

M.S. IN MEDIA MANAGEMENT

Overview

Created in partnership with the Miami Herbert Business School, the Master of Science in Media Management is designed to prepare students for careers on the business side of the industry, such as content distribution and audience research. Students will acquire a solid background to understand and operate in the different segments of the rapidly changing media industry by being exposed to both business principles and key aspects of media management, technology, economics, programming, distribution, measurement, and law. The program allows students to cultivate their own topical interests in required media management courses and electives.

Admission Requirements

The following is a list of the required conditions as well as the required documents/fees for your application for admission to the Master of Science degree in Media Management in the School of Communication:

- A baccalaureate degree from an accredited institution
- The School's official application
- An \$85.00 non-refundable application fee
- Three letters of recommendation
- 500-word typed statement of academic and professional goals
- Official transcripts of all college work, both undergraduate and graduate
 - Note: In addition, international applicants must send an official copy of their diploma for all degrees earned, and all documentation that confers their degree, with English translation for all degrees earned.
 - Note: All transcripts must be the original document, forwarded directly from the university; Xerox copies, true copies, notarized copies and other types of copies are not acceptable.
- Official TOEFL or IELTS scores
 - Note: Only for international applicants.
- Copy of current passport
 - Note: Only for international applicants. The name entered on the graduate application must exactly match your name as it appears on your passport.

Contact the Office of Graduate Studies, call 305-284-5236 or email (socgrad@miami.edu), for information.

Mission

The M.S. program in Media Management will prepare students for careers on the business side of the media industry, such as operations, marketing, sales, and research. The program will cover both business principles and key aspects of media management, technology, economics, programming, distribution, research, and law as they pertain to the changing media environment. Students will gain strategic and analytical skills through media case studies and applications.

Goals

Our graduates should be able to:

- Master business fundamentals;
- Understand the dynamics of the media ecosystem from technological, economic, and regulatory perspectives;
- Learn the role of content in the media ecosystem and its relationship to audience measurement;
- Develop problem-solving skills to address media industry issues and challenges through case studies and applications; and
- Acquire expertise in one or more areas that are consistent with their personal interests.

Student Learning Outcomes

- Students will demonstrate knowledge of how technological change has influenced the economic transformation of the media ecosystem and the content delivery process across various platforms.
- Students will demonstrate the ability to analyze trends in media business models, content distribution, and audience measurement.
- Students will demonstrate the ability to address technological, economic, financial, and legal challenges facing media companies and present cogent and effective solutions.
