Artificial Intelligence and Machine Learning Program

The University of Miami Division of Continuing and International Education offers the Artificial Intelligence (AI) and Machine Learning (ML) Certificate program. This 24-week program is for individuals with an active interest in applying for jobs to work in Artificial Intelligence-related fields. During the program, students will explore the topics, technology, and skills required to gain practice in the successful application of AI/ML techniques to address key industry problems. For more detailed course descriptions, current schedule and prices, please visit our website (https://continue.miami.edu/en/packagedetail.aspx?p=225).

Building Expertise in Administration & Management (BEAM)

In collaboration with the University of Miami Division of Continuing & International Education, The Building Expertise in Administration & Management (BEAM) certificate program is offered by the University of Miami, Leonard M. Miller School of Medicine's Department of Public Health Sciences and the Miami Herbert Business School in partnership with the de Beaumont Foundation. BEAM is an interactive, self-paced, non-credit-bearing, online certificate program designed to equip working professionals with the practical, applicable business knowledge and tools that drive innovation and success. BEAM is the only business program of its kind for public health professionals seeking the financial and managerial skills to build their careers and advance their workplace and the public health profession nationwide. Through the program, public health professionals will gain a solid foundation in strategic problem definition, budgeting, procurement, contracts, contract monitoring, and financial health.

For more detailed course descriptions, current schedule and prices, please visit our website (http://continue.miami.edu/en/packagedetail.aspx?p=202).

Business and Leadership Programs

The Business Program offerings provide a range of certificates focused on enhancing skills and improving organizational performance. The development of core skills in cutting-edge disciplines, with application-based learning, will prepare Program participants for for-profit and non-profit sectors across a broad spectrum of disciplines, including Leadership and Management, Business and Communication Skills, and Consulting.

Leadership Development and Management offerings include Executive Leadership, Organizational Leadership, Organizational Consulting, and Grant Writing. These Programs emphasize the development and enhancement of vital leadership skills for those tasked with leading organizations or who have the desire to enter into one in the near future.

For a full list of business certificate programs offered, please visit our website (https://continue.miami.edu/en/subcategory.aspx?sc=88).

**Executive Certified Financial Planner**
Designed for students preparing for professional examinations and professional practice in financial planning.

Our program consists of providing the highest quality CFP education through Dalton Education, a leading provider of innovative education solutions
in financial planning. The founders of Dalton Education have helped thousands of financial professionals earn the CFP® certification marks with
their leading CFP review course, THE DALTON REVIEW®. Students can choose from an independent, self-paced, online education program or a live,
instructor-led, internet-delivered program.

For more detailed course descriptions, current schedule and prices, please visit our website (https://continue.miami.edu/en/packagedetail.aspx? p=2).

**Human Resource Management**
This 144-hour program provides the latest in proven techniques and strategies to effectively manage organizational challenges. The curriculum covers
the following topics: Strategic Management, Legal and Regulatory Issues, Employment, Planning and Placement, Benefits and Compensation, Training
and Development, and Employee and Labor Relations. The HR Program is recognized by the Greater Miami Society for Human Resource Management.
The comprehensive curriculum works for the newcomer as well as the seasoned professional and is especially useful to small and medium-sized
business owners.

Interior Design
If you have always had an eye for design and have a knack for taking an ordinary space and making it feel extraordinary, then the University of Miami Interior Design program is for you. This program offers non-credit courses to those who want to enrich their cultural experiences or who are interested in improving their professional or occupational skills. Taught by industry professionals, our Interior Design program focuses on the important fundamentals to enter the design field. In this hands-on program, students will learn the history of interiors, principles, and elements of design, color theory, freehand and computer drafting, specification and materials, professional practice, and building a portfolio.

For more detailed course descriptions, current schedule and prices, please visit our website (https://continue.miami.edu/en/packagedetail.aspx?p=115).

Medical Billing and Coding
The Medical Billing & Coding Program begins with a standard block of courses necessary to obtain the foundation knowledge needed for certification in billing and coding. Essential sciences are covered in the medical terminology, anatomy & physiology, diagnostic coding, and disease pathology modules. Once these core medical topics are covered, the Program provides the learner with the knowledge and skills needed to perform diagnostic coding, using the ICD-9 and ICD-10 coding systems, and procedural coding. Students will participate in a module specifically focusing on CPC® examination preparation.
