

# MIAMI SEMESTER/YEAR PROGRAM

<http://www.miami.edu/miamisemester>

The Miami Semester/Year – Visiting Student Program provides the opportunity for degree-seeking students attending other colleges to spend one or two semesters living, studying and doing research at the University of Miami. Domestic and international students may enroll in this program, taking advantage of the University's diverse academic community, renowned faculty, and beautiful South-Florida landscape.

The Miami Semester/Year – Visiting Student Program is limited to degree-seeking undergraduates, in good standing, attending other universities and colleges. Participating students will be required to take a minimum of twelve credits.

Students enroll in two to three core courses from their chosen area of study. Remaining credits (one or two courses) are taken as elective courses selected from the various departments and schools based on individual program requirements, academic interests, and course availability.

If an academic area of study is not listed below, please contact the Miami Semester Program Office to inquire if your program of interest is available or can be developed to meet your academic requirements.

*Course offerings are subject to change depending on availability.*

## American Studies

Students select three courses from the American Studies (AMS) Program's course offerings, and additional classes from other departments based on availability and interests. The interdisciplinary approach allows students to reflect on the interrelated nature of subjects like, but not limited to, sociology, geography, history, and anthropology, and topics that are relevant to today's society such as cultural diversity, the global economy, regional and geographical norms, and popular culture. The goal of this program is to assist in students' understanding of the world around them by analyzing events, policies, societal norms and cultures, and historical events.

Code	Title	Credit Hours
<b>Core Courses <sup>1</sup></b>		
Select a minimum of one of the following:		3-6
AMS 101	Introduction to American Studies	
AMS 310	The United States in the World	
AMS 350	History and Culture of South Florida	
<b>Additional Course</b>		
AMS 401	Seminar in American Studies	
Elective		6
<b>Total Credit Hours</b>		<b>9-12</b>

<sup>1</sup> Core courses are selected in conjunction with an advisor.

## Architecture: New Urbanism

The Architecture program allows for students currently majoring in architecture at other colleges and universities to gain perspective of the field in South Florida. Students enroll in six credits of architectural design and six to nine credits of related electives or courses in Urban Studies, with a minimum of 12 credit hours required.

Code	Title	Credit Hours
<b>Core Courses <sup>1</sup></b>		
Students must submit a design portfolio prior to enrolling in courses		
Select one of the following:		6
ARC 407	Architecture Design VII	
ARC 408	Architecture Design VIII	
ARC 509	Architecture Design IX	
ARC 510	Architecture Design X	
<b>Choose one or two of the following</b>		<b>3-6</b>
ARC 323	On Site Study of Selected Architecture and Urbanism	
ARC 452	Management of Professional Practice	
ARC 512	Advanced Visual Analysis	
PHY 103	General Physics	

URB 301	Cities in Time and Space	
Other Architecture elective course offerings (Interior Design, Landscape, and Historic Preservation)		3
<b>Total Credit Hours</b>		<b>12-15</b>

<sup>1</sup> Core courses are selected in conjunction with an advisor.

## Audio Engineering

Audio Engineering allows for students currently majoring in electrical engineering to study areas such as circuit theory, electronics, signal processing and multimedia with audio studies in acoustics, digital audio, recording and post production. Students enroll in three electrical engineering courses, and choose from elective courses from other departments based on availability and interests. A minimum of 12 credit hours required. For information on academic programs in other areas of engineering, contact the Miami Semester Program office.

Code	Title	Credit Hours
<b>Core Courses <sup>1</sup></b>		
Choose two of the following:		4-6
ECE 436	Digital Signal Processing	
ECE 437	Real-Time Digital Signal Processing Laboratory	
ECE 502	Engineering Acoustics	
ECE 540	Digital Speech and Audio Processing	
<b>Additional Courses</b>		
ECE 595	Special Topics in Computer Engineering	
ECE 596	Special Topics in Computer Engineering	
<b>Courses Available through the Frost School of Music</b>		
MMI 141	Experiential Musicianship II	
MMI 501	Transducer Theory	
<b>Total Credit Hours</b>		<b>4-6</b>

<sup>1</sup> Core courses are selected in conjunction with an advisor.

## Ecosystem Science and Policy

Ecosystem Science and Policy provides an opportunity for students from other universities to explore the South Florida environment, ecology and culture via interdisciplinary courses and experiential learning.

Students enroll in a minimum of two core courses in Ecosystem Science and Policy. Students will complete their schedules with courses chosen from among the interdisciplinary ECS courses and from other departments based on availability and interests, to meet the minimum of 12 credit hours.

Code	Title	Credit Hours
<b>Core Courses <sup>1</sup></b>		
ECS 112	Field Problems in Ecosystem Science and Policy	
ECS 202	Seminar Series in Contemporary Environmental Issues II	
ECS 302	Perspectives on Environmental Decision Making	
ECS 403	Interdisciplinary Approaches	
Elective		3
<b>Total Credit Hours</b>		<b>3</b>

<sup>1</sup> Core courses are selected in conjunction with an advisor.

## International Finance and Marketing

The International Finance and Marketing program is designed for business students from other universities who want to add an international dimension to their studies. This program allows students to select from a limited set of courses offered by the Miami Herbert Business School. The program focuses on the international aspects of business, and is open to students with at least a junior standing who have met the course prerequisites. Students take a minimum of two courses from the Miami Herbert Business School combined with elective courses from other departments to meet the minimum of twelve credits required.

Code	Title	Credit Hours
<b>Core Courses</b> <sup>1</sup>		
FIN 330	International Finance	
MKT 360	International Marketing	
ECO 442	International Monetary Economics	
BSL 412	International Business Law	
<b>Total Credit Hours</b>		<b>0</b>

<sup>1</sup> Core courses are selected in conjunction with an advisor.

## Marine Science

Marine Science is a hands-on study opportunity for those interested in marine science, oceanography, geology and marine physics. Students enroll in a minimum of three marine science courses combined with electives to meet the minimum of twelve credits required. In addition, highly qualified students may be eligible for an independent study research project.
