

SUMMER SESSIONS AND INTERSESSIONS

<http://www.miami.edu/summersessions>

Summer Sessions

The Summer Sessions program at the University of Miami is an exceptional opportunity for students to enhance their educational goals in a concentrated time period and for the South Florida community to take part in some of the innovative and unusual courses taught by outstanding faculty and well-known guest lecturers.

InterSession - Special Academic Programs

Winter, Spring, and Summer InterSessions (<https://www.dcie.miami.edu/credit-degree-programs/intersessions/>) are short-term credit hour courses designed so you can concentrate fully on topics not normally offered during regular semesters; getting individual quality time with distinguished faculty members; sharing knowledge with other students.

Tuition charges for InterSessions are separate from and in addition to your tuition charges (ARE NOT included in the full-time 12-20 credit hours "Flat Rate" Semester).

Due to the intense format of the InterSession courses, there are special drop and refund policies.

Grades:

Official grades for InterSession will be provided with the end-of-semester grades.
