

# MINOR IN INTERACTIVE MEDIA

## Overview

The Department of Interactive Media offers a minor in Interactive Media (CIM).

Complement your major and learn the skills you need to succeed in a rapidly changing technology landscape.

The Interactive Media minor is a hands-on program that teaches you the skills you need to design, develop, and deploy interactive technologies. You'll learn about emerging technologies such as virtual reality, augmented reality, and artificial intelligence, and gain access to state-of-the-art facilities and equipment.

Whether you're interested in a career in design, media, science, business, or the arts, the Interactive Media minor will give you the skills you need to succeed.

As a minor in the CIM department, many opportunities await you, including access to the following facilities and equipment: the Emerging Media Lab used for fabrication, board games, physical computing, and digital screen-based games; the XR Studio is used for virtual reality, volumetric captures studio and augmented reality experimentation, the User Experience (UX) Lab supports interdisciplinary research on understanding how people use information systems. The New Experience Research & Design Lab (NERDLab) is a student-faculty cooperative driven by research, development, and an enthusiasm for social impact.

More Information on our facilities and labs can be viewed at <https://interactive.miami.edu/spaces/>

The Ribeiro Innovation Fund is an endowed fund support lectures and workshops that instill creative confidence in students. It enriches the academic curriculum promoting innovation in the field of interactive media by inviting industry leaders and innovators; thus tightening the link between the Interactive Media program and industry.
