TAX 949. Property Transactions. 1-2 Credit Hours.

The aim of this course is to provide students with a graduate level understanding of the rules and principles relating to the federal income tax consequences of property transactions involving borrowings, sales, gifts and inheritances. Topics covered include when income is realized in property exchanges in kind, what is a sale, what is a disposition, what are the different cost basis rules, how non-recourse and recourse indebtedness affect the realization and amount of gain or loss, character of gain or loss as capital or ordinary, selective statutory provisions that limit the use of losses realized or change the character of gain realized from capital to ordinary in transactions between related parties, and statutory limitations on methods of accounting. These issues will be explored through analysis of materials, problems and class discussions in which students are encouraged to actively participate without inhibition. The rules and principles covered in this course are the predicate for understanding partnership and corporate income taxation.
