

CONSTRUCTION MANAGEMENT

The University of Miami's Murphy Construction Program offers cutting-edge, practice-oriented advanced graduate degrees and certificates that integrate emerging technological innovations and design approaches for smart city infrastructures. This program aims to transform the global construction industry's response to its challenges.

The program is designed to develop leaders and managers for complex building and infrastructure projects, emphasizing mastery in best practices related to resiliency, sustainability, building information modeling, project delivery, and decision-making.

The university is uniquely situated in a booming metropolis where commercial and residential construction play a significant role in the local economy.

Master's Programs in Construction Management:

- Executive M.S. in Construction Management (Hybrid) (<https://bulletin.miami.edu/graduate-academic-programs/engineering/construction-management/construction-management-executive-ms/>)
- M.S. in Construction Management (Hybrid) (<https://bulletin.miami.edu/graduate-academic-programs/engineering/construction-management/construction-management-ms/>)
- M.S. in Construction Management (Online) (<https://bulletin.miami.edu/graduate-academic-programs/engineering/construction-management/construction-management-ms-online/>)

Certificate Programs in Construction Management:

- Certificate in Construction Management (Hybrid) (<https://bulletin.miami.edu/graduate-academic-programs/engineering/construction-management/construction-management-certificate/>)
- Certificate in Construction Management (Online) (<https://bulletin.miami.edu/graduate-academic-programs/engineering/construction-management/construction-management-certificate-online/>)
- Certificate in Sustainable Construction (Hybrid) (<https://bulletin.miami.edu/graduate-academic-programs/engineering/construction-management/sustainable-construction-certificate/>)
- Certificate in Sustainable Construction (Online) (<https://bulletin.miami.edu/graduate-academic-programs/engineering/construction-management/sustainable-construction-certificate-online/>)
