

LIBRARIES

<http://library.miami.edu/>

The U (<http://welcome.miami.edu/academics/libraries/>)niversity of Miami Libraries (<http://welcome.miami.edu/academics/libraries/>) rank among the top fifty research libraries in North America, drawing scholars from around the world to use its important print collection of over 4 million volumes and 100,000 serial subscriptions. The libraries are located on the Coral Gables, Rosenstiel, and Medical campuses.

Access to Millions of Resources

Consult the library website (<http://library.miami.edu>) to get access to millions of articles, books, and other resources through our online catalog and databases.

Individual and Collaborative Study Space

Learn about the many libraries (<https://welcome.miami.edu/academics/libraries/>) and spaces (<https://www.library.miami.edu/spaces/>) that we offer, and the hours (<http://library.miami.edu/hours/>) we are open for you.

Learning Commons

Discover and explore the services (<https://www.library.miami.edu/learningcommons/>) available to support you. Consult with peers and experts on writing, research, math, modern languages, creativity, GIS, data, and more. Academic Service providers (<https://www.library.miami.edu/learningcommons/partners.html>) from across the University are collaborating in the Commons to help you make progress on your academic journey.

Research Help Across the Disciplines

Librarians (<http://sp.library.miami.edu/subjects/staff.php?letter=Librarians%20by%20Subject%20Specialty>) and Peer Research Consultants (<https://www.library.miami.edu/research/peer-research-consultants.html>) are available to support students in all courses and majors. Consider us part of your network.

Online Research Guides for Courses and Majors

Online research guides (<http://sp.library.miami.edu>) can help you find the resources you need for course assignments, research projects and more.

Data and Visualization Services

Explore training and computing resources (<https://www.library.miami.edu/data-services/>) related to data analysis, data management, and data visualization. Book a consultation (<https://www.library.miami.edu/data-services/consultations.html>) or attend a workshop (<https://www.library.miami.edu/data-services/workshops.html>) to learn more about specialized software, such as ArcGIS, SPSS, SAS, R/RStudio, Stata, NVivo, and more.

Primary Sources Online

Access Digital Collections (<https://digitalcollections.library.miami.edu>) available from the Cuban Heritage Collection, Special Collections, and University Archives.

Library Research Scholars and Adobe Scholars Program

Apply for a year-long fellowship (<https://www.library.miami.edu/research/library-research-scholars.html>) to develop your own individual research or creative project with mentorship by a librarian faculty member.

Jobs

We offer a variety of opportunities (<https://www.library.miami.edu/about/student-jobs.html>) for student employment.
