. Special Problems. 1-3 Credit Hours.
Group or individual investigations of significant architectural issues, offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 582. Special Problems. 3-6 Credit Hours.
Group or individual investigations of significant architectural issues, offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 583. Special Problems. 3 Credit Hours.
Group or individual investigations of significant architectural issues, offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 584. Special Problems. 3 Credit Hours.
Group or individual investigations of significant architectural issues, offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 585. Special Problems. 3 Credit Hours.
Group or individual investigations of significant architectural issues, offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 586. Special Problems. 3 Credit Hours.
Group or individual investigations of significant architectural issues, offered by special arrangement only.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARC 590. History of Cities. 3 Credit Hours.
Historical overview of the origin and development of cities around the world. Emphasis on intentional form of settlements (the ideal) as well as response to economic and political imperatives such as trade and defense (the real).
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ARÇ 592. Cinema and Architecture. 3 Credit Hours.
The class studies the relationship between architecture and cinema. Lectures, film screenings, and readings, explore the origin and development of
filmic space with an emphasis on its relation to the real and poetic image of the city. The class analyzes selected films as they relate to, comment,
criticize, and anticipate the development of contemporary concepts of space, urban space, interior space, etc.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARÇ 593. Computer Animation. 3 Credit Hours.
Explores the use of computer animation and advanced visualization techniques in architecture with emphasis on texture and lighting, spatial
choreography and s tory-boarding.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARÇ 594. Geographic Information Systems in Urban Design. 3 Credit Hours.
Exploration of Geographic Information Systems (GIS) in urban design. Principles of GIS and their application to spatial analysis, data management and visualiz ation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARÇ 596. Interactive Multimedia in Design. 3 Credit Hours.
Integration of text, video, sound, and computer graphics to create an interactive electronic information medium.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARÇ 597. Designing for the Internet of Things. 3 Credit Hours.
This course examines how current research and development in embedded computation bears on architecture, landscape, and urbanism. Students will
explore the implications and impact of ubiquitous computing in its potential to change the way we conceive, construct, inhabit and interact with our
buildings, landscapes, and cities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARÇ 598. Introduction to Programming for Architects. 3 Credit Hours.
As digital tools continue to play an increasing role in the Architect's toolkit, it is becoming increasingly important that Architects not only understand
how to use and navigate these tools but to customize and adapt them to their specific needs. Learning how to program allows Architects to start to
fully utilize the potential in digital tools by maximizing the possibilities in not only 3D modeling and digital fabrication but in responsive architecture,
embedded computation and animating spaces contributing to a more dynamic and potentially inter-connected built environment.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

1. **Curriculum Notes**
   - The School reserves the right to retain all student projects done in for academic credit hour.
   - MTH 130 AND ENG 105 are entry-level courses.

2. **Electives**
   - The program requires four types of electives:
     - Architecture electives (7 courses): Investigations in areas of architectural interest beyond the core requirements
     - Professional practice elective (1 course) : Focused examination of a topic related to practice
     - Non-Architecture electives (5 courses): Explorations of general University offerings
     - Minor (4-5 courses) or 2 cognates (6 courses): Concentrated study in an area outside of architecture
   - A minor or its equivalent is required for all students who began the program prior to the Fall of 2013. All others shall complete the cognate requirements. Areas are selected in consultation with advisors.

3. **Policies and Procedures**
   - Specific procedures and policies are detailed in the student handbook available from the Office of Academic Services.

| ARC 510 Architecture Design X                       | 6            |

| **Credit Hours**                                    | **18**       |
Mission
To prepare students for professional leadership and lifelong learning in architecture, urbanism, and related fields.

To advance knowledge and technology through research, and creative practice.

To deploy knowledge and technology through professional engagement, real-world applications, and community service.

To promote the goals of environmental responsibility, social equity, and economic sustainability.

Goals
• To prepare students for professional leadership and lifelong learning in architecture, urbanism, and related fields.
• To preserve and develop knowledge for the profession through research and practice.
• To share knowledge locally and internationally through community service.
• To promote building and community design goals of environmental responsibility, social equity, and economic sustainability.

Student Learning Outcomes
• Students will demonstrate the ability to effectively use basic architectural and environmental principles in design.

• Students will demonstrate the ability to raise clear and precise questions, use abstract ideas to interpret information, consider diverse points of view, reach well-reasoned conclusions, and test alternative outcomes against relevant criteria and standards.

• Students will demonstrate the ability to read, write, speak and listen effectively.

• Students will demonstrate the ability to use appropriate representational media, such as traditional graphic and digital technology skills, to convey essential formal elements at each stage of the programming and design process.

Bachelor of Science in Architectural Engineering and Master of Architecture
A six-year dual-degree program leading to a Bachelor of Science in Architectural Engineering and a Master of Science in Architecture is available. The program is open to exceptional students who are admitted to the graduate program at the end of their junior year. Upon completion of this program, graduates are eligible for professional registration as both an engineer and an architect.

$^1$ To be selected from approved lists of People and Society (PS)/Arts and Humanities (HA). Students take a minimum of 3 courses (9 credit hours) in HA cognate and 3 courses in PS Cognate (9 credit hours). Students are advised to select the HA Cognate that includes the following courses: ARC 230 or ARC 630, ARC 268 or ARC 476 and ARC 594.

$^2$ To be selected from approved list of Technical Electives

**Minor in Architecture**

**Overview**

A minor in architecture is available to non-architecture majors as an option in the undergraduate architecture program. The purpose of the minor is to provide a general understanding and appreciation of the discipline of architecture. The minor does not satisfy professional requirements in
architecture but does offer an introductory basis for further study at the undergraduate or graduate level. The program requires 12 credit hours in architecture courses.

**Curriculum Requirements**

Twelve architecture credits from the following list of courses may be taken to complete the requirements for the minor.

**Arts and Sciences**

http://www.as.miami.edu

**Introduction**

The College of Arts and Sciences at the University of Miami is a community of scholars and students that encourages the quest for a deeper understanding of the human experience and fosters a personal commitment to lifelong learning, intellectual growth, and the enduring values of the liberal arts.

The College is dedicated to helping students develop analytical and communication skills, creative abilities, and a sense of civic responsibility needed in an increasingly complex society. It strives to provide them with a rigorous grounding in their chosen field, an awareness of the interconnectedness of disciplines, and an exposure to the discovery of new knowledge.
The College seeks to create an intellectual environment that enhances individual growth and supports scholarly activities and creative endeavors that augment human knowledge and understanding.

**Degree Programs**

The College of Arts and Sciences offers courses leading to the degrees of:

- Bachelor of Arts
- Bachelor of Science
- Bachelor of Fine Arts
- Bachelor of Liberal Arts
- Bachelor of General Studies (offered in partnership with DCIE, for students who are at least 22 years old pursuing their first undergraduate degree)

Graduates with one of these degrees will have had a sound liberal arts introduction to the major fields of human knowledge. In addition to this background, each bachelor's candidate has the opportunity to select an area of academic or of occupational interest. Professional or pre-professional curricula leading to certification in teaching, or to dentistry, medicine, law, etc., can be built into the degree program.

**Academic Policies**

The College of Arts and Sciences follows the general university academic policies outlined in the General Academic Information section of this Bulletin.

**Requirements for Graduation**

Candidates for degrees in the College of Arts and Sciences must complete the credit hours of work and achieve the quality point average specified for students in the University at large. These requirements are indicated in the Academic Procedures and Information section of this Bulletin. Candidates must also complete the General Education requirements of the University, i.e., the Proficiencies: English Composition, Advanced Writing and Communication, and Quantitative Skills; completion of a cognate in each of the three areas: Arts & Humanities, People & Society, and Science, Technology, Engineering & Mathematics.

**I. Additional Proficiencies and Areas of Knowledge Requirements**

In addition to the university’s general education requirements, the college has the following requirements and provisos:

**Bachelor of Science**

- Second Language Proficiency: Degree candidates must earn at least 3 credit hours of a language other than English at the 200 level or higher.
- Advanced Writing and Communication Proficiency: Degree candidates must complete at least four writing courses, and at least one writing course must be in the student's major discipline.
- Mathematics Proficiency: Degree candidates must complete a calculus sequence: MTH 161-MTH 162, MTH 140-MTH 141-MTH 162, or MTH 171-MTH 172.
- Computing or Statistics Proficiency: Degree candidates must earn at least 3 credit hours in either
  1. a computing course approved by the major department; or
  2. a statistics course approved by the major department.
- Natural Science Area of Knowledge: Degree candidates must earn at least 3 credit hours in Natural Science, in one of the following departments: Biology, Chemistry, Geological Sciences or Physics. These credit hours must be earned in courses that count toward a major in that department.

**Bachelor of Arts**

- Second Language Proficiency: Degree candidates must earn at least 3 credit hours of a language other than English at the 200 level or higher.
- Advanced Writing and Communication Proficiency: Degree candidates must complete at least four writing courses, and at least one writing course must be in the student’s major discipline.
- Mathematics Proficiency: Degree candidates must earn at least 3 credit hours in a Mathematics course numbered MTH 108 or higher.
- Natural Science Area of Knowledge: Degree candidates must earn at least 3 credit hours in Natural Science: Anthropology (only APY 203), Biology, Chemistry, Ecosystem Science and Policy (only ECS 111, ECS 112, ECS 202), Geography (only GEG 120), Geological Sciences, Marine Sciences (except MSC 313, MSC 314), Physical Sciences, and Physics.

**Bachelor of Fine Arts**

- Advanced Writing and Communication Proficiency: Degree candidates must complete at least four writing courses, and at least one writing course must be in the student's major discipline.
- Mathematics Proficiency: Degree candidates must earn at least 3 credit hours in a Mathematics course numbered MTH 108 or higher.
Bachelor of Liberal Arts

- Advanced Writing and Communication Proficiency: Degree candidates must complete at least four writing courses, and at least one writing course must be in the student's major discipline.

BACHELOR OF GENERAL STUDIES

Requirements for the BGS degree can be found here (p. 976):

Details of the Second Language Proficiency

Second language requirements can be fulfilled through courses offered in the departments of Modern Languages and Literatures (Arabic, Chinese, French, German, Haitian Creole, Hebrew, Italian, Japanese, Portuguese, and Spanish, except for courses numbered 310-319), Classics (Latin and Greek), and Teaching and Learning in the School of Education (American Sign Language). The department of Modern Languages and Literatures has special courses required of heritage learners who wish to use that language to fulfill the language requirement by taking courses in their heritage language. These courses are designated as “open to heritage learners.” Courses taken in order to meet second language requirements, including necessary prerequisite courses, cannot be used in cognates taken to fulfill the Areas of Knowledge requirement.

Students who have completed at least two years of full-time secondary schooling beyond the age of 14 in which the primary language of instruction was a language other than English are eligible for exemption from the A&S second language requirement. Exemption will be granted by A&S Office of Student Advising. To be granted the exemption, the student must have on file a transcript from the secondary institution providing proof that the primary language of instruction was a language other than English.

Details of the Advanced Writing and Communication Proficiency

Degree candidates must complete at least four writing courses, and at least one writing course must be in one of the student’s major disciplines (not applicable to BLA students who do not select a major). Students should consult the bulletin section of their major to find out which writing-intensive courses are acceptable to the discipline.

Individual writing course offerings may make the writing component independent of the rest of the course. As such the the writing component might be optional, the writing component might not contribute to the overall grade, and writing credit might be awarded even if the overall grade is a fail.

Transfer students may use a maximum of two transfer courses towards the writing requirement.

II. Major and Minor Fields (B.A. and B.S degrees)

B.A. and B.S. degree candidates must choose a major offered in the college by one of the disciplines with an undergraduate academic program in the college, and at least one other minor or major from any of the disciplines in the university. B.S. degree candidates must choose a major from one of the STEM fields: Biochemistry and Molecular Biology, Biology, Chemistry, Computer Science, Ecosystem Science and Policy, Geological Sciences, Mathematics, Microbiology and Immunology, Neuroscience, Physics, Psychology. B.A. degree candidates must choose at least one major or minor from a field other than the STEM fields: Biochemistry and Molecular Biology, Biology, Chemistry, Computer Science, Geological Sciences, Mathematics, Microbiology and Immunology, Neuroscience, Physics, Business Technology, and Engineering. The majors and minors taken by a student must come from different fields of study. Multiple majors and minors may be taken from departments and programs that offer multiple fields of study. To find the requirements for majors and minors, consult this bulletin under the discipline concerned, and confer with the designated departmental representatives. Any student who does not make satisfactory progress towards a major may be required to change or relinquish candidacy for the degree.

Individual courses may be used to satisfy the requirements of multiple majors and minors. However, each major taken by a student must include at least 24 credits that are not counted towards any other major or minor, and each minor must include at least 9 credits that are not counted towards any other major or minor. If a major or minor is used to fulfil a cognate requirement, the 24/9 credits may also not be counted towards any other cognate.

III. Additional Bachelor of Fine Arts Requirements

B.F.A. degree candidates must satisfy the requirements of a major as determined by the Department of Art and Art History or the Department of Theatre Arts. B.F.A. studio majors must minor in Art History. Students must maintain at least a GPA of 3.0 in their major, and an overall GPA of 2.0 or above as specified in departmental and program sections of this bulletin.

IV. Additional Bachelor of Liberal Arts Requirements

B.L.A. degree candidates must complete 120 credit hours with an overall GPA of 2.0 or above. At least 60 of the 120 credit hours must be in 300, 400, or 500-level courses. Of these 60 credit hours, 30 credit hours must be completed in the College of Arts and Sciences. No more than 40 credit hours in 300-level or higher courses may be earned in any one department, and no more than 52 total credit hours may be earned in any one department. Up to 30 of the 120 credit hours may be courses from other schools and colleges of the university except for those courses expressly excluded from recognition by the college. Students may, but are not required to, elect a major in a department. If a student fulfills the departmental requirements for the major, it will be recorded on the official transcript. No minor may be elected.

V. Other Requirements

General Electives

Beyond the general education and major/minor courses, all students must complete sufficient general electives to reach a total of 120 credit hours. Students pursuing a dual degree, when one or more of the degrees are in the College of Arts and Sciences, must complete a minimum of 150 credit
hours. General electives may be chosen from any courses offered by the University. The student should consult an advisor before selecting elective courses.

**Credit Only**

Only general electives may be taken under this option. Courses that are used to satisfy the major, the minor, the distribution requirements of the College and the general education requirements of the University may not be taken for credit only.

**Exemption**

Exemption from a course or courses refers specifically to the following:

1. credit by examination through the Advanced Placement (AP) or International Baccalaureate (IB) programs;
2. advanced placement by proficiency examinations or test scores, with no credit earned;
3. advanced standing and/or placement, with credit earned.

**Transfer Credit Hours**

Credit hours transferred from other institutions may not count towards the completion of a major or minor without the written approval of the department or program.

**Independent Major**

The Independent Major allows students to pursue a BA or a BS degree in the College of Arts and Sciences, depending on the field of study and in consultation with the Guidance Committee. Students will fulfill all requirements for such degrees.

Students may begin to develop a proposal for the IM when they have reached sophomore standing. The proposal should explain why existing majors are inappropriate or inadequate to satisfy the student's interests. Students will be ineligible for declaring the IM upon reaching senior standing, that is, they must declare as a sophomore or a junior and spend at least two (2) full semesters in residence at UM in the IM. Students must have a cumulative UM GPA of 3.5 or higher to be eligible for the IM.

A student’s Guidance Committee typically will comprise two tenured or tenure-track faculty, typically from different departments, who represent the disciplinary breadth of the courses selected for the IM. A third Guidance Committee member might be appropriate when the proposed course of study encompasses expertise from three Departments or disciplines. The Guidance Committee Chair, who has primary oversight responsibility regarding satisfactory completion of the major, will serve as the primary advisor for the student’s senior research/creative project under most circumstances, and must be a tenure-track faculty. Exceptions to the Chair serving as the primary advisor might include situations where there are co-advisors.

The IM proposal must include at least thirty (30) credit hours of coursework beyond those needed to fulfill General Education requirements. Of those thirty (30), at least six (6) must be at the 300 level; additionally, six (6) credit hours will be satisfied by a Capstone project/thesis in the last two (2) semesters of the Bachelor’s degree. Because many courses have variable availability and conflicts are inevitable, strong proposals will identify more than 30 credit hours of coursework before being submitted to the Advisory Committee for approval. If a student wishes to pursue the IM as a double-major, the Advisory Committee should give particular attention to the appropriateness of the student’s plan of study; in keeping with the College's regulations, the Independent Major must consist of at least 24 graded credit hours that are not counted towards any other major or minor.

**Independent Minor**

The Independent Minor allows students at the University of Miami to complete a minor in a field that currently do not have a major in the College or elsewhere at the University of Miami. It consists of at least 15 graded credits and it requires one faculty member who will act as point of contact and advisor. Students may declare this minor starting with their second semester at UM and no later than the end of their junior year. A minimum GPA for 2.5 is required to declare this minor. An average of 2.5 is required to continue in the minor. Given that this minor requires students to work closely with a faculty member to select the appropriate courses at a level consistent with each field of study, students will not be able to apply more than two courses (6 credits) already taken to their minor. The 15 credits required, at a minimum, for the Independent Minor may not be counted towards any other major or minor.

**Academic Appeal Policy and Procedures**

The College’s Faculty Committee on Academic Appeals (FCAA) is responsible for reviewing and conducting hearings on appeals related to exceptions to academic policy under the authority of the College of Arts and Sciences. Appeals must be submitted directly by the student from their student UM email account. Appeals will not be accepted from parents/guardians, doctors, attorneys, or anyone else other than the student. Please read below for a list of acceptable and unacceptable appeal requests. All appeals related to course drops/enrollment adjustments MUST be submitted within one (1) calendar year from the semester end date noted on the academic calendar for the semester in question. Transcripts will not be altered once a student has graduated and has a conferred degree. Appeal decisions will be delivered to students’ UM email account within 2 to 3 business weeks upon receipt of the appeal. All appeal decisions are final and non-negotiable. The student maintains full responsibility for the impact of an appeal decision, especially as it relates to their account, financial aid, visa status, academic progress, and graduation timeline.
Steps to Submit an Acceptable Appeal:
1. Draft an email to the Assistant Dean of Academic Services – see website for contact information. as.miami.edu/advising.
2. The appeal email must briefly describe the situation, the reason/justification for the request, the specific request/action, the specific year/term/ course ID as applicable to the type of appeal, and the student’s name/ID.
3. Appeals must be accompanied by supporting documentation, if applicable to the type of appeal. Documentation must be submitted as an attachment to the appeal email. It is the responsibility of the student to determine what documentation best supports their appeal case. We will not pre-approve documentation before submission of the appeal. We will only accept documentation from the student submitting the appeal.

Appealable Actions for Committee Review:
1. Request for retroactive drop of one, or more, courses after the last date to drop without a W, and/or after the last day to drop a class for the semester in question. This type of appeal is only considered for cases of extreme, unforeseen circumstances or medical emergencies that can be documented. Retroactive drop action can NOT result in a complete withdrawal (all enrolled classes dropped).
2. Request for waiver of the 45 credit hour residency requirement
   a. Appeal must include the institution where credits will be/were taken, the year/term to be/were taken, and the exact number of credits to be considered for waiver.
   b. This process does not preapprove transfer equivalencies or guarantee transferability of courses. Students are responsible for adhering to all necessary policies and procedures related to transferring courses to UM.
3. Substitution for, or waiver from College of Arts and Sciences’ General Education Requirements (not University general education requirements – see below).

The following requested actions are not appealable through the College of Arts and Sciences FCAA:
1. Adjustment of academic record/transcript after graduation and a conferal of the degree: See University Bulletin
2. Retroactive withdrawals for Fall/Spring semesters
   a. The University has a formal withdrawal policy found here (https://success.miami.edu/student-withdrawal/).
3. Retroactive withdrawals for summer sessions that alters the effective date of the withdrawal
   a. See withdrawal policy linked above
4. Grade Appeals, including incomplete grades that are now IF grades
   a. See Faculty Senate Appeals process in Bulletin here (p. 85).
5. Waiver of University General Education Requirements as defined by the Bulletin: No appeals process available
6. Substitution for/waiver from any requirements related to a major or minor: Under respective department authority
7. Excused absences from a course(s): Absences are under the authority of individual instructors
8. Credit Only Option after deadline: No appeals process available

PreLaw Preparation

Although no specific curriculum is required in preparation for Law School, the Pre-Law Committee of the American Bar Association strongly recommends that students considering a career in Law should have a well-balanced education. This education should include courses requiring intensive writing, logical reasoning and critical thinking and reading skills.

Prelaw Advising provides a variety of services to all students interested in attending Law School. For more information, please contact the Office of Student Academic Services in Ashe 200. These services include:

1. Pre-Law Advising: confidential advising in preparation for law school (i.e. application process, general information, discussion of your concerns).
3. Pre-Law Newsletter: information about programs and events.
4. LSAT and LSDAS registration booklets (for juniors and seniors).
5. Campus-wide programs for pre-law students such as Law Day.
6. Programs and seminars in coordination with other University of Miami departments such as: School of Law Career Planning Center, School of Law Center for Ethics and Public Service, Toppel Career Planning and Placement, the Counseling Center, and the Reading and Study Skills Center.

In order to take advantage of the services listed above a student should complete a Pre-Law registration card at the beginning of the academic year.

Max and Peggy Kriloff Fund

The Max and Peggy Kriloff Fund is a fund that provides travel support for students earning degrees from the College of Arts and Sciences. The fund provides support for students to present papers, or posters at professional conferences worldwide. Students will need to fill out an application form available at this link (http://www.as.miami.edu/academics/undergraduate-studies/scholarships/); and submit it, along with the necessary supporting documentation to the Office of Graduate and Administrative Services in the College of Arts and Sciences.

Foote Fellows pursuing degrees in the College of Arts and Sciences are exempt from all University-wide and College-specific general education requirements. They are eligible for priority admission into the daVinci program, first-year seminars, and internships in the Dean’s office. Opportunities
to learn by doing, through research or tutorials, as well as seed money for students interested in developing a business plan or a prototype are also available to A&S Foote Fellows. Questions? Read more (http://www.as.miami.edu/academics/undergraduate-studies/foote-fellows/) or go to Ashe 200 for answers!

The da Vinci Program encourages high-achieving, intellectually curious students to rethink the map of human knowledge. It emphasizes connections between humanistic and scientific inquiry and their modes of understanding: objectivity, critical analysis, self-reflexivity, the nature of proof, authority, and the logic and rhetoric of written expression. It also helps define the distinctive elements that humanities classes can offer to STEM-minded students: a chance to reflect on questions of human values, ethics, and aesthetics. At the same time, it introduces humanities students to conceptually new means of investigating the traditional fields.

Students are invited in the program before their first year and they take a seminar per semester in each of the first four semesters of study. Students in the da Vinci program are exempt from College - specific requirements. A capstone experience marks the conclusion of their undergraduate career. Read more (http://www.as.miami.edu/davinci/) about the Davinci Program.

The Advanced Program in Integrated Science and Math (PRISM) brings together top first-year students interested in the natural sciences. The program is designed for those who plan on pursuing postgraduate education and a career in science or medicine (Ph.D./M.D. track). Our outstanding faculty, lab directors, graduate assistants, and caring advisors are here to encourage integrated learning in STEM disciplines. PRISM students are exposed to new developments in science and are encouraged to become actively engaged in research during their undergraduate experience. PRISM classes are advanced versions of the typical track done by a first-year natural science student, so there are no additional classes to complete. Read more (http://www.as.miami.edu/prismrsvp/) about the PRISM program.

**Dual Degree Honors Programs**

**Fellows in Latin American Studies (FILAS)**

This innovative, dual B.A./M.A. honors degree in Latin American Studies allows outstanding incoming freshmen the opportunity to complete a master’s degree in five years, following a rigorous, efficient, accelerated curriculum of 150 credits. This highly selective group of students will enjoy close faculty mentoring and the opportunity to engage in specialized research projects with faculty. Students will gain advanced competence in at least one major language of Latin America, intern for one semester in public or private organizations dealing with Latin America and/or the Caribbean, and take advanced seminars with UM’s major Latin American scholars and visiting scholars. In addition, students will receive first-hand experience in their regions of focus by studying abroad. Most study abroad opportunities are for one semester (six months). FILAS students may arrange their own study abroad in consultation with the academic director or they may participate in the university’s study abroad options. Applicants must be high school seniors in the top 10% of their class and must have a minimum SAT I score of 1360 or (ACT 31). In addition to the regular Application for Admission to the University, the applicant must complete a separate application form for the Fellows in Latin American Studies (FILAS). The FILAS application form and supporting materials must be submitted no later than November 1st of the applicant’s senior year. A review of completed applications will begin by the end of November. Admitted first-semester freshmen interested in admittance to the FILAS program should contact the Academic Director of the Latin American Studies Programs for application information before October 1st.

For further information and application forms please visit this website (http://www.miami.edu/dualdegree/).

**Dual-Degree Program in Law for Undergraduates**

To be considered as a High School Student, applicants must:

- have a minimum SAT I score of 1350 (combined Math and Critical Reading scores) or a 30 on the ACT;
- have three (3) letters of Recommendations from high school teachers;
- complete a Dual-Degree Program Supplemental Application (https://admissions.miami.edu/_assets/pdf/honors-program-supplemental-101918.pdf) for Law by November 1st

To be considered as an Undergraduate Student, applicants must:

- have a minimum SAT I score of 1350 (combined Math and Critical Reading scores) or a 30 on the ACT;
- have an overall cumulative grade point average of 3.5 in all college-level courses;
- have Two (2) letters of recommendations from college-level professors;
- complete a Dual-Degree Program Supplemental Application (https://admissions.miami.edu/_assets/pdf/honors-program-supplemental-101918.pdf) for Law.

Students admitted into the program must successfully complete 90 credits earned toward their undergraduate degree, including requirements for their majors and any minors they may be undertaking. Students must complete 90 credits in college course work at the University of Miami, including advanced standing credits, before matriculating into the University of Miami School of Law. The University of Miami requires that the last 45 credits be taken in residence. Students will graduate from the College of Arts and Sciences (http://www.as.miami.edu/) upon completion of 120 credits including AP/IB credit. Please visit http://www.law.miami.edu/admissions/dual-degree-program-in-law-for-undergraduates/ (http://www.law.miami.edu/admissions/dual-degree-program-in-law-for-undergraduates/).
Aerospace Studies
afrotc.as.miami.edu
Dept. Code: AIS

Air Force Reserve Officer Training Corps (AFROTC)
AFROTC is a nationwide program that allows students to pursue commissions (become officers) in the United States Air Force (USAF) while simultaneously attending college. AFROTC classes are held on college campuses throughout the United States and Puerto Rico; students can register through normal course registration processes. AFROTC consists of four years of Aerospace Studies classes (Foundations of the USAF, Evolution of USAF and Space Power, Air Force Leadership Studies, and National Security Affairs/Preparation for Active Duty), and a corresponding Leadership Laboratory for each year (where students apply leadership skills, demonstrate command and effective communication, develop physical fitness, and practice military customs and courtesies). College students enrolled in the AFROTC program (known as "cadets") who successfully complete both AFROTC training and college degree requirements will graduate and simultaneously commission as Second Lieutenants in the Active Duty Air Force.

For more information on AFROTC course descriptions, please review this webpage (p. 137). For more information on the AFROTC program, please review this webpage (http://www.as.miami.edu/afrotc/).

Enrollment
There is no military obligation to enroll in AFROTC. To enroll students must meet the following criteria:

- Prior to enrolling in Aerospace classes, students must speak with a professor/cadre member at (305) 284-2870.
- Be a U.S. citizen or resident alien, or be able to become a U.S. citizen prior to attending Field Training the summer following sophomore year
- Be full-time college students, enrolled in 12 credit hours per semester
- Be able to participate in a demanding physical fitness program
- Be able to pass a Department of Defense Medical Examination
- Have solid moral character
- Maintain AFROTC minimum required grade point average

Scholarships
More than 60% of Air Force ROTC scholarships are awarded to undergraduate students in engineering or other scientific and technical disciplines. However, students in every degree program enjoy scholarship opportunities, as the Air Force seeks to engage students who excel both academically and militarily. Scholarships are awarded in increments of two, three, and four years. Air Force ROTC offers several types of scholarships. Type 1 covers full tuition and most required fees. Type 2 covers tuition and fees, but is capped at $18,000 annually. Type 7 scholarships are designated for in-state tuition-level institutions. All types of awards provide an allowance for books and a monthly non-taxable stipend. All scholarship cadets are required to meet academic, military, and physical fitness standards to earn and maintain scholarship benefits.

Additionally, University of Miami undergraduates enrolled in the Air Force ROTC program are assured a combined University grant and/or scholarship award during the fall and spring semesters equal to 25% of the University's tuition charge for a maximum of four years. The subsidy is not available during the summer term. Students must maintain continuous enrollment in the AFROTC program, must maintain satisfactory academic progress to continue receiving the subsidy, and full time enrollment in one of the University's undergraduate degree programs is required. No application is required. Awards are made automatically based on information provided by the University's AFROTC detachment.

Benefits
All AFROTC cadets receive uniforms, books and equipment for ROTC classes at no cost. Upon being commissioned a Second Lieutenant in the Air Force, you will receive a starting salary and allowances worth more than $58,000 annually\(^1\). Free medical and dental care, 30 days paid annual vacation and educational benefits are also part of the compensation package.

\(^1\) Based on 2013 Pay Chart and Miami FL Housing Allowance for an O-1
AIS 101. Heritage and Values 1. 1 Credit Hour.
This course provides an introduction to the Air Force, hopefully encouraging students to pursue an AF career or at least seek additional information to be better informed about the role of the USAF. The course allows students to examine general aspects of the Department of the Air Force, AF Leadership, Air Force benefits, and opportunities for AF officers. The course also lays the foundation for becoming an Airman by outlining our heritage and values. As a foundational course, this course also provides a historical perspective such as lessons on war and US military, AF operations, principles of war, and airpower (see the complete lesson list below). As a whole, this course provides students with a knowledge-level understanding for the employment of air and space power, from an institutional, doctrinal, and historical perspective. The students will be introduced to the Air Force way of life and gain knowledge on what it means to be an Airman. A succinct perspective of the course objective is to sell the AF as a career and lay a strong foundation built on AF Core Values.
Corequisite: AIS 150.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

AIS 102. Heritage and Values 2. 1 Credit Hour.
A continued introduction to the Air Force, hopefully encouraging students to pursue an AF career or at least seek additional information to be better informed about the role of the USAF. The course allows students to examine general aspects of the Department of the Air Force, AF Leadership, Air Force benefits, and opportunities for AF officers. The course also lays the foundation for becoming an Airman by outlining our heritage and values. As a foundational course, this course also provides a historical perspective such as lessons on war and US military, AF operations, principles of war, and airpower (see the complete lesson list below). As a whole, this course provides students with a knowledge-level understanding for the employment of air and space power, from an institutional, doctrinal, and historical perspective. The students will be introduced to the Air Force way of life and gain knowledge on what it means to be an Airman. A succinct perspective of the course objective is to sell the AF as a career and lay a strong foundation built on AF Core Values.
Corequisite: AIS 150.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

AIS 150. Leadership Laboratory. 0 Credit Hours.
Leadership Laboratory (LLAB) is a dynamic and integrated grouping of leadership developmental activities designed to meet the needs and expectations of prospective Air Force second lieutenants and complement the AFROTC academic program. It is a student planned, organized, and executed practicum conducted under the supervision of the Detachment 155 Commander and Operations Flight Commander.
Components: LAB.
Grading: CNC.
Typically Offered: Fall & Spring.

AIS 201. Team and Leadership Fundamentals I. 1 Credit Hour.
This course is designed to provide a fundamental understanding of both leadership and team building. It is imperative that cadets are taught from the beginning that there are many layers to leadership, including aspects that don't always jump to mind. Such things include listening, understanding themselves, being a good follower and problem solving efficiently. The students will apply these leadership perspectives when completing team building activities and discussing things like conflict management. Students should demonstrate basic verbal and written communication skills. Cadets will apply these lessons at Field Training.
Corequisite: AIS 150.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

AIS 202. Team and Leadership Fundamentals 2. 1 Credit Hour.
This course is designed to provide a fundamental understanding of both leadership and team building. It is imperative that cadets are taught from the beginning that there are many layers to leadership, including aspects that don't always jump to mind. Such things include listening, understanding themselves, being a good follower and problem solving efficiently. The students will apply these leadership perspectives when completing team building activities and discussing things like conflict management. Students should demonstrate basic verbal and written communication skills. Cadets will apply these lessons at Field Training.
Corequisite: AIS 150.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
AIS 301. Leading People and Effective Communication I. 3 Credit Hours.
A continued course designed to build on the leadership fundamentals taught in previous level courses. The cadets will have the opportunity to utilize their skills as they begin more of a leadership role in the detachment. The goal is for cadets to have a more in-depth understanding of how to effectively lead people, and provide them with the tools to use throughout their detachment leadership roles. Secondly, cadets will hone their writing and briefing skills. Many of the cadets will be uncomfortable with public speaking, and this semester is designed to get them used to briefing. The course continues into advanced skills and ethics training that will prepare them for becoming an officer and a supervisor.
Corequisite: AIS 150.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

AIS 302. Leading People and Effective Communication 2. 3 Credit Hours.
A continued course designed to build on the leadership fundamentals taught in previous level courses. The cadets will have the opportunity to utilize their skills as they begin more of a leadership role in the detachment. The goal is for cadets to have a more in-depth understanding of how to effectively lead people, and provide them with the tools to use throughout their detachment leadership roles. Secondly, cadets will hone their writing and briefing skills. Many of the cadets will be uncomfortable with public speaking, and this semester is designed to get them used to briefing. The course continues into advanced skills and ethics training that will prepare them for becoming an officer and a supervisor.
Corequisite: AIS 150.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

AIS 401. National Security, Leadership Responsibilities and Commissioning Preparation 1. 3 Credit Hours.
Cadets enrolled in this course should comprehend the basic elements of national security policy and process. The student should comprehend the air and space power operations as well as understand selected roles of the military in society and current domestic and international issues affecting the military profession. Cadets should comprehend the responsibility, authority, and functions of an Air Force commander and selected provisions of the military justice system. The final semester of this course is designed to prepare cadets for life as a second lieutenant. This is a great time for instructors to include any information they feel would help their cadets as they transition from military life to civilian life.
Corequisite: AIS 150.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

AIS 402. National Security, Leadership Responsibilities and Commissioning Preparation 2. 3 Credit Hours.

Total Credit Hours 16
A grade of C- or higher, with an overall GPA of 2.0, is required in each course taken for the minor.

Africana Studies
Africana.as.miami.edu
Dept. Code: AAS

Introduction
Africana Studies offers students the opportunity to confront and critically analyze distinctive Black intellectual and social-cultural traditions, and political-economic and historical structures. Situated in Miami, Florida, we are uniquely positioned in and between the US South and the Global South. Therefore, our translocal perspective finds blackness and Black people everywhere in the world. As the university's center for Africana Studies, the Program reaches beyond undergraduate study-- inviting a wide variety of local and international graduate students, artists, scholars, and community advocates into our intellectual community.

Africana Studies' interdisciplinary structure offers students an opportunity to satisfy the increasingly rigorous expectations of graduate and professional school admissions committees and prospective employers, offering a broad liberal arts perspective that complements specialized knowledge of a field. Our curriculum and programmatic efforts uniquely help to prepare students to understand and effectively work toward social justice. We encourage all students, regardless of major, to enroll in Africana classes. Africana Studies can be taken either as a primary major, as one of two majors, or a minor.

Educational Objectives
1. To help students research, acquire, and disseminate information about the historical and social experiences of Africans and people of African descent on all sides of the Atlantic basin, but with special emphasis on the United States.
2. To facilitate students’ understanding of the multi-cultural, multi-ethnic, globalized society of our time.
3. To help students think critically about the global black experience.
4. To prepare students for graduate work and professional careers.

Departmental Honors
Carter G. Woodson Award - Best all-round student who combines intellectual excellence and community service.

Advanced Writing Requirement
To satisfy the College of Arts & Sciences writing requirement in the discipline, students majoring in Africana Studies should take at least one English course or one History course related to Africana Studies and is listed as an advanced writing course, and any Africana Studies course with the Writing Credit designation.

AAS 150. Introduction to Africana Studies. 3 Credit Hours.
Experiences of African American and other African-descended peoples with emphases on social, cultural, political, etc.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

AAS 260. History of Slavery in the Atlantic. 3 Credit Hours.
The emergence and eventual abolition of the Trans-Atlantic slave trade and its effects on both old and new world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

AAS 290. Special Topics. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AAS 350. Black Leadership in the U.S.. 3 Credit Hours.
Black leaders and leadership organizations. Emphasis on their role in overcoming oppression and barriers to advancement.
Prerequisite: 3 Credits in AAS.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
AAS 390. Special Topics. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

AAS 490. Senior Seminar in Africana Studies. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

Mission

Goals

**Student Learning Outcomes**

- Students will demonstrate interdisciplinary knowledge, including intellectual and social history, language and literatures, and social and global interconnectedness.

- Students will demonstrate the ability to identify and evaluate methodological approaches and schools of thought in Africana Studies, through written argumentation.

- Students will demonstrate marked improvement in (1) level of intellectual sophistication, (2) writing effectiveness, and (3) the ability to analyze and effectively present primary and secondary research data.

** American Studies

americanstudies.as.miami.edu

Dept. Codes: AMS

**Introduction**

The Program in American Studies at the University of Miami fosters the interdisciplinary study of American culture and society, and explores the place of the United States in an increasingly interconnected world. Our faculty come from a wide range of fields, including history, literature, political science, religion, art, philosophy, law, music, ethnic studies, anthropology, architecture, sociology, communications, and education. What unites them is the commitment to examining the U.S. from multiple perspectives, highlighting the diversity of people, cultures, and experiences that have shaped the past and present United States. The Program places analysis of globalization at its center, and encourages a hemispheric perspective that allows students and faculty to explore interests in the United States, the Caribbean, Latin America, the Pacific Rim, and other border crossings.

**Educational Objectives**

The undergraduate curriculum in American Studies encourages students to bridge the divide between disciplines by examining specific themes and topics in an engaging, dynamic, interdisciplinary manner. By exposing students to courses that place questions of cultural diversity, regional difference, ethnic and racial identity, gender and sexuality, class dynamics, and popular culture at the forefront of intellectual investigation, the Program in American Studies enables them to situate their own experiences in a wider context. It also exposes them to a multiplicity of perspectives that inform our understanding of the United States and its place in a global society. The Program encourages its majors to study abroad, and faculty members help students plan their curriculum to make that option feasible.

**Departmental Honors**

American Studies majors with a cumulative GPA of at least 3.5 in AMS courses and an overall GPA of at least 3.0 may earn departmental honors by completing AMS 505. Candidates for departmental honors are responsible for finding a faculty member to serve as thesis advisor. Students then must complete a thesis proposal of approximately 500 words that must be approved by the thesis advisor and the program director. The format and length
of the thesis will vary according to the nature of the project. Students would take AMS 501 in the fall semester of the senior year and AMS 505 in the spring to complete the honors thesis.

**Advanced Writing and Communication Requirement**

To satisfy the College of Arts & Sciences writing requirement in the discipline, students majoring in American Studies should take at least one English course or one History course related to the American Studies discipline listed as an advanced writing course.

**AMS 101. Introduction to American Studies. 3 Credit Hours.**
An interdisciplinary approach to American Studies with attention to a particular theme or period.
*Components*: LEC.
*Grading*: GRD.
*TYPICALLY OFFERED*: Fall & Spring.

**AMS 301. Topics in American Studies. 0-3 Credit Hours.**
Content varies by semester.
*Components*: LEC.
*Grading*: GRD.
*TYPICALLY OFFERED*: Spring.

**AMS 310. The United States in the World. 3 Credit Hours.**
The culture and history of the United States in a global framework.
*Components*: LEC.
*Grading*: GRD.
*TYPICALLY OFFERED*: Spring.

**AMS 321. Topics in American Studies: History. 3 Credit Hours.**
This course explores the field of history (including the study of experiences, texts, and theoretical aspects of individual and cultural pasts) within and in relation to the U.S. context. Specific focus and content vary by semester.
*Components*: LEC.
*Grading*: GRD.
*TYPICALLY OFFERED*: Offered by Announcement Only.

**AMS 322. Topics in American Studies: Literature. 3 Credit Hours.**
This course explores the field of literature (including the study of experiences, texts, and theoretical aspects of literary expression) within and in relation to the U.S. context. Specific focus and content vary by semester.
*Components*: LEC.
*Grading*: GRD.
*TYPICALLY OFFERED*: Offered by Announcement Only.

**AMS 323. Topics in American Studies: Politics. 3 Credit Hours.**
This course explores the field of politics (including the study of experiences, texts, and theoretical aspects of polity or institutional governance) within and in relation to the U.S. context. Specific focus and content vary by semester.
*Components*: LEC.
*Grading*: GRD.
*TYPICALLY OFFERED*: Offered by Announcement Only.

**AMS 324. Topics in American Studies: Religion. 3 Credit Hours.**
This course explores the field of religion (including the study of experiences, texts, and theoretical aspects of religious beliefs and institutions) within and in relation to the U.S. context. Specific focus and content vary by semester.
*Components*: LEC.
*Grading*: GRD.
*TYPICALLY OFFERED*: Offered by Announcement Only.

**AMS 325. Topics in American Studies: Law. 3 Credit Hours.**
This course explores the field of law (including the study of experiences, texts, and theoretical aspects of jurisprudence and legal culture) within and in relation to the U.S. context. Specific focus and content vary by semester.
*Components*: LEC.
*Grading*: GRD.
*TYPICALLY OFFERED*: Offered by Announcement Only.

**AMS 326. Topics in American Studies: Education. 3 Credit Hours.**
This course explores the field of education (including the study of experiences, texts, and theoretical aspects of literacies and the education of individuals and communities) within and in relation to the U.S. context. Specific focus and content vary by semester.
*Components*: LEC.
*Grading*: GRD.
*TYPICALLY OFFERED*: Offered by Announcement Only.
AMS 327. Topics in American Studies: Film. 3 Credit Hours.
This course explores the field of film (including the study of experiences, texts, and theoretical aspects of cinematic expression) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 328. Topics in American Studies: Music. 3 Credit Hours.
This course explores the field of music (including the study of experiences, texts, and theoretical aspects of musical composition and expression) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 329. Topics in American Studies: Art. 3 Credit Hours.
This course explores the field of art (including the study of experiences, texts, and theoretical aspects of aesthetics and creative expression) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 330. Topics in American Studies: Sociology. 3 Credit Hours.
This course explores the field of sociology (including the study of experiences, texts, and theoretical aspects of human engagements in society) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 331. Topics in American Studies: Geography. 3 Credit Hours.
This course explores the field of geography (including the study of experiences, texts, and theoretical aspects of spatial and regional studies) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 332. Topics in American Studies: Anthropology. 3 Credit Hours.
This course explores the field of anthropology (including the study of experiences, texts, and theoretical aspects of human cultural development) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 333. Topics in American Studies: Environmental Studies. 3 Credit Hours.
This course explores the field of environmental studies (including the study of experiences, texts, and theoretical aspects of environmentalism and sustainability) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 334. Topics in American Studies: Ethnic Studies. 3 Credit Hours.
This course explores the field of ethnic studies (including the study of experiences, texts, and theoretical aspects of racialized ethnic groups) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 335. Topics in American Studies: Women's and Gender Studies. 3 Credit Hours.
This course explores the field of gender studies (including the study of experiences, texts, and theoretical aspects of gender) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
AMS 336. Topics in American Studies: LGBTQ Studies. 3 Credit Hours.
This course explores the field of LGBTQ studies (including the study of experiences, texts, and theoretical aspects of LGBTQ individuals and groups) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 337. Topics in American Studies: Cultural Studies. 3 Credit Hours.
This course explores the field of cultural studies (including the study of experiences, texts, and theoretical aspects of culture/cultural groups) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 338. Topics in American Studies: International Studies. 3 Credit Hours.
This course explores the field of international studies (including the study of experiences, texts, and theoretical elements emerging from international or global arenas) in relation to a U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 339. Topics in American Studies: Urban Studies. 3 Credit Hours.
This course explores the field of urban studies (including the study of experiences, texts, and theoretical aspects of urban or city life) within and in relation to the U.S. context. Specific focus and content vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

AMS 350. History and Culture of South Florida. 3 Credit Hours.
The history and culture of South Florida from a multidisciplinary perspective.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

AMS 399. Independent Study. 1-3 Credit Hours.
By arrangement with instructor; content varies.
Components: LEC.
Grading: CNC.
Typically Offered: Offered by Announcement Only.

AMS 401. Seminar in American Studies. 3 Credit Hours.
Content varies by semester.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

AMS 499. Independent Study. 3 Credit Hours.
By arrangement with instructor; content varies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

AMS 501. Senior Project. 3 Credit Hours.
All majors must complete either an individual research project or an internship at a local cultural or civic institution. Either option must be approved by the program director.
Components: THI.
Grading: GRD.
Typically Offered: Spring.

AMS 505. Honors Thesis. 3 Credit Hours.
American Studies majors with a cumulative GPA of at least 3.5 in AMS courses and an overall GPA of at least 3.0 may earn departmental honors by completing AMS 505: honors thesis. Candidates for departmental honors are responsible for finding a faculty member to serve as the thesis advisor. Students would take AMS 501 in the fall semester or the senior year and AMS 505 in the spring to complete the honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Spring.

1 AMS 501 can take the form of an individual research project or an internship at a local cultural or civic institution. For the research option, students will identify an appropriate faculty member to supervise and grade the project, and then obtain approval from the program director before proceeding with the project. The student must produce a substantial written report or research paper, the format of which will be determined by the faculty member and student in consultation with the program director. For the internship option, students will partner with any number of local institutions and produce a creative and/or scholarly project for evaluation. The internship will be arranged through the program director in consultation with the Butler Center. The final product will be evaluated by the program director.

American Studies majors with a cumulative GPA of at least 3.5 in AMS courses and an overall GPA of at least 3.0 may earn departmental honors by completing AMS 505. Candidates for departmental honors are responsible for finding a faculty member to serve as thesis advisor. Students then must complete a thesis proposal of approximately 500 words that must be approved by the thesis advisor and the program director. The format and length of the thesis will vary according to the nature of the project. Students would take AMS 501 in the fall semester of the senior year and AMS 505 in the spring to complete the honors thesis.

2 Students must take three courses, chosen in consultation with an American Studies advisor, in a specialized area of American Studies (200 level or higher). Students may work in areas including, but not limited to, Ethnic Studies, Caribbean Studies, Latino/a Studies, Environmental Studies, Communication Studies, Women’s Literature, Urban Studies, Africana Studies, Religious Studies, or Material Culture Studies. At least one of these courses must be either comparative or non-U.S.-based.

**Mission**
Goals

Student Learning Outcomes

• Students will demonstrate thorough knowledge of a variety of disciplinary research methodologies that shape the study of the culture, politics, and society of the United States, and the ability to analyze both primary and secondary sources, by using a wide variety of sources in their study of the U.S. in support of interdisciplinary learning.

• Students will demonstrate a thorough knowledge in history, culture, and politics of the U.S. in the context of larger-scale global changes and by making comparisons with other cultures and societies in history.

• Students will demonstrate the ability to directly relate themes, analyses, and methodologies they learned in their courses to their own research projects.

1 A total of 9 credits at the 300 level are required. Either the American History or American Literature course must be at the 300 level to meet this requirement.

* A grade of C- or better in each course is required, with a cumulative GPA of at least 2.0 in AMS courses

Anthropology

anthropology.as.miami.edu

Dept. Code: APY

Introduction

Anthropology is the scientific study of humankind, from its beginnings to the present. Of the many sciences that study aspects of humans and their behavior, only anthropology attempts to understand and integrate the entire panorama of human culture and biology in all times and places.

The Anthropology Department offers a wide range of courses for students in pursuit of the Bachelor of Arts degree, from the basic four fields of cultural anthropology, linguistics, biological anthropology, and archaeology, to advanced study of topics such as Maya archaeology, non-Western medical practices, primatology, gender and sexuality, and the evolution of language, among many others.

Anthropological training concentrates on broadly transferable skill areas such as understanding human diversity, building research skills for collecting and making sense of information, and communicating effectively. The skills developed through completing a degree in anthropology are useful for living and working in today’s globalized world, which increasingly means interacting with people from many different cultural backgrounds and nations.

The field is especially suited to a multi-ethnic, multi-lingual, and multi-cultural urban center such as Miami, and the research programs of the department faculty reflect the compositions and concerns of our larger community.

Anthropological knowledge has taken an increasing role in the solution of practical problems in public health, cultural resource and heritage management, international business, legal and human rights issues, and many other areas. The anthropological view challenges ethnocentric perspectives and encourages the rigorous exploration of the world’s cultural diversity.

Educational Objectives

Students who graduate from our program in anthropology will have achieved:

1. Basic familiarity with each of the four subfields of our discipline: archaeology, cultural anthropology, linguistic anthropology, and physical or biological anthropology.
2. Extended familiarity with one or more of these subfields in terms of knowledge of content related to, for example, gender, food, primate behavior, art, ritual, museums and collections, the interaction of language and thought, material culture, the sounds of languages; and methodological skills involving field research in one or more of the subfields.

3. The ability to articulate the anthropological view of the human condition in terms of an operational definition of culture and a holistic perspective on how humans behave.

4. Sufficient skill in research to be able to produce a research paper based on original anthropological investigation.

**Advanced Writing and Communication**

To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in anthropology should take at least two courses designated as W (writing intensive) offered in the department. Writing courses are regularly offered by the department; however, it is the student’s responsibility to plan accordingly and to incorporate writing-designated courses into their graduation plans.

**Degree Programs**

The Department of Anthropology offers a major and a minor in the University’s array of Bachelor of Arts Degrees.

**Departmental Honors**

A student with junior or senior standing and a cumulative grade point average of 3.5 or higher may earn honors in anthropology by completion of a qualifying senior thesis encompassing an original research agenda under the direction of a member of the faculty in the Department of Anthropology. The scope of work will be set in a thesis proposal approved by at least two faculty (one may be from outside the Department) which will result in a submitted (although not necessarily accepted) manuscript/conference paper. Students who wish to complete a senior thesis shall enroll in senior thesis/independent study classes for at least two semesters (with three being ideal, or two plus summer), such that one semester could be devoted to a directed reading, one to data collections/analysis, and the final semester to writing.

Extraordinary Anthropology majors are also recognized via an invitation to join Lambda Alpha, the international honors society for anthropology. Lambda Alpha was founded with the purpose of encouraging and recognizing outstanding scholarship and research in anthropology. Each year the Department recognizes a graduating senior with the highest academic achievement both in and outside of the classroom with the Zora Neale Hurston Award in Anthropology.

**APY 100. Introduction to Forensic Investigation (EXP). 3 Credit Hours.**
Students will go into the field to gain an introductory understanding about skeletal identification and crime lab processes.
Requisite: Plan of Summer Scholar Program.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

**APY 101. Introduction to Anthropology. 3 Credit Hours.**
A broad overview of archaeology, cultural anthropology, biological anthropology, and linguistics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**APY 105. HIV: Sex, Science, and Society. 3 Credit Hours.**
The important role that science plays and has played in ameliorating suffering for mankind. We will include an analysis of the scientific, human, and policy-related issues associated with HIV/AIDS.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**APY 109. Anthropology of Religion. 3 Credit Hours.**
Through themes such as myth, word and text, symbol, gender, pilgrimage, embodiment, and ritual, students learn about lived religion through anthropological research and field methods. The course also exposes introductory-level students to diverse world religious traditions: Korean folk religion, Indonesian Islam, Hinduism in diaspora, Judaism across cultures, Japanese temple Shinto traditions, and more.
Components: LEC.
Grading: GRD.

**APY 200. Introduction to Forensic Anthropology (EXP). 3 Credit Hours.**
Students will learn the basics of the human bone structure and how it relates to anthropology and forensic studies.
Requisite: Plan of Summer Scholar Program.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
APY 201. Principles of Archaeology. 3 Credit Hours.
History, methods, and theory of archaeology with an outline of the main characteristics of the prehistoric record throughout the world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

APY 202. Principles of Cultural Anthropology. 3 Credit Hours.
Cultural anthropology, including such topics as economics, politics, kinship and families, health systems, religion, and personality.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

APY 203. Principles of Physical Anthropology. 3 Credit Hours.
The origin and biological development of the human species; human evolution explored by means of the fossil record of prehistoric population; differentiation and adaptation of contemporary populations in various world environments; the comparison of humans and other primates with respect to biological and behavioral variability.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

APY 204. Principles of Linguistic Anthropology. 3 Credit Hours.
Human linguistic principles of phonology, morphology, and grammar to construct a framework for understanding the operation of language in cultural context. The functions of human language in structuring ideological, economic, and political realms.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 205. Medicine and Health Care in Society. 3 Credit Hours.
A sociohistorical analysis of the intersection between medicine, health care and society, using examples throughout the world. It will reflect on 'taking-for-granted' concepts such as the 'body, risk, illness and healing' and their relationships to culture, power, and society, as well as the plurality of narratives and discourses on health and healing practices.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

APY 208. Short-Changed in the City. 3 Credit Hours.
Marginalization plagues sub-populations in almost every large city. An anthropological view of this problem and its origins, presented through readings, discussions, lectures and field trips.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 230. The Sounds of the World's Languages. 3 Credit Hours.
The range of sounds produced by the speakers of the world's languages. An introduction to phonetics, with a focus on acoustically-oriented methods used in contemporary phonetics.
Prerequisite: APY 204.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 301. World Prehistory. 3 Credit Hours.
The global prehistoric record, with emphasis on the development of social complexity and ancient states.
Prerequisite: APY 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 302. Ethnographies of Black Life. 3 Credit Hours.
Themes that have shaped Anthropology's engagement with Black Life. Critique between Black Studies and the social Sciences with particular focus on the discipline of anthropology, interrogation of the methods and theoretical frameworks employed to empirically distill the social conditions and political formations of black diasporic peoples.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.
APY 306. Human Evolution. 3 Credit Hours.
The macroevolution of humans using the fossil record of vertebrates, including the development of uniquely human behavioral and anatomical adaptations, and of diversity in living populations.
Prerequisite: APY 201 or APY 203.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 307. Human Adaptation. 3 Credit Hours.
Human biological adaptation to different environments and stress is examined anthropologically within an evolutionary framework. Mechanisms of adaptation to temperature extremes and other climatic variables, high altitude, disease, nutritional stress, urbanization, extraterrestrial conditions, and other environmental challenges are described in relation to biological and behavioral variations among human populations. The limits of human performance and human adaptive potential in the present and future are explored.
Prerequisite: APY 201 and APY 202 and APY 203 and BIL 101 and BIL 109.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 309. Evolution of Human Behavior. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 310. Primate Behavior and Adaptation. 3 Credit Hours.
The taxonomy, distribution, anatomy, social behavior and adaptations to habitats of human and non-human primates as seen from an evolutionary perspective.
Prerequisite: APY 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 312. Primate Cognition. 3 Credit Hours.
Examination of the cognitive capacities of non-human primates and the implications of current research for understanding the evolution of human cognition. Example topics include knowledge of categories, space and quantities; curiosity and innovation; causality and mechanical reasoning; memory and planning; theory of mind; imitation and culture; and communication and language.
Prerequisite: APY 203 or APY 310 or PHI 246 or PSY 250.
Components: LEC.
Grading: GRD.

APY 315. Folk and Alternative Medicine. 3 Credit Hours.
Historical and cultural backgrounds of health therapies, including theoretical bases of traditional ethnomedical, nonwestern, and complementary medical systems.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 320. The Evolution of Language. 3 Credit Hours.
Popular contemporary hypotheses on the origins and development of language.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 340. Marine Archaeology. 3 Credit Hours.
Location, excavation, and study of submerged sites.
Prerequisite: APY 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
APY 345. Blood and Chocolate: Ancient Civilizations of Mesoamerica. 3 Credit Hours.
An archaeological approach to understanding the major pre-Columbian cultures of Mesoamerica, from Olmec to Aztec periods, with emphasis on the ancient Maya. The particular accomplishments of this area such as the domestication of chocolate and corn, hieroglyphic writing, and elaborate sacrificial rituals will be explored.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 356. Florida Archaeology. 3 Credit Hours.
Archaeological remains of ancient cultures in the Florida peninsula, from initial occupation to the Colonial Period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 360. Anthropology of Food. 3 Credit Hours.
Evolution of human diet, basic nutrition, food taboos, effects of domestication, effects of diet on skeletal remains, analysis of your own food habits, and the impact of certain foods on the biocultural evolution of our species.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 361. Gender and Language. 3 Credit Hours.
The ways in which language is used in the constitution of gender from a cross-cultural perspective. Course is co-listed with WGS 361.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

APY 362. The Languages of the World. 3 Credit Hours.
The world’s languages. The primary focus is on major differences and similarities among the structural properties of languages from diverse regions and linguistic families. In short, an introduction to linguistic typology.
Prerequisite: APY 204.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 376. Economic Anthropology. 3 Credit Hours.
The structure and operation of the small-scale economy in the social system is examined. The interrelationship between social and economic systems, and the formation of non-market economies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 377. Anthropology of Political Systems and Discourse. 3 Credit Hours.
Political systems and processes in tribal societies, with special emphasis on dispute settlement, the organization of political control, and the use of oratory. Case studies from Latin American and African examples.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 384. Caribbean Archaeology. 3 Credit Hours.
An examination of human lifeways in the Antillean archipelago from first settlement through the development of complex socio-political structures in the Late Ceramic Age and ultimately the arrival of European and African migrants.
Prerequisite: APY 201.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 385. Caribbean Cultures. 3 Credit Hours.
Caribbean societies, including ethnic diversity, production and exchange, domestic organization, and belief systems.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
APY 390. Dead Bodies & Bioethics. 3 Credit Hours.
The ethical dilemmas faced by those who work or interact with dead bodies. We will explore dead bodies in multiple forms—decomposing, skeletonized, mummified, plastinated, etc. to address such topics as commercialization, public display, heritage and dark tourism, politicization, exhumation, consent, ownership, violence, and descendant communities. Our approach will be an anthropological one, though we will also draw from the fields of medicine, philosophy, law, history, and the humanities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 391. Gender in Ancient Cultures. 3 Credit Hours.
A cross-cultural examination of the role gender played in ancient complex culture areas, such as Mesoamerica, Mesopotamia, and the Mediterranean, with emphasis on using the archaeological record to reconstruct social roles.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 392. Sex and Culture. 3 Credit Hours.
A cross-cultural examination of sex roles and sexuality; gender identity, division of labor, functions of marriage, sexual practices, reproductive control, and political relationships between the sexes.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 393. Drugs and Culture. 3 Credit Hours.
Cross cultural review of human drug use with special attention to the use of drugs in cultural context.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 394. Comparative Religion. 3 Credit Hours.
A cross-cultural investigation of differing levels of religious belief systems examined from both etic and emic points of view.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 395. Gender, Race, and Class. 3 Credit Hours.
To explore human differences, we will interrogate common sense as: thinking about gender, race, and class. Certain queries will be addressed. What roles do scientific practice, political systems, and popular media play in shaping our thinking about differences? Where do we draw the line between biological fact and social construction? How do these facets of identity intersect and inform individuals’ everyday experiences? How might knowledge allow us to speak truth to power when institutional oppression occurs? An anthropological perspective will provide the central frame, though feminism, history, medicine, biology, psychology, and law will inform our considerations.
Prerequisite: APY 202 or GSS 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 396. Youth Culture, Identity, and Globalization. 3 Credit Hours.
Youth cultural practices and experiences in various urban contexts in the world. Particular emphasis is placed on marginalization, identity and commodification of violent practices as embedded in the globalization processes.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 397. Violence and Ritual. 3 Credit Hours.
Various theories of ritual and violence with reference to ethnographically-based topics. It will explore the role of symbols, rituals and ideologies in shaping and contesting power within nations and other political communities.
Prerequisite: APY 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
APY 398. Coastal Cultures. 3 Credit Hours.
Fishermen and their special relations to the environment, from Thailand and Sri Lanka to Alaska and the West Indies. Decision-making processes among fishermen, business concepts, responses to technology and myths of the sea.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 399. The Anthropology of Kinship and Family in America. 3 Credit Hours.
Theories of kinship and the family. It will examine emergence of new patterns of kinship networks and construction of individuals. Ethnographic materials will be drawn from the Americas and the Caribbean, particularly Brazil, Cuba, Haiti, Jamaica and the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 405. Readings in Anthropology. 1-3 Credit Hours.
Supervised readings on special topics in Anthropology.
Components: THI.
Grading: GRD.
Typically Offered: Fall.

APY 406. Readings in Anthropology. 1-3 Credit Hours.
Supervised readings on special topics in Anthropology.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 413. Medical Anthropology. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 414. Human Osteology. 3 Credit Hours.
Identification and interpretation of the human skeleton, including age, sex, hard tissue pathology and traumas.
Prerequisite: APY 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

APY 415. Forensic Anthropology II: Fieldwork. 3 Credit Hours.
The investigation, analyses, and legal aspects of human remains recovered from crime scenes and mass disasters.
Prerequisite: APY 203 or APY 414.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

APY 416. Bioarchaeology-Peopling the past. 3 Credit Hours.
Contextualization of bodies in space, cultural milieu and time are the primary focus of this course. Students will explore bioarchaeology's history, development and major topical concerns.
Prerequisite: APY 201 or APY 203.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 417. Archaeometry: The Science of Material Culture. 3 Credit Hours.
The archaeological application of a physical science (physics, chemistry, geology, etc.) techniques to answer pertinent anthropological questions about past societies.
Prerequisite: APY 201.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
APY 418. Seminar in Anthropology. 3 Credit Hours.
Consideration of special topics in physical anthropology, linguistics, archaeology and ethnology and their interrelationships.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

APY 419. Politics of the Past. 3 Credit Hours.
The intersection of archaeology, politics, capitalism, and discrimination to consider the presentation, misconstrual, revision, and reclamation of the past. Lecturing will be kept to a minimum, as the bulk of the class will be devoted to discussion and debate.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

APY 420. Archaeology, Architecture, and the City. 3 Credit Hours.
Ancient architectural remains in the global anthropological perspective, emphasizing the role of architecture in shaping the evolution of social and political interactions.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 421. Interpreting Bodies. 3 Credit Hours.
Perceptions, representations, and regulation of the physical body as a gendered and sexual site, as a source of pleasure, as a means of social validation, and as an object of coercion. Writing Credit. Lecturing will be kept to a minimum, as the bulk of the class will be devoted to discussion and debate.
Prerequisite: APY 202 and GSS 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 422. Pseudoscience in Archaeology. 3 Credit Hours.
Reconstructions of how people lived in the past that claim scientific validity, use the terminology of science, but are unsupported by evidence, can be called pseudoscientific. This course critically evaluates the field of pseudoscientific archaeology by applying the scientific method, logic, and common sense.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 423. Paleopathology: Health and disease in ancient peoples. 3 Credit Hours.
Paleopathology aims to familiarize students with the range of health conditions that present in preserved human remains and to explain the linkages between disease prevalence and culture, economics, and politics.
Prerequisite: APY 414 and APY 416.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 435. Anthropology of Nature and Environment. 3 Credit Hours.
This course is an introduction to the anthropological investigation of nature, biology, and environment. Taking examples from cultural anthropology and the subfields of environmental anthropology, political ecology, and the anthropology of science, the course builds an understanding of the various ways in which ideas about nature and human nature and nature making practices shape our contemporary world: its places, spaces, life forms, and forms of life.
Prerequisite: APY 202.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 480. Undergrad Internship Anthropology. 3-9 Credit Hours.
The purpose of the undergraduate internship is practical application of coursework to hands-on learning with field and laboratory research conducted in partnership with an academic, governmental, non-profit and/or private sector business entity. The goal is to acquire and practice skill sets required for advancement in professional careers. Students may elect to participate in more than one internship because of the four-field approach of the discipline of Anthropology.
Prerequisite: APY 201 or APY 202 or APY 203 or APY 204.
Components: DIL.
Grading: GRD.
Typically Offered: Summer.
APY 484. Anthropological Theory. 3 Credit Hours.
Theoretical frameworks directing data collection and research methodology in anthropology.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 485. Archeological Theory and Technique. 3 Credit Hours.
Theoretical traditions that shape modern archaeological research design and interpretation.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

APY 486. Advanced Colloquy in Black Feminist Theory and Praxis: Major Works of 7 Black Feminist Thinkers. 3 Credit Hours.
Black feminist theory, produced primarily by Black women scholars, artist and activists, throughout the diaspora, constitutes a distinctive and influential body of politics and thought. Black feminist’s uninvited interventions in Black politics, arts and letters—produced at the interstices of violence, silence, invisibility, or forgetting—exposes and makes available a wider horizon of possibilities than had been proposed before its emergence. The central theoretical innovation of this praxis (later claimed by theorists of various stripes), is the multiple—‘interlocking’, ‘intersectional’, ‘compounded’—constitution of “identity,” oppression, aesthetic sensibilities, for example, and therefore of roads toward freedom. This distinctive body of work is not only interdisciplinary, multilingual; but also constitutive to specific geographies, politics, experiences, and particular intellectual and political streams.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

APY 501. Methods of Anthropological Research. 3-6 Credit Hours.
Concentration on research methods for Cultural, Archaeological, Linguistic, and/or Biological Anthropology.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 502. Field Studies in Anthropology. 3-6 Credit Hours.
Field research in advanced topics in Cultural, Archaeological, Linguistic and/or Biological Anthropology. Preparation of data for professional presentation and publication is stressed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

APY 505. Museum Internship. 3 Credit Hours.
Field work and on-site experience in museum studies conducted in conjunction with the major museums in Miami. Training and research in methods and techniques in museology.
Prerequisite: APY 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

APY 506. Workshop in Anthropology. 3-6 Credit Hours.
This course is designed for upper level and graduate students to participate in special topics in Anthropology and related fields.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

APY 511. Artlab At Lowe. 3 Credit Hours.
Organizing an art exhibition at the Lowe Art Museum. Taught by a different faculty member each year.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

APY 512. Advanced Medical Anthropology. 3 Credit Hours.
Applications of theories and methods of medical anthropology to problems in human health and disease.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
APY 518. Advanced Seminar in Anthropology. 3 Credit Hours.
Specialized topics in Anthropology to involve students into current research specializations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

* A grade of C- or higher is required with an overall GPA of 2.0 in all APY courses.
** Majors are strongly encouraged to enroll in one of our many fieldwork opportunities or to obtain training in field methods specific to their interests. The remainder of the program will be developed with the student’s departmental adviser. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in anthropology should take at least two courses designated as W (writing intensive) offered by the department.

---

**Mission**

To teach students to identify the principles of human behavior and action, understand their cultural production and significance, and compare our own behaviors with those of people from other times and places around the world. The latter demands evolutionary, cross-cultural studies of human behavior.

**Goals**

Students who major or minor in anthropology at the University of Miami will:

- Successfully complete all courses required of Anthropology majors
- Demonstrate understanding of key methods and concepts of the discipline’s four sub-fields—biological anthropology, socio-cultural anthropology, linguistic anthropology, and archaeology
- Describe in depth the developments in research in at least one of the four subfields
• Receive a foundation in critical thinking and key disciplinary ideas so that they may continue their studies in doctoral, medical, or professional programs (i.e., law school, business school) or find employment in pertinent fields after graduation.

**Student Learning Outcomes**

• Students will demonstrate in-depth knowledge of concepts that unify the sub-fields, or what anthropologists study and why they do so.

• Students will demonstrate knowledge of research developments in at least one of the four subfields—biological anthropology, socio-cultural anthropology, linguistic anthropology, and archaeology. To this end, they will understand how contemporary anthropologists gain information and what they learn from data collected.

• Students will receive a foundation in critical thinking skills.

* A minor in Anthropology consists of 15 or more credit hours

** A grade of C- or higher is required with an overall GPA of 2.0 including any two 200-level anthropology courses.

*** Appropriate courses offered in other departments may also be counted toward the minor with approval of the Director of Undergraduate Studies.

---

**Art and Art History**

[art.as.miami.edu](art.as.miami.edu)

Dept. Codes: ART, ARH

**Educational Objectives**

The Department of Art and Art History provides facilities and instruction to serve the needs of the general student. The program fosters participation and appreciation in the visual arts for students with specialized interests and abilities preparing for careers in the production and interpretation of art and art history.

**Degree Programs**

The Department of Art and Art History offers two undergraduate degrees:

• The Bachelor of Arts, with tracks in:
  • Art (General Study)
  • Art History
  • Studio Art

• The Bachelor of Fine Arts in Studio Art, which allows for primary and secondary concentrations in:
  • Painting
  • Sculpture
  • Printmaking
  • Photography/Digital Imaging
  • Graphic Design/Multimedia
  • Ceramics

The B.A. requires a minimum of 36 credit hours in the department with a grade of C or higher. The B. A. major is also required to have a minor outside the department. Minor requirements are specified by each department and are listed in the Bulletin. The B.F.A. requires a minimum of 72 credit hours
in the department, a grade of C or higher in each course, a group exhibition and at least a 3.0 average in departmental courses. The B.F.A. major is not required to have a minor outside the department.

Writing within the Discipline
To satisfy the College of Arts and Sciences writing requirement in the discipline, students whose first major is art or art history must take at least one of the following courses for a writing credit: ARH 343: Modern Art, and/or ARH 344: Contemporary Art.

Departmental Honors
In order to be eligible for Departmental Honors, candidates must have completed at least nine credit hours at the 300 level or above, and must have a GPA of 3.5 in all their major courses and a 3.5 overall average GPA. Both GPAs must be maintained in order to graduate with Departmental Honors.

During their junior year, candidates for Honors must request admission to Departmental Honors from the Department Chair, and identify an exhibition/thesis faculty supervisor.

In addition to fulfilling the regular major requirements, students must register in their senior for six credits of Independent Study at the 500 level. Art majors will be expected to work on an exhibition project. Art history majors will be expected to research and write an Honors Thesis.

The Department Chair and the faculty supervisor will determine whether the completed exhibition project or thesis merits Departmental Honors.

Audit
Due to the nature of studio courses, it is not possible for a student to audit courses offered in the studio areas.

Art
ART 101. Introduction to Drawing I. 3 Credit Hours.
Contour, cross-contour, perspective, proportion, chiaroscuro, and gesture in pictorial composition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ART 102. Introduction to Drawing II. 3 Credit Hours.
Experimentation, chance, exaggeration, movement, texture, and color in pictorial composition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 103. Two-Dimensional Design. 3 Credit Hours.
Line, rhythm, shape, pattern, value, and color in pictorial composition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ART 104. Intro to 3D Design. 3 Credit Hours.
A background in the elements of three-dimensional aesthetics that will broaden students’ understanding and creativity in making sculptural objects. This course is the foundation for further study in sculpture, glass, and ceramics courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 105. Figure Drawing. 3 Credit Hours.
Drawing the human figure: proportion, anatomy, perspective, gesture, and expressive line. Prerequisite: ART 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 107. Introduction to Drawing III. 3 Credit Hours.
Continuation of ART 101 with emphasis on Renaissance perspective and alternative systems of spatial representation. Survey of materials and methods. Introduction of color. Prerequisite: ART 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ART 109. Introduction to Electronic Media. 3 Credit Hours.
Computer skills for desktop publishing and digital imaging.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 180. Studies in Studio Art. 1-3 Credit Hours.
Studio studies taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ART 202. Introduction to Painting. 3 Credit Hours.
Materials and techniques of easel painting.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 206. Special Topics in Studio Art for Undergraduate Students. 3 Credit Hours.
Course devoted to exploring new topics in studio art practice and theory, including media specific and/or inter-disciplinary approaches. Course content to be determined by Instructor.
Components: STU.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 210. Introduction to Digital Photography. 3 Credit Hours.
DSLR Camera and Lens Techniques and Adobe LightRoom Processing In Digital Photography.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ART 217. Introduction to Sculpture. 3 Credit Hours.
Integrated approach to concept development, craftsmanship and appropriate use of materials.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 251. Introduction to Printmaking. 3 Credit Hours.
Drypoint, engraving, etching, aquatint, and softground; relief and intaglio printed collographs; relief printing from linoleum.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 252. Introduction to Lithography. 3 Credit Hours.
To learn how to image, process and print lithographic plates and stones. Hand drawn, photographic and computer generated images will be covered on positive working lithography plates; traditional graining, drawing and processing of lithographic stones will also be covered as an optional method for students to pursue. Most printing will be a single color run but adding a second plate and monotyping will also be demonstrated. Print quality is the primary criteria for judging prints: lithography is known for its ability to create continuous tone prints, so utilizing that range of tone in your images is important. You may develop and choose your own subject matter and content or work experimentally and non-objectively.
Components: STU.
Grading: GRD.
Typically Offered: Spring.

ART 253. Silkscreen I. 3 Credit Hours.
Beginning silkscreen: monotyping with screens, reduction printing, multiple run silkscreen printing and beginning photo silkscreen.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ART 254. Computer Applications for Printmaking. 3 Credit Hours.
Software programs used as printmaking manipulation tools to aid in the planning of prints.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ART 260. Special topics in Ceramics. 3 Credit Hours.
Rotating topics course with a focus on developing modeling skills with clay through various forming methods.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 261. Hand-Built Ceramics I. 3 Credit Hours.
Beginning hand-building techniques: pinching, coiling, slab construction; introduction to glazing and firing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 262. Wheel Thrown Ceramics I. 3 Credit Hours.
Introduction to wheel throwing, glazing and firing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 263. Introduction to Glass Blowing. 3 Credit Hours.
Forming shapes and vessels from molten glass by the use of a blow pipe and glass tools.
Prerequisite: ART 104.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 268. Figure in Clay I. 3 Credit Hours.
Introduction to modeling the human figure in clay with emphasis on form, volume, proportion, basic anatomy, and gesture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 291. Graphic Design I. 3 Credit Hours.
A comprehensive approach to understanding design fundamentals and the practice of graphic communications.
Prerequisite: ART 109.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 292. Multimedia I/ Web Design. 3 Credit Hours.
Introduction to web design using several current time-based media.
Prerequisite: ART 109.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 293. Typography. 3 Credit Hours.
Type and image compositions, history, arrangement, style, aesthetics of printed communications, type software and calligraphy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 294. Multimedia II/ Animation. 3 Credit Hours.
Animation using time-based media.
Prerequisite: ART 109.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 301. Intermediate Painting I. 3 Credit Hours.
Painting in oil and acrylic. Emphasis on experimentation and creative expression.
Prerequisite: ART 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ART 302. Intermediate Painting II. 3 Credit Hours.
Painting in oil and acrylic; emphasis on experimentation and creative expression.
Prerequisite: ART 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 305. Intermediate Figure Drawing. 3 Credit Hours.
Continuation of ART 105.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 306. Special Topics in Studio Art for Undergraduate Students. 3 Credit Hours.
Course devoted to exploring new topics in studio art practice and theory, including media specific and/or inter-disciplinary approaches. Course content to be determined by Instructor.
Components: STU.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 310. Intermediate Digital Photography. 3 Credit Hours.
Prerequisite: ART 210.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 311. Color Digital Photography. 3 Credit Hours.
Prerequisite: ART 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 312. Alternative Processes Photography. 3 Credit Hours.
Nineteenth Century Photographic Processes. From the Cyanotype to the Collodion Print, all in the service of creative expression.
Prerequisite: ART 311.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 315. Socially Engaged Art. 3 Credit Hours.
Contemporary art practices and the role of visual arts in creating social change, through lectures, group discussions, Individual art projects and a collaborative, hands-on community-based art project. Note: This is a new course implemented as part of the Engaged Faculty Fellows program to provide students with the opportunity for civic engagement within the context of art-making.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ART 317. Intermediate Sculpture I. 3 Credit Hours.
Incorporation of symbol and metaphor to achieve meaning, use of additional materials and technical processes.
Prerequisite: ART 217.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 318. Intermediate Sculpture II. 3 Credit Hours.
Continuation of ART 317.
Prerequisite: ART 317.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ART 351. Intaglio/Relief II. 3 Credit Hours.
Continuation of ART 251. Additional processes such as mezzotint, relief printing from woodblocks, multiple block printing, photographic xerox transfers and photo etching.
Prerequisite: ART 251.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 352. Lithography II. 3 Credit Hours.
Continuation of ART 252. Color printing from stones, aluminum plates and photo litho plates. Combination of lithography with other print media.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 353. Silkscreen II. 3 Credit Hours.
Continuation of ART 253, including silkscreening on canvas, larger format work, and advanced photo silkscreen techniques.
Prerequisite: ART 253.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 354. Computer Assisted Printmaking: Lithography and Silkscreen. 3 Credit Hours.
The use of inkjet and laser printers to make positives for black and white and process color work in photo lithography; custom color separations for multiple screen printing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 355. History of Philosophy of Art. 3 Credit Hours.
An examination of the history of philosophical work on the arts (including literature, visual art, and music) from ancient times through the mid twentieth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 361. Hand-Built Ceramics II. 3 Credit Hours.
Continuation of ART 261.
Prerequisite: ART 261.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 362. Wheel Thrown Ceramics II. 3 Credit Hours.
Continuation of ART 262.
Prerequisite: ART 262.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 363. Cast Glass Processes. 3 Credit Hours.
The art of cast glass including sand casting and lost wax techniques.
Prerequisite: ART 263 or ART 104.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 364. Intermediate Glass Blowing. 3 Credit Hours.
Exploration of glass working techniques.
Prerequisite: ART 263.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ART 368. Figure in Clay II. 3 Credit Hours.
As continuation of ART 268, this intermediate course will focus on modeling The human figure in clay with emphasis on form, volume, proportion, anatomy, and gesture.
Prerequisite: ART 268.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 391. Graphic Design II. 3 Credit Hours.
Development of form and conceptual design. Contemporary visual rhetorical strategies such as metaphors, puns, irony and methonymy.
Prerequisite: ART 291.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 392. Multimedia III. 3 Credit Hours.
Video art, multimedia, installation art and interactive animation.
Prerequisite: ART 109.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 401. Advanced Painting I. 3 Credit Hours.
Development of a personal style in painting.
Prerequisite: ART 301 and ART 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 402. Advanced Painting II. 3 Credit Hours.
Continuation of ART 401.
Prerequisite: ART 401.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 405. Advanced Figure Drawing. 3 Credit Hours.
Continuation of ART 305.
Prerequisite: ART 305.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 406. Special Topics in Studio Art for Undergraduate Students. 3 Credit Hours.
Course devoted to exploring new topics in studio art practice and theory, including media specific and/or inter-disciplinary approaches. Course content to be determined by Instructor.
Components: STU.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 407. Special Topics: Renaissance and Baroque Art. 3 Credit Hours.
Seminar on changing topics in Renaissance and Baroque Art.
Prerequisite: ARH 132.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 410. Advanced Digital Photography I. 3 Credit Hours.
Development of a personal style in digital imaging. Course is designed for students to pursue a semester long thematic project.
Prerequisite: ART 311.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ART 411. Experimental Photography. 3 Credit Hours.
Course content determined by faculty member teaching it from studio lighting class to the Artist Book Project. May be repeated for credit.
Prerequisite: ART 311.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 417. Advanced Sculpture I. 3 Credit Hours.
Individual and collaborative installation and site-specific art.
Prerequisite: ART 317.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 418. Advanced Sculpture II. 3 Credit Hours.
Development of a personal visual vocabulary.
Prerequisite: ART 417.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 451. Intaglio/Relief III. 3 Credit Hours.
Continuation of ART 351.
Prerequisite: ART 351.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 452. Lithography III. 3 Credit Hours.
Continuation of ART 352.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 453. Silkscreen III. 3 Credit Hours.
Continuation of ART 353.
Prerequisite: ART 353.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 454. Computer Assisted Printmaking: Intaglio and Relief. 3 Credit Hours.
Continuation of ART 354, photo etching and relief processes.
Prerequisite: ART 354.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 462. Advanced Ceramics. 3 Credit Hours.
Development of expressive skills in either handbuilding or wheel throwing techniques.
Prerequisite: ART 361 or ART 362.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 468. Figure in Clay III. 3 Credit Hours.
As continuation of ART 368, this advanced course will focus on modeling The human figure in clay with emphasis on form, volume, proportion, anatomy, gesture and expressive handling of clay.
Prerequisite: ART 368.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ART 491. Graphic Design III. 3 Credit Hours.
Advanced page layout coupled with extensive use of typography with applications in page design for advertising and collateral projects.
Prerequisite: ART 391.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 493. Illustration. 3 Credit Hours.
Contemporary illustration for print, new media, portfolio and exhibition.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 499. Honors Thesis. 3-6 Credit Hours.
Formal thesis and project including an exhibition supervised by member of the department faculty.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 501. Advanced Painting III. 1-6 Credit Hours.
Course content decided between student and professor.
Prerequisite: ART 402.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 502. Advanced Painting IV. 1-6 Credit Hours.
Continuation of ART 501.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 503. Advanced Painting V. 1-6 Credit Hours.
Course content decided between student and professor. An independent study course may be repeated.
Prerequisite: ART 502.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 504. Advanced Painting VI. 1-6 Credit Hours.
Course content decided between student and professor. An Independent Study course may be repeated.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 505. Advanced Painting VII. 1-6 Credit Hours.
Current readings and/or technical concerns not covered in the regular curriculum. Course content will vary each semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 506. Special Topics in Studio Art for Undergraduate Students. 3 Credit Hours.
Course devoted to exploring new topics in studio art practice and theory, including media specific and/or inter-disciplinary approaches. Course content to be determined by Instructor.
Components: STU.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 509. Independent Study in Other Media. 1-6 Credit Hours.
Course content decided between student and professor. Independent study course may be repeated.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
ART 510. Advanced Digital Photography 2. 3 Credit Hours.
Course content decided between student and professor. May NOT be repeated for credit.
Prerequisite: ART 410.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 511. Advanced Digital Photography 3. 3 Credit Hours.
Continuation of ART 510. May NOT be repeated for credit.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 512. Independent Study in Photography. 1-6 Credit Hours.
Course content decided between student and professor. An independent study course may be repeated.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 517. Advanced Sculpture III. 3 Credit Hours.
Examination of ongoing work in relationship to historical and contemporary interpretations issues.
Prerequisite: ART 418.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 518. Advanced Sculpture IV. 3 Credit Hours.
Continuation of ART 517.
Prerequisite: ART 517.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 551. Intaglio/Relief IV. 3 Credit Hours.
Advanced work in intaglio/relief processes: course requirements decided between student and professor.
Prerequisite: ART 451.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 552. Lithography IV. 3 Credit Hours.
Advanced work in lithography: course requirements decided between student and professor.
Prerequisite: ART 452.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 553. Silkscreen IV. 3 Credit Hours.
Advanced work in silkscreen.
Prerequisite: ART 453.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 554. Computer Assisted Printmaking. 3 Credit Hours.
Advanced work in computer assisted printmaking; course requirements decided between student and professor.
Prerequisite: ART 454.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 555. Topics in Printmaking. 1-6 Credit Hours.
Current readings and/or technical concerns not covered in the regular curriculum. Course content will vary each semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ART 562. Contemporary Ceramic Art. 3 Credit Hours.
Development of artistic style and technical abilities in relation to contemporary trends in ceramic art.
Prerequisite: ART 462.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 563. Independent Study in Ceramics/Glass. 1-6 Credit Hours.
Course content decided between student and professor. An independent study course may be repeated.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 564. Directed Research and Projects in Ceramics/Glass. 3 Credit Hours.
Historical to contemporary approach to ceramics; furthering of the technical ability, and development of artistic style.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 591. Portfolio/Business of Design. 3 Credit Hours.
Individually supervised graphic design portfolio. Professional practices in design.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 592. Special Projects/Multimedia/Portfolio. 3 Credit Hours.
Video Art, print design, illustration or multimedia portfolio preparation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ART 593. Seminar in Professional Practices. 1-6 Credit Hours.
Advanced course with a required placement in a professional design or multimedia setting. Classroom sessions on professional topics and issues. Portfolio required.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ART 599. Exhibition Preparation. 3 Credit Hours.
A seminar class devoted to the preparatory work needed to plan and promote a solo exhibition, including installation/lighting concerns. Preliminary written assignments will also be given in preparation for ART 710 Thesis.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

Art History

ARH 131. Survey of Western Art I. 3 Credit Hours.
The art of western cultures from pre-history through the Middle Ages.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARH 132. Survey of Western Art II. 3 Credit Hours.
The art of western cultures from the Renaissance through the 20th century.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARH 207. History of Photography. 3 Credit Hours.
A study of photography as a visual medium of expression and communication: a chronological examination of its origins, styles and uses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ARH 220. Student Docent Practicum at the Lowe Art Museum. 1 Credit Hour.
Students gain hands-on training and practical experience on becoming a museum docent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARH 225. Introduction to Museum Studies. 3 Credit Hours.
An introductory study of the practices and methodologies that shape and guide curatorial studies within the context of museums and similar institutions.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 250. Special Topics in Non-European Art. 3 Credit Hours.
Special topics in Non-European art.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 260. Islamic Art. 3 Credit Hours.
Islamic art from the 7th to the 17th century including architecture, manuscript illumination, textiles, ceramics, and small-scale luxury objects. Study of Islam as a religious and political entity showing how the Islamic world defined itself in cultural creation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARH 270. Spanish Art. 3 Credit Hours.
A chronological study from prehistory to the present, addressing significant periods in Spanish art history, and establishing the unique characteristics of this art. How the effects of historical conditions (Islamic presence on the peninsula, American colonies, Franco) have defined Spain as distinct from its European neighbors.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 320. Aesthetics and Meaning in African Art and Cultures. 3 Credit Hours.
This course is designed to historically, materially, artistically, and politically engage the diversity of artistic production and cultural life on the African continent.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARH 321. Andean Art. 3 Credit Hours.
South American art from formative times through the Incan empire and the Spanish conquest (A.D. 1521).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 325. Museum Studies Internship. 3 Credit Hours.
The Museum Studies internship is an independent study course in which the student works on educational projects or programs in a museum.
Components: FLD.
Grading: GRD.
Typically Offered: Fall & Spring.

ARH 326. Art of Japan. 3 Credit Hours.
The Arts of South Asia with selections from India and Thailand.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARH 327. Art of China. 3 Credit Hours.
The Art of East Asia with selections from China, Korea, and Japan.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ARH 332. Greek Art. 3 Credit Hours.
The art of ancient Greek civilization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 333. Roman Art. 3 Credit Hours.
Roman art from the 1st century B.C. through the 4th century A.D.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 335. Early Christian and Byzantine Art. 3 Credit Hours.
Christian art from the second through the fifteenth centuries in Rome and the Byzantine Empire.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 336. Medieval Art. 3 Credit Hours.
Western European art from the 4th through the 12th century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 337. Italian Renaissance Art. 3 Credit Hours.
The painting, sculpture, and architecture of Florence in the 15th century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 338. Sixteenth Century Italian Art. 3 Credit Hours.
The painting, sculpture, and architecture of Italy in the 16th century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 339. Northern Renaissance Art. 3 Credit Hours.
The painting of France and the Netherlands in the 14th and 15th centuries.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 340. Baroque Art. 3 Credit Hours.
Art and architecture of the seventeenth century, focusing on major cultural centers in Europe and the Americas.
Pre requisite: ARH 132.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 341. Eighteenth-Century European Art. 3 Credit Hours.
European art from 1700-1820, including Rococo and Neoclassicism, ending with Goya in Spain.
Pre requisite: ARH 132.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 342. Nineteenth-Century European Art. 3 Credit Hours.
Neo-Classicism, Romanticism, Realism, Impressionism, 1760-1900.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ARH 343. Modern Art. 3 Credit Hours.
Cezanne to Surrealism. Primarily European Art c. 1880-1940 in the context of the development of Modernism and its aesthetic theories.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ARH 344. Contemporary Art. 3 Credit Hours.
American and European Art from the Second World War to the present in its social, political, and theoretical contexts.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARH 345. Contemporary Art in American Culture. 3 Credit Hours.
A critical survey of visual art practices from the 1950s to the present within the United States. By analyzing the multiple legacies of the early avant-garde, the role of nationalism, and the development of the global art market, this course will consider the social, political, and philosophical questions raised by postmodernism and its formative influence on American art after WWII.
Prerequisite: ARH 131 or ARH 132.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARH 346. History of Graphic Design. 3 Credit Hours.
Evolution of Graphic Design from the invention of writing through the twentieth century concentrating on contemporary themes and technical innovations.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARH 347. Special Topics in Art History. 3 Credit Hours.
Changing topics in Western and non-Western art that focus on a specific movement, style, or artist.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 349. Special Topics in Art and the Law. 3 Credit Hours.
Changing topics on the relationship between art and law, with a particular focus on policy and the art world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 357. Critical Issues in the History Photography. 3 Credit Hours.
The history and theory of photography in visual culture and an exploration of debates regarding how this medium of mass communication has transformed our perceptions and conceptions of art, society, and culture over the past two centuries.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 360. Art and Cinema. 3 Credit Hours.
Exploration of the relationship between art, art history, and cinema.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 365. Latin American Modernism. 3 Credit Hours.
The art and theories of Latin American Modernism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 385. Studies in Art History. 1-3 Credit Hours.
Art History studies taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ARH 405. Special Topics in Medieval Art. 3 Credit Hours.
Changing topics in Medieval Art.
Prerequisite: ARH 131.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ARH 408. Special Topics in Modern Art. 3 Credit Hours.
Seminar on changing topics in Modern Art.
Prerequisite: ARH 132.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 409. Special Topics in Contemporary Art. 3 Credit Hours.
Seminar on changing topics in contemporary art.
Prerequisite: ARH 132.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 411. Special Topics: Museum Studies. 3 Credit Hours.
Seminar on changing topics in Museum studies.
Prerequisite: ARH 225. Requisite: Two additional art history courses.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 420. Cuban Art, Art History, and the Creation of the Modern Cuban Subject. 3 Credit Hours.
This seminar focuses on the fine art, visual culture, and performance history of Cuba during the 19th and 20th centuries.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ARH 421. Reimagining Modernity: Haitian Art and Art History. 3 Credit Hours.
Haiti is a revolutionary society born out of the violence of slavery and revolution during the age of Enlightenment. It can be argued that it is a site of a double artistic modernity; post 1804 with the establishment of the Republic of Haiti and later the first art school in the Americas, and post 1943 following the founding of the Centre d'Art. However, Haiti is rarely considered as a site of modernity. Instead historically afflicted by in calculable crises and unspeakable violence at the hands of man and nature, the nation has been sidelined in art historical narratives in the Americas before and arguably since the 1943 renaissance. This class re-centers Haiti in the discipline of art history as a space that offers fascinating challenges to and possibilities for decentered global art histories. Drawing on seminal scholarship, unique archival resources and art collections at the University of Miami, the city of Miami and beyond, this seminar traces artistic practices and philosophies in and from Haiti that were trans-Atlantic in their formation and always global in their relations.
Components: SEM.
Grading: GRD.

ARH 450. Seminar in Methodology and Theory in the History of Art. 3 Credit Hours.
Basic methodologies that inform the discipline of art history and an introduction to the key authors and ideas that have shaped and continue to shape how critics and art historians write about art.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 505. Problems in Art History. 3 Credit Hours.
A means by which the student of advanced standing may investigate areas of a specialized nature, or those which are not offered as a regular part of the curriculum. Course content will be decided in joint conference between student and instructor.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ARH 506. Problems in Art History. 3 Credit Hours.
A means by which the student of advanced standing may investigate areas of a specialized nature, or those which are not offered as a regular part of the curriculum. Course content will be decided in joint conference between student and instructor.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ARH 507. Museum Studies Seminar. 3 Credit Hours.
The museum as an institution and as a site for the construction of knowledge. Students will also explore the relationship between museums and academia.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ARH 508. Museum Exhibition. 3 Credit Hours.
Organizing an art museum exhibition, and participating in the installation. Writing and composing the catalogue.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 509. Museum Internship. 1-3 Credit Hours.
UM sponsored internship with Miami-area museum.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ARH 510. Arts Administration Internship. 1-3 Credit Hours.
UM sponsored internship with Miami-area arts institution.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

ARH 511. Artlab @ the Lowe. 3 Credit Hours.
Organizing an art exhibition at the Lowe Art Museum. Taught by a different faculty member each year.
Prerequisite: ARH 131 and ARH 132.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARH 530. Seminar in Art History. 3 Credit Hours.
Special topics in western and nonwestern art. Semester’s topic will be announced.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 540. History of Museums and Collecting. 3 Credit Hours.
History of museums and collecting practices in western Europe and the United States from the sixteenth to the twentieth century.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 560. Seminar in Nineteenth and Twentieth Century Art. 3 Credit Hours.
Special topics including museum practices and theory, women's art and contemporary issues.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 570. Seminar in Non-European Art. 3 Credit Hours.
Special Topics in Non-European Art.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARH 598. Seminar in Contemporary American Art. 3 Credit Hours.
Issues in Art since 1960: Aesthetic theories and ideological issues generated in contemporary art as expressed in the writing of artists and art critics.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

Mission

The Art History program provides students with a broad exposure to the history of art, with the opportunity to gain an in-depth knowledge in specified subfields (e.g., European modernism; modern art in the Americas; contemporary world art; history of photography; Islamic art; Caribbean art; and Asian art).

Goals

Students gain knowledge of major monuments, artists, styles, and art historical theories, and methodologies. Coursework promotes critical thinking, written and oral communication skills, visual analysis, curatorial studies, and independent research.

Student Learning Outcomes

- Students who major in art history will have a working knowledge of artists, art historical terminology, methodologies, and different interpretive frameworks of art.
- Students who major in art history will gain effective oral communication skills in relation to artworks and the study of art history.
- Students who major in art history will gain effective written communication skills in relation to artworks and the study of art history, and will be able to locate and analyze primary and secondary sources relevant to research in art history.

**Total Credit Hours** 120

**Mission**

The Art Department is dedicated to promoting excellence in the visual arts by encouraging originality, discovery, creativity, and critical inquiry. Students will be exposed to a variety of technical and aesthetic approaches for the making of fine art as well as be educated in the history of western art. The BA program, as opposed to the BFA program, has a strong liberal arts component and the number of credits in the major are such that students can choose to also pursue a second academic major; it’s a great degree for students with more than one interest. The BA studio emphasis is to try a variety of media, whereas in the BFA students are tasked with specializing in a primary and secondary studio major.
Goals

Student Learning Outcomes

• Students will demonstrate knowledge on the relationship between materials and concepts, apply this knowledge in a variety art media and processes, and be able to problem solve in visual arts.

• Students will demonstrate proficient written and communication skills.

• Students will demonstrate knowledge of traditional and contemporary aesthetic positions, and working knowledge of the history of art from the pre-historic period to the present. BA students are required to take the two halves of the Survey plus one elective (usually either Contemporary or Modern Art).

---

1. MTH 113 or appropriate level Math course.

* **BFA Exhibition**
  Unless otherwise instructed, each BFA candidate will take part in an exhibition of work screened and approved by a faculty member from their area of specialization, accomplished as an art major at the University of Miami, in the Fall or Spring semester of the senior year. The BFA exhibitions are held in the College Gallery.
  
At the time the candidates BFA exhibition is hung, a formal critique will be arranged between the student and the art faculty.

**BFA Minor in Art History**
All BFA studio majors automatically minor in art history. A minor outside the department is not required.

### Maximum Credits in Studio Areas
A BFA student is limited to a maximum of 21 credit hours in any one studio area – Painting, Printmaking, Graphic Design/Multimedia, Photo/Digital, Ceramics, and Sculpture.

### Minimum Major GPA
Students must maintain at least a 3.0 average in their major.

1. MTH 113 or appropriate level Math course.

### Mission
The Art Department is dedicated to the promotion of excellence in the visual arts by encouraging originality, discovery, creativity, and critical inquiry. The department provides an educationally diverse environment where students can acquire the critical perspectives, historical knowledge, and technical skills that will prepare them for a variety of professional careers in the arts. The BFA program, as opposed to the BA-Studio program, requires twice as many credits in the major and fewer general education requirements, allowing the students to focus more on their study of fine arts; the emphasis in the BFA is to work in-depth on a primary and secondary studio major, with some electives, whereas the BA stresses trying a variety of media. BFA students usually either continue with their studies or find arts-related employment after graduation.

### Goals

#### Student Learning Outcomes
- Students will demonstrate knowledge on the relationship between materials and concepts, apply this knowledge in a variety art media and processes, and be able to problem solve in visual arts. They will acquire skills in a primary and secondary studio major which will constitute their portfolio, to be exhibited at the end of their final semester.
- Students will demonstrate proficient written and communication skills.
- Students will demonstrate knowledge of traditional and contemporary aesthetic positions, and working knowledge of the history of art from the pre-historic period to the present. BFA students minor in Art History, as opposed to BA students who only take the two beginning surveys plus an elective, so the expectation for BFA students is higher; should they go on to graduate work, a thorough knowledge of Art History will be necessary.
Minor in Art and Art History

1. All BFA studio majors automatically minor in Art History. A minor outside the department is not required.
2. A BFA student is limited to a maximum of 21 credits in any one studio area - Painting, Printmaking, Graphic Design, Multimedia, Photography/Digital Imaging, Ceramics, or Sculpture.
3. Students must maintain at least a 3.0 average in their major.
4. A minor in Art and Art History consists of 15 credit hours (9 of which must be from the University of Miami).
5. All courses must be passed with a C or higher.

Astronomy

For courses in Astronomy see PHYSICS (p. 553), in particular PHY 110 and PHY 545.

Biochemistry and Molecular Biology

http://bm.med.miami.edu/

Dept. Code: BMB

(Code for the major is either Track 1: BCHM or Track 2: BCHN)

Introduction

Biochemistry is the chemistry of life. It includes or has large areas of overlap with molecular biology, biophysics, structural biology, cell biology, metabolism, neuroscience, nutrition, genetics, etc. It tries to explain what happens in living organisms and how biological processes are regulated. It is a relatively young science. Our understanding is still developing and students can learn something new every day. An Undergraduate Major in one of our two tracks, Track 1: Biochemistry and Molecular Biology (BCHM) or Track 2: Biochemistry and Nutrition (BCHN), provides an excellent preparation for:

1. Medical School
2. Graduate Studies in all basic medical sciences: Biochemistry, Molecular Biology, Cell Biology, Genetics, Neurobiology, Microbiology, Immunology, Pharmacology, Biophysics, Physiology, Bio-informatics, Biology, Nutrition, Environmental Science, and others.
3. Industry: Biotechnology, Pharmaceutical, Food Production, Food processing, and others.
4. Allied Health Professions: Nutrition, Dentistry, Forensics, Veterinary Medicine, Toxicology, Clinical Chemistry, Environmental Science, and others.

Educational Objectives

The undergraduate program in Biochemistry & Molecular Biology strives to provide

1. superior training in nutrition, biochemistry and molecular biology and
2. encouragement for self-study and research to students seeking a BS degree.

As part of a research-oriented university, the department, through its students, creates new knowledge. As a result of our teaching efforts, the new BS's created will be able to matriculate into professional and graduate schools or to find positions in teaching professions and/or industry. In addition, the department serves the community by providing expertise in matters related to nutritional and medical biochemistry. For example, it teaches biochemistry to pre-medical and other pre-health students across a wide variety of life science related majors including biology, microbiology, neuroscience, and biomedical engineering.

Degree Programs

As a member of the College of Arts & Sciences, the Department of Biochemistry and Molecular Biology offers an undergraduate BS degree. As a member of the Miller School of Medicine, it offers the following graduate degrees: PhD, Executive PhD, dual BS-PhD, and dual MD-PhD. Also, it offers a Molecular Medicine Pathway for MD students.

Departmental Honors

Departmental honors can be earned by biochemistry majors who have:
1. Successfully completed at least 6 credit hours of BMB 545. This research must be described in a brief thesis that needs to be approved by three BMB faculty members.
2. A 3.5 or higher grade point average in all BMB courses.
3. A 3.3 or higher grade point average in all courses taken at the University of Miami.

**Dual Degree Honors Program**

The Dual Degree BS-PhD Program in Biochemistry & Molecular Biology is offered to mature high school seniors with strong academic ability and achievement who seek careers in biological or biomedical science. Students can earn both a Bachelor of Science (BS) and a Doctor of Philosophy Degree (PhD) in approximately 6 years. For information see our website (http://www.miami.edu/admission/index.php/undergraduate_admission/academics/dual_degree_honors/).

**BMB 145. Introduction to BMB Research. 2 Credit Hours.**

Students will collaborate on a research project and learn valuable laboratory skills. The goal for this course is to make students "research-ready" through an active, inquiry-based, platform for developing core competencies in biology, genetics, BMB (biochemistry & molecular biology), bioinformatics, scientific discourse and ethics.

**Components:** LAB.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**BMB 245. Foundations in BMB Research. 2 Credit Hours.**

Students shadow a research assistant in the lab of a BMB faculty member and learn about the research projects and techniques used by the group. Students will assist in preparing reagents, conducting experiments, analyzing data and generating brief reports. Attendance in lab group meetings is expected. Students maintain a weekly online journal and will write a paper describing the research in the lab and proposing a research problem and approach to solve in BMB545.

**Components:** LAB.
**Grading:** GRD.
**Typically Offered:** Fall, Spring, & Summer.

**BMB 401. Biochemistry for the Biomedical Sciences. 4 Credit Hours.**

The biochemical composition, structure, and cellular metabolism of proteins, carbohydrates, lipids, and nucleic acids are rigorously described, emphasizing problem solving strategies required of biomedical field applications.

**Prerequisite:** CHM 201 or CHM 222. And with a grade of C- or higher.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**BMB 402. Principles of Experimental BMB. 2 Credit Hours.**

An active, inquiry-based, platform for developing core competencies in biochemistry & molecular biology, making students "research ready".

**Corequisite or Prerequisite:** BMB 401.

**Components:** LAB.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**BMB 411. Readings in BMB. 1 Credit Hour.**

Students read and discuss one BMB primary research article each week and answer a set of questions meant to provoke critical evaluation of the work. The course introduces students to critical reading of the primary literature in BMB and is open to students at any level. Peer-mentoring and informal student-led instruction is central to the course.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

**BMB 417. Metabolic Regulation. 3 Credit Hours.**

Students will learn to formulate mechanisms of enzyme catalysis and inhibition. Next, students will learn how to plot and analyze enzyme kinetic and binding data. Data analysis will be extended to more complicated, but realistic scenarios, to more rigorously examine metabolic flux control points.

**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Spring.
BMB 501. Senior Seminars. 1 Credit Hour.
Students attend seminars of their own choice, presented by either visiting/residing faculty or graduate/postdoctoral students on recent research topics in BMB or any other discipline in the basic biomedical sciences. Students write short reports on these seminars and critically evaluate the presentations. This course can be taken more than once.
Prerequisite: BMB 401.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

BMB 506. Biomedical Case Studies. 1 Credit Hour.
Students explore topics in BMB in the context of solving problems presented in a clinical/biomedical framework. Students work in small groups and independently to acquire, critically evaluate, synthesize and present information.
Corequisite or Prerequisite: BMB 401.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BMB 507. Protein Structure, Function and Biology. 3 Credit Hours.
The physical characteristics and behavior of proteins are described, including structure, folding, dynamics, modifications, and interactions. In addition, experimental approaches to protein structure and function are addressed. Readings include both textbook assignments and current research articles, and a term paper is written and submitted for writing credit.
Prerequisite: BMB 401.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BMB 509. Molecular Biology of the Gene. 3 Credit Hours.
Biochemical processes involved in the flow of genetic information in both prokaryotes and eukaryotes are described, including DNA replication, repair, genetic recombination, RNA transcription and processing, protein synthesis, control of gene expression, cell differentiation, and recombinant DNA technology. Extensive classroom discussion is mandatory. Reading includes BMB primary research papers, course notes and a textbook.
Prerequisite: BMB 401.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

BMB 511. Topics in BMB. 3 Credit Hours.
Students independently explore the literature in BMB with guidance by a BMB Faculty mentor. BMB primary research literature in an area of mutual interest to the student and the Faculty mentor (usually a content expert in that area) is discussed. Students prepare a paper or other appropriate product (e.g. computer software, a structural model, a dynamic simulation) for evaluation. Writing credit is available for papers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

BMB 514. Genetics and Genomics: Principles, Mechanisms, and Use. 3 Credit Hours.
The quantitative and analytical problem solving, as well as spatial reasoning in genetics. The course will propose genetic hypotheses, identify genetic predictions, create genetic systems for challenging these predictions, and analyze genetic data to solve practical problems.
Prerequisite: BMB 401.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

BMB 518. Nanomedicine. 3 Credit Hours.
Students will learn how various nanomaterials are synthesized, characterized, and utilized in various medical applications, including imaging, drug delivery, gene therapy, and tissue engineering. Student abilities to read and comprehend advanced research topics and applications in nanotechnology and applications to medicine will be considerably enhanced.
Prerequisite: BMB 401.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
BMB 519. Epigenetics and Nutrition. 3 Credit Hours.
How epigenetic mechanisms control gene expression and (ii) how epigenetic modifications are propagated. Then, students explore how such epigenetic control and inheritance can be modulated through diet and nutrition. Class participation and attendance are required, since in class discussion will be largely based on emerging and late-breaking topics from recent literature.
Prerequisite: BMB 401.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

BMB 545. Research Problems in BMB. 3-12 Credit Hours.
Participation in the research laboratory of a faculty mentor to work on an independent research project. Students develop abilities to formulate good questions and sound hypotheses, design practical experiments, collect and analyze useful data, and make justifiable conclusions. Students maintain a weekly online journal, write a paper, and present their research in the lab. Two semesters of BMB 545 are required to write a thesis (pre-requisite for graduating with honors in BMB).
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

BMB 555. Cellular Structure, Function, and Biology. 3 Credit Hours.
Students learn composition and function of cellular organelles, and closely examine their biogenic and degradative pathways. Next, students learn cell signaling pathways and mechanisms controlling mitosis, meiosis, and cytokinesis that account for inherited traits. Studies of the molecular basis of cell-cell and cell-matrix interactions provide students with better understanding of tissue stability and function. Modern perspectives regarding stem and cancer cell biology are explored, along with new cell-based therapeutic strategies.
Prerequisite: BMB 401.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

B.S. in Biochemistry and Molecular Biology

Major
The Bachelor of Science (B.S.) degree in either BCHM or BCHN requires 23 total credits of BMB courses: 17 credits of required BMB courses plus six credits of elective BMB courses. At least two elective BMB credits must come from a BMB lab course, either BMB 145, BMB 245, BMB 402, or BMB 545. To satisfy the College of Arts and Sciences writing requirement in the discipline, BMB majors must complete for writing credit (W) either BMB 507, BMB 511, or BMB 545. For all students, a grade of C or better must be earned in each BMB course. For current UM students to declare either major or minor in BMB, a UM cumulative grade point average of 2.9 is required. For transfer students to declare either major or minor in BMB, a grade point average of 3.5 is required. The Department will make its own independent determination on a case-by-case basis concerning the equivalency of courses taken at other universities. The two possible academic tracks, BCHM and BCHN, differ by two required upper level BMB lecture courses.

**Language Requirement**

- 3 credits

**Arts and Humanities Cognate**

- 9 credits

**People and Society Cognate**

- 9 credits

**Electives**

- 23 credits

**Total Credit Hours**

- 120 credits

1. Writing credit (W) may be obtained in this course.
2. These courses may be taken more than once for additional credits.
3. To enroll in CHM 121/CHM 113, students must have completed or be co-enrolled in either MTH 140, MTH 141, MTH 161, MTH 171. If math placement is below MTH 140, then students must complete CHM 110. Completion of CHM 110 will qualify students for CHM 121.
4. PRISM students take PHY 211/PHY 106 and PHY 212/PHY 108. Students who struggle with calculus are recommended to take PHY 101/PHY 106 and PHY 102/PHY 108. A more advanced physics course series can be substituted (e.g., PHY 221, PHY 222/PHY 224, and PHY 223/PHY 225).
5. PRISM students take MTH 171 and MTH 172. Students may also complete the series MTH 140/MTH 141/MTH162.
6. PRISM students take CSC 210.
7. Students must complete at least one (1) 200-level course in a foreign language, e.g., SPA 201 (Intermediate I). Typically, students with appropriate high school training in a foreign language can safely begin with SPA 102 (Beginner II), totaling 6 language credits. If no background, then students will complete SPA 101 (Beginner I), SPA 102, and SPA 201, totaling 9 credits. These course numbers pertain to all foreign language courses at UM, e.g., Spanish (SPA), French (FRE), Italian (ITA), German (GER), Chinese (CHI), etc.
8. Elective credits (3-6) may include Beginner I and/or II language courses.

1 P&S (People & Society) and A&H (Arts and Humanities) Cognate Electives.

2 BMB 511 and BMB 545 come with writing credit (W). BMB 545 may be taken for 3-12 credit hours. Variations of the above program are feasible for students entering with advanced standing on the basis of placement tests or transfer credit hours with permission of the biochemistry advisor.

**Student Learning Outcomes**

- BMB majors, in both BCHM and BCHN tracks, will demonstrate effective writing skills, especially related to the ability to compose a thorough scientific review article.
BMB majors, in both BCHM and BCHN tracks, will demonstrate effective critical thinking skills, notably related to the ability to readily analyze, synthesize, and draw valid conclusions from published reports in the field of biochemistry.

BMB majors, in both BCHM and BCHN tracks, will demonstrate essential skills required to conduct supervised research in the field of biochemistry.

Total Credit Hours 16

\(^1\) A grade of C or better must be earned in each BMB course.

### Biology

[biolgy.as.miami.edu](http://biolgy.as.miami.edu)

**Dept. Code:** BIL

#### Introduction

The Department of Biology offers undergraduate programs for students interested in a natural science education that will prepare them for careers in medicine and other health-related fields, biological research, teaching, conservation and environmental management, and other fields that require a broad base of biological knowledge.

#### Educational Objectives

The Department of Biology trains students to understand and use the scientific method, and to engage in critical thinking and experimental design. We strongly encourage original laboratory and/or field research under the mentorship of biology faculty. The Bachelor of Science in Biology prepares the student for further training in natural science, such as biology graduate school, as well as medical, veterinary, dental or other health-care professions. The Bachelor of Arts degree prepares the student for a career in humanities-related fields such as teaching or environmental law.

#### Degree Programs

Two undergraduate degrees are available in Biology: the **Bachelor of Science** and the **Bachelor of Arts**.

Both require a major in Biology consisting of 34 credit hours in BIL with a minimum grade of C- in each course and an overall GPA of 2.0.

Additional course requirements for each degree are listed under **Bachelor of Science** and the **Bachelor of Arts** elsewhere in this Bulletin.

#### Advanced Writing and Communication Requirement

Degree candidates in the College of Arts and Sciences must complete at least four writing courses, and at least one such course must be in the student’s major discipline. Candidates for the B.S. or B.A. degree in Biology should consult the listings at [http://www.as.miami.edu/academics/undergraduate-studies/writing-courses/](http://www.as.miami.edu/academics/undergraduate-studies/writing-courses/) to find writing-intensive courses in BIL. Transfer students may use a maximum of two transfer courses towards the writing requirement.
Honors in Biology

The Biology Department recognizes students who have achieved excellence in original research and coursework by awarding Honors in Biology. Biology Honors students work closely with faculty members first to design a research project and then conduct it for a minimum of two semesters. The centerpiece of the program is a written thesis that is submitted to the Biology Department, and presentation of the thesis research in a public forum.

Students seeking research experience are welcome to contact individual faculty in Biology, or contact the Office of Undergraduate Research for help in finding research mentors. Applications for the Honors in Biology program are due no later than the first week of senior year (or, the first week of the semester preceding the semester of graduation). Contact the Director of the Biology Honors Program for more information on the application and program.

Curriculum requirements for Honors in Biology:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIL 495</td>
<td>Projects in Biology</td>
<td>2-6</td>

</tr>
</tbody>
</table>

1. Projects in Biology involve a research project carried out under the supervision of a member of the Department of Biology faculty or alternative faculty approved by the Office of Undergraduate Research.

2. Senior Thesis (BIL 498) and Research Colloquium (BIL 499) are taken in the spring semester of the last year of study.

An overall GPA of at least 3.3 and a biology GPA of at least 3.5.

Variations within the above program may be permitted by the Department in special cases.

BIL 101. Introductory Biological Science. 3 Credit Hours.

An introduction to life sciences for the non-major. Students with credit in BIL 150 may NOT take this course to fulfill the natural science requirement. Not for credit in the biology major or minor.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

BIL 102. Humans and Biotechnology. 3 Credit Hours.

Major aspects of the biotechnology field for non-science majors. Students will learn about genetically modified organisms, biofuels from algae, detergents with enzymes, bacteria that eat oil, pigs that appear green, and much more. Not for credit in the biology major or minor.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 103. Introduction to Ecology. 3 Credit Hours.

Overview of ecological and evolutionary principles; relationships of organisms to living and non-living aspects of the environment; human impact on ecosystems. Not for credit in the biology major or minor.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 104. Genetics and Society. 3 Credit Hours.

Genetics for non-science majors. The basics of DNA, genes, gene function, genomes and inheritance. Application of genetics to real-world issues, both personal and societal, from the history of life to challenges and opportunities we face in the modern times at the molecular level.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.
BIL 105. Biology of Plants. 3 Credit Hours.
Evolution and diversity of the plant kingdom; economic and cultural importance of plants to humans. Not for credit in the biology major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 106. Biology of Animals. 3 Credit Hours.
Evolution and diversity of the animal kingdom and the relationship between humans and other animals. Not for credit in the biology major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 107. Introduction to Evolution. 3 Credit Hours.
Processes and mechanisms of evolution. A scientific approach to the study of evolution by natural selection, concepts of fitness and adaptation, genetic and developmental bases of evolutionary change, how new species arise, major trends in evolution, extinction and human evolution. Not for credit in the biology major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 108. Molecular Journey to Being Human. 3 Credit Hours.
With a focus on the human species, students will explore the nature of DNA and proteins, the origin of life, RNA World hypothesis, the origins of human ancestors and modern humans, the recently-completed Human Genome Project, the genetic basis human diversity, and the ethics of using genetic knowledge to improve the quality of human life.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 109. Human Biology. 3 Credit Hours.
Structure and function of the human body, and the relationship of our species to its environment and other species. Not for credit in the biology major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

BIL 110. Human Hereditary Disease. 3 Credit Hours.
An overview of genetics, emphasizing human traits and disorders and their effects on individuals, families, and society. Discover the beauty of human nature, and our knowledge of it, as you develop an understanding of human genetics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 113. General Biology Honors Seminar. 1 Credit Hour.
Special topics in biology correlated with BIL 150.
Corequisite: BIL 150.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

BIL 114. General Biology Honors Seminar. 1 Credit Hour.
Special topics in biology correlated with BIL 160.
Components: DIS.
Grading: GRD.
Typically Offered: Spring.

BIL 116. Introduction to Cancer Biology. 3 Credit Hours.
Basic concepts in cancer biology, including tumor cell proliferation, prevention and therapy (chemotherapy, radiation and immunotherapy). Discussions on lab diagnostic techniques such as DNA cell cycle, proliferation analysis, hormone and tumor marker receptor expression. Impact of research findings on the management and treatment of cancer. Not for credit in the biology major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 117. Introduction to Animal Behavior. 3 Credit Hours.
Introduction to the scientific study of how and why animals interact with each other and with their environment. Ecological, physiological, and evolutionary approaches to understanding the diversity of behaviors including neurobiology, learning, mating systems, cooperation, communication, habitat selection, and personalities. Not for credit in the biology major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 118. Introduction to Human Ecology. 3 Credit Hours.
An exploration of the interface between human biology and the science of ecology. Ecology is the branch of biology that studies the interactions of organisms with their environments, and our human species may have the most complex interactions of any species on Earth. Human Ecology will explore the evolutionary past, the economic present, and our imagined future, focusing on the life-support services that humans obtain from ecosystems and our increasingly powerful effects on those ecosystems. Not for credit in the biology major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 120. Tree of Life: Introduction to Biodiversity. 3 Credit Hours.
An exploration of the diversity and evolution of life on Earth, including case studies drawn from throughout the Tree of Life that represent the thrilling and surprising ways in which species have evolved to survive, reproduce, and interact. Not for credit in the biology major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 149. First Year Information. 0-1 Credit Hours.
First year seminar for incoming Biology majors. Facilitation and encouragement of development of critical thinking skills, proficiency in oral and written expression, and an ability to solve problems by integrating knowledge from different disciplines in Biology.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

BIL 150. General Biology. 4 Credit Hours.
Principles of biology at the cellular, genetic, and organismal levels of organization. Cell structure and function, energy transduction, biological information transfer, genetics, physiology.
Pre/Corequisite: ENG 105 Or ENG 106 Or ENG 107 Or AP ENG COMP =>5 Or SAT Verbal 700 or higher Evidence Base Read and Write Or 32 or higher ACT ENG And ALEKS MTH=>55 Or AP Cal AB score =>3 Or AP Cal BC score=>3 Or SAT MTH Sect Score =>600 Or ACT MTH=>25.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

BIL 151. General Biology Laboratory. 1 Credit Hour.
A laboratory approach to applying the scientific method. Experimental design and hypothesis testing at the cellular and molecular level.
Corequisite: BIL 150.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Summer.

BIL 152. HHMI General Biology Laboratory. 1 Credit Hour.
Laboratory exercises to accompany BIL 150. Students teams engage in two inquiry-based laboratory research projects, each lasting six weeks, per semester.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

BIL 153. Introductory Biology/Chemistry Laboratory I. 1 Credit Hour.
Integrated biology and chemistry laboratory exercises for first year students.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.
**BIL 160. Evolution and Biodiversity. 4 Credit Hours.**
Evolution and ecology of life on Earth. Systematics, biodiversity, evolutionary theory and mechanisms, with emphasis on the morphological, ecological, and behavioral adaptations of the diversity of life.
Prerequisite: BIL 150.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

**BIL 161. Evolution and Biodiversity Laboratory. 1 Credit Hour.**
A laboratory approach to applying the scientific method. Experimental design and hypothesis testing at the organismal and ecological level.
Corequisite: BIL 160.
Components: LAB.
Grading: GRD.
Typically Offered: Spring & Summer.

**BIL 162. HHMI Evolution and Biodiversity Laboratory. 1 Credit Hour.**
Laboratory exercises to accompany BIL 160. Student teams engage in two inquiry-based laboratory research projects, each lasting six weeks, per semester.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

**BIL 163. Introductory Biology/Chemistry Laboratory II. 1 Credit Hour.**
Integrated biology and chemistry laboratory exercises for first year students.
Corequisite: BIL 160 and CHM 112 or CHM 221.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

**BIL 190. Studies in Biology. 1-5 Credit Hours.**
Special topics taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

**BIL 194. Studies in Biology. 1-5 Credit Hours.**
Special topics taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

**BIL 195. Studies in Biology. 1-5 Credit Hours.**
Special topics taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

**BIL 213. HIV and Emerging Diseases: Sex, Science, and Society. 3 Credit Hours.**
The importance and value of science in ameliorating human suffering. Students will hear from virologists, immunologists, cell biologistst behavioral scientists, primary care physicians, health care providers, drug discoverers) policy makers, vaccinologists, and HIV-infected individuals aiming to inspire and encourage students to be enthusiastic about science and scientific research on emerging diseases.
Prerequisite: BIL 150 and BIL 151 or BIL 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**BIL 220. Evolution and Disease. 3 Credit Hours.**
Evolutionary perspectives on genetic disorders, cancer, virulence, drug resistance and diet. The role of biodiversity in understanding pathogens and parasites, emerging disease, natural products and drug discovery. How diseases have shaped human evolution.
Prerequisite: BIL 150 and BIL 160.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
BIL 222. Plant Diversity. 3 Credit Hours.
The diversity and evolution of seed plants, the most important plants on land that shape our physical environment, affect climate, and provide humans with food, medicines, and materials important in all aspects of our lives. Survey of major lineages of Gymnosperms and Angiosperms, their evolutionary history, adaptations to life on land, reproductive biology, ecology, and economic benefits. Techniques for the collection of plant specimens from the field, and their preparation and identification for museum collections.
Prerequisite: BIL150 and BIL160 Or Consent of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 223. Plants and People. 3 Credit Hours.
A multi-disciplinary survey of ethnobotany and economic botany, emphasizing the ecosystem services that plants provide to humans.
Prerequisite: BIL150 and BIL160 Or Consent of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 226. General Botany. 3 Credit Hours.
Survey of the plant kingdom, including evolution, plant diversity, reproduction, structure, function and ecology.
Prerequisite: BIL150 and BIL160 Or Consent of Instructor.
Components: LEC.
Grading: GRD.

BIL 227. General Botany Laboratory. 1 Credit Hour.
Laboratory exercises to accompany BIL 226.
Pre/Corequisite: BIL 223 or BIL 226 Or Consent of Instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 228. Medical Botany. 3 Credit Hours.
History of medical botany, approaches to health by different cultures, separation and identification of secondary compounds and mechanisms of action. Molecular and physiological action of different secondary compounds in the treatment of common western ailments. In vivo identification of local medicinal plants.
Prerequisite: BIL150 and BIL151 AND BIL160 and BIL161 for Biology Majors or Minors.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 230. Introduction to Marine Biology. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 231. Introduction to Marine Biology Laboratory. 1 Credit Hour.
Experimental laboratory exploring ecology, physiology and behavior of marine organisms in southern Florida marine habitats. Exercises cover laboratory techniques in behavior, functional morphology, productivity, fisheries research, osmoregulation and community ecology.
Pre/Corequisite: BIL 230.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

BIL 244. Hormones and Behavior. 3 Credit Hours.
A comparative approach to the relationship between hormonal mechanisms and behavior in both animal model systems and humans. An introduction to the endocrine system, sex differences in behavior, parental behavior, hormones and social behavior, learning and memory, stress and affective disorders, interactions between brain, hormones and behavior from a historical perspective viewing the emergence of key theories.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 250. Genetics. 3 Credit Hours.
The nature, organization, replication, expression, and evolution of the genetic materials.
Prerequisite: BIL 150 and BIL 160. BIL 151 or BIL 152 or BIL 153. BIL 161 or BIL 162 or BIL 163.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

BIL 251. Genetics Laboratory. 2 Credit Hours.
Laboratory exercises in genetics.
Pre/Corequisite: BIL 250.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 255. Cellular and Molecular Biology. 3 Credit Hours.
Structure, molecules, and functions of cells.
Prerequisite: BIL 150 and BIL 160. BIL 151 or BIL 152 or BIL 153. BIL 161 or BIL 162 or BIL 163.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

BIL 256. Cellular and Molecular Biology Laboratory. 2 Credit Hours.
Laboratory exercises in cellular and molecular biology involving current research techniques and applications.
Pre/Corequisite: BIL 255 Or BIL 559.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

BIL 258. Core Laboratory Techniques. 2 Credit Hours.
Conceptual and applied "methods" course in modern analytical techniques. It will expose students to the Department of Biology's three best-developed core laboratory facilities for imaging, molecular biology, and element analysis.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 261. High Altitude Biology and Medicine. 3 Credit Hours.
Mechanisms of hypoxia resistance influencing the requirement to match oxygen supply and demand throughout the oxygen cascade. Topics drawn from genomics, integrated physiology, population genetics, biochemistry, gene expression, evolution, and alpine medicine. Taxonomic examples from the literature will include humans, other mammals, birds, reptiles, amphibians, and fish.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 267. Science Documentary: Autism. 3 Credit Hours.
This course brings together students in both science and communication to collaborate on content intended to reach audiences on multiple platforms. Students will be exposed to both history and cutting edge research surrounding Autism Spectrum Disorders. Students will connect with people in the local community, and collaborate on short documentary films as well as audio exercises.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 268. Neurobiology. 3 Credit Hours.
Neurons, organization of the nervous system, electrical properties of neurons, neurotransmitters, receptors, synaptic transmission, sensory and motor system, and complex brain functions.
Prerequisite: BIL 150.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 280. Writing in Biology. 0 Credit Hours.
Writing instruction by faculty using biological topics in BIL courses offered at the 200 level.
Components: IND.
Grading: SUS.
Typically Offered: Fall & Spring.
BIL 281. Undergraduate Learning Internship in Biology. 1 Credit Hour.
Undergraduate Learning Intern in Biology Students serve as peer mentors in a laboratory setting, assisting a graduate laboratory instructor in teaching basic biological concepts to first year undergraduates in BIL 151 and BIL 161.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 284. Special Laboratory Topics in Biology. 1-4 Credit Hours.
Topics relevant to the biological sciences, listed as subtitle. May be combined/co-listed with other departments or programs.
Prerequisite: BIL 150 and BIL 151 and BIL 160.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 285. Special Topics in Biology. 3 Credit Hours.
Topics relevant to the biological sciences, co-listed with other departments or programs.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 286. Clinical Medicine I. 3 Credit Hours.
Bi-weekly clinical rotations with physicians at Miller School of Medicine and simulation labs at the Gordon Center.
BIL 150 and BIL 160 AND CHM 111 or 121 AND CHM 113 and CHM 112 or CHM 221 AND CHM 114.
Components: PRA.
Grading: SUS.

BIL 287. Clinical Medicine II. 3 Credit Hours.
A continuation of Clinical Medicine I; bi-weekly clinical rotations with physicians at Miller School of Medicine and simulation labs at the Gordon Center.
Prerequisite: BIL 286.
Components: PRA.
Grading: CNC.
Typically Offered: Spring.

BIL 299. Seminar in Research Problems. 1 Credit Hour.
Discussion of current research of the Biology Faculty.
Prerequisite: BIL 150 and BIL 151 or BIL 152 or BIL 153 and BIL 160 and BIL 161 or BIL 162 or BIL 163.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 315. Marine Biota and Biogeochemical Cycles. 3 Credit Hours.
The diverse sources, transformations, and sinks of chemical constituents in the sea; distribution of dissolved and particulate materials in the sea. Role of marine organisms in marine biogeochemical cycling and the marine carbon cycle and its interaction with the terrestrial biosphere and atmosphere.
Prerequisite: MSC 320.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

BIL 316. Global Primary Production. 3 Credit Hours.
Photosynthesis supports the vast majority of life on planet earth. Although terrestrial and aquatic photoautotrophs share the same basic photosynthetic mechanisms, the physical environment and the fate of primary product on differ on land versus in the sea. This course reviews the magnitude and processes that shape primary production in terrestrial, oceanic, and freshwater habitats. It includes the fate of primary production in the earth's biomes, and the role of terrestrial and aquatic productivity in regulating, and responding to, variable climate.
Prerequisite: BIL 160.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 320. Evolutionary Biology. 3 Credit Hours.
Microevolution, including mutation, genetic variation, natural selection, genetic drift, gene flow, and nonrandom mating. Evolutionary insights into behavior, including kin selection, sexual selection, and evolutionary game theory. Theories on the origins of life on Earth, its diversification and history. Human evolution, creationism, and the current extinction crisis.
Prerequisite: BIL 150 and BIL 160.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 321. Invertebrate Zoology. 4 Credit Hours.
Biology of invertebrates, with emphasis on tropical and subtropical marine forms. Field work and combined lecture-laboratory sessions. 
Prerequisite: BIL 250 or BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 324. The Biology of Fishes. 3 Credit Hours.
Selected topics on the ecology and physiology of fishes. Lectures on reproduction, respiration, osmoregulation, sense systems, hormonal control. 
Prerequisite: BIL 255 and BIL 360.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 328. Biology of Birds. 4 Credit Hours.
General biology of birds. Lectures emphasizing avian behavior, evolution, ecology, and conservation. Field trips and laboratory emphasizing identification and systematics of South Florida birds. Lecture 3 hours, Laboratory one hour. Six weekend field trips, 6 hours each. 
Prerequisite: At least one BIL course at the 200 - level.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

BIL 329. Marine Vertebrate Zoology. 3 Credit Hours.
The form and function of the vertebrate lineage of marine animals from early chordates to the evolution of cartilaginous and bony fish and the emergence of tetrapods, those that evolved from marine ancestors and have since returned to the seas. A comparative point of view will be used to assess the anatomy and physiology of each taxonomic group as well as behavioral and ecological adaptations related to their life history. Topics will include the emergence of the vertebrate body plan and the evolution of fish from agnathans through modern teleosts, as well as the tetrapod lineage of marine reptiles, marine birds, and marine mammals. Discussion of critical points in vertebrate evolution where genome-wide duplication events occurred as well as instances of convergent evolution in various lineages. 
Prerequisite: MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

BIL 330. Ecology. 3 Credit Hours.
The interactions of living organisms with each other and with their abiotic environment. 
Prerequisite: BIL 250. or BIL 255. Calculus strongly recommended.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 331. Ecology Laboratory. 2 Credit Hours.
Lab and field exercises in ecology. Some Saturday field trips required. 
Pre/Corequisite: BIL 330.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 332. Tropical Ecology. 3 Credit Hours.
Tropical ecosystem including world distribution of tropical climate biogeographical regions, deserts and environmental factors, grassland and primary production, savannah population dynamics, energy flow, biogeochemical cycling, succession, and biodiversity of tropical ecosystem. 
Prerequisite: BIL 250 or BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 333. Conservation Biology. 3 Credit Hours.
The challenges facing conservation practitioners and the toolkit that has been developed to face these threats. Examination of important conservation cases and how endangered species and ecosystems are distributed across the globe; common threats to biodiversity and methods that have been developed to face these threats at both species and landscape scales; government implementation of conservation strategies. Students will read papers from the primary literature on a weekly basis that provide examples of how conservation tools are developed and implemented. Biology 330 (Ecology) is recommended. 
Prerequisite: BIL 150 and BIL 151 and BIL 160 and BIL 161. BIL 330 recommended.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
BIL 334. Biogeography and Conservation. 3 Credit Hours.
The modern science of biogeography and its implications for the design of spatial strategies to conserve biodiversity and ecosystem services. Examination of the history of biogeography and its geographical and ecological foundations. Study of the fundamental biogeographic processes and uses them to investigate the evolution of biotas and explain the current biogeographic patterns. Exploration of the emerging field of conservation biogeography and its applications.
Pre/Corequisite: BIL 330.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 335. Tropical Field Biology. 3 Credit Hours.
Intensive field study in the Costa Rican rainforest conducted during semester recesses with additional pre-trip lectures. Requires payment of trip costs.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 336. Hurricanes and Ecology. 2 Credit Hours.
The ecology of disturbance by looking at hurricane impacts on coastal communities of South Florida. The course includes reading journal articles, and understanding the ecological theory behind succession and fragmentation of communities after storms. Weekend trips are required.
Prerequisite: BIL 150 and BIL 160.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 337. Coastal Ecology. 3 Credit Hours.
Unprecedented pressure from population growth, tourism, and resource exploitation of coastal ecosystems provides a theme for an overview of current coastal ecology, especially within a conservation and management framework. Hands-on learning in ecohydrology, coastal oceanography, integration of biological communities, and coastal wetland classification for tropical Florida and the insular Caribbean. Students will review and actively participate in water quality and environmental monitoring.
Pre/Corequisite: BIL 330.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 340. Herpetology. 4 Credit Hours.
Biology of reptiles and amphibians. Their evolutionary history, a description of their current diversity, and how this diversity is distributed geographically. Physiology, including thermoregulation, reproduction, locomotion, and feeding. Spatial ecology, communication, sexual selection, predation, and community assembly.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 343. Animal Communication. 3 Credit Hours.
How communication evolves and functions across species, from invertebrates to humans, through a range of acoustic, visual, and chemical signals. How physical constraints shape animal signals, how animals convey information through signaling, and how honesty is maintained in communication systems. Signaling in a variety of contexts, including mate attraction, competition, and predation.
Prerequisite: At Least 3 Credits of BIL 200 Level or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 348. Climate Change and Public Health. 3 Credit Hours.
The mechanisms by which climate change adversely affects human health, and the policy options for mitigating our exposure.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 350. Survey of Marine Mammals. 3 Credit Hours.
The evolution and ecology of the cetaceans, pinnipeds, manatees, and allies: Natural history, zoo geography, physiology, husbandry, and biomedical aspects.
Prerequisite: BIL 150 and MSC 230.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 351. Molecular Genetics Laboratory. 2 Credit Hours.
Classical and molecular genetics experimental techniques. Content will include dominant and recessive mutations, regulation of gene expression, transgenes and transposons, DNA and RNA sequencing, and other essential molecular genetic methods and principles demonstrated through original experiments in model organisms.
Prerequisite: BIL 250.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 352. Techniques in Scanning Electron Microscopy. 3 Credit Hours.
Tissue preparation, use of the scanning electron microscope, photography, and analysis and manipulation of digital images. Lecture 1 hour; laboratory 5 hours.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 353. Projects in Scanning Electron Microscopy. 2 Credit Hours.
Individual research projects in scanning electron microscopy. Six hours of laboratory.
Prerequisite: BIL 352.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 354. Biology of Viruses. 3 Credit Hours.
The molecular biology, ecology, and clinical relevance of prokaryotic and eukaryotic viruses, the most abundant and diverse biological entities on the planet. Current and emerging topics in virus research, including the role of viruses in modulating carbon and nutrient cycles in the biosphere, viral therapy as a tool against emerging multi-drug resistant bacteria, and viral spillover, using the 2020 coronavirus outbreak as a case study.
Prerequisite: BIL 150 and BIL 160.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 360. Comparative Physiology. 3 Credit Hours.
How animals work and the physiological processes that allow for animal life. Fundamental aspects of physiology, such as homeostasis, metabolism, function of the nervous system, endocrine function, movement, gas and water transport. The relationship between structure and function through comparisons across diverse animal taxa. Emphasis on critical thinking and application of the scientific method.
Prerequisite: BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 365. Endocrinology. 3 Credit Hours.
The endocrine glands and the chemistry, mechanisms of action, and physiological effects of hormones. Emphasis on vertebrate hormones, including clinical aspects of human endocrinology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 367. Biology of Cancer. 3 Credit Hours.
Prerequisite: BIL 250 or BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 369. Fundamentals of the Biology of Aging. 3 Credit Hours.
How and why we age. The biology of aging at the molecular, cellular, and organismal levels in a comparative and evolutionary context.
Prerequisite: BIL 250 or BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 371. Readings in Biology. 1 Credit Hour.
Independent readings on selected topics in biology under the supervision of individual faculty.

**Components:** THI.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

BIL 372. Readings in Biology. 1 Credit Hour.
Independent readings on selected topics in biology under the supervision of individual faculty.

**Components:** IND.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

BIL 374. Seminar in Biology. 1 Credit Hour.
Seminar in selected topics in biology.
Prerequisite: BIL150 and BIL160 and BIL151 or BIL152, or BIL153 and BIL161 or BIL162 or BIL163.

**Components:** SEM.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

BIL 375. Seminar in Biology. 1 Credit Hour.
Seminar on selected topics in biology.
Prerequisite: BIL150 and BIL160 and BIL151 or BIL152, or BIL153 and BIL161 or BIL162 or BIL163.

**Components:** SEM.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

BIL 376. Complementary and Integrative Medicine. 2 Credit Hours.
Almost 40% of Americans use health care approaches outside of mainstream Western medicine. These non-traditional approaches include acupuncture, meditation, massage therapy, reiki, yoga, hypnotherapy, chiropractic manipulation, and herbal medicine. Some of these approaches seem to hold promise in the healing process, while others have had little research to date. In this course, we will examine scientific evidence for the efficacy of these different approaches.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.

BIL 380. Writing in Biology. 0 Credit Hours.
Writing instruction by faculty using biological topics in BIL courses offered at the 300 level.

**Components:** IND.

**Grading:** SUS.

**Typically Offered:** Fall & Spring.

BIL 381. Workshop Leaders in Biology I. 0-1 Credit Hours.
Peer-led Team Teaching of workshops for groups of BIL 150 students. May be taken once only for credit in the BIL major, but may be taken additional times for a general education credit. Students may serve as workshop leaders for a second time for a stipend if they (1) have taken the course once before and (2) are graduating seniors.

**Components:** DIS.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

BIL 382. Workshop Leaders in Biology II. 0-1 Credit Hours.
Peer-led Team Teaching of workshops for groups of BIL 160 students. May be taken once only for credit in the biology major, but may be taken additional times for general education credit. Students may serve as workshop leaders for a second time for a stipend if they (1) have taken the course once before and (2) are graduating seniors.

**Components:** DIS.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

BIL 384. Special Laboratory/Field Topics in Biology. 1-4 Credit Hours.
Topics relevant to the biological sciences, listed as subtitle. Maybe combined/co-listed with other departments or programs.
Prerequisite: BIL 150 and BIL 151 and BIL 160 and BIL 161.

**Components:** LAB.

**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.
BIL 385. Special Topics in Biology. 2-6 Credit Hours.
Topics relevant to the biological sciences, listed as subtitle. May be co-listed with other departments or programs.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 386. Science Made Sensible Teaching Internship. 3 Credit Hours.
A teaching internship in which students spend at least 60 hours in Miami Dade County Public Schools assisting teachers with science education. Contributions to bimonthly workshops and group meetings, creation of lesson plans following Sunshine State Guidelines. One BIL course at the 200 level or higher.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 389. Nonacademic Career in Biology. 2 Credit Hours.
Speakers recruited from local biotech companies, conservation organizations, science museums, the National Park Service, and Customs as well as invasive species specialists, medical dosimetrists, principals of schools seeking biology teachers, and others will give weekly seminars about their practice of science in their occupations. Following each seminar, students will meet with speakers in an informal setting to discuss the particulars and or prospects of the career in question. The express purpose of this course is to provide students with an idea of the utility of their biology degree in the workplace. Papers or writings that pertain to a particular career will be assigned prior to the seminar so that students will be ready with questions for the speaker.
Prerequisite: 1 Course in BIL 200 or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 390. Studies in Biology. 1-5 Credit Hours.
Special topics taken at other institutions with no direct equivalents.
Components: SEM.
Grading: GRD.

BIL 395. Studies in Biology. 1-5 Credit Hours.
Special topics taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

BIL 399. DNA and the Changing World. 3 Credit Hours.
This is an online course, not intended for biology majors. It covers in-depth knowledge of DNA, gene, gene function, genome and inheritance with the focus on applying the knowledge to real-world issues; both personal and societal, from the history of life to challenges and opportunities in the modern times at the molecular level. Does not count towards a Biology major or minor.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 402. Seminar in Biology. 1 Credit Hour.
Seminar on selected topics in Biology.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 403. Neuroscience Laboratory. 4 Credit Hours.
Research methods and laboratory experiments in contemporary neuroscience from individual cells to behavior. Scientific writing and computer applications in experimental design and analysis. Combined lecture and laboratory.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

BIL 415. Coral Reef Science and Management. 3 Credit Hours.
Coral reefs as biophysical and socioeconomic systems. Coral reef typology, geomorphology, biotic and abiotic components of coral reef ecosystems. Prerequisite: BIL 250 or BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 426. Native and Introduced Plants of the Galapagos. 3 Credit Hours.
The unique vegetation and introduced flora of the Galapagos Islands in Ecuador. Current conservation measures used to control the threats affecting
native flora, and future prospects for conserving indigenous plants and for ensuring their rational utilization. Taught in the Galapagos as part of the
UGalapagos semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 432. Ecology in the Galapagos. 3 Credit Hours.
Organisms in relation to their environment, with focus on interactive, hands-on learning that connects empirical nature with abstract thinking.
Lectures, discussion and fieldwork on ecosystem ecology, plant dispersal and colonization; organisms' responses to spatial and temporal variability
in their environments, plant/animal interactions. Origins and effects of invasive species and actions of bio-control agents. Taught in the Galapagos as
part of the UGalapagos semester.
Prerequisite: BIL 332.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 433. Conservation in Practice. 3 Credit Hours.
Intersection between economic development, science and conservation in one of the world's most pristine and fragile ecosystems, the Galapagos
Islands. Exploration of how tourism offers an alternative to unsustainable fisheries that once drove the local economy, yet has created a new set of
pressures on the people and the environment. Mitigation efforts, science, and international conservation mesh with an understanding of local politics,
customs and cultures. Taught in the Galapagos as part of the UGalapagos semester.
Prerequisite: BIL 432.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 434. Behavioral Ecology of the Galapagos. 3 Credit Hours.
Functional aspects of animal behavior, including topics such as animal communication, optimal foraging, mating systems, sexual selection, and the
evolution of cooperation. Studies of the behavior of Galapagos organisms are emphasized.
Prerequisite: BIL 150 and BIL 151 or BIL 152 or BIL 160 and BIL 161 or BIL 161 or BIL 162 or BIL 163.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 435. Origins, Ecology and Conservation of Insular Diversity. 3 Credit Hours.
Three-week field course in island systems. Ecological and evolutionary processes that maintain and create biological diversity in tropical islands.
Natural selection, island biogeography, phylogenetics, colonization and community assembly of island species. On-site field surveys and experiments.
Combined lecture and laboratory/field course.
Components: FLD.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 436. Stable Isotope Ecology. 3 Credit Hours.
Stable isotopes of essential elements (Oxygen, Carbon, Nitrogen, Hydrogen and Sulfur) as natural tracers of ecological processes. Principles of
Chemistry, Physics and Biology will be integrated to allow interpretation, via these tracers, of how fundamental elements are cycled through the
biosphere.
Prerequisite: BIL 330.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 441. Animal Behavior. 3 Credit Hours.
Mechanistic and evolutionary aspects of animal behavior. A survey of systems that illustrate the control, development and function of behavior in a
variety of animals.
Prerequisite: BIL 150 and BIL 160.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 442. Animal Behavior Laboratory. 2 Credit Hours.
An exploration of the amazing behaviors of animals from an explicitly evolutionary perspective. The study of the diversity of behavior in nature as shaped by natural and sexual selection. Topics will include: resource acquisition and defense, predator avoidance, mate choice and competition for mates, and cooperative behavior. Labs are inquiry based, with students designing, conducting and analyzing experiments to test hypotheses. Students will develop their scientific communication skills throughout the semester by gaining experience in oral presentations and writing manuscripts. Note that this course will involve two required field trips off campus.
Prerequisite: BIL 150 and BIL 160.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 450. The Biology of Symbiosis. 3 Credit Hours.
Symbiosis, interactions between species that live in close physical association, in particular those between microbes and multicellular eukaryotic hosts is fundamental to almost all aspects of biology. Building discipline specific knowledge about symbiosis. The course includes engagement with the scientific literature as a professional researcher, and development of foundational skills for presentation and synthesis of scientific information in visual, oral and written form.
Prerequisite: BIL 250 Or BIL 330.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 452. Evolution and Conservation Genetics. 3 Credit Hours.
Integration of evolutionary theory and genetics to address conservation problems and their solutions. Theory and empirical information pertaining to evolution on islands and the impact of humans on endemic species. Natural selection, sexual selection, population genetics, niches, diversity, and conservation in the context of the Galapagos Islands.
Prerequisite: BIL 150 and BIL 151 or BIL 152 or BIL 153 and BIL 160 and BIL 161 or BIL 161 or BIL 162 or BIL 163.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 454. Biological Core Concepts Through Medical Case Studies. 3 Credit Hours.
A capstone course in which students will complete a series of medically-oriented case studies. Knowledge of biology, chemistry, math, and physics will be applied to real-world issues. Critical thinking will be used to solve basic medical problems, and facilitate understanding of the interdisciplinary nature of medicine.
Requisite: BIL 150 And BIL 151 And BIL 160 And BIL 161 Or equivalent And one BIL 200 level or higher course.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 455. Developmental Biology. 3 Credit Hours.
A study of the process by which a fertilized egg gives rise to a multicellular organism with organs, tissues and cell types that are structurally and functionally distinct and are arranged in a characteristic three-dimensional body plan. This course will take a comparative approach using invertebrate and vertebrate models to cover the current understanding of the cellular, molecular and genetic mechanisms that regulate the development of animals. Evolutionary mechanisms and the biomedical relevance of developmental biology will be emphasized.
Prerequisite: BIL 250 or BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 456. Developmental Biology Laboratory. 2 Credit Hours.
Experimental analysis of animal development using a variety of techniques including experimental embryology, microscopy, molecular biology, genetics and immunochemistry. Following a short series of introductory labs and lectures, students will develop an independent research proposal and will spend the remaining weeks of the semester working on their projects under the guidance of the instructors. This class is restricted to students who have taken cell and molecular biology, developmental biology OR genetics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 468. Developmental Neuroscience. 3 Credit Hours.
Molecular, cellular, and physiological mechanisms controlling the proper development and function of neurons and neural circuits. Signaling mechanisms that regulate cell determination, proliferation, and differentiation. Neural migration and outgrowth, synaptic connectivity and plasticity, and neural basis of animal behavior.
Prerequisite: BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 480. Writing in Biology. 0 Credit Hours.
Writing instruction by faculty using biological topics in BIL courses offered at the 400 level.
Components: IND.
Grading: SUS.
Typically Offered: Fall & Spring.

BIL 481. Undergraduate Teaching Assistant Training in Biology. 1-3 Credit Hours.
Training and teaching assistance for undergraduate workshops or laboratories, under the direct supervision of faculty. Specific topic is indicated by course subtitle. This course may be taken no more than twice for credit in the Biology major or minor, and if taken twice, teaching assistance must be for two different BIL courses. May be taken multiple times for general elective credit only.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 482. PRISM Teaching Fellow. 2 Credit Hours.
Undergraduate mentors to PRISM students, and teaching fellows to PRISM course instructors in biology.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 484. Special Laboratory Topics in Biology. 1-4 Credit Hours.
Topics relevant to the biological sciences, listed as subtitle. May be combined/co-listed with other departments or programs.
Prerequisite: BIL 200 or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 485. Special Topics in Biology. 2-6 Credit Hours.
Topics relevant to the biological sciences, co-listed with other departments or programs.
Components: DIS.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 486. Advanced Science Made Sensible Teaching Internship. 3 Credit Hours.
A teaching internship in which students spend at least 60 hours in Miami Dade County Public Schools assisting teachers with science education. Contributions to bimonthly workshops and group meetings, development of problem-based lesson plans to promote critical thinking.
Prerequisite: BIL 386.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 491. Departmental Seminar in Biology. 1 Credit Hour.
Research seminars by distinguished biologists.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

BIL 492. Departmental Seminar in Biology. 1 Credit Hour.
Research seminars by distinguished biologists.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

BIL 495. Projects in Biology. 2 Credit Hours.
Individual, original laboratory or field research supervised by a member of the department faculty and concluded by a formal written report.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.
BIL 496. Projects in Biology. 2 Credit Hours.
Individual, original laboratory or field research supervised by a member of the department faculty and concluded by a formal written report.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 497. Projects in Biology. 2 Credit Hours.
Individual, original laboratory or field research supervised by a member of the department faculty and concluded by a formal written report.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 498. Senior Thesis. 2 Credit Hours.
Formal thesis preparation supervised by a member of the departmental faculty including a public oral defense and submission of the written document to the department.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 499. Research Colloquium. 1 Credit Hour.
Discussion of current research done by undergraduate students.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 508. Research in Progress Seminar. 1 Credit Hour.
Students will explore current research by Biology Department graduate students, postdoctoral fellows, and faculty through weekly research seminar presentations.
Components: SEM.
Grading: CNC.
Typically Offered: Fall & Spring.

BIL 511. Advanced Biostatistics. 4 Credit Hours.
Statistical analyses needed to understand, present, and publish biological research. Examples will primarily be drawn from the biomedical and ecological fields. The course will begin with a review of descriptive statistics, probability theory, and univariate distributions, followed by an overview of experimental design and analysis of categorical data using contingency tables. This will be followed by a unit on parametric analysis of univariate data including both simple and multiple linear regression, model selection, and analysis of variance. The final unit will cover non-parametric versions of these analyses and more advanced multivariate statistical methods. Lectures will be accompanied by a computer lab in which students learn hands-on statistical analysis in SAS JMP.
Prerequisite: At least one BIL course at the 300 level.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

BIL 515. Object-Oriented Programming and Agent-Based Modelling. 3 Credit Hours.
Hands-on training in object-oriented programming using Java, including Java statistical packages, and in the development of agent-based and individual-based simulation models for ecological, physiological, social, economic and physical sciences. Introductions to cellular automata and models based on social and behavioral networks. No prior programming experience required.
Prerequisite: At least one BIL course at the 200 level.
Components: LEC.
Grading: GRD.

BIL 520. Evolution. 3 Credit Hours.
Evidence for evolution; microevolution including natural selection, kin selection, genetic drift, gene flow, mutation, and evolutionary game theory; macroevolution including speciation, adaptation, phylogenetics, origin of life, and extinction.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
**BIL 521. Phylogenetics. 3 Credit Hours.**
Concepts and methods in phylogenetic systematics. The importance of phylogenetic trees in biology. Use of phylogeny in taxonomy, trait evolution (including homology, adaptations and key innovations), biogeography, speciation, diversification rates, molecular evolution, molecular clocks, and gene duplication.
Prerequisite: BIL 250.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**BIL 523. Advanced Biology of Marine Invertebrates. 4 Credit Hours.**
Detailed study of major phyla of marine invertebrates. Special emphasis on taxa found in waters off southern Florida. Field course. Lectures, laboratory, special projects, and seminars.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**BIL 531. Advanced Field Ecology. 5 Credit Hours.**
Principles of and practical experience in quantitative sampling of community structure, plant and animal populations, and animal activities. Emphasis on individual projects. Lecture, 3 hours; laboratory/field, 10 hours on alternate Saturdays, plus research projects.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**BIL 535. Molecular Ecology. 3 Credit Hours.**
Molecular markers and analyses, and their applications to different problems in biology. Appropriate sampling, methods for assessing genetic diversity and differentiation. Approaches to studying gene flow, tools for behavioral ecology, remote sampling, tracking individuals, and paternity analysis, hybridization and speciation, DNA bar codes, and gene expression from a population biological perspective.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**BIL 536. Molecular Ecology Laboratory. 1 Credit Hour.**
Laboratory techniques, molecular tools, applications, and analysis methods commonly used by researchers in the areas of molecular ecology and population genetics.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**BIL 537. Ecosystem Ecology. 3 Credit Hours.**
Concepts and models of energy and nutrient flow, food webs, successional processes, human influences and effects of spatial heterogeneity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**BIL 539. Conservation and Protected Areas. 3 Credit Hours.**
The science and policy of park planning and management will be explored through four case studies. The case studies will explore key concepts in ecology and population biology relating to loss of habitat, habitat fragmentation, invasive species, pollution and declines in population size.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**BIL 551. Population Genetics and Genomics. 3 Credit Hours.**
Introduction to population genetics, which examines the evolutionary processes that affect the genetic composition of natural populations: mutation, genetic drift, natural selection, and gene flow. Theoretical and empirical aspects will be examined via mathematical models, methods of measuring genetic variation, and readings of published case studies. Taxonomic focus will be broad and will include both model organisms (e.g., Drosophila), and non-model organisms.
Prerequisite: BIL 250.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 552. Bioinformatics Tools. 3 Credit Hours.
Databases and tools of bioinformatics as relevant to research in genomics and molecular biology. Bioinformatics applications. Information retrieval, analytical tools, BLAST searches, promoter analysis, protein structure-function analysis and various applications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 553. Biomedical Data Science. 3 Credit Hours.
Computational skills for analysis of genomic data sets. Basics of using a command line interface (text editor, Unix/Linux/iOSX), and logging into and getting started on Pegasus2. Python will be used to write scripts for downloading, manipulating, and analyzing data. File sharing and version control using github will be introduced at this stage, which will include RCR training. Analysis, interpretation, and presentation of Next Generation Sequencing data set (RNAseq, exome, or whole genome; public or their own. Interpreting and presenting results, to enable students to extract information from the data rather than just statistically analyze it.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 554. Electron Microscopy. 4 Credit Hours.
Techniques in transmission electron microscopy (TEM) including tissue preparation, use of the electron microscope, photography, and interpretation of micrographs. Lecture, 1 hour; laboratory, 6 hours.
Components: LAB.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 555. Projects in Electron Microscopy. 2 Credit Hours.
Individual research projects in transmission electron microscopy, 6 hours.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 556. Ecological and Evolutionary Genomics. 3 Credit Hours.
The evolution of genomes, and the ecological interactions that drive their evolution.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 559. Life in the Cell. 3 Credit Hours.
A comprehensive, advanced overview of the molecular biology of the cell, cells, and genomes.
Prerequisite: BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

BIL 565. Evolution and Development. 3 Credit Hours.
Exploration of the relationship between common descent and biological diversity, principally changes in organismal development through time. Prerequisite: BIL 250 or BIL 255.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 568. Evolution and Development of Nervous Systems. 3 Credit Hours.
Mechanisms/pathways/modules underlying formation of the nervous system during embryo development. How some properties of nervous systems have resisted change while others have diverged dramatically during evolution.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

BIL 575. Advanced Special Studies in Biology. 1-6 Credit Hours.
Content of course will vary by semester. Content in any semester will be indicated via subtitle in the class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
BIL 580. Writing in Biology. 0 Credit Hours.
Writing instruction by faculty using biological topics in BIL courses offered at the 500 level.
Components: IND.
Grading: SUS.
Typically Offered: Fall & Spring.

BIL 591. Studies in Biology. 1-5 Credit Hours.
Special topics taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

BIL 592. Studies in Biology. 1-5 Credit Hours.
Special topics taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

B.A. in Biology

The B.A. degree is recommended for students involved in interdisciplinary programs and for entrance to those professional schools and specific biological careers not requiring a B.S. degree with a major in Biology.

At least three BIL elective credits must be at the 400-level or higher
At least one elective course must be a CAPSTONE. (Locate capstone courses in Canelink Class Search under "Additional Search Criteria", subheading "Course Attributes".)
Up to eight credit hours for the major may be selected from courses with a biological topic and numbered 300 or higher in MBE, MES, or MSC.

Chemistry
Select one of the following options: 8-15

Option 1:

- **Spring**
  - BIL 160 Evolution and Biodiversity 4
  - BIL 161 or 163 Evolution and Biodiversity Laboratory or Introductory Biology/Chemistry Laboratory II 1
  - ENG 106 or 107 English Composition II or English Composition II: Science and Technology 3
  - Choose one of the following: 3
    - MTH 108 Precalculus Mathematics II
    - MTH 113 Finite Mathematics
    - MTH 130 Introductory Calculus
  - Language 102 3

**Total Credit Hours: 14**

**Year Two**

**Fall**

- BIL Elective (BIL 250 or BIL 255 recommended) 3
- CHM 103 Chemistry for the Health Sciences I 3
- CHM 105 or 113 Chemistry for the Health Sciences I (Laboratory) or Chemistry Laboratory I 1
- Language 2XX 3
- Arts and Humanities Cognate Course 3
- People and Society Cognate Course 3

- **Credit Hours: 16**

**Spring**

- BIL Elective (BIL 330 or BIL 320 recommended) 3
- Course in Minor 3
- CHM 104 Chemistry for the Health Sciences II 3
- CHM 106 or 205 Chemistry for the Health Sciences II (Laboratory) or Chemical Dynamics Laboratory 1
- Arts and Humanities Cognate Course 3
- People and Society Cognate Course 3

- **Credit Hours: 16**

**Year Three**

**Fall**

- BIL Elective 3

- **Credit Hours: 3**

- Arts and Humanities Cognate Course (WRI) 3
Student Learning Outcomes

- Students will, through a required core of courses including laboratories, demonstrate a broad knowledge base in Biology.
- Students will, through exposure to biological concepts, inquiry-based learning and biological research, develop the ability to think critically and to formulate and test hypotheses.
- Students will, through courses intensive in research presentations, develop presentation skills sufficient to communicate scientific information to professional and public audiences.
- Students will, through exposure to biological concepts, inquiry-based learning and biological research, develop the ability to think critically and understand proper application of the scientific method.

B.S. in Biology

Overview

The B.S. degree is recommended as preparation for medical school, veterinary school, dental school, masters and Ph.D. programs in biology, careers in biological research, conservation and environmental management, and teaching at the high school and college level. Three options are available for students to specialize within Biology.

**Additional BIL electives**

- At least three credit hours of additional BIL electives must be at the 400-level or higher
- At least one BIL elective must be a CAPSTONE course. (Locate capstone courses in Class Search under "Additional Search Criteria", subheading "Class Attributes").
- Two biology laboratory or field courses beyond <BIL 151 or BIL 153> and <BIL 161 or BIL 163> are required as part of the additional BIL electives. Approved laboratory/field courses at the 300 level or higher in departments other than Biology (e.g., BMB, MIC, MSC, NEU) can be counted towards this lab requirement. Check with the Department of Biology to confirm that a specific course is allowed to fulfill this requirement.

Up to eight credit hours toward the major may be selected from courses with a biological topic and numbered 300 or higher in MBE, MES, MSC, or OCE.

**Chemistry**

Three semesters (16 credits) of chemistry are required for the biology major.

</tbody>
</table>

**Minor in a Natural Science** 1-16

A minor in chemistry, ecosystem science and policy, physics, geological sciences, marine sciences, biochemistry and molecular biology, computer science, mathematics, or microbiology and immunology.

Total credit hours for the minor will vary by department.

The CHM requirement for the BS in biology fulfills either 12 or 15 (depending on which option is selected) of the 16 credits necessary for the minor in Chemistry. To complete the minor in Chemistry, only 1-4 additional credits in CHM are required beyond those necessary for the BS in Biology.

**Additional Required Courses**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 105</td>
<td>English Composition I</td>
</tr>
<tr>
<td>ENG 106</td>
<td>English Composition II</td>
</tr>
<tr>
<td>or ENG 107</td>
<td>English Composition II: Science and Technology</td>
</tr>
<tr>
<td>MTH 161</td>
<td>Calculus I</td>
</tr>
<tr>
<td>MTH 162</td>
<td>Calculus II</td>
</tr>
<tr>
<td>Language Courses</td>
<td>3-9</td>
</tr>
<tr>
<td>Arts and Humanities Cognate</td>
<td>9</td>
</tr>
<tr>
<td>People and Society Cognate</td>
<td>9</td>
</tr>
<tr>
<td>Electives</td>
<td>25-0</td>
</tr>
</tbody>
</table>

**Total Credit Hours** 145-142
A maximum of one credit hour may be applied towards the major or minor. These courses may be taken more than once each for *general elective credit only*, but only two credits from these options may count towards the major or minor.

This will fulfill the mathematics/statistics/computer programming requirement under the College of Arts and Sciences General degree requirements for the Bachelor of Science.

**Mission**

**Goals**

**Student Learning Outcomes**

- Students will, through a required core of courses including laboratories, demonstrate a broad knowledge base in Biology.
- Students will, through exposure to biological concepts, inquiry-based learning and biological research, develop the ability to think critically and to formulate and test hypotheses.
- Students will, through courses intensive in research presentations, develop presentation skills sufficient to communicate scientific information to professional and public audiences.
- Students will, through exposure to biological concepts, inquiry-based learning and biological research, develop the ability to think critically and understand proper application of the scientific method.
B.S./M.S. in Biology

Overview
The 5-year BS/MS degree in the Department of Biology is designed for students who are engaged in research and considering a career in biological sciences. Over the course of their senior year, plus one additional year of graduate study, students in the program will take graduate level courses, conduct independent research, and write a Masters of Science thesis.

The first step in this process is for the student and a faculty member to agree on a suitable research project. Students should consider talking with several faculty members to discuss possible projects before settling on a research topic. The Director of the Biology BS/MS program can assist the student in finding a participating faculty mentor in Biology. For at least two semesters of their undergraduate studies, the student must have enough time in their schedule to devote to research <BIL 495, BIL 496, BIL 497>. This is the equivalent of a 2-credit laboratory (6 hours per week), but if the student is enthusiastic about his/her project, he/she will want to spend more time on it than that. Applications to the program are evaluated at the end of the Junior year, so the student should begin research in his/her Sophomore year.

In addition to the requirements for the Bachelor of Science, a student must complete specific courses/seminars, as listed under Curriculum Requirements in preparation for their year of graduate study.

Timeline:

Freshman/Sophomore/Junior year: Find a research mentor, register with the Office of Undergraduate Research and begin your research project. Enroll in Projects in Biology <BIL 495, BIL 496, BIL 497>. Notify the Program Director of your intent.

Junior year: Apply to the program in the fall semester. Continue your research project.

Senior year: Complete the requirements for the B.S. and take one 3 credit Masters-level course each semester. Attend the Biology Departmental Seminar. Present your research findings at the Research, Creativity and Innovation Forum in the spring semester.

Masters year: Take 12-15 credits of Masters coursework each semester. Finish your lab research, write and defend your thesis.

Curriculum Requirements

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>B.S. in Biology Curriculum Requirements</td>
<td>22</td>
<td></td>
</tr>
<tr>
<td>Biology Core Courses</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Two semesters of introductory biology plus labs are required, usually taken in the first year:

- BIL 150 General Biology
- BIL 151 General Biology Laboratory
  or BIL 153 Introductory Biology/Chemistry Laboratory I
- BIL 160 Evolution and Biodiversity
- BIL 161 Evolution and Biodiversity Laboratory
  or BIL 163 Introductory Biology/Chemistry Laboratory II

Select one of the following three Options for upper level required biology core courses:

Option One: This option is recommended for students interested in medical school, other health sciences, cell, molecular and developmental biology.

- BIL 250 Genetics
- BIL 255 Cellular and Molecular Biology
- BIL 360 Comparative Physiology
- BIL 330 Ecology
  or BIL 320 Evolutionary Biology

Option Two: This option is recommended for students interested in ecology, evolution, biodiversity and conservation.

- BIL 250 Genetics
- BIL 320 Evolutionary Biology
- BIL 330 Ecology
- BIL 255 Cellular and Molecular Biology
  or BIL 360 Comparative Physiology

Option Three:

- BIL 250 Genetics
- BIL 255 Cellular and Molecular Biology
### B.S./M.S. in Biology

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIL 330</td>
<td>Ecology</td>
<td></td>
</tr>
<tr>
<td>BIL 360</td>
<td>Comparative Physiology</td>
<td></td>
</tr>
</tbody>
</table>

#### Additional BIL electives

- At least one BIL elective must be a CAPSTONE course. (Locate capstone courses in Class Search under "Additional Search Criteria", subheading "Class Attributes").

- At least four credit hours of the following must be taken for the B.S./M.S. in Biology program. A maximum of six credit hours may be applied as electives towards the B.S. in Biology.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIL 495</td>
<td>Projects in Biology</td>
<td></td>
</tr>
<tr>
<td>BIL 496</td>
<td>Projects in Biology</td>
<td></td>
</tr>
<tr>
<td>BIL 497</td>
<td>Projects in Biology</td>
<td></td>
</tr>
</tbody>
</table>

Two biology laboratory or field courses beyond <BIL 151 or BIL 153> and <BIL 161 or BIL 163> are required as part of the additional BIL electives. An approved laboratory/field course at the 300 level or higher in departments other than Biology (e.g., BMB, MIC, MSC, NEU) can be counted as one of the two required lab courses. Projects in Biology <BIL 495, BIL 496 or BIL 497> may be counted as one of the two required lab courses. Check with the Department of Biology to confirm that a specific course is allowed to fulfill this requirement.

- At least six credit hours of graduate courses in Biology (BIL 600-level) must be taken in the Senior year.

- Up to eight credit hours toward the major may be selected from courses with a biological topic and numbered 300 or higher in MBE, MES, MSC, or OCE.

- A maximum of two credit hours of the following may be applied towards the major.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIL 371</td>
<td>Readings in Biology</td>
<td></td>
</tr>
<tr>
<td>BIL 372</td>
<td>Readings in Biology</td>
<td></td>
</tr>
</tbody>
</table>

A maximum of three total credit hours from the following courses may be applied towards the major. Any course in this list may be taken only once to count towards the major. However, these courses may be taken additional times for general elective credit only.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIL 281</td>
<td>Undergraduate Learning Internship in Biology</td>
<td></td>

<td>University Physics I for PRISM and College Physics Laboratory I</td>
</tr>
<tr>
<td>PHY 212 &amp; PHY 108</td>
<td>University Physics II for PRISM and College Physics Laboratory II</td>
</tr>
</tbody>
</table>

Option Four:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHY 221 &amp; PHY 224</td>
<td>University Physics I and University Physics II Lab</td>
</tr>
<tr>
<td>PHY 223 &amp; PHY 225</td>
<td>University Physics III and University Physics III Lab</td>
</tr>
</tbody>
</table>

**Minor in a Natural Science**

A minor in chemistry, ecosystem science and policy, physics, geological sciences, marine sciences, biochemistry and molecular biology, computer science, mathematics, or microbiology and immunology

Total credit hours for the minor will vary by department.

The CHM requirement for the BS in biology fulfills either 12 or 15 (depending on which option is selected) of the 16 credits necessary for the minor in Chemistry. To complete the minor in Chemistry, only 1-4 additional credits in CHM are required beyond those necessary for the BS in Biology.

**Additional Required Courses**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 105</td>
<td>English Composition I</td>
<td>3</td>
</tr>
<tr>
<td>ENG 106</td>
<td>English Composition II</td>
<td>3</td>
</tr>
<tr>
<td>or ENG 107</td>
<td>English Composition II: Science and Technology</td>

</tr>
<tr>
<td>People and Society Cognate</td>
<td></td>
<td>9</td>
</tr>
<tr>
<td>Electives</td>
<td></td>
<td>25-0</td>
</tr>
</tbody>
</table>

**Masters Year Curriculum Requirements**

In the fifth year, 12-15 graduate-level courses in Biology should be taken each semester.

Required graduate courses for the B.S./M.S. in Biology program. Some of these may be taken during the Senior year of the B.S.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

Minor in Biology

Overview
The Minor in Biology is recommended to complement degrees in other natural sciences, for students interested in careers in health sciences, scientific research, and science education.

Curriculum Requirements

<table>

*The following courses CANNOT be used to satisfy the Biology Minor requirement: BIL 281, BIL 381, BIL 382, BIL 481, BIL 482

All credit hours for the Biology Minor must be taken in residence at University of Miami

1. Courses from other natural sciences approved as electives in the Biology Major may not be counted towards the Biology Minor. (All courses must be in BIL.)
2. Overall GPA in the BIL minor courses must be a minimum of 2.0.
3. The nine credits required for the Biology Minor do not include the introductory biology series (BIL 150, BIL 160, BIL 151 or 153, BIL 161 or BIL 163) that may be pre-requisites for upper level courses

Chemistry

One year of Calculus
At least two semesters of Physics Plus Lab

Total Credit Hours 19

The requirements for a major are flexible and should conform to the objectives of the student. A grade of C- or higher must be earned in all courses taken for major or minor credit hour, and the Chemistry GPA must be 2.00 or higher. Credit hours earned in CHM 381 and CHM 382 do not count toward the major or minor.

Educational Objectives
The mission of the Bachelor's degree program in the Chemistry Department is to promote an understanding and appreciation of the role of chemistry in modern society, especially as it relates to and integrates with other biological and physical sciences and societal issues facing humanity today such as the environment, health issues and technological advances.

Degree Programs
Three programs lead to degrees with a chemistry major:

1. The B.A. degree
2. The B.S. degree
3. The B.S. degree with certification by the American Chemical Society Committee for Professional Training of Chemists.
Departmental Honors
Honors in Chemistry may be earned by students who complete the B.S. degree in chemistry, plus at least five credit hours of CHM 488 and one credit hour of CHM 490, all with an average grade of at least 3.30. A written Honors Thesis and oral defense on the subject of the Honors Research must be presented by the student and approved by a Department Honors Committee.

Writing Requirement
To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Chemistry should take CHM 320 or ENG 233.

Credit for Courses at the 100- and 200-Level
Credit hour may be earned in only one of the courses CHM 103, CHM 121 or CHM 151. Credit hour may not be earned in both CHM 104 and CHM 221.

Dual Degrees
• B.S./M.S. in Chemistry Five-Year (p. 238)

CHM 101. Chemistry and Society. 3 Credit Hours.
The basic principles of chemistry for the non-science major with an emphasis on understanding the chemistry of the world around us, especially as it pertains to the choices we make as consumers and as a society. Integrated themes include energy, the environment, food and nutrition, health and personal care, and other contemporary societal issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CHM 103. Chemistry for the Health Sciences I. 3 Credit Hours.
Essentials of chemistry as they apply to biological systems
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CHM 104. Chemistry for the Health Sciences II. 3 Credit Hours.
A continuation of CHM 103, with emphasis on organic and biological chemistry, including biochemical processes and metabolism. Lecture, 3 hours. Prerequisite: CHM 103 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CHM 105. Chemistry for the Health Sciences I (Laboratory). 1 Credit Hour.
Designed for those students in CHM 103 requiring a laboratory course. Laboratory, 3 hours. Pre/Corequisite: CHM 103 with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

CHM 106. Chemistry for the Health Sciences II (Laboratory). 1 Credit Hour.
Designed for those students in CHM 104 requiring a laboratory course. Laboratory, 3 hours. Pre/Corequisite: CHM 104 with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

CHM 110. Chemical Problem Solving. 3 Credit Hours.
Chemical problem solving strategies to prepare students for more advanced studies in the sciences. Focusing on basic concepts in chemistry, chemical problem solving, and mathematical preparation for future studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 111. Principles of Chemistry I. 3 Credit Hours.
Fundamental principles of chemical science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
CHM 112. Principles of Chemistry II. 3 Credit Hours.
Continuation of CHM 111. Lecture, 3 hours.
Prerequisite: CHM 111 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 113. Chemistry Laboratory I. 1 Credit Hour.
Basic laboratory techniques in chemistry.
Corequisite: CHM 121 with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 114. Chemistry Laboratory II. 1 Credit Hour.
Continuation of CHM 113. Intermediate laboratory techniques and quantitative analysis. To accompany CHM 112. Laboratory, 3 hours.
Corequisite: CHM 112 Or CHM 221 And with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 121. Principles of Chemistry. 4 Credit Hours.
Fundamental principles of chemical science for studies in the discipline.
Pre or Corequisite: MTH 140 or higher Or Prerequisite: CHM 110 with a grade of C- or higher Or Prerequisite: SAT Math Score >/= 730 Or ACT Math Score >/= 31 Or AP Calc AB score = 4 Or AP Calc BC score = 3 Or ALEKS score >/= 76.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 151. Chemistry for Engineers. 3 Credit Hours.
Fundamental principles of chemistry for engineering students. Not recommended for students that plan to enter Medical School. Lecture, 3 hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CHM 153. Chemistry Laboratory for Engineers. 1 Credit Hour.
An introductory laboratory course to accompany CHM 151. The techniques of chemistry for engineering students.
Pre/Corequisite: CHM 151 with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

CHM 201. Organic Chemistry I (Lecture). 3-4 Credit Hours.
The chemistry of carbon compounds. Required of chemistry majors, and premedical students; recommended for majors in life sciences. Lecture, 3 hours.
Prerequisite: CHM 112 Or CHM 221 And with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 202. Organic Chemistry II (Lecture). 3 Credit Hours.
Continuation of CHM 201. Lecture, 3 hours.
Prerequisite: CHM 201 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 205. Chemical Dynamics Laboratory. 1 Credit Hour.
Introduction to techniques of chemistry.
Corequisite: CHM 221 with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
CHM 206. **Organic Reactions and Synthesis Laboratory. 1-2 Credit Hours.**
Continuation of CHM 205
Prerequisite: CHM 205. And Corequisite: CHM 202 or CHM 222. And with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 207. **Chemical Dynamics and Organic Synthesis Laboratory. 2 Credit Hours.**
Introduction to techniques in Chemistry. For students in the HHMI program only.
Prerequisite: CHM 205 And Corequisite: CHM 222.
Components: LAB.
Grading: GRD.
Typically Offered: Fall.

CHM 214. **Quantitative Analytical Chemistry. 3 Credit Hours.**
An introduction to quantitative chemical analysis. Topics will include statistical analysis of analytical data, a review of stoichiometry, analytical separation processes, chemical and acid-base equilibria, and an introduction to potentiometric, titrimetric, gravimetric, and spectrophotometric methods of analysis.
Prerequisite: CHM 202 with a grade of C- or higher. And MTH 162. or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CHM 221. **Introduction to Structure and Dynamics. 4 Credit Hours.**
The chemistry of carbon compounds.
Prerequisite: CHM 112 or CHM 121 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 222. **Organic Reactions and Synthesis. 4 Credit Hours.**
Continuation of CHM 221.
Prerequisite: CHM 201 or 221 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 304. **Structural Identification of Organic Compounds. 3 Credit Hours.**
The fundamental principles of ultraviolet/visible, infrared, nuclear magnetic resonance and mass spectrometry. How the combination of these sophisticated analytical techniques can be used to elucidate the structures of organic compounds.
Prerequisite: CHM 202 and CHM 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CHM 316. **Instrumental Analytical Chemistry. 3 Credit Hours.**
Modern methods of quantitative analysis. Lecture, 3 hours.
Prerequisite: CHM 360 and CHM 214 Or CHM 360 and CHM 304. And with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CHM 317. **The Chemistry of Food and Taste. 3 Credit Hours.**
The chemical compositions of the raw materials and end products, and a survey of the changes that these undergo when exposed to human manipulations.
Prerequisite: CHM 202 or CHM 222.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
CHM 320. Instrumental Methods in Chemistry and Biochemistry. 2 Credit Hours.
Instrumental methods in modern chemistry and biochemistry, including spectrometric, electrochemical, and chromatographic (separation) Laboratory, 8 hours. Satisfies writing requirement.
Prerequisite: CHM 214 or CHM 304 And Corequisite: CHM 316. And with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

CHM 331. Physical Chemistry for Premedical Students. 3 Credit Hours.
Fundamentals of thermodynamics as applied to gases, liquids and solutions; chemical kinetics and other selected topics. Lecture, 3 hours.
Prerequisite: CHM 112 with a grade of C- or higher And MTH 161 And PHY 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 360. Physical Chemistry I (Lecture). 3 Credit Hours.
Introduction to physical chemistry including thermodynamics, gaseous and liquid states, solutions, homogeneous and heterogeneous equilibrium. Lecture, 3 hours.
Prerequisite: CHM 112 with a grade of C- or higher And MTH 162 or MTH 172. Requisite: One Semester of Physics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CHM 364. Physical Chemistry (Laboratory I). 1 Credit Hour.
Representative experiments in physical chemistry. Laboratory, 4 hours.
Pre/Corequisite: CHM 360 or CHM 331 And with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

CHM 365. Physical Chemistry II (Lecture). 3 Credit Hours.
Chemical kinetics, introductory quantum chemistry, molecular spectroscopy.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CHM 381. Workshop Leaders in Chemistry I. 1 Credit Hour.
Students engaged in Peer-Led Team Teaching of workshops for groups of CHM 111 and/or CHM 112 students may enroll for this course. May be repeated.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

CHM 382. Workshop Leaders in Chemistry II. 1 Credit Hour.
Students engaged in Peer-Led Team Teaching of workshops for groups of CHM 111 and/or CHM 112 students may enroll for this course. May be repeated.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

CHM 391. Chemistry Internship for Credit. 1-3 Credit Hours.
Provides chemistry majors with an opportunity to apply skills learned in coursework within settings outside the university. For example students can work in local schools, assisting instructors and mentoring students. They can also work in companies or government agencies for a defined period of time with clearly delineated goals to expand their expertise and practical knowledge of chemistry. Each enrolled student will be closely mentored by a faculty member.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 401. Environmental Chemistry. 3 Credit Hours.
Major environmental features of the earth; Role of natural and synthetic chemicals in the environment; Atmospheric and aquatic pollution; Application of acid- base theory and oxidation reduction to environmental problems.
Prerequisite: CHM 201 or CHM 222. And with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
CHM 441. Inorganic Chemistry (Lecture). 3 Credit Hours.
The relation of atomic and molecular structure to chemical and physical properties; introduction to nonaqueous solvents, coordination compounds, solid state chemistry and nuclear reactions. Lecture, 3 hours. Prerequisite: CHM 365. Prerequisite: CHM 365 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CHM 442. Inorganic Chemistry (Laboratory). 1 Credit Hour.
Synthesis of inorganic compounds and determination of their physical and chemical properties. CHM 541 is a co-requisite for ACS chemistry majors. Laboratory, 3 hours. Prerequisite: CHM 365 and CHM 541 And with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

CHM 464. Physical Chemistry (Laboratory II). 1 Credit Hour.
Continuation of CHM 364. Laboratory, 4 hours. Prerequisite: CHM 365 with a grade of C- or higher.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

CHM 488. Undergraduate Research. 1-3 Credit Hours.
Laboratory research under the direction of a member of the chemistry faculty. Thesis optional. Course may be repeated for credit.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 490. Honors Research. 1-3 Credit Hours.
Laboratory research under the direction of a member of the Chemistry faculty. Thesis required. Course may be repeated for credit.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHM 515. Makings of a Scientist. 3 Credit Hours.
By analyzing achievements and advise of few successful scientists, chemists in particular will highlight what qualities are needed to be a successful scientist. Importance of motivation, perseverance, communication skills, adhering to ethical guidelines and ability to deal with colleagues and co-workers will be brought out. Career options available for a trained chemist and how different each one is will be pointed out. Overall this is a course in multi-mentoring of graduate students who are aiming for a career in science and hope to be successful researchers in science, particularly in chemistry.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CHM 520. Physical Organic Chemistry. 3 Credit Hours.
Aspects of chemical bonding, acids and bases, steeoochemistry, aromaticity, pericyclic reactions, linear free energy relationships, transition state theory, excited state chemistry, reactive intermediaries, mechanisms of uni- and bi-molecular reactions. Prerequisite: CHM 202 and CHM 360 And with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CHM 522. Synthetic Organic Chemistry. 3 Credit Hours.
Functional group transformations, Synthon approach. Retro-synthetic analyses, multistep syntheses. Prerequisite: CHM 202 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
CHM 524. Supramolecular Chemistry. 3 Credit Hours.
Complexation, recognition, and catalysis as applied to bio-organic chemistry. Steric, polar, and lipophilic interactions as well as proximity effects in the design of synthetic enzyme mimics, cationic transport species, etc.
Prerequisite: CHM 365 and CHM 520 And with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CHM 525. Structural Organic Chemistry. 3 Credit Hours.
Prerequisite: CHM 202 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CHM 526. CHM523 Medicinal Chemistry. 3 Credit Hours.
Medicinal chemistry is primarily concerned with the development of drug molecules, and the interpretation of their mode of action at the molecular level, with an emphasis on chemical synthesis.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CHM 530. Fluorescence Spectroscopy and Microscopy. 3 Credit Hours.
The photophysical properties of organic compounds that illustrates the fundamental principles of fluorescence. It also explains how fluorescence spectra and images can be recorded and how these powerful analytical techniques can be used to address significant problems in biology and medicine.
Prerequisite: CHM 304 and CHM 360 And with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CHM 535. Molecular and Supramolecular Photochemistry. 3 Credit Hours.
Generation of a model that will help rationalize/predict excited state reactions. A brief background on physical aspects of photochemistry will be given. Exploring and understanding of reactions that are triggered by light. Importance of light in life will be highlighted.
Prerequisite: CHM 201 and CHM 202 And with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CHM 541. Principles of Bonding and Reactivity in Inorganic Chemistry. 3 Credit Hours.
Bonding principles necessary to understand the structure, stability, and fundamental reactivity of main group and transition metal inorganic compounds.
Prerequisite: CHM 365 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CHM 553. Modern Quantum Chemistry. 3 Credit Hours.
Many-electron wave functions and operators. Hartee-Fock approximation, density functional theory, configuration interaction, and many-body perturbation theory.
Prerequisite: CHM 365 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CHM 555. Principles of Spectroscopic Techniques. 3 Credit Hours.
Spectroscopic techniques: nuclear magnetic resonance (NMR), mass spectra (MS), ultraviolet (UV), visible infrared (IR), fluorescence, and other specialized spectroscopic techniques.
Prerequisite: CHM 365 with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
CHM 575. Principles of Nuclear Magnetic Resonance and Multidimensional Spectroscopy. 3 Credit Hours.
Theory of nuclear magnetic resonance; Bloch equations; relaxation theory; time-domain versus frequency domain spectroscopies, and principles of multidimensional spectroscopy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CHM 581. Advanced Analytical Chemistry. 3 Credit Hours.
Provides a strong foundation in the most important concepts in advanced analytical chemistry, including electrochemistry, chemical separations, and bioanalytical chemistry, and in the different classes of instrumental analytical techniques available to current chemists.
Prerequisite: CHM 214 and CHM 316 And with a grade of C- or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CHM 591. Topics in Chemistry. 1-3 Credit Hours.
Subject matter offerings based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule following the title, “Topics in Chemistry”.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CHM 592. Topics in Chemistry. 1-3 Credit Hours.
Subject matter offerings based upon student demand and availability of faculty. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule following the title, “Topics in Chemistry”.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CHM 593. Readings in Chemistry. 1-3 Credit Hours.
Supervised readings on special topics. Offered by special arrangement. May be repeated for credit.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CHM 594. Readings in Chemistry. 1-3 Credit Hours.
Supervised readings on special topics. Offered by special arrangement. May be repeated for credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

B.A. in Chemistry
http://www.as.miami.edu/chemistry/

The B.A. degree requires 27 credit hours of chemistry. This major is designed for premedical students, high school science teachers, and others who choose a non-science minor. It may be combined with business courses in an interdisciplinary program. Variations within the program may be recommended by the Department. Transfer students must complete a minimum of half of the required major credit hours in residence in the Department. Students should make certain that math and physics prerequisites are fulfilled in a timely manner.

**Mission**

**Goals**

**Student Learning Outcomes**

- Graduates will be able to demonstrate a broad understanding of fundamental chemical principles in all areas of the field.
- Graduates will be adept in a broad variety of chemical instrumentation and analytical techniques.
- Graduates will display effective and strong written communication skills pertaining to chemical research.

**B.S. in Chemistry**

http://www.as.miami.edu/chemistry/

**Overview**

The B.S. degree requires 47 credit hours of chemistry. This major meets the minimum entrance requirements of many graduate programs in chemistry. Variations within the program may be recommended by the Department. Transfer students must complete a minimum of half of the required major credit hours in residence in the Department. Students should make certain that math and physics prerequisites are fulfilled in a timely manner.

### B.S. / M.S. in Chemistry Five-Year

**Overview**

The BS/MS program is a five-year program emphasizing research in the senior year and in the Master's year. Before they enter the program, students will be prepared for their research experience through existing laboratory courses and by mentored research with a Chemistry graduate faculty member. Whereas students may begin mentored research as early as their freshman year, it is expected that they should have at least one semester of research prior to the start of their senior year. Students will have access to capstone and interdisciplinary 500 level courses as seniors and to 600 level courses as Master's students.

- Graduates will be able to demonstrate a broad understanding of fundamental chemical principles in all areas of the field.
- Graduates will be adept in a broad variety of chemical instrumentation and analytical techniques.
- Graduates will display effective and strong written communication skills pertaining to chemical research.

## Certified B.S. in Chemistry

[http://www.as.miami.edu/chemistry/](http://www.as.miami.edu/chemistry/)

## Overview

The **certified B.S.** degree requires 47 credit hours of chemistry. This major is certified by the American Chemical Society. Variations within the program may be recommended by the Department. Transfer students must complete a minimum of half of the required major credit hours in residence in the Department. Students should make certain that math and physics prerequisites are fulfilled in a timely manner.

## Curriculum Requirements
### Core Courses

Classics

classics.as.miami.edu

Introduction

All culture and civilizations have their classics: those works of art that are seen as the best of their kind, have withstood the test of time, and embody the symbolic values of their society. In the Western tradition, the study of ‘Classics’ has focused upon the languages, thoughts, literatures, and cultures of ancient Greece and Rome, and their impact on the whole subsequent history of the Western world.

The study of Classics has been conceived in unusually broad terms; it is intended to encompass everything that can be known about the ancient Mediterranean world. There is room in Classics for the study of fields as disparate as literature, science, sculpture, history, architecture, religion, philosophy, theater, economics, music – in short, the entire panorama of human endeavor. It is no wonder that the study of Classics has always tended to attract some of the liveliest and most brilliant intellects; and it is equally unsurprising that students majoring in Classics find themselves extremely well-prepared for undertaking practically any type of career, whether that be in politics, law, medicine, teaching, publishing, research of all kinds, journalism, banking, or the corporate world. A degree in Classics marks the UM graduate as a person of superior analytical and critical skills, one who has proved able to cope with a rigorous academic curriculum, and who is exceptionally educated in the most fundamental aspects of what it means to be human. Thus, Classics is at the core of the humanities.

Educational Objectives

The educational objectives of the Department of Classics may be stated in a variety of ways, and on a number of levels. In terms of linguistic competency, students majoring (or minoring) in Classics are required to reach an appropriate level of fluency in reading ancient Greek or Latin, or both. In terms of cultural literacy, students of the Classics are educated within a rigorous curriculum exposing them to the great literary works and material cultures of ancient Greece and Rome. In terms of critical thinking, students of the Classics are trained to hone the skills of memory, analysis, and synthesis, skills that they will be able to apply for the rest of their lives in any realm of thought or action whatsoever.

The goal of an education in Classics is to foster and inculcate an ever-burgeoning awareness of what Cicero referred to as humanitas – in short, everything it is to be human. It is the mission of Classics to expose its students to the greatest thoughts and endeavors of the human race, and to
encourage them to think about what that greatness consists in, and how to enlarge upon it. The profoundest educational objective of the Department of Classics is to preserve and study all that is important about the past, in order best to prepare for the future.

Degree Programs
The Department of Classics offers the Major and the Minor in Classics.

Major in Classics
The undergraduate Major in Classics at UM has four possible tracks. Greek, Latin, Greek and Latin, and Classical Civilization. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Classics should take three courses marked W from the list of GRE, LAT, and CLA courses offered in the catalog.

Departmental Honors
A student may earn Honors in Classics by completing a ‘capstone’ project with a grade of B or higher. This project can be the senior thesis (CLA 495 and CLA 496) or an Independent Study course (LAT 491, GRE 491, or CLA 491) that includes a substantial research paper. Either project must be supervised by a faculty member in the Classics Department. In order to qualify for a ‘capstone’ project, the student must have by the end of the junior year a minimum GPA of 3.5 in the Classics major and 3.3 overall.

In addition, Classics Majors, Classics Minors, and other students who meet certain academic criteria are eligible for membership in Eta Sigma Phi, the National Honors Society for Classics.

CLA 101. Greek and Roman Mythology. 3 Credit Hours.
The major political, cultural, and social themes that appear in Greek and Roman mythology, examining literary and material evidence. 
Requisite: Not Allow Enrollment in CLA 220 if already Enrolled/Took CLA 219.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 102. Writing on Greek and Roman Mythology. 3 Credit Hours.
A companion writing course for students enrolled in CLA 220, Greek and Roman Mythology. 
Requisite: Not Allow Enrollment in CLA 219 if already Enrolled/Took CLA 220.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 105. Greek Civilization. 3 Credit Hours.
This course introduces key concepts, events, and personalities of Greek culture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 106. Roman Civilization. 3 Credit Hours.
Introduces key concepts, events, and personalities of ancient Roman culture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 210. The Greek and Latin Roots of English. 3 Credit Hours.
Equips students with the tools needed to analyze and understand the meanings of English words with Ancient Greek and Latin roots. Special attention will be paid to legal and medical terminology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CLA 211. Medical Terminology. 3 Credit Hours.
Medical Terminology is an introduction to the international vocabulary of medical science derived from Ancient Greek and Latin. We will approach this topic linguistically, beginning with the roots of ancient words and examining the rules and techniques by which Greek and Latin elements (prefixes, suffixes, and stems) are constructed into medical and scientific vocabularies. We will also look at some of the intellectual contributions of Graeco-Roman civilization to modern science and medicine.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
CLA 221. Sports and Society in the Ancient World. 3 Credit Hours.
The role of sports in ancient Greek and Roman culture. Topics covered include: Mycenean bull-Jumping; athletic events in Homer; the Olympic games; chariot racing and gladiatorial combat at Rome; and the connection between public athletics and religion. Students learn to interpret literary and iconographic evidence, and study architectural remains such as the stadium at Olympia, the Circus Maximus, and the Colosseum.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 222. Sexuality and Gender in the Ancient World. 3 Credit Hours.
Basic questions of sexuality and gender in ancient Greece and Rome: What does it mean to be male or female? What can we discover about ourselves from the way(s) we have sex? How are all these things related to life, love, power?
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 224. The Heroic Journey. 3 Credit Hours.
The figure of the Hero On a Journey has long captivated the minds of story-tellers and audiences. This motif, known as "The Monomyth," speaks the profoundest hopes and fears of humankind. This course will examine the Monomyth as it occurs particularly in the classical tradition from Gilgamesh to Tolkien.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CLA 225. Magic and the Occult in Antiquity. 3 Credit Hours.
A broad sweep of evidence for magic and the occult in the ancient Mediterranean world. The focus is Graeco-Roman Egypt, renowned in antiquity for occult arts such as divination, daemonology, astrology, and alchemy. The primary sources analyzed are diverse, and include magical formulae, manuals, recipes, curses, philosophical writings, and literary accounts, in particular those by Lucian and Apuleius, purporting to provide true tales of magic.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 226. Greek and Roman Art. 3 Credit Hours.
The course is an introduction to ancient Greek and Roman art within its socio-political and religious context. It includes a survey of stylistic movements, elements of architecture, and a brief historical background for each period outlined in the syllabus.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 231. Sciences in Ancient Greece and Rome. 3 Credit Hours.
The beginnings of scientific investigation in ancient Greece and its development and codification under the Roman Empire.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 232. Ancient Greek and Roman Law. 3 Credit Hours.
This course examines selected trials from ancient Greece and Rome both as a way to understand these legal systems in themselves and as a way to explore the cultures, values, and biases that shaped them.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 233. Ancient Medicine. 3 Credit Hours.
Provides a historical survey of evidence, practices, and ideas from the world of ancient medicine.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 243. The Art of Government in Greece and Rome. 3 Credit Hours.
Introduces key concepts and models of Greek and Roman Statecraft, including the polis democracy, the Republic and the Empire.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
CLA 246. Ancient Rhetorical Theory. 3 Credit Hours.
The historical development of, and key topics in, theories of persuasive communication developed by the ancient Greeks and Romans.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 271. Ancient Philosophy. 3 Credit Hours.
What is knowledge, and how can it be known? Why be moral? What is justice? What is the good life? If we really have free will, can there be such a thing as destiny? In what does friendship consist? What exactly is love? What is the meaning of death? These and other questions were addressed powerfully by the ancient Greeks and Romans. This course will explore such crucial philosophical themes, along with the actual method(s) of inquiry that the ancients devised for examining them. Major figures such as Plato and Aristotle will be featured, along with fragments of the Presocratics and selections from other ancient philosophers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 301. Ancient Greece. 3 Credit Hours.
Greek civilization from the Late Bronze Age to the end of Greek independence at the battle of Chaeronea in 338 B.C.E.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CLA 302. The Hellenistic Age. 3 Credit Hours.
Conquests of Alexander the Great and the spread of Greek culture in the Near East under Alexander's successors until the death of Cleopatra in 31 B.C.E.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CLA 303. The Roman Republic. 3 Credit Hours.
Roman civilization from the establishment of the Republic until the Battle of Actium in 31 B.C.E.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CLA 304. The Roman Empire. 3 Credit Hours.
Roman civilization from the reign of Augustus in 37 B.C.E. to the Fall of Rome in 476 C.E.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CLA 305. What is a Classic?. 3 Credit Hours.
An explanation of what it means to designate a work of art as 'a classic', in our own culture as well as in other times and places. In order to arrive at a more sophisticated understanding of the category, readings will be chosen from a variety of texts, selected from the world's treasury of acknowledged 'classics,' beginning from the canon of ancient Greek and Roman literature that for many centuries has been the touchstone of Western civilization.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 310. Survey of Ancient Greek Literature and Culture. 3 Credit Hours.
Classical Greek culture, paying special attention to Greek literature from Homer to Aristotle. It is intended to lay a foundation for understanding how Hellenic thought and art influenced the development of all subsequent Western culture. All texts will be read in English translation.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 311. Survey of Classical Latin Literature and Culture. 3 Credit Hours.
A broad introduction (in English translation) to the literature of the Roman Republic and Empire. The Greek heritage behind Latin literature will be highlighted. Readings will be chosen from authors such as Catullus, Cicero, Vergil, Horace, Ovid, Petronius, Juvenal, Tacitus, and Suetonius, and from genres such as epic and lyric poetry, oratory, history and satire.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
CLA 315. The Classical Epic Tradition. 3 Credit Hours.
The course treats the rise and development of the Western epic tradition from Homer, Lucretius, and Virgil in the classical world, through Dante in the Middle Ages, Milton in the Renaissance, and Wordsworth and Eliot in modernity.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 322. Monsters and Fantastical Creatures in Western Antiquity and Other Cultures. 3 Credit Hours.
An explanation of the notion of the "monster" and the "fantastic creature" in a range of literary and visual representations from classical antiquity (the Greek and Roman World) and other cultures from various time periods. Starting with Hesiod's "Catalogue of Monsters" we examine the following questions: Whose mental projection is embodied in a given monster? Are there different categories of monsters? What does the monster represent? What fears does the monster crystallize?
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 323. The Ancient World on Screen. 3 Credit Hours.
How do we represent the ancient Greeks and Romans in modern media? What happens to the books the ancients wrote when these are turned into modern films, TV shows or video games?
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 324. Classical Myth and Contemporary Art. 3 Credit Hours.
The use, adaptation, transformation, and re-figuring of Classical myth in contemporary art. The artwork will range from photographs to installations and videos. We will use theories drawn from both art criticism and literary criticism. Female artists and post-feminist theory will figure prominently as a way to bring a broader perspective to a scrutiny of the marked gender imbalance in Classical myth.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 325. The Vampire in Folklore, Fiction, and Film. 3 Credit Hours.
By pondering the role of vampires and other such monsters, in folklore, fiction, and film, this course attempts to ponder such fundamental questions as "What does it mean to be human?" and "What are the implications of death?" The tradition will be traced from its earliest antecedents in the ancient world to its latest manifestations in current fiction and screen media.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 326. What Does it Mean to be Human. 3 Credit Hours.
Questions of Artificial Intelligence, the Singularity, Superintelligence, and Robotics capture our imaginations (and sometimes stir profound anxiety and fear). But are these technological developments merely phenomena of the 20th and 21st centuries? Or are the key issues entailed already adumbrated in the literatures and cultures of the ancient Greeks and Romans? This course explores the parameters of that most-fundamental question of the Humanities: What does it mean to be human? Is 'human' a discrete category with well-defined boundaries, or have fuzzy logic and the dizzying pace of technological percentage a human body must be organically/naturally produced (as opposed to mechanically/technologically engineered) in order to be considered human. The course will entail reading assignments from the Greek and Roman classics (in English translation); weekly screenings of movies (including television programs); and in-class discussion.
Components: SEM.
Grading: GRD.

CLA 327. Heroes Ancient and Modern. 3 Credit Hours.
'What is a hero?' Throughout time and across a variety of cultures, beginning with the ancient Greeks various types or categories of 'hero' are considered from these cultures, including the classical model of the aristocratic hêrôs; the Monomyth Hero (most famously formulated by Joseph Campbell); Public & Private Heroes; the Tragic Hero; the Comic Hero; the Antihero; the so-called 'Dark Hero'; and the modern 'Superhero.' Key elements will include the relations between [a] the heroic and the divine, and [b] the notion of the hero and the concepts of social and civic leadership in the 21st century.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CLA 340. Greek Tragedy. 3 Credit Hours.
Readings in English of the tragedies of Aeschylus, Sophocles, and Euripides.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
CLA 341. Comedy in Ancient Athens and Rome. 3 Credit Hours.
The comic plays of the ancient Greeks and Romans in English translation. The focus is close reading and analysis of plays by Aristophanes, Menander, Plautus, and Terence, with a view to their socio-political, cultural, and historical milieu. The final weeks are devoted to reception of these works by Shakespeare and Molière.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 360. Women in Greek and Roman Antiquity. 3 Credit Hours.
The lives of women in ancient Greece and Rome. The historical panorama extends from the Mycenaean period ca. 1200 BC to the end of the Roman Empire in the West, 476 AD. The role and influence of Women as mothers and wives in control of the household will be examined in detail. Other themes such as love, death, marriage, divorce, legal and social status, foreign women, spinsters, wise women such as Diotima and Aspasia, Women in the arts and women of power, these will be considered through a close study of historical and literary texts as well as material culture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CLA 370. Self and Other in the Ancient World. 3 Credit Hours.
The course examines Greek and Roman depictions of outsiders in a wide range of ancient texts and material sources.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 372. Greek Religion. 3 Credit Hours.
Examines the religious thought and practice of the ancient Greek-speaking world from the Bronze Age to the first century CE. Major topics include ritual, sacrifice, prayer, chthonic and sky deities, oracles, and mystery-cults. Students will learn to interpret primary source material, such as the epic poems of the archaic period, the so-called Homeric Hymns, and objects of material culture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 373. Religions of Rome. 3 Credit Hours.
The religious practices of ancient Romans. Major topics include the machinery or state cult, the importation of foreign divinities to Rome, the deification of emperors, and Roman attitudes towards the Christians. Students will learn to interpret primary source material, such as the writings of Varro, Cicero, the historians, and St. Augustine, and archeological evidence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 401. Special Topics in Classics. 3 Credit Hours.
This course will address a specific author, topic or text (appearing as a subtitle). Required readings will be in English. Analogous to REL 404-409 courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 402. Special Topics in Classics. 3 Credit Hours.
This course will address a specific author, topic or text (appearing as a subtitle). Required readings will be in English. Analogous to REL 404-409 courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 403. Special Topics in Classics. 3 Credit Hours.
This course will address a specific author, topic or text (appearing as a subtitle). Required readings will be in English. Analogous to REL 404-409 courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 404. Special Projects in Classics. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle). Analogous to REL 407-409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
CLA 405. Special Projects in Classics. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle). Analogous to REL 407-409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 406. Special Projects in Classics. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle). Analogous to REL 407-409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 422. Aristophanes. 3 Credit Hours.
Readings from Aristophanes' plays in the original Ancient Greek.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CLA 491. Directed Reading in Classics. 1-3 Credit Hours.
Content to be determined by faculty member and registering student(s).
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 492. Directed Reading in Classics. 3 Credit Hours.
This course will address a specific author, topic or text (appearing as a subtitle). Analogous to REL 401-403 courses and to (existing) CLA 491.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 493. Directed Reading in Classics. 3 Credit Hours.
This course will address a specific author, topic or text (appearing as a subtitle). Analogous to REL 401-403 courses and to (existing) CLA 491.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 495. Senior Thesis I. 3 Credit Hours.
Part I of the project or thesis normally completed in the senior year.
Components: THE.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 496. Senior Thesis II. 3 Credit Hours.
Part II of the project or thesis normally completed in the senior year.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CLA 505. Seminar in Ancient Studies. 3 Credit Hours.
Topics in Greek and Roman studies.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GRE 101. Elementary Ancient Greek I. 3 Credit Hours.
Alphabet, pronunciation, accentuation, vocabulary, grammar, reading exercises, and written exercises.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GRE 102. Elementary Ancient Greek II. 3 Credit Hours.
Continuation of GRE 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
GRE 103. Intensive Greek for the New Testament. 3 Credit Hours.
An intensive introduction to the Koine dialect of the New Testament and Septuagint. The course is intended for students with little to no background in Ancient Greek, and covers material similar to that found in the GRE 101 and GRE 102 sequence for Attic Greek. Students leave GRE 103 prepared for GRE 201 and capable of reading extended passages from the New Testament.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GRE 201. Intermediate Ancient Greek I. 3 Credit Hours.
Reading from classical and Hellenistic authors. Building on their knowledge of elementary Greek grammar, students move toward real fluency in reading ancient Greek, and the pleasure of encountering these great authors in their original language.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GRE 202. Intermediate Ancient Greek II. 3 Credit Hours.
Reading Ancient Greek poetry. Students will read selections from Homer’s Odyssey and Iliad, with emphasis on the Homeric dialect, meter, and the oral tradition of these epics. Greek 202 prepares students for 300- and 400-level Ancient Greek poetry courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GRE 311. Plato. 3 Credit Hours.
Reading of Plato’s dialogues and letters with a view to syntax, the acquisition of vocabulary, and Plato’s prose style and philosophical thought.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GRE 321. Euripides. 3 Credit Hours.
Readings in the plays of Euripides, with an emphasis on syntax, vocabulary, dramaturgy, and the social role of tragedy in ancient Athenian culture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GRE 401. Special Topics in Greek Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle) Analogous to REL 404-409 courses. [This will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GRE 402. Special Topics in Greek Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle) Analogous to REL 404-409 courses. [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GRE 403. Special Topics in Greek Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle) Analogous to REL 404-409 courses. [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GRE 404. Special Projects in Ancient Greek Literature and Culture. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle) Analogous to REL 407-409 [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GRE 405. Special Projects in Ancient Greek Literature and Culture. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle). Analogous to REL 407-409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
**GRE 406. Special Projects in Ancient Greek Literature and Culture. 3 Credit Hours.**
This course will address a specific project in Classics (appearing as a subtitle). Analogous to REL 407-409.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.

**GRE 408. Supervised Reading in Classical Greek. 3 Credit Hours.**
Variable subject matter determined by instructor and student. Analogous to REL 401-403.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.

**GRE 409. Supervised Reading in Classical Greek. 3 Credit Hours.**
Variable subject matter determined by instructor and student. Analogous to REL 401-403.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.

**GRE 411. Homer. 3 Credit Hours.**
Readings from the Iliad and/or Odyssey.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Spring.

**GRE 421. Greek Orators. 3 Credit Hours.**
Readings from Lysias and Demosthenes.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall.

**GRE 422. Aristophanes. 3 Credit Hours.**
Readings from Aristophanes' plays in the original Ancient Greek.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

**GRE 431. Herodotus. 3 Credit Hours.**
Readings in ancient Greek from Herodotus, the "father of history."

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall.

**GRE 491. Directed Readings. 1-3 Credit Hours.**
Content to be determined by faculty member and registering student(s).

**Components:** THI.

**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.

**LAT 101. Elementary Latin I. 3 Credit Hours.**
Elementary vocabulary, grammar and reading.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

**LAT 102. Elementary Latin II. 3 Credit Hours.**
Continuation of LAT 101.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

**LAT 103. Intensive Elementary Latin. 3 Credit Hours.**
The equivalent of LAT 101, LAT 102, and half of LAT 201 in one semester; students are prepared to enter LAT 201 or 300-/400-level courses depending on their performance in the class. Combined with LAT 625. In addition to the three class hours per week, there is one additional hour (TBA) for drills and tests.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.
LAT 201. Intermediate Latin I. 3 Credit Hours.
Translation and grammatical analysis of selected texts from Latin authors.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 202. Intermediate Latin II. 3 Credit Hours.
Introduction to reading Latin poetry. Students will read selections from the Aeneid, with emphasis on Virgil’s language and meter, as well as the ancient epic tradition. Latin 202 prepares students for 300- and 400-level Latin poetry courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 203. Ovid’s Metamorphoses. 3 Credit Hours.
Readings in Latin from Ovid’s Metamorphoses, including Apollo and Daphne, Echo and Narcissus, Midas and more.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 301. Catullus. 3 Credit Hours.
An advanced Latin course on the works of the Roman poet Catullus. Students will read almost all of the poems in the Catullan corpus, and be introduced to the related secondary literature, covering topics such as ancient sexuality, invective and obscenity, the figure of the mistress in Latin love poetry, the arrangement of poems within a poetic book, meter, and the textual tradition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 302. Petronius. 3 Credit Hours.
An advance Latin prose reading course on Petronius’ Satyricon, a mysterious and fragmented novel dating from the time of the decadent emperor Nero. Trimalchio’s Dinner-Party, the central section of the work, forms the focus of the course. It is an account if a dinner hosted by a wealthy ex-slave, and can be read as a critique of the excesses of the Neronian age.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 311. Cicero: Orations. 3 Credit Hours.
Readings from the speeches of Cicero, with an emphasis on syntax, vocabulary, rhetorical theory and practice, and the historical situation of the speeches.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 321. Virgil. 3 Credit Hours.
An advanced reading course in the poems of Virgil.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 322. Martial Epigrams. 3 Credit Hours.
Examines selected works of the first-century CE poet Martial, the acknowledged master of the verse epigram, considering his writing both as poetry (within the Greek and Roman traditions) and as social and political commentary.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 323. Seneca. 3 Credit Hours.
Examines in Latin select writings of the Roman philosopher and statesman Lucius Annaeus Seneca.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
LAT 401. Special Topics in Latin Literature. 3 Credit Hours.
The course is designed for the study of individual authors or topics in Roman thought, literature, and culture at an advanced level, not normally covered elsewhere in the course directory.
Prerequisite: LAT 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 402. Special Topics in Latin Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle). Analogous to REL 404-409 courses. [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 403. Special Topics in Latin Literature. 3 Credit Hours.
This course will address a specific author, topic, or text (appearing as a subtitle) Analogous to REL 404-409 courses. [this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 404. Special Projects in the Literature and Culture of Ancient Rome. 3 Credit Hours.
[This course will address a specific project in Classics (appearing as a subtitle) Analogous to REL 407-409 this will vary each time the course is offered]
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 406. Special Projects in the Literature and Culture of Ancient Rome. 3 Credit Hours.
This course will address a specific project in Classics (appearing as a subtitle). Analogous to REL 407-409.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 407. Supervised Reading in Classical Latin. 3 Credit Hours.
Variable subject matter determined by instructor and student. Analogous to REL 401-403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 408. Supervised Reading in Classical Latin. 3 Credit Hours.
Variable subject matter determined by instructor and student. Analogous to REL 401-403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 409. Supervised Reading in Classical Latin. 3 Credit Hours.
Variable subject matter determined by instructor and student. Analogous to REL 401-403.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAT 411. Horace. 3 Credit Hours.
Readings in the odes, epodes, satires and epistles of Horace.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 421. Roman Epic. 3 Credit Hours.
Studies from Roman epic poetry of Lucretius and Virgil to Lucan and Statius.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
LAT 422. Lucretius. 3 Credit Hours.
Detailed treatment of the Latin philosophical poet Lucretius and his lone surviving poem, De rerum natura.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 431. Livy. 3 Credit Hours.
Readings from the Roman historian Livy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAT 432. Suetonius. 3 Credit Hours.
Readings in Latin from Suetonius' "Lives of the Twelve Caesars," a set of gossipy, sometimes racy, always dramatic biographies of Julius Caesar and the first eleven emperors of ancient Rome.
Prerequisite: LAT 201.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

LAT 491. Directed Readings. 1-3 Credit Hours.
Content to be determined by faculty member and registering student(s).
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

B.A. in Classics

Overview
The undergraduate Major in Classics at UM has four possible tracks. Greek, Latin, Greek and Latin, and Classical Studies. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Classics should take three courses marked W from the list of GRE, LAT, and CLA courses offered in the catalog.

Curriculum Requirements

Greek Track

<table>
<thead>
<tr>

Goals
The objectives of the program and of the Bachelor of Arts in Classics have remain the following:

• to train students in the Ancient Greek and/or Latin languages;
• to educate them about the literature, history, archaeology, and philosophy of the ancient Greco-Roman world;
• to hone their skills in written English; and
• to allow them to develop a broad knowledge of the arts of language and the logic and rhetoric of expression.

Like majors in English, History, and Philosophy, majors in Classics go on to a wide variety of graduate and professional programs: medical school, nursing school, other health professions, business school, the arts, museums, and library sciences. Majors in Classics receive superb preparation for law school, become bankers and entrepreneurs, and work for both government and non-government organizations such as charitable institutions and foundations. Our program trains students to enter these fields with strong intellectual values and well-honed skills in expository and analytical language.

Student Learning Outcomes

• Language Competence: To complete the degree in Classics the student must gain the ability to read Classical Latin and/or Greek texts, in the original language(s), at either an intermediate (Track IV) or an advanced (Tracks I-III) level of fluency.
• Cultural and Disciplinary Literacy. To complete the degree in Classics the student shall receive extensive exposure to Classical texts, both in the original language(s) and in English translation. In the process, s/he should also gain a solid grounding in the basics of the field, and a substantial basic awareness of several areas of the academic discipline: archaeology, philosophy, ancient history, and literature.
• Written and Analytical Expression: To complete the degree in Classics the student must demonstrate the ability to read intelligently, to think analytically, and to write critically about Classical literatures and cultures. S/he should also have developed an awareness of how such knowledge pertains to any individual’s metaphysics, epistemology, and ethics—in other words, how Classics pertains to living richly and as a productive member of society. (It should be noted that the Department of Classics has been collecting data for this learning outcome, now required under the new Advanced Writing and Communication Requirement of the College of Arts and Sciences, since Fall 2011).

Minor in Classics

<td>15</td>
</tr>
</tbody>
</table>

* Courses that qualify for the minor in Classics are taught each semester.

** A grade of C-minus or better is required in each course taken for the minor, as well as an overall GPA of 2.0 or higher.
Computer Science

csc.as.miami.edu

Dept Code: CSC

Introduction
The Department of Computer Science offers undergraduate and graduate education in Computer Science, and performs research in various areas of Computer Science. Faculty research interests include algorithm engineering, applied cryptography & cybersecurity, automated reasoning, bioinformatics, computational complexity, computational geometry & computer graphics, computational neuroscience, data mining & data science, machine learning & neural networks, music information retrieval, robotics, scientific computing, semantic web, and sensors & wireless systems.

Educational Objectives
The Department of Computer Science educates students in the science of software development: the analysis of domain problems, the development of algorithms and programs, the use of specialist computing techniques, the system-software and hardware platforms, and the production and deployment of efficient and robust computer software. Instruction ranges from introductory programming classes and laboratories, through to faculty research areas.

Degree Programs
The Department of Computer Science offers
- a Bachelor of Science (BS) major (p. 274)
- a Bachelor of Arts (BA) major (p. 270)
- a 5-year Bachelor of Science + Master of Science (BS+MS) (p. 1690)
- a minor (p. 283)

Computer Science as a Second Major
An additional major in Computer Science is available to all students. An additional major in Computer Science requires completion of the requirements of a Computer Science major, either the Additional Major in Computer Science, Fundamentals (p. 270) or the Additional Major in Computer Science, with Tracks (p. 274).

Writing within the Discipline
To satisfy the College of Arts and Sciences writing requirement in the discipline, students whose first major is Computer Science must take at least one of the following courses for a writing credit: CSC 405, CSC 410, CSC 431, ENG 233.

Departmental Honors
In addition to the University’s requirements for Departmental Honors, Departmental Honors in Computer Science requires completing a major and 6 additional approved credit hours (all CSC 4XX and CSC 5XX courses are approved). The major or additional credit hours must include at least 3 credit hours from CSC 410 and/or CSC 411.

Notes
- A grade of C- or better in all CSC courses is required in a major or minor.
- An overall GPA of 2.5 or better in all CSC courses is required in a major or minor. This GPA is computed using only courses from this department. If a course is repeated only the highest grade for the course is used.
- For a Computer Science major, at least 15 credit hours of CSC courses must be completed at the University of Miami.
- For a Computer Science minor, at least 9 credit hours of CSC courses must be completed at the University of Miami.

CSC 100. Data Science for the World. 3 Credit Hours.
Introduction to the concepts of data science. Basic data analysis skills. The programming language R
Prerequisite: MTH 108.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 110. Social and Ethical Issues in Computing. 3 Credit Hours.
History, social context and methods and tools of analysis. Professional and ethical responsibilities. Intellectual property. Privacy and civil liberties.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
CSC 115. Introduction to Python for Arts & Humanities. 3 Credit Hours.
Prerequisite: MTH 108 or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 116. Cybersecurity: An Introduction to Security in Cyberspace. 3 Credit Hours.
Components: LEC.
Grading: GRD.

CSC 118. Information Technology and Society. 3 Credit Hours.
A variety of topics on information technology and society through various course activities including research papers, experiments, and by reading articles. The topics covered include but are not limited to: history of computing, hardware mechanisms, algorithms design, software development principles, software tools, security, and artificial intelligence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

CSC 119. Computers and Society. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CSC 120. Computer Programming I. 4 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CSC 198. Freshman Topics in Computer Science. 1-3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 210. Computing for Scientists. 3 Credit Hours.
Computing applications in science. Tools and algorithms for applications. Implementation of algorithms. Storage, retrieval analysis and visualization of data in science. Prerequisite: MTH 141 or MTH 151 or MTH 161 or MTH 171.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CSC 220. Computer Programming II. 4 Credit Hours.
Common APIs including list, priority queue, set, and map, and their efficient implementations in an object-oriented language using fundamental data structures. Sorting and other applications of recursion. Combining asymptotic analysis and experiments to extrapolate running times. Using APIs in a software project. Prerequisites: CSC 120 or BTE 324 or ECE 218 and MTH 108 or MTH 140 or MTH 141 or MTH 161 or MTH 162 or MTH 171 or MTH 172 or MAS 110.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CSC 298. Sophomore Topics in Computer Science. 1-3 Credit Hours.
Sophomore Topics in Computer Science - Content varies by semester. Requisite: At Least 6 credits of CSC courses.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
CSC 314. Computer Organization and Architecture. 3 Credit Hours.
Digital logic and digital systems. Machine level representation of data. Assembly level machine organization. Memory system organization and architecture. Interfacing and communication. Functional organization. Multiprocessing and alternative architectures
Prerequisite: CSC 220. or BTE 324. or ECE 218. and Corequisite: MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CSC 315. Introduction to Python for Scientists. 3 Credit Hours.
Python programming. Python packages for scientific applications. Data science and machine learning applications. Designed for students from the sciences.
Prerequisite: MTH 161 and MTH 224.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 317. Data Structures and Algorithm Analysis. 3 Credit Hours.
Prerequisite: CSC 220 or ECE 318 and MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CSC 322. System Programming. 3 Credit Hours.
Prerequisite: CSC 220 or ECE 318.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CSC 329. Introduction to Game Programming. 3 Credit Hours.
Fundamental programming issues in game design: Software design; Version control; Basic graphics; GUI programming. Large-scale game project: Team development of a functional game; Graphics and GUI component; Networking component; Core game engine.
Prerequisite: CSC 220 or ECE 318.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CSC 330. Android Programming. 3 Credit Hours.
Prerequisite: CSC 220.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 398. Junior Topics in Computer Science. 1-3 Credit Hours.
Junior Topics in Computer Science - Content varies by semester. Requisite: At Least 9 credits of CSC courses.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 401. Computer Science Practicum I. 1 Credit Hour.
Implementation of techniques, algorithms, and data structures being taught in a co-requisite computer science course.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 402. Computer Science Practicum II. 1 Credit Hour.
Implementation of techniques, algorithms, and data structures being taught in a co-requisite computer science course.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
CSC 403. Computer Science Practicum III. 1-3 Credit Hours.
Implementation of techniques, algorithms, and data structures being taught in a co-requisite computer science course.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 405. Computer Science Seminars. 1 Credit Hour.
A range of topics in Computer Science, as embodied in the seminars hosted by the Department.
Requisite: At least 12 credits of CSC courses.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 410. Computer Science Project Planning. 1-3 Credit Hours.
Planning for the implementation of a Computer Science project, including: Problem analysis, System architecture design, Algorithm and data structure selection, User interface design, Verification and validation plan, and Prototyping.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 411. Computer Science Project Implementation. 1-3 Credit Hours.
Implementation of a Computer Science project, including: Hardware preparation, Component implementation, System integration, Verification and validation, and Documentation.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 412. Computer Science Internship. 1-3 Credit Hours.
A commercial computing environment. Normally 50 internship hours are required per credit earned (the host company must supply documentary evidence of hours worked).
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 419. Programming Languages. 3 Credit Hours.
Prerequisite: CSC 317 or CSC 517.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 421. Principles of Computer Operating Systems. 3 Credit Hours.
Prerequisite: CSC 314 and CSC 322.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CSC 423. Database Systems. 3 Credit Hours.
Prerequisite: CSC 322 or ECE 322.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 424. Computer Networks. 3 Credit Hours.
Prerequisite: CSC 314 and CSC 322.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
CSC 427. Theory of Computing. 3 Credit Hours.
Sets, relations, and languages. Automata theory. Basic computability theory. Turing machines. The complexity classes P and NP.
Prerequisite: CSC 220 or ECE 318 and MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CSC 431. Introduction to Software Engineering. 3 Credit Hours.
Prerequisite: CSC 317 or CSC 322 or CSC 517.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CSC 481. Teaching Assistant Training in Computer Science. 1-3 Credit Hours.
Training and teaching assistant for a specific course, in computer laboratories. May be taken multiple times, assisting maximally twice for a given course.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

CSC 498. Senior Topics in Computer Science. 1-3 Credit Hours.
Senior Topics in Computer Science - content varies by semester.
Requisite: At least 12 credits of CSC courses.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 506. Logic. 3 Credit Hours.
Prerequisite: MTH 230 or PHI 210 or PHI 510.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 507. Data Security and Cryptography. 3 Credit Hours.
Prerequisite: CSC 317 or CSC 427.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CSC 516. Cybersecurity. 3 Credit Hours.
Firewalls. Intrusion detection and prevention systems. Security for cloud computing and the Internet of Things. Design and implementation of secure software systems.
Prerequisite: CSC 317 And MTH 224 And MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 518. Interpreters and Compiler Theory. 3 Credit Hours.
Prerequisite: CSC 419.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
CSC 528. Introduction to Parallel Computing. 3 Credit Hours.
Parallel computing systems: shared-memory parallel programming, with open MP; distributed-memory parallel programming, software with open MPI software package. Applications: vector and matrix operations, sorting, image processing.
Prerequisite: CSC 317.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 529. Introduction to Computer Graphics. 3 Credit Hours.
Prerequisite: CSC 220 or ECE 318 and MTH 210.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 540. Algorithm Design and Analysis. 3 Credit Hours.
Design techniques include divide-and-conquer, greedy method, dynamic programming, backtracking. Time and space complexity. Sorting, searching, combinatorial and graph algorithms.
Prerequisite: CSC 317.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 545. Introduction to Artificial Intelligence. 3 Credit Hours.
Game theory. AI programming.
Prerequisite: CSC 317 or ECE 318 and MTH 224 or ECE 310 or IEN 310.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 546. Introduction to Machine Learning with Applications. 3 Credit Hours.
Prerequisite: MTH 210 and MTH 224.
Components: LEC.
Grading: GRD.

CSC 547. Computational Geometry. 3 Credit Hours.
Algorithms for solving geometric problems arising from application domains including graphics, robotics, and GIS.
Prerequisite: CSC 317.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 548. Bioinformatics Algorithms. 3 Credit Hours.
Prerequisite: CSC 120 or CSC 210 and BIL 150 or BIL 104 or BIL 352 or BIL 552 or CSC 552.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CSC 549. Biomedical Data Science. 3 Credit Hours.
The computational skills needed for analysis of genomic and biomedical data sets, including: The basics of a command line interface; programming in (bio-)python; running programs on Pegasus2; writing scripts for downloading, manipulating, and analyzing data; file sharing and version control using github; analyzing a Next Generation Sequencing data set, and interpreting the results; and responsible conduct of Research.
Prerequisite: CSC 120 and BIL 150.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
CSC 550. Computational Neuroscience. 3 Credit Hours.
Prerequisite: MTH 162 and MTH 224.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 552. Bioinformatics Tools. 3 Credit Hours.
Databases and tools of bioinformatics, as relevant to research in genomics and molecular biology. Bioinformatics applications. Information retrieval, analytical tools, BLAST searches, promoter analysis, and protein structure-function analysis, and various applications.
Prerequisite: BIL 250 or BIL 150.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CSC 555. Multimedia Systems. 3 Credit Hours.
Prerequisite: CSC 317.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 595. Topics in Computer Science. 1-3 Credit Hours.
Topics in Computer Science - content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 596. Topics in Computer Science. 1-3 Credit Hours.
Topics in Computer Science - content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 597. Topics in Computer Science. 1-3 Credit Hours.
Topics in Computer Science - content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 598. Topics in Computer Science. 1-3 Credit Hours.
Topics in Computer Science - content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CSC 599. Topics in Computer Science. 1-3 Credit Hours.
Topics in Computer Science - content varies by semester.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

B.A. in Computer Science
Overview
The major in Computer Science for BA students consists of a core of 17 credits of Computer Science courses, 7 credits of Mathematics courses, and 9 credits of elective Computer Science courses or approved courses from another department.
## Curriculum Requirements for B.A. in Computer Science
and for Additional Major in Computer Science Fundamentals

<table>

**Additional Requirements for the B.A.**  
ENG 105  English Composition I  
ENG 106  English Composition II  
Language Requirement  
Natural Sciences Course  
Arts and Humanities Cognate  
People and Society Cognate  
Minor Requirement (must be non-STEM)  
Electives  
Total Credit Hours  

---

1. CSC40X - Computer Science Practicum courses must be taken at the same time as their host courses.  
2. Maximally 6 credits from CSC481 - Undergraduate Teaching Assistant in Computer Science.  
3. CSC 115, BTE 120, BTE 320, or ECE 118 must be taken before CSC 120 in order to count towards the major.  
4. ECE 481 and 482 may also be used to replace any requirement for CSC410 or CSC411.  
5. For the Additional Major in Computer Science, Fundamentals, B.S. students in the College of Arts and Science should use the requirements of the B.S. in place of the additional requirements listed here.  Students not in the College of Arts and Sciences should use the requirements of their school or college's degree.

## Mission
The Department’s mission is to educate and perform scholarly activities in the discipline of Computer Science, in order to meet national and international demand for trained computer scientists who are capable of building the robust computation structures upon which society is becoming increasingly dependent.

## Goals
Students will acquire understanding and capability for the structure and developmental processes of software systems, from the translation of domain problems to forms amenable to software solution, through the production of efficient and robust computer programs, to the supporting systems and hardware components.

Students will acquire these abilities through a combination of classroom instruction, laboratory work, independent project work, and group project work.
Graduates will be prepared to work in industries that are directly involved in the development of fundamental computing resources (e.g., Microsoft, Apple, IBM, Intel, etc.), and in industries that rely on computation in support of their core businesses (e.g., banking, transport, manufacturing, medical, etc.).

Faculty and students will engage in activities that support and achieve the development of new techniques and software that can contribute to the science, and where appropriate contribute to the teaching objectives. Examples of such activities include academic research, development of novel techniques and software products, consulting and internship activities in local industries, and maintaining awareness of cutting edge approaches to Computer Science.

**Student Learning Outcomes**

- Students must be able to translate domain problems to forms amenable to software solution.
- Students must be able to produce efficient and robust computer programs.
- Students must be able to build and deploy a completed, integrated, and documented (Advanced Writing and Communication Skills) software solution to a domain problem.
- Students must have understanding and competence in the mathematical foundations of Computer Science.

**B.S. in Computer Science**

**Overview**

The major in Computer Science for BS students consists of a core of 23 credits of Computer Science courses, 17 credits of Mathematics courses (which may apply towards a mathematics minor), 17 credits from a chosen track, and 12-14 credits of required science and ethics courses.

Credit Hours: 120

1. These mathematics courses can also fulfill the requirements for a Minor in Mathematics (see here for details).
2. Available to all students.
3. The Comprehensive Track provides coverage of the topics in Computer Science prescribed by the Association of Computing Machinery curriculum and the ABET Computing Accreditation Commission.
4. Requires permission of the Director of Undergraduate Studies.
5. In addition to the generally approved electives, CIM 423, CIM 433, MMI 504, and MMI 505 are approved for the Graphics and Games track.
6. This course may also be applied towards the Science requirement.
7. In addition to the generally approved electives, JMM 429 is approved for the Data Science track.
8. CSC 40X - Computer Science Practicum must be taken at the same time as host course.
9. Maximally 6 credit hours from CSC 481 - Computer Science Teaching Assistant.
10. ECE 481 and ECE 482 may be used to replace any requirement for CSC 410 and CSC411.
11. For the Additional Major in Computer Science, with Tracks, students not in the College of Arts and Sciences should use the requirements of their school or college's degree in place of the additional requirements listed here.

| Credit Hours   | 15           |
| Total Credit Hours | 121         |

**Mission**

The Department’s mission is to educate and perform scholarly activities in the discipline of Computer Science, in order to meet national and international demand for trained computer scientists who are capable of building the robust computation structures upon which society is becoming increasingly dependent.

**Goals**

Students will acquire understanding and capability for the structure and developmental processes of software systems, from the translation of domain problems to forms amenable to software solution, through the production of efficient and robust computer programs, to the supporting systems and hardware components.
Students will acquire these abilities through a combination of classroom instruction, laboratory work, independent project work, and group project work.

Graduates will be prepared to work in industries that are directly involved in the development of fundamental computing resources (e.g., Microsoft, Apple, IBM, Intel, etc.), and in industries that rely on computation in support of their core businesses (e.g., banking, transport, manufacturing, medical, etc.).

Faculty and students will engage in activities that support and achieve the development of new techniques and software that can contribute to the science, and where appropriate contribute to the teaching objectives. Examples of such activities include academic research, development of novel techniques and software products, consulting and internship activities in local industries, and maintaining awareness of cutting edge approaches to Computer Science.

**Student Learning Outcomes**

- Students must be able to translate domain problems to forms amenable to software solution.
- Students must be able to produce efficient and robust computer programs.
- Students must be able to build and deploy a completed, integrated, and documented (Advanced Writing and Communication Skills) software solution to a domain problem.
- Students must have understanding and competence in the mathematical foundations of Computer Science.

**B.S. + M.S. in Computer Science - Five Year**

The 5-year Bachelor of Science + Master of Science program in Computer Science provides research training for students who wish to work in a computing research lab, or possibly continue to PhD studies.

Students enter the "MS-phase" of the program when they have met the following requirements:

- They have achieved senior status, i.e., earned 89 credit hours towards their Bachelor of Science in Computer Science.
- Within the requirements for a Bachelor of Science in Computer Science, they have completed the prerequisites for entry into the regular Master of Science program, i.e.:

</tbody>
</table>

- They have completed 3 credit hours of CSC 410 and/or CSC 411 in a research-oriented project.
- They have an overall GPA of at least 3.0.
- They have a GPA of at least 3.3 in the CSC courses taken towards their BS in Computer Science.
- They have advised the Director of Graduate Studies of their eligibility for the MS-phase.

Students in the MS-phase must complete 3 further credit hours of CSC 410 and/or CSC 411 in a research-oriented project, as part of their Bachelor of Science in Computer Science (this project will normally be the starting point for the Master of Science research). Students in the MS-phase may take up to 12 credits of courses, including 600 level courses, that count towards completing the requirements for the Master of Science in Computer Science. When students have completed the requirements for a Bachelor of Science in Computer Science they will be awarded that degree, and when they have completed the requirements for the Master of Science in Computer Science they will be awarded that degree.

Incoming students can be admitted to the program if their mathematics placement is MTH 108 or higher. Existing Bachelor of Science in Computer Science students can switch into the program when they have met the requirements for entering the MS-phase of the program. Students can be removed from the program if they have not met the prerequisites for admission to the MS-phase by the time they have achieved senior status. If a student is removed or decides to withdraw from the program, any 600 level courses taken may be used to fulfill the requirements for a Bachelor of Science in Computer Science.

### Total Credit Hours

120

---

1. These mathematics courses can also fulfill the requirements for a Minor in Mathematics (see here ([http://bulletin.miami.edu/undergraduate-academic-programs/arts-sciences/mathematics/mathematics-minor/](http://bulletin.miami.edu/undergraduate-academic-programs/arts-sciences/mathematics/mathematics-minor/)) for details).
2. Available to all students.
3. The Comprehensive Track provides coverage of the topics in Computer Science prescribed by the Association of Computing Machinery curriculum and the ABET Computing Accreditation Commission.
4. Requires permission of the Director of Undergraduate Studies.
5. In addition to the generally approved electives, CIM 423, CIM 433, MMI 504, and MMI 505 are approved for the Graphics and Games track.
6. This course may also be applied towards the Science requirement.
7. CSC 40X - Computer Science Practicum must be taken at the same time as host course.
8. Maximally 6 credit hours from CSC 481 - Computer Science Teaching Assistant.
9. ECE 481 and ECE 482 may be used to replace any requirement for CSC 410 and CSC 411.
10. For the Additional Major in Computer Science, with Tracks, students not in the College of Arts and Sciences should use the requirements of their school or college’s degree in place of the additional requirements listed here.
M.S. Curriculum Requirements

Students must complete the Graduate School requirements, and the Departmental requirements described here.

Select either the Thesis Option or the Coursework Option ¹

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Thesis Option</td>
<td></td>
<td>24-30</td>
</tr>
<tr>

<td>6</td>
</tr>
<tr>
<td>24 credits from approved courses, including at least 9 credits from CSC7XX courses.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Coursework Option</td>
<td></td>
<td>30-36</td>
</tr>
<tr>
<td>30 credits from approved courses, including at least 12 credits from CSC7XX courses.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

¹ For both options, at least 18 credit hours must be from CSC 6XX and CSC 7XX courses, and may not include more than 6 credit hours from CSC 670.

Each program must include both theoretical and experimental topics. By graduation students will have knowledge in the areas of Programming Languages, Algorithm Design and Analysis, Theory of Computing, Operating Systems, Computer Networks, and Software Engineering. Each program is approved by the CSGC and the Department Chairman or designate. Programs may be individually tailored to meet varied backgrounds and objectives. It is recognized that there are individuals with undergraduate degrees in other fields wishing to pursue graduate work in Computer Science, and individuals with work experience in the field wishing to advance their formal training in Computer Science.

All Computer Science graduate TAs and RAs must complete Responsible Conduct of Research (RCR) training during their first semester in the department. All other Computer Science graduate students must complete RCR training before starting research work. Information about RCR training can be found from UM ethics programs: http://www.miami.edu/index.php/ethics/projects/rcr/ (https://ethics.miami.edu/disciplines/research-ethics/responsible-conduct-of-research/).

Minor in Computer Science

Overview

The minor in Computer Science requires 8 credits of core Computer Science courses, one 3 credit Computer Science elective at the 300 level, and 6 credits of elective Computer Science course at the 200 level or above or approved courses from other departments.

Criminology

sociology.as.miami.edu

Overview
The major in Criminology provides a comprehensive understanding of crime and the criminal justice system. The major prepares students to assume roles of leadership in this critical area of modern society. Courses are designed to review theory, research, and applications of knowledge regarding delinquency and crime, as well as to understand the manner in which offenders are processed. Students learn about the nature and extent of crime, different types of crime and theories to explain crime. In addition, detailed analyses are made of the functions of the law, police, courts, and correctional systems and the ways in which these are linked to broader aspects of society. Students may also minor in Criminology. The Criminology major and minor are administered through the Department of Sociology.

Educational Objectives
The undergraduate program in Criminology has as its main objectives are to provide students with:

1. A strong component of a social science education, training in analytical and statistical skills that are highly valued by potential employers.
2. A valuable undergraduate preparation for pursuing careers in such fields as law in society, in the local and state criminal justice systems (e.g., juvenile probation officer, pretrial services officer, crime analyst for criminal justice agencies), or in federal agencies (e.g., DEA).
3. An excellent and comprehensive training program for students wishing to pursue graduate study in criminology, law school, criminal justice, sociology, or other social and behavioral sciences.

Degree Programs
Students may earn a Bachelor of Arts degree in Criminology. The Department of Sociology also offers graduate programs leading to a PhD. degree in the areas of:

- Criminology
- Medical Sociology
- Race, Ethnic Relations, and Immigration

Departmental Honors
Graduation with Departmental Honors is available to eligible students who fulfill the following:

1. Students desiring Departmental Honors in Criminology must maintain an overall GPA of 3.3 and a GPA of 3.5 in Criminology. They must also achieve a minimum of B in all Criminology courses. For transfer students, the Department uses the cumulative, combined GPA calculated by the Office of the Registrar.

2. A student seeking Departmental Honors is required to write an independent research paper which is submitted to the Undergraduate Committee in the Department of Sociology. The nature of the independent research project is determined by the faculty member(s) with whom the student works. This project is done in SOC 498 & SOC 499. The student should have the same professor for all six credit hours.
3. Eligible students meeting requirements will need to complete the honors thesis agreement with their supervising faculty member and submit it to the Director of Undergraduate Studies in time for spring registration of their junior year.

Advanced Writing and Communication Requirements

To satisfy the College of Arts and Sciences Advanced Writing and Communication requirement, all Criminology majors must take 4 writing-designated courses, including 1 writing-designated course in the SOC area. Writing courses are regularly offered by the department; however, it is the student’s responsibility to plan accordingly to incorporate a designated SOC writing-designated course into their graduation plans.

Alpha Phi Sigma

Majors, minors, and other students who meet certain academic criteria are eligible for membership in Alpha Phi Sigma, the National Criminal Justice Honor Society. Alpha Phi Sigma sponsors events that enhance the academic and social life of the department.

Note: SOC 101 is a prerequisite for all Sociology courses and for all Sociology & Criminology majors and minors.

SOC 101. Introduction to Sociology. 3 Credit Hours.
The scientific study of society and several sociological concepts, including, but not limited to: social theory, social research, social economy, social interaction, social class, social construction, gender stratification, race and ethnicity, family, and deviance. This course will help students to examine the social world around them using the sociological imagination. Students will learn how to connect research to concepts, deepening their understanding of the social world and social phenomena and develop critical thinking skills.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SOC 103. Social Problems. 3 Credit Hours.
Sociological theories and methods will be used to interpret data, evaluate social policies, and analyze the manner in which ideologies perceive and frame problems. This course will develop critical thinking skills necessary to assess social problems, as well as the ability to recognize, exercise, and develop one’s agency to address these issues.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 210. Introduction to Social Research. 3 Credit Hours.
This course provides students with an overview of the social science research process and introduces them to the various methodological strategies used by social scientists. The various steps by which research is conducted will be examined such as study design and implementation, data collection and interpretation of findings. Students will also be able to critique the strengths and limitations of difference research methodologies.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SOC 211. Quantitative Methods for Sociologists. 3 Credit Hours.
This course is designed to introduce students to descriptive and inferential statistics used in sociology, criminology, and other social sciences. We will cover measures of central tendency and variation, probability distributions, hypothesis testing, and bivariate techniques such as correlation and an introduction to regression.
Prerequisite: SOC 101, 210. Corequisite: 212.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 212. Quantitative Methods Lab. 1 Credit Hour.
Statistical lab associated with SOC 211 introduces the use of computer statistical packages for analyzing quantitative data.
Prerequisite: SOC 101 and SOC 210 And Corequisite: SOC 211 or PSY 291 or PSY 292.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.
SOC 270. Deviant Behavior. 3 Credit Hours.
An introduction to the study of deviant behaviors. We will examine the ways in which deviance is constructed and defined. Major sociological perspectives and theories will be applied in order to understand how they aid in the formation and development of social deviance. In addition, various forms of deviant behaviors will be discussed, including: drug use, sexual deviance, violence, suicide, LGBT issues, inequality and crime. The role of social control will also be examined in terms of how it impacts the way in which deviance is understood in society.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 271. Criminal Justice. 3 Credit Hours.
Provide students with both an introduction to the basics of the criminal justice system and a critical approach to contemporary issues in the field. We will focus on the nature of crime and how it is measured; issues in policing and law enforcement; the judicial system and legal process; sentencing; corrections; and prison life. Throughout the course we will focus on current controversies and debates, including such issues as the war on drugs, racism in the criminal justice system, violent crime rates, and incarceration rates.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 291. Special Topics. 3 Credit Hours.
Content will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 292. Special Topics. 3 Credit Hours.
This course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 293. Special Topics. 3 Credit Hours.
This course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 301. Social Organization. 3 Credit Hours.
The focus of this course is formal organizations, with an emphasis on the workplace. The topics that are discussed include theories of work, organizational paradigms, bureaucracy, impact of technology, unionization, and the new workplace. The fundamental theme is how organizational style influences productivity.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 302. Social Psychology: Sociological Perspective. 3 Credit Hours.
The influence of human groups, social processes, and social structures on behavior and self, with some attention devoted to the effect of social interaction on groups, processes, and structures. Topics of study include the development of the self, the process of social interaction, the significance of language, and the social construction of reality.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 303. Social Inequalities. 3 Credit Hours.
An overview of the sociological approach to the analysis of structured socioeconomic inequality (a.k.a. "social stratification") in contemporary American society. In this regard, emphases are placed on identifying trends, causes, and consequences of the distribution of a wide range of material (e.g. income, wealth) and symbolic (status, prestige) rewards in American society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SOC 304. Dynamics of Poverty in the United States. 3 Credit Hours.
Examines trends in the incidence and causes of major types of poverty among the urban underclass, the homeless, migrant laborers, the working poor. Also explores policy-related solutions.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 305. Globalization and Society. 3 Credit Hours.
Concepts and theories that are currently in use to understand globalization both as a process and as a structure: social aspects and narratives of globalization, and theoretical sociological models as scaffolding for understanding many of the disparate characteristics of globalization. Globalization as it spans disciplinary division and its understanding: the emergence of novel economic forms and practices as a pivotal driving force for globalization. Human migrations and their consequences on cultural identity and diffusion, and the role of the technology in the creation and consolidation the global world. New and complex structures of socioeconomic inequality at national and at transnational levels, the disproportionately important roles that women play in these new structures of inequality, and the social forces and movements that have emerged to resist globalization or to alter it in important ways.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

SOC 306. Wealth and Poverty in Contemporary America. 3 Credit Hours.
The causes and consequences of rapidly changing patterns of concentration of socioeconomic resources, such as wealth and income in America. This changing concentration is associated with the proliferation of impoverishment and privilege in America. Analyzes macro-economic changes, demographic shifts, technological advances, and evolving ideological postures as sources of these trends.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 320. Social Epidemiology. Illness and Death in Society. 3 Credit Hours.
Social epidemiology and the sociological study of health and longevity. Specifically, this course examines the ways in which key sociological variables structure, shape, or patterns the health and longevity of the US population. This course covers several variables of sociological interest, including socioeconomic status, race/ethnicity, sex/gender, age, family status, and religion.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 321. Applied Health Policy. 3 Credit Hours.
The role of public and private institutions in health promotion, health care delivery, and health insurance. We will explore the theoretical and practical reasons for intervention in health-related decisions and health care markets, the related empirical evidence, and the effects of these interventions on health outcomes and social welfare. Students will understand how and why government and society in general attempts to influence health-related behaviors and health insurance markets, and the resulting effects on individuals’ choices, expenditures, health outcomes, and overall quality of life.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

SOC 332. Collective Behavior. 3 Credit Hours.
Classical theories, issues, and research on fads, fashions, riots, crowd behavior, social movements and other forms of collective behavior.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 335. LGBTQ Communities. 3 Credit Hours.
Gender, race, age and class differences in the experiences of gays and lesbians. A life-span perspective guides the course after the presentation of some background of biological, psychological, and sociological theories pertaining to homosexuality.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
SOC 340. Sociology of Religion. 3 Credit Hours.
Social foundations of religion, growth and change within religious institutions and relationships of religion to other institutions.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 341. Social and Cultural Change. 3 Credit Hours.
Survey of major theories of change; analysis of the processes and mechanisms of change. Contemporary transitions in the underdeveloped regions of the world.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 342. Contemporary Latin American Societies. 3 Credit Hours.
Social characteristics of Latin American societies and their comparison with North American society.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 345. Population and Society. 3 Credit Hours.
Demographic analysis of fertility, mortality, sex-age structure, migration, urbanization and population control.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 349. Sociology of the Family. 3 Credit Hours.
A critical investigation of the family while applying sociological theories, perspectives, and concepts, based on current research in the field. As the family is an important institution in social life, and one in which we all have experienced in some way, we will see that there is not "one" particular way of experiencing this institution. The various definitions and versions of the family will be addressed historically, with an emphasis on how they are shaped by public perception. In addition, more recent trends in family life will be addressed, including cohabitation, marriage, divorce, parenthood, family policy, family structure, and marginalized family types.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 350. Business and Society. 3 Credit Hours.
The influence of business objectives, values, and ethics on American culture, moral standards, and societal institutions. A careful analysis of the choices made by individuals, companies, and governments will demonstrate that sensible "choice architecture" can successfully nudge people toward better decisions without restricting their freedom of choice. Specific topics include: corporate social responsibility; ethical issues in business; business and government in a global society; business and public policy; the corporation and the natural environment; business and technological change; and business relationships with consumers and employees.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 352. Sport and Society. 3 Credit Hours.
The status position and role of sport in society. Our primary focus will be upon delineating and analyzing sport as a major social institution in American society. Thus our perspective will be that of the sociologist (i.e., critical more in analysis than in judgement) rather than that of a sports journalist or a sports fan. We shall examine both amateur and professional sports in terms of their interlocking relationships with each other and with other major social institutions (e.g., education, economics, and politics) as well as their significance for promoting and maintaining cultural values such as competition, fair play, teamwork, gender roles, and the like. The objective is to provide students with critical assessment and analytical skills for examining and understanding the impact of sports on both individuals and society.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SOC 359. The Sociology of Human Sexuality. 3 Credit Hours.
A socio-historical survey of sexual ideologies, attitudes and behavior in human societies, with emphasis on social and biological factors.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
 Typically Offered: Offered by Announcement Only.

SOC 365. Internship. 3 Credit Hours.
Exposure to and insight into the operations of community non-profit or government based social service agencies. The course involves prearranged study and supervised work in a variety of organizations and institutions, affording students the opportunity to use their sociological imagination while providing a "hands-on" sociological experience in the local community.
Prerequisite: SOC 101.
Components: DIS.
Grading: GRD.
 Typically Offered: Fall & Spring.

SOC 368. Violence in America. 3 Credit Hours.
Issues relevant to the study of violence in the United States will be covered. While the emphasis throughout will be on street violence (i.e., homicide, robbery, rape, and aggravated assault), other forms (e.g., corporate violence, intimate partner violence) will also be covered. In particular, we will: Examine violence in historical, international, and situational contexts, examine the major explanations of violence, and examine the factors associated with violent crime. We will also consider how we seek to control violence in the U.S.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
 Typically Offered: Offered by Announcement Only.

SOC 369. Crime and Public Policy. 3 Credit Hours.
The dimensions and causes of the crime problem in America, and the uses and limits of the criminal justice system in dealing with it. We will examine the enormous expansion of the American prison system in recent years, and ask how much it has affected the crime rate. Additionally, we will consider a variety of possible strategies for preventing or controlling so-called "street" crime, both within the criminal justice system and beyond it-including prevention and rehabilitation programs as well as expanding social and economic opportunities. Along the way, we will pay particular attention to several controversial issues, including the death penalty, drugs, and gun control.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
 Typically Offered: Spring.

SOC 370. Juvenile Delinquency. 3 Credit Hours.
Application of sociological perspectives and concepts to examine juvenile delinquency and the juvenile justice system. The course takes into account the various social factors that shape juvenile delinquency and its control, such as race, ethnicity, socioeconomic status, gender, and sexuality. In addition, students will take a critical view of the policies developed to control such behavior.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
 Typically Offered: Fall & Spring.

SOC 371. Criminology. 3 Credit Hours.
The concepts of crime and criminal law, reviews several theoretical approaches to studying crime and criminal behavior, and focuses on several types of crime. In particular, it includes such topics as definitions of crime, sources of crime statistics, correlates and causes of crime, terrorism, genocide, corporate crime, and cybercrime.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
 Typically Offered: Fall & Spring.

SOC 372. Criminology: Police and Community. 3 Credit Hours.
A study of policing in U.S. society. Interaction with groups and institutions. The overall objective of this course is to provide students with an understanding of the role of the police in American society. The source will focus on the sociological study of policing, not professional training to become a police officer. Students will gain a better understanding of the history of the police, their role in American society and in the American system of criminal justice. In addition, students will discuss and critique important issues and trends in modern policing.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
 Typically Offered: Fall & Summer.
SOC 373. Criminology: Courts and Society. 3 Credit Hours.
The importance of the criminal courts and the impact that the criminal courts have on society. You will gain a realistic sense of what it is like to work in and be a part of the criminal justice system. The roles and responsibilities of the major courthouse players will be discussed. You will discover the challenging situations that judges must navigate as well as the difficulties that confront prosecutors and defense attorneys as they deal with victims, defendants and crushing caseloads.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 374. Criminology: Corrections. 3 Credit Hours.
Corrections in the U.S. society; philosophies of rehabilitation, punishment, and incapacitation.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 375. Sociology of Mental Health and Illness. 3 Credit Hours.
An introduction to sociological theories and research regarding the definition, experience, and treatment of mental illness.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 377. Sociology of Drug Abuse. 3 Credit Hours.
Application of sociological perspectives and concepts to examine drug use and abuse. The course examines the historical and theoretical understanding of the social causes and consequences of drug use, as well as the correlates of use and abuse. The course also takes a critical perspective of the policies developed to reduce the harms associated with drug use and abuse.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 378. Criminology: Law and Society. 3 Credit Hours.
How law, crime, and justice systems in the United States relate to social structure. The course covers two major themes: lawmaking (and how it relates to lawbreaking) and the justice system.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 380. Sociology of Gender. 3 Credit Hours.
The phenomenon of gender in society using sociological theory and research. Topics of focus include the social construction of gender, gender identity, and gender discrimination within various social institutions such as the family, the educational system, the media, the world of employment, and more.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 381. Aging in Society. 3 Credit Hours.
The aging processes, the aged and social institutions; special issues.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 382. The U.S. Jewish Community. 3 Credit Hours.
Application of minority group analysis to the U.S. Jewish community.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SOC 383. Sociology of Education. 3 Credit Hours.
The examination and analysis of education as a major social institution. As such, this course assesses the structure, processes, and interaction patterns within the educational system. All levels (elementary, secondary, and postsecondary), and types (public and private) of education are considered. The course also examines the impact of education on social stratification, social mobility, and socioeconomic inequality, especially along race, gender, and class lines.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 384. Medical Sociology. 3 Credit Hours.
A brief early history, methods, theory and concepts of social science research on health and health care mainly from the last half of the previous century to the present. We will explore gender, race, class, age, social and cultural differences in the experiences of individuals as they deal with health and illness across the life course. The course will provide students with a sociological analysis of a broad array of health/illness issues and the health services industry.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 385. U.S. Latinos. 3 Credit Hours.
Sociological perspectives are employed in the examination of the historical, social, economic, and cultural experiences of Latino/as in the United States.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 386. U.S. Immigration. 3 Credit Hours.
The major sociological debates in the field of immigration with an emphasis on recent immigrants to the U.S.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 387. Race and Ethnic Relations. 3 Credit Hours.
The nature and dynamics of race and ethnic relations with particular emphasis on racial and ethnic groups in the United States. We examine basic concepts and major theories in the analysis of race and ethnic relations, racial and ethnic inequality, past and recent immigration experiences, and the historical and current status of specific racial and ethnic groups. Students will also be engaged in a variety of exercises designed to develop critical assessment and analytical skills for examining and understanding issues related to race and ethnicity.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 388. The Black Ghetto in Urban Society. 3 Credit Hours.
The origin and development of the concept of “ghetto” and application of this concept to both past and contemporary views of black life in America. Students are introduced to the historical and social significance of the black ghetto in the context of the larger body of literature on the ghetto phenomenon. Emphasis is placed on gaining an understanding and developing critical insight into issues and prospects for the resolution of issues related to black ghettoization.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 389. The Black Athlete in White America. 3 Credit Hours.
The impact of racism on sport in the United States with a specific focus on the Black athlete. Drawing upon the literature on race and sport in America, the course takes a historical view of the social context in which black athletes have competed and excelled in their craft against tremendous odds both inside and outside of sport competition.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
SOC 390. Directed Studies. 1-3 Credit Hours.
Individually supervised readings or research on special topics offered by arrangement with instructor.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 391. Special Topics. 3 Credit Hours.
Content will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 401. Sociological Theory. 3 Credit Hours.
The work of theorists such as Comte, Durkheim, Marx, Weber, Parsons, and symbolic interactionists. The epistemology, methodology, and social ontology is each theory is discussed, along with the social context and chief concerns of each theorist.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 410. Social Research Practicum. 1-3 Credit Hours.
Each student will work directly with a designated faculty mentor to obtain general research training, data analysis techniques, and technical writing skills. AB part of the research practicum, students will work in collaboration with their faculty mentor to prepare a journal-length research manuscript and assemble related research materials to gain practical knowledge of the scientific research process. This one-on-one experience will also enhance students' training in sociology and provide them with useful analysis and writing skills when they enter the job market.
Prerequisites: SOC 101 and SOC 210 and SOC 211 and SOC 212.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SOC 470. Theories of Deviant Behavior. 3 Credit Hours.
Various theories of causes of deviance/crime. It begins with an overview of the early classical and positivist foundations of criminological thought and then moves on to discussing more recent extensions of social disorganization, strain, control, social learning, and other contemporary theories of crime. It also covers the role of theory in scientific research, familiarizes with the foundations of current theoretical debates in criminology, and introduces the empirical research on the reviewed theories.
Prerequisite: SOC 101 and SOC 371.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SOC 480. Health Disparities in the U.S.. 3 Credit Hours.
A comprehensive examination of U.S. health disparities based on a variety of social variables, including race and ethnicity, gender, socioeconomic status, sexual orientation, and the environment. In doing so, this course will draw on theoretical perspectives from multiple disciplines to examine the relationship between social factors and health outcomes. The most pressing U.S. health disparities will be discussed and put into a historical and global context in order to identify priorities for the elimination of health disparities. After exploding the known and suspected causes of disparities in health outcomes, attention will turn to an overview of the common multi-level strategies used to reduce health disparities. Students will go away with a broad-based understanding of current health disparities issues and the ability to critically examine these issues.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

SOC 487. Race, Ethnicity, and Criminal Justice. 3 Credit Hours.
An in-depth examination of the relationships involving race, ethnicity, immigration, crime, and the criminal justice system. We will consider why these are important issues to study, how and what we know about these relationships, and how we might explain them. We will direct attention to research on defining race and ethnicity, racial and ethnic variations in criminal victimization and offending, population distributions, policing, the court system and sentencing, corrections, and the death penalty. Our approach will primarily be sociological, although where appropriate we will draw from other disciplines (e.g., political science, history, etc.) as well. Prerequisite: Six credits in Sociology.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
SOC 488. Gender and Crime. 3 Credit Hours.
Examination of gender, power, and crime, including feminist theories and the criminal justice system.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 490. Directed Studies in Sociology. 1-3 Credit Hours.
Supervised independent study on special topics. Arrangement with individual faculty.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 491. Special Topics. 3 Credit Hours.
This upper level course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 492. Special Topics. 3 Credit Hours.
This upper level course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 493. Special Topics. 3 Credit Hours.
This upper level course is designed to address a specific topic which will vary by semester.
Prerequisite: SOC 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SOC 498. Senior Honors Thesis in Sociology or Criminology I. 3-6 Credit Hours.
Independent research project.
Prerequisites: SOC 101 and SOC 210 and SOC 211 and SOC 212.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

SOC 499. Senior Honors Thesis in Sociology or Criminology II. 3-6 Credit Hours.
Independent research project.
Prerequisites: SOC 101 and SOC 210 and SOC 211 and SOC 212.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

B.A. in Criminology

Overview
The major in Criminology provides a comprehensive understanding of crime and the criminal justice system. The major prepares students to assume roles of leadership in this critical area of modern society. Courses are designed to review theory, research, and applications of knowledge regarding delinquency and crime, as well as to understand the manner in which offenders are processed. Students learn about the nature and extent of crime, different types of crime and theories to explain crime. In addition, detailed analyses are made of the functions of the law, police, courts, and correctional systems and the ways in which these are linked to broader aspects of society.

</tbody>
</table>
Student Learning Outcomes

- Students will demonstrate a thorough understanding of Criminology, and the basic criminological theoretical concepts and knowledge base.
- Students will develop and demonstrate critical thinking skills through the comprehension, analysis and critique of criminological theories.
- Students will demonstrate an ability to understand and critique criminological research methodology. Students will have the ability to design and critique valid research studies and to identify reliable findings from such studies.

Economics

Introduction and Educational Objectives

Economics uses the idea of optimizing behavior to provide a unified framework for studying human action. The economics curriculum is designed to give students an understanding of economic theory and its application to a wide range of problems. The program provides excellent preparation for careers in business, government, and international agencies. It is particularly recommended for students planning graduate study or professional training in fields such as law, business, international studies, public administration, and economics.

A student pursuing the Economics major or minor will select one of two possible options: Political Economy (People and Society) or Quantitative Economics (Science, Technology, Mathematics, and Engineering). There is also a minor in Sustainable Business, which is available to all students.

Members of the Department are prepared to counsel students in the selection of courses and in other matters relating to the preparation for careers. Students interested in pursuing the Doctor of Philosophy in Economics (p. 1935) may seek additional information through the Department of Economics.

ECO 211. Principles of Microeconomics. 3 Credit Hours.
Fundamental course devoted to the development and application of basic analytical tools and principles required for an understanding of major economic problems and policy alternatives available for their solution. A particular emphasis is devoted to microeconomic analysis. Topics include the study of markets under varying conditions of competition, including market deficiencies such as pollution, prices, and resource allocation distribution of income, including poverty problems, the economics of the firm and the government, and international economic relations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECO 212. Principles of Macroeconomics. 3 Credit Hours.
Fundamental course devoted to macroeconomic analysis. Topics include national income and employment analysis, money and banking, economic growth, and comparison of different economic systems, including the problems of developing the less developed world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECO 213. Principles of Economics. 4 Credit Hours.
This course introduces the study of the economic behavior of individuals, firms, and markets; as well as the analysis of the economy as a whole, both in terms of short-run fluctuations (the business cycle) and long-run determinants of economic growth.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ECO 300. Microeconomic Theory and Applications. 3 Credit Hours.
Intermediate level analysis of the role of price in resource allocation in markets of varying degrees of competition. It focuses on the process of
decision-making by individuals and firms, and the welfare consequences. Special attention is devoted to economic applications.
Prerequisite: ECO 211 or ECO 213 and MAS 110, or MTH 130 or MTH 141 or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECO 301. Macroeconomic Theory. 3 Credit Hours.
Intermediate level analysis of the measurement, determination, and control of aggregate economic activity.
Prerequisite: ECO 212, MAS 110, or MTH 130 or MTH 141 or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECO 302. Microeconomic Theory. 3 Credit Hours.
Intermediate level analysis of the role of price in resource allocation in markets of varying degrees of competition, as well as in the determination of
wages, rent, interest, profits, and public policy.
Prerequisite: ECO 211 or ECO 213 and MTH 141 or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECO 303. Macroeconomic Theory. 3 Credit Hours.
Intermediate level analysis of the measurement, determination, and control of aggregate economic activity.
Prerequisite: ECO 212 or ECO 213 and MAS 110 or MTH 130 or MTH 141 or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECO 307. Public Economics. 3 Credit Hours.
This course studies the role of governments in the economy by surveying several topics in public finance and public policy; it is designed to be a link
between the theory and several policy-relevant applications. Students will acquire the microeconomic tools and techniques to identify, analyze, and
solve public policy and political economy problems. Students will also learn to apply the theory to current events such as the policy debates over
social security, health care, education, and tax reform. Selected topics: budget analysis and scoring; correction of externalities and provision of public
goods; public choice theory and government failure; fiscal federalism and redistribution; role of government in education, social security, and health
care; income distribution and welfare programs; optimal taxation and tax inefficiencies; taxes on labor supply, savings, capital gains, and business
income; fundamental tax reform and consumption taxation. This is an elective class addressed to economics majors, minors, and any student with an
interest in the topics.
Prerequisite: ECO 213 or ECO 211 and ECO 212.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECO 311. Labor Economics (I). 3 Credit Hours.
Course surveys the structure and functioning of labor markets. Topics include determinants of labor supply and labor demand, economics of wage
differentials, economic impact of labor unions, discrimination in labor markets, and the labor market effects of various government policies such as
payroll and income taxes, educational subsidies, and minimum wage laws. The central goal of the course is to provide the student with a framework
for analyzing diverse issues related to the labor sector of the economy.
Prerequisite: ECO 300. Or ECO 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECO 333. Industrial Economics and Public Policy. 3 Credit Hours.
This course surveys several topics in industrial economics, regulation, and antitrust; it is designed to be a link between the theory and several
applications. Students will acquire the microeconomic tools and techniques to identify, analyze, and solve industrial economics and government
competition policy problems, and will learn to apply the theory to many real-world markets and current economic events. Selected topics: price
discrimination; product differentiation; advertising; network effects; consumer search and digital markets; auctions; bargaining; vertical restraints and
mergers; collusion and cartels; innovation and intellectual property; natural monopolies and regulation; and antitrust policies. This is an elective class
addressed to economics majors, minors, and any student with an interest in the topics.
Requisite: ECO 300 OR ECO 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ECO 345. Environmental Economics. 3 Credit Hours.
This course determines the appropriate way to regulate economic activity so as to achieve an optimal balance between competing environmental and economic goals. Economic reasoning is used to evaluate causes and consequences of environmental problems. The course rigorously evaluates various types of environmental regulation, including "cap-and-trade," command and control mandates, and pollution taxes. Other specific topics include public goods, externalities, cost benefit analysis, non-market valuation, and international trade and development and the environment.
Prerequisite: ECO 211 or ECO 213.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECO 351. Economics of Development. 3 Credit Hours.
This course studies factors underlying economic development, measures of and goals for development, principles applicable to problems of development, the role of markets and planning in development, social, cultural, and political factors affecting economic development, and comparative rates of progress in different countries.
Prerequisite: ECO 213 or ECO 211 and ECO 212.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECO 371. Latin America and the Global Economy. 3 Credit Hours.
An analysis of the historical growth of major Latin American countries, with emphasis on the post World War II period. Topics include industrialization, foreign investment, international trade and regional integration, agrarian reform, inflation, and development strategies and planning within the context of Latin America.
Prerequisite: ECO 213 or ECO 211 and ECO 212.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECO 379. The Political Economy of Growth. 3 Credit Hours.
This course studies the causes of economic growth such as geography, culture, institutions, human and physical capital, as well as technology. It examines the role they play in the development process, casting light in their order of importance for growth and into which growth determinants are amenable to policy change.
Prerequisite: ECO 213 or ECO 211 and ECO 212.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECO 386. Health Economics. 3 Credit Hours.
The course applies the tools of microeconomic analysis to the health care sector. It examines how models of demand and supply apply to the health care sector in general, and in particular to the health insurance, the hospital, the physicians, and the pharmaceutical sectors. By examining the actors and issues in this market, students are able to discuss policy issues from an economic perspective.
Prerequisite: ECO 300. Or ECO 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECO 403. Monetary Economics. 3 Credit Hours.
Analysis of the role of money in economic affairs. Topics include the determinants of the money supply and interest rates, money and prices, money and stability, and growth. Emphasis is placed on current problems and policies.
Prerequisite: ECO 301 or ECO 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECO 420. Economic Growth. 3 Credit Hours.
Course covers selected topics in economic growth. Topics include stylized facts associated with economic growth, the theoretical study of economic growth, and empirical tests of those theories. Course work is supplemented by case studies of individual countries, particularly developing countries.
Prerequisite: ECO 301 or ECO 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
ECO 430. Applied Econometrics. 3 Credit Hours.
This course introduces basic econometric techniques for analyzing economic data. The goal is to make students sophisticated consumers and skilled producers of empirical analysis, which will be attained by extensive work on a variety of real-world data like students' test scores, CEO wages, mortgage applications, cigarette demand, stock market capitalization, inflation, GDP and interest rates. Learning how to use econometric analysis software is an integral part of the course.
Prerequisite: ECO 211 or ECO 213 and MAS 110, or MTH 130 or MTH 141 or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECO 441. International Trade Theory. 3 Credit Hours.
Study of the principles of comparative advantage and the gains from international trade. Analysis of tariffs, quotas, and protectionism is included.
Prerequisite: ECO 300. Or ECO 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECO 442. International Monetary Economics. 3 Credit Hours.
Analysis of models of the exchange rate, the balance of payments, and monetary policy in an open economy.
Prerequisite: ECO 301 or ECO 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECO 443. Economic Analysis of Energy and Commodity Markets. 3 Credit Hours.
This course explores the principles of energy economics, commodity markets and advanced macroeconomics. It discusses the main trends in energy production and consumption, the methods of analysis in energy and commodity markets, and the main challenges in the energy sector. The analysis of oil prices and the economics of oil exporting countries is emphasized.
Prerequisite: ECO 213 or ECO 211 and ECO 212.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECO 444. Game Theory in Economic Applications.. 3 Credit Hours.
This course is an introduction to the techniques and questions of modern microeconomics. The course will expose you to the techniques of game theory, the workhorse of modern microeconomics, and will apply those techniques to the analysis of a variety of economics situations and institutions.
Prerequisite: MAS110 or MTH 130 or MTH 141 or higher.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECO 445. Global Economics: Trade and Currencies. 3 Credit Hours.
In this course, students are exposed to two fundamental topics which are primordial to the understanding of any economic, political and/or social circumstance in any given country at any given time: (1) The evolution and meaning of the business cycle and capitalism, and (2) The effect of international trade and currencies. These two themes have sparked debates for centuries as they have great implications in the development of countries. Also, this course challenges students' critical thinking and analytical skills with a wide range of controversial readings on these two topics. This course is divided into four sections. The first one introduces students to the idea of the business cycle. The second section aims at explaining how capitalism was born and how it has evolved in the 19th and 20th centuries. Then, the course centers on explaining capitalism today and presents criticisms. And finally, students analyze how the business cycle and capitalism has unfolded and affected certain countries in Latin America.
Prerequisite: ECO 301 or ECO 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECO 460. Industrial Organization. 3 Credit Hours.
This course shows how microeconomic theory can be used to understand the diverse practices encountered in real-world markets between the extreme cases of perfect competition and monopoly. Topics to be covered include strategic pricing behavior, collusion, advertising and information, vertical integration, vertical restraints, regulation and a review of empirical literature.
Prerequisite: ECO 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
ECO 496. Directed Studies in Economics. 1-3 Credit Hours.
Supervised readings, individual research project, or independent investigation of selected non-STEM related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.

Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECO 497. Directed Studies in Economics. 1-3 Credit Hours.
Supervised readings, individual research project or independent investigation of selected STEM-related problems in the discipline. Offered only by special arrangement with supervising faculty member, who approves topic and evaluation process at time of registration.

Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECO 498. Special Topics in Economics. 3 Credit Hours.
Special topics in selected non-STEM areas of Economics.
Prerequisite: ECO 300. Or ECO 302.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECO 499. Special Topics in Economics. 3 Credit Hours.
Special topics in selected STEM areas of Economics.
Prerequisite: ECO 302.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECO 510. Mathematical Economics and Applications. 3 Credit Hours.
The course will focus on specific applications of microeconomic theory, which may vary each semester. Topics may include choice under uncertainty, game-theoretic models of insurance markets, principal-agents problems, and basic auction theory. The discussion of each application will be preceded by a discussion of the mathematical tools required. The mathematics topics covered may include basic theory of sets and functions, concave / convex functions and their role in optimization, expectations, conditional probability, Bayes rule, and order statistics.
Prerequisite: ECO 211 or ECO 213 and MAS 110, or MTH 130 or MTH 141 or higher.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECO 511. Empirical Labor Economics. 3 Credit Hours.
A theoretical and empirical analysis of how labor markets operate. A survey of the literature, problems, and methodology of modern labor economics. Human capital analysis, the wage structure, job search and job-matching models, time-allocation models, the economic impact of labor unions, labor market discrimination, the determinants of labor demand and supply, and the factors affecting government policy relating to the labor sector is also included.
ECO 430.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECO 512. Topics in Mathematical Economics. 3 Credit Hours.
This course shows how modern economic techniques can be used to identify optimal managerial decisions and industrial developments. Diverse real-world economic applications are examined.
Prerequisite: ECO 211 or ECO 213 and MAS 110, or MTH 130 or MTH 141 or higher.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECO 520. Econometrics. 3 Credit Hours.
Statistical methods of estimating and testing mathematical model of economic relationships.
Prerequisite: ECO 211 or ECO 213 and MAS 110, or MTH 130 or MTH 141 or higher.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ECO 521. Advanced Macroeconomic Theory. 3 Credit Hours.
The primary objective of this course is to introduce the student to the mathematical presentation of the major Classical, Neo-classical, Keynesian, and Neo-Keynesian macroeconomic models.
Prerequisite: ECO 301 or ECO 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECO 532. History of Economic Thought. 3 Credit Hours.
Historical development of economic doctrines and theory. Topics and individuals discussed include mercantilism, physiocracy, Adam Smith, Thomas Malthus, David Ricardo, J. S. Mill, Karl Marx, marginal analysis, Alfred Marshall, and J. M. Keynes. Special emphasis is placed on the effect of historical insights upon the contemporary core of economic theory.
Prerequisite: ECO 213 or ECO 211 and ECO 212.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECO 533. Advanced Microeconomic Theory. 3 Credit Hours.
An introduction to the mathematical approach to microeconomic theory. Topics include consumer/household behavior, the theory of the firm, resource allocation, welfare economics, and uncertainty theory.
Prerequisite: ECO 302.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECO 555. Economics Departmental Honors Research Project. 3 Credit Hours.
Research project to fulfill requirements for Departmental Honors in Economics.
Components: THI.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

B.A. in Economics

Overview
Major Area of Specialization in Economics (People & Society or STEM)
The economics major brings students an understanding of economic theory and its application to a wide range of problems. The program provides excellent preparation for careers in business, government, and international agencies.

Curriculum Requirements
A student pursuing the major in Economics through the College of Arts and Sciences will select one of two possible tracks: Political Economy (People and Society) or Quantitative Economics (Science, Technology, Mathematics, and Engineering) and complete the curriculum requirements as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 211</td>
<td>Principles of Microeconomics</td>
<td>3</td>
</tr>
<tr>
<td>ECO 212</td>
<td>Principles of Macroeconomics</td>
<td>3</td>
</tr>
<tr>
<td>ECO 300</td>
<td>Microeconomic Theory and Applications (ECO 302 may be taken instead if MTH 161 or equivalent is completed)</td>
<td>3</td>
</tr>
<tr>
<td>ECO 301</td>
<td>Macroeconomic Theory</td>
<td>3</td>
</tr>
<tr>
<td>ECO 430</td>
<td>Applied Econometrics</td>
<td>3</td>
</tr>
</tbody>
</table>

Major Choice Courses (P&S) - Select five courses (15 credit hours) from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECO 307</td>
<td>Public Economics</td>
</tr>

2020-2021 303

Natural Science Course 6 3
Electives 7 35
Advanced Writing and Communication - see note regarding ECO writing course 8

Total Credit Hours 120

1. All specific coursework for either major option in Economics must be completed with a grade of "C-" or higher. A minimum cumulative GPA of 2.5 is required for all specific coursework taken in the major. All courses must be taken within the current pre-requisite structure. No ECO course may double count in any other major, minor, or cognate.

2. Course pre-requisites vary by course.

3. This track requires both MTH 161 or an equivalent calculus course and ECO 302.

4. This requirement is satisfied by MAS 110 or MTH 130 or MTH 141 or MTH 151 or MTH 161 or MTH 171 or an equivalent calculus course or higher. Please note: If the student wishes to take ECO 302 or the Quantitative Economics track, then MTH 161 or equivalent must be taken. Also note that if the student wishes to apply to transfer to the Miami Business School, he/she must take MTH 161 or an equivalent and earn a minimum "B" grade in the course, as well as have a minimum UM grade point average of 3.0.

5. Please see the College of Arts and Sciences Bulletin Overview page (p. 130) regarding the "Details of the Second Language Proficiency" requirement.

6. This requirement is waived if the student's STEM cognate includes a Natural Science course from the approved list. See the College of Arts and Sciences Bulletin Overview (p. 130) page for more information.

7. A minimum of 120 credits is required for graduation. Sufficient credits must be earned in electives to enable the student to complete this minimum of 120 credits. The exact number of elective credits required will vary depending on the number of credits needed to complete all other graduation requirements.

8. Advanced Writing and Communication Proficiency. Degree candidates must complete at least four writing courses, and at least one writing course must be in the student's major discipline. Either ECO 301 or ECO 445 will satisfy the College of Arts & Sciences writing requirement in the discipline.

Sample Plan of Study

This Sample Plan of Study represents one possible version of a new freshman student's 8-semester plan. The individual student's plan may vary depending upon the initial placement into English Composition, mathematics, and modern language. Moreover, numerous plan variations are possible if a student enters the University with advanced college credits, wishes to participate in study abroad, chooses a special program option, or selects additional majors or minors.

Note that each major/minor satisfies a particular "Area of Knowledge" within the general education requirements of the University, so that a separate cognate in that same Area of Knowledge is not required. For example, if a student chooses the Political Economy track for the Economics major, then the People and Society Area of Knowledge will be fulfilled by the major. The STEM and Arts and Humanities Areas of Knowledge may likewise be fulfilled by an additional major, or through the minor or a cognate.

Students construct their individualized plans in collaboration with their assigned academic advisor.

1 A calculus course is required for the Economics major. If a student wishes to take ECO 302 or selects the Quantitative Economics Major option, then MTH 161 or an equivalent must be taken. If a student has taken an "applied" calculus course such as MAS 110 or MTH 130, then he/she will take ECO 300 instead of ECO 302 and must follow the Political Economy (P&S) Major option for Economics.
Mission
Economics uses the principle of utility maximizing behavior to provide a unified framework for studying how people make choices. The economics curriculum is designed to give students an understanding of economic theory and its application to a wide range of human behavior. The program provides excellent preparation for careers in business, government, research organizations, and international agencies. It is particularly recommended for students planning graduate study or professional training in fields such as economics, law, business, international studies, public administration, and public health.

Goals
- To teach students foundational material to ensure they have a deep understanding of economic theories and quantitative methods.
- To prepare students with the skills essential for professional careers and admission to business school, law school, economics Ph.D. programs, or multidisciplinary programs.
- To ensure students demonstrate analytical thinking and problem-solving skills.
- To prepare students for using quantitative tools, analytical models, and conceptual frameworks to analyze economic data.
- To ensure students are able to demonstrate technical writing skills.
- To prepare students to effectively collaborate in group settings and to effectively communicate in both written and oral formats.

Student Learning Outcomes
- Students will demonstrate proficiency in the fundamentals of economic theories and quantitative methods.
- Students will be able to think analytically and demonstrate problem-solving skills.
- Students will be able to interpret quantitative data appropriately, and select and use appropriate models, conceptual frameworks, and quantitative tools to analyze economic data.

Ecosystem Science and Policy
abess.miami.edu
Dept. Code: ECS

Introduction
The undergraduate program in Ecosystem Science and Policy (ECS) is offered by the Leonard and Jayne Abess Center for Ecosystem Science and Policy. The goal of the program is to educate the next generation of environmental leaders. The ECS program provides students with a broad background in environmental issues from a variety of perspectives, along with in-depth education in an area of specialization.

Educational Objectives
The ECS major offers a series of problem-based learning courses, culminating in a capstone course in the senior year. Courses emphasize integration of science and policy approaches to real-world environmental issues. This preparation gives students both the theoretical background and technical skills to pursue environmental careers in, teaching and research, as well as for careers in government and private industries concerned with the environment.

Advanced Writing and Communication Requirement
To satisfy the Advanced Writing and Communication requirement, students majoring in ECS take three ECS writing intensive courses (ECS 113, 302, 403). They also receive instruction in scientific communication, including how to make charts, graphs, maps, meeting posters, and other representations of data, in ECS 112 and 301. Many ECS courses co-listed with other departments /programs are writing intensive or include instruction in visual communication.

Degree Programs
The Ecosystem Science and Policy program offers two undergraduate degree major programs: a Bachelor of Science (B.S.) and a Bachelor of Arts (B.A.). The minor consists of 15 credit hours. Majors are required to complete either an environmentally related internship or a research project with the Center for Ecosystem Science and Policy or with other UM faculty.

Only those courses passed with a grade of “C-” or better in the ECS core may be applied to the major or minor. All ECS majors are required to maintain an overall cumulative grade point average of 2.5 or better.

Certificate in Ecosystem Science and Policy
- Sustainability (p. 325)
ECS 111. Introduction to the Earth's Ecosystem. 3 Credit Hours.
Earth's ecosystems and the interactions of humans with them. Concepts in ecology, environmental science and policy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECS 112. Field Problems in Ecosystem Science and Policy. 2 Credit Hours.
Problem solving in ecology and environmental management. Class projects and case studies providing experience in identifying problems, quantifying scientific issues and considering management options and outcomes. Extensive field experience.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECS 113. Introduction to Environmental Policy. 3 Credit Hours.
Theories and case studies from various fields, including anthropology, economics, ethics, geography, political science and psychology, will be used to explore the multiple perspectives that influence group and individual perceptions of environmental issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECS 195. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 196. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 197. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 198. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 199. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 201. Seminar Series in Contemporary Environmental Issues I. 1 Credit Hour.
Current environmental topics involving interaction of science and policy.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

ECS 202. Seminar Series in Contemporary Environmental Issues II. 1 Credit Hour.
Current environmental topics involving interaction of science and policy.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECS 204. Environmental Statistics. 3 Credit Hours.
An overview of parametric and nonparametric statistics with an emphasis on applications in the analysis of environmental data.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
ECS 215. Introduction to Private Urban and Suburban Green Spaces. 1 Credit Hour.
Faculty supervised research & application projects in indoor, urban, and suburban green spaces. Topics of focus include green walls, roof gardening, edible gardening, permaculture, sustainable gardening, composting & vermiculture, gardening for wildlife, and backyard ecology. No previous ecology or gardening experience required.
**Components:** FLD.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.

ECS 232. Ecological Principles and Environmental Applications. 3 Credit Hours.
Overview of the science of ecology and its basic principles. Covers aspects of organismal ecology (including population genetics, structure, growth and regulation; adaptations and responses to the physical environment and biological communities); community ecology; and ecosystems (including energy flow, biogeochemical cycles, and biomes). Students will learn to apply ecological principles to understand and solve environmental problems.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

ECS 272. Special Topics in Ecosystem Science and Policy. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Offered by Announcement Only.

ECS 295. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
For courses taken at other institutions that have no equivalents here.
**Components:** LEC.
**Grading:** GRD.

ECS 296. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
For courses taken at other institutions that have no equivalents here.
**Components:** LEC.
**Grading:** GRD.

ECS 297. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
For courses taken at other institutions that have no equivalents here.
**Components:** LEC.
**Grading:** GRD.

ECS 298. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
For courses taken at other institutions that have no equivalents here.
**Components:** LEC.
**Grading:** GRD.

ECS 299. Studies in Ecosystem Science and Policy. 1-5 Credit Hours.
For courses taken at other institutions that have no equivalents here.
**Components:** LEC.
**Grading:** GRD.

ECS 301. Tools for Environmental Decision-Making: The Quantitative Perspective. 3 Credit Hours.
Quantitative decision-making techniques and methodologies.
Prerequisite: ECS 111 and ECS 112. or Requisite: Plan of ECS.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall.

ECS 302. Perspectives on Environmental Decision Making. 3 Credit Hours.
Techniques for assessing human impacts on the environment. Covers approaches from law, ethics, anthropology and includes cases involving local, regional and global environmental management issues.
**Components:** LEC.
**Grading:** GRD.
**Typically Offered:** Fall & Spring.
ECS 309. Microbes and the Environment. 3 Credit Hours.
This course is designed to provide students in geology, biology and environmental science a fundamental understanding of the role microbes play in shaping the Earth and its environments as well as the basic principles and approaches to studying these interactions in both modern and ancient settings. The metabolic diversity displayed by microbial communities makes them an integral component of global elemental cycles. In this regard, microorganisms have shaped our planet over the past 4 billion years and continue to do so in a very prominent way. The goal of this course is to learn about microbial diversity and metabolism, and the ability of microbes to shape and influence the environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECS 310. Sustainable Living. 3 Credit Hours.
Sustainable Living explores ways of living that can be sustained for thousands of years, without further damage to earth, ocean and atmosphere. Topics covered include renewable energy, agricultural practices, water issues, green building, low carbon transportation and healthy living/eating. Students advocate for sustainable practices of their choice in writing and in oral/visual presentations. Frequent field trips.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECS 312. Environment Assessment. 3 Credit Hours.
Execution of environmental due diligence in the context of property transactions and land and water pollution in a technical, regulatory, and legal framework, including how client advocacy and regulatory detail influence project design.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECS 323. Population, Sustainability, and the Media. 3 Credit Hours.
Explores opposing views of population growth and environmental sustainability through the media and cinema: contrasts "Doomsters" who believe population growth and resource consumption threaten human survival and pro-growth "Boomsters" who believe human ingenuity and technology will continue to allow humankind to prosper.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECS 324. You & Your Microbiome. 3 Credit Hours.
Recent advances in immunology, genetic manipulation and the microbiome; consequences on emerging notions of personalized health and medications; the creation of tailored therapies against cancer; implications for cost of healthcare and politics of medicine.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECS 325. Hazards and Disasters: The Nature-Society Interface. 3 Credit Hours.
Borrows from themes in Geography, Urban Planning, Anthropology and Policy Studies to explore how human-environmental interactions determine the distribution, causes and consequences of natural hazards and disasters.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECS 332. Ecology and Land Use in the Galapagos. 3 Credit Hours.
Fundamental principles of ecology manifested on Isla Isabela will be employed to evaluate land usages including subsistence and production agriculture, animal husbandry, fuel wood and timber, and conservation with ecotourism. Habitats, flora, and fauna from the vicinity of Puerto Villamil to the rim of Volcán Sierra Negra; analysis of agricultural practices and problems of the mist zone on this volcano’s southeastern flank.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECS 335. Biodiversity in Peru. 3 Credit Hours.
The focus is on developing skills to analyze and value the components of biodiversity, identifying its potentials and the tools to make sustainable use and conservation possible.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
ECS 337. Latin America and the Environment. 3 Credit Hours.
Theoretical dimensions of current environmental challenges in Latin America and examines their ecological, social, economic, and political dimensions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECS 342. Decision-Making and the Environment. 3 Credit Hours.
Provides a comprehensive overview of the art and science of decision modeling in natural resources policy management. Students learn to understand and develop basic decision models, interpret the results and communicate them to non-analytical decision makers.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECS 345. Economics of Natural Resources and the Environment. 3 Credit Hours.
A comprehensive overview of the economics of national, international, and global environmental problems. A unifying theme throughout is sustainable development defined as "maximizing the net benefits of economic development while maintaining the services and quality of natural resources over time". We will use economic reasoning to examine causes and consequences of environmental and resource problems, and measures for dealing with them.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ECS 352. Environmental Ethics. 3 Credit Hours.
Theoretical and practical issues in the field of environmental ethics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 357. Global Food: A Hands-On Approach. 3 Credit Hours.
Application of principles of permaculture via designing and creating a small "global farm" on campus to grow perennial food crops which are unique to the South Florida environment. We learn by doing, cultivating plants that hold the solution to world hunger problems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECS 360. Readings in Ecosystem Science and Policy. 1-3 Credit Hours.
Supervised readings on special topics. Offered by special arrangement with a faculty member. May be repeated for credit.
Components: DIS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 361. Readings in Ecosystem Science and Policy. 1-3 Credit Hours.
Supervised readings on special topics. Offered by special arrangement with a faculty member. May be repeated for credit.
Components: DIS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 362. Readings in Ecosystem Science and Policy. 1-3 Credit Hours.
Supervised readings on special topics. Offered by special arrangement with a faculty member. May be repeated for credit.
Components: DIS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 363. Readings in Ecosystem Science and Policy. 1-3 Credit Hours.
Supervised readings on special topics. Offered by special arrangement with a faculty member. May be repeated for credit.
Components: DIS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 371. Readings in Ecosystem Science and Policy. 1-2 Credit Hours.
Supervised readings on special topics. Offered by special arrangement with a faculty member. May be repeated for credit.
Components: DIS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ECS 372. Special Topics in Ecosystem Science and Policy. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 373. Topics in Ecosystem Science. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECS 374. Topics in Environmental Policy. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECS 375. Topics in Environment and the Humanities. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 376. Topics in Environmental Communication. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 377. Topics in Environmental Economics and Development. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 379. Special Topics in Ecosystem Science and Policy. 1-4 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 380. Field Studies in Ecosystem Science and Policy. 1-4 Credit Hours.
Field course to various U.S. and international regions, focusing on current and historic interactions of humans with the local environment. Includes water, land, and mineral resources as well as impacts on local ecosystems. Emphasis on current management efforts and potential impacts of climate change.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 381. Field Studies in Ecosystem Science and Policy. 1-4 Credit Hours.
Field course to various U.S. and international regions, focusing on current and historic interactions of humans with the local environment. Includes water, land, and mineral resources as well as impacts on local ecosystems. Emphasis on current management efforts and potential impacts of climate change.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ECS 385. Civic Engagement in the Galapagos. 3 Credit Hours.
This course is part of the UGalapagos semester held in the Galapagos and is open only to students who have been accepted by the Department of Biology. This field course offers you a rare chance to examine human interactions in a highly politicized landscape of conservation. You will learn historical development and contemporary issues of Latin America from an interdisciplinary perspective, through the cultural, political and social lens of the Galapagos
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
ECS 391. Studies in Ecosystem Science and Policy. 1-4 Credit Hours.
(Not offered: transfer credit only) Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 392. Studies in Ecosystem Science and Policy. 1-4 Credit Hours.
(Not offered: transfer credit only) Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 393. Studies in Ecosystem Science and Policy. 1-4 Credit Hours.
(Not offered: transfer credit only) Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 394. Studies in Ecosystem Science and Policy. 1-4 Credit Hours.
(Not offered: transfer credit only) Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 395. Studies in Ecosystem Science and Policy. 1-4 Credit Hours.
(Not offered: transfer credit only) Courses taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.

ECS 401. Internship. 3 Credit Hours.
Students selecting the internship will be required to spend a minimum of 120 contact hours working in an outside firm or agency whose mission is to address environmental issues where science and policy intersect.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECS 402. Thesis. 3 Credit Hours.
Individual, original research of independent study supervised by a UM faculty member and concluded by formal thesis preparation, public oral defense and submission of the thesis.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECS 403. Interdisciplinary Approaches. 3 Credit Hours.
Students with diverse disciplinary backgrounds will design an interdisciplinary study focused on an environmental problem with a major science component and significant societal implications. Students will apply quantitative methods, formulate usable policy, and communicate their results.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ECS 405. Applied Research in Ecosystem Science and Policy. 1-3 Credit Hours.
Faculty-mentored applied research in environmental topics. Projects in natural ecosystems, sustainable design and business, and communication of environmental issues.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECS 415. Research in Private Urban and Suburban Green Spaces. 1 Credit Hour.
Faculty supervised research & application projects in indoor, urban, and suburban green spaces. Topics of focus include green walls, roof gardening, edible gardening, permaculture, sustainable gardening, composting & vermiculture, gardening for wildlife, and backyard ecology.
Requisite: ECS Major or ECS Minor or Prerequisite: ECS 215.
Components: FLD.
Grading: GRD.
Typically Offered: Fall & Spring.
ECS 432. Ecology in the Galapagos. 3 Credit Hours.
Organisms in relation to their environment, with a focus on interactive hands-on learning experiences that connect empirical nature with abstract thinking. Lectures, discussion and field work will help students begin to understand ecosystem ecology, plant dispersal and colonization, organisms’ responses to spatial and temporal variability in their environments, plant/animal interactions. Origins and effects of invasive species and actions of bio-control agents.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECS 433. Conservation in Practice. 3 Credit Hours.
Intersection between economic development, science and conservation in one of the world’s most pristine and fragile ecosystems. Exploration of how tourism offers an alternative to unsustainable fisheries that once drove the local economy, yet has created a new set of pressures on the people and the environment. Mitigation efforts, science, and international conservation mesh with an understanding of local politics, customs, and cultures.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECS 485. Political Ecology of the Galapagos. 3 Credit Hours.
This course is part of the UGalapagos semester held in the Galapagos and is open only to students who have been accepted by the Department of Biology. Throughout the term, you will engage in civic activities identified in consultation with the people, government and public health facilities of the small, rural village of Villamil, the sole habitation on Isla Isabella. A major aim is to nurture the mutual respect and understanding across the cultural divide that is necessary to make a difference in the civic life of a community.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECS 501. Interdisciplinary Environmental Theory. 3 Credit Hours.
Theoretical approaches in environmental and social science fields, including conservation biology, ecology, geography, economics, sociology, anthropology, philosophy, and interdisciplinary approaches. Themes include human ecology, historical ecology, landscape ecology, environmental law and ethics, perception of risk and uncertainty, vulnerability and adaptation, and environmental valuation. Requisite: Plan of Ecosystem Science and Policy.
Components: DIS.
Grading: GRD.
Typically Offered: Fall.

ECS 503. Interdisciplinary Environmental Methods. 3 Credit Hours.
Environmental methods related to core programmatic themes of Urban Ecology, Global Public Health, Climate and Society, Environment and the Media, Integrated Marine and Terrestrial Management, and Regulatory Regimes. The course focuses on the application of Interdisciplinary approaches and methods for addressing complex environmental problems. Students will learn to design and employ interdisciplinary approaches, using qualitative and quantitative methods and analysis, through lectures, reading assignments, discussion sessions, and assignments. Requisite: Plan of Ecosystem Science and Policy.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

ECS 507. Interdisciplinary Environmental Decision Analysis. 3 Credit Hours.
Approaches to studying and interpreting human behavior related to a range of decision making at the level of individual, group, and firm. Multidisciplinary theories and methods informing work in the decision sciences will be covered from fields of psychology, business, economics, political science, and anthropology. Requisite: Plan of Ecosystem Science and Policy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ECS 515. Private Green Space Management. 3 Credit Hours.
Students plan and manage ongoing and proposed green space projects. Student managers work with supervising faculty; also organize and educate student volunteers and students concurrently enrolled in ECS 215 and 415. Prerequisite: ECS 415.
Components: FLD.
Grading: GRD.
Typically Offered: Fall & Spring.
ECS 572. Special Topics in ECS. 0-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ECS 580. Field Studies. 1-4 Credit Hours.
This course will provide participants with the opportunity for intensive field research geared toward an interdisciplinary understanding of environmental issues and conservation concerns.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

B.A. in Ecosystem Science and Policy

The B.A. degree in Ecosystem Science and Policy is recommended in preparation for careers in law, government and business, including professional schools and careers in government and private industries concerned with the environment. Students pursuing the B.A. may choose to have the major fulfill either the STEM or People & Society cognate; they will need to complete the other cognate plus the Arts & Humanities cognate. Students with a second major in another school or college should consult their advisors regarding requirements for that major. Any course used to fulfill one ECS requirement cannot be used to fulfill another; however, courses other than the ECS core can be used to fulfill requirements for a cognate, minor, or second major. Students whose primary college is Arts & Sciences are required to complete four courses designated as "Writing Intensive" (also known as "W") courses. Those seeking a B.A. degree in ECS must complete at least two, but as many as four, ECS courses designated as "W". These include ECS 113, ECS 301, ECS 302, ECS 402, and ECS 403. Up to two "W" courses may be selected from other departments. Students whose primary degree is in another school or college should follow its writing requirements.

- Language Courses

**Minor and Electives**

Select three credit hours of the following: 30

**Total Credit Hours** 120-121

---

1. Additional courses may be approved by the ECS program.
2. APY, ARC, ECO, ECS, GEG, HIS, INS, LAS, MAF, POL, SOC
## Suggested Plan of Study - with Minor

In this plan, we are showing the case in which study abroad simply counts toward the total required for graduation, 120 credits. However, study abroad courses generally can be used as courses for ECS, for a minor, or for cognates, in which case there would be additional electives opened up in subsequent semesters.

\[1\] This course needs to be at the 300 level or higher.
### Mission

The mission of the Ecosystem Science and Policy (ECS) program is to educate the next generation of environmental leaders. Future leaders need to find ways to meet human demands, while protecting and restoring the natural environment that sustains us. As science increasingly demonstrates the complex interconnectedness of all the elements of natural systems, environmental decisions must take into account potential ecosystem-wide effects to be truly effective. Environmental scientists and non-scientist policy-makers, managers, and planners must communicate with each other in new and better ways as development and environmental policy decisions are made. The program offers two degrees, a Bachelor of Science and a Bachelor of Arts.

### Goals

The Bachelor of Arts degree prepares students with knowledge in a broad background of environmental issues from a variety of perspectives, along with in-depth education in a related area of specialization. Students earning a Bachelor of Arts degree in ECS carry out intensive study in social science approaches to environmental issues.

### Student Learning Outcomes

- **Scientific Knowledge**: Students will demonstrate a comprehensive understanding of ecosystem science.
- **Policy Knowledge**: Students will demonstrate an ability to evaluate the role of science and technology in society and demonstrate understanding of factors involved in the formulation and implementation of environmental policy.

- Second Major Course 3
- ECS Elective 300 level or higher 3
- Elective 3

#### Total Credit Hours 12

---

1 This course needs to be at the 300 level or higher.
• Communication Skills: Students will demonstrate communication skills to convey information, orally and in writing, to both scientific and lay audiences.

## B.S. in Ecosystem Science and Policy

The B.S. degree in Ecosystem Science and Policy is recommended for students intending to attend graduate or professional schools in pursuit of research or academic careers (including secondary or higher education). It is also suitable for those preparing for technical careers in government and private industries concerned with the environment. Students pursuing the B.S. may choose to have the major fulfill either the STEM or People & Society cognate; they will need to complete the other cognate plus the Arts & Humanities cognate. Students with a second major in another school or college should consult their advisors regarding requirements for that major and school or college. Any course used to fulfill one ECS requirement cannot be used to fulfill another; however, courses other than the ECS core can be used to fulfill requirements for a cognate, minor, or second major. Students whose primary college is Arts & Sciences are required to complete four courses designated as "Writing Intensive" (also known as "W") courses. Those seeking a B.S. degree in ECS must complete at least two, but as many as four, ECS courses designated as "W". These include ECS 113, ECS 301, ECS 302, ECS 402, and ECS 403. Up to two "W" courses may be selected from other departments. Students whose primary degree is in another school or college should follow its writing requirements.

</tbody>
</table>

1. Note: ECS B.S. majors without a second major must take a GIS course, e.g. GEG310.
2. Note: For tracks having a higher credit count, the number of electives available is reduced.
3. Note: CHM121/113 must be taken before the Environmental Chemistry track. Fulfillment of the Environmental Chemistry track earns a Chemistry minor.
6. Note: Calculus II must be taken before the Mathematics track. Fulfillment of the Mathematics track earns a Mathematics minor.
Note: The 12-credit CHM121/221/222 sequence of the Environmental Health track replaces the normal 8 credit ECS B.S. CHM111/112/113/114 series, making the effective credit count for the Environmental Chemistry track 19-21. This track as described does not earn a minor; additional courses to finish a minor (or a separate minor) must be undertaken.

Note: MSC346 (co-listed with ECS403) taken to satisfy the Climate Science & Policy track cannot also satisfy the ECS403 core course requirement; a separate ECS403 section must be taken. Fulfillment of the track earns a minor in Climate Science & Policy.

Note: BIL539 (Co-listed with ECS403) taken to satisfy the Conservation Biology track cannot also satisfy the ECS403 core course requirement; a separate ECS403 section must be taken. Fulfillment of the Conservation Biology track earns a Biology minor.

* Students following the ECS Bachelor of Science must complete either a track (listed separately above) or a second major in a STEM field.

Mission

The mission of the Ecosystem Science and Policy (ECS) program is to educate the next generation of environmental leaders. Future leaders need to find ways to meet human demands, while protecting and restoring the natural environment that sustains us. As science increasingly demonstrates the complex interconnectedness of all the elements of natural systems, environmental decisions must take into account potential ecosystem-wide effects to be truly effective. Environmental scientists and nonscientist policy-makers, managers, and planners must communicate with each other in new and better ways as development and environmental policy decisions are made. The program offers two degrees, a Bachelor of Science and a Bachelor of Arts.

Goals

The Bachelor of Science degree prepares students with knowledge in a broad background of environmental issues from a variety of perspectives, along with in-depth education in an additional field. Students earning a Bachelor of Science degree in ECS carry out intensive study in a particular science track. Joint programs with engineering are also available.

Student Learning Outcomes

- **Scientific Knowledge**: Students will demonstrate a comprehensive understanding of ecosystem science.
- **Policy Knowledge**: Students will demonstrate an ability to evaluate the role of science and technology in society and demonstrate understanding of factors involved in the formulation and implementation of environmental policy.
- **Communication Skills**: Students will demonstrate communication skills to convey information, orally and in writing, to both scientific and lay audiences.
Certificate in Sustainability

Overview

The certificate program is intended to equip students with knowledge and skills for implementing positive change through environmentally responsible practices in various fields; to serve as a curricular adjunct to sustainable initiatives at UM; to foster a culture of conservation at the University; to enhance students’ preparation for a variety of careers, including engineering, architecture, business, marketing, government, and more; and to affirm UM’s commitment to sustainability and complement its efforts to enhance environmental education.

To obtain the sustainability certificate, students will complete 18 credits from the courses below.

Students may take courses to align with their major or minor, or individual interests (e.g., energy, green buildings, natural resource management). Note that some courses on the list may require one or more prerequisites. It is the responsibility of students to obtain any permissions for waivers of prerequisites from the appropriate parties in a given School or College. Courses not on the list below may be substituted; students should obtain permission for substitutions in advance from the director or assistant director of ECS.

Students must be enrolled full time and all courses for the Certificate must be passed with no lower than a “C” grade. Students who successfully complete the program will receive a notation on their transcripts that they have received the Sustainability Certificate.

Prerequisite Courses

- POL 322 has a prerequisite of POL 201 or POL 202; it is only offered in Summer
- MSC 340 has a prerequisite of MSC 111
- ARC 223 has a prerequisite of ARC 102 and ARC 122
- INS 322 has a prerequisite of INS 102 or ECO 211 and ECO 212, or permission of instructor
- INS 421 has a prerequisite of INS 102 or permission of instructor
- ECO 345 has a prerequisite of ECO 211 and ECO 302
- MSC 345 has a prerequisite of ECO 211
- GEG 341 has a prerequisite of any 100 level GEG course.

*This program is not eligible for federal or state financial aid. Contact the Office of Student Financial Assistance and Employment (https://finaid.miami.edu/) for further assistance.

Mission
Students will gain an understanding of how sustainability concepts have bearing on climate change, mass movements of populations, limits to energy and water supplies, and biodiversity.

Goals
The Certificate program is intended:

• to equip students with knowledge and skills for implementing positive change through environmentally responsible practices in various fields;
• to serve as a curricular adjunct to sustainable initiatives at UM;
• to foster a culture of conservation at the University;
• to enhance students’ preparation for a variety of careers, including engineering, architecture, business, marketing, government, and more; and
• to affirm UM’s commitment to sustainability and complement its efforts to enhance environmental education.

Student Learning Outcomes
• Students will demonstrate an understanding of human impacts on the environment.
• Students will demonstrate an understanding of methods of reducing human impacts on the environment.
• Students will demonstrate an ability to communicate effectively about sustainability.

Education

Degree in Teacher Education for Elementary and Secondary Schools
The School of Education and Human Development has suspended admission into the accredited Secondary Education program for the 2019-2020 academic year. Though admission to the major is currently suspended, the school offers a Professional Training Option (PTO) minor that provides eligibility for a temporary teaching certificate in the State of Florida for students who are majoring in English, Mathematics, Biology, Economics, Geography, History, International Studies, Political Science, Art, Drama, or Music.

1 For specific information regarding required coursework, field experiences, and State requirements, please see an academic advisor in the School of Education and Human Development.

Florida State Department of Education
All education programs are approved by the State of Florida Department of Education. For specific information regarding required coursework, please see an advisor in the School of Education and Human Development.
Certificate in Education

- Professional Training Option (p. 338)

TAL 103. Psychological Foundations of Education. 3 Credit Hours.
The first half of this course addresses the following topics related to the psychological foundations of education: the teaching-learning process in the classroom, human development, learning theories, and motivation. The second half of the course will address the following topics related to the social foundations of education: critical perspectives of education and schooling in the USA, issues such as accessibility, language hegemony, and race and racism through the lens of history, philosophy, anthropology, sociology and cultural studies.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 107. American Sign Language I. 3 Credit Hours.
This course is designed to allow participants to learn about Deaf Culture and be able to sign with sufficient fluency to discuss work, social, and family topics using two to four sentence responses.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 191. Developmental Reading for College Students. 3 Credit Hours.
Instruction in college level reading strategies based on individual student needs. Emphasis on vocabulary, comprehension and techniques of test preparation.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 203. Children's Literature. 3 Credit Hours.
History, trends, and genres of children's literature with emphasis on children's literature as a curriculum resource.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 204. Building Positive Relationships in Diverse Inclusive Secondary Schools. 3 Credit Hours.
Course is designed to assist general education teachers in meeting the needs of diverse secondary school students. Emphasis is placed on language and culture in the classroom, as well as students with disabilities.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 205. Contemporary Issues in Disability Studies. 3 Credit Hours.
This course allows students to explore contemporary issues individuals with disabilities face with an emphasis on the more personal aspects of living with a disability and issues that influence their daily lives.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 207. American Sign Language II. 3 Credit Hours.
This course is designed to allow participants to learn about Deaf Culture and be able to sign with sufficient fluency to discuss work, social, and family topics using four to six sentence responses. Students will be able to independently participate in a signed conversation without the use of voicing.
Prerequisite: TAL 107.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 305. Classroom and Behavior Management. 3 Credit Hours.
The principles of behavior analysis and classroom management strategies, both preventative and problem solving. Special emphasis includes effective communication with students, parents and other stakeholders; meeting the needs of all learners based on individual differences, cultural and linguistic diversity; knowledge of research-based strategies that support intellectual, personal and social well-being and development of all students; planning and conducting lessons in a safe, efficient and supportive learning environment. Field experience required.
Corequisite: TAL 306.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 306. Teacher Preparation Seminar I. 0 Credit Hours.
This hybrid zero credit course has been designed to provide additional support for students in our teacher preparation programs. Students will enroll in this course while they participate in a series of field experiences where they gain practical experience integrating theory and practice while working with students in K-12 settings. Major topics include: the Florida Educator Accomplished Practices, Live Text, and guidelines and procedures. Co-requisite TAL 305
Corequisite: TAL 305.
Components: SEM.
Grading: CNC.
Typically Offered: Fall & Spring.

TAL 307. American Sign Language 3. 3 Credit Hours.
This course is designed to allow participants to learn more about Deaf Culture and be able to sign with sufficient fluency to discuss work, social, and family topics at a conversational level.
Pre-requisite: TAL 107 And TAL 207.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 308. Language Development for Linguistically and Culturally Diverse Children. 3 Credit Hours.
Course provides an introduction to theories of linguistics as well as first and second language acquisition. Readings and lectures serve to highlight the development of language and language challenges faced by students for whom Standard English is a second language and/or a second dialect. Theories of linguistics are used to identify, explain and assess literacy challenges. Field experience required. This course counts as one of two required stand-alone ESOL courses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 322. Mathematics Instruction in the Elementary School. 4 Credit Hours.
Principles and practices in the teaching of elementary school mathematics. Attention is paid to infusion of technology, linguistic and cultural diversity, students with exceptionalities, and the origins of gender bias. Field experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 323. Interdisciplinary Methods in the Content Areas. 3 Credit Hours.
This course aims to discuss the goals and objectives for interdisciplinary learning in the content areas, and help practice, design, and enact interdisciplinary learning activities appropriate for elementary school. During the semester, the class will create an engaging environment to help you: Understand what is the nature of interdisciplinary understanding and practices; Examine elementary curricula and state/national standards that speak to interdisciplinary learning; Develop and enact authentic lessons/units for interdisciplinary learning; Create supportive learning environments that engage diverse students; Assess student interdisciplinary learning using multiple methods; and Learn to use a variety of innovative educational technologies that facilitate interdisciplinary learning. Field Experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 324. Education and the Arts. 3 Credit Hours.
Exploration of the fine and performing arts and their relation to Pre-K to 12 education. Emphasis is placed on experiential learning and methods of incorporating the arts in school curricula. The course also includes a focus on the value of the arts to the individual and society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 330. Introduction to the Education of Exceptional Individuals. 3 Credit Hours.
A survey course providing a general orientation to Exceptional Individual Education as an integral part of the general education structure. Includes an introduction to appropriate educational programs for exceptional individuals.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 332. Assessment of Exceptional Students. 3 Credit Hours.
A survey of assessment instruments used to classify, assess and evaluate exceptional students in inclusive and special education settings. Advanced written, digital, and oral communication proficiencies, to include research and report-writing as well as oral presentation skills, are emphasized in this course.
Prerequisite: ENG 105 And ENG 106 prerequisite of enrollment is required for this course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 360. The Teacher in American Society. 3 Credit Hours.
This course focuses on the historical development of teaching in the US, contemporary educational reform and social change, issues involving teacher work, the impact of technology on schooling, ethical and legal issues in teaching, topics involving Race, Gender Social Class and Equity. Popular Culture sources are emphasized in the course's content.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 370. Pop Culture and Education. 3 Credit Hours.
This course examines how popular culture influences and is influenced by the work and culture of schools. In examining artifacts and trends in popular culture today and the past, the forms of popular culture we will analyze will include: motion pictures, television programs, mainstream news, music, books, magazines, zines, fashion, web-based content, graffiti, tattoos, street art, mobile communication, video games, social networking, and more.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 371. Race and Racism in the Making of US Public Education. 3 Credit Hours.
This course will examine the roles of race and racism in the social construction of education and schooling in United States, with an emphasis on how said constructions have impacted the lived experiences of marginalized racial and ethnic minorities, with a particular emphasis on Black Americans. The central themes of the course will be how and why schools in the United States of America were constructed and continue to act as sites of State-sponsored racism, paying attention not only to whom this process marginalizes but also whom it benefits. While the focus of the course will be on race, it is impossible to study race alone, in a vacuum. Therefore, a great deal of attention will be paid to issues of intersectionality, with particular emphases paid to the intersections of race and ethnicity, class, gender, sexual identity, geography, historical specificity, and disability. The semester will begin with a historical overview of the roles education and schooling have played in the lives of African Americans. Our starting point will be roughly 1850. It is important to note that the distinction is made between school and education. The course will examine the roles schools (Saturday Schools, public schools, religious schools, and Historically Black Colleges and Universities to name a few) have played, but it is also crucial to examine the roles of education outside of the context of formalized schooling. The course will examine crucial educational sites such as religious institutions and traditions (outside of religious schools), family life, community education, and oral traditions.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 390. Topics in Education. 3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 404. Content Area Literacy in the Secondary Classroom. 3 Credit Hours.
Essentials of literacy instruction in various subject areas for middle, junior and senior high schools; instructional methods and materials for development of reading, writing and study strategies. Emphasis is also placed on selecting appropriate materials, motivating students, and helping students with exceptional needs and students who are English Language Learners.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 407. American Sign Language 4. 3 Credit Hours.
This course is designed to allow participants to learn more about Deaf Culture and be able to understand signed conversations in a small group and sign with sufficient fluency to discuss work, social, and family topics at a conversational level.
Prerequisite: TAL107, TAL 207, TAL 307.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 420. Introduction to Literacy, Assessment, and Instruction in Elementary School. 3 Credit Hours.
Multidisciplinary survey of reading and writing acquisition in the elementary school. Assessment and instruction in the major components of reading: phonological awareness, word identification and phonics, fluency, vocabulary, and comprehension. Field Experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 421. Language Arts and Social Studies in the Elementary School. 3 Credit Hours.
Addresses Language Arts competencies in reading, writing, listening, speaking, viewing and visual literacy, following state/national standards. Research based strategies and approaches for teaching content areas, with a focus on Social Studies competencies, are modeled and integrated through Social Studies content and literature. Field experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 422. Mathematics Instruction in the Elementary School. 3 Credit Hours.
Principles and practices in the teaching of elementary-school mathematics. Attention is paid to infusion of technology, linguistic and cultural diversity, students with exceptionalities, and the origins of gender bias. Field experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 425. Inclusive Classrooms in the Elementary School. 3 Credit Hours.
The course prepares elementary school teachers to meet the individual needs of students with exceptionalities who have been integrated into the general education classroom. Field experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 426. Practicum in Reading. 3 Credit Hours.
Supervised practicum in reading and writing. Emphasis is on assessment and interventions for elementary students with a range of academic, linguistic and cultural challenges in becoming proficient readers. This course is a designated Upper Level Communications Requirement; advanced written digital and/or oral communication proficiencies will be emphasized in this course.
Prerequisite: ENG 105 And ENG 106 prerequisite of enrollment is required for this course.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 428. ESOL Curriculum and Methods and Assessments. 3 Credit Hours.
The course addresses the application of TESOL theories, principles, and current research to the use of curriculum, methods, and assessment. In doing so, the course focuses on an understanding of the differences between curriculum, methods, and assessment designed for children who are native speakers of Standard English and those designed for ESOL. Specific TESOL modifications appropriate for content areas are also addressed. Field experience required. This course counts as the second of two required ESOL specific courses. Advanced written, digital, and oral communication proficiencies, to include research and report-writing as well as oral presentation skills, are emphasized in this course.
Prerequisite: TAL 308 and Co-requisite: TAL 429.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 429. Teacher Preparation Seminar II. 0 Credit Hours.
This hybrid zero credit course has been designed to provide additional support for students in our teacher preparation programs. Students will enroll in this course while they participate in a series of field experiences where they gain practical experience integrating theory and practice while working with students in K-12 settings. Major topics include: the Florida Educator Accomplished Practices, Live Text, and guidelines and procedures. Co-requisite: TAL 428 for students in programs that lead to the ESOL Endorsement; TAL 506 for students in MED and SEC except Secondary English majors.
Corequisite: TAL 428 or TAL 506.
Components: SEM.
Grading: CNC.
Typically Offered: Fall & Spring.
TAL 432. Inclusive Models of Teaching. 3 Credit Hours.
This course focuses on models of inclusion and the educational roles to support student success in inclusive settings. Topics addressed include: differentiated staffing patterns; working as a member of a team; successful collaborative practices; effective communication; understanding of varied cultural backgrounds; strategies for facilitating successful inclusion including differentiation of instruction and application of principles of Universal Design for Learning (UDL); co-teaching; strategies for working effectively with students, families, parents, guardians, administrators, general education teachers, paraprofessionals and other professionals, including students, families, and team members; and creating school partnerships. Field Experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 434. Specialized Instructional Strategies/Transition. 3 Credit Hours.
This course focuses on evidence-based interventions and models of support for students with disabilities in K – 12 settings and strategies for preparing students for transition from school. Topics addressed include: strategies for using Assistive Technology effectively; strategies for enhancing self-advocacy and self-determination for students with disabilities; strategies for enhancing family involvement in career development and post school employment; transition services and models; preparing students with disabilities for employment and post-secondary education; residential alternatives; recreation and leisure for students with disabilities. Field Experience required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 444. Instruction in Secondary Science. 2-3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching science in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 461. Pidgins, Creoles and African-American English in Education. 3 Credit Hours.
The course examines some of the most commonly spoken languages in the African diaspora in North and South America as well as in the Caribbean, namely, pigrins, creoles and African-American English. The course also explores the linguistic contributions that West African and European languages have made to the development of Atlantic Pidgins, Creoles and African-American English. Analyses of their lexicons, morphological and grammatical features are addressed along with the ways in which these linguistic structures are used to index different identities in the African-American and Creole cultures. Additionally, the course renews the call for a responsive agenda that recognizes the obstacles faced in formal education by child speakers of Creoles and African-American English and the need for public awareness of the extensively researched merits of accommodating these vernaculars in the classroom.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

TAL 470. Student Teaching in the Elementary School. 9 Credit Hours.
A comprehensive semester-long program in observation and supervised teaching in the elementary school. The student spends full time in an elementary school participating in all activities of the teacher under the guidance of school and university personnel.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 471. Student Teaching in the Elementary Schools for K-12 Areas. 3-6 Credit Hours.
A comprehensive program in observation and supervised teaching in the elementary school. The student spends full-time for one half a semester in an elementary school, participating in all activities of the teacher under the guidance of school and university personnel.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 473. Associate Teaching in the Secondary School for K-12 Areas. 3-6 Credit Hours.
A comprehensive program in observation and supervised teaching in the secondary school. The student spends full time for one half a semester in a secondary school, participating in all activities of the teacher under the guidance of school and university personnel.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 480. Seminar On Teaching. 3 Credit Hours.
The seminar is designed to support teacher candidates during the associate teaching experience. Students receive support and assistance in completing Florida Educator Accomplished Practices (FEAP) electronic portfolios. Students share, reflect, and discuss their daily experiences in class during culminating experience in the field.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 491. Applied Research in Education. 3 Credit Hours.
Introduction to basic research methods, ethics in education research, and the implications of research on the practice of teaching. Assist a TAL faculty member with a research project.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 493. Online Teaching and Leadership. 3 Credit Hours.
Introduction to teaching-learning process in online learning environments, including asynchronous modalities, assessment and evaluation, technology and digital copyright usage.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 495. Individual Study. 1-3 Credit Hours.
Individual work on a special project under faculty guidance. Application for Admission to Advanced Individual Study will be required.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 496. Undergraduate Research Honors. 1-3 Credit Hours.
Individual work on a special project under faculty guidance. Application for Admission to Advanced Individual Study will be required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 501. Classroom Based Assessment. 1-3 Credit Hours.
Principles and classroom applications of educational measurement and assessment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 502. Classroom Based Research. 3 Credit Hours.
Application of research principles to evaluation and improvement of teacher effectiveness. Use of scientific methods in problem solving and decision making in the classroom. Student experiences in the planning, conduct, analysis and reporting of classroom research are included.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 503. Technology Applications in Education. 3 Credit Hours.
This course is designed to help you better understand why and how to use modern technologies in educational settings. Throughout the course, you will identify and share accessible technological resources, participate in hands-on activities, conduct mini-teaching, and create technology-enhanced instructional materials. You will examine the affordances and constraints of a variety of technologies including mobile learning, computer-based visualizations, web-based curriculum platforms, augmented and mixed reality, and online collaboration tools. You will discuss with the instructor and peers critical issues and policy relevant to the effective use of technologies in K-12 classrooms or informal learning environments.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 504. Building Positive Relationships in Inclusive Secondary Schools. 3 Credit Hours.
Designed to assist general education teachers in meeting the needs of diverse secondary school students. Focus on students with disabilities, language and culture in the classroom, and developing culturally competent classroom management methods.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 506. Issues and Strategies for ESOL. 3 Credit Hours.
This course provides a comprehensive foundation in ESOL (English for Speakers of Other Languages) competencies based on Florida’s mandates and TESOL standards. Theory and practice will be emphasized in the areas of applied linguistics, cross cultural communication and understanding, methods of teaching, assessment, and curriculum and material development.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 508. Language Development for Linguistically and Culturally Diverse Students. 3 Credit Hours.
Course will provide an introduction to theories of linguistics, first and second language acquisition, as well as foundations of English learner education. Readings and lectures will serve to highlight the development of language and literacy, including challenges faced by students for whom Standard English is a second language and/or a second dialect. This course will be the first in a two-course ESOL sequence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 517. Curriculum, Assessment, Teaching and Learning for Physical Science. 3 Credit Hours.
Analysis of content knowledge, pedagogy, and materials appropriate for teaching physical science in the elementary school. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in physical science, pedagogy, and student literacy in physical science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 518. Curriculum, Assessment, Teaching and Learning for Number, Operations, and Algebra. 3 Credit Hours.
This course examines topics that address the mathematical ideas underlying number, operations and algebra. Related curriculum, instructional and assessment issues will be also discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 522. Curriculum, Assessment, Teaching and Learning in the Earth Sciences. 3 Credit Hours.
Analysis of content knowledge, pedagogy, and materials appropriate for teaching Earth science in the elementary school. The course content focuses on instructional practice with an emphasis on developing teacher content knowledge in Earth science, pedagogy, and student literacy in life science.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 523. Curriculum, Assessment, Teaching and Learning for Data Analysis and Probability. 3 Credit Hours.
Data in the elementary school: how to gather (biased and unbiased samples), store, manage, represent, analyze. Probabilistic inferences in elementary school: chance, odds, counting, related topics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 524. Education and the Arts. 3 Credit Hours.
Exploration of the fine and performing arts and their relation to PreK-12 education. Emphasis is placed on experiential learning and methods of incorporating the arts in school curricula. The course also includes a focus on the value of the arts to the individual and society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 526. Practicum in Reading. 3 Credit Hours.
Supervised practicum in reading and writing. Emphasis is on assessment and interventions for elementary students with a range of academic, linguistic and cultural challenges in becoming proficient readers.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 527. Language and Assessment in ESOL. 3 Credit Hours.
Study of language systems with a focus on understanding and applying linguistic terms. Course prepares teachers to conduct informal and formal assessment procedures with English language learners. Field experience with English language learners is required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
TAL 528. ESOL Curriculum, Methods, and Assessment. 3 Credit Hours.
This course focuses on applying TESOL theories, principles, and current research to the development and use of instructional materials, curriculum, and methods. The course will enhance participant's knowledge of the regular English language arts curriculum in comparison with the ESOL curriculum.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 531. Educating Exceptional Students. 3 Credit Hours.
A survey course in special education emphasizing characteristics and problems associated with various categories of exceptional learners. Policy, issues, and trends in special education will be discussed.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 540. Instruction and Assessment in the Secondary School. 3 Credit Hours.
Research-based instructional processes in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 541. Instruction and Assessment in Secondary English Language Arts. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching language arts in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 542. Instruction and Assessment in Secondary Mathematics. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching mathematics in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 543. Instruction and Assessment in Secondary Science. 3 Credit Hours.
Analysis of methods, content and assessments appropriate for teaching science in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 544. Instruction and Assessment in Secondary Social Studies. 3 Credit Hours.
Analysis of methods, materials, and content appropriate for teaching the social sciences in the secondary school.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 545. Methods of Teaching in the Elementary School. 3 Credit Hours.
Theories and research-based practices for reading/language arts, science, social studies, and math instruction for all learners, including diverse populations in elementary classrooms.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 550. Language and Early Reading Instruction. 3 Credit Hours.
Factors related to emergent literacy with an emphasis on diverse aspects of language that influence literacy and learning; development of emergent literacy and word perception; emergent literacy curriculum development; appropriate assessment and instructional techniques. Understanding of reading as a process of student engagement in fluent decoding and construction of meaning. Writing intensive.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

TAL 552. Reading Comprehension. 3 Credit Hours.
Development of comprehension, rate, and study skills; reading in the content areas; evaluation of materials, organization of programs; issues, problems, and exceptional readers. Emphasis is placed on understanding reading as a process of student engagement in fluent decoding of words and construction of meaning.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
TAL 553. Mentoring and Internship in Classroom Teaching. 3-6 Credit Hours.
A comprehensive program of supervised teaching in elementary or secondary class rooms.
Components: LEC.
Grading: SUS.
Typically Offered: Fall & Spring.

TAL 554. Literacy and Learning Strategies in the Content Area. 3 Credit Hours.
Literacy instruction in content areas for grades 6 through 12; instructional methods and materials for development of language arts, reading, and study skills. Emphasis on appropriate materials, motivation, and support for students with exceptional needs and English language learners.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 557. Exceptional Student Education and Classroom Management. 1-5 Credit Hours.
Introduction to theories and methods of effective classroom management and learning environments, perceptions of disabilities, addressing disruptive behaviors in classrooms and behavioral assessment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 558. ESOL Strategies and Classroom Management. 1-5 Credit Hours.
This course provides a general overview of foundation in ESOL (English for Speakers of Other Languages) competencies based on Florida’s mandates and ESOL Standards. Theory and practice will be emphasized in the areas of applied linguistics, cross cultural communication and understanding, methods of teaching, assessment, and curriculum and material development. A Classroom Management Plan will be developed based on current issues and effective classroom strategies for diverse populations.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 568. Education Reform, Policy, and the Social Organization of Schooling. 3 Credit Hours.
This course is designed to introduce students to the politics and policy debates in American education, including how the U.S. K-12 public education is organized as a socially-constructed system. We will examine the politics of a variety of recent reforms at the local, federal and state levels and their impact on institutions, students and the public.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 569. Teaching and Management for Diverse Classrooms. 3 Credit Hours.
This course will emphasize building a classroom culture and community that meets the needs of all students, including learners with disabilities and learners with culturally and linguistically diverse backgrounds. A history of major legal requirements for diverse populations is examined, including the meaning of learning differences, definitions and causes of disabilities, language acquisition processes, and methods for teaching diverse populations. An introduction to theories and methods of effective classroom management for building learning communities is integrated throughout the course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 570. Student Teaching in the Elementary School. 9 Credit Hours.
A comprehensive semester-long program in observation and supervised teaching in the elementary school. The student spends full-time in an elementary school participating in all activities of the teacher under the guidance of school and university personnel.
Corequisite: TAL 580.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 572. Student Teaching in the Secondary School. 6-9 Credit Hours.
A comprehensive program in observation and supervised teaching in the secondary school. The student spends full-time in a secondary school participating in all activities of the teacher under the guidance of school and university personnel.
Corequisite: TAL 580.
Components: PRA.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
TAL 577. Human Development, Learning and Schooling. 3 Credit Hours.
Major theories of child development and learning will be discussed with a focus on how they apply to teaching and learning in K-12 schools.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 580. Seminar on Teaching. 1-3 Credit Hours.
Topical seminar to accompany associate teaching
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 584. Topics in the Professional Development and Supervision of Teachers. 3 Credit Hours.
Topics include the preparation of clinical teachers to induct, guide, and supervise the field experiences of students and associate teachers; techniques in the observation and supervision of in-service teachers; creation and implementation of professional development plans; reading in the research on teacher development across the career.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 590. Topics in Education. 3 Credit Hours.
Review of emerging policy, practice, empirical research and scholarly writing on important educational issues for which formal course title and syllabus have not been developed and formalized in the UM Bulletin. Allows for experimental instructional formats. Course number indicates appropriate student audience. See Course Notes for specific topic.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

TAL 591. Workshop in Education. 1-6 Credit Hours.
A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

TAL 593. Online Teaching and Leadership. 3 Credit Hours.
Introduction to teaching-learning process in online learning environments, including asynchronous modalities, assessment and evaluation, technology and digital copyright usage.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 595. Research Honors Project. 2 Credit Hours.
Faculty mentored research project. This course is restricted to students in the SEHD who have been accepted into the Research Honors Program and are working with a Faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 596. Research Honors Project. 2 Credit Hours.
Faculty mentored research project. This course is restricted to students in the SEHD who have been accepted into the Research Honors Program and are working with a Faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 597. Research Honors Project - Thesis Writing. 2 Credit Hours.
Faculty mentored research project. This course is restricted to students in the SEHD who have been accepted into the Research Honors Program and are working with a Faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
TAL 598. Research Honors Project - Seminar. 1 Credit Hour.
Faculty mentored research project. This course is restricted to students in the SEHD who have been accepted into the Research Honors Program and are working with a Faculty mentor.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

TAL 599. Workshop in Education. 1-6 Credit Hours.
A critical study of practical problems of teachers. Significant problems are defined, literature and research are reviewed, and individual or small group projects are required.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

* The requirements for a minor in education consist of 12 credit hours passed with a C or higher, with an overall GPA of 2.5 in courses selected from the list of acceptable TAL departmental courses.

** A minimum of six credit hours must be numbered 300 or higher. This minor does not lead to teaching credentials.

*** American Sign Language courses do not count toward the Education minor (TAL 107, 207, 307, and 407). TAL 191 does not count toward the Education minor.

Professional Training Option Minor

The Professional Training Option (PTO) is a Florida Department of Education approved pathway for non-education majors to complete the professional component, one of the requirements to become a certified teacher in the State of Florida.

The PTO minor is 18 credit hours. Students must successfully pass the required portions of the Florida Teacher Certification Exam (FTCE) prior to degree conferral. UM transcripts will indicate that the student has completed a Florida State approved PTO program. Program completers will be eligible to apply for a Temporary Teaching Certificate in the State of Florida. Please see an academic advisor in the School of Education and Human Development for exam requirements and course advising.

Engineering
coe.miami.edu

Minor in Engineering
The College of Engineering offers the student in the College of Arts and Sciences a variety of 15/18 credit hour minors designed to give the student a basic understanding of the technologies that support and shape our civilization. Minors may be elected in Architectural, Civil, Computer, Electrical, Environmental, Industrial, or Mechanical Engineering. The student is given considerable freedom in choosing courses in accordance with the student’s interests.

Faculty in the College is prepared to assist students seeking Engineering minors in the preparation of programs of study.

More detailed descriptions of these minors will be found in the College of Engineering (p. 1044) section of this Bulletin.

Dept. Code: ENG

Introduction
The English Department offers programs for students interested in a liberal arts education. While many English majors direct their studies toward careers in law, creative writing, secondary education, or university teaching and scholarship, a major in English is just as valuable to students considering careers in business, journalism, or any of the health professions. Students who would like to learn more about any of these programs are encouraged to consult the Director of Undergraduate Studies in the Department of English, Ashe Bldg. 321.

Educational Objectives
English as a discipline offers an opportunity for a general humanistic education, and it develops skills in communication and analysis essential in most careers. An education in English teaches students to write, to think critically, to weigh values, and to communicate ideas. At the same time, it develops their creativity and aesthetic understanding, and affords them a knowledge of our literary heritage in all of its historical and cultural dimensions.

Degree Programs
The major in English leads to the degree of Bachelor of Arts.

Advanced Writing and Communication Proficiency
All English courses (other than ENG 103, ENG 105, ENG 106, and ENG 107) are designated writing courses (WRIT credit). A student majoring in English will complete the advanced writing and communication requirement of the College of Arts and Sciences (which requires four writing classes, including at least one in one of the student’s major disciplines).

Major in English
Students majoring in English must earn 30 credit hours in English courses (36 credit hours for Departmental Honors) and fulfill the requirements of the track of their choice.

Credit hours earned for courses in freshman composition (ENG 105, ENG 106, ENG 107, and ENG 208) may not be applied toward the total number of credit hours required for the major. In each English course, the English major must earn a grade of C- or better, with an overall GPA in the major of 2.0 or better.

Students pursuing both a major and a minor (or two majors) offered by the Department of English may double-count a maximum of two English courses toward the fulfillment of their degree requirements. They must also have an additional major or minor in a department other than English.

Since all ENG courses, other than freshman composition, are designated as writing (WRIT) courses, all English majors satisfy the College of Arts & Sciences Advanced Writing and Communication requirement by completing their major.

Minor
The Department of English offers two minors:

• The Minor in English (p. 367) and
• The English Minor in Creative Writing (p. 367).
Students pursuing both a major and a minor (or two majors) offered by the Department of English may double-count a maximum of two English courses toward the fulfillment of their degree requirements. They must also have an additional major or minor in a department other than English.

**Departmental Honors in English**

Students interested in seeking Departmental Honors in English should consult the Director of Undergraduate Studies in English, normally before the end of the junior year.

To enter the program a student must have achieved by the end of the junior year at least a 3.5 average in English courses and a 3.3 average overall. In addition to fulfilling the requirements for the Major in English (with a concentration in Literature), the candidate for Departmental Honors must:

1. Take at least three literature courses numbered 400 or above in fulfilling requirement #2 of the English Literature Major.
2. Complete a six-credit-hour Senior Thesis. This thesis is a documented essay of about 10,000 words on a literary subject. The student undertaking a Senior Thesis normally registers in ENG 497 for the first semester of the project, and in ENG 498 for the second semester. The student must receive a grade of B or higher in both courses in order to qualify for honors. (6 credit hours)
3. While taking ENG 497 and ENG 498, participate in any workshops offered by the English Department for students engaged in independent research projects.
4. Receive for the thesis a recommendation for honors by the director of the Senior Thesis and by one other faculty reader from the Department of English.
5. Achieve an average in the major of at least 3.5, and an overall average of at least 3.3.

Total: 36 credit hours

**Departmental Honors in Creative Writing**

Students interested in seeking Departmental Honors in Creative Writing should consult the Director of Creative Writing, normally before the end of the junior year.

To enter the program a student must have achieved by the end of the junior year at least a 3.5 average in English courses (including courses in creative writing) and a 3.3 average overall. In addition to meeting the requirements for the Creative Writing Concentration, the candidate for Departmental Honors must:

1. Take at least three literature courses numbered 400 or above in fulfilling requirement #3 of the Creative Writing Concentration.
2. Complete a six-credit-hour Senior Creative Writing Project. The student undertaking this project normally registers in ENG 497 for the first semester of the project, and in ENG 498 for the second semester. The student must receive a grade of B or higher in both courses in order to qualify for honors. (6 credit hours)
3. Receive for the project a recommendation for honors by the director of the Senior Creative Writing Project and by one other faculty reader designated by the Director of Creative Writing.
4. Achieve an average in the major of at least 3.5, and an overall average of at least 3.3.

Total: 36 credit hours

**Departmental Honors in Women's Literature**

Students interested in seeking Departmental Honors in Women's Literature should consult the Director of Undergraduate Studies in English, normally before the end of the junior year.

To enter the program a student must have achieved by the end of the junior year at least a 3.5 average in English courses and a 3.3 average overall. In addition to fulfilling the requirements for the Women's Literature Concentration, the candidate for Departmental Honors must:

1. Take at least three literature courses numbered 400 or above in fulfilling requirements #2 and #3 of the Women's Literature Concentration.
2. Complete a six-credit-hour Senior Thesis. This thesis is a documented essay of about 10,000 words on a literary subject. The student undertaking a Senior Thesis normally registers in ENG 497 for the first semester of the project, and in ENG 498 for the second semester. The student must receive a grade of B or higher in both courses in order to qualify for honors. (6 credit hours)
3. While taking ENG 497 and ENG 498, participate in any workshops offered by the English Department for students engaged in independent research projects.
4. Receive for the thesis a recommendation for honors by the director of the Senior Thesis and by one other faculty reader from the Department of English.
5. Achieve an average in the major of at least 3.5, and an overall average of at least 3.3.

Total: 36 credit hours
ENG 101. Writing Lab. 1 Credit Hour.
ENG 101 will provide students with consistent and sustained support for their reading and writing needs in ENG 105. Students will schedule one-hour per week standing appointments with Writing Center tutors. These standing appointments will be used exclusively to support the work of the ENG 105 course and must be kept throughout the entire semester.
Corequisite: ENG 105. and Requisite: (ACT English >=18 and <=31) or (SAT Evidence-Based Reading and Writing >=430 and <=690) or (SAT Critical Reading >=430 and <=690) or (TOEFL iBT Writing >=18).
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 103. Basic Academic Writing. 3 Credit Hours.
Intensive approach to the basics of academic writing with emphasis on building written fluency, using conventions of standard written English, and editing for precision and correctness. Intended for students who need extra preparation before entering ENG 105. Not for credit toward graduation. Requisite: ACT English score below 18; or SAT Evidence-Based Reading and Writing or Critical Reading score below 430; or TOEFL iBT Writing score below 18.
Components: LEC.
Grading: CNC.
Typically Offered: Fall & Spring.

ENG 105. English Composition I. 3 Credit Hours.
Introduction to written academic argument and inquiry. Not for major or minor. Cannot be taken on credit-only option. Requisite: ACT English score 18-31; or SAT Evidence-Based Reading and Writing or Critical Reading score 430-690; or TOEFL iBT Writing score 18 or above.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 106. English Composition II. 3 Credit Hours.
Advanced approaches to written academic argument, with emphasis on textual analysis and incorporation of secondary sources. Not for major or minor. Cannot be taken on credit-only option. Requisite: ENG 105 OR ACT English score 32 or above; or SAT Evidence-Based Reading and Writing or Critical Reading score 700 or above or Foote Fellow designation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 107. English Composition II: Science and Technology. 3 Credit Hours.
Advanced approaches to written academic argument, with emphasis on textual analysis and incorporating source material using readings and approaches connected to science and technology. Alternative to ENG 106. Not for major or minor. Cannot be taken on credit-only option. Prerequisite: ENG 105 or Requisite: ACT English score 32 or above; or SAT Evidence-Based Reading and Writing or Critical Reading score 700 or above.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 201. World Literary Masterpieces I. 3 Credit Hours.
Comparative study of literary masterpieces from ancient times through the Renaissance. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 202. World Literary Masterpieces II. 3 Credit Hours.
Comparative study of literary masterpieces from the Renaissance to the present. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 205. Jewish Literature. 3 Credit Hours.
Selections from the Bible, the Talmud, the Kabbalah, medieval poetry and prose, Yiddish and Sephardic literature, and contemporary American and Israeli writers.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 208. Advanced Academic Writing for Transfer Students. 3 Credit Hours.
Review of research techniques and revision strategies. Completes the university composition requirement for those students who transfer into UM with credit for one composition course from another institution. Open only to transfer students who have received transfer credit for either English 105 or English 106. Not open to students who have taken either English 105 and/or 106 at UM.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 209. Creative Writing. 3 Credit Hours.
Analysis and writing of Short stories and poems. Cannot be taken for credit only.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 210. Literary Themes and Topics. 3 Credit Hours.
Literary analysis and practice in critical writing through the study of selected works; themes and topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 211. English Literature I. 3 Credit Hours.
Selected readings from the middle ages to the late 18th century. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 212. English Literature II. 3 Credit Hours.
Selected readings from the late 18th century to the present. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 213. American Literature I. 3 Credit Hours.
Selected American authors prior to the Civil War. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 214. American Literature II. 3 Credit Hours.
Selected American authors from the Civil War to the present. Satisfies writing requirement.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 215. English and American Literature by Women. 3 Credit Hours.
A survey of women writers from the Middle Ages to the present; explores the female literary tradition and women's relationship to culture and society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 219. CW Beginning Mixed Genre Workshop. 3 Credit Hours.
A multi-genre workshop that will focus on developing practical issues of craft and technique presented in ENG 209 with an emphasis on form and narrative. Classes feature writing exercises and discussions of both student work and readings from contemporary fiction, poetry and a third genre (e.g., playwriting, nonfiction or screenplay).
ENG 209 may not be taken in the same term with another creative writing course (i.e., ENG 209, ENG 290, ENG 292, ENG 390, ENG 391, ENG 392, ENG 404, ENG 406 Or ENG 408.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 220. Introduction to Poetry. 3 Credit Hours.
Introduction to the forms of poetry through the analysis of representative poems.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 221. Introduction to Fiction. 3 Credit Hours.
Forms of prose fiction and the analysis of representative short stories and novels.
Pre/Corequisite: ENG 106.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 230. Advanced Professional Communication. 3 Credit Hours.
Professional writing with critical attention to complex rhetorical situations. Practice in formal and informal written communication styles.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 231. Advanced Writing for Arts and Humanities. 3 Credit Hours.
Advanced instruction in writing for specialist and non-specialist audiences on topics in the Arts and Humanities disciplines, with an emphasis on essay and multimodal forms of communication.
Prerequisite: ENG 106 or ENG 107 or ENG 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 232. Advanced Writing for People and Society. 3 Credit Hours.
Advanced instruction in writing for specialist and non-specialist audiences on topics in the People and Society disciplines, with an emphasis on essay and multimodal forms of communication.
Prerequisite: ENG 106 or ENG 107 or ENG 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 233. Advanced Writing for STEM. 3 Credit Hours.
Advanced instruction in writing for specialist and non-specialist audiences on topics in the STEM disciplines, with an emphasis on essay and multimodal forms of communication.
Prerequisite: ENG 106 or ENG 107 or ENG 208.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 240. Literature and Medicine. 3 Credit Hours.
Patients, doctors, and disease itself offer writers avenues to explore ultimate questions. In this course we will examine medicine—and these ultimate questions—as represented in fiction, drama, poetry, and non-fiction. We will consider the works in terms of both the implications for medicine and the literary uses to which medicine can be put.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 241. Art of the Con: Con Artists, Tricksters, and Card Sharks in U.S. Literature and Culture. 3 Credit Hours.
Students will read novels, examine archival materials, review graphic novels, and watch films and TV shows about con artists and tricksters in American culture. In addition to writing essays, this course will provide students with the opportunity to learn how to annotate films in multimedia formats. Students will also learn about actual confidence games and frauds that rely upon narrative structures.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 242. Literature and Law. 3 Credit Hours.
In this course we will study literary works, from a number of different historical periods, that focus on law and legal systems as a major theme. We will examine the ways in which authors represent the nature of law, the actual workings of law, and the relationship between law and ideals of justice. We will also consider other intersections between literature and law, such as legal efforts to censor literary works on political or moral grounds, and the connection between legal and literary interpretation. Authors to be studied will include writers such as Sophocles, Plato, Shakespeare, Balzac, Melville, Kafka, and Ginsberg.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 243. Contemporary American Migrations. 3 Credit Hours.
What does it mean to say “America is a nation of immigrants?” As a literary form, the American immigrant narrative describes the process of migration, Americanization and (un)settlement. How do authors portray immigrant experiences? Which stories are privileged and which silenced? Centering Miami and the state of Florida, we will read and watch narratives of American immigration, attending to how race, gender, class and sexuality as well as the changing character and policies of place have shaped immigrant experiences. In addition, we will explore the following questions: Is ethnicity in opposition to Americanness? How is identity transformed by migration? How and why is home remembered? Finally, what are the constitutive tropes of American immigrant fiction, and what narrative strategies are deployed to tell these stories?
Components: LEC.
Grading: GRD.

ENG 244. Contemporary Disaster Fiction. 3 Credit Hours.
It seems we are confronted almost daily with some new disaster. From natural disasters spurred on by climate change to global pandemics, from war and genocide to never-ending recessions, poverty, and racism – living in the twenty-first century means living with the effects of daily catastrophe. While the outlines of these disasters as they are reported in the media and represented by Hollywood are predictable, the explorations of disaster in literature are less familiar. This course will explore how contemporary literature imagines catastrophe, focusing on the social, political, and historical contexts of disaster fiction. How does contemporary literature question, rewrite, or challenge what a disaster means? How does it encourage us to think about disaster differently, and, most importantly, to change our responses to it?
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ENG 245. The Circle of Knowledge: Science and the Humanities. 3 Credit Hours.
Major works in the debate over the arts and sciences from the classical Greeks and the humanistic Renaissance to the Scientific Revolution, the impact of Darwin, the cognitive revolution in science, and postmodern interdisciplinarity.
Components: LEC.
Grading: CNC.
Typically Offered: Fall.

ENG 246. The Harlem Renaissance and Its Afterparties. 3 Credit Hours.
In order to fully appreciate the interdisciplinary nature of the Harlem Renaissance, we will grapple with music and visual culture as well as literary texts. In other words, this is a multimedia course! Students will be asked to consider the ways in which film, music, dance, and literature conceptualize race in America. Together, we will use these various modes of artistic production to question the distinctions between spontaneity and performance, between music and literature, and between the Black arts of the present and the Black arts of the past. Students will be responsible for two 4-6 page close readings, reading quizzes, and a final project entitled Afterparties of the Harlem Renaissance in which they will connect the work of a Harlem Renaissance artist with the work of a contemporary artist.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ENG 247. Afrofuturism. 3 Credit Hours.
The massive success of the film Black Panther and Janelle Monae's album Dirty Computer suggests that African American artists are providing broadly resonant solutions to our most urgent political concerns, constructing alternative models of liberation and self-governance through art. These works are often described as Afrofuturist, an outlook that blends science fiction tropes like space exploration, post-apocalyptic landscapes, and technological advancement with Afrocentric themes and aesthetics. In this course, we will turn a critical eye on contemporary works by Afrofuturist thinkers like Sun Ra, Nnedi Okorafor, and Octavia Butler. Through a variety of different mediums (political theory, literature, film, music, and visual culture), we will seek to answer why so many Black thinkers have turned to speculative and science fiction to imagine social and political change. This is a reading and writing intensive class. In some weeks, students are expected to read entire novels, so make sure to get a head start on reading-heavy weeks. By studying films and music released within the past several years alongside works of literature, it is my hope that students will turn the same critical lens that they use on literature to the media they consume every day.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ENG 248. Curiosity: Vice and Virtue in Science and Literature. 3 Credit Hours.
 Though we now recognize curiosity as a mostly positive character trait, most western Europeans from antiquity through the middle ages considered curiosity a dangerous vice. This perspective has lived on in sayings like curiosity killed the cat, in stories about both mad scientists and nosy children, and in our society's frequent anxieties about the unknown effects of new technologies, like cloning. What happened to bring about such a dramatic change in how curiosity was valued? What might make this desire to know either good or evil, hopeful or dangerous? To explore this question, this seminar will direct our own curiosity to a range of examples from both science and literature about characters who display exceptional curiosity, along with the consequences brought about by their desire to know. We will explore the lives of historical scientists alongside literature's myriad stories of men and women who knew too much, from Adam and Eve to Alice in Wonderland, from Doctor Faustus to Doctor Frankenstein and Sherlock Holmes. We will examine theological arguments that depicted curiosity as a vice; the biblical account of the Fall; stories of mad scientists; fairy tales; and depictions of detectives and spies on television and film. Together, we will think carefully about what might have seemed dangerous about knowledge in the past, and what might remain dangerous about it (and our own pursuits in the classroom) today.
 Components: LEC.
 Grading: GRD.
 Typically Offered: Fall.

ENG 250. Studies in English. 1-5 Credit Hours.
 Courses taken at other institutions with no direct equivalents.
 Components: LEC.
 Grading: GRD.

ENG 251. Studies in English. 1-5 Credit Hours.
 Courses taken at other institutions with no direct equivalents.
 Components: LEC.
 Grading: GRD.

ENG 253. Studies in English. 1-5 Credit Hours.
 Courses taken at other institutions with no direct equivalents.
 Components: LEC.
 Grading: GRD.

ENG 254. Studies in English. 1-5 Credit Hours.
 Courses taken at other institutions with no direct equivalents.
 Components: LEC.
 Grading: GRD.

ENG 255. Studies in English. 1-5 Credit Hours.
 Courses taken at other institutions with no direct equivalents.
 Components: LEC.
 Grading: GRD.

ENG 257. Studies in English. 1-5 Credit Hours.
 Courses taken at other institutions with no direct equivalents.
 Components: LEC.
 Grading: GRD.

ENG 258. Studies in English. 1-5 Credit Hours.
 Courses taken at other institutions with no direct equivalents.
 Components: LEC.
 Grading: GRD.

ENG 259. Studies in English. 1-5 Credit Hours.
 Courses taken at other institutions with no direct equivalents.
 Components: LEC.
 Grading: GRD.

ENG 260. African-American Literature. 3 Credit Hours.
 Selected readings of the eighteenth century to the present.
 Components: LEC.
 Grading: GRD.
 Typically Offered: Offered by Announcement Only.

ENG 261. Literature of the Americas. 3 Credit Hours.
 Selected readings from North, Central, and South American, and Caribbean literature from their origins to the present.
 Components: LEC.
 Grading: GRD.
 Typically Offered: Offered by Announcement Only.
ENG 290. Beginning Fiction Workshop. 3 Credit Hours.
Frequent exercises in workshop environment, with readings in contemporary fiction. Attention to tense and points of view; reviews of grammar and punctuation. 30-40 pages of creative writing, including development and revision of one full-length short story (12-20 pages).
Prerequisite: ENG 209 or Requisite: Creative Writing Majors.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 292. Beginning Poetry Workshop. 3 Credit Hours.
Emphasis of creation and critique of new student poetry in workshop setting; continued reading in genre. Variety of styles and techniques presented, including line, image and metaphor. 12-15 new poems, plus revisions, required.
Prerequisite: ENG 209. or Requisite: Creative Writing Majors.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 301. The Study of Language. 3 Credit Hours.
Language itself as an object of study; broad linguistic issues of language types, processes of language change, and language variation. Emphasis on language in "real world" applications such as law, folk culture, poetry, education, and computers.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 306. Advanced Composition. 3 Credit Hours.
Composition and analysis of English prose. Topics vary. May be repeated if topics are different.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 310. Literature and Culture in Classical Greece and Rome, I. 3 Credit Hours.
Major pre-classical and classical Greek writers, including Homer, Sappho, Pindar, Aeschylus, Herodotus, and Sophocles, treated by close analysis, and attention to connecting themes; Greek art and archeology in reference to specific texts.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 311. Literature and Culture in Classical Greece and Rome, II. 3 Credit Hours.
Thucydides on the Peloponnesian War; the drama of Euripides and Aristophanes; the dialogues of Plato on Socrates' trial and death; Aristotle's Poetics. Early Roman tradition; Rome and its relation to Greek culture; Livy on Roman history; Cicero, Virgil's Aeneid, Marcus Aurelius.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 312. The European Middle Ages. 3 Credit Hours.
British and continental literature and thought from the 5th through the 15th centuries.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 313. The European Renaissance. 3 Credit Hours.
Major writers of the European Renaissance, such as Petrarch, Machiavelli, Castiglione, Erasmus, More, Rabelais, Montaigne, Marguerite de Navarre.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 314. The European Enlightenment. 3 Credit Hours.
Major writers of the European Enlightenment, such as Locke, Montesquieu, Vico, Hume, Voltaire, Rousseau, Diderot, Lessing, Smith, and Kant.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 315. The Classical Epic Tradition. 3 Credit Hours.
The rise and development of the Western epic tradition from Homer, Lucretius, and Virgil in the classical world, through Dante in the Middle Ages, Milton in the Renaissance, and Wordsworth and Eliot in modernity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 316. Early Celtic Literature. 3 Credit Hours.
Study in translation of literary, hagiographic, and historiographic sources, principally from Irish, Welsh, and Latin, dating from 800 to 1800, with an introduction to source languages and to Celtic cultures beginning in the prehistoric era.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 319. Shakespeare. 3 Credit Hours.
Representative comedies, histories, tragedies and romances. Not for students who have taken ENG 430 or 431; may not be taken concurrently with ENG 430 or 431.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 321. Major American Novelists. 3 Credit Hours.
Works by selected American novelists.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 323. Major British Novelists. 3 Credit Hours.
Works by selected British novelists.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 325. Major European Novelists. 3 Credit Hours.
Works by selected European novelists.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 331. Legal Writing. 3 Credit Hours.
A study of the composition of legal arguments in court opinions, legal briefs, oral arguments before the Supreme Court, and social-legal documents. Emphasis on analysis of issues, structure and style of legal writing, and the function of logic in persuasion.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 332. Writing for Civic Engagement. 3 Credit Hours.
This class will deeply and critically engage with a variety of texts while focusing on the value of our first-amendment rights, giving particular attention to the freedom of expression and freedom of the press including analysis of prison-writing exchange facilitated by the prison-education nonprofit Exchange for Change.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ENG 333. Writing the Research Paper. 3 Credit Hours.
Advanced techniques in conducting research and writing the research paper. Use of traditional library resources, on-line searches, the Internet, and other research methods. Strategies for effective presentation of research findings. Students not in the Bachelor of General Studies program need permission of instructor.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 334. Legal Rhetoric. 3 Credit Hours.
Legal texts and the rhetoric of legal discourse.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 340. Forms of the Novel. 3 Credit Hours.
Techniques and esthetics of the novel form; emphasis on major tendencies in the evolution of long prose fiction rather than on chronological
development.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 341. Modern British and American Poetry. 3 Credit Hours.
Representative poets and critics of poetry since 1900; attention to the basic principles of poetics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 342. Lyric Voices and Traditions. 3 Credit Hours.
Major figures and trends in the history of lyric poetry.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 344. Data and Contemporary Culture. 3 Credit Hours.
Data is often considered the domain of scientists and statisticians. But the proliferation of data and databases across nearly all aspects of daily life
– powering everything from the targeted advertisements you see when you go online to the fake news circulating on Facebook to the next financial
recession – has made the study and understanding of the concept of data a vital everyday concern. This course provides an introduction to the
meaning, uses, and politics of data today. Readings are drawn from literary and cultural studies, media studies, science and technology studies,
sociology, information science, and the digital humanities. No prior technical experience is required.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ENG 345. Edgar Allan Poe and the U.S. Gothic. 3 Credit Hours.
In this course, we will read most of Edgar Allan Poe’s short stories, his only novel, and many of his poems. We will also watch TV shows and films
inspired by his gothic vision.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 348. Modern African Literature and Film. 3 Credit Hours.
This class will give students an introduction to the amazing range of African literature and film from the era of independence from colonialism in
the late 1950s, through the postcolonial Cold War era, into the post-apartheid, post-Arab Spring present. African writers and film-makers have been
unusually politically engaged, but they are also often aesthetically experimental, and their works tell stories that often challenge preconceived notions
about the continent. We will look at some of the most historically important writers and film-makers, and examine a few of the big debates in African
literary studies, such as the question of why and how writers use the languages of the former colonizers; but the class will also emphasize questions
of gender and sexuality in African cultural production, and highlight the vibrant work of female and queer writers and film-makers.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ENG 350. Studies in English. 3 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 351. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.
ENG 352. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 353. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 354. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 355. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 356. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 357. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 358. Studies in English. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

ENG 360. Comparative Literature of the Black World. 3 Credit Hours.
Oral and written Black literature in Africa, the United States, the Caribbean, and South America.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 361. Caribbean Literature. 3 Credit Hours.
Introduction to twentieth-century literature with special emphasis on the regional preoccupation with a distinctly Caribbean aesthetic.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 363. Jewish American Literature. 3 Credit Hours.
Twentieth-century Jewish writers in the United States such as Singer, Bellow, Roth, Ozick, and Malamud.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ENG 364. Sephardic Literature. 3 Credit Hours.
Judeo-Spanish culture and literature from medieval times to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 365. Literature of the Holocaust. 3 Credit Hours.
Literature relating to the Nazi genocide and its aftermath.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 366. Asian American Literature. 3 Credit Hours.
Literature by Asian immigrants and exiles in the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 368. Representations of Arabs and Jews in Israeli and Palestinian Literature and Film. 3 Credit Hours.
Literary narratives and films, by both Arabs and Jews, discussing the relationship between the portrayal of Arabs and Jews within Israeli and Palestinian society. The core question we will address concerns the writer's emphatic response to the identity and history of the other. Other Issues to be examined include the influence of the literary imagination on empathy and the role of dissent and protest in society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 372. Women Writing: Theory and Practice. 3 Credit Hours.
Women writers, emphasizing the role of gender in literary creation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 373. Literary Representations of Women. 3 Credit Hours.
The portrayal of women in literature from ancient times to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 374. Women Writers. 3 Credit Hours.
A study of women's writings and feminist criticism from 1930 to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 375. Modern Drama. 3 Credit Hours.
The major dramatists of the modern world: Ibsen, Chekhov, Strindberg, Shaw, Pirandello, and O'Neill.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 376. Contemporary Drama. 3 Credit Hours.
The dramatists of our time: Albee, Miller, Williams, Becket, Sartre, Genet, Pinter, Osborne, Stoppard, Durenmatt, and others.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 378. Animals and Humans in Literature, Art, and Philosophy. 3 Credit Hours.
Investigates the representation of animals and humans from ancient to contemporary times in literature, philosophy, and art, primarily in the West. Topics may include: the human treatment of animals (as subjects of experimentation, as companions, as food, as entertainment); evidence of animal subjectivity and morality; and continuities between humans and other animals.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 379. Modern Literature. 3 Credit Hours.
Western literature of the modern era, emphasizing roots, traditions, practices.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 380. Contemporary Literature. 3 Credit Hours.
Fiction, drama, and poetry from World War II to the present.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 382. Studies in Medievalism: Tolkien, Martin, and Sources of Modern Fantasy. 3 Credit Hours.
Study of select works demonstrating how the Middle Ages are reimagined in post medieval fiction and film. Sources include works by the Inklings, J. R. R. Tolkien, George R. R. Martin, J. K. Rowling, Monty Python, and others, along with selections from medieval literary and documentary sources, and critical readings in medievalism.
Components: DIS.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ENG 383. The Literature of Science Fiction. 3 Credit Hours.
A general survey of the literature of science fiction, with emphasis on writings of the twentieth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 384. The Bible as Literature. 3 Credit Hours.
Selected readings from the Bible.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 385. Myth and Literature. 3 Credit Hours.
A study of myth and ritual and their relation to literary works, from the early epic to contemporary literature.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 386. King Arthur in Literature. 3 Credit Hours.
King Arthur in literature from the fifteenth to the twentieth century in England and America.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 387. Literature and Imperialism. 3 Credit Hours.
Relationships between empire and literary expression. Works by authors such as Shakespeare, Behn, Defoe, Bronte, Conrad, Kipling, Melville, Yeats, Twain, and Forster.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 388. Literature and Popular Culture. 3 Credit Hours.
Literary forms of popular expression, considered in relation to politics, ideology, gender, or race; comparison to other forms of popular culture in print, music, or the visual media.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 389. The Sixties: Literature, History, and Culture of the 1960s. 3 Credit Hours.
1960s culture in the United States through literature, film, and oral accounts of experience of the period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 390. Intermediate Fiction Workshop. 3 Credit Hours.
Review of craft issues presented in 290, with emphasis on development of structure and contemporary use of point of view.
Prerequisite: ENG 219 or ENG 290.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.
ENG 391. CW Intermediate Mixed-Genre Workshop. 3 Credit Hours.
A multi-genre workshop that will focus on developing practical issues of craft and technique presented in ENG 219 with an emphasis on exploring point of view in fiction, poetry and nonfiction. 12-30 pages of original work will be submitted and revised in workshop. In addition, the student will submit a final craft essay (10-12 pages) on a topic relevant to student’s writing interests and challenges.
Prerequisite: ENG 219.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 392. Intermediate Poetry Workshop. 3 Credit Hours.
Review of craft issues presented in 292, integrating formal strategies with research topics. ENG 219 Or ENG 292.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

ENG 395. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 396. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 397. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 398. Directed Readings/Directed Research. 3 Credit Hours.
By arrangement with instructor. Content varies.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 401. Senior Seminar in Literature. 3 Credit Hours.
An intensive study of a literary topic or figure.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

ENG 402. Independent Study. 3 Credit Hours.
An intensive study of a literary topic or figure.
Components: IND.
Grading: SUS.
Typically Offered: Offered by Announcement Only.

ENG 404. Creative Writing (Prose Fiction). 3 Credit Hours.
Work toward professional standards primarily in prose fiction. Student fiction is considered in workshop sessions with comment by members of the class and instructors.
ENG 390.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 406. Creative Writing (Poetry). 3 Credit Hours.
Work toward professional standards in poetry. Student poetry is considered in workshop sessions with comment by members of the class and by instructor.
ENG 392.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 407. Creative Writing Special Topics. 3 Credit Hours.
Advanced skills and processes essential to producing compelling fiction, poetry, or nonfiction in designated genre and form. A portfolio of writing in specified genre and form to result from broad readings and research.
Prerequisite: ENG 105 or 106.
Components: WKS.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 408. Writing Autobiography. 3 Credit Hours.
Literary style and method using student autobiography as a resource.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 410. Old English Language and Literature. 3 Credit Hours.
The grammar, syntax, and phonology of Old English language; readings in Old English poetry and prose.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 411. Old English Literature. 3 Credit Hours.
Translation and Close analysis of Beowulf or other major poetic texts of Old English literature.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 420. Chaucer. 3 Credit Hours.
Chaucer's major works.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 430. Shakespeare: The Early Plays. 3 Credit Hours.
Shakespeare's plays from the period 1583-1600. May not be taken concurrently with ENG 319.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 431. Shakespeare: The Later Plays. 3 Credit Hours.
A study of the second half of Shakespeare's canon, read in chronological sequence. The plays will be selected from those composed in the period 1600-1611. May not be taken concurrently with ENG 319.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 432. English Renaissance Poetry and Prose. 3 Credit Hours.
A study of such figures as Wyatt, Sidney, Spenser, Nashe, Marlowe, Shakespeare, Jonson, Donne, Bacon, Milton.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 433. English Renaissance Drama. 3 Credit Hours.
English drama during the sixteenth and seventeenth centuries.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 434. Seventeenth-Century Poetry and Prose. 3 Credit Hours.
Seventeenth-century writers and forms, including work by major and minor writers such as James I, Jonson, Donne, Bacon, Lovelace, Carew, Herrick, Andrewes, Herbert, Milton, Marvell, Clarendon, Dryden, Rochester, Behn, and Bunyan.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 435. Milton. 3 Credit Hours.
Selected readings in the poetry and prose of John Milton.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 440. Restoration and Eighteenth-Century Literature. 3 Credit Hours.
English poetry and prose, exclusive of the novel, from Dryden to Burns.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 441. 18th-Century British Novel. 3 Credit Hours.
The British novel through the late eighteenth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 442. Politics and Literature. 3 Credit Hours.
Relations between political theories and forms of literary expression.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 445. Victorian Poetry and Prose. 3 Credit Hours.
Selected English poetry and prose of the period, exclusive of the novel.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 450. The Early Romantic Period. 3 Credit Hours.
The rise of Romanticism in England and the first generation of writers, Blake, Wordsworth, Coleridge, and their contemporaries.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 451. The Late Romantic Period. 3 Credit Hours.
The second generation of English Romantic writers: Byron, Shelley, Keats, and their contemporaries.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 452. Jane Austen and Literary Criticism. 3 Credit Hours.
Jane Austen is both an influential, critically celebrated novelist and a cult figure. In this discussion course we will read five of Austen's six novels, employing some of the most illuminating criticism and responses to develop our understanding of Austen's work, her place in literature, and her place in popular culture. We will also consider the assumptions and purposes of the criticism and theory we read.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 455. Victorian Poetry and Prose. 3 Credit Hours.
Selected English poetry and prose of the period, exclusive of the novel.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 456. Nineteenth-Century English Novel. 3 Credit Hours.
Studies in the development of the English novel from Scott to Conrad.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 460. Modern British Literature. 3 Credit Hours.
Studies in Edwardian and Modern literature. Modernist theory and techniques will be illustrated by reference to the work of selected major figures since 1900.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 461. Contemporary British Literature. 3 Credit Hours.
British literature from World War II to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 465. Irish Literature. 3 Credit Hours.
Twentieth-century Irish writers such as Yeats, Synge, Joyce, Stephens, O'Casey, Beckett, and Lavin. Consideration of Irish history, mythology, politics, and culture.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 466. Joyce. 3 Credit Hours.
The major works of James Joyce.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 470. Contemporary British and American Poetry. 3 Credit Hours.
The poetry of the contemporary period, 1945 to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 472. Literature and Psychoanalytic Theory. 3 Credit Hours.
A study of the ways in which Literature, Literary Criticism, and Psychoanalytic Theory interact.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 473. Twentieth-Century Literary Theory. 3 Credit Hours.
An introduction to the major theories of the past century (e.g., psychoanalytic, formalist, materialist, feminist, new historicist).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 479. Storied Pasts: Nineteenth-Century U.S. History and Literature. 3 Credit Hours.
This interdisciplinary course explores 19th-century American intellectual and cultural history through the lens of literature. Analyzing key works of fiction, poetry, and philosophy as both literary texts and historical sources, we will seek to discover how the changing themes and forms of nineteenth-century literature shaped and/or reflected larger intellectual, political, and social currents. Students will read novels by authors such as Hawthorne, Melville, Twain, Jewett, Gilman, James, Wharton, and Crane alongside historical material.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 480. Early American Literature. 3 Credit Hours.
American writing before 1800. Topics such as colonialism, ethnicity, nationalism, and the ideology of individualism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 482. American Literature: 1800-1865. 3 Credit Hours.
Topics such as individualism, slavery, class and gender relations. Works by Emerson, Poe, Hawthorne, Melville, Douglass, Stowe, and others.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 483. American Literature: 1865-1915. 3 Credit Hours.
The works of such writers as Twain, Howells, James, Dickinson, Robinson, Crane, Norris, London, and Dreiser.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 484. American Literature: 1915 to 1945. 3 Credit Hours.
The works of such writers as Pound, Eliot, H.D., Stein, Frost, Stevens, e.e. cummings, Ransom, Tate, Fitzgerald, Hemingway, Djuna Barnes, Faulkner, O'Neill.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 485. American Literature: 1945 to the Present. 3 Credit Hours.
An intensive inquiry into the works of such writers as Albee, Bellow, Ferlinghetti, Ginsberg, Kerouac, Mailer, Miller, O'Connor, Plath, Welty.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 486. Early African-American Literature. 3 Credit Hours.
African-American literature from the beginnings to the Harlem Renaissance of the nineteen twenties.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 487. Modern African-American Literature. 3 Credit Hours.
African-American literature from the Harlem Renaissance to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 488. Race, Ethnicity, and Literature. 3 Credit Hours.
Topic varies by semester. The Construction of racial and ethnic difference in literature, focusing on the politics of group affiliation and identity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 489. Queer Sexualities: Literature and Theory. 3 Credit Hours.
This class will examine a wide variety of texts in order to think about how sexuality has been represented in different historical periods, from different cultural locations, and through different literary genres and forms. We will start with the contemporary coming-out narrative of modern Western lesbian and gay identity, and then look at a series of texts that challenge us to think about desire, gender, bodies, family, and language in new ways.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 490. Studies in Women and Literature. 3 Credit Hours.
Content varies by semester. Topics such as women in classical antiquity, women in the middle ages, women in the Renaissance, women in the Restoration and eighteenth century, women in the Romantic and Victorian period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 491. Russian and Soviet Classics in English. 3 Credit Hours.
Survey of Russian literature in translation from the late 19th century to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 492. Postcolonial Literature and Theory. 3 Credit Hours.
The legacy of colonialism as expressed in the works of Gordimer, Rushdie, Achebe, Walcott, Cesaire, Naipaul, Mukherjee, Crow Dog, Menchu, and others. Readings will address theoretical issues such as national formation, cultural hybridity, and globalization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 493. History of Literary Criticism. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 494. Feminist Literary Theory. 3 Credit Hours.
Examination of women's contributions to literary theory.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ENG 495. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated parenthetically following the title in the class schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 496. Independent Study. 3 Credit Hours.
By arrangement with instructor. Content varies by semester. May be used for single semester thesis.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 497. Senior Thesis I. 3 Credit Hours.
Partial requirement for Departmental Honors in English Literature or Creative Writing. Research and preparation for writing senior thesis or creative project. To complete thesis, student must register for ENG 498 in following semester. Student will participate in a series of 3-4 pre-arranged workshops over the course of the two semesters.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 498. Senior Thesis II. 3 Credit Hours.
Partial requirement for Departmental Honors in English Literature or Creative Writing. Writing of either a documented essay on a literary subject or project in prose fiction or poetry, to be written under the direction of a member of the faculty. Student will participate in a series of 3-4 pre-arranged workshops over the course of the two semesters.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 499. Senior Creative Writing Project. 3 Credit Hours.
Partial requirement for Departmental Honors in Creative Writing. Project, in prose fiction or poetry, to be written under the direction of a member of the creative writing faculty.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 504. Form in Poetry. 3 Credit Hours.
Poetic works as literary objects, with attention to poetic trends and the creative process.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 505. Form in Fiction. 3 Credit Hours.
Fictional works as literary objects with attention to individual styles, Fictional Trends and the creative process.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ENG 595. Special Topics. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

B.A. in English
Curriculum Requirements - English Major
Requirements for the Major in English (with a concentration in Literature) are as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 201</td>
<td>World Literary Masterpieces I</td>
<td>3</td>
</tr>
<tr>
<td>ENG 202</td>
<td>World Literary Masterpieces II</td>
<td></td>
</tr>
<tr>
<td>ENG 205</td>
<td>Jewish Literature</td>
<td></td>
</tr>
<tr>
<td>ENG 211</td>
<td>English Literature I</td>
<td></td>
</tr>
</tbody>
</table>
### B.A. in English

#### 2. Select Five Literature Courses numbered 300 or above. At least Two must be numbered 400 or above. The courses must be distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 212</td>
<td>English Literature II</td>
<td>3</td>
</tr>
<tr>
<td>ENG 213</td>
<td>American Literature I</td>
<td>3</td>
</tr>
<tr>
<td>ENG 214</td>
<td>American Literature II</td>
<td>3</td>
</tr>
<tr>
<td>ENG 215</td>
<td>English and American Literature by Women</td>
<td>3</td>
</tr>
<tr>
<td>ENG 260</td>
<td>African-American Literature</td>
<td>3</td>
</tr>
<tr>
<td>ENG 261</td>
<td>Literature of the Americas</td>
<td>3</td>
</tr>
</tbody>
</table>

1. Select two courses numbered 300 or above in literature before 1700
2. Select two courses numbered 300 or above in literature between 1700 and 1900
3. Select one course numbered 300 or above in literature since 1900

#### 3. Select Four additional English courses other than freshman composition

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 105</td>
<td>English Composition I</td>
<td>3</td>
</tr>
<tr>
<td>ENG 106</td>
<td>English Composition II</td>
<td>3</td>
</tr>
<tr>
<td>MTH 101</td>
<td>Algebra for College Students (not needed by students who place into MTH 113)</td>
<td>3</td>
</tr>
<tr>
<td>MTH 113</td>
<td>Finite Mathematics (or any MTH course numbered 108 or higher)</td>
<td>3</td>
</tr>
</tbody>
</table>

#### Curriculum Requirements - Concentration in British Literary History

1. Complete the two-semester survey of British literature:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 211</td>
<td>English Literature I</td>
<td>3</td>
</tr>
<tr>
<td>ENG 212</td>
<td>English Literature II</td>
<td>3</td>
</tr>
</tbody>
</table>

2. Select Eight English courses numbered 300 or above, at least Four of which must be numbered 400 or above. These courses must be distributed as follows:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 211</td>
<td>English Literature I</td>
<td>3</td>
</tr>
<tr>
<td>ENG 212</td>
<td>English Literature II</td>
<td>3</td>
</tr>
</tbody>
</table>

Select one course numbered 300 or above on Shakespeare
Select one course numbered 300 or above on literary theory or the history of criticism
Select two additional courses numbered 300 or above in British literature (or a combination of British and other literatures) before 1800
Select two additional courses numbered 300 or above in British literature (or a combination of British and other literatures) after 1800
Select two ENG electives numbered 300 or above
3. Recommended Courses:
Select ancillary courses in Art History, Music, History, and Philosophy, in consultation with a departmental advisor.

**Total credits required for the major:** 30

4. Additional Graduation Requirements:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 105</td>
<td>English Composition I</td>
<td>3</td>
</tr>

### Suggested Plan of Study - English Major

This Suggested Plan of Study is a sample four-year plan, but an individual student’s actual plan is likely to vary from this sample plan in a number of ways, depending on such factors as (1) AP, dual-enrollment, and transfer credits that a student brings in; (2) the student’s initial placement in composition, mathematics, and foreign language; and (3) the minor chosen by the student, as well as any additional minor or major the student chooses to complete. For example, a student is not required to complete a cognate in People & Society if the student has a minor (or second major) that counts as “People & Society,” and similarly, a student is not required to complete a cognate in STEM if the student has a minor (or second major) that counts as “STEM.”

1. Students who are considering the possibility of writing a six-credit senior thesis for Departmental Honors in English their last year should replace this elective course with an ENG course for their major.
2. Students who are writing a six-credit senior thesis for Departmental Honors in English should, ideally, have completed eight ENG courses for their major prior to their senior year, and should therefore be able to replace this course with ENG 497.
3. Students who are writing a six-credit senior thesis for Departmental Honors in English should replace this elective course with ENG 498.

**Mission**

The mission of the English Department undergraduate program is to lead student learning in literary form and history; Standard English expression; critical thinking, writing, and research skills; and ethical reflection via the study of literature and other cultural productions. Students who complete an undergraduate degree in English will be prepared for graduate study in areas such as English and law, or for employment in any position requiring skills in critical thinking and in writing.

**Student Learning Outcomes**

- Student demonstrates broad and select knowledge of literary form, of works written in or translated into English, and of literary history.
- Student achieves critical and expressive fluencies relevant to GERs in writing-intensive courses, including control of Standard English, and demonstrates ability to integrate quotations and ability to edit his/her own work.
- Student demonstrates ability to analyze literature, ability to formulate and sustain an argument with appropriate evidence and documentation, and appropriate knowledge of relevant scholarship and criticism.

After taking ENG 209, complete ONE of the following three tracks: 6

- ENG 290 & ENG 292
  - Beginning Fiction Workshop and Beginning Poetry Workshop (taken in either order)
- ENG 290 & ENG 390
  - Beginning Fiction Workshop and Intermediate Fiction Workshop
- ENG 292 & ENG 392
  - Beginning Poetry Workshop and Intermediate Poetry Workshop

Select one LITERATURE course at the 200-level 3
Select one LITERATURE course at the 300-level or above 3
Total Credit Hours 15

* Students may declare an English Minor in Creative Writing through their school or college. Submitting materials to the Creative Writing Program is not required for the minor.

** The student completes at least 15 credit hours at the 200-level or above beyond the credits earned for freshman composition.

*** A minimum grade of C- or better is required in each course and along with an overall GPA in the minor of 2.0 or better.

**** Students pursuing both a major and a minor (or two majors) offered by the Department of English may double-count a maximum of two English courses toward the fulfillment of their degree requirements. They must also have an additional major or minor in a department other than English.

¹ i.e., any two courses designated ENG and numbered 200 or above, excluding ENG 208.

* The student minoring in English completes at least 15 credit hours at the 200-level or above beyond the credits earned for freshman composition.

** A grade of C- or better is required in each course along with an overall GPA in the minor of 2.0 or better.

*** Students pursuing both a major and a minor (or two majors) offered by the Department of English may double-count a maximum of two English courses toward the fulfillment of their degree requirements. They must also have an additional major or minor in a department other than English.

Gender and Sexuality Studies
https://gss.as.miami.edu/

Dept. code: GSS

Introduction
The Gender and Sexuality Studies Program at the University of Miami seeks to encourage the rigorous investigation of gender as a significant issue in all areas of human experience. It reaches across disciplines to draw on a range of methods, theories, and perspectives that help us to understand how ideas and structures based on gender shape our lives. The program's core objective is to foster the examination, open discussion, and lively debate of gender issues among faculty and students from all fields of study, enriching the undergraduate curriculum and the university's academic mission through greater communication across disciplines and colleges. Its aim is to broaden, deepen, and transform the learning community at UM and beyond.
Educational Objectives

The undergraduate curriculum in Gender and Sexuality Studies explores the ways in which ideas about gender and sexuality shape social roles and identities, as well as the ways in which race, ethnicity, class, and nationhood influence the perception and experience of gender and sexuality within particular cultures. The curriculum is informed by recent scholarship that recognizes gender and sexuality as crucial components of human experience in social, cultural, economic, political, religious, and legal contexts. It includes courses that introduce students to feminist theory and scholarship, engaging ethical and political issues of equality and justice. The program encourages students to question their assumptions about the possible meanings of female and male through the comparative study of how different societies and historical periods have viewed manhood, womanhood, and relations between women and men. Courses in Gender and Sexuality Studies enable students to acquire critical and analytical skills that they can then apply in other aspects of their educational experience at UM and beyond the university in their careers and personal development.

The LGBTQ Studies minor is designed to allow students to explore sexuality and sexual minorities from a variety of perspectives. The course will provide students with an introduction to a broad array of LGBTQ issues including visual and performing arts, literature, languages, history, social science, various theories, public policy and the law, families and other types of intimate relationships, crime, popular culture, and LGBTQ identities and communities. This widely interdisciplinary field addresses work in a broad range of scholarly disciplines including biological and cultural studies, in literature and anthropology, in the health sciences, history, and the visual arts. It ranges from archival research to the elaboration of queer theory, from the analysis of constitutional law to questions of public health, from the study of popular culture to investigations into the development and social construction of sexual identity.

Advanced Writing and Communication Requirement

To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in GSS should take at least one GSS core course that is writing intensive (i.e., GSS 301).

Departmental Honors

Gender and Sexuality Studies majors with a cumulative GPA of at least 3.5 in GSS courses and an overall GPA of at least 3.0 may earn departmental honors by completing GSS 505 instead of the senior research project. Candidates for departmental honors are responsible for finding a faculty member who is willing to serve as thesis adviser and then complete a thesis proposal of approximately 400 words which must be approved by the thesis adviser and then the program director. The format and length of the thesis will vary according to the nature of the project. Most students writing an honors thesis as part of their GSS major will take GSS 505 twice (for a total of 6 credit hours).

GSS 201. Introduction to Gender and Sexuality Studies. 3 Credit Hours.
Conceptions of masculinity and femininity; gender relations; gender inequalities; the intersections of gender with other categories of identity such as class, race, sexuality, and stages in the life cycle; and the broad impact of gender on society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSS 202. Introduction to LGBTQ Studies. 3 Credit Hours.
Introduction to the Lesbian, Gay, Bisexual, Transgender and Queer Studies minor. The LGBTQ Studies program is designed to allow students to explore sexuality and sexual minorities from a variety of perspectives. The course will provide students with an introduction to a broad array of LGBTQ issues including visual and performing arts, literature, languages, history, social science, various theories, public policy and the law, families and other types of intimate relationships, crime, popular culture, and LGBTQ identities and communities. It will be a core to the LGBTQ minor. The history of LGBTQ Studies extends to the beginnings of the LGBTQ movements of the last third of the previous century. Today, the field addresses work in a broad range of scholarly disciplines including biological and cultural studies, in literature and anthropology, in the health sciences, history, and the visual arts. It ranges from archival research to the elaboration of queer theory, from the analysis of constitutional law to questions of public health, from the study of popular culture to investigations into the development and social construction of sexual identity. Students are usually only exposed to these studies at the upper division levels of the curriculum in disparate departments. An introductory course will make these upper division courses more accessible and meaningful, as well as serve as the basic core to the minor in LGBTQ studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSS 210. Popular representations of Queer sexualities. 3 Credit Hours.
Critical analysis of queer subjects in popular culture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GSS 220. European Sexualities. 3 Credit Hours.
The history of European sexuality from the Greeks to present day.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GSS 301. Feminist Inquiries. 3 Credit Hours.
A history of feminist thought, central issues in contemporary feminist theory, the emergence of feminist methodologies across a range of disciplines, and the ways in which feminist inquiry transforms our understanding of key issues across the curriculum. Writing Credit.
Prerequisite: GSS 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSS 305. Queer Studies. 3 Credit Hours.
Gay, lesbian, bisexual, transgender, transexual, and queer identities; alternative family structures; queer theory; and current debates over the meaning and validity of sexuality as a way of understanding human sexual desire, emotions and behavior.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.

GSS 315. Gender, Race, and Class. 3 Credit Hours.
Conceptions and intersections of gender, race, and class in historical and contemporary cultures; the impact of these experiences on individuals and society as a whole.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GSS 320. Comparative Perspectives on Gender and Sexuality. 3 Credit Hours.
A comparative study of gender identities, gender relations, and sexualities in different cultures and societies. Writing Credit.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSS 335. LGBTQ Communities. 3 Credit Hours.
Sociology of Lesbian, Gay, Bisexual Transgendered and Queer communities and identities. The history, methods, theory and concepts of social science research on these topics over the last half century and examines contemporary issues.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 344. Gender and Politics. 3 Credit Hours.
Compares the roles played by men and women in political systems worldwide; examines public policy outcomes with significant gender-based effects, including policies on sexuality & reproductive health, gender-based violence, work & the family, and access to education.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 345. Religion and Gender. 3 Credit Hours.
Religious constructions of gender identity within Christianity, with some attention to Judaism and Islam. The second Genesis creation account, which focuses on the figures of Adam and Eve, will be the focal point of our studies. An emphasis will be placed on the manner in which sexism functions within historical and present-day religious thought and practice, as well as alternative understandings of male and female identity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 347. Issues in Reproductive Medicine. 3 Credit Hours.
Social, economic, political, legal, religious, philosophical, and psychological aspects of the global reproductive medicine industry and related genetic technologies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 348. Mental Illness, Gender, and Psychiatry. 3 Credit Hours.
An investigation of often unquestioned ideas surrounding mental illness, including the definition of mental illness itself, in the context of the burgeoning field of disability studies. The course focusses on giving a voice to those who suffer from mental illness while critiquing the mainstream discourse of mental illness as articulated and managed by mental health professionals. Particular attention is placed on the role of gender in the discourse of mental illness.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
GSS 350. Special Topics in Gender and Sexuality Studies. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSS 360. Special Topics in Gender and Sexuality Studies: Arts and Humanities. 3 Credit Hours.
Special topics approaching gender and sexuality from the disciplinary perspectives of the arts and humanities.
Prerequisite: GSS 201 or GSS 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSS 361. Gender and Language. 3 Credit Hours.
The ways in which language is used in the constitution of gender, from a cross-linguistic and cross-cultural perspective.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 370. Special Topics in Gender and Sexuality Studies: People and Society. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSS 405. Gender and Sexuality in Cultural Context. 3 Credit Hours.
How cultural values shape our understanding and experience of gender and sexuality, how those values are produced and policed; and the impact of codes of conduct for gender relations on individuals and society as a whole within a specific cultural milieu. Writing Credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 410. Gender, Sex, and the Law. 3 Credit Hours.
The impact of legal institutions and laws in shaping and regulating gender relations and sexual practices; the evolving relationship between legal codes and social values for women and men. Writing Credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 420. Interpreting Bodies. 3 Credit Hours.
Perceptions, representations, and regulation of the physical body as a gendered and sexual site, as a source of pleasure, as a means of social validation, and as an object of coercion. Writing Credit.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GSS 450. Special Topics in Gender and Sexuality Studies. 3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GSS 469. LGBTI Politics. 3 Credit Hours.
The empirical variation in public policies towards issues of concern to lesbian, gay, bisexual, transgender, and intersex citizens. Examines the social scientific literature on social movements to identify the factors which have helped or hindered LGBTI rights activists' efforts to improve the legal status of LGBTI citizens.
Prerequisite: POL 201 or POL 202 Or GSS 202 or GSS 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
GSS 471. Sex Babies and the State. 3 Credit Hours.
In one of the most profound revolutions of the past century, gender roles have irreversibly changed and equal rights for women and men has become a stated goal in western societies, even if not the reality. This course examines policies on reproduction, work and the family in advanced industrialized countries including Latin American Countries.
Prerequisite: POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GSS 499. Independent Study. 1-3 Credit Hours.
By arrangement with instructor; content varies.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSS 501. Senior Research Project. 3 Credit Hours.
A student initiated research project with a faculty member of the student's choice and approved by the Program director. Writing Credit.
Requisite: Plan of Gender and Sexuality Studies.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSS 505. Senior Thesis. 3 Credit Hours.
Gender and Sexuality Studies majors with a cumulative GPA of at least 3.5 in GSS courses and an overall GPA of at least 3.0 may earn departmental honors by completing an honors thesis instead of the senior research project. Candidates for departmental honors are responsible for finding a faculty member who is willing to serve as thesis adviser and then must complete a thesis proposal of approximately 400 words which must be approved by the thesis adviser and then the program director. Most students will take this course twice, for a total of six credits. Writing Credit.
Requisite: Plan of Gender and Sexuality Studies.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GSS 590. Gender and Sexuality Studies Internship. 1-3 Credit Hours.
Internship in a community organization focusing on issues of gender or sexuality. Students arrange the Internship and propose an exhibit, project, term paper, or other materials that will be presented for academic credit at the end of the internship to the Director of the Gender and Sexuality Studies Program and a faculty sponsor for approval prior to beginning the internship. Open only to GSS majors or minors or LGBTQ Studies minors with junior or senior standing.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

Mission
The Program in Gender and Sexuality Studies seeks to encourage the rigorous investigation of gender as a significant issue in all areas of human experience. It reaches across disciplines to draw on a range of methods, theories, and perspectives that help us to understand how ideas and structures based on gender shape our lives.

Goals
The program’s core objective is to foster the examination, open discussion, and lively debate of gender issues among faculty and students from all fields of study, enriching the undergraduate curriculum and the university’s academic mission through greater communication across disciplines and colleges. Its aim is to broaden, deepen, and transform the learning community at UM and beyond.

Student Learning Outcomes
- Students will demonstrate understanding of gender and/or sexuality as categories of analysis and as components of human experience and investigate and challenge normative models and viewpoints.
- Students will build critical and analytical thinking skills.
- Students will build their verbal and written communications skills.

### Geography

**Dept. Code:** GEG

**Introduction**

Geography is the science of place and space. Geographers ask where things are located on the surface of the earth, why they are located where they are, how places differ from one another, and how people interact with the environment. There are two main branches of geography: human geography and physical geography. Human geography is concerned with the spatial aspects of human existence. Physical geographers study patterns of climates, landforms, vegetation, soils, and water. Thus, Geography links the social sciences and natural sciences.

Geographers use many tools and techniques in their work, and geographic technologies are increasingly among the most important emerging fields for understanding our complex world. They include Geographic Information Systems (GIS), Remote Sensing, Global Positioning Systems (GPS), online mapping platforms such as Google Earth, statistics, survey research, and others.

Geographers work in many different areas, such as environmental management, education, disaster response, city and county planning, community development, and more. Geography is an interdisciplinary field that offers diverse career opportunities.

The relevance and prestige of Geography as a discipline was helped enormously during the past 20 years by four key developments:

1. the emergence of “globalization” as a phenomenon requiring analysis and explanation;
2. the increasing recognition of space and place in cognate social and physical sciences;
3. deepening concern for nature-society interactions and issues of environmental sustainability, development, and climate change;
4. the development of geographic information systems (GIS and GIScience) and remote sensing technologies and their widespread adoption by organizations in both the public and private sectors.

Knowledge of GIS and Geospatial Technology can be important in the field of geography and cognate disciplines. The US Bureau of Labor Statistics has identified GIS as a top emerging field, with more than 41,000 GIS-related job postings in 2016, according to Education Advisory Board research.

**Educational Objectives**

Geography offers specializations in areas such as

- Geographic Information Systems and Remote Sensing
- Medical Geography and Global Health
- Urban Geography and International urbanization
- Environmental Studies

Geography offers courses that provide training in indispensable skills for everyone entering the present-day labor market:

- Research Methodology
- Statistics
- Computer Cartography
- Geographic Information Systems (GIS)
- Remote Sensing of the Environment
- Survey Research

**Study Abroad**

Majors are strongly encouraged to study abroad. Study abroad at carefully selected institutions will complement the student’s curriculum and area of specialization, will enhance fluency in a foreign language, and will result in heightened affinity for a foreign culture. The study abroad experience need not result in credit overloads or extended time spent in the program.

**Writing within the Discipline**
To satisfy the College of Arts and Sciences writing requirement in the discipline, students whose first major is Geography must take at least one of the following courses for a writing credit: GEG 306, GEG 346, GEG 402.

Degree Programs

The major in Geography leads to a Bachelor of Arts Degree, or a Bachelor of Science Degree.

Departmental Honors in Geography

The Department of Geography encourages its majors and minors to intensify and deepen their knowledge of Geography through its Departmental Honors Program. The program is designed to give our students the opportunity to explore various topics and problems in Geography that are of particular interest to them, to work more closely with faculty in the department, to develop skills in research and thesis preparation, and in some cases to prepare for graduate work in Geography or other disciplines.

Minimum requirements for the program are as follows:

1. a cumulative grade point average of at least 3.30;
2. a cumulative grade point average in Geography of at least 3.50; and
3. a thesis that is approved by departmental faculty.

Students have 3 options for writing the thesis.

1. Students may take 6 credit hours of independent study (GEG 598) with one or more departmental faculty.
2. Students may take a 3 credit hour course offered at the 300-level or above and 3 credit hours of independent study (GEG 598).
3. In exceptional circumstances, a student’s thesis may be written as part of the requirements for earning 6 credit hours in Geography at the 300-level or above.

In all three cases, the thesis must be a single, coherent work of scholarship through which the student earns 6 credit hours in Geography over the course of two semesters.

A Geography faculty member must serve as the Honors thesis advisor, and a second reader, who may be from another department, must be selected in consultation with the thesis advisor. The thesis must be at least 30 pages in length (double spaced, 12 point font), not including tables and figures. Once the topic and committee are secured, students should turn in their signed Departmental Honors Thesis Form to the main office of the Geography Department. This form must be signed by the Director of Undergraduate Studies and submitted by October 15 for fall graduation and February 15 for Spring graduation.

In addition to completing the written thesis, students must orally present the results of their work to faculty and students at a special honors colloquium to be held at the end of the semester.

**GEG 101. Digital Earth. 3 Credit Hours.**
Explores various geospatial technologies and the societal implications of our digital world with particular emphasis locational services, mapping, imagery, and other capabilities.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**GEG 105. World Regional Geography. 3 Credit Hours.**
An introduction to geography’s basic concepts within the framework of a comprehensive survey of the world’s major regions.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**GEG 110. Introduction to Human Geography. 3 Credit Hours.**
An introduction to the sub-fields of human geography by an examination of patterns and process in the international system.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**GEG 120. Physical Geography. 3 Credit Hours.**
The Earth system (atmosphere; hydrosphere; biosphere; lithosphere) emphasizing the interrelationships among its constituent subsystems; human-environmental interactions and geographic dimensions of these four subsystems.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
GEG 198. Geographic Information System for Engineers. 1 Credit Hour.
The fundamentals of Geographic Information Systems (GIS). A GIS is a set of hardware and software tools that allow people to work with data that are tied to a particular location. In this course students will learn how to import, analyze and display answers to spatial research questions using GIS software. By the end of the semester students should have a solid understanding of the various applications of Geographic Information Systems in numerous spheres of everyday life. No prior experience with GIS software is required for this course. This course is for College of Engineering students only.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 199. Geographic Information Systems for Engineers. 1 Credit Hour.
The fundamentals of Geographic Information Systems (GIS). A GIS is a set of hardware and software tools that allow people to work with data that are tied to a particular location. In this course students will learn how to import, analyze and display answers to spatial research questions using GIS software. By the end of the semester students should have a solid understanding of the various applications of Geographic Information Systems in numerous spheres of everyday life. No prior experience with GIS software is required for this course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 201. Topics in Geography. 1-3 Credit Hours.
Select topics in Geography. Contents varies by semester and is indicated in parenthesis following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 231. Environmental Geography. 3 Credit Hours.
Designed to encourage students to think deeply, critically, and coherently about the interaction between human societies and nature from a geographical perspective. Explores the societal dependence on natural ecosystems. Assess the magnitude and impacts of the environmental changes caused by human activities in the biosphere and evaluates the hypothesis that the earth has moved into in a new geologic epoch. Explores the concept of sustainable development and how countries are implementing it.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 235. Wine, Environment & Society. 3 Credit Hours.
Explores regional differences in wine production, consumption, economics, culture, politics, and globalization, while cultivating basic wine literacy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 241. Health and Medical Geography. 3 Credit Hours.
Integrates public health and medicine with human and environmental geography using three approaches: ecological (the interaction of disease and our natural/built environments), social (the behavioral effects of culture, poverty, and politics), and spatial (using geospatial technology to better understand and improve health services and outcomes).
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 266. Metropolitan Miami. 3 Credit Hours.
This course provides interdisciplinary perspectives on the urbanization of South Florida and on Miami's urban milieu. The course uses the case of Metropolitan Miami to introduce and illustrate a range of basic concepts in urban studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 281. Economic Geography. 3 Credit Hours.
Explores processes driving spatial patterns of economic activity at the global, national, regional, and local scales. Topic areas include economic globalization, spatial distribution of industrial sectors, multinational corporations, international trade, regional economic development, and illegal economic activities. Examines the development of the global marketplace in both the developed and the developing world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GEG 305. Spatial Data Analysis I. 3 Credit Hours.
The use of basic methods or quantitative analysis for spatial data, including basic descriptive and inferential statistics and special techniques for spatial data.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 306. Geographic Research Methods. 3 Credit Hours.
The fundamentals of social science research, such as research design, hypothesis formulation, and field data collection, with particular emphasis on quantitative and qualitative geographic analytical methods.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 310. Geographic Information Systems I. 3 Credit Hours.
The fundamentals of Geographic Information Systems (GIS). GIS is a set of hardware and software tools that allow people to work with data that are tied to a particular location. In this course students will learn how to import, analyze and display answers to spatial research questions using GIS software. By the end of the semester students should have a solid understanding of the various applications of Geographic Information Systems in numerous spheres of everyday life. No prior experience with GIS software is required for this course. CIVIC designation: This section of the course is taught with the principles of civic engagement and service learning in mind. To satisfy these principles, students will be paired with a community organization in need of mapping, and will complete their final project in partnership with the community organization. For more information on civic engagement and academic service earning please visit http://civic.miami.edu/.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 315. Digital Cartography. 3 Credit Hours.
An introduction to cartographic methods, interpretation and history. Students learn basic principles of visual representation, how to map qualitative and quantitative data, and how to prepare maps for publication and the web.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 321. Remote Sensing of the Environment. 3 Credit Hours.
Theory and techniques of environmental remote sensing and imagery interpretation for earth resources monitoring and management.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 331. Sustainable Development. 3 Credit Hours.
The concepts of sustainable development, its origins, and the global conventions associated with it. We use indicators of human well-being, governance, environmental conservation, social inclusion, and economic prosperity to evaluate how countries are making their development trajectories more sustainable. Although most of our discussion adopts a global perspective, the research conducted by students is focused on the challenges for implementing sustainable development policies in tropical and sub-tropical countries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 332. Climatology and Extreme Weather. 3 Credit Hours.
Covers introductory information about Earth’s atmosphere, weather development, and extreme weather events. Introduces basic concepts of the science of weather and climate, and current scientific developments in areas such as extreme weather forecasting and global climate change.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 334. Biogeography and Conservation. 3 Credit Hours.
Explores the modern science of biogeography and its implications for the design of spatial strategies to conserve biodiversity and ecosystem services. Examines the history of biogeography and its geographical and ecological foundations. Discusses the fundamental biogeographical processes and uses them to investigate the evolution of biotas and explain the current biogeographic patterns. Explores the emerging field of conservation biogeography and its applications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GEG 335. Sustainable Food Systems. 3 Credit Hours.
A sustainable food system sustains environmental health and local economies, and is socially just. We will explore the intricacies of global geographies of major food systems and how these systems have come to be. We will identify where major food types are produced, why and where the major demand centers are. Further, we will seek answers to fundamental food-related questions, including: in an age of plenty, why do people still starve, and what can be done about it? How do we explain malnutrition in some parts of the world and obesity in others? Can there really be such a thing as a "sustainable global food systems?" Finally, we will examine what the future implication for food is through exploratio1 and evaluation of a range of visions for a safe, sustainable food system.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 336. Hazards and Disasters: The Nature-Society Interface. 3 Credit Hours.
Explores how human-environment interactions determine the distribution, causes and consequences of natural hazards and disasters.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 341. Population, Health, and Environment. 3 Credit Hours.
Global human population dynamics and implications for environmental sustainability; topics include population growth and structure, mortality and fertility patterns, migration, urbanization, aging, and household composition.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 343. Population, Sustainability, and the Media. 3 Credit Hours.
Explores opposing views of population growth and environmental sustainability through the media and cinema: contrasts "Doomsters" who believe population growth and resource consumption threaten human survival and pro-growth "Boomsters" who believe human ingenuity and technology will continue to allow humankind to prosper.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 345. Drinking Water: Past, Present, and Future. 3 Credit Hours.
Explores the physical, social, economic, and political dimensions of global water insecurity and the management of global drinking water supplies through an interdisciplinary social science lens.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 346. Immigrant and Refugee Health. 3 Credit Hours.
A theoretical background essential for understanding the complex interaction of migration and health. Students will gain a basic understanding of the theories surrounding the movement of people within and across political boundaries. Emphasis will be placed on the health issues experienced by displaced populations including refugees, migrants, and internally displaced persons. We will explore some of the difficulties that receiving communities face in addressing the health needs of migrants, the roles of actors involved in working with displaced populations and how emigration of a large segment of the population, either abruptly or over time, affects sending communities as well. Much of the class will consist of guest speakers and case studies presented by different healthcare professionals working with migrant communities, with examples of the problems faced and solutions achieved in addressing issues of immigrant and refugee health drawn for both national and international experience.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 348. Climate Change and Public Health. 3 Credit Hours.
The mechanisms by which climate change adversely affects human health, and the policy options for mitigating our exposure.

Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 351. Geopolitics and Peacebuilding. 3 Credit Hours.
Explores the political and legal responses, both national and international, to violations of Human Rights associated with conflicts and totalitarian regimes around the world, with emphasis on the peace building process in diverse geographical locations.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.
GEG 352. Crime and the City. 3 Credit Hours.
Explores why there is so much violent crime in certain cities of the Americas and why there are such marked spatial differences between, and within, these cities. Contrasts and discusses specific issues (and myths) of crime, punishment, and policing in the Americas using a variety of academic and institutional research on violent crime.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 353. United States National Security. 3 Credit Hours.
Examines a broad spectrum of such challenges to US national security, simulating the role of policy makers and strategists for the Office of the President.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 354. Global Human Rights. 3 Credit Hours.
Equips students with a broad perspective to think critically about the global issues surrounding the foundations of Human Rights together with questions about its universality, reach, and enforceability.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 355. Global Political Economy. 3 Credit Hours.
Explores the relationship between the global economy and politics, as governments seek both to shape it and to respond effectively to the constraints and opportunities it provides.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 356. Latin American Political Economy. 3 Credit Hours.
Examines Latin America's economic development, analyzing different developmental strategies, resource endowment, institutional framework, and other related variables.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 361. Urban Sustainability in Asia. 3 Credit Hours.
The emerging field of urban sustainability from an interdisciplinary perspective by providing major theories, methodologies, and practices in sustainable urbanism. Specific attention is paid to urban resilience, economic inequality, urban ecology, and environmental injustice in Asian cities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 362. World Urban Geography. 3 Credit Hours.
An introduction to the principles and methods that apply to the geographic study of cities and urbanization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 366. Cities in Time and Space. 3 Credit Hours.
Interdisciplinary perspectives on the city, urbanity, and urbanization through a series of wide-ranging historical-geographical contexts. Field excursions are incorporated into the course.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 381. Geography and Development in Africa. 3 Credit Hours.
A survey of the geography of Africa south of the Sahara, with particular emphasis on development and the role of African states in the international system.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
GEG 382. Political Geography of the Middle East. 3 Credit Hours.
Geography of the Middle East with emphasis on current political topics.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 383. Geography and Development in South America. 3 Credit Hours.
An introduction to the geography of South America. Explores the interface between societies and nature in this diverse and complex world region. Covers the major challenges that the countries of the continent are facing to improve their socio-economic indicators as well as protect their unique natural ecosystems.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 384. Geography of South Florida. 3 Credit Hours.
Human and physical geography of South Florida.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 385. Jewish Geography. 3 Credit Hours.
Facts of Jewish history, geography, and demography both in the world and the United States. Basic geographic concepts that help us to understand the Jewish world and provide a basis for understanding the various ways that Jewish communities have adapted to different geographic circumstances.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 386. China in the 21st Century. 3 Credit Hours.
The specifics of the newly-emerging economic and political giant of Asia-China, with an explicit emphasis on the patterns and characteristics of economic transition and reform, as well as how reform has reshaped China’s geo-economic landscape, natural environment, and the international political and economic order.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 390. Topics in Geography. 3 Credit Hours.
Content and prerequisites announced when offered. Course may be repeated for credit if content varies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 398. Independent Research. 0-6 Credit Hours.
Independent research conducted one on one with a faculty member.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 399. Independent Study. 0-6 Credit Hours.
Independent study.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 402. Geographic Thought and Analysis. 3 Credit Hours.
An introduction to the history of geographic thought and geographic analysis, and to some important sub-disciplines of Geography. At the end of the semester, students will have a better understanding of the history of Geography, of its place in the academy, and important theoretical and methodological debates and themes within the discipline. Our purpose in this seminar is to create a dynamic and focused intellectual environment in which learning is a collective process. To achieve that we will analyze, critique, question and debate the weekly readings. There will be little formal lecturing on my part. Instead, class time will be spent in open discussion and hands-on projects completed individually or in teams. Throughout the semester, we will also host guest speakers, who will give you insights into their scholarship and give you further exposure to the discipline of Geography. Be ready to read and write a lot, and come to class prepared to discuss!
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
GEG 405. Spatial Data Analysis II. 3 Credit Hours.
Social and environmental science applications of spatial statistical analysis illustrated with data and numerical (simulation experiments) examples employing interactive software. This course's focus is on spatial autocorrelation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 406. Survey Research Methods. 3 Credit Hours.
The use of survey research including the choice of a survey mechanism, sampling, questionnaire design, survey logistics, survey analysis, and reporting of results.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 410. Geographic Information Systems II. 3 Credit Hours.
An introduction to spatial analysis, which consists of techniques for analyzing patterns of and interrelationships between spatial data. Topics include vector polygon editing and topology, integration of raster and vector data, surface analysis and 3D analysis, suitability mapping, spatial modeling, and multi-criteria evaluations.
Prerequisite: GEG 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GEG 412. GIS for Health and Environment. 3 Credit Hours.
This course provides practical experience in using spatial technologies to address issues of health and environment. This course will provide an introductory level approach to using the ArcGIS software, so even if you have never used it, you can learn what you need. Lectures, discussions, readings and guest speakers will provide content and background. A final project will allow you to explore your own interests.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 414. Crime Mapping and Analysis. 3 Credit Hours.
Provides a basic understanding of the spatial analysis of issues related to criminal justice and crime mapping using state-of-the-art GIS software.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 415. Web GIS. 3 Credit Hours.
Map serving technologies and internet map design, focusing on the programming concepts needed to construct and implement high-quality web mapping applications. Lab exercises will make use of both the commonly used open source GIS and related programming tools for customizing web-based mapping applications, as well as the leading proprietary web mapping capabilities provided in ESRI's ArcGIS Server. Students build their own online interactive, customizable maps and will learn the basics of client/server architecture and processing, JavaScript programming, and XML/HTML basics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 421. GIS and Environmental Modeling. 3 Credit Hours.
Space-time modeling in a GIS environment with emphasis on raster-based models of land cover change, urban expansion, species distribution, wildfire propagation, and other environmental issues.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 422. Climate Change and Security. 3 Credit Hours.
There is an emerging global consensus that climate change will stress the economic, social, and political systems that underpin each nation state. Where institutions and governments are unable to manage the stress or absorb the shocks of a changing climate, the risks to the stability of states and societies will increase.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
GEG 490. Topics in Geography. 0-3 Credit Hours.
Select topics in Geography. Contents varies by semester and is indicated in parenthesis following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 501. Capstone Research Seminar. 3 Credit Hours.
Project-based fundamentals of social science research; emphasizes research conceptualization and design, application of methods, data management, scientific writing, multi-modal presentation of findings, and professional development skills.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 505. Seminar in Methods of Analysis. 3 Credit Hours.
The use of advanced quantitative, qualitative, and mixed methods in the solution of geographic research problems.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 507. Seminar in Field Methods. 3 Credit Hours.
With a focus on geospatial applications, this methods course introduces students to field research addressing complex socio-environmental issues. The course includes exercises with GPS data collection; geo-tagged photography; ground truthing; spatial survey design; and distributed GIS. Various research areas and cognate field methods including environmental demography, community surveying, cultural mapping, and multi-sited ethnography.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 519. Immigration to the United States. 3 Credit Hours.
A description and analysis of current immigration patterns in the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

GEG 520. Sustainable Cities. 3 Credit Hours.
The emerging field of urban sustainability from an interdisciplinary perspective, by providing major theories and methodologies in sustainable urbanism, especially in terms of urban resilience, economic inequality, urban ecology, and environmental justice.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 530. Conservation and Development. 3 Credit Hours.
Explore the synergies and trade-offs between biodiversity conservation and human development. Uses the concept of green infrastructure to demonstrate as biodiversity conservation is an essential component of human development. Discusses the global conventions that seek to protect biodiversity conservation and how they have been implemented worldwide. Evaluate the roles played by governments, NGOs, local communities, corporations, and multilateral agencies to protect biodiversity. Map current global efforts to protect global ecosystems and identify the major bottlenecks. This is a research-based course in which students learn how to collect and analyze conservation and development data as well as improve their presentation and writing skills.
Components: RSC.
Grading: GRD.
Typically Offered: Fall.

GEG 532. Conservation Biogeography. 3 Credit Hours.
Explore the emerging discipline of Conservation Biogeography, that is the application of biogeographical principles, theories, and analyses to problems concerning the conservation of biodiversity. Discusses major global biogeographical patterns and processes; biodiversity patterns in terrestrial, freshwater and marine ecosystems; social values and conservation; protected area policy and financing; systematic conservation planning; and protected area design and management. This is a very intense research-based course in which students learn how to collect and analyze biogeographical data as well as improve their presentation and writing skills.
Components: RSC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 561. Seminar in International Development. 3 Credit Hours.
Topics in the study of development. Content and prerequisites vary.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GEG 562. Seminar in Urban Management. 3 Credit Hours.
Select topics in urban management. Contents varies by semester and is indicated in parenthesis following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 563. Seminar in Urban Geography. 3 Credit Hours.
Topics in the study of urban geography. Content and prerequisites vary.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 580. Introductory Quantitative Methods for Geographical Analysis.. 3 Credit Hours.
Basic quantitative methods for geographic analysis.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GEG 590. Advanced Topics in Geography. 1-6 Credit Hours.
Content and prerequisites vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GEG 597. Internship in Geography. 0-6 Credit Hours.
Students are assigned to work for a local public or private agency.
Components: FLD.
Grading: SUS.
Typically Offered: Fall, Spring, & Summer.

GEG 598. Advanced Independent Research. 0-6 Credit Hours.
Independent research conducted one on one with a faculty member.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GEG 599. Advanced Independent Study. 0-6 Credit Hours.
Independent study.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

1. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Geography must take at least one writing eligible course in Geography. GEG 501 satisfies this requirement for most students.

2. Students must complete at least 30 credit hours in Geography with a grade of C- or higher.

3. The overall GPA in courses counted toward the major must be 2.00 or higher.

4. The major requires 18 credits of of electives at least 9 of which must be at the 300 level or above, exclusive of GEG 501.

Mission
The Department of Geography (GEG) seeks to encourage the rigorous investigation of human-environment interactions, and the analysis of spatial patterns related to societal processes. It reaches across disciplines to draw on a range of methods, theories, and perspectives that help us understand how ideas and structures result from the interaction of space, place and time. The department’s core objective is to foster the examination, open discussion, and lively debate of geographic issues among faculty and students from all fields of study, enriching the undergraduate curriculum and the university’s academic mission through greater communication across disciplines and colleges. Its aim is to broaden, deepen, and transform the learning community at UM and beyond.

Goals
Our undergraduate programs (BA and BS) aim to prepare students for positions in teaching, government, private business, urban and regional planning, geographic information systems (GIS), remote sensing (RS), resource management, and environmental analysis. We offer optional tracks in urban, environmental, and medical geography, as well as courses in geospatial technology which provide students with marketable skills for today’s job market: geographic information systems (GIS), digital cartography, satellite remote sensing, land use and land cover analysis, and spatial statistics. During their studies, our students develop global citizenship, which prepares them to examine global problems with a different lens, as well as develop skills to work effectively in multi-cultural environments and collaborative settings.

Student Learning Outcomes
- Students will demonstrate knowledge of concepts and theories in both human and physical geography including spatial patterns and processes, the interrelationships between people and places, and the interactions between people and nature.
- Students will integrate and apply concepts and theories to develop sound and original geographical questions as well as apply critical thinking to find explanations to geographical questions.
- Students will demonstrate effective written, cartographic, and oral communication.

**Mission**

The Department of Geography (GEG) seeks to encourage the rigorous investigation of human-environment interactions, and the analysis of spatial patterns related to societal processes. It reaches across disciplines to draw on a range of methods, theories, and perspectives that help us understand
how ideas and structures result from the interaction of space, place and time. The department’s core objective is to foster the examination, open discussion, and lively debate of geographic issues among faculty and students from all fields of study, enriching the undergraduate curriculum and the university’s academic mission through greater communication across disciplines and colleges. Its aim is to broaden, deepen, and transform the learning community at UM and beyond.

Goals

Our undergraduate programs (BA and BS) aim to prepare students for positions in teaching, government, private business, urban and regional planning, geographic information systems (GIS), remote sensing (RS), resource management, and environmental analysis. We offer optional tracks in urban, environmental, and medical geography, as well as courses in geospatial technology which provide students with marketable skills for today’s job market: geographic information systems (GIS), digital cartography, satellite remote sensing, land use and land cover analysis, and spatial statistics. During their studies, our students develop global citizenship, which prepares them to examine global problems with a different lens, as well as develop skills to work effectively in multi-cultural environments and collaborative settings.

Student Learning Outcomes

• Students will demonstrate knowledge of concepts and theories in both human and physical geography including spatial patterns and processes, the interrelationships between people and places, and the interactions between people and nature.
• Students will integrate and apply concepts and theories to develop sound and original geographical questions as well as apply critical thinking to find explanations to geographical questions.
• Students will demonstrate effective written, cartographic, and oral communication.

Global Health Studies

Overview

The undergraduate major in Global Health Studies (GHS) provides students with an interdisciplinary perspective to understanding how issues surrounding global health relate to the greater impacts on society, culture, and the environment. This major provides students with the opportunity to explore the cultural and social aspects of health and underlying causes that affect the well-being and provide an important interdisciplinary platform for the empirical and theoretical interaction of humanists and social scientists.

The GHS major offers three tracks:

• B.A. in Global Health Studies (Humanities)
• B.A. in Global Health Studies (Social Sciences)
• B.S. in Global Health Studies (Pre-Med)

The Global Health Studies major combines social science and humanist perspectives across the disciplines of anthropology, religious studies, geography, regional studies, classics, history, literature, and sociology. For students pursuing the Pre-Med track, these perspectives interact with the STEM requirements of the Pre-Health program as outlined by the Office of Pre-Health Advising and Mentoring (https://prehealth.miami.edu/)

Majors in Global Health Studies

• B.A. in Global Health Studies (p. 389) (Humanities Track) (p. 389)
• B.A. in Global Health Studies (Social Sciences Track) (p. 389)
• B.S. in Global Health Studies (Pre-Med Track) (p. 394)

B.A. in Global Health Studies

Overview

The undergraduate major in Global Health Studies provides students with an interdisciplinary perspective to understanding how issues surrounding global health relate to the greater impacts on society, culture, and the environment. This major combines social science and humanist perspectives and cross the disciplines of anthropology, religious studies, geography, regional studies, classics, history, literature, and sociology.

The GHS major offers two tracks: Global Health in the Humanities (30 credits), Global Health in the Social Sciences (30 credits). The Humanities track will fulfill the Arts & Humanities area of knowledge requirement. The Social Sciences track will fulfill the People & Society area of knowledge requirement.

Whereas medicine as a field addresses disease diagnosis and care, the field of global health is much broader, and still being defined. Global health in the social sciences encompasses disease prevention, education, health policy, access, and resiliency. Global health in the humanities examines the history and cultural significance of medicine and health from ancient times to today. This major provides students with the opportunity to explore the cultural and social aspects of health and underlying causes that affect the well-being and provide an important interdisciplinary platform for the empirical and theoretical interaction of humanists and social scientists.

**Mission**

The mission of the Global Health Studies program is to provide students with a multidisciplinary program that combines social science and humanist perspectives across disciplines that include anthropology, religious studies, geography, regional studies, classics, history, literature and sociology. Global health in the social sciences encompasses disease prevention, education, health policy, access and resiliency. In the humanities it examines the history and cultural significance of medicine and health from ancient times to today. Students in this program stand to benefit from the University's advantageous geographic location that connects people and institutions from everywhere in the world. Miami, and the University, presents students with opportunities to examine the complex world of global health from multiple perspectives, participate in state of the art research, engage with a vibrant local and international community, and collaborate in developing sustainable solutions for global health issues.
Goals
The program aims for students to:
• Understand the complexities of global health issues from the social science and humanist perspectives
• Understand how issues surrounding global health relate to the greater impacts on society, culture and the environment
• Understand the cultural competencies, ethical challenges and sustainable solutions in addressing global health issues
• Understand health policy and governance at the local and global levels
• Acquire leadership and advocacy skills
• Gain quantitative and qualitative research skills to integrate stakeholders and researchers in the design, implementation, and interpretation of community-based participatory studies
• Prepare students to assist private, government, non-profit, and for-profit organizations formulate new global and community health strategies

Student Learning Outcomes
• Students will demonstrate knowledge of cultural competencies, ethical challenges and sustainable solutions related to global health issues.
• Students will demonstrate knowledge of quantitative and qualitative methods within global health research.
• Students will be able to critically analyze global health issues from multidisciplinary perspectives, including social, economic, political and environmental factors that shape individual, community, and population health.

B.S. in Global Health Studies (Pre-Med)
Overview
The Bachelor of Science in Global Health Studies (Pre-Med) provides students with an interdisciplinary perspective to understanding how issues surrounding global health relate to the greater impacts on society, culture, and the environment. This major combines social science and humanist perspectives and cross the disciplines of anthropology, religious studies, geography, regional studies, classics, history, literature, and sociology.

The GHS (Pre-Med) major (24 credits plus pre-med requirements) will fulfill the STEM area of knowledge requirement.

Whereas medicine as a field addresses disease diagnosis and care, the field of global health is much broader, and still being defined. Global health in the social sciences encompasses disease prevention, education, health policy, access, and resiliency. Global health in the humanities examines the history and cultural significance of medicine and health from ancient times to today. This major provides students with the opportunity to explore the cultural and social aspects of health and underlying causes that affect the well-being and provide an important interdisciplinary platform for the empirical and theoretical interaction of humanists and social scientists.

GHS Capstone Experience 1

The capstone experience must focus on issues/experiences related to global or planetary health. Students will be able to choose between the following capstone experiences.

- Independent Study
- Senior Research Project
- Senior Thesis
- Global Health Internship

Pre-Med Requirements

Students must satisfy the requirements of the Office of Pre-Health Advising and Mentoring

(Sample Plan of Study, May Vary with Advising)

Total Credit Hours 121
The Capstone experience will vary by student but should focus on issues/experiences related to global or planetary health. Students who enter into the accelerated 5-year program will be advised to take the thesis or research project course to begin their research for their Master’s degree. Similarly, students may be advised to take the internship course to satisfy their capstone requirement so that they may engage in fieldwork and practical experiences.

* All Pre-health students must select a major as specified in the undergraduate bulletin. There are two distinct areas of academic preparation for the pre-health student. First, students must fulfill degree requirements and second, they must complete the requirements for admission to health professional school. Students do not need to major in a biological or physical science in order to declare a pre-health track.

** If students choose a major outside the natural sciences it is important to take additional science courses beyond the required pre-health courses to prepare for the professional school entrance exam.

*** Pre-health students are expected to maintain a full-credit load of at least 15 credits.

### Mission

The mission of the Global Health Studies program is to provide students with a multidisciplinary program that combines social science and humanist perspectives across disciplines that include anthropology, religious studies, geography, regional studies, classics, history, literature and sociology. Global health in the social sciences encompasses disease prevention, education, health policy, access and resiliency. In the humanities it examines the history and cultural significance of medicine and health from ancient times to today. Students in this program stand to benefit from the University’s advantageous geographic location that connects people and institutions from everywhere in the world. Miami, and the University, presents students with opportunities to examine the complex world of global health from multiple perspectives, participate in state of the art research, engage with a vibrant local and international community, and collaborate in developing sustainable solutions for global health issues.

### Goals

The program aims for students to:

- Understand the complexities of global health issues from the social science and humanist perspectives
- Understand how issues surrounding global health relate to the greater impacts on society, culture and the environment
- Understand the cultural competencies, ethical challenges and sustainable solutions in addressing global health issues
- Understand health policy and governance at the local and global levels
- Acquire leadership and advocacy skills
- Gain quantitative and qualitative research skills to integrate stakeholders and researchers in the design, implementation, and interpretation of community-based participatory studies
- Prepare students to assist private, government, non-profit, and for-profit organizations formulate new global and community health strategies

### Student Learning Outcomes

- Students will demonstrate knowledge of cultural competencies, ethical challenges and sustainable solutions related to global health issues.
- Students will demonstrate knowledge of quantitative and qualitative methods within global health research.
- Students will be able to critically analyze global health issues from multidisciplinary perspectives, including social, economic, political and environmental factors that shape individual, community, and population health.

Total Credit Hours 15

1. Courses offered as Special Topics or Independent Research may be applied toward the minor with approval by the program advisor.
2. No more than 6 credit hours may be applied to the minor from a single department.
3. At least 6 credit hours must be taken at the 300 level or higher.

* Students must earn a grade of C- or better in each course and maintain a cumulative GPA of at least 2.0 in all courses counting toward the minor.

History

history.as.miami.edu

Dept. Code: HIS

Introduction

History is the systematic study of the past. The study of history includes training in how to gather information, how to research issues and problems, how to analyze data and construct arguments, and how to communicate ideas in writing. These are essential skills, tools that are prized in the world
beyond the university. A major in history is an excellent beginning and solid stepping stone to professional school and the business world. For goals ranging from law to journalism, and from medicine to the MBA, history serves as a versatile undergraduate major. Multinational businesses demand that their executives understand the peoples and cultures around them, and be able to communicate that understanding effectively. If an occupation demands critical thinking and analysis, a background in history is invaluable.

**Educational Objectives**

All history courses expose students to historical interpretation and critical analysis.

- Courses at the 100 and 200 levels are intended as introductions to broad fields of history and are open to students with no previous college-level history experience.
- All 300 level history courses are writing intensive, are graded principally through essay examinations and short papers, and count toward the fulfillment of the University of Miami writing across the curriculum requirement.
- Courses at the 500 level require a 300 level history course as prerequisite. All 500 level courses deal extensively with the historiography of their particular subjects, and all require a written research project as a major component of the work of the course.
- Since all History courses at the 300-level and higher are officially designated as "Writing" courses, History majors will automatically fulfill the College of Arts & Sciences's Advanced Writing and Communication requirement by completing the major.

**Degree Programs**

The major in History leads to the degree of Bachelor of Arts.

**Departmental Honors**

History majors with a cumulative GPA of at least 3.6 in history courses may earn departmental honors by completing a two-semester-long, 500-level Honors seminar course HIS 597 and HIS 598, held in the Spring and Fall respectively. Admittance to the History Honors program is by application in the Fall semester during course registration week. Also, students must have completed at least 6 courses in History worth 18 credit hours at the University of Miami.

**HIS 101. History of the United States, I (to 1877). 3 Credit Hours.**
Political, social, and economic development of the United States through Reconstruction.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**HIS 102. History of the United States, II (since 1877). 3 Credit Hours.**
Political, social, and economic development of the United States since Reconstruction.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**HIS 121. Emperors, Shoguns, and Concubines: East Asia, Origins-1800. 3 Credit Hours.**
Examines the history of East Asia to 1800.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**HIS 122. The Dragon and the Rising Sun: East Asia, 1800-Present. 3 Credit Hours.**
Examines the history of East Asia since 1800.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**HIS 131. Europe from Antiquity to 1600: An Expanding World. 3 Credit Hours.**
A survey of European history from antiquity to the early modern period, focusing on key political, social, economic, and cultural developments, as well as European interactions with the wider world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
HIS 132. The Birth of Modernity: Europe 1648 to the Present. 3 Credit Hours.
A survey of the development of the West from the formation of modern European nation states in the sixteenth and seventeenth centuries to the present, emphasizing the rivalry of European powers, the impact of European expansion, the effect of industrialism and revolution upon Western society, and the role of the New World.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 161. History of Latin America, I (to 1824). 3 Credit Hours.
A survey of Spanish and Portuguese America from the pre-Columbian era through the end of the colonial period.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 162. History of Modern Latin America (1800-present). 3 Credit Hours.
A survey of the national period in Latin American history, emphasizing the political and social issues in the transition from colonialism to nationhood.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 192. Studies in History. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 193. Studies in History. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 194. Studies in History. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 201. History of Africa I (to 1800). 3 Credit Hours.
History of Africa before the Colonial period, emphasizing sources for the study of African history, African political and social institutions, the slave trade, and "legitimate" trade and markets.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 202. History of Africa, II (since 1800). 3 Credit Hours.
The emergence of modern Africa from about 1800 to the present, emphasizing the European conquest of Africa, African responses to colonialism, independence and the post-independence period.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 203. The African Diaspora in South Florida. 3 Credit Hours.
The African Diaspora in South Florida through a close analyses of three junctures in the history of the Black experience: The slave trade, abolition and emancipation; the migration of various African-descended peoples from the Caribbean and Latin America to South Florida; and the more recent arrival of people from the Africa.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 209. African-American History to 1877. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 210. African-American History, 1877-PRESENT. 3 Credit Hours.
History of people of African descent in the United States from 1877 to present.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
HIS 211. Epics, Gods, Kings: Pre-Mofern India 2500 B.C.E. to 1600 A.D.. 3 Credit Hours.
This course will explore the history, culture and political economy of India tracing it thematically from 2500 B.C.E. to 1600 A.D.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 212. The Mughals and the British (1526-1947). 3 Credit Hours.
A survey of historical India, covering the modern states of India, Pakistan, and Bangladesh, that highlights social and religious identities, modernization, nationalism, the "women question," partition, and independence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 220. History of European Sexuality. 3 Credit Hours.
The history of European sexuality from the Greeks to the present day.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 223. Medicine and Society: From the Ancient World to the 21st Century. 3 Credit Hours.
Medicine and society presents a historical survey of the development of western medicine and public health from the earliest times to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 225. History of the Modern Business Enterprise. 3 Credit Hours.
This course examines the history of big business in the nineteenth and twentieth centuries. Drawing often on individual firm histories, its focus will be a comparative study of the big business experience in America, Europe, Asia, and the imperial world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 227. Nationalism: Love thy Brother, Hate thy Neighbor?. 3 Credit Hours.
This lower-division lecture course will offer an introductory thematic overview to the ideas and politics of nationalism throughout the globe.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 228. Holy War and Toleration in Western Religious Traditions. 3 Credit Hours.
An exploration of concepts of Holy War and Just War and of traditions of tolerance and intolerance in Judaism, Christianity, and Islam, from ancient times to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 229. Consumer Society: A Global History. 3 Credit Hours.
In the United States we are surrounded today with a seemingly limitless variety of consumer goods, and we are offered constant reminders of the increasingly globalized nature of modern life. Too often, however, such commentary reflects a shocking lack of perspective about the origins and evolution of these trends. This course encourages a deeper understanding by exploring the history of how consumer societies emerged across the world. Spanning an arc from the eighteenth century to the present, the course looks at the social and cultural impact of global consumables (ranging from food to automobiles) in the Americas, Europe, Asia, and other regions. The readings and lectures consider the social, ethical, and environmental problems associated with the rise of global consumption.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 246. Origins and History of the Russian Revolution. 3 Credit Hours.
The background and events of the Russian Revolution.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 253. History of Mexico: Guns and Tortillas, or, How Mexico Became Mexican. 3 Credit Hours.
Culture and ideology of the Mexican Revolution.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 254. History of the Cold War in the Americas. 3 Credit Hours.
Focusing on the late 1940s to late 1980s, this course examines the origins, evolution, and enduring consequences of the Cold War in the Americas. It explores key issues such as the emergence of new nationalist currents, the impact of U.S. intervention, competing visions of revolution and counter-revolution, and shifting definitions of democracy.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 255. Atlantic Crossings: Slavery in Latin America. 3 Credit Hours.
The history of African slavery in Latin America from the fifteenth century to the final abolition of slavery in Brazil in 1888.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 261. Women's America I (Nineteenth Century). 3 Credit Hours.
An introduction to the major currents in American women's history during the Nineteenth Century.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 262. Women's America II (Twentieth Century). 3 Credit Hours.
An introduction to the major currents in American women's history during the Twentieth Century.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 266. The Founders: Fact and Fiction. 3 Credit Hours.
Explores the history of the American founders.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 267. Making History. 3 Credit Hours.
Focus is on a series of topics that allow students to deepen their understanding of the worlds we have often lost or about which we know little by approaching them in innovative historical ways. Topics will include Material Culture in Early America, Oral History and the Making of the Modern World, Caribbean Rituals, Law and Society in the Americas, as well as Early Modern Religious Cultures, among others. Recommended for potential History majors and minors, as students will benefit from limited class sizes, receive one-on-one attention from professors, and much emphasis is placed on learning researching and writing skills.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 269. Homoeroticism: A Global History from Socrates to Harvey Milk and Beyond. 3 Credit Hours.
A global overview of male same-sex desire, love, sex, and culture. From ancient Greeks to Latin America to the modern gay rights movements, this class examines both behavior and ideology as they concern male homo- and bisexuality. Topics include: Socrates, ideal male love, ancient Romans, medieval and Renaissance Europe, Latin America, machismo, male love without sex, queer esthetics, gay rights movements, urban queer culture, film, literature, HN / AIDS, samesex marriage, and the 21st century moment. Authors and filmmakers examined may include Plato, St. Augustine, Michel Foucault, David Halperin, Jamie O'Neill, Oscar Wilde, Jean Genet, Luis Zapata, Andre Gide, Jack Kerouac, Andrew Holleran, Gore Vidal, Tennessee Williams, Rainer Fassbinder, Kenneth Anger, James Baldwin.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 271. American Political History Since 1960: Policy, Public History, and Modern Media. 3 Credit Hours.
Explores selective elements of modern American politics, policy studies, media, and public history, predominantly since 1960.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 272. Hawai'i and the Pacific World: Or, How Surfing Colonized California and the World. 3 Credit Hours.
On the surface this is a class about surfing. But to understand surfing is to study the history of Hawai'i. This course examines the history of Hawai'i and of the sport which Hawai'ians developed and created, surfing. This course traces the early history of ancient Hawai'i, when navigating migrants traveled between Polynesia and Hawai'i until they ceased contact. Traditional Hawai'i was governed by complex social and ritual systems, bound by the concept of kapu, or taboo. The class analyzes the process by which Hawai'i went from being a united kingdom to missionary outpost and target of pineapple plantations; to a U.S. territory which specifically disenfranchised native Hawai'ians; to the near suppression of surfing. The resulting Hawaiian Renaissance reshaped images of Hawai'i and surfing and surfing found willing converts in California. Other topics include the history of surfing styles and competition; comparative surf breaks and shore cultures; California dreamin', the feeling you get when you hear the Eagles; beach bums; professional surf competitions and O'ahu North Shore culture; spam and plate lunch; the broader Pacific world; castaways; fur traders; tuna and canning industry; fishermen.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 282. The History of Zionism. 3 Credit Hours.
The religious, cultural, historical, political and social underpinnings of the development of Zionism that fed to the creation of the State of Israel. Through readings, analysis of speeches and essays, exploration of films and the internet, the class will move through time from the origins of the Zionist idea to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 284. The Second World War. 3 Credit Hours.
The Second World War: Analysis of its origins, the military and political course of events, and its consequences, such as the cold war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 285. The origins and history of the Third Reich. 3 Credit Hours.
This lecture course offers a comprehensive survey of the history of Nazi Germany from early pre-fascist movements before World War I to the final ignominious collapse of the Nazi regime in 1945.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 290. The Beach: The Beach as Place, Space, and Event in World Historical Context. 3 Credit Hours.
History of the beach as a particular geographic place and space in human history in comparative world context. Themes and issues include tourism, socio-economic factors in beach access, beach-related industries, immigration, cultural contact, exploration, "beach life," surfing, ethnicity, segregation, and politics of real estate.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 291. The Sea in History. 3 Credit Hours.
Human relations with the sea from prehistoric times to the present and across the globe. It will look at the spread of peoples, ideas, religions, and goods across the seas, and the role of networks, empires, and navies in this history.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 292. Transfer Credits. 1-5 Credit Hours.
Courses for which there is no direct equivalent.
Components: LEC.
Grading: GRD.

HIS 293. Transfer Credits. 1-5 Credit Hours.
Courses for which there is no direct equivalent.
Components: LEC.
Grading: GRD.

HIS 294. Transfer Credits. 1-5 Credit Hours.
Courses for which there is no direct equivalent.
Components: LEC.
Grading: GRD.
HIS 296. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated parenthetically following course title in class schedules.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HIS 297. History Internship. 3 Credit Hours.
Provides history students with the opportunity to obtain credit for an internship with the approval and under the close supervision of a faculty member.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 301. Miami Engagement: History, Media, and Social Change. 3 Credit Hours.
This seminar-style course will examine the history, theory, and practice of civic engagement, community history, and social change in the United States. We will look at four overlapping areas of interest: the meanings of civic engagement in American history; the roles of history and memory in shaping place and community; the role of the media in structuring stories about history and community; and grass-roots activism and its role in reinvigorating and reshaping public spheres in America. We will pay particular attention to the factors that have promoted inclusion and engagement, as well as those that have led to disenfranchisement and alienation. We will look at efforts by local, national, and even global activists to connect to communities large and small. And we will ask how the issues of memory, place, community, civil society, and global citizenship form a matrix around which to understand and shape broad-based collaboration among students, faculty, community residents, and civic organizations.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

HIS 302. History on Trial: Law and American Society. 3 Credit Hours.
The relationship between social history, the law, and politics in American society. More than legal history, this is a problem-based, interdisciplinary course that bridges history, political science, legal studies, and sociology to understand the historical context that informs major lawsuits that shaped American Jurisprudence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 304. Slavery and Cinema: Commodifying History in Hollywood. 3 Credit Hours.
Spanning a century of films, slavery is a topic that attracts filmmakers and audiences alike, creating some of the most acclaimed blockbusters and the most disparaged films in the industry. Within this broad sweep, the course will engage two animating questions: 1) in what ways, and why, have depictions of slavery changed over a century and 2) what is at stake when mass culture commodities history?
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 306. The Modern Near East. 3 Credit Hours.
The Near East since 1453, emphasizing the Ottoman Empire, Arab nationalism and Zionism, the Mandate System, and the Arab-Israeli conflict.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 308. West Africa since 1000 A.D.. 3 Credit Hours.
The Sudanic empires, the spread of Islam, the slave and legitimate trades, the establishment of European colonies, and the struggle for independence.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 309. History of Southern Africa. 3 Credit Hours.
The establishment of the Dutch settlements and the apartheid system, African responses to European domination, and the collapse of apartheid and the emergence of a multi-racial South Africa.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 310. Africa in Cuba/Cuba in Africa: Slave Trade to Cuban Internationalist Missions in Africa. 3 Credit Hours.
The relationship between Cuba and Africa from the period of the slave trade to the late 1990s.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 311. Gandhi and the making of Modern India. 3 Credit Hours.
This course will study Gandhi's practice of civil disobedience and non-violent movement against the British Empire, as well as his theories and praxis regarding moral discipline, critique of modernity and alternative vision of civil society and policy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 312. Femininity, Masculinity, and Sexual Politics in Indian History. 3 Credit Hours.
A thematic study of gender and sex in ancient, medieval, and modern India, focusing on social constructions of identity, sexual politics, social and religious gender roles, and contested histories of womanhood.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 313. Bollywood and Beyond: Religion, Gender and Politics in South Asian Film. 3 Credit Hours.
Themes in Indian society through the lens of Indian cinema - both Bollywood and the regional film industry. The important themes covered are: the complex narratives of caste, myth, politics, gender, sexuality, and the challenges of modernity in India.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 315. Imperial China. 3 Credit Hours.
History of China from the origins of Chinese civilization to 1798.
Prerequisite: One HIS Course.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 316. Modern China. 3 Credit Hours.
Rise of a Superpower.
Prerequisite: One HIS Course.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 317. History of the Caribbean, I. 3 Credit Hours.
Caribbean history major topics, debates, and themes from the fifteenth to early nineteenth centuries; the centrality of the Caribbean to larger world histories of conquest, colonialism, slavery and emancipation, capitalism, migration, religious transformation, republicanism, and nation-state formation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 318. Modern Caribbean History. 3 Credit Hours.
Major topics, debates, and themes in Caribbean history from the late eighteenth century to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 325. The Early Middle Ages: Europe, 450-1095. 3 Credit Hours.
Western historical development from the collapse of the classical ancient world to Europe's emergence as a distinct and viable civilization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 326. The High and Late Middle Ages: Europe 1095-1500. 3 Credit Hours.
The mature medieval civilization and its transformation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 327. The Renaissance in Italy. 3 Credit Hours.
Cultural, social, economic, religious and political life in Renaissance Italy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 328. **Reformation Europe. 3 Credit Hours.**
The history of the 16th-century religious revolution known as the Reformation. Course focuses on its causes, development, and especially its political, social, and cultural consequences.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 330. **The Scientific Revolution. 3 Credit Hours.**
Transition between medieval science and Newtonian physics, focusing on sixteenth- and seventeenth-century developments in medicine, cosmology, physics, and scientific method.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 331. **England to the Accession of the Tudor Dynasty (to 1485). 3 Credit Hours.**
The Creation of England and its development during the medieval period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 332. **England, 1485–1688. 3 Credit Hours.**
England under the Tudors and Stuarts. Topics include: the monarchs and the monarchy; relations between England, Ireland, and Scotland; Henry VIII and the English Reformation; puritanism and society; popular culture; the city of London; the English Civil War; the “Glorious Revolution” of 1688.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 333. **England and the Empire in the Age of Queen Victoria (1815-1901). 3 Credit Hours.**
Victorian Britain, emphasizing the manners, politics, and empire building, and the exploitation and humanitarianism of the century of Pax Britannica.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 334. **Britain and the Commonwealth in the Twentieth Century. 3 Credit Hours.**
The challenges and changes in Britain and its overseas dominions in the century of total war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 335. **The French Revolution and Napoleon (1789–1815). 3 Credit Hours.**
An analysis of French history from the Revolution to the collapse of the Napoleonic Empire, stressing the passing of feudalism in France.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 336. **Modern French History. 3 Credit Hours.**
This course covers the political, social, cultural, economic, and military history of France since 1870. Major themes include power and decline, the weight of historical memories, issues of French identity, and the central role of the French state.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 337. **Modern European Jewish History. 3 Credit Hours.**
Jewish history in Europe since 1789, emphasizing the effects of the Enlightenment, nationalism and Nazism, Jewish life in Western Europe and in the communist bloc, and the impact of Israel.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 338. **The Holocaust in Historical Perspective. 3 Credit Hours.**
The evolution and implementation of the theory of racialism in imperial Germany and the Third Reich.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 339. From Luther to Napoleon: Germany, 1500-1800. 3 Credit Hours.
German history from the Reformation through the reorganization of the German states after the Napoleonic Wars (1815) with emphasis on the federal character of early modern Germany, religion, and topics of social and economic change.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 340. History of Modern Germany since 1815. 3 Credit Hours.
German history since 1815 concentrating on the political and social history of the German Empire, Germany's role in World War I, the Weimar Republic and the rise of Hitler, Nazi Germany, and developments since 1945.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 341. History of the Third Reich. 3 Credit Hours.
A comprehensive survey of the history of Nazi Germany from the pre-fascist movements before World War I to the final collapse of the Nazi regime in 1945.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 343. Ages of Gold and Silver: An Economic and Social History of Europe, 1450-1750. 3 Credit Hours.
Economic and social history of Europe in the early modern period. Writing intensive course.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 346. Imperial Russia. 3 Credit Hours.
Domestic political, social, economic and cultural developments, and foreign affairs in Russia from the beginning of the 19th century to the Russian Revolution of 1917.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 347. Soviet Union and Post-Soviet Russia. 3 Credit Hours.
The Soviet Union from the Russian Revolution (1917) to the disintegration of the USSR (1991), and the post-Soviet period to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 348. Europe in the Age of Hitler and Stalin. 3 Credit Hours.
This course covers European history between 1914 and 1945. Principal topics include the experience of two world wars, the rise of fascism and communism, the challenge of democracy, and the failure to secure a lasting peace.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 349. The Rise and Fall of the European Great Power between Napoleon and the Cold War. 3 Credit Hours.
European Diplomatic History from the Revolutions of 1848 to the Cold War period.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 350. Europe and the World in Modern Times. 3 Credit Hours.
This course examines European relations with the wider world over the past several centuries. It combines the perspectives of the history of European exploration and expansion, imperialism and decolonization, global transport and trade, world wars, and globalization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 351. Science and Society. 3 Credit Hours.
The relationships between science and society, historically and in contemporary life.
Components: LEC.
Grading: CNC.
Typically Offered: Offered by Announcement Only.
HIS 352. The Inquisition. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 353. History of Cuba. 3 Credit Hours.
The development of the Cuban nation, emphasizing the nineteenth and twentieth centuries and the Castro revolution. This course will concentrate on studying "Cuba After Castro". We will analyze various scenarios for "change" and what implications these will have for the next administration in Washington DC as well as in other parts of the world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 354. Latin America's Urban Explosion: 1900-2010. 3 Credit Hours.
Examines major facets of Latin America's urban transformation, 1900-2010. Studies urbanization from the perspectives of multiple disciplines including architecture, photography, art history, music, cultural studies and political science. Major themes include: architectural modernization and cultural change; industrialization and the emergence of professional sports; rural-urban migration and the proliferation of shanty towns; the emergence of mass politics; the expansion of the informal sectors; and the growth of social violence, drugs and crime.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 355. Modern Brazil. 3 Credit Hours.
The history and culture of modern Brazil.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 356. History of Argentina's Civilization, Barbarism, and Power. 3 Credit Hours.
How did a country that was supposedly so prosperous and advanced become a land of perennial crisis? Countless observers have posed variations on this question in seeking to make sense of the "Argentine riddle". This class will provide students with an introduction to the fascinating history of Argentina. We will reject pat explanations of the "riddle" to examine instead the array of cultural, political, and economic forces that have shaped Argentine society.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 357. Social History of Latin America. 3 Credit Hours.
Demographic changes, race and ethnic relations, immigration, and urbanization.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 359. Caribbean Intellectual History. 3 Credit Hours.
Nineteenth and twentieth-century Caribbean political and social thought. Connects the history of ideas to the history of social movements in the region. Links international, intellectual, political and artistic currents.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 360. Modern Latin America Through Film. 3 Credit Hours.
Analysis of films with regard to their historical value and their impact on forming historical perceptions about modern Latin America.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 361. American Colonial History (1607-1763). 3 Credit Hours.
History of the British mainland colonies from the establishment of Jamestown to the end of the French and Indian War.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 362. The American Revolution (1763-1783). 3 Credit Hours.
The political, social, and constitutional issues that culminated in the Declaration of Independence, and the achievement of American nationhood.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 363. The Early Republic (1783-1850). 3 Credit Hours.
A study of the constitutional, political, territorial, economic, and social development of the United States from the end of the American Revolution to
the Compromise of 1850.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 364. Civil War and Reconstruction (1850-1877). 3 Credit Hours.
A study of the origins of the American Civil War, emphasizing the economic, political and social, as well as military aspects of the conflict, and the
course and consequence of the Reconstruction period.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 365. Emergence of Modern America (1877-1917). 3 Credit Hours.
United States from the end of Reconstruction to the First World War.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 366. America in Crisis (1917-1945). 3 Credit Hours.
The United States from World War I through World War II.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 367. Contemporary America. 3 Credit Hours.
The United States since World War II.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 368. Nature and the Environment in American History. 3 Credit Hours.
Shifting attitudes toward nature and the environment in American history; the rise of environmentalism and changes in public policy related to
environmental conservation and preservation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 369. Introduction to Urban America. 3 Credit Hours.
The changing role of the city in American history. The built environment. The interaction of the built environment and the lives of residents.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 370. Storied Pasts: 19th Century U.S. History and Literature. 3 Credit Hours.
19th-century American intellectual and cultural history through the lens of literature. Analyzing key works of fiction, poetry and philosophy as both
literary texts and historical sources, we will seek to discover how the changing themes and forms of nineteenth-century literature shaped and/or
reflected larger intellectual, political and social currents. Students will read novels by authors such as Hawthorne, Melville, Twain, Jewett, Gilman,
James, Wharton, and Crane, alongside historical material.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HIS 371. Immigration, Race and Ethnicity in American History. 3 Credit Hours.
Migration and immigration in 19th- and 20th-century in the United States. How Americans have understood themselves as part of a multicultural
society, and how ethnic and racial identities have been defined throughout American history.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 372. The Sixties. 3 Credit Hours.
The culture and history of the 1960s in the United States through writings, film, music, and the experience of faculty members who participated in important events during this era of major conflict and change.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 373. The Civil Rights Movement. 3 Credit Hours.
This course explores the modern Civil Rights Movement, one of the most profound occurrences in the history of the United States of America, and examines how it reshaped the nation, from politics and the economy to social relations and cultural values.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 374. History of Feminism. 3 Credit Hours.
History of feminism with a focus on the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 376. American Legal and Constitutional History. 3 Credit Hours.
The development of legal thought and practice in the context of American politics, economy and ideology during the twentieth century. Special consideration will be given to social movements and their treatment under the rule of law.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 377. Sport in American History. 3 Credit Hours.
The role of sport in American culture. Sports relation to urban growth, professionalism, ethnic identity and assimilation, nationalism, and consumption.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 379. History of the Old South (1607-1861). 3 Credit Hours.
The American South from Jamestown to secession, emphasizing the development of plantation society, the rise of internal and external conflict, and the shaping of the idea of the "Old" South.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 380. The New South (since 1877). 3 Credit Hours.
History of the U.S. South from "Redemption" to the present, emphasizing Populism, Progressivism, the idea of a "New" South, and the civil rights movement.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 381. History of Florida. 3 Credit Hours.
Florida from its discovery, exploration, and colonization to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 382. Ideas and Culture in Early American History. 0-3 Credit Hours.
Intellectual and cultural history in America from the colonial period to the Civil War, focusing on developments in religion, philosophy, political and social theory, and the arts.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 383. Ideas and Culture in Modern United States History. 3 Credit Hours.
American Social Movements.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 385. White Man's Burden: Building the US Empire Before 1914. 3 Credit Hours.
American statesmen long asserted they bore a "white man's burden" to "uplift and civilize" the globe. This course explores the ideology of U.S. Empire to understand how the nation went from thirteen colonies to a continental and global power.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 388. The Vietnam War. 3 Credit Hours.
U.S. involvement in Vietnam from 1945 to 1973, emphasizing the diplomatic and military components.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 389. Nineteenth-Century Europe: Barricades, Borders, and Bourgeoisie. 3 Credit Hours.
Survey of 19th-century Europe from the French Revolution to World War I, focusing on political and cultural history.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 390. Europe after Hitler. 3 Credit Hours.
Survey of European History from the end of World War II, focusing on political and cultural developments.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 391. The History of Everyday Life. 3 Credit Hours.
The History of everyday life in early modern Europe (ca. 1500-1700). We will study how Europeans experienced and made sense of their environment, their communities, relationships, time, the self, the stages of life, food, drugs, work, and recreation.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HIS 392. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 393. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 394. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 395. World War I. 3 Credit Hours.
The military and political history of the First World War (1914-1918), beginning with a survey of military and naval developments in the early 20th Century and the diplomatic background of the war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 396. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated parenthetically following course title in class schedules.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HIS 397. History Internship. 3 Credit Hours.
Provides history students with the opportunity to obtain credit for an internship with the approval and under the close supervision of a faculty member.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 401. Directed Readings in African History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 411. Directed Readings in Asian History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 412. Mahatma Gandhi and Martin Luther King Jr. A Call to Civic Engagement. 3 Credit Hours.
Selected works of M.K. Gandhi and Martin Luther King Jr. and their legacies and impact on the field of community service and civic engagement. The class will be organized into three modules - 1) academic learning inside the classroom, 2) work on similar themes in the community, 3) reflections of civic engagement before, during, and after conclusion of modules. Through a detailed study of Gandhi and King's writings, speeches, archival and visual materials we will explore their theories and praxis of engaged citizenry, political, social and economic justice. Students will be paired with City Year Miami based in Miami-Dade County that works in areas of education access and closing the gap in marginalized communities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HIS 421. Directed Readings in European History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 447. Global History of Communism. 3 Credit Hours.
The evolution of both Marxian theory and communist societies. How are Marxism-Leninism, Stalinism, Maoism, and other schools of thought different from one another and from the writings of Karl Marx and Friedrich Engels? What is the history of the global communist movement in the 20th century, and during the Cold War in particular? We will discuss the Soviet Union, as well as other case studies from around the world to explore the diversity of the socialist world and its cultural, intellectual, economic, and political networks. Students will develop skills in analytical thought, vocal and written expression, and GIS tools that they will use in a StoryMap final assignment.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HIS 451. Directed Readings in Latin-American History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 461. Directed Readings in United States History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 491. Directed Readings in Comparative History. 1-3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 501. Studies in African History. 3 Credit Hours.
Selected topics in African history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 511. Studies in Asian History. 3 Credit Hours.
Selected topics in Asian history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 515. Studies in Chinese History. 3 Credit Hours.
Selected topics in Chinese history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 531. Studies in European History. 3 Credit Hours.
Selected topics in European history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 534. Studies in Ancient History. 3 Credit Hours.
Selected topics in Ancient history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 535. The History of Rivers. 3 Credit Hours.
This undergraduate seminar examines how human history has entwined with rivers and river valleys and how, consequently the history of rivers has been written as human history along rivers. The format will combine seminar discussions with a term paper on a single river's history.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

HIS 536. Studies in Medieval History. 3 Credit Hours.
Selected topics in Medieval history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 538. Studies in Early Modern European History. 3 Credit Hours.
Selected topics in European history before the French Revolution. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HIS 544. Studies in Modern European History. 3 Credit Hours.
Selected topics in European history after the French Revolution. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 551. Studies in Latin American History. 3 Credit Hours.
Selected topics in Latin-American history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 553. Studies in Colonial Latin American History. 3 Credit Hours.
Selected topics in the colonial period of Latin-American history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.

Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 554. Studies in Modern Latin American History. 3 Credit Hours.
Selected topics in Latin-American history before and after Independence. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.

Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 561. Studies in United States History. 3 Credit Hours.
Selected topics in United States history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.

Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

HIS 564. Studies in American Intellectual and Cultural History. 3 Credit Hours.
Selected topics in American intellectual and cultural history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.

Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 565. Studies in American Political and Diplomatic History. 3 Credit Hours.
Selected topics in American political and diplomatic history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule.

Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 569. Studies in African-American History. 3 Credit Hours.
Selected topics in African-American history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.

Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 570. Studies in Public History. 3 Credit Hours.
Selected topics in public history. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.

Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 591. Studies in Comparative History. 3 Credit Hours.
Selected topics in Comparative History. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.

Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

HIS 592. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 593. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
HIS 594. Transfer Credits. 1-5 Credit Hours.
Courses taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.

HIS 595. Studies in Visual History. 3 Credit Hours.
Selected topics in the use of photographs and other visual evidence for historical purposes. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

HIS 597. Semester 1 of 2-semester senior honors thesis program. 3 Credit Hours.
A demanding and intellectually exciting two-semester honors track. It affords an opportunity for students to pursue their particular research interest and to engage with a lively cohort of other honors students in an organized seminar format.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

HIS 598. Second semester in a 2-semester senior honors thesis program. 3 Credit Hours.
The second semester of a demanding and intellectually exciting two-semester honors track. In this the second semester students will focus on interpreting their original research, presenting initial findings in the seminar format, writing a rough draft of the thesis essay, and revising that draft in order to complete and present their final honors thesis essay at the end of the semester.
Components: THI.
Grading: GRD.
Typically Offered: Fall.

HIS 599. Independent Research. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

B.A. in History

A major in history consists of at least 30 credit hours in history with a grade of C- or better in each course, and with a cumulative GPA of at least 2.0 in history courses. These credit hours may include history courses taken for general distribution requirements, and must include at least 18 credit hours at the 300 level or above, of which at least 6 credit hours must be taken in the form of 500-level seminars. (HIS 599 does not count). All courses for majors will be selected by students in consultation with advisors designated by the department.

Credit hours from other institutions may be counted toward the major or minor, and to general distribution requirements as appropriate, but departmental approval is required in each case. Students who complete the Advanced Placement course in either United States or European history and pass the examination with a grade of 4 or 5 may receive credit in the appropriate history courses. Students who complete the International Baccalaureate program and pass the higher level history examination with a grade of 6 or higher will receive 3 credit hours in the appropriate entry-level history course. (However, in some cases students will only receive elective credit hours). At least 18 credit hours of the major and at least 9 credit hours of the minor must be completed at the University of Miami.

The department offers a variety of study abroad options with credit toward the major or minor.

### Mission

The three principle objectives of coursework in history are to provide students with the (a) context in which issues and events, people and places, laws and society, progress and prosperity, problems and solutions are given root and foundation; give them the (b) critical reasoning skills for effective comprehension; and (c) supplement their cognitive knowledge base which is essential for career placement in the information-driven twenty-first century world of ideas, be that in education, business, technology, public or private sector employment or community service. Thus history with its study of how people function in complex social and cultural environments that change over time is an ideal discipline for honing the skills necessary to think clearly and critically whether that be applied as a practicing historian or a lawyer, physician, politician, governmental employee, private entrepreneur or simply a thoughtful, cultured, engaged member of society.

### Goals

The program objectives are:

- to prepare students for employment in careers related to education or in careers which value critical reasoning; and
- to prepare them for admission to graduate or professional schools.

### Student Learning Outcomes

- Students will demonstrate they think critically and analytically and construct persuasive arguments differentiating fact from conjecture.
- Students will demonstrate a breadth of understanding of historical information and narratives.
- Students must demonstrate an understanding of historical scholarship.

### Five-Year Bachelor of Arts/Master of Arts in History

#### Overview

The BA/MA program is a five-year program that combines an undergraduate degree in History with a Masters degree in History. The accelerated nature of the program enables students to take graduate-level courses in their final undergraduate year (once they have completed 90 undergraduate credit hours, per UM regulations) and then complete the Master’s degree in one year of full-time study, rather than the usual two years of full-time graduate study, and at a reduced cost.

#### Admission Requirements

Applications will be reviewed by the Department of History’s graduate committee. To qualify for admission to the Five-year BA/MA Degree in History, applicants must:

- have earned 15 credit hours in History courses, including 3 credit hours at the 500-level
- have earned a 3.5 GPA in History courses

• receive an endorsement from one full-time faculty member in the Department of History who agrees to serve as the student’s MA advisor
• submit their application to the program no later than January 5th of their Junior year To remain in the program, students must:
  • complete all requirements for the History BA
  • complete all of the requirements for the History MA
• enroll in a minimum of 12 undergraduate credit hours per semester until the BA is awarded
• earn a minimum cumulative GPA of 3.3 in all History graduate coursework

The Department of History’s graduate committee, in conjunction with each student’s MA Advisor, will assess the student’s progress after each semester.

1 HIS 599 does not count toward the 6 hours of required 500 level seminars.

4 A grade of C- or better and a cumulative GPA of at least 2.0 are required for all history courses.

2* All courses for majors will be selected by students in consultation with advisors designated by the department.

2 This course is normally given in the fall semester. All students are required to take the Historiography course in their first year. This course counts for 3 of the 30 credits.

3 Typically, students take HIS 701 and HIS 702 in their 2nd and 3rd semesters in the program. The credit hours from these courses are included in the total required.

4 The comprehensive examination for the M.A. degree in history is an oral examination in two fields that will normally not exceed two hours. Although the exam is in two fields, all members of the advisory committee will participate. Students selecting the thesis examination should expect questioning on the thesis as well as their fields during the examination. For such students the comprehensive exam also will act as a thesis defense. For a list of fields, see below.

5 Students may, if they wish, write an M.A. thesis. Students who elect this option should consult with their advisor. Any student writing a thesis should register for 6 credit hours of HIS 810, which count toward the 30 required credit hours. Students must apply for graduation in their penultimate semester (i.e. fall semester for spring semester graduation).

### Committee

Upon admission to the master’s program in history, the student is assigned a provisional major advisor. An advisory committee of three, including the major advisor and a faculty member representing the student’s secondary field, must be formed no later than the student’s second semester in the program. There are then two options for completing the masters. One requires 30 credit hours of coursework and an exam. The other requires 24 credit hours of coursework, a master’s thesis (6 thesis credit hours), and an exam. In the case of both options, one member of the committee may be from a cognate discipline, but this is not required. It is the responsibility of the student and the advisor to form the committee and to notify the DGS
of its composition. The major advisor chairs the advisory committee and oversees the student's course of study and progress in the program. The advisory committee also administers the oral comprehensive exam that is given in the case of either option. In the case of the second (thesis) option, the advisory committee and the thesis committee are usually, but not necessarily, composed of the same faculty members.

1. Courses for minors should be selected in consultation with a departmental advisor. These credit hours may include history courses taken for general distribution requirements, and must include at least 9 credit hours at the 300 level or above.

* A grade of C- or above in each course and a cumulative GPA of at least 2.0 are required in all history courses.

### International Studies

international-studies.as.miami.edu

Dept. Code: INS
Introduction
The International Studies major provides a focused educational experience aimed at familiarizing students with the key structural features and dynamics of the international system and preparing them to enter the growing international job market. Processes of globalization, in part driven by global capital flows, expanding trade and the unrelenting development of communication and information technologies, have affected virtually everyone in every country, often in ways we are just beginning to understand. These developments often pose serious problems for government and other societal institutions, while also creating a demand for individuals who understand international processes. Jobs in virtually all sectors have acquired a decidedly international dimension, whether in trade, tourism, finance, public policy, government, or education. INS Graduates have moved on to the corporate world, the public sector, started their own businesses, or have continued their studies at the graduate level (i.e. Law, Business, and International Studies).

Educational Objectives
International Studies seeks to provide students with the ability to understand:

- International politics within the context of interstate relations and foreign policy.
- International economics and its sub-discipline international political economy, including such issues as trade and production, money and finance, and development.
- Social science research methods including qualitative, quantitative, comparative case study and formal modeling.

Students are encouraged to explore interdisciplinary options that further their understanding of international studies. This type of coursework can be taken in other disciplines offered at the university or taken outside the institution, either through exchange programs or other inter-institutional options provided by UM. Students will demonstrate the ability to synthesize the various thematic areas of the discipline through required participation in advanced seminars. Seminars will stress analytical participation, oral presentations and the ability to interpret and critique core theoretical readings.

Degree Programs
International Studies provides both a major and minor option for students. The flexibility of the program often allows students to double major without the need to extend their university studies. Students are encouraged to speak with the International Studies advisor to explore such possibilities. The major in International Studies leads to the degree of Bachelor of Arts.

Advanced Writing & Communication Requirements
Details of the Advanced Writing and Communication Proficiency:

Degree candidates must complete at least four writing courses, and at least one writing course must be in one of the student's major disciplines (not applicable to BLA students who do not select a major). Students should consult the bulletin section of their major to find out which writing-intensive courses are acceptable to the discipline.

Individual writing course offerings may make the writing component independent of the rest of the course. As such the writing component might be optional, the writing component might not contribute to the overall grade, and writing credit might be awarded even if the overall grade is a fail.

Transfer students may use a maximum of two courses towards the writing requirement.

Departmental Honors
The Department of International Studies encourages its majors to intensify and deepen their knowledge of the field through its departmental honors program. The program is designed to give students the opportunity to explore various topics and problems in international studies that are of particular interest to them, to work more closely with departmental faculty, to develop skills in research and thesis preparation, and in some cases to prepare for graduate work in international studies and related fields.

Minimal requirements for the program are as follows:

1. a cumulative grade point average of at least 3.30;
2. a cumulative grade point average in international studies of at least 3.50; and
3. a thesis that is approved, with a grade of at least B+, by a member of the departmental faculty.

After reaching agreement with a member of the faculty who will serve as the honors thesis advisor, students writing a senior honors thesis will enroll in INS 418 and INS 419, Honors Thesis, for a total of six credit hours [the credit hours may be spread over two semesters or taken in a single semester]. The thesis itself is expected to be an extended, coherent work of scholarship on an issue of relevance in the field of international studies.
INS 101. Global Perspectives. 3 Credit Hours.
Introduces students to the study of international relations focusing on the continuing threat of national and ethnic conflict; terrorism; environmental and health concerns; globalization; economic interdependence, and poverty. Students are provided an overview of the evolution of international affairs in the modern era and are introduced to the various scholarly approaches for an understanding of international affairs.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 102. Global Economics. 3 Credit Hours.
The international economy. This course develops the analytical tools underlying "the economic way of thinking" and applies them to two main topics: the environment and international trade.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 103. World in Crisis. 3 Credit Hours.
A global overview of critical issues of the world in the 21st century is the primary objective of this course. In an interdisciplinary framework experts from the University's faculty will lecture and participate in panels discussing issues such as globalization, military conflict, proliferation of weapons of mass destruction, transnational terrorism, ethnic conflict, global climate change, global financial issues, global wealth disparities and global poverty, immigration and refugee crises, epidemic diseases. Students will learn about conflict in the Middle East, China, its rising economic and military strength, renewed Russian worldwide assertiveness, failed states, and generally, problems of global governance.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 104. Global Perspectives Discussion Section. 0 Credit Hours.
Discussion topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: DIS.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 105. Global Perspectives Discussion Section 2. 0 Credit Hours.
Discussion topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 201. Globalization and Change in World Politics. 3 Credit Hours.
The academic and public policy debates regarding the multiple impacts of the globalization of the world economy on the politics of nation-states and on the dynamics of the international system itself.
Prerequisite: INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 202. INS Methodology. 3 Credit Hours.
The approaches, methods and techniques used for designing and conducting international studies research.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 210. INS Topics. 3 Credit Hours.
Special topics taken at other institutions with no direct equivalents.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 310. Advanced Topics in INS. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
INS 311. Advanced Topics in INS II. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: POL 202 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 319. Empire: Global Legacies. 3 Credit Hours.
A review of the key features of the Roman, Chinese, Russian, Ottoman, Spanish, and British empires and their global legacies. Different perspectives and conceptualizations on empires. Major characteristics of the empires studied and their enduring resonances in specific regions and globally.
Prerequisite: INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 320. Global Economics II. 3 Credit Hours.
Macroeconomics and its application to the study of the international economy. Measurement of income and level of development; determinants of economic growth; inflation and unemployment; open economy macroeconomics.
Prerequisite: INS 102 or ECO 211 or ECO 212.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 321. International Development. 3 Credit Hours.
A synthesis of major theories of international development, institutional architecture, and practice of international development. Focuses on key international development policies such as trade, macroeconomic finance, and equity. Considers narrow conceptions of modernity, growth, progress, wellbeing, and culture toward broader conceptions of freedom and/or sustainable development in both the Global North and Global South.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 322. Economics of Development and the Environment. 3 Credit Hours.
Structural changes that accompany economic growth that impact the environment and sustainable development.
Prerequisite: INS 102 or ECO 211 or ECO 212.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 324. The History of Zionism. 3 Credit Hours.
The religious, cultural, historical, political and social underpinnings of the development of Zionism that fed to the creation of the State of Israel. Through readings, analysis of speeches and essays, exploration of films and the internet, the class will move through time from the origins of the Zionist idea to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 325. Israel: The Making of a State. 3 Credit Hours.
An introduction to the creation of the State of Israel in its historical context, emphasizing the period of 1935-55: the struggle for Israel’s establishment, the making of the state and the early challenges Israel faced. The class will use documents, texts, testimony, poetry, music and film.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 330. Introduction of Comparative Studies. 3 Credit Hours.
Introduces students to the comparative method and to the theories and concepts required to analyze political transformation of states, societies, economies and culture in a globalization world.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
INS 335. Democratization. 3 Credit Hours.
A comparative overview of the problems of introducing democratic and market economic institutions into areas where they have not flourished and how to maintain them in established democracies.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 341. Nationalism, Ethnicity and Conflict. 3 Credit Hours.
Examines theories of ethnic and national conflict focusing on contemporary issues throughout the world.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 344. Gender and Politics. 3 Credit Hours.
Compares the roles played by men and women in political systems worldwide; examines public policy outcomes with significant gender-based effects, including policies on sexuality and reproductive health, gender-based violence, work and the family, and access to education.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 352. Panoramic View of the Middle East. 3 Credit Hours.
The Middle East and a basic understanding of the factors, forces and processes shaping developments in the modern and contemporary history of this important world region.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 357. Global Food: A Hands-On Approach. 3 Credit Hours.
Application of principles of permaculture via designing and creating a small "global farm" on campus to grow perennial food crops which are unique to the South Florida environment. We learn by doing, cultivating plants that hold the solution to world hunger problems.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 358. Food Policy: Hands-On Approach. 3 Credit Hours.
In this course, students will begin to immediately plant in the early spring, while harvesting the earlier fall semester's produce. The course will introduce students to planting and maintaining edible perennials in the South Florida environment. Students will study the role of urban farming as a potential contribution to the local food supply, changing urban landscapes into garden cities, and enhancing the role of tropical agricultural in reversing global warming.
Components: WKS.
Grading: GRD.
Typically Offered: Spring.

INS 359. Culture, Civilizations and Religion in International Relations. 3 Credit Hours.
International Relations (IR) theories have traditionally neglected ideational factors such as identity, religion, and culture: unlike states, they were "non-territorial"
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 367. Foreign Policy Topics. 3 Credit Hours.
Selected topics in Foreign Policy. Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
INS 380. Democracy and Globalization in Latin America. 3 Credit Hours.
The global dimensions of Latin American politics, emphasizing democratization and its discontents; human rights; the emergence of transnational
civil society; and the impacts of market reforms on development, equity and social inclusion.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 385. Latin American Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the course number and title.
Prerequisite: INS 101 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 391. The European Union. 3 Credit Hours.
The course will combine 6 objectives: 1)to investigate the historical development of Europe as a civilization and as an idea through review of some
main historical and political factors and ideologies from 1815-present; 2)to survey the main organizations and experiments in European integration
before/after World War II; 3)to analyze the historical development of the European communities; 4)to examine major institutions of the European
Union; 5)to analyze the main European Union policies and current issues; 6)to reflect upon the future of the nation-state and the idea of a united
Europe, the role of transformed ideologies, and the rebirth of nationalism while pondering about future scenarios for European integration.
Prerequisite: INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 394. European Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the course number and title.
Prerequisite: POL 202 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 410. INS Advanced Seminar. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 102 or INS 201 or POL 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 411. Advanced Seminar. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 415. Independent Study. 1-6 Credit Hours.
Individualized research done under the guidance of selected faculty member. Depending upon the requirements established by the instructor, the
student will be responsible for a research paper corresponding to the number of credits taken.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 418. Honors Thesis. 3 Credit Hours.
Honors thesis research. This course is required for students seeking magna or summa cum laude and those seeking departmental honors. A thesis
committee comprised of three members, two from International Studies and one from the university faculty must be established. The thesis advisor
must also be from International Studies.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
INS 419. Honors Thesis II. 3 Credit Hours.
Honors thesis writing.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 420. Global Trade. 3 Credit Hours.
Economic principles in global issues such as comparative advantage; specialization and trade; macroeconomics in the open economy; commercial policy; globalization; inequalities, within and among nations; and governance.
Prerequisite: INS 102.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 421. Poverty and the Environment. 3 Credit Hours.
The processes by which a growing economy creates wealth in the form of goods and services while simultaneously increasing poverty and pollution.
Prerequisite: INS 102.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 430. Comparative Studies Seminar. 3 Credit Hours.
Seminar topic varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Prerequisite: INS 201.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 450. History of Economic Thought. 3 Credit Hours.
A review of the contributions made by some of the most influential authors and schools of thought to the fields of political economy and economics. Examination of the links of ideas, theories, and policy approaches on economic phenomena with moral philosophy and other realms of knowledge. Emphasis is placed on the contributions made by the classics of political economy and their continuities and discontinuities with respect to pre-classical and post-classical ones.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 460. United Nations Seminar. 3 Credit Hours.
The organization and functions of the UN, including its structure, network of agencies, and issues in which it is involved. Emphasis is given to reforms, the Millennium Development Goals, and problematic relationships among the UN member states.
Prerequisite: INS 201.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 495. Capstone in International Studies. 3 Credit Hours.
Students integrate and apply thematic knowledge (topics vary by semester e.g., international security, international development, international studies & film, international economy & environment, a major regional challenge (EU, Latin America and/or Africa), and/or IR theory). Course provides opportunities to build upon what students have learned in major while demonstrating intellectual creativity in solving problems and communicating effectively; demonstrate knowledge in the field and avail of a shared experience in preparing to utilize the INS major.
Prerequisite: INS 102 and INS 201 and INS 202 And Requisite: Junior Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 501. Capstone in International Studies. 3 Credit Hours.
Students integrate and apply thematic knowledge (topics vary by semester e.g., international security, international development, international studies & film, international economy & environment, a major regional challenge (EU, Latin America and/or Africa), and/or IR theory). Course provides opportunities to build upon what students have learned in major while demonstrating intellectual creativity in solving problems and communicating effectively; demonstrate knowledge in the field and avail of a shared experience in preparing to utilize the INS major.
Prerequisite: INS 101 or INS 102 or INS 201 or INS 202 and at least Junior Standing.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
INS 503. International Relations Topics. 3 Credit Hours.
Selected topics in International Relations Theory. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 504. Int Rel Topics II. 3 Credit Hours.
Selected topics in International Relations Theory. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 509. International Migration and the Health Care System. 3 Credit Hours.
An exposure to one of the most critical aspects of development globally: the migration-development nexus. The centrality of this issue has in current debates on development. Research and policy-making approaches to different aspects of this nexus. Several countries and regions are covered throughout the semester. Development of research skills through systematic participation in specific projects.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 510. Issues in Ins. 3 Credit Hours.
Analysis of current issues of international importance.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 515. Independent Study. 1-6 Credit Hours.
Advanced level research done under the guidance of a selected faculty member. This course can be used as one of the two 500-level requirements for International Studies majors.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 518. Global Migration and Development. 3 Credit Hours.
An examination of the nexus between migration and the health care system. Immigrants as professionals in the medical field; immigrants as people in need to health care services. Many countries have relied on immigration to cover critical shortages of professionals while others suffer from the exodus of professionals. The impact of immigration on these systems through an increase in the demand for medical services and other mechanisms. An examination of research and policy approaches to these issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 519. Internship: Knowledge Partnership Civic Engagement. 1-3 Credit Hours.
The Knowledge Partnership Internship and Civic Engagement course offers students the opportunity to apply their academic/theoretical training to a practical internship experience. In addition to the internship component, there is a civic engagement component, and a total of three arranged class sessions held over the course of a semester.
Components: FLD.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

INS 520. Microeconomics for INS. 3 Credit Hours.
Microeconomics for students of international studies. Topics will include rationality, market failure and comparative advantage.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 521. International Economic System Topics II. 3 Credit Hours.
Selected topics in International Economics. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
INS 522. Latin American Political Economy. 3 Credit Hours.
Latin American political economy including analysis of market reform and integration of the region into the world economy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 524. Int'l Econ Topics II. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 530. Comparative Analysis. 3 Credit Hours.
Advanced overview of the comparative method. Required for students specializing in Comparative Studies at the graduate level.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 532. Globalization and Human Rights. 3 Credit Hours.
The integration of markets has many concerned for the political and economic rights of the common citizen. This course examines The effect of globalization on the human rights standards throughout the world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 533. Transnational Social Movements. 3 Credit Hours.
Focuses on global civic activism and contentious politics, with particular attention to transnational non-state actors - NGOs, social movements, environmental protection, and the emergence of a global civil society.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 534. Military, State and Society. 3 Credit Hours.
The role of the military in state formation; questions of military rule, civilian control, and social structures in contemporary world politics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 536. Comparative Political Regimes. 3 Credit Hours.
Literature concerned with the transition from authoritarianism to democracy in various parts of the world.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 537. Comparative Political Economy. 3 Credit Hours.
Compares how domestic politics and macroeconomic policies interact with globalization. Case studies include welfare states in the U.S. and Europe, East Asian development, post communist transitions and market restructuring in Latin America and Africa.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

INS 540. National Security. 3 Credit Hours.
The central issues concerning European security since World War II, with emphasis on the period since the end of the cold war.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 542. Drug-Trafficking in the Americas. 3 Credit Hours.
The political economy of the U.S.-Latin American drug trade in the 20th Century along with the dynamics of the U.S.-led war on drugs through the first years of the Twenty First Century.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
INS 543. National Security and Foreign Policy. 3 Credit Hours.
Explores alternative conceptualizations of "security" and the new challenges to U.S. national security that have emerged in the Post-Cold War era.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

INS 551. Regional Topics II. 3 Credit Hours.
Selected topics in International Business. Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 560. U.S. Foreign Policy. 3 Credit Hours.
The leading approaches to the analysis of American foreign policy. Particular emphasis will be placed on the post-Cold War period and the new challenges to U.S. foreign policy of the 21st century.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 561. Negotiation and Bargaining. 3 Credit Hours.
Examines the nature of diplomatic negotiation through readings and discussion of international negotiation and through the case method, selecting several cases of high-level policy issues in which the United States has been a principal actor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 562. International Peace and Conflict Resolution. 3 Credit Hours.
The major sources of conflict, and what resources are available for making and keeping the peace? This class introduces students to the most fundamental concerns of the field of International Relations (IR), and especially of its sub-field IPCR.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 563. International Organizations. 3 Credit Hours.
The role, function, and impact on states of international governmental and non-governmental organizations in critical areas like peace and security, human rights, economic development, and environmental degradation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 564. International Law. 3 Credit Hours.
How international law affects the conduct of states. Issues include jurisdiction, diplomatic immunity, the use of armed force, peaceful dispute settlement among states, human rights, and the International Criminal Court.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 565. The World Before European Domination. 3 Credit Hours.
The historical roots of the contemporary international system. Its objective is to question the standard Eurocentric perspective on the rise of the West to a dominant position in the global system.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

INS 566. U.S.-Latin American Relations. 3 Credit Hours.
Political, economic and strategic aspects of U.S.-Latin American relations; the historical experience and contemporary issues, including the influence of extra-regional parties such as Europe and China.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.
INS 569. Global Issues and Film Making: A Trans-disciplinary Approach. 3 Credit Hours.
Global issues and filmmaking studied via a transdisciplinary approach. Topical focus varies among health, foreign aid, human security, international development, and global urbanization.
Components: RSC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 570. Globalization and Health. 3 Credit Hours.
Globalization and its benefits and threats to public health; the relationship between global economic, political, social, cultural, environmental and technological changes and their impact on human health.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

INS 571. Global Health and International Development. 3 Credit Hours.
Health and development links; macroeconomic polices and their impact on social equity; poverty and structural inequities; and other key issues that influence human development.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 572. Global Health Policy and Ethics. 3 Credit Hours.
National, regional and global health policies with special consideration to ethical and human rights issues; policies and the moral considerations that shape public health policy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 573. Disasters, Terrorism and Global Public Health. 3 Credit Hours.
The historical processes and present trends of disasters, terrorism, humanitarian emergencies and their impact on human health, safety and security.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 580. Latin American Comparative Politics. 3 Credit Hours.
The major intellectual debates shaping the field of comparative politics including: (1) development, (2) military politics, (3) democratization and (4) the emergence of new social movements.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

INS 581. Politics and Ideology in Latin America. 3 Credit Hours.
The roles played by both "class" and the "new social movements" in the emergence of new modes of political representation.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 584. Latin American Thought. 3 Credit Hours.
The evolution of Latin American thought through political and intellectual history; the classical writings of the main "pensadores", and a comparative analysis of contemporary ideological trends.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 586. Brazil in Transition. 3 Credit Hours.
The social, economic, cultural transformations shaping Brazilian politics. In addition to visiting Rio de Janeiro and Salvador, there will be seminars with Brazilian academics and social and political activists.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
INS 590. European-Latin American Relations. 3 Credit Hours.
This course deals primarily with five main themes: shared history between Europe and Latin America; mutual transfer of ideas (ideologies and political thought), perceptions (images and stereotypes), people (voluntary and slavery), and goods (trade and investment); foreign policies of main European states and the European Community toward Latin America; an analysis of some specific country cases (Spain, especially) and issues (regional integration, among them); and how the above have affected inter-American relations and the hegemonic role of the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 591. The European Union. 3 Credit Hours.
The European Union’s history, institutions, policies and contemporary issues.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

INS 592. European Union and the World. 3 Credit Hours.
The European Union's development, its main institutions and policies followed by an analysis of the main features of the European Union's external relations.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 593. European Security. 3 Credit Hours.
Regional security in Europe, focusing on NATO expansion, EU expansion, Russian foreign policy, and related issues.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 594. European Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the course number and title.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 595. European Social Movements. 3 Credit Hours.
The major social movements active today throughout Europe including those concerned with the environment, agriculture, poverty, racism, defending social democracy, the rights of workers, minorities, and women.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

INS 596. Post-Soviet Topics. 3 Credit Hours.
Subtitles describing the topics to be offered will be shown in parentheses in the printed class schedule, following the course number and title.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

INS 599. Special Topics. 3 Credit Hours.
Content varies by semester and is indicated in parentheses following course number and title in Class Schedule.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

B.A. in International Studies
Overview
The International Studies major provides a focused educational experience aimed at familiarizing students with the key structural features and dynamics of the international system and preparing them to enter the growing international job market. Processes of globalization, in part driven by global capital flows, expanding trade and the unrelenting development of communication and information technologies, have affected virtually everyone in every country, often in ways we are just beginning to understand. These developments often pose serious problems for government and other societal institutions, while also creating a demand for individuals who understand international processes. Jobs in virtually all sectors have acquired a decidedly international dimension, whether in trade, tourism, finance, public policy, government, or education. INS Graduates have moved on to the corporate world, the public sector, started their own businesses, or have continued their studies at the graduate level (i.e. Law, Business, and International Studies).

General Electives

Total Credit Hours

1. These courses must be completed before taking the Thematic Core courses. Students may take either INS 101 or INS 103.
2. Additional classes will be counted toward the elective portion of the INS major, if taken. Other courses, including classes in other disciplines, may be taken with the approval of the INS Advisor.
3. With the approval of the INS Advisor, students may take courses from other departments outside of INS such as Geography and Regional Studies, History, Anthropology, Sociology, Political Science, Economics, Religion, Art History, Foreign Languages, Environmental Science, etcetera. Appropriate study abroad courses, an approved internship (INS 519), or an honors thesis (INS 418 & INS 419) may also be used to fulfill elective credit hour requirements.

Important Advising Notes for all International Studies Majors

1. **Double Counting:** Of the combined courses in the INS Electives, no more than 6 credit hours may count double towards a second major. Any course used to fulfill the requirements of a minor may not be used to fulfill the requirements of the INS major.
2. **Study Abroad:** Students are strongly encouraged to study abroad for a summer, a semester, or an entire year, depending on the program. Study abroad at carefully selected institutions will complement the student's curriculum and area of specialization, will enhance fluency in the foreign language, and will result in heightened affinity for a foreign culture. The study abroad experience need not result in credit hour overloads or extended time spent in the program.
3. **Internship Credit Hour:** Students are encouraged to find a suitable internship during their undergraduate career. Upon approval by an advisor in the International Studies Undergraduate Program Office, 3 credit hours may be earned with an internship (INS 519), either toward the major or as elective credit hours (depending on the relevance of the particular internship to the INS major). The University’s Toppel Career Planning and Placement Center regularly advertises internships.
4. **Academic Standing:** Only courses in which a grade of C- or better is attained, may be counted towards the International Studies major and students must maintain a GPA of 2.75 or better in all major requirements (30 credit hours).

**Mission**

The INS Program promotes, through its interdisciplinary reach, the exploration of various theoretical and analytical approaches and methodological techniques intended to offer students a broad program of study focused on the interaction between the local and the global, from the historical to the contemporary, while tracking possible alternative future scenarios and developments in the international system.

**Goals**

- International Studies seeks to provide students with the ability to understand international politics within the context of interstate relations and foreign policy.
- International Studies seeks to provide students with the ability to understand international economics and its sub-discipline international political economy, including such issues as trade and production, money and finance, and development.
- International Studies seeks to provide students with the ability to understand social science research methods including qualitative, quantitative, comparative case study and formal modeling.

**Student Learning Outcomes**

- Students will demonstrate a comprehensive understanding of international studies within the context of interstate relations and foreign policy.
- Students will be encouraged to explore interdisciplinary options that further their understanding of international studies and will produce a paper project that demonstrates competencies in presenting interdisciplinary approaches to international studies. (This type of coursework can be taken
in other disciplines offered at the university or taken outside the institution, either through exchange programs or other inter-institutional options provided by UM).

- Students will demonstrate a comprehensive understanding of international economics and its sub-discipline international political economy. Specific issues such as trade and production, money and finance, and development are categories for students to demonstrate their level of knowledge.
- Students will demonstrate the ability to design and conduct social science research after an introduction to qualitative, quantitative, and comparative case study, and formal modeling methods.
- Students will demonstrate the ability to write critical essays (average 25 pages) in all classes except those emphasizing economics and methodology.

\(^1\) Advanced level courses from other departments may be taken if approved by the INS advisor. Only courses in which a grade of C- or better is attained may be counted towards the minor in International Studies, and students must maintain a GPA of 2.75 or better in all minor requirements (15 credit hours).

**Judaic Studies**

[judaicstudies.as.miami.edu](http://judaicstudies.as.miami.edu)

Dept. Code: JUS

**Introduction**

The George Feldenkreis Program in Judaic Studies is a broad, flexible, interdisciplinary program designed for undergraduates to gain an understanding of Jewish civilization and its diverse cultural experiences. The program, which is non-theological in orientation, is an academic exploration of the multi-faceted, socio-historical, 4,000-year record of the Jewish people. Courses taught by, and combined with the program highlight the variety of cultural, political, social, and religious experiences of Jews in different times and places.

**Educational Objectives**

The program is structured to provide an in-depth liberal arts education that will constitute a foundation for advanced academic study, professional careers in a variety of fields, and a more complex and rich understanding of the Jewish world. There are a total of 5 Judaic Studies Cognates. Judaic Studies cognates meet the requirements for People & Society and Arts & Humanities Cognates in the College of Arts and Sciences.

**Advanced Writing and Communication Requirement**

Students majoring in Judaic Studies satisfy the college of Arts and Sciences "Writing requirement in the discipline" when they take any course in Jewish or Israeli literature offered by the Department of English and any Judaic Studies course with the Writing Credit designation.

**JUS 205. Holocaust Survivor Service Internship. 3 Credit Hours.**

Interns will gain meaningful experiences that will offer them an opportunity to become involved in service-oriented activities. This will give them a deep insight and unique understanding of the historical significance of the Holocaust while providing valuable services to the survivors of Nazi atrocities.

Components: DIS.

Grading: CNC.

Typically Offered: Fall.
JUS 231. Jewish Civilization: Society, Culture and Religion. 3 Credit Hours.
Introduction to Jewish civilization from Abraham to present.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JUS 234. Jerusalem in the Time of Jesus. 3 Credit Hours.
A survey of the archaeological evidence related to Herodian Jerusalem during the time of Jesus. Emphasis on the architectural remains, material culture and inscriptions of the period that illuminate Jewish society and religious liturgy in Jerusalem. The places associated with the Gospels and the last days of Jesus will be a focus.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JUS 250. The Holocaust Through Film, Memoir and Testimony. 3 Credit Hours.
The purpose of the course is to introduce students to the history of the Holocaust through classroom dialogue, film, and literature analysis. Involving students in major ethical and moral issues raised in the study of the Holocaust by encouraging students to think critically, explore choices, and make decisions based on a code of conduct that reflects a commitment to humanity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 301. Studies in Judaica. 3 Credit Hours.
Special topics offering at the 300-level for students pursuing a major/minor in Judaic Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JUS 314. The Rise of Judaism. 3 Credit Hours.
The history and literature of early Judaism, covering the period from the fall of Jerusalem in 587/586 BCE to the beginnings of rabbinic Judaism and the formation of the Mishnah (ca.200 CE).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 324. The History of Zionism. 3 Credit Hours.
The religious, cultural, historical, political and social underpinnings of the development of Zionism that fed to the creation of the State of Israel. Through readings, analysis of speeches and essays, exploration of films and the internet, the class will move through time from the origins of the Zionist idea lo the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 325. Israel: The Making of a State. 3 Credit Hours.
The creation of the state of Israel in its historical context, emphasizing the period of 1945-55: The struggle for Israel's establishment, the making of the state and the early challenges Israel faced. The class will use documents, text, testimony, poetry, music and film.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 338. History of the Holocaust. 3 Credit Hours.
Focus on the roots, events and results of the Nazis nearly successful annihilation of Jewish men, women, and children living under the Swastika. We will study Hitler's political aims, his Aryan superiority mythology, his domestic and foreign policies, and his conquests. We will also investigate how Germans, admired for their culture, became instruments of mass murder. Also included in this survey are the heroism of Jewish resisters and gentile rescuers who stood in direct opposition to the silence of the Christian churches and inactivity of the nearly all nations in the face of the Jewish disaster.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
JUS 340. History of Modern Germany Since 1815. 3 Credit Hours.
German history from the Congress of Vienna in 1815 to the end of the Second World War. The course concentrates on the social, political, and cultural history of Germany between Bismarck and Hitler. The main topics of discussion include: The German states before and during the revolutions of 1848, German unification and Prussian policy during the 1850s and 1860s, Bismarck’s foreign policy and the political history of the Empire from 1871 to 1914, the origins and the course of the First World War, the Versailles Treaty and the history of the Weimar Republic, Hitler’s rise to power and the politics of Nazi Germany between 1933 and 1939, Germany during the Second World War and the Holocaust. To bring the past to life, lectures will occasionally be supplemented by documentary films.
Components: LEC.
Grading: GRD.

JUS 352. Panoramic View of the Middle East. 3 Credit Hours.
The course is designed to provide a comprehensive introduction to the Middle East and a basic understanding of factors, forces, and processes shaping developments in the modern and contemporary history of this important world region.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JUS 360. Hollywood and Popular Culture: The American Jewish Experience. 3 Credit Hours.
The image of the Jew and the Jewish experience in American Cinema.
Prerequisite: JUS 231 or HIS 102.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 365. Literature of the Holocaust. 3 Credit Hours.
The destruction of European Jewry has generated a substantial body of literature, including survivor accounts, novels, poetry, and theological and philosophical inquiries. Firstly this course will review the history of the Holocaust; then a range of works will be read and discussed in terms of questions associated with the memorialization of victims. Non-literary responses to the Holocaust will also be examined: excerpts will be shown from the films The Last of the Unjust, Shoah, and The Quarrel, and we will listen to Steve Reich’s musical composition Different Trails.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JUS 375. Religion and Democracy in Israel. 3 Credit Hours.
Israel's evolution as a nation and a society by focusing on how religion impacts ethnicity, culture, and democracy.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 380. Archaeology of Palestine. 3 Credit Hours.
Survey of the major archaeological excavations and surveys of Palestine, how this is used to interpret biblical narrative and give context to the emergence of Judaism and Christianity.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JUS 401. Studies in Judaica. 1-3 Credit Hours.
Designed to enable students interested in some phase of Judaic Studies to study extensively in that field of interest.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 410. Special Topics. 1-3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

JUS 411. Special Topics. 1-3 Credit Hours.
Content varies by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
JUS 421. Internship in Judaic Studies. 1-3 Credit Hours.
Prescribed study and supervised work with practitioners in Judaic services.
Components: DIS.
Grading: CNC.
Typically Offered: Fall & Spring.

JUS 498. Senior Thesis. 3 Credit Hours.
Partial requirement for Departmental Honors in Judaic Studies. Thesis to be a documented essay in any area of Judaic Studies written under the direction of a member of the faculty.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

JUS 499. Senior Thesis. 3 Credit Hours.
Partial requirement for Departmental Honors in Judaic Studies. Thesis to be a documented essay in any area of Judaic Studies written under the direction of a member of the faculty.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

Mission
The Judaic Studies Program is a broad, flexible, Interdisciplinary Program designed for undergraduates to gain an understanding of Jewish civilization and its historical and diverse cultural experiences.

Goals
Student Learning Outcomes
• Graduates of the George Feldenkreis Program in Judaic Studies will demonstrate knowledge of key topics in ancient and modern Judaic Studies, they will be able to relate specific subject matter to the broader context of Jewish civilization, and will be able communicate in Hebrew; they must be able to speak basic conversational Hebrew as well as read and compose simple texts.
• Graduates of the George Feldenkreis Program in Judaic Studies will be able to relate specific subject matter to the broader context of Jewish civilization.
• Graduates of the George Feldenkreis Program in Judaic Studies will be able communicate in Hebrew; they must be able to speak basic conversational Hebrew as well as read and compose simple texts.

Any additional JUS course(s), or course(s) combined with JUS, that are needed to complete a total of 15 JUS credits. 6
Native Hebrew speakers require the advance approval of the JUS Undergraduate Advisor before they enroll in this concentration.
Completing the JUS Minor with Hebrew Language Concentration, including HEB 201 and/or 202 will be counted as fulfilling the requirement of a foreign language.

Total Credit Hours 15

1  To be designated as such and published by the JUS program director each semester. Students are strongly encouraged to take at least 1 course in Ancient Jewish History and Society and at least one course in Modern Jewish History and Society.

*  A grade of “C-” or better must be attained in each course taken for the Minor, with an overall GPA of 2.0.

*  Both JUS Minor concentrations will be listed in the student’s transcript as a “Minor in Judaic Studies.”

*  Each of the JUS Minor concentrations are eligible to qualify as a cognate in either “Arts and Humanities” or “People and Society.” Students are encouraged to contact the JUS Undergraduate Advisor, who will make the determination based on whether at least three courses of the JUS Minor count toward either “Arts and Humanities” or “People and Society.”

Latin American Studies
las.as.miami.edu
Dept. Code: LAS

Introduction
The Latin American Studies Program at the University of Miami takes an interdisciplinary approach to the study of the politics, economics, cultures, and societies of Latin America and the Caribbean. Courses in the program are offered in departments from every school and college at the University of Miami, and the program’s faculty research topics ranging from development economics to immigrant health care, from indigenous music to Caribbean colonial literature, from the archaeology of the region’s earliest peoples to present-day questions of resource conservation and management. Our students become true experts who can speak to a wide range of issues confronting Latin America and the Caribbean; experts who can contribute proactively to development and cooperation, business, political analysis, arts, and culture in ways that their peers with a more traditional disciplinary focus simply cannot.

Educational Objectives
The goal of an undergraduate education in Latin American Studies is to acquire, advance, and disseminate knowledge of the history, literature, culture, politics, economics, and natural and social sciences of the regions within an interdisciplinary framework. This program also places special emphasis on the languages and cultures of Hispanophone, Francophone and Lusophone Americas, including the transnational study of Latin Americans, Caribbeans and their descendants in the United States.

Students should leave the program with the following:

• the analytical and methodological tools needed to conduct interdisciplinary research;
• the ability to read, write and think critically about primary and secondary sources;
• a general knowledge of the different regions that comprise Latin America, the Caribbean, and their diaspora(s), as well as a critical understanding that the geographic, political, and cultural boundaries that have traditionally defined the “area” as an object of study are not isomorphic and are connected to the interests of European and North American powers;
• a critical understanding of the competing ways in which Latin American and Caribbean peoples have represented themselves paying particular attention to race/ethnicity, class, gender and sexuality, language, religion, migration, transculturation, and other historical, social, economic, and political factors;
• a language competency in either French, Spanish, Portuguese, or Haitian Creole at an intermediate level and a beginning competency in a second language spoken in the region (either French, Spanish, Portuguese, Haitian Creole, or an indigenous language of Latin America or the Caribbean);
• a “Beyond the Books” experience that will bridge the gap between the university and the surrounding communities, and will help solidify a long-term interest in and commitment to the regions.

Requests for Information
Dr. William J. Pestle
Academic Director, Latin American Studies Program
Merrick Hall 102-E
University of Miami
Coral Gables, FL 33124-2005
LAS 101. Introduction to Latin American and Caribbean Studies. 3 Credit Hours.  
Course will focus on culture, economy, geography, history, politics, and society of Latin America and the Caribbean, as well as on the ways in which scholars have studied the region. LAS101 replaces LAS201.  
Components: LEC.  
Grading: GRD.  
Typically Offered: Fall & Spring.

LAS 110. Students in Latin America and the Caribbean. 1-3 Credit Hours.  
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.  
Components: LEC.  
Grading: GRD.  

LAS 111. Studies in Latin America and the Caribbean. 1-3 Credit Hours.

Grading: GRD.  

LAS 215. Studies in Latin America and the Caribbean. 1-3 Credit Hours.  
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.  
Components: LEC.  
Grading: GRD.
LAS 301. **Interdisciplinary Topics in Latin American and Caribbean Studies.** 3 Credit Hours.
Topics vary, Interdisciplinary focus may be thematic (e.g.: revolutions, new social movements, women's rights, Latin Americanism, testimonio, culture industries,etc.) or regional/national (e.g.: Andean Studies, Southern Cone Studies, Caribbean Studies, Mexican Studies, etc.)
Components: SEM.
Grading: GRD.
**Typically Offered:** Fall & Spring.

LAS 302. **Interdisciplinary Topics in Latin American and Caribbean Studies-Travel Course.** 3 Credit Hours.
Topics vary, Interdisciplinary focus is thematic and regional (i.e. tourism in Yucatan; civil society in Chile, civil society in Haiti, cultural policy in the Caribbean, environmental policy in Panama.). Course involves travel during Spring Break and it has a program fee.
Components: LEC.
Grading: GRD.
**Typically Offered:** Spring.

LAS 311. **Studies in Latin America and the Caribbean.** 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 312. **Studies in Latin America and the Caribbean.** 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 313. **Studies in Latin America and the Caribbean.** 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 314. **Studies in Latin America and the Caribbean.** 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 315. **Studies in Latin America and the Caribbean.** 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 320. **Special Topics in Latin American and Caribbean Environment.** 3 Credit Hours.
Topics vary. Interdisciplinary focus on policies and impact on globalization on the environment.
Components: LEC.
Grading: GRD.
**Typically Offered:** Offered by Announcement Only.

LAS 321. **Latin American Environmental Issues.** 3 Credit Hours.
A comprehensive course on Latin American and Caribbean environmental issues in their political, economic, and social dimensions.
Components: LEC.
Grading: GRD.
**Typically Offered:** Fall.

LAS 330. **Special Topics in Latin American and Caribbean Religions.** 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional (eg: Liberation Theology, Latin American and Latino Religions, Caribbean Religions.)
Components: LEC.
Grading: GRD.
**Typically Offered:** Offered by Announcement Only.

LAS 340. **Special Topics in Latin American and Caribbean Economics.** 3 Credit Hours.
Topics vary. Focus may be thematic or regional, but will address issues in Latin American and Caribbean Economics and Economic Development.
Components: LEC.
Grading: GRD.
**Typically Offered:** Offered by Announcement Only.

LAS 350. **Special Topics in Latin American and Caribbean Art and Culture.** 3 Credit Hours.
Topics vary. Focus may be thematic or regional, but will address issues in Latin American and Caribbean Art and Culture.
Components: LEC.
Grading: GRD.
**Typically Offered:** Offered by Announcement Only.
LAS 360. Special Topics in Latin American and Caribbean Politics. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional (e.g., democracy, new social movements, globalization, politics and society.)
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

LAS 362. Drug Trafficking in Latin America and the Caribbean. 3 Credit Hours.
This course introduces students to the study of drug trafficking in Latin America and the Caribbean and its relationship with organized crime, understanding both as important aspects in the dynamics of globalization, international relations, and domestic politics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

LAS 370. Special Topics in Latin American and Caribbean Media and Communications. 3 Credit Hours.
Topics vary. Focus may be thematic or regional, but will address issues in Latin American and Caribbean Media and Communication.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

LAS 410. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 411. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 412. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 413. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 414. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 415. Studies in Latin America and the Caribbean. 1-3 Credit Hours.
Latin American and Caribbean Studies Courses taken at other institutions with no direct equivalent.
Components: LEC.
Grading: GRD.

LAS 491. Debates on Current Issues in Latin American and Caribbean Studies. 3 Credit Hours.
Content may vary from semester to semester. This is an upper level course to allow debate and discussion on current issues and events affecting Latin America, the Caribbean, and Latino communities in the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

LAS 494. Independent Study in Latin American and Caribbean Studies. 1-3 Credit Hours.
Independent study leading to a thesis, original piece of research, or creative project on a Latin American or Caribbean subject.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
LAS 495. Senior Honors Thesis I. 3 Credit Hours.
This course pairs students with a faculty mentor to set and guide a research agenda in preparation for writing the senior honors thesis. Students will study advanced topics in Latin American and Caribbean Studies, according to faculty interests.
Prerequisite: LAS 101.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAS 496. Senior Honors Thesis II. 3 Credit Hours.
This course pairs students with a faculty mentor to guide the writing process for the senior honors thesis. Students will study advanced topics in Latin American and Caribbean Studies, according to faculty interests.
Prerequisite: LAS 101.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAS 501. Interdisciplinary in Latin American and Caribbean. 3 Credit Hours.
Interdisciplinary methods and politics of Latin American and Caribbean area studies.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.

LAS 502. Research Design in Latin American Studies. 3 Credit Hours.
Interdisciplinary research methods and skills in Latin American and Caribbean studies.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

LAS 503. Program Seminar in Latin American Studies and Caribbean Studies. 3 Credit Hours.
Content of course will vary by semester.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 504. Interdisciplinary Topics in Latin American and Caribbean Studies - Travel Course.. 3 Credit Hours.
Topics vary. Interdisciplinary focus is thematic and regional (e.g.: tourism in Yucatan; civil society in Chile, Haiti-Dominican Republic relations, cultural policy in the Caribbean, environmental policy in Panama.) Course involves travel during Spring Break and it has a program fee.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

LAS 505. Internship in Latin American and Caribbean Studies. 1-3 Credit Hours.
On-site experience in business, governmental organization, or non-profit organization dealing with Latin America and/or the Caribbean.
Components: THI.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAS 506. Civic Engagement in Latin America. 1-3 Credit Hours.
On site experience in a civic engagement project in Latin America or the Caribbean.
Components: IND.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

LAS 520. Interdisciplinary Topics in Latin American and Caribbean Environments. 3 Credit Hours.
Topics vary. Interdisciplinary focus on policies and impact of globalization on the environment.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 521. Latin American Environmental Issues. 3 Credit Hours.
A comprehensive course on Latin American and Caribbean environmental issues in their full political, economic, and social dimensions.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
LAS 530. Special Topics in Latin American and Caribbean Religions. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional (e.g., Liberation Theology, Latin American and Latino Religions, Caribbean Religions), but will address Latin American and Caribbean religion.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 540. Special Topics in Latin American and Caribbean Media and Communication. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional (e.g., global media, Spanish- or Portuguese-language television or radio, social media) but will address Latin American and Caribbean media and communication.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 550. Special Topics in Latin American and Caribbean Art and Culture. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional, but will address Latin American and Caribbean Art & Culture.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 560. Special Topics in Latin American and Caribbean Politics. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional (e.g., democracy, new social movements, globalization, politics and society), but will address Latin American and Caribbean politics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 580. Special Topics in Latin American and Caribbean History. 3 Credit Hours.
Topics vary. Interdisciplinary focus may be thematic or regional, but will address the history of political, social and economic development in Latin America and the Caribbean.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

LAS 591. Debates on Current Issues in Latin American and Caribbean Studies. 3 Credit Hours.
Content may vary from semester to semester. This is a graduate course to allow debate and discussion on current issues and events affecting Latin America, the Caribbean, and Latino communities in the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**Mission**

The mission of the B.A. in Latin American Studies is to prepare students as they acquire knowledge of the history, literature, culture, politics, economics, and natural sciences of the regions of Latin America and the Caribbean. This knowledge acquisition should occur within an interdisciplinary framework that emphasizes the languages of the Hispanophone, Francophone, and Lusophone Americas, and which includes the transnational study of Latin American and Caribbean diasporic communities in the United States.

**Goals**

**Student Learning Outcomes**

- Students should graduate from the program with a deep understanding of Latin America, the Caribbean, as well as of the individual countries within the region, as acquired through internships, travel and study abroad.
- Students will demonstrate proficiency in Latin American regional learning, a critical analysis of and an engagement with complex, interdependent regional systems and legacies (such as natural, physical, social, cultural, economic, and political) and the lives and sustainable development of the region.
• Students will demonstrate proficiency in inquiry and analysis. Inquiry is a systematic process of exploring issues/objects/works through the collection and analysis of evidence that result in informed conclusions/judgments. Analysis is the process of breaking complex topics or issues into parts to gain a better understanding of them.

**B.A./M.A in Latin American Studies (Fellows in Latin American Studies) FILAS (Fellows in Latin American Studies)**

In this highly selective Honors Program, students follow a rigorous, accelerated curriculum to complete two degrees (B.A./M.A.) in Latin American and Caribbean Studies in five years, less time than would be required to obtain the degrees separately. The program provides exciting collaborative research, travel, and work opportunities. While students typically apply to the FILAS program upon their initial application to UM, we also welcome applicants in their first year of study at the University.

Working with UM’s world-class faculty in various academic disciplines, FILAS participants design individualized curricula. In addition to the regular general education course requirements of the College of Arts and Sciences, FILAS students choose one focus track for their most advanced courses: Social Sciences, Law and Policy, Literature & Culture, Communication, Environmental Studies, Public Health, or History. For broad-based, multi-disciplinary preparation, students choose courses that focus on Latin America and the Caribbean. At least ten of these courses must be taken at the graduate level.

**FILAS Admission Requirements**

• SAT1 composite score of 1360 or ACT 31.
• Top 10% of high school graduating class.
• Regular Application for Admission to the University of Miami. We recommend students submit their applications by November 15.
• Recommendations from three high school teachers.
• Statement of interest in FILAS, emphasizing prior language or area study
• To continue through the graduate level (MA Phase), students must maintain at least a 3.4 GPA.

Select one course as Internship in Latin America
Select five courses above the 300-level (third-year) in a range of disciplines
Select ten courses in one focus track

MA Phase Requirements
GRE Exam in Semester 7 or 8
LAS 601 Interdisciplinary in Latin American and Caribbean 3
LAS 602 Research Design in Latin American Studies 3
Select two Regional Fundamentals courses 6
Select four electives from approved LAS or combined courses 12
LAS 810 Pre-candidacy thesis credits (students must enroll in two semesters of this 3-credit course to fulfill this requirement.) 3
LAS 810 Pre-candidacy thesis credits 3
Total Credit Hours 150

1. Certain AP/IB scores may be used to fulfill the Composition requirement as credit. If Transfer students transfer one of the two above, but not both, they may take ENG 208 to complete the requirement. ENG 105 must be taken unless exempted by SAT/V or ACT/V scores (does not include credits).

2. MTH 108 or higher. Unless exempted by AP/IB, or UM placement test. UM placement test does not include credits. Prerequisites must be met before enrolling in MTH courses.

3. Students must take at least three credits in a language other than English at the 200-level or higher. Prerequisites may be required. Courses taken in order to meet this requirement, including necessary prerequisite courses to the 200 level courses, cannot be used in cognates seen below. FILAS students already fulfill this requirement when completing the language requirements cited below.

4. Degree candidates must complete at least four writing courses, and at least one such course must be in the student's major discipline.

5. Typically, students must complete a minimum of three cognates, one from each of the three areas of the University curriculum: Arts & Humanities; People & Society; and Science, Technology, Engineering & Mathematics. A cognate is a minimum of 9 credit hours, however it can be more. Each major/minor fulfills the cognate requirement in one Area of Knowledge. However, FILAS students must complete only the STEM Cognate as the FILAS program fulfills the Arts & Humanities and People & Society cognates. To avoid additional course credits, please select a STEM Cognate that includes a Natural Science course to concurrently fulfill this CAS general education requirement. According to the College of Arts & Sciences, "three credits must be earned from one of the following departments: Biology, Chemistry, Ecosystem Science & Policy (only ECS 111, ECS 112, or ECS 202), Geological Sciences, Marine Science (except MSC 313 and MSC 314), Physical Science, or Physics. APY 203 and GEG 120 may also count. These credits may double count with any other requirement, e.g., courses in the STEM cognate."

6. FILAS students also write a Master's Thesis based on an original research project. In addition, they must defend the thesis and present their findings at the LAS Annual Student Symposium.

Disclaimer: This is a model plan of study only. It is not guaranteed that every course will be available in the year/semester noted below.

**Minor in Latin American Studies**

**Overview**

The minor in Latin American Studies is designed for students who have an interest in Latin America and the Caribbean, but may not have the flexibility to pursue a major. The minor may be obtained by completing 5 (five) courses (15 credits) as detailed in the Curriculum tab. In addition, UM offers students the opportunity to complete classes which may be counted towards the Latin American Studies minor through the U-Latin America study abroad program.

**U-Latin America**

Students participating in this program will have the opportunity to spend a life-changing semester in three of the most vibrant, cosmopolitan, and liveliest cities in the world: Buenos Aires, Rio de Janeiro, and Santiago. This program offers students a series of course designed to help them explore the dynamics of Latin American nations and their various cultures. With no language requirement, the U-Latin America program is the perfect way to begin to learn Spanish or Portuguese and to participate in an internship opportunity abroad. This UM designed program offers students the opportunity to complete classes which may be counted towards the Latin American Studies minor while studying in some of the greatest cities of Latin America. Students wanting to apply these classes towards an LAS minor or major should consult with the academic director of Latin American Studies for further guidance.

Further information is available from UM Study Abroad at [https://goabroad.miami.edu/index.cfm?FuseAction=Programs.ViewProgram&Program_ID=10336](https://goabroad.miami.edu/?FuseAction=Programs.ViewProgram&Program_ID=10336)

**Mathematics**

http://www.math.miami.edu

Dept. Code: MTH

**Educational Objectives**

The aim of our mathematics degree programs is to provide students with a core knowledge of mathematics essential to the understanding of science and other disciplines. Students should gain substantial problem solving and critical reasoning skills and should develop an understanding of the conceptual underpinnings of mathematics. The knowledge gained through these programs should provide the necessary background in mathematics.
for those students planning to go on to graduate study in mathematics and related fields. This knowledge should also prepare those students who will be immediately entering careers in science, business, education or other fields which are increasingly making use of mathematics.

**Degree Programs**

- **Bachelor of Arts and Bachelor of Science**

**Major**

The requirements for a major in mathematics (p. 462) vary according to the objectives of the student. There are **seven courses** required of all mathematics majors.

An **additional four courses** are required, selected from one of the following track options:

- Core Mathematics
- Applied Analysis
- Computational Mathematics
- Probability and Statistics
- Secondary School Teaching
- Mathematical Economics

**Writing Requirement**

In order to satisfy the College of Arts and Sciences writing requirement, students majoring in mathematics must obtain writing credit in one of the following courses: MTH 433, MTH 461, MTH 502, MTH 504, MTH 520, MTH 533, MTH 561, and in three more writing courses from other departments.

**Minor**

A student seeking a minor in mathematics (p. 469) must have credit for a **calculus sequence**: MTH 161-MTH 162 or MTH 171-MTH 172.

In addition, a minor in mathematics requires three courses from a list of approved courses for the minor. (p. 469) All three courses must be taken in the Department of Mathematics, University of Miami. A grade of C- or better is required for each of the three courses applied toward the minor and the quality point average for the three courses must be 2.5 or above.

**Departmental Honors**

Requirements for Departmental Honors in Mathematics (p. 462):

The student must complete **three sequences** from a list of approved two-course sequences. The student must attain at least a B in each course used to fulfill this requirement. In addition, the student must attain at least a 3.5 average over all courses counted toward the mathematics major and an overall (university-wide) average of at least 3.3.

For requirements leading to the Master of Arts, Master of Science, or Doctor of Philosophy degrees, with a major in mathematics, see the Bulletin of the Graduate School (p. 1786).

**Dual BS/MS Degree**

- **Five-Year BS Math/MS Math Finance** (p. 467)

**MTH 099. Intermediate Algebra. 3 Credit Hours.**

Real number operations, polynomials, factoring, rational numbers and rational expressions. Cannot be used to fulfill the 120 credits required for graduation.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.

**MTH 101. Algebra for College Students. 3 Credit Hours.**

Algebraic operations and properties of the real numbers; linear and quadratic equations and inequalities; polynomials and factoring; rational expressions; radical expressions; graphs of lines; systems of linear equations.

Requisite: SAT Math Section Score >= 550 or Math ACT Score >= 22 or ALEKS score >= 40 or passing grade in MTH 099.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.
MTH 105. Algebra and Trigonometry. 5 Credit Hours.
An intensive course in algebra and trigonometry as covered in MTH 107-108, but without analytic geometry.
Requisite: SAT Math Section Score >= 600 OR Math ACT Score >= 25 OR ALEKS score >= 55 OR passing grade in MTH 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 107. Precalculus Mathematics I. 3 Credit Hours.
Algebraic operations; equations and inequalities; complex numbers; functions and their graphs; polynomial, rational, exponential, and logarithmic functions; inverse functions; systems of non-linear equations.
Requisite: SAT Math Section Score >= 600 OR Math ACT Score >= 25 OR ALEKS score >= 55 OR passing grade in MTH 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 108. Precalculus Mathematics II. 3 Credit Hours.
Trigonometric functions, identities and equations, applications involving vectors, systems of nonlinear equations and inequalities and analytic geometry.
Requisite: SAT Math Section Score >= 650 OR Math ACT Score >= 28 OR ALEKS score >= 65 OR a passing grade in MTH 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 113. Finite Mathematics. 3 Credit Hours.
Sets, logic, counting techniques, elementary probability and statistics, mathematics in finance, linear programming, algebraic structures, symmetry. The selection of topics may vary by instructor. Intended for BA students.
Prerequisite: MTH 101 or MTH 107. Or Requisite: ALEKS score >= 60 or SAT MATH score >= 630 or SAT MATH Section score >= 620 or ACT score >= 28.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 130. Introductory Calculus. 3 Credit Hours.
A one-semester survey of the fundamental principles of calculus, functions, limits, derivatives, definite integrals, applications. Not for students planning further study of calculus beyond this course.
Requisite: ALEKS score >= 65 or SAT MATH score >= 630 or SAT MATH Section score >= 650 or ACT score >= 28 or AP Calculus AB score of 3 or passing grade in MTH 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 133. Games and Strategies. 3 Credit Hours.
Prerequisite: MTH 113 or MTH 130.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 140. Calculus Concepts with Foundations A. 4 Credit Hours.
Tools from algebra and trigonometry for calculus. Functions and graphs, limits and continuity, the derivative and applications.
Requisite: ALEKS score >=65 OR SAT MATH >= 630 OR SAT MATH SECTION >= 650 OR ACT >=28 OR AP Calculus score of 3.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 141. Calculus Concepts with Foundations B. 4 Credit Hours.
Tools from algebra, trigonometry, and analytic geometry for calculus. Further aspects of differentiation. Antiderivatives, definite integrals, and their applications.
Prerequisite: MTH 140. Min Grade C-.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MTH 151. Calculus I for Engineers. 5 Credit Hours.
Analytic geometry, limits and continuity, derivatives, the definite integral, and applications relevant to engineering. Intended for students taking PHY 205 concurrently.
Requisite: SAT Math Section Score >= 730 OR Math ACT Score >= 31 OR ALEKS score >= 76 OR C- or higher in MTH 105 or MTH 108.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 161. Calculus I. 4 Credit Hours.
Limits and continuity, derivatives and applications, the definite integral and applications.
Requisite: ALEKS score >= 76 or SAT MATH score >= 700 or SAT MATH SECTION >= 730 or ACT score >= 31 or score of 4 AP Calculus (AB) or score of 3 in AP Calculus (BC) or a C- or higher in MTH 108.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 162. Calculus II. 4 Credit Hours.
Transcendental functions, methods of integration, improper integrals, infinite series, polar coordinates, and introduction to differential equations.
Prerequisite: MTH 141 or MTH 151 or MTH 161 or MTH 171.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 171. Calculus I. 4 Credit Hours.
The theory of limits, the derivative and the definite integral, techniques and applications. The sequence MTH 171-172 is more conceptually-oriented than MTH 161-162.
Requisite: Prism Program.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 172. Calculus II. 4 Credit Hours.
Continuation of MTH 171. Additional topics on the derivative and definite integral, improper integrals, infinite series, and introduction to differential equations.
Prerequisite: MTH 171.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 210. Introduction to Linear Algebra. 3 Credit Hours.
Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 211. Calculus III. 3 Credit Hours.
Vectors in space, partial differentiation, multiple integration.
Prerequisite: MTH 162 or MTH 172. Requisite: Not open to students with credit in MTH 310 or MTH 433 or MTH 533.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 224. Introduction to Probability and Statistics. 3 Credit Hours.
Probability distributions, random variables, expectation and variance, point estimation, interval estimation, testing of hypotheses, analysis of variance.
Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
MTH 230. Introduction to Abstract Mathematics. 3 Credit Hours.
Fundamentals of set theory, logic and methods of mathematical proof.
Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 309. Discrete Mathematics I. 3 Credit Hours.
Prerequisite: MTH 141 or MTH 151 or MTH 161 or MTH 171.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 310. Multivariable Calculus. 3 Credit Hours.
Prerequisite: MTH 210 and MTH 162 or MTH 172. Requisite: Not open to students with credit in MTH 433 OR MTH 533.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

MTH 311. Introduction to Ordinary Differential Equations. 3 Credit Hours.
Theory and applications of first-order differential equations. Theory and applications of higher order linear equations and first order linear systems, including matrix methods.
Prerequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 320. Introduction to Numerical Analysis. 3 Credit Hours.
Interpolation, quadrature, numerical solution of algebraic and transcendental equations, and optimization.
Prerequisite: MTH 210 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 359. Mathematical Models in Biology and Medicine. 3 Credit Hours.
Fundamentals of the dynamical systems approach to modeling temporal change in biological systems. An introduction to the analysis of mathematical models in biology and medicine with detailed, concrete examples drawn from ecology, cell biology, neuro-science, and physiology.
Prerequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 433. Advanced Calculus. 3 Credit Hours.
A rigorous and comprehensive treatment of the theoretical concepts of calculus. The real number system; sequences; series; continuity, differentiation, and integration of functions of one variable.
Prerequisite: MTH 230 and MTH 310 or MTH 211. Not open for Students with Credit in MTH 533.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 461. Survey of Modern Algebra. 3 Credit Hours.
Algebraic systems, equivalence classes, groups, rings, fields, unique factorization domains.
Prerequisite: MTH 210 and MTH 230. Requisite: Not open to students with credit in MTH 561.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MTH 471. Directed Readings. 1-3 Credit Hours.
Topics selected from algebra, geometry, analysis, topology.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
MTH 472. Directed Readings. 1-3 Credit Hours.
Topics selected from algebra, geometry, analysis, topology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 502. History of Mathematics. 3 Credit Hours.
The development of mathematics from its earliest beginnings through the first half of the twentieth century. Numerical systems, geometry, algebra, analysis and set theory.
Prerequisite: 2 Courses in MTH 200 or Higher.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 504. Foundations of Geometry. 3 Credit Hours.
Axiom systems and models of Euclidean and Non-Euclidean geometry.
Prerequisite: MTH 230 or MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 505. Theory of Numbers. 3 Credit Hours.
Divisibility, primes; congruences, quadratic residues and reciprocity; Diophantine equations. Applications to cryptography.
Prerequisite: MTH 210 or MTH 504.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 506. Mathematical Logic. 3 Credit Hours.
Logics, truth, proof, logical consequence, model theory, formalization, and computation. Meta-theory of first-order logic, computability theory, and Godel's incompleteness theorems. Related results by Church, Turing, and Tarski. Discussion of their philosophical significance.
Prerequisite: MTH 230.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 510. Linear Algebra. 3 Credit Hours.
Abstract vector spaces, bases and dimensions, linear maps, eigenvalues and eigenvectors, inner product spaces, operators, spectral theorems, canonical forms.
Prerequisite: MTH 210 and MTH 230 or MTH 309.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 512. Elementary Complex Analysis. 3 Credit Hours.
Complex variables; conformal mapping, contour integration.
Prerequisite: MTH 310 or MTH 211.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 513. Partial Differential Equations I. 3 Credit Hours.
Derivation, well posedness, and qualitative properties of initial value and boundary value problems for the heat, wave and Laplace equations. Energy methods, causality, maximum principles, heat kernels, Fourier series, and potential theory.
Prerequisite: MTH 210 and MTH 311 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 514. Partial Differential Equations II. 3 Credit Hours.
Prerequisite: MTH 513.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MTH 515. Ordinary Differential Equations. 3 Credit Hours.
Linear systems, equilibrium and periodic solutions, stability analysis, bifurcation, phase plane analysis, boundary value problems, applications to engineering and physics.
Prerequisite: MTH 311 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 516. Dynamics and Bifurcations. 3 Credit Hours.
Bifurcation of equilibrium and periodic solutions, global theory of planar systems, planar maps, nonlinear vibrations, forced oscillations, chaotic solutions, Hamiltonian systems, applications to engineering and physics.
Prerequisite: MTH 515.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 520. Numerical Linear Algebra. 3 Credit Hours.
Topics from numerical linear algebra including solving systems of equations, LU, QR, and SVD factorizations, eigenvalues and eigenvectors, interactive methods, and applications.
Prerequisite: MTH 320.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 521. Numerical Methods in Differential Equations. 3 Credit Hours.
Numerical solution of ordinary and partial differential equations.
Prerequisite: MTH 320 or MTH 520.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 524. Introduction to Probability. 3 Credit Hours.
Probability spaces, random variables, expectation, limit theorems.
Prerequisite: MTH 224 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 525. Introduction to Mathematical Statistics. 3 Credit Hours.
Probability distributions, theory of sampling and hypothesis testing.
Prerequisite: MTH 524.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 527. Theory of Computing. 3 Credit Hours.
Sets, relations, and languages. Automata theory. Basic computability theory. Turing machines. The complexity classes P and NP.
Prerequisite: MTH 309 or MTH 461.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 531. Topology I. 3 Credit Hours.
Set theory, topological spaces, compactness, connectedness, separation properties, quotient spaces, Tychonoff Theorem, compactification, Urysohn Lemma and Tietze Extension Theorem, function spaces.
Prerequisite: MTH 230.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MTH 532. Topology II. 3 Credit Hours.
Differential and topological manifolds, classical groups and associated manifolds, tangent and tensor bundles, vector fields, differential forms, transversality, Sard's theorem, Stokes' Theorem.
Prerequisite: MTH 210 and MTH 531.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 533. Introduction to Real Analysis I. 3 Credit Hours.
Sequences and series in Euclidean space; sequences and series of functions; Fourier series; continuity, differentiation, and integration of functions between Euclidean spaces; implicit and inverse function theorems.
Prerequisite: MTH 230 And MTH 211 Or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 534. Introduction to Real Analysis II. 3 Credit Hours.
Continuation of MTH 533.
Prerequisite: MTH 533.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 542. Statistical Analysis. 3 Credit Hours.
Statistical inference about one or two populations from interval, ordinal and categorical data; analysis of variance; simple and multiple linear regression; designing research studies.
Prerequisite: MTH 210 and MTH 224.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 547. Introduction to Mathematical Finance. 3 Credit Hours.
Prerequisite: MTH 224 and MTH 211 or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 551. Introduction to Differential Geometry. 3 Credit Hours.
Geometry of curves and surfaces in Euclidean space. Local space curve theory, intrinsic and extrinsic curvature of surfaces, geodesics, parallelism, and differential forms.
Prerequisite: MTH 210 And MTH 211 Or MTH 310.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 561. Abstract Algebra I. 3 Credit Hours.
Groups; rings; linear algebra; modules.
Prerequisite: MTH 210 and MTH 230.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MTH 562. Abstract Algebra II. 3 Credit Hours.
Continuation of MTH 561.
Prerequisite: MTH 561.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MTH 571. Directed Readings in Mathematics. 1-3 Credit Hours.
Readings in special topics.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
MTH 591. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 592. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MTH 593. Topics in Mathematics. 1-3 Credit Hours.
Topics will vary by semester and will be announced in the schedule of course offerings.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

B.A. or B.S. in Mathematics

www.math.miami.edu

Major

The requirements for a major in mathematics vary according to the objectives of the student. There are seven courses required of all mathematics majors.

An additional four courses are required, selected from one of the following track options:

- Core Mathematics
- Applied Analysis
- Computational Mathematics
- Probability and Statistics
- Secondary School Teaching
- Mathematical Economics

Writing Requirement

In order to satisfy the College of Arts and Sciences writing requirement, students majoring in mathematics must obtain writing credit in one of the following courses: MTH 433, MTH 461, MTH 502, MTH 504, MTH 520, MTH 533, MTH 561, and in three more writing courses from other departments.

Curriculum Requirements

The requirements of a major in mathematics vary according to the objectives of the student. There are seven courses required of all mathematics majors. An additional four courses are required selected from one of six track options:

Core Courses and Track Options

<td>Introduction to Real Analysis I</td>
</tr>
</tbody>
</table>

Track Options

Select four courses from one of the following Tracks: 12
**Core Mathematics Track:**

Select four of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 510</td>
<td>Linear Algebra</td>
</tr>
<tr>
<td>MTH 512</td>
<td>Elementary Complex Analysis</td>
</tr>
<tr>
<td>MTH 531</td>
<td>Topology I</td>
</tr>
<tr>
<td>MTH 532</td>
<td>Topology II</td>
</tr>
<tr>
<td>MTH 534</td>
<td>Introduction to Real Analysis II</td>
</tr>
<tr>
<td>MTH 551</td>
<td>Introduction to Differential Geometry</td>
</tr>
<tr>
<td>MTH 562</td>
<td>Abstract Algebra II</td>
</tr>
</tbody>
</table>

**Applied Analysis Track:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 311</td>
<td>Introduction to Ordinary Differential Equations</td>
</tr>
<tr>
<td>MTH 512</td>
<td>Elementary Complex Analysis</td>
</tr>
</tbody>
</table>

Select one of the following sequences:

- MTH 513 & MTH 514: Partial Differential Equations I and Partial Differential Equations II
- MTH 515 & MTH 516: Ordinary Differential Equations and Dynamics and Bifurcations

**Computational Mathematics Track:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 320</td>
<td>Introduction to Numerical Analysis</td>
</tr>
<tr>
<td>CSC 317</td>
<td>Data Structures and Algorithm Analysis</td>
</tr>
<tr>
<td>MTH 520 &amp; MTH 521</td>
<td>Numerical Linear Algebra and Numerical Methods in Differential Equations</td>
</tr>
</tbody>
</table>

**Probability and Statistics Track:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 224</td>
<td>Introduction to Probability and Statistics</td>
</tr>
<tr>
<td>MTH 524 &amp; MTH 525</td>
<td>Introduction to Probability and Introduction to Mathematical Statistics</td>
</tr>
<tr>
<td>MTH 542</td>
<td>Statistical Analysis</td>
</tr>
</tbody>
</table>

**Secondary School Teaching Track:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 224</td>
<td>Introduction to Probability and Statistics</td>
</tr>
<tr>
<td>MTH 309</td>
<td>Discrete Mathematics I</td>
</tr>
</tbody>
</table>

Select two of the following:

- MTH 502: History of Mathematics
- MTH 504: Foundations of Geometry
- MTH 505: Theory of Numbers

**Mathematical Economics Track:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 524 &amp; MTH 525</td>
<td>Introduction to Probability and Introduction to Mathematical Statistics</td>
</tr>
<tr>
<td>ECO 533</td>
<td>Advanced Microeconomic Theory</td>
</tr>
</tbody>
</table>

Select one of the following:

- ECO 512: Topics in Mathematical Economics
- ECO 520: Econometrics
- ECO 521: Advanced Macroeconomic Theory

**Other Requirements**

- University and School/College Specific General Education Requirements and Electives: 85 Credit Hours
- Total Credit Hours: 120

---

1. Course work in physics is desirable.
2. This option is only for those obtaining a teaching credential.
3. Students should satisfy the General Education Requirements stipulated by the University as well as their specific School/College. These requirements typically include proficiency requirements in language, along with requirements for advanced writing and communication skills.
4. All students must satisfy University cognate requirements. A mathematics major satisfies the STEM Cognate requirement.
5. Elective courses selected must include courses that satisfy the requirements of an additional major or a minor outside of mathematics.
Notes

- It would be useful for students planning to do graduate study in mathematics to complete the following courses: MTH 531, MTH 532, MTH 533, MTH 534, MTH 561, MTH 562.
- Students interested in actuarial science should choose the Probability and Statistics option; for these students a finance minor is recommended.
- Transfer students will be permitted to apply up to 14 transfer credit hours towards the major; however, the courses MTH 461 (or MTH 561) and MTH 433 (or MTH 533) must be completed at the University of Miami.
- A grade of C- or better is required for each course applied toward the major; the overall quality point average for University of Miami courses applied toward the major must be 2.5 or above.

Requirements for Departmental Honors in Mathematics:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 513 &amp; MTH 514</td>
<td>Partial Differential Equations I and Partial Differential Equations II</td>
<td>6</td>
</tr>
<tr>
<td>MTH 515 &amp; MTH 516</td>
<td>Ordinary Differential Equations and Dynamics and Bifurcations</td>
<td>6</td>
</tr>
<tr>
<td>MTH 520 &amp; MTH 521</td>
<td>Numerical Linear Algebra and Numerical Methods in Differential Equations</td>
<td>6</td>
</tr>
<tr>
<td>MTH 524 &amp; MTH 525</td>
<td>Introduction to Probability and Introduction to Mathematical Statistics</td>
<td>6</td>
</tr>
<tr>
<td>MTH 531 &amp; MTH 532</td>
<td>Topology I and Topology II</td>
<td>6</td>
</tr>
<tr>
<td>MTH 533 &amp; MTH 534</td>
<td>Introduction to Real Analysis I and Introduction to Real Analysis II</td>
<td>6</td>
</tr>
<tr>
<td>MTH 561 &amp; MTH 562</td>
<td>Abstract Algebra I and Abstract Algebra II</td>
<td>6</td>
</tr>
</tbody>
</table>

* The student must attain at least a B in each course used to fulfill this requirement. In addition, the student must attain at least a 3.5 average over all courses counted toward the mathematics major and an overall (university-wide) average of at least 3.3.

Possible Plan of Study

The B.A. and B.S. degrees in Mathematics differ only in the College of Arts and Sciences general education requirements. Here is a possible plan of study.

<table>

### Mission

The objective of the Bachelor's degree in mathematics is to provide students with a core knowledge of mathematics essential to the understanding of science and other disciplines.

### Goals

Students should gain substantial problem solving and critical reasoning skills, and they should develop an understanding of the conceptual underpinnings of mathematics. The knowledge gained through this program should provide the necessary background in mathematics for those students planning to go on to graduate study in mathematics and related fields. This knowledge should also prepare those students who will be immediately entering careers in science, business, education or other fields which are increasingly making use of mathematics.

### Student Learning Outcomes

- Students will demonstrate an understanding of elementary real analysis and advanced calculus. They will understand the nature of analytic reasoning and logical analytic proofs. They will develop the ability to communicate ideas in analysis, and, in particular, the ability to formulate and present abstract arguments in analysis.

- Students will demonstrate an understanding of modern abstract algebra. They will understand the nature of algebraic reasoning and logical algebraic proofs. They will develop the ability to communicate algebraic ideas, and, in particular, the ability to formulate and present abstract algebraic arguments.

• Students will acquire a solid understanding of advanced material within a mathematics “specialty path” which synthesizes and extends their lower-division work. The path is selected by the individual student depending on his/her particular interests.

Five-Year BS Math/MS Math Finance

http://www.math.miami.edu/

Overview

https://www.msmf.miami.edu/academics/bs-msmf-program-5-year/index.html

The BS/MSMF program is a five-year program combining the Probability/Statistics track of the Mathematics undergraduate major with the graduate coursework required for the MS in Mathematical Finance degree. For undergraduates seeking careers in the fields of economics, finance and data science, the BS/MSMF degree offers the appropriate training sought by companies worldwide. Students can achieve the required academic credentials in five years due to the integrated and focused nature of the BS/MSMF degree.

Admission Requirements

You must be an undergraduate student in the College of Arts and Sciences majoring in Mathematics (Probability and Statistics Track), and should have a cumulative GPA of at least 3.0 at the time of application. Students should discuss the program and the possibility of entering with their assigned academic advisor. Applications must be submitted during your junior year. You must be admitted to the program prior to academic advising for your senior year.

* A student seeking a minor in mathematics must have credit in a calculus sequence: MTH 161-MTH 162 or MTH 171-MTH 172.

** All three courses must be taken in the Department of Mathematics, University of Miami.

*** It is possible to select certain 500 level mathematics courses among the three, with prior approval of the Mathematics Department.

**** A grade of C- or better is required for each of these three courses and the quality point average for the three courses must be 2.5 or above; and in case the quality point average is below 2.5, an additional mathematics course must be taken.

---

## Microbiology and Immunology

**Dept. Code: MIC**

### Introduction

The University of Miami is one of four institutions in the United States that offers an undergraduate program in Microbiology and Immunology. What does this mean? It means that you are being trained in an undergraduate major that focuses on two aspects of healthcare, various diseases and our bodies' defenses against them. Throughout your four years with us, you will learn about bacteria that cause the plague or that naturally inhabit our bodies, viruses such as Influenza, HIV, Zika or even Ebola and parasites such as Malaria. You will also learn how each of these can be controlled by our immune systems and how vaccinations can prevent some of these infections. Finally, you will understand how sometimes the immune system
itself can inflict undesired damage and how it can be exploited to achieve cancer remissions. Students that have finished our program have gone on to careers in research, medicine, dentistry, pharmacy, optometry, physician assistant, law and many more.

**Educational Objectives**

1. To expose students to the various disciplines within the field of Microbiology and Immunology, including virology, parasitology, microbial genetics, immunology and medical bacteriology.
2. To introduce students to special projects and/or research opportunities in laboratories at the School of Medicine.
3. To provide laboratory experience for the development of skills required for the conduct of research.
4. To make students aware of current cutting edge research in the field of Microbiology and Immunology by attending seminars of speakers from within and outside the University.

**Degree Programs**

- A Bachelor’s of Science degree is awarded to all microbiology and immunology majors upon completion of the requirements. A chemistry minor is automatically received however, a student’s choice of minor may be science or non-science.

**Advanced Writing and Communication**

To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Microbiology and Immunology should take at least one course from the following: MIC 280, MIC 304, MIC 441.

**Departmental Honors**

Students that wish to gain a deeper understanding of Microbiology and Immunology can choose to write a thesis. The following program constitutes receiving Departmental Honors in Microbiology and Immunology.

1. Overall GPA 3.0 or higher
2. Six credit hours of Special Projects (MIC 451, MIC 452, MIC 453, MIC 454, MIC 455 or MIC 456) carried out under supervision of a member of the Microbiology and Immunology faculty, culminating in a senior thesis that includes 15 references. Once the mentor and student have revised and finalized the document a hard copy must be turned in to the Program Director.

**MIC 100. Microbiology as it Relates to Humans (EXP). 3 Credit Hours.**

An introductory microbiology course for the summer scholars program. Microorganisms are in every facet of our lives and make up a microscopic world. Right now, your body is inhabited by over 40 trillion bacteria. Due to the evolution of our immune systems, we have been able to coexist with this world. It is when our immune systems weaken or when our otherwise healthy immune system encounters a particularly nasty pathogen that we become vulnerable. This course will cover the topics of how our immune system works, how microbial pathogens cause disease, how beneficial microbes protect us from disease, and some of the other activities perform that impact our world. The laboratory will provide you with invaluable experience in growing, staining, viewing and identifying microorganisms through the use of practical techniques and procedures. An in lab presentation of your “unknown organism” will culminate what you have learned.

**Components:** LAB.

**Grading:** GRD.

**Typically Offered:** Summer.

**MIC 201. Modern Plagues and Society. 3 Credit Hours.**

An examination of four infectious diseases (AIDS, tuberculosis, malaria, and COVID-19) that currently impact a significant fraction of the human population. This course will examine the infectious microbes themselves, efforts of researchers to contain these diseases, and how politics, infrastructure, and geographical factors determine individual and public health outcomes. A special emphasis is placed on the unique role the University of Miami physicians and scientists played during the early phases of the AIDS epidemic.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Fall.

**MIC 280. UMiami Scientifica Magazine - Writer. 0 Credit Hours.**

UMiami Scientifica is a premier scientific publication at the University of Miami. The magazine, focuses on the STEM fields and publishes quarterly. Students who write for the magazine will learn to write clearly, concisely and in a manner that can be understood by the layperson. Successfully completing an article does not mean that an article will be published.

**Components:** THI.

**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.
MIC 301. Introduction to Microbes and the Immune System. 3 Credit Hours.
Basic principles of microbiology and immunology; the microbiology component will include basic properties of bacteria, viruses, and parasites and how microbes interact with multicellular organisms in both disease and non-disease settings. The immunology component presents the players and basic concepts of immune responses as they apply to combat infectious pathogens, autoimmunity, allergy and transplantation. Course is required for microbiology and immunology majors; recommended for biology, chemistry and biochemistry majors and those considering the health sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 304. Introduction to Microbes and the Immune System (Lab). 2 Credit Hours.
Basic laboratory principles of microbiology and immunology. Students are instructed on how to handle, culture, and identify microorganisms. Microscope care/use, various staining techniques, ELISA, blood typing, bacterial transformation, and more. This laboratory is required of all microbiology and immunology majors.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

MIC 319. Innate Immunity. 3 Credit Hours.
The innate immune system provides the first line of defense against infectious microorganisms and is a very important disease-preventing mechanism. In this course the students will learn the molecular and cellular processes mediating innate immune responses to microbial pathogens, including intra- and extra- cellular bacteria and viruses.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 320. Introduction to Microbes and the Immune System for Nurses. 3 Credit Hours.
Course covers the basic principles of microbiology and immunology. Course cannot be used for MIC major or minor credit. Requisite: School of Nursing Health Studies.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 321. Immunobiology. 3 Credit Hours.
Mechanisms underlying the cooperation between T-cells, B-cells, and antigens leading to humoral and cell mediated responses. The significance of immune cells and their products pertaining to autoimmunity, transplantation, and the surveillance of neoplastic cells is covered. Prerequisite: MIC 301 or MIC 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 322. Medical Parasitology. 3 Credit Hours.
Course discusses the biochemistry, physiology, pathogenicity, immunology, and mechanism of drug action and resistance of medically important parasitic protozoa, trematodes, nematodes, and cestodes. Prerequisite: MIC 301 or MIC 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MIC 323. Microbial Pathogenesis and Physiology. 3 Credit Hours.
Fundamental properties of microbes as well as host-microbe relationships at the molecular and cellular levels. Prerequisite: MIC 301. Or MIC 303.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MIC 436. Fundamental and Medical Virology. 3 Credit Hours.
The study of viruses as biological entities and etiological agents of disease. Virus-cell and virus-host interactions are also discussed. Prerequisite: MIC 301 or MIC 303.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
MIC 441. Microbiology and Immunology Colloquium. 1 Credit Hour.
External and internal faculty presentations as well as graduate presentations of recent advances in research. Course meets on hour per week.
Prerequisite: MIC 301. Or MIC 303.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MIC 451. Special Projects in Immunobiology. 2-6 Credit Hours.
Wet bench laboratory research with faculty in the Microbiology and Immunology (M&I) Department at the Miller School of Medicine. Students will be actively participating in all aspects of hypothesis-driven scientific research ranging from familiarity with the literature to conducting and analyzing experiments.
Requisite: at least 17 credits in MIC and MIN GPA 3.0.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MIC 452. Special Projects in Parasitology. 2-6 Credit Hours.
Wet bench laboratory research with faculty in the Microbiology and Immunology (M&I) Department at the Miller School of Medicine. Students will be actively participating in all aspects of hypothesis-driven scientific research ranging from familiarity with the literature to conducting and analyzing experiments.
Requisite: at least 17 credits in MIC and MIN GPA 3.0.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MIC 453. Special Projects in Pathogenic Bacteriology. 2-6 Credit Hours.
Wet bench laboratory research with faculty in the Microbiology and Immunology (M&I) Department at the Miller School of Medicine. Students will be actively participating in all aspects of hypothesis-driven scientific research ranging from familiarity with the literature to conducting and analyzing experiments.
Requisite: at least 17 credits in MIC and MIN GPA 3.0.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MIC 454. Special Projects in Microbial Genetics. 2-6 Credit Hours.
Wet bench laboratory research with faculty in the Microbiology and Immunology (M&I) Department at the Miller School of Medicine. Students will be actively participating in all aspects of hypothesis-driven scientific research ranging from familiarity with the literature to conducting and analyzing experiments.
Requisite: at least 17 credits in MIC and MIN GPA 3.0.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MIC 455. Special Projects in Immunogenetics. 2-6 Credit Hours.
Wet bench laboratory research with faculty in the Microbiology and Immunology (M&I) Department at the Miller School of Medicine. Students will be actively participating in all aspects of hypothesis-driven scientific research ranging from familiarity with the literature to conducting and analyzing experiments.
Requisite: at least 17 credits in MIC and MIN GPA 3.0.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

MIC 456. Special Projects in Virology. 2-6 Credit Hours.
Wet bench laboratory research with faculty in the Microbiology and Immunology (M&I) Department at the Miller School of Medicine. Students will be actively participating in all aspects of hypothesis-driven scientific research ranging from familiarity with the literature to conducting and analyzing experiments.
Requisite: at least 17 credits in MIC and MIN GPA 3.0.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.
MIC 460. Advanced Topics in Microbiology and Immunology. 3 Credit Hours.
An extensive and detailed examination of a number of topics covered in the core courses of the major. The goal is for upper-division undergraduate students to take the knowledge base they acquired in their major core courses into ‘cutting edge’ research areas. Each topic (of a total of 6 to 8) will be presented by a Faculty member with expertise in the area. Topics may include reproductive immunology, microbes and beer, HIV vaccine development, cancer immunotherapy, SARS-CoV-2 and the immune system, autoimmunity in the CNS, immune-based metabolic diseases, and Yersinia pestis and the Black Death.
Prerequisite: MIC 301 and MIC 304 and MIC 319 and MIC 321.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

Mission

Our primary goal is to emphasize basic as well as medical-focused science and instill in our students the desire for lifelong learning. We are a unique program in that we have a dual presence at the Miller School of Medicine as well as the Coral Gables Campuses. Research opportunities and laboratory engagement help create knowledge in our students while preparing them to become active members of the scientific and public communities.

Goals

Major program objectives are:

- To expose students to the various disciplines within the field of Microbiology and Immunology, including virology, parasitology, microbial genetics, immunology and medical bacteriology.
- To introduce students to special projects and/or research opportunities in laboratories at the School of Medicine.
- To provide laboratory experience for the development of skills required for the conduct of research.
- To make students aware of current cutting edge research in the field of Microbiology and Immunology by attending seminars of speakers from within and outside the University.

Student Learning Outcomes

- Students will learn to write scientifically using the appropriate style, terminology and methodology pertaining to their major area of study.
- Students will demonstrate practical knowledge in microbiology and immunology.
- Students will be able to apply their knowledge in scientific manner to deduce outcomes.

Total Credit Hours: 12

**1** Required of all Microbiology and Immunology Minors

**2** MIC 201, MIC 319, MIC 323 Fall Semester Only or by announcement

**3** MIC 301, MIC 321, MIC 322, MIC 436, MIC 460 Spring Semester Only or by announcement

**4** Fall and Spring Semesters

* Variations in the above programs may, in special cases, be approved by the Microbiology and Immunology undergraduate advisor and Director.

** All courses in Microbiology and Immunology to be credited toward a Microbiology and Immunology major or minor must be completed with a grade of C- or better with an overall GPA of 2.0.

### Military Science

armyrotc.as.miami.edu

Dept. Code: MSL

**Introduction**

The Army Reserve Officer Training Corps (ROTC) is one of the nation's top leadership programs and is a college elective curriculum you take along with your required college classes. The military science department's Reserve Officers Training Corps (ROTC) program of instruction provides a base for normal progression in the commissioned officers' educational program. Students who complete all ROTC requirements are commissioned as second lieutenants and serve in the Army, Army National Guard or Army Reserve. It prepares you with the tools, training and experiences that will help you succeed in any competitive environment. Army ROTC is a one-of-a-kind experience, along with great leadership training, it will give you valuable real-world tools and leadership skills that will benefit not only your professional career but your personal life as well. Army ROTC can also assist in paying for your college tuition as well as many other benefits. You will have a normal college student experience like everyone else on campus, but when you graduate, you will be an Officer in the Army. ([http://www.goarmy.com/careers-and-jobs/become-an-officer.html](http://www.goarmy.com/careers-and-jobs/become-an-officer.html))

Being an Officer in the U.S. Army means you’re a leader, a counselor, a strategist and a motivator. It’s similar to being a vital manager in a corporation. As an Officer in the military, you will lead other Soldiers in all situations and adjust in environments that are always changing. You’ll be driven to achieve success with your team on every mission.

Leadership and management objectives are included in academic periods of instruction. Practical leadership experience is gained in a field training environment by attendance at a 31-day summer camp, normally between the junior and senior years. Nursing students may attend a nursing internship at Army hospitals following the normal summer camp. A leadership laboratory also provides experience in a range of leadership positions during the school year. The department offers both a four-year and a two-year program, each with its own special advantages. Students are invited to visit or contact the Department of Military Science to obtain additional information at 305-284-3329 or 305-348-1619 or email armyrotc@miami.edu to discuss their eligibility status.

**Core Program**

The program requires four years of military science courses which consist of a two-year basic course and a two-year advanced course. Students can begin the four-year program as a freshman or sophomore.

There is also a two-year ROTC program for those students with only two years of college remaining. The two-year course is designed for junior college and other non-ROTC college transfer students, but may be utilized by students who did not enroll in the basic course outlined below.
Graduate students may also qualify for enrollment in the two-year course. Additional information regarding eligibility requirements for the two-year program may be obtained by contacting the Department of Military Science.

**Basic Course**

The Basic Course takes place during your first two years in college as elective courses. It normally involves one elective class and lab each semester along with the requisite physical training and field training exercises. The purpose of this instruction is to qualify students for entry into the advanced course by familiarizing them with the organization of the Army, military skills, and military tradition. You will learn basic military functions, the fundamentals of leadership and start the groundwork toward becoming an Army leader. You can take Army ROTC Basic Courses without a military commitment. Enrollment in ROTC requires proof of a doctor’s physical screening.

**Advanced Course**

The Advanced Course takes place during your last two years in college as elective courses. It normally includes one elective class and lab each semester in addition to the requisite physical training and field training exercises, plus a summer leadership camp. Instruction in the advanced course includes leadership and management, the exercise of command, military teaching methods, tactics, logistics, administration, history, and military justice. Leadership experience and command experience are provided by assigning advanced course students as cadet officers and noncommissioned officers. You will learn advanced military tactics and gain experience in team organization, planning and decision-making. To benefit from the leadership training in the Advanced Course, all Cadets must have completed either the Basic Course or have attended the Basic Leader’s Training Course. Entering the Advanced Course requires a commitment to serve as an Officer in the U.S. Army after you graduate.

**Army Nurse Corps Option**

Students enrolled in the School of Nursing curriculum leading to the degree of Bachelor of Science in Nursing may simultaneously qualify for commissions as Second Lieutenants in the Army Nurse Corps. Nursing students qualify for entry into the Officer Development Course through satisfactory completion of the General Military Course, the Basic Camp option or equivalent training. Nursing students participate in a summer Advanced Camp training program and an Army nurse training program. They provide practical and leadership experience in the clinical setting. The focus is to provide nursing cadets an experience which integrates clinical, interpersonal and leadership knowledge and skills. Emphasis is placed on practical experience under the direct supervision of an Army Nurse Corps Officer who acts as the cadet’s preceptor throughout the camp period.

**Professional Military Education**

In addition to basic and advanced ROTC courses, cadets must complete professional military education requirements consisting of one course in each of the following areas: written and oral communication skills, U.S. military history, and computer literacy. Students should consult with the professor of military science to determine those University courses suitable for fulfilling these requirements.

**Monetary Allowances**

Cadets selected for admission into the advanced course qualify for a nontaxable monetary allowance of $420.00 per month as a contracted cadet during the semester. Cadets may also qualify for the simultaneous membership program with the United States Army Reserve or National Guard, which can provide approximately $4500.00 per fiscal year during the last two years of school. Both the United States Army Reserve and the National Guard offer additional monetary incentives for cadets who join their organizations (drill pay).

**Army ROTC College Scholarship Program**

Financial assistance is available in the form of two- or three-year ROTC academic scholarships for selected students. Under the Army ROTC Scholarship Program, the students/cadets receive FULL Tuition and Fees. Additionally, Army scholarship recipients receive a flat-rate allowance of $1200 per year for textbooks and other expenses and $420.00 per month during the semester. During the 32-day advanced course summer training between the junior and senior years, Army ROTC also pays attending cadets $37 per day plus room and board. There are also numerous national and organizational scholarships that students may compete for as a member of Army ROTC.

Additionally, University of Miami undergraduates enrolled in the Army ROTC program are assured a combined University grant and/or scholarship award during the fall and spring semesters equal to 25% of the University's tuition charge for a maximum of four years. The subsidy is not available during the summer term. Students must maintain continuous enrollment in the Army ROTC program, must maintain satisfactory academic progress to continue receiving the subsidy, and full time enrollment in one of the University’s undergraduate degree programs is required. No application is required. Awards are made automatically based on information provided by the University's Army ROTC detachment.

**Basic Camp**

Basic Camp is four weeks of intense classroom and field training held in the summer at Fort Knox, KY. This leader development course is an accelerated version of the two years of leadership development training Cadets receive in the Basic Course. By transforming yourself through this rigorous training, you will qualify for enrollment in the Army ROTC Advanced Course on campus-provided you have two years of college remaining (undergraduate or graduate). You will also receive a stipend, transportation to and from Fort Knox, housing and meals.
Advanced Camp
Every Army ROTC Cadet who enters into the Advanced Course attends the Cadet Leadership Course. It’s a five-week summer program to evaluate and train all Army ROTC Cadets. This course normally takes place between your junior and senior years of college, and is conducted at Fort Knox, Kentucky.

Uniforms and Textbooks
All uniforms, equipment and items of insignia incident to membership in the Army ROTC Program are furnished by the Department of Military Science. Textbooks are provided at no cost to students/cadets enrolled in the basic and advanced courses.

Special Activities
Cadets have the opportunity to join and participate in a number of military affiliated organizations and activities, both on a voluntary and a selective basis. The Color Guard is a voluntary organization that functions as a military unit participating in military ceremonies and presenting the national colors at civic events. Cadets have the opportunity to qualify for and compete with cadets from other universities and colleges in a series of military events termed Ranger Challenge.

Cadets that qualify can also attend Army specialty schools such as Airborne School, Air Assault School, Mountain Warfare, Scuba School, Sapper School, Cadet Tactical Leader Training (CTLT).

Awards and Decorations
Awards and decorations made available by national organizations, the University of Miami Army ROTC Alumni Association, and local and national military organizations, are presented to both basic and advanced officer course cadets each year. These plaques, trophies, medals, and ribbons symbolize superior achievement in Army ROTC and other University academic courses, and in outstanding campus and cadet corps leadership.

Prerequisite for Admission to the Professional Officer Course
1. Acceptance by the University of Miami.
2. Be at least 17 years of age at time of acceptance.
3. Pass a physical health assessment.
4. Be able to complete the professional officer course and graduate from the University of Miami prior to reaching the age of thirty one (31) at the time of commissioning.

Those students enrolled in the four-year Army ROTC program must complete the basic course or its equivalent, or have acceptable prior military service. Veterans and students with previous ROTC training are invited to contact the Department of Military Science 305-284-3329 or 305-348-1619 or email armyrotc@miami.edu to discuss their eligibility status.

Students desiring entry into the two-year Army ROTC program should contact the Department of Military Science one semester prior to the semester in which they wish to enroll in the professional officer course. This lead time is required to complete the application and a physical examination prior to enrollment in the professional officer course.

Leadership Laboratory
Leadership laboratory is required for students who are members of the Reserve Officer Training Corps or who are eligible to pursue a commission as determined by the professor of military science. Leadership laboratory is the formalized phase of leadership training conducted by the cadre and Cadets. It is scheduled for once a week for both the basic and advanced officer courses (non-contracted and contracted). All uniforms and equipment required for cadet activities are furnished.

Educational Objectives
To provide a base of knowledge in the areas of ethics, leadership, Communication skills, Military Leadership, U.S Military History, Tactics and Team building to include future Officer development.

Degree Programs
Students can receive a minor in Military Science once requirements are met along from the university by being in the Army ROTC program.

MSL 101. Basic Military Science. 1 Credit Hour.
Introduction to Army organizations, military customs and courtesies, basic stationary and marching drills, basic map reading, land navigation, drown-proofing, rappelling, river crossing techniques, physical fitness training, and practical exercises in field discipline. Requires outdoor leadership laboratory and at least one weekend field training exercise.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.
MSL 102. Basic Military Science. 1 Credit Hour.
Introduction to basic leadership principles and traits, army command and staff officer duties, awards, decorations, individual military tactics, field discipline, patrolling techniques, radio telephone procedures, rappelling and river crossing. Requires outdoor leadership laboratory and at least one weekend field training exercise.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSL 201. Basic Military Science. 2 Credit Hours.
Instruction to squad and platoon marching drills, development of physical fitness training programs, conduct on military training and inspections, leadership techniques, advanced map reading, rappelling and river crossing techniques. Requires outdoor leadership laboratory and at least one weekend field training exercise.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSL 202. Basic Military Science. 2 Credit Hours.
Continued instruction in drill and ceremonies, radio/telephone procedures, nuclear, biological, and chemical warfare, practical land navigation, orienteering, and introduction to combat troop leading procedures. Requires outdoor leadership laboratory and at least one weekend field training exercise.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSL 301. Basic Military Science. 3 Credit Hours.
Classroom and field experience in leading squads and platoons in both garrison and combat environments. Practical exercises in combat troop leading procedures. Advanced physical fitness training to include endurance runs and tactical road marches. Requires outdoor leadership laboratory and at least one weekend field training exercise.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSL 302. Advanced Military Science. 3 Credit Hours.
Classroom instruction and field experience in combat troop leading procedures for offensive, defensive and patrolling missions. Advanced written and practical land navigation exercises. Company level drill and ceremonies to include manual of arms. Classroom and practical exercises on requests for artillery and mortar fires. Practical experience with training underclassmen in first aid and individual tactics.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSL 401. Advanced Military Science. 3 Credit Hours.
Instruction instills an uncompromising commitment to the Army Ethic, enhances thought processes and decision-making skills, and relates officer behavior to cadet leadership roles. Students are primarily responsible for the command and control of the cadet battalion for training purposes. Student's role is principally one of officer leader at the platoon (30 or more underclassmen) and higher levels and cadet instructor/evaluator. Rifle qualification. Company level drill and ceremonies to include manual of arms.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

MSL 402. Advanced Military Science. 3 Credit Hours.
Capstone course in the preparation for a commission as a second lieutenant. The training is intended to solidify the commitment to officership, reinforce individual competencies, and afford maximum practical officer leader experiences through responsible leadership positions within the cadet battalion command and staff.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

MSL 440. Studies in Military History. 3 Credit Hours.
Supervised readings and independent study in military history.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
The following are our Students who wish to study Spanish (as a second language, native language, or heritage language) can get more tailored placement advice through day of class for the semester. Therefore, it is extremely important that students attend their language class on the first diagnostic evaluation of students' abilities. The instructor will then inform students whether that course is indeed the level or track that will benefit these are only guidelines and individual cases may differ. For this reason, on the first day of class of each course section, the instructor conducts a (i.e., the strength of the program in which the student previously studied the language, how long it has been since the student has used the language, extent of the student's exposure to the language at home/in social settings, the student's knowledge of other languages, etc.) make it such that. Consequently, global literacy involves awareness about oral and written texts, their conventions and genres, and their social, historical, political, and artistic uses. It entails linguistic proficiency in a language other than your own. You cannot be global if you only live in one language. Global Literacy includes written and oral communication, critical thinking and social responsibility, and appreciation of cultural artifacts, artistic products, and new technologies in more than one language. Global Literacy and multilingualism foster success in business, economics, education, law, medicine, natural sciences, politics, social sciences, arts, and humanities. Language study most effectively enriches academic as well as personal experiences when students choose a language based on its relevance to possible careers, to research in particular fields, to personal heritage, or to the understanding of unfamiliar cultures. Students combine advanced modern language study with majors in other fields, such as International Studies, Communications, History, Political Science (and other pre-law fields), Biology (and other pre-med fields), Nursing, English, Finance, Latin American Studies, Anthropology, Psychology, Computer Science, Sociology, and Philosophy. The Department has Undergraduate Advisors for each language (http://www.as.miami.edu/mll/undergraduate/advising/). You are encouraged to consult with them for placement, and must consult with them if you plan to major, minor, or study abroad (contact the Department office for names and office hours). If you plan to double major, you must have an advisor from each of your fields.

Students may qualify for a wide range of departmental awards (http://www.as.miami.edu/mll/undergraduate/student-awards/) for excellence in linguistic and literary achievement. The Modern Languages and Literatures Awards Reception takes place annually during graduation week. Some awards are conferred through nomination by professors; others require an application. Students may obtain information on specific awards in the Department office. The annual deadline for applications is usually in early March.

Placement Guidelines for MLL Courses

Most students studying a second language can determine their appropriate level by adhering to the following guidelines. However, various factors (i.e., the strength of the program in which the student previously studied the language, how long it has been since the student has used the language, the extent of the student's exposure to the language at home/in social settings, the student's knowledge of other languages, etc.) make it such that these are only guidelines and individual cases may differ. For this reason, on the first day of class of each course section, the instructor conducts a diagnostic evaluation of students' abilities. The instructor will then inform students whether that course is indeed the level or track that will benefit him/her the most or, if not, which course he/she must take. Consequently, global literacy involves awareness about oral and written texts, their conventions and genres, and their social, historical, political, and artistic uses. It entails linguistic proficiency in a language other than your own. You cannot be global if you only live in one language. Global Literacy includes written and oral communication, critical thinking and social responsibility, and appreciation of cultural artifacts, artistic products, and new technologies in more than one language.

Global Literacy and multilingualism foster success in business, economics, education, law, medicine, natural sciences, politics, social sciences, arts, and humanities. Language study most effectively enriches academic as well as personal experiences when students choose a language based on its relevance to possible careers, to research in particular fields, to personal heritage, or to the understanding of unfamiliar cultures. Students combine advanced modern language study with majors in other fields, such as International Studies, Communications, History, Political Science (and other pre-law fields), Biology (and other pre-med fields), Nursing, English, Finance, Latin American Studies, Anthropology, Psychology, Computer Science, Sociology, and Philosophy.

The Department has Undergraduate Advisors for each language (http://www.as.miami.edu/mll/undergraduate/advising/). You are encouraged to consult with them for placement, and must consult with them if you plan to major, minor, or study abroad (contact the Department office for names and office hours). If you plan to double major, you must have an advisor from each of your fields.

Students may qualify for a wide range of departmental awards (http://www.as.miami.edu/mll/undergraduate/student-awards/) for excellence in linguistic and literary achievement. The Modern Languages and Literatures Awards Reception takes place annually during graduation week. Some awards are conferred through nomination by professors; others require an application. Students may obtain information on specific awards in the Department office. The annual deadline for applications is usually in early March.

Placement Guidelines for MLL Courses

Most students studying a second language can determine their appropriate level by adhering to the following guidelines. However, various factors (i.e., the strength of the program in which the student previously studied the language, how long it has been since the student has used the language, the extent of the student's exposure to the language at home/in social settings, the student's knowledge of other languages, etc.) make it such that these are only guidelines and individual cases may differ. For this reason, on the first day of class of each course section, the instructor conducts a diagnostic evaluation of students' abilities. The instructor will then inform students whether that course is indeed the level or track that will benefit him/her the most or, if not, which course he/she must take. Therefore, it is extremely important that students attend their language class on the first day of class for the semester.

Students who wish to study Spanish (as a second language, native language, or heritage language) can get more tailored placement advice through our on-line placement advisor (http://www.as.miami.edu/labs/resources/placement/).

The following are MLL's general placement guidelines (http://www.as.miami.edu/mll/undergraduate/placement-guidelines/):

- If you have not studied Arabic, Chinese, French, German, Hebrew, Italian, Japanese, or Spanish in high school, or have completed one to two years of high school instruction, take 101; for Portuguese, take 105.
- If you have taken 101 or its equivalent at another institution, take 102.
- If you have completed three years of high school instruction in French or Spanish, or scored a 3 on the AP language exam, take 105. If you have had three years of high school Arabic, Chinese, German, Hebrew, Italian, or Japanese, take 102.
- If you have taken four years of high school French or Spanish, scored a 4 on the AP language exam or a 4 on the IB exam in French or Spanish, or took the equivalent of 102 or 105 at another university, take 201. If you have taken four years of high school German, Italian or Portuguese, take 201. If you have taken four years of Arabic, Chinese, Hebrew, or Japanese, take 201.
- If you had five to six years of French, German, Italian, or Spanish in middle and high school, take 202.
• If you have taken the equivalent of 201 at another university or scored a 5 on the AP language exam, you have completed your language requirement. If you wish to continue your studies, take 202.

• If you took the equivalent of 202 in French or Spanish at another university or scored a 4 on the AP literature exam, you have completed your language requirement. If you wish to continue your studies, take 203. If you took the equivalent of 202 in German, Italian or Portuguese at another university, you have completed your language requirement. If you wish to continue your studies, take 301.

• If you scored a 5 on the AP literature exam in French, Italian or Spanish, you have completed your language requirement. If you wish to continue your studies, take 301.

The Department offers courses open to native speakers of French, German, Italian, Portuguese, and Spanish. Native speakers may not enroll in 101, 102, 105, 201, 202, 203, or 301 in their language. If you are a native speaker of French, German, Italian, or Portuguese, and graduated from a high school where that was the official language of instruction, you may take any course above 301 (consult with the respective Undergraduate Advisor). If you are a native speaker of Spanish and graduated from a high school where that was the official language of instruction, your first SPA course at UM must be either SPA 302 or SPA 303 or SPA 307 (which is a prerequisite for most other SPA courses).

The Department of Modern Languages & Literatures identifies as heritage learners of Spanish those students who begin their university studies of the language with little or no prior instruction in Spanish but who, because of family background or social experience, can already understand much casual spoken Spanish and have a passive knowledge of the language (though they may not usually speak the language themselves). In the great majority of cases, they have been born and fully educated in the United States, and may have grown up speaking principally English (or a ‘mix’ of Spanish and English, i.e. ‘Spanglish’) in the home with their grandparents, parents and siblings. Heritage learners may or may not consider themselves as “bilinguals” or “native speakers”, since both of these terms carry very different connotations—linguistic, social, and psychological—for different individuals. Some state that they “do not really speak Spanish” even though they are able to comprehend much spoken language (i.e., they are “passive bilinguals”). In the great majority of cases, they self-identify as “Hispanic” or “Latino/a”.

HERITAGE LEARNERS OF SPANISH MUST BE PLACED IN ONE OF THE FOLLOWING FOUR COURSES:

1. **SPA 107 Basic Spanish for Heritage Learners** is for those students with little or no prior instruction in Spanish who, because of family background or social experience, can understand casual spoken Spanish and have a passive knowledge of the language although they do not usually speak the language themselves. Generally, their abilities to read and write Spanish are at a beginning level. CLOSED TO STUDENTS WHO GRADUATED HIGH SCHOOL IN A SPANISH-SPEAKING COUNTRY.

2. **SPA 207 Intermediate Spanish for Heritage Learners** is for those students WHO HAVE ALREADY TAKEN AND PASSED SPA 107 or who have studied Spanish for AT LEAST TWO YEARS IN HIGH SCHOOL. They can understand casual spoken Spanish and have some functional ability in speaking, reading and writing the language. CLOSED TO STUDENTS WHO GRADUATED HIGH SCHOOL IN A SPANISH-SPEAKING COUNTRY.

3. **SPA 208 Advanced Spanish for Heritage Learners** is for those students who have studied Spanish for four years in high school and who have developed functional abilities in speaking, reading and writing the language. Students who earned a score of 5 on the AP Spanish Language Exam or 4 in the AP Literature Exam should register for this course. CLOSED TO STUDENTS WHO GRADUATED HIGH SCHOOL IN A SPANISH-SPEAKING COUNTRY.

4. **SPA 307 Interpreting Literary And Cultural Texts In Spanish For Heritage/Native Speakers** is intended for those students who have completed secondary and/or university studies in a Spanish-speaking country and for those heritage learners who demonstrate an advanced level of productive competence (in the written and spoken modes) in Spanish because of prior formal study of the language. Heritage learners who place directly into 307 have taken AP Spanish literature in high school and earned a score of 5.

SPA 101, SPA 102, SPA 105, SPA 201, SPA 202 AND SPA 203 ARE NOT FOR HERITAGE LEARNERS. ANY HERITAGE LEARNER WHO ENROLLS IN ONE OF THESE COURSES WILL BE OBLIGATED TO SWITCH TO A HERITAGE LANGUAGE COURSE (SPA 107, SPA 207, SPA 208 OR SPA 307) DURING THE FIRST WEEK OF CLASS.

**Arts and Sciences Language Requirement**

The College of Arts and Sciences requires all B.A. and B.S. degree students to show competency in a language other than English by successfully completing an approved college language course at the 200-level or higher. Students wishing to fulfill the language requirement in a language not taught at UM, may request an equivalency evaluation for a course at the appropriate level offered at an accredited institution, complete the approved equivalent course, and transfer the credits. Students requesting such an equivalency evaluation must submit appropriate documentation to the MLL department for approval. For a native speaker of the language in question, a course that transfers at UM's 300-level will fulfill the language requirement. For a second language learner of the language in question, a course that transfers at UM's 200-level will fulfill the language requirement.

**Writing Credits: Writing Across the Curriculum**

All of the Department’s 300- and 500-level courses and some 400-level courses offer writing credit. NOTE: Courses may simultaneously fulfill General Education requirements and Writing Credit, or the Foreign Language Requirement and Writing Credit.

**Cognates**

Most of the Department’s courses are part of cognates in one of two Areas of Knowledge: Arts & Humanities, and People & Society. A course cannot simultaneously complete a cognate in an Area of Knowledge and the College of Arts & Sciences’ Foreign Language Requirement.
Degree Programs
Students pursuing a single major in Arts and Sciences earn a BA.

Majors
The Department offers majors in French and Spanish. Students majoring in any of these three languages must earn 24 credit hours in courses above 201 for French and above 202 for German and Spanish (30 credit hours for Departmental Honors). In consultation with their MLL advisor, students can have up to 1 course (3 credits) from among the MLL courses or the FRE and SPA courses taught in English (numbered 310-319) count toward their French or Spanish major.

Minors
The Department offers minors in Arabic Studies, French, German, Italian, Portuguese, Spanish, and Modern Languages. You do not have to be a student of the College of Arts and Sciences to minor in a modern language; you need only the approval of your college or school advisor and to complete the departmental requirements. If you wish to complete a double degree, consult with an Arts and Sciences Advisor. Except for Arabic Studies, French and Italian, all courses in the German, Portuguese, Spanish minors must be taught in the target language. The two 300-level courses for the additional language in the Modern Languages minor must also be taught in the target language.

Students may also pursue a minor in Chinese Studies or Japanese Studies as an Independent Minor. Please consult the requirements here. (p. 130)

Study Abroad
Students completing a major or a minor in a modern language are encouraged to study abroad. The Department offers faculty-led summer study abroad programs in France, Japan, and Spain. The Department and Study Abroad sponsor a semester-long study abroad program in Paris (UParis) for students of all majors and minors and all levels of ability in the French language; French majors and minors are especially encouraged to apply. For more information, please click here. Study Abroad (in Dooly Memorial Classroom, Building 1111, Memorial Drive, Suite 125) sponsors programs for Chinese, French, German, Italian, Japanese, Portuguese, and Spanish. It is also possible to fulfill some Arts and Sciences distribution requirements abroad. In order to take full advantage of study abroad, students should visit the Study Abroad office early in their university careers, discuss course equivalencies with the Study Abroad Advisor for their chosen languages (contact the Department office for names and office hours), and consult with their major advisors. Credit hour toward the major for courses taken abroad will be determined on an individual basis.

Departmental Honors
Departmental Honors in Modern Languages are possible in the three languages for which the major is offered: French and Spanish. In order to request admission to Departmental Honors, candidates must have completed at least twelve credit hours at the 300 level or above. They must have a GPA of 3.5 in all their major courses and a 3.5 overall average GPA. Both GPAs must be maintained in order to graduate with Departmental Honors.

During their junior year, candidates for honors will identify an honors thesis supervisor and a second reader and request admission to Departmental Honors. Admission to candidacy must also be approved by the Director of Undergraduate Studies for the appropriate language.

In addition to fulfilling the regular major requirements, students must register in their Senior year for FRE or SPA 594-595, Senior Honors Thesis. This is a two-semester, six credit hour sequence: 594 for research and 595 for the actual writing of the honors thesis.

The honors thesis advisor and the second reader will determine whether the finished thesis merits Departmental Honors.

Arabic
ARB 101. Elementary Arabic I. 4 Credit Hours.
Fundamental writing and grammar principles; pronunciation; simple reading and translation. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ARB 102. Elementary Arabic II. 4 Credit Hours.
Modern Standard Arabic; oral and written exercises. Closed to native speakers.
Prerequisite: ARB 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
ARB 201. Intermediate Arabic I. 3 Credit Hours.
Modern Standard Arabic; oral and written exercises. Closed to native speakers.
Prerequisite: ARB 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
ARB 202. Intermediate Arabic II. 3 Credit Hours.
Readings designed to integrate listening comprehension, speaking, reading, and writing skills in Modern Standard Arabic. Discussion of Arab society, history and culture. Closed to native speakers.
Prerequisite: ARB 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARB 203. Advanced Arabic. 3 Credit Hours.
5th semester course in Modern Standard Arabic. Continued development of all four language skills (listening, speaking, reading, and writing) together with study of cultural aspects of the Arab world. Conducted in Arabic. Closed to students who graduated from a high school in which the primary language of instruction was Arabic.
Prerequisite: ARB 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARB 204. Arabic 204: Advanced Arabic II. 3 Credit Hours.
The sixth course of the Modern Standard Arabic sequence within the Arabic Studies Program. The three primary goals of the Arabic language sequence are: (1) developing oral and written communicative abilities in Arabic; (2) understanding the rich culture of the Arabic-speaking world through engaging with texts and cultural artifacts; (3) studying and understanding the Arabic language, from grammar and spelling to writing with coherence, cohesion and accuracy.
Prerequisite: ARB 203.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARB 207. Arabic for Heritage Learners. 3 Credit Hours.
Arabic for Heritage Learners is a 200 level course specifically designed for students of Arab descent who fulfilled the equivalent of ARB 201. The course will hone students' ability in critical reading, writing, debate, and discussion of pertinent topics in Arab culture. The course material will focus on the history of Arab culture, literature, film, and music. By the end of the semester students will develop their ability in critical reading and writing in MSA.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ARB 208. Arabic for Heritage Learners II. 3 Credit Hours.
Arabic 208 is combined with the sixth course of the Modern Standard Arabic sequence within the Arabic Studies Program. The three primary goals of the Arabic language sequence are: (1) developing oral and written communicative abilities in Arabic; (2) understanding the rich culture of the Arabic-speaking world through engaging with texts and cultural artifacts; (3) studying and understanding the Arabic language, from grammar and spelling to writing with coherence, cohesion and accuracy.
Prerequisite: ARB 202 or ARB 207.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

ARB 251. Levantine Colloquial Arabic I. 3 Credit Hours.
This course will enable students to converse in the colloquial Arabic dialects of the Levant (Jordan, Lebanon, Palestine, and Syria). Development of communicative abilities in speaking and comprehension, as well as reading and writing (as used in social media, theater, etc.) of colloquial Levantine Arabic. Closed to native speakers (students educated in schools where Arabic was the language of instruction); heritage learners at the beginning level may be accommodated.
Prerequisite: ARB 201.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARB 310. Topics in Arabic Literature and Culture in Translation. 3 Credit Hours.
Specific topics within the literature and cultures of the Arabic-speaking world, including literary, cinematic, and artistic representations of central themes or issues, and the cultural production of particular historical periods or national or immigrant groups. This course is taught in English and does not fulfill the CAS foreign language requirement. May be repeated for credit if topics vary.
Prerequisite: ENG 106 or ENG 107.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ARB 312. Arab Cultures: A Cultural History of the Arab World. 3 Credit Hours.
Study of the main points of Arab cultural history, from Pre-Islamic times to the period following European colonization with an emphasis on intellectual history and literary and visual arts. This course is taught in English and does not fulfill the CAS foreign language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARB 315. Topics in Gender and Sexuality in Translation. 3 Credit Hours.
Topics in gender and sexuality in the context of the Arab world, through literary and/or cultural studies. This course is taught in English and does not fulfill the CAS foreign language requirement. May be repeated for credit if topics vary.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARB 394. Arabic Internship. 1-3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM faculty supervision, as well as supervised on-site experience in an Arabic-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: ARB 204.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ARB 410. Language and Power in the Arab World. 3 Credit Hours.
The multiple languages and linguistic registers present in the Arab world and, through materials from linguistics, anthropology, political science, music, art, and literature, leads them into an exploration of the main socio-linguistic features of Arabic and their broader cultural ramifications. This course is conducted in English. It does not fulfill the College of Arts & Sciences language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ARB 591. Directed Readings. 1-3 Credit Hours.
Directed readings (Independent study) in Arabic Studies.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

Chinese

CHI 101. Elementary Chinese (Mandarin). 3 Credit Hours.
Conversation, grammar, reading, elementary composition.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CHI 102. Elementary Chinese (Mandarin). 3 Credit Hours.
Continuation of CHI 101, conversation, grammar, reading, elementary composition.
Prerequisite: CHI 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CHI 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.
CHI 201. Intermediate Chinese I. 3 Credit Hours.
Expanding further on language skills (grammar, composition and reading) while introducing students to aspects of Chinese customs, history and culture. Closed to native speakers.
Prerequisite: CHI 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CHI 202. Intermediate Chinese II. 3 Credit Hours.
Continuation of CHI 201. Further development of reading, writing, speaking and listening skills in Mandarin Chinese. CLOSED TO NATIVE SPEAKERS.
Prerequisite: CHI 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CHI 203. Advanced Chinese. 3 Credit Hours.
This course is designed to develop students' ability to use Chinese in a more advanced way. The course emphasizes accurate comprehension, expansion of vocabulary, and development of the ability to use increasing complex grammatical and sentence structures. In addition to improving their language abilities, students will also be exposed to different areas of Chinese culture.
Prerequisite: CHI 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

CHI 204. Advanced Chinese II. 3 Credit Hours.
The course aims to develop students' ability to use Chinese in a more advanced way by continuing Chinese 203's emphasis on accurate comprehension, expansion of vocabulary, and development of the ability to use increasing complex grammatical and sentence structures. In addition to improving their language abilities, students will also be exposed to different areas of Chinese culture.
Prerequisite: CHI 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHI 210. Experiencing Chinese Culture through Art and Design. 3 Credit Hours.
A broad exposure on both traditional and modern Chinese arts, crafts, designs, architectures, and other cultural elements. Through discussions, hands on art projects, and cultural excursions, students will examine how traditional and contemporary Chinese values and beliefs are expressed in Chinese arts, crafts, designs, and architecture. An opportunity to truly immerse in Chinese culture. Students will visit historical and cultural sites. Local Chinese artists and scholars will co-teach certain sessions. Students will be guided to conduct cultural interviews and presentations to develop their own understanding on Chinese values and perspectives. This course takes place in Beijing during summer term. And it will be taught primarily in English.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

CHI 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

CHI 301. Advanced Reading and Diction Chinese. 3 Credit Hours.
Use of Chinese in a more advanced way to achieve greater fluency in a variety of written and spoken genres. Course materials incorporate authentic Chinese materials in genres including formal speech, short story, debate, op-ed essay, and newspaper. The course emphasizes accurate comprehension, expansion of vocabulary, and development of the ability to use increasing complex grammatical and sentence structures, in particular, formal speech and written language. In addition to improving their language abilities, course materials are also geared towards deepening students understanding of many different areas of Chinese culture.
Prerequisite: CHI 204.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.
CHI 310. Topics in Chinese Literature and Culture in Translation. 3 Credit Hours.
Specific topics within the literature and cultures of the Chinese-speaking world, including literary, cinematic, and artistic representations of central themes or issues, and the cultural production of particular historical periods or national or immigrant groups. This course is taught in English and does not fulfill the CAS foreign language requirement. May be repeated for credit if topics vary.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CHI 311. Comparative Literature in East Asia. 3 Credit Hours.
An introduction to the East Asian literary tradition (in China, Japan, and Korea) while introducing the methods of and issues surrounding comparative literary study. The course is structured thematically, according to particular motifs and themes that become central in Chinese, Japanese, and Korean literature. Themes to be studied include the non-human bride; romantic ideals and the romance narrative; the otherworldly journey; the dream; and the modern nation. It also seeks to challenge pre-conceived notions about East Asian literature and culture to instill a nuanced understanding of East Asian literary traditions.
Prerequisite: ENG 106.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

CHI 312. The Esoteric and the Mundane in the Chinese Literary Tradition. 3 Credit Hours.
A variety of important genres and themes in the Chinese literary tradition through the close reading of texts spanning three millennia. Particular attention is paid to notions of humanity, divinity, and monstrosity. The course is taught in English.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CHI 315. The Powerful Women of Medieval China in History, Fiction, and Modern Media. 3 Credit Hours.
An interdisciplinary examination of the portrayals of ruling-class women who lived during the medieval period in China and who have become a part of the Chinese literary-historical tradition. Works to be examined include short stories, novels, plays, films, and television. This course is taught in English.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

CHI 322. Cultural Topics. 3 Credit Hours.
A variety of important genres, issues, and themes related to Chinese culture through the close reading and analysis of texts. Topics may include film, religion, gender, epistemology, visual arts, immigration, travels, the preternatural. Note: Students will complete all readings and written assignments in Chinese. Course is open only to students with native or native-level fluency in Chinese.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

CHI 394. Chinese Internship. 1-3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM faculty supervision, as well as supervised on-site experience in an Chinese-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: CHI 204.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

CHI 395. Transfer Credit. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

CHI 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.
CHI 591. Directed Readings. 1-3 Credit Hours.
Provides Directed Readings in Chinese.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

French

FRE 101. Elementary French I. 3 Credit Hours.
For students with no background or previous study of French. The focus of FRE 101 is the development of communicative abilities in speaking, reading, writing, and comprehension of French and an introduction to the cultural practices of the Francophone world. Themes on: university life, family, leisure activities, home and community. Includes both oral and written assessment of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in French. Not open to students who have completed 2 or more years of high school French. Closed to heritage or native speakers of French.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 102. Elementary French II. 3 Credit Hours.
Continuation of FRE 101. The development of communicative abilities in speaking, reading, writing and comprehension of French and an introduction to the cultural practices of the Francophone world. Themes on: childhood and adolescence, food and lifestyle, university life and professions. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in French.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 105. Accelerated Elementary French. 3 Credit Hours.
For students with previous study of French desiring to review material covered in FRE 101 and 102 in preparation for continued study of French at the intermediate level. The focus of FRE 105 is the continued development of communicative abilities in speaking, reading, writing, and comprehension of French and an introduction to the cultural practices of the Francophone world. Themes on: family, leisure activities, home, and community, childhood and adolescence, food and lifestyle, university life and professions. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in French.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

FRE 201. Intermediate French I. 3 Credit Hours.
For students with previous study of elementary-level French. The continued development of communicative abilities in speaking, reading, writing, and comprehension of French and an introduction to the cultural practices of the Francophone world. Themes on: travel, technological innovations, the evolution of family values, and social and environmental issues. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in French.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 202. Intermediate French II. 3 Credit Hours.
For students with some previous study of French at the intermediate level, who are familiar with all the tenses and with vocabulary related to the topics covered in FRE 101-201. FRE 202 is the first semester of a two-semester sequence ending with FRE 203. The continued development of skills in reading, writing, speaking, and listening in French, with an additional emphasis on cultural competence in the French-speaking world. Themes on: relationships, cultural values, different historical perspectives, and current politics. These themes will be explored through articles, films and literary texts. The course will develop writing and reading strategies, providing them with the tools to think, read, and write critically and analytically in papers of 1-3 pages. Progress will also be assessed through quizzes and exams. Course conducted entirely in French.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
FRE 203. Advanced French. 3 Credit Hours.
Continuation of FRE 202. This course will prepare students for advanced literature, linguistic, and culture courses. The class will use films, literary works, and other cultural texts. Students will write analytic essays of 3-5 pages to develop style, vocabulary, and syntax. Course conducted entirely in French.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 280. French Culture and Conservation. 3 Credit Hours.
The major social, historical and political factors that have shaped contemporary and traditional French culture and society. This cultural approach to language-learning is set in the small towns and villages of the Sete region, rich and vibrant with a centuries-old history of intellectual advances and social tolerance. The historical and social evolution of French culture will be studied through film, literature and art with visits to relevant historical sites and museums.
Prerequisite: FRE 102 or FRE 105.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

FRE 301. Introduction to French and Francophone Studies. 3 Credit Hours.
Tools for the interpretation and analysis of cultural materials from the French-speaking world. Acquisition of terminology and methodology for advanced study in French and Francophone Studies. Emphasis on historical, literary, and geographical breadth of French-speaking cultures as well as on critical writing skills.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 302. The Cultures of France. 3 Credit Hours.
Historical survey of French intellectual, artistic, and popular culture.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 303. The Cultures of Francophone Africa, Canada, and/or the Caribbean. 3 Credit Hours.
Historical survey of the intellectual, artistic, and popular culture of the French-speaking communities in Africa, Canada and the Caribbean.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 310. Topics in French and Francophone Studies in Translation. 3 Credit Hours.
Topics in the literature and/or cultures of the French-speaking world. Readings and discussion in English. Development of critical reading and writing skills. Fulfills humanities literature requirement. Does not fulfill foreign language requirement. May be repeated when the topic varies. May be used toward the French major in accordance with Department of Modern Languages and Literature stipulations.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 321. Literary Topics. 3 Credit Hours.
The study of literature, film and/or the arts through a specific topic. Maybe repeated for credit if topic is different.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FRE 322. Topics in Global French Culture. 3 Credit Hours.
Issues centered on the culture of France and/or regions where French is spoken. Topics such as film, Caribbean history, journalism, translations, migration. May be repeated for credit if topic is different.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 325. Topics in French-Language Cinema. 3 Credit Hours.
Topics in the cinema of the French-speaking world. Analysis of films in their cultural context. May be repeated for credit if topics vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.

FRE 330. Topics in Gender and Sexuality. 3 Credit Hours.
Topics in gender and sexuality in the context of the French-speaking world, through literary and/or cultural studies. May be repeated if topics vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 340. Migration in Literary and Cultural Studies. 3 Credit Hours.
Study of migration to or from France, French-speaking Canada and America, Africa and/or the Caribbean. May be repeated for credit if topics vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 345. Franco-Maghrebian Studies. 3 Credit Hours.
The study of major historical, social, cultural and literary issues related to the Franco-Maghrebian interface. May be repeated for credit if topics vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 346. African Studies. 3 Credit Hours.
Topics in the literary and/or cultural study of French-speaking Africa. May be repeated for credit if topics vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 360. The Caribbean through Literary and Cultural Studies. 3 Credit Hours.
Literary and cultural readings on the Caribbean. May be repeated for credit if topics vary.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 363. Medieval and Renaissance Topics in French. 3 Credit Hours.
Topics within French literature from the 12th century to the end of the 16th century.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 364. Early Modern Topics in French. 3 Credit Hours.
Topics within French literature from the 17th and 18th centuries.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FRE 365. 19th Century Topics in French. 3 Credit Hours.
Topics within French literature from the 19th and 20th centuries.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

FRE 366. 20th and 21st Century Topics in French. 3 Credit Hours.
Study of currents, themes, and movements that define and run the course of 20th and 21st century French literature and culture. Course materials may encompass a diverse array of sources, including art, film, literature, theatre, aesthetics, political cultures and theoretical debates. May be repeated if the topic changes substantially.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

FRE 394. French Internship. 1-3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM–faculty supervision, as well as supervised on-site experience in a French-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: FRE 203.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

FRE 395. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 396. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 397. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 398. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 399. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 432. French for Global Business. 3 Credit Hours.
The language and culture tools needed to work and conduct business in French anywhere it is spoken around the world.
Prerequisite: FRE 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 442. Advanced writing workshop in French. 3 Credit Hours.
Intensive writing of various genres based on the discussion of readings.
Prerequisite: FRE 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
FRE 446. Debating Cultures and Societies in French. 3 Credit Hours.
This course is designed to improve student’s conversational skills cultivating formal academic speaking competencies, and to develop their critical thinking skills and analytical expression in French in order to help students achieve global literacy. In addition, this course seeks to build students’ oral proficiency at the advanced level while increasing their awareness of Francophone cultures through active, responsible participation in discussions, debates and oral presentations in class. The class is conducted in French.
Prerequisite: FRE 203.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 495. Transfer Credits. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

FRE 501. Capstone. 3 Credit Hours.
Course with a broad-based topic designed to integrate high-level linguistic, critical and analytical skills with the body of knowledge acquired during the course of study toward the major. Topics vary. Open only to undergraduates in the last semester of their French major. Course is writing intensive.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 591. Directed Readings. 1-3 Credit Hours.
May be repeated for credit if topic is different.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 592. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 593. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

FRE 594. Senior honors Thesis I. 3 Credit Hours.
Directed research for honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

FRE 595. Senior Honors Thesis II. 3 Credit Hours.
Directed writing of honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

German

GER 101. Elementary German I. 3 Credit Hours.
Fundamental grammatical principles; exercises to develop a foundation for skills of listening, speaking, reading, and writing; introduction to German culture. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

GER 102. Elementary German II. 3 Credit Hours.
Continuation of GER 101. Building upon fundamental grammatical principles; exercises to develop a foundation for skills of listening, speaking, reading, and writing; introduction to German culture. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
GER 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

GER 201. Intermediate German I. 3 Credit Hours.
Continuation of GER 102, with special emphasis on essay writing.
Components: LEC.
Grading: GRD.

GER 202. Intermediate German II. 3 Credit Hours.
Integrated grammar, writing, and conversation via content-based instruction. Diverse selection of readings: stories, plays, essays, interviews, other materials. Development of skills in a workshop format.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GER 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

GER 301. Interpreting Literary and Cultural Texts in German. 3 Credit Hours.
Tools for the interpretation and analysis of literary and cultural materials from the German-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills.
Prerequisite: GER 202.
Components: SEM.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GER 302. The Cultures of the German-Speaking World. 3 Credit Hours.
Historical survey of cultures in areas of the world where German is spoken: arts, letters, science, political and social institutions. Conducted in German.
Collateral readings and reports.
Prerequisite: GER 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GER 310. German Studies in Translation. 3 Credit Hours.
Topics in German literature, philosophy, history, etc. Readings and discussion in English. Development of critical reading and writing skills. Fulfills humanities literature requirement. Does not fulfill foreign language requirement. May not be used for German minor credit.
Prerequisite: ENG 106 or ENG 107.
Components: SEM.
Grading: GRD.
Typically Offered: Spring.

GER 321. Special Topics in German Studies. 3 Credit Hours.
Intensive study of a special topic. May be repeated for credit when topic varies. May be used to fulfill the humanities literature requirement.
Prerequisite: GER 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GER 365. Twentieth-Century German Studies. 3 Credit Hours.
The second empire and the third Reich, the Weimar Republic, and the two Germanies. Examination of the arts, sciences, letters, and political and social institutions of twentieth-century Germanophone areas. May be used to fulfill the humanities literature requirement.
Prerequisite: GER 301.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GER 370. The Holocaust in History, Film, and Memorial Culture. 3 Credit Hours.
The course examines the representation of the Holocaust in historiography, film, and memorial culture. Readings will include texts by historians and writers such as Primo Levi, Raoul Hilberg, Daniel Goldhagen, James Young and others; films will include, among others, Alain Resnais’s NIGHT AND FOG, Claude Lanzmann’s SHOAH, and Steven Spielberg’s SCHINDLER’S LIST. Reading-and writing-intensive course with reading and discussions in English. In addition to daily/weekly homework assignments, an in-class midterm exam and a final, cumulative take-home exam, students will also complete an extended analytical term paper. Students will also be required to watch films outside of regularly scheduled class hours. Prerequisite: ENG 106.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

GER 394. German Internship. 1-3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM-faculty supervision, as well as supervised on-site experience in a German-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked). Prerequisite: GER 202.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

GER 395. Transfer Credit. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

GER 396. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

GER 397. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

GER 442. Advanced Stylistics and Composition. 3 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

GER 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

GER 592. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
GER 594. Senior Honors Thesis I. 3 Credit Hours.
Directed research for honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

GER 595. Senior Honors Thesis II. 3 Credit Hours.
Directed writing of honors thesis.
Components: THI.
Grading: GRD.
Typically Offered: Fall & Spring.

Haitian Creole

HAI 101. Elementary Haitian Creole I. 3 Credit Hours.
Development of basic listening, speaking, reading and writing skills; focus on conversation and the grammatical fundamentals of Haitian Creole.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HAI 102. Elementary Haitian Creole II. 3 Credit Hours.
Basic listening, speaking, reading and writing skills developed in Elementary Haitian Creole 101. Students will produce more complex grammatical structures in oral and written presentations, and focus on improvement of pronunciation.
Prerequisite: HAI 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HAI 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HAI 201. Intermediate Haitian Creole I. 3 Credit Hours.
Basic listening, speaking, reading and writing skills developed in Elementary Haitian Creole 102. Continued development of communicative abilities and introduction to the cultural practices, family values, and social and environmental issues of Haiti. Include both oral and written components.
Prerequisite: HAI 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HAI 202. Intermediate Haitian Creole II. 3 Credit Hours.
Emphasis will be on speaking, listening, reading, and writing activities. In addition to the instruction of Haitian Creole, students will have a better understanding of the Haitian culture, society, and beliefs, which are an important part of this class experience. Furthermore, to help students understand the relationship between the spoken and the written forms of the language, the course will be taught entirely in Haitian Creole. While gaining an understanding of the Haitian culture and its people, students in HAI 202 will learn how to avoid cross-cultural conflicts by developing awareness for common cultural issues and beliefs associated with healthcare, education, environment, religion.
Prerequisite: HAI 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HAI 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HAI 395. Transfer Credit. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.
HAI 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

Hebrew

HEB 101. Elementary Hebrew I. 3 Credit Hours.
Grammatical principles: reading for comprehension and conversation; oral and written exercises. Normally, closed to students who have completed two years of high school Hebrew. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HEB 102. Elementary Hebrew II. 3 Credit Hours.
Continuation of HEB 101. Closed to native speakers.
Prerequisite: HEB 101.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HEB 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HEB 201. Intermediate Hebrew I. 3 Credit Hours.
Prerequisite: HEB 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

HEB 202. Intermediate Hebrew II. 3 Credit Hours.
Continuation of 201 with oral presentations, compositions, and grammar review. Class conducted in Hebrew. Closed to native speakers.
Prerequisite: HEB 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

HEB 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HEB 395. Transfer Credit. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

HEB 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.
Italian

ITA 101. Elementary Italian I. 3 Credit Hours.
For students with no background or previous study of Italian. The focus of ITA 101 is the development of communicative abilities in speaking, reading, writing, and comprehension of Italian and an introduction to the cultural practices of the Italian-speaking world. Themes on: university life, family, leisure activities, and professions. Includes both oral and written assignments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Italian. Not open to students who have completed 2 or more years of high school Italian. Closed to heritage and native speakers of Italian.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ITA 102. Elementary Italian II. 3 Credit Hours.
Continuation of ITA 101. The development of communicative abilities in speaking, reading, writing, and comprehension of Italian and an introduction to the cultural practices of the Italian-speaking world. Themes on: childhood and adolescence, university life, home and community, food and lifestyle, and environmental issues. Includes both oral and written assessments of grammatical structure and vocabulary introduced, informal and formal writing. Conducted entirely in Italian.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ITA 106. Elementary Italian for Romance Language Speakers. 3 Credit Hours.
ITA 106 is the first of two courses specifically designed for students who are either heritage learners or native speakers of a Romance language (Spanish, Portuguese, French, and so on). It will draw on students’ already existing knowledge of their own language so as to improve and accelerate the Italian learning experience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

ITA 201. Intermediate Italian I. 3 Credit Hours.
Integrated grammar review. Diverse selection of readings: stories, plays, essays, interviews. Practice in speaking and in writing. Class conducted in Italian.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 202. Intermediate Italian II. 3 Credit Hours.
Different genres of texts (portraits, descriptions, short stories, film reviews, magazines) are used to explore different ways of writing and to prepare students for 300-level work. Structured in a workshop format, the course also develops conversational skills. Class conducted in Italian. Writing credits. Closed to native speakers.
Prerequisite: ITA 201 or ITA 206.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 206. Intermediate Italian for Romance Language Speakers. 3 Credit Hours.
ITA 206 is the second of two courses created especially for students who speak another Romance language such as Spanish, French, Portuguese, and so on. As with the first level, students will be further exposed to the linguistic parallels between Italian and their own language, with the goal of being able to comprehend and communicate in Italian at increasingly complex levels.
Prerequisite: ITA 106.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
ITA 280. 21st Century Italian Cinema, Society and Culture. 3 Credit Hours.
This course studies key cultural, political and societal issues of 21st century Italy through contemporariness. The course is taught in Italy and offers an in-depth experience of Italian culture happening in the "now," both on and off-screen, through class discussions, guest professors, directors, actors, and site-visits. The course is taught primarily in English, with some Italian terminology. Offered only in the summer study abroad program in Italy. Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

ITA 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

ITA 301. Interpreting Literary and Cultural Texts in Italian. 3 Credit Hours.
Tools for the interpretation and analysis of Italian literary and cultural materials. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills. Taught in Italian. Closed to native speakers formally educated in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 310. Topics in Italian Studies in Translation. 3 Credit Hours.
Intensive study, in English translation, of a topic, theme, author, period, or literary movement. May be repeated when the topic varies. May be used toward the Italian minor in accordance with Department of Modern Languages and Literatures stipulations.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 311. To Hell and Back with Dante: Women, Men, Politics, and Poetry. 3 Credit Hours.
A review of the highlights of Dante's Divine Comedy.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ITA 312. Italian Civilization. 3 Credit Hours.
The intellectual life of Italy, political and social institution arts, letters, and sciences. Collateral readings and reports.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 314. Topics in Early Modern Italian Literature in Translation. 3 Credit Hours.
AN introduction to one or more aspects of Italian literature of the early/modern Renaissance period in translation: e.g., the courtier, epic poems, the rebirth of classical theater.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 315. Topics in Gender and Sexuality in Translation. 3 Credit Hours.
This course presents issues dealing with gender and sexuality in Italy in a variety of chronological settings, using the appropriate sources for the topic (e.g., films, newsprint and TV ads, novels). This course does not fulfill the foreign language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ITA 316. Topics in 18th- and 19th-Century Italian Literature in Translation. 3 Credit Hours.
An introduction to one or more aspects of Italian literature of the 18th and 19th centuries in translation: e.g., the role of opera in Italian culture; the literature of the Italian Risorgimento; the historical novel. This course does not fulfill the foreign language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 317. Topics in 20th Century Italian Literature in Translation. 3 Credit Hours.
An introduction to one or more aspects of Italian literature of the 20th century in translation: e.g., the experience of war, the child narrator in Calvino and Ammaniti, the experimental novels of the 1960s and '70s. This course does not fulfill the foreign language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 319. Travels Italy. 3 Credit Hours.
Develops an understanding of Italy's contemporary image in the world by, first, presenting some of the earlier representations of Italy and Italians from Dante, through the Renaissance and Baroque periods, to the present; and second, by looking at the various cultures coming into contact with the Italian one. It attempts to come to grips with notions of representation, ethnicity, ethnocentrism, and stereotypes. Taught in English and does not fulfill CAS language requirement.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 321. Special Topics in Italian Literature. 3 Credit Hours.
Literature, film and/or the arts through a specific topic. May be repeated when the topic varies. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 330. Topics in Gender and Sexuality in Italian Culture. 3 Credit Hours.
Issues dealing with gender and sexuality in Italy in a variety of chronological settings, using the appropriate sources for the topic (e.g., films, newsprint and TV ads, novels). May be repeated when the topic varies. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 363. Medieval and Renaissance Topics in Italian. 3 Credit Hours.
Italian culture and literature from its earliest document through the Renaissance. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 364. 17th-19th Century Topics in Italian. 3 Credit Hours.
Italian culture and literature from the Baroque to the nineteenth century. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 365. 20th-21st Century Topics in Italian. 3 Credit Hours.
Italian culture and literature of the twentieth and twenty-first century. Taught in Italian.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
ITA 394. Italian Internship. 1-3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM-faculty supervision, as well as supervised on-site experience in an Italian-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: ITA 202.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

ITA 395. Transfer Credits. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

ITA 396. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

ITA 397. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

ITA 398. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

ITA 399. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

ITA 432. Italian for Business and for Business Travelers. 3 Credit Hours.
This course will allow non-native speakers of Italian communicate with native Italian speakers in a business environment by providing students with the basic vocabulary and professional expressions that are most often used in the business arena. Target business areas will be addressed through specific exercises, individual presentations, pair and group work, class discussion, preparing a Portfolio and a Final written Project, while working with authentic materials.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ITA 444. Introduction to Translation. 3 Credit Hours.
The main objective of this course is to develop the-knowledge and skills of the Italian language learner in the field of translation, with Italian and English both as source and target languages. The course addresses the linguistic foundations of translation as process and product from theoretical and applied perspectives.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

ITA 446. Cultural Debates: Public Speaking on Societal Issues. 3 Credit Hours.
The course will improve a student's conversational skills cultivating formal academic speaking competencies and will develop critical thinking skills and analytical expression in Italian through active, responsible participation in discussions, debates, and oral presentations.
Prerequisite: ITA 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
ITA 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

ITA 592. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

ITA 593. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

Japanese

JPN 101. Elementary Japanese I. 3 Credit Hours.
Basic introduction to conversation, grammar, reading, elementary composition for students with no background in Japanese. The course is designed to develop basic skills in speaking, listening, reading and writing of the modern Japanese language. Hiragana, Katakana (Japanese syllabary), and 48 Kanji (Chinese characters formulated as a Japanese writing system) will be introduced in the course. Closed to native speakers.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JPN 102. Elementary Japanese II. 3 Credit Hours.
Continuation of JPN 101. Further development, language skills in speaking, listening, reading and writing of the modern Japanese language. Japanese culture and customs will be taught by way of media and/or other resources. Closed to native speakers.
Prerequisite: JPN 101.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JPN 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

JPN 201. Intermediate Japanese I. 3 Credit Hours.
Further expansion of language skills (grammar, composition and reading) while introducing students to aspects of Japanese customs, history and culture. Closed to native speakers.
Prerequisite: JPN 102.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JPN 202. Intermediate Japanese II. 3 Credit Hours.
Continuation of JPN 201. Further development of reading, writing, listening and speaking skills in Japanese, including honorific and respectful expressions. Closed to native speakers.
Prerequisite: JPN 201.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

JPN 203. Advanced Japanese I. 3 Credit Hours.
Continuation of JPN 202. Develops students’ ability to use Japanese in a more advanced way. The course emphasizes accurate comprehension, expansion of vocabulary, and development of the ability to use increasing complex grammatical and sentence structures. In addition to improving their language abilities, students will also be exposed to different areas of Japanese culture.
Prerequisite: JPN 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
JPN 204. Advanced Japanese II. 3 Credit Hours.
Develops students’ ability to use Japanese in a more advanced way by continuing Japanese 203’s emphasis on accurate comprehension, expansion of vocabulary, and development of the ability to use increasingly complex grammatical and sentence structures. Students will also be exposed to and analyze different areas of Japanese culture.
Prerequisite: JPN 203.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

JPN 210. Introduction to Japanese Culture. 3 Credit Hours.
The major aesthetic, social and political factors that have shaped contemporary and traditional Japanese culture and society. The historical evolution of Japanese culture will be approached through film, literature and art. Students will revisit related historical sites to enhance awareness and understanding of the topics. The course will be taught primarily in English, with some Japanese terminology. Offered only in the summer abroad program in Japan. No language requirement.
Prerequisite: JPN 102.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

JPN 295. Transfer Credit. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

JPN 394. Internship. 3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM-faculty supervision, as well as supervised on-site experience in a Japanese-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student's degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: JPN 204.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JPN 395. Transfer Credit. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

JPN 432. Business Japanese. 3 Credit Hours.
Designed for students who have completed JPN 202 or two years of Japanese at the college level and are interested in acquiring practical knowledge and communication skills required to deal with real-life business situations. The focus of the course is oral/aural communication skills. In addition, students will read authentic essays and newspaper articles and will also compose a variety of documents that play an important role in running a business.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

JPN 447. Advance Conversation Through Japanese Theatrical Texts. 3 Credit Hours.
Students will develop conversational skills and acquire a better understanding of sociocultural dynamics by practicing Japanese performing arts, such as Rakugo (comic story telling), Manzai (standup comedy), voice-acting for animation of folk stories, and scenes from contemporary Japanese theater. Students will also develop independent study skills and communication skills in different social settings.
Prerequisite: JPN 203.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

JPN 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.
Modern Language and Literature

MLL 195. Transfer Credit. 1-3 Credit Hours.
Transfer credit at the 100 level for courses in languages not offered by the Department of Modern Languages and Literature.
Components: UNG.
Grading: GRD.
Typically Offered: Fall.

MLL 295. Transfer Credit. 1-3 Credit Hours.
Transfer credit at the 200 level for courses in languages not offered by the Department of Modern Languages and Literature.
Components: LEC.
Grading: GRD.

MLL 321. Topics in Comparative Literary Studies. 3 Credit Hours.
Comparative and/or interdisciplinary topics in the study of literature. Specific topics vary; may be repeated for credit if topics differ. Taught in English
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 322. Topics in Comparative Cultural Studies. 3 Credit Hours.
Cultural phenomena in various societies. Interdisciplinary analysis of the political dynamics of contemporary culture and its historical foundations with a focus on ideology, social class, nationality, ethnicity, sexuality and/or gender. Specific topics vary; may be repeated for credit if topics differ. Taught in English.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 325. World Cinema. 3 Credit Hours.
World cinema in a comparative perspective - national or international film movements and directors - based upon narrative film analysis. May be repeated for credit if topics vary.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 330. Comparative Topics in Gender and Sexuality. 3 Credit Hours.
Topics in gender and sexuality in a comparative perspective. May be repeated if topics vary. Taught in English.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 340. Migration Studies. 3 Credit Hours.
Topics within the literary and/or cultural dimensions of migration in a comparative framework.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 345. Franco-Maghreb Studies. 3 Credit Hours.
Major historical, social, cultural and literary issues related to the Franco-Maghrebian interface, in a comparative perspective. May be repeated if topics vary.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 360. The Caribbean through Literary and Cultural Studies. 3 Credit Hours.
Literary and cultural readings on the Caribbean in comparative perspective. May be repeated if topics vary.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
MLL 370. Studies in Literature, Culture, and Science. 3 Credit Hours.
An analysis, in a comparative or historical perspective, of the literary works that expose the deep interaction and mutual influence between literary or visual cultures and the sciences. Topics might include: Leonardo's genius; technology at the turn of the 20th-century; 20th-century wars, the science behind them and their representations; Vesalius's anatomical work and the philosophy and representation of the body in 16th-century Europe.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

MLL 394. MLL Internship. 1-3 Credit Hours.
Internships are intended to provide students with an opportunity to apply analytical, creative, community and professional based knowledge developed in other courses. Internships can take place in the University or outside the University. They involve UM-faculty supervision as well as supervised on-site experience. Internships may not be supervised by a member of the student’s immediate family. One person may not serve as both the faculty sponsor and the onsite/UM experience supervisor. Students need to fill out the internship application form. MLL 394 counts as the course in English allowed in the target language concentration. Normally 27 internship hours are required per credit earned. (The on-site supervisor or faculty supervising the work experience done at UM will supply documentary evidence of hours worked to Faculty supervisor.) A maximum of three semester hours of internship credit may be counted toward the student's degree program. Permission of MLL faculty member is required.
Prerequisite: ARB 204 or CHI 203 or FRE 203 or GER 202 or ITA 202 or JPN 204 or POR 202 or SPA 203 or SPA 208.
Components: PRA.
Grading: GRD.

MLL 395. Transfer Credit. 1-3 Credit Hours.
Transfer credit at the 300 level for courses in languages not offered by the Department of Modern Languages and Literature.
Components: LEC.
Grading: GRD.

MLL 404. Language in Society. 3 Credit Hours.
Overview of ideological, social, political, economic, and cultural issues of language in society, and the principle linguistic concepts and methodologies that guide research on those issues. Language variation, social dialectology, multilingualism, interaction and interpersonal communication, gender, language and power, language policy and planning, and globalization are highlighted. The main focus of the course (at least 80%) will be on non-English languages in particular, those taught in MLL.
Prerequisite: ENG 106 or ENG 107.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

MLL 410. Digital Literacy Through Cultural and Literary Topics. 3 Credit Hours.
Digital research methods and tools applied to literary and cultural studies. The course works with texts as data and with many approaches available to collect, annotate process, analyze and interpret them. Concepts covered include but are not limited to textual corpus, semantic tagging, text mining, and topic modeling.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MLL 411. Cultures of the Digital: Pages, Screens, Platforms and 21st Century Aesthetics. 3 Credit Hours.
Communication technologies across national borders. Students will interrogate the ramifications of cross-platform and cross-cultural reading in the digital age and its literary, aesthetic and theoretical history. Texts will include works on electronic literature, print media, art and cinema from across the 20th and 21st century Americas.
Prerequisite: ENG 106 or ENG 107.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

MLL 495. Transfer Credit. 1-3 Credit Hours.
Transfer credit at the 400 level for courses in languages not offered by the Department of Modern Languages and Literature.
Components: LEC.
Grading: GRD.
Portuguese

**POR 101. Elementary Portuguese I. 3 Credit Hours.**
Drill in pronunciation, fundamental grammatical principles, simple reading and translation, oral and written exercises. Normally, not open to students who have completed two years of Portuguese. Closed to native speakers.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**POR 102. Elementary Portuguese II. 3 Credit Hours.**
Continuation of POR 101. Closed to native speakers.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**POR 105. Beginning Portuguese for Spanish Speakers. 3 Credit Hours.**
The equivalent of one year of beginning-level college Portuguese, this course is specifically intended for students who have completed three or more years of high school Spanish or one year of Spanish at another university. Also intended for heritage and native speakers of Romance Languages, or students with one or more years of college study of Spanish, Italian, or French. Closed to native speakers of Portuguese.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

**POR 106. Business Portuguese for Spanish Speakers. 3 Credit Hours.**
Designed for students interested in Business Administration, and will contain basic readings on Brazilian Economy and Politics, Business vocabulary, written activities such as email and short oral and written reports. Students will give oral presentations related to Brazilian companies and will interview two Brazilian businessmen/women from the local community. Students who have completed three or more years of high school Spanish or beginning Spanish at another institution. Also intended for heritage speakers of Romance Languages other than Portuguese, or students with at least three years of college study of Spanish, Italian or French. Closed to native speakers.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

**POR 195. Transfer Credit. 1-3 Credit Hours.**
Awarded for 100-level course work at another institution for which UM has no direct equivalent.

Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

**POR 201. Intermediate Portuguese I. 3 Credit Hours.**
Prerequisite: POR 102 or POR 105.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**POR 202. Intermediate Portuguese II. 3 Credit Hours.**
Intensive preparation for 300-level work through various genres (portraits, descriptions, short stories, film reviews, magazines, a novel). Workshop format, the course also develops conversational skills. Students complete a number of written projects (including an analytic paper). Class conducted in Portuguese. Closed to native speakers.
Prerequisite: POR 201.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

**POR 295. Transfer Credit. 1-3 Credit Hours.**
Awarded for 200-level course work at another institution for which UM has no direct equivalent.

Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.
POR 301. Interpreting Literary and Cultural Texts in Portuguese. 3 Credit Hours.
Tools for the interpretation and analysis of literary and cultural materials from the Portuguese-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills. Closed to native speakers formally educated in Portuguese.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 310. Brazilian Women Writers in Translation. 3 Credit Hours.
Selected contemporary Brazilian women writers. Conducted in English. Emphasis on representations of nationality, race, class, ethnicity, gender, and sexuality. May be used to fulfill the humanities literature requirement.
Prerequisite: ENG 106.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 321. Studies in Luso-Brazilian Literary Themes. 3 Credit Hours.
The study of literature through thematic readings. May be repeated for credit if topics vary.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

POR 322. Topics in Luso-Brazilian Cultures. 3 Credit Hours.
Cultural issues in the Portuguese-speaking world. Topics include media, religion, language in society, popular and mass culture, the arts, immigration, social movements, race, ethnicity, and gender. May be repeated for credit if topics vary.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

POR 353. Brazilian Poetry. 3 Credit Hours.
Brazilian poetry from colonial times to the present. Emphasis on major figures. Taught in Portuguese. Humanities literature credit.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 354. The Modern Brazilian Novel. 3 Credit Hours.
The Brazilian novel since 1865. Emphasis on major works. Conducted in Portuguese. POR minors must complete all written assignments in Portuguese. Others may opt to write in English, Portuguese, or Spanish. Fulfills humanities literature requirement.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 363. Contemporary Luso-Brazilian Film. 3 Credit Hours.
Portuguese, Brazilian, and Lusophone African cinema from the 1950s to the present. POR minors must complete all written assignments in Portuguese; Others may opt to write in English, Portuguese, or Spanish. Conducted in Portuguese. Fulfills Humanities literature requirement.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 364. The Brazilian Short Story. 3 Credit Hours.
The Brazilian short story since 1890. Conducted in Portuguese. POR minors must complete all written assignments in Portuguese. Others may opt to write in English, Portuguese, or Spanish. Fulfills Humanities literature requirement.
Prerequisite: POR 202.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
POR 391. Directed Readings. 1-3 Credit Hours.
Individual work on a topic not covered in the regular curriculum. May be repeated on a different topic.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 394. Internship. 3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM-faculty supervision, as well as supervised on-site experience in a Portuguese-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: POR 202.
Components: PRA.
Grading: GRD.
Typically Offered: Fall & Spring.

POR 395. Transfer Credits. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

POR 396. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

POR 397. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

POR 398. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

POR 399. Transfer Credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

POR 495. Transfer Credit. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

POR 591. Directed Readings in Portuguese. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 592. Directed Readings in Portuguese. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POR 593. Directed Readings in Portuguese. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
Spanish

SPA 101. Elementary Spanish I. 3 Credit Hours.
For students with no background or previous study of Spanish. The focus of SPA 101 is the development of communicative abilities in speaking, reading, writing, and comprehension of Spanish and an introduction to the cultural practices of the Spanish-speaking world. Themes on: university life, family, leisure activities, and professions. Includes both oral and written assignments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish. Not open to students who have completed 2 or more years of high school Spanish. Closed to heritage and native speakers of Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 102. Elementary Spanish II. 3 Credit Hours.
Continuation of SPA 101. The development of communicative abilities in speaking, reading, writing, and comprehension of Spanish and an introduction to the cultural practices of the Spanish-speaking world. Themes on: childhood and adolescence, university life, home and community, food and lifestyle, and environmental issues. Includes both oral and written assessments of grammatical structure and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 105. Accelerated Elementary Spanish. 3 Credit Hours.
For students with previous study of Spanish needing to review material covered in SPA 101 and 102 in preparation for continued study of Spanish at the intermediate level. The focus of SPA 105 is the continued development of communicative abilities in speaking, reading, writing, and comprehension of Spanish and an introduction to the cultural practices of the Spanish-speaking world. Themes on: university life, family, leisure activities, and professions, childhood and adolescence, home and community, food and life-style, and environmental issues. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 107. Basic Spanish for Heritage Learners. 3 Credit Hours.
Designed for students with little or no prior instruction in Spanish who, because of family background or social experience, can understand some casual spoken Spanish and have a passive knowledge of the language, but do not speak the language themselves. Focus on developing basic speaking, reading, and writing abilities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 195. Transfer Credit. 1-3 Credit Hours.
Awarded for 100-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
Typically Offered: Fall, Spring, & Summer.

SPA 201. Intermediate Spanish I. 3 Credit Hours.
For students with previous study of Elementary-level Spanish. The focus of SPA 201 is the continued development of communicative abilities in speaking, reading, writing and comprehension of Spanish and as an introduction to the cultural practices, family values, and social and environmental issues. Includes both oral and written assessments of grammatical structures and vocabulary introduced, informal and formal writing. Conducted entirely in Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 202. Intermediate Spanish II. 3 Credit Hours.
For students with previous study of Spanish at the intermediate level. SPA 202 focuses on the continued development of critical skills in reading, writing, speaking and listening in Spanish with special emphasis on the cultural diversity of the Spanish-speaking world. Themes on: relationships, cultural values, different historical perspectives, and current politics explored through articles, films, and literary texts. The course will develop writing and reading strategies, providing students with the tools to think, read, and write critically and analytically in papers of 1-3 pages. Progress will also be assessed through quizzes and exams. Course conducted entirely in Spanish.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.
SPA 203. Advanced Spanish. 3 Credit Hours.
Continuation of SPA 202. This course prepares students for advanced literature, linguistics, and culture courses. The class will use films, literary works, and other cultural texts. Students will write analytic essays of 3-5 pages to develop style, vocabulary, and syntax.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 207. Intermediate Spanish for Heritage Learners. 3 Credit Hours.
Designed for students with some prior instruction in Spanish who, because of family background or social experience, can understand casual spoken Spanish and have some functional communication abilities in the language. Focus on developing basic speaking, reading, and writing abilities.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 208. Advanced Spanish for Heritage Learners. 3 Credit Hours.
Designed for those students who, because of family background or social experience and prior instruction in Spanish, possess functional communication abilities in the language. Focus is on developing formal speaking, reading and writing abilities. Counts towards the major and minor in Spanish.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 280. Special Topics. 3 Credit Hours.
Awarded for 200 level study abroad course led by UM faculty.

Components: LEC.
Grading: GRD.
Typically Offered: Summer.

SPA 295. Transfer credits. 1-3 Credit Hours.
Awarded for 200-level course work at another institution for which UM has no direct equivalent.

Components: LEC.
Grading: CNC.

SPA 301. Interpreting Literary and Cultural Texts in Spanish. 3 Credit Hours.
Sixth semester of college Spanish. Tools for the interpretation and analysis of literary and cultural materials from the Spanish-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g. film studies, cultural studies, etc.). Emphasis on critical writing skills. Closed to heritage/native speakers. Students may not receive credit for both SPA 301 and SPA 307 (formerly 343). The course is taught in Spanish.

Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 302. The Culture of Spain. 3 Credit Hours.
Historical survey of the arts, science, letters, and political and social institutions in Spain.
Prerequisite: SPA 203 OR SPA 208.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 303. The Cultures of Spanish America. 3 Credit Hours.
Historical survey of the arts, letters, science, and political and social institutions in Spanish-speaking Americas.
Prerequisite: SPA 203 OR SPA 208.

Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 307. Interpreting Literary and Cultural Texts in Spanish for Heritage/Native Speakers. 3 Credit Hours.
Tools for the interpretation and analysis of literary and cultural materials from the Spanish-speaking world. Acquisition of terminology and theories through the study of the main literary genres (prose, poetry, and drama) and a complementary genre of cultural analysis (e.g., film studies, cultural studies, etc.). Emphasis on critical writing skills. Special attention to characteristics of heritage/native speaker expression. Students may not receive credit for both 301 and 307 – or formerly 343.
Prerequisite: SPA 208.

Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.
SPA 310. Topics in Spanish and Spanish American Studies in Translation. 3 Credit Hours.
Topics in the literatures and/or cultures of the Spanish-speaking world. Readings and discussion in English. Development of critical reading and writing skills. Fulfills humanities literature requirement. Does not fulfill foreign language requirement. Maybe be repeated when the topic varies. Maybe used toward the Spanish major in accordance with Department of Modern Languages and Literature stipulations. Prequisite: ENG 106 or ENG 107.

**Components:** SEM.

**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.

SPA 318. Cinema from the Spanish-Speaking World in Translation. 3 Credit Hours.
Topics in the cinema of the Spanish-speaking world. Analysis of films in their cultural context. This course is taught in English and does not fulfill the CAS foreign language requirement. Maybe be repeated for credit if topics vary. Prequisite: ENG 106 or ENG 107.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.

SPA 321. Introduction to Literary Themes. 3 Credit Hours.
Hispanic literatures through thematic readings. Topics may include Modernismo and Cosmopolitismo, the "Boom" of Latin American narrative, Spanish vanguard poetry, and others. May be repeated for credit if topics vary. Prequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.

**Components:** SEM.

**Grading:** GRD.

**Typically Offered:** Fall & Spring.

SPA 322. Cultural Topics. 3 Credit Hours.
Issues related to the cultures in the Spanish-speaking world. Topics may include film, journalism, religion, language in society, popular and mass culture, visual arts, immigration, slavery, mestizaje. May be repeated for credit if topics vary. Prequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.

**Components:** SEM.

**Grading:** GRD.

**Typically Offered:** Fall, Spring, & Summer.

SPA 325. Topics in Spanish-Language Cinema. 3 Credit Hours.
Cinema of the Spanish-speaking world. Analysis of films in their cultural context. May be repeated for credit if topics vary. Prequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.

SPA 330. Topics in Gender and Sexuality. 3 Credit Hours.
The study of gender and sexuality as developed in the Hispanic context. May be repeated if topics vary. Prequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.

SPA 340. Migration Studies. 3 Credit Hours.
Topics within the literary and/or cultural dimensions of migration in the Spanish-speaking world. Prequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.

SPA 353. Colonial Spanish American Topics. 3 Credit Hours.
Topics within Latin American literatures and cultures from the colonial centuries. May be repeated for credit if topics vary. Prequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.

**Components:** LEC.

**Grading:** GRD.

**Typically Offered:** Offered by Announcement Only.
SPA 354. 19th-Century Spanish American Topics. 3 Credit Hours.
Topics within Latin American literature and cultures from independence to the end of the nineteenth century. May be repeated for credit if topics vary.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 355. Studies in 20th and 21st Century Latin American Literatures and Cultures. 3 Credit Hours.
Latin American literature and cultures from the beginning of the 20th century to the present. May be used to fulfill the humanities literature requirement.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 360. The Caribbean through Literary Studies. 3 Credit Hours.
The study of the Spanish Caribbean through literary and cultural studies. May be repeated if topics vary.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

SPA 362. Caribbean Cultural Studies. 3 Credit Hours.
Cultural Topics within the Spanish-speaking Caribbean. May be repeated for credit when topics vary.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 363. Medieval and Early Modern Peninsular Topics. 3 Credit Hours.
Topics within Spanish peninsular literature and cultures from the earliest literary forms through the seventeenth century. May be repeated for credit if topics vary.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 364. 18th and 19th Century Peninsular Topics. 3 Credit Hours.
Topics within Spanish peninsular literatures and cultures from the eighteenth and nineteenth centuries. May be repeated for credit if topics vary.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 365. Studies in 20th and 21st Century Spanish Literatures and Cultures. 3 Credit Hours.
Spanish peninsular literatures and cultures from the twentieth century to the present. May be used to fulfill the humanities literature requirement.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 394. Spanish Internship. 1-3 Credit Hours.
The internship is an opportunity to apply analytical, interpretative, and creative skills developed in coursework. Internships ordinarily take place outside the University and they involve UM–faculty supervision, as well as supervised on-site experience in a Spanish-speaking cultural, business, or not-for-profit organization. Students need to fill out the Internship Application Form. Normally 27 internship hours are required per credit earned. A maximum of three semester hours of internship credit may be counted toward the student’s degree program. Permission of MLL faculty member is required (the host will apply documentary evidence of the hours worked).
Prerequisite: SPA 203 OR SPA 208.
Components: PRA.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 395. Transfer credits. 1-3 Credit Hours.
Awarded for 300-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.
SPA 396. Transfer credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

SPA 397. Transfer credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

SPA 398. Transfer credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

SPA 399. Transfer credits. 1-3 Credit Hours.
Awarded for course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: GRD.

SPA 401. Introduction to Hispanic Linguistics. 3 Credit Hours.
Survey of principal areas of inquiry in Hispanic linguistics, including phonetics/phonology, morphology, syntax, pragmatics, historical, social and dialectal variations.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 402. Spanish Second Language Acquisition. 3 Credit Hours.
The linguistic contrast between Spanish and English and the pedagogical and practical implications of understanding language, especially grammar, from a foreign/second language perspective.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 410. Digital Literacy Through Cultural and Literary Topics in Spanish. 3 Credit Hours.
Digital research methods and tools applied to literary and cultural studies in Spanish. The course looks at major texts in Spanish as data, and with many approaches available to collect, annotate, process, analyze and interpret them. Concepts covered include but are not limited to textual corpus, semantic tagging, text mining, and topic modeling.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 422. Topics in Hispanic Linguistics. 3 Credit Hours.
Special topics in the study of Hispanic linguistics. Possibilities include phonetics/phonology, pragmatics/discourse analysis, sociolinguistics, sociocultural theory, bilingualism.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 432. Business Ethics and Cultural Debates in Spanish. 3 Credit Hours.
Commercial vocabulary, economic, technical, and diplomatic terminology in Spanish. Composition based on models of business correspondence directed to Spanish-speaking countries or firms.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SPA 433. Medical, Cultural and Bioethical Debates in Spanish. 3 Credit Hours.
Medical vocabulary, technical and practical terminology in Spanish. Composition based on models of the documents, letters, medical history cases required in health care professions.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 434. Legal and Cultural Debates in the Spanish-Speaking World. 3 Credit Hours.
Legal vocabulary, technical and practical terminology in Spanish. Composition based on models of documents, letters and case histories required in legal professions.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 440. Phonetics. 3 Credit Hours.
Spanish pronunciation based on phonetics. Exercises in diction and phonetic transcription. Attention to individual difficulties. Conducted in Spanish.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 442. Stylistics and Composition. 3 Credit Hours.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 444. Introduction to Translation. 3 Credit Hours.
Problems in translation: Spanish to English; English to Spanish.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

SPA 446. Cultural Debates: Public Speaking on Societal Issues. 3 Credit Hours.
Intensive training in public speaking in Spanish for academic or professional settings. In-class debates and presentations based on readings about controversies or critical issues within the Spanish-speaking world.
Prerequisite: SPA 301 or SPA 302 or SPA 303 or SPA 307.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

SPA 495. Transfer Credits. 1-3 Credit Hours.
Awarded for 400-level course work at another institution for which UM has no direct equivalent.
Components: LEC.
Grading: CNC.

SPA 501. Capstone. 3 Credit Hours.
Course with a broad-based topic designed to integrate all the high-level linguistic, critical and analytical skills with the body of knowledge acquired during the course of study towards the major. Topics vary. Open only to undergraduates completing their Spanish major. To be taken in the last semester of the major.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

SPA 591. Directed Readings. 1-3 Credit Hours.
Directed Readings at the undergraduate level.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
SPA 592. Directed Readings. 1-3 Credit Hours. 
Directed Readings at the undergraduate level. 
Components: THI. 
Grading: GRD. 
Typically Offered: Offered by Announcement Only. 

SPA 593. Directed Readings. 1-3 Credit Hours. 
Directed Readings at the undergraduate level. 
Components: LEC. 
Grading: GRD. 
Typically Offered: Offered by Announcement Only. 

SPA 594. Senior Honors Thesis I. 3 Credit Hours. 
Directed research for honors thesis. 
Components: THI. 
Grading: GRD. 
Typically Offered: Fall & Spring. 

SPA 595. Senior Honors Thesis II. 3 Credit Hours. 
Directed writing of honors thesis. 
Components: THI. 
Grading: GRD. 
Typically Offered: Fall & Spring. 

B.A. in French

Goals of the Major

A major in French consists of at least 24 credit hours beyond FRE 201 with a grade of C- or higher in every course counting toward the major, and with a cumulative GPA of at least 2.5 in the major (see curriculum for course distribution). The major is designed to allow students to gain advanced linguistic, cultural, and literary competence in the communities that speak this language. With each course students further develop the capacity to communicate with and to critically see and understand the linguistic communities being studied. Not only do students learn to understand, interpret, and analyze communication patterns and cultural products (new technologies, film, literature, etc.) from other geopolitical positions, but this process also fosters a greater appreciation of the learners’ own language, culture, and society. As part of the development of analytical and critical skills, students learn to build coherent arguments orally and in writing to develop tools for the interpretation of various texts to perform research and write critical papers to find and evaluate sources of information to heighten their sensitivity to the contexts of language, and to appreciate language as art. Students will also acquire a broad, structured knowledge of the relevant history, literature and culture in the target language. Finally, they will learn to carry out cultural comparisons and to view their own culture with new eyes.

You do not have to be a student of the College of Arts and Sciences to major in a modern language; you need only the approval of your college or school advisor and to complete the departmental requirements. If you wish to complete a double degree, consult with an Arts and Sciences Advisor.

Students completing a major in a modern language are encouraged to study abroad. The Department and Study Abroad sponsor a semester-long study abroad program in Paris (JParis) for students of all majors and minors and all levels of ability in the French language; French majors and minors are especially encouraged to apply. For more information, please click here. The Study Abroad Office (in Dooley Memorial Classroom, Building 1111, Memorial Drive, Suite 125) sponsors programs for Chinese, French, German, Italian, Japanese, Portuguese, and Spanish. It is also possible to fulfill some Arts and Sciences distribution requirements abroad. In order to take full advantage of study abroad, students should visit Study Abroad early in their university careers, discuss course equivalencies with the Study Abroad Advisor for their chosen languages (contact the Department office for names and office hours), and consult with their major advisors. Credit hour toward the major for courses taken abroad will be determined on an individual basis.

Students with transfer credit hours must take at least 18 graded credit hours at or above the 300-level at the University of Miami; i.e., up to 6 credit hours may be transferred towards the French major from another institution or a study abroad program not administered by UM. Up to 12 credit hours taken abroad in a UM-administered program may count towards the major.

Capstone Courses

The final course in the major is the capstone course (501) which must be taken in residence. This course will:

• Integrate the various skills acquired during the course of study (linguistic, analytical, knowledge-based);
• Incorporate interpretive as well as presentational modes of communication;
• Contain an over-arching and cohesive theme;
• Include an element of collaboration among students.
It will constitute a moment of recapitulation of, synthesis, and reflection on a student’s experience in the major as well as a bridge towards graduate-level studies, should s/he decide to pursue them.

Of the 24 credit hours required for the major, a minimum of 12 credit hours must be earned in courses taught by MLL faculty (whether on campus or in faculty-led study-abroad programs). Since we encourage students to study abroad in UM-sponsored programs, up to 12 credit hours from these programs may be applied toward the major. Up to 6 transfer credit hours from other institutions may count toward the major; whether these are credit hours transferred from another U.S. institution or from non-UM study abroad programs, transferred credit hours must be granted UM equivalency in order to be eligible to count toward the major. Please note, however, that the total number of combined UM study-abroad (exclusive of MLL faculty-led programs) and transfer credit hours shall not exceed 12 credit hours.

For example:

- A student may use 3 transfer credit hours with UM equivalency and 9 credit hours from a UM-sponsored study abroad program toward fulfillment of the major; the remaining 12 credit hours must be earned in courses taught by MLL faculty.
- A student may use 6 transfer credit hours with UM equivalency and 6 credit hours from a UM-sponsored study abroad program toward fulfillment of the major; the remaining 12 credit hours must be earned in courses taught by MLL faculty.
- A student may use 12 credit hours from a UM-administered study-abroad program not led by MLL faculty and 12 credit hours in courses taught by MLL faculty to fulfill the major.

Exceptions to this 12 credit hours rule may be made in cases where a student will participate in a UM-administered study-abroad program for a full academic year.

1. In consultation with their FRE advisor students can have up to 1 course (3 credits) from among the MLL courses or FRE courses taught in English (numbered 310-319) count toward their major.
2. Students satisfy this requirement by the time they start the major with FRE 202.
3. If the student has a minor (or second major) that counts as “People & Society”, the student does not need to satisfy the requirement for a People & Society cognate.
If the student has a minor (or second major) that counts as "STEM", the student does not need to satisfy the requirement for a STEM cognate. This requirement is waived if the STEM cognate includes a Natural Science course from the approved list.

Students satisfy this requirement by taking four writing courses, at least one of which must be in one of the student's major disciplines. Since all FRE courses above 203/208 are designated as writing (WRIT) courses, all French majors satisfy this requirement by completing their major.

A minimum of 120 credits is required for graduation. Sufficient credits must be earned in electives to enable the student to complete this minimum of 120 credits. The exact number of elective credits required will vary depending on the number of credits needed to complete all other graduation requirements.

## Suggested Plan of Study

These Suggested Plans of Study are samples of four-year plans, but an individual student's actual plan is likely to vary from these sample plans in a number of ways, depending on such factors as (1) AP, dual-enrollment, and transfer credits that a student brings in; (2) the student's initial placement in composition, mathematics, and French; and (3) the minor chosen by the student, as well as any additional minor or major the student chooses to complete. For example, a student is not required to complete a cognate in People & Society if the student has a minor (or second major) that counts as "People & Society," and similarly, a student is not required to complete a cognate in STEM if the student has a minor (or second major) that counts as "STEM."

### Mission

The Department of Modern Languages and Literatures seeks to promote global literacy. All majors (French, German, Spanish) in the department are articulated through the notion of global literacy. In its undergraduate programs, the MLL Department’s mission is to provide rigorous instruction, speaker series, study abroad, research and service-learning opportunities allowing students to gain the advanced linguistic, literary and cultural competence needed as we strive to develop future leaders of our nation and the world. Through our courses and co-curricular activities, students acquire a broad, structured knowledge of history, literature and culture in the target language; they develop analytical, critical, and communication skills; and they attain information and communication technology literacy needed in an increasingly complex and globalized society. Finally, they acquire intercultural competence and learn to view themselves through the lens of another language and culture.

### Goals

- To acquire a broad, structured knowledge of history, literature and culture in the French language.
- To develop analytical, critical, and communication skills.
- To attain information and communication technology literacy needed in an increasingly complex and globalized society.
- To acquire intercultural competence and learn to view themselves through the lens of another language and culture.

### Student Learning Outcomes

- Students will develop oral communicative abilities in French by the time they complete their major.
- Students will develop written communicative abilities in French.
- Students will learn to reflect and critically think about language, literature, and culture, history, and politics of different societies by studying texts written in French and writing about them.

### B.A. in Spanish

#### Goals of the Major

A major in Spanish consists of at least 24 credit hours beyond SPA 202 with a grade of C- or higher in every course counting toward the major, and with a cumulative GPA of at least 2.5 in the major (see curriculum for course distribution). The major is designed to allow students to gain advanced linguistic, cultural, and literary competence in the communities that speak this language. Students learn with each course to understand, interpret, and analyze communication patterns and cultural products (new technologies, film, literature, etc.) from the geopolitical positions of the linguistic communities they study. This learning process also fosters a greater appreciation of the students’ own language, culture, and society. As part of the development of analytical and critical skills, students learn to build coherent arguments orally and in writing# to develop tools for the interpretation of various texts# to perform research and write critical papers# to find and evaluate sources of information# to heighten their sensitivity to the contexts of language, and to appreciate language as art. Students will also acquire a broad, structured knowledge of the relevant history, literature and culture in the target language. Finally, they will learn to carry out cultural comparisons and to view their own culture with new eyes.

You do not have to be a student of the College of Arts and Sciences to major in a modern language; you need only the approval of your college or school advisor and to complete the departmental requirements. If you wish to complete a double degree, consult with an Arts and Sciences Advisor.

Students with transfer credit hours must take at least 18 graded credit hours at or above the 300-level at the University of Miami, i.e., up to 6 credit hours may be transferred towards the Spanish major from another institution or non-UM study abroad program.

Spanish majors must take SPA 301 or SPA 307 (or equivalent), and they are advised to take this course as they start fulfilling their 300-level credit requirements. In consultation with their MLL advisor, students can have up to 1 course (3 credits) from among the MLL courses or SPA courses taught in English (numbered 310-319) count toward their Spanish major. Students must also take one pre-twentieth century course to fulfill their course.
requirements towards the major (SPA 353, SPA 354, SPA 363, or SPA 364). Only one professional Spanish course (SPA 432, SPA 433, SPA 434) will count towards the Spanish major, although students are free to take more than one.

Capstone Courses
The final course in the major is the capstone course (501) which must be taken in residence. This course will:

- Integrate the various skills acquired during the course of study (linguistic, analytical, knowledge-based);
- Incorporate interpretive as well as presentational modes of communication;
- Contain an over-arching and cohesive theme;
- Include an element of collaboration among students.

It will constitute a moment of recapitulation, synthesis, and reflection on a student’s experience in the major as well as a bridge towards graduate-level studies, should s/he decide to pursue them.

Study Abroad
Students completing a major in a modern language are encouraged to study abroad. The Department offers a faculty-led study abroad summer program in Spain. The Study Abroad Office (in Dooly Memorial Classroom, Building 1111, Memorial Drive, Suite 125) sponsors programs for Chinese, French, German, Italian, Japanese, Portuguese, and Spanish. It is also possible to fulfill some Arts and Sciences distribution requirements abroad. In order to take full advantage of these opportunities, students should visit Study Abroad early in their university careers, discuss course equivalencies with the Study Abroad Advisor for their chosen languages (contact the Department office for names and office hours), and consult with their major advisors. Credit hours toward the major for courses taken abroad will be determined on an individual basis.

Of the 24 credit hours required for the major, a minimum of 12 graded credit hours must be earned in courses taught by MLL faculty (whether on campus or in faculty-led study-abroad programs). Since we encourage students to study abroad in UM-sponsored programs, up to 12 graded credit hours from these programs may be applied toward the major. As stated above, up to 6 transfer credit hours from other institutions may count toward the major. Whether these are credit hours transferred from another U.S. institution or from non-UM study abroad programs, transferred credit hours must be granted UM equivalency in order to be eligible to count toward the major. Please note, however, that the total number of combined UM study-abroad (exclusive of MLL faculty-led programs) and transfer credit hours shall not exceed 12 credit hours.

For example:

- A student may use 3 transfer credit hours with UM equivalency and 9 graded credit hours from a UM-sponsored study abroad program toward fulfillment of the major; the remaining 12 graded credit hours must be earned in courses taught by MLL faculty.
- A student may use 6 transfer credit hours with UM equivalency and 6 graded credit hours from a UM-sponsored study abroad program toward fulfillment of the major; the remaining 12 graded credit hours must be earned in courses taught by MLL faculty.
- A student may use 12 graded credit hours from a UM-administered study-abroad program not led by MLL faculty and 12 graded credit hours in courses taught by MLL faculty to fulfill the major.

Exceptions to this 12 credit hours rule may be made in cases where a student will participate in a UM-administered study-abroad program for a full academic year.

</tr>
</thead>
</table>

1 In consultation with their MLL advisor, students can have up to 1 course (3 credits) from among the MLL courses or the SPA courses taught in English (numbered 310-319) count toward their Spanish major.

2 Only one professional Spanish course (SPA 432, 433, 434) will count towards the Spanish major, although students are free to take all three.

3 Students satisfy this requirement by the time they start the major with SPA 203.

4 If the student has a minor (or second major) that counts as "People & Society", the student does not need to satisfy the requirement for a People & Society cognate.

5 If the student has a minor (or second major) that counts as "STEM", the student does not need to satisfy the requirement for a STEM cognate.

6 This requirement is waived if the STEM cognate includes a Natural Science course from the approved list.

7 Students satisfy this requirement by taking four writing courses, at least one of which must be in one of the student’s major disciplines, since all SPA courses above 203/208 are designated as writing (WRIT) courses, all Spanish majors satisfy this requirement by completing their major.

8 A minimum of 120 credits is required for graduation. Sufficient credits must be earned in electives to enable the student to complete this minimum of 120 credits. The exact number of elective credits required will vary depending on the number of credits needed to complete all other graduation requirements.

### Suggested Plan - Starting the major with SPA 101

<table>

</tr>
</tbody>
</table>

The Suggested Plans of Study are samples of four-year plans, but an individual student's actual plan is likely to vary from these sample plans in a number of ways, depending on such factors as (1) AP, dual-enrollment, and transfer credits that a student brings in; (2) the student's initial placement in composition, mathematics, and Spanish; and (3) the minor chosen by the student, as well as any additional minor or major the student chooses to complete. For example, a student is not required to complete a cognate in People & Society if the student has a minor (or second major) that counts as "People & Society," and similarly, a student is not required to complete a cognate in STEM if the student has a minor (or second major) that counts as "STEM."

---

1. Ideally through Faculty Led Study Abroad
2. Also satisfies Writing Credit.
3. Or any other 300 level SPA course also satisfies Writing Credit.
4. Students can opt to take SPA 302 and SPA 442 in Santander, Spain during the summer.

**Mission**

The Department of Modern Languages and Literatures seeks to promote global literacy. All majors (French, German, Spanish) in the department are articulated through the notion of global literacy. In its undergraduate programs, the MLL Department’s mission is to provide rigorous instruction, speaker series, study abroad, research and service-learning opportunities allowing students to gain the advanced linguistic, literary and cultural competence needed as we strive to develop future leaders of our nation and the world. Through our courses and co-curricular activities, students acquire a broad, structured knowledge of history, literature and culture in the target language; they develop analytical, critical, and communication skills; and they attain information and communication technology literacy needed in an increasingly complex and globalized society. Finally, they acquire intercultural competence and learn to view themselves through the lens of another language and culture.
Minor in Arabic Studies

Goals

• To acquire a broad, structured knowledge of history, literature and culture in the Spanish language.
• To develop analytical, critical, and communication skills.
• To attain information and communication technology literacy needed in an increasingly complex and globalized society.
• To acquire intercultural competence and learn to view themselves through the lens of another language and culture.

Student Learning Outcomes

• Students will develop oral communicative abilities in Spanish by the time they complete their major.
• Students will develop written communicative abilities in Spanish.
• Students will learn to reflect and critically think about language, literature, and culture, history, and politics of different societies by studying texts written in Spanish and writing about them.

1 Arabic Studies courses are taught in English.

* A minor in Arabic Studies consists of a minimum of 15 credit hours, passed with a "C" or higher.

** Up to 9 credit hours taken abroad in an Arabic-speaking country are eligible to fulfill the requirements for the minor. Up to 6 transfer credit hours from an accredited university or 4-year college in another region of the world are eligible to fulfill the requirements for the minor. In all cases, whether the credit hours are from a UM-affiliated study abroad program or transfer credit hours from any institution, the credit hours' UM equivalency, if any, will be determined by the UM Arabic Studies Program Director; ARB 310 must be taken within the Department of Modern Languages and Literatures at UM; and the student must fulfill the distribution of requirements and other criteria stipulated above.
If a student has studied Modern Standard Arabic (fusha) in another setting (e.g., a high school foreign language program or schooling in an Arab country), she/he may request a proficiency evaluation from the Program Director. If the student's Modern Standard Arabic is equivalent to, or beyond, the Intermediate level, the student may be exempted from the requirement to earn 3 credit hours in a 200-level Arabic language course; however, the student will still be required to take at least 9 credit hours of ARB courses and a total of 15 credit hours, as stipulated above, to complete the minor.

Minor in French

Curriculum Requirements

<table>

* 3 credit hours may be transferred from another institution or from a study-abroad program not administered by UM.

Minor in Two Modern Languages

Curriculum Requirements

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Primary Language</td>
<td></td>
<td>6</td>
</tr>
<tr>
<td>Primary Language 300-Level or above</td>
<td></td>
<td>6</td>
</tr>
<tr>
<td>Secondary Language Any level</td>
<td></td>
<td>12</td>
</tr>
</tbody>
</table>

Total Credit Hours: 24

* For example, POR 201, POR 202, POR 301 and POR 321 along with SPA 101, SPA 102, SPA 201 and SPA 202 would constitute a Minor in Two Modern Languages; so would CHI 202, CHI 203, CHI 204 and CHI 310 along with FRE 101, FRE 102, FRE 201 and FRE 202. Many other combinations are possible. Please consult with the language and program advisors.
** This minor must include 6 graded credit hours per language from the University of Miami.
*** Students must earn a grade of C- or higher in every course counting toward the minor, and maintain a minimum overall average of 2.5 in the minor.
**** One course in English (numbered 310 through 319) may count towards the Minor in Two Modern Languages with the approval of the language and program advisor.
***** When Arabic, Chinese or Japanese are the primary language, 204 courses may count as one of the two 300-level courses.
****** Completing the Minor in Two Modern Languages will fulfill the foreign language requirement.

Neuroscience

neuroscience.as.miami.edu
Introduction

Neuroscience is the study of the nervous system (i.e., the brain, spinal cord, and peripheral nerves), the mechanisms of behavior, and the nature of mind and consciousness. The Neuroscience Program is a rigorous, interdisciplinary program between the Department of Psychology (http://www.psy.miami.edu/), the Department of Biology, and the Miller School of Medicine. The neuroscience major provides a broad-based liberal arts background that can be applied to a variety of career fields. It is also excellent preparation for medical school or graduate study in neuroscience, psychology, biology or behavioral medicine.

Educational Objectives

The neuroscience major seeks to provide students with exposure to and a fundamental understanding of the neural and bio behavioral sciences by delivering an integrative educational experience and promoting interactions among faculty, graduate students, and undergraduate students in basic scientific inquiry, advising, and mentoring.

Degree Programs

All neuroscience majors are required to pursue a Bachelor of Science (B.S.) degree.

Departmental Honors

Students can earn Departmental Honors in Neuroscience by demonstrating excellence in their coursework and completing a Senior Honors Thesis in Neuroscience.

1. Excellence in Coursework – A minimum 3.3 combined GPA and a minimum 3.5 neuroscience GPA is required.
2. Senior Honors Thesis in Neuroscience – This is an independent empirical research project that is completed across two semesters (i.e., NEU 580 and NEU 581) under the supervision of a faculty mentor in the Neuroscience Program. At least one year of prior research experience with the faculty mentor is highly recommended. Written approval from the faculty mentor and the Director of Undergraduate Academic Services in the Department of Psychology is also required.

NEU 100. Introduction to Neuroscience (EXP). 3 Credit Hours.
Students examine the basic aspects of neuroscience research, specifically targeting neurological disorders. Tools and techniques used in the area of neuroscience such as biochemistry, molecular biology, electrophysiology, light and electron microscopy, confocal microscopy, and image analysis will be addressed. Discussions will also include topics in lab diagnostic techniques as well as state of the art instrumentation.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NEU 190. Faculty Overview of Research and Undergraduate Mentoring (FORUM). 1 Credit Hour.
Critical discussion of research reports in neuroscience.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

NEU 200. Introduction to Psychiatry (EXP). 3 Credit Hours.
The course will cover basic aspects of Psychiatry and behavioral sciences. We will emphasize the impact of evidence-based findings on the diagnosis, etiology, management and treatment of all major psychiatric disorders. Concepts such as history of psychiatry, evolution of the psychiatric nomenclature, childhood and adult development, brain circuitry, neurotransmitters, psychotherapies and pharmacological mechanisms of most commonly used medications will be discussed. We will utilize lectures, small group discussions as well as videos and live patient interviews. Students will be able to observe a patient interview by a faculty.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

NEU 280. Introduction to Research Projects I. 1-3 Credit Hours.
Students assist on a research project in neuroscience under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
NEU 342. Neural Mechanisms of Disease. 3 Credit Hours.
Cellular and molecular mechanisms underlying nervous system dysfunction and mental illness. Biological bases, including clinical and therapeutic aspects, of specific neurological disorders.
Prerequisite: BIL 268 or PSY 220 or PSY 425.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 380. Introduction to Research Projects II. 1-3 Credit Hours.
Students assist on a research project in neuroscience under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.
Prerequisite: PSY 291 or PSY 292. Requisite: UASP and Faculty Permission, 2.5 NEU GPA.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

NEU 400. Neurogenetics. 3 Credit Hours.
This course examines the role of genetics/epigenetics in the development of neurological diseases in humans. The availability of the complete human genome sequence and a compendium of genetic variants distributed throughout the human genome in a readily accessible database, together with genetic modification technologies have greatly accelerated the discovery of genes involved in disease. We will discuss how genetic or epigenetic variations can affect the nervous system, leading to a range of genetic disorders. Examples from single-gene recessive defects to complex diseases will be presented. Methods to identify genes involved in disease as well as pathogenesis studies and therapeutic approaches will also be discussed. Lastly, an introduction to the ethical challenges of obtaining and dealing with human genetic information will be presented.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

NEU 403. Neuroscience laboratory. 4 Credit Hours.
Research methods and laboratory experiments in contemporary neuroscience from individual cells to behavior. Scientific report writing and computer applications in experimental design and analysis.
Prerequisite: PSY 390, BIL 268 or PSY 425. Or Corequisite: PSY 425. Requisite: Senior Status.
Components: LAB.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 440. Neural Mechanisms of Psychiatric Disorders. 3 Credit Hours.
Analysis of different neuropsychiatric disorders including, but not limited to, schizophrenia, depression, post-traumatic stress disorder, drug dependence and abuse, and obsessive-compulsive disorders. Lectures are derived from current research articles looking at in depth mechanisms of these disorders. It is expected that students have a good understanding of neuroscience before registering for this course. This course will include active learning and grades are based upon two projects including writing a script and creating a short video that highlights drugs and other treatments used for these disorders and preparing a poster based upon a published article and presenting it to the class in a poster session format. In addition, there will be two exams designed to test the student’s knowledge of the material presented in class and in the readings.
Prerequisite: BIL 268 or PSY 220 or PSY 425. and USAP Permission.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

NEU 465. Cellular and Molecular Neuroscience. 3 Credit Hours.
Biophysical, biochemical, and structural features of nerve muscle and sensory cells. Basic cellular processes underlying function and development of nervous system.
Prerequisite: BIL 255, BIL 268 or PSY 220, and CHM 202.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

NEU 468. Developmental Neuroscience. 3 Credit Hours.
Cellular and molecular aspects of nervous system including neuronal differentiation.
Prerequisite: BIL 255, BIL 268 or PSY 220, and CHM 202.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
NEU 480. Research with Writing Credit. 1-3 Credit Hours.
Students assist on a research project in neuroscience under supervision of a faculty member. Activities include library research, data collection and management, and attendance at research team meetings.

Components: LEC.
Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 580. Senior Honors in Neuroscience I. 3 Credit Hours.
Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.

Components: LEC.
Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

NEU 581. Senior Honors in Neuroscience II. 3 Credit Hours.
Students work closely with a faculty member to design a unique research study and write a scientific paper to report on the results. Limited to undergraduate students only.

Components: LEC.
Grading: GRD.

Typically Offered: Fall, Spring, & Summer.

B.S. in Neuroscience

http://neuroscience.med.miami.edu/undergraduate-program

Overview

- Students must earn a minimum grade of C- in any course that is to count toward the neuroscience major.
- Students may repeat no more than two courses for the neuroscience major in which they received a D or an F.
- New freshmen and current students must have a minimum 1360 SAT, 30 ACT, or 3.5 combined, UM, and neuroscience GPA after 24 completed credit hours at UM to declare the neuroscience major. Note: At least 7 of these 24 credit hours must be in the BIL, CHM, or MTH courses required of the major and/or the degree.
- New transfer students must have a minimum 3.8 combined GPA to declare the neuroscience major, and at least 7 completed credit hours in the required BIL or CHM courses.
- Students are strongly advised not to continue with the neuroscience major if they have less than a 2.8 neuroscience GPA after 15 completed credit hours in the neuroscience major.
- Students must earn a minimum 2.6 neuroscience GPA and a minimum of 130 credits to graduate with the neuroscience major.

Notes

- There are limited seats in the neuroscience major so students may be required to join a waitlist before they are able to declare.
- Neuroscience majors are required to complete 130 total credit hours to complete their B.S. degree.
- The neuroscience major can only be declared as a first major for students who are enrolled in the College of Arts and Sciences.
- AP Credit for Statistics (i.e., PSY 292) cannot count toward the neuroscience major.
- Students who declare the neuroscience major after they transfer credit for PSY 292 or complete PSY 292 at UM can use PSY 292 as a substitute for PSY 291.

**Auxiliary Courses**

CHM sequences:

Chemistry for the Biosciences:

- CHM 121 & CHM 113
- CHM 221 & CHM 205
- CHM 222 & CHM 206

Principles of Chemistry  
and Chemistry Laboratory I

Introduction to Structure and Dynamics  
and Chemical Dynamics Laboratory

Organic Reactions and Synthesis  
and Organic Reactions and Synthesis Laboratory

Select one of the following PHY sequences:

10-11

College Physics:

- PHY 101 & PHY 106  
  College Physics I  
  and College Physics Laboratory I

- PHY 102 & PHY 108  
  College Physics II  
  and College Physics Laboratory II

University Physics:

- PHY 221  
  University Physics I  
  3

- PHY 222 & PHY 224  
  University Physics II  
  and University Physics II Lab

- PHY 223 & PHY 225  
  University Physics III  
  and University Physics III Lab

PRISM Physics:

- PHY 211 & PHY 106  
  University Physics I for PRISM  
  and College Physics Laboratory I

- PHY 212 & PHY 108  
  University Physics II for PRISM  
  and College Physics Laboratory II

3

Arts & Humanities Cognate  
9

People & Society Cognate  
9

Minor  
15-18

Mathematics  
3

Foreign Language in 200 level or above  
3

Electives  
6-9

Total Credit Hours  
130-137

---

1. Note: NEU courses cannot double count for a BIL elective and another required course within the neuroscience major.

2. All neuroscience majors must complete a minor in Biochemistry, Chemistry, Computer Science, Engineering, Geological Sciences, Marine Science, Mathematics, Microbiology and Immunology, or Physics.

Neuroscience majors may not earn majors or minors in Biology or Psychology.

Mission

In accordance with the goals of the University of Miami, the mission of the interdisciplinary undergraduate neuroscience major is to acquire, advance, and disseminate knowledge within the neural and bio-behavioral sciences. In order to achieve these goals, the Neuroscience Program seeks a balance among several academic endeavors, including basic scientific research, applied research, undergraduate teaching, graduate teaching, professional training and development, and service to the community.

In pursuing these activities, the major seeks to attract and retain the highest quality faculty and students, foster respect for differences among people, nurture curiosity, and insist upon high standards of thought, study, and communication that should characterize the ethical, educated person.

Goals

The major seeks to provide undergraduate students with exposure to and a fundamental understanding of the neural and bio-behavioral sciences. It seeks to deliver an integrative educational experience by promoting interactions among faculty, graduate students, and undergraduate students in basic scientific inquiry, advising, mentoring, and community outreach.

Student Learning Outcomes

• Students will develop a fundamental knowledge base in neuroscience as a scientific discipline.
• Students will develop research and quantitative skills through core coursework and/or supervised laboratory experiences.
• Students will develop oral and written communication skills related to the science of neuroscience.

Philosophy

philosophy.as.miami.edu

Dept. Code: PHI

Introduction

The Philosophy Department offers a wide range of courses at the undergraduate level which cover every major area of philosophy as well as its history. Students can major or minor in the subject. In addition, the department sponsors two undergraduate philosophy organizations:

• the Philosophy Club, which is open to all UM undergraduates, and
• Phi Sigma Tau, a chapter of the National Honor Society in Philosophy.

Both groups afford students regular opportunities to meet, eat, and talk philosophy with each other and with graduate students and faculty in the department. All undergraduates who are interested in philosophy are welcome to participate in these philosophical events.

Educational Objectives

Philosophy is the study of the most basic moral, scientific, legal, aesthetic, religious, and metaphysical concepts and theories by which we understand ourselves and our universe. It is a reasoned pursuit of fundamental truths, a quest for understanding, a study of principles of conduct. It analyzes the basic assumptions and concepts of other disciplines and the norms that govern interpersonal relations and the acquisition of knowledge. It seeks to establish standards of evidence, to provide rational methods of resolving conflicts, and to create techniques for evaluating ideas and arguments. Philosophers are dedicated to developing the following abilities: reasoning clearly, distinguishing between good and bad arguments, thinking through complicated questions, and using reason in situations that are often governed by emotions. Studies have shown that philosophy majors do extremely well on standardized tests, and in careers that require analytical abilities such as the practice of law and software development. But irrespective of career choice, philosophy deepens one's sense of the meaning and varieties of human experience, and enhances self-knowledge, foresight, and sense of direction in life.

Degree Programs

The major in Philosophy leads to the degree of Bachelor of Arts. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in philosophy should take at least two (2) (properly approved writing and communication) philosophy courses.

Pre-Law Major and Minor Tracks

The Department offers major and minor tracks for students wishing to enhance their Pre-Law studies with relevant Philosophy coursework.
Pre-Med Major and Minor Tracks

The Department also offers major and minor tracks for students wishing to supplement their Pre-Med work with relevant Philosophy coursework.

Departmental Honors

A program of work toward graduation with Honors in Philosophy is available for qualified students. Interested students should consult the Departmental Director of Undergraduate Studies during their sophomore or junior years. Further information may be found under the section entitled HONORS PROGRAM.

Advance Writing and Communication Requirement

Philosophy degree candidates in the College of Arts and Sciences who matriculate under Bulletin 2015/2016 and forward must complete at least four writing courses, and at least one such course must have a course code starting with PHI.

Transfer students may use a maximum of two transfer courses towards the requirement. The following links to a table listing the courses that have approval as writing courses:

http://www.as.miami.edu/academics/undergraduate-studies/writing-courses/

These courses, and only these courses, can be used to fulfill the Writing & Communication proficiency requirement. This table will be updated regularly with further courses, as they are approved.

For requirements leading to the Master of Arts and Ph.D. degree (p. 1817), see the Bulletin of the Graduate School.

PHI 101. Introduction to Philosophy. 3 Credit Hours.
Problems concerning knowledge, mind, freedom, religion, and morality. Reading and discussion of primary sources.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHI 103. Introduction to Philosophy through Markets and Morals. 3 Credit Hours.
Introduction to philosophy in a way that emphasizes its relevance to thinking about the economy. It will familiarize you with central texts in moral and political philosophy, and it will provide you with an opportunity to apply the tools of philosophical analysis and argumentation toward questions about the role of markets in contemporary life.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 104. Introduction to Philosophy and the Nature of Scientific Knowledge. 3 Credit Hours.
Introduction to philosophy in a way that emphasizes its relevance to thinking about the sciences. It will familiarize you with some historically important philosophical works about knowledge and reality, and it will provide you with an opportunity to apply the tools of philosophical analysis and argumentation toward questions about the nature and possibility of scientific knowledge.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 105. Introduction to Philosophy through the Brain and Behavioral Sciences. 3 Credit Hours.
Introduction to philosophy in a way that emphasizes its connections to the brain and behavioral sciences. It will familiarize you with traditional questions about knowledge, freedom, the self, society, and morality; it will introduce relevant work in the brain and behavioral sciences; and it will provide an opportunity to reflect on how the scientific advances might inform our thinking about the philosophical puzzles.
Components: LEC.
Grading: GRD.

PHI 106. Introduction to Philosophy and Health Sciences. 3 Credit Hours.
Introduction to philosophy in a way that emphasizes its relevance to thinking about the health sciences. It will provide you with tools for thinking about both metaphysical and moral issues raised by the health sciences. The metaphysical issues include: the nature of life, death, health, and disease. The moral issues include: patient autonomy, what makes death bad, abortion, euthanasia, experimentation, and the allocation of health care resources.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 107. Introduction to Philosophy and Law. 3 Credit Hours.
Introduction to philosophy in a way that emphasizes its relevance to thinking about the law and legal reasoning. It will familiarize you with traditional theories of moral obligation, social justice, free will, and responsibility. And it will provide an opportunity to explore the significance these theories have for addressing questions about the nature of law, our obligation to obey the law, rights, freedom, punishment, and liberty.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 108. Sexual Ethics. 3 Credit Hours.
An introduction to philosophy, focused on definitional, psychological, ethical and political issues relevant to sexual ethics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 109. The Superhuman Mind: An Introduction to Philosophy of Mind. 3 Credit Hours.
Cases of people who became geniuses by accident, human echolocation, lucid dreaming, synthetic telepathy used to move objects with the mind, and more, will be used to shed light on basic concepts in philosophy, such as the concept of mind, the concept of intelligence and the concept of human agency and human capacity.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 110. Critical Thinking. 3 Credit Hours.
Principles of sound reasoning; the construction and evaluation of arguments in everyday contexts and the assessment of evidence.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 111. Introduction to Philosophy Through Video Games. 3 Credit Hours.
Central philosophical topics through reading, playing, talking and writing about video games.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 115. Social and Ethical Issues in Computing. 3 Credit Hours.
History, social context and methods and tools of analysis. Professional and ethical responsibilities. Intellectual property. Privacy and civil liberties.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHI 130. Contemporary Moral Issues. 3 Credit Hours.
An examination of the philosophical problems which arise in connection with such moral and social issues as abortion, war, suicide, civil disobedience, racial discrimination, the death penalty, and the right to privacy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHI 131. Ethical Debates. 3 Credit Hours.
Ethical theories, their applications to contemporary issues, and a debate component styled after the Ethics Bowl.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 135. Love 101. 3 Credit Hours.
Love from different ethical, psychological and neuro-scientific perspectives. Among other things we will look at what distinguishes different kinds of love from each other, how love is manifested psychologically and neuro-scientifically, what chemicals drive feelings of love and obsession and why it can be so difficult to recover from a breakup.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 210. Symbolic Logic. 3 Credit Hours.
Introduction to symbolic logic and its methods.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Summer.
PHI 215. Logic and Law. 3 Credit Hours.
Principles and techniques of logic applied to legal reasoning.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHI 236. Feminist Philosophy. 3 Credit Hours.
This course is an introduction to issues in feminist philosophy, including its critique of Western philosophy and its contributions to major areas of philosophy such as ethics, social philosophy, theories of human nature, and theories of knowledge. Theories of oppression introduced at the beginning of the course inform analyses of sexism, heterosexism, racism, classism and ableism, and philosophizing about these “isms” is aided by sociocultural research. The emphasis is not only on what is contained in these topics, but also on how to think critically about them.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 237. Philosophy of Sport. 3 Credit Hours.
A philosophical examination of the nature and characterization of sports and of the many ethical issues they raise.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 238. Environmental Ethics. 3 Credit Hours.
Theoretical and practical issues in the field of environmental ethics. It will explore the relationship between humans and the natural environment, the moral status of the natural world and the non-human entities within it, and how we should address various environmental problems and challenges. Topics to be covered include anthropocentrism vs. non-anthropocentrism, moral obligations to non-human animals, conservation vs. preservation, wilderness, over-population, agriculture and the environment, climate change, human rights and the environment, and sustainable development.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 240. Language, Power and Politics. 3 Credit Hours.
A discussion of various types of politically relevant speech, which includes terms like ‘gender’ and ‘race’, slurs, political rhetoric, feminist discourse, pornography. How do politicians use rhetoric to persuade and manipulate their targets? How do words embody an ideology? How do we use language to demean, derogate, silence and hurt other people based on their gender, ethnic origin, religious affiliation or sexual orientation? What is the meaning of slurs? And how does this meaning enable slurs to derogate? How is pornography a speech act and how does it subordinate and silence women? Should pornography be granted protection under the first amendment? What does it mean to be a ‘women’ and what does it mean to be a ‘feminist’? What do certain gendered and racial terms mean? How might language constitute or enable violence?
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 241. History and Philosophy of Science. 3 Credit Hours.
An introduction to the history and philosophy of science by approaching this field from historical and epistemological points of view.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHI 242. Self-Knowledge. 3 Credit Hours.
How we can come to know our own minds.
 Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 244. Philosophy of Emotions. 3 Credit Hours.
The philosophy of emotions focusing on questions about what emotions are, whether emotions can be rational and whether they are socially constructed.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 245. Philosophical Psychology. 3 Credit Hours.
An examination of problems in psychology that philosophical methods have traditionally been used to solve.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 246. Introduction to Cognitive Studies. 3 Credit Hours.
Cognitive studies is a deeply interdisciplinary approach to the study of the human mind and its biological basis. In this team-taught course, students will be introduced to the field of cognitive studies through a number of disciplinary perspectives, including philosophy, psychology, neuroscience, computer science, religious studies, and anthropology.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 247. Perception. 3 Credit Hours.
An overview of the nature of sensory perception.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 248. Phenomenology. 3 Credit Hours.
A historical account of the phenomenological tradition and its significance to contemporary theorizing.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 271. Ancient Philosophy. 3 Credit Hours.
This course will introduce students to Ancient Greek ideas by examining central philosophical themes, such as: Knowledge; Why Be Moral? Justice in the City/Justice in the Soul; Liberty and Social Engineering; Happiness; Friendship; Death. We will use primary texts (in translation) by Plato, Aristotle, Cicero, and Augustine of Hippo, supplemented by some selections from the Greek historian Thucydides. Some Greek vocabulary will be assigned. The final exam will consist of a 2-week-long role playing game, The Threshold of Democracy: Athens in 403 B.C. (Developed by the Classics department at Barnard College, and a core component of Ancient Philosophy courses at UT Austin). Students will be assigned different roles: Thrasybulus; a radical Democrat; an Oligarch; and a supporter of Socrates.

Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHI 272. Modern Philosophy. 3 Credit Hours.
The Renaissance through Kant.

Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHI 295. Special Topics. 1-4 Credit Hours.
Special Topics taken at other institutions with no direct equivalents.

Components: LEC.
Grading: GRD.

PHI 304. Atheism and the Meaning of Life. 3 Credit Hours.
Whether it is something we can articulate, or something we simply feel, the sense that our lives are meaningful is often a central part of whatever contentment we experience in ourselves, our relationships with others, and our belonging in the world. Where does this meaning come from, and in what does it consist, exactly? The idea that it is derived from commitments associated with the supernatural – God, or gods, or otherwise spiritual entities – is a common theme in many longstanding traditions for answering such questions. But what if we do not make any such commitments? In that case, meaning will have to be understood differently. This course is an exploration of some alternative conceptions of the meaning of life.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 330. Ethics. 3 Credit Hours.
The main ethical systems and ethical concepts, an analysis of important ethical readings, and an application of ethical concepts to the individual and to society.

Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 331. Social and Political Philosophy. 3 Credit Hours.
Relations between morality and politics, the sources and the limits of political obligation, the function of the state, the nature of law, civil disobedience and revolution.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 332. Philosophy of Law. 3 Credit Hours.
An examination of basic philosophical issues concerning the nature and function of law, with particular attention to the legal system of the United States.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHI 333. Philosophical foundations of criminal law. 3 Credit Hours.
Philosophical examination of questions concerning the purpose, scope and limits of criminal law and the justification of punishment.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 334. Biomedical Ethics. 3 Credit Hours.
Fundamental issues including: the allocation of medical resources, behavior control, definition of death, experimentation with human subjects, euthanasia, and abortion.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 335. Professional Ethics. 3 Credit Hours.
Moral issues in business, engineering, law, and medicine. Development of moral principles to guide those in professional roles.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 336. Human Rights. 3 Credit Hours.
This course offers philosophical, legal, and political perspectives on human rights. After a short introduction to international human rights, it surveys international human rights treaties and institutions. Next it turns to topics in human rights theory, covering some contemporary philosophical theories of human rights. The final section explores some human rights problems and controversies.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 337. Environmental Ethics. 3 Credit Hours.
Theoretical and practical issues in the field of environmental ethics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 338. Philosophy and Feminism. 3 Credit Hours.
Theoretical (metaphysical and epistemological) and applied issues in feminist thought.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 339. Philosophy of Love. 3 Credit Hours.
Love from different ethical, psychological and neuroscientific perspectives. Among other things we will look at what distinguishes different kinds of love from each other, how love is manifested psychologically and neuroscientifically, what chemicals drive feelings of love and obsession and why it can be so difficult to recover from a breakup.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHI 340. Theory of Knowledge. 3 Credit Hours.
Analysis of the nature, sources and structure of knowledge. Possible topics include perception, skepticism, reason, truth, justification, and certainty.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 341. Philosophy of Language. 3 Credit Hours.
Theories of meaning, reference, predication, nature of signs and symbols, types and functions of discourse.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 343. Philosophy of Science. 3 Credit Hours.
Scientific theories and their relation to evidence; experimentation and its logic; explanation, the rationality of science and the growth of scientific knowledge.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 344. Philosophy of Mind. 3 Credit Hours.
The nature of mind and mental acts, events, and states and their relations to physical states of the brain and body and to behavior.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 345. Metaphysics. 3 Credit Hours.
The basic structure and kinds of constituents of the world.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 346. Philosophy of Mathematics. 3 Credit Hours.
An examination of key philosophical issues concerning mathematics and the understanding of mathematical practice.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 347. Philosophy of Social Science. 3 Credit Hours.
Examination of whether there are important differences between the social sciences and the natural sciences in terms of their methodology and objects of study.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 348. Introduction to Philosophy through the Brain and Behavioral Sciences. 3 Credit Hours.
Cognitive neuroscience taught on a level accessible to people in the humanities, the fine arts and the behavioral sciences.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 349. Philosophy of Space and Time. 3 Credit Hours.
Time and space are notoriously difficult to think about. We seem to have an intuitive understanding of them, but it is surprisingly hard to express that understanding. To make matters worse, modern physics challenges what little grasp we thought we had on the concepts of space and time. We are told that space can be curved, and that there can fail to be an objective fact about which of two events occurred first. So we are left without even an intuitive grasp of two of the most fundamental concepts of experience.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 350. Philosophy of Psychology. 3 Credit Hours.
Philosophical questions about psychology. Topics include: the foundations of Freudian psychology; neuro-psychoanalysis; the nature of the self; thinking animals; computers and consciousness; actions, reasons, and causes; first person authority; the unconscious; meaning and the mental; neuro-science and psychology.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 351. Philosophy of Religion. 3 Credit Hours.
The nature of and grounds for religious beliefs; traditional arguments for and against the existence of God; God's attributes; reason vs. faith.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 352. Aesthetics. 3 Credit Hours.
The philosophy of art, such as defining 'art', adjudicating among competing judgments or interpretations of works of art, and understanding the metaphysical status of art objects.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 353. Philosophy of Film. 3 Credit Hours.
Philosophical questions concerning the ontology and aesthetics of film.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 354. Philosophy of Literature. 3 Credit Hours.
Central philosophical issues concerning literature and the evaluation of literary works.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 355. History of Philosophy of Art. 3 Credit Hours.
An examination of the history of philosophical work on the arts (including literature, visual art, and music) from ancient times through the mid twentieth century.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 356. Philosophy of Education. 3 Credit Hours.
Examines the nature and aims of education. Of particular concern will be the evaluation of five possible epistemic aims of education: knowledge, truth, rationality, understanding, and intellectual virtue. Are all of these legitimate aims? How do they relate to one another? Are any more fundamental than the others? We will also consider a range of moral/political/social aims of education. A general question concerns the cultural embeddedness of all such proposed aims, so we will consider the place of considerations of diversity, multiculturalism, and their place in civic education in democratic societies in the determination of legitimate educational aims and ideals.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 357. Introduction to Semantics and Pragmatics. 3 Credit Hours.
This course is an introduction to the fields of natural language semantics and pragmatics, which study linguistic meaning and the use of language in communication. We will begin by investigating various aspects of linguistic meaning: How does language allow us to represent and encode information about the world around us? What are the meanings of expressions of different sorts, and how do they relate to each other? How does the meaning of a sentence depend on its syntactic structure? We will then go on to investigate questions that arise from the use of language in communication: How does the context of a conversation affect the meaning of a sentence? How can a sentence that means one thing be used to communicate something else? How is it that one can use a bit of language to do something like make a promise or issue a threat? What conversational phenomena arise simply because communication is a cooperative activity like many others, and what phenomena depend on specific features of language? Over the course of the semester we will study well-established results from semantic and pragmatic theory, as well as identify open questions that are the subject of current research in philosophy and linguistics.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 358. Effective Altruism: Making A Difference. 3 Credit Hours.
An examination of what it means to "make a Difference," "Why does it Matter," and "How to best Achieve this Goal". Critical assessment of various candidate proposals for making the world a better place.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 359. Immersive Experience and Virtual Reality. 3 Credit Hours.
Part of living a good life is immersing yourself in new and interesting experiences. Traditionally, this meant going out into the world, not sitting in front of a computer screen. But recent technological advances are making it possible to have more and more immersive and realistic experiences in virtual reality. In this course, we explore a variety of devices used to create immersive experiences: from novels and movies, via computer games such as Second Life, to current state of the art virtual reality systems. We look at the ways these devices shape our experiences and our sense of self. We discuss some ethical and metaphysical challenges they pose. And we consider the opportunities they present for learning, problem solving and improving human interaction. We make extensive use of VR and AR devices, immersing ourselves in virtual worlds in order to think about the fundamental philosophical questions they pose.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 360. Assessing Philosophical Papers: Philosophy Conference Organization. 3 Credit Hours.
This course teaches students how to evaluate academic work outside their main specialty area and to plan and orchestrate an undergraduate philosophy conference.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 373. Nineteenth Century Philosophy. 3 Credit Hours.
Fichte, Schelling, Hegel, Schopenhauer, Kierkegaard, Marx, Comte, Mill, Spencer, and Nietzsche.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 374. Twentieth Century Philosophy. 3 Credit Hours.
Philosophy and philosophers in the twentieth century.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 381. Existentialism. 3 Credit Hours.
Existentialist philosophy as seen in the works of such authors as Kierkegaard, Nietzsche, Heidegger, Sartre, Camus, and Dostoevsky.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 391. Special Studies. 3 Credit Hours.
Study of selected problems, philosophers, or movements. May be repeated for credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 392. Special Studies. 3 Credit Hours.
Study of selected problems, philosophers, or movements. May be repeated for credit.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 494. Independent Study in Philosophy. 1-3 Credit Hours.
Independent research conducted under the guidance of a faculty member. May be repeated for credit.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 495. Senior Honors Thesis. 3 Credit Hours.
Directed reading and a substantial and scholarly paper.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 496. Senior Honors Thesis. 3 Credit Hours.
Directed reading and a substantial and scholarly paper.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 506. Mathematical Logic. 3 Credit Hours.
Logics, truth, proof, logical consequences, model theory, formalization, and computation. Meta-theory of first-order logic, computability theory, and Goedel’s Incompleteness theorems. Related results by church, Turing, and Tarski. Discussion of their philosophical significance.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 510. Formal Logic. 3 Credit Hours.
First and second-order quantification theory; metalogic.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PHI 530. Ethical Theory. 3 Credit Hours.
G. E. Moore to the present.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 532. Legal Philosophy. 3 Credit Hours.
The philosophical foundations of legal theory and litigation in U.S. law. Topics include the philosophical underpinnings of contemporary criminal law and tort law, the problems of legal causation and intent, the concept of a reasonable person, the nature of corrective justice, the Kantian basis for human rights, and the free speech dilemma.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 533. Political Philosophy. 3 Credit Hours.
A survey of some central issues and developments in political philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 540. Epistemology. 3 Credit Hours.
A survey of the basic topics and questions in epistemology: knowledge acquisition and justification, perception, fallibilism, and skepticism.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 541. Mind and Language. 3 Credit Hours.
Philosophical problems about signs, linguistic and mental representations, intentionality, action, and consciousness.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 543. Induction, Probability, and Scientific Method. 3 Credit Hours.
Foundations of inductive reasoning and role of experiment in science.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 544. The Philosophy of Language. 3 Credit Hours.
A central feature of human language is that it is meaningful; this is what allows us to use language to record and share information about the world, and to communicate the ideas, thoughts and emotions that make up our private mental lives. But what is linguistic meaning? One historically influential idea is that linguistic meaning is to be analyzed in terms of truth. This course will examine this idea, and consider several philosophical debates that have arisen from it, or in which it has played an important role. Along the way students will gain an understanding of some of the most central concepts and issues in contemporary philosophy of language.
Prerequisite: PHI 357 (249) or at least one of PHI 341 - 346.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 545. Metaphysics. 3 Credit Hours.
A selection of topics dealing with the main problems of metaphysics: existence, modality, universals, identity and persistence through time, causation, the self and physicalism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 546. Evidence and Knowledge in Medicine. 3 Credit Hours.
Basic methodologies in medicine in the context of philosophical theories of evidence.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PHI 553. Philosophy and Film. 3 Credit Hours.
Combining readings in philosophy and film theory and criticism with close analysis of selected films, this course is premised on a conviction in the potential fruitfulness, both for film studies and philosophy, of thinking philosophically about the ontology of the medium, the history and the art of film, the ways we experience movies, and their impact on our lives. A main focus will be on the writings of Stanley Cavell—the most important author in the Anglo-American philosophical tradition to make writing about film a substantial part of his philosophical project—and philosophical responses by to his work.
Components: LEC.
Grading: GRD.

PHI 555. Philosophy of Education. 3 Credit Hours.
Problems concerning the nature and aims of education.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 560. History of Logic. 3 Credit Hours.
Aristotle, the Stoics, the Scholastics, Leibniz, Boole, DeMorgan, Peirce, Frege, and Russell and Whitehead.
Components: SEM.
Grading: GRD.
Typically Offered: Fall & Spring.

PHI 562. History of Ethics. 3 Credit Hours.
A selection of ethical theories from Aristotle to Rawls.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 570. Presocratics and Plato. 3 Credit Hours.
Fragments from the Presocratics and the dialogues of Plato.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 571. Aristotle and Hellenistic Philosophy. 3 Credit Hours.
A survey of central philosophical topics in Aristotle and Hellenistic Philosophers (Epicureans, Stoics, and Skeptics).
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 572. Medieval Philosophy. 3 Credit Hours.
The patristic period through the scholasticism of the late middle ages.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 573. Early Modern Philosophy. 3 Credit Hours.
An examination of early modern philosophy from Hobbes and Descartes to Hume.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 575. Kant. 3 Credit Hours.
An examination of selected issues in Kant’s theoretical or practical philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 581. Pragmatism. 3 Credit Hours.
Peirce, James, Dewey, and others.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 582. History of Analytic Philosophy. 3 Credit Hours.
The development of analytic philosophy from its beginnings in the work of Frege and Russell through logical positivism to contemporary philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHI 583. The Phenomenological Tradition. 3 Credit Hours.
An examination of the phenomenological movement (Edmund Husserl, Martin Heidegger, Maurice Merleau-Ponty, and others) and of its impact on contemporary thought.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 591. Special Topics. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for credit.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 592. Special Topics. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for credit.
Components: SEM.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 593. Special Topics. 3 Credit Hours.
A selected philosopher or philosophical problem. May be repeated for credit. Prerequisite: Six credits in Philosophy and junior standing.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHI 594. Independent Study in Philosophy. 1-3 Credit Hours.
Directed reading on a topic or philosopher. May be repeated for credit.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

B.A. in Philosophy

The major in Philosophy leads to the degree of Bachelor of Arts. To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in philosophy should take at least two (2) (properly approved writing and communication) philosophy courses.

Mission
Philosophy majors should be able to think critically and imaginatively about philosophical questions and foundational issues in other disciplines. They should have a solid understanding of contemporary and historical philosophical texts; they should be able to evaluate complex philosophical arguments and to determine the logical validity or invalidity of arguments in any sphere.

Goals
Student Learning Outcomes

• All undergraduate majors will demonstrate the ability to evaluate evidence and arguments.
• All undergraduate majors will demonstrate the ability to think critically about philosophical issues.
• All undergraduate majors will demonstrate a specialized knowledge of at least one philosophical topic or area.
• All undergraduate majors who take writing-credit courses will demonstrate the ability to:
  • (a) summarize the main ideas of historical or contemporary philosophical theories in written form,
  • (b) analyze the fundamental differences among important philosophical concepts in several paragraphs, and
  • (c) apply these concepts in a resolution of current debates in solid writing.

Physical Sciences
Dept. Code: PSC

Introduction
PSC 101 is an interdisciplinary physical science course designed primarily for the non-science major. It may be used to satisfy a physical science requirement in some degree programs. Students should consult the degree requirements listed elsewhere in the Bulletin as well as their advisors for the appropriateness of this course for their programs. See also under PHY 110.

PSC 101. Physical Science. 3 Credit Hours.
An interdisciplinary course to provide the non-science major with an understanding of some of the methods, ideas and accomplishments of Physics, Astronomy, Chemistry, Geology, and their role in the development of civilization.
Components: LEC.
Grading: GRD.
Typically Offered: Fall & Spring.

Physics
http://www.physics.miami.edu
Dept. Code: PHY

Introduction
The requirements for a major or minor in the Department of Physics are flexible and may be adapted to the needs of the individual student.

A grade of C- or better is required in all courses counted toward the major or minor with an overall GPA of 2.0. Any lecture course in the Physics department may be passed by means of a proficiency examination.

Note that more mathematics beyond two semesters of calculus is typically required for most of the physics courses at the 300 level or higher. In order to complete any Physics major sequence in four years, the student should begin elementary calculus as soon as possible. Students are encouraged to discuss an appropriate math sequence with the physics advisor. The minimum math requirement for physics major typically is as follow:

<table>

Requirements for the Master of Science and Doctor of Philosophy (p. 1824) degrees will be found in the Bulletin of the Graduate School.
PHY 101. College Physics I. 4 Credit Hours.
Elementary mechanics, thermal phenomena, fluids, waves. Courses 101-102-106-108 provide a ten-credit 'physics with lab' sequence without calculus. Prerequisite: MTH 105 or higher (excluding MTH 113). Corequisite: PHY 106.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 102. College Physics II. 4 Credit Hours.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 103. General Physics. 3 Credit Hours.
Mechanics, waves, electromagnetism.
ARCHITECTURE MAJORS.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 106. College Physics Laboratory I. 1 Credit Hour.
Laboratory course to accompany PHY 101. Pre/Corequisite: PHY 101 or PHY 201.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 108. College Physics Laboratory II. 1 Credit Hour.
Laboratory course to accompany PHY 102. Prerequisites: PHY 102 or PHY 202. Or Corequisites: PHY 102 or PHY 202.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 110. Descriptive Astronomy. 3 Credit Hours.
For students not majoring in Mathematics or a Physical Science. brief non-technical treatment of the universe and its contents. Mathematical requirements are minimal with emphasis on our present knowledge about energy and matter in space. Not for major or minor.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 160. Physics of the Arts. 3 Credit Hours.
Newtonian mechanics, energy, wave motion, atoms, and electricity. Applications to music, art and communications.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 201. University Physics I for the Sciences. 4 Credit Hours.
Calculus based introductory physics: mechanics, heat, fluids, waves, with applications from the physical and life sciences. Pre-requisite: MTH 141 Or MTH 151 Or MTH 161 Or MTH 171 And MTH 162 Or MTH 172 Or Co-requisite: MTH 162 Or Co-requisite: MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 202. University Physics II for the Sciences. 4 Credit Hours.
Calculus based introductory physics: electromagnetism, optics, modern physics, with applications from the physical and life sciences. Prerequisite: PHY 201.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.
PHY 211. University Physics I for PRISM. 4 Credit Hours.
Calculus based introductory physics: mechanics, heat, fluids, waves, with applications from the physical and life sciences. Designed for students in the PRISM program.
Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 212. University Physics II for PRISM. 4 Credit Hours.
Calculus based introductory physics: electromagnetism, optics, modern physics, with applications from the physical and life sciences. Designed for students in the PRISM program.
Prerequisite: PHY 211.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 221. University Physics I. 3 Credit Hours.
Mechanics through gravity and harmonic motion, intended for science and engineering students.
Prerequisite: (MTH 141 or MTH 151 or MTH 161 or MTH 171) OR Co-requisite: (MTH 151 AND (“B” in MTH 105 or MTH 108 or Placement in Calculus by MTH Placement Exam) OR Corequisite: (MTH 141 or MTH 151 or MTH 161) AND Department Permission.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 222. University Physics II. 3 Credit Hours.
Fluids, waves, optics, thermal phenomena, intended for science and engineering students.
Prerequisite: PHY 221 or PHY 205 And Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 223. University Physics III. 3 Credit Hours.
Electromagnetism through Maxwell's equations, intended for science and engineering students.
Prerequisite: PHY 221 (or PHY 205) and Pre or Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 224. University Physics II Lab. 1 Credit Hour.
Laboratory to accompany PHY 222.
Prerequisite: PHY 222 or PHY 206 or Corequisite: PHY 222.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 225. University Physics III Lab. 1 Credit Hour.
Laboratory to accompany PHY 223.
Prerequisite: PHY 223 or PHY 207 or Corequisite: PHY 223.
Components: LAB.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 230. Honors University Physics II-III. 5-6 Credit Hours.
Fluids, waves, optics, thermal phenomena, electromagnetism. Combines PHY 222 and 223.
Prerequisite: PHY 221 and Pre- or Co-requisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 295. Transfer Credits. 1-5 Credit Hours.
Special topics taken at other institutions but having no direct equivalents here.
Components: LEC.
Grading: GRD.
PHY 306. Intermediate Laboratory. 1 Credit Hour.
Laboratory: a review of some of the fundamental experiments in classical and modern physics.
Prerequisite: PHY 225 or PHY 209 And Pre/Corequisite: PHY 360.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

PHY 315. Mathematical Tools for Physics. 3 Credit Hours.
How to use mathematics. Series, complex algebra, vector analysis, differential equations, etc.
Prerequisite: MTH 141 or MTH 151 or MTH 161 or MTH 171 and Pre/Corequisite: PHY 206 and Pre/Corequisite: MTH 162 or MTH 172.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 321. Thermodynamics and Kinetic Theory. 3 Credit Hours.
An intermediate course in thermal phenomena, from both macroscopic and microscopic points of view.
Prerequisite: PHY 222 or PHY 206 And MTH 211 or MTH 310 Or PHY 315.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 325. Biological Physics I. 3 Credit Hours.
Applications of fundamental principles from fluids, electrostatics, statistical physics to biological phenomena at molecular and neuronal levels; emphasis on quantitative picture of well-known biological systems; discussion of current research at the interface of biology and physics.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 340. Classical Mechanics I. 3 Credit Hours.
Includes harmonic motion, orbit theory, coupled oscillations, rigid body motions.
Prerequisite: PHY 202 or PHY 212 Or PHY 222 and PHY 223 Or PHY 230 or PHY 206 and PHY 207 or (PHY 210) And Pre/Corequisite: MTH 210 and MTH 311 Or Prerequisite: PHY 315.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 350. Intermediate Electricity and Magnetism. 3 Credit Hours.
Includes the integral and differential forms of Maxwell’s equations, circuit theory, and boundary value problems.
Prerequisite: PHY 202 or PHY 212 Or PHY 222 and PHY 223 Or PHY 230 or PHY 206 and PHY 207 or (PHY 210) And Pre/Corequisite: MTH 210 and MTH 311 Or Prerequisite: PHY 315.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 351. Intermediate Electricity and Magnetism II. 3 Credit Hours.
A continuation of PHY 350. Includes further application of Maxwell’s equations with emphasis on radiation theory.
Requisite: PHY 350.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

PHY 360. Introduction to Modern Physics. 3 Credit Hours.
Emphasis on the experimental foundations of modern physics. Relativity, quantization, atomic structure, radiation, nuclei.
Prerequisite: PHY 202 or PHY 212 or PHY 222 or PHY 230 Or PHY 206 and Pre/Corequisite: PHY 207 And Prerequisite: MTH 172 or PHY 315.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 362. Modern Physics Honors Seminar. 1 Credit Hour.
Special Topics to accompany PHY 360. Co-requisite: PHY 360.
Pre-requisite: PHY 360 Or Co-requisite: PHY 360.
Components: SEM.
Grading: GRD.
Typically Offered: Fall.
PHY 401. Senior Thesis. 3 Credit Hours.
Research Leading to the writing of a senior thesis - First Semester.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 402. Senior Thesis. 3 Credit Hours.
Research Leading to the writing of a senior thesis - Second Semester.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 501. Research. 1-3 Credit Hours.
Project course introducing methods of research, individual investigation of current problems.
Components: THI.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 502. Research in Astrophysics. 1-3 Credit Hours.
Project course introducing methods of research, individual investigation of current problems.
Components: RSC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

PHY 506. Advanced Laboratory. 1-2 Credit Hours.
Advanced experiments such as properties of the electron, optical spectra, electrical measurements, radioactive decay, absorption, etc.
Prerequisite: PHY 225 or PHY 209 And Pre/Corequisite: PHY 360.
Components: LAB.
Grading: GRD.
Typically Offered: Spring.

PHY 513. Mathematical Techniques in Physics. 3 Credit Hours.
Complex variables and applications. Infinite series and their uses, particularly in differential equations. Multiple integrals and Fourier series.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 516. Special Topics in Physics. 1-3 Credit Hours.
Special topics in Physics. Topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 517. Special Topics in Physics. 1-3 Credit Hours.
Special topics in Physics. Topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 518. Special Topics in Astrophysics. 1-3 Credit Hours.
Special topics in Physics. Topics vary by semester.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 522. Solid State Physics. 3 Credit Hours.
Crystal structure, quantum theory of the electronic structure of solids, mechanical, electric, magnetic and optical properties of solids.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 530. Plasma Physics I. 3 Credit Hours.
Kinetic theory of plasmas, adiabatic motion of charged particles magneto fluid dynamics, transport properties of plasmas in electromagnetic fields.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
PHY 540. Classical Mechanics II. 3 Credit Hours.
Lagrangian formulation, rigid body dynamics. Topics selected from fluid dynamics, non-linear oscillations, normal modes, phase plane analysis.
Requisite: PHY 340.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 545. Introduction to Astrophysics. 3 Credit Hours.
Celestial mechanics, solar models, galaxies, distance scales, instruments.
Pre-requisite: PHY 360.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 552. Optical Physics. 3 Credit Hours.
Geometric optics, interference and diffraction, polarized light, optical pumping, coherence phenomena, applications to modern physical research.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

PHY 560. Quantum Mechanics and Modern Physics I. 3 Credit Hours.
Introductory theory with applications to simple systems. Perturbation theory and atomic structure.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

PHY 561. Quantum Mechanics and Modern Physics II. 3 Credit Hours.
Applications of quantum mechanics to atomic and molecular spectroscopy, quantum statistical mechanics, and nuclear physics.
Pre-requisite: PHY 560.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

B.S. in Applied Physics
http://www.physics.miami.edu

Overview
This sequence is available for those intending careers in applied physics. The major is divided into tracks, depending on the student's field of interest. The Physics for the Life Sciences track is designed for premedical students.

Students must complete the core set of courses AND one track in their field of interest. Multiple tracks are allowed with prior authorization from the Department of Physics.

To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Applied Physics should pass at least one writing intensive course within the Physics Department. These are PHY 306, PHY 362, and PHY 506. The requirement can also be fulfilled by passing ENG 233 with a grade of C- or higher.

Core Courses
The core set of courses is required for all tracks and it includes one of the University Physics sequences with two labs (see table below), plus PHY 350, and PHY 360.

Engineering Physics Track
Additional 5 credits in physics at the 300 level or higher, including PHY 340 and one lab, plus 9 credits in Engineering with prior authorization from the Department of Physics.

Computational Physics Track
Additional 5 credits in physics at the 300 level or higher, including PHY 340 and one lab, plus 2 courses from the Computer Science BS core (p. 274) and a third course in Computer Science with prior authorization from the Department of Physics.
Medical Physics Track
Additional 5 credits in physics at the 300 level or higher, including PHY 351 and one lab, plus BME 265, BME 310, and BME 330 (Note: BIL 150, BIL 151, and CHM 121 are prerequisites for the BME courses).

Physics for the Life Sciences Track
Additional 6 credits in physics at the 300 level or higher, including PHY 321, plus required biology and chemistry courses. In biology, the required courses are BIL 150, BIL 151, BIL 160, BIL 161, BIL 255, and either BIL 360 or BME 265. In chemistry, the students are required to take the three-semester sequence of Chemistry for the Life Sciences (CHM 121, CHM 221, CHM 222) with laboratory (CHM 113, CHM 205, CHM 206).

Chemical Physics Track
Additional 6 credits in physics at the 300 level or higher, including PHY 321, plus CHM 360, CHM 364, CHM 365, CHM 464, and one among CHM 530, CHM 553, or CHM 575.

**Mission**

The mission of the Physics B.S. program is to provide students with a rigorous grounding in classical and modern theory, experience in advanced experimental techniques, and exposure to a broad spectrum of topics in physics research.

**Goals**

It is expected that graduates will be capable problem solvers, proficient critical and scientific thinkers, and possess backgrounds that prepare them for success in graduate school or their desired career path. Graduates will also be able to communicate their scientific ideas in written form to both scientifically literate and general audiences.

**Student Learning Outcomes**

- Students will demonstrate the ability to solve problems in classical and modern physics and proficiency in theoretical and applied mathematics, making them competitive in their application at top graduate programs and/or in the job market.
- Students will be exposed to and engaged in forefront physics research. Students will learn first hand how research is performed in one of our labs, while contributing to one of our active research programs.
- Students will be able to report their work/ideas in written form to both the scientific community and a broader audience.
B.S. in Pure Physics

Overview

The pure physics major is recommended for students intending to enter graduate school in Physics, or that want a deeper understanding of fundamental physics.

It consists of one of the University Physics sequences with two labs, plus PHY 306 (lab), PHY 321, PHY 340, PHY 350, PHY 351, PHY 360, PHY 362, PHY 506 (lab), PHY 540, and PHY 560.

Students interested in a Ph.D. program in physics are strongly encouraged to also take PHY 561.

To satisfy the College of Arts and Sciences writing requirement in the discipline, students majoring in Pure Physics are required to pass at least one writing intensive course within the Physics Department. These are PHY 306, PHY 362, and PHY 506. The requirement can also be fulfilled by passing ENG 233 with a grade of C- or higher.

- PHY 106  College Physics Laboratory I
  or PHY 224  University Physics II Lab
- PHY 108  College Physics Laboratory II
  or PHY 225  University Physics III Lab

Option 4:

- PHY 211  University Physics I for PRISM
- PHY 212  University Physics II for PRISM
- PHY 106  College Physics Laboratory I
  or PHY 224  University Physics II Lab
- PHY 108  College Physics Laboratory II
  or PHY 225  University Physics III Lab

**Upper Level Courses**

- PHY 306  Intermediate Laboratory 1
- PHY 321  Thermodynamics and Kinetic Theory 3
- PHY 340  Classical Mechanics I 3
- PHY 350  Intermediate Electricity and Magnetism 3
- PHY 351  Intermediate Electricity and Magnetism II 3
- PHY 360  Introduction to Modern Physics 3
- PHY 362  Modern Physics Honors Seminar 1
- PHY 506  Advanced Laboratory 1-2
- PHY 540  Classical Mechanics II 3
- PHY 560  Quantum Mechanics and Modern Physics I 3

### Mission

The mission of the Physics B.S. program is to provide students with a rigorous grounding in classical and modern theory, experience in advanced experimental techniques, and exposure to a broad spectrum of topics in physics research.

### Goals

It is expected that graduates will be capable problem solvers, proficient critical and scientific thinkers, and possess backgrounds that prepare them for success in graduate school or their desired career path. Graduates will also be able to communicate their scientific ideas in written form to both scientifically literate and general audiences.

### Student Learning Outcomes

- Students will demonstrate the ability to solve problems in classical and modern physics and proficiency in theoretical and applied mathematics, making them competitive in their application at top graduate programs and/or in the job market.
- Students will be exposed to and engaged in forefront physics research. Students will learn first hand how research is performed in one of our labs, while contributing to one of our active research programs.
- Students will be able to report their work/ideas in written form to both the scientific community and a broader audience.

### Dual Major in Chemistry and Physics

The dual major in Chemistry and Physics is designed for students who are pursuing a regular B.S. degree in Chemistry (p. 226) and want to pursue a second major in Physics.

In addition to the major in Chemistry (p. 236), the dual major requires 22 credit hours in physics and specific courses in Chemistry. The physics courses must include one of the University Physics sequences with two labs, plus PHY 350 and PHY 360. The remaining courses must receive
advanced permission from the physics advisor. The specific Chemistry courses include CHM 360, CHM 364, CHM 365, CHM 464, and one among CHM 530, CHM 553, or CHM 575.

Students pursuing this dual major will have to satisfy the College of Arts and Sciences writing requirement for the Chemistry major.

**Dual Major in Engineering and Physics**

Students in the College of Engineering (p. 1044) can pursue a dual major in Engineering and Physics, which consists of a regular major in Engineering, plus selected courses in physics. The physics courses required are the complete University Physics sequence for Engineers, plus 11 additional credits in physics at the 300 level or higher, including PHY 350, PHY 360, and one between PHY 321, PHY 340, and PHY 560.

Students pursuing this dual major will take courses designed to provide them with the skills required for effective communication, both written and oral, within their discipline in the College of Engineering.

* 6 elective courses must include:
  - 3 Arts and Humanities Cognate courses
  - 3 People and Society Cognate courses

1 Students must take one laboratory from MSC 232 or MSC 302.
Mission
The mission of the Rosenstiel School of Marine and Atmospheric Science is to deepen our collective knowledge of our planet through cutting-edge scientific research on the oceans, atmosphere, geology, biota, and the human dimension, while training the next generation of scientists. We transfer the knowledge gained to our students, the national and international scientific community, and to policymakers and the public.

The educational mission of the BS degree in Marine Science at the University of Miami is to graduate students with the ability and desire to integrate knowledge of marine science into their future careers.

Goals
Students completing this double major will be able to master a broad set of fundamental scientific knowledge in Marine Science and Physics, acquire valuable technical skills and learn how to apply this knowledge to real-world problems, in a time of increasing stress on Earth’s resources and environment. The program will provide the rigor, flexibility, depth and integration to enable students to:

• Design and pursue their course of study that meets requirements of a double major in Marine Science and Physics.
• Learn from the diverse and outstanding group of professors and researchers who are experts in their fields and have active research programs.
• Undertake active research experiences, which will allow them to gain a strong understanding of the scientific process and provide them with a set of valuable experimental and computational skills.
• Prepare themselves for graduate school and for successful careers in public and private industries.

Student Learning Outcomes
• Students will demonstrate an ability to communicate effectively.
• Students will develop analytical and quantitative skills to allow critical data analysis.
• Students will be able to do carry out supervised research in the field of marine science.

Minor in Astrophysics
Overview
The Astrophysics minor is designed for non-Physics majors and minors to offer students with education in a discipline different from Physics the opportunity to expand their interest in Astrophysics and strengthen their quantitative and problem-solving skills with direct application to Astrophysics. The Astrophysics minor requires 16 or 17 credits within the Department of Physics (depending on the University Physics sequence taken), covering fundamental physics courses (one of the University Physics sequences), a course in Modern Physics (which covers, among other topics, special relativity and properties of light), and the Introduction to Astrophysics (which covers fundamental tools in astrophysics and a study of the properties of Astrophysical objects).

Minor in Biological Physics

Overview
The Biological Physics minor is for non-Physics majors or minors and requires 11 to 12 credits within the Department of Physics (depending on the University Physics sequence taken), and 6 credits from the Department of Biology. In addition to a calculus-based introductory sequence of physics courses, students will take the 300-level Biological Physics I course.

Biological physics covers a vast array of research topics, from the molecular scale to whole organisms and populations. It is an inherently interdisciplinary subject, where the fields involved (physics, biology, neuroscience, etc.) strengthen each other. The methods of physics have influenced how biology research is conducted, and basic questions in biology and neuroscience have attracted the attention of both experimental and theoretical physicists. A biological physics minor is designed to strengthen the quantitative and problem-solving skills for non-physics majors with interest in biological questions.

General Biology & Evolution and Biodiversity (Complete both of the following) 8

- BIL 150  General Biology
- BIL 160  Evolution and Biodiversity

Biological Physics (Complete the following) 3

- PHY 325  Biological Physics I

Total Credit Hours 19-20

Minor in Physics

Curriculum Requirements

A minor in physics consists of a University Physics Sequence (3 options), plus Modern Physics (PHY 360) and an additional 3-credit physics course at the 300-level or higher (other than PHY 315).

**Total Credit Hours**: 16-17

---

**Political Science**

politicalscience.as.miami.edu

**Dept. Code**: POL

**Introduction**

A political science major prepares students for work in a number of fields including law, politics, public policy, public administration, and international affairs, as well as employment in business and the non-profit sector.

**Educational Objectives**

Political science majors gain an understanding of American political and legal life, the workings of other countries’ political and economic systems, the relations among countries in the international arena, and key concepts in both political philosophy and social science methodology.

**Advanced Writing & Communication Requirements**

Details of the Advanced Writing and Communication Proficiency:

Degree candidates must complete at least four writing courses, and at least one writing course must be in one of the student's major disciplines (not applicable to BLA students who do not select a major). Students should consult the bulletin section of their major to find out which writing-intensive courses are acceptable to the discipline.

Individual writing course offerings may make the writing component independent of the rest of the course. As such the writing component might be optional, the writing component might not contribute to the overall grade, and writing credit might be awarded even if the overall grade is a fail.

Transfer students may use a maximum of two courses towards the writing requirement.

**Degree Programs**

- Bachelor of Arts in Political Science
- Five year program: Bachelor of Arts in Political Science and Masters of Public Administration (A special curriculum for students specializing in public administration enables them to complete the requirements for both a Bachelor’s and Master's degree in five years.)

**Departmental Honors**

To earn Departmental Honors a political science major must:

1. Graduate with an overall GPA of 3.500.
2. Graduate with a political science GPA of at least 3.700. All political science course grades on a student’s transcript are counted in the calculation of the major GPA. This includes all grades from courses that were completed more than once (e.g. to obtain a high enough grade to count towards the major).
POL 201. Introduction to American National Government. 3 Credit Hours.
Examination of the principles, structures, and processes of the national government of the United States. Frequent comparisons made with others countries.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 202. Introduction to Comparative Politics. 3 Credit Hours.
This course introduces students to study of comparative and international politics by examining how conflicts over these issues have played out in several different countries around the world.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 203. Introduction to International Relations. 3 Credit Hours.
Introduction to the theory and practice of international relations. Areas covered include: diplomacy, conflict resolution, international institutions and law; great power politics, international political economy, environmental politics, political integration, the evolving state system, and new global challenges.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 214. Criminal Justice and Social Change. 3 Credit Hours.
The social impact of crime as a form of domestic terrorism, the police and courts as a deterrent, and incarceration as an attempt to prevent and punish violent social behavior. This course is only open to high school students participating in the Summer Scholars Program.
Components: LEC.
Grading: GRD.
Typically Offered: Summer.

POL 250. Scope and Methods of Political Science. 3 Credit Hours.
The basic skills needed in political science to critically read academic journal articles and books. The application of scientific methods to the study of public life, focusing on research design and introducing students to the various methodologies used by researchers to draw descriptive and causal inference about the political world. Some methods introduced include ethnography, experimentation, the case study, and survey research.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 301. The Science and Practice of Political Research. 3 Credit Hours.
Exposes students to the way in which scientific knowledge of political phenomena is currently created and evaluated.
Prerequisite: POL 201 or POL 202 or POL 203.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 302. Political Fiction and Film. 3 Credit Hours.
Politics as presented in films and in relevant texts such as novels and biographies.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 303. Refugees and Migrants. 3 Credit Hours.
The increase in movement of people across borders that have occurred around the world over the past decades, the challenges posed by global migration, and the political responses of national communities to this phenomenon.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 305. Introduction to Political Theory. 3 Credit Hours.
Politics is organized behavior shaped by power. This brief, stripped-down, and pragmatic definition is what we will use in gaining access to the political philosophers we will study in this course. Students will have a greater understanding of arguments and texts in political philosophy.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.
POL 306. Positive Political Theory. 3 Credit Hours.
Introduction to positive political theory as a study of politics using quantitative methods such as game theory, laboratory experiments, and computer simulation. The political agents involved in a given interaction are modeled as rational players guided by self-interest whose behavior can be formally explained or predicted.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 307. Political Ideologies. 3 Credit Hours.
Covers modern and contemporary political ideologies, such as Liberalism, Conservatism, and Marxism.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 309. American Political Thought. 3 Credit Hours.
This class traces the evolution of democratic thinking in America. Topics include the meaning of representation, citizenship, equality and liberty.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 310. God, Science, and Politics. 3 Credit Hours.
A study of morality and religion that addresses the competing influences of material and spiritual discourses on political regimes and practices. The talking points for the course include the various proofs and refutations offered throughout history of God's existence, the differences and similarities of scientific and religious approaches to experience, and the ways in which moral and religious principles enlighten politics as they fold into the vocabularies of natural law and right, and contaminate the political with religious violence in the name of God.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 311. Conspiracy Theories and the Public. 3 Credit Hours.
Why do people believe in conspiracy theories? This inter-disciplinary course examines a variety of explanations for conspiratorial beliefs.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 312. Politics, Society and Art. 3 Credit Hours.
Analysis of the relationship between narratives, aesthetics, (beauty) and the political/social world. By successfully completing this course, students Will; understand how humans interpret the political, social, and physical world through narrative. Come to see how most/all political controversies involve competing narratives. How false narratives are deployed to manipulate the public. Realize that through art important analytical arguments are made, which impart substantial insight into social, political, and physical phenomena. See how philosophy is intelligently conveyed through art - including approaches to political legitimacy, justice, and how political stability is maintained. To analyze the relationship between art, society, and politics, we draw episodes of the Simpsons, renaissance art, and broadcast iterations of Star Trek.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 313. The Constitution. 3 Credit Hours.
This course examines the US Constitution from a political and historical prospective. This is a writing intensive course.
Components: LEC.
Grading: GRD.
Typically Offered: Fall.

POL 314. Legislative Processes. 3 Credit Hours.
Examination and analysis of the United States Congress. Emphasis on internal structure and operations, congressional roles and procedures, party leadership, external influences on congress, and incentives for congressional behavior.
Components: LEC.
Grading: GRD.
Typically Offered: Spring.

POL 315. American Presidency. 3 Credit Hours.
Historic development of presidential power; sources of the powers of the modern presidency, institutional decision-making; how and to what degree presidential power should be controlled.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
POL 316. Politics of Globalism. 3 Credit Hours.
Global politics, including the political and normative values that shape global politics: nationalism, internationalism, neoliberalism, empire, socialism. The format will include a focus on energy, as energy is arguably the basis of the global polity.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 318. Economics for Politics and Public Administration. 3 Credit Hours.
Principles of microeconomics to students for use when analyzing public policy for effective public administrator and planning. Considers basic concepts of microeconomic principles including market failure, public goods, supply and demand, pricing, and externalities. These concepts will be presented using practical examples involving the public sector, and students will practice application through problem solving.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 319. Politics of the Administrative Process. 3 Credit Hours.
The principles, structure, functions and processes of federal administrative agencies of the United States government. Particular emphasis will be placed on the legal, ethical, and political ramifications of agency actions in a political environment as well as interactions between the bureaucracy, other branches of the federal government, state and local governments, and interest groups. Special attention will also be given to bureaucratic power, democratic control, and accountability.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 320. Politics of Growth Management. 3 Credit Hours.
The purposes and techniques of managing growth in our urban areas. Conducted as a seminar with lectures by the instructor augmented by class discussion.
Prerequisite: POL 201.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 321. Introduction to Public Policy. 3 Credit Hours.
The purpose of this course is to instruct students in the problems and processes in the implementation of public policy at an introductory level.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 322. Environmental Politics and Policy. 3 Credit Hours.
Examines the federal government’s policies toward the National Forests and public grasslands; water supply policies and politics of the Everglade and Far West; global warming; U.S. air and water pollution policies and politics as well as those related to waste management; U.S. energy policies; and trade and the environment.

Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 323. Global Warming, Politics and the European Union. 6 Credit Hours.
The European Union (EU), and especially France to ecologically modernize their advanced economies. The course will treat the EU effort to fashion an international agreement on climate change. This class in conducted in Paris, France.

Components: LEC.
Grading: GRD.
Typically Offered: Summer.

POL 332. Mass Media and Politics. 3 Credit Hours.
Role of media in American politics. Historical development of the media from newspapers, through radio, to television and new media such as the internet. Changing norms of news media reportage. The growth of political advertising both during and between elections; the effects of these developments on American government and on the public.

Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.
POL 334. Campaigns. 3 Credit Hours.
Students learn about political campaigns by becoming involved in an active campaign and studying the academic literature about elections and campaigns. Topics are media, campaign organization, voters, issues, political parties, elections, and the five elements of every campaign.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 335. Democracy in Action: Local Government Simulation. 3 Credit Hours.
Examination of city and county governments and politics. Focuses on structures, leadership, taxing and spending, the influence of state and federal governments, and "hot-button" issues of importance to South Florida communities.
Components: LEC.
Grading: GRD.
Typically Offered: Fall, Spring, & Summer.

POL 337. International Law and Organizations. 3 Credit Hours.
This course focuses on the interaction of states through various legal regimes. We will consider the role of international law and organizations in politics, and the political implications of both criminal and civil international law from the perspective of the state, the individual, and non-governmental actors. Readings, lectures, class discussions, and examinations will familiarize the students with the parameters and limitations as well as the policy and practice of international law.
Prerequisite: POL 203 or INS 101.
Components: LEC.
Grading: GRD.
Typically Offered: Offered by Announcement Only.

POL 340. Civil Wars. 3 Credit Hours.
